|---|--------------|

**General Education:** Students majoring in FCS generally may not count FCS courses for GE. However, FCS majors may count FCS 340 in Lifelong Learning. Majors in Nutrition, Dietetics and Food Science and FCS Education Options may count BIO 101/L in Natural Sciences. Any courses outside the FCS Department that are listed in GE and also required or selected in the student's FCS option may be counted toward meeting GE requirements. For example, CHEM 103/L is required in several FCS Options and also will count in GE Natural Sciences.

### Minor in Apparel Merchandising

The Minor in Apparel Merchandising is designed for those students wanting some expertise in apparel merchandising as an adjunct to their major fields in marketing, journalism, consumer affairs, communications, advertising, etc.

#### 1. Required Courses

|     |       |  |
|-----|-------|--|
| FCS | 160   | Introductory Textiles (3)                                |
| FCS | 255   | The Fashion Industry (3)                                 |
| FCS | 271/L | Apparel Analysis and Selection and Lab (2/1)             |
| FCS | 353   | Apparel and Human Behavior (3)                           |
| FCS | 356/L | Analysis and Evaluation of Apparel Quality and Lab (2/1) |
| FCS | 455/L | Fashion Merchandising and Lab (2/1)                      |
| MKT | 304   | Introduction to Marketing Management (3)                 |
| MKT | 443   | Retail Management (3)                                    |

**Total Units in the Minor****43****Requirements for the Master of Science Degree**

The Graduate Program in Family and Consumer Sciences leads to a Master of Science Degree. The Program is designed to be somewhat flexible so that individual needs may be considered in Program planning. Students may earn a Graduate Degree with emphasis in any of the Areas of Family and Consumer Sciences identified as part of the undergraduate program. Particular emphasis is given to the Areas of Apparel and Textiles, Consumer Affairs, Family Studies, Interior Design, and Nutrition and Food Science.

**A. Requirements for Admission to the Program:**

For admission as Classified graduate student, the following requirements must be satisfied:

1. An undergraduate GPA of 2.5 plus adequate performance on the Graduate Record Examination (GRE) or an overall GPA of 3.0. Students with an undergraduate grade of point average of 2.5 to 2.99 will be admitted to the Department as Conditionally Classified graduate students but must have an adequate GRE score to become Classified. Students applying to the Nutrition, Dietetics and Food Science area with a GPA between 2.5-2.99 must have an adequate GRE score before being admitting into the Program.
2. A Bachelor's Degree from an accredited institution with selected approved Upper Division courses in Family and Consumer Sciences or the equivalent. Those students without adequate background courses will be asked to complete any prerequisites considered essential.
3. The satisfaction of any other University requirements for Classified status, such as the Upper Division Writing Proficiency Exam.
4. Formal approval by the Department based on the total record of the student.

**1. Required Courses (6 units)**

|     |     |                           |
|-----|-----|---------------------------|
| FCS | 681 | Research Methods (3)      |
| FCS | 682 | Research Applications (3) |

**2. Electives (24 units)**

This is the minimum amount of approved graduate course work, to be selected with an advisor. Some Areas of study require specific course work. A maximum of 9 units may be at the 400-level.

**3. Capstone: Select one of the following:****A. Thesis or Project**

1. The proposal must be approved by the student's Committee and the Graduate Coordinator.
2. The student will register for FCS 698 for 1-3 units. These units may be included in the elective total.
3. The student must successfully defend the thesis or project at an oral exam.

**B. Comprehensive Examination**

1. The student will register for FCS 697—Directed Comprehensive Studies (3 units). These units may not be counted in the elective total.
2. The student must earn a minimum grade of "B" on the examination.
3. Passing course work for the Master's Degree does not guarantee passing of the Comprehensive Examination.

**Unit Minimum for the M.S. Degree****30-33****Accredited Dietetics Internship (15 units)**

The Dietetics Internship (DI) is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the American Academy of Nutrition and Dietetics (A.N.D.). The DI Program is a graduate program that requires a separate admission procedure after or concurrent with admission to graduate study in the Department of Family and Consumer Sciences (FCS). Students selected for the DI Program must have completed a ACEND-accredited Didactic Program in Dietetics (DPD). The FCS DI program has two concentrations: Community Nutrition and Nutrition Therapy. The DI consists of a minimum of 12-16 hours of supervised practicum (through enrollment in FCS 570, 571 and 572 on Credit/No Credit basis) and 5 graduate courses (15 units). The graduate courses are:

|     |     |  |
|-----|-----|--|
| FCS | 573 | Seminar for Dietetic Interns (3)               |
| FCS | 606 | Vitamin and Mineral Metabolism (3)             |
| FCS | 607 | Carbohydrate, Lipid and Protein Metabolism (3) |
| FCS | 681 | Research Methods (3)                           |
| FCS | 682 | Research Applications (3)                      |

**Course List****FCS 113. Drafting for Interior Design (3)**

*Prerequisites:* ART 124A and 141. Introduction to concepts and conventions of drafting for interior design. Emphasis on developing skills in architectural hand drafting of plans, elevations and sections using conventional symbols of the building design professions; recognizing the importance of working drawings and improving drafting and hand-lettering proficiency through practice, discussion, direct observation and critiques. Media includes mechanical pencil and technical pen on vellum, and drafting equipment is necessary for the completion of each assignment. Emphasis is on a set of working drawings. 6 hours per week. Credit not allowed for both FCS 113 and ART 113.

**FCS 114/L. Introduction to Interior Design and Lab (1/1)**

*Corequisite:* FCS 114L. Introductory survey of interior design. 1 hour lecture, one 3-hour lab

**FCS 150/L. Apparel Construction I and Lab (2/1)**

*Corequisite:* FCS 150L. Fundamental principles and terminology of clothing construction, with emphasis on the interrelationship of fiber, fabric, construction techniques, fit and care. 20 hours lecture, one 3-hour lab.

**FCS 160. Introductory Textiles (3)**

Lecture-discussion course presenting an introductory analysis of textile fibers, yarns, fabrics, dyestuffs and finishes as they relate to the selection of end-use products. Emphasis given to textiles in apparel and interiors.

**FCS 170. Creative Expression in Family and Consumer Sciences (2)**

Develops awareness of the relationships between creative expression and the quality of life in the family unit.

**FCS 201/L. Introductory Food Science and Lab (2/1)**

*Corequisite:* FCS 201L. Introduction to the chemical, physical and nutritional properties of foods and changes that occur during processing and storage. Methods currently used in food preparation are emphasized. 2 hours lecture, one 3-hour lab.

**FCS 207. Nutrition for Life (3)**

Basics of sensible and safe food choices related to the science of nutrition. Achievement and maintenance of nutritional well-being throughout life as influenced by social, cultural, economic and environmental conditions. Credit not allowed for both FCS 207 and HSCI 337. (Available for General Education, Lifelong Learning.) (IC)

**FCS 211. Interior Design I (3)**

*Prerequisites:* FCS 114, 170; FCS 113 or ART 113. Introduction to space planning. 6 hours of studio.

**FCS 213/L. Computer Applications for Interior Design and Lab (1/2)**

*Prerequisites:* FCS 113 or ART 113. *Corequisite:* 213L. Emphasis on the use of the AutoCAD program to prepare drawings in interior design. Through computer applications, students develop communication skills in 2-Dimensional and 3-Dimensional interior design drawings using drafting and lettering techniques with computer-aided tools. 1 hour lecture, two 3-hour labs.

**FCS 214/L. Interior Design Materials, Standards and Specifications and Lab (2/1)**

*Prerequisites:* FCS 114/L and ART 113, or FCS 113, 160 and 170. *Corequisite:* FCS 214L. Study of materials, standards and specifications used in the design and construction of interior environments. 2 hours lecture, 3 hours lab per week.

**FCS 232. Individual and Family Development (3)**

Relationships and adjustments during the normal stages of family living.

**FCS 234. The Child in the Family and Community (3)**

Dynamics of children's relationships with their families and others throughout their development and with various contexts. Lecture-discussion.

**FCS 250/L. Apparel Construction II and Lab (2/1)**

*Prerequisite:* FCS 150/L. *Corequisite:* FCS 250L. Theory and application of pattern alteration, fitting, advanced construction techniques; analysis of fabrics used in fashion apparel. 2 hours lecture, one 3-hour lab.

**FCS 255. The Fashion Industry (3)**

Overview of the structure and functioning of the fashion industry as it relates to apparel. Field trips required.

**FCS 271/L. Apparel Analysis and Selection and Lab (2/1)**

*Prerequisite:* FCS 170. *Corequisite:* FCS 271L. Study of individual differences in relation to apparel selection and design. 2 hours lecture, one 2-hour studio.

## Upper Division

**FCS 300. Family and Community Services (3)**

In-depth study of various types of family service agencies (local/state/federal, non-profit/for-profit) and the services they provide to families in the community.

**FCS 301. Food Science and Technology (3)**

*Prerequisites:* BIOL 215/L; CHEM 235/L; FCS 201, 201L. Study of the physical and chemical changes occurring in food during commercial operations and the principles and technical process involved in the production, processing, preservation, storage and distribution of foods. Control and utilization of microorganisms in food, food laws and regulations, and the influence of processing on nutritional quality of foods are discussed.

**FCS 302. Food Product Development and Quality Assurance (2)**

*Prerequisite:* FCS 301. Principles and practice of quality assurance and product development programs in food industry. Lab and field study of commercial food processing and preservation operations. 6 hours lab per week.

**FCS 303. Cultural Aspects of Food and Nutrition (3)**

Study of psychological, sociological and historical aspects of cultural food patterns. Consideration of the nutritional significance of these patterns and problems involved in changing food habits.

**FCS 304. Food Service Production (2)**

*Prerequisite:* FCS 301. Overview of the principles and methods of commercial/institutional food production, including use of food service equipment. Includes application of principles of safety and sanitation.

**FCS 307. Advanced Nutrition: Macronutrients (3)**

*Prerequisites:* Grade of C or better in BIOL 281/L, CHEM 235/L and FCS 207. Role of carbohydrates, fats, proteins, minerals and vitamins in human nutrition. Nutritional requirements during the various stages of life cycle.

**FCS 308 Advanced Nutrition Micronutrients (3)**

*Prerequisites:* CHEM 365L; FCS 307. The role of micronutrients, vitamins and minerals in human nutrition, including digestion, absorption, metabolism, and major biological, physiological and metabolic roles. Emphasis is placed on interactions and interrelationships of the nutrients at the organism and cellular levels.

**FCS 309. Maternal, Infant and Child Nutrition (3)**

Nutritional needs from preconception to adolescence. Emphasis on developmental and physiological factors that influence food intake and eating behavior.

**FCS 310. History of Interiors and Architecture I (3)**

*Prerequisite:* FCS 211. Study of architecture and interiors from antiquity to the Victorian period.

**FCS 311. Interior Design II (3)**

*Prerequisites:* ART 230; FCS 211, 213/L, 214/L. Application of theories to residential, hospitality and other institutional design. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the Schedule of Classes for the CS Designation. 6 hours of studio per week.

**FCS 312/L. Lighting and Mechanical Systems and Lab (2/1)**

*Prerequisites:* ART 230; FCS 211, 213/L, 214/L. *Corequisite:* FCS 312L. Principles of lighting and electrical systems, thermal control systems and ancillary services applied to residential and commercial design. Lab involves design of lighting systems and an understanding of mechanical systems for residential and commercial applications. 2 hours lecture, one 3-hour studio.

**FCS 314/L. Building Codes, Systems and Detailing for Interior Design and Lab (2/1)**

*Prerequisites:* FCS 211, 213/L, 214/L. *Corequisite:* FCS 314L. Students are introduced to basic elements of construction and building systems, including power distribution systems, mechanical systems, energy management, ceiling systems, flooring systems and the impact of local building codes on the interior design process. Emphasis is placed on the interaction between interior design ideas and the construction methods. 2 hours lecture, one 3-hour lab per week.

**FCS 315. Issues in Housing (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Examines current issues and problems in housing and their impact on individuals and families. Concepts from Family and Consumer Sciences, law, economics, design, government, and the natural and social sciences are applied to the housing situation in an effort to explore problems and develop strategies for coping in difficult times. (Available for General Education, Lifelong Learning.)

**FCS 316. Presentation Techniques for Interior Design (3)**

*Prerequisites:* ART 230; FCS 211, 213/L, 214/L. Emphasis on graphic visual presentation techniques in interior design. Students will learn base methods and various techniques for presentation in manual and digital formats that are specific to the interior design field. 6 hours per week.

**FCS 320. Family Resource Management (3)**

Management theory applied to the family. Emphasis on clarifying values, setting goals, decision making and allocating resources as they relate to individual and family choice across the lifespan. Such skills as communication, time management, team building and stress management are developed.

**FCS 321/L. Contemporary Issues in Foods and Nutrition, and Lab (2/1)**

*Prerequisite:* FCS 207 or HSCI 337. *Corequisite:* FCS 321L. Examination of contemporary nutrition and food education issues. Analysis, discussion and evaluation of physiological, economic, environmental and cultural factors as they apply to food management plans and healthy nutrition choices for individuals, groups and families. Computers are used to evaluate the nutritional value and economics of various meal plans. 2 hours lecture, one 3-hour lab per week.

**FCS 322/L. Equipment I and Lab (2/1)**

*Corequisite:* FCS 322L. Principles of electricity and gas; materials, physical structures, safety and economic factors of household appliances; use and care of appliances; and kitchen planning. Two hours lecture; 1 three-hour lab per week.

**FCS 323. Family and Individual Money Management (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Management decisions related to the allocation of family income during various stages in the family cycle. (Available for General Education, Lifelong Learning.) (IC)

**FCS 324. Consumer Rights, Issues and Problems (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Designed to enhance consumer interaction in the marketplace. Emphasis on consumer rights, protection and decision making. Basic consumer and financial strategies are explored. Roles of public and private consumer protection agencies are evaluated. (Available for General Education, Lifelong Learning.) (IC)

**FCS 330. Child Growth and Development I (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Principles of child growth and development. Observation of group activities involving children. Additional hours as assigned or arranged. (Available for General Education, Lifelong Learning.) (IC)

**FCS 335. Prenatal and Infant Development (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of development in the physical, motor, intellectual, social and emotional areas, and constitutional and environmental factors that influence the direction and scope of development.

**FCS 340. Marriage and Family Relations (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Interpersonal and intrapersonal relationships of courtship, marriage and family living, and the importance of these relationships in solving current issues concerning the quality of family life. (Available for General Education, Lifelong Learning.) (IC)

**FCS 352. History of Textiles and Apparel (3)**

*Prerequisite:* Upper Division standing. Study of the historical development of modern dress.

**FCS 353. Apparel and Human Behavior (3)**

*Prerequisite:* Upper Division standing. Intercultural study of dress in relation to personal characteristics and societal patterns.

**FCS 354. Apparel for Special Groups (3)**

*Prerequisite:* Upper Division standing. Study of clothing needs and desires of children, the physically limited of all ages, the aged and other special groups.

**FCS 356/L. Analysis and Evaluation of Apparel Quality and Lab (2/1)**

*Prerequisites:* FCS 150/L, 160. *Corequisite:* FCS 356L. Analysis of the quality of design, materials and construction techniques used in commercially produced apparel and accessories. Comparison of manufacturing processes, concepts of sizing, and principles of fit and pricing in relation to the target consumer in various markets. 2 hours lecture, one 2-hour activity per week.

**FCS 360/L. Textiles and Lab (2/1)**

*Prerequisites:* FCS 160 and CHEM 100/L, or CHEM 103 or 105/L or 110/L. *Corequisite:* FCS 360L. Sources and properties of textile fibers, fabric characteristics as related to selection, use and care. 2 lectures, one 3-hour lab per week.

**FCS 371/L. Apparel Design: Flat Pattern and Lab (2/1)**

*Prerequisite:* FCS 150. *Corequisite:* FCS 371L. Principles of flat pattern design and their application in patternmaking. 2 hours lecture, one 3-hour lab per week.

**FCS 380. Family and Consumer Sciences Foundations and Research (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Historical and philosophical background, current issues and analysis of research in the field of Family and Consumer Sciences.

**FCS 381. Computer Applications in Family and Consumer Sciences (3)**

Specific applications of computers within the professional specializations of Family and Consumer Sciences.

**FCS 394A-C. Undergraduate Internship (1-3)**

Directed field experience in selected area of Family and Consumer Sciences related to business, industry and public service agencies. Written reports required. Academic Internship course.

**FCS 396A-Z. Experimental Topics Courses in Family and Consumer Sciences (3)**

Experimental courses in Family and Consumer Sciences with course content to be determined.

**FCS 401/L. Food Chemistry and Analysis and Lab (2/1)**

*Prerequisite:* FCS 301. *Corequisite:* FCS 401L. Structure and properties of basic food constituents and their chemical and biochemical changes that influence the texture, color, flavor, odor, stability and nutritional quality of foods. Evaluation and interpretation of recent findings in food research. 2 hours lecture, one 3-hour lab per week.

**FCS 402. Medical Nutrition Therapy I (3)**

*Prerequisites:* CHEM 365L; FCS 308. This is the first in a 2-course sequence in medical nutrition therapy that includes assessment of nutritional status, nutrition care process, pathophysiology, and medical and nutritional management through the lifespan for endocrine, cardiovascular, and gastrointestinal diseases, eating disorders and obesity treatment. Alternative feeding modalities (parenteral and enteral nutrition) and medical terminology will be addressed.

**FCS 403. Medical Nutrition Therapy II (3)**

*Prerequisite:* FCS 402. This course is a continuation of FCS 402—Medical Nutrition Therapy I, and includes pathophysiology, medical and nutritional management through the lifespan for neurological, renal, hepatic, pulmonary, neoplastic and rheumatic diseases, in addition to sepsis and trauma, HIV, cancer, and food allergies and intolerance.

**FCS 404/L. Food Service System Management and Lab (2/1)**

*Prerequisites:* 304, 321/L. *Corequisite:* 404L. Systems approach to managing a food service facility, including organization management, marketing, procurement, distribution, and financial and human resource management.

**FCS 408. Community Nutrition (3)**

*Prerequisites:* FCS 307; SED 525HE. Community nutrition studies the nutrition programs that relate the science of nutrition to the improvement, maintenance and promotion of the health status of individuals and groups, including those from different ethnic and socioeconomic backgrounds. Community organization, program planning, funding and evaluation of nutrition methods and current issues are studied. Some sections may offer a community service opportunity with activities relating to concepts and theories presented. Check SOLAR for the CS Designation.

**FCS 409. Geriatric Nutrition (3)**

Special problems of the aging population with regard to nutrient requirements, food use and selection, as well as government intervention programs related to nutrition. Non-majors taking this course must demonstrate that they have had sufficient experience in gerontology to benefit from the content.

**FCS 410. History of Interiors and Architecture II (3)**

*Prerequisites:* ART 112 or 315; FCS 311. The study of architecture and interiors from post-Victorian to the present.

**FCS 411. Interior Design III (3)**

*Prerequisites:* FCS 310, 311, 312/L, 314/L, 316. Application of theories to commercial design. Some sections of this course are taught with a community service learning opportunity (CS) with activities related to concepts and theories presented. Check the Schedule for Classes for the CS Designation. 6 hours of studio per week.

**FCS 412. Organization of Interior Design Practice (3)**

*Prerequisites:* FCS 310; 311, 312/L, 314/L, 316. Focus on current concepts and activities of professional practice, including professional roles, managerial practices, service delivery systems and ethics. Review and synthesis of research and professional literature pertinent to the practice of interior design. Some portions of this course are taught on-line (OL). Check the Schedule of Classes for the OL Designation.

**FCS 414. Senior Comprehensive Interior Design Studio (3-3)**

*Prerequisites:* FCS 310, 311, 312/L, 314/L, 316, 411. Advanced study in interior design, with emphasis on application of theoretical concepts to specialized interior settings. Students are required to conceptualize and generate the interior design for a particular setting, including the graphic presentation of the design solution. 8 hours of studio per week.

**FCS 420. Critical Issues in Family Resource Management (3)**

*Prerequisite:* Senior or graduate standing. Application of management theory and concepts to managing families, with emphasis on case study analyses, personal examination and problem solving. Issues include conflict resolution, balancing work and family, and working with at-risk families.

**FCS 423. Analysis of Family Economic Issues (3)**

*Prerequisite:* FCS 323. A study of family financial management as affected by the economic, political and social environments. Analysis of public policy as it relates to retirement, health care, housing and poverty.

**FCS 424. Resource Management for the Elderly (3)**

Concentrates on allocation of resources during the late phases of the family life cycle. Attention is given to retirement planning and alternative lifestyles for the aging and elderly. Government, community and private resources are analyzed relative to benefits useful to this age group. Non-majors taking this course for the Certificate Program for Service to the Aging must demonstrate that they have had sufficient experience in gerontology to benefit from the course.

**FCS 426. Issues of Contemporary and Future Families (3)**

*Prerequisite:* FCS 232 or 330 or 340, or senior or graduate standing. Focuses on current trends in home and family life and the impact that these issues have on future generations.

**FCS 427. Consumer Advocacy and Education (3)**

*Prerequisite:* FCS 324. Concepts of consumer advocacy and protection with emphasis on educating consumer and analysis of strategies for resolving consumer conflicts.

**FCS 428. Corporate Consumer Affairs (3)**

*Prerequisites:* BLAW 280; ENGL 205; FCS 324. A capstone course in Customer Relations Management (CRM). The course specializes in customer care and customer relations management. Emphasis is placed on CRM technology, communication systems and regulations. Product recalls and safety issues are covered in-depth. Available for graduate credit.

**FCS 431. Child and Family Assessment (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* FCS 330 or 335, or PSY 313. Application of human developmental theories to the assessment of children and families. Students also participate in a lab experience at the Child and Family Studies Laboratory.

**FCS 431L. Child and Family Assessment Lab (1)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* FCS 330 or 335, or PSY 313. Application of child and family assessments in the Child and Family Studies Laboratory. 3 hours per week.

**FCS 432. Family Theories (3)**

*Prerequisite:* Senior or graduate standing. *Preparatory:* FCS 340. Review of theoretical and philosophical perspectives used in the study of families, including assumptions, values, propositions and applications.

**FCS 433. Administration of Children's Programs (3)**

*Prerequisite:* FCS 330 or 335, or PSY 313. Administrative philosophy and functions of children's programs. Staff organization, program management and facilities planning appropriate to the developmental needs of the child and family.

**FCS 436. Parental Development (3)**

*Prerequisites:* Senior or graduate standing. *Preparatory:* FCS 330 or 335, or PSY 313. Study of the parent's role as a facilitator, emphasizing different parenting styles and their effects, as well as appropriate parent and child interactions.

**FCS 438. Adolescents in the Family Context (3)**

*Prerequisite:* Senior or graduate standing. *Preparatory:* FCS 330 or 335, or PSY 313. Developmental changes and challenges of adolescents and their families as they deal with current societal issues (e.g., autonomy sexuality, parent-adolescent communication, values), in particular pregnancy and adolescents as parents.

**FCS 441. Human Sexuality (3)**

Provides biological, sociological and psychological aspects of human sexuality. Principles of sexual therapy.

**FCS 455/L. Fashion Merchandising and Lab (2/1)**

*Prerequisites:* FCS 255; MKT 443; Senior or graduate status. *Corequisite:* FCS 455L. In-depth study and application of the concepts and activities involved in the merchandising of fashion goods from producer to consumer. 2 hour lecture, one 3-hour lab per week.

**FCS 460/L. Textile Product Analysis and Lab (2/1)**

*Prerequisites:* FCS 255; Senior or graduate status. *Corequisite:* FCS 460L. Analysis of principles and procedures used in the production and evaluation of textile products. Impact of U.S. and international trade policies and regulations. 2 hours lecture, one 3-hour lab per week.

**FCS 471/L. Apparel Design: Draping and Lab (2/1)**

*Prerequisites:* FCS 150/L and 250/L. *Corequisite:* FCS 471L. Fundamental principles and techniques of designing clothing by the draping method. Theory of design as applied to draping. Emphasis placed on the interrelation of fabrics, design and form. 2 hours lecture, one 3-hour lab per week.

**FCS 472/L. Apparel Design: Computer Aided Design and Lab (2/1)**

*Prerequisite:* FCS 371/L. *Corequisite:* FCS 472L. Exploration of computer-aided apparel design software applications using the theoretical concepts of apparel design. 2 hours lecture, one 3-hour lab per week.

**FCS 475/L. Fashion Development and Lab (2/1)**

*Prerequisites:* FCS 170, 255, 271/L; Senior or graduate standing. *Corequisite:* FCS 475L. Fashion products from conception through wholesale distribution. Existing and potential markets, sources of inspiration, procurement of materials, manufacturing technology, costing, production scheduling, pricing, merchandising, promotion and distribution at the wholesale level. 2 hours lecture, one 3-hour lab per week.

**FCS 476. Studio Problems in Apparel Design (3-3)**

*Prerequisites:* FCS 371/L, 471/L; Senior or graduate status. Advanced study in apparel design and production, with emphasis on application of theoretical concepts to specialized apparel. Students are required to design, produce and present a design portfolio and a line of apparel. 8 hours of studio per week. May be repeated once for credit.

**FCS 480. The Helping Professional (3)**

Designed to facilitate the self-exploration, skills building and knowledge of future helping professionals. Students are challenged to enhance their knowledge of the helping professions while understanding the various career paths that are available.

**FCS 485. Family Resiliency (3)**

*Prerequisite:* PSY 150 or FCS 232 or 234 or 330 or 340 or senior or graduate status. Application of family resiliency theory to societal issues with an emphasis on family protective factors and family adaptation.

**FCS 491A-C. Family and Consumer Sciences Projects (1-3)**

*Prerequisites:* Instructor consent. Individual supervised projects involving utilization of the facilities and personnel of the Child and Family Studies Laboratory.

**FCS 494. Supervised Field Study (1-3)**

*Prerequisite:* Instructor consent. Directed field experience in selected areas of Family and Consumer Sciences related to business, industry and public service agencies. Written reports required. Academic Internship course.

**FCS 495. Directed Undergraduate Research (2-3)**

*Prerequisites:* Instructor consent. Interested students should make arrangements with the Department as soon as possible, preferably during the previous semester. Designed for students of advanced rank and proven competence in Family and Consumer Sciences. Program of original independent research to be carried out under the direction of a Family and Consumer Sciences faculty member. Hours to be arranged. May be repeated for credit.

**FCS 496A-Z. Experimental Topics Courses in Family and Consumer Sciences (3)**

*Prerequisites:* Senior status; Instructor consent. Experimental courses in areas of Family and Consumer Sciences.

**FCS 499A-C. Independent Study (1-3)****Graduate**

Note that 300-level courses do not carry credit toward a Master's Degree. 9 units of 400-level courses may be used in the Master's Program in Family and Consumer Sciences, providing they have been approved by the Graduate Advisor. Only Classified graduate students should enroll in Directed Graduate Research and Thesis.

**FCS 501. Advanced Food Chemistry and Analysis I (3)**

*Prerequisites:* CHEM 365L; FCS 401. Methods of modern analytical techniques and instruments used in food and nutrient analysis.

**FCS 505. Nutrient and Drug Interactions (3)**

*Prerequisite:* FCS 402 or possession of verification statement for Didactic Program in Dietetics. Study of metabolic interaction between nutrients and drugs. Emphasis on drug-induced physiological and chemical alterations affecting appetite regulation, absorption, metabolism, distribution and excretion of nutrients.

**FCS 512. Sustainable Building and Interior Design (3)**

*Prerequisites:* Senior or graduate standing. The course explores sustainable building and interior design theories, concepts and applications. Emphasis is on expanding students' skills and applying sustainability theories and concepts to building and interior design of small-scale community service-learning projects. Undergraduates by permission only.

**FCS 515. Environmental Design Theory, Methodology and Criticism (3)**

*Prerequisite:* Senior or graduate standing. Graduate cornerstone course in Interior Design. Study of recent theories, methodologies and current issues of housing and interior design.

**FCS 516. Interior Design and the Building Process (3)**

*Prerequisite:* Senior or graduate standing. Students are introduced to the theories and concepts of pattern language, nature of order and generative design as they apply to housing and interior design. Emphasis is placed on integrated design and making processes, user participation in design and construction, building materiality, detailing, craftsmanship, ornamentation and color.

**FCS 533. Advanced Topics in Administration of Children's Programs (3)**

*Prerequisite:* FCS 433; Admission restricted to seniors, PBUs and graduate students. Graduate seminar on trends, issues and new developments in administering programs for children and families. Required for Child Development Master Teacher, Site Supervisor and Program Director Permits.

**FCS 534. Supervision of Child Development Personnel (3)**

*Prerequisite:* FCS 433; Restricted to seniors, PBUs and graduate students. Seminar on issues and approaches to leading and supervising individuals/teams in settings involving young children. Required for Child Development Master Teacher, Site Supervisor and Program Director Permits.

**FCS 542. Theories of Family Development (3)**

*Prerequisites:* Senior or graduate standing. In-depth study of family development theories and research presented, evaluated and applied to specific family situations. Students research family theories and present and lead discussions about their findings to the class.

**FCS 543. Intergenerational Caregiving (3)**

*Prerequisites:* Senior or graduate standing. Comprehensive study and analysis of the history, multicultural issues, research, academic and professional competencies required to establish, direct, teach and/or evaluate a quality intergenerational program for children and the elderly of varying abilities, cultural and socioeconomic backgrounds.

**FCS 555. Textiles and Apparel in the Global Economy (3)**

*Prerequisites:* Senior or graduate standing. Analysis of the U.S. textile and apparel complex, and of the U.S. market within an international context.

**FCS 562. Textile Technology I (3)**

*Prerequisite:* FCS 360 or 460. Critical analysis of textile fibers and fabrics. Application and evaluation of textile finishes and other textile surface treatments.

**FCS 563. Textile Technology II (3)**

*Prerequisite:* FCS 360 or 460. Critical analysis of application and evaluation of textile dye stuffs and other coloring agents.

**FCS 570. Practicum in Nutrition Therapy (6)**

*Prerequisites:* Admission to the Dietetic Internship; Instructor consent. *Recommended corequisite:* FCS 573. Units do not apply for either Bachelor or Master's Degree Programs. The supervised practice hours are a minimum of 512 hours for students in the Nutrition Therapy Concentration and a minimum of 416 hours for students in the Community Nutrition Concentration. Supervised practices are at selected clinical settings, such as hospitals, stressing application of pathophysiology and related medical sciences to treatment and nutrition care. (Credit/No Credit only)

**FCS 571. Practicum in Food Service Systems Management (6)**

*Prerequisites:* Admission to the Dietetic Internship; Instructor consent. *Recommended corequisite:* FCS 573. No credit for either Bachelor or Master's Degree Programs. A minimum of 288 hours of supervised practice are served at selected hospitals and school foodservice settings. Interns practice foodservice production, management and administration. (Credit/No Credit only)

**FCS 572. Practicum in Community Nutrition (6)**

*Prerequisites:* Admission to the Dietetic Internship; Instructor consent. *Recommended corequisite:* FCS 573. No credit for either Bachelor or Master's Degree Programs. The supervised practice hours are a minimum of 512 hours for students in the Community Nutrition Concentration and a minimum of 416 hours for students in the Nutrition Therapy Concentration. Supervised practices are at selected community settings, mainly outpatient clinics, stressing the planning, delivery and evaluation of preventive health services, as well as the delivery of services to persons with complex nutritional needs. (Credit/No Credit only)

**FCS 573. Seminar for Dietetic Interns (3-3)**

*Prerequisites:* Admission to the Dietetic Internship and instructor consent. *Recommended corequisites:* FCS 570, 571, and/or 572 each semester. Must be repeated twice for a total of 6 units, but only 3 units maximum may be applied toward a Master's Degree. Lectures, group discussions and presentations dealing with the process of providing food and nutrition services in clinical, food-service and community settings. Interns are considered part of the Greater Los Angeles Dietetics Internship Consortium and attend seminars with interns from other programs held at off-campus locations.

**FCS 580. The Family and Consumer Sciences Profession (3)**

A study of Family Consumer Sciences (FCS) as a profession, including its vision and mission, history, theoretical framework and professional and ethical standards. Applications of the Human Ecological Theory to one's Area of study is examined. Course is required for graduate students who do not have a FCS undergraduate degree. Credit does not count toward the graduate program, and completion of the course must occur before Classification, which must occur within the first 12 units.

**FCS 595A-Z. Experimental Topics Courses in Family and Consumer Sciences (1-3)**

*Prerequisite:* Senior or graduate standing. Selected topics in the area of Family and Consumer Sciences.

**FCS 602. Vitamin and Mineral Analysis (3)**

*Prerequisites:* CHEM 365L; FCS 401. Vitamin and mineral analysis, with emphasis on their application in food and nutrition research.

**FCS 606. Vitamin and Mineral Metabolism (3)**

*Prerequisite:* FCS 308 or possession of verification statement for *Didactic Program in Dietetics*. Recent advances in the roles of vitamins and minerals in human nutrition.

**FCS 607. Carbohydrate, Lipid and Protein Metabolism (3)**

*Prerequisite:* FCS 307 or possession of verification statement for *Didactic Program in Dietetics*. Recent advances in roles of carbohydrates, lipids and proteins in human nutrition.

**FCS 608. Sports Nutrition (3)**

*Prerequisite:* Graduate standing. Overview of nutrient use in exercise and nutrition strategies to improve exercise/athletic performance, emphasizing current research. Topics include fuel use during exercise, nutrient requirements for optimal performance, behavioral strategies for improving dietary habits, and supplements.

**FCS 614. Graduate Interior Design Studio (3)**

*Prerequisite:* Graduate standing. Graduate interior design studio with emphasis on planning, designing and making livable and sustainable interior building environments. Emphasis is on the application of evidence-based research findings in interior design projects. Some sections of this course may offer a community service engagement opportunity with design activities relating to the studio processes presented in class.

**FCS 635. Theories of Infant Development (3)**

*Prerequisite:* Graduate standing. *Preparatory:* FCS 330 or 335, or EPC 430. In-depth study of theory and research on infant development and care.

**FCS 640. Family Strengths (3)**

*Prerequisite:* Graduate standing. *Preparatory:* FCS 542. Study of the family system, focusing on the resiliency, coping strategies, support systems and other factors that contribute to the strength and durability of the family unit.

**FCS 653. Contemporary Issues in Textiles and Apparel (3)**

*Prerequisites:* Graduate standing. *Preparatory:* FCS 353. Recent developments and current issues in the area of textiles and apparel.

**FCS 681. Research Methods (3)**

*Prerequisite:* Graduate standing. Review and critique of published research, examination of research methodology in Family and Consumer Sciences, and selection and utilization of research tools and techniques.

**FCS 682. Research Applications (3)**

*Prerequisite:* FCS 681. Development of research proposals, completion of mini-research project, and practice in the application of selected research strategies and methodologies.

**FCS 690A-P. Seminar: Advances in Family and Consumer Sciences (3)**

*Prerequisite:* Graduate standing. Advanced study in Family and Consumer Sciences subject matter areas: (A) Nutrition; (B) Food Science; (C) Family Economics; (D) Family Management; (E) Textile Science; (F) Apparel and Human Behavior; (G) Environmental Design for Selected Populations; (H) Interior Design of Selected Settings; (I) Child Development; (J) Family Relations; (K) Consumer Economics; (L) Teacher Supervision; (M) Special Issues in Family and Consumer Sciences; (N) Innovative Teaching Techniques in Family and Consumer Sciences; (O) Family Financial Issues; and (P) Open.

**FCS 694A-C. Supervised Field Study (1-3)**

*Prerequisites: Graduate standing; Approval of advisor.* Direct field experience in selected area of Family and Consumer Sciences related to business, industry, nutrition and dietetic areas, and public service agencies. Written reports required include submission of a journal of activities performed during the semester, a scholarly research paper and presentation based on current theory and concepts in business, management or technology. Academic Internship includes 45-120 work hours in addition to regular seminar meetings. (Graded)

**FCS 695A-Z. Experimental Topics Courses in Family and Consumer Sciences (1-3)**

*Prerequisite: Graduate standing.*

**FCS 696A-C. Directed Graduate Research (1-3)**

*Prerequisites: Classified graduate standing; Approval of advisor.* Investigation of a significant individual research problem.

**FCS 697. Directed Comprehensive Studies (3)**

*Prerequisites: Graduate standing; Classified status.* For students who have completed all course requirements (30 units) for the Master's Degree and for those graduate students electing to take comprehensive examinations.

**FCS 698 A-C Thesis/project (1-3)**

*Prerequisites: Classified graduate standing; Approval of advisor.* Preparation of thesis or completion of project for the Master of Science Degree.

**FCS 699A-C. Independent Study (1-3)**

*Prerequisite: Graduate standing*

# Gender and Women's Studies

College of Humanities

**Chair: Sheena Malhotra**

**Jerome Richfield Hall (JR) 340**

**(818) 677-3110**

**[www.csun.edu/gws](http://www.csun.edu/gws)**

## Faculty

Dianne Bartlow, Florence Kyomugisha, Marta López-Garza, Sheena Malhotra, Breny Mendoza, Nayereh Tohidi

## Staff

Janaki Bowerman, Molly Nguyen

## Programs

Undergraduate

**B.A., Gender and Women's Studies**

**Minor in Gender and Women's Studies**

## The Major

The Gender and Women's Studies Department emphasizes interdisciplinary, cross-cultural and transnational studies with a focus on the intersectionality of gender, race, class and sexuality. It includes course work in feminist theories, women and social movements, transnational feminisms, women of color feminisms, postcolonial feminism, women's economic conditions in the context of globalization and development, productions of women in the media and literature, women and religion, queer studies, women's health and masculinity studies.

The Gender and Women's Studies Department teaches students to view the world with a critical analytical approach grounded in a social justice framework. The Department adheres to a disciplinary practice that centers on an integrative, intersectional framing of issues concerning gender, race, class, sexuality, nationality, ethnicity, age and the differently abled.

## Academic Advisement

The Gender and Women's Studies Department helps students select the program and courses that best satisfy their individual needs and interests. Contact Sheena Malhotra (Chair) at (818) 677-3110 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a major or minor in Gender and Women's Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

## Careers

A degree in Women's Studies is an avenue to jobs in the mass media, public relations, community and labor organizing, social work, counseling, teaching and government, as well as new fields, such as women's career training. Specialized career preparation may be obtained by combining the Women's Studies major with a minor from another Department. In addition, a Bachelors of Science in Women's Studies provides an entry for advanced graduate degrees in fields such as women's studies, gender and ethnic studies, law, education, health care, social sciences, global studies, the arts, and cultural and communication studies.

## Student Learning Outcomes of the Undergraduate Program

The Gender and Women's Studies Department at CSUN teaches students to view the world with a critical analytical approach grounded in a social justice framework.

1. Students investigate the gender dimension of social, economic, cultural, historical and political processes on women and men in U.S. and global contexts.

2. Students will have a level of proficiency in the discipline of Gender and Women's Studies, including knowledge of women's movements, feminist theories, feminist research methods and women's contributions to the production of different knowledges.
3. Students will demonstrate the ability to critically analyze matrices of power like gender, race, class and sexuality in ways that lay the groundwork for constructive social change.
4. Students will develop a sense of agency grounded in the development of their skills in oral and written communication, critical thinking, media literacy, information competence and leadership.

## Requirements for the Bachelor of Arts Degree

### 1. Lower Division Required Courses (3 units)

GWS 100 Introduction to Gender and Women's Studies (3)

or GWS 110 Women, Work and the Family (3)

*(Either course serves as a preparatory course for GWS 300)*

### 2. Upper Division Required Courses (15 units)

GWS 300 Women as Agents of Change (3)

GWS 301 Feminist Theories (3)

GWS 302 Feminist Methods (3)

GWS 305CS Gender and Women's Studies Community Service (3)

GWS 400 Senior Seminar in Gender and Women's Studies (3)

### 3. Upper Division Electives (15 units)

Select 15 units of electives from the list below. No more than 12 units of electives can be from Experimental and Selected Topics courses.

GWS 320 Women and Urban Life (3)

GWS 340 Women, Gender and Global Development (3)

GWS 350 Gender, Race, Class and Sexuality (3)

GWS 360 Feminist Ethics (3)

GWS 370 Women and Violence (3)

GWS 380 Sexual and Reproductive Health (3)

GWS 396A-Z Experimental Topics (3)

GWS 410 Sex, Lies and Media (3)

GWS 420 Women and Gender in Islamic Societies (3)

GWS 430 Global Sexualities (3)

GWS 495A-Z Selected Topics (3)

## Concentration

All students must also complete a 12-unit Concentration from the list below, or may design a Concentration in consultation with the Department Chair or Advisor of Gender and Women's Studies. Students may, with approval of Department Chair or advisor, substitute Gender and Women's Studies electives with experimental and selected topics courses for concentration requirements, when appropriate. Students may, with the approval of the Gender and Women's Studies Department Chair or advisor, receive credit for up to 3 units of Independent Study, which may be counted as a concentration in the major. Each course may be counted in only 1 category. For example, a course that is counted as an Upper Division elective may not be counted again as a Concentration course.

### Race and Ethnicity (12 units)

AAS 340 Asian American Women (3)

CAS 365 Changing Roles of Central American Women (3)

CHS 246 Contemporary Issues of the Chicana (3)

CHS 346 History of the Chicana/Mexicana. (3)

CHS 365 Third World Women and the Chicana (3)

GWS 350 Gender, Race, Class and Sexuality (3)

| SOC  | 324 | Sociology of Sex Roles (3)                   |
| SOC  | 325 | Sex Roles and Work (3)                       |

Individualized work: Students may, with approval of the Gender and Women's Studies Department Chair, receive credit for up to 3 units of independent study, which may be counted as an elective in the minor.

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>18</b> |
|---------------------------------|-----------|

**Course List****GWS 100. Introduction to Gender and Women's Studies (3)**

Interdisciplinary study of women in American society, including such topics as social conditions, laws, symbols, values, communication and power. (Available for General Education, Comparative Cultural Studies.)

**GWS 110. Women, Work and Family (3)**

Focuses on historical and contemporary relationship between home and community work and the marketplace within which women perform. Examines the differences in experience of work and family as these are shaped by race, class, gender and sexuality. (Available for General Education, Comparative Cultural Studies.)

**GWS 220 Men, Masculinity and Patriarchy (3)**

*Recommended Preparatory:* GWS 100. This course provides a multidisciplinary investigation of ways in which masculinity is constructed in the context of fatherhood, media, sports, fraternities, law, militarization, racialization, state violence and men's movements. The course evaluates and critically analyzes how male identities are created, negotiated and explicated in theories of gender, sexuality, ethnicity, race and class. Of particular interest is the way social institutions sustain and elaborate how masculinity is organized and what it has come to mean.

**Upper Division****GWS 300. Women as Agents of Change (3)**

*Preparatory:* GWS 100 or 110, or consent of instructor; *Completion of the Lower Division writing requirement.* New definitions and options for women within the family, community and society. Students study and report on women's resources and organizations for change within the local community, as well as on the national and international scene. (Available for General Education, Comparative Cultural Studies.) (IC)

**GWS 301. Feminist Theories (3)**

*Prerequisite:* GWS 100, or 110 or 300 or instructor consent. This required course for Gender and Women Studies majors and minors concentrates on the multitude of feminist theories, from the early feminist theories to the more contemporary and complex theories by a diversity of theorists, within the U.S. and globally.

**GWS 302. Feminist Methods (3)**

*Prerequisite:* GWS 100 or 110 or 300 or instructor consent. In this course, students will be introduced to qualitative and quantitative research methods. The course will provide an overview of some of the critical concepts in the history of feminist research (e.g., feminist empiricism, feminist standpoint, inclusion of difference) and debates surrounding epistemology and methodology. The course will examine and evaluate interdisciplinary feminist research that have been proposed as uniquely suited for gender and women's studies, as well as its proposed elements, goals and politics.

**GWS 305CS. Gender and Women's Studies Community Service (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Students work in a variety of community settings—educational, political and/or social service agencies—to apply theoretical understanding of gender and women's studies to practical and concrete community situations that affect women's daily lives. Includes regular class meetings. Offers a community service opportunity with activities relating to concepts and theories presented. (Available for General Education, Lifelong Learning.)

**GWS 315. Gender, Sexuality and Islam in the U.S. (3)**

This interdisciplinary course examines the gender dimension of social contours of Islamic communities in North America, with an emphasis on the U.S. After a brief review of the geopolitics and historical background, immigration trends and acculturation process of communities, the course will explore what it means to be a Muslim person in the U.S. today. Special attention will be paid to social activism and feminist discourse among the diaspora Muslims and their cross-pollination or transnational impacts on the processes of globalization, reformation and democratization in the Muslim-majority countries.

**GWS 320. Women and Urban Life/Urban Space (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Examines the gendered use of space and how women have balanced and crossed public and private spheres. Examines women and urban issues from the micro-level (community-based organizations and grassroots mobilizations) to the macro-level (national and international states and corporate entities). (Available for General Education, Social Sciences.)

**GWS 340. Women, Gender and Global Development (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Examines women's roles and concerns in socio-economic and political development processes. Positive and negative effects of colonization, post-colonial modernization, democratization and capitalist and socialist development strategies on women in the "Third," "Second," and "First" World countries are examined. Available for Graduate Credit. (Available for General Education, Comparative Cultural Studies.)

**GWS 350. Gender, Race, Class and Sexuality (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Examines historical and contemporary issues surrounding the diversity of women living in the U.S. Gender, race, socio-economic class and sexuality are presented as central theoretical concepts and as conditions of experience that affect all women and men, as well as being primary categories of social relations for us all.

**GWS 360. Feminist Ethics (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Examines debates about whether an essential "women's" morality exists and considers what is at stake in these arguments. Examines the impact of gender on categories of moral virtue and ethical agency. Raises the question of how (and if) women's experience has created a moral vision that challenges the dominant ethical norms of U.S. culture. (Available for General Education, Arts and Humanities.)

**GWS 370. Women and Violence (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* This course focuses on dimensions of violence women experience in the U.S. and internationally. It provides an overview of sexual violence, including rape in intimate partnerships, childhood sexual assault, sexual harassment, sex trafficking and violence against women under foreign occupation. Varied feminist scholarship around 3 broad areas will be covered: Sexual Violence Against Women; Physical Violence Against Women; and Perpetrators of Violence Against Women. The course includes an examination of case studies that illumine domestic abuse, judicial abuse and war rape among others. (Available for General Education, Social Sciences.)

**GWS 380. Sexual and Reproductive Health (3)**

The course employs a gender-based analysis of the global problem of sexual health and examines the cultural, social and economic variables associated with sexual and reproductive health disparities in the U.S. and abroad. The course provides a feminist approach to understanding issues pertaining to the nature of women's and men's social roles; women's symbolic meaning in society; and inequality of power in sexual relationships. In addition, the course has a community service component, which involves a project on public health activism in the local community (20 percent of the course grade).

**GWS 396A-Z. Experimental topics courses (3)****GWS 400. Senior Seminar in Gender and Women's Studies (3)**

*Prerequisite:* GWS 301. This course is a culmination (capstone) of the students' undergraduate studies and will not necessarily introduce new topics. Instead, students reflect on and review important women's studies theories, key principles and questions. Each student conducts a research project applying feminist methodology and writes a research paper on a topic within the discipline. The purpose of this course is to review the cross-cultural and international literature in women's studies/feminist studies as well as to equip students for graduate school and/or the work setting.

**GWS 410. Sex, Lies and Media (3)**

In this course, students employ critical perspectives to examine narrow definitions of gender/sexuality constructed in media representations. Students deconstruct norms of masculinity and femininity generated by industries such as television, film and advertising that perpetuate and naturalize the commodification of women's bodies. Special attention is paid to bodies and modes of sexuality that transgress (representations of the queer body, for example). Students also construct alternative imagery and generate new ideas about gender and sexuality through discussion and various projects.

**GWS 420. Women and Gender in Islamic Societies (3)**

This interdisciplinary and cross-cultural course explores how religious authorities, and scriptural and legal sources have contributed to the status and legal rights of women and to the construction of theories, laws and practices concerning gender roles and sexuality in the Islamic tradition. Students study how these constructed gender roles, sexual norms and attitudes have reflected, resisted or changed in response to modern cultural, social, economic and political changes. The course examines how Muslim women themselves have sought to articulate and define their roles and identities. What has been the impact of modernity, modernization, colonialism, nationalism, democratization and globalization, especially the global feminist movements, on the status of Muslim women and gender relations? What is the impact of the recent waves of Islamist movements ("fundamentalism"), the identity politics, and politics of the veil on women and the gender arrangement in Muslim societies?

**GWS 430. Global Sexualities (3)**

Neoliberal globalization is as fundamental to understanding contemporary discourses of sexuality as sexuality is key to understanding global issues. The course will foreground a wide range of theoretical perspectives of feminist, queer and globalization theories that help students understand how the emergence of sexuality as an intellectual and social arena is concurrent with specific characteristics of the globalization process and how the new theories of sexuality advance and challenge the feminist agenda for global social and gender justice.

**GWS 495A-Z. Selected Topics in Gender and Women's Studies (3)**

Intensive study of selected themes or figures in Gender and Women's Studies. Topics change from semester to semester.

**GWS 499A-C. Independent Study (1-3)**

### Programs

Undergraduate:

**B.A., Geography**

**Option 1: Standard Program**

**Option 2: Geographic Information Science**

**Minor in Geography**

**Minor in Geographic Information Science**

Graduate:

**M.A., Geography**

**Option 1: Standard Program**

**Option 2: Geographic Information Science**

### Department Programs

The Geography Degree Program Option 1: Geography/Standard Program prepares students to understand the environment around us and interpret the patterns found across Earth's surface. Comprised of 45 units, the Geography major allows flexibility in course selection while providing solid background in human, physical and regional aspects of the discipline. Option 2: Geography/Geographic Information Science features a strong technical component based on applications of geographic information science (GIS), cartography and remote sensing; along with training in geographical analysis and data presentation. The M.A. Program provides advanced training leading to further graduate work in geography or to employment in teaching, industry or government. For information, check the Department website or see a Departmental advisor.

### Academic Advisement

Undergraduates must consult with an advisor as soon as they declare Geography as their major and before registration each semester. Graduate students must consult with the Graduate Advisor before registering for classes. Contact the Department Chair for undergraduate advisement and the Graduate Coordinator for questions about graduate study.

### Student Learning Outcomes

We strive to help our students become persons of intellectual maturity by building a solid foundation of knowledge concerning the discipline of geography, the main features of Earth's environment and the various processes giving rise to these features; developing skills necessary to access, acquire and synthesize new information and ideas so as to become lifelong learners; establishing understanding of the theories, tools and techniques necessary to become effective problem solvers; and practicing the facilities needed to become articulate communicators of knowledge, opinions and ideas.

### Careers

A CSUN Geography Degree can launch a career in a number of fields, some examples of which are geographical analyst working for major corporations, consultant for environmental firms, GIS administrator in either government or industry, or teacher in K-12. The Degree also can provide a foundation for pursuing advanced or professional degrees in social, environmental, or physical sciences, or in law.

### Skills

Technical skills taught in Geography include computer mapping, field observation and data collection, GIS, Global Positioning Systems (GPS), land-use analysis, map analysis, presentation graphics, professional report writing, sediment analysis, statistics, topographic surveying and weather station instrumentation.

### Requirements for the Bachelor of Arts Degree

**The Geography Major Option 1: Geography/Standard Program consists of the following requirements (45 units total)**

#### 1. Lower-Division Courses (6 units)

##### Foundation Courses

##### Take the following:

GEOG 101 The Physical Environment (3)

or GEOG 103 Weather (3)

and GEOG 107 Introduction to Human Geography (3)

or GEOG 150 World Geography (3)

#### 2. Upper Division Courses (39 units)

##### a. Gateway Course (3 units) Take the following:

GEOG 300 The Geographer's Craft (3)

##### b. Field Studies (3 units)

##### Select 1 course from the following:

GEOG 404A-Z Field Studies in Geography (1-3)

##### c. Content Courses (6 units)

##### Select 2 courses from the following:

GEOG 301 Cultural Geography (3)

GEOG 311 Atmosphere (3)

GEOG 316 Environmental Geography (3)

GEOG 340 Economic Geography (3)

GEOG 351 Urban Geography (3)

GEOG 364/L Geography of World Ecosystems and Lab (2/1)

GEOG 365/L Geomorphology and Lab (3/1)

GEOG 366 Geography of Environmental Hazards (3)

##### d. Method Courses (6 units)

##### Select 2 courses from the following:

GEOG 206/L Introduction to GIS and Lab (2/1)

GEOG 304/L Map and Imagery Interpretation and Lab (2/1)

GEOG 305/L Maps and Graphics and Lab (2/1)

GEOG 306/L Intermediate GIS and Lab (2/1)

GEOG 360/L Introduction to Spatial Analysis and Lab (2/1)

##### e. Regional Course (3 units)

##### Select 1 course from the following:

GEOG 318 Europe (3)

GEOG 321 United States (3)

GEOG 322 Latin America (3)

GEOG 323 Canada (3)

GEOG 324 China (3)

GEOG 326 Africa (3)

GEOG 328 Mexico (3)

GEOG 330 California (3)

GEOG 334 Southwest Pacific (3)

GEOG 350 Metropolitan Los Angeles (3)

##### f. Application Courses (6 units)

**Select 2 courses from the following:**

|             |  |
|-------------|--|
| GEOG 402/L  | Field and Lab Techniques in Physical Geography and Lab (2/1) |
| GEOG 406/L  | Advanced GIS and Lab (2/1)                                   |
| GEOG 408A/L | Human/Cultural Applications in GIS and Lab (2/1)             |
| GEOG 408B/L | Environmental/Physical Applications in GIS and Lab (2/1)     |
| GEOG 409/L  | Computer Mapping and Lab (2/1)                               |
| GEOG 411    | World Climate (3)  |
| GEOG 412    | Boundary Layer Climatology (3)                               |
| GEOG 413    | Bioclimatology (3)   |
| GEOG 414    | Hydroclimatology (3)   |
| GEOG 415    | Air Pollution (3)  |
| GEOG 416    | Global Warming (3)   |
| GEOG 444    | Conservation (3)   |
| GEOG 451    | Advanced Urban Geography (3)                                 |
| GEOG 452    | Urban Land-Use Planning (3)                                  |
| GEOG 453    | Housing and Community Development (3)                        |
| GEOG 459    | Environmental Impact Studies (3)                             |
| GEOG 460/L  | Spatial Analysis and Comparison and Lab (2/1)                |
| GEOG 462/L  | Computer Applications in Geography and Lab (2/1)             |
| GEOG 465/L  | Fluvial Geomorphology and Lab (2/1)                          |
| GEOG 466/L  | Glacial and Periglacial Geomorphology and Lab (2/1)          |
| GEOG 467/L  | Arid Lands Geomorphology and Lab (2/1)                       |
| GEOG 468/L  | Coastal Geomorphology and Lab (2/1)                          |
| GEOG 482    | Population Geography (3)                                     |
| GEOG 486    | Medical Geography (3)  |
| GEOG 487    | Geography of Popular Culture (3)                             |
| GEOG 494    | Internship (3)   |
| GEOG 497A-F | Senior Seminar in Geography (3)                              |

**g. Capstone Course (3 units)****Take the following:**

|          |                    |
|----------|--------------------|
| GEOG 490 | Senior Project (3) |
|----------|--------------------|

**h. Elective Courses (9 units)**

Take 3 additional Upper Division (300- or 400-level) Geography courses.

|   |            |
|---|------------|
| <b>Total Units in the Major</b>                       | <b>45</b>  |
| <b>General Education Units</b>                        | <b>48</b>  |
| <b>Additional Units</b>                               | <b>27</b>  |
| <b>Total Units Required for the Degree (Option 1)</b> | <b>120</b> |

**The Geography Major Option 2: Geography/Geographic Information Science consists of the following requirements (45 units total)**

**1. Lower-Division Courses (6 units)****Foundation Courses****Take the following courses:**

|              |                                     |
|--------------|-------------------------------------|
| GEOG 101     | The Physical Environment (3)        |
| or GEOG 103  | Weather (3)                         |
| and GEOG 107 | Introduction to Human Geography (3) |
| or GEOG 150  | World Geography (3)                 |

**2. Upper Division Courses (39 units)****a. Gateway Course (3 units) Take the following:**

|          |                            |
|----------|----------------------------|
| GEOG 300 | The Geographer's Craft (3) |
|----------|----------------------------|

**b. Field Studies (3 units)****Select 1 course from the following:**

|             |                                  |
|-------------|----------------------------------|
| GEOG 404A-Z | Field Studies in Geography (1-3) |
|-------------|----------------------------------|

**c. Content Courses (6 units)****Select 2 courses from the following:**

|            |   |
|------------|---|
| GEOG 301   | Cultural Geography (3)                      |
| GEOG 311   | Atmosphere (3)                              |
| GEOG 316   | Environmental Geography (3)                 |
| GEOG 340   | Economic Geography (3)                      |
| GEOG 351   | Urban Geography (3)                         |
| GEOG 364/L | Geography of World Ecosystems and Lab (2/1) |
| GEOG 365/L | Geomorphology and Lab (3/1)                 |
| GEOG 366   | Geography of Environmental Hazards (3)      |

**d. Method Courses (15 units)****Take the following:**

|            |   |
|------------|---|
| GEOG 206/L | Introduction to GIS and Lab (2/1)                       |
| GEOG 305/L | Maps and Graphics and Lab (2/1)                         |
| GEOG 306/L | Intermediate GIS and Lab (2/1)                          |
| GEOG 406/L | Advanced Geographical Information Science and Lab (2/1) |
| GEOG 460/L | Spatial Analysis and Lab (2/1)                          |

**e. Application Courses (6 units)****Select 2 courses from the following:**

|             |  |
|-------------|--|
| GEOG 304/L  | Map and Imagery Interpretation and Lab (2/1)             |
| GEOG 407/L  | Remote Sensing and Lab (2/1)                             |
| GEOG 408A/L | Human/Cultural Applications in GIS and Lab (2/1)         |
| GEOG 408B/L | Environmental/Physical Applications in GIS and Lab (2/1) |
| GEOG 409/L  | Digital Cartography and Lab (2/1)                        |
| GEOG 494    | Internship (3)   |
|             | <i>(Must be GIS/Cartography/Remote Sensing topic)</i>    |
| GEOG 497A-F | Senior Seminar in Geography (3)                          |
|             | <i>(Must be GIS/Cartography/Remote Sensing topic)</i>    |

**f. Capstone Course (3 units)****Take the following:**

|          |                    |
|----------|--------------------|
| GEOG 490 | Senior Project (3) |
|----------|--------------------|

**g. Elective Courses (3 units)**

Take 1 additional Upper Division (300- or 400-level) Geography course.

|   |            |
|---|------------|
| <b>Total Units in the Major</b>                       | <b>45</b>  |
| <b>General Education Units</b>                        | <b>48</b>  |
| <b>Additional Units</b>                               | <b>27</b>  |
| <b>Total units Required for the Degree (Option 2)</b> | <b>120</b> |

**Minor in Geography**

A minor in geography is comprised of 20 units, with no more than 6 units in the Lower Division. The student must consult with a Geography advisor to develop an approved program best suited to the student's individual needs. A program may be selected that will provide the student with exposure to several of the major realms of geography or emphasis in one particular aspect of geography (e.g., geomorphology, GIS, climatology, cultural, economic, ecology, cartography, urban).

|   |           |

| <b>Total Units Required for the Minor</b> | <b>20</b> |
|---|-----------|

**Minor in Geographic Information Science (GIS)**

A Minor in GIS is comprised of 21 units focused on courses involving geographic information science and related technologies.

**1. Lower-Division Courses (3 units)**

**Foundation Courses**

**Take 1 of the following:**

- GEOG 101 The Physical Environment (3)
- GEOG 103 Weather (3)
- GEOG 107 Introduction to Human Geography (3)
- GEOG 150 World Geography (3)

**2. Upper Division Courses (18 units)**

**a. Methods Courses (12 units)**

**Take the following:**

- GEOG 206/L Introduction to GIS and Lab (2/1)
- GEOG 305/L Maps and Graphics and Lab (2/1)
- GEOG 306/L Intermediate GIS and Lab (2/1)
- GEOG 406/L Advanced GIS and Lab (2/1)

**b. Application Courses (6 units)**

**Select 2 courses from the following:**

- GEOG 304/L Map and Imagery Interpretation and Lab (2/1)
- GEOG 407/L Remote Sensing and Lab (2/1)
- GEOG 408A/L Human/Cultural Applications in GIS and Lab (2/1)
- GEOG 408B/L Environmental/Physical Applications in GIS and Lab (2/1)
- GEOG 409/L Digital Cartography and Lab (2/1)
- GEOG 460/L Spatial Analysis and Lab (2/1)
- GEOG 494 Internship (3)  
*(Must be GIS/Cartography/Remote Sensing topic)*
- GEOG 497A-F Senior Seminar in Geography (3)  
*(Must be GIS/Cartography/Remote Sensing topic)*

|   |           |
|---|-----------|
| <b>Total Units Required for the Minor</b> | <b>20</b> |
|---|-----------|

**Social Science Subject Matter Program for the Single Subject Credential**

Geography majors interested in teaching social studies at the middle-school or high-school level may combine their major program with the Single Subject Social Science Subject Matter Program to meet requirements for entering a Single Subject Credential Program. For information on the CSBS Single Subject Social Science Subject Matter Program, look under Social and Behavioral Sciences in the Catalog. The Geography undergraduate advisor also can provide assistance in coordinating the completion of both the major and the subject matter program simultaneously.

**The Master of Arts in Geography**

The Department of Geography offers 2 options within the Master of Arts Degree Program. Option 1, the Standard Program, provides the student with a high degree of flexibility in the selection of courses used to meet the Program requirements. Courses may be selected from any of the graduate offerings in geomorphology, climatology, plant geography, economic geography, cultural geography, urban geography, regional geography, cartography and geographic information science. This option prepares students for advanced Ph.D. study, community college teaching and professional careers in business, government or industry. Option 2 offers a highly structured specialization in Geographic Information Science, where most of

the requirements are met with graduate courses dealing with various aspects of GIS. This option is designed for students wishing to pursue a career in this highly technological subfield of geography.

**A. Requirements for Admission to the Department**

1. One of the following:
  - a. Cumulative undergraduate GPA of 3.0 or better;
  - b. A score at or above the 50th percentile on 2 of the 3 portions of the aptitude test of the Graduate Record Exam; or
  - c. A Graduate Degree in another field from CSUN or other accredited institution.
2. At least a 2.75 GPA in the last 60 units attempted.
3. Two letters of recommendation.
4. Demonstration of research and writing skills. Applicants must submit to the Graduate Committee a sample research paper, written in English, and preferably one that was completed as part Baccalaureate Degree requirements, such as a senior thesis or other research paper done in an Upper Division undergraduate course. Because of the importance of research and writing to the graduate program, the Committee needs to be assured of applicants' abilities and promise in these areas.

**B. Classified and Conditionally Classified Status**

**Requirements for Classified Status, one of the following:**

1. An undergraduate major in Geography;
2. Demonstrated competence in human geography, physical geography and cartography or map interpretation, as determined by the Departmental Graduate Committee; or
3. A passing score (8 or higher) on the Upper Division Writing Proficiency Exam (UDWPE).

**Conditionally Classified Status**

- a. If the requirements for Classified status are not met at the time of application, the student will be admitted as Conditionally Classified, pending completion of the requirements, which include the completion of prerequisite courses in the areas of identified deficiencies and/or the UDWPE.
- b. No more than 12 units of work taken prior to attaining Classified status may be applied to the Master's Degree Program.

**Requirements for the Master of Arts Degree**

**A. Option 1: Geography/Standard Program**

1. Completion of the following courses (a total of 30 units, with a GPA of 3.0 or better)

**Introductory Seminar**

- GEOG 600 Geographic Thought, Analysis and Research (3)

**Additional Seminars (five 600-level courses): (15 units)**

**Electives: (400- to 600-level courses, with approval) (6 units)**

**Thesis Preparation:**

- GEOG 696 Directed Geographic Research (3)  
and GEOG 697 Directed Comprehensive Studies (3)  
or GEOG 698 Thesis (3)

2. Competence in a relevant foreign language, statistics or an advanced geographic technique.
3. Submission of a Thesis or Comprehensive Exam approved by a Departmental Faculty Committee.

**B. Option 2: Geography/Geographic Information Science Specialization Program**

1. Completion of the following courses (a total of 30 units with a GPA of 3.0 or better)

**Introductory Seminar**

- GEOG 600 Geographic Thought, Analysis and Research (3)

**Seminars in Geographic Visualization (9 units)**

Select 3 courses from 690 A-H, 695A.

**Other Seminar: Select one 600-level Geography seminar**

**Additional GIS Courses (Select any 2 400-level courses, as specified below (6 units):**

|      |        |  |
|------|--------|--|
| GEOG | 406    | Advanced GIS (3)                                 |
| GEOG | 407/L  | Remote Sensing/Lab (3)                           |
| GEOG | 408A/L | Human/Cultural Applications in GIS/L (3)         |
| GEOG | 408B/L | Environmental/Physical Applications in GIS/L (3) |
| GEOG | 409/L  | Computer Mapping/Lab (2/1)                       |

**Statistics (3 units)**

|      |       |   |
|------|-------|---|
| GEOG | 460/L | Spatial Analysis and Comparison/Lab (3) |
|------|-------|---|

**Thesis Preparation:**

|      |              |                                    |
|------|--------------|------------------------------------|
| GEOG | 696          | Directed Geographic Research (3)   |
|      | and GEOG 697 | Directed Comprehensive Studies (3) |
|      | or GEOG 698  | Thesis (3)                         |

2. Submission of a Thesis or Comprehensive Exam approved by a Departmental Faculty Committee.

|   |           |
|---|-----------|
| <b>Total Units Required for the M.A. Degree</b> | <b>30</b> |
|---|-----------|

**Course List****GEOG 101. The Physical Environment (3)**

Study of the natural environment—nature, distribution and relationships of climate, landforms, vegetation, hydrology and soils. (Available for General Education, Natural Sciences.)

**GEOG 102. Physical Geography Lab (1)**

*Corequisite: GEOG 101 or equivalent.* Observations, experiments and demonstrations designed to familiarize students with techniques utilized by physical geographers. 3 hours lab. (May be used to satisfy the lab requirement in the Natural Science Section of General Education.)

**GEOG 103. Weather (3)**

Study of atmospheric processes. (Available for General Education, Natural Sciences.)

**GEOG 105. Weather Lab (1)**

*Corequisite: GEOG 103.* Observations, experiments and demonstrations designed to familiarize students with the nature of California's weather and climate. 3 hours lab per week. (May be used to satisfy the lab requirement in the Natural Science Section of General Education.)

**GEOG 106LRS. The Physical Environment for Liberal Studies Majors (3)**

Study of the natural environment—nature, distribution and relationships of climate, landforms, vegetation, soils, water bodies and the solar system. (Available for Earth Science credit for Liberal Studies majors.)

**GEOG 107. Introduction to Human Geography (3)**

Examines the patterns and processes of human occupancy of the Earth, with a focus on the U.S. Topics such as population, agriculture, language, religion, ethnicity, politics and economics are covered using the tools, methods and perspective of the geographer. (Available for General Education, Social Sciences.)

**GEOG 150. World Geography (3)**

Geographical survey of the world's major regions, with emphasis on those features important to an understanding of current global concerns and problems. (Available for General Education, Social Sciences.)

**GEOG 206/L. Introduction to Geographical Information Science and Lab (2/1)**

*Corequisite: GEOG 206L.* Introduction to fundamental concepts of geographical information science. Course will cover technical and context knowledge for basic spatial analysis, including data gathering, analysis and display through digital methods. Geographic Information Systems (GIS) will be used to explore spatial questions about environmental and social issues. Lab demonstrates these principles through hands-on experience with the dominant GIS software, ArcGIS. Students also will be exposed to other online GIS software applications. 2 hours lecture, 3 hours lab (Available for General Education, Lifelong Learning.) (IC).

**Upper Division****GEOG 300. The Geographer's Craft (3)**

Introduction to geography as a discipline, emphasizing its approach to analysis and problem solving, resources for conducting geographic research, methods for answering geographic questions, and techniques for communicating insights.

**GEOG 301. Cultural Geography (3)**

*Prerequisites: Lower Division course in the social sciences; Completion of the Lower Division writing requirement.* Study of the literature, traditions and theories dealing with the human-environment relationship and an analysis of the approaches used by cultural geographers to elucidate the nature of this relationship. Major themes are the cultural landscape, cultural ecology and environmental perception. (Available for General Education, Social Sciences.)

**GEOG 304/L. Map and Imagery Interpretation (2/1)**

*Prerequisite: GEOG 101 or 150. Corequisite: GEOG 304L.* Introduction to reading maps and interpreting aerial imagery. Emphasis on making simple measurements from maps and imagery, techniques of interpreting the physical and cultural landscape and elementary map-making. 1 hours lecture, 2 hours lab.

**GEOG 305/L. Maps and Graphics and Lab (2/1)**

*Corequisite: GEOG 305L. Preparatory: Lower Division course in Geography or other relevant field.* Design, use and preparation of maps and graphs. 2 hours lecture, 2 hours lab.

**GEOG 306/L. Intermediate Geographical Information Science and Lab (2/1)**

*Prerequisite: Geog 206/L or instructor consent. Corequisite: GEOG 306L.* Intermediate course on theories and application of geographical information science. Course will cover fundamental concepts of database management, spatial analysis and data creation. Geographic Information Systems (GIS) will be used to discover spatial relationships among environmental and social phenomena. Labs will provide an introduction to spatial data structures and raster-based applications of GIS. Labs offer hands-on experience with the dominant GIS software, ArcGIS. 2 hour lecture, 2 hours lab.

**GEOG 311/L. The Atmosphere and Lab (3/1)**

*Prerequisites: GEOG 101 or 103 or ASTR 152 or GEOL 100 or 110 or 122; Completion of the Lower Division writing requirement.* Explanations of rain, wind, smog, etc. Basic principles of energy transfer. 3 hours lecture, 3 hours lab. (Available for General Education, Natural Sciences.)

**GEOG 316. Environmental Geography (3)**

*Prerequisite: Completion of the Lower Division writing requirement. Recommended Preparatory or Corequisite: GEOG 316L.* Introduction to the principles of environmental geography with special emphasis on the connections between human activities and the physical (natural) environment. Emphasis will be placed on identifying the historical and contemporary impact of humans on the natural environment.

Students using this course to satisfy a General Education requirement in the Natural Sciences may satisfy the corresponding lab requirement by completing GEOG 316L. 3 hours lecture.

**GEOG 316L. Environmental Geography Lab (1)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Recommended Preparatory or Corequisite:* GEOG 316. Practical exercises on spatial patterns of demographics and natural resources, air pollution, land degradation, energy use and generation, and the potential for sustainability. Students using this course to satisfy a General Education requirement in the Natural Sciences may satisfy the corresponding lecture requirement by completing GEOG 316. 3 hours lab.

**GEOG 318. Europe (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Examination of the physical, historical, cultural, economic and political factors that have shaped the contemporary European landscapes. (Available for General Education, Comparative Cultural Studies.)

**GEOG 321. United States (3)**

*Prerequisites:* Lower Division course in the social sciences; Completion of the Lower Division writing requirement. Regional and cultural geography of the U.S. emphasizing human-environment interaction and the evolution of contemporary geographical patterns of population distribution, resource exploitation, transportation, and agricultural and industrial production. (Available for General Education, Social Sciences.)

**GEOG 322. Latin America (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Spatial and ecological survey of the environment, cultures, economies and societies of the Latin American nations. Emphasizes the changing settlement geography and pays special attention to Brazil and the Andean countries. (Available for General Education, Comparative Cultural Studies.)

**GEOG 323. Canada (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Analysis of Canada's regional geographic structure, with emphasis on the changing cultural, economic and political geography. Stresses geographic interrelationships with the U.S. (Available for General Education, Comparative Cultural Studies.)

**GEOG 324. China (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Geographical analysis of the peoples and culture of China, emphasizing features important to an understanding of China's cultural and regional diversity and contemporary problems. (Available for General Education, Comparative Cultural Studies.)

**GEOG 326. Africa (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Geographical analysis of the peoples and cultures of Africa, emphasizing features important to an understanding of Africa's cultural and regional diversity and contemporary problems. (Available for General Education, Comparative Cultural Studies.)

**GEOG 328. Mexico (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Geographical analysis of Mexico, emphasizing features important to an understanding of Mexico's regional and cultural diversity and contemporary problems. (Available for General Education, Comparative Cultural Studies.)

**GEOG 330. California (3)**

*Prerequisites:* Lower Division course in the social sciences; Completion of the Lower Division writing requirement. An exploration of the diverse physical and human landscapes of California. The course examines the state's environmental context (climate, landforms, water, vegetation, wildlife,

minerals); human imprints on the natural landscape (population, agriculture, industry, urbanization); and the physical and human challenges facing California today. (Available for General Education, Social Sciences.)

**GEOG 334. Geography of Oceania (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Cultural and regional geography of Oceania, including Australia, New Zealand and the Pacific nations, territories and protectorates. (Available for General Education, Comparative Cultural Studies.)

**GEOG 340. Economic Geography (3)**

*Prerequisite:* Lower Division course in Geography or ECON 160 or 300. Principles governing spatial organization of society. Theoretical and empirical approaches to location of urban and rural settlement and economic activities. Spatial structures, their interrelationships and changes in organization.

**GEOG 345. The Geography of Tourism (3)**

*Prerequisite:* Lower Division course in the social sciences; Completion of the Lower Division writing requirement. Examination of the spatial patterns of the various forms of tourism and its impact on select world regions. Topics covered in this course include host-guest relations, the cultural and economic impacts of tourism, the cruise ship industry, urban tourism and ecotourism. A wide range of case studies will include local as well as many international destinations.

**GEOG 350. Metropolitan Los Angeles (3)**

*Prerequisite:* Lower Division course in Geography. Geographical analysis of the Los Angeles urban area, with emphasis on physical, economic and cultural aspects of its development. (Available for General Education, Social Sciences.)

**GEOG 351. Urban Geography (3)**

*Prerequisites:* Lower Division course in the social sciences; Completion of the Lower Division writing requirement. Geographical analysis of past and current patterns of world urbanization. Emphasis on city origins, growth, development and current problems. (Available for General Education, Social Sciences.)

**GEOG 360/L. Introduction to Spatial Analysis and Lab (2/1)**

*Prerequisite:* MATH 140. *Corequisite:* GEOG 360L. Application of probability theory, statistical procedures and dimensional analysis to problems in economic and cultural geography, climatology, landforms and related fields. Graphic representation. 2 hours lecture, 2 hours lab.

**GEOG 364/L. Geography of World Ecosystems (2/1)**

*Prerequisite:* GEOG 101. *Corequisite:* GEOG 364L. Major vegetative formations of the world, their soil (edaphic) and atmospheric environments, and the role of human activity in modification, destruction and replacement of vegetative structures and environments through purposeful and inadvertent activities. Examines local vegetative types on field trips. 2 hours lecture, 2 hours field activity.

**GEOG 365/L. Geomorphology and Lab (3/1)**

*Prerequisites:* GEOG 101 or GEOL 101; Completion of the Lower Division writing requirement. *Corequisite:* GEOG 365L. Analytical and descriptive study of physical processes responsible for development and evolution of Earth's surface features. Aspects of local geomorphology will be observed on field trips. 3 hours lecture, 2 hours field activity. (Available for General Education, Natural Sciences.) (IC)

**GEOG 366/L. Geography of Environmental Hazards/lab (3/1)**

Observations, experiments and demonstrations designed to familiarize students with the scientific investigation of environmental hazards. 3 hours lecture, 3 hours lab. (Available for General Education, Natural Sciences.)

**Courses Acceptable for Master's Degree**

Note that 300-level courses in Geography do not carry graduate credit for a Master's Degree in Geography. Electives will normally be in Geography at the 600-level. However, with Departmental approval, certain 400-level courses in Geography and related fields may be counted toward the Master's Degree.

**GEOG 402/L. Physical Geography Techniques/Lab (2/1)**

*Corequisite: GEOG 402L. Preparatory: GEOG 311 or 364 or 365.* This techniques course in geomorphology, climatology and biogeography includes the principles of field surveying and mapping, water sampling, stream velocity and sediment transport measurement, basic weather station instrumentation, programming and deployment, and sampling designs for vegetation and soil analysis. The course will include 2 off-campus field trips. 2 hours lecture, 2 hours activity. Available for graduate credit.

**GEOG 404A-Z. Field Studies in Geography (1-3)**

*Prerequisite: 6 units in Geography. Preparatory: GEOG 300.* Techniques of field observation, recordings and analysis through mapping and written reports. A-Los Angeles; B-Foreign; E-Environmental; J-Cultural; K-Tourism; T-Urban; U-Physical; V-Geomorphology; Y-Cartography; Z-Selected Topics. Field studies may be repeated for credit. Available for graduate credit.

**GEOG 406/L. Advanced Geographical Information Science and Lab (2/1)**

*Prerequisite: GEOG 306 or permission of instructor. Corequisite: GEOG 406L.* Course will cover advanced topics in geographical information science. Students will investigate geographic data structures, advanced concepts in database design, algorithms for spatial data analysis, web-based mapping applications, customized applications, and implementation and management issues associated with Geographic Information Systems (GIS). Lab will demonstrate these issues through the use of ArcGIS software. 2 hours lecture, 2 hours lab.

**GEOG 407/L. Remote Sensing and Lab (2/1)**

*Prerequisite: GEOG 304/L or 305/L or 306/L or permission of the instructor. Corequisite: GEOG 407L.* Theory and practice of remote sensing by satellites and aircraft in visible, infrared and microwave portions of the spectrum. Problem-oriented course emphasizing the application of image processing software and techniques to digital satellite imagery. 2 hours lecture, 2 hours lab.

**GEOG 408A/L. Human/Cultural Applications in GIS and Lab (2/1)**

*Prerequisite: GEOG 306/L or permission of instructor.* Advanced applications of geographical information systems. Includes analysis of crime patterns, patterns of disease and health care delivery, population and housing characteristics, voting behavior and redistricting, market area analysis, utility management, transportation. Students taking 408A/L are also eligible to take GEOG 408B/L for credit. This course meets the GEOG 408 GIS Certificate requirement. 2 hours lecture, 2 hours lab.

**GEOG 408B/L. Environmental/physical Applications in GIS and Lab (2/1)**

*Prerequisite: GEOG 306/L or permission of instructor.* Advanced applications of geographical information systems. Includes analysis of environmental hazards, animal and plant species distributions, distributions of archeological sites, mineral exploration, forest inventory and management, navigation, hydrology, climatology, geomorphology. Project may result in the development of customized applications of software. Students taking 408B/L also are eligible to take GEOG 408A/L for credit. This course meets the GEOG 408 GIS Certificate requirement. 2 hours lecture, 2 hours lab.

**GEOG 409/L. Digital Cartography and Lab (2/1)**

*Prerequisite: GEOG 305/L. Corequisite: GEOG 409L.* Advanced design, use and presentation of maps and information graphics. Course will explore computer-assisted cartography in theory and practice. Topics will include cartographic communications, data acquisition and design for computer generated mapping. 2 hours lecture, 2 hours lab. Available for graduate credit.

**GEOG 411. World Climate (3)**

*Prerequisite: GEOG 103 or 311.* Comprehensive description and analysis of global climate patterns, long-distance cause-and-effect relationships, and air-sea interaction.

**GEOG 412. Boundary Layer Climatology (3)**

*Prerequisite: GEOG 311.* Interrelations of weather and local topography and vegetation. Land-sea breezes, mountain-valley winds, natural and artificial windbreaks, sandstorms and dust storms, air pollution, local heat, moisture sources and sinks, frost prevention, and forest fires. Field studies.

**GEOG 413. Bioclimatology (3)**

*Prerequisite: GEOG 311.* Description, measurement and analysis of effects of climate on plants, animals and humans.

**GEOG 414. Hydroclimatology (3)**

*Prerequisite: GEOG 311.* Details of the hydrologic cycle, emphasizing cloud physics, precipitation, evaporation and runoff. Nature and causes of rainfall variability in time and space. Cloud seeding. Irrigation and water supply problems. Field studies.

**GEOG 415. Air Pollution (3)**

*Prerequisite: GEOG 103 or 311.* Role of meteorology in the transport and diffusion of air pollution; estimation of pollutant concentrations from continuous releases; familiarization with meteorological instrumentation and correct exposure; and factors related to site selection, control programs, planning and interpreting of surveys in relation to air pollution.

**GEOG 416. Global Warming (3)**

*Prerequisite: GEOG 103 or 311.* Analysis of Earth's changing climate throughout geologic time. Includes consideration of the mechanisms of climate change, techniques of climate reconstruction and analysis, and the chronology of climate change. Examines the issue of global warming, climate data, climate models and predictions. Considers the environmental impact of global warming.

**GEOG 417. California for Educators (3)**

*Prerequisite: Limited to members of Multiple Subject Credential Program.* Examination of California, focusing on its political, social and economic growth, its settlement, its population patterns, resource exploitation and human-environment interaction. Spatial and temporal variation of these factors is emphasized. (Cross listed with HIST 417.)

**GEOG 435. Historical Geography of Russia (3)**

*Prerequisite: Lower Division Geography course or equivalent.* Historical geography of Russia, emphasizing changing distributions of physical and cultural elements and evolution of the cultural landscape.

**GEOG 444. Conservation (3)**

*Prerequisites: GEOG 101; Completion of the Lower Division writing requirement.* Lecture-discussion on the percepts, concepts, practices and problems in the human utilization of resources. Regular written assignments are required.

**GEOG 451. Advanced Urban Geography (3)**

*Prerequisites: GEOG 351; Completion of the Upper Division writing requirement.* Detailed analysis of theories and concepts of urban geography, including models of urban structure, central place theory, urban systems development, urban social geography and government policy. Comparative analysis of North American, Latin American and European cities.

**GEOG 452. Urban Land-Use Planning (3)**

*Prerequisites:* Lower Division course in Geography, Political science or Sociology; Completion of the Lower Division writing requirement. Principles and techniques of land-use planning in urban areas. Regular written assignments are required.

**GEOG 453. Housing and Community Development (3)**

*Prerequisites:* GEOG 351; Completion of the Upper Division writing requirement. Detailed investigation of residential land use, neighborhood formation and policy impacts. Case studies drawn from the local area are used to augment the course.

**GEOG 459. Environmental Impact Studies (3)**

*Prerequisites:* Lower Division Geography course; Upper Division standing; Completion of the Lower Division writing requirement. Geographic analysis of environmental control legislation affecting municipal, state and federal planning, and the application of geographic analysis to development of systems for evaluating planned land-use activities. Regular written assignments are required.

**GEOG 460/L. Spatial Analysis and Comparison and Lab (2/1)**

*Prerequisite:* GEOG 360 or equivalent. *Corequisite:* GEOG 460L. Statistical analysis of quantitative data by areas. Measurement of aggregation and concentration, description of a real distribution and gradients, and significance of similarities and differences. 2 hours lecture, 2 hours lab.

**GEOG 462/L. Computer Applications in Geography and Lab (2/1)**

*Prerequisite:* Upper Division standing. Nature of digital computers. Coding geographic data. Utilization of standardized computing routings, including geographical data banks. Computer mapping. Computer programming. 2 hours lecture, 3 hours lab.

**GEOG 465/L. Fluvial Geomorphology and Lab (2/1)**

*Prerequisite:* GEOG 365. *Corequisite:* GEOG 465L. Role of water in landform development—weathering, overland flow, open channel characteristics, drainage pattern evolution and drainage basin characteristics. 2 hours lecture, 2 hours field activity.

**GEOG 466/L. Glacial and Periglacial Geomorphology and Lab (2/1)**

*Prerequisite:* GEOG 365. *Corequisite:* GEOG 466L. Geographic aspects of landform development in cold climates—glacial processes, frost-activated processes, Pleistocene events and environments. 2 hours lecture, 2 hours field activity.

**GEOG 467/L. Arid Lands Geomorphology and Lab (2/1)**

*Prerequisite:* GEOG 365. *Corequisite:* GEOG 467L. Landform development in deserts—origin of deserts, erosion and sedimentation in dry climates, morphology, and aeolian processes. 2 hours lecture, 2 hours field activity.

**GEOG 468/L. Coastal Geomorphology and Lab (2/1)**

*Prerequisite:* GEOG 365. *Corequisite:* GEOG 468L. Concepts and theories of beach and coastline development—near shore oceanographic processes, sea level fluctuations, coastal morphology, and problems of classification. 2 hours lecture, 2 hours field activity.

**GEOG 482. Population Geography (3)**

*Prerequisite:* Lower Division course in Geography. Geographical analysis and study of the distribution, composition, migration and growth of world population.

**GEOG 486. Medical Geography (3)**

*Prerequisites:* Lower Division course in Geography; Completion of the Lower Division writing requirement. Examination of the spatial distribution of human diseases at world, regional, national and local scales. Special emphasis on understanding the physical and cultural factors associated with patterns of disease.

**GEOG 487. Geography of Popular Culture (3)**

*Prerequisite:* Course in human geography. Examines the patterns and processes of American popular culture. Topics include the geography of sports, music, television, movies and popular architecture.

**GEOG 486SOC. Social Science Career Internship (3)**

*Prerequisites:* Upper Division standing in a social or behavioral science major, Appropriate methods course as specified by the Department; Consent of instructor. Social and behavioral science principles will be applied to the workplace. At least 9 hours per week of supervised field work is required. Students will complete learning contracts and submit written reports related to their internship. (See section on Academic Internship.) (Cross listed with PAS, POLS, PSY and SOC 486SOC.)

**GEOG 490. Senior Project (3)**

*Prerequisite:* GEOG 300 or consent of instructor. Preparation of a research proposal and writing of a senior paper under close faculty supervision. Available for graduate credit.

**GEOG 494. Internship (3)**

*Prerequisite:* GEOG major with senior standing. Upon prior approval of the Internship Coordinator, a student may earn 3 units of credit in the major for professional service as a geographer in a public agency or private organization. No more than 3 units may be applied to the major. Academic Internship course.

**GEOG 496A-Z. Experimental Topics Courses in Geography (3)**

*Prerequisite:* Appropriate Upper Division course in Geography. Selected topics in Geography, with course content to be determined. Topics may be repeated for credit.

**GEOG 497A-F. Senior Seminar in Geography (3)**

*Prerequisite:* Appropriate Upper Division course in geography. In a seminar setting, students are guided in reading, research and writing on selected topics within one of the major subdisciplines of geography. Each seminar focuses on a particular subject within the designated subdiscipline. Subjects will vary and be determined each semester. Seminars in the same subdiscipline may be repeated for credit. A) Physical, (B) Cultural, (C) Economic, (D) Urban, (E) Regional, (F) Techniques.

**GEOG 498. Tutorial in Geography (1)**

*Prerequisite:* Lower Division course in Geography. Individual, supervised study in selected areas of the student's interests. A maximum of 6 units is permissible for credit in the major.

**GEOG 499A-C. Independent Study (1-3)**

## Graduate

Graduate courses in Geography are reserved for students who have been admitted to the Geography Graduate Program under either Classified or Conditionally Classified status and are not appropriate for Post-Baccalaureate Unclassified (PBU) students. Graduate students who have been admitted into formal Master's Programs in other Departments may enroll in Geography graduate courses with the consent of the instructor.

All of the Geography seminars numbered 605 through 695 focus on the advanced study of a specific topic or subfield determined by the instructor, and the specific content may vary with each offering. Each seminar will normally involve intensive reading and discussion of relevant literature and individual student preparation and presentation (oral and written) of a research paper. The general prerequisite for all of the seminars numbered 605 through 695 is Classified status or consent of instructor.

**GEOG 600. Geographic Thought, Analysis and Research (3)**

Introductory seminar designed for first-year graduate students. Analysis of the trends in the theories, methods and problems pertinent to contemporary geography, including a review of the skills required for geographical research, analysis and writing.

**GEOG 610A-G. Geomorphology (3)**

(A) Fluvial, (B) Glacial and Periglacial, (C) Arid Lands, (D) Coastal, (E) Special Topics in Geomorphology

**GEOG 620A-G. Climatology (3)**

(A) Boundary Layer, (B) Bioclimatology, (C) Hydroclimatology, (D) Air Pollution, (E) Paleoclimatology, (F) Climatic Change, (G) World Climate.

**GEOG 630A-F. Environmental Studies (3)**

(A) Environmental Geography, (B) Biogeography, (C) Special Topics in Environmental Geography, (D) Ecosystem Studies, (E) Human Impact on the Environment, (F) Natural Resources.

**GEOG 640A-D. Economic Geography (3)**

(A) Special Topics in Economic Geography, (B) Transportation, (C) Industrial Location, (D) Business Location Analysis.

**GEOG 650A-D. Urban Geography (3)**

(A) Special Topics in Urban Geography, (B) Housing and Community Development, (C) Urban Social Geography, (D) Metropolitan Los Angeles

**GEOG 660A-D. Cultural Geography (3)**

(A) American Cultural Landscapes, (B) Cultural Ecology, (C) Special Topics in Cultural Geography, (D) Social/Ethnic Studies.

**GEOG 670A-G. Global Studies (3)**

(A) Population Geography, (B) Medical Geography, (C) Economic Development, (D) Tourism, (E) International Trade, (F) Globalization, (G) Political Geography.

**GEOG 680A-N. Regional Geography (3)**

(A) California, (B) United States, (C) Canada, (D) Mexico, (E) Central America, (F) South America, (G) Europe, (H) Southwest Asia, (I) South Asia, (J) Southeast Asia, (K) East Asia, (L) Eurasia, (M) Africa, (N) Oceania.

**GEOG 690A-H. Geographic Information Science (3)**

(A) Special Topics in GIS, (B) Spatial Statistics, (C) Digital Cartography, (D) Remote Sensing, (E) Image Interpretation, (F) Methods in GIS, (G) Applications in GIS, (H) Environmental Applications of GIS.

**GEOG 695 A-C Methods of Geographical Analysis (3)**

(A) Quantitative Analysis, (B) Methods in Geomorphology, (C) Methods in Climatology.

**GEOG 696. Directed Graduate Research (3)**

To be taken near the end of the student's Graduate Program and prior to GEOG 698. Supervised research leading to the development of a thesis topic, preparation of a preliminary bibliography and a formal thesis proposal, and selection of a Faculty Thesis Committee.

**GEOG 697. Directed Comprehensive Studies (3)**

*Prerequisite: GEOG 696.* Focused readings followed by Comprehensive Exams under the direction of the student's Committee. Only one enrollment permitted.

**GEOG 698. Thesis (3)**

*Prerequisite: GEOG 696.* Researching and writing the Master's thesis, under the supervision of the student's Faculty Thesis Committee. Only one enrollment permitted.

**GEOG 699A-C. Independent Study (1-3)**

*Prerequisite: Consent of instructor, Graduate Coordinator and Department Chair.* Maximum of 3 units may be applied to the student's Program and only to the elective requirement in the Option 1 Program.

# Geological Sciences

## College of Science and Mathematics

**Chair:** Vicki Pedone

**Live Oak Hall (LO) 1202**

**(818) 677-3541**

**[www.csun.edu/geology](http://www.csun.edu/geology)**

### Staff

Terry Dunn, Mari Flores, Dave Liggett, Mike Tacsik, Perla Vielma

### Faculty

Robinson Cecil, Matthew d'Alessio, Richard Heermance, Kathleen Marsaglia, Elena Miranda, Vicki Pedone, Joshua Schwartz, Gerry Simila, Jon Sloan, Richard Squires, Ali Tabidian, Dayanthie Weeraratne, Douglas Yule

### Emeritus Faculty

Herbert Adams, Lorence Collins, George Dunne, Eugene Fritsche

## Programs

Undergraduate:

**B.S., Geology**

**Option I: Geology**

**Option II: Environmental Geology**

**Option III: Secondary Teaching**

**Option IV: Geophysics**

**Minor in Geology**

Graduate:

**M.S., Geology**

**M.S., Geology, Geophysics Option**

## The Major

Geologists play an important role in society. They apply their skills and knowledge to solve complex problems related to how humans interact with natural systems and hazards, as well as the exploration for water, petroleum and other natural resources. They share their unique knowledge of Earth systems through teaching and public outreach on such topics as understanding earthquake hazards. Geology majors gain scientific knowledge of past and present planetary processes and laboratory and field skills that prepare them for post-graduate study and professional careers in such diverse fields oceanography, paleontology, geophysics, geochemistry, hydrogeology, engineering geology and teaching.

## Careers

Careers in geosciences are rewarding in every sense. Jobs in geosciences are in high demand and pay well. A wide variety of job opportunities in both private industry and government service are available to geology graduates. Engineering geologists evaluate sites for homes, commercial buildings, highways and dams. Environmental geologists conduct environmental impact studies and evaluate the pollution distribution and remediation of contaminated sites. Hydrogeologists evaluate the development and quality control of ground water resources. Economic geologists explore for earth resources such as oil, gas, coal, precious and semi-precious metals and uranium. Agencies in all levels of government—city, county, state and federal—employ geologists for regulatory, inspection and monitoring activities. Additionally, a degree in geology is excellent background for preparing to teach physical science and Earth science at the secondary-school level and, for those with an M.S. Degree, at the community-college level. Finally, the B.S. Degree serves as excellent preparation for entry to graduate programs. Many students go on to earn advanced degrees, and the Department's majors have been accepted by some of the nation's best graduate programs in the geosciences.

## Academic Advisement

Undergraduate and graduate majors must be advised each semester by the appropriate advisor in their Degree Program in order to register for classes.

## Student Learning Outcomes

Undergraduate majors will receive instruction of sufficient breadth, depth and currency to prepare them for successful appointment to entry-level professional work or graduate school. At the time of graduation, they will be able to:

- 1) Demonstrate conceptual understanding of different earth materials and the processes that shape them throughout their history;
- 2) Identify geologic problems and develop testable hypotheses that aid in their solution, both independently and in collaboration with others;
- 3) Demonstrate skills in standard data-gathering and data-analysis methods in both lab and field settings; and
- 4) Present polished summaries, both written and oral, of their geological discoveries.

Graduates of the Master of Science Program will be well prepared to:

- 1) Assume responsible positions in industry or in government agencies;
- 2) Serve as instructors in secondary-school or community-college classrooms; or
- 3) Enter Ph.D. programs at other universities

At the time of graduation, they will be able to:

- 1) Demonstrate content knowledge appropriate to professional career goals;
- 2) Frame novel questions or problems in geology and determine the data required to answer them;
- 3) Collect high-quality geologic data using standard techniques and begin to develop state-of-the-art methods;
- 4) Apply theoretical, conceptual and observational knowledge to the analysis and interpretation of geologic data;
- 5) Compile and critique geologic literature pertinent to original research; and
- 6) Communicate geologic knowledge, findings and interpretations in reports, both written and oral, that are well-organized, well-illustrated and professionally presented.

## Department Programs

The Department offers the B.S. and M.S. Degrees, and Minor in Geology. There are four B.S. Degree Options:

### Option I: Geology

This Option provides the most flexibility, preparing students for a full range of technical careers in geoscience and for advanced studies in graduate school. It can be specialized toward different branches of geosciences by the appropriate choices of elective courses.

### Option II: Environmental Geology

This Option provides specific focus on problems related to environmental issues. Students with this background may be better positioned to obtain an entry-level job in the environmental industry.

### Option III: Secondary Teaching

This Option provides the skill sets needed by those planning to teach Earth sciences in secondary school. Students also pursue basic course work in a broad range of sciences.

### Option IV: Geophysics

This Option provides the necessary preparation in mathematics and physics to succeed in geoscience applications that require a strong background in these associated disciplines. Students that complete this option will be well prepared for graduate studies in geophysics or an entry-level position in geophysics.

The Master of Science Program has two Options: Geology and Geophysics. These programs are designed to: 1) Rtrain individuals with the competence required by the geological profession for employment in

industry and government agencies; and 2) Enable promising students to attain a level of knowledge and research ability required for admission to a Ph.D. program; and 3) provide basic course work and research requirements for students planning to teach geology at the community-college level.

A Minor in Geology is designed for students interested in the Earth, but with a major in another Department. For example, majors in other sciences, mathematics, engineering, urban planning and business often find employment in environmental and energy-related industries. For these majors, the Geology Minor broadens the individual's background and competence in the Earth sciences.

### Requirements for the Bachelor of Science Degree

To enroll in MATH 225A or 150A and PHYS 100A, students must first obtain a satisfactory score on the Mathematics Placement Test (MPT). To enroll in CHEM 101/L, students must first obtain a satisfactory score on the Chemistry Placement Test (CPT). Without satisfactory scores, students will be required to take additional courses in preparation for the required courses.

#### A. Option I: Geology

##### 1. Lower Division Required Courses (38-39 units)

|      |             |   |
|------|-------------|---|
| CHEM | 101/L       | General Chemistry I and Lab 4/1           |
| CHEM | 102/L       | General Chemistry II and Lab (4/1)        |
| GEOL | 101/102     | Geology of Planet Earth and Lab (3/1)     |
| GEOL | 110/112     | Earth and Life through Time and Lab (3/1) |
| GEOL | 207/L       | Mineralogy and Lab (3/1)                  |
| GEOL | 235         | Introduction to Field Methods (2)         |
| MATH | 255A*       | Calculus for the Life Sciences I (3)      |
| MATH | 255B*       | Calculus for the Life Sciences II (3)     |
|      | or MATH 140 | Introductory Statistics (4)               |
| PHYS | 100A/L**    | General Physics I and Lab (3/1)           |
| PHYS | 100B/L**    | General Physics II and Lab (3/1)          |

\*or MATH 150A and 150B

\*\*or PHYS 225, 226, 220AL or 220BL

##### 2. Upper Division Required Courses (28 units)

|      |         |  |
|------|---------|--|
| GEOL | 307/L   | Petrology and Lab (3/1)                    |
| GEOL | 310/L   | Structural Geology and Lab (3/1)           |
| GEOL | 341/L   | Sedimentary Geology and Lab (3/1)          |
| GEOL | 351/L   | Fundamentals of Paleontology and Lab (3/1) |
| GEOL | 430A, B | Summer Field Geology (2, 2)                |
| GEOL | 443/L   | Principles of Stratigraphy and Lab (3/1)   |
| GEOL | 464/L   | Applied Geophysics and Lab (3/1)           |

##### 3. Electives (9 units)

These should be selected from any Upper Division Geology courses, excluding of 300 and 301. Other electives might qualify, but require approval of the Departmental undergraduate advisor. Note: Students in the Honors Program must take GEOL 497 (1 unit) and 498 (3 units), plus 5 units of electives.

|   |              |
|---|--------------|
| <b>Total Units in the Major, Option I</b>   | <b>75-76</b> |
| <b>General Education (Basic Skills Mathematics and the entire section of Natural Sciences are met by required courses in the major)</b> | <b>36</b>    |
| <b>Additional Units</b>   | <b>8-9</b>   |
| <b>Total Units Required for the B.S. Degree, Option I</b>   | <b>120</b>   |

#### B. Option II: Environmental Geology

##### 1. Lower Division Required Courses (42-43 units)

|      |             |  |
|------|-------------|--|
| CHEM | 101/L       | General Chemistry I and Lab 4/1              |
| CHEM | 102/L       | General Chemistry II and Lab (4/1)           |
| CHEM | 235/L       | Introductory Organic Chemistry and Lab (3/1) |
| GEOL | 101/102     | Geology of Planet Earth and Lab (3/1)        |
| GEOL | 110/112     | Earth and Life through Time and Lab (3/1)    |
| GEOL | 207/L       | Mineralogy and Lab (3/1)                     |
| GEOL | 235         | Introduction to Field Methods (2)            |
| MATH | 255A*       | Calculus for the Life Sciences I (3)         |
| MATH | 255B*       | Calculus for the Life Sciences II (3)        |
|      | or MATH 140 | Introductory Statistics                      |
| PHYS | 100A/L**    | General Physics I and Lab (3/1)              |
| PHYS | 100B/L**    | General Physics II and Lab (3/1)             |

\*or MATH 150A and 150B

\*\*or PHYS 225, 226, 220AL or 220BL

##### 2. Upper Division Required Courses (38 units)

|      |            |  |
|------|------------|--|
| EOH  | 454        | Environmental Health Law (3)                 |
|      | or EOH 457 | Water Supply and Sewage Disposal (3)         |
|      | or EOH 459 | Hazardous Materials and Waste Management (3) |
|      | or EOH 469 | Environmental Risk Analysis (3)              |
| GEOL | 307/L      | Petrology and Lab (3/1)                      |
| GEOL | 310/L      | Structural Geology and Lab (3/1)             |
| GEOL | 341/L      | Sedimentary Geology and Lab (3/1)            |
| GEOL | 443/L      | Principles of Stratigraphy and Lab (3/1)     |
| GEOL | 351/L      | Fundamentals of Paleontology and Lab (3/1)   |
| GEOL | 430A, B    | Summer Field Geology (2, 2)                  |
| GEOL | 464/L      | Applied Geophysics and Lab (3/1)             |
| GEOL | 500        | Environmental Geology Seminar (3)            |
| GEOL | 575/L      | Hydrogeology and Lab (3/1)                   |

##### 3. Upper Division Electives (3 units)

These should be selected from any Upper Division Geology courses excluding 300 and 301. Other electives might qualify, but require approval of the Departmental undergraduate advisor. Note: Students in the Honors Program must take GEOL 497 (1 unit) and 498 (3 units) instead of elective units.

| <b>Total Units Required for the B.S. Degree, Option III</b>   | <b>120</b> |

## B.S. Honors Program

This Program provides an opportunity for outstanding Geology majors to gain intensive research experience under individual faculty guidance. The designation "Honors" will be added to the academic record of any student who completes the Program. Admission to the Honors Program is granted by approval of the Department undergraduate advisor. Students in any of the B.S. Options are eligible, provided they have:

1. Completed 90 units of college work;
2. Maintained a GPA of 3.0 overall and in the Upper Division Geology major;
3. Taken GEOL 497 and received a minimum grade of A- in the course; and
4. Obtained the approval of a faculty sponsor who will supervise their research.

Students interested in the Honors Program should contact their Department undergraduate advisor.

## Graduation with Honors in Geology Requires:

1. Admission to the Honors Program;
2. Completion of all requirements for one of the BS Options, plus the completion of: GEOL 498—Senior Thesis (3 units);
3. Maintenance of a GPA of 3.0 overall and in the Upper Division Geology major; and
4. Approval of the undergraduate thesis by the faculty advisor, including a presentation of the research.

## Minor in Geology

### 1. Lower Division Required Courses (18 or 19 units)

|      |                  |   |
|------|------------------|---|
| CHEM | 101              | General Chemistry I and Lab 4/1           |
|      | or CHEM 100/100L | Principles of Chemistry and Lab (3/1)     |
| GEOL | 101/102          | Geology of Planet Earth and Lab (3/1)     |
| GEOL | 110/112          | Earth and Life through Time and Lab (3/1) |
| GEOL | 207/L            | Mineralogy and Lab (3/1)                  |
| GEOL | 235              | Introduction to Field Methods (2)         |

### 2. Upper Division Required Courses (8 units)

|      |       |  |
|------|-------|--|
| GEOL | 307/L | Petrology and Lab (3/1)                    |
| GEOL | 351/L | Fundamentals of Paleontology and Lab (3/1) |

### 3. Upper Division Electives (3 units)

These should be selected from any Upper Division Geology courses exclusive of 498 and 499.

|  |              |
|--|--------------|
| <b>Total Units Required in the Minor</b> | <b>29-30</b> |
|--|--------------|

## Requirements for the Master of Science Degree

See Departmental web site [www.csun.edu/geology](http://www.csun.edu/geology) for Departmental application and other information.

## M.S. in Geology

### A. For Admission to the M.S. in Geology Program:

1. B.S. Degree in Geology or its equivalent. B.S. Degree must contain at least 4 units of field geology courses, to include a significant field mapping experience and a substantial written report. Students who

do not have appropriate course work may be Conditionally admitted to the Program, but will be required to complete any deficient course work without graduate credit during their first year of residence.

- University requirements for admission, with the exception that the GPA in the last 60 hours must be 2.75. Those applicants with a GPA in the last 60 units of between 2.5 and 2.75 may still be admitted if the average of the scores on the General Aptitude portion of the Graduate Record Examination is 50th percentile or greater.
- Undergraduate Geology GPA at or above 3.0, or strong written support of a faculty sponsor in the Department.
- Graduate Record Examination, General Aptitude only. Scoring at or above the 50th percentile on at least one section.

#### B. For the Degree:

Completion, with a B average (3.0) or higher, of 30 units of approved graduate study, including a minimum of 21 units of 500- and 600-level courses. Completion and successful oral defense of a thesis is required.

##### 1. Required core courses (8 units)

- GEOL 590 Literature Seminar (1)
- GEOL 694 Graduate Thesis Research Design (1)
- GEOL 696 Directed Graduate Research (3)
- GEOL 698 Thesis or Graduate Project (3)

##### 2. Electives (22 units)

Electives should be selected with approval of the graduate student's Primary Advisor and Graduate Coordinator from 400-, 500- and 600-level courses in Geology or other fields relevant to thesis work. One 400- or 500-level course must include a lab or field component. A maximum of 9 units of 400-level courses may be applied toward the 30 units required for the Degree. The choice of electives will vary with thesis topic. Service as a Teaching Assistant in the Department may be advised as part of the student's educational experience.

### M.S. in Geology, Geophysics Option

#### A. For Admission to the M.S. in Geology, Geophysics Option Program:

- B.S. in Geology, Geophysics, Physics or its equivalent.  
Students who do not have the appropriate course work will be Conditionally admitted to the program, but will be required to complete any deficient course work without graduate credit during the first year of residence.
- University requirements for admission, with the exception that the GPA in the last 60 units must be 2.75. Those applicants with a GPA in the last 60 units of between 2.5 and 2.75 may still be admitted if the average of the scores on the General Aptitude portion of the Graduate Record Examination is 50th percentile or greater.
- Graduate Record Examination, General Aptitude only. Scoring at or above the 50th percentile on at least one section.

#### B. For the Degree:

Completion, with a B average (3.0) or higher, of 30 units of approved graduate study, including a minimum of 21 units of 500- and 600-level courses. Completion and successful oral defense of a thesis is required. Each student will be advised by a Graduate Advisory Committee consisting of 3 or more faculty members. The Graduate Advisory Committee will guide the student in the proper selection of courses related to the student's main field of interest to assure that an integrated body of knowledge is obtained. The student must obtain initial approval from the Graduate Advisory Committee for the thesis topic selected.

##### 1. Required Courses (9 units)

- GEOL 460 Theoretical Geophysics (3)
- GEOL 696 Directed Graduate Research (3)
- GEOL 698 Graduate Thesis (3)

##### 2. Electives (21 units)

Electives should be selected with approval of the graduate student Primary Advisor and Graduate Coordinator from 400-, 500- and 600-level courses in Geology, Physics, Math, Engineering or other fields relevant to thesis work. One 400- or 500-level course must include a lab or field component. A maximum of 9 units of 400-level courses may be applied toward the 30 units required for the Degree. The choice of electives will vary with thesis topic. A list of possible choices (although not exhaustive) is presented here. Service as a Teaching Assistant in the Department may be advised as part of the student's educational experience.

### Course List

#### GEOL 101. Geology of Planet Earth (3)

Studies of the geologic materials and processes that shape our Earth and environment are explored as they relate to our everyday lives. Topics include global tectonics; earthquakes and other geologic hazards; glacial, river and coastal processes that form our landscapes; water, mineral and energy resources; and waste disposal and pollution. Students using this course to satisfy the Natural Sciences section of General Education may satisfy the corresponding lab requirement by completing GEOL 102. Students may not receive credit for both GEOL 100 and 101. 3 hours lecture, field trip.

#### GEOL 102. Geology of Planet Earth Lab (1)

*Recommended Corequisite or Preparatory: GEOL 100 or 101.* Identification of rocks and minerals. Introduction to topographic maps and how they are used to interpret geologic processes and geologic history. Interpretation of geologic maps and data relating to earthquakes and plate tectonics. Satisfies the lab requirement in Natural Sciences of General Education provided either GEOL 100 or 101 is completed. 3 hours lab, field trips.

#### GEOL 104. Living With Earthquakes in California (3)

Not for credit in Geology major. Examines the revolution in earthquake hazard awareness that has occurred in California since the mid-1980's when the scale of the earthquake hazard began to emerge from scientific discovery. Students will investigate the reciprocal ways in which science has informed the public, political and economic debate over the implications of earthquake hazard as well as exploring the manner by which public and political priorities have shaped the direction of scientific and engineering response to the hazard. Lecture 3 hours. (Available for General Education, Lifelong Learning.)

**GEOL 106LRS. Earth and Space Science for Liberal Studies Majors (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Analysis of Earth systems (atmosphere, hydrosphere, lithosphere and biosphere), the solar system and the universe. Selected topics include structure and composition of the Earth; minerals and rocks; plate tectonics; landforms and surface processes; natural hazards, such as floods, earthquakes and volcanic eruptions; physical oceanography, the water cycle, weather and climate; formation of the universe and solar system; and evolution of stars and galaxies. 3 hours lecture per week. Available for Earth Science credit for Liberal Studies. (Cross listed with GEOG 106LRS.)

**GEOL 107/L. Geology Goes Hollywood and Lab (3/1)**

*Corequisite:* GEOL 107L. This online lecture and laboratory combination explores how Earth science issues that impact society are depicted in film and television and how these depictions influence the viewers' perceptions of Earth science. Students will learn fundamental concepts of Earth science, and how to evaluate the appropriateness and accuracy of Earth science portrayed in fictional and documentary film and television. (Available for General Education, Natural Sciences, fulfills lecture and lab credit.)

**GEOL110. Earth and Life through Time (3)**

Introduction to the dynamic study of the Earth's evolution, including changes in its crust, oceans, atmosphere and climate and how these changes, woven into the fabric of geologic time, affected major groups of plants and animals, including dinosaurs and humans. Students using this course to satisfy a General Education requirement Natural Sciences may satisfy the corresponding lab requirement by completing GEOL 112.

**GEOL 112. Earth and Life through Time Lab (1)**

*Recommended Corequisite or Preparatory:* GEOL 110. Course content includes introduction to fossil, relative-age relationships and construction and interpretation of maps and cross-sections that emphasize paleogeography and sedimentary rocks. May be used satisfy the lab requirement in Natural Sciences of General Education provided GEOL 110 is completed. 3 hours lab, 1-day field trip.

**GEOL 122. The World Ocean (3)**

Introduction to the oceans. Evolution of the ocean basins, their environment and resources. Aspects of biological, chemical, geological and physical oceanography. Students using this course to satisfy a General Education requirement may satisfy the corresponding lab requirement by completing GEOL 123. 3 hours lecture, field trips.

**GEOL 123. World Ocean Lab (1)**

*Recommended Corequisite or Preparatory:* GEOL 122. Introduction to oceanographic data, its collection and interpretation. May be used to satisfy the lab requirement in the Natural Sciences of General Education provided GEOL 122 also is completed. 3 hours lab, field trips.

**GEOL 207/L. Mineralogy and Lab (3/1)**

*Corequisite:* 207L. *Preparatory:* GEOL 101, 102; CHEM 101 or 100. Study of the nonsilicate and silicate minerals with emphasis on crystallography, mineral chemistry, physical properties, occurrence, origin and associations. 3 hours lecture, 3 hours lab, field trips.

**GEOL 235. Introduction to Field Methods (2)**

*Preparatory:* GEOL 102. Study of and practice in techniques and methods of geologic field studies, including note taking, mapping, analysis of geologic history and structures, and introduction to geologic illustration and report writing. Approximately 6 days of field work (including overnight weekend trips) associated with a weekly 3-hour instructional and advisement meeting designed to develop skills in field techniques and to use GIS and other relevant software in creating geologic illustrations.

## Upper Division

**GEOL 300. Environmental Geology (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Study of the relationship between humans and the Earth and the application of geology to environmental problems. Topics include geological hazards, pollution, mineral and energy resources, land use planning and environmental impact. Students using this course to satisfy a General Education requirement in the Natural Sciences may satisfy the corresponding lab requirement by completing GEOL 301. 3 hours lecture, field trips.

**GEOL 301. Environmental Geology Lab (1)**

*Recommended Corequisite or Preparatory:* GEOL 300. Introduction to geologic materials and processes as they are applicable to the human environment. Included are practical exercises on rocks, minerals, geologic maps and water, mineral and energy resources. Earthquake, volcanic, landslide and flood hazard evaluations are also performed. 3 hours lab, field trips. May be used to satisfy the lab requirement in the Natural Sciences of General Education provided GEOL 300 also is completed.

**GEOL 307/L. Petrology and Lab (3/1)**

*Corequisite:* 307L. *Preparatory:* GEOL 207/L. Introduction to the classification and origin of igneous and metamorphic rocks, including the optical properties of minerals. Lab study of these rocks utilizing hand-specimen characteristics and the petrographic microscope. 3 hours lecture, 3 hours lab, field trips.

**GEOL 310/L. Structural Geology and Lab (3/1)**

*Corequisite* GEOL 310L. *Recommended Corequisite or Preparatory:* GEOL 307. Study of rock deformational processes and resulting structures in the Earth's crust. Lab work emphasizes the use of graphic methods to assist in the geometric and kinematic interpretation of rock structures. 3 hours lecture, 3 hours lab.

**GEOL 322/L. Introductory Oceanography and Lab (3/1)**

*Corequisite:* GEOL 322L. *Preparatory:* GEOL 101; Completion of the Lower Division writing requirement. Designed for the engineering or science major who requires a general background in oceanography. Study of biological, chemical, geological and physical oceanography. 3 hours lecture, 3 hours lab, field trips.

**GEOL 341/L. Sedimentary Geology and Lab (3/1)**

*Corequisite:* 341L. *Preparatory:* GEOL 307; *Instructor consent.* Introduction to the processes of sedimentation; the texture, composition and classification of sedimentary rocks; and depositional systems. 3 hours lecture, 3 hours lab, field trips.

**GEOL 345. Geology of California (2)**

*Preparatory:* Completion of the Lower Division writing requirement. Study of the geologic history, structure, minerals, rocks, fossils and modern geologic processes of California. 2 hours lecture, field trips.

**GEOL 351/L. Fundamentals of Paleontology and Lab (3/1)**

*Corequisite:* GEOL 351L. *Preparatory:* 2 courses in either Geology or Biology. Survey of past life on the Earth, including fossil cyanobacteria, macroscopic algae, prototists, plants (also spores and pollen), invertebrate and vertebrates, and their evolution, distribution and paleontology, with emphasis on methods used by paleontologists, especially for environmental studies. 3 hours lecture, 3 hours lab, field trips.

**GEOL 406LRS. Liberal Studies Science Experience Capstone (1)**

*Prerequisites:* BIOL 100, 101 or 102; PHSC 170; GEOL 106LRS or GEOG 106LRS. This laboratory course serves as a culminating science experience for Liberal Studies majors in the pre-credential and ITEP Options. An interdisciplinary blend of biology, physics, chemistry, and Earth and space sciences from Lower Division courses will be integrat-

ed into the course as various topics are explored through the broad lens of Earth science. Hands-on investigations will include topics linked to California K-6 State Science Standards, such as the nature of science, astronomy and the solar system, solar energy and meteorology, the water cycle, fossils and the evolution of life, rocks and minerals, natural resources, plate tectonics and Earth's structure, earthquakes and volcanic eruptions, and geomorphology. 3 hours lab.

### GEOL 430A/B. Summer Field Geology (2-2)

*Prerequisites:* GEOL 310/L, 341/L, 443/L. A two-course sequence on advanced observation and collection of geologic field data and the construction of geologic maps, cross-sections and stratigraphic sections during 4 weeks of field study. Field work for GEOL 430A is completed during the first 2 weeks and field work for GEOL 430B is completed during the second 2 weeks. During the remaining weeks of the Summer session, students must complete 2 comprehensive formal geologic field reports, including geologic maps and cross-sections, one for 430A and one for 430B. Students must enroll in both courses during the same Summer session. Available for graduate credit.

### GEOL 431A-R. Advanced Field Studies (1)

*Preparatory:* GEOL 435. Advanced techniques of field observation, recording, analysis and report writing in various fields of geology. (A) Minerals, (B) Igneous Rocks, (C) Metamorphic Rocks, (D) Sedimentary Rocks, (E) Sedimentary Environments, (F) Invertebrate Paleontology, (G) Micropaleontology, (H) Oceanography, (I) California Geology, (J) Environmental Geology, (K) Engineering Geology, (L) Hydrogeology, (M) Geophysics, (N) Remote Sensing, (O) Geochemistry, (P) Structural Geology, (Q) Quaternary Geology, (R) General Geology. Individual courses may not be repeated. (Requires 6 days of field work, usually on weekends.)

### GEOL 443/L. Principles of Stratigraphy and Lab (3/1)

*Corequisite:* GEOL 443L. *Recommended preparatory:* GEOL 341/L. Introduction to the basic principles of stratigraphy and application of stratigraphic methods (e.g., lithostratigraphy, biostratigraphy, chronostratigraphy, sequence stratigraphy, magnetic stratigraphy) essential for basin analysis and interpretation of sedimentary facies. Available for graduate credit. 3 hours lecture, 3 hours lab, field trips.

### GEOL 452/L. Mathematical Tools in Geology and Lab (2/1)

*Corequisite:* 452L. Introduction to the mathematical methods used in the field of Geology. Introductory topics are introduced in general problem solving, algebra, vector and calculus, with applications to geological problems. Geological applications, such as sediment basins, geotherms, gradients, topography, volume calculations of volcanic flows and planetary bodies, tectonics and mineral fractionation. Quantitative material is presented in an encouraging, approachable, yet challenging methodology that is intended to be easily grasped by those with a fundamental background in University mathematical requirements. Final exercises consider typical geological data sets, linear and nonlinear data analysis, significant figures, measurement and collection errors, and statistics. Exposure also will be provided to computer programs using Excel, Matlab and AutoCAD. Designed for senior-level undergraduate and beginning graduate students in Geology and/or Geophysics. 2 hours lecture, 3 hours lab. Available for graduate credit.

### GEOL 460. Theoretical Geophysics (3)

*Preparatory:* PHYS 225, 226, 227; MATH 250; or instructor consent. Application of classical physics to the study of the Earth. Topics include origin of the Earth, its gravitational, geomagnetic and geothermal characteristics, seismicity and the dynamics of the Earth's crust, plate tectonics and continental drift. 3 hours lecture, field trips.

### GEOL 464/L. Applied Geophysics and LAB (3/1)

*Corequisite:* GEOL 464L. *Preparatory:* GEOL 235, 307; MATH 150A or 255A; or instructor consent. Introduction to the basic principles and techniques of geophysics. Includes study of seismic reflection and refraction, earthquakes, gravity, magnetic, electrical resistivity, ground penetrating radar and global positioning system satellites. 3 hours lecture, 3 hours lab, field trips.

### GEOL 471LB. Petroleum Geology (2)

*Recommended prerequisite:* GEOL 341. This course will introduce students to various aspects of petroleum geology—the geochemistry and generation of petroleum, methods of exploration, including seismic and electric logs, migration and trapping mechanisms, and aspects of petroleum production, including reservoir characterization. Students also will examine the geology of some major petroleum provinces. 2 hours lecture/discussion, field trips. Available for graduate credit.

### GEOL 497. Research Methods and Design (1)

*Preparatory:* Junior or senior standing; Instructor consent. Students are advised and guided in research methods and design. Students use critical reasoning and the scientific method to develop and write their own research proposal to execute the project for their senior thesis. The written proposal is patterned after those required by the National Science Foundation.

### GEOL 498. Senior Thesis (3)

*Prerequisites:* GEOL 497; Instructor consent. Following approval by the Thesis Advisor of a written proposal, the student completes an original research project in consultation with the faculty advisor. Upon completion of the research, the student will submit the written thesis to the Advisor and give an oral presentation to the Department of Geological Sciences.

### GEOL 499. Independent Study (1-3)

See Independent Study under Courses of Study. Cannot be used for General Education credit.

## Graduate Courses

### GEOL 500. Environmental Geology Seminar (3)

*Prerequisite:* Upper Division standing in Geology or consent of instructor. Seminar on current literature and research dealing with contemporary problems in environmental geology. Suggested topics include: environmental impact analysis; hazard evaluation for earthquakes, volcanoes, floods and landslides; coastal erosion; surface and subsurface water resources and pollution; mineral and energy resources; and waste disposal. 3 hours seminar.

### GEOL 505. The Evolution of Global Systems (3)

*Preparatory:* GEOL 351. The impact of biological, physical and astronomical forces on the evolution of Earth systems throughout all of geologic time are studied. Combination of lecture/discussion and student seminars on material from the scientific literature, including use of internet resources.

### GEOL 508/L. Invertebrate Paleontology and Lab (3/1)

*Corequisite:* 508L. *Preparatory:* GEOL 351, or BIOL 313 and 392B. Detailed study of mega-invertebrate fossils, including their taxonomy, morphology, skeletal chemistry, fossil record, evolutionary trends, ecology and paleoecology. 3 hours lecture, 3 hours lab, field trips.

### GEOL 510. Advanced Topics in Paleontology (3)

*Preparatory:* GEOL 341, 351, 508. Seminars in various topics in Invertebrate Paleontology, such as biostratigraphy, paleoecology, functional morphology, etc. May be repeated for credit as topic changes. 3 hours seminar.

**GEOL 513/L. Micropaleontology and Lab (2/2)**

*Corequisite:* 513L. *Preparatory:* GEOL 351 or BIOL 313. Study of microfossils, especially Foraminifer and Radiolaria; their classification, common genera, morphology, evolutionary trends, ecology, paleoecology and use as indicators of present and past environments. Students are required to work and report on unknown material. 2 hour lecture, 6 hours lab.

**GEOL 520/L. Advanced Stratigraphic Analysis and Lab (1/1)**

*Corequisite:* 520L. *Preparatory:* GEOL 341 or instructor consent. Principles and techniques of stratigraphic analysis, with emphasis on interpreting the stratigraphic record to aid in reconstruction of environment of deposition and paleogeography. Revolves around a field problem and includes application of methods from physical stratigraphy, biostratigraphy and sedimentary petrology to solution of the problem. 1 hour lecture, 3 hours lab.

**GEOL 521. Sedimentary Environments (3)**

*Preparatory:* GEOL 341 or instructor consent. Study of the characteristics of modern sedimentary environments and how these characteristics are used to recognize ancient sedimentary environments. 3 hours seminar.

**GEOL 523/L. Sedimentation and Tectonics and Lab (2/2)**

*Corequisite:* GEOL 523L. *Preparatory:* GEOL 310, 335, 341; or instructor consent. Lecture topics include a review of plate tectonic theory, followed by detailed discussions of the sedimentary and structural histories of basins from assorted tectonic settings. Labs include study of thin sections of sediments and sedimentary rocks, particularly clastic sedimentary rocks from basin types discussed in lecture and the collection and analysis of field data used in basin studies. 2 hours lecture, 6 hours lab, field trips.

**GEOL 525/L. Seismic Stratigraphy Seminar and Lab (1/2)**

*Corequisite:* GEOL 525L. *Preparatory:* GEOL 464. Introduction to the fundamentals of seismic stratigraphy, emphasizing the interpretation of seismic reflection profiles. 1 hour seminar, 6 hours lab, field trip.

**GEOL 528/L. Sedimentary Petrology and Lab (2/2)**

*Corequisite:* 528L. *Preparatory:* GEOL 341 or instructor consent. Lecture topics include review of the depositional characteristics and classification of sedimentary rocks, followed by discussion of diagenesis and its impact on rock properties. Lab study emphasizes common techniques used in the study of sedimentary rocks, such as standard and cathodoluminescence petrography, scanning-electron microscopy, heavy-mineral separation and X-ray diffraction. 2 hours lecture, 6 hours lab.

**GEOL 530. Seminar in Structural Geology and Tectonics (3)**

*Prerequisite:* GEOL 310. Critical review of selected topics concerning the analysis, interpretation and origin of geologic structures, and the mechanics of rock deformation and of large scale crustal deformation. 3 hours seminar.

**GEOL 532/L. Microtectonics and Lab (3/1)**

*Preparatory:* GEOL 307/L, 310/L. This course will emphasize the microstructural and textural analysis of metamorphic rocks in thin section to aid in the interpretation of tectonic evolution. Topics include identification of igneous and metamorphic assemblages; identification of textures and microstructures; identification of deformation mechanisms at the grain- and crystal-lattice scale; secondary foliation and lineation development; the origin of lattice preferred orientation; porphyroblast growth; microgauges of temperature, pressure and differential stress; and special techniques used to study deformation fabrics. 3 hours lecture, 3 hours lab.

**GEOL 533/L. Geology of Earthquakes (2/1)**

*Preparatory:* GEOL 310. Lecture topics will include a review of plate tectonics, rock mechanics, seismology, tectonic geodesy, paleoseismology, tectonic geomorphology and seismic hazard assessment. Detailed discussions will include study of recent major earthquakes that have occurred in strike-slip, thrust-reverse, megathrust (subduction zone) and normal-fault tectonic settings. Labs will include study of air photos, geologic maps, trench logs and core descriptions from studies of recent earthquakes, and the collection and analysis of field data used in earthquake studies. 2 hours lecture, 3 hours lab, field trips.

**GEOL 535. Advanced Geologic Field Methods (2)**

*Preparatory:* GEOL 310/L. Advanced geologic field mapping of structurally complex sedimentary, igneous, and/or metamorphic rocks. At least 6 days of field work (including overnight weekend trips) associated with a weekly 3-hour instructional and advisement meeting designed to provide extensive practice in writing and illustrating geologic reports and analysis of field data.

**GEOL 536/L. Igneous Petrology and Lab (3/1)**

*Corequisite:* GEOL 536L. *Preparatory:* GEOL 307. Study of the more important kinds of igneous rocks, emphasizing distribution, origin, causes of compositional variation and relation to tectonic factors. Representative rock suites and computer techniques are studied in the lab. 3 hours lecture, 3 hours lab, field trips.

**GEOL 538/L. Metamorphic Petrology and Lab (1/1)**

*Corequisite:* 538L. *Preparatory:* GEOL 307. Study of the various facies of metamorphic rocks, with emphasis on classification, mineralogy and environments of formation. Mineral assemblages and textural relationships are studied in thin sections. 1 hour lecture, 3 hours lab, field trips.

**GEOL 545. Plate Tectonics (3)**

*Preparatory:* GEOL 310, GEOL 464; or consent of instructor. This course will provide a look at the quantitative side of plate tectonics, a subject to which many geology students are introduced at a qualitative level in introductory courses. The course will examine the power and limitations of the theory of plate tectonics and cover such topics as driving mechanisms; absolute plate motion; velocity vectors and finite rotations; Euler poles; plate reconstructions; gravity and heat flow of the Earth; and controversies related to mantle convection and hotspots. 3 hours lecture/discussion.

**GEOL 550. Paleomagnetism (3)**

This course will examine: (1) the properties of Earth's magnetic field and its behavior in the historical and geologic past (geomagnetism); (2) the fossil magnetization preserved in rocks and sediments (paleomagnetism); and (3) the use of physical stratigraphy and magnetic zonation to solve problems in stratigraphic correlation (magnetostratigraphy). One weekend field trip will involve sample collection for paleomagnetic analysis. Topics will include reversals of Earth's magnetic field, polar wandering, rock magnetism, oceanic magnetic anomalies, the geomagnetic time scale, paleomagnetic sampling and demagnetization techniques, statistical data interpretation, and the application of paleomagnetism to studies of tectonic rotations and latitudinal translations of microplates. 3 hours lecture, one field trip.

**GEOL 552. Geochemistry (3)**

*Preparatory:* GEOL 307 or instructor consent. Application of the principles of chemistry to geological problems. Topics include nucleosynthesis, origin of the solar system, elemental distribution, and stable and unstable isotopes. 3 hours lecture.

**GEOL 553. Analytical Geochemistry (1)**

*Preparatory:* CHEM 102; GEOL 307; or instructor consent. Instrumental analysis of rocks and minerals. Includes theory and practical application of X-ray spectrography, X-ray diffraction, atomic absorption spectrophotometry, mass-spectrometry and electron microprobe. 3 hours lab.

**GEOL 563. Marine Geology (3)**

*Preparatory:* GEOL 307, 322; or instructor consent. Plate tectonics and evolution of the ocean; geomorphology and structure of the ocean floor; classification, distribution and environment of marine sediments; and paleo-oceanography. Field trips, class participation and research paper required. 3 hours lecture/seminar.

**GEOL 567/L. Geological Remote Sensing and Lab (1/2)**

*Corequisite:* GEOL 567L. *Preparatory:* Upper Division standing in Geology or instructor consent. By using multiple types of airborne and satellite remote sensing imagery, including analog and digital photography, radar (SAR) and satellite thematic mapper and SPOT images, students will learn to identify and map geologic and environmental features and conditions. Field trips to JPL and a geologic/environmental site. 1 hour lecture, 6 hours lab.

**GEOL 570VLA. Volcanology (3)**

*Preparatory:* GEOL 307, 341; or consent of instructor. Course topics include styles of volcanic eruptions, volcanic landforms, physicochemical controls on eruptions, characteristics and interpretation of volcanic deposits, emplacement of pyroclastic density currents, volcanic hazards and impacts of volcanism on Earth's environment. 3 hours lecture.

**GEOL 575/L. Hydrogeology and Lab (3/1)**

*Corequisite:* 575L. *Preparatory:* Upper Division standing in Geology; Formal geologic field reports, including geologic maps and cross-sections, one for GEOL 430A and one for GEOL 430B. Students must enroll in both courses during the same Summer session. Available for graduate credit.

**GEOL 578. Groundwater Modeling (3)**

*Preparatory:* GEOL 575 and computer literacy. Approximation of groundwater equations by finite-difference and finite-element methods. Practical exercises on calibration, verification and prediction of groundwater behavior and solute movement under various initial and boundary conditions.

**GEOL 580/L. Engineering Geology and Lab (2/1)**

*Corequisite:* 580L. *Preparatory:* Upper Division standing in Geology or consent of instructor. Application of geologic factors to such engineering projects as residential developments, buildings, dams, bridges, tunnels and waste-disposal sites. Topics include an introduction to soil mechanics, groundwater in engineering geology, landslides, earthquakes, subsidence, waste disposal, and engineering geologic site investigations, maps and reports. 2 hours lecture, 3 hours lab, field trips.

**GEOL 590 Literature Seminar (1)**

*Preparatory:* Senior undergraduate or graduate standing in Geological Sciences. Students will make oral presentations of and lead discussions about current research literature in geological sciences.

**GEOL 595A-Z. Experimental Topics Courses in Geological Sciences (1-3)**

*Preparatory:* Instructor consent. Experimental topics in the geological sciences with the course content to be determined. (A) Crystallography, (B) Mineralogy, (C) Geochemistry, (D) Igneous Petrology, (E) Sedimentary Petrology, (F) Metamorphic Petrology, (G) Structural Geology, (H) Economic Geology, (I) Stratigraphy, (J) Seismic Stratigraphy, (JL) Seismic Stratigraphy Lab, (K) Engineering Geology, (L) Isotope Geology, (M) Paleontology, (N) Field Problems, (R) Current Research, (S) Groundwater Modeling, (T) Advanced Hydrogeology, (U) Hydrogeochemistry, (V) Geologic Evolution of California, (W) Remote Sensing and the Environment, (X) Marine Paleocology and Sedimentation, (Y) Geological Sciences Teacher Enhancement, (YG) General Geology for the K-12 Teacher, and (ZOL) Global Geologic Issues for the K-12 Teacher (online). Topics may be repeated with advisor approval.

**GEOL 599A-C. Independent Study (1-3)**

See Independent Study under Courses of Study. Cannot be used for General Education credit.

**GEOL 694 Graduate Thesis Research Design (1)**

Instruction and practice in the process required to construct a research proposal, culminating in the development of a graduate-level research proposal suitable as a Master's Thesis Project.

**GEOL 696. Directed Graduate Research (1-3)****GEOL 698. Thesis or Graduate Project (1-6)****GEOL 699. Independent Study (1-3)**

See Independent Study under Courses of Study. Cannot be used for General Education credit.

[www.csun.edu/hhd/hsci/gerontology](http://www.csun.edu/hhd/hsci/gerontology)

### Programs

Undergraduate:

Minor in Gerontology

Graduate:

Graduate Certificate in Gerontology

### About the Minor

The Interdisciplinary Minor in Gerontology is offered by the College of Health and Human Development. The Minor complements many other academic majors and many of the courses satisfy the requirements or electives for other programs. The Program provides students with the knowledge and skills to pursue a career in the field of aging. Graduates with a Minor in Gerontology are in demand for entry-level jobs in human services, allied health care, corporations, administration and direct services in a wide variety of settings.

### Academic Advisement

Students interested in the Minor, Certificate or Interdisciplinary Studies Program should consult the Health Sciences Department at (818) 677-3101.

### Minor in Gerontology

#### 1. Core Requirements (15 units)

|      |     |                                 |
|------|-----|---------------------------------|
| HSCI | 418 | Health and Aging (3)            |
| PSY  | 365 | Introduction to Gerontology (3) |
| PSY  | 465 | Psychology of Aging (3)         |
| SOC  | 440 | Sociology of Aging (3)          |

#### Integrating courses (select 1 of the following):

|      |     |  |
|------|-----|--|
| FCS  | 424 | Resource Management for the Elderly (3)              |
| HSCI | 422 | Health Services for the Elderly and Mentally Ill (3) |
| RTM  | 415 | Leisure and Aging (3)                                |

#### 2. Elective (3 units)

|      |     |  |
|------|-----|--|
| FCS  | 409 | Geriatric Nutrition (3)                                    |
| FCS  | 424 | Resource Management for the Elderly (3)                    |
| FCS  | 543 | Intergenerational Care Giving (3)                          |
| HSCI | 422 | Health Services for the Elderly and Mentally Ill (3)       |
| HSCI | 521 | Health Care Ethics (3)                                     |
| KIN  | 325 | Motor Development (3)                                      |
| KIN  | 566 | Seminar in Aging and Environmental Aspects of Exercise (3) |
| RTM  | 415 | Leisure and Aging (3)                                      |

#### 3. Internship (3 units)

Internship in major with aging focus.

|                             |           |
|-----------------------------|-----------|
| <b>Total Units Required</b> | <b>21</b> |
|-----------------------------|-----------|

### Post-Baccalaureate Certificate in Gerontology

The Graduate Certificate in Gerontology is offered by the College of Health and Human Development to prepare a qualified workforce to address the needs of our aging population. The Certificate in Gerontology provides an opportunity for those who have completed a Bachelor's Degree in another discipline to acquire an understanding of the issues and problems of aging and to provide services for an older population. The Certificate Program complements many other Graduate Degree programs and can be taken concurrently since many of the courses satisfy requirements or electives for graduate programs. The Certificate Program is a rigorous and demanding educational experience, designed to provide students with the knowledge and skills to pursue a career in the field of aging.

### Graduate Certificate in Gerontology

#### 1. Core Requirements (12 units)

|     |     |   |
|-----|-----|---|
| HHD | 501 | Interdisciplinary Perspectives on Aging (3) |
| HHD | 502 | Aging Policy and Programs (3)               |
| HHD | 503 | Gerontology Program Development (3)         |
| HHD | 504 | Current Issues in Aging (3)                 |

#### 2. Elective (3 units)

##### Select 1 from the list below:

|      |     |  |
|------|-----|--|
| FCS  | 409 | Geriatric Nutrition (3)                                    |
| FCS  | 424 | Resource Management for the Elderly (3)                    |
| FCS  | 543 | Intergenerational Caregiving (3)                           |
| HSCI | 418 | Health and Aging (3)                                       |
| HSCI | 422 | Health Services for the Elderly and Mentally Ill (3)       |
| HSCI | 521 | Healthcare Ethics (3)                                      |
| KIN  | 566 | Seminar in Aging and Environmental Aspects of Exercise (3) |
| RTM  | 415 | Leisure and Aging (3)                                      |
| PSY  | 465 | Psychology of Aging (3)                                    |
| SOC  | 440 | Sociology of Aging (3)                                     |

|   |           |
|---|-----------|
| <b>Total Units Required for the Certificate</b> | <b>21</b> |
|---|-----------|

### Course List

#### HHD 501. Interdisciplinary Perspectives on Aging (3)

*Prerequisites:* Baccalaureate Degree in health or human services or equivalent. This course provides an interdisciplinary overview of the fundamental principles, theories, issues and concepts in the field of gerontology. The interdisciplinary emphasis derives from the fact that to understand aging we must consider facts and explanations from a wide array of fields. Social gerontology integrates knowledge that ranges from history, demography, physiology, philosophy, science, ethics, medicine, law, mass communication and social policy, among others. The course will emphasize the research literature to consider issues that include work, retirement, leisure, health, technologies and living environments.

#### HHD 502. Aging Policies and Programs (3)

*Prerequisite:* Baccalaureate Degree in health or human services or equivalent. This course is designed to provide students with knowledge of the policy process, the politics of aging and an opportunity to explore selected aging policy issues in-depth. The content focus is on a few areas that provide fertile ground for policy development and/or analysis and offer insight into the historical, social, economic and demographic issues that have influenced the development of federal and state legislation and programs for older persons. Projects and papers will provide students with opportunities to examine issues surrounding the design and implementation of particular policies, track current changes in legislation, or undertake critiques of policies already in place.

**HHD 503. Gerontology Program Development (3)**

*Prerequisites: Baccalaureate Degree in health or human services or equivalent.* Using an interdisciplinary approach, this course critically examines a variety of issues relating to the administration, development and evaluation of gerontology programs and services for diverse populations of older adults and their families. Topics covered include leadership, organizational planning, ethics in human services, fiscal management, program development and evaluation, personnel management, and marketing. The course emphasizes applications to actual problems facing government agencies and organizations serving older adults.

**HHD 504. Current Issues in Aging (3)**

*Prerequisites: Baccalaureate Degree in health or human services or equivalent.* This interdisciplinary course addresses selected topics in aging presented at an advanced level. Preference is given to current topics considered key for gerontology professionals. Possible topics include emerging issues in diversity, gender, nutrition, consumer affairs, physical fitness and mental health.

### Staff

Mary Lou Bobrosky, Kelly Johnson, Karen Sabbah

### Faculty

Frankline Augustin, Sloane Burke, Lawrence Chu, Stephan Chung, Vicki Ebin, Merav, Efrat, Salvador Esparza, Ronald Fischbach, Jennifer Little, Gretta Madjzooob, Brian Malec, Janet Reagan, Louis Rubino, Jerome Seliger, Anita Slechta, Jack Winkelman, Kathleen Young

### Emeritus Faculty

Mary Bennett, Miriam Cotler, Bonnie Faherty, John Fodor, Bernard Hanes, Shelia Harbet, Robert Huff, Donald Hufhines, Dennis Kelly, Louanne Kennedy, Michael Kline, Roberta Madison and Mary Parker

### Programs

#### Undergraduate:

- B.S., Health Administration**
- B.S., Public Health Promotion**
- B.S., Radiologic Sciences**
- Health Sciences for Teachers Minor**
- Minor in Gerontology (See Gerontology in this Catalog.)**

#### Graduate:

- M.S., Health Administration**
- M.P.H., Health Education**

#### Certificate:

- Graduate Certificate in Health Administration (See also Tseng College Certificate programs in this catalog)**
- Post-Baccalaureate Certificate in Gerontology**

### Mission Statement

It is the mission of the Department of Health Sciences to enable students to develop the critical knowledge and skills required to assume professional responsibility and leadership in health promotion, disease prevention, administration and clinical practice in a variety of health-care settings. Health Sciences faculty are committed to student-centered learning, scholarship and service.

### The Major

The primary objective of the Department of Health Sciences is to the education of students preparing for professional careers in private and public health services. The Programs in Health Sciences are multidisciplinary and directed toward understanding factors affecting the well-being and health of populations and individuals, and toward improving their health status.

The Professional Programs are based on a foundation in the liberal arts and the physical and behavioral sciences. The Professional Programs are directed toward preparing student for the specific program discipline.

### Scholarships

In honor of our emeritus faculty, the Department has established several scholarships, including the Seymour Eisman Scholarship and the Lennin Glass Scholarship. For more information about applications and deadlines, contact the Department of Health Sciences at (818) 677-3101.

### Academic Advisement

Faculty advisors are available prior to registration and throughout the semester during regularly scheduled office hours. Program advisement should be obtained at that time. The Department requires advisement prior to registration. Students are responsible for completing all of the requirements for the Degree as listed in the Catalog the year in which they were admitted. Substitutions for a required course may be permitted only by petition submitted prior to enrollment in the course. Please contact the following coordinators for more information about individual Department programs:

**Health Administration Program:** Louis Rubino, (818) 677-7257

**Public Health Promotion:** Lawrence Chu, (818) 677-2485

**Radiologic Sciences:** Anita Slechta, (818) 677-2475

**M.S. in Health Administration:** Janet Reagan, (818) 677-2298

**M.P.H. in Health Education:** Vicki Ebin, (818) 677-7053

**Gerontology Minor:** 818-677-3101\*

\*See Gerontology listed alphabetically in the Catalog

### Requirements for B.S. in Health Administration

The B.S. in Health Administration Degree Program provides initial preparation for careers in health services administration, and for those already employed an opportunity to continue their professional advancement. The undergraduate curriculum also prepares the individual to enter the Master of Science in Health Administration (MSHA) Degree Program. Further education at the graduate level often is necessary to assume advanced management and policy-making roles in health care and related organizations. The Association of University Programs in Health Administration certifies the undergraduate Health Administration Program.

### Mission Statement

The mission of the B.S. in Health Administration is to prepare a diverse student body for careers in health-care management and related disciplines. With a focus on learning-centered courses, community partnerships, research, advocacy and scholarship, the Health Administration Program aims to educate students for professional positions and thus enhance the operational efficiency and effectiveness of health care and related organizations and improve the delivery of health-care services.

### Student Learning Outcomes of the Health Administration Program

The major provides a curriculum contemporary and relevant to evidence-based health administration practice and that meets national standards for excellence. Graduates of the undergraduate program in Health Sciences with the Option in Health Administration will:

1. Demonstrate mastery of the conceptual and technical knowledge and skills relevant to successful health administration practice and that meet national standards for certification by the Association of University Programs in Health Administration.
2. Demonstrate mastery of the analytical, written and oral communication and interpersonal skills required for successful practice.
3. Demonstrate an ability to integrate classroom knowledge and skills and be able to bridge the gap to the professional practice of health administration.
4. Demonstrate an appreciation of the importance of professional ethics and continual professional growth.
5. Demonstrate an ability to assume entry-level staff and management positions in health services organizations.

#### 1. Lower Division Required Courses (19 units)

|      |             |   |
|------|-------------|---|
| ACCT | 220         | Introduction to Financial Accounting (3)                |
| BIOL | 101/L       | General Biology and Lab (3/1)<br>(GE: Natural Sciences) |
| HSCI | 132         | History of Preventative Medicine and Public Health (3)  |
|      | or HSCI 345 | Public Health Issues (3)                                |

## Health Sciences

|      |     |   |
|------|-----|---|
| MATH | 102 | College Algebra (3)<br>(GE: Basic Skills Mathematics)     |
| PSY  | 150 | Principles of Human Behavior (3)<br>(GE: Social Sciences) |
| SOC  | 150 | Introductory Sociology (3)<br>(GE: Social Sciences)       |

**2. Upper Division Health Sciences Department Core (10 units)**

|      |       |  |
|------|-------|--|
| HSCI | 314   | Organization and Delivery of Health Services (3)   |
| HSCI | 390/L | Biostatistics and Biostatistics Lab (3/1)          |
| HSCI | 488   | Epidemiology: Introduction to Study of Disease (3) |

**3. Upper Division Required Health Administration Courses (36 units)**

Note: A minimum grade of C- is required in all Upper Division required courses

|      |      |   |
|------|------|---|
| HSCI | 312  | Introduction to Health Administration (3)                             |
| HSCI | 313  | Health Administration (3)   |
| HSCI | 391  | Computer Applications for Health Science (3)                          |
| HSCI | 412  | Medical Care Organization in the United States (3)                    |
| HSCI | 413  | Leadership and Direction in the Administration of Health Services (3) |
| HSCI | 414  | Health Law (3)  |
| HSCI | 415  | Health Information Systems (3)  |
| HSCI | 416  | Utilization of Professional and Allied Health Personnel (3)           |
| HSCI | 424  | Health Planning (3)   |
| HSCI | 425  | Financial Planning and Reimbursement in Health Care (3)               |
| HSCI | 494C | Academic Internship (3)   |

**Required Health Administration Electives (9 units Minimum)**

Select a minimum of 9 units—with prior advisor approval.

|   |               |
|---|---------------|
| <b>Total Units Required in Major</b>  | <b>71</b>     |
| <b>Required Lower Division General Education: (not overlapping with major/includes Title 5)</b>   | <b>35</b>     |
| <b>Required Upper Division General Education: (not overlapping with major) (3 units if student chooses HSCI 345—GE Social Sciences)</b> | <b>3 or 6</b> |
| <b>Required Additional Units</b>  | <b>5 or 8</b> |
| <b>Total Units Required for the B.S. Degree</b>   | <b>120</b>    |

**Requirements for the Bachelors of Science in Public Health Promotion**

The B.S. in Public Health Promotion Program is intended to prepare students with the skills needed to understand how to plan, implement and evaluate the educational components of health and human service programs. Public, voluntary and proprietary health and human service agencies, hospitals, organizations, industry and professional consulting firms that provide services to various governmental and private organizations employ graduates of Public Health Promotion. Appropriate advisement provides students flexibility in the selection for various health education career opportunities. These opportunities include health promotion, school health education, community health education and health education generalist.

**Student Learning Outcomes for Public Health Promotion**

Students in the Public Health Promotion program will:

1. Demonstrate knowledge of public health and health education program planning; theories of health behavior; change assessment and intervention; and multicultural influences impacting the delivery of public health interventions.

2. Apply knowledge and skills necessary of program planning, implementation and evaluation of health education programs in a variety of practice settings.
3. Demonstrate a mastery of biostatistical and epidemiological methods appropriate to the practice of health education.

**Public Health Promotion****Lower Division Required Courses (23 units)**

|      |         |   |
|------|---------|---|
| BIOL | 101/L   | General Biology and Lab (3/1) (Meets GE/B.1)            |
| BIOL | 211/212 | Human Anatomy and Lab (2/1)(Meets GE)                   |
|      | or      | EOH 353 Global Perspectives of Environmental Health (3) |
| BIOL | 281     | Human Physiology (3)                                    |
| CHEM | 100     | Principles of Chemistry (3) (Meets GE/B.1)              |
| HSCI | 237     | Introduction to Health Education (3)                    |
| MATH | 140     | Introductory Statistics (4) (Meets GE/A.3)              |
| PSY  | 150     | Principles of Human Behavior (3) (Meets GE/D)           |
| SOC  | 150     | Introduction to Sociology (3) (Meets GE/D)              |

**Upper Division Health Sciences Department Core (10 units)**

|      |       |   |
|------|-------|---|
| HSCI | 390/L | Biostatistics and Biostatistics Lab (3/1) |
| HSCI | 488   | Epidemiology Study of Disease (3)         |

**Select 1 of the following:**

|      |     |   |
|------|-----|---|
| HSCI | 345 | Topics in Public Health (3)                                 |
| HSCI | 314 | Organizations and Function of Community Health Services (3) |

**Required Public Health Promotion Core Courses (33)**

|      |      |  |
|------|------|--|
| ENGL | 306  | Report Writing (3)   |
| EOH  | 353  | Global Perspectives of Environmental Health (3) (Meets GE/E) |

**Health Sciences for Teachers Minor****The Minor**

The Health Sciences for Teachers Minor provides students who have

or are about to receive a California teaching credential with the opportunity to obtain a Supplemental Authorization in Health Science. Contact the CSUN Credentialing Office for more information.

### Student Learning Outcomes for the Minor

Graduates of the Health Sciences for Teachers Minor will:

1. Demonstrate that knowledge of the health sciences is advantageous to those seeking teaching positions in the public schools.
2. Complete a supplemental authorization in Health Science.

### Requirements for the B.S. Degree in Radiologic Sciences (RS)

The Radiologic Sciences B.S. Degree Program prepares practitioners (radiologic technologists) to work with the patient and physician, performing a wide variety of diagnostic imaging procedures within the radiology (X-ray) department. The radiologic technologists must know the principles of anatomy, physiology, pathology, radiographic imaging, radiation safety, the operation of many types of X-ray and computerized equipment, the professional care and handling of patients, and the management of a radiology department or division. The Baccalaureate Program provides a multi-competent advanced imaging practitioner for the diagnostic team. Program competencies include experiences with standard X-ray equipment, angiographic suites, computerized tomography (CT), magnetic resonance (MR), digital vascular imaging devices and mammography.

The Radiologic Sciences Program consists of 2 phases: The Pre-Professional and Professional Phases. During the Pre-Professional portion, students complete the University General Education requirements and the Radiologic Sciences prerequisites. Upon completion of the Pre-Professional Phase, students become eligible to apply to the professional Radiologic Sciences Program that includes 2,500 hours of clinical internship at affiliated Medical Centers. A limited number of clinical placement at these medical centers are available each year for students accepted into the Professional Phase. A separate application to the R.S. Program Selection Committee for clinical internship placement is due the second Friday of January in the CSUN Health Sciences Department. R.S. student advisement, tour of clinical facility and a minimum of 40 hours of volunteer hours in an acute-care hospital facility must occur and be documented prior to interviewing. See the Department for applications and information regarding selection criteria for the Professional Phase of the Program or visit [www.csun.edu/~vchsc02t](http://www.csun.edu/~vchsc02t). Note that meeting prerequisite criteria **does not** guarantee placement into the Professional Program.

If selected to the Professional Program, prior to clinical placements, all CSUN Radiologic Science students are required to obtain their own criminal background check at their sole cost and to supply that information to designated approving agencies or persons. In order to meet accreditation standards, many clinical agencies are requiring background checks and drug testing on all students placed at their facilities and have the right to refuse a student's Clinical Placement based on this information. Students will be unable to complete Degree requirements if Clinical Placements are refused at any time during the professional portion of the BSRS program. Further information on background checks and where

to obtain them is available from Radiologic Science advisors.

Professional RS students are responsible for obtaining at their sole cost any necessary health exams, immunizations, evidence of a TB test, titers or other requirements necessary to meet OSHA requirements and maintain compliance with requirements by the University and affiliating clinical agencies. Documentation of the requirements is to be submitted to the contracted record-keeping site upon request. Before the first Clinical course, each student is required to complete a Pre-Clinical checklist and provide proof that requirements are currently met. Access to reliable transportation is required for clinical courses off campus.

### Mission Statement

The mission of the CSUN Baccalaureate Radiologic Sciences Program is to provide the community with a competent, professional radiologic technologists who possesses additional advanced medical imaging skills in MRI, CT and Angiography Interventional Radiography that meet the needs of the medical imaging community through a highly integrated and advanced-level clinical and academic curriculum.

### Student Learning Outcomes of the Radiologic Sciences Degree

Graduates of the Radiologic Sciences Program will:

1. Demonstrate a mastery of basic Radiographic Medical Imaging skills and advanced medical imaging skills in MRI, CT and Interventional Radiography.
2. Demonstrate effective communication, problem solving and critical-thinking skills that provide ethical, compassionate patient care.
3. Value the importance of professional development through lifelong learning for improved patient care and medical imaging

#### 1. Lower Division Required Courses (31 units)

|             |   |
|-------------|---|
| BIOL 101/L  | General Biology and Lab (3/1) (GE: Natural Sciences)    |
| BIOL 211    | Human Anatomy (2)                                       |
| BIOL 212    | Lab Studies in Human Anatomy (1)                        |
| BIOL 281    | Human Physiology (3)                                    |
| CHEM 100    | Principles of Chemistry (3) (GE: Natural Sciences)      |
| MATH 105    | Pre-Calculus (5)* (GE: Basic Skills Mathematics)        |

| <b>Required Upper Division General Education:</b>   | <b>9</b>   |
| <b>Total Units Required for the B.S. Degree</b>   | <b>123</b> |

#### Post-Baccalaureate Internship

|      |      |  |
|------|------|--|
| HSCI | 386  | Radiologic Sciences Clinical Education VI (3)  |
| HSCI | 387  | Radiologic Sciences Clinical Education VII (3) |
| HSCI | 483A | Medical Imaging Pathology (2)                  |

Upon successful completion (minimum of C in each course), the student will earn a B.S. in Degree Radiologic Sciences, as well as a Certificate of Clinical Completion from the clinical institutions. Completion of both academic and clinical work enables the student to sit for the National Registry administered by the American Registry of Radiologic Technologists and the licensing exam given by the State of California (CRT).

#### General Requirements for all Master of Science or Master of Public Health Degree Programs

##### A. For Admission to Conditionally Classified Graduate Status

1. A Bachelor's Degree from an accredited university or college with a major in Health Science or its equivalent.
2. A cumulative GPA of 3.0 or above for all undergraduate work.
3. Students not meeting requirement no. 1 above may be assigned a program of prerequisites in the Health Sciences. Under certain circumstances, students not meeting requirement no. 2 above may be assigned a qualifying program. Specific information concerning prerequisites or qualifying programs may be obtained through consultation with a Program Graduate Advisor.
4. Students must provide evidence of satisfactory completion of the verbal and/or quantitative and/or analytical sections of the Graduate Record Examination (GRE).

The GRE may be waived with approval for those students who have a minimum of 3.0 GPA overall and in the major, or have a 3.2 GPA in the last 60 units of undergraduate work, or who already have an advanced Graduate Degree from an accredited school.

##### B. Advancement from Conditional to Classified Status

Students admitted as conditionally classified must complete all qualifying course work, GRE and/or UDWPE prior to moving from conditional to fully classified status. In addition,

1. A GPA of 3.0 or better must be achieved in qualifying course work.
2. No more than 12 units of work taken prior to attaining fully classified status will be applied to the Master's program, and
3. Students completing qualifying course work must meet with their faculty advisor to complete the paperwork to advance from conditional to classified status.

#### Master of Science in Health Administration

The Graduate Degree in Health Administration prepares students

for management and leadership roles in health services and related organizations and systems. The curriculum provides for advanced study of issues, problems and strategies for managing the effective and efficient delivery of health care through public, voluntary and private sector health-care organizations, including, but not limited to, hospitals, long-term care organizations, medical and dental group practices, health maintenance organizations, health insurance and health benefits administrations and public health agencies.

1. Cumulative undergraduate GPA.
2. Graduate Record Examination.
3. Undergraduate degree. Students not having a degree in health administration, if accepted, will be required to take a qualifying program prior to being admitted to Classified graduate status.
4. Work experience.
5. Letters of recommendation.
6. Statement of purpose.

The Master of Science in Health Administration Program requires a minimum of 45 semester hours of course work beyond the Bachelor's Degree. A minimum grade of "B" is required for each course; an overall program GPA of 3.0 is required for graduation.

#### Student Learning Outcomes of the M.S. in Health Administration

Graduates of the Graduate Program in Health Administration will:

1. Demonstrate mastery of the conceptual and technical knowledge and skills relevant to successful health administration practice.
2. Demonstrate mastery of the analytical, written and oral communication and interpersonal skills required for successful practice.
3. Demonstrate an ability to integrate classroom knowledge and skills, and be able to bridge the gap to the professional practice of health administration.
4. Demonstrate an appreciation of the importance of professional ethics and continual professional growth.
5. Demonstrate the knowledge, skills and professionalism to assume mid-level and leadership positions in health-care organizations.

#### Qualifying Courses: To Be Determined at Advisement.

##### 1. Required Courses (36 units)

|   |     |  |
|---|-----|--|
| HSCI  | 513 | Applied Theory in Health Administration Practice (3)       |
| HSCI  | 517 | Health Economics and National Health (3)                   |
| HSCI  | 521 | Health Care Ethics (3)                                     |
| HSCI  | 523 | Seminar in Medical Care Organization (3)                   |
| HSCI  | 613 | Managing Change in Health Care Organizations (3)           |
| HSCI  | 614 | Financial Management (3)                                   |
| HSCI  | 615 | Information Management for Decision Making and Control (3) |
| HSCI  | 616 | Quality Assurance for Health Administration (3)            |
| HSCI  | 618 | Strategic Planning in Health Administration (3)            |
| HSCI  | 619 | Third Party Payer Impact on Health Delivery (3)            |
| HSCI  | 625 | Integrative Seminar in Health Administration (3)           |
| HSCI 693A or B Supervised Field Training (2)<br>and HSCI 693C Supervised Field Training (1) |     |  |

##### 2. Electives (9 units Minimum)

With approval of the Graduate Coordinator, students take electives from approved Health Administration or related courses.

##### 3. Capstone

- Select one of the following (units do not count toward Program total):
- a. **Comprehensive Examination.** Student registers for HSCI 697—Directed Comprehensive Studies (3) (Credit/No Credit only)
  - b. **Thesis/Graduate Project** (with faculty permission only). Student registers for HSCI 698 (2) (Credit/No Credit Only)

|   |           |

| <b>Total Units Required for the M.S. Degree</b> | <b>45</b> |
|---|-----------|

## Master of Public Health in Community Health Education (MPH)

### Mission Statement

The mission of the MPH Program is to prepare professional community health educators to enhance the general health and well-being of diverse human populations and communities.

The Graduate Program in Community Health Education provides advanced study for health educators working in a variety of settings, such as community health agencies, patient education, consumer health advocacy, training and continuing education, organizational development and team building, schools and other positions within public, private and professional settings. This Program is nationally accredited by the Council on Education for Public Health. The Program is designed to enable health educators to meet responsibilities for leadership, supervisory, administrative and consultative roles in these health education settings.

Applications to the Graduate Program in Health Education are accepted for the Fall and Spring semesters. Students should send applications and transcripts (2 sets) directly to the University Graduate Admissions Office. Additionally, 3 letters of recommendation should be sent directly to Director, Master of Public Health Program, Department of Health Sciences, CSUN. (Recommendation forms are provided.)

The following criteria are used for evaluating applicants to the Health Education Graduate Program:

1. Overall GPA.
2. Graduate Record Examination scores for applicants with an undergraduate GPA less than 3.0.
3. Any student who has not had HSCI 390/L or an equivalent statistics course will be required to take it before advancing to Classified status.
4. Work experience in either health education or a related health field.
5. 3 letters of recommendation.
6. Statement of purpose.

The Master of Public Health Program requires a minimum of 42 semester hours of course work beyond the Bachelor's Degree. A minimum grade of "B-" is required for each course; an overall program GPA of 3.0 is required for graduation.

### Student Learning Outcomes of the MPH Program

Graduates of the Master of Public Health Program in Health Education will:

1. Demonstrate a mastery of public health and health education knowledge and skills, including community health program planning, implementation and evaluation; theories and application of health behavior change assessment and intervention; community organization; curriculum design; administration of health education programs and services; epidemiology; environmental health; research design; and biostatistics.
2. Apply knowledge and skills necessary for program planning, implementation and evaluation of health education programs in a variety of practice settings.
3. Demonstrate understanding of public health research methodology, including study design, hypotheses testing, data collection and analysis appropriate for health education practice, and the competent use of computer tools for analysis and presentation.
4. Demonstrate the professional knowledge necessary to assume staff and leadership positions in the practice of public health education.

#### 1. Required Courses (30 units)

|          |   |
|----------|---|
| HSCI 531 | Seminar: Health Education Program Planning and Evaluation (3) |
| HSCI 533 | Advanced Concepts of Health Behavior (3)                      |
| HSCI 535 | Curriculum Development in Health Education (3)                |

|           |  |
|-----------|--|
| HSCI 538  | Seminar: Community Health Action (3)               |
| HSCI 541  | Administration, Supervision and Consultation (3)   |
| EOH 554   | Seminar: Environmental Health Problems (3)         |
| HSCI 587  | Seminar: Epidemiology (3)                          |
| HSCI 592  | Advanced Biostatistics for the Health Sciences (3) |
| HSCI 693A | Supervised Field Training (2)                      |
| HSCI 694  | Research Design in the Health Science (4)          |

#### 2. Electives (9 units Minimum)

With approval of the Graduate Advisor, students may take 400-, 500- and 600-level courses in such areas of study as Communications, Health Administration, Environmental and Occupational Health, or related areas of interest.

#### 3. Capstone (3 units)

Choose 1 of the following:

- a. **Comprehensive Examination.** Student registers for HSCI 697—Directed Comprehensive Studies (3)
- b. **Thesis or Graduate Project.** Student registers for 698C (3)

|   |    |
|---|----|
| Total Units Required for the MPH Degree | 42 |
|---|----|

### Health Administration Certificate

The Health Administration Certificate provides an opportunity for those who have completed a Bachelor's Degree in another discipline to acquire an understanding of the issues and problems of health administration. The Certificate Program complements many other Graduate Degree Programs and can be taken concurrently since many of the courses satisfy requirements or electives for Graduate Programs. The Certificate Program is a rigorous and demanding educational experience, designed to provide students with the knowledge, skills and expertise to pursue a career in the field of health administration. Contact the Health Sciences Department for details of the requirements.

### Credit Certificate in Health Administration

#### Required Core:

|          |  |
|----------|--|
| HSCI 513 | Leadership in Health Administration Practice (3) |
| HSCI 523 | Seminar in Health Care Organization (3)          |
| HSCI 613 | Managing Change in Health Care Organizations (3) |

#### Complete one of the two specializations:

##### National Health Administration

|          |  |
|----------|--|
| HSCI 510 | Systems in Health Delivery in the U.S. (3)             |
| HSCI 511 | Health Services Administration Theory and Practice (3) |

##### International Health Administration

|          |   |
|----------|---|
| HSCI 515 | Seminar in Health-Care Information Management (3) |
| HSCI 614 | Health Administration: Financial Management (3)   |

### Course List

#### HSCI 131. Health and Society (3)

Analysis of major health problems affecting the life of an individual, the family and community-at-large. Evaluation, planning and implementation of approaches to meeting personal and societal health needs. (Available for General Education, Lifelong Learning.)

#### HSCI 132. History of Preventive Medicine and Public Health (3)

Historical development of the disease processes, concepts and the institutions concerned with public health. (Available for General Education, Social Sciences.)

#### HSCI 170. Emergency Health Procedures (2)

Application of medical self-help principles and procedures to maintain health in emergency situations, with particular emphasis on physi-

ological bases. American Red Cross "Responding To Emergencies" certificate issued upon successful completion of course requirements. (Available for General Education, Lifelong Learning.)

### HSCI 181. Medical Imaging Sciences I (3)

*Prerequisite:* Acceptance into the Radiologic Technology Program or instructor consent. Introduction to the role of the radiologic technologist. Study of the function and manipulation of equipment and technical factors used in the production of X-ray and in imaging systems used within radiology. Includes a progressive series of radiographic exercises in preparation for clinical experiences. (Offered Fall semester.)

### HSCI 182. Medical Imaging Sciences II (3)

*Prerequisite:* HSCI 181 or instructor consent. Study of imaging modalities and equipment utilized in radiology. Includes a progressive series of exercises involving radiation protection procedures, problem-solving techniques and quality assurance programs to be used during clinical education. Considers the manipulation and use of body section radiography, phototiming, image intensification and stereoscopic equipment. (Offered Spring semester.)

### HSCI 231. Women and Health (3)

Study of factors affecting health and women in our society. (Available for General Education, Lifelong Learning.)

### HSCI 237. Introduction to Health Education (3)

*Recommended Corequisites:* ENGL 305 or 306. Introduction to the professional field of health education. Rooted in the broad field of public health, with an emphasis on the roles of health promotion and illness prevention. Stress is placed on the relationship between health, the social and physical environment, health-care delivery and personal health behavior.

### HSCI 280. Radiological Sciences: Clinical Education I (1)

*Prerequisite:* Acceptance into the Radiologic Sciences Program. *Corequisite:* HSCI 285. Orientation and introduction to clinical education in medical radiography. At an affiliated hospital, each student participates with direct supervision in selected darkroom, clerical and basic radiographic procedures. Includes lectures in hospital organization, departmental administration and medical ethics. (Offered Fall semester.)

### HSCI 281. Radiological Sciences: Clinical Education II (1)

*Prerequisite:* HSCI 280. *Corequisite:* HSCI 286. Clinical participation in the radiology department of an affiliated hospital. Includes patient positioning, manipulation of exposure factors, film analysis and methods of patient care. (Offered spring semester)

### HSCI 282. Radiological Sciences: Clinical Education III (3)

*Prerequisite:* HSCI 281. *Corequisite:* HSCI 283. Clinical participation in the radiology department of an affiliated hospital. Includes patient positioning, manipulation of exposure factors, film analysis and methods of patient care.

### HSCI 283. Radiological Sciences: Clinical Education IV (2)

*Corequisite:* HSCI 282. Clinical participation in the radiology department of an affiliated hospital. Includes patient positioning, manipulation of exposure factors and advanced film analysis. (Offered Fall semester.)

### HSCI 284. Radiological Sciences: Clinical Education V (4)

*Prerequisite:* HSCI 283. Clinical participation in the radiology department of an affiliated hospital. Includes patient positioning, manipulation of exposure factors and advanced film analysis. (Offered Spring semester.)

### HSCI 285. Radiographic Anatomy and Positioning I (4)

*Prerequisites:* BIOL 211, 212; Acceptance into the Radiologic Technology Program. *Corequisite:* HSCI 280. Comprehensive modular approach to radiographic positioning of the appendicular skeleton, vertebral column, genito-urinary tract, chest and abdomen, with emphasis on the associated anatomy, physiology and medical terminology.

### HSCI 286. Radiographic Anatomy and Positioning II (4)

*Prerequisite:* HSCI 285 or instructor consent. *Corequisite:* HSCI 281. Methodologies and elements of pediatric radiology in depth, including positioning of the skull, facial bones, paranasal sinuses, mastoids and intraoral and extraoral radiography. Continuation of advanced technical film analysis.

## Upper Division

### HSCI 302. Basic Pathophysiology (3)

*Prerequisite:* Approval of faculty advisor. Study of the pathogenesis and clinical picture of common disease processes that impact the self-care of individuals. Focuses on the impact of environmental, genetic and individual factors in creating or perpetuating disturbed physiology, as well as on physiological adaptive responses and the interdependence of body systems. (See Program advisor for information on credit by challenge examination.)

### HSCI 312. Introduction to Health Administration (3)

Fundamentals of health administration, including role integration between health administrators, health professionals and allied health personnel.

### HSCI 313. Health Administration (3)

*Prerequisite:* HSCI 312. Theory and practice of health administration in various types of health organizations.

### HSCI 314. Organization and Delivery of Health Services (3)

Examines how the behavior and interaction of health system components, consumers and the diverse interest groups in our nation impact the distribution and availability of health-care resources, impede or increase access to care, change or create health entitlements like Medicare and Medi-Cal, and change provider reimbursement mechanisms. U.S., California and Los Angeles County public and private health systems are overviewed, as are systems of health delivery in other nations.

### HSCI 335. Holistic Health (3)

Critical examination of the holistic health model and selected holistic techniques.

### HSCI 336. Health Aspects of Drug Use (3)

*Preparatory:* Completion of the Lower Division writing requirement. In-depth analysis of the factors and problems related to the use and misuse of drugs and their effect on the health and welfare of the individual, family and society. (Available for General Education, Lifelong Learning.)

### HSCI 337. Nutrition and Health (3)

*Preparatory:* Completion of the Lower Division writing requirement. Fundamentals of nutrition, emphasizing practices and problems related to consumer and health. Credit not allowed for both HSCI 337 and FCS 207. (Available for General Education, Lifelong Learning.)

### HSCI 345. Public Health Issues (3)

Exploration and analysis of the issues that define public health. Economics, politics, history, theory, organization and contemporary practice methodologies are probed in light of such topics as infectious and chronic diseases, maternal and child health, drug abuse, ethnic health, mental health, nutrition, poverty and sexually transmitted diseases. (Available for General Education, Social Sciences.)

### HSCI 365LS Health Science for Liberal Studies ITEP (3)

This course is designed for the Integrated Teacher Education Program (ITEP). The course focuses on how overall health and well-being affect successful learning experiences in the elementary-school child. Topics of discussion include morbidity and mortality among children, including the impact of issues such as nutrition, substance abuse, child abuse, accidents and chronic and infectious diseases. The key roles and responsibilities that elementary-school personnel acting *in loco parentis* have in promoting the health and well-being of children are explored. Additional emphases include the teaching of health science subject

matter in the elementary-school classroom. Lesson planning strategies are developed that emphasize health standards, multiple intelligences and varied instructional resources/practices.

**HSCI 380. Cross-Sectional Anatomy for Radiographers (2)**

*Preparatory: Admission to the Radiologic Technology Program or instructor consent.* Introduction to cross-sectional anatomy with the use of advanced imaging techniques, including Computerized Tomography, Magnetic Resonance Imaging and Ultrasonography. Includes comparisons of the various modalities in demonstrating certain anatomy.

**HSCI 382. Mammography (3)**

*Prerequisite: California State Certificate for Radiologic Technology (CRT) or senior status in an accredited RT program.* Study of breast anatomy, physiology and pathology, with an emphasis on breast cancer, risk factors and detection techniques. Additionally, mammography imaging, instrumentation requirements and mammographic techniques are emphasized. Labs in quality assurance are scheduled off site. (Offered only through Open University, Fall semester.)

**HSCI 384. Computers in Diagnostic Imaging (2)**

*Prerequisites: HSCI 181, 182; MATH 105 and PHYS 376, or instructor consent.* Study of state-of-the-art equipment and procedures available to radiology departments. Focuses on computer software, algorithms and digitization of imaging data. Topics prepare the student for specific computer applications in advanced imaging course work for MRI, CT and Digital Subtraction Angiography. Clinical applications and processes that highlight the course content are conducted at affiliated medical centers.

**HSCI 385. Quality Assurance and Evaluation of Radiology Imaging Equipment (2)**

*Prerequisites: HSCI 181 and PHYS 376, or instructor consent.* Study of quality assurance concepts and application for radiology departments. Includes evaluation of imaging equipment in one of the affiliated medical centers.

**HSCI 386. Radiologic Sciences Clinical Education VI (3)**

*Prerequisites: HSCI 284, 285, 286, 380, 480.* Clinical participation in the radiology department of an affiliated hospital. Includes patient positioning, manipulation of exposure factors and advanced film analysis. Advanced Imaging techniques in MR, CT, IR and Cardiac Cath are included.

**HSCI 387. Radiologic Sciences Clinical Education VIII (3)**

*Prerequisite: HSCI 386 or approval from instructor.* Clinical participation in the radiology department of an affiliated hospital. Includes patient positioning, manipulation of exposure factors and advanced film analysis. Advanced Imaging techniques in MR, CT, IR and Cardiac Cath are included.

**HSCI 390/L. Biostatistics and Lab (3/1)**

*Corequisite: HSCI 390L. Preparatory: MATH 102 or 103 or 105 or 140.* Principles, theory and practice of statistical analysis in health as they apply to health planning, epidemiological research and experimental research. 3 hours lecture, 2 hours lab.

**HSCI 391. Computer Application in Health Sciences (3)**

Introduction to computer technology, including legal and ethical considerations and its application to health education, health research, health administration and clinical health practice. Class time is proportioned between lecture-discussion and hands-on computer practice.

**HSCI 412. Medical Care Organization in the U.S. (3)**

*Prerequisites: HSCI 312, 314.* Problems in the administration of health services from a societal perspective. Questions of equity in service availability and cost are contrasted with administrative issues. Critique of national health insurance and comparison of the recent and proposed U.S. system with health systems of other nations.

**HSCI 413. Leadership and Direction in the Administration of Health Services (3)**

*Prerequisite: HSCI 412.* Lecture, discussion, demonstrations and case analyses. Introduction to the basic principles of leadership and direction for students interested in supervision and management of health programs.

**HSCI 414. Health Law (3)**

*Preparatory: HSCI 312, 314.* Overview of the legal aspects of health-care delivery and the health administrator's and health professional's responsibility in the area of patient care, consumer rights and malpractice.

**HSCI 415. Health Information Systems (3)**

*Preparatory: HSCI 412.* Introduces the health-care information systems required in the health-care industry and develops an understanding of the scope and applications of these systems. Both clinical and administration information systems in the health-care industry are covered. Discusses strategic and tactical information management needs of health-care executives.

**HSCI 416. Utilization of Professional and Allied Health Personnel (3)**

*Prerequisites HSCI 312, 412.* Principles, methods and procedures in the utilization of professional and allied health personnel in health organizations.

**HSCI 418. Health and Aging (3)**

*Prerequisite: PSY 365 or instructor consent.* Provides Upper Division graduates and graduate students with an overview of critical issues related to aging and health. Topics covered include physiology of aging, health behaviors, age-related diseases, managing illness, medical care, and death and dying. Students are expected to master a number of theoretical and empirical approaches to health.

**HSCI 419. Hospital Administration (3)**

*Prerequisites: HSCI 312, 412.* Introduction to the administration, organization and evaluation of hospital services and the role of the hospital in the community health system. Topics include governance, financing, medical staff relations and other current topics.

**HSCI 422. Health Services for the Elderly and the Mentally Ill (3)**

*Prerequisite: HSCI 412.* Problems in planning, financing, delivering and evaluating health services for the elderly and the mentally ill. Administrative structures and public and private delivery systems are compared and critiqued.

**HSCI 423. Topics in Healthcare Insurance and Financing (3)**

*Prerequisite: HSCI 412.* Explores the policy side of health-care financing through third parties, such as the government and private insurance. Advanced topics include the social, economic and political impact of health-care financing and the impact on the provision of health-care services. Relevant current topics added each semester.

**HSCI 424. Health Planning (3)**

*Prerequisites: HSCI 312, 390, 412.* Emphasizes current approaches to the administration of community-wide health planning agencies and the administration of in-house facility health planning programs.

**HSCI 425. Financial Planning and Reimbursement in Health Care (3)**

*Prerequisites: ACCT 220 or equivalent; HSCI 312, 412.* Consideration of the highly specialized application of financial planning principles and reimbursement procedures in health organizations, including government regulations and legal restraints.

**HSCI 431. Health Behavior (3)**

*Prerequisites: HSCI 237; PSY 150.* Application of current concepts of the behavioral sciences to the health field. Approaches to behavioral changes for healthful living are stressed.

**HSCI 433. Counseling of Health Problems (3)**

Consideration of concepts and techniques of counseling and guidance as they apply directly to the reduction of specific health problems.

**HSCI 435. Health Science for Children and Youth (3)**

Examination of biological and environmental factors influencing health of children and youth, and means of solving selected health problems, including cardiopulmonary resuscitation. (Available for General Education, Lifelong Learning—Credential candidates only.)

**HSCI 436. Health Concerns of Adolescents (3)**

In-depth study of the health concerns of adolescents, including cardiopulmonary resuscitation. (Available for General Education, Lifelong Learning—Credential candidates only.)

**HSCI 437. Strategies for Making Health Decisions (3)**

Undergraduate seminar. Techniques of developing selected strategies for making health decisions.

**HSCI 438. International Health (3)**

Analysis of health problems in selected countries. Study of the origin, orientation and purposes of agencies functioning in this field.

**HSCI 439. Community Health Action (3)**

Basic concepts and techniques of community health action as applied to the initiation and enhancement of community health and health-related services.

**HSCI 440. Family Health (3)**

Health aspects of the home and the family, including health and personal qualifications for marriage, prenatal care, pregnancy, infant and maternal mortality, children's diseases, home accidents, health plans for the family, and health problems of the older members of the family.

**HSCI 441. Community Health Education (3)**

*Prerequisites:* HSCI 390/L, 431. Program planning and evaluation as applied to the practice of education in the community; factors that influence decision making about health; barriers to changing health behavior; effective utilization of community health agencies as vehicles of change.

**HSCI 442. Health Problems of the Disadvantaged (3)**

In-depth study of the interrelationship between the conditions of poverty and wealth. Includes a social-psychological analysis of the interaction between health problems, urban poverty and minority-group membership.

**HSCI 445. Senior Seminar in Health Education (3)**

*Prerequisites:* C- grade or better in HSCI 441; Senior standing. Study of the methodologies in planning, developing, implementing and evaluating programs to solve school and community health problems.

**HSCI 450. Advanced Topics in Health-Care Budgeting and Finance (3)**

*Prerequisites:* ACCT 220; HSCI 425. Addresses the complexity of the financing of health-care organizations. Topics include such issues as budgeting, capital financing, reimbursement, and non-profit and for-profit financing trends.

**HSCI 465ELM. Teaching Health in The Elementary School Classroom (1)**

*Prerequisite:* Restricted to College of Education Credential students. This is a survey course that explores the practical application of selected strategies for the teaching of health education subject matter in the elementary-school classroom. The effective utilization of instructional methodologies that relate to information/concept development, skill development, open-ended classroom discussion and problem solving are reviewed. State guidelines are reviewed, including "standards" for classroom health instruction and the Health Framework for California Public Schools. The Comprehensive School Health System (CSHS) and its specific components (health services, a healthful and safe school environment, and health education) are examined.

**HSCI 466ADO. Health Issues of the Adolescent (1)**

An introduction to the current health concerns of adolescents in the secondary-school setting. Emphasis is placed on the role of the teacher in working with students who have special health needs and conditions and measures that enhance successful learning. Topics include attention to teacher observation skills, mandated health screening and immunizations, parent referral and follow-up procedures, and the contribution of school personnel to a Coordinated School Health Program. This course is restricted to students in the College of Education Credential Program and is required for the Single Subject Credential.

**HSCI 478 Seminar in Current Trends (3)**

*Prerequisites:* Senior standing; Consent of instructor. Seminar to identify and analyze current trends, issues and challenges in the health-care industry. Subject matter varies weekly. Course contains a substantial off-site service learning component that will match students' career objectives.

**HSCI 480. Computed Tomography (2)**

*Prerequisites:* HSCI 181, 182; MATH 105 and PHYS 376, or instructor consent. Principles of Computed Tomography provide the Radiologic Technology student with a broad understanding of the applied physics and imaging techniques used in clinical Computed Tomography Imaging. Overviews all 5 generations of CT imaging. Clinical applications and processes that highlight the course content are conducted at the affiliated medical centers. (Offered fall semester)

**HSCI 482. Angiography and Interventional Technology (3)**

*Prerequisite:* Instructor consent. Radiographic examinations involving surgical procedures and specialized equipment. (Offered Fall semester.)

**HSCI 483A. Medical Imaging Pathology (2)**

*Prerequisites:* HSCI 302 (or NURS 302), 380, 480, 482. Understanding the basic principles of pathology is an essential part of the radiologic technologist's training. Knowing how disease processes work and recognizing the radiographic appearance of specific diseases can aid the technologist in selecting proper modalities and determining the need for repeat radiographs in different situations. This kind of knowledge enables the radiologic technologist to become a more competent professional and a contributing member of the diagnostic team.

**HSCI 485. Principles of MRI (3)**

*Prerequisite:* HSCI 384. Principles of Magnetic Resonance Imaging (MRI) provides the Radiologic Technology student with a basic understanding of the applied physics, imaging techniques and imaged anatomy/pathology used in clinical magnetic resonance imaging. Clinical applications and processes that highlight the course content are conducted at the affiliated medical centers. (Offered Spring semester.)

**HSCI 486A. Seminar: Advances in Radiologic Imaging I (1)**

*Prerequisites:* HSCI 181, 285. Research of diagnostic, interventional or therapeutic processes being developed or used in radiologic imaging for the purpose of improving the health and/or well-being of the patient population. Students work under the guidance of the instructor to research an approved topic and to develop a scientific paper, display or project. Students participate in seminar discussions on current research, present their research findings and demonstrate professional communication and critical-thinking skills.

**HSCI 486B. Seminar: Advances in Radiologic Imaging II (1)**

*Prerequisites:* HSCI 181, 285, 486A. Research of diagnostic, interventional or therapeutic processes being developed or used in radiologic imaging for the purpose of improving the health and/or well-being of the patient population. Students work under the guidance of the instructor to research an approved topic and to develop a scientific paper, dis-

play or project. Students participate in seminar discussions on current research, present their research findings and demonstrate outstanding professional communication, teaching and critical-thinking skills.

#### **HSCI 487. Professional Development for Radiographers (3)**

*Prerequisites:* HSCI 283, 482. Seminar includes discussion and application of instructional interventions used in accredited radiography programs. Discussions center on current issues and changes in practice as they apply to continuing curriculum development, the national accreditation process and patient education. Additional discussions center around the professionalization of the radiographer with topics covering professional ethics, professional codes of conduct and management of professionals. (Offered Fall semester.)

#### **HSCI 488. Epidemiology: Study of Disease (3)**

*Prerequisite:* HSCI 390. Nature, transmission, prevention and control of disease from a public-health approach. Historical background, current problems and trends in disease control.

#### **HSCI 489. Medical Imaging Pathology (2)**

*Prerequisites:* HSCI 302, 380, 480, 482. Understanding the basic principles of pathology is an essential part of the radiologic technologist's training. Knowing how disease processes work and recognizing the radiographic appearance of specific diseases can aid the technologist in selecting proper modalities and determining the need for repeat radiographs in different situations. This kind of knowledge enables the radiologic technologist to become a more competent professional and a contributing member of the diagnostic team.

#### **HSCI 494A-F. Academic Internship (1-6)**

Supervised internship in official and/or voluntary health agency. Includes staffing conferences. (Credit/No Credit only)

#### **HSCI 496A-Z. Experimental Topics Courses in Health Sciences (3)**

Course content to be determined. (See subtitle in appropriate Schedule of Classes)

#### **HSCI 498. Field Assignment and Reports (1-3)**

*Prerequisite:* Consent of the Department. Approved experience in voluntary or official health agencies or in administration or coordination of school health programs. Critical analysis of these experiences reported in writing. Maximum of 6 units is permissible for credit in the major. (Credit/No Credit only)

#### **HSCI 499A-C. Independent Study (1-3)**

## Graduate

#### **HSCI 510. Systems for Health Delivery in the U.S (3)**

Introductory course describes the organization of public and private systems of care, role of governments and private health care systems, the evolution of health services in the U.S., and key federal and state legislation and regulation impacting provider reimbursement, health care entitlements, quality of care, preparation of healing arts professionals, and how health-care organizations develop and function.

#### **HSCI 511. Health Services Administration Theory and Practice (3)**

*Preparatory:* Bachelor's Degree; Conditionally Classified status for the Master's Degree in Health Administration. Introduction to the basic historical and current theory and practice of the administration of health services organizations. Emphasis on the administrator's role in a systems approach to assessing and responding proactively to the external forces in the health services delivery system and in the development of the organization's culture and processes for the provision of quality service.

#### **HSCI 513. Leadership in Health Administration Practice (3)**

Seminar in which special emphasis is placed on the leadership skills needed in health-care organizations. Describes basic leadership principles, reviews literature, examines factors associated with successful

leadership and discusses case studies on leadership strategies used in the health-care field. In addition, a personal assessment of leadership styles are conducted, as well as a culminating community class project.

#### **HSCI 515. Seminar in Healthcare Information Management (3)**

*Prerequisites:* Graduate status; Basic computer literacy. Investigates current status of both clinical and administrative health-care information management systems. Topics include, emerging technology, selection of information systems, management of information, electronic medical records, the internet's impact on a health-care organization's business processes, and other current events. For MSHA, MPT, MPH and other graduate students.

#### **HSCI 517. Health Economics And National Health Policy (3)**

Application of economic theory and concepts to the analysis and formulation of both managerial decision and health-care policy. Provides a basic introduction to the relevant technical and economic aspects of the health-care industry and local, state and national health-policy issues.

#### **HSCI 518. Managed Care (3)**

*Prerequisite:* HSCI 412 or graduate standing. Consideration of alternate health-care delivery systems emphasizing the planning, development, start-up and operation of health maintenance organizations.

#### **HSCI 521. Health-Care Ethics (3)**

*Prerequisite:* HSCI 412 or graduate standing. Framework for analysis of ethical issues in the provision of health care, including conceptual foundations for defining biomedical ethical problems; societal, institutional and individual dilemmas in health-care delivery and financing; ethical problems at the beginning and at the end of life; and administration of institutional ethics committees.

#### **HSCI 523. Seminar in Health-Care Organization (3)**

*Prerequisite:* HSCI 510. Graduate seminar in health-care organization examines the structure and interrelationships of health status and health-care resources, including human resources, facilities and services. Approach is interdisciplinary and designed to provide the student with an understanding of the issues in health-care delivery. Emphasis is placed on providers and populations within the clinical, legal, political and economic systems.

#### **HSCI 531. Seminar: Health Education Program Planning and Evaluation (3)**

*Preparatory:* Graduate standing as a Conditional or Classified student in the MPH Program. Graduate students not in the Program may enroll with permission of course instructor. In-depth study of the conceptual/theoretical and practice-based methodologies of community health education program planning and evaluation.

#### **HSCI 533. Advanced Concepts of Health Behavior (3)**

Critical analysis of theoretical issues and current methodologies related to influencing health behavior. Special emphasis will be given to the selection and application of principles to the field setting. (Offered Spring semester.)

#### **HSCI 535. Curriculum Development in Health Education (3)**

Critical analysis of curriculum theory and its application in the development of education programs in the health sciences. (Offered Fall semester.)

#### **HSCI 536. Cultural Issues in Health Care (3)**

*Preparatory:* Graduate standing or instructor consent. Provides the health professions student with an increased understanding of the cross-cultural factors that can influence health and disease practices across a wide range of cultural groups. Using readings, classroom exercises and student-developed case studies, participants explore the cultural variables impacting the delivery of health promotion/disease prevention programs and services.

**HSCI 537. Communications in Health Education (3)**

Analysis, development and utilization of media communication in Health Education.

**HSCI 538. Seminar: Community Health Action (3)**

Comprehensive analysis of methods and techniques appropriate to community health action. (Offered Spring semester.)

**HSCI 539. Seminar: Current Issues in Health Education (3)**

Theory, principles and research applicable to health education. Investigation of problems of social, economic, cultural and educational origin as they apply to sound health education programs. (Offered Fall semester.)

**HSCI 540. Grantsmanship for Health and Human Development (3)**

An introductory course in grant writing for graduate students. The course will focus on the fundamental characteristics of grant writing for the health and human services, including identifying sources of funding, writing a proposal narrative, developing a realistic budget, reviewing and editing proposal content, and understanding how to manage an awarded grant. The course will examine the criteria for fundable projects in the health and human service arena and provide students with knowledge and tools for producing a grant application.

**HSCI 541. Administration, Supervision and Consultation in Health Education (3)**

In-depth exploration of the organization, administration and legal aspects of health education programs and the principles of supervision and consultation as applied to health education. (Offered Spring semester.)

**HSCI 545. Seminar: Mental Health (3)**

Critical analysis of selected literature concerning mental health education, psychosomatic disease and addiction.

**HSCI 552. Seminar: Consumer Health (3)**

Critical analysis of literature related to consumer health.

**HSCI 587. Seminar: Epidemiology (3)**

*Prerequisite: HSCI 488 or graduate standing.* Critical analysis of literature related to the newer concepts of epidemiology as applied to preventative medicine, health-care management and public health.

**HSCI 588. Epidemiology of Infectious Diseases (3)**

*Prerequisites: HSCI 390, 488.* Critical review of infectious diseases, their transmission, control, prevention and significance in the past, present and future.

**HSCI 589. Epidemiology of Common Chronic Diseases (3)**

*Preparatory: HSCI 588, 592.* Selected models to evaluate, analyze and investigate risk factors related to common chronic diseases.

**HSCI 591. Quantitative Demography for Health Science (3)**

*Preparatory: HSCI 592.* Principles, theory and quantitative aspects of epidemiological demographic methods utilized in health science.

**HSCI 592. Advanced Biostatistics for the Health Sciences (3)**

*Prerequisites: HSCI 390, 488; Graduate standing.* Combines data collection, design of data gathering instruments, data analysis, statistical methods and statistical reasoning for the health sciences.

**HSCI 595A-Z. Experimental Topics Courses (1-3)****HSCI 613. Managing Change in Health Care Organizations (3)**

*Prerequisites: HSCI 513; Classified graduate status in Health Administration.* Graduate seminar on administrative trends, issues and new developments in health-service delivery.

**HSCI 614. Health Administration: Financial Management (3)**

*Prerequisites: Accounting course; Classified graduate status in Health Administration.* Theory, analysis and application of techniques of fiscal management in selected health-care systems.

**HSCI 615. Information Management for Decision Making and Control (3)**

*Prerequisite: Classified graduate status in Health Administration.* Objective is to improve the student's decision-making capabilities and develop a systematic approach to problem solving. The student develops the ability to structure problems using explicit and logical decision styles and demonstrate an understanding of the theory and implementation of mathematical models. Emphasis is placed on the application of skills in a variety of health-care settings.

**HSCI 616. Quality Assurance in Health Care (3)**

*Prerequisites: HSCI 513; Classified graduate status in Health Administration.* Seminar on new developments, government regulations and approaches to quality assurance in health care.

**HSCI 618. Strategic Planning in Health Administration (3)**

*Prerequisites: HSCI 513; Classified graduate status in Health Administration.* Market and resource assessment, changing regulatory and other factors in the health services environment and their impact on the strategic planning process and use of strategic plans in health administration practice.

**HSCI 619. Third Party Payer Impact On Health Delivery (3)**

*Prerequisite: Classified graduate status in Health Administration.* Examines how third-party pay mechanisms, including traditional indemnity insurance/fee-for-service, Medicare and Medicaid, prospective payment systems, various managed care models and other forms, impact provider and consumer behavior, and risk management. Other items include, Workers Compensation, disability insurance and liability insurance for the healing arts professions, self-insured employers and ERISA, and the impact of these mechanisms on access to care, quality and consumer/provider economic incentives.

**HSCI 620. Seminar in Hospital Administration (3)**

*Preparatory: Classified graduate status in Health Administration.* Hospital organization; governance; relationship of administration to the medical staff; inpatient and outpatient services; professional staff organization; implications of changing MediCal and Medicare and private payer reimbursement; payer contracting; Title 22 and 24 requirements; licensing; make vs. buy decisions; community need and community benefit; differences and similarities between public, private nonprofit and private investor-owned hospitals; and DSH and District and teaching hospitals are examined. Course may involve field trips to area hospitals.

**HSCI 621. Facility Planning and Materials Management in Health-Care Organizations (3)**

*Prerequisite:* Classified graduate status in Health Administration. Elements of facility planning, code requirements, work flow, designing health facilities for service delivery, the function and role of materials managements, use of materials management in formulary design, and linkages to the purchasing function are covered.

**HSCI 625. Integrative Seminar in Health Administration (3)**

*Prerequisite:* Permission of instructor. Last semester of course work. Integrative seminar. Students apply the knowledge and analytic skills obtained from health administration courses to the solution of organization and system-wide problems in health care.

**HSCI 693A-C. Supervised Field Training (1-2)**

Supervised action research in selected agencies or organizations. May be repeated for up to 4 units credit. (Credit/No Credit only)

**HSCI 694. Research Design (4)**

*Prerequisite:* HSCI 390. Critical consideration of research methodology as applied to the health sciences.

**HSCI 696. Seminar: Research Methodology (3)**

Analysis of research methodology and interpretation, and applied directly to student-conducted independent research.

**HSCI 697. Directed Comprehensive Studies (3)**

(Credit/No Credit only)

**HSCI 698. Thesis or Graduate Project (2-4)**

Enrollment requires that a signed proposal be on file in the Health Science Office. (Credit/No Credit only)

**HSCI 699. Independent Study (1-6)**

*Preparatory:* At least one course at the graduate level. Investigation of a significant problem in the health field.

## Programs

Undergraduate:

- B.A., History**
- Minor in History**

Graduate:

- M.A., History**

Credential:

Social Science Subject Matter Program (SSSMP) for the Single Subject Credential. Contact (818) 677-3566 or e-mail [sssmp@csun.edu](mailto:sssmp@csun.edu) for information.

## Department Programs

Within the general category of social sciences, the history major and minor are humanistic, international, culturally oriented, liberal arts programs for students desiring a broad background in the ideas and institutions of the world. They emphasize the development of the student's personal intellectual skills of critical reasoning, writing and analysis of issues and evidence. In addition to preparing the student for graduate study in history or for subject matter competency (prior to applying for a secondary teaching credential in the Social Sciences), the history major also serves as preparation for a variety of professions, most notably law, government service, library science, historical preservation and archival administration. The Master's Program constitutes a terminal degree for teachers completing the fifth year requirement for a California Credential, as well as preparation for the Doctoral Degree. In either case, superior achievement in history must be demonstrated for admission to the M.A. Program. Prospective applicants should consult informational materials from the Department and consult with the Graduate Coordinator.

The Department of History supports international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Department of History and may be used to fulfill some of the requirements for Degree Options offered by the Department and/or certain general education requirements. Students should consult the International Programs Bulletin available in the Office of International and Exchange Programs, a Departmental advisor, or the campus International Programs Advisor for more information.

## Careers

History provides an excellent liberal arts background that prepares majors for a wide variety of careers ranging from law to business to medicine. It also provides specific training that can lead to positions in such fields as education, historic preservation, archival work, or diplomacy.

## Academic Advisement

Students interested in History should consult with Department's Staff Advisor prior to declaring the major. All History majors and minors should seek advisement from the Advisor or a faculty member specializing in their area of interest prior to registration. Credential candidates should consult with the Social Science Subject Matter Program Advisor in the College of Social and Behavioral Sciences (Sierra Hall 164A, (818) 677-3566, [sssmp@csun.edu](mailto:sssmp@csun.edu)) prior to registration. During advisement for computer registration, approval is available in the Department Office for all history courses requiring special permission of the instructor.

**Undergraduate Advisor:** Nan Yamane

**General Advisement:** All members of the Department

**Graduate Coordinator:** Susan Fitzpatrick-Behrens

**Pre-law:** James Sefton

## Student Learning Outcomes of the Undergraduate Program

Completion of the Degree in History will provide the student with knowledge of the political, economic, social and intellectual development of the world's principal civilizations, notably American (U.S.) civilization, Western civilization and the civilization of one other area of the world. Included also are the principal personalities, events, ideas and relationships that are the basis of historical studies, as well as a knowledge of various historical methods and historiography that will lead to a better understanding of:

- a) How historians approach the past;
- b) The value and limitations of various kinds of historical writings; and
- c) How to explore the evolution of history as an academic discipline.

Specific student learning objectives for History majors include:

1. To analyze and explain problems of historical interpretation;
2. To comprehend, articulate and apply the various approaches to historical analysis;
3. To learn to read and interpret historical sources critically and analytically;
4. To express orally and exchange historical ideas;
5. To select a research problem and search for relevant primary and secondary sources;
6. To write a research essay using a scholarly format that includes footnotes and bibliography;
7. To demonstrate a complex understanding of the history of the U.S., Europe and one other region or culture over a period of time; and
8. To understand historical subjects that transcend regional boundaries.

## Requirements for the B.A. Degree In History

### 1. General Core Curriculum (15 units)

**Choose 1 course from each of the following:**

- |           |          |   |
|-----------|----------|---|
| <b>A.</b> | HIST 110 | World History to 1500 (3)                         |
|           | HIST 150 | Western Civilization I (3)                        |
|           | HIST 303 | Themes in Western Civilization Before 1500 (3)    |
| <b>B.</b> | HIST 111 | World History since 1500 (3)                      |
|           | HIST 151 | Western Civilization II (3)                       |
|           | HIST 302 | Western Cultural Heritage, Modern Age (3)         |
|           | HIST 304 | Themes in Western Civilization After 1500 (3)     |
| <b>C.</b> | HIST 270 | The United States to 1865 (3)                     |
|           | HIST 370 | Problems in American History to 1865 (3)          |
| <b>D.</b> | HIST 271 | The United States Since 1865 (3)                  |
|           | HIST 371 | Problems in American History: 1865 to Present (3) |

- E. HIST 145 African Civilization to Modern Times (3)
- HIST 161 Survey of the History of Latin America (3)
- HIST 185 Civilization of the Middle East (3)
- HIST 191 History of Eastern Civilization I (3)
- HIST 192 History of Eastern Civilization II (3)

**2. Research Core Curriculum (9 units)**

- A. HIST 301 The Historian's Craft: Reading, Research and Writing History (3)

*(Must be taken in the first 75 units of the major's College program.)  
(Grade of "C" or better is required for graduation)*

- B. HIST 497 A-Z Proseminar (3)
- (Prerequisite 301; grade "C" or better is required for graduation)*

- C. HIST 498 Tutorial in History (3)
- (Grade C or better is required for graduation)*

**3. Upper Division Curriculum (24 units)**

All units in this section must be Upper Division. HIST 302, 303, 304, 370 or 371 may not be applied to satisfy these requirements. A minimum of 12 of these 24 Upper Division elective units must be at the 400- or 500-level.

- A. Upper Division European History (3)
- B. Upper Division U.S. or Canadian History (3)
- C. Upper Division Asian, African, Middle Eastern or Latin American History (3)
- D. 15 units from other Upper Division courses (15)

**General Education:** Some Title 5 courses also apply to the Major.

|   |              |
|---|--------------|
| <b>Total Units in the Major</b>             | <b>48</b>    |
| <b>General Education Units</b>              | <b>48</b>    |
| <b>Additional Units</b>                     | <b>14-17</b> |
| <b>Total Units Required for B.S. Degree</b> | <b>120</b>   |

**Second Bachelor of Arts Degree in History**

The second B.A. Degree is available to all students. Students admitted to the Program must obtain an evaluation of all previous work in History and fulfill the University guidelines that apply to those pursuing a second B.A. Degree. The second B.A. is especially attractive to students with a secondary Social Science Credential from CSUN or equivalent preparation from some other institution. Students who want to obtain a second B.A. in History while simultaneously completing the Social Science Subject Matter Program (SSSMP) that is a prerequisite for the Secondary Teaching Credential should consult with the SSSMP director. For more information see the Program's website at [ssmp@csun.edu](http://ssmp@csun.edu).

**Minor in History**

The History Minor consists of 24 units in History, no more than 12 of which may be in Lower Division. With an advisor, students work out a program to complement a major and fit their particular needs. Students will be able to choose a broad program that provides a background in several areas of history or they will be able to specialize in U.S., European, African, Asian, Latin American, topical or comparative history.

**Requirements for the Master of Arts Degree**

**A. Requirements for Admission**

1. A Baccalaureate Degree with a major or strong background in history, cumulative minimum undergraduate GPA of 3.0 and a cumulative minimum GPA of 3.3 in the last 60 semester (or 90 quarter) hours. Students who do not meet these criteria must demonstrate sufficient preparation or interest in history, as determined by the Department's Graduate Coordinator. This can be achieved by show-

ing a minimum GPA of 3.5 in at least three History courses at the 400- to 600-level (Upper Division or graduate), including HIST 601 (Theory and Historiography) or the equivalent and at least 1 course requiring a substantial research paper.

2. A Graduate Record Exam score in the 50th percentile or above on any one of the 3 sections of the exam (verbal, quantitative or analytical). The GRE requirement is waived for applicants whose cumulative undergraduate GPA is 3.0 or higher or who hold a Graduate Degree from an accredited institution.
3. 2 letters of recommendation from faculty under whom the applicant worked as an undergraduate or graduate student.
4. One or two-page statement of purpose describing the applicant's academic background, career goals, historical interests and anticipated field of study.
5. A writing sample, such as a research paper not to exceed 25 pages in length.
6. Acceptance by the History Department.

**B. Requirements for the Degree**

Courses: A minimum of 30 units of approved graduate work consisting of:

1. HIST 601 to be taken during the first 2 semesters in the Program.
2. 7 graduate-level History courses (21 units), including at least 2 courses in 2 different geographic areas (U.S., Europe, Latin America, World) and at least 1 course in a third area. At least 2 of these 7 courses must be 600-level research seminars.
3. 2 courses (6-9 units) at the 400-, 500- or 600-level in History or at the 500- or 600-level in related disciplines with approval of the Graduate Coordinator. (HIST 497 and 498 are not acceptable.)

**C. Foreign Language Requirement**

The History Department strongly recommends that all students learn a foreign language, especially those who are planning on pursuing a Ph.D., but leaves to the discretion of the student's area advisor the determination of what, if any, level of competency is required in a given foreign language.

**Grades**

All courses taken to meet any requirements of the Program must be completed with a grade of "B" or higher.

**Areas of Study**

In consultation with the Graduate Advisement Committee, the Departmental Graduate Coordinator and the student's faculty advisors, 2 areas of study are to be chosen from the following regions and eras: U.S.-Canada, Latin America, Western Europe, Eastern Europe, Medieval World, Ancient Mediterranean, East Asia, South Asia, Middle East or Australia.

A special focus may serve as a possible alternative to one of the foregoing areas. Such a focus would be developed between the student and the faculty advisors and would require the advisor's approval before it could be accepted as an area of study. The emphasis of a special focus will be on thematic, interdisciplinary or methodological approaches. Examples of a special focus might include the women's movement, slavery and antislavery movements, family history, gender analysis, oral history, colonialism, postmodern culture, archival studies, etc.

**Comprehensive Examination Option**

A Comprehensive Examination will be taken in 2 areas of history selected by the student in consultation with and upon approval by the Graduate Advisement Committee, the Graduate Coordinator and area advisors. In the semester in which all course work is completed, students may register in HIST 697 for the 2 written examinations that constitute the Comprehensive Examination.

### Thesis Option

After 18 units of study, students who secure a sponsor may, with permission of the sponsor, apply to write a thesis in one area of study. If such a contract is approved by the Departmental Graduate Coordinator and the Graduate Advisement Committee, a 3-person Faculty Thesis Committee will be established, as required by University regulations, with the sponsor as chair. Before registering in HIST 698 and commencing work on the thesis, students will be required to pass an oral examination in the thesis area of study. The examination will be administered by the Thesis Committee. Students in this option also must pass a written Area Proficiency Exam administered by the area advisor in the second area of study. The Thesis Option is not intended for every admitted student. It will be approved only for those students who are judged to be capable of doing original research, are adequately prepared and have a research problem that can be completed in the allowable time.

### Social Science Subject Matter Program for the Single Credential

The Social Science Subject Matter Program (SSSMP) for the Single Subject Credential is a Commission-approved set of courses designed to equip students for teaching at the secondary level in the social sciences. Students who successfully complete all requirements in the Program will be recommended to the California Commission on Teacher Credentialing (CCTC) as having demonstrated competence in the relevant social science subject matter (History, Anthropology, Economics, Geography, Political Science and Sociology). Completion of subject matter competency is one of the prerequisites for application to the Single Subject Preliminary Credential Program in the Social Sciences (Eisner School of Education). Additional information can be found under Secondary Education in the Catalog.

The SSSMP is not a major program leading to a B.A. Degree. It must be completed in addition to a major. Students from any CSUN-approved History or social science major may participate in this program.

Please consult the program's website for information and to make an advisement appointment if necessary.

### Course List

#### HIST 110. World History to 1500 (3)

Introduction to major developments in world history from the emergence of complex societies until 1500 c.e. Examines processes of social, cultural, political and economic change throughout this period and emphasizes comparisons of and interconnections between, major world civilizations in Europe, Asia, Africa and the Americas. (Available for General Education, Social Sciences.)

#### HIST 111. World History Since 1500 (3)

An introduction to the major developments in world history from 1500 to the present. The course examines the processes of social, cultural, economic and political change throughout this period and emphasizes the production of global cultures and reactions to them. (Available for General Education, Social Sciences.)

#### HIST 145. African Civilization to Modern Times (3)

Introduction to the history of the societies of sub-Saharan Africa. (Cross listed with PAS 171.)

#### HIST 150. Western Civilization I (3)

Roots of modern civilization in the West as revealed by a study of significant cultures and societies of the past from the earliest times to 1500. (Available for General Education, Arts and Humanities.)

#### HIST 151. Western Civilization II (3)

Modern civilization in the West since 1500, with emphasis on the historical development of basic elements of culture and problems of contemporary times. (Available for General Education, Arts and Humanities.)

#### HIST 161. Survey of the History of Latin America (3)

Study of certain aspects of the culture and society of Latin America and analysis of the relation of those aspects to the contemporary scene. (Available for General Education, Comparative Cultural Studies.) (IC)

#### HIST 185. Civilization of the Middle East (3)

Introduction to the history and culture of the Middle East from the rise of Islam in the 7th century to the present. (Available for General Education, Comparative Cultural Studies.)

#### HIST 191. History of Eastern Civilization I (3)

Survey of early Eastern civilization, from antiquity to the coming of the West.

#### HIST 192. History of Modern East Asia (3)

A survey of major developments in the history of East Asia from 1800 to the present. Focuses on political, economic, social and cultural transformations in China and Japan during this time period, with some attention to related developments in Korea and Vietnam. (Available for General Education: Subject Exploration, Comparative Cultural Studies.) (IC)

#### HIST 196. Experimental Topics Courses in History (3)

Selected topics in history with course content to be determined.

#### HIST 197. Why History? (3)

*Prerequisite: EPT score of 151 or better, or eligibility for freshman composition.* Seminar that introduces the discipline of History as a craft, and as one of the liberal arts and a social science. (Available for General Education, Social Sciences.)

#### HIST 210. A History of the Jewish People (3)

Study of the Jewish people from their beginnings in the ancient Near East to the establishment of the modern state of Israel. (Available for General Education, Comparative Cultural Studies.) (Cross listed with JS 210.)

#### HIST 270. The United States to 1865 (3)

Survey of the political and social development of the U.S. through the Civil War. (Meets Title 5 requirement in American History, Institutions and Ideals.)

#### HIST 271. The United States Since 1865 (3)

Survey of the political and social development of the U.S. since the Civil War. (Meets Title 5 requirement in American History, Institutions, and Ideals.)

#### HIST 296A-Z. Experimental Topics Courses in History (3)

Selected topics in History with course content to be determined.

### Upper Division

3 units of appropriate Lower Division History are required for all Upper Division courses. For further information, consult the course instructor.

#### HIST 301: The Historian's Craft: Reading, Research and Writing History (3)

Introduction to the search for and criticism of historical sources, the issues and controversies concerning the interpretation of these sources, "schools" of historical interpretation, organizing the materials and data of research, and the rewards and pitfalls of historical writing. Normally open only to History majors and Liberal Studies majors with a History concentration. History majors must pass this course with a grade of "C" or better in order to graduate.

**HIST 302. Western Cultural Heritage, Modern Age (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Major records of the modern age that have affected contemporary thought, activity and institutions. Discussion and critical writing supplemented by field trips to museums and performances, and by independent reading and class discussion of both primary and secondary literature. (Available for General Education, Comparative Cultural Studies.) 2 hours lecture, 2 hours field activity.

**HIST 303. Themes in Western Civilization Before 1500 (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Intended to introduce Upper Division students to the concepts and unresolved problems that have shaped the development of Western Civilization prior to 1500. (Available for General Education, Arts and Humanities.)

**HIST 304. Themes in Western Civilization After 1500 (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Themes in the institutional, political, socio-economic and cultural development of Western Civilization since 1500. (Available for General Education, Arts and Humanities.)

**HIST 305. Cultural History of the United States (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. American people's evolving patterns of life in such areas as religion, education, art, architecture and music, reading matter, sports, travel, family life, and, in recent times, motion pictures, radio and television. Emphasis is placed on the values and implications revealed by the range and popularity of cultural choices. (Available for General Education, Social Sciences.)

**HIST 341. Modern Europe Since 1815 (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Institutions, culture and political development of Europe from the Congress of Vienna to the present day. (Credit will not be given for 341 if credit has already been received for either 446 or 447) (Available for General Education, Social Sciences.)

**HIST 342. The World Since 1945 (3)**

This course examines the Cold War and its international aftermath, decolonization, revolutionary movements, national development across a variety of cases and trends in the global economy. (Available for General Education, Social Sciences.)

**HIST 345. War in History and Film (3)**

History of warfare since the Middle Ages as reflected in classic war films, literary sources and historical documents. Discusses effects of media on perception of historical events.

**HIST 349A. Women in American History Through 1848 (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of women's roles and status through 1848. (Available for General Education, Comparative Cultural Studies.) (IC)

**HIST 349B. Women in American History Since 1848 (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of women's roles and status since 1848. (Available for General Education, Comparative Cultural Studies.) (IC)

**HIST 350. History of Women (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Roles and contributions of women from ancient times to the present. Special emphasis is given to the development of women's movements from the 18th century to the present. (Available for General Education, Social Sciences.)

**HIST 351. History of Sexual Behavior (3)**

Historical study of sexual behavior from ancient times to the present.

**HIST 355. History of Slavery in the United States (3)**

Origin, nature and development of slavery in the U.S. and its effect on American life, politics and people. (Cross listed with PAS 376.)

**HIST 356. Anti-Semitism in Europe (3)**

Anti-Semitism encompasses attitudes, legal formulations, artistic references and actions toward the Jews in the context of European history and in relationship to the evolution of Jewish identity.

**HIST 357. History of the Holocaust (3)**

Examination of the Jewish experience under Hitler from its historical genesis to its final catastrophe.

**HIST 366. Popular Culture and Society in Latin America (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. This course will offer students the opportunity to explore and understand the complexities of Latin American societies in the 19th and 20th centuries through the historical analysis of different forms of popular culture, defined broadly as those religious, artistic, athletic and political expressions arising from different segments of society. (Available for General Education, Lifelong Learning credit.)

**HIST 369. History of American Indians (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Interaction of white and Indian, as well as Indian and Indian, in the U.S. from colonial times to the present. (Available for General Education, Comparative Cultural Studies.)

**HIST 370. Problems in American History to 1865 (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Exploration of the political, cultural and social themes of U.S. history prior to the Civil War, with emphasis given to examining conflicting ideas about such issues as the dynamics of colonial settlement, the origins of the Revolution, the ratification of the U.S. Constitution, the development of liberal capitalism, the nature of the American democratic political system, the impact of slavery and the causes of the Civil War. (Meets Title 5 requirement in American History, Institutions and Ideals.) (IC)

**HIST 371. Problems in American History: 1865 to Present (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Exploration of the political and social themes of the history of the U.S., with emphasis given to examining conflicting ideas about such issues as progressivism, the New Deal, workers in an industrial Age, the immigrant experience, the U.S. as a world power, and questions of gender, race and class over time. (Meets Title 5 requirement in American History, Institutions and Ideals.) (IC)

**HIST 374. Hollywood and History (3)**

Explores the relationship of classic Hollywood movies to the political, social and cultural history of 20th century America. By placing each film in its historical context and examining it as a primary source, students will learn to evaluate the extent to which American movies have expressed or challenged the dominant political themes and social and cultural values of a particular historical era.

**HIST 380. Los Angeles: Past, Present, Future (3)**

Multidisciplinary investigation of the Los Angeles urban area—its patterns of population and resources distribution; its historical, economic, social and cultural developments; and policies models designed to cope with its problems—and to develop its potential as an ethnically diverse metropolis on the Pacific Rim. Application of social science methodology. Series of faculty and guest speakers, weekly discussion sessions and field trips. (Available for General Education, Social Sciences.) (Cross listed with POLS and URBS 380.)

**HIST 396A-Z. Experimental Topics Courses in History (3)**

Selected topics in history with course content to be determined.

### Courses Acceptable for the Master's Degree

Note that 300-level courses in History do not carry graduate credit for a Master's Degree in history.

#### HIST 401. Oral History (3)

Study of the background literature, interviewing techniques and research applications of oral history.

#### HIST 402. Writing Family History (3)

Application of historical research techniques to the writing of one's own family history.

#### HIST 406. The Jews in the Ancient World (3)

Political and social history of the Jewish people, from their nomadic beginnings to the destruction of the Second Temple in 70 A.D.

#### HIST 409. History of the Jews in the Modern Era (3)

A history of the Jewish people from the 17th century to the present. Principal themes include the transformation of the traditional community, the changes in Jews' political status, the emergence of modern anti-Semitism, and ethnic and gender distinctions within Jewry. (Cross listed with JS 409.)

#### HIST 409A-Z. Historical Field-Study (3)

*Prerequisites: HIST 301; Completion of Lower Division survey courses.* Historical study conducted off-campus at historical locations in the U.S., Europe, Latin America and Asia. This course augments previous classroom work by immersing students in the topic's environment. Fee required.

#### HIST 410. The Ancient Greek World (3)

The Mediterranean world from the rise of Greek civilization to the conquest of Greece by Rome.

#### HIST 411. The Roman World (3)

The rise and decline of the Roman Republic and the Western Roman Empire.

#### HIST 415. The Byzantine World (3)

Byzantine history and civilization, from the founding of Constantinople in 324 A.D. to the Turkish conquest in 1453.

#### HIST 417. California for Educators (3)

*Prerequisite: Available to Liberal Studies, Pre-Credential and ITEP students.* Examination of California, focusing on its political, social and economic growth, its settlement, its population patterns, resource exploitation and human-environment interaction. Spatial and temporal variation of these factors is emphasized. (Cross listed with GEOG 417.)

#### HIST 420. Medieval Europe (3)

Political and institutional history of Europe in the Middle Ages. (Credit may not be received for both 420 and 320.)

#### HIST 424. A History of the Medieval Middle East, 600-1258 (3)

*Preparatory: History 185.* This course will trace the development of religion, government, culture and society in the Middle East in the Early Islamic period (600-1258 CE). This course will first focus on Islamic conceptions of religion, law and government. It will then examine the effect that these conceptions had on the Muslim community and on the communities of conquered peoples in the Middle East during this period. Available for Graduate Credit.

#### HIST 425. History of the Early Modern Middle East (3)

*Recommended Preparatory: HIST 185.* This course will trace the history of the Early Modern Middle East from the Mongol destruction of Baghdad in 1258 to the Napoleonic invasion of Egypt in 1798. It will focus on political events, but there also will be substantial discussions of cultural, economic and social history. The aftermath of the Mongol invasions and the rise and development of the Gunpowder Empires, including the

Mamluks, Ottomans, il-Khans and Safavids, will be emphasized. Special attention will be paid to the interaction of these empires and the cultures that developed under their control with each other and with non-Middle Eastern states and cultures. Available for Graduate Credit.

#### HIST 426 A History of the Modern Middle East 1798-1979 (3)

*Preparatory: HIST 185.* This course will trace the development of religion, government, culture and society in the Middle East in the modern period (1798-1979 CE). This course is designed to be an investigation of different perspectives on the history of the Middle East from 1789, the date of Napoleon's invasion of Egypt, until roughly the Iranian Revolution of 1979. The focus of this class will be on individual and collective reactions to the dramatic changes happening during this period. Available for Graduate Credit.

#### HIST 432. Urban History of the United States (3)

*Prerequisite: Completion of the Lower Division writing requirement.* Cities, as systems of human interaction and service exchange, permit close historical analysis of historical processes and human experience. Study of selected cities, 16th century to present, as illustrations of alternative social, economic, cultural and political patterns of cities in stages of formation; growth; response to industrialization, immigration, transportation technology and suburbanization; and decay and renewal.

#### HIST 433. Public History (3)

Introduction to the theory, history and practice of public history (the presentation and interpretation of history for the general public). Available for graduate credit.

#### HIST 434. European Colonialism (3)

*Prerequisite: Upper Division standing.* Examines the expansion, consolidation, management, disintegration and consequences of the modern European empires, focusing on the ambiguities of identity produced by the encounter between European, American, African and Middle Eastern and cultures. Topics include such cultural constructions as cannibalism, exoticism, orientalism, primitivism, racism and tourism.

#### HIST 435. African History to the 19th Century (3)

History of the societies of sub-Saharan Africa from the early Iron Age to the 19th century.

#### HIST 436. African History Since the 19th Century (3)

History of the societies of sub-Saharan Africa in the 19th and 20th centuries.

#### HIST 438. Traditional India from Antiquity to 1526 (3)

History and culture of the Indian sub-continent from antiquity to the establishment of the Mughal empire in 1526.

#### HIST 439. Modern India Since 1526 (3)

Study of the evolution of modern India and Pakistan, emphasizing themes of political and economic transformation, socio-religious reform, cultural dynamism, imperialism, nationalism and modernism.

#### HIST 440. History of War in the Modern World (3)

Selected topics analyzing the interactions of warfare with social and technological changes since the 17th century.

#### HIST 441. History of World War II (3)

Study of World War II as a watershed experience in modern history, with coverage of the European and Pacific theatres of war, diplomatic strategies, and the impact of the war on the domestic scene.

#### HIST 444. Renaissance and Reformation (3)

Europe from the Italian Renaissance through the religious schisms of the 16th century.

#### HIST 445. Absolutism and Revolution (3)

Europe in the age of colonial expansion and the rise of revolutionary doctrines through the fall of Napoleon.

**HIST 446. 19th Century Europe (3)**

Europe from the Congress of Vienna to the opening years of the 20th century.

**HIST 447. 20th Century Europe (3)**

Europe from the onset of World War I to the present day.

**HIST 449. Russia to 1917 (3)**

Russian History covering the beginnings during the Kievan period and Muscovy to the establishment of the Romanov dynasty, Imperial Russia and the October Revolution in 1917. Available for Graduate credit.

**HIST 450. Russia Since 1917 (3)**

Starting with the collapse of Imperial Russia and the 1917 Bolshevik Revolution, the course examines the Soviet period in Russian history, including industrialization, Stalinism, the Great Patriotic War, the USSR as a superpower and the demise of the Soviet Union in the late 1980s. Available for graduate credit.

**HIST 452. Medieval and Early Modern Britain (3)**

Analytical survey of the political, cultural, social and religious developments and upheavals in Britain during the turbulent period from the Norman Invasion in 1066 to the Glorious Revolution in 1688.

**HIST 453. Modern Britain (3)**

Chronological and thematic survey of social, political, cultural, economic and intellectual developments in Britain from 1688 to the present. From world power status to national decline, this course covers such topics as industrialization, political reform, sex and gender roles, the impact of war, and the tensions of a multi-ethnic, multi-cultural society.

**HIST 454. Hitler's Germany (3)**

Study of the evolution and nature of National Socialism in Germany. Reviews the ideological foundations and traces the rise of the Nazi Party and the Hitler cult in the Weimar Republic; the establishment of totalitarian power between 1933-45; the diplomatic patterns and military climax; and the question of national guilt.

**HIST 456. Modern France (3)**

Review of French social, cultural, economic, military and political history from the fall of Napoleon to end of the Cold War. Examines in detail the social turmoil caused by France's many revolutions and major wars during the period. Special emphasis on the effect of class and social conflict on its modern history.

**HIST 457. Modern Germany (3)**

German social and political development since the time of the French Revolution.

**HIST 460. Origins and Consequences of the Spanish Civil War (3)**

Analysis of the political, social, economic and religious conflicts engendered by Spain's delayed modernization and its reaction to crises and failures of the Second Republic, the origins of the Civil War, the emergence of Spanish fascism, and the character of the Franco Regime.

**HIST 461. Latin America: The Colonial Period (3)**

Formation of the Spanish and Portuguese empires in Latin America, tracing the development of society, government and culture.

**HIST 462. 19th Century Latin America (3)**

Examination of the struggle for independence and the social, political and economic development of Latin American nations from 1810 to 1914.

**HIST 463. 20th Century Latin America (3)**

Study of Latin American history since 1914, with emphasis on the impact of modernization upon the traditional order, efforts toward inter-American understanding, and greater interaction with the contemporary world.

**HIST 464A. History of Argentina (3)**

Examines Argentina's past to introduce students to the historical factors that have shaped the contours of modern Argentina's social, political, economic and cultural development. After looking into the colonial background, the course explores the 19th century and covers such relevant topics as caudillismo, the power struggle between Buenos Aires and the provinces, economic growth and the international economy and cultural and social legacies from the colonial past. The final part of the course covers the 20th century, including such themes as populism, labor movement, feminism, military rule and the transition to democracy.

**HIST 465. The Caribbean Area Since 1492 (3)**

Changing role of the Caribbean area in the affairs of Europe, Anglo-America and Latin America, and the development of the region as a unique political, social and economic community.

**HIST 466. Mexico (3)**

Internal development of Mexico and how it has affected hemispheric and world affairs. Special attention is devoted to Mexico's interaction with the U.S.

**HIST 468. Social and Intellectual History of Latin America (3)**

Study of the principal elements and trends in Latin American Civilization, with emphasis on society, the humanities and philosophy.

**HIST 469P. Pirates In the Atlantic World (3)**

Pirates were real historical actors on one of the world's most dramatic stages set against the backdrop of a waving Jolly Roger. In this course, students will explore the myths and realities of pirates to examine the social history of seafaring in the early modern Atlantic world. Why and how did people become pirates? Who became pirates? How did pirates really live and die? What impact did pirates have on history? Available for graduate credit with the professor's consent.

**HIST 469W. The Atlantic World (3)**

This course will expose students to the integration of the peoples and regions around the Atlantic Ocean beginning with Christopher Columbus' voyage of 1492 and ending with the global race for colonies in the mid-19th century. Readings and discussions will focus on the historical process responsible for connecting the four continents surrounding the Atlantic Ocean (Europe, Africa, North and South America) through the flow of diverse peoples, goods and ideas. Readings will encompass the 3 major types of Atlantic history—transnational, international and national. Available for graduate credit.

**HIST 470. The United States: The Colonial Period (3)**

Origins and development of the 13 American colonies, from the beginning of settlement to the end of the French and Indian War.

**HIST 471. American Revolution and Constitution, 1763-1800 (3)**

Development of an American nation, from the start of revolutionary activity to the end of Federalist control.

**HIST 472. The United States: The Era of Expansion, 1800-1848 (3)**

Growth of the nation from the election of Jefferson through the age of Jackson to the completion of continental expansion at the end of the Mexican War.

**HIST 473A. The United States: Civil War and Reconstruction (3)**

Social, economic and political origins of sectionalism; the Civil War and its legacy to later generations.

**HIST 473B. The United States: 1877-1920 (3)**

Interpretive survey of the political, cultural, diplomatic and social history of the U.S. during the Gilded Age and Progressive Era through World War I.

**HIST 474A. The United States: 1920-1960 (3)**

Interpretive survey of the political, cultural, diplomatic and social history of the U.S. from the end of World War I through the election of John F. Kennedy.

**HIST 474B. The United States: 1960-Present (3)**

Interpretive survey of the political, cultural, diplomatic and social history of the recent and contemporary U.S. from the election of John F. Kennedy to the present.

**HIST 475. Women in Modern United States History: 1920-Present (3)**

Study of the roles, status and contributions of women in the U.S. from 1920 to the present.

**HIST 476. Youth Culture in the 20th Century United States (3)**

Examines the phenomenon of “youth culture” as it evolved in the United States during the 20th century. In surveying the experiences of young people from a variety of racial, economic, regional and ethnic backgrounds, it will explore how America’s youth have helped shape both the nation’s political and popular cultures. The course also will focus on how adults have sought to keep various social forces from “corrupting” their children and how young people have responded to their elders’ efforts.

**HIST 477. The Popular Arts and American History (3)**

Explores 19th and 20th century U.S. history through the lens of the popular arts. By examining mass-produced novels and illustrations, theatrical productions, movies, songs, music, and radio and television programs, the course considers the power of the popular arts to influence politics, cultural developments, social movements and international relations. Instead of approaching these materials as idle diversions to be consumed and discarded, students consider them as works that can repay serious analysis and interpretation.

**HIST 478. Economic History of the United States (3)**

History of the economic growth and development of the U.S. from colonial times to the modern period, emphasizing the causes and nature of the growth, including analysis of its impact on American society.

**HIST 479A. United States Economic History to 1865 (3)**

Examines the growth and development of the U.S. economy from colonial times through the end of the Civil War. Among the themes to be considered are the regional variations in economic development; the emergence of a liberal capitalist economic order; the economic significance of new systems of production, transportation, banking and communication; and the impact of economic fluctuations on individuals and groups within the nation.

**HIST 479B. U.S. Economic History Since 1865 (3)**

*Prerequisite: Graduate students must have instructor’s consent. Recommended corequisite: ECON 300.* Examines the growth and development of the U.S. economy from the end of the Civil War to the present. Among the themes to be considered are the relationship between the state and the private sector in a free market economy; the rise of big business and corporate capitalism during the Gilded Age; efforts to come to terms with the new industrial economy on the part of government, individuals and such special interest groups as farmers, labor and small business; the origins, effects and economic legacy of the Great Depression and the New Deal; the impact of the Cold War on the U.S. economy; and the social and economic impact of deindustrialization and globalization. Available for graduate credit.

**HIST 479L. History of American Working People (3)**

A broad overview of U.S. history from the perspective of working people. The course will examine the development of working class cultures and communities; the rise and fall of craft and industrial unions; working peo-

ple’s contributions to and portrayal in U.S. popular culture; the effects of the industrial revolution and, later, de-industrialization on working men and women; working-class racism, patriotism and religious beliefs; the relationship between labor and the state; and the experiences of working-class immigrants. May be taken for graduate credit.

**HIST 481. The American West Since 1848 (3)**

Settlement of the last American frontiers from 1848 to 1890 and the evolution of the modern Far West as a distinctly important region during the 20th century.

**HIST 482. Constitutional History of the United States to 1877 (3)**

The Federal Constitution considered from the point of view of its origins and evolution to 1877.

**HIST 483. Constitutional History of the United States Since 1877 (3)**

The Federal Constitution and the changing nature of the Union from 1877 to the present time.

**HIST 485. Diplomatic History of the United States Since 1914 (3)**

Analysis of the U.S. foreign policies since 1914, with emphasis on the origins, nature and results of America’s involvement in the World Wars, the Cold War and global international affairs since the 1950s.

**HIST 485A. The United States and the Indochina Wars, 1940-1975 (3)**

Analysis of the wars in Vietnam, Laos and Cambodia, with emphasis on the U.S. involvement.

**HIST 485B. The United States and Latin America Since 1898 (3)**

Historical analysis of the U.S. involvement with Latin America since 1898, with emphasis on the origins, nature and results of the U.S. interacting with Latin American nations in the Caribbean and South America.

**HIST 486A. History of Los Angeles (3)**

Evolution of the metropolis of Los Angeles from pre-Spanish days to the present.

**HIST 486J. History of the Jews in the United States**

*Prerequisite: Graduate students must have instructor’s consent.* Explores the social, cultural, economic and political history of Jewish people in the U.S. from the colonial era to the present, and the relevance of this history to American culture today. Available for graduate credit. (Cross listed with JS 486J.)

**HIST 488. California (3)**

Political, economic, social and intellectual growth of California from Spanish times to the present, with emphasis on current characteristics and problems.

**HIST 489. A History of the African-American People in the United States (3)**

Examination of basic themes and issues in the history of the African-American people in the U.S. and the relevance of those themes and issues to the patterns of today.

**HIST 490. Traditional China (3)**

Study of political, economic and social history of China from antiquity to the fall of the Ming Dynasty in 1644.

**HIST 491A. Modern China (3)**

Survey of political, economic and social history of China from the fall of the Ming Dynasty in 1644 to the Republican Revolution of 1911, with special emphasis on early Manchu success, China’s response to the impact of the West and the Manchu decline.

**HIST 491B. The Rise of Communist China (3)**

Historical analysis of the Chinese Communist movement from its inception to the founding of the People’s Republic of China, with special emphasis on Mao Tse-tung’s early revolutionary thought and strategy.

**HIST 493: Modern Japan (3)**

Analysis of domestic and international political developments and cultural evolution from the last days of feudalism through the modern century of the Meiji, Taisho and Showa periods.

**HIST 494SOC. Internship Program (3)**

Pre-professional practicum in a history-based field, open to History major and minors with 3.0 GPA.

**HIST 495. The Philosophy of History (3)**

Role of selection, facts, theories, causation, explanation, science, art, morality, and the synthetic philosophies of history from Vico to the present.

**HIST 495SS. Capstone Seminar for Prospective History Teachers (3)**

*Prerequisites: ANTH, GEOG, PAS, POLS or SOC 396SS; Restricted to students in the Social Science Subject Matter Program.* Intended as a capstone experience, this seminar will expose students to the practices of historical thinking and guide them to develop the knowledge and skills needed to convey these practices to others. It is recommended that this course be taken in the last 12 units of the Social Science Subject Matter Program. Requires 10 hours of field observation in secondary social studies classrooms.

**HIST 496A-Z. Experimental Topics Courses in History (3)**

Selected topics in history with course content to be determined.

**HIST 497A-Z. Proseminar (3)**

General principles of historical research, with application to specific areas of history and historiography. Grade of "C" or better is required to receive credit for this course.

**HIST 498. Tutorial in History (1-3)**

Reading and discussion in a specific field or on a specific topic in a small group. May be repeated: 6 units maximum. Grade of "C" or better is required to receive credit for this course.

**HIST 499A-C. Independent Study (1-3)****Graduate**

Minimum prerequisite: A Bachelor's Degree with superior academic performance in History. Undergraduates with exceptional promise may enroll in 500-level classes with permission of the instructor.

**HIST 505. Archival Theory and Methods (3)**

*Prerequisite: Graduate standing or instructor consent.* Introductory course on the essentials of archival administration. Topics include archival theory, the history of archives in the U.S., the development of collecting policies, techniques for preserving historical materials and arrangement and description of collections.

**HIST 506. The Archival Profession (3)**

*Prerequisite: Graduate standing or instructor consent.* Topics include management of archival programs, automated archival systems, budgeting, space facilities planning, career opportunities, grant writing, and historic preservation and fundraising.

**HIST 508. Practicum in Archival Administration (3)**

*Prerequisites: HIST 505; Graduate standing or instructor consent.* Application of the theory of archival administration, including collection, preservation, arrangement and exhibition of historic materials. Students may complete the practicum at one of several sites, including the Urban and Old China Hands Archives at Oviatt Library, the Ronald Reagan Presidential Library and the Natchez Mississippi Courthouse Record Project.

**HIST 510. Colloquium in Greek and Hellenistic History (3)**

*Prerequisite: Graduate standing or instructor consent.* Covers historiographical writings on important developments in Greek and Hellenistic history from the Bronze Age through the Persian and Peloponnesian Wars and the trial of Socrates, and concludes with a discussion of Hellenistic Greece and the influence of Greek culture in the broader Mediterranean world.

**HIST 511. Colloquium in Roman History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed historiographical readings and discussion focusing on Roman history from the Republic through the fall of the Empire.

**HIST 530. Colloquium in Pre-Modern World History (3)**

*Prerequisite: Graduate standing or instructor consent.* Examination of major issues and themes in world history from ancient times to 1500. Possible topics include religion, empire, migration, trade and cultural contact. Readings include major scholarly works as well as primary sources in translation.

**HIST 531. Colloquium in Modern World History (3)**

*Prerequisite: Graduate standing or instructor consent.* Designed for students who will one day teach world history, as well as those who are interested in trans-national, trans-regional integrative history. Provides a practical and theoretical approach to world history since 1500 by exploring the vibrant and volatile debate over "The Rise of The West." Topics include industrialization, imperialism, global trade, environmental change, military technology, migration and slavery, and the role of culture in economic development.

**HIST 541. Colloquium in Modern European History (3)**

*Prerequisite: Graduate standing or instructor consent.* Survey of major historiographical debates in modern European history, including the French Revolution, the Industrial Revolution, the rise of bourgeois society, nationalism, imperialism and the First and Second World Wars.

**HIST 545. Colloquium in the History of the Middle East (3)**

*Prerequisite: HIST 185. Recommended preparatory: HIST 424 and 426.* This course is an examination of major themes in Middle Eastern history from the Arab/Islamic conquest to the present. Possible topics include examinations of cultural, economic, intellectual, religious and social history. The course will underscore historiography and the effect of modern political debates on the history of the region. Readings will include major scholarly works and primary sources in translation.

**HIST 546. The Holocaust and Genocide for Educators (3)**

An overview of the Holocaust and the concept of genocide, with a focus on the analysis and evaluation of varied resources for educators, including film, photographs, literature, art, music, documents and other primary source materials. (Cross listed with JS 546.)

**HIST 550. Colloquium in Environmental History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed readings exploring historical relationships between human societies and the natural world from the 15th century to the present, especially in North America.

**HIST 560. Colloquium in Latin American Historiography (3)**

*Prerequisite: Graduate standing or instructor consent.* Introduction to selected themes of historiographical relevance in Latin American history, with particular attention to the most recent scholarship. Familiarization with the main events, issues and subjects in the field. Surveys and samples important writings to understand both broad trends and specific developments. Exposure to Latin American history. Emphasis on critical reading, in-depth class discussions and the ability to present written analyses of the material covered. Major themes may include colonial economy and society, land and labor, slavery, abolition and assimilation, women and gender, international markets, and revolutions and popular rebellions.

**HIST 561. Colloquium in Latin American Cultural and Intellectual History (3)**

*Prerequisite: Graduate standing or instructor consent.* Exploration of the historical evolution of artistic, intellectual and popular cultural expressions in Mexico, Central and South America and the Caribbean. By the end of the semester, students will have achieved a critical understanding of the diversity and complexity that characterize Latin American culture. Emphasis on critical reading, in-depth class discussions and the ability to present written analyses of the covered material. Major themes may include native cultures, syncretism, millenarian movements, African culture, elite and “popular” cultures, mestizaje, machismo and marianismo.

**HIST 562. Colloquium in Latin American Social and Economic History (3)**

*Prerequisite: Graduate standing or instructor consent.* Focuses on the relationship between economic change and social structures in Mexico, Central and South America and the Caribbean. By the end of the semester, students will have achieved an understanding of the social and economic events that combined to produce the societies and nations that constitute Latin America today. Emphasis on critical reading, in-depth class discussions and the ability to present written analyses of the covered material. Major themes may include pre-Colombian civilizations, slavery, Latin America and the world economy, growth and development, inequality, import substitution industrialization, neo-liberalism and globalization.

**HIST 563. Colloquium in Latin American Political, Institutional and Military History (3)**

*Prerequisite: Graduate standing or instructor consent.* Examines the historical evolution of the political and institutional structure in Mexico, Central and South America and the Caribbean. By the end of the semester, students have achieved an understanding of the political development of the Latin American states within a broad social and economic context. Emphasis on critical reading, in-depth class discussions and the ability to present written analyses of the covered material. Major themes may include colonial institutions, caudillismo, oligarchic regimes, U.S. interventions, revolution and reform, populism, armed forces in politics, dictatorships and return to democracy, and political neo-liberalism.

**HIST 569. Atlantic History Readings Seminar (3)**

This reading-intensive course is designed to introduce graduate students to a new analytical framework. Students will study the historical processes responsible for the integration of the peoples and regions around Atlantic Ocean beginning with Christopher Columbus' voyage of 1492 and ending with the global race for colonies in the mid-19th century. There will be a diverse set of readings that focus on the transatlantic movement of peoples, goods and ideas that connected colonial America to the wider world. Readings may vary by instructor.

**HIST 570. The American Revolution (3)**

This course will help students come to terms with the late 18th century imperial crisis that brought about the rise of the independent U.S. Readings and discussions will focus on the origins, progress and results of the American Revolution. Available for graduate credit.

**HIST 572. Colloquium in 19th Century U.S. History (3)**

*Prerequisite: Graduate standing or instructor consent.* Examination of the major social, economic, political and cultural themes in the U.S. during the 19th century. Topics include the industrial, market and transportation revolutions; slavery; the Civil War and its aftermath; the rise of the (urban) middle class; the frontier and territorial expansion; and the cultural life of Victorian America.

**HIST 573. Colloquium in U.S. History: Gilded Age and Progressive Era (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed historiographical readings surveying major political, social, cultural and economic trends in the United States from 1877 to 1929. Topics include race relations, the rise of big business, immigration, urbanization, progressivism, the emergence of an American empire, the impact of war, nativism and gender relations.

**HIST 574. Colloquium in Recent U.S. History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed historiographical readings surveying major political, social, cultural and economic trends in the U.S. from 1832 to the present. Topics include the Great Depression, World War II, anti-communism, the origins of the Cold War, the Civil Rights movement, student unrest, Vietnam, and the Reagan years.

**HIST 575. Colloquium in the U.S. and the Cold War (3)**

*Prerequisite: Graduate standing or instructor consent.* Exploration of the effects of the Cold War on American intellectual, cultural and social life. Readings focus on the relationship between Cold War diplomacy and domestic politics; the impact of the Cold War on the everyday lives of American citizens; the Cold War's influence on American intellectuals and intellectual life; the Cold War's role in fostering conservative and progressive social movements; the Cold War's effect on American popular culture; and the impact of anti-communism on American political and cultural life.

**HIST 576. Colloquium in U.S. Foreign Policy and the Cold War (3)**

*Prerequisite: Graduate standing or instructor consent.* Discussion of major topics in the history of the U.S. and the Cold War, including the origins of the Cold War, the Korean Conflict, the Cuban Missile Crisis, Détente and the end of the Cold War, as well as such prominent figures as Stalin, Truman, Eisenhower, Nixon, Kissinger and Reagan. Emphasis is on the reading and discussion of secondary interpretations and historiography.

**HIST 577. Colloquium in U.S. Social and Intellectual History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed readings focusing on selected topics in the social and intellectual history of the U.S.

**HIST 578. Colloquium in U.S. Economic History (3)**

*Prerequisite: Graduate standing or instructor consent.* Readings in the institutions, ideas and character of the American economy from the colonial era to the present, with special emphasis on issues of economic growth and development, class conflicts, technological innovations and the strategies and structures of American enterprise.

**HIST 579. Colloquium in U.S. Cultural History (3)**

*Prerequisite: Graduate standing or instructor consent.* By examination of various aspects of 19th and 20th century U.S. cultural history, this course considers the ways in which different individuals and groups have exercised cultural influence in American life. Areas of focus include the role of race, gender, region, religion and class in shaping cultural production, and an exploration of the issue of cultural power (i.e., who defines “acceptable” and “authentic” culture?).

**HIST 581. Colloquium in the American West (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed readings focusing on American expansion into the trans-Mississippi West.

**HIST 583. Colloquium in U.S. Political History (3)**

*Prerequisite: Graduate standing or instructor consent.* Historiographical readings focusing on major themes in U.S. political history. Possible topics include U.S. reform movements, left- and right-wing radicalism, the politics of anti-communism and the presidency.

**HIST 584. Colloquium in the U.S. in the 1980s (3)**

*Prerequisite: Graduate standing or instructor consent.* Examination of major topics in U.S. history in the 1980s relating to the presidency of Ronald Reagan. Emphasis on reading and discussion of the available memoir literature, secondary interpretations and historiography and use of the exhibits, resources and conferences held at the Ronald Reagan Presidential Library in Simi Valley. Course is followed in the Spring semester by HIST 674, which involves the preparation of a research paper based in part on the use of the records of the Reagan Presidential library. Students wishing to take the Spring seminar devote some attention to the selection of a research topic while preparing the secondary reading for the course.

**HIST 585. Colloquium in U.S. Southern History (3)**

*Prerequisite: Graduate standing or instructor consent.* Readings in history of the American South from the colonial era through modern times, with special emphasis on issues of regional identity, class and race relations, slavery, popular culture, regional politics and the continuity of southern culture.

**HIST 586. Colloquium in U.S. Women and Gender History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed readings on selected topics in the history of women and gender in American society from colonial times to the present.

**HIST 588. Colloquium in California History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed readings focusing on selected topics in the history of California, from pre-European settlement to the present.

**HIST 590. Colloquium in the Asian History (3)**

*Prerequisite: Graduate standing or instructor consent.* Directed readings focusing on specific areas of Asia, from ancient times to the present.

**HIST 595A-Z. Experimental Topics Courses (3)****HIST 596A-Z. Selected Topics (3)****HIST 601. Theory and Historiography (3)**

*Prerequisite: Classified standing.* Sophisticated, graduate-level introduction to history as a discipline. Surveys the development of history as a discipline, examines the various genres of historical writing, explores issues and problems of historical interpretation, and considers the how historians use theoretical models from other disciplines to shape their work. Readings include seminal works by major historians.

**HIST 610. Research Seminar in Ancient Greek History (3)**

*Prerequisite: Classified standing.* Focus on ancient Greek history from Solon to Demosthenes. Topics include Athenian democracy, the Persian and Peloponnesian Wars, Sparta, social and intellectual history, Greek historians and modern historiography.

**HIST 611. Research Seminar in the Roman Republic (3)**

*Prerequisite: Classified standing.* Research seminar focusing on the late Roman Republic from the Gracchi to the victory and consolidation of power by Emperor Augustus. Topics include the dynamics of Roman politics, the role of the intellectual, private and public life; town and country; women; the Roman mob; whether there was a revolution in Rome; and the image and reality of leading Roman political figures.

**HIST 612. Research Seminar in the Roman Empire (3)**

*Prerequisite: Classified standing.* Seminar on the Roman Empire from the Julio-Claudians to the fall of the empire in the West. Topics include social, political and intellectual history, the rise of Christianity, the transformation of the empire, theories about the fall of Rome and studies of individual historians of the period.

**HIST 620. Research Seminar in the Middle Ages (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on selected topics in western European, Iberian, Byzantine, and/or Mediterranean history during the period between the fall of Rome and the Renaissance.

**HIST 630. Research Seminar in World History (3)**

*Prerequisite: Classified standing.* In addition to discussing the methodological issues involved in studying and researching world history, each student writes an original, primary source-based research paper on a topic in world history that is trans-national, regional or comparative in focus.

**HIST 640. Research Seminar in Early Modern European History (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on selected topics in European history from the Renaissance through the Napoleonic period.

**HIST 641. Research Seminar in Modern European History (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on selected topics in European history since the French Revolution.

**HIST 642. Research Seminar in Modern European Cultural and Intellectual History (3)**

*Prerequisite: Classified standing.* Research seminar dealing with cultural and intellectual trends in Europe since the Enlightenment, set in broad historical context. After some common readings by the entire class, each student makes a presentation on a chosen topic and writes a research paper that can be in the history of ideas, literature, the arts, or ideology in socio-political or cultural context (e.g., "The Roots of the Nazi Mind," "Hegel and the French Revolution," "Wagner and the Anti-Semitic Imagination," "Nietzsche and Postmodernism," "The Spanish Civil War as a Lab of Applied Ideology," "The Fall of the Berlin Wall: The End of History?," "The End of Humanism in an Age of Genetic Engineering and the Internet").

**HIST 645. Research Seminar in Nazi Culture (3)**

*Prerequisite: Classified standing.* Students write a research paper and make an oral presentation that examines Weimar Culture, especially its avant-garde expressions; Nazi ideology, organizations and cultural policy, focusing on the arts, literature, film, the media and education; and/or German culture in American exile. The class also considers the question of Nazi culture as reactive to modernism, or as an expression of modernism or post-modernism. Students should consider the availability of primary materials in local archives such as CSUN, the Archives of American Art, LACMA, the Getty Center, The Museum of Tolerance, UCLA Film Archives and the Library of the Academy of Motion Pictures.

**HIST 646. Research Seminar in Denazification and the Legacy of the Holocaust (3)**

*Prerequisite: Classified standing.* Research seminar focusing on the history of the Third Reich, efforts to change German culture in the wake of World War II and the implications and memories of the Holocaust for Germany and other countries. May include a research trip to archives in Washington, D.C., such as the National Archives, the Library of Congress and the National Holocaust Memorial Museum. Students who read German are guided into German records; others focus on American records relating to German topics, such as the OSS, denazification, the Nuremberg trials and the post-war occupation (OMGUS).

**HIST 660. Research Seminar in Latin American History (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on topics in the history of Mexico, Central and South America and the Caribbean. Students will conduct an in-depth examination employing original (primary) sources on a specific problem or issue in the history of Latin America.

**HIST 671. Research Seminar in Colonial American History (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on selected topics in American history prior to the American Revolution.

**HIST 672. Research Seminar in Early National U.S. History (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on selected topics in American history from the Revolution to the Civil War.

**HIST 673. Research Seminar in the Civil War and Reconstruction (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on selected topics in the history of the Civil War and its immediate aftermath.

**HIST 674. Research Seminar in Recent U.S. History (3)**

*Prerequisite: Classified standing.* Research seminar concentrating on the U.S. in the 1980s. Students focus on a specific topic within this period or closely related to it that is suitable for primary-source research that can be done at the Ronald Reagan Presidential Library in Simi Valley, the Oviatt Library or other local archives. The main requirement is the preparation of a seminar paper of approximately 25 pages in length.

**HIST 675. Research Seminar in Southern History (3)**

*Prerequisite: Classified Standing.* Students conduct an in-depth examination employing original (primary) sources relating to a problem or issue of Southern culture, economic, intellectual, or political history from the colonial era to modern times.

**HIST 676. Research Seminar in U.S. Economic History (3)**

*Prerequisite: Classified standing.* Students conduct an in-depth examination employing original (primary) sources relating to a problem or issue in American economic, business or labor history from the colonial era to modern times.

**HIST 681. Research Seminar in the U.S. West (3)**

*Prerequisite: Classified standing.* Students conduct an in-depth examination employing original (primary) sources relating to a problem or issue in the history of the U.S. West.

**HIST 690. Research Seminar in Asian History (3)**

*Prerequisite: Classified standing.* Research seminar dealing with specific areas of Asia, from ancient times to the present.

**HIST 693. Directed Research (3-3)****HIST 694. Practicum for Teaching Assistants (3)**

*Prerequisite: Classified standing.* Working under the close supervision of Departmental faculty and assigned to a specific undergraduate History course, students gain experience in creating assignments, grading papers and exams, leading discussion and review sessions, and giving lectures. Students have the opportunity to discuss issues and problems in teaching. May be repeated once for credit.

**HIST 695A-Z. Experimental Topics Courses (3)****HIST 697. Comprehensive Examinations (3)**

This course consists of 2 written examinations taken during or following the semester in which students complete all their other requirements for the Degree, including 30 units of course work. Students may register for this course only once.

**HIST 698. Thesis (3)**

Students may enroll after they have completed 30 units of course work and had their formal program approved. Students work on their thesis and take the written Proficiency Exam in their second area of study. Students have a 2-year limit in which to finish their thesis from the time they enroll in this course.

**Interdisciplinary Program**

**Minor in Human Sexuality**

## The Minor

The Interdisciplinary Minor in Human Sexuality is offered by the College of Social and Behavioral Sciences. The Minor serves students with a special interest in this area because of its relation to their career plans (in counseling, teaching, scholarly research, etc.) as well as those who wish to take courses in this area as part of their liberal arts education. The Minor also serves professionals who wish to augment present knowledge and skills in the area of human sexuality. Many courses in the program satisfy requirements or may be used as electives in several majors as well as in the Human Sexuality Minor.

Where individual Departments have prerequisites to Upper Division courses, students who have not fulfilled the prerequisites must gain consent of the instructor.

## Academic Advisement

Students declaring the Minor should consult with one of the Minor Coordinators.

## Requirements for the Minor

### 1. Lower Division (6 units)

|      |     |   |
|------|-----|---|
| BIOL | 241 | Human Pregnancy and Embryology (3)        |
| SOC  | 230 | Introduction to Human Sexual Behavior (3) |

### 2. Upper Division

*(Note: When and if experimental courses are offered, the Program*

*Coordinator will consider those appropriate for inclusion in the Minor.)*

### 5 of the following (15 units):

|        |      |   |
|--------|------|---|
| ANTH   | 308  | Women, Sex Roles and Culture (3)                                    |
| ENGL   | 372  | Eroticism in Literature (3)   |
| FCS    | 340  | Marriage and Family Relations (3)                                   |
| FCS    | 441  | Human Sexuality and Sexual Dysfunction (3)                          |
| HIST   | 351  | History of Sexual Behavior (3)                                      |
| PHIL   | 303  | Sexual Ethics (3)   |
| PSY    | 421J | Workshop in Development Sexuality (1)                               |
| PSY    | 421M | Conflict Resolution in Intimate Relations (1)                       |
| PSY    | 421N | Workshop in Human Sexuality   |
| PSY    | 452  | Contemporary Issues in Human Sexuality (3)                          |
| PSY    | 453  | Psychological Aspects of Human Sexuality (3)                        |
| SOC    | 324  | Sociology of Sex and Gender (3)                                     |
| SOC    | 456  | Proseminar on Sexual Disorders (3)                                  |
| SOC    | 451  | Sociological Aspects of Human Sexuality (3)                         |
| SOC    | 452  | Sociology of Lesbian, Gay, Bisexual and Transgender Communities (3) |
| PSY    | 498  | Practicum in Psychology (3)   |
| or SOC | 498  | Field Study (3)   |
| or FCS | 494  | Supervised Field Study (3)  |
|        |      | (See Department of Sociology for substitutions and waivers)         |

# Humanities Programs

## College of Humanities (Undergraduate)

**Coordinator:** Michael Neubauer

**Education (E) 100**

**(818) 677-3300**

[www.csun.edu/humanitiesprogram](http://www.csun.edu/humanitiesprogram)

### Interdisciplinary Programs

Undergraduate:

**B.A., Humanities**

**Minor in Humanities Interdisciplinary Studies**

### The Major

The B.A. Degree Program in the Humanities offers students the opportunity to study diverse strands of human thought and culture. In devising their own plan of study, Humanities majors, working in close consultation with faculty advisors, can prepare for graduate studies in the Humanities, in specific humanities-related disciplines or cultural studies, train for a career where a broad humanistic understanding is appropriate and/or desirable, or acquire self cultivation through interdisciplinary study.

### Mission Statement

The Humanities Interdisciplinary Program offers an individualized, interdisciplinary and integrated course of study that prepares students to become engaged global citizens. The Humanities Interdisciplinary Program enables students to develop a critical understanding of cultural studies as the articulation between culture, political economy, discourse and representation.

### Careers

“Humanities graduates are much less likely to be victims of technological unemployment than someone who has learned only specific skills”—Northrop Frye. A humanities graduate is a college-educated individual who can analyze and solve problems, write and speak well, learn new information quickly and work well with others on a team. Employers value graduates with critical-thinking skills and those who have learned not what to think, but how to think.

The flexibility to adapt in the constantly evolving career marketplace and to work successfully in a multicultural environment is valued in a wide range of career fields, including advertising, banking, education, foreign service, insurance, international commerce, journalism and labor relations, as well as social service fields like law, library science, literature, lobbying, public relations, publishing and editing, radio and TV journalism, sales, teaching, technical writing, tourism, and translation and interpretation. A humanities education also provides excellent preparation for graduate study in such fields as Area Studies, Law, Library Science, Literature, Cultural Studies, or Journalism.

### Academic Advisement

Humanities majors are urged to consult with an advisor each semester. Contact the Liberal Studies Office at (818) 677-3300. Contact the Tseng College of Extended Learning (818) 677-2786 or Sharon Klein (818) 677-0912 for information about the M.A. Degree Program.

### Student Learning Outcomes of the Undergraduate Program

At the end of their program of study, students will have achieved high levels of competence in the following areas:

1. Knowledge of the diversity of world cultures;
2. Ability to draw on the insights of various Humanities and Humanities-related disciplines;
3. Knowledge of and ability to apply cultural theory;
4. Ability to write effective analysis of multiple forms of cultural expression and creativity; and
5. Ability to define a precise research project, choose an appropriate methodology, articulate clear analytical goals and achieve those goals.

### Requirements for the B.A. Degree in Humanities

In the first semester of students' junior year, they will draw up a proposed course of study. This document, prepared in consultation with an advisor and kept on file in the Program Office, will describe a student's goals in the program and planned avenues for achieving them. This document also will represent the initial step toward the generation of a thesis proposal, which will be required during the first semester of the senior year. All Humanities majors must write an interdisciplinary thesis or develop a senior project as part of their course of study, usually in their final semester before graduation.

#### 1. Lower Division Required Courses (15 units)

|     |     |                                    |
|-----|-----|------------------------------------|
| ART | 112 | Survey of Non-Western Arts (3)     |
| HUM | 101 | Forms and Ideas in Humanities (3)  |
| HUM | 105 | Cultural Eras in Humanities I (3)  |
| HUM | 106 | Cultural Eras in Humanities II (3) |
| MUS | 105 | Music Appreciation (3)             |

#### 2. Upper Division Required Courses (9 units)

|     |     |   |
|-----|-----|---|
| HUM | 391 | Junior Seminar in Humanities (3)  |
| HUM | 491 | Senior Seminar in Humanities (3)  |
| HUM | 497 | Interdisciplinary Thesis (3) or substitution by a Liberal Studies advisor |

#### 3. Upper Division Electives (21 units)

##### A. History, Theory and Methodologies Courses (6 units)

Choose at least 2 of the following courses in intellectual history, cultural theory and critical methodologies. (Check the Catalog for prerequisites):

|      |     |   |
|------|-----|---|
| ART  | 315 | Perspectives in Art History (3)                         |
| CHS  | 351 | Survey of Mexican Philosophical Thought (3)             |
| COMS | 301 | Performance, Language and Cultural Studies (3)          |
| COMS | 356 | Intercultural Communication (3)                         |
| COMS | 360 | Communication and the Sexes (3)                         |
| ENGL | 436 | Major Critical Theories (3)                             |
| ENGL | 438 | Critical Approaches to Literature (3)                   |
| GWS  | 301 | Feminist Theories and Methods (3)                       |
| HIST | 303 | Themes in Western Civilization Before 1500 (3)          |
| HIST | 304 | Themes in Western Civilization After 1500 (3)           |
| JS   | 300 | Humanities in Jewish Society (3)                        |
| MUS  | 307 | Music from a Global Perspective (3)                     |
| MUS  | 310 | Understanding World Cultures Through Music (3)          |
| PAS  | 386 | African-American Philosophical Thought (3)              |
| PHIL | 301 | Moral Problems in Contemporary Society (3)              |
| PHIL | 343 | Indian Philosophy (3)                                   |
| PHIL | 344 | Chinese Philosophy (3)                                  |
| PHIL | 345 | Social Philosophy (3)                                   |
| RS   | 356 | Contemporary Religious Thought (3)                      |
| SPAN | 307 | Introduction to the Analysis of Hispanic Literature (3) |

**B. Individual Course of Study (15 units):** In fulfilling their proposed course of study and in consultation with an advisor, students must complete 15 Upper Division units, drawn from at least 3 of the following Departments (at least 1 of which must be AAS, CHS or PAS): Art, Asian American Studies, Chicana/o Studies, Cinema and Television Arts, English, Modern and Classical Languages and Literatures, History, Jewish Studies, Linguistics, Music, Pan African Studies, Philosophy, Religious Studies, Communication Studies, Theatre and Gender and Women's Studies. Up to 6 units of credit may be earned through Independent Study. HUM 391 and 491 may be repeated once each for credit. Only 1 Upper Division course used in fulfilling any aspect of the major may be double-counted for GE credit.

### Minor in Humanities

#### 1. Lower Division Required Courses (9 units)

|     |         |                                   |
|-----|---------|-----------------------------------|
| HUM | 101     | Forms and Ideas in Humanities (3) |
| HUM | 105/106 | Cultural Eras in Humanities (3/3) |

#### 2. Upper Division Required Courses (6 units)

|     |     |                                  |
|-----|-----|----------------------------------|
| HUM | 391 | Junior Seminar in Humanities (3) |
| HUM | 491 | Seminar in Humanities (3)        |

#### 3. Upper Division Electives (9 units)

One intellectual history, theory and methodologies course from the list above (3 units).

Two other courses from the Departments on the list above. HUM 391 and 491 also may be repeated once each for credit (6 units).

|                          |    |
|--------------------------|----|
| Total Units in the Minor | 24 |
|--------------------------|----|

### Course List

#### HUM 101. Forms and Ideas in Humanities (3)

*Prerequisite:* EPT score of 151 or higher or completion of the Lower Division writing requirement. Introductory course provides instruction in the interdisciplinary analysis and interpretation of meaning in art, music and literature, and in the understanding of philosophical ideas in their own right and as they influence styles and themes in works of art. (Available for General Education, Arts and Humanities.)

#### HUM 105. Cultural Eras in Humanities I (3)

*Prerequisite:* EPT score of 151 or higher or completion of the Lower Division writing requirement. Interdisciplinary study of major eras of humanistic development from the ancient world to the 15th century through representative works of visual art, architecture, music, philosophy, religion and oral and written literature. (Available for General Education, Arts and Humanities.)

#### HUM 106. Cultural Eras in Humanities II (3)

*Prerequisite:* EPT score of 151 or higher or completion of the Lower Division writing requirement. Interdisciplinary study of major eras of humanistic development from the 16th to 20th century through representative works of visual art, architecture, film, music, philosophy, religion and oral and written literature. (Available for General Education, Arts and Humanities.)

#### HUM 296A-Z. Experimental Topics Courses in Humanities (1-3)

#### Upper Division

#### HUM 391. Cultural Theories and Methodologies (3-3)

*Preparatory:* HUM 105 or 106. Intensive interdisciplinary study of an age, movement, problem or theme, with emphasis on the practices and methodologies of interdisciplinary study. The topic of the seminar varies. (Cross listed with FLIT 391.)

#### HUM 396A-Z. Experimental Topics Courses in Humanities (3)

#### HUM 491. Capstone Seminar (3)

*Preparatory:* HUM 391 or FLIT 391; At least one course in intellectual history, cultural theory or critical methodologies. Intensive interdisciplinary study of an age, movement, problem or theme, with emphasis on the application of cultural theory in interdisciplinary study. The topic of the seminar varies. (Cross listed with FLIT 491 and LRS 491.)

#### HUM 496A-Z. Experimental Topics Courses in Humanities (3)

#### HUM 497. Humanities Thesis (3)

*Prerequisites:* Senior standing; Permission of Humanities advisor. Writing of an interdisciplinary thesis or Senior Project on an approved topic under the supervision of a member of the faculty. Consult with the Humanities advisor as to form, length and other requirements.

#### HUM 498. Tutorial in Humanities (3-3)

Reading and discussion in a specific field or on a specific topic in a small group. May be repeated once for credit. Regular written assignments are required.

#### HUM 499ABC. Independent Study (1-3)

### College of Humanities in Collaboration with the Tseng College (Graduate)

Jerome Richfield (JR) 340C

(818) 677-7217

<http://tsengcollege.csun.edu/programs/HUMA>

#### Interdisciplinary Programs

Graduate:

M.A., Humanities

#### Requirements for the M.A. in Humanities

The purpose of the Masters Program in Humanities is to provide reflective mid-career adults with the opportunity to deepen their understanding of the power and nature of the ideas that animate interaction between and among cultures in today's world, including clashes and collaborations. The program focuses not only on the nature and construction of these ideas and on their play in the world, but also both on the methods and components of critical reflection and the practical implications of such reflection and on the deeper understanding it can lead to in the everyday social, political and moral decisions of the participants. Importantly, this student cohort will discover and explicitly address the role(s) of language in representing and shaping our understanding of these ideas—even of the ideas themselves—and in representing and defining our individual and collective identities.

#### Student Learning Outcomes of the Graduate Program

1. Understand the origins and transformations of worldviews ("big ideas") as they move through different social, historical and cultural contexts.
2. Discover how ideas and values from the past inform our present expectations, practices and policies, both explicitly and implicitly.
3. Analyze and develop the skills to "step out of" one's worldview and question assumptions about self, society and others.
4. Refine skills in critical thinking, reading, speaking and writing across a variety of disciplines in the liberal arts.
5. Refine the skills of close, context-sensitive reading that makes visible the form, structure and rhetorical function of texts and artifacts in a variety of genres and media.

6. Develop the skills to apply the theory and methodology appropriate to the liberal arts.

### Required Courses

|      |     |  |
|------|-----|--|
| HUMA | 501 | Gateway Seminar (3)                            |

| HUMA | 697 | Directed Comprehensive Studies (3)             |

|   |           |
|---|-----------|
| <b>Total Units Required for the M.A. Degree</b> | <b>33</b> |
|---|-----------|

### Course List

#### HUMA 501. Gateway to the Humanities (3)

This first course in the Humanities Masters Degree Program introduces students to the interdisciplinary area referred to as “the humanities.” Students will read and work in subfields, developing knowledge and overall understanding about the range of subject matter in the humanities—as well as the conversations about its traditions and evolution—and about the methods of inquiry that characterize it.

#### HUMA 510. The Sacred (3)

An examination and critique of the idea that there is a “sacred.” Exploring influential concepts of the sacred, the course analyzes some representative historical efforts to institutionalize the sacred in symbols, myths, rituals and spaces that influence people’s lives and choices. Finally, the course analyzes 2conflicting trends of the present day: on the one hand, efforts to recover a more authentic sacred by cutting loose from institutional religion; and, on the other hand, efforts to use institutional religion as a base for revolutionary social change.

#### HUMA 520. The Self: Body and Mind (3)

This is a course introducing students in the Humanities Master’s Program to the history of ideas focusing fundamentally on the study of ourselves, our bodies and our minds from a variety of perspectives. Students will consider conceptualizations of the body, conceptualizations of the mind (psyche, spirit, soul, animus/a), and conceptualizations of the relationship between body and mind.

#### HUMA 530. Family and Life Cycle (3)

Through the lenses of literature, art, philosophy and history, the fourth course explores the nature and place of family and the lifecycle in a human’s sense of self, identity, values and understanding of life’s purpose, understanding these in part as cultural constructions that vary according to historical time and geographic place.

#### HUMA 600. Identity, Meaning and Culture (3)

This course will address the manner in which culture creates meaning by examining texts from literature, film, philosophy, cultural studies and ethnic studies. The starting concept will be that culture produces ideas and that ideas are linked to power struggles. Culture is a field of contending ideas and historical contingencies, and the task will be to examine it in the arenas of its historical expression.

#### HUMA 610. Space, Place and Geography: Mental Mapping (3)

This course examines how the conceptualization of space and place have contributed to a variety of different cultural understandings of the human condition. The course looks at the conceptions underlying the creation and representation of space and the role of landscape in determining the human condition. The course attempts to assess

why differing conceptions of space have led to changes and conflicts in and between societies, whether through internal diachronic change or through contact between different cultures.

#### HUMA 620. Science and Magic (3)

In this course, the focus of the humanities lens is on the putative divisions between what is defined as “science” and what is seen as “magic” in studies of human inquiry and discovery. The present course foregrounds the old and continuing tensions between ideas referred to as magical on the one hand and scientific on the other and of how such divisions originate and operate both within and across cultures. At stake is our understanding of the question of how epistemic authority creates these categories—whether or not it favors such binary oppositions in general and why—and of how such boundaries shift both in individual and cultural realms. Because each contributes to the shaping of our inquiries and understanding about the world(s) around us, it seems critical to examine how the very categories themselves develop and what the function of such divisions are, within and across cultures.

#### HUMA 630. Nation and Empire, Law and Government (3)

This course examines the formation of the modern nation-state in 17th and 18th century Europe. Exploring the origins of nation-states in ethnic, linguistic, cultural and other identities and the principles that hold them together (e.g., moral, religious and legal systems), the course will focus in particular on how they are constructed or problematized textually through art, literature and philosophical critique. The course will include extensive analysis and critical evaluation of the impact of the modern state on other societies, with particular attention to colonialism, imperialism and globalization. The course will end with a discussion of precursors, successors and alternatives to the nation-state as a form of political organization.

#### HUMA 640. Norms and Knowledge (3)

This course will examine questions of knowledge, norms and values as they are represented in philosophy, literature, religion and cultural studies. It traces the development and transformation of these norms and considers the manner in which ideas and ways of knowing change with time and across cultures and different forms of representation. It examines how knowledge is defined and constructed by particular societies and cultures, as well as how knowledge is characterized, configured and reconfigured by social groups, institutions and individual thinkers and artists.

#### HUMA 650. Capstone: The Good Life (3)

The final course reflects on the programmatic theme, captured in Socrates’ dictum that “The unexamined life is not worth living.” HUMA 650 is an examination of and reflection on that which may matter in order to live a good life, with special emphasis on how particular worldviews (specially those the participants’ might identify as their own) may contribute to shape both what we perceive to be the good life and the means we should adopt in order to attain it. This is the Capstone course for the M.A. in the Humanities Program.

#### HUMA 697. Directed Comprehensive Studies (3)

*Prerequisite: Graduate standing.* Comprehensives are completed during or following the semester in which students complete all of the requirements for the Degree. Here, students will work toward the completion of the Comprehensive Experience, which will be developed with the teaching faculty. (Credit/No Credit only)

#### HUMA 699. Graduate Independent Study (3)

*Prerequisites: Consent of instructor; Consent of Director of the Graduate Program; Consent of Department Chair.* Maximum of 3 units may be applied to the student’s program. May be substituted for one course with Program Director’s permission.

# Jewish Studies

## College of Humanities

**Coordinator:** Jody Myers  
**Office of Interdisciplinary Studies**  
**Sierra Hall 194**  
**(818) 677-6762**  
**www.csun.edu/jewish.studies**

### Program Committee

Jeffrey Auerbach (History), Dorothy G. Clark (English), Terry Hatkoff (Sociology), Jody Myers, Coordinator (Religious Studies), Cheryl Spector (English)

### Programs

Undergraduate:

- B.A., Modern Jewish Studies**
- Minor in Jewish Studies**

### The Major

The Bachelor of Arts in Modern Jewish Studies provides an interdisciplinary examination of Jews and Judaism in terms of the interactions of culture, history and religion during the last 300 years. The courses in the Major explore the modern Jewish experience in multiple geographical settings and include language study.

### The Minor

The Minor in Jewish Studies offers courses in the culture and history of the Jewish people. The approach is interdisciplinary and examines Jewish literature, art, religious thought, history and social attitudes and behavior. Many courses in the program satisfy General Education requirements or may be used as electives in several majors.

### Scholarships and Awards

The Jewish Studies Major and Minor Awards, Matador Scholarships, and the Jewish Studies Essay Contest Prize.

### Careers

The Jewish Studies Major and Minor are particularly suitable for those preparing to enter the fields of education, administration, psychology or counseling. Completion of the Minor or Major will be advantageous for acceptance to graduate schools offering advanced academic training (Ph.D. programs in Jewish Studies and allied areas), as well as for acceptance to graduate programs offering professional degrees that are necessary for advanced positions in Jewish education, social-welfare agencies and administration. Completion of the Major or Minor will offer a hiring advantage for positions in the Jewish community in the area of teaching, administration and social-welfare agencies.

### Academic Advisement

Contact Program Coordinator Jody Myers at (818) 677-6762 to schedule an appointment.

### Student Learning Outcomes of the Undergraduate Program

Students majoring in Jewish Studies will have an appreciation and understanding of the major events and cultural features of Jewish life in different international settings from 1600 to the present. Students will be able to:

1. Define and analyze significant Jewish religious beliefs, ethics, religious practices, philosophies and cultural expressions;
2. Demonstrate an ability to speak, comprehend and write Modern Hebrew at an elementary level;
3. Identify the major events of modern Jewish history and articulate the internal (within the Jewish community) and external (outside of the Jewish community) forces that lead up to and shaped these events; and

4. Describe the principal social contours of modern Jewish communities and families and give examples of the complex and multifaceted forms of modern Jewish identity.

### Student Learning Outcomes of the Minor

Students Minor in Jewish Studies will be able to identify major themes, characters, literary works and events of Jewish life in different international settings and in different historical periods. A Jewish Studies Minor will be able to articulate the significant interactions between Jewish culture and the surrounding cultures over time, as well as the changes within the Jewish community and describe Jewish cultural developments as a function of a dynamic created by political, economic and cultural forces.

### Requirements for the Bachelor of Arts Degree

*A course may be used only once within the Major.*

#### 1. Required Courses

##### Introductory Course (3 units)

JS 200 Introduction to Judaism (3)

*This course will count toward 3 units of the General Education requirement in Arts and Humanities.*

##### Language Area (4 units)

HEBR 102 Elementary Hebrew II (4)

##### Culture and Society Area (9 units)

JS/GWS 330 Women in the Jewish Experience (3)

SOC 306 Jewish Communal and Family Structure (3)

SOC 335 Jewish Identity in America (3)

RS 476 Modern Jewish Thought (3)

##### History Area (9 units)

**Course List****JS 151. Natural Environment in Judaism (1)**

Corequisite: RTM 151F. An examination of teachings on the natural environment found in Jewish literature and oral teachings, with an emphasis on values and practices related to respect for natural life and environmental conservation. Arranged wilderness field trips are required.

**JS 200. Introduction to Judaism (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the elements of religion—especially myth, ritual, concepts of the sacred and profane, and types of religious authority—and how these are expressed within Judaism. Judaism's concepts and practices are examined historically, with a focus on their interaction with other religions and with the secular, pluralistic culture of the modern world. Regular written assignments are required. (Available for General Education, Arts and Humanities.)

**JS 210. History of the Jewish People (3)**

Study of the Jewish people from their beginning in the ancient Near East to the establishment of the modern state of Israel. (Cross listed with HIST 210) (Available for General Education, Comparative Cultural Studies.)

**JS 300. Humanities in Jewish Society: Ancient and Medieval (3)**

*Preparatory: Completion of Lower Division writing requirement.* Study of ancient and medieval Jewish culture examining literature, art and

architecture, law, music, philosophy and science. Their distinctive genres, styles, methods of inquiry and creative processes are examined, as are the links between these areas of Jewish culture and their contribution to and dependence on similar expressions in non-Jewish cultures. Regular written assignments are required. (Available for General Education, Arts and Humanities.) (IC)

**JS 318. Jewish Ethics and Society (3)**

*Prerequisite: Completion of lower-division writing requirement.* An investigation of Jewish social ethics using social-scientific methods from history and sociology. Students learn how ethical positions change over time and interact with their particular social, economic and cultural environments. Examples are taken from biblical, rabbinic, Ashkenazic and Sephardic sources. Topics include ethics of business, war and conflict, medical ethics, social welfare and philanthropy, and discrimination and the "other." (Available for General Education: Social Sciences.)

**JS 330. Women in the Jewish Experience (3)**

*Preparatory: Completion of Lower Division writing requirement.* Examines a minority culture—women in Jewish communities from antiquity to the present. Course perspective is international, with significant focus on Mediterranean, West Asian and African Jewish societies. Contemporary topics such as sexuality, creative ritual, Israeli/Palestinian politics, and body image also are discussed. (Cross listed with GWS 330.) (Available for General Education, Comparative Cultural Studies.)

**JS 390CS. Service Learning in the Jewish Community (3)**

*Prerequisite: Instructor consent. Preparatory: Completion of Lower Division writing requirement.* Work experience in Jewish schools, synagogues, social welfare or political organizations. Faculty supervisor assists students in obtaining appropriate work placements. Work experience is complemented by academic study and written assignments offers a community service opportunity with service learning activities relating to concepts and theories presented. Requires 100 hours of community-based field work. (Available for General Education, Lifelong Learning.)

**JS 409. History of the Jews in the Modern Era (3)**

A history of the Jewish people from the 17th century to the present. Principal themes include the transformation of the traditional community, the changes in Jews' political status, the emergence of modern antisemitism, and ethnic and gender distinctions within Jewry. (Cross listed with HIST 409.)

**JS 486J. History of the Jews in the United States (3)**

Explores the social, cultural, economic and political history of Jewish people in the U.S. from the colonial era to the present, and the relevance of this history to American culture today. Available for graduate credit. (Cross listed with HIST 486J.)

**JS 495A-Z. Selected Topics in Jewish Studies (3)**

In-depth study of a selected theme or issue in Jewish Studies. Topics will change from semester. Critical writing and reading is required. This course may serve as the capstone experience for the B.A. Degree in Modern Jewish Studies. Available for graduate credit.

**S 496A-Z. Experimental Topics in Jewish Studies (3)**

Experimental courses may be found in the Schedule of cClasses.

**JS 499A-C. Independent Study (1-3)****JS 546. The Holocaust and Genocide for Educators (3)**

An overview of the Holocaust and the concept of genocide, with a focus on the analysis and evaluation of varied resources for educators, including film, photographs, literature, art, music, documents and other primary source materials. (Cross listed with HIST 546.)

**JS 699A-C. Independent Study (1-3)**

Investigation of a significant problem in Jewish studies. Project selected in conference with faculty sponsor and with approval of the Program Coordinator.

# Journalism

Mike Curb College of Arts, Media, and Communication

**Chair: Linda Bowen**  
**Manzanita Hall (MZ) 210**  
**(818) 677-3135**  
[www.csun.edu/journalism/](http://www.csun.edu/journalism/)

## Staff

Virginia Avila, Blasco Felipe, Lincoln Harrison, Allen Lin, Heather Powell, Susie Torres

## Faculty

Lori Baker-Schena, José Luis Benavides, Stephanie Bluestein, David Blumenkrantz, Linda Bowen, Marcy De Veaux, Taehyun Kim, Jim Hill, Kent Kirkton, Rick Marks, Jéssica Retis-Rivas, Melissa Wall

## Faculty Emeritus

Susan Henry, Jerome Jacobs, DeWayne B. Johnson

## Programs

Undergraduate:

- B.A., Journalism**
- Minor in Journalism**
- Minor in Spanish-Language Journalism**

Graduate:

- M.A., Mass Communication**

## The Major

The B.A. in Journalism is designed for those who seek careers in print and online newspaper/magazine editorial work and photojournalism/ videography, television and radio news, or public relations.

## Accreditation

The Department is accredited by the National Accrediting Council on Education in Journalism and Mass Communications.

## Department Programs

The Department of Journalism is a member of the Association of Schools of Journalism and Mass Communication. Affiliated with the Department of Journalism are news operations of the campus-based FM radio station (KCSN), the Department magazine (*Scene*), the student newspapers (*Daily Sundial* and *El Nuevo Sol*), and television news shows ("Valley View" and "On Point").

Each Journalism major is required to complete a collateral field in another discipline such as history, political science or sociology. A foreign language is strongly recommended.

In addition to meeting the Core requirements in Journalism, students take courses from the following areas of emphasis:

**Broadcast Journalism:** JOUR 315; 325, 335, 415, 445, 395B, 410 or 435;

2 units of Upper Division electives.

**Magazine Journalism:** JOUR 310, 330, 331, 397B, 460, 410 or 495A-Z;

4 units of Upper Division electives.

**Newspaper Journalism:** JOUR 310, 330, 331, 397B, 410 or 494A-Z;

7 units of Upper Division electives.

**Photojournalism:** ART 250, 353 or 355 or 455A; JOUR 331, 350, 397B, 450, or 455.

**Public Relations:** JOUR 310, 331, 340, 341, 398B or 440;

3 units of Upper Division electives.

**General:** JOUR 310, 330, 395B or 397B or 398B;

12 units of Upper Division electives.

National accrediting standards require a major to take a minimum of 80 units of the 120 required for graduation outside of Journalism/ Mass Communication. Of these 80 units, 65 must be in the liberal arts, sciences or humanities. A minimum of 37 units in Journalism is required for the major. Transfer students may count 15 Lower Division units toward the 120-unit requirement.

## Academic Advisement

Journalism majors at both the undergraduate and graduate levels are assigned an advisor at the time of entry into the Department. Advisors have regularly scheduled office hours for advisement purposes. Advisement is required of all majors each semester.

## Student Learning Outcomes

The Department of Journalism strives to prepare its students to become well-educated, principled citizens who are capable of initiating careers as skilled journalists, public relations practitioners and other related communication professionals. The Department will help students to achieve the following objectives by the end of their program of study:

1. Attain competency in writing basics, such as grammar and punctuation, word usage and spelling, sentence and story structure, and journalistic style;
2. Attain competency in the gathering and critical analysis of information using such techniques as interviewing, observation and researching primary and secondary sources;
3. Acquire expertise in thinking critically and creatively, while exercising news judgment, and organizing and presenting information in multiple journalistic forms (i.e., print, visual and electronic, and public relations);
4. Develop an ethical basis for making journalistic and public relations decisions;
5. Develop flexibility in working in evolving mass communication media and environments using a variety of technologies and techniques; and
6. Understand the historical, theoretical, legal and societal contexts within which journalists and public relations practitioners work.

## Requirements for the Bachelor of Arts Degree in Journalism

### 1. Lower Division Required Courses (11 Units)

|      |     |                                      |
|------|-----|--------------------------------------|
| JOUR | 100 | Mass Communication (3)               |
| JOUR | 110 | Writing, Reporting and Ethics I (3)  |
| JOUR | 210 | Writing, Reporting and Ethics II (3) |
| JOUR | 250 | Visual Communication (2)             |

### 2. Upper Division Required Courses (7 Units)

|      |     |                                       |
|------|-----|---------------------------------------|
| JOUR | 400 | Mass Communication Law and Ethics (3) |
| JOUR | 498 | Tutorial in Mass Communication (1)    |

### Select at least 1 of the following (3 units)

|      |        |  |
|------|--------|--|
| JOUR | 371    | Women, Men and Media (3)                   |
| JOUR | 372    | Diversity and the Media (3)                |
| JOUR | 374SLJ | Spanish-Language News Environment          |
| JOUR | 465    | Mass Communication and Popular Culture (3) |
| JOUR | 478    | International News Media (3)               |
| JOUR | 480    | History of the American News Media (3)     |
| JOUR | 585    | Theory of Mass Communication (3)           |

### 3. Courses in Journalism (19 Units)

Depending on Area of Emphasis (see Department Programs), except repeats of JOUR 395AB, 397AB, 398AB or 498

**4. Collateral Units (15 Units)**

Upper Division courses in a collateral field approved in advance by advisor.

|   |            |

| <b>Total Units Required for the B.A. Degree</b> | <b>120</b> |

**Credential Information**

Standard elementary and secondary teaching credentials can be obtained by completing a double major in a University-approved waiver program, such as English. For details on the Credential Program see the Credentials section of the Catalog or refer to the Index.

**Minor in Journalism****1 Lower Division Required Courses (6 units)**

- JOUR 100 Mass Communication (3)  
 JOUR 110 Writing, Reporting and Ethics I (3)

**2. Upper Division Required Courses (5 units)**

- JOUR 310 Writing, Reporting and Ethics III (3)  
 or JOUR 315 Reporting for Broadcast (3)  
 JOUR 330 Editing (2)

**3. Electives in Journalism (7 units)**

(Approved in advance by advisor) (7)

**Minor in Spanish-Language Journalism**

**Advisor: José Luis Benavides**

**Manzanita Hall 210**

**(818) 677-3135**

**Minor Program**

The Interdisciplinary Minor in Spanish-Language Journalism prepares students to report on Spanish-speaking and Latino communities, and to report on those communities for Spanish-language and English-language media. The minor helps students to better understand both Spanish-language and Latino media and Spanish-language and Latino communities.

**Requirements for the Minor**

The interdisciplinary minor in Spanish-Language Journalism consists of 24 units: 6 units of study designed specifically for the Program's Core and 18 units in the 4 participating Departments and Programs. All students who minor in this Program will take the 2 Core courses: JOUR 374SLJ and 474SLJ. Students majoring in either Chicana/o Studies or Central American Studies will take 9 units of Journalism and 9 units of Spanish. Spanish majors will take 9 units in either Chicano Studies or Central American Studies and 9 units in Journalism. Journalism majors will take 9 units in either Chicano Studies or Central American Studies and 9 units in Spanish. Students who come to the Program from other majors will be required to take the 2 Core courses and 6 units in Journalism, 6 units in Spanish, and 6 units in either Chicana/o Studies or Central American Studies.

**1. Lower Division Required Courses (15 units)**

- JOUR 110 Writing, Reporting and Ethics I (3)  
 JOUR 210 Writing, Reporting and Ethics II (3)  
 SPAN 220A Intermediate Spanish I (3)  
 SPAN 220B Intermediate Spanish II (3)

**Select 1e of the following:**

- CHS 100 Chicana/o Culture (3)  
 CAS 100 Introduction to Central American Studies (3)

**2. Upper Division Required Courses (6 units)**

- JOUR 374SLJ News Environment (3)  
 JOUR 474SLJ Media Writing (3)

**3. Upper Division Electives (9 units)\***

*\*Note: Journalism majors who are also minors must complete 15 Upper Division units in a combination of SPAN, CHS or CAS to fulfill the major's collateral field requirement.*

**Select up to 9 units from the following****(for non-journalism majors):**

- JOUR 310 Writing, Reporting and Ethics III (3)  
 JOUR 315 Reporting for Broadcast (3)  
 JOUR 325 TV News Techniques (1)  
 JOUR 330 Editing (2)  
 JOUR 335 Writing, Producing and Editing Television News (2)  
 JOUR 340 Principles of PR (3)  
 JOUR 395A Broadcast News Practicum (1)  
 JOUR 397A Newspaper Practicum (1)  
 (for non-Spanish majors)  
 SPAN 306 Advanced Composition (3)

**Select up to 2 of the following****(for non-Chicano Studies majors):**

- CHS 345 History of Mexican Peoples (3)  
 CHS 360 Political Organizations of the Barrio (3)  
 CHS 361 Urbanization and the Chicana/o (3)  
 CHS 445 History of the Chicana/o (3)  
 CHS 460 Politics of the Chicana/o (3)  
 CHS 470 Cultural Differences and the Chicana/o (3)

**Or select up to 2 of the following****(for non-Central American Studies majors):**

- CAS 310 Modern History of the Central American People (3)  
 CAS 311 The Central American Diaspora (3)  
 CAS 365 Changing Roles of Central American Women (3)  
 CAS 369 Contemporary Social and Religious Movements of the Central American Peoples (3)

**The Graduate Program**

The Graduate Program in Mass Communication presupposes strong undergraduate preparation or equivalent professional experience in the mass media. The Master's Program calls for more intensive study, allows for development of individual professional skills and interests, focuses on evaluation of media performance and uses analytic and research techniques culminating in a Thesis, Graduate Project or Comprehensive Written Examination. Please see additional information regarding Classification standing under Graduate Programs.

**Requirements for the Master of Arts Degree****A. For Admission to Classified Graduate Status in the Program**

1. Bachelor's Degree with a major or minor in Journalism, Cinema or Television Arts, or completion of undergraduate courses assigned by the Graduate Admissions Advisor to complement other majors or professional experience.
2. 3.0 ("B") GPA in an undergraduate major and in all journalism courses taken. Candidates with outstanding professional records may seek, with substantial justification, an exception to this condition.
3. 3.0 ("B") GPA for all undergraduate work and an above-average score on the verbal portion of the Graduate Record Examination (GRE).
4. Completion of general requirements for Classified Graduate Status.
5. Presentation of an autobiographical statement or resume containing a review of past educational and professional experience and comments about educational objectives and purposes.
6. 2 or 3 letters of recommendation.

**B. For the Degree**

A minimum of 30 units of approved graduate work is required for the Degree. University regulations require that at least 18 units of the Program shall be 600-level courses. Students applying more than 36 units of course work to their Graduate Program must take at least 50 percent of their courses in 600-level classes. The 30 minimum units are comprised of the following:

**1. Required Seminars (9 units)**

|      |     |  |
|------|-----|--|
| MCOM | 600 | Seminar in Research Methods (3)              |
| MCOM | 630 | Seminar in Analysis of Media Performance (3) |
| MCOM | 690 | Research Practicum (3)                       |

**Select at least two of the following (6 units):**

|      |        |                                      |
|------|--------|--------------------------------------|
| MCOM | 610    | Seminar in Specialized Reporting (3) |
| MCOM | 620    | Seminar in Media Criticism (3)       |
| MCOM | 693A-Z | Selected Topics (3)                  |
| MCOM | 694    | Media Internship (1-6)               |
| MCOM | 699    | Independent Study (1-6)              |

**2. Required Courses (6 units)**

|      |     |                                       |
|------|-----|---------------------------------------|
| JOUR | 400 | Mass Communication Law and Ethics (3) |
|------|-----|---------------------------------------|

**Plus 1 of the following:**

|      |     |  |
|------|-----|--|
| JOUR | 480 | History of the American News Media (3) |
| JOUR | 585 | Theory of Mass Communication (3)       |

**3. Electives (3 to 6 units)**

Courses in the Journalism Department at the 400- to 600-level not used to satisfy any of the requirements above or courses in related Departments as approved in advance by the Graduate Program Advisor.

|      |     |                        |
|------|-----|------------------------|
| JOUR | 100 | Mass Communication (3) |
|------|-----|------------------------|

MCOM 698 Thesis or Graduate Professional Project (3-6)  
Projects may include professionally oriented studies, video or audio tape documentaries of significance, or publishable works, such as investigative or in-depth articles. A thesis may probe historical, legal, ethical or practical questions through surveys, library studies, or through original investigation.

or

MCOM 697 Comprehensive Written Exam (1)  
Written and oral examination in the major field (Mass Communication) and 2 specified fields selected with the approval of the Graduate Committee. One of those specialized fields may be outside the Department of Journalism.

**Course List****JOUR 100. Mass Communication (3)**

Not open to students with credit in CTVA 100. Survey and analysis of newspapers, books, magazines, radio, television, popular music, movies, advertising, public relations, the Internet and emerging technologies. Examines media history and economics, as well as their roles, rights and impact in contemporary society. Particular emphasis on media literacy, critical thinking, research and writing. (Available for General Education, Lifelong Learning.)

**JOUR 110. Writing, Reporting and Ethics I (3)**

*Prerequisite: TGrade of "C" or better in ENGL 115 or equivalent; yping proficiency.* Basic news gathering and writing. Includes interviewing, speech/meeting coverage, preparing news copy, and traditional- and electronic-information gathering as applied to news decision making. Introduces ethics as part of developing news judgment and learning the values practiced by professional journalists. 6 hours of classroom and lab activity.

**JOUR 210. Writing, Reporting and Ethics II (3)**

*Prerequisite: Grade of "C" or better in JOUR 110 or its equivalent.* Continuation of news reporting, with coverage of public affairs beats, including police, courts and government. Writing primarily in print, but also in broadcast news, online news and public relations formats. Ethics emphasized. Off-campus reporting and statistical journalism included. 6 hours of classroom and lab activity.

**JOUR 250. Visual Communication (2)**

Survey of the most significant techniques and examples of visual communication as employed by the mass media, including newspapers, magazines, television and advertising. Discussion and demonstration of the tools used in analyzing visual communication. Illustrated lectures and experiences.

**JOUR 310. Writing, Reporting and Ethics III (3)**

*Prerequisite: Grade of "C" or better in JOUR 210.* Reporting in-depth on social and political issues. Analysis and application of both classic and newer forms of explanatory storytelling, with an emphasis on ethics. Feature and human interest writing. Using the Internet as a reporting tool.

**JOUR 315. Reporting for Broadcast (3)**

*Prerequisite: Grade of "C" or better in JOUR 210 or its equivalent.* Gathering, reporting, writing, editing and presentation of news for broadcast. Out-of-class assignments, writing stories and editing newscasts for radio and television. 6 hours of classroom and lab activity.

**JOUR 325. Television News Techniques (1)**

*Prerequisite: Grade of "C" or better in JOUR 110 or its equivalent.* Shooting and editing of video for television news stories. Coverage and editing of interviews, speeches, news conferences, hard news and features. Operation of cameras and editing equipment. 2 hours of classroom and lab activity.

**JOUR 330. Editing (2)**

*Prerequisite: Grade of "C" or better in JOUR 310.* Copy and news editing, handling wire service stories, news evaluation and ethics. 4 hours of classroom and lab activity.

**JOUR 331. Graphics (2)**

*Prerequisite: Grade of "C" or better in JOUR 250.* Principles of design and production techniques for print and on-line media. Uses of layout, typography and images for journalism and public relations. 4 hours of classroom and lab activity.

**JOUR 335. Writing, Producing and Editing Television News (2)**

*Prerequisite: Grade of "C" or better in JOUR 315 and 325.* Television news writing, editing and producing. Developing news judgment, ethics and newsroom skills. Editing and writing to video, anchoring. Students produce weekly newscasts, followed by discussion and critique. 4 hours of classroom and lab activity.

**JOUR 340. Principles of Public Relations (3)**

*Prerequisite: Grade of "C" or better in ENGL 115 or its equivalent.* Survey of public relations. Comparative studies of organization and function, techniques and public relations problems. The use of public relations in various organizations, educational institutions, government, corporations, financial institutions, public utilities, entertainment and labor. Regular written assignments are required.

**JOUR 341. Writing and Editing for Public Relations (3)**

*Prerequisite: Grade of "C" or better in JOUR 110 or its equivalent; JOUR 340.* Provides students with an intensive experience writing for public relations. Students learn and employ a variety of public relations writing techniques for print, broadcast and new technologies. Examines and analyzes writing effectiveness in relevant public relations cases and current issues.

**JOUR 350. Photojournalism (3)**

*Prerequisite:* Grade of “C” or better in ART 250; Students are required to have their own cameras. Instruction in the production of black-and-white images for publication and in picture editing. Emphasis on the techniques and ethics involved in working with single images. 6 hours of classroom and lab activity.

**JOUR 371. Women, Men and Media (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Analysis of portrayals of women and men in the mass media and how media shape gender roles, expectations and stereotypes. Special attention to historical and contemporary contributions and responsibilities of women media professionals. Particular emphasis on applying critical thinking, research and writing skills to analyze media policies and practices, and on developing strategies that empower gender equality. (Available for General Education, Comparative Cultural Studies.) (IC)

**JOUR 372. Diversity and the Media (3)**

*Prerequisite:* Completion of lower division writing requirement. Analysis of media portrayals and audience perceptions of racial, ethnic and sociopolitical groups, and the roles and responsibilities of mainstream and specialty media in a democratic society. Particular emphasis on applying critical thinking, research and writing skills to analyze media policies and practices and on developing strategies for multiculturalism. (Available for General Education, Comparative Cultural Studies.) (IC)

**JOUR SLJ 374. Spanish-Language News Environment (3)**

The course is a survey of Latino-oriented and Spanish-language news media and of the news coverage of Latinos and Spanish-language communities. The course provides students with a general understanding of contemporary Spanish-speaking and Latino communities. Conducted in English.

**JOUR SLJ 474. Spanish-Language Media Writing (3)**

*Prerequisite:* Upper Division level of Spanish-language; JOUR 210 or instructor approval. The course will guide students in the methods and styles of reporting and writing in Spanish for print and broadcast. It will prepare students to take part in the Journalism Department’s media practica. Conducted in Spanish.

**JOUR 390. Freedom of the Press (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Not available for those with credit in JOUR 400. Designed for non-journalism majors. Legal rights and privileges of the mass media under the Constitution. Censorship and control of the press. (Available for General Education, Lifelong Learning.)

**JOUR 393. Special Projects (3)**

*Prerequisite:* Senior status and approval of project by department chair. Independent work with faculty supervision.

**JOUR 395A, B. Broadcast News Practicum (1-4)**

*Prerequisite:* Grade of “C” or better in JOUR 315. Supervised work on KCSN in news and documentary programs. Students work as writers, reporters and editors. Critiques of student work. 3 hours of activity per unit per week required.

**JOUR 397A, B. Newspaper Practicum (1-4)**

*Prerequisite:* Grade of “C” or better in JOUR 310 for writers and reporters and in JOUR 330 for editors. Supervised work on the department daily newspaper. Students work as writers, reporters, photographers and editors. Three hours of activity per unit per week.

**JOUR 398A, B. Public Relations Practicum (1-4)**

*Prerequisites:* Grade of “C” or better in JOUR 340 and 341. Hands-on experience designing and implementing public relations campaigns on behalf of non-profit clients, both on- and off-campus. Supervised work on a broad range of public relations activities and documents, with heavy emphasis on writing. Creates professional setting in which students initiate, launch, sustain and carry through public relations campaigns of their own design. 3 hours of activity per unit per week.

**JOUR 400. Mass Communication Law and Ethics (3)**

*Not available for students with credit in JOUR 390.* Examination of the ethics and laws that protect the privileges and define the responsibility of the mass media. Topics include the First Amendment, legal access to information, plagiarism, newsgathering, public access to the media, libel, right of privacy, fair trial/free press, obscenity and censorship.

**JOUR 410. Investigative Reporting (3)**

*Prerequisites:* Grade of “C” or better in JOUR 310 or 315. Researching, reporting, writing and producing investigative stories on societal, governmental and scientific issues for print, broadcast or online media. Ethical issues, problems, traditional techniques and technological approaches to investigative journalism.

**JOUR 415. Reporting for Television News (3)**

*Prerequisite:* Grade of “C” or better in JOUR 315 and 325. Reporting, writing, editing and producing for television news. Fundamentals of television news field reporting, writing, researching, interviewing and editing complete narrative packages. 6 hours of classroom and lab activity.

**JOUR 435. Broadcast News Documentary (3)**

*Prerequisite:* Grade of “C” or better in JOUR 415. Study of documentaries. Development and production of news and public affairs documentaries. Six hours of classroom and lab activity.

**JOUR 440. Public Relations Techniques (3)**

*Prerequisites:* Grade of “C” or better in JOUR 340 and 341. Focus on strategic planning, critical thinking, management and problem solving through the use of case studies. Builds on previously acquired public relations tools and techniques. Includes campaign strategies, research strategies, client relations, creating website content, internal communications, media relations, crisis communication, media training and budgeting.

**JOUR 445. Advanced Television News (3)**

*Prerequisites:* Grade of “C” or better in JOUR 335 and 415. Reporting, writing, editing, anchoring and producing television newscasts for airing on cable or television. Students produce weekly newscasts in a professional environment, followed by critique and discussion. 6 hours of classroom and lab activity.

**JOUR 450. Advanced Photojournalism (3)**

*Prerequisite:* Grade of “C” or better in JOUR 350. Advanced instruction in the techniques and ethics of photojournalism. Emphasis on reporting and narrative construction for the photojournalist. Includes the production of picture stories, photo essays and the preparation of a professional portfolio. 6 hours of classroom and lab activity.

**JOUR 455. Documentary Photojournalism (3)**

*Prerequisites:* Grade of “C” or better in JOUR 350. Production course that guides the student to a discovery and use of the principles of investigation and reporting on a subject in depth. Production of photographic images are supported by a survey of the major journalistic documentary projects in still photography. 6 hours of classroom and lab activity.

**JOUR 460. Magazine Journalism (3)**

*Prerequisite:* Grade of "C" or better in JOUR 330. Principles, problems and techniques of magazine editing and design; production of department magazine; and nonfiction article research and writing. 6 hours of scheduled classroom and lab activity required.

**JOUR 465. Mass Communication and Popular Culture (3)**

Study of the social, political and economic influences that shape popular culture and its effects on audiences. Examines media's roles as storytellers. Particular emphasis on applying critical thinking, research and writing skills to analyze media policies and practices and on developing strategies that empower consumers in the media.

**JOUR 478. International News Media (3)**

Study of news media systems and the influence of government, economics, culture and propaganda on international news practices. Examines the role of multinational media organizations.

**JOUR 480. History of the American News Media (3)**

Study of the development and influence of the news media in the U.S. from colonial times to the present. Examines social, economic, cultural, technological and political influences on news media development. Special attention to dominant media personalities.

**JOUR 494ABC. Internship (1-3)**

*Prerequisite:* Grade of "C" or better in JOUR 315 or 330 or 335 or 341. Supervised employment and field study on newspaper and magazines, in public relations, or in radio and television news. (Credit/No Credit only)

**JOUR 495A-Z. Selected Topics in Journalism (3)**

*Prerequisites:* Grade of "C" or better in JOUR 310 or 315. Advanced research, writing and reporting of selected journalistic styles and/or subject matter. Ethical issues, problems, traditional techniques and technological approaches are integral segments of each selected topic. Subject content will change from semester to semester.

**JOUR 496A-Z. Experimental Topics Courses in Journalism (1-3)**

*Prerequisite:* 1 year of appropriate course work in Journalism. Experimental courses in journalism, with course content to be determined.

**JOUR 498. Tutorial in Mass Communication (1)**

*Prerequisite:* Senior standing; Course work appropriate to the tutorial subject. Individual, supervised study in selected areas of the student's interest.

**JOUR 499. Independent Study (1-3)****JOUR 585. Theory of Mass Communication (3)**

*Prerequisite:* Senior or graduate status. Extended analysis of the theories which inform the study of mass communication. The course focus is on contemporary theories but is grounded in a historical understanding of the development of theory in the field.

**Graduate Courses In Mass Communication**

Only courses at the 400-, 500- or 600-level carry credit toward the Master's Degree in Mass Communication. Admission to the graduate seminars is restricted to those who have been granted Classified status in the Mass Communication Program.

**MCOM 600. Seminar in Research Methods (3)**

*Prerequisite:* *Classifwus*. Scope and methods of research in mass communication, including review of literature, statement of research problem, research design, collection and analysis of data and information, and writing the research report.

**MCOM 610. Seminar in Specialized Reporting (3)**

*Prerequisites:* *Classified graduate status, JOUR 110*. Professionally-oriented course in the use of reporting and writing skills and knowledge with a focus on individual areas of student interest.

**MCOM 620. Seminar in Media Criticism (3)**

*Prerequisite:* *Classified graduate status*. Analysis of books, journal articles and other reviews that deal with contemporary mass communication.

**MCOM 630. Seminar in Analysis of Media Performance (3)**

*Prerequisite:* *MCOM 600*. Extended application of research and evaluation techniques as used in mass communication research to describe the quality of news media performance.

**MCOM 690. Research Practicum (3)**

*Prerequisite:* *MCOM 600*. Instruction and individualized guidance in the preparation of thesis or project proposals, including introduction, literature review and methodology.

**MCOM 693A-Z. Selected Topics in Journalism and Mass Comm (3)**

*Prerequisites:* *Classified status; Approval of sponsor*. Advanced examination of selected topics in journalism and mass communication, with course content to be determined by Department faculty.

**MCOM 694. Internship (1-6)**

*Prerequisites:* *MCOM 600; Approval of sponsor*.

**MCOM 696. Directed Graduate Research (3)****MCOM 697A. Comprehensive Written Exam (1)**

Written and oral examination in the major field (Mass Communication) and 2 specified fields selected with the approval of the Graduate Committee. One of those specialized fields may be outside the Department of Journalism.

**MCOM 698. Thesis or Graduate Project (1-6)**

*Prerequisites:* *MCOM 690; Approval of sponsor*.

**MCOM 699. Independent Study (1-6)**

*Prerequisites:* *MCOM 600; Approval of sponsor*.

# Kinesiology

## College of Health and Human Development

**Chair: Shane Frehlich**  
**Redwood Hall (RE) 250**  
**(818) 677-3205**

### Staff

Steven Paredes, Marina Sanchez, Iris Toledo, Sue Young

### Faculty

Tami Abourezk, Hooshang Bagheri, Sean Flanagan, Shane Frehlich, Nick Galli, Kimberly Henige, Sharon Hsu, Victoria Jaque, Taeyou Jung, Steven Loy, Douglas McLaughlin, Melissa Montgomery, Jennifer Romack, Ashley Samson, Mary Jo Sariscsany, Shane Stecyk, Belinda Stillwell, Terry Sweeting, Paula Thomson, Konstantinos Vrongistinos, William Whiting, Benedict Yaspelkis III

### Emeritus Faculty

Adran Adams, Carolyn Barbian, David Benson, Don Bethe, Muriel Bower, Judith Brame, Nicolas Breit, Samuel Britten, Pete Cassidy, Barry Devine, Darrel Guthrie, Merrill Hardy, Robert Hiebert, George Holland, Alva Johanson, Felix Jumonville, Phil Monroe, John Ramsey, George Rich, Paulette Shafranski, Richard Streid, Ann Stutts, Barbara Swerkes, William Vincent, Earl Wallis, Eleanor Walsh, Tommie Lee White, Sam Winningham

### Programs

Undergraduate:

**B.S., Kinesiology with Options in:**

**Option I Physical Education**

**Option II Exercise Science**

**Option III Dance**

**Option IV General Studies**

**Option V Applied Fitness and Active Lifestyle Development**

**B.S., Athletic Training**

**Minor in Dance**

Graduate:

**M.S., Kinesiology**

### The Major

The word kinesiology comes from the Greek word *kinesis*, which means “to move.” Kinesiology is the study of the art and science of human movement. At CSUN, the discipline of kinesiology is dedicated to the study of human movement and physical activity as it relates to sport, dance and exercise.

### Careers

Kinesiology has many practical applications and leads to a variety of rewarding careers such as teaching physical education or dance, coaching, serving as a consultant in the commercial health and fitness industry, working in a clinical health setting, athletic training or working independently as a personal trainer. Many Kinesiology majors become involved in scientific research or go on to advanced study in medicine, chiropractic, physical therapy, nursing, exercise physiology, biomechanics, motor learning and behavior, motor programs for special populations, sport psychology or pedagogy. Some graduates become coaches for professional teams or work in business environments dealing with sport management and marketing. Others pursue careers in dance therapy or professional dance, or physical activities for individuals with disabilities.

The current societal interest in wellness and fitness has led both individuals and corporations to stress preventive and interventive care. Because Kinesiology students understand the critical role of movement in foster-

ing an individual's well-being, they are important leaders and innovators in regards to improving societal health and wellness levels. Graduates of the Kinesiology Programs work with people in all stages of life—with children and with seniors, with the able bodied and those with disabilities, with elite performers and those of ordinary capability.

### Academic Advisement

Students are required to obtain advisement each semester to be cleared to register for the following semester. Additional advisement is available by appointment throughout the semester. Individual advisors are assigned to all majors; it is recommended that during the first semester as a major, each student request assignment to an advisor. This request should be initiated in the Department Office. Contact Konstantinos Vrongistinos for undergraduate advisement. Contact Victoria Jaque for graduate advisement. Contact Belinda Stillwell for questions about Credential Programs.

### Student Learning Outcomes of the Undergraduate Program

The Department of Kinesiology is a learning-centered community that educates and inspires its students to understand and appreciate human movement for personal expression and wellness throughout the lifespan. In doing so, students and faculty work together to improve quality of life for themselves and their community. The Department values and respects the spectrum of human diversity. An integrated approach to the teaching, learning and application of human movement provides opportunities and experiences to achieve the following learning outcomes:

1. Apply an integrated kinesiological approach to encourage the adoption of healthy and physically active lifestyles, across diverse populations;
2. Apply evidence-based practices to enhance the study of human movement;
3. Demonstrate competent problem solving strategies through intentional practices; and
4. Demonstrate knowledge of kinesthetic forms, processes and structures as they apply to the personal expression and culture of human movement.

### International Experience

The Department of Kinesiology supports the concept of international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Department of Kinesiology and may be used to fulfill some of the requirements for Degree Options offered by the Department and/or certain General Education requirements. Students should consult the International Programs Bulletin available in the Office of International and Exchange Programs, a Departmental advisor or the campus International Programs Advisor for more information.

### Requirements for Bachelor of Science Degree in Kinesiology

#### Lower Division Prerequisite Courses (20 units)

##### Lower Division Science and Math Requirements (14 units):

*Note: 8 of the 14 units double count in General Education and the major.*

|      |         |   |
|------|---------|---|
| BIOL | 101/L   | General Biology and Lab (3/1)                           |
| BIOL | 211/212 | Human Anatomy/Laboratory Studies in Human Anatomy (2/1) |
| BIOL | 281     | Human Physiology (3)                                    |
| MATH | 140     | Introductory Statistics (4)                             |

*Note: Completion of BIOL 211 and 212 is prerequisite to enrollment in KIN 300. Completion of BIOL 281 is prerequisite to enrollment in KIN 346/L.*

**Lower Division Core (6 units)**

|     |       |  |
|-----|-------|--|
| KIN | 200   | Foundations of Kinesiology (3)                         |
| KIN | 201/L | Movement Forms—Sport, Dance and Exercise and Lab (2/1) |

**Upper Division Core (22 units)**

|     |       |   |
|-----|-------|---|
| KIN | 300   | Foundations and Analysis of Human Movement (3)        |
| KIN | 305   | Historical and Philosophical Bases of Kinesiology (4) |
| KIN | 306   | Socio-Psychological Aspects of Physical Activity (3)  |
| KIN | 329/L | Motor Learning and Control and Lab (3/1)              |
| KIN | 345/L | Biomechanics and Lab (3/1)                            |
| KIN | 346/L | Physiology of Exercise and Lab (3/1)                  |

**Options**

Students should confer with an advisor and must follow the prescribed Program for one of the Options outlined below:

**Option I: Physical Education (34 units)**

This Option provides the subject matter preparation required to earn a Credential for teaching Physical Education in California public schools. Students seeking the Teaching Credential are advised to apply to the Credential Program as first-semester seniors. This is done through the Credential Office on campus. Completion of the Kinesiology Major with Physical Education Option, plus 31 units of professional education (including student teaching) are required for the Preliminary Credential. For details on the Single Subject Credential Program, see the Credentials and Department of Secondary Education sections in the Catalog.

**1. Lower Division Required Courses (12 units)**

|     |                 |  |
|-----|-----------------|--|
| KIN | 130A-133A, 151A | Martial Arts Course (1)                                    |
| KIN | 242             | Movement Forms: Basic Dance (1)                            |
| KIN | 250SW           | Professional Activities: Swimming (1)                      |
| KIN | 271/L           | Fundamental Movement, Gymnastics and Rhythms and Lab (2/1) |
| KIN | 272/L           | Non-Traditional Games and Activities and Lab (2/1)         |
| KIN | 273/L           | Analysis and Application of Games and Sport and Lab (2/1)  |

**2. Upper Division Required Courses (22 units)**

|     |       |   |
|-----|-------|---|
| KIN | 315/L | Analysis and Application of Multi-Cultural Dance Forms for Children and Adolescents and Lab (2/1) |
| KIN | 325/L | Motor Development and Lab (3/1)   |
| KIN | 335/L | Health Related Fitness in K-12 Physical Education and Lab (2/1)                                   |
| KIN | 347   | Introduction to Adapted Physical Education (3)  |
| KIN | 371/L | Physical Education Content Development for Children and Lab (2/1)                                 |
| KIN | 462/L | Physical Education Content Development for Adolescents and Lab (2/1)                              |
| KIN | 472/L | Learner Assessment and Technology in K-12 Physical Education and Lab (2/1)                        |

*Note: In the proposed Program, students who wish to complete the California Adapted Physical Education Added Authorization must complete an additional 21 units (KIN 347, 511, 512, 513/L, 514, 608 and 694). Most students will complete the majority of the remaining courses Post-Baccalaureate.*

**Option II: Exercise Science (36-39 units)**

This Option is designed to prepare the student with the necessary knowledge and skills to analyze movement and to conduct and administer physical fitness programs. The Option is particularly valuable for the student interested in employment in fitness assessment labs or fitness centers, as well as those intending to pursue graduate study. In addition, this option prepares students to pursue further study in such allied health programs as physical therapy, occupational therapy, physical assistant and chiropractic.

**1. Lower Division Required Courses\* (8-9 units)**

\* Students may take these courses to satisfy up to 8 units of G.E.: Natural Sciences.

|      |        |   |
|------|--------|---|
| PHYS | 100A/L | General Physics and Lab (3/1)<br>(Satisfies G.E., Natural Sciences) |
|------|--------|---|

**Select 1 of the following:**

|         |       |   |
|---------|-------|---|
| CHEM    | 101/L | General Chemistry and Lab (4/1)<br>(Satisfies G.E., Natural Sciences) |
| or CHEM | 103   | Introductory Chemistry I (4)<br>(Satisfies G.E., Natural Sciences)    |

(CHEM 101/L recommended for students planning a career in Physical Therapy.)

**2. Upper Division Required Courses (10 units)**

|     |       |   |
|-----|-------|---|
| KIN | 325/L | Motor Development and Lab (3/1)               |
| KIN | 445** | Quantitative Biomechanics (3)                 |
| KIN | 446/L | Research in Exercise Physiology and Lab (2/1) |

\*\* Completion of either MATH 104 or 105 (GE Basic Skills, Mathematics) or equivalent is a prerequisite to KIN 445.

**3. Electives (15 units)****Select 15 units with approval of advisor:**

|     |        |  |
|-----|--------|--|
| KIN | 311/L  | Adapted Therapeutic Exercise Principles and Applications and Lab (2/1) |
| KIN | 313/L  | Adapted and Therapeutic Aquatic Exercise and Lab (2/1)                 |
| KIN | 337/L  | Introduction to Athletic Training and Lab (3/1)                        |
| KIN | 402/L  | Computer Applications in Kinesiology and Lab (2/1)                     |
| KIN | 415    | Medical Aspects of Sport and Related Injuries (3)                      |
| KIN | 436    | Applied Exercise and Sports Physiology (3)                             |
| KIN | 456    | Adult Exercise Program Design (3)                                      |
| KIN | 476    | Musculoskeletal Biomechanics and Injury (3)                            |
| KIN | 479    | Perception and Movement (3)  |
| KIN | 494A-C | Academic Internship in Kinesiology (1-3)                               |
| KIN | 499A-C | Independent Study (1-3)  |
| KIN | 560    | Clinical EKG and Exercise Stress Testing (3)                           |
| KIN | 575/L  | Biomechanical Analysis Techniques and Lab (2/1)                        |

Elective: Alternative Upper Division KIN elective may be taken with prior approval of advisor (1-3)

**Option III: Dance (25 units)**

This Option is designed to provide a basis for dance experience and potential employment opportunities in the field of performance, choreography and teaching.

**Select 25 units with advisor's approval. It is recommended that students take dance technique courses along with theoretical courses.****Theory Courses**

|     |       |   |
|-----|-------|---|
| KIN | 314/L | Creative Dance for Children and Lab (2/1)   |
| KIN | 315/L | Analysis and Application of Multi-Cultural Dance Forms for Children and Adolescents and Lab (2/1) |
| KIN | 316/L | Choreographic Form and Lab (2/1)  |

|     |         |   |
|-----|---------|---|
| KIN | 317     | Advance Analysis of Dance Forms: Ballet, Jazz, Modern (3) |
| KIN | 380/L   | Perspectives of Dance (2/1)                               |
| KIN | 426     | Choreography (3)  |
| KIN | 427     | Dance Production (3)                                      |
| KIN | 494A-C  | Academic Internship in Kinesiology (1-3)                  |
| KIN | 498WA-C | Dance Concert Modes (1-3)                                 |
| KIN | 499A-C  | Independent Study (1-3)                                   |

**Technique Courses**

|     |     |  |
|-----|-----|--|
| KIN | 318 | Intermediate Classical and Contemporary Ballet (3-3) |
| KIN | 319 | Intermediate Modern Dance (3-3)                      |
| KIN | 418 | Advanced Classical and Contemporary Ballet (3-3)     |
| KIN | 419 | Advanced Modern Dance (3-3)                          |

**Option IV: General Studies (25 units)**

This Option is designed to meet the needs of students who seek a general program in Kinesiology or who have special interests in areas not represented in the other Options. Students completing this Option have the opportunity to explore both the subdisciplinary and the applied areas of the field of study.

**1. Select at least 3 units from each of the following areas:****Biological/Mechanical**

|     |       |   |
|-----|-------|---|
| KIN | 325/L | Motor Development and Lab (3/1)               |
| KIN | 445   | Quantitative Biomechanics (3)                 |
| KIN | 446/L | Research in Exercise Physiology and Lab (2/1) |

**Arts/Humanities/History**

|     |       |                                     |
|-----|-------|-------------------------------------|
| KIN | 380/L | Perspectives of Dance and Lab (2/1) |
| KIN | 426   | Choreography (3)                    |
| KIN | 427   | Dance Production (3)                |
| KIN | 428   | Aesthetics of Human Movement (3)    |

**Social/Cultural**

|     |     |                                |
|-----|-----|--------------------------------|
| KIN | 385 | Women in Sport (3)             |
| KIN | 407 | Sport, Culture and Society (3) |
| KIN | 408 | The Olympic Games (3)          |

**Clinical**

|     |       |  |
|-----|-------|--|
| KIN | 311/L | Adapted Therapeutic Exercise Principles and Applications and Lab (2/1) |
| KIN | 313/L | Adapted and Therapeutic Aquatic Exercise and Lab (2/1)                 |
| KIN | 337/L | Introduction to Athletic Training and Lab (3/1)                        |
| KIN | 347   | Introduction to Adapted Physical Education (3)                         |
| KIN | 429   | Perceptual Motor Problems of the Atypical Student (3)                  |
| KIN | 436   | Applied Exercise and Sports Physiology (3)                             |
| KIN | 456   | Exercise Program Design (3)  |

**Teaching/Coaching**

|     |       |   |
|-----|-------|---|
| KIN | 310   | Visualization and Sport (3)   |
| KIN | 315/L | Analysis and Application of Multi-Cultural Dance Forms for Children and Adolescents and Lab (2/1) |
| KIN | 317   | Advanced Analysis of Dance Forms: Ballet, Jazz, Modern (3)  |
| KIN | 420   | Coaching Competitive Sports (3)   |

**2. Select a minimum of 10 additional Upper Division units in Kinesiology courses with approval of an advisor.****Option V: Applied Fitness and Active Lifestyle Development (36 units)**

This Option is designed to prepare the student with the necessary knowledge and skills to analyze movement and to conduct and administer physical fitness programs. The Option is particularly valuable for the student interested in employment in fitness assessment labs or fitness centers.

**1. Lower Division Required Courses (6 units)**

|   |     |                                  |
|---|-----|----------------------------------|
| FCS   | 207 | Nutrition for Life (3)           |
| <i>(Satisfies G.E. Lifelong Learning, Information Competence)</i> |     |                                  |
| <i>or</i> HSCI 337 Nutrition and Health (3)                       |     |                                  |
| <i>(Satisfies Upper Division G.E. Lifelong Learning)</i>          |     |                                  |
| PSY   | 150 | Principles of Human Behavior (3) |
| <i>(Satisfies G.E., Social Science)</i>                           |     |                                  |

**2. Upper Division Required Courses (21 units)**

|   |       |   |
|---|-------|---|
| KIN   | 325/L | Motor Development and Lab (3/1)   |
| KIN   | 337/L | Introduction to Athletic Training (3/1)                                       |
| KIN   | 417/L | Theoretical and Technical Considerations of Resistance Exercise and Lab (2/1) |
| KIN   | 446/L | Research in Exercise Physiology and Lab (2/1)                                 |
| KIN   | 436   | Applied Exercise and Sports Physiology (3)                                    |
| <i>or</i> KIN 456 Exercise Program Design (3)           |       |   |
| KIN   | 494A  | Academic Internship in Kinesiology (1)  |
| PSY   | 352   | Motivation (3)  |
| <i>(Satisfies Upper Division G.E., Social Sciences)</i> |       |   |

**3. Electives (9 units)****Select 9 units with approval of advisor:**

|     |        |   |
|-----|--------|---|
| KIN | 311/L  | Adapted Therapeutic Exercise Principles and Applications and Lab (2/1)                        |
| KIN | 313/L  | Adapted and Therapeutic Aquatic Exercise/ Lab (2/1)   |
| KIN | 415    | Medical Aspects of Sport and Related Injuries (3)   |
| KIN | 436    | Applied Exercise and Sports Physiology (3)  |
| KIN | 445    | Quantitative Biomechanics (3)   |
| KIN | 448/L  | Adapted Therapeutic Exercise: Assessment and Program Design and Lab (2/1)                     |
| KIN | 456    | Exercise Program Design (3)   |
| KIN | 451/L  | Adapted Aquatic Therapeutic Exercise: Assessment, Evaluation and Program Design and Lab (2/1) |
| KIN | 476    | Musculoskeletal Biomechanics and Injury (3)   |
| KIN | 479    | Perception and Movement (3)   |
| KIN | 494A-C | Academic Internship in Kinesiology (1-3)  |
| KIN | 499A-C | Independent Study (1-3)   |
| KIN | 560    | Clinical EKG and Stress Testing (3)   |
| KIN | 575/L  | Biomechanical Analysis Techniques and Lab (2/1)   |

Elective: Alternative Upper Division KIN elective may be taken with prior approval of advisor (1-3).

**General Education (48 units):** Undergraduate students must complete 48 units of General Education as described in the Catalog.

When students select BIOL 101/L (3/1) that is required in the major to satisfy 4 units of GE: Natural Sciences and MATH 140 (4) that is required to satisfy 4 units of GE: Basic Skills-Mathematics, the GE total is reduced to 40 units. In selected Options, there are additional "overlap" units for courses that count in meeting both major requirements and General Education requirements. Students should meet with a Department advisor before selecting General Education courses. Failure to select overlapping courses may result in additional units in the major for selected Options.

## Requirements for the Bachelor of Science Degree in Athletic Training

The Athletic Training Education Program (ATEP) has a separate application from the CSUN admissions process. Admission criteria include GPA, observation hours, letters of recommendation and a personal interview with the selection committee. For further information, please go to the ATEP section of the Kinesiology Department website ([www.csun.edu/hhd/kin](http://www.csun.edu/hhd/kin)). The ATEP is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The 2-year (5 semester) ATEP provides students with academic and clinical experiences designed to prepare them for the Board of Certification (BOC) examination and a successful career in the field.

### 1. Athletic Training Prerequisite Coursework (24 units)

All prerequisite course work must be completed by the end of the Spring semester in which the student intends to apply to the ATEP.

|      |       |  |

## Minor in Dance

The Minor in Dance is designed to provide a basis for dance experience and potential employment opportunities in the field of performance, choreography and teaching. Two Minor Options are available. The Dance Pedagogy Option focuses on acquiring the necessary skills needed to teach dance within school and community settings. The Dance Performance Option focuses on acquiring the necessary skills to enhance technical facility as a dancer and to choreograph and mount new works for stage, film and/or television.

Courses relevant to dance taken in the Departments of Theater or Music also may count toward a Minor in Dance. Advisors in the Department of Kinesiology are available for student consultation.

### A. Option I. Dance Pedagogy (21 units):

**Select 9 units from the following dance technique courses:**

|     |      |  |
|-----|------|--|
| KIN | 137  | Dance, Ballroom I (1)  |
| KIN | 139A | Ballet I (1)   |
| KIN | 139B | Ballet II (1)  |
| KIN | 140A | Dance, Folk I (1)  |
| KIN | 140B | Dance, Folk II (1)   |
| KIN | 141A | Jazz Dance (1)   |
| KIN | 141B | Jazz Dance II (1)  |
| KIN | 142A | Dance, Latin America I (1)                                   |
| KIN | 142B | Dance, Latin America II (1)                                  |
| KIN | 143  | Urban Street Dance (1)                                       |
| KIN | 144A | Modern Dance (1)   |
| KIN | 145A | Dance, Square and Round (1)                                  |
| KIN | 148  | Dance Conditioning and Somatic Practices (1)                 |
| KIN | 318  | Intermediate Classical and Contemporary Ballet Technique (3) |
| KIN | 319  | Intermediate Modern Dance (3)                                |
| KIN | 418  | Advanced Classical and Contemporary Ballet (3)               |
| KIN | 419  | Advanced Modern Dance (3)                                    |

**Select 12 units from the following dance theory/laboratory courses:**

*Note: The following courses include enrollment by instructor consent as a prerequisite.*

|     |       |   |
|-----|-------|---|
| KIN | 236/L | Introduction to Choreography and Lab (2/1)  |
| KIN | 314/L | Creative Dance for Children and Lab (2/1)   |
| KIN | 315/L | Analysis and Application of Multi-Cultural Dance Forms for Children and Adolescents and Lab (2/1) |
| KIN | 317   | Advanced Analysis of Dance Forms: Ballet, Jazz, Modern (3)  |
| KIN | 325/L | Motor Development and Lab (3/1)   |
| KIN | 371/L | Physical Education Content Development for Children and Lab (2/1)                                 |
| KIN | 380/L | Perspectives of Dance and Lab (2/1)   |
| KIN | 428   | Aesthetics of Human Movement (3)  |

**B. Option II. Dance Performance (21 units):****Select 12 units from the following dance technique courses:**

|     |      |  |
|-----|------|--|
| KIN | 137  | Dance, Ballroom I (1)  |
| KIN | 139A | Ballet I (1)   |
| KIN | 139B | Ballet II (1)  |
| KIN | 140A | Dance, Folk I (1)  |
| KIN | 140B | Dance, Folk II (1)   |
| KIN | 141A | Jazz Dance (1)   |
| KIN | 141B | Jazz Dance II (1)  |
| KIN | 142A | Dance, Latin America (1)                                       |
| KIN | 143  | Urban Street Dance (1)   |
| KIN | 144A | Modern Dance (1)   |
| KIN | 145A | Dance, Square and Round (1)                                    |
| KIN | 148  | Dance Conditioning and Somatic Practices (1)                   |
| KIN | 318  | Intermediate Classical and Contemporary Ballet Technique (3-3) |
| KIN | 319  | Intermediate Modern Dance (3-3)                                |
| KIN | 418  | Advanced Classical and Contemporary Ballet Technique (3-3)     |
| KIN | 419  | Advanced Modern Dance (3-3)                                    |

**Select 9 units from the following dance theory/laboratory courses:**

*Note: The following courses include enrollment by instructor consent as a prerequisite.*

|     |         |  |
|-----|---------|--|
| KIN | 236/L   | Introduction to Choreography and Lab (2/1) |
| KIN | 316/L   | Choreographic Forms and Lab (3)            |
| KIN | 380/L   | Perspectives of Dance and Lab (2/1)        |
| KIN | 426     | Choreography (3)                           |
| KIN | 427     | Dance Production (3)                       |
| KIN | 498WA-C | Dance Concert Modes (1-3)                  |
| TH  | 342     | Intermediate Stage Movement (2)            |
| TH  | 442     | Advanced Stage Movement (2)                |

|---|-----------|

**Requirements for the Masters of Science Degree**

The graduate program provides for advanced professional preparation and for introduction to research in an area of specialization.

**A. Department Requirements**

In addition to University requirements, the Department of Kinesiology requires:

1. GPA of 2.75 in the last 60 units of undergraduate work (with a 3.0 GPA preferred).
2. Completion of the Graduate Record Examination (GRE) with scores submitted as part of the application (i.e., prior to admission).
3. Submission of the following, addressed to the Department's Graduate Coordinator:
  - a. 3 letters of recommendation
  - b. Statement of intent discussing the applicant's interests and goals as they relate to a Graduate Degree in Kinesiology.

**B. Admission to Classified Status**

Students must be admitted to Classified status prior to completion of more than 12 units of graduate course work. Admission to Classified graduate status in the Program requires:

1. Undergraduate degree in Kinesiology or a related field, or completion of Department course prerequisite requirements. In satisfying the course prerequisite requirements, each course must be completed with a grade of "B" or higher.
2. Passing score (8 or above) on the Upper Division Writing Proficiency Exam.

3. For students with overall undergraduate GPA below 3.0, a score at or above the 50th percentile on at least 1 of the 3 sections of the Graduate Record Examination (GRE).

4. Submission of Request for Classification form approved by the Department Graduate Coordinator.

In addition to maintaining an overall GPA of 3.0 or higher in all courses taken toward the Master's Degree, students must complete KIN 605 (Research Methods and Design) and either KIN 610 (Quantitative Analysis of Research in Kinesiology) or KIN 612 (Qualitative Research Design) with a grade of "B" or higher in each.

**1. Required Courses (18 units)**

KIN 605 Research Methods and Design (3)

**Select 1 of the following:**

KIN 610 Quantitative Analysis of Research in Kinesiology (3)

KIN 612 Qualitative Research Design (3)

**Select 2 courses from the following with approval of advisor:**

KIN 603 Seminar in Pedagogy of Kinesiology (3)

KIN 606 Seminar in Social Psychology of Sport (3)

KIN 607 Seminar in Sport History (3)

KIN 619 Seminar in Dance Science (3)

KIN 645 Seminar in Biomechanics (3)

KIN 646 Seminar in Exercise Physiology (3)

KIN 647 Seminar in Adapted Physical Activity (3)

KIN 679 Seminar in Motor Behavior (3)

**2. Thesis/Graduate Project:**

KIN 698 Thesis or Graduate Project (6)

**3. Electives (12 units)**

Select from the following with approval of an advisor or Thesis Chair:

**400-level:** KIN 407, 408, 409, 426, 427, 428, 429, 436, 437, 445, 446/L, 447/L, 448/L, 449, 451/L, 456, 476, 479, 496SP or 498A-Z

**500-level:** KIN 503, 520, 526/L, 547, 560, 566, 575/L or 579

**600-level:** KIN 600, 602, 603, 606, 607, 618, 626, 642, 645, 646, 647, 652, 654, 656, 679, 695A-Z, 696 A-C or 699A-C

*Note: Of the total 30 units required for the Degree, at least 21 must be in 500- or 600-level courses.*

**Student Learning Outcomes of the Graduate Program**

The Department of Kinesiology is a learning-centered community that educates and inspires its students to understand and appreciate human movement for personal expression and wellness throughout the lifespan. In doing so, students and faculty work together to improve quality of life for themselves and their community. The Department values and respects the spectrum of human diversity. An integrated approach to the teaching, learning and application of human movement provides opportunities and experiences to achieve the following learning outcomes:

1. Demonstrate a comprehensive and theoretical understanding of kinesiology through oral and written expression.
2. Synthesize and apply theoretical concepts from the kinesiology research literature to the student's chosen area of study.
3. Conceptualize, plan and conduct a scholarly research or professional project based on a review of appropriate literature and utilizing appropriate methodologies.

## Course List

For Varsity Athletics courses, see Intercollegiate Athletics Program.

### **KIN 115A. Adapted and Therapeutic Exercise (1-1-1-1)**

Special course designed for men and women unable to participate in regular activity classes. Classification is made by University physician. Course may be repeated for 4 units of credit. (Available for General Education, Lifelong Learning.)

### **KIN 116A. Adapted Sports I (1-1)**

Designed for students whose physical condition requires adaptation of aquatics, sports and rhythms. Course may be repeated for credit. (Available for General Education, Lifelong Learning.)

### **KIN 117. Adapted Aquatic Exercise (1-1-1)**

*Prerequisite: Medical release with doctor's approval.* Provides an aquatic exercise program designed for students with physical disabilities. Students develop strength, flexibility, cardiovascular endurance, posture, balance and improved ambulation through the application of adapted and therapeutic aquatic exercise. Concepts of water safety, physics of aquatic activity and specific movement skills are addressed. Course may be repeated for credit. (Available for General Education, Lifelong Learning.)

### **KIN 118. Adapted Self-Defense (1-1-1)**

This course is designed to provide instruction and practice in the basic techniques of attack prevention and personal defense skills for individuals with specialized needs. Each student will develop a personalized program to discover and fortify those skills that fall within her/his range. (Available for General Education, Lifelong Learning.)

### **KIN 120/L. Arts Immersion: Dance and Lab (1/1)**

*Prerequisite: Restricted to students in ITEP Freshman Option. Corequisite: KIN 120L.* Introductory course in study of dance as an art form. Concepts of dance are explored as a means of personal expression. Students engage in creative dance activities and multicultural and international dance forms. Students extend and integrate their knowledge of dance to all the visual and performing arts. 1 hour lecture, 2 hours lab per week.

### **KIN 122A. Badminton I (1)**

Development of skill in playing badminton, including rules, etiquette and techniques. (Available for General Education, Lifelong Learning.)

### **KIN 124A. Basketball I (1)**

Development of understanding of rules, strategies and basic skills in competitive basketball. (Available for General Education, Lifelong Learning.)

### **KIN 125A. Fitness for Life (1)**

Introductory course offering a wide variety of conditioning activities (i.e. general aerobics, jogging, weight training, stretching) designed to increase the individual's understanding of conditioning principles and level of fitness necessary for participation in sports or other conditioning activity courses. (Available for General Education, Lifelong Learning.)

### **KIN 126A. Strength Training (1)**

Designed to emphasize physical fitness, with special emphasis on muscular strength. Evaluation of individual needs and fitness programming are included. (Available for General Education, Lifelong Learning.)

### **KIN 128. Fitness Walking (1)**

Introduction to the performance of fitness walking as a lifelong activity that maintains and enhances well-being. Develop proficiency and increased knowledge about fitness walking as well as understand and implement a physical fitness program that features walking as a primary activity. (Available for General Education, Lifelong Learning.)

### **KIN 129A. Running Conditioning I (1)**

Development of skill and training methodology for intermediate, distance and cross country running. (Available for General Education, Lifelong Learning.)

### **KIN 129B. Running Conditioning II (1)**

*Prerequisite: KIN 129A.* Development of advanced skills and training methodology for intermediate to long-distance and cross-country running.

### **KIN 130A. Karate I (1)**

Development of skill in basic techniques of Japanese karate, including self defense and an examination of karate history, philosophy and traditions. (Available for General Education, Lifelong Learning.)

### **KIN 130B. Karate II (1)**

*Prerequisite: KIN 130A.* Continuing development of skill in intermediate and advanced techniques of Japanese karate, including further knowledge of history and traditions of the activity.

### **KIN 130C. Karate III (2)**

*Prerequisite: KIN 130B.* Prepares students for tournament-level performance. Students refine abilities to react to situations and appropriately combine skills. Students develop the power and speed of movement required in competitive situations.

### **KIN 131A. Taekwondo (1)**

Development of skill in basic techniques of Korean martial art, including self-defense and an examination of Taekwondo history, philosophy and traditions. (Available for General Education, Lifelong Learning.)

### **KIN 132A. Aikido (1)**

Study of the techniques and philosophy of Aikido, a Japanese martial art. Focus on control techniques, and is based on a blending of movement and intention so that what appears as a combative situation can be resolved without conflict. (Available for General Education, Lifelong Learning.)

### **KIN 133A. Tai Chi Ch'uan (1)**

Study of the philosophy and basic techniques of Tai Chi Ch'uan, with special focus on breathing, fluidity of movement and the application of the techniques to other physical disciplines. (Available for General Education, Lifelong Learning.)

### **KIN 134. Shaolin Kung Fu (1)**

Study of the philosophy and basic techniques of Kung Fu, with special focus on breathing, fluidity of motion and the application of the techniques to other physical disciplines. (Available for General Education, Lifelong Learning.)

### **KIN 135A. Aerobic Dance I (1)**

Exercises designed specifically for improving cardiovascular function and physical fitness through the mode of dynamic rhythmic dance movements. (Available for General Education, Lifelong Learning.)

### **KIN 136A. Aqua Aerobics (1)**

For swimmers and non-swimmers designed specifically to improve cardiovascular endurance, strength, agility and flexibility through the mode of free dynamic movement in the water. The water provides resistance and buoyancy that promotes a workout virtually free of orthopedic stress. (Available for General Education, Lifelong Learning.)

### **KIN 137A. Dance, Ballroom I (1)**

Survey, analysis, practice and development of social dance etiquette and of proficiency in the fundamental skills of ballroom dancing.

### **KIN 139A. Ballet I (1)**

Development of proficiency in basic ballet skills and development of understanding and appreciation for ballet as an art form. (Available for General Education, Arts and Humanities.)

**KIN 139B. Ballet II (1)**

*Prerequisite:* KIN 139A. Continued study of ballet techniques with emphasis on combinations of basic skills.

**KIN 140A. Dance, Folk I (1)**

Development of proficiency in folk dance skills and development of understanding and appreciation for folk dancing.

**KIN 140B. Dance, Folk II (1)**

*Prerequisite:* KIN 140A. Development of intermediate folk dance skills, with emphasis on style and rhythm, as well as an understanding and appreciation of the cultural background of folk dancing.

**KIN 141A. Jazz Dance I (1)**

Development of proficiency in jazz dance techniques, skill and development of an understanding and appreciation of jazz dance as an art form.

**KIN 141B. Jazz Dance II (1)**

Development of intermediate jazz dance techniques, skill and development of an understanding and appreciation for jazz dance as an art form.

**KIN 142A. Dance, Latin America I (1)**

Development of proficiency in Latin American folk dance skills, in choreography and in performance of group dances based upon the traditional forms. Introduction to historical background of music.

**KIN 142B. Dance, Latin America II (1)**

*Prerequisite:* KIN 142A or instructor consent. Latin America II develops proficiency in Latin American popular dance skills. It focuses on typical dances from Latin American cultures, with emphasis on acquisition of intermediate level dance skills. (1 unit/1.7 hours) (Available for General Education, Lifelong Learning.)

**KIN 143. Urban Street Dance (1)**

Development of proficiency in urban street dance styles, including the most current forms found in popular urban youth culture and understanding its socio-ethnic origins and aesthetics.

**KIN 144A. Dance, Modern I (1)**

Development of proficiency in modern dance technique skills and development of an understanding and appreciation for modern dance as an art form. (Available for General Education, Arts and Humanities.)

**KIN 145A. Dance, Square and Round I (1)**

Development of square and round dance skills, etiquette, understanding and appreciation.

**KIN 147. Pilates (1)**

An introduction to the Pilates method—a mind-body movement program designed to stretch, strengthen and balance the body. Exercises focus on postural symmetry, breath control, abdominal strength, spine, pelvis and shoulder stabilization, muscular flexibility, joint mobility and strengthening through the complete range of motion of all joints. (Available for General Education, Lifelong Learning.)

**KIN 148 Dance Conditioning and Somatic Practices (1)**

Develop proficiency and increased knowledge about dance conditioning practices, with the goal to improve stability, strength and awareness. (Available for General Education, Lifelong Learning.)

**KIN 149. Yoga (1)**

Philosophy and basic techniques of yoga. Through asanas (postures), stretches and deep breathing, flexibility and strength are developed and all systems of the body are revitalized. Deep breathing, relaxation and meditation techniques enhance overall health and improve ability to handle stress. (Available for General Education, Lifelong Learning.)

**KIN 151A. Personal Defense (1)**

Instruction and practice in the basic techniques of anticipating, avoiding and, when necessary, protecting oneself from attack. Emphasis is on the avoidance of physical confrontation and the discouragement of an attacker. (Available for General Education, Lifelong Learning.)

**KIN 152A. Soccer I (1)**

Designed to practice performance techniques, analyze strategies and promote team play and sportsmanship in soccer. (Available for General Education, Lifelong Learning.)

**KIN 153. Sexual Assault Defense for Women (1)**

A women's self defense course against sexual assault. Course topics include awareness, risk reduction, avoidance, basic physical defense, aerosol defense and keychain defense. (Available for General Education, Lifelong Learning.)

**KIN 154. Sexual Assault Defense for Men (1)**

Men's self defense course against sexual assault. Course topics include awareness, risk reduction, avoidance, basic physical defense, aerosol defense and keychain defense. (Available for General Education, Lifelong Learning.)

**KIN 155A. Golf I (1)**

Development of basic skill in playing golf, including rules, etiquette and background. (Available for General Education, Lifelong Learning.)

**KIN 155B. Golf II (1)**

*Prerequisite:* KIN 155A. Development of proficiency in performance of golf skills beyond the elementary level, with special emphasis on the short game, game techniques and links play.

**KIN 160A. Gymnastics Apparatus—Men I (1)**

Development of proficiency in intermediate tumbling and gymnastics skills, including use of trampoline, mats and heavy apparatus. (Available for General Education, Lifelong Learning.)

**KIN 161A. Gymnastics Apparatus—Women I (1)**

Development of skills, appreciation and techniques for the balance beam, uneven parallel bars, side horse and floor exercise. (Available for General Education, Lifelong Learning.)

**KIN 164A. Handball I (1)**

Development of proficiency in handball skills, including rules, etiquette and techniques of playing handball. (Available for General Education, Lifelong Learning.)

**KIN 167A. Racquetball I (1)**

Development of proficiency in racquetball skills, knowledge of rules and techniques and basic strategy. (Available for General Education, Lifelong Learning.)

**KIN 171A. Softball I (1)**

Development of proficiency in softball skills, including strategy, officiating rules and appreciations. (Available for General Education, Lifelong Learning.)

**KIN 172. Ultimate Frisbee (1)**

Development of proficiency in and increased knowledge of disc sports, with emphasis on Ultimate Frisbee, with the goal of improving physical skills, physical conditioning, agility and teamwork. (Available for General Education, Lifelong Learning.)

**KIN 176A. Springboard Diving I (1)**

*Prerequisite:* KIN 178A. Development of proficiency in basic diving skills and in performance of specialized diving in the various classified categories.

**KIN 177A. Swimming for Non-swimmers (1)**

Introduction for the non-swimmer, which includes fundamental skills for basic swimming strokes, safety and survival techniques. (Available for General Education, Lifelong Learning.)

**KIN 178A. Swimming I (1)**

Practice in performance and analysis of swimming, diving and other aquatic skills at the elementary level. (Available for General Education, Lifelong Learning.)

**KIN 179A. Swimming Conditioning (1)**

Survey of various training methods and development of physical fitness utilizing aquatic activity. (Available for General Education, Lifelong Learning.)

**KIN 185A. Tennis I (1)**

Development of skill in playing tennis, inclusion of etiquette, rules and techniques. (Available for General Education, Lifelong Learning.)

**KIN 185B. Tennis II (1)**

*Prerequisite:* KIN 185A. Development of higher proficiency in performance of tennis skills, with special emphasis on game strategy.

**KIN 191A. Track and Field I (1)**

Introduction to and development of basic skills in selected running, jumping and throwing events. (Available for General Education, Lifelong Learning.)

**KIN 195A. Volleyball I (1)**

Development of proficiency in volleyball skills, including background, rules and strategy. (Available for General Education, Lifelong Learning.)

**KIN 195B. Volleyball II (1)**

*Prerequisite:* KIN 195A. Development of a high degree of skill performance, with special emphasis on team strategy.

**KIN 196A-Z. Experimental Topics Courses (1-2)**

Selected activity courses with content to be determined.

**KIN 200. Foundations of Kinesiology (3)**

Using a holistic and integrated approach, students will actively explore the multi-faceted field of Kinesiology. Course/student outcomes will include exposure to and development of liberal learning skills, professional development, a working definition and appreciation for the field, and the initiation of a portfolio.

**KIN 201/L. Movement Forms—Sport, Dance and Exercise and Lab (2/1)**

*Corequisite:* KIN 201L. Introduction for the major student to various movement forms (sport, dance, exercise) from the perspective of performer, practitioner and researcher. A Core course that serves as a base for continued study of the knowledge and applications of kinesiology.

**KIN 236. Introduction to Choreography (2)**

*Prerequisite:* Instructor consent. Principles of dance composition—movement sources, rhythmic, spatial and dynamic techniques of organization, and thematic development. Composition of solo and small group dances. (Available for General Education, Arts and Humanities.)

**KIN 236L. Introduction to Choreography and Lab (1)**

Lab practice in choreography. (Available for General Education, Arts and Humanities.)

**KIN 240. Conceptual Basis of Kinesiology (1)**

Introduction to the study and application of the body of knowledge in kinesiology.

**KIN 241/L. Movement Forms: Exercise and Lab (1/1)**

*Corequisite:* KIN 241L. Development of elementary physiological, biomechanical and behavioral concepts and skills in movement fundamentals and body conditioning. Application of these principles to different populations for the development and maintenance of lifelong physical conditioning. 1 unit activity, 1 unit lab.

**KIN 242. Movement Forms: Basic Dance (1)**

Introduction for the major student to the study of stylized dance (social, ethnic, ballet, jazz) as a human movement form. Serves as a base for continued study of the knowledge and applications of kinesiology.

**KIN 243/L. Movement Forms: Sport and Lab (1/1)**

*Corequisite:* KIN 243L. Introduction for the major student to the study of sport as a human movement form. Serves as a base for continued study of the knowledge and applications of kinesiology.

**KIN 244. Movement Forms: Dance (1)**

Introduction for the major student to the study of dance as a human movement form. Serves as a base for continued study of the knowledge and applications of kinesiology.

**KIN 250BD. Professional Activities: Badminton (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of badminton.

**KIN 250BS. Professional Activities: Baseball/Softball (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sports of baseball and softball.

**KIN 250BK. Professional Activities: Basketball (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of basketball.

**KIN 250DB. Professional Activities Dance: Ballet (1)**

*Prerequisite:* Kinesiology Major. Development of proficiency in basic and intermediate ballet skills. Appreciation and understanding of ballet as an art form.

**KIN 250DJ. Professional Activities Dance: Jazz (1)**

*Prerequisite:* Kinesiology Major. Development of proficiency in basic and intermediate skills of jazz dance, and an appreciation and understanding of jazz dance as an art form.

**KIN 250DS. Professional Activities Dance: Social (1)**

*Prerequisite:* Kinesiology Major. Development of proficiency in social dance skills, including ballroom, contra, ethnic and square. Appreciation and understanding of these dance forms and their place in contemporary, multi-ethnic society.

**KIN 250FB. Professional Activities: Football (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of football.

**KIN 250GO. Professional Activities: Golf (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of golf.

**KIN 250GY. Professional Activities: Gymnastics (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of gymnastics.

**KIN 250RQ. Professional Activities: Racquetball (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of racquetball.

**KIN 250SO. Professional Activities: Soccer (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of soccer.

**KIN 250SW. Professional Activities: Swimming (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of swimming.

**KIN 250TN. Professional Activities: Tennis (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of tennis.

**KIN 250TF. Professional Activities: Track and Field (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the various sports of track and field.

**KIN 250VB. Professional Activities: Volleyball (1)**

*Prerequisite:* Kinesiology Major. Development of skills and knowledge of concepts, rules and strategy in the sport of volleyball.

**KIN 271/L. Fundamental Movement, Gymnastics and Rhythms and Lab (3)**

*Prerequisite:* KIN 200 or 240. An introductory course in the fundamental movement patterns appropriate for the developing child in elementary physical education. This course is designed to develop competency in these fundamental movement patterns. Students will develop competency in knowledge and understanding of ways in which motor skills can be organized into developmentally appropriate progressions in a variety of movement settings, including educational games, gymnastics, rhythms and dance. Systematic observations of children during field experiences will be provided.

**KIN 272/L. Non-traditional Games and Activities and Lab (2/1)**

*Prerequisite:* KIN 200 or 240. *Recommended Preparatory:* KIN 201/L. Students will be introduced to a variety of non-traditional games and activities that include team challenges, problem-solving activities and cooperative games. Students will actively explore the impact of non-traditional games and activities for the K-12 setting.

**KIN 273/L. Analysis and Application of Games and Sport and Lab (2/1)**

*Prerequisites:* KIN 200 or 240. *Recommended Preparatory:* KIN 201/L. This course is designed to facilitate enhanced performance and analysis of sport/game skills through a tactical understanding of a variety of invasion (e.g., basketball, soccer, lacrosse, football, speedball, ultimate Frisbee, hockey), net ball (e.g., volleyball, badminton, pickleball) and target games (e.g., bocce, golf, Frisbee golf).

**KIN 275. Musculoskeletal Foundations of Human Movement (3)**

*Prerequisite:* BIOL 101. Comprehensive introduction to the human skeletal, muscular, nervous and cardiorespiratory systems, with emphasis on how these systems are involved in the production, control and modification of human movement.

**KIN 296A-Z. Experimental Topics Courses in Kinesiology (1-3)**

Selected topics in kinesiology with course content to be determined.

**Upper Division****KIN 300. Foundations and Analysis of Human Movement (3)**

*Prerequisites:* BIOL 211, 212. Examination of anatomical and neuromechanical concepts relevant to human movement analysis and muscular control of movement. Application of functional anatomy to fundamental movements and select movement forms in exercise, sport and dance, emphasizing movement analysis across the lifespan and across a full range of abilities.

**KIN 302. Measurement and Evaluation in Kinesiology (3)**

Study of measurement and statistical theory applied to data from tests common to exercise, sport and dance.

**KIN 304. Dance and the Child (1)**

*Prerequisites:* KIN 120/L; *Restricted to students in the ITEP Freshman Option.* Provides students the opportunity to revisit dance (creative, multi-cultural and international dance forms) and apply their knowledge of this area to working with children. Students extend and integrate their knowledge of dance to all of the visual and performing arts. Experiences include planning, teaching and assessing dance lessons in field-based settings. Students also engage in critical analysis and reflection to discover ways to guide children in 3 unique roles—as creators, performers and observers of dance as an art form.

**KIN 305. Historical and Philosophical Bases of Kinesiology (4)**

*Prerequisite:* KIN 200 or 240. Survey of the historical and philosophical bases of kinesiology.

**KIN 306. Socio-Psychological Aspects of Physical Activity (3)**

Examination of the socio-psychological setting for physical activity with an emphasis on social values, individual and collective behavior, and group interaction.

**KIN 310. Visualization and Sport (3)**

Examination of approaches for helping athletes understand, develop, and/or refine visual skills, mental skills and strategies essential for maximizing athletic performance.

**KIN 311/L. Adapted Therapeutic Exercise Principles and Applications and Lab (2/1)**

*Prerequisite:* KIN 201/L or 241. *Corequisite:* KIN 311L. Lecture and laboratory courses designed to introduce principles and applications in adapted therapeutic exercise. Lab: Hands-on experiences in working with individuals with various physical disabilities are provided under clinical supervision at the Center of Achievement.

**KIN 313/L. Adapted and Therapeutic Aquatic Exercise and Lab (2/1)**

*Prerequisite:* KIN 201/L or 241. *Corequisite:* KIN 313L. Lecture and lab courses designed to introduce a theoretical overview of the benefits of adapted and therapeutic aquatic exercise for individuals with physical limitations. Lab: Hands-on experiences in working with individuals with various physical disabilities are provided under clinical supervision at the Center of Achievement.

**KIN 314/L. Creative Dance for Children and Lab (2/1)**

*Corequisite:* KIN 314L. Study of the elements of time, space and energy as related to children's dance as an art form. Principles, techniques and exploration of directions of teaching dance to children. 2 hours lecture, 2 hours lab.

**KIN 315/L. Analysis and Application of Multi-Cultural Dance Forms for Children and Adolescents and Lab (2/1)**

*Prerequisites:* KIN 201/L, 242. *Corequisite:* 315/L. Analysis of basic to intermediate skills of multi-cultural dance, including ballroom, contra, ethnic, round and square. Students develop performance analysis skills and the ability to plan and conduct instructional activities in multi-cultural dance.

**KIN 316/L. Choreographic Forms and Lab (2/1)**

*Prerequisite:* KIN 236. *Corequisite:* KIN 316L. Study of preclassical, classic, modern, dramatic and group forms, with practical application in composition of solo and group dances. Lecture and lab taken concurrently. 2 hours lecture, 2 hours lab.

**KIN 317. Advanced Analysis of Dance Forms—Ballet, Jazz, Modern (3)**

*Prerequisite:* KIN 242. Analysis of basic to intermediate skills of ballet, jazz and modern dance. Organizing and conducting of dance classes, demonstrations, concerts and other special dance activities in a school setting. Students develop performance analysis skills and ability to plan and conduct instructional activities in ballet, jazz and modern dance.

**KIN 318. Intermediate Classical and Contemporary Ballet Technique (3-3)**

*Prerequisite:* KIN 139B or 141 or 144 or 244 or 496BAL or instructor consent. *Recommended Preparatory:* Previous formal dance training. An intermediate course for undergraduate dance specialists in classical and contemporary ballet technique. May be repeated to a maximum of 6 units in different semesters. 6 studio hours.

**KIN 319. Intermediate Modern Dance (3-3)**

*Prerequisite:* KIN 139A or 144A or instructor consent. An intermediate course for undergraduate dance specialists in modern dance technique. May be repeated to a maximum of 6 units in different semesters. 6 studio hours.

**KIN 325/L. Motor Development and Lab (3/1)**

*Prerequisites:* KIN 200, 201/L. *Corequisite:* KIN 325L. Study of age-related changes in motor skills, the processes that underlie these changes, and the factors that influence them.

**KIN 329/L. Motor Learning and Control and Lab (3/1)**

*Corequisite:* KIN 329L. Theoretical foundation for the learning and control of motor skills, with specific emphasis on the interpretation of this knowledge for the structuring of the learning environment. Lab experiences in the basic concepts of motor learning/control and an introduction to motor behavior research.

**KIN 333. Injury Prevention Clinical Reasoning (2)**

*Prerequisites:* KIN 338/L; *Open to Athletic Training students only.* *Corequisite:* KIN 341. Athletic Training students will practice clinical reasoning and differential diagnosis skills via case studies while integrating knowledge and skills from injury prevention, lower extremity evaluation and rehabilitation domains.

**KIN 334. Evaluation and Rehabilitation Clinical Reasoning (2)**

*Prerequisites:* KIN 333; *Open to Athletic Training students only.* *Corequisite:* KIN 342. Athletic Training students will practice clinical reasoning and differential diagnosis skills via case studies while integrating knowledge and skills from previous course work. Advanced functional activities/patterns also will be analyzed.

**KIN 335/L. Health Related Fitness in K-12 Physical Education and Lab (2/1)**

*Prerequisites:* KIN 272, KIN 273. *Corequisite:* KIN 335L. Course to facilitate physical education students' knowledge, skills, appreciation and confidence needed to lead school-aged children in the development of active, healthy lives.

**KIN 337/L. Prevention and Care of Athletic Injuries and Lab (3/1)**

*Prerequisites:* BIOL 211, 212. *Corequisite:* KIN 337L. An introductory course to the field of athletic training. The history of the athletic training profession, the role of the athletic trainer as part of the sports medicine team, pharmacology, nutrition, emergency management, risk management and injury assessment domains will be introduced. Lab: Injury-prevention principles and techniques for the application of protective taping/bracing, stretching, therapeutic exercise and testing and environmental conditions/illnesses.

**KIN 338/L. Lower Extremity Injury Evaluation Techniques and Lab (2/1)**

*Prerequisite:* KIN 337/L. *Corequisite:* KIN 338L. Athletic Training students will learn how to assess various lower extremity musculoskeletal injuries and conditions. Injury nomenclature, the injury evaluation process and specific body parts and injuries will be covered. Lab: Athletic Training students will develop proficiency in the individual lower extremity injury assessment techniques. Related topics that will be discussed will include protective, treatment and transportation techniques.

**KIN 339/L. Upper Extremity Injury Evaluation and Lab (2/1)**

*Prerequisite:* KIN 338/L. *Corequisite:* KIN 339L. Lecture course designed to develop Athletic Training students' upper extremity evaluation techniques. Lab: Athletic training students will develop proficiency in the individual upper extremity injury assessment techniques.

**KIN 340. Medical Documentation (1)**

*Prerequisites:* KIN 337/L; *Open to Athletic Training students only.* *Corequisite:* KIN 338/L. Introduction to injury evaluation documentation via classroom instruction and observation of physicians and allied health professionals. Documentation and assessment of risk management/ injury evaluation proficiencies through practical examination.

**KIN 341. Prevention and Evaluation Clinical Experience (1)**

*Prerequisites:* KIN 338/L; *Open to Athletic Training students only.* *Corequisite:* KIN 333. Prevention and lower extremity evaluation clinical experience. Athletic Training students practice, apply and synthesize knowledge and skills from the injury prevention and lower extremity injury evaluation domains with a physically active population, under the supervision of a certified athletic trainer. The required 10 hours per week assimilates Athletic Training students into the profession.

**KIN 342. Rehabilitation and Evaluation Clinical Experience (1)**

*Prerequisites:* KIN 341; *Open to Athletic Training students only.* *Corequisite:* KIN 334. Rehabilitation and upper extremity injury evaluation clinical experience. Athletic Training students practice, apply and synthesize knowledge and skills from the rehabilitation and upper extremity injury evaluation domains with a physically active population, under the supervision of a certified athletic trainer. The required 10 hours per week assimilates Athletic Training students into the profession. Open to Athletic Training students only.

**KIN 345/L. Biomechanics and Lab (3/1)**

*Prerequisite:* KIN 300. *Corequisite:* KIN 345L. Analysis of the ways in which anatomical makeup and mechanical laws govern the mechanics of human motion. Lab experiments designed to provide practical demonstration of mechanical laws and structured learning of qualitative and quantitative procedures for analyzing human motion.

**KIN 346/L. Physiology of Exercise and Lab (3/1)**

*Prerequisite:* BIOL 281; KIN 201/L or 241. *Corequisite:* KIN 346L. Effects of physical activity on the human physiological processes and of the physiological aspects of skill, endurance, fatigue, training and other phenomena related to physical performance.

**KIN 347. Introduction to Adapted Physical Education (3)**

Study of common disabilities and deviations in growth, development and motor function in students, including the role played by all physical educators in accommodating special needs students.

**KIN 349. General Medical Conditions (3)**

*Prerequisites:* KIN 337/L; *Open to Athletic Training students only.* Will provide students with the knowledge and skills to assess sensory and motor function related to spine injuries, handle crisis situations, and recognize systemic diseases in patients who are physically active. Pathology of the systems of the body will be covered.

**KIN 371/L. Physical Education Content Development for Children and Lab (2/1)**

*Prerequisite:* KIN 271/L. *Not available for credit to students who have completed KIN 470/L.* Content, methodology, materials and equipment central to the planning, implementation and evaluation of developmental physical activity programs for children. Lab provides observation, active participation and practical experiences in activity programs for children, with emphasis on elementary-school physical education.

**KIN 380/L. Perspectives of Dance and Lab (2/1)**

*Corequisite:* KIN 380L. History, aesthetics, performance forms, musical forms, cultural and racial heritages, and contemporary directions of dance in education and art. Dance is examined as a performing art, ritual, social/recreational activity and subject for scholarly investigation and analysis. Students participate in dance techniques related to content presented in the classroom. (Available for General Education, Arts and Humanities.)

**KIN 385. Women in Sport (3)**

Survey of women's past and present involvement with sport. Examines the social, cultural and developmental implications of sport participation. (Available for General Education, Comparative Cultural Studies.)

**KIN 396A-Z. Experimental Topics Courses in Kinesiology (1-3)**

Experimental courses in kinesiology with course content to be determined.

**KIN 402/L. Computer Applications in Kinesiology and Lab (2/1)**

*Prerequisite:* KIN 302. *Corequisite:* KIN 402L. Significance of the computer in kinesiology. Examination and analysis of various types of software written for exercise science, physical education and athletics. Application of computer uses for skill and fitness testing in both lab and school settings. Lab: Practical application of micro-computer programs in kinesiology.

**KIN 403. Measurement and Evaluation Lab (1)**

*Prerequisite:* KIN 302. Application of measurement techniques for exercise sports, games and dance.

**KIN 407. Sport, Culture and Society (3)**

*Prerequisite:* KIN 306. Study of the role, meaning and use of American sports, from colonial times to the present. Examination of the effects of forces that influence sports in this society and the status of international sports, including the role of U.S. factors affecting sport at the international level and future directions.

**KIN 408. The Olympic Games (3)**

*Prerequisite:* KIN 305. Study of sport through the perspective of the ancient and modern Olympic Games from a historical and philosophical point of view.

**KIN 409. Advanced Sport Psychology (3)**

*Prerequisites:* Score of 8 or better on Upper Division Writing Proficiency Exam; Not available to students who have taken PSY 409. *Recommended Preparatory:* KIN 306 and/or PSY 150. Addresses the evolution of sport psychology as a science, including the psychological variables associated with successful performance in sport and physical activity settings. Available for graduate credit with consent of student's graduate advisor. KIN Majors receive Upper Division elective credit toward KIN Degree in Options that allow electives. (Cross listed with PSY 409.)

**KIN 415. Medical Aspects of Sport and Related Injuries (3)**

*Prerequisite:* KIN 345. Review of selected medical aspects of sport taught by guest medical experts from community hospitals and private practice.

**KIN 417. Theoretical and Technical Aspects of Resistance Exercise (2)**

*Prerequisites:* KIN 345/L, 346/L. *Corequisite:* KIN 417L. A course designed to prepare students to plan, develop and implement resistance-training programs. Topics included will pertain to muscular strength and endurance conditioning, physiology of strength conditioning, muscular strength, testing and evaluation and organization/administration of strength-training programs. Students who complete this course are prepared to sit for the Certified Strength and Conditioning Specialist Examination.

**KIN 417L. Theoretical and Technical Aspects of Resistance Training Laboratory (1)**

*Prerequisites:* KIN 345/L, 346/L. *Corequisite:* KIN 417. A hands-on lab in which students will perform various resistance-training techniques that will pertain to muscular strength and endurance conditioning, physiology of strength conditioning, muscular strength testing and evaluation and organization/administration of strength-training programs. Students who complete this course are prepared to sit for the Certified Strength and Conditioning Specialist Examination.

**KIN 418. Advanced Classical and Contemporary Ballet Technique (3-3)**

*Prerequisite:* KIN 318 or 496BAL or instructor consent. *Recommended Preparatory:* Previous formal dance training. A course for students interested in a dance specialty. Class is designed at the advanced-skill level in ballet technique. May be repeated for a maximum of 6 units in different semesters. 6 studio hours per week.

**KIN 419. Advanced Modern Dance (3-3)**

An advanced course for undergraduate dance specialists in modern dance technique. May be repeated to a maximum of 6 units in different semesters. 6 studio hours per week.

**KIN 420. Coaching Competitive Sports (3)**

*Prerequisite:* Upper Division standing. Psychological, sociological and philosophical perspectives of coaching are examined as these relate to motivation, discipline and interpersonal relations in competitive sports programs.

**KIN 426. Choreography (3)**

*KIN 316 or instructor consent.* View of dance composition, including movement sources, rhythmic spatial and dynamic techniques of organization; thematic development and dramatic intent. Composition of solo and small-group dances.

**KIN 427. Dance Production (3)**

*KIN 316 or instructor consent.* Study of techniques and materials in dance as applied to music analysis and advanced individual and group choreography for performance.

**KIN 428. Aesthetics of Human Movement (3)**

Examines historical and contemporary physical activity movement forms (such as sport, dance and exercise) and the human body as aesthetic expressions and culturally symbolic representations.

**KIN 429. Perceptual Motor Problems of the Atypical Student (3)**

*Prerequisites:* KIN 329, 347. Descriptive analysis of motor characteristics of the atypical student, including theories of specialized instruction, evaluation and prescribing and implementing instruction in remedial programs. Practicum included.

**KIN 436. Applied Exercise and Sports Physiology (3)**

*Prerequisite:* KIN 346 with a grade of "C-" or better. Physiological conditioning concepts, including the effects of acute and chronic bouts of exercise training, for the enhancement of health objectives and improvement of sports performance. Regular written assignments required.

**KIN 437. Athletic Training Administration (3)**

*Prerequisite:* KIN 339/L. Athletic Training students will learn techniques and strategies required to manage athletic training programs in the professional world. Professional development and acute care of injuries also will be addressed.

**KIN 441. Administration and Treatment Clinical Experience (1)**

*Prerequisites:* KIN 342; Open to Athletic Training students only. *Corequisite:* KIN 443. Athletic Training students practice, apply and synthesize knowledge and skills from the administrative, modalities and general medical domains with a physically active population under the supervision of a certified athletic trainer. The required 20 hours per week will assimilate Athletic Training students into the profession.

**KIN 442. Advanced Clinical Experience Techniques (1)**

*Prerequisites:* KIN 441; Open to Athletic Training students only. *Corequisite:* KIN 444. Athletic Training students practice, apply and synthesize knowledge and skills from the pharmacology and acute-care domains with a physically active population, under the supervision of a certified athletic trainer. The required 15 hours per week assimilates Athletic Training students into the profession.

**KIN 443. Advanced Activities Clinical Reasoning (2)**

*Prerequisites:* KIN 334; Open to Athletic Training students only. *Corequisite:* KIN 441. Athletic Training students will develop clinical reasoning and differential diagnosis skills via case studies, while integrating knowledge and skills from injury prevention, injury evaluation, general medical, rehabilitation, modalities and administrative domains.

**KIN 444. Professional Preparation (2)**

*Prerequisites:* KIN 443; *Open to Athletic Training students only. Corequisite:* KIN 442. Athletic Training students will prepare for the Board of Certification Examination, become involved in the community and promote the athletic training profession through directed activities.

**KIN 445. Quantitative Biomechanics (3)**

*Prerequisites:* KIN 345 with a grade of "C-" or better; MATH 104 or 105. Evaluation and interpretation of motor skill performance on the basis of applied mechanics.

**KIN 446/L. Research in Exercise Physiology and Lab (2/1)**

*Prerequisite:* KIN 346 with a grade of "C-" or better. *Corequisite:* KIN 446L. Explores advanced theory of exercise physiology, as well as concepts and techniques of research. Lab experience provides competency in the application of biomedical instrumentation to exercise physiology research.

**KIN 447. Implementation and Instruction of Adapted Physical Education Programs (3)**

*Prerequisite:* KIN 347. Study of the principles used in assessment of students with disability and organizing, implementing and instructing Adapted Physical Education Programs.

**KIN 448. Adapted Therapeutic Exercise: Assessment and Design (2)**

*Prerequisite:* KIN 311/L. *Corequisite:* KIN 448L. Advanced study of adapted physical activity and therapeutic exercise, with emphases on assessment, program designing and functional motor skill training. Concurrent laboratory class is designed to provide clinical experiences in Adapted Therapeutic Exercise Program working with individuals with various physical disabilities under clinical supervision at the Center of Achievement.

**KIN 448L. Adapted Therapeutic Exercise: Assessment and Design Lab (1)**

*Prerequisite:* KIN 311/L. *Corequisite:* KIN 448. Designed to provide clinical experiences in Adapted Therapeutic Exercise Program working with individuals with various physical disabilities under clinical supervision at the Center of Achievement. Clinical lab experience has emphases on assessment, program design and functional motor skill training.

**KIN 449. Physical Education for Students with Physical Disability (3)**

*Prerequisite:* KIN 347. Comprehensive study of the etiology of physically disabling conditions, including learning characteristics, assessment, designing and instruction of appropriate physical education experiences. Practicum experience.

**KIN 451. Adapted Aquatic Therapeutic Exercise: Assessment, Evaluation and Program Design (2)**

*Recommended Preparatory:* KIN 311/L, 313/L. *Corequisite:* KIN 451L. This course is designed to introduce intermediate/advanced knowledge in adapted aquatic therapeutic exercise. Assessment and evaluation processes to be learned include observations, screenings and various measurement instruments for the purpose of designing exercise programs for individuals and groups with special needs.

**KIN 451L. Adapted Aquatic Therapeutic Exercise: Assessment, Evaluation and Program Design Lab (1)**

*Corequisite:* KIN 451. *Recommended Preparatory:* KIN 311/L, 313/L. This course is designed to introduce intermediate/advanced knowledge in adapted aquatic therapeutic exercise. Assessment and evaluation processes to be learned include observations, screenings and various measurement instruments for the purpose of designing exercise programs for individuals and groups with special needs.

**KIN 456. Exercise Program Design (3)**

*Prerequisite:* KIN 346 with a grade of "C-" or better. This course will examine the application of exercise guidelines for adults and children based on the standards of the American Heart Association and the American

College of Sports Medicine. Additionally, this course will review field tests for determination of muscular strength and endurance, flexibility, body composition and aerobic endurance. This course will include formal lectures, group discussions and presentations. Available for graduate credit.

**KIN 457/L. Therapeutic Modalities for Sports Medicine and Lab (2/1)**

*Prerequisite:* KIN 338/L. *Corequisite:* KIN 457. Laboratory experiences designed to provide competency in the application of selected therapeutic agents.

**KIN 462/L. Physical Education Content Development for Adolescents and Lab (2/1)**

*Prerequisite:* KIN 472/L. *Corequisite:* KIN 462L. Course provides Physical Education Option students with early field and university-based experiences required to develop and apply a variety of physical education content for adolescents in team, individual and activity settings.

**KIN 467/L. Therapeutic Exercise Techniques and Lab (2/1)**

*Prerequisite:* KIN 337/L. *Corequisite:* KIN 467L. Students will develop therapeutic exercise techniques and begin to formulate rehabilitation plans. Lab: Laboratory experiences designed to provide proficiency in selecting appropriate therapeutic exercises to design rehabilitation programs for various orthopedic injuries.

**KIN 470/L. Physical Education for Children and Lab (2/1)**

*Corequisite:* KIN 470L. *Not available for credit for Kinesiology majors.* Focuses on the growing/moving/learning elementary-age child and on purposes, content, procedures, materials and equipment central to elementary school physical education. Lab: Observation and lab experience in elementary school physical education.

**KIN 472/L. Learner Assessment and Technology in K-12 Physical Education and Lab (2/1)**

*Prerequisite:* KIN 335/L. *Corequisite:* KIN 472L. A conceptual and practical understanding of alternative and traditional assessment of student learning in school physical education. Emphasis will be on formal and informal assessment and technological strategies that enhance learning, assess performance, provide feedback and communicate progress.

**KIN 476. Musculoskeletal Biomechanics and Injury (3)**

*Prerequisite:* KIN 345 or *instructor consent.* Anatomical, physiological and mechanical characteristics of human musculoskeletal tissues and their responses to mechanical loading. Detailed examination of injury mechanisms and their mechanical correlates.

**KIN 479. Perception and Movement (3)**

*Prerequisite:* KIN 325/L or 329/L. Integrated approach into the nature of human movement across the lifespan, with special emphasis on examining the relation between perception and movement as a function of the environment in which one lives.

**KIN 494A-C. Academic Internship in Kinesiology (1-3)**

Academic internship course. On- and off-campus study and research in selected areas of kinesiology with course content to be determined. (See subtitle in appropriate Schedule of Classes.) (Credit/No Credit only)

**KIN 496A-Z. Experimental Topics Courses in Kinesiology (1-3)**

Experimental courses in kinesiology with course content to be determined.

**KIN 498A-Z. Supervised Individual Projects (1-3)**

Off-campus study and research in selected areas of kinesiology with course content to be determined. (Credit/No Credit only)

**KIN 498LS. Field Experience in Physical Education for Elementary School Age Children (2)**

*Prerequisites:* KIN 314, 470/L. *Restricted to Liberal Studies majors with a Physical Education Concentration.* Field experience giving the prospec-

tive elementary school teacher an opportunity to develop understanding and skills in observing children's motor skill behavior and in evaluating a comprehensive elementary school physical education program. Requires completion of 45 hours of observation/participation in assigned schools. Regular class meetings provide guidance and the opportunity to discuss the off-campus experiences. (Credit/No Credit only)

**KIN 498WC. Dance Concert Modes (3)**

*Prerequisite: KIN 316 or instructor consent.* Analysis and application of advanced choreographic structures to compose individual or group choreography for dance concert productions Available to graduate students.

**KIN 499A-C. Independent Study (1-3)**

## Graduate

**KIN 503. Program Planning in Physical Education (3)**

*Prerequisite: Graduate standing.* Study of theory of physical education curriculum development. Analysis of the foundations, background, philosophy and current types of physical education instructional programs at all school levels, as well as methods of planning functional physical education curricula.

**KIN 511. Perceptual-Motor Development of Students with Disabilities (3)**

*Prerequisite: KIN 347 or instructor consent.* Descriptive analysis of motor characteristics of students with disabilities, including theories of specialized instruction, evaluation, and prescribing and implementing instruction in adapted physical education/activity programs.

**KIN 512. Curriculum Development and Instruction in Adapted Physical Education (3)**

*Prerequisite: KIN 347 or instructor consent.* Study of curriculum development and instructional principles used in organizing, implementing and instructing students with disabilities in various physical education instructional settings.

**KIN 513/L. Adapted Therapeutic Exercise: Assessment and Design and Lab (2/1)**

*Prerequisite: KIN 311 or admission to APE Added-Authorization Program or instructor consent. Corequisite: KIN 513L.* This course is designed to teach advanced knowledge and techniques in adapted therapeutic exercise. The course provides opportunities for students to integrate various aspects of kinesiology, including anatomical, physiological, biomechanical, pedagogical and socio-psychological knowledge as related to adapted exercise programs. Students will learn specific clinical assessment techniques, such as manual muscle test, goniometry, gait analysis and balance assessment. Students also will learn how to design individualized exercise programs for individuals with disabilities. In addition to the lecture class, all students will have hands-on experiences performing clinical assessment and designing a program for a participant with a physical disability in the lab class.

**KIN 514. Physical Education and Sports for Students with Physical Disabilities (3)**

*Prerequisite: KIN 347 or instructor consent.* Comprehensive study of etiology of orthopedic impairments; learning characteristics; and assessment, design and instruction of appropriate physical education and athletics experiences for students with physical disabilities.

**KIN 520. Seminar in Coaching the Modern Athlete (3)**

*Prerequisite: KIN 420.* Examines different teaching and coaching personalities, styles and communication processes as they relate to interpersonal relations, motivation, discipline, self expression, competition, cooperation and problems associated with athletic coaching for different age groups and levels of competition.

**KIN 526/L. Teaching Effectiveness in Kinesiology and Lab (2/1)**

*Prerequisite: KIN 329, 345, 346 or instructor consent. Corequisite: KIN 526L.* Seminar that develops knowledge and skills of teaching in kinesiology-based disciplines in higher education. Study of the research literature in pedagogy, with a primary focus on the teaching of motor activities and lab courses. Students examine instructional strategies and develop skill in the use of systematic observation. 2 hours seminar, 2 hours lab (arranged) per week.

**KIN 547. Physical Education for Students with Mental Retardation and Multiple Disabilities (3)**

*Prerequisites: KIN 347, 429.* Design and instruction of physical education programs for students with mental retardation and multiple disabilities. Includes etiology, assessment, motor learning and instructional principles and curriculum models applicable to the design of these programs.

**KIN 560. Clinical EKG and Exercise Stress Testing (3)**

*Prerequisite: KIN 446/L.* Course in electrocardiography that includes detailed evaluation of basic EKG arrhythmias and their relationship to exercise testing and training.

**KIN 566. Seminar in Aging and Environmental Aspects of Exercise (3)**

Advanced study of physiological responses to exercise as a function of aging and environmental processes.

**KIN 575/L. Biomechanical Analysis Techniques and Lab (2/1)**

*Prerequisites: KIN 345 or instructor consent. Corequisite: KIN 575L.* Techniques for collecting and analyzing quantitative human movement data from high-speed film, video, dynamography and electromyography, including theories supporting 3-dimensional analysis and data-smoothing methodologies. Regular writing assignments required. Lab experience provides competency in the collection and interpretation of both kinematic and kinetic data for human movement research applications.

**KIN 579. Advanced Studies in Human Motor Behavior (3)**

*Prerequisites: KIN 325 or 329; Acceptance into the Kinesiology M.S. Program or consent of instructor.* An in-depth investigation into the theories, principles and research in motor development, motor learning and motor control, with emphasis on describing and explaining changes in movement patterns across the lifespan.

**KIN 600. Administration and Supervision of Physical Education (3)**

Study of the history, philosophy, principles and techniques of the administration and supervision of physical education on all school and college levels.

**KIN 602. Seminar in Current Issues in Kinesiology (3)**

Intensive study of current issues and problems in physical education through philosophical examination and analysis of literature and research findings.

**KIN 603. Seminar in Pedagogy in Kinesiology (3)**

Seminar in current issues and developments in physical education pedagogy through examination and analysis of literature and research findings.

**KIN 605. Research Methods and Design (3)**

*Prerequisite: KIN 302 or MATH 140.* Study of various types of research used in kinesiology and techniques employed in collecting, classifying, interpreting and presenting data.

**KIN 606. Seminar in Social Psychology of Sport (3)**

*Prerequisite:* KIN 306. Advanced study of the influence of social-psychological variables as they relate to motor performance. Topics may include aggression, attitude formation and change, arousal and anxiety, achievement motivation, attribution theory, social facilitation, social reinforcement, observational learning and the competition process.

**KIN 607. Seminar in Sport History (3)**

*Prerequisite:* KIN 305. Significant trends and problems that affected the growth and present structure of sport from the primitive through the modern period.

**KIN 608. Seminar in Adapted Physical Education (3)**

*Prerequisite:* KIN 347 or instructor consent. This course is designed to study contemporary issues related to adapted physical education and research best practice models to provide physical education services to students with intellectual disabilities, autism spectrum disorder, emotional and behavioral disorders, severe disabilities and/or multiple disabilities.

**KIN 610. Quantitative Analysis of Research in Kinesiology (3)**

*Prerequisite:* KIN 302. Study of advanced statistical methods for quantitative analysis of research data in kinesiology, including computer analysis.

**KIN 612. Qualitative Research Design (3)**

This course will provide an intensive study of qualitative research designs through critical examination of the research literature. The course content includes an intensive review of the issues surrounding measurement, data analysis, interpretation and ethical aspects of conducting qualitative research.

**KIN 618. Seminar in Instructional Design in Physical Education (3)**

Seminar that develops the knowledge and skills of instructional design as it relates to physical education. Study of the theories of curriculum, instruction and assessment in the design cycle. Students develop multimedia and hypermedia learning materials.

**KIN 619. Seminar in Dance Science (3)**

Graduate seminar in dance science, with particular focus on the application of functional anatomy, motor learning and prevention of dance injuries as it applies to the training of dancers.

**KIN 626. Philosophic Development of Physical Education (3)**

*Prerequisite:* KIN 401. Analysis and synthesis of the knowledge and interpretation of the development of philosophic schools and variants in the thought and practice of physical education.

**KIN 642A-C. Directed Research, Physiology of Exercise (1-3)**

*Prerequisite:* KIN 446. Library and lab research techniques employed in the assessment of human performance capacity. Emphasis primarily on physiological measurements of metabolic functions in humans.

**KIN 643. Dance Performance Analysis (3)**

*Prerequisite:* Acceptance into Kinesiology M.S. Program or instructor consent. Dance performance analysis incorporates a Graduate Concert of new choreographic works, plus active scientific research involving kinesiology as it applies to dance performance. During the course students will acquire, develop and incorporate skills necessary for creating a new work to be produced and performed in a theatre setting plus acquire knowledge and understanding about how to design and conduct research focused on dance performance. (3 units/3 hours)

**KIN 645. Seminar in Biomechanics (3)**

*Prerequisite:* KIN 345 or instructor consent. Analysis of current and classical research literature related to human biomechanics. Emphasis on sport and ergonomic applications.

**KIN 646. Seminar in Exercise Physiology (3)**

*Prerequisite:* KIN 446 or instructor consent. Advanced human physiological variability, and potentialities and requirements for muscular activity.

**KIN 647. Seminar in Adapted Physical Activity (3)**

*Prerequisites:* KIN 605, 610. An advanced study of theory and literature regarding adapted physical activity for individuals with disabilities. This course is designed to develop in-depth knowledge by integrating the sub-disciplines of kinesiology as they relate to adapted physical activity on land and in the water. Specific topics include pedagogical, psycho-social, physiological and biomechanical aspects of adapted physical activity.

**KIN 652. Seminar in Exercise Physiology of Skeletal Muscle (3)**

*Prerequisites:* KIN 446/L; CHEM 235. Study of the physiological, anatomical, morphological and biochemical adaptations of skeletal muscle to exercise training.

**KIN 654. Exercise Tolerance Testing and Prescription (3)**

*Prerequisites:* KIN 456, 446/L. Modern concepts of wellness and the application of exercise prescription principles to healthy and at-risk populations in accordance with the guidelines of American College of Sports Medicine and the American Heart Association.

**KIN 656. Exercise Bases of Cardiac Rehabilitation (3)**

*Prerequisites:* KIN 446. Study of exercise and related program components in rehabilitation of coronary heart disease. Emphasis on role of the exercise physiologist in the integrated clinical team approach.

**KIN 679. Seminar in Motor Behavior (3)**

*Prerequisites:* KIN 325 or 329 and acceptance into the Kinesiology M.S. program or consent of instructor. Study and seminar discussion of selected topics in motor behavior.

**KIN 694. Advanced Internship in Adapted Physical Education (3)**

*Prerequisites:* Preliminary Education Specialist Credential, Preliminary Multiple Subject Credential, or Preliminary Single Subject Physical Education Credential; KIN 511, 512, 513/L, 514; APE Program Director consent. Advanced teaching internship for candidates in the Adapted Physical Education Added-Authorization Program. Clinical supervision is provided through credentialed cooperating teachers/site supervisors and through analysis of videos by University supervisor and online reflections. Completion of Adapted Physical Education Professional Portfolio is required to receive credit.

**KIN 695A-Z. Experimental Topics Courses (1-3)**

*Prerequisite:* Advisor or instructor consent. Specialized topics from a concentrated field of current interest presented at an advanced level.

**KIN 696A-C. Directed Graduate Research (1-3)**

*Prerequisites:* Classified status; Graduate Coordinator consent. Special graduate studies in kinesiology.

**KIN 698A-C. Thesis or Graduate Project (1-3)**

*Prerequisites:* Classified status; Thesis/Project Chair consent. May be repeated, but not more than 6 units may be included among the 30 total units required for the M.S. Degree.

**KIN 699A-C. Independent Study (1-3)**

*Prerequisite:* Graduate coordinator consent. Consists of a project designed to meet a highly specialized graduate need. Project selected in conference with a faculty sponsor. Progress meetings are held regularly until the end of the semester.

# Knowledge Management

Tseng College

**Director:** Jennifer L. Kalfsbeek-Goetz

**Manager:** Barbra L. Frye

**Faculty Coordinators:** Allan Crawford and Tracey Wik

**Bookstore Complex (BC) 202**

**(818)-677-6404**

**tsengcollege.csun.edu/kmdl**

## Faculty

Cynthia Cheng-Correia, Allan G. Crawford, Abe Feinberg, Kent A. Greenes, JR Growney, Karen K. Johnson, Paul Krivonos, Mike Prevou, Kiho Sohn, Tracey Wik, Melanie Stallings Williams, Mary S. Woodley

## Program

Graduate:

**Master of Knowledge Management (MKM)\***

*\*Mode of instruction for this program is online distance learning only.*

## Careers

Graduates from our MKM Program will be very successful in securing choice knowledge-management roles. A significant percentage of the initial cohort students are being sponsored by their employers in order to prepare them for more advanced work. The sponsoring organizations are from a variety of industries, including aerospace, biotechnology, financial services, energy production, engineering and manufacturing, as well as from branches of the U.S. government.

Career opportunities for MKM graduates are similarly broad. As companies deal with breakthroughs in technology, accelerating retirements of senior employees and the increased challenge of globalization—all of which change the nature of organizations—knowledge management becomes ever more crucial to developing new and effective processes. Because knowledge management is an interdisciplinary field, the MKM Degree Program prepares students to work across traditional departmental boundaries to collaborate with a variety of important stakeholders in organizational settings.

## Academic Advisement

Initial application advisement is carried out by the Program Manager. Once admitted into the MKM Program, student advisement is carried out by the Program's Faculty Coordinator and is available throughout the year online.

## Student Learning Outcomes of the Graduate Program

Graduates of the CSUN Master of Knowledge Management Program will:

1. Acquire an in-depth understanding of past and present knowledge-management practices in the organizational context and have an ability to anticipate future trends in the KM field.
2. Acquire an understanding of how knowledge is distinguished from information.
3. Understand how people and organizations use and interpret knowledge.
4. Understand how organizations effectively identify, acquire, capture, organize, share, use, reuse and leverage (tacit and explicit) knowledge to achieve goals.
5. Demonstrate how to develop and implement knowledge-management strategies, systems and communities of practice in the organizational context.
6. Demonstrate an understanding of how knowledge-management technologies are applied in an organizational context.

7. Understand how the commitment to the creation, preservation, retention, access and advancement of knowledge is critical to an organization's success and longevity.
8. Acquire and demonstrate the analytical, strategic-thinking and communication skills that are essential to creating and maintaining a successful KM program.

## Requirements for Admission to the Program

*Students must provide verification of the following:*

1. At least 1 of 3 degree requirements:
  - a. A Bachelor's Degree from an accredited college or university with a GPA of 3.0 or higher; or
  - b. A Bachelor's Degree from an accredited college or university with a GPA of 2.5-2.99 and a passing score (50th percentile or higher) in the verbal section of the Graduate Record Examination (GRE); or
  - c. A Master's Degree from an accredited college or university.
2. Successful completion of a university-level course in Statistical Probability and Interpretation, or comparable on-the-job training.
3. 2 to 5 years (or more) work experience in an organizational setting.
4. Appropriate computer equipment and software that meets or exceeds the minimum technical requirements listed on the program site at <http://tsengcollege.csun.edu/kmdl/requirements.htm>
5. For International Students: If you do not have a Bachelor's Degree from a post-secondary institution where English is the principal language of instruction, you will need to take the Test of English as a Foreign Language (TOEFL). A minimum score of 550 on the paper exam or 213 on the computer-based exam is required for application.
6. A short phone interview may be conducted with each applicant to clarify application information.

## Special requirements

All students in the MKM Program must attain Classified status. Students must apply for Departmental Classification by filing a formal program. This must be accomplished prior to completing 12 units of credit. All students must obtain a passing score on the Upper Division Writing Proficiency Exam (UDWPE). The Program Manager will serve as a resource to assist all admitted students in completing their classification forms and the UDWPE.

## Graduation Requirements

To earn a Masters of Knowledge Management, students must:

1. Maintain a GPA of 3.0 or better throughout the Program;
2. Attain a passing score on the Upper Division Writing Proficiency Exam;
3. Complete each required course with a grade of "B" or higher; and
4. Apply to graduate by submitting the Master's Degree and Diploma Application to Admissions and Records (students will receive assistance with this from the Program Manager).

To see the full list of requirements for applying to the Program, visit [http://tsengcollege.csun.edu/kmdl/apply\\_now.htm](http://tsengcollege.csun.edu/kmdl/apply_now.htm)

## Course List

### **KM 610. The Information and Knowledge Professional in the Information World (3)**

This course provides an introduction to knowledge management (KM) as practiced today. Real-world situations will be used wherever practical. The topics covered will include KM uses and challenges, history of KM, KM components, KM collaboration techniques, KM benefits and success measurements, and the capture, preservation and use of explicit knowledge. Students will be organized into virtual teams to accomplish several tasks. Weekly chats will be held and regular electronic interaction with the instructor, the teams and the class will enable an enriching group experience. The culminating class effort will be the design of a successful KM system using the material covered in the course.

### **KM 611. Policy, Law and Economics of Knowledge Management (3)**

How can you manage the collection, storage and effective use of information? The legal and economic environment governing the acquisition and use of data is essential knowledge for any manager. Learn how to identify the key issues affecting the acquisition and use of information. The course will outline the legal rules governing intellectual property and the use of information along with ethical and public policy aspects of managing knowledge. Students will develop their abilities to identify and analyze issues while improving research and communication skills, and will have access to the premier databases of legal, economic and scholarly information. This course will give students the foundation you need to work with service providers, experts, clients and the public.

### **KM 620. Information Organization in the Knowledge Management Environment (3)**

This course studies the constitution, structure and form of information and knowledge, including traditional principles of information and knowledge organization, as well as special metadata standards for non-traditional materials, data mining, storage and retrieval, formats, strategies and software. All media types will be covered, including audio, video, electronic and print.

### **KM 630. Information Needs and Learning for Knowledge Workers (3)**

Designed from the point-of-view of the practitioner, this course will explore what is required to be viewed as a strategic partner in creating a collaborative environment where knowledge is shared and created. The course will offer knowledge managers the tools, concepts, principles and techniques needed to create a learning organization. Students will discuss the potential roadblocks and unintended consequences of designing and implementing a knowledge-management strategy within an organization and what the organization can learn along the way. The course also explores the theoretical and practical sides of knowledge and how its creation, access and protection is critical to an organization's success and longevity. In addition, students will discuss adult learning theory and how to structure learning so that it sticks and has impact.

### **KM 631. Management of Information and Knowledge Services (3)**

This course builds on what students have learned in your previous courses, helping develop the knowledge and skills needed to become an effective leader and manager in a knowledge-based organization. Emphasis will be placed on aligning with corporate strategy, business planning, leading and motivating staff, developing and using metrics, delivering quality products through effective project management, and managing in times of change. Students will use and apply knowledge management tools and techniques to help you accomplish those tasks more effectively.

### **KM 632. The Knowledge Management Business (3)**

This course will provide a practical hands-on approach to setting up a KM business or KM internal consulting practice. Students will discuss the value, creation and execution of a knowledge-management business (such as an internal knowledge management team in an organizational department, or an external commercial KM business). Students will acquire, practice and demonstrate the skills necessary to start up a KM practice, determine the knowledge management needs of organizations, and develop and implement a successful KM program as a service to internal or external clients. Emphasis is placed on practical methods and the importance of culture and behavior in delivering meaningful business results. This course also addresses at a high level the structural and legal issues relating to business formation. Through case studies, business development exercises and the exploration of potential service offerings, students will be able to develop a unique KM business model.

### **KM 633. Communication in the Knowledge Environment (3)**

This course explores the fundamentals of effective communication in knowledge environments, particularly in organizational settings. The curriculum examines collaboration, team-building, leadership, knowledge transfer, information overload, organizational culture and storytelling, and provides an overview of communication networks to enable students to gain skills in the transfer of knowledge. Students will gain expertise in how information and knowledge flow in the organizational context and an understanding of the dynamics involved in creating, changing and managing the sharing of knowledge.

### **KM 641. Information Access and Online Searching (3)**

The course explores the principles of information retrieval and introduces key sources for information navigation and display concepts. The course explains search strategies and skills for using both print and electronic sources, including algorithms for retrieval and mediated searching.

### **KM 642. Knowledge Management (3)**

This course continues the introduction to knowledge management (KM) following KM 610. Topics covered include KM uses and challenges, KM in systems thinking perspective, role of KM in organization, development of KM programs, tacit knowledge transfer techniques, and the relationship between KM and innovation. Students will be organized into virtual teams to accomplish several tasks. The culminating class effort will be the improvement of the KM system developed in KM 610, using the material covered in the course.

### **KM 643. Competitive Intelligence (3)**

This course presents both theoretical and practical coverage of the relationship between knowledge management and competitive intelligence (CI), and builds foundational skills for enhancing intelligence and competitiveness through KM. Topics and issues include KM functions and purposes throughout the intelligence business process, KM practices for key intelligence models, and KM in strategic and tactical intelligence support, as well as tools, ethics, cultures, management and other key considerations. Course content also encompasses protecting an organization's knowledge assets from vulnerabilities and threats from competition. Students will develop vital understanding and skills in KM

and CI through lectures, readings, case studies, practical exercises and class discussions. Within the focus of the course, students will have the opportunity to explore issues of individual professional interest and/or related to their current/recent work environments.

**KM 650. Knowledge Management Technologies (3)**

This course introduces the conceptual and practical elements for enabling knowledge management practices with technologies. This is not an IT course nor is it focused on information technology, but rather it is a course that helps knowledge management leaders understand what technology tools are available and how to select and apply specific technology tools to the practice of knowledge acquisition, organization, dissemination and collaboration. During KM 650, students also will become familiar with the capability and processes of “digital story telling” as a means of tacit knowledge transfer and professional development.

**KM 690. Capstone Experience (3)**

This course focuses on professional and career development for the new knowledge management professional. As part of the course, students will create a portfolio that includes a major project and report, a career plan and a professional resume. The project may be undertaken in cooperation with a KM-related organizational unit.

# Liberal Studies Program

## College of Humanities

Director: Michael Neubauer

Education (E) 100

(818) 677-3300

[www.csun.edu/liberalstudies](http://www.csun.edu/liberalstudies)

### Interdisciplinary Program

B.A., Liberal Studies

Minor in Russian

### The Major

The Liberal Studies Program is a broad undergraduate liberal arts major leading to the B.A. Degree. It is an interdisciplinary major with a balance of studies in the language arts, natural sciences, mathematics, social sciences, humanities, visual arts and performing arts. Courses are drawn from various Academic Departments throughout the University. The Liberal Studies major can prepare a student in the subject matter required for a Teaching Credential in elementary or special education (Teacher Preparation Options) or it can provide a general liberal arts degree (General Studies Option).

### Student Learning Outcomes of the Undergraduate Program

1. Students will acquire a breadth of knowledge across the range of disciplines included in the major and will pursue greater depth in their area of specialization.
2. Students will explore how knowledge across multiple disciplines can be connected.
3. Students will develop the ability to formulate their own goals for continued learning and inquiry based on a foundation of intellectual curiosity.
4. Students will understand and appreciate the positive value and essential role of diversity.
5. Students will be able to think critically and creatively.
6. Students will be able to write and speak clearly, coherently and thoughtfully.
7. Students will be able to read, understand and evaluate all forms of text. In addition, as described in the California Standards for the Teaching Profession, Liberal Studies ITEP teacher candidates working with K-12 students will be able to:
  1. Make subject matter comprehensible to students.
  2. Assess student learning.
  3. Engage and support students in learning.
  4. Plan instruction and design learning experiences for students.
  5. Create and maintain effective environments for student learning.
  6. Develop as professional educators.

### Teacher Preparation Options

Students interested in careers as elementary or special education teachers should select one of the Liberal Studies Teacher Preparation Option Programs. All provide a B.A. Degree in Liberal Studies, including preparation in the "multiple subjects" taught in self-contained classroom settings. Students in the Teacher Preparation Option Programs take courses in the language arts, natural sciences, mathematics, social sciences, humanities, visual and performing arts, human development, physical education and health. By the end of the Degree Program, students have a foundation of basic knowledge in all of these areas. Students pursuing the Teacher Preparation Option are not required to meet the University General Education and Title 5 requirements. By completing the Liberal Studies major, students are considered to have fulfilled those requirements.

There are 3 Teacher Preparation Options available: the Pre-Credential Option, Integrated Teacher Education Program (ITEP) Junior Option and Integrated Teacher Education Program (ITEP) Freshman Option.

The Pre-Credential Option provides a B.A. Degree in Liberal Studies only and is best suited for students who wish to enroll in a teaching credential program after they earn their Bachelor's Degree. This program requires 105 units of specified course work toward the B.A. Degree of 120 units. The Pre-Credential Option also is the gateway into the ITEP-Junior Option. In order to transition from the Pre-Credential Option to ITEP-Junior Option, students must gain admission to the CSUN Credential Program.

The ITEP-Junior Option is a program for college juniors who would like to complete their B.A. Degree and Preliminary Credential simultaneously. Students planning to join ITEP-Junior Option, should first complete most of their Lower Division Pre-Credential requirements and then gain admission into CSUN's Credential Program. ITEP-Junior Option students take professional methods courses that are blended and linked with subject matter courses to complete their Degree and Credential. The program can be completed on a full- or part-time basis. In the ITEP-Junior Option, a B.A. Degree and Preliminary Multiple Subject Credential can be earned in 132 units.

The ITEP-Freshman Option is a program for entering freshmen who are ready for college-level courses in mathematics and writing. It is designed for freshmen who are certain about their career choice when they begin college. ITEP-Freshman Option students remain with their entering cohort throughout their 4 years, including at least 1 summer, taking some courses exclusively designed for them.\* The program includes field experience in elementary classrooms every semester guided by education faculty, as well as the opportunity for participation in a close-knit learning community throughout the college experience. The ITEP-Freshman Option requires 132 units for a B.A. Degree and Preliminary Multiple Subject Credential.

\* ITEP-Freshmen students take approximately 16 units per semester

### Education Specialist Credential:

**Mild-Moderate Disabilities: 136 units**

**Moderate-Severe Disabilities: 136 units**

Students can earn 10 (Multiple Subject) or 15 (SPED/Mild-Moderate, Moderate-Severe Disabilities) units coded as Post-Baccalaureate units for credit only for a school district's salary scale (if applicable) in the ITEP-Junior Option Program.

### General Studies Option

The General Studies Option is designed for students interested in a broad liberal arts education with studies in many subject areas rather than concentrating on one field of study. Students selecting the General Studies Option may be interested in pursuing careers in business, law, government, social services, non-profit services, arts and many other careers. General Studies Option students complete the General Education and Title 5 requirements outside of the major.

### Careers

The Liberal Studies Teacher Preparation Option programs are designed for students interested in teaching children in grades K-6 or special education students in grades K-12. Traditionally, elementary school teachers function in self-contained classrooms and teach a variety of subjects. The Liberal Studies major provides students with a broad undergraduate education to prepare them to teach "multiple subjects." The General Studies Option is a broad liberal arts program that prepares students for a variety of career options. Students interested in the General Studies Option should discuss academic and career planning with their Liberal Studies Advisor.

### Academic Advisement

Advisement is a critical part of the Liberal Studies Program. In order to complete the major efficiently, students need advisement throughout their program of study. Students intending to transfer to CSUN from community colleges should seek advisement at their community college, specifying their intention of transferring to CSUN Liberal Studies. All new Liberal Studies majors are required to complete a Liberal Studies workshop before making an appointment with an individual advisor. Workshops are available online and are scheduled on a regular basis throughout the year. Call the Liberal Studies Office for more information or to schedule an appointment with one of the academic advisors Martha Campos, Antonio Gonzalez or Sima Sadafi.

The Liberal Studies Program supports the concept of international education and encourages students in all Liberal Studies Options to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Liberal Studies Program and may be used to fulfill some of the requirements for the major. Students should consult the International Program Bulletin available in the Office of Student Development and International Programs, a Liberal Studies advisor or the campus International Program Advisor for more information.

### Liberal Studies Program Requirements for the Bachelor of Arts Degree

#### Option One: Pre-Credential Program

##### A. Lower-Division Requirements (56-57 units)

##### 1. Freshman Composition (3 units)

###### Select 1 course from:

|      |                      |                          |
|------|----------------------|--------------------------|
| AAS  | 113B, 114B, 115, 155 | Freshman Composition (3) |
| CAS  | 113B, 114B, 115, 155 | Freshman Composition (3) |
| CHS  | 113B, 114B, 115, 155 | Freshman Composition (3) |
| ENGL | 113B, 114B, 115, 155 | Freshman Composition (3) |
| PAS  | 113B, 114B, 115, 155 | Freshman Composition (3) |

##### 2. Critical Thinking (3-4 units)

###### Select one course from:

|      |       |  |
|------|-------|--|
| AAS  | 201   | Race, Racism and Critical Thinking (3) |
| CHS  | 202   | Race, Racism and Critical Thinking (3) |
| COMS | 225/L | Strategies of Argumentation (3)        |
| PAS  | 204   | Race, Racism and Critical Thinking (3) |
| PHIL | 100   | General Logic (4)                      |
| PHIL | 200   | Critical Reasoning (3)                 |
| PHIL | 210   | Reasoning in the Sciences (3)          |
| RS   | 204   | Religion, Logic and the Media (3)      |

##### 3. Speech Communication (3 units)

###### Select 1 course from:

|      |       |                                       |
|------|-------|---------------------------------------|
| AAS  | 151   | Freshman Speech Communication (3)     |
| CAS  | 151   | Freshman Speech Communication (3)     |
| CHS  | 151   | Freshman Speech Communication (3)     |
| COMS | 151/L | Fundamentals of Public Speaking (2/1) |
| PAS  | 151   | Freshman Speech Communication (3)     |

##### 4. Mathematics (3 units)

|      |     |                           |
|------|-----|---------------------------|
| MATH | 210 | Basic Number Concepts (3) |
|------|-----|---------------------------|

##### 5. Biology (4 units)

###### Select 1 course from:

|      |       |                                |
|------|-------|--------------------------------|
| BIOL | 100/L | Introductory Biology/Lab (3/1) |
| BIOL | 101/L | General Biology/Lab (3/1)      |
| BIOL | 102/L | Biological Concepts/Lab (3/1)  |

##### 6. Physical Science (4 units)

|      |     |                                      |
|------|-----|--------------------------------------|
| PHSC | 170 | Introduction to Physical Science (4) |
|------|-----|--------------------------------------|

##### 7. Literature (3 units)

##### Select 1 course from:

|      |      |   |
|------|------|---|
| AAS  | 220  | Survey of Asian American Literature (3)         |
| CAS  | 201  | Survey of Central American Literature (3)       |
| CHS  | 201  | Survey of Mexican Literature in Translation (3) |
| ENGL | 255  | Introduction to Literature (3)                  |
| ENGL | 258  | Major English Writers I (3)                     |
| ENGL | 259  | Major English Writers II (3)                    |
| ENGL | 275  | Major American Writers (3)                      |
| FLIT | 295A | Masterpieces of European Literature I (3)       |
| FLIT | 295B | Masterpieces of European Literature II (3)      |
| PAS  | 245  | African American Literature Since 1930 (3)      |

##### 8. Performing and Visual Arts (3 units)

###### Select 1 course from:

|     |       |   |
|-----|-------|---|
| ART | 100/L | Introduction to Art Processes (2/1)                             |
| ART | 110   | History of Western Art, Pre-History Through the Middle Ages (3) |
| ART | 112   | World Arts: Africa, Oceania and the Americas (3)                |
| ART | 114   | World Arts: Asia (3)  |
| CAS | 202   | Survey of Central American Art (3)                              |
| CHS | 111   | The Chicana/o and the Arts (3)                                  |
| MUS | 105   | Understanding Music (3)   |
| MUS | 107   | Music in Contemporary Society (3)                               |
| TH  | 110   | Plays and Players (3)   |
| TH  | 111   | Actors and Acting (3)   |

##### 9. Humanities, Philosophy and Religion (3 units)

###### Select 1 course from:

|      |     |  |
|------|-----|--|
| ANTH | 222 | Visions of the Sacred (3)                          |
| HUM  | 101 | Forms and Ideas in Humanities (3)                  |
| HUM  | 105 | Cultural Eras I (3)                                |
| HUM  | 106 | Cultural Eras II (3)                               |
| JS   | 200 | Introduction to Judaism (3)                        |
| PAS  | 282 | African Religion in the New World (3)              |
| PHIL | 150 | Introduction to Philosophical Thought (3)          |
| PHIL | 160 | Introduction to Philosophy: Society and Values (3) |
| PHIL | 201 | Ancient Philosophy (3)                             |
| PHIL | 202 | Modern Philosophy (3)                              |
| RS   | 100 | Introduction to Religious Studies (3)              |
| RS   | 101 | The Bible (3)                                      |

##### 10. World Geography (3 units)

|      |     |                     |
|------|-----|---------------------|
| GEOG | 150 | World Geography (3) |
|------|-----|---------------------|

##### 11. Earth Science (3 units)

###### Select 1 course from:

|      |        |                   |
|------|--------|-------------------|
| GEOG | 106LRS | Earth Science (3) |
| GEOL | 106LRS | Earth Science (3) |

##### 12. World History (3 units)

|      |     |                           |
|------|-----|---------------------------|
| HIST | 110 | World History to 1500 (3) |
|------|-----|---------------------------|

##### 13. United States History (3 units)

###### Select 1 course from:

|      |     |                                      |
|------|-----|--------------------------------------|
| CHS  | 245 | History of the Americas (3)          |
| HIST | 270 | The United States to 1865 (3)        |
| PAS  | 271 | African American History to 1865 (3) |

##### 14. Government (3 units)

###### Select 1 course from:

|      |     |  |
|------|-----|--|
| CHS  | 260 | Constitutional Issues and the Chicano (3)                |
| PAS  | 161 | American Political Institutions: A Black Perspective (3) |
| POLS | 155 | American Political Institutions (3)                      |
| RS   | 255 | American Political Institutions and Religion (3)         |

##### 15. Urban Education (3 units)

|      |     |                                |
|------|-----|--------------------------------|
| ELPS | 203 | Urban Education in America (3) |
|------|-----|--------------------------------|

*Students planning to pursue an Education Specialist Credential should take*

*SPED 400 instead of ELPS 203.*

### 16. Child Development (3 units)

#### Select 1 course from:

- CADV 150 Foundations of Human Development (3)  
 FCS 330 Child Growth and Development I (3)

### 17. Linguistics (3 units)

- ENGL 301 Language and Linguistics (3)

*May be taken after completion of 45 units.*

### 18. Concentration (3 units)

### B. Upper-Division Requirements (49 units)

Students should complete most, if not all, Lower Division course work before taking Upper Division requirements. Upper Division courses are listed in the order in which they should be taken, whenever possible.

### 19. Gateway Experience (3 units)

- LRS 300 Gateway Experience (3)

### 20. Intermediate Composition (3 units)

- ENGL 305 Intermediate Expository Writing (3)

### 21. Psychological Foundations (3 units)

- EPC 315 Psychological Foundations of Learning and Teaching (3)

*Students planning to pursue an Education Specialist Credential should take SPED 402 instead of EPC 315.*

### 22. Visual/Performing Arts and the Child (3 units)

#### Select 1 of the following:

- ART 380/L Children's Art/Lab (2/1)  
 MUS 361/L Music Literature for Children/Lab (2/1)  
 KIN 314/L Creative Dance for Children/Lab (2/1)  
 TH 371/L Creative Drama/Lab (2/1)

### 23. California Geography/History (3 units)

- GEOG 417 California Geography and History (3)  
 or HIST 417 California for Educators (3)

### 24. Structure of English (3 units)

- ENGL 302 Introduction to Modern Grammar (3)

### 25. Physical Education for Children (3 units)

- KIN 470/L Physical Education for Children (2/1)

### 26. Basic Concepts of Geometry, Probability and Statistics (3 units)

- MATH 310 Basic Concepts of Geometry, Probability and Statistics (3)

### 27. Geometry, Probability and Statistics Lab1 (1 unit)

- MATH 310L Geometry, Probability and Statistics Lab (1)

### 28. Language Development and Acquisition (3 units)

- LING 417 Language Development and Acquisition (3)

### 29. Health Science (2 units)

- HSCI 365LS Health Science for Liberal Studies/ITEP (2)

### 30. Ethnic Child (3 units)

#### Select 1 of the following:

- AAS 450 Asian American Child and the Schools (3)  
 ARMN 440 The Armenian Child (3)  
 CAS 410 The Central American Child (3)  
 CHS 430 The Chicano Child (3)  
 PAS 420 The Black Child (3)

### 31. Children's Literature (3 units)

- ENGL 428 Children's Literature (3)

### 32. Concentration Course 2 (3 units)

*See list of teacher preparation concentrations*

### 33. Science Experience Course (1 unit)

- GEOG 406LRS Liberal Studies Science Capstone Experience (1)

### 34. Visual/Performing Arts and the Child (3 units)

#### Select 1 of the following:

- ART 380/L Children's Art/Lab (2/1)

- MUS 361/L Music Literature for Children/Lab (2/1)

- KIN 314/L Creative Dance for Children/Lab (2/1)

- TH 371/L Creative Drama/Lab (2/1)

### 35. Concentration Course 3 (3 units)

- Course from an approved concentration (3)

### 36. Integrative Social Science (3 units)

#### Select 1 of the following:

- AAS 340 Asian American Women (3)

- ANTH 360 Immigration and Ethnicity (3)

- GWS 350 Gender, Race, Class and Sexuality (3)

- SOC 411 Sociology of Education (3)

a. Students who plan to move into ITEP-Junior Option should wait to take MATH 310 Lab until admitted to the Credential Program. It must be taken concurrently with E ED 472.

b. Students who plan to move into ITEP-Junior Option should wait to take ENGL 428 until admitted to the Credential Program. It must be taken concurrently with E ED 477A.

### C. Liberal Studies Teacher Preparation Concentrations

*For Options One, Two-Multiple Subject or Track A and Three-Multiple Subject or Track A only.* Students are required to complete a 12-unit Concentration (see Concentrations A through O below). Each Concentration includes one course that also is a major requirement, so each student takes 9 additional units to complete the 12-unit Concentration. The double-counted requirement is noted by the words "Double-Counted Class." Unless indicated otherwise, requirements should be taken in sequence whenever possible. Requirements 1 and 2 must be completed before enrolling in requirements 3 or 4.

#### A. American Sign Language

##### 1. Introduction To Linguistics (3 units) Double-Counted Class

- ENGL 301 Language and Linguistics (3)

##### 2. and 3. Intermediate American Sign Language Skills (8 units)

- DEAF 280 American Sign Language III (4)

- DEAF 281 American Sign Language IV (4)

##### 4. Translating Into ASL (3 units)

#### Students must complete both of the following:

- DEAF 489 Introduction to ASL Translation of Literary and Artistic Works (1)

- DEAF 489L Creative Uses of American Sign Language and Lab (2)

#### B. Art

##### 1. Skills (3 units)

#### Select one course from the following:

- ART 100/L\* Introduction to Art Processes (1/2)

- ART 124A Drawing I (3)

*\* Students using ART 100/L (or equivalent) to fulfill the Lower Division Fine Arts requirement must take ART 124A for this requirement.*

##### 2. Visual Art and the Child (3 units) Double-Counted Class

- ART 380/L Children's Art/Lab (2/1)

##### 3. Electives (3 units)

#### Select 1 course from:

- ART 305 Art Today (3)

- ART 385/L Children's Crafts (2/1)

##### 4. Summative experience in Art (3 units)

#### Select 1 course from:

- ART 400/L Developing Visual Literacy (2/1)

- ART 590 History and Philosophy of Art Education (3)

*For the ITEP-Freshman Option, the double-counted courses are ART 120/L and 304, not 380/L*

#### C. Creative Writing

##### 1. Intermediate Expository Writing (3 units) Double-Counted Class

- ENGL 305 Intermediate Expository Writing (3)

**2. Introduction to Creative Writing (3 units)****Select 1 course from:**

|      |     |  |
|------|-----|--|
| CHS  | 280 | Workshop in Minority Creative Writing (3)              |
| ENGL | 208 | Creative Writing (3)                                   |
| PAS  | 280 | Workshop in Creative Writing for Minority Students (3) |

**3. and 4. Writing in a Genre (6 units)****Select two courses from:**

|      |     |                       |
|------|-----|-----------------------|
| ENGL | 308 | Narrative Writing (3) |
| ENGL | 309 | Verse Writing (3)     |
| ENGL | 310 | Playwriting (3)       |

**D. Ethnic Studies****1. The Ethnic Child (3 units) Double-Counted Class**

|      |     |  |
|------|-----|--|
| AAS  | 450 | Asian American Child and the Schools (3) |
| ARMN | 440 | Armenian American Child (3)              |
| CAS  | 410 | The Central American Child               |
| CHS  | 430 | The Chicana/o Child (3)                  |
| PAS  | 420 | The Black Child (3)                      |

**2. Introduction to Ethnic Studies (3 units)****Select 1 course from:**

|      |     |   |
|------|-----|---|
| AIS  | 101 | Introduction to American Indian Studies (3) |
| AAS  | 100 | Introduction to Asian American Studies (3)  |
| ARMN | 101 | Elementary Armenian 1 (3)                   |
| ARMN | 102 | Elementary Armenian 11 (3)                  |
| CHS  | 100 | Chicana/o Culture (3)                       |
| PAS  | 100 | Introduction to Black Culture (3)           |
| PAS  | 165 | Introduction to Pan Africanism (3)          |

**3. Topics in Ethnic Cultures (3 units)****Select 1 course from:**

|      |     |   |
|------|-----|---|
| AAS  | 360 | Asian American Immigration-Global Perspective (3)         |
| AAS  | 430 | Asian American Popular Culture (3)                        |
| AAS  | 440 | Urbanization and Asian American Communities (3)           |
| AAS  | 453 | Asian American Families (3)                               |
| ARMN | 315 | Masterpieces of Armenian Literature (3)                   |
| ARMN | 360 | Armenian Women (3)  |
| ARMN | 380 | Contemporary Issues in Armenia and the Diaspora (3)       |
| CAS  | 311 | The Central American Diaspora (3)                         |
| CAS  | 366 | Contemporary Indigenous People of Central America (3)     |
| CHS  | 310 | Regional Music of Mexico (3)                              |
| CHS  | 380 | Chicana/o Literature (3)                                  |
| CHS  | 416 | Children's Songs and Games (3)                            |
| CHS  | 470 | Cultural Differences and The Chicana/o (3)                |
| CHS  | 480 | Children's Literature of Latin America in Translation (3) |
| PAS  | 300 | Contemporary Issues in the African-American Community (3) |
| PAS  | 322 | African-American Family (3)                               |
| PAS  | 465 | Pan Africanism: Development of an Ideology 1865-1953 (3)  |
| RS   | 378 | American Jewish Experience (3)                            |

**4. Summative Experience in Ethnic Studies (3 units)**

|      |      |                                       |
|------|------|---------------------------------------|
| AAS  | 349A | Filipino American Experiences (3)     |
| AAS  | 355  | Biracial and Multiracial Identity (3) |
| ARMN | 310  | Armenian Culture (3)                  |
| CHS  | 497  | Senior Seminar (3)                    |
| PAS  | 350  | Advanced Writing (3)                  |

**E. Gender Studies****1. Double-Counted Class**

|     |     |                                       |
|-----|-----|---------------------------------------|
| GWS | 350 | Gender, Race, Class and Sexuality (3) |
|-----|-----|---------------------------------------|

*For ITEP-Freshman Option students, the double-counted class is LRS 150/F (2/1 units), not GWS 350.*  
*ITEP-Freshman Option students may take GWS 350 for single credit instead of WS 200 or GWS 210.*

**2. Introduction to Women's Studies (3 units)****Select 1 course from:**

|     |     |                                     |
|-----|-----|-------------------------------------|
| GWS | 100 | Introduction to Women's Studies (3) |
| GWS | 110 | Women, Work and Family (3)          |

**3. Topics (3 units)****Select 1 course from:**

|      |       |   |
|------|-------|---|
| AAS  | 340   | Asian American Women (3)                                  |

**3. Oral Communication (3 units)**

Select 1 course from:

|      |       |                                       |
|------|-------|---------------------------------------|
| AAS  | 151   | Freshman Speech Communication (3)     |
| CAS  | 151   | Freshman Speech Communication (3)     |
| CHS  | 151   | Freshman Speech Communication (3)     |
| COMS | 151/L | Fundamentals of Public Speaking (2/1) |
| PAS  | 151   | Freshman Speech Communication (3)     |

**4. Math for Teachers (3 units)**

|      |     |                           |
|------|-----|---------------------------|
| MATH | 210 | Basic Number Concepts (3) |
|------|-----|---------------------------|

**5. Biology (4 units)**

Select 1 course from:

|      |       |                                    |
|------|-------|------------------------------------|
| BIOL | 100/L | Introductory Biology and Lab (3/1) |
| BIOL | 101/L | General Biology and Lab (3/1)      |
| BIOL | 102/L | Biological Concepts and Lab (3/1)  |

**6. Physical Science (4 units)**

|      |     |                                      |
|------|-----|--------------------------------------|
| PHSC | 170 | Introduction to Physical Science (4) |
|------|-----|--------------------------------------|

**7. Literature (3 units)**

Select 1 course from:

|      |      |   |
|------|------|---|
| AAS  | 220  | Survey of Asian American Literature (3)         |
| CAS  | 201  | Survey of Central American Literature (3)       |
| CHS  | 201  | Survey of Mexican Literature in Translation (3) |
| ENGL | 255  | Introduction to Literature (3)                  |
| ENGL | 258  | Major English Writers I (3)                     |
| ENGL | 259  | Major English Writers II (3)                    |
| ENGL | 275  | Major American Writers (3)                      |
| FLIT | 245  | Introduction to German Literature (3)           |
| FLIT | 295A | Masterpieces of European Literature I (3)       |
| FLIT | 295B | Masterpieces of European Literature II (3)      |
| PAS  | 245  | African American Literature Since 1930 (3)      |

**8. Performing and Visual Arts (3 units)**

|     |       |  |
|-----|-------|--|
| ART | 100/L | Introduction to Art Processes (1/2)                                    |
| ART | 110   | History of Western Art, Pre-History Through the Middle Ages (3)        |
| ART | 112   | World Arts: Africa, Oceania and the Americas (3)                       |

| RS   | 100 | Introduction to Religious Studies (3)              |
| RS   | 101 | The Bible (3)                                      |

**10. World Geography (3 units)**

GEOG 150 World Geography (3)

**11. Earth Science (3 units)****Select 1 course from:**

GEOG 106LRS The Physical Environment for Liberal Studies Majors (3)

GEOL 106LRS Earth and Space Science for Liberal Studies Majors (3)

**12. World History (3 units)**

HIST 110 World History to 1500 (3)

**13. United States History (3 units)****Select 1 course from:**

CHS 245 History of the Americas (3)

HIST 270 The United States to 1865 (3)

PAS 271 African American History to 1865 (3)

**14. Government (3 units)****Select 1 course from:**

CHS 260 Constitutional Issues and the Chicana/o (3)

PAS 161 American Political Institutions: A Black Perspective. (3)

POLS 155 American Political Institutions (3)

RS 255 American Political Institutions and Religion (3)

**15. Special Education (3 units)**

SPED 400 Developmental Differences and Implications in Special Education (3)

**16. Child Development (3 units)****Select 1 course from:**

CADV 150 Foundations of Human Development in Educational Contexts (3)

FCS 330 Child Growth and Development I (3)

**17. Linguistics (3 units)**

ENGL 301 Language and Linguistics (3)

**18. Concentration Course 1 (3 units)**

See approved Educational Specialist Concentrations—Ethnic Studies or LSLA

**B. Upper Division Requirements (80 units) (Education Specialist Credential)**

Students should complete most, if not all, Lower Division course work before taking Upper Division requirements. Upper Division courses are listed in the order in which they should be taken, whenever possible.

**19. Gateway Experience (3 units)**

LRS 300 Gateway Experience (3)

**20. Intermediate Composition (3 units)**

ENGL 305 Intermediate Expository Writing (3)

**21. Positive Behavior Support (3 units)**

SPED 402 Behavioral Assessment and Positive Behavior Supports (3)

**22. Visual/Performing Arts and the Child (3 units)****Select 1 of the following:**

ART 380/L Children's Art and Lab (2/1)

KIN 314/L Creative Dance for Children and Lab (2/1)

MUS 361/L Music Literature for Children and Lab (2/1)

TH 371/L Creative Drama and Lab (2/1)

**23. Concentration Course 2 (3 units)**

See approved Educational Specialist concentrations—Ethnic Studies or LSLA.

**24. Structure of English (3 units)**

ENGL 302 Introduction to Modern Grammar (3)

**25. Basic Concepts of Geometry, Probability and Statistics (3 units)**

MATH 310 Basic Concepts of Geometry, Probability and Statistics (3)

**The following 2 sections (26 and 27) must be taken concurrently:****26. Geometry, Probability and Statistics Lab1 (1 unit)**

MATH 310L Geometry, Probability and Statistics Lab (1)

**27. Math Curriculum and Methods (3 units)**

E ED 472 Math Curriculum and Methods (3)

**The following 2 sections (28 and 29) must be taken concurrently:****28. Literacy Instruction (3 units)**

SPED 406 K-12 Literacy Instruction for Diverse Learners with Disabilities (3)

**29. Children's Literature (3 units)**

ENGL 428 Children's Literature (3)

**30. Special Education Field Work (3 units)**

SPED 403 Early Field Work (3 units)

**31. Language Development and Acquisition (3 units)**

LING 417 Language Development and Acquisition (3)

**32. Physical Education for Children (3 units)**

KIN 470/L Physical Education for Children (2/1)

**33. Ethnic Child (3 units)****Select 1 of the following:**

AAS 450 Asian American Child and the Schools (3)

ARMN 440 The Armenian Child (3)

CAS 410 The Central American Child

CHS 430 The Chicana/o Child (3)

PAS 420 The Black Child (3)

**34. Teaching in Special Education (3 units)**

SPED 404 Teaching Diverse Learners with Social-Communication Disabilities Including Autism (3)

**35. Educating Diverse Learners (3 units)**

SPED 416 Educating Diverse Learners with Disabilities and Working with their Families (3)

**36. Assessment (3 units)**

SPED 501MM Special Education Assessment in Mild/Moderate Disabilities (3)

or SPED 581 Alternative and Augmentative Communication-Moderate/Severe Disabilities (3)

**37. Concentration Course 3 (3 units)**

See approved Educational Specialist concentrations—Ethnic Studies or LSLA.

**38. California History/Geography (3 units)****Select 1 of the following:**

GEOG 417 California for Educators (3)

HIST 417 California for Educators (3)

**39. Visual/Performing Arts and the Child (3 units)****Select 1 of the following:**

ART 380/L Children's Art and Lab (2/1)

KIN 314/L Creative Dance for Children and Lab (2/1)

MUS 361/L Music Literature for Children and Lab (2/1)

TH 371/L Creative Drama and Lab (2/1)

**40. Differentiated Instruction and Collaboration (3 units)**

SPED 420 Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3)

**41. Reading Language Arts Instruction: B (3 units)**

SPED 502MM Reading/Language Arts Instruction for Diverse Learner with Mild/Moderate Disabilities (3)

or SPED 505MS Curriculum and Instruction for Diverse Learners with Moderate/Severe Disabilities (3)  
(Offered Spring semester only.)

**42. Curriculum/Instruction in Special Education (3 units)**

SPED 503MM Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3)

or SPED 504MS Teaching Diverse Learners with Moderate/Severe Disabilities (3) *(Offered Fall semester only.)*

**43. Science Experience Course (1 units)**

GEOL 406LRS Liberal Studies Science Capstone Experience (1)

**The following 2 sections (44 and 45) must be taken concurrently:**

**44. Student Teaching Seminar (3 unit)**

SPED 580S Student Teaching Seminar (3)

**45. Student Teaching (6 units)**

SPED 580MM or MS Student Teaching (6)

**C. Concentration**

Students in Track B must complete either the Ethnic Studies or LSLA Concentrations.

**1. Ethnic Studies for ITEP Junior-SPED**

**The Ethnic Child (double-counted class)**

**Select 1 from:**

- AAS 450 The Asian American Child and the Schools (3)
- ARMN 440 The Armenian Child (3)
- CAS 410 The Central American Child (3)
- CHS 430 The Chicano Child (3)
- PAS 420 The Black Child (3)

**Introduction to Ethnic and Gender Studies**

**Select 1 from:**

- AAS 100 Introduction to Asian American Studies (3)
- CAS 100 Introduction to Central American Studies (3)
- CHS 100 Chicana/o Culture (3)
- GWS 100 Introduction to Gender and Women's Studies
- PAS 100 Introduction to Black Culture (3)

**Select 1 from:**

- GWS 350 Gender, Race, Class and Sexuality (3)
- AAS 340 Asian American Women (3)

**Select 1 from:**

- SOC 411 Sociology of Education (3)
- ANTH 360 Immigration and Ethnicity (3)

**2. Literacy Scholars Los Angeles (LSLA)**

LING 417 Language Development and Acquisition (3)  
*(Double-counted class)*

- LRS 333 Perspectives on Literacy (3) *(Fall semester only.)*
- LRS 433/F Practicum in Early Literacy (3) *(Fall semester only.)*
- CHS 480 Children's Literature of Latin America in Translation (3)

**Option Three: Integrated Teacher Education Program  
Freshman Option**

**Track A. Elementary Education**

**Year One: First Semester (14 units)**

- LRS 100/F Liberal Studies Freshman Seminar (2/1)
- CADV 150 Foundations of Human Development (3)

**Visual and Performing Arts: Music, Theater, Dance or Art (2 units)**

ARTS/KIN/MUS/TH 120/L Arts Immersion (1/1)

**Freshman Composition (3 units)**

**Select 1 course from:**

- AAS 113B, 114B, 115, 155 Freshman Composition (3)
- CAS 113B, 114B, 115, 155 Freshman Composition (3)
- CHS 113B, 114B, 115, 155 Freshman Composition (3)
- ENGL 113B, 114B, 115, 155 Freshman Composition (3)
- PAS 113B, 114B, 115, 155 Freshman Composition (3)

**Speech Communication (3 units)**

**Select 1 course from:**

- AAS 151 Freshman Speech Communication (3)
- CHS 151 Freshman Speech Communication (3)

- COMS 151/L Fundamentals of Public Speaking (2/1)
- PAS 151 Freshman Speech Communication (3)

**Year One: Second Semester (16 units)**

- LRS 150/F Liberal Studies Seminar: Anthropology (2/1)
- HIST 110 World History to 1500 (3)

**Literature (3 units)**

**Select 1 course from:**

- AAS 220 Survey of Asian American Literature (3)
- CAS 201 Survey of Central American Literature (3)
- CHS 201 Survey of Mexican Literature in Translation (3)
- ENGL 255 Introduction to Literature (3)
- ENGL 258 Major English Writers I (3)
- ENGL 259 Major English Writers II (3)
- ENGL 275 Major American Writers (3)
- FLIT 295A Masterpieces of European Literature I (3)
- FLIT 295B Masterpieces of European Literature II (3)
- PAS 245 African American Literature Since 1930 (3)

**Humanities, Philosophy and Religion (3 units)**

**Select 1 course from:**

- ANTH 222 Visions of the Sacred (3)
- HUM 101 Forms and Ideas in Humanities (3)
- HUM 105 Cultural Eras I (3)
- HUM 106 Cultural Eras II (3)
- JS 200 Introduction to Judaism (3)
- PAS 282 African Religion in the New World(3)
- PHIL 150 Introduction to Philosophical Thought (3)
- PHIL 160 Introduction to Philosophy: Society and Values (3)
- PHIL 201 Ancient Philosophy (3)
- PHIL 202 Modern Philosophy (3)
- RS 100 Introduction to Religious Studies (3)
- RS 101 The Bible (3)

**Visual and Performing Arts: Music, Theater, Dance or Art (2 units)**

- ARTS/KIN/MUS/TH 120/L Arts Immersion (1/1)
- ARTS/KIN/MUS/TH 120/L Arts Immersion (1/1)

**Year Two: First Semester (15 units)**

- BIO 102/L Biological Concepts and Lab (3/1)
- ENGL 303 Introduction to Grammar and Linguistics for Teachers (4)
- GEOG 150 World Geography (3)
- LRS 200F Seminar in Children's Learning in Science (1)
- MATH 210 Basic Number Concepts (3)

**Year Two: Second Semester (16 units)**

- ELPS 203 Urban Education in American Society (3)
- ENGL 305 Intermediate Expository Writing (3)
- HSCI 365LS Health Science for ITEP (2)
- LRS 250/F Liberal Studies Seminar: Integrating Reason, Belief and Education (3/1)
- PHSC 170 Introduction to Physical Science (4)

**Summer Two (9 units)**

**United States Government (3 units)**

**Select 1 course from:**

- CHS 260 Constitutional Issues and the Chicana/o (3)
- PAS 161 American Political Institutions: A Black Perspective (3)
- POLS 155 American Political Institutions (3)
- RS 255 American Political Institutions and Religion (3)

**United States History (3units)**

**Select 1 course from:**

- CHS 245 History of the Americas (3)
- HIST 270 The United States to 1865 (3)
- PAS 271 African American History to 1865 (3)
- AAS/ARMN/CAS/CHS/PAS Ethnic Child (3 units)

**Select 1 course from:**

|      |     |  |
|------|-----|--|
| AAS  | 450 | Asian American Child and the Schools (3) |
| ARMN | 440 | The Armenian Child (3)                   |
| CAS  | 410 | The Central American Child (3)           |
| CHS  | 430 | The Chicana/o Child (3)                  |
| PAS  | 420 | The Black Child (3)                      |

**Year Three: First Semester (18 units)**

|      |       |  |
|------|-------|--|
| EPC  | 315   | Psychological Foundations (3)                              |
| KIN  | 470/L | Physical Education for Children (2/1)                      |
| LING | 417   | Language Development and Acquisition (3)                   |
| MATH | 310   | Basic Concepts of Geometry, Probability and Statistics (3) |

**Select 1 course from:**

|         |        |   |
|---------|--------|---|
| GEOG    | 106LRS | The Physical Environment for Liberal Studies Majors (3) |
| or GEOG | 106LRS | Earth and Space Science for Liberal Studies Majors (3)  |

**Concentration Course 1 (3)**

*Important note: Refer to Pre-credential Option for the approved list of the Concentrations (A-O).*

**Year Three: Second Semester (16 units)**

|      |      |   |
|------|------|---|
| E ED | 472  | Mathematics Curriculum and Methods (3)        |
| E ED | 477A | Literacy Instruction for Diverse Learners (3) |
| ENGL | 428  | Children's Literature (3)                     |
| MATH | 310L | Geometry, Probability and Statistics Lab (1)  |

**Select 1 course from:**

|         |     |  |
|---------|-----|--|
| GEOG    | 417 | The Physical Environment for Liberal Studies Majors (3)  |
| or HIST | 417 | Earth and Space Science for Liberal Studies Majors (3)   |
| SPED    | 420 | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3) |

**Year Four: First Semester (15 units)****Concentration Course 2 (3)**

|      |        |   |
|------|--------|---|
| E ED | 477B   | Literacy Instruction for Diverse Learners (3) |
| E ED | 578A   | Student Teaching (3)                          |
| E ED | 579A   | Student Teaching Seminar (2)                  |
| GEOG | 406LRS | Liberal Studies Science Experience (1)        |

**Take 3 from:** ART, KIN, MUS, TH 304 (1/1/1)

**Year Four: Second Semester (13 units)****Concentration Course 3 (3)**

|      |      |   |
|------|------|---|
| E ED | 480  | Science/Social Science Curriculum Methods (3) |
| E ED | 578D | Student Teaching in the Elementary School (6) |

**Summer Two (9 units)****Special Education**

- SPED 400 Developmental Differences and Implications in Special Education (3)  
 SPED 404 Teaching Diverse Learners with Social-Communication Disorders/Autism (3)

**Earth Science (3 units)****Select 1 course from:**

- GEOG 106LRS The Physical Environment for Liberal Studies Majors (3)  
 GEOL 106LRS Earth and Space Science for Liberal Studies Majors (3)

**Year Three: First Semester (18 units)**

- LING 417 Language Development and Acquisition (3)  
 MATH 310 Basic Concepts of Geometry, Probability and Statistics (3)  
 SPED 402 Behavioral Assessment and Positive Behavior Support (3)

**Concentration 1\*** (3) See below for approved Ethnic Studies or LSLA Concentrations for this Track

**Concentration 2\*** (3) See below for approved Ethnic Studies or LSLA Concentrations for this Track

**Select 1 course from:**

- GEOG 417 The Physical Environment for Liberal Studies Majors (3)  
 HIST 417 Earth and Space Science for Liberal Studies Majors (3)

**Year Three: Second Semester (19 units)**

- E ED 472 Mathematics Curriculum and Methods (3)  
 ENGL 428 Children's Literature (3)  
 KIN 470/L Physical Education for Children (2/1)  
 MATH 310L Geometry, Probability and Statistics Lab (1)  
 SPED 403 Early Field Work (3)  
 SPED 406 K-12 Literacy Instruction for Diverse Learners with Disabilities (3)

**Concentration Course 3\*** (3) See below for the approved Ethnic Studies or LSLA Concentrations for this Track

**Year Four: First Semester (16 units)**

- GEOL 406LRS Liberal Studies Science Experience Capstone (1)  
 SPED 416 Educating Diverse Learners with Disabilities and Working with their Families (3)  
 SPED 420 Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3)  
 SPED 502MM Reading/Language Arts Instruction for Diverse Learners with Mild/Moderate Disabilities (3)  
 or SPED504MS Teaching Diverse Learners with Moderate/Severe Disabilities (3) (*Offered Fall semester only*)  
 SPED 503MM Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3)  
 or SPED 505MS Curriculum and Instruction for Diverse Learners with Moderate/Severe Disabilities (3) (*Offered Spring semester only*)  
 Take 3 from: ART, KIN, MUS, TH 304 (1/1/1)

**Year Four: Second Semester (12 units)**

- SPED 501 Assessment of Diverse Learners with Mild/Moderate Disabilities (3)  
 or SPED 581 Alternative and Augmentative Communication-Moderate/Severe Disabilities (3)

- SPED 580S Student Teaching Seminar (3)  
 SPED 580 Student Teaching (6)

**Track B Students Must Choose From the Following 2 Concentrations:****A. Ethnic Studies for ITEP-Freshman Special Education**

- LRS 150/F Liberal Studies Seminar: Anthropology (2/1) (*Double-counted class*)

**Select 1 from:**

- AAS 340 Asian American Women (3)  
 GWS 350 Gender, Race, Class and Sexuality (3)

**Select 1 from:**

- ANTH 360 Immigration and Ethnicity (3)  
 SOC 411 Sociology of Education (3)

**The Ethnic Child****Select 1 from:**

- AAS 450 The Asian American Child and the Schools (3)  
 ARMN 440 The Armenian Child (3)  
 CAS 410 The Central American Child (3)  
 CHS 430 The Chicana/o Child (3)  
 PAS 420 The Black Child (3)

**B. Literacy Scholars Los Angeles**

- CHS 480 Children's Literature of Latin America in Translation—Field Experience Required  
 ENGL 303 Introduction to Grammar and Linguistics for Teachers (*Double-counted class*)  
 LRS 333 Perspectives on Literacy (*Offered Fall semester only*)  
 LRS 433/F Practicum in Early Literacy—Field Experience Required (*Offered Fall semester only*)

**Option Four: General Studies Option**

The General Studies Option is designed for students interested in a broad liberal arts education with studies in many subject areas rather than concentrating on one field of study. Students selecting the General Studies Option may be interested in pursuing careers in business, law, government, social services, non-profit services, arts and many other careers. Courses are drawn from various Academic Departments throughout the University. Liberal Studies majors in this plan complete their General Education and Title 5 requirements outside of the major. Even though many of the course choices below count for G.E., Liberal Studies, General Studies Option students may not double-count any courses from G.E. within the major. The General Studies Option requires the following courses:

**A. Lower Division Requirements (10-11 units)****1. Introduction to Literature****Select 1 course from:**

- AAS 220 Survey of Asian American Literature (3)  
 CAS 201 Survey of Central American Literature (3)  
 CHS 201 Survey of Mexican Literature in Translation (3)  
 ENGL 255 Introduction to Literature (3)  
 ENGL 258 Major English Writers I (3)  
 ENGL 259 Major English Writers II (3)  
 ENGL 275 Major American Writers (3)  
 FLIT 295A Masterpieces of European Literature I (3)  
 FLIT 295B Masterpieces of European Literature II (3)  
 PAS 245 African-American Literature Since 1930 (3)

**2. Mathematics or Logic****Select 1 course from:**

- MATH 102 College Algebra (3)  
 MATH 105 Pre-Calculus (5)  
 MATH 131 Mathematical Ideas (3)

|      |     |                             |
|------|-----|-----------------------------|
| MATH | 140 | Introductory Statistics (4) |
| PHIL | 230 | Symbolic Logic I (3)        |

**3. Science and Lab/Field Studies (4 units)****Select 1 course from:**

|      |                      |                                      |
|------|----------------------|--------------------------------------|
| ASTR | 152                  | Elementary Astronomy (3)             |
|      | <i>and</i> ASTR 154L | Observational Astronomy (1)          |
| BIOL | 100/L                | Introductory Biology and Lab (3/1)   |
| BIOL | 101/L                | General Biology and Lab (3/1)        |
| CHEM | 110/L                | Chemistry in Action and Lab (4)      |
| GEOG | 101                  | The Physical Environment (3)         |
|      | <i>and</i> GEOG 102  | Physical Geography Lab (1)           |
| GEOG | 103                  | Weather (3)                          |
|      | <i>and</i> GEOG 105  | Weather Lab (1)                      |
| GEOL | 101                  | Physical Geology (3)                 |
|      | <i>and</i> GEOL 102  | Physical Geology Lab (1)             |
| GEOL | 122                  | The World Ocean (3)                  |
|      | <i>and</i> GEOL 123  | World Ocean Lab (1)                  |
| GEOL | 300                  | Environmental Geology (3)            |
|      | <i>and</i> GEOL 301  | Environmental Geology Lab (1)        |
| PHSC | 170                  | Introduction to Physical Science (4) |
| PHYS | 100A/AL              | General Physics I and Lab (4)        |

**B. Upper Division Requirements (27 units)****1. Upper Division Writing**

|      |     |                                     |
|------|-----|-------------------------------------|
| ENGL | 305 | Intermediate Expository Writing (3) |
|------|-----|-------------------------------------|

**2. Theories and Methods**

|     |     |  |
|-----|-----|--|
| HUM | 391 | Methods and Theories in the Humanities (3) |
|-----|-----|--|

**3. Upper Division Literature.****Select 1 course from:**

|      |     |  |
|------|-----|--|
| AAS  | 321 | Asian American Fiction (3)                             |
| CHS  | 380 | Chicana/o Literature (3)                               |
| CHS  | 381 | Contemporary Chicana Literature (3)                    |
| ENGL | 300 | Contemporary Literature (3)                            |
| ENGL | 311 | History of African-American Writing (3)                |
| ENGL | 314 | Native American Indian Literature (3)                  |
| ENGL | 316 | Shakespeare (3)  |
| ENGL | 364 | The Short Story (3)                                    |
| ENGL | 371 | Issues in Jewish American Writing (3)                  |
| ENGL | 431 | Images of Women in Literature (3)                      |
| FLIT | 341 | 20th Century European Literature (3)                   |
| FLIT | 455 | Women Writers of Asia (3)                              |
| PAS  | 344 | Literature of the Caribbean and African Experience (3) |
| PAS  | 346 | Contemporary Black Female Writers (3)                  |

**4. Social Sciences: Anthropology, Psychology or Sociology****Select 1 course from:**

|      |     |   |
|------|-----|---|
| ANTH | 300 | Anthropology and the Modern World (3)           |
| ANTH | 305 | Individual and Culture (3)                      |
| ANTH | 308 | Women, Sex Roles and Culture (3)                |
| ANTH | 310 | Language in Culture: Anthropol. Linguistics (3) |
| ANTH | 315 | Third World Cultures (3)                        |
| ANTH | 326 | Introduction to Folklore (3)                    |

## 8. Visual and Performing Arts

### Select 1 course each from:

|     |     |  |
|-----|-----|--|
| ART | 305 | Art Today (3)                                  |
| ART | 401 | Arts of Native North America (3)               |
| CHS | 310 | Regional Music of Mexico (3)                   |
| MUS | 310 | Understanding World Cultures Through Music (3) |
| PAS | 332 | African-American Music (3)                     |
| TH  | 310 | Theatre in Performance (3)                     |

## 9. Capstone Experience

|     |     |  |
|-----|-----|--|
| LRS | 491 | Senior Seminar in Humanities/Liberal Studies (3) |
|-----|-----|--|

## C. Area of Specialization (minimum of 21 units)

An Area of Specialization consisting of at least 21 units is required within the major. Students may select 1 of the following Options:

- Option A: Complete a Minor. Students must declare the Minor and seek advisement in the Department of the Minor.

*Note: Some minors require completion of more than 21 units.*

- Option B: Submit an interdisciplinary specialization proposal consisting of at least 15 Upper Division units to the Liberal Studies Program for approval.

*Note: All General Studies Option students must complete a service learning or internship component during their course of education.*

## Course List

### LR S 100/F. Liberal Studies Freshman Seminar and Field Study (2/1)

*Prerequisite: ITEP-Freshman Option students only. Recommended Corequisite: LR S 100F.* Introduces first-time freshman students to University culture and expectations and to field work methodology in elementary education. Students focus primarily on themselves as management; diversity; information competence; introduction to technology; university literacy; campus-specific resources and services; and an introduction to field work methodology. Includes 15 hours of guided field experience in elementary-school classrooms.

### LR S 196A-Z. Experimental Topics Courses (3)

#### LR S 150/F. Liberal Studies and Anthropology and Field Study (2/1)

*Prerequisite: ITEP-Freshman Option students only. Recommended Corequisite: LR S 150F. Preparatory: LR S 100/F.* Introduction to the study of cultural anthropology, with a focus on cultural issues that influence learning and education of multicultural populations. Students apply cultural concepts to understand themselves as learners and to children in elementary-school settings. Topics include gender, ethnicity and people who are culturally and linguistically diverse. Foundations of ethnographic observation and development of a case study of an elementary-school student. Includes 15 hours of guided field experience in elementary classrooms.

#### LR S 200F. Liberal Studies Seminar: Science Learning (1)

*Recommended Corequisite: BIOL 102L.* This course provides prospective elementary teachers with classroom and field experiences that

examine and reflect on science learning and cognition. It is designed to provide aspiring teachers with the knowledge background on the source and nature of students' alternative conceptions, strategies for assessing children's existing beliefs, skills in analyzing empirical data and the ability to reflect on the implications of children's conceptions for teaching science. A 15-hour field experience is required.

### LR S 250/F. Integrating Reason, Belief and Education and Field Study (3/1)

*Prerequisite: ITEP-Freshman Option students only. Recommended Corequisite: LR S 250F.* Introduction to the concepts essential to the identification, analysis and evaluation of arguments for students in the Integrated Teacher Education Program. Students examine the variety of sources of justification, evidence and warrant, such as argumentation, problem solving and perception. Emphasizes the application of these and learning in K-12 classrooms. Includes 15 hours of guided field experience in elementary classrooms.

### LR S 296A-Z. Experimental Topics Courses (3)

#### Upper Division Courses

#### LR S 300. Liberal Studies Gateway Experience (3)

*Prerequisites: Course is limited to Pre-Credential and ITEP-Junior Option students; Junior Standing.* Focusing on the elements required for success in integrating subject matter knowledge from multiple disciplines in preparation for a career in teaching, this course is an introduction to the academic and professional requirements for a Liberal Studies pre-credential major. Students will deepen their understanding of the 8 required subject matter areas (Language Arts, Mathematics, Science, History/Social Studies, Child Development, Visual and Performing Arts, Health and Physical Education), in the context of their University-based curriculum and of the Academic Content Standards and State Curriculum Frameworks for grades K-8. Research and technology skills required for teachers are introduced and practiced. (Letter Grade only)

#### LR S 333. Perspectives on Literacy (3)

*Prerequisite: ENGL 301. Corequisites: LRS433/F.* This course examines topics related to the development of reading and writing—what people frequently refer to as literacy. These topics range from how the organization of the human brain integrates its design for language with the cognitive demands of representing language in print to understanding the roles of human interaction and culture in the development of early literacy.

### LR S 396A-Z. Experimental Topics Courses (3)

#### LR S 433/F. Practicum in Early Literacy (2/1)

*Prerequisite: ENGL 301. Corequisite: LRS 333.* This is a practicum designed to extend information and concepts presented in LRS 333. The focus of this course is on the application of research in language, development and early literacy. The role of early intervention in the prevention of learning difficulties and concepts related to individual differences in reading and writing are examined. Students are required to connect theory with practice; reflect upon young children's and their own reading and writing; and design, implement and evaluate evidence-based instruction. 15 hours of supervised field work is required.

#### LR S 491. Capstone Seminar (3)

*Preparatory: FLIT 391 or HUM 391.* Intensive interdisciplinary study of an age, movement, problem, or theme, with emphasis on the application of cultural theory in interdisciplinary study. The topic of the seminar varies. Students will complete a senior project, such as a research paper or a creative performance that demonstrates the integrated knowledge, understanding and skills they have gained in the course of studies in the major. (Cross listed with FLIT 491 and HUM 491.)

### LR S 496A-Z. Experimental Topics Courses (3)

## Russian

Michael Neubauer, Coordinator

Administered by the Liberal Studies Program

(818) 677-3300

Minor in Russian (with Permission of Advisor)

### 1. Lower Division Required Courses (14 units)

|      |     |                            |
|------|-----|----------------------------|
| RUSS | 101 | Elementary Russian I (4)   |
| RUSS | 102 | Elementary Russian II (4)  |
| RUSS | 201 | Intermediate Russian I (3) |

#### Choose 1 course from the following:

|      |     |                                    |
|------|-----|------------------------------------|
| RUSS | 200 | Beginning Russian Conversation (3) |
| RUSS | 202 | Intermediate Russian Reading (3)   |

*These courses should be taken after consultation with the Advisor of the Russian program.*

### 2. Upper Division Required Courses (12 units)

A total of 12 units to be completed from the following 2 areas according to the student's interest and background (qualifications) and upon approval by the Russian advisor.

#### Area A: Language

|      |     |   |
|------|-----|---|
| RUSS | 308 | Translating and Interpreting (3)          |
| RUSS | 310 | Advanced Composition and Conversation (3) |
| RUSS | 407 | Advanced Commercial Correspondence (3)    |

#### Area B: Literature and Culture

|      |     |   |
|------|-----|---|
| RUSS | 380 | Russian Civilization (3)                          |
| RUSS | 390 | Russian Folklore: Slavic Myths and Traditions (3) |
| FLIT | 485 | Masterpieces of Russian Literature (3)            |

|                          |    |
|--------------------------|----|
| Total units in the Minor | 26 |
|--------------------------|----|

## Course List

### RUSS 101. Elementary Russian I (4)

*Not open to students who have attended schools where Russian was the language of instruction.* Study of the fundamentals of Russian—grammatical structures, reading, practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

### RUSS 102. Elementary Russian II (4)

*Prerequisite: Completion of RUSS 101 or equivalent.* *Not open to students who have attended schools where Russian was the language of instruction.* Continuation of the study of the fundamentals of Russian—grammatical structures, reading, practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

### RUSS 200. Beginning Russian Conversation (3)

*Prerequisite: RUSS 102 or instructor consent.* *Not open to students who have attended schools where Russian was the language of instruction.* Designed to develop the aural-oral skills of students of Russian, and to improve their fluency in spoken Russian. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

### RUSS 201. Intermediate Russian (3)

*Prerequisite: Completion of RUSS 102.* Brief review of grammar and study of more advanced grammatical concepts. Introduction to the reading of literature. May not be challenged if principal schooling has been in Russian. (Available for General Education, Comparative Cultural Studies.)

### RUSS 202. Intermediate Russian Reading (3)

*Prerequisite: RUSS 201.* Continuation of study of fundamentals and introduction to Russian literature. May not be challenged if principal schooling has been in Russian. (Available for General Education, Comparative Cultural Studies.)

### RUSS 310. Composition and Conversation I (3)

*Prerequisite: Completion of Lower Division courses or instructor consent.* Development of active use of oral and written Russian.

### RUSS 380. Russian Civilization (3)

*Prerequisite: Completion of the Lower Division writing requirement or instructor consent.* Study of the background of the salient features and institutions of contemporary Russian society.

### RUSS 407. Advanced Commercial Correspondence (3)

*Prerequisite: RUSS 307.* Builds on the skills acquired in RUSS 307 and enables students to conduct business correspondence in Russian on a professional level.

### RUSS 496A-Z. Experimental Topics Courses in Russian Literature (3)

Selected topics in Russian literature, with course content to be determined.

# Linguistics/TESL Program

## College of Humanities

**Coordinator: Evelyn McClave**

**Sierra Hall (SH) 396**

**(818) 677-5019**

**[www.csun.edu/linguistics](http://www.csun.edu/linguistics)**

### *Program Committee:*

Fredric Field (English), Catherine Jackson (Communication Disorders and Sciences), Anna Joaquin (Linguistics/TESL), Bessie Karras-Lazaris (Intensive English Program), Sharon Klein (English), Rebecca Litke (Communication Studies), Kenneth Luna (Modern and Classical Languages and Literatures), Evelyn McClave (English), Sabrina Peck (Elementary Education), Ana Sánchez-Muñoz (Chicana/o Studies), Enchao Shi (English)

### *Adjunct Faculty:*

Gaiaene Acopian, Joseph Galasso, Shadi Ganjavi, John Gides, Gayaneh Hagopian, Cynthia Hagstrom, Terrie Mathis, Christina M. Scholten, Wendy Snyder

### *Emeritus Faculty*

Joanna McKenzie

## Programs

Undergraduate:

**B.A., Linguistics**

**Minor in Linguistics**

**Minor in TESL (See TESL in the Catalog)**

Graduate:

**M.A., Linguistics**

**M.A., TESL**

Certificate:

**TESL Certificate (See TESL in the Catalog)**

## The Major

Linguistics studies human language, seeking to define its nature, to establish its relationship to human thought, to discover what distinguishes human language from other forms of communication (human and non-human), to understand how children develop a language and acquire additional ones, to understand the ways in which languages may differ from one another and to describe how human beings use language in context to engage in all the other “human” activities.

Presently, the Linguistics Major is, for the most part, an Upper Division Major. Four linguistics courses are available for GE credit at the 200- and 300-levels. Students are encouraged to complete their GE work and to pursue study in languages other than their native language in preparation for their work in Linguistics. Entering freshmen who are interested in Linguistics should consult with the Coordinator/Advisor.

## Careers

The questions that linguistics teaches students to ask about language are related to a wide range of fields and professions, including law, psychology, education, computer science and technology, anthropology and sociology, to name a few. Students who earn Bachelor's Degrees in Linguistics may seek careers in any of these fields, or may pursue advanced degrees in Linguistics and related fields.

The M.A. Degree in TESL, the TESL Minor and the TESL Certificate prepare students—each at different levels and with different applications—to teach English to speakers of other languages. For information on the TESL Minor and the TESL Certificate, see TESL in the Catalog.

## Academic Advising

The Linguistics/TESL Program helps students select the program and courses that best satisfy their individual needs and interests. Contact Program Coordinator Evelyn McClave at (818) 677-5019 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a major or minor in Linguistics/TESL are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

## Student Learning Outcomes of the Undergraduate Program

Graduates of the B.A. Degree Program in Linguistics will be able to:

1. Express what linguists mean by “knowing a human language” by demonstrating knowledge of such core fields as phonetics, phonology, morphology, syntax, semantics and pragmatics.
2. Verbalize what is involved in the acquisition and development of language, including its biological and social foundations.
3. Demonstrate a familiarity with the study of language in context in such fields as sociolinguistics, pragmatics and discourse analysis.
4. Demonstrate an ability to read, evaluate and write about linguistic topics.
5. Understand the connections between linguistic study and its practical applications.
6. Recognize and understand how sociocultural diversity manifests itself in language.

## Student Learning Outcomes of the Graduate Program in Linguistics

Graduates of the M.A. Degree in Linguistics Program will:

1. Demonstrate a solid knowledge of the core of linguistic theory.
2. Demonstrate understanding of how linguistics applies to a range of professional settings and to general issues at large.
3. Demonstrate understanding of how such fundamental knowledge in core disciplines of linguistics can be applied to a range of issues such as teaching language.
4. Demonstrate the ability to read, analyze and critically evaluate linguistic research, and demonstrate a high level of critical thinking and problem solving.
5. Demonstrate the ability to conduct original research, analyze data and make appropriate conclusions.

## Student Learning Outcomes of the Graduate Program in TESL

Graduates of the M.A. Degree in TESL Program will:

1. Demonstrate a basic knowledge of linguistic theory in phonetics, phonology, morphology and syntax.
2. Demonstrate a solid knowledge of TESL theory and methodology.
3. Demonstrate an understanding of how theories of language structure and theories of language in context can be applied in teaching language.
4. Demonstrate the ability to read, analyze and critically evaluate research, and demonstrate a high level of critical thinking and problem solving.
5. Demonstrate skills in the design of TESL testing and assessment, as well as TESL curriculum development.

## Requirements for the Bachelor of Arts Degree

### 1. Required Courses (24 units)

**Select 1 of the following Introductory Linguistics courses (3 units)**

|      |     |                                     |
|------|-----|-------------------------------------|
| ANTH | 310 | Anthropological Linguistics (3)*    |
| COMS | 420 | Language and Symbolic Processes (3) |
| ENGL | 301 | Language and Linguistics (3)        |

\*Students selecting ANTH 310 as their introductory course may apply this selection to the GE Comparative Cultural Studies requirement. They may do the same with 1 course in Foreign Language Study, for a total of 6 units, shared between the Major and GE.

**Core Courses in Linguistics (15 units)**

|         |     |  |
|---------|-----|--|
| LING    | 402 | Phonetics and Phonology (3)              |
| LING    | 404 | Morphology and Syntax (3)                |
| LING    | 408 | Semantics and Pragmatics (3)             |
| LING    | 417 | Language Development and Acquisition (3) |
| LING    | 441 | Sociolinguistics (3)                     |
| or LING | 427 | Languages in Contact (3)                 |

**Studies in a Foreign Language (6 units)**

Undergraduate majors are required to complete either A or B:

- A. Non-romance language: 2 semesters at the beginning level.  
 B. Romance language: 2 semesters at the intermediate level.

**Options (A. Elective Option, B. Minor Option)****A. The Elective Track (15 units)**

In consultation with the advisor, a student will select course work from the following set. Courses in other Departments or Programs may have prerequisites. Students should seek advising from the appropriate advisor in that Department as they select courses.

**Approved Elective Courses (15 units)**

|      |       |   |
|------|-------|---|
| ANTH | 360   | Immigration and Ethnicity (3)                                     |
| CD   | 442   | Speech Science (3)  |
| CD   | 462   | Language Disorders 1 (3)  |
| CHS  | 333   | Language and Society: Chicanas/os and Other Minority Children (3) |
| CHS  | 433   | Language Acquisition of the Chicana/o and ESL Speakers (3)        |
| CHS  | 482   | Language of the Barrio (3)  |
| COMP | 310   | Automata, Languages and Computation (3)                           |
| COMP | 333   | Concepts of Programming Languages (3)                             |
| COMP | 410   | Logic Programming (3)   |
| COMP | 469   | Introduction to Artificial Intelligence (3)                       |
| COMS | 350   | Nonverbal Communication (3)                                       |
| COMS | 356   | Intercultural Communication (3)                                   |
| COMS | 450   | Communication Research Methodology (3)                            |
| DEAF | 484   | Structure of American Sign Language (3)                           |
| DEAF | 485   | Issues in American Sign Language (3)                              |
| ENGL | 400   | History of the English Language (3)                               |
| ENGL | 405   | Language Differences and Language Change (3)                      |
| FREN | 389   | French Phonetics (3)  |
| FREN | 400   | Structure of the French Language (3)                              |
| ITAL | 305   | Structure of the Italian Language (3)                             |
| LING | 200   | (How) Language Matters (3)  |
| LING | 250   | Language(s) in California (3)                                     |
| LING | 310   | Language and the Law (3)  |
| LING | 325   | Language, Gender and Identity (3)                                 |
| LING | 407   | Language Varieties (3)  |
| LING | 427   | Languages in Contact (3)  |
| LING | 430   | Linguistic Introduction to Cognitive Science (3)                  |
| LING | 441   | Sociolinguistics (3)  |
| LING | 447   | Bilingualism in the U.S. (3)                                      |
| PAS  | 395   | Bilingualism in the African-American Community (3)                |
| PHIL | 355   | Philosophy of Mind (4)  |
| PHIL | 445   | Philosophy of Language (3)  |
| PHIL | 455   | Advanced Philosophy of Mind (3)                                   |
| PSY  | 367   | Cognitive Psychology (3)  |
| PSY  | 369   | Applied Cognition (3)   |
| SOC  | 364/L | Social Statistics and Lab (3/1)                                   |
| SPAN | 395   | Spanish Phonetics (3)   |
| SPAN | 400   | Structure of the Spanish Language (3)                             |

|      |     |  |
|------|-----|--|
| SPAN | 401 | Language and Culture (3)                         |
| SPAN | 497 | Comparative Structure of Spanish and English (3) |

**B. The Minor Option (18-30 units)**

In consultation with the Coordinator/Advisor and with the selected Department or Program, a student may complement the Linguistics Core with 1 of the following Minors or Concentrations:

**Approved Minors and Concentrations:**

American Indian Studies, Anthropology, Armenian Studies, Asian American Studies, Central American Studies, Chicana/o Studies, Classics, Communication Disorders and Sciences, Communication Studies, Computer Science, Deaf Studies, English, Teaching English as a Second Language (TESL), French, Italian, Japanese, Jewish Studies, Pan African Studies, Philosophy, Psychology, Russian, Sociology or Spanish.

|   |              |

| <b>Total Units in the Major</b>             | <b>39-54</b> |
| <b>General Education</b>                    | <b>48</b>    |
| <b>Additional Units</b>                     | <b>18-33</b> |
| <b>Total Units Required for B.A. Degree</b> | <b>120</b>   |

**Minor in Linguistics**

3 of the 21 units for the Minor are shared between the Minor and GE.

**1. Introduction to Linguistics (3 units)****Select 1 of the following courses:**

|      |     |                                     |
|------|-----|-------------------------------------|
| ANTH | 310 | Anthropological Linguistics (3)     |
| COMS | 420 | Language and Symbolic Processes (3) |
| ENGL | 301 | Language and Linguistics (3)        |

**2. Required Courses (15 units)**

|         |     |  |
|---------|-----|--|
| LING    | 402 | Phonetics and Phonology (3)              |
| LING    | 404 | Morphology and Syntax (3)                |
| LING    | 408 | Semantics and Pragmatics (3)             |
| LING    | 417 | Language Development and Acquisition (3) |
| LING    | 441 | Sociolinguistics (3)                     |
| or LING | 427 | Languages in Contact (3)                 |

**3. Electives (3 units)**

Select 1 course in consultation with the Advisor, from those listed in the Elective Track of the Major.

|  |           |
|--|-----------|
| <b>Total Units Required in the Minor</b> | <b>21</b> |
|--|-----------|

**General Admission Requirements for the M.A. Degree in Linguistics and the M.A. Degree in TESL**

Students should consult the Graduate Programs section of the Catalog for the University requirements.

Candidates must have a minimum GPA of 2.85 in the last 60 units of their B.A. Degree work and satisfy the University requirements for Graduate Admission. Students who have GPAs below 3.0 will be required to take the GRE and achieve at least 1 score at the 50th percentile or higher. A satisfactory GRE score must be submitted within 18 months of admission. International visa students must have a minimum TOEFL score of 563 (paper-based) or 223 (computer-based) or 85 (Internet-based), or an IELTS score of 7.

**Academic Standards for the M.A. Degree in Linguistics and the M.A. Degree in TESL**

**Prerequisites:** Students must earn a grade of "B" or higher in all prerequisite courses. Students who earn a grade of "B-" or lower in a prerequisite course may repeat up to 2 such courses for grade improvement. Students will be disqualified from the Program after receiving a third grade of "B-" or lower in prerequisite courses.

**Required Courses and Electives:****A. University regulations:**

Graduate students will be placed on academic probation whenever their GPA falls below 3.0 in all units attempted. To be removed from probation, students must earn sufficient grades in the following semester of enrollment to raise their GPA to 3.0 or above. Failure to do so will result in disqualification from the University. University regulations allow graduate students to repeat up to 6 units of credit in which a grade of “B-” or below has been received. (See Graduate Studies section of the Catalog.)

**B. Additional Regulations for the M.A. Degree in Linguistics and the M.A. Degree in TESL:**

1. Students will be disqualified from the Linguistics/TESL Program if they do not pass the comprehensive exam on their second attempt.
2. No grade below “B-” can be counted in the formal program. Any grade of “C+” or lower must be repeated. If the student does not receive a grade of “B-” or better on the second attempt, the student will be disqualified from the Linguistics/TESL Program. University regulations allow graduate students to repeat only up to 6 units. The repeat grade will appear on the transcript.

Students must request approval to repeat a course using the Course Repeat Request Form from the Program Coordinator/Advisor in advance of enrolling in the course.

**Requirements for the Master of Arts Degree in Linguistics**

Candidates completing the program leading to an M.A. Degree in Linguistics will have a fundamental understanding of the core areas in linguistics at an advanced level. In consultation with the Coordinator/Advisor, candidates build on the Core within their own Program in order to pursue more individual goals.

**A. Admission with Conditionally Classified Status:**

Candidates with undergraduate majors other than Linguistics may be admitted to the Linguistics Graduate Program as Conditionally Classified candidates if they meet the General Admission Requirements stated above. They will be expected to complete prerequisite course work equivalent to the 18-unit Core of the B.A. Degree: ENGL 301/ANTH 310; LING 402, 404, 408, 417; and 441 or 427.

**B. Admission with Classified Status:**

Candidates may be admitted to the Linguistics Graduate Program with Classified status if they have 18 or more units in B.A. Degree-level Linguistics courses equivalent to the CSUN core major, all units earned with a grade of “B” or higher. Additionally, Classified status requires: Successful completion of the UDWPE (Upper Division Writing Proficiency Exam) or CSU equivalent; (b) completion of a foreign language requirement (see below); and (c) Submission of a satisfactory GRE score where required. All M.A. Degree candidates must apply for Classified status before they complete more than 12 units above the Prerequisite level.

**C. Foreign Language Requirement:**

M.A. Degree candidates in Linguistics are required to demonstrate proficiency in a non-native language. Native speakers of English may satisfy this requirement in 1 of 3 ways: (1) Enroll for 2 semesters of course work in a non-Romance language or 3 semesters of course work in a Romance language after initial acceptance into the program; (2) Pass a Departmental examination set by the Department of Modern and Classical Languages and Literatures (MCLL); or (3) Submit a transcript showing that they hold a B.A. Degree with a Major in a foreign language completed within the previous 5 years. Students who are non-native speakers of English are exempt from this requirement.

Students who wish to demonstrate proficiency in ASL to satisfy this requirement should consult the Coordinator/Advisor. Students who choose to satisfy this requirement using course work must earn grades of “B” or higher in each foreign language course.

**D. Culminating Requirements:**

M.A. Degree candidates in Linguistics may select to complete their Degrees by taking a Comprehensive Exam or writing a Thesis. Students selecting the Comprehensive Exam will enroll in LING 697 in the semester during which they plan to take the examination. Students on probation or who have remaining incompletes will not be permitted to take the examination. Students who fail the examination at the first attempt will be required to register for the examination again the following semester. Students who fail the comprehensive examination a second time are disqualified from the Master’s Degree Program. Candidates wishing to write a Thesis should consult the Coordinator. Students in the Thesis option enroll in 3 units of LING 698C with the permission of and in consultation with the Coordinator/Advisor. Thesis units may not be offered every semester.

**E. Required Core Courses (9 units)**

|                         |   |
|-------------------------|---|
| LING 501                | Seminar in Phonology (3)  |
| LING 503<br>or LING 505 | Seminar in Cognitive Linguistics (3)<br>Seminar in Discourse Analysis (3) |
| LING 610                | Seminar in Syntax (3)   |

**F. Electives (18-21 units):**

In consultation with the Coordinator/Advisor, candidates will select either 21 units of course work and LING 697—Directed Comprehensive Studies (Comprehensive Examination), or 18 units of course work and LING 698C—Thesis. All course work must be from the 400-level and above and at least 12 elective units must be selected from 500 and 600-level courses. Coursework may include LING courses or courses in other Departments, in consultation with teaching faculty and with the Coordinator/Advisor. Candidates pursuing the M.A. Degree in Linguistics will consult with the Advisor and complete an Approved Program Form, reflecting the courses selected.

**G. Unit Count for M.A. in Linguistics****Students taking the Comprehensive Exam:**

|                                    |           |
|------------------------------------|-----------|
| Prerequisites                      | 18        |
| Foreign Language                   | 6 or 9    |
| Required Courses                   | 9         |
| Electives                          | 21        |
| Comprehensive Exam                 | 3         |
| <b>Total Units for M.A. Degree</b> | <b>57</b> |

**Students writing the Thesis:**

|  |           |
|--|-----------|
| Prerequisites                          | 18        |
| Foreign Language                       | 6 or 9    |
| Required Courses                       | 9         |
| Electives                              | 18        |
| Thesis                                 | 3         |
| <b>Total Units for the M.A. Degree</b> | <b>54</b> |

Students should be aware that theses require a minimum of two semesters of work even though only three units are earned.

## Requirements for the Master of Arts Degree in TESL

TESL (Teaching English as a Second Language) also is termed Teaching English to Speakers of Other Languages (TESOL) and is closely related to TEFL (Teaching English as a Foreign Language). TESL deals with teaching methods, principles, ways to teach different kinds of students, curriculum design, lesson planning, attention to the 4 skills (listening, speaking, reading and writing) and assessment. Along with its own focus, the field draws from research and methods in Linguistics, Education and other fields. This Degree is for candidates preparing to teach English to speakers of other languages.

### A. Admission Requirements

In addition to meeting the General Program Admission requirements stated above, applicants without a background in linguistics will be required to take LING 300—Approaches to Linguistic Analysis as a prerequisite during their first semester.

### B. Foreign Language Requirement

Students are required to take 2 semesters or equivalent of a language foreign to them. This requirement may be met with course work completed within 2 years of acceptance into the Program.

### C. Culminating Requirement:

M.A. Degree candidates in TESL complete their degrees by taking a Comprehensive Exam. Students will enroll in LING 697—Directed Comprehensive Studies in the semester during which they plan to take the examination. Students on probation or who have remaining incompletes will not be permitted to take the examination. Students who fail the examination at the first attempt will be required to register for the examination again the following semester. Students who fail the Comprehensive Examination a second time are disqualified from the Master's Program.

### D. Required Courses (36 units)

LING 402 Phonetics and Phonology (3)  
 LING 404 Morphology and Syntax (3)  
 LING 417 Language Development and Acquisition (3)  
 or CHS 433 The Chicana/o Child (3)  
 LING 502 Seminar in Second Language Acquisition (3)  
 LING 520 Issues in ESL Reading and Writing (3)  
 LING 521 Issues in ESL Listening and Speaking (3)  
 LING 525 English Structures for ESL/EFL Teaching (3)  
 LING 530 Introduction to TESL (3)  
 LING 555 TESL Practicum (3)  
 LING 566 Research Methods for Applied Linguistics (3)  
 LING 568 TESL Testing and Assessment (3)  
 ESL Methods for specific populations (Choose EED 570 or 577, or SED 529) (3)

### E. Electives (6 units) Partial List:

LING 501 Seminar in Phonology (3)  
 LING 503 Seminar in Cognitive Linguistics (3)  
 LING 505 Seminar in Discourse Analysis (3)  
 LING 515 Survey of Applied Linguistics (3)  
 For electives in other disciplines, see the Advisor or the Coordinator.

### F. Culminating Activity (3 units)

LING 697 Directed Comprehensive Studies

### G. Unit Count for M.A. Degree in TESL

|  |           |
|--|-----------|
| LING 300                               | 3         |
| Foreign Language                       | 6         |
| Required Courses                       | 36        |
| Electives                              | 6         |
| Comprehensive Exam                     | 3         |
| <b>Total Units for the M.A. Degree</b> | <b>54</b> |

## Course List

### LING 200. (How) Language Matters (3)

This course draws heavily from current issues in society to highlight the role of language. It explores strategies used to construct and reflect our identities (as skaters, rappers, school girls, nerds, etc.), to form new meanings and to accommodate popular new technologies (e.g., texting). This course also examines personal and societal perceptions and attitudes toward the language use and competence of others. Students will undertake a challenging, collaborative, hands-on analysis to appreciate (how) language matters. (Available for General Education, Arts and Humanities.)

### LING 250. Language(s) in California (3)

What are the languages of California? Who speaks them? What can discovering and examining the range of indigenous, diasporic and emerging languages in California tell us about our own relationships to language and languages, individually and collectively? This course looks at these questions, investigating, through its survey of California's languages, some fundamental linguistic and sociolinguistic ideas about language and languages. (Available for General Education, Comparative Cultural Studies.)

### LING 300. Approaches to Linguistic Analysis (3)

This course provides a comprehensive, in-depth and data-driven introduction to the questions that are raised in the major subfields of linguistics and to the prevailing scientific approaches that are applied to answer those questions. Students will learn foundational concepts of the field and learn to analyze linguistic data. Students also will learn how to describe language data and how to present linguistic arguments clearly, following the conventions that are customary in the field.

### LING 310. Language and the Law (3)

Determining what a written text or spoken utterance exactly conveys is nowhere more important than in the area of the law where subtle differences in wording can have drastic consequences in people's lives. This course examines how language is used and interpreted in legal settings by applying insights from the linguistic fields of semantics, pragmatics, discourse analysis and sociolinguistics. The course has lifelong relevance for every citizen, since we can expect to sign contracts, receive a jury summons or engage in many other ways with the law and legal documents. The course emphasizes active student participation and an explicit connection between theory and practice. Students will be expected to apply their acquired knowledge to practical and—wherever possible—current societal issues. (Available for General Education, Lifelong Learning.)

### LING 325. Language, Gender and Identity (3)

This course studies language as a major factor in our formation of self-identity and our conceptualization of ourselves and others as male or female. It provides a comprehensive introduction from a linguistic perspective to issues of language, gender, identity and power. (Available for General Education, Comparative Cultural Studies.)

**LING 402. Phonetics and Phonology (3)**

*Preparatory: ANTH 310, COM S 420 or ENGL 301.* Study of the physical and acoustical properties of sound in a variety of natural languages, as well as phonological analysis and rule formation in phonological systems.

**LING 404. Morphology and Syntax (3)**

*Preparatory: ANTH 310, COM S 420 or ENGL 301.* Analysis of morphological and syntactic structures in a variety of natural languages, including an examination of major grammatical theories.

**LING 407. Language Varieties (3)**

*Preparatory: ANTH 310, COM S 420 or ENGL 301.* Introduction to the study of language variation. Theoretical aspects of phonological, syntactic and semantic variation will be considered in their geographical and social context.

**LING 408. Semantics and Pragmatics (3)**

*Preparatory: ANTH 310, COM S 420 or ENGL 301.* Linguistic study of meaning and context of discourse and the relationship of such study to grammar.

**LING 417. Language Development and Acquisition (3)**

*Preparatory: Upper Division standing; Introduction to the study of language.* Required for both ITEP and Linguistics/TESL students and addresses topics linked to language arts and (T)ESL methods courses for students preparing to teach. Introduces students to the study of language development and acquisition, including such topics as approaches to the development of children's grammars, the development of communicative competence, definitions of bilingualism and multilingualism, relationships between language development and learning to read, issues particular to the multilingual nature of California, and issues related to exceptional language development.

**LING 427. Languages in Contact (3)**

*Preparatory: ANTH 310, COM S 420 or ENGL 301.* This course examines various effects of language contact—the occurrence of lexical and grammatical borrowing, such as borrowings between English and Spanish; the emergence of pidgins, creoles and mixed languages; and the process of language attrition or death in the context of a dominant language. The course also addresses the ways in which speakers in multilingual speech communities navigate between the languages that they speak and the language-planning efforts of multilingual communities that are aimed at controlling which language (variety) is used/taught in which setting, such as the use of ASL versus signed English. Much of this course focuses on issues of special relevance to multilingual speech communities in the U.S. and on language contact effects between English and such languages as Armenian, Spanish, Russian and Korean.

**LING 430. A Linguistic Introduction to Cognitive Science (3)**

*Preparatory: An introduction to linguistics.* Survey of the fields comprising Cognitive Science—linguistics, neurology, philosophy and psychology. Key issues addressed include the nature of symbolic representation, the ways in which we perceive and understand “input,” the nature of “thinking,” and the role of computational models in understanding aspects of human cognition and language.

**LING 441. Sociolinguistics (3)**

*Preparatory: ANTH 310, COM S 420 or ENGL 301.* Language in society. Examines linguistic behavior patterns as determined by such factors as age, gender, class, ethnicity, sexual orientation, region and social context.

**LING 447. Bilingualism in the U.S. (3)**

*Preparatory: ENGL 301.* Upper Division course dealing with concepts and controversies regarding bilingualism in the U.S. Students will gain an understanding of bilingual language acquisition (e.g., when

children acquire more than one language in the home or at school); bilingual language phenomena, such as code-switching; linguistic borrowing, transfer and interlanguage; and the controversies surrounding bilingualism in the U.S. education system and in society. Available for graduate credit.

**LING 496A-Z. Experimental Topics Courses (1-3)**

*Preparatory: Consent of instructor and Linguistics Program Coordinator.* Experimental courses in linguistics offered in other Departments are subject to approval by the Linguistics Program Coordinator.

**LING 499. Independent Study (1-3)**

*Preparatory: Consent of instructor and Linguistics Program Coordinator.*

## Graduate

---

**LING 501. Seminar in Phonology (3)**

*Prerequisite: LING 402 or equivalent.* Current issues in phonological theory.

**LING 502. Seminar in Research on Second Language Acquisition (3)**

*Prerequisites: LING 402; 404 or 417, or CHS 433.* Critical historical examination of research on 2nd-language acquisition. Study of analytical approaches, such as contrastive analysis, error analysis, performance analysis and discourse analysis, showing how different approaches reflect changing conceptions of language and the nature of language learners.

**LING 503. Seminar in Cognitive Linguistics (3)**

*Prerequisites: LING 402, 404, 408, 441; Introduction to linguistics.* Examination of recent theoretical developments in linguistics from the general perspective of cognitive science. Focus on 3 major areas: cognitive grammar, semantics and pragmatic dimensions of linguistic categorization, as well as the interface of cognition, experience and grammar in natural discourse.

**LING 504. Seminar in Sociolinguistics of American Sign Language (3)**

*Prerequisites: ANTH 310, COMS 420 or ENGL 301; LING 441; SPED 161.* Examination of sociolinguistic variables in American Sign Language.

**LING 505. Seminar in Discourse Analysis (3)**

*Prerequisite: LING 407, 408 or 441.* Seminar in the theoretical and methodological aspects of discourse analysis in a linguistic perspective.

**LING 515. Survey of Applied Linguistics (3)**

*Preparatory: Introduction to linguistics.* An introduction to multiple definitions of the field of applied linguistics and insight into the ways that scholars identify and define the concerns of the discipline. Included in the course will be an introductory survey of several specific areas of study that fall under the heading of Applied Linguistics.

**LING 520. Issues in ESL Reading and Writing (3)**

*Preparatory or Recommended Corequisite: LING 502.* Provides students with a foundation for understanding the processes of reading and writing—as well as the relationships between them—as they are experienced by adult second-language learners. Topics in the area of reading include skills and strategies that contribute to the second language learner's ability to read and to comprehend a variety of texts, and curricular design. Topics in writing include aspects of the composing process specific to second language students, the design of curriculum and assignments, and the effects of various types of responses to student writing.

**LING 521. Issues in ESL Listening and Speaking (3)**

*Preparatory or Recommended Corequisite: LING 502.* Provides students with a foundation for understanding the processes of listening and speaking as these are experienced by adult second-language learners. While the course focuses on the academic environment, it includes an examination of skills necessary for learners to comprehend a va-

riety of speakers in a range of spoken discourse types, covering both transactional and interactional situations. Also, factors that contribute to effective participation in conversations, including fluency and pronunciation, and cultural and universal rules of discourse are examined, bringing the areas of speaking and listening together in the context of curricular design.

**LING 525. English Structures for ESL/EFL Teaching (3)**

*Prerequisites:* ANTH 310 or COMS 420 or ENGL 301; LING 404. Provides a systematic description of the structures and usages of English grammar from the perspective of someone learning English as an additional language. Students focus on ways that such material may most effectively be presented to non-native speakers of English.

**LING 530. Introduction to TESL (3)**

This course prepares students for course work offered in the M.A. Degree in TESL Program and for careers in the TESL field. Students will learn the goals of an M.A. TESL student—acquire practical planning skills, examine the history of second and foreign language teaching, develop a basic knowledge of second language acquisition, use research tools in the library, acquire skill in observing and analyzing ESL classes, and become familiar with how to become a professional in ESL and TESL.

**LING 555. ESL Classroom Practices in Post-Secondary Academic Settings (3)**

*Prerequisites:* SED 529 or EED 570; 6 units from LING 520, 521 or 525. Linguistics 555 is designed to provide students knowledge of issues related to the teaching of English as a second language (ESL) to non-native speakers of English in post-secondary academic settings and also to provide students an opportunity to gain teaching experience through supervised practicum training. The focus will be either on concerns of teaching in intensive programs or in community college settings.

**LING 566. Research Methods for Linguistics (3)**

*General Track Prerequisite or Corequisites:* LING 417 or consent of the instructor. *Recommended preparatory:* LING 402 and 404. *TESL Track: Prerequisites or Corequisites:* LING 417, 530 or consent of the instructor. *Recommended Preparatory:* LING 402 and 404. An introduction to research in linguistics, including quantitative, qualitative and mixed methods research. Data collection and analysis are covered, along with methods for writing research reports.

**LING 568. TESL Testing and Assessment (3)**

This course is intended for students interested in exploring and practicing educational assessment and pursuing a career in TESL. In this course, students not only learn about assessment practices, but more specifically they become aware of the types of pre-, post- and in-class language assessment required to run an effective English language class and/or program. Students will become aware of the various assessment tools available to them, review criteria used to choose effective exams and practice techniques to design or select sound language tests to suit their needs and teaching circumstances.

**LING 589. Introduction to Celtic Languages (3)**

*Preparatory:* LING 402, 404. This course introduces the Celtic languages from the perspectives of a variety of subfields of linguistics. It covers the reconstruction of the ancient Celtic languages, a description of the phonology, morphology and syntax of the modern languages, and of issues arising from their status as minority languages under threat.

**LING 599A,B,C. Independent Study (1,2,3)**

*Prerequisites:* Consent of instructor and Linguistics Program Coordinator.

**LING 610. Seminar in Syntax (3)**

*Prerequisite:* ENGL 301 or equivalent. *Preparatory:* ENGL 302 and LING 404. In-depth study of current approaches to syntactic analysis.

**LING 696A,B,C. Directed Graduate Research (1,2,3)**

*Prerequisite:* Consent of Linguistics Program Coordinator.

**LING 697. Directed Comprehensive Studies (3)**

*Prerequisite:* Consent of Linguistics Program Coordinator. Enrollment required in the semester that the Comprehensive Examination is taken.

**LING 698C. Thesis (3)**

*Prerequisite:* Consent of Linguistics Program Coordinator.

**LING 699. Independent Study (1-3)**

*Prerequisite:* Classified graduate status; Consent of instructor and Linguistics Program Coordinator. Maximum of 6 units of 599 and 699 allowed in a student's program.

# Manufacturing Systems Engineering and Management

## College of Engineering and Computer Science

**Chair: Ileana Costea**  
Jacaranda Hall (JD) 4510  
(818) 677-2167  
[www.csun.edu/~msem](http://www.csun.edu/~msem)

*Office Manager*  
Teri Alvarado

*Faculty*  
Behzad Bavarian, Kang Chang, Robert Conner, Ileana Costea, Alireza Kabirian, Mark Rajai, Ahmad Sarfaraz, Tarek Shraibati,

*Emeritus Faculty*  
Bonita Campbell, Gerald Davis, Melvin Lifson, Arnold Roe, Jon Shively

### Programs

Undergraduate Degrees:  
B.S., Engineering Management  
B.S., Manufacturing Systems Engineering

### Accreditation

The B.S. in Manufacturing Systems Engineering Program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), (410) 347-7700.

### Undergraduate Minors:

Minor in Engineering Management  
Minor in Manufacturing Systems Engineering  
Minor in Automation and CAD/CAM

### Graduate Degrees:

M.S., Engineering Management  
M.S., Manufacturing Systems Engineering  
M.S., Materials Engineering  
M.S., Quality Management

### Certificate in Quality Management

### Mission Statement of the MSEM Department

Our mission is to prepare students for rewarding careers and higher education in engineering management, manufacturing systems engineering and materials engineering. Our graduates will be able to solve complex technical problems, address the needs of modern society, and pursue lifelong learning. The Department successfully guides students in their achievement of the educational objectives articulated for all undergraduate engineering programs at CSUN, and acquisition and development of the specialized knowledge and skills essential to their professional practice of manufacturing systems engineering, materials engineering and engineering management for the betterment of society, as well as competence in the design, implementation and management of contemporary manufacturing and production methods and systems.

### MSEM Department Undergraduate Programs

More than two-thirds of all engineering professionals invest a significant portion of their career in managing and administering a wide range of technical engineering and research projects and budgets. As the engineering profession evolves, an increasing need has emerged for entry-level engineering professionals who have both a broad engineering background and the knowledge and ability to interface between the business and technical functions of organizations. Undergraduate engineering majors learn engineering fundamentals, together with the art

and science of planning, organizing, allocating resources and directing and controlling activities in technological environments. The Bachelor of Science Degree Programs in Manufacturing Systems Engineering and Engineering Management equip entry-level engineers with knowledge of the business of engineering, making them valuable to their employers and ensuring future professional growth. These Programs are ideal for students who enjoy people and technology, the technical challenges of engineering, and the opportunity to integrate higher-level organizational considerations into technological decision-making processes. The MSEM Undergraduate Engineering Degree Programs include studies in basic mathematics and sciences, the engineering sciences, manufacturing systems engineering and engineering management disciplinary studies, and technical electives, as well as general education. The selection of technical electives can be tailored to particular areas of student interest. The team project experiences in many courses approximate the professional environment that graduates will encounter in their future careers. Program culminating experiences include community service learning course projects and Capstone course design projects. Students also have access to well-equipped laboratories, including computing laboratories with the discipline-specific software essential to achieving program objectives.

Students have opportunities to participate in the technical and social activities sponsored by the student chapters of many professional organizations. Program majors also are eligible to apply for internships in the Honors Co-op Program hosted by the College, as well as a variety of scholarships and awards.

Small classes are taught by a group of dedicated faculty who among them hold several outstanding teaching and faculty awards, are nationally and internationally recognized for their technical publications, work in engineering professional organizations, and have engineering and management experience in industry to share with their students.

Engineering Management and Manufacturing Systems Engineering students have opportunities to participate in technical and social activities sponsored by student chapters of such professional societies as SAMPE (Society for the Advancement of Material and Process Engineering), ASM International (formerly the American Society for Metals International), and SME (Society of Manufacturing Engineers) and ASQ (American Society for Quality, as well as interdisciplinary student organizations in the College, such as Tau Beta Pi, the Society of Women Engineers (SWE), the National Society for Black Engineers (NSBE) and the Society for Hispanic Professional Engineers (SHPE). Program majors are also eligible to apply for internships in the Honors Co-op Program hosted by the College, as well as a variety of scholarships and awards.

### Academic Advisement

The MSEM faculty is committed to providing a supportive student-centered environment for its majors. All majors meet with their assigned faculty advisors for academic advisement. Contact Ileana Costea at (818) 677-2167 for information about any Undergraduate or Graduate Programs.

### Community Relations and Department Industrial Liaison Council

The MSEM Department maintains strong relations with the community. We continuously review our Programs with students, alumni, and employers of our graduates. The Department's Industrial Liaison Council consists of members in the professional community to ensure that we receive a breadth of information on future engineering trends that would affect our Programs.

### Bachelor of Science in Engineering Management (EM)

More than two-thirds of all engineering professionals invest a significant portion of their career in managing and administering a wide range of technical engineering and research projects and budgets. As

the engineering profession evolves, an increasing need has emerged for entry-level engineering professionals who have both a broad engineering background and the knowledge and ability to interface between the business and technical functions of organizations.

Undergraduate Engineering Management majors learn engineering fundamentals, together with the art and science of planning, organizing, allocating resources, and directing and controlling activities in technological environments. The Bachelor of Science Degree in Engineering Management equips entry-level engineers with knowledge of the business of engineering, making them valuable to their employers and ensuring future professional growth. For students who enjoy people and technology, the technical challenges of engineering and the opportunity to integrate higher-level organizational considerations into technological decision-making processes, engineering management is an ideal program of study.

The Undergraduate Engineering Management Degree Program includes studies in basic mathematics and sciences, the engineering sciences, engineering management disciplinary studies and technical electives, as well as general education. The selection of technical electives can be tailored to particular areas of student interest. The team project experiences in many courses approximate the professional environment that graduates will encounter in their future careers. Program culminating experiences include community service learning course projects and Capstone course design projects. Students also have access to well-equipped laboratories, including computing laboratories with discipline-specific software programs that are essential to achievement of program objectives.

### Engineering Management Educational Program Objectives

The Bachelor of Science in Engineering Management provides graduates with a broad education with core competencies in engineering fundamentals which, allows them to:

1. Practice engineering management creatively, safely and responsibly in the global environment;
2. Maintain professional currency in engineering management;
3. Provide leadership for and communicate effectively in a team-based environment; and
4. Demonstrate awareness of the ethical and societal impact of professional practice

### Student Learning Outcomes of the Undergraduate Program in Engineering Management

Graduates of the Bachelor of Science in Engineering Management at CSUN will have:

- a. The ability to apply knowledge of mathematics, science and engineering to engineering management;
- b. The ability to design and conduct experiments, as well as to analyze and interpret data;
- c. The ability to design and manage effective systems, processes and environments for contemporary technological organizations;
- d. The ability to function productively on multicultural and multidisciplinary teams;
- e. The ability to identify, formulate and solve engineering problems;
- f. The ability to understand, practice and nurture professional and ethical responsibilities;
- g. The ability to communicate effectively in both the written and spoken modes;
- h. The intellectual and educational breadth necessary for understanding the impact of engineering management solutions in a global and societal context;
- i. A recognition of the need for professional currency, and an ability to engage in perpetual learning;

- j. A knowledge of contemporary issues in society, as well as those of the profession;
- k. The ability to select and use the contemporary methods, techniques, skills and tools necessary for effective engineering management practice;
- l. The ability to discern and assess the relationship between engineering management functions and the human element in technological organizations;
- m. The ability to treat the uncertainties inherent in engineering management; and
- n. The ability to integrate engineering management systems in technological environments.

### Requirements for the Bachelor of Science In Engineering Management

This Program is based on an expectation of adequate high-school preparation in science, mathematics and English. Science courses should include chemistry or physics, both of which are desirable. High school mathematics courses should include algebra, plane geometry and trigonometry. Four years of English are required. Beginning students must take (or be exempt from) the Entry Level Mathematics Test, and the Mathematics, Chemistry and English Placement Tests before registration in basic courses is permitted.

Students who have not had an adequate background of pre-engineering work in high school may be required to complete some additional work in their first-year and may not be able to complete the Program in 8semesters. Students are referred to the section of the University Catalog titled Appendices-Admission regarding rules and regulations as to earned college credit.

### Special Grade Requirements

A grade of "C-" or better is required in all courses in the major. The Mathematics Department requires a "C" grade in its prerequisite courses. A grade of "C" or better is required in all undergraduate transfer courses.

### Unit Requirements

The following unit requirements are necessary for the B.S. Degree in Engineering Management:

#### General Education (27 units)

**General Education:** Engineering Management majors have modified General Education programs depending upon the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education program.

In addition to the required Major Program Courses, Engineering Management majors must satisfactorily complete General Education Plan R requirements in Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); U.S. History and Local Government (6 units); Arts and Humanities (6 units); Social Sciences (3 units); and Comparative Cultural Studies (6 units). 6 of the General Education Plan R units must be at the Upper Division.

Students should carefully consult their 4-year plan and confer with their faculty advisor when selecting their General Education Plan R courses.

#### Total Units in the EM Major (93 units)

#### 1. Lower Division Required Courses (44 units)

##### Freshman Year

|      |         |   |
|------|---------|---|
| CHEM | 101/L   | General Chemistry I and Lab (4/1)         |
| MATH | 150A    | Calculus I (5)                            |
| MATH | 150B    | Calculus II (5)                           |
| MSE  | 101/L   | Introduction to Engineering and Lab (1/1) |
| PHYS | 220A/AL | Mechanics and Lab (3/1)                   |

##### Sophomore Year

|      |     |                                    |
|------|-----|------------------------------------|
| MATH | 250 | Calculus III (3)                   |
| MATH | 280 | Applied Differential Equations (3) |

MSE 227/L Engineering Materials and Lab (3/1)  
 MSE 248/L Engineering CAD Graphics and Lab (2/1)  
 PHYS 220B/BL Electricity and Magnetism and Lab (3/1)  
 With faculty advisor approval, the student selects 6 units from 2 Departments from the courses below:

CE 240 Engineering Statics (3)  
 ECE 240 EE Fundamentals (3)  
 ME 209 ME Design (2/1)  
 and ME 209 ME Design and Programming for ME (2/1)  
 ME 186/L Computer Aided Design/CAD Lab  
 and ME 209 Programming for ME (1/1/1)

**2. Upper Division Required Courses (37 units)**

**Junior Year**

MSE 304 Engineering Economic Analysis (3)  
 MSE 362 Engineering Statistical Applications (3)  
 MSE 401 Introduction to Engineering and Technology Management (3)  
 MSE 402 Engineering Project Management (3)  
 MSE 406 Engineering Cost Analysis (3)  
 MSE 407 Production Systems (3)

**Senior Year**

MSE 403CS Facilities Planning and Design (3)  
 MSE 410/L Production Systems Modeling and Lab (2/1)  
 MSE 415 Product Design (3)  
 MSE 488A MSEM Senior Design I (2)  
 MSE 488BCS MSEM Senior Design II (2)

**With faculty advisor approval, select 2 courses from:**

AM 316 Engineering Dynamics (3)  
 CE 340 Strength of Materials (3)  
 ECE 320 Theory of Digital Systems (3)  
 ME 370 Thermodynamics (3)  
 ME 375 Heat Transfer I (3)

**3. Upper Division Major Elective Courses (12 units)**

With faculty advisor approval, select 4 courses from among department 400-level and /or 500-level courses.

|   |            |
|---|------------|
| <b>Total Units in the Major</b>                 | <b>93</b>  |
| <b>General Education Units</b>                  | <b>27</b>  |
| <b>Total Units Required for the B.S. Degree</b> | <b>120</b> |

**Bachelor of Science In Manufacturing Systems Engineering (MSE)**

Manufacturing Systems Engineers turn ideas into reality. They play key roles in the creation of almost every single product that you see or use, from clothing to computers, from automobiles to space shuttles, from frozen foods to toys. The challenges of creating and using new materials to meet future needs, relieving human drudgery by automating dangerous and onerous production processes, and forming and leading teams of engineering experts are all examples of a few of the numerous opportunities for which the Manufacturing Systems Engineering Program prepares its students.

Manufacturing Systems Engineering majors at CSUN receive a solid, broad-based education. The Program is designed to ensure student intellectual growth in 4 primary proficiency areas:  
 (1) The design and manufacture of products; (2) The design of manufacturing systems; (3) Materials and manufacturing processes; and (4) The management of production processes and resources.

Individual and team assignments on projects and in laboratories provide students with numerous opportunities to develop their technical, design, leadership, communication, management and team skills. Students in the Manufacturing Systems Engineering Program have the opportunity to work on projects in 9 laboratories:

(1) Advanced Corrosion Lab, (2) W. M. KeckAdvanced Materials Lab, (3) Boeing Automation Engineering Lab, (4) CAE Design Lab, (5) Fracture Mechanics Lab, (6) MacDonald CAD Graphics Lab, (7) Manufacturing Processes Lab, (8) MSEM Design Projects Lab, and (9) Pickett Engineering Materials Lab.

In senior design, Manufacturing Systems Engineering students also use the real world as their basic lab by executing real projects in local industry. Projects have included design and production of competition robot, and design and fabrication of such products as a folding pickup truck bed extender; a tool chest; a grape seed oil extractor; an automated storage unit; design and development of a CD-ROM counter; design of an improved packaging process for industrial adhesives and polymers; planning and design of a facility for electronics manufacturing; plant layout design for the production of a medical patient monitor; and development of an ISO-9000 quality assurance system.

Small classes are taught by a group of dedicated faculty who among them hold several outstanding teaching and faculty awards, are nationally and internationally recognized for their technical publications, work in engineering professional organizations and have engineering and management experience in industry to share with their students.

Manufacturing Systems Engineering students have opportunities to participate in student chapters of such professional societies as Society for the Advancement of Material and Process Engineering (SAMPE), ASM International (formerly the American Society for Metals International), Society of Manufacturing Engineers (SME) and American Society for Quality (ASQ), as well as interdisciplinary student organizations in the College, such as Tau Beta Pi, the Society of Women Engineers (SWE), the National Society for Black Engineers (NSBE) and the Society for Hispanic Professional Engineers (SHPE).

**Accreditation**

The B.S. in Manufacturing Systems Engineering Program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), (410) 347-7700.

**Manufacturing Systems Engineering Educational Program Objectives**

The Bachelor of Science in Manufacturing Systems Engineering Provides graduates with a broad education with core competencies in engineering fundamentals, which allows them to:

1. Practice manufacturing systems engineering creatively, safely and responsibly in the global environment;
2. Maintain professional currency in manufacturing systems engineering;
3. Provide leadership for and communicate effectively in a team-based environment; and
4. Demonstrate awareness of the ethical and societal impact of professional practice

**Student Learning Outcomes of the Undergraduate Program in Manufacturing Systems Engineering**

Graduates of the Bachelor of Science Degree in Manufacturing Systems Engineering at CSUN will have:

- a. An ability to apply knowledge of mathematics, science and engineering;
- b. An ability to design and conduct experiments, as well as to analyze and interpret data;
- c. An ability to design and manage effective systems, processes and environments for contemporary manufacturing enterprises;

A  
B  
C  
D  
E  
F  
G  
H  
I  
J  
K

Z

- d. An ability to function productively on multicultural and multidisciplinary teams;
- e. An ability to identify, formulate and solve manufacturing systems engineering problems;
- f. An ability to understand, practice and nurture professional and ethical responsibilities;
- g. An ability to communicate effectively in both the written and spoken modes;
- h. The intellectual and educational breadth necessary for understanding the impact of manufacturing systems engineering solutions in a global and societal context;
- i. A recognition of the need for professional currency, and an ability to engage in perpetual learning;
- j. A knowledge of contemporary issues in society, as well as those of the profession;
- k. An ability to use the contemporary techniques, skills and tools necessary for effective manufacturing systems engineering practice;
- l. An understanding of the behavior and properties of materials as they are altered and influenced by processing in manufacturing;
- m. An understanding of the design of products, and the equipment, tooling and environment necessary for their manufacture;
- n. An understanding of the creation of competitive advantage through effective management of contemporary manufacturing enterprises;
- o. An ability to apply advanced methods to the analysis, synthesis, and control of manufacturing systems; and
- p. An ability to measure manufacturing process variables and draw credible technical inferences.

### Careers

Manufacturing Systems Engineering is a growing discipline area in the engineering profession. Four of the 7 technology areas that have been identified for rapid development by the National Science Foundation—Advanced Manufacturing Technologies, Advanced Materials and Processing, Biotechnology, and Health Care Delivery Systems—are particularly well-suited for the talents of the manufacturing systems engineer. Employment opportunities abound in the metropolitan Los Angeles area, the leading manufacturing region in the United States.

On the job, manufacturing systems engineers develop new facilities, create computer models and images of products and processes, manage the production process, conduct productivity studies, test products and evaluate materials, trouble-shoot on the factory floor and work hand-in-hand with design engineers. Because their background is broad and the types of work are so varied, these engineers find opportunities in fields besides manufacturing, applying their skills and knowledge in such diverse environments as hospitals, entertainment firms and consulting firms. Many manufacturing systems engineers are noted for starting their own companies or pursuing engineering management career paths in large companies.

Although most manufacturing systems engineers are employed in private industry, others pursue careers with government agencies or educational institutions. The Degree can be used as a stepping-stone to graduate work in engineering, law, business or even medicine. Many Manufacturing Systems Engineering graduates return to CSUN to earn their M.S. Degree in the Engineering Management, Manufacturing Systems Engineering or Materials Engineering Programs.

### Special Grade Requirements

A grade of “C-” or better is required in all courses in the major. The Mathematics Department requires a “C” grade in its prerequisite courses. A grade of “C” or better is required in all undergraduate transfer courses.

## Requirements for the Bachelor of Science in Manufacturing Systems Engineering

This program is based on an expectation of adequate high-school preparation in science, mathematics and English. High school courses should include algebra, plane geometry, trigonometry and chemistry or physics (both desirable), and four years of English. Beginning engineering students must take the Entry Level Mathematics Test and the Mathematics, Chemistry and English Placement Tests before registration in basic courses will be permitted.

Students should refer to the Appendices section of the Catalog for admission rules and regulations. Students who have not had an adequate background of pre-engineering work in high school may be required to take some additional work in their first-year and may not be able to complete an engineering program in 8 semesters.

### 1. Lower Division Required Courses (45 units)

#### Freshman Year

|      |         |  |
|------|---------|--|
| CHEM | 101/L   | General Chemistry I and Lab (4/1)          |
| MATH | 150A    | Calculus I (5)                             |
| MATH | 150B    | Calculus II (5)                            |
| MSE  | 101/L   | Introduction to Engineering, and Lab (1/1) |
| PHYS | 220A/AL | Mechanics and Lab (3/1)                    |

#### Sophomore Year

|      |         |   |
|------|---------|---|
| CE   | 240     | Engineering Statics (3)                           |
| ECE  | 240/L   | Electrical Engineering Fundamentals and Lab (3/1) |
| MATH | 250     | Calculus III (3)                                  |
| MATH | 280     | Applied Differential Equations (3)                |
| MSE  | 227/L   | Engineering Materials and Lab (3/1)               |
| MSE  | 248/L   | Engineering CAD and Graphics and Lab (2/1)        |
| PHYS | 220B/BL | Electricity and Magnetism and Lab (3/1)           |

### 2. Upper Division Required Courses (37 units)

#### Junior Year

|     |           |  |
|-----|-----------|--|
| AM  | 316       | Engineering Dynamics (3)                 |
|     | or ME 370 | Thermodynamics (3)                       |
| CE  | 340       | Strength of Materials (3)                |
| MSE | 304       | Engineering Economy (3)                  |
| MSE | 362       | Engineering Statistical Applications (3) |
| MSE | 402       | Engineering Project Management (3)       |
| MSE | 407       | Manufacturing Systems (3)                |
| MSE | 409/L     | Fundamentals of CAM and Lab (2/1)        |
| MSE | 412/L     | Manufacturing Processes and Lab (2/1)    |

#### Senior Year

|     |        |  |
|-----|--------|--|
| MSE | 403CS  | Facilities Planning and Design (3)       |
| MSE | 410/L  | Manufacturing Systems Modeling/Lab (2/1) |
| MSE | 415    | Product Design (3)                       |
| MSE | 488A   | MSEM Senior Design I (2)                 |
| MSE | 488BCS | MSEM Senior Design II (2)                |

### 3. Upper Division Major Elective Courses (12 units)

Select 4 courses from among department 400-level and/or 500-level courses.

**General Education:** Manufacturing Systems Engineering majors have modified General Education programs depending upon the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs.

In addition to the required Major Program Courses, Manufacturing Systems Engineering majors must satisfactorily complete General Education Plan R requirements in Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); U.S. History and Local Government (6 units); Arts and Humanities (6 units); Social

Sciences (3 units); and Comparative Cultural Studies (6 units). 9 of the General Education Plan R units must be at the Upper Division, 2 course units must meet the Information Competence requirement. MSE majors may count MSE 248/L in Lifelong Learning.

Students should carefully consult their 4-year plan and confer with their faculty advisor when selecting their General Education Plan R courses.

### Minor in Engineering Management

The Department of Manufacturing Systems Engineering and Management offers an Undergraduate Minor in Engineering Management. The Engineering Management Minor develops the skills in team building, interpersonal communications, decision making, project management, leadership and quality management that employers are increasingly looking for in both engineers and scientists, as well as, in other employees in advanced technology organizations. For students who enjoy people and technology, the technical challenges of engineering and the opportunity to integrate higher-level organizational considerations into technological decision-making processes, engineering management is an ideal program of study.

This Minor is intended primarily for students with majors in engineering and science, such as all of the Engineering programs, Computer Science, Physics, Chemistry, Applied Mathematics, Geology or Biology. Students with majors in other disciplines who may be interested in this minor should consult with an MSEM Department advisor to determine its appropriateness to their educational objectives.

### Requirements

Applicants for the minor in Engineering Management must be juniors or seniors with a declared major and a minimum GPA of 2.0. The Minor requires completion of 18 credit hours of course work with a minimum grade point average of 2.0 in the courses taken toward the Minor.

### Student Learning Objectives

Students who complete the Minor in Engineering Management at CSUN will demonstrate:

1. The technical and managerial abilities to apply knowledge of engineering to the design, analysis and integration of effective management systems in contemporary technological environments;
2. The intellectual breadth and lifelong intellectual curiosity required to practice management creatively, sensitively and responsibly in contemporary global and societal environments;
3. The ability to communicate effectively and to function productively on multicultural and multidisciplinary teams; and
4. the desire and ability to preserve the nobility of the technical profession in its dedication to the welfare of society by nurturing ethical and professional responsibilities.

### Curriculum

The course work for the Minor in Engineering Management involves extensive writing assignments, oral presentations and group projects, and is designed to develop the skills needed for rapid advancement in either industrial or government organizations. 18 credit hours of course work is required to meet the requirements for the Minor in Engineering Management. 4 courses are required, MSE 362, 401, 402 and 406. Students may choose 2 of these elective courses—MSE 407, 504, 505 or 507—to complete the requirements for the Minor.

### 1. Prerequisite Course

MSE 304 Engineering Economic Analysis (3)

### 2. Required Courses (12 units)

MSE 362 Engineering Statistical Applications (3)

MSE 401 Introduction to Engineering and Technology Management (3)

MSE 402 Engineering Project Management (3)

MSE 406 Engineering Cost Analysis (3)

### 3. Elective Courses (6 units)

MSE 407 Manufacturing Systems (3)

MSE 504 Engineering Management (3)

MSE 505 Engineering Decision/Risk Analysis (3)

MSE 507 Lean Manufacturing Systems (3)

|   |           |
|---|-----------|
| <b>Total Units Required for the Minor</b> | <b>18</b> |

### Minor In Manufacturing Systems Engineering

Almost half of all engineering positions are in or related to manufacturing. This Minor is designed to augment undergraduate studies in engineering and closely related fields to facilitate student opportunities for achievement in a manufacturing environment. Some students may find it necessary to complete selected prerequisite courses in mathematics, chemistry, physics and/or engineering.

### Student Learning Outcomes

Students who complete the Minor in Manufacturing Systems Engineering at CSUN will demonstrate:

1. An understanding of the behavior and properties of materials as they are altered and influenced by processing in manufacturing;
2. An understanding of the design of products, and the equipment, tooling and environment necessary for their manufacture;
3. An understanding of the creation of competitive advantage through effective management of contemporary manufacturing enterprises;
4. An ability to apply advanced methods to the analysis, synthesis and control of manufacturing systems; and
5. An ability to measure manufacturing process variables and draw credible technical inferences.

These student learning outcomes are consistent with proficiency area criteria assessed in accord with ABET (Accreditation Board for Engineering and Technology) requirements for Manufacturing and similarly named engineering programs.

### 1. Required Courses (12 units)

MSE 362 Engineering Statistical Applications (3)

MSE 407 Manufacturing Systems (3)

MSE 409/L Fundamentals of Computer-Aided Manufacturing and Lab (2/1)

MSE 412/L Manufacturing Processes and Lab (2/1)

### 2. Elective Courses (6 units)

Each student must complete 2 courses selected from the list provided below. In some circumstances, other elective selections may be suitable when approved in advance by the Department.

MSE 402 Engineering Project Management (3)

MSE 403CS Facilities Planning and Design (3)

MSE 410/L Manufacturing Systems Modeling and Lab (2/1)

MSE 415 Product Design (3)

|   |           |
|---|-----------|
| <b>Total Units Required for the Minor</b> | <b>18</b> |
|---|-----------|

### Minor in Automation and CAD/CAM

Many professional career positions are in functional areas in which knowledge and skills in automation technology and in computer-aided design and manufacturing are an integral part of the product design and implementation processes. This Minor is structured to augment undergraduate studies in engineering and related areas so as to facilitate student opportunities for access to and achievement in these professional career positions. Some students may find it necessary to complete selected pre-requisite courses in mathematics, chemistry, physics and/or engineering.

#### 1. Required Courses (9 units)

|     |       |  |
|-----|-------|--|
| MSE | 248/L | Engineering CAD and Graphics (2/1)                         |
| MSE | 410/L | Manufacturing Systems Modeling and Lab (2/1)               |
| MSE | 409/L | Fundamentals of Computer-Aided Manufacturing and Lab (2/1) |

#### 2. Elective Courses (9 units)

Each student must complete 3 elective courses that have been selected with the guidance of a faculty advisor. The courses selected are expected to be consistent with student background and interests, as well as Program suitability and coherence. All electives must be approved in advance by the Department.

### Requirements for the Master of Science in Engineering Management

Taught by faculty with professional engineering management experience, the Engineering Management Program offers engineers and other technical professionals the opportunity to develop technical management and entrepreneurial skills pertinent to the management of existing and emerging technologies. The Program stresses the development of technological decision-making abilities, while also enabling continued intellectual growth in an area that meets professional needs. Engineering Management Program graduates have been assuming leadership roles in industry since the early 1970s.

#### M.S. in Engineering Management Program Objectives

The goals of the Master of Science in Engineering Management Program are to provide opportunities for:

1. The development of technical management decision-making abilities;
2. The acquisition of knowledge about the management of existing and emerging technologies;
3. The development of technical professional employee management skills;
4. The acquisition of knowledge of engineering cost, financial and economic analysis; and
5. Continued intellectual growth in a discipline-related area.

#### A. Requirements for Admission to the Program

1. Satisfaction of all requirements for Graduate Admission to the University.
2. Approval by the Department Graduate Coordinator.

#### B. Requirements for Advancement to Classified Status

1. Satisfaction of University requirements for Classified status.
2. Approval of program of study plan by assigned faculty advisor.
3. Approval by the Department Graduate Coordinator.

#### C. Special Requirements

1. This Program is intended primarily for students holding a B.S. in Engineering or other technical field. Prospective students who work in technical environments and hold degrees in non-technical fields should contact the Department to discuss additional prerequisite courses with a faculty advisor.

2. Students entering the Program are expected to have completed Engineering Management (MSE 504) or equivalent. Admitted students who have not completed such a course as part of an Undergraduate Program may complete the course as part of their Graduate Degree Program of study.
3. No more than 6 units of advisor-approved 400-level courses may be included in the Graduate Program of study.

#### Required Courses

##### 1. Required Core Courses (18 units)

|     |      |  |
|-----|------|--|
| MSE | 601A | Engineering Statistics I (3)                 |
| MSE | 602  | Advanced Engineering Management (3)          |
| MSE | 604  | Economic Analysis of Engineering Systems (3) |
| MSE | 606A | Engineering Operations Research I (3)        |
| MSE | 608B | Management of Engineering Professionals (3)  |
| MSE | 608C | Engineering Financial and Cost Analysis (3)  |

##### 2. Culminating Experience (3 units)

|     |        |   |
|-----|--------|---|
| MSE | 697MGT | Engineering Management Directed Comprehensive Studies (3) |
|-----|--------|---|

Classified students in the M.S. Degree in Engineering Management Program after satisfying 27 units and with Graduate Coordinator permission can take this course. Preparation and completion of written four comprehensive case studies complete the Culminating Experience requirement for M.S. Degree in Engineering Management.

##### 3. Electives (12 units)

Elective courses are selected in consultation with a faculty advisor. At least 6 of the 12 units must be selected from approved courses in the Department. No more than 6 of the 12 units may be at the 400-level. Frequently selected electives in Engineering Management include MSE 402, 407, 504, 505, 507, 601B, 606B, 617 and 618. Discipline electives in Automation and CAD/CAM, Computer Science, Electrical Engineering, Manufacturing Systems, Materials Engineering, Mechanical Engineering and Structural Engineering also are appropriate.

### Requirements for the Master of Science in Materials Engineering

To meet the technological needs of industry, the Master of Science in Materials Engineering Program creatively combines opportunities for intellectual and experiential growth in engineering materials and processes. Access to exceptional state-of-the-art laboratories enables the development of advanced expertise in materials characterization, with projects addressing nanotechnology, MEMS, sensors, smart materials, microelectronics, optoelectronics, biomaterials and environmentally assisted cracking of advanced materials.

#### M.S. in Materials Engineering Program Objectives

The goals of the Master of Science Degree in Materials Engineering Program are to:

1. Enhance student knowledge of fundamental materials engineering principles;
2. Expand student knowledge of nontraditional materials, such as composites and electronic materials;
3. Increase student knowledge of materials failure mechanisms;
4. Develop student expertise in laboratory research methods in materials engineering;
5. Enable student intellectual growth in discipline-related areas; and
6. Meet the needs of the regional industrial community for qualified materials engineering expertise.

#### A. Requirements for Admission to the Program:

1. Satisfaction of all requirements for Graduate Admission to the University.
2. Approval by the Department Graduate Coordinator.

**B. Requirements for Advancement to Classified Status:**

1. Satisfaction of University requirements for Classified status.
2. Approval of program of study plan by assigned faculty advisor.
3. Approval by the Department Graduate Coordinator.

**C. Special Requirements:**

1. This program is intended primarily for students holding a B.S. degree in a closely related field of science or engineering. Prospective students whose undergraduate degree is not in a closely related field should discuss additional prerequisite courses with the Program Director.
2. No more than 6 units of advisor-approved 400-level courses may be included in the graduate program of study.

**Required Courses****1. Required Core Courses (12 units)**

|     |       |   |
|-----|-------|---|
| MSE | 527/L | Mechanical Behavior of Materials (2/1)    |
| MSE | 528/L | Principles of Materials Engineering (2/1) |
| MSE | 624   | Failure Analysis (3)                      |
| MSE | 629   | Phase Transformations (3)                 |

**2. Culminating Requirements (6 units)**

|     |        |  |
|-----|--------|--|
| MSE | 690    | Materials Engineering Research Practicum (3)             |
| MSE | 697MTL | Materials Engineering Directed Comprehensive Studies (3) |

**3. Advisor-Approved Electives (15 units)**

Recommended electives, selected with faculty advisor guidance and approval, include MEMS Fabrication (MSE 512), NDE Methods and Analyses (MSE 513), Corrosion (MSE 531), Biomaterials (MSE 536), Thin Film Technology (MSE 550), Nanomaterials and Nanotechnology (MSE 556), Composite Materials (MSE 623) and Electronic Materials (MSE 630). Other electives may be suitable for meeting individual student program goals.

**Requirements for the Master of Science In Manufacturing Systems Engineering**

The Master of Science in Manufacturing Systems Engineering facilitates in-depth knowledge of manufacturing systems based on engineering principles. The core foundation in computer-based and automated design, manufacturing and assembly is complimented by expertise in selected areas, such as automation and CAD/CAM, materials and processes, and quality and management. The evolving curriculum, contemporary laboratory facilities and internationally published faculty enable students and practicing professionals to pursue a versatile field of study having a wide range of career opportunities. The Program places its graduates in the academic community and in every facet of industry.

**M.S. in Manufacturing Systems Engineering Program Objectives**

The goals of the Master of Science Degree in Manufacturing Systems Engineering Program are to:

1. Expand student knowledge of manufacturing systems engineering principles;
2. Ensure student understanding of breadth and depth of manufacturing environments;
3. Enable student expertise in at least one of the following:
  - a. capabilities in automation and CAD/CAM manufacturing systems; *or*
  - b. understanding the behavior and properties of materials and processes; *or*
  - c. competencies in quality and management engineering; and
4. Develop student knowledge and abilities needed in the industrial community.

**A. Requirements for Admission to the Program**

1. Satisfaction of all requirements for Graduate Admission to the University.
2. Approval by the Department Graduate Coordinator.

**B. Requirements for Advancement to Classified Graduate Status**

1. Satisfaction of University requirements for Classified status.
2. Approval of program of study by assigned advisor.
3. Approval by the Department Graduate Coordinator.

**C. Special Requirements**

1. This Program is intended primarily for students holding a B.S. Degree in Engineering, Computer Science or a related technical field. Prospective students who work in technical environments and hold degrees in non-technical fields should contact the Department to discuss any prerequisite courses with a faculty advisor. .
2. No more than 6 units of advisor-approved 400-level courses may be included in the graduate program of study.

**Required Courses (33 units)****1. Required Core Courses (12 units)**

|     |       |  |
|-----|-------|--|
| MSE | 508/L | CAD/CAM/ Systems and Lab (2/1)           |
| MSE | 511/L | Robotics with Applications and Lab (2/1) |
| MSE | 603   | Computer Integrated Manufacturing (3)    |
| MSE | 614   | Intelligent Manufacturing (3)            |

**2. Required Specialization Courses (6 units)**

Each student must choose 1 of the 3 areas of specialization as given below:

**Automation and CAD/CAM**

|     |       |  |
|-----|-------|--|
| MSE | 509   | CAM Systems (3)                          |
| MSE | 516/L | CAD/CAM Advanced Tools and Lab (2/1)     |
| MSE | 611   | Robotics and Programmable Automation (3) |
| MSE | 609   | Advanced Topics in CAD/CAM (3)           |

**Materials and Processes**

|     |       |   |
|-----|-------|---|
| MSE | 512   | Fundamentals of MEMS Fabrication (3)              |
| MSE | 513   | NDE Methods and Analyses (3)                      |
| MSE | 527/L | Mechanical Behavior of Materials and Lab (2/1)    |
| MSE | 528/L | Principles of Materials Engineering and Lab (2/1) |

**Quality and Management**

|     |      |                                      |
|-----|------|--------------------------------------|
| MSE | 504  | Engineering Management (3)           |
| MSE | 601A | Engineering Statistics I (3)         |
| MSE | 604  | Economic Analyses of Engineering (3) |
| MSE | 617  | Seminar in Quality Management (3)    |
| MSE | 618  | Six Sigma Quality Engineering (3)    |

**3. Culminating Experience (3 units)**

|     |        |  |
|-----|--------|--|
| MSE | 697MSE | Manufacturing Systems Directed Comprehensive Studies (3) |
|-----|--------|--|

**4. Advisor Approved Electives (12 units)**

Recommended electives require faculty advisor guidance and approval, and can be selected from courses offered by the department, with the limitation of a maximum of 2 400-level courses. Other electives may be suitable for meeting individual student program goals.

**Master of Science in Quality Management**

The CSUN M.S. Degree in Quality Management prepares engineers, scientists, engineering managers and other technical professionals to initiate and manage quality improvement projects. It is designed for those currently in quality management roles, as well as for those who expect to assume them.

Those who earn CSUN's Quality Management M.S. Degree will acquire the knowledge necessary to initiate supply chain management programs and quality improvement programs such as Six Sigma and lean manufacturing. Courses will provide a thorough grounding in quality improvement

tools and such techniques as statistical process control (SPC), statistical quality control (SQC), design of experiments (DOE), Six Sigma, Five S program, lean manufacturing and total quality management (TQM).

### M.S. Degree in Quality Management Program Objectives

1. To equip graduates with knowledge of various statistical and quality improvement techniques;
2. To equip graduates with technical tools that help incorporate lean and problem-solving techniques within the Six Sigma methodology;
3. To provide graduates the technical knowledge necessary to supervise large-scale quality management projects;
4. To provide graduates the theoretical knowledge required for Six Sigma quality improvement certification; and
5. To give graduates the knowledge and confidence necessary to advance in the quality management field.

### Who Should Apply?

1. Engineers, scientists, engineering managers and other technical professionals who currently hold quality-management roles who seek the updated knowledge that will help them improve their effectiveness and advance in their careers;
1. Engineers, scientists, engineering managers and other technical professionals who want to prepare themselves for quality-management positions and require the necessary training; and
3. Current undergraduate or graduate students in engineering, science or business disciplines.

### Educational Prerequisites

Students planning to enroll in this Graduate Degree Program are recommended to have a Bachelor's Degree in engineering, science, management, business or a related field. A background in statistics, mathematics and business management also is advised.

### Program Course Work

Students enrolled in the Master Degree in Quality Management Program typically take advanced classes in the following areas:

- Quality management theory and practice
- Quality production
- Quality management systems development
- Process control and capability in relation to quality assurance
- Statistical methods for quality control
- Six Sigma methodology
- Quality managerial finance
- Quantitative analysis

### Careers

Students with a Master's Degree in Quality Management Engineering typically choose such careers:

- Manufacturing plant manager
- Operational excellence manager
- Continuous improvement manager
- Quality control system designer
- Research and development engineer

### A. Requirements for Admission to the Program

1. Satisfaction of all requirements for graduate admission to the University.
2. Approval by the Department Graduate Coordinator.

### B. Requirements for Advancement to Classified Status

1. Satisfaction of University requirements for classified status (WPE, GRE and GPA).
2. Approval by the Department Graduate Coordinator.

### C. Special Requirements

1. This Program is intended primarily for students holding a B.S. in Engineering or other technical fields. Prospective students who work in technical environments and hold degrees in non-technical fields should contact the Department to discuss additional prerequisite courses with a faculty advisor.
2. Students entering the Program are expected to have completed Engineering Statistics (MSE 362) and Engineering Economic Analysis (MSE 304) or equivalent. Admitted students who have not completed such courses as part of an undergraduate program may complete these courses at CSUN.
3. No more than 6 units of advisor-approved 400-level courses may be included in the graduate program of study.

### Program Course Requirements

The Master's Degree Program in Quality Management requires the completion of 33 units of course work to be distributed among required Core courses and advisor approved quality specialization elective courses and directed comprehension studies.

#### Required Core Courses (15 units)

|     |     |                                    |
|-----|-----|------------------------------------|
| MSE | 514 | Reliability Maintainability (3)    |
| MSE | 507 | Lean Manufacturing Systems (3)     |
| MSE | 617 | Quality Management (3)             |
| MSE | 618 | Six Sigma Quality Engineering (3)  |
| SOM | 467 | Quality Management and Control (3) |

#### Recommended Elective Courses (15 units)

|     |      |   |
|-----|------|---|
| MSE | 402  | Engineering Project Management (3)                  |
| MSE | 505  | Engineering Decision Analysis (3)                   |
| MSE | 601A | Engineering Statistics (3)                          |
| MSE | 602  | Engineering Innovation Management (3)               |
| MSE | 604  | Economic Analysis of Engineering (3)                |
| MSE | 608A | Seminar in International Engineering Management (3) |
| MSE | 608C | Financial and Cost Analysis (3)                     |
| SOM | 416  | Supply Chain Management (3)                         |
| SOM | 667  | Total Quality Management (3)                        |

#### Culminating Experience Requirement (3 units)

|     |     |                                |
|-----|-----|--------------------------------|
| MSE | 697 | Directed Comprehensive Studies |
|-----|-----|--------------------------------|

Classified students in Quality Management after satisfying 27 units and Graduate Coordinator permission can take this course. Preparation and completion of 4 written comprehensive case studies complete the culminating experience requirement for M.S. Degree in Quality Management.

### Certificate In Quality Management

The Quality Management Certificate Program is designed for Post-Baccalaureate individuals seeking access to or advancement in quality-related professions. Certified individuals will have knowledge of fundamental principles of quality management and control, lean processes, quality applications in project or service environments, and specialized quality management methods. Certified personnel will contribute to meeting industry and government needs for professionals in quality-related positions. The Quality Management Certificate Program is offered in collaboration with the Department of Systems and Operations Management.

### A. Requirements for Admission

Admission to the Quality Management Certificate Program requires that applicants: (1) Hold a Bachelor's Degree from an accredited institution; (2) Provide evidence of satisfactory completion of an undergraduate statistical methods course, such as SOM 307 or MSE 362, within four years of admission to the Program; (3) Provide evidence of basic work processing and spreadsheets software skills; and (4) Be approved by the Department Graduate Coordinator.

**B. Program Course Requirements**

The Quality Management Certificate Program is structured with 6 units of required course work and 9 units of restricted elective courses for a total of 15 semester units. There are two sets of restricted elective courses, and at least one 3-unit course must be selected from each set.

**1. Required program Core (6 units)**

Select 2 units from:

|     |     |                                    |
|-----|-----|------------------------------------|
| SOM | 467 | Quality Management and Control (3) |
| SOM | 667 | Total Quality Management (3)       |

Complete the following course:

|     |     |                                |
|-----|-----|--------------------------------|
| MSE | 507 | Lean Manufacturing Systems (3) |
|-----|-----|--------------------------------|

**2. Program Electives (9 units)**

Select at least 3 units from:

|     |     |                                     |
|-----|-----|-------------------------------------|
| SOM | 466 | Project Management (3)              |
| SOM | 468 | Managing for Service Excellence (3) |
| SOM | 666 | Project Planning and Policy (3)     |

Select at least 3 units from:

|     |      |                                     |
|-----|------|-------------------------------------|
| MSE | 513  | NDE Methods and Analysis (3)        |
| MSE | 514  | Reliability and Maintainability (3) |
| MSE | 601B | Engineering Statistics II (3)       |
| MSE | 617  | Seminar in Quality Management (3)   |
| MSE | 618  | Six Sigma Quality Engineering (3)   |

**C. Certificate Program Completion Requirements**

Criteria for the awarding of the Certificate in Quality Management are:

1. Complete the 15 units of program course requirements with a minimum program GPA of 3.0;
2. Earn no grade lower than a "B-" in any individual course.
3. Satisfactorily complete all program course requirements within 3 years of program admission; and
4. Submit application for the award of the Certificate to the Department Graduate Coordinator.

**Course List****MSE 101/L. Introduction to Engineering and Lab (1/1)**

*Corequisite: MSE 101L.* Introduction to the engineering profession and academic programs. Orientation to the University, the College and its Departments. Development of study, communication, problem-solving, design, analytical and computing skills. Introduction to internet, word processing, spread sheet, computer-aided design and presentation software. Design project development and team experience. 1 hour lecture-discussion, 3 hours lab per week. (Design units: 0.5) (Available to Civil Engineering majors for General Education, Lifelong Learning.)

**MSE 105. Introduction to Computer-Aided Graphics Tools (3)**

Introduction to the use of computer-aided (CA) graphics tools. Development of skills and techniques in graphical, pictorial and rotational representation. Students will be able to work on an individual project tailored to meet the needs of their field of study, and post their project on the Web. Not available for credit toward an Engineering Degree. (Available for General Education, Lifelong Learning.) (IC)

**MSE 106. Introduction to CAD Animation (3)**

Introduction to the use of tools to animate CAD and other objects. Development of skills and techniques to construct or import and animate, 2- and 3-dimensional objects. Animation in an interactive environment. Students will be able to work on an individual project related to their field of study, and post the project on their own web page. Not available for credit toward an Engineering Degree. (Available for General Education, Lifelong Learning.) (IC)

**MSE 196A-Z. Experimental Topics Courses in Manufacturing Systems Engineering (1-4)****MSE 220/L. Construction Materials and Lab (2/1)**

*Prerequisite: PHYS 100A/L. Corequisite: MSE 220L.* Introduction to basic construction materials and their properties, including concrete, masonry, metals, woods and thermal materials. Introduction to finishes, equipment, and specialty items. Not available for credit toward an Engineering Degree. 2 hours lecture-discussion, 3 hours technical activity-lab per week.

**MSE 227. Engineering Materials (3)**

*Prerequisite: MATH 150A. Preparatory: CHEM 101/L; PHYS 220A/L.* Introductory course in engineering materials, including metals, ceramics, polymers and composites. Study of atomic and crystalline structures of materials. Application of basic principles to study of mechanical, physical and chemical behavior of materials. Selection of materials in engineering applications based on above criteria. Design project on materials properties, selection or application. 3 hours lecture per week. (Design units: 0.25)

**MSE 227L. Engineering Materials Lab (1)**

*Prerequisite: MATH 150A. Preparatory: CHEM 101/L; MSE 224; PHYS 220A/L.* Introductory lab course in engineering materials and their properties. Includes experiments in mechanical properties, heat treatment, metallography, corrosion properties and X-ray diffraction. Course culminates in a special project in which students identify, design and perform an experiment of their choosing. One 3-hour lab per week. (Design units: 0.25)

**MSE 248/L. Engineering Cad and Graphics and Lab (2/1)**

*Prerequisite: MATH 250. Corequisite: MSE 248L.* Development of concepts and skills in engineering graphics and computer-aided design (CAD). Reading, interpretation and preparation of working drawings; dimensioning and tolerances; and interpretation of blueprints. Orthographic and isometric representations; auxiliary and sectional views. 3-dimensional solid modeling. Application of CAD graphics in the design and development of an assembly. 2 hours lecture-discussion, 3 hours lab per week. (Design units: 1.0) (May be used in General Education, Lifelong Learning if required by student's major.)

**MSE 292CS. MSEM Robotics Project (2-2-2)**

*Prerequisite: Restricted to students selected to participate in an MSEM Robotics Project.* This course entails the application of engineering theory and practice to a robotics engineering project. Service and mentoring concepts, instruction and practice are integral to the learning experience. This course offers a community service opportunity with activities relating to concepts and theories presented. May be repeated twice for credit. 6 hours lab per week.

**MSE 296A-Z. Experimental Topics Courses in Manufacturing Systems Engineering (1-4)****Upper Division****MSE 300. Construction Technology Economy (3)**

*Prerequisites: ACCT 220; BLAW 280; ECON 160.* Applications of engineering economy and capital investment analyses for construction management technology. Evaluation of project cash flows incorporating effective interest rates, inflation, price and wage rate changes, and uncertainty and risk. Considerations of national fiscal and monetary policy impact on project planning and analysis. Not available for credit toward an Engineering Degree. 3 hours lecture-discussion per week. (Available for General Education, Social Sciences if required by a student's major.)

**MSE 302. Women in Mathematics, Science and Engineering (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Exploration of the activities, contributions, and struggles of women in mathematics, science, engineering and related areas and professions, such as computer science. Research on individual women engaged in these fields. Investigation of different international, ethnic and culture-based practices and perspectives. Consideration of policy-related issues and intervention strategies addressing the participation and achievement of women in pertinent areas of study. (Available for General Education, Comparative Cultural Studies.) (IC)

**MSE 303. Innovation, Invention and Technology (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Exploration of the history, processes, methods and creators of technological innovations and inventions. Global contributions, creator diversity and technological failures are addressed. Critical assessments of technological innovation and invention. Not available for credit toward an Engineering Degree. (Available for General Education, Lifelong Learning.) (IC)

**MSE 304. Engineering Economic Analysis (3)**

*Prerequisites:* MATH 150B; Completion of the Lower Division writing requirement. Systematic evaluation of the economic benefits and costs of projects involving engineering design and analysis. Economic decision making in an environment of limited resources and uncertainty. Present economy, the economy of multi-year projects, selection among competing independent alternatives, sensitivity of outcomes to input parameters, before and after tax analyses, replacement economy, inflation and breakeven analysis in production environments are discussed. (Design units: 0.5) (Available to Civil Engineering majors for General Education, Social Sciences.)

**MSE 315. Green Product Development: Design for Sustainability (3)**

Management of innovation processes for sustainable products, from product definition to sustainable manufacturing and financial models. Students design and develop a product or service focused on sustainability. Processes for collecting customer and user needs data, prioritizing that data, developing a product specification, sketching and building product prototypes, and interacting with the customer/community during product development are covered. The course is intended as a very hands-on experience in the "green" product development process and includes new product development, green product strategic alignment; product planning; sustainable businesses, and life cycle analysis (LCA) for sustainability. (Available for General Education, Lifelong Learning.)

**MSE 362. Engineering Statistical Applications (3)**

*Prerequisites:* CE 240; MATH 250. Development and application of probabilistic and statistical methods for selected classes of engineering design and analysis problems. Applications to product and structural design, engineering experiments and processes, and the reliability of engineering systems.

**MSE 392. Undergraduate Research Program (3-3)**

*Prerequisite:* Enrollment restricted to students selected to participate in the Undergraduate Research Program. The course provides faculty mentoring and guidance to selected undergraduate students in the development of their research skills. The course includes a combination of lecture-discussion, lab experimental research, literature research, field work, research presentations and other learning experiences. May be repeated for credit. (Design units: Varies)

**MSE 396A-Z. Experimental Topics Courses in Manufacturing Systems Engineering (1-4)****MSE 401. Introduction to Engineering and Technology Management (3)**

*Recommended Preparatory:* MSE 304, 362. An introduction to the roles of the engineer in managing engineering and technology activities. Responsibilities of engineering and technology managers, and transitioning into these roles. Challenges and risks in engineering and technology management. Available for graduate credit.

**MSE 402. Engineering Project Management (3)**

*Prerequisite:* MSE 362 or equivalent. The engineering project management process, from the feasibility stage through project close out. Topics include project initiation, project screening and selection, organizational and project structure, time and cost estimation, budgeting, developing work plans, scheduling resources, managing risk, tracking work, managing teams, partnership projects and close out. Students learn to use appropriate software to assist with the project-management process. (Design units: 0.5)

**MSE 403CS. Facilities Planning and Design (3)**

*Prerequisite:* MSE 248/L or equivalent, or graduate status. Basic concepts in the planning and design of manufacturing facilities, product analysis, manufacturing processes and equipment selection, and schedule design; flow, space, activity relationships and space planning; location and layout; material handling systems; and facilities planning models. Offers a community service opportunity with activities relating to concepts and theories presented. (Design units: 1.5)

**MSE 406. Engineering Cost Analysis (3)**

*Recommended Preparatory:* MSE 304, 362. Principles of cost analysis and estimating for the evaluation of engineering design and production, with emphasis on evaluating innovations and inventions. Case studies and practical application experiences. Available for graduate credit.

**MSE 407. Manufacturing Systems (3)**

*Prerequisite:* Instructor consent. Principles, practices and methodologies of manufacturing systems. Effective design and implementation of manufacturing operations, production, control, quality and automated systems. (Design units: 1.0)

**MSE 409/L. Fundamentals of Computer-Aided Manufacturing and Lab (2/1)**

*Prerequisite:* MSE 248/L or equivalent, or graduate status. *Corequisite:* MSE 409L. Topics in computer-aided manufacturing (CAM). Fixed, programmable and flexible automation; numerical control technology; manual NC programming; post-processing; graphical NC programming; and NC programming with CAD/CAM systems. Selection and design of tooling. 2 hours lecture-discussion, 3 hours of lab per week. (Design units: 1.5)

**MSE 410/L. Production Systems Modeling and Lab (2/1)**

*Prerequisite:* Instructor consent. *Corequisite:* MSE 410L. Design and analysis of production systems. Fixed, flexible, and programmable automation. Modeling and simulation of alternative production systems in conjunction with the systems-design process. 2 hours lecture-discussion, 3 hours lab per week. Available for graduate credit. (Design units: 2.5)

**MSE 412/L. Manufacturing Process and Lab (2/1)**

*Prerequisites:* MSE 227/L, 248/L; CE 240. *Corequisite:* MSE 412L. Manufacturing processes for cost-effective, high-quality production. Consideration of technical capabilities and limitations of alternative methods. Includes forming, removal, casting, joining, heat treating, molding, finishing and coating. Course project required. Laboratory experiments include heat treating, deep drawing, powder metallurgy, casting, injection molding, fabricating composites, friction coefficients analysis and milled surface evaluation. 2 hours lecture-recitation, 3 hours lab per week. Available for graduate credit. (Design units: 1.5)

**MSE 415. Product Design (3)**

*Prerequisite:* MSE 412/L or graduate status. Engineering principles and practices of product design. Applications of process design for manufacturing engineering. Approaches to design for manufacture (DFM) and design for assembly (DFA). (Design units: 2.0)

**MSE 488A. MSEM Senior Design I (2)**

*Prerequisites:* Satisfactory completion of all major courses in years 1-3 of the 4-year program plan; Permission of the instructor; Passing score on the Upper Division Writing Proficiency Exam. Student teams engage in complex engineering design projects subject to multiple realistic constraints. Economic, environmental, social, political, ethical, health and safety, manufacturability, sustainability and other relevant factors are addressed. Formal design reviews demonstrating written and oral communication skills are required. MSE 488A and MSE 488BCS must be completed during the same academic year. 6 hours of lab per week. Not available for Graduate Degree Program credit. Offered Fall semester. (Design units: 2.0)

**MSE 488BCS. MSEM Senior Design II (2)**

*Prerequisite:* MSE 488A. Continuation of MSE 488A. Includes a community service opportunity with activities relating to concepts and theories presented. MSE 488A and 488BCS must be completed during the same academic year. 6 hours of lab per week. Not available for Graduate Degree Program credit. Offered Spring semester. (Design units: 2.0)

**MSE 492. Advanced Undergraduate Research Program (3-3-3-3)**

*Prerequisites:* MSE 392; Enrollment restricted to students selected to participate in the Undergraduate Research Program. This course provides faculty mentoring and guidance to selected undergraduate students in the development of their research skills. The course includes a combination of lecture-discussion, lab experimental research, literature research, field work, research presentations and other learning experiences. May be repeated for credit. (Design units: Varies)

**MSE 494A, B, C. Academic Internship (1, 2, 3)**

*Prerequisite:* Senior or graduate standing in a major in the Department of Manufacturing Systems Engineering and Management; Prior approval of the Department Internship Coordinator; Good standing as a matriculated student. Supervised practical professional experience relevant to the field of study in approved public or private organizations. Learning contracts and written reports required. Students may earn up to 3 units credit per semester and up to 6 units total. Units earned may not be used to fulfill Major Program requirements. (Credit/No Credit only)

**MSE 496A-Z. Experimental Topics Courses in Manufacturing Systems Engineering (1-4)****MSE 498AA, AB, AC. Supervised Individual Project (1, 2 or 3)**

*Prerequisite:* Instructor Consent. Individual student field-study projects supervised by individual faculty.

**MSE 499A-C. Independent Study (1-3)**

*Prerequisites:* Senior or graduate standing in Manufacturing Systems Engineering; Written approvals of the faculty sponsor and the Department Chair. Admission is based on evidence of ability to pursue independent study in depth and on approval of a proposal submitted prior to registration in the course. (Design units: Varies)

**Graduate**

Note that 300-level courses in Manufacturing Systems Engineering do not carry credit toward a Master's Degree in Engineering.

**MSE 504. Engineering Management (3)**

*Prerequisite:* Instructor consent. Principles and applications for effective management of technology projects, people, budgets and schedules. Organizing and motivating people, and controlling activities. Managing research, development, design, marketing and production functions in engineering and technology. Ethical considerations in engineering and technology management. (Design units: 0.5)

**MSE 505. Engineering Decision Analysis (3)**

*Preparatory:* MSE 362 or equivalent. Introduction to decision- and risk-analysis methods in the context of engineering. Organizing frameworks for the synthesis, analysis and evaluation of complex unstructured engineering problems and situations. (Design units: 1.0)

**MSE 507. Lean Manufacturing Systems (3)**

*Prerequisite:* MSE 407 or instructor consent. Concepts and principles of lean manufacturing systems. Methods and tools for application to manufacturing systems improvement. Practices and projects for effective design and implementation of lean manufacturing operation, production, control and quality systems.

**MSE 508/L. CAD/CAM Systems and Lab (2/1)**

*Prerequisite:* Instructor Consent. *Corequisite:* MSE 508L. Concepts and applications of computer-aided design and manufacturing systems. 3-dimensional geometric modeling, surface and solid modeling, and finite element modeling and analysis. Data exchange standards. Survey and evaluation of commercial CAD/CAM systems. Computer integrated manufacturing and management systems, and e-factory implementation. Emphasis on advanced modeling tools and applications. 2 hours lecture-discussion, 3 hours lab per week. (Design units: 1.0)

**MSE 509. Computer-Aided Manufacturing Systems (3)**

*Prerequisite:* MSE 409/L or equivalent. Introduction to the design of computer-aided manufacturing systems. Concepts and principles of computer-aided manufacturing programming language development. Methods, tools, practices and projects for design and implementation of computer-aided manufacturing systems.

**MSE 511/L. Robotics with Applications and Lab (2/1)**

*Prerequisite:* Instructor consent. *Corequisite:* MSE 511L. Fundamentals of robotics and robot applications. Topics include control system components, end effectors, sensors, programming, robotic cell design and programmable automation. 2 hours lecture-discussion, 3 hours of lab per week. (Design units: 2.0)

**MSE 512. Fundamentals of MEMS Fabrication (3)**

*Prerequisite:* Instructor consent. Introduction to MEMS technology. Working principles of microsystems, engineering science for microsystem design and fabrication, materials for MEMS and microsystems, fabrication processes, micromanufacturing, packaging, CAD for MEMS design and assembly, and CIM integration for fabrication.

**MSE 513. NDE Methods and Analyses (3)**

*Prerequisite:* Instructor Consent. Study of the methods of measuring quality in manufacturing products, including metrology and non-destructive evaluation (NDE) methods; radiographic, ultrasonic, surface examination; and acoustic emission. The capability limitations and economics of the methods of gathering and interpreting data for measurement of quality. Reliability engineering topics introduced. (Design units: 1.5)

**MSE 514. Reliability and Maintainability (3)**

*Recommended Preparatory:* MSE 362 or equivalent. Reliability and maintainability as design parameters. Assessing and verifying design reliability, maintainability and failure modes. Applications of reliability design methodology. (Design units: 1.0)

**MSE 516/L. CAD/CAM Advanced Tools and Lab (2/1)**

*Prerequisite:* Instructor consent. *Corequisite:* MSE 516L. Advanced approaches to 2- and 3-dimensional computer-aided design and manufacturing. Part and assembly design, stress and mock-up using such advanced tools as CATIA. Design projects and applications. 2 hours lecture-discussion, 3 hours lab per week.

**MSE 517. CAD/CAM Advanced Applications and Lab (2/1)**

*Prerequisite:* MSE 516/L or instructor consent. *Corequisite:* MSE 517L. Examination and employment of advanced CAD/CAM tools throughout the product manufacturing life cycle. Applications to product and fabrication sequences modeling, and to the evaluation of product behavior during automated processes and assembly operations in the production system. 2 hours lecture-discussion, 3 hours lab per week.

**MSE 527/L. Mechanical Behavior of Materials and Lab (2/1)**

*Prerequisite:* Instructor consent. *Corequisite:* 527L. Relationships between mechanical behavior and materials structure. Elements of creep and fracture of metals, ceramics and composites. Introduction to linear-elastic fracture mechanics and its application to design and environmentally-assisted cracking lab methods for evaluating structural property relationships; fracture toughness measurements; and engineering applications to the design of structures and pressure vessels. Fatigue analysis and failure analysis methods. 2 hours lecture-discussion, 3 hours lab per week. (Design units: 1.0)

**MSE 528/L. Principles of Materials Engineering and Lab (2/1)**

*Prerequisite:* Instructor consent. *Corequisite:* MSE 528L. Study of the principles governing the selection, treatment and use of metals and alloys. Introduction to crystal structures, their imperfections and the effect on diffusion, and phase transformations. The application of thermodynamic laws to metallic alloys; solid solutions; alloying and solubility in solids; and metal/metal, metal/liquid and metal/gas interactions. 2 hours of lecture-discussion, 3 hours of lab per week. (Design units: 1.0)

**MSE 531. Corrosion (3)**

*Prerequisite:* Instructor consent. Corrosion and oxidation, thermodynamics of corrosion, electrochemical fundamentals, aqueous corrosion, oxidation, kinetics of corrosion, corrosion rates, corrosion mechanisms, Wagner Theory of Oxidation and corrosion prevention are examined. (Design units: 0.5)

**MSE 536. Introduction to Advanced Biomaterials (3)**

*Prerequisite:* Instructor consent. The interaction between the human body environment and synthetic materials, including materials for medical implants and for dental restoration and appliances is explored. Tissue engineering, biosensing, imaging and drug delivery interact directly with biomaterials. Consideration of new technologies that depend on overcoming present material limits, and improving material/biological environment interactions.

**MSE 550. Thin Film Technology (3)**

*Prerequisite:* Instructor consent. The basic processes for the deposition of films and coatings. Physical vapor deposition (PVD); evaporation, sputtering and ion plating, chemical vapor deposition (CVD) and plasma-assisted chemical vapor deposition (PACVD); electrodeposition and electroless plating. Thermal spraying, plasma spraying and detonation gun technologies. The scientific background, basic processes, as well as relationships and applications of each process will be discussed. (Design units: 0.5)

**MSE 556. Nanomaterials and Nanotechnology (3)**

*Prerequisite:* Instructor consent. Introduction to nanotechnology and types nanomaterials that have been synthesized for applications in nanotechnology (mechanics, electronics, optoelectronics, energy and biomedical sciences). Illustration of the novel synthesis methods of various nanomaterials.

**MSE 595A-Z. Experimental Topics Courses in Manufacturing Systems Engineering (1-4)****MSE 601A. Engineering Statistics I (3)**

*Prerequisite:* Instructor consent. Comprehensive statistical estimation, design and hypothesis testing methods, and their application to selected problems in engineering.

**MSE 601B. Engineering Statistics II (3)**

*Prerequisite:* MSE 601A or equivalent. Continuation of statistical methods and their applications in engineering, inclusive of fixed effects, randomized block, factorial, fractional factorial, regression, response surface and random factors models.

**MSE 602. Engineering Innovation Management (3)**

*Prerequisites:* MSE 504 and 608C, or equivalent. Starting, organizing, and managing engineering and technology research, design, and production. Technology and innovation; technological strategy and forecasting; technical entrepreneurship; evolving organizations; capitalization; and intellectual property.

**MSE 603. Computer Integrated Manufacturing (3)**

*Prerequisite:* MSE 508/L or instructor consent. The integration of CAD/CAM, information management and communication technologies in manufacturing environments. Provides advanced instruction in design and implementation of integrated CAD/CAM, robotics and flexible manufacturing systems, with particular attention toward bridging information gaps. Topics include analysis of product definition processes, communication in manufacturing environments, technological and organization requisites for CIM, manufacturing requirements planning, just-in-time manufacturing and future directions for factory automation.

**MSE 604. Economic Analyses of Engineering (3)**

*Prerequisite:* Instructor consent. Evaluation of economic feasibility of large-scale engineering systems. Projections of future economic environment, growth of demand, planned expansion of the system, use of resources, levels of confidence in projections, risk evaluation and profitability analysis.

**MSE 606A. Engineering Operations Research I (3)**

*Prerequisite:* Instructor consent. Systems methodology and mathematical bases in industry. Selected approaches in optimization methods, such as linear, integer and goal programming; assignment and transportation problems and inventory modeling; network optimization; and PERT/CPM methods. Emphasis will be placed on the modeling and formulation of deterministic problems and the economic interpretation of results.

**MSE 606B. Engineering Operations Research II (3)**

*Recommended Preparatory:* MSE 606A or equivalent. Continuation of selected approaches in systems optimization methods, such as stochastic, probabilistic and waiting line models, with emphasis on applications to real-world problems.

**MSE 607A. Seminar in Automation Engineering (3)**

*Prerequisite:* Instructor consent. Advanced studies of topics of current interest in automation engineering. The course consists in part of an intensive study of selected papers from current literature.

**MSE 607B. Systems Engineering and Management (3)**

*Prerequisite: Instructor consent.* Overview of concepts and methods of systems engineering and management. Considerations of life cycles, requirements, and configuration and cost management. Standards, metrics, architectures, integration and evaluation. Survey of relevant tools and techniques and their relationships to effective systems engineering management.

**MSE 607C. Seminar in Manufacturing Systems (3)**

*Prerequisite: Instructor consent.* Advanced studies of topics of current interest in manufacturing systems. The course consists in part of the study of selected papers from current literature.

**MSE 608A. Seminar in International Engineering Management (3)**

*Prerequisite: Instructor consent.* Advanced studies of topics relevant to international problems in the field of engineering management. The course consists in part of an intensive study of selected papers from current literature.

**MSE 608B. Management of Engineering Professionals (3)**

*Prerequisite: MSE 504 or equivalent.* Study of special considerations in the management of engineering professionals, including selection, performance, termination and conflict situations. The course consists in part of the study of selected current publications.

**MSE 608C. Engineering Financial and Cost Analysis (3)**

*Recommended Preparatory: MSE 604 or equivalent.* Fundamental concepts and methods of engineering financial cost analysis. Understanding the relevance of financial and managerial accounting to the effective management of engineering and technology projects.

**MSE 609. Advanced Topics in CAD/CAM (3)**

*Recommended Preparatory: MSE 508/L or equivalent.* Areas of current interest in computer-aided design and manufacturing. Topics include computer graphics software and hardware, mathematical bases of geometric modeling, simultaneous engineering, manufacturability analysis, feature-based processing and database management for manufacturing environments.

**MSE 611. Robotics and Programmable Automation (3)**

*Prerequisite: Instructor consent. Recommended Preparatory: MSE 511/L.* Introduction to the design of programmable automation with robotic applications. Concepts, principles and applications of programmable automation in manufacturing environments. Methods, tools, practices and projects for design and implementation of programmable automation systems.

**MSE 612. Seminar in Advanced Manufacturing Technologies (3)**

*Prerequisite: Instructor consent.* Advanced studies of topics of current interest in advanced manufacturing technologies. The course consists in part of an intensive study of selected papers from current literature.

**MSE 614. Intelligent Manufacturing (3)**

*Prerequisite: Instructor consent.* Software and methodologies for integrating intelligence into manufacturing, such as artificial intelligence and expert systems, fuzzy logic, agent software, case-based reasoning, feature-recognition, intelligent maintenance and monitoring. Methods of capturing expertise and knowledge for developing intelligent systems. Development of knowledge-based systems. Understanding examples of intelligent manufacturing available in industry.

**MSE 617. Seminar in Quality Management (3)**

*Recommended Preparatory: MSE 362 or equivalent.* Discussion and analysis of current theory, practices and state-of-the-art developments applicable to quality management in engineering and technology.

**MSE 618. Six Sigma Quality Engineering (3)**

*Prerequisite: MSE 601 or instructor consent.* Overview and evolution of continuous improvement methodologies. Comparison of product-related and process-related Six Sigma methodologies. Integration of operating philosophies, applied statistics and project management in continuous improvement deployment. Phases of Six Sigma methodology and application of computing technologies to quality engineering projects. Advanced topics in Six Sigma continuous improvement design.

**MSE 622. Fracture Mechanics (3)**

*Prerequisite: Instructor consent.* Introduction to linear-elastic fracture mechanics and its application to design. Analytical and numerical methods for the calculation of crack tip stress intensity. Engineering applications to the design of structures and pressure vessels. Fatigue analysis methods.

**MSE 623. Composite Materials (3)**

*Prerequisite: Instructor consent.* Introduction to the structural and materials properties of composites. Static and dynamic characteristics. Stress analysis. Environmental and manufacturing effects on composites. Methods of testing composites.

**MSE 624. Failure Analysis (3)**

*Prerequisite: Instructor consent.* Modes, mechanisms, models and theories of materials failures. Environmental-assisted cracking and fatigue of materials. Analyses of engineering failures. Emphasis is placed on the development and formulation of approaches to materials selection based on probable failure modes.

**MSE 628. Applied Metallurgical Thermodynamics (3)**

*Prerequisite: Instructor consent.* Application of thermodynamic laws to metallic alloys; solid solutions; alloying and solubility in solids; metal/metal, metal/liquid and metal/gas interactions; electrochemical processes in metals; defect structure of metals and metallic alloys; and applications.

**MSE 629. Phase Transformations (3)**

*Prerequisite: Instructor consent.* Thermodynamics of phase transformations, kinetics of reactions, diffusion, crystal growth, solidification, recovery, recrystallization and grain growth, solid state phase transformation, and diffusional and martensitic transformations.

**MSE 630. Electronic Materials (3)**

*Prerequisite: Instructor consent.* Electrical behaviors of materials; conductors, semiconductors and insulators; electronic structure of materials; preparation of semiconductor materials; crystal growth and doping; intrinsic and extrinsic semiconductors; semiconductor devices; superconductivity and superconducting materials; photoelectron effects with semiconductors; photovoltaic materials and solar cells; imperfections in semiconductors; and characterization of electronic materials.

**MSE 649. Seminar in Engineering Materials (3)**

Advanced studies of topics of current interest in the field of engineering materials. Consists in part of an intensive study of selected papers from current literature.

**MSE 690. Materials Engineering Research Practicum (3)**

*Prerequisite: Instructor consent.* Applications of advanced materials and processes, engineering laboratory research techniques and methodologies to studies of current interest, such as nanotechnology, MEMS, sensors, smart materials, microelectronics, optoelectronics, bio-materials and environmentally-assisted cracking of advanced materials.

**MSE 691. Automated Systems Practicum (3)**

*Prerequisite: Instructor consent.* Application of advanced engineering principles to automated systems. Research and methodologies of current interest, such as intelligent manufacturing, modern manufacturing automation, automated systems management, automated assembly and disassembly, and the factory of the future.

**MSE 692. Engineering Management Research Practicum (3)**

*Prerequisites:* Completion of at least 18 units in formal program of study with GPA of at least 3.75; Classified status; Instructor consent. Application of advanced concepts of current interest in engineering management to research and implementation in technology-based environments, such as analytical methods, production systems, technical personnel, innovation and cost analyses.

**MSE 695A-Z. Experimental Topics Courses in Manufacturing Systems Engineering (1-4)****MSE 696A-C. Directed Graduate Research (1-3)**

*Prerequisites:* MSE 698; Approvals of the faculty advisor and either the Department Graduate Coordinator or the Department Chair.

(Credit/No Credit only)

**MSE 697. Directed Comprehensive Studies (3)**

(Credit/No Credit only)

**MSE 697MFS. Manufacturing Systems Directed Comprehensive Studies (3)**

*Preparatory:* Classified status in M.S. Manufacturing Systems Engineering Program; Satisfactory completion of at least 24 semester units in formal program of study; Supervising faculty advisor and Graduate Coordinator permission. Preparation for and completion of written and oral comprehensive culminating experience requirement for the Master of Science in Manufacturing Systems Engineering degree. (Credit/No Credit only)

**MSE 697MGT. Engineering Management Directed Comprehensive Studies (3)**

*Preparatory:* Classified status in M.S. Engineering Management; Satisfactory completion of at least 27 semester units in formal program of study; Supervising faculty advisor and Graduate Coordinator permission. Preparation for and completion of written comprehensive case studies culminating experience requirement for the Master of Science in Engineering Management Degree. (Credit/No Credit only)

**MSE 697MTL. Materials Engineering Comprehensive Directed Studies (3)**

*Preparatory:* MSE 690; Classified status in M.S. Materials Engineering Program; Permission from supervising faculty advisor and Department Graduate Coordinator. Preparation for and completion of written comprehensive examination culminating experience requirement for the Master of Science in Materials Engineering Degree. (Credit/No Credit only)

**MSE 698A-C. Thesis or Graduate Project (1-6)**

*Prerequisites:* Advancement to candidacy for the M.S. Degree; Written approvals of the faculty advisor and the Department Graduate Coordinator or Department Chair.

**MSE 699A-C. Independent Study (1-3)**

*Prerequisites:* Classified status in M.S. Degree Program; Written approvals from faculty sponsor and Department Graduate Coordinator or Department Chair. Admission is based in part on evidence of the ability to pursue independent study or research in-depth and approval of a proposal submitted prior to the time of registration.

### Staff

Yen Duong, Rebecca Say, Lucio Simental

### Faculty

Bernardo Abrego, Alexander Alekseenko, Jorge Balbas, Stephen Breen, Alberto Candel, Kwang-nan Chow, Lawrence Clevenson, Rabia Djellouli, Maria-Rita D'Orsogna, John Dye, Kellie M. Evans, Pier-Luigi Falco, Silvia Fernandez, Terry Fuller, Werner Horn, David Klein, Magnhild Lien, Elena Anne Marchisotto, Majid Mojirsheibani, Michael Neubauer, M.Helena Noronha, Vladislav Panferov, Jacek Polewczak, David Protas, Jerry Rosen, Mary Rosen, Mark Schilling, B.A. Sethurama, Carol Shubin, Malcolm Soule, Chad Sprouse, Katherine Stevenson, Ramin Vakilian, Ann Watkins, William Watkins, Emmanuel Yomba, Ali Zakeri, Joel Zeitlin

### Emeritus Faculty

George Biriuk, John Blattner, James Bock, Helen Coulson, Walter Davison, Phillip Emig, Vladimir Filippenko, Lorraine Foster, Jack Gaston, Jerry Gold, Artur Grigori, Robert Henderson, Tung-Po Lin, John Lindsay, John McGhee, Wes Nathanson, David Ostroff, Efreem Ostrow, Ralph Sabella, Ernest Scheuer, Maria Steinberg, Satya Upadhyayula, Warren Willig, Muriel Wright, F. Lynwood Wren

### Programs

Undergraduate:

**B.A., Mathematics**

**Mathematics Option**

**Secondary Teaching Option\***

\*Secondary Teaching Option is available through the regular degree program, the Four-Year Integrated Mathematics (FYI-Math) Teacher Credential Program, or the Junior-Year Integrated Mathematics (JYI-Math) Teacher Credential Program

**B.S., Mathematics**

**Mathematics Option**

**Statistics Option**

**Applied Mathematical Sciences Option**

**Minor in Mathematics**

Graduate:

**M.S., Mathematics**

**Mathematics Option**

**Applied Mathematics Option**

**Mathematics for Educational Careers Option**

Credential:

**Mathematics Subject Matter Program for the Single Subject Credential**

### Department Programs

The B.A. Degree in Mathematics is designed for students who plan to teach mathematics in secondary or middle schools or wish to prepare for graduate work in pure mathematics. The B.S. Degree in Mathematics is designed for students who wish to pursue occupational careers involving applied mathematics or wish to prepare for graduate work in applied mathematics. The Minor in Mathematics is designed to provide students with mathematical preparation useful for future employment opportunities.

The Mathematics Department offers an M.S. Degree Program with three distinct options. Option I concentrates on the core subjects in Mathematics. Option II emphasizes Applied Mathematics. Option III is designed for teachers and other professionals with a Baccalaureate Degree who are seeking educational careers.

### The Major

Mathematicians today are engaged in a wide variety of activities. Research mathematicians create new theories and techniques. Applied mathematicians use that theory and mathematical modeling to solve problems in economics, science, medicine, engineering and management. Teachers of mathematics develop new ways to teach mathematical concepts to children and adults. University-level mathematics involves more than algorithms and computational techniques. Mathematics majors also learn to construct proofs and how to approach a real-life problem from a mathematical point of view.

### Credential Information

The Secondary Teaching Option provides preparation for the student planning to teach mathematics at the secondary level. Students in this option may enroll in a Post-Baccalaureate Teacher Preparation Program to earn a Preliminary Single Subject Credential in Mathematics. Alternatively, students who meet the eligibility requirements can enter either the Four-Year Integrated Mathematics (FYI-Math) Teacher Credential Program or the Junior-Year Integrated Mathematics (JYI-Math) Teacher Credential Program, in which students earn both a Bachelor's Degree and a Preliminary Single Subject Credential and are qualified to teach full-time upon graduation. These Options have been approved by the California Commission on Teacher Credentialing as academic programs for the Single Subject Credential in Mathematics. For details on the Single Subject Credential program, see the Credentials and Department of Secondary Education sections in the Catalog.

### Careers

Math majors tend to be highly satisfied with the jobs they get after college. The pay is generally good and the work is usually strongly related to mathematics. The best 5 jobs listed in a recent *Jobs Rated Almanac*—software engineer, actuary, computer systems analyst, computer programmer, and mathematician—all require a very strong background in mathematics. In fact, almost every one of the top 50 jobs involves a significant amount of mathematical reasoning and knowledge.

### Academic Advisement

Upon admission as a mathematics major, the student should contact the Mathematics Department for assignment of an advisor. Courses taken to fulfill elective requirements must have prior approval by the student's advisor. Undergraduate mathematics majors must consult with their advisor each semester to be cleared for registration. For a current list of advisors, visit [www.csun.edu/math/advisors.html](http://www.csun.edu/math/advisors.html).

### Student Learning Outcomes of the Undergraduate Program

At the end of their program of study, students will be able to

1. Demonstrate a command of the content usually associated with an undergraduate Degree in mathematics;
2. Communicate mathematical ideas clearly and cogently, both orally and in written form;
3. Present clear and rigorous proofs;
4. Build mathematical models and demonstrate problem-solving skills, including proper use of mathematical software;
5. Understand the principles underlying various branches of mathematics and recognize their interrelationship; and
6. Experience mathematical discovery and independently read and understand mathematical articles or texts written at an undergraduate level.

## Requirements for the Bachelor Degrees

It is assumed that the student has a facility in mathematics normally gained by recent completion of 4 years of high school mathematics through trigonometry and "Mathematical Analysis." Because of the variation in curricula at the high-school level, it is necessary to obtain satisfactory scores on the Mathematics Placement Test (MPT) and Entry Level Mathematics Exam (ELM) to enter the first mathematics course in the Program, MATH 150A. Without satisfactory scores, a student will need to complete additional course work.

### 1. Lower Division Core For All Programs (23-24 units)

|      |               |  |
|------|---------------|--|
| COMP | 106/L         | Computing in Engineering and Science and Lab (2/1)       |
|      | or COMP 110/L | Introduction to Algorithms and Programming and Lab (3/1) |
| MATH | 150A          | Calculus I (5)   |
| MATH | 150B          | Calculus II (5)  |
| MATH | 250           | Calculus III (3)   |
| MATH | 262           | Introduction to Linear Algebra (3)                       |
| PHYS | 220A          | Mechanics (3)  |
| PHYS | 220AL         | Mechanics Lab (1)  |

The student must complete the Lower Division Core and one of the following Options, and must have at least a 2.0 GPA for all Upper Division units required in the major.

### Requirements

In addition to University residence requirements for a Bachelor's Degree, the student must complete a minimum of 18 units of Upper Division Mathematics in residence at CSUN with the approval of a Mathematics advisor. Students in B.A. Degree Programs must fulfill the University requirement of at least 40 Upper Division units overall.

## Requirements for the Bachelor of Arts

### A. Mathematics Options

#### 1. Lower Division Required Courses (23-24 Units)

Lower Division Core, listed above.

#### 2. Upper Division Required Courses (24 units)

|      |       |  |
|------|-------|--|
| MATH | 320   | Foundations of Higher Mathematics (3)              |
| MATH | 340   | Introductory Probability (3)                       |
| MATH | 350   | Advanced Calculus I (3)                            |
| MATH | 351   | Differential Equations (3)                         |
| MATH | 360   | Abstract Algebra I (3)                             |
| MATH | 382/L | Introduction to Scientific Computing and Lab (2/1) |
| MATH | 462   | Advanced Linear Algebra (3)                        |
| MATH | 493   | Seminar in Mathematics (3)                         |

#### 3. Upper Division Electives (9 units)

Upper Division Mathematics electives selected with advisor approval, not to include MATH 310/L, 311, 312, 331, 391 or 490. Students considering graduate work in Mathematics are strongly advised to include MATH 450, 455, and 460 in their program of study or to complete a B.S. Degree in Mathematics.

**General Education:** Basic Skills Mathematics and Lifelong Learning are satisfied by required courses in the major. PHYS 220A/L partially satisfies the Natural Sciences section. Students are encouraged to take PHIL 230 to satisfy the Basic Skills Critical Thinking requirement.

### B. Secondary Teaching Option

Students interested in a career in teaching in secondary schools may elect the Secondary Teaching Option for the Bachelor of Arts Degree:

#### 1. Lower Division Required Courses (26-27 Units)

Lower Division Core, listed above.

|      |     |                                  |
|------|-----|----------------------------------|
| PHIL | 230 | Introduction to Formal Logic (3) |
|------|-----|----------------------------------|

#### 2. Upper Division Required Courses (23 Units)

|      |       |  |
|------|-------|--|
| MATH | 320   | Foundations of Higher Mathematics (3)              |
| MATH | 341   | Applied Statistics I (3)                           |
| MATH | 350   | Advanced Calculus I (3)                            |
| MATH | 360   | Abstract Algebra I (3)                             |
| MATH | 370   | Foundations of Geometry (3)                        |
| MATH | 382/L | Introduction to Scientific Computing and Lab (2/1) |
| MATH | 391   | Field Experience in Schools (2)                    |
| MATH | 490   | Capstone Course (3)                                |

#### 3. Upper Division Electives (9 Units)

3 Upper Division Mathematics electives chosen with advisor. Recommended courses: MATH 441, 460, 463 and 470.

**General Education:** Basic Skills Mathematics, Basic Skills Critical Thinking and Lifelong Learning are satisfied by required courses in the major. PHYS 220A/L partially satisfies the Natural Sciences section.

## Four-Year Integrated Mathematics (FYI-Math) Teacher Credential Program

The Four-Year Integrated Mathematics (FYI-Math) Teacher Credential Program is designed for students who are certain about their career choice. For admission, students must be eligible for a course in Basic Skills Analytical Reading and Expository Writing and for MATH 150A, and should see a teacher preparation or credential advisor in the Mathematics Department. Upon entering the Program in their freshman year, students are assigned to a cohort and for some courses must enroll in a section designated for that cohort.

FYI-Math incorporates the requirements for a Bachelor's Degree in Mathematics (Secondary Teaching Option) with the requirements for General Education, Title 5 and the Preliminary Single Subject Credential in Mathematics. Students also will be responsible for passing the Upper Division Writing Proficiency Exam (UDWPE) and California Basic Educational Skills Test (CBEST). Students enrolled in FYI-Math follow the schedule and sequence of classes listed below. Completion of the FYI-Math Program satisfies all GE requirements.

#### Year One: First semester (14 units)

|              |      |                                   |
|--------------|------|-----------------------------------|
| MATH         | 150A | Calculus I (5)                    |
| GE: BS/AR&EW |      | Select any appropriate course (3) |
| GE: SE/A&H   |      | Select any appropriate course (3) |
| GE: SE/CCS   |      | Select any appropriate course (3) |

#### Year One: Second Semester (16 units)

|      |        |   |
|------|--------|---|
| COMS | 151/L  | Fundamentals of Public Speaking and Lab (2/1)                 |
| COMP | 106/L* | Computing in Engineering and Science and Lab (2/1)            |
| MATH | 150B   | Calculus II (5)   |
| MATH | 391    | Field Experience in the Mathematics of the Public Schools (2) |
| PHIL | 230    | Introduction to Formal Logic I (3)                            |

\*Note: COMP 110/L (3/1) may be used to meet this requirement.

#### Year Two: First Semester (15 units)

|      |        |  |
|------|--------|--|
| ENGL | 255    | Introduction to Literature (3)                           |
| MATH | 250    | Calculus III (3)   |
| PHYS | 220A/L | Mechanics and Lab (3/1)                                  |
| POLS | 155    | American Political Institutions (3)                      |
|      |        | Upper or Lower Division elective from any Department (2) |

#### Year Two: Second Semester (16 units)

|             |       |   |
|-------------|-------|---|
| EPC         | 420   | Educational Psychology of Adolescence (3) |
| MATH        | 262   | Introduction to Linear Algebra (3)        |
| MATH        | 382/L | Intro Scientific Computing and Lab (2/1)  |
| PSY         | 312   | Psychological Aspects of Parenthood (3)   |
| GE:SE/NS&L: |       | Select any appropriate course (3/1)       |

**Additional requirements:** Students should take the CBEST and apply for admission to the Credential Program in the College of Education.

**Year Three: First Semester (15 units)**

|               |     |  |
|---------------|-----|--|
| AAS/ARMN/CHS/ |     |  |
| ELPS/PAS      | 417 | Equity and Diversity in Schools (3)                                      |
| MATH          | 320 | Foundations of Higher Mathematics (3)                                    |
| MATH          | 341 | Applied Statistics I (3)   |
| SED           | 511 | Fundamentals of Secondary Education in Multiethnic Secondary Schools (3) |
| SED           | 514 | Computers in the Instructional Program (3)                               |

**Year Three: Second semester (16 units)**

|      |  |  |
|------|--|--|
| HSCI | 496ADO   | Health Concerns of the Adolescent (1)  |
| MATH | 360  | Abstract Algebra I (3)   |
| MATH | 370  | Foundations of Geometry (3)  |
| MATH | Upper Division Elective: Select any appropriate course (3) |  |
| SED  | 525MA/L  | Methods of Teaching Mathematics in the Secondary School and Lab (2/1)  |
| SPED | 420  | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3) |

**Year Four: First Semester (16 units)**

|      |     |   |
|------|-----|---|
| ASTR | 301 | The Dynamical Universe (3)  |
| HIST | 371 | Problems in American History:1865 to Present (3)                      |
| MATH | 350 | Advanced Calculus I (3)   |
| SED  | 521 | Literacy, Language, and Learning in Multiethnic Secondary Schools (3) |
| SED  | 554 | Supervised Field Experience and Seminar (4)                           |

**Year Four: Second Semester (12 units)**

|      |  |                                      |
|------|--|--------------------------------------|
| MATH | 490  | Capstone Course (3)                  |
| MATH | Upper Division Elective: Select any appropriate course (3) |                                      |
| SED  | 555  | Supervised Practicum and Seminar (6) |

**Junior-Year Integrated Mathematics (JYI-Math)**

**Teacher Credential Program**

The Junior-Year Integrated Mathematics (JYI-Math) Teacher Credential Program begins in the junior year for students who apply and have been accepted to the Program. JYI-Math integrates undergraduate subject matter knowledge with teacher education content and leads to both a B.A. Degree in Mathematics and a Preliminary Single Subject Credential in Mathematics. For admission, students must be juniors who have completed (with sufficient grades) the Lower Division General Education requirements and the Lower Division Core of the Math major. Applications to both the Mathematics Department and the Credential Program are necessary.

Upon entering the JYI-Math Program during their junior year, full-time students may join a cohort and take courses as outlined by a teacher-preparation advisor in the Mathematics Department (2- and 3-year plans are available). Part-time students may work at their own pace in a non-cohorted version of the program. JYI-Math incorporates the upper division requirements for a Bachelor's Degree in Mathematics (Secondary Teaching Option) with the requirements for the Preliminary Single Subject Credential in Mathematics. Students will be responsible for passing the Upper Division Writing Proficiency Exam (UDWPE). Students considering JYI-Math should seek advisement as soon as possible for guidance in meeting admission and Program requirements.

Students accepted to the JYI-Math Program must complete all courses listed below. A GPA of at least 2.6 is required for all courses in the math major (Secondary Teaching Option) and no major course

grade may be lower than "C." A GPA of 3.0 or higher is required for all professional education course work and no professional education course grade may be lower than "C."

**1. Lower Division Required Courses (must be completed prior to admission to program) (26-27 units)**

Lower division core of the math major, listed above (23-24 units)  
PHIL 230 Introduction to Formal Logic (3)

**2. Upper Division Required Courses (26 units)**

|      |       |   |
|------|-------|---|
| ASTR | 301   | The Dynamical Universe (3)                |
| MATH | 320   | Foundations of Higher Mathematics (3)     |
| MATH | 341   | Applied Statistics I (3)                  |
| MATH | 350   | Advanced Calculus I (3)                   |
| MATH | 360   | Abstract Algebra I (3)                    |
| MATH | 370   | Foundations of Geometry (3)               |
| MATH | 382/L | Intro. Scientific Computing and Lab (2/1) |
| MATH | 391   | Field Experience in Schools (2)           |
| MATH | 490   | Capstone Course (3)                       |

**3. Upper Division Electives (6 Units)**

Two Upper Division Mathematics electives chosen with advisor. Recommended courses: MATH 441, 460, 462, 463 or 470.

**4. Required Credential Courses (32 Units)**

|               |         |  |
|---------------|---------|--|
| AAS/ARMN/CHS/ |         |  |
| ELPS/PAS      | 417     | Equity and Diversity in Schools (3)  |
| EPC           | 420     | Educational Psychology of Adolescence (3)  |
| HSCI          | 496ADO  | Health Concerns of the Adolescent (1)  |
| SED           | 511     | Fundamentals of Teaching in Multiethnic Secondary Schools (3)  |
| SED           | 514     | Technology in Instruction (3)  |
| SED           | 521     | Literacy, Language and Learning in Multiethnic Secondary Schools (3)   |
| SED           | 525MA/L | Methods of Teaching Mathematics in the Secondary School and Lab (2/1)  |
| SED           | 554     | Advanced Field Experience and Seminar (4)  |
| SED           | 555     | Supervised Practicum and Seminar for the Single Subject Credential (6)   |
| SPED          | 420     | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3) |

**5. Upper Division General Education Requirement (6 units)**

General Education: Basic Skills Mathematics, Basic Skills Critical Thinking and Lifelong Learning are satisfied by required courses in the major. PHYS 220A/L partially satisfies the Natural Sciences section. ASTR 301 partially satisfies the Upper Division section.

**Mathematics Subject Matter Program for the Single Subject Credential (58-59 units)**

**1. Core (35 units)**

|      |       |  |
|------|-------|--|
| MATH | 150A  | Calculus I (5)                                     |
| MATH | 150B  | Calculus II (5)                                    |
| MATH | 250   | Calculus III (3)                                   |
| MATH | 262   | Introduction to Linear Algebra (3)                 |
| MATH | 320   | Foundations of Higher Mathematics (3)              |
| MATH | 341   | Applied Statistics I (3)                           |
| MATH | 350   | Advanced Calculus I (3)                            |
| MATH | 360   | Abstract Algebra I (3)                             |
| MATH | 370   | Foundations of Geometry (3)                        |
| MATH | 382/L | Introduction to Scientific Computing and Lab (2/1) |
| MATH | 490   | Capstone Course (3)                                |

**2. Breadth and Perspective (21-22 units)**

|      |               |  |
|------|---------------|--|
| COMP | 106/L         | Computing in Engineering and Science and Lab (2/1) |
|      | or COMP 110/L | Introduction to Algorithms and Programming (3/1)   |
| MATH | 391           | Field Experience in Mathematics (2)                |
| PHIL | 230           | Introduction to Formal Logic I (3)                 |
| PHYS | 220A          | Mechanics (3)                                      |
| PHYS | 220AL         | Mechanics Laboratory (1)                           |

<sup>3</sup> Upper Division Mathematics electives (at least 9 units) chosen with advisor approval. Recommended courses: MATH 441, 460, 463 or and 470.

**Requirements for the Bachelor of Science****A. Option I. Mathematics****1. Lower Division Required Courses (23-24 units)**

Lower Division Core, listed above.

**2. Upper Division Required Courses (24 units)**

|      |       |  |
|------|-------|--|
| MATH | 320   | Foundations of Higher Mathematics (3)              |
| MATH | 340   | Introductory Probability (3)                       |
| MATH | 350   | Advanced Calculus I (3)                            |
| MATH | 351   | Differential Equations (3)                         |
| MATH | 360   | Abstract Algebra I (3)                             |
| MATH | 382/L | Introduction to Scientific Computing and Lab (2/1) |
| MATH | 462   | Advanced Linear Algebra (3)                        |
| MATH | 493   | Seminar in Mathematics (3)                         |

**3. Upper Division Electives (15 Units)**

Students must take 5 elective courses chosen with an advisor from the following list, including at least one from MATH 450 and 460: MATH 440A, 440B, 450, 455, 460, 480, 481ABCD, 483, 366, 463 and all 500 level Math courses, except those numbered 510-514.

**General Education:** Basic Skills Mathematics and Lifelong Learning are satisfied by required courses in the major. PHYS 220A/L partially satisfies the Natural Sciences section. Students are encouraged to take PHIL 230 to satisfy the Basic Skills Critical Thinking requirement.

**B. Option II. Statistics****1. Lower Division Required Courses (23-24 units)**

Lower Division Core, listed above.

**2. Upper Division Required Courses (30 units)**

|      |       |  |
|------|-------|--|
| MATH | 320   | Foundations of Higher Mathematics (3)              |
| MATH | 340   | Introductory Probability (3)                       |
| MATH | 350   | Advanced Calculus I (3)                            |
| MATH | 351   | Differential Equations (3)                         |
| MATH | 382/L | Introduction to Scientific Computing and Lab (2/1) |
| MATH | 440A  | Mathematical Statistics I (3)                      |
| MATH | 440B  | Mathematical Statistics II (3)                     |
| MATH | 462   | Advanced Linear Algebra (3)                        |
| MATH | 483   | Mathematical Modeling (3)                          |
| MATH | 494   | Practical Experience in Mathematics (3)            |

**3. Upper Division Electives (9 units)**

Choose 9 units from among (1) all Upper Division Math courses (excluding MATH 310, 310L, 311, 312, 331, 391 and 490); and (2) approved courses in other Departments. At least 3 units must be in Mathematics. Recommended courses: COMP 431 or 465; FIN 303, 431 or 434; ECON 409; MATH 366, 442, 450, 480, 481ABCD, 482, 540 or 542ABCD; MKT 346; PSY 420; SOM 409, 467 or 591. All classes taken outside the Mathematics Department must have the approval of an advisor prior to enrollment, and students must either meet prerequisites or obtain permission of instructor.

*Note: Early completion of MATH 340 and 440A is recommended. Courses outside the Mathematics Department are encouraged.*

**General Education:** Basic Skills Mathematics and Lifelong Learning are satisfied by required courses in the major. PHYS 220A/L partially satisfies the Natural Sciences section.

**C. Option III. Applied Mathematical Sciences****1. Lower Division Required Courses (23-24 units)**

Lower Division Core, listed above.

**2. Upper Division Required Courses (15 units)**

|      |       |  |
|------|-------|--|
| MATH | 320   | Foundations of Higher Mathematics (3)              |
| MATH | 340   | Introductory Probability (3)                       |
| MATH | 350   | Advanced Calculus I (3)                            |
| MATH | 382/L | Introduction to Scientific Computing and Lab (2/1) |
| MATH | 494   | Practical Experience in Mathematics (3)            |

**3. Upper Division Electives (24 Units)**

Choose (with an advisor) 24 units from among (1) all Upper Division Math courses (excluding MATH 310, 310L, 311, 312, 331, 391 and 490); and (2) approved courses in other Departments. At least 12 units must be in Mathematics. Students are encouraged to take courses outside the Mathematics Department, especially Upper Division courses in the sciences, engineering and economics. All courses must have the approval of an advisor prior to enrollment. Students in this Option must meet with an advisor in their junior year and file a program form outlining the planned course work with the Mathematics Department.

**General Education:** Basic Skills Mathematics and Lifelong Learning are satisfied by required courses in the major. PHYS 220A/L partially satisfies the Natural Sciences section.

**Double Major**

A student pursuing either a B.A. or a B.S. Degree may combine a Second Major with Mathematics. In this circumstance, upon approval of an advisor, 6 units of Upper Division electives may be satisfied by courses in the Second Major. The remaining electives must be taken in the department of mathematics. Under certain rare conditions, the physics requirement in the Lower Division Core may be replaced by appropriate course work in the Second Major. Prior approval must be obtained from an advisor and the Department Chair for this latter occurrence.

**Requirements for the Minor****1. Lower Division Required Courses (16 units)**

|      |      |                                    |
|------|------|------------------------------------|
| MATH | 150A | Calculus I (5)                     |
| MATH | 150B | Calculus II (5)                    |
| MATH | 250  | Calculus III (3)                   |
| MATH | 262  | Introduction to Linear Algebra (3) |

*Note: PHIL 230—Symbolic Logic I, is recommended and satisfies the Critical Thinking section of General Education.*

**2. Upper Division Electives (12 units)**

Selected Upper Division Mathematics courses totaling at least 12 units which must be approved in advance by a Mathematics minor advisor. Depending on the student's area of interest, any one of the following sequences could be used as part or all of the required 12 units (or other choices if approved by the Mathematics minor advisor):

|                              |                           |
|------------------------------|---------------------------|
| <b>Computer Mathematics:</b> | MATH 326, 340, 481A, 482  |
| <b>Secondary Teaching:</b>   | MATH 320, 341 or 360, 370 |
| <b>Statistics:</b>           | MATH 340, 440A, 440B      |

## Requirements for the Master of Science Degree Options I and II

### A. For Admission to Graduate Status:

Admission as a Classified Graduate Student requires: 1) Academic preparation essentially equivalent to a B.A. or B.S. Degree in mathematics at CSUN with a GPA of at least 3.0 in all undergraduate work; and 2) A grade of “B” or better in each of the common 5 Upper Division Core courses in the Mathematics major. Students with less than a “B” average may be eligible for Conditionally Classified status. Applicants with undergraduate degrees in fields outside the mathematical sciences also may be considered for Conditionally Classified status, provided that they have successfully taken a significant number of both Lower and Upper Division Mathematics courses. Their eligibility and admission status will be determined by the Graduate Committee on an individual basis. Conditionally Classified students are required to attain Classified status by passing the Mathematics Screening Exam and satisfying all University requirements within 2 semesters of being admitted as a Conditionally Classified graduate student.

### B. The Mathematics Screening Examination

This exam will be given 3 times every year, in the week just before the start of each semester and in the week just after the end of the spring semester. It will cover topics from the Core Undergraduate Upper Division Mathematics curriculum, with emphasis on analysis and linear algebra.

### C. Residency Requirement

To maintain good standing, graduate students must complete at least 1 approved course during each semester. Students who fail to do so will be placed on probation. Students who fail to fulfill this requirement twice will be disqualified.

### D. Comprehensive Exam or Master's Thesis

Students must successfully complete one of the following:

**a) Comprehensive Examination:** This two-part examination will be based on the students' required courses. Students in Option I must take Algebra and either Analysis I or Analysis II. Students in Option II must take Analysis I and one other exam excluding algebra.

**Comprehensive exams are given in the following areas:**

- Algebra (material from MATH 462, 460 and 560)
- Analysis I (material from MATH 501 and 552)
- Analysis II (material from MATH 550 and 655)
- Numerical Analysis (material from MATH 581 and 582)
- Applied Functional Analysis (material from MATH 680 A/B)
- Probability/Statistics (material from MATH 540 and 542)

**b) Master's Thesis:** In order to write a Master's Thesis, students must maintain a GPA of 3.4 in their required courses. Each student also must defend his/her Thesis in an oral examination by his or her Thesis Committee.

The University requires that students take at least one unit of MATH 697 (if they take a Comprehensive Exam) or one unit of MATH 698 (if they write a Thesis). Units for MATH 697 or 698 do not count toward the 31 units required for the Degree.

## Courses of Study

### A. Option I. Mathematics

This Option is primarily designed to prepare students for community college teaching, entry-level positions in industry or future graduate work in Mathematics. The Core of this Program consists of an in-depth study of the mainstream of modern mathematics—algebra, analysis and topology.

#### 1. Required Courses (16 units)

##### Basic course work

|          |                           |
|----------|---------------------------|
| MATH 501 | Topology (3)              |
| MATH 550 | Calculus on Manifolds (3) |
| MATH 552 | Real Analysis (3)         |
| MATH 560 | Abstract Algebra III (3)  |
| MATH 655 | Complex Analysis (3)      |

##### Participating Seminar

|          |                             |
|----------|-----------------------------|
| MATH 589 | Seminar in Mathematics. (1) |
|----------|-----------------------------|

#### 2. Electives (15 units)

Select approved courses. At least 6 of these 15 units must be at 500- or 600-level. Up to 6 units may be taken in Departments outside of Mathematics with prior approval of the Graduate Committee.

### B. Option II. Applied Mathematics

This Option is designed to prepare students for entry-level positions in industry, business and government, or for future graduate work in applied mathematics. Its Core consists of the basic preparation in analysis and courses in differential equations, modeling, numerical analysis or probability/statistics. The Option allows the student to design an individual course of study that best satisfies his/her needs.

#### 1. Required Courses (16 units)

##### Basic preparation

|          |                   |
|----------|-------------------|
| MATH 501 | Topology (3)      |
| MATH 552 | Real Analysis (3) |

##### Participating Seminar

|             |  |
|-------------|--|
| MATH 589    | Seminar in Mathematics (1)               |
| MATH 542A-D | Topics in Probability/Statistics (3)     |
| or MATH 581 | Numerical Methods for Linear Systems (3) |

##### Choose 2 courses from the following:

|              |  |
|--------------|--|
| MATH 540     | Regression Analysis (3)                  |
| MATH 542 A-D | Topics in Probability/Statistics (3)     |
| MATH 581     | Numerical Methods for Linear Systems (3) |
| MATH 582 A-D | Topics in Numerical Analysis (3)         |
| MATH 592 A-D | Topics in Applied Mathematics (3)        |
| MATH 625     | Advanced Mathematical Modeling (3)       |
| MATH 655     | Complex Analysis (3)                     |
| MATH 680 A/B | Applied Functional Analysis I/II (3)     |

#### 2. Electives (15 units)

Select approved courses. At least 6 of these 15 units must be at 500 or 600-level. Up to 9 units may be taken in Departments outside of Mathematics with prior approval of the Graduate Committee.

### Switching Between Options I and II

Students may request in writing to switch between Option I and II. Such requests will be considered by the Graduate Committee.

## Requirements for the Master of Science Degree Option III

### A. For Admission to Graduate Status

Students are expected to have cleared competency for Single Subject Mathematics by program or examination. Students with a Baccalaureate Degree who have not cleared subject matter competency in mathematics may be eligible for the program with the Conditionally Classified status. Conditionally Classified students need to meet the conditions required by the University and clear competency for Single Subject Matter in Mathematics within 2 semesters.

### B. Culminating Experience

At the end of each B section of the courses listed below, students will write a paper that will provide the opportunity for an individual in-depth study of 1 topic of the course that has relevance for mathematics at the secondary-school level. A portfolio containing all articles and individual contributions to the courses will show candidate's mastery of concepts, mathematical breadth and ability to communicate mathematics clearly and engagingly. Students should provide a summary of what they have learned in this curriculum and reflect on the applicability of it to their career. The portfolio will be submitted to a Committee chosen by the candidate and approved by the Graduate Committee. The University requires that students take at least 1 unit of MATH 698 (Thesis or Graduate Project). Units taken in MATH 698 will not count toward the total 30 units required for the Degree.

### C. Option III. Mathematics For Educational Careers

This Program is designed especially for secondary teachers and for other professionals with a Baccalaureate Degree who are seeking educational careers. It will deepen students' knowledge beyond what can be learned in a Baccalaureate Degree Program for secondary teachers of mathematics.

All courses include active learning and presentations on selected topics. In addition, each B section of the courses will culminate with the student working on a project and writing an article. The overall goal is to enable teachers to take leadership roles in their schools. In addition, they will be knowledgeable instructors of AP Statistics and AP Calculus.

#### 1. Required Courses (30 units)

|      |        |                                   |
|------|--------|-----------------------------------|
| MATH | 510A/B | Algebra and Number Theory (3-3)   |
| MATH | 511A/B | Linear Algebra and Geometry (3-3) |
| MATH | 512A/B | Concepts of Analysis (3-3)        |
| MATH | 513A/B | Discrete Mathematics (3-3)        |
| MATH | 514A/B | Probability and Statistics (3-3)  |

*These courses cannot be replaced in the Program by any other graduate course.*

#### Entry Level Mathematics Exam (ELM)

The ELM Examination assesses entry-level mathematics skills that CSUN expects entering students to have acquired in 3 years of rigorous college preparatory Mathematics course work (Algebra I, Geometry and Algebra II). All entering CSUN undergraduates must take the ELM Examination, with the exception of those who present proof of 1 of the following:

1. Successful completion of the Early Assessment Program (EAP);
2. A score of 550 or above on the mathematics section of the College Board SAT I Reasoning Test or on the College Board SAT II Mathematics Test Level IC or IIC;

3. A score of 23 or above on the American College Testing (ACT) Mathematics Test;
4. A score of 3 or above on the College Board Advanced Placement Calculus AB, Calculus BC or Statistics Examinations; or
5. Completion and transfer of a course that satisfies the General Education–Breadth or Intersegmental General Education Transfer Curriculum (IGETC) Quantitative Reasoning requirement, provided such course was completed with a grade of “C” or better.

Successful completion of the ELM Examination or a grade of credit in the appropriate developmental mathematics courses is one of the requirements for enrollment in most university-level Mathematics courses at CSUN, as well as CHEM 100 and 103, and PHSC 170. ELM exemption based on SAT, ACT or Advanced Placement Test scores, as listed above, also will meet this requirement. However, students who wish to qualify for enrollment in university-level Mathematics courses at CSUN on the basis of a transfer course can do so only if the transfer course is an approved mathematics course above the level of intermediate algebra.

Liberal Studies majors who are Credential candidates should be aware that the ELM requirement must be met in order to enroll in either MATH 210 or 310. A transfer course equivalent to MATH 210 will not enable students to enroll in MATH 310 at CSUN unless they also have met the ELM requirement for enrollment.

**Mathematics Placement Test (MPT):** The Mathematics Placement Test (MPT) is a CSUN test used to determine eligibility for enrollment in MATH 102, 103, 104, 105, 150A and 255A, and must have been taken within the year preceding enrollment in these courses. The MPT does not replace the ELM requirement, but is used in addition to the ELM to determine eligibility for enrollment.

Part I of the MPT consists of questions from intermediate algebra. Part II of the MPT consists of questions on trigonometry and advanced topics from intermediate algebra (precalculus). A qualifying score on Part I is required for entry in MATH 102, 103, 104 and 105.

Qualifying scores on both Parts I and II are required for entry into MATH 150A and 255 A.

A summary of the qualifying scores can be found in Table 1 below. Visit the Testing Center website at [www.csun.edu/testing](http://www.csun.edu/testing) for registration information, required qualifying scores and test dates.

#### Prerequisite Mathematics Courses

The University entrance requirements (2 years of high school algebra and 1 year of geometry) are the basic prerequisites to all Mathematics courses. Additional prerequisites may be listed in the course descriptions that follow. Prerequisite courses must be passed with a grade of “C” or better, unless otherwise stated. The specific minimal prerequisites for Calculus and Calculus preparatory courses are listed in Table 1 below. Students who are only Conditionally prepared for a course may not enroll in that course unless they have credit for or concurrently enroll in the accompanying lab course. Students who wish to transfer credit for MATH 102, 104 or 105 from another college or university also must enroll in the accompanying lab course.

Table 1. Course Prerequisites

| Course:          | Fully Prepared:   | Conditionally Prepared:   | Lab Course    |
|------------------|---|---|---------------|
| <b>MATH 102</b>  | 18 in MPT I<br><i>or</i><br>credit for<br>MATH 102L   | Passing score on or<br>exemption from the<br>ELM Exam <i>or</i> credit<br>in MATH 093             | MATH<br>102L  |
| <b>MATH 103</b>  | 18 in MPT I<br><i>or</i><br>credit for<br>MATH 103L   | Passing score on or<br>exemption from the<br>ELM Exam <i>or</i> credit<br>in MATH 093             | MATH<br>103L  |
| <b>MATH 104</b>  | 30 in MPT I<br><i>or</i><br>"B-" in MATH 102  | 25 in MPT I<br><i>or</i><br>"C-" in MATH 102  | MATH<br>104L  |
| <b>MATH 105</b>  | 27 in MPT I or a B-<br>in MATH 102  | 23 in MPT I <i>or</i><br>"C-" in MATH 102   | MATH<br>105L  |
| <b>MATH 150A</b> | 30 in MPT I and 28<br>in MPT II<br><i>or</i><br>"B-" in MATH 104<br><i>or</i><br>"B-" in MATH 105 | 25 in MPT I and 22 in<br>MPT II<br><i>or</i><br>"C-" in MATH 104<br><i>or</i><br>"C-" in MATH 105 | MATH<br>150AL |

## Course List

### MATH 090. Introduction to Problem Solving (2)

Introduction to problem-solving, with an emphasis on basic mathematics skills. Diagnostic tests enable students to identify specific topics for study. Involves collaborative learning, individualized advisement and instruction, and use of media and computers. Normally offered as a Summer Bridge course. Credit will not apply toward the Baccalaureate Degree, but will apply as two units of University credit.

### MATH 092. Developmental Mathematics I (3)

First in a 2-semester sequence of developmental mathematics courses. Students scoring below 34 on the ELM need to complete MATH 092 and 093 successfully to be remediated. Credit will not apply toward the Baccalaureate Degree but will apply as 3 units of University Credit. Students who earn Credit in MATH 092 are eligible to enroll in MATH 093. Topics covered include fractions, decimal notation, percent, real numbers and algebraic expressions, equations and inequalities. (Credit/No Credit only)

### MATH 093. Developmental Mathematics II (5)

*Prerequisite:* Score of 34 or above, but below 50 on the ELM Exam or credit in MATH 092. Credit will not apply toward the Baccalaureate Degree, but will apply as 5 units of University credit. Successful completion of MATH 093 qualifies students for entrance into MATH 102, 131, 140 and 210. Review of elementary algebra topics, such as equations

and inequalities, polynomials, factoring, rational expressions, graphing, radical expressions, quadratic equations and functions. (Credit/No Credit only)

### MATH 099 Developmental Mathematics II – Accelerated (3)

*Prerequisite:* A score of 40 or above but below 50 on the ELM Exam or credit in MATH 092. Credit will not apply toward the Baccalaureate Degree, but will apply as 3 units of University credit. Successful completion of MATH 099 qualifies students for entrance into MATH 102 and 103 (conditionally), 131, 140 and 210. This course is not open to students who are currently enrolled in or who have received credit in MATH 093. This is an accelerated review of elementary algebra topics, including equations and inequalities, polynomials, factoring, rational expressions, graphing, radical expressions, quadratic equations and functions. (Credit/No Credit only)

### MATH 102. College Algebra (3)

*Prerequisites:* Listed in Table 1. Students who are conditionally prepared must have credit for or concurrently enroll in MATH 102L. Functions, linear equations, quadratic equations, theory of equations, progressions, inequalities, absolute value, logarithms, permutations, combinations, probability and determinants. Not open to students who have credit in MATH 103, 105 or 106. (Available for General Education, Basic Skills Mathematics.)

### MATH 102L. College Algebra Lab (1)

*Prerequisite:* Required for all Conditionally prepared students enrolled in MATH 102. All students in MATH 102 are encouraged to enroll in this course. This is a Credit/No Credit hybrid enrichment laboratory for students in MATH 102. This course will include a self-paced, modular online component. 2 hours lab per week. (Credit/No Credit only)

### MATH 103. Mathematical Methods for Business (3)

*Prerequisites:* Passing score on or exemption from the ELM Exam or credit in MATH 093; Passing score on the Mathematics Placement Test, Part I or credit or concurrent enrollment in MATH 103L. Concepts and applications of algebra and calculus to business. Topics include functions, systems of equations, matrices, the derivative and business-related topics in calculus. (Available for General Education, Basic Skills Mathematics.)

### MATH 103L. Mathematics for Business Laboratory (1)

*Prerequisite:* Passing score on the ELM Exam. This self-paced, module-based laboratory is designed to give students additional exposure to the applications of college algebra to business and economics beyond what can be done in lecture. The additional hands-on problem-solving skills learned in this class enhance the lecture experience and strengthen the skills necessary for success in MATH 103 and subsequent courses in business majors. The lab environment allows students to both work at their own pace and receive small-group instruction with the laboratory instructor on all modules. Students with an MPT Part I score below 24 may enroll in MATH 103 only if they enroll in this course. 2 hours lab per week. (Credit/No Credit only)

### MATH 104. Trigonometry and Analytic Geometry (3)

*Prerequisites:* Listed in Table 1. Students who are Conditionally prepared must have credit for or concurrently enroll in MATH 104L. Rectangular and polar coordinates; trigonometric functions, identities and equations; inverse trigonometric functions; conic sections; complex numbers. Not open to students who have credit in MATH 103, 105 or 106.

### MATH 104L. Trigonometry Lab (1)

*Prerequisite:* Required for all conditionally prepared students enrolled in MATH 104. All students in MATH 104 are encouraged to enroll in this course. This is a Credit/No Credit hybrid enrichment laboratory for students in MATH 104. This course will include a self-paced, modular online component. w hours lab per week. (Credit/No Credit only)

**MATH 105. Pre-Calculus (5)**

*Prerequisites:* Listed in Table 1 above. Students who are Conditionally prepared must have credit for or concurrently enroll in MATH 105L. Number systems and their algebraic properties; systems of equations and inequalities; basic analytic geometry of lines and conic sections; elementary functions, including polynomial, rational, exponential and logarithmic, with emphasis on trigonometric functions; polar equations. Graphing calculators are used and the interplay between graphical and algebraic solutions is stressed. Not open for credit to students who have successfully completed MATH 150A. (Available for General Education, Basic Skills Mathematics)

**MATH 105L. Pre-Calculus Lab (1)**

*Prerequisite:* Required for all conditionally prepared students enrolled in MATH 105. All students in MATH 105 are encouraged to enroll in this course. This is a NC/CR hybrid enrichment laboratory for students in MATH 105. This course will include a self-paced, modular online component. 3 hours lab per week. (Credit/No Credit only)

**MATH 131. Mathematical Ideas (3)**

*Prerequisites:* Passing score on or exemption from the ELM Exam, or credit in MATH 093. General Education course intended to acquaint the student with basic mathematical ideas. (Available for General Education, Basic Skills Mathematics.)

**MATH 140. Introductory Statistics (4)**

*Prerequisites:* Passing score on or exemption from the ELM Exam, or credit in MATH 093. Methods for displaying, describing and producing data. Normal distribution. Correlation and regression. Sampling distributions and probability. Statistical inference for means and proportions. (Available for General Education, Basic Skills Mathematics.)

**MATH 150A. Calculus I (5)**

*Prerequisites:* Listed in Table 1. Students who are Conditionally prepared or who transfer the equivalent of MATH 105 or both MATH 102 and 104 must have credit for or concurrently enroll in MATH 150AL. Limits, derivatives, applications of differentiation. Definite and indefinite integrals, and the fundamental theorem of calculus. (Available for General Education, Basic Skills Mathematics.)

**MATH 150AL: Calculus I Laboratory (1)**

*Prerequisite:* Required for all Conditionally prepared students enrolled in MATH 150B or 255B. All students in MATH 150B and 255B are encouraged to enroll in this course. This is a NC/CR hybrid enrichment laboratory for students in MATH 150B and 255B. This course will include a self-paced, modular online component. 3 hours lab per week. (Credit/No Credit only)

**MATH 150B. Calculus II (5)**

*Prerequisites:* Listed in Table 1. Students who are Conditionally prepared must have credit for or concurrently enroll in MATH 150BL. Techniques of integration, numerical integration, improper integrals and applications of the integral. Taylor polynomials, sequences and series, and power series.

**MATH 150BL. Calculus II Laboratory (1)**

*Prerequisite:* Required for all Conditionally prepared students enrolled in MATH 150B or 255B. All students in MATH 150B and 255B are encouraged to enroll in this course. This is a Credit/No Credit hybrid enrichment laboratory for students in MATH 150B and 255B. This course will include a self-paced, modular online component. 3 hours lab per week. (Credit/No Credit only)

**MATH 210. Basic Number Concepts (3)**

*Prerequisites:* Passing score on or exemption from the ELM Exam or credit in MATH 093. Language of sets, systems of numeration, nature of numbers and fundamentals of operations, relations and functions, domain of integers, and field of rational and real numbers. Designed primarily

for students intending to teach in elementary or junior high school. Not available for credit toward the Major or Minor in Mathematics.

**MATH 250. Calculus III (3)**

*Prerequisite:* Completion of MATH 150B with a grade of "C" or better. Continuation of MATH 150B. Solid analytic geometry, partial differentiation and multiple integrals with applications.

**MATH 255A. Calculus for the Life Sciences I (3)**

*Prerequisites:* Listed in Table 1. Students who are Conditionally prepared must have credit for or concurrently enroll in MATH 150AL. Knowledge of trigonometry is assumed. First semester of a short course in calculus. Topics in calculus of functions of one variable including techniques of differentiation, applications to graphing, extreme problems and an introduction to integration. Not open for credit to students who have successfully completed MATH 150A. (Available for General Education, Basic Skills Mathematics.)

**MATH 255B. Calculus for the Life Sciences II (3)**

*Prerequisites:* Listed in Table 1. Students who are Conditionally prepared must have credit for or concurrently enroll in MATH 150BL. Techniques of integration, series, applications, functions of several variables and partial differentiation. Not open for credit to students who have successfully completed MATH 150AB.

**MATH 262. Introduction to Linear Algebra (3)**

*Prerequisite:* MATH 150B. Systems of linear equations, matrices, determinants, eigenvalues, vector spaces and linear transformations, as well as introduction to inner products on  $R^n$  and spectral theorem for symmetric matrices.

**MATH 280. Applied Differential Equations (3)**

*Prerequisite:* MATH 150B. Recommended Corequisite or Preparatory: MATH 250. Ordinary differential equations, series solutions, systems of equations and Laplace transforms, with emphasis on applications and introduction to numerical techniques. Course is not open to students who have credit for MATH 351.

**Upper Division****MATH 310. Basic Concepts of Geometry, Probability and Statistics (3)**

*Prerequisites:* Passing score on or exemption from the ELM Exam or credit in MATH 093 and completion of MATH 210 with a grade of "C" or better. Articulated course from another college equivalent to MATH 210 may only satisfy the course prerequisite for MATH 310. Students passing such a course with a "C" or better will still need to fulfill the ELM Exam requirement. Second course for students intending to teach in elementary or junior high school. Geometry as a system; congruence and similarity through construction with straightedge and compass; transformational geometry; the nature of measurement, precision and accuracy; basic principles of probability and statistics. Not available for credit toward the Major or Minor in Mathematics.

**MATH 310L. Geometry, Probability and Statistics Lab (1)**

*Recommended Corequisite or Preparatory:* MATH 310. Problem solving using models and simulation in mathematics appropriate for the elementary-school classroom. 2 hours of activities per week. (Credit/No Credit only)

**MATH 311. Basic Geometric Concepts (3)**

*Prerequisites:* Passing score on the ELM Exam and completion of MATH 210 and 310 with a grade of "C" or better, or instructor consent. Continuation of the investigation of elementary geometry begun in MATH 310. Topics selected from topology, motion geometry, metric geometry, geometry as a mathematical system, absolute geometry, Euclidean geometry and non-Euclidean geometry. Not available for credit toward the Math Major or Minor.

**MATH 312. Basic Algebraic Concepts (3)**

*Prerequisites:* Passing score on the ELM Exam and completion of MATH 210 and 310 with a grade of “C” or better, or instructor consent. Topics selected from: abstract algebra and applied algebra using elementary mathematical models. Not available for credit toward the Math Major or Minor.

**MATH 320. Foundations of Higher Mathematics (3)**

*Prerequisite:* MATH 150B. The goal of this course is to help students transition from a primarily computational mode of doing mathematics to a more conceptual mode. The emphasis will be on proofs, which are taught in the context of elementary number theory, combinatorics and analysis; the language of sets, relations, order, equivalence classes, functions and cardinality is introduced. Students are expected to write large numbers of proofs and communicate mathematical ideas clearly.

**MATH 326. Discrete Mathematics (3)**

*Prerequisites:* ECE 320 or PHIL 230; MATH 150B. Propositional calculus, predicate calculus, set algebra, relations, functions, mappings, fields and number systems.

**MATH 331. Mathematical Explorations (3)**

*Prerequisites:* Passing Score on the ELM Exam; Completion of the Lower Division writing requirement; Upper Division standing. A course designed to give students an appreciation of the diversity of mathematics and the spirit in which it is employed in various applications. The character and origin of key topics from different branches of mathematics are explored. The contributions of various cultures to the field are studied, along with the use of mathematical models for physical problems. The development is conceptual rather than axiomatic, and includes several supervised reading and writing assignments. One significant writing assignment is required. Strongly recommended for prospective teachers in all fields. (Available for General Education, Basic Skills Mathematics.)

**MATH 340. Introductory Probability (3)**

*Prerequisite:* MATH 150B. Sample spaces, probability rules, independence, conditional probability, Bayes’ Theorem, discrete and continuous random variables and distributions (e.g. binomial, Poisson, geometric, normal, exponential, uniform), expectation, moment generating functions, joint distributions and central limit theorem.

**MATH 341. Applied Statistics I (3)**

*Prerequisite:* MATH 150B. Introduction to the practice of statistics, emphasizing the role of probability. Includes basic probability, discrete and continuous probability distributions, expectation and variance, sample surveys and experiments, displaying and summarizing data, sampling distributions, central limit theorem, inference for proportions, chi-square test and least squares regression. Mathematics majors who are not in the Secondary Teaching Option may not receive credit for both MATH 340 and 341.

**MATH 350. Advanced Calculus I (3)**

*Prerequisite:* MATH 320. Topics include the real number system, continuous functions, differentiation, and Riemann integration of functions of 1 real variable.

**MATH 351. Differential Equations (3)**

*Prerequisites:* MATH 250, 262. Not open to students who have credit for MATH 280. Linear equations, series solutions, singular points, existence and uniqueness of solutions, and systems of equations.

**MATH 360. Abstract Algebra I (3)**

*Prerequisites:* MATH 262, 320. Survey course in abstract algebra. Introduction to groups, rings, fields and vector spaces.

**MATH 366. Combinatorics (3)**

*Corequisite:* MATH 320 or 326. This is a one-semester introduction to combinatorics. Topics include enumerative combinatorics (inclusion-exclusion, generating functions, Polyá’s Theorem, etc.) and combinatorial structures (graphs, designs, etc.).

**MATH 370. Foundations of Geometry (3)**

*Prerequisite or Corequisite:* MATH 320. One of the goals of this course is to help students write rigorous proofs of results of plane Euclidean geometry. It is also expected that students visualize and develop geometric intuition through the use of dynamic geometry software. The content includes history, axiomatic structure and theorems of plane Euclidean geometry, geometric transformations of the plane, rigid motions, similarities, and inversion, coordinate geometry and an introduction to non-Euclidean geometries.

**MATH 382/L. Introduction to Scientific Computing and Lab (2/1)**

*Corequisite:* MATH 262. This course gives students an introduction to basic numerical techniques and to programming using some of the common software packages used in mathematics. Students apply these techniques in projects from different branches of mathematics. (This course does not replace a rigorous course in numerical analysis.) 2 hours lecture, 2 hours lab.

**MATH 390A-D. Mini-Courses in Mathematics for Pre and in Service Teachers (1)**

*Prerequisites:* MATH 210 with a grade of “C” or better or instructor consent; Passing score on ELM Exam. This course is intended for Liberal Studies Credential Candidates and in-service elementary- and middle-school teachers. Important concepts of mathematics that have particular application to the elementary-school curriculum, including: A—History of Mathematics; B—Computational Methods; C—Computer-Assisted Instruction; and D—Strategies in Problem Solving. (Credit/No Credit only)

**MATH 391. Field Experience in the Mathematics of the Public Schools (2)**

*Prerequisites:* Multiple Subject Candidates—MATH 210 and 310 or corequisite with 310; Passing score on the ELM Exam. Single Subject Candidates—MATH 150A, 150B; Junior standing. Field experience course designed to give the prospective teacher an appreciation of a quality mathematics program in public schools. Requirements include 45 hours of participation in an assigned school and regular group meetings to discuss the classroom experience. (Credit/No Credit only)

**MATH 440A. Mathematical Statistics I (3)**

*Prerequisites:* MATH 262, 340. Point estimation, bias and mean squared error, optimality theory for estimates, maximum likelihood estimation, confidence intervals, test of hypotheses, power, and optimality theory for tests.

**MATH 440B. Mathematical Statistics II (3)**

*Prerequisite:* MATH 440A. Chi-square goodness of fit tests, simple and multiple linear regression, 1- and 2-way analysis of variance, and statistical analysis using the computer.

**MATH 441. Applied Statistics II (3)**

*Prerequisite:* MATH 341. Continuation of MATH 341 with emphasis on statistical inference. Includes design of surveys and experiments, the t-distribution, inference for means, correlation and regression with transformations, and inference for slope.

**MATH 442A-Z. Topics in Mathematical Statistics (3)**

*Prerequisite:* MATH 340 or 440A. Topics selected from statistics and/or probability, such as nonparametric statistics, multivariate statistics, experimental design, decision theory and advanced probability theory.

**MATH 450. Advanced Calculus II (3)**

*Prerequisite:* MATH 350. Topics include sequences and series of functions, Heine-Borel theorem, Jacobians, and inverse and implicit function theorems.

**MATH 455. Complex Variables (3)**

*Prerequisite:* MATH 350. Complex numbers, analytic functions, complex integration, Cauchy's Theorem, power series, calculus of residues and conformal mappings.

**MATH 460. Abstract Algebra II (3)**

*Prerequisite:* MATH 360. Second course in abstract algebra. Group theory, rings and modules, and field extensions.

**MATH 462. Advanced Linear Algebra (3)**

*Prerequisites:* MATH 262, 320. Finite dimensional vector spaces, linear transformations, matrix polynomials, canonical forms.

**MATH 463. Number Theory (3)**

*Prerequisite:* MATH 320. *Recommended Corequisite or Preparatory:* MATH 360. Euclidean algorithm and the unique factorization theorem, congruences, primitive roots and indices, quadratic residues and the law of quadratic reciprocity, and distribution of primes.

**MATH 470. Topics of Geometry (3)**

*Prerequisite:* MATH 370 or 350. Non-Euclidean geometries and/or advanced results in Euclidean geometry.

**MATH 480. Partial Differential Equations (3)**

*Prerequisite:* MATH 351 or 280. Orthogonal functions, Laplace's equation, Poisson's equation, Bessel's equation, self-adjoint operators, Sturm-Liouville theory, Fourier series, separation of variables applied to the heat equation and wave equation, nonhomogeneous problems, Green's functions for time-independent problems, and infinite domain problems.

**MATH 481A. Numerical Analysis (3)**

*Prerequisites:* COMP 106/L or 110/L; MATH 262. Techniques of applied mathematics, solution of equations, interpolation, numerical integration and numerical solution of differential equations.

**MATH 481B. Numerical Analysis (3)**

*Prerequisite:* MATH 481A. Numerical solution of linear systems of equations. Included are direct and iterative methods for solving linear systems, iterative techniques in matrix algebra, applications to approximation theory and techniques for finding eigenvalues. Formal instructions are combined with practical assignments in scientific computing.

**MATH 481C. Numerical Methods for Partial Differential Equations (3)**

*Prerequisite:* MATH 481B. *Corequisite:* MATH 480. Numerical Methods for PDEs are covered, in particular finite difference methods and finite element methods. Application of these methods to linear partial differential equations.

**MATH 481D. Topics in Numerical Mathematics (3)**

*Prerequisite:* MATH 481A. This course explores topics in numerical mathematics that have not been explored elsewhere in the sequence. These include, but are not limited to, topics from statistics and linear and non-linear optimization. The course may be taken twice for credit with the consent of an advisor.

**MATH 482. Combinatorial Algorithms (3)**

*Prerequisites:* MATH 150B, 262; *Some computer programming experience.* Computer-oriented study of seminumerical and non-numerical algorithms. Sorting, tree searching, generation of combinatorial structures, algorithm proof techniques, best algorithms and programming complexity.

**MATH 483. Mathematical Modeling (3)**

*Prerequisites:* MATH 340; 351. Applications of mathematical techniques to solve selected problems in ecology, biology, economics, finance, social sciences, life sciences, physical sciences and engineering. Models discussed include deterministic, stochastic, optimization, static and dynamic ones. Emphasis is placed on the initial phase of building mathematical models and the final phase of interpreting the solutions in terms of real-life applications.

**MATH 490. Capstone Course (3)**

*Prerequisite:* Senior standing. A course where prospective teachers see high-school level mathematics from a more advanced perspective, where there is considerably more emphasis on issues of pedagogy than in other content courses, and where students will see connections between the mathematics they have learned and some of the activities that they will themselves be engaged in as teachers. MATH 490 is required for the Secondary Teaching Option, but a student may choose, in consultation with his or her advisor, to take the course a second time as an elective.

**MATH 493. Undergraduate Seminar in Mathematics (3)**

*Prerequisite:* Junior standing in the major. Students will study current topics in mathematical and/or statistical literature and will prepare written summaries and give oral presentations to the class. Students will be active participants in all seminars by asking questions and providing written critiques and summaries of the presentations of other students.

**MATH 494. Practical Experience in Mathematics (3)**

*Prerequisite:* Junior standing in the major. Students will gain practical experience in the profession by either participating in an internship doing mathematical/statistical work at an outside organization or by doing directed research within the Department. All students are expected to work a minimum of 8 hours per week on this assignment and meet with the course instructor on a regular basis. All students are required to produce a written report on their work at the end of the semester. Students will give oral reports to the Department and their peers.

**MATH 496A-Z. Experimental Topics in Modern Mathematics (3)**

*Prerequisites:* Senior standing and instructor consent.

**MATH 499A-C. Independent Study (1-3)**

See Independent Study under courses of study.

## Graduate

### MATH 501. Topology (3)

*Prerequisite:* MATH 350. Metric spaces, topological spaces, compactness, completeness and connectedness. Introduction to function spaces, with emphasis on the uniform topology.

### MATH 510A/B. Algebra and Number Theory (3-3)

*Prerequisite:* Admission to the Graduate Program. A 2-course sequence on integers and prime numbers, rational and complex algebraic numbers, symmetry and group theory, rings of polynomials and algebraic integers, basic algebraic geometry and algebraic extensions, elementary Galois Theory and the theory of equations. MATH 510A is the prerequisite for MATH 510B. These courses cannot be taken for credit toward the Master's Degree in Options I and II.

### MATH 511A/B. Linear Algebra and Geometry (3-3)

*Prerequisite:* Admission to the Graduate Program. A 2-course sequence on modern applications of mathematics that involve matrices, basic properties of vectors of  $R^2$  and  $R^3$ , dot product, orthonormal basis, cross product, linear transformations of Euclidean 2- and 3-Space and the classification of its rigid motions, symmetric bilinear forms, conics and quadrics, basic topology of  $R^n$ , spherical geometry, Poincaré's models of the hyperbolic plane and their isometries. MATH 511A is the prerequisite for MATH 511B. These courses cannot be taken for credit toward the Master's Degree in Options I and II.

### Math 512A/B. Concepts of Analysis (3-3)

*Prerequisite:* Admission to the Graduate Program. A 2-course sequence on the real number system, countable and uncountable sets, cardinal numbers, Cantor diagonal argument, well-ordered sets, ordinal numbers, numerical sequences and numerical series of real numbers, continuity, differentiability and integration of functions of one variable, sequences and series of functions, uniform convergence and ordinary differential equations. MATH 512A is the prerequisite for MATH 512B. These courses cannot be taken for credit toward the Master's Degree in Options I and II.

### Math 513A/B. Discrete Mathematics (3-3)

*Prerequisite:* Admission to the Graduate Program. A 2-course sequence on permutations, combinations, multinomial coefficients and Pascal triangles, pigeon hole principle, inclusion-exclusion principle, Ramsey numbers, characteristic functions and algorithms, generating functions, finite probabilities, recurrence relations, vonconnected graphs, graph colorings, planar graphs, trees, adjacency matrices, Eulerian paths, Hamiltonian paths, tournaments, matching and covering, networks, information transmission, coding and decoding, and error correcting codes. MATH 513A is the prerequisite for MATH 513 B. These courses cannot be taken for credit toward the Master's Degree in Options I and II.

### Math 514A/B. Probability and Statistics (3-3)

*Prerequisite:* Admission to the Graduate Program. A 2-course sequence on probability rules, discrete and continuous random variables and their distributions, central limit theorem, and on elementary topics in statistics from the advanced point of view, including exploratory analysis, graphical display, random phenomena, probability distributions, simulation, correlation and regression, survey sampling and experimental design, sampling distributions, confidence intervals and significance tests for proportions and means, and chi-square tests. MATH 514A is the prerequisite for MATH 514B. These courses cannot be taken for credit toward the Master's Degree in Options I and II.

### MATH 540. Regression Analysis (3)

*Prerequisite:* MATH 440A. General linear model in matrix form, simple and multiple regression analysis, transformations, variable selection, multicollinearity, analysis of variance, robust regression, logistic regression, principal components and factor analysis. Statistical software utilized.

### MATH 542A-D. Probability and Statistics (3-3-3-3)

*Prerequisite:* MATH 340 or 440A. This course will cover topics in probability and statistics not covered elsewhere in the program. Part A is usually devoted to multivariate statistics, Part B to stochastic processes, and Part C to probability theory. Part D is left to a topic chosen by the individual instructor.

### MATH 550. Calculus On Manifolds (3)

*Prerequisite:* MATH 450. Integration of functions of several variables. Differential forms and differential manifolds, Line integrals, integration on manifolds, Stokes' Theorem and Poincaré's Lemma.

### MATH 552. Real Analysis (3)

*Prerequisite:* MATH 501. Introduction to measure theory and Lebesgue integration, and their application to probability theory. Monotone and dominated convergence theorems, Fubini's theorem, Fourier analysis and Banach spaces.

### MATH 560. Abstract Algebra III (3)

*Prerequisite:* MATH 460. Graduate course in abstract algebra. Group theory, Galois theory and other topics.

### MATH 570. Differential Geometry (3)

*Prerequisite:* MATH 450. The local theory of regular curves in  $R^3$  and Frenet formulas. Regular surfaces in  $R^3$ , the first and second fundamental forms, Gaussian and mean curvatures, and the Egregium Gauss theorem. Geodesics and the Gauss-Bonnet theorem.

### MATH 581. Numerical Methods for Linear Systems (3)

*Prerequisite:* MATH 462. Methods for solving large linear problems and eigenvalue problems are presented at an advanced level. Direct methods such as LU factorization, Cholesky factorization and the Least Squares method, and Iterative methods, such as the Jacobi, Gauss-Seidel, SOR and conjugate Gradient methods, are discussed in detail. Eigenvalue problems are solved via power iteration, the QR method and the Jacobi method.

### MATH 582 A-D. Topics in Numerical Analysis (3-3-3-3)

*Prerequisite:* MATH 581 or consent of instructor. The course will cover topics in numerical analysis which are important in many applications and which are not covered elsewhere in the program. Part A usually covers numerical methods in optimization, Part B covers numerical methods for ordinary differential equations, and Part C covers numerical solution of partial differential equations. Part D covers a subject chosen by the instructor.

### MATH 589. Seminar in Mathematics (1)

*Prerequisite:* Senior or graduate standing in the Mathematics Department. Students will read about advanced topics in the recent literature in mathematics and report on them in a lecture. This course may be taken up to two times with the consent of the advisor. (Credit/No Credit only)

### MATH 592A-D. Topics in Applied Mathematics (3-3-3-3)

*Prerequisites:* MATH 552 or consent of instructor. This course is devoted to a variety of important topics in applied mathematics that are not covered elsewhere in the Program. In particular, Part A will cover the mathematical theory of partial differential equations, Part B covers mathematical optimization and operations research, and Part C covers mathematical biology. The topic of Part D is left to the individual instructor.

**MATH 595A-Z. Experimental Topics (1-3)**

*Prerequisite:* Consent of instructor. Specialized topics from a concentrated field of current interest presented at an advanced level.

**MATH 625. Advanced Mathematical Modeling (3)**

Selected problems in ecology, biology, economics, finance, social sciences, life sciences, physical sciences and engineering are used to develop advanced techniques of mathematical modeling.

**MATH 651 ABC. Advanced Topics in Analysis, Geometry and Topology (3-3-3)**

*Prerequisite:* Consent of instructor. Advanced topics not covered in the previous classes on the subject. Part A covers topics in analysis, Part B covers topics in geometry, and Part C covers topics in topology. May be repeated with the consent of the advisor.

**MATH 655. Complex Analysis (3)**

*Prerequisites:* MATH 501, 455. Topics covered include the general Cauchy theorem, power series and analytic continuation, series and product expansions, conformal mapping and the Dirichlet problem.

**MATH 661 ABC. Advanced Topics in Algebra, Number Theory and Discrete Mathematics (3-3-3)**

*Prerequisite:* Consent of instructor. Advanced topics not covered in the previous classes on the subject. Part A covers topics in algebra, Part B covers topics in number theory, and Part C covers other topics in discrete mathematics. May be repeated with the consent of the advisor.

**MATH 680A/B. Applied Functional Analysis (3-3)**

*Prerequisites:* MATH 501, 552. This 2-semester sequence gives an introduction to Banach and Hilbert spaces and their applications. Fixed Point Theorems and their applications to differential and integral equations and variational principles. Adjoint and self-adjoint operators and spectral theory of linear operators. MATH 680A is a prerequisite for MATH 680B.

**MATH 697A-C. Directed Comprehensive Studies (1-3)****MATH 698A-C. Thesis or Graduate Project (1-3)****MATH 699A-F. Independent Study (1-6)**

See Independent Study under courses of study.

# Mechanical Engineering

## College of Engineering and Computer Science

**Chair: Hamid Johari**

Jacaranda Hall (JD) 4513

### Faculty

Timothy W. Fox, Nhut T. Ho, Hamid Johari, J. Michael Kabo, C.T. Lin, Abhijit Mukherjee, Stewart Prince, Robert G. Ryan, George Youssef

### Emeritus Faculty

Larry Caretto, Shoeleh Di Julio, Melvin Epstein, William J. Rivers, Charles F. Sanders, Sidney H. Schwartz

### Programs

Undergraduate Degree:

**B.S., Mechanical Engineering**

Graduate Degree:

**M.S., Mechanical Engineering**

### Accreditation

The Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

### Mission Statement

The mission of the Mechanical Engineering Department is to provide a broad, rigorous, application-oriented and contemporary understanding of mechanical engineering that prepares graduates for successful careers and lifelong learning.

### The Major

Mechanical Engineering majors at CSUN receive a solid education in the fundamentals of the discipline augmented by hands-on experience that employers have found to be invaluable. Design concepts and projects are integrated throughout the curriculum.

The freshmen and sophomore years provide the student with a breadth of knowledge that is required in specialized courses and in the career work of the mechanical engineer. During these years, students take courses in mathematics, chemistry, physics, computer programming, engineering materials, engineering mechanics, electrical systems and mechanical design. The junior year courses include engineering economics, engineering dynamics, strength of materials, thermodynamics, fluid mechanics, heat transfer, mechanical design, the numerical analysis of engineering systems and computer-aided analysis and design.

The senior year is composed of a group of required and elective courses that are related to the student's area of specialization within Mechanical Engineering. The required courses include system dynamics, mechatronics and 2 semesters of senior design. Students can take their electives to obtain more in-depth knowledge in the following areas: aerospace engineering, automotive engineering, controls engineering, environmental engineering, mechanical design and thermal-fluid systems.

The Mechanical Engineering Department takes a practical approach to engineering, offering hands-on design experience as well as theoretical knowledge. That's an advantage on the job because our graduates have had experience constructing projects, not just analyzing and designing them. A key to this practical training is the Department's Senior Design Program, which is modeled on the industry work groups that students will encounter on the job. Like professional engineers, students design and develop a project, from conception through manufacture. In the process, they gain valuable experience in working as a

team, overcoming technical and management challenges and developing communication skills. Past senior design projects have included an autonomous intelligent ground vehicle, battle-bots, a Formula SAE race car, a human powered vehicle, unmanned aerial systems and systems for petroleum polluted soil and water cleanup.

Department lab facilities, contained in approximately a dozen labs with a total floor space of more than 20,000 square feet, include:

1. A lab for studying modern methods of measurement and mechatronics;
2. A systems engineering lab used for research on automated air traffic simulations;
3. A fully instrumented engine and vehicle performance and emissions test facility, including a chassis and several engine dynamometers;
4. An environmental test chamber for temperature (-30°C to +65°C) and humidity environmental testing that includes an automotive chassis dynamometer;
5. A state-of-the-art computer-controlled manufacturing facility (Haas Lab), together with a student machine shop;
6. Low-speed wind tunnel for testing models at up to 200 mph;
7. A small rocket engine test stand in an explosion-proof test cell;
8. A thermofluid systems lab used for heat transfer and fluid flow experiments;
9. A controls lab used for studying automatic control systems, as well as autonomous vehicles; and
10. A Design Center containing state-of-the-art workstations for conceptual design and analysis.

Through student chapters of two national organizations, the Society of Automotive Engineers and the American Society of Mechanical Engineers, students can get to know more about the field and each other outside of class.

### Educational Objectives

The CSUN Undergraduate Program prepares students to enter the engineering profession as a skilled practitioner who can make a solid contribution to the field, find job satisfaction and have a lifelong career. To accomplish this overall goal, a CSUN graduate should have the following accomplishments during the first few years following graduation:

1. Have an engineering job or a position that requires the application of the graduate's engineering education;
2. A record of effective application of undergraduate educational tools to accomplish tasks assigned in the workplace. This includes mathematics, science, engineering fundamentals, and engineering design, test and evaluation;
3. Demonstrated accomplishments in preparing effective reports, technical presentations and other technical communications;
4. Has been able to learn new material required to carry out job assignments; and
5. Is regarded by colleagues and supervisors as an effective member of the work team, demonstrating skills, initiative, professional and ethical responsibility, and knowledge of all issues (including economic, environmental and societal, in a global context) affecting his or her work. Appropriate leadership skills also are demonstrated.

### Student Learning Outcomes of the Undergraduate Program

The outcomes listed below have been defined for the Mechanical Engineering Program. These outcomes as defined in ABET 2000 Criterion 3 have been modified to include the outcomes required by the Program-specific criteria as given by the American Society of Mechanical Engineers. The following is the list of the 15 outcomes:

- a. An ability to apply knowledge of mathematics, science and engineering;
- b. An ability to design and conduct experiments, as well as to analyze and interpret data;

- c. An ability to design a mechanical/thermal system, component, or process to meet desired needs;
- d. An ability to function on multidisciplinary teams;
- e. An ability to identify, formulate and solve engineering problems;
- f. An understanding of professional and ethical responsibility;
- g. An ability to communicate effectively;
- h. The broad education necessary to understand the impact of engineering solutions in a global and societal context;
- i. A recognition of the need for and an ability to engage in lifelong learning;
- j. A knowledge of contemporary issues;
- k. An ability to use the techniques, skills and modern engineering tools necessary for engineering practice;
- l. A knowledge of chemistry- and calculus-based physics, with depth in at least one of the two;
- m. Applied advanced mathematics through multivariate calculus and differential equations;
- n. Familiarity in statistics and linear algebra; and
- o. Ability to work professionally in both thermal and mechanical areas including the design and realization of such systems.

### Careers

Mechanical engineers design automobiles; aircraft and space vehicles; power plants; heating and cooling systems; gas and steam turbines; servomechanisms; transmissions; engines for rockets, aircraft and ground vehicles; robots; and manufacturing production lines. They use scientific knowledge to create new and useful designs and to harness various types of energy, such as chemical, solar or thermal.

Mechanical Engineering is the broadest engineering specialty. A company that employs any engineer is likely to hire some mechanical engineers. Those companies include power-generation and public utility companies, transportation companies, construction firms, airlines, missile and spacecraft companies, electronics companies and the manufacturing companies that produce all forms of machinery, vehicles, aircraft, appliances and many other products used by industry and/or consumers.

Most CSUN Mechanical Engineering graduates become practicing engineers in industry. Others, however, choose to pursue careers with government agencies or educational institutions. The Degree also can be a stepping-stone to law school for a career as a patent lawyer, or to business school for careers in technical management, marketing or sales, or even to medical school.

Many employers in our local geographic area have CSUN graduates working for them and look forward to hiring more of our graduates.

### Academic Advisement

The Mechanical Engineering faculty is committed to providing a supportive student-centered environment for their students. All Mechanical Engineering majors at CSUN meet with their assigned faculty advisors for academic advisement. Students will need to be advised once each semester until they complete all requirements.

### Community Relations And Departmental Advisory Council

The Department maintains strong relations with the community. We continuously review our Programs with students, alumni and employers of our graduates. The Department's advisory council consists of members in the professional community to ensure that we receive a breadth of information on future engineering trends that would affect our programs.

### Requirements for the Bachelor of Science in Mechanical Engineering (BSME) Degree

The CSUN Mechanical Engineering Program assumes that students have a strong high school preparation in science, mathematics and English. High school courses should include 4 years of mathematics, 4 years of English and at least 1 year of Chemistry and Physics with labs. The mathematics courses should include geometry, trigonometry and algebra. Calculus is desirable.

CSUN provides the opportunity for students who have not had a complete background of pre-engineering work in high school to take courses to prepare for the major. These additional courses will not count toward the major and may increase the time to graduate. CSUN provides testing as outlined below to ensure that students start their engineering course work at an appropriate level.

The University requires all beginning students to take the Entry Level Mathematics Exam (ELM) and the English Placement Test (EPT) or obtain an exemption to these requirements by their score on an equivalent test prior to enrolling in their courses. Refer to the section of the Catalog titled Appendices-Admission for further details on these exams and alternative test.

In addition to these general University requirements, students entering the Mechanical Engineering Program need to take the following exams:

1. **Mathematics Placement Test (MPT)** is required prior to enrollment in MATH 150A. Students who have passed or are exempt from the ELM should take this exam prior to enrolling in their classes so they may be placed in the appropriate mathematics course. Students with scores of 3, 4, or 5 on the AP Calculus AB or BC exams are exempt from the MPT.
2. **Chemistry Placement Test (CPT)** is required with a minimum score of 40 prior to enrolling in CHEM 101. Students who do not achieve this score must complete CHEM 100 with a grade of "C" or better before taking CHEM 101. An advisor will review the details of these examinations with each student before they enroll in their courses.

### Special Grade Requirements

1. All students must pass the English Placement Test with a score of 151 or higher to enroll in any engineering courses at the 200-level.
2. All students must complete the Lower Division writing requirement before enrolling in any 300-level engineering courses.
3. Students who have completed 56 units and have met the Lower Division writing requirement are required to take the Upper Division Writing Proficiency Examination (UDWPE) as early as possible and no later than the semester in which 75 units are completed. Students who have not attempted the exam by the completion of 75 units will have a hold placed on their subsequent class registration and may delay their graduation..
4. Senior year courses cannot be taken unless the student has previously completed, or is concurrently completing, all freshman-, sophomore- and junior year requirements. A grade of "C-" or better is required in all courses in the major. The Mathematics Department requires a grade of "C" in prerequisite courses.

### Lower Division Required Courses (47 units)

#### Freshman Year

|      |        |  |
|------|--------|--|
| CHEM | 101/L  | General Chemistry and Lab (4/1)                      |
| MATH | 150A   | Calculus I (5)                                       |
| MATH | 150B   | Calculus II (5)                                      |
| ME   | 101/L  | Introduction to Mechanical Engineering and Lab (1/1) |
| ME   | 186/L  | Computer-Aided Design and Lab (1/1)                  |
| PHYS | 220A/L | Mechanics and Lab (3/1)                              |

**Sophomore Year**

|      |        |   |
|------|--------|---|
| CE   | 240    | Engineering Statics (3)                           |
| ECE  | 240/L  | Electrical Engineering Fundamentals and Lab (3/1) |
| MATH | 250    | Calculus III (3)                                  |
| MATH | 280    | Applied Differential Equations (3)                |
| ME   | 209    | Programming for Mechanical Engineers (1)          |
| ME   | 286    | Mechanical Engineering Design (2)                 |
| MSE  | 227/L  | Engineering Materials and Lab (3/1)               |
| PHYS | 220B/L | Electricity and Magnetism and Lab (3/1)           |

**Upper Division Required Courses (52 units)****Junior Year**

|     |       |   |
|-----|-------|---|
| AM  | 316   | Engineering Dynamics (3)                      |
| AM  | 317   | Mechanics Lab (1)                             |
| CE  | 340   | Strength of Materials (3)                     |
| ME  | 309   | Numerical Analysis of Engineering Systems (2) |
| ME  | 330   | Machine Design (3)                            |
| ME  | 335/L | Mechanical Measurements and Lab (1/1)         |
| ME  | 370   | Thermodynamics (3)                            |
| ME  | 375   | Heat Transfer I (3)                           |
| ME  | 386/L | Computer-Aided Analysis and Design (2/1)      |
| ME  | 390   | Fluid Mechanics (3)                           |
| MSE | 304   | Engineering Economy (3)                       |

**Senior Year**

|    |       |  |
|----|-------|--|
| ME | 384   | System Dynamics: Modeling, Analysis and Simulation (3) |
| ME | 435/L | Mechatronics and Lab (2/1)                             |
| ME | 486A  | Senior Design in Mechanical Engineering I (2)          |
| ME | 486B  | Senior Design in Mechanical Engineering II (2)         |
| ME | 491   | Experimental Methods in Thermal-Fluids Systems (1)     |

**Upper Division Senior Electives (12 units):**

Students must select 12 units of electives from 400 and/or 500-level engineering courses. These electives, together with the required senior year courses listed above, constitute the student's Mechanical Engineering senior year. The elective program must be approved by the Mechanical Engineering Department before the student files a graduation check. Up to 6 units from the following list of non-ME courses may be taken as senior electives.

|     |       |   |
|-----|-------|---|
| AM  | 410   | Vibrations Analysis (3)                                 |
| CE  | 460/L | Engineering Hydrology and Lab (2/1)                     |
| CE  | 487   | Water Pollution (3)                                     |
| ECE | 410/L | Electrical Machines and Energy Conversion and Lab (3/1) |
| ECE | 411   | Electric Power Systems (3)                              |
| ECE | 412   | Power Electronics (3)                                   |
| ECE | 420   | Digital Systems Design with Programmable Logic (3)      |
| ECE | 425/L | Microprocessor Systems and Lab (3/1)                    |
| ECE | 440/L | Electronics II and Lab (3/1)                            |
| ECE | 501   | Introduction to Biomedical Engineering (3)              |
| MSE | 527/L | Mechanical Behavior of Materials and Lab (2/1)          |

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Major</b> | <b>99</b> |
|---------------------------------|-----------|

**General Education (27 Units):** Mechanical Engineering majors follow a modified General Education program depending on the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their general Education programs. The requirements for students entering in Fall 2006 or later under the new Plan R is described here. Continuing students and some first-time transfer students may elect to continue with the former GE

Plan C. Students should refer to prior Catalog editions and consult with an academic advisor in selecting their required GE courses.

Mechanical Engineering students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Social Sciences (3 units); Arts and Humanities (6 units); Comparative Cultures (6 units); and Title 5 (6 units). All other GE requirements are met through completion of courses in the major.

Students are required to complete 1 Upper Division Subject Explorations or Title 5 course that satisfies the Information Competency requirement.

|   |            |
|---|------------|
| <b>Total Units Required for the B.S. Degree</b> | <b>126</b> |
|---|------------|

**Requirements for the Master of Science in Mechanical Engineering (MSME) Degree****A. Requirements for Admission to the Program**

1. Satisfaction of all requirements for admission to the University (see University section regarding Graduate Programs in the Catalog).
2. Approval by the College of Engineering and Computer Science and the Department Graduate Coordinator.
3. Note: Graduate courses can be taken through the Tseng College of Extended Learning without formal admission to the M.S. Degree Program. Up to 9 of these units can be transferred into the Program following admission.

**B. Requirements for Advancement to Classified Graduate Status**

1. Upon completion of 12 units and satisfaction of University requirements for Classified status (see University section regarding Graduate Programs in the Catalog);
2. Completion of all requirements noted on individual admissions documents;
3. Submission of a tentative program of study to the graduate Coordinator; and
4. Approval by the Department Graduate Coordinator.

**C. For the Degree**

1. Completion of 30 units under the Thesis Plan or 33 units under the Comprehensive Examination Plan.

**A. Thesis Plan**

1. 24 units of course work applicable to the M.S. degree, of which at least 18 units must be Engineering courses at the 500 or 600-level. All course work in the student's graduate program must be completed with a C or better.
2. 6 units of Thesis, and successful defense of Thesis.

**B. Comprehensive Examination Plan**

1. 30 units of course work applicable to the M.S. Degree, of which at least 21 units must be Engineering courses at the 500- or 600-level. All course work in the student's graduate program must be completed with a grade of "C" or better.
2. 3 units of Directed Comprehensive Study, and successful passage of a Comprehensive Examination.
2. Formal approval of granting of the Degree by the Mechanical Engineering faculty.

**Required Courses (9-21 units)**

The number of required units depends on the number of "Expected Background" courses taken previously as part of a B.S. Degree Program, and whether the Thesis or Comprehensive Examination Plan is chosen. Any "Expected Background" courses not taken are required in the M.S. Degree Program. The "Prerequisites" courses or their equivalents are required if they have not been taken previ-

ously, but they do not count as part of the M.S. program. Students interested in this Program who do not have an Undergraduate Degree in Mechanical Engineering should contact the Graduate Coordinator regarding prerequisite requirements.

### 1. Required Core M.S. Degree Program

#### Select 1 of the following:

|    |      |  |
|----|------|--|
| ME | 501A | Seminar in Engineering Analysis I (3)  |
| ME | 501B | Seminar in Engineering Analysis II (3) |

#### Select 1 of the following:

|    |     |                                  |
|----|-----|----------------------------------|
| AE | 697 | Direct Comprehensive Studies (3) |
| AE | 698 | Thesis (6)                       |
| ME | 697 | Direct Comprehensive Studies (3) |
| ME | 698 | Thesis (6)                       |

Select at least 1 course from 3 of the 4 Emphasis Groups shown below. Students may select appropriate experimental or special topics courses in an Emphasis that are not shown on the list below with the approval of their advisor and the Graduate Coordinator.

### 2. Electives (12-18 units):

The number of required units of elective courses depends on the number of units of required courses described above. The total number of units in the M.S. Degree program, both required and elective, must be at least 30 (33 with the Comprehensive Examination Option). Students are expected to have the prerequisite courses listed below upon admission to the Program. If they do not have these courses (or appropriate transfer courses) they will have to take the courses when they enter the M.S. Program. Since these prerequisite courses are all 300-level courses, they carry no credit toward the M.S. Degree. The courses listed below as expected background also must be completed as part of the M.D. Degree Program if students have not already taken them (or appropriate transfer courses) as part of their Undergraduate Degree. Students can take a maximum of 6 units (Thesis Option) or 9 units (Exam Option) of 400-level courses as part of their M.S. Degree program. The 400-level courses in the “expected background” list, which are taken as part of the M.S. Degree Program, will be part of this 6- or 9-unit maximum. The elective courses in the M.S. Degree Program are generally selected with the approval of an advisor, to be consistent with the chosen Emphasis. With the approval of an advisor, courses taken outside of the Department are eligible for graduate credit. The elective courses in the M.S. Degree Program are normally chosen from the “Suggested Electives” for each Emphasis.

#### A. Aerospace Emphasis

*Prerequisites: ME 309, 370, 375, 390*

##### Expected Background:

|    |     |   |
|----|-----|---|
| AE | 472 | Aero-Propulsion Systems (3)               |
| AE | 480 | Fundamentals of Aerospace Engineering (3) |
| AE | 589 | Aerodynamics (3)                          |

##### Suggested Electives:

|    |     |                                |
|----|-----|--------------------------------|
| AE | 572 | Rocket Propulsion (3)          |
| AE | 586 | Aircraft Design (3)            |
| AE | 672 | Advanced Aero Propulsion (3)   |
| AE | 680 | Flight Vehicle Performance (3) |
| AE | 689 | Advanced Aerodynamics (3)      |

#### B. Mechanical Systems Design Emphasis

*Prerequisites: ME 309, 330, 370, 375, 384, 390*

##### Expected Background:

|    |     |                                 |
|----|-----|---------------------------------|
| AM | 410 | Vibration Analysis (3)          |
| ME | 415 | Kinematics of Mechanisms (3)    |
| ME | 430 | Machine Design Applications (3) |

##### Suggested Electives:

|    |      |   |
|----|------|---|
| ME | 409  | Computer-Aided Mechanical Engineering (3)           |
| ME | 515  | Dynamics of Machinery (3)                           |
| ME | 560  | Automotive Engineering (3)                          |
| ME | 562  | Internal Combustion Engines (3)                     |
| ME | 630  | Computer-Aided Machine Design (3)                   |
| ME | 686A | Advanced Modeling, Analysis and Optimization I (3)  |
| ME | 686B | Advanced Modeling, Analysis and Optimization II (3) |

#### C. System Dynamics and Controls Emphasis

*Prerequisites: ME 309, 330, 370, 375, 384, 390*

##### Expected Background:

|    |     |                                   |
|----|-----|-----------------------------------|
| AM | 410 | Vibration Analysis (3)            |
| ME | 415 | Kinematics of Mechanisms (3)      |
| ME | 484 | Control of Mechanical Systems (3) |

##### Suggested Electives:

|    |      |  |
|----|------|--|
| ME | 501B | Seminar in Engineering Analysis II (3)         |
| ME | 503  | Biomedical Instrumentation (3)                 |
| ME | 520  | Robot Mechanics and Control (3)                |
| ME | 522  | Auto Intelligent Vehicle (3)                   |
| ME | 584  | Modeling and Simulation of Dynamic Systems (3) |
| ME | 684  | Design and Control of Dynamic Systems (3)      |

#### D. Thermofluid Systems Emphasis

*Prerequisites: ME 309, 370, 375, 390*

##### Expected Background:

|    |     |                                    |
|----|-----|------------------------------------|
| ME | 470 | Thermodynamics II (3)              |
| ME | 490 | Fluid Dynamics (3)                 |
| ME | 575 | Applied Heat and Mass Transfer (3) |

##### Suggested Electives:

|    |      |   |
|----|------|---|
| ME | 483  | Alternative Energy Engineering II (3)         |
| ME | 485  | Introduction to Environmental Engineering (3) |
| ME | 493  | Hydraulics (3)                                |
| ME | 501B | Seminar in Engineering Analysis II (3)        |
| ME | 573  | Chemical Reaction Engineering (3)             |
| ME | 583  | Thermal-Fluids System Design (3)              |
| ME | 590  | Advanced Fluid Dynamics (3)                   |
| ME | 670  | Advanced Topics in Thermodynamics (3)         |
| ME | 675A | Conductive and Radiative Heat Transfer (3)    |
| ME | 675B | Convective Heat and Mass Transfer (3)         |
| ME | 678  | Transport Phenomena (3)                       |
| ME | 683  | Energy Processes (3)                          |
| ME | 692  | Computational Fluid Dynamics (3)              |

|   |              |

### Course List—Aerospace Engineering

**AE 196A-Z. Experimental Topics Courses in Aerospace Engineering (1-4)**

**AE 296A-Z. Experimental Topics Courses in Aerospace Engineering (1-4)**

#### Upper Division

**AE 396A-Z. Experimental Topics Courses in Aerospace Engineering (1-4)**

**AE 400A. Engineering Design Clinic I (1-3)**

Group design experience involving teams of students and faculty working on the solution of engineering design problems submitted by industry and government agencies.

**AE 400B. Engineering Design Clinic II (1-3)**

*Prerequisite: AE 400A.* Continuation of AE 400A.

**AE 472. Aeropropulsion Systems (3)**

*Prerequisites:* ME 370, 390. Analysis of aeropropulsion systems: gas turbine, fan jet, ram jet, scram jet, scram-rocket, solid rocket and liquid rocket systems. Introduction to aero-thermodynamics and advanced propellant combustion processes.

**AE 480. Fundamentals of Aerospace Engineering (3)**

*Prerequisites:* ME 390; PHYS 220A/L. Atmospheric structure/space environment. Aircraft/spacecraft configurations. Aircraft/missile systems performance, including flight envelope, aerodynamic approximations, available propulsion systems, structural form, take-off, landing, climb and range. Introduction to vehicle stability and control.

**AE 486A. Senior Design in Aerospace Engineering I (2)**

*Prerequisite:* ME 386. First semester of a 2-semester capstone design experience, simulating professional aerospace engineering practice. Emphasis is on the application of engineering fundamentals to a comprehensive design project utilizing computer-aided design and analysis tools. Addresses effective group participation and preparation of written and oral preliminary and critical design reviews. Ethical, regulatory, manufacturing and economic issues are considered as required by the project definition. Two 3-hour labs per week.

**AE 486B. Senior Design in Aerospace Engineering II (2)**

*Prerequisite:* AE 486A. Continuation of AE 486A. Students carry out the group design project initiated in AE 486A. Influence of technical, legal, ethical and regulatory constraints are considered. Computer-aided engineering design methods are utilized. Two 3-hour labs per week.

**AE 486C. Senior Design in Aerospace Engineering I (3)**

*Prerequisite:* Senior standing in Engineering. Capstone design project management and design leadership through participation in a large group simulation of a “real world” project that takes the process from concept to demonstrated hardware.

**AE 496A-Z. Experimental Topics Courses in Aerospace Engineering (1-4)****AE 498. Supervised Individual Projects (1-3)**

Studies in Aerospace Engineering with course content to be determined. (See subtitle in appropriate Schedule of Classes)

**AE 499A-C. Independent Study (1-3)**

## Graduate

---

**AE 572. Rocket Propulsion (3)**

*Prerequisites:* ME 370 and 390, or equivalent background. Flight environment. Mission propulsive requirements, staging and optimization. Chemical rockets. Thrust chamber design, nozzle design, propellant storage and pressurization systems. Liquid propellant combustion and expansion; Monopropellant systems. Solid propellant grain design. Combustion instabilities. Multiple phase, reacting nozzle flow. Ram/rocket hybrid engines. Energy limited vs. power limited systems. Introduction to electrical rocket propulsion.

**AE 586. Aircraft Design**

*Prerequisite:* AE 480. Aircraft conceptual design, focused on industry practice, including discussion of the design process, initial sizing, selection of thrust-to-weight ratio and wing loading, configuration layout, propulsion integration, systems integration, performance optimization and trade-off studies. Students complete an individual aircraft design project. Includes performance analysis via simulated flight testing using a flight simulator.

**AE 589. Aerodynamics**

*Prerequisite:* ME 390. Prediction of aerodynamic forces due to subsonic flows over aircraft/missile wings and bodies. Calculation of pressure distribution, lift, drag, moments and wall-shearing stress in incompressible flow. Compressibility corrections are considered. Impact of these calculations on aerodynamic design are evaluated.

**AE 672. Advanced Topics in Aero-Propulsion (3)**

*Prerequisites:* AE 472 and 589, or equivalents. Off-design performance of aero-propulsion systems. Solid propellant, ram jet, ram rocket, gas turbine, turbo-fan and prop-jet engines. Emphases on air-breathing applications in both subsonic and supersonic flight regimes.

**AE 680. Flight Vehicle Performance (3)**

*Prerequisite:* AE 480. Flight vehicle trajectories with emphasis on preliminary mission planning. Flight vehicle equations of motion, static and dynamic stability, and longitudinal and lateral motion. Influence of aerodynamic forces and heating on trajectory, launch, boost, orbit determination and re-entry. Satellite “capture” problem. Planetary-transfer trajectories.

**AE 689. Advanced Aerodynamics (3)**

*Prerequisite:* AE 589 or ME 490. Application of the principles of fluid dynamics to supersonic flows about wings and bodies. Topics include generalized 1-dimensional flow, shock waves, Prandtl-Meyer expansions, pressure distributions, lift, drag, moments and shear stresses on airfoils, wings and bodies. Applications to design are discussed.

**AE 694. Seminar in Aerospace Engineering (1-3)**

*Prerequisite:* Instructor consent. Advanced studies in selected areas of the field of mechanical engineering.

**AE 695A-Z. Experimental Topics Courses in Aerospace Engineering (1-4)****AE 696A-C. Directed Graduate Research (3)****AE 697. Directed Comprehensive Studies (1-3)**

(Credit/no Credit only)

**AE 698. Thesis or Graduate Project (1-6)****AE 699A-C. Independent Study (1-3)**

## Course List—Mechanical Engineering

---

**ME 101/L. Introduction to Mechanical Engineering and Lab (1/1)**

*Prerequisite:* MATH 102, 104, 105, 150A or 150B, or a passing score on the Math Placement Test (MPT) that satisfies prerequisites for MATH 150A or MATH 255A. *Corequisite:* ME 101L. Freshman orientation course introducing the Mechanical Engineering Program, the profession and the University. “Tools of the trade”—the internet, word processing, spreadsheets, power point, computer-aided design, basic lab measurement instruments, commercial component catalogs and numerically controlled machine tools to support prototype fabrication—are introduced in the context of engineering practice. Fundamental engineering analysis/design is explored through simple examples covering all aspects of mechanical engineering. 1 hour lecture, 3 hours lab per week. (Available for General Education, Lifelong Learning for ME majors.)

**ME 122. Energy and Society (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Energy use and its impact on society. Energy production and consumption at all levels from personal to global. Conventional and alternative energy sources, their costs and their environmental impacts. Understanding and participating in public discussions of energy. Designed for non-majors. Regular written assignments are required. (Available for General Education, Lifelong Learning.) (IC)

**ME 125. How Things Work (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Intended for nonscientists seeking a connection between science and technology and the world in which they live. The course’s primary goal is to allow students to begin to see science and technology in everyday life. How Things Work is about ordinary objects and the application of physical concepts that make them possible. Commonly used objects, such as automobiles, amplifiers, cameras, airplanes and rockets, the sea and surfing, computers and more, are used as examples to provide an

easy-to-understand look at the role science and technology plays in our society. Designed for non-engineering majors. (Available for General Education, Lifelong Learning).

**ME 186/L. Computer-Aided Design and Lab (1/1)**

*Prerequisites:* ME 101/L; MATH 102, 104, 105, 150A or 150B, or a passing score on the Math Placement Test (MPT) that satisfies prerequisites for MATH 150A or MATH 255A. *Corequisite:* ME 186L. Introduction to concepts in engineering graphics and their implementation with computer-aided design (CAD) parametric modeling tools. Creation of sketches, parts, assemblies, and engineering drawings. Application to group project, including oral and written reports. 1 hour lecture, 3 hours of lab per week.

**ME 196A-Z/L. Experimental Topics Courses in Mechanical Engineering (1/1)**

*Corequisite:* ME 196AL-ZL

**ME 209. Programming for Mechanical Engineers (1)**

*Corequisite:* MATH 150A. Basic programming concepts implemented with Visual Basic for Applications (VBA), with an emphasis on engineering problem solving. Topics include the use of flowcharts, variable types, the Excel/VBA environment, decision and looping structures, and program debugging. (Available for General Education, Lifelong Learning for ME majors.)

**ME 286. Mechanical Engineering Design (2)**

*Prerequisite:* ME 186/L. Introduction to mechanical design, design methodology and design for manufacturing. Engineering materials selection, metal forming/removal theory and practice. A group design project is required. 2 hours lecture per week.

**ME 296A-Z. Experimental Topics Courses in Mechanical Engineering (1-4)**

Upper Division

**ME 309. Numerical analysis of Engineering Systems (2)**

*Prerequisites:* MATH 150B; ME 209 or COMP 106/L or ECE 206/L or CE 280/L. Features engineering problems which require the use of algorithms and numerical analysis to obtain a solution. Modern tools, such as spreadsheets with imbedded high level-languages, are used for analysis and code development. Program documentation that requires extensive use of computer-based technical writing skills with graphical presentations. Cross section of problems are selected from various branches of engineering. Two 3-hour labs per week.

**ME 322 Principles of Recycling and Municipal Solid Waste Management (3)**

*Prerequisite:* Completion of Lower Division writing requirement. The composition, health and safety aspects of solid waste will be studied. Collection, transfer and disposal infrastructure, landfill design and operation, and integrated solid waste management planning will be among the topics covered. Regulatory framework for recycling and Municipal Solid Waste (MSW) management, waste reduction and recycling, and household hazardous waste, as well as an overview of MSW technology and processing facilities, will be reviewed. Case studies of best practices used in local areas around Los Angeles will be presented. Group projects are assigned. (Available for General Education, Lifelong Learning.)

**ME 330. Machine Design (3)**

*Prerequisites:* CE 340; ME 286. Engineering principles and practice in the selection and design of fasteners, bearings, couplings, shafting, transmissions and other mechanical power transmission devices. Design project. 3 hours lecture per week.

**ME 335/L. Mechanical Measurements and Lab (1/1)**

*Prerequisite:* PHYS 220B. *Corequisite:* ME 335L. Measurement of temperature, pressure, flow rate, force and motion. Statistical methods for analysis of uncertainty and experiment design. Use of data acquisition software for data collection and storage. Analysis of dynamic response of instruments. Written and oral presentations of experimental results. 1 hour lecture, one 3-hour lab per week.

**ME 370. Thermodynamics (3)**

*Prerequisites:* MATH 250; PHYS 220A/L. Fundamental theories and engineering applications of thermodynamics with emphasis of First and Second Laws of Thermodynamics. Thermodynamic properties of solids, liquids, gases, and mixtures. Work-producing and work-absorbing systems. Applications to design.

**ME 375. Heat Transfer I (3)**

*Prerequisites:* MATH 250; PHYS 220A/L. Basic principles of heat transfer and their application. Introduction to conductive, convective and radiative heat transfer. Applications to design.

**ME 384. System Dynamics: Modeling, Analysis and Simulation (3)**

*Prerequisites:* AM 316; ECE 240/L. *Corequisite:* ME 390. Modeling of dynamic engineering systems in various energy domains—mechanical, electrical, hydraulic and pneumatic—using bond graphs, block diagrams and state equations. Analysis of response of system models. Digital computer simulation.

**ME 386/L. Computer-Aided Analysis and Design and Lab (2/1)**

*Prerequisite:* ME 286. *Corequisite:* ME 330, 386. This course addresses the use of finite element analysis (FEA) tools for effective and efficient design of mechanical elements. A commercial, general purpose FEA software application is used for the solution of non-trivial problems. Emphasis will be placed on the selection of suitable FEA models, and interpretation and critical evaluation of the results. The integration of the use of FEA tools in a well-organized design process also is emphasized. Lecture material is complemented by laboratory case studies and a design project. 2 hours lecture, 3 hours lab per week.

**ME 390. Fluid Mechanics (3)**

*Prerequisites:* MATH 250; PHYS 220A/L. Fundamental equations of fluid mechanics are derived and applied to engineering problems, with emphasis on understanding the physical principles involved. Basic developments are applied to compressible as well as incompressible fluids. Selective exploration of the state of the art of experimental knowledge in major areas of applications. Applications to design.

**ME 396A-Z. Experimental Topics Courses in Mechanical Engineering (1-4)**

**ME 400A. Engineering Design Clinic I (1-3)**

Group design experience involving teams of students and faculty working on the solution of engineering design problems submitted by industry and government agencies.

**ME 400B. Engineering Design Clinic II (1-3)**

*Prerequisite:* ME 400A. Continuation of ME 400A.

**ME 415. Kinematics of Mechanisms (3)**

*Prerequisites:* AM 316; Upper Division standing. Study of forces and motion of constrained mechanisms in machine systems. Analysis of linkages, cams, sliders, crank and rocker, offset crank-slider, universal joints and more. An internal combustion engine is utilized to demonstrate application of these elements at a systems level.

**ME 430. Machine Design Applications (3)**

*Prerequisites:* CE 340; ME 330. Continuation of ME 330, with emphasis on fatigue of machine parts, life, wear and friction considerations. Turbine, pump, transmissions and other devices discussed and analyzed as case studies. Design project.

**ME 432. Machine Design Lab (1)**

*Prerequisite:* ME 330. Examination of the design process and review of machine elements. Applications of CAD to machine design. Design projects with machine drawings. Introduction to machining and machine tools: fabrication of machine parts.

**ME 434. Geometric Dimensioning and Tolerancing (3)**

*Prerequisite:* ME 330. Fundamental principles of geometric dimensioning and tolerancing (GD&T) and their applications in computer aided mechanical design. Interpretation of fits, limits, and tolerances. Thorough analysis of coordinate and positional tolerancing. Gaging techniques, material conditions and current standards examined. Design project required. Available for graduate credit. 3 hours lecture per week.

**ME 435/L. Mechatronics and Lab (2/1)**

*Prerequisite:* ECE 240/L. *Corequisite:* ME 435L. *Recommended corequisite:* ME 335 or ECE 320. Machine and process control applications, data acquisition systems, sensors and transducers, actuating devices, hardware controllers, transducer signal processing and conditioning. 2 hours lecture, one 3-hour lab each week. (Cross listed with ECE 435/L)

**ME 470. Thermodynamics II (3)**

*Prerequisite:* ME 370. Continuation of Thermodynamics I, with applications to engineering systems. Gas and vapor cycles for power and refrigeration. Reactive and non-reactive mixtures. Introduction to combustion.

**ME 483. Alternative Energy Engineering II (3)**

*Prerequisites:* ME 370, 375. Solar radiation characteristics. Solar energy collection and conversion devices. Design and analysis of passive and active solar energy systems. Solar electric power production. Wind energy conversion. Economic analysis.

**ME 484/L. Control of Mechanical Systems and Lab (2/1)**

*Prerequisite:* ME 384. *Corequisite:* 484L. Classical feedback control theory emphasizing mechanical systems. Time domain, frequency domain, stability criteria and system sensitivity techniques. Introduction to design compensation and methods. Digital computer simulation of translational and rotational mechanical, hydraulic and pneumatic systems. Control system design projects. 2 hours lecture, one 3-hour lab per week.

**ME 485. Introduction to Environmental Engineering (3)**

*Prerequisite:* ME 370. Application of concepts of mass and energy balances to environmental problems as a basis for analyzing and understanding the multimedia aspect of environmental engineering. Introduction of principles of air-pollution control and global-climate change, water and wastewater treatment, groundwater contamination, hazardous waste, risk assessment and resource recovery. Qualitative and quantitative analysis of sources of pollutants, and treatment and reduction processes. Description of pertinent environmental legislations. A semester-long team design project is assigned.

**ME 486A. Senior Design in Mechanical Engineering I (2)**

*Prerequisite:* ME 386. First semester of a 2-semester capstone design experience simulating professional mechanical engineering practice. Emphasis is on the application of engineering fundamentals to a comprehensive design project utilizing computer-aided design and analysis tools. Addresses effective group participation, and preparation of written and oral preliminary and critical design reviews. Ethical, regulatory, manufacturing and economic issues are considered as required by the project definition. Two 3-hour labs per week.

**ME 486B. Senior Design in Mechanical Engineering II (2)**

*Prerequisite:* ME 486A. Continuation and realization of the design project initiated in ME 486A. Project culminates in a final written report and oral presentation. Two 3-hour labs per week.

**ME 486C. Design Leadership (3)**

*Prerequisite:* Instructor consent. Capstone design project management and design leadership through participation in large-group simulation of engineering design project that takes process from concept to demonstrated hardware.

**ME 490. Fluid Dynamics (3)**

*Prerequisite:* ME 390. Second-semester fluids course with applications to systems of engineering interest. Potential flows, boundary layers, duct flows, lubrication theory, lift and drag. 1-dimensional compressible flow with area change, friction, heating/cooling, normal shock waves, oblique shock waves and Prandtl-Meyer expansions. Both numerical and analytical solution techniques are explored.

**ME 491. Thermal-Fluids Lab (1)**

*Prerequisites:* ME 335, 370, 375, 390. Experimental studies of fluid mechanics, thermodynamics, and heat transfer. Measurement and analysis of performance of simple cyclic devices, aerodynamic shapes, turbo machines, piping systems and heat exchangers. One 3-hour lab per week.

**ME 492. Fundamentals of Energy Systems Design (3)**

*Prerequisites:* ME 370, 375, 390; MSE 304. Design course that integrates fundamental concepts learned in thermal-fluid courses and applies them to analysis and design of components and simple energy systems. Specific course topics include the analysis of turbomachinery, piping systems, heat exchangers and system simulation. Students are required to work in teams to formulate and complete a design project and prepare related presentations and reports.

**ME 493. Hydraulics (3)**

*Prerequisite:* ME 390. Fundamental principles of incompressible fluid flow and their applications to pipe flow, open channel flow and the performance of hydraulic turbomachines. Flow in pipe systems ranging from simple series systems to complex branched networks. Uniform flows, gradually varying flows, rapid transitions and hydraulic jumps in open channels. Performance of radial, mixed-flow and axial flow centrifugal pumps and turbines, and of impulse turbines.

**ME 494. Academic Internship (1-3)**

*Prerequisites:* Sophomore, junior or senior standing in the Department of Mechanical Engineering; Prior approval of the Department Internship Coordinator; Good standing as a matriculated student. Supervised practical professional experience relevant to the field of study in approved public or private organizations. Industrial supervisor and faculty sponsor performance evaluations and student self assessment are required. A final report written by students describing the work accomplished and knowledge and skills acquired are required. Units earned may not be used to fulfill Major Program requirements. Enrollment is limited to 6 units total in any combination of A, B, C. Available for graduate credit. (Letter Grade only)

**ME 496A-Z. Experimental Topics Courses in Mechanical Engineering (1-4)****ME 498. Supervised Individual Projects (1-3)**

Studies in Mechanical Engineering. (See subtitle in appropriate Schedule of Classes.)

**ME 499A-C. Independent Study (1-3)**

## Graduate Courses

Note that 300-level courses in Mechanical Engineering do not carry credit toward the Master's Degree in Mechanical Engineering.

### ME 501A. Seminar in Engineering Analysis (3)

Analytic and numerical methods applied to the solution of engineering problems at an advanced level. Solution methods are demonstrated on a wide range of engineering topics, including structures, fluids, thermal, thermal energy transport and mechanical systems. This course emphasizes physical phenomena that can be described by systems of ordinary differential equations.

### ME 501B. Seminar in Engineering Analysis (3)

Analytic and numerical methods applied to the solution of engineering problems at an advanced level. Solution methods are demonstrated on a wide range of engineering topics, including structures, fluids, thermal, thermal energy transport and mechanical systems. This course emphasizes physical phenomena that can be described by partial differential equations.

### ME 503. Biomedical Instrumentation (3)

*Preparatory: Senior standing.* Covers the design of medical instrumentation, specifically biosensors, therapeutic and prosthetic devices, bio-potential amplifiers and lab instrumentation. Applications to associated human organ systems also are covered. Multidisciplinary analysis, design and simulation of bioengineering instrumentation are studied and implemented using computer methodology and techniques from engineering, physics and mathematics. (Cross listed with ECE 503.)

### ME 515. Dynamics of Machines (3)

*Prerequisite: ME 415. Recommended Corequisite: ME 501A.* Forces, motion and inertia in machines. Analysis of linkages, cams, rotor dynamics, reciprocal and rotational balancing, whirl modes and orbits, and signature analysis of machine elements. Computer simulation of machinery dynamics, including the inverse dynamics.

### ME 520. Robot Mechanics and Control (3)

*Prerequisite: ME 384 or equivalent. Corequisite: ME 415 or consent of instructor.* Overview of the state-of-the-art of robotics and tele-robotics. Analysis, modeling and simulation of motions, differential motions and dynamics of robots. Emphasis will be placed on various aspects of robot controls, including position and force. Experience in robot design will be gained through course projects.

### ME522 Autonomous Intelligent Vehicle (3)

*Prerequisite: Senior standing.* Overview of the state of the art on autonomous ground vehicles. Locomotion, mobile kinematics, perception, localization, obstacle avoidance and navigation of autonomous vehicles. Emphasis will be placed on chassis design, various sensor performance and navigation algorithm development. Knowledge of motion control, vision perception, sensor active ranging and GPS navigation will be gained through course projects.

### ME 560. Automotive Engineering (3)

*Prerequisite: ME 330.* Introduction to automotive engineering. Design and analysis of automotive chassis, suspension, steering, brakes, power plants and drive system. Vehicle dynamics, performance and system optimization. Design project required.

### ME 562. Internal Combustion Engines (3)

*Recommended corequisite: ME 470.* Characteristics and Performance of internal combustion engines, with an emphasis on Otto and Diesel types. Alternative cycles also are considered. Thermodynamics of cycles, combustion, emissions, ignition, fuel metering and injection, friction, supercharging and engine compounding. 3 hours lecture per week.

### ME 563. Fluid Power Systems (3)

*Prerequisite: ME 390. Recommended corequisite: ME 384.* Analysis and design of fluid power systems. Incompressible fluid mechanics and fluid power hydraulics. Hydraulic system components, including pumps, accumulators, reservoirs, valves, filters, tubing and connectors. Operation and control of hydraulic power transmission systems. Applications in aircraft control, robotics, manufacturing equipment, mobile heavy machinery and more.

### ME 571. Power Plant System Design (3)

*Prerequisites: ME 309, 370.* Simulation and design optimization of power generating systems. Steam generating systems, turbines, cooling towers and condensers. Environmental impact, air pollution, water quality and toxic-material control. Impact of multi-unit power dispatching on system performance.

### ME 573. Chemical Reaction Engineering (3)

*Prerequisite: ME 370.* Analysis and process design of engineering systems involving chemical reactions for which the rate of reactions must be considered. Rates of physical and chemical processes are considered; processes introduce where energy and mass transfer, as well as chemical kinetics, are important. Thermodynamics and chemical kinetics involved in the design of homogeneous and heterogeneous reactors. Application to combustion systems and other environmental engineering systems.

### ME 575. Applied Heat and Mass Transfer (3)

*Prerequisite: ME 375 or equivalent.* Continuation of ME 375, with emphasis on the convective modes of heat and mass transfer. Heat exchangers, evaporation, boiling, condensation, high speed flows and combined processes are considered with application to design.

### ME 579. Municipal Solid Waste Management and Engineering Design (3)

*Prerequisite: ME 370. Corequisites: ME 483 or 485.* Engineering principles for problem solving and design of municipal solid-waste management (MSW). Chemical and physical properties and characterization of MSW as it relates to process design. Design and operation of MSW processing facilities. Landfills design and operation. Regulatory framework for recycling. Waste reduction and environmental sustainability. Group projects are assigned.

### ME 583. Thermal-Fluid Systems Design (3)

*Preparatory: ME 470, 490.* System design and optimization course that integrates the disciplines of fluid mechanics, thermodynamics and heat transfer. Intent is to build on and extend information previously acquired in these courses. Emphasis is placed on the synthesis of components into a thermal-fluid system to accomplish a specified task with technical, economical and social constraints. Series of design problems are assigned to the class as homework. These problems require students to incorporate design methodology into their work.

### ME 584. Modeling and Simulation of Dynamic Systems (3)

*Prerequisites: AM 316; ME 501A.* Comprehensive and advanced treatment of the modeling techniques and response analyses of engineering dynamic systems. Both linear and nonlinear dynamic behavior of physical systems of different technical disciplines are studied with the aid of computer simulation. Mixed systems composed of electromechanical, fluid-mechanical and electrohydraulic components also are investigated. Computational and visualization tools, such as Matlab and Simulink, are used to enhance analyzing and understanding of system performance.

**ME 590. Advanced Fluid Dynamics (3)**

*Prerequisite:* ME 490. Analytical and computational techniques for the solution of fluid dynamic problems. Topics include generalized 1-dimensional compressible flows, unsteady and 2-dimensional compressible flows, method of characteristics, compressible laminar and turbulent boundary layers, transition to turbulence, turbulent stress models and application of computational codes to the solution of practical problems.

**ME 595A-Z. Experimental Topics Courses in Mechanical Engineering (3)****ME 630. Computer-Aided Design of Machinery (3)**

*Prerequisites:* ME 330, 415. Presentation and discussion on design of complex machinery based on closed- or open-chain mechanisms. System approach to the design and analysis of practical systems, with emphasis on the use of computer-aided engineering. Iterative design processes are exercised through completing design projects with steps of component selection and design optimization included. Pro-Engineer and Pro-Mechanica software programs are used to facilitate design processes.

**ME 670. Advanced Topics in Thermodynamics (3)**

*Prerequisites:* ME 390, 470. Advanced topics in thermodynamics, emphasizing real fluid behavior and modeling. Interaction between thermodynamics, chemical kinetics, fluid mechanics and transport processes. Selected topics from microscopic thermodynamics applied to both equilibrium and non-equilibrium processes. Applications to real engineering systems are stressed.

**ME 675A. Conductive and Radiative Heat Transfer (3)**

*Prerequisite:* ME 375. Theory and applications of the conductive and radiative modes of heat transfer. Analytical and numerical methods for single- and multi-dimensional steady state and transient conduction. Numerical and analytical techniques as applied to radiative exchanges between diffuse and specular surfaces, and transfer through absorbing-transmitting media.

**ME 675B. Convective Heat and Mass Transfer (3)**

*Preparatory:* ME 575. Theory and application of convective heat and mass transfer. Free and forced convection in laminar and turbulent flows. Heat transfer with change of phase. Mass transfer applications, including ablation and transpiration cooling, condensation and evaporation.

**ME 678. Transport Phenomena (3)**

*Preparatory:* ME 575, 675B. Basic equations of heat mass and momentum transfer. Mass transfer in binary and multicomponent systems. Analysis of combined heat, mass, and momentum-transfer problems. Turbulence. Chemically-reacting flows.

**ME 683. Energy Processes (3)**

*Preparatory:* ME 575, 670. Application of thermodynamic and transport processes to a design system for the development of energy resources. Emphasis is placed on new methods for the development of basic energy resources, and systems for the use and development of alternative energy sources. Topics to be considered include enhanced oil recovery, alternative resource technology (shale, tar sands, etc.), synthetic fuels, geothermal energy development, and other application topics at the choosing of the instructor. Processes for improved efficiency in utilization of energy resources also are considered.

**ME 684. Design and Control of Dynamic Systems (3)**

*Prerequisite:* ME 484. Design and control of mechanical systems. Time-domain and state space methods integrated into the design of dynamic processes. Application to automotive, aircraft, spacecraft, robots and related mechanical/aerospace systems. Digital simulations.

**ME 686A. Advanced Modeling, Analysis and Optimization I (3)**

*Prerequisite:* ME501A or equivalent. Modeling of engineering system performance and constraints; formulating systems of design rules; rules solving and optimization algorithms; and solver software. Students work as an integrated conceptual design team and share information at a CSUN Internet Virtual Design Portal. Students conduct broad-based research on the selected system to harvest formulas, information and requirements needed to model the system and produce a joint report. Past systems have included solar systems and fuel cell systems.

**ME 686B. Advanced Modeling, Analysis and Optimization II (3)**

*Prerequisites:* ME501A, 686A. Review report produced in ME686A. Continued system modeling, conduct simulations of system missions, trade-studies and optimization. Application of latest integrated design methods and supporting software, and application of integrated design techniques to the design of the selected engineering system. Establish Integrated Collaborative Environment (ICE) on CSUN Virtual Design Portal for team information-sharing and passing design parameters between ICE stations.

**ME 692. Computational Fluid Dynamics (3)**

*Prerequisites:* ME 309, 490. Introduction to the numerical analysis of fluid flows. Special techniques required for solution of the governing equations for viscous, inviscid and boundary layer flows. Applications to convective heat and mass transfer. Turbulence modeling and other submodels for complex engineering applications.

**ME 694. Seminar in Mechanical Engineering (1-3)**

*Prerequisite:* Instructor consent. Advanced studies in selected areas of the field of Mechanical Engineering.

**ME 695A-Z. Experimental Topics Courses in Mechanical Engineering (1-4)****ME 696A-Z. Directed Graduate Research (3)****ME 697. Directed Comprehensive Studies (3)**

(Credit/No Credit only)

**ME 698. Thesis or Graduate Project (1-6)****ME 699A-C. Independent Study (1-3)**

# Middle Eastern and Islamic Studies

College of Humanities

**Coordinator: Dr. Nayereh Tohidi**

**Jerome Richfield 340**

**(818) 677-7218**

**www.csun.edu/meis**

## Program Committee

Ahmed Bouguarche (MCLL), Owen P Doonan (Art), Rachel T Howes (History), Sabina Magliocco (Anthropology), Jody E Myers (Religious Studies and Jewish Studies), Mustafa Ruzgar (Religious Studies), Suzanne Scheld (Anthropology), Nayereh Tohidi (GWS), Melissa Wall (Journalism)

## Interdisciplinary Program

**Minor in Middle Eastern and Islamic Studies**

### Middle Eastern and Islamic Studies Minor

The Middle Eastern and Islamic Studies (MEIS) Program at CSUN is an Interdisciplinary Minor that offers courses in the languages, histories, religions, cultures, sociology and politics of Middle Eastern peoples. It also seeks to enhance students' understanding of Islamic cultures and Muslim communities both internationally and within the United States. In addition, MEIS provides an academic home for the study of the intellectual, cultural and material conditions that have shaped our current understandings of and relationships with the Middle East and Islamic societies. Among the primary beneficiaries of this program are students interested in becoming scholars, journalists, translators, interpreters, diplomats, businesspersons, negotiators and personnel in foreign offices. Some of the courses in the MEIS Program satisfy General Education requirements or may be used as electives in several majors.

### Academic Advisement

The Middle Eastern and Islamic Studies Program helps students select the program and courses that best satisfy their individual needs and interests. Contact Nayereh Tohidi (Coordinator) at (818) 677-7218 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a minor in Middle Eastern and Islamic Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

### Student Learning Outcomes

1. Demonstrate an ability to speak, comprehend and write one of the major Middle Eastern languages at novice/intermediate level;
2. Identify the major events of Middle Eastern and Islamic history, and articulate the internal and external forces that led up to and shaped these events;
3. Explain the current cultural, political, and religious challenges facing Middle Eastern peoples;
4. Describe and analyze significant Islamic religious beliefs, ethics, practices, philosophies and cultural expressions;
5. Describe the principal social and cultural contours of Islamic communities, families and gender relations, and explain the complex and multifaceted forms of identities; and
6. Have knowledge of minorities (ethnic, cultural, religious) within the larger Middle Eastern societies, as well as the dynamics of relationships among diverse groups.

### Requirements for the Minor

**1. Language Requirement: Select 1 course—must be level 102 or higher (3 or 4 units)**

|          |                                     |
|----------|-------------------------------------|
| ARAB 102 | Elementary Arabic II and Lab (4)    |
| HEBR 102 | Elementary Hebrew II and Lab (4)    |
| PERS 102 | Elementary Persian II and Lab (4)   |
| PERS 202 | Intermediate Persian II and Lab (4) |

**2. Students must take 15 more units with at least one course from each category:**

#### History Requirement (3 units)

**Choose 1 of the following:**

|                |   |
|----------------|---|
| HIST 185       | Civilization and the Middle East (GE) (3)       |
| HIST 424       | History of Medieval Middle East, 600-1258 (3)   |
| HIST 425       | History of the Early Modern Middle East (3)     |
| HIST 426       | History of Modern Middle East, 1798-Present (3) |
| HIST/JIS 496IH | Israel's History and Peoples (3)                |

#### Politics (3 units)

**Choose 1 of the following:**

|           |   |
|-----------|---|
| POLS 420D | International Relations of the Middle East (3)  |
| POLS 438  | Governments and Politics in the Middle East (3) |

#### Religion (3 units)

**Choose 1 of the following:**

|        |                               |
|--------|-------------------------------|
| RS 346 | Sufism (3)                    |
| RS 363 | Islam in the Modern World (3) |
| RS 365 | Introduction to Islam (3)     |
| RS 384 | Approaching the Qur'an (3)    |

#### Culture (3 units)

**Choose 1 of the following:**

|             |   |
|-------------|---|
| ANTH 356    | Peoples and Cultures of the Mediterranean (3) |
| ANTH 338    | Peoples of Africa (3)                         |
| ART 416     | History of Ancient Near Eastern Art (3)       |
| GWS 420     | Women and Gender in Islamic Societies (3)     |
| GWS 315     | Sexuality, Gender and Islam in the U.S. (3)   |
| JOUR 495MAM | Muslims and the Media (3)                     |

|                                  |              |
|----------------------------------|--------------|
| <b>Total Units for the Minor</b> | <b>18-19</b> |

# Modern and Classical Languages and Literatures

## College of Humanities

**Chair: Brian J. Castronovo**

**Sierra Tower (ST) 405**

**(818) 677-3467**

**www.csun.edu/mccl**

### Staff

Donald Lilly, Jennifer Lu, Patricia Miller (Director of the Barbara Ann Ward Language Center)

### Faculty

John P. Adams, Ahmed Bouguarche, Brian Castronovo, Anthony Costantini, Edith Dimo, Drake Langford, Kenneth Luna, Sirena Pellarolo, Adrian Pérez-Boluda, Elias Ramos, Vahram Shemmassian

### Programs

Undergraduate:

**B.A., Languages and Cultures**

Language Options: Armenian, French, Italian or Japanese

**B.A., French**

**B.A., Spanish**

Language and Culture Option

Literature Option

**Spanish Subject Matter Program for the Single Subject Credential**

Minors in Armenian, Classics, Italian, French, Japanese,

Russian (See Liberal Studies in this Catalog) and Spanish

Graduate:

**M.A., Spanish**

### Mission Statement

The mission of the Department is to offer curricula, services and research leading to proficiency in language, literature and culture that will enable individuals to function effectively in the international communities in our geographical area and throughout the world. The Department's Programs serve and promote all academic divisions of the University in providing students the language and cultural training necessary to support international and intercultural endeavors.

### Department Programs

The Department of Modern and Classical Languages and Literatures offers a wide variety of courses and Programs in the fields of foreign languages, literatures and cultures. They are designed for those students who intend to major or minor in languages other than English; for students who seek a broad liberal arts education in preparation for a variety of professions; and for students whose careers will be furthered by the knowledge of another language and culture. In addition to the Majors and Graduate Degree, the Department offers Minors in Armenian, Classics, French, Italian, Japanese, Russian and Spanish, and a number of courses in Chinese, Farsi, German, Hebrew and Korean.

Since many students are not able to read many great works of literature in the original language, Foreign Literature in Translation (FLIT) offers students access to them in English.

### Student Learning Outcomes of the Undergraduate Program

1. Demonstrate fluency in listening, speaking, reading and writing in the target language;
2. Demonstrate ability to reason and present sound arguments in both oral and written discourse;
3. Demonstrate critical thinking in the analysis of traditions, cultures and civilizations;

4. Understand the nature of language, its function, structure and interactional (social) purposes; and
5. Analyze and clearly articulate interpretations of literary texts.

### Credential Information

Students interested in teaching Spanish in the secondary schools should seek advisement as soon as possible. The Spanish Program currently offers a Subject Matter Program that has been approved by the California Commission on Teacher Credentialing and that meets the Subject Matter Competency Requirement for a Single Subject Credential. Students wishing to teach Spanish must choose the Language and Culture option of the major, which is designed to meet the requirements for the Single Subject Teaching Credential. For details on the Single Subject Credential program, see the Credentials and Department of Secondary Education sections in the Catalog.

### Academic Advisement

The Modern and Classical Languages and Literatures Department helps students select the program and courses that best satisfy their individual needs and interests. Advisement for specific languages is handled by the language section heads as follows:

Armenian: Vahram Shemmassian, (818) 677-3456

French: Ahmed Bouguarche, (818) 677-3586

Italian: Anthony Costantini, (818) 677-7226

Japanese: Drake Langford, (818) 677-3467

For Spanish, Contact the Department office at (818) 677-3467.

Faculty advisors for the Single Subject Credential are Brian Castronovo, (818) 677-5799; Adrian Perez-Boluda, (818) 677-2092; and Elias Ramos, (818) 677-3581.

The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a major or minor are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

### Credit By Challenge Examination

See individual course descriptions to find out which courses may or may not be challenged. For procedures governing the challenging of language classes, please consult with the Department Office.

### Cooperative Program in Foreign Languages and Literatures

The Cooperative Program in Foreign Languages and Literatures gives CSUN students the opportunity, without additional fees, to take courses in foreign languages not available on this campus but offered at UCLA. In order to take advantage of this cross-enrollment option, students must be academically qualified and must have valid reasons for wanting to take the courses. Students are strongly advised to enroll in the Fall semester when beginning classes are offered. The enrollment process must be completed prior to September 10. Questions regarding qualifications and enrollment procedures should be referred to the Chair of the Department of Modern and Classical Languages and Literatures.

### International Studies

The Department of Modern and Classical Languages and Literatures supports the concept of international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers abroad are equivalent to courses in the Department of Modern and Classical Languages and Literatures and may be used to fulfill some of the requirements for Degree Options offered by the Department and/or certain General Education requirements. Please see the appropriate language advisor in MCLL prior to traveling abroad to determine these equivalencies. Students also should consult the International Programs Bulletin available in the Office of International and Exchange Programs, or the campus International Programs Advisor for more information.

### Barbara Ann Ward Language Center

The Barbara Ann Ward Language Center, located in Jerome Richfield (JR) 316, serves as a language acquisition and teaching-resource facility, primarily for the faculty and students of MCLL and the College of Humanities. Through multimedia, equipment, group and individual training available at the center, faculty and students are encouraged to use technology to enhance the language-acquisition experience. For more information, contact Director Patricia Miller at (818) 677-3452.

### The Major in Languages and Cultures

The Languages and Cultures Major prepares students for an increasingly globalized and interdependent world that rewards knowledge of languages and cultural literacy. The major provides students with advanced proficiency in language skills and cultural competency that will enable them to expand career opportunities and enhance their personal lives in an international and intercultural environment. In addition to studies in a primary target language, students take courses in comparative study of cultures and literatures to gain insight into the interrelation of language, culture and human nature. The 2 required seminars in cultural theories and methodologies constitute the capstone experience for intercultural studies. Students also are encouraged to study abroad, take a secondary target language and select from a rich array of courses offered in other Departments that deal with interactions among peoples, cultures and regions.

### Student Learning Outcomes of the Undergraduate Program

As a result of completing the Languages and Cultures Major, and as appropriate to the level of language completed, students will be able to:

1. Demonstrate fluency in the skills of listening, speaking reading, and writing in the target language;
2. Demonstrate the ability to reason and present sound arguments using the target language;
3. Analyze and clearly articulate interpretations of literary texts;
4. Demonstrate knowledge of the diversity of world cultures; and
5. Apply cultural theory to effectively analyze multiple forms of cultural expression and creativity.

### Requirements for the Bachelor of Arts Degree

#### Cultural Studies Component Requirements: (18 units)

##### 1. Lower Division Required Course: (3 units)

FLIT 234 Virtual Study Abroad (3)

##### 2. Lower Division Elective: (3 units)

###### Select 1 course from the following:

- FLIT 230 Life in Modern France (3)  
 FLIT 245 Introduction to German Literature (3)  
 FLIT 250 Traditional Culture of Japan (3)  
 FLIT 260 Life in Modern Spain (3)  
 FLIT 261 Life in Modern Latin America (3)  
 FLIT 295A Masterpieces of European Literature I (3)  
 FLIT 295B Masterpieces of European Literature II (3)

##### 3. Upper Division Required Courses: (6 units)

- FLIT 391 Cultural Theories and Methodologies (3)  
 FLIT 491 Capstone Seminar (3)

##### 4. Upper Division Electives: (6 units)

Select 2 courses from 2 different cultures, each different from the courses selected for the Lower Division electives:

- ARMN 310 Armenian Culture (3)  
 ARMN 360 Changing Roles of Armenian Women (3)  
 FLIT 320 Business Culture in Asia (3)  
 FLIT 321 Business Culture in Europe (3)  
 FLIT 322 Business Culture in Latin America (3)  
 FLIT 330 Italian Civilization from the Middle Ages to the Renaissance (3)

- FLIT 331 Italian Literary Masterpieces of Humanism and Renaissance (3)  
 FLIT 340 Life in Modern Germany (3)  
 FLIT 341 20th Century European Literature (3)  
 FLIT 370 Modern Japanese Culture (3)  
 FLIT 371 Modern Italian Culture (3)  
 FLIT 380 Cultural Development of Modern Russia and Eastern Europe (3)  
 FLIT 381 Aspects of the Italian-American Experience in Cinema, Literature, Philosophy and Music (3)  
 FLIT 383 Hispanic Civilization and Culture: Middle Ages to Golden Age (3)  
 FLIT 384 Modern Hispanic Culture (Peninsular) (3)  
 FLIT 402 Japanese Literature (3)  
 FLIT 455 Women Writers of Asia (3)

#### Language Option Component Requirements: (24-26 units)

Languages and Cultures majors are strongly encouraged to study abroad, take a secondary target language and select courses and a Minor within their regional or thematic focus.

|   |              |

| <b>Total Units Required for the B.A. Degree</b> | <b>120</b>   |

### A. Armenian Option

#### Required Courses in Armenian: 24 units

##### 1. Lower Division: (9 units)

- ARMN 102 Elementary Armenian II (3)  
 ARMN 201 Intermediate Armenian I (3)  
 ARMN 202 Intermediate Armenian II (3)

##### 2. Upper Division: (15 units)

###### Select 5 courses from the following :

- ARMN 306 Advanced Armenian Composition (3)  
 ARMN 310 Armenian Culture (3)  
 ARMN 315 Masterpieces of Armenian Literature (3)  
 ARMN 360 Changing Roles of Armenian Women (3)  
 ARMN 380 Contemporary Issues in Armenia and Diaspora (3)

### B. French Option

#### Required Courses in French: 24 units

##### 1. Lower Division: (9 units)

- FREN 200 Beginning French Conversation (3)  
 FREN 204 Review of French Grammar (3)  
 FREN 208 Intermediate Reading and Writing (3)

##### 2. Upper Division: (15 units)

- FREN 300 Advanced French Conversation (3)  
 FREN 305 French Pronunciation and Diction (3)  
 FREN 306 Advanced Composition (3)  
 FREN 380 French Civilization (3)  
 FREN 381 The Contemporary French World (3)

### C. Italian Option

#### 1. Required Courses in Italian: 24 units

##### Lower Division: (9 units)

###### Select 3 courses from the following:

- ITAL 201 Intermediate Italian I (3)  
 ITAL 202 Intermediate Italian II (3)  
 ITAL 204 Intermediate Italian Grammar and Composition (3)  
 ITAL 290 Intermediate Reading and Conversation (3)

**2. Upper Division: (15 units)**

**Select 5 courses from the following:**

|      |     |   |
|------|-----|---|
| FLIT | 330 | Italian Civilization from the Middle Ages to the Renaissance (3)                            |
| FLIT | 331 | Literary Masterpieces of Italian Humanism and Renaissance (3)                               |
| FLIT | 371 | Modern Italian Culture (3)  |
| FLIT | 381 | Aspects of the Italian-American Experience in Cinema, Literature, Philosophy, and Music (3) |
| ITAL | 300 | Advanced Conversational Italian (3)   |
| ITAL | 305 | Structure of the Italian Language (3)   |
| ITAL | 306 | Italian Translation and Style (3)   |
| ITAL | 315 | Masterpieces of Italian Literature (3)  |
| ITAL | 335 | Italian Literature of the Middle Ages (3)   |
| ITAL | 360 | Italian Literature of the 19th Century (3)  |

**D. Japanese Option**

**Required Courses in Japanese: 26 units**

**1. Lower Division: (8 units)**

|      |     |                              |
|------|-----|------------------------------|
| JAPN | 201 | Intermediate Japanese I (4)  |
| JAPN | 202 | Intermediate Japanese II (4) |

**2. Lower Division Electives (3 units)**

**Choose 1 course from the following:**

|      |     |                                  |
|------|-----|----------------------------------|
| FLIT | 250 | Traditional Japanese Culture (3) |
| JAPN | 204 | Kanji II (3)                     |
| JAPN | 205 | Kanji III (3)                    |

**3. Upper Division Electives (9 units)**

**Choose 3 courses from the following:**

|      |     |                                      |

## Arabic

Department of Modern and Classical Languages and Literatures

### Course List

**ARAB 101. Elementary Arabic I (4)**

This is an elementary course on the fundamentals of Arabic, including grammatical structures, reading and practice in the spoken language.

**ARAB 102. Elementary Arabic II (4)**

*Preparatory: ARAB 101.* ARAB 102 is the continuation of the study of the fundamentals of Arabic, including grammatical structures, reading and practice in spoken language.

## Armenian

Department of Modern and Classical Languages and Literatures

*Advisor*

Vahram Shemmassian

**Minor in Armenian**

The minor in Armenian will provide students with an understanding and appreciation of the Armenian language, literature, culture and the contributions of Armenians to world civilization. Students with previous studies in Armenian should consult an advisor for advanced placement and course selections to complete the Minor.

**Careers**

Knowledge of the Armenian language and culture has assumed a new importance since Armenia declared independence from the Soviet Union in 1991. As companies and nongovernmental organizations from overseas conduct business in Armenia, the need for representatives who are well versed in both Armenian language and civilization has increased. Similarly, the influx of large numbers of Armenian immigrants from Armenia to greater Los Angeles has created new opportunities for Armenian specialists in various fields, such as medicine, law, law enforcement, education, the federal government and more. Minor in Armenian and/or Majoring in Languages and Cultures with an Option in Armenian is no longer perceived as a purely academic endeavor, but rather as a pursuit with practical ramifications.

**Prerequisites (6 units)**

|      |     |                            |

**ARMN 201. Intermediate Armenian I (3)**

*Prerequisite:* ARMN 102 or equivalent. Intensive practice in pronunciation, conversation and writing. Brief review of grammar and study of more advanced grammatical concepts. Introduction to reading of literature and study of Armenian culture. (Available for General Education, Comparative Cultural Studies.)

**ARMN 202. Intermediate Armenian II (3)**

*Prerequisite:* ARMN 201 or equivalent. Extensive grammar study designed to increase students' proficiency in writing, and to clarify and deepen their understanding of Armenian syntax. Readings and discussions of representative Armenian essays, short stories, plays and poetry. Cultural issues are an integral part of this course. (Available for General Education, Comparative Cultural Studies.)

**ARMN 306. Advanced Armenian Composition (3)**

*Prerequisite:* Upper Division standing in Armenian. Conducted in Armenian. Devoted to the analysis of different types of writing patterns and to their practical application. Focuses on language syntax through the study of representative writing styles.

**ARMN 310. Armenian Culture (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Covers all aspects of the Armenian culture from ancient civilization to modern day life both in Armenia and in the diaspora. Introduces the Armenian culture, including language, literature, history (including waves of immigration to the U.S. and the genocide of 1915), religion, political parties, music, visual and performing arts, architecture, tapestry, customs, holidays and ethnic food. Daily class participation and regular written assignments are required. (Available for General Education, Comparative Cultural Studies.)

**ARMN 315. Masterpieces of Armenian Literature (3)**

*Prerequisite:* ARMN 202 or equivalent. Introduction to the highlights of Armenian Literature from the 19th century to modern times.

**ARMN 317DV. Equity and Diversity in School (3)**

This course is intended to prepare teacher candidates to examine principles of educational equity, diversity and the implementation of curricular content and school practices for elementary/secondary students. The course will focus on the history and culture of the Armenian experience, and a comparative analysis will be made with other ethnic groups in California. This course also will engage students to examine, critique and reflect on their personal biases toward children of Armenian heritage.

**ARMN 360. Changing Roles of Armenian Women (3)**

*Prerequisites:* Upper Division standing; Completion of the Lower Division writing requirement. The course explores changing roles of Armenian women with particular emphasis on new definitions and options in the family, community and society. The course perspective is international and comparative, with significant focus on Armenia and the diaspora. Also, the course concentrates on the educational, economic and political changes that support the upward movement of women in the U.S. Students will explore available resources and organizations within Armenian communities and gain appreciation of the roles of women as agents of change. (Available for General Education, Comparative Cultural Studies.)

**ARMN 380. Contemporary Issues in Armenia and the Diaspora (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of contemporary domestic and international issues in Armenia and the Armenian diaspora, with emphasis on Armenians in America. Includes an analysis of Armenian genocide as a historical issue having contemporary relevance, and a focused examination of current-event issues such as immigration, assimilation, social and political activities of community organizations, and participation in the American demo-

cratic process. Attention also is given to the changes brought about by the influx of Eastern Armenians into established Western Armenian communities in the U.S. following the fall of the USSR and the re-emergence of an independent Armenia.

**ARMN 391. Language Practicum (3)**

*Prerequisite:* ARMN 202 or instructor consent. A language practicum is a course in which field experience is the predominant learning mode, and it can include a community service-learning and other practical experiences in Armenian-speaking organizations approved by the MCLL Department, such as Armenian schools, social welfare, political or other community organizations. Faculty assist students in obtaining appropriate placement. The field work requires an extensive use of the target language and exposure to the target culture. Emphasis will be on the development of appropriate professional vocabulary, as well as speaking and comprehension skills and culturally-appropriate interaction skills. The field work is complemented by academic study and written assignments. May be repeated once. (Credit/No Credit only)

**ARMN 396A-Z. Experimental Topics in Armenian (3)****ARMN 410. Seminar in Armenian Culture (3)**

*Prerequisites:* ARMN 310; one other Upper Division Armenian course; Completion of the Lower Division writing requirement. Examines in detail some fundamental aspects of Armenian culture that shaped the identity of the Armenians people through 3,000 years of history. The topics, which may differ from one semester to another, may include Pre-Christian culture; the impact of Christianity on language, literature and art; illuminated manuscript art; the Enlightenment of the 18th century; the Renaissance of the 19th century; the impact of the Genocide on culture; culture in the First Republic of Armenia (1918-1920), Soviet Armenia (1920-1991); the modern Republic of Armenia (since 1991); and culture of the diaspora.

**ARMN 417. Equity and Diversity in School (3)**

Prepares teacher candidates to examine principles of educational equity, diversity and the implementation of curriculum content and school practices for elementary/secondary students. Focuses on the history and culture of a specific ethnic experience, and a comparative analysis is made with other ethnic groups in California. Engages students to examine, critique and reflect on their personal biases regarding children of color. (Cross listed with AAS, CHS, ELPs and PAS 417.)

**ARMN 440. Armenian American Child (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of the development of the Armenian child with particular emphasis on bicultural and bilingual issues that may influence educational progress. Culturally relevant socialization patterns of children from Armenia and the Armenian diaspora are examined. Intended for prospective teachers and students interested in human services. (Available for Section A of the Multicultural requirement for Credential Candidates.)

**ARMN 496A-Z. Experimental Topics in Armenian (3)****ARMN 499A-C Independent Study (1-3)**

## Chinese

Department of Modern and Classical Languages and Literatures

### Course List

**CHIN 101. Elementary Mandarin Chinese I (4)**

*Prerequisite:* Not open to students with oral proficiency or who have attended schools where Mandarin was the language of instruction. Study of the fundamentals of Mandarin Chinese, including grammatical structure, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**CHIN 102. Elementary Mandarin Chinese II (4)**

*Prerequisite:* Not open to students with oral proficiency or who have attended schools where Mandarin was the language of instruction. *Preparatory:* CHIN 101 or instructor consent. Continuation of the study of the fundamentals of Mandarin Chinese. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**CHIN 201. Intermediate Mandarin Chinese I (3)**

*Prerequisite:* CHIN 102 or equivalent. May not be challenged if principal schooling has been in Mandarin. (Available for General Education, Comparative Cultural Studies)

**CHIN 202. Intermediate Mandarin Chinese II (3)**

*Prerequisite:* CHIN 201. Recapitulation of basic grammar, including intense practice in reading and writing, reading of short stories, poems and essays and analysis of the reading. May not be challenged if principal schooling has been in Mandarin. (Available for General Education, Comparative Cultural Studies.)

**CHIN 499A-C. Independent Study (1-3)**

## Minor in Classics

Department of Modern and Classical Languages and Literatures

*Advisor*

John Adams

### The Minor\*

The Classics section offers courses in Greek and Latin languages, literatures and civilizations. The Minor is designed for students who desire to become acquainted with the literature and culture of Ancient Greece and Rome, who need Latin as a necessary background for an understanding of the development of the Romance Languages or who plan to teach. Students with advanced placement:

1. Cannot receive credit for courses below the level at which they are enrolled; and
2. Must include additional courses approved by an advisor to complete the Minor.

*\*Enrollment has been suspended for the 2012-2014 academic years.*

### Requirements for the Minor

#### 1. Lower Division Required Courses (12 units)

|      |      |                           |
|------|------|---------------------------|
| CLAS | 101L | Elementary Latin I (3)    |
| CLAS | 102L | Elementary Latin II (3)   |
| CLAS | 201L | Intermediate Latin I (3)  |
| CLAS | 202L | Intermediate Latin II (3) |

#### 2. Upper Division Required Courses (12 units)

|      |     |   |
|------|-----|---|
| CLAS | 315 | Greek and Roman Mythology (3)                 |
| FLIT | 423 | The Greek and Roman Epic in Translation (3)   |
| FLIT | 424 | Drama of Greece and Rome (3)                  |
| FLIT | 480 | Greek and Roman Literature in Translation (3) |

*Note: Interviews with instructors designed to place Lower Division students at appropriate levels of language achievement are given before registration week.*

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>24</b> |
|---------------------------------|-----------|

### Course List

#### CLAS 101G. Elementary Greek I (3)

Fundamentals of Attic Greek, including reading of a simplified nature from Xenophon's Anabasis. (Available for General Education, Comparative Cultural Studies.)

#### CLAS 101L. Elementary Latin I (3)

Introduction to the structure of Latin, with emphasis on reading Latin and on the role of Latin to the development of English. (Available for General Education, Comparative Cultural Studies.)

#### CLAS 102G. Elementary Greek II (3)

Continuation of Elementary Greek I. (Available for General Education, Comparative Cultural Studies.)

#### CLAS 102L. Elementary Latin II (3)

Continuation of CLAS 101. (Available for General Education, Comparative Cultural Studies.)

#### CLAS 201L. Intermediate Latin I (3)

*Prerequisite:* CLAS 102L. Reading and analysis of selected Latin prose.

#### CLAS 202L. Intermediate Latin II (3)

*Prerequisite:* CLAS 201L. Reading and analysis of classical Latin poetry.

#### CLAS 315. Greek and Roman Mythology (3)

*Prerequisite:* Completion of the Lower Division writing requirement. Study of the myths of Greeks and Romans, and of their impact on the literature of the Western world. Conducted in English. (Available for General Education, Arts and Humanities.)

#### CLAS 496A-Z. Experimental Topics Courses in Classics (3)

*Prerequisite:* Upper Division standing. Selected topics in classics, with course content to be determined.

#### CLAS 499G. Independent Study—Greek (1-3)

#### CLAS 499L. Independent Study—Latin (1-3)

## Foreign Literatures in English Translation (FLIT)

Department of Modern and Classical Languages and Literatures

In addition to its traditional curricula, the Department offers a number of foreign literature and culture courses taught in English that are designed for students who do not have the background to read the works in the original language. Students are urged to consult the Foreign Literatures in Translation (FLIT) Section in the Schedule of Classes for offerings in selected topics courses.

### Course List

#### FLIT 150. Gateways to Western Civilization: Greece and Rome (3)

*Prerequisite:* May not be taken by students who have completed FLIT 350. Basic elements of modern civilization have their origins in Greece and Rome. Emphasis on historical development and on their impact on contemporary society. Conducted in English. (Available for General Education, Comparative Cultural Studies.)

#### FLIT 234. Virtual Study Abroad (3)

*Prerequisite:* Completion of the Lower Division writing requirement. This course will give students a simulated experience of studying abroad via technology mediation and exposure to people and products from international cultures. Through the virtual exposure to global cultures and research projects, students will learn to use technology to access information sources, develop strategies to evaluate the accuracy and usefulness of information, and investigate how cultural information and products impact individuals and society. The course will help students become discriminating consumers of cultural products and sophisticated global citizens with skills to interact with diverse people in a culturally appropriate manner in their professional and personal lives. (Available for General Education, Lifelong Learning.) (IC)

#### FLIT 250. Traditional Culture of Japan (3)

*Prerequisite:* Completion of the Lower Division writing requirement. The course explores the traditions that inform the values and aesthetics of

present-day Japan and make one of the most technologically advanced nations distinctly Asian and traditional. It also examines the foreign influences on Japan, the modifications that were made to suit Japanese taste and influences of Japan on other countries. The areas investigated include indigenous beliefs, religious and philosophical teachings that inform the arts and martial arts, and various aesthetic principles and their manifestations in poetry, theater and other arts. Conducted in English. (Available for General Education, Arts and Humanities.)

**FLIT 260. Life and Thought in Modern Spain (3)**

*Prerequisite: Cannot be applied toward the major or minor requirements in Spanish. No knowledge of Spanish required.* A study of the ideas and events that have influenced the development of modern Spanish intellectual and social life. Special emphasis will be placed on intellectual currents. Conducted in English.

**FLIT 295A. Masterpieces of European Literature I (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Introduction to masterpieces of European literature from the Middle Ages through the Classical period. Conducted in English. (Available for General Education, Arts and Humanities.)

**FLIT 295B. Masterpieces of European Literature II (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Introduction to masterpieces of European literature from Romanticism to the modern period. Conducted in English. (Available for General Education, Arts and Humanities.)

**FLIT 320. Business Culture in Asia (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* In this course, students interested in international business develop cross-cultural sensitivity and communication skills to achieve progress toward global competence. Students learn to research and assess cultural issues, and political and economic risks and opportunities in Asia, and become sensitive to interpersonal cues, rules of behavior, and other norms. Students examine factors that affect business practices and consumer behavior, such as religions, gender roles, socialization patterns and socio-cultural and economic demography in Asia. The skills that students develop in this course may be applied in career settings to help ensure, for instance, that business plans and long-term strategic goals are culturally appropriate. (Available for General Education, Comparative Cultural Studies.) (IC)

**FLIT 321. Business Culture in Europe (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* In this course, students interested in international business develop cross-cultural sensitivity and communication skills to achieve progress toward global competence. Students learn to research and assess cultural issues, and political and economic risks and opportunities in Europe, and become sensitive to interpersonal cues, rules of behavior and other norms. Students examine factors that affect business practices and consumer behavior, such as religions, gender roles, socialization patterns and socio-cultural and economic demography in Europe. The skills that students develop in this course may be applied in career settings to help ensure, for instance, that business plans and long-term strategic goals can be conducted in culturally appropriate ways. (Available for General Education, Comparative Cultural Studies.) (IC)

**FLIT 322. Business Culture in Latin America (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* The course focuses on the identification of cultural differences in customs, customer needs and expectations, communication and socialization patterns. It will examine cultural factors that affect consumer behavior, such as religions, beliefs, philosophies, sacred objects, cultural taboos, gender roles and socio-cultural and economic demography. Issues that affect business practices in a region also will be studied, such as cost and competitive factors, appropriate sales and advertising techniques,

human resources and employment practices, corruption, government control, issues of major trade agreements and laws regulating international business. (Available for General Education, Comparative Cultural Studies.) (IC)

**FLIT 330. Italian Civilization from the Middle Ages to the Renaissance (3)**

This course focuses on those elements that shaped the Italian “mind” and “spirit,” and formed that unique culture that was the roots of Western civilization. Deals with a series of intellectual and artistic manifestations of Italian culture as incorporated in a variety of disciplines (religion, music, art, literature, economics and philosophy) from the Middle Ages to the Renaissance.

**FLIT 331. Literary Masterpieces of Italian Humanism and Renaissance Literature (3)**

*Prerequisite: Completion of the Lower Division writing requirements. No background of Italy or knowledge of the language required.* This course offers students an in-depth study of major Italian literary masterpieces (fiction, poetry and drama) and aesthetic theories developed during the period of Humanism and Renaissance (1380-1550). Such a study allows students to appreciate the importance of new literary, spiritual and human values that emerged at that time and the unique role played by Italian Humanism and Renaissance on European literature and civilization. Conducted in English. (Available for General Education, Arts and Humanities.)

**FLIT 350. Classical World and Western Civilization (3)**

*Prerequisite: Completion of the Lower Division writing requirement. May not be taken by students who have completed FLIT 150.* Examines the influence of the ancient Greek and Roman cultures on Western civilization. Includes an examination of primary materials (e.g., inscriptions, documents, poems, plays, historical writings) that become the subjects for extensive study for reports and papers. Conducted in English. (Available for General Education, Comparative Cultural Studies.)

**FLIT 370. Modern Japanese Culture (3)**

*Preparatory: No background knowledge of Japan or the language is required.* Explores the country that quickly modernized and Westernized to become an economic and industrial force in the world and yet remains distinctly Asian. Examines the Japanese people and culture, their recent changes and the current critical issues in Japan, such as changes in the basic values, philosophy and behavior that the recent political, economic and social situations have wrought. Compares the interpretations and presentations of Japanese culture made by the Japanese and the non-Japanese, and by scholars and popular writers, to learn to critically look at issues from various perspectives. Conducted in English. (Available for General Education, Comparative Cultural Studies.)

**FLIT 371. Modern Italian Culture (3)**

Survey of contemporary Italy. Captures the major literary and cultural aspects and examines the social relations, customs, traditions and productive forces that have contributed to the emergence of Italy as a leading industrial European country. Meets the Upper Division General Education writing requirements. Conducted in English. (Available for General Education, Comparative Cultural Studies.)

**FLIT 380. Cultural Development of Modern Russia and Eastern Europe (3)**

Examines the cultural history and current developments of the Slavic people in the Russian States and Eastern Europe, and traces the role of these people in American culture and society. Conducted in English. (Available for General Education, Comparative Cultural Studies.)

**FLIT 381. Aspects of the Italian-American Experience in Cinema, Literature, Philosophy and Music (3)**

*Prerequisite: Completion of the Lower Division writing requirements.* This course will examine different individuals within the Italian-American

experience, exploring their contributions in the fields of cinema, literature, philosophy and classical music, and how through each we see an additional paradigm offered in and to the mainstream artistic and humanistic endeavor in the U.S. Conducted in English. (Available for General Education, Art and the Humanities.) (IC)

**FLIT 383. Hispanic Civilization and Culture: Middle Ages to Golden Age (3)**

*Preparatory: No background knowledge of Spain or Spanish is required.* This course is a survey of the Middle Ages and the Golden Age, 1040-1700, and captures major literary and cultural age aspects, and examines the social relations, customs, traditions and productive forces that transitioned Spain from kingdoms to empire. This course meets the Upper Division General Education writing requirements. Conducted in English. (Available for General Education: Art and Humanities.)

**FLIT 384. Modern Hispanic Culture (Peninsular) (3)**

*Preparatory: No background of Spain or Spanish is required.* This course is a survey of contemporary Spain, and captures its major literary and cultural aspects; examines the social relations, customs, traditions, and productive forces that took Spain to a new era and globalization. It conveys the Hispanic spirit and its 20th century lifestyle. Meets the Upper Division General Education writing requirements. Conducted in English. (Available for General Education: Art and Humanities.)

**FLIT 391. Cultural Theories and Methodologies (3-3)**

*Preparatory: FLIT 234.* Intensive interdisciplinary study of an age, movement, problem or theme, with emphasis on the practices and methodologies of intercultural study. The topic of the seminar varies. May be repeated once for credit. (Cross listed with HUM 391.)

**FLIT 396A-Z. Experimental Topics Courses (3)**

**FLIT 402. Japanese Literature (3)**

Survey of Japanese literature from earliest times to the present, with particular emphasis on Japanese cultural values as applied to Western literary forms. Conducted in English.

**FLIT 423. The Greek and Roman Epic in Translation (3)**

Traces the development of the epic genre in antiquity. Emphasis on readings from Homer's *Iliad* and *Odyssey* to Virgil's *Aeneid*. Conducted in English. (Cross listed with ENGL 423.)

**FLIT 424. Drama of Greece and Rome (3)**

Analysis of major Greek and Roman plays, literature and works for the theater. Conducted in English. (Cross listed with ENGL 424.)

**FLIT 426. Drama from 1660 to Ibsen (3)**

Study of significant plays of the Neoclassic period, including romanticism, realism and naturalism. Conducted in English. (Cross listed with ENGL 426.)

**FLIT 427. Drama from Ibsen to the Present (3)**

Development of significant theater movements in Europe and America, including an intensive study of selected plays. Conducted in English. (Cross listed with ENGL 427.)

**FLIT 455. Women Writers of Asia (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Study of selected literary works by women of Asia. Examines the roles of gender and women's creativity in response to the religious and ideological currents and social conditions in the region. Conducted in English.

**FLIT 480. Greek and Roman Literature in Translation (3)**

Study of representative works of classical literature in translation, including consideration of their contributions to Western thought. Conducted in English. (Cross listed with ENGL 480.)

**FLIT 485. Major Russian Writers (3)**

Study of major Russian writers, with emphasis on writers of the pre-revolutionary period. Conducted in English. (Cross listed with ENGL 485.)

**FLIT 491. Capstone Seminar (3)**

*Prerequisite: FLIT 391.* Intensive interdisciplinary study of an age, movement, problem or theme, with emphasis on the application of cultural theory in interdisciplinary study. The topic of the seminar varies. Students will complete a senior project, such as a research paper or a creative performance, that demonstrates the integrated knowledge, understanding and linguistic skills they have gained in the course of studies in the Major. The project will be presented in English to fellow students and MCLL faculty members at the senior presentation. May be repeated once for credit with a different topic. (Cross listed with HUM and LRS 491.)

**FLIT 496A-Z. Experimental Topics Courses (FLIT)(3)**

*Prerequisite: Upper Division standing.* Selected topics in Foreign Literature in Translation with course content to be determined. Conducted in English.

**FLIT 499A-C. Independent Study (1-3)**

## French

### Department of Modern and Classical Languages and Literatures

#### Advisor

Ahmed Bouguarche

#### Degrees Offered

B.A., French

#### The Major

The French major is designed for student who wish to prepare for a career in teaching or for one in which a strong background in French language and culture is essential. By completing the Major, the student is prepared to pursue graduate work in French/Francophone literatures and cultures.

Students with some knowledge of French wishing to take Lower Division courses should take the French placement exam before registration. The exam is available on a drop-in basis at certain hours or by appointment in the Barbara Ann Ward Language Center (BAWLC), JR 316.

Students with advanced placement cannot receive credit for courses below the level at which they are enrolled. However, 200-level classes may be waived or replaced by appropriate classes. Please consult an advisor.

#### Careers

In our multicultural global community, French, with more than 150,000,000 speakers in 52 countries, is a major means of communication between peoples in more than 40 countries of the world. As such, it is essential both for students who anticipate a career as teachers of French language, civilization and culture, and for those who see the study of French as an adjunct to studies in another field. Careers for these students are available in such areas as international business, the tourist industry (including hotel and restaurant management) and public services, both with local and national governmental agencies and with international agencies, such as the U.N., NAFTA and the European Community.

### Requirements for the Bachelor of Arts Degree

#### 1. Lower Division Required Courses (9 units)

|      |     |                                      |
|------|-----|--------------------------------------|
| FREN | 200 | Beginning French Conversation (3)    |
| FREN | 204 | Review of French Grammar (3)         |
| FREN | 208 | Intermediate Reading and Writing (3) |

#### 2. Lower Division Electives (3 units)

##### Choose 1 from the following:

|      |      |  |
|------|------|--|
| FLIT | 295A | Masterpieces of European Literature I (3)  |
| FLIT | 295B | Masterpieces of European Literature II (3) |

#### 3. Upper Division Required Courses (21 units)

|      |     |                                      |
|------|-----|--------------------------------------|
| FREN | 300 | Advanced French Conversation (3)     |
| FREN | 305 | French Pronunciation and Diction (3) |

|      |      |  |
|------|------|--|
| FREN | 315A | Masterpieces of French Literature I (3)  |
| FREN | 315B | Masterpieces of French Literature II (3) |
| FREN | 380  | French Civilization (3)                  |
| FREN | 381  | The Contemporary French World (3)        |
| LING | 417  | Language Development and Acquisition (3) |

#### 4. Upper Division Electives (15 units)

##### Choose 1 course from the following:

|      |     |                                     |
|------|-----|-------------------------------------|
| FREN | 312 | Readings in French for Business (3) |
| FREN | 405 | Art of Translation (3)              |

##### Choose 1 course from the following:

|      |     |                                     |
|------|-----|-------------------------------------|
| ANTH | 310 | Anthropological Linguistics (3)     |
| COMS | 420 | Language and Symbolic Processes (3) |
| ENGL | 301 | Language and Linguistics (3)        |

##### Choose 2 courses from the following:

|      |     |   |
|------|-----|---|
| FREN | 306 | Advanced Composition (3)                |
| FREN | 313 | Beginning Commercial Correspondence (3) |
| FREN | 406 | Textual Analysis and Composition (3)    |

##### Choose 1 course from the following:

|      |      |                    |
|------|------|--------------------|
| FREN | 415D | French Drama (3)   |
| FREN | 415F | French Fiction (3) |
| FREN | 415P | French Poetry (3)  |

**General Education:** The French Major satisfies the Arts and Humanities Requirement of GE. Anthropology 310 (if taken) satisfies Comparative Cultural Studies GE requirement.

|  |       |
|--|-------|
| Total Units in the Major                 | 48    |
| General Education Units                  | 46-49 |
| Additional Units                         | 17-20 |
| Total Units Required for the B.A. Degree | 120   |

### Minors in French

General Minor or Minor in French for Business Majors

#### A. General Minor

##### 1. Lower Division Required Courses (9 units)

|      |     |                                      |
|------|-----|--------------------------------------|
| FREN | 200 | Beginning French Conversation (3)    |
| FREN | 204 | Review of French Grammar (3)         |
| FREN | 208 | Intermediate Reading and Writing (3) |

##### 2. Upper Division Required Courses (6 units)

|      |     |                                      |
|------|-----|--------------------------------------|
| FREN | 305 | French Pronunciation and Diction (3) |
| FREN | 306 | Advanced Composition (3)             |

##### 3. Upper Division Electives (9 units)

###### Choose 1 from the following:

|      |      |  |

### Course List

#### FREN 101. Elementary French I (4)

*Prerequisite:* Not open to students who have attended schools where French was the language of instruction. Study of the fundamentals of French, including grammatical structures, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### FREN 102. Elementary French II (4)

*Prerequisites:* FREN 101. Not open to students who have attended schools where French was the language of instruction. Continuation of the study of the fundamentals of French, including grammatical structures, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### FREN 200. Beginning French Conversation (3)

*Prerequisite:* FREN 102 or equivalent. Not open to students who have attended schools where French was the language of instruction. Intended to develop students' aural-oral skills and to improve their fluency in spoken French. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### FREN 204. Review of French Grammar (3)

*Prerequisite:* FREN 102. *Recommended Corequisite:* FREN 208. Extensive grammar study intended to clarify and deepen the students' understanding of French grammar through a thorough review of its basic concepts. May not be challenged if principal schooling has been in French. (Available for General Education, Comparative Cultural Studies.)

#### FREN 208. Intermediate French Reading and Writing (3)

*Prerequisite:* FREN 102 or equivalent. Students acquire the techniques and strategies necessary to read and write French at appropriate intermediate levels. May not be challenged if principal schooling has been in French.

#### FREN 300. Advanced French Conversation (3)

*Prerequisite:* Upper Division standing in French. Not open to students who have attended schools where French was the language of instruction. Intended to encourage Majors and Minors in French engaged in the junior-year program to further develop their ability to express themselves in the French language. May not be challenged.

#### FREN 305. French Pronunciation and Diction (3)

*Prerequisite:* Upper Division standing in French. Applied phonetics. Students apply what they learn about the nature of French sounds toward improving their pronunciation by means of dramatic readings ranging from simple prose to poetry and drama.

#### FREN 306. Advanced Composition (3)

*Prerequisites:* Upper Division standing in French. Devoted to the analysis of types of French style and to the practical application of these type patterns in writing.

#### FREN 312. Readings in French for Business (3)

*Prerequisite:* Upper Division standing in French. *Preparatory:* FREN 306. Readings and discussion of texts dealing with various aspects of business, designed to introduce the students to the basic vocabulary and structures of commercial French.

**FREN 313. Beginning Commercial Correspondence (3)**

*Prerequisites:* FREN 312. Introduction to the basic principles of business correspondence in French.

**FREN 315A. Masterpieces of French Literature (3)**

*Prerequisite:* Upper Division standing in French. Introduction to the highlights of French literature from the Middle Ages to the Classical period.

**FREN 315B. Masterpieces of French Literature II (3)**

*Prerequisite:* Upper Division standing in French. Introduction to the highlights of French literature from the 18th century to the contemporary period.

**FREN 380. French Civilization (3)**

*Prerequisite:* Upper Division standing in French. Study of the historical, cultural and societal evolution of the French people from the earliest records to the contemporary period.

**FREN 381. The Contemporary French World (3)**

*Prerequisite:* Upper Division standing in French. Advanced conversation, focusing on aspects of modern culture.

**FREN 391. Language Practicum (3)**

*Prerequisite:* FREN 204 or instructor consent. A language practicum is a course in which field experience is the predominant learning mode, and it can include a community service-learning and other practical experiences in French-speaking organizations approved by the MCLL Department, such as French schools, social welfare, political or other community organizations. Faculty assist students in obtaining appropriate placement. The field work requires an extensive use of the target language and exposure to the target culture. Emphasis will be on the development of appropriate professional vocabulary, as well as speaking and comprehension skills, and culturally-appropriate interaction skills. The field work is complemented by academic study and written assignments. May be repeated once. (Credit/No Credit only)

**FREN 405. The Art of Translation (3)**

*Prerequisite:* Upper Division standing in French or instructor consent. Examination of the similarities and differences between English and French idiom and syntax by means of translation exercises ranging from colloquial to literary in nature.

**FREN 406. Textual Analysis and Composition (3)**

*Prerequisites:* FREN 306 or 313, and 315A or 315B. *Preparatory:* It is recommended that this course be taken before enrollment in FREN 415D, 415F or 415P. Assists students in acquiring literary analytical faculties and in applying these stylistic techniques to written analysis based on classroom discussion, explication in class and students' developing sensitivities to structure, style and composition.

**FREN 415D. French Drama (3)**

*Prerequisite:* Upper Division standing in French. *Preparatory:* FREN 406. Examination of French drama from the medieval period to the 20th century.

**FREN 415F. French Fiction (3)**

*Prerequisite:* Upper Division standing in French. *Preparatory:* FREN 406. Study of selected French novels and short stories tracing the development of the genre from the Middle Ages to the present.

**FREN 415P. French Poetry (3)**

*Prerequisite:* Upper Division standing in French or instructor consent. *Preparatory:* FREN 406. Study of French poetry as a genre from its origins to its modern manifestations in the 19th and 20th centuries.

**FREN 496A-Z. Experimental Topics Courses in French Literature (3)**

*Prerequisites:* Senior standing; one Upper Division course in French literature. Selected topics in French literature with course content to be determined.

**FREN 499A-C. Independent Study (1-3)**

## German

Department of Modern and Classical Languages and Literatures

### Course List

**GERM 101. Elementary German I (4)**

*Prerequisite:* Not open to students who have attended schools where German was the language of instruction. Study of the fundamentals of German grammatical structures, including reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**GERM 102. Elementary German II (4)**

*Prerequisite:* Completion of GERM 101 or equivalent. Not open to students who have attended schools where German was the language of instruction. Continuation of the study of the fundamentals of German, including grammatical structures, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**GERM 201. Intermediate German (3)**

*Prerequisite:* GERM 102 or equivalent. Brief review of grammar and study of more advanced grammatical concepts. Introduction to the reading of literature. May not be challenged if principal schooling has been in German. (Available for General Education, Comparative Cultural Studies.)

**GERM 202. Intermediate German Reading (3)**

*Prerequisite:* GERM 201 or equivalent. *Recommended Corequisite:* GERM 204. Readings and discussion of German essays, short stories, poetry and plays. No formal grammar. May not be challenged if principal schooling has been in German. (Available for General Education, Comparative Cultural Studies.)

**GERM 204. Intensive German Grammar (3)**

*Prerequisite:* Completion of GERM 201 or equivalent. *Recommended Corequisite:* GERM 202. One-semester course consisting of extensive grammar review. May not be challenged if principal schooling has been in German. (Available for General Education, Comparative Cultural Studies.)

## Hebrew

Department of Modern and Classical Languages and Literatures

### Course List

**HEBR 101. Elementary Hebrew I (4)**

*Prerequisite:* Not open to students who have attended schools where Hebrew was the language of instruction. Open only to students who are beginning their study of Hebrew. Study of the fundamentals of Hebrew, including grammatical structure, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**HEBR 102. Elementary Hebrew II (4)**

*Prerequisite:* Completion of HEBR 101. Not open to students who have attended schools where Hebrew was the language of instruction. Continuation of the study of the fundamentals of Hebrew, including grammatical structure, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**HEBR 201. Intermediate Hebrew I (3)**

*Prerequisite:* HEBR 102. May not be challenged if principal schooling has been in Hebrew. 3 hours lecture. (Available for General Education, Comparative Cultural Studies.)

# Italian

## Department of Modern and Classical Languages and Literatures

### Advisor

Anthony Costantini

### Minor

The Minor in Italian offers students the opportunity to attain an advanced level of proficiency in Italian language along with an in-depth study of the culture that has shaped Italian society, both past and present. Students with previous studies in Italian should consult the advisor for advanced placement and course selections to complete the minor. Those students interested in pursuing careers to teach in elementary or secondary education also should consult with the advisor in order to plan their program of studies.

### Student Learning Outcomes of the Minor

Students will be able to:

1. Demonstrate advanced level competence in understanding, speaking, reading and writing in Italian;
2. Demonstrate knowledge of the fundamental historical and cultural events that shaped present-day Italy;
3. Analyze and articulate interpretations of literary works.

### Careers

The Minor in Italian prepares students for teaching Italian and for career opportunities in business and the arts.

### Course List

#### ITAL 101. Elementary Italian I (4)

*Prerequisite:* Not open to students who have attended schools where Italian was the language of instruction. Study of the fundamentals of Italian, including grammatical structures, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### ITAL 102. Elementary Italian II (4)

*Prerequisite:* ITAL 101 or equivalent. Not open to students who have attended schools where Italian was the language of instruction. Continuation of the

study of the fundamentals of Italian, including grammatical structures, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### ITAL 201. Intermediate Italian I (3)

*Prerequisite:* ITAL 102. May not be challenged if principal schooling has been in Italian. (Available for General Education, Comparative Cultural Studies.)

#### ITAL 202. Intermediate Italian II (3)

*Prerequisite:* ITAL 201. *Recommended Corequisite:* ITAL 204. Brief review of grammar. Intensive practice in pronunciation and conversation. Reading of essays, short stories and plays, as well as study of some problems pertinent to Italian culture. May not be challenged if principal schooling has been in Italian. (Available for General Education, Comparative Cultural Studies.)

#### ITAL 204. Intermediate Italian Grammar and Composition (3)

*Prerequisite:* ITAL 201 or instructor consent. *Recommended corequisite:* ITAL 202. One-semester course for non-native speakers consisting of extensive grammar review and literary composition. May not be challenged if principal schooling has been in Italian. (Available for General Education, Comparative Cultural Studies.)

#### ITAL 290. Intermediate Reading and Conversation (3)

*Prerequisite:* ITAL 202 or equivalent. This course offers the opportunity to increase functional language competence. Reading comprehension and communicative skills will be fostered with the use of active vocabulary, media presentations and performances. Guided conversations, reading, and pronunciation will emphasize the development of accurate idiomatic expressions. Use of internet resources and multimedia materials will be an integral part of this course. Course will target computer literacy and technology competencies.

#### ITAL 300. Advanced Conversational Italian (3)

*Prerequisite:* ITAL 204. One-semester course intended to encourage students to further develop their ability to express themselves in the Italian language.

#### ITAL 305. Structure of the Italian Language (3)

*Prerequisite:* ITAL 204. One-semester course devoted to the analysis of the structure of Italian.

#### ITAL 306. Translation and Style (3)

*Prerequisite:* ITAL 204 or permission of the instructor. This course is designed to help students enhance their mastery of the Italian language through translation from English into Italian and Italian into English. This course is a study of the syntactic, morphemic and semantic structures of both languages. Texts to be translated will include literary excerpts, newspaper articles, business letters, technical and scientific material and a variety of essays. This course will allow students to understand the various stylistic differences between Italian and English, to increase vocabulary proficiency and, above all, to achieve a higher writing competence in the target language.

#### ITAL 315. Masterpieces of Italian Literature (3)

*Prerequisite:* ITAL 202. Presents the highlights of Italian literature from its origins to the contemporary period.

#### ITAL 335. Italian Literature of the Middle Ages (3)

*Prerequisite:* ITAL 204 or permission of the instructor. This course offers students a view of major Italian literary schools and works of writers of the Middle Ages.

#### ITAL 360. Italian Literature of the 19th Century (3)

*Prerequisite:* ITAL 204 or equivalent. Offers students of Italian a view of the literary movements (classicism, romanticism, realism, positivism, verism, symbolism) and of the works of major Italian poets and writers of the 19th century.

#### ITAL 391. Language Practicum (3)

*Prerequisites:* ITAL 202 or instructor consent. A language practicum is a course in which field experience is the predominant learning mode, and it can include a community service-learning and other practical experiences in Italian-speaking organizations approved by the MCLL

Department, such as Italian schools, social welfare, political or other community organizations. Faculty assist students in obtaining appropriate placement. The field work requires an extensive use of the target language and exposure to the target culture. Emphasis will be on the development of appropriate professional vocabulary as well as speaking and comprehension skills, and culturally-appropriate interaction skills. The field work is complemented by academic study and written assignments. May be repeated once. (Credit/No Credit Only)

**ITAL 396A-Z. Experimental Topics Courses in Italian Literature (3)**

*Prerequisites: ITAL 204 or equivalent.* Experimental topics in Italian literature or linguistics, with content to be determined.

**ITAL 496A-Z. Experimental Topics Courses in Italian Literature (3)**

*Prerequisite: ITAL 315.* Selected topics in Italian literature, with course content to be determined.

**ITAL 499A-C. Experimental Topics Courses in Italian Literature (3)**

## Japanese

### Department of Modern and Classical Languages and Literatures

#### Advisor

Drake Langford

#### The Minor

The Minor in Japanese is designed to provide students with language training and an understanding of Japanese society and culture as revealed through the study of the language and literature. Students with previous studies in Japanese should consult the advisor for advanced placement and course selections to complete the Minor. Successful completion of the Minor in Japanese will be noted on the student's official CSUN transcript.

#### Student Learning Outcomes of the Minor

As appropriate to the level completed, students will be able to:

1. Demonstrate fluency in the skills of listening, speaking, reading and writing in Japanese;
2. Demonstrate ability to reason and present sound arguments using the Japanese language;
3. Analyze and clearly articulate interpretations of literary texts; and
4. Demonstrate knowledge of Japanese culture and tradition.

#### Careers

The Minor prepares students to teach Japanese and enter graduate programs requiring knowledge of the Japanese language, including area studies, business or law. It also helps students aspiring to careers in international business and law, public and community service, and communication and the media.

#### 1. Prerequisites for the Minor

- JAPN 101 Elementary Japanese I (4)  
JAPN 102 Elementary Japanese II (4)

#### 2. Lower Division Required Courses (8 units)

- JAPN 201 Intermediate Japanese I (4)  
JAPN 202 Intermediate Japanese II (4)

#### 3. Lower Division Elective Courses (3 units)

##### Select 1 course from the following:

- FLIT 250 Traditional Culture of Japan (3)  
JAPN 105 Kanji I (3)  
JAPN 204 Kanji II (3)  
JAPN 205 Kanji III (3)

#### 4. Upper Division Required Courses (9 units)

##### Select 3 courses from the following:

- FLIT 370 Modern Japanese Culture (3)  
FLIT 402 Japanese Literature (3)

- JAPN 300 Advanced Japanese Conversation (3)  
JAPN 304 Advanced Grammar and Composition (3)  
JAPN 305 Language and Culture in Japanese (3)  
JAPN 306 Advanced Reading and Composition (3)

| <b>Total Units Required for the Minor</b> | <b>20</b> |
|---|-----------|

### Course List

#### JAPN 101. Elementary Japanese I (4)

*Prerequisite: Not open to students with oral proficiency or who have attended schools where Japanese was the language of instruction.* Study of the fundamentals of Japanese, including grammatical structure, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### JAPN 102. Elementary Japanese II (4)

*Prerequisite: JAPN 101 or equivalent.* Not open to students with oral proficiency or who have attended schools where Japanese was the language of instruction. Continuation of the study of the fundamentals of Japanese, including grammatical structure, reading and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### JAPN 105. Kanji I (3)

*Prerequisite: JAPN 101 or equivalent.* Can be taken concurrently with JAPN 102. Students learn to read and write 250 basic kanji characters, and learn to use them in context. The course provides students with the opportunity to further their study of Japanese language and culture and to increase functional language competence. Reading comprehension and writing skills will be targeted with the use of readings, compositions and exercises, including web-based programs and reading materials. The course will include formal study of language structure, although not as the central focus of the course content. The course will be particularly helpful to students planning to learn as many kanji as possible, and eventually all the 1,950 "Kanji for Common Use." (Available for General Education, Comparative Cultural Studies.)

#### JAPN 201. Intermediate Japanese I (4)

*Prerequisite: JAPN 102 or equivalent.* Japanese students with sufficient oral fluency and knowledge of fewer than 100 kanji may enroll in 201 only. Study of grammar, sentence patterns and writing. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### JAPN 202. Intermediate Japanese II (4)

*Prerequisite: JAPN 201 or equivalent.* Students with sufficient oral proficiency and knowledge of fewer than 250 kanji may enroll in 202 only. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

#### JAPN 204. Kanji II (3)

*Prerequisite: JAPN 102 or equivalent.* Can be taken concurrently with JAPN 201. Students learn to read and write 500 basic kanji characters, and learn to use them in context. The course will provide students with the opportunity to further their study of Japanese language and culture and to increase functional language competence. Reading comprehension and writing skills will be targeted with the use of readings, compositions and exercises, including web-based programs and reading materials. The course will include formal study of language structure, although not as the central focus of the course content. The course will be particularly helpful to students planning on learning as many kanji as possible, and eventually all the 1,950 "Kanji for Common Use." (Available for General Education, Comparative Cultural Studies.)

**JAPN 205. Kanji III (3)**

*Prerequisite:* JAPN 201 or equivalent. Can be taken concurrently with JAPN 202. Students learn to read and write 750 kanji, and learn to use them in context. The course will provide students with the opportunity to further their study of Japanese language and culture and to increase functional language competence. Reading comprehension and writing skills will be targeted with the use of readings, compositions and exercises, including web-based programs and reading materials. The course will include formal study of language structure, although not as the central focus of the course content. The course will be particularly helpful to students planning on learning as many kanji as possible, and eventually all the 1,950 “Kanji for Common Use.” (Available for General Education, Comparative Cultural Studies.)

**JAPN 300. Advanced Japanese Conversation (3)**

*Prerequisite:* Completion of 2nd year sequence in Japanese. Designed to develop further the students’ ability to express themselves in spoken Japanese. Strongly recommended for students planning to participate in study abroad programs in Japan.

**JAPN 304. Advanced Grammar and Composition (3)**

*Prerequisite:* Completion of 2nd year sequence in Japanese. Consisting of advanced studies in grammar, syntax, and kanji characters, with composition exercises designed to develop the students’ command of the written language.

**JAPN 305. Language and Culture in Japanese (3)**

*Prerequisite:* JAPN 300 or equivalent. Practice in communication utilizing grammatical and socio-linguistic studies. Through video presentation, role play, interpretation exercises and other activities, the students describe the situation, identify any problems and practice solving problems or accomplishing goals in a non-confrontational manner appropriate in the Japanese social context.

**JAPN 306. Advanced Reading and Composition (3)**

*Prerequisite:* JAPN 304 or equivalent. Aims to increase balanced skills in reading and writing. Focuses on various aspects of Japanese society and values. Designed to develop ability to address intercultural differences and resulting problems.

**JAPN 400. Japanese Language and Society (3)**

*Prerequisite:* JAPN 304 or equivalent. The goal of this course is for students to learn how the Japanese people and society are depicted in the media, and to use Japanese skills for authentic communication purposes. The course will focus on advanced grammar, idioms and reading comprehension skills, enabling students to become better able to express themselves and comprehend both spoken and written Japanese. The course will cover 250 new kanji characters. The course will be conducted through interactive group/pair activities and discussions, as well as written and web-based assignments. Students also will engage in collaborative projects with a partner class at a Japanese university.

**JAPN 401. Introduction to Literature in Japanese (3)**

*Prerequisite:* JAPN 400 or equivalent. In this course, students read authentic work of literature, beginning with poetry, essays and short stories. The goal of this course is for students to improve their facility to read and to recognize the subtle differences in the ways Japanese and Americans communicate, interact, and live their lives. This course focuses on 250 new kanji characters, advanced grammar, idioms, and reading comprehension skills, enabling students to become better able to comprehend both spoken and written Japanese and express themselves. The course is conducted through interactive group/pair activities, discussions and written and web-based assignments, such as listening to podcast readings of a literary work.

**JAPN 499A-C. Independent Study (1-3)**

## Korean

Department of Modern and Classical Languages and Literatures

### Course List

---

**KOR 101. Elementary Korean I (4)**

*Preparatory:* Instructor consent. Study of the fundamentals of Korean, including alphabet and additional sounds, grammatical structure, reading, writing and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**KOR 102. Elementary Korean II (4)**

*Preparatory:* Instructor consent. Study of the fundamentals of Korean, including alphabet and additional sounds, grammatical structure, reading, writing and practice in the spoken language. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**KOR 296A. Intermediate Korean I (3)**

*Prerequisite:* KOR 102 or equivalent. In this course, the emphasis will be placed on intermediate listening, speaking, reading, writing and grammar. Using various grammatical patterns, students will learn to form compound and complex sentences. May not be challenged if principal schooling has been in Korean. (Available for General Education, Comparative Cultural Studies.)

## Persian (Farsi)

Department of Modern and Classical Languages and Literatures

### Course List

---

**PERS 101. Elementary Persian I (4)**

Study of the fundamentals of Persian, including grammatical structure, alphabet, writing and and practice of the spoken language. May not be challenged. (Available for General Education, Comparative Culture Studies.)

**PERS 102. Elementary Persian II (4)**

*Prerequisite:* PERS 101 or instructor consent. Continuation of the fundamentals of Persian, including grammatical structure, reading, writing and practice of the spoken language. Discussion of Persian history and culture is integrated into the lessons. May not be challenged. (Available for General Education, Comparative Culture Studies.)

**PERS 201. Intermediate Persian I (3)**

*Prerequisite:* PERS 102. Intermediate course designed to strengthen existing communicative skills and cultural knowledge in Persian. Emphasis on oral expression, vocabulary expansion, grammar and, more specifically, reading and writing. Introduction to reading of literature and culture.

**PERS 202. Intermediate Persian II (3)**

*Prerequisite:* PERS 201. Intermediate course designed to strengthen existing communicative skills and cultural knowledge developed in PERS 201. Emphasis on oral expression, vocabulary expansion, spelling, grammar, composition and, more specifically, reading and writing and culture. Conducted in Persian.

### Chair

Brian Castronovo

### Undergraduate Advisors

Brian Castronovo, Edith Dimo, Kenneth Luna, Sirena Pellarolo, Adrian Perez-Boluda, Elias Ramos

### Graduate Advisor

Edith Dimo

### Programs

Undergraduate:

- B.A., Spanish
- Language and Culture Option
- Literature Option

Minors:

- General Minor
- Minor for Business Majors
- Minor for the Health Sciences
- Interdisciplinary Minor: Spanish-Language Journalism

Graduate Degrees Offered:

- M.A., Spanish

### Credential

Spanish Subject Matter Program for the Single Subject Credential (Language and Culture Option)

### Major in Spanish

The Spanish major—consisting of 2 Options: I. Literature and II. Language and Culture—is designed for students who wish to prepare for a career in secondary, college or university teaching, or who intend to pursue other careers where a strong background in Spanish is essential. Students should seek advisement from Spanish faculty advisors concerning the Option best suited to their goals.

The Spanish Major requires a capstone paper to be written in a 500-level course of the student's choice.

Students with some knowledge of Spanish wishing to take Lower Division courses should take the Spanish placement exam before registration. The exam is available on a drop-in basis at certain hours or by appointment in the Barbara Ann Ward Language Center (BAWLC), JR 316.

Students with advanced placement cannot receive credit for courses below the level at which they are enrolled. However, 200-level classes may be waived or replaced by appropriate classes. Please consult an advisor.

### Student Learning Outcomes of the Undergraduate Program

1. Prepare students for careers in teaching (secondary, community college, university), and legal, medical, administrative and journalistic fields, etc., that require advanced-level (ACTFL Guidelines) abilities in both oral and written skills;
2. Provide students with techniques, strategies, methodologies, and skills to carry out independent research that supports career choices;
3. Establish a solid foundation for lifelong learning, service and participation in the Hispanic, Latino and global communities;
4. Carry out research and apply critical theories in analysis of Hispanic linguistics, literatures, civilizations and cultures;
5. Communicate at the advanced level using a variety of rhetorical modes in both oral and written discourse; and
6. Achieve subject matter competency (as stated in the Standards of the California Commission on Teacher Credentialing) to enter a Credential or a Graduate Program in Spanish at any U.S. university.

## Requirements for the Bachelor of Arts Degree

### A. Option I: Literature

#### 1. Lower Division Required Courses (15 units)

##### Choose 1 from the following:

|      |                        |   |
|------|------------------------|---|
| FLIT | 295A                   | Masterpieces of European Literature I (3)                                       |
| FLIT | 295B                   | Masterpieces of European Literature II (3)                                      |
| SPAN | 210A/L<br>or SPAN 210B | Communicating in Spanish and Lab (2/1)<br>Intermediate Spanish Conversation (3) |
| SPAN | 220A                   | Intermediate Spanish I (3)  |
| SPAN | 220B                   | Intermediate Spanish II (3)   |

#### 2. Upper Division Required Courses (33 units)

##### Writing (3 units)

##### Choose 1 from the following:

|      |     |   |
|------|-----|---|
| SPAN | 306 | Advanced Composition (3)<br>Literary Analysis (3 units) |
| SPAN | 307 | Introduction to the Analysis of Hispanic Literature (3) |

##### Literature (9 units)

##### Choose 3 from the following:

|      |      |                                    |
|------|------|------------------------------------|
| SPAN | 315A | Literature of Spain I (3)          |
| SPAN | 315B | Literature of Spain II (3)         |
| SPAN | 363  | Literature of Latin America I (3)  |
| SPAN | 364  | Literature of Latin America II (3) |

##### Civilization and Culture (3 units)

##### Choose 1 from the following:

|      |     |   |
|------|-----|---|
| SPAN | 380 | Latin American Civilization (3)             |
| SPAN | 381 | Spanish Civilization (3)                    |
| SPAN | 382 | Literature and Society in Latin America (3) |
| SPAN | 383 | Literature and Society in Spain (3)         |

##### Language and Linguistics (3 units)

##### Choose 1 from the following:

|      |     |                          |
|------|-----|--------------------------|
| SPAN | 395 | Spanish Phonetics (3)    |
| SPAN | 401 | Language and Culture (3) |

##### Electives (12 units)

##### Select 3 courses from the following. Choose courses to assure a balance between Peninsular and Latin American Spanish.

|      |            |   |
|------|------------|---|
| SPAN | 421 or 521 | Central American Literature (3)*                              |
| SPAN | 508        | Literature of the Middle Ages (3)                             |
| SPAN | 509        | Literature of the Renaissance (3)                             |
| SPAN | 512        | Golden Age Prose (3)  |
| SPAN | 513        | Golden Age Poetry (3)   |
| SPAN | 518        | Spanish Neoclassicism and Romanticism (3)                     |
| SPAN | 519        | Spanish Realism and Naturalism (3)                            |
| SPAN | 520        | Latin American Cinema and Literature (3)                      |
| SPAN | 550        | Latin American Novel (3)                                      |
| SPAN | 560        | Latin American Women Writers (3)                              |
| SPAN | 561        | Spanish Women Writers (3)                                     |
| SPAN | 580        | Spanish Literature from 1898 to 1936 (3)                      |
| SPAN | 581        | Spanish Literature Since 1936 (3)                             |
| SPAN | 584        | The Novel of the Mexican Revolution (3)                       |
| SPAN | 587        | The Contemporary Mexican Novel (3)                            |
| SPAN | 595A-Z     | Experimental Topics in Hispanic Literatures and Cultures. (3) |

\*Spanish Majors should take SPAN 521

#### 3. Select 1 course from the following with prior advisement (3 units)

Foreign Literature in Translation (FLIT) 341, 423, 424, 427, 440, 480, 485, 488, 496A-Z; or Classics 315.

### B. Option II: Language and Culture

This is the option with same requirements for the Single Subject Credential.

**1. Lower Division Required Courses (9 Units)**

|              |  |
|--------------|--|
| SPAN 210A/L  | Communicating in Spanish and Lab (2/1) |
| or SPAN 210B | Intermediate Spanish Conversation (3)  |

**Spanish Subject Matter Program for the Single Subject Credential:**

Core requirements are the same as those for the Language And Culture Option.

**Additional Requirements for the Spanish Subject Matter Program:**

1. Exit interview with Department faculty;
2. Overall GPA of 2.75; and
3. GPA in Spanish Subject Matter Program of 2.6.

For details on the Single Subject Credential Program, see the Credentials and Department of Secondary Education sections in the Catalog.

**Master of Arts Degree in Spanish**

**A. Major Goals and Objectives**

1. Prepare students to participate in a wide variety of careers (legal, medical, diplomatic, business, teaching, administrative, translation) that require native or near-native abilities in oral and written skills;
2. Provide students with techniques, methods, strategies and skills to carry out independent research that supports career choices;
3. Establish a solid foundation for lifelong learning and community service in the Hispanic communities; and
4. Design, organize and successfully deliver advanced level seminars that demonstrate superior level oral proficiency, as well as teaching methodologies.

**Requirements for the Master of Arts Degree**

**A. Admission to the Program:**

Department evaluation and approval by a graduate advisor are required before a student can be admitted to either Classified or Unclassified Graduate Standing. Please see additional information regarding Classified status in the Graduate Section. Admission requirements for Classified Graduate Status in the Spanish Program are the same as the general University requirements for Classified Status.

**B. Special Requirements**

Candidates are expected to have reading competence in a second foreign language other than English. The second foreign language is to be selected with the approval of the graduate advisor. See Foreign Language Reading Examination, Successful Completion of a Comprehensive Examination and SPAN 697 for more information.

**1. Required Courses (18 units)**

Choose a total of 6 courses (at least one in each field):

**a. Language**

- SPAN 600 History of the Spanish Language (3)
- SPAN 603 Seminar in Romance Linguistics (3)
- SPAN 605 Advanced Translation (3)

**b. Literature**

- SPAN 606 Seminar in a Genre (3)
- SPAN 607 Seminar in a Literary Period (3)
- SPAN 608 Seminar in Selected Authors (3)
- SPAN 609 Seminar in Style (3)
- SPAN 620 Spanish Literary Criticism (3)

**c. Civilization**

- SPAN 680 Topics in Latin-American Culture (3)
- SPAN 681 Topics in Spanish Culture (3)

**2. Electives (12 units)**

**Select at least 2 courses from each group:**

**a. Language**

- SPAN 400 Structure of the Spanish Language (3)
- SPAN 505 Art of Translation (3)
- SPAN 506 Advanced Written Expression (3)

**b. Literature**

Any 400- or 500-level literature courses not used to satisfy B.A. Degree requirements, or any 600-level literature courses listed in the Core but not used to satisfy Core requirements.

|   |           |

| <b>Total Units Required for the M.A. Degree</b> | <b>30</b> |
|---|-----------|

**Course List**

**SPAN 101. Elementary Spanish I (4)**

*Prerequisite:* Not open to students with oral proficiency or who have attended schools where Spanish was the language of instruction. Study of the fundamentals of Spanish, including grammatical structures, reading and practice in the spoken language. Credit will not be given for both SPAN 101 and 103. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**SPAN 102. Elementary Spanish II and (4)**

*Prerequisite:* Completion of SPAN 101 or instructor consent. Not open to students who have attended schools where Spanish was the language of instruction. Continuation of the study of the fundamentals of Spanish grammatical structures, reading and practice in the spoken language. May not be challenged. Credit will not be given for both SPAN 102 and 104. (Available for General Education, Comparative Cultural Studies.)

**SPAN 103. Elementary Written Spanish I (3)**

*Prerequisite:* Open only to those with oral fluency in Spanish. Preparatory: Instructor consent, subject to verification of oral skills at the beginning of the semester. Emphasizes the development of reading and writing skills, and includes the study of specific areas of grammar. Reading selections emphasize Hispanic culture. Taught in Spanish. May not be challenged. Credit will not be given for both SPAN 101 and 103. (Available for General Education, Comparative Cultural Studies.)

**SPAN 106CLD. Elementary Spanish II CLAD (2)**

*Prerequisite:* SPAN 101. Supplements SPAN 101 and allows students to satisfy the 6-unit language requirement of the CLAD Portion of the Teaching Credential Program. Enables future teachers to improve their Spanish and to provide them with the skills to express themselves on a daily basis in their classrooms.

**SPAN 210A/L. Communicating in Spanish and Lab (2/1)**

*Prerequisites:* SPAN 102 or 104 or equivalent. Not open to students who have attended schools where Spanish was the language of instruction. *Corequisite:* SPAN 210AL. Situational Spanish for intercultural communication. Development of listening and speaking skills in the context of worldwide Hispanic cultures. Reading and writing activities in addition to lab requirement. Recommended for students wanting to strengthen Spanish skills before entering other 200-level courses, or for those primarily interested in developing practical communicative ability. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**SPAN 210B. Intermediate Spanish Conversation (3)**

*Prerequisites:* SPAN 102 or 104 or equivalent. Not open to students who have attended schools where Spanish was the language of instruction. *Recommended corequisites:* SPAN 220A and 220B. Intended to develop the students' oral-aural skills and to improve their fluency in spoken Spanish. May not be challenged. (Available for General Education, Comparative Cultural Studies.)

**SPAN 211. Intermediate Readings in Business Spanish (3)**

A course in intermediate Spanish reading, focusing on aspects of business. Does not count toward the Major or Minor in Spanish.

**SPAN 220A. Intermediate Spanish I (3)**

*Prerequisite:* SPAN 102 or 104 or equivalent. *Recommended Corequisite:* SPAN 210B. Improves listening and speaking skills, although reading and writing skills are strengthened as necessary. Review of basic grammar and introduction of more advanced grammatical structures and syntax. Vocabulary expansion. May not be challenged if principal schooling has been in Spanish. (Available for General Education, Comparative Cultural Studies.)

**SPAN 220B. Intermediate Spanish II (3)**

*Prerequisite:* Completion of SPAN 220A or equivalent. *Recommended Corequisite:* SPAN 210B. Improves reading and writing skills in Spanish and use of these skills in the context of an introductory study of Hispanic literature. Introduces critical theory as an essential to analysis. Reviews application of grammar skills to composition. Conducted in Spanish. May not be challenged if principal schooling has been in Spanish. (Available for General Education, Comparative Cultural Studies.)

**SPAN 300. Advanced Conversational Spanish (3)**

*Prerequisite:* SPAN 220A or equivalent. Not open to students who have attended schools where Spanish was the language of instruction. *Recommended corequisite:* SPAN 220B. Encourages Majors and Minors in Spanish engaged in the junior-year program to further develop their ability to express themselves in the Spanish language. Strongly recommended for prospective teachers of Spanish. May not be challenged.

**SPAN 304. Advanced Grammar and Composition (3)**

*Prerequisite:* Upper Division standing in Spanish. One-semester course consisting of the study of difficult problems of syntax unique to the Spanish language, with composition exercises that develop students' command of the written language.

**SPAN 306. Advanced Composition (3)**

*Prerequisite:* SPAN 304 or upper division standing in Spanish. Analysis and evaluation of types of Spanish style and the practical application of these type patterns in writing.

**SPAN 307. Introduction to the Analysis of Hispanic Literature (3)**

*Prerequisites:* SPAN 220B or equivalent. Reading, discussion and practical analysis of selected works of Hispanic literature to acquire the basic knowledge of the genres, archetypes and movements that are unique to it. Introduction to the analytical tools (terminology, critical approaches, research methodology, and term-paper format) necessary to the study of the above. Conducted in Spanish.

**SPAN 310. Language and Contemporary Hispanic Life (3)**

*Prerequisite:* Upper Division standing in Spanish. Advanced conversation focused on aspects of contemporary culture.

**SPAN 312. Readings in Spanish for Business (3)**

*Prerequisite:* SPAN 306. Readings and discussion of texts dealing with various aspects of business that introduce students to the basic vocabulary and structures of commercial Spanish.

**SPAN 315A. Literature of Spain I (3)**

*Prerequisite:* SPAN 306, 307. Introduction to the highlights of Spanish literature from its origins to the Golden Age period, including Cervantes.

**SPAN 315B. Literature of Spain II (3)**

*Prerequisite:* SPAN 306, 307. Introduction to the highlights of Spanish literature from the Golden Age period to the modern period.

**SPAN 320A. Culture and Civilization in Contemporary Hispanic Society (3)**

*Prerequisite:* Completion of SPAN 220B or equivalent. Not open to Majors or Minors. For the Liberal Studies Program concentration. Develops the formal writing skills needed in the preparation of essays and research papers. Readings upon which the writing exercises are based discuss Hispanic (European and Latin American) culture and civilization from the mid-19th century to the present. Conducted in Spanish.

**SPAN 320B. Literature and Culture in Contemporary Hispanic Society (3)**

*Prerequisite:* SPAN 320A. Not open to Majors or Minors. For the Liberal Studies Program concentration. Reading and discussion of selected literary works, with emphasis on their place in the development of Spanish and Spanish-American literature, and their relationship to social and historical movements, the history of ideas and the development of the arts from the mid 19th century to the present. Conducted in Spanish.

**SPAN 363. Literature of Latin America I (3)**

*Prerequisites:* SPAN 306, 307. First part of a 2-semester course dealing with representative authors of Central and South America; the study of the cultural and social backgrounds of their work; and analysis of literary genres, such as native Indian elements and gauchesco literature.

**SPAN 364. Literature of Latin America II (3)**

*Prerequisites:* SPAN 306, 307. Second part of a 2-semester course dealing with representative authors of Central and South America; the study of the cultural and social backgrounds of their work; and analysis of literary genres, such as native Indian elements and gauchesco literature.

**SPAN 380. Latin American Civilization (3)**

*Prerequisite:* Upper Division standing in Spanish. Evolution of Latin American civilization, with special reference to social, cultural and artistic elements.

**SPAN 381. Spanish Civilization (3)**

*Prerequisite:* Upper Division standing in Spanish. Study of Spanish customs and institutions in the light of their historical development.

**SPAN 382. Literature and Society in Latin America (3)**

*Prerequisite:* Upper Division standing in Spanish. Reading and discussion of selected works of fiction and non-fiction, with emphasis on their place in the development of Latin American literature, and their relationship to social and historical movements, the history of ideas and the development of the arts. Conducted in Spanish.

**SPAN 383. Literature and Society in Spain (3)**

*Prerequisite:* Upper Division standing in Spanish. Reading and discussion of selected works of fiction and non-fiction, with emphasis on their relationships to social and historical movements, the history of ideas and the development of the arts in Spain. Conducted in Spanish.

**SPAN 391 Practicum in Spanish: Working in the Hispanic Community (3)**

*Prerequisite:* SPAN 300 or consent of instructor. A course designed to provide training and practical field experience in interpreting for the Spanish-speaking in such areas as medicine, legal aid, education and others. Emphasis will be placed on the development of appropriate professional vocabulary, as well as speaking and comprehension skills. May be repeated once. (Credit/No Credit only)

**SPAN 395. Spanish Phonetics (3)**

*Prerequisite:* Upper Division standing in Spanish. Improves pronunciation, and consolidates and supplements basic theoretical knowledge about sounds, sound relationships and sentence inflection.

**SPAN 400. Structure of the Spanish Language (3)**

*Prerequisite:* Upper Division standing in Spanish. Scientific analysis of the structure of Spanish; comparison with traditional descriptions; and review of problems of usage in writing and speaking Spanish.

**SPAN 401. Language and Culture (3)**

*Prerequisite:* Upper Division standing in Spanish. Linguistic study of the Spanish language in a social and cultural context. Topics covered may include the study of cultural influences on the development of the language and its varieties, languages in contact with other languages, bilingualism and socio-cultural factors in language use.

**SPAN 421. Central American Literature (3)**

*Prerequisites:* For Spanish Majors: SPAN 306, 307. For CAS Minors: CAS 201; Upper Division standing or instructor consent. Recommended Corequisite: SPAN 521. Examines Central American literary traditions, with emphasis on the 20th century. Focuses on the aesthetic proposals, the historical and political context in which Central American literature is produced, the Central American transnational experience, and the ways in which literary production contributes to the construction of a contemporary version of Central American identity. Emphasizes application of recent trends in literary theories and critical methodologies. Variable topics. Conducted in Spanish.

**SPAN 496A-Z. Experimental Topics Courses in Spanish Literature (3)**

*Prerequisites:* SPAN 306, 307. Selected topics in Spanish literature or linguistics, with course content to be determined.

**SPAN 497. Comparative Structure of Spanish and English (3)**

*Prerequisite:* SPAN 395. Recommended for native speakers. Comparative study of the Spanish and English linguistic structures at the phonemic, morphemic, syntactic and semantic levels as they interact in the bilingual learning process.

**SPAN 499A-C. Independent Study (1-3)****Graduate**

All graduate-level classes are conducted in Spanish. For ways to meet the foreign language graduate reading requirement, see Foreign Language Reading Examination.

**SPAN 505. The Art of Translation (3)**

*Prerequisite:* SPAN 306 or instructor consent. Study of the morphemic, syntactic and semantic problems of translating Spanish into English and vice versa, complemented by practical work in both areas. Conducted in Spanish.

**SPAN 506. Advanced Written Expression (3)**

*Prerequisite:* SPAN 306 or instructor consent. Advanced expository writing designed to take the student beyond the basic skills of clarity and organization to improved language mastery and use of stylistic modes. Conducted in Spanish.

**SPAN 508. Literature of the Middle Ages (3)**

*Prerequisites:* SPAN 306, 307. Study of the literary and intellectual developments in Spain during the Middle Ages. Conducted in Spanish.

**SPAN 509. Literature of the Renaissance (3)**

*Prerequisites:* SPAN 306, 307. Study of the literary and intellectual developments in Spain during the Renaissance. Analysis of the development of major genres. Conducted in Spanish.

**SPAN 512. Golden Age Prose (3)**

*Prerequisites:* SPAN 306, 307. Study of the major trends in the prose literature of the Golden Age, including Cervantes and the novel, mystic prose, the essay and historiography. Conducted in Spanish.

**SPAN 513. Golden Age Poetry (3)**

*Prerequisites:* SPAN 306, 307. Study of the principal trends and types of Golden Age poetry, including epic, lyric and drama. Conducted in Spanish.

**SPAN 518. Spanish Neoclassicism and Romanticism (3)**

*Prerequisites:* SPAN 306, 307. Study of the aesthetic, social and philosophical ideas in the writings of major Spanish neoclassic and romantic figures. Conducted in Spanish.

**SPAN 519. Spanish Realism and Naturalism (3)**

*Prerequisites:* SPAN 306, 307. Study of the major realistic and naturalistic authors. Analysis of the development of aesthetic theory and the influence of growing social consciousness and scientific theory on literature. Conducted in Spanish.

**SPAN 520. Latin American Cinema and Literatures (3)**

*Prerequisites:* SPAN 306, 307. Studies the relationship between film and literature in Latin America, focusing on cinematic adaptations of literary works. Films are viewed by the students outside of the classroom. Class time is devoted almost entirely to discussions of readings and films. Conducted in Spanish.

**SPAN 521. Central American Literature (3)**

*Prerequisites:* SPAN 306, 307. Recommended Corequisite: SPAN 421. Examines Central American literary traditions, with emphasis on the 20th century. Focuses on the aesthetic proposals, the historical and political context in which Central American literature is produced, the Central American transnational experience, and the ways in which literary production contributes to the construction of a contemporary version of Central American identity. Application of recent trends in literary theories and critical methodologies are emphasized. Variable topics. Conducted in Spanish.

**SPAN 530. Spanish Dialectology (3)**

*Prerequisites:* SPAN 395, 400. Study of the objective, methods and issues involved in Spanish dialectology. Exploration of major differences between Iberian and Latin American Spanish, and in-depth analysis of phonetic, morphosyntactic and lexical characteristics of regional and national varieties, including the Spanish of the U.S. Students conduct a research project that includes a small-scale linguistic survey involving native speakers of such dialects. Relevant findings reported through oral presentations and a research paper. Conducted in Spanish.

**SPAN 550. The Latin American Novel (3)**

*Prerequisites:* SPAN 306, 307. Development of the Latin American novel from the colonial period to the present day. Emphasis on the "Nueva Novela" (Fuentes, García Márquez, Rulfo, Roa Bastos, Sabato, Vargas Llosà and others.) Conducted in Spanish.

**SPAN 560. Latin American Women Writers (3)**

*Prerequisites:* SPAN 306, 307. Topical study of selected works of Latin American women writers, exploring women's literary traditions and their relationships to mainstream literary movements. Application of recent trends in literary theories and critical methodologies are emphasized. Conducted in Spanish.

**SPAN 561. Spanish Women Writers (3)**

*Prerequisites:* SPAN 306, 307. Topical study of selected works of Spanish women writers, exploring women's literary traditions and their relationship to mainstream literary movements. Application of recent trends in literary theories and critical methodologies are emphasized. Conducted in Spanish.

**SPAN 580. Spanish Literature from 1898 to 1936 (3)**

*Prerequisites:* SPAN 306, 307. Study of social, philosophical and aesthetic issues as reflected in Spanish literature from 1898 to 1936. Conducted in Spanish.

**SPAN 581. Spanish Literature Since 1936 (3)**

*Prerequisites:* SPAN 306, 307. Study of the major works of Spanish literature from 1936 to the present, including those of writers exiled during the Spanish Civil War (1936-39). All works are studied within the framework of life in Spain during and after the Civil War and in relation to the Spanish literary tradition. Conducted in Spanish.

**SPAN 584. The Novel of the Mexican Revolution (3)**

*Prerequisites:* SPAN 306, 307. Study of selected novels that describe the revolutionary struggle during the years 1910-1915 and the profound changes that the revolution produced in Mexican society. Also emphasizes the novelists' disillusion with many of the revolutionary governments. Conducted in Spanish. (Cross listed with CHS 584.)

**SPAN 587. The Contemporary Mexican Novel (3)**

*Prerequisites:* SPAN 306, 307. Study of the recent trends in the Mexican novel through the reading of selected works by the best-known contemporary Mexican novelists. Conducted in Spanish. (Cross listed with CHS 487.)

**SPAN 595A-Z Experimental Topics Courses in Hispanic Literatures and Cultures (3-3)**

*Prerequisites:* 2 Upper Division courses in the Major; Senior standing. Study of experimental topics in the discipline of Hispanic literatures and cultures, with course content to be determined each semester. May be repeated once for credit. Conducted in Spanish.

**SPAN 600. History of the Spanish Language (3)**

Development of Spanish from Latin to the present. Conducted in Spanish.

**SPAN 603. Seminar in Romance Linguistics (3)**

Major linguistic problems, with specific reference to Spanish. Conducted in Spanish.

**SPAN 605. Advanced Translation (3)**

*Prerequisite:* SPAN 505 or instructor consent. Further study of translation as it goes beyond the functional conveyance of meaning to the more complex tasks of transferring stylistic features of genre patterns. Analysis of texts already translated into English or Spanish and practice according to the students' area of interest. Conducted in Spanish.

**SPAN 606. Seminar in a Genre (3)**

Topics vary from semester to semester. Conducted in Spanish.

**SPAN 607. Seminar in a Literary Period (3)**

Period studied varies from semester to semester. Conducted in Spanish.

**SPAN 608. Seminar in Selected Authors (3)**

This course will focus attention on a specific author or group of authors, either in Spanish or Latin American literature. This course may be repeatable for credit only if the topic for the semester changes.

**SPAN 609. Seminar in Style (3)**

Review of principal stylistic theories and their application to Spanish. Conducted in Spanish.

**SPAN 620. Spanish Literary Criticism (3)**

Historical development of Spanish literary criticism, including analysis of representative critics. Conducted in Spanish.

**SPAN 680. Selected Topics in Latin American Culture (3)**

*Preparatory:* SPAN 380 or its equivalent, or instructor consent. Detailed analysis of the complex interplay of political, artistic and intellectual forces at work at any given moment in history. Period or area treated varies from semester to semester. Conducted in Spanish.

**SPAN 681. Topics in Spanish Culture (3)**

*Preparatory:* SPAN 381 or its equivalent, or instructor consent. Detailed analysis of the complex interplay of political, artistic and intellectual forces at work at any given moment in history. Period treated varies from semester to semester. Conducted in Spanish.

**SPAN 697. Directed Comprehensive Studies (3)**

*Required for Comprehensive Examinations. Taken in final semester.* Conducted in Spanish.

**SPAN 699A-C. Independent Study (1-6)**

Conducted in Spanish.

# Music

## Mike Curb College of Arts, Media, and Communication

Cypress Hall (CY) 116

(818) 677-3181

[www.csun.edu/music](http://www.csun.edu/music)

### Staff

Lea Antone, Phil Calvert, Linda Gray, Jim Karukas, Jill Price, Suzanne Recer, Jan Sanborn, Kyle Stephens

### Full-time Faculty

David Aks, Ric Alviso, Katherine Ramos Baker, Ron Borczon, Carey Christensen, John Daversa, Matt Harris, Julia Heinen, Dan Hosken, Liviu Marinescu, Alexandra Monchick, Deanna Murray, Gary Pratt, Dmitry Rachmanov, Diane Roscetti, John Roscigno, David Sannerud, Elizabeth Sellers, Paul Smith, Lawrence Stoffel, Steven Thachuk, William Toutant

### Part-time Faculty

Ann Baltz, Carolyn Beck, Robert Berg, Greg Bissonett, Sandra Bostrom, John Buonamassa, Phil Calvert, John Dearman, Kay Dell, Helen Dolas, James Dorsa, Robert Eisenhart, Bryan Fasola, Michael Ferril, Edward Francis, Gary Fukushima, Peter Garcia, Glen Garrett, Kimaree Gilad, Scott Glasgow, Benoit Grey, Richard Hofmann, David Hoover, Timothy Howard, David Joyce, Don Kasper, Phil Keen, Diane Ketchie, Sandra Kipp, Milen Kirov, Larry Koonse, Jon Lewis, Kate Lewis, Rob Lockart, Jerry Luedders, John Magnussen, Andrew Malloy, William Malpede, Nick Mancini, Joel Mankey, Bob McChesney, Oscar Meza, Linda Mouradian, Geoff Nudell, Jihye Oh, Dariusz (Oles) Oleszkiewicz, John Pisano, Dave Pozzi, Gee Rabe, Julia Ray, Jacqueline Salas, Mary Schliiff, David Scott, Judy Scott, Kathleen Scott-Meske, Howard Shear, David Shostac, Janet Shulman, Aaron Smith, Linda Stones, Richard Weller, Julie West

### Emeritus Faculty

Frank Campo, Robert Danes, Aurelio de la Vega, Robert Delwarte, Margery Gossard, Beverly Grigsby, Ralph Heidsiek, Elmer Heerema, Jeanine Jacobson, Daniel Kessner, Gerard Knieter, Gerald Lawson, Joel Leach, Frank McGinnis, James Ostrem, Ron Purcell, Francoise Regnat, Mary Louise Reilly, David Scott, Linda Stones, Frances Ulrich, David Whitwell, Clarence Wiggins

### Programs

Undergraduate:

**B.A., Music Education, Music Industry, Music Therapy, and Breadth Studies Options**

**B.M., Music Performance and Composition Options**

Graduate:

**M.M., Composition, Conducting, Performance**

### Accreditation

The CSUN Department of Music is an accredited institutional member of the National Association of Schools of Music (NASM).

### The Major

Research increasingly confirms and reveals the power and potential of music in human development. The study of music, requiring a variety of learning modalities, develops essential skills that carry over into the study of other fields. The performance components allow for deep cultivation of its expressive potential. The student also has opportunity to develop maturity and poise in public settings, leading to growth in self-confidence and flexibility. In group music making, the student becomes part of an artistic community, reaping the satisfaction of working with others toward common goals and the sense of accomplishment resulting from fine performance.

### Careers

Music Department graduates are gainfully employed in diverse positions throughout the world, including teachers in public and private schools and colleges, practicing music therapists; conductors of orchestras and bands; published composers and arrangers; award-winning recording artists; and performers in renowned opera companies, major symphony orchestras, recording studios and professional chamber ensembles; and many involvements with the entertainment industry in Southern California and elsewhere.

### Academic Advisement

All Music Majors are required to meet with the designated faculty in each Option during the last 3 weeks of each semester for mandatory academic advisement. Students who fail to meet with his/her advisor will not be allowed to enroll through System Registration, which could result in missing his/her System Registration Priority Registration time.

Undergraduate Music Advisor Lea Antone is available to assist students with general music advisement. Questions regarding academic status, selecting a major, changing major, Degree Progress Reports (DPR), unofficial transcripts, graduation and transfer evaluation should be directed to her attention.

Questions regarding graduate studies should be directed to the Graduate Advisor at (818) 677-3181.

### Admission to the Major

Students wanting to select Music as a major are expected to have had a variety of pre-college cognitive and affective experiences. These could include high school performance, high school theory programs, individual private instruction with music professionals, and music professional and vocational experiences. Admission to the Major in Music for all undergraduate degrees is determined by audition. Students must complete this audition and be accepted to the Department prior to being accepted in the major. Those auditioning for the Bachelor of Music Degree must exhibit a high performance competence in the audition.

Transfer students seeking admission to Performance Options must audition at the appropriate entrance-level determined by the number of transferable units accepted by the University. (Example: At the time of the audition, students with more than 60 transferable units must demonstrate musical proficiency at the junior level for admission to a Performance Option.) Exceptions to this policy are rare and are at the discretion of the Music Department.

Students admitted on a probationary basis to the Bachelor of Music Degree Program will receive 1 semester of B.M. lessons (2 units). If probationary status continues beyond 1 semester, students will receive B.A. lessons (1 unit).

All persons applying for admission to a Graduate Program in Music must take placement examinations in history and theory, in addition to any entrance requirements for the field of study.

### Requirements for the Bachelor Degrees in Music

After admission to the University and admission to the Music Department (audition for Performance Options and audition plus interview for other Options), students will need to complete required course work in the Music Core curriculum and in an Option. Successful progress toward the Degree is in part determined by appropriate course work taken in a sequential manner and by earning a grade of "C-" or better in all courses in the Music curriculum, including those outside the Music Department. Students will not be admitted to Upper Division study in Music until all Lower Division course work has been successfully completed.

### Lesson and Ensemble Requirements

To qualify for individual lessons in any semester, an undergraduate student must be enrolled in a minimum of 12 units, including lesson units and the correct number of ensemble units required by his or her Option.

Enrollment in the designated ensemble(s) for the student's instrument is a corequisite of enrollment in private lessons each semester of enrollment. Students who do not meet this requirement by the third week of the semester will not be eligible for lessons that semester.

All students enrolled in individual lessons must demonstrate their progress in the major before a faculty jury at the end of each semester of study. Students receiving lower than a grade of "C-" in that semester of lessons will need to take additional study at their own expense to achieve their required level of performance before resuming Department-paid lessons.

### Credential Program

A Music Education Major, to be cleared for the Credential Program, must have met all of the Music Education requirements, including the Music Education Assessment and additional criteria found in the Credential Section of the current University Catalog.

### Student Learning Outcomes for All Bachelor Degrees in Music

1. Demonstrate the ability to hear, identify and work conceptually with the elements of music, through sight-reading, basic keyboard proficiency and musical analysis;
2. Perform standard repertoire appropriate to their performance area, as individuals, members of ensembles and/or conductors;
3. Demonstrate a working knowledge of music history within their area of specialization and an acquaintance with the history, cultural background and repertoires beyond that area, including a wide selection of Western and world music literature;
4. Demonstrate a working knowledge of music technology and its application to their area of specialization;
5. Develop pedagogical and/or clinical skills fundamental to their area of specialization for application across a variety of music and music-related professions;
6. Demonstrate professional competence in the execution of business processes and practices commonly employed within their area of specialization; and
7. Create derivative or original music in both extemporaneous and written form.

### Requirements for the Bachelor of Arts Degree

#### 1. Lower Division Required Courses (26 units)

|     |       |  |
|-----|-------|--|
| MUS | 101   | Your Career in Music: College and Beyond (2) |
| MUS | 110A  | Keyboard Musicianship I (1)                  |
| MUS | 110B  | Keyboard Musicianship II (1)                 |
| MUS | 111/L | Musicianship I and Lab (1/1)                 |
| MUS | 112/L | Musicianship II and Lab (1/1)                |
| MUS | 191/L | Fundamentals of Music Technology and Lab (3) |
| MUS | 201   | Style and Literature of Western Music I (3)  |
| MUS | 202   | Style and Literature of Western Music II (3) |
| MUS | 210A  | Keyboard Musicianship III (1)                |
| MUS | 211/L | Musicianship III and Lab (1/1)               |
|     |       | Individual Lessons (1-1)                     |
|     |       | Ensembles (4)                                |

#### 2. Upper Division Required Courses (3-4 Units)

|     |     |   |
|-----|-----|---|
| MUS | 307 | Music from a Global Perspective (3)   |
| MUS | 495 | Senior Recital/Project (Applies only to B.A. Music Education and Breadth Studies) (1) |

### Option Requirements

#### A. Breadth Studies In Music (35 Units)

This is a flexible Program with minimum performance requirements that allows students to combine studies in music with other fields of interest (entrance audition required).

|     |       |                               |
|-----|-------|-------------------------------|
| MUS | 210B  | Keyboard Musicianship IV (1)  |
| MUS | 212/L | Musicianship IV and Lab (1/1) |
| MUS | 213   | Harmony I (3)                 |
| MUS | 214   | Harmony II (3)                |

Individual Lessons (1-1)

Ensembles (4)

Upper Division music courses to be selected in consultation with the Breadth Studies Advisor and directed toward a specific Capstone, including 2 music literature courses (20 units)

**Literature (choose 2):** 401—Opera Literature; 403—Vocal Literature; 404—Symphonic Literature; 405—Wind; 407—Keyboard Literature; 409—Chamber Literature; 411—Performance Practices; 412—Choral Literature; 306—Introduction to Jazz; 309—Traditional Music of the U.S.

**Individual Lessons:** Maximum of 2 units (in addition to the required 4 units), may be requested of the Department Chair by the student in writing at the time of the 4th semester jury. If approved, this choice leads to a Capstone no. 4 as listed below.

**Ensembles:** Maximum of 4 Upper Division units toward the 20-unit elective total (4 units required for students receiving 2 additional units of lessons).

**Other:** Maximum of 6 units in 1 or more disciplines outside music. MUS 307 and 495 do not count toward the 20 unit upper division requirement.

**Capstone:** (MUS 495 in Core, Credit/No Credit). One of the following (detailed requirements available from Breadth Studies Advisor):

1. Undergraduate Thesis (35-page minimum).
2. Lecture/demonstration—plus written report (15-page minimum).
3. Custom-designed project. Student must describe the specifics of the project and how it relates—plus written report (15-page minimum).
4. Lecture/recital: Requires Department Chair approval, normally not permitted. In rare circumstances the student and his/her faculty member may petition the Department Chair during the fourth semester of lessons for consideration of the lecture/recital Capstone and additional lessons.

**General Education:** The following 9 units of Music courses count for GE: MUS 191/L, 202, 307.

|  |            |
|--|------------|
| <b>Total Units in the Breadth Studies Option</b> | <b>65</b>  |
| <b>General Education Units</b>                   | <b>39</b>  |
| <b>Additional Units</b>                          | <b>16</b>  |
| <b>Total Units Required for the B.A. Degree</b>  | <b>120</b> |

#### B. Music Industry Studies (39 units):

For students preparing for a career in the various business-related aspects of the field (entrance audition required). Required Capstone experience: Internship.

|     |       |  |
|-----|-------|--|
| MUS | 210B  | Keyboard Musicianship IV (1)                           |
| MUS | 213   | Harmony I (3)  |
| MUS | 293/L | Early Field Experience in Music Industry and Lab (1/1) |
| MUS | 302   | Jazz History (2)                                       |
| MUS | 303   | History of Rock and Pop Music (2)                      |
| MUS | 391/L | MIDI-Sequencing Technology and Lab (2/1)               |
| MUS | 397AB | Recording (2)  |

- MUS 419 Music Industry Foundations (3)
- MUS 493 Music Production (3)
- MUS 494ABC Internship (6)

Individual Lessons (2)\*

\*Lessons will apply to instrument used for audition.

Ensembles (4)

**Courses outside music:**

- BLAW 280 Business Law (3)
- MGT 360 Management and Organizational Behavior (3)

**General Education:** The following 9 units of Music courses count for GE: MUS 191/L, 202, 307.

|  |            |
|--|------------|
| <b>Total Units in the Breadth Studies Option</b> | <b>65</b>  |
| <b>General Education Units</b>                   | <b>39</b>  |
| <b>Additional Units</b>                          | <b>13</b>  |
| <b>Total Units Required for the B.A. Degree</b>  | <b>120</b> |

**C. Music Education (45 units)**

For students preparing for teaching careers in public schools (entrance audition required). Capstone experience: Half-hour recital. To earn a California Single-Subject Credential in Music, students must also complete the Credential requirements in the Department of Secondary Education, detailed in the Credential section of the Catalog.

- MUS 212/L Musicianship IV and Lab (1/1)
- MUS 213 Harmony I (3)
- MUS 214 Harmony II (3)
- MUS 233 Keyboard Application for Music Education (1)

Individual Lessons (5)

Lessons, including the 2 units in the core, must be on one instrument.

Ensembles (10)

Subject Matter Program (21 Units)

Subject Matter Core (14 Units)

Choral or Instrumental Emphasis (7 Units)

**Core (14 units)**

- MUS 219A Jazz Improvisation (1)
- MUS 266 Foundations and Field Observation in Music Education (2)
- MUS 334 String Instrument Class (1)
- MUS 335 Woodwind Instrument Class (1)
- MUS 336 Brass Instrument Class (1)
- MUS 337 Percussion Instrument Class (1)
- MUS 363/L Choral Conducting and Arranging and Lab (2/1)
- MUS 364/L Instrumental Conducting and Arranging and Lab (2/1)
- MUS 479 General Music Practicum (1)

**Choral Emphasis (7 units)**

- MUS 339AB Diction 339A and 339B (2)
- MUS 468 Pedagogy of Singing (2)
- MUS 473/L Choral Methods and Practicum and Lab (2/1)

**or Instrumental Emphasis (7 units)**

- MUS 338A Elements of Vocal Technique (1)
- MUS 369 Field Band Techniques (1)
- MUS 474/L Instrumental Methods and Practicum (2/1)

**Select 1 pedagogy course from the following**

- MUS 464 String Pedagogy (String Majors) (2)
- MUS 465 Wind Pedagogy (Wind Majors) (2)
- MUS 467 Percussion Pedagogy (Percussion Majors) (2)

Music Education majors will take PHYS 305—Physics of Music as a requirement for GE Natural Sciences.

**Requirements for the Credential Program:**

1. Completed B.A. requirements and graduated;
2. An overall 3.0 GPA in music courses;
3. No grade lower than a “B-” in any of the Subject Matter courses;
4. Successfully completed the Music Education Assessment (Information is available in the Music Education Advisor’s Office); and
5. Met additional criteria found in the Credential Section of the Catalog.

**General Education: The following 9 units of Music courses count for GE: MUS 191/L, 202, 307.**

|  |            |
|--|------------|
| <b>Total Units in the Music Education Option</b> | <b>75</b>  |
| <b>General Education Units</b>                   | <b>39</b>  |
| <b>Additional Units</b>                          | <b>6</b>   |
| <b>Total Units Required for the B.A. Degree</b>  | <b>120</b> |

**D. Music Therapy (52 units)**

For students preparing for careers in the therapeutic applications of music (entrance audition required). Capstone experience: Internship. Completion of the Program qualifies students to take the national examination needed to become a Board-Certified Music Therapist.

- MUS 210B Keyboard Musicianship IV (1)
- MUS 212/L Musicianship IV and Lab (1/1)
- MUS 213 Harmony I (3)
- MUS 214 Harmony II (3)

Individual Lessons (must all be on one instrument, including the 2 units in the Core requirement) (2)

Ensembles (4)

Electives (to be chosen through advisement) (5)

**Required Therapy Courses (32 units)**

- MUS 292 Orientation (2)
- MUS 360/L Functional Skills for Therapy and Lab (2/1)
- MUS 390MI Music Therapy Improvisation (2)
- MUS 392/L Music in Therapy and Lab (3/1)
- MUS 477 Practicum (1-1-1-1)
- MUS 491 Psychology of Music (3)
- MUS 492/L Influence of Music on Behavior (3/1)
- MUS 494AC Internship (4)
- PSY 310 Behavior Disorders (3)
- SPED 400 Introduction to Special Education. (3)

**General Education:** The following 9e units of Music courses count for GE: MUS 191/L, 202, 307.

|   |            |

## B.M. Degree Requirements

### Strings

#### 1. Orchestral

##### Select 2 of the following:

|     |     |                           |
|-----|-----|---------------------------|
| MUS | 404 | Symphonic Literature (2)  |
| MUS | 409 | Chamber Literature (2)    |
| MUS | 411 | Performance Practices (2) |
| MUS | 464 | String Pedagogy (2)       |
| MUS | 487 | Chamber Music (1,1,1)     |
|     |     | Individual Lessons (12)   |
|     |     | Ensembles (12)            |

#### 2. Classical Guitar

|     |       |   |
|-----|-------|---|
| MUS | 130   | Fretboard Sight Reading (1)                 |
| MUS | 406A  | Fretboard Literature (2)                    |
| MUS | 406B  | Fretboard Literature (2)                    |
| MUS | 433/L | Master Class and Lab (1/1)                  |
| MUS | 462/L | Guitar Pedagogy I and Lab (1/1)             |
|     |       | Individual Lessons (12)                     |
|     |       | Ensembles (4 units met by MUS 287/487) (12) |

### Winds

##### Select 1 of the following:

|     |       |                           |
|-----|-------|---------------------------|
| MUS | 287   | Chamber Music (1,1)       |
| MUS | 404   | Symphonic Literature (2)  |
| MUS | 405   | Wind Literature (2)       |
| MUS | 411   | Performance Practices (2) |
| MUS | 435/L | Master Class: Winds (1/1) |
| MUS | 465   | Wind Pedagogy (2)         |
| MUS | 487   | Chamber Music (1,1)       |
|     |       | Individual Lessons (12)   |
|     |       | Ensembles (12)            |

### Percussion

|     |       |                                   |
|-----|-------|-----------------------------------|
| MUS | 187   | Percussion Ensemble (1,1)         |
| MUS | 387   | Percussion Ensemble (1,1)         |
| MUS | 410   | Percussion History/Literature (2) |
| MUS | 437/L | Master Class: Percussion (1/1)    |
| MUS | 467   | Percussion Pedagogy (2)           |
|     |       | Individual Lessons (12)           |
|     |       | Ensembles (12)                    |

### Keyboard

*Note: MUS 110AB, 210AB (4 units) from the Core are not required (or allowed) for B.M. Keyboard Majors.*

|     |      |                                |
|-----|------|--------------------------------|
| MUS | 132A | Keyboard Sight Reading (1)     |
| MUS | 132B | Functional Keyboard Skills (1) |
| MUS | 232B | Alternative Keyboards (1)      |

## 1. Piano: a) Performance, and b) Pedagogy\*

|     |     |  |
|-----|-----|--|
|     |     | Individual Lessons (12)                                      |
|     |     | Ensembles  |
| MUS | 276 | (1 unit, taken four times) (4)                               |
| MUS | 476 | (1 unit, taken four times) (4)                               |
|     |     | Elective Ensembles (chosen in consultation with advisor) (4) |

### Select 10 additional units from the following, in consultation with advisor:

|     |        |   |
|-----|--------|---|
| MUS | 314    | Tonal Counterpoint (3)  |
| MUS | 407    | Keyboard Literature (2)   |
| MUS | 432/L  | Master Class: Piano and Lab (1/1)   |
| MUS | 461A/L | Beginning Piano Pedagogy and Lab (1/1)  |
| MUS | 461B/L | Intermediate Piano Pedagogy and Lab (1/1)   |
| MUS | 478    | Piano Pedagogy Resources and Practicum (2-2)  |
|     |        | <i>*Students in the Piano Pedagogy Emphasis are strongly encouraged to take PSY 150 (3 units) to meet 3 units of the G.E. requirement in Social Sciences)</i> |

## 2. Organ:

|     |            |  |
|-----|------------|--|
|     |            | Individual Lessons (12)                                      |
|     |            | Ensembles  |
| MUS | 276 or 476 | (1 unit, taken four times) (4)                               |
|     |            | Elective Ensembles (chosen in consultation with advisor) (8) |

### Select 10 additional units from the following, in consultation with advisor:

|     |       |   |
|-----|-------|---|
| MUS | 314   | Tonal Counterpoint (3)                      |
| MUS | 315   | Orchestration I (2)                         |
| MUS | 363/L | Choral Conducting and Arranging and Lab (3) |
| MUS | 407   | Keyboard Literature (2)                     |
| MUS | 411   | History of Performance Practices (2)        |
| MUS | 412   | Choral Literature (2)                       |
| MUS | 438   | Master Class: Church Music (2)              |

### Vocal Arts

|     |        |  |
|-----|--------|--|
| MUS | 339ABD | Diction for Singers (1-1-1)                  |
|     |        | A: IPA/English/Italian; B: German; D: French |
| MUS | 468    | Pedagogy of Singing (2)                      |

##### Select 1 of the following:

|     |     |                         |
|-----|-----|-------------------------|
| MUS | 403 | Vocal Literature (2)    |
| MUS | 412 | Choral Literature (2)   |
|     |     | Individual Lessons (12) |
|     |     | Ensembles (12)          |

##### Select 2 units from the following:

|     |       |   |
|-----|-------|---|
| MUS | 291   | Alexander Technique (1)                       |
| MUS | 363/L | Choral Conducting and Arranging and Lab (2/1) |
| MUS | 378AB | Performance Techniques/Opera Workshop (1-1)   |
| MUS | 488   | Opera Roles (2)                               |
|     |       | Secondary Choral Ensembles (1)                |

### Composition/Commercial and Media Writing

|     |       |   |
|-----|-------|---|
| MUS | 315   | Orchestration I (2)                                 |
| MUS | 321   | Beginning Composition (2)                           |
| MUS | 364/L | Instrumental Conducting and Arranging and Lab (2/1) |

## 1. Composition

|     |            |                               |
|-----|------------|-------------------------------|
| MUS | 314        | Tonal Counterpoint (3)        |
| MUS | 334        | Strings Class (1)             |
| MUS | 335        | Woodwinds (1)                 |
|     | or MUS 336 | Brass Instruments (1)         |
| MUS | 415        | Orchestration II (3)          |
| MUS | 416        | Advanced Musical Analysis (2) |
| MUS | 421        | Advanced Composition (2,2,2)  |
| MUS | 463        | Music Theory Pedagogy (2)     |

- Upper Division literature elective (2)
- Ensembles (4)
- Elective (2)
- Recital of Compositions (MUS 495—in Core)

**2. Commercial and Media Writing:**

The following 4 courses are substitutions to the Core Requirements:

- MUS 210A/J Keyboard Musicianship III and Jazz Lab (1)
- MUS 210B/J Keyboard Musicianship IV and Jazz Lab (1)
- MUS 311J/L Musicianship V: Jazz and Jazz Lab (1/1)
- MUS 312J/L Musicianship VI: Jazz and Jazz Lab (1/1)

**Courses required in Commercial and Media Writing Option:**

- MUS 221 Song Writing (2)
- MUS 317A Jazz Arranging I (2)
- MUS 318 Vocal Arranging for Media (2)
- MUS 322 Beginning Media Composition (2)
- MUS 391/L MIDI Sequencing and Lab (2/1)
- MUS 397AB Recording (1-1)
- MUS 419 Music Industry Foundations (3)
- MUS 420A Advanced Media Composition (3)
- MUS 420B Advanced Media Orchestration (3)
- MUS 494A Internship—Internal (1)
- MUS 494C Internship—External (3)

Students interested in Composition should contact the Coordinator as early as possible in their Music studies. For acceptance into the Composition Emphasis, students must pass a mandatory jury after completion of MUS 321. Composition and Commercial and Media Writing Majors must complete individual study through Level IV on any instrument.

Students will be accepted into the Commercial and Media Writing Emphasis after completion of MUS 221 with a minimum grade of “B.”

**Jazz Studies**

For entrance into the Jazz Option, students must audition for the Jazz faculty. The following courses are substitutions to the Core requirements:

- MUS 210A/J Keyboard Musicianship III: Jazz and Lab (1)
- MUS 210B/J Keyboard Musicianship IV: Jazz and Lab (1)
- MUS 302 Jazz History (2)
- MUS 311J/L Musicianship V: Jazz and Lab (1/1)
- MUS 312J/L Musicianship VI: Jazz and Lab (1/1)

- MUS 319AB Advanced Jazz Improvisation (1-1)
- MUS 317AB Jazz Arranging (2-3)
- Individual Lessons (12)
- Ensembles (12)

**General Education:** The following 9 units of Music courses count for GE: MUS 191/L, 202, 307

|  |              |
|--|--------------|
| <b>Total Units in the B.M. Program (depending on Option)</b> | <b>79-80</b> |
| <b>General Education Units</b>                               | <b>39</b>    |
| <b>Additional Units (depending on Option)</b>                | <b>7-8</b>   |
| <b>Total Units Required for the B.M. Degree</b>              | <b>126</b>   |

**Special Requirements of the Music Major**

1. Music majors are required to declare, with the approval of the Department, a performance specialization (voice, piano or other principal instrument). They are expected to develop this ability and to appear regularly in performance.
2. Repertoire standards have been established for each of the Degree Programs. Students in the B.A. Degree Options requiring an audi-

tion must enter the program at B.A. Level I and must attain the appropriate level for graduation. Students in B.M. Degree Options in Performance must meet B.M. Level I standards as freshmen and attain B.M. Level VIII for graduation.

3. As part of the graduation requirement, all Music Majors must fulfill an Ensemble Requirement. This may differ for each B.A. Degree and B.M. Degree Option. The specific requirements for each Option, and the ensembles that may be used to meet these requirements, are published on the Department website.
4. Students enrolled in music ensembles in the Fall semester normally are expected to re-enroll in the same ensemble for the Spring semester. The nature of these classes makes it essential that consistent personnel be maintained through the year.
5. A concert attendance requirement is attached to successful completion of each Musicianship level (see Core Courses, B.A. Degree and B.M. Degree above).
6. A change from a B.M. Degree Option to a B.A. Degree Option, after more than 2 semesters in the B.M. Program requires written approval from the Department Chair.
7. All Music Majors are required to meet with the designated faculty in each Option during the last 3 weeks of each semester for mandatory academic advisement. Students who fail to meet with his/her advisor will not be allowed to enroll through System Registration, which could result in missing his/her System Registration Priority Registration time.
8. Students receiving lower than a “C-” in a semester of lessons will need to take additional study at their own expense to achieve their required level of performance before resuming Department-paid lessons.

**Graduate Program Requirements**

**Master of Music: 30 units**

The Master of Music Degree is offered in:

- A. Performance (audition required);
- B. Conducting, Instrumental or Choral (audition required); or
- C. Composition (entrance portfolio and interview required)

**Prerequisite:** a Bachelor’s Degree, including preparation equivalent to the Undergraduate Music Major. Also, satisfactory placement in Departmental Graduate Placement Examinations in Theory and Analysis, and in Music History and Literature prior to first enrollment.

Performance Majors must demonstrate their progress in the area of specialization before a faculty jury at the end of each semester of enrollment in individual study.

Composition Majors must have completed Musicianship VI or its equivalent and demonstrate the equivalency of an undergraduate recital in Composition.

**For Master of Music**

All graduate students in Music are accepted to the program as Conditionally Classified. To achieve Classified status in the Graduate Program, the following are required:

1. Completion of University requirements for admission to Classified Graduate status;
2. Completion of any deficiencies that were determined by the Department of Music at the time of admission;
3. Completion of 12 units of graduate study applicable to the degree with a GPA of 3.0 or better;
4. A satisfactory result on the Graduate Record Examination (required only if the student’s undergraduate grade point average is below 3.0);
5. Satisfactory placement in Departmental Graduate Placement Examinations in Theory and Analysis, and in Music History and Literature, or completion of review courses if deemed appropriate by

the Department. The exams must be taken prior to first enrollment so that students can register in any review courses needed. Students failing the exams may repeat them once or complete review course work with a grade of "C" or better. The exams will be administered at designated times during the semester preceding entrance, and during registration week at the beginning of Fall and Spring terms. Graduates of CSUN who have completed History and Theory courses with a grade of "B" or better, and who apply for admission to the Graduate Program within 2 years of graduation, will not be required to take these examinations; and

6. Review of competency and progress in the area of Concentration.

For more information about requirements for admission, Graduate Classification and requirements for graduation, consult the Graduate Studies section of the Catalog.

### Student Learning Outcomes of the Graduate Program

After successful completion of all requirements for the Master of Music Degree, all students will:

1. Demonstrate continuing development of professional and scholarly competence within their area of specialization;
2. Demonstrate a continuing development of individual talent, musical interests and philosophies to be used creatively to preserve and extend the cultural heritage of music;
3. Demonstrate artistic and intellectual rigor in the organization, interpretation, communication and dissemination of musical knowledge.
4. Demonstrate pedagogical skills fundamental to their Area of Specialization applicable across a variety of music and music-related professions; and
5. Demonstrate professional competence in the execution of business processes and practices commonly employed within their Area of Specialization.

### Requirements for the M.M. Degree

#### 1. Required Courses (15 units)

|     |     |  |
|-----|-----|--|
| MUS | 601 | Research and Bibliography in Music (3) |
| MUS | 604 | Seminar in Musical Analysis (3)        |
| MUS | 698 | Artistic Performance/Thesis (3)        |

Choose two from the following:

|     |      |                                   |
|-----|------|-----------------------------------|
| MUS | 603A | Seminar in Renaissance Music (3)  |
| MUS | 603B | Seminar in Baroque Music (3)      |
| MUS | 603C | Seminar in Classic Music (3)      |
| MUS | 603D | Seminar in Romantic Music (3)     |
| MUS | 603E | Seminar in Contemporary Music (3) |

#### Area of Concentration (Minimum of 15 units)

Courses to be selected from the specific requirements in the Music Department Graduate Handbook and in consultation with the Music Department Graduate Advisor and appropriate Area Coordinator.

### Master of Arts in Music Industry Administration

See Tseng College in this Catalog.

### Course List

#### MUS 100. Music Fundamentals (3)

An introduction to the study of music theory. The course will include learning to read treble, alto, tenor and bass clefs; notation of pitches and rhythms on staff systems; reading and writing intervals, triads and scale systems, in addition to melodic and rhythmic structures. Basic solfege and rhythm reading also will be addressed.

#### MUS 101. Your Career in Music: College and Beyond (2)

Intended to assist Music Majors in 1) planning for and achieving success in the major; and 2) making appropriate music-based career choices. Career exploration features guest speakers from various aspects of the profession.

#### MUS 105. Understanding Music (3)

History of Western music traditions, examining musical style and structure, relationships with other art forms and aspects of their roles in Western culture. Lecture, listening, discussion and outside concert attendance. (Available for General Education, Arts and Humanities.)

#### MUS 106HH. Hip Hop Music (3)

A survey of Hip Hop music, with an emphasis on its musical elements and influences. Students will acquire the appropriate vocabulary necessary to analyze Hip Hop music and trace its development as a form of human expression and its relationship with the media. Lecture, listening and discussion. (Available for General Education, Arts and Humanities.)

#### MUS 107. Music Today (3)

Survey of music in our society, including selected material from rock, jazz, pop, folk, traditional, show, film and art styles, as well as the impact of technology on today's musical life. (Available for General Education, Arts and Humanities.)

#### MUS 108. Music in Film (3)

Exploration of the role of music in films as it stimulates the emotional response to the visual aspects of the art form; examination of the historical evolution of film scoring; and examination of the role of the composer in joining sonic art with visual art. Film clips, both historical and contemporary, illustrate the principles developed. (Available for General Education, Arts and Humanities.)

#### MUS 110A, B. Keyboard Musicianship I and II (1-1, 1-1)

*Prerequisite: Music Majors and Musical Theatre Minors only.* I: Introduction of fundamental keyboard skills and piano playing, sight reading, transposition, literature, improvisation and analysis emphasizing five-finger techniques. II: Expansion of content to include scales, keyboard harmony and harmonization, use of pedals, playing by ear, and transposition emphasizing octave playing. 2 hours lab per week.

#### MUS 111/L. Musicianship I and Lab (1/1)

Development of basic skills in music making, including ear training, sightsinging, conducting exercises and fundamental terminology. 1 hour lecture, 2 hours lab.

#### MUS 112/L. Musicianship II and Lab (1/1)

*Preparatory: MUS 111/L. Corequisite: MUS 112L.* Development of basic skills in music making, including ear training, sight singing, conducting exercises, melodic and rhythmic dictation, and fundamental terminology. 1 hour lecture, 2 hours lab.

#### MUS 120/L. Arts Immersion: Music and Lab (1/1)

*Prerequisite: Restricted to students in the ITEP-Freshman Option Program.* Introduction to the study of music based on the Visual and Performing Arts Framework for California Public Schools. Concepts of music are explored through materials and skills appropriate for use in elementary classrooms. Music fundamentals are applied through the development of skills in singing and playing basic classroom instruments. Students will apply and integrate knowledge of music as an art form with the other arts domains (theatre, visual art and dance) as well as the 4 strands of the Visual and Performing Arts Framework. 1 hour lecture, 2 hours lab per week.

#### MUS 130. Guitar Sight Reading (1-1)

*Prerequisite or Corequisite: MUS 111/L.* Drills to train eyes, ears, and hands. Study of staff notation and musical symbols through ensemble performance of simple 1-, 2- and 3-part pieces. Development of a harmonic vocabulary through open position chords and their transposition.

**MUS 131A-B. First-year Piano (1-1)**

*Prerequisite: Not open to Music Majors; For students with no piano experience.* 131B continues the development of keyboard skills and may be taken by students who already read music on the elementary level. For development of piano appreciation and skill. 2 hours lab per week.

**MUS 132A-B. for Keyboard Majors**

*(Substitutes for MUS 110A-B)*

A—Sight-reading (1)

B—Functional Keyboard Skills (1)

A—Development of sight-reading proficiency at the keyboard with a variety of repertoire and styles. Emphasis on developing familiarity with keyboard topography, understanding kinesthetic response and fostering supportive habits. Material to include solo and ensemble repertoire from elementary through advanced levels, geared to the individual student. 2 hours lab per week.

B—Instruction in skills needed by Keyboard Majors, including score reading, improvisation, harmonization and transposition. 2 hours lab per week.

**MUS 133A-B. Beginning Guitar (1-1)**

*Preparatory for 133B, 133A.* Beginning techniques and repertoire in classical guitar. Intended for non-majors. 2 hours lab per week.

**MUS 134. Stringed Instruments (1)**

Class instruction in violin, viola, cello and string bass. A familiarization with the bowed string instruments and beginner's presentation methods. 2 hours lab per week.

**MUS 135. Woodwind Instruments (1)**

Class instruction in woodwind instruments. Correct embouchure, tone production and execution. Knowledge of basic playing techniques and fingerings on all woodwind instruments. 2 hours lab per week.

**MUS 136. Brass Instruments (1)**

Class instruction in brass instruments. Correct embouchure, tone production and execution. Knowledge of basic playing techniques and fingerings on all brass instruments. 2 hours lab per week.

**MUS 137. Percussion Instruments (1)**

Class instruction in snare drum, bass drum, cymbals, timpani, mallet instruments and accessories, with particular emphasis on teaching techniques and equipment selection. 2 hours lab per week.

**MUS 140A-159B. Individual Lessons**

A numbers are for B.A. Degree students; B numbers for B.M. DEgree students. Concurrent enrollment in the appropriate major performance ensemble is required. To be taken with department-approved instructors only. Not open to non-majors.

|     |                    |                    |
|-----|--------------------|--------------------|
| 140 | Flute              | A: (1-1), B: (2-2) |
| 141 | Oboe               | A: (1-1), B: (2-2) |
| 142 | Bassoon            | A: (1-1), B: (2-2) |
| 143 | Clarinet           | A: (1-1), B: (2-2) |
| 144 | Saxophone          | A: (1-1), B: (2-2) |
| 145 | Trumpet            | A: (1-1), B: (2-2) |
| 146 | Horn               | A: (1-1), B: (2-2) |
| 147 | Trombone/Euphonium | A: (1-1), B: (2-2) |
| 148 | Tuba               | A: (1-1), B: (2-2) |
| 149 | Percussion         | A: (1-1), B: (2-2) |
| 150 | Piano              | A: (1-1), B: (2-2) |
| 151 | Organ              | A: (1-1), B: (2-2) |
| 152 | Harpsichord        | A: (1-1), B: (2-2) |
| 153 | Harp               | A: (1-1), B: (2-2) |

|     |             |                    |
|-----|-------------|--------------------|
| 154 | Voice       | A: (1-1), B: (2-2) |
| 155 | Violin      | A: (1-1), B: (2-2) |
| 156 | Viola       | A: (1-1), B: (2-2) |
| 157 | Violoncello | A: (1-1), B: (2-2) |
| 158 | String Bass | A: (1-1), B: (2-2) |
| 159 | Guitar      | A: (1-1), B: (2-2) |

**MUS 168. Steel Drum Ensemble (1-1-1-1)**

Learning the playing techniques and performance practices of the steel drum ensemble through application to performance of repertoire appropriate for this group. For majors and non-majors. 2 hours weekly.

**MUS 170. University Chorus (1-1-1-1)**

Study of musical styles and rehearsal techniques through the performance of choral literature. For majors and non-majors. 3 hours per week.

**MUS 172. Northridge Singers (2-2-2-2)**

*Prerequisite: Audition.* Study of musical styles and rehearsal techniques through the performance of choral literature. Designed for voice majors and students with advanced vocal experience. 4 hours per week.

**MUS 173. Master Chorale (1-1-1-1)**

*Preparatory: Audition.* Study of musical styles and rehearsal techniques through the performance of literature for chamber choir. For students with advanced vocal experience. 3 hours per week.

**MUS 177. Women's Chorale (1-1-1-1)**

*Preparatory: Audition.* Study of musical styles and rehearsal techniques through the performance of choral literature for women's voices. 3 hours per week.

**MUS 178. African Music Ensemble (1-1-1-1)**

Performing ensemble focusing on selected traditional African music cultures. Students learn performance practices and playing techniques and apply them to performance of repertoire appropriate for this group. Open to majors and non-majors. 3 hours per week.

**MUS 179A. Symphonic Wind Ensemble (1-1-1-1)**

*Preparatory: Audition.* Study and performance of musical literature written for winds and percussion, with stylistic and historical emphasis. 3 hours per week.

**MUS 179B. Symphonic Wind Ensemble (2-2-2-2)**

*Preparatory: Audition.* Study and performance of musical literature written for winds and percussion, with stylistic and historical emphasis. 4 hours weekly. Minimum of 2 hours per week rehearsal outside of class is required.

**MUS 181A. Jazz Ensemble (1-1-1-1)**

*Preparatory: Audition.* Rehearsal and performance of literature written for large jazz ensemble. 3 hours per week.

**MUS 181B. Jazz Ensemble (2-2-2-2)**

*Preparatory: Audition.* Rehearsal and performance of literature written for large jazz ensemble. 4 hours per week. Minimum of 2 hours per week rehearsal outside of class is required.

**MUS 182. Symphonic Orchestra (2-2-2-2)**

*Preparatory: Audition.* Study of musical styles and rehearsal techniques as they relate to the performance of representative orchestral literature. 4 hours per week.

**MUS 187. Percussion Ensemble (1-1-1-1)**

Rehearsal and performance of standard percussion ensemble literature, including quartets, quintets, sextets and large ensembles.

**MUS 189. Jazz Combo (1-1-1-1)**

*Preparatory: Audition.* Small jazz groups of 3 to 7 players performing repertoire commonly associated with the jazz idiom. Emphasis on improvisational skills.

**MUS 191/L. Fundamentals of Music Technology and Lab (2/1)**

*Preparatory:* MUS 111/L or equivalent. *Corequisite:* MUS 191L. Introduction to uses, concepts, techniques and terminology of computing through music applications. Experience with current hardware and software for music notation, sequencing, synthesis and music performance and practice. Consideration of ethical, aesthetic, economic and social problems in technology applications. (Available for Music majors as General Education, Lifelong Learning.)

**MUS 201. Style/Literature of Western Music I (3)**

*Preparatory:* MUS 112/L. Survey of Western art music from pre-Renaissance to 1800, emphasizing styles and trends within each historical era.

**MUS 202. Style/Literature of Western Music II (3)**

*Preparatory:* MUS 112/L. Survey of Western art music from 1800 to the present, plus 20th-century U.S. vernacular developments. (Available for Music majors as General Education, Arts and Humanities.)

**MUS 210A-B. Keyboard Musicianship III and IV (1-1)**

*Preparatory to A:* MUS 110B. *Preparatory to B:* MUS 210A. 3rd and 4th semester group piano instruction. Continued development of skills introduced in MUS 110B. Special emphasis on performance and interpretation of piano compositions in various styles. Basic skill development in choral and instrumental score reading, sight-reading accompaniments and developing improvisations in 2- and 3-part forms. 2 hours lab per week. *Music Education Majors take MUS 233 instead of 210B.*

**MUS 210AB/J. Keyboard Musicianship III and IV—Jazz and Lab (1,1)**

*Preparatory for MUS 210A/J:* 110B. *Preparatory for MUS 210B/J:* 210 A/J. Continuation of keyboard musicianship development using melodic, rhythmic and harmonic materials characteristic of the jazz idiom. For Jazz Studies Majors—others by permission only.

**MUS 211/L. Musicianship III and Lab (1/1)**

*Corequisite:* MUS 213. *Preparatory:* MUS 112/L. Development of basic skills in music making, including ear training; sight singing; melodic, rhythmic and harmonic dictation; conducting exercises; and fundamental terminology. 1 hour lecture, 2 hours lab.

**MUS 212/L. Musicianship IV and LAB (1/1)**

*Corequisite:* MUS 214. *Preparatory:* MUS 211/L. Development of basic skills in music making, including ear training; sight singing; melodic, rhythmic and harmonic dictation; conducting exercises; and fundamental terminology. 1 hour lecture, 2 hours lab.

**MUS 213. Harmony I (3)**

*Corequisite:* MUS 211/L. *Preparatory:* MUS 112/L. Diatonic harmony, non-chord tones, and voice leading. Melodic invention, harmonization, simple accompaniments and elements of form.

**MUS 214. Harmony II (3)**

*Corequisite:* MUS 212/L. *Preparatory:* MUS 213. Chromatic harmony, modulation, keyboard and instrumental styles.

**MUS 214J. Harmony II: Jazz. (3)**

Harmonic concepts as applied in the jazz/pop/rock idioms, including chord alterations, chord extensions, polychords, quartal chords, chord substitutions and modulations. For students in Jazz Studies Option.

**MUS 219A-B. Jazz Improvisation I and II (1-1)**

*I. Corequisites:* MUS 211/L, 213. *Preparatory:* MUS 112/L. Fundamentals of improvisation for vocalists and instrumentalists. Includes introduction to nomenclature, basic chord progressions and application of scale and chord devices. 2 hours lab per week.

*II. Corequisite:* MUS 214J. *Preparatory:* MUS 219A. Theory and performance of blues forms and jazz modes. Beginning exploration of various solo styles. 2 hours lab per week.

**MUS 221. Song Writing (3)**

*Preparatory:* MUS 211/L, 213. Analysis of representative hit song literature for principles of structure and content. Development of application skills through assignments.

**MUS 227. Japanese Taiko Drumming Ensemble (1-1-1-1)**

A performing ensemble that focuses on Japanese and Japanese-American drumming. Students will learn performance practices and playing techniques, and apply them to performance of repertoire appropriate for this group. Open to majors and non-majors. 3 hours per week.

**MUS 231A-B. Second Year Piano (1-1)**

*Prerequisite:* Not open to Music Majors for credit. *Preparatory:* 131B or 2 years of piano. Continuation of skills learned in 131B—study and performance of piano music from the Baroque through contemporary periods, stressing ensemble playing and improvisation. For Keyboard Majors. 2 hours lab per week.

**MUS 232B. for Keyboard Majors Alternative Keyboards (1)**

*Preparatory:* MUS 191/L. Development of skills applicable to the digital piano, synthesizer, organ and harpsichord. 2 hours lab per week.

**MUS 233. Keyboard Applications for Music Education (1)**

Development of keyboard skills applicable to classroom and rehearsal venues in public schools, including song harmonization, working from lead sheets and from instrumental and choral scores, and constructing accompaniments with MIDI technology. Simulation of on-site application procedures.

**MUS 237A,B. Drumset Class, Latin Percussion (1)**

*Preparatory for A:* Sophomore level in percussion study. Development of performance skills on drumset, including study of jazz, rock and selected Latin styles. Sight-reading instruction and the development of solo techniques. For Percussion Majors.

*Preparatory for B:* Sophomore level in percussion study. Instruction on basic Latin rhythm instruments, including bongos, congas, shakers and other accessory instruments. Special emphasis on rhythmic patterns characteristic of the various styles. For Percussion Majors.

**MUS 238A-B. Elements of Vocal Technique (1-1)**

Group work in the fundamental techniques of singing. Problems of tone production, breath control, diction, repertoire and interpretation. Open to all students. 2 hours lab per week. *Music Education Majors must take MUS 338A.*

**MUS 240A-259B. Individual Lessons**

*Preparatory:* Successful completion of 100-level lessons and/or repertoire standards established by the Music Department. With Department-approved instructors only. A numbers are for B.A. Degree students, B numbers for B.M. Degree students. Concurrent enrollment in the appropriate major performance ensemble is required.

| 259 | Guitar      | A: (1-1), B: (2-2) |

**MUS 266. Foundations and Field Observation in Music Education (2)**

Examination of the philosophical, historical and traditional foundations of school music programs in the U.S. Also, guided observation in school music classes at elementary-, junior high/middle school- and high-school levels 2 hours weekly. For students entering or considering music teaching as a career.

**MUS 276. Keyboard Accompanying Practicum (1-1-1-1)**

Experience in accompanying individuals or groups in studio and rehearsal settings, plus in subsequent performance. Time commitment comparable to ensemble participation.

**MUS 287. Chamber Music Techniques (1-1-1-1)**

Detailed study of chamber music repertoire; performance and rehearsal techniques.

**MUS 291. Alexander Technique (1)**

Identification and analysis of habitual movement patterns that cause excessive muscle tension and strain during music practice and performance. Understanding and application of basic principles of neuromuscular re-education developed by F.M. Alexander. Intended for Performance Majors.

**MUS 292. Music Therapy Orientation (2)**

Introduction to the field of music therapy and overview of its applications in various clinical settings.

**MUS 293/L. Field Experience in Music Industry and Lab (1/1)**

*Corequisite: MUS 293L. Preparatory: MUS 112/L.* Overview of the music industry through on-site observation in a variety of settings. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of Classes for the CS Designation. 1 hour lecture, 2 hours lab.

**MUS 296A-Z. Experimental Topics in Music (1-3)**

Selected topics in music, with content to be determined.

**MUS 302. Jazz History (2)**

*Preparatory: MUS 112/L.* Study of the history and stylistic development of the jazz idiom in American music. For Jazz Studies and Music Industry Studies Majors.

**MUS 303. History of Rock and Pop Music (2)**

*Preparatory: MUS 112/L.* Study of the history and stylistic development of popular and rock musical styles. For Music Industry Studies Majors.

**MUS 304. Music and Child (1)**

*Prerequisite: Limited to students in the ITEP-Freshman Option Program. Preparatory: MUS 120.* Course provides students opportunity to revisit music and apply their knowledge of this area to working with children. Experiences will include planning, teaching and assessing music lessons in field-based settings. Students will engage in critical analysis and reflection to discover ways to guide children in 3 unique role—as creators, performers and observers of music as an art form.

**MUS 306. Introduction to Jazz (3)**

*Preparatory: Completion of Lower Division writing requirement.* Survey of the development of Jazz, with emphasis on the influence of historical and socioeconomic factors. Includes stylistic analysis of Jazz and its musical elements in order to develop musical awareness. (Available for General Education, Arts and Humanities.)

**MUS 307. Music from A Global Perspective (3)**

*Preparatory: Upper Division standing.* Survey of music as a global phenomenon. Study of the rich musical contributions indigenous to or having origin in diverse traditions, such as those found in African, Middle Eastern, Pacific Rim and Latin American cultures. Development of a multicultural perspective that examines: 1) its structure and performance practices; and 2) its function and implications within its culture. Application of this perspective to musical traditions from selected cultures. (Available for Music Majors as General Education, Comparative Cultural Studies.)

**MUS 309. Traditional Music of the U.S. (3)**

*Preparatory: Completion of the Lower Division writing requirement.* In-depth study of musical traditions identified with representative ethnic groups in the U.S. Course examines musical structure and performance practices, as well as functions and implications of the music within the cultures involved. Regular written assignments required. (Available for General Education, Comparative Cultural Studies.) (IC)

**MUS 310. Understanding World Cultures Through Music (3)**

*Preparatory: Completion of the Lower Division writing requirement.* In-depth study of several representative non-Western music cultures. Course examines musical structure and performance practices, as well as functions and implications of the music within the cultures involved. Regular written assignments required. (Available for General Education, Comparative Cultural Studies.) (IC)

**MUS 311/L. Musicianship V and Lab (1/1)**

*Preparatory: MUS 212/L.* Development of basic skills in music making, including ear training; sight singing; melodic, rhythmic and harmonic dictation; conducting exercises; and fundamental terminology. 1 hour lecture, 2 hours lab.

**MUS 311J/L. Musicianship V: Jazz and Lab (1/1)**

*Preparatory: MUS 212/L.* Development of basic skills in jazz music making, including ear training, sight singing; melodic, rhythmic and harmonic dictation; conducting exercises; and fundamental terminology. 1 hour lecture, 2 hours lab.

**MUS 312/L. Musicianship VI and Lab (1/1)**

*Corequisite: MUS 312L. Preparatory: MUS 311/L.* Development of basic skills in music making, including ear training; sight singing; melodic, rhythmic and harmonic dictation; conducting exercises; and fundamental terminology. 1 hour lecture, 2 hours lab.

**MUS 312J/L. Musicianship VI: Jazz and Lab (1/1)**

*Preparatory: MUS 311J/L.* Development of basic skills in jazz music making, including ear training; sight singing, melodic, rhythmic and harmonic dictation; conducting exercises; and fundamental terminology. 1 hour lecture, 2 hours lab.

**MUS 314. Tonal Counterpoint (3)**

*Preparatory: MUS 214.* Composition and analysis of contrapuntal forms in the 18th century style of J.S. Bach, including 2- and 3-voice melodic combinations.

**MUS 315. Orchestration I (2)**

*Preparatory: MUS 214.* Theory, practice, terminology and notation of writing and arranging for instruments, from chamber ensembles to small orchestra.

**MUS 316. Musical Analysis (3)**

*Preparatory:* MUS 214. Analytic techniques for the study of balance in the organization of musical material.

**MUS 317A. Jazz Arranging I (2)**

*Preparatory:* MUS 214J. Melody construction, harmonizing a given melodic line, writing for rhythm section, instrumentation, 2- and 3-part writing techniques and basic formal structures.

**MUS 317B. Jazz Arranging II (3)**

*Preparatory:* MUS 317A. 4-and 5-part writing, advanced forms and structures, advanced orchestration techniques and study of 5 "classic" arrangements.

**MUS 318. Vocal Arranging for Media (2)**

*Preparatory* MUS 221. Principles of arranging soloists, small vocal ensembles and large choral groups for use in musical theatre, TV advertising and cinematic underscore.

**MUS 319A/L. Jazz Improvisation III and Lab (1)**

*Preparatory:* MUS 219B. Theory and performance of jazz styles from 1920 to 1960. Special emphasis on musicianship, styles, concepts and literature. 2 hours lab.

**MUS 319B/L. Jazz Improvisation IV and Lab (1)**

*Preparatory:* MUS 319A. Theory and performance of jazz styles from 1960 to the present. Focus on performance practices of various styles. 2 hours lab.

**MUS 321. Beginning Composition (2)**

*Corequisite:* MUS 311/L. *Preparatory:* MUS 214. Beginning exercises in basic techniques of composition, with an emphasis on imitating the styles of the great composers of art music in the 20th century.

**MUS 322. Beginning Composition for Media (2)**

*Preparatory* MUS 321. Principles of writing for films and television. Studies in the styles of major film and TV composers.

**MUS 327. Japanese Taiko Drumming Ensemble (1-1-1-1)**

A performing ensemble that focuses on Japanese and Japanese-American drumming. Students will learn performance practices and playing techniques, and apply them to performance of repertoire appropriate for this group. Open to majors and non-majors. 3 hours per week.

**MUS 332. Piano Repertoire (1)**

Performance and study of piano literature from early Baroque through the Classical period. 2 hours lab per week.

**MUS 334. Stringed Instruments (1)**

Class instruction in violin, viola, cello and string bass. Familiarization with the bowed string instruments and beginner's presentation methods. Required for Music Education Option; others admitted if space permits. 2 hours lab per week.

**MUS 335. Woodwind Instruments (1)**

Class instruction in woodwind instruments. Correct embouchure, tone production and execution. Knowledge of basic playing techniques and fingerings on all woodwind instruments. Required for Music Education Option; others admitted if space permits. 2 hours lab per week.

**MUS 336. Brass Instruments (1)**

Class instruction in brass instruments. Correct embouchure, tone production and execution. Knowledge of basic playing techniques and fingerings on all brass instruments. Required for Music Education Option; others admitted if space permits. 2 hours lab per week.

**MUS 337. Percussion Instruments (1)**

Class instruction in snare drum, bass drum, cymbals, timpani, mallet instruments and accessories, with particular emphasis on teaching techniques and equipment selection. Required for Music Education Option; others admitted if space permits. 2 hours lab per week.

**MUS 338A. Elements of Vocal Technique (1-1)**

Group work in the fundamental techniques of singing. Problems of tone production, breath control, diction, repertoire and interpretation. Open to all students. 2 hours lab per week.

**MUS 339ABD. Diction for Singers (1,1,1)**

*Preparatory:* MUS 339A is prerequisite to 339B/D. Systematic study of diction as it pertains to the sung traditions of English, Italian, German and French. Emphasis is placed on the development of a process for mastering the textual line, which includes the use of the International Phonetic Alphabet. Practical application through the performance of the selected solo vocal repertoire. The following sections are offered in various semesters: A) Introduction to IPA/English/Italian; B) German; D) French. 2 hours lab per week.

**MUS 340-359AB. Individual Lessons**

*Preparatory:* Successful completion of 200-level individual lessons and/or repertoire standards established by the Music Department. A numbers are for B.A. Degree students, B numbers for B.M. Degree students. To be taken with Department-approved instructors only. Concurrent enrollment in the appropriate major performance ensemble required.

|     |                    |                    |
|-----|--------------------|--------------------|
| 340 | Flute              | A: (1-1), B: (2-2) |
| 341 | Oboe               | A: (1-1), B: (2-2) |
| 342 | Bassoon            | A: (1-1), B: (2-2) |
| 343 | Clarinet           | A: (1-1), B: (2-2) |
| 344 | Saxophone          | A: (1-1), B: (2-2) |
| 345 | Trumpet            | A: (1-1), B: (2-2) |
| 346 | Horn               | A: (1-1), B: (2-2) |
| 347 | Trombone/Euphonium | A: (1-1), B: (2-2) |
| 348 | Tuba               | A: (1-1), B: (2-2) |
| 349 | Percussion         | A: (1-1), B: (2-2) |
| 350 | Piano              | A: (1-1), B: (2-2) |
| 351 | Organ              | A: (1-1), B: (2-2) |
| 352 | Harpsichord        | A: (1-1), B: (2-2) |
| 353 | Harp               | A: (1-1), B: (2-2) |
| 354 | Voice              | A: (1-1), B: (2-2) |
| 355 | Violin             | A: (1-1), B: (2-2) |
| 356 | Viola              | A: (1-1), B: (2-2) |
| 357 | Violoncello        | A: (1-1), B: (2-2) |
| 358 | String Bass        | A: (1-1), B: (2-2) |
| 359 | Guitar             | A: (1-1), B: (2-2) |

**MUS 360/L. Functional Music Skills for Therapy and Lab (2/1)**

Utilization of music in program development at community cultural centers, recreation centers and senior citizen centers. Includes song materials and song-leading activities with such instruments as guitar, autoharp, hand bells and Orff instruments. Emphasis on lifelong learning through musical participation and creativity. 2 hours lecture, 2 hours lab per week.

**MUS 361/L. Music Literature for Children and Lab (2/1)**

*Corequisite:* MUS 361L. Development of fundamentals and principles for selecting, evaluating and performing music literature for children grades K-6, and the place of music in the child's education. For Liberal Studies and Child and Adolescent Development Majors. 2 hours lecture, 2 hours lab.

**MUS 362/L. Music for Early Childhood and Lab (3)**

Survey and performance of music literature suitable for children ages 3 through 8. Development of principles for organizing curriculum materials. For Liberal Studies and Child and Adolescent Development Majors. 2 hours lecture, 2 hours lab.

**MUS 363/L. Choral Conducting and Arranging and Lab (3)**

*Preparatory:* MUS 212/L. Development of conducting techniques for choral ensembles, with supervised practical application. Score study of choral literature appropriate for various levels. Principles of arranging for middle- and high-school level groups, with practical assignments.

**MUS 364/L. Instrumental Conducting and Arranging and Lab (3)**

*Corequisite:* MUS 364L. *Preparatory:* MUS 212/L. Development of basic to advanced conducting skills with instrumental focus. For preparation of the conductor and the public-school music teacher. Topics include baton, rehearsal, score study techniques, error detection and resultant strategies. Also, principles of arranging for middle- and high-school level ensembles, with practical application.

**MUS 368. Steel Drum Ensemble (1-1-1-1)**

Learning the playing techniques and performance practices of the steel drum ensemble and applying them to performance of repertoire appropriate for this group. Open to majors and non-majors. 3 hours per week.

**MUS 369. Field Band Techniques (1)**

Organization, implementation and administration of marching band programs. Training of the band, percussion section and color guard. 2 hours per week.

**MUS 370. University Chorus (1-1-1-1)**

Study of musical styles and rehearsal techniques through the performance of choral literature. For majors and non-majors. 3 hours per week.

**MUS 371. Jazz Vocal Ensemble (1-1-1-1)**

*Preparatory: Audition.* Rehearsal and performance of representative vocal materials preparing the student for performance in the recording and film industries. Special attention to singing techniques unique to this idiom. 3 hours per week.

**MUS 372. Northridge Singers (2-2-2-2)**

*Preparatory: Audition.* For voice majors and students with advanced vocal experience. Study of musical styles and rehearsal techniques through the performance of choral literature. 4 hours per week.

**MUS 373. Master Chorale (1-1-1-1)**

*Preparatory: Audition.* Study of musical styles and rehearsal techniques through performance of literature for chamber choir. 3 per hours week.

**MUS 377. Women's Chorale (1-1-1-1)**

*Preparatory: Audition.* Study of musical styles and rehearsal techniques through the performance of choral literature for women's voices. 3 hours per week.

**MUS 378. African Music Ensemble (1-1-1-1)**

Performing ensemble that focuses on selected traditional African music cultures. Students learn performance practices and playing techniques and apply them to performance of repertoire appropriate for this group. Open to majors and non-majors. 3 hours per week.

**MUS 378AB. Performance Techniques/Opera Workshop (1-1)**

A. Development of techniques for enhancing stage performance by vocalists. Integration of acting and movement skills that increase the flexibility of the physical components of vocal performance. For vocal majors only.

B. *Preparatory:* MUS 378A. Problems of opera production and presentation of typical operatic ensembles and scenes. May be repeated for credit. www

**MUS 379A. Symphonic Wind Ensemble (1-1-1-1)**

*Preparatory: Audition.* Study and performance of musical literature written for winds and percussion, with stylistic and historical emphasis. 3 hours per week.

**MUS 379B. Symphonic Wind Ensemble (2-2-2-2)**

*Preparatory: Audition.* Study and performance of musical literature written for winds and percussion, with stylistic and historical emphasis. 4 hours weekly. Minimum of 2 hours per week rehearsal outside of class is required.

**MUS 381A. Jazz Ensemble (1-1-1-1)**

*Preparatory: Audition.* Rehearsal and performance of literature written for large jazz ensemble. 3 hours per week.

**MUS 381B. Jazz Ensemble (2-2-2-2)**

*Preparatory: Audition.* Rehearsal and performance of literature written for large jazz ensemble. 4 hours per week. Minimum of 2 hours per week rehearsal outside of class is required.

**MUS 382. Symphonic Orchestra (2-2-2-2)**

*Preparatory: Audition.* Study of musical styles and rehearsal techniques through the performance of orchestral literature. 4 hours per week.

**MUS 385. Brass Ensemble (1-1-1-1)**

For advanced students. Rehearsal and performance of standard brass ensemble literature, including brass choir, sextets, quintets and quartets. 2 hours per week.

**MUS 387. Percussion Ensemble (1-1-1-1)**

Rehearsal and performance of standard percussion ensemble literature, including quartets, quintets, sextets and large ensembles.

**MUS 388. Studio Ensemble (1-1-1-1)**

*Preparatory: Audition.* Lab orchestra for media writing majors and performing ensemble, playing/recording original and arranged commercial music. Student and faculty conductors. Guest conductors from the industry.

**MUS 389. Jazz Combo (1-1-1-1)**

*Preparatory: Audition.* Small jazz groups of 3 to 7 players performing repertoire commonly associated with the jazz idiom. Emphasis on improvisational skills.

**MUS 390MI. Music Therapy Improvisation (2)**

An in-depth look at various models of improvisation that are practiced in the music therapy profession. Theoretical concepts will be explored via class demonstrations and exercises.

**MUS 391/L. Midi Sequencing Techniques and Lab (3)**

*Corequisite:* MUS 391L. *Preparatory:* MUS 191/L. An in-depth, hands-on study of MIDI sequencing and its application in the studio and in live performance. 2 hours lecture, 2 hours lab.

**MUS 392/L. Music in Therapy and Lab (4)**

*Corequisite:* MUS 392L. *Preparatory:* MUS 292. Basic approaches and techniques of music therapy applied in mental health programs. Study of clinical uses of music in psychiatric settings, mental retardation centers and hospitals for the physically disabled.

**MUS 393. Music Industry Studies (3)**

*Preparatory: Upper Division status in Music.* Study of the music industry and all of its facets relating to performing, arranging, composing, producing, managing, publishing, copyrights, performing-rights societies and unions.

**MUS 396A-Z. Experimental Topics in Music (1-3)**

Selected topics in music, with course content to be determined.

**MUS 397ABCD. Music Recording Lab (1-1-1-1)**

*Prerequisite: Open only to Music Majors in Options. Preparatory: MUS 191/L or equivalent.* Theory and practice of sound recording using professional studio equipment. Application of theory to actual practical experience through participation in college-sponsored sound recording events.

**MUS 401. Opera Literature (2)**

*Preparatory: MUS 201, 202.* History of opera from the 17th to the 20th centuries. Discussion of significant historical, political and economic factors, and music analysis using scores and recordings.

**MUS 403. Vocal Literature (2)**

*Preparatory: MUS 201, 202.* Survey and stylistic analysis of solo vocal literature from the pre-Classical period to the present. Emphasis on listening and recognition of the literature.

**MUS 404. Symphonic Literature (2)**

*Preparatory:* MUS 201, 202. Masterpieces of literature for the symphony orchestra. Classic, romantic and contemporary developments; study of scores and recordings.

**MUS 405. Wind Literature (2)**

*Preparatory:* MUS 201, 202. Survey of literature for wind instruments in settings for solo, chamber ensembles and large groups. Emphasis on development and application of criteria for selecting and grading “band” literature for practical use.

**MUS 406A-B. Fretboard Literature (2-2)**

*Preparatory:* MUS 201; 202. Survey of pre-guitar and guitar literature including a study of style characteristics within the major historical periods. A) Pre-guitar through Baroque; B) Classical to the present.

**MUS 407. Keyboard Literature (2)**

*Preparatory:* MUS 201, 202. Study of the literature for solo keyboard instruments (harpsichord and piano) from the Baroque to the present, with emphasis on evolving styles and forms.

**MUS 408. Organ Literature (2)**

*Preparatory:* MUS 201, 202. Development of the organ from its beginnings to the present. Survey of the various schools and periods of organ composition through study of selected composers and examples of literature.

**MUS 409. Chamber Music Literature (2)**

*Preparatory:* MUS 201, 202. Development of forms and survey of the literature for string trios, quartets, quintets and other small combinations.

**MUS 410. Percussion Literature (2)**

*Preparatory:* MUS 201, 202. Study of the use of percussion in the classic orchestra, romantic orchestra and in contemporary settings. Solo literature for percussion instruments.

**MUS 411. History of Performance Practices (2)**

*Preparatory:* MUS 201, 202. Study of conditions, methods, techniques, and styles of performance.

**MUS 412. Choral Literature (2)**

*Preparatory:* MUS 201, 202. Survey of choral repertoire from Gregorian chant to the present. Acquaintance with the various schools and historical periods of choral composition through study of representative works. Sources for obtaining performance editions.

**MUS 415. Orchestration II (3)**

*Preparatory:* MUS 315. Intensive study of the art of orchestration, emphasizing the creative and inventive side. Study of specific problems of scoring for chamber ensembles and symphony orchestra.

**MUS 416. Advanced Musical Analysis (2)**

*Preparatory:* MUS 316. Analysis of organization, balance and style in larger works of the 18th, 19th and 20th centuries.

**MUS 418. Electronic and Computer Music Composition (2)**

*Prerequisites:* MUS 191/L and 214, or consent of instructor. *Recommended Preparatory:* MUS 321. The history, theory and practice of electronic and computer music composition and performance. The principles and procedures of composition in various electronic media are explored through compositional exercises, reading, listening and discussion. Special attention is paid to live and interdisciplinary works and performances. Available for graduate credit.

**MUS 419. Music Industry Foundations (3)**

*Prerequisite:* Upper Division status. A detailed study of the structure and practices of the music industry, focusing on music copyright, publishing, licensing and performing rights organizations. Also includes study of music’s interaction with other entertainment industries. Available for graduate credit.

**MUS 420A. Composition For Film and TV (3)**

*Preparatory:* MUS 322. Study of the aesthetic considerations and practical techniques involved when composing music for films and TV. Lectures, analysis, field trips to TV and film studios, and practical application.

**MUS 420B. Advanced Media Orchestration (3)**

*Preparatory:* MUS 420A. Advanced work in analysis and composition for film and TV. Studies in current styles and techniques.

**MUS 421. Advanced Composition (2-2-2)**

*Preparatory:* MUS 321. Advanced studies in art music composition in a seminar/masterclass format. Available for repeat credit.

**MUS 432/L. Master Class: Piano and Lab (1/1)**

*Corequisite:* MUS 432L. *Preparatory:* Upper Division standing. Performance, discussion and study of literature from the Baroque period to the present, with emphasis on the evolving elements of style and problems of interpretation. 1 hour lecture, 2 hours lab.

**MUS 433/L. Master Class: Guitar and Lab (1/1)**

*Corequisite:* MUS 433L. *Preparatory:* Upper Division standing. Performance of pre-guitar and guitar literature, including a study of style characteristics within the major historical periods. 1 hour lecture, 2 hours lab.

**MUS 434/L. Master Class: Strings and Lab (1/1)**

*Preparatory:* Upper Division standing. Stylistic analysis and interpretation of representative repertoire using student performances and recorded sources. Study of history, techniques, repair and maintenance of the instruments. 1 hour lecture, 2 hours lab.

**MUS 435/L. Master Class: Winds and Lab (1/1)**

*Preparatory:* Upper Division standing. Performance, discussion and study of solo and small ensemble literature for wind instruments, with emphasis on contemporary solutions to stylistic idioms and analyzing problems of interpretation. 1 hour lecture, 2 hours lab.

**MUS 437/L. Master Class: Percussion and Lab (1/1)**

*Preparatory:* Upper Division standing. Performance, discussion and study of percussion literature, past and present, with emphasis on evolving elements of style and on analyzing problems of interpretation. 1 hour lecture, 2 hours lab.

**MUS 439A,B. Individual Conducting Lessons (1, 2)**

*Preparatory:* MUS 364 or 365. On-campus private lessons with approved instructors. Special fee.

**MUS 440-459A,B. Individual Lessons**

*Preparatory:* Completion of 300-level individual study and/or repertoire standards established by the Music Department. A numbers are for B.A. Degree students; B numbers are for B.M. Degree students. Concurrent enrollment in the appropriate major performance ensemble is required. Study must be with Department-approved instructors.

| 459 | Guitar      | A: (1-1), B: (2-2) |

**MUS 461A/L. Elementary Piano Pedagogy and Lab (1/1)**

*Corequisite:* MUS 461AL. *Preparatory:* Completion of sophomore piano requirements for Music Major. Foundations and principles of piano pedagogy. Emphasis on the development of methodology and standards in piano teaching and the development of practical teaching strategies. Supervised practice piano teaching is provided. 1 hour lecture, 2 hours lab.

**MUS 461B/L. Advanced Piano Pedagogy and Lab (1/1)**

*Corequisite:* MUS 461BL. *Preparatory:* MUS 461A/L. Presentation and analysis of intermediate and advanced procedures for piano instruction. Supervised practice piano teaching is provided. 1 hour lecture, 2 hours lab.

**MUS 462/L. Guitar Pedagogy and Lab (1/1)**

*Preparatory:* 300-level in individual study. Presentation and analysis of beginning and intermediate procedures for guitar instruction and suggested sequences of learning. Performances of the materials are encouraged, and guided practice in guitar teaching is provided. 1 hour lecture, 2 hours lab.

**MUS 463/L. Music Theory Pedagogy and Lab (1/1)**

*Corequisite:* MUS 463L. *Preparatory:* MUS 214. Techniques of teaching music theory effectively, including development of skills in lecturing, organizing courses, choosing teaching materials, giving effective assignments, and assessing student progress. One hour lecture, two hours lab.

**MUS 464. String Pedagogy (2)**

*Preparatory:* 300-level on principal instrument. Study of issues and techniques relevant to teaching bowed string instruments. Practical application with students included.

**MUS 465. Wind Pedagogy (2)**

*Preparatory:* 300-level on principal instrument. Study of the principles, techniques, materials and procedures effective for individual and group wind instrument instruction. Emphasis on the development of philosophy, methodology and applied teaching strategies.

**MUS 467. Percussion Pedagogy (2)**

*Preparatory:* 300-level in individual study. Comprehensive study of current literature and techniques in the field of percussion instruction, including snare drum, cymbals, timpani, mallet instruments, drumset and accessory instruments.

**MUS 468. Pedagogy of Singing (2)**

*Preparatory:* 300-level in individual study. Study of vocal physiological function and procedures for vocal production in individual and group singing. Survey of suitable materials for beginning instruction. Course includes reading assignments, supervised teaching experiences and on-site studio and choral rehearsal observations.

**MUS 473/L. Choral Methods and Practicum and Lab (2/1)**

*Preparatory:* MUS 363/L. Intensive preparation course for teaching choral music in schools (elementary, middle, high school). Includes examination of appropriate literature, and study of pedagogical, organizational and management procedures for the rehearsal classroom. Practicum component: Supervised teaching experience with peers and with on-site groups. 2 hours weekly.

**MUS 474/L. Instrumental Methods and Practicum and Lab (2/1)**

*Preparatory:* MUS 364/L. Intensive preparation course for teaching instrumental music in schools (elementary, middle, high school). Includes examination of appropriate literature, and study of pedagogical, organizational and management procedures for the rehearsal classroom. Practicum component: Supervised teaching experience.

**MUS 476. Keyboard Accompaniment Practicum (1-1-1-1)**

*Preparatory:* 300-level individual study. Experience in accompanying individuals or groups in studio and rehearsal settings, plus in subsequent performance. Time commitment comparable to ensemble participation. Not available for graduate credit.

**MUS 477. Music Therapy Practicum (1-1-1-1)**

*Preparatory:* MUS 292. Supervised clinical experience in Music Therapy in a variety of settings and client populations. (Credit/No Credit only)

**MUS 478. Piano Pedagogy Resources and Practicum (2-2-2)**

*Preparatory:* MUS 461A/L, 461B/L. Study and analysis of elementary, intermediate and advanced piano literature, business properties and pedagogical and technological aids for the piano teacher. Application of literature, teaching aids and software in supervised and individual and group teaching situations in a wide variety of settings and at various levels of advancement.

**MUS 479. General Music Practicum (1)**

*Preparatory:* MUS 266. Guided practical experience in planning and teaching general music classes in elementary and middle school. Also includes development of prescribed competency in guitar and recorder. 2 hours per week.

**MUS 483. Music Entrepreneurship (3)**

Development of analytical, organizational, cross-platform, research and presentation skills needed to acquire entrepreneurial acumen to assist in creating successful career opportunities in music. Through discussions, guest speakers and field work, students learn how governments, foundations, demographics and philanthropic trends affect capitalist societal cultures. Students develop abilities to innovate and integrate their own unique talents in service to society and to the profession. Available for graduate credit and Upper Division undergraduate credit for all Music Majors.

**MUS 484. Piano Ensemble (1-1-1-1)**

*Preparatory:* 300-level individual study. Rehearsal and performance of piano ensemble music, including duets and duo-piano music, with emphasis on style and rehearsal techniques. For advanced pianists. 2 hours lab per week.

**MUS 485. the Discovery Players (1-1-1-1)**

Study, rehearsal and performance of chamber vocal and instrumental works outside of the commonly performed repertoire. Special emphasis is given to 14th-17th and 20th century music, including student compositions. Limited instruction on period instruments available as part of the course. 2 hours lab per week.

**MUS 487. Chamber Music Techniques (1-1-1-1)**

Detailed study of chamber music repertoire, performance and rehearsal techniques. 2 hours lab per week.

**MUS 488A-B-C. Advanced Opera Performance (2-2-2)**

*Preparatory:* Audition. Musical and dramatic preparation of an operatic role from a selected historical period, striving for a complete integration of music and action, culminating in public performance. Study of the role's traditional and historical style and practice. 4 hours lab per week.

**MUS 491. Psychology of Music (3)**

*Preparatory:* MUS 292. Inquiry into the application of music to the more recent developments in psychology.

**MUS 492/L. Influence of Music On Behavior (3/1)**

*Preparatory:* MUS 292. Study of music as a form of human behavior and the fundamental constructs for the use of music as a therapeutic medium.

**MUS 493. Music Production (3)**

*Preparatory:* MUS 393. Study of the making and marketing of music for recording, TV, film and live-performance aspects of the industry.

**MUS 494ABC. Internship in Music (1-3)**

Variable-credit internship providing a culminating experience to the course of study. Repeatable up to 6 units.

**MUS 495. Senior Recital/project (1)**

Credit/No Credit only

**MUS 496A-Z. Experimental Topics in Music (1-3)**

Selected topics in music, with course content to be determined.

**MUS 499. Independent Study (1-3)**

*Prerequisites:* Consent of instructor to act as sponsor; Permission of Department Chair. Not to be substituted for an existing course. Evidence of ability to pursue in-depth independent study and approval of project submitted prior to registration. Maximum 6 units may be earned.

## Graduate

---

500-level courses require graduate standing or instructor consent for undergraduate participation. A maximum of nine units of 400-level courses are acceptable for the 30-unit Master's degree.

**MUS 500. Music Theory Review (3)**

Intensive review course covering all phases of diatonic and chromatic harmony. Intended essentially as a review for graduate students. No credit may be earned for Graduate or Undergraduate Degrees.

**MUS 501. Music History Review (3)**

*Preparatory:* MUS 202 or Departmental approval. Comprehensive review of historical developments in Western music from the Middle Ages through the 20th century. Stylistic analysis of the major areas of musical research supported by the study of scores and recordings. Intended essentially as review for graduate students. No credit may be earned for Graduate or Undergraduate Degrees.

**MUS 565. Seminar in Advanced Instrumental Conducting (2)**

Preparation of scores in the media of band, orchestra and chorus for performance. Special emphasis on effective rehearsal procedures, stylistic values and score analysis.

**MUS 566. Seminar in Advanced Choral Conducting (2)**

Preparation of choral scores from various historical periods, with special emphasis in score analysis, stylistic interpretation, rehearsal procedures and conducting techniques.

**MUS 567/L. Computers and Related Technology in Music and Lab (3)**

*Preparatory:* SED 514 or equivalent. Prepares Music Credential candidates to utilize current technology in teaching music in the K-12 curriculum. Applications including the use of computers, synthesizers, MIDI manipulation and multi-track recording. Class sessions include lecture, discussion and demonstration essential to carrying out lab assignments. Meets the Title 5 Computer Education requirement (80422), Level 2: Specific Subject Area and/or Grade Level Competencies for the Clear Teaching Credential.

**MUS 580. Music Industry Developments (3)**

Exploration of major music industry sectors to establish an understanding of terms, concepts and principles common to the Industry. Surveys recent developments including, the music industry's latest theories, practices and technologies. Builds students' knowledge base while challenging them to comprehend the continually evolving nature of the music industry and its interdependence with the entertainment industry.

**MUS 588B. Advanced Opera Performance (2-2)**

*Prerequisite:* Audition. The musical and dramatic preparation of an operatic role from a selected historical period, striving for a complete integration of music and action, culminating in public performance. Study of the role's traditional and historical style and practice. 4 hours lab. May be repeated twice for credit.

**MUS 593. Current Trends in the Music Industry I (3)**

Study of theories, concepts and principles necessary to establish foundational skills considered essential for a successful career in the music industry. Guides the development of interpersonal skills and leadership qualities needed for effectiveness in mixed artistic and non-artistic team-based business environments. Study of research techniques and quantitative/qualitative methods of analysis using varied music industry metrics.

**MUS 595A-Z. Experimental Topics Courses in Music Education (1-3)**

Selected topics in music education, with course content to be determined.

**MUS 601. Techniques of Research and Bibliography in Music (3)**

Introduction to musical research, involving bibliographical method, the tools of research and the organization and writing of research studies relevant to the interest areas of Composition, Music Education, Musicology or Performance. Graduate students generally take this course before or concurrently with the first seminar in musicology.

**MUS 603ABCDE. Seminar in Musicology (3,3,3,3,3)**

*Preparatory:* Completion of Graduate Placement Exam in Music History. Normally MUS 601 is prerequisite to 603ABC, but it may be taken concurrently with D or E. Each seminar includes intensive analysis and research into the repertoire, forms, styles, media, musicians, composers and performance practices of a selected period in Western music history. Following sections are offered in various semesters: A) Renaissance; B) Baroque; C) Classical; D) Romantic; and E) 20th century.

**MUS 604. Seminar in Musical Analysis (3)**

*Preparatory:* MUS 316 or equivalent; Completion of Graduate Placement Examination in Music Theory and Analysis. Study of larger musical works, including relationships of the musical structure, materials, organization and style of the aesthetic whole.

**MUS 610. The Music of Bartok and Stravinsky (2)**

Intensive study of the music of Bartok and Stravinsky, including a detailed analysis of their stylistic development and techniques of composition.

**MUS 625. Advanced Orchestration (3)**

*Preparatory:* MUS 315, 415 or equivalent. Intensive study of the art of orchestration with special emphasis on 20th century techniques. Study of specific problems of scoring for chamber ensembles and symphony orchestra.

**MUS 630. Composition (2-2-2-2)**

*Preparatory:* MUS 421 or equivalent. Composition in the larger forms, in contemporary style.

**MUS 640-659AB. Individual Performance Lessons**

|      |                    |                        |
|------|--------------------|------------------------|
| 640. | Flute              | A: (1-1), B: (2-2-2-2) |
| 641. | Oboe               | A: (1-1), B: (2-2-2-2) |
| 642. | Bassoon            | A: (1-1), B: (2-2-2-2) |
| 643. | Clarinet           | A: (1-1), B: (2-2-2-2) |
| 644. | Saxophone          | A: (1-1), B: (2-2-2-2) |
| 645. | Trumpet            | A: (1-1), B: (2-2-2-2) |
| 646. | Horn               | A: (1-1), B: (2-2-2-2) |
| 647. | Trombone/Euphonium | A: (1-1), B: (2-2-2-2) |
| 648. | Tuba               | A: (1-1), B: (2-2-2-2) |
| 649. | Percussion         | A: (1-1), B: (2-2-2-2) |
| 650. | Piano              | A: (1-1) B: (2-2-2-2)  |
| 651. | Organ              | A: (1-1) B: (2-2-2-2)  |
| 652. | Harpsichord        | A: (1-1) B: (2-2-2-2)  |
| 653. | Harp               | A: (1-1), B: (2-2-2-2) |
| 654. | Voice              | A: (1-1), B: (2-2-2-2) |
| 655. | Violin             | A: (1-1), B: (2-2-2-2) |
| 656. | Viola              | A: (1-1), B: (2-2-2-2) |
| 657. | Violoncello        | A: (1-1), B: (2-2-2-2) |
| 658. | Bass               | A: (1-1), B: (2-2-2-2) |
| 659. | Guitar             | A: (1-1), B: (2-2-2-2) |

**MUS 660AB. Individual Conducting Lessons A-(1-1); B-(2-2)****MUS 661. Seminar in Philosophy and Practice in Music Education (3)**

*Preparatory: MUS 479 or equivalent; SED 525MU or consent of instructor.* Current philosophy and practices in the Music Education Program from elementary school through secondary school. Analysis and study of current trends and materials.

**MUS 662. Practicum in Methods and Materials for Public School Music (3)**

Music literature for use in the public schools. Methods and conducting techniques, related historically and stylistically to the literature.

**MUS 663. Tests and Measurements in Music (2)**

Study of existing tests used in the evaluation of musical aptitude and achievement. Consideration is given to: (a) basic statistical concepts; (b) nature of musical aptitude; and (c) construction, administration and interpretation of tests.

**MUS 664. Administration and Supervision Of Music (2)**

Study of the philosophy, techniques and current practices in the administration and supervision of music.

**MUS 672. Graduate Northridge Singers (1)**

*Prerequisite: Audition.* For graduate voice majors and other graduate students with advanced vocal experience. Study of musical styles and rehearsal techniques through the performance of choral literature. 4 hours per week.

**MUS 673. Graduate Master Chorale (1)**

*Prerequisite: Audition.* For graduate voice majors and other graduate students with advanced vocal experience. Study of musical styles and rehearsal techniques through performance of literature for chamber choir. 3 hours per week.

**MUS 679. Graduate Wind Ensemble (1)**

*Prerequisite: Audition.* Detailed study of graduate wind ensemble/concert band repertoire, performance and rehearsal techniques. 4 hours per week.

**MUS 680. Music Publishing and Copyright Administration (3)**

Study of traditional and online music publishing and copyright administration of art music, educational music and popular music. Study of electronic commerce as applied to music distribution and the online sale of music, games, and music-related merchandise; the implementation and operation of websites; FTC regulations; e-commerce licenses; and the exploitation of intellectual property rights.

**MUS 682. Graduate Symphonic Orchestra (1)**

*Prerequisite: Audition.* Detailed study of graduate orchestral repertoire; performance and rehearsal techniques. 2 hours lab per week. 4 hours per week.

**MUS 683. Entrepreneurship in the Music Industry (3)**

Study of the processes and procedures involved in launching entrepreneurial enterprises that monetize music industry-related intellectual property, products and services. Emphasis on opportunity recognition, commercialization of intellectual property, use of established and developing distribution models, and organizational and capitalization structures for new ventures within the music industry.

**MUS 687. Graduate Chamber Music (1)**

*Prerequisite: Audition.* Detailed study of graduate chamber music repertoire, performance and rehearsal techniques. 2 hours lab per week.

**MUS 693. Current Trends in the Music Industry II (3)**

Extended study of theories, concepts, and principals considered essential for a successful career in the music industry. Analysis of targeted music industry sectors on the leading edge of the evolving music industry. Analysis of varied business models and their potential to affect and influence segments of the music industry. Special emphasis on the importance of remaining inquisitive and adaptable as the industry continues to evolve.

**MUS 694. Seminar in Aesthetics of Music (3)**

*Preparatory: PHIL 380 or consent of instructor.* Study of basic concepts of art and beauty in their application to music. Historical and comparative survey of the principal aesthetic theories and critical distinctions related to musical perception, creativity, evaluation and performance.

**MUS 696A-C. Directed Research (1-3)****MUS 697. Comprehensive Examination (3)**

*Prerequisite: Permission of Music Industry Studies Option Coordinator.* Comprehensive examination of the subject matter covered in the student's graduate program. Examination will allow students to demonstrate their ability to integrate content knowledge, independent thinking and critical analysis. Only available to students who have completed or are currently completing their course requirements and have only the Comprehensive Examination to take. (Credit/No Credit only.)

**MUS 698. Thesis, Artistic Performance, or Graduate Project (3)**

See Guidelines for the Preparation of Theses, Graduate Projects and Artistic Performances available from Graduate Studies. Also, see Music Department requirements for the Degree.

**MUS 699A, B, C. Independent Study (1, 2, 3)**

*Preparatory: Classified status; Consent of an instructor/sponsor; Review by the Graduate Coordinator.* 6 units maximum.

### Staff

Vanessa Carrillo, Joanne Moreno

### Faculty

Rosine Der-Tavitian, Martha Highfield, Mary Paquette, Samira Moughrabi

### Emeritus Faculty

Bonnie Faherty

### Programs

Undergraduate:

**RN to B.S. Nursing**

Post-Baccalaureate:

**Accelerated B.S. in Nursing (A-BSN)**

Non-Degree Program:

**Health Services Credential: School Nurse**

**Public Health Nurse Certificate Program**

**LVN 30-unit option**

**Nurse Educator Certificate Program**

The CSUN Nursing Department has 2 pathways to the Bachelor of Science Degree in Nursing (BSN): 1) RN to BSN pathway for those with an Associate Degree or equivalent in nursing and RN licensure; and 2) A-BSN pathway for those with a B.A. or B.S. Degree in another field who are seeking to become RNs. Both are nationally accredited by the Commission for Collegiate Nursing Education (CCNE).

### Student Learning Outcomes

Upon completion of the BSN, graduates will use critical thinking, therapeutic interventions and communication across a wide variety of settings in order to:

1. Acquire, develop, critique and convey ideas and information in the professional context;
2. Guide decision making using scientific, ethical and humanistic perspectives;
3. Demonstrate leadership skills in providing care to individuals, families, groups, communities and populations in a variety of settings; and
4. Demonstrate the ability to manage, organize, implement and evaluate the delivery of nursing services in a variety of settings.

### RN to Bachelor of Science in Nursing (RN-BSN)

The mission of the Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) Degree is to develop professional nursing leaders in all areas of practice who can apply new and/or past nursing knowledge and build on existing competencies. The B.S. Degree in Nursing is designed to prepare nurses to function both independently and inter-dependently with other professionals in a wide variety of settings, and to meet present and future health-care needs of society. The Program is designed to articulate with community college programs and provide a Baccalaureate completion program for licensed RNs with an associate degree in Nursing or its equivalent.

The BSN framework emphasizes the practice of professional nursing, including the design of nursing systems to provide assistance to individuals, families, groups, communities and populations who are unable to meet either self-care and dependent-care needs without nursing intervention. Students are individuals already licensed by the state to practice as RNs who are seeking to advance their nursing knowledge and education. Baccalaureate education in Nursing prepares for the practice of professional nursing in multiple sites and with a variety of clientele. The curriculum provides students an opportunity to broaden their base of liberal education through Upper Division General Education and elective courses. In addition, nursing courses will enhance knowledge of human development, assessment skills, theories of nursing, ethics and current issues in the practice of professional nursing, community health, leadership and research. Students may attend full-time or part-time with nursing courses 1-2 days per week. Several nursing courses combine live and online instruction. Students may take General Education and elective courses as they choose. Program values include integrity, advocacy, excellence, lifelong learning, respect for others and competence.

### Requirements for Admission to RN-BSN Pathway

1. Current licensure as a Registered Nurse in California from a fully accredited program.
2. Minimum of 60 transferable units. A maximum of 32 units of Nursing courses are transferable.
3. Completion of 1 Lower Division course in each of the following: Anatomy, Physiology, Chemistry and Microbiology, each with lab. A minimum grade of "C" must be attained in each course.
4. Must meet minimum requirements for admissions to the University.
5. Completion of separate applications to the University and the Nursing Program.
6. Verification of clinical competency.

### Requirements for the Bachelor of Science in Nursing

#### 1. Lower Division Required Courses (19 units)

|            |   |
|------------|---|
| BIOL 211   | Human Anatomy (2)                       |
| BIOL 212   | Lab Studies in Human Anatomy (1)        |
| BIOL 215/L | Introductory Microbiology and Lab (2/2) |
| BIOL 281   | Human Physiology (3)                    |
| BIOL 282   | Lab Experiments in Human Physiology (1) |
| CHEM 103/L | Introductory Chemistry I and Lab (3/1)  |
| MATH 140   | Introductory Statistics (4)             |

#### 2. Upper Division Required Courses (39 units)

|                 |   |
|-----------------|---|
| HSCI 488        | Epidemiology: Study of Disease (3)  |
| NURS 302        | Basic Pathophysiology (3)   |
| NURS 303        | Professional Nursing (3)  |
| NURS 306        | Supportive/Educative Nursing Systems (3)                                    |
| NURS 307/L      | Health Assessment in Self Care Agency and Lab (2/1)                         |
| NURS 308        | Family Systems Nursing (3)  |
| NURS 310        | Principles of Nursing Research (3)  |
| NURS 426        | Nursing Systems Issues and Ethics (3)                                       |
| NURS 427/L      | Dynamics of Nursing Leadership and Lab (3/2)                                |
| NURS 428/L      | Community Health Nursing and Lab (3/2)                                      |
| NUR 495AA or BA | Clinical Advances in Health Sciences: RN to BSN Senior Project (1/1) or (2) |

|   |            |
|---|------------|
| <b>Total Units in the Major</b>                 | <b>58</b>  |
| <b>General Education Units</b>                  | <b>48</b>  |
| <b>Additional Units</b>                         | <b>14</b>  |
| <b>Total Units Required for the B.A. Degree</b> | <b>120</b> |

**Academic Policies**

1. All Upper Division Nursing courses must be completed within 5 years after taking the first Nursing course or students may be required to meet current program requirements.
2. A minimum grade of C is required in each Upper Division Nursing course. Students receiving a grade of “C-” or below are required to repeat the course and earn a “C” or better. A course may only be repeated once, with a maximum of 15 repeat units.
3. Students must pass both components of each of the following courses to successfully meet requirements for both courses: NURS 307/L, 427/L and 428/L.
4. Students are required to maintain current California Registered Nurse licensure while enrolled in Nursing courses. It is the student’s responsibility to notify the Program Director immediately, in writing, of any changes in licensure status.
5. Students are responsible for obtaining at their sole cost any necessary health exams, immunizations, evidence of a TB test, titers or other requirements, etc. necessary to meet OSHA requirements, and maintain compliance with requirements by the University and affiliating clinical agencies. Documentation of the requirements is to be submitted to the designated person upon request. Before the first clinical course, each student is required to complete a pre-clinical checklist and provide proof that requirements are currently met.
6. After admission and prior to clinical placements, all CSUN Nursing students are required to obtain their own criminal background checks and sometimes drug screens at their sole cost and to supply that information to designated approving agencies or persons before the first patient care experience. In order to meet accreditation standards, many clinical agencies are requiring background checks and drug screens on all students placed at their facilities and have the right to refuse a student clinical placement based on that information. If an affiliating clinical agency notifies faculty that they are refusing clinical placement to a student based on background check or drug screen, the student will be unable to complete required clinical laboratory course work, be unable to progress in the Program, and thus be unable to meet Degree requirements.
7. Further information on background checks or drug screens and where to obtain them is available from the Nursing advisor. While CSUN prohibits faculty from reviewing results of checks and screens, clinical facilities demand that CSUN provide them with evidence of clear background check and drug screening. Faculty will require proof that the checks and screens have been completed and are cleared.
8. Students in Nursing courses also are responsible to obtain and maintain at their own cost nursing liability insurance, CPR certification and, if needed, fire safety card or evidence of other indicators of particular competencies as required by professional standards or affiliating clinical agencies.
9. Access to reliable transportation is required for clinical courses off campus.
10. Prior to and during clinical placements, students are required to demonstrate professional maturity and physical, emotional, ethical and moral fitness for clinical practice.
11. The faculty reserves the right to make Program modifications as necessary to meet current professional standards and accreditation criteria.
12. RN-BSN students may petition for credit by exam in selected courses. See nursing advisor for challenge exam information and registration.

**Accelerated Bachelor of Science in Nursing (A-BSN)**

The Accelerated B.S. Degree in the Nursing Program prepares students to take the National Council Licensing Examination (NCLEX) upon graduation and to become Registered Nurses. This Option for earning the BSN is designed for second-degree students who hold a minimum of

a B.A. or B.S. Degree in any field and who have completed necessary prerequisite courses and admission requirements. The program of study is intense, and nursing courses required for licensure are completed within 4 semesters. This BSN Option builds on previous learning and provides specific clinical education that prepares nursing professionals who can practice in a wide variety of settings. The BSN framework emphasizes the practice of professional nursing including assessment, promotion, maintenance, restoration and evaluation of the health of individuals, families, groups, communities and populations. Nursing courses include classroom instruction and clinical laboratories in patient-care settings.

**Requirements for Admission to A-BSN Pathway**

1. An earned Bachelor’s Degree from an accredited institution;
2. Undergraduate GPA of 3.0 or better.;
3. All prerequisites course grades must be “C” or higher. All science prerequisites must have been completed within the past 7 years. Courses that have been taken at an Upper Division undergraduate-level or that combine prerequisite content (e.g., single course of 5 semester units in anatomy and physiology course with lab) will be considered on a case-by-case basis as potentially meeting minimum requirements;
4. Earning a minimum grade of “C” in prerequisite courses;
5. A personal interview may be requested of all applicant;
6. Apply to CSUN and the A-BSN no later than November 30.
7. A-BSN application is a separate application procedure from admission to the University, and students are responsible to assure their applications are complete. No waiting list is maintained and students must reapply each year for which they wish to be considered;
8. Potential applicants are responsible to consult the CSUN Nursing website for up-to-date information on application deadlines and procedures.

**Requirements for the Accelerated Bachelor of Science in Nursing**

**1. Prerequisite Courses**

Any of the following courses or their equivalents that were completed as part of the first degree program do not need to be repeated. Course equivalencies can be checked at <http://assist.org> or with the help of an advisor.

|      |         |   |

| <b>Total Units Required beyond Original B.A./B.S. Degree</b> | <b>62</b> |

### Academic Policies

1. Nursing courses from other Programs may be considered non-equivalent and not be transferred into this program with the exception of NURS 307/L.
2. Students are admitted as a cohort. Should progression through the curriculum be interrupted, students whose progress is interrupted will need to reapply to the Program and will be considered on a space-available basis. All Nursing courses must be completed within 5 years after taking the first Nursing course.
3. A minimum grade of "C" is required in all prerequisite and nursing courses. A grade of "C-" will require the student to repeat the course or concurrent theory/lab courses. All Nursing courses may be repeated only once with a maximum of 15 repeated units. Students progressing on schedule through the Program will be given priority space in classes, and students repeating courses will be considered only on a space available basis. The need to repeat some courses may interfere with the repeating student's ability to complete the Degree.
4. Students must enroll and pass concurrently both theory and clinical laboratory components of each area of study that contains these components.
5. Requirements for A-BSN are the same as above for RN-BSN as related to necessary health insurance, health examinations, immunizations, TB testing, titres, criminal background checks, drug screens, student liability insurance, CPR certification, fire safety cards or other requirements needed to maintain compliance with University and affiliating clinical agency requirements. Documentation is to be submitted to the designated person upon request and before the first patient care experience.
6. Access to reliable transportation is required for clinical courses off campus.
7. Due to the clinical requirements imposed by external clinical partners, students must be prepared to attend clinical rotations in the community settings any day of the week, including weekends, and at various times of the day, including evenings and nights. No reasonable student accommodation to clinical scheduling can be made given the cohort nature of the Program and the external limitations placed on the Department by hospitals and other clinical settings. Clinical rotations can change each academic semester or year given external assignments of times and days.
8. The faculty reserves the right to make Program modifications as necessary to meet current professional standards, Board of Registered Nursing requirements and accreditation criteria.

### Licensed Vocational Nurses

Licensed Vocational Nurses seeking an upgrade to BSN or LVN 30-unit Option should contact the Nursing Program regarding Options, objective counseling and individual evaluation.

### The LVN 30-Unit, Non-Degree Option

This Option will prepare LVNs to take the RN licensing exam. LVNs will take BIOL 215/L (2/2) and 281 (3) or their equivalents, and then will be eligible take an additional 23 units on a space-available basis, including the following:

|      |       |  |
|------|-------|--|
| NURS | 321   | Adult/Aged Medical-Surgical Nursing (4)        |
| NURS | 321AL | Adult Medical-Surgical Lab (8)                 |
| NURS | 321BL | Geriatrics Lab (1)                             |

### Public Health Nurse Certificate

Section 2818(a) of the Business and Professions Code requires that in order to be employed as a public health nurse or use the term "public health nurse" in California, an individual must possess a valid California Public Health Nurse (PHN) Certificate. The CSUN Nursing Program curriculum is approved by the California Board of Registered Nursing to prepare eligible applicants for certification in public health nursing in the state of California. Certification is granted by the Board of Nursing (BRN) after completion of curriculum and application to the Board.

**Procedures for PHN application:** Visit California BRN website and the CSUN Nursing website.

#### Eligibility Requirements

1. Evidence of a permanent California RN license that is current, clear and active. (A temporary license or interim license is not acceptable.)
2. Possession of a Baccalaureate Degree documented by one of the following:
  - a. Official transcripts from a school accredited by the National League of Nursing (NLN) or the Commission on Collegiate Nursing Education (CCNE), which includes course work in public health nursing. Graduates of the CSUN RN-BSN Program, see nursing advisor.
  - b. Official transcripts for a Degree in a field other than nursing, and completion of required CSUN course work with a minimum grade of "C" in each course.
  - c. Official transcripts from an accredited BSN foreign institution and completion of required CSUN course work with a minimum grade of "C" in each course. Foreign transcripts need to be evaluated by an approved international evaluation service.
3. Basic computer skills.

### Requirements for the Public Health Nurse Certificate

| HSCI | 390/L | Biostatistics and Lab (3/1)            |
| NURS | 426   | Nursing Systems Issues and Ethics (3)  |
| NURS | 428/L | Community Health Nursing and Lab (3/2) |
| HSCI | 488   | Epidemiology, Study of Disease (3)     |

### Health Services Credential Program: School Nurse Services Program

This Credential may be issued to the qualified RN who holds a Baccalaureate Degree. A fifth year of study (24-unit minimum) is required for a Professional (Ryan) School Nurse Credential. A minimum of 12 units of course work is required in residence at CSUN (regular session, extension, concurrent enrollment or Summer session). HSCI 475 and 476 must be taken after formal admission to CSUN as a School Nurse Credential student and cannot be taken through the College of Extended Learning.

For more information, refer to Credential Office section of the Catalog (Health Services Credential Authorizing Services as a School Nurse). Immediately upon acceptance at CSUN, all students must meet with the Nursing faculty to have their academic records evaluated and to plan an individualized program that will meet state standards for the School Nurse Credential. School Nurse Credential students are responsible for keeping abreast of all requirements applicable to their desired Credential, including requirements specified in the CSUN Catalog under Credential Program requirements. This includes the requirement that courses must be completed within 7 calendar years of the student admission date.

### Requirements for the School Nurse Credential

|         |       |   |
|---------|-------|---|
| COMD    | 496NS | Audiometry and Hearing Conservation for School Nurses (3) |
| FCS     | 330   | Child Growth and Development I (3)                        |
| or FCS  | 431   | Child Growth and Development II (3)                       |
| HSCI    | 170/L | Emergency Health Procedures (2)                           |
| HSCI    | 336   | Health Aspects of Drug Abuse (3)                          |

| HSCI    | 353   | Fundamentals of Environmental Health (3)                  |
| HSCI    | 433   | Counseling of Health Problems (3)                         |
| NURS    | 475** | Principles of School Nursing Practice (3)                 |
| NURS    | 476** | School Nurse Field Experience (6)                         |
| HSCI    | 488   | Epidemiology, Study of Disease (3)                        |
| NURS    | 306   | Supportive/Educative Nursing System (3)<br>(Recommended)  |
| or HSCI | 435   | Health Sciences for Children and Youth (3)                |
| NURS    | 307   | Health Assessment in Self-Care Agency (2)*                |
| NURS    | 307L  | Health Assessment in Self-Care Agency Lab (1)*            |
| NURS    | 428   | Community Health Nursing (3)                              |
| NURS    | 428L  | Community Health Nursing Lab (2)*                         |
| SPED    | 508   | Special Education Training for Teachers (4)               |
| or SPED | 400   | Introduction to Special Education (3)                     |

\*Must be taken concurrently.

\*\*NURS 475 is the first course in curriculum and 476 is the exit course. Both must be taken at CSUN as an admitted credential student.

It is recommended but not required that students take both NURS 428 and 428L. NURS 428L is required only for the California Public Health Nursing Certificate and must be taken concurrently with NURS 428. If only NURS 428 is taken, students must repeat NURS 428 if they later choose to take 428L. Students should notify the School Nurse Credential advisor 1 semester in advance of when they plan to take the course to assure availability of clinical placement.

Candidates for this Credential must complete 12 semester units in

CSUN courses, meet the required GPA, hold a Preliminary School Nurse Credential and have 2 years of successful service as a school nurse. See Health Sciences Department section of the Catalog for course descriptions (e.g., HSCI 170/L).

### Nurse Educator Certificate

The Nurse Educator Certificate Program (NECP) consists of 5 3-unit courses (15 units) of learning-centered course content focused on methods/theory/practice of classroom and clinical teaching and instruction, and on leadership and faculty role development of the Nursing faculty. The 15 units of course work will be offered over three semesters. Nurses who complete the Nurse Educator Certificate Program are qualified academically to take the Educator Certification Examination of the National League for Nursing (NLN, 2010).

#### Required Courses:

|      |     |   |
|------|-----|---|
| NURS | 560 | Theories of Teaching and Instruction in Nursing (3) |
| NURS | 561 | Teaching and Learning Strategies in Nursing (3)     |
| NURS | 562 | Curriculum Development in Nursing (3)               |
| NURS | 563 | Evaluation and Assessment in Nursing Education(3)   |
| NURS | 664 | Faculty Role Development in Nursing (3)             |

### Course List

#### NURS 302. Basic Pathophysiology (3)

*Prerequisite: Approval of faculty advisor.* Study of the pathogenesis and clinical picture of common disease processes that impact the self-care of individuals. Focuses on the impact of environmental, genetic and individual factors in creating or perpetuating disturbed physiology, as well as on physiological adaptive responses and the interdependence of body systems. (See Program advisor for information on credit by challenge examination)

#### NURS 303. Professional Nursing (3)

*Preparatory: Admission to Nursing Program; Completion of Lower Division writing requirement.* Focuses on the practice of professional nursing, critical thinking, therapeutic nursing interventions, nursing process, advocacy, humanistic approach to the treatment of human beings, selected bio-psycho-social and nursing theories, spirituality, communication, information technology, role change, values, culture, and oral and written communication skills. Regular written assignments and oral presentations are required.

#### NURS 306. Supportive/Educative Nursing Systems (3)

Application of nursing knowledge and skills in self-care agency with individuals, families, groups, communities and populations. Content includes theories and principles of learning, teaching strategies and methodologies, teaching resources, and evaluation of instruction as applied to the development of nursing systems in the nursing process. Regular written assignments and oral presentations required.

#### NURS 307/L. Health Assessment in Self Care Agency and Lab (2/1)

*Corequisite: NURS 307L. Recommended Corequisite: Admission to SNCP or RN-BSN program.* Provides skills in complete assessment of individual health in using bio-psycho-social-spiritual-cultural concepts. Includes nursing assessment through all developmental stages. Emphasis on self-care agency. On-campus supervised lab practice and application of concepts from NURS 307 in self-care agency. Passing grade must be earned in both NURS 307 and 307L concurrently for credit in both courses. 3 hours lab per week.

#### NURS 308. Family Systems Nursing (3)

*Prerequisite: Admission to BSN Program and NURS 303.* The focus of this course is on nursing care of families. Family nursing theory and research is applied to Orem-defined units of family nursing practice—individual self-care agents, dependent-care dyads and family units as

wholes. Emphasis is on health/safety promotion and disease prevention, including assessment of individuals within family systems, family issues/trends and global perspectives.

**NURS 310. Principles of Nursing Research (3)**

*Prerequisite:* MATH 140 or equivalent. Historical philosophical and ethical aspects of nursing research and relationship to nursing science, theory and practice. Includes principles and methods of research for use in professional roles, leadership and development of nursing systems. Knowledge of the research process is developed and applied to critique of research studies, process of research, proposal development and application of research findings to practice. Regular written assignments are required.

**NURS 315. Pharmacology and Self-Care Agency (2-2)**

*Prerequisite:* Admission into the Accelerated BSN Pathway. This course examines the principles of pharmacokinetics and pharmacodynamics for major drug classes as they impact self-care of the individual. Assessment and management of the therapeutic and toxic effects of pharmacological interventions are emphasized.

**NURS 318/L. Introduction to Professional Nursing (3/4)**

Introduction to the practice of professional nursing, including critical thinking, assessment, therapeutic nursing interventions and communication. This course explores related models and theories, professional roles, nursing process and use of nursing skills to promote self- and dependent-care agency of individuals. Bio-psycho-social-spiritual, cultural and developmental considerations included. Lab: Supervised clinical lab provides opportunities for role development and application of knowledge and skills. Passing grades must be earned in both lecture and lab concurrently for credit in both courses.

**NURS 319. Effective Communications in Professional Nursing (2)**

Course explores concepts and theories of human interaction as they relate to nursing. Includes principles, processes and techniques of effective individual and group communication as they relate to promotion of self-care and dependent-care agency. Supportive-educative nursing system as an intentional caring process is emphasized.

**NURS 321/AL. Adult/Aged Medical-Surgical Nursing (4/8)**

Course surveys selected medical-surgical conditions and age-specific health considerations as they relate to the nurse's role in promoting self-care and dependent-care functioning of adult patients. Planning, implementing, and evaluation interventions based on systematic data collection and analysis. Lab 1 (Adult Med-Surg Nursing) Supervised clinical laboratory provides opportunities for role- and skills-development and application of knowledge. Passing grades must be earned in lecture course and medical-surgical lab concurrently for credit in both courses. Lab 2 (Care of Older Adult): Supervised clinical lab provides opportunities for role and skills development and application of knowledge in beginning professional role in geriatric nursing. Focuses on the role of the professional nurse in assessing, promoting, maintaining, restoring and evaluating the self-care and dependent-care functions of older adults. Passing grades must be earned in lecture course and geriatric lab concurrently for credit in both courses.

**NURS 321BL. Nursing Care of Older Adult: Clinical Laboratory (1)**

This course surveys selected medical-surgical conditions and age-specific health considerations as they relate to the nurse's role in promoting self-care and dependent-care functioning of adult patients. Planning, implementing and evaluating interventions based on systematic data

collection and analysis. Lab 1 (8) (Adult Med-Surg Nursing) Supervised clinical lab provides opportunities for role- and skills-development and application of knowledge. Passing grades must be earned in lecture course and medical-surgical lab concurrently for credit in both courses. Lab 2 (1) (Care of Older Adult): Supervised clinical lab provides opportunities for role- and skills-development and application of knowledge in beginning professional role in geriatric nursing. Focuses on the role of the professional nurse in assessing, promoting, maintaining, restoring and evaluating the self-care and dependent-care functions of older adults. Passing grades must be earned in lecture course and geriatric lab concurrently for credit in both courses.

**NURS 426. Nursing Systems Issues and Ethics (3)**

*Preparatory:* All 300-level Nursing courses. Deals with issues arising within the community, the health-care systems and the profession of nursing that influence self-care agency and the development of nursing systems. Discusses ethical aspects of providing therapeutic self-care. Regular written assignments required.

**NURS 427/L. Dynamics of Nursing Leadership and Leadership in Nursing Lab (3/2)**

*Prerequisites:* All 300-level Nursing courses; NURS 426. *Corequisite:* NURS 427L. Focuses on the function of the professional nurse as self-care agent through leadership, administration and change. Presents theories of group dynamics, leadership, organizations, planned change, power and conflict as they apply in the nursing unit. Regular written assignments are required. Lab: Application of self-care agency through use of leadership and administration theories and skills in clinical settings. Students synthesize professional nursing roles through individualized learning contract. Credit given only if a passing grade is earned. 3 hours lecture, 6 hours lab per week.

**NURS 428/L. Community Health Nursing and Lab (3/2)**

*Prerequisites:* All 300-level Nursing courses; HSCI 488; NURS 426. *Corequisite:* NURS 428L. Theory and multicultural society. Study of self-care agency and therapeutic self-care needs of individuals, families, the community and society. Regular written assignments required. Clinical experience in community health agencies under the leadership of nursing faculty. Credit given only if a passing grade is earned. 3 hours lecture, 6 hours lab per week.

**NURS 430/L. Psychiatric/Mental Health Nursing: Clinical Laboratory (2/1)**

Focuses on the unique role of the professional nurse in assessing, promoting, maintaining, restoring and evaluating the self-care and dependent-care functions of persons with actual or potential altered mental health processes. Topics include selected theories of human behavior and current knowledge of psychiatric/mental health nursing care, psychopathology, psychiatric treatment, psychopharmacology, environmental management and influences of family. Lab: Demonstration of beginning professional role in psychiatric/mental health nursing by applying knowledge from lecture corequisite. Passing grades must be earned in lecture course and lab concurrently for credit in both courses.

**NURS 443. Nursing Care of the Childbearing Family: Clinical Laboratory (1.5)**

*Prerequisite:* All 300-level courses in the Accelerated BSN Pathway. *Corequisite:* NURS 444. Focuses on the nurse's role in promoting self-care and dependent-care functions of the multiperson unit of the

child-bearing family. Emphasis is on assessment and management of the woman, baby and family during the antipartum, intrapartum and postpartum periods. Includes both healthy and pathologic processes. Lab: Supervised clinical laboratory provides opportunities for role- and skills-development and application. Passing grades must be earned in lecture course and lab concurrently for credit in both courses.

**NURS 443/L Nursing Care of Children and Clinical lab (2/1.5)**

*Prerequisite:* All 300-level courses in the Accelerated BSN Pathway. *Corequisite:* NURS 443. Focuses on professional nurse's role in assessing, promoting, maintaining, restoring and evaluating the self-care and dependent-care agency related to children with actual or potential altered health. Includes age-specific health considerations of newborns through adolescents within the interactional context of family and environment. Theories, models and concepts are related to nursing care of the child and the family. Lab: Supervised experience provides opportunities for role-development and application of knowledge and skills. Passing grades must be earned in lecture course and medical-surgical lab concurrently for credit in both courses.

**NURS 444. Nursing Care of the Childbearing Family (2)**

*Prerequisite:* All 300-level courses in the Accelerated BSN Pathway. *Corequisite:* NURS 444L. Focuses on the nurse's role in promoting self-care and dependent-care functions of the multiperson unit of the child-bearing family. Emphasis is on assessment and management of the woman, baby and family during the antipartum, intrapartum and postpartum periods. Includes both healthy and pathologic processes. Lab: Supervised clinical lab provides opportunities for role- and skills-development and application. Passing grades must be earned in lecture course and lab concurrently for credit in both courses.

**NURS 444/L Nursing Care of Childbearing Family (2/1.5)**

*Prerequisite:* All 300-level courses in the Accelerated BSN Pathway. *Corequisite:* NURS 444. Focuses on the nurse's role in promoting self-care and dependent-care functions of the multiperson unit of the child-bearing family. Emphasis is on assessment and management of the woman, baby and family during the antipartum, intrapartum and postpartum periods. Includes both healthy and pathologic processes. Lab: Supervised clinical lab provides opportunities for role- and skills-development and application. Passing grades must be earned in lecture course and lab concurrently for credit in both courses.

**NURS 475. Principles of School Nursing Practice (3)**

*Preparatory:* R.N. License. *Recommended Corequisite:* Admission to SNCP. Examines the roll of the school nurse in relation to current and accepted practices in school health programs as they pertain to the needs of school children and their community.

**NURS 476. School Nursing Field Experience (6)**

*Prerequisite:* All courses in SNCP. Supervised experience in public school nursing consisting of 180 clock hours of observation and participation working with master nurses at the elementary- and secondary-level. Meets the requirement for the Health Services Credential Authorizing Services as a School Nurse. An academic internship course. (Credit/No Credit only)

**NURS 495AA or AB Clinical Advances in Health Sciences: RN to BSN Senior Project (1/1) or (2)**

*Prerequisite:* All 300-level Nursing courses. Review of research, development and clinical applications in the various health professions. Course con-

tent to be determined. (See subtitle in appropriate Schedule of Classes.)

**NURS 560. Theories of Teaching and Instruction in Nursing (3)**

*Prerequisite:* Instructor consent. This course focuses on examining prominent theories of teaching and models of instruction that are applicable to the classroom, nursing skill laboratory and clinical education. Theoretical approaches classified as behaviorist, social interactionist and cognitive, as well as adult learning theories, are discussed and analyzed. Evidence-based research relative to nursing education is reviewed and critiqued.

**NURS 561. Teaching and Learning Strategies in Nursing (3)**

*Prerequisite:* Instructor consent. This course focuses on providing mentored training in integrating evidence-based, learning-centered teaching and learning strategies. Students are teamed with faculty mentors in the classroom, skill laboratory and clinical settings to apply and implement learned teaching strategies under the direct supervision of faculty mentors. Special emphasis is made on integrating multiculturalism in teaching and learning.

**NURS 562. Curriculum Development in Nursing (3)**

*Prerequisites:* NURS 560, 561; *Instructor consent.* Curriculum principles and strategies that incorporate accrediting nursing bodies' curricular essentials are presented. Concerns associated with Associate, Baccalaureate and Graduate Nursing Degrees' curricula are addressed and differentiated with reference to accrediting bodies' curricular essentials requirements and with reference to certifying state regulators. Emphasis is placed on integrating the interplay of curricular systematic decision-making, curriculum planning, curriculum development, systematic assessment of outcomes, and accreditation requirements/self-study.

**NURS 563. Evaluation and Assessment in Nursing Educations (3)**

*Prerequisites:* NURS 560, 561, 562; *Instructor consent.* This course explores various theories on assessments and evaluation, and examines important theoretical, ethical and practical issues in assessment, evaluations, measurement and testing in nursing education.

**NURS 664. Faculty Role Development in Nursing (3)**

*Prerequisites:* NURS 560, 562, 563; *Instructor consent.* This course focuses on examining models of the nurse faculty role and on analyzing strategies for effective teaching, practice, scholarship and service. Leadership is examined through the lens of a system framework for effective change and transformation.

# Pan African Studies

## College of Social and Behavioral Sciences

**Chair: Karin Stanford**

**Santa Susana Hall (SN) 221**

**(818) 677-3311**

**[www.csun.edu/csbs/departments/pan\\_african\\_studies](http://www.csun.edu/csbs/departments/pan_african_studies)**

### *Faculty*

James H. Bracy, Cedric Hackett, Joseph E. Holloway, David L. Horne, Bayyinah S. Jeffries, Marquita Pellerin, Anthony Ratcliff, Johnie H. Scott, Karin L. Stanford, Tom Spencer-Walters, Shubha Venugopal, Theresa Renee White

### *Emeritus Faculty*

Verne Bryant, James Dennis, Rosentene Bennett Purnell, Barbara Rhodes

### Programs

Undergraduate:

**B.A., African-American Studies**

**Option I: African-American Social Sciences**

**Option II: African-American Arts and Literature**

**Option III: African and African-American Cultural Studies**

**Option IV: African-American Urban Education**

**Minor in Pan African Studies**

### Department Programs

The Pan African Studies Major and Minor consist of course sequences and concentrations within an interdisciplinary curriculum (including History, Political Science, Literature, Culture, Psychology, Sociology, Religion and others) that provide students with intellectual training in understanding and analyzing both the broad range of the African-American experience in the U.S. and issues of the African diaspora. The Department encompasses university-trained social scientists and humanists from the major academic disciplines.

### The Major

The Pan African Studies (PAS) Major is a multidisciplinary academic major (45 units) designed for students who wish to gain an understanding of the history, psychology, sociology, literature, culture and education of African-Americans and other Africans in the diaspora and the continent. The 4 specific Options within the major enable students to concentrate their efforts on certain aspects of this broad subject. These Options are intended to enhance students' preparation for both graduate school and employment. By carefully selecting Title 5 and General Education courses in consultation with a PAS advisor, students majoring in PAS also have the opportunity to complete a second major. For example, a double major in PAS and Urban Studies and Planning can be completed with the selection of Option I (below) plus the Core course requirements in Urban Studies and Planning. Consult an advisor for other possible combinations within the major.

### The Minor

The Minor in Pan African Studies is designed to expose students to the field of Pan African Studies for their own future intellectual development and employment opportunities. The Department offers 21 units for this Minor Program.

### Interdisciplinary Graduate Degree

Through the PAS Department, and in conjunction with several other disciplines and Departments on campus, students can earn an Interdisciplinary Master's Degree. See a PAS advisor for details.

### Credential Information

Pan African Studies majors interested in teaching social studies at the middle-school or high-school level may combine their Major Program with the Single Subject Social Science Subject Matter Program in the College of Social and Behavioral Sciences (CSBS) to meet requirements for entering a Single Subject Credential Program. For more information on the CSBS Single Subject Social Science Subject Matter Program, look under Social and Behavioral Sciences in the Catalog.

### Careers

After graduating, Pan African Studies majors attend law school or graduate schools in various fields. Many become teachers, social workers, entrepreneurs or work in government. Typical immediate employment options for a graduated PAS major include the probation department, editorial work at publishing enterprises, community development program directors or assistants, bank tellers and/or managerial trainees, retail sales positions, K-12 teaching, teaching assistant and research assistant positions in graduate school, and more. For additional information regarding PAS-related career options, consult the PAS Department.

### Academic Advisement

Students are required to regularly meet with the Department's designated advisors as well as attend mandatory advisement workshops in the Fall and Spring semesters. Undergraduate Advisors are Cedric Hackett, David L. Horne and Johnie H. Scott. Contact the Department for an appointment.

### Student Learning Outcomes

The Interdisciplinary Degree Program in Pan African Studies enables the graduate to gain an understanding of the political-social-historical-cultural perspectives of the African-American and African experience. Students also will learn key concepts and fundamental literature; a knowledge of the broad cultural, political and historical contexts in which the African-American experience took place; and appropriate skills in research design and methodology used to examine the various interdisciplinary areas (e.g., political-historical; humanities; socio-psychological) of Pan African Studies.

### Requirements for the Bachelor of Arts Degree:

The Pan African Studies major consists of 2 components: completion of the Core requirements (21 units) and completion of 1 of 4 specific Options (24 units). For each of the Options, there are specific Lower and Upper Division Core courses and electives that are relevant to that concentration. All students who major in Pan African Studies must select 1 of the 4 Options, each of which is designed to prepare students for graduate study or for a career of their choice.

#### **Core Requirements for all Options (21 units)**

##### **1. Lower Division (15 Units)**

|         |     |   |
|---------|-----|---|
| PAS     | 100 | Introduction to Black Culture (3)                     |
| PAS     | 158 | Learning Paradigms in Pan African Studies. (3)        |
| PAS     | 201 | Economics of the African-American Community I (3)     |
| PAS     | 220 | Psychological Environment of the African-American (3) |
| or PAS  | 221 | Sociological Environment of the African-American (3)  |
| and PAS | 271 | African-American History to 1865 (3)                  |
| or PAS  | 272 | African-American History Since 1865 (3)               |

### Graduate Courses

The PAS Department does not currently have a stand-alone Master's Program. However, the University does offer a Master's Degree in Interdisciplinary Studies that allows students to receive graduate training in 2 or 3 disciplines. Graduate courses will be regularly offered. The following courses are approved graduate courses of the PAS Department: PAS 590A-Z, 595A-Z, 600, 601 and 602A-C.

## Course List

### PAS 099. Writer's Workshop

*1 unit University credit; No credit toward graduation.* Emphasizes the development of the individual student's writing abilities with intensive practice in basic writing skills, including grammar, usage and other aspects of the composing process. May be taken by students who wish to improve their writing skills, whatever the level. 2 hours lab per week. (Credit/No Credit only)

### PAS 100. Introduction to Black Culture (3)

Overview of the basic areas of black culture, including history, religion, social organization, politics, economics, psychology and creative production, with a survey of the key concepts and fundamental literature in each area. (Available for General Education, Comparative Cultural Studies)

### PAS 102. Elementary Swahili (3)

Introduction to the fundamentals of Swahili, a language spoken widely in East Africa. Includes intensive practice of the spoken language as well as its grammar, syntax and orthography. (Available for General Education, Comparative Cultural Studies.)

### PAS 110. Fundamentals of Business Organization and Management (3)

Survey of business functions in the African-American community. Enterprise management in the broadest sense is designed to integrate experience into a coherent, realistic approach to business organization and management. (Available for General Education, Lifelong Learning.)

### PAS 113A. Approaches to University Writing A (3)

*Prerequisite: EPT score of 120-141 or higher. Corequisite: UNIV 061.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Individual tutoring is available through the Pan African Studies Department or the Learning Resource Center.

### PAS 113B. Approaches to University Writing B (3)

*Prerequisite: PAS 113A. Corequisite: UNIV 061.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113B. Individual tutoring is available through the Pan African Studies Department or the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

### PAS 114A. Approaches to University Writing A (1)

*Prerequisite: EPT score of 142-150.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114A. Individual tutoring is available through the Pan African Studies Department or the Learning Resource Center.

### PAS 114B. Approaches to University Writing B (3)

*Prerequisite: PAS 114A.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evi-

dence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114B. Individual tutoring is available through the Pan African Studies Department or the Learning Resource Center.

**PAS 115. Approaches to University Writing (3)**

*Prerequisite: EPT score of 151 or higher.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Individual tutoring is available through the Learning Resource Center.

**PAS 151. Freshman Speech Communication (3)**

*Prerequisite: EPT score of 151 or higher.* Introduction to the study of the human communication process, with emphasis on techniques of contemporary African-American rhetoric. Includes intensive practice in public speaking, logical reasoning and critical listening. (Cross listed with CHS 151 and COMS 151.) (Available for General Education, Oral Communication.)

**PAS 155. Freshman Composition (3)**

*Prerequisites: Score of 151 or higher on the CSU English Placement Test; Grade of CR in PAS 097 and/or 098, if appropriate.* Directed writing course designed to teach students to write effectively in the Standard American dialect, find facts to develop their ideas, organize and present material clearly, logically and persuasively, and read multicultural expository prose critically and accurately. (Cross listed with AAS, CHS, and ENGL 155.) (Available for General Education, Analytical Reading/Expository Writing.) (IC)

**PAS 158. Learning Paradigms in Pan African Studies (3)**

This course is designed to explore and analyze paradigms of learning germane to the Pan African Studies discipline through intensive, interactive strategies in the classroom. The course will not only expose students to how others visualize the learning process, but it will encourage them to utilize these paradigms in their academic experience, be it skills acquisition of any variety (investigation, documentation, writing, managing time and resources strategies) or mastering content-specific issues from other courses in which they may be enrolled.

**PAS 161. American Political Institutions: A Black Perspective (3)**

Examines the development and dynamics of American political institutions and political processes as they relate to the experiences of African-Americans. (Meets Title 5 requirements for Constitution of the U.S. and California State and Local Government.)

**PAS 165. Introduction to Pan Africanism (3)**

*Strongly recommended for all PAS Majors and Minors.* Examines the origin and growth of the Pan African movement from the 19th century to the present time. Critical evaluation of major Pan African ideologists and practitioners. Successes and failures of the Organization of African Unity from 1963 to the present time. (Available for General Education, Comparative Cultural Studies.)

**PAS 171. Classical African Civilization (3)**

Surveys the various great societies of Africa, covering a period from the origin of humankind in East Africa to the great Zulu Kingdom led by Chaka in the 19th century. In addition to describing the leadership, histories and achievements of African figures like Imhotep, Zoser, Ahkmaten, Muhammed and Chaka, attention is given to understanding the cultures, technologies and social organization of their respective societies. (Cross listed with HIST 145.)

**PAS 201. Economics of the African-American Community I (3)**

Introduction to the operations of the U.S. economy, with special emphasis on the interrelationships between producers, consumers and governmental components. Emphasizes the economic position and economic needs of the African-American community within this system. (Available for General Education, Social Sciences.)

**PAS 204. Race and Critical Thinking (3)**

*Prerequisite: Instructor consent. Recommended Corequisite or Preparatory: Completion of Freshman Composition (GE, Analytical Reading/Expository Writing.)* Introduction to the basic concepts of deductive logic as a dimension of critical reasoning and the practical usage of those concepts in discussing, analyzing and critiquing ideas on race, ethnicity, gender, sexual orientation and other relevant issues of modern society. (Available for General Education, Critical Thinking.)

**PAS 210. Consumer Behavior in the African American Community (3)**

Aimed at the development of tools and concepts necessary for the rational allocation of consumer resources. Emphasis on significant consumer decisions facing African-Americans. Evaluates government functions that affect consumers in the context of their potential impact on personal decision making. (Available for General Education, Lifelong Learning.)

**PAS 220. Psychological Environment of the African-American (3)**

Study of contemporary American society and its effects on the African-American community from the perspective of basic psychological concepts and theories. (Available for General Education, Social Science.)

**PAS 221. Social Environment of the African-American (3)**

Study of contemporary American society and its effects on the African-American community from the perspective of basic sociological concepts and theories. (Available for General Education, Social Sciences.)

**PAS 222. Elements of the Human Geography of the African-American (3)**

Geography of the African-American, including customs, economics, social and political adjustments. (Available for General Education, Social Sciences.)

**PAS 226. Traditional African Cultures (3)**

Comprehensive overview of the African societies and cultures from the earliest times to the 20th century. Case studies in ethnology, kinship and marriage, economic and political institutions, religion and philosophy, the arts and the interaction between the traditional African cultures and the non-African cultures. (Available for General Education, Comparative Cultural Studies.)

**PAS 244. African-American Literature to 1930 (3)**

Survey of the literature of African-Americans from 1770 to 1930, analyzing their literary development within a historical context to gain insight into the fullness of the impact of America on African-American life. Includes writings of enslaved Africans and freed persons, the novels and poetry of the post-Emancipation period, the writings of the period 1920-1930 (commonly referred to as the Harlem Renaissance), and the work of writers in the Caribbean and in South America from the time of the Haitian Revolution.

**PAS 245. African-American Literature Since 1930 (3)**

Introduction to major African-American authors from 1930 to the present. The work of Richard Wright, Margaret Walker, Gwendolyn Brooks, Ralph Ellison, John Killens, James Baldwin and LeRoi Jones are studied, as well as the works of writers who formed the Black Arts Movement that flourished during the 1970s. Focus on understanding the dynamics of African-American life through an analysis of the literature. (Available for General Education, Arts and Humanities.)

**PAS 246. Introduction to African-American Drama (3)**

Chronological survey of the major works of representative African-American dramatists from 1925 to the present, with particular focus on their techniques, ideas and the cultural milieu in which the works were produced. (Available for General Education, Arts and Humanities.)

**PAS 271. African-American History to 1865 (3)**

Survey course examining the themes and issues in the history of the African peoples in America up to 1865. (Meets Title 5 requirements in American History, Institutions and Ideals.)

**PAS 272. African-American History Since 1865 (3)**

Survey in African-American history covering the period 1865 to the present. Includes the Reconstruction era, post-Reconstruction, the Negro Renaissance, the Civil Rights Movement, and black nationalism. (Meets Title 5 requirements in American History, Institutions and Ideals.)

**PAS 274. History of Caribbean Societies Since the 1830s (3)**

Historical approach to an analysis of the political, social and economic development of the Caribbean islands after the 1830s. General focus centered on post-emancipation colonialism and the development of a particular form of neo-colonialism that manifested itself after independence. Also includes an examination of the emergence of contemporary radical political movements.

**PAS 280. Workshop in Creative Writing for Minority Students (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Introductory workshop in minority creative writing. Students learn to write in the three genres—prose fiction, drama and/or poetry. In addition, students have the opportunity to meet and work with distinguished professional minority writers. Students should consult with the instructor about the semester syllabus and the Minority Literature Concentration. (Cross listed with ENGL and CH S 280) (Available for General Education, Arts and Humanities.)

**PAS 282. African Religion in the New World (3)**

Survey examination of religion as practiced by Africans once removed from their homeland of Africa. Major emphasis on the importance of religion to the development of African culture in the New World. (Available for General Education, Arts and Humanities.)

**PAS 300. Contemporary Issues in the African-American Community (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* In-depth exploration of the social, political, cultural, and economic issues in the African-American community. Provides insight on the extent to which these issues affect the black individual and family in their interaction with the majority American society. Available for Section B of the Multicultural Requirement for Credential Candidates. (Available for General Education, Comparative Cultural Studies.)

**PAS 301. Economics of the African-American Community II (3)**

Study of the household as a consuming unit and the firm as a producing unit, exploring factor costs, price determinatives and income distribution, with emphasis on the African-American community and its lack of control over the means of production.

**PAS 311. Black Psychology (3)**

Examination of the major theories and research by black scholars addressing the development of a black psychology. Comparisons and contrasts are made with "Traditional" Psychology. Pan Africanist perspective is taken (i.e., African, Caribbean, etc.).

**PAS 320. African-American Personality Development (3)**

*Prerequisites: PAS 220 and/or an introductory course in Psychology; Completion of the Lower Division writing requirement.* Study of the psychological manifestations of oppression of the African-American. Emphasis on

the understanding and analysis of psychological stress, the assessment of this phenomenon and discussion of the solutions for the creation of a positive self-concept in African-American people. (Available for General Education, Comparative Cultural Studies.)

**PAS 322. African-American Family (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Summarizes structural evaluation and role formation of the family. Presents an overview of the traditional African family and socialization process. Focuses on the impact of slavery and post-slavery institutions on the formation of the black family in America. (Available for General Education, Comparative Cultural Studies.)

**PAS 324. The Black Woman in Contemporary Times (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Examines the social, political and psychological forces impacting the lives of black women and focuses on their expectations, opportunities, problems and goals in contemporary society. Also studies the black woman's contribution to the family and the community. (Available for General Education, Comparative Cultural Studies.)

**PAS 325. The Black Man in Contemporary Times (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Examines the social, political and psychological forces affecting the lives of black men and focuses on their expectations, opportunities, problems and goals in contemporary society. Studies contributions of the black male and his relationships to the family, community and American society. (Available for General Education, Comparative Cultural Studies.)

**PAS 331/L. African-American Religious Music: History and Literature and Gospel Lab (2/1)**

*Corequisite: PAS 331L.* Designed as a lab experience for gospel musicians, choir directors and singers. Study and analysis of African-American religious music, beginning with the work and spiritual songs of slavery and continuing to the present. Study and rehearsal techniques of gospel music, hymns, spirituals and anthems.

**PAS 332. African-American Music I (3)**

Historical analysis of African-American music, from its beginnings in Africa until its flowering in New Orleans.

**PAS 333. Coltrane (3)**

Analysis of styles and the evolution of the spiritual eminence of his works of art. The outgrowth of new forms and the influence of avant-garde music as it gradually transforms into neo-classicism.

**PAS 337. Black Images On the Silver Screen (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* In-depth exploration of the history and criticism of the black image on the American screen and the social and political background from which the African-American image has developed. Emphasizes technical (how a film is composed) and critical (the meaning that can be drawn from those compositions) perspectives. (Available for General Education, Lifelong Learning.)

**PAS 344. Literature of the Caribbean and African Experience (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Examines the literatures of people in Africa and the Caribbean. Establishes the theoretical, historical, cultural and imagistic framework within which that literature operates. Thematic analysis of the literatures with respect to both their comparative experiences and their specifically different backgrounds. (Available for General Education, Arts and Humanities.)

**PAS 345. African-American Autobiography (3)**

Analysis of the thematic patterns in autobiographies from the slave narrative through the present, focusing on the continuity of the African-American experiences from a psychological, sociological and historical point of view.

**PAS 346. Contemporary Black Female Writers (3)**

*Prerequisite:* CHS, ENGL or PAS 155; *Completion of the Lower Division writing requirement.* Study of selected works by contemporary Black women writers, including Alice Walker, Toni Morrison, Ntozake Shange and Maya Angelou. Themes explored include correcting the images, movement from masking to self-revelation, male-female relationships and search for wholeness. (Available for General Education, Arts and Humanities.)

**PAS 350. Advanced Writing (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Advanced course emphasizing alternative strategies in expository writing skills development. Focus on such purposeful forms of discourse as reports, the research paper, critiques, the essay examination and selected forms of correspondence. cursory review of grammar, mechanics and syntax is offered as needed. More intensive review of such basics are available on an individualized basis in the Writing Center. The course is equivalent to but not a substitute for ENGL 305 or BUS 305.

**PAS 355. Black World News Practicum (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Supervised work on a newsletter published 3 times a semester. Students work as writers-reporters, photographers and editors. Includes analysis of black urban press and black college newspapers.

**PAS 361. African-American Politics (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Introduction to the politics of the African-American, including political socialization, voting, interest groups, political parties and the political behavior within the sub-cultural context. (Available for General Education, Social Sciences.)

**PAS 364. Politics of Non-violent Direct Action (3)**

Examination of the theory and practice of non-violent direct action. Examines theoretical perspective and the practical applications as implemented by William Whipple, Gandhi, Albert Luthuli, Martin Luther King Jr., and others.

**PAS 366. Colonialism in Africa (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Comprehensive overview of the motives of the European colonizers of Africa and the methods they used in their colonial pursuits. Consequences of the colonization of Africa and the slave trade. African liberation movements. Case studies of colonialism in specific regions and/or specific countries. (Available for General Education, Comparative Cultural Studies.)

**PAS 367. African American Social Movements (3)**

This course is an examination of the theory and practice of African-American social movements designed to introduce students to the various approaches and models used to study social movements and apply them to the African American experience. Theories that promulgate non-violent direct action, the use of violence and other non-systemic activity will be assessed within the context of African American movement activity. Although the focus is on the Modern Civil Rights and Black Power movements, the course also examines the early abolition and Negro Convention Movement for historical context. Contemporary grassroots activism in the African-American community and African American global initiatives, including African American involvement in the anti-apartheid movement in South Africa, will be examined.

**PAS 368. Politics of Hip Hop (3)**

Examination of African-American youth and society through the medium of Hip Hop. This course also explores the connection between the Hip Hop community and the various political, corporate and institutional actors that influence society both locally and globally. Special emphasis is placed on the impact of Hip Hop on African identity, culture and politics. Required for the PAS Minor.

**PAS 376. African Enslavement in the New World (3)**

Comparative study of African enslavement in the Caribbean, Latin America and the U.S. Examines various patterns of enslavement in Africa, Brazil, Latin America, the West Indies and North America. Includes the examination of the transatlantic slave trade and the origins of New World enslavement. Also explores the different approaches to abolition and the nature of emancipation (freedom in the New World). (Cross listed with HIST 355.)

**PAS 382. Traditional Religions of Africa (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Comprehensive overview of the religious concepts, beliefs and practices of the Africans in their traditional socio-cultural milieu, including the interaction of the traditional African religions, Christianity and Islam. Case studies of the religions of selected African ethnic groups. (Available for General Education, Arts and Humanities.)

**PAS 386. African-American Philosophical Thought (3)**

Survival study of African-American philosophies. Includes an analysis of selected traditional Western philosophies and their relevance to the black experience.

**PAS 391. Psychological Foundations of Education (Elementary)(3)**

*Not applicable for any Credential program.* Overview of the development of African-American children from preschool to adolescence. Explores psychological perspectives on learning, development and instruction. 40 hours of field work required.

**PAS 392. Sociological Foundations of Education (Elementary)(3)**

*Not applicable for any credential program.* Introduction to the social and philosophical foundations of elementary education. Analysis of various proposals regarding the purpose, structure and conduct of elementary education. Emphasis on African-American children as their particular situation differs from other ethnic and racial groups. Includes a minimum of 30 hours of field activities.

**PAS 392A-Z. Field Work in the African-American Community (3)**

Gives students a working knowledge of the African-American community, including its culture, problems and current efforts to solve problems in the community.

**PAS 395. Bilingualism in the African-American Community (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Explores the genesis of African-American linguistic patterns, with a focus on acquisition of Ebonics as a socio-cultural linguistic phenomenon. Available for Section C of the Multicultural Requirement for Credential Candidates.

**PAS 397. Educational Systems of Africa (3)**

Analysis, discussion and evaluation of the educational goals and practices of selected representative nations in Sub-Saharan Africa. Consideration of the problems related to the role of education as a vehicle for the social, economic and political transformation of the developing African states.

**PAS 417. Equity and Diversity in Schools (3)**

Prepares teacher candidates to examine principles of educational equity, diversity and the implementation of curriculum content and school practices for elementary/secondary students. Focuses on the history and culture of a specific ethnic experience and a comparative analysis made with other ethnic groups in California. Engages students to examine, critique and reflect on their personal biases regarding children of color. (Cross listed with ELPS, CHS, AAS and ARMN 417.)

**PAS 420. The Black Child (3)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Exploration of African-American childhood socialization dynamics through an examination of the forces of constraint and development. Examines theories of social development and achievement. Available for Section A of the Multicultural Requirement for Credential Candidates.

**PAS 421. Strategies for Black Child Development (3)**

*Prerequisite:* PAS 322 or 420. Application of the sociology of development as a conceptual framework for African-American development. Studies strategies of black community services for the black child. Explores theoretical guidelines for program planning. In addition, reviews basic professional skills for community work.

**PAS 447. African-American Theatre (3)**

Critical analysis of African-American Theatre as an art form and as a vehicle of change. Covers the history and function of African-American Theatre and many other aspects of theatre art, from playwriting to basic acting exercises. Often, a play is produced.

**PAS 451. Mass Communication in the African-American Community (3)**

*Prerequisite:* Grade of "B" or better in PAS 151 or instructor consent. Historical analysis of the role played by the mass media in the African-American community from slavery to contemporary times. Particular attention given to evaluating the African-American press.

**PAS 465. Pan Africanism: Development of An Ideology 1865-1954 (3)**

In-depth look at the theoretical nexus that spawned anti-colonialism and African independence from the mid 19th century to the present.

**PAS 466A. The United Nations, the Organization of African Unity, and Africa (3-3)**

Focuses on the origin, history and the OAU in African politics and the post-colonial development of the continent. Basic principles of foreign policy that operate between the various countries in Africa and how the foreign policies of non-African countries influence the activities and decisions of the OAU. Emphasizes the economics social and political security issues of the country to be represented at the Model OAU Conference.

**PAS 466B. Model Organization of African Unity Practicum (3-3)**

In-depth preparation of the delegation on the specific issues on an African nation to be dealt with at the OAU Conference in Washington, D.C. Seminar with group discussions, presentations and country resolutions.

**PAS 484. African-American Belief and Western Christianity (3)**

*Prerequisite:* PAS 282 or 382, or RS 100 or 200 or 210, or instructor consent. Examination of the major tenets of African-American folk belief systems/theology and the major strands ("liberal" and "conservative") of Western Christian thought, together with a comparison of the images and ideas of each.

**PAS 486SOC. Social Science Career Internship (3)**

*Prerequisites:* Upper Division standing in a social or behavioral science major; *Appropriate methods course as specified by the Department; Instructor consent.* Social and behavioral science principles are applied to the work place. Students complete learning contracts and submit written reports related to their internships. At least 9 hours per week of supervised fieldwork is required. (Cross listed with GEOG, POLS, PSY and SOC 486SOC.) (See section on Academic Internships.)

**PAS 487. Pan African Philosophical Thought (3)**

Study of the attitudes between Africans across tribal, national, socio-cultural, linguistic and other lines. Explication of the economic, social, and political aspirations of people of African descent from c. 1400 A.D. to the present, including the doctrine of their universal brotherhood and common destiny.

**PAS 496A-Z. Experimental Topics Courses in Pan African Studies (3)**

Experimental Topics courses in Pan African Studies, with course content to be determined.

**PAS 498. Proseminar in Pan African Studies (3)**

*Primarily restricted to students majoring in Pan African Studies, but open to other students with instructor consent.* Capstone course for the PAS Major, usually taken during the final semester before Baccalaureate graduation. Focuses on a synthesis of the information, concepts, material and methodologies provided in previous PAS classes. Provides intensive practice in utilizing that data in theoretical analysis and other evaluative activities.

**PAS 499A-C. Independent Study (1-3)****Graduate**

Available for students in the Interdisciplinary Masters Program.

**PAS 590A-Z. Selected Topics in the Advanced Studies of Afro-American Experience (3)**

*Prerequisite:* Senior-level undergraduate or graduate standing. Advanced examination of selected themes in Pan African studies. Topics include the global dimensions of the Afro-American experience; political economy of the diaspora; Afro-Americans in the electoral process; and the African novel, drama and fiction of the 20th century, among others.

**PAS 595A-Z. Experimental Topics Courses (3)**

Selected topics in Pan African Studies course content to be determined.

**PAS 600. Seminar in Pan African Research Methodologies (3)**

*Prerequisite:* Conditional or Classified graduate status, or instructor consent. Provides a thorough, intensive exploration of current theories and methodological techniques relevant to serious research on the African diasporan world. Students analyze previous research, do their own projects and participate in group discussions regarding research issues.

**PAS 601. Seminar in Applied Public Policy Issues and the Black Comparative Urban Experience (3)**

*Prerequisite:* Conditional or Classified graduate status, or instructor consent. Applied comparative public policy analysis and its consequences. Looks at selected urban environments in the U.S., South America, the Caribbean and continental Africa in terms of the urban black population in those areas. How are public policy decisions that impact those populations made? Who makes them? How and to what degree do those decisions affect the political and economic well-being of those populations?

**PAS 602A-C. Special Topics in Black Aesthetics and Black Political Economy (1-3)**

*Prerequisite:* Conditional or Classified graduate status, or instructor consent. Seminar explores and analyzes the African diaspora from the writings of great political, historical and literary thinkers. Covers several dimensions of analysis and evaluation of such work. Student research papers from this class should be publishable: (A) Reading the African Novel, Reading the African Drama, Analytical Compendium of African-American Fiction During the 20th Century, and African-American Drama Since 1950. (B) African Independence: An Analysis After 45 Years, Africentrism and the New World Order, and Pan Africanism in the 21st Century. (C) The Political Economy of Underdevelopment in the Diaspora, The Political Economy of Law and Blacks in the Diaspora, and The Political Economy of Blacks in the Electoral Process.

### Programs

**B.A., Philosophy**

**Minor in Philosophy**

### The Major

The characteristic activity of philosophy, from its beginning to the present day, has been reasoned reflection about ourselves, our world, the good life and our relations with one another. Philosophy deals with issues of fundamental human importance—the scope and limits of human knowledge, the nature of reality and truth, what it means to be a person, the relation of mind to body, the sources of value and obligation, the evaluation of social institutions and practices, and the nature of logic and correct reasoning.

The Philosophy Major is designed to acquaint students with the distinctive nature of philosophical activity and to help them think critically about matters of fundamental philosophical concern.

### Department Programs

The Department offers a Major and a Minor. The Major provides a well-rounded background in the traditional areas of Western philosophy. It is appropriate for students who plan to do post-graduate work in philosophy, law or related fields, as well as for students who wish to double-major or to combine in other ways the study of philosophy with their other interests. The Minor is a traditional minor in philosophy.

### Awards

The Sidney A. Luckenbach Memorial Award, established by the family and friends of former philosophy professor Sidney A. Luckenbach Sr., is a cash award presented each year to one or more academically outstanding Philosophy Majors. Recipients are selected by a faculty committee, with preference given to students interested in logic and philosophy of science and to students with need.

### Careers

The skills and training one receives in philosophy are valuable in many careers. A degree in Philosophy can be evidence to prospective employers that one is capable of creative and analytic thinking and is proficient in reasoning, problem solving and written and oral communication.

Philosophy students have successfully transferred their philosophic backgrounds and skills to many fields, including business, law, politics, theology, secondary education, social work and counseling, the health professions, computer technology, journalism, editing and publishing and government service.

A Major or Minor in Philosophy can be especially useful to students seeking entry into professional programs in these areas and many others. Philosophy Majors tend to do well on such pre-professional tests as the Graduate Record Exam (GRE) and the Law School Admissions Test (LSAT). The study of philosophy also can be intensely satisfying for its own sake: It enhances one's ability to enjoy and pursue a lifetime of learning, self-expression and exchange and debate of ideas concerning ourselves and the meaning of our existence.

### Academic Advisement

The Department of Philosophy helps students select the program and courses that best satisfy their individual needs and interests. Contact Department Chair Tim Black or Associate Chair Adam Swenson at (818) 677-2757 to schedule an appointment. The Humanities Student Services Center/EOP reviews students progress to ensure that the requirements of a Major or Minor in Philosophy are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the Student Services Center/EOP.

### Student Learning Outcomes of the Undergraduate Program

The Department of Philosophy has adopted the following program goals for the Philosophy Major:

1. Students will develop a critical understanding of the work of central thinkers in the Western philosophical tradition.
2. Students will read and comprehend philosophical texts.
3. Students will respond critically and analytically to philosophical positions, arguments, and methodologies, including positions, arguments, and methodologies involved in the investigation of significant issues in epistemology, metaphysics and value theory.
4. Students will defend their own philosophical positions and arguments.
5. Students will write well-organized philosophical essays in which they clearly articulate philosophical positions and arguments.
6. Students will write well-organized philosophical essays in which they clearly and effectively present and defend their own philosophical positions and arguments.
7. Students will apply the basic concepts essential to a critical examination and evaluation of argumentative discourse, where this includes learning how to determine whether an argument is valid and whether it is sound.

### Honors in Philosophy Program

The purpose of the Honors in Philosophy Program is to identify exceptional philosophy students and to encourage and recognize the development of their potential.

#### **To be eligible to participate in the Program, a student must:**

1. Be a declared Philosophy Major;
2. Have completed a minimum of 9 units of Upper Division Philosophy courses at CSUN;
3. Maintain a GPA of 3.5 or above in courses counting toward completion of the Major and a GPA of 3.3 or above in all courses taken at CSUN; and
4. Obtain the recommendation of a full-time faculty member.

#### **To graduate with Honors in Philosophy, a student must:**

1. Complete a minimum of 45 units in letter-graded courses taken at CSUN;
2. Complete the requirements for a B.A. Degree in Philosophy with a GPA of 3.5 or above in courses counting toward completion of the Major and a GPA of 3.3 or above in all courses taken at CSUN;
3. Complete successfully an Honors Thesis consisting of a minimum of 5,000 words. To undertake an Honors Thesis, students must enroll in either PHIL 497 (Senior Research Seminar) or PHIL 499 (Independent Study) during their senior year and declare to their

instructor by the end of the second week of instruction their intention to undertake an Honors Thesis. (Those who choose to write an Honors Thesis in PHIL 499 are not exempt from PHIL 497.) These must earn a grade of "A" or "A-" from the instructor of record in order to count as satisfactorily completed.

Students who successfully complete the above requirements are graduated with Honors in Philosophy and receive a special certificate from the Department. The designation "Honors in Philosophy" is noted on the student's transcript and academic record.

## Requirements for the Bachelor of Arts Degree Major in Philosophy

### 1. Required courses (20 units)

- PHIL 201 Ancient Philosophy (3)
- PHIL 202 Modern Philosophy (3)
- PHIL 230 Introduction to Formal Logic (3)
- PHIL 497 Senior Research Seminar (3)

#### Choose 1 of the following:

- PHIL 360 Ethical Theory (4)
- PHIL 365 Social and Political Philosophy (4)

#### Choose 1 of the following:

- PHIL 350 Epistemology (4)
- PHIL 352 Metaphysics (4)
- PHIL 355 Philosophy of Mind (4)

### 2. Electives (24 units)

Choose 8 courses (24 units), subject to the following conditions:

- a. At least 4 courses (12 units) must be 400-level Philosophy courses (other than PHIL 497 and 499).
- b. Other eligible electives include all Philosophy courses numbered 210 and higher, excluding those taken as requirements above.
- c. Up to 6 elective units may be in closely related Upper Division courses outside Department (subject to the approval of the Department Chair).

## Minor in Philosophy

### 1. Required Courses (10-11 units)

#### Choose 1 of the following:

- PHIL 100 General Logic (4)
- PHIL 200 Critical Reasoning (3)
- PHIL 210 Reasoning in the Sciences (3)
- PHIL 230 Introduction to Formal Logic (3)

#### Choose 1 of the following:

- PHIL 201 Ancient Philosophy (3)
- PHIL 202 Modern Philosophy (3)

#### Choose 1 of the following:

- PHIL 350 Epistemology (4)
- PHIL 352 Metaphysics (4)
- PHIL 355 Philosophy of Mind (4)
- PHIL 360 Ethical Theory (4)
- PHIL 365 Social and Political Philosophy (4)

**Electives (9 Units)** Choose 3 additional Philosophy courses (9 units) other than PHIL 499, at least 2 of which are Upper Division courses.

## Course List

### PHIL 100. General Logic (4)

*Prerequisites:* Completion of GE Analytical Reading/Expository Writing; GE Mathematics or MATH 210. Not open to students who have completed PHIL 200. Study of deductive and inductive inferences. Attention to formal and informal fallacies and the relations of logic and language. Emphasis on critical thinking and the attainment of skill in it. (Available for General Education, Critical Thinking.)

### PHIL 150. Introduction to Philosophical Thought (3)

*Prerequisite:* EPT score of 151 or higher, or credit in Developmental Writing 098, or completion of GE Analytical Reading/Expository Writing. Introduction to philosophy emphasizing the concepts of knowledge, reality and mind, with attention to such topics as skepticism, dogmatism, common sense, materialism, mind-body dualism, the existence of God and free will. (Available for General Education, Arts and Humanities.)

### PHIL 160. Introduction to Philosophy: Society and Values (3)

*Prerequisite:* EPT score of 151 or higher, or credit in Developmental Writing 098, or completion of GE Analytical Reading/Expository Writing. Introduction to philosophy emphasizing questions concerned with evaluations of human conduct, social institutions and works of art. (Available for General Education, Arts and Humanities.)

### PHIL 165. Today's Moral Issues (3)

*Prerequisite:* EPT score of 151 or higher, or EPT and a credit in 098. Philosophical examination of a range of today's moral issues, such as abortion, euthanasia, physician-assisted suicide, the environment, war and world hunger. (Available for General Education, Arts and Humanities.) (IC)

### PHIL 200. Critical Reasoning (3)

*Prerequisites:* Completion of GE Analytical Reading/Expository Writing; GE Mathematics or MATH 210. Not open to students who have completed PHIL 100. Examination of the relationship between logic and language. Accelerated introduction to the concepts essential to the identification, analysis and evaluation of arguments, with attention to deduction, induction and common fallacies. Emphasis on the application of these concepts. (Available for General Education, Critical Thinking.)

### PHIL 201. Ancient Philosophy (3)

*Prerequisite:* EPT score of 151 or higher, or credit in Developmental Writing 098, or completion of GE Analytical Reading/Expository Writing. Critical examination of selected topics in ancient Western philosophic thought, with attention to the pervasive influence of Plato and Aristotle. (Available for General Education, Arts and Humanities.)

### PHIL 202. Modern Philosophy (3)

*Prerequisite:* EPT score of 151 or higher, or credit in Developmental Writing 098, or completion of GE Analytical Reading/Expository Writing. Critical examination of topics in modern philosophic thought selected from the writings of such figures as Descartes, Spinoza, Locke, Leibniz, Berkeley, Hume and Kant. (Available for General Education, Arts and Humanities.)

### PHIL 210. Reasoning in the Sciences (3)

*Prerequisites:* Completion of GE Analytical Reading/Expository Writing; GE Mathematics or MATH 210. Concepts, methods, and limitations involved in the systematic procedures of empirical inquiry in the sciences and in ordinary thought, such as probability, measurement, causal relations, statistical inference, and the concepts of law and theory. (Available for General Education, Critical Thinking.)

### PHIL 230. Introduction to Formal Logic (3)

*Prerequisites:* Completion of GE Analytical Reading/Expository Writing; GE Mathematics or MATH 210. Introduction to modern deductive logic, including propositional logic and theory of quantification. (Available for General Education, Critical Thinking.)

### PHIL 296A-Z. Experimental Topics in Philosophy (3-4)

Selected topics in philosophy, with course content to be determined.

### PHIL 303. Sexual Ethics (3)

*Prerequisite:* Completion of Lower Division writing requirement. Examination of some of the moral issues in sexual conduct.

**PHIL 305. Business Ethics and Public Policy (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Application of the insights and methods of moral philosophy to a practical examination of contemporary moral problems and normative issues of public policy concerning the conduct and responsibilities of individuals and firms in business and the organization and role of business and economic institutions in society. Regular written assignments are required. (Available for General Education, Lifelong Learning.)

**PHIL 310. Philosophical Problems (3)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of Philosophy. Not open to students who have completed PHIL 150. Introduction for Upper Division students to such central philosophic problems as knowledge, truth, reality and mind. Regular written assignments will be required. (Available for General Education, Arts and Humanities.)

**PHIL 313. Philosophy of Film and Literature (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Investigation of philosophical concepts and problems relating to and expressed through film and literature. Regular written assignments will be required.

**PHIL 319. Medieval Philosophy (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. An introduction to medieval European philosophy through some of its most important texts and through an examination of some of the forces that helped to shape it, including the interaction of classical Greek philosophies, for example those of Plato and Aristotle with Christian, Islamic and Jewish traditions.

**PHIL 325. Philosophy and Biology (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. The course addresses philosophical issues central to biological sciences, including the creation/evolution debate and other social implications of contemporary biological theories. It also introduces basic concepts in philosophy of science, such as demarcation, scientific explanation and the scientific method, which are necessary for examining the above issues. (Available for General Education, Arts and Humanities.)

**PHIL 330. Philosophy of Science (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Analysis of the concepts reality, knowledge, mind and theory that attempts to answer the question: What is the character of the scientific picture of human beings and nature? (Available for General Education, Arts and Humanities.)

**PHIL 331. Intermediate Formal Logic (3)**

*Prerequisite:* PHIL 230. Continuation of PHIL 230. Preliminary examination of various extensions of classical formal systems, such as theory of identity, theory of descriptions and modal logic, and an introduction to the methods of appraising formal systems (consistency and semantic completeness).

**PHIL 338. Philosophy of Religion (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Examination of the conceptual problems religious claims pose and arguments regarding knowledge of God, evil, miracles, death and survival, religious experience, religion and morals, faith and reason. Regular written assignments will be required.

**PHIL 339. Philosophical Issues in Religion (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Philosophical examination of issues relating to religion, including whether religion requires belief, how drugs relate to religious experience, the nature of mysticism, and the relation between religion and ethics.

**PHIL 341. Kierkegaard and Nietzsche (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Examination of some of the main issues in the thought of Kierkegaard and the thought of Nietzsche, such as subjective and objective truth, the logic of faith, the category of transvaluation and the death of God.

**PHIL 342. Existentialism (3)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of Philosophy. Study of representative works of the major existentialists, with the aim of discovering the fundamental tenets of existentialism. Emphasis placed on existentialism's influence on and relevance to contemporary thought. Regular written assignments will be required.

**PHIL 343. Indian Philosophy (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of Indian philosophy from the Vedic period to the modern era, with attention to relationships between India's philosophies, history and culture. (Available for General Education, Comparative Cultural Studies.)

**PHIL 344. Chinese Philosophy (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of Chinese philosophy from Confucius to the People's Republic, with attention to relationships between China's philosophies, history and culture. Regular written assignments required. (Available for General Education, Comparative Cultural Studies.)

**PHIL 348. Philosophy and Feminism (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Philosophical analysis of the concept woman in contemporary U.S. culture and other central concepts in feminist thought, including the nature of oppression, equality and justice, and relationships between sex, gender and sexuality. A critical study of philosophical issues in feminism. Regular written assignments will be required. (Available for General Education, Comparative Cultural Studies.)

**PHIL 349. Contemporary Social and Political Issues (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Philosophical examination of the concepts, values and arguments relevant to understanding and evaluating practical social and political issues central to current public debates concerning such matters as civil and political rights, social and economic inequality, the environment, biotechnology, economic policy and global trade, and the national defense. Regular written assignments will be required. (Available for General Education, Arts and Humanities.) (IC)

**PHIL 350. Epistemology (4)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of Philosophy. An investigation into ways of acquiring knowledge and into traditional epistemological problems. Attention will be given to major positions, such as empiricism and rationalism, foundationalism and coherentism, and skepticism, and to theories of knowledge, such as reliabilism and contextualism. The course also will include regular sessions on philosophical writing and methodology. Regular written assignments will be required.

**PHIL 352. Metaphysics (4)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of Philosophy. An examination of traditional and contemporary views concerning major issues in metaphysics, such as continued existence through change, universals and particulars, realism, causation, necessity and possibility, possible worlds and time and space. Also will include regular sessions on philosophical writing and methodology. Regular written assignments will be required.

**PHIL 355. Philosophy of Mind (4)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of Philosophy. An examination of traditional and contemporary

views concerning the mind, such as the nature of consciousness and intentionality, the prospects and limitations of artificial intelligence and psychological explanation, the nature of mental causation, and the relationship between mind and body. Also will include regular sessions on philosophical writing and methodology. Regular written assignments will be required.

**PHIL 360. Ethical Theory (4)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of *Philosophy*. A survey of classical and contemporary theoretical approaches to moral philosophy. Covers such theories as utilitarianism, deontology, virtue ethics, ethical relativism and divine command. Also will include regular sessions on philosophical writing and methodology. Regular written assignments will be required.

**PHIL 365. Social and Political Philosophy (4)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of *Philosophy*. A survey of classical and contemporary theoretical approaches in social and political philosophy. Covers such theories as anarchy, absolutism, liberalism, libertarianism, communism, communitarianism and socialism, as well as topics concerning justice, liberty, equality, pluralism and democracy. Also will include regular sessions on philosophical writing and methodology. Regular written assignments will be required.

**PHIL 380. Aesthetics (3)**

*Prerequisites:* Completion of the Lower Division writing requirement; 3 units of *Philosophy*. An examination of issues in aesthetics, such as the nature of art, the paradox of fiction, the role of censorship, the idea of inefability, the concepts of beauty and genius, and the relationship of art to morality, cognition, aesthetic experience and theory.

**PHIL 390. Philosophy of Law (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Philosophical questions arising from the analysis and evaluation of concepts and theories connected with law, including law and morality, justice, freedom and responsibility, and the nature of judicial reasoning. Regular written assignments will be required.

**PHIL 396A-Z. Selected Topics in Philosophy (3-4)**

Selected topics in philosophy, with course content to be determined.

**PHIL 401. Advanced Ancient Philosophy (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 201. *Recommended Preparatory:* PHIL 350, 352, 355, 360, or 365. A detailed study of selected works by Ancient philosophers, with an emphasis on Plato and Aristotle.

**PHIL 402. Advanced Modern Philosophy (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 202; *Recommended Preparatory:* PHIL 350, 352, 355, 360 or 365. A detailed study of selected works by modern philosophers from Descartes to Mill.

**PHIL 403. Contemporary Philosophy (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 350, 352, 355, 360 or 365. An examination of selected contemporary philosophical writings.

**PHIL 406. Philosophy of Sex, Gender, Sexuality (3)**

*Prerequisites:* PHIL 303 or 348, or QS 301 or 302. An examination of issues in philosophy of sex, gender or sexuality, with emphasis on non-normative sex, gender or sexuality.

**PHIL 431. Philosophical Topics in Logic (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 230. *Recommended Preparatory:* PHIL 350, 352, 355, 360 or 365. An examination of philosophical issues in logic, such as the nature of and choices between logical systems and the relation of logic to traditional philosophical issues.

**PHIL 435. Seminar in Philosophy of Biology (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 325, 330, 350 or 355. An advanced study of key concepts and issues in philosophy of biology,

including adaptation, complexity and self-organization, fitness, function, species, unit of selection and evolutionary development. Examination of the nature of biological sciences and its relation to other sciences and theories. Regular writing assignments required.

**PHIL 439. Phenomenology (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 350, 352 or 355. A study of the phenomenological approach to such issues as the nature of consciousness, the role of intentionality and meaning in experience, and our experiential relations to others and the world around us. The focus will usually be on one or more historically significant phenomenologists, such as Husserl, Heidegger and Merleau-Ponty, Sartre.

**PHIL 445. Philosophy of Language (3)**

*Prerequisites:* 6 units of *Philosophy* including PHIL 350, 352 or 355. An examination of selected topics concerning the nature of language, such as sense and reference, theories of meaning, pragmatics and speech acts, meaning skepticism, the analytic/synthetic distinction and metaphor.

**PHIL 446. Advanced Social and Political Philosophy (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 360 or 365. An advanced analysis and evaluation of selected topics in social and political philosophy, such as the nature of justice, equality, liberty, political rights and the law.

**PHIL 450. Advanced Epistemology and Metaphysics (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 350, 352 or 355. An advanced study of selected topics in epistemology, such as internalism and externalism, rationalism and empiricism, theories of knowledge and skepticism.

**PHIL 452. Advanced Metaphysics (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 350, 352 or 355. An advanced study of selected topics in metaphysics, such as continued existence through change, universal and particular, realism, causation, necessity and possibility, possible worlds and time and space.

**PHIL 455. Advanced Philosophy of Mind (3)**

*Prerequisites:* 6 units of *Philosophy* including 350, 352 or 355. *Recommended Preparatory:* PHIL 355. An advanced study of selected topics concerning the mind and its relations to reality, such as the nature of consciousness, intentionality, mental causation, psychological explanation, artificial intelligence and the mind/body problem.

**PHIL 460. Advanced Ethical Theory (3)**

*Prerequisites:* 6 units of *Philosophy*, including PHIL 360 or 365. An investigation of advanced topics in ethical theory, such as moral responsibility, justice, human rights, intrinsic values and the justification of punishment.

**PHIL 495. Advanced Philosophy of the Sciences (3)**

*Prerequisite:* 6 units of *Philosophy*, including PHIL 330, 350, 352 or 355. An advanced study of 1 or more key issues in the philosophy of science or philosophical issues in the special sciences, such as explanation, causality, laws and theories, theory evaluation, realism and anti-realism, and relations between the physical and social sciences.

**PHIL 496A-Z. Selected Topics in Philosophy (3-4)**

Selected topics in philosophy, with course content to be determined.

**PHIL 497. Senior Research Seminar (3)**

*Preparatory:* Senior standing; At least 21 units in *Philosophy* courses. Extended research project on a topic of the student's choice. Collaborative learning is required. Team projects are encouraged. Focus is on formulating a thesis and pursuing appropriate means of developing it in a research project. Class meetings focus on research methodologies and on students discussion of their projects.

**PHIL 499A-C. Independent Study (1-3)**

Course may be repeated for credit.

# Physical Science

College of Science and Mathematics

Department of Geological Sciences

Live Oak Hall (LO) 1202

(818) 677-3541

[geology.csun.edu](http://geology.csun.edu)

PHSC 170 is a required course in most Options of the Liberal Studies Program.

## Course List

---

### **PHSC 170. Introduction to physical science (4)**

*Prerequisite:* Qualifying score on the ELM Exam or satisfaction of the ELM exemption requirement. *Recommended corequisite or preparatory:* MATH 210. Survey of the nature, modes of production and limits of scientific knowledge, as well as the major discoveries of chemistry and physics, including atomic and kinetic molecular theory, chemical and physical properties of matter, chemical bonding and reactivity, motion, forces, energy and nuclear phenomena. 4 hours of classroom activity per week, plus outside investigative assignments.

# Physical Therapy

## College of Health and Human Development

**Chair: Sheryl Low**

Jacaranda Hall (JD) 1537

(818) 677-2203

[www.csun.edu/hhd/pt](http://www.csun.edu/hhd/pt)

### Staff

Donna Van Helstrand

### Faculty

Janet Adams, Janna Beling, Aimie Kachingwe, Sheryl Low, Witaya Mathiyakom, Beth Phillips, Peggy Roller

### Programs

Graduate Degree:

**Master in Physical Therapy (MPT)**

**Doctor of Physical Therapy (DPT)**

### The Profession

The physical therapy profession contributes to the health needs of society. It focuses primarily on individuals whose impairment is related to the neuromusculoskeletal, pulmonary, integumentary and cardiovascular systems, on methods of evaluating the functions of these systems, and on the selection and application of the appropriate therapeutic procedures to maintain, improve or restore these functions

### Mission Statement

The mission of the Department of Physical Therapy is to prepare a competent, reflective physical therapist professional who is able to effectively practice both independently and interdependently in an ever-changing health-care environment.

### Academic Advisement

All students in the Program must have advisement in order to enroll. Group advisement sessions are held regularly for students interested in applying for entrance into the Program. The advisement schedule is available on the Department website. Inquiries also can be directed to the Department by email. All faculty members serve as academic advisors.

### The Program

The Department is no longer accepting application for the MPT Degree. All new admissions are for the Doctor of Physical Therapy (DPT) Degree only. The MPT Degree prepares students for licensure as physical therapists. The Program requires 3 academic years and 3 summers to complete. Full-time enrollment is necessary. All students must maintain a GPA of 3.0 or higher throughout the Program. To be eligible for licensure, the student must complete all requirements for the academic and clinical component.

Students are required to commute to affiliating hospitals for some professional courses, and reliable transportation is necessary. Students also are required to provide their own uniforms.

Students presently enrolled in the Master of Physical Therapy Program will finish the Degree and be eligible to sit for the licensure exam. The PT program is accredited by the Commission on Accreditation in Physical Therapy Education as an entry-level PT program for both the MPT and DPT.

### A. Admission Requirements

1. Completion of a Bachelors Degree prior to enrollment in the Program;
2. Admission to Graduate Studies at CSUN;
3. Completion of all prerequisite courses or approved substitutions prior to enrollment with a minimum grade of "C" and minimum GPA of 3.0;

4. To meet the graduate writing assessment, students must achieve a 3.0 or higher on the analytical writing portion of the GRE;
5. Completion of the Graduate Examination (GRE) prior to filing the application;
6. The applicant must score at the 50th percentile or higher on at least 1 area of the GRE if the undergraduate cumulative GPA is less than 3.0;
7. Application through the Department via Physical Therapist Computerized Application System (PTCAS);
8. Completion of at least 200 hours of volunteer or work experience under the supervision of a licensed physical therapist; and
9. 3 letters of recommendation with at least 1 letter from a licensed physical therapist.

### The following criteria are reviewed by the Selection Committee:

1. Academic success as reflected by performance in required prerequisites (GPA 3.0 minimum; a "C-" grade or below is not accepted), and performance in undergraduate course work;
2. 3 letters of recommendation, with at least 1 from a physical therapist;
3. Validation of relevant experience (minimum of 200 documented work/volunteer hours.) At least two-thirds of validated hours must be in a physical therapist-supervised setting; and
4. GRE (Graduate Record Examination).

Meeting the above criteria does not guarantee acceptance into the MPT Program.

The PT Program begins in the Fall semester. The initial filing period to the University for the Fall semester is the previous Fall. The deadline for submitting the application is Jan. 15. Applicants are notified by April.

### Student Learning Outcomes of the Graduate Program

After successful completion of both the MPT and the 10-unit clinical component of the Physical Therapy curriculum, graduates will be prepared to:

1. Demonstrate comprehension of the foundational sciences of anatomy, physiology, neurology and pathology for application to the physical therapy clinical setting.
2. Communicate in a professional manner to a diverse population in classroom activities and in clinical settings.
3. Practice in an independent and interdependent role in providing physical therapy services.
4. Practice as a reflective and competent clinician whose clinical decision-making skills are guided by ethical practice standards.
5. Apply the principles of evidence-based practice to clinical decision making.
6. Analyze the research literature, formulate an expert clinical opinion on physical therapy practice and defend that position in written and oral form before the physical therapy community.

### 1. Prerequisite Courses

The following courses or approved substitutions (taken at CSUN or other accredited college or university) must be successfully completed prior to enrollment in classes:

|      |        |   |
|------|--------|---|
| BIOL | 101/L  | General Biology/Lab (3/1)   |
| BIOL | 211    | Human Anatomy (2)   |
| BIOL | 212    | Lab Studies in Human Anatomy (1)  |
| BIOL | 281    | Human Physiology (3)  |
| BIOL | 282    | Lab Studies in Human Physiology (3)   |
| CHEM | 101/L  | General Chemistry I/Lab (4/1)   |
| CHEM | 102/L  | General Chemistry II/Lab (4/1)  |
| HSCI | 390/L  | Biostatistics/Lab (or Statistics) (3/1)                                     |
| PHY  | 100A/L | General Physics/Lab (3/1)   |
| PHY  | 100B/L | General Physics/Lab (3/1)   |
| PSY  | 150    | Principles of Human Behavior<br>(or General or Developmental Psychology)(3) |
| PSY  | 310    | Behavior Disorders (or Abnormal Psych) (3)                                  |

**2. Required Qualifying Courses (31 units)**

Taken at CSUN during 1st year of the Program while in Conditionally Classified graduate status.

|    |        |   |
|----|--------|---|
| PT | 300    | Introduction to Physical Therapy (2)                                      |
| PT | 301/L  | Applied Anatomy for PT/Lab (2/2)  |
| PT | 302/L  | Applied Physiology for PT/Lab (3/1)                                       |
| PT | 302A   | Pathophysiology (3)   |
| PT | 400/L  | Applied Biomechanics for PT/Lab (3/1)                                     |
| PT | 401A/L | Therapeutic Procedures I/Lab (2/1)  |
| PT | 404    | Proseminar: Physical Disability and Illness (3)                           |
| PT | 405/L  | Applied Neuroscience/Lab (3/1)  |
| PT | 449/L  | Introduction to Patient Management: Evaluation and Intervention/Lab (2/2) |

**3. Required MPT Courses (44 units)**

Taken during the second and third years of the program after achieving "Classified" Graduate status.

|    |        |   |
|----|--------|---|
| PT | 502/L  | Evaluation and Treatment of the Pediatric Patient/Lab (2/1)   |
| PT | 503/L  | Therapeutic Intervention for Peripheral Dysfunction/Lab (2/2) |
| PT | 504/L  | Therapeutic Intervention for Spinal Dysfunction/Lab (2/2)     |
| PT | 506A   | Evidence-Based Practice I (2)                                 |
| PT | 506B   | Evidence-Based Practice II (2)                                |
| PT | 549/L  | Cardiopulmonary Assessment and Treatment/Lab (2/1)            |
| PT | 601B   | Business and Professional Concepts in Physical Therapy (3)    |
| PT | 601E   | Educational Practices in Physical Therapy (2)                 |
| PT | 601G   | Geriatric Rehabilitation (2)                                  |
| PT | 601T/L | Therapeutic Procedures II/Lab (1/1)                           |
| PT | 603/L  | Prosthetics, Orthotics, Advanced Gait Analysis/Lab (2/1)      |
| PT | 604/L  | Neurologic Physical Therapy I/Lab (2/2)                       |
| PT | 605    | Pharmacology/Imaging for PT (2)                               |
| PT | 607    | Differential Diagnosis in Physical Therapy (2)                |
| PT | 608    | Neurological Processes in Development and Aging (2)           |
| PT | 609/L  | Neurologic Physical Therapy II/Lab (2/2)                      |

**4. Electives (2 units)**

Select 2 units from the following or from other graduate courses as approved by advisor:

|    |       |  |
|----|-------|--|
| PT | 505   | Advanced Neuroscience (2)                |
| PT | 507/L | Cardiac Rehabilitation/Lab (1/1)         |
| PT | 606/L | Advanced Analytical Anatomy/Lab (2/1)    |
| PT | 610   | Seminar in Advanced Orthopedics (3)      |
| PT | 690   | Special Topics in Physical Therapy (1-3) |
| PT | 699A  | Independent Study (1)                    |
| PT | 699B  | Independent Study (2)                    |

**5. Required Culminating Experience (3 units)**

PT 697 Directed Comprehensive Studies (3)  
The MPT Degree Program requires this Culminating Experience. These units do not apply to the required 46-unit total.

**6. Clinical Component (10 units)**

All students must successfully complete the 10-unit Clinical Component of the curriculum. These units do not apply to the MPT Degree and are earned during clinical internships and practicums scheduled during the academic year and Summers.

|    |            |                    |
|----|------------|--------------------|
| PT | 509C, D, E | Internship (2,2,4) |
| PT | 580A, B    | Practicum (1,1)    |

|   |           |
|---|-----------|
| <b>Total Units Required, Excluding Culminating Experience</b> | <b>46</b> |
| <b>Culminating Experience</b>                                 | <b>3</b>  |
| <b>Total Units Required for the MPT Degree</b>                | <b>49</b> |

**Required DPT Courses (114 units)**

|    |       |   |
|----|-------|---|
| PT | 700/L | Applied Human Anatomy for Physical Therapists I/Lab (2/2)     |
| PT | 701/L | Applied Human Anatomy for Physical Therapists II/Lab (2/1)    |
| PT | 702/L | Applied Biomechanics for the Physical Therapist I/Lab (2/1)   |
| PT | 703/L | Applied Biomechanics for the Physical Therapist II/Lab (2/1)  |
| PT | 704/L | Applied Physiology and Physiological Assessment/Lab (4/1)     |
| PT | 706/L | Applied Neuroscience/Lab (3/1)                                |
| PT | 708   | Pathophysiology (3)   |
| PT | 710   | Physical Therapy Management I (2)                             |
| PT | 711/L | Physical Therapy Management II/Lab (2/1)                      |
| PT | 712/L | Electrotherapeutics/Lab (2/1)                                 |
| PT | 720/L | Musculoskeletal Practice Management I/Lab (3/2)               |
| PT | 730/L | Musculoskeletal Practice Management II/Lab (2/2)              |
| PT | 732/L | Neurologic Practice Management I/Lab (2/2)                    |
| PT | 733/L | Neurologic Practice Management II/Lab (2/2)                   |
| PT | 734/L | Cardiovascular and Pulmonary Practice Management/Lab (3/1)    |
| PT | 740/L | Musculoskeletal Practice Management III/Lab (2/1)             |
| PT | 742/L | Pediatric Practice Management/Lab (2/1)                       |
| PT | 744   | Geriatric Practice Management (2)                             |
| PT | 750   | Evidence-Based Physical Therapy Practice I (2)                |
| PT | 752A  | Evidence-Based Physical Therapy Practice II (1)               |
| PT | 752B  | Evidence-Based Physical Therapy Practice III (2)              |
| PT | 760   | Professional Practice I (2)                                   |
| PT | 762   | Educational Theories and Practices in Physical Therapy (2)    |
| PT | 770   | Pharmacological Interventions (2)                             |
| PT | 771   | Lifespan Sciences (3)   |
| PT | 772/L | Pathological Gait and Functional Movement Analysis/Lab (1/1)  |
| PT | 773   | Medical Imaging (2)   |
| PT | 774   | Medical Screening (2)   |
| PT | 775/L | Orthotics and Prosthetics/Lab (2/1)                           |
| PT | 776   | Integrated Patient Management (2)                             |
| PT | 778/L | Topics in Therapeutic Exercise, Wellness and Health/Lab (2/1) |
| PT | 780   | Professional Practice II (2)                                  |
| PT | 790   | Clinical Practice I (1)                                       |
| PT | 792   | Clinical Practice II (1)                                      |
| PT | 794   | Clinical Education I (1)                                      |
| PT | 794I  | Clinical Internship I (3)                                     |
| PT | 796   | Clinical Education II (2)                                     |
| PT | 796I  | Clinical Internship II (4)                                    |
| PT | 797   | Directed Comprehensive Exam (3)                               |
| PT | 798   | Clinical Education III (2)                                    |
| PT | 798I  | Clinical Internship III (4)                                   |

**Electives (6 units)**

Select at least 2 courses from the following or from other graduate courses as approved by advisor:

|    |      |  |
|----|------|--|
| PT | 785  | Special Topics in Physical Therapy (3) |
| PT | 799A | Independent Study (1)                  |
| PT | 799B | Independent Study (2)                  |
| PT | 799C | Independent Study (3)                  |

**Course List****PT 300. Introduction to Physical Therapy (2)**

*Prerequisite: Acceptance into MPT Program.* Investigation and critique of the development and role of physical therapy in health-care management. Includes ethics, medical terminology and basic principles of clinical research.

**PT 301/L. Applied Anatomy for Physical Therapists and Lab (2/2)**

*Prerequisite: Acceptance into MPT Program. Recommended Corequisite: PT 301L.* This course promotes an understanding of the structural and functional organization of the human body, with an emphasis on the neuromusculoskeletal system. Dissected and prosected cadavers, models and audiovisual materials are used to identify and study 3-dimensional relationships and their application to the principles of human movement. Although gross anatomy is the primary emphasis, histology, arthrology and myology are integrated with structure and function. 2 hours lecture, 6 hours lab per week.

**PT 302/L. Applied Physiology and Physiological Assessment, and Lab (3/1)**

*Prerequisite: Acceptance into MPT Program. Recommended Corequisite: PT 302L.* Principles of circulatory, respiratory, neuromuscular, integumentary and metabolic physiology as applied to physical therapy procedures and therapeutic exercise. Utilization of cadaver dissection, selected demonstrations and assigned readings. 3 hours lecture, 3 hours lab per week.

**PT 302A. Pathophysiology (3)**

*Prerequisite: Acceptance into MPT Program.* Study of abnormal functioning of neuromusculoskeletal, circulatory, respiratory, digestive, integumentary, metabolic and endocrine systems. Includes causes of disease, inflammatory response and immune system.

**PT 400/L. Applied Biomechanics for the Physical Therapist and Lab (3/1)**

*Prerequisite: Acceptance into MPT Program. Recommended Corequisite: PT 400L.* Covers the biomechanical and kinesiological principles underlying the assessment of normal and pathological movement and function. Integration of knowledge from anatomy, biology and physics with current concepts in biomechanics as applied to the assessment of patients/clients is required. Lectures will focus on the biomechanical processes underlying human movement in health and disease, including muscle and tissue mechanics, leverage, internal and external torque production, kinematics and kinetics. Labs will focus on the application of these principles to client/patient evaluation, including analysis of normal and pathological gait. 3 hours lecture, 3 hours lab per week.

**PT 401A/L. Therapeutic Procedures I and Lab (2/1)**

*Prerequisite: Acceptance into MPT Program. Recommended Corequisite: PT 401AL.* Physiological and physical basis for the selection and application of therapeutic modalities in the treatment of musculoskeletal, neuromuscular and integumentary disorders. Emphasis on the application of thermal agents, hydrotherapy, traction and massage. 2 hours lecture, 3 hours lab per week. (Credit/No Credit only)

**PT 404. Proseminar: Physical Disability and Illness (3)**

*Prerequisite: Acceptance into MPT Program.* Study of multifaceted adjustment problems of hospitalization, illness and disability. Emphasis on patient management and intervention.

**PT 405/L. Applied Neuroscience and Lab (3/1)**

*Prerequisite: Acceptance into MPT Program. Recommended Corequisite: PT 405L.* Study of normal structure and function of the peripheral and central nervous system as a basis for understanding clinical manifestations seen in neurological disorders. 3 hours lecture, 3 hours lab per week.

**PT 449/L. Introduction to Patient Management: Evaluation and Intervention and Lab (2/2)**

*Prerequisite: Acceptance into MPT Program. Recommended Corequisite: PT 449L.* Theoretical bases and principles of patient evaluation, mobility and therapeutic exercise. Students learn to design and implement treatment programs to promote and maintain the health and wellness of patients with a variety of disease processes, orthopedic and neurological impairments.

**Graduate****PT 502/L. Evaluation and Management of the Pediatric Patient and Lab (2/1)**

*Prerequisite: PT 609/L. Recommended Corequisite: PT 502L.* Evaluation procedures and treatment techniques for various pediatric disabilities, including neuromusculoskeletal dysfunctions, mental retardation and learning disabilities. Emphasis is on developing observation skills to recognize developmental delays in infants and toddlers.

**PT 503/L. Therapeutic Intervention for Peripheral Dysfunction and Lab (2/2)**

*Prerequisites: Classified graduate status; Acceptance into MPT Program. Recommended Corequisite: PT 503L.* Evaluation, methods of therapeutic intervention and clinical decision-making in the management of pathological conditions of the musculoskeletal system. Emphasis on mobilization of the peripheral joints and extremities.

**PT 504/L. Therapeutic Intervention for Spinal Dysfunction and Lab (2/2)**

*Prerequisite: PT 503/L. Recommended Corequisite: PT 504L.* Evaluation, methods of therapeutic intervention and clinical decision making in the management of pathological conditions of the musculoskeletal system. Emphasis on spinal mobilization techniques.

**PT 505. Advanced Neuroscience (2)**

*Prerequisite: PT 609L.* Application of motor control and motor learning theories to rehabilitation of individuals with neuromuscular and musculoskeletal dysfunction.

**PT 506A. Evidence-Based Physical Therapy Practice I (2)**

*Prerequisites: HSCI 390 or equivalent statistics; Classified graduate status; Acceptance into MPT Program.* An introduction to the research processes that apply to evidence-based clinical decision making in the practice of physical therapy.

**PT 506B. Evidence-Based Physical Therapy Practice II (2)**

*Prerequisite: PT 506A.* Application of research design and appraisal of scientific literature to evidence-based clinical decision making in physical therapy. The student will develop a position paper addressing the accuracy and precision of diagnostic tests, the power of prognostic markers and the efficacy of therapeutic, rehabilitative and preventive interventions in a specific diagnostic group.

**PT 507/L. Cardiac Rehabilitation and Lab (1/1)**

*Prerequisite:* PT 549/L. *Recommended Corequisite:* PT 507L. Principles and practice of cardiac rehabilitation, including definitive evaluation and program planning for patients following myocardial infarction and/or patients following medical or surgical procedures related to cardiac abnormalities. Utilization of selected demonstrations and assigned readings. Field trips to clinics or hospitals may be required as part of lab section.

**PT 509C. Internship in Physical Therapy I (2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. Experience in evaluation, program planning and application of physical therapy procedures in a supervised clinical environment. A minimum of 240 clock hours in supervised clinical experience. Part of the program clinical component. Offered Summer semester only. An academic internship course. (Credit/No Credit only)

**PT 509D. Internship in Physical Therapy II (2)**

*Prerequisite:* PT 509C. Experience in evaluation, program planning and application of physical therapy procedures in a supervised clinical environment. A minimum of 240 clock hours in supervised clinical experience will be reflected upon completion of 509D summer session. An academic internship course. (Credit/No Credit only)

**PT 509E. Internship in Physical Therapy (4)**

*Prerequisite:* PT 509D. Experience in evaluation, program planning and application of physical therapy procedures in a supervised clinical environment. A minimum of 480 clock hours in supervised clinical experience will be reflected upon completion of 509E. An academic internship course. (Credit/No Credit only)

**PT 549/L. Cardiopulmonary Assessment and Treatment and Lab (2/1)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. *Recommended Corequisite:* PT 549L. Principles of pulmonary and cardiovascular pathophysiology and the physical therapy evaluation and treatment of those disorders. Utilization of selected demonstrations and assigned readings. 2 hours lecture, 2 hours lab per week.

**PT 580A. Clinical Practicum I (1)**

*Prerequisite:* Acceptance into MPT Program. Directed supervision in selected physical therapy clinical facilities. Seminar on clinical decision-making process and documentation. An academic internship course. (Credit/No Credit only)

**PT 580B. Clinical Practicum II (1)**

*Prerequisite:* PT 580A. Directed supervision in selected physical therapy clinical facilities. Emphasis on orthopedic or cardiopulmonary disabilities. Application of educational principles to the clinical setting. An academic internship course. (Credit/No Credit only)

**PT 601B. Business and Professional Concepts in Physical Therapy (3)**

*Prerequisite:* Classified graduate status; Acceptance into MPT Program. This course examines the role of the physical therapist in administration and management of patient care, personnel and resources, with consideration of ethical, medical and legal implications. Concepts of organizational change, conflict management and leadership style are included.

**PT 601E/CS Educational Practices in Physical Therapy (2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT program. Theory, principles and current research applicable to patient/family education, patient compliance and management, staff development and clinical and continuing education. Requires design and application of an educational unit in a physical therapy, educational or other health-care setting implemented through a community service requirement of 20-40 hours.

**PT 601G. Geriatric Rehabilitation (2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. In-depth investigation of selected topics in geriatric rehabilitation.

**PT 601T/L. Therapeutic Procedures II and Lab (1/1)**

*Prerequisite:* PT 401A/AL. *Recommended Corequisite:* PT 601TL. Physiological and physical bases for the selection of electrotherapeutic/electrodiagnostic procedures in the treatment and evaluation of neuromuscular and musculoskeletal disorders. Latest research and methodology in evaluation and treatment of wounds, including debridement, topical agents, dressing techniques and use of physical therapeutic modalities. Field trips to clinical facilities will be required. 1 hour lecture, 3 hours lab per week.

**PT 603/L. Prosthetics, Orthotics and Advanced Gait Analysis and Lab (2/1)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. *Recommended Corequisite:* PT 603L. In-depth study of the principles of orthotic and prosthetic management in patients with impairments and disabilities. Includes a systematic approach to gait analysis in normal and pathological conditions. 2 hours lecture, 3 hours lab per week.

**PT 604/L. Neurological Physical Therapy I and Lab (2/2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. *Recommended Corequisite:* PT 604L. The first of a 2-semester course sequence focusing on management of patients/clients with neurological impairments and disabilities. Emphasis on examination procedures and clinical decision making.

**PT 605. Pharmacological Intervention and Clinical Diagnostic Measures (2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. A study of pharmacological interventions for individuals with dysfunction of the neuromusculoskeletal, cardiopulmonary and integumentary systems. Also includes radiographic and clinical lab tests used in diagnosing a variety of diseases and disabilities.

**PT 606/L. Advanced Analytical Anatomy and Lab (2/1)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. *Recommended Corequisite:* PT 606L. This course is designed to provide the MPT student with an opportunity to perform detailed dissections on human cadavers and to appraise and critically evaluate the scientific literature associated with the anatomical region of interest. Each student will choose 4 anatomical regions to dissect (e.g., cervical spine, ankle, sacroiliac joint, brain, knee, etc.). Dissected cadavers, models and audiovisual materials may be used as supplementary aids to identify structures and study 3-dimensional kinematic relationships as they apply to the principles of human movement.

**PT 607. Differential Diagnosis in Physical Therapy (2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. Study of signs and symptoms manifested by a variety of diseases and the process of relating them to specific medical conditions. Identification of symptom complexes and the systematic techniques used in arriving at the PT diagnosis. Process of and reasons for referral to other practitioners.

**PT 608. Neurological Processes in Development and Aging (2)**

*Prerequisites:* Classified graduate status; Acceptance into MPT Program. Study of the relationship between the principles of neurology and the development of motor skills from birth through senescence. Emphasis on applying those principles to physical therapy practice. May require field observations.

**PT 609/L. Neurological Physical Therapy II and Lab (2/2)**

*Prerequisites:* PT 604/L; *Classified graduate status; Acceptance into MPT program. Recommended Corequisite:* PT 609L. Advanced study of the philosophies, treatment and intervention skills for the neurologic patient. 2 hours lecture, 6 hours lab per week.

**PT 610. Seminar in Advanced Orthopedics (3)**

*Prerequisite:* PT 503/L, 504/L. Development of advanced examination and evaluation skills and therapeutic intervention strategies in the management of musculoskeletal system dysfunctions. Emphasis on critical thinking, collaborative learning in clinical decision making, evidence-based practice and service learning. Students will be involved in a minimum of 24 hours of service learning administering physical therapy services at CSUN's Student Health Center to meet the needs of a diverse student community. 2 hours seminar per week. 24 hours service learning per semester.

**PT 690A-J. Special Topics in Physical Therapy (1-3)**

*Prerequisites:* *Classified graduate status; Acceptance into MPT Program.* A seminar-discussion course centering on advanced study in the subject matter areas at the graduate level in physical therapy. Emphasis will be placed on critical thinking, and collaborative learning in clinical decision-making and evidence-based practice.

**PT 697. Directed Comprehensive Studies (3)**

Culminating Experience. (Credit/No Credit only)

**PT 698. Thesis or Graduate Project (1-6)**

Enrollment with advisor approval only. (Credit/No Credit only)

**PT 699A-D. Independent Study (1-4)**

Enrollment with advisor approval only. Investigation of a significant issue related to the physical therapy field.

**DPT Courses****PT 700/L. Applied Human Anatomy For Physical Therapists I and Lab (2/2)**

*Prerequisite:* Admission to the DPT Program. *Corequisite:* PT 700L. The first of a 2-semester course sequence that promotes an understanding of the structural and functional organization of the human body, with an emphasis on the appendicular skeleton and the neuromusculoskeletal system. Dissected and prosected cadavers, models and audiovisual materials are used to identify and study 3-dimensional relationships and their application to the principles of human movement. Although gross human anatomy of the appendicular skeleton is the primary emphasis, histology, arthrology, myology and mechanics will be integrated with structure and function.

**PT 701/L. Applied Human Anatomy For Physical Therapists II and Lab (2/1)**

*Prerequisite:* PT 700/L. *Corequisite:* PT 701L. The second of a 2-semester course sequence designed to promote an understanding of the structural and functional organization of the human body, with focus on the axial skeleton, including organ systems. Histology, arthrology, myology and mechanics will be integrated with gross structural understanding. In addition, problem solving and discussion of clinical signs and symptoms associated with disruption to various anatomical structures in the axial skeleton is expected.

**PT 702/L. Applied Biomechanics For The Physical Therapist I and Lab (2/1)**

*Prerequisite:* Admission to the DPT Program. *Corequisite:* T 702L. Designed to explore the biomechanical and kinesiological principles underlying movement during upper extremity (UE) functional activities and exercise. Lectures will focus on the biomechanical prin-

ciples underlying human movement, including muscle and tissue mechanics, muscle and joint leverage, internal and external torque production, kinematics, and kinetics as they relate to the assessment and treatment of patients/clients. Labs will focus on the application and integration of these principles and assessment of UE function, including manual muscle testing and goniometry. Case studies will be integrated into both lecture and lab.

**PT 703/L. Applied Biomechanics For The Physical Therapist II and Lab (2/1)**

*Prerequisite:* PT 702/L. *Corequisite:* PT 703L. Designed to explore the biomechanical and kinesiological principles underlying movement of the spine and lower extremities during functional activities and exercise. Lectures will focus on applied biomechanics of the lower extremities and spine, with an emphasis on functional activities such as gait. Labs will focus on the application and integration of these principles, and assessment of LE and spine function including manual muscle testing, goniometry and dynamometry. Case studies will be integrated into both lecture and lab.

**PT 704/L. Applied Physiology And Physiological Assessment and Lab (4/1)**

*Prerequisite:* Admission to the DPT Program. *Corequisite:* PT 704L. Principles of circulatory, respiratory, neuromuscular, integumentary and metabolic physiology as applied to physical therapy procedures and therapeutic exercise.

**PT 706/L. Applied Neuroscience and Lab (3/1)**

*Prerequisite:* Admission to the DPT Program. *Corequisite:* PT 706L. Study of the normal structure and function of the peripheral and central nervous system as a basis for understanding clinical manifestations seen in individuals with neurologic disorders. Includes an in-depth introduction to neuroanatomy, neuropharmacology and neurophysiology.

**PT 708. Pathophysiology (3)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. Study of abnormal functioning of neuromusculoskeletal, circulatory, respiratory, digestive, integumentary, metabolic, and endocrine systems.

**PT 710. Physical Therapy Management I (2)**

*Prerequisite:* Admission to the DPT Program. Instruction in foundational clinical skills, including subjective examination, history taking, and medical record documentation for the practice of physical therapy. Introduction of theoretical basis and principles of patient physical evaluation and manual therapy techniques.

**PT 711/L. Physical Therapy Management II and Lab (2/1)**

*Prerequisite:* PT 710. *Corequisite:* PT 711L. Covers basic patient handling techniques and therapeutic physical modalities. Emphasis on body mechanics, draping, positioning, bed mobility, transfer, ambulation, ambulatory aids, wheelchair mobility and fitting. Physiological and physical bases for selection and application of therapeutic physical modalities, including thermal, mechanical, electromagnetic and hydrodynamic agents in treatment of musculoskeletal, neuromuscular and integumentary disorders.

**PT 712/L. Electrotherapeutics and Lab (2/1)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. *Corequisite:* PT 712L. Clinical evidence for selection and application of electrotherapy and electrophysiologic assessment procedures commonly used in evaluation and treatment of neuromuscular and musculoskeletal disorders using physiologic and physical principles. Three major areas of electrotherapy, including pain, neuromuscular and wound management, will be covered through lectures and hands-on experiences. Electrophysiologic assessment, including diagnostic electromyography (EMG), nerve conduction study (NCS) and kinesiology electromyogra-

phy (KEMG), will be integrated. Covers research and methods in evaluation and management of wounds, including debridement, topical agents, dressings and use of physical modalities.

**PT 720/L. Musculoskeletal Practice Management I and Lab (3/2)**

*Prerequisite:* PT 700/L. *Corequisite:* PT 720L. The first of a 3-semester course sequence focusing on the examination and treatment of patients with musculoskeletal dysfunction. Emphasis is on the evaluation of and evidence-based treatment interventions for orthopaedic peripheral dysfunction and impairments.

**PT 730/L. Musculoskeletal Practice Management II and Lab (2/2)**

*Prerequisites:* Successful completion of all first-year course work in the DPT Program. *Corequisite:* PT 730L. The second of a 3-semester course sequence focusing on the examination and treatment of patients with musculoskeletal dysfunction. Emphasis is on the evaluation of and evidence-based treatment interventions for orthopaedic spinal dysfunction and impairment.

**PT 732/L. Neurologic Practice Management I and Lab (2/2)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. *Corequisite:* PT 732L. Physical therapy examination and management of patients/clients with neurologic system impairments and related activity limitations. Emphasis is on knowledge, choice, technical performance, interpretation of results, and clinical decision making related to sensory, motor and functional testing for patients with nervous system pathology.

**PT 733/L. Neurologic Practice Management II and Lab (2/2)**

*Prerequisites:* PT 732/L. *Corequisite:* PT 733L. Advanced study of the philosophies, treatment approaches and intervention skills used for the physical therapy management of patients/clients with neurologic system dysfunction. Emphasis is on the choice and application of evidence-based treatment interventions and the development of clinical decision-making skills.

**PT 734/L. Cardiovascular and Pulmonary Practice Management (3/1)**

*Prerequisite:* Successful completion of all first-year course work in DPT Program. *Corequisite:* PT 734L. Principles of cardiovascular and pulmonary pathophysiology and the physical therapy evaluation and treatment of patients with these disorders. Aspects of acute care will be emphasized. Utilization of selected demonstrations, lab activities and assigned readings.

**PT 740/L. Musculoskeletal Practice Management III and Lab (2/1)**

*Prerequisites:* PT 720/L, PT 730/L. *Corequisite:* 740L. The third of a 3-semester course sequence focusing on the development of differential diagnosis, advanced examination and evaluation skills and therapeutic intervention strategies in the management of musculoskeletal system dysfunction. Emphasis is on critical thinking, collaborative learning in clinical decision making, evidence-based practice and service learning. Students will apply theory to practice through service learning administering physical therapy services at CSUN's Student Health Center to meet the needs of a diverse student community.

**PT 742/L. Pediatric Practice Management and Lab (2/1)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. *Corequisite:* PT 742L. Examination, evaluation, and management of pediatric populations with genetic and acquired disorders resulting in impairments in neurologic and musculoskeletal systems, cognitive dysfunction and learning disabilities. Emphasis is on developing observation skills to identify developmental delays in infants and toddlers.

**PT 744. Geriatric Practice Management (2)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. Designed to develop the student's ability to choose optimal interventions for the older adult by integrating the basic sciences and

evidence-based application of examination, evaluation and intervention. The continuum of the elite older adult athlete to the frail older adult will be explored to describe issues related to wellness, prevention, disease and disability. Physical therapy interventions designed for the older adult in various clinical settings, including acute care, inpatient rehabilitation, outpatient clinics and home health, will be discussed.

**PT 750. Evidence-Based Physical Therapy Practice I (2)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. An introduction to the research methods that apply to evidence-based clinical decision making in the practice of physical therapy.

**PT 752A. Evidence-Based Physical Therapy Practice II (2)**

*Prerequisite:* PT 750. Designed to provide the student with guidance in the appraisal of the medical research through the development of a written doctoral project that evaluates the effectiveness of various physical therapy interventions associated with specific physical therapy diagnoses. Students will develop the doctoral proposal in PT 752A.

**PT 752B. Evidence-Based Physical Therapy Practice III (2)**

*Prerequisite:* PT 752A. Doctoral research project requiring the student under the guidance of faculty to answer a research question that evaluates the effectiveness of various physical therapy interventions associated with specific diagnoses using the latest evidence-based research. Students will write a defense and make an oral presentation of their position.

**PT 760. Professional Practice I (2)**

*Prerequisite:* Admission to the DPT Program. Introduction to the practice of physical therapy, including the APTA code of Ethics and Standards and professional expectations. Study of multifaceted patient adjustment problems of hospitalization, illness and disability. Emphasis on patient management and intervention in culturally-diverse settings.

**PT 762. Educational Theories and Practice In Physical Therapy (2)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. Prepares the physical therapy student to teach in variety of formats and settings for clinical, professional and academic purposes. Understanding of health behavior modification theories, teaching and learning theories, and identification of barriers to learning and their impact on learning and quality of life are essential for successful patient and health education in physical therapy.

**PT 770. Pharmacological Interventions (2)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. A study of pharmacological interventions for individuals with dysfunction of the neuromusculoskeletal, cardiovascular, pulmonary and integumentary systems.

**PT 771. Lifespan Sciences (3)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. Designed to promote an understanding of the relationship between principles of neurology and the development of motor skills from birth through senescence. Emphasis is placed on the acquisition of perceptual-motor skills in infants and toddlers. Motor control and motor learning principles and theories will be discussed. May require off campus client evaluations.

**PT 772/L. Pathological Gait and Functional Movement Analysis And Lab (1/1)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. *Corequisite:* PT 772L. Designed to promote an in-depth understanding of the arthrokinematic, biomechanical, kinematic and kinetic characteristics of gait and running in normal individuals, and functional movement analysis in patients/clients with disabilities and functional limitations. Both observational and instrumented gait analyses will be emphasized when evaluating client videotapes in the laboratory setting. Instrumented analyses include the study of kinesiological electromyog-

raphy, motion analysis (kinematics), ground reaction forces and vectors (kinetics), and stride characteristics. Laboratory sessions will focus on evaluating patients/clients. Patient/clients videos will include individuals diagnosed with cerebral palsy, stroke, post-polio syndrome, multiple sclerosis, Parkinson's disease, spina bifida, spinal cord injury, arthritis, amputations and traumatic brain injury.

**PT 773. Medical Imaging (2)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. Introduction to principles of imaging, including radiography, CT scans, MRI, special studies and arthrography used in diagnosing a variety of medical conditions and diseases.

**PT 774. Medical Screening (2)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. Study of the signs and symptoms manifested by patients/clients and the process of relating them to specific medical conditions and diseases. Instruction on systematic techniques used to identify symptom patterns for the determination of a PT diagnosis. Includes screening process for referral to other medical practitioners.

**PT 775/L. Orthotics and Prosthetics and Lab (2/1)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. *Corequisite:* PT 775L. Designed to promote an in-depth understanding of the arthrokinematic, biomechanical, kinematic and kinetic characteristics of functional movement in patients/clients with amputations and functional loss. Students will study the biomechanical principles of upper and lower extremity orthotic and prosthetic management and apply these principles to patient/client assessment and intervention. Students are expected to integrate their knowledge and skills from previous classes when engaging in the patient/client examination, evaluation, determining a physical therapy diagnosis, prognosis, plan of care and intervention strategies consistent with evidence-based clinical decision making. Both observational and instrumented gait analyses will be emphasized when evaluating client video in the laboratory setting. Patient/client videos will include individuals diagnosed with cerebral palsy, stroke, post-polio syndrome, multiple sclerosis, Parkinson's disease, spina bifida, spinal cord injury, arthritis, amputations and traumatic brain injury.

**PT 776. Integrated Patient Management (2)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. Integrative physical therapy management of patients with complex and/or concurrent medical, surgical, neurological, cardiopulmonary and musculoskeletal conditions will be covered in this course. The purpose of this course is to provide an advanced learning opportunity to the physical therapy student to integrate their physical therapy knowledge in order to create a comprehensive evaluation, assessment, treatment and management plans for patients with complex or concurrent conditions and impairments. Both evidence-based knowledge and anecdotal information related to patient's conditions and impairments and their management will be discussed.

**PT 778/L. Topics In Therapeutic Exercise, Wellness, and Health and Lab (2/1)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. *Corequisite:* PT 778L. Advanced concepts and application of therapeutic exercise to address functional limitations and to promote health, fitness and wellness. Emphasis is on therapeutic exercise as an optimal intervention to address impairments and to promote health and quality of life.

**PT 780. Professional Practice II (2)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. This course examines the role of the professional physical therapist as an administrator and manager of patient care, personnel and resources, with consideration for ethical, medical and legal implications. Various business models, reimbursement practices and organizational structures will be examined.

**PT 785A-Z. Special Topics In Physical Therapy (3)**

*Prerequisite:* Successful completion of all second-year course work in the DPT Program. A seminar-discussion course centering on advanced study in subject matter areas at the doctoral level in physical therapy. Emphasis will be placed on critical thinking, collaborative learning in clinical decision making, and evidence-based practice.

**PT 790. Clinical Practice I (1)**

*Prerequisite:* Admission to the DPT Program. Preparation for the students' clinical internships. Applying the didactic skills and education to the clinical practice setting.

**PT 792. Clinical Practice II (1)**

*Prerequisite:* PT 794/I. Preparation for the students' clinical internships. Applying the didactic skills and education to the clinical practice setting.

**PT 794. Clinical Education I (1)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. *Corequisite:* PT 794I. Supervision and advisement by PT faculty of supervised clinical field work. Student establishes learning plan and goals. Mid-term site visit by faculty. A minimum of 8 weeks in a supervised clinical experience. Summer session. A clinical education course. (Credit/No Credit only)

**PT 794I. Clinical Internship I (3)**

*Prerequisite:* Successful completion of all first-year course work in the DPT Program. *Corequisite:* PT 794. Experience in evaluation, program planning and application of physical therapy procedures in a supervised clinical environment by clinical instructor. A minimum of 8 weeks in a supervised clinical experience. Summer session. A clinical education course. (Credit/No Credit only)

**PT 796. Clinical Education II (2)**

*Prerequisites:* PT 794/I; Successful completion of all second-year course work in the DPT Program. Supervision and advisement by PT faculty of supervised clinical field work. Approximately 12 weeks in a supervised clinical experience. Summer session. A Clinical Education Course. (Credit/No Credit only)

**PT 796I. Clinical Internship II (4)**

*Prerequisites:* PT 794/I; Successful completion of the first two academic years in the DPT Program. *Corequisite:* PT 794I. Experience in evaluation, program planning and application of physical therapy procedures in a supervised clinical environment by clinical instructor. Approximately 12 weeks in a supervised clinical experience. Summer session. A Clinical Education course. (Credit/No Credit only)

**PT 797. Directed Comprehensive Exam (3)**

*Prerequisite:* Enrolled in last semester of course work in the DPT Program. Guided preparation and review for the Culminating Examination. (Credit/No Credit only)

**PT 798. Clinical Education III (2)**

*Prerequisite:* PT 794/I, PT 796/I; *Successful completion of all third-year course work in the DPT Program.* *Corequisite:* PT 798I. Supervision and advisement by PT faculty of supervised clinical field work. Student establishes learning plan and goal, Mid-term site visit by faculty. Approximately 12 weeks in a supervised clinical experience. Summer session. A clinical education course. (Credit/No Credit only)

**PT 798I. Clinical Internship III (4)**

*Prerequisites:* PT 794/I, PT 796/I; *Successful completion of all third-year course work in the DPT Program.* *Corequisite:* PT 798I. Experience in evaluation, program planning and application of physical therapy procedures in a supervised clinical environment under the direct supervision of clinical faculty. Approximately 12 weeks in a supervised clinical experience. Summer session. A clinical internship course. (Credit/No Credit only)

**PT 799 A-C. Independent Study (1-3)**

*Prerequisite:* *Successful completion of all first-year course work in the DPT Program.* Enrollment with advisor approval only. Investigation of a significant issue related to the physical therapy field. (Credit/No Credit only)

# Physics and Astronomy

## College of Science and Mathematics

**Chair: Say-Peng Lim**

**Live Oak Hall 1128**

**(818) 677-2775**

**[www.csun.edu/physics](http://www.csun.edu/physics)**

### *Staff*

Carole Arciero, Konstantin Daskalov, Deborah Klevens, Victor Sarca

### *Faculty*

Ana Cristina Cadavid, Igor Beloborodov, Debi Choudhary, Damian Christian, Nicholas Kioussis, Say-Peng Lim, Gang Lu, Miroslav Peric, Henk Postma, Radha Ranganathan, Deqing Ren, Donna Sheng, Yohannes Shiferaw

### *Emeritus Faculty*

Barney L. Bales, Gary Chapman, Paul Chow, Peter Collas, Duane Doty, John Lawrence, Paul Lee, Mortimer N. Moore, Giovan G. Natale, Roy E. Olson, Robert Park, Paul H. Richter, Robert J. Romagnoli, Harbhajan S. Sandhu, Ryoichi Seki, Stephen Walton

### *Adjunct Faculty:*

Makan Mohageg, Matthew Penn, Alexander Ruzmaikin

## Programs

Undergraduate:

**B.A., Physics**

**B.S., Physics: Physics Option, Astrophysics Option**

**Minor in Physics**

Graduate:

**M.S., Physics**

## The Physics and Astrophysics Majors

Quarks, black holes and chaotic systems—discoveries like these make front-page news as physicists continue to learn about the universe's fundamental structure. Studying how matter and energy behave, beginning physics majors and senior physicists alike find challenges and excitement in solving problems and discovering new concepts. Physicists in business and industry work with revolutionary technology, such as lasers, superconductors, and modern electronic and optical devices. Jobs in these fields are often in high demand and pay well.

Perhaps the most fundamental of all sciences, physics provides a background for understanding other scientific disciplines, as well as many aspects of everyday life. Physics principles are crucial to such diverse applications as home electrical wiring, the motion of a rocket or skydiver, solar energy, and an echocardiogram of the human heart.

Thus, understanding physics helps us make sense of our world.

## Careers

Many students go on to advanced degrees in Physics or related fields. The Department's majors have been accepted by the nation's best graduate schools. Other students go to work immediately. Graduates fill a variety of scientific and technical positions in business and industry, including research scientist, technical staff member or manager, technical salesperson or business owner. Others teach in high schools, community colleges or universities. Some become medical physicists or physicians.

## Academic Advisement

All Physics Majors must consult the appropriate Department faculty advisor each semester before registering. Undergraduate Advisor: Say-Peng Lim; Graduate Advisor: Miroslav Peric.

## Student Learning Outcomes of the Undergraduate Program

Students earning a Bachelor Degree in the Department of Physics and Astronomy will:

1. Demonstrate knowledge of physical principles used to model natural phenomena;
2. Demonstrate ability to convey physical concepts with mathematical expressions, and effectively derive quantitative predictions from a model through mathematical analysis;
3. Demonstrate understanding of scientific methodology, including:
  - a. data collection from observations, setting up laboratory experiments and data collection from experiments,
  - b. analysis of data,
  - c. testing of a model or hypothesis by comparing with data;
4. Demonstrate competency in using computer tools, including:
  - a. use of software programs for data analysis and presentation,
  - b. numerical analysis,
  - c. computer simulations;
5. Demonstrate special knowledge of their subprogram;
6. Communicate clearly and articulately about physical concepts, findings and interpretations in oral presentations; and
7. Acquire ability to write clear, organized and illustrated technical reports, with proper references to previous work in the area.

## Student Learning Outcomes of the Graduate Program

M.S. Degree graduates in Physics will demonstrate an advanced level of:

1. Knowledge of physical principles used to understand and model natural phenomena;
2. Ability to convey physical concepts with mathematical expressions, and effectively derive quantitative predictions from a model through mathematical and numerical analysis;
3. Understanding of scientific methodology, which may include, for example, (a) data collection from observations, (b) setting up laboratory experiments and data collection from experiments, (c) analysis of data, and (d) testing a model or hypothesis;
4. Competency using computational tools, which may include, for example, (a) use of scientific software for data analysis and presentation, (b) numerical analysis, and (c) computer simulations;
5. Ability to communicate clearly and accurately physical concepts, findings and interpretations in oral presentations;
6. Ability to write clear, organized and illustrated technical reports with proper references to previous work in the area; and
7. (a) For students selecting the Comprehensive Examination Option: Comprehensive knowledge of the graduate Core curriculum in classical mechanics, classical electrodynamics, statistical physics and quantum mechanics; or  
(b) For students completing the Thesis Option: Ability to successfully carry out a program of graduate research and thesis.

## Department Programs

The Department of Physics and Astronomy offers 2 Undergraduate Degrees and a Graduate degree. The Undergraduate Degree Programs are the B.S. Degree in Physics (with 2 options) and the B.A. Degree in Physics. The Graduate Degree is an M.S. Degree in Physics. A Minor in Physics also is offered.

The B.S. Program in Physics is designed for students who desire to (1) pursue a career in physics-related research and development either in industry or government or (2) prepare for graduate work in physics or related subjects. The B.S. Program in Physics has 2 options: Option I—Physics, and Option II—Astrophysics.

Option I is a balanced program in experimental and theoretical physics. This Option can be specialized toward applications in engineering or a more mathematical approach to theoretical physics. This

is accomplished by the appropriate choice of the elective courses via consultation with the Department undergraduate advisor.

Option II specializes in applications of physics to astrophysical problems and may be tailored to be more experimental or theoretical in nature.

The B.A. Program in Physics is designed for students seeking a broad foundation in physics as part of a liberal arts education in the arts and sciences. It is particularly appropriate for those students (1) seeking a secondary teaching career or (2) planning to combine physics with other disciplines such as music, law and business.

The M.S. Program in Physics provides the student with an opportunity for advanced study in physics and to develop skills to do independent research. It prepares the student for the Doctoral Program in Physics and related fields or for more technical jobs in research and development.

The Minor in Physics is available for students who wish to augment their major field of study. It is particularly appropriate for those students in engineering and the other sciences and mathematics who desire to develop interdisciplinary skills.

### General Education

Knowledge of a foreign language is viewed as an asset by many potential employers and may be beneficial for graduate study in Physics. Students are encouraged to study at least 1 foreign language, which may be applied to General Education, Comparative Cultural Studies.

### Requirements for the Bachelor of Arts Degree in Physics

To enroll in the first courses in Mathematics and Chemistry, students must obtain a satisfactory score on the Mathematics Placement Test (MPT) and the Chemistry Placement Test (CPT). Without satisfactory scores, students may be required to take additional courses in preparation for the required courses. Students must complete the course requirements listed. In addition, all students are required to take 2 comprehensive exams—one on general physics upon completion of PHYS 227 or its equivalent and one on advanced physics just before graduation. The dates of these exams will be posted in the Department office. For more information, consult the Department undergraduate advisor.

#### 1. Lower Division Required Courses (39 units)

|      |           |  |
|------|-----------|--|
| CHEM | 101/L     | General Chemistry I and Lab (4/1)                  |
| MATH | 150A      | Calculus I (5)                                     |
| MATH | 150B      | Calculus II (5)                                    |
| MATH | 250       | Calculus III (3)                                   |
| MATH | 262       | Introduction to Linear Algebra (3)                 |
| MATH | 280       | Applied Differential Equations (3)                 |
| PHYS | 225/220AL | Physics I and Mechanics Lab (4/1)                  |
| PHYS | 226/220BL | Physics II and Electricity and Magnetism Lab (4/1) |
| PHYS | 227/L     | Physics III and Lab (4/1)                          |

#### 2. Upper Division Required Courses (16 units)

|      |     |  |
|------|-----|--|
| PHYS | 301 | Analytical Mechanics I (3)                   |
| PHYS | 311 | Electromagnetism I (3)                       |
| PHYS | 365 | Experimental Physics I (2)                   |
| PHYS | 375 | Quantum Physics I (3)                        |
| PHYS | 431 | Thermodynamics and Statistical Mechanics (4) |
| PHYS | 493 | Physics and Astronomy Colloquium (1)         |

#### 3. Upper Division Electives (6 units)

Electives should be chosen with approval of the Department undergraduate advisor. Note: Upper Division courses in the major plus Upper Division courses outside the major must total a minimum of 40 units in accordance with University requirements for a B.A. Degree.

**General Education:** Basic Skills Mathematics is satisfied by MATH 150A. Natural Sciences is satisfied by CHEM 101/L and PHYS 225/220AL. Physics majors also may satisfy Lifelong Learning by completing COMP 106/L or 110/L.

| <b>Total Units in the Major</b>                 | <b>61</b>  |
| <b>General Education Units</b>                  | <b>36</b>  |
| <b>Additional Units</b>                         | <b>23</b>  |
| <b>Total Units Required for the B.A. Degree</b> | <b>120</b> |

### Requirements for Bachelor of Science Degree in Physics

To enroll in the first courses in Mathematics and Chemistry, students must obtain a satisfactory score on the Mathematics Placement Test (MPT) and the Chemistry Placement Test (CPT). Without satisfactory scores, students may be required to take additional courses in preparation for the required courses. The student must complete all courses listed under Lower Division Required Courses as well as those listed under one of the 2 Options. In addition, all students are required to take 2 comprehensive exams—one on general physics upon completion of PHYS 227 or its equivalent and one on advanced physics just before graduation. The dates of these exams will be posted in the Department Office. For more information, consult the Department undergraduate advisor.

#### 1. Lower Division Required Courses (39 units)

|      |           |  |
|------|-----------|--|
| CHEM | 101/L     | General Chemistry I and Lab (4/1)                  |
| MATH | 150A      | Calculus I (5)                                     |
| MATH | 150B      | Calculus II (5)                                    |
| MATH | 250       | Calculus III (3)                                   |
| MATH | 262       | Introduction to Linear Algebra (3)                 |
| MATH | 280       | Applied Differential Equations (3)                 |
| PHYS | 225/220AL | Physics I and Mechanics Lab (4/1)                  |
| PHYS | 226/220BL | Physics II and Electricity and Magnetism Lab (4/1) |
| PHYS | 227/L     | Physics III and Lab (4/1)                          |

#### A. Option I: Physics

##### 1. Upper Division Required Courses (31 units)

|      |     |  |
|------|-----|--|
| PHYS | 301 | Analytical Mechanics I (3)                   |
| PHYS | 311 | Electromagnetism I (3)                       |
| PHYS | 365 | Experimental Physics I (2)                   |
| PHYS | 366 | Experimental Physics II (2)                  |
| PHYS | 375 | Quantum Physics I (3)                        |
| PHYS | 402 | Analytical Mechanics II (3)                  |
| PHYS | 410 | Electromagnetism II (3)                      |
| PHYS | 431 | Thermodynamics and Statistical Mechanics (4) |
| PHYS | 451 | Quantum Physics II (3)                       |
| PHYS | 465 | Experimental Physics III (2)                 |
| PHYS | 466 | Experimental Physics IV (2)                  |
| PHYS | 493 | Physics and Astronomy Colloquium (1)         |

##### 2. Upper Division Electives (9 Units)

A minimum of 9 units of Upper Division electives chosen with the approval of the Department undergraduate advisor from the following or other courses, including Mathematics or Engineering, if approved by the Department undergraduate advisor:

**General Education:** Basic Skills Mathematics is satisfied by MATH 150A. Natural Sciences is satisfied by CHEM 101/L and PHYS 225/220AL. Physics majors also may satisfy Lifelong Learning by completing COMP 106/L or 110/L.

|   |            |
|---|------------|
| <b>Total Units in the Major, Option I</b>                 | <b>79</b>  |
| <b>General Education Units</b>                            | <b>36</b>  |
| <b>Additional Units</b>                                   | <b>5</b>   |
| <b>Total Units Required for the B.S. Degree, Option I</b> | <b>120</b> |

## B. Option II: Astrophysics

### 1. Upper Division Required Courses (34 units)

|      |     |  |
|------|-----|--|
| ASTR | 301 | The Dynamical Universe (3)                   |
| ASTR | 401 | The Radiative Universe (3)                   |
| PHYS | 301 | Analytical Mechanics I (3)                   |
| PHYS | 311 | Electromagnetism I (3)                       |
| PHYS | 365 | Experimental Physics I (2)                   |
| PHYS | 366 | Experimental Physics II (2)                  |
| PHYS | 375 | Quantum Physics I (3)                        |
| PHYS | 402 | Analytical Mechanics II (3)                  |
| PHYS | 410 | Electromagnetism II (3)                      |
| PHYS | 431 | Thermodynamics and Statistical Mechanics (4) |
| PHYS | 465 | Experimental Physics III (2)                 |
| PHYS | 466 | Experimental Physics IV (2)                  |
| PHYS | 493 | Physics and Astronomy Colloquium (1)         |

### 2. Upper Division Electives (6 units)

#### Choose 6 units from the following:

|      |     |   |
|------|-----|---|
| PHYS | 420 | Modern Optics (3)   |
| PHYS | 421 | Laser Physics (3)   |
| PHYS | 451 | Quantum Physics II (3)                                      |
| PHYS | 470 | Introduction to Nuclear and Elementary Particle Physics (3) |
| PHYS | 480 | Introduction to Solid State Physics (3)                     |
| PHYS | 489 | Mathematical Physics (3)                                    |
| PHYS | 490 | Computer Applications in Physics (3)                        |

**General Education:** Basic Skills Mathematics is satisfied by MATH 150A. Natural Sciences is satisfied by CHEM 101/L and PHYS 225/220AL. Physics majors also may satisfy Lifelong Learning by completing COMP 106/L or 110/L.

|  |            |
|--|------------|
| <b>Total Units in the Major, Option II</b>                 | <b>79</b>  |
| <b>General Education Units</b>                             | <b>36</b>  |
| <b>Additional Units</b>                                    | <b>5</b>   |

## B.S. Honors Program

The program leading to a B.S. Degree in Physics with Honors provides the opportunity to selected Physics Majors for intensive study under individual faculty guidance. Admission to the Honors Program is granted by approval of the Department undergraduate advisor. Students in either of the B.S. Options are eligible provided they have:

1. Completed 90 units of college work;
2. Maintained a GPA of 3.0 overall and in the physics major; and
3. Obtained the approval of a faculty sponsor who will supervise their research. Students interested in the Honors Program should contact the Department undergraduate advisor. Honors candidates will be required to complete 1 of the 2 B.S. Options of the Physics Major plus the following course:

|      |     |                          |
|------|-----|--------------------------|
| PHYS | 498 | Undergraduate Thesis (3) |
|------|-----|--------------------------|

## Graduation with Honors in Physics will require the following:

1. Admission to the Honors Program;
2. GPA of 3.25 for all Upper Division units in the major. There can be no individual grades below a "C." A grade of "C-" is not acceptable; *and*
3. Approval of the undergraduate Thesis by a Faculty Committee.

## Minor in Physics

### 1. Lower Division Required Courses (32-34 units)

|      |                       |  |
|------|-----------------------|--|
| MATH | 150A                  | Calculus I (5)                                 |
| MATH | 150B                  | Calculus II (5)                                |
| MATH | 250                   | Calculus III (3)                               |
| MATH | 262                   | Introduction to Linear Algebra (3)             |
| MATH | 280                   | Applied Differential Equations (3)             |
| PHYS | 225/220AL             | Physics I/Mechanics Lab (4/1)                  |
|      | <i>or</i> PHYS 220A/L | Mechanics/Lab (3/1)                            |
| PHYS | 226/220BL             | Physics II/Electricity and Magnetism Lab (4/1) |
|      | <i>or</i> PHYS 220B/L | Electricity and Magnetism/Lab (3/1)            |
| PHYS | 227/L                 | Physics III/Lab (4/1)                          |

### 2. Upper Division Required Courses (9 Units)

**A minimum of 9 units chosen from the following, with the approval of the Department undergraduate advisor.**

|      |     |  |
|------|-----|--|
| PHYS | 301 | Analytical Mechanics I (3)                   |
| PHYS | 311 | Electromagnetism I (3)                       |
| PHYS | 365 | Experimental Physics I (2)                   |
| PHYS | 366 | Experimental Physics II (2)                  |
| PHYS | 375 | Quantum Physics I (3)                        |
| PHYS | 431 | Thermodynamics and Statistical Mechanics (4) |
| PHYS | 493 | Physics and Astronomy Colloquium (1)         |

|   |                |
|---|----------------|
| <b>Total Units Required for the Minor</b> | <b>41 - 43</b> |
|---|----------------|

## Requirements for the Master of Science Degree in Physics

Applicants must meet general University admission requirements. In addition, if the applicant has a Bachelor's Degree in Physics, then a GPA of at least 2.5 in all Upper Division Physics lecture classes is required. If the Bachelor's Degree is in a related field, a GPA of at least 2.5 in all Upper Division lecture classes in the major is required.

### A. For Classified Status

1. A Bachelor's Degree in physics. If the major is in a related field, completion of prescribed prerequisites with grades of "B" or better is required; and
2. General University requirements for Classified status.

### B. For the Degree

1. Completion, with a "B" average (3.0) or higher of 30 units of approved graduate study, including a minimum of 21 units of 500- and 600-level courses.

#### Required Core Courses (14 units)

|      |     |                            |
|------|-----|----------------------------|
| PHYS | 600 | Classical Mechanics (4)    |
| PHYS | 610 | Electromagnetic Theory (4) |
| PHYS | 630 | Statistical Physics (3)    |
| PHYS | 650 | Quantum Mechanics I (3)    |

The 4 Core courses must be completed with a "B" average (3.0) or higher, and at least 3 of these courses must be taken in residence at CSUN. Students are strongly advised to complete the graduate Core courses early in their studies.

#### Electives (16 units)

To be selected, with approval of the Department graduate advisor, from 400-, 500- and 600-level courses. At least 10 of these units must

be in Physics. Up to 6 units of approved courses may be in related fields: Astronomy, Chemistry, Engineering and Mathematics. Up to 9 units may be at the 400-level.

### 1. Thesis or Comprehensive Examination.

a. Students electing the Thesis Option must pass an oral examination in the field of the Thesis.

b. Students not electing the Thesis Option must pass a written Comprehensive Examination in PHYS 600, 610, 630 and 650. The exams will be offered during 2 days before the start of the Fall and Spring semesters. The dates will be announced in the preceding semester. For regulations governing registration for the Thesis or Comprehensive Examination, see the Department graduate advisor.

|  |    |

| Total Units Required for the M.S. Degree | 30 |
|--|----|

## Course List—Astronomy

### ASTR 152. Elementary Astronomy (3)

Introduction to astronomy. Topics to be covered include the historical development of astronomy; the laws that govern the behavior of the universe; a survey of the properties of stars and galaxies, including their origin and evolution; and the Big Bang Theory. This course also is offered online as ASTR 152OL. (Students using this course to satisfy the General Education requirement in Natural Sciences may satisfy the corresponding lab requirement by completing course ASTR 154L.)

### ASTR 154L. Observational Astronomy (1)

*Recommended Corequisite or Preparatory: ASTR 152.* Introduction to the techniques of observational astronomy, including data acquisition and interpretation. Testing of astronomical hypotheses by using data from observations of the moon, planets, sun, stars and galaxies. 3 hours per week. (May be used to satisfy the lab requirement in General Education, Natural Sciences provided ASTR 152 has been completed.)

### ASTR 301. The Dynamical Universe (3)

*Preparatory: MATH 150B; PHYS 220A or 225; Completion of the Lower Division writing requirement.* Applications of Newtonian and relativistic dynamics to astrophysical systems. Planetary and satellite motion, planetary rings, binary and multiple star systems, clusters of stars, dynamics of spiral and elliptical galaxies, missing mass of galaxy clusters, relativistic orbits (Mercury and the binary pulsar), black holes and the dynamical fate of the universe.

### ASTR 312. Exploring the Solar System (3)

*Preparatory: Completion of the Lower Division writing requirement.* Comprehensive survey of the solar system, with emphasis on the results of recent space explorations. Kepler's laws and planetary motion, solar interior and solar atmosphere, planets and their satellites, minor planets, comets, meteors and the interplanetary medium.

### ASTR 312L. Exploration Of the Solar System Laboratory (1)

*Preparatory: Completion of the Lower Division writing requirement. Recommended Corequisite or Preparatory: ASTR 312.* Use of observational and laboratory facilities and published data to explore the solar system. One 3-hour lab period per week.

### ASTR 352. Current Developments in Astronomy (3)

*Preparatory: Completion of the Lower Division writing requirement.* In-depth examination and interpretation of astronomical discoveries occurring at the time the course is taught. Reading includes both background material and current periodicals accessible to Upper Division, General Education students. Likely areas of discussion include spacecraft exploration of the solar system, satellite observations of high-energy radiation from space, exotic astronomical objects (e.g., double quasars, black hole candidates), and new cosmological data. (Students using

this course to satisfy the General Education requirement in Natural Sciences may satisfy the corresponding lab requirement by completing course ASTR 352L.) (IC)

### ASTR 352L. Current Developments in Astronomy Lab (1)

*Preparatory: Completion of the Lower Division writing requirement. Recommended Corequisite or Preparatory: ASTR 352.* Use of observational and laboratory facilities and published data to explore current developments in astronomy. 3 hours per week. (May be used to satisfy the lab requirement in Natural Sciences, General Education provided ASTR 352 also is completed.) (IC)

### ASTR 401. The Radiative Universe (3)

*Preparatory: PHYS 227.* Application of the laws of radiation, atomic structure and subatomic structure to astrophysical systems. Cosmic magnetic fields, energy sources, analysis of radiation from stars, nebulae, supernovae, active galaxies and quasars, the early universe and origin of the elements.

### ASTR 499A-C. Independent Study (1-3)

## Course List—Physics

### PHYS 100A. General Physics I (3)

*Prerequisite: MATH 103 or 104 or 105, or a score on the Mathematics Placement Test (MPT) sufficient for entry into MATH 255A.* Introductory course in physics. Topics covered include mechanics, heat and sound. (Students using this course to satisfy the Natural Sciences requirement in General Education may satisfy the corresponding lab requirement by completing course PHYS 100AL.)

### PHYS 100AL. General Physics I Lab (1)

*Recommended Corequisite or Preparatory: PHYS 100A.* 3 hours per week. (May be used to satisfy the lab requirement in Natural Sciences, General Education, provided PHYS 100A also is completed.)

### PHYS 100AR. General Physics I Recitation (1)

*Corequisite: PHYS 100A.* Recitation-discussion of topics introduced in PHYS 100A. Optional class emphasizing problem solving. Problems solved are directly related to topics introduced in the lecture class. 1 hour per week.

### PHYS 100B. General Physics II (3)

*Prerequisite: PHYS 100A.* Continuation of PHYS 100A. Topics covered include electricity and magnetism, light, and modern physics. (Students using this course to satisfy the Natural Sciences requirement in General Education may satisfy the corresponding lab requirement by completing course PHYS 100BL.)

### PHYS 100BL. General Physics II Lab (1)

*Recommended Corequisite or Preparatory: PHYS 100B.* 3 hours per week. (May be used to satisfy the lab requirement in Natural Sciences, General Education, provided PHYS 100B also is completed.)

### PHYS 100BR. General Physics II Recitation (1)

*Corequisite: PHYS 100B.* Recitation-discussion of topics introduced in PHYS 100B. Optional class emphasizing problem solving. Problems solved are directly related to topics introduced in the lecture class. 1 hour per week.

### PHYS 101. Introduction to Faculty Research (1)

*Preparatory: Instructor consent.* Designed to introduce prospective or current physics majors to the Department. Each week, a different member of the Department conducts the class and the specialty and expertise of that faculty member is presented to the class. Enables students to find out what it is that physicists do and thereby make informed decisions about their career objectives. (Credit/No Credit only)

**PHYS 220A. Mechanics (3)**

*Prerequisite:* Chemistry and Biochemistry Majors: MATH 150A or 255A. *Recommended Corequisite or Preparatory:* Chemistry and Biochemistry Majors: MATH 150B or 255B. Dynamics and statics of particles and rigid bodies, harmonic vibrations and fluid mechanics. (Students using this course to satisfy the Natural Sciences requirement in General Education may satisfy the corresponding lab requirement by completing course PHYS 220AL.)

**PHYS 220AL. Mechanics Lab (1)**

*Recommended Corequisite or Preparatory:* PHYS 220A or 225. 3 hours per week. (May be used to satisfy the lab requirement in Natural Sciences, General Education, provided PHYS 220A also is completed.)

**PHYS 220AR. Mechanics Recitation (1)**

*Corequisite:* PHYS 220A. Recitation-discussion of topics introduced in PHYS 220A. Optional course emphasizes problem solving. Problems solved are directly related to topics introduced in the lecture class. 1 hour per week.

**PHYS 220B. Electricity and Magnetism (3)**

*Prerequisites:* PHYS 220A. For Chemistry and Biochemistry Majors: MATH 150B or 255. *Recommended Corequisite or Preparatory:* MATH 250. Electric and magnetic fields, circuit theory and electromagnetic induction. (Students using this course to satisfy the Natural Sciences requirement in General Education may satisfy the corresponding lab requirement by completing course PHYS 220BL.)

**PHYS 220BL. Electricity and Magnetism LAB (1)**

*Recommended Corequisite or Preparatory:* PHYS 220B or 226. 3 hours per week. (May be used to satisfy the lab requirement in Natural Sciences, General Education, provided PHYS 220B also is completed.)

**PHYS 220BR. Electricity and Magnetism Recitation (1)**

*Corequisite:* PHYS 220B. Recitation-discussion of topics introduced in PHYS 220B. Optional class emphasizing problem-solving. Problems solved are directly related to topics introduced in the lecture class. 1 hour per week.

**PHYS 225. Physics I (4)**

*Prerequisite:* MATH 150A. *Recommended Corequisite or Preparatory:* MATH 150B. First course of a sequence intended primarily for physical science majors. Calculus-based course on mechanics, fluids, waves and acoustics.

**PHYS 226. Physics II (4)**

*Prerequisites:* MATH 150B; PHYS 225. *Recommended Corequisite or Preparatory:* MATH 250. Second course of a sequence of courses intended primarily for physical science majors. Calculus-based course on electricity, magnetism and optics.

**PHYS 227. Physics III (4)**

*Prerequisites:* MATH 150; PHYS 226 or 220B. *Recommended Corequisite or Preparatory:* MATH 280. Third course of a sequence of courses intended primarily for physical science majors. Calculus-based course on thermodynamics, waves and modern physics.

**PHYS 227L. Physics III LAB (1)**

*Recommended Corequisite or Preparatory:* PHYS 227. 3 hours per week.

## Upper Division

**PHYS 301. Analytical Mechanics I (3)**

*Preparatory:* MATH 250, 280; PHYS 227. Newtonian mechanics of a single particle, oscillations, systems of particles, central force motion, calculus of variations and Lagrangian and Hamiltonian mechanics.

**PHYS 305/L. Physics Of Music and Laboratory (3/1)**

*Corequisite:* PHYS 305L. *Preparatory:* Completion of the Lower Division writing requirement. This course is currently taught entirely and only online. History and development of the science of sound and music, physical concepts necessary for the study of wave motion, mechanics of the construction of sound and musical tones, and basic physical principles involved in the production of sound in instruments and the human voice, including studies of the production of language. A good understanding of the composition of sounds and musical tones is obtained without detailed mathematics through experiments carried out in the home or other locations using the student's computer with installed software. A final project is required. (Available for General Education, Natural Sciences.) (IC)

**PHYS 311. Electromagnetism I (3)**

*Preparatory:* MATH 250, 280; PHYS 227. Vector calculus, electrostatics, magnetostatics, Faraday's Law and introduction to Maxwell's equations.

**PHYS 365. Experimental Physics I (2)**

*Preparatory:* MATH 250, 262, 280; PHYS 227/L. Advanced experimental techniques in physics, with topics including optics, nuclear physics, thin-film characteristics, microwaves, data acquisition via computer interface, computer simulations, solar observations and other topics chosen by the instructor. This course includes a module on computer analysis in physics using Matlab. Students are trained in advanced experimental techniques and complete 2 experimental modules for 2 units of credit. 6 hours per week.

**PHYS 366. Experimental Physics II (2)**

*Preparatory:* MATH 250, 262, 280; PHYS 227/L. Advanced experimental techniques in physics, with topics including optics, nuclear physics, thin-film characteristics, microwaves, data acquisition via computer interface, computer simulations, solar observations and other topics chosen by the instructor. Students are trained in advanced experimental techniques and complete 2 experimental modules for 2 units of credit. 6 hours per week.

**PHYS 375. Quantum Physics I (3)**

*Preparatory:* MATH 262; PHYS 301. Classical background, the wave function, Schroedinger equation, time development and stationary states, 1-dimensional problems, harmonic oscillator and formalism of quantum mechanics.

**PHYS 376. Radiologic Physics (3)**

*Preparatory:* PHYS 100A/L, 100B/L or instructor consent. Specialized course devoted to the nature and production of X-radiation. Topics include the interaction of radiation with matter, attenuation of X-rays and the principles behind radiographic equipment and components.

**PHYS 402. Analytical Mechanics II (3)**

*Preparatory:* MATH 262; PHYS 301. Noninertial reference frames, rigid body motion, coupled oscillations, nonlinear mechanics, scattering, vibrating string and Fourier analysis. Available for graduate credit

**PHYS 410. Electromagnetism II (3)**

*Preparatory:* MATH 262; PHYS 301, 311. Maxwell's equations and applications, electromagnetic waves, radiation and special relativity. Available for graduate credit.

**PHYS 420. Modern Optics (3)**

*Preparatory:* PHYS 311, 375. Propagation of electromagnetic waves. Geometrical optics. Physical optics, including refraction, reflection, interference, diffraction, and polarization. Atomic spectroscopy. Lasers. Available for graduate credit.

**PHYS 421. Laser Physics (3)**

*Preparatory: PHYS 311, 375.* Introduction to the principles of laser operation, properties of laser beams, laser design considerations and a survey of typical systems that operate at wavelengths having technical applications. Available for graduate credit.

**PHYS 431. Thermodynamics and Statistical Mechanics (4)**

*Preparatory: PHYS 301, 375.* Laws of thermodynamics, thermodynamic potentials, kinetic theory, phase transitions, equilibrium ensembles and related formalism with applications to classical and quantum systems. Available for graduate credit.

**PHYS 451. Quantum Physics II (3)**

*Preparatory: PHYS 311, 375.* Hydrogen atom, angular momentum, spin, matrix representation, quantum statistics, perturbation theory and scattering. Available for graduate credit.

**PHYS 465. Experimental Physics III (2)**

*Preparatory: PHYS 365.* Advanced experimental techniques in physics with topics including optics, nuclear physics, thin-film characteristics, microwaves, data acquisition via computer interface, computer simulations, solar observations and other topics chosen by the instructor. Students are trained in advanced experimental techniques and will complete 2 experimental modules for 2 units of credit. 6 hours per week.

**PHYS 466. Experimental Physics IV (2)**

*Preparatory: PHYS 365.* Advanced experimental techniques in physics with topics including optics, nuclear physics, thin-film characteristics, microwaves, data acquisition via computer interface, computer simulations, solar observations and topics chosen by the instructor. Students are trained in advanced experimental techniques and will complete 2 experimental modules for 2 units of credit. 6 hours per week.

**PHYS 470. Introduction to Nuclear and Elementary Particle Physics (3)**

*Recommended Corequisite or Preparatory: PHYS 451.* Production, interactions and structure of subatomic particles, including radioactivity, accelerators, detectors, classification of elementary particles, quark model, nuclear properties, nuclear models and nuclear reactions. Available for graduate credit.

**PHYS 480. Introduction to Solid State Physics (3)**

*Preparatory: PHYS 311, 375.* Structure of crystals; electron theory of metals; theory of semiconductors; and mechanical, electrical and magnetic behavior of substances in the solid state. Available for graduate credit.

**PHYS 489. Mathematical Physics (3)**

*Preparatory: MATH 380, PHYS 375 (may be taken concurrently).* Topics include complex variables, ordinary and partial differential equations, special functions, and boundary value problems with physical applications. Available for graduate credit.

**PHYS 490. Computer Applications in Physics (3)**

*Preparatory: PHYS 301 and 365, or instructor consent.* Applications of numerical analysis and computer programming to the solution of problems in classical and modern physics. Available for graduate credit.

**PHYS 493. Physics and Astronomy Colloquium (1-1-1)**

*Preparatory: Junior, senior or graduate standing in Physics.* Series of lectures presented weekly by faculty members and invited speakers on topics of current interest in physics, astronomy and related fields. May be repeated twice for credit.

**PHYS 496A-Z. Experimental Topics Courses in Physics (1-3)**

Experimental courses in Physics, with course content to be determined.

**PHYS 498. Undergraduate Thesis (3)**

*Preparatory: Admission to Honors Program in Physics.*

**PHYS 499. Independent Study (1-3)**

See Independent Study under Courses of Study.

**PHYS 589. Mathematical Physics Seminar (1)**

*Preparatory: Senior or graduate standing in the Department of Mathematics or the Department of Physics and Astronomy.* Seminar comprised of a series of weekly lectures in mathematical physics by faculty members and invited speakers. (Cross listed with MATH 589.)

**PHYS 595A-Z. Experimental Topics Courses (1-3)****Graduate****PHYS 600. Classical Mechanics (4)**

*Preparatory: PHYS 402, 410, 451.* Advanced course in classical mechanics, with topics selected from Lagrangian and Hamiltonian dynamics, continuum mechanics, nonlinear systems and chaos.

**PHYS 601. Selected Topics in Astrophysics (3)**

*Preparatory: PHYS 375, 402, 410.* Advanced treatment of the observational and theoretical foundations of astrophysics. Topics may include stellar structure, radio sources, relativistic cosmology, the origin of the elements and galaxy formation.

**PHYS 610. Electromagnetic Theory (4)**

*Preparatory: PHYS 410, 489.* Advanced theoretical treatment of the electrostatic field with introduction of mathematical techniques. Introduction to electromagnetic waves and radiation from sources.

**PHYS 615. Plasma Physics (3)**

*Preparatory: PHYS 402, 410, 431.* Plasma state, motion of isolated charged particles, collisions, plasma statistical mechanics, statistics of collisions, fluid and statistical models, waves in plasmas, instabilities, non-equilibrium statistical mechanics and radiation processes.

**PHYS 620. Optics (3)**

*Preparatory: PHYS 410 or 420.* Advanced topics in physical optics, interference and diffraction theory, partial coherence and polarization, conducting thin films and crystal optics. Introduction to gradient index optics, holography, nonlinear effects and other topics of fundamental or current interest.

**PHYS 630. Statistical Physics (3)**

*Preparatory: PHYS 431, 451, 600.* Theoretical foundations of thermodynamics and statistical mechanics for equilibrium and non-equilibrium systems. Applications to Bose and Fermi assemblies, real gases, liquids, solids, solutions, phase transitions and chemical reactions.

**PHYS 640. General Relativity (3)**

*Preparatory: PHYS 402, 410.* Introduction to the mathematics and physics of curved space-time. Gravitational fields as curvature of space-time. Einstein's gravitational field equations, solutions and experimental tests. Application to topics of current interest in relativistic astrophysics, particle physics and field theory.

**PHYS 650. Quantum Mechanics I (3)**

*Preparatory: PHYS 451. Recommended Corequisite or Preparatory: PHYS 600.* Mathematical foundation of quantum theory. Scattering theory. Angular momentum and spin. Identical particles. Heisenberg and Schrodinger representations. Perturbation theory.

**PHYS 651. Quantum Mechanics II (3)**

*Preparatory: PHYS 650.* Relativistic wave equations. Advanced scattering theory. Selected topics from quantum theory of atoms and molecules.

**PHYS 680. Solid State Physics I (3)**

*Preparatory: PHYS 451 or 480.* Advanced treatment of condensed matter physics. Topics include crystal structure, cohesive energy, lattice vibrations, Sommerfeld theory of metals, electronic structure theory and theory of semiconductors.

**PHYS 681. Solid State Physics II (3)**

*Preparatory: PHYS 480 or 680.* Advanced treatment of condensed matter physics. Topics include magnetic ordering beyond the independent electron approximation, optical processes and excitons, dielectric properties, superconductivity, defects and surface-interface physics.

**PHYS 690. Mathematical Physics (3)**

*Preparatory: PHYS 489.* Selected topics in advanced mathematical physics, such as boundary value problems, Green's functions, non-linear dynamics, approximation methods, numerical analysis, group theory and differential geometry.

**PHYS 696A-C. Directed Graduate Research (1-3)****PHYS 697. Directed Comprehensive Studies (3)**

*Preparatory: Completion of all courses required in the Program.* May not be used for credit in the Program itself.

**PHYS 698. Thesis (3-6)**

*Preparatory: Classified graduate status; Permission of the Department; Instructor's consent to serve as Thesis Advisor.* Dissertation of a specialized advanced topic in physics such as a critical evaluation and extension of an existing theoretical treatment, the construction and use of advanced research apparatus or an original theoretical analysis.

**PHYS 699. Independent Study (1-6)**

*Preparatory: At least 1 graduate course in Physics; Instructor consent.* Investigation of a special topic in physics, with emphasis on advanced theoretical or experimental skills. See Independent Study under Courses of Study.

# Political Science

College of Social and Behavioral Sciences

**Chair: Lawrence Becker**

**Sierra Hall (SH) 210**

**(818) 677-3488**

**www.csun.edu/pols**

## Staff

Pedro Cesareo (Advisor), Cynthia Harris (Administrative Support Coordinator), Evelyn Osorio (Administrative Support Assistant)

## Faculty

Jane Bayes, Lawrence Becker, Leigh Bradberry, Matthew Cahn, Alexandra Cole, Jennifer De Maio, Nicholas Dungey, Maria Rosa Garcia-Acevedo, Keiko Hirata, Tom Hogen-Esch, David Leitch, Virginia Lussier, Kristy Michaud, James Mitchell, Boris Ricks, Martin Saiz

## Emeritus Faculty

Dennis Beller, Warren Campbell, Roger Carasso, John Goldbach, Roger Harrell, Lawrence Littwin, Henry Lopez, Phillip Present, David Ringsmuth, Christopher Leu, Ram Roy, Sylvia Snowiss, Faith Windsor, Jack O'Neill

## Programs

Undergraduate:

**B.A., Political Science**

**Politics and Government Option**

**Public Policy and Management Option**

**Law and Society Option**

**Minor in Political Science**

Graduate:

**M.A., Political Science**

**Special Session Sponsored Degree:**

**M.P.A., Public Sector Management**

## The Major

The Political Science Department offers a major with 3 Options—Politics and Government, Public Policy and Management, and Law and Society—and a minor. The Department participates in undergraduate interdisciplinary programs in African Studies, Asian Studies, Urban Studies and Planning, and Women's Studies. (For descriptions of these programs see African Studies, Asian Studies, Women's Studies, and Urban Studies and Planning in the Catalog.)

The Political Science Department supports the concept of international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Department of Political Science and may be used to fulfill some of the requirements for Degree Options offered by the Department and/or certain General Education requirements. Students should consult the International Programs Bulletin available in the Office of International and Exchange Programs, a Departmental advisor or the campus International Programs advisor for more information.

## Academic Advisement

Students must consult with a faculty advisor regularly in planning their program and schedule. Faculty advisors are available during the semester at regularly scheduled office hours and by appointment. Students should come to the Department Office for the scheduled office hours of the faculty. Please inquire in the Department Office for pre-law advisor Leigh Bradberry.

## Student Learning Outcomes of the Undergraduate Program

Completion of a Bachelor's Degree in Political Science will provide the

student with the basic concepts, theories, research methodology and empirical findings within the discipline of political science; a knowledge of Western and non-Western political systems, processes, values and patterns of interaction among these systems; an understanding of the political institutions through which public plans are formulated and implemented; and a working knowledge of research designs, measurement, computer-assisted data analyses, use of the Internet and the ability to interpret the result of using these tools.

## Careers

The major in Political Science is designed for students who intend to pursue the study of law and enter the legal profession; work for advanced degrees in Political Science or other related fields in preparation for university-level teaching; plan a career in public administration, public policy or government service; seek training for positions in the overseas agencies of the U.S. government, international governmental organizations or private corporations; or wish to prepare for teaching in secondary schools.

For more information about the Master of Public Administration Program, please see Public Administration listing in the Catalog.

## Requirements for the Bachelor of Arts Degree in Political Science (48 units)

### A. Politics and Government Option

This Option offers a variety of courses in domestic and global politics and policy. The curriculum may be selected by students who a) wish a liberal arts education; b) who desire to pursue graduate education in political science or other fields, such as law; c) who wish to enter government; or d) who intend to teach in secondary schools.

#### 1. Basic Requirements (12 units)

|             |   |
|-------------|---|
| POLS 155    | American Political Institutions (3)                 |
| or POLS 355 | American National, State and Local Governments* (3) |
| POLS 156    | European and Comparative Government (3)             |
| or POLS 225 | Elements of International Relations (3)             |
| POLS 372    | Principles and Methods of Political Science (3)     |
| POLS 350    | Great Questions in Politics (3)                     |
| or POLS 411 | Greek, Roman and Medieval Political Theory (3)      |
| or POLS 412 | Modern Western Political Theory (3)                 |
| or POLS 413 | American Political Thought                          |
| or POLS 414 | Western Political Theory in the 20th Century (3)    |

\* Students will receive credit for either POLS 155 or 355, but not both.

#### 2. Advanced Upper Division Requirements (36 units)

- Choose 3 courses in Domestic Politics and Policy (9 units)
- Choose 3 courses in Global Politics and Policy (9 units)
- Choose 6 courses in Domestic or Global Politics and Policy or General Electives\*\* (18 units)

\*\* Courses in the Advanced Requirements electives must include 2 proseminars (POLS 471 A-F) or one proseminar and one internship (POLS 494I, 494J, 449, 427A/L or 427B/L).

#### 3. Advanced Courses

**Domestic:** POLS 360, 361, 380, 403, 404, 405, 406, 407, 413, 440, 441, 442, 443, 444, 445, 446, 447A, 448, 449, 450, 455, 457A, 457B, 458, 460, 461, 462, 463, 465, 466, 467, 469/L, 471A, 471E and 471F.

**Global:** POLS 310, 321, 330, 332, 410, 420A, 420B, 420C, 420D, 420E, 420F, 420G, 420H, 421, 422, 423, 424, 426, 427A/L, 427B/L, 428, 429, 430, 431, 432A, 432B, 433A, 433C, 434A, 434B, 435A, 435B, 436A, 438, 439A, 439B, 448, 471B, 471C, 480 and 481.

**General:** POLS 303, 321, 350, 372, 411, 412, 414, 415, 471D, 486SOC, 490CA, 494SOC, 496A-Z, 498A, 498B, 498C, 499A, 499B, 499C and 499RIA.

## B. Public Policy and Management Option

This Option offers a variety of courses in Public Policy and Management and allows students to form a thorough understanding of the political institutions through which public plans are formulated and implemented. The Option may be selected by students who wish to prepare for careers in government, politics and public offices within public and non-profit organizations or the private sector.

### 1. Basic Requirements (18 units)

|             |   |
|-------------|---|
| POLS 155    | American Political Institutions (3)               |
| or POLS 355 | American National, State and Local Government (3) |
| POLS 156    | Introduction to Comparative Politics (3)          |
| or POLS 225 | Elements of International Relations (3)           |
| POLS 350    | Great Questions in Politics (3)                   |
| POLS 360    | Public Administration (3)                         |
| POLS 361    | Introduction to Public Policy (3)                 |
| POLS 372    | Principles and Methods of Political Science (3)   |

### 2. Advanced Requirements in Upper Division (30 Units)

#### Choose 4 Core courses from the following:

|          |  |
|----------|--|
| POLS 405 | Process of Public Policy Formation (3)           |
| POLS 406 | Fundamentals of Policy Analysis (3)              |
| POLS 407 | Policy Implementation and Program Evaluation (3) |
| POLS 462 | Ethics in Politics and Administration (3)        |
| POLS 463 | Public Personnel Administration (3)              |
| POLS 465 | Administrative Behavior (3)                      |

#### Choose 6 from following\*:

*Must include 471E and one Internship (494I)*

|            |   |
|------------|---|
| POLS 404   | Urban Politics (3)  |
| POLS 428   | International Organizations (3)                           |
| POLS 429   | United States Foreign Policy (3)                          |
| POLS 458   | Administrative Law (3)                                    |
| POLS 460   | Welfare Policy (3)  |
| POLS 461   | Environmental Policy (3)                                  |
| POLS 464   | Comparative Public Policy (3)                             |
| POLS 466   | The Politics of Public Spending (3)                       |
| POLS 467   | Urban Administration (3)                                  |
| POLS 469/L | City Planning and Lab (2/1)                               |
| POLS 471E  | Proseminar in Public Administration and Public Policy (3) |
| POLS 494I  | Internship (3)  |

\* Up to 6 units may be taken outside of the Department with Chair approval.

## C. Law and Society Option

This Option offers students an in-depth study of public law and the philosophies upon which our legal system is based. The Option may be selected by students who wish to pursue a career in law or to prepare for careers in government, politics and public offices within public and non-profit organizations or the private sector.

### 1. Basic Requirements (12 Units)

|             |  |
|-------------|--|
| POLS 155    | American Political Institutions (3)                |
| or POLS 355 | American National, State and Local Governments (3) |
| POLS 156    | Introduction to Comparative Politics (3)           |
| or POLS 225 | Elements of International Relations (3)            |
| POLS 350    | Great Questions in Politics (3)                    |
| or POLS 411 | Greek, Roman and Medieval Political Theory (3)     |
| or POLS 412 | Modern Western Political Theory (3)                |
| or POLS 414 | Western Political Theory in the 20th Century (3)   |
| POLS 372    | Principles and Methods of Political Science (3)    |

### 2. Advanced Requirements in Upper Division (36 units)

Choose 3 courses in Domestic Politics and Policy (9 units)

Choose 3 courses in Global Politics and Policy (9 units)

Choose 2 Proseminars (POLS 471 A-F) (6 units)\*

**Choose 4 Electives:** Must include 2 of the following: POLS 450, 455, 457A or 457B.

**May also include** ENGL 407, PHIL 390, PHIL 446, PHIL 460, SOC 434 (12 units)

\* *Internship (POLS 491I), Judicial Internship (494I), Model United Nations (427A/L or 427B/L) or The Politics of Community Action (449) may be substituted for 3 units of 471.*

**General Education:** Students may not double count Political Science and GE courses. POLS 155 or 355 meets both major and Title 5 Requirement Courses in the major and all Title 5 and General Education courses must be taken for a letter grade. They may not be taken Credit/No Credit. POLS 155 or 355 partially fulfill Title 5 requirement.

|   |            |
|---|------------|
| <b>Total Units in the Major</b>                 | <b>48</b>  |
| <b>General Education Units</b>                  | <b>52</b>  |
| <b>Additional Units</b>                         | <b>24</b>  |
| <b>Total Units Required for the B.A. Degree</b> | <b>120</b> |

## Minor in Political Science

The Minor in Political Science is designed for students who wish to have a formal secondary area of concentration. A minor is not required for a Baccalaureate Degree.

### 1. Basic Requirements (6 Units)

|             |  |
|-------------|--|
| POLS 155    | American Political Institutions (3)                  |
| or POLS 355 | American National, State, and Local Governments (3)* |
| POLS 156    | European and Comparative Government (3)              |
| or POLS 225 | Elements of International Relations (3)              |

\* *Upper Division students should take POLS 355. Students will receive credit for only 355, but not both 155 and 355.*

### 2. Upper Division (18 Units)

3 courses in Domestic Politics and Policy: 9

3 courses in Global Politics and Policy: 9

(For courses see classification above)

|   |           |
|---|-----------|
| <b>Total Units Required for the Minor</b> | <b>24</b> |
|---|-----------|

## Requirements for the Master of Arts Degree

The Graduate Program in Political Science is a liberal arts program based upon superior undergraduate preparation. It requires a higher level of achievement and places greater emphasis on independent study and research than does the Baccalaureate Program. Department evaluation and approval is required for admission to either Classified or Unclassified Graduate Standing. Please see additional information regarding Classification standing in the Graduate Programs and Requirements Section of the Catalog.

### Areas of specialization offered are as follows:

American Government and Politics; Comparative Government; International Relations; Methodology; Political Theory; Public Policy and Administration; and Public Law.

### A. Admission Requirements for Classified status:

1. Completion of University requirements for admission to graduate standing;
2. Bachelor of Arts Degree with a major in Political Science or completion of "minimum equivalence";
3. 2 letters of recommendation;

4. GPA of at least 3.25 in all undergraduate and graduate Political Science courses;
5. GPA of at least 3.25 in last 45 units of all course work; and
6. Written statement by applicant indicating career objectives.

**B. For Conditional Status**

1. Completion of minimum University requirement for admission to graduate standing;
  2. Bachelor of Arts Degree with a major in Political Science or completion of “minimum equivalency”;
  3. 2 letters of recommendation;
  4. GPA of at least 3.0 in all undergraduate and graduate Political Science courses;
  5. GPA of at least 3.0 in last 45 units of all course work; and
  6. Written statement by applicant indicating career objectives.
- Exceptional cases that may not meet all the given requirements for minimum equivalency will be considered by the Graduate Committee on petition by the applicant. Specific reasons for the waiver of minimum equivalent requirement must be offered.

\*Minimum equivalency in lieu of Political Science major:

- a. Completion of all Lower Division requirements in Political Science required of the major at CSUN;
- b. Completion of a course in research methods;
- c. Completion of an Upper Division course in political theory (411, 412, 414);
- d. Completion of an Upper Division course in 3 additional areas of political science (i.e., American government, comparative government, international relations, public law, public administration); and
- e. Completion of an Upper Division proseminar in one of the 3 Areas selected above.

**Courses Acceptable for the Master’s Degree:**

300-level courses in Political Science do not carry credit for the Master’s Degree in Political Science. All 400-level courses except POLS 490, 498 and 499 carry credit for Master’s Degree in Political Science. All 500-level graduate seminars in Political Science carry credit for the Master’s Degree.

**C. Reclassification From Conditional to Classified Status**

1. Completion of at least 9 units in Political Science at CSUN with at least 6 units in 500-level courses;
  - a. No credit or consideration will be given during the reclassification period for POLS 490, 498, 499, 598 or 599,
  - b. GPA of at least 3.25 in these 9 units;
2. Units taken beyond the 9 units will not count toward the Master’s Degree Program until the student formally petitions to be reclassified and is given Classified status; and
3. Completion of minimum University requirements for admission to Graduate Standing.

Students denied Conditional Classified status by the Department, if granted admission by the University, may attempt to make up deficiencies and to reapply for admission. However, no course work taken under this status will count toward the 30 units required for the Master’s Degree. The following courses may not be used to remove deficiencies in GPA or course requirements: POLS 490, 498, 499, 598 or 599.

**D. Degree Requirements**

1. Minimum of 30 units of approved graduate work comprised of:
  - a. POLS 570 (Seminar in Political Theory) and POLS 571 (Seminar in Methodology)
  - b. 2 graduate seminars in each of 3 Areas of Political Science (Comparative Politics, American Politics, or International Relations).

- c. 6 additional units that may be at the 400-level. POLS 411, 412, 414 and 471D are not acceptable.
2. Comprehensive Examination in 2 areas of Political Science selected by the student in consultation with an advisor (POLS 597).

**Foreign Language/Statistics Recommendation:**

In cases where appropriate to the student’s fields of specialization and academic career goals, competence in a modern foreign language or in statistics may be recommended by the student’s primary subject advisor and Examination Committee, in consultation with the student.

|   |           |
|---|-----------|
| <b>Total Units Required for the M.A. Degree</b> | <b>30</b> |
|---|-----------|

**Course List**

**POLS 155. American Political Institutions (3)**

Examination of the development and dynamics of American political institutions and political processes including a special emphasis on the role of minority groups. (Satisfies the Title 5 United States Constitution requirement and the California State and Local Government requirement.)

**POLS 156. Introduction to Comparative Politics (3)**

Introduction to the comparative study of government and politics. Its purpose is to familiarize students with the basic themes, concepts and theoretical approaches that are used by political scientists to explain governmental institutions and political processes in different regions of the world. (Available for General Education, Social Sciences.)

**POLS 197. Racial and Ethnic Politics (3)**

Examination of the problems and politics of racial and national subgroups in America. Focuses on problems of ethnic identity, inequality and discrimination, and the impact of minority group politics on public policy. (Available for General Education, Comparative Cultural Studies.)

**POLS 225. Elements of International Relations (3)**

Analysis of the basic historical, geographical, economic, ideological and strategic factors that underlie and condition conflict and cooperation among actors in the contemporary international system. (Available for General Education, Social Sciences.)

**Upper Division**

General prerequisites: 6 units of appropriate Lower Division courses in Political Science. Additional specific prerequisites as indicated.

**POLS 310. Problems of Political Economy (3)**

Study of the interaction of politics and economics in selected problem areas involving global, national and urban political-economic systems. The political role of global corporations and the political dimensions of trade, taxation and budgeting are considered. (Available for General Education, Social Sciences.)

**POLS 321. Comparative Political Ideologies (3)**

Examines, compares and contrasts a range of political ideologies and their interpretation and application in contemporary societies. Attention is paid to defining the role and function of ideologies in specific contemporary states. (Available for General Education, Comparative Cultural Studies.)

**POLS 332. Politics of Latin America (3)**

Introductory study of the politics of Latin America. Topics treated include dependency theory, revolution, the national security state, women in politics, theologies of liberation and redemocratization. Selected nations are used as case studies. (Available for General Education, Comparative Cultural Studies.)

**POLS 347. The Judicial Process (3)**

Examination of the dynamics of the national and state judicial systems, with emphasis on the workings of the Supreme Court within American separation of powers; internal procedures of decision making; external influences on the courts; the politics of selecting judges; and relations with other political institutions.

**POLS 350. Great Questions in Politics (3)**

Analysis of perennial political questions about power, authority, justice, equality and freedom. Materials include political and literary writings, films, case studies and legal cases. Aims throughout to relate these questions to contemporary political situations. (Available for General Education, Social Sciences.)

**POLS 355. American National, State and Local Governments (3)**

*Prerequisite: Not open to students who have taken POLS 155.* Detailed study of the structures and functions of the national government, and California state and local governments. Special attention given to the legislative and executive branches in the policy-making and administrative processes, as well as the constitutional bases for these processes. (Satisfies the Title 5 United States Constitution requirement and the California state and local governments requirement.)

**POLS 360. Public Administration (3)**

Analysis of the executive function in governmental processes together with a survey of the principles of administrative organization, personnel management, financial administration and public relations. Problems and trends in government service as a career are discussed.

**POLS 361. Introduction to Public Policy (3)**

Introduction to public policy approaches, contexts, processes and outcomes.

**POLS 372. Principles and Methods of Political Science (3)**

Study of the history, nature and current development of research in politics.

**POLS 380. Los Angeles: Past, Present, Future (3)**

Multidisciplinary investigation of the Los Angeles urban area—its patterns of population and resources distribution; its historical, economic, social and cultural developments; and policies models designed to cope with its problems and to develop its potential as an ethnically diverse metropolis on the Pacific Rim. Application of social science methodology. Series of faculty and guest speakers, weekly discussion sessions and field trips. (Cross listed with HIST and URBS 380.) (Available for General Education, Social Sciences.)

**POLS 403. State and Local Government (3)**

Study of the political, administrative, and judicial systems of states, counties, cities, and special districts. Intergovernmental relations, functions, trends and current problems. (Satisfies the Title 5 California state and local government requirement.)

**POLS 404. Urban Politics (3)**

Study of the structures and processes that determine public priorities and programs in urban areas.

**POLS 405. The Process of Public Policy Formation (3)**

*Preparatory: at least 1 Upper Division course in public administration or American government.* Seminar examining several major areas of American public policy and explaining its formation and content by use of several analytic models. Policy areas studied may include civil rights, criminal justice, welfare, health, education, defense and taxation.

**POLS 406. Fundamentals of Policy Analysis (3)**

*Prerequisite: POLS 372.* Systematic and critical approach to designing public policies. Integrates theory and social science techniques so students may apply the methods, models and tools of policy analysis to particular cases and problems that confront policy makers.

**POLS 407. Policy Implementation and Program Evaluation (3)**

*Prerequisite: POLS 372.* Overview of policy implementation and program evaluation by looking at the strategies, techniques and tools used most frequently by policy makers and evaluators. Students are introduced to the major theories and applications so as to be able to use the techniques of evaluation to assess projects and programs in terms of impact, process and cost.

**POLS 410. Advanced Comparative Politics (3)**

*Recommended Preparatory: POLS 156.* An advanced study of comparative politics. This course focuses on major theoretical frameworks, concepts and approaches in the field. Key concepts covered include the state, democratization, modernization, political culture, social movements and underdevelopment. The course is designed to help students investigate world phenomena systematically and theoretically. Available for graduate credit.

**POLS 411. Greek, Roman, and Medieval Political Theory (3)**

Analysis of the major political theories and ideologies from the sophists, Plato and Aristotle through the epicureans, cynics, stoics, Cicero, St. Augustine and Thomas Aquinas.

**POLS 412. Modern Western Political Theory (3)**

Analysis of the major political theories and ideologies from Machiavelli and the Renaissance through Hobbes, Locke, the Enlightenment, Rousseau, Burke and Marx. Regular written assignments required.

**POLS 413. American Political Thought (3)**

American political ideologies from the colonial period through the Revolution and the period of the Constitution to the end of the 19th century.

**POLS 414. Western Political Theory in the 20th Century (3)**

Study of major contemporary theories in Western Europe and the U.S. Included are such theorists as Sartre, Camus, Easton, Lasswell, Dewey, McLuhan, Marcuse and Fanon, among other existentialists, behavioralists, Marxists and structuralists.

**POLS 420A-H. International Relations of Selected Areas (3)**

Intensive study of the international relations and impact on the world of nations or areas of special interest that are not included in other courses: (A) Latin America, (B) Western Europe, (C) Eastern Europe, (D) Middle East, (E) Africa, (F) South Asia, (G) Southeast Asia, and (H) Northeast Asia

**POLS 421. The Politics of Development (3)**

Examination and critical analysis of the problems, both internal and international, of countries that are undergoing political and economic modernization. Specific issue areas covered include human rights, the global economy, women in the global workplace, poverty and world hunger, environmental degradation and militarism. Selected countries are studied to determine historical trends in specific issue areas. Extensive examination of the paths and obstacles to world peace.

**POLS 422. International Politics (3)**

Advanced study of international politics from the standpoint of theories of international politics, individual, group and state behavior; the relation between continuity, conflict and change in the international order; and an extensive examination of the paths and obstacles to world peace.

**POLS 423. Security Studies (3)**

An analysis of security issues as they affect the nation-state. The course explores the actors, institutions and decision-making processes involved in the historical and contemporary development of defense policy. Various theoretical models will be utilized to assess issues of bargaining, mediation, war prevention and grand strategy doctrines. Available for graduate credit.

**POLS 426. International Law (3)**

Case studies of legal precedents affecting the regulation of the international community, together with an evaluation of the efficacy of international judicial sanctions.

**POLS 427A/L. Model United Nations I and Lab (1/2)**

*Corequisite: POLS 427AL.* Begins with a general analysis of the role of the U.N. in world politics and comparative foreign policy. Particular emphasis is then placed on the foreign policy of the country to be represented and the internal and external factors on which that policy is based. Seminar format with group presentations and simulations. May not be repeated. (Offered Fall semester.) 1 hour seminar, 4 hours involving group presentations and simulations.

**POLS 427B/L. Model United Nations II and Lab (1/2)**

*Prerequisites: POLS 427AL; Instructor consent. Corequisite: POLS 427BL.* In-depth preparation of the delegation on the specific issues to be dealt with at the conference and to conduct an evaluation of the year's experience. May not be repeated. (Offered Spring semester.) 1 hour seminar, 4 hours involving group presentations and simulations.

**POLS 428. International Organization (3)**

Analysis of the roles of various types of international organizations in contemporary world politics. Focus is on the United Nations, specialized (functional) agencies, regional organizations and non-governmental organizations such as multinational corporations, foundations and other "transnationals."

**POLS 429. United States Foreign Policy (3)**

Analysis of the contemporary declaratory and action policies pursued by the U.S. in the conduct of its foreign relations. Various conceptual models such as ends/means analysis, decision making and economic determinist are tested and evaluated in terms of their descriptive, analytical and predictive utility.

**POLS 430A-Z. Government and Politics of Selected Nations (3-3-3)**

Intensive study of the governmental organization, domestic policies and political structures of a major nation or group of nations that are not included in other courses. Topics vary from semester to semester. May be repeated twice for credit.

**POLS 432A. Politics of Mexico (3)**

*Prerequisite: POLS 156 or 225 or instructor's permission.* Study of the genesis and development of Mexico's political system. Examines the different interpretations of the Mexican political system and provides the background of the development of the modern Mexican state. Special emphasis in the challenges of contemporary Mexican politics, including the rising participation of civil society, the evolution of the political institutions and processes and the political impact of globalization and neoliberalism.

**POLS 432B. Governments and Politics of South America (3)**

General survey of the political structures of the South American states, with particular emphasis on Argentina, Brazil, Chile and Uruguay; institutional and non-institutional means of organizing political power; and contemporary political trends within the region.

**POLS 433A. The Politics of Central America (3)**

Study of the politics of Central America emphasizing current socioeconomic and political crises and U.S. involvement in those crises.

**POLS 433C. The Church and Politics in Latin America (3)**

Study of the role of the Catholic Church in contributing to change in the politics of Latin American societies. The Church will be viewed as a political value bearer as well as an evolving institution.

**POLS 434A. Government and Politics of South Asia (3)**

Study of contemporary problems, political organization and governmental institutions of India, Bangladesh, Pakistan, Afghanistan, Nepal and Sri Lanka. Special attention paid to the development of nationalism and the process of modernization in the region.

**POLS 434B. Government and Politics of Southeast Asia (3)**

Comparative analysis of political processes, political change and major national problems (i.e., poverty, population, foreign economic penetration) in selected Southeast Asian states—Indonesia, Malaysia, the Philippines, Singapore, Burma, Thailand and Vietnam.

**POLS 435A. Government and Politics of China (3)**

Analysis of the People's Republic of China, including its ideology, revolutionary origin, party organization, central and local government, role of the military, mass participation, economic modernization, cultural policies and foreign policy. Changes from the Maoist to the post-Mao period will be emphasized. The question of Taiwan will be discussed.

**POLS 435B. Government and Politics of Japan (3)**

Analysis of continuity and change in political economy, society and culture; state institutions, political power and political issues; political competition; and key national issues, policies and their outcomes.

**POLS 436A. Government and Politics of Europe (3)**

Comparative analysis of recent and contemporary European politics, focusing on the political, economic and social structures that have shaped European affairs since the end of World War II. Emphasis on the role played by the modern state, the interstate system, nationalism and the world economy in shaping postwar European politics.

**POLS 438. Governments and Politics of the Middle East (3)**

Study of contemporary social and political movements, governmental institutions and politics of the Arab states, Israel and Iran.

**POLS 439A. Government and Politics of Sub-Saharan Africa (3)**

Study of the national governments, emerging political patterns and problems of new states of West and East Africa. Study includes an overview of traditional societies and the politics of cultural sub-nationalism. Major focus on contemporary nationalism, modernization and ideological developments, and on single-party, military and other political structures. Seminar format with individual presentations.

**POLS 439B. Government and Politics of Southern Africa (3)**

Study of the national political structures and international politics of Southern Africa. Analysis focuses on the dynamics of race relations, African liberation movements, forms of government and politics, development of white and black nationalism, attempts at regional organization and international involvement in Southern Africa. Seminar format with individual presentations.

**POLS 440. American Political Parties and Politics (3)**

Study of the rise of American political parties, their structure, operation, control and political leadership.

**POLS 441. Interest Groups (3)**

Study of the tactics and aims of interest groups in their efforts to mold public opinion and to influence legislators, executives, judges and administrators.

**POLS 442. Government and Business (3)**

Study of the exercise of public power to regulate business, industry and agriculture; the significant effects of a federal system on business enterprise; and inquiry into "doctrines in competition" through the use of decisions of the U.S. Supreme Court.

**POLS 443. The Legislative Process (3)**

Detailed analysis of the structure, operations and activities of legislative bodies, including Congress, state legislatures and municipal councils.

**POLS 444. Elections and Voting Behavior (3)**

Study of the electoral process in the U.S., presented in terms of the history of elections, election and campaign techniques, and patterns of voting behavior.

**POLS 445. Political Behavior (3)**

Introduction to political behavior; the influences of culture, ideology and social structure on political life; group influences on political behavior and major factors in leadership; and psychological bases of participation in normal and extreme politics.

**POLS 446. The Presidency (3)**

Analysis of the evolution of the Presidency since 1789, with regard to the President's role as party leader, chief administrator, chief legislator and national symbol. Analysis of major characteristics of the Presidency, issues concerning the President's constitutional powers and limitations, his present responsibilities and the political and administrative tools available.

**POLS 447A. Media and Politics (3)**

The focus of this course is a reconciliation of common perceptions of media influence on public opinion, elections and policy making with empirical evidence of media effects on these components of the political system. The term "media" will be defined through its organization and workings that includes print, broadcast and internet sources. Students will learn to become more critical consumers of media information and contemplate the role of the media in a democracy.

**POLS 448. Women and Politics in the United States and the World (3)**

Examines feminist theories and public policies as they shape the various political possibilities and strategies for women in the U.S. and in other selected countries.

**POLS 449. The Politics of Community Action (3)**

*Prerequisite: Upper Division standing.* Examines the role of community organizing and community action as it translates into social movements and public policy making. Students are required to perform either field work or an internship and to integrate their experiences with literature and research on community organizing, social movements and/or public policy making for their final paper. The course will qualify as an internship to substitute for 1 of the 2 proseminars required for the Political Science major.

**POLS 450. Jurisprudence (3)**

Critical survey of the modern schools of jurisprudence and their treatment of law and such legal concepts and problems as obligation, responsibility, punishment and the limits and purposes of law. The works of students of jurisprudence or legal philosophy are supplemented with descriptive accounts of the nature and operation of modern legal systems.

**POLS 455. Criminal Procedures (3)**

Critical examination of the law and practices of the criminal process. Emphasis on the major problems involved in pretrial procedures. These include search and seizure, self-incrimination, bail, plea bargaining and the enforcement of constitutional rights.

**POLS 457A. Constitutional Law I (3)**

General principles of federal and state constitutional law, the powers of the national government and federal-state relations. Study of the leading decisions of the U.S. Supreme Court.

**POLS 457B. Constitutional Law II (3)**

Limitations on the national government and the scope of constitutional rights and liberties. Study of the leading decisions of the U.S. Supreme Court.

**POLS 458. Administrative Law (3)**

Intensive study of the administrative process, with particular emphasis on legal requirements affecting administrative adjudication and rule making.

**POLS 460. Welfare State (3)**

Introduction to the development of welfare policy and the evolution of the welfare state in Western industrialized nations by inquiring into the philosophical and political debates surrounding social policy and its implementation.

**POLS 461. Environmental Policy (3)**

Study and evaluation of the political process governing the making of environmental policy. Specific issues covered include energy policy, land use, air and water pollution, and hazardous and toxic waste disposal.

**POLS 462. Ethics in Politics and Administration (3)**

Examination of the various kinds of ethical problems faced by elected and non-elected government personnel. Focus is on the scope and limits of individual responsibility in the practice of politics and the management of public organizations.

**POLS 463. Public Personnel Administration (3)**

Analysis of the decline of the spoils system and rise of civil service, and analysis of practices and problem issues concerning such topics as recruitment, position classification, fringes, morale, in-service training, public-service unions and civil liberties of public employees.

**POLS 464. Comparative Public Policy (3)**

Examines why different nations formulate and implement different public policies for similar problems. Systematic and critical approach to understanding the effect of ideological orientations, political institutions and governmental processes on the public policies of modern states.

**POLS 465. Administrative Behavior (3)**

Analysis of classic theories and case studies in administrative behavior; relations of organizational structure and personality types; and survey of approaches to rationality in decision making through study of the factors influencing administrative choices.

**POLS 466. The Politics of Public Spending (3)**

Critical analysis of how government financial policies are formulated and controlled within a setting of conflicting views and interests. Examines the influence of the system of checks and balances: the effects of cooperation between chief executives, administrators, budget bureaus, legislators, pressure groups and the general public; and the impact of government spending on the private economy.

**POLS 467. Urban Administration (3)**

Analysis of public executives, including mayors, city managers and chief administrative officers, and their relationships to the structures of urban government and the public priorities and programs of urban areas. Focus includes the executive's relationships with the formal structures, councils, civil servants, budgets, political parties, interest groups, independent agencies, the media and other levels of governments.

**POLS 469/L. City Planning and Lab (2/1)**

*Corequisite: 469L.* Seminar that deals with the role of government in guiding the development of the urban physical environment. Nature, history, objectives and methods of city planning. Organization for city planning. Political dynamics of policy formulation and control. 2 hours seminar, 2 hours field activity.

**POLS 471A-F. Proseminar (3)**

*Prerequisite:* POLS 372; *Intended for seniors only (juniors require instructor consent).* Advanced research in a subfield in political science. (A) American Government, (B) Comparative Government, (C) International Relations, (D) Political Theory, (E) Public Administration and Public Policy, and (F) Public Law.

**POLS 480. The Politics of Globalization (3)**

*Prerequisite:* *Upper Division standing.* Introduction to some of the major changes that have accompanied the processes of globalization during the last 30 years, including identifying and addressing the positive and negative consequences of these changes. Discussion of different approaches to globalization; its technical and historical roots; and the economic, political, ethical and cultural consequences of globalization. The case of NAFTA and its 3 members—Canada, the U.S. and Mexico—serves as a case study on which the class focuses to understand how the general trends of globalization take shape in a particular region.

**POLS 481. Globalization, Gender and Democratization (3)**

*Prerequisite:* *Upper Division standing.* Concerned with 3 major phenomena of the modern world—globalization, democratization and feminization, as well as their interrelationships and their impacts on gender regimes (or gender relationships) in various parts of the world. Incorporates gender analysis into a critical study of the processes of globalization and democratization. Identifies a number of gender regimes in the world and explores the economic, political and interpersonal practices (including globalization) that contribute to their stability or ability to change in various institutions.

**POLS 486SOC. Social Science Career Internship (3)**

*Prerequisites:* *Upper Division standing in a social or behavioral sciences major, appropriate methods course as specified by the Department; Instructor consent.* Social and behavioral sciences principles are applied to the workplace. At least 10 hours per week of supervised field work required. Students complete learning contracts and submit written reports related to their internships. (Cross listed with GEOG, PAS, PSY, and SOC 486SOC.) (See section on Academic Internships.)

**POLS 490. Supervised Individual Projects (1)**

*Prerequisite:* *Instructor consent.* Individual, supervised studies in selected areas of political science.

**POLS 490CA. Supervised Individual Project—California Government (1)**

*Prerequisite:* *Instructor consent.* Individual, supervised studies in California government. (Satisfies the Title 5 California State and Local Government.)

**POLS 494I. Political Science Internship (3 units)**

*Prerequisite:* *Instructor consent.* Approximately 120 hours of supervised field work required. Students complete learning contracts and submit written reports related to their internships. Students will meet as a seminar group with a faculty member during the semester. Does not carry credit for the Master's Degree.

**POLS 494J. Judicial Internship (3)**

*Prerequisite:* *Instructor consent.* Students are assigned to a Superior Court judge to observe the inner workings of the Los Angeles County Superior Court. Through observation of trials, settlement conferences, plea bargains and preliminary hearings, students develop a familiarity with the processes of the judicial system and the issues facing the legal system.

**POLS 496A-Z. Experimental Topics Courses in Political Science (3)**

Selected topics in political science, with course content to be determined.

**POLS 499. Independent Study (1-6)**

*Prerequisite:* *Instructor consent.* Does not carry credit for the Master's Degree.

**Graduate**

300-level courses do not carry credit toward the Master's Degree. 400-level courses carry credit for the Master's Degree only if they are approved by the Department. Prospective students must consult with the Department to determine the status of the Program before applying.

**POLS 522A-G. Seminar in International Relations (3)**

*Prerequisite:* *Classified graduate status or instructor consent.* Inquiry into major contemporary theories in international relations, including treatment of the problems of theory building and testing. (A) Theory and Methodology, (B) International Law, (C) International Organizations, (D) Comparative Foreign Policies, (E) National Security Policies, (F) International Relations of Selected Areas, and (G) Selected Topics

**POLS 530A-J. Seminar in Comparative Government (3)**

*Prerequisite:* *Classified graduate status or instructor consent.* Inquiry into major contemporary theories in Comparative Government relations, including treatment of the problems of theory and the study of selected areas. (A) Democratization, (B) Theory and Methodology, (C) Development, (D) Western Europe, (E) East Central Europe, (F) Middle East, (G) East Asia, (H) Latin America, (I) Africa, and (J) Selected Areas.

**POLS 540A-J. Seminar in American Government and Politics (3)**

*Prerequisite:* *Classified graduate status or instructor consent.* Inquiry into major contemporary theories in American government including treatment of the problems of theory, law, institutions and political behavior. (A) Political Thought, (B) Behavior, (C) Parties and Interest Groups, (D) Public Law, (E) Institutions, (F) Policy, (G) State and Local Government, (H) Municipal Government, (I) Media, and (J) Selected Topics.

**POLS 560. Seminar in Public Administration Theory (3)**

*Prerequisite:* *Classified graduate status or instructor consent.* Students study extensively the nature of public organizations and explore various analytical models, concepts, functions and techniques of administrative leadership, group dynamics and decision making that shape the procedures and policies of government in different administrative settings at the international, national, state and local levels.

**POLS 570. Seminar in Political Theory (3)**

*Prerequisites:* *Open to graduate students in the social and behavioral sciences; Instructor consent for Upper Division students.* Graduate survey seminar course in political theory. Engages students in in-depth analysis of the arguments of some of the defining figures of political theory, both ancient and contemporary.

**POLS 571. Seminar in Methodology (3)**

Study of representative literature in the field of political science, with emphasis on the underlying methodological assumptions, analysis of statistical techniques employed with respect to appropriateness, evaluation of research design and application, and evaluation of validity of conclusion, with recommendations for replication or improvement.

**POLS 597. Directed Comprehensive Studies (3)**

Open by special permission to students electing to complete a Comprehensive Examination in partial fulfillment of the requirements for the Master of Arts Degree.

**POLS 599. Independent Study (1-6)**

*Prerequisite:* *Instructor consent.*

# Psychology

## College of Social and Behavioral Sciences

**Chair:** Carrie Saetermoe

**Sierra Hall (SH) 376**

**(818) 677-2827**

**[www.csun.edu/psychology](http://www.csun.edu/psychology)**

### *Faculty*

Andrew Ainsworth, Tyler Blake, Gabriela Chavira, Sheila Grant, Que Lam Huyah, Sun-Mee Kang, Gary Katz, Ellie Kazemi, Luciana Laganá, Howard Lee, Debbie Ma, Debra Berry Malmberg, Bradley McAuliff, Maura Mitrushina, Shannon Morgan, Janet Oh, Mark Otten, Scott Plunkett, Jill Quilici, Jill Razani, Abraham Rutchick, Carrie Saetermoe, Mark Sergi, Jerry Shaw, Dee Shepherd-Look, Paul Skolnick, Holli Tonyman, Michele Wittig, Erica Wohldmann

### *Emeritus Faculty:*

S. Joyce Brotsky, Donald Butler, Karla Butler, Robert Dear, Richard Docter, Ronald Docter, Jean Elbert, Linda Fidell, Helen Giedt, Donna Hardy, Alice Hawkins, Melvin Hoffman, Patricia Keith-Spiegel, William Knowles, Brennis Lucero-Wagoner, James McMartin, Benjamin Mehlman, Joseph Morris, Roger Moss, Samuel Moss, Samuel Pinneau, Leo Pirojnikoff, Edward Sampson, Mark Sanders, Ruth Sydney Segel, Richard W. Smith, Stanley Summers, James Torcivia, Nora Weckler

### Programs

Undergraduate:

**B.A., Psychology**

**Minor in Psychology**

Graduate:

**M.A., Psychology**

**Option in Behavioral Clinical Psychology**

**Option in Clinical Psychology**

**Option in General Experimental Psychology**

**Option in Human Factors and Applied Psychology**

### Mission Statement

The vision of the Department of Psychology is summed up in one word: "Relevance." The Department of Psychology, housed in a University serving one of the world's most diverse urban regions, is committed to excellence in teaching, research and service to the community. Our mission is to provide students with a strong academic background in psychology, as well as to help them develop professional competence. We encourage students to develop critical-thinking skills, creative abilities, interpersonal skills, ethical values and integrity in an inclusive community in which teaching and mentoring of students is valued. Our courses encourage scholarship, intellectual inquiry, professional achievement and service to the community. Students acquire many skills through field work and service learning as well as involvement in research projects guided by our faculty. We encourage students to gain knowledge and comprehension of the theories, concepts and empirical approaches used in psychology and their application to the human condition. Our Program offers a broad spectrum of theoretical approaches, including biological, developmental, behavioral, individual and social systems, as well as learning and cognitive processes. As part of their academic training, students gain knowledge and understanding of research methodology and the statistical analysis of empirical data. Through the Department's commitment to applied social science research, students obtain the critical core skills necessary to meet the needs of the region, as well as to be competitive in the multicultural marketplace as either members of the workforce or as graduate students.

### The Major

The course of study and the requirements for the B.A. Degree in Psychology provide an opportunity for students who (a) desire to extend their education in the liberal arts with an emphasis in psychology, (b) wish to prepare themselves for graduate work in psychology, or (c) plan to enter one of several professional or occupational fields for which a substantial background in psychology is essential.

### Minors Associated with Psychology

1. **Minor in Psychology.** Students whose major is in another area may complete a Minor in Psychology, selecting course work that complements their major field. Consult a psychology undergraduate advisor for details.
2. **Interdisciplinary Minor in Human Sexuality.** Students wishing to develop an undergraduate specialization in this area may complete a part of their course work in Psychology. Consult the Human Sexuality section of the Catalog for details.
3. **Interdisciplinary Minor in Gerontology.** Students interested in the processes of aging or careers in gerontology should consider this minor. Consult the Gerontology section of the Catalog for details.

### Student Learning Outcomes of the Undergraduate Program

1. Students will demonstrate sufficient communication skills by (a) communicating thoughts, arguments and research work in writing using the tone, grammar and organization appropriate to professional work in psychology; and (b) demonstrating effective oral communication skills in group discussions and class presentations.
2. Students will demonstrate effective collaboration with team members in group activities such as projects, recruiting research participants, collecting data, presenting research findings and/or working in research labs.
3. Students will demonstrate competence in electronic and information technologies by (a) using computational and statistical software, (b) using computers to review abstracts appearing in relevant databases and obtaining full-text versions of the literature relevant to a research topic, (c) paraphrasing, quoting and citing appropriate sources to avoid plagiarism, and (d) effectively using the American Psychological Association (APA) Style Manual.
4. Students will demonstrate critical-thinking skills and skeptical inquiry by evaluating the strengths and weaknesses of current research literature and/or their own research using psychological research methodology.
5. Students will demonstrate sufficient use of statistical analysis, interpretation and presentation of psychological data.
6. Students will demonstrate appropriate and ethical use of human participants by going through the process of participant recruitment and debriefing human participants involved in psychological research.
7. Students will demonstrate knowledge of the theories, concepts and empirical approaches of psychology from diverse perspectives, including biological processes, developmental processes, individual and social processes, and learning and cognitive processes.
8. Students will demonstrate personal, sociocultural and international awareness.
9. Students will demonstrate and apply appropriate knowledge and skills in professional practice through community service and/or research practica.

### Careers

Most careers in psychology require graduate study at the Master's or Doctoral level. However, there are increasing opportunities in business, education and health care for Bachelor's-level psychologists. Appropriate Master's Degree Programs can lead to a wide range of careers, including school psychology, behavior analysis, business applications (human factors psychology and industrial-organizational psychology), clinical

psychology (if one receives appropriate education and obtains a license), and a variety of other careers found in school settings (counseling, testing, research and administration), as well as community mental health clinics, prevention and/or high risk programs for health/lifestyle issues, programs using applied behavior analysis, rehabilitation centers and other health facilities. Psychologists also are employed by nearly all levels of governmental agencies, such as the Department of Education, the Department of Veteran's Affairs, the Department of Defense and the Department of Health and Human Services, as well as state, county and local mental health services. Psychologists who receive their Doctorate may become professors, researchers, consultants, public policy analysts and licensed clinical psychologists.

### Board Certified Behavior Analyst (BCBA®) Program

The Psychology Department's BCBA Program has been approved by the BACB® to meet the course work requirements for eligibility for the Board Certification Exam. Candidates who do not yet have a Master's Degree may apply to the Psychology Department's Master's Program in Clinical Psychology. The BCBA Program is comprised of five 3-unit graduate-level courses and two 1-unit preparatory courses within a 17-unit program (255 classroom hours) formulated to address the Content Areas detailed by the Board. Consult the Program website for details about the Program, answers to frequently asked questions, application procedures and requirements for admission (<http://tseng-college.csun.edu/bcba/bcba.html>).

### Academic Advisement

Contact undergraduate advisors Robert Park and Michelle Street at (818) 677-2952. For graduate program advisement, call (818) 677-2827.

### Requirements for the Bachelor of Arts Degree

#### 1. Lower Division Required Courses (10 units)

|      |     |   |
|------|-----|---|
| MATH | 140 | Introductory Statistics (4)                     |
| PSY  | 150 | Principles of Human Behavior (3)                |
| PSY  | 250 | Physiological Correlates of Human Behavior *(3) |

\*A score of 151 or higher on the English Placement Test is prerequisite to PSY 250.

Supporting courses in Biology, Mathematics, Philosophy and the social sciences are recommended, but not required.

#### 2. Lower Division electives

Lower Division courses other than those specified as required do not count toward a Major in Psychology. These courses exist to inform students about topics of special interest and will count toward the total units required for graduation.

#### 3. Upper Division Required Courses (26 Units)

*Note: Completion of the Lower Division writing requirement is prerequisite to all 300-level courses. Students are advised to complete the Lower Division writing requirement and to take PSY 301, 320/L and 321/L early in their program because these courses are prerequisite to other Upper Division courses required in the Major.*

#### Required courses (9)

|     |       |   |
|-----|-------|---|
| PSY | 301   | Pre-Professional Development in Psychology (1)  |
| PSY | 320/L | Statistical Methods in Psychology and Lab (3/1) |
| PSY | 321/L | Research Methods in Psychology and Lab (3/1)    |

**Breadth Requirement :** One course from each of the following 4 core areas (Clusters) is required:

#### Cluster 1: Clinical/Personality Psychology (3)

##### Choose 1 of the following:

|     |     |                                       |
|-----|-----|---------------------------------------|
| PSY | 310 | Behavior Disorders (3)                |
| PSY | 351 | Behavioral Psychology and Therapy (3) |
| PSY | 353 | Psychological Interventions (3)       |
| PSY | 370 | Personality Psychology (3)            |
| PSY | 380 | Psychology of Stress (3)              |

All courses in the Clinical/Personality Cluster cover the following Student Learning Objectives—1, 2 and 3, and at least one of the remaining objectives.

1. Students will demonstrate knowledge of history, theoretical perspectives (e.g., psychodynamic, trait, humanistic, evolutionary) and research on determining individual differences in personality and the development and maintenance of adaptive and maladaptive behavior.
2. Students will demonstrate knowledge and understanding of assessment, diagnosis or treatment in a cultural context.
3. Students will demonstrate knowledge of specific standards of research and practice established and maintained by the American Psychological Association.
4. Students will demonstrate knowledge of assessment, including test construction, testing standards and various test domains (e.g., objective tests, projective tests, structured interviews, behavioral assessments).
5. Students will demonstrate their understanding and ability to use classification and diagnostic systems (e.g., the DSM) for identifying specific psychopathologies in a multicultural environment.
6. Students will demonstrate knowledge of the intervention and treatment options available for the various clinical disorders, including limitations in general and when applied to certain populations.
7. Students will demonstrate understanding of the different influences determining individual differences and the development of psychopathology (e.g., biological/neurochemical, environmental/learning, cultural context).

### Cluster 2: Cognitive Psychology (3)

#### Choose 1 of the following:

|     |     |                                 |
|-----|-----|---------------------------------|
| PSY | 304 | Cognition and Instruction (3)   |
| PSY | 367 | Cognitive Psychology (3)        |
| PSY | 369 | Applied Cognition (3)           |
| PSY | 382 | Principles of Human Factors (3) |

All courses in the Cognitive Cluster cover the following Student Learning Objectives—1, 2 and 3, and at least two of the remaining objectives.

1. Students will demonstrate knowledge of key content areas in cognitive psychology, including perception, attention and the processes of encoding, storage and retrieval of information.
2. Students will demonstrate knowledge of at least 1 area of complex cognitive processes, including language, imagery, consciousness, metacognition, creativity, reasoning, problem solving and decision making.
3. Students will demonstrate knowledge of the variety of methods used to study human cognition (e.g., reaction time, brain imaging, error analysis, performance accuracy).
4. Students will demonstrate knowledge of major approaches to the study of human cognition, including the constructivist approach, information processing, parallel distributed processing and cognitive neuroscience.
5. Students will demonstrate knowledge of the variety of influences on human cognition, including biology/genetics, the environment and the cultural context.
6. Students will demonstrate knowledge about changes in cognition over the course of the human lifespan.

### Cluster 3: Developmental Psychology (3)

#### Choose 1 of the following:

|     |     |                                 |
|-----|-----|---------------------------------|
| PSY | 313 | Developmental Psychology (3)    |
| PSY | 327 | Infancy and Early Childhood (3) |
| PSY | 335 | Middle Childhood (3)            |
| PSY | 361 | Adolescence (3)                 |
| PSY | 365 | Gerontology (3)                 |

All courses in the Developmental Cluster cover the following Student Learning Objectives—1, 2 and 3, and at least two of the remaining objectives.

1. Students will demonstrate knowledge of key changes in development during specific periods of the lifespan.
2. Students will demonstrate knowledge of the variety of influences on human development, including biology/genetics, the environment and the cultural context.
3. Students will demonstrate knowledge of the variety of methods used to study human development (e.g., longitudinal, cross-sectional).
4. Students will demonstrate knowledge of and apply major approaches to the study of human development (e.g., biological/maturation, environmental/learning, constructivist, cultural context).
5. Students will demonstrate knowledge of the distinction between quantitative and qualitative changes in human development.
6. Students will demonstrate knowledge of individual differences in human development.
7. Students will demonstrate knowledge of the plasticity of human development.

#### Cluster 4: Social Psychology (3)

##### Required course:

PSY 345 Social Psychology (3)

All courses in the Social Cluster cover the following Student Learning Objectives—1, and at least one of the remaining objectives.

1. Students will demonstrate knowledge of the various research methods used by social psychologists.
2. Students will demonstrate knowledge of key concepts in social thinking—how we view ourselves and others—such as the accuracy of impressions, intuitions and explanations.
3. Students will demonstrate knowledge of key concepts in social influence—how our behavior is changed by others—such as persuasion, conformity and attitudes.
4. Students will demonstrate knowledge of key concepts in social relations—how we interact with others—such as attraction, aggression, helping and discrimination.

#### Capstone Requirement (3/2)

##### Choose 1 of the following:

- PSY 471AA-ZZ/S Advanced Inquiry in Clinical/Personality Psychology and Seminar (3/2)
- PSY 473AA-ZZ/S Advanced Inquiry in Neuroscience and Seminar (3/2)
- PSY 475AA-ZZ/S Advanced Inquiry in Developmental Psychology and Seminar (3/2)
- PSY 479AA-ZZ/S Advanced Inquiry in Social Psychology and Seminar (3/2)
- PSY 485AA-ZZ/S Advanced Inquiry in Research and Analysis Methods and Seminar (3/2)
- PSY 488AA-ZZ/S Advanced Inquiry in Cognitive Psychology and Seminar (3/2)

All advanced inquiry Capstone courses cover the following Student Learning Objectives:

1. Students will demonstrate the ability to generate a researchable question.
2. Students will plan and execute a design for research to answer that question (either generating new data or analyzing previously collected data).
3. Students will compile, analyze, evaluate and interpret information relevant to their question (including previously published literature).
4. Students will effectively communicate information in oral, written and graphic forms.
5. Students will evaluate the possibilities for using findings relevant to their research in solving real world problems.
6. Students will recognize and address ethical concerns relevant to their research and the previously published literature.

#### 4. Upper Division electives (6 units or more)

Electives may include the above Upper Division courses not taken to satisfy other requirements or any 300- or 400-level courses in the Department of Psychology. Students may not double-count the above courses as required courses and elective courses. No more than 6 units combined total of PSY 498 (Practicum) and/or PSY 499 (Independent Study) may be counted toward the major. No more than 6 units of PSY 498 and 499 (12 units total) may be counted toward the B.A. Degree. Note that the number of units in Psychology must total at least 42 units; transfer credit for courses that reflect fewer units than those at CSUN must be compensated for in Upper Division Psychology elective units.

**General Education:** PSY 150 (Principles of Human Behavior) and MATH 140 (Introductory Statistics) satisfy both GE and major requirements. Students of Psychology are not exempt from any sections of the General Education program.

|  |     |
|--|-----|
| Total Units in the Major                 | 42  |
| General Education Units                  | 48  |
| Additional Units                         | 30  |
| Total Units required for the B.A. Degree | 120 |

#### Minor in Psychology

##### 1. Lower Division Required Courses (6 Units)

- PSY 150 Principles of Human Behavior (3)
- PSY 250 Physiological Correlates of Human Behavior (3)

##### 2. Upper Division Required Courses (12 Units)

Breadth Requirement: 1 course from each of the following 4 core areas (Clusters) is required:

##### Cluster 1: Clinical/Personality Psychology

###### Choose 1 of the following:

- PSY 310 Behavior Disorders (3)
- PSY 351 Behavioral Psychology and Therapy (3)
- PSY 353 Psychological Interventions (3)
- PSY 370 Personality Psychology (3)
- PSY 380 Psychology of Stress (3)

##### Cluster 2: Cognitive Psychology

###### Choose 1 of the following:

- PSY 304 Cognition and Instruction (3)
- PSY 367 Cognitive Psychology (3)
- PSY 369 Applied Cognitive Psychology (3)
- PSY 382 Principles of Human Factors (3)

##### Cluster 3: Developmental Psychology

###### Choose 1 of the following:

- PSY 313 Developmental Psychology (3)
- PSY 327 Infancy and Early Childhood (3)
- PSY 335 Middle Childhood (3)
- PSY 361 Adolescence (3)
- PSY 365 Gerontology (3)

##### Cluster 4: Social Psychology

###### Required course:

- PSY 345 Social Psychology

##### 3. Upper Division Electives (3 units)

#### Requirements for the M.A. in Psychology

The Department of Psychology offers advanced training in 4 areas of psychology: 1) Behavioral Clinical Psychology, 2) Clinical Psychology, 3) General Experimental Psychology, and 4) Human Factors and Applied Psychology. (School Psychology is an integrated program with the Department of Educational Psychology and Counseling. Persons interested in advanced training in School Psychology should apply

to the Department of Educational Psychology and Counseling in the College of Education.) For details, procedures and requirements for admission to the graduate Options in Clinical, General Experimental, and Human Factors, consult the Department of Psychology Graduate Handbook ([www.csun.edu/psychology](http://www.csun.edu/psychology)). For details, procedures, applications and requirements for admission regarding the option in Behavioral Clinical Psychology consult the Tseng College website (<http://tsengcollege.csun.edu/masters.html>).

#### A. Procedures and Requirements for Admission:

**For Fall admission, the Department deadlines for applications are:**

**Behavioral Clinical Psychology:** For applications, admission requirements and deadlines for the Behavioral Clinical Psychology Option, see the Program website (<http://tsengcollege.csun.edu/masters.html>).

**Clinical Psychology:** Feb. 15

**General Experimental Psychology:** April 1

**Human Factors and Applied Psychology:** April 1

*The Human Factors and Applied Psychology Option also has a Nov. 1 deadline for Spring admission.*

**In addition to University admission requirements, the Psychology Department requires:**

1. Submission of a Psychology Department Graduate Program Application (available from the Psychology Graduate Office or [www.csun.edu/psychology](http://www.csun.edu/psychology)) to be submitted to the Psychology Graduate Office by the above deadlines;
2. Transcripts;
3. Letters of recommendation; and
4. GRE scores.

*Note: Clinical Psychology requires personal interviews for admission. General Experimental Psychology and Human Factors Psychology require consent of a faculty member to serve as research advisor for admission.*

Early application, careful study of the Department of Psychology Graduate Handbook and of the University Catalog, and consultation with the graduate advisor of the Graduate Program Option of interest are strongly recommended.

#### B. Classified Admission and Conditionally Classified Admission:

Participation in any of the Graduate Programs offered by the Department of Psychology is limited to Classified and Conditionally Classified graduate students. Conditionally Classified admission, used sparingly by the Department, is for students who have met all requirements for admission to the Graduate Program except for completion of a course or examination. The Department specifies the conditions to be fulfilled before Classified standing is awarded. Normally, these conditions must be met within the first semester of graduate training. Applicants interested in the Behavioral Clinical Psychology Program are advised to review the admission requirements on the Tseng College website (<http://tsengcollege.csun.edu/masters.html>).

#### C. For Admission to Classified Graduate Status

1. Admission to any of the 4 Graduate Program Options, except as noted in the Department of Psychology Graduate Handbook, generally requires an Undergraduate Degree in Psychology. Applicants who do not have a Degree in Psychology are required to complete certain undergraduate courses prior to acceptance to Classified status. Those who do not have a Degree in Psychology should study the Graduate Handbook and consult with the appropriate Graduate Option Program Coordinator about these requirements.
2. A GPA of 3.0 is required except on approval by the Graduate Committee of the Program Option to which admission is sought. Enrollment is limited. It is not possible to admit all of the qualified students who apply.

3. Completion of the General Test and the Advanced Psychology Test of the Graduate Record Examination (GRE) is required, with satisfactory scores as prescribed by the Graduate Committee of the Option in which Degree work is to be taken. In certain Options, persons with appropriate undergraduate preparation may request waiver of the requirement for the Advanced Psychology Test.
4. Personal interview, prior experience in applied work and satisfactory letters of recommendation are required by some programs. Consult the Department of Psychology Graduate Handbook for more information.
5. General University requirements also must be met. Carefully consult other sections of this catalog for details. These requirements include passing the Upper Division Writing Proficiency Exam (UDWPE) with a score of 8 or higher.

### Master of Arts Options in Psychology

#### A. Behavioral Clinical Psychology

In this 2-year program, students can obtain their M.A. Degree and complete the Behavior Analyst Certification Board (BACB) coursework requirements to practice as Board Certified Behavior Analysts. We emphasize philosophy, theory, science, conceptual framework and methodology that guide clinicians in the field of applied behavior analysis. Students of the Program will be taught how to conduct behavioral assessments and implement and monitor outcome-based interventions following ethical guidelines. The course work incorporates practical training, with a focus on methodology and conceptual understanding of the science of applied behavior analysis. The breadth and scientific rigor of this Program also will provide students with the foundation necessary to pursue Doctoral training. This Program is offered in collaboration with Tseng College of Extended Learning and geared toward working students. (Note: Refer to [www.bacb.com](http://www.bacb.com) for standards and requirements to become eligible to sit for the Board Certification Exam).

#### Required Courses (37 units)

##### Board Required BCBA Eligibility Coursework (19 units)

- PSY 551A Becoming a BCBA: Professional and Certification Issues (1)
- PSY 552 Principles of Applied Behavior Analysis (3)
- PSY 553 Measurement and Experimental Evaluation of Behavior (3)
- PSY 555 Assessment in Applied Behavior Analysis (3)
- PSY 557 Behavior Change Procedures and Systems Support (3)
- PSY 558 Special Topics in Applied Behavior Analysis (3)
- PSY 600 Ethical Practice with Individuals, Families and Multidisciplinary Teams (3)

##### Advanced Concepts, Methods and Practice (12 units)

- PSY 525B Advanced Psychological Measurement (3)
- PSY 629 Concepts and Clinical Application of Behavior Analysis (3)
- PSY 692A Seminar in Research Methodology (3)
- PSY 611 Developmental Psychopathology and ABA Interventions (3)

##### Thesis or Graduate Project (6 units)

- PSY 696 Thesis or Graduate Project (3-3)
- PSY 696 is a 3-unit C-factor course and can be taken in 2 successive semesters, the second year of graduate studies in Behavioral Clinical Psychology. The Thesis process is supervised, guided by the faculty member teaching the course each semester and must be completed within 1 calendar year. In the first semester, students enrolled in the Thesis course will critically read, evaluate and interpret peer-reviewed articles related to their research interests, formulate research hypotheses, choose appropriate research designs for their research questions and write a Thesis Proposal. In the second semester, students will be guided during data collection, data interpretation and final Thesis write-up. Students

will be highly encouraged to submit and present their research findings at professional conferences.

### Optional Courses

XBEH 902 Practicum (1,000 hrs)

Students may enroll in a University-based practicum where they may complete behavior analytic experience hours required for the BCBA Examination. This experience may require supervision and participation in our on-campus or off-campus applied behavioral field work placements.

|   |           |
|---|-----------|
| <b>Total Minimum Units Required for the M.A. Degree in Behavioral Clinical Psychology</b> | <b>37</b> |
|---|-----------|

## B. Clinical Psychology

Clinical Psychology emphasizes theory and practice in psychological assessment and psychological interventions, together with the study of research methods and program evaluation. Students participate in field work placements in clinical settings in our on-campus Community Services Center in Monterey Hall as well as in off-campus placements. In addition, students may opt to engage in independent research programs leading to graduate theses. This Program is designed for students aspiring to enter Doctoral programs in Clinical Psychology and for those seeking Master's-level clinical and research skills. Taken alone, it is not intended as preparation for the independent, unrestricted private practice of clinical psychology, which requires a Doctoral-level license in California and in most other states. (*Note: The Clinical Psychology Program is not a Marriage and Family Therapy (MFT) Program. CSUN's MFT program is offered by the Department of Educational Psychology and Counseling.*)

The Clinical Psychology Program requires students to complete a minimum of 48 units.

### 1. Required Courses (33 units)

#### Clinical Psychology (6 units)

PSY 595A-Z Experimental Topics in Psychology (3)

PSY 605 Introduction to Health Psychology (3)

#### Advanced Psychopathology (6 units)

PSY 610A Advanced Psychopathology—Child (3)

PSY 610B Advanced Psychopathology—Adult (3)

#### Psychological Assessment (8 units)

PSY 625C/L Child/Adolescent Psychological Assessment and Lab (3/1)

PSY 625D/L Adult Psychological Assessment and Lab (3/1)

#### Advanced Psychotherapy Techniques (6 units)

PSY 628 Fundamentals of Psychotherapy (3)

PSY 629 Seminar in Behavior Modification (3)

#### Advanced Statistics and Research Design (7 units)

PSY 420/L Advanced Statistical Methods and Lab (3/1)

PSY 692 Seminar in Research Methodology (3)

#### Field Work (9-15 units)

PSY 655A-Z Field Work in Psychological Services\* (1-5)

Students must enroll in a minimum of 9 units of PSY 655(A-Z) as shown in the course sequence. This requires participation in our on-campus or off-campus clinical field work placements. Students electing not to complete a Master's-level Thesis must enroll in an additional 6 units of PSY 655 Field work beyond the 9 unit minimum for a total of 15 units of field work.

\*May be repeated (up to 4 semesters) and taken for a varying number of units (1-5).

#### Thesis or Graduate Project (6 units)

PSY 698C Thesis or Graduate Project (3-3)

Students may elect to complete a master's level thesis or project as

part of their degree requirements. Specific academic, formatting, and oral defense requirements are found in the Department of Psychology Graduate Handbook. Students who elect not to complete a master's level thesis or project are required to enroll in an additional 6 units of fieldwork beyond the 9 unit required fieldwork experience.

## 2. Comprehensive Examination and Final Oral Examination,

### Deadlines and Grade Requirements

**a. Comprehensive Examination:** Students opting out of a research Thesis will enroll in PSY 697 and will complete a Comprehensive Examination in their second year of study as their Culminating Experience. The examination is conducted by the Graduate Committee of the Area in which the student specializes. For further information, consult the Department of Psychology Graduate Handbook or graduate advisor.

**b. Final Oral Examination (Thesis Option only):** Students electing to complete a Master's Thesis will take an Area Examination in their second year and will have their Thesis defense as their Culminating Experience. Candidates for the M.A. Degree must pass an examination in the Area of their Specialization. This exam is primarily based on the Thesis and is scheduled 2 weeks after the final version of the Thesis is presented to the Graduate Committee.

Total time allowed for completion of the Program is 7 years

from the date of acceptance. Students who intend to interrupt their Program are expected to notify the Department in writing to request prior approval. Those who fail to meet these requirements or who fail to maintain a GPA of 3.0 or greater, are subject to being dropped from the Program.

**First-year evaluation:** An evaluation will be made at the conclusion of the first-year encompassing all aspects of a student's work to determine eligibility to proceed into the second year of the Program.

|  |           |
|--|-----------|
| <b>Total Minimum Units Required for the M.A. Degree in Clinical Psychology</b> | <b>48</b> |
|--|-----------|

## C. General Experimental Psychology

CSUN's General Experimental Psychology Graduate Program Option provides rigorous training in advanced statistical methods, research methods and design, and theory in psychology for students who plan to pursue a Ph.D. in Psychology in a research-focused program. The Program Option is comprised of faculty who are active researchers in their fields, and who are dedicated to training and mentoring students who plan to pursue academic and/or research careers in an array of basic and applied areas of psychology. The application requires applicants to indicate which faculty they would be interested in working with as their Thesis Research Advisor. A faculty member in the General Experimental Program Option must agree to accept a student into their research lab before the Department can accept a student into the Program Option even if the applicant meets all of the other admission requirements. It is therefore advised that applicants review faculty research interests prior to submitting an application.

### 1. Prerequisite

PSY 420/L Advanced Statistical Methods and Lab (3/1)

### 2. Required Courses (23 units)

#### Professional Development/Research Internship (6 units)

PSY 500 Seminar in Professional Development (3-3)

#### Advanced Statistical Methods/Lab (8 units minimum)

Select a minimum of 8 units from the following:

PSY 520/L Advanced Statistical Methods and Lab (3/1)

PSY 524/L Multivariate Statistical Methods and Lab (3/1)

PSY 5 34/L Latent Variable Analysis and Seminar (3/2)

**Advanced Research Methods (3 units)**

**Select 3 units from the following:**

PSY 514 Advanced Experimental Psychology (3)

PSY 692A Seminar in Research Methodology (3)

**Advanced Psychological Theory (6 units)**

**Select a minimum of 6 units from the following:**

PSY 512 Seminar in Developmental Psychology (3)

or PSY 612 Advanced Developmental Psychology (3)

PSY 525 Advanced Psychological Testing (3)

PSY 540 Seminar in Social Psychology (3)

or PSY 640 Advanced Social Psychology I (3)

PSY 5 91A Seminar in Cognitive Psychology (3)

or PSY 691A Advanced Cognitive Psychology (3)

PSY 591B Seminar in Emotion and Motivation (3)

or PSY 691B Advanced Emotion and Motivation (3)

PSY 690A Advanced Sensation and Perception (3)

PSY 690B Advanced Conditioning and Learning (3)

**3. Electives (6 units)**

Students must take a minimum of 6 academic elective units at the 400-, 500- or 600-level. Courses at the 400-level must be preapproved by the student's graduate advisor prior to enrollment.

**4. Thesis (6 Units)**

PSY 696 Directed Graduate Research (3)

PSY 698C Thesis or Graduate Project (3)

Students are required to complete a Master's-level Thesis or Project as part of their Degree requirements. Specific Thesis formatting information and thesis deadlines are found in the Office of Graduate Studies, located in University Hall, Room 265.

**Final Oral Examination:** This examination is based primarily on the thesis and is scheduled 2 weeks after the final version of the Thesis is presented to the student's Graduate Committee.

Total time allowed for completion of the Program is 7 years from the date of acceptance. Students who intend to interrupt their Program are required to notify the Department in writing to request prior approval. Those who fail to meet these requirements or who fail to maintain a GPA of 3.0 or greater are subject to being dropped from the program.

|  |           |
|--|-----------|
| <b>Total Minimum Units Required for the M.A. Degree,<br/>General Experimental Psychology</b> | <b>34</b> |
|--|-----------|

**D. Human Factors and Applied Psychology**

This Program emphasizes the application of advanced psychological theories and methods pertaining to contemporary problems in the design and evaluation of people-technology-environment systems. Objectives are to prepare students to function as effective human factors specialists in industry, government or consultant settings, and to provide a strong foundation for further advanced academic study in human factors and applied psychology. *Note: This is not an Industrial/Organizational Program.* For further information, consult the Department of Psychology Graduate Handbook or graduate advisor.

**1. Required Courses (22 units)**

**Advanced Statistical Methods/Lab (5 units)**

PSY 485AA-ZZ/S Advanced Inquiry in Research and Analysis Methods and Seminar (3/2)

**Advanced Psychological Theory (9 units)**

PSY 656A, B, C or D Seminar in Human Factors Principles and Applications (3-3-3)

**Advanced Research Methods (8 units)**

PSY 678A or B Human Performance Research in Psychology (4)

PSY 682 Subsystem Integration in Human Factors Design (4)

**2. Electives (8 Units)**

Elective courses are selected in consultation with the graduate advisor. Elective courses must be approved by the graduate advisor prior to enrolling in those courses. Elective courses taken without prior approval may not count toward the M.A. Degree.

**Thesis or Graduate Project (6 units)**

**PSY 698C—Thesis or Graduate Project (3-3)**

**a. Final Oral Examination:** This examination is primarily based on the student's thesis or project and is scheduled 2 weeks after the final version of the Thesis or Project is presented to the student's Graduate Thesis Committee.

**b. Time for Completion:** Normally, PSY 698C is taken in 2 successive semesters and the Thesis or Project is completed within 1 calendar year. Exceptions must be petitioned in writing to the Human Factors Option Coordinator and approved by each member of the student's Thesis Committee.

Total time allowed for completion of the Program is 7 years from the date of acceptance. Students who intend to interrupt their Program are required to notify the Psychology Department and the Human Factors Option Coordinator in writing to request prior approval. Students who fail to meet these requirements or who fail to maintain a minimum GPA of 3.0 are subject to dismissal from the Program.

**Course List**

**PSY 150. Principles of Human Behavior (3)**

Designed to give students an understanding and appreciation of the scientific approach to human behavior, thought and action, and to provide the basic conceptual framework for studying the cognitive, emotional and social aspects of human activity. Students are required to spend approximately 2.5 hours during the term in research-related activities. (Available for General Education, Social Sciences.)

**PSY 200. Introduction to Lifespan Psychology (3)**

*Prerequisite: PSY 150.* Introduction to the patterns of growth, change, and stability in behavior that occurs through the entire lifespan. In addition to physical development, this course examines growth and change in intellectual abilities, as well as how interactions with others and social relationships develop from infancy to late adulthood. (Available for General Education, Social Sciences.)

**PSY 230. Introduction to Human Sexual Behavior (3)**

*Prerequisite: ANTH, PSY or SOC 150.* Introductory overview of human sexual function and sexual behavior. Emphasis on the historical and religious background of the prevailing attitudes toward sex in our culture as well as to current sexual practices from the perspective of contemporary social science. Additional topics include sexual values and ethics, love, legal aspects of sexual behavior and eroticism in American culture. (Cross listed with ANTH 230 and SOC 230.)

**PSY 245. Psychology of Social Issues (3)**

Inquiry into the psychological aspects of contemporary social problems. Analysis of psychosocial variables influencing people and a consideration of the conscious and unconscious aspects of motive states underlying current social conflicts. Individually assigned readings, small group discussions and classroom participation required. (Available for General Education, Social Sciences.)

**PSY 250. Physiological Correlates Human Behavior (3)**

*Prerequisites:* PSY 150; *Passing grade in AAS, CHS, PAS or ENGL 098 or eligibility for the Lower Division writing requirement.* Designed for students majoring in Psychology. Development of a greater understanding of the relationship between human behavior and human physiology. Includes basic information about the anatomy and function of the nervous and endocrine systems. Students are required to spend approximately 1.25 hours during the term in research-related activities.

**PSY 265. Psychology of Prejudice (3)**

*Prerequisite:* PSY 150. Consideration of psychologically relevant research and theory relating to prejudice and discrimination. Special emphasis given to African-American, Asian, Jewish, Latina/o and Native American cultures. Topics include institutional racism and discrimination, issues of “reverse discrimination,” culture, ethnicity and language, as well historical victims of prejudice and discrimination. (Available for General Education, Comparative Cultural Studies.)

**Upper Division****Course Prerequisites**

1. Passing grade in AAS, CHS, PAS or ENGL 098 or eligibility for the Lower Division writing requirement.
2. Completion of the Lower Division writing requirement is a prerequisite to all 300-level courses.
3. Passing the Upper Division Writing Proficiency Exam with a score of 8 or higher is a prerequisite for all 400-level courses.
4. PSY 250, 320/L and 321/L are required for many Upper Division courses and are recommended for most others.
5. PSY 301 is prerequisite for all AA-ZZ Advanced Inquiry courses, and is recommended preparation for all Upper Division courses.
6. When taken for the major, the following courses must be taken as corequisites with their 1-unit lab: PSY 320/L and 321/L. Exceptions must be approved by the instructor prior to enrolling.
7. 500-level Psychology courses may be taken for elective credit by undergraduates if the instructor grants permission.

**PSY 301. Pre-Professional Development in Psychology (1)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Course is required course for Psychology Majors. Recommended Preparatory:* PSY 150. This course, required of all Psychology Majors, should be taken as early as possible after declaring Psychology as one’s major. Students will learn about career options for Psychology Majors, preparation for various Post-B.A. career options and preparation techniques for graduate-level (Master’s and higher) education. While the course is designed for Psychology Majors, students contemplating Psychology as a major are encouraged to enroll. (Credit/No Credit only)

**PSY 302. Human Learning in the Formative Years (3)**

*Prerequisite:* PSY 150. *Recommended Preparatory:* PSY 301. Process of learning during infancy, childhood and early adolescence. Topics include concepts of cognitive development, individual problems in learning, the social learning process and the role of motivation.

**PSY 304. Cognitive Psychology and Instruction (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement. Recommended Preparatory:* PSY 301. Introduction to research and theory on how instruction affects student learning. Topics may include development of learning and thinking strategies, instructional methods, learning in subject matter areas, individual differences and classroom processes. Explores implications for education and teacher training. This course fulfills the 300-level Cognitive Psychology Cluster requirement for Psychology Majors.

**PSY 305. Cultural Determinants of Psychological Processes (3)**

*Prerequisite:* PSY 150. *Recommended Preparatory:* PSY 301. Psychological analysis of human emotions, actions and cognitions in relation to the surrounding culture from which they emerge. Interactions between conformity to societal norms, and deviation from them, are examined in depth.

**PSY 306. Health Psychology (3)**

*Prerequisite:* PSY 250. *Recommended Preparatory:* PSY 301. Provides an analysis of the contributions of psychology to medicine. Topics include an analysis of patient/physician interaction, psychological risk factors in illness, behavioral management techniques for disease, psychological intervention in addictive behaviors and psychological promotion of healthy behavior. Intended for both Psychology Majors and students who intend to work in health-related fields.

**PSY 310. Abnormal Psychology (3)**

*Prerequisites:* PSY 150, 250; *Completion of the Lower Division writing requirement. Recommended Preparatory:* PSY 301. Survey of mental disorders, including biological, psychological and social/cultural determinants, as well as psychosocial and pharmacological interventions. This course fulfills the 300-level Clinical/Personality Psychology Cluster requirement for Psychology Majors.

**PSY 312. Psychological Aspects of Parenthood (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement. Recommended Preparatory:* PSY 301. Analysis of motivations and skills necessary for parenthood and the effect of various parental attitudes and practices on the development of the self. Historical presentation of changes in parenting styles, cross-cultural views of parental practices and current information on the results of deviations in parental care. Examination of alternate family styles—single parenting, communal living arrangements and reconstituted families. (Available for General Education, Social Sciences.) (IC)

**PSY 313. Developmental Psychology (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement. Recommended Preparatory:* PSY 301. In the context of examining the development of the whole child, relevant aspects of physical, social, cognitive, linguistic and emotional change are highlighted as part of development from birth to adolescence. Emphasis on the study of the underlying processes and influences on human development. Cultural contexts of development, key changes, continuity and individual differences are examined. Includes evaluation of selected theories, contemporary issues and practical applications. This course fulfills the 300-level Developmental Psychology Cluster requirement for Psychology Majors.

**PSY 317. Psychopharmacology (3)**

*Prerequisites:* PSY 250; *Completion of the Lower Division writing requirement. Recommended Preparatory:* PSY 301. Study of the most commonly used therapeutic and recreational drugs. Physiological effects on the central nervous system and resultant behavior.

**PSY 320/L. Statistical Methods in Psychological Research and Lab (3/1)**

*Prerequisites:* PSY 150, MATH 140 or equivalent. *Corequisite:* PSY 320L. *Recommended Preparatory:* PSY 301. Analysis of statistical decision-making procedures used in psychological research. Lab: Considers problem-solving techniques and computational methods needed to analyze data obtained in psychological experiments. 3 hours lecture-discussion, 2 hours lab per week.

**PSY 321/L. Research Methods in Psychology and Lab (3/1)**

*Prerequisites:* PSY 320/L; *Completion of Lower Division writing requirement. Corequisite:* PSY 321L. *Recommended Preparatory:* PSY 301. Study of principles and techniques used to design and evaluate psychological research using simple and advanced research designs. Lab: Includes use of various research methods in psychology research projects. 2 hours lecture-discussion, 3 hours lab per week.

**PSY 322/L. Computer Applications for Psychologists and Lab (3/1)**

*Prerequisite:* PSY 150. *Corequisite:* PSY 322L. *Recommended Preparatory:* PSY 301. Introduction to the use of computers by psychologists in their clinical practice, research and teaching. Students use personal computers and student versions of state-of-the-art applications programs. No computer experience necessary. 3 hours lecture-discussion, 2 hours lab per week.

**PSY 327. Infancy and Early Childhood (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Relevant aspects of physical, social, cognitive and emotional change are highlighted as part of human development from conception to early childhood (8 years). Emphasis on study of the underlying processes and influences on human development. Cultural contexts of development, key changes, continuity and individual differences are examined. Includes evaluation of selected theories, contemporary issues and practical applications. This course fulfills the 300-level Developmental Psychology Cluster requirement for Psychology Majors. (Cross listed with CADV 327.)

**PSY 335. Middle Childhood (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. This course examines developmental changes in the middle childhood years (7-12 years). Emphasis is on current research and major theories associated with middle childhood development. Cultural contexts of development, key changes, continuity and individual differences are examined. This course fulfills the 300-level Developmental Psychology Cluster requirement for Psychology Majors. (Cross listed with CADV 335.)

**PSY 344. Psychology of Creativity (4)**

*Prerequisite:* PSY 150. *Recommended Preparatory:* PSY 301. Examination of the research on creativity and exploration of the creative process through classroom activities, group projects and the use of technology. Examines the application of creative processes to effective instruction.

**PSY 345. Social Psychology (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Survey of phenomena that affect individual behavior. Topics include attitudes, affiliation, aggression, altruism, person perception, liking, social interaction, social influence and group dynamics. This course fulfills the 300-level Social Psychology Cluster requirement for Psychology Majors.

**PSY 350. Principles of Learning (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Basic procedures and phenomena of behavior change emphasizing respondent and operant conditioning with applications to human behavior.

**PSY 351. Behavioral Psychology and Therapy\* (3)**

*Prerequisites:* PSY 150, PSY 250; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. The focus of this course is on how we learn certain behaviors, why we behave as we do and how human behavior can be modified. Topics include basic concepts, research methods used to study adaptive and maladaptive behaviors, assessment procedures, intervention strategies and outcomes, self-management and ethical considerations in practice. This course fulfills the 300-level Clinical/Personality Psychology Cluster requirement for Psychology Majors.

\*This course serves in a series of courses that prepares students to apply for the Board Certified Assistant Behavior Analyst (BCaBA) Exam.

**PSY 352. Motivation (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Explores basic and acquired motivations that provide the energy to arouse and direct the individual's interactions with society. Discusses research methods in the social sciences. (Available for General Education, Social Sciences.) (IC)

**PSY 353. Psychological Interventions (3)**

*Prerequisites:* PSY 150, 250; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301, PSY 310. This course focuses on the theories and practice of psychological interventions. Topics include scientific bases for psychological interventions and case formulation, cultural and ethnic sensitivity, treatment of special populations, and ethical and legal issues. The course emphasizes current research findings and their implementation in treatment strategies. This course fulfills the 300-level Clinical/Personality Cluster requirement for Psychology Majors.

**PSY 356. Industrial and Organizational Psychology (3)**

*Prerequisite:* PSY 150. *Recommended Preparatory:* PSY 301. An introduction to the major applications of psychology in various organizational and job settings. Representative topics include job selection and training, job enrichment, motivation, team collaboration, leadership, knowledge sharing, environmental design, consumer psychology, psychometrics, social networking and human factors. Consideration is given to individual student work interests and to the application of psychological principles to help advance student career objectives.

**PSY 361. Adolescence (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Analysis of the physical, cognitive, social and emotional changes from puberty to adulthood. Examines contemporary youth culture from a historical and cross-cultural perspective. Discusses evaluation of age norms and deviant development. Project involving some aspect of adolescent development is required. This course fulfills the 300-level Developmental Psychology Cluster requirement for Psychology Majors. (Cross listed with CADV 361.)

**PSY 365. Introduction to Gerontology (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Analysis of the physical, cognitive, social and emotional changes from puberty to adulthood. Study of the changes occurring with age as a result of alterations in physical conditions, economic status, role changes, etc. and the accompanying psychological effects. Students may engage in volunteer activities or advocacy work in community agencies for persons over 55, or in research in memory, quality of life issues, physical health, exercise, etc. This course fulfills the 300-level Developmental Psychology Cluster requirement for Psychology Majors. (Available for General Education, Social Sciences.) (IC)

**PSY 367. Cognitive Psychology (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Analysis of the mechanisms by which people gather and process information from the environment. Basic phenomena of perception and cognition are discussed with an emphasis on experimental studies on such topics as pattern recognition, attention, memory, language, reasoning and problem solving. This course fulfills the 300-level Cognitive Psychology Cluster requirement for Psychology Majors.

**PSY 369. Applied Cognition (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement.* *Recommended Preparatory:* PSY 301. Cognitive psychology is the study of mental processes, such as learning, memory, attention, problem solving

and language. Applied cognitive psychology describes contemporary cognitive theory from the perspective of its application in support of human performance in real-world domains, such as medicine, legal practice, aviation and business, among many others. This course fulfills the 300-level Cognitive Psychology Cluster requirement for Psychology Majors.

**PSY 370. Psychology of Personality (3)**

*Prerequisites:* PSY 150, PSY 250; *Completion of Lower Division writing requirement. Recommended Preparatory:* PSY 301. Human behavior and personality as a function of social, dynamic and biological determinants. Emphasis on social learning conditions that relate to normal and deviant behavior and other relevant contemporary issues. This course fulfills the 300-level Clinical/Personality Psychology Cluster requirement for Psychology Majors.

**PSY 380. Psychology of Stress (3)**

*Prerequisites:* PSY 150, 250; *Completion of Lower Division writing requirement. Recommended Preparatory:* PSY 301. Cognitive, emotional and physiological effects of psychosocial stressors. Emphasis placed on differentiating stress from other motivational constructs and examining contemporary research approaches and techniques of personal stress management. This course fulfills the 300-level Clinical/Personality Psychology Cluster requirement for Psychology Majors.

**PSY 382. Principles of Human Factors (3)**

*Prerequisites:* PSY 150; *Completion of the Lower Division writing requirement. Recommended Preparatory:* PSY 301. Overview of the interdisciplinary field of human factors, a professional specialization that considers how best to accommodate human needs in real world systems. Focuses on cognitive, perceptual, behavioral and physiological principles as they relate to the design of devices, products and systems in order to enhance human performance and satisfaction. Representative topics include principles of information processing, human characteristics and limitations, environmental stressors, user safety and applied research techniques. This course fulfills the 300-level Cognitive Psychology Cluster requirement for Psychology Majors.

**PSY 383. Interpersonal Competence and Group Dynamics (3)**

*Prerequisite:* PSY 150. *Recommended Preparatory:* PSY 301. Lecture-discussion and experiential activities designed to increase knowledge and skill in the areas of interpersonal relations, group dynamics and leadership.

**PSY 384. Dynamics of Leadership (3)**

*Prerequisite:* PSY 383. *Recommended Preparatory:* PSY 301. Examination of basic leadership theory and techniques, dynamics between leaders and group members, communication within the group and within the leadership hierarchy, and organizational management. Includes a practical application of leadership skills through participation in individual and group problem-solving projects.

**PSY 386. The Role of Psychology in the Legal Process (3)**

*Prerequisite:* PSY 150. *Recommended Preparatory:* PSY 301. Critical examination of the relationship between psychology and the legal system. Covers the application of social psychological theory and research to the courtroom; issues in mental health law, such as competency to stand trial and the insanity defense; and legal restrictions on the practice of psychology, including confidentiality and the duty to warn.

**PSY 390A. Peer-Assisted Instruction in Psychology (2)**

*Prerequisites:* PSY 150; *Consent of instructor and Department Chair. Not open to students who have received credit for 390B. Recommended Preparatory:* PSY 301. Preparation and supervised experience as an instructional aide in a selected Lower Division Psychology course. May not be repeated. Credit may be applied to the Major or Minor. (Credit/No Credit only)

**PSY 390B. Peer-Assisted Instruction in Psychology (2)**

*Prerequisites:* PSY 150; *Appropriate Upper Division Psychology courses; consent of instructor and Department Chair. Not open to students who have received credit for 390A. Recommended Preparatory:* PSY 301. Preparation and supervised experience as an instructional aide in a selected Upper Division Psychology course. May not be repeated. Credit may be applied to the Major or Minor. (Credit/No Credit only)

**PSY 406. Developmental Psychopathology\* (3)**

*Prerequisites:* PSY 313; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Study of disorders diagnosed in infancy, childhood or adolescence (e.g., autism, mental retardation, communication disorders) and the empirically validated interventions appropriate for each population. Available for graduate credit with consent of student's graduate advisor. 2 hours lecture-discussion per week. \*This course serves in a series of courses that prepares students to apply for the Board Certified Assistant Behavior Analyst (BCaBA) Exam.

**PSY 409. Advanced Sport Psychology (3)**

*Prerequisite:* Score of 8 or better on Upper Division Writing Proficiency Exam. *Not available to students who have taken KIN 409. Recommended Preparatory:* KIN 306 and/or PSY 150, 301. Addresses the evolution of sport psychology as a science, including the psychological variables associated with successful performance in sport and physical-activity settings. Available for graduate credit with consent of student's graduate advisor. KIN Majors receive Upper Division elective credit toward the KIN Degree in Options that allow electives. (Cross listed as KIN 409.)

**PSY 412. Advanced Developmental Psychology (3)**

*Prerequisites:* PSY 313, 320/L, 321/L; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Critical evaluation of the experimental and theoretical literature in developmental psychology. Selected contemporary and applied issues relevant to children and adolescents are discussed.

**PSY 413. Current Trends in Child Psychology (3)**

*Prerequisite:* PSY 150; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. No credit if PSY 313 has been taken. Recommended Preparatory:* PSY 301. Survey of the major contemporary issues, findings, and theories in child psychology, with a consideration of their broader applications. Project involving some aspect of child development is required.

**PSY 418. Theories of Perception (3)**

*Prerequisites:* *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Critical analysis of theories in sensation and perception, with a consideration of their broader implications.

**PSY 420/L. Advanced Statistical Methods and Lab (3/1)**

*Prerequisites:* PSY 320/L; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Corequisite:* PSY 420L. *Recommended Preparatory:* PSY 301. Explores the relationships between advanced statistical methods and psychological research methods. Advanced techniques of analysis of variance and regression analysis are emphasized. Lab: Considers problem-solving techniques and advanced computational methods needed to analyze data obtained in complex psychological experiments. Consideration given to an individual's particular research interest. 3 hours lecture-discussion, 2 hours lab per week.

**PSY 421A-Z. Workshop in Psychology (1-1-1-1)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Psychology workshops deal with specific psychological topics related to living and adjusting in contemporary society. Encourages relevance and practical application through the use of group discussions, simulations, role-playing, case studies and real-life examples. Maximum of 4 units may be counted toward the Major.

**PSY 425. Origins and Perspectives in Psychology (4)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Considers the present state of the science of psychology within the context of its origins and the key individuals that have influenced the field. Emphasizes discussions of important issues in contemporary psychology and its future. Students complete an approved, supervised comprehensive term-project in response to specific course topics. Course is available for graduate credit with consent of student's graduate advisor. 3 hours lecture/discussion, 1 hour TBA.

**PSY 426. Contemporary Trends in Psychology (3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Trends and issues in current psychological theories and systems.

**PSY 427. Introduction to Psychological Testing (3)**

*Prerequisites:* PSY 320/L; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Basic concepts of psychological measurement as applied to the construction, evaluation and use of group and individual tests of intelligence, aptitude, interest and personality are studied. Demonstrations of the administration, scoring and interpretations of standardized tests are provided.

**PSY 430. Theories of Personality (3)**

*Prerequisites:* PSY 370; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Basic principles of science as applied to the study of personality. Current theories of personality are analyzed in terms of structure, dynamics, and development. Characteristic research and research methods are covered.

**PSY 432. Applied Intergroup Relations and Mediation (4)**

*Prerequisite:* Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301, 345. Seminar examining theories of intergroup relations, inclusion, diversity and equity, and their application in field settings, as well as principles of intergroup conflict mediation and their use. Students apply the theories and principles in supervised field work and complete an approved community based project report, as either a service intern or a research intern.

**PSY 436. Memory (3)**

*Prerequisites:* PSY 321/L; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Introduces classical views and current theories of human memory. Different memory systems are examined. Topics include forgetting and retrieval of memory, repression of memory, eyewitness testimony, amnesia and memory and aging. Covers cognitive processes involved in remembering.

**PSY 440. Thinking (3)**

*Prerequisites:* PSY 321/L; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Survey of cognitive and symbolic processes, including concept formation, judgment, problem solving, creative activity and states of consciousness.

**PSY 442. Communication and Conflict Resolution (3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Sharing of information and meanings in both verbal and nonverbal communication. Strategies of communication for active listening and sending of effective messages in many different contexts—couples, parent-child, group and workplace. Examines differences in communication style as a function of gender, age, social class, position of dominance, etc.

**PSY 445. Applications of Social Psychology (3)**

*Prerequisites:* Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Seminar on social psychological methods, theories and research findings as they apply to understanding and solving behavioral problems and social issues. Topics include physical and mental health, environmental behaviors, prejudice and discrimination, sports, consumerism, education, law, media, organizations, politics, diversity and culture. Completion of projects requiring application of social psychology to a theoretical controversy or practical problem.

**PSY 446. Issues in Social Psychology (3)**

*Prerequisites:* PSY 345; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Critical analysis of basic and applied social psychological theories and issues, and their application in contemporary society.

**PSY 452. Contemporary Issues in Human Sexuality (3)**

*Prerequisites:* PSY 230; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Study of controversial topics in sexual behavior from a socio-psychological standpoint. Varying perspectives of heterosexuality, homosexuality, transexualism, polygamous marriage, non-marital sex and related topics are presented. Both traditional and unconventional viewpoints toward these variant behaviors are examined.

**PSY 453. Psychological Aspects of Human Sexuality (3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Offers a comprehensive and integrated approach to human sexuality. Examines sexual behaviors and attitudes in contemporary society, and includes the physiological basis of sexual function and dysfunction.

**PSY 454. Clinical Psychology (4)**

*Prerequisites:* PSY 310; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Survey of varied approaches to psychotherapy and examination of assessment methods used in research and decision making in clinical settings. Historical development of the field of clinical psychology and related disciplines, and such current professional issues as graduate programs, ethics and delivery of mental health services to the community are explored. Students are expected to complete 20 hours of field work in an agency related to their career objective.

**PSY 455. Ethical, Professional and Legal Standards in Psychology (3)**

*Prerequisites:* PSY 150; Upper Division or Graduate Status in Psychology; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Ethical issues relevant to teaching, research, and application of psychology are reviewed, with an emphasis on the principles of the American Psychological Association's ethics code and related professional standards and guidelines.

**PSY 460. Counseling and Interviewing (3)**

*Prerequisites:* PSY 310; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Intensive study of current approaches to individual counseling and psychotherapy, particularly for students seeking preparation for graduate programs. Format allows students to present research findings, discuss current theories and experience therapy situations through role play and supervised counseling.

**PSY 462. The Development of Language and Thought in the Young Child (3)**

*Prerequisite:* PSY 150; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Analysis of the processes of language and cognitive development and their interactions in young children. Considers problems, issues and implications of these processes for use with children. Evaluation of current theories. Project required.

**PSY 464. Cognitive and Behavioral Intervention Techniques (3)**

*Prerequisites:* *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301, 350. Consideration of some of the major issues and theories of human behavior change, including a critical review of some of the important relevant experiments and areas of application. Includes techniques of modifying cognitive processes and behavior in the medical and clinical settings.

**PSY 465. Psychology of Aging (3)**

*Prerequisites:* PSY 365; *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Comprehensive study of the later years of life, including physical changes, social adaptations, psychological aspects and the interactions among these areas. Successful aging is explored, as well as problem areas. Attention given to intervention strategies and to theoretical formulations. Students are expected to participate in ongoing relationships with the elderly.

**PSY 470. Introduction to Psychobiology (3)**

*Prerequisite:* *Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. Recommended Preparatory:* PSY 301. Consideration of the physiological, biochemical, anatomical and endocrinological aspects of behavior. Discusses traditional theories and current topics in psychobiology.

**PSY 471AA-ZZ/S. Advanced Inquiry in Clinical/Personality Psychology and Seminar (3/2)**

*Prerequisites:* PSY 301, 320/L, 321/L; *Any course from required Clinical Cluster (PSY 310, 351, 353, 370 or 380); Score of 8 or better on the Upper Division Writing Proficiency Exam. Corequisite:* *Corresponding PSY 471AA-ZZ Seminar.* This Capstone course provides advanced study of areas of current interest in sub-areas of Clinical/Personality Psychology. Topics within sub-areas listed below may change each semester. Seminar: Includes student presentation of written and oral reports based on relevant topics from current literature, and intensive student-led discussions of selected research and application of theories. Students will demonstrate knowledge of statistics and research methods obtained in prerequisite courses. Letters indicate sub-areas within Clinical/Personality Psychology. Each may be taken 1 time for credit: (AB) Applied Behavior Analysis, (C) Clinical, (CN) Clinical Neuropsychology, and (P) Personality. Satisfies the Capstone requirement for Psychology Majors. Available for graduate credit with consent of student's graduate advisor. 3 hours lecture, 2 hours seminar.

**PSY 473AA-ZZ/S. Advanced Inquiry in Neuroscience and Seminar (3/2)**

*Prerequisites:* PSY 301, 320/L, 321/L; *Score of 8 or better on the Upper Division Writing Proficiency Exam. Corequisite:* *Corresponding PSY 473AA-ZZ Seminar.* This Capstone course provides advanced study of areas of current interest in sub-areas of Neuroscience. Topics within sub-areas listed below may change each semester. Seminar: Includes student presentation of written and oral reports based on relevant topics from current literature, and intensive student-led discussions of selected research and application of theories. Students will demonstrate knowledge of statistics and research methods obtained in prerequisite courses. Letters indicate sub-areas within Neuroscience. Each may be taken 1 time for credit: (BN) Behavioral Neuroscience, (CN) Cognitive Neuroscience, (NP) Neuropsychology, and (P) Psychopharmacology. Satisfies the Capstone Requirement for Psychology Majors. Available for graduate credit with consent of student's graduate advisor. 3 hours lecture, 2 hours seminar.

**PSY 475AA-ZZ/S. Advanced Inquiry in Developmental Psychology and Seminar (3/2)**

*Prerequisites:* PSY 301, 320/L, 321/L; *Any course from required Developmental Cluster (PSY 313, 327, 335 361 or 365); Score of 8 or better on the Upper Division Writing Proficiency Exam. Corequisite:* *Corresponding PSY 475AA-ZZ Seminar.* This Capstone course provides advanced study of topics of current interest in sub-areas of Developmental Psychology. Topics within sub-areas listed below may change each semester. Seminar: Includes student presentation of written and oral reports based on relevant topics from current literature, and intensive student-led discussions of selected research and application of theories. Students will demonstrate knowledge of statistics and research methods obtained in prerequisite courses. Letters indicate sub-areas within Developmental Psychology. Each may be taken 1 time for credit: (CD) Cognitive Development, (CO) Contexts of Development, (CU) Cultural Contexts of Development, (DM) Developmental Research Methods, (ID) Identity Development, (LD) Language Development, and (SE) Social and Emotional Development. Satisfies the Capstone Requirement for Psychology Majors. Available for graduate credit with consent of student's graduate advisor. 3 hours lecture, 2 hours seminar.

**PSY 479AA-ZZ/S. Advanced Inquiry in Social Psychology and Seminar (3/2)**

*Prerequisites:* PSY 301, 320/L, 321/L, 345; *Score of 8 or better on the Upper Division Writing Proficiency Exam. Corequisite:* *Corresponding PSY 479AA-ZZ Seminar.* This Capstone course provides advanced study of topics of current interest in sub-areas of Social Psychology. Topics within sub-areas listed below may change each semester. Seminar: Includes student presentation of written and oral reports based on relevant topics from current literature, and intensive student-led discussions of selected research and application of theories. Students will demonstrate knowledge of statistics and research methods obtained in prerequisite courses. Letters indicate sub-areas within social psychology. Each may be taken 1 time for credit: (A) Attitudes; (AG) Aggression; (AH) Altruism and Helping; (AI) Attraction and Intimacy; (AS) Applied Social Psychology; (AT) Attribution; (C) Culture; (CO) Conformity and Obedience; (G) Gender; (GS) General Social Psychology; (IR) Intergroup Relations; (P) Persuasion; (PD) Prejudice and Discrimination; (S) Self; and (SC) Social Cognition. Satisfies Capstone Requirement for Psychology Majors. Available for graduate credit with consent of student's graduate advisor. 3 hours lecture, 2 hours seminar.

**PSY 482. Human Factors in Systems Design (3)**

*Prerequisite:* Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 150, 301. Study of applications that illustrate human factors principles and practices in the design of industrial systems, residential environments, and community facilities. Emphasizes designing for human performance and behavior.

**PSY 483. Principles of Human Relations (3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Examination of interpersonal communication and group interaction by using the classroom group as a microcosm. Emphasis on increasing interpersonal competence and on understanding the principles underlying such behavior.

**PSY 483T. Tutorial in Human Relations (1)**

*Prerequisites:* PSY 483; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Supervised projects and field study in the area of human relations.

**PSY 485AA-ZZ/S. Advanced Inquiry in Research and Analysis****Methods and Seminar (3/2)**

*Prerequisites:* PSY 301, 320/L, 321/L; Score of 8 or better on the Upper Division Writing Proficiency Exam. *Corequisite:* Corresponding PSY 485AA-ZZ Seminar. This Capstone course provides advanced study of areas of current interest in sub-areas of Research Methods in psychology. Topics within sub-areas listed below may change each semester. Seminar: Includes student presentation of written and oral reports based on relevant topics from current literature, and intensive student-led discussions of selected research and application of theories. Students will demonstrate knowledge of statistics and research methods obtained in prerequisite courses. Letters indicate sub-areas within Research Methods. Each may be taken one time for credit: (AD) Archival Data, (CS) Case Study, (DA) Discourse Analysis, (ET) Ethnography, (GT) Grounded Theory, (NA) Narrative Analysis, (PA) Participatory Action Research, (QL) Qualitative Methods; (QT) Quantitative Methods; and (SD) Survey Data. Satisfies the Capstone Requirement for Psychology Majors. Available for graduate credit with consent of student's graduate advisor. 3 hours lecture, 2 hours seminar.

**PSY 486SOC. Social Science Career Internship (3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Corequisite:* Enrollment in 1 unit of SBS486: Social Science Career Seminar (contact College of Social and Behavioral Sciences). *Recommended Preparatory:* PSY 301. Social and behavioral science principles are applied to the workplace. At least 9 hours per week of supervised field work are required. Students complete learning contracts and submit written reports related to their internship. (Cross listed with GEOG, PAS, POLS and SOC 486SOC.) (See section on Academic Internships.)

**PSY 487. Psychology of Human Technology Interaction (3)**

*Prerequisites:* PSY 150; Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Seminar focusing on the psychological and behavioral issues in human-technology systems. Principles of cognitive science, human factors and social psychology are applied to the study of human-technology communication processes. Research topics include voice input/speech output, interactive/touch graphic displays, web navigation, knowledge-based problem solving, mobile computing and technology-mediated social networks. User experience evaluations and program improvements are considered. No programming knowledge is required. Available for graduate credit with consent of student's graduate advisor.

**PSY 488AA-ZZ/S. Advanced Inquiry in Cognitive Psychology and Seminar (3/2)**

*Prerequisites:* PSY 301, 320/L, 321/L; Any course from required Cognitive Cluster (PSY 304, 367, 369 or 382); Score of 8 or higher on the Upper Division Writing Proficiency Exam. *Corequisite:* Corresponding PSY 488AA-ZZ Seminar. This Capstone course provides advanced study of topics of current interest in sub-areas of Cognitive Psychology. Topics within sub-areas listed below may change each semester. Seminar: Includes student presentation of written and oral reports based on relevant topics from current literature, and intensive student-led discussions of selected research and application of theories. Students will demonstrate knowledge of statistics and research methods obtained in prerequisite courses. Letters indicate sub-areas within Cognitive Psychology. Each may be taken 1 time for credit: (AC) Attention and Consciousness, (C) General Cognition, (CA) Cognition and Action, (CF) Cognition and Food, (CI) Creativity and Innovation, (DM) Decision Making, (E) Expertise, (HF) Human Factors, (I) Intelligence, (L) Language, (M) Memory, (MI) Mental Imagery, (OP) Origins and Perspectives, (P) Perception, (PM) Pattern Matching, (PS) Problem Solving, and (R) Reasoning. Satisfies the Capstone requirement for Psychology Majors. Available for graduate credit with consent of student's graduate advisor. 3 hours lecture, 2 hours seminar.

**PSY 490/L. Quantitative Research Methods and Lab (3/1)**

*Prerequisites:* PSY 250, 320/L, 321/L; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Corequisite:* PSY 490L. *Recommended Preparatory:* PSY 301. Focuses on quantitative methodologies, statistical analysis of data, the nature of knowledge and writing professional papers in various fields related to mental health. Students read primary resources, conduct an empirical study, write a professional paper and present their work in a common forum. Students also learn to enter, "clean" and transform data when necessary, to determine and apply appropriate statistical tests, and to perform advanced descriptive and inferential statistics on small and large data sets. 3 hours lecture-discussion, 3 hours lab per week.

**PSY 491/L. Qualitative Research Methods and Lab (3/1)**

*Prerequisites:* Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Corequisite:* PSY 491L. *Recommended Preparatory:* PSY 250, 301, 320/L, 321/L, 490/L. Students learn how to design and conduct mental health research that is qualitative in nature and based on interviews, videotapes, real-time observations and other non-quantitative sources of data. Topics may include integrating qualitative data with theory; deciding on a coding scheme; coding of data; interpretation of coded data; writing up qualitative reports for theses, dissertations and publications; and presenting qualitative data at conferences. 2 hours lecture-discussion, 3 hours lab per week.

**PSY 492SOC. Professional Development the Social Sciences I (1)**

*Prerequisites:* PSY 250; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Addresses issues associated with becoming a professional in the social sciences. Discussion of time management, study skills, the role of a researcher, decisions about one's area of interest in research, deciding on a university, presenting at professional conferences, writing a statement of purpose, Curriculum Vita, studying for the GRE and asking for letters of recommendation, among other topics. (Credit/No Credit only)

**PSY 493SOC. Professional Development in the Social Sciences II (1)**

*Prerequisites:* PSY 250, 492SOC; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Students learn, in detail, what it is like to be in a graduate program. Prepares students to be successful while in their graduate program by preparing them to write applications for Institutional Review

Board (IRB) approvals for work with human and animal subjects, writing for publication, and applying for financial aid, scholarships, fellowships, and other sources of funding. (Credit/No Credit only)

**PSY 495A-Z. Tutorial in Psychology (1-4)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Supervised individual projects in selected areas of interest. 6 units maximum may be taken for credit. May be offered to qualified students as a substitute for a required lab or seminar. Sections meeting in small groups for reading and discussion will be offered in the following fields as schedule and staff allow: (A) Teaching, (B) Human Ecology, (C) Counseling and Interviewing, (D) Social Psychology, (E) Human Factors, (F) Animal Behavior, (G) Teacher Training, (H) Applied Cognitive Psychology, (I) Electrophysiology, (J) Neuropsychology, (K) Student Leadership, (M) Linear Models, (S) Stress, (T) Tutoring, and (Z) Zoo research.

**PSY 496A-Z. Experimental Topics Courses in Psychology (1-4)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Experimental courses in psychology, with course content to be determined.

**PSY 497. Proseminar in Psychological Research (1-3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Introduction to psychological research and writing through supervised individual projects and field work. 6 units maximum may be taken for credit.

**PSY 498. Practicum in Psychology (1-3)**

*Prerequisite:* Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. Supervised field work participation in approved community agencies. Written reports and regular conferences with instructor are required. Participation limited to 3 units in each of 4 semesters. 3 units maximum may be applied to the M.A. Degree.

**PSY 499. Independent Study (1-3)**

*Prerequisites:* PSY 150; Completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher. *Recommended Preparatory:* PSY 301. 6 units maximum may be taken for credit.

## Graduate

Note that 300-level courses in psychology do not carry credit toward a Master's Degree in Psychology. Some 400-level courses in Psychology may carry credit for a Master's Degree up to the limits defined by each Graduate Program. Students should see their graduate advisor for details.

**PSY 500. Seminar in Professional Development (3)**

*Prerequisites:* Graduate standing in Psychology. *Advanced undergraduate students may enroll by permission of the instructor and will be graded using the same standards as for graduate students.* Addresses issues associated with being in Master's Programs in Psychology and being a professional in the social sciences. Students receive direct research experience and learn the skills needed to advance to a Doctoral Program. Topics include current research in psychology, writing applications for an Institutional Review Board (IRB), writing for publication, writing a statement of purpose, presenting research at conferences, applying to Doctoral Programs, scholarships, internships, fellowships and teaching opportunities. Students attend scheduled seminars on course topics, and serve outside the course as a research intern to a professor in the Department of Psychology. 1 hour seminar, 2 hours by arrangement each week. (Credit/No Credit only)

**PSY 512. Seminar in Developmental Psychology (3)**

*Prerequisite:* Graduate standing in Psychology. *Advanced undergraduate students may enroll by permission of the instructor. Undergraduate students will be graded using the same standards as for graduate students.* Offers an examination of critical issues and theories in the study of human development. Discussion of selected topics in child and/or adolescent development, including empirical findings and broader applications.

**PSY 513. Human Development: A Lifespan (3)**

Lifespan approach to the individual from infancy to old age, with consideration of biological, psychological and social development. Case studies and other empirical observations focus on the emerging self and the factors that may challenge the development of a well-integrated and flexible sense of self.

**PSY 514. Advanced Experimental Psychology (3)**

*Prerequisites:* PSY 321/L, 420/L. Critical review of current problems in the field of experimental psychology, with emphasis on methods, data and concepts specific to the experimental approach. Lab experience with techniques and equipment used in experimental studies of behavior. 2 hours seminar, 2 hours lab per week.

**PSY 519. Seminar in Autism Spectrum Disorders (3)**

*Prerequisite:* Graduate standing in Psychology. *Advanced undergraduate students may enroll by permission of the instructor and will be graded using the same standards as for graduate students.* This course covers current research on the etiology, assessment techniques and empirically-validated interventions for Autism Spectrum Disorders (ASD), including advanced study of the methodology used to evaluate these techniques. This course is one in a sequence of courses that provide course work requirements to sit for the BCaBA exam. 3 hours seminar per week.

**PSY 520/L. Multivariate Statistical Methods and Lab (3/1)**

*Prerequisite:* PSY 420/L. *Corequisite:* PSY 520L. Study of multiple-response, multifactor regression analysis, multivariate analysis of variance, alternative models in factor analysis and statistical classification methods. Background matrix algebra and computational techniques required in applications. Lab considers problem-solving techniques and advanced computational methods used to analyze multivariate data obtained in psychological experiments. 3 hours seminar; 2 hours lab per week.

**PSY 524/L. Multivariate Analysis Computer and Lab (3/1)**

*Prerequisite:* PSY 420/L. *Corequisite:* PSY 524/L. Analysis of multivariate research data in psychology using packaged computer programs. Covers standard techniques with applications in psychology. Choice of analytic technique is discussed, as are methods of screening data to assure appropriateness of techniques. Lab: Provides direct experience with computing facilities for conducting multivariate analysis and computational methods extending statistical analysis provided by computer output. 3 hours lecture-discussion, 2 hours lab per week.

**PSY 525AA-ZZ. Advanced Psychological Measurement (3)**

*PSY 525AA-ZZ. Prerequisites:* Graduate standing in Psychology; Instructor permission. *Recommended Preparatory:* PSY 427. *Advanced undergraduate students may enroll by permission of the instructor. Undergrads are graded using the same standards used for graduate students.* This course focuses on the theory and practice of advanced psychological measurement as applied to the construction, evaluation and use of group and individual tests. Letter designations (AA-ZZ) represent different offerings of the course. However, each topic includes discussions of classical test theory, item analysis, reliability, validity, factor analysis, modern test theory, ethics and qualifications necessary to conduct psychological measurement and assessment. Students are required to demonstrate obtained skills as part of a final project. Each letter designation (AA-ZZ) may be taken once for credit. 3 hours seminar per week.

**PSY 530. Seminar: Theories of Personality (3)**

*Recommended Preparatory:* PSY 430. Advanced consideration of the theories of personality, with special emphasis on trends and recent research findings.

**PSY 534/S. Latent Variable Analysis (3)**

*Prerequisites:* Graduate standing in Psychology; Instructor consent. *Corequisite:* PSY 534S. *Recommended Preparatory:* PSY 420/L, 524/L. *Advanced undergraduate students may enroll with permission of the instructor and will be graded using the same standards as for graduate students.* Introduction to path models and models hypothesized to be generated by latent (unmeasured) variables. Topics will include path and simultaneous equations models and various latent variable models (e.g., confirmatory, multiple-group, higher-order, mean structure factor analytic models). Parameter estimation, hypothesis testing and other statistical issues will be addressed. Students are required to demonstrate obtained skills as part of a final project.

**Psychology 540. Seminar in Social Psychology (3)**

*Prerequisite:* Graduate standing in psychology. *Advanced undergraduate students may enroll by permission of the instructor. Undergraduate students will be graded using the same standards as for graduate students.* Examines current research and theory in social psychology. Representative topics include attitudes, aggression, altruism and helping, attraction and intimacy, applied social psychology, attribution, culture, conformity and obedience, gender, intergroup relations, persuasion, prejudice and discrimination, self, social cognition and stereotypes.

**PSY 551-A. Becoming a BCBA: Professional and Certification Issues (1)**

This course will introduce students to the Behavior Analyst Certification Board, which has developed eligibility standards to take the BACB Certification Examinations, Renewal and Recertification Standards to maintain certification, Guidelines for Responsible Conduct for Behavior Analysts, Professional Disciplinary Standards with appeal procedures, procedures to approve continuing education providers, and professionally developed and maintained certification examinations.

**PSY 551-B. Becoming a BCBA: Taking the Exam (1)**

This preparatory course helps students review the broad specified content areas and prepare for the Board Certified Behavior Analyst Exam by taking repeated practice tests and obtaining feedback on their progress.

**PSY 552. Principles of Applied Behavior Analysis (3)**

This course is an introduction to basic characteristics, processes, concepts and terminology in applied behavior analysis (ABA) and the learning principles on which ABA is based. Topics include philosophy and assumptions of ABA, choosing and defining target behaviors, positive and negative reinforcement, schedules of reinforcement, extinction, positive and negative punishment, imitation, motivating operations, functional relations, stimulus control, discrimination and generalization, and verbal behavior. Students also learn to interpret and discuss articles from the behavior analytic literature, as well as use self-management techniques.

**PSY 553. Measurement and Experimental Evaluation of Behavior\* (3)**

In this course, students will learn how to design and evaluate experimental interventions, as well as measure, display and interpret results of experimental behavioral interventions. Ethical considerations in the use of behavioral interventions also will be discussed.

*\*This course serves in a series of courses that prepares students to apply for the Board Certified Behavior Analyst Exam.*

**PSY 555. Assessment in Applied Behavior Analysis\* (3)**

*Prerequisites:* Graduate standing in psychology; instructor consent. *Advanced undergraduate students may enroll with instructor's permission.* This course focuses on ethical issues and the primary methods used for behavioral assessment in application of behavior analysis. Students learn to interpret and conduct preference assessments, reinforcer assessments, indirect and descriptive assessments, and functional analyses. Various methods used to collect, graph and interpret data are discussed. Students learn to conduct and write comprehensive functional behavior assessments.

*\*This course serves in a series of courses that prepares students to apply for the Board Certified Behavior Analyst Exam.*

**PSY 556AA-ZZ Current Topics in Human Factors (3)**

*Prerequisites:* Graduate standing in Psychology; Instructor consent. *Advanced undergraduate students may enroll by permission of the instructor. Undergrads are graded using the same standards used for graduate students.* Courses cover current topics in human factors as a science and a profession. Letter designations (AA-ZZ) represent different offerings of the course. Topics are updated frequently to keep current with research and practice in the field. Representative topics include individual differences, expertise, human-computer interaction, job analysis and design, human error measurement and classification, applied systems theory, cognitive workload assessment, virtual work systems and distributed training models. Each letter designation (AA-ZZ) may be taken once for credit.

**PSY 557. Behavior Change Procedures and Systems Support\* (3)**

This course will focus on procedures for behavioral analysts working with students with learning, behavioral, emotional and/or peer relationship problems. Topics include using reinforcement, punishment, extinction, prompting, shaping, chaining, incidental teaching techniques, direct and precision teaching, discrete trials, contingency contracts, token economy, and providing behavior analysis services in collaboration with others. Students also learn to synthesize and analyze research on effective behavioral change and management practices, and to apply the knowledge to classroom and school situations.

*\*This course serves in a series of courses that prepares students to apply for the Board Certified Behavior Analyst Exam.*

**PSY 558. Topics in Behavior Analysis\* (3)**

In this course, students will learn applications of behavior analytic theories, procedures and methods as it pertains to special populations (e.g., children with autism, geriatrics, learners with developmental disabilities). Specific behavioral challenges and research in the selected

topics will be discussed. Emphasis will be placed on evidence-based practices and procedures to eliminate or minimize challenges, teach and increase appropriate behaviors. Given the focus on application, students will be required to conduct and complete a comprehensive written project utilizing behavior analytic principles.

*\*This course serves in a series of courses that prepares students to apply for the Board Certified Behavior Analyst Exam.*

### **PSY 581. Teaching of Psychology (3-3)**

*Prerequisite: Instructor consent.* This course focuses on the theories, skills, preparation and practices required for serving as an instructional aide in Psychology courses. Topics include course preparation, skills for fostering student learning, theories of assessment, effective strategies for improving student writing, using technology in the classroom, diversity, sensitivity and treatment of special populations, as well as ethical and legal issues faced in the classroom. An emphasis will be made on both traditional and recent educational research findings and their implementation for effective teaching. Students attend scheduled seminars on course topics and serve outside the course as a teaching aide to a professor in the Department of Psychology. Available for graduate credit with consent of student's graduate advisor. May be taken for a maximum of 6 units. 1 hour seminar, 2 hours by arrangement each week. (Credit/No Credit only)

### **PSY 582. Human Factors in Product Design (3)**

*Prerequisite: Graduate standing in Psychology. Advanced undergraduate students may enroll by permission of the instructor and will be graded using the same standards as for graduate students.* Application of human factors principles to the design and evaluation of products and services tailored to specific user populations. Translation of user needs into design requirements that match individual differences in cultural factors, performance requirements, behavioral patterns, developmental stages, cognitive styles and group affiliations are considered. The role of the HF specialist in cross-disciplinary collaboration, knowledge management and end-user advocacy are emphasized.

### **Psychology 591A. Seminar in Cognitive Psychology (3)**

*Prerequisite: Graduate standing in psychology. Advanced undergraduate students may enroll by permission of the instructor and will be graded using the same standards as for graduate students.* Offers an in-depth examination of current research and theory in cognition. Representative topics include attention, perception, learning, memory, language, problem solving, creativity, reasoning, decision making and intelligence.

### **Psychology 591B. Seminar in Emotion and Motivation (3)**

*Prerequisites: Graduate standing in Psychology. Advanced undergraduate students may enroll by permission of the instructor and will be graded using the same standards as for graduate students.* Examination of critical issues and theories in emotion and motivation. Discussion of selected topics in emotion and motivation, including empirical findings and broader applications

### **PSY 592B. Seminar in Research Methodology (3)**

*Prerequisites: 15 units of classified graduate work; Instructor consent.* Students develop and carry out research projects in their elective areas and present their ideas, resources and proposed methods of research to the class for critical discussion. Research report written to conform to journal format is required.

### **PSY 594A-Z. Tutorial in Psychology (1-4)**

*Prerequisite: Admission into the Graduate Program or instructor consent.* Tutorial content varies by instructor and related areas of faculty specialty. Sections meet in small groups for reading and discussion to cover topics such as cognition, social psychology, traumatic stress, mental disorders and substance dependence, clinical neuropsychology and human factors design. May be repeated for credit.

### **PSY 595A-Z. Experimental Topics Psychology (1-4)**

*Prerequisite: Admission into the Graduate Program or instructor consent.* Advanced examination of selected studies in psychology with course content to be determined. Topics are presented from a psychological perspective encompassing theory, contemporary research, and intervention alternatives. Course content varies by instructor and related areas of faculty specialty. Courses include such topics as cognition, social psychology, traumatic stress, mental disorders and substance dependence, pediatric psychology, clinical neuropsychology and human factors design.

### **PSY 600. Ethical Practice with Individuals, Families, and Multidisciplinary Teams\* (3)**

*Prerequisites: Graduate standing in Psychology; Instructor consent.* This course focuses on ethical and professional research and practice of behavior analysts and professionals in the field of psychology. Emphasis is placed on ethical guidelines established by Behavior Analyst Certification Board (BACB) and American Psychological Association (APA) through analyzing cases that address working with individuals, families and multidisciplinary teams.

*\*This course serves in a series of courses that prepares students to apply for the Board Certified Behavior Analyst Exam.*

### **PSY 601. Psychological Service Systems (3)**

*Prerequisite: Instructor consent.* Study of the legal, ethical and professional bases for psychological services. Professional roles in various settings are considered with emphasis on school psychological services. Explores design, development and evaluation of alternative human service delivery systems.

### **PSY 602A. Mental Health Models (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Historical, theoretical and evaluative understanding of community and clinical models. Includes study of mental health legislation, funding, cost effectiveness and current issues in the delivery of mental health services. Analysis of types of Community Mental Health Programs.

### **PSY 605. Introduction to Health Psychology (3)**

*Prerequisite: Acceptance into the Graduate Program in Clinical Psychology or instructor consent.* Health psychology is a specialization in clinical psychology devoted to the understanding of the relationships between psychological factors and health and illness. Covers the empirical foundations of several domains of health psychology (e.g., health behaviors and patient compliance, adjustment to chronic and terminal illnesses, substance addiction) and the therapeutic strategies employed for each (e.g., health behavior scheduling, pain management, cognitive-behavioral approaches toward sustained sobriety).

### **PSY 606. Seminar in Exceptionality (4)**

*Prerequisite: Instructor consent.* Study of children who are exceptional intellectually, physically emotionally. Students are required to participate in ongoing programs with exceptional children.

### **PSY 610A, B. Advanced Psychopathology (3, 3)**

*Prerequisite: PSY 310.* State-of-the-science review of the principal methods for assessing psychopathology in children and adults. Discussion of the empirical and theoretical basis of the current DSM. PSY 610A covers child and adolescent psychopathology, while PSY 610B covers adolescent, adult and geriatric populations. Both courses include key issues in retrospective assessment, family history and cultural influences. For each symptom classification, current theoretical and empirical treatment approaches are presented, including the psycho-pharmacological approach.

**PSY 611. Developmental Psychopathology and ABA Interventions\* (3)**

*Prerequisites:* Graduate standing in Psychology; Instructor consent. This course focuses on psychopathology and applied behavior analytic (ABA) interventions across human development. Emphasis is placed on psychopathology and empirically validated interventions to address the behavioral excesses and deficits of each disorder.

*\*This course serves in a series of courses that prepares students to apply for the Board Certified Behavior Analyst Exam.*

**PSY 612. Advanced Developmental Psychology (3)**

*Prerequisites:* PSY 313 or equivalent; Classified graduate status. Examination of current approaches to critical issues and theories relevant to an understanding of developmental processes. Discusses applications of results of these current approaches for psychological service to children.

**PSY 622A/L. Research and Statistical Concepts in Psychological Services (3-3) and Lab (1-1)**

*Prerequisites:* PSY 320/L, 321/L; Admission to the Psychology Clinical Graduate Program. *Corequisite:* PSY 622AL. Conceptual integration of research and statistical methods appropriate for psychological service applications. Lab: Provides direct experience with computing facilities in conducting multivariate analysis appropriate for psychological services applications. 3 hours seminar, 2 hours lab per week.

**PSY 622B/L. Research and Statistical Concepts in Psychological Services (3-3) and Lab (1-1)**

*Prerequisites:* PSY 320/L, 321/L; Admission to Graduate Program in School Psychology or Clinical Psychology. *Corequisite:* 622BL. Conceptual integration of research and statistical methods appropriate for psychological service applications. Lab: Provides direct experience with computing facilities in conducting multivariate analysis appropriate for psychological services applications. 3 hours seminar, 2 hours lab per week.

**PSY 625A/L. Psychological Testing I and Lab (Individual)(3/1)**

*Prerequisites:* PSY 427; Admission to a Master's-level Graduate Program in Psychology (Clinical, General Experimental or Human Factors). *Corequisite:* PSY 625AL. Theory and practice of individual assessment of children and adolescents, focusing on assessment of cognitive abilities and achievement. Supervised practice in test administration, interpretation, integration of data from multiple sources and communication of results. 3 hours lecture, 2 hours lab per week.

**PSY 625 B/L. Psychological Testing II and Lab (Individual)(3/1)**

*Prerequisites:* Admission to a Master's level Graduate Program in Psychology (Clinical, General Experimental or Human Factors). *Corequisites:* PSY 427, 625BL. Theory and practice of individual assessment of children and adolescents, focusing on assessment of behavior and social-emotional functioning. Supervised practice in test administration, interpretation, integration of data from multiple sources and communication of results. 3 hours lecture, 2 hours lab per week.

**PSY 625C/L. Child/Adolescent Psychological Assessment and Lab (3/1)**

*Prerequisites:* Admission to a Master's-level Graduate Program in Psychology (Clinical, General Experimental or Human Factors). *Corequisites:* PSY 427, 625CL. Theory and practice of individual assessment of intelligence and personality in non-clinical children and adolescents, as well as those referred for diagnostic assessment of attention, cognitive, learning and/or social-emotional adjustment issues. Supervised practice in test administration, evaluation, integration of data from multiple sources and communication of results. 3 hours lecture, 2 hours lab per week.

**PSY 625D/L. Adult Psychological Assessment and Lab (3/1)**

*Prerequisites:* PSY 427; Admission to a Master's-level Graduate Program in Psychology (Clinical, General Experimental or Human Factors). *Corequisite:* PSY 625DL. Theory and practice of individual assessment of intelligence and personality in non-clinical adults and with those re-

ferred for diagnostic assessment of attention, cognitive, learning, and/or social-emotional adjustment issues. Supervised practice in test administration, evaluation, integration of data from multiple sources and communication of results. 3 hours lecture, 2 hours lab per week.

**PSY 626. Problems of the Atypical Child (3)**

*Prerequisite:* PSY 625C/L. Application of psychological principles to the study of the atypical child, including a survey of etiological theories. Testing the atypical child. Supervised activity required.

**PSY 628. Fundamentals of Psychotherapy (3)**

*Prerequisite:* PSY 460; instructor consent. Comprehensive review of representative theories of psychotherapy and behavioral readjustment with an evaluation of the assumptions underlying these theories. Emphasis on group work in a community mental health setting. (Some sections are reserved exclusively for M.A. students in the classified graduate programs)

**PSY 629. Concepts and Clinical Application of Behavior Analysis (3)**

*Prerequisites:* Graduate standing in Psychology; Instructor consent. This course focuses on ethical functional behavior assessment and behavior change procedures as they pertain to clinical populations. Students will demonstrate advanced understanding of the philosophy, theories, science and concepts of applied behavior analysis.

**PSY 631. Individual Case Studies in Psychology (3)**

*Prerequisite:* PSY 430. Seminar designed to reach a better understanding of individual personality dynamics and relevant personality theories by a detailed examination of classic and contemporary cases.

**PSY 640. Advanced Social Psychology I (3)**

Extensive coverage of major research and theories advanced in contemporary social psychology, with emphasis on individual behavior as a function of social variables. Topics include interpersonal attraction, person perception and attributional processes, attitude formation and change, social motivation, aggression and altruism.

**PSY 641. Advanced Social Psychology II (3)**

Extensive coverage of major research and theories in contemporary social psychology, with emphasis on group behavior. Topics include cooperation and competition, conformity, leadership, social learning, socialization and environmental social psychology.

**PSY 646. Group Dynamics and Leadership (3)**

*Prerequisites:* PSY 345 and either 442 or 483. Study of interpersonal relations and leadership within various social organizations. Applied methods for group motivation and participation in activities toward accomplishing group goals. Supervised activity required.

**PSY 655A-Z. Fieldwork in Psychological Services (1-5)**

*Prerequisite:* Instructor consent. Taught as an academic, University-based experience designed to accompany students' supervised practica, field work and/or internship. Course content varies as a function of the practicum setting (e.g., hospital, community agency) and client age level (e.g., children, adolescents, adults). May be repeated (up to 4 semesters) and taken for varying number of units (1-5).

**PSY 656A-D. Seminar in Human Factors Principles and Applications (3-3-3-3)**

*Prerequisites:* Graduate standing; Instructor consent. Courses cover current topics in human factors as a science and a profession. Letters A-D represent offerings of the courses with different clusters of topics. Clusters are updated frequently to keep current with research and practice in the field. Representative topics include human-computer interaction, job analysis and design, human error measurement and classification, applied systems theory, cognitive workload assessment, virtual work systems, distributed training models and human movement dynamics.

**PSY 660. Seminar in Counseling (3)**

*Prerequisites: PSY 460; Instructor consent. Recommended Corequisite: PSY 660T. Some sections are reserved exclusively for M.A. Degree students in Classified Graduate Programs.* Examination of current theoretical approaches to counseling with emphasis on applications to individual and group, children, adolescents and families.

**PSY 660T. Tutorial in Counseling (1)**

*Prerequisites: PSY 460; Instructor consent.* Tutorial option for PSY 660. Examination of the problems and techniques of counseling and interviewing. Dynamics of the interpersonal relationship between counselor and counselee in relation to current theories of personality. Intensive supervised individual activity and field work to supplement classroom lectures.

**PSY 678A-B. Human Performance Research in Psychology (4-4)**

*Prerequisite: Instructor consent.* Principles and methods of measuring and evaluating human performance in system design. Topics include the application of lab and simulation techniques, field studies and psychometric and survey techniques to the description of human capabilities and limitations.

**PSY 682. Subsystem Integration in Human Factors Design (4)**

*Prerequisite: Instructor consent.* Project-discussion course on the human factors problems and principles involved in the design of a community service system. Emphasis on incorporating the individual student's subsystem designs into a total integrated system.

**PSY 683. Seminar in Human Relations (3)**

*Prerequisites: PSY 150; Instructor consent.* Social psychological analysis of interpersonal behavior. Analysis of group experience and research on variables involved in interpersonal and group behavior.

**PSY 686. Human Factors in Complex Civil Systems (3)**

*Prerequisite: Instructor consent.* Involves the design of a major variable load-demand, responsive civil system. Emphasis devoted to failure-mode evaluation and analysis, and principles of behavioral engineering. 3 hours per week, plus 1 hour supervised individual projects per week.

**PSY 690A. Advanced Sensation and Perception (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Critical review of current literature, theories, methods and problems concerning sensory and perceptual processes.

**PSY 690B. Advanced Conditioning and Learning (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Critical review of current literature, theories, methods and problems concerning conditioning and learning.

**PSY 691A. Advanced Cognitive Psychology (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Critical review of current literature, theories, methods, and problems concerning thinking processes and communication.

**PSY 691B. Advanced Emotion and Motivation (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Critical review of current literature, theories, methods and problems concerning emotion and motivation.

**PSY 692A. Seminar in Research Methodology (3)**

*Prerequisites: Graduate standing in Psychology; Instructor consent.* This course focuses on advanced research methods in psychology, including review of the scientific approach, research designs and measurement, and threats to validity. Emphasis is on critical analysis of research in terms of the research objective, the adequacy of research design and the justifications for the conclusions.

**PSY 696. Directed Graduate Research (3)****PSY 697. Directed Comprehensive Studies (3)****PSY 698C. Thesis or Graduate Project (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Course may be repeated once.

**PSY 699. Independent Study (1-3)**

*Prerequisites: Written proposals for independent study in areas of special interest to the advanced student must be submitted for Departmental approval prior to registration.*

Campbell (Political Science Emeritus), Deborah Ching, Shauna Clark, Kenya Covington (Urban Studies), Ronald A. Davidson (Geography), Herman L. DeBose (Sociology), Alexandra Gerbasi (Sociology), Thomas Hartman (Political Science), Tom Hogen-Esch (Political Science), Paul Krivonos (Communication Studies Emeritus), Daisy Lemus (Communication Studies), Christopher A. Leu (Political Science Emeritus), Mingfang Li (Management), Elan Melamid, Kristy Michaud (Political Science), Henrik P. Minassians (Urban Studies), John Nicoll, David Powell, Boris Ricks (Political Science), Ravi Roy, Martin Saiz (Political Science), Victor Shaw (Sociology), Eric Schockman, Kathryn Sorrells (Communication Studies), Karin Stanford (Pan-African Studies), Jason Stillwell, Ward Thomas (Urban Studies and Planning), Stella Z. Theodoulou (Dean, College of Social and Behavioral Sciences), Zeynep Toker (Urban Studies), Steven Wantz, Bryce Yokomizo,

#### Degree Program

Graduate:

**Master of Public Administration (MPA)**  
**Certificate in Essentials of Public Administration for Public Sector Professionals**

#### Program Overview

The Master of Public Administration Degree Program is entirely funded by student fees and is administered through The Tseng College, hence the designation.

#### Special Sessions Degree

The Master of Public Administration (MPA) is the appropriate professional Degree Program for administrators who are currently employed in the public, private or non-profit sectors and wish to improve their management knowledge and skills. The Program has been designed to provide an academically sound and effective course of study for mid-career professionals who have successfully earned their Baccalaureate or Master's degrees in fields other than Public Administration, but whose career paths and interests have heightened their need for advanced professional study and preparation in Public Administration. Because most MPA students are busy professionals, the program is designed to fit their schedules and is offered in 2 formats—open enrollment and cohort. Students joining the open-enrollment MPA have the flexibility of taking classes at their own convenience. In the cohort model, a group of approximately 25 students moves through the Program as a unit, starting and finishing at the same time. The schedule is fixed and classes, which are offered off campus, are guaranteed for each cohort student.

#### Academic Advisement

For information regarding the on-campus program, contact Alice Lu at (818) 677-5635. For information regarding off-campus cohorts, contact Patti Burleson at (818) 677-3217. The MPA Office fax number is (818) 677-3886.

#### Program Features

**Multidisciplinary Curriculum:** The University MPA Program is multidisciplinary and draws on a wide array of scholarly resources that are most relevant to the changing professional practice of the public administrator.

**Emphasis on Scholarship and Application:** The MPA Program provides a strong academic foundation, while also emphasizing current practical applications. Faculty members include both professors from several University Departments and senior-level public managers.

**Academic Oversight:** The academic oversight of the MPA Program has several interconnected components: the College of Social and Behavioral Sciences, the Department of Political Science, the Program Director and an MPA Program Advisory Board comprised of participating full-time University faculty members. The Program Advisory Board and the MPA Program Director provide the primary academic oversight of the Program.

#### Student Learning Outcomes of the Graduate Program

Completion of the Master of Public Administration (MPA) Degree will provide students with a knowledge and understanding of the following learning outcomes:

##### Critical Thinking and Analytic Skills:

1. Acquire a sophisticated and thorough understanding of the unique challenges, obligations and opportunities of public sector administration in a diverse, dynamic urban context.
2. Develop a foundation of financial management skills required to critically calibrate, analyze, develop, implement and manage budgets and resources in the public sector in an open and ethical manner.
3. Develop the foundational skills and abilities needed to address the essential issues of human resources management to build a strong and effective team in the public sector through effective recruitment that results in sound hiring, retention techniques, staff development, performance evaluation and improvement, progressive discipline and appropriate termination procedures.

##### Collective Decision-Making Skills:

4. Develop the skills and theoretical knowledge needed not only to redesign public sector organizations and staff, and delivery systems, but also to foster cooperation and collaboration across unit lines and with both internal and external community partners.

##### Community and Cultural Skills:

5. Acquire an appreciation of civic engagement through transition from personal development to the recognition that every decision has impact on the community.
6. Develop skills to competently incorporate policy decisions affecting community issues.
7. Understand the importance of service as a catalyst to the improvement of civic life in public and not-for-profit organizational settings.

##### Synthesis Skills:

8. Develop advanced communication skills essential for leadership in the public sector.
9. Develop strong oral communication skills, both in small groups and in larger public contexts.
10. Develop strong written communication skills appropriate to write reports, explain issues and policies, persuasively present initiatives and correspond with colleagues and clients.

## Requirements for the Master's Degree

### A. Admission Requirements

Applicants may be admitted to the University in Classified graduate standing by satisfying the following:

1. Bachelor's Degree from an accredited college or University;
2. Minimum 2.5 GPA in the last 60 semester or (90 quarter units) attempted;
3. Graduate Record Exam for applicants whose GPA is below 3.0. Acceptable GRE scores must be in the 50th percentile or above in any 1 of the 3 portions—verbal, quantitative or analytical;
4. Successful completion of the Upper Division Writing Proficiency Exam (UDWPE); and
5. 2 years of work experience

### B. Graduation Requirements

1. Completion of a minimum of 33 semester units of approved graduate courses;
2. Completion of at least 24 of these units in residence;
3. Completion of all course work with a GPA of at least 3.0; and
4. Completion of a comprehensive examination equivalent to 3 semester units (in addition to the above 33 units of course work).

Students entering the program are required to declare their interest in at least 1 of the 8 Tracks/Specializations that are offered:

Public Sector Management and Leadership; Non-Profit Sector Management; Public Policy Analysis and Management; Performance Management and Productivity in the Public Sector; Geographic Information Systems and Technology; and Health Administration.

#### 1. Required Core Courses (15 units)

|     |     |  |
|-----|-----|--|
| MPA | 610 | Seminar in Public Administration and Its Environment (3) |
| MPA | 620 | Research Methods for Public Administration (3)           |
| MPA | 630 | Organization Theory and Human Behavior (3)               |
| MPA | 644 | Public Budgeting and Financial Administration (3)        |
| MPA | 650 | Seminar in Public Policy Process (3)                     |

#### 2. Elective Courses (18 units)

Select courses from 1 of the following Tracks:

##### Public Sector Management and Leadership Track

|     |      |  |
|-----|------|--|
| MPA | 612A | Intergovernmental Relations (3)  |
| MPA | 622A | Policy Implementation and Program Evaluation (3)                             |
| MPA | 623A | Seminar in Effective Public Sector Management (Required)* (3)                |
| MPA | 623B | Approaches and Methods in Program Evaluation (Prerequisite: MPA 620) (3)     |
| MPA | 623D | Human Resources and the Basics of Competencies Measurement in Government (3) |
| MPA | 632A | Organizational Leadership (3)  |
| MPA | 632B | Strategic Management (3)   |
| MPA | 632C | Communication in Public Organizations (3)                                    |
| MPA | 640  | Public Policy Analysis (3)   |
| MPA | 642A | Ethics and Professionalism (3)   |
| MPA | 642B | Public Sector Labor Relations (3)  |
| MPA | 643  | Human Resources Management (3)   |

\*This is a required course for this Track only.

##### Non-Profit Sector Management Track

|     |      |   |
|-----|------|---|
| MPA | 612A | Intergovernmental Relations (3)                                 |
| MPA | 632D | Overview of Nonprofit Organizational Management (Required)* (3) |
| MPA | 632E | Strategic Planning, Needs Assessment and Program Design (3)     |

|     |      |   |
|-----|------|---|
| MPA | 632F | Issues and Problems in Human Resources, Board and Volunteer Management in Non-Profits (3) |
| MPA | 632G | Non-Profit Finance and Financial Management (3)   |
| MPA | 632H | Funding and Resource Development for Non-Profit Organizations (3)                         |
| MPA | 632I | Program Implementation and Management for Non-Profit Services (3)                         |
| MPA | 640  | Public Policy Analysis (3)  |
| MPA | 642A | Ethics and Professionalism (3)  |

\*This is a required course for this Track only.

##### Public Policy Analysis and Management Track

|     |      |  |
|-----|------|--|
| MPA | 612A | Intergovernmental Relations (3)  |
| MPA | 622A | Policy Implementation and Program Evaluation (3)                         |
| MPA | 623A | Seminar in Effective Public Sector Management (3)                        |
| MPA | 623B | Approaches and Methods in Program Evaluation (Prerequisite: MPA 620) (3) |
| MPA | 623C | Performance Reporting Measures in Government (3)                         |
| MPA | 632B | Strategic Management (3)   |
| MPA | 640  | Public Policy Analysis (Required)*(3)                                    |
| MPA | 642A | Ethics and Professionalism (3)   |
| MPA | 642D | Community and Economic Development (3)                                   |

\*This is a required course for this Track only.

##### Performance Management and Productivity in the Public Sector Track

|     |      |  |
|-----|------|--|
| MPA | 612A | Intergovernmental Relations (3)  |
| MPA | 623A | Seminar in Effective Public Sector Management (Required)* (3)                |
| MPA | 623B | Approaches and Methods in Program Evaluation (Prerequisite: MPA 620) (3)     |
| MPA | 623C | Performance Reporting Measures in Government (3)                             |
| MPA | 623D | Human Resources and the Basics of Competencies Measurement in Government (3) |
| MPA | 623E | Performance Budgeting in the Public Sector (3)                               |
| MPA | 632B | Strategic Management (3)   |
| MPA | 632C | Communication in Public Organizations (3)                                    |
| MPA | 640  | Public Policy Analysis (3)   |

\*This is a required course for this Track only.

##### Geographical Information Systems and Technologies Track

|      |      |                           |
|------|------|---------------------------|
| GEOG | 690A | Special Topics in GIS (3) |
| GEOG | 690B | Spatial Statistics (3)    |
| GEOG | 690C | Digital Cartography (3)   |
| GEOG | 690D | Remote Sensing (3)        |
| GEOG | 690F | Methods in GIS (3)        |
| GEOG | 690G | Applications in GIS (3)   |

##### Health Administration Track

|      |     |  |
|------|-----|--|
| HSCI | 513 | Leadership in Health Administration Practice (3) |
| HSCI | 523 | Seminar in Health Care Organization (3)          |
| HSCI | 613 | Managing Change in Health Care Organizations (3) |

Health Administration elective (choose two from either National or International Track)

##### National Track

|      |     |  |
|------|-----|--|
| HSCI | 510 | Systems for Health Delivery in the U.S. (3)            |
| HSCI | 511 | Health Services Administration Theory and Practice (3) |

##### International Track

|      |     |   |
|------|-----|---|
| HSCI | 515 | Seminar in Health-Care Information Management (3) |
| HSCI | 614 | Health Administration: Financial Management (3)   |

**3. Culminating Experience (3 units)**

MPA 697S Comprehensive Examination (3)

**Special Sessions Public Administration Graduate Credit Certificate**

**Option:** There are 2 graduate Certificate Options available for individuals who are not seeking a Master's Degree in Public Administration but who wish to update and expand their skills. Students must successfully complete all units of course work in the field in which they wish Verification. The Options are described below. However, it is mandatory for students to make formal application to the Program and to meet with staff in the Department Office to receive advisement prior to enrolling for courses.

**Non-Profit Sector Management:** The required courses for the certificate in this track are MPA 632D, 632E, 632F, 632G, 632H and 632 I (18 units)

**Performance Management and Productivity in the Public Sector:** The required courses for the certificate in this track are MPA 620, 623A, 623B, 623C, 623D and 623 E (18 units)

**Certificate in Essentials of Public Administration for Public Sector Professionals**

The Graduate Credit Certificate in Essentials of Public Administration for Public Sector Professionals is designed for individuals seeking to expand their professional skills. This Graduate Certificate allows students to get exposure to the fundamental and essential issues in public administration. There are 6 graduate-level courses required for the 18-unit Certificate, which has been formulated to assist working professionals in a wide variety of public and non-profit agencies in the acquisition of skills required for professional competency in the field of public administration. This Graduate Credit Certificate in Essentials of Public Administration for Public Sector Professionals offered by the Tseng College of Extended Learning will emphasize the essential skills and knowledge in understanding such public sector issues as the institutional foundations of public administration, fundamentals of budgeting, organizational theory and employee motivational strategies and basics of public policy making. Working professionals will be able to use this program as an opportunity to maintain relevancy in a changing field.

**Graduate Certificate in Essentials of Public Administration**

|         |  |
|---------|--|
| MPA 610 | Seminar in Public Administration and Its Environment (3) |
| MPA 620 | Research Methods for Public Administration (3)           |
| MPA 630 | Seminar in Organization Theory and Human Behavior (3)    |
| MPA 644 | Public Budgeting and Financial Administration (3)        |
| MPA 650 | Seminar in Public Policy Process (3)                     |

**Graduate Certificate in Urban Planning**

|          |  |
|----------|--|
| URBS 610 | Contemporary Urban Planning in the United States and California (3)    |
| URBS 620 | Seminar in Comprehensive Planning (3)                                  |
| URBS 630 | Sustainable Development and Environmental Impact Analysis (3)          |
| URBS 640 | Seminar in Planning for Communities and Local Economic Development (3) |
| URBS 650 | Field Project in Urban Planning (3)                                    |

**Course List****MPA 610. Seminar in Public Administration and its Environment (3)**

Introduces graduate students to the major areas within public administration and encourages them to relate this knowledge to their own experience and career. Considers the political, social and economic environment of public administration.

**MPA 612A. Intergovernmental Relations (3)**

Provides an in-depth examination and analysis of the dynamics of the legislative, political and intergovernmental processes. Analyzes the relationships of different levels and branches of government. Lobbying and change agents, decision-making procedures and media impacts are evaluated. Involvement in creating change and impacting decisions through the use of intergovernmental techniques is explored. Explores the roles of the bureaucrat, administrator and legislator at local, state and federal levels.

**MPA 620. Research Methods for Public Administration (3)**

Discusses theory and limits of scientific inquiry, including quantitative and qualitative methods of analysis, and research design and implementation. Encourages critical analysis of the research underlying policy recommendations. Introduces students to a wide variety of social science research techniques and assists them in developing their own research projects.

**MPA 622A. Policy Implementation and Program Evaluation (3)**

Public administration is fundamentally a discipline interested in identifying public problems and implementing successful solutions. This course focuses exclusively on strategies for successful implementation of policy solutions in a competitive policy environment and on mechanisms for evaluating program success.

**MPA 622B. Management of Information Resources (3)**

Examines the history, development and applications of information resources (IR) in the public sector. Provides a framework for understanding the technologies, trends and planning processes, and emphasizes the development of an individualized approach to managing information resources. Examines the role of information resources as an increasingly important management tool.

**MPA 623A. Seminar in Effective Public Sector Management (3)**

This course is designed to introduce students to the effective functioning and management of organizations in the public sector. The course will focus on key management issues in public sector organizations and how to more effectively function in leadership roles in those organizations. Seminar participants are encouraged to relate work-life issues to theoretical perspectives and to bring in examples from their professional experiences to seminar discussions.

**MPA 623B. Approaches and Methods in Program Evaluation (3)**

*Prerequisite: MPA 620.* This course is designed to introduce students to the art and science of program evaluation, in both qualitative and quantitative ways. The course will review the dominant approaches to program evaluation and align these approaches to the social science research methods students study in MPA 620.

**MPA 623C. Performance Reporting Measures in Government (3)**

*Prerequisite: MPA 620.* This course focuses on methods and strategies for designing performance measures and indicators, and effective ways for measuring organizational outcomes. Students will be introduced to the art and science of government performance measurement in both qualitative and quantitative ways. The course will review the dominant approaches to performance measurement and align these approaches to the social science research methods studied in MPA 620.

**MPA 623D. Human Resources and the Basics of Competencies Measurement in Government (3)**

This course will strategically look at the area of human resources and its link to firm performance through the balanced scorecard method. Specifically, students will learn how to develop the balanced scorecard and use it in the analysis of human resource decisions. Students will learn how to analyze the various human resource functional areas and measure the overall worth of these areas.

**MPA 623E. Performance Budgeting in the Public Sector (3)**

The demand by public officials to determine the efficiency and effectiveness of public service delivery and the way in which the organization allocates its resources has led to a greater emphasis in the utilization of performance measurement techniques. This course provides students with a foundation in the concepts, terminology and methods of public sector budgeting and financial administration. Various techniques of budgeting, including line item, performance, program and zero-base, are covered in this course, with an emphasis on performance budgeting. By using real-world examples, students will evaluate various approaches to public budgeting and analyze how performance measures may be incorporated into the public budgeting environment.

**MPA 630. Organization Theory and Human Behavior (3)**

Traces the historical development of organization theory. Examines contemporary approaches to the study of organization. Discusses the various concepts, issues and approaches to the study of organizational behavior. Considers such concepts and processes as decision making, power, conflict, communication, leadership, motivation, group effectiveness, organizational change and personal and organizational autonomy.

**MPA 632A. Organizational Leadership (3)**

Explores the theories and styles of leadership. Students become familiar with and work toward the incorporation of the traits and habits of effective leaders. Reviews the necessary qualities required of and challenges and ethical dilemmas facing leaders in the public sector today.

**MPA 632B. Strategic Management (3)**

Examines how managers guide their organization in establishing goals, setting priorities, coordinating disparate activities and how they adjust to a changing environment. Class produces actual strategic plans.

**MPA 632C. Communication in Public Organizations (3)**

Highlights the function of communication as the life blood of public and non-profit organizations, examining the nature of such communication issues as organizational culture, communication networks and message distortion, communication climate, communication and conflict, new communication technologies and communication during crisis situations as these impact public and non-profit organizations.

**MPA 632D. Overview of Nonprofit Organizational Management (3)**

Designed to meet the needs of the professional administrator who works within the growing not-for-profit sector and also of the governmental employee who may work in cooperation with non-profit sector. Governance through boards of directors, impacts of public policy, planning and policy formulation, funding and social marketing, effective partnership with business and government agencies, and challenges of motivation and leadership are examined.

**MPA 632E. Strategic Planning, Needs Assessment and Program Design (3)**

Examines the critical interconnection among strategic goals and objectives, including community needs assessment, program design and evaluation to the organization's mission. Students will gain knowledge of the strategic-planning process through an experiential approach that creates the mission, identifies long-range goals and develops objectives and action plans. Provides students exposure to the full cycle of organizational activities to examine organizational effectiveness by exploring approaches to community needs assessment and building a program and evaluation process based on the needs assessment.

**MPA 632F. Issues and Problems in Human Resources, Board and Volunteer Management in Non-Profits (3)**

This course is an introduction to the aggregate of human resource management process in complex organizations. The course will focus on current policy issues and problems that challenge today's human resource specialists, supervisors and managers. Further, beyond the internal focus, the course also will examine the external human resources brought to non-profit organizations by governing boards and volunteers. Students will study important policy issues for their political, legal, social, ethical and organizational ramifications.

**MPA 632G. Non-Profit Finance and Financial Management (3)**

This course will expose the student to non-profit financial management concepts and practices, including the framework for budgeting, financial analysis, internal controls and reporting. Students will engage in exercises and learn to use tools for financial management. The course will introduce and cement the partnership between non-profit programming and effective financial management, and identify the intersections among governance, programmatic vision and financial practices.

**MPA 632H. Funding and Resource Development for Non-Profit Organizations (3)**

This course examines how fund-raising works and fits into non-profit management as a whole. Students will learn what must be in place before a non-profit organization raises money; how to plan and implement various approaches to raising funds, including grant writing, events and major gifts; and how to develop, manage and evaluate an annual fund-raising plan.

**MPA 632I. Program Implementation and Management for Non-Profit Services (3)**

Examines the policies, strategies and the decision-making process to support successful program implementation from a manager's perspective. Non-profit policy formulation places emphasis on training managers to develop and analyze problems, both in terms of choosing goals and organizing resources to achieve them. Students will be given the opportunity to formulate strategic implementation considerations using environmental analysis, resource assessment, goal determination, program planning and evaluation and performance overview. This course will concentrate on the process of implementing programs and the role of advocacy in achieving programmatic and overall mission attainment.

**MPA 640. Public Policy Analysis (3)**

Focuses on the methods and models of policy analysis used by public administrators. Emphasis on developing a perspective for putting social problems in the context of market and government failures. The basics of cost-benefit analysis and its application also are examined.

**MPA 642A. Ethics and Professionalism (3)**

Examines ethical issues and cases relevant to public administration. Focuses on professional relationships and responsibilities. Analyzes wider questions of public power, violence, deception and justice for their important relevance to public administration. Prepares students to analyze and confront ethical challenges in their professional life.

**MPA 642B. Public Sector Labor Relations (3)**

Accelerated intensive study of labor-relations concepts and role-playing participation in labor/management negotiation and formal arbitration.

**MPA 642D. Community and Economic Development (3)**

The questions of community and economic development are inter-related and more important than ever. How can practitioners facilitate community growth and change? What approaches are fruitful in promoting economic development, and what effect might this have on community development? Cultivation of such community development skills as intercultural communication, group facilitation and collaborative planning. Explores economic development tools, such as assessment, strategies to induce investment and ways to assess the social costs and benefits of economic development.

**MPA 643. Human Resources Management (3)**

Focuses on the development of public service concepts, including personnel methods, testing and recruitment; interaction with other management functions and with the executive and legislative processes; human resources allocation; employee motivation and evaluation; manpower planning and forecasting; employee relations; affirmative action programs; and career planning and development.

**MPA 644. Public Budgeting and Financial Administration (3)**

Discusses budgeting processes and administrative control, including various techniques of budgeting; line item, performance, program and zero base; fiscal policy in implementing public policy; public revenues; sources and effect of principle taxes; intergovernmental aspects of revenue problems; and revenue sharing.

**MPA 650. Public Policy Process (3)**

Examines the formation of the public policies that government agencies must carry out. Traces the process of problem identification, agenda setting, policy proposal and adoption. Includes both legislative and regulatory policies. Explores the role of public managers as active participants in the policy-making process.

**MPA 697S. Comprehensive Examination (3)**

Students selecting this Option prepare for examination in General Public Administration and in 2 Specialized Subfields.

# Public Sector Management

College of Social and Behavioral Sciences in  
Collaboration with the Tseng College

**Associate Director: Ravi Roy**  
**Bookstore Complex (BK)**  
**(818) 677-3909**  
**tsengcollege.csun.edu/psm**

## Faculty

Bernardo Attias (Communication Studies), James David Ballard (Sociology), Lawrence Becker (Political Science), Matthew Cahn (Political Science), Herman DeBose (Sociology), Nancy Grass Hemmert (Communication Studies), Thomas Hogen-Esh (Political Science), Paul Krivonos (Communication Studies), Daisy Lemus (Communication Studies), Henrik Minassians (Urban Studies and Planning), Rex Mitchell (Management), Karen Peck (Communication Studies), Jon Sager (Management), Martin Saiz (Political Science), Talin Saroukhanian (Political Science), Stephen Schuster (Management), Victor Shaw (Sociology), Paula Silva (Management), Ward Thomas (Urban Studies and Planning), Zeynep Tokar (Urban Studies and Planning)

## Degree Programs

Undergraduate :

**B.A., Public Sector Management**  
**Administration of the Public Sector Management Program**

## Special Session Degree

The Program is administrated through The Tseng College (hence, the designation of Special Session Degree) and is entirely funded by student fees and payments. Financial aid is available for qualified students. The College of Social and Behavioral Science is the academic sponsor of the PSM Program.

## Academic Advisement

Please contact Scott Dunlap at (818) 677-7763.

## Admission To the Program

In order to be admitted to the Program, students must have completed 60 units transferable to the CSU system and be General Education certified. The Director of the Public Sector Management Program will evaluate and approve students prior to formal admission to the Program.

## Program Overview

The B.A. Degree Program in Public Sector Management is designed for students who wish to gain an understanding of the policy and management issues of government and non-profit organizations, and their impact on the communities they serve. Students, while being exposed to the political context in which public sector decisions are made, will be given the tools to analyze, develop and implement governmental structures and processes, formulate and effectively present policy and administrative decisions, and understand how to work within the boundaries of available human, fiscal and technological resources. In addition, students will acquire the communication and management skills necessary for success in any career endeavor.

## The Multidisciplinary Curriculum

The Program is multidisciplinary and draws on a wide array of scholarly resources that are most relevant to the changing need of public sector management in order to offer students the opportunity to develop a comprehensive set of competencies required for success in the public and not-for-profit arenas. The Department of Political Science in the College of Social and Behavioral Science,

the Department of Communication Studies in the College of Arts, Media and Communication, and the Department of Management in the College of Business and Economics offer all Core courses in the Program. In addition, the Departments of Sociology and Urban Studies and Planning, both in the College of Social and Behavioral Science, offer elective courses, as do the Departments of Political Science and Communication Studies.

## Student Learning Outcomes of the Undergraduate Program

Students successfully accomplishing the B.A. Degree in Public Sector Management will acquire and demonstrate an overview and in-depth understanding of the fields of public policy, management and communication by developing the following skills:

1. Communicate both orally and in written format in a clear, succinct and persuasive manner public policy observations, interpretations and ideas;
2. Analyze an issue and its causes, and, within the public policy process, form, implement and assess the effectiveness of appropriate strategies;
3. Effectively articulate the mission and goals of their organizations, aligning resources, priorities and plans in support of those ideals;
4. Utilize effective management strategies and tools to deal with the social phenomena and challenges confronting the public sector;
5. Form alliances and connections across cultural boundaries, uniting diverse perspectives into a common purpose for improvement within the organization and the community;
6. Succeed in supervisory/managerial roles, leading by example to enhance work performance and accurately assessing agency and employee needs;
7. Managing conflict effectively, encouraging a variety of ideas and opinions, to guide others to reach consensus; and
8. Ethically face issues and maintain the public trust.

## Requirements for the Bachelor of Arts Degree in Public Sector Management

The PSM Program is composed of 20 Upper Division undergraduate courses (60 semester credit hours) offered in a predetermined sequence in cohort format. To earn the Bachelor of Arts Degree in Public Sector Management, a student must be formally admitted to one of the Program's cohorts and complete all the course work specified below. Assignments within courses are designed to focus on issues pertinent to public sector management and build upon each other as the students progress through the Program. A general sequence of courses is presented below.

### Required Courses and Electives:

|      |         |  |
|------|---------|--|
| COMS | 309     | Advanced Public Speaking ( <i>Upper Division GE</i> ) (3)                |
| COMS | 323     | Group Communication ( <i>Upper Division GE</i> ) (3)                     |
| COMS | 356     | Intercultural Communication<br>( <i>Upper Division GE</i> ) (3)          |
| or   | SOC 307 | Ethnic Diversity in American Society<br>( <i>Upper Division GE</i> ) (3) |
| COMS | 454     | Communication and Technology (3)   |
| COMS | 495     | Internship in Organizational Communication (3)                           |
| POLS | 360     | Public Administration (3)  |
| MGT  | 360     | Management and Organizational Behavior (3)                               |
| MGT  | 370     | Management Skills Development (3)  |
| MGT  | 454     | Leadership, Power and Politics (3)                                       |
| MGT  | 460     | Strategic Human Resources Management (3)                                 |
| POLS | 361     | Introduction to Public Policy (3)  |

| <b>Total Units</b> | <b>60</b> |
|--------------------|-----------|

As required for completion of any of the University's Baccalaureate Degree Programs, in addition to course work, students must pass the University's Upper Division Writing Proficiency Exam. Students are also required to meet Title 5 requirements to graduate. It is strongly recommended that the latter requirement be met before entering the Program.

**How the Electives Work in the Cohort Context:** Since the PSM Program is offered in the cohort format, all members of a given cohort will take the same set of 2 electives. Issues relevant to each cohort will determine the choice of electives. Electives will be selected by the public sector agency that is partnering with CSUN to make the cohort available to its employees in collaboration with the PSM Director. In some instances, the PSM Director, in collaboration with the PSM advisory group, may determine cohort electives or, less frequently, the cohort participants themselves may select the elective package during the first term. Elective courses will articulate with the Program's Core course work and, together with the Core course work, help lay the foundation for the final 2 courses in the Program—the Field Assignments and Internship.

### Elective Courses (15 units)

Possible clusters of electives that might be used for a given cohort based on professional focus are listed below.

#### Managing in Diverse State and Local Governments

|      |     |                                 |
|------|-----|---------------------------------|
| COMS | 321 | Rhetorical Discourse (3)        |
| POLS | 403 | State and Local Governments (3) |
| SOC  | 350 | Population Dynamics (3)         |

#### Public Policy in Urban Context

|      |     |  |
|------|-----|--|
| POLS | 380 | Los Angeles: Past, Present, Future (3) |
| POLS | 404 | Urban Politics (3)                     |
| URBS | 430 | Urban Administrative Systems (3)       |

#### Influences, Externalities and Making Policy

|      |     |                                 |
|------|-----|---------------------------------|
| POLS | 403 | State and Local Governments (3) |
| POLS | 441 | Interest Groups (3)             |
| POLS | 443 | The Legislative Process (3)     |

#### Policy Formulation and Implementation in Different Contexts

|      |     |                                     |
|------|-----|-------------------------------------|
| POLS | 458 | Administrative Law (3)              |
| POLS | 463 | Public Personnel Administration (3) |
| POLS | 464 | Comparative Public Policy (3)       |

#### Work, Organizations and Human Resources

|      |     |                             |
|------|-----|-----------------------------|
| COMS | 321 | Rhetorical Discourse (3)    |
| SOC  | 400 | Organizational Analysis (3) |
| SOC  | 325 | Sex Roles and Work (3)      |

#### Working in a Diverse Environment

|      |     |                             |
|------|-----|-----------------------------|
| SOC  | 305 | Culture and Personality (3) |
| SOC  | 390 | Race Relations (3)          |
| URBS | 420 | Urban Behavior Systems (3)  |

#### Additional electives:

|     |     |                             |
|-----|-----|-----------------------------|
| SOC | 340 | Sociology of Work (3)       |
| SOC | 355 | Criminology (3)             |
| SOC | 401 | Class, Status and Power (3) |
| SOC | 410 | Urban Sociology (3)         |
| SOC | 418 | Women and Crime (3)         |
| SOC | 440 | Sociology of Aging (3)      |
| SOC | 474 | Corrections (3)             |

|  |            |

## Queer Studies

### College of Humanities

**Coordinator: Greg Knotts**  
**Sierra Hall 194**  
**(818) 677-6762**  
**www.csun.edu/qs**

**Interdisciplinary Program**  
**Minor in Queer Studies**

#### The Minor

The Queer Studies Program is an Interdisciplinary Minor that questions normative constructions of sexuality and gender. The Minor focuses on histories, contemporary experiences and community-based knowledge of lesbians, gay men, bisexuals, transgender people, intersexed people, queers and others who occupy non-heterosexist and gender non-normative positionalities. The Program explores how these subjects intersect and collide with national, ethnic, racial, gender, class and other identifications. It provides an academic home for those who wish to study the intellectual, cultural and material conditions that have shaped our current understandings of sexuality and gender variation, as well as for those who wish to generate new, resistant theories and practices.

#### Academic Advisement

The Queer Studies Program helps students select the Program and courses that best satisfy their individual needs and interests. Contact Coordinator Greg Knotts at (818) 677- 6762 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a minor in Queer Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

#### Requirements for the Queer Studies Minor

Minor students must take QS 301, 302 and 3 elective courses for a letter grade. QS 490 can be taken for a letter grade or for credit/no credit for all students.

##### 1. Upper Division Required Courses (9 units)

|    |     |  |
|----|-----|--|
| QS | 301 | Perspectives in Queer Studies (3)                            |
| QS | 302 | L.A. in Transit: Communities, Organizations and Politics (3) |
| QS | 490 | Queer Studies Senior Capstone (3)                            |

##### 2. Upper Division Electives (9 units)

|      |        |   |
|------|--------|---|
| AAS  | 455    | Asian American Sexuality (3)  |
| GWS  | 410    | Sex, Lies and Media (3)   |
| GWS  | 430    | Global Sexualities (3)  |
| ENGL | 368    | Gay Male Writers (3)  |
| ENGL | 369    | Lesbian Writers (3)   |
| PHIL | 406    | Philosophy of Sex, Gender, Sexuality (3)                              |
| QS   | 401A-Z | Advanced Topics in Queer Studies (3)                                  |
| QS   | 499    | Queer Studies Independent Study (3)                                   |
| SOC  | 452    | Sociology of Lesbian, Gay, Bisexual and Transgendered Communities (3) |

Or Other elective courses as approved by the Program Coordinator.

| <b>Total Units</b> | <b>18</b> |
|--------------------|-----------|

## Course List

### QS 113A. Approaches to University Writing A (3)

*Prerequisite: EPT score of 120-141. Corequisite: UNIV 061.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies, and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Students are required to also enroll in UNIV 061 (1 credit) or equivalent. Individual tutoring is available through the Learning Resource Center.

### QS 113B. Approaches to University Writing B (3)

*Prerequisite: QS 113A. Corequisite: UNIV 062.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies, and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113B. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

### QS 114A. Approaches to University Writing A (3)

*Prerequisite: EPT score of 142-150.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies, and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114A. Individual tutoring is available through the Learning Resource Center.

### QS 114B. Approaches to University Writing B (3)

*Prerequisite: QS 114A.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies, and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114B. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

### QS 115. Approaches to University Writing (3)

*Prerequisite: EPT score of 151 or higher.* Expository prose writing, with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies, and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 115. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

**QS 301. Perspectives in Queer Studies (3)**

This course introduces students to the current theories and histories in queer studies, including such closely related fields as transgender studies. The course also introduces students to the scope of queer studies, to scholarly, community-based and activist resources, and to the varied interdisciplinary, methodological and theoretical paradigms in the field. (Available for General Education, Comparative Cultural Studies.)

**QS 302. L.A. in Transit: Communities, Organizations and Politics (3)**

This course provides students with a broad understanding of lesbian, gay, bisexual, transgender, intersexed and queer communities, organizations and politics in Los Angeles, with attention to how these are shaped by nationality, race, ethnicity, gender, class and other identifications. (Available for General Education, Lifelong Learning.) (IC)

**QS 401A-Z. Advanced Topics in Queer Studies (3)**

Intensive study of selected topics in queer studies, such as queer theory, transgender theory, queer issues in education, queer popular culture, the queer diaspora and the globalization and medicalization of sex and gender. Topics change from semester to semester. May be repeated for credit with instructor's consent.

**QS 490. Queer Studies Senior Capstone (3)**

Students develop and complete theoretically informed individualized research projects in queer studies in a structured setting. The project will include peer and instructor feedback and guidance on selecting an appropriate topic; conducting research, drafting and revising the project; and presenting the completed project. Course may be offered online or in a classroom setting.

**QS 499. Queer Studies Independent Study (3)**

Queer Studies independent study is for advanced students who are interested in working on an independent project with a faculty sponsor. The student needs to complete an Independent Study Form with the approval signature from the faculty sponsor and the Queer Studies Coordinator.

# Recreation and Tourism Management

## College of Health and Human Development

**Chair: Al Wright**

### Programs

Undergraduate:

- B.S., Tourism, Hospitality and Recreation Management**
- Therapeutic Recreation Option**
- Minor in Recreation**

Graduate

- M.S. Tourism, Hospitality and Recreation on Management**

### Mission Statement

The Department of Recreation and Tourism Management at CSUN provides a challenging, student learning-centered educational experience that prepares professionals with a commitment to enhancing the quality of life through recreation, leisure and play.

### The Major

The Department of Recreation and Tourism Management prepares students for full-time entry level positions in a wide range of career settings. The Major emphasizes the importance of high-quality recreation, tourism and play experiences as a means for improving the quality of life of individuals, families, local communities and organizations. The Department of Recreation and Tourism Management offers many exciting general education courses as well as the professional preparation Major Degree tracks. Students in the Major develop leadership, program-planning and management skills necessary to be prepared to successfully meet the challenging career settings of the 21st century. Many of our B.S. degree graduates go on to enter our Graduate Degree Programs for those career paths that require advanced study.

**Therapeutic Recreation Option (B.S. Degree Program):** The recreation therapist is prepared to utilize recreation as a treatment and education modality for children, youth, adults and older adults with physical, cognitive, emotional and/or social disabilities in clinical, residential and community settings. Recreation therapy programs are designed to facilitate positive changes within individuals with disabilities and to enable them to enjoy health, well-being and independent leisure lifestyles. Therapists must be able to assess clients' needs and abilities and apply appropriate intervention strategies. Students in this Option will complete clinical/community Recreation Therapy practicum and internship experiences. Graduates are encouraged to sit for both state and national certification exams.

**Recreation, Hospitality and Tourism Management (B.S. Degree Program):** A critical element in working in the global market today is understanding and working comfortably with diverse groups. Recreation professionals can make a difference in the quality of life for all citizens by encouraging and facilitating the positive use of leisure time, whether that is while at home, traveling, engaging in recreation, recreational sport or entertainment. The Recreation and Tourism

Management Degree Program educates students in leisure and play theory, event planning, leadership, management and working with diverse groups, while embracing sustainability of resources while participating in leisure-time pursuits. Students complete practicum and internship experiences in various leisure-service settings in the for-profit, government and non-profit sectors.

### The Minor

This Program provides a basic framework of skills and understandings of leisure and recreation services as described in the B.S. Degree Programs. Students completing the Minor will be able to perform such services in support of professional roles in related fields.

### Careers

Recreation and Tourism Management graduates have many career paths within the human services industries to pursue. Included in this vast array of career opportunities are adventure travel coordinators, hotel management, tour guides and interpreters, tourism destination specialists, convention coordinators, cruise ship activity directors, event planners and coordinators, recreational sport and entertainment facility management, entrepreneurs, intramural/campus recreational sport and campus life directors.

Other graduates chose paths in the outdoors, municipal recreation and non-profit sectors of the profession. These professional areas offer such careers as recreation therapy specialists, recreation center directors, recreation center specialists, outdoor education specialists, camp directors, nature interpreters, aquatic specialists, play center facilitation/directors and employee recreation services and sport directors.

Finally, other graduates find fulfilling careers in such professional settings as military recreation, correctional recreation, campus student unions, religious youth recreation, fund development, community youth recreation and sport agencies and recreation therapy.

### Academic Advisement

Recreation and Tourism Management faculty listed above are available each semester for academic advisement prior to registration. Meeting with a faculty member of your choice who has the expertise that represents your career objectives is encouraged and can take place during their regular faculty office hours. The undergraduate and graduate advisors are Mechelle Best, Craig Finney, Joong Won Lee, Dianne Philibosian, Jan Tolan, Veda Ward, Al Wright and Jimmy Xie.

Upon completion of the academic advisement session, students' "registration hard hold" is lifted and students then may participate in the registration process as scheduled by the University.

### Student Learning Outcomes of the Undergraduate Program

1. Students will demonstrate critical thinking, including analysis, synthesis and evaluation in the fields of play, leisure, recreation, parks, hospitality and/or tourism through a variety of pedagogies.
2. Students will practice and self-assess progress toward mastery of the standards and competencies of appropriate accrediting bodies through continual self-assessment and portfolio development.
3. Students will demonstrate application and integration of theoretical knowledge in a practical setting through 600 hours of professional internship in preparation for pursuing employment.
4. Students will demonstrate an increase in emotional intelligence while pursuing their Degree(s) objectives as measured by an emotional intelligence survey instrument at point of entry and exit from the Degree Program.

## Requirements for Bachelor of Science Degree

### Grade Requirements for Core Classes

Undergraduate Majors in Recreation and Tourism Management are required to earn a grade of "C" or better in each of the Core classes for the units to be counted as progress toward a Degree.

Each class can be repeated once to improve the grade. Subsequent retakes must be appealed to the Department of Recreation and Tourism faculty. First Aid and CPR certification (non-online) are required at time of graduation.

### Professional Preparation Opportunities

Professional learning experiences are offered to students throughout the Program. Experiential education and community service learning opportunities are included in course work. Students are provided the opportunity to engage in a wide variety of leisure organizations..

### Internship

All students enroll in a capstone 600-hour (6 units) senior internship. To ensure the highest quality internship experience possible, the Department requires all students to have completed all 200- and 300-level courses prior to enrollment in the internship program. However it is strongly encouraged that the senior internship experience be taken as the culminating learning opportunity toward the B.S. Degree. See your academic advisor for further requirements.

Students consult with faculty in their Option regarding policies and procedures governing practical experience. Multiple professional certifications are both possible and encouraged through judicious selection of field placements and elective course work.

### Recreation Management (60 units)

The Department is committed to providing a generalist framework from which students may seek one or more professional certifications. See advisor for specific career preparation patterns. Electives are selected in consultation with and approved by the Departmental academic advisor.

#### 1. Lower Division Core (9 units)

|     |       |  |
|-----|-------|--|
| RTM | 202/L | Planning Programs and Events for the Recreational Experience and Lab (2/1) |

### Master of Science Degree in Recreation

The Master's Degree Program is intended for persons interested in developing and/or improving their knowledge of recreational sport management or tourism management. It is designed for those seeking advancement in their career settings or a change in career settings. The selection of courses allows students to "specialize" in either: a) Recreational Sport/Campus Recreation Management; or b) Tourism Management. Students progress through the Program as a cohort and are actively engaged in courses and internships on evenings and weekends.

#### Requirements for Admission to the Program

Bachelor's Degree in Recreation, Hospitality, Travel and Tourism, Recreational Sport Management or allied field(s). Students not so qualified must successfully complete a prescribed program with a GPA of 3.0. University requirements must be met for promotion to Classified status. Graduate admission in the Fall semester only.

#### Requirements for Completion of the Program

Students will complete 15 units of required Core classes, 12 elective units in their selected track (Recreational Sport Management or Tourism Management) and 3 additional units of approved electives for a total of 30 units. The Core classes include 2 internship experiences of 2 units each. A 2-unit directed comprehensive studies course (comprehensive examination) based on the internship experiences is the culminating experience for the Degree and will be completed during the last semester of enrollment in the Program. Students also have the option of completing a Graduate Project or Thesis. A grade of "B" or better in each graduate course is required for the units be counted as progress toward Degree requirements.

**1. Required Courses (15 units)**

|            |   |
|------------|---|
| RTM 540    | Human Resources in Recreational Sport and Tourism (3)         |
| RTM 550    | Marketing and Promotion in Recreational Sport and Tourism (3) |
| RTM 684    | Advanced Research Method and Design (3)                       |
| RTM 693A   | Supervised Internship I (2)                                   |
| RTM 693B   | Supervised Internship II (2)                                  |
| RTM 697    | Directed Comprehensive Studies (2)                            |
| or RTM 698 | Graduate Project or Thesis (2)                                |

**Seminars For Recreational Sport Graduate Majors (12 units)**

|         |   |
|---------|---|
| RTM 520 | Trends and Issues in Recreational Sport (3)               |
| RTM 560 | Facility Design in Recreational Sport (3)                 |
| RTM 600 | Law, Risk Management and Ethics in Recreational Sport (3) |
| RTM 620 | Organizational Theory in Recreational Sport (3)           |

**Seminars For Hospitality, Travel And Tourism Graduate Majors (12 units)**

|         |   |
|---------|---|
| RTM 510 | Trends and Issues in Hospitality and Tourism (3)                          |
| RTM 530 | Cultural Aspects and Global Perspectives in Tourism (3)                   |
| RTM 580 | Seminar in Tourism Planning: A Cultural and International Perspective (3) |
| RTM 610 | Sustainable Tourism (3)   |

**2. Electives (3 units, according To specialization)**

To be chosen with the approval of the Graduate Faculty Advisor.

**Course List****RTM 150. Introduction to Outdoor Education in the Back Country (1)**

*Prerequisite: Restricted to Kinesiology Majors.* Introduction to safe back country camping and travel, including elements of trip preparation; cross-country navigation; effects of environmental conditions of cold, heat and altitude on the human body; and nutrition and environmental hazards. Emphasis on safety, environmental awareness and minimizing environmental impact. Arranged field trips are required.

**RTM 151A. Backpacking (2)**

Introduction to backpacking as an outdoor pursuit. Emphasis on proper use of equipment and safety of participants in the natural environment. This course is designed to give students a general overview of and experience in backpacking and spending time in the back country. Arranged field trips are required.

**RTM 151B. Rock Climbing and Mountaineering (2)**

Basic elements of rock climbing, mountaineering and alpine travel will be examined, including climbing ethics, fitness and the physiological effects of environmental stress and work at high altitudes. Emphasis will be on safety, proper use of equipment, climbing technique and minimizing impacts on the natural environment. Arranged field trips are required.

**RTM 151C. Winter Mountaineering (2)**

Advanced instruction in mountaineering and travel in the back country, with particular emphasis on snow and ice climbing, avalanche prediction, physical effects of high altitudes and winter camping skills. Emphasis is on technique, proper use of equipment, environmental practices and safety. Arranged field trips are required.

**RTM 151D. Flat-Water Boating (2)**

Introduction to safe travel by kayak or canoe on lakes, rivers and oceans. Includes equipment, navigation and techniques for flat-water boating and emergency self-rescue. Emphasis will be on safety, environmental awareness and skill development. Arranged field trips are required.

**RTM 151E. Whitewater Boating (2)**

Advanced instruction on travel by kayak, canoe or raft on lakes, rivers or oceans. Includes techniques for whitewater boating, analysis of water hydraulics, equipment, navigation and emergency self-rescue. Emphasis will be on safety, environmental awareness and skill development. Arranged field trips are required.

**RTM 151F. Survival (2)**

Studies in the skills essential for wilderness survival in a variety of physical environments. Includes topics of shelters, water, navigation and edible plants and animals. Emphasis on techniques with primitive technologies, environmental conservation and safety. Arranged field trips are required.

**RTM 151G. Challenge/Ropes Courses (2)**

Introduction to the safe operation of challenge/ropes course activities for outdoor experience. Emphasis on proper use of equipment and safety of both high- and low-component challenge courses. This course is designed to give students a general overview of and experience in the practice of group challenges utilizing initiatives and high ropes elements. Arranged field trips are required.

**RTM 151H. Caving (2)**

Introduction to the safe exploration of caves and the underground environment, including cave formations and features, techniques and special hazards. Emphasis on safety techniques for horizontal and vertical caves, environmental awareness and skill development. Arranged field trips are required.

**RTM 202/L. Planning Programs and Events for Recreation****Experiences and Lab (2/1)**

*Prerequisite: Lower Division writing requirement; Corequisite: RTM 202L.* Overview of the program- and event-planning processes as they relate to the provision of human and leisure services through play, recreation and leisure experiences for a variety of service recipients and settings. Lab experiences applying skills and principles addressed.

**RTM 204. Introduction to Recreation Therapy (3)**

Study of the nature and function of recreation in a variety of agencies and settings. Overview of the physical, cognitive, affective and social characteristics of a variety of individuals with special needs, with emphasis on planning and adapting recreation programs both in clinical and community/inclusive settings. Participation in field work is required.

**RTM 251. Recreation and the Natural Environment (3)**

Study of recreational use of outdoor/natural areas and the trends creating changing patterns of use. Overview of human, animal and vehicular impacts on the outdoor recreation resources. (Available for General Education, Applied Arts and Sciences.) (1C)

**RTM 265. Water Skiing and Wakeboarding (1)**

*Prerequisite: Basic swimming skills.* Develops proficiency in water skiing skills, including wakeboarding, with an emphasis on safety and the proper use of equipment.

**RTM 267/L. Sailing and Lab (1/1)**

*Prerequisite: Elementary swimming skills. Corequisite: RTM 267L.* Development of the skills and art of sailing, including the development of basic seamanship, small boat handling competency, safety procedures and regulations and introductions to competitive sailing and ocean cruising. 1 hour lecture, 2 hours lab per week.

**RTM 278. Recreation and Leisure in Contemporary Society (3)**

Investigation of the contributions of play, leisure and recreation to the social, psychological and economic well-being of individuals and groups, incorporating local, regional, national and international perspectives. Regular written assignments are required. Recreation and Tourism Major requirement. (Available for General Education, Lifelong Learning.)

**RTM 280. Organizing Campus Recreation and Sport (3)**

Overview of the concepts and applications for effective campus recreation and sport programming and administration. Of value to current and future leaders in the field of campus recreation and sport. Includes specific field observation experiences.

**RTM 294CS/L. Recreation Service Learning Theory and Practicum and Lab (1/2)**

*Corequisite:* RTM 294CSL. Service learning theory applied to the design, coordination, leadership, implementation and evaluation of activities addressing the needs of campus and community-based individuals and groups, primarily in the greater Los Angeles area, coordinated by a Department faculty member. Offers a community service opportunity with activities relating to concepts and theories presented in the course.

**RTM 296A-Z. Experimental Topics Courses in Recreation and Tourism Management (1-3)**

Experimental courses in recreation and tourism management, with course content to be determined.

**Upper Division****RTM 300. Recreation and Community Development (3)**

*Prerequisite:* Lower Division writing requirement. Examination of the multicultural dynamics of urban life, and recreation's role in building community and in developing youth capacity and indigenous leadership.

**RTM 302. Dynamics of Leadership in Recreation and Human Services (3)**

*Prerequisites:* Lower Division writing requirement. Includes an analysis of personal leadership theory and small-group dynamics and a review of classic leadership studies, with emphasis on leadership values and methods, including group dynamics, communication, decision making and motivation. Emphasis on competencies and skills needed for successful leadership of small groups. Experiential components are an integral part of class design. Field trip experiences required.

**RTM 303. Promotion of the Recreation Experience (3)**

Interpretation and promotion of recreation programs and services through the use of media processes and resources, marketing principles and computer applications.

**RTM 304. Entrepreneurial Ventures in Recreation and Human Services (3)**

Analysis of approaches and techniques necessary to initiate an entrepreneurial start-up in the recreation and human service arenas. Topics include the nature of entrepreneurialism, development of a business plan, organization of the enterprise, financial and operations management, and computer applications.

**RTM 305. Dynamics of Early Childhood Play (3)**

Study of play in relation to the child's early growth and development. Implications for functional, environmental and leadership dimensions of organized play experiences in early years. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the Schedule of Classes for the CS Designation.

**RTM 310/L. Adventure Recreation and Human Relations and Lab (2/1)**

*Prerequisite:* Lower Division writing requirement. *Corequisite:* RTM 310L. Introduction to personal growth and adventure. Explores issues of identity, racial and ethnic diversity, gender and self-esteem through readings, written assignments and recitation. Regular written assignments required. Lab: Introduction to adventure recreation and diversity issues through group initiatives and participation in a shared adventure of ropes course activities. (Available for General Education, Lifelong Learning.) (IC)

**RTM 314. Leisure Aspects of the Hospitality Industry (3)**

Study of the leisure experience in the context of the hospitality industry. A systems approach is used to study the design and organization of components of the hospitality industry intended to achieve leisure and recreation outcomes for guests and visitors.

**RTM 330. Women, Leisure and Ethnicity in the United States (3)**

*Prerequisite:* Lower Division writing requirement. Examines the relationship among women, ethnicity and leisure. Provides opportunities to investigate a variety of factors affecting women in the U.S. Regular written assignments required. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the Schedule of Classes for the CS Designation. (Available for General Education, Comparative Cultural Studies.)

**RTM 351. Outdoor and Environmental Education (3)**

Study of outdoor educational philosophy and methods as they apply to the outdoor educator. Includes the history, development and basic principles of outdoor/ environmental education, but emphasizes strategies for teaching, interpreting and program planning in outdoor environments.

**RTM 352. Play and Human Potential (3)**

*Prerequisite:* Lower Division writing requirement. Examination of the play phenomenon across the lifespan. Exploration, analysis and evaluation of the play phenomenon in development of human potential. Regular written assignments are required. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the Schedule of Classes for the CS Designation. (Available for General Education, Lifelong Learning.) (IC)

**RTM 353/L. Literature of the Wilderness Experience and Lab (2/1)**

*Prerequisite:* Lower Division writing requirement. *Corequisite:* RTM 353L. Review of the writings of various wilderness adventurers both past and present (such as Boone, Powell, Muir, Leopold and Abbey). Emphasis on assessing their experiences in the wilderness, their goals and their methods. Regular written assignments are required. Lab: Allows students to personally experience some of the values of wilderness environments discussed in RTM 353. In addition, students develop personal goals (such as those sought by previous wilderness adventurers) to be achieved on arranged field trips to wilderness areas. (Available for General Education, Lifelong Learning.)

**RTM 375A. Recreation Therapy Practices and Adaptive Techniques (3)**

*Prerequisite:* RTM 204. *Corequisite:* RTM 375B. Study and basic application of therapeutic approaches and adaptations of appropriate recreation therapy activities for diverse special needs populations. Participation in field work is required.

**RTM 375B. Recreation Therapy Leadership and Programming (3)**

*Prerequisite:* RTM 204. *Corequisite:* RTM 375A. Study and application of teamwork, leadership, group dynamics and programming with diverse special needs populations. Participation in field work and arranged field trip is required.

**RTM 396A-Z. Experimental Topics Courses in Recreation and Tourism Management (3)**

Experimental courses in recreation and tourism management, with course content to be determined.

**RTM 398A. Supervised Individual Projects (1-1)**

Study and research in selected areas, with course content to be determined by faculty and student.

**RTM 402. Models of Play, Leisure and Recreation (3)**

Examines the historical, theoretical and philosophical foundations of play, leisure and recreation and their relevance to the professional today. Explores how play theory and philosophy impact the provision of service to individuals across the lifespan and with diverse needs.

**RTM 403. Evaluation Research in Recreation and Human Services (3)**

Investigation into the fields and methods of recreation and leisure systems, including special techniques and concepts of research as applicable to these systems.

**RTM 405. Play and the Exceptional Child (3)**

Alternative approaches to traditional play techniques for the exceptional child.

**RTM 406/L. Enhancing Childhood Creativity and Lab (2/1)**

*Corequisite:* RTM 406L. Integrative seminar and lab experience focusing on the theoretical approaches for enhancing childhood creativity. The uses of play and fantasy are explored as the means for developing programs that are child-oriented. Regular written assignments are required. (Cross listed with CADV 406/L.)

**RTM 415. Leisure and Aging (3)**

Study of the psycho-social aspects of aging as related to leisure and recreation. Implications for functional environmental and leadership dimensions of leisure and recreation experiences in the later years. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the Schedule of Classes for the CS Designation.

**RTM 444. Non-Profit Organizations and Fund-Development in Leisure and Human Services (3)**

Historical survey of the development of the volunteer movement and its leisure function in American society; theory of voluntary participation and philanthropy; structure and function of volunteer boards; and analysis of fund-raising organization and techniques.

**RTM 475. Recreation Therapy Process Management (3)**

*Prerequisites:* RTM 204, 375A, 375B. In-depth approach to recreation therapy treatment/care plan and protocol development. Examination of management issues related to recreation therapy. Case studies utilized throughout the course. Participation in field work is required.

**RTM 480. Recreational Tourism: Issues and Trends (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Study of the phenomena of domestic and international recreational tourism. Emphasis on investigating and understanding the variables that impact recreational tourism and travel destination areas. Regular written assignments are required.

**RTM 490. Challenges in Leisure Services Seminar (3)**

Analytical approach to theories and principles of recreation, leisure and play as they relate to field observations and practical applications.

**RTM 494A-C. Supervised Internship (1-3)**

*Prerequisite:* Senior standing. Supervised internship in professional recreation settings. (Credit/No Credit only)

**RTM 496A-Z Experimental Topics Courses in Recreation and Tourism Management (3)**

Experimental courses in recreation and tourism management, with course content to be determined.

**RTM 498A-B. Field Assignment and Reports (1-2)**

Analysis and reports of the student's study project in a field site location.

**RTM 499A-C. Independent Study (1-3)****Graduate Courses****RTM 510. Trends and Issues in Hospitality and Tourism (3)**

*Preparatory:* RTM 314 or 480. Addresses current trends and future projections in the industry, from multiple perspectives—economic, psychological, cultural and social.

**RTM 520. Trends and Issues in Recreational Sport (3)**

Identification and analysis of current trends, challenges and issues that affect management of recreational sport facilities and programs. An examination of history of the profession, current professional and research issues, along with anticipation and preparation for the future.

**RTM 530. Cultural Aspects and Global Perspectives in Tourism (3)**

*Preparatory:* RTM 314 or 480. Addresses issues culture as it is affected by tourism. We will examine issues of authenticity, co modification of culture and the interaction of hosts and guests in different contexts, ranging from the industrialized world to developing countries.

**RTM 540. Human Resources in Recreational Sport and Tourism (3)**

Provides an understanding and application of key concepts/practices in human resource management as related to the recreational sport and tourism industries.

**RTM 550. Marketing and Promotions in Recreational Sport and Tourism (3)**

An in-depth study of the theory and application of marketing and promotions as they related to the recreational sport and tourism industries.

**RTM 560. Facility Design in Recreational Sport (3)**

Investigation of principles of design, planning, management and operation of recreational sport facilities. Students will be introduced to facility and event management, facility components, specifications, recreation spaces, specialty areas and facility trends.

**RTM 561. Seminar in Recreation and Sport Theory and Management (3)**

Advanced study of contemporary problems involved in the administrative organization of leisure service and sport management agencies.

**RTM 570. Futures Research and Planning for Leisure Services (3)**

In-depth investigation into futures literature and research designs and methodologies, and how they relate to recreation and leisure services planning for the future.

**RTM 580. Seminar in Tourism Planning: A Cultural and International Perspective (3)**

Analysis and evaluation of the impact of historical tourism planning trends and their influence on human services and quality-of-life issues. Advanced study of the application of contemporary tourism planning models.

**RTM 595A-Z. Experimental Topics Courses (1-3)****RTM 600. Law, Risk Management and Ethics in Recreational Sport (3)**

Exploration of legal principles, risk management and ethics affecting the management of recreational sport programs. Emphasis will be placed on the rules of law, negligence and risk management theory, constitutional law, contracts and legislation.

**RTM 602. Theoretical Foundations of Leisure and Play (3)**

In-depth investigation into the theoretical foundations basic to the profession of leisure and play, and an analysis of current issues from the perspective of these diverse theoretical positions.

**RTM 608. Consultation in Leisure Services (3)**

Theory, analysis and application of concepts and strategies of consultation as applied to leisure service personnel working in field settings. In-depth exploration of the application of consulting techniques to practical situations.

**RTM 610. Sustainable Tourism (3)**

*Prerequisite: RTM 314 or 480.* Addresses issues of sustainability as they pertain to tourism. Traditionally, tourism has operated with a short-term perspective and has been largely consumptive in nature. Students will learn and understand the issues of sustainability and how ecotourism principles are or are not effective in certain regions.

**RTM 620. Organizational Theory in Recreational Sport (3)**

Application of organizational theory in the context of the recreational sport industry.

**RTM 642. Seminar in Current Issues and Trends in Therapeutic Recreation (3)**

*Prerequisite: Completion of undergraduate course work in recreation therapy.* Comprehensive study and analysis of the issues and trends affecting the delivery of therapeutic recreation in clinical and community settings.

**RTM 644. Seminar in Evaluation and Documentation in Therapeutic Recreation (3)**

*Prerequisite: Completion of undergraduate course work in recreation therapy.* Comprehensive study and analysis of evaluation and documentation methods related to the delivery of therapeutic recreation services.

**RTM 665. Inter-Organizational Strategies for Leisure Agencies (3)**

Study of leisure agencies and their relationships within communities and through various levels of organization. Emphasis on the strategies for sharing scarce resources.

**RTM 684. Advanced Research Method and Design (3)**

*Prerequisite: RTM 403 or equivalent.* Application of research techniques to recreation and parks problems. Procedures in collection, analysis and presentation of data, and utilization of findings. Lecture-lab.

**RTM 693A. Supervised Internship I (2)**

*Prerequisite: Instructor consent.* First of 2 supervised internships requiring completion of 200 hours in an approved setting in recreational sport management or hospitality, travel and tourism. The supervised internship is designed to provide a hands-on learning experience in management of recreational sport or tourism. The internship will be used as a basis for the culminating Graduate Project or Thesis to be completed during the last semester of enrollment in the Graduate Program.

**RTM 693B. Supervised Internship II (2)**

*Prerequisite: Instructor consent.* Second of 2 supervised internships requiring completion of 200 hours in an approved setting in recreational sport management or hospitality, travel and tourism. The supervised internship is designed to provide a hands-on learning experience in management of recreational sport or tourism. The second internship should expand and provide further growth based on the first internship experience, whether that be in the same organization or a different one. The internship will be used as a basis for the culminating Graduate Project or Thesis to be completed during the last semester of enrollment in the Graduate Program.

**RTM 697. Directed Comprehensive Studies (2)**

This course is for students to enroll in during the preparation and examination phase of their M.S. Degree. This course will allow students to review and synthesize the information learned during the program, reflect and assess the level of mastery attained, prepare preparatory case studies and complete their Culminating Examination. Students will be expected to develop links between the various courses and, during the course of the exam, apply this integrated information to develop answers to current problems in the field. (Credit /No Credit only)

**RTM 698. Graduate Project or Thesis (2)**

*Prerequisite: Instructor consent.* Culminating experience for the Graduate Degree. Planning, preparation and completion of a Graduate Project or Thesis on an advanced topic in the field of recreational sport management or hospitality, travel and tourism.

**RTM 699. Independent Study (1-3)**

*Prerequisite: Consent of Graduate Coordinator.* Intensive investigation into the area of specialization.

# Religious Studies

College of Humanities

**Chair:** Rick Talbott

Santa Susana Hall (SN) 224

(818) 677-3392

[www.csun.edu/religious.studies](http://www.csun.edu/religious.studies)

## Staff

Linda Jones, Jennifer Elliott

## Faculty

Amanda Baugh, Phyllis Herman, Linda Lam-Easton, Kenneth Lee, Jody Myers, Mutombo Nkulu-N'Sengha, Mustafa Ruzgar, Rick Talbott, Claire White

## Emeritus Faculty

James Goss, Howard Happ, John Hartzog, William Kramer, Mokusen Miyuki, Thomas T. Love, Patrick Nicholson, Robert D. Shofner

## Programs

Undergraduate:

**B.A., Religious Studies**

**Minor in Religious Studies**

## The Major

The Religious Studies Major is designed to provide a liberal arts education with an emphasis on the critical study of religious phenomena. The Religious Studies Major provides an excellent basis from which to pursue careers requiring imagination, problem-solving and communication skills, and awareness of human diversity.

## Scholarships and Awards

The John Cummings Memorial Scholarship and the Stephen J. Svec Memorial Scholarship are available to Majors.

## Careers

A Degree in Religious Studies builds skills in critical thinking and writing, critical historical analysis, socio-cultural analysis and comparative analysis of the "other," and equips students for many areas in the academic, business, social services, law, medicine and professional spheres. Religious Studies Majors have pursued careers in government, business, education, communications, human services and law.

## Academic Advisement

The Religious Studies Department helps students select the program and courses that best satisfy their individual needs and interests. Contact Department Chair Rick Talbott at (818) 677-3392 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a Major or Minor in Religious Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

## Student Learning Outcomes of the Undergraduate Program

A Religious Studies Major will be able to:

1. Interpret religious texts;
2. Think both empathetically and critically about conflicting religious claims;
3. Acquire knowledge of the history of more than 1 major religious tradition;
4. Apply intercultural methods to religious inquiry and analysis; and
5. Articulate a perception of one's role in society, in both career and public-service options.

## Requirements for the B.A. Degree in Religious Studies

### 1. Lower Division Required Courses (6 units)

Select 2 courses from the following:

|    |     |  |
|----|-----|--|
| RS | 100 | Introduction to Religious Studies (3)      |
| RS | 101 | The Bible (3)                              |
| RS | 150 | World Religions (3)                        |
| RS | 160 | Religion in Western Civilization (3)       |
| RS | 240 | Approaches to the History of Religions (3) |

### 2. Upper Division (36 units)

**Required Junior-level Course (3 units)**

|    |     |  |
|----|-----|--|
| RS | 395 | Theory and Method in Religious Studies (3) |
|----|-----|--|

**Religion in the United States (6 units)**

Select 2 courses from the following:

|    |     |                                  |
|----|-----|----------------------------------|
| RS | 305 | American Sects and Cults (3)     |
| RS | 306 | American Religious Diversity (3) |
| RS | 307 | Religion in America (3)          |
| RS | 308 | Native American Religions (3)    |
| RS | 378 | American Jewish Experience (3)   |

**Religious Traditions (9 units)**

Select 3 courses from the following:

|    |     |                                  |
|----|-----|----------------------------------|
| JS | 300 | Humanities in Jewish Society (3) |
| RS | 345 | Christianity (3)                 |
| RS | 365 | Islam (3)                        |
| RS | 380 | Asian Religions (3)              |
| RS | 385 | Hinduism (3)                     |
| RS | 390 | Buddhism (3)                     |
| RS | 426 | Taoism (3)                       |

**Sacred Texts of the World (3 units)**

Select 1 course from the following:

|    |     |                                  |
|----|-----|----------------------------------|
| RS | 320 | Hebrew Bible (Old Testament) (3) |
| RS | 325 | New Testament (3)                |
| RS | 327 | Teachings of Jesus (3)           |
| RS | 375 | Classical Judaic Texts (3)       |
| RS | 383 | Asian Religious Texts (3)        |
| RS | 384 | Approaching the Qu'ran (3)       |

### 3. Upper Division electives (12 units)

Choose from any Upper Division Religious Studies courses through consultation with an advisor. 2 years of the study of a foreign language at the University-level (or its equivalent) may be used for one 3-unit elective in the Major. Students may apply a Topics in Religion course (RS 396A-Z) to the appropriate category listed above. Consult with the Department Chair for approval.

### 4. Proseminar RS 497B (3 units)

## Requirements for the B.A. Degree with Religious Studies as the Second Major

### 1. Lower Division Required Courses (3 units)

Select 1 course from the following:

|    |     |  |
|----|-----|--|
| RS | 100 | Introduction to Religious Studies (3)      |
| RS | 101 | The Bible (3)                              |
| RS | 150 | World Religions (3)                        |
| RS | 160 | Religion in Western Civilization (3)       |
| RS | 240 | Approaches to the History of Religions (3) |

### 2. Upper Division (33 units)

**Required Junior-level Course (3 units)**

|    |     |  |
|----|-----|--|
| RS | 395 | Theory and Method in Religious Studies (3) |
|----|-----|--|

**Religion in the United States (6 units)**

Select 2 courses from the following:

|    |     |                                  |
|----|-----|----------------------------------|
| RS | 305 | American Sects and Cults (3)     |
| RS | 306 | American Religious Diversity (3) |
| RS | 307 | Religion in America (3)          |

- RS 308 Native American Religions (3)  
 RS 378 American Jewish Experience (3)

#### Religious Traditions (9 units)

##### Select 3 courses from the following:

- JS 300 Humanities in Jewish Society (3)  
 RS 345 Christianity (3)  
 RS 365 Islam (3)  
 RS 380 Asian Religions (3)  
 RS 385 Hinduism (3)  
 RS 390 Buddhism (3)  
 RS 426 Taoism (3)

#### Sacred Texts of the World (3 units)

##### Select 1 course from the following:

- RS 320 Hebrew Bible (Old Testament) (3)  
 RS 325 New Testament (3)  
 RS 327 Teachings of Jesus (3)  
 RS 375 Classical Judaic Texts (3)  
 RS 383 Asian Religious Texts (3)  
 RS 384 Approaching the Qu'ran (3)

### 3. Upper Division Electives (9 units)

Choose from any Upper Division Religious Studies courses through consultation with an advisor. 2 years of the study of a foreign language at the University-level (or its equivalent) may be used for one 3-unit elective in the Major. Students may apply a Topics in Religion course (RS 396A-Z) to the appropriate category listed above.. Consult with the Department Chair for approval.

### 4. Proseminar RS 497B (3 units)

|  |       |
|--|-------|
| Total Units in the Major                               | 42    |
| Total Units with Religious Studies as the Second Major | 36    |
| General Education Units                                | 48    |
| Additional Units                                       | 30-36 |
| Total Units Required for the B.A. Degree               | 120   |

## Minor in Religious Studies

### 1. Lower Division Required Course (3 units)

#### Choose 1 course from the following:

- RS 100, 101, 150, 160, 240

### 2. Upper Division Required Courses

#### Religion in the United States (3 units)

##### Choose 1 course from the following:

- RS 305, 306, 307, 308, 378

#### Current Issues in Religion (3 units)

##### Choose 1 course from the following:

- RS 300, 302, 303, 304, 310, 311, 313, 356, 361, 370

#### Sacred Texts of the World (3 units)

##### Choose 1 course from the following:

- RS 320, 325, 327, 375, 383, 384

#### Religious Traditions (6 units)

##### Choose 2 courses from the following:

- JS 300  
 RS 345, 365, 380, 385, 390, 426

With approval of the Department advisor, students may apply an Experimental Topics in Religion course (RS 396A-Z) to the appropriate category listed above.

## Courses of Study

### RS 100. Introduction to Religious Studies (3)

Study of the elements of religion and selected contemporary religious issues. Examines such subjects as myth and ritual, the sacred and profane, dreams and theophanies, priests and prophets, science and religion, history and religion, and the expansion of religion today. (Available for General Education, Arts and Humanities.)

### RS 101. The Bible (3)

Survey of the basic content and major themes of the Hebrew Bible (Old Testament), New Testament and Apocryphal writings. (Available for General Education, Arts and Humanities.)

### RS 150. World Religions (3)

Study of selected major world religions, with emphasis on tribal religions and the historic international faiths of Asia and the Near East. Investigates rituals, ethics, institutional structures and the cultural ethos of religions, as well as their myths, doctrines and sacred texts. (Available for General Education, Comparative Cultural Studies.)

### RS 160. Religion in Western Civilization (3)

Study of the role of religion in Western civilization from the Stone Age to the Renaissance. (Available for General Education, Comparative Cultural Studies.)

### RS 204. Religion, Logic and the Media (3)

This course introduces and guides students in the practical use of the basic concepts of deductive logic as a dimension of critical reasoning. Using these concepts, students will discuss, analyze and critique statements that appear in the media (in the U.S. and elsewhere) that have been expressed by religious people and by the media itself. (Available for General Education Basic Skills, Critical Thinking.)

### RS 240. Approaches to the History of Religions (3)

An investigation of major and selected religions around the world using social-scientific methods from history, sociology, political science and anthropology. Students learn why various religions change over time and how they interact with their particular social and cultural environments. Examples are taken from ancient and modern religions, and from major and tribal religions, including new religious cults. (Available for General Education, Social Sciences.)

### RS 250. Values in World Religions (2)

Designed for students in the Integrated Teacher Education Program. Examines the variety of human values embedded in the world's religions by investigating such areas as beliefs in god(s), holidays and festivals, and rites of passage. Special emphasis on the place of teaching about religion in the public schools.

### RS 255. American Political Institutions and Religion (3)

Examination of the development of U.S. and California political ideals, institutions and processes. The course focuses on the religious elements within political ideals, religious freedom, the relation between religion and state, and the role of religion in the public forum, including both politics and public education. (Meets GE Title 5 U.S. Constitution and State and Local Governments.)

### RS 296A-Z. Experimental Topics Courses in Religious Studies (3)

Selected topics in religious studies, with course content to be determined.

## Upper Division

General prerequisite: Students in Upper Division courses are expected to have competence in Religious Studies or in related areas. Satisfaction of this prerequisite is to be determined in consultation with an advisor. Regular written assignments are required.

**RS 301. Religious Ethics: History and Interpretation (3)**

Examination of religious ethics in the West to the 19th century.

**RS 303. Religion and Personality (3)**

Study of religion in relation to modern psychological, psychoanalytic and psychotherapeutic views of man.

**RS 304. Women and Religion (3)**

Examination of religious views of women in oral and literary cultures, focusing on the roles, symbols and concepts of women within an international and historical framework. Also addresses women's own perspectives on religion, as reflected in historical sources and in contemporary theology and religious life. (An Information Competence course. Available for General Education, Arts and Humanities.) (IC)

**RS 305. American Sects and Cults (3)**

Survey of some marginal religious groups in America. Presentation, analysis and critique of the classic church/sect/cult typology, including how these theories apply to actual groups and how groups maintain beliefs when rejected by dominant cultures.

**RS 306. American Religious Diversity (3)**

Survey of the religion of groups in America who are marginal to or outside of the historically dominant mainstream Protestant and civil religion ethos. An Information Competence course. Available for General Education, Comparative Cultural Studies.) (IC)

**RS 307. Religion in America (3)**

The study of the influence of religious traditions on the formation of American culture and the modification of religious traditions by the American context. Also addresses major American religious thinkers and movements, and religion's role in shaping American thought, literature and ethos. (Available for General Education, Arts and Humanities.)

**RS 308. Native American Religions (3)**

Seeks to understand the religions of Native Americans in their respective tribal contexts. Inquires to what extent a common religious outlook existed among the cultures occupying what is presently the U.S.

**RS 310. Religion and Literature (3)**

Study of literature to discover to what extent a religious tradition or the lack of one influences an author's understanding of human existence. Writers who reflect religious traditions, as well as those who are informed by humanism or atheism, are read and interpreted. (Available for General Education, Arts and Humanities.)

**RS 311. Religion and Film (3)**

Examines how film artists address the major religious issues of our time, including the nature of reality, sources of transcendence, the nature of good and evil in the self and society, and the possibilities of renewal and hope.

**RS 313. Religion and Art (3)**

Study of religion as portrayed in the fine and folk arts, emphasizing the role of the artist as interpreter of the great events and personalities of religious traditions.

**RS 320. Hebrew Bible (Old Testament) (3)**

Study of the literature and religion of ancient Israel through the Hellenistic period.

**RS 325. New Testament (3)**

Study of the New Testament and its religious thought in context.

**RS 327. Teachings of Jesus (3)**

Literary and social analysis of the teachings of Jesus.

**RS 345. Christianity (3)**

Eastern Orthodox, Roman Catholic, Protestant and non-traditional forms of Christianity compared and contrasted with one another in their historical and social contexts.

**RS 350. Religion, Violence and World Peace (3)**

Study of ways in which sacred texts and religious teachings function paradoxically as a justification of violence as well as a fundamental wisdom that curbs violent impulses, fosters resistance to forces of oppression and exploitation, and advocates for peace and social harmony. (Available for General Education, Comparative Cultural Studies.)

**RS 355. Mysticism (3)**

Study of mysticism as a distinct religious phenomenon and a major category of religious experience. To understand its character, it may be studied either within the great Western religious traditions (Judaism, Islam, Christianity) or cross-culturally.

**RS 356. Contemporary Religious Thought (3)**

Study of selected major writings in religious thought, with the aim of analyzing representative modern approaches to such questions as God and the world, faith and self-understanding, and belief and social consciousness. (Available for General Education, Arts and Humanities.)

**RS 361. Contemporary Ethical Issues (3)**

Emphasizes the development of skills in critical thinking through analysis of such contemporary ethical issues as abortion, euthanasia, genetic engineering, sexual behavior, racism, gender bias, punishment, animal rights, the environment and the relationships between religion and morality. (Available for General Education, Arts and Humanities.)

**RS 363. Islam in the Modern World (3)**

Introduction to the contemporary Islamic religious tradition. Focus on contemporary Muslim religiosity and activity both within the U.S. and in an international setting.

**RS 365. Islam (3)**

Study of the varieties of Islamic civilization in their social contexts. (Available for General Education, Comparative Cultural Studies.)

**RS 370. Religion and Ecology (3)**

This course examines how religious beliefs and practices contribute to humans' protection, utilization and/or damage of the natural world. Students explore the resources for environmental sustainability within at least 2 world religious and in new "green" theologies, nature mysticism and radical environmentalism. particular attention will be paid to land and food ethics and issues of gender, race and class. (Available for General Education, Arts and Humanities.)

**RS 373. Korean Christianity (3)**

A study of the history of Christianity in Korea, its rapid growth and development within a multi-religious context, and the cultural, racial, gender and generational factors that exist among first- and second-generation Korean Christians in America.

**RS 375. Classical Judaic Texts (3)**

Examination of the great ideas and issues of ancient and medieval Judaism as reflected in its cultural tradition.

**RS 377. The Holocaust: Religious Responses (3)**

Examines several classic religious explanations for the tragic destruction of the Jews. Also studies contemporary responses to the Holocaust on the part of Jewish and Christian theologians, churches and individual artists.

**RS 378. American Jewish Experience (3)**

Seeks to describe the experience of the Jewish religion-ethnic community in America with reference to its own historic background and development, and the relationship of the community to the general American culture and to other particular subcultures or ethnic groups. Emphasizes distinctive Jewish values and customs, and evaluates their contribution to American culture. Studies contrasts between religious and secular understandings of Jewishness, between different strands of Jewish immigration, and between Jewish experience in different regions of the U.S. An Information Competence course. Available for General Education, Comparative Cultural Studies.) (IC)

**RS 379. Zionism: Religious and Secular (3)**

Analyzes the religious, intellectual and historical forces that have shaped Zionist thought, and includes an examination of the continuing debate over the meaning of Zionism and its practical implementation.

**RS 380. Asian Religions: Communal Traditions and Transitions (3)**

Explores Asian religions by comparing human and divine religious figures cross-culturally. Comparison of the figures from the various cultures provides a method to understand the nature of humanity and divinity in Asia. (Available for General Education, Comparative Cultural Studies.)

**RS 383. Asian Religious Texts (3)**

Explores Asian religions by comparing the primary sacred texts of Asian cultures. Sacred texts upon which Asian religious expressions are based are examined in the specific cultural contexts of Japan, China and India by a reading of primary texts. Comparison of the texts from the various cultures allows the generation of a model of Asian religious order and answers problems concerning the nature of sacrality in Asia.

**RS 384. Approaching the Qur'an (3)**

A historical, thematic and analytical study of the Qur'an both in its content and form, with substantial focus on the Qur'an as a source of information in various disciplines in the light of traditional and contemporary methods of interpretation.

**RS 385. Hinduism (3)**

Study of the religious life of India from the Indus Valley civilizations to the modern period. (Available for General Education, Comparative Cultural Studies.)

**RS 390. Buddhism (3)**

Study of the fundamental concepts in Theravada and Mahayana Buddhism (e.g., nirvana, enlightenment, karma, dharma). Examines the historic development of these concepts in their various Asian cultural and geographic settings. An Information Competence course. Available for General Education, Comparative Cultural Studies.) (IC)

**RS 395. Theory and Method in Religious Studies (3)**

Examines modern attempts to study religion objectively from the Western Enlightenment to the present, exploring and criticizing theories and methods from anthropology, sociology, feminist hermeneutics, evolutionary psychology and the history of religions.

**RS 396A-Z. Experimental Topics Courses in Religious Studies (3)**

Selected topics in religious studies, with course content to be determined.

**RS 437. Pauline Letters**

Literary and social scientific analysis of the Pauline Letters.

**RS 426. Religions of China: Taoism (3)**

Study of Taoist experience and thought.

**RS 450. Death and Dying in the World's Religions (3)**

Cross-cultural look at death and dying in several different religious traditions. The first half of the course specifically examines issues of death and dying (as well as issues of life and living) in these traditions. Studies address both beliefs and practices. The second half examines where these different traditions interact and how they affect the lives and deaths of men, women and children.

**RS 476. Modern Jewish Thought (3)**

Examination of the great ideas and issues of modern Judaism as reflected in its cultural tradition and as represented in mystical literature, autobiographies, poetry and essays from Zionist and modern religious movements.

**RS 497. Proseminar in Religious Studies (3-3)**

Reading and discussion in a specific field or on a specific topic in a small group. May be repeated for credit.

**RS 498. Tutorial in Religious Studies (3-3)**

Reading and discussion in a specific field or on a specific topic in a small group. May be repeated for credit.

**RS 499. Independent Study (1-3)**

## Graduate

---

**RS 699. Independent Study (1-3)**

Investigation of a significant problem in religious studies. Project selected in conference with faculty sponsor and with approval of the Department Chair.

## Science and Mathematics, College of

Dean: Jerry Stinner

Associate Deans: Robert Espinoza, David Gray

(818) 677-2004

[www.csun.edu/~hfsnm011](http://www.csun.edu/~hfsnm011)

### Course List

---

#### SCI 100. Science for Life (3)

This course gives college students the skills and knowledge to promote success and instill lifelong learning with emphasis in science, mathematics and technology. The course will provide students with tools to examine their personal, academic and career choices through introspection, consultation, discussion, experimentation and traditional classroom exercises using examples from the natural world. The course is suggested for freshmen in science-based majors or those exploring these majors. (Available for General Education, Lifelong Learning.) (IC)

## Secondary Education

Michael D. Eisner College of Education

**Chair: Mike G. Rivas**

**Education (ED) 1208**

**(818) 677-2580**

**[www.csun.edu/educ/sed](http://www.csun.edu/educ/sed)**

### *Faculty*

Carolyn Burch, Ivan Cheng, Janice Eckmier, Bonnie Ericson, Brian Foley, Julie Gainsburg, Norman Herr, Judy Lombardi, David Moguel, Alfonso Nava, Mira Pak, Clara Park, Mike Rivas, Kathleen Rowlands

### *Emeritus Faculty*

James Cunningham, Faye Louise Grindstaff, Viggo Hansen, Charles Heimler, Luis Hernandez, Linda Huetinck, Barnabas Hughes, Martin Levine, Helen Lodge, George Lorbeer, Raymond McHugh, Joanna McKenzie, Kyoko Sato, Joseph Schieffer, Christine Smith, Merwin Soyster, Ira Winn

### Programs Offered

Graduate:

**M.A., Education**

**Specialization in Secondary Education**

Credentials:

**Single Subject Preliminary Teaching Credential**

**Single Subject Credential with a Bilingual Crosscultural Language and**

**Academic Development (BCLAD) Emphasis**

**Reading/Language Arts Specialist Credential**

Certificates:

**English Learner Authorization Certificate Program: CTEL-California Teachers of English Learners**

### Department Coordinators

Secondary Student Teaching Coordinator: David Moguel;

Administrative Coordinator: Christina Perez, (818) 677-2581

Graduate Coordinator: Mira Pak, (818) 677-2181

ACT Coordinator: Carolyn Burch, (818) 677-6370

Internship Coordinators: Carolyn Burch (818) 677-6370; Jan Eckmier, (818) 677-2523

### Student Learning Outcomes of the Credential Program

Single Subject Credential Candidates will demonstrate proficiency in the major domains of the California Teaching Performance Expectations:

1. Make subject matter comprehensible for student learning.
2. Assess student learning.
3. Engage and support students in learning.
4. Plan instruction and design learning experiences for all students.
5. Create and maintain effective environments for student learning.
6. Develop as a professional educator.

### Student Learning Outcomes of the English Learner Authorization Certificate Program

Candidates will demonstrate proficiency in the major domains of the California Teachers of English Learners Certificate Program Standards:

1. Explain language structure and use.
2. Relate first- and second-language development to the academic achievement of English learners.
3. Assess the learning of English learners.
4. Plan and organize instruction for English Language Development (ELD), using a range of effective approaches and methods.
5. Plan and organize instruction for Specially Designed Academic Instruction Delivered in English (SDAIE), using a range of effective approaches and methods.

6. Describe the relationship between culture/cultural diversity and the academic achievement of English learners.

7. Plan and organize culturally inclusive instruction.

### Student Learning Outcomes of the Graduate Program

M.A. Degree Candidates will develop as professional educators who demonstrate:

1. Reflective practice by critically examining their subject knowledge, pedagogical content knowledge and pedagogical skills to improve their diverse students' learning.
2. Theoretical understanding by reading, synthesizing and evaluating educational theory and research in their field and applying research findings to their practice in diverse classroom settings.
3. Research skills by designing and conducting research ethically and effectively and presenting their findings at a professional level in oral and written forms.
4. Educational awareness by knowing current discipline-based and general educational issues and how those impact schools.
5. Leadership by influencing policy and practice in educational communities through advocacy and example.

### Master of Arts Degree in Education with a Specialization in Secondary Education

The Master of Arts Degree in Education with a Specialization in Secondary Education is designed to prepare the secondary teacher for advancement to mentor teacher, student teacher supervisor, subject matter teaching specialist, Department Chairperson or Doctoral student. School districts frequently award salary increases to teachers holding Master's Degrees, and Master's Degrees are usually required for part-time teaching at the community college or University level. M.A. Degree Options include the following:

A. Subject Specialist: English Education, Mathematics Education, Science Education or Social Sciences Education

B. Curriculum and Instruction

C. Computers and Educational Technology

D. Reading Improvement

E. Multicultural and Multilingual Education

F. Teaching and Learning (CSUN/District Joint Induction/M.A. Program)

Four components comprise the Program of studies for M.A. Degree Options A-E: (1) Department Core Courses, (2) Program Option Courses, (3) Electives, and (4) the Culminating Experience.

Up to 12 units from preliminary credential program courses may apply to some of these M.A. Degree Options.

Three components comprise the Program of studies for the M.A. Degree Teaching and Learning Program Option F: (1) Department Core Requirement, (2) Program Option Courses, and (3) Culminating Experience.

### Requirements for Admission, Secondary Education M.A.

#### Options A-E

1. Bachelor Degree or equivalent in a teaching field suitable for middle school or high school;
2. Submission of a completed Department application, including:
  - a. The names of 3 references (employer, academic reference, personal reference),
  - b. A statement of plans and objectives for graduate study or of current practice;
3. A University-approved aptitude test for graduate study (GRE or MAT) if undergraduate GPA is below 2.5;
  - a. Score at or above the 50th percentile on 1 of the 3 portions of the general test of the GRE, or
  - b. Score at or above the 50th percentile on the MAT.

For Admission Requirements for Secondary Education M.A. Degree Option F, Teaching and Learning, see below

### Requirements for Classified Status, Secondary Education M.A. Degree Options A-E

1. Cumulative undergraduate GPA of 3.0 or higher or a University-approved aptitude test for graduate study (GRE or MAT):
  - a. Score at or above the 50th percentile on 1 of the 3 portions of the general test of the GRE, or
  - b. Score at or above the 50th percentile on the MAT;
2. Passing score (8 or higher) on the Upper Division Writing Proficiency Exam;
3. Baccalaureate Degree from an accredited University

### Corequisites for Secondary Education M.A. Degree Options A-E

1. Preliminary teaching credential; and
2. Completion of 1 or more years of successful secondary school teaching.

### M.A. Degree Program for Secondary Education, Options A-E (30 units total)

#### 1. Department Core Courses (9 units)

|         |  |
|---------|--|
| SED 600 | Research in Education (3)                                |
| SED 610 | Issues in Education in Multiethnic Secondary Schools (3) |
| SED 690 | Seminar in Secondary Education (3)                       |

#### 2. Program Options (12 units)

**A. Subject Specialist:** For middle school and high school teachers of English, mathematics, science and social sciences who wish to specialize in the study of their teaching field. 2-year cohort programs in English, mathematics and science education are offered and incorporate National Board for Professional Teaching Standards portfolio activities. Candidates select Program Option courses in consultation with the graduate advisor/Program Coordinator.

#### English Education Courses (12 units)

##### Choose 12 units from the following:

|            |   |
|------------|---|
| SED 530    | The Program in Literature for Grades 6-12: Issues (3)               |
| SED 617    | Microcomputers in the Reading/Language Arts Curriculum (3)          |
| SED 625EN  | Theory and Research in the Teaching of Secondary School English (3) |
| SED 695C   | Seminar in Selected Studies: Language Arts Curriculum (3)           |
| SED 699A-C | Independent Study (1-3; up to 6 units allowed)                      |

#### Mathematics Education Courses (12 units)

##### Choose 12 units from the following:

|            |   |
|------------|---|
| SED 535MA  | Teaching Contemporary Mathematics (3)   |
| SED 619    | Application and Utility Software in the Secondary School Curriculum: Website Design (3) |
| SED 625MA  | Theory and Research in Teaching Secondary School Mathematics (3)                        |
| SED 646    | Computers in Mathematics and Science Teaching (3)                                       |
| SED 695D   | Seminar in Selected Studies Mathematics Curriculum (3)                                  |
| SED 699A-C | Independent Study (1-3; up to 6 units allowed)  |

#### Science Education Courses (12 units)

##### Choose 12 units from the following:

|         |  |
|---------|--|
| SED 618 | Computers in the Secondary School Curriculum: Multimedia (3)                                 |
| SED 619 | Application and Utility Software in the Secondary School Curriculum: Website Development (3) |

|            |  |
|------------|--|
| SED 625SC  | Theory and Research in Teaching Secondary School Science (3) |
| SED 646    | Computers in Mathematics and Science Teaching (3)            |
| SED 695B   | Seminar in Selected Studies: Science Curriculum (3)          |
| SED 699A-C | Independent Study (1-3; up to 6 units allowed)               |

#### Social Sciences Education Courses (12 units)

##### Choose 12 units from the following:

|            |   |
|------------|---|
| SED 625SS  | Theory and Research in Teaching Secondary School Social Studies (3) |
| SED 695A   | Seminar in Selected Studies: Social Studies Curriculum (3)          |
| SED 699A-C | Independent Study (1-3; up to 6 units allowed)                      |

**B. Curriculum and Instruction:** For teachers who wish to study curriculum and instruction from the perspective of the total secondary school. Candidates select Program Option courses in consultation with the graduate advisor:

#### Curriculum and Instruction Courses (12 units)

##### Choose 12 units from the following:

|            |   |
|------------|---|
| SED 514    | Computers in the Instructional Program (3)  |
| SED 521    | Literacy, Language and Learning in Multiethnic Secondary Schools (3)                  |
| SED 525xx  | Methods of Teaching in Single Subject (3)   |
| SED 618    | Computers in the Secondary School Curriculum: Multimedia (3)                          |
| SED 619    | Application and Utility Software in the Secondary Curriculum: Website Development (3) |
| SED 686    | Motivational Strategies in the Classroom (3)  |
| SED 695A-I | Seminar in Selected Studies (3)   |
| SED 699A-C | Independent Study (1-3; up to 6 units allowed)  |

**C. Computers and Educational Technology:** For teachers in all academic areas who wish to develop expertise with instructional uses of the computer. Candidates select Program Option courses in consultation with the graduate advisor/Program Coordinator. A two-year cohort program is offered.

#### Computers and Educational Technology Courses (12 units)

##### Choose 12 units from the following:

|            |   |
|------------|---|
| SED 514    | Computers in the Instructional Program (3)  |
| SED 617    | Computers in the Secondary Reading/Language Arts Curriculum (3)                       |
| SED 618    | Computers in the Secondary School Curriculum: Multimedia (3)                          |
| SED 619    | Application and Utility Software in the Secondary Curriculum: Website Development (3) |
| SED 646    | Computers in Mathematics and Science Teaching (3)                                     |
| SED 671    | Designing Computer-Based Instructional Materials (3)                                  |
| SED 695G   | Seminar in Educational Technology (3)   |
| SED 699A-C | Independent Study (1-3)   |

**D. Reading Improvement:** For teachers in all academic areas who wish to develop expertise in literacy and reading instruction. Candidates select Program Option courses in consultation with the graduate advisor. (Several courses are cross listed with EED.)

#### Reading Improvement Courses (12 units)

##### Choose 12 units from the following:

|         |  |
|---------|--|
| SED 617 | Computers in the Secondary Reading/Language Arts Curriculum (3)  |
| SED 620 | Methods, Materials and Approaches in the Teaching of Reading (3) |
| SED 621 | Foundations of Reading Instruction (3)                           |

- SED 625A Literacy Assessment and Teaching Strategies [A] (3)
- SED 625AL Laboratory in Literacy Assessment and Teaching Strategies [A] (3)
- SED 625B Literacy Assessment and Teaching Strategies [B] (3)
- SED 625BL Laboratory in Literacy Assessment and Teaching Strategies [B] (3)
- SED 626 Literacy Instruction for English Learners K-12 (3)

**E. Multicultural and Multilingual Education:** For teachers seeking to broaden their knowledge of English as a Second Language, bilingual and multicultural secondary education; or to develop leadership skills and acquire research skills in ESL, bilingual and multicultural education; or to develop skills and knowledge in effectively working with diverse pupils, families and communities.

**Select 12 units from the following:**

- SED 525BL Bilingual and Bicultural Students in Multiethnic Secondary Schools (3)
- SED 625MM Theory and Research in Multicultural, Multilingual Education in Secondary Schools (3)
- SED 625ESL Theory and Research in the Teaching of English as a Second Language in Multilingual Classrooms (3)
- SED 673 Multicultural Students, Families and Communities (3)
- SED 699A-C Independent Study (1-3)

**3. Electives For Secondary Education M.A. Options A-E (6 units)**

6 units from the area of teaching concentration, related fields and topics related to teaching are selected in consultation with the graduate advisor/program coordinator. In some cases the following courses from the preliminary credential program may be used as electives.

**Choose 6 units from the following:**

- SED 514 Computers in the Instructional Program (3)
- SED 521 Literacy, Language and Learning in Multiethnic Secondary Schools (3)
- SED 525xx Methods of Teaching the Single Subject (3)
- SED 529 Teaching English Learners in Multiethnic Secondary Schools (3)

**4. Culminating Experience (3 units)**

- SED 697 Directed Comprehensive Studies (3)  
or SED 698 Graduate Thesis or Project (3)

|   |    |
|---|----|
| Total Units Required for the Secondary Education M.A. Degree, Options A-E | 30 |
|---|----|

**Requirements for Admission to the Secondary Education Teaching and Learning Option F**

- Baccalaureate Degree from an accredited University;
- Submission of a completed Department application, including:
  - The names of 3 references (employer, academic reference, personal reference), and
  - A statement of plans and objectives for graduate study or of current practice;
- A University-approved test for graduate study (GRE or MAT) if undergraduate GPA is below 2.5:
  - Score at or above the 50<sup>th</sup> percentile on 1 of the 3 portions of the general test of the GRE, or
  - Score at or above the 50th percentile on the MAT;
- Preliminary Single Subject Teaching Credential; and
- District permission to enroll in the CSUN-District Joint Induction/M.A. Degree Program.

**Requirements for Classified Status, Secondary Education M.A.**

**Option F**

- Cumulative undergraduate GPA of 3.0 or higher or a University-approved test for graduate study (GRE or MAT):
  - Score at or above the 50th percentile on 1 of the 3 portions of the general test of the GRE, or
  - Score at or above the 50th percentile on the MAT; and
- Passing score (8 or higher) on the Upper Division Writing Proficiency Exam.

**Corequisites for Secondary Education M.A. Option F**

- Completion of 1 or more years of successful secondary school teaching; and
- California Single Subject Clear Credential.

**M.A. Degree Program for Teaching and Learning, Option F (33 units Total)**

**1. Department Core Courses (9 units)**

- SED 595JA-JK Lesson Design Study: Developing Best Practices (3)
- SED 600 Research in Secondary Education (3)
- SED 610 Issues in Education in Multiethnic Secondary Schools (3)

**2. Teaching and Learning Option F Courses (21 units)**

- AAS/ARMN/CHS/ELPS/PAS 595 Advanced Studies in Educational Equity and Diversity in Schools (3)
- HSCI 501 School Health for Teachers (3)
- SPED 611 Collaborating to Meet the Needs of Special Populations (3)
- SED 625ESL Theory and Research in the Teaching of English as a Second Language (3)

**Choose 1 of the following courses (3 units):**

- MUS 567/L Computers and Related Technology in Music (3)
- SED 617 Microcomputers in the Secondary Reading/Language Arts Curriculum (3)
- SED 618 Computers in the Secondary School Curriculum: Multimedia (3)
- SED 619 Application and Utility Software in the Secondary Curriculum: Website Development (3)
- SED 646 Computers in Mathematics and Science Teaching (3)

**Choose 2 courses selected in consultation with the graduate advisor from courses such as the following (6 units):**

- SED 530 The Program in Literature Grades 6-12: Issues (3)
- SED 535MA Teaching Contemporary Mathematics (3)
- SED 625EN Theory and Research in the Teaching of Secondary School English (3)
- SED 625MA Theory and Research in Teaching Secondary School Mathematics (3)
- SED 625SC Theory and Research in Teaching Secondary School Science (3)
- SED 625SS Theory and Research in Teaching Secondary School Social Studies (3)
- SED 626 Literacy Instruction for English Learners [K-12] (3)
- SED 671 Designing Computer-Based Instructional Materials (3)
- SED 686 Motivational Strategies in the Classroom (3)
- SED 695A-K Seminar in Selected Studies (3)
- SED 699C Independent Study (3)

**3. Culminating Experience For Teaching and Learning Option**

(3 units)

SED 697 Directed Comprehensive Studies (3)

|   |    |

| Total Units Required for the Teaching and Learning M.A. Degree Option | 33 |
|---|----|

**Single Subject Preliminary Credential Programs**

Candidates who complete a Single Subject Credential Program are specialists in the teaching of a subject area such as English, mathematics, physical education or science are able to work with students in diverse classroom settings. Candidates meet subject matter competency by completing an approved Program specified by the subject area Department or by passing all sections of the appropriate examination(s), including the California Subject Examination for Teachers (CSET). For information regarding admission, requirements and subject programs approved by the California Commission on Teacher Credentialing and subject matter examinations, see the Credential section of the Catalog. For detailed information on each approved subject Program, see the Department that offers the Program (e.g., Art, English, Mathematics, Kinesiology) in the Catalog. Descriptions of Secondary Education Credential Program courses appear later in this section. For other professional education courses, see listings of the Department offering the course (e.g., Educational Psychology and Counseling, Health Science). Candidates who began Programs prior to Fall 2002 or who began a BCLAD Program prior to Spring 2004 should consult the Credential Office staff or website for information on old programs. All Single Subject Programs, including the BCLAD Program, as described below, have been approved by the California Commission on Teacher Credentialing and meet the requirements of Senate Bill 2042, including CLAD authorization. All candidates accepted beginning Fall 2002 enroll in 1 of these Programs:

1. Traditional Program
2. Accelerated Collaborative Teacher Preparation Program (ACT)
3. Single Subject University Intern Program (SSUIP)
4. Four-Year Integrated Teacher Credential Program (FYI-English, FYI-Mathematics)
5. Junior-Year Entry Integrated Teacher Credential Program (JYI-English, JYI Mathematics)
6. Bilingual Cross-Cultural Language and Academic Development (BCLAD) Single Subject Program

**1. Traditional Program (32 units)**

Post-Baccalaureate Single Subject Credential Program for full-time or part-time candidates.

**Required prior to admission**

- Verification that a Basic Skills Test (typically CBEST) has been taken.
- Verification of information Session attendance.
- Admissions interview.
- Valid fingerprint clearance.
- Verification of subject matter competency by approved subject matter program or examination (CSET).

Consult Credential Office for complete admission requirements.

**Required in first semester of enrollment and prior to or concurrent with SED 554/554S (3 units)**

SED 511 Fundamentals of Secondary Education in Multiethnic Secondary Schools (3)

**Required prior to first student teaching assignment through SED 554/554S**

- Passage of Basic Skills (typically CBEST).

- Verification of writing proficiency by examination (score of 41 or higher on CBEST writing, or 10 or higher on Upper Division Writing Proficiency Examination), or completion of ENGL 305, ENGL 406 or COMS 420).

- Student Teaching application (priority deadlines established).

**Required prior to or concurrent with first student teaching assignment through SED 554/554S (6 units)**

EPC 420 Educational Psychology of Adolescence (3)

SED 525xx Methods of Teaching Single Subject Area (e.g., Art, English, etc.) (3)

**Required prior to second student teaching assignment through SED 555/555S (4 units)**

SED 554 Supervised Field Experience (3)

SED 554S Field Experience Seminar (1)

**Required prior to or concurrent with second student teaching assignment, SED 555/555S (9 units)**

AAS/ARMN/CHS/

ELPS/PAS 417 Equity and Diversity in Schools (3)

SED 521 Language, Literacy and Learning in Multiethnic Secondary Schools (3)

SPED 420 Improving the Learning of Students with Special Needs Through Differentiated Instruction and Collaboration (3)

**Student Teaching (11 units)**

SED 554 Supervised Field Experience (3)

SED 554S Field Experience Seminar (1)

SED 555 Supervised Practicum (5)

SED 555S Practicum Seminar (2)

**Other Program Requirements (4 units)**

HSCI 496ADO Health Concerns of the Adolescent (1)

SED 514 Computers in the Instructional Program (3)

- Teaching Performance Assessment (completed in SED 555S).
- Individual Induction Plan (IIP) (completed in SED 555S).
- Overall GPA of 2.75 since admission with GPA of 3.0 in professional education courses.
- A grade of "C" or better in all required classes.
- Knowledge of the U.S. Constitution (course or exam).
- CPR Certification—infant, child adult (online certification is not acceptable).
- Baccalaureate degree from an accredited institution of higher education.

Full-time candidates who meet subject matter and other requirements at application are eligible to complete the Program in a single year. Many candidates complete the Program in 3 or more semesters. Application for student teaching required by Fall/Spring deadlines; consult the Credential Office website for specific dates.

Suggested Single Subject Traditional Program Course Work Sequences

**Two-semester sequence for full-time candidates:**

**Semester 1:** EPC 420; HSCI 496ADO; SED 511, 514, 525xx single subject, 554, 554S (17 units)

**Semester 2:** AAS/ARMN/CHS/ELPS/PAS 417; SED 420, 521, 555, 555S (16 units)

**Three-semester and one Summer sequence for part-time candidates:**

**Semester 1:** EPC 420; SED 511, 521 (9 units)

**Semester 2:** HSCI 496ADO; SED 420, 525xx single subject, 554, 554S (11 units)

**Summer:** AAS/ARMN/CHS/ELPS/PAS 417; SED 514 (6 units)

**Semester 3:** SED 555, SED 555S (7 units)

**Four-semester and one Summer sequence for part-time candidates:**

**Semester 1:** EPC 420; SED 511 (6 units)

**Semester 2:** SED 514, 525xx single subject (6 units)

**Summer:** AAS/ARMN/CHS/ELPS/PAS 417; SPED 420 (6 units)

**Semester 3:** HSCI 496ADO; SED 521, 554, 554S (8 units)

**Semester 4:** SED 555, 555S (7 units)

## 2. Accelerated Collaborative Teacher Preparation Program (ACT) (33 units)

An intensive Program for a cohort of eligible Post-Baccalaureate candidates. Separate application required. Sohorts begin each Fall semester.

### Required prior to admission

- Verification that a Basic Skills Test (typically CBEST) has been taken.
- Verification of information session attendance.
- Admissions interview with ACT Coordinator.
- Valid fingerprint clearance.
- Verification of subject competency by approved subject matter program or examination (CSET).

Consult Credential Office for complete admissions requirements.

### Required prior to the beginning of the Fall semester

- Passage of Basic Skills Test (typically CBEST).
- Verification of writing proficiency by examination (score of 41 or higher on CBEST writing, or 10 or higher on Upper Division Writing Proficiency Examination), or completion of ENGL 305, ENGL 406, or COMS 420.
- Application to Student Teach

### Required in the fall semester (19 units)

|      |       |  |
|------|-------|--|
| ELPS | 541A  | Introduction to Teaching in Urban Schools (1)                            |
| EPC  | 420   | Educational Psychology of Adolescence (3)                                |
| SED  | 511   | Fundamentals of Secondary Education in Multiethnic Secondary Schools (3) |
| SED  | 514   | Computers in the Instructional Program (3)                               |
| SED  | 525xx | Methods of Teaching in Single Subject (e.g., Art, English, etc.) (3)     |
| SPED | 541B  | Introduction to Teaching in Urban Schools (2)                            |
| SED  | 554   | Supervised Field Experience for the Single Subject Credential (3)        |
| SED  | 554S  | Field Experience Seminar for the Single Subject Credential (1)           |

### Required during Spring semester (14 units)

|      |        |  |
|------|--------|--|
| ELPS | 542A   | Meeting the Needs of All Students in Urban Schools (2)               |
| HSCI | 496ADO | Health Concerns of the Adolescent (1)                                |
| SED  | 521    | Literacy, Language and Learning in Multiethnic Secondary Schools (3) |
| SED  | 555    | Supervised Practicum for the Single Subject Credential (5)           |
| SED  | 555S   | Practicum Seminar for the Single Subject Credential (2)              |
| SPED | 542B   | Meeting the Needs of All Students in Urban Schools (1)               |

### Other Program Requirements

- Teaching Performance Assessment (completed in SED 555S).
- Individual Induction Plan (IIP) (completed in SED 555S).
- Overall GPA of 2.75 since admission with GPA of 3.0 in Professional Education courses .
- A grade of “C” or better in all required classes.
- Knowledge of the U.S. Constitution (course or exam)

- Baccalaureate Degree from an accredited institution of higher education.
- CPR Certification—infant, child adult (online certification is not acceptable).

|  |           |
|--|-----------|
| <b>Total Units required for the Single Subject ACT Program</b> | <b>32</b> |
|--|-----------|

## 3. Single Subject University Intern Program (SSUIP) (33 units)

A Program for individuals teaching full-time in a public school with an Intern Credential. Additional application required

### Required prior to admission

- Passage of Basic Skills Test (typically CBEST).
- Verification of information session Attendance.
- Admissions interview with Intern Program Coordinator.
- Verification of subject matter competency by approved subject matter program or examination (CSET).
- Completion of 120 hours of pre-service instructional hours/modules.
- Knowledge of the U.S. Constitution (course or exam).
- Baccalaureate Degree from an accredited institution of higher education.
- Intern Credential and verification of full-time public school teaching position in subject area.
- CPR Certification—infant, child adult (online certification is not acceptable).

### Required in first semester of enrollment (6 units)

|     |          |  |
|-----|----------|--|
| SED | 511      | Fundamentals of Secondary Education in Multiethnic Secondary Schools (3) |
| SED | 593/593S | Field Experience and Field Experience Seminar for Interns (2/1)          |

### Required in second semester of enrollment (6 units)

|     |          |  |
|-----|----------|--|
| SED | 521      | Literacy, Language and Learning in Multiethnic Secondary Schools (3) |
| SED | 594/594S | Field Experience and Field Experience Seminar for Interns (2/1)      |

### Suggested for Summer 1 (6 units)

|     |     |  |
|-----|-----|--|
| EPC | 420 | Educational Psychology of Adolescence (3)  |
| SED | 514 | Computers in the Instructional Program (3) |

### Suggested for third semester of enrollment (6)

|      |       |  |
|------|-------|--|
| SED  | 525xx | Methods of Teaching Single Subject (e.g., Art, English, etc.) (3)  |
| SPED | 420   | Improving the Learning of Students with Special Needs Through Differentiated Instruction and Collaboration (3) |

### Required prior to enrollment in SED 555I/SED 555S

Verification of writing proficiency by examination (score of 41 or higher on CBEST writing, or 10 or higher on Upper Division Writing Proficiency Examination) or completion of ENGL 305, ENGL 406, or COMS 420.

### Suggested in fourth semester of enrollment (9 units)

|                       |        |   |
|-----------------------|--------|---|
| AAS/ARMN/CHS/ELPS/PAS | 417    | Equity and Diversity in Schools (3)                     |
| HSCI                  | 496ADO | Health Concerns of the Adolescent (1)                   |
| SED                   | 555I   | Supervised Practicum for Interns (3)                    |
| SED                   | 555S   | Practicum Seminar for the Single Subject Credential (2) |

### Other program requirements

1. Teaching Performance Assessment and Individual Induction Plan (completed in SED 555S).
2. Overall GPA of 2.75 since admission with GPA of 3.0 in professional education courses.

3. A grade of “C” or better in all required classes.  
Program schedules may vary slightly based on individual advisement with Intern Program Coordinators. Candidates interested in a BCLAD Intern Credential will complete additional requirements and should consult with a Coordinator.

|  |           |
|--|-----------|
| <b>Total Units required for the Single Subject University Intern Program</b> | <b>32</b> |
|--|-----------|

#### 4. Four-Year Integrated (FYI) Teacher Credential Program in English or Mathematics

A four-year integrated, undergraduate program leading to a B.A. Degree and Single Subject Credential in English or mathematics for eligible, college-ready freshmen. See the English Department section of the Catalog for the FYI-English Program; see the Mathematics Department section of the Catalog for FYI-Mathematics Program.

| <b>Total Units in Addition to GE Required for JYI English</b>     | <b>74</b> |
| <b>Total Units in addition to GE required for JYI Mathematics</b> | <b>68</b> |

#### 6. Bilingual Cross-Cultural Language and Academic Development Program (BCLAD) in Spanish, Korean, or Armenian (39 units)

A Post-Baccalaureate Program for candidates who develop expertise in teaching their subject area in the language of emphasis. Note: For updated information concerning the BCLAD Single Subject Credential, consult the Credential Office.

##### Required prior to admission

- Verification that a Basic Skills Test (typically CBEST) has been taken.
- Verification of information session attendance.
- Admissions interview.
- Valid fingerprint clearance
- Verification of subject competency by approved subject matter program or examination (CSET).

##### Required in first semester of enrollment and prior to or concurrent with SED 554/SED 554S (3 units)

SED 511 Fundamentals of Secondary Education in Multiethnic Secondary Schools (3)

##### Required prior to first student teaching assignment through SED 554

- Passage of Basic Skills Test (typically CBEST).
- Verification of writing proficiency by examination (score of 41 or higher on CBEST writing, or 10 or higher on Upper Division Writing Proficiency Examination), or completion of ENGL 305, ENGL 406 or COMS 420.
- Student Teaching application.

##### Required prior to or concurrent with first student teaching assignment through SED 554/SED 554S (6 units)

EPC 420 Educational Psychology of Adolescence (3)  
SED 525xx Methods of Teaching Single Subject (e.g., Art, English, etc.) (3)

##### Required prior to second student teaching assignment through SED 555BL/SED 555S (4 units)

SED 554 Supervised Field Experience (3)  
SED 554S Field Experience Practicum (1)  
Passage of BCLAD Test no. 6 in language of emphasis

##### Required prior to or concurrent with second student teaching assignment, SED 555BL/555S (12 units)

AAS/ARMN/CHS/  
ELPS/PAS 417 Equity and Diversity in Schools (3)  
SED 521 Language, Literacy and Learning in Multiethnic Secondary Schools (3)  
SED 525ESL Methods of Teaching English as a Second Language (3)  
SPED 420 Improving the Learning of Students with Special Needs Through Differentiated Instruction and Collaboration (3)

##### Student Teaching (11 units)

SED 554 Supervised Field Experience (3)  
SED 554S Field Experience Practicum (1)  
SED 555BL Supervised Practicum with BCLAD Emphasis (5)  
SED 555S Practicum Seminar (2)

##### Other Program Requirements (7)

- SED 514 Computers in the Instructional Program (3)  
HSCI 496ADO Health Concerns of the Adolescent (1)
- Multicultural requirement: 1 course from Category A in area of emphasis (3 units). Consult the Credential Office for a list of acceptable courses (may be completed prior to admission).
  - Teaching Performance Assessment (completed in SED 555BL).
  - Individual Induction Plan (IIP) (completed in SED 555BL).
  - Overall GPA of 2.75 since admission with GPA of 3.0 in professional education courses.
  - A grade of “C” or better in all required Credential classes.
  - Knowledge of the U.S. Constitution (course or exam).
  - Baccalaureate Degree from an accredited institution of higher education.
  - CPR Certification—infant, child adult (online certification is not acceptable).

#### Certificates

##### English Learner Authorization Certificate Program: CTEL—California Teachers of English Learners (12 units)

##### 1. Prerequisite:

- Valid Teaching Credential

##### 2. Requirements:

- Application to the Credential Office.
- Maintain a 3.0 GPA in all Program courses.
- Earn a grade of “C” or higher in all Program courses.
- Successfully complete CTEL Program portfolio.

##### 3. Required Courses: (12 units)

AAS/ARMN/CHS  
/ELPS/PAS 417 Equity and Diversity in Schools (3)  
CHS 333 Language Acquisition of the Chicana/o and ESL Speakers (3)  
or LING 427 Languages in Contact (3)  
ENGL 301 Language and Linguistics (3)  
SED 525ESL Methods of Teaching English as a Second Language (Final Course) (3)

## Course List

### SED 496A-Z. Experimental Topics Courses (3)

Selected topics in secondary education, with course content to be determined.

### SED 497EE A-B. Field work Tutorials (1-2)

*Prerequisite: Instructor consent.* Field work course designed to give experiential education to CSUN students who volunteer for community tutorial work with youngsters to improve their basic academic competencies and study skills. Whenever possible, emphasis is placed on locating students in sites where disadvantaged young people are most in need of tutoring, including probation camps, foster homes, rehabilitation centers, public schools and continuation schools. Open to all Majors in good academic standing.

### SED 511. Fundamentals of Secondary Education in Multiethnic-Secondary Schools (3)

*Preparatory: Admission to a Single Subject Credential Program.* Must be taken in the 1st session of enrollment in all Single Subject Programs. Provides a general framework and introduction to secondary education and curriculum within a multiethnic American society. Candidates investigate various classroom discipline and management techniques, teaching strategies and techniques, and lesson planning. Candidates are also introduced to the California Academic Content Standards and the 13 Teaching Performance Expectations (TPEs). Primary emphasis is placed on the TPEs in 3 domains: 1) Creating and maintaining effective classroom environments; 2) Engaging and supporting all students in learning; and 3) Planning instruction and designing learning experiences. Completion of classroom-based activities is required.

### SED 514. Computers in the Instructional Program (3)

Introduction to the instructional uses of the Internet, local networks, telecommunications, text processing, graphics, desktop publishing, educational software, electronic reference tools, teacher support tools, databases, spreadsheets and other software applications and related media. Use of such applications to access and evaluate information, analyze and solve problems, and communicate with other professionals. Strategies and skills to enable teachers to prepare their students to be lifelong learners in an information-based society. Meets technology education requirement for the Preliminary Credential.

### SED 516A. Seminar in Teaching the Bilingual/Bicultural Student: Mexican-American (3)

Seminar for Single Subject Credential candidates who desire additional preparation in teaching the Mexican-American student at the secondary level. Also open to classroom teachers, administrators and supervisors. Designed to develop effective instructional strategies that recognizes the distinctive cultural, social, historical, linguistic and aesthetic influences on the learning styles of this ethnic group.

### SED 521. Content Area Literacy and Learning in Multiethnic Secondary Schools (3)

*Prerequisite: Restricted to candidates officially admitted to the Credential Program or already possessing a Teaching Credential. Prerequisite or Corequisite: SED 511. Recommended Preparatory for Traditional Candidates: SED 525xx.* Required for candidates in all Single Subject Teacher Basic Credential Programs. Focuses on strategies for teaching reading, writing, academic language and study strategies to promote learning in middle-school and high-school content area classes for all students. Addresses a context for literacy learning, emergent and developmental reading instruction, assessment of materials, the development of literacy lessons related to California subject area academic content standards and frameworks, differentiated instruction and a range of literacy assessments. Completion of field-based activities is required.

### SED 524. Teaching Reading to the Speaker of Non-Standard Dialect (3)

*Preparatory: SED 520.* Exploration of methods and problems unique to the teaching of reading to culturally different children. Emphasis in 3 areas: 1) general planning and procedures to solve reading problems; 2) lab practice in the application of reading materials; and 3) evaluation of techniques. (Cross listed with EED 524.)

### SED 525 Series:

*Restricted to candidates officially admitted to the Credential Program. All courses in this series address objectives, methods, curriculum, assessment and issues involved in teaching various subjects in the secondary schools.*

### SED 525. Methods of Teaching Single Subjects in The Secondary School (3)

*Restricted to candidates officially admitted to the Credential Program. Preparatory: A generic course for students for whom a specialized methods course is not available. See SED 525 Series.*

### SED 525A. Methods of Teaching Art (3)

*Restricted to candidates officially admitted to the Credential Program. Study and development of instructional guidance in art. See SED 525 Series.*

### SED 525BL. Bilingual and Bicultural Teaching in Multiethnic Secondary Schools (3)

*Required course for all Bilingual Authorization Program candidates. Prerequisites: SED 521 (pre Fall 2011) or SED 523 (Fall 2011 and later). Preparatory: SED 525xx.* This course will examine the history, policies, programs and research on the effectiveness of bilingual education and bilingualism in the U.S., as well as the philosophical, theoretical, legal and legislative foundations of bilingual education and their effects on program design and the educational achievement of bilingual children and adolescents. Also addressed are the transferability between the primary and English language; authentic parental participation; the interrelatedness among the four domains of language (listening, speaking, reading and writing); and the application of different bilingual education models, instructional strategies, materials and skills to instructional settings. The course also will examine planning, developing, implementing and assessing standards-aligned content instruction in the primary and the English language with a variety of instructional and assessment strategies, as well as the use of a variety of criteria to select instructional materials to assess their appropriateness and suitability for the local context and to augment resources when necessary. (Cross listed with EED 525.)

### SED 525EN. Methods of Teaching English (3)

*Required of all students enrolled in the English Credential Program. Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential.* Methods course addressing strategies for teaching literature, composition and language. The integrated approach for literature, composition and language instruction is based on the California Model Curriculum Standards and the English/Language Arts Framework. See SED 525 Series.

### SED 525ESL. Methods of Teaching English As A Second Language (3)

*Required course for BCLAD Preliminary Credential and CLAD Certificate Program through CTEL Coursework. Preparatory: ENGL 301, 302 or 402, or an equivalent course in linguistics.* A methods course addressing programs, objectives, methods, materials and issues for providing bilingual and English as a Second Language instruction at the middle-school and high-school levels.

### SED 525HEC. Methods of Teaching Home Economics (3)

*Restricted to students officially admitted to the Credential Program or already possessing a teaching credential. See SED 525 Series.*

**SED 525HS. Methods of Teaching Health Science (3)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. See SED 525 Series.*

**SED 525MA/L. Methods of Teaching Mathematics in the Secondary School and Lab (2/1)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. Corequisites: SED 525MA and 525MAL. Preparatory: MATH 150B or instructor consent. Topics include subject matter selection and classroom instruction in arithmetic, algebra, geometry, trigonometry, discrete mathematics and calculus. See SED 525 Series.*

**SED 525MU. Methods of Teaching General Music (3)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. Preparatory: MUS 302, 466C. Exploration of teaching trends and issues in general music. Development of instructional guidance for music. See SED 525 Series.*

**SED 525PE. Methods of Teaching Physical Education (3)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. See SED 525 Series.*

**SED 525S/L. Methods of Teaching Science in the Secondary School and Lab (2/1)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. Corequisites: SED 525S and 525SL. Objectives, instructional methods, curriculum and assessment in teaching science in the secondary school. Developing, adapting, evaluating and using strategies and materials for teaching science, appropriate both to the special needs of the learners and the special characteristics of the science discipline. Objectives, instructional methods and curriculum in teaching lab-based science in the secondary school. Developing, adapting, evaluating and using strategies and materials for teaching science labs, appropriate both to the special needs of the learners and the special characteristics of the science discipline. See SED Series.*

**SED 525SS. Methods of Teaching Social Studies (3)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. Objectives, methods, materials and assessments in the social studies curriculum in the secondary schools. See SED 525 Series.*

**SED 525WL. Methods of Teaching World Language (3)**

*Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. See SED 525 Series.*

**SED 529. Teaching English Learners in Multiethnic Secondary Schools (3)**

*Required for candidates in all Single Subject Teacher Basic Credential Programs. Restricted to candidates officially admitted to the Credential Program or already possessing a teaching credential. Prerequisite: SED 511. Co-requisite: SED 521. Preparatory: SED 525xx. Addresses state and federal legal requirements related to English learners, the California English Language Development (ELD) Standards, school programs serving English learners, language acquisition and teaching materials and strategies for English as a Second Language (ESL), and Specially Designed Academic Instruction in English (SDAIE). Also focuses on diagnostic and other assessments for English learners. Completion of field-based activities is required.*

**SED 530. The Program in Literature for Grades 6-12: Issues (3)**

*Exploration of issues related to the selection, organization and methods of teaching literature in middle school and senior high school classes. Recommended for experienced English teachers, supervisors, Department Chairs and curriculum consultants.*

**SED 535MA. Teaching Contemporary Mathematics (3)**

*Designed specifically to assist middle school and high school mathematics teachers and supervisors in implementing a modern school mathematics program. Covers the content standards, as well as strategies for effective mathematics instruction. Also provides hands-on experience for developing expertise with graphing calculators and computer software.*

**SED 554/S. Supervised Field Experience for the Single Subject Credential (3/1)**

*Prerequisites: Admission to the Single Subject Credential Program; Clearance by the Credential Office. Corequisite: SED 554S. Corequisites or Preparatory for Traditional, FYI, JYI and ACT Programs: EPC 420; SED 511, 525xx. Additional corequisites for ACT Program only: ELPS 541A; SPED 541B. Designed as the introductory field experience for candidates pursuing the Single Subject Teaching Credential in the Traditional, Accelerated Collaborative Teacher (ACT), Four-Year Integrated (FYI-English or FYI-Math) or Junior-Year Entry Integrated (JYI-English or JYI-Math) Programs. The candidate is assigned to a middle school or high school site for 1 class period plus conference time daily for a school's semester or track to complete specific activities (e.g., structured observations, tutoring small groups, assuming responsibility for planning, teaching and pupil assessment) under the direction and guidance of a qualified on-site collaborating teacher. A designated member of the University faculty supervises the candidate's assignment. During the supervised field experience sequence of SED 554 and 555, each teacher candidate has experiences teaching English language learners and participates in 2 or more subject-specific teaching assignments at middle-school and high-school levels. The candidate also meets weekly or biweekly in a required seminar led by a University faculty member that addresses student teaching issues. During this seminar, the candidate completes the Preliminary Teaching Event. (Credit/No Credit only)*

**SED 555. Supervised Practicum for the Single Subject Credential (5)**

*Required for candidates in the Four-Year Integrated (FYI-English, FYI-Math), Junior-Year Integrated (JYI-English, JYI Math), Accelerated Collaborative Teacher (ACT) and Traditional Single Subject Credential Programs. Prerequisites: SED 554, 554S; Clearance from the Credential Office. Corequisite: SED 555S. Corequisite or Preparatory for Traditional, FYI and JYI Programs: AAS/ARMN/CHS/ELPS/PAS 417; SED 521; SPED420. Corequisites for ACT Program only: ELPS 542A; HSCI 496AD; SED 521; SPED 542B. The Supervised Practicum is designed to provide teacher candidates with a Capstone field work experience in middle school or high school classrooms. Each candidate is supervised by an on-site collaborating teacher and a University supervisor. The candidate is responsible for teaching 3 classes daily and is at the school for a 4th class period daily for observation and conferencing for a school's entire semester or track. During the supervised field experience sequence of SED 554 and 555, each teacher candidate has experiences teaching English language learners and participates in 2 or more subject-specific teaching assignments. See the Credential Office for additional details. (Credit/No Credit only)*

**SED 555BL. Supervised Practicum for the Single Subject Credential with BCLAD Emphasis (5)**

*Required of candidates in the Single Subject Traditional Credential Program who seek Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis. Prerequisites: SED 554, SED 554S. Corequisite: SED 555S. Corequisite or Preparatory for Traditional, FYI and JYI Programs: AAS/ARMN/CHS/ELPS/PAS 417; SED 521; SPED 420. Corequisites for ACT Program only: ELPS 542A; HSCI 496AD; SED 521; SPED 542B. BCLAD Candidates are assigned to classrooms comprised of several English learners with limited proficiency in English where bilingual content instruction, SDAIE (Specially Designed Academic Instruction*

in English) and/or ELD (English Language Development instruction) are offered. (Credit/No Credit only)

### **SED 555S. Practicum Seminar for the Single Subject Credential (2)**

*Required for candidates in the Four-Year Integrated (FYI-English, FYI-Math), Junior-Year Integrated (JYI-English, JYI Math), University Intern, Accelerated Collaborative Teacher (ACT) and Traditional Single Subject Credential Programs. Prerequisites: SED 554, 554S; Clearance from the Credential Office. Corequisite: SED 555 or 555BL. Corequisite or Preparatory for Traditional, Intern, FYI, and JYI Programs: AAS/ARMN/CHS/ELPS/PAS 417; SED 521; SPED 420. Corequisite for ACT Program only: ELPS 542A; HSCI 496ADO; SED 521; SPED 542B.* While student teaching, the candidate also meets weekly or biweekly in a required seminar with a subject specialist University supervisor. The seminar addresses issues in teaching and the Teaching Performance Expectations, and the candidate is provided with guidance in completing the Performance Assessment for California Teachers (PACT) Teaching Event. (Credit/No Credit only)

### **SED 555I. Supervised Practicum for the Single Subject University Intern Program (3)**

*Required for candidates in the Single Subject University Intern Program (SSUIP). Prerequisites: SED 593/593S, 594/594S; Internship Credential; Clearance from the Credential Office. Corequisite: SED 555S.* SED 555I is the third and Capstone course in a sequence of supervised field experiences for University Intern candidates. Intern teacher candidates do their supervised field experience in their own secondary classrooms and are supervised by a University coach and an on-site collaborating teacher. During the supervised field experience sequence, each intern teacher candidate has experiences teaching English language learners and participates in 2 or more subject-specific teaching assignments. See the Intern Program Coordinator, Credential Office or Department website for additional information. (Credit/ No Credit only)

### **SED 555IB. Supervised Practicum for the Single Subject University Intern Program with BCLAD Emphasis (3)**

*Required of candidates in the Single Subject University Intern Program (SSUIP) who seek Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis. Prerequisites: SED 593/593S, 594/594S; Internship Credential; Clearance from the Credential Office. Corequisite: SED 555S.* BCLAD candidates are assigned to 1 or more classrooms comprised of several English learners with limited proficiency in English where bilingual content instruction, Specially Designed Academic Instruction in English (SDAIE) and/or English Language Development (ELD) instruction are offered. (Credit/No Credit only)

### **SED 587ESL. Methods of Teaching English As A Second Language to Adults (3)**

*Prerequisite: ENGL 301, 302 or 402, or equivalent course in linguistics.* A study of the objectives, methods, materials and issues involved in the teaching of English as a Second Language in the community adult schools to adults.

### **SED 592. Audiovisual Instruction Methods and Techniques (3)**

Theories and methods of visual instruction, including experience in the utilization of audiovisual aids. Instruction in various projection and recording techniques and their applications in the school program.

### **SED 593/S. Field Experience for Single Subject Interns (2/1)**

*Prerequisites: Bachelor's Degree; Admission to the Single Subject University Intern Program (SSUIP); Full-time teaching position in a public school. Corequisite: SED 593S.* SED 593 is the first of 3 field experiences required in SSUIP that lead to the Single Subject or Single Subject BLCAD Emphasis Credential. This field experience is designed for the on-the-job teacher. The candidate is supervised on-site by a University coach and a support provider. This seminar is designed for the on-the-job teacher and meets for 1 hour weekly (or equivalent). (Credit/No Credit only)

### **SED 594/S. Field Experience for Single Subject Interns (2/1)**

*Prerequisites: SED 511, 593/593S. Corequisite: SED 594S.* Second of three field experiences required in the Single Subject University Intern Program (SSUIP) that leads to the Single Subject or Single Subject BLCAD Emphasis Credential. This field experience is for the on-the-job teacher. The candidate is supervised on-site by the University coach and a support provider. This seminar is designed for the on-the-job teacher and meets for 1 hour weekly (or equivalent). (Credit/No Credit only)

### **SED 594AI. Academic Internships in Secondary Education (3)**

Field work course designed to give experiential education to CSUN students who will be placed as teaching assistants in Los Angeles Unified secondary schools. While assisting supervising teachers in the classrooms, CSUN students receive exposure to various instructional practices, tutorial techniques and adolescent student behavior. Fulfills early field work requirement for Single Subject Credential. Open to all majors, junior- and senior-level, with a minimum 2.5 GPA. Initial application through the Cooperative Education Office. 3 units of elective credit. Academic Internship course. (Credit/No Credit)

### **SED 595A-Z. Experimental Topics Courses (3)**

### **SED 599A-C. Independent Study (1-3)**

## **Graduate**

This following courses are open to Graduate Students only.

### **SED 600. Research in Secondary Education (3)**

*Prerequisite: Admission to Secondary Education M.A. Degree Program.* This course introduces key research in secondary education and provides opportunities to analyze educational research critically. Also addressed are types of research; the teacher as researcher; planning a research study; and collecting, analyzing and presenting data. A required Department Core course for M.A. Degree candidates with a Specialization in Secondary Education.

### **SED 610. Issues in Education in Multiethnic Secondary Schools (3)**

*Prerequisite: Admission to Secondary Education M.A. Degree Program.* An examination of issues and changes in education and curriculum, with a focus on how these issues impact secondary teachers and diverse classrooms and schools. The course also addresses teacher professionalism and leadership. A required Department Core course for M.A. Degree candidates in Secondary Education.

### **SED 612. The Core Curriculum in Middle and Senior High Schools (3)**

Designed for teachers in integrated programs involving social studies and language arts. Emphasis is given to relating the needs of secondary school youth to appropriate course objectives, content and teaching procedures.

### **SED 617. Microcomputers in the Secondary Reading/Language Arts Curriculum (3)**

*Prerequisite: SED 514 or instructor consent.* Design, development and use of computer-based resources for teaching reading, writing, literature and language. Internet; telecommunications; and presentation, desktop publishing and other applications are explored in terms of teaching the language arts. Review and analysis of research and best practice in the use of computers in the teaching of reading and language arts.

### **SED 618. Computers in the Secondary School Curriculum: Multimedia (3)**

*Prerequisite: SED 514 or instructor consent.* Design and development of multimedia projects of secondary-school instruction using a variety of hardware and software tools. Review and analysis of research on the use of multimedia computer-based technology in secondary-school instruction.

**SED 619. Application and Utility Software in the Secondary School Curriculum: Website Design (3)**

*Prerequisite:* SED 514 or instructor consent. Design and development of instructional materials using multimedia, publishing, presentation and data-analysis software. Development of websites to distribute these and other instructional resources. Analysis of research related to distance education, and the design, use and effectiveness of Internet-based instructional resources for classroom use.

**SED 621. Foundations of Reading Instruction (3)**

*Prerequisite:* SED 520 or 521. Designed to acquaint the student with skills in word recognition, comprehension, study skills and rate; provisions for developing interest and appreciation; classroom materials in teaching reading; recent concepts of reading readiness and the relationship of linguistic theory to reading instruction; interrelationship of language development and reading.

**SED 625A/L. Literacy Assessment and Teaching Strategies and Lab (3/1)**

*Prerequisites:* EED 520 or equivalent; SED 520 or 521; SED 625EN or EED 633; Teaching experience. *Corequisite:* SED 625AL. Principles and procedures for the evaluation of reading and writing effectiveness are presented. Each student develops competencies in assessing literacy behavior on an individual basis and in a classroom setting. Students should become adept at observations and interviews, while attaining skills of selecting, scoring and interpreting the results of a comprehensive variety of whole language assessments. Similarly, principles and procedures for the design and selection of materials, methods and contexts for literacy instruction are presented. Each student develops a literacy program for an individual child based on assessment findings. Includes meaning-centered activities appropriate for classroom settings. Students should become adept at determining the effectiveness of various instructional strategies and confirming/disconfirming their assessment results. Lab: This 1-unit supervised lab experience with children includes parent conferencing, and concentrated assessment and instruction in the correction of reading/writing difficulties. Each student is assigned at least 1 child experiencing problems processing written language for whom the student will design and implement a corrective program. It is suggested that a student continue with the same child for a 2nd semester in SED 625BL. Case studies will demonstrate awareness of psychological, physiological, educational, cultural and linguistic factors in the reading/writing process. (Cross listed with EED 625AL.)

**SED 625B/L. Literacy Assessment and Teaching Strategies and Lab (3/1)**

*Prerequisite:* SED/EED 625AL. *Corequisite:* SED 625BL. Additional principles and procedures for the evaluation of reading and writing effectiveness are presented. Each student continues to develop competencies in assessing literacy behavior on an individual basis and in a classroom setting. Students should hone their skills of selecting, scoring and interpreting the results of a comprehensive variety of standardized tests. Similarly, additional principles and procedures for the design and selection of materials, methods and contexts for literacy instruction are presented. Each student expands the literacy program developed for an individual child based on new assessment findings. Includes meaning-centered and skill-based activities appropriate for classroom settings. Students should become adept at determining the effectiveness of various instructional strategies and confirming/disconfirming their assessment results. Lab: This 1-unit supervised lab experience with children includes parent conferencing, and concentrated assessment and instruction in the correction of reading/writing difficulties. Each student is assigned at least 1 child experiencing problems processing written language for whom the student designs and implement a corrective program. It is suggested that a student continue with the same child he/she worked

with in SED/EED 625AL. Case studies will demonstrate awareness of psychological, physiological, educational, cultural and linguistic factors in the reading/writing process. (Cross listed with EED 625BL.)

**SED 625EN. Theory and Research in the Teaching of Secondary School English (3)**

*Prerequisite:* SED 525EN or instructor consent. Study of recent developments and current issues in the teaching of English at the middle-school and senior high-school levels. Consideration is given to research studies and current best practice addressing literature, composition and language curriculum and instructional methods.

**SED 625ESL. Theory and Research in Teaching ESL in Multilingual Classrooms (3)**

*Prerequisite:* SED 525ESL. Seminar in the theory and research in teaching English as a second language in multilingual or bilingual settings. Emphasis is placed on the nature of language acquisition, on teaching strategies and on the development of materials designed to facilitate 2nd language learning. Opportunity for concentrated individual study, curriculum development and the use of various diagnostic language proficiency tests to both place and promote ESL students within the curriculum.

**SED 625MA. Theory and Research in Teaching Secondary School Mathematics (3)**

*Prerequisite:* SED 525MA or instructor consent. Study of the present status, recent developments and current trends in secondary-school mathematics curricula. The identification of concepts resulting from recent research and their organization for inclusion in the secondary-school mathematics program are considered. Consideration also is given to research studies dealing with the rationale and structure of important new approaches to mathematics teaching.

**SED 625MM. Theory and Research in Multicultural and Multilingual Education in Secondary Schools (3)**

*Prerequisites:* AAS/ARMN/CHS/ELPS/ PAS 417; SED 525xx, 529 or equivalents. This course uses cultural and linguistic diversity as the basis for understanding and exploring the broad concept of multicultural and multilingual secondary education, including how cultural and linguistic diversity influences pupil learning and how the knowledge of cultural and linguistic backgrounds of diverse secondary students can strengthen teaching and assessment practices. The course addresses theories, research and issues of multicultural and multilingual education at the middle-school and high-school levels. This course also develops deeper levels of multicultural and multilingual knowledge among M.A. Degree students on the cultural and language groups in California and the U.S.

**SED 625SC. Theory and Research in Teaching Secondary School Science (3)**

*Prerequisites:* SED 525SS; Major or Minor in science. Study of the present status, recent developments and current trends in secondary curricula. Emphasis is given to the identification of concepts resulting from recent research and their organization for inclusion in the secondary-school science program. Consideration is given to research studies dealing with the rationale and structure of important new approaches to science teaching.

**SED 625SS. Theory and Research in Teaching Secondary School Social Studies (3)**

*Prerequisites:* SED 525SS; Major or minor in science. Critical analysis of current teaching of social studies in the secondary school. Emphasis on the rationale and structure of the social studies curriculum, approaches to teaching social studies in the secondary school and research related to instructional problems of the secondary school teacher.

**SED 626. Literacy Instruction for English Learners K-12 (3)**

*Prerequisite:* EED 520, SED520 or 521, or equivalent. Major theories of 1st and 2nd language acquisition and literacy development specific to teaching 2nd language learners are reviewed in this seminar for teachers with monolingual, bilingual and multilingual classrooms. Various instructional approaches in the development of oral language, reading and writing are addressed. Research on variables affecting 2nd language learners' reading and writing achievement is explored. Emphasis is given to effective methodologies, teaching strategies, instructional materials and assessment strategies. (Cross listed with EED 626.)

**SED 627A. Individualization in Reading (1)**

*Prerequisite:* SED 520 or 521. Focus is on the theoretical and practical considerations involved in individualizing a reading program. Attention is paid to assessment techniques, learning centers, classroom organization and management. Various types of programs are analyzed and consideration is given to the design of individualized programs in reading that can be implemented in the classroom. (Cross listed with EED 627A.)

**SED 627C. Developing Reading Skills Through High Interest/low Readability Materials (1)**

*Prerequisite:* SED 520 or 521. Focus is on developing reading skills through the use of high-interest literature in the areas of poetry, fiction, drama, thematic units and the media. (Cross listed with EED 627C.)

**SED 627D. Reading in the Content Areas (1)**

*Prerequisite:* SED 520 or 521. The specific reading skills required in various subject fields are identified and methods of teaching these are explored. Diagnosis and correction of the difficulties unique to reading in the several content areas will receive emphasis. Students who have completed EED 621 should not select this particular course. (Cross listed with EED 627D.)

**SED 627E. State Frameworks in Reading and English (1)**

*Prerequisite:* SED 520 or 521. Focus on the reading and English language frameworks. Students develop competencies in the implementation of the frameworks and the utilization of the state textbook adoption process. (Cross listed with EED 627E.)

**SED 627G. In-Service Education in Reading (1)**

*Prerequisite:* SED 520 or 521. Focus on various aspects of inservice education in the field of reading. The course develops competencies of students to design and implement in-service activities in public and private schools. (Cross listed with EED 627G.)

**SED 627I. Teaching Critical Reading Skills (1)**

*Prerequisite:* SED 520, 521 or EED 520. Focus on the components of teaching critical reading and the implementation of a program of critical-reading activities in the classroom. (Cross listed with EED 627I.)

**SED 628. Language and Literacy Programs: Leadership, Planning and Evaluation (3)**

*Prerequisite:* SED/EED 625AL, 625BL or instructor consent. Principles of designing, organizing, coordinating and evaluating a variety of bilingual/multilingual and literacy programs (e.g., K-12 integrated language arts programs, corrective reading/writing programs, programs for students at risk) are presented. Students develop competencies in planning, conducting and evaluating staff development in language and literacy or bilingual/multilingual education. They familiarize themselves with the state textbook adoption process, state frameworks, district curriculum guides and selected state, national and international language and literacy projects/programs. Strategies for writing grants are offered and participation in professional organizations is encouraged. Students demonstrate ability to provide leadership in decision making for teaching language and literacy or for teaching across the curriculum in bilingual/multilingual programs. Bilingual/multilingual refers to bilingual/bicultural and multilingual/multicultural settings. (Cross listed with EED 628.)

**SED 631. Media in English Education (3)**

A graduate seminar for in-depth examination and evaluation of the use of media in English education. Recommended for experienced English teachers, supervisors and consultants.

**SED 640. Heuristics in Mathematics Education (3)**

*Prerequisite:* Major in Mathematics. Heuristics is the study of the methods of problem solving. Sometimes called "the rules of discovery," it is investigated and applied to arithmetic, algebra and geometry. Students are provided with the opportunity to apply the techniques in typical secondary classroom situations.

**SED 644. Remedial Mathematics: Diagnosis and Prescriptive Approaches (3)**

*Course restricted to persons presently teaching or on sabbatical. Prerequisite:* Teaching Credential and 1 year of teaching experience. The diagnosis and remediation of learning problems in arithmetic, algebra and geometry are the focus of this course for teachers of grades 6-12, resource personnel and specialists. Participants discuss these problems together with developmental learning patterns, diagnostic instruments and taxonomies of errors. Application of theory in participants' classrooms is a major part of the course.

**SED 646. Computers in Mathematics and Science Teaching (3)**

*Prerequisite:* SED 514 or instructor consent. Design, development and use of computer-based curricular resources for the teaching of science and mathematics. Topics include Internet resources, simulated experiments, computer-assisted instruction, mathematics tools, graphing calculators, probeware, videomicroscopy, scientific and mathematical editors, games, scientific databases, programming, robotics and more. Review and analysis of research on the use of technology in science and mathematics education.

**SED 671. Designing Computer-Based Instructional Materials (3)**

*Prerequisite:* SED 514 or instructor consent. Development of instructional materials using high-level authoring systems as a programming environment. Investigations on research findings in human perception, communication, learning theory and software development.

**SED 673. Multicultural Students, Families and Communities (3)**

*Prerequisite:* Admission to SED or other College of Education M.A. Degree Program. Preparatory: AAS/CHS/ELPS/PAS 417, SED 529 or equivalents. This course examines the research and professional literature on working with multicultural and multilingual pupils, families and communities to promote these pupils' academic success. M.A. Degree students will learn about families and communities, communicating with families and communities, effective strategies for working with families from particular ethnic and linguistic communities, and designing and evaluating school-family-community multicultural and multilingual educational activities and/or events.

**SED 674. Bilingual/Multilingual Curriculum (3)**

*Prerequisite:* SED 600 or equivalent or instructor consent. Covers the history and development of curriculum for bilingual and multilingual programs. Research and its implications for curricular choices, as well as the development and adaptation of curriculum, will be addressed. In addition, the effects of assessment on curriculum will be analyzed. (Cross listed with EED 674.)

**SED 675. Bilingual/Multilingual Teaching Strategies (3)**

*Prerequisite:* SED 600 or instructor consent. Students evaluate research on bilingual-bicultural and multilingual-multicultural teaching methods and strategies. Emphasis is placed on relating research findings to instructional decision making. Includes modeling, developing and validating effective teaching strategies that provide English learners access to the core curriculum. (Cross listed with EED 675.)

**SED 684. Application of Research in Teaching Effectiveness (3)**

*Preparatory: Teaching credential and 3 years teaching experience.* Each student will review research of effective teaching strategies and analyze selected propositions as a foundation of effective teaching decisions, including student motivation, rate and degree of learning, transfer of learning and curriculum decisions that facilitate and extend student learning. Teaching techniques are field tested using action research procedures and ethnographic classroom study techniques. (Cross listed with EED and SPED 684.)

**SED 685. Supervisory Personnel and Student Teaching (3)**

*Preparatory: Teaching Credential and at least 1 year of teaching experience.* Analysis of the role of the supervising teacher. Survey of current status, exploration of potential functions and examination of recommendations of appropriate professional groups. Implications are drawn from related literature and research.

**SED 686. Motivational Strategies in the Classroom (3)**

Study of the principles, problems and techniques of student motivation in the classroom. Research on the physical, psychological and social aspects of the classroom environment will be treated. The contributions of modern technology and the importance of the teacher's personality will be explored. Collections of materials and techniques useful to teachers in promoting motivation are coupled with selected field trips to appropriate instructional resource centers, museums and educational film production sites.

**SED 687. Practicum for Supervising Teachers (3)**

*Preparatory: SED 684, 685.* Provides opportunities for students to apply their knowledge of supervision theory and teaching effectiveness research to on-site situations. A major part of this practicum involves practical application of the supervisory techniques in working with novice teachers. In addition, the participants engage in pedagogical studies to improve their own teaching effectiveness and learn techniques for improving teaching effectiveness within their own schools. (Cross listed with EED and SPED 687.)

**SED 690. Seminar in Secondary Education (3)**

Identification of persistent issues in secondary education and survey of the literature relating to these. Emphasis is given to study of education problems and to acquaintance with reliable sources of educational research.

**SED 693. Field Studies in Secondary Education (3)**

*Prerequisite: Admission to Graduate Program in SED.* A training course in observation of field-study techniques. Students prepare a study of current educational practice as found in secondary schools. Meetings to be arranged between instructors and students.

**SED 695 A-K. Seminars in Selected Studies (3)**

Special seminars in selected topics in: (A) Social Studies Curriculum; (B) Science Curriculum; (C) Language Arts Curriculum; (D) Math Curriculum; (E) Reading Curriculum; (F) Secondary Education; (G) Educational Technology; (H) Practicum for Bilingual Teaching (Spanish); (I) Seminar in Bilingual Education (Spanish); and (J) Curriculum for Bilingual Students (Spanish).

**SED 696. Directed Graduate Research (3)**

*Preparatory: Department acceptance of a Thesis or Project on an advanced topic in the field of education.*

**SED 697. Directed Comprehensive Studies (3)**

*Preparatory: Restricted to and required of M.A. Degree candidates in the semester in which they take the Comprehensive Examination for the Degree.*

**SED 698. Thesis or Graduate Project (3)**

*Preparatory: Acceptance by a Thesis Committee assigned by the Department.* A Thesis or Project on an advanced topic in the field of education.

**SED 699A-C. Independent Study (1-3)**

# Social Work

## College of Social and Behavioral Sciences

**Chair: Amy Levin**

**Sierra Hall (SH) 208**

**(818) 677-7630**

**www.csun.edu/msw**

### Staff

Naomi Campos, Tiffany Newton, Heather Lang, Jennifer Putt

### Faculty

Wendy Ashley, Eli Bartle, Tiffani Brooks, Jodi Brown, Marjorie Chase, Luis Curiel, Jean Daniels, Judy DeBonis, James Decker, Julie Gould, Sharon Greene, Beth Halaas, Jennifer Henningfield, Vanessa Hirs, Alison King, Theresa Knott, Patricia Lane, Amy Levin, Susan Love, Janis Lyons, Katie Mortimer, Caroline Nersessian, José Paez, Hyun-Sun Park, Byron Parker, Luis Pereira, Jose Ramos, Leona Smith Di Faustino

### Degree Programs

Graduate:

**Master of Social Work (MSW)**

### Program

The Master of Social Work Degree at CSUN provides students with a strong academic Program with professional skill development that provides social services to the San Fernando Valley adjacent cities as well as state, national and global communities. This full-time Program consists of 2 academic years and 19 courses equaling 60 credits, of which 12 are in field placement. The first year or foundation year of the Program consists of 2 semesters for all students, including Core course content of social work micro, mezzo and macro practice; multicultural practice; DSM-IV-TR diagnosis; human behavior and the social environment; social welfare policy and advocacy; and social research and field placement. Other required content for professional accreditation includes social work values and ethics, populations-at-risk, diversity, and social and economic justice. The total units (minimum of 60) in the Program meet the requirements for professional accreditation.

### Three-Year, Part-Time Program

The 2-year, part-time program consists of 2 calendar years, including a minimum of 20 courses (at least 12 units of which are field courses) and completion of 2 field internship placements.

The 3-year, part-time student cohorts complete their course of study over a 3-year period. Students take 2 or 3 courses per semester taking place on weekday evenings and some Saturdays. The field placement for the 3-year, part-time program consists of a minimum of 16 hours of field internship per week during 2 of the 3 years.

### Admission Requirements

1. A Baccalaureate Degree from an accredited University in Sociology, Psychology, the liberal arts or similar program;
2. A GPA of 3.0;
3. Submit a Social Work Program application form that includes a personal statement; and
4. Submit 3 letters of recommendation, at least 1 from an academic institution.

### Foundation Courses (30-33 units)

|      |     |  |
|------|-----|--|
| SWRK | 501 | Human Behavior and Social Environment I (3)  |
| SWRK | 502 | Human Behavior and Social Environment II (3) |

|      |     |  |
|------|-----|--|
| SWRK | 510 | Generalist Social Work Theory and Practice I (3)       |
| SWRK | 520 | Social Work Practice in Multicultural Contexts (3)     |
| SWRK | 521 | Generalist Social Work Theory and Practice II (3)      |
| SWRK | 522 | Foundations of Field Education I (3)                   |
| SWRK | 523 | Foundations of Field Education II (3 -3)               |
| SWRK | 525 | Social Welfare Policy and Services (3)                 |
| SWRK | 535 | Social Work Research Methods I (3)                     |
| SWRK | 503 | Psychosocial Assessment and Diagnostic Formulation (3) |

### Advanced Concentration Courses (30 units)

#### Focus: Advanced Practice with Urban Families

#### Required (24 units)

|      |     |  |
|------|-----|--|
| SWRK | 601 | Advanced Social Work Practice with Urban Families I (3)  |
| SWRK | 602 | Advanced Social Work Practice with Urban Families II (3) |

| SWRK | 623 | Advanced Field Practicum with Urban Families II (3)      |
| SWRK | 630 | Family Crisis, Trauma and Grief (3)                      |
| SWRK | 635 | Social Work Research Methods II (3)                      |
| SWRK | 645 | Urban Social Policy and Advocacy (3)                     |
| SWRK | 698 | Capstone Project (3)                                     |

#### Electives (6 units)

#### Choose 2 courses from the following:

|      |      |   |
|------|------|---|
| SWRK | 650A | Child Welfare Services (3)              |
| SWRK | 650B | Addictions (3)                          |
| SWRK | 650C | Mental Health Wellness and Recovery (3) |
| SWRK | 650D | Practice in Child Welfare Settings (3)  |
| SWRK | 650G | Supervision (3)                         |
| SWRK | 650I | Aging and Families (3)                  |
| SWRK | 650J | Immigration (3)                         |
| SWRK | 650K | Dreams (3)                              |
| SWRK | 650L | LGBT (3)                                |
| SWRK | 650M | Group Therapy (3)                       |
| SWRK | 650N | Couples Therapy (3)                     |
| SWRK | 650O | Health-Care Settings (3)                |
| SWRK | 650P | Family Therapy (3)                      |
| SWRK | 650R | Social Work in Schools (3)              |
| SWRK | 650Q | Pre-Licensure Course (3)                |

## Course List

### SWRK 501. Human Behavior and Social Environment I (3)

*Prerequisite: Graduate admission; Acceptance to the MSW Program.* This is the first of 2 human behavior and social environment courses that provide understanding of human behavior and social environmental relationships from an ecological perspective. This course focuses on child development from pre-birth to maturity. Child development is a complex interplay between the emerging child and his/her primary caregiver; the caregiver's intimate relationships; the extended family; and the family's relationships to larger social systems. This class examines the transactions between family members and their transactions in 3 primary arenas—the intimate relationships within the family, daycare/school and the neighborhood. Students will understand the impact of risks and protective factors in human development as identified in groundbreaking longitudinal studies. Additionally, the family's systems of interdependence with political, social, cultural, economic and natural environments are explored.

**SWRK 502. Human Behavior and Social Environment II (3)**

*Prerequisites:* SWRK 501; Graduate admission; Acceptance to the MSW Program. This is the second of 2 human behavior and social environment courses that provide understanding of human behavior and social environmental relationships from an ecological perspective. It will focus on the developmental dynamics of larger social systems, specifically groups, organizations and communities and their influence on individuals and families. The systems' interdependence with political, social, cultural, economic and natural environments is explored. Content emphasizes multiculturalism, diversity and social justice in relation to social systems. This course will examine adult development in the context of social relationships and societal systems (both as shaped by and as shapers of) across early, middle and late adulthood. The class will focus on individuals and families living in an urban setting from a strengths-based perspective. Special attention will be given to diverse and vulnerable individuals and families living in urban settings—LGBTQIA, emancipating foster youths, community-released prisoners, immigrant families and returning veterans.

**SWRK 503. Psychosocial Assessment and Diagnostic Formulation (3)**

*Prerequisite:* Acceptance to the MSW Program. Social workers are often required to practice within multidisciplinary teams of professionals. The role of the social worker within the larger mental health arena is the conceptualization of an individual or family system within a social/cultural/political/economic context and from a strengths-based perspective. This course will teach students to conduct a comprehensive psychosocial assessment of individuals and families living in an urban setting. Students will critique assessment and diagnostic tools, including the *Diagnostic and Statistical Manual of Mental Disorders*. Students completing the course will demonstrate competency in writing and orally presenting a psychosocial assessment, including a multi-axial diagnostic formulation.

**SWRK 510. Generalist Social Work Theory and Practice I (3)**

*Prerequisites:* Graduate standing; Acceptance to the MSW Program. This is an introductory course in generalist social work knowledge, values and skills. Attention is given to the historic development of social work practice; the nature and application of social work values and ethical principles; the theoretical framework of helping methods; and the helping process of engagement, assessment, planning, intervention and evaluation. Emphasis is on a generalist approach to helping within the person-in-environment and eco-systems perspectives of services with individuals, couples, families and small groups.

**SWRK 520. Social Work Practice in Multicultural Contexts (3)**

*Prerequisites:* Graduate standing; Acceptance to the MSW Program. This course is designed to assist graduate social work students in understanding and interacting in a culturally competent manner with the multitude of groups that are identified by race, culture, ethnicity, class, religion, gender, age, sexual orientation, mental or physical disability, and regional and national origins that compose the diverse cultural mosaic of the U.S. The course also will cover issues relating to international social work practice and the increasingly interconnected global economy.

**SWRK 521. Generalist Social Work Theory and Practice II (3)**

*Prerequisites:* Graduate standing; Acceptance to the MSW Program. This course is designed to help students understand organizations, institutions and communities, and the knowledge bases of social work generalist practice for interventions at this level. It provides an opportunity to explore selected macro models of practice and learn about human service organizations that often serve as an immediate context for community practice.

**SWRK 522. Foundations of Field Education I (3)**

*Prerequisites:* Graduate standing; Acceptance to the MSW Program. Field education in the professional foundation year is designed to permit the student to apply the knowledge, skills and values learned in courses in the liberal arts, social work practice, social welfare policy and services, human behavior in the social environment, and social research in an educationally supervised experience. Students are required to complete approximately 200-250 hours of supervised practice during the course in an assigned social service agency. Agency assignments are made by the field coordinator after consultation with the student. (Letter grade only)

**SWRK 523. Foundations of Field Education I (3-3)**

*Prerequisite:* SWRK 522. Field education in the professional foundation year is designed to permit the student to apply the knowledge, skills and values learned in courses in the liberal arts, social work practice, social welfare policy and services, human behavior in the social environment, and social research in an educationally supervised experience. Students are required to complete approximately 250-300 hours of supervised practice during the course in an assigned social service agency. Agency assignments are made by the field coordinator after consultation with the student. (Letter grade only)

**SWRK 525. Social Welfare Policy and Services (3)**

*Prerequisites:* Graduate standing; Acceptance to the MSW Program. This course examines economic, historical, political, intellectual, socio-cultural, leadership, values, ideologies and other such factors shaping social welfare, economic policy, programs and services. It addresses various frameworks for studying social welfare policy, programs and services, and examines the roles of policy-makers, the processes of social change and the roles of social workers as facilitators of positive social change. Emphasis is placed on effects of social and economic policy decisions on impoverished and oppressed people.

**SWRK 535. Social Work Research Methods I (3)**

*Prerequisites:* Graduate standing; Acceptance to the MSW Program. This foundation course is designed to provide an introduction to research methods and to produce an appreciation of the research process. The course provides an overview of social science research methods useful for social work practice. The class provides the foundation of knowledge and skills that enable students to be intelligent consumers of science-based information, to conduct social research and to critically evaluate social work practice. Students will be prepared to participate in a range of social work research activities, including: (a) conceptualization of research problems; (b) review of the literature; (c) research designs; (e) measurement; (f) data collection; and (g) evaluation of data. The student will gain an understanding of how research can facilitate and inform practice decisions and on-going evaluation of one's practice.

**SWRK 601. Advanced Social Work Practice with Urban Families I (3)**

*Prerequisite:* Second year standing. This course advances students' theoretical knowledge and practice skills in working with urban families and small groups. The course utilizes a family-systems perspective and integrates such concepts as family stress and resilience, prevention and recovery in understanding and treating families through the phases of treatment from engagement and assessment to termination and evaluation. Emphasis is placed on the development and enhancement of knowledge, skill, theories and values specific to family practice. Various family therapy models will be introduced, with an emphasis on those substantiated by evidence-based research. Theories of the family, family development and diverse family structures are examined. Several specific issues commonly faced by families in urban environments also are examined, including specific models in prevention and recovery.

**SWRK 602. Advanced Social Work Practice with Urban Families II (3)**

*Prerequisites:* SWRK 601; *Second year standing.* This course advances student's knowledge and practice skills in working with individuals and couples. Utilizing a strengths-based, person-in-environment perspective, students are taught engagement, assessment, intervention, evaluation and termination skills. Evidence-based practice models will be introduced, teaching students to evaluate and critique their effectiveness with diverse clients. The major focus is on developing skill and competence with individuals within the context of their urban family and system.

**SWRK 622. Advanced Field Practicum with Urban Families I (3)**

*Prerequisite:* *Second year standing.* Advanced Field Practicum I is the first semester of the advanced concentration field practicum courses. In the advanced field practicum, students continue to build on the knowledge and skills gained during the foundation program. The course provides field education about the advanced concentration curriculum, which focuses on social work with urban families. The first practicum is designed to provide experience in direct work with families or subsets of families, offering an opportunity to put classroom learning into practice. Students are required to complete approximately 250-300 hours of supervised practice in their assigned social service agency and attend the field practicum course designed to integrate classroom learning and field experience. (Letter grade only)

**SWRK 623. Advanced Field Practicum with Urban Families II (3)**

*Prerequisite:* *Second year standing.* Advanced Practice with Urban Families Field Practicum II is the second semester of the advanced concentration field practicum courses. The course provides field education about the advanced concentration curriculum, which focuses on social work with urban families. This second practicum is designed to provide experience in larger-system work with and on behalf of families, coordinating with the content classroom learning. During the second semester of field practicum, students continue at their first semester assigned placement site while continuing to enhance their social work practice skills. Students are required to complete approximately 300-360 hours of supervised practice in their assigned social service agency. (Letter grade only)

**SWRK 630. Family Crisis, Trauma and Grief (3)**

*Prerequisite:* *Second year standing.* This course examines the complex issues of family crisis, trauma and grief for social workers working with urban families and individuals who have experienced these conditions. Several theoretical approaches are examined, with an emphasis on crisis intervention in traumatic and stressful situations, as well as issues of death and dying and the grief and loss associated with them. In the modern urban environments, many people experience traumatic events in their daily lives. The purpose of the course is to acquaint social work students with the nature and impact as well as some of the concepts, theories and principles for dealing with client systems of all sizes when they face crisis, trauma and grief. The significance of crisis, trauma and grief for fields of such practice as mental health, hospital social work, child welfare, gerontology and other social services, and in community violence and terrorism are explored.

**SWRK 635. Social Work Research Methods II (3)**

*Prerequisites:* *Second year standing; SWRK 535.* This course provides a more in-depth view of social science research methods useful for social work practice with urban families. It provides the knowledge and skills that enable students to be intelligent consumers of information, to conduct social research and to critically evaluate social work practice. Students also will learn how to use research to scientifically evaluate their own practice. This advanced-year course builds on knowledge of research concepts and methods developed during foundation year research courses, particularly SWRK 535, as well as on the expansion of knowledge students acquire about human behavior, social work practice and social welfare policies and programs. It extends students' understanding of research methods and their ability to evaluate social work practice using a variety of research designs. Students will learn the skills of problem formulation, operationalization and examination, and utilization of the peer-reviewed literature by focusing on a research topic they are passionate about. This work will serve as the foundation on which students' Capstone projects will be based.

**SWRK 645. Urban Social Policy and Advocacy (3)**

*Prerequisite:* *Second Year standing.* This course is designed to help students gain knowledge and skills of policy practice (including both analysis and advocacy) to effectively participate in the development and advancement of policies that support and effect change at multiple levels of diverse client systems in urban environments. This course helps build skills in both formal and informal policy analysis, identifying underlying values and communicating and organizing to effect policy formation and change.

**SWRK 650A-Z Selected Topics in Social Work (3)**

*Prerequisite:* *Second year standing.* In-depth study of a selected theme or issue in social work. Topics offered may change from semester to semester. Critical writing and reading is required. (A) Child Welfare; (B) Addictions; (C) Mental Health Wellness and Recovery; (E) Practice DSM-IV-TR; (G) Supervision; (I) Aging and Families; (J) Immigration Issues and Practice in Urban Settings; (K) Dream Work/Interpretation; (L) Social Work with Lesbian, Gay, Bisexual and Transgender Individuals, Families and Communities; (M) Group Therapy in Mental Health Settings with Urban, Multicultural Clients; (N) Couples Therapy: A New Research-Based Approach; (O) Social Work in Health-Care Settings; (P) Family Therapy for Social Workers; (Q) LCSW Preparation Course; and (R) Social Work Practice in Schools.

**SWRK 698. Capstone Project (3)**

*Prerequisites:* *Second year standing.* Offered as the culminating experience of the Graduate Program, students complete an individual or group research project reflecting the students' interests and needs in working with urban families. Outcomes of this seminar will require students to collect, analyze and report direct observations; write a research paper that includes a title page, abstract, background, methods and discussion sections conforming to *APA Publication Manual* guidelines; and present a poster in an open community-invited forum. This project meets the culminating experience requirements.

**SWRK 699A-C. Independent Study (1-3)**

*Prerequisites:* *Second year standing.* This course may be taken to develop expertise in areas not included in the regular curriculum or as preparation for the Comprehensive Examination.

### Emeritus Faculty

Elizabeth Bluth, John Crowther, Veronica Elias, Alfred Himelson, Vincent Jeffries, Ronald Krane, Kian Kwan, Wayne Plasek, Jane Prather, Harvey Rich, Lawrence Sneden, Nathan Weinberg, Lewis Yablonsky

### Programs

#### Undergraduate:

##### **B.A., Sociology with Options:**

Option I General Sociology

Option II Criminology and Criminal Justice

Option III Social Welfare

Option IV Work and Society

##### **Minor in Sociology**

#### Graduate:

##### **M.A., Sociology**

### Department Programs

The Sociology Department offers a Major with various options (tracks of focused interests) and a Minor and participates in the interdisciplinary Child and Adolescent Development, Liberal Studies and Urban Studies Majors, and the Gerontology, Jewish Studies and Gender and Women's Studies Minors. The Major is designed for students who: desire to move directly into careers involving general urban problems, social welfare, counseling, criminal justice, community work., research, politics, publications, public relations and business; desire a liberal arts education with emphasis on Sociology; desire a liberal arts background to prepare themselves for professional graduate study in law, business, medicine, or teaching; or desire a background to prepare themselves for graduate study in Sociology, Social Welfare and other related fields.

### Major

Sociology is the study of social life, social change and the social causes and consequences of human behavior. As human behavior is primarily social, sociology can range from the study of sexuality to criminology to social welfare or to contemporary issues in corporations, families and business. Sociology provides an excellent liberal arts background that prepares students for advanced degrees or employment upon graduation.

### Careers

Sociology provides an excellent liberal arts background that prepares students for a wide variety of careers ranging from law to business to medicine. Sociology Majors find employment in management, social work, statistical analysis, market research, education, criminal justice, government, probation, community and social services.

### Academic Advisement

Students are strongly encouraged to seek advisement from faculty members or the Advisement Office concerning their academic programs. Faculty and advisor office hours are posted in the Sociology Department Office and on the Department website. Contact the College of Social and Behavioral Sciences Student Services Center for undergraduate advisement and David Boyns for graduate advisement.

### Student Learning Outcomes of the Undergraduate Program

Completion of the Degree in Sociology will provide the student with a knowledge and understanding of the basic data, concepts, theories (classical and/or contemporary) and modes of explanation appropriate to the understanding of human societies; a basic knowledge of the 4 Options offered in the Department—general sociology; criminology/criminal justice, social welfare (method/practice); and work and society—and the statistical and methodological skills (both qualitative and quantitative) needed for sociological research, their application to real-world problems and the appropriate interpretation of research results.

### Requirements for the Bachelor of Arts Degree

#### 1. Lower Division Required Coursea, All Options

|      |     |   |
|------|-----|---|
| MATH | 140 | Introductory Statistics (4)   |
| SOC  | 150 | Introductory Sociology (3)  |
| SOC  | 202 | Sociological Analysis (3)   |
| SOC  | 250 | Introduction to Criminology and Criminal Justice (Option II only) (3) |

#### Select One of the Four Options

##### A. Option I. General Sociology

The General Sociology Option is intended for those who wish a liberal arts education; those who desire to pursue graduate education in Sociology or allied fields; and those who wish specific occupational preparation for a number of fields. Students may focus on the areas of American Studies, Criminology and Criminal Justice, Social Psychology, Social Research, Ethnic Studies, Sociology of Work and Social Problems as a way of developing their interests and knowledge in broad areas of specialization within the discipline.

#### 1. Upper Division Required Courses (20 units)

|     |        |  |
|-----|--------|--|
| SOC | 364/L  | Social Statistics and Lab (3/1)          |
| SOC | 368/S  | Sociological Theory I and Seminar (3/2)  |
| SOC | 468/S  | Sociological Theory II and Seminar (3/2) |
| SOC | 497/L  | Methods of Social Research and Lab (3/1) |
| SOC | 498AEE | The Sociological Experience (2)          |

#### 2. Electives (18 units)

Select 18 units of Upper Division Sociology courses. Courses cannot fulfill more than one requirement.

|   |            |
|---|------------|
| <b>Total Units in Option I</b>                  | <b>48</b>  |
| <b>General Education Units</b>                  | <b>48</b>  |
| <b>Additional Units</b>                         | <b>34</b>  |
| <b>Total Units Required for the B.A. Degree</b> | <b>120</b> |

##### B. Option II. Criminology and Criminal Justice

The Criminology and Criminal Justice Option is intended for those students who have an interest in the study of criminology and criminal justice. It provides students with theoretical and practical foundations for an understanding of criminal and deviant behavior. In addition, this Option provides the student with skills for further education or entry-level employment in the areas of corrections, administration of justice and criminal justice systems.

**1. Upper Division Required Courses (27-28 units)**

|               |   |
|---------------|---|
| SOC 345       | Social Psychology (3)   |
| SOC 364/L     | Social Statistics and Lab (3/1)   |

**C. Option III. Social Welfare**

The Social Welfare Option is intended to provide students with knowledge and skills necessary for entry to professional-level employment in social service settings, such as hospitals, probation and parole, public welfare, community planning, mental health and physically handicapped services. Students choosing this Option should plan to do so in their junior year and are required to see an advisor in the Option at least once each semester to plan their course work. Students planning to pursue this Option are encouraged to seek advisement prior to their junior year if possible. Students must apply for the field study internship courses the Spring semester prior to Fall semester placement.

**1. Upper Division Required Courses (46 units)**

|              |   |
|--------------|---|
| SOC 364/L    | Social Statistics and Lab (3/1)                 |
| SOC 368/S    | Sociological Theory I and Seminar (3/2)         |
| or SOC 468/S | Sociological Theory II and Seminar (3/2)        |

**D. Option IV. Work and Society**

The Work and Society Option is intended for students interested in studying the diverse ways by which work is organized and experienced. It provides students with a theoretical and practical foundation for understanding how changing labor markets and globalization affect the workplace, as well as the consequences of changes in the nature of work for individuals, institutions and society. In addition, this Option prepares students for further education or entry-level careers in a variety of contemporary work settings, such as human resource management, workforce development and training, career and educational counseling, and labor and community organizing. Students majoring in this Option are required to meet with one of the Option advisors.

**1. Upper Division Required Courses (25 units)**

|           |  |
|-----------|--|
| SOC 340   | Sociology of Work (3)                    |

**Requirements for the Master of Arts Degree**

The M.A. Graduate Program in Sociology is intended for students who are: interested in pursuing Doctoral Degrees and careers in teaching and research after the completion of the M.A. Degree; are interested in the Degree as preparation for various occupations; or are interested in pursuing their liberal arts education further in the field of Sociology.

**A. For Admission to Classified Graduate Status in the Program:**

1. Bachelor's Degree, including all Sociology Undergraduate Core requirements, or the equivalent.
2. University requirements for Classified status. Department evaluation and approval are required for admission to either Classified or Unclassified Graduate Standing.

**B. Sociology Department Requirements for Graduate Admission**

1. 3.0 GPA;
2. Graduate Record Exam for all applicants. A score in the upper 50<sup>th</sup> percentile in at least 1 of the 3 portions of the test is required if the student has less than a 3.0 GPA;
3. 2 letters of recommendation from faculty members who know the applicant's potential for success in graduate studies;
4. Transcripts of undergraduate work;
5. A 5-10 page writing sample (term or research paper); and
6. Written statement of purpose.

The Department's standards for admission are higher than those required by the University. The Department will determine whether

a student meets the additional requirements needed for admittance into the Sociology Graduate Program. All material must be submitted to the Sociology Department by the Department's deadline to be considered. See section on Graduate Programs in the Catalog for additional information regarding Classification. For further information, contact the Sociology Department graduate advisor.

**M.A. Degree in Sociology****A minimum of 30 units of approved graduate courses.****1. Required Courses (12 units)**

|     |     |   |
|-----|-----|---|
| SOC | 601 | Sociological Theory in Historical Perspective (3) |
| SOC | 670 | Studies in Contemporary Sociology (3)             |
| SOC | 690 | Social Research (3)                               |
| SOC | 691 | Advanced Social Research Techniques (3)           |

**2. Approved Graduate Courses (12 units)**

Most of these units should be targeted toward the student's area of specialization. One of these courses should be SOC 680—Advanced Quantitative Methods, which is considered a prerequisite course for SOC 690. Students also are strongly encouraged to enroll in SOC 695C—Graduate Proseminar during their first year of study.

**3. Electives (6 units)**

Selected from Sociology or related fields with advisor approval.

**Comprehensive Exams or Master's Thesis**

**1. Comprehensive Examinations:** 3 areas, including sociological theory, sociological research methodology, and 1 of the following: sociology of aging, social psychology, ethnic relations, sociology of family, organizational analysis, medical sociology, sociology of gender and sex, sociology of work, and criminology and criminal justice.

*Students must enroll in SOC 697—Directed Comprehensive Studies, on a Credit/No Credit basis in the semester in which they plan to take the Comprehensive Exam.*

**2. Master's Thesis:** After having completed 15 units (but no more than 24 units) of graduate work, of which at least 9 units are in 500- to 600-level courses with a 3.50 GPA in graduate Core courses and with no grades below a "B," a student is required to:

- a. Pass a qualifying examination in Sociological Theory and Methodology.
- b. Name a Thesis advisor and satisfactorily complete an 8-10 page Thesis Proposal. At a Thesis Proposal Hearing, the student will be orally examined on the proposal, and on sociological theory and research methods. The advisor, in consultation with the Graduate Committee and the Department Chair, will recommend whether the student proceeds to the full Thesis. Students enroll in SOC 698—Thesis Project on a Credit/No Credit basis in the semester in which they plan to complete the Thesis.

|   |           |
|---|-----------|
| <b>Total units Required for the M.A. Degree</b> | <b>30</b> |
|---|-----------|

**Course List****SOC 150. Introductory Sociology (3)**

Study of human society from the perspective of contemporary social science. Particular emphasis on analysis and understanding of modern society and its salient problems. (Available for General Education, Social Sciences.)

**SOC 200. Social Crises of Today (3)**

Helps the student understand the bases of some of the major social crises of the present day. Topics include alcoholism, delinquency and street crime, ethnic tensions, gambling, international tensions, organized crime, political corruption and terrorism. (Available for General Education, Social Sciences.)

**SOC 201. Contemporary Family in American Society (3)**

Sociological analysis of the American family, including historical and recent changes, present nature, and the sociocultural and technological forces instrumental in shaping these conditions. Topics include traditional family and alternatives, role analysis, communication patterns, family crises and change, future of the family. (Available for General Education, Social Sciences.)

**SOC 202. Sociological Analysis (3)**

*Prerequisite:* SOC 150. Discussion of the logic and procedures of scientific analysis of social phenomena. Practice in conceptualizing and operationalizing social variables, and in formulating testable hypotheses. Examination of the role of quantitative techniques and data reduction in current sociological analysis.

**SOC 230. Introduction to Human Sexual Behavior (3)**

*Prerequisite:* ANTH, PSY or SOC 150. Introductory overview of human sexual function and sexual behavior. Emphasis on the historical and religious backgrounds of the prevailing attitudes toward sex in our culture, as well as to current sexual practices from the perspective of contemporary social science. Additional topics include sexual values and ethics, love, legal aspects of sexual behavior and eroticism in American culture. (Cross listed with ANTH and PSY 230.)

**SOC 250. Introduction to Crime and Criminal Justice (3)**

Introduction to the fields of criminology and criminal justice. Distinctions between criminology and criminal justice, how to measure crime, and basic theoretical explanations of criminal behavior.

**SOC 303. The Family (3)**

*Prerequisite:* SOC 150. Family as a social institution on the basis of the data of ethnology, history and contemporary studies. Special attention to contemporary culture patterns.

**SOC 304. Sociology of Deviance (3)**

*Preparatory:* SOC 250. Deviant behavior in contemporary American society. Various definitions of deviance and social responses to the phenomenon. Theories of structural conditions and personal motivations contributing to different life styles. Analysis of deviant subcultures and individual case studies.

**SOC 305. Culture and Personality (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* ANTH, PSY or SOC 150. Cross-cultural study of the development of individual personality in the socio-cultural milieu. Special attention is given to child-rearing practices, social personality, social character, mental health and illness, and deviant behavior in several Western and non-Western societies. Not to be taken for credit in addition to ANTH 305. (Available for General Education, Social Sciences.)

**SOC 306. Jewish Communal and Family Structure (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* SOC 150. Study of Jewish communal and family structure in an international context as a function of religious requirements and social circumstances. (Available for General Education, Comparative Cultural Studies.)

**SOC 307. Ethnic Diversity in America (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* SOC 150. Description and analysis of contemporary, changing ethnic cultures and lifestyles in American society. Focused analysis of ethnic cultures/lifestyles by social class, family form, sex role and orientation, age-grouping and influences of social movements and popular culture. (Available for General Education, Comparative Cultural Studies.)

**SOC 312. American Society (3)**

*Prerequisite:* SOC 150. Development, form and organization of basic institutions in American society and its communities and regions. Social genesis of contemporary problem situations.

**SOC 324. Sociology of Sex and Gender (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* SOC 150. Analysis of contemporary and historical sex roles in major societal institutions, including economic, political, educational, legal and medical systems, and institutions of marriage and family. (Available for General Education, Social Sciences.)

**SOC 325. Sex Roles and Work (3)**

*Prerequisite:* SOC 150. Examination of current research on women in the labor force in U.S. and other industrial societies, including the impact of affirmative action programs, changes in structure and function of industrial labor forces, and projections of future roles of women and men in the labor force.

**SOC 328. The Child and Society (3)**

*Prerequisite:* SOC 150. Sociology of childhood. Sociological perspective on the changing role of the child, child socialization, the role of social institutions in the shaping of childhood experiences and behavior, and the problems of childhood are examined in the larger society and in selected ethnic and minority groups.

**SOC 333. Chinese Society (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* SOC 150. Study of Chinese social order, culture, institutions, values, beliefs and social personality as they occur in traditional and contemporary China. Special attention is given to those social and cultural transformations that have shaped modern Chinese society. (Available for General Education, Comparative Cultural Studies.)

**SOC 335. Jewish Identity in the U.S. (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* SOC 150. Social-psychological study of a religious and ethnic minority. Comparison with other sub-cultural groups in America. Social institutions and processes involved in Jewish identity. (Available for General Education, Comparative Cultural Studies.)

**SOC 340. Sociology of Work (3)**

*Prerequisite:* SOC 150. Analysis of the structural context of work in contemporary society, including preparation for access to different positions within the occupational structure. Study of work settings, including formal and informal characteristics, changes in the structure of work and case histories involving work experiences and occupational subcultures.

**SOC 345. Social Psychology (3)**

*Prerequisite:* SOC 150. Study of the group-setting of the individual, theories, concepts, principles and their application. History of the field as an interdisciplinary specialty. Current research and trends.

**SOC 348. Juvenile Delinquency (3)**

*Preparatory:* SOC 250. Extent and distribution of delinquency, with emphasis on the local area. Meaning, implications and treatment of delinquency. Individual-level and social environmental theoretical explanations

**SOC 350. Population Dynamics (3)**

*Prerequisite:* SOC 150. Analysis of the nature, causes and consequences of major world population trends as they are related to urban studies, medical sociology and ecology. Studies fertility, mortality and migration; sex ratios; race and ethnic composition; marital, educational and occupational status; and census and vital statistics.

**SOC 355. Criminology (3)**

*Preparatory:* SOC 250. Nature of crime, causal factors of criminal behavior and group control of the crime problem.

**SOC 356. Introduction to Social Welfare (3)**

*Prerequisite:* SOC 150. Exploration of social welfare as one of the basic institutions in contemporary society, including its historical development and changing philosophy. Place of social services within the institution of social welfare.

**SOC 357. Introduction to Social Work Practice (3)**

*Prerequisite:* SOC 150. *Required of all Option III: Social Welfare Majors.* Introduction to social work practice. Knowledge and theory related to interviewing skills and basic methods of intervention. Students engage in volunteer activities in social work agencies.

**SOC 364/L. Social Statistics and Lab (3/1)**

*Prerequisite:* MATH 140. *Corequisite:* SOC 364L. *Preparatory:* SOC 150. Methods of organizing and analyzing quantitative sociological data. Satisfies the statistics requirement for the Major. Lab: Problem solving, exercises, projects and data analysis. Use of Sociology lab or computer.

**SOC 368/S. Sociological Theory I and Research Seminar in Sociological Theory I (3/2)**

*Prerequisite:* SOC 150. *Corequisite:* SOC 368S. Study of early sociological theories. Emphasis on whole theoretical systems. Includes Comte, Spencer, Marx, Durkheim, Pareto, Weber and Simmel, as well as other sociologists who did their major work before 1917. Seminar: Discussions and analysis of early sociological theories and theorists from Comte through Weber, including supervised individual or group projects and reports.

**SOC 370. Political Sociology (3)**

Lecture-discussion of the social and cultural bases of political ideologies and processes. Study of power and its varying relationships to decision making at community and national levels. Analyses of the roles, structure and interaction of voluntary and political organizations in the political system, including conflict and its resolution. Sociological interpretations of contemporary American political behavior.

**SOC 390. Race Relations (3)**

*Prerequisite:* SOC 150. Study of diverse racial and ethnic groups, including Latino, Chicano, Asian, Black and American Indian, with a focus on the contemporary American scene. Status distinctions, migration and settlement patterns, segregation, integration, assimilation, prejudice, discrimination, economic and political factors, social movements, and interaction patterns both within and between these groups and their effects upon American life are studied.

**SOC 395. Applications of Computers in Sociology (3)**

*Prerequisites:* SOC 150; *Some training in statistics is advised and/or instructor consent.* Sociological knowledge as related to the impact of computers on American institutions. Examination and use of large data files. Application of computers in sociological inquiry.

**SOC 396A-Z. Experimental Topics Courses in Sociology (3)**

*Prerequisite:* SOC 150. Selected topics in sociology, with course content to be determined.

**Upper Division Courses Acceptable for the Master's Degree**

Note that 300-level courses in Sociology do not carry credit toward the Master's Degree in Sociology.

**SOC 400. Organizational Theory (3)**

Study of contemporary sociological theories of organizational dynamics and behavior. Analysis of the social structural and interactional dynamics of organizational settings. Includes supervised individual or group projects and reports. Available for graduate credit.

**SOC 401. Class, Status and Power (3)**

Analysis of the distribution of wealth, prestige and power. Study of the causes of poverty, life chances of the poor, lifestyles of the wealthy, upward and downward mobility, and class and group conflict in society.

**SOC 410. Urban Sociology (3)**

Worldwide processes of urbanization, both historical and contemporary. Theoretical approaches and research and their implications for urban policy and change. Focuses on social structure, social differentiation and lifestyles found within a metropolitan area and in diverse metropolitan areas and their implications.

**SOC 411. Sociology of Education (3)**

Sociological analysis of education as an institution of socialization, including relevant theories, its structure, the challenges of diversity, the complexities of the urban/suburban school setting and current professional issues. Focuses on how issues of diversity impact the institution at the macro level, as well as the experiences of administrators, teachers, students, families and communities.

**SOC 418. Women and Crime (3)**

*Preparatory:* SOC 250. Focuses on women as perpetrators and victims of crime. Explores application of gender to understanding the patterns, context and implications of crime and victimization.

**SOC 420 CSL. Mentoring to Overcome Struggles and Inspire Courage (MOSAIC) (3)**

The course will include the sociological examination of the issues facing at-risk youth in their personal relationships and in their school and community environments. In doing so, students explore how sociological concepts and theories apply in "real-world" situations. Furthermore, student mentors are paired with youth in the community who have been identified as at risk of academic failure and/or delinquent behavior. The mentoring relationship will be examined in the classroom and implemented in the field.

**SOC 426. Social Legislation and Social Policy (4)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* Study of the social and philosophical elements related to development and operation of poverty law, social insurance law, health service, correctional law, juvenile law, mental health law, family law, employment provision and manpower law, child protection law and similar laws. Regular written assignments are required.

**SOC 434. The Sociology of Law (3)**

*Preparatory:* SOC 250. Introduction to the sociological study of law and the legal system, with emphasis on social analysis of criminal law and the courts. Specifically, the course addresses social perspectives on the origins of law and law-making, the application and enforcement of law, and the administration of justice through the legal process. Critical thinking and writing skills are emphasized in the course through the use of legal case study, essay examinations and a final research paper dedicated to the application of legal sociology to current crime issues.

**SOC 438. Diversity and Crime (3)**

*Preparatory:* SOC 250. Introduction to a variety of conceptions and explanations of diversity issues in crime. Begins with an analytic overview of philosophical, ideological, economic, political and sociological principles underlying human diversity. Each dimension of human diversity is then examined as it relates to crime and criminal justice, with emphasis on historical development, social manifestations and practical impacts on specific representative populations. The last part of the course deals with social-policy reactions to diversity issues in crime and criminal justice.

**SOC 440. Sociology of Aging (3)**

Analysis of aging in its social and social-psychological aspects throughout the lifespan. Emphasis on particular social problems of the elderly, including retirement, widowhood, suicide, housing, income maintenance, attitudes toward death and dying and more.

**SOC 445. Social-Psychological Aspects of Health Care Problems (3)**

*Prerequisites:* HSCI 314; SOC 345. Review of current social psychological theories concerning attitudes, communication, interaction, role and individual behavior as applied to health-care and related settings.

**SOC 450. Medical Sociology (3)**

Survey of sociological theory and research techniques related to mortality, illness and medical treatment. Emphasis on the epidemiological aspects of these phenomena in various groups, hospitals, community health settings and more.

**SOC 451. Sociological Aspects of Human Sexuality (3)**

*Prerequisite:* SOC 230. Emphasizes the sociological influences shaping human sexual behavior, with an emphasis on learning social scripts.

**SOC 452. Sociology of Lesbian, Gay, Bisexual and Transgender Communities (3)**

*Prerequisites:* Junior standing. Analysis of cross-cultural and historical treatment of lesbian, gay, bisexual, transgender and queer communities. Survey of sociological research on these communities, including an examination of theory and practice. Analysis of homophobia and other attitudes toward these communities.

**SOC 454. Policing Society (3)**

*Preparatory:* SOC 250. *Exposure to research and literature related to the study of policing.* Explores the history of policing; selection, training and socialization of the police; police culture; female and minority officers; community policing; police deviance and ethics; police discretion; private policing; and hazards of policing. Looks at "classic" studies in addition to the most up-to-date research on policing. Approaches the study of policing from a sociological viewpoint, using sociological theory to address topics of policing.

**SOC 456. Proseminar in Sexual Disorders (3)**

*Prerequisites:* HSCI 441, PSY 453 or SOC 451, or graduate standing; *Instructor consent.* Intensive study of sexual dysfunction, including etiology, models of treatment, effects of aging and drug use on sexual attitudes and behavior, disorders of sexual desire and ethical issues in sex therapy. Specifically designed for students planning careers in clinical or community psychology or counseling. (Cross listed with PSY 456.)

**SOC 459. Child Welfare (3)**

Trends in the movement toward establishing the rights of the child to protection and care. Emphasis on the child and the law, compulsory education, school social work, child labor legislation, institutional and foster care for the healthy and the sick child, and adoption legislation.

**SOC 467. Sociology of Religion (3)**

Sociological theories of religious behavior from Max Weber to the present. Comparative study of the relationships between the role, ritual and belief systems of religious institutions and their social contexts.

**SOC 468/S. Sociological Theory II and Research Seminar in Sociological Theory II (3/2)**

*Corequisite:* 468S. Discussion of sociological theories since 1917. Discussion and analysis of contemporary theories and theorists, including supervised individual or group projects and reports.

**SOC 470. Methods of Social Work (3)**

*Prerequisite:* SOC 345, 356, 357. *Required for Sociology Option III Majors.* Theories and concepts in social-work practice. In-depth analysis of methods of intervention with individuals, families, groups and communities. Emphasis on the integration of theories with practice.

**SOC 474. Corrections (3)**

*Preparatory:* SOC 250. Offers sociological criminological examination of the field of corrections, both substantively and critically. Includes patterns and trends in incarceration rates; police and judicial processes resulting in incarceration; climate and culture of correctional facilities; and gender and diversity in corrections and community-based corrections, including probation, parole, halfway houses and community-based treatment programs. Critical examination of current issues in corrections also is covered.

**SOC 475AEE. Supervised Field Instruction I (3)**

*Prerequisites:* SOC 345, 356, 357, 357B, 426, 470, 492; *GPA of 2.5 in Upper Division Major courses; Instructor consent. Corequisite:* SOC 472. *Recommended Corequisite:* SOC 475BEE. *Required for all Sociology Option III Majors.* In-service training in social work practice in pre-approved agencies with field and faculty supervision. Pre-enrollment by specified date during the preceding semester is required. Academic Internship course. (Credit/No Credit only)

**SOC 475BEE. Supervised Field Instruction II (3)**

*Prerequisites:* SOC 345, 356, 357, 357B, 426, 470, 492; *GPA of 2.5 in Upper Division Major courses; Instructor consent. Corequisite:* SOC 472. *Recommended Corequisite or Preparatory:* SOC 475AEE. *Required for all Sociology Option III Majors.* In-service training in social work practice in pre-approved agencies with field and faculty supervision. Pre-enrollment by specified date during the preceding semester is required. 180 hours required. Academic Internship course. (Credit/No Credit only)

**SOC 481. Counseling, Interviewing and Intervention (3)**

*Prerequisite:* SOC 345. Experiential training and practice in the skills, methods and techniques of counseling, and the helping interview and intervention in work, group, organizational and community settings by means of in-class role playing, simulation and case studies.

**SOC 482SOC. Practicum in Work and Society (3)**

Supervised field experience in counseling and guidance activities, paraprofessional work settings. Community field placements consistent with student career needs. Class size limited to 15 students. An Academic Internship course. (Letter Grade only)

**SOC 485A. Selected Topics in Criminology (3)**

*Preparatory:* SOC 250. Special seminars in selected topics in criminology offered based on student interest and faculty expertise. Topics involve in-depth study of such specialty criminology areas as gangs, serial murder, victimology or domestic violence.

**SOC 485B. Selected Topics in Criminal Justice (3)**

*Preparatory:* SOC 250. Special seminars in selected topics in criminology offered based on student interest and faculty expertise. Topics involve in-depth study of such specialty areas of criminal justice as minorities in the criminal justice system, community policing or probation and parole.

**SOC 486SOC. Social Science Career Internship (3)**

*Prerequisites:* Upper Division standing in a social or behavioral science Major; *Appropriate methods course as specified by the Department; Instructor consent.* Social and behavioral science principles will be applied to the workplace. Students complete learning contracts and submit written reports related to their internships. At least 9 hours per week of supervised field work is required. See section on Academic Internships. (Cross listed with GEOG, PAS, POLS and PSY 486SOC.)

**SOC 492. Dynamics of Social Behavior and Development (3)**

*Prerequisites:* PSY 345 or SOC 345 or other comparable Upper Division course; *Completion of the Lower Division writing requirement.* Sociological aspects of interpersonal behavior, with emphasis on symbolic interaction, social development and socialization theories. Analysis of a variety of social-psychological concepts for understanding individual, family, small group and community dynamics. Discussion of application of theory to practice in social work and related human service fields. Regular written assignments are required.

**SOC 496A-Z. Experimental Topics Courses in Sociology (1-4)**

Special Seminar in selected topics in sociology, with course content to be determined.

**SOC 497/L. Methods of Social Research and Lab (4)**

*Prerequisite:* SOC 364. *Corequisite:* SOC 497L. *Preparatory:* SOC 202. Application of the scientific method to social phenomena and analysis of the techniques. Methods of collecting, classifying, interpreting and presenting social data. Lab: Problems and exercises with research design and data analysis.

**SOC 498AEE. The Sociological Experience (2)**

*Prerequisite:* *Instructor consent.* This course enhances what is taught in the Sociology Major by extending student learning beyond the classroom. It provides students with opportunities to use newly acquired academic skills and knowledge in real-life situations in their own communities. Students will participate in research, internship or service-learning projects under the direction of the instructor. The experience culminates in a written report that demonstrates the student's ability to apply sociological perspectives and research techniques. (Credit/No Credit only)

**SOC 498BEE/CEE. Supervised Field Study (2,3)**

Supervised field observation and study. Written report. Academic Internship course. (Credit/No Credit only)

**SOC 499A-C. Independent Study (1-3)****Graduate****SOC 524. Dynamics of Sex and Gender in Society (3)**

*Prerequisite:* SOC 324 or approved alternatives. Macro-sociocultural analysis of social trends and influences on the characteristics and dynamics of sex/gender roles in the context of major societal institutions. Micro-sociocultural analysis of sex/gender roles in patterns of interaction.

**SOC 545. Seminar in Social Psychology (3)**

Advanced investigation of the dynamics of social interaction. Interdisciplinary research.

**SOC 550. Seminar in Demography (3)**

*Prerequisites:* *Completion of Core requirements in Undergraduate Program or equivalent; A course in population.* Advanced studies of population growth; advanced methods of population analysis; and relation of population to national resources and public policy.

**SOC 555. Seminar in Criminology (3)**

Advanced study in crime, including analyzing criminological data, examining classic and contemporary criminological theory, contemporary aspects of crime and the lawbreaker and methods of crime control.

**SOC 572. Social Policy Research and Evaluation (3)**

Study and evaluation of various areas of social policy, including welfare, criminal justice, health services and planning urban administration.

**SOC 579. Seminar in the Family (3)**

Advanced study of the dynamics of the family as a social institution, with emphasis on recent research regarding processes of family change, family disorganization and reorganization.

**SOC 585A-Z. Selected Topics in Sociology (3)**

*Prerequisites:* *Completion of Core requirements in Undergraduate Program or equivalent; 12 units of 400- or 500-level courses in Sociology.* Special seminars in selected topics in sociology.

**SOC 601. Sociological Theory in Historical Perspective (3)**

Development of systematic sociological theory in its historical dimensions and in its continuity from preceding social thought and social philosophy. Critical analysis of major types of social theory.

**SOC 622. Seminar in Complex Organizations (3)**

Study of theoretical and empirical materials on complex organizations. Consideration may include examples from industry, commerce, public service, government, the military, religion and recreational and benevolent associations.

**SOC 640. Seminar in Applied Sociology (3)**

*Prerequisite:* SOC 364/L or equivalent. *Corequisite:* SOC 698. *Recommended Corequisite or Preparatory:* SOC 570, 591G. Study of the use of sociological theory and methodology in applied research design. Graduate Projects are conducted in areas described in the M.A. Degree option in Applied Sociology.

**SOC 670. Studies in Contemporary Sociology (3)**

Survey of the methods and research of contemporary sociologists, with particular attention to the points of convergence and divergence.

**SOC 680. Sociology. Advanced Quantitative Methods (3)**

*Prerequisite:* SOC 364. Selected topics from new and developing fields of quantitative sociological analysis.

**SOC 690. Social Research (3)**

Advanced study of social research techniques, with supervised application of research methods in a lab or field study situation.

**SOC 691A-G. Advanced Social Research Techniques (3)**

Development of graduate research projects providing training in specific research techniques: (A) observational techniques, (B) survey techniques, (C) historical and comparative techniques, (D) documentary techniques, (E) lab and small group techniques, (F) macro-quantitative techniques, and (G) applied research techniques.

**SOC 695 C. (2)****SOC 696A-B. Directed Graduate Research (3-3)****SOC 697. Directed Comprehensive Studies (3)**

*Limited to students preparing to take the Comprehensive Examination for the M.A. Degree in Sociology. (Credit/No Credit only)*

**SOC 698A-F. Thesis or Graduate Project (1-6)****SOC 699A-F. Independent Study (1-6)**

## Special Education

Michael D. Eisner College of Education

**Chair:** Sue Sears

**Education (ED) 1204**

**(818) 677-2596**

**[www.csun.edu/coe/sped](http://www.csun.edu/coe/sped)**

### *Faculty*

Tamarah Ashton, Nancy Burstein, Deborah Chen, Vanessa Goodwin, Michele Haney, Virginia Kennedy, Beth Lasky, Wendy Murawski, Rachel Friedman Narr, Kathryn Peckham-Hardin, Ellen Schneiderman, Sue Sears, Ashley Skylar, Sally Spencer, Ivor Weiner

### *Faculty Emeriti*

Kenneth Armstrong, Ray Barsch, Ann Bisno, June Downing, Ruth Forer, Joyce Hagen, Phillip Hansen, Barbara Kulik, Joyce Linden, Grace Lee, June Newkirk

### Degree Programs

M.A., Special Education with specializations in:

- Deaf and Hard of Hearing
- Early Childhood Special Education
- Educational Therapy
- Mild/Moderate Disabilities
- Moderate/Severe Disabilities

### Credentials

- Preliminary Education Specialist Credential in Deaf/Hard of Hearing, Early Childhood Special Education, Mild/Moderate Disabilities, and Moderate/Severe Disabilities
- Clear (Induction) Education Specialist Credential in Deaf/Hard of Hearing, Early Childhood Special Education, Mild/Moderate Disabilities, and Moderate/Severe Disabilities

### Added Authorizations

- Autism Spectrum Disorder
- Emotional Disturbance
- Resource Specialist

### Certificates

- Advanced Certificate in Transdisciplinary Intervention
- Educational Therapy Post-M.A. Certificate

### Academic Advisement

All Department faculty members are available during their scheduled office hours or by appointment to advise students during the semester.

### Program Coordinators

- Graduate Programs: Tamarah Ashton
- Teacher Education: Virginia Kennedy
- Clear Credential: Virginia Kennedy

### Department Programs

**A. Master's Degree Program:** The M.A. Degree Program builds on the competencies developed in the Special Education Credential Program, preparing students for positions of leadership, advocacy and scholarship in the schools, the community and within the overall profession of special education and for entry into Doctoral programs. The M.A. Program includes specializations in Deaf and Hard of Hearing, Early Childhood Special Education, Educational Therapy, Mild/Moderate Disabilities and Moderate/Severe Disabilities.

**B. Teaching Credentials:** The Education Specialist Credential prepares special education teachers to meet the educational, social, emotional and vocational needs of children and adolescents with disabilities and their

families. Education Specialist Credential Programs provide specialized course work, field experiences and student teaching for individuals interested in serving students with disabilities. The Department of Special Education offers a Preliminary Education Instruction Specialist Credential and a Clear Education Specialist Credential in Deaf/Hard of Hearing, Early Childhood Special Education, Mild/Moderate Disabilities and Moderate/Severe Disabilities. Clear Credentials are designed for teachers who have completed the Preliminary Credential.

**C. Added Authorizations:** Autism Spectrum Disorder, Emotional Disturbance, and Resource Specialist. A holder of a Special Education Credential may add an authorization to add expertise in areas of special education that were not part of their original Credential authorization.

**D. Certificates:** Advanced Certificate in Transdisciplinary Intervention and Educational Therapy Post-M.A. Certificate.

### Student Learning Outcomes of the Graduate Program

1. Demonstrate competencies as a scholar in the field of special education.
2. Exhibit leadership skills in the field of special education.
3. Serve as an advocate for students with disabilities and their families.

### Student Learning Outcomes of the Preliminary Credential Program

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Make subject matter comprehensible for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

### Student Learning Outcomes of the Clear Credential Program

1. Ability to reflect on one's own practice to support student learning and continued professional development.
2. Advanced professional competencies as identified by the California Commission on Teacher Credentialing (CCTC).

### The Master of Arts Degree In Special Education

The Master of Arts Degree in Special Education builds upon the competencies developed in the Preliminary Education Specialist and Clear Education Specialist Credential Programs. This Degree is designed to prepare graduates for positions of leadership, advocacy and scholarship in schools, the community and within the overall profession of special education. Toward this end, faculty members facilitate the development of student competencies in reflective dialogue, presentations and written avenues of expression.

### A. Requirements for Admission to the Program (Conditionally Classified Status)

1. Baccalaureate Degree from an accredited University or college.
2. Good standing at the last University attended.
3. A minimum of a 2.5 GPA in the last 60 semester units attempted.
4. Admission to the Preliminary Education Specialist Credential Program.
  - a. Students may petition the Graduate Committee for an exception for admission to the Education Specialist Program, verifying one of the following has been met:
    - i. An undergraduate GPA of 3.0 or higher or a University-approved aptitude test for graduate study (GRE or MAT) and has successful completion of the Upper Division Writing Proficiency Exam (UDWPE) with a score of 8 or higher.
      - Score at or above the 50<sup>th</sup> percentile on one of the three GRE subtests; or
      - Score at or above the 50<sup>th</sup> percentile on the MAT.
    - ii. Master's Degree in a related field.

In addition, candidates petitioning for an exception for admission to the Education Specialist Program must verify the following:

- i. Fingerprint clearance: Applications will not be accepted without evidence of fingerprint clearance from the Commission on Teacher Credentialing. Provide a copy of a valid CTC Certificate or Credential. Instructions on completing the online process can be found on the Credential Office website under forms and flyers: [http://www.csun.edu/~sch\\_educ/cred/forms/forms\\_cert\\_of\\_clearance.pdf](http://www.csun.edu/~sch_educ/cred/forms/forms_cert_of_clearance.pdf). Livescan forms and CTC payment confirmation printouts will not be accepted.
- ii. Tuberculosis clearance: Provide evidence of freedom from tuberculosis within the last 2 years. Your test must clearly indicate a negative result. You may complete this test at any health facility you wish. If you are currently enrolled at CSUN, you may contact the CSUN Student Health Center for a TB test at (818) 677-3666. Include a photocopy of your negative test results with this application packet.

#### B. Requirements for Admission to the Program (Classified Status)

1. An undergraduate GPA of 3.0 or higher or a University-approved aptitude test for graduate study (GRE or MAT);
  - a. Score at or above the 50<sup>th</sup> percentile on one of the three portions of the aptitude test of the GRE; or
  - b. Score at or above the 50<sup>th</sup> percentile on the MAT.
2. Successful completion of the Upper Division Writing Proficiency Exam with a score of 8 or higher.
3. 3.0 GPA for all work taken as a Conditionally Classified student.
4. Approval of a plan of study by the student's advisor.

#### Other Requirements:

1. A minimum of 30 units, including a culminating experience is required for completion of the Master of Arts Degree.
2. No more than 12 units of credit may be applied to a Master of Arts Degree Program until Classified status is attained.
3. Courses more than 7 old will not be included in the total of 30 units required for the M.A. Degree. Students should see an advisor prior to selecting classes.
4. Students in the DHH M.A. Program must pass the American Sign Language Proficiency Interview (ASLPI) at the required level.
5. A 3.0 GPA or higher in all work undertaken since admission to the Program to be advanced to Candidacy (approval to proceed to the culminating experience course).

#### A. Deaf/Hard-of-Hearing Master's Requirements (30 units)

##### 1. Core Requirements (Prerequisite: Classified Status) (9 units)

- SPED 681 Graduate Research in Special Education (3)  
 SPED 682D Advanced Clinical Practicum in Special Education (3)  
*(Prerequisite or Corequisite: SPED 681)*  
 SPED 683 Current Trends in Special Education (3) *(Prerequisites or Corequisites: SPED 681, 682D)*

##### 2. Requirements from Preliminary Credential (9 units)

- SPED 561D Teaching Reading to Deaf and Hard of Hearing Students (3)  
 SPED 565 Teaching Written English to Deaf and Hard of Hearing Students (3)  
 SPED 566D Curriculum and Instruction for Deaf and Hard of Hearing Students (3)

##### 3. Electives from Clear Credential (9 units)

Courses satisfying preliminary credential requirements may not be included in the Concentration area. Selected strands of graduate course work to be determined in consultation with advisor that will expand student knowledge of exceptionality and core skills with complementary content from related areas of study.

#### 4. Culminating Experience (3 units)

- SPED 697 Directed Comprehensive Studies (3)  
 or SPED 698C Thesis or Graduate Project (3)

#### B. Early Childhood Special Education Master's Requirements (30 units)

##### 1. Core Requirements (Prerequisite: Classified Status) (9 units)

- SPED 681 Graduate Research in Special Education (3)  
 SPED 682EC Advanced Clinical Practicum in Special Education (3)  
*(Prerequisite or Corequisite: SPED 681)*  
 SPED 683EC Current Trends in Special Education (3)

##### 2. Requirements from Preliminary Credential (9 units)

3 of the following courses from the preliminary credential may be selected:

- SPED 500 Communication and Early Literacy Development of Young Children with Disabilities (3)  
 SPED 532 ECSE Curriculum and Instruction (3)  
 SPED 520 EC Assessment and Evaluation in ECSE (3)  
 SPED 538 E Early Intervention Practices (3)

##### 3. Electives from Clear Credential (9 units)

Courses satisfying preliminary credential requirements may not be included in the concentration area. Selected strands of graduate course work to be determined in consultation with advisor that will expand student knowledge of exceptionality and core skills with complementary content from related areas of study.

#### 4. Culminating Experience (3 units)

- SPED 697 Directed Comprehensive Studies (3)  
 or SPED 698C Thesis or Graduate Project (3)

#### C. Educational Therapy Master's Requirements (36 units)

##### 1. Core Requirements (9 units)

- (Prerequisite: Classified Status)*  
 SPED 681 Graduate Research in Special Education (3)  
 SPED 682MM Advanced Clinical Practicum in Special Education (3)  
*(Prerequisite or Corequisite: SPED 681)*  
 SPED 683 Current Trends in Special Education (3)  
*(Prerequisites or Corequisites: SPED 681, 682MM)*

##### 2. Core Requirements (15 units)

- SPED 673 Principles of Educational Therapy (3)  
*(Prerequisites: SPED 501MM, 502MM)*  
 SPED 671 Advanced Study of Literacy Problems (3)  
*(Prerequisites: SPED 502MM, SPED 673)*  
 SPED 672 Advanced Assessment in Educational Therapy (3)  
*(Prerequisites: SPED 501MM, SPED 671)*  
 SPED 676 Clinical Case Management (3) *(Prerequisite: SPED 672)*  
 SPED 679 Internship in Educational Therapy (3)  
*(Prerequisite: SPED 676)*

##### 3. Advanced Specialization (9 units)

- SPED 501MM Assessment of Diverse Learners with Mild/Moderate Disabilities (3)  
 SPED 502MM Reading/Language Arts Instruction for Diverse Learners with Mild/Moderate Disabilities (3)  
 SPED 503MM Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3)

##### 4. Culminating Experience (3 units)

- SPED 697 Directed Comprehensive Studies (3)  
 or SPED 698C Thesis or Graduate Project (3)

**Preliminary Education Specialist Instruction Credential Programs**

**A. Deaf/Hard of Hearing (DHH):** Authorizes the holder to conduct assessments, provide instruction and special education-related services to individuals with a primary or secondary disability of deaf or hard of hearing, deaf-blind, autism spectrum disorders within the disability area and a hearing loss that manifests itself in conjunction with additional disabilities, including unilateral or bilateral, whether fluctuating, conductive, sensori-neural and/or auditory neuropathy from birth through age 22. Classes organized primarily for adults in services across the continuum of program options available.

**B. Early Childhood Special Education (ECSE):** Authorizes the holder to conduct assessments, provide instruction and special education-related services to children from birth through pre-kindergarten, with a primary disability of specific learning disabilities, mild/moderate mental retardation, traumatic brain injury, other health impairment, autism spectrum disorders, moderate/severe mental retardation, deaf-blindness, serious emotional disturbance and multiple disabilities in services across the continuum of program options available.

**C. Mild/Moderate Disabilities (MM):** Authorizes the holder to conduct assessments, provide instruction and special education-related services to individuals with a primary disability of specific learning disabilities, mild/moderate mental retardation, other health impairment, emotional disturbance and autism spectrum disorders within the disability area in kindergarten and grades 1-12. Classes organized primarily for adults in services across the continuum of program options available.

**D. Moderate/Severe Disabilities (MS):** Authorizes the holder to conduct assessments, provide instruction and special education-related services to individuals with a primary disability of autism, moderate/severe mental cognitive impairment, deaf-blind, emotional disturbance and multiple disabilities in kindergarten and grades 1-12 up to age 22. Classes organized primarily for adults in services across the continuum of program options available.

**Candidates are provided the following pathways to pursue a Preliminary Credential.**

**1. The Traditional Program** (DHH, ECSE, MM, MS) is designed primarily as a Post-B.A. Degree Program for candidates in non-teaching or teaching positions interested in flexible scheduling. Contact Virginia Kennedy at virginia.kennedy@csun.edu for Traditional Program advisement.

**2. The Intern Program** (DHH, ECSE, MM, MS), a Post-B.A. Degree 2-year Program (including Summers), is designed for teachers who have an Intern Credential and are hired in a cooperating school district. Interns must take a minimum of 6 units each semester, including 2 units of the SPED 506—Intern Practicum/Seminar. Interns receive classroom support and mentorship throughout the program by University and district personnel. Contact Tamarah Ashton at tamarah.ashton@csun.edu for Intern Program advisement. Candidates in the DHH, ECSE and MS areas must consult with an advisor in their area of specialization.

**3. The Accelerated Collaborative Teacher (ACT) Preparation Program** (DHH, MM, MS) is a Post-B.A. Degree full-time 2-semester (MM) or 3-semester (MS, DHH) Program. Candidates begin the Program in the Fall semester and progress through the Program as a cohort. Contact Nancy Burstein at nancy.burstein@csun.edu for ACT Program advisement.

**4. The Integrated Teacher Education Program** (MM, MS) is an Undergraduate Program. Candidates begin as freshmen or enter the 2-year option as transfer students. Contact Sue Sears at sue.sears@csun.edu for more information.

**A. Deaf and Hard of Hearing****1. Traditional Education Specialist Teaching Credential Program in Deaf/Hard-of-Hearing (49 units)**

Must meet admission requirements as described in the credential section.

**Courses Required Prior to SPED 580DHH Student Teaching:**

|          |   |
|----------|---|
| SPED 400 | Developmental Differences and Implications in Special Education (3) |
|          | ( <i>May be taken prior to admission</i> )                          |

|                        |  |

| SPED 560               | Development and Assessment of Language in DHH Students (3) ( <i>Prerequisites or Corequisites: DEAF 484, 403D; SPED 416, 504D</i> )                      |
| SPED 561D              | Teaching Reading to DHH Students (3)<br>( <i>Prerequisites or Corequisites: SPED 406, 560. Corequisite: SPED 565</i> )                                   |
| SPED 565               | Teaching Written English to DHH Students (3)<br>( <i>Prerequisites or corequisites: SPED 406, 560. Corequisite: SPED 561D</i> )                          |
| SPED 566D              | Curriculum and Instruction for Deaf and Hard of Hearing Students (3) ( <i>Prerequisites or Corequisites: SPED 402, 504D, 560</i> )                       |

#### Other Requirements Prior to SPED 580D—Student Teaching

- Basic Skills and Subject Matter Requirement:
- **Recommended option for individuals interested in teaching at the elementary level:** Passage of CSET Multiple Subject Exam and CSET Writing Skills, or passage of a CSET Multiple Exam and CBEST.
- **Recommended option for individuals interested in teaching at the secondary level:** Passage of a CSET Single Subject Exam and CBEST, or completion of approved subject matter program and passage of the CBEST.
- Passage of American Sign Language Proficiency Interview (ASLPI).
- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or ENG 406 or COMS 321).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Fingerprint clearance.
- Submission of Student Teaching Application and approval to student teach by Credential Office. (Application for Student Teaching is required in the semester prior to student teaching.)

#### Courses Required Prior to or Concurrent with SPED 580D—Student Teaching

Only one course may be completed concurrently with SPED 580D.

|           |   |
|-----------|---|
| SPED 563  | Audiology and Spoken English Development for Teachers of DHH Students (4) ( <i>Prerequisites or Corequisites: SPED 416, 504D, 560</i> ) |
| SPED 567D | Teaching Deaf and Hard of Hearing Students with Special Needs (3) ( <i>Prerequisites or Corequisites: SPED 402, 504D, 560</i> )         |
| SPED 580D | Student Teaching and Seminar in Deaf and Hard of Hearing (with a grade of “B” or higher) (6)  |

#### Required Prior to Applying for the Credential

- Bachelor’s Degree from an accredited institution of higher education.
- Knowledge of U.S. Constitution (course or exam).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses. A grade of “C” or higher is required in all courses.

#### 2. Intern Education Specialist Program in DHH (52 units)

Must meet admission requirements as described in the credential section.

##### Preservice Component

All applicants are required to complete a minimum of 120 hours of pre-service preparation. This preparation includes classroom management and planning, reading/language arts, specialty specific pedagogy, human development and teaching English learners. Applicants without a valid Teaching Credential can satisfy the pre-service preparation component through a combination of credential course work, online instructional modules and documented field experience (see intern advisor).

##### Preservice course work

|          |   |
|----------|---|
| SPED 400 | Developmental Differences and Implications in Special Education (3) ( <i>May be taken prior to admission</i> )  |
| SPED 402 | Behavioral Assessment and Positive Behavioral Supports (3) ( <i>May be taken prior to admission</i> )   |
| SPED 406 | K-12 Literacy Instruction for Diverse Learners with Disabilities (3) ( <i>Prerequisite: Admission to Post-Baccalaureate Credential Program</i> )            |
| SPED 416 | Educating Diverse Learners with Disabilities and Working with their Families (3) ( <i>Prerequisites: SPED 400, 406</i> )                                    |
| SPED 420 | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3) ( <i>Prerequisites: SPED 400, 406, 416</i> ) |

##### Semester 1

|             |   |
|-------------|---|
| SPED 504D   | Foundations of Deaf Education (3) ( <i>Prerequisites or Corequisites: DEAF 360; SPED 400, 403D, 506DHA</i> )                  |
| SPED 506DHA | SPED Field Experience/Seminar (3)   |
| SPED 560    | Development and Assessment of Language in DHH Students (3) ( <i>Prerequisites or Corequisites: DEAF 484; SPED 416, 504D</i> ) |

##### Semester 2

|             |  |
|-------------|--|
| SPED 506DHB | SPED Field Experience/Seminar (3)  |
| SPED 561D   | Teaching Reading to DHH Students (3)<br>( <i>Prerequisites or Corequisites: SPED 406, 560, 565</i> )       |
| SPED 565    | Teaching Written English to DHH Students (3) ( <i>Prerequisites or Corequisites: SPED 406, 560, 561D</i> ) |

##### Summer 1

|          |  |
|----------|--|
| SPED 416 | Educating Diverse Learners with Disabilities and Working with their Families (3)<br>( <i>Prerequisites: SPED 400, SPED 406</i> ) |
|----------|--|

**Other Requirements Prior to SPED 506DH (3rd semester)**

Passage of the American Sign Language Proficiency Interview (ASLPI).

**Semester 3**

|             |   |
|-------------|---|
| EED 565M    | Mathematics Curriculum and Methods (3)                                    |
| or SED 525  | Methods of Teaching Single Subject (3)                                    |
| SPED 506DHC | SPED Field Experience/Seminar (3)   |
| SPED 563    | Audiology and Spoken English Development for Teachers of DHH Students (4) |
|             | <i>(Prerequisites or Corequisites: SPED 416, 504D, 560)</i>               |

**Other Requirements Prior to SPED 506DHD (4th semester)**

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of a valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).

**Semester 4**

|             |  |
|-------------|--|
| SPED 506DHD | SPED Field Experience/Seminar (3)  |
| SPED 566D   | Curriculum and Instruction for Deaf and Hard of Hearing Students (3) <i>(Prerequisites or Corequisites: SPED 402, 504D, 560)</i> |
| SPED 567D   | Teaching Deaf and Hard of Hearing Students with Special Needs (3) <i>(Prerequisites or Corequisites: SPED 402, 504D, 560)</i>    |

**3. Accelerated Collaborative Teacher (ACT) Education Specialist Program in Deaf/Hard of Hearing (53 units)**

Must meet admission requirements as described in the credential section.

**Semester 1 (Fall): Required with SPED 579ACT—Field Experience (22 units)**

|             |   |
|-------------|---|
| ELPS 541A   | Getting Started: Introduction to Teaching in Urban Schools (1)                  |
| SPED 541B   | Getting Started: Introduction to Teaching in Urban Schools (2)                  |
| SPED 400    | Developmental Differences and Implications in Special Education (3)             |
| SPED 406    | K-12 Literacy Instruction for Diverse Learners with Disabilities (3)            |
| SPED 504D   | Foundations of Deaf Education (3)   |
| SPED 560    | Development and Assessment of Language in Deaf and Hard of Hearing Students (3) |
| DEAF 360    | Deaf Culture (3)  |
| SPED 579ACT | ACT Field work with Exceptional Learners/Seminar (4)                            |

**Semester 2 (Spring): Advanced Field work (18 units)**

|           |   |
|-----------|---|
| ELPS 542A | Meeting the Needs of All Students in Urban Schools (2)            |
| SPED 402A | Behavioral Assessment and Positive Behavioral Supports (3)        |
| SPED 542B | Meeting the Needs of All Students in Urban Schools (1)            |
| SPED 561D | Teaching Reading to Deaf and Hard of Hearing Students (3)         |
| SPED 565  | Teaching Written English to Deaf and Hard of Hearing Students (3) |

SPED 566D Curriculum and Instruction for Deaf and Hard of Hearing Students (3)

EED 565M Mathematics Curriculum and Methods (3)  
or SED 525 Methods of Teaching Single Subject (3)

**Required Prior to SPED 580ACT: Advanced Field Work**

- Basic Skills and Subject Matter Requirement:
- Recommended option for individuals interested in teaching at the elementary level:** Passage of CSET Multiple Subject Exam and CSET Writing Skills, or passage of a CSET Multiple Exam and CBEST.
- Recommended option for individuals interested in teaching at the secondary level:** Passage of a CSET Single Subject Exam and CBEST or completion of approved subject matter program and passage of the CBEST.
- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Fingerprint clearance.
- Passage of American Sign Language Proficiency Interview (ASLPI).
- Approval for Student Teaching.

**Semester 3 (Fall): Required Prior to SPED 580D—Advanced Field work (13 units)**

|           |  |
|-----------|--|
| SPED 563  | Audiology and Spoken English Development for Teachers of Deaf and Hard of Hearing Students (4) |
| SPED 567D | Teaching Deaf and Hard of Hearing Students With Special Needs (3)                              |
| SPED 580D | Advanced Field work with Exceptional Learners/Seminar (with a grade of “B” or higher) (6)      |

**Required Prior to Applying for the Credential**

- Bachelor’s Degree from an accredited institution of higher education
- Knowledge of U.S. Constitution (course or exam).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses. A grade of “C” or higher is required in all courses.

**B. Early Childhood Special Education****1. Traditional Educational Specialist Teaching Credential in Early Childhood Special Education (42 units)**

Must meet admission requirements as described in credential section.

**Prerequisites and Corequisites**

Bachelor’s Degree in Child and Adolescent Development or 12 units in approved Child and Adolescent Development or Early Childhood curriculum course work that includes participation in a typical preschool setting. Note: 6 units must be completed before the first Student Teaching assignment and 9 units must be completed before the second Student Teaching assignment. No more than 3 units may be taken concurrently with each student teaching assignment.

**Basic Requirements**

|          |  |
|----------|--|
| SPED 402 | Behavior Assessment and Positive Behavior Support (3)<br><i>(May be taken prior to admission)</i>                                  |
| SPED 404 | Teaching Diverse Learners with Social-Communication Disabilities, including Autism (3)<br><i>(May be taken prior to admission)</i> |

|          |   |
|----------|---|
| SPED 431 | Atypical Development of Young Children with Disabilities (3) <i>(May be taken prior to admission)</i>                         |
| SPED 500 | Communication and Early Literacy Development of Young Children with Disabilities (3) <i>(May be taken prior to admission)</i> |
| SPED 532 | ECSE Curriculum and Instruction (3) <i>(May be taken prior to admission)</i>  |
| SPED 535 | Collaboration with Families in Early Childhood Special Education (3)  |

**Requirements Prior to SPED 580EC Advanced Specialist Field work in ECSE and SPED 578 —Field work in ECSE: Infant/Toddler**

- Passage of California Basic Educational Skills Test (CBEST).
- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Fingerprint clearance.
- Submission of Student Teaching Application and approval to Student Teach by Credential Office. (Application for Student Teaching is required in the semester prior to Student Teaching.)

**Prior to or not more than one of the following courses may be taken with SPED 580EC—Advanced Specialist Field work in ECSE:**

See note under Prerequisites or Corequisites regarding Child and Adolescent Development course work.

|            |  |
|------------|--|
| SPED 520EC | Assessment and Evaluation in ECSE (3)<br><i>(Prerequisite or Corequisite: SPED 431)</i>  |
| SPED 536   | Methods for Young Children with Disabilities: Motor and Adaptive Skills (3)<br><i>(Prerequisite or Corequisite: SPED 431)</i>    |
| SPED 537   | Methods for Young Children with Multiple Disabilities: Sensory Impairments (3)<br><i>(Prerequisite or Corequisite: SPED 431)</i> |

**Concurrent with or the semester before SPED 578 Field work in ECSE: Infant/Toddler**

|            |   |
|------------|---|
| SPED 508S  | Student Teaching Seminar (3)  |
| SPED 538   | Early Intervention Practices (3)  |
| SPED 578   | Field Work in ECSE: Infant/Toddler (3)                                  |
| SPED 580EC | Advanced Specialist Field work in Early Childhood Special Education (6) |

**Other Program Requirements**

- Bachelor's Degree in Child and Adolescent Development or 12 units in approved Child and Adolescent Development or Early Childhood Curriculum course work.
- Knowledge of U.S. Constitution (course or exam).
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA or 2.75 since admission, with cumulative 3.0 GPA in professional education courses. A grade of "C" or higher is required in all courses.

**2. Intern Education Specialist Program in Early Childhood Special Education (42 units)**

Must meet admission requirements as described in the credential section.

**Preservice Component**

All applicants are required to complete a minimum of 120 hours of pre-service preparation. This preparation includes classroom management and planning, reading/language arts, specialty specific pedagogy, human development and teaching English learners. Applicants without a valid Teaching Credential can satisfy the pre-service preparation component through a combination of Credential course work, online instructional modules and documented field experience (see intern advisor).

**Semester 1**

|             |   |
|-------------|---|
| SPED 402    | Behavior Assessment and Positive Behavior Support (3) <i>(May be taken prior to admission)</i>        |
| SPED 431    | Atypical Development of Young Children with Disabilities (3) <i>(May be taken prior to admission)</i> |
| SPED 506ECA | SPED Field Experience/Seminar (3)   |

**Semester 2**

|             |  |
|-------------|--|
| SPED 506ECB | SPED Field Experience/Seminar (3)  |
| SPED 532    | ECSE Curriculum and Instruction (3) <i>(May be taken prior to admission)</i>   |
| SPED 537    | Methods for Young Children with Multiple Disabilities: Sensory Impairments (3) |

**Semester 3**

|          |   |
|----------|---|
| SPED 500 | Communication and Early Literacy Development of Young Children with Disabilities (3) <i>(May be taken prior to admission)</i> |
| SPED 535 | Collaboration with Families in Early Childhood Special Education (3)  |
| SPED 536 | Methods for Young Children with Disabilities: Motor and Adaptive Skills (3)   |

**Other Requirements Prior to SPED 506ECC (4th semester)**

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321)
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in professional education courses (a grade of "C" or higher is required in all courses).

**Semester 4**

|             |                                       |
|-------------|---------------------------------------|
| SPED 506ECC | SPED Field Experience/Seminar (3)     |
| SPED 520EC  | Assessment and Evaluation in ECSE (3) |
| SPED 538    | Early Intervention Practices (3)      |

**Summer 2**

|                |  |
|----------------|--|
| SPED 404       | Teaching Diverse Learners with Social-Communication Disabilities, including Autism (3) <i>(May be taken prior to admission)</i>  |
| SPED 578       | Field work in ECSE: Infant/Toddler (3)   |
| or SPED 580ECI | Advanced Specialist Field Work in ECSE (3) <i>(To demonstrate professional competencies with age group (infant-toddler or preschool/pre-K) that is not served on-the-job.)</i> |

**C. Mild/Moderate Disabilities (MM)**

**1. Traditional Education Specialist Teaching Credential Program in Mild/Moderate Disabilities (42 units)**

Must meet admission requirements as described in the credential section.

**Courses Required Prior to or Concurrent with SPED 403**

|            |  |
|------------|--|
| SPED 400   | Developmental Differences and Implications in Special Education (3)<br><i>(May be taken prior to admission)</i>  |
| SPED 403MM | Early Field Experience (3)<br><i>(72 hours of field work and seminar)</i>  |
| SPED 406   | K-12 Literacy Instruction for Diverse Learners with Disabilities (3) <i>(Prerequisite: Admission to Post-Baccalaureate Credential program or ITEP)</i> |

**Courses Required Prior to SPED 580MM Student Teaching**

|            |   |
|------------|---|
| EED 565M   | Mathematics Curriculum and Methods (3)  |
| or SED 525 | Methods of Teaching Single Subject (3)  |
| SPED 402   | Behavioral Assessment and Positive Behavioral Supports (3) <i>(May be taken prior to admission)</i> |

|            |  |
|------------|--|
| SPED 404   | Teaching Diverse Learners with Social-Communication Disabilities, Including Autism (3)   |
| SPED 416   | Educating Diverse Learners with Disabilities and Working with Their Families (3)<br>(Prerequisites: SPED 400, 406, 403MM. Prerequisite or Corequisite: SPED 501MM) |
| SPED 420   | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3)<br>(Prerequisites: SPED 400, 406, 403MM)            |
| SPED 501MM | Special Education Assessment of Diverse Learners with Mild/Moderate Disabilities (3) (Prerequisites: SPED 400, 406, 403MM)   |

#### Other Requirements Prior to SPED 580MM Student Teaching

- Basic Skills and Subject Matter Requirement:

**Recommended option for individuals interested in teaching at the elementary level:** Passage of CSET Multiple Subject Exam and CSET Writing Skills, or passage of a CSET Multiple Exam and CBEST.

**Recommended option for individuals interested in teaching at the secondary level:** Passage of a CSET Single Subject Exam and CBEST or completion of approved subject matter program and passage of the CBEST.

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Fingerprint clearance.
- Submission of Student Teaching Application and approval to Student Teach by Credential Office. (Application for Student Teaching is required in the semester prior to Student Teaching.)

#### Courses Required Prior to or Concurrent with SPED 580MM Student Teaching

Only 1 course may be completed concurrently with SPED 580MM.

|            |   |
|------------|---|
| SPED 502MM | Reading/Language Arts Instruction for Diverse Learners with Mild/Moderate Disabilities (3)<br>(Prerequisites SPED 400, 403, 406, 416. Prerequisite or Corequisite: SPED 501MM)                                |
| SPED 503MM | Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3) (Prerequisites SPED 400, 403, 406 416, 525 or 565M. Prerequisite or Corequisite: SPED 501MM) |
| SPED 580MM | Student Teaching (6) and SPED 580S (3) Seminar in Mild/Moderate Disabilities (with a grade of “B: or higher). (These two courses must be taken concurrently.)   |

#### Required Prior to Applying for the Credential

- Bachelor’s Degree from an accredited institution of higher education.
- Knowledge of U.S. Constitution (course or exam).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).

#### 2. Intern Education Specialist Program in Mild/Moderate Disabilities (42 units)

Must meet admission requirements as described in the credential section.

##### Preservice Component

All applicants are required to complete a minimum of 120 hours of pre-service preparation. This preparation includes classroom management and planning, reading/language arts, specialty specific pedagogy, human development and teaching English learners. Applicants without a valid Teaching Credential can satisfy the pre-service preparation component through a combination of credential course work, online instructional modules and documented field experience (see intern advisor).

##### Semester 1

|             |   |
|-------------|---|
| SPED 400    | Developmental Differences and Implications in Special Education (3)<br>(May be taken prior to admission)                                |
| SPED 406    | K-12 Literacy Instruction for Diverse Learners with Disabilities (3) (Prerequisite: Admission to Post-Baccalaureate Credential Program) |
| SPED 506MMA | SPED Field Experience/Seminar (3)   |

##### Semester 2

|             |  |
|-------------|--|
| SPED 416    | Educating Diverse Learners with Disabilities and Working with their Families (3) (Prerequisites: SPED 400, 406, 506MMA. Prerequisite or Corequisite: SPED 501MM) |
| SPED 501MM  | Special Education Assessment of Diverse Learners with Mild/Moderate Disabilities (3)<br>(Prerequisites: SPED 400, 406, 506MMA)                                   |
| SPED 506MMB | SPED Field Experience/Seminar (3)  |

##### Summer 1

|            |  |
|------------|--|
| EED 565M   | Mathematics Curriculum and Methods (3)   |
| or SED 525 | Methods of Teaching Single Subject (3)   |
| SPED 404   | Teaching Diverse Learners with Social-Communication Disabilities, Including Autism (3) |

##### Semester 3

|             |   |
|-------------|---|
| SPED 402    | Behavioral Assessment and Positive Behavioral Supports (3) (May be taken prior to admission)  |
| SPED 502MM  | Reading/Language Arts Instruction for Diverse Learners with Mild/Moderate Disabilities (3)<br>(Prerequisites: SPED 400, 406, 416, 506MMA/B) |
| SPED 506MMC | SPED Field Experience/Seminar (3)   |

#### Other Requirements Prior to SPED 506MMD (4th semester)

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in professional Education Courses (a grade of “C” or higher is required in all courses).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).

##### Semester 4

|          |   |
|----------|---|
| SPED 420 | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3) (Prerequisites: SPED 400, 406, 506MMA-C) |
|----------|---|

SPED 503MM Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3) (*Prerequisites: EED 565M or SED 525; SPED 400, 406, 416, 420, 506MMA-C.*)

SPED 506MMD SPED Field Experience/Seminar (3)

### 3. Accelerated Collaborative Teacher (ACT) Education Specialist Program in Mild/Moderate Disabilities (40 units)

Must meet admission requirements as described in the credential section.

#### Semester 1 (Fall): Required with SPED 579ACT—Field Experience (21-22 units)

EED 565M Mathematics Curriculum and Methods (3)

or SED 525 Methods of Teaching Single Subject (3)

ELPS 541A Getting Started: Introduction to Teaching in Urban Schools (1)

SPED 400 Developmental Differences and Implications in Special Education (3)

SPED 402 Behavioral Assessment and Positive Behavioral Supports (3)

SPED 406 K-12 Literacy Instruction for Diverse Learners with Disabilities (3)

SPED 501MM Special Education Assessment of Diverse Learners with Mild/Moderate Disabilities (3)

SPED 541B Getting Started: Introduction to Teaching in Urban Schools (2)

SPED 579ACT ACT Field work with Exceptional Learners/Seminar (4)

#### Required Prior to SPED 580ACT—Advanced Field Work

- Basic Skills and Subject Matter Requirement.

**Recommended option for individuals interested in teaching at the elementary level:** Passage of CSET Multiple Subject Exam and CSET Writing Skills, or passage of a CSET Multiple Exam and CBEST.

**Recommended option for individuals interested in teaching at the secondary level:** Passage of a CSET Single Subject Exam and CBEST, or completion of approved subject matter program and passage of the CBEST.

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission with cumulative 3.0 GPA in Professional Education Courses (a grade of “C” or higher is required in all courses).
- Fingerprint clearance.
- Approval for Student Teaching.

#### Semester 2 (Spring): Required Prior to SPED 580ACT—Advanced Field Work (18 units)

ELPS 542A Meeting the Needs of All Students in Urban Schools (2)

SPED 404 Teaching Diverse Learners with Social-Communication Disabilities, Including Autism (3)

SPED 502MM Reading/Language Arts Instruction for Diverse Learners with Mild/Moderate Disabilities (3)

SPED 503MM Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3)

SPED 542B Meeting the Needs of All Students in Urban Schools (1)

SPED 580ACT Advanced Field work with Exceptional Learners/Seminar (with a grade of “B” or higher) (6)

#### Required Prior to Applying for the Credential

- Bachelor’s Degree from an accredited institution of higher education.
- Knowledge of U.S. Constitution (course or exam).
- Passage of Reading Instruction Competence Assessment (RICA)

or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)

- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).

#### 4. Integrated Teacher Education Program (ITEP)

For Mild/Moderate Disabilities Program see the Liberal Studies section of the Catalog. Must meet admission requirements as described in the Credential section.

#### D. Moderate/Severe Disabilities

##### 1. Traditional Education Specialist Teaching Credential Program in Moderate/Severe Disabilities (42 units)

Must meet admission requirements as described in the credential section.

##### Courses Required Prior to or Concurrent with SPED 403MS

SPED 400 Developmental Differences and Implications in Special Education (3)

(*May be taken prior to admission*)

SPED 402 Behavioral Assessment and Positive Behavioral Support (3) (*May be taken prior to admission*)

SPED 504MS Teaching Diverse Learners with Moderate/Severe Disabilities (3)

SPED 403MS Early Field Experience (3) (120 hours of field work and seminar) (*Prerequisites: SPED 400, 504MS. Prerequisite or Corequisite: SPED 402*)

##### Courses Required Prior to SPED 580MS—Student Teaching

SPED 406 K-12 Literacy Instruction for Diverse Learners with Disabilities (3) (*Prerequisite: Admission to Post-Baccalaureate Credential Program or ITEP*)

SPED 416 Educating Diverse Learners with Disabilities and Working with their Families (3) (*Prerequisites: SPED 400, 406. Prerequisite or Corequisite; SPED 504MS*)

SPED 420 Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration (3) (*Prerequisites: SPED 400, 406, 504MS. Prerequisite or Corequisite: SPED 505MS*)

SPED 505MS Curriculum and Instruction for Diverse Learners with Moderate/Severe Disabilities (3) (*Prerequisites: SPED 400, 504MS. Prerequisite or Corequisite: SPED 402*)

##### Other Requirements Prior to SPED 580MS—Student Teaching

- Basic Skills and Subject Matter Requirement:

**Recommended option for individuals interested in teaching at the elementary level:** Passage of CSET Multiple Subject Exam and CSET Writing Skills, or passage of a CSET Multiple Exam and CBEST.

**Recommended option for individuals interested in teaching at the secondary level:** Passage of a CSET Single Subject Exam and CBEST, or completion of approved subject matter program and passage of the CBEST.

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Fingerprint clearance.

- Submission of Student Teaching Application and approval to Student Teach by Credential Office. (Application for Student Teaching is required in the semester prior to Student Teaching.)

### Courses Required Prior to or Concurrent with SPED 580MS— Student Teaching

Only one course may be completed concurrently with SPED 580MS.

|               |                          |  |
|---------------|--------------------------|--|
| EED           | 565M                     | Mathematics Curriculum and Methods (3)   |
| SPED          | 580MS                    | Student Teaching (6) and SPED 580S (3) Seminar in Moderate/Severe Disabilities (with a grade of “B” or higher) |
| SPED          | 581                      | Alternative and Augmentative Communication (3)<br>(Prerequisites: SPED 400, 504MS)                             |
| SPED elective | SPED 404, 640 or 642 (3) |  |

### Required Prior to Applying for the Credential

- Bachelor’s Degree from an accredited institution of higher education.
- Knowledge of U.S. Constitution (course or exam).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).

### 2. Intern Education Specialist Program in Moderate/Severe Disabilities (42 units)

Must meet admission requirements as described in the credential section.

#### Preservice Component

All applicants are required to complete a minimum of 120 hours of pre-service preparation. This preparation includes classroom management and planning, reading/language arts, specialty specific pedagogy, human development and teaching English learners. Applicants without a valid Teaching Credential can satisfy the pre-service preparation component through a combination of Credential course work, online instructional modules and documented field experience (see intern advisor).

#### Year 1: Early Field Work

Prior to or concurrent with SPED 506MSA and SPED 506MSB (1st and 2nd semester) and prerequisite to SPED 506MSC (3rd semester)

|      |        |   |
|------|--------|---|
| EED  | 565M   | Mathematics Curriculum and Methods (3)  |
| SPED | 400    | Developmental Differences and Implications in Special Education (3)<br>(May be taken prior to admission)  |
| SPED | 402    | Behavioral Assessment and Positive Behavioral Supports (3) (May be taken prior to admission)  |
| SPED | 406    | K-12 Literacy Instruction for Diverse Learners with Disabilities (3) (Prerequisite: Admission to Post-Baccalaureate Credential Program)                             |
| SPED | 416    | Educating Diverse Learners with Disabilities and Working with their Families (3)<br>(Prerequisites: SPED 400, 406, 506MSA. Prerequisite or Corequisite: SPED 504MS) |
| SPED | 504 MS | Teaching Diverse Learners with Moderate/Severe Disabilities (3)<br>(Prerequisites: SPED 400, 406, 506MSA)   |

SPED 506MSA SPED Field Experience/Seminar (3)

SPED 506MSB SPED Field Experience/Seminar (3)

#### Year 2: Student Teaching

Prior to or concurrent with SPED 506MSC (3rd semester) and prerequisite to SPED 506MSD (4th semester):

SPED 420 Improving the Learning Needs of Students with Special Needs through Differentiated Instruction and Collaboration (3)  
(Prerequisites: SPED 400, 406, 504MS. Prerequisite or Corequisite: SPED 505MS)

SPED 505MS Curriculum and Instruction for Diverse Learners with Moderate/Severe Disabilities (3)  
(Prerequisites: SPED 400, 504MS. Prerequisite or Corequisite: SPED 402)

SPED 506MSC SPED Field Experience/Seminar (3)

### Other Requirements Prior to or Concurrent with 4th Semester of SPED 506MSD

SPED 506MSD SPED Field Experience/Seminar (3)

SPED 581 Alternative and Augmentative Communication (3)  
(Prerequisites: SPED 400, 504MS, SPED 506MS. Prerequisites or Corequisites: SPED 506MSB, 506MSC, 506MSd)

SPED elective SPED 404, 640 or 642 (3)

### Other Program Requirements

- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this credential in order to be exempt from RICA.)

### 3. Accelerated Collaborative Teacher (Act) Education Specialist Program in Moderate/Severe Disabilities (40 units)

Must meet admission requirements as described in the credential section.

#### Semester 1 (Fall): Required with SPED 579ACT—Field Experience (19 units)

|      |        |  |
|------|--------|--|
| ELPS | 541A   | Getting Started: Introduction to Teaching in Urban Schools (1)       |
| SPED | 400    | Developmental Differences and Implications in Special Education (3)  |
| SPED | 402    | Behavioral Assessment and Positive Behavioral Supports (3)           |
| SPED | 406    | K-12 Literacy Instruction for Diverse Learners with Disabilities (3) |
| SPED | 504MS  | Teaching Diverse Learners with Moderate/Severe Disabilities (3)      |
| SPED | 541B   | Getting Started: Introduction to Teaching in Urban Schools (2)       |
| SPED | 579ACT | ACT Field Work with Exceptional Learners/ Seminar (4)                |

#### Required Prior to SPED 580ACT—Advanced Field Work

- Basic Skills and Subject Matter Requirement:
  - Recommended option for individuals interested in teaching at the elementary level:** Passage of CSET Multiple Subject Exam and CSET Writing Skills, or passage of a CSET Multiple Exam and CBEST.
  - Recommended option for individuals interested in teaching at the secondary level:** Passage of a CSET Single Subject Exam and CBEST, or completion of approved subject matter program and passage of the CBEST.
- Writing Proficiency (CBEST writing score of 41 or higher or Upper Division Writing Proficiency Exam with a score of 10 or higher or ENGL 305 or 406, or COMS 321).

- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).
- Fingerprint clearance.
- Approval for Student Teaching.

**Semester 2 (Spring): Required Prior to SPED 580MS—Advanced Field work (12 units)**

|               |                      |   |
|---------------|----------------------|---|
| EED           | 565M                 | Mathematics Curriculum and Methods (3)  |
| ELPS          | 542A                 | Meeting the Needs of All Students in Urban Schools (2)                                |
| SPED          | 505MS                | Curriculum and Instruction for Diverse Learners with Moderate/Severe Disabilities (3) |
| SPED          | 542B                 | Meeting the Needs of All Students in Urban Schools (1)                                |
| SPED elective | SPED 404, 460 or 642 | (3)   |

**Semester 3 (Fall): Required Prior to or Concurrent with SPED 580MS—Advanced Field Work (9 units)**

|               |                      |  |
|---------------|----------------------|--|
| SPED          | 580MS                | Advanced Field Work with Exceptional Learners/ Seminar (with a grade of “B” or higher) (6) |
| SPED elective | SPED 404, 460 or 642 | (3)  |

**Required Prior to Applying for the Credential**

- Bachelor’s Degree from an accredited institution of higher education.
- Knowledge of U.S. Constitution (course or exam).
- Passage of Reading Instruction Competence Assessment (RICA) or possession of valid California Teaching Credential. (Must hold valid California Teaching Credential at the time of applying for this Credential in order to be exempt from RICA.)
- CPR certification—infant, child, adult (online CPR training is not acceptable).
- Overall GPA of 2.75 since admission, with cumulative 3.0 GPA in professional education courses (a grade of “C” or higher is required in all courses).

**4. Integrated Teacher Education Program (ITEP)**

For Moderate/Severe Disabilities Program, see the Liberal Studies section of the Catalog. Must meet admission requirements as described in the Credential section.

**Clear (Induction) Education Specialist Credential Program**

The Clear Education Specialist Credential is designed for candidates who hold a valid Preliminary Education Specialist Credential. Candidates in the Clear Credential Program are employed as teachers in the specialization area of their Credential or, if not employed, are conducting field work in their specialization area. This Program leads to completion of a Clear Education Specialist Credential with Specialization Areas in Deaf and Hard of Hearing, Early Childhood Special Education, Mild/Moderate Disabilities or Moderate/Severe Disabilities. A Clear Education Specialist Credential Program must be completed within 5 years of the date of issuance of the Preliminary Credential.

**A. Deaf and Hard of Hearing Clear Education Specialist Credential Requirements**

Formative Assessment (3 units)

|      |     |   |
|------|-----|---|
| SPED | 628 | Induction and Formative Assessment (3)<br>(Prerequisites: Completion of the Preliminary Education Specialist Credential Program in the specialization (MM, MS, DHH, ECSE); Admitted to the Clear Education Specialist Credential Program; Must be taken the first semester of the Program.) |
|------|-----|---|

**Pedagogy Courses (6 units)**

Pedagogy courses may be used for the M.A. Degree.

Courses used for the Preliminary Credential cannot be counted toward the Clear Credential.

**Select 2 courses from the following options:**

**Deaf Studies/ASL/Language and Culture**

(Only if DEAF courses were not part of B.A. Degree studies.)

|      |      |  |
|------|------|--|
| DEAF | 400  | Deaf People and Hearing People: A Comparative Cultural Analysis (3)              |
| DEAF | 485  | Issues in American Sign Language (3)   |
| DEAF | 489L | Intro to ASL Translation of Literary and Artistic Works/Creative Uses of ASL (3) |

**Studies in Multiple Disabilities**

|      |      |  |
|------|------|--|
| SPED | 404  | Social Communication and Autism (3)                                      |
| SPED | 567  | Teaching Deaf and Hard of Hearing Students with Special Needs (3)        |
| SPED | 581  | Augmentative and Alternative Communication (3)                           |
| SPED | 595T | Assistive Technology (3)   |
| SPED | 640  | Physical Disabilities (3)  |
| SPED | 642  | Students with Multiple and Sensory Impairments (3)                       |
| SPED | 652  | Educating Children with Emotional Disturbance (3)                        |
| SPED | 655  | Theoretical and Empirical Bases of Education of Learners with Autism (3) |
| SPED | 695A | Advanced Positive Behavior Support (3)                                   |

**Studies in Early Childhood Special Education**

|      |     |  |
|------|-----|--|
| SPED | 532 | Early Childhood Special Education Curriculum and Instruction (3)               |
| SPED | 535 | Collaboration with Families in Early Childhood Special Education (3)           |
| SPED | 536 | Methods for Young Children with Disabilities: Motor and Adaptive Skills (3)    |
| SPED | 537 | Methods for Young Children with Multiple Disabilities: Sensory Impairments (3) |

**Other courses—no longer offered but may have been taken as part of the Level II Credential Program**

|      |      |  |
|------|------|--|
| SPED | 624  | Teaching English Learners with Disabilities (3)                                  |
| SPED | 695D | Working with Very Young Deaf and Hard of Hearing Children and their Families (3) |

**Assessment of Professional Competence (3 units)**

|      |     |   |
|------|-----|---|
| SPED | 638 | The Role of the Special Educator in the 21st Century (3) (Prerequisite: SPED 628. Must be taken in the last semester of the Program and may be used for the M.A. Degree. This course provides a mechanism for a final assessment of the Candidate’s competence in individually targeted areas appearing on the Individual Induction Plan (IIP) and proficiency in meeting standards for the Clear Education Specialist Credential.) |
|------|-----|---|

**Additional Requirements for Candidates Who Completed a Level I Education Specialist Credential Program:**

**Health:** HSCI 396, 435, 496ADO or 496TH

**Technology:** EED 513, 515 or 602, or SED 514, or SPED 595T (preferred).

**Other Requirements:** Must maintain a 3.0 GPA, with no course grade lower than “C.”

**American Sign Language Proficiency Requirement:** Candidates must have a 2.7 rating or higher on the ASLPI within the past 5 years. Candidates must maintain a 3.0 GPA, with no course grade lower than a “C.”

**B. Early Childhood Special Education Clear Education Specialist Credential Requirements**

**Formative Assessment (3 units)**

|      |     |  |
|------|-----|--|
| SPED | 628 | Induction and Formative Assessment.<br>(Prerequisites: Completion of the Preliminary Education Specialist Credential Program in the specialization (MM, MS, DHH, ECSE); Admitted to the Clear Education Specialist Credential Program; Must be taken the first semester of the Program.) |
|------|-----|--|

**Pedagogy Courses (6 units)**

*Pedagogy courses may be used for the M.A. Degree. Courses used for the Preliminary Credential cannot be counted toward the Clear Credential.*

**Select 2 courses from the following options:****Special Education**

- SPED 581 Augmentative and Alternative Communication (3)  
 SPED 612/L Design and Development of Indirect Services in Special Education/Lab (2/1)  
 SPED 655 Theoretical and Empirical Bases of Education of Learners with Autism (3)  
 SPED 683EC Current Trends in Early Childhood Special Education (3) *(May have been taken as part of the Level II Credential Program.)*  
 SPED 695A Advanced Behavior Support (3)

**Infant Mental Health**

- EPC 630 The Infant-Parent Dyad and the Social/Emotional Development of the Infant-Toddler (3)  
 EPC 644 Current Issues in Infant-Toddler-Family Mental Health (3)

**Child Development**

- FCS 433 Administration of Children's Programs (3)  
 FCS 533 Advanced Topics in Administration of Children's Programs (3)

**Other courses—no longer offered but may have been taken as part of the Level II Credential Program**

- SPED 611 Collaborating to Meet the Needs of Special Populations (3)  
 SPED 624 Teaching English Learners with Disabilities (3)

**Assessment of Professional Competence (3 units)**

- SPED 683EC Trends and Issues in ECSE (3)  
*(Prerequisite: SPED 628. Must be taken in the last semester of the program and may be used for the M.A. Degree. This course provides a mechanism for a final assessment of the Candidate's competence in individually targeted areas appearing on the Individual Induction Plan (IIP) and proficiency in meeting standards for the Clear Education Specialist Credential.)*

**Additional Requirements for Candidates Who Completed a Level I Education Specialist Credential Program:**

**Health:** HSCI 396, 435, 496ADO or 496TH

**Other Requirements:** Must maintain a 3.0 GPA, with no course grade lower than "C."

**Added Authorizations****A. Autism Spectrum Disorder (ASD) Added Authorization Requirements (6 units)**

- SPED 404 Teaching Diverse Learners with Social-Communication Disabilities, including Autism (3)
- SPED 655 Theoretical and Empirical Bases of Education of Learners with Autism (3)

**B. Emotional Disturbance (ED) Added Authorization Requirements (9 units)**

- SPED 404 Teaching Diverse Learners with Social-Communication Disabilities, including Autism (3)
- SPED 652 Educating Children with Emotional Disturbance (3)
- SPED 695A Advanced Positive Behavior Support (3)

**C. Resource Specialist (RS) Added Authorization Requirements (9 units)**

- SPED 638 The Role of the Special Educator in the 21st Century (3)
- SPED 672 Advanced Assessment (3)

**Select 1 of the following:**

- SPED 502MM Reading/Language Arts Instruction for Diverse K-12 Students with Mild/Moderate Disabilities (3)
- SPED 503MM Curriculum and Instruction in Math and Content Subjects for Diverse Learners with Mild/Moderate Disabilities (3)
- SPED 677/L Instructional Strategies for Adolescents and Young Adults with Mild/Moderate Disabilities and Lab (3)

**Certificate Programs**

Contact the Department Office at (818) 677-2596 for more information about the following Certificate Programs.

**Educational Therapy (ET) Post M.A. Degree Certificate**

The ET Post-M.A. Degree Certificate Program, designed in collaboration with the Association of Educational Therapy (AET), provides M.A. Degree students an opportunity to develop expertise and professional skills related to educational therapy. Completion of the Certificate Program, which includes courses and field experience, leads to the award of the Certificate of Advanced Study in Educational Therapy. The Program combines educational and therapeutic approaches for evaluation, remediation, case management and communication/advocacy on behalf of children, adolescents and adults with learning disabilities or learning problems. Graduates of the Certificate Program meet the academic course requirements to achieve AET's Associate Professional level of membership. Moreover, 150 supervisory hours for the professional level of membership are met by the Internship, which is the culminating experience in the Certificate Program.

**Prerequisites:**

1. Completion of a M.A. Degree Program in Education or other related fields as approved by the Certificate Program Coordinator.
2. Minimum of 2 years of experience in the field of education.
3. Education Specialist Credential or prerequisites determined by the ET Coordinator that are required for Level I. (e.g., SPED 400, 402, 404, 406, 501MM, 502MM, or equivalencies)
4. Minimum 3.0 GPA in the M.A. Degree Program.

**Requirements for the Certificate:**

The Certificate requires a minimum of 15-18 units of course work and field experience.

- SPED 671 Advanced Study of Literacy Problems (3) *(Prerequisite: SPED 502)*
- SPED 672 Advanced Assessment (3) *(Prerequisite: SPED 501MM. Prerequisite or Corequisite: SPED 671)*
- SPED 673 Principles of Educational Therapy for Individuals with Exceptional Needs (3)
- SPED 676 Clinical Case Management (3) *(Prerequisites: SPED 673, 671, 672)*
- SPED 679 Internship in Educational Therapy (3-6) *(Prerequisites: SPED 673, 671, 672, 676)*

**Advanced Certificate in Transdisciplinary Intervention**

A University Certificate designed for Post-Bachelor's students with a Concentration of 18 units of selected course work in the Early Childhood Special Education Credential Program. Provides interdisciplinary training to holders of Bachelor's Degrees in one of the disciplines involved in providing early intervention services.

**Prerequisite (3 units):**

- SPED 431 Atypical development of young children with disabilities (3)

**Core (12 units):**

SPED 500 Communication and Early Literacy Development of Young Children with Disabilities (3)

SPED 520EC Assessment and Evaluation in Early Childhood Special Education (3)

SPED 535 Working with Families of Young Children with Disabilities (3)

SPED 578 Field Work in ECSE: Infant/Toddler (3)

or SPED 580ECI Advanced Specialist Field Work in ECSE (3)

*Note: Field work requires proof of TB and fingerprint clearance.*

**Electives (3 units)**

SPED 402A Behavioral Assessment and Positive Behavior Support (3)

SPED 532 ECSE Curriculum and Instruction (3)

SPED 536 Methods for Young Children with Multiple Disabilities: Motor and Adaptive Skills (3)

SPED 537 Methods for Young Children with Multiple Disabilities: Sensory impairments (3)

SPED 538 Early Intervention Practices (3)

**Course List****SPED 400. Developmental Differences and Implications in Special Education (3)**

This course is designed to help teacher candidates in the area of special education gain knowledge and understanding of typical and atypical development and the implications for educating students with disabilities. Candidates will gain knowledge related to the sources of developmental diversity, including both biological and environmental factors and how these factors can impact a child's development in the areas of social, cognitive, physical, emotional and language skills. This information will be discussed within the larger context of the different theories of child development to help candidates view these factors from multiple perspectives. Throughout this discussion, the emphasis will be placed on the practical implications for special education and the role of the special educator and other members of the educational planning team in promoting a positive, supportive and healthy learning environment. This course also will provide special education candidates with knowledge of the legal requirements of special education as specified in the Individuals with Disabilities Education Act (IDEA) and other legislative mandates.

**SPED 402. Behavioral Assessment and Positive Behavior Support (3)**

This course is designed to provide education specialist candidates with the skills and knowledge needed to promote and reinforce prosocial skills using positive behavior support strategies. The 3-tiered model (primary, secondary and tertiary supports) to positive behavior support will serve as the organizing framework for this course. The first part of the course will focus on ways to promote positive and cooperative behaviors by using a variety of schoolwide and classroom management strategies, including teaching and reinforcing expected behaviors, active supervision, clear communication and collaboration with team members, and planned responses to challenging behavior (primary level of supports). The remainder of the course will focus on providing more intensive supports for students with more pervasive/complex behavioral and social needs (secondary and tertiary level of supports). Relevant federal and state legislation and ethical considerations will be discussed.

**SPED 403DHH. Early Field Experience in Deaf Education (3)**

*Prerequisite or Corequisite: SPED 400.* This course is the first of 2 field work practical in special education designed to provide Credential candidates field experiences in K-12 schools serving deaf and hard-of-hearing students. Students observe/participate in the instruction of

deaf and hard-of-hearing students across the age ranges from preschool through high school and across the range of settings from itinerant to self-contained classes to special school and residential school placements. Accompanying seminars link terminology, issues and instructional perspectives with practice, with collegial support provided to participants. 72 field work hours coincide with seminar topics.

**SPED 403MM, MS. Early Field Experience/Seminar in Special Education (3)**

*Prerequisite: Admission to Preliminary Education Specialist Credential Program. MM Program Prerequisites or Corequisites: SPED 400, 406. MS Program Prerequisites: SPED 400, 504MS. MS Program Prerequisite or Corequisite: SPED 402.* This course is the first of 2 field work practica in special education designed to provide Credential candidates practical hands-on experience in K-12 schools. Accompanying seminars link course work with practice and provide collegial support to participants. Field work hours coincide with seminar topics and range from 5-10 hours per week, varying by specialization.

**SPED 403D. Early Field Experience in Deaf Education (3)**

*Prerequisite or Corequisite: SPED 400.* This course is the first of 2 field work practica in special education designed to provide Credential candidates field experiences in K-12 schools serving deaf and hard-of-hearing students. Students observe/participate in the instruction of deaf and hard-of-hearing students across the age ranges from preschool through high school and across the range of settings from itinerant to self-contained classes to special school and residential school placements. Accompanying seminars link terminology, issues and instructional perspectives with practice, with collegial support provided to participants. 72 field work hours coincide with seminar topics.

**SPED 404. Teaching Diverse Learners with Social-Communication Disabilities, including Autism (3)**

This course is designed to provide information regarding the social-communication challenges faced by diverse learners, including students who are diagnosed with autism spectrum disorder (ASD). Emphasis will be placed on implications for intervention and instruction based on students' learning characteristics, including: (a) the roles of social interaction and communication in cognition and learning; (b) specific learning needs of students with social-communication disabilities, including ASD; and (c) critical evaluation, selection and implementation of interventions for students with social-communication disabilities, including ASD. The teacher's role in working with families and teaming with other disciplines to develop a comprehensive and interdisciplinary approach across ages and severity of these disabilities will be examined.

**SPED 406. K-12 Literacy Instruction for Diverse Learners with Disabilities (3)**

*Prerequisites: Restricted to Candidates admitted to the Education Specialist Credential Program and ITEP.* This course is designed to prepare special education students to teach diverse learners with disabilities reading and language arts at the elementary and secondary levels. The course focuses on the design and delivery of comprehensive literacy programs consistent with state standards and the competencies and strengths of students with disabilities. Content specifically addresses word analysis, fluency, vocabulary, academic language and comprehension, and prepares students to pass the RICA exam. An emphasis is placed on the development and organization of differentiated instructional practices for students with disabilities, based on findings from individualized assessment procedures.

**SPED 416. Educating Diverse Learners with Disabilities and Working With Their Families (3)**

*Prerequisites for MM Program: SPED 400, 403 MM, 406. Prerequisite or Corequisite for MM Program: SPED 501MM. Prerequisites for MS Program: SPED 400, 406. Prerequisite or Corequisite for MS Program: SPED 504MS. Prerequisites for DHH Program: SPED 400, 406.* This course is designed to provide information regarding the education of diverse learners with disabilities. The course provides an overview of the needs of English language learners (ELLs) with disabilities with an emphasis on understanding and accepting differences in culture, ethnicity, language and abilities and disabilities of individuals. Candidates are introduced to state and federal laws related to students with disabilities and diverse needs. Knowledge and practices for becoming culturally competent educators are discussed, taking into account the principles of language acquisition, language proficiency, differences in family backgrounds and systems, and how these effect learning. Finally, the course addresses ways of communicating effectively and respectfully with families.

**SPED 420. Improving the Learning of Students with Special Needs Through Differentiated Instruction and Collaboration (3)**

*Prerequisite: Restricted to candidates admitted to Credential Programs in Elementary, Secondary or Special Education or acceptance into the Educational Therapy Program; SPED 400, 406. Prerequisite for MM Program: SPED 403MM. Prerequisite for MS Program: SPED 504MS. Prerequisite or Corequisite for MS Program: SPED 505MS.* This course is designed for general and special education teachers to learn how to design differentiated instruction that is universally accessible to all learners and how to provide accommodations and modifications to grade-level instruction to meet students' individual needs. Foundational information on disability characteristics and the potential impact on the inclusive classroom will be introduced and historical foundations of special education and the inclusive education movement will be presented. The course also focuses on developing the basic principles of positive behavior support and the communication skills needed to implement the range of collaborative service delivery options for students with disabilities, students who are at-risk, and those who are gifted and talented. Candidates will develop foundational knowledge and skills in research-based processes for effective instruction of students with special needs, positive behavior support, and collaboration with other educators, administrators, parents and students to improve student learning.

**SPED 431. Atypical Development in Young Children with Disabilities (3)**

May be taken prior to admission. This course examines atypical development in young children with disabilities and the interrelationships and implications of atypical development in motor, cognitive, sensory, language/speech and social/emotional areas. It is designed for professionals working in nursing, special education, physical and occupational therapy, speech and language, social work and child development. Emphasis is placed on etiology, research and evidence-based practices. (Offered once each year.)

**SPED 438CD. Student Teaching in Language, Speech and Hearing and Audiology (6)**

*Preparatory: Approval of the Department of Communication Disorders and Sciences.* The student will spend 2 full school days per week in the Public School System under the supervision of a supervisory teacher. In addition, all candidates will be supervised by a University Faculty coordinator from the Department of Communication Disorders and Sciences. The student will assume the planning and teaching responsibilities of the master teacher on the assigned days.

**SPED 438CDA. Student Teaching in Severe Language Handicapped Aphasia (4)**

*Preparatory: Approval of the Department of Communication Disorders and Sciences.* This course can be taken concurrently with or subsequent to SPED 438CD. The student will participate, during 1 semester, in 100 hours of student teaching in the Public School System in a classroom for severe language handicapped/aphasic pupils. This will be done under the supervision of a supervisory Tteacher and a University faculty coordinator from the Department of Communication Disorders and Sciences. The student will assume the planning and teaching responsibilities of the supervisory teacher during the assigned hours.

**SPED 494A-Z. Experimental Topics Courses (1-3)****SPED 496A-Z. Experimental Topics Courses in Special Education (1-3)**

Selected topics in special education, with course content to be determined.

**SPED 499X,Y,Z. Independent Study (1-3)****Graduate Courses****SPED 500. Communication and Early Literacy Development of Young Children with Disabilities (3)**

May be taken prior to admission. This course focuses on communication strategies and early literacy development for young children with disabilities, including those who are learning English as a second language. Students will learn about recommended and evidenced-based practices to assess and support these children's early language use and communicative behaviors. They also will learn to use strategies to support young children's participation in story book reading and develop their emerging literacy skills.

**SPED 501MM. Special Education Assessment of Diverse Learners with Mild/Moderate Disabilities (3)**

*Prerequisites: SPED 400, 403 MM, 406 or 506MMA.* This course is designed to provide candidates with the foundation for understanding the assessment process and to prepare students to be professional educators and leaders in assessment. Candidates will focus on the educational assessment methods and procedures used in decision making and program planning for students with mild/moderate disabilities, including those from culturally and/or linguistically diverse backgrounds, with emphasis on administering, scoring and interpreting standardized educational tests.

**SPED 502MM. Reading/Language Arts Instruction for Diverse K-12 Students with Mild/Moderate Disabilities (3)**

*Prerequisites: SPED 400, 406, 416; SPED 403MM or 506MMA/B. Prerequisite or Corequisite: SPED 501MM.* This course develops understanding of reading processes and the reading and written language problems of students with mild/moderate disabilities. Emphasis is given to informal diagnostic assessment procedures and intensive focused intervention. Evidence-based approaches to supporting the development of individualized interventions in phonemic awareness, word decoding, fluency, vocabulary knowledge and reading comprehension are critically examined and applied.

**SPED 503MM. Curriculum and Instruction in Math and Content Subjects for Learners with Mild/Moderate Disabilities (3)**

*Prerequisites: EED 565M or SED 525; SPED 400, 406, 416; SPED 403MM or 506MMA-C. Prerequisite or Corequisite: SPED 501MM.* This course examines models of assessment, curriculum and instruction in math, writing and content subjects appropriate for students with mild to moderate disabilities. Students use research and contemporary theoretical orientations to evaluate, adapt, modify and/or

design methodology, curriculum and instructional strategies for math and content subject instruction. Emphasis is given to the assessment/teaching cycle, the selection and implementation of research-based curricula and instructional methods, developing and evaluating individualized integrated interventions, using assistive and instructional technology, and using Universal Design for Learning to plan instruction that is accessible to all learners.

#### **SPED 504D. Foundations of Deaf Education (3)**

*Prerequisite or Corequisites:* SPED 400, 403D. This course uses the historical context of deaf education to focus on current educational, political and social trends that affect the placement and instruction of deaf/hard of hearing students. The breadth of placements and age ranges within this diverse population are critically reviewed using current research in the field. (Offered Fall semester only.)

#### **SPED 504MS. Teaching Learners with Moderate/Severe Disabilities (3)**

*Prerequisite:* Admission to Preliminary Education Specialist Credential Program in Moderate/Severe Disabilities. This course is the first of the 4 specialization courses candidates in Moderate/Severe disabilities take and as such, serves as the course that provides a strong foundation for subsequent methodology classes. Topics include definition and identification of students with moderate to severe disabilities; federal legislation pertinent to this population; educational theories guiding practice and how these theories have changed over time; appropriate assessment practices and tools and educational approaches recommended for this group of learners. Planning and adapting to meet the needs of students from diverse cultural and linguistic backgrounds is infused throughout the course. Emphasis is placed on understanding the prevailing “recommended practices” in the field of severe/moderate disabilities as endorsed through contemporary research.

#### **SPED 505MS. Curriculum and Instruction for Diverse Learners with Moderate to Severe Disabilities (3)**

*Prerequisites for the MS Program:* SPED 400, 504MS. *Prerequisite or Corequisite for the MS Program:* SPED 402. This course examines models of assessment, curriculum and instruction appropriate for learners having moderate to severe disabilities. Students use research and contemporary best practices to evaluate, modify and/or design methodology and materials for assessment, curriculum development and instruction in the area of moderate to severe disabilities. Emphasis is given to assessment methodology selection of educational priorities and principles of developing and evaluating individualized, integrated interventions for a wide array of diverse learners. Field work included to complete applied assignments. May be repeated twice for credit.

#### **SPED 506DH(A-D), MM(A-D), MS(A-D). Special Education Internship Field Experience (3-3-3-3)**

*Prerequisite:* Must be enrolled in the Education Specialist Internship Program.

**DHH Intern Program** *Prerequisites:* Taking the ASLPI is required prior to admission to the Intern Program; Passing the ASLPI is required prior to enrollment in the 3rd semester of SPED 506D. *Prerequisites to Intern Program:* SPED 400, 402, 406, 420. *Prerequisites or Corequisites to 2nd semester of SPED 506D:* SPED 504D, 560D, 561D, 565. *Prerequisites to 3rd semester of SPED 506D:* EED 565M or SED 525; SPED 416, 563.

**MM Intern Program** *Prerequisite or Corequisites to 2nd semester of 506MM:* SPED 400, 406; *Prerequisites to 4th semester of SPED 506MM:* EED 565M; SPED 400, 402, 404, 406, 416, 501MM, 502MM.

**MS Intern Program** *Prerequisite or Corequisite with 1st and 2nd semester of 506MS and Prerequisite to 3rd semester of 506MS:* EED 565M; SPED 400, 402, 406, 416, 504MS. *Prerequisite or Corequisite with 3rd semester of SPED 506MS and prerequisite to 4th semester of 506MS:* SPED 420, 505MS. *Prerequisite or Corequisite with 4th semester of*

*SPED 506MS:* SPED 581, SPED elective (SPED 404, 640 or 642).

Extended field work participation for special education intern teachers. Clinical supervision is provided through such means as videotaping and on-site visits by the instructor. Students meet with the instructor to discuss videotapes, on-site observation and field work activities. This course will normally be taken for 4 semesters (12 units). May be repeated twice for credit.

#### **SPED 506EC(A-C). Early Childhood Special Education Internship Field Experience (3-3-3)**

*Prerequisite:* Must be enrolled in the Early Childhood Special Education Specialist Intern Program. *SPED 506ECA: Prerequisites or Corequisites with first semester SPED 431 and 402. SPED 506ECB : Prerequisites or Corequisites with second semester SPED 532, 537). SPED 506ECC: Prerequisites prior to third semester SPED 500, 535, 536; Corequisites with third semester SPED 520EC, 538.* Designed to provide ongoing support to candidates in the Early Childhood Special Education Intern Credential Program. Reflective supervision is provided through on-site visits by the instructor, analysis of videos, online discussions and monthly meetings. Class sessions involve discussion of teaching experiences, video analysis, problem-solving, resource sharing and collegial support.

#### **SPED 520EC. Assessment and Evaluation in Early Childhood Special Education (3)**

*Prerequisite or Corequisite:* SPED 431. Theory and practice of assessment and evaluation of infants, toddlers and young children with special needs. Examines the uses and limitations of current assessment practices for educational decision making with this population. Includes evaluation, selection and administration of assessment instruments for both the young child and his/her family and use of assessment results to develop the IFSP/IEP. Assessment for program evaluation also is considered. Open to graduate students in related disciplines (Communication Disorders and Sciences, Child and Adolescent Development, Psychology/Educational Psychology, Physical Therapy, Nursing) as well as in Special Education. (Offered once each year.)

#### **SPED 532. ECSE Curriculum and Instruction (3)**

*May be taken prior to admission.* Study of curriculum and methods for infants, toddlers and preschoolers with disabilities, focusing on the developmental areas of cognition, play and social interaction, and the CA Preschool Learning Foundations. The course includes an overview on designing environments to facilitate independent problem-solving and social interaction. (Offered once each year.)

#### **SPED 535. Collaboration with Families in Early Childhood Special Education (3)**

Recommended and evidence-based practices for working with families of infants, toddlers and preschoolers receiving early intervention and early childhood special education services. An emphasis is placed on family-centered and culturally-responsive practices that promote the family’s roles in the child’s development, family/professional collaboration in the development of the IFSP/IEP, and the family systems model in designing and implementing effective services. Interviewing and active listening techniques are included. (Offered once each year.)

#### **SPED 536. Methods for Young Children with Disabilities: Motor and Adaptive Skills (3)**

*Prerequisite or Corequisite:* SPED 431. Study of atypical patterns of motor development in infants, toddlers and preschool children with disabilities; and methods of assessment and intervention for fine and gross motor skills. An emphasis is placed on collaboration with families, physical and occupational therapists and other service providers in assessing motor, adaptive and sensory processing skills, using adaptive devices, specialized equipment and other modifications to support a child’s active participation. (Offered once each year.)

**SPED 537. Methods for Young Children with Multiple Disabilities: Sensory Impairments (3)**

*Prerequisite or Corequisite:* SPED 431. This course identifies strategies for working with infants, toddlers and preschoolers whose multiple disabilities include vision impairments and/or hearing loss. An emphasis is placed on collaboration with families, vision and hearing specialists and other related services personnel in identifying children's functional use of vision and hearing and adapting instructional materials, activities and environments to enhance learning. (Offered once each year.)

**SPED 538. Early Intervention Practices (3)**

*Prerequisites or Corequisites:* SPED 402, 404, 431, 500, 520EC, 532, 535, 536, 537. *Corequisite:* 578EC. *Taken with or the semester before 578EC—Field Work in ECSE: Infant/Toddler.* The course content is designed for graduate level students from relevant disciplines (e.g., early childhood special education, communicative disorders, child development, nursing, physical therapy). Students will identify their roles as members of an early intervention team serving families and their infants and toddlers with IFSPs. Course content focuses on the CA Infant/Toddler Learning and Development Foundations, philosophies and recommended and evidence-based practices in the field of early intervention, team models, service delivery approaches and strategies to promote collaboration with families and other members of the educational team. (Offered once each year.)

**SPED 541B: Getting Started—Introduction to Teaching in Urban Schools (2)**

*Prerequisites:* Restricted to candidates admitted to the Accelerated Collaborative Teacher (ACT) Preparation Program; Admission into the ACT Program. *Prerequisites or Corequisites for Multiple Subject Credential candidates:* EED 515, 520, 559C, 565M, 567ACT, 559C; EED or EPC 500; ELPS 541A. *Prerequisites or Corequisites for Single Subject Credential candidates:* ELPS 541A; EPC 420; SED 511, 514, 525, 554, 544S. *Prerequisites or Corequisites for MM Program:* EED 565M or SED 525; ELPS 541A; SPED 400, 404, 406, 501MM, 579ACT. *Other specializations should check with their advisor.* Offered in Fall semester only. This course is the first of 2 Core courses in the ACT Program for elementary, secondary and special education teacher candidates. Taught collaboratively by a team of University and school faculty, the course is an introduction to teaching and learning in the context of K-12 urban schools, with an emphasis on educational equity, diversity and special populations. Topics include an introduction to the roles and responsibilities of a professional educator; teachers' and students' backgrounds and how they impact teaching and learning in urban schools; knowledge of relevant federal and state legislation for students with special needs; differentiated instruction that is universally accessible to all learners; accommodations and modifications to grade-level instruction in order to meet students' individual needs, and collaboration with school professionals and families. Teacher candidates are provided activities and discussions that emphasize the links between theory and practice.

**SPED 542B. Meeting the Needs of all Students in Urban Schools (1)**

*Prerequisites:* Restricted to candidates admitted to the Accelerated Collaborative Teacher (ACT) Preparation Program; Successful completion of all Fall semester course work. *Prerequisites or Corequisites for Multiple Subject Credential Candidates:* EED 559F, 565S, 568ACT, 575; ELPS 542A; HSCI 496TH; KIN 595PE. *Prerequisites or Corequisites for Single Subject Credential Candidates:* ELPS 542A; HSCI 466ADO; SED 521, 555. *Prerequisites or Corequisites for MM Program:* ELPS 542A; SPED 402, 502MM, 503MM, 580ACT. *Other specializations should check with their advisor.* Offered in Spring semester only. SPED 542B with ELPS 542A is the second of 2 Core courses in the ACT Program, is

designed for elementary, secondary and special education teacher candidates and taught collaboratively by a team of University and school faculty. Building on the content introduced in the first Core course related to educational equity, diversity and special populations, topics include developing as a reflective educator who considers the learning needs of all students; creating and managing effective and healthy classroom environments in urban schools; problem solving strategies to facilitate teaching and learning; instructional modifications and accommodations for students with disabilities in general education settings, issues related to diversity and multicultural education; and models of collaboration/consultation. Teacher candidates are provided activities and discussions that emphasize the links between theory and practice.

**SPED 560 Development and Assessment of Language in Deaf and Hard of Hearing Students (3)**

*Prerequisites or Corequisites:* SPED 403D, 416, 504D. This course addresses optimal communication environments for language acquisition and contrasts features of and communication strategies used by deaf parents and hearing parents with deaf children. General theoretical framework of language acquisition is covered, as well as strategies to assess and promote the basic interpersonal communication skills (BICS) and cognitive academic language proficiency (CALP) of deaf and hard-of-hearing children.

**SPED 561D Teaching Reading to Deaf and Hard of Hearing Students (3)**

*Prerequisite or Corequisites:* SPED 406, 560. *Corequisite:* SPED 565. This course is a systematic examination of principles, assessment and instruction of reading deaf and hard-of-hearing pupils. This course addresses the development of emergent literacy skills of young children and actual reading abilities. This course focuses on reading skills development, vocabulary acquisition, development of concepts through reading, and language assimilation through reading. Selection and use of appropriate instructional resources to develop reading skills also are covered.

**SPED 563 Audiology and Spoken English Development for Teachers of Deaf and Hard of Hearing Students (4)**

*Prerequisites or Corequisites:* SPED 416, 504D, 560. This course is an examination of audiological and speech theory and practice pertinent to the teaching of deaf and hard-of-hearing students, with an emphasis on bilingual methods, procedures and materials used in teaching speech, speech reading and auditory training. Students will acquire knowledge and skills related to early intervention and the impact of Newborn Hearing Screenings, working with families, and the early use of assistive listening devices, including cochlear implants. Current research and directions in listening technology will be reviewed.

**SPED 565 Teaching Written English to Deaf and Hard of Hearing Students (3)**

*Prerequisites or Corequisites:* SPED 406, 560. *Corequisite:* SPED 561D. This course is a systematic examination of various systems and methods that have been used to teach written English to deaf and hard-of-hearing students. Exploration of the facilitative role of ASL fluency on the subsequent acquisition of written English skills will be addressed. Strategies and activities are presented and practiced for assessing and developing the written English skills of deaf and hard-of-hearing students.

**SPED 566D Curriculum and Instruction for Deaf and Hard of Hearing Students (3)**

*Prerequisites or Corequisites:* SPED 402, 504D, 560. This course examines assessment, curriculum and instruction appropriate for deaf and hard-of-hearing students across the age range. Candidates use research and contemporary theoretical orientations to evaluate, modify and/or design instructional materials for assessment, curriculum develop-

ment and instruction in content areas. Emphasis is given to developing knowledge and skills in ASL/English bilingual instruction.

### **SPED 567D Teaching Deaf and Hard of Hearing Students with Special Needs (3)**

*Prerequisites or Corequisites:* SPED 402, 504D, 560. Deaf students with special needs have unique learning and behavioral characteristics that present many challenges to their teachers. This course will address characteristics, placement, modification of curriculum, instructional methods and educational materials to meet these students' special learning and behavioral needs. Emphasis will be on establishing programs that are meaningful to the students and provide an arena in which they can be successful. (Offered Spring semester.)

### **SPED 578. Field Work in ECSE: Infant/Toddler (3)**

Each Early Childhood Special Education candidate is assigned to a program providing early intervention services to infant/toddlers with disabilities and their families. This field work of at least 100 hours includes working with the families, participating in the design and implementation of individualized plans and activities to support the children's development in all areas, ongoing data collection and participation in team meetings and other professional activities as appropriate. Supervision is provided by the cooperating/master teacher and through on-site visits by the University instructor. May also be an option for the University Certificate in Early Intervention. (Offered once each year.)

### **SPED 579ACT. Supervised Field Work with Exceptional Learners and Seminar (4)**

*Prerequisite:* Restricted to candidates admitted to the Accelerated Collaboration Teacher (ACT) Preparation Program. *Corequisites for MM Program:* EED 565M or SED 525; ELPS 541A; SPED 400, 404, 406, 501MM, 541B. *Other specializations should contact their advisor.* Offered in the Fall semester only. This course is the first of 2 field work/seminar requirements for the ACT Program that are designed to provide teacher candidates practical hands-on experience in the classroom, K-12 schools and the community. 120 hours of field work are required, approximately 8 hours per week, with supervision and guidance provided by the University supervisor and district coach. Teacher candidates will observe and assist teachers who serve students with disabilities from culturally and linguistically diverse backgrounds. Seminars are designed to link credential course work with classroom practices and to provide collegial support to participants.

### **SPED 580ACT. Advanced Field Work with Exceptional Learners and Seminar (6)**

*Prerequisite:* Restricted to candidates admitted to the Accelerated Collaborative Teacher (ACT) Preparation Program. *Prerequisites for MM Program:* EED 565M or SED 525; ELPS 541A; SPED 400, 404, 406, 501MM, 541B. *Corequisites for MM Program:* ELPS 542A SPED 402, 502MM, 503MM, 542B. *Other specializations should contact their advisor.* Offered Spring semester. This course is the final field work experience and seminar for the ACT Program. Teacher candidates complete this experience with a teacher, trained as a coach, who serves students with disabilities from culturally and linguistically diverse backgrounds. Field work consists of 66 field work hours and a full-day, 12-week student teaching assignment in which the teacher candidate gradually assumes full responsibility for the complete instructional program. The candidate is provided supervision and guidance by the district coach and University supervisor. The seminar is designed to link credential course work with classroom practices and to provide collegial support to participants.

### **SPED 580D. Student Teaching and Seminar in Deaf/Hard of Hearing (6)**

*Prerequisites:* All credential courses except SPED 563 and 567D, both of which are Prerequisites or Corequisites for this course. Only one of the two, however, may be taken concurrently with student teaching. The other must be taken as a Prerequisite. SPED 580D is the final special education field work experience for students in the Deaf/Hard of Hearing Specialist Preliminary Credential Program. Candidates complete this experience on-the-job or with a supervising teacher who serves diverse deaf/hard-of-hearing learners. Student teaching consists of 1 complete semester, full day assignment during which time the candidate gradually assumes full responsibility for the complete instructional program if he or she is not on-the-job. The candidate is provided supervision and guidance by the supervising teacher or on-site support provider and a University supervisor.

### **SPED 580EC. Advanced Specialist Field work in Early Childhood Special Education (6)**

*Prerequisite:* Bachelor's Degree in Child and Adolescent Development or 12 units in approved Child and Adolescent Development or Early Childhood courses SPED 402, 431, 500, 532, and 535. May be taken as a Corequisite to SPED 520EC, 536, or 537 (although only one of these 3 may be taken concurrently with this course). One semester of supervised field work for Early Childhood Special Education candidates in preschool or pre-K settings. Supervision is provided by the cooperating/master teacher and through on-site visits by the University instructor and video analysis. Students meet in a seminar with the instructor to discuss their video and on-site observations, and field work activities.

### **SPED 580ECI. Advanced Specialist Field work in Early Childhood Special Education (3)**

*Prerequisites:* Admission to the Intern Program for the Educational Specialist Credential in ECSE. Supervised field work of at least 100 hours in preschool or pre-K settings with young children who have IEPs. Required of candidates in the Early Childhood Special Education Intern Program who are employed in early intervention programs or as an option for the University Certificate in Early Intervention. Supervision is provided by the cooperating teacher and through on-site visits by the University supervisor, analysis of videos and online reflections.

### **SPED 580MM. Student Teaching and Seminar in Mild/Moderate Disabilities (6)**

*Prerequisites or Corequisites:* EED 565M or SED 525; SPED 400, 402, 403MM, 404, 406, 416, 420, 501MM. Only one of these courses, however, may be taken concurrently with SPED 580MM. This course is the final special education field work experience for students in the Mild/Moderate Education Specialist Preliminary Credential Program. Candidates complete this experience on-the-job or with a supervising teacher who serves diverse learners with mild/moderate disabilities. Student teaching consists of 1 complete semester, full-day assignment during which time the candidate gradually assumes full responsibility for the complete instructional program if he or she is not on-the-job. The candidate is provided supervision and guidance by the supervising teacher or on-site support provider and a University supervisor. The seminar portion of the course (SPED 580S) meets on a regular basis throughout the semester with the University supervisor.

### **SPED 580MS. Student Teaching and Seminar in Moderate/severe Disabilities (6)**

*Prerequisites:* SPED 400, 402, 403MS, 406, 416, 420, 504MS, 505MS. This course is the final special education field work experience for students in the Moderate/Severe Education Specialist Preliminary Credential Program. Candidates complete this experience on-the-job

or with a supervising teacher who serves diverse learners with moderate/severe disabilities. Student teaching consists of 1 complete semester, full-day assignment during which time the candidate gradually assumes full responsibility for the complete instructional program if he or she is not on-the-job. The candidate is provided supervision and guidance by the supervising teacher or on-site support provider and a University supervisor. The seminar portion of the course meets 1 to 2 times per month with the University supervisor.

**SPED 580S. SPED 580S ECSE/MM/MS Advanced Specialist Field Work Analysis In Education of Learners with IEPS (3)**

*Pre-requisites: Course work required for approval of SPED 580ECSE/MM/MS. Corequisite: SPED 580.* This seminar meets at regularly scheduled times during the semester as a concurrent seminar with student teaching to provide professional development opportunities for analysis of the field work experience related to teaching effectiveness, assessment, individualized educational planning, program evaluations, case analysis and problem solving. Relationships with parents, relationships with other professionals, and issues related to assuming a professional role as a special educator are included. The seminar instructor facilitates reflective practice.

**SPED 581. Augmentative and Alternative Communication (3)**

*Prerequisite: SPED 400, 504MS.* Techniques for assessment and intervention of alternative communication skills other than speech for students with severe disabilities. Development and use of augmentative communication devices (both light- and high-technology). Teaching the communicative partner how to make use of augmentative devices during interactions.

**SPED 595A-Z. Experimental Topics Courses (1-6)**

**SPED 612/L. Design and Development of Indirect Services in Special Education and Lab (2/1)**

*Prerequisites: Preliminary Education Specialist Level I Credential; Admitted to Clear Education Specialist Credential Program and/or Special Education Masters Program. Corequisite: SPED 612L.* This course is designed for experienced educators who work with exceptional individuals to develop specialized knowledge regarding the critical elements involved in effective delivery of indirect services. It focuses on major theoretical positions and methodologies of indirect service development and delivery. Research and theoretical positions in the field are analyzed. Lab: This course is designed for experienced special education teachers and master teachers. It focuses on the application of major theoretical positions and specific skills development regarding the development and implementation of indirect services for exceptional individuals. (Offered Spring semester only.)

**SPED 622. Career Education for Learners with Special Needs (3)**

*Prerequisites: Preliminary Education Specialist Credential; Admitted to Clear Education Specialist Credential Program and/or Special Education Master's Program.* Examination of current concepts, philosophies and methods in career education of exceptional individuals, as well as the exploration of the practical application of their potential in the work setting. Does not replace EDP 657 for PPS Credential. (Offered Fall semester only.)

**SPED 628 Induction and Formative Assessment (3)**

*Prerequisites: Completion of the Preliminary Education Specialist Credential Program in the Specialization (MM, MS, DHH, ECSE); Admitted to the Clear Education Specialist Credential Program; Must be taken the first semester of the Program.* This introductory course in the Clear Credential Program is designed to facilitate the transition from teacher preparation to induction. An overview of the Program is provided with a focus on developing as a professional special educator and advancing professional knowledge, skills and dispositions. In

collaboration with the University instructor and the support provider, candidates develop an Individual Induction Plan (IIP), intended to expand the candidate's knowledge base, with goals and activities completed and assessed throughout the program. This course emphasizes the development of inquiry and implementation of formative assessment activities based on candidates' individual contexts for teaching.

**SPED 638. The Role of the Special Educator in the Twenty-First Century (3)**

*Prerequisite: SPED 628 and/or acceptance into the Masters Program in Special Education. Prerequisite or Corequisite: 6 units of Clear Credential courses from the menu of Options or acceptance into the Masters Program in Special Education.* This course is designed for special education teachers to develop advanced knowledge and skills of processes for effective collaboration, consultation and communication in educational settings. The course focuses on the changing role of the special educator, the effective management of caseloads and paraprofessionals, the development of effective communication skills for problem solving, advocacy and leadership, and the challenges inherent in collaborative relationships. Candidates will learn how to build partnerships with other professionals to design instruction that is universally accessible to all learners and learn how to use technology and assistive technology to provide universal access for learners with special needs. Emphasis will be on the unique skills each specialization candidate brings to any collaborative or instructional interaction and to the added value of the special educator as an education specialist. Current research and theoretical positions in the field will be analyzed, while emphasis will be placed on concrete skills for implementation. As this is the final course in the Clear Educational Specialist Program, students will be expected to reflect on their professional development and instructional competencies, and complete their Individualized Instructional Program.

**SPED 640. Physical and Multiple Disabilities (3)**

*Preparatory: SPED 400, 431, 508 or 431 or equivalent.* Information pertaining to typical growth and development of children, and common physical disorders and their impact on development and learning. Transdisciplinary model of service delivery to address the needs of children and youth having physical and multiple disabilities. Specific information and techniques on physical positioning, lifting and carrying individuals with physical disabilities of different ages; various ways (both high- and light-technological) of adapting and accommodating for the needs of individuals having severe physical and multiple disabilities; and individualized teaching techniques. Positive and negative impact of medications. (Offered Fall semester only.)

**SPED 642. Students with Multiple and Sensory Impairments (3)**

*Preparatory: SPED 400, 431, 508 or equivalent.* Educational issues for students with intellectual disabilities who also have sensory impairments (visual and/or auditory). Information on specific visual and hearing disorders, psychosocial implications of these disabilities on the developing child, teaching strategies to address students with these disabilities, and adaptations and accommodations. (Offered Spring semester only.)

**SPED 652. Educating Children with Emotional Disturbance (3)**

*Prerequisites: Preliminary Education Specialist Level I Credential; Admitted to Clear Education Specialist Credential Program and/or Special Education Master's Program.* Designed to study the behavioral characteristics of children with severe emotional disorders. Problems of social control, adjustment, effective curriculum and teacher evaluation. (Offered Spring semester only.)

**SPED 655. Theoretical and Empirical Bases of Education of Learners with Autism (3)**

*Prerequisite:* Admitted to Clear Education Specialist Credential Program, Added Autism Authorization and/or Special Education Master's Program. This course deals with theory and research specific to the disorder of autism, focusing on major theoretical positions regarding etiologies of the condition, definition and identification of the population, and educational approaches.

**SPED 671. Advanced Study of Literacy Problems (3)**

*Prerequisites:* SPED502MM0; Admission to the Special Education Master's Program or Post-M.A. Degree Certificate Program in Educational Therapy. This course provides advanced study in the area of literacy. It is designed to examine issues related to literacy processes, assessment and instructional practices, research methodologies and the relationships between language, literacy, schooling and culture. Emphasis is placed on students struggling with reading and writing. A minimum of 12 hours of supervised clinical experience is required. (Offered Spring semester only.)

**SPED 672. Advanced Assessment (3)**

*Prerequisites:* SPED 620; Admission to the Special Education Master's Program or Post-M.A. Degree Certificate Program in Educational Therapy. *Prerequisite or Corequisite:* SPED 671. This Master's-level course is designed to examine the advanced skills educational therapists and other educators use when evaluating a student with learning differences pertaining to clinical procedures and educational diagnosis. Course work will include: (a) choosing appropriate formal and informal assessments for individuals at various age levels; (b) interpreting test data for the purpose of making an educational diagnosis; (c) interpreting test data for the purpose of developing an intervention plan; (d) synthesizing contextual information; and (e) guiding the client and family through the assessment process.

**SPED 673. Principles of Educational Therapy for Individuals with Exceptional Needs (3)**

*Prerequisite:* Admission to the Master's Program or Certificate Program in Educational Therapy. This beginning course in the Educational Therapy Program provides an in-depth study of the educational therapist's professional role and ethical responsibilities. Services of the educational therapist are compared to those of other professionals, and the interface between educational therapy and allied professions is reviewed. Responsibilities of the educational therapist, which include gathering contextual information, providing formal and informal assessments, synthesizing information, developing goals, case-management, making referrals, collaborating with allied professionals, assessing progress and self reflection are examined. A model of educational therapy is developed.

**SPED 676. Clinical Case Management (3)**

*Prerequisites:* SPED 673, 671, 672; Admission to the Special Education Master's Program or Post-M.A. Degree Certificate Program in Educational Therapy. The focus of this course is on case management. Students will analyze contextual influences, such as the school, family, community and culture that impact a student's performance, and demonstrate the ability to serve in the role of case manager (e.g., prioritizing goals, responding to parent concerns, understanding school demands). This course is designed to build on the knowledge and skills from foundational educational therapy course work as related to establishing and maintaining effective, efficient and ethical practices.

**SPED 677. Instructional Strategies for Adolescents and Young Adults with Mild/Moderate Disabilities (2)**

*Prerequisite:* Preliminary Education Specialist Level I Credential; Admitted to Clear Education Specialist Credential Program and/or Special Education Master's Program. *Corequisite:* SPED 677L. Analysis of major theoretical positions and methodologies for instruction of adolescents and young adults with mild/moderate disabilities. Examination of theoretical and empirical bases of specific instructional interventions, with emphasis on their use in heterogeneous groups or mainstream settings.

**SPED 677L. Instructional Strategies for Adolescents and Young Adults with Mild/Moderate Disabilities Lab (1)**

*Corequisite:* SPED 677. Application of major theoretical positions and methodologies in the education of youth with disabilities. Skill development in application of the concepts presented in SPED 677.

**SPED 679. Internship in Educational Therapy (3-6)**

*Prerequisites:* SPED 671, 672, 673, 676; Admission to the Special Education Master's Program or Post-M.A. Degree Certificate Program in Educational Therapy. SPED 679 is the culminating experience in the Educational Therapy Program. Through a supervised internship, students will work with a client on an individual and ongoing basis to practice and further develop effective clinical skills. Students will be evaluated on each stage of the internship, including gathering contextual information, providing formal and informal assessments, synthesizing information, developing goals, managing cases, making referrals, collaborating with allied professionals, assessing progress and self reflection.

**SPED 681. Graduate Research in Special Education (3)**

*Prerequisites:* Admission to the Master's Program with Classified status. This Master's-level course is designed to provide information regarding the process of systematically researching an educational problem and to facilitate students' ability to interpret and evaluate the research of others in special education and related fields. Students are exposed to various research methods from both quantitative and qualitative traditions, including experimental, quasi-experimental and non-experimental designs (group and single-subject), with accompanying statistical analyses. A grade of "B" or higher is required to pass the course.

**SPED 682EC, D, MM, MS. Advanced Clinical Practicum in Special Education (3)**

*Prerequisite:* Admission to the Master's Program with Classified status. *Prerequisite or Corequisite:* SPED 681. This course provides an advanced educational experience for candidates in Master's Degree Programs in Special Education. It is designed as an opportunity for students to outline and research a topic of interest related to special education. Students meet in seminar to discuss issues related to action research and the development of literature review writing skills. A grade of "B" or higher is required to pass the course.

**SPED 683. Current Trends in Special Education (3)**

*Prerequisite:* Admission to the Master's Program with Classified status. *Prerequisite or Corequisite:* SPED 681 and 682. Advanced study of pertinent topics related to: a) federal, state and local agencies and their role in special and rehabilitative education; b) organization of special education programs; c) the preparation of teachers of exceptional children; and d) research and demonstration projects in the education of exceptional children. A grade of "B" or higher is required to pass the course.

**SPED 683EC. Current Trends in Early Childhood Special Education (3)**

*Prerequisite: SPED 628.* Advanced study of decision-making processes in early childhood special education, as influenced by personal values, ethics, public policy, law and the professional knowledge base. Consideration of issues related to policy and practice in early intervention and strategies for advocacy and systems change.

**SPED 695. Experimental Topics Courses (1-6)****SPED 695A. Advanced Behavioral Support (3).**

(Offered Fall semester only.)

**SPED 696. Graduate Research (1-3)**

*Preparatory: Acceptance by the Department of a Thesis on an advanced topic in the field of education.*

**SPED 697. Directed Comprehensive Studies (3)**

*Prerequisites: SPED 681 and 682 must be taken and passed with a grade of "B" or higher before students may register for the culminating experience (SPED 697 or 698C).* Directed Comprehensive Studies requires students to complete an examination in the form of an Action Research Project. The Project is conducted throughout the semester. Throughout the course, students organize their research materials and other resources to complete a literature review and design and conduct an action research Project. (Credit/No Credit only)

**SPED 698C. Thesis or Graduate Project (3-6)**

*Prerequisite: Completion of all course requirements for the Master's Degree.*  
*Preparatory: Acceptance by a Departmental Thesis Committee of a Thesis on a topic in the field of special education.*

**SPED 699X, Y, Z. Independent Study (1-1-1)**

Independent study projects are designed in collaboration with a faculty member in Special Education.

# Sustainability

College of Humanities

**Program Coordinator: Michael Neubauer**

## Minor in Sustainability

The Interdisciplinary Minor in Sustainability offers a broad education in sustainability from many perspectives. Core courses seek to educate students in the concepts of and best practices in sustainability and to teach students to consider all factors—economic, environmental and social—both in the short-term and in the long-term in making decisions. Elective courses are chosen from an individual's field of interest where the emphasis is on issues relating to sustainability. The Minor complements many academic majors and many of the courses offered within the Program satisfy requirements or electives for other Degree Programs.

## Student Learning Outcomes:

1. Students will demonstrate knowledge of key concepts related to the study of sustainability, including planetary carrying capacity, climate change and ecological footprint.
2. Students will be able to define sustainability and understand how concepts of sustainability are connected to issues of social justice, the environment and the economy at local, regional and global levels.
3. Students will be able to explain how sustainability relates to their lives and their values, and how their actions impact issues of sustainability at the individual and at local, regional and global levels.

### 1. Core Requirements (9 units)

|      |     |  |
|------|-----|--|
| SUST | 300 | Interdisciplinary Perspectives in Sustainability (3) |
| SUST | 310 | Best Practices in Sustainability (3)                 |
| SUST | 401 | Applied Sustainability (3)                           |

### 2. Electives (9 units)

#### Choose 9 units from the following:

|      |          |  |
|------|----------|--|
| ANTH | 346      | Urban Anthropology (3)   |
| ANTH | 486      | Interrogating Globalization: The Ethnography of Global Problems (3)  |
| BIOL | 327      | Ecology and People (3)   |
| BIOL | 533/592C | Conservation Biology (3/1)   |
| CAS  | 355      | Environment, Development and Social Exclusion in Central America (3) |
| CHEM | 541/L    | Environmental Chemistry I/Lab (2/2)                                  |
| CHEM | 542/L    | Environmental Chemistry II/Lab (1/2)                                 |
| CMT  | 336/L    | Fundamentals of Green Buildings (3)                                  |
| ECON | 300      | Economic Principles and Problems (3)                                 |
| ECON | 360      | Environmental Economics (3)  |

|      |     |   |
|------|-----|---|
| EOH  | 468 | Air Pollution and Health (3)  |
| FCS  | 414 | Senior Comprehensive Interior Design Project (3)  |
| FCS  | 516 | Interior Design and the Building Process (3)  |
| GEOG | 316 | Environmental Geography (3)   |
| GEOG | 351 | Urban Geography (3)   |
| GEOG | 364 | Geography of World Ecosystems (3)   |
| GEOG | 416 | Global Warming (3)  |
| GEOG | 444 | Conservation (3)  |
| GEOG | 459 | Environmental Impact Studies (3)  |
| JS   | 151 | Natural Environment and Judaism (3)   |
| ME   | 122 | Energy and Society (3)  |
| ME   | 482 | Alternative Energy Engineering I (3)  |
| ME   | 483 | Alternative Energy Engineering II (3)   |
| ME   | 485 | Introduction to Environmental Engineering (3)   |
| MGT  | 466 | Strategic Leadership of Sustainability: Organizational Challenges and Opportunities (3) |
| POLS | 461 | Environmental Policy (3)  |
| POLS | 464 | Comparative Public Policy (3)   |
| RTM  | 251 | Recreation and the Natural Environment (3)  |
| RTM  | 351 | Outdoor and Environmental Education (3)   |
| RTM  | 481 | Principles of Sustainable Tourism (3)   |
| RTM  | 530 | Cultural Aspects and Global Perspectives in Tourism (3)                                 |
| URBS | 150 | The Urban Scene (3)   |
| URBS | 300 | The Planning Idea (3)   |
| URBS | 310 | Growth and Development of Cities (3)  |
| URBS | 400 | Planning for the Natural and Built Environment (3)                                      |
| URBS | 415 | The California Environmental Quality Act for Urban Planners (1-3)                       |

Please consult academic advisors or the Program Coordinator for the most up-to-date list of approved electives.

**Minor in Teaching English as a Second Language (TESL)**

**M.A. in TESL (See Linguistics/TESL in the Catalog)**

**TESL Certificate**

## Minor in Teaching English as a Second Language

### The Program

The TESL Minor Program in the College of Humanities incorporates courses in Anthropology, Chicana/o Studies, Communication Studies, Education, English, Foreign Languages and Literatures, Linguistics and Sociology. The objective is to prepare candidates to teach English to speakers of other languages. Course substitutions may be made only with the written approval of the Linguistics/TESL coordinator.

### Academic Advisement

The Teaching English as a Second Language Program helps students select the program and courses that best satisfy their individual needs and interests. Contact Coordinator Evelyn McClave at (818) 677-5019 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a Minor in Teaching English as a Second Language are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

### Requirements for the Minor

Any course substitution must be approved by the Linguistics/TESL advisor.

#### 1. Language (9 units)

**Choose 1 course from (A), 1 course from (B), and 1 course from (C):**

##### A. An Introduction To Language

|      |     |                                     |
|------|-----|-------------------------------------|
| ANTH | 310 | Anthropological Linguistics2 (3)    |
| COMS | 420 | Language and Symbolic Processes (3) |
| ENGL | 301 | Language and Linguistics1 (3)       |

##### B. The Structure of Language

|      |     |  |
|------|-----|--|
| ENGL | 302 | Introduction to Modern Grammar2 (3)              |
| LING | 404 | Morphology and Syntax (3)                        |
| SPAN | 497 | Comparative Structure of Spanish and English (3) |

##### C. Language Acquisition

|      |     |   |
|------|-----|---|
| CHS  | 433 | Language Acquisition of the Chicana/o and ESL Speakers* (3) |
| LING | 417 | Language Development and Acquisition1 (3)                   |
| PAS  | 395 | Bilingualism in the African American Community* (3)         |

#### 2. Language and Culture (9 units)

**Choose 1 course from (A), 1 course from (B), and 1 course from (C):**

##### A. Language and Culture

|      |     |   |
|------|-----|---|
| CHS  | 482 | Languages of the Barrio* (3)                  |
| ENGL | 405 | Language Differences and Language Change* (3) |
| LING | 427 | Languages in Contact* (3)                     |
| LING | 441 | Sociolinguistics (3)                          |
| SPAN | 401 | Language and Culture (3)                      |

##### B. Cultural Studies

|      |     |                                  |
|------|-----|----------------------------------|
| ANTH | 152 | Cultural and Human Behavior1 (3) |
| ANTH | 305 | Individual and Culture** (3)     |
| ANTH | 345 | Ethnic Groups in America** (3)   |
| ANTH | 360 | Immigration and Ethnicity* (3)   |
| COMS | 356 | Intercultural Communication (3)  |
| SOC  | 305 | Culture and Personality** (3)    |
| SOC  | 307 | Ethnic Diversity in America (3)  |

##### C. Specific Cultures

|      |     |  |
|------|-----|--|
| AAS  | 100 | Introduction to Asian American Studies (3)   |
| AAS  | 350 | Asian American Personality (3)               |
| AAS  | 450 | Asian American Child* (3)                    |
| ANTH | 339 | Peoples of South Asia (3)                    |
| ARMN | 310 | Armenian Culture (3)                         |
| ARMN | 440 | The Armenian Child (3)                       |
| CAS  | 100 | Introduction to Central American Studies (3) |
| CAS  | 311 | The Central American Diaspora (3)            |
| CHS  | 100 | Chicano Culture** (3)                        |
| CHS  | 430 | The Chicano Child* (3)                       |
| CHS  | 431 | The Chicano Adolescent (3)                   |
| CHS  | 470 | Cultural Differences and the Chicano (3)     |
| CHS  | 471 | Chicano Families (3)                         |

#### 3. Writing (3 units)

**Choose 1 course from the following:**

|      |        |                                 |
|------|--------|---------------------------------|
| ENGL | 406    | Advanced Expository Writing (3) |
| ENGL | 494TCE | The Classroom Experience (3)    |

#### 4. Elective (3 units)

Approved elective, chosen in consultation with advisor.

\*Also fulfills a course requirement in the Liberal Studies Major (including the Language and Diversity Concentration).

\*\*Also fulfills a General Education requirement.

### TESL/TEFL Certificate Description

The TESL Certificate Program at CSUN is specifically designed for those who intend to teach English to speakers of other languages—English as a Second/Subsequent Language (TESL) in the U.S. or English as a Foreign Language (TEFL) abroad. It provides certification that the candidate has received advanced training in the theoretical and practical aspects of English instruction from CSUN through courses taught by CSUN faculty. Course work deals with the specific approaches to teaching English to people whose native language is not English. The Certificate is ideally suited for those teaching in private institutions and in colleges and universities abroad, as well as those working as teachers or tutors in adult education programs in California and elsewhere. Those who tutor English language learners will benefit from specialized training in the theory and practice of language instruction.

### Admission Requirements

To be accepted into the Certificate Program, candidates must have completed a Bachelor's Degree from an accredited institution with a minimum GPA of 2.85 in the last 60 units of their undergraduate work. International visa students must have a minimum TOEFL score of 563 (paper version) or 223 (CBT) or 85 (iBT), or an IELTS score of 7. In addition, acceptance is conditional upon a passing score on the Upper Division Writing Proficiency Exam (UDWPE). The UDWPE is a junior-level exam of English writing ability required by the University for a Bachelor's Degree. Students accepted by any Graduate Program at CSUN also are required to pass this proficiency exam.

### Program Requirements

The Certificate is awarded upon satisfactory completion (with a minimum GPA of 3.0 and with no grade lower than "C") of the following courses (a total of 21 units):

- ENGL 301 Introduction to Language and Linguistics
- ENGL 302 Introduction to Modern Grammar
- or* LING 404 Morphology and Syntax
- LING 417 Language Development and Acquisition (3)
- or* CHS 433 Language Acquisition of the Chicana/o and ESL Speakers (3)
- LING 525 English Structures for ESL/EFL Teaching (3)
- LING 530 Introduction to TESL (3)
- LING 555 TESL Classroom Practices in Post-Secondary Academic Settings (3)
- LING 568 TESL Testing and Assessment (3)

Due to availability and scheduling issues, there is flexibility concerning the sequence of courses. Any required course that was taken before starting the program can apply toward completion of the certificate. Additionally, graduate units earned in the Program are, in most cases, transferable and may be applied toward a Master's Degree in TESL upon acceptance into the M.A. Program at CSUN.

Please contact the Linguistics advisor to enroll in the Certificate Program.

# Theatre

Mike Curb College of Arts, Media and Communication

**Chair: Garry Lennon**  
**Nordhoff Hall (NH) 110**  
**(818) 677-3086**  
**www.csun.edu/theatre**

## Faculty

Larry Biederman, John Binkley, Barry Cleveland, Anamarie Dwyer, Peter Grego, Ah-Jeong Kim, Lillian Lehman, Garry Lennon, Christine Menzies, J'aime Morrison, Dan Weingarten, Shad Willingham

## Emeritus Faculty:

Jerry W. Abbitt, Helen Backlin, Ruth Brown, Catherine Dezseran, Heinrich Falk, George Gunkle, Margaret B. Randal, Owen W. Smith

## Theatre Staff

Efren Delgado Jr. (Scene Shop Supervisor), James DeWitt (Costume Shop Supervisor), Richard Greaver (Production Stage Manager/Outside Event Technical Director), Scott McKim (Technical Director), William Taylor (Theatre Manager), Michael Zeigler (Lighting/Sound Shop Supervisor)

## Degree Programs

Undergraduate:

**B.A., Theatre**

**English/Theatre Subject Matter Advising for the English Single Subject Credential**

**Minor in Theatre**

Graduate:

**M.A., Theatre**

## Accreditation

The Theatre Department is accredited by the National Association of Schools of Theatre.

## Department Mission

The Bachelor of Arts Degree in theatre within the context of a broad-based liberal arts education, offers an integrative, balanced program of studies that prepares students to enter the field of theatre, undertake specialized graduate study or to draw upon their theatre education in other fields and pursuits. We emphasize the power of imagination, passion, discipline and collaboration in theatre. We believe a systematic study of theatre in its many aspects can impart lifelong skills in creative problem solving, effective teamwork and interpersonal communications. Central to our mission is superior teaching—our classroom encompasses the studio, the stage and the technical laboratory. Our production curriculum provides a dynamic and multifaceted outreach component that enables the Department both to draw on and serve all segments of the larger community. The Department of Theatre is committed to diversity in all areas and to international education experiences in the Los Angeles area and the world. The Master of Arts Program provides a broad-based education in theatre, preparing students for theatre-related careers and for further study in theatre history, literature and theory. Within the University community, we provide opportunities for non-majors to engage and participate in our Department, introducing the arts into their Degree plans. In addition, we play a vital role in contributing theatre education to the preparation

of elementary and secondary teachers.

## Department Programs

The B.A. and the M.A. Degree Programs are designed to enrich the student's aesthetic and intellectual needs in the areas of theatrical production, theatre history, literature and criticism, and to provide pre-professional training. As a lab for the formal training in the classroom, undergraduate students are required to participate in Department-sponsored production activities each semester. Theatre CSUN functions as the department's formal producing organization. Eight or more full-length productions of dramas, musicals and operas are cast, rehearsed and mounted annually by faculty, staff, students and guest artists. These productions are available for student participants on an audition or volunteer basis. All aspects of the Program are carefully coordinated with the theatre curriculum. Four Minor Options in Theatre are designed to provide an organized program in theatre arts for students who wish to augment a major in another field.

## Careers

The B.A. Degree in Theatre prepares a student for advanced study in a pre-professional (M.F.A.) or academic (M.A.) program. It also serves as preliminary study for a performance and/or production career in live theatre as well as the allied industries of television and cinema. The interpersonal and collaborative skills learned in the Program will serve the graduate well in a variety of related disciplines, including the fields of education (both as teacher and administrator), psychology, law and a variety of private and governmental positions where a well-rounded liberal arts education will provide the flexibility and broad base of knowledge likely to be required in future careers.

## Academic Advisement

Prior to each semester's course registration period, each Theater Major is required to meet with their faculty advisor to discuss course selection and assess the student's academic progress. Once a schedule for the following semester is jointly approved the student receives departmental permission to register for classes online. For undergraduate advisement, contact the Department for more information. For graduate advisement, contact Director of Graduate Studies and graduate advisor Ah-Jeong Kim. For Credential advisement, contact Anamarie Dwyer.

## Student Learning Outcomes of the Undergraduate Program

1. The student will know and be able to process sensory information and respond to sensory information through the language unique to theatre.
2. The student will know and be able to apply their knowledge of artistic and theatre processes through production participation.
3. The student will know and be able to apply historical, cultural and literary understandings to the creation of theatre.
4. The student will know and be able to apply appropriate criteria to make informed assessments of quality in works of theatre.
5. The student will know and be able to develop intrapersonal and interpersonal skills essential to the collaborative process in theatre.

## Credential Information

For details on the Single Subject Credential Programs, see the Credentials and the Department of Secondary Education sections in the Catalog.

## International Study

The Department of Theatre encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Department of Theatre and may be used to fulfill graduation requirements. Students should consult the campus International Programs Advisor for more information.

### Theatre Honors Program

The Theatre Honors Program is a special curricular enhancement for outstanding students in the Theatre Major. Students become eligible to participate in the Theatre Honors Program at the beginning of their junior year and will normally complete the program requirements during the ensuing 4 semesters. The program consists of 2 major components:

1. Honors Seminars; and
2. Honors Project or Thesis.

The Honors Seminars, which extend over the first 3 semesters of a student's participation in the Theatre Honors Program, provide a unique opportunity to engage in intensive investigations and discussions of significant aspects of theatre practice and theory with a small group of fellow honors students and senior faculty. The Honors Project or Thesis gives honors students the opportunity to integrate their theatre studies and apply their knowledge and understanding of theatre art to the independent investigation of a significant topic or problem under the direction of a faculty mentor. Honors students will subsequently receive Departmental support for the completion of an artistic Project or written research Thesis based on their investigation.

### Admission to the Theatre Honors Program

Students may apply for admission to the Theatre Honors Program upon completion of the following:

1. All 100- and 200-level requirements in Theatre;
2. A minimum of 9 units of Theatre courses taken at CSUN;
3. Attainment of a minimum 3.25 GPA in all Theatre courses taken at CSUN or transferred for credit toward the Degree; and
4. Attainment of a minimum 3.00 GPA in all undergraduate work.

Student applications for admission to the Theatre Honors Program will normally be submitted near the end of the sophomore year. In every case applications will require the support of a CSUN Theatre Department faculty member. Applications to the Theatre Honors Program will be reviewed by the Honors Committee, which normally consists of the honors advisor and the coordinators of the several curricular areas of the Theatre Department.

### Requirements of the Theatre Honors Program

To graduate with Honors in Theatre, students must have completed the following:

1. TH 397 Honors Tutorial (1-1-1)  
Students will enroll in this semester over a 3-semester period, earning 1 unit of credit for each semester of enrollment. No more than one 1 of credit can be earned in any given semester.
2. TH 498F Senior Honors Project or Thesis (3)  
Students will normally complete this requirement during their last semester of enrollment. During the preceding semester, the student will prepare, in consultation with a faculty mentor, a Project/Thesis Proposal outlining the proposed investigation and the artistic Project or written research Thesis anticipated to result from this investigation.
3. Attainment of a minimum 3.5 GPA in all Upper Division (300-, 400- and 500-level) Theatre courses taken at CSUN. The 6 units of Theatre Honors courses required for this Program will be substituted for 6 Upper Division required units in consultation with the student's advisor.

### Requirements for the Bachelor of Arts Degree

To obtain the B.A. Degree with a Major in Theatre, a student must have at least a 2.0 GPA in all Upper Division Theatre courses (including courses transferred from other institutions and applied toward the requirements in the Major) and must have taken at least 18 units of Upper Division Theatre courses in residence. Students may not receive credit for more than 72 units of Theatre courses (including

courses transferred from other institutions and applied toward the requirements in the Major). Any exceptions to this limitation must be individually approved in writing by the student's advisor and the Department Chair before registration will be allowed.

### Production Participation

All Theatre Majors are required to complete 4 Upper Division Department production participations. Completed assignments should reflect the broad spectrum of theatre production areas, including, but not limited to acting, directing, scenery, costumes, properties, lighting, sound, makeup, technology, management and dramaturgy. Courses that require a production assignment as part of the course (TH 339, 361A, 361B, 362A, 362B, 363A, 363B, 367, 376, 382ABC, 383, 384, 390ABC, 443, 459, 490ABC, 498B, 498C and 498D) will fulfill the production assignment for the semester during which the course is taken. TH 391 carries no unit credit, but validates production participation associated with above courses.

#### 1. Program Entrance Requirement (3 units)

TH 102 Theatre: Form and Content (3)

#### 2. Lower Division Required Courses (17 units)

TH 108M Movement for Theatre Performance I (2)

TH 108V Voice for Theatre Performance I (2)

TH 155 Color and Design for the Theatre (2)

TH 208 Introduction to Theatre Performance (2)

TH 222 Mapping World Theatre and Drama (3)

#### Choose 6 units from the following:

*Course work in this section must include 2 corequisites production participations activities.*

TH 261/A Fundamentals of Scenery and Properties Technology (2/1)

TH 262/A Fundamentals of Costume Technology (2/1)

TH 263/A Fundamentals of Lighting and Sound Technology (2/1)

#### 3. Upper Division Required Courses (31 units)

TH 321A World Theatre and Drama I (3)

TH 321B World Theatre and Drama II (3)

TH 350 Cultural and Historical Perspectives for Theatre (3)

TH 381 Management Techniques for the Theatre (1)

TH 391 Production Practicum (0-0-0-0)

TH 444 Principles of Directing (3)

#### Choose a minimum of 3 units from the following:

TH 339 Improvisational Comedy (3)

TH 342 Intermediate Stage Movement (3)

TH 343 Intermediate Stage Voice and Speech (3)

TH 348 Acting the Text (2)

TH 376 Production Preparation and Performance: Theatre for Young Audiences (3)

TH 384 Touring Theatre (3)

TH 390 Theatre Production Participation/Acting (1)

or TH 490 Theatre Production Participation/Acting (1)

TH 545 Advanced Directing (3)

#### Choose a minimum of 3 units from the following:

TH 355 Principles of Stage Design (2)

TH 361A Intermediate Scenery and Properties Technology (2)

TH 361B Intermediate Scenic Art Techniques (2)

TH 362A Intermediate Costume Technology (2)

TH 362B Intermediate Costume Crafts (2)

TH 363A Intermediate Lighting Technology (2)

TH 363B Intermediate Sound Technology (2)

TH 367 Advanced Makeup (2)

TH 382A-C Theatre Management Practicum (1-3)

**Choose 1 course from the following (3 units):**

- TH 422 Theatre and Drama of Greece and Rome (3)
- TH 423 Theatre and Drama of the Middle Ages and Renaissance (3)
- TH 424 Theatre and Drama of the 18th and 19th Centuries (3)
- TH 425 Theatre and Drama of Europe and America from Naturalism to the Mid-20th Century (3)
- TH 426 Contemporary Theatre and Drama of Europe and America (3)
- TH 427 History of Costume (3)
- TH 432 Theatre and Drama of the United States (3)
- TH 433 The Musical Theatre in the United States (3)
- TH 475 Theatre and Drama for Young Audiences (3)
- TH 530 Theatre and Drama of Latin America (3)
- TH 531 Theatre and Drama of Asia (3)
- TH 535 Theatrical Theory and Criticism (3)

**Theatre Production Participation or Electives (up to 9 units)**

- TH 390 Theatre Production Participation (1-2-3)
- or TH 490 Theatre Production Participation (1-2-3)
- or Electives selected from any 300-, 400- or 500-level courses for which prerequisites have been met.

#### Requirements for the Master of Arts Degree in Theatre

Required for Admission to Classified Graduate Status in the Program:

- Baccalaureate Degree and a minimum of 24 units of Upper Division Theatre courses, normally distributed as follows:
  - Acting (3 units);
  - Directing (3 units);
  - Theatre Design/Technology (6 units); and
  - Theatre History/Literature/Criticism (12 units).
- University requirements for Classified Graduate Status.
- Successful completion of Departmental qualifying procedures.

*Note: Students should consult with the Department concerning GRE requirement.*

#### Required for the M.A. Degree

##### 1. Required Courses (30 units)

A. Minimum of 30 units of approved courses, distributed as follows:

- TH 600 Seminar in Research Methods and Bibliography in Theatre (3)
- Choose 2 courses from the following (6 units):**

|    |     |  |
|----|-----|--|
| TH | 620 | Seminar in Theatre History (3)                   |

| TH | 640 | Seminar in Acting and Directing (3) |
| TH | 670 | Seminar in Child Drama (3)          |

##### 4. Choose 12 units from the following:

|    |        |                                       |
|----|--------|---------------------------------------|
| TH | 695A-Z | Theories in Drama and Theatre (3-3-3) |
| TH | 699    | Independent Study (1-3, 1-3)          |

600-level courses not selected for credit under sections 2 and 3 above (3, 3).

Approved 400- and 500-level courses not taken for undergraduate credit or for admission to Classified Graduate status (3, 3, 3, 3).

*With the prior written approval of the student's permanent graduate advisor, up to 6 units of courses in section 4 may be taken in related fields.*

|       |     |                                |
|-------|-----|--------------------------------|
| 5. TH | 698 | Thesis or Graduate Project (3) |
|-------|-----|--------------------------------|

B. Students planning to continue Graduate Study in Theatre in a Doctoral Program are advised to also attain proficiency in a foreign language or competency in statistics.

#### Course List

##### TH 102. Theatre: Form and Content (3)

Foundation course for the Theatre Major and Minor. Introduction to theatre as an art form; its relationship to its audience and the other arts; the collaborative role of theatre artists in preparing and presenting live theatrical productions and analysis of textual form. Regular critical writing assignments and attendance at selected University-sponsored and professional theatre events required. Required during the first semester of registration as a Theatre Major or Minor.

##### TH 108M. Movement for Theatre Performance (2)

Introduction to movement for performance. This course focuses on the development of individual creativity through physical expression. Movement fundamentals taught include basic anatomy, stretching and strengthening exercises, somatic practices that develop the breath/movement connection, Laban effort vocabulary and compositional projects that foster an expressive use of theatrical space. Course meets 4 hours per week.

##### TH 108V. Voice for Theatre Performance I (2)

Introduction to fundamentals of voice for the stage, including studio experiences exploring foundation skills in vocal production. Understanding the role of voice training in the development of the actor's craft and introduction to the methods, systems and techniques of voice training.

##### TH 110. Plays and Players (3)

*Prerequisite: Not open to Theatre Majors.* Introduction to theatre through an emphasis on experiencing the play. Consideration of the theatre as an art form through play-going and play-reading. (Available for General Education, Arts and Humanities.)

##### TH 111. Actors and Acting (3)

*Prerequisite: Not open to Theatre Majors.* Introduction to theatre through an emphasis upon its central performer—the actor. Illustrative acting exercises. (Available for General Education, Arts and Humanities.)

##### TH 120/L. Arts Immersion: Theatre and Lab (1/1)

*Prerequisite: Limited to students in the ITEP-Freshman Option.* *Corequisite: TH 120L.* Introductory course in which students engage in the study and practice of theatre and process drama. Exploration of the role of playwright, director, designer, actor, technician and dramaturg/critic as they relate to the art of theatre and the design of drama experiences for children. Focuses on identifying and experiencing the relationship of theatre and drama experiences for children to learn-

ing and achievement. Students are expected to apply and integrate the knowledge of the art form under study to all of the arts and to address the five standards of the Visual and Performing Arts Framework in a holistic manner. 1 hour lecture, 2 hours lab per week.

**TH 155. Color and Design for the Theatre (2)**

This course acquaints students with the basic principles of design that govern all forms of visual expression, emphasizing those used in the theatre. It also provides students with the ability to communicate in visual terms.

**TH 190. Theatre Production Participation (1-1)**

Participation in various aspects of Theatre CSUN's production program, including acting, directing, technical, or managerial assignments. May be repeated once.

**TH 208. Introduction to Theatre Performance (2)**

*Prerequisites: TH 108V, 108M.* This course develops foundational skills for the actor, with an emphasis on ensemble building, collaboration and creative problem solving. Acting exercises, techniques and methods from a variety of performance styles will provide a comprehensive introduction to the roles and responsibilities of actors and directors. Fundamentals of the actor's craft, such as developing an effective work ethic, appropriate rehearsal behavior and learning to integrate external evaluation, will provide students with a strong foundation in theater performance. Class meets 4 hours per week.

**TH 222. Mapping World Theatre and Drama (3)**

*Prerequisite: TH 102.* Introductory survey of theatre history and dramatic literature of the world from antiquity to the present. Critical writing assignments required.

**TH 249. Tutorial in Performance Skills (1-1-1-1)**

*Prerequisite: Audition.* Diagnosis of individual strengths and weaknesses in performance skills through individual tutorials directed at improvement of skills and correction of problems. Complements work in Theatre CSUN's production program. May be repeated 3 times. (Credit/No Credit only)

**TH 261. Fundamentals of Scenery and Properties Technology (2)**

*Corequisite: 261A. Preparatory: TH 155.* Practical introduction to the theories and application of construction techniques for the scenic environment; visual language, principles, techniques and tools used in creating scenery and properties; and safety in the theatre.

**TH 261A. Scenery and Properties Technology Production Participation (1)**

*Corequisite: 261. Preparatory: TH 155.* Participation in the scenery and/or properties department of a CSUN theatre production.

**TH 262. Fundamentals of Costume Technology (2)**

*Corequisite: 262A. Preparatory: TH 155.* A practical introduction to the theory and application of costume and accessory construction for the stage, including use of equipment, fabrics and materials appropriate to costume technology.

**TH 262A. Costume Technology Production Participation (1)**

*Corequisite: TH 262. Preparatory: TH 155.* Participation in the costume department of a CSUN theatre production.

**TH 263. Fundamentals of Lighting and Sound Technology (2)**

*Corequisite: 263A. Preparatory: TH 155.* Introduction to technical principles and applications of stage lighting and sound, including basic lighting and sound equipment, nomenclature, and skills and practices used in creating lighting and sound for stage productions.

**TH 263A. Lighting and Sound Technology Production Participation (1)**

*Corequisite: 263. Preparatory: TH 155.* Participation in the scenery and/or properties department of a CSUN theatre production.

**TH 276. Production Preparation and Performance: Theatre for Young Audiences (3)**

*Prerequisite: Audition/Interview.* Preparation and performance of a University-sponsored production for young audiences.

**TH 284. Touring Theatre (3)**

*Prerequisite: Audition/Interview.* Participation in the preparation and presentation of a University-sponsored touring theatre production.

**TH 290. Theatre Production Participation (1-1)**

Participation in various aspects of Theatre CSUN's production program, including acting, directing, technical or managerial assignments. May be repeated once.

**TH 296A-Z. Experimental Topics Courses in Theatre (1-3, 1-3)**

*Prerequisite: Consult Theatre Department Office.* Experimental courses in theatre, with course content to be determined. May be repeated once.

**Upper Division**

**TH 304. Process Drama and the Child (1)**

*Prerequisite: TH 120. Restricted to students in the ITEP-Freshman Option.* Provides students the opportunity to revisit theatre and apply their knowledge of this area to working with children and developing skills as a leader of drama experiences for children through the practice of planning, implementing and evaluating drama experiences with peers and in the context of field-based settings. 2 hours lab per week.

**TH 310. Theatre in Performance (3)**

*Prerequisite: Completion of the Lower Division writing requirement. Not open to Theatre Majors.* Introduction to the theatre through the experience of attending performances, preparatory lectures and post-performance discussions and critiques. Critical writing assignments required. (Available for General Education, Arts and Humanities).

**TH 315. World Drama (3)**

*Prerequisites: Completion of the Lower Division writing requirement; Upper Division standing. Not open to Theatre Majors.* Survey of world dramatic literature from primitive times to the present. Studies masterpieces of drama from Asia, Europe, Africa and the Americas. (Available for General Education, Arts and Humanities.) (IC)

**TH 321A. World Theatre and Drama I (3)**

*Prerequisite: TH 222.* This course is the first part of an integrated study of world theatre and drama. It encompasses theatre history and dramatic literature of Asia, Africa and Europe. Critical writing assignments required.

**TH 321B. World Theatre and Drama II (3)**

*Prerequisite: TH 222.* This course is the second part of the integrated study of the world theatre and drama. It encompasses theatre history and dramatic literature of the Middle East, Latin America and the West. Critical writing assignments required.

**TH 339. Improvisational Comedy (3)**

*Prerequisite: Audition.* Introduction to the techniques of improvisational comedy. Develops as an improvisation troupe and subsequently presents public performances.

**TH 342. Intermediate Stage Movement (3)**

*Prerequisite: Theatre 108M.* Intermediate training of the body for stage movement, including exercise for strength, flexibility, relaxation, control, physicalization and movement as a part of character development. 6 hours lab.

**TH 343. Intermediate Stage Voice and Speech (3)**

*Prerequisite: TH 108V.* Intermediate theory and practice of voice and speech in the theatre. Exercises in stage diction, vocal techniques and phonetics. 6 hours lab.

**TH 344. Stage Dialects (2)**

*Prerequisite: TH 343.* Study of selected stage dialects. 4 hours per week.

**TH 345. Acting On Camera (3)**

*Prerequisites:* TH 348; *Completion of Lower Division requirements in Theatre Major. Non-Theatre Majors, consult Department for equivalency.* Prepares the student for the particular demands of acting in front of the camera. Techniques of blocking, text analysis, cold-reading, character presentation, scene preparation, vocabulary and camera shots. 6 hours per week.

**TH 346. Musical Theatre Workshop I (3)**

*Prerequisites:* MUS 238A; TH 208. Study of the special acting, vocal and movement skills required for performance in musical theatre. 6 hours per week.

**TH 347. Musical Theatre Workshop II (3)**

*Prerequisites:* TH 346; *Audition.* Application of basic acting, vocal and movement skills acquired in TH 346. Musical scene study and performance. Class meets 6 hours per week.

**TH 348. Acting the Text (2)**

*Prerequisite:* TH 208. Dramatic structure; methods of text analysis for the actor; and application through lab experience to specific texts and scenes. 6 hours per week.

**TH 349. Scene Study (3)**

*Prerequisite:* TH 348. *Recommended Corequisites or Preparatory:* TH 342, 343. Studio course emphasizing text analysis, character development and scene study; application of these skills to modern and contemporary dramatic texts. 6 hours per week.

**TH 350. Cultural and Historical Perspectives for Theatre (3)**

*Prerequisite:* *Completion of Lower Division requirements in Theatre Major. Preparatory:* TH 321A/B. Historical elements as they relate to the staging of period plays, including history of architecture, furniture, costume, social modes and manners. Development of dramaturgical research skills. Extensive writing and analysis required.

**TH 355. Principles of Stage Design (2)**

*Prerequisites:* *Completion of Lower Division requirements in Theatre Major. Non-Theatre Majors, consult Theatre Department advisor.* Introduction to the discursive and non-discursive aspects of stage design, including process, techniques and language of collaborative production artists and conceptualization of dramatic action, mood and style through a range of media. Extensive critique of work in progress. 4 hours per week.

**TH 357. Theatre Design Presentation Techniques (3)**

Studio course exploring media, rendering techniques and model building for theatre design. Emphasis on depicting scenery and costumes. 6 hours per week.

**TH 361A. Intermediate Scenery and Properties Technology (2)**

*Prerequisites:* TH 261, 261A. Intermediate principles of realizing technical designs for the stage, including construction technology, finishing, rigging and materials. Required participation in a University-sponsored production.

**TH 361B. Intermediate Scenic Art Techniques (2)**

*Prerequisites:* TH 261, 261A. Practical experience in the media, tools and techniques used in the art of scene painting. Includes class projects.

**TH 362A. Intermediate Costume Technology (2)**

*Prerequisites:* TH 262, 262A. Intermediate principles of theory and application of costume construction for the stage, including use of equipment, fabrics and materials appropriate to costume technology. Required participation in a University-sponsored production.

**TH 362B. Intermediate Costume Crafts (2)**

*Prerequisites:* TH 262, 262A. Intermediate principles of theory and application of costume crafts for the stage, including use of equipment, fabrics and materials appropriate to costume accessory and craft making, and preparation of appropriate accessories. Required participation in a University-sponsored production.

**TH 363A. Intermediate Lighting Technology (2)**

*Prerequisites:* TH 263, 263A. *Non-Theatre Majors, consult Department advisor for equivalency.* Intermediate course exploring stage lighting, projection equipment, lighting control systems, optical systems, color theory and current lighting graphic standards as they apply to stage, film and video. Required participation in a University-sponsored production.

**TH 363B. Intermediate Sound Technology (2)**

*Prerequisites:* TH 263, 263A. Study of the use of sound technology in live theatre production. Extensive work with sound generation and sound modification equipment, and study of contemporary practices in sound design and implementation. Required participation in a University sponsored production.

**TH 367. Advanced Makeup (2)**

*Prerequisite:* *Completion of Lower Division requirements in Theatre Major.* Practical experience in the application and design of makeup for the stage. Required participation in a University-sponsored production.

**TH 371/L. Creative Drama and Lab (2/1)**

*Corequisite:* TH 371L. Theory and techniques for developing the creative capacities of children and young people through dramatization; participation and leadership in creative drama. 4 hours per week.

**TH 376. Production Preparation and Performance: Theatre for Young Audiences (3)**

*Prerequisite:* *Audition/Interview.* Preparation and performance of a University-sponsored production for young audiences.

**TH 381. Management Techniques for the Theatre (1)**

*Prerequisite:* *Completion of Lower Division requirements in Theatre Major.* Basic principles in management, with emphasis on theatrical applications; personnel, time, budgeting, procedures, organization, safety; setting and achieving objectives. 2 hours per week.

**TH 382A-C. Theatre Management Practicum (1-3)**

*Prerequisites:* TH 381; *Completion of Lower Division requirements in Theatre Major.* Practical application of theatre management techniques. Required participation in a University-sponsored production. Maximum of 3 units may be earned.

**TH 383. Theatre Administration (3)**

*Prerequisites:* TH 381; *Completion of Lower Division requirements in Theatre Major.* Management theories and techniques in theatre administration, including organization of personnel media preparation and utilization, fiscal management and public relations. Required participation in a University-sponsored production.

**TH 384. Touring Theatre (3)**

*Prerequisite:* *Audition/Interview.* Theory and practice in the artistic and management aspects of producing theatrical performances for touring, including practical experience in producing and presenting touring productions. Required participation in a University-sponsored production.

**TH 390A-C. Theatre Production Participation (1-3)**

Participation in various aspects of Theatre CSUN's production program, including acting, directing, technical or managerial assignments. Maximum of 4 units may be earned.

**TH 391. Production Practicum (0-0-0-0)**

*Prerequisite:* *Required of all Upper Division Theatre Majors.* Carries no unit credit, but validates production participation associated with selected courses. (Credit/No Credit only)

**TH 396A-Z. Experimental Topics Courses in Theatre (1-3, 1-3)**

*Prerequisite:* *Consult Theatre Department Office.* Experimental courses in theatre, with course content to be determined. Maximum of 6 units may be earned.

**TH 397. Theatre Honors Tutorial (1-1-1)**

*Prerequisite:* *Admission to Theatre Honors Program.* Intensive investigation in a small group of a topic related to some aspect of theatre practice or theory. Maximum of 3 units may be earned.

**TH 422. Theatre and Drama of Greece and Rome (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Study of the history and literature of the theatre of Greece and Rome. Critical writing assignments required. Available for graduate credit.

**TH 423. Theatre and Drama of the Middle Ages and Renaissance (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Study of the history and literature of the theatre of medieval Europe, as well as the theatres of Italy, Spain, England and France during the Renaissance. Critical writing assignments required. Available for graduate credit.

**TH 424. Theatre and Drama of the 18th and 19th Centuries (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Study of the history and literature of the theatre in Europe from 1700 to the beginnings of naturalism. Critical writing assignments required. Available for graduate credit.

**TH 425. Theatre and Drama of Europe and America from Naturalism to the Mid-20th Century (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Study of the history and literature of the European and American theatre from the beginnings of naturalism to the mid-20th century. Critical writing assignments required. Available for graduate credit.

**TH 426. Contemporary Theatre and Drama of Europe and America (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Study of contemporary theatre movements in Europe and America. Critical writing assignments required. Available for graduate credit.

**TH 427. History of Costume (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Detailed historical study of period fashions in relation to the social background, economic conditions and general history of the periods as they apply to theatre. Critical writing assignments required. Available for graduate credit.

**TH 432. Theatre and Drama of the United States (3)**

*Prerequisites:* TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency. Study of the history and literature of the American theatre from colonial times to the mid-20th century. Critical writing assignments required. Available for graduate credit.

**TH 433. The Musical Theatre in the United States (3)**

*Prerequisites:* Theatre major or minor; TH 321A/B., Music Theatre Minor; TH 102. Non-Theatre Majors, consult Department advisor for equivalency. Study of the history and literature of the musical theatre in the U.S. from its beginnings to the present. Critical writing assignments required. Available for graduate credit.

**TH 442. Advanced Stage Movement (2)**

*Prerequisites:* TH 342, 349, 350. Not available for graduate credit. Performance course in advanced stage movement techniques; modes and manners of theatrical periods from ancient to modern; dance forms of the same periods, and application of these studies to the creation of character in period drama. 6 hours per week.

**TH 443. Advanced Stage Voice and Speech (3)**

*Prerequisites:* TH 343, 348, 349; Completion of Lower Division requirements in Theatre Major. Not available for graduate credit. Development of advanced voice, speech, analytical and interpretative skills for the actor, including application to the speaking and acting of Shakespearean texts.

**TH 444. Principles of Directing (3)**

*Prerequisites for Theatre Major:* Completion of Lower Division requirements in Theatre major; Senior standing. *Prerequisites for Theatre Minor:* Completion of Lower Division requirements in Theatre Minor; Senior standing. Not available for graduate credit. Theories and techniques of directing plays. 6 hours per week.

**TH 447. Acting Styles (3)**

*Prerequisites:* TH 349, 350, 443; Completion of Lower Division requirements in Theatre Major. Not available for graduate credit. Performance course emphasizing advanced text analysis, character development and scene study as applied to a wide variety of periods and genres.

**TH 449. Tutorial in Performance Skills (1-1-1-1)**

*Prerequisite:* Audition. Not available for graduate credit. Diagnosis of individual strengths and weaknesses in performance skills through individual tutorials directed at improvement of skills and correction of problems. Complements work in CSUN's Theatre production program. May be repeated 3 times. (Credit/No Credit only)

**TH 457. Theatre Design Tutorial (3-3-3)**

*Prerequisites:* TH 350, 355, 357. Individual work in theatre design, with emphasis on scenery, costumes, or lighting. Focuses on developing and presenting design concepts for selected theatre productions. May be repeated twice. Portfolio review required for repeat credit. Maximum of 3 units may be earned for graduate credit.

**TH 459. Theatre Design Practicum (3)**

*Prerequisites:* Completion of Lower Division Theatre Core courses; Instructor consent. Practical execution of design for a theatre production with an emphasis in scenery, costumes, lighting, sound, projections or properties. Student enrolled in this course will serve as designer for a CSUN Department of Theatre Production and will present a portfolio of their design work at the end of the course. Required participation in a University-sponsored production.

**TH 471. Advanced Creative Drama (3)**

*Prerequisites:* TH 371; Instructor consent. Comparison of theories, philosophies and approaches to creative drama in a lab environment through exploration of and practical experience with various age levels. 6 hours per week.

**TH 472. Field Experience in Creative Drama (2)**

*Prerequisite:* TH 371. Not available for graduate credit. Observation/participation and discussion of the practical application of creative drama philosophies and methods in a public school environment. 45 hours of field observation/participation required. (Credit/No Credit only)

**TH 473. Dramatic Performance in the Secondary Language Arts Curriculum and Lab (2/1)**

*Prerequisite:* Junior or senior standing. *Corequisite:* TH 473L. Study and practical application of dramatic performance in secondary-education language arts curriculum. Introduction to and application of artistic and aesthetic tools and sensitivities required for creative expression. (Fulfills General Education, Section C.2 requirements for English Subject Matter Program Majors only.)

**TH 475. Theatre and Drama for Young Audiences (3)**

*Prerequisite for Theatre Majors:* TH 321A/B. *Prerequisites for Liberal Studies Major in Theatre Concentration:* TH 111, 310, 371. Other Non-Theatre Majors, consult Department advisor for equivalency. Study of philosophies and practices in theatre and drama for young audiences, classic and contemporary, emphasizing critical analysis and evaluation of the form and content of dramatic literature and theatrical production for children and youth. Available for graduate credit.

**TH 479. Issues in Contemporary Theatre (3)**

*Prerequisites for Theatre Majors: Completion of Core requirements in Theatre Major. Prerequisites for Liberal Studies Majors: TH 315, 475; and 376 or 384. Not available for graduate credit.* Investigation of selected contemporary issues and practices in theatre, including consideration of selected ethical dimensions of the field. Significant research paper or project required.

**TH 490. Theatre Production Participation (1-2-3)**

*Prerequisite: Not available for graduate credit.* Participation in various aspects of CSUN's Theatre production program, including acting, directing, technical or managerial assignments. Maximum of 4 units may be earned.

**TH 496A-Z. Experimental Topics Courses in Theatre (1-3, 1-3)**

*Prerequisite: Consult Theatre Department Office. Not available for graduate credit except when specifically approved by the Department. Consult the Director of Graduate Studies.* Experimental courses in theatre, with course content to be determined. Maximum of 6 units may be earned.

**TH 498A. Senior Theatre History/literature Thesis (3)**

*Prerequisites: Theatre History/Literature Option; Approved Thesis proposal. Not available for graduate credit.* Writing of a Thesis resulting from research on a significant topic in theatre history, theatrical literature, or theory and criticism. (Credit/No Credit only)

**TH 498B. Senior Theatre Performance Project (3)**

*Prerequisites: Acting/Directing Option; Approved project proposal. Not available for graduate credit.* Weekly seminar with additional rehearsal/lab work on a major performance. (Credit/No Credit only)

**TH 498C. Senior Theatre Design Project (1-3, 1-3, 1-3)**

*Prerequisites: TH 457; Theatre Design/Technology Option; Portfolio review. Not available for graduate credit.* Production design for theatre. Required participation in a University-sponsored production. Maximum of 9 units may be earned. (Credit/No Credit only)

**TH 498D. Senior Theatre Technology PROJECT (1-3, 1-3, 1-3)**

*Prerequisites: TH 457; Theatre Design/Technology Option; Interview. Not available for graduate credit.* Technical supervision for theatre. Required participation in a University-sponsored production. Maximum of 9 units may be earned. (Credit/No Credit only)

**TH 498E. Senior Creative Drama/theatre for Young Audiences Project or Thesis (3)**

*Prerequisites: Creative Drama/Theatre for Young Audiences Option; Approved Project or Thesis proposal. Not available for graduate credit.* Completion of a Project or writing of a Thesis resulting from the investigation of a significant topic or problem in creative drama or in theatre for young audiences. (Credit/No Credit only)

**TH 498F. Senior Honors Project or Thesis (3)**

*Prerequisites: Theatre Honors Program; Approved Project or Thesis proposal. Not available for graduate credit.* Completion of an artistic Project or writing of a Thesis resulting from the investigation of a significant topic or problem in theatre. (Credit/No Credit only)

**Advanced Undergraduate And Graduate**

Note: 500-level courses may be selected to meet requirements or electives for the undergraduate degree or to meet electives in the Master's program.

**TH 530. Theatre and Drama of Latin America (3)**

*Prerequisites: TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency.* Study of the history and literature of the Latin American theatre from pre-Columbian times to the present. Critical writing assignments required.

**TH 531. Theatre and Drama of Asia (3)**

*Prerequisites: TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency.* Study of the history and literature of the Asian theatre from the beginnings to the present. Critical writing assignments required.

**TH 535. Theatrical Theory and Criticism (3)**

*Prerequisites: TH 321A/B; Theatre Major or Minor. Non-Theatre Majors, consult Department advisor for equivalency.* Study of the history of theatrical theory and criticism from antiquity to the present. Major theories pertaining to all aspects of theatrical production, including staging, acting, scenography and the script is examined. Critical writing assignments required.

**TH 545. Advanced Directing (3)**

*Prerequisite: TH 444.* Advanced study of theories and styles of directing plays. Practical experience through production of scenes from different historical periods. 6 hours per week.

**TH 594. Internship in the Arts (3-3)**

*Prerequisites: Senior or graduate standing; Portfolio review or audition; Instructor consent.* Academic Internship course. May be repeated once. Maximum of 3 units may be earned for graduate credit. (Credit/No Credit only)

**TH 599. Independent Study (1-3, 1-3)**

*Prerequisites: Completion of all Core requirements in Theatre Major; Instructor consent to serve as sponsor; Permission of the Department Chair.* Enrollment restricted to Theatre Majors who have completed the full sequence of courses in the area of study to be pursued by independent study. Not open to Classified graduate students. Maximum of 6 units may be earned.

**Graduate**

Note: 300-level courses do not carry graduate credit. 400-level courses may be selected to meet electives in the Master's Program, except where designated as "not available for graduate credit."

**TH 393. Directed Qualifying Studies: Theatre History and Literature (3)**

*Prerequisites: Recommendation of Department Director of Graduate Studie; Instructor consent. Enrollment restricted to Conditionally Classified graduate students.* Intensive review and coverage of the fundamentals of theatre history and literature covered in the undergraduate Theatre Core courses. (Credit/No Credit only)

**TH 394. Directed Qualifying Studies: Acting (3)**

*Prerequisites: Recommendation of Department Director of Graduate Studies; Instructor consent. Enrollment restricted to Conditionally Classified graduate students.* Intensive review and coverage of the fundamentals of acting covered in the undergraduate Theatre Core courses. (Credit/No Credit only)

**TH 395. Directed Qualifying Studies: Technical Theatre (3)**

*Prerequisites:* Recommendation of Department Director of Graduate Studies; Instructor consent. Enrollment restricted to Conditionally Classified graduate students. Intensive review and coverage of the fundamentals of technical theatre covered in the undergraduate Theatre Core courses. (Credit/No Credit only)

**TH 600. Seminar in Research Methods and Bibliography in Theatre (3)**

Introduction to theatre research, involving bibliographical methods, the tools of research and the organization and writing of the research study.

**TH 620. Seminar in Theatre History (3)**

*Prerequisites:* TH 600; Advanced course in theatre history/literature (TH 422 through 535, or equivalent). Investigation of selected problems in theatre history from antiquity through the present. Consideration of theatre architecture, audiences, staging and production, acting and performance organization.

TH 621. *Seminar in Theatrical Literature (3)*

*Prerequisites:* TH 600; Advanced course in theatre history/literature (TH 422 through 535, or equivalent). Investigation of selected problems in theatrical literature from antiquity to the present. Consideration of the text, playwright, theatrical genres and periods and movements.

**TH 625. Seminar in Popular Theatre and Entertainment (3)**

*Prerequisite:* TH 600. Investigation of selected popular theatrical and para-theatrical forms of theatre and entertainment from antiquity through the present. Consideration of relationships between popular theatre and formal literary theatre.

**TH 630. Seminar in Theatre Aesthetics (3)**

*Prerequisites:* TH 600; Advanced course in directing or design (TH 457, 545 or equivalent). Analysis of the aesthetic principles and techniques of the theatre, including selected problems in the philosophy of dramatic art.

**TH 640. Seminar in Acting and Directing (3)**

*Prerequisites:* TH 600; Advanced course in acting or directing (TH 447, 545 or equivalents). Selected theoretical problems and their application to acting and directing.

**TH 670. Seminar in Child Drama (3)**

*Prerequisites:* TH 600; TH 371, 475 or equivalent experience. Examination of child drama theories and practices, including creative drama and theatre for children.

**TH 695A-Z. Theories in Drama and Theatre (3-3-3)**

*Prerequisite:* TH 600. Development of dramatic theory and practice through selected topics, including theories in American drama and theatre, European drama and theatre, and dramatic criticism. May be repeated twice.

**TH 698. Thesis or Graduate Project (3)**

*Prerequisites:* Classified graduate status; Approval of appropriate area faculty to form a Thesis or Graduate Project Committee; Formation of an approved Thesis or Graduate Project Committee; Completion of all additional requirements for the Degree. (Credit/No Credit only)

**TH 699. Independent Study (1-3)**

*Prerequisites:* Classified graduate status; Consent of an instructor to serve as sponsor; Review by the Department Director of Graduate Studies. Maximum of 6 units may be earned.

## The Tseng College

**Dean: Joyce Feucht-Haviar**  
**Bookstore Complex (BK) 220**  
**(818) 677-2270**  
<http://tsengcollege.csun.edu>

### Mission

The mission of The Tseng College is to expand the influence of and enhance access to the distinguished scholarship and teachings of CSUN and its faculty. The Tseng College focuses on post-degree professional (graduate) education, international programs and partnerships and mid-career education for professionals and their employers. The College enrolls more than 25,000 students per year in a rich array of Degree, Certificate and other programs. The Tseng College works with University faculty and distinguished professionals to design, deliver and support Degree and Non-Degree Programs with special features that make them accessible and appropriate for adult students—whether local, regional, out of state or overseas—who are place bound, time constrained and/or at a mid- to senior-level in their careers.

### Admission Requirements

The requirements for admission to University Degree Programs offered through The Tseng College are in keeping with the overall general requirements for undergraduate and graduate admissions to the University. Because these programs are designed to serve mid-career professionals, some programs may require professional experience in addition to or in place of standard academic requirements.

### Application and Registration in The Tseng College

The Tseng College developed EasyApp to streamline the application and registration process. Each Degree, Credential, Credit Certificate and Non-Credit Certificate Program uses EasyApp, which can be accessed from the Program description found on The Tseng College website (<http://tsengcollege.csun.edu/>).

### Fees for Self-support Programs

All Tseng College offerings—credit and non-credit—are fully self-supporting. (they are not underwritten by California State General Fund tax dollars.) This policy allows the University to use its state funds to support on-campus programs and services designed to serve more traditional full- and part-time regional students. Fees for Tseng College offerings vary according to Program features and are subject to change. All Tseng College fee changes are reviewed by the campus student fee committee and approved by the University President.

### Transcripts and Permanent Academic Records

All grades earned in University courses and Programs offered through Tseng College courses (both Credit and Non-credit Programs, Degree or Non-Degree Programs) are recorded on the student's permanent University record, transcripts of which are available to the student by request from the University's Office of Admissions and Records. For information about getting a transcript, contact Admissions and Records at (818) 677-3700 or visit <http://www.csun.edu/aandr/>.

### Transfer of Academic Credit to Another College or University

Credit earned through self- and state-supported CSUN courses is transferable to other colleges and universities. Students should consult the policies of the receiving institution before planning their program of study. The transfer of credits earned at other California State Universities is done in keeping with California State University Executive Order 167. Visit <http://www.calstate.edu/EO/> for details.

### Applying Credit Earned as a Nonmatriculated Student to CSUN Degree Programs

A nonmatriculated student (a student who has not been admitted to a state- or self-supported CSUN Degree Program) may take as many credit courses as desired through the various programs open to nonmatriculated students (e.g., Open University, Winter Term). However, once a nonmatriculated student is accepted into any state- or self-supported CSUN Degree or Credential Program, he or she becomes a matriculated student and the number or credits earned as a nonmatriculated student that may be applied to the CSUN Programs are limited, as follows. The maximum number of credit units earned as a nonmatriculated student that may be applied to an Undergraduate Degree Program is 24 (including fall, winter, spring and summer courses). The maximum number of credit units earned as a nonmatriculated student that may be applied to a Credential or Graduate Degree Program is 9. *Note: Determination of which courses, if any, of those taken before matriculation are applicable to the Degree Program up to the maximums stated above rests with the Department responsible for the Program. Some Degree Programs with highly integrated cohort curricula may not accept any credits from courses taken prior to admission because the Program stands as an educational whole.*

### Degree, Credential and Credit Certificate Programs for Mid-career Professionals

Through The Tseng College, CSUN offers Bachelor's Degree-Completion, Master's Degree, Credential and Credit Certificate Programs for the mid-career professional. The Tseng College also works with employers to bring University Degree and Credit Certificate Programs to their organizational sites and/or to custom-design Program components to make them highly effective for staff education.

### The Distinctions of University Degree Programs Offered Through The Tseng College

University Degree Programs offered through The Tseng College are traditional University Degree Programs in terms of academic rigor, oversight, accreditation, student records and instructional excellence. They differ from other CSUN Degree Programs primarily in that their curricula, formats and delivery modes have been designed and developed—in collaboration with University faculty—to ensure that mid-career students achieve the specified educational objectives and graduate prepared to put their new knowledge and skills to work in the desired professional context.

University Degree Programs offered through The Tseng College are designed to be convenient and easily accessible to mid-career professionals. Courses are scheduled for evenings and weekends, and taught at various regional locations, including corporate and public agency sites. Some programs are offered fully online, making them accessible without travel or meeting-time limitations.

The Tseng College provides exceptional support services for participants in its programs to ensure that mid-career professionals are able to complete their degrees quickly and successfully. In each program, a dedicated coordinator or manager serves as a single point of contact, resolving program-related issues promptly and helping participants to access the full range of University services.

Most University Degree Programs offered through The Tseng College are structured in the cohort format, in which participants enter the program as a group and proceed through the course of instruction together. This format facilitates learning because each course builds on those that preceded. It also provides participants with a strong support network of faculty and fellow students who come to know one another well.

As a result of appropriate instructional strategies, clearly defined and assessed learning outcomes and superior student support services, University Degree Programs offered through The Tseng College Programs are highly effective for mid-career professionals, with on-time graduate rates for cohorts in Master's Degrees from 80 percent to more than 95 percent.

### Bachelor's Degree-Completion Programs

<http://tsengcollege.csun.edu/bachelors.html>

This programs is designed for those who have completed at least 2 years of college and wish to earn the Bachelor's Degree often required for career advancement or expanded career alternatives. This program also serves mid-career professionals who already have a college degree but wish to earn a second degree in another field.

Public Sector Management (B.A.)

<http://tsengcollege.csun.edu/psm/psm.html>

### Post-Baccalaureate Certificates

<http://tsengcollege.csun.edu/certs-gradcred.html>

These programs are designed to serve degree-seeking students by enabling them to add another area of focus to their degree study. Many post-degree professionals also use these programs for advanced study opportunities in areas of importance to their careers.

#### Board-Certified Behavior Analyst

An on-campus University-credit program.

### Distance Learning Programs

<http://tsengcollege.csun.edu/online.html>

The Tseng College designs distance learning (DL) programs for working professionals who desire to earn Degrees or Certificates for career advancement without the geographic or logistical constraints of attending an on-campus program. Many of the Master's Degree Programs listed above are offered online:

Communication Disorders and Sciences, Speech and Language Pathology (M.S.)

Educational Administration (Educational Leadership and Policy Studies) (M.A.)

Engineering Management (M.S.)

Knowledge Management (MKM)

Public Policy (MPP)

The Tseng College also offers Certificates online, including:

**Instructional Design and Adult Development**

### Noncredit Programs for Career Change and Advancement

<http://tsengcollege.csun.edu/certs-noncred.html>

The Tseng College also offers a limited number of professional development Certificate Programs, series of courses, and training programs. Most of these Certificate Program courses earn continuing education units (CEUs) to satisfy the requirement for a CSUN Certificate in Advanced Professional Development in an area of career specialization. Training programs of fewer than 100 hours earn a CSUN Certificate of Participation. Tseng College professional development offerings are available to employers on a custom-designed, contract basis. Current Certificate Program offerings include:

**Assistive Technology Applications**

<http://tsengcollege.csun.edu/codtraining.html>

**Human Resources Management**

<http://tsengcollege.csun.edu/hr.html>

**Mediation and Conflict Resolution**

<http://tsengcollege.csun.edu/mediation/index.html>

**Speech Language Pathology Assistant (SLPA)**

<http://tsengcollege.csun.edu/slpa/slpa.html>

### International Programs and Partnerships

<http://tsengcollege.csun.edu/international.html>

Working with schools and colleges around the globe, The Tseng College can take existing programs to international sites or custom-design new programs for an international organization. In addition, The Tseng College has forged a variety of internationally-designed, collaborative partnerships to help start new colleges, improve schools or tackle larger global problems. For larger projects, The Tseng College can assemble and manage a project team that draws on the resources and expertise of many sister colleges and universities to form a broad collaboration, thus creating a valuable resource for international projects.

The Tseng College also works with nations, industry groups, trade associations or national trade councils to bring together U.S. and international businesses for an intensive program that explores trade options, regulatory issues, collaborative ventures, market need or other topics of concern. Such programs are designed and formatted to foster conversation among potential international partners and help collaborative ventures get started as one firm meets and learns to work with another across international lines.

### Intensive English and University Pathway Programs

<http://tsengcollege.csun.edu/ieup/ieup>

Through The Tseng College, CSUN's Intensive English and University Pathway Programs (IEUP) offers international students year-round English as a Second Language (ESL) instruction. Classes covering all levels of English-language skills, including speaking, writing, research and presentation skills are provided. Customized short-term programs are available upon request. Preparation classes in TOEFL and International English Language Testing System (IELTS) and free tutoring are available to students in the programs. Conditional Admission to CSUN is offered to IEUP students upon successful completion of higher-level classes. Advanced-level IEUP students may take University classes as part of their course of study. The Tseng College's Semester at CSUN program allows qualified international students to take University courses via Open University without having to be for-

mally admitted to the University. Students in the Semester at CSUN Program are permitted to take classes on a space-available basis with instructor approval and are subject to the same academic standards, rules and regulations that apply to regular University students. Send email to [iep@csun.edu](mailto:iep@csun.edu) for more information.

### Other Programs and Services offered through The Tseng College

**Winter Term/Intersession Program**

<http://tsengcollege.csun.edu/winter.html>

The Tseng College manages the Winter Term/Intersession Program. This Program is open to both matriculated and non-matriculated students. (A matriculated student is one who has been admitted to a state or self-supported Degree Program at CSUN. A non-matriculated student is one who has not been admitted to a Degree Program at CSUN.) Winter Term/Intersession offers participants a rich educational experience through a broad range of intensive study opportunities in University credit courses. Winter Term/Intersession is open to all who successfully completed high school or earned a General Educational Development credential. Students need not be regularly enrolled at CSUN to take academic-credit classes during the Winter Term/Intersession, so long as course prerequisites are met.

**Open University Program**

<http://tsengcollege.csun.edu/openuni.html>

This program is open only to non-matriculated students. (A non-matriculated student is one who has not been admitted to a Degree Program at CSUN). Members of the community are invited to enroll in CSUN undergraduate- and graduate-level University credit courses without formal application or admission to the University through the Open University Program administered by The Tseng College. Open University is offered in the Fall and Spring semesters. Those enrolled in the Open University Program attend the regular day or evening credit courses, participate side-by-side with degree-seeking students and enjoy the same intellectual challenges and rewards. Credits earned through Open University become part of a permanent academic record that may be applied to Degree work and transferred to other universities. Open University allows non-matriculated students at CSUN who meet the course prerequisites to enroll in state-supported University offerings on a space-available basis, with instructor approval.

**Summer Session Program**

<http://tsengcollege.csun.edu/>

Each year, CSUN offers a Summer Session. If Summer Session is offered through state-support, non-matriculated visiting Summer students may register for classes through The Tseng College. If Summer Session is offered through self-support, The Tseng College will manage the session. Please see our website for information.

#### UNIV 100 Freshman Seminar

Director: Cheryl Spector

Sierra Hall (SH) 437

(818) 677-3932

[www.csun.edu/univ100](http://www.csun.edu/univ100)

### Course List

---

#### UNIV 060. Supplemental Instruction (1)

Supplemental Instruction is an academic-assistance program designed to help students master difficult course material in historically challenging classes. Students participate in a series of weekly peer-facilitated small-group study sessions that focus on learning strategies and problem-solving skills specific to the corresponding lecture course. Students enroll in University 60 for 1 unit, non-Baccalaureate credit.

#### UNIV 061/062. Supplemental Instruction in Writing. (1-1)

UNIV 061/062 is a mandatory corequisite for 113A/B—Approaches to University Writing. Students enrolled in AAS, CAS, CH S, ENGL, PAS or QS 113 must enroll concurrently in Supplemental Instruction, for which they will receive a maximum of 1 additional unit of non-Baccalaureate credit per semester. UNIV061/062 sessions are led by experienced peers who have been successful in writing courses.

#### UNIV 100. Freshman Seminar (3)

This course introduces first-time freshmen to the University as an institution, a culture, and an intellectual experience. Academic success is the central goal of the course. Topics include academic skills (writing, reading, note-taking, test-taking and information competence, as well as critical, analytic and creative thinking); the value of higher education; the history and culture of CSUN; lifelong learning; the discourse of higher education; ethics and responsibility; diversity in higher education; advisement; health; and self-assessment. The course includes weekly writing assignments, frequent in-class exercises and some on-campus field trips. (Available for General Education, Lifelong Learning.) (IC)

### *Emeritus Faculty*

William "Tim" Dagodag

### Programs

Undergraduate:

**B.A., Urban Studies and Planning**

Graduate:

**Graduate Certificate in Urban Studies and Planning**

### Mission Statement

The Department of Urban Studies and Planning prepares students, at both the undergraduate and graduate level, for professional careers in urban studies and planning. It provides a broad-based educational experience, set in the context of the social sciences that develops informed, thoughtful and able individuals prepared to contribute to society. The Department faculty supports the mission through teaching, research and publication, community outreach and University service.

### Department Programs

Urban Studies and Planning is an Interdisciplinary Program providing an undergraduate course of study that focuses on solutions to the major problems stemming from the complexities of contemporary urban life. The Urban Studies and Planning curriculum is designed for students who:

1. Wish to enter professional graduate schools in such fields as urban planning, urban design, environmental planning, social welfare, law and public administration, and international development;
2. Intend to begin their professional careers at the end of their Baccalaureate education through employment in various governmental agencies, private firms or non-profit organizations concerned with urban issues, regional planning, real estate development and community development; or
3. Desire a social science degree that emphasizes the study of the historical and modern city.

The Major in Urban Studies and Planning requires all students to complete a set of Lower Division introductory courses and Upper Division Core courses. This part of the curriculum is designed to provide students with a comprehensive understanding of the urban environment and training in the appropriate principles and methods of planning and urban analysis. In addition to the Lower Division and Core course requirements, students must complete a set of elective courses within 1 of 4 designated specializations.

As a complement to the course work, students are required to complete supervised field research and an internship with a public agency, a non-profit organization or a private-sector organization conducting planning-related work. These experiences help to provide students with professional experience to begin careers in planning and with the skills to find solutions to urban problems and situations.

The Department of Urban Studies and Planning supports the concept of international education and encourages students to investigate opportunities of overseas study. The Department supports campus-

wide initiatives to increase international learning opportunities and offers Independent Studies courses that entail field trips abroad. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in Urban Studies and Planning and may be used to fulfill some of the requirements for the Degree and/or General Education requirements. Students should consult with the Department of Urban Studies and Planning and the International Programs Bulletin available in the Office of International and Exchange Programs, a program advisor or the campus International Programs Advisor for information.

### Careers

Urban Studies and Planning provides professional training that prepares majors for careers in such fields as urban and regional planning, community development, environmental analysis, public administration and resource management.

### Academic Advisement

Students are required to seek advisement as early in their academic careers as possible. This is especially necessary if a student wishes to pursue a double major or prepare for specific job opportunities. Students must call the Department Office at (818) 677-2904 to make an advisement appointment.

### Student Learning Outcomes of the Undergraduate Program

At the completion of the Degree Program in Urban Studies and Planning, students will:

1. Know the key forces responsible for urban development in the U.S. and elsewhere in the world.
2. Demonstrate knowledge of current principles and practices of urban planning relevant at multiple levels of government from local to global.
3. Demonstrate the ability to work with diverse communities to advance social justice.
4. Demonstrate knowledge of appropriate methods and techniques to accomplish urban-related research.
5. Demonstrate an ability to apply principles of sustainable development using a participatory approach to decision making.
6. Participate in various forms of civic engagement.

### Graduate Certificate in Urban Studies and Planning

The Department offers a Graduate Certificate in Urban Studies and Planning in collaboration with the Tseng College of Extended Learning. For more information, see the Certificates section in the Catalog.

### Requirements for Bachelor of Arts Degree

#### A. Core Course Requirements

All Urban Studies and Planning Majors are required to complete the Lower Division required courses and the Upper Division Core courses. Students must then choose from 1 of 4 specializations. The first 3 specializations provide students the opportunity to develop a level of expertise within a subfield of urban studies and planning. These 3 specializations are: 1) urban and regional planning; 2) housing, community and economic development; and, 3) environmental planning and sustainability. The fourth specialization provides students the opportunity to customize their own area of specialization in consultation with an advisor. Within each specialization, 9 units must consist of URBS courses and 6 units must be taken outside the Department.

#### 1. Lower Division Required Courses (6 units)

|          |                                   |
|----------|-----------------------------------|
| URBS 150 | The Urban Scene (3)               |
| URBS 250 | Planning the Multiethnic City (3) |

**2. Upper Division Required Courses (22 units)**

|           |  |
|-----------|--|
| URBS 300  | The Planning Idea (3)                            |
| URBS 310  | Growth And Sustainable Development Of Cities (3) |
| URBS 340A | Quantitative Urban Research Methods (3)          |
| URBS 340B | Qualitative Urban Research Methods (3)           |
| URBS 440  | Community-Based Urban Design (3)                 |
| URBS 450  | Urban Problems Seminar (4)                       |
| URBS 460  | Legal Foundations of Planning (3)                |

**3. Field Work and Internship (6 units)**

|           |                |
|-----------|----------------|
| URBS 490C | Field Work (3) |
| URBS 494C | Internship (3) |

**B. Specialization Requirements****1. Urban and Regional Planning (15 units)**

The objective of this Specialization is to train students to effectively design and implement plans and public policies in urban, regional and international settings. Students will study the linkages between the social, economic and political factors of urban society. Urban and regional planning career opportunities exist in city, county, regional, state and national government, private consulting firms, non-profit organizations, and research and academic institutions. This Specialization prepares graduates for positions in transportation planning, zoning administration, economic development planning and neighborhood planning.

**Choose 15 units from the following:**

|            |  |
|------------|--|
| ECON 160   | Principles of Microeconomics (3)                   |
| or 161     | Principles of Macroeconomics (3)                   |
| GEOG 305/L | Maps and Graphics and Lab (3)                      |
| GEOG 306/L | Intermediate GIS and Lab (3)                       |
| GEOG 351   | Urban Geography (3)                                |
| GEOG 452   | Urban Land-Use Planning (3)                        |
| POLS 360   | Public Administration (3)                          |
| POLS 403   | State and Local Government (3)                     |
| POLS 405   | The Process of Public Policy Formation (3)         |
| POLS 461   | Environmental Policy (3)                           |
| POLS 466   | The Politics of Public Spending (3)                |
| POLS 467   | Urban Administration (3)                           |
| POLS 469   | City Planning and Lab (3)                          |
| SOC 400    | Organizational Theory (3)                          |
| SOC 410    | Urban Sociology (3)                                |
| SOC 426    | Social Legislation and Social Policy (4)           |
| URBS 345   | The General Plan and Zoning (3)                    |
| URBS 350   | Cities of the Third World (3)                      |
| URBS 400   | Planning for the Natural and Built Environment (3) |
| URBS 408   | Policy Making for Planners (3)                     |
| URBS 430   | Planning in the Public Sector (3)                  |
| URBS 441   | Advanced Urban Design (3)                          |
| URBS 480   | Transportation Planning (3)                        |

**2. Housing, Community and Economic Development (15 units)**

This Specialization focuses on how planners and policy leaders influence the social and economic factors that shape metropolitan economies and urban neighborhoods. Housing covers the general issues of providing decent, safe and affordable housing for all members of the community. Community and economic development is concerned with the creation, preservation and revitalization of neighborhoods. This Specialization prepares graduates for positions in housing, community development, neighborhood revitalization, workforce development and center city redevelopment.

**Choose 15 units from the following:**

|          |   |
|----------|---|
| AAS 340  | Asian American Women (3)                                  |

| SOC 410  | Urban Sociology (3)                                       |
| URBS 350 | Cities of the Third World (3)                             |
| URBS 416 | Urban Housing (3)   |
| URBS 420 | Communities, Neighborhoods and Planning (3)               |
| URBS 425 | Social Policy, Environmental Justice and the City (3)     |
| URBS 435 | Planning for Community Development (3)                    |
| URBS 441 | Advanced Urban Design (3)                                 |

**3. Environmental Planning and Sustainability (15 units)**

This is an interdisciplinary Specialization designed to train planners to make decisions about the interactions between nature and society in a way that balances resources used in the present with the resource needs of the future. Environmental planning rests centrally on the notion of sustainable development. This field covers a broad range of planning issues that include urban ecology, habitat conservation, environmental justice, land use planning, transportation planning, resource and waste management, environmental health, water, energy and air quality planning, green building, smart growth and ecosystem management.

**Choose 15 units from the following:**

|            |   |
|------------|---|
| BIOL 322   | Evolutionary Biology (3)                              |
| BIOL 323   | Plants and Animals of Southern California (2)         |
| ECON 160   | Principles of Microeconomics (3)                      |
| or 161     | Principles of Macroeconomics (3)                      |
| ECON 360   | Environmental Economics (3)                           |
| GEOG 305/L | Maps and Graphics and Lab (2/1)                       |
| GEOG 306/L | Intermediate GIS and Lab (2/1)                        |
| GEOG 311/L | The Atmosphere and Lab (3)                            |

| URBS 380   | Los Angeles: Past, Present, Future (3)                |
| URBS 400   | Planning for the Natural and Built Environment (3)    |
| URBS 415   | CEQA for Urban Planners (3)                           |
| URBS 420   | Communities, Neighborhoods and Planning (3)           |
| URBS 425   | Social Policy, Environmental Justice and the City (3) |
| URBS 480   | Transportation Planning (3)                           |

**4. Custom Specialization**

This Specialization is intended to give students the flexibility to synthesize across the very diverse aspects of urban studies as well as urban and regional planning, community and economic development, urban

design, environmental planning and sustainability. In close consultation with faculty advisors, students may customize a program that meets their specific interests and needs. It is particularly suited to individuals who have very broad interests and understand the value of a generalist approach to planning.

## Exceptions and Restrictions

1. Students may double-count URBS 310 as credit for a Core course requirement and a General Education requirement.
2. Students may count ECON 160 or 161 as an Upper Division elective course.

## Course List

### Lower Division

#### URBS 150. The Urban Scene (3)

Lecture-discussion course that includes a historic view of human settlements and cities. It emphasizes cities in the U.S. It explores urban society, including population, housing, economics, infrastructure, transportation, environment, government, land use, law, planning, growth and sustainability. (Available for General Education, Social Sciences.)

#### URBS 250. Planning the Multiethnic City (3)

Comprehensive analysis of the social, cultural and land use structure of cities in the U.S. during the 20th century. Major focus on the significant demographic changes that have influenced urban and public policy since 1975. Explores issues related to multiethnic constituencies in American cities.

### Upper Division

#### URBS 300. The Planning Idea (3)

*Prerequisite:* URBS 150. Detailed examination of the foundational ideas and issues of the urban planning profession drawn from planning history, alternative models of planning and planning ethics. Planning principles are examined in the context of case studies drawn from the Los Angeles region, the U.S. and world cities.

**URBS 310. Growth and Sustainable Development of Cities (3)**

Examination of the forces contributing to the form, structure and sustainable development of cities. Emphasis on urban areas of the U.S. (Available for General Education, Social Sciences.)

**URBS 340A Quantitative Urban Research Methods (3)**

*Prerequisite:* Upper Division standing. This course is an introduction to research methods typically used in urban studies and planning. It provides basic skills for research design and statistical techniques appropriate for quantitative analysis. The focus of the course is on the approaches to research design, data collection, analysis of survey data and the application of statistical techniques. Students will learn how and when to use descriptive and inferential statistical analyses. This is an intensive writing course: Students are required to read scholarly research papers and conduct a library literature and database search. Students will learn to use statistical analysis software to build a database to analyze their own data.

**URBS 340B Qualitative Urban Research Methods (3)**

*Prerequisites:* URBS 340A; Upper Division standing. This is an introduction to research designs and methodologies incorporating qualitative methods of data collection, such as archival research, interviews, behavior mapping, cognitive mapping, participant observation and survey instruments. The ethical treatment of research subjects also is addressed. This is an intensive writing course: Students are required to read scholarly research papers and conduct a library literature and database search. The course emphasizes student-generated research design, field work, data analysis and final project.

**URBS 345. The General Plan and Zoning (3)**

This course deals with the requirements for comprehensive planning and zoning in the state of California. Emphasis will be placed on the mandated general plan elements of land use, housing, circulation, Open space, conservation, safety and noise. Special attention will be paid to formulating a framework for a general plan, and preparation, adoption and amendment of the general plan. As the major tool for the implementation of the general plan, zoning will be addressed in terms of the enactment process and administration through the use of the variance, conditional use permits and zone changes. Students will be required to participate in a series of field-based and studio-based exercises focusing on general plan formulation and current zoning problems.

**URBS 350. Cities of the Third World (3)**

*Prerequisites:* Upper Division standing; Completion of Lower Division writing requirement. Cultural analysis of Third World urbanization and counter-urbanization, with emphasis on particular aspects of urban life and social change in Africa, Latin America, the Middle East and Southeastern Asia. (Available for General Education, Comparative Cultural Studies.)

**URBS 380. Los Angeles: Past, Present, Future (3)**

Multidisciplinary investigation of the Los Angeles urban area, its patterns of population and resources distribution; its historical, economic, social and cultural developments; and policies models designed to cope with its problems and to develop its potential as an ethnically diverse metropolis on the Pacific Rim. Application of social science methodology. Series of faculty and guest speakers, weekly discussion sessions and field trips. (Cross listed with HIST and POLS 380.) (Available for General Education, Social Sciences.)

**URBS 400. Planning for the Natural and Built Environment (3)**

*Prerequisites:* ECON 160 or 161 or 300; Completion of the Lower Division writing requirement. Relationships between people and technology in the city, and the application of resources to supply such urban needs as transportation, waste disposal, water and communication. Technological change and forecasting.

**URBS 405. Advanced Research Methods for Planning (3)**

*Prerequisites:* URBS 340A, 340B. Focuses on key urban planning concepts, theories and research methods. Emphasis placed on the application of research methods to tasks normally assigned to professional planners and the completion of a class project that focuses on a specific urban planning problem defined by a local, community-based organization (CBO). Working with a CBO, students prepare a proposal consisting of a problem statement and a research protocol, gather quantitative and qualitative data, perform analysis, and write a final report that includes recommendations to the community-based organization.

**URBS 408. Policy Making for Urban Planners (3)**

The course will comprehensively address the complex arena of public policy in relation to city planning, land-use issues and urban policy. This will incorporate how a society based on pluralist democracy balances the demands of a range of interest groups, including planners, city bureaucracies, politicians, community groups, private-sector economic interests, the non-profit sector, state and federal agencies and the general public. The focus will be on issues related to the built environment and the controversial nature of constant transformation of land uses in cities. In addition, the course will address the interrelationship between local government implementation strategies and federal urban program laws and regulations. The course is designed to provide students with a comprehensive understanding of the linkages between urban social policy, distributional equity in local and federal programs, and environmental considerations within the arena of governmental decision making systems.

**URBS 412. Grant Writing (3)**

*Prerequisites:* URBS 340A and 340B; Upper Division standing. This course is intended to provide students with basic knowledge in the research, writing and planning skills involved in preparing grant proposals. The presumption is that students possess no substantive prior knowledge of grant writing. Students will learn the basic phases of writing a grant proposal, how to search for sources of grant funding and the process of submitting grant proposals to public and private agencies and foundations. Students also will learn how to use the internet to search for grant opportunities. Emphasis will be placed on non-profit organizations that deal with human service needs. The course will address how to manage the implementation of a grant proposal and how to measure the impact a particular service has on a community.

**URBS 415. The California Environmental Quality Act for Urban Planners (3)**

This course deals with California's statutory requirements for environmental planning and policy. The focus of the course will be on the California Environmental Quality Act (CEQA) process that addresses issuance of Negative Declarations, preparation of draft and final environmental impact reports (EIRs), litigation, decision making and the requirements of professional consulting. A special emphasis will be placed on understanding the environmental implications of typical projects that occur in an urban setting.

**URBS 416. Urban Housing (3)**

*Prerequisites:* Upper Division standing; Completion of Lower Division writing requirements. This course is designed to help students explore the complexity of housing and housing-related issues from a planning perspective. Students will develop a basic understanding of the housing market, its relationship to community development and its importance to communities and the U.S. economy. A wide variety of topics will be discussed, including the use and meaning of housing, the development of federal, state and local housing policy, the changing dynamics of housing policy, the housing market, housing finance, the challenge of providing affordable housing and the relationship of housing to com-

munity development/neighborhood transformation. Considerable emphasis will be placed on housing issues in the Los Angeles metropolitan area. Class time will be devoted to lectures, guest lectures, class discussions and group discussions.

**URBS 420. Communities, Neighborhoods and Planning (3)**

*Prerequisites: Upper Division standing; Completion of the Lower Division writing requirement.* Study of human behavior as it is affected by basic human needs and urban environmental conditions, and an examination of alternative strategies for restructuring social institutions and social behavior.

**URBS 425. Social Policy, Environmental Justice and the City (3)**

Addresses the linkages between urban social policy, distributional equity in local and federal programs, and environmental movements initiated as a response to regressive land use and/or planning strategies. Specific areas of social policy that are analyzed in this course are housing policies and programs, economic development and revitalization, transportation, urban recreation and cultural projects, and local governmental implementation strategies.

**URBS 430. Planning in the Public Sector (3)**

*Prerequisites: Upper Division standing; Completion of the Lower Division writing requirement.* Analysis of public and private institutions through which modern urban society functions, with emphasis on the structure and functions of cities from the perspective of their organizational life.

**URBS 435. Planning for Community Development (3)**

*Prerequisite: URBS 310.* Examination of the theories of local economic development and how each theory informs real-world policy and practice. Implementation and implications of alternative strategies are illustrated by specific case studies.

**URBS 440. Community-Based Urban Design (3)**

*Prerequisite: URBS 340A, 340B or other equivalent research methods courses.* Study of current urban design techniques and policies and their application to local communities and neighborhoods.

**URBS 441. Advanced Urban Design (3)**

*Prerequisites: URBS 440 or instructor consent.* This second, advanced course in the urban design series examines selected aspects of urban design and development in further depth, typically involving sites in Southern California through a practice-oriented studio experience that requires civic engagement and community partnership. The design project selected will vary by semester as will the urban design topics selected for emphasis, which might include advanced problem-solving methodologies; the utilization of computer simulation techniques; methods for community participation; research in planning, environment and behavior; environmental sustainability; or real estate development practices. Emphasis will be placed on developing physical designs and/or implementation strategies to create livable, sustainable and “smart” communities that balance economic prosperity and social equity with environmental protection.

**URBS 450. Urban Problems Seminar (4)**

*Prerequisites: Senior standing; Completion of the Lower Division writing requirement.* Advanced seminar on problems and issues in urban and environmental studies. Interdisciplinary symposia and opportunities for critical appraisal and exchange of ideas on special studies developed in or stemming from field work. Emphasis on case studies and other problem approaches.

**URBS 460. Legal Foundations of Planning (3)**

*Prerequisites: Upper Division standing; Completion of the Lower Division writing requirement.* This course is a general introduction to land use planning law in the U.S. It looks primarily at the state, regional and municipal levels, with an emphasis on practices and procedures to manage land use and growth in California. The course covers 4 broad areas: Introduction to Law and the U.S. Legal System, State and Local Planning Law; Managing Urban Land Use: Conflicts and Quality of Life; and Managing Growth.

**URBS 480. Urban Transportation Planning (3)**

*Prerequisites: URBS 150 or 250; or instructor consent.* This course is a general introduction to the interrelated systems of urban transportation and urban land use and their effects on the growth, development and future of human settlements. The course will provide entry-level competence for students seeking employment in transportation planning in the public or private sectors. 4 broad areas are covered: transportation planning history; transportation and land use theory; transportation planning process and techniques; and urban transportation policy.

**URBS 490A-C. Field Work (1-3)**

*Prerequisites: URBS 340A, 340B.* Introduction to urban field analysis and interview techniques through supervised field work and individual projects.

**URBS 494A-C. Internship (1-3)**

*Prerequisite: Senior standing.* Upon prior approval by the Internship Coordinator, students may earn up to 6 units for professional experience in a planning department, social service agency or other public or private organization dealing with urban problems. (Credit/No Credit only)

**URBS 495A-Z. Selected Topics in Urban Planning (3)**

*Prerequisites: URBS 340A, 340B.* Deals with a wide range of topics and specializations that are customarily dealt with by professional urban planners.

**URBS 496A-Z. Experimental Topics Courses in Urban Studies and Planning (1-3)**

*Prerequisite: Upper Division standing.* Selected topics in urban studies and planning, with course content to be determined.

**URBS 499ABC. Independent Study (1-3)**

## Graduate

---

### **URBS 610. Contemporary Urban Planning in the United States and California (3)**

Provides an overview of urban planning as practiced in the U.S. The course assumes some familiarity with urban planning and builds on common issues and problems in the field utilizing a topical approach. Such critical issues as transportation, housing, social and environmental justice, citizen participation, urban design, urban sprawl, sustainable development and New Urbanism will be examined in detail.

### **URBS 620. Seminar in Comprehensive Planning (3)**

This course provides a comprehensive introduction to the general plan and zoning process in the U.S. and California. Special emphasis will be placed on the plan elements dealing with land use, housing, circulation, open space, conservation, safety and noise. Zoning will be addressed in terms of the structure and content of zoning ordinances and the administration process. Other topics include administrative aspects of planning, and negotiation skills for planners in implementing the comprehensive plan. Supporting field trips and discussions with planners and project managers are planned.

### **URBS 630. Sustainable Development and Environmental Impact Analysis (3)**

This course deals with approaches to planning for sustainable development and the requirements for environmental planning and policy associated with the California Environmental Quality Act (CEQA). This act and regulatory guidelines can serve as a model for impact analysis in any global setting. A special emphasis will be placed on understanding the implications of sustainable development for typical projects that occur in urban settings and the techniques used to assess impacts. Supporting field trips and discussions with planners and project managers are planned.

### **URBS 640. Seminar in Planning for Communities and Local Economic Development (3)**

This course focuses on the study of human behavior as it is affected by basic human needs and urban conditions. Special attention will be given to: 1) the manner in which local neighborhoods and communities are integrated into the planning process and how needs are articulated; and 2) the manner in which local economic development can be affected by the planning process and by the integration of community participation. Supporting field trips and discussions with planners and project managers are planned.

### **URBS 690. Field Project in Urban Planning (3)**

This course will serve as the Capstone course for the Certificate Program. Field projects will be defined and approved prior to the student's completion of the 4 preceding courses. The course will focus on application of Certificate course content to a specific urban-environmental planning problem at the local level in a local city. Students will be required to be in contact with the professor as the project evolves.

## Appendices

### Appendix A. Enrollment Regulations

- A-1. Intrasystem and Intersystem Enrollment Programs
- A-2. Open University: Summer, Fall and Spring
- A-3. Academic Leave (Leave of Absence)
- A-4. Transcripts of CSUN Courses
- A-5. Grade Reporting
- A-6. Catalog Requirements (Catalog Rights)
- A-7. Student Responsibility for Catalog Information
- A-8. Credit by Challenge Examination Taken at CSUN
- A-9. Standardized Breaks In Classes
- A-10. Full-Time Enrollment (Un)dergraduate and Graduate
- A-11. Campus Service I.D. Card
- A-12. Registration Unit Limits (Academic Load Regulations)
- A-13. Academic Internship Policy

### Appendix B. Fees

- B-1. Fees
- B-2. Schedule of Tuition Fees
- B-3. Policy on Prosecution for Theft and Bad Checks
- B-4. Refund of Fees Including Non-Resident Tuition
- B-5. Fees and Debts Owed to the Institution
- B-6. Fee Waivers
- B-7. Procedure for the Establishment or Abolishment of a Student Body Fee

### Appendix C. Privacy and Student Information

- C-1. Privacy Rights of Students in Education Records
- C-2. Use of Social Security Number
- C-3. Career Placement

### Appendix D. Nondiscrimination Policy

- D-1. Nondiscrimination Policies
- D-2. Title IX Notice of Nondiscrimination

### Appendix E. Student Conduct

- E-1. Student Conduct Code
- E-2. Academic Dishonesty
- E-3. Faculty Policy on Academic Dishonesty
- E-4. Penalties for Academic Dishonesty
- E-5. Grade Correction Procedure
- E-6. Retention of Student Work Policy
- E-7. Academic Grievances and Grade Appeals
- E-8. University Policy on Alcohol and Illicit Drugs
- E-9. University Policy on Smoking
- E-10. Violence in the Workplace

### Appendix F. Admission Procedures and Policies

- F-1. Importance of Filing Complete, Accurate and Authentic Application Documents
- F-2. Undergraduate Application Procedures
- F-3. Foreign Language Subject Requirement
- F-4. Subject Requirement Substitution for Students with Disabilities
- F-5. Other Undergraduate Applicants
- F-6. Graduate and Post-Baccalaureate Admission Requirements
- F-7. Admission to Graduate Study with CSUN Bachelor's Degree
- F-8. Impacted Programs
- F-9. Hardship Petitions
- F-10. Determination of Residence for Non-Resident Tuition Purposes
- F-11. Average Support Cost Per Full-Time Equivalent Student and Sources of Funds
- F-12. International (Foreign) Student Admission Requirements Undergraduate/Graduate
- F-13. Immigration Requirements for Licensure
- F-14. Appeal of Admission Decision
- F-15. Reservation
- F-16. Systemwide Placement Test Requirements: ELM and EPT
- F-17. Upper Division Writing Proficiency Exam (UDWPE)
- F-18. Mathematics Placement Test (MPT)
- F-19. Chemistry Placement Test (CPT)
- F-20. Health Screening (CSU Immunization Requirement)
- F-21. Degree Progress Report (DPR)
- F-22. Credit for Work Taken at Community Colleges
- F-23. Credit/No Credit Work
- F-24. CSU English Equivalency Examination
- F-25. Restrictions on Exam Credit
- F-26. Other Credit
- F-27. Availability of Institutional and Financial Assistance Information

### Appendix G. University Regulations

- G-1. Appeal of Undergraduate University Regulations
- G-2. Changes in Rules and Policies
- G-3. Catalog Production

### Appendix H. Other Policies

- H-1. Second Bachelor's Degree Requirements
- H-2. Applying for Your Second Bachelor's Degree
- H-3. Second Bachelor's Honors at Graduation
- H-4. International Baccalaureate (IB)
- H-5. Academic Renewal
- H-6. Student Outcomes Assessment Policy
- H-7. Credit Hour
- H-8. Class Levels (Class Standing)
- H-9. CLEP Examinations
- H-10. Advanced Placement (AP) Credit

### A-1. Intrasystem and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space-available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student's home CSU campus as elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their Degree Programs before enrolling at the host campus.

There are 2 programs for enrollment within the CSU and 1 for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from Admissions and Records at (818) 677-3700.

**CSU Concurrent Enrollment:** Matriculated students in good standing may enroll at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is reported at the student's request to the home campus to be included in the transfer credits on the student's transcript at the home campus.

**CSU Visitor Enrollment:** Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for 1 term. Credit earned at the host campus is reported at the student's request to the home campus to be included in the transfer credits on the student's transcript at the home campus.

**Intersystem Cross Enrollment:** Matriculated CSU, University of California or community college students may enroll on a "space-available" basis for 1 course per term at another CSU, UC or community college and request that a transcript of record be sent to the home campus.

### A-2. Open University at CSUN Through The Tseng College— Fall, Spring and "Summer for Visiting Students" Terms

Open University is a registration status that allows nonmatriculated students (i.e., those who have not been admitted to a state- or self-supported CSUN Degree Program) to enroll in undergraduate and graduate courses on the CSUN campus on a space-available basis with the permission of the instructor. Open University registration is through CSUN's Tseng College. The following Open University policies and procedures apply for Open University in the Fall, Spring and Summer terms:

1. Each academic Department will decide whether to participate in Open University enrollment and which courses are appropriate for Open University enrollment. This is done by permitting Open University students to enroll in classes only when instruction begins (during late registration) and only with the instructor's permission. Before that and during earlier nonrestrictive (open) registration, a note displays in Class Search and on the SOLAR registration database indicating that Open University enrollment is not available.
2. Even when a Department has approved a course for Open University enrollment in a given term, an individual instructor retains the right to decline an Open University enrollment request. Instructors indicate their acceptance of Open University students by giving each student a permission number that will enable the student to register online or in person with The Tseng College Registration Office.
3. Open University enrollment normally will not be accepted in a class that has reached the maximum enrollment.
4. Students seeking Open University enrollment in classes with prerequisites are responsible for furnishing the instructors with evidence of having met the academic requirements for the course. The instructor will determine whether a student is academically qualified before issuing a permission number.
5. Prospective Open University students need to obtain permission to attend the course of their choice from the instructor. This is done by

attending the first class meeting and requesting a permission number, which then can be used to enroll online.

6. In general, Open University students will not constitute more than 50 percent of the scheduled maximum enrollment for the course.
7. Open University students enrolled in CSUN courses receive the same academic credit as other students in the course. The grade earned for the course becomes part of the Open University student's long-term academic record at CSUN and appears on the regular University transcript.
8. Nonmatriculated students may take any number of courses over time through Open University. However, if a nonmatriculated student is later admitted to a CSUN state-funded or self-support Degree Program (i.e., becomes a matriculated student), a maximum of only 24 credit units taken before matriculation can be applied to an Undergraduate Degree and a maximum of 9 credit units taken before matriculation can be applied to a Graduate Degree, Graduate Credit Certificate Program or Credential Program.
9. Determination of which courses, if any, of those taken before matriculation are applicable to the Degree Program up to the maximums stated above rests with the Department responsible for the program. Some Degree Programs with highly integrated curricula may not accept any credits from courses taken prior to admission because the Program stands as an educational whole.
10. Enrollment in CSUN courses through Open University does not constitute admission to the University nor does it entitle Open University students to student services available to matriculated students (i.e., students enrolled in Degree, Credit Certificate Program or Credential Program). Open University students do, however, have library privileges. For more information about Open University, including fee information, visit <http://tsengcollege.csun.edu/programs/openuniversity> or call (818) 677-2504.

### Winter Term Registration Options For Matriculated and Nonmatriculated Students

CSUN generally offers a 3- to 4-week Winter term (Intersession) program in January. Courses are taught in intensive formats with many holding daily class meetings. Winter term courses are open to both matriculated students in self- and state-supported Degree Programs and nonmatriculated students (those not admitted to a CSUN Degree Program). Winter term registration is through CSUN's Tseng College. Students may enroll in no more than 1 course in Winter term unless they receive permission to enroll in an additional course from The Tseng College's director of client services at (818) 677-2504. For more information, including fee information, visit <http://tsengcollege.csun.edu/programs/winterterm>.

### A-3. Academic Leave (Leave of Absence)

To encourage continuing students with satisfactory scholastic performance to return to CSUN following an absence, the University will automatically place qualified resident and non-resident students on a Leave of Absence if they:

1. Were matriculated students in the semester immediately prior to the beginning of the leave;
2. Were not disqualified at the close of the semester; and
3. Did not receive an Undergraduate Degree at the end of the preceding regular or Summer term at CSUN.

Eligible students who do not enroll in classes or who officially withdraw from all their classes within the first 20 days of instruction are placed on leave for that semester. If they do not register in the following semester, they are granted an additional semester of leave. Foreign students with J or F visas are eligible for leave, but must request the prior approval of their International Student Advisor and apply for a leave of absence.

Classified graduate students in Degree Programs should contact their Departments before the end of their last semester of attendance.

Continuing students who do not enroll in the third semester after the 2 semesters of leave must reapply for admission. New and returning students are not placed on any leave of absence and must file a new application during the next available application filing period.

#### A-4. Transcripts of CSUN Courses

Official transcripts of courses taken at CSUN are issued only with the written request of the student concerned. Transcripts of work taken at other institutions will not be issued. The University reserves the right to withhold issuing the transcript of any student not in good financial standing with the University. For details, see How to Obtain a Transcript at [www.csun.edu/anr/degreeprogress/transcripts.html](http://www.csun.edu/anr/degreeprogress/transcripts.html).

#### A-5. Grade Reporting

Grades are available through the myNorthridge Portal and the SOLAR Student Center approximately 1 week after the final exam period. Any discrepancies should be reported to Admissions and Records so that they may be promptly investigated. The grade report reflects cumulative units earned, including units that may not be applicable to Degree requirements. Cumulative Baccalaureate-level Degree units earned are provided on the Degree Progress Report (DPR) and when a graduation evaluation is completed. In some cases it may be necessary to contact individual instructors to resolve grade-reporting errors. With the exception of a removal of an Incomplete grade within the prescribed period, no changes to the student record will be made after a Degree has been awarded.

#### A-6. Catalog Requirements (Catalog Rights)

An undergraduate student remaining in attendance in regular sessions at any California community college, at any CSU campus or any combination of California community colleges and campuses of the CSU system may meet the requirements in effect at the campus from which the student will graduate either (1) at the time the student began such attendance, (2) at the time of entrance to the campus or (3) at the time of graduation, except that substitutions for discontinued courses may be authorized or required by the proper CSUN authorities. This applies only to graduation requirements and not to procedures or other regulations. Students changing their major or any minor field of study and students changing from undeclared or undecided majors to declared majors should be aware that they may be required to complete the major or minor requirements in effect at the time of change, at the discretion of the Departments or Programs. They will be allowed, however, to continue with previously established non-major requirements, such as the General Education requirements. Attendance is defined for purposes of this regulation as at least 1 semester or 2 quarters in each calendar year. Attendance will not be considered interrupted by absence, not to exceed 2 years, related to an approved educational leave or for attendance at any accredited institution of higher learning.

#### A-7. Student Responsibility for Catalog Information

The Catalog represents the intention of the University at the time of its publication to present certain academic Programs and requirements to its students. With the passing of time, modifications may be made—the addition of some offerings and the deletion of others—in which case some opportunities for students may be eliminated or other opportunities may be presented. The University reserves the right to make such additions, deletions and modifications as circumstances may dictate. Some sections of the current Catalog, such as Registration and Student Conduct Code, pertain to all students, irrespective of when they entered

the University. Some sections pertain only to certain categories of students, such as Credit/No Credit grading (for undergraduate rather than graduate students) and good standing (with different averages applying for undergraduate and graduate students). In cases of doubt, it is the student's responsibility to obtain clarification from the appropriate Department Chair or Dean as to whether or not a particular regulation or requirement applies.

#### A-8. Credit by Challenge Examination Taken at CSUN

Students may challenge courses by taking examinations developed at CSUN. Credit will be awarded to those who pass them successfully. Currently enrolled undergraduate students not on probation who are especially qualified through experience or private instruction may petition to earn credit by challenge examination in selected courses designated by each Department. A challenge examination provides for the awarding of academic credit through successful completion of an examination of a specific Catalog-listed course. Selected laboratory and activity courses in which student participation is an integral part of the learning experience will not be subject to challenge. Each Department will have the sole responsibility for designating which courses may be challenged by examination. Challenge examinations are given under the following guidelines:

1. A student may not petition for Challenge Examination in a course if he or she does not have the prerequisites.
2. A student may not petition for more than 1 course in 1 Department during a given semester.
3. An approval of an application for Challenge Examination will expire if the examination has not been completed by the end of the semester.
4. Students may attempt the Challenge Examination in a given course only once.
5. Approval for Challenge Examination will not be given for a course if the student has already received credit for a similar but more advanced course.
6. Challenge Examinations may not be used to meet any provisions of the Repeat Course Policy.
7. A student electing the Credit/No Credit grading option on enrollment for Challenge Examination will be assigned a Credit grade for work equivalent to A, A-, B+, B, B-, C+ or C grades; "No Credit" will be assigned for work equivalent to C-, D+, D, D- or F grades. CR/NC grades are not included in the calculation of the GPA.
8. The determination of eligibility for Challenge Examination rests ultimately with the Department involved, including exceptions to the guidelines.

Procedures: Before the registration period begins, a student wishing to challenge a course by examination should consult with the Chair of the Department offering the course. If the Chair approves the request, the student will be given a 5-digit Class Number and a permission number to enroll in the "Credit by Challenge Exam" course. The student can then register online for the Challenge Exam course during regular registration periods. All required tuition and other fees must be paid according to the Fee Payment Schedule on the University Cash Service website at [www-admn.csun.edu/ucs/](http://www-admn.csun.edu/ucs/).

#### A-9. Standardized Breaks in Classes

Continuous lecture classes that last 2 or more hours should incorporate a break at a predetermined time based on any number of criteria, such as content of the lecture, length of the class and physical demand placed upon support service personnel for deaf and disabled students. Laboratory classes or classes in which the student traditionally works independently may or may not require a break, depending on the judgment of the faculty. Depending on the uniqueness of each class and the demands placed upon students (and support personnel), professors determine scheduled breaks by utilizing their own solution or 1 of the following options:

1. Courses meeting 2 hours: 1 break of 10 minutes between the first and second hours.
2. Courses meeting 2 ½ hours: 1 break of 15 minutes during the middle of the class or 2 breaks of 10 minutes.
3. Courses meeting 3 hours: 1 break of 15 minutes during the middle of the class or 2 breaks of 10 minutes.
4. Courses in excess of 3 hours: 1 break of 10 minutes for each hour of class time or 15 minutes for each 1 ½ hour.

#### A-10. Full-Time Enrollment (Undergraduate and Graduate)

Full-time enrollment for undergraduate students is considered to be 15 units (12 units for financial aid and certain external legal requirements). Graduate students who need to be considered full-time must be enrolled in a minimum of 8 units. Students are responsible for ensuring that their own academic Programs are accurate. Students are urged to act immediately to correct any enrollment discrepancies. Any enrollment discrepancies should be brought in person to the Office of Admissions and Records for correction. Failure to correct an academic program discrepancy or to drop a class officially may result in a grade of WU (Withdrawal Unauthorized) in courses never attended.

#### A-11. Student Photo I.D. Card

All new CSUN students must purchase a Student Photo I.D. card. This card is required to obtain campus services from the library, the Student Services Center, the Student Health Center, the University Student Union and many other campus units. Moreover, it is required to vote in Associated Student elections, to obtain tickets from the Associated Student Ticket Office at reduced rates and to attend CSUN athletic events free of charge.

#### A-12. Registration Unit Limits (Academic Load Regulations)

The University may impose limits on the number of units for which a student can register during each registration period. To learn about these Academic Load Regulations, visit [www.csun.edu/anr/soc/academicpolicies.html](http://www.csun.edu/anr/soc/academicpolicies.html).

Students wishing to exceed the maximum unit load after the Registration-by-Appointment period must complete and file an Extra Unit Authorization form with Admissions and Records. There also are restrictions for students based on their academic status. Students on academic probation and undergraduates readmitted under Academic Performance Agreement are limited to 13 units.

#### A-13. Academic Internship Policy

Internships that allow students to earn academic credit must meet credit-hour and faculty-workload standards ([www.csun.edu/epc/documents/Course\\_Classification.pdf](http://www.csun.edu/epc/documents/Course_Classification.pdf)) related to required hours and additional pedagogical and risk-management standards required by the California State University system and CSUN. Each College is responsible for maintaining data that will assure compliance with current academic standards, risk-management and audit policies (<http://blogs.csun.edu/ugs/>).

##### I. Definitions

- A. For the purposes of this policy Academic Internship refers to undergraduate academic internships.
- B. Academic Internships are one category of classes in which experience is the predominant teaching-learning mode and includes applied and practical experiences that are linked to students' academic study and professional preparation. This faculty-approved and -facilitated experience will normally be in organizations other than the academic Departments offering the courses. These courses will include significant involvement of students and faculty in planning, processing and evaluating the learning resulting from these experiences. Normally, Academic Internship courses will be at the Upper Division-level.

- C. For the purpose of hours and unit requirement related to this policy, Academic Internships will not include supervised student teaching, required work in credential pathways, or clinical experiences (the specific nomenclature of that is determined by the accrediting or licensing agency which regulates the profession). Programs excluded through this provision must comply with credit-hour standards, risk-management and audit policy.

##### II. Course Elements

- A. Academic Internships will include the following elements:
  1. Identified relationship to the academic discipline(s) offering the course.
  2. Screening or selection procedures for students seeking to enroll in these courses, which will be designated as restricted.
  3. An orientation to experiential learning concepts.
  4. In addition to a syllabus, a written learning agreement or contract accepted by the student, faculty member and on-site supervisor describing the rules and regulations, activities, learning processes, and evaluation methods used in the course.
  5. At minimum, student performance will be evaluated by the instructor at the middle and end of the semester. Input from the on-site supervisor is advisable.
  6. Students will be required to evaluate the quality of the field experiences.
  7. Facilitation of student learning by the CSUN instructor during the on-going experience.
  8. Compliance with all risk-management requirements.

##### III. Credit and Grading

- A. Academic credit will be granted upon the faculty member's determination of student learning. This process for final determination of academic credit will be defined in the learning agreement and may include contributions by the student and on-site supervisor.
- B. Normally, students' performances in Academic Internships will be evaluated on a Credit/No Credit basis. For new courses, upon justification by the academic Department and approval by Educational Policies Committee (EPC), a different basis of grading may be added.
- C. Academic Internship credit will not be granted after the fact or for prior life experience.

##### IV. Internship Hours and Units (See I C for exemptions)

- A. A minimum of 12 hours of contact with CSUN faculty is required per course.
- B. 45 student hours per unit per semester is expected and may not be exceeded without approval of EPC.
- C. A maximum of 3 units of internship credit is normally permitted per semester.
- D. Normally, a student may count no more than 6 units of Academic Internship course credit toward an Undergraduate Major. However, upon justification by the Department, EPC may allow up to a total of 12 units. A student may count no more than 12 units of Academic Internship course credit toward a Baccalaureate Degree.

##### V. Course Designation

Departments may not offer Academic Internships under a 499 designation as Independent Study. Departments seeking new internship courses for the first time should use the 494 designation, if available.

##### VI. Non-Discrimination

The University and the participating organizations will adhere to all current CSUN and CSU system non-discrimination policies.

**B-1. Fees**

Tuition (formerly known as State University Fee) is charged to all students. The per unit non-resident fee is charged only to students who are not classified as legal residents of California. Fees are subject to change by the Trustees of the California State University without advance notice.

Tuition versus Fees: Tuition is not charged to legal residents of California. However, legal residents are subject to the fees as stated below. Non-resident tuition must be paid by all students classified as non-residents. Fees are subject to change by the Trustees of The California State University without advance notice.

**B-2. Schedule of Tuition Fees, 2012-2013**

The CSU system makes every effort to keep student costs to a minimum. Fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU must reserve the right, even after initial fee payments are made, to increase or modify any listed fees, without notice, until the date when instruction for a particular semester or quarter has begun. All CSU listed fees should be regarded as estimates that are subject to change upon approval by The Board of Trustees.

The following reflects applicable System-Wide Fees and non-resident tuition for both semester and quarter campuses.

**All Students:** Application Fee (non-refundable), payable by check or money order at time application is made: \$55.

**2012-13 Tuition Fee**

All campuses, except California State University, Stanislaus:

| Units                                  | Per Semester | Per Quarter | Per Academic Year |
|--|--------------|-------------|-------------------|
| <b>Undergraduate</b>                   |              |             |                   |
| 6.1 or more                            | \$2,985      | \$1,990     | \$5,970           |
| 0 to 6.0                               | \$1,731      | \$1,154     | \$3,462           |
| <b>Credential Program Participants</b> |              |             |                   |
| 6.1 or more                            | \$ 3,465     | \$ 2,310    | \$ 6,930          |
| 0 to 6.0                               | \$ 2,010     | \$ 1,340    | \$ 4,020          |
| <b>Graduate</b>                        |              |             |                   |
| 6.1 or more                            | \$ 3,678     | \$ 2,452    | \$ 7,356          |
| 0.0 to 6.0                             | \$ 2,133     | \$ 1,422    | \$ 4,266          |

**2012-13 Academic Year Education Doctorate Tuition Fee\***

| Units               | Per Semester | Per Quarter | Per Academic Year |
|---------------------|--------------|-------------|-------------------|
| <b>All Students</b> | \$5,559      | \$3,706     | \$11,118          |

**Doctor of Physical Therapy Tuition Fee**

**All Students** \$8,074

**Doctor of Nursing Practice**

**All Students** \$7,170

*\*Applicable term fees apply for campuses with special terms, as determined by the campus. Total College Year fees cannot exceed the Academic Year plus Summer Term fees (Summer Term fee rate is \$5,559 for Education Doctorate, \$8,074 for Doctor of Physical Therapy, \$7,170 for Doctor of Nursing Practice).*

**2012-13 Graduate Business Professional Fee**

|                 | Semester | Quarter |
|-----------------|----------|---------|
| Charge Per Unit | \$278    | \$185   |

The Graduate Business Professional Fee is paid on a per unit basis in addition to the Tuition Fees and Campus Fees for the following Graduate Business Programs:

Master of Business Administration (M.B.A.)

Master of Science (M.S.) Programs in Accountancy

Master of Science (M.S.) Programs in Business Administration

Master of Science (M.S.) Programs in Taxation

**Non-Resident Students (U.S. and Foreign) Non-Resident Tuition (in addition to other fees charged all students) for all campuses:**

|                 | Semester | Quarter |
|-----------------|----------|---------|
| Charge per unit | \$372    | \$248   |

The total Non-Resident Tuition Fees paid per term will be determined by the number of units taken.

Mandatory System-Wide Fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers). Students are charged Campus Fees in addition to System-Wide Fees. Information on Campus Fees can be found by contacting the individual campus(es).

**Credit Cards**

Please see UCS website at [www-admn.csun.edu/ucs/](http://www-admn.csun.edu/ucs/) under section "Student Financial Matters," then select "How To Pay Your Fees." Only debit cards, cash and checks are accepted at the counter.

Online credit card payments can be made using American Express, Discover, and MasterCard (Visa is not accepted). There is a 2.9% service fee charged to the card holder.

**Other Fees**

For all other fees, please visit the University Cash Services website at [www-admn.csun.edu/ucs/](http://www-admn.csun.edu/ucs/).

**B-3. Policy on Prosecution for Theft and Bad Checks**

It is the policy of CSUN to prosecute individuals for theft, such as shoplifting, and the issuance of worthless documents, such as bad checks, wherever occurring on campus. All persons committing such acts are subject to prosecution by civil authorities under the California Penal Code. In addition to the penalties possible under the Penal Code, a student may be disciplined under Section 41301 of Title V, California Code of Regulations, and may be expelled, suspended, placed on probation and/or have his/her records encumbered. University employees committing such acts also may be subject to disciplinary action under Section 89535 of the California Education Code.

Every act of theft or the issuance of a worthless document is a burden that falls on the whole community, if in no other way by imposing an expense to the general public. This burden is magnified in the educational community where every additional expense is a real sacrifice to those involved in education. Moreover, such actions are an antithesis to what is expected of a campus community. Since it would be less than realistic to assume that these acts would not occur on campus, it is necessary that the educational community adopt those practices that society has developed to protect itself.

CSUN will employ those measures available to it under California laws and University policies to prosecute for theft and the issuance of worthless documents. Such measures include the utilization of Section 1719 of the California Civil Code (AB 1226) that permits the recipient of a bad check to recover the amount owing upon such check plus 3 times its face value, up to a limit of \$500 in a court of competent jurisdiction. In addition, Title V, California Code of Regulations, includes Auxiliary Organizations as an integral part of the campus. To provide an overall shield against the previously described acts, compatible policies and procedures will be utilized by each Auxiliary Organization in cooperation with the University.

Policies and procedures developed in accord with this statement will be filed with and available for inspection in the Office of the Special Assistant to the President.

#### B-4. Refund of Tuition Fees Including Nonresident Tuition

Regulations governing the refund of Mandatory Fees, including Non-Resident Tuition, for students enrolling in the California State University system are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, Mandatory Fees are defined as those System-Wide Fees and Campus Fees that are required to be paid in order to enroll in state-supported academic Programs at CSU. Refunds of fees and tuition charges for self-support Programs at the California State University (courses offered through extended education) are governed by a separate policy established by the University.

In order to receive a full refund of Mandatory Fees, including Non-Resident Tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available at [www.csun.edu/anr/soc/adsched.html](http://www.csun.edu/anr/soc/adsched.html).

For state-supported semesters, quarters and non-standard terms or courses of 4 weeks or more, a student who withdraws during the term in accordance with the University's established procedures will receive a refund of Mandatory Fees, including Non-Resident Tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any Mandatory Fees or Non-Resident Tuition.

For state-supported semesters, quarters and non-standard terms or courses of less than 4 weeks, no refunds of Mandatory Fees and Non-Resident Tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the University's established procedures and deadlines.

Students also will receive a refund of Mandatory Fees, including Non-Resident Tuition, under the following circumstances:

- The Tuition and Mandatory Fees were assessed or collected in error;
- The course for which the Tuition and Mandatory Fees were assessed or collected was cancelled by the University;
- The University makes a delayed decision that the student was not eligible to enroll in the term for which Mandatory Fees were assessed and collected, and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the University for a refund demonstrating exceptional circumstances, and the Chief Financial Officer of the University or designee may authorize a refund if he or she determines that the Fees and Tuition were not earned by the University.

Information concerning any aspect of the refund of Fees may be obtained from University Cash Services.

#### B-5. Fees and Debts Owed to the Institution

Should a student or former student fail to pay a Fee or a debt owed to the institution, the institution may "withhold permission to register and to use facilities for which a fee is authorized to be charged, or to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the University are obligated for the payment of Fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student Fees including any Tuition for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing Fees or another debt to the institution. The institu-

tion also may report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact Student Accounting at (818) 677-8000 option 2 or send email to [sfservices@csun.edu](mailto:sfservices@csun.edu). Student Accounting or another office on campus to which the Business Office may refer the person, will review all pertinent information provided by the person and available to the campus, and will advise the person of its conclusions.

#### B-6. Fee Waivers

The California Education Code includes provisions for the waiver of mandatory System-Wide Fees as follows:

**Section 66025.3**—Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war-period veteran of the U.S. military who is totally service-connected, disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability, was killed in action or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not remarried of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet certain age and income restrictions;

**Section 68075 (a)** – An undergraduate student who is a member of the Armed Forces of the United States stationed in this state on active duty, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, is entitled to resident classification only for the purpose of determining the amount of Tuition and Fees.

**(b)** A student seeking a Graduate Degree who is a member of the Armed Forces of the United States stationed in this state on active duty, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, will be entitled to resident classification only for the purpose of determining the amount of Tuition and Fees for no more than 2 academic years, and will thereafter be subject to Article 5 (commencing with Section 68060).

**Section 68120**—Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships); and

**Section 68121**—Qualifying students enrolled in an Undergraduate Program who are the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Students who may qualify for these benefits should contact the Admissions/Registrar's Office or visit [www.csun.edu/anr/soc/moneymatters.html#waivers](http://www.csun.edu/anr/soc/moneymatters.html#waivers) for further information and/or an eligibility determination.

**Section 38130.5**—Qualifying non-resident students exempt from paying Non-Resident Tuition, such as nonresident students with: high school attendance in California for 3 or more years; graduation from a California high school or attainment of equivalent; registration as an entering student or current enrollment at an accredited institution of higher education in California not earlier than the Fall semester or quarter of the 2001-2002 academic year; or, in the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has filed an application to legalize his or her immigration status or will file an application as soon as he or she is eligible to do so.

### **B-7. Procedure for the Establishment or Abolishment of a Student Body Fee**

The law governing the California State University system provides that Fees defined as Mandatory, such as a Student Body Association Fee and a Student Body Center Fee, may be established. A Student Body Association Fee may be established only upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The campus President may adjust the Student Body Association Fee only after the Fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required Fee will be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Student Body Association Fees support a variety of cultural and recreational programs, child-care centers and special student support programs. A Student Body Center Fee may be established only after a Fee referendum is held and approves by a two-thirds favorable vote the establishment of the Fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027 and 90068.

The process to establish and adjust other campus-based Mandatory Fees requires consideration by the Campus Fee Advisory Committee and a student referendum. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the Fee Committee Review are advisory to the campus President. The President may adjust campus-based Mandatory Fees but must request the CSU Chancellor to establish a new Mandatory Fee. The President will provide to the Fee Advisory Committee a report of all campus-based Mandatory Fees. The campus will report annually to the Chancellor a complete inventory of all campus-based Mandatory Fees.

The Student Body Fee was established at CSUN by student referendum. For more information or questions, contact the Budget Office in the CSU Chancellor's Office at (562) 951-4560.

## **Appendix C: Privacy and Student Information**

### **C-1. Privacy Rights of Students in Education Records**

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the University. The statute and regulations govern access to certain student records maintained by the University and the release of such records. The law provides that the University must give students access to most records directly related to the student, and also must provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The University has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies and procedures may be obtained at the Office of the Vice President for Student Affairs or at [www-admn.csun.edu/vp/policies/750\\_stu\\_affairs/650\\_30.pdf](http://www-admn.csun.edu/vp/policies/750_stu_affairs/650_30.pdf). Among the types of information included in the University statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the U.S. Department of Education. The U.S. Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The University is authorized under the Act to release "directory information" concerning students. At CSUN, "directory information" includes the student's name, address, telephone number, email address, photograph, date and place of birth, major field of study, dates of attendance, grade level, enrollment status (e.g., undergraduate or graduate, full-time or part-time), participation in official University activities and sports, weight and height of athletic team members, degrees, honors and awards received and most recent educational institution attended. For student employees, directory information also will include the Department where employed and employee status (e.g., graduate assistant, instructional student assistant, teaching associate). The above-designated information is subject to release by the University at any time unless the University has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to the Office of Admissions and Records.

The University is authorized to provide access to student records to University officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the University's academic, administrative or service functions, and have reason for accessing student records associated with their University or other related academic responsibilities. Student records also may be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or Program evaluation, in response to a court order or subpoena, in connection with financial aid or to other academic institutions to which the student is transferring).

### **C-2. Use of Social Security Number**

Applicants are required to include their correct Social Security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the Social Security number to identify students and their records, including identification for purposes of financial aid eligibility and disbursement, and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student's Social Security number and other information such as the amount paid for qualified tuition, related expenses and interest on educational loans. This information is used by the IRS to help determine whether a student or a person claiming a student as a dependent may take a credit or a deduction to reduce federal income taxes.

### **C-3. Career Placement**

The Office of Human Resources may furnish, upon request, information about the employment of students who graduate from Programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the University or graduates of all campuses in the CSU system.

## **Appendix D. Nondiscrimination Policy**

### **D-1. Nondiscrimination Policies**

CSUN is comprised of individuals from diverse backgrounds. The University takes pride in being a culturally pluralistic campus that promotes equal opportunity. It is essential that the entire University community recognize the need for an awareness of, sensitivity to and respect for the cultural heritage, gender and sexual orientation of others. Individual(s) or group(s) actions or activities that promote degrading or demeaning social stereotypes based on age, disability, ethnicity, gender, gender expression, gender identity, national origin, race, religion, sexual orientation or veteran status will not be tolerated. Students who behave abusively toward members of the University community based on the aforementioned criteria will face serious consequences and will be subject to disciplinary action. Any student who commits acts of discrimination, harassment or retaliation manifested by acts or threats of physical abuse, verbal abuse and/or hazing activities may be subject to suspension or expulsion from the University.

### **D-2. Title IX Notice of Non-Discrimination**

In accordance with Title IX of the Education Amendments of 1972, CSUN prohibits discrimination on the basis of sex in all academic and extracurricular programs and activities, including intercollegiate athletic activities. Title IX protects all people, regardless of gender or gender identity, from sexual harassment and violence (sexual assault, sexual battery, rape), which are forms of sex discrimination.

The University has designated the Director of the Office of Equity and Diversity as the Title IX Coordinator to oversee the implementation of Title IX, including the administrative responsibility of reviewing Title IX complaints. Inquiries concerning the application of Title IX to University-operated programs and activities should be referred to the Director of the Office of Equity and Diversity, located at University Hall, room 285, (818) 677-2077. For more information, visit the Office of Equity and Diversity website at [www-admn.csun.edu/eqtydiv/](http://www-admn.csun.edu/eqtydiv/).

## Appendix E. Student Conduct

### E-1. Student Conduct Code

#### (a) Campus Community Values

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon the University, to be civil to one another and to others in the campus community and contribute positively to student and University life.

#### (b) Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

The following are the grounds upon which student discipline is based:

- (1) Dishonesty, including:
  - (A) Cheating, plagiarism or other forms of academic dishonesty that are intended to gain unfair academic advantage.
  - (B) Furnishing false information to a University official, faculty member or campus office.
  - (C) Forgery, alteration or misuse of a University document, key or identification instrument.
  - (D) Misrepresenting oneself to be an authorized agent of the University or one of its auxiliaries.
- (2) Unauthorized entry into, presence in, use of or misuse of University property.
- (3) Willful, material and substantial disruption or obstruction of a University-related activity or any on-campus activity.
- (4) Participating in an activity that substantially and materially disrupts the normal operations of the University or infringes on the rights of members of the University community.
- (5) Willful, material and substantial obstruction of the free flow of pedestrian or other traffic on or leading to campus property or an off-campus University-related activity.
- (6) Disorderly, lewd, indecent or obscene behavior at a University related activity or directed toward a member of the University community.
- (7) Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment or sexual misconduct.
- (8) Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, that is likely to cause serious bodily injury to any former, current or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm to any former, current or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school-sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
- (9) Use, possession, manufacture or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.
- (10) Use, possession, manufacture or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University-related activity.
- (11) Theft of property or services from the University community or misappropriation of University resources.
- (12) Unauthorized destruction or damage to University property or other property in the University community.
- (13) Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University-related activity.
- (14) Unauthorized recording, dissemination or publication of academic presentations (including handwritten notes) for a commercial purpose.
- (15) Misuse of computer facilities or resources, including:
  - (A) Unauthorized entry into a file, for any purpose.
  - (B) Unauthorized transfer of a file.
  - (C) Use of another's identification or password.
  - (D) Use of computing facilities, campus network or other resources to interfere with the work of another member of the University community.
  - (E) Use of computing facilities and resources to send obscene or intimidating and abusive messages.
  - (F) Use of computing facilities and resources to interfere with normal University operations.
  - (G) Use of computing facilities and resources in violation of copyright laws.
  - (H) Violation of a campus computer-use policy.
- (16) Violation of any published University policy, rule, regulation or Presidential order.
- (17) Failure to comply with directions or interference with any University official or any public safety officer while acting in the performance of his/her duties.
- (18) Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community or to property within the University community or poses a significant threat of disruption or interference with University operations.
- (19) Violation of the Student Conduct Procedures, including:
  - (A) Falsification, distortion or misrepresentation of information related to a student discipline matter.
  - (B) Disruption or interference with the orderly progress of a student discipline proceeding.
  - (C) Initiation of a student discipline proceeding in bad faith.
  - (D) Attempting to discourage another from participating in the student discipline matter.
  - (E) Attempting to influence the impartiality of any participant in a student discipline matter.
  - (F) Verbal or physical harassment or intimidation of any participant in a student discipline matter.
  - (G) Failure to comply with the sanction(s) imposed under a student discipline proceeding.
- (20) Encouraging, permitting or assisting another to do any act that could subject him or her to discipline.

**(c) Procedures for Enforcing This Code**

The Chancellor will adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

**(d) Application of This Code**

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting Degrees and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

*Note: Authority cited: Sections 66017, 66452, 66600, 69810, 89030, 89030.1 and 89035, Education Code. Reference: Sections 66450, 69813 et seq. and 89030, Education Code; and Section 245.6, Penal Code.*

**E-2. Academic Dishonesty**

The maintenance of academic integrity and quality education is the responsibility of each student within this University and the CSU system. Cheating or plagiarism in connection with an academic Program at a CUS campus is listed in Section 41301, Title V, California Code of Regulations as an offense for which a student may be expelled, suspended or given a less severe disciplinary sanction. Academic dishonesty is an especially serious offense and diminishes the quality of scholarship and defrauds those who depend on the integrity of the University's Programs. Such dishonesty includes:

**Cheating**

Intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Comments:

1. Faculty members are encouraged to state in advance their policies and procedures concerning examinations and other academic exercises, as well as the use before examinations of shared study aids, examination files and other related materials and forms of assistance.
2. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, pagers, cell phones/cameras, PDAs, other electronic devices, conversation with others) is prohibited unless specifically authorized by the instructor.
3. Students must not allow others to conduct research or prepare any work for them without advance authorization from the instructor. This includes but is not limited to the services of commercial term paper companies.
4. Substantial portions of the same academic work may not be submitted for credit in more than 1 course without authorization.

**Fabrication**

Intentional falsification or invention of any information or citation in an academic exercise. Comments:

1. "Invented" information may not be used in any laboratory experiment or other academic exercise without notice to and authorization from the instructor. It would be improper, for example, to analyze one sample in an experiment and covertly "invent" data based on that single experiment for several more required analyses.
2. One should acknowledge reliance upon the actual source from which cited information was obtained. For example, a writer should not reproduce a quotation from a book review and indicate that the quotation was obtained from the book itself.

3. Students who attempt to alter and resubmit returned academic work with intent to defraud the faculty member will be in violation of this section. For example, a student may not change an answer on a returned exam and then claim that they deserve additional credit.

**Facilitating Academic Dishonesty**

Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty. Comments: For example, one who knowingly allowed another to copy from his or her paper during an examination would be in violation of this section.

**Plagiarism**

Intentionally or knowingly representing the words, ideas or work of another as one's own in any academic exercise. Comments:

1. Direct Quotation: Every direct quotation must be identified by quotation marks, by appropriate indentation or by other means of identification and must be promptly cited in a footnote. Proper footnote style for any academic department is outlined by the "MLA Style Sheet" or K. L. Turabian's *A Manual for Writers of Term Papers, Theses and Dissertations*. These and similar publications are available in the Matador Bookstore and at the reference desk of the Oviatt Library.
2. Paraphrase: Prompt acknowledgment is required when material from another source is paraphrased or summarized in whole or in part in your own words. To acknowledge a paraphrase properly, one might state: "to paraphrase Locke's comment . . ." and conclude with a footnote identifying the exact reference. A footnote acknowledging only a directly quoted statement does not suffice to notify the reader of any preceding or succeeding paraphrased material.
3. Borrowed Facts or Information: Information obtained in one's reading or research that is not common knowledge among students in the course must be acknowledged. Examples of common knowledge might include the names of leaders of prominent nations, basic scientific laws, etc.

Materials that contribute only to one's general understanding of the subject may be acknowledged in the bibliography and need not be immediately footnoted. One footnote is usually sufficient to acknowledge indebtedness when a number of connected sentences in the paper draw their special information from 1 source. When direct quotations are used, however, quotation marks must be inserted and prompt acknowledgment is required.

**E-3. Faculty Policy on Academic Dishonesty**

Evaluation of student performance is the exclusive province of the faculty. The faculty have the responsibility to make reasonable efforts to guarantee that work is done by the student who is to receive credit for its completion. More specifically, examinations should be appropriately proctored or monitored to prevent students from copying or exchanging information. Examinations and answers to examination questions should be secured in a way that students cannot have prior access to them. The authenticity of quotations and references should be reviewed to assure the faculty member that proper credit is given for ideas and information taken from other sources. Having carried out these responsibilities, if, in the faculty member's opinion, there is evidence of academic dishonesty on the part of a student, it is the faculty member's responsibility to take action against the student as described in the options below.

Even if a faculty member does not request disciplinary action against a student, he/she is encouraged to report acts of academic dishonesty to the Office of the Vice President for Student Affairs because a student may engage in such behavior in other classes, Departments or Colleges. If reports of alleged academic dishonesty do not reach 1 central office, repeated acts may go undetected and recidivism will be difficult or impossible to monitor. Communication with the Office of the Vice President for Student Affairs also may assist the faculty member in

determining which option or combination of options to exercise.

Depending upon the severity of the offense and the student's disciplinary history as it relates to acts of academic dishonesty, the faculty member may elect to exercise the following options:

1. Assign a lower or failing grade to an assignment, examination or the entire course. In cases in which the faculty member elects to exercise the grade-penalty option, the faculty member must inform the student in a timely manner that academic dishonesty was a factor in the evaluation. In cases where the sanction for an act of academic dishonesty has been the assignment of a grade penalty without a simultaneous request for formal disciplinary action and in which the student wishes to challenge the grade penalty assigned, the student may file an appeal with the Academic Grievance and Grade Appeals Board.
2. Request that the Office of the Vice President for Student Affairs notify the student that information related to the student's alleged act of academic dishonesty within that particular class has been forwarded to the Office of the Vice President for Student Affairs. Such notifications are in the form of an admonitory letter and serve to inform the student that the Office of the Vice President for Student Affairs is aware of the alleged incident and that formal disciplinary action will not be taken. The admonitory letter also apprises the student of the Student Conduct Code and of sanctions that would be levied for violations of that code, and affords the student an opportunity to meet with the Student Conduct Coordinator to discuss the matter. The admonitory letter will not be released for any purpose and will not become part of the student's permanent record.
3. Request disciplinary action against the student. Student discipline is exclusively the province of the Office of the Vice President for Student Affairs. In such cases, the faculty member, through the Department Chair and College Dean, should submit a formal written report of the incident to the Associate Vice President for Student Affairs and request formal disciplinary action. Associate Vice President for Student Affairs is empowered to investigate all instances of academic dishonesty. The cases are resolved either through an appropriate action accepted by the student or through a disciplinary hearing. The faculty member, Department Chair and College Dean will be notified of the final disposition of the case. In cases where the faculty member chooses both to impose a grade penalty and requests formal student disciplinary action against the student and the student wishes to challenge the grade penalty, the student may file an appeal with the Academic Grievance and Grade Appeals Board only after the student disciplinary case has been fully adjudicated by the Associate Vice President for Student Affairs.

*Note: The information in this section was adapted with permission from the University of Maryland [1980] and is also taken from the Academic Dishonesty Policy approved by the CSUN Faculty Senate, May 13, 1982.*

#### E-4. Penalties for Academic Dishonesty

Pursuant to CSU Executive Order 969, all actions taken by faculty based on student academic dishonesty, including the imposition of a grade penalty, must be reported to the Office of the Vice President for Student Affairs.

Disciplinary records of any action of academic dishonesty are retained in the Office of the Vice President for Student Affairs. These records may be available to prospective employers and other educational institutions, in accordance with federal and state regulations. In short, a student committing any act of academic dishonesty will run a serious risk of harming his or her future educational or employment opportunities.

Students wishing to report an act of academic dishonesty should call (818) 677-2391 and ask for the Associate Vice President for Student Affairs/Dean of Students, who will investigate such reports. Information may be provided anonymously. Disciplinary action, however, cannot be taken on the basis of anonymous reports alone.

#### E-5. Grade Correction Procedure

The University considers all grades reported at the end of each semester to be final. Students are responsible for reviewing their grades for accuracy before the end of the subsequent semester. Students who believe they have received a grade in error should promptly ask the instructor to verify and, if appropriate, correct the grade.

Grades received for the semester of graduation will be considered sealed 60 days after the official date of graduation. However, the deadline to request a grade correction is the end of the semester following that in which the grade was assigned. If the instructor is absent from campus during the subsequent semester, students should promptly consult with the Department Chair about the grade in question. If the Department Chair is unable to contact the instructor, he/she will notify the Associate Dean of the College in writing that an extension of the grade correction deadline, up to 1 year, has been granted.

#### E-6. Retention of Student Work Policy

A. Document Retention Time Frames: Faculty will retain the final examination and other materials, including materials in an electronic form, that contribute to the student's final grade and that are not returned to the student or otherwise not made available in class to the student, in accordance with the following time frames:

1. Spring semester: Materials from the Spring semester will be retained until the end of the first week of the following Spring semester.
2. Summer term: Materials from the Summer term will be retained until the end of the first week of the following Spring semester.
3. Fall semester: Materials from the Fall semester will be retained until the end of the first week of the following Fall semester.
4. Winter intersession: Materials from the Winter intersession will be retained until the end of the first week of the following Fall semester.

When a faculty member has received notice as to the filing of an academic grievance or grade appeal from the Office of the Vice President for Student Affairs, all related course materials, including materials in an electronic form, will be retained until the case is resolved.

B. Student's Responsibility: It is the student's responsibility to pick up from the faculty materials that have been made available to students in class.

C. Departing Faculty: Departments are encouraged to collect from departing faculty all materials as specified above, including materials in an electronic form that contribute to the student's final grade and retain such materials for a period consistent with the time frames provided above.

### E-7 Academic Grievances and Grade Appeals

The University provides procedures for the orderly processing of grievances by students against members of the faculty and for the appeal of assigned grades. Established by the Faculty Senate, these procedures are contained in the Academic Grievance and Grade Appeals Board Bylaws. The Board is empowered to act on grievances and appeals that are properly filed.

Academic grievances may be filed when a student feels aggrieved in (non-grade) matters concerning an academic decision, action or judgment by a faculty member. A grade appeal may be filed when a student believes a grade is based on error, violation of University rule or policy, refusal by the instructor to report a grade, discrimination or other improper conduct toward the student. Grade appeals based wholly or in part on a subjective or qualitative judgment of an instructor will not be considered by the Board.

Students should attempt to resolve matters informally with the faculty member prior to filing an academic grievance or grade appeal. Students also should seek the review of the appropriate Department Chair and College Dean or designee. If the matter cannot be resolved in this manner, the student may file a formal grievance or grade appeal. The grievance or appeal must be presented in writing before the end of the semester following the semester in which the matter occurred or the grade was assigned.

Information and forms for filing an academic grievance or grade appeal may be obtained online at [www.csun.edu/studentaffairs/forms](http://www.csun.edu/studentaffairs/forms) or by calling Office of the Vice President for Student Affairs at (818) 677-2391.

### E-8. University Policy on Alcohol and Illicit Drugs

The University policy regarding the possession, use and/or sale of alcoholic beverages or illicit drugs on campus is governed by state and municipal law and further governed by the Student Conduct Code, Title V, California Code of Regulations. Other University regulations are found in the campus policy on the use of alcohol and illicit drugs, which is available online at [www-admn.csun.edu/vp/policies/900\\_oversight/900-06-policy.pdf](http://www-admn.csun.edu/vp/policies/900_oversight/900-06-policy.pdf). The University expects that individuals and groups will conduct themselves and operate within the scope of these laws and University policies and regulations. Proven violations of these laws, policies, and regulations will lead to serious consequences and may include criminal prosecution and disciplinary action. For more information contact the Klotz Student Health Center at (818) 677-3685 or the Office of the Vice President for Student Affairs at (818) 677-2391.

### E-9. University Policy on Smoking

It is the policy of CSUN to promote a smoke-free environment for our employees, students and visitors, and to encourage non-smoking lifestyles. Smoking is prohibited in all University buildings and leased space (including space within buildings shared with others). This prohibition also will apply to any area enclosed by the perimeter (outermost) walls of the building, including restrooms, warehouse and storage space. Atriums, balconies, stairwells and other similar building features are to be considered "within a building."

- Smoking is prohibited in state/University-owned vehicles. This prohibition includes passenger vehicles and all other state-owned mobile equipment, including powered carts, light and heavy-duty trucks, cargo and passenger vans, buses, and any other mobile equipment with an enclosed or enclosable driver/passenger compartment.
- Smoking is prohibited within 25 feet of building entrances and exits, operable windows and ground-level air-intake structures.
- Smoking is prohibited within stadium seating areas, tennis courts and other recreational facilities.
- Smoking is prohibited in outdoor dining areas posted as Smoke-Free. These regulations are set forth in the University Policy on Smoking which can be found at [www-admn.csun.edu/vp/policies/125\\_admn\\_fin/350/350-50.pdf](http://www-admn.csun.edu/vp/policies/125_admn_fin/350/350-50.pdf).

### E-10. Violence in the Workplace

CSUN is committed to creating and maintaining a working and learning environment free from violence for its students and employees. Respect throughout the University for the dignity and rights of others is intrinsic to an environment free from violence.

The University has a zero-tolerance policy for violence against members of the University community. The University prohibits acts of unlawful violence or threats or unlawful violence. The University may seek injunctive relief in the event of violence or threats of violence against any individual in and on the University community or campus facility.

Existing California State University disciplinary, grievance or other complaint procedures, as appropriate, may serve as the mechanism for resolving acts of violence or threats of violence. Each allegation of an act of violence or a threat of violence will be taken seriously. Where there is reason to believe that University regulations prohibiting violence have been broken, the University may pursue disciplinary action. Such disciplinary action could include demotion, suspension or expulsion from the University for students.

## Appendix F Admission Procedures and Policies

### F-1. Importance of Filing Complete, Accurate and Authentic Application Documents

CSUN advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Requirements for admission to CSUN are in accordance with Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations. Complete information is available at [www.csumentor.edu/planning/](http://www.csumentor.edu/planning/).

### F-2. Undergraduate Application Procedures

Prospective students applying for part-time or full-time Undergraduate Programs of study in day or evening classes must file a complete undergraduate application. The \$55 non-refundable application fee should be in the form of a check or money order payable to “The California State University” or by credit card, and may not be transferred or used to apply to another term. An alternate major may be indicated on the application. The applications of persons denied admission to an impacted and/or closed campus may be rerouted to another campus at no cost, but only if the applicant is CSU-eligible.

Applying online via [www.csumentor.edu](http://www.csumentor.edu) is expected unless electronic submission is impossible. An acknowledgment will be sent when online applications have been submitted. Application in “hard copy” form may be obtained online via [www.csumentor.edu](http://www.csumentor.edu) as a portable data format (PDF). Application forms (in PDF) also may be downloaded from [www.calstate.edu/sas/publications](http://www.calstate.edu/sas/publications).

### F-3. Foreign Language Subject Requirement

The foreign language subject requirement may be satisfied by applicants who demonstrate competence in a language other than English equivalent to or higher than expected of students who complete 2 years of foreign language study. Consult with your school counselor or any CSU Campus Admission or Relations with Schools Office for more information.

### F-4. Subject Requirement Substitution for Students with Disabilities

Applicants with disabilities are strongly encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternative college preparatory courses may be substituted for specific subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant’s academic advisor or guidance counselor in consultation with the Director of a CSU Students with Disabilities Services Program. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held to 15 units of college preparatory study. Students should be aware that course substitutions may limit later enrollment in certain majors, particularly those involving mathematics. For more information and substitution forms, call the Director of the Students with Disabilities Services Program at your nearest CSU campus.

### F-5. Other Undergraduate Applicants

Applicants not admissible under the established provisions should enroll in a community college or other appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll at CSUN. Permission is granted only by special action.

### F-6. Graduate and Post-Baccalaureate Admission Requirements

All Graduate and Post-Baccalaureate applicants (e.g., Ed.D., joint Ph.D. applicants, Master’s Degree applicants, those seeking educational Credentials or Certificates, and where permitted, holders of Baccalaureate Degrees interested in taking courses for personal or professional growth) must file a complete graduate application as described in the Graduate and Post-Baccalaureate admission materials at [www.csumentor.edu](http://www.csumentor.edu). Applicants seeking a second Bachelor’s Degree should submit the undergraduate application for admission unless specifically requested to do otherwise. Applicants who completed Undergraduate Degree requirements and graduated the preceding term are required to also complete and submit an application and submit the \$55 non-refundable application fee.

Since applicants for Post-Baccalaureate Programs may be limited to the choice of a single campus on each application, rerouting to alternate campuses or later changes of campus choice are not guaranteed. To be assured of initial consideration by more than 1 campus, it is necessary to submit separate applications (including fees) to each. Applications submitted by way of [www.csumentor.edu](http://www.csumentor.edu) are expected unless submission of an electronic application is impossible. An electronic version of the CSU graduate application is available online at [www.csumentor.edu](http://www.csumentor.edu).

### F-7. Admission to Graduate Study with CSUN Bachelor’s Degree

CSUN Bachelor’s Degree graduates who plan to continue enrollment at Northridge the semester following their graduation must submit the appropriate application forms to the Office of Admissions and Records during the final semester of their undergraduate work. Determination of eligibility to continue in graduate enrollment is made by the major Department and/or the Credentials Office in conjunction with the Office of Graduate Studies.

## F-8. Impacted Programs

The CSU system designates Programs as “impacted” when more applications from CSU regularly eligible students are received in the initial filing period (October and November for Fall terms, June for Winter terms, August for Spring terms, and February for Summer terms) than can be accommodated. Some Programs are “impacted” at every campus where they are offered; others are “impacted” only at some CSU campuses. Candidates for admission must meet supplementary admission criteria if applying to an “impacted” Program or campus.

CSU will announce during the Fall filing period those Programs that are “impacted.” Detailed information on campus and Programs that are “impacted” will be available at the following websites: [www.csu-mentor.edu](http://www.csu-mentor.edu), [www.calstate.edu/impactioninfo.shtml](http://www.calstate.edu/impactioninfo.shtml) and [www.calstate.edu/sas/impaction-campus-info.shtml](http://www.calstate.edu/sas/impaction-campus-info.shtml). Campuses will communicate supplementary admission criteria for all “impacted” Programs to high schools and community colleges in their service area and will disseminate this information to the public through appropriate media. This information also will be made available online at [www.calstate.edu](http://www.calstate.edu) and published at the CSU campus individual website. For CSUN criteria, see [www.csun.edu/anr/](http://www.csun.edu/anr/).

Applicants must file applications for admission to an “impacted” Program during the initial filing period. Applicants who wish to be considered in “impacted” Programs at more than 1 campus should file an application at each campus for which they seek admissions consideration.

### Supplementary Admission Criteria

Each CSU campus with “impacted” Programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on the overall transfer GPA; completion of specified prerequisite courses; and a combination of campus-developed criteria. Applicants for freshman admission to “impacted” campuses or Programs are required to submit scores on either the SAT or the ACT. For Fall admission, applicants should take tests as early as possible, and no later than November or December of the preceding year.

The supplementary admission criteria used by the individual campuses to screen applicants appear periodically in the *CSU Review* and are made available by the campuses to all applicants seeking admission to an “impacted” Program. Details regarding the supplemental admissions criteria also are provided at [www.calstate.edu/sas/impactioninfo.shtml](http://www.calstate.edu/sas/impactioninfo.shtml).

## F-9. Hardship Petitions

The University has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should contact the Office of Admissions and Records regarding specific policies governing hardship admission.

## F-10. Determination of Residence for Non-Resident Tuition Purposes

University requirements for establishing residency are independent from those of other types of residency, such as for tax purposes or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or non-resident of California, but rather to determine whether a student should pay University fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68090, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University’s website at [www.calstate.edu/GC/resources.shtml](http://www.calstate.edu/GC/resources.shtml).

Each campus’s Admissions Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a non-resident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 1 full year prior to the residence determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case, but will include and is not limited to the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns, listing a California address on federal tax returns, owning residential property or occupying or renting an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations and maintaining a permanent military address and home of record in California.

Non-resident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial dependence on parents or others who do not meet University requirements for classification as residents for tuition purposes. Financial independence is required, along with physical presence and intent, to be eligible for reclassification.

Non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68084 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.5, and include but are not limited to members of the military and their dependents, certain credentialed employees of school districts and most students who have attended 3 years of high school in California and graduated or attained the equivalent. Whether an

exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither CSUN nor CSU Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Residency determination dates are set each term. They are:

**Quarter-Term Campuses**      **Semester-Term Campuses**

Fall quarter, Sept. 20      Fall semester, Sept. 20

Winter quarter, Jan. 5

Spring quarter, April 1      Spring semester, Jan. 25

Summer quarter, July 1      Summer term, June 1

CalStateTEACH operates on a trimester system.

**The residency determination dates for CalStateTEACH are as follows:**

Fall semester, Sept. 20

Spring semester, Jan. 5

Summer semester, June 1

Students classified as non-residents may appeal a final University decision within 120 days of notification by the University. A University residency classification appeal must be submitted in writing to:

**The California State University**

**Office of General Counsel**

**401 Golden Shore, 4th Floor**

**Long Beach, CA 90802-4210**

The Office of General Counsel can either decide the appeal or send the matter back to the University for further review. Students incorrectly classified as residents or incorrectly granted an exception from Non-Resident Tuition are subject to reclassification as non-residents and payment of Non-Resident Tuition in arrears. If incorrect classification results from false or concealed facts, the student also is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become non-residents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of Non-Resident Tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

## F-11. Average Support Cost Per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2011-2012 budget amounts were \$2,141,273,000 from state General Fund (GF) appropriations (not including capital outlay funding) and minus \$38.5 million CalPERS retirement adjustment, \$1,530,946,000 from Tuition Fee revenue net of financial aid (foregone revenue), and \$340,440,000 from other Fee revenues, for a total of \$4,012,659,000. The number of 2011-2012 budgeted FTES is 331,716 resident and 13,572 non-resident students. The GF appropriation is applicable to resident students only whereas Fee revenues are collected from resident and non-resident students. FTES is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student's academic load).

The 2011-2012 average support cost per FTES based on GF appropriation and net Tuition Fee revenue only is \$10,889, and when including all sources as indicated below is \$11,875. Of this amount, the average net Tuition Fee revenue and other income per FTES is \$5,420, which includes all Fee revenue in the CSU Operating Fund (e.g., Tuition Fees, Application Fees and other Vampus Mandatory Fees).

**Average Cost**

2011-2012 Amount per FTES Percentage

|  |                 |          |      |
|--|-----------------|----------|------|
| Total Support Cost                     | \$4,012,659,000 | \$11,875 | 100% |
| • State Appropriation <sup>1</sup>     | \$2,141,273,000 | \$6,455  | 55%  |
| • Net Tuition Fee Revenue <sup>2</sup> | \$1,530,946,000 | \$4,434  | 37%  |
| • Other Fees Revenue <sup>2</sup>      | \$340,440,000   | \$986    | 8%   |

<sup>1</sup> Represents state GF appropriation in the Budget Act of 2011-2012; GF is divisible by resident students only (331,317FTES).

<sup>2</sup> Represents CSU Operating Fund, Tuition Fee and other fees revenue amounts (net of foregone revenue) submitted in campus 2011-2012 final budgets. Revenues are divisible by resident and nonresident students (345,288 FTES).

The average CSU 2011-2012 academic year, resident undergraduate student basic Tuition Fee and other Mandatory Fees required to apply to, enroll in or attend the University is \$6,519 (\$5,472 Tuition Fee plus \$1,047 average Campus Fees). However, the costs paid by individual students will vary depending on campus, program and whether a student is part-time, full-time, resident or non-resident.

| <b>Application Filing Periods</b><br>(Not all CSU campuses/Programs are open for admission to every term.) |                                    |                              |
|--|------------------------------------|------------------------------|
| <b>Terms in 2011-12</b>  | <b>Applications First Accepted</b> | <b>Initial Filing Period</b> |
| Summer semester or quarter 2011<br>(Some campuses do not admit students to Summer term)                    | Feb. 1, 2011                       | Feb. 1-28, 2011              |
| Fall semester or quarter 2011  | Oct. 1, 2010                       | Oct. 1-Nov. 30, 2010         |
| Winter quarter 2012  | June 1, 2011                       | June 1-30, 2011              |
| Spring semester or quarter 2012  | Aug. 1, 2011                       | Aug. 1-31, 2011              |

**Filing Period Duration**

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the campus admission office for current information. Similar information is conveniently available at [www.csumentor.edu/filing\\_status](http://www.csumentor.edu/filing_status). For CSUN application filing periods, see [www.csun.edu/anr/AdmissionStatus.html](http://www.csun.edu/anr/AdmissionStatus.html).

**Application Acknowledgment**

On-time applicants may expect to receive an acknowledgment from the CSU campuses to which they have applied within 2 to 4 weeks of filing the application. The notice also may include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements and in the case of admission impaction, campus requirements for admission to an "impacted" Program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

## F-12. International (Foreign) Student Admission Requirements

### Undegraduate/Graduate

The CSU system must assess the academic preparation of foreign students. For this purpose, “foreign students” include those who hold U.S. temporary visas as students, exchange visitors or in other non-immigrant classifications.

The CSU system uses separate requirements and application filing dates in the admission of “foreign students.” Verification of English proficiency (see the section on the English Language Requirement for undergraduate and graduate applicants), financial resources and academic performance are each important considerations for admission. Academic records from foreign institutions must be on file for the first term (see the document submission deadlines published on the CSUN Office of International Admissions website at [www.csun.edu/anr/intl/apply/](http://www.csun.edu/anr/intl/apply/)), and, if not in English, must be accompanied by certified English translations.

**Application Forms and Deadlines:** The University has established deadlines to insure the timely processing of all application materials, receipt of academic records, test scores, financial affidavit and other documents so that there will be adequate time for the admitted applicant to make the necessary passport, visa and travel arrangements to reach the U.S. and the campus prior to the start of each semester.

Each applicant must have a declared educational objective (major) when the application is filed. The acceptability of any foreign work will be determined by the University. The U.S. Immigration Service requires F-1 and J-1 visa students to enroll full-time, defined as a minimum of 12 semester units for undergraduate students and 8 semester units for graduate students. International students must comply with all University and U.S. Immigration Service regulations.

### Academic Records, International Students

**Undergraduate Applicants:** Either official, original documents or certified photocopies of original documents of previous international school records are acceptable. Transfer students from U.S. institutions should request that official transcripts be mailed directly to the CSUN Office of International Admissions. Students with foreign academic work are required to submit official copies of academic records in their original language of issue, along with a certified English translation. Please do not fax academic records or translations.

Academic records should include all final and official:

- 1) Secondary school records;
- 2) Yearly records from each Post-Secondary college or university attended (if any), indicating the number of hours per semester or per year devoted to each course and the grades received; and
- 3) Official documents that confirm awarding of the Degree, Certificate or Diploma with the title and date. The Office of International Admissions will examine all records to determine if they are adequate and will inform applicants if additional records are required.

The evaluation of all documents is made in the Office of International Admissions to determine that applicants have had an education comparable to that required of California high school graduates or students transferring to the University from other institutions of higher education in the U.S.

**Graduate/Post-Baccalaureate Applicants:** Post-Baccalaureate or graduate applicants must furnish the same materials as those required of undergraduate applicants described above. Admission of foreign graduate students will involve consultation with the graduate advisor from the Department or College to which the student is applying for study. Scholastically eligible foreign graduate students may be admitted, dependent upon the preparation of the student as assessed by the Office of International Admissions and the graduate advisor of the appropriate College or Department. For further information, consult the Office of International Admissions, the website [www.csun.edu/anr/intl/](http://www.csun.edu/anr/intl/) and the “Graduate Programs” section of the Catalog.

**English Language Proficiency:** All undergraduate international applicants, regardless of citizenship, whose native language is not English and who have not attended schools at the secondary level or above for at least w years full-time where English is the principal language of instruction must present a score of 61 or above on the Internet-based Test of English as a Foreign Language (TOEFL). Applicants taking the computer-based Test of English as a Foreign Language must present a score of 173 or above. Some majors may require a higher score.

All graduate and Post-Baccalaureate international applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a Bachelor’s Degree from a Post-Secondary institution where English is the principal language of instruction must receive a minimum score of 79/80 on the Internet-based Test of English as a Foreign Language (TOEFL) or a score of 213 or above on the computer-based TOEFL. Some Departments or Programs require a higher score for admission.

Some CSU campuses also may use alternative methods of assessing English proficiency, including the Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS) and the International Test of English Proficiency (ITEP). Each campus will post the tests it accepts on its website and will notify students after they apply about the tests accepted and when to submit scores.

CSU minimum TOEFL standards are:

|               | <b>Internet</b> | <b>Paper</b> |
|---------------|-----------------|--------------|
| Undergraduate | 61              | 500          |
| Graduate      | 80              | 550          |

For alternative tests of English proficiency accepted by CSUN, see the International Admissions webpage “I Want to Apply” at [www.csun.edu/anr/intl/apply/](http://www.csun.edu/anr/intl/apply/).

**Finances, International Students:** CSUN has no financial aid for international students. For this reason, foreign students must detail precisely how they intend to finance their studies. If an applicant expects to receive financial support from his/her government or other sponsoring agencies, he/she is required to fully document these facts by completing the Financial Statement and Affidavit available online at [www.csun.edu/anr/forms/affidavit.pdf](http://www.csun.edu/anr/forms/affidavit.pdf).

Part-time employment opportunities, although not plentiful, are available on campus. International visa students may receive on-campus work clearance in the Office of International and Exchange Student Center at the start of their first semester of study. U.S. Citizenship and Immigration Services regulations prohibit off-campus employment of international students in the U.S. without prior permission.

### F-13. Immigration Requirements for Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L.104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state or federal government agency in order to engage in an occupation for which the CSU system may be training them must meet the immigration requirements of the Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure.

Information concerning the regulation these requirements are available from:

**International and Exchange Student Center**  
**University Student Union, Building C**  
**18111 Nordhoff St.**  
**Northridge, CA 91351**  
**(818) 677-3053**

### F-14. Appeal of Admission Decision

Section 89030.7 of the California Education Code requires the CSU system to establish specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing decisions to deny an applicant admission to the University. Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of 1 appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted and must be published on the campus website. For the CSUN admissions appeals process, see [www.csun.edu/anr/appeals.html](http://www.csun.edu/anr/appeals.html).

### F-15. Reservation

The University reserves the right to select its students and deny admission to the University or any of its Programs. The University, in its sole discretion, determines appropriate admission permission based on an applicant's suitability and the best interests of the University.

### F-16. Systemwide Placement Test Requirements: ELM and EPT

The CSU system requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate Programs and activities prior to and/or during the first term of their enrollment. Students will be placed in appropriate courses by their academic advisor in either English and/or mathematics and must complete all course work in their first year of enrollment. Failure to complete this course work by the end of the first year may result in denial of enrollment for future terms. Students are to register for the EPT and/or ELM on the ETS website at [www.ets.org/csu](http://www.ets.org/csu). For more information about the tests, test dates and online registration, contact the CSUN Testing Center, Bayramian Hall, room 190, (818) 677-2369, [www.csun.edu/testing/placement/](http://www.csun.edu/testing/placement/).

An ELM score of 32 or below will require students to take 2 developmental mathematics courses at CSUN. A score of 34 or above but below 50 will require students to take 1 developmental mathematics course at CSUN.

An EPT score of 141 or below will require students to enroll in Stretch Composition 113A and 113B and corresponding mandatory Supplemental Instruction (SI) labs.

### F-17. Upper-Division Writing Proficiency Exam (UDWPE)

All students must demonstrate competency in writing skills as a requirement for graduation. Information on how to meet this requirement may be obtained at [www.csun.edu/udwpe](http://www.csun.edu/udwpe) and [www.csun.edu/testing/upper/](http://www.csun.edu/testing/upper/).

At CSUN, all students who have met the Lower Division writing requirements, completed 56 units or more, and intend to graduate with a Baccalaureate or Master's Degree are required to pass an essay examination as a demonstration of their proficiency in writing.

Undergraduate students are required to take the UDWPE no later than the semester in which they complete 75 units. Transfer students entering the University who will have completed 75 units by the end of their first semester must attempt the examination during their first semester at CSUN. Students who have not taken the UDWPE by the completion of 75 units will have a registration hold placed on their subsequent registration.

See [www.csun.edu/testing/upper](http://www.csun.edu/testing/upper) for test dates, test fee and registration information. The website also describes the type of payment accepted, identification requirements, other regulations that must be followed for the exam, essay scoring and how to obtain your scores. All registrations, including accommodation requests, must be submitted prior to reaching exam capacity. Scores are available through the student's myNorthridge Portal approximately 4 to 6 weeks after test administration.

### F-18. Mathematics Placement Test (MPT)

The Mathematics Placement Test (MPT) is a CSUN Department exam used to determine eligibility for enrollment in MATH 102, 103, 104, 105, 150A and 255A. The MPT must be taken within 2 semesters preceding enrollment in the courses. It can be taken only once in a 4-week period. The MPT does not replace the ELM requirement, but is used in addition to the ELM to determine eligibility for enrollment.

The test consists of 2 parts: Part I and Part II. MPT Part I is 75 minutes long and consists of 45 multiple-choice questions on intermediate algebra. The MPT Part II is 75 minutes long and consists of 40 multiple-choice questions based on trigonometry and advanced topics from intermediate algebra.

Students must register online for the Mathematics Placement Test at least 1 week prior to the test date. Space is limited. Registration will close when capacity has been met. See [www.csun.edu/testing/deptexams/mpt.htm](http://www.csun.edu/testing/deptexams/mpt.htm) for test dates, test fee and registration information. The website also describes the type of payment accepted, identification required, other regulations that must be followed for the test, the qualifying scores required for specific CSUN Math classes and how to obtain your scores.

Students are advised to visit the Mathematics Diagnostic Placement Testing website (<http://mdtp.ucsd.edu/OnLineTests.shtml>) and take the free online sample tests to help prepare for the CSUN MPT. The MR test is similar to the MPT Part I, and the CR test is similar to the MPT Part II.

### F-19. Chemistry Placement Test (CPT)

The Chemistry Placement Test (CPT) is a CSUN Department exam used to determine eligibility for enrollment in CHEM 101. Students planning to enroll in CHEM 101 must satisfy 1 of the following requirements prior to registration:

- Satisfactory score of 40 or higher on the CSUN CPT;
- Score of 3, 4, or 5 on the College Board Advanced Placement Test in Chemistry;
- Score of 50 or higher on the General Chemistry Exam of the College Level Examination Program (CLEP); or
- Grade of “C” or higher (“C-” is unacceptable) in CHEM 100\* taken at CSUN.

*\*Successful completion of the ELM requirement is a prerequisite for enrollment in CHEM 100.*

The CPT is a 55-minute, 3-part test. PART I (20 points) covers elementary algebra, including exponential notation. PART II (20 points) deals with general chemical knowledge. PART III (20 points) deals with specific chemical knowledge. The CPT can be taken only once in a 4-week period. Students who earn a CPT score below 40 should not retake the test, but instead enroll in CHEM 100 to prepare for CHEM 101 the following semester.

Students must register online for the CPT at least 1 week prior to the test date. Space is limited. Registration will close when capacity has been met. See [www.csun.edu/testing/deptexams/cpt.htm](http://www.csun.edu/testing/deptexams/cpt.htm) for test dates, test fee and registration information. The website also describes the type of payment accepted, identification requirements, other regulations that must be followed for the test and how to obtain your scores.

### F-20. Health Screening (CSU Immunization Requirements)

Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

**Measles and Rubella:** All new and readmitted students born after Jan. 1, 1957, must provide proof of full immunization against measles and rubella prior to enrollment.

**Hepatitis B:** All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of 3 timed doses of vaccine over a minimum period of 4 to 6 months. If you need further details or have special circumstances, consult the Student Health Center.

**Meningococcal Disease Information:** Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent contracting the disease, and indicating whether or not the student has chosen to receive the vaccination.

The above are not admission requirements, but are required of students as conditions of enrollment at any CSU campus.

### F-21. Degree Progress Report (DPR)

The Office of Admissions and Records evaluates previous college work in relation to Degree requirements at CSUN. Entering transfer students who have submitted all final official transcripts and test scores have access to a Degree Progress Report (DPR). The DPR indicates how incoming transferable course work completes the Baccalaureate Degree requirements at the University. The DPR Report will convert quarter units of credit transferred to the University to semester units by multiplying quarter-unit totals by two-thirds.

The DPR also displays remaining requirements needed for completion of the Degree based on the student's major at entrance. During their studies at the University, students can track their progress toward graduation by logging into the myNorthridge Portal to view and/or print their DPR at any time. Students should consult an advisor in their major Department who will assist them in the selection of courses. Students who have yet to declare a major should seek advisement in the Advising Resource Center/EOP.

### F-22. Credit for Work Taken at Community Colleges

Credit earned in accredited community colleges will be evaluated by the Office of Admissions and Records in accordance with the following provisions:

1. Community college credit is allowed up to a maximum of 70 semester units. Credits and grades earned after the student has the maximum allowable may only satisfy subject and GPA requirements but cannot apply toward the total units required for graduation from the University.
2. No Upper Division credit may be earned for community college work.
3. No credit may be allowed for professional courses in education taken in a community college, other than an introduction to education course. The University publishes a series of articulation agreements with local California community colleges outlining how course work at the community college applies to CSUN requirements, both in the major and in General Education. These are available online at the Articulation System Stimulating Interinstitutional Student Transfer (ASSIST) website at [www.assist.org](http://www.assist.org). ASSIST is the official repository of articulation for California's public colleges and universities.

Students who transfer to CSUN from a California community college may have up to 39 semester units of their General Education Program certified. Such certification will be recognized within the limits published by the CSU Chancellor. General Education certified students need to complete General Education residence and Upper Division General Education requirements (see Undergraduate Programs, General Education).

Transfer students from California community colleges are urged to consult their community college counselors for assistance in determining the extent to which they meet that college's General Education certification program and should send a final transcript to CSUN showing Certification. That certification will then be reflected on the Degree Progress Report.

### F-23. Credit/No Credit Work

A maximum of 18 semester units with restrictions may be applied toward the Bachelor's Degree for CSUN "Credit/No Credit" graded courses. If 18 or more semester "Credit/No Credit" graded units are accepted in transfer from other institutions, no additional "Credit/No Credit" graded CSUN courses may be used to satisfy Degree requirements.

### F-24 CSU English Equivalency Examination

The English Equivalency Examination is an examination offered by the CSU system. It is administered each Spring on various campuses to prospective freshmen. Students who pass both the objective and essay portions of the examination are exempted from the English Placement Test (EPT) and granted 6 semester units of University credit equivalent to English 155 and 255. Some students do not receive unit credit for the English Equivalency Examination, but score well enough to be exempted from the English Placement Test.

### F-25. Restrictions on Exam Credit

No credit for any of the foregoing examinations will be awarded to a student who has: 1) taken the examination previously within the past term; 2) earned equivalent credit through regular course work, credit by another examination or other instructional processes, such as correspondence; and/or 3) earned credit previously at a level more advanced than that represented by the examination in question.

Credit will not be awarded for examinations that overlap other examinations or college-level courses. Where partial overlap exists, the amount of examination credit will be reduced accordingly.

The total amount of credit earned on the basis of externally developed tests that may be applied to a Baccalaureate Degree cannot exceed 30 semester units, exclusive of credit for Advanced Placement Examinations. In no case will credit so awarded count toward residence credit.

### F-26. Other Credit

Credit for Extension and Correspondence Courses:

The maximum amount of credit through correspondence courses and/or extension courses allowed toward the Bachelor's Degree is 24 units. The maximum allowed toward the Master's Degree is 9 units. Extension course credit does not apply toward the residence requirement at CSUN. Extension courses numbered 800 do not carry any credit toward CSUN graduation or Credential requirements.

Extension courses from other accredited educational institutions must have been acceptable for credit at the parent institution for the Baccalaureate Degree. The nature of the credit for the Degree at CSUN will be determined by the appropriate academic Departments.

Credit for Prior Learning: Credit for Prior Experiential Learning is recognized on an individual course -quivalency basis at CSUN and appropriate credit is provided through the Departmentally administered Credit by Challenge Examination policies and procedures. (Students should be aware, however, that policies for earning credit for prior learning vary from campus to campus in the CSU system.)

Non-Collegiate Sponsored Courses of Instruction: CSUN grants Undergraduate Degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the Baccalaureate Degree that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Credit for Military Service: CSUN grants elective undergraduate credit to veterans who have completed basic training in the U.S. Armed Forces. A maximum of 24 extension course units may be allowed for Baccalaureate-level course credit certified by the Defense Activities in Nontraditional Education Support (DANTES). Courses taken in service schools may be given credit on the basis of an evaluation that determines they are of university-level and recommended for credit by the Center for Adult Learning and Educational Credentials of the American Council on Education. Records verifying such experience must be filed with the Office of Admissions and Records.

### F-27. Availability of Institutional and Financial Assistance Information

Colleges and universities are required to provide current and prospective students with various disclosures and notifications concerning specific campus policies and programs. CSUN maintains a University Disclosures website at [www.csun.edu/anr/disclosures](http://www.csun.edu/anr/disclosures) through which students and the general public can easily access this important information. Paper copies are available upon request.

The following information concerning student financial assistance may be obtained from the Financial Aid and Scholarship Department online at [www.csun.edu/financialaid/](http://www.csun.edu/financialaid/) or by calling (818) 677-4085:

1. A description of the federal, state, institutional, local and private student financial assistance programs available to students who enroll at CSUN;
2. For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants and criteria for determining the amount of a student's award;
3. A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
4. The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
5. The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
6. The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule and the necessity for repaying loans;
7. The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
8. The terms and conditions of the loans students receive under the Direct Loan and Perkins Loan Programs; and
9. The exit-counseling information the school provides and collects for student borrowers.

Information concerning the cost of attending CSUN is available from the Financial Aid and Scholarship Department website at [www.csun.edu/financialaid/basics/cost.php](http://www.csun.edu/financialaid/basics/cost.php) or by calling (818) 677-4085, and includes tuition and other fees; the estimated costs of books and supplies; estimates of typical student room, board and transportation costs; and, if requested, additional costs for specific Programs. Information concerning the refund policies of CSUN for the return of unearned Tuition and Fees or other refundable portions of institutional charges is available from University Cash Services at <http://www-admn.csun.edu/ucs> or by calling (818) 677-3000, Option 3.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation is available from the Financial Aid Office at [www.csun.edu/financialaid/basics/affects\\_withdrawal.php](http://www.csun.edu/financialaid/basics/affects_withdrawal.php) or phone (818) 677-4085.

Information regarding special facilities and services available to students with disabilities may be obtained from Disability Resources and Education Services, Bayramian Hall (BH), room 110, (818) 677-2684, [www.csun.edu/dres/](http://www.csun.edu/dres/).

Criminal actions and other emergencies occurring on campus should be reported immediately to the Department of Police Services by calling (818) 677-2111, dialing 911 from campus phones, using "blue light" emergency telephones or yellow TTY enabled emergency call boxes, in person at the University Police Department located at the corner of Darby Avenue and Prairie Street or by contacting a Police

Officer on patrol. A confidential “We Tip” line also is available at (818) 677-TIPS (8477). Additionally, for certain crimes, you may file a police report online 24 hours a day, 7 days a week. More information about filing a report online can be found at [www-admn.csun.edu/police/onlinereport/start-report.html](http://www-admn.csun.edu/police/onlinereport/start-report.html)

Information concerning the CSUN Annual Security and Fire Safety Report (Clery Act) may be obtained from the Department of Police Services, (818) 677-3224. This report contains statistics for the previous 3 years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by CSUN; and on public property within or immediately adjacent to and accessible from the campus. This report is available to the CSUN community both online at [www-admn.csun.edu/police/clery-report.pdf](http://www-admn.csun.edu/police/clery-report.pdf) and in person. If you would like to receive a hard copy of the report, stop by the Department of Police Services at the corner of Darby Avenue and Prairie Street, or you can request that a copy be mailed to you by calling the Records Unit at (818) 677-5343 or sending email to [erika.plummer@csun.edu](mailto:erika.plummer@csun.edu).

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Klotz Student Health Center, (818) 677-3685, [www.csun.edu/~shcenter/education/drugs.htm](http://www.csun.edu/~shcenter/education/drugs.htm). Information regarding student retention and graduation rates at CSUN and, if available, the number and percentage of students completing the Program in which the student is enrolled or has expressed interest may be obtained from the Office of Institutional Research, (818) 677-3277, [www.collegeportraits.org/CA/CSUN/](http://www.collegeportraits.org/CA/CSUN/).

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSUN dedicates to its men’s and women’s teams may be obtained from Office of Intercollegiate Athletics, (818) 677-3208, [www.gomatadors.com/landing/](http://www.gomatadors.com/landing/).

Information concerning Teacher Preparation Programs at CSUN may be obtained from the Michael D. Eisner College of Education, (818) 677-2594, [www.csun.edu/education/](http://www.csun.edu/education/).

Information concerning grievance procedures for students who feel aggrieved in their relationships with the University; its policies, practices and procedures; or its faculty and staff may be obtained from the Office of the Vice President for Student Affairs, (818) 677-2391, [www.csun.edu/studentaffairs/students/appeals.htm](http://www.csun.edu/studentaffairs/students/appeals.htm).

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within 30 days of their 18<sup>th</sup> birthday. Most males between the ages of 18 and 25 must be registered. Males born after Dec. 31, 1959, may be required to submit a statement of compliance with the Act and regulations to receive any grant, loan or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register also are ineligible to receive any need-based student grants funded by the state or a public Post-Secondary institution.

Selective Service registration forms are available at any U.S. Post Office and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid also can request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at [www.sss.gov](http://www.sss.gov).

## Appendix G. University Regulations

### G-1. Appeal of Undergraduate University Regulations

Undergraduate students seeking to appeal regulations other than course requirements in their Major or Minor should obtain the DPR Review Request form online at the CSUN Admissions and Records website or from the Office of Admissions and Records, and return the completed form to Admissions and Records for review and consideration by appropriate campus officials. Seniors who have applied for graduation and are requesting substitution or waiver of requirements in their Major or Minor should discuss the possible substitution or waiver with their Department Chair. The Department Chair will send the form to the student’s graduation evaluator in Admissions and Records. Many regulations are not subject to appeal or amendment because of provisions of Title V of the California Code of Regulations. Examples of regulations that are not subject to modification by the University include limitations on extension and community college credit and the “C” GPA required for graduation.

### G-2. Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in the Catalog, students and others who use the Catalog should note that laws, rules and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature; rules and policies adopted by the Board of Trustees of the California State University system, by the CSU Chancellor or designee of the California State University; or by the President or designee of CSUN. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution and the CSU system. More current or complete information may be obtained from the appropriate Department, College or administrative office.

Nothing in this Catalog will be construed as, operate as or have the effect of an abridgment or a limitation of any rights, powers or privileges of the Board of Trustees of the California State University system, the CSU Chancellor or the CSUN President. The Trustees, the Chancellor and the President are authorized by law to adopt, amend or repeal rules and policies that apply to students. This Catalog does not constitute a contract or the terms and conditions of a contract between the student and the University or the CSU system. The relationship of students to the University and the CSU system is one governed by statute, rules and policy adopted by the Legislature, the Trustees, the CSU Chancellor, the campus Presidents and their duly authorized designees.

### G-3. Catalog Production

The University Catalog is prepared by the Office of Undergraduate Studies. It is available at the University Library for reference and at [www.csun.edu/catalog](http://www.csun.edu/catalog) for downloading.

## Appendix H. Other Policies

### H-1. Second Bachelor's Degree Requirements

A Post-Baccalaureate student who holds a recognized Bachelor's Degree from an accredited institution may pursue a Program leading to a second Bachelor's Degree in approved majors. The major may not be the same as the previously awarded Degree. All students are urged to consult with a Department advisor to determine whether a second Bachelor's Degree or a Graduate Program best meets their needs. For second Bachelor's Degree admission requirements, see [www.csun.edu/anr](http://www.csun.edu/anr), locate "I Want to Apply" and select "Second B.A. or B.S. Students."

#### CSUN Graduates:

Students seeking a second Bachelor's Degree from CSUN, after having received a Baccalaureate Degree from the University, must:

1. Complete a minimum of 24 Upper Division units in residence at CSUN since completion of the most recent Degree, of which at least 12 Upper Division units in residence must be in the major. Completion of the major may require more than 12 units;
2. Complete the Upper Division writing proficiency requirement. *Note: Second Bachelor's students in the Nursing Major do not need to complete the Upper Division writing proficiency requirement;*
3. Complete all units required in the major. Graduate-level courses (600-level) may not be applied toward second Bachelor's Degree requirements, nor can course work taken to meet the second Bachelor's Degree apply toward a Master's Degree;
4. Maintain a minimum GPA of 2.0 in the major and 2.0 in all units attempted at CSUN since the awarding of the last Degree; and
5. File an undergraduate application for graduation and diploma.

#### Transfer Graduates:

Students seeking a second Bachelor's Degree from CSUN, after having received a Baccalaureate degree from another accredited institution, must:

1. Complete at least 30 units in residence at CSUN since completion of the first Bachelor's Degree, including 24 Upper Division units in residence and at least 12 Upper Division units in residence in the major. Completion of the major may require more than 12 units;
2. Complete the Upper Division writing proficiency requirement. *Note: Second Bachelor's students in the Nursing Major do not need to complete the Upper Division Writing Proficiency requirement;*
3. Complete all units required in the major. Graduate-level courses (600-level) may not be applied toward second Bachelor's Degree requirements, nor can course work taken to meet the second Bachelor's Degree apply toward a Master's Degree;
4. Maintain a minimum GPA of 2.0 in the major and 2.0 in all units attempted at CSUN since the awarding of the last Degree; and
5. File an undergraduate application for graduation and diploma.

### H-2. Applying for Your Second Bachelor's Degree

Your application for the Bachelor's Degree and diploma initiates the graduation process, participation in commencement, and receipt of your diploma.

#### Follow these steps:

1. Print and complete the Application for Bachelor's Degree and Diploma form located at [www.csun.edu/anr/forms/applba.pdf](http://www.csun.edu/anr/forms/applba.pdf).
2. Schedule an appointment with a major advisor. Bring your Application for Bachelor's Degree and Diploma to your advising session to discuss the major curriculum, major Catalog year and your anticipated graduation date (3 official graduation dates: Fall, Spring or Summer). If you plan to graduate with a minor, include the additional minor and the Catalog year on the application. Secure the advisor's signatures for the major and/or minor on the application.
3. Submit your completed Application for Bachelor's Degree and Diploma, a Department evaluation from the major and/or minor Department and the appropriate fee to the Office Admissions and Records at the Student Services Center in Bayramian Hall.

Deadline dates for filing Application for Bachelor's Degree and Diploma forms are published each semester on the Graduation Services website at [www.csun.edu/anr/grad](http://www.csun.edu/anr/grad). If you apply after the published deadline, there will be a late fee of an additional \$10. Paying the late fee does not guarantee you will receive your graduation evaluation prior to your last semester.

*Note: Applying after the filing period deadline may delay receipt of your graduation evaluation and your graduating senior status priority registration appointment time. Commencement participation could be affected.*

### H-3. Second Bachelor's Honors at Graduation

To receive Honors at graduation, a second Bachelor's student must:

1. Complete a minimum of 45 units of work in letter-graded courses at CSUN;
2. Earn a GPA of 3.50 or above in all work taken at CSUN; and
3. Earn the following GPA in all undergraduate and Post-Baccalaureate courses, including transfer work.

Summa Cum Laude            GPA of 3.90 or above

Magna Cum Laude        GPA of 3.75 to 3.89

Cum Laude                GPA of 3.50 to 3.74

For questions about Honors at Graduation, visit the Office of Admissions and Records-Undergraduate Degree Services in Bayramian Hall (BH), room 150, or call (818) 677-3781.

**H-4. International Baccalaureate (IB)**

International Baccalaureate (IB) courses designated as Honors Courses on the UC/CSU “A-G” college preparatory subjects list are awarded extra grade points for computation of the high school GPA. To be awarded advanced standing credit for successful performance, the IB test must be higher level (HL) and have a score of 4 or higher. IB tests with standard level (SL) or any other designator are not acceptable as college-level. Transcripts, certificates or diplomas with IB test results should be sent to Admissions and Records.

**H-5. International Baccalaureate (IB) Exam Credit**

| <b>IB Exam</b>                           | <b>Score</b> | <b>Semester Units Allowed</b> | <b>CSUN Course Equivalent</b>     | <b>General Education Plan R Application</b>               |

Additional courses at appropriate level and score may be accepted upon review. Contact the Office of International Admissions and Evaluations for more information at (818) 677-3760.

### H-5. Academic Renewal

The Trustees of The California State University system have established a program of Academic Renewal whereby students who are having difficulty meeting graduation requirements due to a GPA deficiency may petition to have up to 2 semesters or 3 quarters of previous college work discounted from all considerations associated with meeting requirements for the Baccalaureate Degree. Academic Renewal is intended only to facilitate graduation from CSUN and is not applicable for individuals who already possess a Baccalaureate Degree or who meet graduation requirements without the approval of a petition for Academic Renewal. Conditions: In order to qualify for Academic Renewal all of the following conditions established by the Trustees must be met:

1. Students must present evidence in the petition that the course work to be disregarded was standard and not representative of their present scholastic ability and level of performance due to extenuating circumstances.
2. Students must present evidence that if the petition is denied it would be necessary for them to enroll in additional course work involving 1 or more additional terms in order to qualify for graduation. Students should include the specific course work or requirements involved. Normally, students should have completed 90 units prior to filing the petition.
3. 5 years must have elapsed since the term or terms to be disregarded were completed. Terms taken at any institution may be disregarded.
4. Since completion of the term(s) to be disregarded, students must have completed coursework at CSUN with at least one of the following:
  - a. 15 semester units with at least a 3.0 GPA;
  - b. 30 semester units with at least a 2.5 GPA; or
  - c. 45 semester units with at least a 2.0 GPA.

If and when the petition is granted, the student's permanent academic record will be annotated so that it is readily evident to all users of the record that no work taken during the disregarded term(s), even if satisfactory, will apply toward Baccalaureate graduation requirements. However, all work will remain legible on the record to insure a true and complete academic history.

A final decision on the petition will be made by the Academic Renewal Review Committee. The Committee will review petitions only if all of the basic requirements (indicated above) have been met. Normally, students will be notified of the decision within 60 days after the completed petition is submitted.

Petition Procedures: Students must take the following steps to petition for Academic Renewal:

1. Obtain Departmental approval on the Application for Graduation and Diploma available at the Bayramian Hall Student Services Center or online at [www.csun.edu/anr/forms](http://www.csun.edu/anr/forms) for a precise evaluation of graduation requirements;
2. Obtain an Undergraduate Petition form, available at the Bayramian Hall Student Services Center or online at [www.csun.edu/anr/forms](http://www.csun.edu/anr/forms); and
3. Complete the petition, indicating the specific terms that are requested to be discounted. In the "reason" section of the petition students must write a specific statement concerning each of the 4 conditions listed above.

### H-6. Student Outcomes Assessment Policy

Students may be included in outcomes assessment projects. Among the types of assessment methods that might be used are portfolios, capstone seminars, certification examinations, senior papers, juried performances, productions, recitals and art shows, research projects or supervised field experiences. Departments may have other assessment projects of this kind that are unique to their particular subject(s).

- The project must have curricular value and must be meaningful in the context of the major.
- Preferably, the project will be adapted from or included in an existing Program requirement or course.
- Students will have a high stake in the outcome of the project that can be, at the initiative of the Department and if necessary at the approval of the Educational Policies Committee, a graduation requirement or part of a required course.
- The project will evaluate competence in the major and relevant basic skills.
- To the extent feasible, the project should be organized to give Programs and the University visibility in the community and professional world. Therefore, Departments and Programs are encouraged to actively seek sources outside the University, including alumni and employees, for involvement in all stages of assessment.
- Results of assessment activities should reflect on the Program or Department, rather than on individual faculty.
- Results of the assessment should be reported as part of the Program review and should be considered in other curricular reform projects. They can be shared with the public through appropriate media.

### H-7. Credit Hour

As of July 1, 2011, federal law (600.2 and 600.4) requires all accredited institutions to comply with the federal definition of the credit hour. For all CSU Degree Programs and courses bearing academic credit, the "credit hour" is defined as "the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. 1 hour of classroom or direct faculty instruction and a minimum of 2 hours of out-of-class student work each week for approximately 15 weeks for 1 semester or trimester hour of credit; or 10 to 12 weeks for 1 quarter hour of credit; or the equivalent amount of work over a different amount of time; or
2. At least an equivalent amount of work as required in paragraph 1 of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours."

A credit hour is assumed to be a 50-minute period. In courses, in which "seat time" does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

### H-8. Class Levels (Class Standing)

Undergraduate students are classified according to the number of units completed, calculated as follows:

| Status    | Units Completed |
|-----------|-----------------|
| Freshman  | 0-29            |
| Sophomore | 30-59           |
| Junior    | 60-89           |
| Senior    | 90-plus         |

**H-9 CLEP Examination**

| Western Civilization II                | 50     | 3 units No Equivalency                  | 3 units in Arts and Humanities <i>or</i> Social Sciences  |

*\*If a student passes more than one CLEP test in the same language other than English (e.g., 2 exams in French), then only 1 examination may be applied to the Baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns 6 units of Baccalaureate credit. The higher score listed for each test is considered "Level II" and earns additional units of credit.*

| U.S. History                                   | 3,4,5 | 6 units  | HIST 270 and 271                  | 3 units Title 5, U.S. History requirement (includes HIST majors for HIST 270 or 271) |
| World History                                  | 3,4,5 | 6 units  | HIST 110 and 111                  | 6 units Social Sciences (not HIST majors)  |

<sup>1</sup>Maximum of 6 units allowed for completion of both Computer Science A and Computer Science AB examinations.

<sup>2</sup>Students with credit for AP English Literature and Comp should not take ENGL 115 or equivalent course.

<sup>3</sup>Maximum of 10 units allowed for completion of both Mathematics Calculus AB and BC examinations.

<sup>4</sup>Maximum of 8 units allowed for completion of both Physics B and C examinations.

## Faculty and Administration

- Abara, Jose P. (2007)** Lecturer in Psychology. B.A. 2002, California State University, Northridge; M.A. 2002, Ph.D. 2006, State University of New York at Buffalo.
- Abourezk, Tami L. (1990)** Professor of Kinesiology. B.S. 1984, Lander College; M.S. 1986, Ph.D. 1990, Florida State University.
- Abramowitz, Karen, JS.I./Tutor Programs Coordinator, Learning Resource Center.** B.A. 1973, University of California, Los Angeles; M.A. 2002, CSU, Northridge.
- Abrego, Bernardo (2001)** Professor of Mathematics. B.S. 1995, National University of Mexico; Ph. D. 2001, Rutgers University.
- Ackerman, David (1998)** Professor of Marketing. B.A. 1983, University of Chicago; M.B.A. 1987, University of Texas; Ph.D. 1999 University of Southern California.
- Adams, Elizabeth T. (2006)** Senior Director, Undergraduate Studies; Professor of Liberal Studies. B.A. 1989, American University; M.A. 1991, American University; M.A. 1994, University of California Los Angeles; Ph.D. 1999, University of California, Los Angeles.
- Adams, Janet (1991)** Professor of Physical Therapy. B.S. 1976, University of Illinois; M.S. 1987, DPT 1996, University of Southern California.
- Adams, John P. (1989),** Professor of Modern and Classical Languages and Literatures. A.B. 1968, Fordham University; M.Ph. 1971, Ph.D. 1976, Yale University.
- Adelman, Elaine (1997)** Lecturer in Elementary Education. B.A. 1962 Brooklyn College; M.A. 1989 CSU, Northridge.
- Affif, Marianne H. (2005)** Associate Dean, University Library; Librarian, Technical Services. B.A. 1979, M.B.A. 1981, University of Southern California; M.L.S. 1993, University of California, Los Angeles.
- Ainsworth, Andrew (2006)** Associate Professor of Psychology. B.A. 1999, M.A., 2002, California State University, Northridge; Ph.D. 2007, University of California, Los Angeles.
- Aks, David M. (1988)** Professor of Music. B.Mus. 1972, M.Mus. 1972, Oberlin College.
- Alanen, Jack (2000)** Professor of Computer Science. B.S. 1960, M.S. 1962, Case Institute of Technology; M.S. 1966, Ph.D. 1972, Yale University.
- Alekseenko, Alexander (2003)** Associate Professor of Mathematics. B.S. 1993, M.S. 1995, Ph.D. 1999, Novosibirsk State University.
- Alfano, Edward C. (1989)** Professor of Art. A.B. 1971, Shimer College; M.S. 1976, Northeastern University.
- Allen, Larry G. (1982)** Professor of Biology. B.A. 1974, M.A. 1976, CSU, Fullerton; Ph.D. 1980, University of Southern California.
- Alpaskan, Can M. (2004)** Associate Professor of Management. B.S. 1992, Middle East Technical University; M.B.A. 1995, Bilkent University; Ph.D. 2004, University of Southern California.
- Alva, Sylvia A. (2008)** Dean, College of Health and Human Development. B.A. 1981, California State University, Los Angeles; M.A. 1984, Ph.D. 1988, University of California Los Angeles.
- Alviso, J. Ric (2000)** Professor of Music. B.A. 1982, CSU, Long Beach; M.A. 1993, Ph.D. 2002, University of California Los Angeles.
- Amini, Ali (1985)** Professor of Electrical and Computer Engineering. B.S. 1974, San Jose State University; M.S. 1976, San Jose State University; EEE 1977, University of Southern California; M.S. 1978, University of Southern California; Ph.D. 1982, University of Southern California.
- Anderson, Karen (1971)** Librarian, Reference and Instructional Services. B.A. 1970, M.L.S. 1971, University of California, Los Angeles; M.B.A. 1977, Pepperdine University.
- Andraus, Susan A. (2002)** Director of Development, College of Engineering and Computer Science. B.A. 1973, Northern Arizona University.
- Andrews, Scott D. (2000)** Professor of English. B.A. 1987, University of Oklahoma; M.A. 1993, Ph.D. 2000, University of California, Riverside.
- Anscombe, Floyd W. (1976)** Staff Physician, Student Health Center. M.D. 1975, University of California, Irvine, College of Medicine.
- Appelrouth, Scott (2000)** Associate Professor of Sociology. B.S. 1986, Virginia Commonwealth University; M.A. 1994, Ph.D. 2000, New York University.
- Aragon, Raul (1991)** Assistant Director, Center for Academic Preparedness. B.S. 1969, CSU, Northridge.
- Arimitsu, Tokuroh (1985)** Professor of Art. B.A. 1968, Marian College; M.A. 1970, Kent State University; Ph.D. 1982, Texas Technology University.
- Asef-Vaziri, Ardavan (2003)** Associate Professor of Systems and Operations Management. B.S. 1974, Arya Mehr University of Technology; M.S. 1977, University of Southern California; Ph.D. 1997, University of Toronto.
- Asgari, Laila L. (2003)** Manager Academic Resources, Mike Curb College of Arts, Media, and Communication; Interim Director of Finance and Operations, Valley Performing Arts Center. B.S. 1988, M.B.A. 2000, CSU, Northridge.
- Ashley, Wendy, (2008)** Assistant Professor of Social Work. B.A. 1993, UC Riverside; MSW 1995, University of Southern California; Psy.D. 2006, Ryokan College.
- Ashton, Tamarah M. (1998)** Associate Professor of Special Education. B.M. Ed. 1984, Western Michigan University; M.S. 1988, M.A. 1990, San Diego State University; Ph.D. 1997, Claremont Graduate University.
- Atias, Bernardo A. (1994)** Professor of Communication Studies. B.S. 1988, Northwestern University; Ph.D. 1997, University of Iowa.
- Auerbach, Jeffrey A. (2000)** Professor of History. B.A. 1987, Oberlin College; M.A. 1995, Ph.D. 1995, Yale University.
- Auerbach, Susan (2003)** Associate Professor of Educational Leadership and Policy Studies. B.A. 1978, University of Chicago; M.A. 1984, University of Washington; Ph.D. 2001, University of California, Los Angeles.
- Augustin, Frankline (2011)** Assistant Professor of Health Sciences. B.A. 1995, M.S. 2005, California State University, Northridge; D.P.P.D. 2010, University of Southern California.
- Ayala-Alcantar, Christina (2001)** Professor of Chicana/o Studies. B.A., B.S. 1990, University of Laverne; M.A. 1992, CSU, Los Angeles; Ph.D. 1998, Michigan State University.
- Badrkhan, Kamiran S. (2007)** Deputy Dean. A.A. 1970, Los Angeles City College; B.A. 1972, B.A. 1972, M.A. 1975, CSU Los Angeles; Ph.D. 1987, the Claremont Graduate School (University).
- Bagheri, Hooshang (1988)** Professor of Kinesiology. B.S. 1969, M.Ed. 1971, Ph.D. 1977, University of Oregon, M.A. 1999, Wesleyan University.
- Baird-Olson, Karren P. (2000)** Professor of Sociology. B.S. 1962, Montana State University; M.A. 1984, University of Montana; Ph.D. 1994, University of New Mexico.
- Baker, Hilary J. (2006)** Vice President for Information Technology and Chief Information Officer. B.S. 1978, University of Birmingham, England; M.A. 1980, University of California Los Angeles.
- Baker, Katherine (2001)** Professor of Music. B.A. 1976, Pacific Christian College; M.M. 1984, CSU, Fullerton; Ed. D. 1992, University of Illinois.
- Baker-Schena, Lori (2005)** Assistant Professor in Journalism. B.A. 1980, M.B.A. 1988, CSU, Northridge; Ed.D. 2011, University of La Verne.
- Balbás, Jorge (2007)** Assistant Professor of Mathematics. B.S. 2000, M.A. 2000, Ph.D. 2004, University of California Los Angeles.
- Ballard, James D. (2002)** Professor of Sociology. B.S. 1991, M.A. 1992, Jacksonville State University; Ph.D. 2000, University of Nevada.
- Banner, Lisa (1998)** Professor of Biology. B.S. 1984, CSU, San Diego; Ph.D. 1992, University of Southern California.
- Baresi, Larry (1994)** Professor of Biology. B.A. 1969, M.S. 1972, California State University, Northridge; Dr.P.H. 1978, University of California, Los Angeles.
- Barkataki, Prasanta (1981)** Professor of Computer Science. B.Sc. 1970, University of London; Ph.D. 1973, University of Bradford, England.
- Barker, Robert L. (1981)** Professor of Accounting and Information Systems. B.B.A. 1965, Arkansas A and M College; M.A. 1969, Ph.D. 1974, University of Alabama.
- Barnard, Ian (2003)** Associate Professor of English. B.A. 1983, University of Witwatersrand; M.A. 1986, CSU, San Diego; Ph.D. 1992, University of California, San Diego.
- Barnes, G. Michael (1981)** Professor of Computer Science. A.B. 1972, University of California, Berkeley; M.A. 1975, CSU, Long Beach; M.S. 1980, Kansas State University; Ph.D. 1980, Kansas University.
- Barresi, Dorothy M. (1988)** Professor of English. B.A. 1979, University of Akron; M.A. 1981, University of Pittsburgh; M.F.A. 1985, University of Massachusetts.
- Barrett, Michael (1972)** Librarian, Technical Services. B.A. 1969, University of California, Los Angeles; M.L.S. 1972, University of Southern California.
- Bartelt, Guillermo H. (1988)** Professor of English. B.A. 1971, M.A. 1972, University of Wyoming; M.A. 1977; Ph.D. 1980, University of Arizona.
- Bartle, Eli (1998)** Professor of Social Work. B.S.W. 1976, M.S.W. 1993, University of Nebraska; Ph.D. 1997, University of Kansas.
- Bartlow, R. Dianne (2002)** Associate Professor of Gender and Women's Studies. B.A. 1977, M.A. 1980, CSU, Long Beach; Ph.D. 2000, University of California, San Diego.
- Basta, Sister Rita (1999)** Lecturer in Mathematics. B.A. 1965, Mundelein College of Loyola University; M.S. 1971, University of Notre Dame.
- Basu, Chhandak (2011)** – Assistant Professor of Biology. B.S. 1996, B.C.K.V.; M.S. 1998, Montana State University; Ph.D. 2003, University of Rhode Island.
- Battle, Conchita Y. (2002)** Director, Advising Resource Center/EOP. B.A. 1987, Talladega College; M.P.A. 1991, Jacksonville State University; Ed.D. 1999, University of Pennsylvania.
- Baugh, Amanda J. (2012)** Assistant Professor of Religious Studies. B.A. 2004, Hendrix College; M.A. 2008, Northwestern University; Ph.D. 2011, Northwestern University.
- Bavarian, Behzad (1985)** Professor of Engineering. B.S. 1976, Tehran University; M.S. 1977, Ph.D. 1980, Ohio State University.
- Baxter, Kent B. (2004)** Associate Professor of English. B.A. 1988, CSU, Northridge; M.A. 1993, Ph.D. 1998, University of Southern California.
- Bayes, Jane H. (1968)** Professor of Political Science. B.A. 1960, Smith College; M.A. 1963, Ph.D. 1967, University of California, Los Angeles.
- Becker, Lawrence (2002)** Chair and Eugene C. Price Professor of Political Science. B.A. 1991, University of California, San Diego; M.A. 1996, Ph.D. 2001, University of Massachusetts.
- Behnezhad, Ali R. (1985)** Professor of Systems and Operations Management. B.S. 1976, Arya-Mehr University of Technology; M.S. 1978, Ph.D. 1985, University of Southern California.
- Bekir, Nagwa E. (1980)** Professor of Electrical and Computer Engineering. B.S.E.E. 1966, Cairo University; M.S.E.E. 1975, Ph.D.E.E. 1978, University of Southern California.
- Belgrad, Susan (2002)** Associate Professor of Elementary Education. B.A. 1970, Northern Illinois University; M.A.T. 1973, Northeastern Illinois University; Ed.D. 1987, George Peabody of Vanderbilt University.
- Beling, Janna (1998)** Professor of Physical Therapy. B.A. 1974, Ph.D. 1985, University of Southern California; M.A. 1981, Stanford University.
- Bellin, Peter (1990)** Professor of Environmental and Occupational Health. B.A. 1975, Brandeis University; M.S. 1979, Harvard; Ph.D. 1990, University of California, Los Angeles.
- Beloborodov, Igor (2008)** Assistant Professor of Physics and Astronomy. B.S. 1995, M.S. 1997, Moscow Institute of Physics and Technology, Russia; Ph.D. 2000, Ruhr-University, Germany.
- Benavides, José Luis (2005)** Professor in Journalism. B.A. 1985, Universidad Nacional Autónoma de México; M.A. 1989, Ph.D. 1997, University of Texas at Austin.
- Berg-Kolin, Helène R. (1995)** Career Counselor, Advising Resource Center/Educational Opportunity Program. B.A. 1974, University of California, Santa Barbara; M.S. 1997, CSU, Northridge.
- Bermudes, David (2010)** Assistant Professor of Biology. B.A. 1982, Oberlin College; Ph.D. 1987, Boston University.
- Beruchashvili, Mariam (2007)** Assistant Professor of Marketing. B.A., 1992, State Institute of Foreign Languages; B.A. 1993, Tbilisi State University; M.B.A., 2002, Clemson University; Ph.D. 2007, University of Nebraska-Lincoln.
- Besnilian, Annette (2006)** Lecturer, Family and Consumer Sciences. B.S. 1994, California State University, Northridge; M.P.H. 1996, University of California, Los Angeles.
- Best, Michelle (2008)** Assistant Professor of Recreation and Tourism Management. B.S. 1995, M.S. 2002, University of West Indies; Ph.D. 2008, University of Florida.
- Biederman, Lawrence R. (2011)** Assistant Professor of Theatre. B.A. 1988, M.F.A. 1992, University of California Irvine.
- Binkley, John (2001)** Professor of Theatre. B.F.A. 1989, Western Kentucky University; M.F.A. 1996, Southern Methodist University.
- Black, Timothy (2003)** Associate Professor of Philosophy. B.A. 1994, Auburn University; Ph.D. 2001, University of Nebraska.
- Blake, Tyler (1977)** Director, User Experience Design; Professor of Psychology. B.A. 1972, M.A. 1975, CSU, Northridge; Ph.D., 1977, North Carolina State University.

- Bliman, Howard (1988)** Staff Physician, Student Health Center. B.A. 1975, University of California, Los Angeles; M.D. 1980, University of Southern California.
- Bloom, Marwill H. (1971)** Clinical Psychologist, Counseling Services. B.A. 1964, M.A. 1967, Ph.D. 1971, University of California, Los Angeles; Licensed Psychologist, California.
- Blourchi, Kavoo (2002)** Manager of Academic Resources, College of Science and Mathematics. B.S. 1976, M.B.A. 1977, Southern Illinois University.
- Bluestein, Stephanie A. (2011)** – Assistant Professor of Journalism. B.A. 1988, M.A. 2007, Ed.D. 2012, California State University, Northridge.
- Blumenkrantz, David A. (2004)** Associate Professor of Journalism. B.A. 1985, M.A. 2003, M.F.A. 2009, California State University Northridge.
- Bone, Gratia (2011)** Director of Marketing and Communications. B.A. 1992, University of Mississippi; M.A. 2004, Hawai'i Pacific University.
- Bongjin, Kim (2002)** Assistant Professor of Management. B.A. 1986, Chung-Ang University; M.B.A. 1988, Syracuse University; M.S. 1995, University of Wisconsin-Madison; Ph.D. 2002, University of Pittsburgh.
- Borczo, Ronald M. (1984)** Professor of Music. B.M. 1978, B.A. 1979, Florida State University; M.M. 1981, University of Southwestern Louisiana.
- Borouhaki, Soheil (2011)** Assistant Professor of Geography. B.S. 1996, M. S. 2000, 2004, Azad University; Ph.D. 2010, University of Western Ontario.
- Bouguarche, Ahmed (2000)** Associate Professor of Modern and Classical Languages and Literatures. D.E.A. 1984, Université De Montpellier; M.A., Ph.D. 1993, University of Wisconsin-Madison.
- Bourgeois, Pamela J. (1987)** Professor of English. B.A. 1967, Marygrove College; M.A. 1968, University of Michigan; Ph.D. 1974, University of Detroit.
- Bowen, Linda S. (2000)** Associate Professor in Journalism. B.A. 1974, CSU, Fresno; M.A. 2005, CSU, Northridge.
- Boyns, David E. (2002)** Professor of Sociology. B.A. 1990, University of California, Irvine; M.A. 1997, University of California, Riverside.
- Bracy, James H. (1979)** Professor of Pan-African Studies. B.A. 1968, Tarkio College; M.S. 1971, Howard University; Ph.D. 1980, University of Michigan.
- Bradberry, Leigh A. (2011)** Assistant Professor of Political Science. B.A. 1996, Birmingham-Southern College; M.A. 2007, Ph.D. 2011, University of California San Diego.
- Bradley, Linda A. (2011)** Assistant Professor of Family and Consumer Sciences. B.S. 2003, University of Wisconsin; M.S. 2007, Ph.D. 2011, University of Kentucky.
- Braswell, Bobby (1996)** Head Coach, Men's Basketball, Intercollegiate Athletics. B.A. 1985, CSU, Northridge.
- Brautman, Lee R. (1976)** Staff Physician, Student Health Center. B.S. 1969, Bucknell University; M.D. 1974, State University of New York, Upstate Medical Center.
- Breen, Stephen A. (1987)** Associate Professor of Mathematics. B.A. 1973, Bard College; Ph.D. 1982, Rutgers University.
- Brie, Raymond J. (2002)** Professor of Elementary Education. B.A. 1970, M.A. 1971, Ph.D. 1983, Arizona State University.
- Broussard, Joyce L. (2003)** Associate Professor of History. B.A. 1991, M.A. 1993, CSU, Northridge; Ph.D. 1998, University of Southern California.
- Brown, Betty A. (1986)** Professor of Art. B.F.A. 1971, Southern Methodist University; M.A. 1973, University of Texas; Ph.D. 1977, University of New Mexico.
- Brown, Gailya (2003)** Senior Director of Development, University Advancement. B.A. 1966, California Baptist University; M.A. 1969, Baylor University.
- Brown, Jodi L. (2011)** Assistant Professor of Social Work. B.S.W. 1992, Colorado State University; M.S.W. 1995, University of Illinois-Chicago; Ph.D. 1999, Washington University.
- Brownlee, Don R. (1982)** Professor of Communication Studies. B.A. 1973, Texas Christian University; M.A. 1974, North Texas State University; Ph.D. 1982, University of Texas.
- Bruton, John (2003)** Associate Professor of Management. B.S. 1971, M.S. 1975, Oakland University; Ph.D. 2003, University of Massachusetts.
- Bryson, Michael E. (2004)** Associate Professor of English. B.A. 1994, M.A. 1996, Truman State University; Ph.D. 2001, Northwestern University.
- Bucker, Robert (2007)** Dean, Mike Curb College of Arts, Media, and Communication; Executive Director, Valley Performing Arts Center; Professor of Music. B.S. 1971, University of Missouri-Columbia; M.M. 1972, D.M.A. 1991, University of Missouri-Kansas City.
- Buenavista, Tracy (2007)** Associate Professor of Asian American Studies. B.A. 2000, University of California, Berkeley; M.A. 2002, San Francisco State University; M.A. 2003, Ph.D. 2007, University of California, Los Angeles.
- Buesing, Greg (2000)** Senior Director, Strategic Projects and Gift Planning. B.A. 1969, Wesleyan University; M.B.A. 1975, University of Maine; J.D. 1983, Northeastern University.
- Burch, Carolyn (1997)** Lecturer in Secondary Education. B.A. 1966, Utah State University; M.A. 1979, California State University, Northridge.
- Burke, Sloane C. (2011)** Assistant Professor of Health Sciences. B.S. 1995, California State University, Northridge; M.S. 1998, University of North Texas; Ph.D. 2003, Texas Woman's University.
- Burkhart, Brian Y. (2010)** Assistant Professor of American Indian Studies Program. B.A. 1997, University of Northern Colorado; Ph.D. 2008, Indiana University.
- Burstein, Joyce H. (2002)** Assistant Professor of Elementary Education. B.A. 1984, University of California, Los Angeles; M.S. 1995, California State University, Northridge; Ed.D. 2001, University of California, Los Angeles.
- Burstein, Nancy D. (1990)** Professor of Special Education. B.A. 1968, Michigan State University; M.A. 1972, San Francisco State University; Ph.D. 1982, University of California, Los Angeles.
- Busillo-Aguayo, Joannie L. (2011)** Assistant Professor of Educational Psychology and Counseling. B.A. 1993, M.S. 1996, California State University, Northridge; Ed. D. 2010 Pepperdine University.
- Cabello, Beverly (1990)** Associate Dean, Michael D. Eisner College of Education, and Professor of Educational Psychology and Counseling. B.A. 1971, M.A. 1973, Ph.D. 1992, University of California, Los Angeles.
- Cadavid, Ana Cristina (1990)** Professor of Physics and Astronomy. B.S. 1983, Stevens Institute of Technology; M.S. 1984, Ph.D. 1989, University of California, Los Angeles.
- Caganich, Barbara (2010)** Director of Development, College of Science and Mathematics. B.A. 1981, University of Southern California.
- Cahn, Matthew A. (1991)** Professor of Political Science. B.A. 1986, University of California, Berkeley; M.A. 1988, Ph.D. 1991, University of Southern California.
- Campbell, Christina J. (2008)** Assistant Professor of Anthropology. B.Sc. 1994, University of Canterbury; M.A. 1996, Ph.D. 2000, University of California, Los Angeles.
- Campbell, Jeffrey A. (1994)** Head Coach, Intercollegiate Athletics. B.A. 1991, CSU, Northridge.
- Campbell, Lori A. (2011)** Assistant Professor of Sociology. B.A. 1995, Ohio Wesleyan University; M.A. 2000, Ph.D. 2007, Ohio State University.
- Candel, Alberto (2000)** Professor of Mathematics. M.A. 1984, University of Santiago; Ph. D. 1991, Washington University.
- Cai, Yi (1994)** Associate Professor of Family and Consumer Sciences. B. Econ. 1994, Nankai University; M.S. 2002, Ph.D. 2005, The University of Georgia.
- Camara, Sakile' K. (2006)** Assistant Professor of Communication Studies. B.A. 1990, Arkansas State University; M.A. 1992, Arkansas State University; Ph.D. 2001, The Ohio State University.
- Capous-Desyllas, Moshoula (2011)** Assistant Professor of Sociology. B.S. 1999, University of California San Diego; M.S.W. 2001, San Diego State University; Ph.D. 2010, Portland State University.
- Cao, Wei (2007)** Associate Professor of Family and Consumer Sciences. B.S., 1995, Xi'an University of Engineering Science and Technology (Northwest Institute of Textile Science and Technology), Xi'an, China; M.S., 1998; Ph.D., 2007, Florida State University.
- Caretto, Barbara B. (1998)** Funded Projects Director, College of Science and Mathematics. B.A. 1961, University of California, Los Angeles; M.P.A. 1981, University of Southern California; J.D. 1986, Loyola Law School.
- Carpenter, Karen D. (2011)** Assistant Professor of Cinema and Television Arts. B.F.A. 2002, Tyler School of Art; M.F.A. 2007, Temple University.
- Carpenter, Robert C. (1988)** Professor of Biology. B.S. 1975, University of Michigan; M.S. 1979, University of the Pacific; Ph.D. 1984, University of Georgia.
- Carranza, Douglas (2001)** Associate Professor of Chicano/a Studies. B.A. 1993, CSU, Fullerton; M.A. 1996, Ph.D. 2003, University of California, Santa Barbara.
- Carillo Rowe, Aimee M. (2012)** Associate Professor of Communication Studies. B.A. 1992, M.A. 2003, Pepperdine University; Ph.D. 2000, University of Washington.
- Carter, Michael J. (2011)** Assistant Professor of Sociology. B.A. 1995, Sonoma State University; M.A. 2003, San Diego State University; Ph.D. 2010, University of California Riverside.
- Castallo, Richard T. (2002)** Professor of Educational Leadership and Policy Studies. B.S. 1972, M.S. 1975, State University of New York; Ed.D. 1983, Syracuse University.
- Castro, James (1990)** Lecturer in Mathematics and Math Specialist, Learning Resource Center. B.A. 1980, M.S. 1992, CSU, Northridge.
- Castronovo, Brian J. (1988)** Professor of Modern and Classical Languages and Literatures. B.A. 1971, Trinity College; M.A. 1976, Middlebury College; Ph.D. 1984, University of Wisconsin.
- Cecil, Mary R. (2011)** Assistant Professor of Geological Sciences. B.A. 2000, Vanderbilt University; M.S. 2004, Ph.D. 2009, University of Arizona.
- Cecil, M. Robinson (2011)** Assistant Professor of Geological Sciences. B.A. 2000, Vanderbilt University; M.S. 2004, Ph.D. 2009, University of Arizona.
- Ceja, Miguel (2008)** Associate Professor of Educational Leadership and Policy Studies. B.A. 1996, M.A. 1997, Ph.D. 2001, University of California, Los Angeles.
- Cervantes, Yreina D. (1999)** Professor of Chicana/o Studies. B.A. 1975, University of California, Santa Cruz; M.F.A. 1989, University of California, Los Angeles.
- Chacon, RosaMaria (2002)** Associate Professor of English. B.A. 1979, CSU, Long Beach; M.A. 1996, Ph.D. 2001, University of Wisconsin, Milwaukee.
- Chandler, Carmen Ramos (1994)** Director, News and Information. B.A. 1985, University of Southern California.
- Chang, Kang J. (1989)** Professor of Engineering. B.S. 1975, Tatung Institute of Technology, Taiwan; M.S. 1980, Waseda University; Ph.D. 1989, University of California, Los Angeles.
- Chang, Mu-Sheng (2011)** Assistant Professor of Finance, Real Estate and Insurance. B.A. 1991, School of Management, Tunghai University; M.B.A. 2001, University of Southern California; Ph.D. 2008, Temple University.
- Chang, Tae H. (2002)** Assistant Professor of Elementary Education. B.S. 1994, Stephen F. Austin State University; M.Ed. 1995, Ed.D. 2002, Texas AandM University.
- Chaplin, Michael E. (2007)** Assistant Professor of Business Law. B.A. 1978, University of Washington; J.D. 2000, Notre Dame Law School.
- Chapman, Kenneth (1991)** Professor of Economics. B.A. 1980, University of California, Los Angeles; Ph.D. 1986, University of Minnesota.
- Charles, John R. (1979)** Assistant Director of International Programs. B.A. 1969, M.A. 1978, University of Hawaii.
- Charnofsky, Stanley (1961)** Professor of Educational Psychology and Counseling. B.S. 1954, M.S. 1958, M.Ed. 1961, Ed.D. 1965, University of Southern California; Licensed Psychologist, State of California.
- Charonnat, Jeffrey A. (1991)** Associate Professor of Chemistry and Biochemistry. B.S. 1977, Stanford University; Ph.D. 1984, Columbia University.
- Chatterjee, Ranita (2000)** Associate Professor of English. B.A. 1988, University of Calgary; M.A. 1989, McMaster University; Ph.D. 1998, University of Western Ontario.
- Chattopadhyay, Somnath (2006)** Lecturer in Electrical and Computer Engineering. B.E. 1981, University of Gorakhpur; M.Tch. 1984, Microelectronics Engineering, Institute of Technology, Banaras Hindu University; Ph.D. 1989, Institute of Technology, Banaras Hindu University.
- Chavira, Gabriela (2004)** Associate Professor in Psychology. B.A. 1994, CSU, Northridge; Ph.D. 2003, University of California, Santa Cruz.
- Chen, Deborah A. (1990)** Professor of Special Education. B.A. 1971, M.A. 1971, San Francisco State University; Ph.D. 1985, University of California, Berkeley.

- Chen, Edith W. (2001)** Associate Professor of Asian American Studies. B.A. 1989, University of Texas, Austin; M.A. 1992, Ph.D. 1998, University of California, Los Angeles.
- Chen, Keji (2011)** Assistant Professor of Accounting and Information Systems. B.B.A. 1990, Chinese Culture University; M.B.A. 1995, Ph.D. 2003 The Ohio State University.
- Cheng, Ivan (2003)** Associate Professor of Secondary Education. B.A. 1980, Ed. D. 2005, University of California, Los Angeles; M.A. 2000, CSU, Northridge.
- Chiu, Hsin-Hui (2011)** Assistant Professor of Finance, Real Estate and Insurance. B.A. 1999, National Cheng Chi University; M.A. 2002, Ph.D. 2006 Georgia State University.
- Chiu, James S. (1979)** Professor of Accounting and Information Systems. B.B.A. 1965, National Taiwan University; M.A. 1969, Ph.D. 1973, University of Missouri; C.P.A.; C.M.A.
- Cho, Hira (2010)** Assistant Professor of Family and Consumer Sciences. B.S. 1992, M.S. 1995, 2001, Sookmyoung Women's University; Ph.D. 2007, Florida State University.
- Chong, James (2003)** Professor of Finance, Real Estate and Insurance. B.A. 1993, Nanyang Technological University; M.S. 1996, Lancaster University; S.M. 1998, University of Chicago; Ph.D. 2002, The University of Reading, United Kingdom.
- Chong, Sandra B. (1996)** Professor of Elementary Education. B.M. 1982, M.S.Ed. 1990, Ph.D. 1997, University of Southern California.
- Choudhary, Debi Prasad (2005)** Associate Professor of Physics and Astronomy. B.S. 1981, M.A. 1982, Kurukshetra University; Ph.D. 1989 Gujarat University.
- Chow, Kwang-Nan (1970)** Professor of Mathematics. B.S. 1964, National Taiwan University; Ph.D. 1970, California Institute of Technology.
- Chowa, Lydia (2007)** Assistant Professor, Family and Consumer Sciences. B.S., 1982, Loma Linda University; M.A. 1984, California State University, Los Angeles; DrPH, 2002, Loma Linda University; BSN, 2006, University of Wisconsin – Eau Claire.
- Christensen, Cary L. (2008)** Assistant Professor of Music. B.M. 1997, M.S. (2000), California State University, Northridge.
- Christian, Damian J. (2008)** Assistant Professor of Chemistry and Biochemistry. B.S. 1985, Pennsylvania State University; M.S. 1987, Ph.D. 1993, University of Maryland.
- Chu, Lawrence (2003)** Assistant Professor of Health Science. B.S. 1990, University of North Carolina; M.S. 1993, M.P.H. 1996, Ph.D. 2001, University of California, Los Angeles.
- Chung, Kyusuk (2011)** Associate Professor of Health Sciences. B.S. 1986, Chonnam National University; M.S. 1991 Wayne State University; Ph.D. 1999, University of Illinois at Chicago.
- Clark, Doris (1993)** Academic Advisement/EOP, College of Business and Economics. B.A. 1985, Chatham College, Pittsburgh; M.A. 1991, University of South Carolina.
- Clark, Dorothy (2001)** Professor of English. B.A. 1969, Ph.D. 1989, University of California, Los Angeles; M.A. 1976, CSU, Northridge.
- Clark, Irene L. (2000)** Professor of English. B.A. 1963, Hunter College; M.A. 1965, Columbia University; Ph.D. 1979, University of Southern California.
- Clary, Laura A. (1987)** Manager of Academic Resources, University Library. B.A. 1985, CSU, Northridge.
- Cleve, Robert (2005)** Lecturer in History. B.A. 1973, California State University, Northridge; M.A. 1975, Ph.D. 1982, University of California, Los Angeles.
- Cleveland, M. Barret (2004)** Associate Professor of Theatre. B.A. 1972, Trinity University; MFA 1976, Texas Christian University.
- Clevenson, M. Lawrence (1975)** Professor of Mathematics. B.S. 1966, Case Institute of Technology; M.S. 1967, Ph.D. 1970, Stanford University.
- Cohen, Randy W. (1994)** Professor of Biology. B.S. 1976, University of Southern California; M.S. 1980, CSU, Northridge; Ph.D. 1987, University of Illinois.
- Colabucci, Patrick (2012)** Director, Global Studies and International Pathways. B.A. 1981, University of Maryland; M.A. 1994, Temple University.
- Cole, Alexandra (2000)** Professor of Political Science. B.A. 1989, University of California, San Diego; M.A. 1992, CSU, San Diego; Ph.D. 1999, University of California, Irvine.
- Cole, Paulette R. (2002)** Lecturer in Developmental Mathematics. B.A. 1988, M.S. 1994, CSU, Northridge.
- Collier, Shartriya (2005)** Associate Professor of Elementary Education. B.A. 1997, Xavier University; M.A. 1999, Columbia University; Ed.D. 2007, Temple University.
- Collier, Susanne (1990)** Professor of English. B.A. 1980, Westmont College; M.A. 1983, Ph.D. 1986, Shakespeare Institute, University of Birmingham.
- Collins, Eric M. (2004)** Lecturer in Physics and Astronomy. B.S. 1990, Ph.D. 2000, West Virginia University; M.S. 1992, University of Illinois, Urbana-Champaign.
- Collins, Susan T. (1986)** Professor of Chemistry and Biochemistry. B.A. 1977, Rhode Island College; Ph.D. 1981, Florida State University.
- Conner, Robert (2006)** Associate Professor of Manufacturing Systems Engineering and Management. B.S. 1989, California State Polytechnic University; M.S. 1994, Ph.D. 1997, California Institute of Technology.
- Connert, Brian I. (1990)** Professor of Marketing. B.Com. 1982, University of South Africa; M.B.A. 1985, University of the Witwatersrand; Ph.D. 1991, University of Pretoria; Fellow of the Institute of Marketing Management (South Africa).
- Connole, Cheryl (1979)** Manager of Academic Resources, College of Health and Human Development. B.S. 1986, M.A. 1997, CSU, Northridge.
- Cortez, Beatriz (2000)** Professor of Central American Studies. B.A. 1994, M.A. 1996, Ph.D. 1999, Arizona State University.
- Costantini, Anthony G. (1988)** Professor of Modern and Classical Languages and Literatures. B.A. 1972, Queens College; Ph.D. 1984, Rutgers University.
- Costea, Ileana (1983)** Professor of Engineering. M.A. 1972, School of Architecture and Urban Planning, Romania; M.A. 1974, Ph.D. 1982, University of California, Los Angeles.
- Costin, Cathy L. (2000)** Professor of Anthropology. B.A. 1978, M.A. 1980, Ph.D. 1986, University of California, Los Angeles.
- Cota, Irene (1994)** Professor of Elementary Education. B.A. 1972, CSU, Northridge; M.A. 1974, Ph.D. 1982, Stanford University.
- Cours, Deborah (1994)** Professor of Marketing. B.S. 1989, University of Iowa; Ph.D. 1995, University of California, Los Angeles.
- Covington, Kenya (2006)** Associate Professor of Urban Studies and Planning. B.A. 1992, Kean University; M.A. 1994, Old Dominion University; M.C.P. 2000, Ph.D. 2003, University of Maryland.
- Covington, Richard (2000)** Associate Professor of Computer Science. B.A. 1980, Harvard College; M.S. 1985, Rice University; Ph.D. 1989, Rice University.
- Covrig, Vicentiu (2003)** Professor of Finance, Real Estate, and Insurance. B.S. 1992, Polytechnic Institute of Bucharest; M.A. 1994, Central European University; Ph.D. 1999, Arizona State University.
- Cox, Helen (2000)** Professor of Geography. B.A. 1978, M.A. 1983, Oxford University; M.S. 1979, University of Pennsylvania; M.S. 1995, Ph.D. 1998, University of California, Los Angeles.
- Cox, Patsy (2000)** Assistant Professor of Art. B.F.A. 1995, Southwest Missouri State University; M.F.A. 2000, University of Delaware.
- Craig, Jeff (1968)** Network Analyst, Physical Plant Management. B.S. 1970, CSU, Northridge.
- Craine, James W. (2006)** Associate Professor of Geography. B.G.S. 1975, Ohio University; M.A. 2000, CSU, Northridge; Ph.D. 2006, San Diego State University.
- Crandall, David (2000)** General Manager, Associated Students. B.A. 1975, Ohio Wesleyan University; M.A. 1977, Ohio State University.
- Crawford, Bonnie J. (2005)** Director of the Credential Office in The Michael D. Eisner College of Education. B.B.A. 1984, National University; M.A. 1992, Concordia University.
- Crowhurst, Karin (2007)** Assistant Professor of Chemistry and Biochemistry. B.Sc. 1995, Queen's University (Kingston); M.Sc. 1997, Ph.D. 2003, University of Toronto.
- Cummings Prager, Mary Ann (1991)** Associate Vice President, Students Access and Support Services. B.A. 1976, Seattle University; Ed.D. 1996, University of California, Los Angeles.
- Cummings, Randal (2005)** Lecturer in Religious Studies. B.A. 1974, CSU, Northridge; M.A. 1983, University of California, Los Angeles.
- Current, Mary T. (1990)** Professor of Marketing. B.B.A. 1976, M.B.A. 1981, Loyola Marymount University; Ph.D. 1987, University of California, Los Angeles.
- Curtis, Daniel B. (2008)** Assistant Professor of Chemistry and Biochemistry. B.S. 1997, Emory University; Ph.D. 2004, University of Colorado.
- Cuthbert, Monica (1981)** Laboratory Supervisor, Student Health Center. B.S. 1954, University of Utah.
- Dabbour, Katherine (2001)** Associate Librarian, Reference and Instructional Services. B.A. 1983, CSU, Northridge; M.L.S. 1987, University of California, Los Angeles.
- D'Alessio, Matthew A. (2009)** Assistant Professor of Geological Sciences. B.S. 1999, Stanford; Ph.D. 2004, University of California, Berkeley.
- Daniels, Jean E. (1977)** Professor of Sociology and Social Work. B.A. 1964, University of Kansas; M.S.W. 1966, Howard University; M.P.H. 1973, D.S.W. 1976, University of California, Los Angeles.
- Daniels, Sonja (2005)** Associate Director, Student Development and International Prgrams. B.B.A. 1990, Teas Christian University; M.A. 1992, New York University.
- Danta, Darrick R. (1985)** Professor of Geography. B.A. 1977, M.A. 1981, CSU, Northridge; Ph.D. 1985, Ohio State University.
- Darden, Sandra (1990)** Staff Physician, Student Health Center. B.A. 1971, M.D. 1976, University of California, San Diego.
- Dark, Shawna (2003)** Professor of Geography. B.A. 1990, University of California, Davis; M.S. 1996, Humboldt State University; Ph.D. 2003, University of California, Los Angeles.
- Daversa, John A. (2011)** Assistant Professor of Music. B.A. 2004, University of California Los Angeles; M.F.A. 2006, California Institute of the Arts; D.M.A. 2009, University of Southern California.
- Davidson, Ronald (2005)** Associate Professor in Geography. B.A. 1989, University of California, Berkeley; M.A. 1996, University of Washington, Madison; Ph.D. 2003, University of California, Los Angeles.
- Davila, Terry (1999)** Head Coach, Men's Soccer, Intercollegiate Athletics. B.A. 1994, CSU, Northridge.
- Davis, Terry (2005)** Manager of Employee Relations, Human Resources. B.S. 1998, CSU, Los Angeles.
- Dawahare, Anthony (1994)** Professor of English. B.A. 1987, M.A. 1999, Ph.D. 1994, University of California, Irvine.
- Dean, Norman (2000)** Assistant Professor of Chemistry and Biochemistry. B.S. 1987, University of Michigan; Ph.D. 1994, Indiana University.
- De Bellard Pecchio, Maria Elena (2005)** Associate Professor of Biology. B.S. 1985, University Simon Bolivar, Caracas Venezuela; Ph.D. 1998, CUNY – Hunter College.
- De Felice, Jerry S. (2000)** Director of Development, Student Affairs and Athletics. B.S. 2006, CSU Northridge; M.A. CSU Northridge.
- De Veaux, Marcy (2007)** Assistant Professor in Journalism. B.A. 1981, Bradford College; M.S. 1985, Lesley College; M.A. 2005; Ph.D. 2011, Pacifica Graduate Institute.
- DeBonis, Judith A. (2011)** Assistant Professor of Social Work. B.A. 1977, Russel Sage College; M.S.W. 1980, SUNY at Albany; Ph.D. 1998, University of Southern California.
- DeBose, Herman (1994)** Professor of Sociology. B.S. 1969, North Carolina Agricultural and Technical State University; M.S.W. 1975, University of Southern California; Ph.D. 1991, University of California, Los Angeles.
- Dechter, Avi (1981)** Professor of Systems and Operations Management. B.S. 1972, Israel Institute of Technology; M.B.A. 1978, Tel Aviv University; Ph.D. 1985, University of California, Los Angeles.
- Decker, James T. (2006)** Professor of Social Work. B.A. 1972, CSU, Northridge; M.S.W. 1974, State University of New York Stony Brook; Ph.D. 1976, University of Minnesota; Ph.D. 1994, Pacifica Graduate Institute.
- Degravel, Daniel (2006)** Associate Professor of Management. B.A. 1986, M.A. 1987, Ph.D. 1994, Univ. Grewowble II, France.
- De La Torre, William (1990)** Professor of Educational Leadership and Policy Studies. B.A. 1973, CSU, Los Angeles; M.A. 1980, Claremont Graduate School; Ph.D. 1991, University of California, Los Angeles.
- De Maio, Jennifer (2006)** Associate Professor of Political Science. B.A. 1997, Georgetown University; M.Sc. 1998, London School of Economics and Political Science; Ph.D. 2005, University of California, Los Angeles.
- Dennisen, Amy A. (2006)** Associate Professor of Sociology. B.A. 1995, University of Wisconsin, Oshkosh; M.A. 1997, Syracuse University; Ph.D. 2006, UCLA.
- Dermendjian, Nazaret (1999)** Professor of Civil Engineering and Applied Mechanics. B.E. 1983, American University of Beirut; M.S. 1992, California State University, Northridge; Ph.D. 2002, University of Southern California.

- Des Lauriers, Mathew R. (2006)** Associate Professor of Anthropology; Graduate Advisor. B.A. 1999, CSU, Bakersfield; M.A. 2001, Ph.D. 2005, University of California, Riverside.
- Desrochers, Cynthia G. (1983)** Professor of Elementary Education. B.A. 1971, M.Ed. 1972, Ed.D. University of California, Los Angeles.
- Devine, Tom (2000)** Professor of History. B.A. 1990, Georgetown; M.A. 1993, Ph.D. University of North Carolina, Chapel Hill.
- Dickey, Anthony (2012)** Director Annual Giving. B.A. Purdue University.
- DiMarco, Paula (2001)** Professor of Art. B.F.A. 1992, M.F.A. 1994, School of Visual Arts; Ph.D. 2002, The Ohio State University.
- Dimo, Edith (1995)** Professor of Modern and Classical Languages and Literatures; Spanish Graduate Advisor. B.A. 1985, California State, Dominguez Hills; M.A. 1990, California State University, Long Beach; Ph.D. 1995, University of California, Riverside.
- Dixon-Peter, C. Aisha (2010)** Student Services Professional, University Counseling Services. B.S. 2000, Azusa Pacific University; M.S. 2004, Ph.D. 2007, University of La Verne.
- Djellouli, Rabia (2003)** Professor of Mathematics. M.A. 1984, University of Paris-Sud, France; Ph.D. 1988, University Paris XI-Orsay and Ecole Polytechnique, France.
- Dombourian, Edward (1981)** Professor of Civil Engineering and Applied Mechanics. B.S.C.E. 1962, American University of Beirut; M.S.C.E. 1963, M.S. 1969, Georgia Technology; Ph.D. 1974, Georgia Technology.
- Donahue, Collin J. (1996)** Associate Vice President, Facilities, Design and Construction. B.S. 1987, California State Polytechnic University, Pomona; M.P.A. 2009, California State University, Northridge.
- Doonan, Owen (2003)** Professor of Art. B.A. 1986, M.A. 1989, Tufts University; Ph.D. 1993, Brown University.
- Doron, Michael E. (2011)** Assistant Professor of Accounting and Information Systems. B.A. 1993, Miami University; M. Acc. 2000, Case Western Reserve University; Ph.D. 2009, Texas A & M.
- D'orsogna, Maria-Rita R. (2007)** Associate Professor of Mathematics. M.A. 1998, University of Maryland; Ph.D. 2003, University of California, Los Angeles.
- Dosanjh-Zucker, Kiren (2000)** Professor of Business Law and Management. B.A. 1986, Syracuse University; J.D. 1989, University of Michigan Law School.
- Dow, James P. (1998)** Professor of Finance, Real Estate, and Insurance. B.A. 1983, University of Washington; M.A. 1985, Ph.D. 1987, University of Chicago.
- Dudgeon, Steven R. (1999)** Professor of Biology. B.A. 1985, University of California, Berkeley; Ph.D. 1992, University of Maine.
- Dungey, Nicholas (2002)** Associate Professor of Political Science. B.A. 1989, Ph.D. 1998, University of California, Santa Barbara.
- Dunlap, Jody E. (2009)** Assistant Professor of Educational Leadership and Policy Studies. B.A. 1972, California State University, Northridge; M.S. 1982, Ed.D. 1987, Pepperdine University.
- Durdella, Nathan R. (2009)** Assistant Professor of Educational Leadership and Policy Studies. B.A. 1998, M.A. 2000, M.A. 2003, Ph.D. 2006, University of California Los Angeles.
- Dwyer, Anamarie C. (1991)** Professor of Theatre. B.A.E. 1981, M.F.A. 1990, Arizona State University.
- Dye, John M. (1987)** Professor of Mathematics. B.A. 1978, University of California, Santa Cruz; M.A. 1981, University of California, Los Angeles; Ph.D. 1987, University of Southern California.
- Ebin, Vicki J. (1998)** Associate Professor of Health Sciences. B.S. 1974, M.S. 1976, Ph.D. 1995, University of California, Los Angeles.
- Eckmier, Janice (1990)** Professor of Secondary Education. B.A. 1970, University of California, Los Angeles; M.S. 1971, CSU, Northridge; Ph.D. 1978, University of Southern California.
- Edles, Laura D. (2000)** Professor of Sociology. B.A. 1981, University of California-Santa Barbara; M.A. 1984, Ph.D. 1990, University of California, Los Angeles.
- Edmunds, Peter J. (1992)** Professor of Biology. B.S. 1983, University of Newcastle, England; Ph.D. 1986, Glasgow University.
- Edson, Eric W. (1999)** Professor of Cinema and Television Arts. B.A. 1967, M.F.A. 1969, University of California, Los Angeles; M.F.A. 1977, American Film Institute.
- Efrat, Merav W. (2011)** Assistant Professor of Health Sciences. B.A. 1992, University of California Santa Cruz; M.P.H. 1997, California State University, Northridge; Ph.D. 2010, University of Southern California.
- Efrat, Rafi (1999)** Professor of Accounting and Information Systems. B.S. 1989, CSU, Northridge; Ed.D. 1992, University of Southern California; J.S.M. 1998, Stanford University.
- Ehrgott, Richard (1986)** Professor of Engineering. B.S. 1978, M.S. 1981, CSU, Northridge; Ph.D. 1992, University Of Southern California.
- Eichten, Sharon (1977)** Director, Budget Planning and Management. B.S. 1988, CSU, Northridge.
- Eickman, Jordan (2003)** Associate Professor of Deaf Studies. B.A. 1997, Arizona State University; Ph.D. 2004, University of Bristol.
- Eipe, Anne (2007)** Counselor, University Counseling Services. B.A. 1993, University of California, Los Angeles; Ph.D. 2004, Kent State University.
- Eisenstock, Barbara (2000)** Lecturer in Journalism. B.A. 1972, M.A. 1973, University of Michigan; M.A. 1978, Ph.D. 1979, University of Southern California.
- Elias, James E. (2002)** Lecturer in Sociology. B.A. 1962, M.A. 1965, Southern Illinois University; Ph.D. 1978, Institute for Advanced Studies, San Francisco.
- Eloranta, Jussi M. (2006)** Associate Professor of Chemistry and Biochemistry. M.Sc. 1993, Ph.D. 1997, University of Svavskyla.
- El Naga, Nagi (1979)** Professor of Electrical and Computer Engineering. B.Sc. 1970, M.Sc. 1974, Ain Shams University, Cairo; Ph.D. 1978, University of Waterloo.
- Elwakil, Emad (2012)** Assistant Professor of Civil Engineering and Applied Mechanics. B.Sc. 2002, M.A.Sc. 2006, Zagazig University; Ph.D. 2011, Concordia University.
- Embleton, Kimberly (2003)** Senior Assistant Librarian, Technical Services. B.A. 1991, CSU, Northridge; M.L.S. 1993, University of California Los Angeles.
- Eng-Ziskin, Susanna (2006)** Associate Librarian, Reference and Instructional Services. B.A. 1998, La Salle University; M.L.I.S. 2000, University of Pittsburgh.
- Ericson, Bonnie O. (1984)** Professor of Secondary Education. B.A. 1971, Saint Olaf College; M.S. 1977, Ph.D. 1984, Syracuse University.
- Escobar, Martha D. (2011)** Assistant Professor of Chicana/o Studies. B.A. 2003, University of California Riverside; M.A. 2006, Ph.D. 2010, University of California, San Diego.
- Esparza, Salvador J. (2010)** Assistant Professor in Health Sciences. B.S.N. 1992, CSU Dominguez Hills; M.S.H.A. 1994, CSU Northridge; DHA, 2010, Medical University of South Carolina.
- Espinoza, Robert E. (2001)** Professor of Biology. B.S. 1990, CSU, San Diego; Ph.D. 2002, University of Nevada, Reno.
- Estrada, Alicia I. (2006)** Associate Professor of Chicana/o Studies. B.A. 1997, University of California, San Diego; M.A. 2003, University of California, Santa Cruz.
- Evans, Kellie M. (1999)** Professor of Mathematics. B.A. 1990, University of California, San Diego; M.A. 1994, Ph.D. 1996, University of Wisconsin.
- Faiman, Patricia. (1988)** Articulation Officer, Admissions and Records and Coordinator Program Review, Undergraduate Studies. B.A. 1977, Rutgers University.
- Fager, Cathleen (2005)** Manager of Academic Resources, College of Business and Economics. A.B. 1980, Stanford University; M.B.A. 1983, University of California, Los Angeles.
- Fajardo-Lira, Claudia (2001)** Professor of Family and Consumer Sciences. B.S. 1992, Universidad Iberoamericana; M.S. 1996, Ph.D. 1999, Purdue University.
- Falco, Pierluigi (2011)** Assistant Professor of Mathematics. B.S. 2001, Ph.D. 2006, Universite "La Sapienza".
- Farquhar, Mark (2007)** Assistant Professor of Art. B.A. 1989, Michigan State University; M.F.A. 1995, University of Southern California.
- Farzan, Fariba (1990)** Director, Student Services Center/EOP Satellite, College of Business and Economics. B.S. 1990, CSU, Northridge.
- Fernandez, Alfredo B. (1998)** Captain, Parking and Transportation, Department of Police Services.
- Fernandez, Silvia (2001)** Professor of Mathematics. B.S. 1995, National University of Mexico; Ph.D. 2001, Rutgers University.
- Feucht-Havir, Joyce A. (1996)** Dean, The Tseng College. B.A. 1974, Ohio University; M.A. 1978, University of Chicago.
- Fairchild, William B. (1994)** Capital Program Manager, Facilities Planning, Design and Construction. B.S. 1982, Georgia Institute of Technology; M.S. 1985, University of Texas Austin.
- Field, Frederic W. (2000)** Professor of English. B.A. 1982, University of California, Irvine; M.A. 1984, CSU, Fullerton; M.A. 1994, Ph.D. 1998, University of Southern California.
- Fields, Samantha M. (2000)** Professor of Art. B.F.A. 1995, Cleveland Institute of Art; M.F.A. 1998, Cranbrook Academy of Art.
- Filbeck, Marilyn L. (1988)** Associate Dean, College of Health and Human Development and Professor of Family and Consumer Sciences. B.A. 1964, CSU, Los Angeles; M.A. 1967, Loma Linda University; Ph.D. 1972, Southern Illinois University.
- Finney, Craig L. (1979)** Professor of Recreation and Tourism Management. B.S. 1973, M.S. 1977, CSU, Northridge; Ph.D. 1982, Claremont Graduate School.
- Fischbach, Ronald H. (1969)** Professor of Health Sciences. B.A. 1966, M.S. 1969, Ph.D. 1976, University of California, Los Angeles.
- Fischhaber, Paula (2005)** Assistant Professor of Chemistry and Biochemistry. B.A. 1992, University of Colorado at Boulder; Ph.D. 1998, University of Washington.
- Fitzgerald, Maureen (2009)** Associate Vice President, Development. B.A. Westfield State College; M.B.A. American International College.
- Fitzgerald, Steven M. (1994)** Associate Professor of Computer Science. B.S. 1986, Lowell University; M.S. 1990, Ph.D. 1995, University of Massachusetts.
- Fitzpatrick-Behrens, Susan (2002)** Associate Professor of History. B.A. 1992, CSU, Long Beach; Ph.D. 2001, University of California, San Diego.
- Flanagan, Sean P. (2004)** Associate Professor of Kinesiology. B.S. 1990, Pennsylvania State University; M.S. 2000, University of Dayton; Ph.D. 2004, University of Southern California.
- Fleischer, Flavia S. (2011)** Associate Professor of Deaf Studies. B.A. 1994, Gallaudet University; M.A. 1996, California State University, Northridge; M.A. 2006, Ph.D. 2011, Gallaudet University.
- Foldvary, Sherry L. (2008) **Lecturer in Communication Disorders and Sciences.** B.S. 1982, Loma Linda University; M.A. 1985, California State University, Northridge; M.B.A. 2006, La Sierra University.
- Foley, Brian J. (2004)** Associate Professor of Secondary Education. B.A. 1991, M.S.E. 1996, Ph.D. 1999, University of California, Berkeley.
- Ford, Thomas J. (1997)** Associate Athletic Director, External Affairs. B.B.A. 1977, University of Pacific.
- Fordham-Jacobs, Teresa (2005)** Lecturer in Education Psychology and Counseling.
- Fox, Timothy W. (1977)** Professor of Engineering. B.S.E. 1969, B.S.E. 1971, M.S.E. 1971, University of Michigan.
- Fountaine, H. Drew (2007)** Lecturer in Accounting and Information Systems. B.S. 1981, California State University, Fresno; M.B.A. 1997, California State University, Northridge.
- Franco, Abel (2006)** Associate Professor of Philosophy. Ph.D. 1999, University of Salamanca; Ph.D. 2006, University of Pittsburgh.
- Frehlich, Shane (2001)** Professor of Kinesiology. B.A. 1992, University of Calgary; Ph.D. 1997, University of Florida.
- Friedman Narr, Rachel (2003)** Assistant Professor of Special Education. B.A. 1986, University of California, Santa Barbara; M.S. 1987, Teachers College, Columbia; Ph.D. 1999, University of Arizona.
- Fuller, Terry (1998)** Associate Professor of Mathematics. B.A. 1985, University of Rochester; M.S. 1987, University of Chicago; Ph.D. 1996, University Of Texas.
- Furumoto, Rosa (2002)** Associate Professor of Chicana/o Studies. B.A. 1982, M.A. 1991, California State University, Northridge; Ed.D. 2001, University of California, Los Angeles.
- Gabrovsky, Peter N. (1989)** Professor of Computer Science. M.S. 1968, Warsaw University; Ph.D. 1977, Syracuse University.
- Gadomski, Stephen (1978)** Professor of Engineering. B.A. 1969, M.S. 1972, CSU, Northridge; Professional Engineer, States of California, Colorado, New Jersey, New York, Texas and Washington and the Province of British Columbia.
- Gainsburg, Julie (2003)** Associate Professor of Secondary Education. A.B. 1982, Brown University; M.Ed. 1988, University of Massachusetts; Ph.D. 2003, Stanford University.

- Galli, Nicholas A. (2011)** Assistant Professor of Kinesiology. B.A. 2002, Sacramento State University; M.S. 2005, Miami University; Ph.D. 2009, University of Utah.
- Garcia, Jorge (1984)** Professor of Chicana/o Studies. B.A. 1968, Fresno State University; Ph.D. 1986, University of California, Riverside.
- Garcia, Ramon (1999)** Professor Chicana/o Studies. B.A. 1991, University of California, Santa Cruz; M.A. 1995, Ph.D. 1997, University of California, San Diego.
- Garcia-Acevedo, Maria R. (2000)** Professor of Political Science. B.A. 1980, National University; M.A. 1992, University of New Mexico; Ph.D. 1996, University of Arizona.
- Garcia, Eric P. (2007)** Senior Assistant Librarian, Reference and Instructional Services. B.A. 2000, Loyola Marymount University; M.A. 2004, Pepperdine University; M.L.I.S. 2006, San Jose State University.
- Garcia, Peter (2007)** Associate Professor of Chicana/o Studies. B.M.E. 1986, University of New Mexico; M.M. 1989, University of Arizona; M.M. 1996, Ph.D. 2001, University of Texas.
- Gardner, Michael (2005)** Lecturer in Psychology. B.A. 1971 San Fernando Valley State College; M.A. 1974, CSU, Northridge; Ph.D. 1985, United States International University, San Diego.
- Garrett, Glen R. (2002)** Lecturer in Music. B.M. 1973, University of Utah.
- Garrett, Simon J. (2008)** Assistant Professor of Chemistry and Biochemistry. B.Sc. 1986, University of Sussex; Ph.D. 1991, Imperial College of Science and Technology.
- Gateward, Frances K. (2011)** Assistant Professor of Cinema and Television Arts. B.A. 1986, Temple University; M.A. 1988, Ph.D. 2000, University of Maryland.
- Gehart, Diane R. (2004)** Professor of Educational Psychology and Counseling. B.A. 1992, College of William and Mary; M.A. 1994, Ph.D. 1997, St. Mary's University.
- Geng, Xiaojun (2003)** Associate Professor of Electrical and Computer Engineering. B.S. 1993, M.S. 1996, Northwestern Polytechnical University; Ph.D. 1999, Shanghai Jiao Tong University; Ph.D. 2003, University of Florida.
- Gerbas, Alexandra (2008)** Assistant Professor of Sociology. A.B. 1998, Duke University; Ph.D. 2007, Stanford University.
- Geter, Leroy (1983)** Assistant Director for Transfer Center/Programs. B.A. 1975, CSU, Northridge.
- Ghanem, Amine A. (2007)** Assistant Professor of Civil Engineering and Applied Mechanics. B.E. 2001, Beirut Arab University; M.S. 2002, Oklahoma State University; Ph.D. 2007, Florida State University.
- Gifford, Adam (1975)** Professor of Economics. A.B. 1969, CSU, San Diego; Ph.D. 1972, University of California, San Diego.
- Gilbert, Joyce A. (2008)** Assistant Professor of Family and Consumer Sciences. B.S. 1980, University of South Carolina; M.S.N. 1983, Clemson University, Ph.D. 1991 University of Florida, Gainesville.
- Giles, Melissa (2002)** Associate Director of Residential Life. B.A. 1991, DePaul University; M.S. 1997, Wright State University.
- Gill, Anne (2007)** Lecturer in Family and Consumer Sciences. B.A., 1987, M.S., 1991, California State University, Northridge.
- Giordano, Angie (2002)** Assistant Professor of Family and Consumer Sciences. B.A. 1996, The University of North Carolina, Chapel Hill; Ph.D. 2002, The Ohio State University.
- Giotta, Gina N. (2011)** Assistant Professor of Communication Studies. B.A. 2002, University of California Berkeley; M.A. 2006, Ph.D. 2011, University of Iowa.
- Giraud, Rachel F. (2011)** Assistant Professor of Anthropology. B.A. 2001, M.A. 2004, Ph.D. 2011, University of California Berkeley; M. Phil. 2002, University of Cambridge.
- Glassman, Alan M. (1971)** Professor of Management. B.S. 1967, M.B.A. 1969, Ph.D. 1971, State University of New York.
- Glavin, Anne P. (2002)** Chief of Police. B.A. 1975, Wheaton College; M.Ed. 1981, Boston University.
- Godard, John E. (2002)** Associate Professor of Sociology. B.A. 1989, M.A. 1995, Ph.D. 2005, University of Virginia.
- Gold-Brubaker, Laurie (1999)** Manager, Benefits Administration. B.A. 1989, California State University, Northridge.
- Golden, Nina (2000)** Associate Professor of Business Law. B.A. 1987, Cornell University; M.A. 1991, CSU, Northridge; J.D. 1994, University of San Diego.
- Goldner, Erik H. (2008)** Assistant Professor of History. B.A. 1992, Swarthmore College; M.A. 1999, Ph.D. 2007, Columbia University.
- Goldschmidt, Pete G. (2006)** Associate Professor of Educational Psychology and Counseling. B.A. 1985, Ph.D. 1997, University of California, Los Angeles; M.A. 1987, University of California, Santa Barbara.
- Gonzalez, Rosemary (2001)** Associate Professor of Child and Adolescent Development and Chicana/o Studies. B.A. 1996, Ph.D. 2003, Stanford University.
- Goodwin, Alan (2002)** Clinical Psychologist; Counseling Services. B.S. 1986, Michigan State University; M.A. 2001, Ph.D., Southern Illinois University; J.D. 1990, Michigan Law School.
- Goodwin, Vanessa A. (2011)** Assistant Professor of Special Education. B.A. 1996, Ph.D. 2011, University of California Riverside; M.A. 2002, Azusa Pacific University.
- Gordon, Lynn (2002)** Assistant Professor of Elementary Education. B.A. 1980, M.A. 1981, Occidental College; Ph.D. 1995, University of California, Los Angeles.
- Gorman, Philip C. (1998)** Associate Professor of Management. B.S. 1990, University of Vermont; M.B.A. 1992, University of Massachusetts; Ph.D. 1998, University of Illinois.
- Gottfried, Adele (1978)** Professor of Educational Psychology and Counseling. B.A. 1967, Queens College; M.A. 1968, University of Chicago; Ph.D. 1975, Graduate School of the City University of New York; Licensed Psychologist, State of California.
- Grant, Sheila R. (1994)** Professor of Psychology. B.A. 1987, M.A. 1989, CSU, Northridge; Ph.D. 1996, University of California, Santa Barbara.
- Graves, Steven (2003)** Associate Professor of Geography. B.A. 1988, B.S. 1991, Ohio State University; M.A. 1993, Miami University; Ph.D. 1999, University of Illinois.
- Gray, David A. (2001)** Professor of Biology. B.A. 1992, University of California, Santa Cruz; Ph.D. 1997, University of New Mexico.
- Gray, Glen L. (1987)** Professor of Accounting and Information Systems. B.S. 1970, Michigan Technology University; M.B.A. 1973, University of California, Los Angeles; Ph.D. 1988, University of Southern California.
- Green, Karen (2002)** Lecturer in Communication Disorders and Sciences. B.A. 1967, University of Texas, El Paso; M.A. 1972, Texas Tech University; Ed.D. 1979, University of Houston.
- Greene, James (1989)** Academic Advisor, Advising Resource Center/Educational Opportunity Program. B.A. 1989, M.P.A., 1992, CSU, Northridge.
- Greenhaigh, Kim R. (1978)** Associate Professor of Business Law. B.A. 1972, Stanford University; J.D. 1975, University of Utah.
- Grego, Peter (1984)** Professor of Theatre. B.F.A. 1972, M.F.A. 1973, Carnegie Mellon University.
- Gregory, Richard A. (2006)** Director of Doctoral Programs and Professor of Educational Leadership and Policy Studies. B.S. 1969, 1980 M.Ed., Montana State University; Ed.D. 1993, University of Wyoming.
- Gressis, Robert A. (2008)** Assistant Professor of Philosophy. B.A. 1998, University of Dayton; M.A./Ph.D. 2007, University of Michigan.
- Griffin, Judith E. (2007)** Lecturer in Family and Consumer Sciences. B.F.A. 1980, California State University, Long Beach; M.A. 1995, University of California, Los Angeles.
- Gross, Barbara L. (1996)** Chief of Staff, President's Office and Professor of Marketing. B.S. 1977, Ambassador College; M.B.A. 1983, CSU, Los Angeles; Ph.D. 1992, University of Southern California.
- Gustafson, Robert W. (1996)** Professor of Cinema and Television Arts; Director, Entertainment Industry Institute. B.S. 1972, M.A. 1978, Ph.D. 1983, University of Wisconsin.
- Gutierrez, Gabriel (2000)** Professor of Chicana/o Studies. B.A. 1990, M.A. 1993, Ph.D. 1997, University of California, Santa Barbara.
- Haake, Katharine K. (1986)** Professor of English. A.B. 1974, University of California, Santa Cruz; M.A. 1980, Stanford University; Ph.D. 1985, University of Utah.
- Hackett, Cedric D. (2011)** Assistant Professor of Pan African Studies. B.A. 1995, M.S. 2002, California State University, Northridge; Ed. D. 2011, Cal Lutheran University.
- Hadvina, Shellie (1992)** Assistant Director, Alumni Relations. B.S. 1991, CSU Northridge; M.P.A. 1998, CSU Northridge.
- Hajdu, Joseph (1984)** Professor of Chemistry and Biochemistry. B.Sc. 1965, M.Sc. 1967, Hebrew University; Ph.D. 1972, State University of New York.
- Halaas, Beth (2004)** Director of Field Education in Social Work. B.A. 1987, Boise State University; M.S.W. 1993, University of California, Los Angeles.
- Halcoussis, Dennis A. (1991)** Professor of Economics. B.A. 1985, Case Western Reserve University; M.A. 1986, Ph.D. 1992, University of Pennsylvania.
- Hale, Jacob C. (1991)** Professor of Philosophy. B.A. 1981, Pitzer College; M.A. 1985, Ph.D. 1988, University of North Carolina.
- Hall, Edward (1971)** Professor of Communication Disorders and Sciences. B.S. 1954, M.A. 1964, University of Hawaii; Ph.D. 1971, University of Southern California.
- Hall, Leilani R. (2002)** Associate Professor of English. B.A. 1989, M.A. 1992, Ohio University; Ph.D. 2001, University of Southern Mississippi.
- Hammond, Debra L. (1993)** Executive Director, University Student Union. B.A. 1979, Rutgers University; M.A. 1992, CSU, Los Angeles.
- Haney, Michele (1988)** Associate Professor of Special Education. B.A. 1974, Goddard College; M.A. 1979, Castleton State College; Ph.D. 1988, University of California, Los Angeles.
- Hang, Xiyi (2004)** Associate Professor of Electrical and Computer Engineering. B.S. 1992, Zhejiang University; Ph.D. 2004, Ph.D. 2005, Ohio State University.
- Hansen, Lindsay J. (2007)** Associate Librarian, Reference and Instructional Services. B.A. 1999, Knox College; M.L.I.S. 2006, University of California, Los Angeles.
- Hanson, Charles E. (1980)** Professor of Educational Psychology and Counseling. B.A. 1967, Wheaton College; M.A. 1968, Ph.D. 1979, University of California, Los Angeles; Licensed Psychologist, State of California.
- Harrel-Smith, Jerry Ann (2003)** Lecturer in Family and Consumer Sciences. B.S. 1975, California State University, Los Angeles; M.A. 1976, Immaculate Heart College; M.S. 1997, California State University, Northridge; Ph.D. 2006, Claremont Graduate University.
- Harris, Matthew (1996)** Professor of Music. B.M. 1982, University of Miami; M.M. 1985, Eastman School of Music.
- Harrison, Dianne F. (2012)** President. B.A. 1971, University of Alabama; M.S.W. 1973, University of Alabama; Ph.D. 1976, Washington University.
- Harutyunyan, Ani (2001)** Interim Director, College of Social and Behavioral Science Student Services Center/EOP. BA 2000, MS 2002, California State University, Northridge.
- Hashimoto, Ichiro (1968)** Professor of Electrical and Computer Engineering. B.S. 1959, M.S. 1960, Ph.D. 1967, University of California, Los Angeles.
- Hatfield, Charles (2001)** Associate Professor of English. B.A. 1988, University of California, Santa Barbara; M.A. 1991, Ph.D. 2000, University of Connecticut.
- Hatfield, Thomas H. (1988)** Professor of Environmental and Occupational Health. B.S. 1976, Stanford University; M.P.H. 1978, Dr. P.H. 1985, University of California, Los Angeles.
- Hattar-Pollara, Marianne (2010)** Professor of Nursing. B.S.N. 1977, University of Jordan; M.S.N. 1980, University of California Los Angeles; D.N.Sc. 1986, University of California San Francisco.
- Hattori, Tomo (2011)** Assistant Professor of Asian American Studies. B.A. 1988, University of Toronto; M.A. 1989, Ph.D. 1994, McMaster University.
- Hayashi, Christine A. (2006)** Associate Professor of Educational Leadership and Policy Studies. B.A. 1977, M.A. 1993, 1996, CSU, Northridge; J.D. 2000, Loyola Law School.
- Hayes, James (2008)** Assistant Professor of Geography. B.A. 1999, Indiana University-Purdue University; M.A. 2001, Indiana State University; Ph.D. 2008, Indiana University.
- Hedrick, Kimberly D. (2011)** Assistant Professor of Anthropology. B.A. 2001, M.A. 2003, Ph.D. 2007, University of California Riverside.
- Heermance, Richard (2009)** Assistant Professor of Geological Sciences. B.S. 1995, Colorado College; M.S. 2002, Utah State University; Ph.D. 2007, University of California, Santa Barbara.
- Hegab, Mohamed Y. (2004)** Assistant Professor of Civil Engineering and Applied Mechanics. B.S. 1992, M.S. 1998, Cairo University; Ph.D. 2003, North Dakota State.

- Heinen, Julia M. (1995)** Professor of Music. B.M. 1982, University of Minnesota; M.M. 1983, University of Michigan; D.M.A. 1988, University of Minnesota.
- Heinrich, Helen (2005)** Librarian, Department of Technical Services. B.A. 1984, St. Petersburg Institute of Culture, Russia; M.S. 2000, University of California, Los Angeles.
- Heisley, Deborah D. (2000)** Professor of Marketing. B.S., B.A. 1982, University of Arizona; Ph.D. 1990, Northwestern University.
- Helper, Doris (1996)** Librarian, Technical Services. B.A. 1974, CSU, Northridge; M.S.L. 1975, Western Michigan University.
- Hellenbrand, Harold (2004)** Provost and Vice President for Academic Affairs; Professor of English. A.B. 1975, Harvard College; Ph.D. 1980, Stanford University.
- Henderson, Andrea D. (2008)** Assistant Professor of History. B.A. 1990, Harvard University; M.A. 2003, Ph.D. 2005, Stanford University.
- Henderson, Lynette K. (2006)** Associate Professor of Art. B.F.A. 1986, Minneapolis College of Art and Design; M.F.A. 1989, University of Minnesota; Ph.D. 2006, Arizona State University.
- Henige, Kimberly (2008)** Assistant Professor of Kinesiology. B.A. 1990, M.A. 1992, California State University, Northridge; Ed.D. 2005, University of Southern California.
- Henningfield, Jennifer (2006)** Assistant Director of Field Education in Social Work. B.A. 1985, California State University, Northridge; MSW 1988, University of California, Los Angeles.
- Hennessey, Judith E. (1980)** Associate Dean, College of Business and Economics and Professor of Marketing. B.A. 1975, M.A. 1977, Ph.D. 1980, University of Louisville.
- Henry, James Lee, JR. (1994)** Academic Advisor, Advising Resource Center/Educational Opportunity Program. B.A. 1991, M.A. 1994, CSU, Northridge.
- Henry, Marcia (1985)** Librarian, Reference and Instructional Services. B.A. 1963, Douglass College, Rutgers; M.A. 1966, M.S. 1968, University of Chicago.
- Her (Hussein), Monica M. (1999)** Professor of Finance, Real Estate and Insurance. B.B.A. 1981, Fu-Jen Catholic University; M.S. 1989, Ph.D. 1999, Texas A & M University.
- Herman, Phyllis K. (1998)** Professor of Religious Studies. B.A. 1968, Ph.D. 1979, University of California, Los Angeles.
- Hernandez, Javier (2004)** Director, Student Outreach and Recruitment. B.A. 1979, University of California, Riverside; M.A. 1983, University of San Diego.
- Herr, Norman (1986)** Professor of Secondary Education. B.S. 1977, University of California, Irvine; M.S. 1979, University of California, Davis; Ph.D. 1990, University of California, Los Angeles.
- Herrera, Fermin (1971)** Professor of Chicana/o Studies. B.A. 1970, University of California, Los Angeles.
- Herrera, Isabel M. (1978)** Professor of Chicana/o Studies. B.A. 1975, M.A. 1985, University of California, Los Angeles.
- Herrero, Juan (2000)** Lecturer in Religious Studies. B.A. 1981, Universidad Complutense; M.A. 1985, University of California, Los Angeles; M.A. 1987, Ph.D. 1993, University of Southern California.
- Hertel, Fritz S. (2000)** Professor of Biology. Ph.D. 1994, University of California, Los Angeles.
- Hertzog, Hillary S. (1998)** Associate Professor of Elementary Education. B.S. 1976, M.S. 1981, Ed.D. 1988, University of Southern California.
- Highfield, Martha E. (1996)** Professor of Nursing. B.S.N. 1976, University of Tennessee; M.N. Sc. 1981, University of Arkansas; Ph.D. 1989, Texas Woman's University.
- Hill, James F. (2002)** Associate Professor of Journalism. B.A. 1975, CSU, San Diego; M.A. 2005, CSU, Northridge.
- Hirata, Keiko (2003)** Associate Professor of Political Science. B.A. 1986, Nanzan University; M.A. 1989, University of Oregon; Ph.D. 2000, University of Hawaii.
- Ho, Nhut T. (2004)** Assistant Professor of Mechanical Engineering. B.S. 1996, University of Southern California; M.S. 1998, Ph.D. 2005, Massachusetts Institute of Technology.
- Hogen-Esch, Tom J. (2002)** Professor of Political Science. B.A. 1991, Ph.D. 2001, University of Southern California.
- Hoggan, Michael B. (2003)** Associate Professor of Cinema and Television Arts. B.A. 1967, M.A. 1969, CSU, San Diego.
- Hogue, Cheryl C. (1995)** Professor of Biology. B.S. 1980, M.S. 1982, Murray State University; Ph.D. 1988, University of Wisconsin Madison.
- Holloway, Joseph E. (1985)** Professor of Pan-African Studies. B.A. 1971, CSU, Northridge; M.A. 1972, Ph.D. 1980, University of California, Los Angeles.
- Holman Jones, Stacy L. (2011)** Associate Professor of Communication Studies. B.A. 1988, Iowa State University; M.A. California State University, Sacramento; Ph.D. 2001, University of Texas.
- Holmes, Christopher (1975)** Clinical Psychologist, Counseling Services. B.A. 1972, CSU, Northridge; M.A. 1974, Ph.D. 1976, California School of Professional Psychology.
- Hong, Ray L. (2008)** Assistant Professor. B.A. 1996, Pomona College; Ph.D. 2002, University of California, San Diego.
- Horn, Werner (1998)** Professor of Mathematics. M.A. 1986, Ph.D. 1989, University of California, Los Angeles.
- Horne, David (1997)** Professor of Pan-African Studies. B.A. 1968, M.A. 1973, University of Florida; M.P.A. 1984, CSU San Bernardino; Ph.D. 1984, University of California, Los Angeles.
- Horowitz, Richard S. (1999)** Professor of History. B.A. 1989, Haverford College; M.A. 1991, Ph.D. 1998, Harvard University.
- Hosken, Daniel W. (1999)** Professor of Music. B.S. 1990, Massachusetts Institute of Technology; M.M. 1992, New England Conservatory; D.M.A. 1998, University of Wisconsin.
- Houdyshell, Mara L. (1998)** Librarian, Reference and Instructional Services. B.A. 1980, M.A. 1985, CSU, Northridge; M.L.S. 1991, University of California, Los Angeles.
- Howes, Rachel T. (2003)** Associate Professor of History. B.A. 1991, Amherst College; M.A. 1994, Georgetown University; Ph.D. 2003, University of California, Santa Barbara.
- Hsu, Sharon Yu-Fang (2008)** Assistant Professor of Kinesiology. B.S. 1995, National Taiwan Sports University; M.S. 2001, Texas Woman's University; Ph.D. 2006, University of Illinois at Urbana-Champaign.
- Huber, Bettina J. (2005)** Director, Institutional Research. B.A. 1965, Oberlin College; M.Phil. 1968, Ph.D. 1973, Yale University.
- Huynh, Que-Lam (2011)** Assistant Professor of Psychology. B.A. 2002, University of San Diego; M.A. 2004, California State University, Long Beach; Ph.D. 2009, University of California Riverside.
- Huynh, Virginia W. (2011)** Assistant Professor of Child and Adolescent Development. B.A. 2005, Loyola Marymount University; Ph.D. 2011, University of California, Los Angeles.
- Hymel, Kent M. (2012)** Assistant Professor of Economics. B.A. 2001, Lewis and Clark College; Ph.D. 2009, University of California, Irvine.
- Ice, Christopher E. (2004)** Director, Virtual Services and Systems Administration, Information Technology. B.A. 2004, Boston University.
- Jackiewicz, Edward (2001)** Professor of Geography. B.S. 1983, Arizona State University; M.A. 1993, Temple University; Ph.D. 1998, Indiana University.
- Jackson, Catherine A. (2006)** Professor of Communication Disorders and Sciences. B.A. 1975, University of Redlands; M.S. 1977, University of Wisconsin-Madison; Ph.D. 2001, University of California, Los Angeles.
- Jackson, Gregory C. (1986)** Associate Professor of Educational Psychology and Counseling. B.A. 1967, M.A. 1972, M.S. 1981, CSU, Los Angeles; Ed.D. 1992, University of California, Los Angeles; Nationally Certified Counselor; Nationally Certified Career Counselor.
- Jaque, Sarah (2003)** Assistant Professor of Kinesiology. B.S. 1985, Ph.D. 1994, University of Southern California.
- Jaros, Ellen E. (2011)** Senior Assistant Librarian, Technical Services. B.A. 1991, M.L.I.S. 2010, University of California Los Angeles.
- Jeffries, Bayyinah S. (2011)** Assistant Professor of Pan African Studies. B.S. 1991, Temple University; M.A. 1999, Ohio State University; Ph.D. 2009, Michigan State University.
- Jennings, Penelope R. (1980)** Associate Vice President, Faculty Affairs; Professor of Business Law. B.A. 1973, University of California, Davis; J.D. 1976, University of California, Los Angeles.
- Jennings, William P. (1977)** Dean, College of Business and Economics and Professor of Finance, Real Estate and Insurance. B.A. 1970, CSU, Hayward; M.A. 1974, Ph.D. 1981, University of California, Los Angeles.
- Jensen, Vickie (1997)** Associate Professor of Sociology. B.A. 1988, M.A. 1991, University of Oklahoma; Ph.D. 1997, University of Colorado.
- Jepsson, Catherine (1983)** Lecturer in Accounting and Information Systems. B.S. 1971, M.S. 1975, CSU, Northridge.
- Jin, Yanbo (2003)** Associate Professor of Finance, Real Estate, and Insurance. B.S. 1993, Xian Jibotong University; M.A. 1997, Fordham University; Ph.D. 2003, University of California, Irvine.
- Joaquin, Anna D. (2011)** Assistant Professor of Linguistics/TESL. B.A. 1998, University of California Berkeley; M.A. 2005, Ph.D. 2011, University of California, Los Angeles.
- Johari, Hamid (2006)** Professor of Mechanical Engineering. B.S. 1983, California Institute of Technology; M.S. 1984, Ph.D. 1989, University of Washington.
- Johnson, Gordon D. (1973)** Professor of Systems and Operations Management. B.B.A. 1967, M.S. 1968, Ph.D. 1973, University of Wisconsin.
- Johnson, Jodi (1989)** Associate Director, Center on Disabilities. B.A. 1992, CSU, Northridge.
- Johnson, Peggy E. (2008)** Assistant Professor of Educational Leadership and Policy Studies. B.A. 1973, M.A. 1984, San Diego State University; Ed.D. 2008, University of California, San Diego, San Diego State University, California State University, San Marcos Joint Doctoral Program.
- Johnson-Majedi, Karla (1994)** Director of Student Services Center/EOP College of Engineering and Computer Science. B.A. 1981, Wartburg College; M.A. 1992, University of New Mexico; Ed.D. 2002, Pepperdine University.
- Jones, Christopher G. (2007)** Professor of Accounting and Information Systems. B.S. 1974, California State University, Northridge; M.B.A. 1982, Brigham Young University; Ph.D. 1995, Utah State University.
- Jones-Nicol, Doris J. (1987)** Professor of Educational Psychology and Counseling. B.A. 1972, Herbert H. Lehman College, CUNY; M.S. 1974, St. John's University; Ph.D. 1979, University of Pittsburgh; Licensed Psychologist, California.
- Joshua Williams, Marilyn B. (2000)** Professor of Elementary Education. B.A. 1973, University of California, Los Angeles; M.A. 1995, Ph.D. 1996, Claremont Graduate University.
- Juarez-Dappe, Patricia (2002)** Assistant Professor of History. B.A. 1991, University of Buenos Aires; M.A. 1997, Ph.D. 2002, University of California, Los Angeles.
- Jung, Taeyou (2003)** Assistant Professor of Kinesiology. B.S. 1998, Seoul National University; M.Ed. 1999, Ph.D. 2003, University of Virginia.
- Kabirian, Alireza (2011)** Assistant Professor of Manufacturing Systems Engineering Management. B.S. 2003 Azad University of Najafabad; M.S. 2006, Sharif University of Technology; Ph.D. 2009, Iowa State University.
- Kabo, J. Michael (2004)** Professor of Mechanical Engineering. B.S., A.B. 1974, Rutgers University; M.S. 1975, Ph.D. 1980, University of California, Berkeley.
- Kachingwe, Aimie (2002)** Associate Professor of Physical Therapy. B.S. 1989, M.P.T. 1992, University of Iowa; Ed.D. 2000, Northern Illinois University; D.P.T. 2008, University of St. Augustine.
- Kaja, Jeffrey D. (2011)** Assistant Professor of History. B.A. 2000, University of California Berkeley; Ph.D. 2011, University of Michigan.
- Kalfsbeek, Jennifer L. (2007)** Senior Program Director, The Tseng College. B.A.S. 1994, University of Minnesota; M.A. 2001, University of Maryland; Ph.D. 2007, Capella University.
- Kang, Sun-Mee (2003)** Associate Professor of Psychology. B.A. 1987, Seoul National University; M.A. 1995, Southern Methodist University; Ph.D. 2001, University of California, Davis.
- Karels, Timothy J. (2005)** Associate Professor of Biology. B.S. 1993, University of Toronto at Scarborough; M.S. 1996, Ph.D. 2000, University of Toronto.
- Karras-Lazaris, Bessie (1988)** Director, Academic Programs and Student Life, The Tseng College. B.A. 1977, Cleveland State University; post-baccalaureate 1979, National and Kapodistrian University of Athens; M.A. 1983, Cleveland State University.
- Katz, Gary S. (1998)** Associate Professor of Psychology. A.B. 1989, Cornell University; M.S. 1992, Ph.D. 1998, University of Pittsburgh.
- Katz, Sharlene (1979)** Professor of Electrical and Computer Engineering. B.S. 1975, M.S. 1976, EEE 1979, Ph.D. 1986, University of California, Los Angeles.

- Kazemi, Ellie (2006)** Associate Professor of Psychology. B.A. 1998, CSU, Northridge; M.A. 2004, Ph.D. 2006, University of California, Los Angeles.
- Kearns, Karen A. (1985)** Professor of Cinema and Television Arts. B.A. 1972, M.A. 1974, Southern Illinois University; M.A. 1980, University of Wisconsin.
- Kelly, James R. (2004)** Assistant Professor of Art. B.A. 1978, SDSU; MFA 1999, CSU, Los Angeles.
- Kelson, Eric P. (1995)** Associate Professor of Chemistry and Biochemistry. B.S. 1988, University of Utah; Ph.D. 1994, California Institute of Technology.
- Kephart III, John M. (2007)** Assistant Professor in Communication Studies. B.A. 2002, University of Southern California; M.A. 2005, University of Southern California.
- Kennedy, Virginia E. (2000)** Associate Professor of Special Education. B.Mus. 1973, State University of New York; M.S. 1975, Ph.D. 1981, University of Southern California.
- Kent, Robert B. (2008)** Professor of Urban Studies and Planning. B.A. 1973, M.A. 1976, University of California, Davis; Ph.D. 1983, Syracuse University.
- Kernoachan, Richard (2000)** Assistant Professor of Management. B.A. 1968, Dartmouth College; M.A. 1970, University of California, Los Angeles; M.B.A. 1976, Iran Center for Management Studies; Ph.D. 1997, University of Southern California.
- Kiani-Aslani, Rajaball (1978)** Professor of Accounting and Information Systems. B.A. 1965, M.A. 1966, College of Accountancy, Iran; M.S. 1969, University of California, Los Angeles; Ph.D. 1975, University of Oklahoma.
- Kiesler, Tina (2001)** Associate Professor of Marketing. B.A. 1982, University of Michigan; Ph.D. 1990, University of California, Los Angeles.
- Kim, Ah-Jeong (1994)** Professor of Theatre. B.A. 1985, Dong-Duk Women's University, Seoul; M.A. 1989, Ph.D. 1995, University of Illinois.
- Kim, Jongeun (2007)** Associate Professor of Family and Consumer Sciences. B.S. 1996, M.S. 1997, Kon-Kuk University; Ph.D. 2004, Oklahoma State University.
- Kim, Tae-Hyun (2008)** Assistant Professor of Journalism. B.A. 1998, M.A. 2000, Ohio State University; Ph.D. 2007, Washington State University.
- Kioussis, Nicholas G. (1987)** Professor of Physics and Astronomy. B.S. 1973, National University of Athens; M.S. 1975, Ph.D. 1984, University of Illinois.
- Kirkton, R. Kent (1983)** Professor of Journalism. B.S. 1972, M.S. 1975, Southern Illinois University; Ph.D. 1988, University of Iowa.
- Kite, Ashlie C. (2005)** Associate Director of Athletics. B.A. 1990, Eastern Mennonite University; M.S. 1993, James Madison University.
- Kiadifko, Robert E. (2002)** Associate Professor of Educational Leadership and Policy Studies. B.S. 1959, St. Cloud State University; M.A. 1964, California State University, Los Angeles; Ph.D. 1976, Claremont Graduate University.
- Klein, David M. (1988)** Professor of Mathematics. B.A., B.S. 1975, M.A. 1976, University of California, Santa Barbara; Ph.D. 1981, Cornell University.
- Klein, Sharon M. (1986)** Director, Writing Across the Disciplines and Professor of English. B.A. 1970, University of California, Riverside; M.A. 1977, Ph.D. 1982, University of California, Los Angeles.
- Kleinman, Scott (1999)** Professor of English. M.A. 1992, University of St. Andrews; Ph.D. 1997, University of Cambridge.
- Klemm, Peri M. (2003)** Associate Professor of Art. B.A. 1993, University of California, San Diego; M.A. 1997, Ph.D. 2002, Emory University.
- Knotts, Gregory D. (2006)** Associate Professor of Elementary of Education. B.A. 1991, M.A. 1998 Loyola Marymount University, Ph.D. 2005, University of Southern California.
- Knott, Theresa F. (2010)** Assistant Professor of Social Work. B.A. 1996, M.S.W. 2001, Ph.D. 2008, University of Toronto; B.S.W. 1999, York University.
- Kohn, Rodica (2007)** Lecturer in Family and Consumer Sciences. B.A. 1981, Central School of Art and Design, London; M.F.A. 1985, M.Arch 1994, University of California, Los Angeles.
- Krane, Lesley S. (2002)** Professor of Art. B.A. 1991, University of California, Los Angeles; M.F.A. 1995, University of New Mexico.
- Krantz, Joel W. (2011)** Assistant Professor of Cinema and Television Arts. B.A. 1985, Susquehanna University; M.A. 1998, New York University.
- Kranz, Jack (1979)** Librarian, Reference and Instructional Services. B.A. 1970, M.A. 1975, CSU, Northridge; M.L.S. 1976, University of California, Los Angeles.
- Krasilovsky, Alexis R. (1987)** Professor of Cinema and Television Arts. B.A. 1971, Yale University; M.F.A. 1984, California Institute of the Arts.
- Kretschmer, David (1997)** Professor of Elementary Education. B.S. 1980, Oregon State University; M.Ed. 1987, Ph.D. 1995, University of California, Los Angeles.
- Kroi, Robert (1983)** Professor of Economics. B.S. 1974, M.S. 1977, Ph.D. 1982, Southern Illinois University.
- Krzewinski, Kevin (2006)** Director, Database, Systems and Identity Management, Information Technology. B.S. 1983, M.B.A. 1986, Loyola University of Chicago.
- Kupfer, William R. (1991)** Environmental Compliance Manager, Public Safety. B.A. 1976, University of California, Santa Barbara; M.A. 1980, University of California, Los Angeles; M.S. 1990, CSU, Northridge.
- Kutay, Stephen D. (2011)** Senior Assistant Librarian, Technical Services. B.A. 1991, M.L.I.S. 2010, University of California Los Angeles.
- Kwok, Ernest (2009)** Assistant Professor of Biology. B.S. 1997, Harvey Mudd College; Ph.D. 2003, Cornell University.
- Kyomugisha, Florence G. (2003)** Associate Professor of Gender and Women's Studies. B.A. 1977, Makerere University; M.A. 1986, Ph.D. 2003, University of Wisconsin, Milwaukee.
- Lagana, Luciana (2000)** Professor of Psychology. B.S. 1978, Scientific Liceum at Salerno; M.S. 1989, Ph.D. 1992, University of Georgia.
- Lai, Clement K. (2011)** Assistant Professor of Asian American Studies. B.A. 1991, Pomona College; M.A. 1997, Ph.D. 2006, University of California, Berkeley.
- Laija-Rodriguez, Wilda (2000)** Associate Professor of Educational Psychology and Counseling. B.A. 1988, M.A. 1990, CSU, Northridge; Ph.D. 2000, Texas A&M University.
- Laity, Julie E. (1985)** Professor of Geography. B.A. 1973, M.A. 1976, Ph.D. 1982, University of California, Los Angeles.
- Lalum, Melissa L. (2008)** Lecturer in Journalism. B.A. 1992, University of California, Santa Barbara.
- Lam-Easton, Linda L. (1987)** Professor of Religious Studies. A.B. 1971, Boston University; A.M. 1973, Ph.D. 1980, University of Chicago.
- Lammers, Harold B. (1977)** Professor of Marketing. A.B. 1972, M.A. 1975, Ph.D. 1976, University of Missouri.
- Lampert, Lynn D. (2001)** Librarian, Reference and Instructional Services. B.A. 1994, University of California, Santa Barbara; M.A. 1998, M.L.I.S. 1998, University of California, Los Angeles.
- Langford, Drake (2011)** Assistant Professor of Modern and Classical Languages and Literatures. B.A. 1994, University of California, Berkeley; M.A. 2000, Ph.D. 2009, Yale University.
- Lasky, Beth A. (1987)** Professor of Special Education. B.A. 1973, M.A. 1977, CSU, Northridge; Ph.D. 1986, University of Arizona.
- Laurent, Michael G. (2002)** Associate Professor of Educational Psychology and Counseling. B.A. 1980, M.S. 1985, CSU, Long Beach; Ph.D. 1997, University of Southern California.
- Law, George T. (1988)** Associate Professor of Electrical and Computer Engineering. B.S.E.E. 1981, Georgia Institute of Technology; M.S.E.E. 1982, Florida Institute of Technology; Ph.D. 1987, University of Alabama.
- Lazarony, Paul (1997)** Professor of Accounting and Information Systems. B.S. 1990, M.A. 1995, Ph.D. 1999, Ohio State University.
- Lechuga, Frank (1974)** Retention Counselor, Educational Equity. B.A. 1972, CSU, Northridge; M.A. 1973, Harvard University.
- Lee, Joong-Won (2011)** Assistant Professor of Recreation and Tourism Management. B.A. 1998, Kwangju University; M.S. 2003, Ph.D. 2008, University of Utah.
- Lee, Jun-Yeon (2011)** Assistant Professor of Systems and Operations Management. B.S. 1990, M.S. 1992, Korea Advanced Institute of Science and Technology; Ph.D. 2004 Purdue University.
- Lee, Kenneth D. (2006)** Associate Professor of Religious Studies. A.B. 1988, Occidental College; M.Div. 1992, Princeton Theological Seminary; Ph.D. 2001, Columbia University.
- Lee, Howard B. (1990)** Professor of Psychology. B.A. 1971, Ph.D. 1979 University of California, Los Angeles; M.A. 1972, CSU, Northridge.
- Lee, Jieha (2008)** Assistant Professor of Social Work. B.A. 1997, M.A., 2001, Soongsil University; MSW, 2004, University of Southern California; Ph.D. 2008, Boston University.
- Lee, Tom K. (1988)** Professor of Economics. B.A. 1974, University of Michigan; M.A. 1975, State University of New York; Ph.D. 1979, California Institute of Technology.
- Leese, Danita (2008)** Executive Analyst, Information Technology. M.P.P. 2000, Pepperdine University.
- Lehman, Lillian (1991)** Professor of Theatre. B.A. 1979, CSU, Northridge.
- Leitch David G. (2011)** Assistant Professor of Political Science. B.A. 2000, Oberlin College; M.A. 2002, Ph.D. 2008, University of California, San Diego.
- Lemus, Daisy R. (2005)** Assistant Professor of Communication Studies. B.A. 2000, University of Southern California; M.A. 2002, Ph.D. 2005, University of California, Santa Barbara.
- Lennon, Garry D. (1999)** Professor of Theatre. B.A. 1988, West Chester University; M.F.A. 1991, West Virginia University.
- Lewis-Goldstein, Diane (2006)** Lecturer in Family and Consumer Sciences. B.A. 1978, University of California, Santa Cruz; B.S. 1979, M.S. 1984, California State University, Northridge.
- Levin, Amy C. (2004)** Associate Professor of Social Work. B.A./B.S. 1993, UC San Diego; MSW 1995, Columbia University; Ph.D. 2003, University of Southern California.
- Li, Jinyi (2000)** Research Associate, Michael D. Eisner College of Education. M.A. 1992, Ph.D. 1998, University of Toledo.
- Li, Mingfang (1990)** Professor of Management. B.E. 1983, Northern University of Technology; M.B.A. 1985, Appalachian State; Ph.D. 1990, Virginia Polytechnic Institute.
- Lieberman, Stacy (2011)** Associate Vice President, Marketing and Communications. B.A. 1992, Tufts University; M.A. 1996, Wayne State University.
- Lien, Maghnid (1987)** Professor of Mathematics. B.A. 1979, McGill University; M.S. 1981, Ph.D. 1984, University of Iowa.
- Ligh, May (2004)** Manager of University Cash Services. B.S. 1977, CSU, Long Beach.
- Lillard, Sheri J. (2004)** Assistant Professor of Chemistry. B.S. 1991, San Diego State University; Ph.D. 1996, Iowa State University.
- Lim, Say-Peng (1994)** Professor of Physics and Astronomy. B.A. 1982, Swarthmore College; Ph.D. 1988, University of Wisconsin.
- Lin, Chi-Tsen (1987)** Professor of Engineering. B.S.M.E. 1972, Tatung Institute of Taipei; M.S.M.E. 1977, Clarkson College of Technology; Ph.D. 1983, University of California, Davis.
- Lingard, Robert W. (1994)** Professor of Computer Science. B.A. 1963, M.A. 1965, University of California, Los Angeles; M.S. 1970, Ph.D. 1975, University of Southern California.
- Lisagor, Terri E. (2004)** Assistant Professor of Family and Consumer Sciences. B.A. 1970, UCLA; M.S. 1990, CSUN; Ed.D. 2003, Pepperdine University.
- Litke, Rebecca (1990)** Professor of Communication Studies. B.A. 1985, M.A. 1987, CSU, Northridge; Ph.D. 1990, University of Southern California.
- Little, Jennifer (2010)** Lecturer of Health Sciences. B.S. 2003, California State University, Northridge.
- Liu, David (1998)** Professor of Accounting and Information Systems. B.S. 1979, University of California, Los Angeles; M.B.A. 1982, Pepperdine University; Ph.D. 1987, University of California, Los Angeles.
- Lombardi, Judy R. (2000)** Professor of Secondary Education. B.A. 1975, M.A. 1982, University of Texas; Ph.D. 1988, New Mexico State University.
- Long, Laurel (1987)** Professor of Art. B.F.A. 1977, State University of New York; M.F.A. 1982, Syracuse University.
- Lopez, David A. (2000)** Associate Professor of Sociology. B.A. 1981, University of California, Santa Barbara; M.A. 1987, Oakland University; Ph.D. 1996, Michigan State University.
- Lopez, Jack R. (1989)** Professor of English. B.A. 1983, Portland State University; M.F.A. 1987, University of California, Irvine.
- Lopez, Mario (1997)** Director of Student Services Center/EOP, College of Health and Human Development. B.S. 1995, M.P.A. 1997, CSU, Northridge; Ed.D. 2002, University of Laverne.
- López-Garza, Marta (1997)** Professor of Chicana/o Studies and Gender and Women's Studies. B.A. 1974, M.A. 1976, Ph.D. 1985, University of California, Los Angeles.
- Lopez, Robert O. (2008)** Assistant Professor of English. B.A. 1993, Yale University; M.A. 2001, SUNY Buffalo; Ph.D. 2003, SUNY Buffalo.

- Lord, Patricia R. (1987)** Director, Admissions and Records. B.A. 1997, M.A. 2006, California State University, Northridge.
- Lorentz, Richard J. (1987)** Professor of Computer Science. B.A. 1975, Claremont McKenna College; Ph.D. 1980, Washington State University.
- Loritz, Jan (1983)** Assistant Director, Administration, Student Health Center. B.S. 1987, University of LaVerne.
- Love, Michael W. (1999)** Professor of Anthropology. A.B. 1977, M.A. 1982, Ph.D. 1989, University of California, Berkeley.
- Love, Susan M. (2007)** Associate Professor of Social Work. B.A. 1973, University of California, Berkeley; M.A. 1975 John F. Kennedy University; M.S.W. 1986, Ph.D. 1987, University of Washington.
- Low, Sheryl (2000)** Associate Professor of Physical Therapy. B.S. 1986, M.P.H. 1991, California State University, Northridge; D.P.T. 2005, Western University of the Health Sciences; D.Sc. 2008, Rocky Mountain University of Health Professions.
- Lowenberg, Anton D. (1984)** Professor of Economics. B.A. 1979, University of Natal; M.A. 1981, Ph.D. 1984, Simon Fraser University.
- Loy, Steven F. (1987)** Professor of Kinesiology. B.A. 1978, M.A. 1979, CSU, Northridge; Ph.D. 1985, Brigham Young University.
- Lu, Gang (2004)** Associate Professor of Physics and Astronomy. B.S. 1992, Chong Qing University; M.S. 1994, Chinese Academy of Sciences.
- Lucero-Liu, Ana (2010)** Assistant Professor of Family and Consumer Sciences. B.S. 1997, Carnegie Mellon University; M.S. 2003, Ph.D. 2007, University of Arizona.
- Luedders, Jerry D. (1986)** Professor of Music. B.Mus. 1965, University of Michigan; M.Mus. 1967, Indiana University.
- Luna, Kenneth V. (2011)** Assistant Professor of Modern and Classical Languages and Literatures. B.A. 2002, M.A. 2005, Ph.D. 2010, University of California, Los Angeles.
- Lussier, Virginia L. (1999)** Professor of Political Science. B.A. 1963, Washington College; M.A. 1965, University of Pennsylvania; M.A. 1972, University of Maryland; M.B.A. 1983, Rutgers University; Ph.D. 1973, University of Maryland.
- Lutwak, Howard (2000)** Director, Internal Auditor. B.S. 1988, CSU, Northridge; Certified Internal Auditor.
- Ma, Debbie S. (2011)** Assistant Professor of Psychology. B.A. 2003, University of Colorado, Boulder; M.A. 2004, State University of New York at Buffalo; M.A. 2007, Ph.D. 2011, University of Chicago.
- Maas, Regan M. (2011)** Assistant Professor of Geography. B.S. 1998, University of Iowa; B.S. 2001, Iowa State University; M.A. 2005, California State University, Northridge; Ph.D. 2010, University of California, Los Angeles.
- Mabry, Lisa S. (2007)** Director Compliance. B.A. 2003, M.B.A. 2006, California State University, Dominguez Hills.
- MacDonald, Richard H. (1979)** Associate Professor of Family and Consumer Sciences. B.A. 1966, William Penn University; M.A. 1968, University of Maine; Ph.D. 1978, Florida State University; Licensed Marriage, Family, Child Therapist.
- Mackelprang, Rachel (2011)** Assistant Professor of Biology. B.S. 2001, University of Utah; Ph.D. 2006, University of Washington.
- Machado, Antonio F. (2001)** Associate Professor of Environmental and Occupational Health. B.A. 1993, M.S. 1994, California State University, Northridge; Ph.D. 2000, University of California, Los Angeles.
- Mackelprang, Rachel (2011)** Assistant Professor of Biology. B.S. 2001, University of Utah; Ph.D. 2006, University of Washington.
- MacKlin, James H. (1983)** Lecturer in Accounting and Information Systems. B.A. 1964, M.A. 1966, Ohio State University.
- Madden, Teresa K. (2002)** Lecturer in Sociology. B.A. 1993, California Lutheran University; M.A. 1995, CSU, Northridge.
- Maddux, Thomas (1969)** Professor of History. B.A. 1964, Dartmouth College; M.A. 1965, Ph.D. 1969, University of Michigan.
- Madjzoo, Greta (2005)** Lecturer in Health Sciences. B.S. 1984, M.P.H. 1989, CSU, Northridge.
- Maeder, Carolyn (2001)** Associate Professor of Educational Psychology and Counseling. B.S. 1977, University of California, Irvine; M.A. 1988, CSU, Long Beach; Ph.D. 1999, University of California, Los Angeles.
- Maghsodi, Amin (2012)** Director of Admissions, Registration and Client Services. B.A. 2005, CSU Northridge; M.A. 2008, Woodbury University.
- Magliocco, Sabina (1997)** Associate Professor of Anthropology. B.A. 1980, Brown University; M.A. 1983, Ph.D. 1988, Indiana University.
- Malec, Brian T. (1990)** Professor of Health Sciences. B.S. 1966, M.A. 1970, Northern Illinois University; Ph.D. 1978, Syracuse University.
- Malhotra, Sheena (2000)** Professor of Gender and Women's Studies. B.A. 1991, DePaul University; M.A. 1993, Pepperdine University; Ph.D. 1999, University of New Mexico.
- Mallard, Benjamin F. (1994)** Lecturer in Electrical and Computer Engineering. B.S.E.E. 1975, Massachusetts Institute of Technology; M.S.E.E. 1978.
- Malmberg, Debra Berry (2008)** Assistant Professor of Psychology. B.A. 2000, Davidson College; M.A. 2004, Ph.D. 2007, Claremont Graduate University.
- Malone, Cindy S. (2005)** Associate Professor of Biology. B.S. 1991, Illinois State University; Ph.D. 1997, University of California, Los Angeles.
- Marcal, Leah (1996)** Professor of Economics. B.A. 1989, University of California, Santa Cruz; M.S. 1992, Ph.D. 1996, University of Wisconsin.
- Marchisotto, Elena A. (1983)** Professor of Mathematics. B.A. 1967, Manhattanville College; M.S. 1977, CSU, Northridge; Ph.D. 1990, New York University.
- Marengo, Ann L. (2005)** Lecturer in Family and Consumer Sciences. B.S. 1983, M.S. 1995, CSU, Northridge; Ph.D. 2001, University of Southern California.
- Marinescu, Liviu (2002)** Professor of Music. B.A. 1994, Bucharest Music Academy; M.M. 1996, Cleveland State University; D.M.A. 2000, University of Maryland.
- Marks, Lynn (2006)** Manager, Compensation and Classification. B.A. 1981, University of California, Los Angeles.
- Marks, Richard E. (1992)** Associate Professor of Journalism. B.A. 1965, University of Southern California; M.A. 1997, CSU, Northridge.
- Marsaglia, Kathleen M. (2000)** Professor of Geological Sciences. B.S. 1979, M.S. 1982, University of Illinois; Ph.D. 1989, University of California, Los Angeles.
- Marston, Peter J. (1986)** Professor of Communication Studies. B.A. 1980, Occidental College; Ph.D. 1987, University of Southern California.
- Martin, Coleen M. (2008)** Senior Assistant Librarian, Reference and Instructional Services. B.A. 1995, California State Polytechnic University, Pomona; M.L.I.S. 2006, CSU, San Jose.
- Martin, William C. (2001)** Interim Director in the Performing Arts Center. B.F.A. 1974, Wesleyan University; M.F.A. 1976, Wayne State University.
- Martinez, Renée (1996)** Director, College of Business and Economics Student Service Center/EOP. B.A. 1983, UC Santa Cruz; M.A. 1987, University of California, Los Angeles; M.A. 2005, California State University, Northridge.
- Masequesmay, Gina (2001)** Associate Professor of Asian American Studies. B.A. 1991, Pomona College; M.A. 1995, Ph.D. 2001, University of California, Los Angeles.
- Mathyakom, Witaya (2008)** Assistant Professor of Physical Therapy. B.S. 1988, Mahidol University, Thailand; M.S. 1994, Ph.D. 2004, University of Southern California.
- Matos, Jennifer A. (1994)** Professor of Biology. B.S. 1976, M.S. 1979, Texas Technological University; Ph.D. 1992, Washington University.
- Mau, Sheng-Taur (2002)** Professor of Civil Engineering and Applied Mechanics. B.S. 1965, M.S. 1967, National Taiwan University; Ph.D. 1971, Cornell University.
- Mayberry, Christina B. (2008)** Senior Assistant Librarian, Technical Services. B.S. 1997, Harvey Mudd College; M.L.I.S. 2002, University of California, Los Angeles.
- Mazzuto, Richard (2006)** Director of Athletics. B.A. 1971, M.A. 1974, Trinity College.
- McAuliff, Bradley D. (2003)** Associate Professor of Psychology. B.A. 1994, Creighton University; M.S. 1998, Ph.D. 2000, Florida International University; J.D. 2003, University of Nebraska.
- McCarron, Thomas J. (1999)** Vice President, Administration and Finance and CFO. B.A. 1977, California State University, Northridge, M.S. 1977, CSU, Northridge; M.B.A. 1983, Pepperdine University.
- McCarthy, Brittany (2009)** Director of Government and Community Relations. J.B.A., B.A. 2000, University of Wisconsin; M.A., Ph.D. University of Minnesota-Twin Cities.
- McClave, Evelyn Z. (1992)** Professor of English. B.A. 1969, St. Bonaventure University; M.A. 1977, University of Michigan; Ph.D. 1991, Georgetown University.
- McConaughy, Daniel (1997)** Professor of Finance, Real Estate and Insurance. B.S. 1976, College of Charleston; M.A. 1981, Ph.D. 1985, University of Chicago; Ph.D. 1994, University of Cincinnati.
- McCormick, Donald W. (2007)** Assistant Professor of Management. B.A. 1977, University of California, Santa Cruz; Ph.D. 1985, Case Western Reserve University.
- McDonald, Lauren (2008)** Assistant Professor of Sociology. B.S. 1993, St. Joseph's University; M.A. 1996, University of Massachusetts, Boston; Ph.D. 2008, Graduate Center of City University of New York.
- McFarland, William H. (2002)** Associate Professor of Communication Disorders and Sciences. B.A. 1965, M.A. 1966, CSU, San Francisco; Ph.D. 1969, University of Washington.
- McIlhenny, Robert (2001)** Associate Professor of Computer Science. B.S. 1993, University of California, Irvine; M.S. 1996, Ph.D. 2002, University of California, Los Angeles.
- McLaughlin, Douglas W. (2008)** Assistant Professor of Kinesiology. B.A. 1996, B.S. 1996, Ph.D. 2008, Pennsylvania State University.
- Medh, Jheem D. (2001)** Professor of Chemistry and Biochemistry. B.S. 1982, M.S. 1984, University of Bombay; Ph.D. 1990, University of Texas.
- Medh, Rheem D. (2001)** Professor of Biology. B.S. 1982, M.S. 1984, University of Bombay; Ph.D. 1990, University of Texas.
- Medina, Lara (1998)** Professor of Chicana/o Studies. B.A. 1977, University of California, Santa Barbara; M.A. 1989, Graduate Theological Union; Ph.D. 1998, Claremont Graduate University.
- Mehler, Ronald W. (2005)** Associate Professor of Electrical and Computer Engineering. B.S. 1982, University of Wisconsin; M.S. 1998, Texas A & M University; Ph.D. 2003, University of Texas.
- Melara, Gloria E. (1985)** Professor of Computer Science. B.A. 1978, Universidad de El Salvador; M.A. 1980, M.S. 1983, Western Michigan University; Ph.D. 1994, University of Southern California.
- Melikyan, Gagik G. (1995)** Professor of Chemistry and Biochemistry. B.S. 1973, Yerevan State University; Ph.D. 1977, Institute Organoelement Comps; D.Sc. 1990, Institute Organic Chemistry.
- Mendes, Luiz H. (2007)** Senior Assistant Librarian, Technical Services. B.A. 1990, CSU Northridge; M.L.I.S. 2006, San Jose State University.
- Mendoza, Breny (2001)** Professor of Gender and Women's Studies. B.A. 1975, University of Heidelberg; Ph.D. 1994, Cornell University.
- Menzies, Christine A. (2008)** Professor of Theatre. B.Ed. University of London, Trent Park; M.F.A. 1982, York University.
- Meshelski, Kristina K. (2011)** Assistant Professor of Philosophy. B.A. 2003, University of California Los Angeles; Ph.D. 2011, University of Virginia.
- Metzenberg, Aida B. (1995)** Professor of Biology. B.A. 1977, Reed College; M.A. 1980, University of California, Irvine; Ph.D. 1989, University of Wisconsin, Madison.
- Metzenberg, Stan (1997)** Professor of Biology. B.A. 1980, Reed College; Ph.D. 1989, University of Wisconsin.
- Michaud, Kristy E. (2007)** Associate Professor of Political Science. B.A. 2001, San Diego State University; M.A. 2003, University of California, Santa Barbara; Ph.D. 2007, University of California, Santa Barbara.
- Miller, David A. (1978)** Professor of Chemistry and Biochemistry. B.A. 1970, University of California, San Diego; Ph.D. 1976, University of California, Irvine.
- Miller, David W. (2003)** Associate Professor of Accounting and Information Systems. B.S.B.I. 1993, M.B.A. 1996, M.S.B.A. 1999, Mississippi State University.
- Mills, Nathaniel F. (2011)** Assistant Professor of English. B.A. 2004, M.A. 2006, Syracuse University; Ph.D. 2011, University of Michigan.
- Mimura, Yoko (2012)** Assistant Professor of Family and Consumer Sciences. B.A. 1991, Seiki University; M.S. 1994, Ph.D. 2001, University of Georgia.
- Minassians, Henrik P. (2008)** Assistant Professor of Urban Studies and Planning. B.A. 1994, M.A. 1996, California State University, Northridge; Ph.D. 2002, University of Albany – State of New York.

- Minehan, Thomas G. (2004)** Assistant Professor of Chemistry and Biochemistry. B.A. 1992, Columbia University; Ph.D. 1998, Harvard University.
- Minge, Jeanine M. (2007)** Assistant Professor of Communication Studies. B.A. 2001, James Madison University; M.A. 2004, San Diego State University.
- Miranda, Elena A. (2006)** Associate Professor of Geological Sciences. B.S. 2000, Southern Methodist University; Ph.D. 2006, University of Wyoming.
- Miranda, Isabel M. (1978)** Professor of Chicana/o Studies. B.A. 1975, M.A. 1985, University of California, Los Angeles.
- Mitchell, James (1990)** Professor of Political Science. B.A. 1975, Vassar College, Poughkeepsie, N.Y.; M.A. 1977, University of California, Santa Barbara; 2nd M.A. 1979, Princeton University; Ph.D. 1985, Princeton University, Princeton, NJ.
- Mitchell, Richard M. (1999)** Professor of English. B.A. 1981, Manhattanville College; M.A. 1990, Southern Connecticut State University; M.F.A. 1992, Brooklyn College; Ph.D. 1999, University of Southwestern Louisiana.
- Mitchell, Rie Rogers (1970)** Professor of Educational Psychology and Counseling. B.A. 1962, M.S. 1963, University of Utah; M.A. 1969, Ph.D. 1969, University of California, Los Angeles; Licensed Psychologist, State of California; Diplomat in Counseling Psychology, American Board of Professional Psychology.
- Mitrushina, Maura N. (1991)** Professor of Psychology. M.S. 1973, Leningrad Conservatory; M.S. 1977, Leningrad University; Ph.D. 1985, State University of New York, Stony Brook.
- Moguel, David L. (2000)** Professor of Secondary Education. B.A. 1987, Stanford University; M.P.P. 1990, Harvard University; Ph.D. 2000, University of California, Los Angeles.
- Mojirshibani, Majid (2012)** Assistant Professor of Mathematics. B.S. 1990, M.S. 1991, Ph.D. 1995, University of Toronto.
- Monchik, Alexandra S. (2011)** Assistant Professor of Music. B.A. 2003 University of Michigan; Ph.D. 2010, Harvard University.
- Montaño, Theresa (2002)** Professor of Chicana/o Studies. B.A. 1997, M.A. 1985, CSU, Los Angeles; Ed.D. 1996, University of California, Los Angeles.
- Montes, Jose F. (2011)** Student Services Professional, University Counseling Services. B.A. 2005, California State University, Los Angeles; Ph.D. 2010, California School of Professional Psychology.
- Montgomery, Melissa M. (2011)** Assistant Professor of Kinesiology. B.A. 2001, M.A. 2005, University of the Pacific; Ph.D. 2011, University of North Carolina, Greensboro.
- Moon, David Y. (1992)** Professor of Art. B.A. 1988, California State University, Northridge; M.F.A. 1997, California State University, Los Angeles.
- Moon, Eagle (2005)** Lecturer in Education Psychology and Counseling. B.A. 1974, CSU, Long Beach; M.S. 1993, CSU, Northridge; M. Ed. 1994, Ed.D. 2002, Harvard University.
- Moore, Chuck (2006)** Project Director, Information Technology Resources. B.S. University of California, Irvine; M.B.A. California Lutheran University.
- Moore, Richard W. (1988)** Professor of Management. B.S. 1976, Northeastern University; M.A. 1977, Ph.D. 1981, University of California, Los Angeles.
- Mora, Juana (1990)** Special Assistant to the Dean, College of Humanities. B.A. 1976, University of California, Santa Cruz; M.A. 1977, Ph.D. 1984, Stanford University.
- Moreno, Renee M. (2000)** Associate Professor of Chicana/o Studies. B.A. 1986, M.A. 1991, University of Colorado; Ph.D. 1998, University of Michigan.
- Morgan, Shannon F. (2000)** Associate Professor of Psychology. B.A. 1992, CSU, Northridge; M.A. 1995, Ph.D. 1997, University of California, Santa Barbara.
- Morgaine, Karen (2008)** Assistant Professor of Sociology. B.S., 1987, SUNY; M.A. 1989, Antioch University; Ph.D., 2007, Portland State University.
- Morey-Newbury, Ann (1989)** Director, The Career Center. B.A. 1982, Western Michigan University; M.A. 1999 CSU, Northridge.
- Morrison, Jaime (2003)** Professor of Theatre. B.A. 1991, University of California, Los Angeles; M.A. 1993, University College Dublin; Ph. D. 2003, New York University.
- Moschetti, Roxanne V. (2011)** Assistant Professor of Child and Adolescent Development. B.A. 2000, California State University, Chico; M.A. 2005, Ph.D. 2008, University of California, Santa Barbara.
- Moughrabi, Samira M. (2011)** Assistant Professor of Nursing. B.S. 1987, American University of Beirut; M.S. 1990, Ph.D. 2009, University of California, Los Angeles.
- Mounger, D.G. (1994)** Assistant Vice President, Alumni Relations. B.A. 1982, University of Mississippi.
- Mukherjee, Abhijit (2011)** Assistant Professor of Mechanical Engineering. B.P.P.E. 1993, Jadavpur University, M.M.E. 1998 Villanova University; M.S. 2000, Ph.D. 2004, University of Los Angeles.
- Mukhopadhyay, Shiuli (2008)** Assistant Professor of Elementary Education. B.S. 1996, Bates College; M.A. 2006, University of California, Los Angeles.
- Muniz, Ramon (1982)** Academic Advisor, Advising Resource Center/Elementary Opportunity Program. B.A. 1982, CSU, Northridge.
- Munoz, Dominique (2000)** Director of Special Events and Donor Programs.
- Munsch, Joyce (2002)** Professor of Child and Adolescent Development. B.A. 1969, Rutgers University; M.A. 1971, Yeshiva University; M.S. 1988, Ph.D. 1990, Cornell University.
- Murawski, Wendy W. (2000)** Professor of Special Education. B.A. 1991, M. Ed. 1992, Ed. S. 1995, College of William and Mary; Ph. D. 2001, University of California, Riverside.
- Murray, Deanna A. (1998)** Professor of Music. B.M. 1983, M.M. 1984, Arizona State University; D.M.A. 1997, University of Arizona.
- Murray, Sean R. (2007)** Associate Professor of Biology. B.S. 1997, Montclair State University; M.S. 1999, M. Phil. 2000, Ph.D. 2003, Yale University.
- Myers, Jody (1985)** Professor of Religious Studies. B.A. 1975, Brandeis University; M.A. 1977, Ph.D. 1984, University of California, Los Angeles.
- Nadenichek, Jon (1996)** Professor of Economics. B.A. 1991, University of Chicago; M.A. 1995, Ph.D. 1996, University of Rochester.
- Nader, Gerald A. (1984)** Director, Special Projects, College of Education. B.A. 1965, San Francisco State College; M.A. 1970, University of California, Los Angeles.
- Nagy-Shadman, Elizabeth A. (2003)** Assistant Professor of Geological Sciences. B.A. 1989, University of Colorado, M.S. 1991, Ph.D. 1997, California Institute of Technology.
- Nahapetian, Ani (2011)** Assistant Professor of Computer Science. B.S. 2002, M.S. 2004, Ph.D. 2007, University of California, Los Angeles.
- Nava, Alfonso (1986)** Professor of Secondary Education. B.A. 1973, M.Ed. 1974, Loyola University; M.A. 1976, Ph.D. 1977, Claremont Graduate School.
- Neirick, Miriam B. (2007)** Assistant Professor of History. B.A. 1999, Wellesley College; M.A. 2002, Ph.D. 2007, University of California, Berkeley.
- Neubauer, Michael G. (1995)** Professor of Mathematics. Diploma 1984, Universität Erlangen; Ph.D. 1989, University of Southern California.
- Ng, Kenneth (1986)** Associate Professor of Economics. B.A. 1981, University of Chicago; M.A. 1985, Ph.D. 1988, University of Rochester.
- Nguyen, Dat-Dao (2000)** Professor in Accounting and Information Systems. B.A. 1973, University of Saigon; B.Comm. 1992, MSc. 1995, Ph.D. 2000, Concordia University.
- Nguyen-Graff, Dorothy (2006)** Lecturer in Chemistry and Biochemistry. B.S. 1997, Santa Clara University; Ph.D. 2003, University of California, Los Angeles.
- Nicols, Greg (1986)** Director, Infrastructure Operations and Telecommunications, Information Technology. B.A. 2003, California State University, Northridge.
- Nieto, Eva Margarita (1985)** Professor of Chicana/o Studies. B.A. 1958, M.A. 1963, Ph.D. 1975, University of California, Los Angeles.
- Nile, Lauren (2007)** Manager, Professional Development Programs. B.A. 1974, The University of New Orleans, Louisiana; M.A. 1975, University of Connecticut; Ph.D. 1984, Cornell University School of Law, New York.
- Nkulu-N'Sengha, Mutombo (2003)** Associate Professor of Religious Studies. B.A. 1981, Major Seminary St. Paul; M.A. 1989, Institute P. Canisius Kinshasa; M.A. 1991, Gregorian University; M.A. 1996, Ph.D. 2002, Temple University.
- Noga, John J. (2001)** Professor of Computer Science. B.S. 1991, Truman State University; M.S. 1992, Ph.D. 1998, University of California, Riverside.
- Noronha, Maria H. (1990)** Professor of Mathematics. B.A. 1975, M.A. 1977, Ph.D. 1983, University of Campinas Brazil.
- Norton, Ronald S. (1993)** Director, Environmental Health, Occupational Safety, and Risk Management. B.S. 1983, California State Polytechnic University, Pomona; Registered Environmental Assessor, CA.
- Nuño, John Paul A. (2011)** Assistant Professor of History. B.A. 2002, California State University, Fresno; M.A. 2004, Ph.D. 2010, University of Texas El Paso.
- Oberholzer-Vandergon, Virginia (2000)** Associate Professor of Biology. B.S. 1984, St. Mary's College; M.S. 1993, University of California, Davis; Ph.D. 1999, University of California, Riverside.
- O'Connor, Joseph K. (2005)** Manager of University Web Communications. B.A. 1975, Fordham University.
- Odom, Daniel P. (2006)** Lecturer in Biology. B.A. 1984, University of California, Santa Barbara; Ph.D. 1994, Case Western Reserve University.
- Ogawa, Katsu (2009)** Assistant Professor of Chemistry and Biochemistry. B.S. 2000, Minnesota State University Mankato; Ph.D. 2006, North Dakota State University.
- Oh, Janet S. (2005)** Associate Professor of Psychology. B.A. 1998, Pomona College; M.A. 2000, Ph.D. 2003, University of California, Los Angeles.
- Oh, Taeboem (1995)** Professor of Chemistry and Biochemistry. B.S. 1980, Juniata College; Ph.D. 1985, University of Virginia.
- Okazaki, Carolyn (1990)** Clinical Social Worker. B.A. 1968, University of Hawaii; M.S.W. 1976, University of California, Los Angeles; Licensed Clinical Social Worker, LCSW, B.C.D., California.
- Oliver, Clementine (2004)** Associate Professor of History. B.A. 1991, M.A. 1993, Ph.D. 2000, University of California, Berkeley.
- Olsen, Chris (2001)** Senior Director, Infrastructure Services and Information Security Officer, Information Technology. B.S. 2002, California State University, Northridge.
- Olwert, Craig T. (2011)** Assistant Professor of Urban Studies and Planning. B.S. 1994, M.C.R.P. 2008, Ph.D. 2010, The Ohio State University.
- Omatsu, Glenn (2000)** Lecturer in Asian American Studies. B.A. 1969, University of California, Santa Cruz.
- Oppenheimer, Steven B. (1971)** Professor of Biology. B.S. 1965, The City University of New York; Ph.D. 1969, Johns Hopkins University.
- Orme, Amalie (1990)** Professor of Geography. B.A. 1975, M.A. 1978, Ph.D. 1983, University of California, Los Angeles.
- O'Rode, Nancy L. (2004)** Associate Professor of Elementary Education. B.S. 1976, University of Illinois; M.S. 1998, Ph.D. 2002, University of California, Santa Barbara.
- Orona-Cordova, Roberta (2000)** Associate Professor of Chicana/o Studies. B.A. 1976, University of California, Berkeley; M.A. 1983, San Francisco State University; M.F.A. 1990, University of California, Los Angeles.
- Ortega-Villalobos, Lideth (2006)** Student Service Professional, University Counseling Services. B.A. 1998, California State Polytechnic University, Pomona; M.A. 2004, University of Notre Dame.
- Osorno, I. Bruno (1988)** Professor of Electrical and Computer Engineering. B.S.E.E. 1970, Polytechnic Institute of Technology, Mexico City; M.S.E.E. 1978, University of Colorado.
- O'Sullivan, Donald B. (2007)** Associate Professor of History. M.A. 1989, Ph.D. 1995, University of Bonn (Germany); Habilitation 2001, Cath. University Eichstaett (Germany).
- Otten, Mark (2008)** Assistant Professor of Psychology. B.A. 2001, University of California, Davis; M.A. 2002, Ph.D. 2007, University of California, Los Angeles.
- Oviatt, Larry (1998)** Lecturer in Art. B.F.A. 1962, Drake University; M.A. 1980, CSU, Long Beach.
- Ovnick, Merry A. (2000)** Associate Professor of History. B.A. 1963, Ph.D. 2000, University of California, Los Angeles; M.A. 1974, CSU, Northridge.
- Paez, José M. (2009)** Lecturer of Social Work. B.A. 1998, 1999, California State University, Northridge; MSW, 2001, University of Southern California.
- Paik, Seung-Kuk (2004)** Associate Professor of Systems and Operations Management. B.A. 1991, Sogang University; M.B.A. 1995, Ph.D. 2003, The George Washington University.
- Pak, Mira (2005)** Associate Professor of Secondary Education. B.A. 1993, University of California, Los Angeles; M.Ed. 2004, Harvard University; Ph.D. 2005, University of California, Los Angeles.

- Paller, Bonnie T. (1985)** Director, Office of Assessment and Associate Professor of Philosophy. A.B. 1974, University of California, Santa Cruz; M.A. 1977, Ph.D. 1982, University of Southern California.
- Palmberg, Beverly (1978)** Director, Administrative Systems, Information Technology.
- Paquette, Mary H. (2008)** Assistant Professor of Nursing. B.S.N. 1968, University of Vermont; M.N. 1972, University of California, Los Angeles. Ph.D. 1991, California Graduate Institute.
- Panferov, Vlasdislav (2007)** Associate Professor of Mathematics. M.Sc. 1994, St. Petersburg State University; Ph.D. 2000, Chalmers University of Technology.
- Pardau, Stuart (2009)** Assistant Professor of Business Law. B.A. 1984, University of California, Santa Barbara; J.D. 1992, Stanford University.
- Pardo, Mary (1978)** Professor of Chicana/o Studies. B.A. 1970, CSU, Los Angeles; M.S. 1972, University of Southern California; M.A. 1984, Ph.D. 1990, University of California, Los Angeles.
- Park, Clara (1991)** Professor of Secondary Education. M.S. 1979, Ph.D. 1981, University of Southern California.
- Park, Hyun-Sun (2008)** Assistant Professor of Social Work. B.A. 1993, Hankuk University of Foreign Studies; MSW 1998, Ph.D. 2007, University of Texas at Austin.
- Parsa, Shiva (1989)** Coordinator, EOP Transitional Programs. B.A. 1997, M.A. 2002, California State University, Northridge.
- Patterson, Debra (2000)** Assistant Professor of Kinesiology. B.A. 1987, CSU, Long Beach; M.A. 1992, Azusa Pacific University; Ph.D. 2000, Oregon State University.
- Peck, Sabrina (1990)** Professor of Elementary Education B.A. 1971, Radcliffe College; M.A. 1977, Ph.D. 1985, University of California, Los Angeles.
- Peckham-Hardin, Kathryn (2000)** Assistant Professor of Special Education. B.A. 1984, University of California, Santa Barbara; M.A. 1994, California State University, Northridge; Ph.D. 2002, University of California, Santa Barbara.
- Pedone, Vicki A. (1990)** Professor of Geological Sciences. B.A. 1975, Smith College; M.A. 1978, University of Texas, Austin; Ph.D. 1990, State University of New York, Stony Brook.
- Pellarolo, Sirena (1999)** Professor of Modern and Classical Languages and Literatures. M.A. 1991, Ph.D. 1994, University of California, Los Angeles.
- Pellerin, Marquita M. (2011)** Assistant Professor of Pan African Studies. B.A. 2006, Howard University, M.A. 2007, SUNY Albany, Ph.D. 2011, Temple University.
- Pepe, Anthony (2002)** Assistant Director, Environmental Health and Safety/Risk Management. B.S. 1990, University of La Verne.
- Pepitone, John (2006)** Director of Development, College of Health and Human Development. B.A. 1994, University of Nebraska; M.A. 2006 CSU Northridge.
- Penrod, June (2012)** Director of Development, College of Humanities. B.A. 2000, Bucknell University; M.S. 2004, Mercy College.
- Pereira-Prata, Ana M. (2007)** Assistant Professor of Sociology. B.A. 1996, New University of Lisbon, Portugal; Ph.D. 2007, University of Minnesota.
- Perz, Scott (2002)** Director of Research and Sponsored Projects. B.A. 1989, M.A. 2000, California State University, Northridge.
- Perz-Boluda, Adrian (2007)** Associate Professor of Modern and Classical Languages and Literatures. M.A. 2001, University of Nevada, Reno; Ph.D. 2006, University of California, Davis.
- Peric, Miroslav (1991)** Professor of Physics and Astronomy. B.S. 1978, M.S. 1982, Ph.D. 1987, University of Zagreb.
- Peterson, Vance T. (2007)** Vice President, University Advancement. A.B. Occidental College; M.S. The George Washington University; Ph.D. Stanford University.
- Pham, Son (1985)** Professor of Computer Science. University of Saigon; MA 1975, University of Louisville; Ph.D. 1978, University of Cincinnati.
- Philibosian, Dianne L. (1973)** Professor of Recreation and Tourism Management. B.A. 1967, University of the Pacific; M.S. 1971, Ph.D. 1978, Southern Illinois University.
- Phillips, Beth (1999)** Associate Professor of Physical Therapy. B.A. 1985, University of Puget Sound; M.P.T. 1995, University of California, San Francisco; D.P.A. 2005, University of La Verne.
- Phillips, G. Michael (1985)** Professor of Finance, Real Estate and Insurance. B.S. 1977, Illinois State University; M.A. 1980, Ph.D. 1982, University of California, San Diego.
- Pichler, Kristen (1985)** Associate Director of Operations, University Student Union. B.A. 1989, M.P.A. 1993, CSU, Northridge.
- Pierce, Julie L. (2007)** Counselor, University Counseling Services. B.A. 1987, Whittier College; M.A. 1990, Psy.D. 1993, Biola University.
- Piernik, Thomas (1985)** Director, Student Development and International Programs. B.A. 1978, Pennsylvania State University; M.A. 1984, University of Southern California.
- Pih, Kay Kei-Ho (2007)** Associate Professor of Sociology. B.A. 1997, New York College; M.A. 1999, Ph.D. 2004, University of California, Riverside.
- Pinneau, Janet (2001)** Associate Athletic Director for Student Services/SWA. B.A. 1987, University of California, Los Angeles; M.A. 1993, 2004, California State University, Northridge.
- Pistolesi, Edie (1991)** Professor of Art. B.S. 1965, State University of Buffalo; M.A. 1981, M.F.A. 1984, Texas Technical University; Ph.D. 1990, Pennsylvania State University.
- Plunkett, Scott W. (1998)** Professor of Psychology. B.S. 1986, M.Ed. 1992, Northwestern Oklahoma State University; Ph.D. 1997, Oklahoma State University.
- Polewczak, Jacek M. (1994)** Professor of Mathematics. B.S. 1974, Technical University, Warsaw; M.S. 1976, Warsaw University; Ph.D. 1981, Virginia Polytechnic Institute and State University.
- Portnoy, Kenneth S. (1980)** Professor of Cinema and Television Arts. B.A. 1967, Tulane University; M.A. 1969, Ph.D. 1976, New York University.
- Pontikis, Kyriakos (2006)** Associate Professor of Family and Consumer Sciences. B.Arch. 1986, Oklahoma State University; M.Arch. 1988, Ph.D. 1998, University of California, Berkeley.
- Postma, Hendrik W. CH. (2006)** Associate Professor of Physics and Astronomy. M.Sc. 1997, Leiden University, Leiden The Netherlands; Ph.D. 2001, Delft University of Technology, Delft, The Netherlands.
- Pousson, Martin (2007)** Associate Professor of English. B.A. 1987, Loyola University, New Orleans; M.F.A. 1999, Columbia University.
- Pratt, Gary W. (1983)** Professor of Music. B.F.A. 1980, California Institute of Arts.
- Prezia, Janet (2008)** Manager, Payroll Administration. B.S. 1981, California State University, Northridge.
- Prince, Stewart P. (1991)** Professor of Engineering. B.S.M.E. 1986, M.S.M.E. 1987, Ph.D. 1990, University of Texas.
- Prosenjak, Nancy R. (2000)** Professor of Elementary Education. B.S. 1969, Ohio State University; M.S. 1973, M.S. 1984, Youngstown State University; Ph.D. 1997, Kent State University.
- Protas, David S. (1970)** Professor of Mathematics. B.S. 1964, Brown University; Ph.D. 1970, University of Wisconsin.
- Quilici, Jill (1997)** Associate Professor of Psychology. B.A. 1992, CSU, Chico; M.A. 1994, Ph.D. 1997, University of California, Santa Barbara.
- Quillian, Benjamin F. (2006)** Associate Vice President, Information Technology. B.A. 1990, Vassar College; M.P.A. 2005, California State University, Northridge.
- Quiñonez-Skinner, Jennifer (2007)** Senior Assistant Librarian, Reference and Instructional Services. B.A. 2000, University of California, San Diego; M.L.I.S. 2006, University of California, Los Angeles.
- Rachmanov, Dmitri (2007)** Professor of Music. B.M. 1981, M.M. 1982, The Juilliard School; D.M.A. 1989, Manhattan School of Music.
- Radmanesh, Matthew M. (1990)** Associate Professor of Electrical and Computer Engineering. B.S. 1978, Pahlavi University; M.S. 1980, Ph.D. 1984, University of Michigan.
- Rajai, Mark (2009)** Assistant Professor of Manufacturing Systems Engineering and Management. B.S. 1984, University of Tennessee; M.S. 1987, University of Tennessee; M.S.E.M. 1996, Ph.D. 1996, University of Louisville.
- Ramesh, S. K. (2006)** Dean, College of Engineering and Computer Science; Professor of Electrical and Computer Engineering. B.E. 1981, University of Madras; M.S. 1983, Ph.D. 1986, Southern Illinois University, Carbondale.
- Ramos, Elias A. (1985)** Professor of Modern and Classical Languages and Literatures. B.A. 1966, Union University; M.A. 1969, Ph.D. 1976, University of Missouri.
- Ramos, Jose A. Jr. (2008)** Lecturer of Social Work. B.A. 1996, California State University, Los Angeles; M.S.W., 2001, California State University, Long Beach.
- Ranganathan, Radha (1991)** Professor of Physics and Astronomy. B.S. 1975, St. Francis' College, Osmania University, India; M.Sc. 1983, Bombay University; Ph.D. 1988, University of Utah.
- Rappaport, Jared H. (2004)** Associate Professor of Cinema and Television Arts. B.A. 1973, University of Illinois, Chicago Cirrus; M.F.A. 1989, American Film Institute.
- Ratcliff, Anthony (2008)** Assistant Professor of Pan African Studies. B.A. 1995, California State University, Hayward; M.A. 2002, Morgan State University; Ph.D. 2009, University of Massachusetts, Amherst.
- Rawitch, Cynthia Z. (1981)** Vice Provost, Academic Affairs; Professor of Journalism. B.A. 1967, Queens College; M.S.J. 1968, Northwestern University; Ph.D. 1991, University of California, Los Angeles.
- Razani, Laleh (2001)** Professor of Psychology. B.A. 1991, M.A. 1993, Ph.D. 1998, CSU, San Diego.
- Reader, Danny (2003)** Director of Advancement Services. B.A. UC Santa Barbara.
- Reagan, Janet Thompson (1978)** Professor of Health Sciences. B.A. 1967, Berea College; Ph.D. 1972, Vanderbilt University.
- Reid-Chassiakos, Linda (2000)** Director, Student Health Center. B.S. 1973, University of Maryland; M.D. 1977, Georgetown University School of Medicine; Board Certified in Pediatrics 1983, American Board of Pediatrics.
- Reif-Kohn, Rodica (2007)** Lecturer in Family and Consumer Sciences. B.A. 1981, Central School of Art and Design, England; M.F.A.1985, M. Arch. 1994, University of California, Los Angeles.
- Ren, Deqing (2006)** Associate Professor of Physics and Astronomy. B.S. 1985, M.A. 1988, East China Institute of Technology; Ph.D. 2001, Durham University.
- Rengarajan, Sembiam R. (1980)** Professor of Electrical and Computer Engineering. B.S. 1971, University of Madras; M. Tech. 1974, Indian Institute of Technology; Ph.D. 1980, University of New Brunswick.
- Restori, Alberto (2002)** Associate Professor of Educational Psychology and Counseling. B.A. 1994, CSU, Northridge; Ph.D. 1998, University of California, Riverside.
- Retis Rivas, Jessica M. (2008)** Assistant Professor of Journalism. B.A. 1991 Universidad de Lima, Peru; M.A. 1996, Universidad Nacional Autónoma de Mexico; Ph.D. 2006, Universidad Complutense de Madrid, Spain.
- Reveles, John M. (2004)** Assistant Professor of Elementary Education. B.A. 1995, Colorado State University; M.A. 1997, Pepperdine University; Ph.D. 2004, University on California, Santa Barbara.
- Reynaldo, Randy (1993)** Executive Assistant to the President. B.A. 1985, University of California, Los Angeles; M.A. 1992, University of Southern California.
- Reynolds, Bronte H. (2002)** Professor of Educational Leadership and Policy Studies. B.A. 1965, M.A. 1968, CSU, San Francisco; Ed.D. 1997, University of Southern California.
- Rhine, Arlene (1990)** Director, Associated Students Children's Center. B.A. 1959, Holy Names College; M.A. 1979, CSU, Northridge.
- Ricks, Boris E. (2008)** Assistant Professor of Political Science. B.S. 1989, Mississippi Valley State College; M.P.A. 1991 University of Mississippi; M.A. 1996, Ph.D. 2003, University of Southern California.
- Riegos-Olmos, Elizabeth (2003)** Director, College of Science and Mathematics Student Services Center/EOP. B.A. 1998, UC Santa Cruz.
- Rienbolt, Janet (1982)** Associate Director, Admissions and Records. B.S. 1974, M.S. 1976, California State University, Northridge.
- Rigney-Hill, Barbara (2007)** Lecturer in Family and Consumer Sciences. B.A. 1971, Rosemont College; M.A. 1985, California State University, Northridge.
- Rinnert, Matt (2003)** Director of Development, College of Business and Economics. B.A. 1993, University of Wisconsin.
- Rivas, Michael G. (2003)** Associate Professor of Secondary Education. B.A. 1982, Harding University; M.Ed. 1988, University of Houston; Ph.D. 2003, University of California, Santa Barbara.

- Rizk, Magdy (2006)** Associate Professor of Art. B.A. 1989, California State University, Northridge; M.F.A. 2006, California State University, Los Angeles.
- Roberts, William W. (1973)** Professor of Economics. B.A. 1969, Macalester College; Ph.D. 1974, University of California, San Diego.
- Robertson, Jeanne M. (2011)** Assistant Professor of Biology. B.S. 1993, University of California Davis; M.S. 2001, Southern Illinois University, Carbondale; Ph.D. 2008, Cornell University.
- Robison, Anne H. (2003)** Director of Development, College of Social and Behavioral Sciences. B.A. 1977, CSU, Northridge.
- Rodriguez, David (1991)** Professor of Chicana/o Studies. B.A. 1973, CSU, Northridge; Ph.D. 1996, University of California, Riverside.
- Roller, Margaret L. (1998)** Professor of Physical Therapy. B.S. 1982, University of California, Los Angeles; B.S. 1989, California State University, Northridge; M.S. 1998, D.P.T. 2003, University of the Pacific.
- Romack, Jennifer L. (1995)** Professor of Kinesiology. B.A. 1980, Northern Kentucky University; M.S. 1981, University of Tennessee; Ph.D. 1995, Indiana University.
- Roosta, Ramin (1981)** Professor of Electrical and Computer Engineering. B.S. 1976, University of Tehran; M.S. 1978, Ph.D. 1982, University of Southern California.
- Roschetti, Diane H. (2004)** Professor of Music. B.M. 1978, Oberlin Conservatory of Music; M.M. 1981, Northern Illinois University.
- Roscigno, John (2001)** Professor of Music. B.M.A. 1987, D.M.A. 1999, University of Arizona; M.M. 1989, University of Illinois.
- Rosen, Jerry D. (1984)** Professor of Mathematics. B.S. 1977, Brooklyn College; M.A. 1982, Ph.D. 1982, University of Massachusetts.
- Rosen, Mary P. (1984)** Professor of Mathematics. B.S. 1977, Brooklyn College; M.A. 1982, Ph.D. 1982, University of Massachusetts.
- Rosen, Roslyn (2006)** Director, National Center on Deafness. B.A. 1962, M.A. 1964, Gallaudet University; Ph.D. Catholic University.
- Rosenthal, Kenneth (2005)** Manager, Construction Services, Facilities Planning. B.S. 1995, CSU, Northridge.
- Rossy, Gerard L. (1977)** Professor of Management. B.S. 1967, Utica College; M.B.A. 1971, Ph.D. 1979, University of California, Los Angeles.
- Rothstein-Fisch, Carrie (1997)** Professor of Educational Psychology and Counseling. B.A. 1976, M.A. 1978, Ph.D. 1983, University of California, Los Angeles.
- Rougier, Helene (2008)** Assistant Professor of Anthropology. B.A. 1997, M.A. 1999, Ph.D. 2003 Bordeaux 1 University.
- Rowlands, Kathleen D. (2004)** Associate Professor of Secondary Education. B.A. 1966, Connecticut College; M.A. 1988, University of Hawaii-Manoa; Ph.D. 2004, Indiana University of Pennsylvania.
- Roy, Ravi (2011)** Associate Director, Public Sector Programs. B.A. 1993, UC Los Angeles; M.A. 1998 and Ph.D. 2000, Claremont Graduate University.
- Rozanski, Debra (2001)** Employee Assistance Coordinator. B.A. 1975, Immaculate Heart College; M.A. 1978, California State University, Northridge; Ph.D. 1993, California Graduate Institute.
- Rozic, Michelle M. (2011)** Assistant Professor of Art. B.F.A. 2003, Columbus College of Art and Design; M.F.A. 2007, Indiana University.
- Rubalcava, Luis A. (1980)** Professor of Educational Psychology and Counseling. B.A. 1969, CSU, Los Angeles; Ph.D. 1980, University of Michigan.
- Rubin, Maureen S. (1984)** Associate Dean, Mike Curb College of Arts, Media and Communication; Professor of Journalism. B.S. 1970, Boston University; J.D. 1983, Catholic University Law School.
- Rubino, Cristina (2011)** Assistant Professor of Management. B.A. 1999, University of Texas Austin; M.A. 2008, Ph.D. 2010, University of Houston.
- Rubino, Louis G. (1999)** Associate Professor of Health Sciences. B.S. 1976, University of Southern California; M.S.H.C.M. 1979, California State University, Los Angeles; M.P.A. 1985, Ph.D. 1990, University of Southern California.
- Ruelas, Shelley (2011)** Associate Vice President of Student Life. B.A. 1993, University of California, San Diego; M.A. 1996, University of California, Santa Barbara; Ph.D. 2000, University of California, Santa Barbara.
- Ruiz, Raul (1970)** Professor of Chicana/o Studies. B.A. 1967, B.A. 1968, CSU, Los Angeles; M.Ed. 1981, Ed.D. 1988, Harvard University.
- Rusche, Philip J. (1999)** Professor of Educational Leadership and Policy Studies. B.A., B.S. 1960, M.S. 1961, University of Cincinnati; Ed.D. 1968, University of Rochester.
- Russell, David T. (2001)** Associate Professor of Finance, Real Estate, and Insurance. B.A. 1989, Amherst College; M.A. 1992, Ph.D. 1997, University of Pennsylvania.
- Rutchick, Abraham (2008)** Assistant Professor of Psychology. B.A. 1999, Ph.D. 2005, University of California, Santa Barbara.
- Ruzgar, Mustafa (2009)** Assistant Professor of Religious Studies. B.A. 1997, Uludag University, Bursa, Turkey; M.A. 2001, Claremont Graduate University; Ph.D. 2008, Claremont Graduate University.
- Ryan, Jerlyn Cai (2008)** Compliance Coordinator. B.A. 1993 California State University, Los Angeles; M.A. 2006, California State University, Northridge; J.D. 1997, Loyola Law School Los Angeles.
- Ryan, Robert G. (1994)** Assistant Professor of Mechanical Engineering. B.S. 1978, M.S. 1985, CSU, Northridge; Ph.D. 1994, University of California, Los Angeles.
- Saetermoe, Carrie (1991)** Professor of Psychology. B.S. 1981, Michigan State University; M.A. 1983, CSU, Long Beach; Ph.D. 1988, University of California, Riverside.
- Saito, Ron (1996)** Associate Professor of Art. B.A. 1982, University of California, Los Angeles; M.F.A. 1984, University of California, Irvine; Ph.D. 2000, Indiana University.
- Saiz, Martin R. (2000)** Professor of Political Science. B.A. 1978, Arizona State University; M.P.C.D. 1981, University of Colorado, Denver; Ph.D. 1991, University of Colorado, Boulder.
- Sakatani, Kenneth (2003)** Professor of Art. B.F.A. 1968, University of Southern California; M.A. 1974, CSU, San Francisco; Ph.D. 1980, Stanford University.
- Saltzberg, Nicole (2010)** Student Services Professional, University Counseling Services. B.S. 2000, M.S. 2003, Ph.D. 2010 University of Miami.
- Samaha, Stephen A. (2011)** Assistant Professor of Marketing. B.S. 1994, University of Southern California; M.B.A. 2001, University of California, Los Angeles; M.S. 2004, Stanford University; Ph.D. 2010, University of Washington.
- Samii, Bamdad (2002)** Lecturer in Developmental Mathematics. B.S. 1989, M.S. 1995, California State University Northridge.
- Samson, Ashley A. (2011)** Assistant Professor of Kinesiology. B.A. 2006, Northwestern State University; M.S. 2007, University of North Texas; Ph.D. 2011, Louisiana State University.
- Sanchez-Munoz, Ana (2007)** Associate Professor of Chicana/o Studies. B.A. 2000, University of Salamanca; M.A. 2003, Ph.D. 2007, University of Southern California.
- Sandoval, Denise M. (2002)** Associate Professor of Chicana/o Studies. B.A. 1993, University of California, Berkeley; M.A. 1995, CSU, Northridge; Ph.D. 2003, Claremont Graduate University.
- Sands, Tovah (1999)** Professor of Educational Psychology and Counseling. B.A. 1992, M.A. 1995, Ph.D. 1999, University of Florida.
- Sankaran, Siva (1988)** Professor of Accounting and Information Systems. B.S. 1972, St. Thomas College; M.B.A. 1980, Atlanta University; Ph.D. 1985, New York University.
- Santerud, Lawrence D. (2000)** Professor of Music. B.M. 1986, Pacific Lutheran University; M.M. 1990, Yale University.
- Sarfraz, Ahmad (2001)** Professor of Manufacturing Systems Engineering and Management. B.S. 1977, Allameh University; M.A. 1980, M.S. 1981, Middle Tennessee State University; Ph.D. 1989, West Virginia University.
- Sariscany, Mary (2003)** Assistant Professor of Kinesiology. B.S.Ed. 1976, Central Michigan University; M.S.Ed. 1984, Ed.D. 1990, Arizona State University.
- Satyanarayana, Upadhyayula V. (1971)** Professor of Mathematics. B.A. 1954, M.A. 1955, Andhra University, India; Ph.D. 1971, University of California, Santa Barbara.
- Saunders, Kurt M. (1998)** Professor of Business Law. B.S. 1982, Carnegie Mellon University; J.D. 1985, University of Pittsburgh.
- Saunders, Quinn C. (2007)** Assistant Professor of Cinema and Television Arts. B.A. 1997, Rutgers University; M.F.A. 2004, University of Southern California.
- Say, Elizabeth A. (1989)** Dean, College of Humanities; Professor of Women's Studies. B.A. 1981, CSU, Northridge; Ph.D. 1988, University of Southern California.
- Schaffer, Mary C. (2001)** Associate Professor of Cinema and Television Arts. B.A. 1997, University of Minnesota; M.A. 2004, CSU, Northridge.
- Scheld, Suzanne (2004)** Associate Professor of Anthropology. B.A. 1987, Yale University; M.A. Teachers College, Columbia University; M.A. 1999, Hunter College, CUNY; Ph.D. 2003, CUNY, Graduate Center.
- Schiffman, Paula M. (1989)** Professor of Biology. B.S. 1981, University of California, Riverside; M.S. 1985, Ph.D. 1990, Virginia Polytechnic Institute and State University.
- Schilling, Mark F. (1985)** Professor of Mathematics. B.A. 1972, M.A. 1974, University of California, San Diego; Ph.D. 1979, University of California, Berkeley.
- Schillinger, John E. (1982)** Professor of Environmental and Occupational Health. B.S. 1971, M.S. 1973, Montana State University; Ph.D. 1982, University of Michigan.
- Schlackman, Jonah (2007)** Professor of Educational Psychology and Counseling. B.S. 1993, M. Ed. 1994, Ph.D. 2002, University of California, Los Angeles.
- Schliff, Mary A. (1999)** Lecturer in Music. B.M. 1964, University of Iowa; M.A. 1965, University of Vermont.
- Schmidt-Levy, Judith (1989)** Counseling Psychologist, Counseling Services. B.A. 1977, Case Western Reserve University; M.S. 1981, Ph.D. 1988, University of Utah; Licensed Psychologist, California.
- Schneiderman, Ellen (1985)** Professor of Special Education. B.A. 1976, M.A. 1977, Ohio State University; Ph.D. 1987, University of California, Los Angeles.
- Schrodi, Yann (2007)** Assistant Professor of Chemistry and Biochemistry. Maitrise 1994, University Louis Pasteur; Ph.D. 2001, Massachusetts Institute of Technology.
- Schuld, Jonathan P. (2011)** Assistant Professor of Psychology. B.S. 2004, Cornell University; M.S. 2008, Ph.D. 2011 University of Michigan.
- Schultheiss, John E. (1974)** Professor of Cinema and Television Arts. B.A. 1964, John Carroll University; M.A. 1970, University of California, Los Angeles; Ph.D. 1973, University of Southern California.
- Schutte, Jerald G. (1972)** Professor of Sociology. B.A. 1969, M.A. 1971, Ph.D. 1974, University of California, Los Angeles.
- Schwartz, Diane L. (1979)** Professor of Computer Science. B.A. 1966, University of California, Berkeley; M.A. 1971, Ph.D. 1975, University of California, Los Angeles.
- Schwartz, Joshua J. (2011)** Assistant Professor of Geological Sciences. B.A. 2000, M.S. 2003 Brown University; Ph.D. 2007, University of Wyoming.
- Scott, Johnie H. (1984)** Associate Professor of Pan-African Studies. B.A. 1970, M.A. 1972, Stanford University; M.F.A. 1999, Antioch University.
- Scott, Whitney (2003)** Associate Professor of Child and Adolescent Development. B.A. 1998, M.A. 2001, Ph.D. 2003, University of California, Santa Barbara.
- Sears, Sue (1990)** Professor of Special Education. B.A. 1971, Purdue University; M.S. 1976, University of Southern California; Ph.D. 1989, University of California, Los Angeles.
- Sefton, James E. (1965)** Professor of History. B.A. 1961, Ph.D. 1965, University of California, Los Angeles.
- Seiver, Owen H. (1982)** Professor of Environmental and Occupational Health. B.S. 1972, M.S. 1974, CSU, Northridge; D.P.A. 1991, University of LaVerne.
- Seliger, Jerome S. (1977)** Professor of Health Sciences. B.A. 1964, University of Minnesota; M.A. 1967, Southern Illinois University; Ph.D. 1974, University of Southern California.
- Sellers, Elizabeth A. (1999)** Professor of Music. B.M. 1971, St. Olaf College, M.M. 1987, Northwestern University; Certificate 1987, University of Southern California, Scoring for Films and Television.
- Sergi, Mark J. (2000)** Professor of Psychology. B.S. 1989, University of California, Davis; M.A. 1991, CSU, Fresno; Ph.D. 1998, State University of New York.
- Sethuraman, B. AI (1991)** Professor of Mathematics. B.Tech. 1980, Indian Institute of Technology, Madras; M.S. 1983, Ph.D. 1991, University of California, San Diego.

- Seymour, Patricia J. (2006)** Associate Professor of Communication Disorders and Sciences. B.A. 1982, M.A. 1985, CSU, Fullerton; Ph.D. 2004, University of Kansas.
- Shapiro, Bruce L. (1990)** Clinical Psychologist, Counseling Services. B.A. 1971, Lehman College; M.A. 1984, Pepperdine University; Ph.D. 1989, United States International University; Licensed Psychologist, California.
- Shaw, Victor (1997)** Associate Professor of Sociology. B.S. 1983, M.A. 1986, Wuhan University; M.A. 1993, Ph.D. 1994, University of Hawaii.
- Shelton, Lois (2006)** Associate Professor of Management. B.A. 1979, Radcliffe College; M.B.A. 1983, Harvard Bus. School; Ph.D. 1985, Harvard Grad. School of Arts and Sciences.
- Shemmassian, Vahram L. (2004)** Associate Professor of Modern and Classical Languages and Literatures. B.A. 1973, Haigazian College; M.A. 1979, Southern Illinois University; Ph.D. 1996, UCLA.
- Sheng, Donna (2000)** Associate Professor of Physics and Astronomy. B.S. 1984, Ph.D. 1989, Nanjing University.
- Shepherd-Look, Dee L. (1970)** Professor of Psychology. B.A. 1965, Immaculate Heart College; Ph.D. 1972, University of California, Los Angeles.
- Shi, Enchao (2002)** Associate Professor of English. B.A. 1982, Beijing Language Institute; M.A. 1990, St. Mary's College; M.A. 1994, Northern Arizona University; Ph.D. 2003, University of Arizona.
- Shideh, Maureen T. (1986)** Minor Capital Program Manager, Facilities Planning, Design and Construction. B.S. 1981 University of Arizona.
- Shiferaw, Yohannes (2006)** Assistant Professor of Physics and Astronomy. B.S. 1995, Franklin and Marwill; Ph.D. 2001, University of Pittsburgh.
- Shraibati, Tarek (2000)** Lecturer in Manufacturing Systems Engineering and Management. B.S. 1983, M.S. 1984, CSU, Northridge; M.S. 1994, University of Southern California.
- Shrake, Eunai (2002)** Professor of Asian American Studies. B.A. 1977, M.A. 1984, Presbyterian College; Th.M. 1990, Austin Presbyterian Seminary; Ph.D. 1996, University of California, Los Angeles.
- Shubin, Carol S. (1992)** Professor of Mathematics. B.A. 1981, M.A. 1985, Ph.D. 1989, University of California, Los Angeles.
- Sides, Josh A. (2005)** Professor of History. B.A. 1994, University of California, Davis; M.A. 1996, Ph.D. 1999, University of California, Los Angeles.
- Siemen, Kimberly S. (2007)** Assistant Athletic Director for Business Affairs. B.S. 1987, Cal Poly San Luis Obispo.
- Sifuentes, Roberto (2000)** Lecturer in Chicana/o Studies. A.B. 1966, M.A. 1971, University of California, Los Angeles.
- Simila, Gerry W. (1978)** Professor of Geological Sciences B.A. 1971, Rice University; M.A. 1972, Ph.D. 1980, University of California, Berkeley.
- Simon, Merri L. A. (1999)** Professor of Educational Psychology and Counseling. B.S. 1981, M.S. 1988, University of Southern California; M.A. 1986, CSU, Dominguez Hills; Ph.D. 1990, University of Southern California.
- Simon, Pamela C. (2003)** Manager of Academic Resources, College of Social and Behavioral Sciences. B.B.A. 1976, Cleveland State University.
- Sinclair, Julie (2012)** Senior Director and Executive Editor. B.A. Franklin and Marwill College.
- Sinclair, J. Stephen (1980)** Professor of Communication Disorders and Sciences. B.A. 1969, M.S. 1974, University of Redlands; Ph.D. 1980, Vanderbilt University.
- Skaggs, Danielle (2007)** Senior Assistant Librarian, Reference and Instructional Services. B.S. 1998, University of California, Davis; M.S.I.S. 2007, University of Texas at Austin.
- Skolnick, Paul (1968)** Professor of Psychology. B.S. 1965, University of Wisconsin; M.S. 1967, Ph.D. 1969, Purdue University.
- Skyler, Ashley A. (2004)** Associate Professor of Special Education. B.A. 1996; M.A. 1999; Ph.D. 2004, University of Nevada.
- Slechts, Anita M. (1981)** Professor of Health Sciences. B.S. 1980, M.S. 1986, CSU, Northridge; American Registry Radiologic Technologist (Radiography) 1970; California Radiology Technology 1972.
- Sletten, Erick G. (1991)** Staff Physician, Student Health Center. B.S. 1983, M.D. 1987, University of California, San Francisco.
- Sloan, Jon R. (1983)** Associate Professor of Geological Sciences. B.A. 1968, CSU, Northridge; Ph.D. 1981, University of California, Davis.
- Smith, Harold (2004)** Professor of Child and Adolescent Development. B.S. 1967, Brigham Young University; M.S. 1968, University of Washington; Ph.D. 1974, University of Utah.
- Smith, Jill (2007)** Acting AVP, Human Resources. B.B.A. 2004, Northwood University, Michigan.
- Smith, Paul A. (1995)** Associate Professor of Music. B.M. 1981, Chapman University; M.M. 1995, University of Southern California.
- Snead, James E. (2011)** Assistant Professor of Anthropology. B.A. 1984, Beloit College; M.A. 1987, Ph.D. 1995, University of California, Los Angeles.
- Solomon, James F. (1991)** Professor of English. B.A. 1976, Brandeis University; M.A. 1978, Ph.D. 1981, Harvard University.
- Sorrells, Kathryn (1999)** Professor of Communication Studies. B.A. 1978, Carleton College; M.A. 1992, Antioch University; Ph.D. 1999, University of New Mexico.
- Sosapavon, Ricardo (2006)** Lecturer in Educational Leadership and Policy Studies. B.A. 1973, M.A. 1974, California State University, Los Angeles.
- Soule, Malcolm (1965)** Professor of Mathematics. B.S. 1955, M.S. 1957, Oklahoma State University; M.S. 1959, University of Chicago; Ph.D. 1978, University of California, Los Angeles.
- Spagna, Michael E. (1991)** Dean, Michael D. Eisner College of Education, Executive Director and Endowed Chair for the Michael D. Eisner Center for Teaching and Learning and Professor of Special Education. B.S. 1984, Northwestern University; M.A. 1985, University of California, Los Angeles; Ph.D. 1991, University of California, Berkeley/San Francisco State University.
- Spector, Cheryl A. (1986)** Director, Academic First Year Experience and Professor of English. B.A. 1976, Rice University; M.A. 1979, Ph.D. 1986, Cornell University.
- Spencer, Sally A. (2005)** Associate Professor in Special Education. B.M. 1977, CSU, Long Beach; M.A. 1997 CSU, Northridge.
- Spencer-Walters, Tom (1984)** Professor of Pan African Studies. B.A. 1973, University of Sierra Leone; M.A. 1979, Ph.D. 1984, University of Washington.
- Spratt, Danielle L. (2011)** Assistant Professor of English. B.A. 2002, M.A. 2003, Ph.D. 2011, Fordham University.
- Spruce, Chadwick S. (2000)** Associate Professor of Mathematics. B.S. 1994, University of Tennessee; M.A. 1997, Ph.D. 1999, University of California, Los Angeles.
- Squires, Richard L. (1974)** Professor of Geological Sciences. B.S. 1966, M.S. 1968, University of New Mexico; Ph.D. 1973, California Institute of Technology.
- Stahl, Jonathan (1998)** Chair and Professor of Cinema and Television Arts. B.A. 1980, State University of New York; M.F.A. 1996, University of California, Los Angeles.
- Stallcup, Jackie E. (1999)** Professor of English. B.A. 1991, California State Polytechnic University, Pomona; M.A. 1994, Ph.D. 1999, University of California, Riverside.
- Stanford, Karin (2003)** Professor of Pan African Studies. B.A. 1984, CSU, Chico; M.P.H. 1988, University of Southern California; Ph.D. 1993, Howard University.
- Stanley, Sandra (1991)** Professor of English. B.A. 1976, Point Loma College; M.A. 1979, Ph.D. 1988, University of Southern California.
- Steadman, Michael (1977)** Executive Director, Roland Tseng College of Extended Learning, Academic Support and Fiscal Management. B.A. 1972, M.A. 1974, CSU, Northridge.
- Stecyk, Shane D. (2002)** Assistant Professor of Kinesiology. B.S. 1994, Washington State University; M.S. 1996, University of Arizona; Ph.D. 2003, Ohio University.
- Steele, Mark A. (2007)** Associate Professor of Biology. B.A. 1989, University of California, San Diego; Ph.D. 1995, University of California, Santa Barbara.
- Stein, Mary-Pat (2006)** Associate Professor of Biology. B.A. 1985, University of Pennsylvania; M.S. 1994, Hood College; Ph.D. 2000, University of New Mexico.
- Stepanek, Steven G. (1981)** Professor of Computer Science. B.A. 1974, M.A. 1980, CSU, Northridge.
- Stephens, Diane S. (1995)** Associate Vice President, Academic Resources and Planning. B.S. 1990, CSU, Northridge; M.B.A. 2008, CSU, Northridge.
- Stern, Cindy D. (1989)** Associate Professor of Philosophy. B.A. 1974, College of William and Mary; M.L.S. 1975, M.A. 1979, Ph.D. 1980, Syracuse University.
- Sternberg, Judith (1995)** Analyst Programmer II, Financial Aid. B.A. 1973, University of California, Santa Barbara.
- Stevens, Mark (2005)** Director of University Counseling and Testing. B.A. 1976, CSU, Northridge; Ph.D. 1982, California School of Professional Psychology, San Diego.
- Stevenson, Katherine F. (2002)** Director, Developmental Mathematics and Professor of Mathematics. B.S. 1989, Mount Holyoke College; Ph.D. 1994, University of Pennsylvania.
- Stillwell, Belinda (2003)** Assistant Professor of Kinesiology. B.A. 1982, CSU, Long Beach; M.A. 1993, California State University, Dominguez Hills; Ph.D. 1998, Arizona State University.
- Stinner, Jerry N. (2005)** Dean, College of Science and Mathematics and Professor of Biology. B.S. 1972, California Baptist College; Ph.D. 1980, University of California, Riverside.
- Stocker, Geoff (1988)** Director of Intramurals, Associated Students. B.S. 1982, San Jose State University; B.S. 1987, M.A. 1988, CSU, Northridge.
- Stoffel, Lawrence F. (2004)** Professor of Music. B.A. 1986, M.Ed. 1987, University of California; M.M. 1990, University of Colorado; D. Mus. 1999, Indiana University.
- Stone, Ronald S. (1986)** Professor of Accounting and Information Systems. B.A. 1971, University of Wisconsin; M.B.A. 1972, Rutgers University; Ph.D. 1983, University of California, Los Angeles; C.P.A.
- Stone, Dana J. (2011)** Assistant Professor of Educational Psychology and Counseling. B.A. 1999 Colorado College; M.A. 2004, Alliant International University; Ph.D. 2009, Virginia Tech.
- Stotts, Veronica N. (2011)** Student Services Professional, University Counseling Services. B.S. 2002, University of Oregon; Ph.D. 2009, University of Albany, State University of New York.
- Stout, Gary R. (1985)** Professor of Accounting and Information Systems. B.S. 1971, M.S. 1974, CSU, Northridge; D.B.A. 1977, University of Southern California; C.P.A.
- Stover, Mark (2011)** Dean, Oviatt Library. B.A. 1983, Biola University; M.A.R. 1986, Westminster Theological Seminary; M.L.S. UCLA, 1988; Ph.D. Nova Southeastern University, 1997.
- Stranzl, Frank W. (2005)** Manager, Recruitment Services and Compensation. B.A. 1986, Temple University.
- Strike-Roussos, Christine A. (1988)** Associate Professor of Communication Disorders and Sciences. B.S. 1974, M.A. 1975, Northwestern University; Ph.D. 1988, Indiana University.
- Su, Zhixin (1990)** Professor of Educational Leadership and Policy Studies/Director of China Institute/Coordinator of International Programs. B.A. 1978, Shanghai International Studies University; M.Ed. 1985, Ph.D. 1989, University of Washington.
- Sullivan, Michael J. (2007)** Associate Professor of Environmental and Occupational Health. B.S. 1980, University of California, Davis; M.S. 1983, Ph.D. 1986, University of Michigan.
- Summers, Michael L. (1998)** Professor of Biology. B.S. 1976, Heidelberg College; Ph.D. 1995, University of California, Davis.
- Sun, Weimin (2003)** Associate Professor of Philosophy. B.A. 1991, M.A. 1994, Beijing University; Ph.D. 2003, University of Connecticut.
- Sun, Yifei (2000)** Professor of Geography. B.S. 1991, M.S. 1994, Nanjing University; M.A. 1997, University of Akron; Ph.D. 2000, State University of New York.
- Svorny, Shirley V. (1978)** Professor of Economics. B.A. 1973, M.A. 1975, Ph.D. 1979, University of California, Los Angeles.
- Sweeting, Terry (1997)** Professor of Kinesiology. B.S. P.E. 1979, B.Ed. 1980, University of Saskatchewan; M.A. 1990, Ph.D. 1992, University of South Carolina.
- Swenson, Adam R. (2006)** Associate Professor of Philosophy. B.A. 1999, University of California, Los Angeles; Ph.D. 2006, Rutgers University.
- Tabidian, M. Ali (1988)** Professor of Geological Sciences. B.S. 1976, Esfahan University; M.S. 1979, Emporia State University; M.S. 1987, University of Kansas; Ph.D. 1987, University of Nebraska; Registered Environmental Assessor in California.
- Talbott, Rick F. (1999)** Professor of Religious Studies. B.A. 1971 California State University, Northridge; M.A. 1980, Fuller Theological Sem.; Ph.D. 1987, University of California, Los Angeles.
- Tamayo, Francisco, N. (2011)** Assistant Professor of Chicana/o Studies. B.A. 1997, Western Washington University; M.Ed. 1998 Western Washington University; Ph.D. 2010, Washington State University.

- Tarver-Behring, Shari (1991)** Professor of Educational Psychology and Counseling. B.S. 1976, University of South Dakota; M.S. 1981, Marquette University; Ph.D. 1986, University of Wisconsin.
- Taylor, April Z. (2004)** Associate Professor of Child and Adolescent Development. B.A. 1993, Pomona College; Ph.D. 2001, University of California, Los Angeles.
- Tedeschi, Christian R. (2011)** Assistant Professor of Art. B.F.A. 1997, University of the Arts; M.F.A. 2001 Cranbrook Academy of Art.
- Tehrani, Sherry (2011)** Assistant Professor of Business Law. B.A. 2000, University of California Berkeley; M.A. / J.D. 2004, University of Southern California.
- Thachuk, Steven (2002)** Professor of Music. B.M. 1993, University of Toronto; M.M. 1995, D.M.A. 1999, Eastman School of Music.
- Thakur, Anubhuti (2006)** Associate Professor of Family and Consumer Sciences. B. Arch 2000, Maharaja Sayaji Rao University of Bawda, India; M.S. 2003, Florida State University; Ph.D. 2006, Florida State University.
- Theodoulou, Stella Z. (1990)** Dean, College of Social and Behavioral Sciences and Professor of Political Science. B.A. 1977, City of London Poly; M.A. 1979, University of Essex; Ph.D. 1984, Tulane University.
- Thom, Emily E. (2011)** Assistant Professor of Child and Adolescent Development. B.A. 2005, University of California, Santa Barbara; M.A. 2007, Ph.D. 2011, University of California, Los Angeles.
- Thomas, Nate (1994)** Professor of Cinema and Television Arts. B.A. 1979, St. Edward's University; M.F.A. 1984, University of Southern California.
- Thomas, Geetha (2005)** Assistant Vice President, Resource Management. M.B.A. 1984, University of Akron.
- Thomas, Jeffrey F. (2007)** Lecturer in Biology. B.S. 1993, University of North Carolina-Chapel Hill; Ph.D. 2004, University of California, Los Angeles.
- Thomas, Travis (1998)** Materials Manager, Physical Plant Management. B.A. 2003, California State University, Northridge.
- Thomas, Ward (2003)** Associate Professor of Urban Studies and Planning. B.A. 1985, University of Oregon; M.P.A. 1988, San Francisco State University; Ph.D. 1997, University of California, Los Angeles.
- Thomson, Paula S. (2007)** Associate Professor of Kinesiology. B.A. 1973, M.A. 1976, York University; B. Ed. 1974, University of Toronto; Psy.D. 1998 American Behavioral Studies Institute.
- Thompson, Shelly (1986)** Director, College of Humanities Student Services Center/EOP. B.A. 1990, M.A. 2010, California State University, Northridge.
- Tohidi, Nayereh (1997)** Professor of Gender and Women's Studies. B.S. 1974, University of Tehran; M.A. 1978, Ph.D. 1983, University of Illinois.
- Toker, Zeynep (2006)** Associate Professor of Urban Studies and Planning. B.A. 1998, Middle East Technical University, Turkey; M.A. 2000, Middle East Technical University, Turkey; Ph.D. 2004, North Carolina State University.
- Tolan, Janice D. (1987)** Associate Professor of Recreation and Tourism Management. B.S. 1980, M.S. 1984, CSU, Northridge; Ph.D. 1992, Texas Woman's University; Recreation Therapist.
- Tomasek, Paul H. (1995)** Associate Professor of Biology. B.S. 1976, University of North Dakota; Ph.D. 1983, University of Minnesota.
- Tonyan, Holli A. (2007)** Assistant Professor of Psychology. B.A. 1995, Carleton College; M.A. 2000, Ph.D. 2001, University of California, Los Angeles.
- Torabian-Riasati, Setareh (2005)** Associate Professor of Family and Consumer Sciences. B.S. 1991, Azad University, Tehran, Iran; M.S. 1999, CSU, Polytechnic University, Pomona; Ph.D. 2005, Loma Linda University.
- Toutant, William P. (1975)** Professor of Music. B.A. 1970, M.A. 1972, George Washington University; Ph.D. 1977, Michigan State University.
- Trean, Timothy (2001)** Director, Residential Life and Conference Services. B.A. 1985, Taylor University; M.A. 1988, Azusa Pacific University.
- Trevathan-Ramirez, Diane (2002)** Lecturer in Nursing. B.A. 1980, CSU, Northridge.
- Trujillo, Mary Ann (1999)** Associate Professor of Art. B.F.A. 1977, Wichita State University; M.F.A. 1980, Rutgers University.
- Trybus, Elizabeth (1982)** Professor of Systems and Operations Management. M.S. 1964, Wroclaw University, Poland; Ph.D. 1971, Oscar Lange Academy of Economics.
- Trybus, Ginter (1992)** Lecturer in Computer Science. M.S. 1964, Wroclaw University; Ph.D. 1970, Oscar Lange Graduates.
- Turner, Eugene J. (1975)** Professor of Geography. B.A. 1968, M.A. 1971, Ph.D. 1977, University of Washington.
- Turner, Sally (2000)** Lecturer in Journalism. B.A. 1978, Yale University; M.S. 1983, Columbia University.
- Uba, George R. (1987)** Professor of English. B.A. 1969, University of Southern California; M.A. 1970, University of Michigan; Ph.D. 1982, University of California, Los Angeles.
- Vakilian, Ramin (1990)** Professor of Mathematics. B.A. 1983, University of California, Berkeley; M.A. 1985, Ph.D. 1990, University of California, Davis.
- Valiton, Maria L. (1985)** Director, Student Resource Center/EOP, College of Arts, Media, and Communication. B.A. 1991, M.A. 1998, CSU, Northridge.
- Van Alphen, Deborah (1985)** Professor of Electrical and Computer Engineering. B.A. 1971, CSU, Long Beach; M.S. 1979, Loyola Marymount University; M.S. 1984, CSU, Northridge; Ph.D. 1994, University of Southern California.
- Van Arsdale, John S. (2002)** Lecturer in Recreation and Tourism Management. B.A. 1968, M.A. 1970, CSU, Northridge.
- Van Buskirk, Cheryl L. (2011)** Assistant Professor of Biology. B.S. 1993, University of Calgary; Ph.D. 2000, Princeton University.
- Vanscoy, Scott G. (1998)** Captain, Police Services. B.S. 1993, Iowa State University; M.A. 2000, University of Redlands.
- Vargas, José Luis (1971)** Director, Educational Opportunity Program. B.A. 1974, M.A. 1975, CSU, Northridge.
- Vatai, Frank L. (1990)** Associate Professor of History. B.A. 1970, M.A. 1972, Wayne State University; Ph.D. 1982, State University of New York.
- Vazquez, Jorge A. (2004)** Assistant Professor of Geological Science. B.S. 1996, Ph.D. 2004 California State University, Los Angeles; M.S. 1998, Northern Arizona University.
- Vedd, Rishma (2006)** Associate Professor of Accounting and Information Systems. B.Com. 1972, MBA City University, Seattle, Ph.D. 1999 University of Dundee, Scotland.
- Velazco y Trianosky, Gregory (1998)** Professor of Philosophy. A.B. 1974, Georgetown University; M.A. 1977, Ph.D. 1980, University of Michigan.
- Velazquez Vargas, Yarma (2008)** Assistant Professor of Chicana/o Studies. B.A. 2000, University of Puerto Rico; M.A. 2001, Michigan State University; Ph.D. 2008, Florida State University.
- Vermiglio, Andrew (2009)** Assistant Professor of Communication Disorders and Sciences. B.A. 1989, M.A. 1992, California State University, Long Beach; AuD. 2007, Central Michigan University.
- Ventuleth, Cindy (1980)** Director of Special Projects. B.A. 1974, B.A. 1986, M.A. 1982, M.A. 1992, CSU, Northridge.
- Venugopal, Shubha (2007)** Associate Professor of Pan African Studies. B.A. 1995, Northwestern University; M.A. 2002, Ph.D. 2002, University of Michigan; M.F.A. 2007, Bennington College.
- Vey, Jessica L. (2011)** Assistant Professor of Chemistry and Biochemistry. B.S. 2001, Temple University; Ph.D. 2008, Massachusetts Institute of Technology.
- Vickroy, Thelma (2000)** Professor of Cinema and Television Arts. B.A. 1980, CSU, Fullerton; M.F.A. 1982, New York University.
- Vidal, Lill (1986)** Director of Scholarship. B.A. 1977, University of California, Los Angeles; M.S. 1992, CSU, Northridge.
- Vigneron, Franck (2000)** Associate Professor of Marketing. B.A. 1992, Zurich University; B.A. 1993, Grenoble University; M.S. 1994, University of Stirling; Ph.D. 1998, University of Sydney.
- Virts, Nancy L. (1985)** Professor of Economics. B.S. 1978, Santa Clara University; M.A. 1980, Ph.D. 1985, University of California, Los Angeles.
- Von Mayrhauser, Christina (2001)** Professor of Anthropology. A.B. 1990, Harvard University; M.A. 1995, Ph.D. 2000, University of California, Los Angeles.
- Von Wolffersdorff, Joy A. (1985)** Professor of Art. B.A. 1983, University of California, Davis; B.F.A. 1983, Art Center College of Design; M.F.A. 1990, CSU, Los Angeles.
- Vrongistinos, Konstantinos D. (2000)** Professor of Kinesiology. B.S. 1991, University of Athens; M.S. 1995, Ph.D. 2001, Auburn University.
- Wakefield, W. David (1999)** Professor of Child and Adolescent Development. B.A. 1993, University of California, Berkeley; M.A. 1997, Ph.D. 1999, University of California, Santa Barbara.
- Walker, Kristen L. (1993)** Assistant Professor of Marketing. B.S. 1993, M.P.A. 1995, California State University, Northridge; Ph.D. 2003, University of California, Los Angeles.
- Wall, Melissa A. (2001)** Professor of Journalism. B.A. 1984, University of Virginia; M.A. 1995, Ph.D. 2001, University of Washington.
- Wang, Meiqin (2007)** Associate Professor of Art. B.A. 1998, Fujian Teachers University; Ph.D. 2007, State University of New York at Binghamton.
- Wang, Taehyung (2003)** Assistant Professor of Computer Science. B.S. 1985, Seoul National University; M.S. 1994, Western Illinois University; Ph.D. 1998, University of California, Irvine.
- Wang, Wen C. (1994)** Professor of Sociology. B.S. 1981, Beijing Normal University; Ph.D. 1993, University of California, Los Angeles.
- Ward, Veda (1990)** Professor of Recreation and Tourism Management. B.A. 1972, Bucknell University; M.S. 1978, University of Baltimore; Ph.D. 1984, University of Maryland; Certified Leisure Professional (CLP).
- Warren, Shirley (2007)** Lecturer in Family and Consumer Sciences. B.S. 1979, Murray State University; M.S. 2001, California State University, Northridge.
- Watkins, Ann E. (1990)** Professor of Mathematics. B.A. 1970, M.S. 1972, CSU, Northridge; Ph.D. 1977, University of California, Los Angeles.
- Watkins, William C. (1974)** Vice President, Student Affairs and Dean of Students. B.A. 1974, CSU, Northridge; M.P.A. 1977, University of Southern California; Ed. D. 1999, University of California, Los Angeles.
- Watkins, William E. (1969)** Professor of Mathematics. B.A. 1964, M.A. 1968, Ph.D. 1969, University of California, Santa Barbara.
- Watson, Beverly J. (2007)** Associate Director of Operation, Student Housing and Conference Services. B.S. University of Phoenix.
- Weber, Elizabeth (1993)** Professor of Communication Disorders and Sciences. B.A. 1966, M.A. 1975, Queens College, City University of New York; M.A. 1988, CSU, Northridge; Ph.D. 1989, University of California, Los Angeles.
- Weeraratne, Dayanthie S. (2007)** Associate Professor of Geological Sciences. B.S. 1998, M.S. 1999, University of Oregon; Ph.D. 2005, Brown University.
- Weinberg, Nathan (1972)** Professor of Sociology. A.B. 1966, University of California, Riverside; M.A. 1968, Ph.D. 1974, University of California, Davis.
- Weiner, Ivor (2001)** Assistant Professor of Special Education. B.A. 1986, M.P.A. 1990, University of North Texas; Ph. D. 2001, Texas Woman's University.
- Weingarten, Dan S. (2011)** Assistant Professor of Theatre. B.S. 1988, Drexel University; M.F.A. 2004, California Institute of the Arts.
- Weinstein, Bruce (2000)** Director, Logistical Services, Physical Plant Management. B.B.A. 1973, Pace University, New York; M.A. 1976, Long Island University, New York.
- Weiss, Andrew P. (2011)** Sr. Assistant Librarian. B.A. 1993, Kenyon College; M.A. 1998, Temple University; M.L.I.Sc. 2008, University of Hawaii at Manoa.
- Weiss, Earl J. (1984)** Professor of Accounting and Information System. B.A. 1970, University of California, Los Angeles; M.S. 1980, California State University, Los Angeles; J.D. 1974, Southwestern University; C.P.A.
- Wexler, Steven (2007)** Assistant Professor of English. B.A. 1987, Syracuse University; M.A. 2001; Ph.D. 2006, University of Louisville.
- Whirlidge, Elizabeth (2003)** Manager Academic Resources, College of Humanities. B.A. 2005, M.A. 2009, California State University, Northridge.

- White, Connie L. (2005)** Assistant Professor of Elementary Education. B.A. 1972, B. Ed. 1978, Acadia University; M.Ed. 1989, M.A. Research 1994, Mount St. Vincent University; Ph.D. 2002, University of S. Australia.
- White, Nancy B. (2005)** Assistant Professor of Leisure Studies and Recreation. B.A. 1981; M.P.A. 1993; M.A. 1998; Ph.D. 2004, University of New Mexico.
- White, Theresa (2008)** Assistant Professor of Pan African Studies B.A. 1992, University of Southern California; M.A., 1999, Ph.D. 2008, University of California, Los Angeles.
- Whiting, William C. (1994)** Senior Director of Academic Personnel. B.S. 1975, Stanford University; M.S. 1979, Ph.D. 1983, University of California, Los Angeles.
- Whitman, Douglas G. (2000)** Professor of Economics. B.A. 1994, The American University; Ph.D. 2000, New York University.
- Wieggers, Lynn K. (2001)** Director, Engineering Services, Physical Plant Management. B.S. 1990, Pepperdine University.
- Wiegley, Jeffrey A. (1991)** Assistant Professor of Computer Science. B.S. 1991, State University of New York; Ph.D. University of Southern California.
- Wightman, Beth (2003)** Associate Professor of English. B.A. 1987, Barnard College; M.A. 1991, University College Dublin; M.A. 1999, Ph.D. 2003, University of California, Los Angeles.
- Wilkin, Christa L. (2011)** Assistant Professor of Management. B.C. 2006, Ryerson University; 2007 M.A. 2007, Ph.D. 2011, McMaster University.
- Williams, Melanie (1984)** Professor of Business Law. B.A. 1977, University of California, Santa Cruz; J.D. 1981, Boston University; State Bar of California.
- Williams-Leon, Teresa (1996)** Professor of Asian American Studies. B.A. 1986, University of Hawaii; M.A. 1989, M.A. 1991, Ph.D. 1997, University of California, Los Angeles.
- Williamson, Mika (1984)** Manager, Recruitment Services and Compensation. B.A. 1984, California State University, Northridge.
- Willingham, Shad (2011)** Assistant Professor of Theatre. B.F.A. 1992, North Carolina School of the Arts; M.F.A. 2002, University of Washington.
- Willey, Temma (1982)** Professor of Cinema and Television Arts. B.A. 1971, M.B.A. 1973, M.F.A. 1976, University of California, Los Angeles.
- Wilson, Barbara A. (1994)** Professor of Accounting and Information Systems. B.S. 1974, M.Ed. 1988, Ph.D. 1994, University of Minnesota.
- Wilson, Paul S. (1995)** Professor of Biology. B.S. 1988, Humboldt State University; Ph.D. 1994, State University of New York Stony Brook.
- Wilson, Nathaniel S. (2003)** Campus Architect, Facilities Planning, Design and Construction. B.A. 1979, University of California, Riverside; M.A. 1991, University of California, Los Angeles.
- Winkelman, Jack L. (1976)** Professor of Health Sciences. B.S. 1970, M.S. 1971, CSU, Fullerton; H.S.Dir. 1974, H.S.D. 1975, Indiana University.
- Winterhater, Edith T. (1998)** Director of Academic Budget Management. B.S. 2003, CSU, Northridge; M.A. 2010, CSU, Northridge.
- Winters, Loretta I. (1994)** Associate Professor of Sociology. B.A. 1985, M.A. 1989, Ph.D. 1994, University of California, Riverside.
- Wohldmann, Erica L. (2007)** Assistant Professor of Psychology. B.A. 2000, University of Missouri; M.A. 2003, Ph.D. 2006, University of Colorado.
- Woldeamanuel, Mintesnot G. (2011)** Assistant Professor of Urban Studies and Planning. B.S. 2001, Ethiopian Civil Service College; M.E. 2004, Ph.D. 2007, Hokkaido University.
- Wolfe, Todd (1994)** Registrar, Admissions and Records. B.A. 1990, M.S. 1995, California State University, Northridge.
- Woodley, Mary S. (1999)** Librarian, Technical Services. B.A. 1973, University of Florida; M.A. 1979, M.L.I.S. 1994, Ph.D. 1989, University of California, Los Angeles.
- Wook, Sung Yoon (2007)** Assistant Professor of Accounting and Information Systems. B.A. 1990, M.B.A. 1992, SungKyunKwan University, Seoul Korea; M.S. 1999, Ph.D. 2004, University of Colorado.
- Wright, Alan N. (1990)** Professor of Recreation and Tourism Management. B.A. 1976, Gordon College; M.Div. 1979, Northern Seminary; M.S. 1979, George Williams; Ph.D. 1982, Pennsylvania State University.
- Wu, Lih (2008)** Executive Director, Business Operations and Finance, The Tseng College. B.S. 1973, National Taiwan University; M.S. 1976, Rice University; M.A.S. 1979, University of Illinois-Champaign-Urbana.
- Wynter, Dianah E. (2003)** Associate Professor of Cinema and Television Arts. B.A. 1981, Princeton University; M.F.A. 1984, Yale School of Drama, Yale University; M.F.A. 1989, American Film Institute.
- Xanthos, Christopher (1985)** Director, Administrative Services. B.A. 1985, California State University, Northridge; J.D. 1990, Southwestern University School of Law.
- Xie, Hui (2011)** Assistant Professor of Recreation and Tourism Management. B.S. 2002, M.S. 2005, Sun Yat-Sen University; Ph.D. 2011, Pennsylvania State University.
- Yagisawa, Takashi (1987)** Professor of Philosophy. B.A. 1977, London University; Ph.D. 1981, Princeton University.
- Yao, Chi-Chuan A. (1986)** Professor of Systems and Operations Management. B.S. 1977, Soochow University; M.S.S.M. 1979, Ph.D. 1988, University of Southern California.
- Yaspelkis III, Benedict B. (1996)** Professor of Kinesiology. B.S. 1988, Pepperdine University; M.A. 1990, Ph.D. 1995, University of Texas.
- Ye, Li Richard (1990)** Professor of Accounting and Information Systems. B.A. 1985, University of Regina; Ph.D. 1990, University of Minnesota.
- Yomba, Emmanuel (2011)** Assistant Professor of Mathematics. B.S. 1990, M.S. 1992, Ph.D. 1998, University of Yaounde.
- Yoo, Julie H. (2011)** Assistant Professor of Philosophy. A.B. 1988, Bryn Mawr College; Ph.D. 1998 Rutgers University.
- Young, Kathleen (2003)** Assistant Professor of Health Sciences. B.S. 1986, Central Michigan University; M.S. 1995, San Francisco State University; Ph.D. 2002, University of New Mexico.
- Youssef, George H. (2011)** Assistant Professor of Mechanical Engineering. B.S. 2005, M.S. 2007, California State University, Northridge; M.S. 2009, Ph.D. 2010, University of California Los Angeles.
- Yule, J. Douglas (1999)** Professor of Geological Sciences B.A. 1983, Pomona College; M.Sc. 1988, University of Wyoming; Ph.D. 1996, California Institute of Technology.
- Zakeri, Gholam-Ali (1990)** Professor of Mathematics. B.S. 1975, Jundi-Shapour University; M.S. 1978, Michigan State University; Ph.D. 1985, Kansas State University.
- Zartoshty, Bahram (1998)** Lecturer in Computer Science. B.A. 1982, Transylvania University; M.S. 1984, University of Kentucky.
- Zavala, Maria E. (1988)** Professor of Biology. A.B. 1972, Pomona College; Ph.D. 1978, University of California, Berkeley.
- Zeitlin, Joel L. (1973)** Professor of Mathematics. B.A. 1963, M.S. 1966, Ph.D. 1969, University of California, Los Angeles.
- Zell, Deone (1998) Senior Director, Academic Technology. B.S. 1986, M.A. 1989, Ph.D. 1994, University of California, Los Angeles.**
- Zhang, Yue (2001)** Professor of Accounting and Information Systems. B.S. 1982, East China Institute of Technology; M.S. 1985, Zhejiang University; Ph.D. 1995, Oklahoma State University.
- Zhou, Zhong-Guo (1998)** Professor of Finance Real Estate and Insurance. B.S. 1983, Shanghai University of Technology; M.B.A. 1988, Ph.D. 1993, University of California, Riverside.
- Ziolkowska, Renee M. (2004)** Associate Professor of Elementary Education. B.S. 1990, Saint Joseph's University; M.A. 1992, Villanova University; Ed.D. 2002, University of Pennsylvania.
- Zucker, Bruce (1997)** Associate Professor of Business Law. B.A. 1989, University of California, Los Angeles; J.D. 1993, Loyola Law School.
- Zvinakis, Kristina (2003)** Assistant Professor of Accounting and Information Systems B.S. 1991, University of Illinois; Ph.D. 1998, University of Texas.

## Emeriti

- Abbitt, Jerry W. (1980)** Professor of Theatre. B.S. 1973, Murray State; M.A. 1975, M.F.A. 1980, Purdue University.
- Abcarian, Richard (1959)** Professor of English. B.A. 1952, M.A. 1955, Ph.D. 1961, University of California, Berkeley; J.D. 1976, University of San Fernando Valley College of Law.
- Abeles, Kim (1998)** Associate Professor of Art. B.F.A. 1974, Ohio University; M.F.A. 1980, University of California, Irvine.
- Abrash, Henry I. (1961)** Professor of Chemistry and Biochemistry. B.A. 1956, Harvard College; Ph.D. 1961, California Institute of Technology.
- Acuna, Rodolph F. (1969)** Professor of Chicana/o Studies. B.A. 1957, M.A. 1962, CSU, Los Angeles; Ph.D. 1968, University of Southern California.
- Adams, Adran (1960)** Professor of Kinesiology. B.A. 1952, University of California, Santa Barbara; M.S. 1959, University of California, Los Angeles; Ph.D. 1965, University of Southern California.
- Adams, Herbert G. (1973)** Professor of Geological Sciences. B.A. 1961, Pomona College; M.S. 1968, Ph.D. 1971, University of California, Los Angeles; Registered Geologist; Certified Engineering Geologist, State of California.
- Adams, John W. (1984)** Professor of Electrical and Computer Engineering. B.S. 1976, M.S. 1976, Ph.D. 1982, University of California, Los Angeles.
- Akers, Alyce S. (1972)** Professor of Family and Consumer Sciences. B.A. 1969, CSU, San Diego; M.A. 1971, CSU, Long Beach; Ph.D. 1982, University of Southern California; Certified in Family and Consumer Sciences.
- Alhashim, Dhia D. (1974)** Professor of Accounting and Information Systems. B.B.A. 1962, University of Baghdad; M.B.A. 1965, University of California, Los Angeles; Ph.D. 1971, University of Missouri, Columbia.
- Allen, James P. (1969)** Professor of Geography. B.A. 1958, Amherst College; M.A.T. 1959, Harvard University; Ph.D. 1970, Syracuse University.
- Allyn, John (1971)** Professor of Cinema and Television Arts. B.A. 1945, University of Michigan; M.A. 1951, Ph.D. 1970, University of California, Los Angeles.
- Andersen, David (1968)** Professor of English. B.A. 1964, Western Washington University; M.A. 1966, Ph.D. 1968, University of California, Davis.
- Anderson, Gary (1987)** Professor of Economics. B.A. 1980, University of Rhode Island; Ph.D. 1987, George Mason University.
- Anderson, Shirley C. (1981)** Professor of Marketing. B.S. 1960, Ohio State University; M.A. 1968, University of Washington; Ph.D. 1978, University of California, Los Angeles.
- Ansari, Shahid L. (1986)** Professor of Accounting and Information Systems. B.A. 1965, Government Commerce College; M.B.A. 1967, University of Karachi; Ph.D. 1973, Columbia University.
- Armer, Alan (1979)** Professor of Cinema and Television Arts. B.A. 1947, Stanford University; M.A. 1982, University of California, Los Angeles.
- Armstrong, Kenneth (1969)** Professor of Special Education. B.A. 1951, Whittier College; M.A. 1956, CSU, Los Angeles; Ed.D. 1967, University of Kansas.
- Athey, Joel W. (1989)** Associate Professor of English. B.A. 1966, M.A. 1968, Kansas State University; Ph.D. 1986, University of Texas.
- Auer, H. J. Michael, Jr. (1969)** Professor of Educational Psychology and Counseling. B.A. 1963, Harvard College; M.A. 1966, Eastern Michigan University; Ph.D. 1971, Michigan State University.
- Baca, Albert R. (1962)** Professor of Modern and Classical Languages and Literatures. B.A. 1953, M.A. 1958, University of California, Los Angeles; Ph.D. 1965, University of Southern California.
- Backlin, Helen (1962)** Professor of Theatre. B.A. 1944, M.A. 1962, University of Minnesota.
- Baechold, George (1970)** Professor of Business Law. B.S. 1950, Elmhurst College; J.D. 1959, University of Southern California.
- Bailey, Betty J. (1966)** Associate Professor of Family and Consumer Sciences. B.S. 1964, M.S. 1965, Oklahoma State University.
- Bajpai, Shiva G. (1970)** Professor of History. B.A. 1955, M.A. 1957, Banaras Hindu University, India; Ph.D. 1967, University of London.
- Bakewell, Dennis C. (1959)** Senior Assistant Librarian, Gifts and Exchanges/Special Collections. B.A. 1948, Pomona College; M.L.S. 1959, University of California, Berkeley.
- Bales, Barney L. (1969)** Professor of Physics and Astronomy. B.S. 1962, Ph.D. 1968, University of Colorado.
- Barbian, Carolyn K. (1968)** Associate Professor of Kinesiology. B.A. 1964, CSU, Long Beach; M.Ed. 1966, University of Arizona.
- Barer, Bertram (1960)** Professor of Cinema and Television Arts. B.S. 1951, Syracuse University; M.A. 1957, Ph.D. 1960, University of Minnesota.
- Barker, Corinne W. (1980)** Clinical Psychologist, Counseling Service. B.A. 1971, University of California, Los Angeles; M.A. 1975, Ph.D. 1978, California School of Professional Psychology; Licensed Psychologist, California.
- Barsch, Ray H. (1975)** Professor of Special Education. B.S. 1950, M.Ed. 1952, University of Wisconsin-Milwaukee; Ph.D. 1959, Northwestern University.
- Bartenstein, Edwin (1975)** Professor of Accounting and Information Systems. B.S. 1951, University of Houston; M.B.A. 1957, Air Force Institute of Technology; D.B.A. 1975, University of Southern California; Certificate in Management Accounting, 1980.
- Baskauskas, Liucija (1972)** Professor of Anthropology. A.B. 1964, Stonehill College; M.A. 1967, Ph.D. 1971, University of California, Los Angeles.
- Bassler, Robert C. (1964)** Professor of Art. B.A. 1957, Bard College; M.F.A. 1960, University of Southern California.
- Baum, Paul (1969)** Professor of Systems and Operations Management. B.S. 1961, CSU, Los Angeles; M.B.A. 1963, University of Pennsylvania; Ph.D. 1969, University of California, Los Angeles.
- Bauml, Betty Jean (1961)** Professor of Modern and Classical Languages and Literatures. B.A. 1951, M.A. 1953, Ohio State University; Ph.D. 1957, University of California, Berkeley.
- Beals, Patricia L. (1975)** Associate Professor of Family and Consumer Sciences. B.S. 1970, M.S. 1972, CSU, Northridge.
- Bearchell, Charles A. (1965)** Professor of Marketing. B.S. 1959, M.S. 1962, San Francisco State University; Ph.D. 1970, Northwestern University.
- Becker, Tamar (1968)** Professor of Sociology. B.S. 1952, M.A. 1953, Columbia University; Ph.D. 1966, University of California, Los Angeles.
- Bell, Janice (1986)** Professor of Accounting and Information Systems. B.S. 1972, University of Tennessee; M.S. 1974, CSU, Northridge; Ph.D. 1980, University of California, Los Angeles.
- Beller, Dennis (1970)** Professor of Political Science. B.A. 1957, Pomona College; M.A. 1961, Ph.D. 1970, University of California, Los Angeles.
- Bennett, Helen C. (1960)** Librarian, Reference and Instructional Services. B.A. 1949, Augsburg College; M.L.S. 1960, University of Southern California.
- Bennett, James C. (1965)** Professor of Business Communications Information Systems. B.A. 1956, M.B.E. 1957, University of North Texas; Ed.D. 1970, University of California, Los Angeles; C.R.M.
- Bennett, Mary E. (1969)** Professor of Health Sciences. B.A. 1945, Willamette University; M.A. 1959, University of Southern California; Licensed Physical Therapist, State of California.
- Benson, Anna (1968)** Professor of Modern and Classical Languages and Literatures. Dottore in Lingue e Letterature Stragniere 1950, Instit. Univers. Ca Foscarì, Venice, Italy; M.A. 1958, Ph.D. 1967, University of California, Los Angeles.
- Benson, David (1961)** Professor of Kinesiology. B.S. 1954, M.S. 1958, University of California, Los Angeles; Ph.D. 1966, University of Southern California.
- Berger, Jay S. (1965)** Professor of Finance, Real Estate, and Insurance. B.A. 1956, M.B.A. 1960, Ph.D. 1967, University of California Santa Barbara.
- Berko, Lili (1991)** Assistant Professor of Cinema and Television Arts. B.A. 1975, Livingston College; M.A. 1983, Ph.D. 1991, University of Southern California.
- Bernstein, Saul I. (1961)** Professor of Art. M.F.A. 1960, Los Angeles County Art Institute.
- Berry, Elizabeth B. (1973)** Professor of Communication Studies. B.S. 1960, Northwestern University; M.A. 1963, CSU, Los Angeles; Ph.D. 1969, University of California, Los Angeles.
- Bethe, Donald R. (1969)** Professor of Kinesiology. B.A. 1963, CSU, Northridge; M.S. 1964, Syracuse University; Ph.D. 1968, Ohio State University.
- Biriuk, George (1962)** Professor of Mathematics. B.A. 1950, Bonn University, Germany; M.A. 1956, Indiana University; Ph.D. 1962, University of California, Los Angeles.
- Bishop, Nancy H. (1977)** Professor of Biology. B.S. 1958, M.S. 1961, Washington State University; Ph.D. 1975, University of California, Los Angeles; Licensed Clinical Laboratory Scientist, Specialist in Bacteriology and Serology, State of California; Specialist Microbiologist, Public Health and Medical Laboratory Microbiology; American Academy of Microbiology.
- Bishop, Naomi (1990)** Professor of Anthropology. B.A. 1968, M.A. 1971, Ph.D. 1976, University of California, Berkeley.
- Bisno, Ann R. (1979)** Professor of Special Education. Ph.D. 1946, University of Chicago; M.A. 1970, CSU, Los Angeles; Ph.D. 1979, University of California, Los Angeles.
- Blake, Daniel (1971)** Professor of Economics. B.A. 1965, University of Montana; M.A. 1970, Ph.D. 1971, University of Oregon.
- Bland, Warren R. (1968)** Professor of Geography. B.A. 1964, Waterloo Lutheran University; M.A. 1965, Ph.D. 1970, Indiana University.
- Blattner, John W. (1959)** Professor of Mathematics. B.A. 1951, Central College, Missouri; M.S. 1954, University of Wisconsin; Ph.D. 1959, University of California, Los Angeles.
- Bluth, Elizabeth (1965)** Professor of Sociology. B.A. 1957, Bucknell University; M.A. 1960, Fordham University; Ph.D. 1970, University of California, Los Angeles.
- Bock, James (1963)** Professor of Mathematics. B.A. 1959, CSU, Northridge; M.A. 1963, Ph.D. 1986, University of California, Los Angeles.
- Bogdanoff, Earl (1965)** Professor of Sociology. B.A. 1952, Roosevelt University; M.A. 1954, University of Chicago; Ph.D. 1960, Northwestern University.
- Bordeaux, Jean-Luc (1969)** Professor of Art. B.S. 1964, Iowa State University; M.A. 1966, Arizona State University; Ph.D. 1971, University of California, Los Angeles.
- Boshka, Elizabeth Crane (1974)** Professor of Educational Psychology and Counseling. B.S. 1963, Iowa State University; M.S. 1968, City College of New York; Ed.D. 1980, University of California, Los Angeles.
- Bowen, William (1970)** Professor of Geography. B.A. 1963, M.A. 1966, Ph.D. 1972, University of California, Berkeley.
- Brame, Judith (1974)** Professor of Kinesiology. B.A. 1962, M.A. 1965, University of California, Berkeley; Ph.D. 1978, University of Southern California.
- Breazeale, M. Kenon (1972)** Professor of Art. B.A. 1967, Goucher College; M.A. 1970, Ph.D. 1980, University of Chicago.
- Breit, Nicolas (1965)** Professor of Kinesiology. B.A. 1965, M.A. 1968, CSU, Northridge; D.P.E. 1977, Springfield College.
- Brewer, Gwen (1965)** Professor of English. B.A. 1955, M.A. 1957, Brigham Young University; Ph.D. 1968, Claremont Graduate School.
- Britton-Dei Rio, Augusto (1969)** Professor of Educational Psychology and Counseling. B.A. 1951, Instituto Colombo Venezolano; M.A. 1969, CSU, Los Angeles; Ph.D. 1973, University of Southern California; Licensed Psychologist, State of California.
- Britten, Samuel D. (1959)** Professor of Kinesiology. B.S. 1957, M.S. 1958, University of California, Los Angeles; Ph.D. 1967, University of Southern California.
- Broesmale, John J. (1968)** Professor of History. B.A. 1964, University of the Pacific; M.A. 1965, Ph.D. 1970, Columbia University.
- Bromwich, Rose M. (1960)** Professor of Educational Psychology and Counseling. B.S. 1946, M.A. 1951, Ed.D. 1967, University of California, Los Angeles.
- Brotsky, S. Joyce (1964)** Professor of Psychology. B.A. 1956, M.A. 1959, CSU, Los Angeles; Ph.D. 1963, University of California, Los Angeles; Licensed Psychologist, State of California.
- Brown, Ruth (1982)** Professor of Theatre. B.A. 1975, Western Michigan University; M.F.A. 1981, University of Michigan.
- Brown, William W. (1975)** Professor of Economics. B.A. 1964, M.A. 1966, University of California, Los Angeles.
- Bryant, Verne L. (1970)** Professor of Pan-African Studies. B.A. 1960, Wayne State University; M.B.A. 1974, Pepperdine University.

- Buchalter, Sol S. (1958)** Professor of Finance, Real Estate, and Insurance. B.B.A. 1948, College of the City of New York; M.B.A. 1950, New York University; C.P.A.
- Buchanan, Van Dyk (1969)** Professor of Elementary Education. B.A. 1946, Columbia University; M.Ed. 1951, Ed.D. 1966, University of California, Los Angeles.
- Buchwald, Joseph (1984)** Professor of Finance, Real Estate, and Insurance. B.S. 1957, M.B.A. 1960, Ph.D. 1965, University of California, Los Angeles.
- Bullaro, John J. (1973)** Professor of Recreation and Tourism Management. B.A. 1954, CSU, Los Angeles; M.A. 1956, New York University; Ph.D. 1978, Claremont Graduate School.
- Burdex-Esposito, Monica (1973)** Associate Librarian, Reference and Instructional Services. B.A. 1961, M.L.S. 1969, University of California, Los Angeles.
- Burger, John R. (1984)** Professor of Electrical and Computer Engineering. B.S.E.E. 1964, Clarkson College; M.S. 1966, University of California, Berkeley; Ph.D. 1978, University of California, Los Angeles.
- Burrows, Thomas D. (1973)** Professor of Cinema and Television Arts. B. Mus. 1951, M.A. 1976, University of Southern California.
- Butler, Donald (1962)** Professor of Psychology. B.A. 1954, Xavier University; M.A. 1956, Bowling Green State University; Ph.D. 1958, Northwestern University.
- Butler, Karla (1966)** Professor of Psychology. B.A. 1954, Stanford University; Ph.D. 1963, University of California, Berkeley; Licensed Psychologist State of California.
- Call, Dwight (1962)** Professor of Accounting and Information Systems. B.S. 1957, M.B.A. 1959, Ph.D. 1966, University of California, Los Angeles; C.P.A.
- Cameron, Donald (1960)** Associate Vice President for Faculty Affairs; Professor of Communication Studies. B.A. 1953, M.A. 1957, University of Montana; Ph.D. 1960, Northwestern University.
- Camp, Richard (1965)** Professor of History. B.A. 1958, Goshen College; M.A. 1960, Ph.D. 1965, Columbia University.
- Campbell, Bonita J. (1975)** Professor of Engineering. B.S. 1967, Colorado State University; M.S. 1973, University of Redlands; M.B.A. 1973, Pepperdine University; Ph.D. 1979, University of California, Los Angeles.
- Campbell, Richard F. (1963)** Professor of Family and Consumer Sciences. B.A. 1948, Guilford College; M.A. 1952, University of Alabama; Ph.D. 1960, Florida State University.
- Campbell, Warren M. (1961)** Professor of Political Science. B.A. 1948, University of Minnesota; M.A. 1954, Ph.D. 1963, Stanford University.
- Campo, Frank (1967)** Professor of Music. B.M. 1950, M.M. 1953, D.M.A. 1968, University of Southern California.
- Camp, Richard (1965)** Professor of History. B.A. 1958, Goshen College; M.A. 1960, Ph.D. 1965, Columbia University.
- Cannon, George R. (1963)** Professor of Computer Science. A.B. 1957, CSU, Los Angeles; M.B.A. 1963, University of California, Los Angeles; C.D.P. 1966.
- Carasso, Roger (1968)** Professor of Political Science. B.A. 1952, University of Utah; M.A. 1958, Ph.D. 1964, Princeton University.
- Caren, Linda D. (1988)** Professor of Biology. B.S. 1962, Ohio State University; A.M. 1965, Ph.D. 1967, Stanford University; Licensed Clinical Laboratory Technologist, State of California.
- Caretto, Laurence S. (1998)** Professor of Engineering. B.S. 1960, M.S. 1963, Ph.D. 1965, University of California, Los Angeles.
- Carlson, John W. (1969)** Associate Professor of Elementary Education. B.A. 1956, M.Ed. 1960, Western Washington State College; Ed.D. 1969, Arizona State University.
- Carroll, Edward J. (1997)** Professor of Chemistry and Biochemistry. B.A. 1968, CSU Sacramento; Ph.D. 1972, UC Davis.
- Cary, David D. (1978)** Professor of Finance, Real Estate and Insurance. B.S. 1967, M.S. 1973, Ph.D. 1983, University of California, Los Angeles.
- Cassidy, Peter L. (1967)** Head Coach, Intercollegiate Athletics. B.A. 1958, M.A. 1969, CSU, Northridge.
- Champawat, Narayan S. (1963)** Professor of Philosophy. B.S. 1947, M.S. 1949, University of Bombay; M.A. 1964, Ph.D. 1969, University of California, Los Angeles.
- Chapman, Gary A. (1977)** Professor of Physics and Astronomy. B.S. 1960, Ph.D. 1968, University of Arizona.
- Charlap-hyman, Arthur (1965)** Professor of Educational Psychology and Counseling. B.A. 1942, Harvard University; M.S.W. 1951, Ph.D. 1964, University of Southern California.
- Chen, Chao (1988)** Professor of Finance, Real Estate and Insurance. B.A. 1976, M.A. 1980, National Changchi University; Ph.D. 1988, University of Maryland.
- Chen, Joseph T. (1964)** Professor of History. B.A. 1953, College of Emporia, Kansas; M.A. 1955, Ph.D. 1964, University of California, Berkeley.
- Chen, Raymond S. (1971)** Professor of Accounting and Information Systems. B.A. 1964, National Taiwan University; M.A. 1969, University of Missouri; Ph.D. 1973, University of Missouri-Columbia; C.P.A. (China).
- Chen, Tung-Shan (1969)** Professor of Family and Consumer Sciences. B.S. 1960, National Taiwan University; M.S. 1964, Ph.D. 1969, University of California, Berkeley.
- Chernoff, Marvin (1971)** Professor of Educational Psychology and Counseling. B.A. 1954, State University of New York; M.A. 1955, State University of Iowa; Ph.D. 1961, Western Reserve University.
- Chianese, Robert (1969)** Professor of English. B.A. 1964, Rutgers University; M.A. 1966, Ph.D. 1971, Washington University.
- Chow, Paul C. (1968)** Professor of Physics and Astronomy. B.A. 1960, University of California, Berkeley; Ph.D. 1965, Northwestern University.
- Christensen, Jay G. (1968)** Professor of Management. B.A. 1960, M.A. 1961, Ed.D. 1969, University of Northern Colorado; CECC, CFRW.
- Clark, E. Audrey (1971)** Professor of Home Economics. B.S. 1951, Northwestern University; M.S. 1971, CSU Northridge; Ph.D. 1978, U.S.C.
- Clendinning, John (1960)** Professor of English. B.A. 1957, CSU, Los Angeles; M.A. 1958, Ph.D. University of Iowa.
- Collas, Peter (1967)** Professor of Physics and Astronomy. B.A. 1959, Pomona College; M.A. 1961, Ph.D. 1966, University of California, Los Angeles.
- Collins, Lorence G. (1959)** Professor of Geological Sciences. B.S. 1953, M.S. 1955, Ph.D. 1959, University of Illinois.
- Colman, Bernice E. (1971)** Professor of Art. B.F.A. 1967, M.F.A. 1974, University of California, Los Angeles.
- Corcoran, Mary (1962)** Professor of Biology. B.A. 1953, Ph.D. 1959, University of California, Los Angeles.
- Cotler, Miriam, P. (1985)** Professor of Health Sciences. B.A. 1957, Temple University; M.S. 1980, Ph.D. 1985, University of California, Los Angeles.
- Coulson, Helen V. (1982)** Associate Professor of Mathematics. B.A. 1971, M.S. 1975, CSU, Northridge. Creaghe, Norma (1981) Associate Director, University Libraries; Librarian. B.A. 1947, University of Colorado; M.L.S. 1969, Texas Woman's University.
- Crittenden, Charles C. (1970)** Professor of Philosophy. B.A. 1954, M.A. 1957, University of North Carolina; Ph.D. 1964, Cornell University.
- Crowther, John F. (1961)** Professor of Sociology. B.A. 1955, M.A. 1956, Ph.D. 1967, University of Southern California.
- Cummins, Lynn M. (1979)** Associate Librarian, Technical Services. B.A. 1967, Pomona College; M.S.L.S. 1978, University of Southern California.
- Cunningham, James B. (1970)** Professor of Secondary Education. B.A. 1961, Western Washington State College; M.S. 1966, Ph.D. 1970, Syracuse University.
- Curzon, Susan C. (1992)** Dean, University Library; Librarian, Technical Services. B.A. 1970, University of California, Riverside; M.L.S. 1972, University of Washington.
- Dagodag, William T. (1972)** Professor of Urban Studies and Planning. B.A. 1963, M.A. 1967, CSU, Northridge; Ph.D. 1972, University of Oregon.
- Daly, Kevin (1960)** Professor of Biology. B.S. 1953, University of California, Davis; Ph.D. 1958, Cornell University.
- Danin, Mary Ann (1969)** Professor of Art. B.A. 1951, M.A. 1965, University of California, Los Angeles; M.F.A. 1973, Claremont Graduate School.
- Danes, Robert H. (1995)** Director of Undergraduate Studies and Professor of Music. B.M. 1959, Oberlin Conservatory; M.M. 1961, Yale University; Ph.D. 1972, Washington University.
- Davidson, Raymond A. (1963)** Professor of Electrical and Computer Engineering. B.S.E.E. 1950, M.S.E.E. 1954, Ph.D. 1957, University of Utah.
- Davis, Gerald D. (1981)** Professor of Engineering. B.S. 1953, M.S. 1957, University of Illinois; Professional Engineer, State of Illinois.
- Davis, Ronald L. (1970)** Professor of History. B.A. 1963, Rockhurst College; M.A. 1965, Ph.D. 1974, University of Missouri.
- Davis, William C. (1970)** Professor of Art. B.A. 1962, M.A. 1968, CSU, Northridge; M.F.A. 1975, University of Southern California.
- Dear, Robert E. (1966)** Professor of Psychology. B.A. 1950, University of Wisconsin; M.A. 1952, University of Oregon; Ph.D. 1957, University of Washington.
- De La Cruz, Enrique (2000)** Professor of Asian American Studies. B.A. 1964, University of the Philippines; Ph.D. 1974, University of California, Los Angeles.
- De La Vega, Aurelio (1959)** Professor of Music. B.A. 1944, de la Salle College, Havana; M.A. 1945, Ph.D. 1946, University of Havana; M.A. 1950, Ph.D. 1954, Ada Iglesias Music Institute, Havana.
- Delwarte, Robert G. (1963)** Professor of Music. B.A. 1955, M.A. 1959, CSU, Los Angeles.
- Dennis, Doris (1974)** Counselor, Counseling Services. B.A. 1973, M.A. 1975, CSU, Northridge; Licensed M.F.C. Counselor, California; Certified Sex Therapist; Certified Hypnotherapist.
- Dennis, James E. (1969)** Professor of Pan-African Studies. B.A. 1961, CSU, Los Angeles; M.A. 1978, CSU, Northridge.
- Devine, Barry M. (1963)** Professor of Kinesiology. Diploma in Education 1954, Sydney University, B.S. 1958, M.S. 1960, Ph.D. 1964, University of Oregon.
- Dezseran, Catherine (1985)** Professor of Theatre. B.A. 1971, University of Minnesota, M.A. 1974, University of Minnesota, Ph.D. 1977, University of Minnesota.
- Di Julio, Roger M. (1974)** Professor of Civil Engineering and Applied Mechanics. B.S. 1968, M.S. 1970, Ph.D. 1973, UC Los Angeles.
- Di Julio, Shoehle S. (1989)** Professor of Mechanical Engineering. B.S. 1976, CSU Northridge; M.S. 1979 UC Los Angeles; Ph.D. 1982, UC Los Angeles.
- Dirrim, Allen W. (1959)** Professor of History. B.A. 1950, DePauw University; M.A. 1951, University of Cincinnati; Ph.D. 1959, Indiana University.
- Docter, Richard F. (1966)** Professor of Psychology. B.A. 1951, University of California, Santa Barbara; M.A. 1952, Ph.D. 1968, Stanford University.
- Docter, Robert L. (1960)** Professor of Educational Psychology and Counseling. B.A. 1952, University of California, Los Angeles, M.S. 1956, Ph.D. 1960, University of Southern California.
- Doctor, Ronald M. (1969)** Professor of Psychology. B.A. 1960, University of Southern California; M.A. 1964 Ph.D. 1968, University of Illinois.
- Dodson, Snowdy D. (1974)** Librarian, Technical Services. B.S. 1972, University of California, Davis; M.L.I.S. 1974, University of California, Los Angeles; M.S. 1980, California State University, Northridge.
- Dole, Jim W. (1963)** Professor of Biology. B.A. 1957, Arizona State College; M.S. 1959, Ph.D. 1963, University of Michigan.
- Dorsey, Don S. (1961)** Professor of Educational Psychology and Counseling. B.S. 1955, M.S. 1959, Ed.D. 1964, University of California, Los Angeles; Licensed Psychologist, California.
- Dorsey, Donna (1987)** Professor of Elementary Education. B.S. Calvary College; M.Ed. 1971, Ph.D. 1985 University of Missouri.
- Doty, Duane R. (1966)** Professor of Physics and Astronomy. B.S. 1961, M.S. 1962, Ph.D. 1966, UC Los Angeles.
- Downing, Willis G. (1981)** Professor of Electrical and Computer Engineering. B.S. 1952, CSU, Long Beach; B.S.E.E. 1957, University of California, Berkeley; M.S.E.E. 1964, CSU, San Jose; Ph.D. 1977, University of Southern California.
- Driscoll, Donna (1980)** Professor of Accounting and Information Systems. B.A. 1973, Alma College; Ph.D. 1984, University of Southern California.
- Dukes, Fred O. (1978)** Executive Assistant to the Vice President for Administration and Finance. B.A. 1975, M.A. 1977, CSU, Long Beach.
- Dunn, Michael F. (1968)** Professor of Finance, Real Estate and Insurance. B.A. 1964, M.B.A. 1966, Ph.D. 1971, University of California, Los Angeles.
- Dunne, George C. (1972)** Professor of Geological Sciences. B.A. 1966, M.S. 1970, CSU, San Jose; Ph.D. 1972, Rice University.

- Eaton, Arlinda J. (1979)** Associate Dean, Michael D. Eisner College of Education; Professor of Elementary Education. B.S. 1972, University of Wisconsin; M.Ed. 1976, Ph.D. 1979, University of Texas.
- Ecklund, Kristin A. (1971)** Librarian, Reference and Instructional Services. B.A. 1966, Stanford University; M.L.S. 1971, University of California, Los Angeles.
- Elbert, Jean C. (1996)** Professor of Psychology. B.A. 1965, Marquette University; M.A. 1968, Bowling Green State University; Ph.D. 1979, Northwestern University.
- Elder, David (1971)** Professor of Art. B.A. 1957, Wittenburg University; M.A. 1961, Ohio State University Graduate School.
- Elias, Veronica (1970)** Professor of Sociology. B.A. 1965, Southern Illinois University; M.A. 1967, Ph.D. 1973, Indiana University; Licensed M.F.C. Counselor, State of California.
- Elner, Carolyn L. (1982)** Dean, College of Education; Professor of Secondary Education. B.A. 1953, Mount Holyoke College; M.A. 1957, Columbia Teachers College; Ph.D. 1968, University of California, Los Angeles.
- Elwood, Virginia E. (1982)** Librarian, Reference and Instructional Services. B.A. 1964, University of California, Los Angeles; M.S.L. 1972, University of Oregon; M.A. 1981, CSU, Northridge.
- Emboden, William A. (1965)** Professor of Biology. B.A. 1957, Purdue University; M.A. 1960, Indiana University; Ph.D. 1965, University of California, Los Angeles.
- Emig, Ralph Phillip II (1964)** Professor of Mathematics. B.A. 1954, M.A. 1959, Ph.D. 1962, University of California, Los Angeles.
- Epstein, Melvin (1981)** Professor of Mechanical and Chemical Engineering. B.S. 1951, New York University; M.S. 1953, Massachusetts Institute of Technology; Ph.D. 1959, Polytechnic Institute of Brooklyn.
- Etherington, Mary Ellen (1965)** Professor of Health Sciences. B.S. 1953, M.S. 1955, Ed.D. 1960, University of California, Los Angeles; Licensed Physical Therapist, State of California.
- Evans, Keith D. (1971)** Associate Professor of Economics. B.A. 1956, Stanford University; Ph.D. 1971, University of Washington.
- Everett, E. Bruce (1970)** Professor of Art. B.A. 1965, Doane College; M.A. 1967, University of Iowa; M.F.A. 1968, University of California, Santa Barbara.
- Faherty, Bonnie (1997)** Professor of Health Sciences. M.N. 1975, M.P.H. 1976, University of California, Los Angeles; M.A. 1964, University of Redlands; Ed.D. 1973, University of California, Los Angeles.
- Falk, Heinrich Richard (1967)** Coordinator, International Programs; Professor of Theatre. B.A. 1960, Wittenberg University; Ph.D. 1970, University of Southern California.
- Feinberg, Abe (1968)** Professor of Systems and Operations Management. B.S. 1960, M.S. 1962, Massachusetts Institute of Technology; Ph.D. 1972, University of California, Los Angeles.
- Feinberg, Victoria Brinn (1970)** Professor of Family and Consumer Sciences. B.A. 1967, University of Iowa; M.S. 1970, Iowa State University; M.A. 1987, Ph.D. 1993, University of California, Los Angeles; Certified Interior Designer, California.
- Fendrick, Marilyn D. (1968)** Professor of Elementary Education. B.S. 1945, University of Minnesota; M.A. 1963, CSU, Los Angeles; Ed.D. 1969, University of Southern California.
- Fernelius, Bryne (1956)** Professor of Recreation and Tourism Management. B.S. 1941, M.S. 1947, Utah State University; Re. Dir. 1950, Dr. Rec. 1963, Indiana University.
- Ferrell, George M. (1970)** Professor of Educational Psychology and Counseling. B.A. 1967, West Virginia State College; Ph.D. 1972, University of Southern California.
- Fidell, Linda (1968)** Professor of Psychology. B.S. 1964, Purdue University; M.A. 1966, Ph.D. 1968, University of Michigan.
- Fierro, Charles R. (1970)** Professor of Music. B.A. 1960, St. John's College; B.M. 1961, Mount St. Mary's College; M.M. 1964, D.M.A. 1973, University of Southern California.
- Fieweger, Margaret (1990)** Associate Vice President for Undergraduate Studies; Professor of Communication Studies. B.A. 1961, Clarke College; M.A. 1971, Ph.D. 1975, Northwestern University.
- Filippenko, Vladimir I. (1968)** Associate Professor of Mathematics. B.A. 1953, Ph.D. 1964, University of California, Berkeley.
- Finley, Mary (1972)** Librarian, Reference and Instructional Services. B.A. 1971, Pomona College; M.S.L.S. 1972, University of Southern California; M.A. 1976, CSU Northridge.
- Fish, Janet E. (1979)** Professor of Educational Psychology and Counseling. B.A. 1967, Stanford University; M.A. 1971, San Francisco State University; Ed.D. 1981, University of California, Los Angeles.
- Fisler, George F. (1964)** Professor of Biology. B.S. 1954, M.S. 1956, Michigan State University; Ph.D. 1961, University of California, Berkeley.
- Fitch, Roy (1963)** Professor of Adm. Supv. and Higher Ed. B.A. 1947, University of Iowa; M.A. 1948, University of Iowa; Ed.D. 1960, U.S.C.
- Fodor, John T. (1963)** Director of Instructional Media Center; Professor of Health Sciences. B.S. 1955, M.S. 1958, Ed.D. 1963, University of California, Los Angeles.
- Foley, Jack D. (1979)** Professor of Leisure Studies and Recreation. B.A. 1963, M.S. 1972, Long Beach State University; Ed.D. 1980, Brigham Young University.
- Fonosch, Gail B. (1971)** Professor of Family and Consumer Sciences. B.A. 1968, CSU, Northridge; M.S. 1969, Ohio State University; Ph.D. 1979, University of Nebraska; Registered Dietitian, American Dietetic Association.
- Ford, Joseph B. (1950)** Professor of Sociology. B.A. 1937, University of California, Los Angeles; M.A. 1941, University of Southern California; M.A. 1947, Harvard University; Ph.D. 1951, University of California, Berkeley.
- Forer, Ruth K. (1973)** Professor of Special Education. B.A. 1952, New York University; M.A. 1965, CSU, Los Angeles; Ed.D. 1970, University of California, Los Angeles.
- Forthman, William H. (1966)** Professor of Philosophy. A.B. 1954, Ph.D. 1965, University of California, Los Angeles.
- Foster, Lorraine L. (1964)** Professor of Mathematics. B.A. 1960, Occidental College; Ph.D. 1964, California Institute of Technology.
- Freeman, Steven A. (1971)** Professor of Business Law. B.S.L. 1969, J.D. 1969, University of Southern California; M.B.A. 1982, University of California, Los Angeles.
- Freeman, William G. (1970)** Professor of Communication Studies. B.A. 1957, Pasadena Playhouse College of Theatre Arts; B.A. 1966, M.A. 1967, San Fernando Valley State College; Ph.D. 1970, University of Iowa.
- Fricano, Tom S. (1963)** Professor of Art. B.F.A. 1953, Bradley University; M.F.A. 1956, University of Illinois.
- Fritchey, Kathleen H. (1966)** Clinical Psychologist; Counseling Services. B.A. 1963, University of Pennsylvania; Ph.D. 1970, University of Southern California; Licensed Psychologist; Licensed M.F.C. Counselor, California.
- Fritsche, A. Eugene (1963)** Professor of Geological Sciences. A.B. 1958, Ph.D. 1969, University of California, Los Angeles.
- Fullner, Norman L. (1965)** Professor of Art. B.A. 1959, Western Washington State College; M.F.A. 1963, University of Washington; Ed.D. 1970, Columbia University.
- Furumoto, Warren (1962)** Director, Center for Academic Preparedness, College of Science and Mathematics; Professor of Biology. B.S. 1957, California Institute of Technology; Ph.D. 1960, University of California, Los Angeles.
- Gardner, J. Anthony (1974)** Librarian, Special Collections and Archives. B.A. 1967, CSU, Northridge; M.A. 1969, University of Arizona; M.L.S. 1973, University of California, Los Angeles.
- Gardner, Julie O. (1972)** Professor of Communication Disorders and Sciences. B.A. 1967, CSU, Northridge; M.A. 1969, Ph.D. 1972, University of Southern California.
- Garfinkel, Alan J. (1972)** Associate Professor of Philosophy. A.B. 1966, Cornell University; Ph.D. 1975, Harvard University.
- Gassert, Leland C. (1972)** Director, The Career Center. B.S. 1959, M.S. 1962, Kansas State Teachers College; Ed.D. 1971, Oregon State University.
- Gaston, Jack (1968)** Associate Professor of Mathematics and Engineering. B.S. 1954, M.S. 1957, Ph.D. 1968, University of California, Los Angeles; Professional Engineer, State of California.
- Gaudin, Anthony J. (1970)** Professor of Biology. B.A. 1959, M.S. 1964, Ph.D. 1969, University of Southern California.
- Geiger, Taliya (1969)** Associate Librarian, Technical Services. B.A. 1963, M.L.S. 1964, University of California, Los Angeles.
- Gelvin, Bruce R. (1972)** Professor of Anthropology. B.S. 1965, Wisconsin State University; Ph.D. 1975, University of Missouri.
- Gibson, Lary H. (1969)** Professor of English. B.S. 1959, Clarkson College; Ph.D. 1965, University of Oregon.
- Giedt, F. Harold (1967)** Clinical Psychologist; Professor, Counseling Services. B.A. 1947, University of Redlands; Ph.D. 1951, University of California, Los Angeles; Licensed Psychologist, California; Diploma in Clinical Psychology, American Board of Professional Psychology.
- Giedt, Helen (1958)** Professor of Psychology. A.B. 1942, M.A. 1942, Kansas University; Ph.D. 1952, University of Southern California.
- Gilbert, Philip (1974)** Professor of Computer Science. B.S. 1955, M.S. 1955, Massachusetts Institute of Technology; Ph.D. 1969, University of London.
- Gilman, Antonio (1973)** Professor of Anthropology. A.B. 1965, Harvard College; M.A. 1971, Cambridge University; Ph.D. 1974, Harvard University.
- Gitsetan, Darrin D. (1981)** Librarian, Reference and Instructional Services. B.A. 1972, Pahlavi University; M.L.S. 1976, University of Oklahoma.
- Gohstand, Robert (1972)** Professor of Geography. B.A. 1961, Ph.D. 1973, University of California, Berkeley.
- Gold, Jerrald M. (1970)** Professor of Mathematics. B.S. 1963, M.S. 1964, University of Chicago; Ph.D. 1970, University of California, Los Angeles.
- Goldbach, John C. (1964)** Professor of Political Science. B.A. 1952, Loyola University; M.A. 1955, University of Southern California; Ph.D. 1964, Claremont Graduate School.
- Gordon, Milton (1959)** Professor of Systems and Operations Management. B.S. 1943, University of Wisconsin-Milwaukee; M.A. 1949, Marquette University; Ph.D. 1952, University of Wisconsin.
- Goss, James (1969)** Professor of Religious Studies. B.A. 1960, University of Southern California; M.Th. 1963, Southern California School of Theology; Ph.D. 1970, Claremont Graduate School.
- Gossard, Margery E. (1972)** Assistant Professor of Music. B.M. 1969, University of Southern California.
- Griffiths, Roy (1965)** Professor of Psychology. B.A. 1951, University of British Columbia; M.Sc. 1953, University of British Columbia; Ph.D. 1960, UC Los Angeles.
- Grigori, Arthur (1962)** Associate Professor of Mathematics. B.A. 1939, Pedagogical Institute, Baku, Russia; M.S. 1942, Engineering Institute, Moscow, Russia; Ph.D. 1950, University of Tuebingen, Germany.
- Grigsby, Beverly (1966)** Professor of Music. B.A. 1961, M.A. 1963, CSU, Northridge; D.M.A. 1986, University of Southern California.
- Grindstaff, Faye L. (1968)** Professor of Secondary Education. B.A. 1956, Emory and Henry College; M.A. 1957, George Peabody College; Ed.D. 1968, Colorado State College.
- Grossman, Lillie (1965)** Professor of Family and Consumer Sciences. B.S. 1957, University of Texas; M.S. 1964, Dr.P.H. 1977, University of California, Los Angeles; Registered Dietitian, American Dietetic Association.
- Gunkle, George N. (1970)** Professor of Theatre. B.A. 1955, M.A. 1960, University of Illinois; Ph.D. 1963, University of Iowa.
- Gunther, Richard E. (1970)** Professor of Systems and Operations Management. B.A. 1968, University of Southern California; M.S. 1970, Ph.D. 1976, University of California, Los Angeles.
- Guthrie, Darrel W. (1971)** Professor of Kinesiology. B.S. 1951, M.S. 1962, Utah State University; Ed.D. 1971, Brigham Young University.
- Haeussler, Helmut (1963)** Professor of History. B.A. 1948, University of Wisconsin; M.F.S. 1951, University of Maryland; Ph.D. 1953, University of Wisconsin.
- Hagen, Joyce C. (1970)** Professor of Special Education. B.A. 1952, Stanford University; M.A. 1970, Ph.D. 1979, University of California, Los Angeles.
- Hallcom, Francine (1972)** Professor of Chicana/o Studies. B.A. 1962, M.S. 1970, Ed.D. 1981, University of Southern California.
- Hanna, Robert W. (1975)** Professor of Management. B.S. 1964, Brooklyn Polytechnic Institute; M.B.A. 1970, University of Cincinnati; Ph.D. 1975, University of California, Los Angeles.
- Handler, Philip (1968)** Vice Provost for Academic Affairs; Dean, College of Arts, Media, and Communication; Professor of English. A.B. 1952, University of Miami; M.A. 1955, Ph.D. 1961, Columbia University.
- Hanes, Bernard (1968)** Professor of Health Sciences. B.S. 1948, M.S. 1950, Pennsylvania State University; Ph.D. 1952, Ohio State University.

- Hannah, Elaine P. (1971)** Professor of Communication Disorders and Sciences. B.A. 1946, University of Buffalo; M.A. 1948, University of Wisconsin; Ph.D. 1956, Indiana University.
- Hannah, John (1969)** Professor of Art. B.F.A. 1952, University of Buffalo; M.F.A. 1955, University of Illinois.
- Hansen, Philip A. (1970)** Professor of Special Education. B.A. 1950, B.Ed. 1953, Western Washington State College; M.A. 1967, California State University, Northridge; Ed.D. 1970, University of California, Los Angeles.
- Hansen, Viggo (1963)** Professor of Secondary Education. B.A. 1952, B.S. 1958, M.A. 1960, Ph.D. 1962, University of Minnesota.
- Harbet, Shelia C. (1977)** Professor of Health Sciences. B.S.E. 1967, State University, Cortland; M.S. 1968, Indiana University; M.A. 1985, CSU, Northridge; H.S.D. 1978, Indiana University; Certified Sex Educator, AASECT.
- Hardcastle, Kenneth I. (1963)** Professor of Chemistry and Biochemistry. A.B. 1952, CSU, San Jose; M.S. 1954, University of Mississippi; Ph.D. 1961, University of Southern California.
- Harden, Marvin (1968)** Professor of Art. B.A. 1959, M.A. 1963, University of California, Los Angeles.
- Hardy, Donna F. (1969)** Professor of Psychology. B.A. 1956, University of Missouri; M.A. 1960, University of Kansas; Ph.D. 1969, University of California, Irvine.
- Hardy, Merrill D. (1966)** Professor of Kinesiology. B.S. 1954, M.S. 1961, Brigham Young University; Ph.D. 1968, University of Southern California.
- Harrell, Roger H. (1969)** Professor of Political Science. B.A. 1964, M.A. 1967, Ph.D. 1970, University of Southern California.
- Harris, Alan C. (1978)** Professor of Communication Studies. B.A. 1962, Columbia College; M.A. 1972, Ph.D. 1981, University of California, Los Angeles.
- Harris, Francis L. (1968)** Professor of Chemistry and Biochemistry. B.S. 1961, University of Texas; Ph.D. 1966, University of California, Los Angeles.
- Harris, Sandra R. (1981)** Clinical Psychologist, Counseling Services. B.A. 1959, Stanford University; M.Ed. 1973, Ph.D. 1976, University of Oregon; Licensed Psychologist, California.
- Harrison, William F. (1965)** Associate Professor of Chemistry and Biochemistry. B.S. 1956, University of California, Berkeley; Ph.D. 1960, University of Washington.
- Harshaw, Macon (1968)** Clinical Psychologist, Professor, Counseling Services. B.A. 1953, Winthrop College; M.L.Sc. 1959, Texas Woman's University; Ph.D. 1966, University of Maryland; Licensed M.F.C. Counselor, California.
- Hasenauer, James E. (1983)** Professor of Communication Studies. B.A. 1971, Iona College, New York; Ph.D. 1976, University of Southern California.
- Hawes, Bess L. (1963)** Professor of Anthropology. B.A. 1941, Bryn Mawr College; M.A. 1970, University of California, Berkeley.
- Hawkins, Alice (1967)** Associate Professor of Psychology. B.A. 1954, Iowa Wesleyan College; M.A. 1957, Ph.D. 1961, University of Iowa.
- Hayano, David M. (1971)** Professor of Anthropology. B.A. 1963, M.A. 1965, University of Illinois; Ph.D. 1972, University of California, Los Angeles.
- Heath, Anne E. (1969)** Professor of Art. B.S. 1946, University of Oregon; M.S. 1959, University of Southern California; Ph.D. 1977, University of Oregon.
- Heerema, Elmer, Jr. (1970)** Professor of Music. B.M. 1961, Westminster Choir College; M.M. 1965, Catholic University; D.M.A. 1976, University of Southern California.
- Heidsiek, Ralph G. (1959)** Professor of Music. B.A. 1951, M.A. 1954, Ph.D. 1966, University of California, Los Angeles.
- Heimler, Charles H. (1960)** Professor of Secondary Education. B.S. 1951, Cornell University; M.A. 1952, Columbia University Teachers College; Ed.D. 1959, New York University.
- Henderson, John Robert (1970)** Professor of Mathematics and Professor of Computer Science. B.A. 1960, M.A. 1963, University of British Columbia; Ph.D. 1971, California Institute of Technology.
- Henry, Susan J. (1976)** Professor of Journalism. B.A. 1969, University of Connecticut; M.S. 1970, University of Illinois; Ph.D. 1976, Syracuse University.
- Hernandez, Jose A. (1969)** Professor of Chicano/a Studies. B.A. 1957, St. Mary's University of Texas; M.A. 1958, Ohio State University; Ph.D. 1979, University of California, Riverside.
- Hernandez, Luis F. (1969)** Professor of Secondary Education. B.A. 1949, M.A. 1974, University of California, Los Angeles.
- Hiebert, Robert J. (1965)** Associate Professor of Kinesiology. B.A. 1964, M.A. 1965, CSU, Northridge.
- Himelsohn, Alfred N. (1967)** Professor of Sociology. B.A. 1955, CSU, Los Angeles; Ph.D. 1968, University of California, Los Angeles.
- Hirota, Akiko (1988)** Professor of Modern and Classical Languages and Literatures. B.A. 1966, Fukuoka Women's University; M.A. 1979, University of Oklahoma; Ph.D. 1989, University of California, Los Angeles.
- Hoffman, Melvin M. (1970)** Associate Professor of Psychology. B.S. 1960, Northwestern University; Ph.D. 1970, University of Illinois.
- Holland, George (1962)** Professor of Kinesiology. B.A. 1956, M.S. 1958, University of California, Los Angeles; Ph.D. 1966, University of Southern California.
- Holzer, Margaret (1964)** Associate Professor of Chemistry and Biochemistry. B.A. 1958, Wellesley College; Ph.D. 1964, University of California, Los Angeles.
- Horgan, Ruth B. (1977)** Associate Professor of Computer Science. B.S. 1946, University of California, Los Angeles.
- Hornbeck, David Jr. (1972)** Professor of Geography. B.A. 1968, M.A. 1969, CSU, Fresno; Ph.D. 1974, University of Nebraska.
- Hosek, William (1988)** Dean, College of Business and Economics; Professor of Economics. B.A. 1964, Ph.D. 1967, University of California, Santa Barbara.
- Howard, Robert B. (1972)** Professor of Geography. B.S. 1963, University of New York; M.A. 1969, Ph.D. 1974, University of California, Los Angeles.
- Hriber, Edward J. (1964)** Professor of Electrical and Computer Engineering. B.S. Ch.E. 1957, Purdue University; M.S. 1960, St. Louis University.
- Hsu, I-Nan (1978)** Professor of Chemistry and Biochemistry. B.Sc. 1961, Cheng Kung University, Taiwan; M.Sc. 1967, Tuskegee Institute; Ph.D. 1971, University of Oklahoma.
- Huetinck, Linda (1988)** Professor of Secondary Education. B.A. 1961, M.A. 1969, California State University, Los Angeles; Ph.D. 1990, University of California, Los Angeles.
- Huff, Robert M. (1988)** Professor of Health Sciences. B.A. 1971, M.P.H. 1974, CSU, Northridge; Ph.D. 1988, University of California, Santa Barbara; C.H.E.S.
- Hufhines, Don M. (1968)** Professor of Health Sciences. B.A. 1954, CSU, San Jose; M.P.H. 1957, University of California, Berkeley; Dr. P.H. 1970, University of California, Los Angeles.
- Hughes, Barnabas, O.F.M. (1970)** Professor of Secondary Education. B.A. 1950, San Luis Rey College; Th.B. 1954, Franciscan Theological School; M.S. 1960, Xavier University; Ph.D. 1970, Stanford University.
- Huling, William (1973)** Counselor, Counseling Services. B.A. 1970, M.A. 1973, CSU, Northridge; Ph.D. 1978, University of Southern California; Licensed M.F.C. Counselor, California.
- Hussey, Antonia E. (1987)** Professor of Geography. B.A. 1978, Antioch College; M.A. 1980, Ph.D. 1986, University of Hawaii.
- Iehl, Ronald E. (1966)** Librarian, Reference and Instructional Services. B.A. 1958, M.L.S. 1966, University of California, Los Angeles.
- Irving, John (1961)** Professor of Modern and Classical Languages and Literatures. B.A. 1953, Stanford University; M.A. 1959, Ph.D. 1964, University of California, Los Angeles.
- Jacobson, Jeanine M. (1984)** Professor of Music. B.A. 1968, University of Washington; M.Mus. 1983, University of Minnesota; D.M.A. 1989, University of Oklahoma.
- Jeffries, Vincent (1968)** Professor of Sociology. B.A. 1960, M.A. 1962, CSU, Northridge; Ph.D. 1968, University of California, Los Angeles.
- Jewett, Sandra L. (1977)** Professor of Chemistry and Biochemistry. B.A. 1967, Ph.D. 1971, University of California, Santa Barbara.
- Joh, Jason (1969)** Professor of Educational Leadership and Policy Studies. B.A. 1958, Konglu Teachers College; M.Ed. 1966, University of Hawaii; Ed.D. 1971, Rutgers University.
- Johanson, Alva J. (1959)** Associate Professor of Kinesiology. B.A. 1939, University of Redlands; M.S. 1952, Ph.D. 1967, University of Southern California.
- Johnson, Anthony R. (1984)** Clinical Psychologist, Counseling Services. B.A. 1972, Michigan State University; Ph.D. 1982, University of Detroit; Licensed M.F.C. Counselor, California.
- Johnson, Dewayne B. (1961)** Professor of Journalism. A.B. 1948, University of California, Berkeley; M.A. 1950, Ed.D. 1955, University of California, Los Angeles.
- Johnson, Emory M. (1975)** Professor of Cinema and Television Arts. A.B. 1948, University of California, Los Angeles; M.A. 1969, San Francisco State University; Ph.D. 1972, University of Denver.
- Johnson, Ivan C. (1973)** Professor of Economics. B.A. 1963, University of Durham; M.A. 1964, Ph.D. 1971, University of Western Ontario.
- Jones, Kenneth C. (1964)** Professor of Biology. B.A. 1957, M.A. 1962, Ph.D. 1965, University of California, Los Angeles.
- Jones, Linda (1970)** Professor of Elementary Education. B.S. 1954, North Texas State University; M.A. 1959, Ph.D. 1970, University of Texas.
- Jumonville, Felix (1960)** Professor of Kinesiology. B.S. 1942, Louisiana State University; M.S. 1948, Ed.D. 1952, University of Western California.
- Jung, Raymond K. (1963)** Professor of Elementary Education. A.B. 1950, University of California, Berkeley; M.A. 1956, CSU, San Francisco; Ed.D. 1963, University of California, Berkeley.
- Jurey, Mark E. (1979)** Professor of Art. B.A. 1967, CSU, Northridge; M.A. 1970, University of California, Los Angeles.
- Kane, Phillip S. (1972)** Professor of Geography. A.B. 1969, M.A. 1970, Ph.D. 1975, University of California, Berkeley.
- Keith-Spiegel, Patricia (1966)** Professor of Psychology. B.A. 1961, Occidental College; M.A. 1964, Claremont College; Ph.D. 1968, Claremont Graduate School.
- Kellenberger, Bertram J. (1967)** Professor of Philosophy. B.A. 1960, California State University, San Jose. M.A. 1962, University of California, Berkeley. Ph.D. 1967, University of Oregon.
- Keller, Ralph (1969)** Professor of History. B.A. 1952, Simpson College; B.D. 1956, Garrett Theological Seminary; M.S. 1965, Ph.D. 1969, University of Wisconsin.
- Kelly, Carol S. (1969)** Professor of Child and Adolescent Development. B.S. 1961, Ohio State University; M.S. 1962, University of Nevada; Ed.D. 1977, University of California, Los Angeles.
- Kelly, Dennis (1971)** Professor of Environmental and Occupational Health. B.A. 1960, CSU, Fresno; M.P.H. 1968, Ph.D. 1971, University of California, Berkeley.
- Kennedy, Joyce (1975)** Director, CSU, Northridge, Ventura Campus. B.J. 1957, Carlton University; M.A. 1977, CSU, Northridge; Ph.D. 1986, University of California, Santa Barbara.
- Kennedy, Louanne (1993)** Provost and Vice President for Academic Affairs; Professor of Health Sciences; Professor of Sociology. B.A. 1969, M.A. 1973, Ph.D. 1978, New York University.
- Kessner, Daniel A. (1970)** Professor of Music. B.A. 1967, M.A. 1968, Ph.D. 1971, University of California, Los Angeles.
- Kiddoo, Robert J. (1970)** Professor of Accounting and Information Systems. B.S. 1960, University of California, Los Angeles; M.S. 1969, CSU, Northridge; M.B.A. 1972, D.B.A. 1978, University of Southern California; C.M.A.
- Kimball, William L. (1981)** Professor of Accounting and Information Systems. B.B.A. 1959, Marquette University; M.B.A. 1960, University of Wisconsin; Ph.D. 1967, Northwestern University.
- Kinderman, Albert J. (1977)** Professor of Systems and Operations Management. B.S. 1967, Stanford; Ph.D. 1972, University of Minnesota.
- Kirchner, Don (1963)** Professor of Marketing. B.A. 1953, Michigan State University; M.B.A. 1959, University of Detroit; Ph.D. 1969, University of California, Los Angeles.
- Kirk, Paul L. (1967)** Professor of Anthropology. B.A. 1952, Lewis and Clark College; M.A. 1962, Ph.D. 1966, University of Washington.
- Kligman, Philip S. (1991)** Professor of Elementary Education. B.A. 1961, Temple University; B.A. 1970, CSU, Northridge; M.A. 1975, Pepperdine University; Ph.D. 1983, Claremont Graduate School.
- Kline, Michael V. (1976)** Professor of Health Sciences. A.B. 1962, University of Miami; M.P.H. 1965, University of California, Berkeley; Dr. P.H. 1973, University of California, Los Angeles.
- Klinedinst, Paul E. (1960)** Professor of Chemistry and Biochemistry. B.S. 1955, Lehigh University; Ph.D. 1959, University of California, Los Angeles.
- Klumpe, Tamara J. (1971)** Clinical Psychologist, Counseling Services. B.A. 1963, University of California, Santa Barbara; M.A. 1967, Ph.D. 1972, University of California, Los Angeles; Licensed Psychologist, California.

- Klotz, Marvin (1959)** Professor of English. B.S. 1951, Columbia University; M.A. 1952, University of Minnesota; Ph.D. 1959, New York University.
- Knepper, Dorena (1964)** Director of Governmental Affairs. B.A. CSU, Northridge.
- Knieter, Gerard L. (1986)** Professor of Music. B.S. 1953, M.A. 1954, New York University; Ed.D. 1961, Columbia University.
- Knowles, William B. (1969)** Professor of Psychology. B.S. 1947, Illinois Institute of Technology; M.S. 1948, Ph.D. 1951, Northwestern University.
- Koester, Jolene (2000)** University President. B.A. 1971, University of Minnesota; M.A. 1972, University of Wisconsin; Ph.D. 1980, University of Minnesota.
- Koistinen, Paul (1963)** Professor of History. A.B. 1956, M.A. 1959, Ph.D. 1964, University of California, Berkeley.
- Kontogiannis, John E. (1965)** Professor of Biology. B.S. 1958, M.S. 1959, Illinois State University; Ph.D. 1965, University of Illinois.
- Krane, Ronald E. (1970)** Professor of Sociology. B.A. 1956, Heidelberg College; M.A. 1964, Harvard University; Ph.D. 1969, University of California, Los Angeles.
- Krivosos, Paul D. (1975)** Director, Public Sector Management Program and Professor of Communication Studies. A.B. 1967, M.A. 1969, University of California, Davis; Ph.D. 1975, Purdue University.
- Kroll, Barbara (1988)** Professor of English. B.A. 1965, Brooklyn College; M.A. 1966, University of Pennsylvania; Ph.D. 1982, University of Southern California.
- Kuhn, Daisy A (1959)** Professor of Biology. A.B. 1952, University of Pennsylvania; Ph.D. 1960, University of California, Davis.
- Kuretski, Fredrick L. (1975)** Professor of Cinema and Television Arts. B.A. 1963, University of Illinois; M.F.A., 1972, California Institute of the Arts.
- Kulik, Barbara J. (1970)** Professor of Special Education. B.S. 1963, M.Ed. 1964, University of Missouri; Ph.D. 1975, Texas Women's University.
- Kwan, Kian M. (1965)** Professor of Sociology. B.A. 1952, Far Eastern University; M.A. 1954, Ph.D. 1958, University of California, Berkeley.
- Labinowicz, Edward (1970)** Professor of Elementary Education. B.Sc. 1956, B. Pedagogy 1957, B. Ed. 1960, M. Ed. 1964, University of Manitoba; M.S. 1966, University of Hawaii; Ph.D. 1970, Florida State University.
- Lakin, Brenda D. (1973)** Professor of Elementary Education. B.A. 1962, University of California, Los Angeles; M.A. 1967, California State University, Los Angeles; Ed.D. 1972, University of California, Los Angeles.
- Lane, Arthur (1968)** Professor of English. B.A. 1959, Royal Military College of Canada; M.A. 1962, University of Montreal; Ph.D. 1967, University of California, San Diego.
- Launie, Joseph (1984)** Professor of Finance, Real Estate, and Insurance. B.A. 1959, Northeastern University; M.A. 1963, University of Nevada; Ph.D. 1968, University of California, Los Angeles.
- Lawrence, John K. (1973)** Professor of Physics and Astronomy. A.B. 1962, Harvard University; M.S. 1964, Ph.D. 1968, Northeastern University.
- Lawson, Gerald L. (1960)** Professor of Music. B.M.E. 1954, University of Nebraska; Ph.D. 1960, University of Iowa.
- Leach, Joel T. (1969)** Professor of Music. B.M.E. 1963, M.M.E. 1964, Michigan State University.
- Lee, Grace E. (1973)** Professor of Special Education. B.A. 1966, M.A. 1969, CSU, Northridge; Ed.D. 1974, University of Southern California.
- Lee, Paul L. (1975)** Professor of Physics and Astronomy. B.S. 1967, M.S. 1969, Ph.D. 1971, California Institute of Technology.
- Lee, Shao-Ju (1970)** Professor of Systems and Operations Management. B.A. 1963, National Taiwan University; M.S. 1968, Ph.D. 1975, University of California, Los Angeles.
- Leu, Christopher A. (1967)** Professor of Political Science. B.A. 1960, University of California, Riverside; M.A. 1962, Ph.D. 1973, University of California, Los Angeles.
- Levine, Martin G. (1967)** Professor of Secondary Education. A.B. 1953, Bowdoin College; M.A. 1957, Harvard University; Ph.D. 1971, University of California, Los Angeles.
- Lew, Angela T. (1981)** Librarian, Reference and Instructional Services. B.A. 1966, National Taiwan University; M.L.S. 1969, University of Missouri.
- Lewis, Louise M. (1973)** Professor of Art. A.B. 1963, University of California, Berkeley; M.A. 1966, M.A. 1972, University of New Mexico.
- Lewthwaite, Gordon R. (1959)** Professor of Geography. M.A. 1947, University of Canterbury; M.A. 1949, University of Auckland; Ph.D. 1956, University of Wisconsin.
- Lichten, Larry (1985)** Professor of Computer Science. A.B. 1968, M.S. 1970, Ph.D. 1976, University of California, Los Angeles.
- Lifson, Melvin D. (1983)** Professor of Civil Engineering and Applied Mechanics. B.E. 1943, University of Minnesota; M.E. 1962, Ph.D. 1965, University of California, Los Angeles.
- Lin, Gong-Yuh (1972)** Professor of Geography. B.A. 1963, National Taiwan University; M.A. 1968, University of Georgia; Ph.D. 1974, University of Hawaii.
- Lin, Tung-Po (1961)** Professor of Mathematics. B.Sc. 1949, National Center University, Nanking, China; Ph.D. 1958, Massachusetts Institute of Technology.
- Linden, Joyce (1975)** Associate Professor of Special Education. B.A. 1960, CSU, Northridge; M.A. 1964, California State University, Los Angeles.
- Lindenfeld, Jacqueline (1971)** Professor of Anthropology. B.A. 1956, Université de Caen, France; M.A. 1965, Ph.D. 1969, University of California, Los Angeles.
- Lindsay, John W. (1962)** Professor of Mathematics. B.A. 1946, M.A. 1948, University of Texas.
- Littwin, Lawrence (1968)** Professor of Political Science. B.A. 1956, Brooklyn College; Ph.D. 1967, New York University.
- Lobb, C. Gary (1973)** Professor of Geography. B.S. 1962, University of Utah; M.A. 1966, Ph.D. 1970, University of California, Berkeley.
- Lodge, Helen C. (1954)** Professor of Secondary Education. A.B. 1939, Hillsdale College; M.A. 1940, University of Michigan; Ed.D. 1953, University of California, Berkeley.
- Lofthouse, Yvonne M. (1968)** Assistant Professor of Elementary Education. B.S. 1951, M.Ed. 1953, Ed.D. 1957, Wayne State University.
- Logan, Christie A. (1979)** Professor of Communication Studies. B.A. 1971, University of North Dakota; M.A. 1973, Purdue University; Ph.D. 1977, University of Southern California.
- Lopez, Henry B. (1971)** Associate Professor of Political Science. B.A. 1970, M.A. 1975, CSU Northridge.
- Lorbeer, George (1950)** Professor of Secondary Education. B.A. 1943, CSU, San Francisco; M.A. 1948, Stanford University; Ed.M. 1950, Ed.D. 1950, Ed.D. 1953, University of Illinois.
- Lothorp, Gloria R. (1994)** Professor, W. P. Whitsett Chair in California History. B.A. 1956, M.A. 1963, Immaculate Heart College; Ph.D. 1970, University of Southern California.
- Love, Thomas T. (1968)** Professor of Religious Studies. B.A. 1954, University of Oklahoma; Th.D. 1957, Perkins School of Theology, Southern Methodist University; M.A. 1960, Ph.D. 1964, Princeton University; J.D. 1981, Southwestern University School of Law.
- Lucero-Wagoner, Brennis (1985)** Professor of Psychology. B.A. 1972, CSU, Northridge; M.A. 1974, Ph.D. 1982, University of California, Los Angeles.
- Luethy, Geraldine L. (1986)** Professor of Family and Consumer Sciences. B.A. 1972, M.A. 1977, CSU, Northridge; Ph.D. 1985, Claremont Graduate School.
- Lumbert, Donald E. (1969)** Professor of Art. B.F.A. 1962, Massachusetts College of Art; M.F.A. 1966, Syracuse University.
- Lundblad, Heidimarie (1982)** Professor of Accounting and Information Systems. B.A. 1977, M.B.A. 1981, Ph.D. 1986, University of Washington.
- Lupul, Max (1965)** Professor of Marketing. B.S. 1954, Ph.D. 1963, University of California, Berkeley.
- Luttge, John E. (1966)** Associate Professor of Modern and Classical Languages and Literatures. B.A. 1951, M.A. 1956, Ph.D. 1966, University of California, Los Angeles.
- Macias, Miguel (1977)** Associate Professor of Civil Engineering and Applied Mechanics. B.A. 1976, California State University, Northridge.
- Mackey, Carol J. (1968)** Professor of Anthropology. B.A. 1962, M.A. 1964, Ph.D. 1970, University of California, Berkeley.
- Macune, Charles (1968)** Professor of History. B.A. 1961, Texas Christian University; M.A. 1963, George Washington University; Ph.D. 1970, University of Texas.
- Madison, Roberta M. (1975)** Professor of Health Sciences. B.A. 1966, M.A. 1969, M.S.P.H. 1972, Dr.P.H. 1974, University of California, Los Angeles.
- Magnuson, Barbara (1972)** Librarian, Technical Services. B.A. 1956, Washington University; M.S. 1961, University of Wisconsin; M.L.S. 1970, University of Southern California.
- Mandel, Adrienne S. (1965)** Professor of Modern and Classical Languages and Literatures. B.A. 1954, Hunter College; M.A. 1955, Columbia University; Ph.D. 1970, University of California, Los Angeles.
- Mandell, Myrna P. (1981)** Professor of Management. B.A. 1961, Brooklyn College; M.P.A. 1978, New York University; M.P.A. 1980, Ph.D. 1981, University of Southern California.
- Manley, Charles (1958)** Associate Vice President and Director, Facilities Planning and Operations. B.A. 1948, Eastern Washington State College; M.Ed. 1951, Eastern Washington State College; Ed.D. 1961, Washington State University.
- Mann, Jeanette (1976)** Special Assistant to the President for Equity and Diversity. B.A. 1958, M.A. 1963, Ph.D. 1968, University of Missouri, Columbia.
- Manos, James (1967)** Professor of Management. B.S. 1954, M.S. 1957, Ed.D. 1974, University of Southern California.
- Marion, Marion Taylor (1960)** Professor of Elementary Education. B.S. 1941, Mankato State Teachers College; M.A. 1947, Ed.D. 1954, Columbia University Teachers College.
- Marlane, Judith (1987)** Professor of Cinema and Television Arts. B.F.A. 1958, M.A. 1962, Ed.D. 1974, Columbia University.
- Marti, Judith (1971)** Professor of Anthropology. B.A. 1976, City College of New York; Ph.D. 1990, University of California, Los Angeles.
- Marti, Oscar (1998)** Associate Professor of Chicana/o Studies. B.A. 1964, City College of New York; Ph.D. 1978, City University of New York.
- Mauksch, Roberta (1991)** Associate Professor of Family and Consumer Sciences. B.G.S. 1980, M.S. 1983, University of Missouri.
- Maxwell, Joyce B. (1970)** Professor of Biology. B.A. 1963, University of California, Los Angeles; Ph.D. 1969, California Institute of Technology.
- Mayer, Ellen (1958)** Counselor, Counseling Services. B.A. 1967, Muhlenberg College; M.S. 1970, Queens College; M.A. 1990, California State University, Northridge; Licensed M.F.C. Counselor, California.
- McCafferty, W. Dean (1959)** Professor of Educational Psychology and Counseling. B.A. 1950, Denver University; M.A. 1953, Western State College; Ed.D. 1967, University of California, Los Angeles.
- McGhee, John W., JR. (1961)** Professor of Mathematics. B.S. 1959, M.A. 1962, University of California, Los Angeles.
- McGinnis, Francis F. (1968)** Professor of Music. B.A. 1955, Wisconsin State University; M.M. 1956, Ph.D. 1968, Indiana University.
- McHugh, Raymond (1963)** Professor of Secondary Education. B.A. 1949, Stanford University; M.A. 1953, Columbia University; M.A. 1962, Ed.D. 1964, Stanford University.
- McIntire, Elliot (1968)** Professor of Geography. B.A. 1963, University of California, Riverside; M.A. 1965, John Hopkins University; Ph.D. 1968, University of Oregon.
- McIntyre, Ronald T. (1977)** Professor of Philosophy. B.S. 1964, Wake Forest University; M.A. 1966, Florida State University; Ph.D. 1970, Stanford University.
- McKenzie, Joanna (1968)** Professor of Secondary Education. B.A. 1961, M.A. 1967, CSU, Northridge; Ed.D. 1973, University of Southern California.
- McMartin, James A. (1967)** Professor of Psychology. B.S. 1961, Fordham College; M.A. 1964, Brooklyn College; Ph.D. 1968, University of Minnesota.
- McMillin, Thomas H. (1965)** Professor of Art. B.A. 1959, CSU, Northridge; M.F.A. 1960, University of Southern California.
- Meaker, Gerald H. (1968)** Professor of History. B.A. 1950, M.A. 1952, University of California, Los Angeles; Ph.D. 1967, University of Southern California.
- Mehlman, Benjamin (1962)** Professor of Psychology. B.A. 1944, Brooklyn College; Ph.D. 1951, Syracuse University.
- Mesaros, Richard A. (1987)** Professor of Special Education. B.A. 1974, CSU, Northridge; M.S. 1976, California Lutheran College; Ph.D. 1984, University of Wisconsin.
- Metzger, Christa (1997)** Professor of Educational Leadership and Policy Studies. B.S. 1960, Florida Southern College; M.Ed. 1965, University of Florida; Ph.D. 1975, Arizona State University.
- Metzner, Seymour (1969)** Professor of Elementary Education. B.S. Ed. 1949, Fordham University; M.Ed. 1950, Tufts University; Ed.D. 1964, University of Miami.

- Meyer, Michael (1970)** Professor of History. B.A. 1961, M.A. 1964, Ph.D. 1970, University of California, Los Angeles.
- Michaelson, Evalyn J. (1967)** Professor of Anthropology. B.A. 1955, Ph.D. 1966, University of California, Los Angeles.
- Miller, Dorothy (1978)** Professor of Computer Science. B.A. 1965, CSU, Northridge; M.A. 1973, University of California, Santa Barbara; Ph.D. 1988, University of California, Los Angeles.
- Miller, John R. (1966)** Professor of Systems and Operations Management. B.S. 1949, United States Naval Academy; M.B.A. 1956, Ph.D. 1969, University of California, Los Angeles.
- Miller, Richard S. (1973)** Counseling Psychologist, Counseling Services. B.A. 1967, California Polytechnic State University, San Luis Obispo; M.A. 1969, CSU, Northridge; Ph.D. 1972, University of Southern California; Licensed Psychologist; Licensed M.F.C. Counselor, California.
- Minasian, Jora R. (1972)** Professor of Economics. B.S. 1953, M.B.A. 1954, DePaul University; Ph.D. 1960, University of Chicago.
- Mininberg, Elliot I. (1984)** Professor of Educational Leadership and Policy Studies. B.A. 1961, University of Bridgeport; M.A. 1968, Ph.D. 1970, New York University.
- Mishra, Nirmal K. (1978)** Professor of Electrical and Computer Engineering. B.E. 1955, University of Saugor, India; M.E. 1959, University of Jabalpur, India; M.S.E.E. 1963, Polytechnic Institute of Brooklyn; D. Eng. Sc. 1972, New Jersey Institute of Technology.
- Mitchell, Betty J. (1967)** Associate Director, University Library. B.A. 1952, Southwest Missouri State College; M.L.S. 1967, University of Southern California.
- Mitchell, Rex C. (1982)** Professor of Management. B.S. 1958, Ph.D. 1963, University of Utah; M.A. 1975, CSU, Northridge; Ph.D. 1981, University of California, Los Angeles.
- Miyuki, Mokusen (1970)** Professor of Religious Studies. B.A. 1953, University of Tokyo; M.A. 1961, University of California, Los Angeles; Ph.D. 1964, Claremont Graduate School.
- Montgomery, Stephen H. (1980)** Assistant Vice President, Human Resource Services. B.A. 1965, Michigan State University; M.P.A. 1971, Syracuse University.
- Moore, Joseph (1962)** Professor of Biology. B.A. 1952, M.A. 1959, Ph.D. 1961, University of California, Los Angeles.
- Moore, Mortimer N. (1961)** Professor of Physics and Astronomy. B.A. 1950, University of California, Los Angeles; Ph.D. 1955, University of London.
- Morris, Joseph (1973)** Professor of Psychology. A.B. 1963, University of California, Berkeley; Ph.D. 1968, University of Michigan.
- Morrison, Philip R. (1971)** Professor of Art. B.A. 1965, M.A. 1970, CSU, Long Beach.
- Morse, Darrell P. (1963)** Professor of History. B.A. 1952, University of California, Santa Barbara; M.A. 1953, Ph.D. 1962, University of California, Berkeley.
- Moskowitz, Sarah E. (1969)** Professor of Educational Psychology and Counseling. B.A. 1952, M.A. 1964, CSU, Los Angeles; Ph.D. 1970, Yeshiva University, New York.
- Motil, John M. (1963)** Professor of Computer Science. B.Sc. 1960, University of Alberta; M.Sc. 1963, University of Illinois.
- Muller, Alexander V. (1969)** Professor of History. B.S. 1959, M.A. 1966, Ph.D. 1973, University of Washington; M.A. 1974, University of Guam; Ed.D. 1977, Western Michigan University.
- Munroe, Phillip M. (1958)** Associate Professor of Physical Education. B.S. 1948, Washington State College; B.Ed. 1949, Washington State College; M.S. 1955, Washington State College.
- Murillo, Nathan (1968)** Clinical Psychologist; Professor, Counseling Center. B.A. 1958, M.A. 1959, University of Texas; Ph.D. 1965, University of Houston; Licensed Psychologist, California.
- Murray, Patricia Y. (1990)** Professor of English. B.A. 1952, University of New Mexico; M.A. 1962, CSU, Northridge; Ph.D. 1980, University of Southern California.
- Nakagawa, Gordon (1983)** Associate Dean, College of Humanities. B.S. 1973, Ohio University, M.A. 1976, Ohio University, Ph.D. 1987, Southern Illinois University.
- Natale, Giovan G. (1968)** Professor of Physics and Astronomy. B.S. 1960, M.S. 1962, Ph.D. 1967, University of California, Los Angeles.
- Nathanson, Weston I. (1966)** Professor of Mathematics. B.A. 1961, M.A. 1963, Ph.D. 1970, University of California, Los Angeles.
- Nava, Julian (1957)** Professor of History. A.B. 1951, Pomona College; A.M. 1952, Ph.D. 1955, Harvard University.
- Needles, R. Mark (1975)** Associate Professor of Business Communication. B.B.A. 1964, Iowa University; M.Ed. 1971, Tulane University; Ph.D. 1975, University of North Dakota.
- Nelson, Esther W. (1986)** Associate Professor of Modern and Classical Languages and Literatures. B.A. 1966, M.A. 1968, University of New Mexico; Ph.D. 1974, University of Texas.
- Nelson, Walter A. (1969)** Professor of Elementary Education. B.A. Biblical Ed. 1950, Columbia Bible College; B.A. 1956, M.A. 1963, Seattle Pacific College; Ed. D. 1967, University of Oregon.
- Newlon, Lorraine L. (1970)** Director, Articulation, Admissions and Records. B.S. 1970, CSU, Northridge; M.B.A. 1978, California Lutheran College.
- Nichelson, F. Patrick (1972)** Professor of Religious Studies. B.A. 1963, Saint John's College; M.A. 1969, Immaculate Heart College; Ph.D. 1974, University of Southern California.
- Nisenholz, Bernard (1977)** Professor of Educational Psychology and Counseling. B.A. 1960, William Paterson College of New Jersey; M.A. 1968, Kean College of New Jersey; Ed.D. 1972, University of Massachusetts.
- Noguchi, Rei R. (1983)** Professor of English. B.A. 1966, Tufts University; M.A. 1968, Ph.D. 1978, Indiana University.
- Noreen, Robert G. (1968)** Professor of English. B.A. 1960, M.A. 1963, Ph.D. 1969, University of Chicago.
- Nyquist, H. Leroy (1962)** Professor of Chemistry and Biochemistry. B.S. 1951, Montana State College; Ph.D. 1956, University of California, Los Angeles.
- O'Donnell, James (1976)** Dean, Roland Tseng College of Extended Learning; Professor of Secondary Education. A.B. 1954, M.A. 1955, Boston College; Ph.D. 1962, Boston University.
- Oliphant, Robert T. (1959)** Professor of English A.B. 1948, Washington and Jefferson College; M.A. 1958, Ph.D. 1962, Stanford University.
- Olson, Carl J. (1961)** Professor of Chemistry and Biochemistry. B.S. 1950, M.S. 1952, University of San Francisco; Ph.D. 1963, University of Southern California.
- Olson, Roy E. (1962)** Professor of Physics and Astronomy. A.B. 1951, Ph.D. 1958, University of California, Berkeley.
- O'Neill, Jack (1966)** Professor of Political Science. B.A. 1962, CSU, Long Beach; M.A. 1964, Ph.D. 1966, University of Iowa.
- Ostrem, James H. (1970)** Professor of Music. B.A. 1954, M.A. 1962, CSU, Los Angeles.
- Ostrow, David J. (1961)** Professor of Mathematics. B.A. 1956, Cornell University; M.A. 1958, University of Pennsylvania.
- Ostrow, Efreh H. (1964)** Professor of Mathematics. B.S. 1943, Ph.D. 1960, University of Chicago.
- Owens, Nancy E. J. (1969)** Professor of Family and Consumer Sciences. B.S. 1959, University of Tennessee; M.S. 1964, University of Illinois; Ph.D. 1974, University of Southern California.
- Oyer, Charlotte (1965)** Librarian, Reference and Instructional Services. B.A.E. 1952, University of Florida; M.L.S. 1964, University of Texas.
- Palmer, Lillian C. (1965)** Professor of Instructional Media, Instructional Media Center. B.A. 1942, University of California, Los Angeles; M.A. 1944, Mills College.
- Park, Robert T. (1971)** Professor of Physics and Astronomy. B.A. 1965, M.A. 1967, Ph.D. 1970, University of California, Riverside.
- Parker, Mary C. (1977)** Associate Professor of Health Sciences. R.N. 1952, St. Xavier College, Chicago; B.S. 1974, M.S. 1977, CSU, Northridge.
- Peckham, Edmund T. (1967)** Vice President for Student Affairs and Dean of Students. A.B. 1948, Brown University; M.A. 1949, Ph.D. 1954, Harvard University.
- Pettit, Ray H. (1978)** Professor of Electrical and Computer Engineering. B.E.E. 1954, M.S.E.E. 1960, Georgia Institute of Technology; Ph.D. 1964, University of Florida.
- Perez-Sandoval, Rafael (1969)** Professor of Chicano/a Studies. B.A. 1957, M.A. 1966, Ph.D. 1968, University of Southern California.
- Perkins, Ann (1970)** Librarian, Reference and Instructional Services. B.A. 1964, M.A. 1965, Duke University; M.L.S. 1970, University of California, Los Angeles.
- Perkins, David L. (1969)** Librarian, Technical Services. B.A. 1961, University of California, Los Angeles; M.L.S. 1969, University of Southern California; M.A. 1973, CSU, Northridge.
- Phelan, Catherine M. (1967)** Professor of English. B.M. 1951, M.A. 1962, Immaculate Heart College, Los Angeles; Ph.D. 1967, University of California, Los Angeles.
- Pinneau, Samuel (1962)** Professor of Psychology. A.B. 1944, M.A. 1950, Ph.D. 1952, University of California, Berkeley.
- Pirojnikoff, Leo (1961)** Professor of Psychology. B.A. 1951, University of California, Berkeley; M.S. 1955, University of Washington; Ph.D. 1958, University of Texas.
- Pitt, Leonard M. (1962)** Professor of History. B.A. 1952, M.A. 1957, Ph.D. 1960, University of California, Los Angeles.
- Plasberg, Elaine (1961)** Professor of English. A.B. 1952, CSU, San Francisco; M.A. 1957, Ph.D. 1961, Boston University.
- Plasek, John Wayne (1968)** Professor of Sociology. B.A. 1960, M.A. 1962, Ph.D. 1967, University of California, Los Angeles.
- Plutsky, Susan K. (1983)** Professor of Marketing. B.A. 1977, New Hampshire College; M.Ed. 1980, Bowling Green State University; Ph.D. 1983, Arizona State University.
- Pohlo, Ross H. (1963)** Professor of Biology. B.S. 1954, University of Illinois; M.S. 1958, University of Arkansas; Ph.D. 1961, University of Chicago.
- Polland, Barbara K. (1977)** Professor of Child and Adolescent Development. B.Ed. 1961, National College of Education; M.A. 1970, CSU, Northridge; Ph.D. 1983, Claremont Graduate School; Marriage, Family and Counseling Therapy.
- Pollock, Edward G. (1961)** Professor of Biology. B.A. 1953, Wilkes College; M.A. 1957, University of Virginia; Ph.D. 1961, University of California, Berkeley.
- Potter, Richard L. (1961)** Professor of Biology. B.A. 1950, Reed College; M.S. 1952, Washington State College; Ph.D. 1957, University of Rochester.
- Potter, Thomas C. (1968)** Professor of Elementary Education. B.A. 1959, University of California, Santa Barbara; M.A. 1966, Ed.D. 1968, University of California, Los Angeles.
- Prather, Jane E. (1969)** Professor of Sociology. B.A. 1962, M.A. 1964, University of Kansas; Ph.D. 1971, University of California, Berkeley.
- Present, Phillip E. (1968)** Professor of Political Science. B.A. Principia College; M.A. 1962, UC Los Angeles; Ph.D. 1966, USC.
- Purnell, Rosentene B. (1979)** Professor of Pan-African Studies. A.B. 1954, Tougaloo College; M.A. 1958, Northwestern University; Ph.D. 1967, University of Oklahoma.
- Raab, Leonard Mark (1990)** Professor of Anthropology. B.A. 1968, CSU, Fullerton; M.A. 1970, Vanderbilt University; Ph.D. 1976, Arizona State University.
- Ramsey, John C. (1968)** Associate Professor of Kinesiology. B.S. 1963, M.S. 1966, California Polytechnic State University, San Luis Obispo.
- Randal, Margaret B. (1963)** Associate Professor of Theatre. B.A. 1960, M.A. 1962, CSU, Northridge.
- Ratcliffe, Alfonso F. (1975)** Dean, College of Engineering and Computer Science; Professor of Engineering. B.A. 1951, M.S. 1963, Ph.D. 1970, University of California, Los Angeles.
- Raun, Donald L. (1953)** Professor of Accounting and Information Systems. B.A. 1947, M.B.A. 1949, Stanford University; C.P.A.
- Read, Donald L. (1973)** Librarian, Reference and Instructional Services. B.A. 1950, University of California, Berkeley; M.S. 1955, Columbia University; M.A. 1971, University of Southern California.
- Reagan, Michael (1990)** Librarian, Reference and Instructional Services. B.A. 1964, St. John's College; M.L.S. 1973, University of California, Los Angeles.
- Regnat, Françoise J. (1972)** Professor of Music. Artist's Diploma Certificate, 1972, Music School of Indiana University.
- Reichman, Sandor (1968)** Professor of Chemistry and Biochemistry. B.S. 1963, City College of New York; Ph.D. 1967, New York University.
- Reid, Maria D. (1966)** Professor of Modern and Classical Languages and Literatures. B.A. 1958, M.A. 1960, Ph.D. 1969, University of California, Los Angeles.
- Reid, Philip (1968)** Professor of Communication Disorders and Sciences. B.A. 1957, CSU, Los Angeles; M.A. 1960, Ph.D. 1966, University of Southern California.
- Reid, Robert III (1970)** Professor of English. B.A. 1957, Carnegie-Mellon University; M.A. 1961, Ph.D. 1973, University of Pittsburgh.
- Reilly-Knoblach, Mary Louise (1955)** Professor of Music. B.S. 1944, St. Mary's College; M.A. 1956, Immaculate Heart College.
- Reinstein, Todd R. (1967)** Professor of Accounting and Information Systems. B.S. 1959, J.D. 1962, University of California, Los Angeles; C.P.A.
- Resendez, Gerald A. (1969)** Professor of Chicana/o Studies. B.A. 1959, St. Mary's College; M.A. 1963, University of Southern California.
- Resovich, Thomas (1962)** Professor of History. B.S. 1955, M.S. 1956, Kansas State College; Ph.D. 1966, University of Wisconsin.

- Rhodes, Barbara A. (1969)** Professor of Pan African Studies. B.A. 1963, University of California, Los Angeles; M.S. 1969, Ph.D. 1972, University of Southern California.
- Rich, Harvey E. (1972)** Professor of Sociology. B.S. 1965, Alfred University; M.S. 1968, Ph.D. 1972, Purdue University.
- Richter, Paul H. (1970)** Professor of Physics and Astronomy. B.S. 1957, Ph.D. 1968, Arizona State University.
- Ringsmuth, David C. (1970)** Professor of Political Science. B.S. 1963, Iowa State University; M.A. 1965, Ph.D. 1970 Columbia University.
- Rios, Gilbert U. (1971)** Professor of Art. B.S. 1959, University of Southern California; M.A. 1973, CSU, Long Beach.
- Rivers, William J. (1965)** Professor of Engineering. B.M.E. 1959, University of Florida, M.S.M.E. 1961, Ph.D. 1964, Purdue University.
- Roberts, James E. (1980)** Professor of Engineering. B.S. 1951, Sc.D. 1965, Massachusetts Institute of Technology; Professional Engineer, State of Massachusetts.
- Roberts, Raymond R. (1966)** Assistant Professor of Modern and Classical Languages and Literatures. B.A. 1957, M.A. 1963, University of California, Los Angeles.
- Robinette, Karen L. (1987)** Associate Professor of Family and Consumer Sciences. B.A. 1973, M.A. 1975, CSU, Los Angeles; Ed.D. 1992, Pepperdine University.
- Robinson, Carol D. (1969)** Librarian, Technical Services. B.A. 1960, M.L.S. 1969, University of California, Los Angeles; M.A. 1976, CSU, Northridge.
- Rodewald, Richard (1984)** Associate Professor of Philosophy. B.A. 1969, University of Michigan; Ph.D. 1978 UC Los Angeles.
- Roel, Arnold (1964)** Professor of Engineering. B.S. 1947, New York University; M.S. 1959, Ph.D. 1964, University of California, Los Angeles; Professional Engineer, State of California.
- Romagnoli, Robert J. (1960)** Professor of Physics and Astronomy. B.S. 1953, M.S. 1954, Ph. D. 1957, Illinois Institute of Technology.
- Rosas, Yolanda T. (1987)** Professor of Modern and Classical Languages and Literatures. B.A. 1977, CSU, Fullerton; M.A. 1979, Ph.D. 1984, University of California, Irvine.
- Roy, Ram M. (1967)** Professor of Political Science. B.A. 1953, M.A. 1955, Osmania University; Ph.D. 1969, Claremont Graduate School.
- Rudiger, Delia (1970)** Chief of Staff to the President. B.A. 1966, M.A. 1970, CSU, Northridge.
- Ruedy, Donna G. (1965)** Professor of Art. B.A. 1958, M.A. 1964, University of California, Los Angeles; Ed.D. 1970, University of Southern California.
- Ruggiero, Richard M. (1981)** Professor, Center for Learning Technology, Information and Technology Resources. B.S. 1975, State University of New York; 1976, California University, Long Beach; Ed.D. 1986, University of California, Los Angeles.
- Ruiz, Everto (1970)** Professor of Chicana/o Studies. B.A. 1971, CSU, Northridge.
- Rymasz, Leonard J. (1976)** Professor of Business Law. Pharm.D. 1968, University of Southern California, School of Pharmacy; J.D. 1972, Loyola University of Los Angeles, School of Law.
- Sabella, Ralph R. (1963)** Professor of Mathematics. B.S. 1956, College of the City of New York; M.S. 1962, New York University; Ph.D. 1969, University of California, Los Angeles.
- Saft, Lester F. (1971)** Professor of Economics. B.A. 1966, State University of New York; M.A. 1967, Ph. D. 1976, University of California, Los Angeles.
- Sakharoff, Micheline (1963)** Professor of Modern and Classical Languages and Literatures. A.B. 1958, M.A. 1960, Ph.D. 1965, University of California, Los Angeles.
- Salper, Donald R. (1964)** Professor of Communication Studies. B.A. 1951, University of Minnesota; M.A. 1952, Northwestern University; Ph.D. 1964, University of Minnesota.
- Salomon, David (1981)** Professor of Computer Science. B.Sc. 1964, M.Sc. 1966, Ph.D. 1973, Hebrew University.
- Salter, Donald E. (1964)** Associate Professor of Philosophy. B.A. 1953, M.A. 1957, Washington University.
- Sampson, Edward E. (1986)** Professor of Psychology. B.A. 1956, University of California, Los Angeles; Ph.D. 1960, University of Michigan.
- Sanchez, Marta (1982)** Professor of Chicana/o Studies. B.A. 1972, M.A. 1977, University of California, Santa Barbara.
- Sanders, Mark S. (1971)** Professor of Psychology. B.A. 1966, CSU, Northridge; M.S. 1968, Ph.D. 1971, Purdue University.
- Sandhu, Harbhajan S. (1964)** Professor of Physics and Astronomy. B.S. 1954, M.S. 1955, Panjab University; Ph.D. 1961, Pennsylvania State University.
- Sangeladji, Mohammad A. (1979)** Professor of Accounting and Information Systems. B.S. 1964, University of Tehran; M.B.A. 1970, Sacramento State College; Ph.D. 1975, University of Oklahoma; C.P.A., State of Texas; C.M.A.
- Sato, Kyoko S. (1986)** Professor of Secondary Education. B.A. 1961, University of California, Los Angeles; M.A. 1970, CSU, Northridge; Ph.D. 1976, Claremont Graduate School.
- Schaeffer, James C. (1981)** Professor of Chemistry and Biochemistry. B.A. 1965, College of Wooster; Ph.D. 1971, University of California, Santa Barbara.
- Schaffer, Ronald (1965)** Professor of History. B.A. 1953, Columbia University; M.A. 1955, Ph.D. 1959, Princeton University.
- Scheuer, Ernest M. (1970)** Professor of Systems and Operations Management and Professor of Mathematics. B.A. 1951, Reed College; M.S. 1954, University of Washington; Ph.D. 1960, University of California, Los Angeles.
- Scheuer, Mary Jean (1967)** Professor of Finance, Real Estate and Insurance. B.S. 1962, M.S. 1965, Kansas State University; D.B.A. 1969, University of Colorado.
- Schieffer, Joseph H. (1968)** Director of Credential Preparation Office; Professor of Secondary Education. B.S. 1949, Central Connecticut Teachers College; M.A. 1955, Columbia University; Ed.D. 1965, University of Arizona.
- Schonbach, Morris (1964)** Professor of History. A.B. 1944, M.A. 1950, Ph.D. 1958, University of California, Los Angeles.
- Schrier, Ruth (1969)** Professor of Art. B.A. 1962, CSU, Northridge; M.F.A. 1970, University of Southern California.
- Schulte, John M. (1964)** Professor of Educational Leadership and Policy Studies. B.S. 1952, M.S. 1958, Ph.D. 1967, University of Wisconsin.
- Schwartz, David (1969)** Professor of Electrical and Computer Engineering. B.S. 1965, M.S. 1966, University of California, Berkeley; Ph.D. 1969, University of Cambridge.
- Schwartz, Sidney H. (1979)** Professor of Engineering. B.S.M.E. 1956, Carnegie Institute of Technology; M.S.M.E. 1960, Ph.D. 1966, University of Southern California.
- Scott, David W. (1963)** Professor of Music. B.M.E. 1951, Simpson College; M.M. 1954, Mus. D. 1960, Indiana University.
- Scott, O. Tacheeni (1989)** Professor of Biology. B.A. 1966, Westmont College; M.S. 1974, Ph.D. 1981, University of Oregon.
- Sedey, Daniel (1965)** Professor of Philosophy. B.A. 1960, University of Pittsburgh; M.A. 1961, Ph.D. 1969, University of Michigan.
- Seki, Ryoichi (1969)** Professor of Physics and Astronomy. B.S. 1962, Waseda University, Japan; M.S. 1964, Ph.D. 1968, Northeastern University.
- Seldis, Anna (1968)** Professor of Foreign Language and Literature. 1950, Dottore in Lingue e Letterature Stranier, Inst. Univ. Ca Foscari, Italy; M.A. 1958, UC Los Angeles; Ph.D. 1967, UC Los Angeles.
- Shaeffer, John N. (1968)** Professor of History. B.A. 1953, Washington State University; A.M. 1957, Harvard University; Ph.D. 1968, University of Wisconsin, Madison.
- Shafanski, Paulette E. (1963)** Professor of Kinesiology. B.A. 1958, M.A. 1963, Ph.D. 1975, University of Southern California.
- Shah, Iris (1965)** Professor of English. B.A. 1949, New York University; M.A. 1954, University of Michigan; Ph.D. 1960, Cornell University.
- Shamrock, Mary E. (1978)** Professor of Music. B.A. 1958, St. Olaf College; M.A. 1966, West Virginia University; Ph.D. 1988, University of California, Los Angeles.
- Shanks, James L. (1969)** Associate Professor of Elementary Education. B.A. 1954, University of Buffalo; Ed.D. 1969, University of California, Berkeley.
- Shannon, Thomas J. (1973)** Professor of Business Law. A.B. 1963, University of Michigan-Flint College; J.D. 1967, University of Michigan.
- Sharp, Richard M. (1968)** Professor of Elementary Education. A.B. 1957, University of Pennsylvania; M.Ed. 1960, Ed.D. 1967, Boston University.
- Sharp, Vicki (1970)** Professor of Elementary Education. A.B. 1963, Washington University, St. Louis; M.Ed. 1967, Ph.D. 1969, St. Louis University of Missouri.
- Shaw, Ezel K. (1968)** Professor of History. B.S. 1957, American College for Girls, Istanbul; B.A. 1959, Vassar College; M.A. 1961, Radcliffe College; Ph. D. 1975, Harvard University.
- Shaw, Jerry I. (1969)** Professor of Psychology. B.A. 1965, M.A. 1966, Ph.D. 1969, University of California, Los Angeles.
- Sheeler, Phillip (1965)** Professor of Biology. B.A. 1960, M.A. 1962, Ph.D. 1965, University of California, Los Angeles.
- Shirley, Feh L. (1969)** Professor of Elementary Education. B.A. 1943, Hofstra University; M.A. 1955, Washington University; Ph.D. 1966, University of Arizona.
- Shively, Jon (1977)** Professor of Engineering. B.S. 1958, Lehigh University; M.S. 1963, John Carroll University; Ph.D. 1967, Case Institute.
- Shofner, Robert D. (1970)** Professor of Religious Studies. B.A. 1961, University of Puget Sound; B.D. 1964, Yale University Divinity School; Ph.D. 1972, Hartford Seminary Foundation, Connecticut.
- Sicha, Jeffrey F. (1973)** Professor of Philosophy. B.A. 1962, Oberlin College; Ph.D. 1966, Oxford University.
- Silva, Ricardo (1962)** Professor of Chemistry and Biochemistry. B.S. 1953, University of Sydney; Ph. D. 1961, University of California, Los Angeles.
- Sims, Antonia L. (1982)** Professor of Educational Leadership and Policy Studies. B.A. 1960, M.A. 1974, CSU, Long Beach; Ed.D. 1981, Brigham Young University.
- Singer, Stanley L. (1972)** Director, Counseling and Testing. A.B. 1943, University of California, Los Angeles; Ph.D. 1953, University of Southern California; Licensed Psychologist, California.
- Skovlin, Dean O. (1962)** Professor of Chemistry and Biochemistry. B.S. 1952, Louisiana State University; M.S. 1956, Texas A and M University; Ph.D. 1960, State University of Iowa.
- Smith, Christine C. (1972)** Professor of Secondary Education. A.B. 1949, University of Michigan; M.S. 1965, Ed.D. 1973, University of Southern California.
- Smith, Christine H. (1967)** Professor of Family and Consumer Sciences. B.S. 1964, CSU, Northridge; M.S. 1969, University of California, Los Angeles; Ph. D. 1979, University of Southern California; Registered Dietitian, American Dietetic Association.
- Smith, Owen W. (1971)** Professor of Theatre. B.A. 1965, M.A. 1968, CSU, Northridge.
- Smith, Richard W. (1965)** Professor of Psychology. B.A. 1955, Regis College; M.A. 1962, Ph.D. 1965, University of Colorado; Certified Sex Educator, AAECT.
- Smith, Robert (1966)** Professor of Art. B.A. 1963, M.F.A. 1966, University of California, Los Angeles.
- Snedden, Lawrence (1968)** Professor of Sociology. B.A. 1960, M.A. 1963, Ph.D. 1968, Michigan State University.
- Snowiss, Sylvia (1968)** Professor of Political Science. B.A. 1960, City College of New York; M.A. 1962, Ph.D. 1968, University of Chicago.
- Soffer, Reba (1961)** Professor of History. B.A. 1955, Brooklyn College; M.A. 1957, Wellesley College; Ph.D. 1962, Radcliffe College.
- Soga, Tiyo III (1969)** Professor of Pan-African Studies. B.A. 1955, Rhodes University, South Africa; M.A. 1967, University of California, Los Angeles.
- Soyster, Merwin E. (1956)** Assistant Professor of Secondary Education. B.A. 1954, CSU, Los Angeles.
- Sparling, Mary Lee (1966)** Professor of Biology. B.S. 1955, University of Miami; M.A. 1958, Duke University; Ph.D. 1962, University of California, Los Angeles.
- Spielmann, Edda (1969)** Professor of Modern and Classical Languages and Literatures. B.A. 1964, University of California, Santa Barbara; M.A. 1966, Ph.D. 1971, University of California, Los Angeles.
- Spotts, Charles R. (1968)** Professor of Biology. B.A. 1955, M.S. 1957, Ph.D. 1962, University of California, Berkeley.
- Spunt, Leonard (1965)** Professor of Engineering. B.S. 1964, University of California, Los Angeles; M.S. 1966, University of Southern California.
- Steinberg, Maria A. (1960)** Associate Professor of Mathematics. Lic. es Sciences Math 1940, Lic. es Sciences Phys. 1941, Geneva University; Ph.D. 1949, Cornell University.
- Sterle, David E. (1963)** Professor of Recreation and Tourism. B.S. 1953, University of Santa Clara; M.S. 1961, CSU, San Francisco; Re. Dir. 1961, Dr. Rec. 1963, Indiana University.
- Sternberg, Robert A. (1977)** Professor of Business Law. B.S. 1971, CSU, Northridge; J.D. 1974, Southwestern University.
- Stewart, Lawrence D. (1969)** Professor of English. B.S. 1948, M.A. 1949, Ph.D. 1952, Northwestern University.
- Stiebel, Arlene M. (1983)** Professor of English. B.A. 1963, Douglass College, Rutgers University; M.A. 1972, University of Hawaii; Ph.D. 1981, Columbia University.

- Stone, Harry (1960)** Professor of English. B.A. 1946, M.A. 1950, Ph.D. 1955, University of California, Los Angeles.
- Stones, Linda M. (1972)** Professor of Music. B.A. 1961, CSU, San Jose; M.A. 1971, CSU, Northridge; D.M.A. 1985, University of Illinois.
- Strametz, Don G. (1986)** Head Coach, Intercollegiate Athletics. B.A. 1968, M.A. 1975, CSU Los Angeles.
- Strayer, Richard L. (1968)** Professor of Accounting and Information Systems. B.S. 1961, M.B.A. 1962, University of California, Los Angeles; D.B.A. 1970, University of Southern California; C.P.A.
- Streid, Richard B. (1966)** Associate Professor of Kinesiology. B.S. 1965, M.S. 1966, University of Illinois.
- Strong, Donald S. (1964)** Professor of Art. B.F.A. 1955, Ohio Wesleyan University; M.A. 1958, Syracuse University; Ph.D. 1967, University of California, Los Angeles.
- Stryker, William G. (1969)** Professor of English. B.A. 1940, Linfield College; A.M. 1942, University of Chicago; Ph.D. 1952, Stanford University.
- Stutts, Frances Ann (1965)** Professor of Kinesiology. B.A. 1961, Idaho State College; M.S. 1965, Utah State University; Ph.D. 1972, University of Southern California.
- Summers, Stanley A. (1959)** Professor of Psychology. B.A. 1951, M.A. 1958, Ph.D. 1959, University of California, Los Angeles.
- Sun, Yuh (1980)** Professor of Electrical and Computer Engineering. B.S. 1955, National Taiwan University; M.S. 1961, National Chiao Tung University; Ph.D. 1967, University of California, Berkeley.
- Sutton, Louise (1971)** Assistant Professor of Family and Consumer Sciences. B.S. 1954, University of California, Los Angeles; M.S. 1971, CSU, Northridge.
- Swade, Richard H. (1962)** Professor of Biology. B.A. 1957, Brigham Young University; Ph.D. 1963, Princeton University.
- Swanson, John R. (1962)** Professor of Biology. A.B. 1958, Ph.D. 1964, University of California, Berkeley.
- Swerkes, Barbara T. (1971)** Professor of Kinesiology. B.A. 1964, Montclair State College; M.A. 1967, Ohio State University; Ph.D. 1972, University of Southern California.
- Tabachnick, Barbara J. (1971)** Professor of Psychology. B.A. 1964, M.A. 1968, Ph.D. 1971, University of California, Los Angeles.
- Taitt, Arthur (1965)** Professor of Finance, Real Estate and Insurance. B.S., B.A. 1948, M.B.A. 1949, University of Denver; D.B.A. 1959, Indiana University.
- Taitt, Muriel Bower (1961)** Associate Professor of Kinesiology. B.S. 1943, University of California, Los Angeles; M.A. 1961, University of Southern California.
- Thomas, William C. (1980)** Professor of Educational Leadership and Policy Studies. B.A. 1948, M.A. 1950, Occidental College; Ed.D. 1965, University of Southern California.
- Thompson, Margaret (1967)** Professor of Educational Psychology. B.A. 1954, University of California, Berkeley; Ed.D. 1976, University of California, Los Angeles.
- Thompson, Sheryl (1999)** Director of Learning Resource Center. B.A. 1972, Cal State University Northridge; M.B.A. 1980, Pepperdine University; M.A. 1987, CSU Northridge.
- Thorsell, Irene A. (1961)** Librarian, Cataloging. B.A. 1952, University of Illinois; M.L.S. 1961, University of Southern California.
- Tollefson, Howard L. (1964)** Professor of Art. B.F.A. 1959, University of Oklahoma; M.F.A. 1963, Cranbrook Academy of Art.
- Toppen, David (1976)** Professor in Chemistry and Biochemistry. B.S. 1965, Cornell College; Ph.D. 1970, University of Missouri, Columbia.
- Torcivia, James M. (1968)** Professor of Psychology. B.A. 1964, Regis College; M.A. 1967, Ph.D. 1968, Loyola University, Chicago.
- Trost-Cardomone, Judith (1984)** Professor of Communication Disorders and Sciences. B.S. 1962, M.A. 1963, Ph.D. 1970, Northwestern University.
- Trueman, Richard (1968)** Professor of Systems and Operations Management. B.S.E.E. 1948, Northwestern University; M.S.E.E. 1949, Stanford University; Ph.D. 1968, University of Southern California; Registered Industrial Engineer, State of California.
- Truex, Gregory (1968)** Associate Dean, College of Social and Behavioral Sciences; Professor of Anthropology. B.A. 1967, CSU, Northridge; M.A. 1968, Tulane University; M.B.A. 1980, University of California Los Angeles; Ph.D. 1973, University of California, Irvine.
- Ulrich, Frances Sherrill (1956)** Professor of Music. B.A. 1950, M.A. 1961, Occidental College.
- Upadhyayula, Satyanarayana (1971)** Professor of Mathematics. B.A. 1954, M.A. 1955, Andhra University; M.A. 1969, Ph.D. 1971, UC Santa Barbara.
- Velardi, Ernest J. JR. (1957)** Professor of Art. B.F.A. 1952, M.F.A. 1954, University of Illinois.
- Vernalis, Margaret S. (1970)** Clinical Psychologist, Counseling Services. B.A. 1946, M.A. 1948, Ph.D. 1954, State University of Iowa; Licensed M.F.C. Counselor, California.
- Vicero, Ralph D. (1969)** Dean, College of Social and Behavioral Sciences; Professor of Geography. B.A. 1953, McMaster University; M.S. 1954, Ph.D. 1968, University of Wisconsin.
- Vincent, William J. (1962)** Professor of Kinesiology. B.S. 1959, M.S. 1960, Ed.D. 1966, University of California, Los Angeles.
- Von Sternberg, Robert E. (1971)** Professor of Art. B.A. 1965, M.A. 1970, CSU, Long Beach.
- Walker, Paul (1958)** Executive Vice President; Professor of Business Law and Journalism. A.B. 1932, College of the City of New York; LL.B. 1935, Columbia University; Ed.D. 1960, University of Southern California.
- Walsh, Eleanor A. (1962)** Professor of Physical Education. B.S. 1947, University of Minnesota; M.S. 1953, University of Wisconsin; Ph.D. 1963, U.S.C.
- Walsh, William F. (1968)** Professor of English. B.A. 1956, St. John's University; M.A. 1958, Catholic University; Ph.D. 1967, Columbia University.
- Wang, I-Shou (1968)** Professor of Geography. B.S. 1961, National Taiwan University; M.A. 1966, Ph.D. 1971, University of Minnesota.
- Watkins, Patricia (1996)** Assistant Professor of English. B.A. 1968, M.A. 1970, Howard University; Ph.D. 1979, New York University; J.D. 1993, University of California, Los Angeles.
- Webb, Allen P. (1978)** Professor of Educational Psychology and Counseling. B.A. 1949, Pomona College; Ph.D. 1961, University of Southern California; Licensed Psychologist, State of California.
- Weckler, Nora (1955)** Professor of Psychology. B.A. 1937, M.A. 1938, Ph.D. 1941, University of Toronto.
- Wedel, Thomas L. (1974)** Professor of Systems and Operations Management. B.A. 1967, M.S. 1968, University of California, Los Angeles; D.B.A. 1976, University of Southern California.
- Wedin, Warren (1969)** Professor of English. B.A. 1959, M.A. 1964, Brooklyn College; Ph.D. 1971, University of Arizona.
- Weiss, Art D. (1972)** Professor of Art. B.F.A. 1957, Washington University; M.A. 1972, M.F.A. 1973, University of California, Los Angeles.
- Welton, George E. (1972)** Professor of Recreation and Tourism Management. B.S. 1967, CSU, Los Angeles, M.S. 1969, CSU, Long Beach; Ph.D. 1972, University of Utah.
- Weston, Charles R. (1968)** Associate Professor of Biology. B.A. 1957, University of California, Santa Barbara; Ph.D. 1964, Princeton University.
- White, Frances P. (1975)** Associate Professor of Family and Consumer Sciences. B.A. 1960, Whittier College; M.A. 1968, San Jose State College.
- White, Tommie L. (1970)** Professor of Kinesiology. B.A. 1966, Yankton College; M.A. 1967, University of South Dakota; Ph.D. 1974, University of Southern California.
- Whitwell, David E. (1969)** Professor of Music. B.M. 1959, University of Michigan; Ph.D. 1963, The Catholic University of America.
- Wiggins, Clarence E. (1958)** Professor of Music. B.A. 1949, M.A. 1953, University of Washington; D.M.A. 1966, University of Southern California.
- Williams, James (1982)** Professor of Finance, Real Estate and Insurance. B.S. 1957, M.S. 1958, Oklahoma State University; Ph.D. 1964, University of California, Los Angeles.
- Williams, Robert J. (1950)** Counselor, Counseling Services. B.A. 1947, San Diego State University; Ed.D. 1973, University of Southern California.
- Willig, Warren C. (1956)** Professor of Mathematics. A.B. 1947, Yale University; M.A. 1948, Columbia University.
- Wilson, Barbara A. (1994)** Professor of Accounting and Information Systems. B.S. 1974, M.Ed. 1988, Ph.D. 1994, University of Minnesota.
- Wilson, Kenneth A. (1960)** Professor of Biology. B.A. 1951, Miami University, Ohio; M.S. 1953, University of Hawaii; Ph.D. 1958, University of Michigan.
- Windsor, Faith (1967)** Associate Professor of Political Science. B.A. 1958, University of California, Los Angeles; M.A. 1963, Pennsylvania State University; Ph.D. 1973, University of Southern California.
- Winn, Clifton C. (1950)** Professor of Educational Leadership and Policy Studies. A.B. 1927, Pomona College; A.M. 1929, Ph.D. 1931, Harvard University.
- Winn, Ira (1966)** Professor of Secondary Education. B.A. 1950, M.A. 1951, University of Illinois; Ed.D. 1966, University of California, Los Angeles.
- Winningham, Sam N. (1960)** Professor of Kinesiology. B.S. 1950, Colorado University; M.A. 1955, Arizona State University; Ph.D. 1966, University of Southern California.
- Wittig, Michele A. (1973)** Professor of Psychology. A.B. 1966, College of Mount St. Joseph; M.A. 1968, Ph.D. 1971, University of Illinois.
- Wohl, Birgitta (1970)** Professor of Art. Fil. Kand. 1957, University of Stockholm; M.A. 1964, Ph.D. 1971, University of California, Los Angeles.
- Wold, Ruth (1960)** Professor of Modern and Classical Languages and Literatures. B.A. 1945, North Texas State University; M.A. 1948, Ph.D. 1956, University of Texas.
- Wolfe, George A. (1990)** Associate Professor in Physical Therapy. B.A. 1968, University of California, Los Angeles; M.A. 1973; Ph.D. 1984, University of Southern California.
- Wong, Clark C. (1980)** Director of Finance and Personnel, University Library; Librarian. B.A. 1960, National Chengchi University, Taiwan; M.A. 1964, University of Nevada; M.A.L.S. 1965, University of Michigan; Ph.D. 1975, University of Colorado.
- Wood, David L. (1970)** Professor of History. B.S. 1965, Brigham Young University; M.A. 1968, Ph.D. 1972, University of Utah.
- Wood, Donald N. (1970)** Professor of Cinema and Television Arts. B.A. 1956, Earlham College; M.A. 1958, Ph.D. 1963, University of Michigan.
- Wright, E. Muriel (1963)** Professor of Mathematics. B.A. 1949, M.A. 1950, University of Toronto; Ph.D. 1957, Washington University, St. Louis.
- Wright, Thomas E. (1961)** Professor of English. B.A. 1954, University of Missouri; M.A. 1958, Ph.D. 1963, Washington University, St. Louis.
- Wurthman, Leonard B. JR. (1965)** Professor of Communication Studies. B.S. 1957, University of California, Los Angeles; M.A. 1959, Louisiana State University; Ph.D. 1968, University of Missouri.
- Yablonsky, Lewis (1963)** Professor of Sociology. B.S. 1948, Rutgers University; M.A. 1952, Ph.D. 1958, New York University.
- Yost, Robert C. (1979)** Associate Professor of Marketing. B.S. 1947, M.B.A. 1949, Indiana University; Ph.D. 1963, University of California, Los Angeles.
- Yu, Ben T. (1984)** Professor of Economics. B.S. 1974, Ph.D. 1978, University of Washington.
- Zakarian, Richard H. (1961)** Professor of Modern and Classical Languages and Literatures. A.B. 1949, Bates College; M.A. 1950, Middlebury College; Ph.D. 1960, Northwestern University.
- Zaslavsky, Morris (1973)** Professor of Art. B.S. 1961, New York University; M.F.A. 1973, University of California, Los Angeles.
- Zuwaylif, Fadil H. (1960)** Professor of Systems and Operations Management. B.A. 1955, M.A. 1958, Ph.D. 1960, University of Illinois.
- Zvi, Jennifer C. (1986)** Learning Disability Specialist, Office of Disabled and Veteran Student Services. B.S. 1967, University of Minnesota; M.S. 1968, University of Illinois; M.A. 1971, Ph.D. 1973, Northwestern University.

#### Past Presidents, San Fernando Valley State College and CSU, Northridge.

Ralph Prator, President, 1958 - 1968.

James Cleary, President, 1969 - 1992.

Blenda J. Wilson, President, 1992 - 1999.

Louanne Kennedy, Acting President, 1999 - 2000.

Jolene Koester, President, 2000 - 2011.

## Index

- Absence, leave of, 639-640
