

# PRESIDENT'S WELCOME MESSAGE

As the new president of California State University, Northridge, beginning in June 2012, I am delighted to provide this introduction to the university catalog. It is an honor to be joining the Cal State Northridge family at this critical juncture of challenge and promise—the challenges facing California's public higher education institutions met with the ongoing promise of the university's distinguished faculty, staff and administrators dedicating themselves to student success, to *your* success.

At Cal State Northridge, our first priority is to promote your welfare and intellectual progress. The magnificent new Valley Performing Arts Center and Student Recreation Center attest to the campus' commitment to providing students and the community we serve with world-class state-of-the-art cultural and academic facilities. Additionally, the exceptional programs and services offered by the university give you a wealth of choices to advance your academic, professional and personal goals. Our culture of collaboration and problem-solving has enabled the CSU's mission of access and excellence to take root and flourish here, and I encourage you to reap the benefits of this outstanding university by being dedicated to your academic studies and actively engaged in the life of the campus.

Please become familiar with the contents of your university catalog and refer to it often during your time at Cal State Northridge. Doing so will help you become familiar with the university's programs and services and enable you to navigate and manage your academic career.

I am confident your time at Cal State Northridge will be productive and rewarding. We are an institution of great opportunity and transformation, committed to helping you attain personal growth and fulfillment.

Sincerely,

A handwritten signature in black ink that reads "Dianne F. Harrison". The signature is written in a cursive, flowing style.

Dianne F. Harrison, Ph.D.  
President

California State University  
**Northridge**

## University History

In the fall of 1956, the San Fernando Valley campus of the Los Angeles State College of Applied Arts and Sciences was established on the present site of the University. Soon afterward, the California Legislature passed Assembly Bill No. 971, which provided that the campus would separate from its parent college on July 1, 1958—the founding date of the present University—to become San Fernando Valley State College.

At that time, it had an enrollment of about 3,300 students with a faculty of 104. On June 1, 1972, the College was renamed California State University, Northridge, by action of the Legislature and the Board of Trustees of the California State University.

## General Description

As part of the 23-campus California State University system, Cal State Northridge (CSUN) is one of the largest universities in the nation, enrolling approximately 34,000 full- and part-time students. CSUN has nine colleges and more than 2,000 faculty members who teach courses leading to bachelor's degrees in 69 disciplines, master's degrees in 58 fields and doctorates in educational leadership and physical therapy, as well as 28 teaching credential programs.

During the 2011-12 academic year, nearly 7,000 students graduated with bachelor's degrees and nearly 2,000 with master's and doctoral degrees.

## University Mission, Values and Vision

**Mission:** California State University, Northridge exists to enable students to realize their educational goals. The University's first priority is to promote the welfare and intellectual progress of students. To fulfill this mission, we design programs and activities to help students develop the academic competencies, professional skills and critical values of learned persons who live in a democratic society, an interdependent world and a technological age; we seek to foster a rigorous and contemporary understanding of the liberal arts, sciences and professional disciplines, and we believe in the following values:

1. **Commitment to Teaching, Scholarship, and Active Learning:** We demonstrate excellence in teaching. We honor and reward high performance in learning, teaching, scholarship, research, service and creative activity. Because the quality of our academic programs is central to our mission, we encourage intellectual curiosity and protect the multiple expressions of academic freedom.
2. **Commitment to Excellence:** We set the highest standards for ourselves in all of our actions and activities and support the professional development of faculty, staff and administrators. We assess our performance so that every area of University life will be continually improved and renewed. We recognize and reward our efforts of greatest distinction and through them provide state and national leadership.
3. **Respect for All People:** We aspire to behave as an inclusive, cooperative community. Our behaviors, policies and programs affirm the worth and personal dignity of every member of the University community and contribute to a campus climate of civility, collegiality, tolerance and reasoned debate.
4. **Alliances With the Community:** We seek partnerships with local schools, community colleges, businesses, government and social agencies to advance the educational, intellectual, artistic, civic, cultural and economic aspirations of our surrounding communities.
5. **Encouragement of Innovation, Experimentation and Creativity:** We seek to provide an environment conducive to innovation, experimentation and creativity. We encourage all members of our community to take intellectual and creative risks and to embrace changes that will enhance the fulfillment of the University's mission.

**Vision:** California State University, Northridge, is inspired by the belief that our commitment to educational opportunity, inclusion and excellence will extend the promise of America to succeeding generations. Our graduates will be the vanguard of leaders for this century—committed to sustaining a democracy in which diverse people share in the rights and responsibilities of citizenship, proficient in applying technology to wise purposes, and dedicated to securing a humane world community and sustaining the bounty of the earth. As an institution of higher learning,

- We will be a high performing, model university in which student achievement levels are among the highest of peer universities;
- We will create a community of shared values in which faculty, students, staff, administrators and alumni will experience personal satisfaction and pride in our collective achievements;
- We will be the first choice for university applicants who seek a rigorous, collaborative teaching/learning experience in a technologically rich environment;
- We will be the leader in enhancing the educational, cultural and economic resources of our region; and
- We will receive local and national recognition for our distinctive achievements in teaching, learning, scholarship and service.

 Martin Luther King, Jr. Day - Monday, January 20, 2014  
 Cesar Chavez Day - Monday, March 31, 2014  
 Memorial Day observed - Monday, May 26, 2014

- No Holiday available to cover closure on Tuesday, December 31, 2013.
- Calendar subject to change based on policy or state regulations.
- For additional academic dates and deadlines, see Academic Semester Calendar at: <http://www.csun.edu/anr/soc/calendar.html>

### Fall 2013 Saturday Classes

August 24  
 September 7, 14, 21, 28  
 October 5, 12, 19, 26  
 November 2, 9, 16, 23  
 December 7

### Spring 2014 Saturday Classes

January 25  
 February 1, 8, 15, 22  
 March 1, 8, 15, 22, 29  
 April 5, 19, 26  
 May 3, 10

## The California State University

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became the California State University and Colleges, and in 1982 the system became the California State University. Today, the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest—CSU Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop system-wide policy, with implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of the California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All campuses require for graduation a basic program of “General Education Requirements” regardless of the type of bachelor’s degree or major field selected by the student.

The CSU offers high-quality, affordable bachelor’s and master’s level degree programs. Many of these programs are offered so that students can complete all Upper Division and graduate requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California. In 2005, the CSU was authorized to independently offer educational doctorate (Ed.D.) programs.

Enrollment in fall 2010 totaled 412,000 students, who were taught by more than 21,000 faculty. The system awards about half of the bachelor’s degrees and a third of the master’s degrees granted in California. More than 2.6 million students have graduated from CSU campuses since 1961.

A recent economic report found that the CSU supports more than 50,000 jobs statewide, annually. The engine driving job creation is more than \$17 billion in economic activity that directly results from CSU-related spending that generates \$5.43 for every dollar the state invests. For more information, please see [www.calstate.edu/impact](http://www.calstate.edu/impact).

### Office of the Chancellor

#### The California State University

401 Golden Shore

Long Beach, California 90802-4210

(562) 951-4000

Dr. Charles B. Reed Chancellor – CSU System

Dr. Benjamin F. Quillian Executive Vice Chancellor and Chief Financial Officer

Dr. Ephraim P. Smith Executive Vice Chancellor and Chief Academic Officer

Mr. Garrett P. Ashley Vice Chancellor, University Relations and Advancement

Ms. Gail E. Brooks Vice Chancellor, Human Resources

Ms. Christine Helwick General Counsel

Mr. Larry Mandel University Auditor

### Trustees of the California State University

#### Ex Officio Trustees

The Honorable Edmund G. Brown, Jr.

Governor of California

The Honorable Gavin Newsom

Lieutenant Governor of California

The Honorable John Pérez

Speaker of the Assembly

The Honorable Tom Torlakson

State Superintendent of Public Instruction

Dr. Charles B. Reed

Chancellor of The California State University

### Officers Of The Trustees

The Honorable Edmund G. Brown, Jr.

President

Bob Linscheid

Chair

Christine Helwick

Secretary

Dr. Benjamin F. Quillian

Treasurer

### Appointed Trustees

*Appointments are for a term of eight years, except student, alumni, and faculty trustees whose terms are for two years. Terms expire in the year in parentheses. Names are listed alphabetically.*

*Roberta Achtenberg (2015)*

*Herbert L. Carter (2019)*

*Bernadette Cheyne (2013)*

*Steven Dixon (2012)*

*Debra S. Farar (2014)*

*Kenneth Fong (2013)*

*Margaret Fortune (2016)*

*Steven Glazer (2019)*

*William Hauck (2017)*

*Hsing Kung (2018)*

*Linda A. Lang (2017)*

*Bob Linscheid (2012)*

*Peter Mehas (2015)*

*Henry Mendoza (2016)*

*Lou Monville (2014)*

*Jillian Ruddell (2013)*

*Glen Toney (2013)*

### Correspondence with Trustees should be sent to:

c/o Trustees Secretariat,

The California State University,

401 Golden Shore,

Long Beach, California 90802-4210.

## Campuses – The California State University

## University Administration

### Office of the President

Dianne F. Harrison, *President*  
 Barbara Gross, *Chief of Staff*  
 Randy Reynaldo, *Director of Administrative Operations, President's Office*

### Academic Affairs

Harry Hellenbrand, *Provost and Vice President for Academic Affairs*  
 Cynthia Z. Rawitch, *Vice Provost*

### Admissions and Records

Patricia Lord, *Director*  
 Todd Wolfe, *Associate Director & Registrar (Records & Graduation)*  
 Janet Rienbolt, *Associate Director (Systems & Technology)*  
 Selma Mayhew, *Interim Associate Director (Admissions)*

### Academic Resources and Planning

Diane S. Stephens, *Associate Vice President*  
 Bettina Huber, *Director, Institutional Research*  
 Edith Winterhalter, *Director of Academic Budget Management*

### Educational Opportunity Programs

José Luis Vargas, *Director*  
 Shiva Parsa, *Director, EOP Transitional Programs*  
 Doris Clark, *Director, EOP Admissions & Partnership Programs*  
 Conchita Battle, *Director, Advising Resource Center/EOP*

### Faculty Affairs

Penelope Jennings, *Associate Vice President*  
 William Whiting, *Senior Director of Academic Personnel*

### Faculty Senate

Steven G. Stepanek, *Faculty President*

### Graduate Studies, Research and International Programs

Vacant, *Associate Vice President*  
 Hedy Carpenter, *Associate Director*  
 Scott Pérez, *Director, Research and Sponsored Projects*  
 Justine Su, *Coordinator, International Programs*

### Undergraduate Studies

Elizabeth Adams, *Senior Director*  
 Shelly Thompson, *Associate Director, Undergraduate Studies*  
 Mandie McConkey, *Coordinator, Academic Services for Student Athletes*  
 Bonnie Paller, *Director, Academic Assessment and Program Review*  
 Gregory Mena, *Catalog Editor*  
 Cheryl Spector, *Coordinator, Center for Innovative and Engaged Learning Opportunities (CIELO)*  
 Cheryl Spector, *Director, Academic First Year Experiences*  
 Joyce Burstein, *Faculty Director, Community Engagement*  
 Merri Whitelock, *Managing Director, Community Engagement*  
 Daisy Lemus, *Director, Faculty Development*  
 Janet Oh, *Associate Director, Faculty Development*  
 Whitney Scott, *Director, New Faculty Orientation and Programs*  
 Katherine Stevenson, *Director, Developmental Mathematics*  
 Beth Wightman, *Director, General Education Honors Program*  
 Beth Lasky, *Director, General Education*  
 Rashawn Green, *Director, Learning Resource Center*  
 Eli Bartle, *Coordinator, Program Review*  
 Sharon Klein, *Director, Writing and Reading Across Disciplines*  
 Pam Bourgeois, *Coordinator, Upper Division Writing Proficiency Exam*

### University Library

Mark Stover, *Dean*  
 Marianne Afifi, *Associate Dean*  
 Vacant, *Director of Library Information Technology*  
 Laura Clary, *Manager of Academic Resources*  
 Lynn Lampert, *Reference and Instructional Services, Dept. Chair*  
 Helen Heinrich, *Technical Services, Dept. Chair*

### Student Affairs

William Watkins, *Vice President for Student Affairs and Dean of Students*  
 Mary Ann Cummins-Prager, *Associate Vice President for Student Access and Support Services*  
 Shelley Ruelas, *Associate Vice President for Student Life*  
 David Crandall, *General Manager, Associated Students*  
 Ann Morey, *Director, The Career Center*  
 Mark Stevens, *Director, Counseling Services*  
 Jodi Johnson, *Director, Disability Resources and Educational Services*  
 Lili Vidal, *Director, Financial Aid*  
 Roz Rosen, *Director, National Center on Deafness*  
 Tim Trevan, *Director, Residential Life and Conference Services*  
 Paul Schantz, *Director of Student Affairs Web and Technology Services*  
 Thomas Piernik, *Director, Student Development and International Programs*  
 Linda Reid Chassiakos, *Director, Klotz Student Health Center*  
 Dwayne Cantrell, *Director, Student Outreach & Recruitment*  
 Debra Hammond, *Executive Director, University Student Union*

### Administration and Finance

Tom McCarron, *Vice President*  
 Chris Xanthos, *Director, Administrative Services*  
 Deborah Wallace, *Associate Vice President, Financial Services*  
 Sharon Eichten, *Associate Vice President, Budget Planning and Management*  
 Colin Donahue, *Associate Vice President, Facilities Planning, Design and Construction*  
 Jill Smith, *Associate Vice President, Human Resources*  
 Anne Glavin, *Chief of Police*  
 Howard Lutwak, *Director, Internal Audit*  
 Rick Mazzuto, *Director, Intercollegiate Athletics*

### University Advancement

Vance T. Peterson, *Vice President for University Advancement*  
 Gregory Buesing, *Sr. Director, Strategic Projects and Gift Planning*  
 Maureen Fitzgerald, *Associate Vice President, Development*  
 Stacy Lieberman, *Associate Vice President, Marketing and Communications*  
 Brittny McCarthy, *Director, Government and Community Relations*  
 D.G. "Gray" Mounger, *Assistant Vice President, Alumni Relations*  
 Dominique Munoz, *Director, Special Events and Donor Programs*  
 Geetha Thomas, *Assistant Vice President, Resource Management*

### Information Technology

Hilary J. Baker, *Vice President and CIO*  
 Ben Quillian, *Associate Vice President*  
 Danita Leese, *Executive Analyst to the Vice President*  
 Zack Hillbruner, *Director, User Support Services*  
 Chris Ice, *Director, Virtual Services and Systems Administration*  
 Kevin Krzewinski, *Director, Database, Systems and Identity Management*  
 Greg Nicols, *Director, Infrastructure Operations and Telecommunications*  
 Chris Olsen, *Senior Director, Infrastructure Services and Information Security Officer*  
 Beverly Palmberg, *Director, Administrative Application Services*  
 Deone Zell, *Senior Director, Academic Technology*

#### Degrees

CSU Northridge, a liberal arts institution, also has substantial programs in technological and professional fields. The University currently offers bachelor's degrees in 69 areas, master's degrees in 58 areas, and two professional doctorate programs. For degree listings, see the Undergraduate and Graduate Programs sections in this catalog. There are 28 credentials given in the field of education.

#### Accreditation

CSU Northridge is accredited by the Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges (WASC), an institutional accrediting body recognized by the Council on Higher Education and Accreditation and the U.S. Department of Education.

On March 8, 2012, WASC awarded CSUN a full 10 years reaccreditation. Information specific to CSU Northridge's reaccreditation can be found at [www.csun.edu/~instrsch/wasc/index.html](http://www.csun.edu/~instrsch/wasc/index.html). Information about WASC can be found at [www.wascweb.org](http://www.wascweb.org). WASC can be reached at:

For the State of California, CSU Northridge is accredited by the State Board of Education.

In 1966, the CSUN Student Health Center became the first college health service in the United States to be accredited by the American College Health Association. The Klotz Student Health Center received its most recent outstanding three-year reaccreditation from the Accreditation Association for Ambulatory Health Care in Spring 2010.

Professional degree programs, accredited by national societies and associations, are as follows:

**Art. B.A., M.A., and M.F.A. programs, by the National Association of Schools of Art and Design (NASAD).**

**Athletic Training. B.S. program, by the Commission of Accreditation for Allied Health Education Programs (CAAHEP).**

**Business Programs. Undergraduate: B.S. in Accountancy, B.S. in Business Administration, B.S. in Finance, B.S. in Information Systems, B.S. in Management and B.S. in Marketing; Graduate: Master of Business Administration (M.B.A.), Master of Science in Accountancy (M.S.), Master of Science in Taxation (M.S.) and the Graduate Certificate in Business Administration (G.C.B.A.) are accredited by the Association to Advance Collegiate Schools of Business (AACSB).**

**Career Counseling. M.S. program, by the Council for Accreditation of Counseling and Related Programs (CACREP).**

**Civil Engineering. B.S. program, by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.**

**College Counseling and Student Services. M.S. program, by the Council for Accreditation of Counseling and Related Programs (CACREP).**

**Communicative Disorders. M.S. program in Speech Pathology, by the American Speech-Language-Hearing Association (ASHA): American Board of Examiners in Speech-Language Pathology and Audiology-Educational Standards Board.**

**Computer Engineering. B.S. program, by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.**

**Computer Science. B.S. program, by the Computing Accreditation Commission of ABET, <http://www.abet.org>.**

**Construction Management. B.S. program, by the American Council for Construction Education (ACCE).**

**Deaf and Hard of Hearing (Special Education: Option). M.A. program, by the Council on Education of the Deaf (CED).**

**Didactic Program in Dietetics (Family and Consumer Sciences: Option). B.S. program, by the Commission on Accreditation for Dietetics Education (CADE).**

**Dietetic Internship (Family and Consumer Sciences). Internship Program by the Commission on Accreditation for Dietetics Education (CADE).**

**Education. Credential and graduate programs, by the National Council for Accreditation of Teacher Education (NCATE). Teacher Certification Program, by the State of California Commission on Teacher Credentialing (CCTC). Education Unit accreditation, by National Council Accreditation of Teacher Education (NCATE).**

**Electrical Engineering. B.S. program, by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.**

**Environmental and Occupational Health. B.S. and M.S. programs, by the National Environmental Health Science and Protection Accreditation Council (EHAC).**

**Family and Consumer Sciences.** *B.S. program, by the American Association of Family & Consumer Sciences (AAFCS).*

**Journalism.** *B.S. and M.S. programs, by the Accrediting Council on Education in Journalism and Mass Communication.*

**Interior Design.** *(Family and Consumer Sciences: Option). B.S. program, by the Council for Interior Design Accreditation (CIDA).*

**Manufacturing Systems Engineering.** *B.S. program, by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.*

**Marriage and Family Therapy.** *M.F.T. program, by the Council for Accreditation of Counseling and Related Programs (CACREP).*

**Theatre.** *B.A. and M.A. programs, by the National Association of Schools of Theatre.*

### The California State University, Northridge Foundation

The California State University, Northridge Foundation is a nonprofit, 501(c)(3) California corporation that serves as an auxiliary organization to California State University, Northridge. The Foundation's primary function is to help the University raise private, philanthropic contributions and grants from alumni, friends, corporations and foundations in support of the University's mission of helping students realize their educational goals. In addition, the Foundation is responsible for accepting, managing and investing all private funds and endowments for the University. The Board of Directors of the California State University, Northridge Foundation is a distinguished and representative group of community leaders who are committed to raising private funds to support the educational mission of the University. The Foundation Board provides leadership and guidance to the University's fundraising efforts and thereby helps to maintain the highest quality of University programs.

### The Cal State Northridge Alumni Association

**Coordinating Office: Office of Alumni Relations/  
Division of University Advancement**

**Building “B” (Bank Building)**

**N. Campus Drive/Plummer Street**

**Phone: (818) 677-2137; Fax: (818) 677-4823**

**Email: [alumni@csun.edu](mailto:alumni@csun.edu)**

**Website: [www.csunalumni.com](http://www.csunalumni.com)**

The Alumni Association’s mission is to create opportunities for alumni and students to become more connected to, supportive of and interactive with the University and more connected to, interactive with and supportive of one another. In coordination with the Office of Alumni Relations, the Alumni Association serves as a conduit to connect, involve and benefit alumni according to individual interests, as well as academic, social and organizational affiliations. Alumni and students benefit from the individual and collective expertise and talents of a vast and diverse alumni constituency of more than 200,000.

The Alumni Association honors and showcases successful and influential alumni and recognizes loyal alumni and other volunteers. It provides scholarships, sponsors cultural and Matador fan programs, presents mentor and career advisement programs, and welcomes successful alumni to classrooms to share real-world experiences. Annual and lifetime memberships are available to alumni, students, faculty, staff, parents and friends. Members receive alumni benefits, including services, discounts and other opportunities.

The Alumni Association is governed by its executive council, comprising 14 elected officers and at-large executives and the assistant vice president of Alumni Relations, who serve with two dozen Alumni Chapter presidents and at-large appointed representatives as members of the Alumni Association Board of Directors, a representative advisory body of alumni and University stakeholders. Ex-officio board members include all association past presidents, honored emeriti directors and the campus president and vice president for University Advancement.

The 2012-2013 Officers of the Association are Dennis DeYoung, president; Kurt Rayners, 1st vice president; Francine Oschin, 2nd vice president; Ken Melcombe, officer; Maria Ramos, officer; Tammy Tolgo, immediate past president; D.G. “Gray” Mounger, AVP Alumni Relations.

The Alumni Association operates in accordance with Article 15 of the California Education Code, a Memorandum of Understanding with the University, and its bylaws and strategic plan.

### The University Corporation

**Sierra Center, Third Floor**

**Phone: (818) 677-5298**

**Fax: (818) 677-2671**

**Executive Director: Rick Evans**

**Email: [rick.evans@csun.edu](mailto:rick.evans@csun.edu)**

**Chief Financial Officer: John Griffin**

**Email: [john.griffin@csun.edu](mailto:john.griffin@csun.edu)**

**Website: [www.csun.edu/universitycorporation](http://www.csun.edu/universitycorporation)**

The University Corporation is a nonprofit California corporation chartered in 1958 to operate within the CSU system but without state funds. The University Corporation was organized to serve and assist the University by providing certain commercial services, including the Matador Bookstore and food services.

The University Corporation coordinates community-oriented, non-credit workshops, conferences and institutes, and fiscally administers federal, state, local and other grants to the University. The 17-member Board, made up of students, faculty, administrators and community members, is appointed by the University president and is responsible for establishing University Corporation policies. Five officers, elected annually by the Board, comprise the Executive Committee, which manages the Corporation’s business affairs.

# UNDERGRADUATE PROGRAMS

## Undergraduate Admission Requirements

### Freshman Requirements

Generally, first-time freshman applicants will qualify for regular admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination;
2. Have a qualifying minimum eligibility index (see “Eligibility Index,” below); and
3. Have completed with grades of C or better each of the courses in the comprehensive pattern of college preparatory subject requirements, also known as the “a - g” pattern (see “Subject Requirements”).

### Eligibility Index

The Eligibility Index is the combination of the high school grade point average and scores on either the ACT or the SAT. Grade point averages (GPA) are based on grades earned in courses taken during the final 3 years of high school. Included in calculation of GPA are grades earned in all college preparatory “a - g” subject requirements, and bonus points for approved honors courses. Up to 8 semesters of honors courses taken in the last 3 years of high school, including up to 2 approved courses taken in the 10th grade, can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

A CSU Eligibility Index (EI) can be calculated by multiplying a GPA by 800 and adding your total score on the mathematics and critical reading scores of the SAT. For students who took the ACT, multiply the GPA by 200 and add 10 times the ACT composite score. Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2900 using the SAT or 694 using the ACT. The Eligibility Index Table illustrates several combinations of

required test scores and averages. The University has no current plans to include the writing scores from either of the admissions tests in the computation of the CSU Eligibility Index.

Persons who neither graduated from a California high school nor are a resident of California for tuition purposes, need a minimum index of 3502 (SAT) or 842 (ACT). Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section. An applicant with a GPA of 3.00 or above (3.61 for nonresidents) is not required to submit test scores. However, all applicants for admission are urged to take the SAT or ACT and provide the scores of such tests to each CSU to which they seek admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses require SAT or ACT scores of all applicants for freshman admission.

### Provisional Admission

CSUN may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and plans for the senior year. The campus will monitor the final 2 years of study to ensure that admitted students complete their secondary school studies satisfactorily, including the required college preparatory subjects, and graduate from high school. Students are required to submit an official transcript after graduation to certify that all course work has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by the University. In no case may documentation of high school graduation be received any later than the census date for a student's first term of CSU enrollment. A campus may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel any university registration for students who are found not to be eligible after the final transcript has been evaluated.

| GPA                                      | ACT Score | SAT Score | GPA  | ACT Score | SAT Score | GPA  | ACT Score | SAT Score | GPA  | ACT Score | SAT Score | GPA  | ACT Score | SAT Score |
|--|-----------|-----------|------|-----------|-----------|------|-----------|-----------|------|-----------|-----------|--|-----------|-----------|
| 3.00 and above qualifies with any score. |           |           | 2.81 | 14        | 660       | 2.60 | 18        | 820       | 2.39 | 22        | 990       | 2.18   | 26        | 1160      |

| 2.86                                     | 13        | 620       | 2.65 | 17        | 780       | 2.44 | 21        | 950       | 2.23 | 25        | 1120      | 2.02   | 29        | 1290      |
| 2.85                                     | 13        | 620       | 2.64 | 17        | 790       | 2.43 | 21        | 960       | 2.22 | 25        | 1130      | 2.01   | 30        | 1300      |
| 2.84                                     | 13        | 630       | 2.63 | 17        | 800       | 2.42 | 21        | 970       | 2.21 | 26        | 1140      | 2.00   | 30        | 1300      |
| 2.83                                     | 13        | 640       | 2.62 | 17        | 810       | 2.41 | 22        | 980       | 2.20 | 26        | 1140      | Below 2.00 does not qualify for regular admission. |           |           |
| 2.82                                     | 13        | 650       | 2.61 | 18        | 820       | 2.40 | 22        | 980       | 2.19 | 26        | 1150      |  |           |           |

Applicants will qualify for regular (non-provisional) admission when the University verifies that they have graduated and received a diploma from high school, have a qualifying minimum eligibility index, have completed the comprehensive pattern of college preparatory “a - g” subjects and, if applying to an impacted program or campus, have met all supplementary criteria.

The CSU uses only the ACT score or the SAT mathematics and critical reading scores in its admission eligibility equation. The SAT or ACT writing scores are not currently used by CSU campuses.

### Subject Requirements

The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is 1 year of study in high school.

2 years of social science, including 1 year of U.S. history, or U.S. history and government

4 years of English

3 years of math (algebra, geometry and intermediate algebra)

2 years of laboratory science (1 biological and 1 physical; both must have laboratory instruction)

2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)

1 year of visual and performing arts: art, dance, drama/theater or music

1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU “a - g” list

### High School Students

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus Department Chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment.

### Transfer Policies of CSU campuses

Authority for decisions regarding the transfer of undergraduate credits is delegated to each California State University (CSU) campus. Most commonly, college-level credits earned from an institution of higher education accredited by a regional accrediting agency recognized by the United States Department of Education are accepted for transfer to campuses of the CSU.

The CSU General Education–Breadth (GE-Breadth) program allows California Community College (CCC) transfer students to fulfill Lower Division general education requirements for any CSU campus prior to transfer. Up to 39 of the 48 GE-Breadth units required can be transferred from and certified by a California college. “Certification” is the official notification from a California Community College that a transfer student has completed courses fulfilling Lower Division general education requirements. The CSU GE-Breadth certification course list for particular community colleges can be accessed at [www.assist.org](http://www.assist.org).

Campuses may enter into articulation agreements on either a course-for-course or program-to-program basis. Such articulations are common between CSU campuses and any or all of the California community colleges, but may exist between CSU campuses and other institutions. Established CSU/CCC articulations may be found on [www.assist.org](http://www.assist.org). No more than 70 semester units may be transferred to a CSU campus from an institution which does not offer bachelor’s degrees or their equivalents—e. g., community colleges. Given the University’s 30-unit residency requirement, no more than 90 total units may be transferred into the University from all sources.

### Transfer Requirements

Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered Lower Division transfer students. Students who have completed 60 or more transferable semester college units (90 or more quarter units) are considered Upper Division transfer students. Students who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet those admission requirements. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

### Lower Division Transfer Requirements

Generally, applicants will qualify for admission as a Lower Division transfer student if they have a GPA of at least 2.0 (C or better) in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. Will meet the freshman admission requirements (GPA and subject requirements) in effect for the term to which they are applying (see “Freshman Requirements” section); or
2. Were eligible as a freshman at the time of high school graduation except for the subject requirements, and have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subjects.

Applicants who graduated from high school prior to 1988 should contact the Admission Office to inquire about alternative admission programs. (Due to enrollment pressures, many CSU campuses do not admit Lower Division transfer applicants.)

### Making Up Missing College Preparatory Subject Requirements

Lower Division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:

1. Complete appropriate courses with a grade of C or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a C or better. One college course of at least 3 semester or 4 quarter units will be considered equivalent to 1 year of high school study.
3. Earn acceptable scores on specified examinations, e.g., SAT subject tests. Please consult with any CSU Admission Office for further information about alternative ways to satisfy the subject requirements. (Due to enrollment pressures, many CSU campuses do not admit Lower Division transfer applicants.)

### Upper Division Transfer Requirements

Generally, applicants will qualify for admission as an Upper Division transfer student if they meet all of the following requirements:

1. Have a GPA of at least 2.0 (C or better) in all transferable units attempted; and
2. Are in good standing at the last college or university attended; and have completed at least 60 transferable semester units of college coursework with a GPA of 2.0 or higher and a grade of C or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking and quantitative reasoning—e.g., mathematics. The 60 units must include at least 30 units of courses that meet CSU general education requirements, including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

### Student Transfer Achievement Reform (STAR) Act (SB 1440)

The Student Transfer Achievement Reform (STAR) Act (SB 1440) establishes an Associate in Arts (AA-T) or Associate in Science (AS-T) for transfer for California Community College students and is designed to provide a clear pathway to the CSU degree major.

California Community College students who earn a transfer associate (AA-T or AS-T) degree are guaranteed admission with junior standing to the CSU and given priority admission over other transfer students when applying to a local campus, or non-impacted program. AA-T or AS-T admission applicants are given priority consideration to an impacted campus /program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester units

### Provisional Admission

CSUN may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Campuses may rescind admission for any student who is found not to be eligible after the final transcript has been evaluated. In no case may such documents be received and validated by the University any later than a student's registration for their second term of CSU enrollment.

### Test Requirements

Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit are strongly encouraged to submit scores, unless exempt (see "Eligibility Index" in this catalog), from either the ACT or the SAT of the College Board. Persons who apply to an impacted program may be required to submit test scores and should take the test no later than November or December.

Test scores also are used for advising and placement purposes. Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office. Or students may write to or call:

**The College Board (SAT)  
Registration Unit, Box 6200  
Princeton, New Jersey 08541-6200  
(609) 771-7588  
www.collegeboard.org**

**ACT Registration Unit  
P.O. Box 414  
Iowa City, Iowa 52240  
(319) 337-1270  
www.act.org**

### English Language Requirement

All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least 3 years full time where English is the principal language of instruction must present a score of 61 or above on the Test of English as a Foreign Language (TOEFL). Applicants taking the Computer-Based TOEFL must present a score of 173 or above. Some majors may require a higher score.

All graduate applicants whose native language is not English and who have not attended academic institutions for at least 3 years full time where English is the principal language of instruction must present a score of 79 or above on the Test of English as a Foreign Language (TOEFL), 213 or above on the Computer-Based TOEFL, or 6.0 on the International English Language Testing System (IELTS). Some graduate departments and programs require a higher score for admission, and it is advisable to check the Department website.

A few campuses may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS), and the International Test of English Proficiency (ITEP). For the tests accepted by CSUN, see the International Admissions "I Want to Apply" web page at [www.csun.edu/anr/intl/apply/intlapplytrf.html](http://www.csun.edu/anr/intl/apply/intlapplytrf.html).

### CSU minimum TOEFL standards are:

|               | Internet | Computer | Paper |
|---------------|----------|----------|-------|
| Undergraduate | 61       | 173      | 500   |
| Graduate      | 79       | 213      | 550   |

### Systemwide Placement Test Requirements

The CSU requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms. Students register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to the Testing Center's website at <http://www.csun.edu/testing/>.

### English Placement Test (EPT)

The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the California State University. The CSU EPT must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 147 or above on the EPT will be placed in college-level composition classes.

Exemptions from the EPT are granted only to those who present proof of one of the following:

- A score of 500 or above on the critical reading section of the College Board SAT Reasoning Test
- A score of 22 or above on the American College Testing (ACT) English Test
- A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program
- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better
- A score of "Exempt" or "Ready for college-level English courses" on the CSU Early Assessment Program (EAP) taken along with the English Language Arts California Standard Test in grade 11

### Entry Level Mathematics (ELM) Placement Examination

The Entry Level Mathematics (ELM) Examination is designed to assess and measure the level of mathematics skills acquired through 3 years of rigorous college preparatory mathematics coursework (Algebra I and II, and Geometry) of students entering the California State University

(CSU). The CSU ELM must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 50 or above on the ELM will be placed in college-level mathematics classes.

Exemptions from the ELM are granted only to those who present proof of one of the following:

- A score of 550 or above on the mathematics section of the College Board SAT Reasoning Test
- A score of 550 or above on a College Board SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the American College Testing (ACT) Mathematics Test
- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC exam
- A score of 3 or above on the College Board Advanced Placement Statistics examination
- Completion and transfer to CSU of a college course that satisfies the requirement in Quantitative Reasoning, provided such a course was completed with a grade of C or better
- A score of “Exempt” or “Ready for college-level Mathematics courses” on the CSU Early Assessment Program (EAP), taken in grade 11 in conjunction with the CST in Summative High School Mathematics or Algebra II
- A score of “Conditionally ready for college-level Mathematics courses” or “Conditional” on the CSU Early Assessment Program (EAP), taken in grade 11 along with the California Standards Test in Summative High School Mathematics or Algebra II, provided successful completion of a CSU-approved 12th grade math course that requires Algebra II as a prerequisite

### Early Start Program

Beginning with the class of 2012, entering resident freshmen who are not proficient in math or who are “at risk” in English writing will need to start the remediation process before their first term. By 2014, all new freshmen who have not demonstrated college-readiness in mathematics and/or English writing will need to begin work on becoming ready for college-level math and/or English writing before the start of their first term.

The goals of the Early Start Program are to:

- Better prepare students in math and English writing before the fall semester of freshman year;
- Add an important and timely assessment tool in preparing students for college; and
- Improve students’ chances of successful completion of a college degree. For 2012, resident students would be required to participate in the Early Start Program if their ELM score is less than 50 and/or their EPT score is less than 138. Newly admitted freshman students who are required to complete Early Start will be notified of the requirement and options for completing the program as part of campus communications to newly admitted students.

### Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if he or she meets all of the following conditions:

1. Possesses a high school diploma (or has established equivalence through either the General Educational Development or California High School Proficiency Examinations).
2. Has not been enrolled in college as a full-time student for more than 1 term during the past 5 years.

3. If there has been any college attendance in the last 5 years, has earned a C average or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

### Graduation Requirement in Writing Proficiency

All students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to meet this graduation requirement may be obtained from the Learning Resource Center at <http://www.csun.edu/udwpe/>.

### Student Outreach and Recruitment Services (SOARS)

**Director: E. Dwayne Cantrell**

**Bayramian Hall (BH) 190**

**Phone: (818) 677-2967**

**[www.csun.edu/outreach/](http://www.csun.edu/outreach/)**

Student Outreach and Recruitment Services provides outreach, recruitment and informational services to high school and community college students. Services include the provision of general campus information, recruitment visits to schools, classroom presentations, campus tours, admissions and pre-enrollment advisement aimed at prospective undergraduate students. Units involved in the coordination and implementation of these student services include: Outreach/ Application Generation Services, Yield and Special Programs, Student Services Center Information Desk, the University Testing Center, Educational Talent Search, Upward Bound and Student Marketing and Communications. Moreover, Student Outreach and Recruitment administers pre-collegiate programs for middle and high school students, elementary school children and parents. Community Services are offered to agencies, business and industry enterprises. Outreach and Recruitment coordinates University-wide admissions and pre-enrollment activities to include: CSUN Days at selected community colleges, Explore Northridge, College: Making It Happen family conference and Honors Day for Juniors.

### Campus Tours

**Coordinator: Sasha Martinez**

**Phone: (818) 677-2879**

**Tour reservations email: [tours@csun.edu](mailto:tours@csun.edu)**

Guided tours of the campus are provided by University Ambassadors to individuals and groups on Monday through Friday at various times. Saturday tours are offered on selected Saturdays at 11 a.m. All tours require a reservation, except self-guided tours. For tour reservations, please call or email us.

### Admissions and Records

**Director: Patricia Lord**

**Bayramian Hall (BH) First Floor Lobby**

**Phone: (818) 677-3700; Fax: (818) 677-3766**

**Email: [admissions.records@csun.edu](mailto:admissions.records@csun.edu)**

**[www.csun.edu/anr/](http://www.csun.edu/anr/)**

The Office of Admissions and Records, a support unit for Academic Affairs, provides ongoing services that will foster student success at CSUN from applying to the University to graduation. Our student services encompass: admitting eligible domestic and international applicants; evaluating domestic and international coursework; registering students in classes and confirming the satisfaction of baccalaureate degree requirements. Admissions and Records acts as the catalyst between instruction and students, preserving the established academic standards.

## Financial Aid and Scholarship Department

### Financial Aid and Scholarship Department

**Director:** Lili Vidal

**Bayramian Hall (BH) 130**

**Phone (818) 677-4085; (818) 677-3764 V/TDD**

**Online at [www.csun.edu/financialaid](http://www.csun.edu/financialaid)**

**Email: [askmatty@csun.edu](mailto:askmatty@csun.edu)**

#### Office Hours:

8:30 a.m. - 4:30 p.m. Monday & Thursday

10 a.m. - 6:30 p.m. Tuesday & Wednesday

8:30 a.m. - 4 p.m. Friday

The Financial Aid and Scholarship Department provides financial assistance and guidance to empower students to fulfill their academic goals. Financial aid awards and services are not based on race, color, national origin, age, gender, marital status, religion, sexual orientation or disability.

CSUN has four major types of financial aid available to students and their families: grants, work-study, loans and scholarships. Most financial aid is funded by the federal government, with the state government, the institution and private donors providing the balance.

1. Federal and State Grants are need-based funds that do not need to be repaid.
2. Federal Work-Study funds are need-based and must be earned through authorized work experience.
3. Federal Loans are need-based and non-need-based and must be repaid upon leaving the University or dropping below half-time enrollment. A loan entrance counseling session and a Master Promissory Note are required for all new borrowers. Loan exit counseling is required for all students who are graduating or leave school (including withdrawing from all classes).
4. Most scholarships are need-based, although a limited number of merit-based scholarships are available. Scholarships require separate applications and are awarded competitively. In most cases they do not require repayment. Scholarship information and applications can be found at: [www.csun.edu/finaid/scholarships.html](http://www.csun.edu/finaid/scholarships.html).

To apply for Financial Aid, complete a FAFSA (Free Application for Federal Student Aid) online at: [www.fafsa.gov](http://www.fafsa.gov). The Title IV school code for CSU-Northridge is 001153. Submit the Free Application for Federal Student Aid (FAFSA) no earlier than January 1 and no later than March 2 for priority consideration to receive aid in the following academic year. This application is used to determine your eligibility for all federal, state, and institutional funds. Submit all additional forms requested by the Financial Aid and Scholarship Department as soon as possible. Many funds are all awarded before the school year begins. More information is available at [www.csun.edu/financialaid](http://www.csun.edu/financialaid).

If you are unsure whether your file is complete, use the MyNorthridge Portal to check to see if additional documents are being requested. Please keep your contact information updated on the portal to ensure receipt of important notices. Please check your CSUN email regularly for any important communications. You must inform our office of any changes in housing plans or enrollment status.

Financial aid applicants are expected to: know application deadlines and to apply early; respond immediately to requests for documents; read all financial aid correspondence and emails carefully and promptly; keep copies of all forms submitted and create a special file for Financial Aid documents.

Cal State Northridge offers Bookstore Debit Card Loans for purchasing books and supplies in the Matador Bookstore. Applications are available at the Financial Aid and Scholarship Department window in Bayramian Hall or online at [www.csun.edu/financialaid/bookstore-loan.html](http://www.csun.edu/financialaid/bookstore-loan.html). The application period typically begins 2 weeks prior to the start of the semester. Refer to the financial aid website for exact application dates and deadlines.

Most students are eligible for some financial funding. For more information about financing your education, refer to the financial aid website at [www.csun.edu/financialaid](http://www.csun.edu/financialaid).

### Satisfactory Academic Progress

An annual review of progress toward an eligible degree or certificate is required by federal, state and institutional rules as one condition for determining student financial aid eligibility. Your academic progress will be reviewed in several areas: units attempted versus units earned, academic disqualification and maximum units to complete a degree. If you fail to meet satisfactory academic progress in any of these areas, you will be ineligible for financial aid funding and your aid will be canceled. You may be able to restore your aid if there are qualified extenuating circumstances for an appeal. The Satisfactory Academic Progress (SAP) policy is available online at [www-admn.csun.edu/vp/policies/](http://www-admn.csun.edu/vp/policies/).

### Enrollment Adjustments for Financial Aid Recipient

Financial Aid awards are based on full-time enrollment at 12 units for undergraduates and 8 units for graduates. Most adjustments for less than full-time are made after the semester begins. If you are enrolled less than full-time, your disbursement will be reduced or canceled. You must stay enrolled to maintain eligibility. In some cases, you may be required to repay Financial Aid if you drop or withdraw from classes.

### Withdrawing from the University

Students who receive financial aid funds must consult with the Financial Aid and Scholarship Department prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term. If a recipient of financial assistance under federal Title IV financial aid programs withdraws from the institution during a payment period, the amount of grant or loan assistance received is subject to return and repayment provisions governed by Federal law.

Undergraduate Studies Office  
 University Hall (UN) 215  
 Senior Director: Elizabeth T. Adams  
 Phone: (818) 677-2969  
 Fax: (818) 677-3977

This office is responsible for the support of undergraduate success at CSUN. The Senior Director for Undergraduate Studies coordinates and supports the activities of Academic Advisement, Developmental Mathematics and Writing, the Honors Program in General Education, Special Majors, the Learning Resource Center, the publication of the University Catalog and the Center for Innovative and Engaged Learning Opportunities (CIELO), the latter of which includes the activities of Academic First Year Experience, Faculty Development and Community Engagement. The Writing and Reading Across Disciplines (WRAD) program will help students continue to develop their literacy skills in their chosen majors to ensure greater probability of success at the University.

Educational Opportunity Programs (EOP)  
 University Hall (UN) 205  
 Director: José Luis Vargas  
 Email: jose.luis.vargas@csun.edu  
 Phone: (818) 677-4151  
 Fax: (818) 677-4153  
[www.csun.edu/eop](http://www.csun.edu/eop)

The Educational Opportunity Programs (EOP) at California State University, Northridge, is a student-centered program. EOP designs, administers and supports programs to deliver access and retention services to CSUN students. Established by legislative mandate over 40 years ago, EOP focuses on highly motivated low-income, first-generation and historically underrepresented college students, a population that not only reflects the diversity of CSUN's feeder communities, but also the diversity of the University itself. For those who qualify, EOP provides students with a modest EOP grant and participation in one of EOP's Transitional Programs, including but not limited to: Bridge Commuter; Bridge Residential; Transfer Bridge and FreshStart.

EOP also houses: the Faculty Mentor Program, providing mentoring services, training and resources for faculty, staff and students; the Resilient Scholars Program, designed to provide access and support to former foster youth; and holistic support services which are provided to all students through the Student Services Centers/EOP Satellites located in each academic college (and for undecided students, through the Advising Resource Center/EOP)

EOP programs help to:

- 1) create a stronger pipeline from the community to the University
- 2) transition students to CSUN
- 3) build community

## Student Services Centers/EOP Satellites

### Advising Resource Center/EOP

**Bayramian Hall (BH) 210**

**Director: Conchita Y. Battle, Ed.D.**

**Phone: (818) 677-2108**

**Fax: (818) 677-7728**

**[www.csun.edu/eop/](http://www.csun.edu/eop/)**

The Advising Resource Center/EOP exists to provide extensive holistic services to EOP students and undecided/undeclared students in their first 2 years of matriculation (0-59 units) at the University, or until they declare a major. We provide students with the opportunity to:

#### Explore

- By providing advisement (from peer mentors and professional advisors) and advocacy for students to aid in successful matriculation during their academic career;
- By providing personal support during each student's transition to a college;
- By providing appropriate referrals to students; and
- By promoting, guiding and supporting the overall academic, personal and career development of undecided/undeclared students.

#### Discover

- By providing an array of holistic student support services in a caring environment;
- By fostering community and mentoring experiences;
- By helping students connect to appropriate programs/departments (major); and
- By providing students with ample opportunities for self-exploration through career development.

#### Decide

- By creating opportunities for students to choose a major.

### Mike Curb College of Arts, Media and Communication

#### Student Resource Center & EOP Satellite

**Nordhoff Hall (NH) 135**

**Director: Maria L. Valiton**

**Phone: (818) 677-2024**

**Fax: (818) 677-3863**

**[www.csun.edu/~srceop/main.htm](http://www.csun.edu/~srceop/main.htm)**

The Student Resource Center/EOP Satellite (SRC/EOP) is a comprehensive effort designed to assist students enrolled in the Mike Curb College of Arts, Media and Communication (MCCAMC) at California State University, Northridge. In maintaining our vision of further developing a community of talented students, the College is committed to providing services to students to facilitate their success within the majors of Art, Cinema and Television Arts, Communication Studies, Journalism, Music and Theatre.

The Center also serves as a satellite office of the Educational Opportunity Program (EOP), which supports, advocates and facilitates the mission of CSUN and EOP by providing holistic support services that promote and encourage first-generation, low-income and historically underrepresented students to seek higher educational opportunities specifically at CSUN.

The SRC/EOP, in coordination with the College Departments, seeks to build a network in which students can benefit from the strengths and talents of faculty, staff and peers. The Center is designed to enhance the transition, retention and graduation of students majoring in the College's academic departments. It provides a variety of academic support services, which include but are not limited to holistic academic advisement and counseling, guidance and information, personal support and multicultural activities to maintain a cohesive student-centered environment to help students realize their educational goals.

We encourage participants to become part of our family and take advantage of the resources. Students gain a greater understanding of community and enrich their lives by availing themselves of these opportunities while at CSUN. The Student Resource Center & EOP Satellite considers each student as an individual with a unique set of experiences, talents, ideas and life and career goals. As such, it recognizes that advisement is a holistic process having the mission of assisting students to identify and clarify goals, plan and monitor academic progress, and advance toward graduation. Some of the holistic support services that are available via the Center for EOP and other College student populations during peak advisement periods are (refer to the MCCAMC Advisement Grid available at our website): 1) assistance with course selection, 2) help with developing a balanced and realistic schedule, 3) help with developing an overall academic plan, including general education, the major and other graduation requirements, 4) help with improving and monitoring academic performance and 5) assistance with re-admission procedures, undergraduate financial aid appeals, late schedule adjustment requests, Early Warning System (TEWS) student and faculty support or any other student related requests and referrals.

### College of Business and Economics

#### Juniper Hall (JH) 2113

**Director: Fariba Farzan**

**Phone: (818) 677-3537**

**Fax: (818) 677-5822**

**[www.csun.edu/cobaessc](http://www.csun.edu/cobaessc)**

The College of Business and Economics offers majors in Accountancy, Economics, Finance, Information Systems, Management, Marketing and Business Administration, with options in Business Law, Insurance and Financial Services, Global Supply Chain Management, Real Estate and Systems Operations Management. The Student Services Center and EOP Satellite assists the College in its efforts to support, retain and graduate students by promoting and fostering student development and academic success. Professional academic advisors support students throughout their academic experience. Holistic services offered include: new freshman and transfer advisement; helping students identify and achieve long- and short-term goals; academic advisement; graduation planning; and referrals to College and University resources for academic, personal and professional development. The Center also provides additional specialized services to eligible Educational Opportunity Program (EOP) students. Students are encouraged to contact the Center or visit our website for additional assistance.

### College of Engineering and Computer Science

#### Jacaranda Hall (JD) 1501

**Director: Dr. Karla Pelletier**

**Phone: (818) 677-2191**

**Fax: (818) 677-2026**

**[www.csun.edu/~cecssc/](http://www.csun.edu/~cecssc/)**

As part of the College of Engineering and Computer Science's overall retention efforts, the CECS Student Services Center/EOP Satellite (SSC/EOP) provides a wide range of student services including holistic academic advisement, tutorial services, scholarship and internship information, career development and specialized help for students in academic difficulty.

The Center also provides specialized services to Educational Opportunity Program (EOP) students. Students are encouraged to schedule an appointment with a professional SSC/EOP advisor. Extended hours for evening students are also available. Visit our website for more information and current offerings/activities.

### College of Health and Human Development

**Sequoia Hall (SQ) 111**

**Director: Dr. Mario Lopez**

**Phone: (818) 677-2883**

**Fax: (818) 677-5885**

**[www.csun.edu/hhd/sscadvisement.html](http://www.csun.edu/hhd/sscadvisement.html)**

The HHD Student Services Center/EOP is a comprehensive effort designed to assist in the recruitment, retention and graduation of students majoring in Child and Adolescent Development, Communication Disorders and Sciences, Environmental and Occupational Health, Family and Consumer Sciences, Health Sciences, Kinesiology, Recreation and Tourism Management, and Physical Therapy.

The HHD Student Services Center/EOP works in partnership with students in meeting their academic goals and through holistic advisement facilitates success in the various disciplines represented in the College. Services offered through the HHD Student Services Center/EOP include: academic advisement for freshman, transfer and continuing students, HHD Freshman and Transfer Student Orientation, specialized services for EOP students, academic success workshops, personal support, peer advisement and faculty mentoring.

### College of Humanities

**Interim Director: Marvin Villanueva**

**Jerome Richfield Hall (JR) 240**

**Phone: (818) 677-4767 or 4784**

**Fax: (818) 677-7475**

**<http://www.csun.edu/humanities/eop/>**

The Student Services Center/EOP (SSC/EOP) offers a wide variety of holistic support services to recruit, retain and graduate students with majors and minors in the College of Humanities. These support services include but are not limited to academic advisement, degree planning, mentoring, a variety of specialized services for EOP students and new student programs. Students may schedule individual appointments with professional advisors in the SSC/EOP. Telephone, email and fax inquiries are always welcome. Extended hours are offered in an attempt to meet the needs of our evening students. Students are encouraged to meet regularly with the staff of the SSC/EOP. The professional guidance offered by the academic advisors in the SSC/EOP provides students with the information and support they need to meet their academic goals.

### Liberal Studies Program

**Education Building (ED) 100**

**Director: Dr. Michael Neubauer**

**Phone: (818) 677-3300**

**Fax: (818) 677-4768**

**[www.csun.edu/liberalstudies](http://www.csun.edu/liberalstudies)**

The Liberal Studies Program offers advisement services to students who are interested in K-6th grade or Special Education Teacher Preparation or the General (Interdisciplinary) Studies options of the Liberal Studies major. Students interested must complete an online advising workshop. Students who have applied to CSUN and who have completed an online workshop may schedule an individual appointment with an advisor. Liberal Studies also offers advisement for the Sustainability, Humanities, and Russian Studies minors. Students interested in the aforementioned minors do not have to complete the Liberal Studies online workshop.

### College of Science and Mathematics

**Eucalyptus Hall (EH) 2126**

**Director: Elizabeth Riegos-Olmos**

**Phone: (818) 677-4558**

**Fax: (818) 677-3877**

**[www.csun.edu/~smssceop](http://www.csun.edu/~smssceop)**

The Student Services Center/Educational Opportunity Program (SSC/EOP) provides holistic and comprehensive advisement services to College of Science and Mathematics students to support student success, promote a positive educational experience and encourage academic excellence. In addition to advisement, services offered include tutoring for subjects in Math and Science, career exploration, pre-health advisement and educational planning for graduate and professional school. As an EOP Satellite, the SSC/EOP focuses on the needs of EOP populations—consisting of highly motivated low-income, historically underrepresented and first-generation students—by providing additional support services and involvement in activities and programs designed to recruit, retain and encourage the persistence of EOP students. The SSC/EOP actively works to develop mentoring activities, create connections for students to the College and the campus at large and assist students with understanding the wide array of resources available throughout the University.

Students interested or declared in Biology, Chemistry and Biochemistry, Geological Sciences, Physics and Astronomy, and Mathematics are highly encouraged to seek assistance from the SSC/EOP.

### College of Social and Behavioral Sciences

**Sierra Hall (SH) 204**

**Interim Director: Ani Harutyunyan**

**Phone: (818) 677-2658**

**Fax: (818) 677-5923**

**[www.csun.edu/csbs/ssc\\_eop/](http://www.csun.edu/csbs/ssc_eop/)**

The Student Services Center/Educational Opportunity Program Satellite (SSC/EOP) assists the College of Social and Behavioral Sciences in its efforts to recruit, retain, graduate and promote the advancement of students to graduate and professional degree programs. The Center is committed to providing opportunities that will enhance students' educational experiences, foster student development and promote academic success. The SSC/EOP offers specialized holistic support services to students who are part of the Educational Opportunity Program.

Professional staff advisors are available to assist students with academic advisement, educational planning and graduate and professional school preparation.

Students with an interest or majoring in Anthropology, Geography, History, Pan-African Studies, Political Science, Psychology, Sociology and Urban Studies are encouraged to seek assistance in the Center.

## Pre-Professional Advisement

### Pre-Dentistry

There is no specific pre-dental major at CSU Northridge, but most students accepted into dental school have majored in Biology or Chemistry. The Dental Admission Test (DAT) is required, and most students admitted to dental school have a baccalaureate degree. The courses listed below are the minimum requirements for most dental schools. To enroll in the listed Biology, Chemistry, English, and Physics courses, appropriate prerequisites may be required. Check catalog course descriptions for prerequisites.

#### Pre-Dental Curriculum - Minimum Requirements

|                       |   |
|-----------------------|---|
| BIOL 106/L, 107/L     | Biological Principles I, II (8)           |
| CHEM 101/L, 102/L     | General Chemistry I, II (10)              |
| CHEM 333/L, 334/L     | Principles of Organic Chemistry I, II (8) |
| CHEM 464              | Principles of Biochemistry (3)            |
| PHYS 100A/AL, 100B/BL | General Physics I, II (8)                 |
| AAS/CHS/ENGL/PAS155   | Freshman Composition (3)                  |
| ENGL 255              | Introduction to Literature (3)            |

Many schools recommend or require additional courses (e.g., another year of Biology courses, Psychology). Dental schools vary with respect to math requirements. Very few schools require Calculus, although some require Trigonometry, Precalculus, or Statistics. A broad exposure to the arts and humanities is encouraged. For specific information, consult CSUN's pre-dental advisors in CR 5104, study the book "ADEA Official Guide to Dental Schools," published by the American Dental Education Association, 1625 Massachusetts Ave., NW, Washington, DC 20036-2212, and visit the website at [www.adea.org](http://www.adea.org).

### Pre-law

#### Pre-Law Advisor: Department of Business Law Faculty Mentors

**Faculty Office: JH3121**

**Phone: (818) 677-2905**

**Email: [business.law@csun.edu](mailto:business.law@csun.edu)**

Pre-law students should seek to develop skills in critical thinking and writing, as those will be useful in law school and as a practicing attorney. Recommendations include classes in business law and other critical thinking disciplines, as well as other classes in which students are assigned extensive writing and given substantial feedback. A critical understanding of the values and institutions with which the law deals and a sense of how the law relates to the business community are also valuable. Central to all this is the power to think clearly, carefully, and independently. Skill in research, in analysis of relevant data, in deductive and inductive reasoning, and in reasoning by analogy all foster the student's power to think creatively. The cultivation of these skills and insights is not the province of any one discipline at the University. Choice of major should be governed by the student's interests and abilities in light of the comments above. It is recommended, though, that you schedule an advisement appointment with either the University pre-law advisor above or a pre-law advisor within your major department sometime before your senior year to discuss strategies and deadlines in the law school application process. Additional information, including detailed advisement and news about events and pre-law opportunities, is available on the pre-law advisement website at [www.csun.edu/lawprogram/](http://www.csun.edu/lawprogram/). Information on pre-law events is also posted on the Pre-Law Bulletin Board posted outside the Political Science office in Sierra Hall 210.

The LSAT exam is a very important component in law school admission decisions. LSAT exams are offered 4 times yearly (2 times at CSUN). Information about the LSAT and the law school admissions process is also available from the Law School Admissions Council website at [www.lsac.org](http://www.lsac.org).

### Pre-Medicine

#### Department of Biology

**(818) 677-3356**

**[www.aamc.org](http://www.aamc.org)**

Pre-health professional students may select any major in the sciences or humanities provided they include the courses required by the professional schools. Requirements to enter each of the health professions can be found on the URLs indicated below:

Medicine ([www.aamc.org](http://www.aamc.org)); Osteopathy ([www.aacom.org](http://www.aacom.org)); Podiatry ([www.aacpm.org](http://www.aacpm.org)); Chiropractic ([www.chirocolleges.org](http://www.chirocolleges.org)); Physician Assistance ([www.aapa.org](http://www.aapa.org)); Dentistry ([www.adea.org](http://www.adea.org)); Optometry ([www.opted.org](http://www.opted.org)); Pharmacy ([www.aacp.org](http://www.aacp.org)); Veterinary Medicine ([www.aavmc.org](http://www.aavmc.org)); Naturopathic Medicine ([www.naturopathic.org](http://www.naturopathic.org)).

Competition for entrance into the health-professional schools is intense. Students (both undergraduate and post-baccalaureate) are encouraged to seek advice of a pre-professional advisor (located in CR 5104) early in their enrollment at the University regarding proper preparation for the professional schools. Preparation in the sciences should begin in the freshman year.

A suggested pre-medical curriculum for medical schools is given below. For specific information, consult a pre-medical advisor, study the book "Medical School Admission Requirements," published by the Association of American Medical Colleges, 2450 N Street, NW, Washington, DC 20037, and visit [www.aamc.org](http://www.aamc.org).

#### Pre-Medical Curriculum:

Students are advised to take both the Mathematics and Chemistry Placement Tests (MPT and CPT) before registration, and to note the course prerequisites, so that courses at the appropriate level can be selected.

|                       |   |
|-----------------------|---|
| BIOL 106/L, 107/L     | Biological Principles I, II (8)           |
| CHEM 101/L, 102/L     | General Chemistry I, II (10)              |
| CHEM 333/L, 334/L     | Principles of Organic Chemistry I, II (8) |
| PHYS 100A/AL, 100B/BL | General Physics I, II (8)                 |
| MATH 255A             | Calculus I (3)                            |
| and                   |   |
| MATH 140              | Introductory Statistics (4)               |
| ENGL 155              | Freshman Composition (3)                  |
| ENGL 255              | Introduction to Literature (3)            |

**Recommended Studies:** Many schools recommend or require additional courses in fields such as Genetics (BIOL 360), Cell Biology (BIOL 380), Embryology (BIOL 441/L), Biochemistry (CHEM 464), Computer Science (COMP 100), Conversational Spanish (SPAN 101/C) and Behavioral Sciences (PSY 150). Many recommend or require both Calculus and Statistics. Medical schools also emphasize the humanities and social sciences, and it is imperative to develop critical thinking and verbal and written communication skills.

Factors considered by professional schools reviewing applicants for admission include GPAs, scores on professional school entrance examinations (MCAT, DAT, OAT, GRE, PCAT, VCAT), clinical experience in related fields, research, recommendations from faculty members and supervisors, and interviews with applicants.

The Medical College Admission Test (MCAT) is changing in 2015. The new MCAT will require knowledge of Biochemistry, Cell Biology, basic Psychology and basic Sociology. These courses should be taken before the MCAT if the student plans to take the MCAT in 2015 or later. While taking the MCAT in the spring rather than in the summer of the year of application may be suitable, many students prefer to take the test in the summer so that study time can be uninterrupted.

## General Education

The vision of General Education (GE) is to ensure that all CSUN students have a broad background in disciplines at the university-level to appreciate the breadth of human knowledge and the responsibilities of concerned and engaged citizens of the world. Students must become lifelong learners and leave the University with a set of skills that include the ability to read critically, to write and communicate orally with clarity and persuasiveness, to evaluate and draw appropriate inferences from limited information and to access the wealth of technical, scientific and cultural information that is increasingly available in the global community. Students must gain an understanding of the major contributions made by individuals from diverse backgrounds in the sciences, business and economics, the arts, literatures, politics and technologies. It is through the GE Program that CSUN ensures that all students gain a sincere appreciation of how the diverse cultures housed in the United States, and specifically in Southern California, lead to creative thinking and expression during a time in human history when cultural diversity provides different perspectives and insights from which to view human endeavors.

### General Education Required Pattern of Courses

The required pattern of General Education consists of 48 units distributed among these areas:

|   |                 |
|---|-----------------|
| Basic Skills  | 12 units        |
| Subject Explorations:   |                 |
| Natural Sciences  | 8 units         |
| Arts and Humanities   | 6 units         |
| Social Sciences   | 6 units         |
| Lifelong Learning   | 3 units         |
| Comparative Cultural Studies/Gender, Race, Class and Ethnicity Studies, and Foreign Languages | 6 units         |
| U.S. History and Government (Title 5)   | 6 units         |
| <b>Total Units Required General Education Units*</b>  | <b>48 units</b> |

*\*Note: The sum of the minimums for each section is 47 units. After completing the course requirements for all sections, if fewer than 48 units have been completed, then 1 additional GE course selected from any of the GE sections must be completed to meet the 48-unit requirement.*

### Information Competence Requirement

Students are required to take Information Competence (IC) designated courses. Students will progressively acquire information competence skills by developing an understanding of information retrieval tools and practices, as well as improving their ability to evaluate and synthesize information ethically.

Students must take 2 IC designated courses, 1 course in the Basic Skills section and 1 course in the Subject Explorations section. IC designated courses are listed below.

### Basic Skills (12 Units)

Basic Skills course work provides students with the knowledge and abilities they will find useful and necessary for other GE and University courses and in their pursuits after graduation. These fundamental courses **Analytical Reading and Expository Writing, Critical Thinking, Mathematics** and **Oral Communication** will teach students how to read to understand and write about complex topics, how to distinguish correct from faulty reasoning, how to study and appreciate mathematical ideas and quantitative reasoning, and how to make public presentations of their own thoughts and research. One course in this section must include the Information Competence (IC) designation.

### Subject Explorations (29 Units)

Subject Explorations course work provides courses in the Natural Sciences; Art and Humanities; Social Sciences; Lifelong Learning; and Comparative Cultural Studies/Gender, Race, Class and Ethnicity Studies, and Foreign Languages. At least 1 course taken to fulfill Subject Explorations must be designated as an IC course.

### Natural Sciences

Natural Sciences course work provides students with a fundamental knowledge in the sciences, an understanding of how scientific knowledge moves forward using the scientific method and an understanding of the role of science in a world that is increasingly reliant on scientific and technological advances.

### Arts and Humanities

Arts and Humanities course work helps students appreciate the rich history and diversity of human knowledge, discourse and achievements of their own and other cultures as they are expressed in the arts, literature, religion and philosophy.

### Social Sciences

Social Science course work will give students an understanding of the behavior of humans as we relate to each other, to ourselves and to our environments as we create the structures and values that govern our lives in the present and through time. These courses will give students an appreciation of the areas of learning concerned with human thought and an understanding of the nature, scope and limits of social-scientific study.

### Lifelong Learning

Lifelong Learning course work encourages students to develop an appreciation for the importance of the continued acquisition of new and diverse knowledge and skills, and offers opportunities to integrate personal, professional and social aspects of life.

### Comparative Cultural Studies/Gender, Race, Class, and Ethnicity Studies, and Foreign Languages

Comparative Cultural Studies course work provides students with an introduction to the cultures and languages of other nations and peoples, the contributions and perspectives of cultures other than their own and how gender is viewed in these cultures. Courses in this section will be referred to in the Catalog with the abbreviated phrase Comparative Cultural Studies.

### U.S. History and Government (6 Units)

U.S. History and Government is prescribed by California law (Title 5) and meets 6 of the 48 units required for General Education. U.S. History and Government courses cannot be used to fulfill the requirements of Subject Explorations.

### Upper Division General Education (UDGE) (9 Units)

General Education course work at the 300-level or above must be selected from within Basic Skills, Subject Explorations or U.S. History and Government. UDGE (300-level and above) are not to be taken sooner than the semester in which junior standing (60 units) is achieved. Note that completion of the Lower Division writing requirement is a prerequisite for enrollment in Upper Division General Education courses.

### Writing Intensive (WI) Requirement

All Upper Division GE courses are designated Writing Intensive (WI). Therefore, the WI requirement will be satisfied by meeting the Upper Division General Education requirement. Writing Intensive courses require students to complete writing assignments totaling a minimum of 2,500 words.

### General Education Residency Requirement

Students must complete a minimum of 9 units of General Education in residence at CSUN at either the Lower or Upper Division level. If completed at the Upper Division level, the units also may apply to the 9-unit Upper Division GE requirement described above.

### Grading Method Requirement

Students may not take courses on a Credit/No Credit basis to fulfill GE or Title 5 requirements. Refer to the Policies and Regulations section on Credit/No Credit for all restrictions on this basis of grading.

### Additional General Education Rules

1. A student may count for GE credit only 1 GE course that counts for major credit and is offered by the Department of the major. The major Departments have designated the course for this modification, which is indicated below in the General Education Pattern Modifications and has been coded into the Degree Progress Report. GE courses offered in the major Department but not required in the major Program can apply to GE as listed.
2. Courses taken to fulfill a particular GE requirement will continue to count for GE credit even after a student changes major. However, once a student changes the major, the student is responsible for fulfilling the GE requirements in the areas of GE that have not been completed.
3. Changes or substitutions to GE that are specific to particular majors are listed in the **General Education Pattern Modifications** section below or may be listed in the description of your major Program. An academic advisor in the major should be consulted regarding these changes.

### Requirements for Transfer Students

Transfer students can meet CSUN GE requirements by completing a General Education Certification\*\* Plan at a California community college and 9 units of Upper Division GE course work at CSUN after transfer, or by completing the General Education program at CSUN, which includes the following areas of study: Basic Skills, Subject Explorations (which include Natural Sciences, Arts and Humanities, Social Sciences, Lifelong Learning and Comparative Cultural Studies/Gender, Race, Class and Ethnicity Studies, and Foreign Languages), and Title 5 U.S. History and Government requirements.

Students transferring community college or university course work also must meet a 3-unit CSUN requirement in Comparative Cultural Studies/Gender, Race, Class and Ethnicity Studies, and Foreign Languages. This requirement can be met through transfer credit evaluation or the completion of an appropriate CSUN Upper Division GE course designated as a Comparative Cultural Studies course.

*\*\*Students who may be eligible for IGETC or CSU General Education Certification are urged to consult with their community college counselor about this process, preferably in advance of their transfer.*

### General Education Pattern Modifications

**African American Studies** majors may apply listed PAS courses in General Education.

**Art** majors may count ART 140 in Arts and Humanities.

**Asian American Studies** majors may apply listed AAS courses in General Education.

**Biochemistry** majors may count BIOL 106/L and 107/L, and CHEM 101/L in the Natural Sciences.

**Biology** majors may count BIOL 106/L in the Natural Sciences. Business majors (Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate, or Systems and Operations Management) may count BLAW 280 in the Lifelong Learning section.

**Central American Studies** majors may apply listed CAS courses in General Education.

**Chemistry** majors may count CHEM 101/L in the Natural Sciences.

**Chicana/o Studies** majors may apply listed CHS courses in General Education.

**Cinema and Television Arts** majors may count CTVA 100 in Lifelong Learning.

**Civil Engineering** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. CE majors may count MSE 304 in the Social Sciences, and MSE 101/L and CE 280/L in Lifelong Learning.

**Communicative Disorders and Sciences** majors may count BIOL 101/L in Natural Sciences.

**Communication Studies** majors may count COMS 309 in Basic Skills, Oral Communication.

**Computer Engineering** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. Computer Engineering majors may count BIOL 106/L and 107/L in the Natural Sciences; MSE 304 in the Social Sciences; and COMP 110L in Lifelong Learning.

**Computer Science** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. CS majors may count BIOL 106/L and 107/L in Natural Sciences, and COMP 110/L in Lifelong Learning.

**Construction Management Technology** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. CMT majors may count BIOL 106/L in the Natural Sciences and MSE 300 in the Social Sciences.

**Economics** majors may count ECON 310 in the Social Sciences.

**Electrical Engineering** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. EE majors may count MSE 304 in the Social Sciences and ECE 206/L in Lifelong Learning.

**Gender and Women's Studies** majors may count GWS 300 in Comparative Cultural Studies.

**Health Administration** majors may count BIOL 101/L in the Natural Sciences and HSCI 345 in the Social Sciences

**English** majors may use one of the following courses in the Arts and Humanities: ENGL 258, 259 or 275.

**Environmental and Occupational Health** majors may count EOH 352 in the Social Sciences section. BIOL 101/L, 106/L and 107 may count in the Natural Sciences.

**Family and Consumer Sciences** majors may count FCS 340 in Lifelong Learning. Majors in the Nutrition, Dietetics and Food Science Option, and those in the the FCS Education Option may count BIOL 101/L in the Natural Sciences.

**French** majors may count FLIT 295A or 295B in Arts and Humanities.

**Geological Science** majors in Option III may count BIOL 106/L and BIOL 107/L in the Natural Sciences.

**Geological Science** majors in Option IV may substitute COMP 110/L for COMP 100 as a GE requirement.

**History** majors may count HIST 270, 271 or 371 in Title 5.

**Humanities Interdisciplinary Program** majors may count HUM 101 in Arts and Humanities.

**Jewish Studies** majors may count JS 200 in the Arts and Humanities.

**Journalism** majors may count JOUR 100 in Lifelong Learning.

**Kinesiology** majors may count KIN 306 in Social Sciences, but they may not receive Upper Division General Education credit for KIN 306. BIOL 101/L counts in the Natural Sciences.

**Liberal Studies** majors in Teacher Preparation Options will be considered to have satisfied General Education requirements.

**Management** majors may take ECON 308 for Upper Division General Education in the Subject Explorations Social Sciences section and BLAW 280 in the Lifelong Learning section.

**Manufacturing Systems Engineering** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. MSE majors may count MSE 304 in the Social Sciences and MSE 319/L and 248/L in Lifelong Learning.

**Marketing** majors and minors may substitute ECON 307 (non-GE) for ECON 310. Marketing majors can count BLAW 280 in the Lifelong Learning section.

**Mathematics** majors may count Math 150A in Basic Skills, Mathematics. COMP 106/L counts in Lifelong Learning. Mathematics, Junior Year Integrated (JYI) Option may count ASTR 301 in the Natural Sciences.

**Mechanical Engineering** majors will be considered to have satisfied the Basic Skills, Critical Thinking and Mathematics requirements. ME majors may count MSE 304 in the Social Sciences, and ME 101/L and 209 in Lifelong Learning.

**Music** majors in all B.A. Options and the B.M. Program may count MUS 307 (Upper Division GE) in Comparative Cultural Studies, MUS 191/L in Lifelong Learning and MUS 202 in Arts and Humanities.

**Philosophy** majors may count PHIL 230 in Basic Skills, Critical Thinking.

**Physics** majors may count PHYS 220A/AL or 225/220AL in the Natural Sciences. COMP 106/L and 110/L may count in Lifelong Learning.

**Political Science** majors may count POLS 155 or 355 in Title 5.

**Psychology** majors may count PSY 150 in the Social Sciences

**Public Health Promotion** majors may count BIOL 101/L in the Natural Sciences and HSCI 345 in the Social Sciences.

**Radiologic Sciences** majors may count BIOL 101/L and PHYS 100BL in the Natural Sciences, HSCI 345 in the Social Sciences, and HSCI 384 and 486B for Lifelong Learning.

**Recreation** majors may count RTM 352 in Lifelong Learning.

**Religious Studies** majors may count 1 of the following courses in the Arts and Humanities: RS 100, 101, 304, 307, 310, 356, 361 or JS 200.

**Sociology** majors may count SOC 305 in the Social Sciences.

**Spanish** majors in the Spanish Literature Option may count FLIT 295A or 295B in the Arts and Humanities.

**Urban Studies and Planning** majors may count URBS 310 in the Social Sciences.

## Information Competence (IC) Designated Courses

### 1. Basic Skills:

#### Analytical Reading and Expository Writing

|      |      |  |
|------|------|--|
| AAS  | 113B | Approaches to University Writing B (3) |
| AAS  | 114B | Approaches to University Writing B (3) |
| AAS  | 115  | Approaches to University Writing (3)   |
| CAS  | 113B | Approaches to University Writing B (3) |
| CAS  | 114B | Approaches to University Writing B (3) |
| CAS  | 115  | Approaches to University Writing (3)   |

**General Education Sections****1. Basic Skills (12 Units)**

All 4 sections of GE Basic Skills course work must be completed by students within their first 60 units. All first-time freshmen will have mandatory advisement starting with their initial enrollment at the University and continuing each semester until the completion of Basic Skills.

Course work must be completed as follows:

Students will enroll in the appropriate Writing and Math courses as advised until they complete GE Writing and Math within the first 4 semesters or 60 units, whichever comes first. Students will enroll either simultaneously or within 2 consecutive semesters in GE Oral Communication and GE Writing. Students will enroll in GE Critical Thinking after completing GE Math (within their first 60 units).

1. Students will take the appropriate course in the GE Analytical Reading and Expository Writing (AREW) sequence during their first semester at CSUN. Students will continue to enroll in the appropriate GE AREW course until they have satisfied the GE AREW requirement.
2. Students will take either a GE Math course or a Developmental Math course during their first semester at CSUN. Students will continue to enroll in a developmental or GE Math course each semester until they have satisfied the GE Math requirement.
3. Students will complete course work in GE Critical Thinking after they complete GE Math but still within their first 60 units.
4. Students will complete course work in GE Oral Communication within their first 60 units.

**Analytical Reading and Expository Writing (3 units)**

**Goal:** Students will analyze and reflect on complex topics and appropriately synthesize their own and others' ideas in clearly written, well organized and edited American English.

**Subject Explorations (29 Units)****1. Natural Sciences (8 units)**

Course work in this section must include 2 lecture courses and the 2 laboratories, activities and/or field studies that are connected to the lectures.

**Goal:** Students will develop basic knowledge and learn key principles in the natural sciences, including an understanding of the methods of scientific inquiry through laboratory, activity and/or field-based study.

## 6. Title 5 Requirements In American History and Government (6 Units)

**Goal:** Students will understand and reflect upon (1) United States history, institutions and ideals; (2) the Constitution of the United States; and (3) the principles of state and local government as established in California.

**Requirement (1) in American history, institutions and ideals may be satisfied by completion of 1 of the following:**

|      |     |   |
|------|-----|---|
| CHS  | 245 | History of the Americas (3)                       |
| ECON | 175 | Introduction to U.S. Economic History (3)         |
| HIST | 270 | The United States to 1865 (3)                     |
| HIST | 271 | The United States Since 1865 (3)                  |
| HIST | 370 | Problems in American History to 1865 (3)          |
| HIST | 371 | Problems in American History: 1865 to Present (3) |
| PAS  | 271 | African-American History to 1865 (3)              |
| PAS  | 272 | African-American History Since 1865 (3)           |

**Requirement (2) in the Constitution of the United States and Requirement (3) in state and local government may be satisfied by 1e of the following courses:**

|      |     |  |
|------|-----|--|
| AAS  | 347 | Asian American Legal and Political History (3)           |
| CHS  | 260 | Constitutional Issues and the Chicana/o (3)              |
| CHS  | 445 | History of the Chicana/o (3)                             |
| PAS  | 161 | American Political Institutions: A Black Perspective (3) |
| POLS | 155 | American Political Institutions (3)                      |
| POLS | 355 | American National, State and Local Governments (3)       |
| RS   | 255 | American Political Institutions and Religion (3)         |

**In addition to the courses listed above, requirement (3) may be satisfied by the following:**

|      |     |                                |
|------|-----|--------------------------------|
| POLS | 403 | State and Local Government (3) |
|------|-----|--------------------------------|

**Students transferring to CSUN from outside of California must meet the state and local government requirement:**

|      |       |   |
|------|-------|---|
| POLS | 490CA | Supervised Individual Project—California Government (1) |
|------|-------|---|

*Note: Eligible students may petition to meet requirement (1) by challenge examination in appropriate courses. All students earning Teaching Credentials also must meet the requirement in the Constitution of the United States, whether or not they are in a Degree Program. This requirement may be met by successful completion of any of the courses listed as fulfilling the requirement.*

## Undergraduate Programs, Policies, and Procedures

### Academic Advisement

Academic advising assists students in forming intentional partnerships that connect their needs, values, abilities and goals to CSUN's educational program. Academic advising is an on-going relationship and a collaborative process that will help students identify and reach their academic objectives through investigation and use of a wide variety of campus resources. Academic advising is the shared responsibility of faculty, staff and students. It incorporates the continuum of teaching and learning moments that both stimulate and support students in their quest for an enriched quality of life. These interactions assist students in realizing their academic and professional goals and facilitate timely graduation.

### Academic Standing

Academic standing is defined by the student's GPA. The GPA is calculated by dividing the number of grade points earned in courses that assign letter grades by the number of units attempted. Courses in which grades of CR, NC, I and W are assigned are not used in GPA calculation. A student's academic status takes into account both the cumulative total GPA, which includes course work transferred from other institutions as well as course work taken at CSUN, and the CSUN GPA, which includes only course work taken at CSUN.

The four categories of undergraduate academic status and the regulations pertaining to each are listed below:

- 1. Good Standing:** Students are in good standing at the conclusion of any matriculated term in which they have both a cumulative total GPA and a CSUN GPA of 2.0 or higher. Students in good standing are eligible to enroll in the University through the regular enrollment process. Students can enroll in the maximum number of units determined by the University for the coming semester. To request enrollment in more than the maximum units, students must complete the Extra Unit Authorization form and obtain the appropriate approvals according to the timeline published at [www.csun.edu/anr/soc/academicpolicies.html](http://www.csun.edu/anr/soc/academicpolicies.html).
- 2. Probation:** Students are placed on probation if either their cumulative total GPA or CSUN GPA falls below 2.0 at the conclusion of any term. Students remain on probation until they either regain good standing or are placed in disqualified status. Students on probation are eligible to enroll in the University through the regular enrollment process. However, they receive registration holds and are not able to register for classes until they have received advisement to review progress toward improving academic status. Declared majors on probation will typically receive advisement from the Student Services Center/EOP (SSC/EOP) Satellite in their College. Undecided students will receive advisement in the Advising Resource Center/EOP (ARC/EOP). Students on probation can enroll in a maximum of 13 units in a semester or summer term. To request more than 13 units, students must complete the Extra Unit Authorization form and obtain the signatures of the Director of their College SSC/EOP Satellite and the Director of Undergraduate Studies. Students on probation will be disqualified if either their cumulative total GPA or CSUN GPA falls below the GPA listed for each class level in the chart below under "disqualified status."
- 3. Disqualified Status:** Students who were on probation the previous semester are placed in disqualified status if, at the end of the next semester, either their cumulative total GPA or CSUN GPA falls below the floor listed for each class level in the table below:

| Class Level           | GPA at the Time of Disqualification |
|-----------------------|-------------------------------------|
| Freshman (1-29 units) | 1.50                                |

Sophomore (30-59 units) 1.70

Junior (60-89 units) 1.85

Senior (90-plus units) 1.95

Units of developmental course work are included in determining class level. Students in disqualified status are not eligible to enroll in the University through the regular enrollment process. They can enroll in CSUN courses only through Open University in the Tseng College. Students seeking to enroll in courses should refer to the Tseng College website at <http://tsengcollege.csun.edu/>. Only 24 units of course credit earned in the Tseng College can be counted toward a CSUN Degree. The 24-unit limit includes courses completed in Fall, Winter, Spring and Summer sessions through Tseng College.

Before students in disqualified status can be readmitted under an Academic Performance Agreement (APA), they must demonstrate acquired skills or achievements that support a successful return to the University. Such evidence may include successful completion of courses in the student's Degree Program at another institution or through the Tseng College with grades that demonstrate the student can achieve good standing in a reasonable time frame if readmitted to CSUN. Students are strongly urged to meet with their CSUN academic advisor to discuss the requirements that must be completed in order to be readmitted to the University. When all requirements have been met, students may apply to the University for readmission.

#### 4. Readmitted Under Academic Performance Agreement (APA):

Students who have been academically disqualified, but who are readmitted to the University under terms of probation, are classified as readmitted under an APA. Students who are readmitted under an APA have registration holds and are not able to register for classes until they have received advisement. During advisement, the student and advisor examine the student's progress toward improving academic status and set goals for the next semester. Declared majors typically receive advisement from the SSC/EOP Satellite in their College. Undecided students receive advisement in the ARC/EOP. Students who are readmitted under APA can enroll in a maximum of 13 units in a semester or Summer term. To request additional units, students must complete the Extra Unit Authorization form and obtain the signatures of the Director of their College SSC/EOP Satellite or ARC/EOP for Undecided or Undeclared majors and the Director of Undergraduate Studies.

Students in this status, whether they have 1 or 2 disqualifications, must fulfill all of the following requirements until they reach good standing: 1) earn a minimum 2.0 semester GPA; 2) enroll in classes each semester; and 3) have in place a signed APA that details the academic progress that must be achieved to move the student toward completion of the Baccalaureate Degree within a designated time period.

Students who are readmitted under an APA, but who fail to maintain continuous enrollment in classes each semester or who fail to achieve a 2.0 semester GPA, revert back to disqualified status. They must reapply and be readmitted to the University as a previously disqualified student in order to be eligible to enroll in classes through the regular enrollment process. See section below titled Readmission of Previously Disqualified Students.

Academic disqualification is a permanent notation in a student's academic record and has serious consequences that can impact attainment of a Baccalaureate Degree. The consequences of academic disqualification depend upon whether it is the first, second or third disqualification that the student receives.

## Categories of Disqualification

**First Disqualification:** Any student whose cumulative GPA is below a 1.0 will be disqualified immediately without first being placed on probation. In addition, students who were on probation the previous semester are placed in disqualified status if at the end of the next semester either their cumulative total or CSUN GPA falls below the GPA listed for each class level (See Table under Academic Standing item 3. “Disqualified Status”). Students who receive a first disqualification will not be eligible to enroll at CSUN through the regular enrollment process for at least 1 semester. They will need to apply for readmission as a previously disqualified student by posted deadlines. Disqualified students can enroll in Open University through CSUN’s Tseng College for up to 24 units (including Fall, Winter, Spring and Summer courses), or can take transferable courses at other institutions. In order to gain readmission, students will be expected to demonstrate ability to succeed in university-level classes. For admission deadlines, see [www.csun.edu/anr/AdmissionStatus.html](http://www.csun.edu/anr/AdmissionStatus.html).

**Second Disqualification:** Students who receive a second disqualification are not permitted to continue to enroll in CSUN courses through the regular enrollment process for at least 1 semester. An application for readmission as a previously disqualified student by posted deadlines is required. Students disqualified for a second time can enroll in Open University through CSUN’s Tseng College for up to 24 units (including Fall, Winter, Spring and Summer courses) or can take transferable courses at other institutions. In order to gain readmission, students will be expected to demonstrate ability to succeed in university-level classes. Readmitted students are subject to all of the regulations described above in the section titled “Readmitted Under APA.” Students who fail to earn a minimum 2.0 semester GPA will receive a third disqualification. For admission deadlines, see [www.csun.edu/anr/AdmissionStatus.html](http://www.csun.edu/anr/AdmissionStatus.html).

**Third Disqualification:** Students who receive a third disqualification are not eligible to seek readmission to the University for a minimum of 5 years after the final day of the semester during which they received the third disqualification. Students who have been disqualified 3 times may not retake classes or finish an Incomplete contract for the purpose of raising grades to avoid a third disqualification.

## Readmission of Previously Disqualified Students

Students in disqualified status who are interested in returning to the University for a subsequent semester must reapply to the University.

Students in disqualified status seeking readmission must submit: (1) a formal application for readmission through CSU Mentor ([www.csumentor.edu](http://www.csumentor.edu)); (2) official transcripts of course(s) completed at another college or university during the period in which the student has been in disqualified status; and (3) a Previously Disqualified Student Questionnaire. These documents must be filed in the Office of Admissions and Records by the published deadline before campus review can begin. For admission deadlines, see [www.csun.edu/anr/AdmissionStatus.html](http://www.csun.edu/anr/AdmissionStatus.html).

## Academic Reinstatement to the University after a Third Disqualification

Five years from the final day of the semester during which the student received a third disqualification, the student may reapply to the University during the appropriate application filing period. The student must provide evidence that demonstrates acquired skills or achievements that support a successful return to the University. Reinstated students are readmitted under an APA and are subject to all of the regulations that apply to students in this status. Students who fail to earn a minimum 2.0 semester GPA will receive a final disqualification and will be given no further opportunities for readmission. For admission deadlines, see [www.csun.edu/anr/AdmissionStatus.html](http://www.csun.edu/anr/AdmissionStatus.html).

## Schedule Adjustments

Students are permitted to change their initial enrollment by following the University’s Adjustment of Schedule procedure. Ordinarily, during the first 3 weeks of a semester a student may add, drop or change the basis of grading online in myNorthridge and SOLAR, using permission numbers or later by filing a Late Change in Academic Schedule for Undergraduate Students form. For additional details concerning required approvals and forms, as well as deadlines, consult the current Schedule of Classes Registration Guide at [www.csun.edu/anr/soc/adjsched.html](http://www.csun.edu/anr/soc/adjsched.html) or contact Admissions and Records.

**Adding:** The last day to add a class is the end of the third week of instruction. During the first three weeks of instruction, students may add classes online with the approval of the course instructor using a permission number.

**Dropping:** Students are responsible for attending all courses in which they are registered. During the first 2 weeks of instruction, students may drop courses online without academic penalty and without the course instructor’s approval. Non-attendance does not constitute withdrawal and will result in a failing grade.

**Changing the Basis of Grading:** Changing the basis of grading from regular letter grading to Credit/No Credit or conversely may be accomplished through myNorthridge and SOLAR only during the first 3 weeks of instruction.

**Late Requests for Change in Academic Schedule:** To add or drop classes after the third week of instruction, students must complete the 4th Week Change of Schedule Request. After the fourth week of instruction, students must complete a Late Change in Academic Schedule for Undergraduate Students form to make any changes to their course enrollment. Students can obtain forms and procedural information at the Office of Admissions and Records online at [www.csun.edu/anr/soc/adjsched.html](http://www.csun.edu/anr/soc/adjsched.html).

All late requests for Changes in Academic Schedule must be filed during the semester in which classes are taken. Late changes in academic schedule that have been previously denied will not be reconsidered as retroactive requests after the semester is over.

## Simultaneous Enrollment In Classes

Students may not enroll simultaneously in 2 or more classes meeting during the same time period. Exceptions to this policy will be permitted only if one of the classes does not meet on a regular basis, such as an independent study or internship that permits independent lab work. Students who meet the acceptable criteria must submit a completed Time Conflict Petition form (see [www.csun.edu/anr/forms/](http://www.csun.edu/anr/forms/)) to Admissions and Records no later than Friday of the third week of classes. Petitions will not be considered after the deadline.

## Withdrawals

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the University’s official withdrawal procedures. Failure to follow formal University procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses. Information on canceling registration and withdrawal procedures is available in the Schedule of Classes Registration Guide at [www.csun.edu/anr/soc/academicpolicies.html](http://www.csun.edu/anr/soc/academicpolicies.html) or from Admissions and Records.

Undergraduate students may withdraw from no more than 18 semester units of CSUN courses. This 18 semester unit limit does not apply to the first 20 days of each semester when withdrawals from courses are permitted without academic restriction or penalty. Medical withdrawals, whether partial or complete, do not count toward the maximum 18 units. The maximum of 18 semester units applies only to units completed at CSUN and includes all Baccalaureate-level CSUN

courses, whether the student is matriculated or enrolled through self-support, such as Tseng College Extended Learning.

Students who receive financial aid funds must consult with the Financial Aid and Scholarships Department prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

Reducing the number of enrolled units also may affect your eligibility for campus housing, international student status, financial aid and more. Before adjusting your schedule, consult the appropriate offices as described in Information Regarding Change in Program or Schedule at <http://blogs.csun.edu/ugs/academic-program-changes/>.

**Withdrawals During the First 20 Days of Instruction:** Students wishing to completely withdraw from the University prior to or during the first 20 days of instruction may do so without academic penalty. Students who officially withdraw after classes begin will owe a prorated tuition-fee amount. Any charges or refund amounts will display in student SOLAR accounts approximately 4 to 6 weeks after classes begin. For more information, see <http://www-admn.csun.edu/ucs/> or contact University Cash Services. New and returning students who completely withdraw from the University prior to the 20th day of instruction are not considered continuing students and must reapply to attend any subsequent semester. Those students who are continuing from the previous semester will automatically be placed on a Leave of Absence if they meet the criteria. (See Leave of Absence under Categories of Enrollment for more information.)

**Withdrawals After the 20th day of Instruction:** Students who must withdraw after the 20th day of instruction and prior to the last 3 weeks of instruction for reasons clearly beyond their control, and who can justify serious and compelling circumstances, may withdraw without academic penalty by securing the approval of the instructor and the appropriate campus officials. For further information, see [www.csun.edu/anr/soc/adsched.html](http://www.csun.edu/anr/soc/adsched.html). If approved, the grade of “W” will be assigned for withdrawals after the 20th day of instruction. Students completely withdrawing after the 20th day of instruction will be considered continuing students for the next semester. Under no circumstances does nonattendance nor the stopping of payment of a check constitute a withdrawal from the University.

**Withdrawals During and After the Last 3 Weeks of the Semester:** Withdrawals are not permitted during the final 3 weeks of instruction or thereafter except in cases such as accident or serious illness where the cause of the withdrawal is clearly beyond the student’s control and the assignment of an Incomplete grade is not practical. Ordinarily, it is expected that withdrawals during this period will be complete withdrawals from the University except in circumstances where sufficient work has been completed in 1 or more of the courses to permit an evaluation of course work and an assignment of a grade.

Students may obtain forms and procedural information at [www.csun.edu/anr/soc/adsched.html](http://www.csun.edu/anr/soc/adsched.html) or the Office of Admissions and Records.

Medical withdrawals will not be granted if the student has taken final exams. Petitions requesting retroactive withdrawals beyond 1 year after the conclusion of the semester for which the withdrawal is requested will not be considered.

In cases where medical evidence and the physical demands of a class overwhelmingly support withdrawal from only a portion of a student’s program of study, partial medical withdrawals will be permitted when there is a clear link between the class and the medical condition. Requests solely seeking a reduced course load without specific and focused medical justification do not demonstrate the required link.

In cases of severe illness, students are advised to provide written permission for a representative or, if mentally incapacitated, a student’s legal representative to request a withdrawal on their behalf. Petitions requesting retroactive withdrawals beyond 1 year of the conclusion of the semester for which the withdrawal is requested will not be considered.

### Academic Leave (Leave of Absence)

Undergraduate students in good standing may take a 2-semester leave of absence. Though no formal approval is required, it is suggested that students seek academic advisement. For more information, see section A-3 in Appendices.

### Enrolling in Courses with Prerequisites

Students must fulfill a course’s prerequisite(s) prior to enrollment in the course. For further information, see “Course Requisites” in the Catalog or go to the Schedule of Class Registration Guide at [www.csun.edu/anr/soc/gethelp.html](http://www.csun.edu/anr/soc/gethelp.html).

### Administrative Action on Prerequisites

Although it is the student’s responsibility to drop classes, the University may withdraw a student within the first 3 weeks from a course if he or she fails to meet the prerequisite(s) or other requirements as indicated in the Catalog. These prerequisites may include:

1. Completion of prior course work.
2. Passing of qualifying examinations.
3. Class year standing.
4. Admission to or special requirements of special programs, such as Honors or Credential.
5. Completion of prior course work with a required minimum credit.
6. Consent of instructor.

Such an Administrative Withdrawal may be initiated only by the Associate Dean of the College, upon recommendation from the instructor or the Department Chair.

### Syllabi for all Undergraduate Courses

To better inform students about the requirements, content and methodology of the University’s undergraduate curricula, all faculty teaching undergraduate courses will distribute a written syllabus to each student in the course and/or post it online no later than the second week of classes. The syllabus should contain the following information:

1. Course objective(s).
2. A brief list or summary of topics or projects covered.
3. Course requirements and methods of evaluation.
4. Grading criteria, including whether or not the plus/minus system will be used.
5. Contact information (instructor’s name, office hours, office location and campus phone number).
6. For a General Education course, the syllabus should describe how it meets the currently approved goals of the General Education section in which it resides.
7. For an Upper Division General Education course, the syllabus should include a statement that informs students that the course is an Upper Division General Education course and that it requires completion of writing assignments totaling a minimum of 2,500 words.

### Attendance (Class Attendance)

Students are expected to attend all class meetings. Students who are absent from the first 2 meetings of a class that meets more than once a week or from the first meeting of a class that meets once a week lose the right to remain on the class roll and must formally withdraw from the class, following University procedures and deadlines. Failure to formally withdraw from a class will result in the instructor assigning to the student a grade of "WU" (Unauthorized Withdrawal), which, in computing a student's GPA, counts as a grade of "F."

In a compressed term or session of fewer than 15 weeks, the rule applies if the first class meeting is missed. An instructor may allow a student to continue in the class if the student notified the instructor that the absence would be temporary. If no instructor was assigned to the course in advance, students must notify the Department Chair that their absence from the class will be temporary.

### Missed Classes While Representing the University in Official Curriculum-Related, University-Approved Activities

When representing the University in official curriculum-related, University-approved activities requires a student to miss classes, faculty are expected to provide, within reason, opportunity to make up any work or exams that are missed.

To be eligible for such accommodation, the student is obligated to provide the instructor of the class with written documentation signed by the faculty, staff member or administrator supervising the activity, giving specific information concerning the activity, its location and the dates and times when class attendance is not possible. This documentation must be submitted to the instructor during the first week of the semester or as soon as the information becomes known. Instructors may set limits on the number of classes that may be missed for which special accommodation to make up missed work will be allowed. The process for making up missed class work is the prerogative of the instructor and shall be communicated to the affected students during the first week of classes or as soon as the need for accommodation becomes known.

For the purposes of this policy, if a question arises as to which events meet the definition of official curriculum-related, University-approved activities, the determination shall be made by the Associate Vice President for Undergraduate Studies.

Absence from class for official curriculum-related, University-approved activities does not relieve students from responsibility for any part of the course work required during the period of absence.

University sponsors of these activities have an obligation to respect the importance of regular class attendance for successful academic performance and to minimize the number of such absences. Instructional faculty have an obligation to respect the importance of such student participation and to assist student participants in meeting their academic obligations.

### Grading Systems and Policies

The University uses a combination of the following grading options: A-F letter grading: A, A-, B+, B, B-, C+, C, C-, D+, D, D- and F. Grades A, A-, B+, B, B-, C+, C, C-, D+, D, D- indicate passing grades; F indicates failure. Faculty define the grading criteria for all courses. Any changes in grading policies should be provided in writing to students before such changes are implemented.

### Grading Symbols:

| Grade | Definition              | Points | Dates Used                 |
|-------|-------------------------|--------|----------------------------|
| A     | Outstanding             | 4.0    | 1958-present               |
| A-    |                         | 3.7    | 1987-present               |
| B+    |                         | 3.3    | 1987-present               |
| B     | Very Good               | 3.0    | 1958-present               |
| B-    |                         | 2.7    | 1987-present               |
| C+    |                         | 2.3    | 1987-present               |
| C     | Average                 | 2.0    | 1958-present               |
| C-    |                         | 1.7    | 1987-present               |
| D+    |                         | 1.3    | 1987-present               |
| D     | Barely Passing          | 1.0    | 1958-present               |
| D-    |                         | 0.7    | 1987-present               |
| F     | Failure                 | 0.0    | 1958-present               |
| CR    | Credit                  | 0.0    | 1967-present               |
| NC    | No Credit               | 0.0    | 1973-present               |
| U     | Unauthorized Incomplete | 0.0    | 1977-2002                  |
| AU    | Audit                   | 0.0    | 1958-1987                  |
| RP    | Report in Progress      | 0.0    | 2008-present               |
| SP    | Satisfactory Progress   | 0.0    | 1973-2008                  |
| I     | Incomplete              | 0.0    | 1958-present               |
| IC    | Incomplete Charged      | 0.0    | 2008-present               |
| W     | Withdrawal              | 0.0    | 1958-present               |
| WU    | Unauthorized Withdrawal | 0.0    | 1958-1973,<br>2002-present |

### Credit/No Credit Grading

A grade of CR, indicating passed with credit, is given for work equivalent to C or better for undergraduate students and for work equivalent to B or better for post-Baccalaureate and graduate students. NC, indicating no credit, is given for work equivalent to C-, D+, D, D- or F for undergraduate students and for work equivalent to B-, C+, C, C-, D+, D, D- or F for post-Baccalaureate and graduate students.

Restrictions concerning the nontraditional grading option given undergraduate students can be found under the Credit/No Credit Policy that follows. Post-baccalaureate and graduate students should refer to the Grading System discussion under the Graduate Programs section for further information regarding grading options.

**Credit/No Credit Policy:** Undergraduate students who are not on probation may elect the Credit/No Credit (CR/NC) option for 1 or more courses each term, up to a maximum of 18 units applicable to the Bachelor's Degree. If 18 or more semester credit-graded units are accepted on transfer from other institutions, no additional credit-graded CSUN courses may be used to satisfy Degree requirements. The CR or NC grade will not be considered in the computation of the student's GPA. Courses taken on a CR/NC basis cannot be applied toward the satisfaction of any of the following Degree requirements:

- General Education.
- Title 5.
- The Major, except those courses offered on a CR/NC basis only, subject to Departmental approval. (Note: Additional courses in the discipline of the major beyond those used to satisfy major requirements may not be taken for CR/NC).
- The Minor, except those courses offered on a CR/NC basis only, subject to Departmental approval.

## Grading Symbols, Policies and Assistance

### Administrative Grading Symbols

**Incomplete (I):** The symbol “I” indicates that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen but fully justified reasons, and that a substantial portion of the course requirement has been completed with a passing grade and that there is still a possibility of earning credit. The work that is incomplete normally should be of such a nature that can be completed independently by the student for later evaluation by the instructor. An Incomplete shall not be assigned when a student would be required to attend a major portion of the class when it is next offered.

It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the agreed-upon work has been completed and evaluated. An “I” must normally be made up within 1 calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment.

Students who believe they meet the necessary conditions to be assigned an Incomplete should secure a Request for a Grade of Incomplete form at [www.csun.edu/anr/forms](http://www.csun.edu/anr/forms).

Students should complete the form and submit it in person to the course instructor on or before the day of the final exam. The instructor should check all appropriate boxes in the Instructor Information section of the form and complete the information that describes the assignment(s) to be completed and the due date. If students fail to submit the request by this deadline, they should receive the grade that they have earned for the entire course, including work completed and penalties for work not completed. No retroactive Incomplete grades are permitted. If the request for an Incomplete is granted, the instructor will assign a grade of Incomplete on the SOLAR class grade roster and add an Incomplete contract.

When the required work is completed, the instructor will fill out a Correction of Grade or Removal of Incomplete form and submit it to the Department office.

**Incomplete Charged (IC):** If the Correction of Grade or Removal of Incomplete form is not submitted by the due date, Admissions and Records will automatically change the Incomplete (I) to an Incomplete Charged (IC), which is equivalent to an F. The IC replaces the I and is counted as a failing grade for GPA and progress point computation.

**Report in Progress (RP):** This grade replaces the SP. The RP symbol shall be used in connection with thesis, project and similar courses in which assigned work frequently extends beyond a single academic term and may include enrollment in more than 1 term. The RP symbol shall be replaced with the appropriate final grade within 1 year of its assignment, except for Master’s Thesis enrollment, in which case the time limit will be established by the appropriate campus authority. The President or designee may authorize extension of established time limits.

**Satisfactory Progress (SP):** The symbol SP is used in connection with thesis, project, developmental and similar courses where assigned work frequently extends beyond a single academic term. It indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that the assignment of a precise grade must await completion of additional work. Enrollment for more units of credit than the total number of units that can be applied to the fulfillment of the student’s educational objective is expressly prohibited. Work is to be completed within a stipulated time period.

**Withdrawal (W):** The symbol W indicates that the student was permitted to drop the course after the 20<sup>th</sup> day of instruction with the

approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in the calculation of GPA. (See Change of Program under the Schedule Adjustments section for more information.) Change of Schedule Request Forms are available at [www.csun.edu/anr/forms](http://www.csun.edu/anr/forms).

**Withdrawal Unauthorized (WU):** For purposes of GPA computation, the WU grade is equivalent to an F. The symbol WU indicates that an enrolled student did not officially withdraw from the course and failed to complete course requirements. If a student has stopped attending class without formally withdrawing, an F or WU should be given. For a Credit/No Credit class, the appropriate grade is NC.

**Credit (CR)** is assigned for work equivalent to A, A-, B+, B, B-, C+ or C for undergraduate courses, and to A, A-, B+ or B for post-Baccalaureate and graduate courses. CR grades are not included in the calculation of GPA. (GE and Title 5 courses may not be taken for CR/NC. They must be taken for a grade.)

**No Credit (NC)** is assigned for work equivalent to C-, D+, D, D- or F for undergraduate courses, and to B-, C+, C, C-, D+, D, D- or F for post-Baccalaureate and graduate courses. NC grades are not included in the calculation of GPA. (GE and Title 5 courses may not be taken for CR/NC. They must be taken for a grade.)

### Repeating Courses (Grade Forgiveness)

The University recognizes that undergraduate students may need to repeat 1 or more courses in order to fulfill Degree requirements and/or enhance previously acquired skills. However, students should seek academic advisement before deciding to repeat any course. Students should be aware that other institutions (e.g., medical schools, graduate programs, law schools) might not recognize this repeat policy and will use the forgiven grades in recalculating GPAs. The following rules apply:

1. A maximum of 16 semester units of CSUN course work in which a student earned less than a C grade may be repeated for the purpose of excluding grades (grade forgiveness) from the computation of the student’s overall GPA. Only the first 16 semester units are eligible for grade forgiveness.
2. An additional 12 semester units of course work may be repeated for grade averaging—both the original grade and the repeat(s) will be calculated into the student’s total GPA.
3. Students cannot improve grades of courses taken at CSUN by repeating them at another institution. Students cannot improve grades of courses taken at another institution by repeating them at CSUN.
4. The stated limits (16 units for grade forgiveness and 12 units for grade averaging) apply only to units completed at CSUN. The limits apply to all courses taken at CSUN, whether a student is matriculated or enrolled through self-support, such as Extended Learning.
5. Registration in repeated courses may be limited to certain registration periods. Check the Schedule of Classes Registration Guide website for the allowed dates at [www.csun.edu/anr/soc/academicpolicies.html](http://www.csun.edu/anr/soc/academicpolicies.html).
6. Undergraduate students may take an individual course no more than 3 times. Only 1 repeat per course is permitted for improving the grade, with the higher of the 2 grades counted in the student’s GPA. If a student enrolls in a course for a third time, the units attempted and any grade points earned will be averaged with all other grades earned for the course (except ones that were awarded grade forgiveness). On the third enrollment in a course, permission of the Associate Dean of the College of the student’s major (or the Director of Undergraduate Studies if the student is Undecided) is necessary.
7. Subsequent enrollment must be on the same basis of grading as the first.
8. Grade forgiveness is not permitted for courses for which the original grade was the result of a finding of academic dishonesty.

9. This policy does not pertain to repeats in such courses as music ensembles and independent study where the curriculum allows, permits or requires repeats.
10. This policy applies only to Baccalaureate units, i.e., those that count toward the Degree.

## Majors and Minors

### Maximum Number of Majors and Minors

A maximum of up to 2 majors and up to 2 minors is permitted, provided all work can be completed within 140 units. A major and an honors major in the same program are considered to be a single major. Exceptions to the 140-unit completion rule can be made for CSUN Bachelor's Degrees that require more than 120 units to complete. Students who receive an exception must be able to complete the second major and any additional minors within 20 units beyond the number of units required for the Bachelor's Degree in their first major. See table below for procedures related to majors, minors and options.

### Declaring a Major

Students who start at CSUN must declare a major by the completion of 60 units. Students who are currently Undecided or Undeclared and wish to declare a major must have the major approved by the Department Chair of the new major. Transfer students must declare a major in their transfer application. Students who have earned 60 units and have not declared a major will have a registration hold placed on their ability to register for the following semester's courses. These students will not be able to register for courses until they declare a major.

*Note: Courses numbered below the 100-level do not count toward the 60 units. Advanced Placement (high school) units do count toward the 60 units.*

### Adding a Second Major

Students can add a second major (double major) only if they can complete both majors within 140 units. Students may not add a second major after completing the requirements for their first major. Student requests to add a second major must be approved by the Department Chairs of the existing major and the second major. If the student seeking to add a major has 90 or more earned units, the request also must be approved by the Associate Dean of the new major. All requests to add a second major must be accompanied by a plan demonstrating that the additional major can be completed within 140 units. When a student completes 2 majors, both majors will be recorded on the diploma. Courses taken to satisfy the requirements for 1 major may be double counted if they satisfy requirements in the second major.

## Changing Major or Option

Students seeking to change majors/options must be able to complete the new major/option within 140 units. Student requests to change a major/option must be approved by the Department Chair of the new major/option. If the student has 90 or more earned units, the request also must be approved by the Associate Dean of the new major/option. Requests to change majors or options must be accompanied by a plan demonstrating that the new major/option can be completed within 140 units.

### Adding a Minor

Students can add a minor only if they can complete both their major and the minor within 140 units. Student requests to add a minor must be approved by the Department Chair of the new minor. If the student has 90 or more earned units, the request also must be approved by the Associate Dean of the new minor. Requests to add a minor must be accompanied by a plan demonstrating that the minor can be completed within 140 units. When a student completes a minor, the major and minor will be recorded on the diploma.

### Changing a Minor

Students may drop their current minor at any time. They may add a new minor as long as they satisfy the policies and procedures for adding a new minor.

### Transfer Units

When computing the earned unit limits on adding majors and minors, a maximum of 70 community college transfer earned units or a maximum of 90 four-year college/community college combination transfer earned units will be counted.

### Appeals Process

Students who wish to appeal this policy or a related decision can apply to a Majors/Minors Appeals Board composed of an Associate Dean, a representative of Undergraduate Studies, the AS President or designee and 2 faculty members selected by the Faculty President. For example, students who cannot complete their current major because of an inability to complete/pass a requirement may file a request with the Majors/Minors Appeals Board to change majors even though they may need to exceed the 140-unit limit to complete their new major.

### Earning a Major and Minor or More than One Minor from the Same Department

Students may earn a major and a minor from the same Department, or more than one minor if the major and minor(s) are associated with different academic Degree Programs. Note that different options in

| Procedures for Adding or Changing Majors, Minors and Options |   |  |
|--|---|--|
|  | Student has < 90 earned units   | Student has ≥ 90 earned units  |
| Add second major:  | Approval by Department Chairs of both majors. Must complete within 140 units.     | Approval by Department Chairs of both majors and Associate Dean of second major. Must complete within 140 units.         |
| Changing major/option:                                       | Approval by Department Chair of new major/option. Must complete within 140 units. | Approval by Department Chair of new major/option and Associate Dean of new major/option. Must complete within 140 units. |
| Dropping second major:                                       | Approval by Department Chair of second major.                                     | Approval by Department Chair of second major.  |
| Adding a first or second minor:                              | Approval by Department Chair of new minor. Must complete within 140 units.        | Approval by Department Chair of new minor. Must complete within 140 units.   |
| Changing a minor:  | Approval by Department Chair of new minor. Must complete within 140 units.        | Approval by Department Chair of new minor. Must complete within 140 units.   |
| Dropping a minor:  | No approval required.   | No approval required.  |

the same Degree Program are not considered different academic degree programs for this policy.

### Final Examination Policy

In lecture courses, no final examination may be scheduled by an instructor prior to the regularly scheduled time. Any student who finds it impossible to take a final examination on the date scheduled must make arrangements in advance with the instructor either to take the examination at another time prior to the deadline for reporting grades, or request that a grade of Incomplete be assigned and then follow the regulations concerning the removal of the Incomplete. No exceptions will be made to these regulations without the written approval of the instructor, the Department Chair and the Dean of the College in which the course is offered.

### Dean's List

Students who carry a minimum of 12 graded semester units (CR/NC courses do not apply) and who achieve a GPA of 3.5 or better are awarded Dean's List standing for that semester.

Students whose minimum unit load includes courses from the Tseng College may apply for Dean's List standing if the Extension courses are required for the student's major and if the Tseng College courses are taught by members of CSUN's faculty. If a grade change brings a student's GPA up to 3.5, the student may apply at Admissions and Records to have the honor awarded retroactively.

Students working on second undergraduate degrees or graduate degrees are not eligible for Dean's List awards.

### Honors at Graduation

To receive honors at graduation, a student must:

1. Complete a minimum of 45 units of work in letter-graded courses at CSUN;
2. Earn a GPA of 3.50 or above in all work taken at CSUN;
3. Earn the following GPA in all undergraduate courses, including transfer work:

|                 |                      |
|-----------------|----------------------|
| Summa Cum Laude | GPA of 3.90 or above |
| Magna Cum Laude | GPA of 3.75 to 3.89  |
| Cum Laude       | GPA of 3.50 to 3.74  |

For questions about Honors at Graduation, visit the Office of Admissions and Records Graduation Evaluations in BH 150 or call (818) 677-3781.

### Bachelor's Degree Requirements

To graduate from CSUN, students must complete all of the following requirements:

1. The applicable General Education program, which includes Title 5 requirements in American History and U.S. State and Local Government.
2. The requirements for a major.
3. Writing Skills Requirements as listed below:

**Lower Division Requirement:** The University requires of all students a 3-unit Lower Division course in composition. Students must complete the Lower Division writing requirement no later than the semester in which 45 units are completed. Transfer students with more than 35 units who have not completed the Lower Division writing requirement must do so within the first semester of residence. Students may meet this requirement by:

- a. Completing one course from AAS 115, AAS 155, CAS 115, CAS 155, CHS 115, CHS 155, ENGL 115, ENGL 155, PAS 115 or PAS 155; or an equivalent course at an accredited community or 4-year college; or completing 1 of the following 2-semester course sequences: AAS 113A/113B or 114A/114B, CAS 113A/113B or 114A/114B, CHS 113A/113B or 114A/114B, ENGL 113A/113B or 114A/114B, PAS 113A/113B or 114A/114B.

- b. Receiving a satisfactory score on the English Equivalency Examination, the Advanced Placement Test in English Language or the Advanced Placement Test in English Literature.

Completion of this requirement fulfills a portion of the Basic Skills Section of the General Education Program. *Note: Completion of the Lower Division writing requirement is a prerequisite for all Upper Division General Education courses.*

**Upper Division Requirement:** The University has implemented the Trustee Policy for the Writing Skills Graduation Requirement for all Upper Division students who will graduate in Spring 1982 or thereafter in the following manner:

- a. Students who have completed 56 units and have met the Lower Division writing requirement will be required to take an essay examination.
  - b. Undergraduate students are encouraged to take the Upper Division Writing Proficiency Examination (UDWPE) as early as possible after condition "a" above has been met, but must take the UDWPE no later than the semester in which 75 units are completed. Students who have not taken the UDWPE by the completion of 75 units will have an advisement hold placed on their subsequent registration(s).
  - c. Students who fail the exam will be permitted to repeat the examination. Students are strongly urged to make an appointment with a writing consultant at the Learning Resource Center by calling (818) 677-2033. This service is offered at no cost to students. Consultations may be available during the Summer (from June to August) on a limited basis.
  - d. The examination will consist of an essay on an assigned topic evaluated by s faculty.
  - e. The criteria of evaluation will include: (1) a demonstration of analytic skills; (2) use of relevant evidence to support an argument; (3) effective organization; and (4) use of standard English grammar, diction and mechanics.
  - f. Administrations of the examination will be announced on the Testing Center website ([www.csun.edu/testing/upper/](http://www.csun.edu/testing/upper/)), as well as in other official University publications.
  - g. The examination will be scheduled at least 5 times within an academic year.
  - h. Registration may be completed at University Cash Services, Bayramian Hall, first floor. Online registration and payment also is available. See [www.csun.edu/testing/upper/](http://www.csun.edu/testing/upper/) for registration information.
  - i. Certification of graduation writing competence will be transferable from one CSU campus to another. However, students must pass the UDWPE at the campus at which they are enrolled.
4. Grade Point Average Requirement. Each student will complete with a GPA of 2.0 (grade "C" on a 4-point scale) or better:
    - a. All units attempted, including those accepted by transfer from other institutions;
    - b. All Upper Division units required in the major;
    - c. All Upper Division units required in the minor (if student chooses to declare a minor); and
    - d. All units attempted at CSUN.
  5. Residency Requirement. Completion of 30 units in residence at CSUN in the following distributions:
    - a. 24 of the 30 units must be completed in Upper Division;
    - b. 12 of the 30 units must be in the major; and

- c. 9 of the 30 units must be in General Education.  
*Note: CSUN course work taken in Open University is considered in residence, with a maximum of 24 special session units.*
6. Total Unit Minimums and Distribution:
- B.A. Degree: 120 units, 40 of which must be Upper Division units
  - B.S. Degree: 120 units, 36–47 of which must be Upper Division units
  - B.M. Degree: 132 units, 40 of which must be Upper Division units
  - All Bachelor's Degrees: At least 9 units must be Upper Division General Education units
7. Formal approval by the faculty of the University. Application for Graduation, Graduation Evaluation and Diploma: Undergraduate students must file an Application for Bachelor's Degree and Diploma (approved by the major Department) with the Office of Admissions and Records before they can be officially evaluated for graduation.

### Applying for Your Bachelor's Degree

Your application for the Bachelor's Degree and Diploma initiates the graduation process, participation in Commencement and receipt of your diploma.

You may apply for graduation once you have completed 90 units (including work-in-progress). There are three official graduation dates each calendar year—the final day of the Fall semester, the final day of the Spring semester and the final day of the Summer term.

Follow these steps:

- Once you have completed 90 units of course work, print and complete the Application for Bachelor's Degree and Diploma form located at [www.csun.edu/anr/forms/applba.pdf](http://www.csun.edu/anr/forms/applba.pdf).
- Access My Academic Planner (MAP) through the myNorthridge Portal. Use your MAP to plan your remaining course work in future terms. Print a copy of your completed My Academic Planner (MAP). You may view the My Academic Planner guide located at [www.csun.edu/anr/soc/guides/map.html](http://www.csun.edu/anr/soc/guides/map.html).
- Schedule an appointment with a major advisor. Bring your completed MAP and Application for Bachelor's Degree and Diploma to your advising session to discuss the major curriculum, major Catalog year and your anticipated graduation date (3 official graduation dates—Fall, Spring or Summer). If you plan to graduate with a second major and/or minor, include the additional major and/or minor and the Catalog year on the application. Secure the advisor's signatures for the major, second major and/or minor on the application.
- Submit your completed Application for Bachelor's Degree and Diploma, a copy of your MAP, a Department evaluation (for Journalism majors only) and the appropriate fee to Admissions and Records at the Student Services Center in Bayramian Hall.  
*Important Note: Applying after the filing period deadline may delay receipt of your graduation evaluation and your graduating senior status priority registration appointment time. Commencement participation could be affected.*
- The Undergraduate Degree Services Office will notify you via email when your graduation evaluation is complete. A copy of your graduation evaluation will be available online through the myNorthridge Portal. The graduation evaluation reflects units applicable toward Degree requirements only. Therefore, the units listed on the graduation evaluation may be lower than the cumulative units reflected on other CSUN documents. If you have any questions about your

graduation evaluation, contact your major and/or minor advisor or the Undergraduate Degree Services Office at (818) 677-3781.

*Note: At least 1 semester of work must be completed in residence at CSUN before our office can complete a graduation evaluation.*

6. You will be invited to the commencement ceremony for the academic year in which you graduate. If you decide to participate in the annual commencement ceremony, follow the instructions in the Commencement Handbook. Information about the ceremony can be found at the Commencement website at [www.csun.edu/commencement/](http://www.csun.edu/commencement/).

*Note: Participation in the ceremony does not mean that you have officially graduated from CSUN. All Degree requirements must be completed before a Degree is awarded.*

If you do not complete your final requirements by the end of your anticipated graduation date, you will need to change your graduation date to the semester of actual completion and submit a Bachelor's Degree Date Change form to the Undergraduate Degree Services Office located in Bayramian Hall, room 150.

7. Your diploma and letter of congratulations will be mailed to you 3 to 6 weeks after your official graduation is posted. There are 3 official graduation dates each calendar year—the final day of the Fall semester, the final day of the Spring semester and the final day of the Summer term. These are the only dates on CSUN diplomas.

### Administrative Graduation Policy

Upon review by the Office of Undergraduate Studies, students who accumulate more than 140 earned units may be graduated administratively if they have completed any major, whether or not they have declared that major. Enrollment beyond the 140 units will be restricted to courses required to graduate in the major for which the student has accomplished the highest percentage of requirements.

### Grade Correction Procedures for the Semester of Graduation

See Grade Correction Procedure in Appendix E-5 for deadlines and procedures.

# STUDENT SERVICES

## Student Services

### Office of the Vice President for Student Affairs

Vice President for Student Affairs and Dean of Students: **William Watkins**

University Hall (UN) 310

(818) 677-2391

[www.csun.edu/studentaffairs](http://www.csun.edu/studentaffairs)

The Office of the Vice President for Student Affairs is responsible for the overall quality of student life at CSUN. The Vice President and his staff provide coordination and direction to the Division of Student Affairs and work closely with other components of the University to ensure that programs, services, policies and procedures foster the development of students and the achievement of their academic and career goals.

The office is responsible for the coordination of Freshman and Honors Convocations and University Commencement Exercises. Matters related to student conduct and academic integrity also fall within the purview of the Vice President for Student Affairs.

Departments within the Division of Student Affairs include the Career Center, Student Housing and Conference Services, Student Development and International Programs, Student Health Center, Disability Resources and Educational Services, Student Outreach and Recruitment, University Counseling Services, the National Center on Deafness and Financial Aid.

The Office of the Vice President for Student Affairs also provides administrative oversight to the University Student Union/Student Recreation Center and the Associated Students. All students, particularly those unaware of which University office or resource would best be able to aid them with their problems or concerns, are welcome to visit the office for appropriate referral and advisement.

#### Associated Students

University Student Union (USU) 100

General Manager: **David Crandall**

(818) 677-2477

Fax: (818) 677-3869

Email: [david.crandall@csun.edu](mailto:david.crandall@csun.edu)

[www.csunas.org](http://www.csunas.org)

The Associated Students is the primary advocate for students at CSUN and provides excellent, meaningful programs and services designed to create and enhance a spirited, learning-focused campus environment. All registered students are members of the Associated Students of CSUN. This incorporated campus entity is governed by elected student leaders including a President, Vice President and a 22-member Senate. The Senate sets policy, governs financial matters, provides student service programs, provides input on University policies and recommends students to serve on University advisory boards. All students are assessed a semester-based fee that generates revenue to support more than 200 clubs and organizations, leadership programs, Intercollegiate Athletics and Financial Aid. Associated Students provides a Ticket Office, Recreation Sports, the Children's Center, the Campus Recycling Program, student health insurance and a wide variety of cultural programs, concerts, films and speakers.

#### Disability Resources and Educational Services

Director: **Jodi Johnson**

Bayramian Hall (BH) 110

(818) 677-2684

Fax: (818) 677-4932

[www.csun.edu/dres](http://www.csun.edu/dres)

Disability Resources and Educational Services provides a variety of support services to empower students, foster independence, promote achievement of realistic career and educational goals and assist students to discover, develop and demonstrate their full potential and abilities. The department provides academic support under federal and state regulations to ensure full access to programs and activities at CSUN. These services include:

- Disability management advisement and referrals to on-campus and off-campus resources;
- Note-taker services;
- Alternative testing accommodations;
- Alternative media services such as providing electronic text, Braille and large-print materials not available through other sources;
- Transition services and academic coaching ;
- On-campus access assistance;
- Assistive technology training services; and
- Job placement services through a California Department of Rehabilitation Workability IV grant.

Students who wish to utilize services and obtain academic accommodations must register with Disability Resources and Educational Services.

#### Career Center

Director: **Ann Morey**

University Hall (UN) 105

(818) 677-2878

[www.csun.edu/career](http://www.csun.edu/career)

The Career Center helps students to explore majors and careers; make informed choices; clarify life and career goals; and prepare for the transition from graduation to employment or graduate school. We assist students in finding a direction for their studies by connecting academic and career plans.

At the Career Center, students learn to identify their strengths, interests, traits, and values; investigate their options; practice career skills; and prepare for the job search. Our services and programs engage students in experiential and reflective activities; research; seminars; peer mentoring; work-based learning opportunities; and counseling. The Career Library contains resources on self-discovery; choosing majors; goal setting; careers and industries; trends; salaries; and job search skills.

The Career Center's active website features upcoming career events, news and the link to the Pathways website. Through Pathways, students can explore the relationship between self-knowledge, majors and occupations; find internship and career resources; and make choices. Students learn how to be successful at career planning through how-to video workshops, learning from peers and experts, and interactive online activities. Students also can access our online career services powered by NACElink to find current jobs and internships, on-campus and work study jobs, on-campus interviews and company information sessions. The Resume Builder and Interview Stream modules help students create and upload resumes and cover letters, and practice interviewing using a webcam.

Services are provided at no charge to currently enrolled CSU students. Fees are charged to students enrolled through Tseng College, CSUN alumni and graduates from accredited 4-year universities. Online job search services are free to CSUN graduates who join the Alumni Association.

### Children's Center

**Director: Sandy Abrams**  
**18343 Plummer St.**  
**(818) 677-2012**

**www.csunas.org/childrenscenter**

#### Department of Social Service License #191290363

Under the joint sponsorship of the University and Associated Students, the Children's Center provides early childhood education and care for the children of students formally admitted and currently enrolled at CSUN. The Children's Center has the capacity to care for 140 children (ages 18 months to 5 years) during the hours of 7:30 a.m.-5:30 p.m. Monday-Friday. Because the Children's Center is a state campus child development center, some subsidized (free or low cost) openings may be available. Also, there is subsidized care for low-income student parents days, evenings, weekends and holidays with children age 3 months to 12 years in our network of family child care homes. Applications are available at the Center or on the website.

### Intercollegiate Athletics

**Director of Athletics: Rick Mazzuto**  
**Intercollegiate Athletics Building (IA)**  
**(818) 677-3208**  
**www.GoMatadors.com**

The University offers a broad program of competitive sports for both male and female student athletes. Teams compete at the NCAA Division I level, with most sports competing in the Big West Conference. For more information, consult the Intercollegiate Athletics section.

### National Center on Deafness (NCOD)

**Director: Dr. Roz Rosen**  
**Jeanne M. Chisholm Hall (JC)**  
**(818) 677-2611; VP: (818) 435-8344**  
**Email: ncod@csun.edu**  
**Website: www.csun.edu/ncod**

Since 1962, the National Center on Deafness has served students who are Deaf and hard of hearing at the University level. NCOD, internationally recognized for its programs, provides innovative orientation programs, direct communication (sign) classes, full communication access, interpreting, captioning, note taking, tutoring and academic advisement to students who are Deaf or hard of hearing. Each semester, approximately 180 students who are Deaf and hard of hearing have access to University classes, functions and student-sponsored co-curricular activities, including the Deaf CSUNians club and other student leadership programs. Student assistantship opportunities also are available. To receive services and accommodations through NCOD, students must register with the office.

Under a cooperative agreement with the U.S. Department of Education, NCOD, through PEPNet 2.0 ([www.pepnet.org](http://www.pepnet.org)), offers technical advice and training on how to provide quality services to postsecondary programs serving students who are Deaf or hard of hearing nationwide. DeafNCOD also operates a library and resource center with an extensive collection of publications and media pertaining to the Deaf community. NCOD also provides in-service training for service providers through its monthly seminars and Summer Institute.

### Department of Police Services

**Location:** 9222 Darby Ave., at the corner of Darby and Prairie, west of the B3 parking structure.

**Emergency:** DIAL 911 from campus phones or (818) 677-2111 from cell phones.

**24-hour Dispatch Center (non-emergency):** (818) 677-2111

**General Information/Receptionist:** (818) 677-2266

**Administration Office:** (818) 677-2201

**Crime Prevention and Community Relations:** (818) 677-7922

**Livescan Fingerprinting and Notary Service:** (818) 677-2113

**Parking and Transportation Services Division:** (818) 677-2157

**Personal Safety Escort Service/Matador Patrol:** (818) 677-5042

or (818) 677-5048

#### www-admn.csun.edu/publicsafety

Personal safety escorts are available Monday through Thursday from dusk until 11 p.m. during the Fall and Spring semesters, excluding campus breaks and holidays.

### Police Department

The University Police Department provides law-enforcement services to the University community, and is open 24 hours a day/seven days a week. All reports of criminal activity, fire, injury or hazards should be reported to the department immediately. The Department is staffed with sworn peace officers that have full police powers and are trained and equipped to handle emergencies on the campus. All state laws, codes and regulations are enforced on the campus. In addition, the Department is the answering point for the 911 system on campus. Dialing 911 on any campus phone, pay phone or residence phone places you in contact with the Department, which has the capability of summoning the appropriate aid to help you. The Police Department provides many programs and services to reduce the risk of becoming a victim of crime.

### Parking Services

**Police Services Building:** 9222 Darby Ave., at the corner of Darby and Prairie, west of the B3 parking structure.

**(818) 677-2157**

**Transportation Programs:** (818) 677-3946

**Website:** <http://www-admn.csun.edu/parking>

**Hours:** Monday–Friday, 8 a.m-5 p.m.

Closed Saturdays, Sundays and University holidays.

Bus and Metrolink passes and schedules, shuttle information, and emergency transportation program information.

Parking, Traffic and Vehicle Regulations: Parking Services is responsible for the day-to-day operations of the campus parking facilities. Parking Services requires all vehicles that park on campus to display a valid permit. Students must obtain the appropriate parking permit before parking in a designated "Student" parking lot. For your convenience, you may also utilize parking meters. Keep in mind that permits are not valid at parking meters. Parking meters on campus accept nickels, dimes and quarters. One-day parking permits also are available. These may be purchased from the dispensers found on the lots and accept credit cards. Daily permits also can be purchased with cash only at any one of the 3 Information Booths on campus. Semester and academic year permits must be affixed to the vehicle front inside windshield, lower corner, passenger side. The permits are easily removed and are repositionable. To be considered valid, all permits must be completely visible, including any serial numbers and security features.

It is strongly recommended that during the first week of the semester, students arrive on campus up to an hour before their first class since parking near the academic core is limited. A summary of the campus parking rules and regulations may be obtained at the campus information booths, at the Parking Services office or online at [www-admn.csun.edu/parking](http://www-admn.csun.edu/parking).

### Student Recreation Center

**Interim Associate Director: Jimmy Francis**

18111 Nordhoff St.

Located east of the Plaza del Sol, University Student Union

(818) 677-5434

<http://src.csun.edu>

#### SRC:

The Student Recreation Center (SRC) is a 138,000-square-foot facility for exercise and leisure activities that promotes lifelong health and wellness. Designed as a LEED (Leadership in Energy and Environmental Design) gold-certified facility, the SRC houses the most up-to-date equipment and a friendly and welcoming staff that includes 150 students with school spirit.

The SRC features state-of-the-art weight and fitness zones, a rock wall, a 3-court gymnasium, a multi-activity court, fitness and group exercise studios, a racquetball court, an indoor track and recreational/lap swimming pool, as well as sport clubs and outdoor equipment rental and programs.

### Student Development and International Programs

**Department Director: Tom Piernik**

(818) 677-2393

[www.csun.edu/sdip](http://www.csun.edu/sdip)

The Office of Student Development and International Programs (SDIP) promotes the development of individual students, enabling them to pursue a challenging variety of roles and leadership opportunities, function in a wide range of environments and appreciate the great diversity of individual differences while pursuing their academic goals. We prepare students for an international, multicultural society and promote an understanding and appreciation of the peoples, natural environments, cultures, economies and diversity of the world.

#### Student Development Office:

**Assistant Director: Christopher Aston**

Located in the University Student Union (USU) directly across (south) from “The Freudian Sip”

The Student Development Office is responsible for the new student orientation programs, 8 college commencement ceremonies and the honors convocation, freshman convocation and the DIG LA program (a program that links classroom learning to cultural, theatrical and experiential learning in the Los Angeles community).

**New student orientation: (818) 677-4100, [www.csun.edu/nso](http://www.csun.edu/nso)**

**Freshman convocation: (818) 677-4100, [www.csun.edu/nso/convocation](http://www.csun.edu/nso/convocation)**

**Commencement: (818) 677-2393, [www.csun.edu/commencement](http://www.csun.edu/commencement)**

### Matador Involvement Center (MIC)

**Assistant Director: Vicki Allen**

Located in the USU directly behind (north) of “The Freudian Sip”  
(818) 677-5111

[www.csun.edu/getinvolved](http://www.csun.edu/getinvolved)

The MIC is responsible for dynamic co-curricular programs that allow students to find their place at CSUN. The office supports more than 300 clubs and organizations, including more than 50 Greek organizations. Services include campus time, place and manner requests and processing, club and organization advising and program support, Greek life advising and program support, student volunteer programs and club sport advisement. Numerous opportunities for community volunteering, as well as other leadership options, can be found in the Unified We Serve Volunteer program, including the President’s Volunteer service Award.

Clubs and Organizations: [www.csun.edu/getinvolved/clubs/](http://www.csun.edu/getinvolved/clubs/)

Greek life: [www.csun.edu/getinvolved/fraternity/](http://www.csun.edu/getinvolved/fraternity/)

Volunteer programs: [www.csun.edu/getinvolved/community/](http://www.csun.edu/getinvolved/community/)

### International and Exchange Student Center (IESC)

**Assistant Director: Dr. Marta Lopez**

(818) 677-3053

[www.csun.edu/international](http://www.csun.edu/international)

The IESC provides approximately 2,500 international students with immigration advisement and provides cross-cultural programming to positively underscore important issues of diversity. In addition, IESC provides services to the study abroad and exchange programs through allowing students the opportunity to explore another country and/or another institution within the United States.

### Klotz Student Health Center

**Location: South of the University Student Union (USU), West of Parking Lot G3.**

[www.csun.edu/studenthealthcenter](http://www.csun.edu/studenthealthcenter)

#### Appointments:

**(818) 677-3666, Option 1**

**Optometry Clinic: (818) 677-7250**

**Dental Clinic: (818) 677-3695**

**Online: [myhealth.csun.edu](http://myhealth.csun.edu)**

**Pharmacy: (818) 677-3671**

**Klotz Center Web Portal for Online Appointments, Online Forms and Secure Messaging: [myhealth.csun.edu](http://myhealth.csun.edu)**

#### Hours of Service:

**Monday, Tuesday and Wednesday, 8 a.m.-5 p.m.**

**Appointments and Urgent Care: Thursday, 9 a.m.-5 p.m.**

**Urgent Care: Friday, 9 a.m.-5 p.m.**

The Klotz Student Health Center (SHC) is dedicated to providing the highest quality health care to CSUN students and to the University Community. SHC services and educational programs are designed to help students maintain and improve their health and wellness so they can better achieve their academic and professional goals.

All SHC services are provided to currently matriculated students at little or no cost. Basic primary care provided by nurses, physicians and nurse practitioners is free. X-rays, lab tests performed in the SHC laboratory, health education, men’s and women’s specialists, nutrition counseling, podiatry, sports medicine, substance-use counseling/referral and smoking cessation counseling also are offered for free. For a nominal charge, the SHC also provides acupuncture, chiropractic, dentistry, dermatology, specialty gynecology, massage therapy, optometry, orthopedics, physical therapy, and travel and immunization services, as well as a full-service pharmacy for prescription and over-the-counter medications.

**Treatment of Minors:** CSUN students under the age of 18 must have a signed Consent for Medical Treatment of Minors prior to receipt of services. This form can be obtained at the Klotz Student Health Center or from the website. This requirement does not apply to emancipated minors who can document their status.

**After-Hours Nurse Triage:** After hours, evenings, weekends and University holidays, a free telephone nurse service (Fonemed) contracted by the Klotz Student Health Center can answer medical questions or direct currently enrolled students to open health-care resources at their own cost. (This service cannot make or cancel appointments with the Student Health Center, review immunization requirements, clear registration holds or address any non-medical questions, such as CSUN academic policies and procedures.) To reach Fonemed, call (877) 678-3999.

The Klotz Student Health Center does not have an emergency room.

**For Emergency Care, please dial 911.** Treatment at a hospital emergency room would be at the student’s expense. 24-hour emergency care on a fee-for-service basis is available at:

**Northridge Hospital, (approximately 2 miles from campus)**

18300 Roscoe Blvd.  
Northridge, CA  
(818) 885-8500

**Olive View Medical Center (L.A. County)**

14445 Olive View Dr., Suite 2B182  
Sylmar, CA  
(818) 364-1555

**Immunization Requirements**

As per the CSU Chancellor's Executive Order 803, immunization for or immunity to Measles/Rubella is required for all students born after Jan. 1, 1957, and immunization for or immunity to Hepatitis B is required for all first-time CSU freshmen age 18 or younger.

The requirement for verification/immunization for Measles/Rubella must be fulfilled by the end of a student's first semester. The Hepatitis B vaccine is given in a series of 3 shots and takes 6 months to complete. Verification of Hepatitis B immunity or Hepatitis B immunization must be completed before the end of a student's second semester. Students will be unable to register for classes until these requirements are met.

Students enrolled in a California public school for the 7<sup>th</sup> grade or above after July 1, 1999, will be considered to have satisfied these requirements. All other students must bring written proof of immunization from a school transcript or a licensed health-care provider, such as a doctor or clinic, to the Klotz Student Health Center. If a student does not have written proof, he or she can obtain a blood test to prove immunity at the health center at low cost or receive the required immunization(s) at the SHC. Students who decline vaccinations for religious, personal or medical reasons must sign a waiver that may require the student's exclusion from class in case of an epidemic.

**Meningococcal Vaccine**

College students (especially freshmen living in student housing) are at an increased risk for meningococcal disease. The federal Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices recommends that college students understand the risks of meningococcal disease and the benefits of immunization. Students are encouraged to visit the SHC website for more detailed information about meningitis and to strongly consider getting the vaccinated. The vaccine is offered at cost at the Klotz Student Health Center.

**Student Health Insurance**

Students not covered by an individual, family, employer or other health insurance plan are strongly advised to purchase health insurance that will cover the costs of services beyond the scope of the Klotz Student Health Center (such as emergency services, hospitalization, maternity care and surgery). A low-cost health insurance plan, sponsored by Associated Students, is available for CSUN students to purchase. For more information and an application, visit [www.csuhealthlink.com](http://www.csuhealthlink.com)

The Klotz Student Health Center is accredited by the Accreditation Association for Ambulatory Health Care, Inc. (AAAHC).

**Student Housing**

**Director: Tim Trevan ([housing@csun.edu](mailto:housing@csun.edu))**

**Pacific Willow Hall (Bldg. 6), 17950 Lassen St.**

**(818) 677-2160**

**<http://housing.csun.edu>**

"Success Lives Here"—that's the motto of Student Housing at CSUN as our residents take advantage of the tools, resources and relationships that make the most of their college careers. CSUN resident students enjoy the independence of living on campus combined with the benefits of a diverse, learning-centered residence hall community. Student housing amenities include:

- Gated complexes.
- Key card security.
- Ethernet and Wireless Internet (University Park).
- Recreation facilities, including a basketball court, volleyball court and 3 swimming pools.
- Patrols by University Police.
- Easy walking or biking to campus.
- Staff support for life and academic adjustment and success.

**The Suites at University Park** are a unique living concept designed for first-year students. Each suite is a furnished, comfortable 2-person bedroom with a semi-private bath. Every group of 16 suites has its own "hub" of living and study lounges.

**The Apartments at University Park** feature furnished 2-bedroom apartments complete with living and dining area, kitchen or study area, bathroom and private balcony. The Apartments at University Park are excellent choices for first-year or returning students.

**The University Village Apartments** provide housing for students with dependent children and/or a spouse/partner. Located in a park-like setting at the north end of campus, these unfurnished one- and two-bedroom apartments offer convenience, comfort and peace of mind.

**Meal Plans:** A variety of meal plan options are available at the Satellite Student Union. Students who choose or are assigned to an apartment without a kitchen are required to purchase a meal plan. Any student living in an apartment with a kitchen is welcomed to purchase a meal plan, but it is not required. For more information on meal plans, visit The University Corporation website at [www.csun.edu/universitycorporation/residential.htm](http://www.csun.edu/universitycorporation/residential.htm).

**Virtual Tours:** You can arrange for a virtual tour of living facilities by contacting Student Housing at the number listed above.

**Living Learning Communities (LLC) and Themed Living Communities (TLC):** LLCs and TLCs are available exclusively to CSUN student housing residents. Students live in halls and on floors designated for their communities. Your roommates and neighbors share the major, interest or defining life experience that makes you all members of your community. Each community offers its own scheduled events, academic support and social activities.

**Residential Life Program:** An extensive residential-life program, coordinated by a professional staff, promotes the academic, personal and social growth of resident students through the implementation of many different programs and activities. A variety of paid leadership positions are available in the Office of Student Housing, such as resident advisor, academic mentor and office assistant.

**Resident Halls Association (R.H.A.) and Park Councils:** Residents can develop their leadership skills through involvement in the Residence Hall Association and Park Councils. The organizations provide students with the opportunity to participate in residence hall governance.

### Testing Center

**Coordinator: Charity Chia**  
**Bayramian Hall (BH) 190**  
**(818) 677-2369**

**[www.csun.edu/testing](http://www.csun.edu/testing)**

The CSUN Testing Center meets the testing needs of the students, faculty and members of the community. These include placement in classes, proving skill competency and providing graduate and undergraduate admission-qualification certification.

### University Counseling Services

**Administrator in Charge: Mark A. Stevens**  
**Bayramian Hall (BH) 520**

**(818) 677-2366 or TDD (818) 677-7834**

**Fax: (818) 677-2371**

**Email: [mark.stevens@csun.edu](mailto:mark.stevens@csun.edu)**

**[www.csun.edu/counseling](http://www.csun.edu/counseling)**

University Counseling Services (UCS) offers free, confidential short-term counseling to students and consultation services to the campus community. All services are designed to assist students in achieving emotional well-being and academic success, as well as help to create a campus environment that is sensitive to student's mental health needs. The following lists examples of services and programs currently available:

- Individual and Couples Counseling.
- Short -Term Counseling.
- Crisis Intervention.
- Intake Evaluation.
- Peer Education Programs.
- Support and Psychotherapy Groups (see website for listings).
- Experience Confidence and Enjoyment of Learning (ExCEL) programs.
- Workshops.
- Pre-Doctoral Internship.
- Psychiatric Resident Training.

### University Student Union

**Executive Director: Debra L. Hammond**  
**(USU) (818) 677-2491, (SSU) (818) 677-2890**

**<http://usu.csun.edu>**

The University Student Union, Inc. (USU) at CSUN provides 2 locations where the University experience is enhanced through events, recreation, volunteer and job opportunities, various food options, study areas, computer labs and TV lounges, as well as the Pride Center and Veterans Resource Center. The main USU facility is located on the east end of campus adjacent to Zelzah Avenue, and features the Student Recreation Center (SRC), which opened January 2012.

The SRC is a 138,000-square-foot facility that houses a variety of exercise and leisure activities amid state-of-the-art equipment. It features weight and fitness zones, a rock wall, a 3-court gymnasium, a multi-activity court, fitness and group exercise studios, a racquetball court, an indoor track and a recreational/lap swimming pool, as well as sport clubs and outdoor equipment rentals and programs.

The Satellite Student Union (SSU) is located at the north end of campus next to the residence halls and features study spaces, a computer lab, a dining facility and meeting rooms. Each USU facility was designed to enhance the total university experience.

### Veteran Student Services

**Coordinator: Eloisa Smith**  
**Bayramian Hall (BH) 150**  
**(818) 677-5928**

**Fax: (818) 677-6248**

**Email: [eloisa.smith@csun.edu](mailto:eloisa.smith@csun.edu)**

The Office of Veteran Student Services acts as a liaison to the Veterans Administration Regional Office for veterans or dependents. The office provides information and assistance regarding certification of benefits, tutorial services, V.A. work-study, advance pay and problems related to V.A. educational benefits. Academic and V.A. counseling also is provided.

### Women's Research and Resource Center

**Director: Shira Brown**

**18356 Halsted St.**

**(818) 677-2780**

**Email: [wrrc@csun.edu](mailto:wrrc@csun.edu)**

**[www.csun.edu/ws/wrrc](http://www.csun.edu/ws/wrrc)**

The CSUN Women's Research and Resource Center is a warm, inviting, comfortable place for CSUN students to learn, grow, hang out between classes, volunteer or find resources and referrals for a variety of issues and challenges women face. While the Center specializes in issues and situations particular to women's experiences, we openly welcome both male and female students to use and enjoy our space and resources. The Center also provides a resource lending library with more than 1,000 women's-studies and gender-based holdings. Each semester, the Center offers a variety of meetings and special events including guest speakers, film screenings, awareness rallies and more. The Women's Research and Resource Center participates in a wide array of political and social campaigns and supports students in any academic endeavor.

# LIBRARY

## Delmar T. Oviatt Library

Dean: Mark Stover

Email: [mark.stover@csun.edu](mailto:mark.stover@csun.edu)

(818) 677-2271

Fax: (818) 677-2676

<http://library.csun.edu/>

### Oviatt Library

The Oviatt Library (OV) is located in the center of campus. Library personnel are dedicated to helping students achieve their educational goals. The Library has extensive collections and services, both in-house and online. Reading and study areas, as well as computers, are located throughout the building. Library hours vary by time of year and are posted at the Library's entrance and can be found online on the Library's home page.

### Oviatt Library Resources

As of Fall 2011, the Oviatt Library had a physical collection containing more than 1.4 million volumes. The Library subscribes to 50,994 online journals, 2,376 print periodicals and serials, 210 online databases and 277,361 eBooks. There are 13,892 sound recordings and 19,229 film and video recordings. The archives and manuscript collection exceeds 4,570 linear feet of materials, with more than 37,300 items housed in Special Collections. The main Open Stack Collection is comprised of 1,416,106 volumes; 700,000 less frequently used volumes, including most microforms and pre-1990 periodicals, are stored in the Library's Automated Storage and Retrieval System (ASRS). Stored items may be requested from the Library's online catalog or at the Circulation Desk and retrieved from the ASRS in approximately 10 minutes.

### Assistive Technology Workstations

The Library has established 4 assistive technology study rooms featuring a wide range of sophisticated hardware and software designed to increase access to Library resources for students with disabilities. The rooms are located on the first floor of the west wing. CSUN students wishing to use one of these rooms may obtain a key at the circulation desk. Students will be asked to present their card from the Disability Resources and Educational Services (DRES) indicating that they have received appropriate training on the equipment.

Please check with the Disability Resources and Educational Services Office, Bayramian Hall 110, for more information about using these rooms. Upon request, assistance such as photocopying and book retrieval is available at the Circulation Desk.

### Circulation Desk

The Circulation Desk staff in the main lobby checks out, renews, checks in and places holds on library resources. The Circulation Desk also is where fines are paid and photo ID cards can be issued. Most items ordered from automated storage (ASRS) are picked up here as well.

### Copy Services

Self-service copy machines are located on each floor of the Library. The copy service vendor office is located in Oviatt 111D where special services are available, including color copying, assistance with photocopying and printing refunds.

### Government Documents

The Library is a selective depository for government documents published by the U.S. government and the state of California. (Note: Most documents are issued only in electronic format.) Free public access to government documents is assured by state and federal law. Documents

Photo: Hilla Hartenstein

that have been cataloged and added to the main collection are listed in the Library catalog. Uncataloged documents are in specific sections of the Oviatt Reference room and the Reserves, Periodicals and Microform room. The finding guides for using government documents are in the Reference room or available online at <http://library.csun.edu/GovernmentPublications>.

### Interlibrary Loan (ILL)

This service permits faculty, students and staff to obtain materials from other libraries that are needed for research, but are not available in the Oviatt Library. Our ILL resources are found within the CSUN Interlibrary Loan “network,” which includes the 22-campus CSU system, a host of reciprocal libraries and our document suppliers. Items can be ordered by using the automated online service. The office is located in Oviatt room 109, just west of the Reference Desk on the first floor. For complete information about the Library’s Interlibrary Loan (ILL) services, see our ILL websites at <http://illiad.csun.edu/illiad/faq.html> or <http://library.csun.edu/Services/InterlibraryLoan>.

### Music and Media

The Music and Media Collection consists of more than 11,000 CDs and LPs, including jazz, international, classical and contemporary genres supported by 14,000 music scores and 18,000 books on music history and theory. It also contains more than 12,000 DVDs and videotapes, ranging from instructional programming to feature films. In addition, patrons have access to more than 5,000 videos online through Films on Demand. Music and Media supports the music, cinema and theater curricula at CSUN, and provides instructional media complementing many other disciplines. The Department holds the Library’s collection of music books and scores, plus instructional videos and DVDs, CDs, LPs and audio books. Most of the collection is available for checkout and patrons can view or listen to all material in the area’s media carrels or review room. Music and Media is located on the second floor, east wing and provides a welcoming environment for course study and research, or for simply relaxing and personal enjoyment in the lounge areas.

### Online Catalog

The Library’s online catalog is accessible through the Library’s home page at <http://library.csun.edu/> from on or off campus. Books, journals, articles and other materials can be looked up by author, title, subject heading or keyword. Periodicals can be looked up by title to determine Library holdings. In addition, the Library’s catalog can be accessed from any on- or off-campus computer connected to the Internet

### Open Computer Labs and the Collaboratory

The Library provides a large number of computers for students to access and search a wide variety of electronic resources and databases. Our main open computer lab is the Collaboratory, located on the third floor in the east wing. Printing is available with debit cards. There are also laptop computers equipped with wireless Internet connections that also can be checked out. The Collaboratory’s hours correspond to the Library’s hours of operation. In addition to the Collaboratory, the Library operates an open student computer lab in Sierra Hall (SH) 392.

### Reading and Study Areas

In addition to the general reading and study areas available on all floors, the Library also offers private study areas. Group study rooms and individual study rooms are located on floors 2, 3 and 4. Rules for their use and group size are posted in the rooms and are on the Library’s website at <http://library.csun.edu/Services/StudyroomsLockers>. Faculty and graduate student study rooms, located on the lower floor, west wing, are available on a day-to-day basis. Inquire at the Circulation Desk with any questions about availability.

## Reference Services

The Oviatt Library maintains a reference collection of both online resources and print materials, providing patrons with factual information or directing them to further sources for that information, including but not limited to encyclopedias, dictionaries, almanacs, handbooks, directories, style manuals and bibliographies.

Electronic Reference materials can be accessed through the online catalog. Please see <http://library.csun.edu/Collections/Reference> for more information on how to find these materials. The website also includes a link to our frequently used online reference collections.

Print reference sources are indicated by “Reference room” or “Ref” in the location box in the online catalog. When the online catalog indicates “Reference room” as the location, the item will be found in the first floor Reference room. Many reference materials are shelved along with the regular collection on the upper floors of the Library but remain unavailable for checkout. Reference materials marked as “Stored” in the online catalog must be requested through the Library’s Automated Storage and Retrieval System (ASRS). Requests for stored items can be made directly through the online catalog or in person at the Oviatt Library’s Circulation Desk. Library reference materials are not allowed to circulate outside of the library.

Reference librarians staff the Reference Desk during most of the hours the Library is open. They provide a range of informational and instructional services, including assistance in finding specific facts and information for patrons; instructing patrons in the use of online databases and developing appropriate search strategies; and assisting students in selecting, locating and using materials to complete assignments.

Appointments may be made with subject specialist librarians for lengthier consultations on a topic or reference source. You can find your subject specialist and her/his phone number at <http://library.csun.edu/About/SubjectSpecialists>.

In addition, we provide reference assistance by telephone, text message and through our virtual chat service. To learn more about these options, go to <http://library.csun.edu/ResearchAssistance/AskUs>.

## Reserves, Periodicals and Microform

Reserve materials are located primarily in Reserves, Periodicals and Microform (fourth floor, east wing). Music course reserves and multimedia reserves are located in Music and Media (second floor, east wing) and children’s literature reserves and education course reserves are located in the Teacher Curriculum Center (lower level, room 26). Reserve materials are listed by course number and instructor’s last name and can be searched by visiting <http://library.csun.edu/CourseReserves/>.

Titles of all magazines, journals, e-journals, serials and newspapers owned by the Library can be found through our Library online catalog at <http://suncat.csun.edu/> (click on Periodical Title).

As of FY 2010-11, the Library has access to more than 50,000 full-text electronic journal, magazine and newspaper titles from the databases to which the Library subscribes. Information about accessing these titles can be found at <http://suncat.csun.edu/screens/pertitle.html>. To search for individual articles, use our Databases by Subject web page at <http://library.csun.edu/xerxes/>.

A reference librarian may also be consulted, or ask at the Reserves, Periodicals and Microform Service Desk, fourth floor, east wing, for more details. Current periodical and newspaper print titles are found in the Reserves, Periodicals and Microform room, fourth floor, east wing. Recent issues of magazines and journals are shelved in call number order.

Back issues of newspapers are retained for several months until they are discarded or until the microform subscription copies arrive. Retention length differs with each title. Print indexes to periodical articles, newspaper articles, reviews and other newsprint items are located in the Reference room of the Library. Computer indexes are available at most of the computer workstations located in various areas of the Library.

Older issues of magazines and journals are bound into volumes and are shelved on the fourth floor in call number order. Pre-1990 volumes of most journals are stored in the ASRS and may be retrieved, usually within 10 minutes. The Library's online catalog will indicate if any years of a title are in the Microform Area. For a complete listing of the titles that are available electronically, check both the CSUN list of electronic periodicals at <http://suncat.csun.edu/screens/pertitle.html> and the Library catalog. Use the online catalog to request stored volumes. Stored periodicals will be delivered to the Reserves, Periodicals and Microform service desk, fourth floor, east wing. Please return the periodicals to the service desk.

Almost all microform titles are stored in the ASRS. Ask for assistance at the Reserves, Periodicals and Microform service desk.

### Special Collections, University and Urban Archives

Special Collections and Archives provides opportunities for scholarly research and publication. Material is available for onsite research in the Oviatt Library, west wing, second floor. Photocopying is available upon request. However, some items cannot be copied due to copyright restrictions. The Library provides inventories, descriptive finding guides and related indexes to both cataloged and uncataloged collections. There are no browsing stacks. All Special Collections and Archives material, including material stored in the ASRS, must be requested through the Reading room, west wing, second floor. None of this material may circulate out of the Library. Scheduled hours are Monday-Friday, 9 a.m.-4:30 p.m. The Special Collections and Archives website is at <http://library.csun.edu/Collections/SCA>. Call (818) 677-2832 for more information.

### Teacher Curriculum Center

The Teacher Curriculum Center features a collection of pre-school through grade 12 curriculum-oriented materials. It is located on the lower level of the Oviatt Library building, room 26.

Included in the TCC collection are selected California state-adopted textbooks, the juvenile and young adult collection (Sharon Fogarty Young Readers' Collection), CD-ROMs, educational games, curriculum guides, recordings, videotapes and DVDs. All are listed in the online catalog. These items must be checked out and returned directly to the TCC. Visit the TCC website at <http://library.csun.edu/Collections/TCC/> for more information.

# INFORMATION TECHNOLOGY

## Information Technology

Vice President/CIO: Hilary J. Baker

(818) 677-7700

Fax: (818) 677-4770

Email: [hilary.baker@csun.edu](mailto:hilary.baker@csun.edu)

[www.csun.edu/it](http://www.csun.edu/it)

The Information Technology division is responsible for the delivery of effective, secure, reliable technology infrastructure and services that enable, promote and support students, faculty and staff to achieve their goals.

### Information Technology Help Center

**Chat Support:** [www.csun.edu/it/helpcenter](http://www.csun.edu/it/helpcenter)

**Telephone Support:** (818) 677-1400

**Online Support:** <http://techsupport.csun.edu>

**In-Person Support:** Oviatt Library, garden level, room 33

**Website:** [www.csun.edu/it/helpcenter](http://www.csun.edu/it/helpcenter)

### Information Technology Services for Students:

- User ID and password assistance.
- myNorthridge portal and SOLAR Student Center support.
- Online access to course software (Virtual Software Library).
- Wireless assistance.
- Email assistance.
- Computer security—antivirus installation and spyware removal.
- General computer and technology assistance.
- Audio and video equipment checkout.

To find out more about Information Technology services, visit [www.csun.edu/it/services](http://www.csun.edu/it/services).

### Information Technology “Self Help”:

[www.csun.edu/it/students.html](http://www.csun.edu/it/students.html)

Students can access information themselves by using the Information Technology website. Find out how to set-up your User ID and password, access the wireless network, add a class, find a computer lab on campus, register and check your grades and much more. Types of resources available include the following:

- Student frequently asked questions.
- Self-help guides.
- Software downloads and hardware discounts.
- Campus computer lab listing.

For more information about technology resources within your major, please contact your College directly.

Photo: Lee Choo

# GRADUATE PROGRAMS AND CREDENTIALS

## Graduate Studies, Research and International Programs

**Associate Vice President: Vacant**

**Associate Director: Hedy Carpenter**

**University Hall (UN) 265**

**(818) 677-2138**

**[www.csun.edu/graduatestudies](http://www.csun.edu/graduatestudies)**

### Graduate Status

A graduate student is one who has applied and received formal admission to a specific course of study that will lead to a Master's or Doctorate Degree in one of the many disciplines available at CSUN.

Graduate status is subdivided into Classified and Conditionally Classified standing, depending on whether or not certain University and Departmental requirements have been met. These requirements are discussed later in this section of the Catalog.

Graduate students in either category may enroll in 500- and 600-level courses, although in some programs enrollment is limited to the Classified student. Graduate students must follow a specific course of instruction identified to them by the Department Graduate Coordinator and described for the individual Department in the Courses of Study section of the Catalog.

### Admission to the University

To be admitted to CSUN as a graduate student, students must meet the following requirements:

- (a) Have a four-year Baccalaureate Degree from a regionally accredited institution;
- (b) Be in good academic standing at the last college or university attended;
- (c) Have satisfied one of the following conditions:
  1. Attained a GPA of at least 2.5 in a Baccalaureate Degree Program,
  2. Attained a GPA of at least 2.5 in the last 60 semester (90 quarter) units attempted, or
  3. Hold a Post-Baccalaureate Degree earned at a regionally accredited institution; and
- (d) Meet the professional, personal, scholastic and other standards for graduate study, including qualifying examinations or other screening processes as appropriate campus authorities may prescribe. In unusual circumstances, a program may make exceptions to these criteria. Some programs require a higher GPA for admission.

Domestic/International students seeking a second Masters in the same Degree Program is not allowed. Second Baccalaureate candidates use the undergraduate CSUN application. Second Baccalaureate candidates must meet general Post-Baccalaureate requirements. Some programs do not admit second Baccalaureate candidates.

### Graduate TOEFL Standards

All graduate applicants whose native language is not English and who have not attended academic institutions for at least 3 years full-time where English is the principal language of instruction must present a score of 79 or above on the Test of English as a Foreign Language (TOEFL) or a score of 6.0 on the International English Language Testing System (IELTS). Applicants taking the computer-based TOEFL must present a score of 213 or above. Some graduate programs require a higher score for admission and it is advisable to check the Department website.

|                    | Internet | Computer | Paper |
|--------------------|----------|----------|-------|
| Graduate Standards | 79/80    | 213      | 550   |

### Admission to the Department

The applications of students meeting University requirements for admission will be reviewed in the appropriate Department. The Department will determine whether the student meets requirements for admission to its Program. Some Departments require a separate Departmental application. Students who meet Departmental and University requirements will be admitted as either Conditionally Classified or Classified graduate students.

### Conditionally Classified Status

Students who do not meet all requirements may be accepted as Conditionally Classified students, subject to meeting various University and Departmental requirements for Classified status. It is important to achieve full Classified standing prior to completing more than 12 units of graduate course work on the program of study. No more than 12 units of work taken prior to attaining fully Classified status will be applied to a Master's Degree Program.

### Classified Status

To be granted Classified status, students must have a 3.0 GPA for all work taken as a Conditionally Classified student and in any courses required by the Department for admission to its Program. Once the requirements for Classified status have been met, it is the responsibility of the student to notify the Department and then of the Department to notify Graduate Evaluation Services, Graduate Studies, Research and International Programs by filing the "Request for Classification" Form.

To meet the minimum requirements for Classified Status, the student must fulfill the following (individual Departments may have more stringent standards):

1. A 3.0 GPA or higher in all work taken after completion of a Bachelor's Degree;
2. Hold a Graduate Degree from a regionally accredited institution;
3. Score at or above the 50<sup>th</sup> percentile on one of the 3 subject areas of the Graduate Record Examination (GRE). Some Departments may waive the GRE requirement if student's undergraduate cumulative GPA is 3.0 or higher\*; and
4. Pass the Upper Division Writing Proficiency Exam (UDWPE). Students who have fulfilled the Upper Division Writing Exam at another CSU campus may submit official notification of a passing score. Some Departments may fulfill this requirement with an alternate examination.

*\*Normally, the Graduate Record Examination (GRE) should be taken prior to registration for graduate work at CSUN. Undergraduates should take the examination during the last semester of their senior year. Applications for the Graduate Record Examination may be obtained from the Educational Testing Service (ETS). Contact them at [www.ets.org](http://www.ets.org). Applications for the GMAT (Graduate Management Admission Test), required of Business Degree majors, are available at [www.gmac.com](http://www.gmac.com).*

## Graduate Studies Policies and Procedures

### Policy on Written Syllabi for All Graduate Courses

To better inform students about the requirements, content and methodology of the University's graduate curricula, all faculty teaching graduate courses will distribute a written syllabus to each student in the course and/or post it online no later than the second week of classes. The syllabus should contain at least the following information:

- Course objective(s).
- A brief list or summary of topics or projects covered.
- Course requirements and methods of evaluation.
- Grading criteria, including whether or not the plus/minus system will be used.
- Contact information (instructor's name, office hours, office location and campus phone number)

### Policy on GPA Requirements for Graduate Programs

Students pursuing a Graduate Degree must maintain a minimum 3.0 (“B”) GPA in the formal program and in the cumulative GPA. No grade below a “C” can be counted in the formal program. Any grade of “C-” or below in the formal program must be repeated after an approved course repeat form has been filed. If the student does not receive a “C” or better on the second attempt, the student will be disqualified from the program. A maximum of 6 units in the formal program may be repeated at the graduate level. The repeat grade will appear on the transcript. Departments may have higher standards that take precedence over the University policy.

### Transfer Work

Credit for work performed in extension or at another regionally accredited institution is subject to the following limitations:

1. Transfer of work is subject to the approval of the Graduate Coordinator of the major Department and the Associate Vice President of Graduate Studies. An unofficial transcript must be submitted with either the formal program or course substitution to the Office of Graduate Studies for approval of the specific course work.
2. Only graduate course work with a grade “B” or better may be transferred (CR/NC grading is not transferable).
3. No more than 9 units in combination of transfer work, extension work or work completed prior to earning a Baccalaureate/Master’s Degree can be used toward a or another Degree .
4. Both transfer and CSUN course work may not exceed the 7-year time limit.
5. Transfer courses and undergraduate CSUN course(s) petitioned to count for Post-Graduate course work may not be validated once the course exceeds the 7-year time limit.
6. If the course(s) petitioned have been taken at an institution where the Degree has been granted, the student must provide a memo from the institution indicating the course(s) was not used for Degree completion.

### Extension and Concurrent Enrollment Courses

Courses taken prior to admission to a Master’s Degree Program through CSUN’s Extension or Concurrent Enrollment programs are subject to the limitations that apply to graduate work taken at other institutions (see Transfer Work section above). Courses taken through Extension or Concurrent Enrollment following admission to a Master’s Degree Program are subject to Departmental approval for inclusion in the formal Master’s Degree Program.

### Credit for Work Completed Prior to Earning the Baccalaureate Degree

A maximum of 9 units of credit earned at the 500-level during a student’s final undergraduate semester at CSUN may be applied toward a Master’s Degree, subject to Departmental approval. Requests for such credit are filed following admission to a CSUN Master’s Program on a Graduate Petition Form. Courses are subject to the following University requirements:

1. They may not be used to satisfy the requirements for the Bachelor’s Degree;
2. Only course work with grades of “B” or better will be considered for petitioning;
3. Courses petitioned may not have been taken more than 7 years prior to the time of graduation with the Master’s Degree; and
4. A petition is subject to approval by both the Department and the Associate Vice President for Graduate Studies.

### Foreign Language Reading Examination

When competency in a foreign language is a Departmental requirement, students may demonstrate competency in one of 3 ways:

1. Passing the Graduate Foreign Language Examination (Princeton Examination);
2. Passing a Departmental examination. The examination is given by the Department of Foreign Languages in the 5<sup>th</sup> week of each semester. Candidates who plan to take this examination should notify the Department of Modern and Classical Languages and Literatures early in the semester and enroll in one unit of 499 in the appropriate language; or
3. Successfully completing a Graduate Reading course in the appropriate language. This course may be taken without prerequisite if the student has completed 2 semesters of the language.

### The Culminating Experience

A culminating experience is required for completion of a Master’s or Doctorate Degree Program. The University recognizes the following types of culminating experiences: Theses, Dissertations, Graduate Projects/Artistic Performances and Comprehensive Examinations. Each graduate program permits 1 or more of the culminating experiences as described below. Where more than 1 option is offered, the specific type of culminating experience is identified on the student’s formal program.

A Thesis/Dissertation is an original scholarly contribution to the student’s field based on a systematic study of a significant problem or issue. Although it may be part of a larger research program, each Thesis is unique and written by a single student. The Thesis typically explains the problem; sets forth the methodology used to address the problem and the limitations of the methodology; reports the results, whether those are an analysis of data or a presentation of theory; and explains the significance of the findings in the context of previous work on the topic.

Thesis/Dissertation Project Committee Selection: The Committee must be comprised of 3 members, one of whom will serve as the Committee Chair. At least 2 committee members must be full-time faculty from your Department. You may have one part-time faculty member or off-campus Committee member, however the part-time faculty member or off-campus Committee member cannot serve as the Committee Chair. The part-time faculty member or off-campus Committee member must meet the following minimal qualifications to participate on the Committee:

- a) Hold a M.A./ M.S. Degree (some programs will require a Ph.D.) in the field or in a related field or equivalent degree;
- b) Have experience in the topic or area of your Thesis/Dissertation/ Project, such as employment with an established institution or agency as a staff member or consultant; and
- c) Demonstrate professional recognition through publications, reports, papers or membership in a national professional organization and/or working committees in their institution or agency

Once you have formed your Committee, you will need to register through the Electronic Thesis and Dissertation (ETD) website at <https://etd.csun.edu/>. A curriculum vitae of a part-time faculty member or off-campus Committee member must be uploaded electronically on the ETD website (<https://etd.csun.edu/>) for approval by your Committee Chair, Department Graduate Coordinator and the Associate Vice President of Graduate Studies.

Graduate Project/Artistic Performances are a significant undertaking of a pursuit appropriate to professional fields and fine arts. It must represent originality and independent thinking, appropriate form and organization and a rationale. A Project/Artistic Performance may be an individual or group effort. Examples of appropriate projects include

the development of curriculum, a market research study for an organization, the testing of a therapy on a particular population or the design of an electronic device. In the arts, examples could include a music recital, a music composition, direction of a theatrical performance or a gallery showing of works of art. The results must be described and summarized in a written document with an abstract.

A Comprehensive Examination will test the range of subject matter covered in the student's graduate program. The purpose of the examination is to allow students to demonstrate their ability to integrate content, knowledge, independent thinking and critical analysis. At least 3 Committee members must certify to the success or failure of the student in the examination.

### Rules and Procedures Governing Theses, Dissertation, Graduate Projects and Artistic Performances

The following rules apply to Theses, Graduate Projects and Artistic Performances:

1. The Thesis must be an individual effort. However, the University recognizes that there are circumstances that warrant group graduate projects and artistic performances. In such instances, a signed addendum by each student and by the culminating experience Committee Chair must be submitted to the Office of Graduate Studies. The addendum must identify the names of other authors and describe the project and responsibilities of each author. The division of responsibilities specified must be reviewed, endorsed and evaluated by the students' Committee Chair, signed by each student and subsequently approved by the Associate Vice President of Graduate Studies, Research and International Programs.
2. Students must contact their Graduate Coordinator to determine the maximum number of required culminating units
3. Students must be registered during the semester in which they expect to graduate.
4. If a student fails to successfully complete/defend the Thesis/Dissertation, Graduate Project or Artistic Performance, or any part of it, he/she will be disqualified from the Master's Program in the Department and normally not allowed to take the Comprehensive Examination option, if that option exists.
5. Guidelines: The Thesis, Dissertation and Graduate Project or abstract of the Artistic Performance must be prepared according to the guidelines set forth by the Office of Graduate Studies and available online at [www.csun.edu/grip/graduatestudies](http://www.csun.edu/grip/graduatestudies). All Thesis, Dissertations, Graduate Projects or Abstracts must be uploaded through the Electronic Thesis and Dissertation website at <https://etd.csun.edu>.
6. Time Limit: Theses, Projects or Artistic Performances must be completed, filed and approved within 2 years of the first enrollment in culminating experience. In some situations, a student is given an RP (Report in Progress) grade for work in progress (see "Definitions of Administrative Grading Symbols"). The "RP" will be converted to a "credit" or "letter" grade once the culminating experience has been approved.

### Comprehensive Examinations

Each Master's Program that offers a Comprehensive Examination option is required to maintain University-approved guidelines for the administration of the examination, and these guidelines are to be available on request. The following regulations apply in all cases:

1. Students become eligible to attempt the examination during the semester in which all required course work has been completed.
2. Ordinarily, the examination is given at least 1 month before the end of the semester. Arrangements to enroll and take the examination should be made with your Department.

3. If the examination is not completed in the final semester, students must register again for the examination for the semester in which they plan to complete their Degree. These additional units may not be counted as units toward the Master's/Doctorate Degree.
4. Students may not take the comprehensive examination more than twice.
  - a. Students who fail the examination on the first attempt will be required to register for the examination again the next available term.
  - b. Students who fail the first attempt will be required to submit a Course Repeat Form to the Office of Graduate Studies with the approval of the Graduate Coordinators once enrolled for the second attempt.
  - c. The first attempt is defined as the complete Comprehensive Examination prescribed by the Program. The second attempt is defined as retaking the examination on the entire Program or, at the discretion of the Department, a supplementary examination on any part or parts of the first examination that the student failed.
  - d. Failure of the second attempt of the Comprehensive Examination results in the disqualification from the Program in that Department.
  - e. Graduate Coordinators will file the result of each examination with the Office of Graduate Studies.
  - f. Once students have chosen the option of the Comprehensive Exam and enrolled in and/or attempted the Comprehensive Examination and failed it (or any part), they normally are not eligible to change to any of the Thesis, Dissertation, Graduate Project or Artistic Performance options.

### Application for the Master's/ Doctorate Degree and Diploma

Students must apply for graduation 1 semester prior to completion of requirements. Students may obtain an Application for Master's/ Doctoral Degree and Diploma for graduation online at <http://www.csun.edu/grip/graduatestudies/forms>. In the event that a student changes the completion date to a later time, a Master's/Doctoral Graduation and Diploma Date Change form needs to be submitted and a processing fee will be assessed.

### Time Limit for Completion

Students must complete requirements for the Degree within 7 calendar years from the date they were admitted to a Program, unless a lesser time is specified by the Department or Program Committee.

Courses that were completed more than 7 years prior to the date on which all requirements for the Degree are completed cannot be counted to meet unit requirements unless the student can show current knowledge in the content of the outdated courses by written examination for each course in question. A maximum of 9 units taken in residency at CSUN may be validated in this manner. The Graduate Coordinator in your Department must certify this competency by way of a memorandum to the Associate Vice President for Graduate Studies. Outdated courses taken at another institution may not be validated.

### Change of Objective

Enrolled graduate students may change their objective and seek admission to an alternate Degree Program by filling out a Change of Objective form. The form can be obtained online at [www.csun.edu/grip/graduatestudies/forms](http://www.csun.edu/grip/graduatestudies/forms). Transfer of previously earned units to the alternate program must have the approval of the Department to which the student applies. A request for a change of objective for a student on academic probation also is subject to the approval of the Associate Vice President for Graduate Studies.

Students may not be enrolled in multiple Degree Programs simultaneously. Upon completion of the first graduate Degree, students must reapply to the University to pursue an additional Degree.

## Academic Performance and Study Load

Numerous requirements exist that specify the grading policies at CSUN and the academic standards and progress expected of students. These regulations are dictated by Title 5 of the California Administrative Code, the California State Universities and College System and the President of CSUN.

### Grading System

CSUN uses the traditional A-F grading system and a non-traditional system of Credit/No Credit (CR/NC) as explained in the Regulations section of the Catalog. Note the following provisions:

1. **Normal Grading:** Credit (CR) is given for A, A-, B+ or B-level scholastic performance and No Credit (NC) is given for the equivalent of B-, C+, C, C-, D+, D, D- or F work in graduate-level courses. Graduate program courses may not be taken on a Credit/No Credit basis. Exceptions to this rule are Dissertation/Thesis/Graduate Project or Comprehensive Examination and certain courses in which the evaluation responsibility is shared by agencies in conjunction with faculty (e.g., field study, internship). The student is advised to request Credit/No Credit grading for courses taken for personal interest or enrichment that are unrelated to the Degree objective and outside the Department or discipline of the major.
2. **Incomplete (I):** An incomplete (I) must be changed to a grade within 1 calendar year immediately following the end of the semester in which it was assigned. This limitation exists whether or not students maintain continuous enrollment in the University. If the assigned work that is required to remove the incomplete is not completed by this time, the incomplete will be computed as an F in all subsequent GPA determinations. All incompletes must be completed before a Degree can be awarded.
3. **Incomplete Charged (IC):** The "IC" symbol may be used when a student who received an authorized incomplete "I" has not completed the required course work within the allowed time limit. The "IC" replaces the "I" and is counted as a failing grade for GPA and progress point computation.
4. **Report in Progress (RP):** A grade of Report in Progress ("RP") is assigned for Thesis/Graduate Project and similar courses where assigned work frequently remains to be completed at the end of the semester in which the grade is given. The "RP" grade must be converted to a traditional letter grade within 2 years. Any extension of the time limit must receive prior authorization by submitting a Graduate Petition Form to the Associate Vice President of Graduate Studies

### Probation and Disqualification

Students enrolled in a Degree Program will be placed on academic probation whenever their GPA falls below 3.0 for all units attempted. To be removed from probation, students must earn sufficient grade points in the following semester of enrollment to raise their GPA to 3.0 or above. Failure to do so will result in disqualification. (Please refer to Grading in the Regulations section of the Catalog to determine grade points assigned per unit value of course work.)

If a disqualified graduate student wishes to be considered for readmission to a Master's Program, disqualification forms must be submitted for the semester immediately following disqualification notification. Disqualification materials will be emailed to students after final grades are posted. The materials are submitted through the Departmental Graduate Coordinator. Students who choose not to file readmission forms for the semester following disqualification will be

required to submit a new University application and fee in order to enroll in any future semester. Similar provisions to those stated above apply to Post-Baccalaureate, Unclassified and Post-Baccalaureate and Credential students, except that the required maintenance GPAs are 2.50 and 2.75, respectively.

### Repeat of Courses

Students must submit a Course Repeat Form with prior permission of the Graduate Coordinator/Department Chair and the Associate Vice President of Graduate Studies. A graduate student may repeat up to 6 units in which a grade of "B-" or below has been earned. In these cases, only the most recent grade will count.

### Complete/Partial Medical Withdrawals

A medical withdrawal usually constitutes complete withdrawal from the university for the academic period in question. Requests for complete medical withdrawals should be submitted as soon as possible after the medical condition impairs the students' ability to complete the coursework for which the student is registered. Requests may also be submitted by an authorized representative of the student.

Requests for conditions or circumstances that arise during the final three weeks of instruction or thereafter, will only be considered in cases of severe illness or injury. Petitions requesting retroactive withdrawals beyond one year after the conclusion of the semester for which the withdrawal is requested will not be considered.

Students may obtain forms and procedural information at [www.csun.edu/anr/soc/adjsched.html](http://www.csun.edu/anr/soc/adjsched.html).

### Academic Leave (Leave of Absence)

Graduate students in good standing may take a two-semester leave of absence. Though no formal approval is required, it is suggested that students contact their Graduate Coordinator for academic advisement.

### Graduation with Distinction

A student may receive the Master's Degree with distinction by maintaining a 3.885 or higher GPA on all formal Master's Degree Program course work. The notation "With Distinction" is posted with the Degree on the transcript, and also will appear on the diploma.

### Interdisciplinary Studies

The Interdisciplinary Studies M.A. or M.S. Degree is a restricted program for a student who has professional or academic objectives that are unique and cannot be met by an existing CSUN Master's Degree. The program will consist of course offerings from at least 2 Departments and must provide sharp focus and appropriate coherence. Each individual program is developed jointly by the student, faculty and the Associate Vice President for Graduate Studies. Admission requirements for the Interdisciplinary Studies Degree include being in good academic standing and having at least a 3.0 GPA in all 400-, 500- and 600-level courses attempted. In addition, the requirements for Classified status of the participating Departments must be satisfied. More specific information and procedures for an Interdisciplinary Studies Program may be obtained from the Office of Graduate Studies.

## The Program of Study

The program of study is a statement of the academic requirements that students must meet for the Master's/Doctorate Degree. The following University requirements apply to the program:

1. It must be composed of a minimum of 30 units of 400-, 500- and 600-level work.
2. None of the courses on the program may have been used for any other Degree earned in the past.
3. A maximum of 9 units of 400-level course work may be used on a program of study. Please check with the Department for their specific policy on 400-level course work, which could be fewer than 9 units.
4. No more than 9 units in combination of transfer work, extension work or work completed prior to earning a Baccalaureate Degree can be used toward your Degree.
5. No more than 6 units of independent study may be included in the program and all independent study arrangements must have prior approval of the instructor and of the Department Chair.
6. The program must terminate with a culminating experience which will consist of a Thesis, Graduate Project, Artistic Performance or Comprehensive Examination.
7. Enrollment is required in the semester that the degree is awarded.

## Graduate Degree Programs List

Accountancy, M.S.  
 Anthropology, M.A.  
 Art, M.A.  
 Art, M.F.A.  
 Assistive Technology Engineering, M.S.  
 Assistive Technology Studies and Human Services, M.S.  
 Biochemistry, M.S.  
 Biology, M.S.  
 Business Administration, M.B.A.  
 Chemistry, M.S.  
 Chicano and Chicana Studies, M.A.  
 Communication Studies, M.A.  
 Communicative Disorders, M.S.  
 Computer Science, M.S.  
 Counseling, M.S.  
 Education, M.A.  
 Educational Administration, M.A.  
 Educational Leadership, Ed.D.

### General Information

Public school Teaching and Service Credentials in the state of California are regulated by legislative actions that are subsequently interpreted by appropriate regulatory agencies. With guidance provided by the California Commission on Teacher Credentialing (CTC), the University has developed Programs for candidates seeking Credentials and Certificates to serve in a variety of positions in public schools in the state of California. Candidates for all Credentials must meet the legal requirements in effect at the time of application for the Credential regardless of when the Program was started.

### Mission

The mission of the Credential Office is to serve students by advising them effectively and by efficiently processing Program and Credential applications. This office is responsible for recommending, qualified CSUN candidates to the State of California for state licensure. The Credential Office functions as the gatekeeper for access into and exit from CSUN's Credential and Certificate Programs. The Credential Office supports the College of Education Dean's Office and Departments in providing up to date information regarding state requirements.

### Accreditation

CSUN currently offers Certificate and Credential Programs housed in 3 Colleges. Each of these Programs is accredited by the Commission on Teacher Credentialing and the Council for Accreditation of Educator Preparation (CAEP formerly NCATE). The Michael D. Eisner College of Education received full re-accreditation from both the Commission on Teacher Credentialing and National Council for Accreditation of Teacher Education (NCATE) in November 2009.

### Credential Programs

There are 3 major categories of Credentials available at CSUN: Basic Credentials (Multiple Subject, Single Subject and Education Specialist), Specialist Credentials and Service Credentials. CSUN also offers Added Authorizations in a number of areas.

### Basic Credentials

The Preliminary Multiple Subject Credential (MS) authorizes the holder to teach all subjects, grades K-12, in a self-contained classroom, as generally found in elementary and middle schools. This Credential can be earned through a number of different pathways: Traditional, Intern, Accelerated Collaborative Teacher (ACT) and Integrated Teacher Education Program (ITEP)—Freshman Option or Junior Option.

Credential regulations require Multiple Subject candidates to verify their competency in their teaching field by passing the California Subject Examination for Teachers: Multiple Subjects. Many CSUN students preparing to teach elementary school major in Liberal Studies. A Bachelor of Arts Degree in Liberal Studies is earned by students who complete the Freshman or Junior ITEP option Credential Programs. Advisement on course requirements for the Liberal Studies major is available in the Liberal Studies Program Office located next to the Credential Office.

The Preliminary Single Subject Credential (SS) authorizes the holder to teach a specific academic subject, grades K-12 in a departmentalized classroom as generally found in junior high and senior high schools. This Credential can be earned through a number of different pathways: Traditional, Intern, Accelerated Collaborative Teacher (ACT), Freshman Year Integrated (FYI) or Junior Year Integrated (JYI). JYI and FYI are specific to subject matter programs in English or Mathematics.

The following Single Subject Credentials are offered at CSUN: Art, Biological Sciences (Specialized), Business, Chemistry (Specialized), English, Foundational Level Mathematics, Geosciences (Specialized), Health Sciences, Home Economics, Mathematics, Music, Physical Education, Physics (Specialized), Science: Biological Sciences, Science: Chemistry, Science: Geosciences, Science: Physics, Social Science, and-World Languages (WL)—American Sign Language (ASL), Chinese, French, German, Korean and Spanish.

California regulations require Single Subject candidates to verify competency in their teaching field by passing the California Subject Examination for Teachers in their subject specific area or by meeting the requirements of a Subject Matter Program at a university with an approved program in that specific subject area. See Subject Matter Programs section.

The Preliminary Education Specialist Credential (SPED) authorizes the holder to teach children in grades Pre-K and K-12 in a school setting in the following specialty areas: Deaf and Hard of Hearing (DHH), Early Childhood Special Education (ECSE), Mild/Moderate Disability (MM) and Moderate/Severe Disability (M/S).

Pathway options for the DHH, MM and MS Credentials include: Traditional, Intern, Accelerated Collaborative Teacher (ACT), Integrated Teacher Education Program (ITEP)—Freshman or Junior option. At this time, the ECSE Credential can be earned only through the Traditional or Intern pathway. All Programs include the Autism Spectrum Disorder authorization. Details specific to pathways follow below.

Credential regulations require Education Specialist candidates to verify their subject matter competency. Education Specialist candidates who will be teaching multiple subjects in a self-contained classroom must fulfill their subject matter requirement by passing the CSET: MS, as do Multiple Subject Credential candidates (see above). Education Specialist candidates who will be teaching only 1 subject may fulfill their subject matter requirement by passing the appropriate subject area examination as determined by NCLB or by completing an approved academic program at a university. NCLB-compliant subject areas are: art, English, Languages Other Than English (LOTE), mathematics (including foundational-level mathematics), music, social science or science, including foundational-level general science and specialized science.

### Pathways for Obtaining a Multiple, Single or Education Specialist Credential

- 1. Traditional:** In the traditional pathway to a Credential, students attend full- or part-time and develop their own schedule. They can begin in either the Fall or Spring semesters.
- 2. Accelerated Collaborative Teacher Preparation Program (ACT):** ACT is a full-time, 1-year, cohorted program. Field work is required during the day and courses are offered in the late afternoon or evening at CSUN.
- 3. University Intern Program:** The University Intern Program is a 2-year program designed for those candidates who are employed in a full-time position. Candidates attend classes part-time while employed full-time in the classroom. Candidates are expected to enroll each semester while holding an Intern Credential. Candidates may change to the Intern pathway from the Traditional pathway if employment is offered in an appropriate setting.

- 4. Integrated Teacher Education Program (ITEP):** This is a program for freshmen or juniors to obtain a Bachelor's Degree in Liberal Studies and a Multiple Subject or Education Specialist Credential concurrently.
- 5. Freshman Year Integrated Preparation Program (FYI):** Candidates earn a Bachelor's Degree in English or Mathematics and a Single Subject Credential in English or Mathematics.
- 6. Junior Year Integrated Preparation Program (JYI):** Candidates earn a Bachelor's Degree in English or Mathematics and a Single Subject Credential in English or Mathematics.

To learn more about the Basic Credential Programs, those interested must complete an Information Session. This can be found on the Credential Office website. Participants view a PowerPoint presentation that covers topics including the Program application process, Program options and pathways, subject matter competence requirements, student teaching requirements and costs.

### Subject Matter Programs

The following Subject Matter Programs are active and accepting applicants as of the publishing of the Catalog: Art, English, Mathematics, Music, Physical Education, Social Science (History Department), and Spanish (MCLL Department). Students who complete these approved Programs will meet the subject matter requirement and waive the CSET requirement. Contact the specific Department Office for academic advisement relating to Subject Matter Programs. *Note: The Subject Matter Program may have additional courses beyond the major.*

### Subject Matter Programs with Admission and Sunset Dates Due to Program Changes

The following Subject Matter Programs are available only to those students whose course work meets the required admission and completion dates: Health, Home Economics, Science: Biological Sciences, Science: Chemistry, Science: Geosciences, Science: Physics, Social Science (Chicana/o Studies).

Candidates not enrolled in an approved Subject Matter Program may meet the subject matter requirement by passing the appropriate examination(s). Additional options exist for specialized science areas. See an advisor in the Credential Office for more information.

### Specialist Credentials

Many specialists in the public schools must earn Credentials or Certificates authorizing service in the area of specialization. Some authorizations are dependent upon the applicant holding a Prerequisite Credential. These include Clear Education Specialist, Reading and Literacy Leadership Specialist and Resource Specialist. CSUN offers the following Added Authorizations for Specialist Credentials: Adapted Physical Education, Autism Spectrum Disorder, Bilingual, Emotional Disturbance and English Learner (CLAD).

*Note: Not all specialist Credentials have the ability to add an authorization.*

### Service Credentials

Individuals providing certain school services, such as administration and pupil personnel, must hold a Credential authorizing that service. Services Credentials offered are Administrative Services, School Nurse, Pupil Personnel Services (including Counseling and School Psychology) and Speech- Language Pathology Services Special Class Authorization. Some Service Credentials require a prerequisite Credential. Please review specific Program requirements.

### CLAD Certificate through CTEL coursework

The CLAD Certificates authorizes instruction to English Learners (EL). Bilingual Authorization may be added to a Multiple, Single or Education Specialist Credential. It may also be completed simultaneously with the initial Basic Credential.

## Admission Requirements

### Key Definitions: Student Status

A distinction is made between an "applicant" and a "candidate." An individual who applies to a Program is considered an applicant, while an individual who is admitted to and enrolled in a Program is considered a candidate. An "admission date" is the date documented in the candidate's paper/electronic file that the members of the Selection, Admission and Retention Committee indicate their decision of applicant acceptance into a specific Credential or Certificate Program. This date does not change and is only linked to this particular Program. An "enrollment date" is the first day of the term to which an applicant has been admitted to a Credential or Certificate Program. For an applicant to a CSUN University Intern Program, the first day of the term is the issuance date of the Intern Credential. For all others, enrollment begins the first day of the term to which the applicant was formally admitted by the Credential Office to a Credential or Certificate Program. Students not meeting enrollment requirements or choosing not to enroll after acceptance may be subject to changes in admission and Program requirements. See University/College Policies Related to Credentials.

### Requirements for Application

Prospective students should submit a complete application packet before the priority submission date. After the priority date of March 1 for Fall term and Oct. 1 for Spring term, complete Credential or Certificate Program applications will be accepted by the Credential Office with no guarantee of Program admission, preferred term admission or priority registration date eligibility.

*Note: Credential and Certificate Program application requirements and deadline dates may change. Current Program applications are available in the Credential Office and online at [www.csun.edu/educ/cred](http://www.csun.edu/educ/cred).*

### All Credential Program applicants must submit:

- A completed application form typed electronically, printed and signed.
- Official transcripts from all schools and institutions attended. CSUN transcripts may be official or unofficial. Foreign transcripts must have a detailed evaluation from an approved agency. Contact the Credential Office for a list of approved agencies.
- Application processing fee in the form of a money order or cashier's check payable to CSUN. Cash or personal checks will not be accepted. This is a one-time, non-refundable fee, regardless of whether admission is completed.
- University application. If an applicant is currently enrolled as a graduate student in the University, Admissions and Records must be notified of the additional career objective (Credential or Certificate Program). If an applicant is not currently enrolled as a CSUN graduate student, an application must be submitted through CSU Mentor online at [www.csumentor.edu](http://www.csumentor.edu).
- Program-specific requirements. See below for additional requirements

### Additional Application Requirements for Basic Programs: Multiple Subject, Single Subject or Education Specialist Preliminary Credential

1. 2 letters of recommendation (Education Specialists will submit disposition forms instead).
2. Self Reflection form (Education Specialist only).
3. Tuberculosis clearance must be within the past 2 years.
4. Statement of Objectives indicating career goals and plans as a teacher.
5. Verification that the Basic Skills requirement has been attempted or passed (see exams section of the Program to which you are applying).
6. Verification of Completion of Early Field Experience (within the past 5 years and in the age/specialization of the students you plan to teach).

7. Valid CTC-issued Credential or Certificate (this differs from employment clearance).
8. Signed and dated Responsibilities Form.
9. Proof of Subject Matter Competency—See Basic Credential Section for more information (not applicable to blended programs for admission ECSE.)
10. Additional for Interns: Passage of Basic Skills requirement, knowledge of the U.S. Constitution, Bachelor's Degree, Intern Authorization for Employment form and Preservice Component form in addition to above requirements.
11. Additional for ACT: A separate application to the ACT Office in addition to above requirements.

#### Additional Application Requirements for Clear Education Specialist Credential (ECSE, DHH, MM and MS)

1. Copy of valid Preliminary or Level 1 Credential (not a Certificate of Eligibility).
2. 2 letters of recommendation (if Preliminary/Level I completed outside of CSUN).
3. Statement of Objectives (if Preliminary/Level I completed outside of CSUN).

#### Additional Application Requirements for Specialist Programs

##### Adapted Physical Education Added Authorization

1. Copy of valid Credential authorizing teaching of Physical Education.
2. 2 Letters of Recommendation.

##### Reading and Literacy Added Authorization

1. Verification of 1 year of full-time teaching experience (3 years needed to be recommended for the Authorization).
2. Copy of valid Basic Teaching Credential.  
*Note: Substitute teaching, tutoring or other experiences where you are not the teacher of record may not be used for experience.*

##### Reading and Literacy Leadership Specialist Credential

1. Verification of 1 year of full-time teaching experience (3 years needed to be recommended for the Authorization).  
*Note: Substitute teaching, tutoring or other experiences where you are not the teacher of record may not be used for experience.*
2. Copy of valid Basic Teaching Credential.

##### Resource Specialist Added Authorization

1. 2 Letters of Recommendation.
2. Copy of valid Basic Teaching Credential.
3. Copy of valid Special Education Credential.
4. Verification of at least 2 years of teaching experience (combination of regular and special education).

#### Additional Application Requirements for Service Credentials

##### Preliminary Administrative Services Credential

1. 2 Letters of recommendation from school administrators.
2. Copy of valid California Teaching Credential or appropriate alternate credential.
3. Verification that the Basic Skills requirement has been attempted or passed.

##### Clear Administrative Services Credential

1. Copy of Preliminary Administrative Services Credential (not a Certificate of Eligibility).
2. Verification of Employment (Form CL 777.1, available on the Credential Office website).

##### Speech-Language Pathology Services Credential

1. Valid CTC-issued Credential or Certificate.
2. Verification that the Basic Skills requirement has been attempted or passed.
3. Verification of admission to the Master of Science in Communication Disorders Program in Department of Communication Disorders and Sciences, College of Health and Human Development.

#### Pupil Personnel Services Credential: School Counseling or School Psychology

1. Valid CTC issued Credential or Certificate
2. Verification that the Basic Skills requirement has been attempted or passed.
3. Verification of Departmental admission.

#### School Nurse Services Credential

1. 2 letters of recommendation.
2. Copy of valid California Registered Nurse License.
3. Copy of valid Preliminary School Nurse Credential.

#### CLAD /English Learner Authorization/Other Added Authorizations

1. Copy of valid Credential.
2. Items described in appropriate brochure.

#### Admission Procedures

Once a completed application packet is submitted to the Credential Office, the packet's content and its representation of the applicant will be evaluated on the basis of academic achievement, commitment to teaching, and ability to communicate. *Note: It is to an applicant's benefit to submit a neat and orderly application packet.*

#### Interview

All applicants to a Basic Credential Program are required to complete a successful interview with the appropriate Department representatives prior to admission. Admission to a Credential Program will not be granted without a completed Interview Assessment Form on file in the Credential Office. You will be directed to the appropriate interview after submitting your complete application packet.

#### Grade Point Averages (GPA)

All applicants to a Basic Credential Program are expected to have a cumulative GPA of at least 2.67 in all Baccalaureate and Post-Baccalaureate course work or a GPA of at least 2.75 in the last 60 semester units attempted at the time of application submission. ITEP candidates are admitted using only the cumulative 2.75 GPA. All applicants to a Service or Specialist Program are expected to have a GPA of at least 2.75 for their last 60 credits of course work at the time of application submission.

#### Admission

When the members of the Selection, Admission and Retention Committee reach a decision, the applicant will be notified in writing by the Director of the Credential Office. If admitted, the applicant will be issued a letter by email indicating the decision. All official notifications from the Credential Office are in the form of email.

If an applicant does not meet admission requirements due to low GPA or not having passed appropriate exams, they may be considered under exceptional admission. The CSU System Executive Order 1032 allows a very limited number of candidates to be admitted to Basic Programs under exceptional admission. Typically, exceptional admission is available for only the Fall term.

After an applicant is formally admitted to a Program, the applicant becomes a Credential candidate. The candidate may then enroll in the required courses in the professional education sequence applicable to the desired Credential, Certificate or Authorization. An applicant not formally admitted to a Program is strongly discouraged from taking courses believed to count toward a Credential. State regulations and requirements may change with little or no notice. Without formal admission and enrollment, an applicant has no guarantee that courses taken will later apply to the desired Credential Program.

Admission to 1 term cannot be transferred or deferred to another term without formal written notification to and approval by the Credential Office. In this case, the applicant will be subject to a new "enrollment" date. If no notification and approval has transpired, the

applicant must reapply (including all fees) for a future term during the appropriate filing period. Students choosing to defer enrollment will need to check with Admissions and Records for details regarding University enrollment deference.

### Important Information

Public Law 107-110, the No Child Left Behind (NCLB) Act, demands that classroom teachers be certified as “subject matter competent.” For Multiple Subject Credential candidates, this competency may only be certified at this time by passage of an approved examination. For further information, visit the CTC website at [www.ctc.ca.gov](http://www.ctc.ca.gov).

### Required Exams

For specific requirements, check the individual Program for exams required for that Program. Exam contact information is available on the website.

### Basic Skills Requirement

This requirement may be met in several ways.

1. For those seeking a Multiple Subject Credential or an Education Specialist Credential who are planning to teach in grades K-6, the CSET Multiple Subject Exams (101, 102, and 103) combined with the writing exam (142) will satisfy the Basic Skills requirement.
2. For those seeking a Single Subject Credential or a Service or Specialist Credential that requires the Basic Skills requirement to be met, the California Basic Educational Skills Test (CBEST) is the exam most commonly used.
3. For those who have passed a Basic Skills Exam in another state, a list is available in the Credential Office of those exams deemed equivalent. For those who have completed a Bachelor’s Degree through a different CSU campus, please see the website for additional options.

### California Subject Examinations for Teachers (CSET)

All Multiple Subject candidates and Education Specialist candidates who are planning to teach in grades K-6 must pass the CSET Multiple Subjects (Exams 101, 102 and 103) to satisfy the subject matter requirement.

Single Subject candidates and Education Specialist candidates who are planning to teach in a departmentalized setting, typically grades 7-12, who will not be completing a Subject Matter Program must pass the CSET exams required for the subject area in which they plan to teach. Exam information specific to the subject is available in the Credential Office as well as online at [www.nesinc.com](http://www.nesinc.com).

Candidates with a BCLAD emphasis must pass the CSET:LOTE in their target language: Test II for Armenian; Test III for Korean or Spanish. This Program will no longer admit students after Fall 2010 and must be completed by Dec. 31, 2012.

*Important note: All CSET exams have a 5-year validity period and must be used with a Credential recommendation during that time. Exams exceeding 5 years will require repeating prior to student teaching or Credential recommendation.*

### Reading Instruction Competence Assessment (RICA)

All Multiple Subject and Education Specialist candidates must pass the RICA requirement prior to being recommended for their Credential (not required for ECSE).

*Note: Education Specialist candidates who are determined Pre-Lingually Deaf may be eligible for waivers of the Basic Skills requirement and RICA. Contact the Credential Office for further information.*

*Important Note: All RICA exams have a 5-year validity period and must be used with a Credential recommendation during that time. Exams exceeding 5 years will require repeating prior to recommendation.*

### SB 2042: Multiple Subject and Single Subject Clear Credential

Many Multiple Subject and Single Subject Preliminary Credential holders will earn their Clear Credential through a district induction program. It is anticipated that by Fall 2012, CSUN will offer a Clear Induction Program for Multiple and Single Subject Credentials.

### University and College Policies Related to Credentials

Generally, the policies upheld by the Credential Office parallel, supplement and complement those of the University. Currently, policies regarding field work, student teaching, risk management, deferred admission, probation and academic disqualification, among others, are revised as needed to stay current with University policies. Check with the Credential Office and with Department websites for specific information. In keeping with current practices at our local public school districts, all Credential candidates and students completing Pre-Credential courses that require field work must obtain a Certificate of Clearance before they begin field work. For information on how to obtain a Certificate of Clearance, visit the Credential Office website at [www.csun.edu/educ/cred/applications](http://www.csun.edu/educ/cred/applications), and scroll to the bottom of the page. Be aware that this may take a couple of weeks to be granted.

Candidates applying for Credentials, Authorizations and Certificates must meet legal requirements and are governed by CSUN policies and regulations in effect since their most recent enrollment dates, regardless of when their Programs were initially started. The enrollment date is defined as the first day of the term to which an applicant has been admitted. Due to the possibility of state changes in Credential and Certificate Program requirements, students are encouraged to visit the Credential Office website regularly for the most recent Program information.

A Credential or Certificate candidate who takes at least 1 course or attempts to complete at least 1 Program requirement during at least 1 term per academic year and keeps the Credential Office informed of this progress with documented evidence is considered an “Active Candidate.” A Credential or Certificate candidate who appears to not be “active” for 3 consecutive terms is considered an “Inactive Candidate.” Once admitted to and enrolled in a Credential, Authorization or Certificate Program, a candidate in good standing may be CSUN inactive for 2 consecutive semesters without detriment or approval. If the candidate does not become both University and Credential Program active by the conclusion of the third consecutive semester, the candidate will be involuntarily withdrawn and dis-enrolled from the Program. The candidate must reapply for admission to both the University and the Credential Office, including paying applicable fees. If admitted, the candidate has a new “enrollment” date and is subject to Program requirements effective with the new “enrollment” date related to NCLB and CTC timelines and requirements. Information is available at the Credential Office as well as on our website. Applicants and candidates are responsible for keeping abreast of all requirements applicable to their desired Credentials or Certificates.

### Credential Candidate Expectations

Given appropriate information and materials related to requirements, regulations and policies, Credential candidates will complete and submit program applications, make timely progress in their selected Programs and submit Student Teaching and Credential requests before posted deadlines.

### Maintaining Grade Point Average (GPA)

After admission, candidates must maintain an overall GPA of 2.75 for all course work taken after enrollment and must maintain a 3.0 GPA for all professional education course work. A minimum grade of “C” or better is required in all courses. Academic Departments may have different minimum GPA requirements in subject matter areas. Check with the applicable Department for any additional GPA requirements.

Students who fail to earn a grade of “C” or better in a Credential Program course may be eligible to retake the course with prior written permission. Refer to the Office of Graduate Studies, Research and International Programs and check with the Credential Office for current policies.

#### Time Limits

CSUN course work more than 7 years old is considered expired unless a lesser time is specified by the applicable academic Department. Professional education courses completed more than 7 years prior to the date the Program was completed and regardless of attended Post-Secondary institution cannot be counted to meet any Credential requirements.

Test scores do have a validity period. In other words, some test scores have expiration dates. It is the applicant’s and candidate’s responsibility to submit all required test scores to the Credential Office and be aware of expiration dates. CSET and RICA have a 5-year validity period. CBEST does not expire at this time. Usage of the exam on a valid Credential stops the expiration. An example of that would be an Intern Credential. Once applied to a Credential, the score remains valid.

The Multiple Subject and Single Subject Programs can be completed in 1 year of full-time enrollment. Typically, candidates take 3 semesters to complete studies. The Education Specialist Programs can usually be completed in 3 to 4 semesters. With changes due to laws and regulations always possible, as well as exam score expirations, it is to a candidate’s advantage to complete the Credential Program in a timely fashion.

The Credential Office has the responsibility of processing all applications to Credential and Certificate Programs and making all recommendations for state-issued Credentials, Authorizations and Certificates. It is imperative that all deadlines are enforced and requirements are documented as fulfilled in a timely manner to ensure an efficient and effective process. Applicants and candidates are responsible for keeping abreast of all deadlines applicable to their desired Credentials or Certificates. Information is available in the Credential Office and its website. Important timely notifications of changes or deadlines are provided by email as well as through postings on the Credential Office website.

#### Candidate Assessment, Evaluation and Teaching Performance Expectations

CSUN is committed to the concept that continuous screening, assessment and evaluation are necessary to ensure candidates who complete Credential, Authorization and Certificate Programs are well-prepared. All candidates should expect to be evaluated for possession of basic skills, personal qualifications, disposition and performance factors in addition to successful completion of required courses. All candidates in the Multiple and Single Subject Preliminary Credential Programs, regardless of pathway, must successfully complete the PACT Assessment prior to recommendation of their Credential.

In evaluating these factors, the Michael D. Eisner College of Education may determine that a particular candidate does not possess or exhibit these attributes in sufficient quantity/quality to permit the candidate to continue in the Program. For example, unsuccessful student teaching assignments will be followed by a review of the candidate’s performance. A procedure exists by which a review of the candidate’s qualifications can be initiated and a decision made concerning involuntary withdrawal of the candidate. The rights of candidates are protected, including the right to examine all documentation presented in support of withdrawal and to confront witnesses supporting the withdrawal. The decision of the College’s Selection, Admission and Retention Committee is final. Details are available in the Credential Office.

#### Conviction Records

As a part of the admission process, applicants are advised that conviction records may prevent an applicant from being admitted to a Program or being eligible to be recommended for a state document. Although a wide variety of convictions will not prevent admission or issuance of a Credential or Certificate, the Education Code does stipulate that certain conviction records will mandate the denial of a Credential or Certificate.

Applicants who do not already hold a valid CTC Credential or Certificate will be required to secure a Certificate of Clearance from the CTC prior to admission. Candidates who develop a conviction record during Program matriculation must notify the Credential Office immediately and may be disqualified from their Programs.

#### Credential Recommendation and Processing

**When to Apply:** Candidates are to submit a request for their Credential or Certificate to be processed during the first 2 or 3 weeks of the semester they expect to complete their Program. *Note: All requirements except course work in progress must be completed prior to submitting the Credential request.*

#### Complete Credential Request

The Credential Office processes all applications. Requests are processed based on the date they are verified as “complete.” When submitting the Credential Request form, applicable transcripts and any other item(s), a checklist is used by a credential analyst to verify all required items (including passing scores of all required tests) have been submitted and completed appropriately. If something is missing or incomplete, the candidate will be notified by email. *Note: The candidate’s file will not be evaluated for qualification for a Credential or Certificate recommendation at the time of request submission.*

Once the Credential Request form is received, it is reviewed to determine that all requirements have been met for the requested Credential. The length of time between verifying a “complete” file and generating an “electronic recommendation” depends upon the time of year and the volume of applications. Because of the time involved in processing a Credential or Certificate application from submission of request to Credential recommendation, the Credential Office strongly encourages candidates to be aware of all deadlines. Credential requests are processed in the order that they are received. Candidates should not wait until the last minute to apply for a Credential or Certificate. An early submission of your request will assist us in meeting your employment-verification needs.

## Post-Baccalaureate University Certificate Programs

University Certificate Programs are academic-credit Certificate Programs designed to provide an integrated and focused program of study in selected academic fields. Designed to allow those in different majors to add an area of professional expertise to their Credentials, University Certificates are added and updated to offer highly valued fields of study in the contemporary marketplace. They also allow those with advanced degrees to add fields of study to their academic record, thus allowing them to enrich or shift their career options or advance in their current professions.

Those who complete University Certificate Programs successfully have the award of the University Certificate noted on their transcripts and they are issued a formal University Certificate approved by the Office of Graduate Studies and signed by the University President. The Post-Baccalaureate University Certificates currently offered are listed below.

For detailed information on all of the following the Post-Baccalaureate Certificate Programs, visit [www.csun.edu/graduatestudies](http://www.csun.edu/graduatestudies).

### Board Certified Behavior Analyst

This Post-Master's Certificate Program has its academic home in the Psychology Department of the College of Social and Behavioral Sciences. For questions, contact Program Director Ellie Kazemi at (818) 677-7224 or by email at [ellie.kazemi@csun.edu](mailto:ellie.kazemi@csun.edu).

### Graduate Certificate in Business Administration

This Certificate Program has its academic home in the College of Business and Economics. For questions, contact Academic Director Deborah Cours at (818) 677-2467 or by email at [dcours@csun.edu](mailto:dcours@csun.edu).

### California Teachers of English Learners (CTEL) Certificate Program

This Certificate Program is for the Departments of Elementary and Secondary Education. For more information, contact the Office of Elementary Education at (818) 677-2621, Education (ED) 1206; or the Office of Secondary Education at (818) 677-1200, Education (ED) 1204.

### Career Development or Career Education and Counseling

This Post-Master's Certificate Program has its academic home in The Michael D. Eisner College of Education. For questions, contact Greg Jackson at (818) 677-4977 or by email at [gregory.jackson@csun.edu](mailto:gregory.jackson@csun.edu).

### College Counseling and Student Services

This Post-Masters Certificate Program has its academic home in The Michael D. Eisner College of Education. For questions, contact Merrill Simon at (818) 677- 2558 or by email at [merril.simon@csun.edu](mailto:merril.simon@csun.edu).

### Communications and Conflict Management

This Certificate Program has its academic home in the Mike Curb College of Arts, Media and Communication. For questions, contact Program Director Henrik Minassians at (818) 677-4618 or by email at [henrik.minassians@csun.edu](mailto:henrik.minassians@csun.edu).

### Early Intervention for Children with Special Needs/Birth to 5 Years

This Certificate, also referred to as the Advanced Certificate in Transdisciplinary Intervention, has its academic home in The Michael D. Eisner College of Education. For questions, contact the Special Education Department at (818) 677- 2596.

### Educational Therapy

This Post-Master's Certificate Program has its academic home in The Michael D. Eisner College of Education. For questions, contact

Educational Therapy Advisor Marcy Dann at (818) 677- 4161 or by email at [marcy.dann@csun.edu](mailto:marcy.dann@csun.edu).

### Gerontology

This Certificate Program has its academic home in the College of Health and Human Development. For questions, contact Academic Director Debra Sheets at (818) 677-2344 or by email at [debra.sheets@csun.edu](mailto:debra.sheets@csun.edu).

### Health Policy/Management Certificate Program

The Health Policy and Management track is structured to enhance students' and health-care professionals' expertise for assessing health policy. The objective is to develop leadership roles in the analysis, implementation and management of public-health policies and programs. The comprehensive study in this Program centers on critical health policies and management issues in both the public and private sectors.

### Infant-Toddler-Family Mental Health

This Certificate Program has its academic home in The Michael D. Eisner College of Education. For questions, contact Carrie Rothstein-Fisch at (818) 677-2529 or by email at [carrie.rothstein-fisch@csun.edu](mailto:carrie.rothstein-fisch@csun.edu).

### Instructional Design and Adult Development

This Online Certificate Program has its academic home in The Michael D. Eisner College of Education. For questions, contact Carolyn Jeffries at (818) 677-2835 or by email at [carolyn.jeffries@csun.edu](mailto:carolyn.jeffries@csun.edu).

### Non-Profit Sector Management

This Certificate Program has its academic home in The Tseng College. For questions, contact Senior Program Coordinator Patti Burleson at (818) 677-3217 or by email at [patti.burleson@csun.edu](mailto:patti.burleson@csun.edu).

### Parent-Child Specialization/Consultation

This Post-Master's Certificate Program has its academic home in The Michael D. Eisner College of Education. For questions, contact Carrie Rothstein-Fisch at (818) 677-2529 or by email at [carrie.rothstein-fisch@csun.edu](mailto:carrie.rothstein-fisch@csun.edu).

### Performance Measurement and Productivity in the Public Sector

This Certificate Program has its academic home in The Tseng College. For questions, contact Senior Program Coordinator Patti Burleson at (818) 677-3217 or by email at [patti.burleson@csun.edu](mailto:patti.burleson@csun.edu).

### Quality Management

This Certificate Program has its academic home in the Department of Manufacturing Systems Engineering and Management in the College of Engineering and Computer Science. For questions, contact the academic director at (818) 677-2167 or by email at [msem@csun.edu](mailto:msem@csun.edu), or visit [www.csun.edu/~msem](http://www.csun.edu/~msem).

### Reasoning, Writing and Research for Professionals

This is an on-campus Certificate Program. For questions, contact Jennifer Kalfsbeek at (818) 677-3332 or visit <http://tsengcollege.csun.edu/certs-gradcred.html>.

### Urban Planning

This Certificate Program has its academic home in The College of Social and Behavioral Sciences. For questions, contact Program Director Henrik Minassians at (818) 677- 4618 or by email at [henrik.minasians@csun.edu](mailto:henrik.minasians@csun.edu).

## Special Programs

Center for Innovative and Engaged Learning Opportunities (CIELO)

**Coordinator: Cheryl Spector**

**Sierra Hall (SH) 422, 433-443**

**(818) 677-6535**

**[www.csun.edu/cielo](http://www.csun.edu/cielo)**

The mission of the Center for Innovative and Engaged Learning Opportunities (CIELO) is to enhance teaching in support of meaningful, deep and sustained learning experiences while supporting the scholarship of teaching, learning and engagement. CIELO brings together four CSUN Programs: Faculty Development, New Faculty, Community Engagement and Academic First-Year Experiences, described individually below. Founded on the belief that enhanced and improved teaching has a direct and positive impact on student learning and satisfaction, CIELO helps create learning environments that take full advantage of the University's distinguished faculty, the scholarship of teaching and learning and the surrounding community.

### Academic First-Year Experiences

**Sierra Hall (SH) 437**

**(818) 677-6535**

**[www.csun.edu/afye](http://www.csun.edu/afye)**

The Academic First-Year Experiences Program includes University 100 (The Freshman Seminar); the cohorted classes in the Freshman Connection; the First-Year Experience Living Learning Community; the Freshman Common Reading Program; the Freshman Faculty Series; and additional academic Programs serving significant numbers of first-year students and the faculty and staff who work with them.

**Mission:** The mission of the Office of Academic First-Year Experiences is to develop, support, assess and improve both teaching and learning in freshman courses and in academic Programs serving first-year students across the University.

**Activities:** We sponsor workshops, presentations and other programs for CSUN faculty and other campus community members interested in the activities and ideas of the First-Year Experience, including student engagement, linked and cohorted courses, interdisciplinary collaboration and learning-centered pedagogy. We encourage campus-wide dialogue and collaboration among faculty, staff and administrators who work intensively with first-year students.

**Advisory Committees:** The Freshman Seminar Steering Committee includes faculty members, administrators and Advising and Student Affairs representatives. The Steering Committee of the First-Year Experience Living Learning Community includes Residence Life staff, RAs, faculty, representatives from the Career Center and Student Affairs, and (from time to time) first-year residents of the FYE LLC. The Freshman Common Reading Program Selection Committee includes the First-Year Experience librarian, the director of Academic First-Year Experiences and a group of dedicated volunteer faculty, staff, administrators and students.

### Community Engagement

**Director: Joyce Burstein**

**Managing Director: Merri Whitelock**

**Sierra Hall (SH) 443**

**(818) 677-7395**

**[www.csun.edu/community\\_engagement](http://www.csun.edu/community_engagement)**

Community Engagement offers course-based, credit-bearing educational experiences that allow students to participate in a faculty-organized community-learning opportunity that:

- Addresses community needs identified by a not-for-profit community.
- Fulfills identified and course-specific learning objectives.
- Engages students throughout the semester.
- Incorporates shared and learning, structured reflection and problem-solving as to gain further understanding of course content.
- Encourages students to become participants in their community.

### Faculty Development

**Director: Daisy Lemus**

**Associate Director: Janet Oh**

**Director of New Faculty Orientation: Whitney Scott**

**Sierra Hall (SH) 437**

**(818) 677-6536**

**[www.csun.edu/facdev](http://www.csun.edu/facdev)**

Faculty Development is dedicated to supporting faculty in their multiple roles as teachers, scholars, artists and members of the University's academic community. Its goals are to promote effective teaching and learning practices, foster professional growth, strengthen collegial ties and support the scholarship of teaching and learning.

The office is responsible for coordinating new faculty orientation programs; designing workshops, seminars, discussions and learning communities for CSUN faculty to meet Faculty Development's goals; coordinating the selection of recipients of funding for Judge Julian Beck Learning-Centered Instructional Projects (Beck Grants) and Probationary Faculty Grants; and providing resources on best practices in teaching and learning.

### China Institute

**Sequoia Hall (SH) 293**

**(818) 677-3939 or 2138**

**[www.csun.edu/china\\_institute](http://www.csun.edu/china_institute)**

**E-mail: [zsu@csun.edu](mailto:zsu@csun.edu)**

The China Institute facilitates and coordinates CSUN activities related to Chinese institutions. Ongoing activities include exchange of professors, students, scholars, performing artists, books, films and facilities; conducting study and culture tours; coordinating conferences, seminars, lecture series, symposia and internship/trainee programs; and facilitating cooperative research projects and technology transfers. Undergraduate and graduate students interested in pursuing research or study in China on an individual basis may contact the Institute. Faculty grants also are available for those interested in conducting comparative studies in China.

## General Education Honors Program

(818) 677-2969

Fax: (818) 677-3977

[www.csun.edu/gehonors](http://www.csun.edu/gehonors)

The General Education Honors Program offers high-achieving CSUN students a diverse, enriched academic experience in General Education that promotes the fullest development of students' academic potential. General Education Honors students enroll in special sections of GE courses taught by outstanding CSUN faculty. GE Honors courses satisfy required areas of the University's General Education Program.

Each GE Honors course receives a special designation on the academic transcript. In addition, students who meet the following requirements will receive an Honors Certificate at the time of graduation:

1. Complete 15 units of GE Honors courses;
2. Receive a grade of "B" or better (3.0 GPA) in GE Honors courses; and
3. Maintain an overall GPA of 3.3 in all work completed at the University.

GE Honors Students have opportunities to participate in the annual CSU Honors Conference, the GE Honors Faculty Lecture Series, special workshops on graduate school and career planning, and more. The GE Honors Program also organizes community service and cultural events both on and off campus. GE Honors Students also may join the Honors Living Learning Community, a special floor in the dorms for GE Honors students.

### Admission to the General Education Honors Program:

Continuing students at CSUN are invited to participate on the basis of an overall GPA of 3.5 or higher in work completed at the University. Northridge Presidential Scholars are eligible and are encouraged to join the GE Honors Program.

Students transferring from other colleges or universities are invited to participate on the basis of an overall GPA of 3.5 or higher in college work. Students who have transferred with course credits in Honors from community colleges or other four-year institutions should consult with the Director concerning the application of those credits toward satisfying the requirements for the GE Honors Certificate. In such cases, normally at least 9 units of GE Honors credit earned at CSUN will be required.

## The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU) system. Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue studies abroad for a full academic year. More than 20,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. International Programs serves the needs of students in more than 100 designated academic majors. Affiliated with more than 50 recognized universities and institutions of higher education in 18 countries, International Programs also offers a wide selection of study locales and learning environments.

### Australia

Griffith University, Macquarie University, Queensland University of Technology, University of Queensland, University of Western Sydney, Victoria University

### Canada

Concordia University (Montréal)

### Chile

Pontificia Universidad Católica de Chile (Santiago)

### China

Peking University (Beijing), Shanghai Jiao Tong University (Shanghai)

### Denmark

Danish Institute for Study Abroad (international education affiliate of the University of Copenhagen)

### France

Institut Catholique de Paris, Université de Provence (Aix-en-Provence), Universités de Paris I, III, IV, VI, VII, VIII, X, XI, XII, XIII, Université Paris-Est Marne-la-Vallée, Université d'Evry Val d'Essonne and Université de Versailles Saint-Quentin-en-Yvelines

### Germany

University of Tübingen, and a number of institutions of higher education in the state of Baden-Württemberg

### Ghana

University of Ghana (Legon)

### Israel

### Spain

Universidad Complutense de Madrid, Universidad de Granada

### Sweden

Uppsala University

### Taiwan

National Taiwan University (Taipei), National Tsing Hua University (Hsinchu)

### United Kingdom

Bradford University, Bristol University, Hull University, Kingston University, Swansea University

International Programs pays all tuition and administrative costs for participating California resident students to a similar extent that such funds would be expended to support similar costs in California. Participants are responsible for all tuition and program fees and personal costs, such as transportation, room and board, and living expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students.

To qualify for admission to the International Programs, in most Programs students must have Upper Division or graduate standing at a CSU campus by the time of departure. Students at the sophomore-level may, however, participate in the intensive language acquisition programs in Canada, China, France, Germany, Mexico, South Korea, Sweden and Taiwan. California community college transfer students are eligible to apply directly from their community colleges. Students also must possess a current cumulative GPA of 2.75 or 3.0, depending on the Program for which they apply. Some Programs also have language study and/or other course work prerequisites.

Additional information and application materials may be obtained on campus or by writing to The California State University International Programs, 401 Golden Shore, 6th Floor, Long Beach, CA, 90802-4210. For more information, visit [www.calstate.edu/ip](http://www.calstate.edu/ip).

### International and Exchange Student Center (IESC)

**Administrator in charge: Dr. Marta Lopez**

**University Student Union, Building C**

**(818) 677-3053**

**[www.csun.edu/international](http://www.csun.edu/international)**

The International and Exchange Student Center (IESC) provides services to all international students after they have been formally admitted to the University. The Office will assist international students in: 1) Referring them to the appropriate Departments for academic advising in General Education and their major field of study; 2) Complying with the laws and regulations of the U.S. Immigration and Naturalization Service; and 3) Assisting with students' academic or personal concerns. An international orientation program for all new freshman and transfer students also is offered each semester.

The Office also coordinates cultural and social events so that international students can share their national heritages with the campus educational community. The International Mentor Program, Student Programs for International Curricular Education (SPICE), a weekly coffee hour on Fridays at noon, tutoring in English and Math and the Phi Beta Delta Honor Society are some of the highlights of the IESC.

Opportunities to both study abroad or to take a semester to attend another U.S. campus for a semester or a year on exchange also are available through this office. To qualify for admission to the International Study Abroad Programs, students must have Upper Division or graduate standing at a CSU campus by the time of departure. Students at the sophomore-level may, however, participate in the language acquisition programs in France, Germany and Mexico.

California community college transfer students are eligible to apply directly from their community colleges after they have applied to CSUN and have been or are in the process of being admitted to the University. Students also must possess a current cumulative GPA of 2.75 or 3.0, depending on the Program for which they apply. Some Programs also have language study and/or other course work prerequisites.

To qualify for admission to the National Student Exchange Program, students must have a cumulative GPA of 2.5 or higher. Through National Student Exchange, CSUN student have access to more than 190 campuses nationwide. Students can participate in this Program for 1 semester or a maximum of 1 academic year.

Additional information and application materials for Study Abroad and Exchange Programs may be obtained at SDIP.

### Learning Resource Center

**Director: Rashawn Green**

**(818) 677-2033**

**Fax: (818) 677-3632**

**[www.csun.edu/lrc](http://www.csun.edu/lrc)**

The Learning Resource Center (LRC) serves students needing assistance in courses or desiring to improve such skills as reading, writing, note taking, test taking and study strategies—skills necessary for effective university-level learning. The LRC also provides services that support, supplement and enrich the University's regular academic curriculum.

**Writing Center:** Writing Center consultants help students with academic, professional and personal writing, such as essays, reports, research papers, business letters, resumes and more. They also work with students to develop effective strategies for time management, critical reading, note taking and test taking. Additionally, consultants assist students preparing to take the Upper Division Writing Proficiency Examination. An appointment is necessary: Walk-ins are accepted wonly hen appointments are not booked.

**Writing Lab:** Peer tutors work with students enrolled in Stretch Composition (AAS, CAS, CHS, ENGL, PAS and QS 113, 114 or 115), as well as students enrolled in University 100—The Freshman Seminar. In addition to assisting students with their writing process, tutors can help students develop effective study strategies. Some computers are available for student use. The Writing Lab operates on an appointment and walk-in basis.

**Supplemental Instruction for Approaches to University Writing 113:** UNIV 061/062 is a mandatory corequisite course for students enrolled in AAS, CAS, CHS, ENGL, PAS or QS 113A/B. Students receive a maximum of 1 additional unit of non-Baccalaureate credit per semester. UNIV061/062 SI sessions are led by experienced peers who have been successful in writing courses. SI sessions support students in their critical reading, expository writing and research skills.

**Supplemental Instruction:** Supplemental Instruction (University 060) is an academic-assistance program designed to help students master difficult course material in historically challenging classes. Students participate in a series of weekly peer-facilitated small-group study sessions that focus on learning strategies and problem-solving skills specific to the corresponding lecture course. Students enroll in University 060 for 1-unit, non-Baccalaureate credit.

**Subject Area Tutoring Lab:** The SAT Lab offers individual and small-group tutoring for such subjects as Biology, Chemistry, Economics and Physics, as well as numerous Math courses, including algebra, calculus and statistics. The SAT Lab operates Monday-Friday. No appointment is necessary.

### Program for Adult College Education (PACE): Business PACE

The Program for Adult College Education (PACE) at CSUN is an Upper Division accelerated course of study geared to meet the needs of the motivated and fully employed student who wants to graduate within 2 years with a Baccalaureate Degree. PACE is available to Business students majoring in Finance or Marketing. Students in this cohorted Program complete their Business requirements through 4 classes each semester, taking 2 at a time during 8-week periods. Classes meet for 2 hours each on one evening per week and for 4 hours each on 4 Saturdays during the 8-week period. Each class includes distance learning to replace seat hours. Applicants to the Program must have been accepted at CSUN, completed Lower Division Business Core and GE certification, and have a cumulative GPA of at least 2.7. Contact the Business PACE Office for more information or go online to [www.csun.edu/~buspace](http://www.csun.edu/~buspace). PACE for Business majors: Call (818) 677-2467 or send email to [bus.pace@csun.edu](mailto:bus.pace@csun.edu)

### Reserve Officers Training Corps (ROTC) Program at CSUN, UCLA Army

**Director: First Lt. Sidney Mendoza**

**(818) 677-7855**

**Fax: (818) 677-0119**

**<http://csunrotc.org>**

**Email: [sidmendoza@milsci.ucla.edu](mailto:sidmendoza@milsci.ucla.edu)**

Students attending CSUN or surrounding community colleges can participate in the UCLA Army ROTC Program at CSUN. For more information, call, email or visit us at the ROTC Office on campus, located in Building AD 710B near the northwest corner of the University Hall parking lot.

### Reserve Officers Training Corps (ROTC) Program, Air Force

**Director: Lt. Col. William D. Heuck, USAF Commander**

**(310) 825-1742**

**[www.afrotc.ucla.edu](http://www.afrotc.ucla.edu)**

Air Force Reserve Officer Training Corps (AFROTC) consists of a 1-credit academic course for first and second year students and a 3-credit course for third and fourth year students. All students also participate in a weekly 2-hour leadership laboratory. Undergraduate students attending CSUN can participate in AFROTC at UCLA. For more information, contact the AFROTC Det 055 (UCLA) Recruiting Flight Commander at (310) 825-1742.

### Southern California Marine Institute (SCMI)

**Director: Dr. Larry G. Allen**

**(310) 519-3172**

**CSUN Science and Mathematics College Dean: Jerry Stinner**

**(818) 677-2005**

**[www.scmi.us](http://www.scmi.us)**

CSUN is a member of the Ocean Studies Institute (OSI) which is composed of the 8 CSU's in southern California. OSI is a major partner in the Southern California Marine Institute (SCMI), a consortium combining the marine resources of OSI and several other universities in southern California. SCMI operates a small marine laboratory in Los Angeles Harbor and 1 coastal research vessel, the R/V Yellowfin. SCMI also has a substantial amount of gear, equipment and a fleet of smaller boats to support teaching and research. OSI offers a Marine Biology Semester for CSU students every Fall semester at the Wrigley Marine Science Center on Santa Catalina Island. OSI also runs an AAUS Scientific Research Diving Program for CSU faculty, staff and students. OSI/SCMI coordinates various educational and research activities for marine scientists and engineers. Science programs utilize these facilities and individual students gain access to the Institute operations through courses and independent study.

### Special Major

The Special Major is designed to meet the academic needs of students whose educational goals require study in at least 3 academic disciplines and cannot be achieved within the framework of existing majors and minors and within 120 units. The Special Major consists of a minimum of 44 units and a maximum of 66 semester units, 24 of which must be at the Upper Division-level. Courses used to satisfy General Education requirements may not apply toward the Special Major. Applicants must have a 2.5 cumulative GPA and apply for the Special Major before they have earned 80 units. For details on application procedures, contact the Office of Undergraduate Studies.

## Course Numbering System

**001-099** Courses that carry no credit toward a degree or credential. Generally remedial or subcollegiate-level in content.

**100-199** Lower Division, introductory courses that constitute the beginning of college work in a major or in general education and which require no previous college experience. Open to Upper Division students.

**200-299** Lower Division courses of freshman and sophomore level. Open to Upper Division students. Constitute intermediate step between beginning and advanced work in a given field; general education courses that require previous college experience; courses that develop advanced skills; courses with specific prerequisites.

**300-399** Upper Division courses, normally taken by junior and senior students, which do not give credit toward a master's degree. Sophomore students may enroll in 300-level courses, but freshmen may not without special permission. Advanced courses constructed upon Lower Division work; traditional survey courses whose breadth tends to preclude depth; Upper Division prerequisites to specialized work in a major; general education courses for Upper Division students; core courses in professional education; the highest number for courses primarily concerned with development of skills.

**400-499** Upper Division courses that may, with approval, give credit toward a master's degree if taken as a post-graduate. Limited to more advanced courses, normally taken by senior and graduate students, which have content that requires a high degree of intellectual maturity on the part of the student. Should also meet one or more of the following specific criteria: a) have specific prerequisites at the 100-200 level; b) be supported by a substantial body of 100-300-level offerings from which a student could normally be expected to gain adequate background for the 400-level course; c) be restricted in scope, aiming at depth rather than breadth.

**500-599** Courses intended primarily for graduate students that may be taken by advanced undergraduate students for baccalaureate credit. Content requires significant independent thinking on the part of the student and offers opportunity for research. Should also meet one or more of the following criteria: a) have specific prerequisites at the 400 level; b) be supported by a substantial body of 300-400-level offerings from which a student could normally be expected to gain adequate background for the 500-level course; c) be especially designed for a graduate curriculum (e.g., an introductory course to current topics in the field).

**600-699** Courses limited to graduate students. Intended mainly for masters and credential programs; may be taken as part of a doctoral degree with approval.

**700-799** Courses limited to graduate students. Intended mainly for doctoral programs; may be taken as part of a master's degree with appropriate approval.

**800-899** Courses specifically designed for professional groups seeking vocational improvement or career advancement. Credit for these courses does not apply toward degrees or credentials at this University.

## Online Course Designations

1. A Fully Online Class is an online course offering in which all class sessions and exams are presented in an online environment. If a course meets at a specified time online, the course should list the day of the week and time in the Schedule of Classes. Fully online courses have no on campus meetings.
2. A Campus Online Class is an online course offering in which most class sessions are presented in an online environment. Any face-to-face meetings are usually for activities such as orientation, special in-class presentations, exams or other in-class proofs of competency.
3. A Hybrid Class is a course offering in which students attend class sessions on campus and in an online environment. The class typically meets approximately half online and half on campus..
4. A Traditional Class is a course offering in which all or most of the class sessions take place on the CSUN campus. Most CSUN courses make use of some web-based tools to supplement or enhance a course, so even a traditional class may include online components and activities (e.g., view a syllabus, take quizzes/exams, participate in discussions).

## Course Types

**Academic Internships:** Many departments and programs offer special undergraduate courses in which students earn academic credit for formally supervised experience outside the traditional university classroom. Students work with faculty and internship hosts to plan, process and evaluate the learning resulting from internship/clinical practica. CSUN recognizes that laws and regulations reserve certain rights for external agencies that consider acceptance of a student into a paid or unpaid internship or practicum. If a student is not accepted into a placement because of these factors, a department or program may, but is not required to, suggest an alternate placement option or design an alternate experience to meet the curricular requirement. However, it is the student who has the responsibility, not CSUN, to demonstrate that all requisite requirements to achieve a successful placement are met.

All Academic Internship courses are governed by the Academic Internship Policy and are required to include (among other elements) a clear relationship to the academic discipline(s) offering the course; a screening or selection procedure for students wishing to enroll; a written learning agreement to formalize the internship experience; and facilitation of learning by the course instructor, including both writing assignments and seminars or other group meetings. Normally, a student may count no more than 6 units of Academic Internship course credit for their degree. (See Academic Internship Policy under Policies and Procedures for full details.)

**Independent Study Courses:** Enrollment in Independent Study (499, 599, 699 courses) is by permission of the department chair and consent of an instructor to act as a sponsor. Admission is based on evidence of ability to pursue independent study in depth and approval of a project submitted at the time of registration. Students who are on probation or who have not completed academic disqualification readmission requirements may not enroll in Independent Study courses. Regular progress meetings and reports are required before credit can be received. The maximum number of units of credit in Independent Study courses that can be counted toward the baccalaureate degree is 6 units in a major and 3 additional units outside the major. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. Not available for General Education.

**Individual Study Courses:** Enrollment in Individual Study is by permission of the department chair and consent of an instructor to act as sponsor. Individual study courses may be taken only in substitution for approved courses which are not available during the semester of enrollment. A maximum of 6 units of credit in Individual Study may be earned in a single department. Enrollment in Individual study courses must be completed during the first three weeks of instruction. Not available for General Education.

**Experimental Topics Courses:** Every department is entitled to offer Experimental Topics courses under the numbers 196A-Z, 296A-Z, 396A-Z, 496A-Z, 595A-Z and 695A-Z.

## Course Requisites: Definitions of Terms

**Prerequisite:** A course/condition\* that must be completed/met prior to enrollment in another specified course. Enrollment in prerequisite course/condition\* groupings is enforced by SOLAR. An unmet or non-completed prerequisite course/condition\* will bar a student's enrollment in a course.

**Corequisite:** A course/condition\* for which concurrent enrollment in another affiliated course is mandatory. Corequisite courses must always be offered in the same semester (usually lecture/lab). Students are required to enroll in corequisite course groupings through SOLAR. NOTE: Corequisite courses that are recommended should be designated as "Recommended Corequisites."

**Multiple Component Course:** A component course is a graded lecture class that has a required non-graded 0-unit lab or discussion. To enroll in component classes, enter the class number of the lab or discussion and the system will automatically enroll you in the lecture class.

**Preparatory:** A course/condition\* that is recommended to be completed/met prior to enrollment in another course.

*\*Examples of prerequisite "conditions" include "class level," a specific examination score, a specified passing grade, etc.*

## African Studies

College of Social and Behavioral Sciences

**Coordinator: Tom Spencer-Walters**

Santa Susana Hall (SN) 221

(818) 677-7819

[www.csun.edu/csbs](http://www.csun.edu/csbs)

### *Program Committee*

Jennifer De Maio (Political Science), Suzanne Scheld (Anthropology), Florence Kyomugisha (Gender and Women's Studies), Mutombo Nkulu-N'Sengha (Religious Studies), Tom Spencer-Walters, (Pan African Studies), Shubha Venugopal (Pan African Studies)

### Interdisciplinary Program

#### Minor in African Studies

#### The Minor

The minor in African Studies is designed to provide an interdisciplinary approach to the study of African history, literature, politics, geography and cultures. It provides a background for advanced study of Africa and for teaching Africa and World Cultures in elementary and secondary schools. Students may take courses in several departments that satisfy the minor requirements or may use these courses as electives in their majors. All students interested in the African Studies minor must see a member of the Program Committee or the Coordinator of African Studies to work out a program that will meet their own specific needs and interests.

#### Academic Advisement

Advisement is available from the Coordinator of African Studies and the members of the Program Committee listed above.

## Requirements for the Minor

### 1. Lower Division (6 units)

#### Select one of the following:

|      |     |  |
|------|-----|--|
| HIST | 145 | African Civilization to Modern Times (3) |
| PAS  | 171 | Classical African Civilization (3)       |
| PAS  | 226 | Traditional African Cultures (3)         |

#### Select one of the following:

|      |     |                                       |
|------|-----|---------------------------------------|
| ANTH | 152 | Culture and Human Behavior (3)        |
| GEOG | 150 | World Geography (3)                   |
| PAS  | 282 | African Religion in the New World (3) |

### 2. Upper Division (18 units)

#### Select from the following. Some of these courses may have prerequisites:

|      |        |  |
|------|--------|--|
| GEOG | 326    | Africa (3)   |
| HIST | 435    | African History to the 19th Century (3)                  |
| HIST | 436    | Africa History Since the 19th Century (3)                |
| HIST | 496Y   | Experimental Topics Courses in History: Africa (3)       |
| HIST | 497L   | Proseminar: Africa (3)                                   |
| PAS  | 344    | Literature of the Caribbean and African Experience (3)   |
| PAS  | 366    | Colonialism in Africa (3)                                |
| PAS  | 382    | Traditional Religions of Africa (3)                      |
| PAS  | 465    | Pan Africanism: Development of an Ideology 1865-1954 (3) |
| PAS  | 466A,B | The Model Organization for African Unity (3,3)           |
| POLS | 420E   | International Relations of Selected Areas: Africa (3)    |
| POLS | 439A   | Government and Politics of Sub-Saharan Africa (3)        |
| POLS | 439B   | Government and Politics of Southern Africa (3)           |

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>24</b> |
|---------------------------------|-----------|

# American Indian Studies

College of Humanities

**Coordinator: Scott Andrews**

**Sierra Hall (SH) 194**

**(818) 677-6762**

**[www.csun.edu/americanindianstudies](http://www.csun.edu/americanindianstudies)**

## Faculty

Scott Andrews, Brian Burkhardt, Karren Baird-Olson

## AIS Advisory Board

Karren Baird-Olson (Sociology/American Indian Studies), Brian Burkhardt (American Indian Studies), Douglas Carranza (Central American Studies), Doris Clark (EOP Admissions & Partnership), Rosa Furumoto (Chicana/o Studies), Ogo Okoye Johnson (Pan African Studies), Sirena Pellarolo (Modern and Classical Languages and Literatures), Kathryn Sorrells (Communication Studies), Loretta Winters (Sociology)

## Interdisciplinary Program

Minor in American Indian Studies

### The Minor

The American Indian Studies (AIS) minor provides access to the unique cultures and the historical and contemporary experiences of sovereign Indian nations. Topics that will be examined in the interdisciplinary minor include American Indian law and policy, internal colonization, contemporary social issues, metaphysics, art, music and literature.

The program is designed to enhance the understanding and respect of First People cultures and the unique sovereign status of First Nations. Many of the courses will satisfy requirements in several majors. AIS 101 Introduction to American Indian Studies and AIS 304 American Indian Law and Policy also will meet the General Education, Comparative Cultural Studies requirement. AIS 301 First Peoples and Popular Culture meets the General Education, Lifelong Learning requirement. In addition, AIS 401 Contemporary American Indian Social Issues is a community-partnership course. The Program provides background for undergraduate or advanced study in anthropology, art, business, communication, criminology, education, English, geography, health sciences, history, language and linguistic studies, political science, pre-law, philosophy, psychology, religious studies, sociology and women's studies and for comparative study in other ethnic study programs.

### Mission

The American Indian Studies Program seeks to promote an understanding of American Indian history, cultures and tribal sovereignty with a focus on Southern California tribes, urban American Indians and other indigenous peoples in a global context. The program seeks to revise Western knowledge of the history and culture of the United States to include American Indian perspectives and contributions. It also seeks to demonstrate the relevance of American Indian perspectives to contemporary political, economic and social issues in the United States and the world.

### Academic Advisement

The American Indian Studies Program helps students select the program and courses that best satisfy their individual needs and interests. Contact Scott Andrews (Coordinator) at (818) 677-6762 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a minor in American Indian Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOI."

### Program Goals

By completing the minor, students will have the essential proficiency and skills necessary to acquire an appreciation of historical and contemporary multiplicity of First Nation Peoples experiences within the framework of internal colonization. The program objective is to develop in every student the following qualities:

1. Skills to question and evaluate one's own attitudes and beliefs about American Indians
2. Knowledge of the diversity of American Indian cultural experiences and the shared commonalities
3. Knowledge of the impact of colonization upon American Indian social institutions, such as family, education, economy, governance and religion

### Student Learning Outcomes

Graduates of the AIS Program will be able to:

1. Demonstrate critical thinking, written, creative and oral communication skills
2. Develop a critical and reflective perspective on Western interpretations of the experiences of First Nation Peoples, in particular an understanding of internal colonialism
3. Demonstrate an appreciation of the commonalities and the differences of indigenous cultures and nations
4. Demonstrate a commitment through effective community service to work cooperatively with indigenous peoples
5. Demonstrate an enhanced ability to respect indigenous communities

### Requirements for the Minor

#### 1. Required Courses (9 units)

|      |     |  |
|------|-----|--|
| AIS  | 101 | Introduction to American Indian Studies (3)*           |
| AIS  | 401 | Seminar in Contemporary Issues of American Indians (3) |
| HIST | 369 | History of American Indians (3)                        |

#### 2. Electives (9 units)

|      |     |   |
|------|-----|---|
| AIS  | 301 | First Peoples and Popular Culture (3)**     |
| AIS  | 304 | American Indian Law and Policy (3)*         |
| ANTH | 306 | Indians of North America (3)                |
| ANTH | 307 | Indians of California and the Southwest (3) |
| ART  | 401 | Arts of Native North American Societies (3) |
| ENGL | 314 | North American Indian Literature (3)        |
| HIST | 402 | Writing Family History (3)                  |
| RS   | 308 | Religions of the North American Indians (3) |

\*General Education, Comparative Cultural Studies

\*\*General Education, Lifelong Learning

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>18</b> |
|---------------------------------|-----------|

### Course List

#### AIS 101. Introduction to American Indian Studies (3)

Introduction to traditional and contemporary American Indian Cultures with an interdisciplinary approach to the history, social institutions, religion, literature, arts and inter-ethnic relations of First People Nations. (Available for General Education, Comparative Cultural Studies)

#### AIS 301. First Peoples and Popular Culture (3)

The course introduces students to the misconceptions about First Peoples that have appeared in many avenues of popular culture, including literature, advertising, Hollywood cinema, New Age religions and political debates. As a cultural studies course, it focuses on the representations of North American First Peoples in popular culture, the response to those representations and the production of representations by First Peoples writers, poets, artists and filmmakers (among others). (Available for General Education, Lifelong Learning.)

**AIS 304. American Indian Law and Policy (3)**

*Preparatory: AIS 101.* Examines the impact of the multi-jurisdictional indigenous social control mechanisms on U.S. state and federal law and policies. Major focus is on the unique legal relationship that exists between Indian governments and state and federal governments. Issues, including criminal justice, child welfare, education, gaming, health care, art, land ownership and religious and treaty rights, are examined. (Available for General Education, Comparative Cultural Studies.)

**AIS 401. Contemporary American Indian Social Issues (3)**

Focuses on First Peoples contemporary social issues and the relationship of those concerns to the surrounding society. While concerned with the histories and cultures of First Peoples, the main focus is on contemporary scenarios. American Indian experiences will be compared and contrasted with those of the dominate society and other racial and ethnic groups. The student will be exposed to American Indian world views, the unique sovereign status of American Indian nations and social institutional explanations for cultural and political conflict with the dominant society. To facilitate these goals, during the semester each student will enter into a community partnership with an American Indian social group or formal organization in the larger Los Angeles area or on a reservation, reserve or pueblo.

# Anthropology

## College of Social and Behavioral Sciences

**Chair:** Cathy L. Costin

**Sierra Hall (SH) 232**

**(818) 677-3331**

**[www.csun.edu/anthropology](http://www.csun.edu/anthropology)**

### Programs

Undergraduate:

**B.A. in Anthropology**

**Minor in Anthropology**

Graduate:

**M.A., Anthropology**

**General Option**

**Public Archeology Option**

### Department Programs

Anthropology involves the study of people, their origins, their biological variations and characteristics, their languages and cultural patterns, their social structures and institutions, and their adaptation to their environment. The Department offers a Major, a Minor, an Optional Major Program and a Master's program with two options. The major is designed to contribute to a student's liberal education and to prepare the student for graduate work, teaching or other professional pursuits. The minor is designed to complement a wide variety of other majors by exposing students to key issues in multiculturalism, human diversity and anthropological methodology. Anthropological methodology in turn complements methodologies in a wide range of fields: business, health, education and allied fields in the social sciences. The Optional Major Program is for students with highly focused interests and provides for maximum flexibility in the use of instructional resources.

The Department offers two Master of Arts Degree options, one in General Anthropology and one in Public Archaeology. The General Anthropology Option emphasizes broad training in three fields of anthropology (archaeology, biological anthropology and human evolution, and cultural anthropology) while offering students some flexibility in degree planning and requirements. The General Anthropology Option is particularly well suited for students who wish to enter a Ph.D. program in anthropology but may not have the preparation necessary to enter such a program directly; teach in the community colleges; or establish a career in a field that utilizes anthropological methods, theory and/or data. All students in the General Anthropology Option are required to take seminars in socio-cultural anthropology, archaeology, physical anthropology and anthropological theory. In addition, students take elective courses to fit with their area of specialization. Students complete their degrees either by passing a series of comprehensive exams or writing a thesis. Students who wish to teach anthropology at the community college level are encouraged, but not required, to choose the comprehensive exam alternative. Students who plan to enter a Ph.D. program in Anthropology are strongly encouraged to write the thesis. Students who plan other Anthropology-related careers (e.g., museum work, public folklore, etc) will decide

between the examination and thesis alternatives in consultation with the Graduate Advisor. The Public Archaeology Master's Option prepares students to work in the field of cultural resource management and to attend Ph.D. programs that place an emphasis on public archaeology and cultural heritage management. Public Archeology students are required to take seminars in Anthropological Theory, Archaeology and the Management of Archaeological Resources; Archaeological Laboratory Methods; and elective courses with an archaeological focus. Public Archaeology students complete a Practicum in the Management of Archaeological Resources and write a thesis.

The Department of Anthropology supports the concept of international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Department of Anthropology and may be used to fulfill some of the requirements for degree options offered by the Department and/or certain general education requirements. Students should consult the International Programs Bulletin available in the office of International and Exchange Programs, a departmental advisor or the campus International Programs Advisor for more information.

### Careers

Anthropology, the study of humankind in all times and places, helps students to understand the origins of the world's peoples and cultures, to live more effectively in our own communities and to prepare for tomorrow's career challenges. The undergraduate and graduate degrees in anthropology prepare students for work in a wide range of fields, including law, social services, medicine, business, folklore, education, museums, and cultural and natural resources management. majors receive firm grounding in traditional sub-disciplines, including archaeology, physical anthropology and sociocultural anthropology, preparing students for advanced work in the field. The department's Careers in Anthropology Mentoring Program helps students prepare for post-graduate careers.

### Academic Advisement

All faculty post their office hours outside their offices and in the main office each semester. Undergraduate and Graduate Advisors are available to answer specific questions about the program during the semester and registration week. Advising is also available through the College of SBS SSC/EOP office and through the department's Peer Advisor.

### Student Learning Outcomes of the Undergraduate Program

Students completing the undergraduate degree program in Anthropology will be able to:

1. Recognize characteristics of human diversity across space and time from an anthropological perspective
2. Explain the evolutionary process, particularly as it relates to primate and specifically hominin evolution
3. Describe biological and behavioral variation among human and non-human primates in context
4. Discuss the concept of culture as a fundamental principle in anthropology
5. Identify the causes and consequences of cultural diversity, social inequalities and change in human societies
6. Discuss anthropological theories and paradigms, how they have changed over time and how they are applied to explain fundamental aspects of the human condition, such as cultural diversity and social change
7. Demonstrate the ability to conceptualize, collect, describe, analyze and interpret anthropological evidence according to generally accepted professional practice
8. Discuss ethics as they pertain to 21st century anthropology

9. Explain how anthropology may be used to engage in contemporary issues
10. Develop effective communication using anthropological standards

### Student Learning Outcomes of the Graduate Program

Students completing the Master's degree program in Anthropology will be able to:

1. Analyze characteristics of human diversity across space and time from an anthropological perspective
2. Analyze the evolutionary process, particularly as it relates to primate and specifically hominin evolution
3. Analyze biological and behavioral variation among human and non-human primates in context
4. Analyze the concept of culture as a fundamental principle in anthropology
5. Analyze the causes and consequences of cultural diversity, social inequalities and change in human societies
6. Analyze anthropological theories and paradigms, how they have changed over time and how they are applied to explain fundamental aspects of the human condition, such as cultural diversity and social change
7. Independently conceptualize, collect, describe, analyze and interpret anthropological evidence according to generally accepted professional practice
8. Analyze ethics as they pertain to 21st century anthropology
9. Examine how anthropology may be used to engage in contemporary issues
10. Communicate effectively using anthropological standards
11. Synthesize and evaluate current issues and debates in the subfields of anthropology

### Requirements for the Bachelor of Arts Degree (42 units)

Note: See section on "Exceptions and Restrictions" below for important information.

#### Foundations (12 units)

- ANTH 151 Physical Anthropology (3)  
 ANTH 152 Culture and Human Behavior (3)  
 ANTH 153 Introduction to Archaeology (3)  
 ANTH 303 Anthropological Thought (3)

#### Peoples and Places (3 units)

Choose one from the following: 306, 307, 338, 351, 352, 356

#### Method and Theory (3 units)

Choose from one of the following: 473, 475

#### Seminar (3 units)

Choose from the following: 490A-D, 516, 521, 560.

#### Breadth Electives (9 units)

In consultation with the underGraduate Advisor for the Anthropology Department, choose one course from each of the following subdisciplines:

- Cultural Anthropology (222, 300, 310, 326, 345, 346, 404, 405, 424, 425, 430, 450, 451, 462)  
 Biological Anthropology (212, 311, 341, 421, 423, 453, 445/L)  
 Archaeology (426, 427, 428, 429, 460)

#### Additional Electives (12 units)

In consultation with the underGraduate Advisor for the Anthropology Department, choose four additional three-unit Upper Division courses in Anthropology (12 units)

### Exceptions and Restrictions

1. Students who took ANTH 375/L prior to Fall 2006 will be permitted to count it towards the ANTH 475 requirement.
2. ANTH 360 does not count as credit for the Anthropology major.
3. Students may count ANTH 212 or ANTH 222 (but not both) as an additional course elective

4. No more than one of the four additional elective courses may be from the following General Education courses: ANTH 212, 222, 300, 305, 308, 315
5. Seminar prerequisite: prior or concurrent enrollment in ANTH 473 or 475
5. Students counting both ANTH 212 and 222 toward the major should check with an advisor to make sure they have completed enough Upper Division units to meet University graduation requirements.

|  |            |
|--|------------|
| <b>Total Units in the Major</b>            | <b>42</b>  |
| <b>General Education Units</b>             | <b>48</b>  |
| <b>Additional Units</b>                    | <b>30</b>  |
| <b>Total Units Required for the Degree</b> | <b>120</b> |

### Optional Program

Students may, on their own initiative and before the completion of 90 units, devise an anthropology major program that reflects specialized or interdisciplinary interests. Requirements of the option are:

1. A written outline of proposed courses and statement of objectives;
2. At least 42 semester units, of which 36 or more are Upper Division (exception: ANTH 222 will be permitted to count for 3 of these 36 units);
3. More total units in anthropology than in any other field;
4. The evaluation and approval of the proposed program by a departmental committee of at least two anthropology faculty members;
5. Approval by the Department Chair. Student may present his or her proposed program directly to the evaluating committee for consideration or consult with one or more faculty advisors before submitting a list of courses. Upon acceptance of the program by the department, a program of study will be prepared and maintained in the student's file.

### Honors Program

Program leads to a B.A. degree in Anthropology with Honors and provides the student with an opportunity to engage in research under the supervision of an individual faculty member.

Anthropology majors with a 3.5 overall GPA, senior standing and who have completed or are enrolled in ANTH 473 or ANTH 475 may enter the program by enrolling in ANTH 498H, Honors Tutorial in Anthropology.

Students pursuing this option cannot take more than 3 units of Independent Study toward their anthropology degree. ANTH 498 will count as one Upper Division elective.

Graduation with Honors in Anthropology will require the following: Final overall GPA of 3.5 or better and completion of all major requirements in Anthropology and completion of ANTH 498, Honors Tutorial in Anthropology.

### Social Science Subject Matter Program for the Single Subject Credential

Anthropology majors interested in teaching social studies at the middle school or high school level may combine their major program with the Single Subject Social Science Subject Matter Program to meet requirements for entering a Single Subject Credential Program. For information on the CSBS Single Subject Social Science Subject Matter Program, look under Social and Behavioral Sciences in this Catalog. The Anthropology UnderGraduate Advisor also can provide assistance in coordinating the completion of both the major and the subject matter program simultaneously.

**Minor in Anthropology**

**1. Foundations (3 units)**

Choose one of the following:

- ANTH 150 The Human Adventure: Introduction to Anthropology (3)
- or ANTH 152 Culture and Human Behavior (3)

**2. Peoples and Places (3 units)**

Choose one from the following:

- ANTH 306 Native Peoples of North America (3)
- ANTH 307 Native Peoples of California and the Southwest (3)
- ANTH 338 Peoples of Africa (3)
- ANTH 351 Peoples of Middle America (3)
- ANTH 352 Peoples of South American (3)
- ANTH 356 Peoples and Cultures of the Mediterranean (3)

**3. Electives (12 units)**

In consultation with the underGraduate Advisor for the Anthropology Department, choose four additional three-unit Upper Division courses in Anthropology. Note: Students can take either ANTH 212 or 222 as one of the four electives, but not both.

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>18</b> |
|---------------------------------|-----------|

**Requirements for the General Master of Arts Degree in Anthropology**

The General Master's Option in Anthropology offers two tracks for students; one is directed toward a thesis, the other toward a comprehensive examination covering either three subdisciplines or two subdisciplines and a geographical or topical area. See comments below for important information about certain 600-level courses. All entering students must complete the following for admission to classified status in the program:

**A. Classified Status:**

1. General University requirements for classified status. For those whose cumulative undergraduate GPA is below 3.0, the Department requires a minimum of the 50th percentile on at least 2 sections at the Graduate Record Exam
2. Bachelor's degree with a major in Anthropology
3. Students without a major in Anthropology, who meet University standards for admission to Graduate Studies, need to fulfill certain prerequisites in Anthropology. These may be determined in consultation with the Graduate Advisor
4. MATH 140 or equivalent
5. ANTH 473 or 475 or equivalent, to be determined in consultation with the Graduate Advisor depending on the students' area of specialization (required after Fall 2008)
6. ANTH 303 or equivalent (required after Fall 2006)

**B. Degree Requirements**

1. Minimum of 30 units of approved graduate work consisting of at least 24 units in anthropology and 21 units at the 500/600 level.
  - a. Six required graduate seminars in Anthropology (16 units)**
    - ANTH 601 Seminar in Anthropological Thought (3)
    - ANTH 602 Problems in Cultural Anthropology (3)
    - ANTH 603 Problems in Physical Anthropology (3)
    - ANTH 606 Problems in Archeology (6)
    - ANTH 696A Anthropological Research Design (2)
    - ANTH 696B Proposal and Grant Writing (2)
  - b. Four approved electives at the 400, 500 and 600 level (12 units)**

**c. Thesis or comprehensive examination**

1. Thesis option:
  - ANTH 698 Thesis (2) Upon authorization of Thesis Advisor and Graduate Advisor
  - or
2. Comprehensive exam option:
  - ANTH 697 Directed Comprehensive Studies (2)
  - The comprehensive examination is open to all students. In order to choose the thesis option, students must score a B+ or above in 696A and 696B. Students scoring B or below in these classes will be directed to take the comprehensive examination.
2. Research skill: Proficiency in research skill demonstrated by successful completion of one of the following:
  - a. One Upper Division Geographic Information Systems course; or
  - b. One Upper Division statistics course chosen in consultation with department advisor; or
  - c. Foreign Language Proficiency Exam
3. Satisfactory completion of a graduate thesis, project or comprehensive examination.
4. Adherence to department policies regarding GPA minimum maintenance and advising (see below)

**Requirements for the Public Archaeology Master of Arts Degree in Anthropology**

See comments below for important information about certain 600-level courses. All entering students must complete the following to be admitted to and achieve classified status within the Public Archaeology Option:

**A. Classified Status:**

1. General University requirements for admission. For those whose cumulative undergraduate GPA is below 3.0, the Department requires a minimum of the 50th percentile in at least 2 sections of the Graduate Record Exam;
2. Students without a major in Anthropology, who meet University standards for admission to Graduate Studies, need to fulfill certain prerequisites in Anthropology. These will be determined in consultation with the Option Advisor;
3. ANTH 303 or equivalent;
4. ANTH 427 or equivalent;
5. ANTH 473 or equivalent;
6. ANTH 476E or equivalent;
7. MATH 140 or equivalent.

**B. Degree Requirements**

1. Minimum of 33 units of approved graduate work consisting of at least 24 units in Anthropology and 21 units at the 500/600 level.
  - a. Required 500 and 600-level courses (15 units):**
    - ANTH 518/L Laboratory Methods in Archaeology (2/1)
    - ANTH 601 Seminar in Anthropological Theory (3)
    - ANTH 606 Problems in Archaeology (3)
    - ANTH 607 Seminar in Management of Archaeological Resources (3)
    - ANTH 694 Practicum in Cultural Resource Mgmt (3)
  - b. Electives (12 units)**
    - ANTH 426 Old World Archaeology (3)
    - ANTH 428 Archaeology of Mesoamerica (3)
    - ANTH 429 Archaeology of South America (3)
    - ANTH 430 Cultural Ecology (3)
    - ANTH 445/L Human Osteology and Lab (3/1)
    - ANTH 451 Economic Anthropology (3)

2. Research skill: Proficiency in research skill demonstrated by successful completion of one of the following:
  - a. One Upper Division Geographic Information Systems course; or
  - b. One Upper Division statistics course chosen in consultation with department advisor; or
  - c. Foreign Language Proficiency Exam
3. Satisfactory completion of a graduate thesis or project
4. Adherence to department policies regarding GPA minimum maintenance and advising (see below)

### Comments on Graduate Coursework

1. Students choosing the comprehensive examination track must complete ANTH 601, 602, 603 and 606 before taking the comprehensive examinations.
2. Students taking the comprehensive exams must enroll in ANTH 697 course the semester they take the exams.
3. Enrollment in ANTH 698: General Anthropology Option and Public Archaeology Option Master's Students must be authorized by their thesis advisor and the Graduate Advisor in order to enroll in 698.
4. Thesis GPA Policy: General Anthropology Option and Public Archaeology Option Master's Students are required to have a minimum 3.5 GPA at the point of forming their thesis committee and receiving thesis topic approval in order to write an MA thesis. This applies to all students in the General Anthropology and Public Archaeology Options.
5. Public Archaeology thesis eligibility: Public Archaeology Option Master's Students must maintain a 3.5 or higher GPA. Should the GPA drop below 3.5, the student will be placed on probation and have one semester to raise their GPA back to 3.5 or higher. Students not maintaining a minimum 3.5 GPA after this period of probation will be required to transfer to the General Anthropology Option and take the Comprehensive Exams in order to complete the degree.

### Course List

#### ANTH 108. Latin American Cultures (3)

Study of major social institutions and lifestyles in Central and South America focusing on contemporary peoples, their traditional cultural base and current cultural changes. (Available for General Education, Comparative Cultural Studies)

#### ANTH 150. The Human Adventure: Introduction to Anthropology (3)

Overview of human physical and cultural origins and the development and distribution of diverse populations, languages, social institutions and beliefs; introduction to the methods and insights of cultural anthropology, archaeology, linguistics and physical anthropology. (Available for General Education, Social Sciences)

#### ANTH 151. Physical Anthropology (3)

Anthropological perspective on biological variation in human and non-human primates in the past and the present; examines the interaction between biology and culture in the evolution of human society. Evolution and behavior of non-human primates are examined for what they reveal about the human condition. (Available for General Education, Social Sciences)

#### ANTH 152. Culture and Human Behavior (3)

Study of the variety of cultural patterns that human societies use to adapt to the environment, guide social interaction and understand the human condition. Emphasizes the ideas and methods anthropologists use to develop a scientific and humanistic understanding of the world's cultures. (Available for General Education, Social Sciences)

#### ANTH 153. Temples, Tombs and Treasures? An Introduction to Archaeology (3)

Although we are often captivated by the ancient past, many of the reconstructions of this past found in popular culture are not based on the premises of scientific archaeological practice. This course introduces students to the methods, theories and results of scientific archaeological study. Students learn how archaeologists collect and analyze data in order to reconstruct the lifeways and culture histories of our prehistoric ancestors from the Pleistocene to the first civilizations. (Available for General Education, Social Sciences)

#### ANTH 212. Anthropology of Sex (3)

This course will examine human sexuality from a holistic anthropological perspective. Subjects such as sexual anatomy and physiology, sexual intercourse, prostitution, sexual coercion, homosexuality and masturbation will be examined from a biological perspective looking to the non-human primates for comparison, and a cultural perspective using ethnographic and archeological data. Additionally, the course will examine the role of sex in language and folklore. (Available for General Education, Social Sciences)

#### ANTH 222. Visions of the Sacred (3)

Study of the varieties of religious beliefs, rituals and experiences showing the relationship between people and their society, culture, environment and universe. (Available for General Education, Arts and Humanities)

#### ANTH 300. Anthropology and the Modern World (3)

*Prerequisites: Lower Division G.E. course in Cultural Anthropology, Sociology, Political Science or Cultural Geography; Completion of the Lower Division writing requirement.* Examination of contemporary global issues and problems and their effects on western and nonwestern cultures. Topics include anthropological perspectives on colonialism, modernization, acculturation, poverty, racism, sexism, energy, pollution and applied anthropology.

#### ANTH 303. Anthropological Thought (3)

*Prerequisite: ANTH 150 or 152.* Study of the conceptual foundations of contemporary anthropological thought. Topics include evolutionary theory, functionalism, historicalism, structuralism and interpretative anthropology.

#### ANTH 305. Individual and Culture (3)

*Prerequisites: ANTH 150 or 152; PSY 150 or SOC 150; Completion of the Lower Division writing requirement.* Not to be taken for credit in addition to SOC 305. Comparative study of the relationship between the individuals and their culture. Child-rearing in nonwestern cultures. Exploration of individual identity and group character. Regular written assignments required. (Available for General Education, Social Sciences)

#### ANTH 306. Native Peoples of North America (3)

*Prerequisite: ANTH 150 or 152.* North American Indians in prehistoric, historic and present time.

**ANTH 307. Native Peoples of California and the Southwest (3)**

*Prerequisite:* ANTH 150 or 152. Origins, modes of subsistence, social organization and geographic and historical relationships. European conquest and the present condition of several tribes.

**ANTH 308. Women, Sex Roles and Culture (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Discussion of women and sex roles in tribal, modernizing and industrial societies; traditional sex roles and the impact of cultural change. (Available for General Education, Comparative Cultural Studies)

**ANTH 310. Language in Culture: Anthropological Linguistics (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of basic linguistic concepts in cultural contexts; an examination of language diversity and sociocultural factors of language use. (Available for General Education, Comparative Cultural Studies and for Section C of the Multicultural Requirement for Credential Candidates)

**ANTH 311. Human Variation (3)**

*Prerequisite:* ANTH 151. Morphological, genetic and physiological aspects of human biological variability; the concept and description of race; the interaction of cultural and environmental factors in human biological adaptation.

**ANTH 315. Third World Cultures (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Compares and contrasts nonwestern, kin-organized societies with class-oriented Western societies. Examines the historic relationship between Western societies and those of indigenous peoples in the Third World. (Available for General Education, Comparative Cultural Studies.)

**ANTH 319. Prehistoric Archaeology (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Encompasses the origin and development of prehistoric human culture from hunting and gathering to the origin of urban societies. Surveys the archaeological evidence from both the New and Old World. (Available for General Education, Social Sciences.)

**ANTH 326. Introduction to Folklore (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Introduction to the study of folklore from a cross-cultural perspective, including major forms such as folktale, legend, ballad, joke, riddle, proverb and festival, and the theories used to interpret them. (Available for General Education, Arts and Humanities.)

**ANTH 338. Peoples of Africa (3)**

This course introduces students to the diversity of African cultures in North Africa, the Sahel, the Horn of Africa, Central Africa, West Africa, East Africa and Southern Africa. Students will learn about the history and ethnography of colonial and postcolonial African societies and develop a more balanced understanding of Africa's diversity, complexity and relationship to contemporary globalization.

**ANTH 339. Peoples of South Asia (3)**

*Prerequisites:* ANTH 150 or 152; Completion of the Lower Division writing requirement. Survey of the cultures of South Asia reviewing the culture, history, language distribution and principal culture types. (Available for General Education, Comparative Cultural Studies.)

**ANTH 341. Bones: An Introduction to the Study of Human Remains (3)**

*Prerequisites:* ANTH 150 or 151, or BIOL 100 or 101 or 106; Completion of Lower Division writing requirement. Forensic Anthropology has been popularized in recent years by a range of popular media. But what can human remains really tell us? In this class, we will review the methods used by physical anthropologists to study the human skeleton and critically examine the array of information that can actually be scientifically extracted from human skeletal remains. Based on this knowledge, we will analyze the biological and cultural information bones may yield about past human populations. (Available for General Education, Social Sciences)

**ANTH 345. Ethnicity in the United States (3)**

*Prerequisites:* ANTH 150 or 152; Completion of the Lower Division writing requirement. Examination of individual and group ethnic identity. Interaction of mainstream culture, ethnic groups and social classes in U.S. society. Illustrations drawn from particular groups. (Available for General Education, Comparative Cultural Studies.)

**ANTH 346. Urban Anthropology (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Cross-cultural urbanism, urbanization and migration, both with macro and micro focus. Regular written assignments required.

**ANTH 351. Peoples of Middle America (3)**

*Prerequisite:* ANTH 150 or 152 or CAS 100. Survey of the cultures from Mexico to Panama, tracing their characteristics and changes from the 16th century to the present.

**ANTH 352. Peoples of South America (3)**

*Prerequisite:* ANTH 150 or 152. Survey of the cultures of South America, including peasant and tribal societies, emphasizing their historical background, emergent characteristics and present changes.

**ANTH 353. The Maya: Ancient and Modern (3)**

*Prerequisite:* ANTH 319. The Maya form one of the largest indigenous linguistic groups in the Americas. This course is an introductory survey of their culture and society from prehistoric times to the present. The course addresses the cultural history, social organization and political history of the Maya, as well as their artistic and intellectual achievements. Discussions include examination of ancient Maya sites, architecture, art and writing, as well as examining the state of the Maya in the modern world.

**ANTH 356. Peoples and Cultures of the Mediterranean (3)**

*Prerequisite:* ANTH 150 or 152. Examines people and cultures of the Mediterranean region, including Spain, southern France, Italy, Greece, the Middle East and North Africa, through contemporary ethnography and film.

**ANTH 360. Immigration and Ethnicity (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Counts as credit toward the Anthropology minor but not toward the Anthropology major. Examines the basic concepts that inform our understanding of immigration and ethnicity: race, class, gender; the politics of multiculturalism and cultural diversity; and the conflicts and problems inherent in the immigrant experience.

**ANTH 385A-O. Site Visits California and Southwest (1-3)**

*Prerequisite:* ANTH 306 or 307. Prehistoric and modern cultures of Native Americans in the Southwest and California. Emphasis on understanding their technologies, cultures and ecology through direct field observation. Examines the impact of Spanish and American people on Native American culture. (No more than 3 units may be counted toward the major.)

**Courses Acceptable for the Master's Degree**

Note: 300-level courses in Anthropology do not carry graduate credit for a master's degree in anthropology. Prerequisites may be waived with instructor's consent.

**ANTH 404. Comparative Social Organization (3)**

*Prerequisite:* ANTH 150 or 152. Comparative study of social divisions in human societies.

**ANTH 421. Primatology: Morphology, Behavior and Social Organization (3)**

*Prerequisites:* ANTH 151 and 150 or 152. Detailed examination of that part of physical anthropology which seeks to add to understanding of human behavior and evolution by elucidating the social organizations and behavioral adaptation of the primates.

**ANTH 423. Human Behavior: Evolutionary Perspectives (3)**

*Prerequisites:* ANTH 151; *Completion of the Lower Division writing requirement.* Introduction to the various methods and approaches anthropologists use to understand human behavior from a biocultural perspective. Examines the determinants of human behavior, past and present. Regular written assignments required.

**ANTH 424. The Supernatural in the Modern World (3)**

*Prerequisite:* ANTH 152. Ethnographic approach to supernatural belief in the post-Enlightenment Western world through religions, narratives, folk healing, folk drama, ritual and media accounts. Analyzes scholarly approaches to these topics.

**ANTH 425. Culture, Health and Healing (3)**

*Prerequisites:* ANTH 151 or ANTH 152. Introduction to medical anthropology, the study of the interaction of biological, psychological and sociocultural factors in human promotion of health and adaptation to disease.

**ANTH 426. Old World Archaeology (3)**

*Prerequisite:* ANTH 153. Survey of the culture history of the Old World from Paleolithic times to the rise of the major Old World civilizations, with an emphasis on the prehistory of the Southwestern Asian, Mediterranean and European regions. Regular written assignments are required.

**ANTH 427. Archaeology of North America (3)**

*Prerequisites:* ANTH 153; *Completion of the Lower Division writing requirement.* Examination of the origins and adaptations of Native American Cultures. Regular written assignments are required.

**ANTH 428. Archaeology of Mesoamerica (3)**

*Prerequisites:* ANTH 153; *Completion of the Lower Division writing requirement.* Overview of the cultural achievements and developments in Mesoamerica prior to the Spanish Conquest.

**ANTH 429. Archaeology of South America (3)**

*Prerequisites:* ANTH 153; *Completion of the Lower Division writing requirement.* Overview of the cultural achievements and developments in South America prior to the colonialization by the European countries.

**ANTH 430. Ecological Anthropology (3)**

*Prerequisites:* ANTH 150 or 152; *Completion of the Lower Division writing requirement.* Ecological anthropology attempts to understand the structure, distribution and evolution of human societies on the basis of ecological principles. Regular written assignments are required. Available for graduate credit.

**ANTH 445/L Human Osteology and Lab (3/1)**

*Prerequisites:* ANTH 341; *Completion of Lower Division writing requirement.* *Corequisites:* ANTH 445L. Human Osteology is the study of the human skeleton. In this class, students will learn to recognize all of the human skeletal elements and appreciate the range of skeletal variation in individuals and populations. Osteological methods used on human remains discovered in an archeological, forensic or paleoanthropological context will also be covered. Available for graduate credit.

**ANTH 450. Historical Anthropology (3)**

*Prerequisites:* ANTH 150 or 152; *Completion of the Lower Division writing requirement.* Introduction to the anthropological study of cultures within a historical context. Examines the importance of a diachronic approach to the study of contemporary societies and introduces anthropological methods for a study of the past. Teaches critical analysis of documentary materials relevant for anthropological research. Regular written assignments required.

**ANTH 451. Economic Anthropology (3)**

*Prerequisites:* ANTH 152 plus one regional area course. Comparative study of the economic component of human cultures. Emphasizes the problems of theoretical conceptualization.

**ANTH 453. Human Paleontology (3)**

*Prerequisites:* ANTH 151, 153. Origin of humanity and the history of physical evolution beginning in Miocene times and continuing through to the present.

**ANTH 460. The Archaeological Study of Women in the Ancient World (3)**

*Prerequisites:* ANTH 152 or 153; *Upper Division standing; completion of the Lower Division writing requirement.* Examines the data which deal with the status and roles of women in prehistoric societies. Discussion of fundamental issues such as the origins of the gendered division of labor, the origins of gender hierarchy, the universality of female subordination and variability in women's activities, status and power in human societies. Taught from a cross-cultural perspective and combines insights provided by cultural anthropology, archaeology, art history, physical anthropology and history.

**ANTH 462. Anthropology of the Arts (3)**

*Prerequisites:* ANTH 150, 152 or 153; *Completion of the Lower Division writing requirement.* Anthropological approaches to the study of artistic expression in diverse sociocultural settings from the prehistoric to the present. Regular written assignments are required.

**ANTH 465. Museum Anthropology: Principles and Practices (3)**

*Prerequisites:* ANTH 152 or equivalent; *Upper Division Writing Proficiency Exam.* This course introduces students to the theoretical and technical aspects of museum work as it relates to ethnographic and archaeological materials, as well as to the political and ethical ramifications of these practices. The course explores museum practices, skills and resources as they relate to the collection, curation, exhibition and administration of ethnographic and archaeological materials. Practices, principles and resources are considered not only for the United States but also as they pertain to museums and collections worldwide. Available for graduate credit.

**ANTH 470. Anthropological Film Study (3)**

*Prerequisites:* ANTH 150 or 152; *One Upper Division cultural Anthropology course.* Study of ethnological experiences, especially in non-literate societies, that lend themselves best to translation into films.

**ANTH 473. Theory and Method in Archaeology (3)**

*Prerequisites:* ANTH 153; *Upper Division Writing Proficiency Exam.* *Recommended preparatory:* ANTH 303. This course provides students with the basic theoretical and methodological skills and background needed to become practicing archaeologists. By the end of this course, students will be able to analyze and evaluate archaeological arguments on a range of key topics in terms of their theoretical approach, research design and logic. Students will master the key concepts that provide the underpinnings to successful research design and allow them to intelligently engage with other scholars at the national and international level. Available for graduate credit.

**ANTH 475. Ethnographic Research Methods (3)**

*Prerequisites:* ANTH 150 or 152; *Upper Division standing; Completion of Lower Division writing requirement.* Introduction to the integration of anthropological perspectives with other social scientific research, including quantitative and advanced qualitative methods.

**ANTH 476A-Z. Topics in Anthropological Methods (3)**

Fieldwork in any branch of anthropology, taken either in conjunction with or subsequent to an Upper Division course in that particular branch. Available for Graduate Credit.

**ANTH 486. Interrogating Globalization: the Ethnography of Global Problems (3)**

*Prerequisites:* ANTH 152 or equivalent; Upper Division Writing Proficiency Exam. *Preparatory:* ANTH 300 or ANTH 315 or completion of regional distribution requirement. This course studies globalization using ethnography. It examines both the debates related to characterizing globalization and ethnographies that analyze some of its aspects, such as the rise of high-tech societies, the decentralization and feminization of labor, the dynamics and consequences of international migration and the causes and impacts of international commodity trade. Available for graduate credit.

**ANTH 490A-D. Seminar in Anthropology (3)**

*Prerequisites:* Past or concurrent enrollment in ANTH 473 or 475 (after Fall 2006); One Upper Division course in appropriate subdiscipline. Faculty-directed research on primary data in the major subdisciplines of anthropology. Selected subjects in the same subdiscipline may be repeated up to 3 times. (A) Archaeology; (B) Biological Anthropology; (C) Cultural Anthropology; (D) Linguistics.

**ANTH 494AA-ZZ Anthropological Field Studies (8)**

*Recommended Preparatory:* ANTH 153 or equivalent. Enrolled students will participate as working field associates on anthropological field projects run by internationally recognized scholars in their respective areas. Students will practice field methodologies appropriate to the different subdisciplines of anthropology. Participation requires that students live full time at the field site. Students must be at least 18 years of age to participate. Field fee required. Available for graduate credit.

**ANTH 496A-Z. Experimental Topics Courses in Anthropology (3)**

*Prerequisite:* Appropriate introductory course. Selected topics in Anthropology with course content to be determined.

**ANTH 498H. Honors Tutorial in Anthropology (4)**

*Prerequisite:* Admission to Honors Program in Anthropology. Writing an honors thesis, based on primary research, under the supervision of a member of the faculty.

**ANTH 499A-C. Independent Study (1-3)****Graduate**

Note: Prerequisites may be waived with instructor's consent.

**ANTH 516. Seminar on Ethnography As Narrative (3)**

*Prerequisite:* ANTH 303 and/or instructor consent. Critical examination of ethnographic writing from a historical perspective. Ethnography is more than just a factual account about a cultural group; it reflects the perspectives and prejudices of its author and her/his culture and the unique set of factors he/she encountered in the field. Ethnography is studied as a narrative created by anthropologists. Discusses different types of ethnographies to understand the underlying narratives they construct about the culture under examination and how these narratives have changed in response to social and political changes.

**ANTH 518/L. Lab Methods in Archaeology (2/1)**

*Prerequisite:* ANTH 473. *Corequisite:* ANTH 518L. Participation in description, analysis and interpretation of archaeological collections. Classification, measurement and description, cataloging and recording of pottery, lithic and other materials are discussed. 2 hours lecture; one 2-hour lab per week.

**ANTH 521. California Archaeology (3)**

*Prerequisite:* ANTH 473. Study of the archaeology of California from the earliest times through the Mission Period, with particular attention to the ecology of foraging and the causes of the cultural changes exhibited in the sequence.

**ANTH 560. Social Evolution (3)**

*Prerequisite:* ANTH 404. Study of the ethnological evidence for human social evolution from primate troops to tributary states. Particular attention paid to the application of ethnological perspectives to the archaeological record for social evolution.

**ANTH 601. Seminar in Anthropological Theory (3)**

*Prerequisite:* Classified status or instructor consent. Survey of the development of anthropological theory across the subdisciplines of anthropology, with particular emphasis on cultural anthropology.

**ANTH 602. Problems in Cultural Anthropology (3)**

*Prerequisite:* Classified status or instructor consent. Survey of current issues and debates in cultural anthropology.

**ANTH 603. Problems in Physical Anthropology (3)**

*Prerequisite:* Classified status or instructor consent. Advanced study of theories, methods, problems and data pertinent to contemporary physical anthropology.

**ANTH 606. Problems in Archaeology (3)**

*Prerequisite:* Classified status or instructor consent. Intensive review of current issues and concepts critical to general understanding of archaeology.

**ANTH 607. Seminar in Management of Archaeological Resources (3)**

*Prerequisite:* Classified status or instructor consent. Covers the practical, scientific and ethical aspects of conducting archaeological research for public and private agencies.

**ANTH 694. Practicum in Cultural Resource Management (3)**

*Prerequisite:* ANTH 607 or instructor consent. Internship involving the student directly in a work experience in cultural resource management.

**ANTH 696A Anthropological Research Design (2)**

*Prerequisites:* Classified status. This seminar will focus on how anthropological research is conceived and planned, with consideration of differing theoretical viewpoints and their usefulness. Students will discuss the unique position of anthropology among the sciences and humanities and resulting issues for research design. Students will review typical anthropological research problems, discuss appropriate methods and critique completed research projects with an emphasis on identifying how their design fostered successful execution. Students will conduct preliminary research on a specific topic of interest and are expected to complete an annotated bibliography of theoretical, methodological and substantive works related to that topic.

**ANTH 696B Proposal and Grant-Writing (2)**

*Prerequisites:* Classified status; Successful completion of 696A. This seminar instructs students on developing and implementing research design, preparing them to write research and grant proposals. Students will analyze successful research and grant proposals, study how research is conceptualized within each genre and subfield and practice writing effective proposals. Topics addressed include identifying researchable questions, the relationship between theory and method, designing an effective fieldwork plan, assembling a thesis committee, research ethics, IRB protocols, sources for research funding, budgeting, research proposal evaluation criteria, the peer-review process, strategies for writing and presenting research findings and methodological topics of interest to seminar participants. Students are expected to complete a proposal for their MA research.

**ANTH 697. Directed Comprehensive Studies (2)**

*Prerequisite:* Completion of all courses required in the program. Intended for students taking the comprehensive exam.

**ANTH 698. Thesis or Graduate Project (2)****ANTH 699A-C. Independent Study (1-3)**

*Prerequisite:* Classified graduate status.

# Art

## Mike Curb College of Arts, Media, and Communication

### *Faculty*

Edward Alfano, Tokuroh Arimitsu, Betty Ann Brown, Owen Doonan, Patsy Cox, Mark Farquhar, Paula DiMarco, Samantha Fields, Lynette K. Henderson, James Kelley, Lesley Krane, Peri Klemm, Laurel Long, Dave Moon, Edie Pistolesi, Magdy Rizk, Michelle Rozic, Ron Saito, Kenneth Sakatani, Christian Tedeschi, Mary Ann Trujillo, Joy von Wolfersdorff, Meiqin Wang

### *Emeritus Faculty*

Kim Abeles, Robert Bassler, Saul Bernstein, Jean-Luc Bordeaux, Kenon Breazeale, John Canavier, Bernice Colman, Mary Ann Danin, William Davis, David Elder, Bruce Everett, Tom Fricano, Norman Fullner, Marvin Harden, Anne Heath, Mark Jurey, Louise Lewis, Donal Lumbert, Tom McMillin, Philip Morrison, Gilbert Rios, Donna Ruedy, Ruth Schrier, Robert Smith, Donald Strong, Don Sudlow, Howard Tollefson, Ernest Velardi, Robert von Sternberg, Art Weiss, Birgitta Wohl, Morris Zaslavsky

### Programs

Undergraduate:

**B.A., Art**

**Minor in Art**

Graduate:

**M.A., Art**

**Option I: Art Education**

**Option II: Art History**

**Option III: Visual Arts**

**M.F.A., Art**

**Visual Arts**

**Credential in Art**

### Accreditation

The Department is accredited by the National Association of Schools of Art and Design.

### The Major

The Department of Art offers a curriculum designed for students wishing a liberal arts education in art and design. Emerging artists have numerous opportunities available to them for expressing their creativity and obtaining employment after graduation. Students may explore several areas of art making and choose the field that best fits their interests and talents.

The curriculum leading up to the B.A. degree is designed for students who are interested in (1) a liberal arts program with an emphasis in art, (2) specialized study in art, (3) preparation for graduate study in art, (4) preparation for academic and professional fields, and/or (5) art teaching credential preparation.

The Lower and Upper Division core program is required of all art majors. Students select a minimum of 18 Upper Division elective units from 1 or more areas of concentration offered in the Art Department in order to complete the B.A. program in their chosen area of study. Experiences are also available outside specialty areas offering students opportunities to sharpen professional skills and increase their marketability.

### Careers

The programs in the Department of Art prepare students for a broad range of opportunities in today's academic, professional and entertainment fields which include: animation, art writing, art publishing, computer-arts and graphics, graphic design, illustration, museum and gallery practices, packaging design, photography, prototypes, public art, studio arts, teaching and video/film. The Art Education program has a long and successful history of teacher preparation.

### Academic Advisement

All art majors are recommended to meet with a faculty advisor each semester. Lower Division art majors (29-59 units) will have a mandatory hold placed on their class registration each semester, requiring an appointment with the department academic advisor for clearance. All students are highly recommended to meet with their academic advisor and faculty advisor to assure the completion of requirements for graduation. Appointments are booked through the Art Advisement Center located in AC100, (818) 677-2348.

### Student Learning Outcomes of the Undergraduate Program

All students will:

1. Acquire basic knowledge, theories and concepts about art; develop a foundation of art skills and a high level of craftsmanship; communicate ideas and concepts through writing, speaking and art making; acquire a competency with the tools and technologies associated with the visual arts;
2. Broaden knowledge of ancient through contemporary art; develop an understanding of the theoretical, cultural and historical contexts of art;
3. Apply processes of generating and solving problems in art; analyze, interpret and question traditional methodologies and preconceived notions of art and art making;
4. Explore and engage in interdisciplinary forms of art making;
5. Develop an appreciation and tolerance of diverse perspectives dealing with art, culture, teaching and learning;
6. Engage in individual and collaborative art experiences with other students, faculty and community; and
7. Develop a career path for an art profession or an art-related field; develop an understanding of the demands and expectations of that area of art profession or art field.

### Student Learning Outcomes of the Master of Arts and Master of Fine Art in Visual Arts Program

All students will:

1. Basic Skills: Master advanced knowledge, theories and concepts about art; communicate ideas and concepts through writing, speaking and art making;
2. Art Knowledge: Broaden the knowledge of contemporary art and the understanding of the theoretical, cultural and historical contexts of art through writing, speaking and art making on advanced levels;
3. Critical Thinking: Master processes of generating and solving problems in art; analyze, interpret and question traditional methodologies and preconceived notions of art and art making on an advanced level;
4. Interdisciplinary Connections: Explore and engage in interdisciplinary forms of art making;
5. Global Perspectives: Develop an appreciation and tolerance of diverse perspectives dealing with art, culture, teaching and learning.
6. Collaboration: Engage in both individual and collaborative art experiences among students, faculty and community; and
7. Professional Preparation: Master an understanding of what it means to be a professional artist; develop an advanced understanding of the demands and expectations of the art profession and art field.

## Student Learning Outcomes of the Master of Arts in Art History Program

All students will:

1. **Basic Skills:** Master advanced knowledge, theories and concepts about art history; acquire the ability to develop a research topic in a specific field of art history;
2. **Art Knowledge:** Broaden the knowledge of historical and contemporary art and the understanding of the theoretical, cultural and historical contexts of art through researching, speaking and writing on advanced levels;
3. **Critical Thinking:** Master processes of generating and solving problems in art history writing; analyze, interpret and question traditional methodologies and preconceived notions of art and art making on an advanced level;
4. **Interdisciplinary Connections:** Explore and engage in interdisciplinary methodologies through art writing, conversing or curating;
5. **Global Perspectives:** Develop an appreciation and tolerance of diverse perspectives dealing with art, culture, teaching and learning;
6. **Collaboration:** Engage in individual and collaborative art experience among students, faculty and community; and
7. **Professional Preparation:** Master an understanding of what it means to be a professional art historian; develop an advanced understanding of the demands and expectations of the art profession and art field.

We teach our students to experience and value visual thinking and creative problem solving in art, as well as recognize the concurrent importance of perception, experimentation, innovation and critical thinking. Our students must understand the history and traditions of art with their relevance to social and community concerns as well as the art of different cultures. They must utilize and interact with the services, facilities and technologies offered throughout the University as well as those provided by the Art Department.

## Credential Information

An approved subject matter program leading to a Single Subject teaching credential in art (K-12) is available. The purpose of the subject matter program in Art Education is to provide students with a strong foundation in and understanding of visual art, and with coursework and field experiences necessary to teach visual art to the diverse public school student populations in the secondary schools of California. The academically rigorous and intellectually stimulating Art Education Program curriculum reflects and builds upon the Visual and Performing Arts Content Standards for California Public Schools K-12: Visual Art (2001) and California State Visual Art Curriculum Framework, and establishes a basis for continued professional development during their teaching career.

For questions about the program, prospective candidates should make an appointment with an advisor in the Art Department Advisement Center by calling (818) 677-2348.

## International Study

The Mike Curb College of Arts, Media, and Communication supports the concept of international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Mike Curb College of Arts, Media, and Communication and may be used to fulfill some of the requirements for degree options offered by the College and/or certain general education requirements.

Students should consult the International Programs Bulletin available through the Student Development and International Programs departmental advisor, or the campus International Programs Advisor for more information.

## Requirements for the B.A. in Art

### 1. Lower Division Required Courses (15 units)

|     |      |                                    |
|-----|------|------------------------------------|
| ART | 124A | Drawing I (3)                      |
| ART | 124B | Drawing I (3)                      |
| ART | 140  | Beginning 2-Dimensional Design (3) |
| ART | 141  | Beginning 3-Dimensional Design (3) |
| ART | 200  | Art, Media and Visualization (3)   |

### Select two of the following courses: (6 units)

|     |     |  |
|-----|-----|--|
| ART | 110 | World Arts: The Western Tradition (3)            |
| ART | 112 | World Arts: Africa, Oceania and the Americas (3) |
| ART | 114 | World Arts: Asia (3)                             |

### 2. Lower Division Electives (minimum of 6 units)

Art electives (100- and 200-level courses)

The selection of Lower Division electives will be for the purpose of satisfying prerequisites for Upper Division courses or for sampling areas in which the student might wish to specialize.

### 3. Upper Division Required Courses (9 units)

|     |     |                     |
|-----|-----|---------------------|
| ART | 438 | Senior Projects (3) |
|-----|-----|---------------------|

### Art History: Select two of the following:

|     |  |
|-----|--|
| ART | 313, 318, 401, 403, 404, 412, 413, 414, 415, 416, 420, 421, 423, 425, 426, 428, 431, 432, 433, 441, 445, 448, 461, 462, 464, 468 |
|-----|--|

### 4. Upper Division Electives (18 units)

A minimum of 18 units of Upper Division courses shall be selected with the aid of an art advisor from one or more areas of concentration. It is recommended that students planning to do graduate study in Art complete a minimum of 12 Upper Division units in one area of concentration.

ART 200 Introduction to Visual Technology is a prerequisite or corequisite to the following Upper Division non-General Education studio courses:

ART 301, 302, 308, 322A, 324A, 326, 327, 328, 330, 333, 335, 337B, 337C, 339, 341, 342, 343, 344, 354 and 356

|  |     |
|--|-----|
| Total Units in the Major               | 54  |
| General Education Units                | 48  |
| Additional Units                       | 18  |
| Total Units Required for a B.A. Degree | 120 |

## Areas of Concentration

Lower Division and Upper Division courses are listed by Areas of Concentration. Students may take any course listed in any Area of Concentration (provided that they have satisfied course prerequisites or have instructor's consent).

**Art Education:** ART 380, 383, 385, 400, 479, 480, 481, 484, 485, 486, 487. Note that 479, 484, 485, 486 and 590 are required for the Single Subject Credential in Art.

**Art History:** ART 311 (does not satisfy the Upper Division Core Requirement for Art majors), 313, 318, 401, 403, 404, 412, 413, 414, 415, 416, 420, 421, 423, 425, 426, 428, 431, 432, 433, 441, 445, 448, 461, 462, 468, 496A-Z.

## A. Visual Arts

**Animation:** 263, 363A, 363B, 364, 365, 368, 442, 443, 463, 465

**Ceramics:** 267, 366, 367, 467

**Drawing:** 224AB, 230, 324AB, 330, 424, 443, 430

**Graphic Design:** 201, 243, 244, 301, 306, 341, 343, 344, 354, 356, 444, 446, 458, 494, 496A-Z

**Illustration:** 222, 322ABC, 422

**Painting:** 227, 228AB, 326, 327, 328, 427, 429

**Photography:** 250, 350AB, 351, 353, 355, 450, 455ABC

**Printmaking:** 237, 337ABC, 437

**Sculpture:** 235, 335, 339, 435, 439

**Video/Digital:** 202, 300, 302, 352, 402

Up to 6 units of Upper Division photojournalism in the Department of Journalism may be applied toward the Art Major when students have taken the prerequisites of ART 250 and one Upper Division photography class.

## B. Additional Courses

Additional Course Offerings Available for Art Major Elective Credit:

|            |   |
|------------|---|
| ART 148    | Color Theory (3)  |
| ART 296A-Z | Experimental Courses in Art (1-3)                                     |
| ART 308/L  | Color Application (2/1)   |
| ART 342    | Exhibition Design (3)   |
| ART 481    | Art as Therapy (3)  |
| ART 487    | Puppetry (3)  |
| ART 488    | Public Art (3-3)  |
| ART 494    | Internship in Art (3-3)   |
| ART 495    | Extended Study (3-3)  |
| ART 496A-Z | Experimental Topics in Art (1-3)                                      |
| ART 499    | Independent Study (maximum of 6 units toward Art degree requirements) |

Art courses that do not qualify as credit toward the Art Major:

ART 100, 151, 205, 305, 315

## Minor in Art

The Art Minor has two options, the Standard Option and the Art History Option.

### A. Standard Option

#### 1. Lower Division Requirements (12 units)

|          |                                    |
|----------|------------------------------------|
| ART 124A | Drawing I (3)                      |
| ART 124B | Drawing I (3)                      |
| ART 140  | Beginning 2-Dimensional Design (3) |
| ART 141  | Beginning 3-Dimensional Design (3) |

#### 2. Upper Division Requirements (12 units)

|         |               |
|---------|---------------|
| ART 305 | Art Today (3) |
|---------|---------------|

or Upper Division art history course with consent of advisor (3)

|  |           |
|--|-----------|
| Additional Art Electives with consent of advisor | 9         |
| <b>Total Art Minor (Minimum)</b>                 | <b>24</b> |

### B. Art History Option

#### 1. Lower Division Requirements (6-9 units)

|                |  |
|----------------|--|
| ART 110        | World Arts: The Western Tradition (3)            |
| ART 112        | World Arts: Africa, Oceania and the Americas (3) |
| and/or ART 114 | World Arts: Asia (3)                             |
|                | and/or any Lower Division studio course.         |

#### 2. Upper Division Requirements (15-18 units)

Select Art History courses and Upper Division studio courses with approval of an Art History advisor.

|                                  |           |
|----------------------------------|-----------|
| <b>Total Art Minor (Minimum)</b> | <b>24</b> |
|----------------------------------|-----------|

## Requirements for the Master of Arts Degree

Total Units Required: 30

The Master of Arts degree is offered in the following options and areas of concentration:

Option I: Art Education

Option II: Art History

Option III: Visual Arts

(With areas of concentration in Ceramics, Drawing, Illustration, Painting, Photography, Printmaking, Sculpture and Video/Digital.)

## A. Entrance Requirements:

### Art Education, Visual Arts Option Requirements:

1. Bachelor's in Art from an accredited institution or a Bachelor's degree with a minimum of 24 units of Upper Division art or the equivalency as determined by the appropriate Department Graduate Committee (Those who choose the Visual Arts option must have completed a minimum of 12 Upper Division units in one area of concentration.);
2. An undergraduate GPA of 3.0 or higher (Students who have less than 3.0 undergraduate GPA must complete the Graduate Record Examination (GRE) with a departmentally accepted score); and
3. Students applying to Art Education or Visual Arts areas of concentration who do not meet the undergraduate GPA of 3.0 and do not take the GRE must fulfill the following in-lieu requirements:
  - a. Submit 3 letters of recommendation from former professors or other persons adjudged by the Department to be competent to evaluate the student's potential for graduate-level performance;
  - b. Submit a written philosophical statement of intention or purpose (1 or 2 pages);
  - c. Complete ART 611 or 615 with a minimum grade of B. Art Education students substitute ART 590 for ART 611.

### Art History Option Requirements:

1. B.A. in Art History or the equivalent, with a GPA of 3.0 or better and a minimum of 18 units of Upper Division art history (If ART 311 Bibliography, Research Methods and Historiography of Art History or its equivalent was not taken as part of the undergraduate major, it must be taken as part of the minimal art history requirements);
2. Three professional recommendations;
3. Written statement of purpose;
4. Personal or telephone interview with an Art History faculty member;
5. Passing score on the GRE (Graduate Record Examination); and
6. Two samples of academic writing that demonstrate art historical research skills.

## B. Requirements for Classified Graduate Status:

1. Students must pass the Upper Division Writing Proficiency Exam.
2. Students who choose the Art Education option must have their portfolio evaluated and approved by the appropriate Art Education Graduate Committee. They must pass a personal screening interview conducted by the appropriate Art Education Graduate Committee [or designee(s)].
3. Students who choose the Visual Arts option must have their portfolio evaluated and approved by the Visual Arts Graduate Committee. If the student's portfolio is not accepted, two additional submissions are allowed.
4. Students who choose the Art History option must pass the Foreign Language Reading Exam in French or German and the Art History Comprehensive Exam. In addition, they must complete 12 units of Art History at the 400-level or above, including at least 1 class at the 500- or 600-level. Upon reaching classified status, students must form a thesis committee and select a thesis advisor. Students must complete an additional 12 units at the 500- or 600-level, which must include ART 611, ART 615 and two semesters of ART 619.
5. Students in Art Education, Visual Arts options whose undergraduate GPA was below 3.0 and do not take the GRE must have fulfilled all in-lieu requirements (see section A. Entrance Requirements, above).

**C. Requirements for the Degree:**

1. Select a Graduate Advisor and thesis committee;
2. Complete the Program for Master of Arts form with approval of a Graduate Advisor;
3. Meet at least once a semester with the thesis committee to demonstrate satisfactory progress toward the degree; and
4. Complete a minimum of 30 units of approved graduate work comprised of the following:  
(Approved student programs shall include a minimum of 21 units of graduate coursework 500- and 600-level).

**A. Required Courses (6 units)**

- ART 611 History and Philosophy of Art (3)  
or ART 590 History and Philosophy of Art Education (3)  
ART 615 Art Analysis and Criticism (3)

**B. For the Visual Arts option, select courses in area of concentration. Student must select an area of concentration from the following (12 units):**

Ceramics, Drawing, Graphic Design (MFA only), Illustration, Painting, Photography, Printmaking, Sculpture or Video/Digital Art.

**C. Graduate Level Elective Courses**

- ART 500 History of Art Museums and Collecting in Western Civilization (3)
- ART 502 Art Museum Practices (3-3)
- ART 520 Studio Problems: Video/Digital Art (3-3-3-3)
- ART 521 Studio Problems: Painting (3-3-3-3)
- ART 522 Studio Problems: Illustration (3-3)
- ART 524 Studio Problems: Drawing (3-3-3-3)
- ART 525 Studio Problems: Printmaking (3-3-3-3)
- ART 535 Studio Problems: Sculpture (3-3-3-3)
- ART 540 Studio Problems: Design (3-3-3-3)
- ART 544 Studio Problems: Graphic Design (3-3-3-3)
- ART 550 Studio Problems: Photography (3-3-3-3)
- ART 560 Studio Problems: Ceramics (3-3-3-3)
- ART 588 Studio Problems: Public Art (3-3-3-3)
- ART 619 Seminar in Art History (3-3)
- ART 620 Advanced Studio Problems: Video/Digital Art (3-3-3-3)
- ART 621 Advanced Studio Problems: Painting (3-3-3-3)
- ART 622 Advanced Studio Problems: Illustration (3-3)
- ART 624 Advanced Studio Problems: Drawing (3-3-3-3)
- ART 625 Advanced Studio Problems: Printmaking (3-3-3-3)
- ART 635 Advanced Studio Problems: Sculpture (3-3-3-3)
- ART 640 Advanced Studio Problems: Design (3-3-3-3)
- ART 644 Advanced Studio Problems: Graphic Design (3-3-3-3)
- ART 650 Advanced Studio Problems: Photography (3-3-3-3)
- ART 660 Advanced Studio Problems: Ceramics (3-3-3-3)
- ART 681A/B Seminar in Art Education (3-3)
- ART 686 Research in Art Education (3-3)
- ART 688 Advanced Studio Problems: Public Art (3-3-3-3)
- ART 696A-C Directed Graduate Research (1-3)
- ART 699A-C Independent Study (1-3)

Students in Art Education and Art History may apply approved 400-level courses toward their area of concentration.

(Not applicable in the Studio areas of concentration)

**D. Courses in related and/or outside field (9 units)**

These are to be selected, with the approval of the advisor, from 400-, 500- and 600-level courses in art or related fields.

5. Thesis, project or artistic performance  
ART 698C (3)  
Art History Option: ART 698C (3-3)

6. Oral examination, if deemed necessary by the appropriate departmental Graduate Committee.

|   |           |
|---|-----------|
| <b>Total Units Required for the M.A. Degree</b> | <b>30</b> |
|---|-----------|

**Requirements for the Master of Fine Arts Degree**

**Total Units Required: 60 units**

The Visual Arts Graduate Committee conducts selection for admission into the MFA program. This selection occurs once a year, with applications submitted directly to the Art Department, due the second Friday in February for admission the following Fall semester. The Master of Fine Arts (MFA) in Art is offered in the following areas of concentration: Visual Arts Option with areas of concentration in Ceramics, Drawing, Graphic Design, Illustration, Painting, Photography, Printmaking, Sculpture and Video/Digital Art.

**A. Requirements for Classified Graduate Status:**

Students must meet all Classified Graduate Status requirements in order to enter the program.

1. Bachelor's degree in Art from an accredited institution or a Bachelor's degree with a minimum of 24 units of Upper Division Art, or the equivalency, as determined by the Visual Arts Graduate Committee;
2. Undergraduate GPA of 3.0 or higher (Students who do not meet the undergraduate GPA of 3.0 must do the following):
  - a. Complete the Graduate Record Examination (GRE) with a departmentally accepted score;
  - b. Students who do not meet the undergraduate GPA of 3.0 and do not take the GRE must fulfill the following in-lieu requirements:
    - i. Submit 3 letters of recommendation from former professors or other persons determined by the department to be competent to evaluate the student's potential for graduate-level performance;
    - ii. Submit a written philosophical statement of intention (1 to 2 pages);
    - iii. Complete Art 611 or 615 with a minimum grade of B; and
    - iv. Pass a personal screening interview conducted by the Visual Arts Graduate Committee [or designee(s)].
3. Completion of 18 advisor-approved units of Upper Division and/or graduate course work in the proposed emphasized area of concentration;
4. Completion of a minimum of 12 units of Art History, 6 units of which must be Upper Division;
5. With the approval of the Visual Arts Graduate Committee, up to 30 units of previously completed graduate course work with a grade of B or better (This may be allowed toward the MFA degree, thesis grade excluded);
6. Successful completion of a Qualifying Portfolio Evaluation approved by the Visual Arts Graduate Committee, with emphasis in the proposed area(s) of concentration, a Statement of Intent and a Resume submitted with the portfolio; and
7. Pass the Upper Division Writing Proficiency Exam.

**B. Classified Student Requirements**

1. Select a Graduate Advisor and thesis committee;
2. Complete the Program for Master of Fine Arts form with approval of Graduate Advisor;
3. Meet at least once a semester with thesis committee to demonstrate satisfactory progress toward Advancement to Candidacy;
4. Completion of a minimum total of 60 units of graduate work in approved graduate courses.

## Department Graduate Level Courses

### Visual Arts (39 units\*)

1. All student programs must emphasize one to three area(s) of concentration.
2. The student's Graduate Advisor must be from one of the selected area(s) of concentration.
3. All units taken from the program must be approved by a Graduate Advisor.
4. A minimum of 12 units must be from the area(s) of concentration specifically emphasized in the student's Qualifying Portfolio Evaluation. Students wishing to change their emphasized area of concentration must request a Graduate Advisor in that area of concentration.

### Visual Arts

Ceramics, Drawing, Graphic Design, Illustration, Photography, Printmaking, Sculpture, Video/Digital Art

A minimum of 36 units must be completed from one to three areas of specialization(s).

### Required Courses (9 units)

|            |                                   |
|------------|-----------------------------------|
| ART 611    | History and Philosophy of Art (3) |
| ART 615    | Art Analysis and Criticism (3)    |
| ART 691A-Z | MFA Seminar** (3)                 |

### Department Graduate Level Courses

In addition to the courses listed under the M.A. program under Requirements for the Degree, the MFA program also includes the following:

|            |                                     |
|------------|-------------------------------------|
| ART 690A-Z | MFA Studio*** (3-3-3-3)             |
| ART 698    | MFA Thesis/Artistic Performance (3) |

\*39 unit total includes 3 units of ART 698 Thesis/Artistic Performance.

\*\*Three units required; repeatable as an elective for a total of 12 units.

\*\*\*ART 690 MFA Studio is not a separate area of concentration. It allows continued course work for classified MFA students in their area(s) of concentration.

### Electives (12 units)

All elective courses must be selected in consultation with Graduate Advisor. Select from the following:

|              |                                  |
|--------------|----------------------------------|
| ART 400-699C | Elective Courses in Art (3-3)    |
| ART 691A-Z   | MFA Seminar (3-3-3-3)            |
| ART 696A-C   | Graduate Directed Research (1-3) |

Additional elective courses outside the area(s) of concentration may be selected with advisor approval.

## C. MFA Advancement to Candidacy

1. Advancement to Candidacy takes place when the required preparatory course work is completed and the student is prepared to advance to the final Thesis/Artistic Performance phase of the degree requirements.
2. Prerequisites to Advancement to Candidacy are:
  - a. Successful completion of periodic work-in-progress evaluations;
  - b. Classified graduate standing with a minimum GPA of 3.0 or higher in all work undertaken for the program;
  - c. The removal of any incompletes or completion of satisfactory progress (SP) grades;
  - d. Successful completion of the Advancement to Candidacy Portfolio Evaluation approved by the student's thesis committee; and
  - e. Department approval of the Plan for Thesis Project, prior to registration for ART 698 MFA Thesis or Artistic Performance.

## MFA Transfer and Residency Policy

1. Transfer credit allowable toward the MFA is not to exceed 30 graduate units. The Visual Arts Graduate Committee approves all transfer credits.
2. Only courses in which the student receives a minimum grade of B may be transferred.
3. Only courses completed in the last seven years may apply to the degree.

4. MFA candidates must complete a minimum residency consisting of 18 graduate units in their designated area(s) of concentration.

### Elective Courses

Refer to the Graduate-Level Elective courses. Students may take 400-level courses outside their area(s) of concentration with Graduate Advisor approval. No new elective courses are needed for implementation

|  |           |

## Credential Information

Contact the Art Department Advisement Center at (818) 677-2348 for information about the Art Subject Matter Program for the Single Subject Credential.

1. Choose an Area of Concentration
2. Lower Division Core Program
3. Upper Division Core program
4. Grade of B or better in ART 479, 484, 485, 486 and 590
5. Minimum of 54 units in Art
6. Art Department Contract form, approved by an Art Advisor
7. Portfolio review and interview
8. Overall GPA of 2.75 or higher
9. GPA of 2.75 or higher in Art Subject Matter Program courses for the Single Subject Credential

## Course List

### ART 100/L. Introduction to Art Processes and Lab (1/2)

*Corequisite:* ART 100L. Not available for Art Major credit. Experiences for the non-art major in drawing, painting, sculpture and other art processes. Provides an understanding of the place of art in life through actual participation. 1 hour discussion, 4 hours studio. (Available for General Education, Arts and Humanities.)

### ART 110. World Arts: The Western Tradition (3)

Survey of the visual arts of the Western cultural tradition from ancient to modern times emphasizing historical, religious and socio-cultural contexts. Discussion, research and writing on the visual arts, including painting, sculpture, architecture, book arts, ceramics, textiles and body arts. For non-art major. (Available for General Education, Arts and Humanities.)

### ART 112. World Arts: Africa, Oceania and the Americas (3)

Survey of the visual arts of Africa, Oceania and the Americas emphasizing historical, religious and socio-cultural contexts. Discussion, research and writing on the visual arts, including painting, sculpture, architecture, book arts, ceramics, textiles and body arts. For non-art major. (Available for General Education, Comparative Cultures)

### ART 114. World Arts: Asia (3)

Survey of the visual arts of India, China, Japan, Korea and Southeast Asia, emphasizing historical, religious and socio-cultural contexts. Discussion, research and writing on the visual arts, including painting, sculpture, architecture, book arts, ceramics, textiles and body arts. (Available for General Education, Arts and Humanities.)

### ART 120/L. Arts Immersion: Visual Art and Lab (1/1)

*Prerequisite:* Restricted to students in the ITEP Freshman Option Program. *Corequisite:* ART 120L. Introduction to the study of visual arts foundation skills, concepts and ideas, based on the Visual and Performing Arts Framework and the Visual and Performing Arts Content Standards for California Public Schools. Foundation study in the visual arts includes application of the creative processes and skills, responding to and deriving meaning from works of art and developing an understanding of art in historical and cultural context. 1 hour of lecture per week; 2 hours of lab per week.

**ART 124A. Drawing I (3)**

Introduction to basic drawing experiences. Graphic representation of objects stressed through a variety of techniques and media. Emphasis on form, structure, values, line and systems of perspective and space. For non-art majors; 5 hours lab. (Available for General Education, Arts and Humanities)

**ART 124B. Drawing I (3)**

*Prerequisite:* ART 124A. Basic drawing experiences dealing with the human figure. Emphasis on form, structure, proportions, gesture and systems of perspective and space. 5 hours per week.

**ART 140. Beginning Two-Dimensional Design (3)**

Introduction to the elements and principles of 2-dimensional design that are common to the visual arts. Foundation course stressing visual perception and an effective knowledge of the graphic means of expression and communication. 5 hours per week. (Available for General Education, Arts and Humanities)

**ART 141. Beginning Three-Dimensional Design (3)**

Study of the elements and principles of 3-dimensional design and their applications, with emphasis on form in space, design systems and contemporary art concepts. Experimentation in both natural and synthetic material. For non-art majors; 5 hours per week. (Available for General Education, Arts and Humanities)

**ART 148. Color Theory (3)**

*Prerequisite:* ART 140. Introduction to basic theories of color. Investigations of color harmony and its development as applied to 2-and 3-dimensional visual form. Introductory studies of physiological and psychological aspects of color are investigated. 5 hours per week.

**ART 151. Photography as Art (3)**

Not available for Art Major credit. Students must provide their own digital camera (SLR or compact digital). Introduction for non-art majors to the subject matter and aesthetics of photography. Review of artists' works that have been a major influence in the field and that reflect broader issues in visual culture. Assignments include learning basic camera anatomy, functions and digital applications. Students need basic working knowledge of computer operation. (Available for General Education, Lifelong Learning)

**ART 200. Art, Media and Visualization (3)**

Practical study of the way art, technology and theories in visual representation shape contemporary visual practice.

**ART 201. Introduction to Web Art (3)**

This course is an introduction to web art and design. In addition to an exposure to the history of the web/internet, the course will cover basic web development tools, terminology and aesthetics. Students will create web pages using current computer web applications. For non-Art majors. (Available for General Education, Lifelong Learning.)

**ART 202. Introduction to Video/Digital Art (3)**

*Prerequisite:* ART 200. Introduction to the uses of time-based media as a means of personal expression. Investigations into basic concepts in digital media result in short artistic statements presented in video/digital format. 5 hours lab.

**ART 222. Illustration Materials and Techniques (3)**

*Prerequisites:* ART 124B. Introduction to the use of materials and techniques used in a variety of art areas and specifically in the field of illustration. Emphasis on understanding media potential and the development of refined technical skills required for the successful execution of illustrations. Covers wide range of wet- and dry-media tools and techniques. 5 hours lab.

**ART 224A Drawing II: Anatomy (3)**

*Prerequisite:* ART 124B. Study of the human form and its graphic representation. Problems dealing with anatomy, form and structure introduced by studies of the posed model. 5 hours per week.

**ART 224B. Drawing II: Portraiture (3)**

*Prerequisite:* Art 124B. Study of human form with emphasis on hands and the head. Investigation of traditional techniques and concepts of portraiture. 5 hours per week.

**ART 227. Painting I (3)**

*Prerequisite:* Art majors: *Recommended Corequisite or Preparatory:* ART 140. *Non-Art majors: Consult Department for equivalency.* Emphasis on 2-dimensional pictorial structure. Application of design fundamentals to graphic space, organization and imagery. Use of various painting media. 5 hours per week.

**ART 228A. Painting Techniques and Media (3)**

*Prerequisites:* ART 140, 227. Study of 2-dimensional media and materials with emphasis on traditional concepts, form and imagery. Materials such as encaustic, tempera, watercolor, oils, etc., are used. 5 hours per week.

**ART 228B. Painting Techniques and Media (3)**

*Prerequisite:* Art majors: *Recommended Corequisite or Preparatory:* ART 140. *Non-Art majors: Consult Department for equivalency.* Study of 2-dimensional media and materials with emphasis on new materials and their expressive potential. Uses contemporary materials such as acrylics, plastics, fabric, natural and modern industrial materials. 5 hours per week.

**ART 230. Perspective (3)**

*Prerequisite:* Art majors: ART 124A. *Non-Art majors: Consult Department for equivalency.* Understanding and use of various systems of perspective. Emphasis upon linear perspective and applications to rendering which are based upon uses of perspective. 5 hours per week.

**ART 235. Sculpture I (3)**

*Prerequisites:* Art majors: ART 141. *Non-Art majors: Consult Department for equivalency.* Introduction to a variety of sculptural concepts. Involvement in basic processes, including modeling, casting, carving and construction. 5 hours lab.

**ART 237. Printmaking I (3)**

*Prerequisites:* Art majors: ART 140. *on-Art majors: Consult Department for equivalency.* Introduction to the materials and basic processes of printmaking with a thorough exploration of monotypes and relief techniques, including wood and linoleum cutting and other processes. 5 hours lab.

**ART 243. Introduction to Typography (3)**

*Prerequisites:* ART 140; *Corequisite:* ART 200. History, theory and practice of letter forms and typography as they apply to graphics, advertising and other areas of design and visual communication. Projects cover principles of typography, letter structure, typeface selection, fundamentals of computer typesetting and typographic layout. Fee required. 5 hours lab.

**ART 244. Graphic Design I (3)**

Introductory survey to the professional field of advertising and graphic design as related to print, multimedia, entertainment, environmental and other areas of visual communications. Emphasis on fundamental principles and skills with a broad approach to the application of techniques and concepts of the field. 5 hours lab. Course fee.

**ART 250. Photography I (3)**

Basic instruction in the creative use of the camera and printing techniques. Instruction in basic principles and darkroom experience. Emphasis on photography as a fine art, stressing beginning visual awareness and craftsmanship. 5 hours lab.

**ART 263. Animation I (3)**

Introduction to the fundamental principles of animation that are the basis for traditional and computer animation. Hand-drawn exercises are utilized to learn timing, motion and weights. Covers introduction to the early history of animation. 5 hours lab.

**ART 267. Introduction to Ceramics (3)**

Basic methods of hand-building and wheel-forming. Emphasis on designing, decorating, glazing and firing procedures. 5 hours lab.

**ART 296A-Z. Experimental Topics Courses in Art (1-3)**

Experimental courses in Art with course content to be determined.

**ART 300. Digital Technologies in Art (3)**

*Prerequisite:* ART 200. Exploration of the use of digital media in art and design. Provides practical experience in designing digital media products. 5 hours lab.

**ART 301. Web Design (3)**

*Prerequisite:* ART 200; *Preparatory:* ART 201 or 244. Introduction to principles and techniques for visual and information design for websites. Includes an introduction to website animation technologies. 5 hours lab.

**ART 302. Video/Digital Art (3-3)**

*Prerequisite:* ART 200 or 202. Studies into artistic concepts and technologies involved in the creation of video art and digital time-based art forms. Investigations into digital imaging, non-linear compositing and visual effects result in the creation of short artistic statements presented in video/digital format. 5 hours lab.

**ART 304/L. Visual Art and the Child (1/1)**

*Prerequisites:* ART 120/L; *Restricted to students in the ITEP Freshman Option Program.* Provides students with the opportunity to revisit visual art and apply their knowledge of this area to working with children in a school setting. Students extend and integrate their knowledge of visual arts foundation skills, concepts and ideas, based upon the Visual and Performing Arts Framework and the Visual and Performing Arts Content Standards for California Public Schools. Experiences include planning, teaching and assessing art lessons in field based settings. Students also engage in critical analysis and reflection to discover ways to guide children in both the creation of art and thoughtful appreciation of art.

**ART 305. Art Today (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Not available for Art Major credit. Art majors may take this course for University elective credit. Introduction for the non-art major to the art, design and architecture of our time. Illustrated lectures explore the development, techniques and ideas underlying the contemporary visual environment. (Available for General Education, Arts and Humanities.) (IC)

**ART 306. Motion Graphics (3)**

This course is an introduction to Motion Graphics, which includes the categories of commercial, broadcast, main sequence and music video. The course will include lectures, showcases and demonstrations of the history, techniques and applications of motion graphics. Projects will cover design, composition, narrative and sound development. Current industry standard computer applications will be introduced and applied. This course may be repeated twice for credit. 5 hours lab.

**ART 308/L. Color Application and Lab (2/1)**

*Prerequisites:* ART 140, 200. *Corequisite* ART 308L. Exploration of the theories of color with emphasis on its application to a wide range of artistic formats. Functions of color and its associative aspects are studied in studio activities. 2 hours discussion, 2 hours studio.

**ART 311. Bibliography, Research Methods and Historiography of Art History (3)**

*Prerequisite:* ART 110. Seminar designed to acquaint the student with basic bibliography, methods of research and the historiography of art history. Required of all students who specialize in Art History within the art major. Does not satisfy Upper Division core requirement for Art majors.

**ART 313. History of Design (3)**

Study of important developments in the history of design: architecture and ornament, interior and furniture, decorative arts, textile design, industrial design, product design and graphic design. (Offered Fall semester)

**ART 315. Perspectives in Art History (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Not available for Art Major credit. Introduction for non-art majors. Art as a means of examining Western civilization from prehistory to the present. Comparative study of the visual/plastic arts from the historical perspectives of their function in society. (Available for General Education, Comparative Cultural Studies.) (IC)

**ART 318. Survey of 19th and 20th Century Arts (3)**

*Prerequisite:* ART 110. A survey of major movements in 19th- and 20th-century art and art theory with reference to social, political, economic and ideological contexts. Included are visits to major museums, galleries and performance art venues in the Los Angeles area.

**ART 322A. Illustration I (3)**

*Prerequisites:* ART 200, 222. Basic principles and practices of publication and advertising illustration. Projects emphasize conceptual problem-solving, composition and the development of personal style. Projects are designed for inclusion in a professional portfolio. 5 hours lab.

**ART 322B. Illustration II (3)**

*Prerequisite:* ART 322A. Techniques used in illustration, with an emphasis on problem solving and the development of skills necessary in illustration for publication and advertising. 5 hours lab.

**ART 322C. Digital Illustration (3-3)**

*Recommended Preparatory Course:* ART 322A. The study and practice of digital illustration that uses both traditional fine art media and digital technology. Emphasis is on illustration problem-solving, experimental techniques and the development of portfolio quality illustrations. 5 hours lab.

**ART 324A. Drawing III: Figure Drawing (3)**

*Prerequisites:* ART 124A, 124B, 200. Study of the human figure using models. Emphasis on creative interpretation of structure, gesture and space as they relate to the elements of line, form, value and color. 5 hours per week.

**ART 324B. Drawing III: Figure Drawing and Painting(3)**

*Prerequisite:* ART 324A. Study of the human figure using models. Emphasis on creative interpretation of structure, gesture and space as they relate to the elements of line, form, value and color. Introduction to a broad range of problems in the combined area of drawing and painting that are non-linear and apply to the study of human form. 5 hours per week.

**ART 326. Painting II: Abstract Painting (3)**

*Prerequisites:* ART 227, 200. Emphasis on an individuality of response to contemporary problems in painting incorporating a variety of media, techniques and concepts related to abstract painting. 5 hours per week.

**ART 327. Painting II: Representational Imagery (3)**

*Prerequisites:* ART 227, 200. Emphasis on individuality of response to contemporary problems in painting, incorporating a variety of media, techniques and content related to representational imagery.

**ART 328. Water Color (3-3)**

*Prerequisites:* ART 200. *Corequisite:* Upper Division standing; portfolio review required for repeat credit. Transparent and opaque watercolor techniques. Emphasis on technical proficiency and creative expressions. 5 hours per week.

**ART 330. Drawing III: Composition (3-3)**

*Prerequisites:* ART 124A, 124B, 140, 200. Problems, utilizing various drawing media and techniques, stressing the elements of 2-dimensional composition and pictorial organization. 5 hours per week.

**ART 335. Sculpture II (3-3)**

*Prerequisites:* ART 141, 200, 235. Further exploration of sculpture concepts and media, with emphasis on individual invention. 5 hours lab.

**ART 337A. Printmaking II: Intaglio (3)**

*Prerequisite:* ART 237. Intaglio methods, including collagraph, on metal and related materials. Color processes. 5 hours lab.

**ART 337B. Printmaking II: Serigraphy (Silkscreen) (3)**

*Prerequisites:* ART 200, 237. Methods and materials used to create stencils for multicolor registration and printing, including photo processing. 9 hours lab.

**ART 337C. Printmaking II: Lithography (3)**

*Prerequisites:* ART 200, 237. Lithographic methods on stone or metal plates. Black/white and color processes. 5 hours lab.

**ART 339. Figure and Portrait Sculpture (3-3)**

*Prerequisites:* ART 200, 235. *Corequisite.* *Preparatory:* 124B. Exploration of various 3-dimensional means of expression utilizing the human body. Direct modeling from life in clay and wax. Emphasis on structural analysis and personal interpretation of the figure. Experience in armature construction, mold making and casting techniques. Nine hours lab.

**ART 341. Graphic Design Production (3)**

*Prerequisites:* ART 200, 244. Production mechanics of designed projects are prepared for offset printing and digital reproduction. In-depth review of color separations, ink, paper and current trends in print production as well as digital reproduction and multimedia. 5 hours lab.

**ART 342. Exhibition Design (3)**

*Prerequisites:* ART 140 or 141; 200. Study of techniques of exhibition design. Problems of design and production in projects that emphasize creating gallery and related exhibitions or venues. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of classes for the CS designation. 5 hours per week.

**ART 343. Advanced Typography (3-3)**

*Prerequisites:* ART 243, 244. Theory and practice of letter forms and typography as they apply to graphics, advertising and other areas of design and visual communication. Projects cover principles of typography, letter structure, type face selection, fundamentals of computer typesetting and typographic layout. 5 hours lab.

**ART 344. Graphic Design II (3-3)**

*Prerequisite:* ART 244. *Corequisite:* ART 200. *Preparatory:* ART 341 or equivalent. Introduction to intermediate skills and conceptual problems of the field. Stressed is the integration of theory with practical applications. Projects demand creative solutions to typical problems faced by the graphic designer. 5 hours lab.

**ART 350A-B. Photography II (3-3)**

*Preparatory for (A):* ART 200; 250. *Preparatory for (B)* ART 350A. Continuation of the principles learned in Photography I with more advanced problems. Students explore the medium more fully through experience with slide-making, multiple imagery, solarization and other techniques. History and heritage of photography is integrated into the course. 5 hours lab.

**ART 351. Digital Photo Imaging (3-3)**

*Prerequisite:* ART 250. *Preparatory:* ART 200. Exploration of digital photography, integrating established principles of the photo medium with digital technologies. Photo images are created and manipulated through digital software processes for both fine art and commercial application. Assignments result in a portfolio. May be repeated once for credit; 5 hours lab.

**ART 352. Visual Effects (3-3)**

*Prerequisite:* ART 302. Studies in the conceptualization and techniques of digitally generated visual effects in time-based media. Creative self-expression is emphasized in the production of experimental short videos.

**ART 353. Color Photography (3-3)**

*Preparatory:* ART 200, 250 or equivalent. Investigation into the various aspects of color photography, which include: exposure and development of negative film; printing with color materials utilizing the subtractive color principles that underlie color filtration and correction; a brief survey of contemporary color photographers with an emphasis on the aesthetics of their works; and refinement of the students' visual eye while pursuing their own stylistic expression. May be repeated once for credit. 5 hours lab.

**ART 354. Computer Graphics (3-3)**

*Prerequisites:* Art majors: ART 200, 244. *Non-art majors:* Consult department for equivalency. Application and principles of computer graphics as a creative technological medium. Practical experience with micro-computers in studying the potentials of graphic communication and visual expression. 5 hours lab.

**ART 355. Large Format Photography (3)**

Exploration of the various aspects of large format (4" x 5") photography, including camera operation, darkroom techniques and artificial lighting. Emphasis on exercising control over all aspects of the image-making process, including recognizing visual problems and selecting the appropriate techniques to bring about their solution. Addresses wide range of photographic situations. 5 hours lab.

**ART 356. Computer Publishing Design (3-3)**

*Prerequisite:* ART 244. *Corequisite:* ART 200. Application of graphic design principles to computer-generated page layout. Using current software applications, covers design of text documents, graphic elements and their incorporation into page layouts. Emphasis on the use of the computer for decision making and experimentation. 5 hours lab.

**ART 363A. Animation II (3)**

*Prerequisite:* ART 263. Further study of animation skills for both traditional and computer animation. Introduction to storyboard process, character design and story development. Intermediate-level animation principles, including character expression, lip sync and staging. Continuation of animation history 1943 to the present. 5 hours lab.

**ART 363B. Animation II (3)**

Intermediate animation emphasizing concept development in preparation for a 3-D computer or 2-D animation project. Includes research, story development, character design, timing studies, scenic design and storyboards. Work culminates in a process book and animatic. 5 hours lab.

**ART 364. 3-D Computer Animation (3-3)**

*Prerequisite:* ART 263. Investigation of 3-D computer animation with emphasis on animation timing, modeling and lighting. 5 hours lab.

**ART 365. 3-D Computer Animation II (3-3)**

*Prerequisite:* ART 364. Intermediate study of 3-D computer animation with focus on 3-D character creation and animation. Includes: design, modeling, rigging, key-frame lip-sync acting, background, lighting, texturing, coloring and critical analysis of 3-D characters from the game and animation fields. 5 hours lab.

**ART 366. Ceramics II (3-3)**

*Prerequisite:* ART 267. Investigation of the use of clay as a medium with an emphasis on sculptural applications. Discussion of ideas, technical processes and approaches as they relate to clay's use as a non-utilitarian medium. Experimentation with mold making, casting, clay bodies, glaze formulation and surface treatments. 5 hours lab. Course fee.

**ART 367. Ceramics III (3-3)**

*Prerequisite:* ART 267. Further investigation of the use of clay as a medium with emphasis on experimental practice. Further discussion of ideas, technical processes and approaches as it relates to the work and contemporary visual art. Continued experimentation with wheel forming, hand building, clay bodies, glaze formulation and surface treatments. 5 hours lab. Course fee.

**ART 368. Game Animation and Design (3-3)**

*Recommended preparatory courses:* ART 365. Investigation of the creative process of game design and game animation. Practical, theoretical and global aspects of game design will be explored by creating game assets and producing animation work. 9 hours lab.

**ART 380/L. Children's Art and Lab (2/1)**

*Prerequisite:* Junior standing. *Corequisite:* ART 380L. Recommended for Multiple Subjects Credential Candidates. Development of fundamentals and principles for determining art experiences for children. Understanding the significance of art in the child's development. Emphasis on developing basic art skills in criticism, aesthetics, history and studio production. 2 hours discussion, 2 hours studio and visits to art exhibitions.

**ART 383/L. Art in Early Childhood and Lab (2/1)**

*Prerequisite:* Junior standing. *Corequisite:* ART 383L. Analysis and discussion of the significance of art in the development of young children ages 3 through 8 combined with studio experiences in 2- and 3-dimensional materials. 2 hours discussion, 2 hours studio.

**ART 385/L. Children's Crafts and Lab (2/1)**

*Prerequisite:* Junior standing. *Corequisite:* ART 385L. Basic skills and understandings that provide meaningful craft experiences for children. Emphasis on the educational value of crafts. Beginning techniques and processes involving 3-dimensional materials. 2 hours discussion, 2 hours studio.

**ART 396A-Z. Experimental Topics Courses in Art (1-3)****ART 400/L. Developing Visual Literacy and Lab (2/1)**

*Prerequisites:* ART 380; Junior standing. *Corequisite:* ART 400L. In-depth exploration of selected art processes culminating in a significant research paper or project. 2 hours discussion, 2 hours studio.

**ART 401. History of Native North American Art (3)**

The visual arts of North American native cultures from the Eskimo to Canada, the Northwest and Southwest areas of the United States, the Plains and Eastern Indian societies.

**ART 402. Advanced Video/Digital Art (3-3)**

*Preparatory:* ART 302. Advanced studies into video/digital art involve exploration into a broad range of artistic concepts and visual technologies utilized in video/digital media and time-based art forms. Investigation into art software applications and experimental methods lead to the production and refinement of artistic statements presented in video/digital format. 5 hours lab.

**ART 403. History of Latin American Art (3)**

Survey of Latin American arts from pre-classic cultures in Central and South America through the evolution of high cultures to the conquest. Art and architecture of the colonial period to the modern.

**ART 404. History of African and Oceania Art (3)**

Visual arts of sub-Saharan tribal Africa are considered in their cultural context, including related art forms, such as literature, music and ritual observances. Arts of the South Pacific, the tribal societies of Melanesia, Polynesia, Micronesia and Australia.

**ART 412. History of Korean Art (3)**

*Prerequisite:* Upper Division standing. Korean visual culture from the Neolithic period to the present time. Investigation of various art forms in different media (including ceramics, calligraphy, painting, sculpture, architecture, woodblock print, photograph, video, installation and performance) and ways in which different artistic features are connected to specific historical, religious, philosophical and political contexts.

**ART 413. History of Chinese Art (3)**

*Prerequisite:* Upper Division standing. Chinese visual culture from the Neolithic period to the present time. Investigation of various art forms in different media (including ceramics, jade and bronze objects, calligraphy, painting, sculpture, architecture, woodblock print, photographs, video, installations and performance) and ways in which different artistic features are connected to specific historical, religious, philosophical and political contexts.

**ART 414. History of Japanese Art (3)**

*Prerequisite:* Upper Division standing. Japanese visual culture from the Neolithic period to the present time. Investigation of various art forms in different media (including ceramics, bronze objects, calligraphy, painting, sculpture, architecture, woodblock print, photographs, video, installations and performance) and ways in which different artistic features are connected to specific historical, religious, philosophical and political contexts.

**ART 415. History of the Art of India (3)**

*Prerequisite:* Upper Division standing. Indian visual culture from the Neolithic period to the present time. Investigation of various art forms in different media (including ceramics, bronze objects, painting, sculpture, architecture, photographs, video, installations and performance) and ways in which different artistic features are connected to specific historical, religious, philosophical and political contexts.

**ART 416. History of Ancient Near Eastern Art (3)**

*Prerequisite:* Upper Division standing. Study of the architecture, sculpture and related art forms of the ancient Near East, Mesopotamia, Anatolia and Iran from prehistoric times to the beginning of the Sassanian Empire.

**ART 420. History of Greek Art and Architecture (3)**

*Prerequisite:* Upper Division standing. Art and architecture of the Aegean area from the early Archaic to the end of the Hellenistic periods.

**ART 421. History of Roman Art and Architecture (3)**

*Prerequisite:* Upper Division standing. Art and architecture of the Roman World from circa 700 B.C. to 400 A.D.

**ART 422. Illustration III (3-3-3-3)**

*Prerequisites:* ART 322B. Advanced study of specific problems in publication and advertising illustration. Projects require the creative implementation of the ideas, media and techniques used by illustrators. 5 hours lab.

**ART 423. History of Early Christian and Medieval Art (3)**

*Prerequisites:* ART 110; Upper Division standing. A study of the art and architecture of Europe and the Mediterranean from the 3rd century to the end of the 14th century.

**ART 424. Drawing IV: Life Drawing (3-3)**

*Prerequisite:* ART 324B. Advanced problems in draftsmanship and study of the human figure, with special emphasis on freedom of expression and experimentation. (Portfolio review is required to be eligible for enrollment for 3rd and 4th semester repeat credit.) 5 hours per week.

**ART 425. History of Italian Renaissance Art (3)**

*Prerequisite: Upper Division standing.* Study of the developments in art and architecture of Italy from 1300 to 1520, with particular emphasis on the relationship between the visual tradition and cultural context. Regular written assignments are required.

**ART 426. Art and Architecture of Italy and Spain During the 16th Century (3)**

*Prerequisite: Upper Division standing.* Comprehensive survey of architecture, painting and sculpture in Italy (High Renaissance and Mannerism) and Spain during the 16th century. Particular emphasis on the relationship between style and cultural context.

**ART 427. Painting III (3-3-3-3)**

*Prerequisites: ART 326, 327.* Emphasis on individuality and invention through independent research and experimentation. Guidelines and objectives to be established with individuals. (Portfolio review is required to be eligible for enrollment for 3rd and 4th semester repeat credit.) 5 hours per week.

**ART 428. History of Northern Renaissance Art (3)**

*Prerequisite: Upper Division standing.* Study of the developments in art and architecture of Northern Europe from the 14th through the 16th centuries. Particular emphasis on the relationship between the visual tradition and cultural context. Regular written assignments required.

**ART 429. Advanced Study in Contemporary Painting (3-3-3-3)**

*Prerequisite: ART 326.* Portfolio review required upon entering the course. Projects emphasize conceptual development in painting through visual and material based research, development of advanced critique and presentation skills, and exposure to contemporary painting. Students are encouraged to explore contemporary painting media, including installations, 3-D elements and non-traditional materials and processes, in addition to traditional painting technique. Portfolio development is emphasized. 5 hours per week.

**ART 430. Drawing IV: Composition (3-3)**

*Prerequisite: ART 330.* Advanced drawing problems in 2-dimensional composition and pictorial organization. 5 hours per week.

**ART 431. History of Baroque Art (3)**

*Prerequisite: Upper Division standing. Preparatory: ART 426.* A study of the arts from the Counter Reformation (1563) to the death of Louis XIV (1715). Painting, sculpture and architecture in Europe with a special emphasis on the arts of Italy, the Netherlands and France. Regular written assignments required.

**ART 432. History of European Art 1720-1850 (3)**

*Prerequisite: Upper Division standing.* Development of painting, sculpture, architecture and the decorative arts in Europe from c. 1720 to 1850.

**ART 433. History of European Art 1850-1900 (3)**

*Prerequisite: Upper Division standing.* Development of painting, sculpture and architecture in Europe during the second half of the 19th century. Emphasis on major figures of Impressionism, Post-Impressionism, Art Nouveau and the close relationship between the visual arts, literature and political history.

**ART 435. Sculpture III (3-3-3-3)**

*Prerequisite: ART 335.* Advanced study with special consideration of conception, media and techniques through emphasis on individual projects. (Portfolio review is required to be eligible for enrollment for 3rd and 4th semester repeat credit.) 5 hours lab.

**ART 437. Printmaking III (3-3-3-3)**

*Preparatory: ART 337A.* Intensive study of etching, collagraph, silk-screen, lithography or experimental processes and combinations, stressing individual growth and aesthetic control imagery and tech-

nique. (Portfolio review required to be eligible for enrollment for 3rd and 4th semester repeat credit) 5 hours lab.

**ART 438/L. Senior Projects and Lab (2/1)**

*Prerequisite: Senior standing. Corequisite: ART 438L.* Projects that afford students the opportunity to assess their training, summarize their achievement and analyze their place in the visual arts. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of classes for the CS designation.

**ART 439. Bronze Casting Sculpture (3-3)**

*Prerequisite: ART 235.* Lost-wax bronze-casting foundry projects. Students create sculpture to be cast in bronze. 5 hours per week.

**ART 441. History of American Art (3)**

*Prerequisite: Upper Division standing.* Study of the American tradition of art and architecture from 1620 to the early 20th century. (Offered Fall semester.)

**ART 443. Animation Drawing (3-3)**

*Prerequisite: ART 224A.* Exploration of the various forms of drawing related to the field of animation. Direct drawing of the human figure from models; drawing a variety of animals from live observation; and development of layout drawing used for background painting. Emphasis on volume, mass, weight, movement/gesture, conveying attitude, dramatic expression, action poses, acting, anatomy, consistent perspective and economy of line. 5 hours per week.

**ART 444. Graphic Design III (3-3)**

*Prerequisite: ART 344.* Advanced and complex problem-solving consistent with those of graphic designers in the field. Emphasis on project of substantive scope, integration of skills and presentation. Students should have developed a professional resume and portfolio by the end of this series. 5 hours lab.

**ART 445. History of Modern Art (3)**

*Prerequisite: Upper Division standing.* Investigation of major movements in 20th century painting, sculpture architecture with reference to the social, economic and ideological context.

**ART 446. Packaging Design (3-3)**

*Prerequisite: ART 344.* Designing for product containers, identification graphics, product line packaging and related displays. Coordination of the fundamental elements of packaging such as typography, color, imagery and package structure. 5 hours lab.

**ART 448. History of Contemporary Art (3)**

*Prerequisite: ART 110.* Deals with American and European art from the mid-20th century to the present. Includes a study of developments in non-traditional media, crafts and popular arts, as well as painting and sculpture. Regular written assignments required.

**ART 450. Photography III (3-3-3-3)**

*Preparatory: Art 350AB.* Advanced problems in photography. Emphasis on content: The student is encouraged to apply technical and expressive skills in photography toward some original and meaningful use of the medium. Students are required to present an original project to the class for discussion and is then required to execute it. May be repeated 3 times for credit. Portfolio review required for eligibility for enrollment for 3rd and 4th semester repeat credit. 5 hours lab.

**ART 455A. Advertising Photography I (3)**

*Preparatory: ART 250.* Professional problems, techniques and equipment of advertising photography. Activities include the use of large format camera, equipment, professional lighting, environmental and studio product photography, professional printing and print finishing techniques. 5 hours lab.

**ART 455B. Advertising Photography II (3)**

*Prerequisite:* ART 455A. Advanced projects in advertising photography. Emphasis on problems of large product and exterior photography, portrait and figure studies and uses of complex lighting. 5 hours lab.

**ART 455C. Advanced Advertising Photography (3-3)**

*Preparatory:* Art 455B. Investigation of advanced advertising problems in photography exploring both the technical and conceptual challenges of visual communication. Advanced projects in portraiture, fashion, table-top, photo-illustration and editorial will be addressed. Computer imaging introduced as an important area of investigation. May be repeated once for credit. 5 hours lab.

**ART 458. Graphics Seminar (2)**

*Prerequisites:* ART 344; Six additional units of Upper Division advertising graphics; Senior standing. Review of career options that relate to advertising graphics. Study of particular problems faced by the graduate in selecting, planning and becoming established in a profession. Discussions and assignments are designed to aid the student in meeting professional requirements. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of classes for the CS designation.

**ART 461. History of Graphic Arts (3)**

History of the development of the original print as a work of art from the 15th century to the present, including relief, intaglio and planographic media. (Offered Spring semester.)

**ART 462. History of Photography (3)**

Emphasizes the aesthetics of photography and its emergence and acceptance as a fine art. In addition to slide lectures and discussions, students are required to attend several photography exhibitions and lectures at galleries and museums in the area.

**ART 463. Animation III (3-3)**

*Prerequisite:* ART 363B. Advanced level development and production of an original animation project. Students may utilize 3-D computer animation or 2-D methods. May be repeated once for credit. 5 hours lab.

**ART 467. Ceramics IV (3-3-3-3)**

*Prerequisite:* ART 367. Advanced investigation of the use of clay as it relates to a personal direction. Advanced refinement of ideas, technical processes and approaches as they relate to a unified body of work and to contemporary visual art. Continued experimentation with technical processes, clay bodies, glaze formulation and surface treatments. Development of portfolio materials and documentation of the unified body of work. (Portfolio review is required to be eligible for enrollment for 3rd and 4th semester repeat credit). 5 hours lab. Course fee.

**ART 468. History of Women in the Visual Arts (3)**

*Prerequisite:* Upper Division standing. *Preparatory:* WS 200. Covers the history of women as artists in the European and American traditions. Art by women in non-Western cultures also is studied, together with related issues such as images of women and feminist art analysis.

**ART 479/L. Art Education Across Cultures and Lab (2/1)**

*Prerequisite:* Junior standing. *Corequisite:* 479L. Provides knowledge and practice in planning and relating art experiences and increases teacher effectiveness in cross-cultural teaching of the arts. Meets requirement for multicultural education for Multiple and Single Subject Credentials; Category B for the Clear Credential. 2 hours discussion, 2 hours studio.

**ART 480/L. Art Experiences for Exceptional Children and Lab (2/1)**

*Corequisite:* ART 480L. Significance of art for exceptional children, including the deaf, blind, emotionally disturbed, learning handicapped, hospitalized children and the gifted. Meets the Special Education re-

quirement for a Clear Credential for Single Subject Credential; Art only. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of classes for the CS designation. 2 hours discussion, 2 hours studio.

**ART 485/L. Studio Problems in Teaching Crafts and Lab (1/2)**

*Prerequisite:* Junior standing. *Corequisite:* 485L. Required for a Single Subject Credential in Art. Emphasis on the development of basic skills in a variety of crafts, such as: weaving, textiles, ceramics, wood and paper. Introduction to principles of design and craftsmanship. Discussions of aesthetics, criticism and cultural heritage related to the crafts accompany the studio component. Develops strategies for integrating these skills and understandings into a variety of education and recreational settings. 1 hour discussion, 4 hours studio.

**ART 486/L. Studio Problems in Teaching Art and Lab (2/1)**

*Prerequisite:* Junior standing. *Corequisite:* ART 486L. Required for a Single Subject Credential in Art. Skills and understandings related to organizing and developing strategies for teaching art in a variety of educational settings. Emphasis upon 2-dimensional media such as drawing, watercolor painting, poster painting and printmaking. (Offered spring semester.) 2 hours discussion, 2 hours studio.

**ART 487. Puppetry (3)**

*Prerequisite:* Junior standing. Examines the art of the puppet in its various forms: rod, string, hand and shadow. Application to schools, libraries, hospital, recreation, special education and other settings. 2 hours discussion, 2 hours studio.

**ART 488CS. Public Art (3-3)**

Development and completion of art forms in the public realm. Public art investigated in a workshop format that includes speakers, demonstrations, field trips and art products. Emphasis on studio skills, proposal development and service learning activities. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of classes for the CS designation. 5 hours per week.

**ART 494. Internship in Arts (3-3)**

*Prerequisites:* Senior or Graduate standing; Portfolio review. Available for Art Major credit. Academic Internship course. Experiential education in appropriate aspects of specific area of interest. 6 units maximum. (Credit/No Credit only)

**ART 495A-Z. Extended Study (3-3)**

*Prerequisites:* Senior standing; Prerequisite course in selected study area (listed below); Consent of instructor, Advisor and Department Chair. Portfolio required by course instructor. Continued study in designated studio areas. Students attend the scheduled class of the prerequisite course. Only one Extended Study is permitted in each study area. Maximum of 6 units may be applied toward a degree requirement.

**Activity courses: 6 hours per week**

(A) Anatomy (Prerequisite ART 224A); (B) Portraiture (Prerequisite ART 224B); (D) Watercolor (Prerequisite ART 328); (F) Exhibition Design (Prerequisite ART 342); (I) Animation Drawing (Prerequisite ART 443).

**Lab courses: 9 hours per week**

(N) Large Format Photography (Prerequisite ART 355); (P) Animation III (Prerequisite ART 463).

**ART 496A-Z. Experimental Topics Courses in Art (1-3)**

Experimental courses in Art with course content to be determined.

**ART 499. Independent Study (1-6)**

Enrollment in Independent Study is by Department Chair's consent and instructor's consent to act as sponsor. Admission based on evidence of ability to pursue in-depth Independent Study and approval of a project submitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required before credit may be received. No more than 6 units of credit in 499 may be earned toward the Bachelor's Degree in Art. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course.

## Graduate

---

Note: 300-level courses in Art do not carry credit for a Master's in Art; 400-level courses in Art carry credit for a Master's in Art only if they are approved by the Department and Graduate Advisor. Qualified undergraduate seniors may take 500-level courses with consent of the instructor. Previous successful completion of units in the same studio specialization are required prior to graduate-level studio course enrollment.

**ART 500. History of Art Museums and Collecting in Western Civilization (3)**

*Prerequisites: ART 110, 111; two 400-level courses in art history.* Study of how the museum concept has developed through the centuries. Survey of the world's most important public museums and their content. Importance of art collecting since the 19th century and problems in museology.

**ART 502. Gallery and Museum Practices (3)**

Introduction to problems in gallery and museum organization, management and administration, including preparatorial and curatorial functions.

**ART 520. Studio Problems Video/ Digital Art (3-3-3-3)**

Investigation into artistic studio problems in video/digital art. Explorations lead to resolution of personal artistic statements. Increasing complexity in concept, media and presentation is required in the sequence of course work. Available for repeat credit. 6 hours per week in supervised studio work.

**ART 521. Studio Problems: Painting (3-3-3-3)**

*Prerequisites: Graduate standing; Instructor consent.* Investigation of artistic problems in painting, exploration leading to resolution in artistic statements. Problems of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar; 5 hours per week in supervised studio work.

**ART 522. Studio Problems: Illustration (3-3-3-3)**

*Prerequisites: Graduate standing; Instructor consent.* Investigation of artistic problems in illustration with exploration leading to concrete resolutions. Problems of increased complexity and greater depth of practical problem solving required in the sequence of course work. 5 hours lab.

**ART 524. Studio Problems: Drawing (3-3-3-3)**

*Prerequisite: ART 424.* Investigation of advanced problems in drawing or in drawing and related art disciplines. Projects of increasing complexity that require evidence of greater depth and skill in the resolution of visual statements. 1 hour per week in seminar; 5 hours per week in supervised studio work.

**ART 525. Studio Problems: Printmaking (3-3-3-3)**

*Prerequisites: Graduate standing; Instructor consent.* Investigation of artistic problems in printmaking, exploration leading to resolution in artistic statements. Problems of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar; 5 hours per week in supervised studio work.

**ART 535. Studio Problems: Sculpture (3-3-3-3)**

*Prerequisites: Graduate standing; Instructor consent.* Investigation of advanced problems in sculpture.

**ART 539. Advanced Figure Study (3-3-3-3)**

*Prerequisite: ART 339.* Advanced sculptural problems dealing with the human figure. Large-scale sculpture from the model emphasizing expressive content. 5 hours lab.

**ART 542CS. Advanced Exhibition Design (3)**

*Prerequisite: Graduate standing.* Advanced study of the primary components of exhibition design, including curating, budgeting, installation and promotion. Focuses on public relations, education, community service, tours, publicity and publication as they pertain to the CSUN and/or community galleries and their functions. Several class meetings held in each of the art galleries, as well as other venues. Offers a community service opportunity with activities relating to concepts and theories presented. 5 hours per week.

**ART 544. Studio Problems: Graphic Design (3-3-3-3)**

*Prerequisites: ART 444 or equivalent; Graduate standing; Instructor consent.* Investigation of advanced problems in graphic design exploring both the technical and conceptual challenges of visual communication. Projects of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 5 hours lab.

**ART 550. Studio Problems: Photography (3-3-3-3)**

*Prerequisites: Portfolio review; Graduate standing; Instructor consent.* Investigation of advanced problems in photography exploring both the technical and conceptual challenges of visual communication. Projects of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 5 hours lab.

**ART 560. Studio Problems in Ceramics Design (3-3-3-3)**

*Prerequisites: Graduate standing; Instructor consent.* Investigation of artistic problems in ceramics and/or glass design, exploration and experimentation leading to resolution in artistic statements. Problems in increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar; 5 hours per week in supervised studio work.

**ART 588. Studio Problems in Public Art (3-3-3-3)**

*Prerequisites: ART 488; 400-level Art course; Instructor consent.* Development and completion of art forms planned for placement in the public realm. Increasing complexity and evidence of greater depth required in the sequence of course work. Public art investigated in a workshop format that includes speakers, demonstrations and field trips. Emphasis on studio activities, proposal development and service learning. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented in the course. Check the schedule of classes for the CS designation. 5 hours per week.

**ART 590. History and Philosophy of Art Education (3)**

*Prerequisite: Junior standing.* Required for Single Subject Credential in Art. May be used as Upper Division Art elective for B.A. degree. Intensive study of the historical and chronological development of Art Education in America and abroad. Emphasis on significant trends and movements that have affected its growth and present structure.

**ART 611. History and Philosophy of Art (3)**

*Prerequisites: Minimum 1 year Art History (2 years recommended); Graduate standing.* Seminar examining the development of movements and ideas in 20th century art. Research in modern art and artists. (Offered Fall semester.)

**ART 615. Art Analysis and Criticism (3)**

*Prerequisites:* Minimum 1 year of Art History; Graduate standing. Seminar exploring the critical approach to the work of art in terms of form, content and expression. Aesthetic and methodological problems will be treated in particular relationship to contemporary art and its criticism. (Offered Spring semester.)

**ART 619. Seminar in Art History (3-3-3)**

*Prerequisites:* ART 311 or equivalent; Classified graduate standing; Instructor consent. Restricted to graduate students in Art History. In-depth research on specific problems of art history. May be repeated twice for credit.

**ART 620. Advanced Studio Problems: Video/Digital Art (3-3-3-3)**

*Prerequisite:* ART 502 or equivalent. Investigation into advanced concepts involved in the production of video/digital art forms. Explores resolution of problems dealing with media, technique and presentation. Increasing complexity and evidence of conceptual depth is required in the sequence of coursework. 5 hours per week in supervised studio work.

**ART 621. Advanced Studio Problems: Painting (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of artistic problems in painting, exploration leading to resolution in artistic statements. Problems of increasing complexity and evidence of greater depth of artistic concept required in the sequence of coursework. May be repeated 3 times for credit. 1 hour per week in seminar, 5 hours per week in supervised studio work.

**ART 622. Advanced Studio Problems: Illustration (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of advanced problems in illustration, exploration leading to resolution in artistic statements. Problems of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar, 5 hours per week in supervised studio work.

**ART 624. Advanced Studio Problems: Drawing (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of advanced problems in drawing and related art disciplines. Projects of increasing complexity that require evidence of greater depth and skill in the resolution of visual statements. 1 hour per week in seminar; 5 hours per week in supervised studio work.

**ART 625. Advanced Studio Problems: Printmaking (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of artistic problems in printmaking, exploration leading to resolution in artistic statements. Problems of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar; 5 hours per week in supervised studio work.

**ART 635. Advanced Studio Problems: Sculpture (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of advanced problems in sculpture.

**ART 644. Advanced Studio Problems: Graphic Design (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of advanced problems in graphic design, exploration leading to resolution in artistic statements. Problems of increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar, 5 hours per week in supervised studio work.

**ART 650. Advanced Studio Problems: Photography (3-3-3-3)**

*Prerequisites:* 6 unites of ART 550; Classified graduate standing; Portfolio review. Investigation of advanced problems in photography exploring both the technical and conceptual challenges of visual communication. Projects of increasing complexity with evidence of greater depth of artistic concept and proficiency required in the sequence of course work. 5 hours lab.

**ART 660. Advanced Studio Problems in Ceramics Design (3-3-3-3)**

*Prerequisites:* Classified graduate standing; Instructor consent. Investigation of artistic problems in ceramics, exploration and experimentation leading to resolution in artistic statements. Problems in increasing complexity and evidence of greater depth of artistic concept required in the sequence of course work. 1 hour per week in seminar, 5 hours per week in supervised studio work.

**ART 681A. Seminar in Art Education (3)**

*Prerequisite:* Classified graduate standing. Graduate students from outside the Department of Art permitted with consent of instructor. Study of the nature of creativity in art, place of art in the curriculum, improving teaching methods and inquiry into other disciplines for related implications. Identification of areas of greatest need for research.

**ART 681B. Seminar in Art Education (3)**

*Prerequisite:* Classified graduate standing. *Recommended Corequisite or Preparatory:* ART 681A. Investigation and identification of areas in greatest need of research in art education. Special emphasis on selection of projects most appropriate for development and for advanced research.

**ART 686. Research in Art Education (3-3)**

*Prerequisites:* Graduate standing; Restricted to M.A. Art candidates. *Recommended Corequisite:* ART 681B. Current experiments and studies in art education; problems of conducting research unique to the area of investigation. Development of research studies with emphasis on design, criteria, measurement and standards of proof.

**ART 688. Advanced Studio Problems: Public Art (3-3-3-3)**

*Prerequisites:* ART 588; Classified graduate standing; Instructor consent. Participation and leadership required in the development and completion of public art projects that are planned for the public realm. Increasing complexity and evidence of greater depth required in the sequence of course work. Public art investigated in a workshop format that includes speakers, demonstrations and field trips. Emphasis on studio activities, proposal development and service learning activities. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented in the course. Check the schedule of classes for the CS designation. 6 hours per week.

**ART 696A-C. Directed Graduate Research (1-3)**

*Prerequisites:* Classified status; Advisor consent.

**ART 698C M.A. Thesis/Artistic Performance (3)**

*Prerequisites:* Classified graduate standing; Completion of or current enrollment in all required Area of Concentration courses for the M.A. Degree in Art; Consent of Graduate Advisor and Thesis Committee; Conformance to University standards for graduate thesis. Provides the M.A. degree candidate with a culminating experience, approved and supervised by the student's Thesis Committee, to be undertaken only with the Thesis Committee's consent after all other requirements have been met. Encompasses the preparation, completion and formal presentation of the culminating work for the degree. Within the M.A. in Art program, there are three areas of study: Art Education, Art History and Visual Arts. Each of these areas of study follows its own specific department-approved procedures. The final form of the thesis must adhere to University regulations for thesis presentation and be approved by the Office of Graduate Research and International Programs.

**ART 698F. M.A. Thesis/Artistic Performance (6)**

*Prerequisites: Classified graduate standing; Completion of or current enrollment in all required courses.*

**ART 699A-C. Independent Study (1-3)**

Enrollment limited to qualified classified graduate students with the consent of the department, Graduate Advisor and the departmental graduate committee. Intensive independent investigation into that area of the fine arts in which the graduate student is specializing.

**Master of Fine Arts****ART 690A-Z. M.F.A. Studio (3-3-3-3)**

*Prerequisites: M.F.A.; Classified status; Instructor's and Graduate Advisor's consent.* Investigation of advanced artistic problems leading to a highly specialized and personal aesthetic. 5 hours per week.

**ART 691A-Z. M.F.A. Seminar (3-3-3-3)**

*Prerequisites: M.F.A.; Classified status.* Orientation to the procedures and requirements of the MFA professional degree programs in Studio or Visual communication Arts. Exploration into career development, professional issues and writing about art. Philosophies pertaining to disciplines in the visual arts are examined through a series of guest lectures. 3 hours per week.

**ART 698MFA. MFA Thesis/ Artistic Performance (3)**

*Prerequisites: M.F.A.; Classified status; Completion of or current enrollment in all required Area of Concentration courses for the M.F.A. Degree; consent of Graduate Advisor and Thesis Committee; Conformance to University standards for graduate thesis.* Provides the M.F.A. candidate with a culminating experience, approved and supervised by the degree committee, which presents the artistic endeavors pursued during the graduate program. Consists of an exhibition and/or performance of the student's work, photographic documentation and a written statement addressing the aesthetic, philosophical and, when appropriate, technical aspects of the work. The final form of the thesis must adhere to University regulations for thesis presentation and be approved by the Office of Graduate Research and International Programs.

# Asian American Studies

## College of Humanities

**Chair: Gina Masequesmay**

**(818) 677-4966**  
[www.csun.edu/aas](http://www.csun.edu/aas)

### Faculty

Allan Aquino, Tracy Buenavista, Edith Chen, Tomo Hattori, Phil Hutchison, Hye-Young Kwon, Clement Lai, Dennis Lee, Doyoung Lee, Gina Masequesmay, Glenn Omatsu, Eunai Shrake, Satoko Shao-Kobayashi, Lalita Singhasri, David Song, Maria Turnmeyer, Laura Uba, Teresa Williams-Leon

### Emeritus Faculty

Enrique de la Cruz

### Staff

Janaki Bowerman, Molly Nguyen

## Programs

Undergraduate:

- B.A., Asian American Studies
- Standard Major Option
- Double Major Option
- Minor in Asian American Studies

## Department Programs

The Asian American Studies Department provides an interdisciplinary liberal arts program. The department offers a Bachelor of Arts major with two options and a minor in Asian American Studies designed to develop student skills in critical analysis, writing, communication and reasoning, while retrieving, documenting and analyzing the literary, artistic, economic, social, political and historical experiences of Asians in the United States. The department also participates in the CSUN General Education Program. Many courses in the major and minor meet the General Education requirements and may be used for both purposes.

## Credential Information

Students interested in applying for Asian American Studies courses toward requirements for various teaching credentials should consult the Credential Office at (818) 677-2586 for more information.

## Careers

Students interested in careers in business, government, education, journalism, human services, urban planning, law and other related fields may find the major, double major or minor in Asian American Studies a suitable field of study. Students interested in the major or minor in Asian American Studies may consult with the Department Chair and process their paperwork with the Student Services Center in JR 240. The Asian American Studies Department supports international education and encourages students to investigate opportunities for overseas and foreign language study. Of particular interest to Asian American Studies majors are study abroad opportunities throughout the Pacific Rim. For overseas studies, students should consult an advisor in the Office of International and Exchange Programs and a department advisor to coordinate their studies.

## Academic Advisement

The Asian American Studies Department helps students select the program and courses that best satisfy their individual needs and interests. Contact Gina Masequesmay (Chair) at (818) 677-4966 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements

of a major or minor in Asian American Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP."

## Student Learning Outcomes of the Undergraduate Program

1. Students will develop a core competency in the history, culture and experience of Asian Pacific American communities in the United States.
2. Working from a social justice approach to race, class, ethnicity, gender and sexuality, students will develop and apply their critical-thinking skills as demonstrated through written assignments, oral presentations, class discussion and examinations.
3. Students will acquire and develop effective communication skills.
4. Students will develop and demonstrate basic research skills as they learn about the particular dynamics of working with Asian Pacific American communities.
5. Students will demonstrate an applied knowledge and practical application of their acquired skills through student and community work, learning in the process the value and importance of community service.

## Requirements for the Bachelor of Arts Degree

### A. Standard Major Option

#### 1. Core Courses (18 units):

|     |       |   |
|-----|-------|---|
| AAS | 100   | Introduction to Asian American Studies (3)      |
| AAS | 201   | Race, Racism and Critical Thinking (3)          |
| AAS | 210   | History of Asians in America (3)                |
| AAS | 220   | Survey of Asian American Literature (3)         |
| AAS | 311   | Research Methods in Asian American Studies (3)  |
| AAS | 390/F | Asian American Communities: Field Practicum (3) |

#### 2. Community Studies

##### Select two of the following (6 units):

|     |        |   |
|-----|--------|---|
| AAS | 345    | Contemporary Issues in Asian American Studies (3) |
| AAS | 347    | Asian American Legal and Political History (3)    |
| AAS | 360    | Asian American Immigration-Global Perspective (3) |
| AAS | 361A-Z | Asian American Experience of Selected Groups (3)  |
| AAS | 440    | Urbanization and Asian American Communities (3)   |

#### 3. Cultural and Literary Studies

##### Select two of the following (6 units):

|     |         |  |
|-----|---------|--|
| AAS | 230     | Asian Americans and the Media (3)                |
| AAS | 321     | Asian American Fiction (3)                       |
| AAS | 325A-B* | Asian American Creative Studies Workshop (3)     |
| AAS | 420     | Asian American Literary Self-Representations (3) |
| AAS | 430     | Asian Americans and Popular Culture (3)          |

\*Only one course in the AAS 325A-B series may be applied to the above Cultural and Literary Studies Section.

#### 4. Social Relations, Family and Gender Studies

##### Select two of the following (6 units):

|     |     |  |
|-----|-----|--|
| AAS | 340 | Asian American Women (3)                         |
| AAS | 350 | Asian American Personality and Mental Health (3) |
| AAS | 355 | Biracial and Multiracial Identity (3)            |
| AAS | 453 | Asian American Families (3)                      |
| AAS | 455 | Asian American Sexuality (3)                     |

#### 5. Electives (3 units)

Select 3 units of electives either in Asian American Studies or, with permission from the Department Chair, from another department. Intermediate language study in an appropriate Asian or Pacific Island language is highly recommended and would qualify under this section.

#### 6. Senior Capstone

##### Select one of the following (3 units):

|     |     |   |
|-----|-----|---|
| AAS | 495 | Selected Topics in Asian American Studies (3) |
| AAS | 497 | Senior Seminar in Asian American Studies (3)  |

|  |            |
|--|------------|
| <b>Total Units in the Major</b>            | <b>37</b>  |
| <b>General Education Units</b>             | <b>48</b>  |
| <b>Additional Units</b>                    | <b>30</b>  |
| <b>Total Units Required for the Degree</b> | <b>120</b> |

## B. Double Major Option

This option is designed for students who choose to double major in Asian American Studies as their second field of study.

### 1. AAS Core Courses: (9 units)

|         |  |
|---------|--|
| AAS 100 | Introduction to Asian American Studies (3) |
| AAS 210 | History of Asians in America (3)           |
| AAS 220 | Survey of Asian American Literature (3)    |

### 2. Community Studies

Select two of the following (6 units):

|            |   |
|------------|---|
| AAS 311    | Research Methods in Asian American Studies (3)    |
| AAS 347    | Asian American Legal and Political History (3)    |
| AAS 360    | Asian American Immigration-Global Perspective (3) |
| AAS 361A-Z | Asian American Experience of Selected Groups (3)  |
| AAS 390/F  | Asian American Communities: Field Practicum (3)   |
| AAS 440    | Urbanization and Asian American Communities (3)   |

### 3. Cultural and Literary Studies

Select two of the following (6 units):

|             |   |
|-------------|---|
| AAS 321     | Asian American Fiction (3)                      |

**Lifelong Learning;** AAS 230, AAS 390/F

**Comparative Cultural Studies;** AAS 100, AAS 340, AAS 345, AAS 360

## Course List

### AAS 100. Introduction to Asian American Studies (3)

Survey of research on Asian Pacific American experiences, including: history, community life, language experience, arts, education, politics and economics. Emphasizes research on Americans of Chinese, Filipino, Japanese, Korean, Southeast Asian, South Asian and Pacific Island ancestry. Available for Section B of the Multicultural Requirement for Credential Candidates. (Available for General Education, Comparative Cultural Studies.)

### AAS 113A. Approaches to University Writing A (3)

*Prerequisite:* EPT score of 120-141 or higher. Expository prose writing with a focus on both content and form. Specific emphases shall include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Students are required to also enroll in UNIV 060 (1 credit) or equivalent. Individual tutoring is available through the Asian American Studies Activities Center or the Learning Resource Center.

### AAS 113B. Approaches to University Writing B (3)

*Prerequisite:* Successful completion of AAS 113A. Expository prose writing with a focus on both content and form. Specific emphases shall include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Students are required to also enroll in UNIV 060 (1 credit) or equivalent. Individual tutoring is available through the Asian American Studies Activities Center or the Learning Resource Center. (Available for General Education, Analytical Reading / Expository Writing.) (IC)

### AAS 114A. Approaches to University Writing A (3)

*Prerequisite:* EPT score of 142-150. Expository prose writing with a focus on both content and form. Specific emphases shall include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Individual tutoring is available through the Asian American Studies Activities Center or the Learning Resource Center.

**AAS 114B Approaches to University Writing B (3)**

*Prerequisites:* Successful completion of AAS 114A. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Individual tutoring is available through the Asian American Studies Activities Center or the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC).

**AAS 115 Approaches to University Writing (3)**

*Prerequisite:* EPT score of 151 or higher. Expository prose writing with a focus on both content and form. Specific emphases shall include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Individual tutoring is available through the AAS Activities Center, Chicana/o Writing Lab, Pan African Studies Lab, or Learning Resource Center. (Available for General Education, Analytical Reading / Expository Writing.) (IC)

**AAS 151. Fundamentals of Public Speaking (3)**

*Prerequisites:* EPT score of 151 or better or EPT; Successful completion of 113A or 114A or equivalent. This course is an introduction to public speaking and oral communications processes, with particular emphasis on issues related to Asian American Studies and Asian Pacific American communities. In addition to basic skills, students will be introduced to Asian Pacific American figures who have used oral communication as a way to address issues related to race, ethnicity, gender, sexuality, identity and community. Students will be required to deliver a variety of speeches. The course will include intensive practice in public speaking, logical reasoning and critical reasoning. Students are required to attend 15 hours of public speaking events outside of the classroom. Crosslisted with CHS 151, PAS 151 and COMS 151/L. (Available for General Education, Oral Communication.)

**AAS 201. Race, Racism and Critical Thinking (3)**

*Preparatory:* Completion of the GE sections Analytical Reading/Expository Writing and Mathematics. Introduction to the process of critical thinking through the lens of race-based theories and selected historical and contemporary discourse of African Americans, Asian Americans, European Americans and Latinos on race relations and multiculturalism in American society. Examines contemporary social issues through the use of scholarly studies and a range of cultural “texts” in order to explore the effects of race and racism on the relationship between language and logic, processes and form of reasoning and practices of critical reflection. Also examines intersection of race, gender and class. (Available for General Education, Critical Thinking.)

**AAS 210. History of Asians in America (3)**

Introduction to the history of Asian Americans in the United States from the 1800s to the present. Students review the historical forces affecting immigration of the following communities: Chinese, Japanese, Filipino, Korean, South Asian, Southeast Asian and Pacific Islander. Analysis of problems resulting from limited access to the social, political and economic institutions of American society. (Available for General Education, Social Sciences.)

**AAS 220. Survey of Asian American Literature (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of Asian American literature from the late 19th century to the present. Introductory study of prose fiction and non-fiction, poetry and drama written by Americans of Chinese, Japanese, Korean, Filipino, Southeast Asian, South Asian and Pacific Islander ancestry. Regular writing assignments required. (Available for General Education, Arts and Humanities.)

**AAS 230. Asian Americans and the Media (3)**

Study of the effects of mass media on the history and development of Asians in America. Particular attention to Asian American images in film, television, the internet and advertisements. (Available for General Education, Lifelong Learning.)

**AAS 296A-Z. Experimental Topics Courses in Asian American Studies (1-3)**

Experimental courses in Asian American Studies with course content to be determined.

**AAS 311. Research Methods in Asian American Studies (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* Completion of an AAS course. This course is designed to introduce students to the fundamentals of developing qualitative community-based research projects within Asian American communities. Students will learn theories used in Asian American Studies, develop a short-term research project, practice data collection methods, analyze qualitative data and present their findings on contemporary issues affecting Asian American communities. This course will provide students basic research skills, as well as demonstrate that community-based research can be a collaborative process.

**AAS 321. Asian American Fiction (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of Asian American fiction written by Americans of Chinese, Japanese, Korean, Filipino, South Asian and Southeast Asian ancestry. Regular writing assignments required. (Available for General Education, Arts and Humanities.)

**AAS 325A. Asian American Creative Studies Workshop: Literary Arts (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Intensive practice in the writing of poetry and prose fiction. Includes analysis of published Asian American writings and a series of writing exercises and/or writing assignments that culminate in a portfolio of no fewer than 4,000 words. Offers perspectives on the shifting definitions of “Asian American” and on the Populist/Activist and Academic/Literary approaches that have helped shape the contours of Asian American creative writing. Students participate in the written and oral critiques of each other’s work.

**AAS 325B. Asian American Creative Studies Workshop: Performance Arts (3)**

Involves the study and practice of Asian American performance with particular emphasis on adapting, scripting and performing personal, family and community-based narratives. Students gain competencies in the analysis, performance and criticism of Asian American dramatic and non-dramatic, non-traditional texts, including (auto) biographies, memoirs, diaries, oral histories and narrative accounts drawn from everyday life.

**AAS 340. Asian American Women (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Multidisciplinary analysis of women in the diverse Asian Pacific American communities. Study of the historical, social, political and economic factors that have impacted the role and status of Asian Pacific American women in U.S. society. Regular writing assignments required. Available for Gender and Women’s Studies Minor, Ethnic Studies and Diversity. (Available for General Education, Comparative Cultural Studies.)

**AAS 345. Contemporary Issues in Asian American Studies (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Critical analysis of contemporary issues confronting Asian Americans in the U.S. Emphasis placed on social and economic issues such as immigration, education, employment, health and inter-ethnic and intra-Asian conflict. Regular writing assignments required. Available for Section B, Multicultural Requirement for Credential Candidates. (Available for General Education, Comparative Cultural Studies.)

**AAS 347. Asian American Politics and the Law (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Recommended:* Prior completion of an AAS course. Advanced course on the legal and political history and contemporary struggles of Asian Americans. Overview of American political system through the examination of basic texts, including the U.S. Constitution. Examines the history and formation of Asian communities in the U.S., the evolution of their participation in the political process through the lens of immigration, citizenship policies and laws, civil rights reform laws, state laws and municipal ordinances and contemporary legal and political issues. (Meets GE Title 5 requirements in areas (2) and (3) covering the Constitution and California state and local governments.)

**AAS 350. Asian American Personality and Mental Health (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Analysis of psychological issues from an Asian American perspective. Specific topics include the impact of minority status on personality development, cross-cultural comparisons of Asian Americans and introduction to problems in the assessment, diagnosis and treatment of mental health problems in Asian Americans. Available for Section B of the Multicultural Requirement for Credential Candidates. (Available for General Education, Social Sciences.) (IC)

**AAS 355. Biracial and Multiracial Identity (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Interdisciplinarily studies the socio-historical realities, identities and political maintenance of people with multiple racial and ethnic heritages; examines the binary racial structure of the U.S., social and legal customs of racial designation and membership; focuses on multiracial populations such as Creoles, mulattos, mestizos, Black-Indians, Eurasians, Afroasians, Amerasians, etc.

**AAS 360. Asian American Immigration-Global Perspective (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Examines Asian immigration to the U.S. from a world systems perspective. Examines immigration process and the implication of this process for contemporary interest in the Pacific Rim. Topics include origins of Asian immigration, major U.S. immigration legislation, demographic structure of contemporary Asian immigration and cross-cultural comparisons of other world groups. Regular writing assignments required. (Available for General Education, Comparative Cultural Studies.)

**AAS 361 A-Z. Asian American Experience of Selected Groups (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Intensive study of the immigration/incorporation history and experience of a specific Asian Pacific American sub-group. Each course examines the nexus between historical events and contemporary issues facing a particular Asian Pacific American community and their experiences in various sectors of U.S. society: labor, family, politics, education and cultural preservation and community formation. (A) Filipino American Experience; (B) Vietnamese American Experience; (C) Chinese American Experience; (D) Korean American Experience; (E) Japanese American Experience; (F) South Asian American Experience. For courses on other groups, please consult with department office.

**AAS 390/E. Asian American Communities: Field Practicum (2/1)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Recommended Corequisite or Preparatory:* Concurrent enrollment in AAS 345 or other related course. A seminar on field study, observation and participation in selected community institutions and agencies. This course will also offer a community service opportunity with activities relating to concepts and theories presented. 15 hours of supervised field experience. May be repeated once for credit. (Available for General Education, Lifelong Learning.)

**AAS 396A-Z. Experimental Topics Courses in Asian American Studies (1-3)**

Experimental topics in Asian American Studies with course content to be determined.

**AAS 417. Equity and Diversity in School (3)**

Prepares teacher candidates to examine principles of educational equity, diversity and the implementation of curriculum content and school practices for elementary/secondary students. Focuses on the history and culture of a specific ethnic experience and a comparative analysis is made with other ethnic groups in California. Engages students to examine, critique and reflect on their personal biases regarding children of color. (Cross listed with ELP, PAS, CHS and ARMN 417.)

**AAS 420. Asian American Literary Self-Representations (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* AAS 100. Examines self-representations in Asian American literary studies. Addresses how self-representations in Asian American literature commonly work within and across a variety of literary genres. Attention paid to the aesthetic, cultural, socio-historical and publishing factors that have shaped non-fictional self-representations.

**AAS 430. Asian American Popular Culture (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* AAS 100. Critical analysis of representations and images of Asian Americans and popular culture, emphasizing the production, consumption and use of popular culture by and about Asian Americans in the U.S. Surveys theories and methods for studying popular culture, especially in terms of the differential impact of race, gender, ethnicity and sexual orientation.

**AAS 440. Urbanization and Asian American Communities (3)**

*Preparatory:* Completion of the Lower Division writing requirements and AAS 100. Examination of the development of Asian American communities in the U.S. from 1850 to present. Particular attention to the impact of Asian American communities on the economic, social, cultural and political development of urban Southern California and on the relationship between Asian American communities and other ethnic communities.

**AAS 450. Asian American Child and the Schools (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of the development of the Asian American child with particular emphasis on bicultural and bilingual issues that may influence educational progress. Culturally relevant socialization patterns of children from Chinese, Japanese, Korean, Filipino and Southeast Asian backgrounds examined. Intended for students interested in teaching and human services. Regular writing assignments required. Available for Section A of the Multicultural Requirement for Credential Candidates.

**AAS 453. Asian American Families (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Overview of the demographic, social cultural, structural and historical aspects of Asian American families in the United States. Examines comparative family features among Asian American ethnic groups and other cultural and ethnic groups in the U.S. Parenting styles, communication styles, values, traditions and beliefs examined across ethnic

backgrounds, class and immigration histories. Available for Section B of the Multicultural Requirement for Credential Candidates.

**AAS 455. Asian American Sexuality (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Explores the personal, social and political identities of Asian Americans as expressed from the lens of sexuality; interdisciplinarily examines current topics in Asian American sexuality, such as gender roles, cultural beliefs and sexual mythology, sexual practices, media images, literary representations, sexual violence and abuse, sex-related health, sex work and commodification, and sexual orientation.

**AAS 495A-Z. Selected Topics in Asian American Studies (3)**

*Preparatory: AAS 100 or 210 or instructor consent.* Intensive study of selected themes and issues in Asian American Studies. Topics change from semester to semester. May be repeated for credit with instructor consent.

**AAS 496A-Z. Experimental Topics Courses in Asian American Studies (1-3)**

Experimental topics in Asian American Studies with course content to be determined.

**AAS 497. Senior Seminar in Asian American Studies (3)**

*Prerequisite: Senior standing or instructor's consent.* An integrative seminar serving as a capstone to the degree major in Asian American Studies. Provides a general review of the theories, methods and substantive conclusions covered in Asian American Studies courses and provides guidance and assistance in the writing of the senior thesis.

**AAS 499A-C. Independent Studies (1-3)**

*Prerequisite: Limited to Upper Division students with written permission from the Department Chair and the sponsoring faculty person.* No more than 3 units of Independent Study may be applied to the Minor in Asian American Studies.

# Asian Studies

College of Social and Behavioral Sciences

**Coordinator: Phyllis Herman**

**Santa Susana Hall 230**

## Interdisciplinary Program

### Minor in Asian Studies

## Program

Asian Studies is an interdisciplinary program designed to provide an integrated approach to the study of the history, culture and current problems of this increasingly important region of the world. The program includes courses that involve the areas of East Asia, South Asia and Southeast Asia. Graduates from this program may either pursue their studies in graduate schools or apply their knowledge and training in various governmental and private agencies interacting with Asian countries.

A minor in Asian Studies is of particular interest and value to students majoring in Anthropology, Business, Geography, History, Political Science, Economics or Religious Studies.

The minor in Asian Studies consists of 18 units with no more than 6 Lower Division units. The student must consult with an Asian Studies advisor to develop an approved program from the courses listed that best suits his/her individual needs. The student will be able to choose a broad program, which will provide a background in several regions of Asia, or he/she will be able to specialize in East Asia, South Asia or Southeast Asia.

## Academic Advisement

All Asian Studies minors are required to see an advisor to work out a program of study that will meet his/her specific needs and interests. A student's program must include courses that involve at least two of the three Asian areas. The Program Coordinator and all Program Committee members are available for advisement.

The coordinator and/or a designee are on duty during orientation and are available by appointment during the summer. In addition, the program office publishes an informational brochure that can be picked up in the office and also obtained by mail or phone request.

## Requirements for the Minor

### 1. Lower Division Courses (6 units)

|      |     |                                       |
|------|-----|---------------------------------------|
| HIST | 191 | History of Eastern Civilization I (3) |
| HIST | 192 | History of Modern East Asia (3)       |

Students who expect to pursue work in Asian Studies beyond the undergraduate level should be aware that competence in an Asian language is a common requirement for advanced degrees.

Consequently, those students minoring in Asian Studies may substitute a maximum of 6 units of an Asian language (e.g., Chinese, Japanese, Hindi or a Southeast Asian language), as electives in their Lower Division program.

### 2. Upper Division (12 units)

Select from the following:

#### Social Sciences:

|      |      |  |
|------|------|--|
| ANTH | 339  | Peoples of South Asia (3)                      |

### Athletics Program

Cal State Northridge Athletics is a diverse and broad-based sports program which exists to provide highly skilled students with the opportunity to further develop their athletic talents while obtaining a college education and degree. We provide the highest level of amateur athletic entertainment for the campus community and seek to develop campus spirit and pride for students, faculty, staff and alumni.

Eight men's and 10 women's intercollegiate sports are offered at CSUN. Approximately 350 students are directly participating on these teams. Currently, CSUN Athletics offers the following sports: women's basketball, cross country, golf, indoor track, outdoor track and field, soccer, softball, tennis, volleyball and water polo; and men's baseball, basketball, cross country, golf, indoor track, outdoor track and field, soccer and volleyball.

CSUN Athletics is affiliated with the Big West Conference and Mountain Pacific Sports Federation which are National Collegiate Athletic Association (NCAA) Division I conferences.

The programs must function within the regulations relative to academics and amateurism set forth by the NCAA.

Students designated as intercollegiate athletes must be enrolled full-time and are subject to mandates for degree progress established by the NCAA. Members of athletic squads must officially register to receive credit.

Enrollment in Athletics courses is restricted to students who meet NCAA eligibility requirements. Students may receive a maximum of 3 Athletic units per academic year.

## Course List

### **ATHL 197A-Z. Off-Season Conditioning (1-1-1-1)**

Conditioning exercises and drills for varsity sports in the off season. May be repeated for 4 units credit. (Credit/No Credit)

### **ATHL 200-Level Series Varsity Athletics (2-2-2-2)**

In season practice and competition. May be repeated for 8 units credit. (Credit/No Credit)

#### **Team Number and Title**

|      |     |                           |

# Biology

## College of Science and Mathematics

**Chair: Dr. Larry Allen**  
**Chaparral Hall (CR) 5101**  
**(818) 677-3356**  
**[www.csun.edu/biology](http://www.csun.edu/biology)**

### *Faculty*

Larry Allen, Lisa Banner, Larry Baresi, Chhandak Basu, Maria Elena de Bellard, David Bermudes, Robert Carpenter, Randy Cohen, Steve Dudgeon, Peter Edmunds, Robert Espinoza, Michael Franklin, David Gray, Fritz Hertel, Ray Hong, Cheryl Hogue, Timothy Karels, Ernest Kwok, Rachel Mackelprang, Cindy Malone, Jennifer Matos, Rheem Medh, Aida Metzberg, Stan Metzberg, Sean Murray, Daniel Odom, Steven Oppenheimer, Jeanne Robertson, Paula Schiffman, Mark Steele, Mary-Pat Stein, Michael Summers, Paul Tomasek, Cheryl Van Buskirk, Virginia Vandergon, Paul Wilson, Maria Elena Zavala

### *Emeritus Faculty*

Nancy Bishop, Linda Caren, Mary Corcoran, Kevin Daly, Jim Dole, William Emboden, George Fislser, Warren Furumoto, Anthony Gaudin, Kenneth Jones, John Kontogiannis, Daisy Kuhn, Joyce Maxwell, Joseph Moore, Edward Pollock, O. Tacheeni Scott, Phillip Sheeler, Mary Sparling, Charles Spotts, Richard Swade, Charles Weston, Kenneth Wilson

### *Adjunct Faculty*

Jack Barrett, Maurie Beck, Christy Brigham, Kerry Clegg, Daniel Darvish, Peter Eggena, Norman Glover, Alan Holtzman, Rehwa Lee, Joyce Maxwell, Daniel Pondella, Craig Rudolph, Ken Tachiki, Yadira Valles-Ayoub, Thomas Vandergon

### Programs

Undergraduate:

- B.A., Biology**
- B.S., Biology**
- Minor in Biology**

Graduate:

- M.S., Biology**

### Credential Information

Admission to a CSU credential program or University intern program requires demonstration of subject matter competence in biological science, and there are several ways of completing that requirement. The most common is passage of a set of state-administered California Subject Examinations for Teachers (CSET), with six testing dates per year ([www.cset.nesinc.com](http://www.cset.nesinc.com)). The exact subtests to be taken depend on the teaching authorizations desired, but for grade 9-12 classroom teaching the requirements usually include general science (subtests 118 and 119) as well as biological sciences (subtest 120). Completion of a B.A. degree in Biology should be adequate preparation for the exams, but candidates may wish to speak to the Biology Credential Advisor to discuss course options. A course-based waiver from one or more of the CSET is possible for certain students who completed a degree in Biology prior to July 1, 2009. Current students who have an undergraduate degree in the field and at least 30 post-baccalaureate units in the field, or a post-baccalaureate degree in the field, should also consult the Biology Credential Advisor about a "Specialized" waiver of the CSET through the California Commission on Teacher Credentialing. Students interested in becoming public school science teachers should discuss their plans with the CSUN Credential Office ([www.csun.edu/education/cred](http://www.csun.edu/education/cred)), as it is sometimes possible to combine preliminary credential coursework with a baccalaureate degree program.

### Academic Advisement

Advisement is required of Biology undergraduate and graduate students annually. Undergraduate advisement can be obtained at the Biology Student Advisement Center or from any Biology faculty member in the student's option. The Biology Student Advisement Center is located in Chaparral Hall 5104 and can be reached at (818) 677-2675 or by email at [biologyadvisors@csun.edu](mailto:biologyadvisors@csun.edu). For graduate students seeking advisement, contact Graduate Coordinator Tim Karels (email: [biograd.coordinator@csun.edu](mailto:biograd.coordinator@csun.edu)).

Contact Jim Dole, Daniel Odom or Terri Richardson for undergraduate advisement and Graduate Coordinator Tim Karels for questions about graduate study.

Contact the following option advisors: Stan Metzberg (Biotechnology), Daisy Kuhn and Terri Richardson (Medical, Dental, Pharmacy, Optometry, Physician Assistant, Veterinary and Podiatry), Sean Murray (Medical Technology), and Jennifer Matos and Stan Metzberg (Teacher Preparation).

### Pre-Medical and Pre-Professional Information

The B.A. degree is recommended for all pre-professional students; however, any of the B.S. options may be followed by students with special interests. Pre-medical, pre-dental and other students pursuing health-associated professional careers should consult with the Pre-Professional advisors, Terri Richardson or Daisy Kuhn.

### The Major

Biology is the study of life, its variety and processes. The discipline is dynamic and its intellectual framework is expanding rapidly. In one direction, the study of organisms is the basis for the understanding of how populations of organisms interact among themselves and with their environment. This includes a consideration of the distribution and abundance of organisms, change in organisms over time, energy flow among organisms and cycling of inorganic and organic resources. In another direction, the study of biological molecules is the basis for understanding cell structure and function, including metabolism, growth, development and reproduction in organisms. Additional information about the Biology program, faculty interests and the like can be found at: [www.csun.edu/biology](http://www.csun.edu/biology).

### Student Learning Outcomes of the Undergraduate Program

The Biology Department has identified five learning outcomes to be achieved by its students as a result of completing one of its baccalaureate degree programs.

1. Students will demonstrate knowledge of a) the structure and metabolism of cells; b) the transmission and expression of genetic information; and c) the immediate and long-term (evolutionary) consequences of interactions between organisms and their environment.
2. Students will demonstrate specialized knowledge in one or more disciplines of biology.
3. Students will be aware of and/or capable of using new and existing methods and technologies in these disciplines.
4. Students must demonstrate facility in applying the methods of scientific inquiry, including observation, hypothesis testing, data collection and analysis.
5. Students will have the ability to engage the biology literature and to communicate scientific information verbally and/or in writing.

### Careers

Many career opportunities are available to the student majoring in biology. The undergraduate program provides an excellent background for further work in medicine, dentistry, pharmacy, optometry, veterinary medicine, biotechnology, clinical laboratory science and graduate programs. It also can serve for direct entry into teaching and

a variety of positions in industrial, research and governmental organizations. Graduates of our program have been very successful in gaining admission and to successfully completing advanced degrees at high-quality universities.

### Bachelor of Arts Program

The B.A. degree is designed for students seeking a broad foundation in biology as part of a liberal education in the arts and sciences. Provided that careful attention is paid to the requirements for advanced (post-baccalaureate) and professional programs, the B.A. degree is appropriate for those students (1) preparing for dentistry, medicine, optometry, pharmacy or veterinary medicine; (2) seeking a teaching credential (see above); or (3) intending to enter a graduate program. The B.A. degree is also suitable for careers in such areas as pharmaceutical sales and medical illustration (see Pre-Medical and Pre-Professional Information).

### Bachelor of Science Programs

**Cell and Molecular Biology (Option I)** of the B.S. degree prepares students for work in private or government labs where modern cellular and molecular techniques are used. This option also prepares the student for advanced graduate study.

**Environmental Biology (Option II)** of the B.S. degree prepares graduates for employment in positions such as ecologist or wildlife preserve manager; for positions with the U.S. Department of Agriculture, Bureau of Land Management, National or State Parks and other government agencies and private organizations; or for consulting positions in formulating environmental impact reports. A modified version of this option is appropriate for students seeking a teaching credential. This option also prepares the student for advanced graduate study.

**Microbiology (Option III)** of the B.S. degree prepares students for employment in microbiology labs, both government and private, and meets the requirements of the California Department of Health Services. This option also prepares the student for advanced graduate study.

**Biotechnology/Medical Technology (Option IV)** of the B.S. degree is designed to (1) meet the state academic requirements for Clinical Lab Science (Medical Technology) or Public Health Microbiology; or (2) prepare a student for a career in biotechnology. Students who complete the course sequence for Medical Technology will be prepared to apply for the clinical year of training in Clinical Lab Science or to begin a career in industry or government. Students completing the Biotechnology course sequence will be well prepared for an entry-level biotechnology position in industry or government or for graduate programs in biotechnology. Students choosing either track of this option should consult an advisor as early as possible concerning the proper course sequence to be followed and other requirements in each field.

**Marine Biology (Option V)** of the B.S. degree prepares graduates for advanced graduate study and for employment in the marine sciences.

### Requirements for the Bachelor of Arts Degree

Each student is required to complete the Core Program plus all of the requirements in the Selective Program.

#### A. Core Program

##### 1. Lower Division Courses (26 units)

|      |        |  |
|------|--------|--|
| BIOL | 106/L  | Biological Principles I and Lab (3/1)  |
| BIOL | 107/L  | Biological Principles II and Lab (3/1) |
| CHEM | 101/L  | General Chemistry I and Lab (4/1)      |
| CHEM | 102/L  | General Chemistry II and Lab (4/1)     |
| PHYS | 100A/L | General Physics I and Lab (3/1)        |
| PHYS | 100B/L | General Physics II and Lab (3/1)       |

##### 2. Upper Division Courses (17 units)

|      |       |  |
|------|-------|--|
| BIOL | 322   | Evolutionary Biology (3)                         |
| BIOL | 360   | Genetics (3)                                     |
| BIOL | 380   | Cell Biology (3)                                 |
| CHEM | 333/L | Principles of Organic Chemistry I and Lab (3/1)  |
| CHEM | 334/L | Principles of Organic Chemistry II and Lab (3/1) |

##### 3. Mathematics Requirement

All biology B.A. students are required to demonstrate proficiency in mathematics equivalent to a passing grade in MATH 105 (or MATH 102 and 104). They may do this by receiving a passing score on the Math Placement Test sufficient for admission to MATH 255A.

#### B. Selective Program (20 units)

Students must take a minimum of 20 units of specialized coursework in addition to the Core courses. With the approval of a faculty advisor and the concurrence of the Department Curriculum Committee, students may create their own program. Approval for such individualized programs must be obtained before enrollment in the last 12 units of Biology courses. By appropriate choice of courses, students may obtain the equivalent of a traditional degree in Botany or Zoology.

##### 1. Molecular, Cellular and Physiological Biology

Take at least 7 units from the following, including at least one course that has a bench lab designated by an "L" and at least one course that is at the 400-level or above:

|      |         |  |
|------|---------|--|
| BIOL | 281/282 | Human Physiology and Lab (3/1)                 |
| BIOL | 315/L   | Principles of Microbiology and Lab (2/2)       |
| BIOL | 316/L   | Plant Biology and Lab (3/1)                    |
| BIOL | 381     | Cell Biology Lab (1) (not an "L" course)       |
| BIOL | 408/L   | Applied Microbiology and Lab (2/2)             |
| BIOL | 411/L   | Animal Histology and Lab (2/2)                 |
| BIOL | 417/L   | Microbial Physiology and Lab (2/2)             |
| BIOL | 441/L   | Embryology and Lab (2/2)                       |
| BIOL | 468     | Human Genetics (3)                             |
| BIOL | 470     | Biotechnology (3)                              |
| BIOL | 476     | Topics in Stem Cell Biology (3)                |
| BIOL | 481/L   | Plant Physiology and Lab (2/2)                 |
| BIOL | 482/L   | Animal Physiology and Lab (2/2)                |
| BIOL | 485/L   | Immunology with Serology Lab (2/2)             |
| BIOL | 487/L   | Hematology and Lab (2/2)                       |
| BIOL | 536     | Medical Mycology (3)                           |
| BIOL | 542/L   | Developmental Biology and Lab (3/1)            |
| BIOL | 544     | Biology of Viruses (3)                         |
| BIOL | 551/L   | Computer Modeling in Biology and Lab (2/2)     |
| BIOL | 561     | Molecular Genetics of Microorganisms (3)       |
| BIOL | 562     | Molecular Genetics of Eukaryotic Organisms (3) |
| BIOL | 563     | Cytogenetics (3)                               |
| BIOL | 564     | Human Biochemical Genetics (3)                 |
| BIOL | 566     | Genetics of Bacteria and Their Viruses (3)     |
| BIOL | 567     | Medical Genetics (3)                           |
| BIOL | 568     | Clinical Cytogenetics and Cancer Genetics (3)  |
| BIOL | 571     | Molecular Diagnostics (3)                      |
| BIOL | 572/L   | Recombinant DNA Techniques and Lab (2/2)       |
| BIOL | 575/L   | Biological Imaging and Lab (2/2)               |
| BIOL | 577/L   | Cell and Tissue Culture and Lab (2/2)          |
| BIOL | 580/L   | Cellular Physiology and Lab (2/2)              |
| BIOL | 581     | Endocrinology (3)                              |
| BIOL | 582/L   | Principles of Neurophysiology and Lab (3/1)    |
| BIOL | 585     | Mechanisms of Bacterial Pathogenesis (3)       |
| BIOL | 589     | Cellular Immunology (3)                        |

This requirement assures that the student will study 2 examples of the molecular and functional mechanisms that occur within individual organisms.

## 2. Systematics and Comparative Biology

Choose one from the following list. Either the course chosen here in List 2 (Systematics and Comparative Biology) or the one chosen in List 3 (Ecology and Environmental Biology) must have a field studies component, as designated by an asterisk (\*).

|      |                    |  |
|------|--------------------|--|
| BIOL | 312/L/392F         | Vertebrate Biology (2/1/1)*                                |
| BIOL | 313/L/392B         | Invertebrate Zoology (2/1/1) *                             |
| BIOL | 403/L              | Plant Morphology and Lab (2/2)                             |
| BIOL | 406/L/492K         | Flowering Plant Systematics (2/1/1)*                       |
| BIOL | 409/L/492J         | Non-Flowering Plants (2/1/1)*                              |
| BIOL | 410/L              | Medical Microbiology (2/2)                                 |
| BIOL | 415/L/492M         | Mammalogy (2/1/1)*   |
| BIOL | 418/L              | Bacterial Diversity (2/2)                                  |
| BIOL | 432/L              | Comparative Anatomy and Lab (2/2)                          |
| BIOL | 433/L              | Biology of Marine Tetrapods and Lab (2/1)                  |
| BIOL | 435/L              | Parasitology (2/2)   |
| BIOL | 504/L/592P         | Phycology (2/1/1)*   |
| BIOL | 506/L/592R or 492R | Tropical Botany (2/1/2)*                                   |
| BIOL | 508/L/592T or 492T | Biology of Tropical<br>Vertebrates (2/1/2)*                |
| BIOL | 509/592U           | Tropical Biodiversity<br>and Field Studies (2/1)*          |
| BIOL | 511/L              | Molecular Markers in Evolutionary<br>Studies and Lab (2/2) |
| BIOL | 512/L/592E         | Herpetology (2/1/1)*                                       |
| BIOL | 513/L/592F         | Entomology (2/1/1)*  |
| BIOL | 530/L/592J         | Ichthyology (2/1/1)*                                       |

This requirement assures that the student will have the opportunity to study biodiversity closely in one group of organisms from the points of view of adaptive diversification, phylogeny, biogeography and classification.

## 3. Ecology and Environmental Biology

Choose one from the following list. Either the course chosen here in List 3 (Ecology and Environmental Biology) or the one chosen in List 2 (Systematics and Comparative Biology) must have a field studies component, as designated by an asterisk (\*).

|      |                       |   |
|------|-----------------------|---|
| BIOL | 407/L/492N            | Plant Ecology* (2/1/1)                                  |
| BIOL | 419/L/492C            | Microbial Ecology and Lab and<br>Field Studies* (2/1/1) |
| BIOL | 421/L/492B            | Marine Biology* (2/1/1)                                 |
| BIOL | 422/L                 | Physiological Ecology (2/2)                             |
| BIOL | 423/492F              | Field Ecology* (2/2)                                    |
| BIOL | 424/L/492G            | Ecological Modeling (2/1/1)                             |
| BIOL | 426/L/492P            | Biology of Deserts* (2/1/1)                             |
| BIOL | 427/L/492H            | Principles of Ecology* (2/1/1)                          |
| BIOL | 428/L/492W            | Wildlife Ecology and Management (2/1/1)                 |
| BIOL | 507/L/592S<br>or 492S | Tropical Ecology and Conservation* (2/1/2)              |
| BIOL | 514/L/592A            | Avian Ecology* (2/1/1)                                  |
| BIOL | 524/326               | Tropical Biology/Regional Excursions* (3/1)             |
| BIOL | 525/592D              | Animal Behavior with Field Studies* (3/1)               |
| BIOL | 527/L/592L            | Biology of Pelagic Organisms* (2/1/1)                   |
| BIOL | 528/L/592B            | Behavioral Ecology* (2/1/1)                             |
| BIOL | 529/L/592I            | Marine Ecology* (2/1/1)                                 |
| BIOL | 531/L/592Q            | Ecology of Marine Fishes* (2/1/1)                       |
| BIOL | 533/592C              | Conservation Biology* (3/1)                             |

This requirement assures that the student will study some aspect of the interactions between organisms and their environment.

## 4. Elective Requirement

Electives should be taken to bring the total beyond the Core courses to 20 units, including at least 17 Upper Division units. No more than 3 units of BIOL 490, 495, 499 and 526 combined may be used, and they may not be used to satisfy either lab or field requirements. Electives may include any Upper Division biology course (except those explicitly excluded in their description) or the following:

|      |                    |  |
|------|--------------------|--|
| MATH | 255A               | Calculus for the Life Sciences I (3)             |
| CHEM | 461                | Biochemistry I (4)                               |
| CHEM | 464                | Principles of Biochemistry (4)                   |
| GEOL | 322/L              | Introductory Oceanography and Lab (3/1)          |
| GEOL | 351/L              | Fundamentals of Paleontology and Lab (3/1)       |
| BIOL | 310/L              | Functional Human Anatomy and Lab (3/1)           |
| BIOL | 330/L              | Design and Analysis of Experiments and Lab (2/1) |
| BIOL | 431/L              | Food Microbiology and Lab (2/2)                  |
| BIOL | 447/L              | F.I.R.E. and Lab (2/2)                           |
| BIOL | 490, 495, 499, 526 | (no more than 3 units combined)                  |
| BIOL | 502/L              | Biometry and Lab (3/1)                           |
| BIOL | 503/L              | Bioinformatics and Lab (3/1)                     |
| BIOL | 510                | Seminar in Tropical Biology (3)                  |
| BIOL | 560                | Advanced Topics in Evolution (3)                 |

This requirement gives additional opportunity for student choices in the program while guaranteeing that students are exposed to biological concepts and practices.

|   |            |
|---|------------|
| <b>Total Units in the Option</b>              | <b>63</b>  |
| <b>General Education Units</b>                | <b>39</b>  |
| <b>Additional Units</b>                       | <b>18</b>  |
| <b>Total Units Required for a B.A. Degree</b> | <b>120</b> |

## Requirements for the Bachelor of Science Degree

Each student pursuing a Bachelor of Science degree must complete the designated Core program plus all required courses and the selective program of one of the options.

### Core Program for All B.S. Options

#### 1. Lower Division Courses (27 units)

|      |       |  |
|------|-------|--|
| BIOL | 106/L | Biological Principles I and Lab (3/1)  |
| BIOL | 107/L | Biological Principles II and Lab (3/1) |
| CHEM | 101/L | General Chemistry I and Lab (4/1)      |
| CHEM | 102/L | General Chemistry II and Lab (4/1)     |
| PHYS | 100A  | General Physics I (3)                  |
| PHYS | 100B  | General Physics II (3)                 |
| MATH | 255A  | Calculus for the Life Sciences I (3)   |

#### 2. Upper Division Courses (9 units)

|      |     |                          |
|------|-----|--------------------------|
| BIOL | 322 | Evolutionary Biology (3) |
| BIOL | 360 | Genetics (3)             |
| BIOL | 380 | Cell Biology (3)         |

#### A. Option I: Cell and Molecular Biology

The Cell and Molecular option prepares students for graduate programs or careers as research associates in a variety of fields (e.g. medical, pharmaceutical, agricultural or biotechnology) in academic, governmental or industrial labs or a variety of similar settings.

#### 1. Required Courses (11 units)

|      |       |  |
|------|-------|--|
| BIOL | 381   | Cell Biology Lab (1)                               |
| PHYS | 100AL | General Physics I Lab (1)                          |
| PHYS | 100BL | General Physics II Lab (1)                         |
| CHEM | 333/L | Principles of Organic Chemistry I<br>and Lab (3/1) |

CHEM 334/L Principles of Organic Chemistry II and Lab (3/1)

(MATH 255B is highly recommended)

## 2. Selective Program

Select courses from the Biochemistry, Cells and Tissue, Molecular Genetics and Elective sections below for a total of at least 30 units. You must take at least 7 units of lab courses (designated with an "L") within the Selective Program.

### Biochemistry (3-8 units)

#### Choose from the following:

CHEM 464 Principles of Biochemistry (lab may be taken  
or for credit in Elective section) (3)  
CHEM 461 and 462 Biochemistry I and II (includes two  
lab units) (8)

### Cells and Tissues (6-8 units)

#### Choose two courses from the following:

BIOL 410/L Medical Microbiology and Lab (2/2)  
BIOL 411/L Animal Histology and Lab (2/2)  
BIOL 417/L Microbial Physiology and Lab (2/2)  
BIOL 441/L Embryology and Lab (2/2)  
BIOL 476 Topics in Stem Cell Biology (3)  
BIOL 481/L Plant Physiology and Lab (2/2)  
BIOL 482/L Animal Physiology and Lab (2/2)  
BIOL 485/L Immunology with Serology Lab (2/2)  
BIOL 487/L Hematology and Lab (2/2)  
BIOL 536 Medical Mycology (3)  
BIOL 575/L Biological Imaging and Lab (2/2)  
BIOL 577/L Cell and Tissue Culture and Lab (2/2)  
BIOL 580/L Cellular Physiology and Lab (2/2)  
BIOL 581 Endocrinology (3)  
BIOL 582/L Principles of Neurophysiology and Lab (3/1)  
BIOL 585 Mechanisms of Bacterial Pathogenesis (3)  
BIOL 589 Cellular Immunology (3)

### Molecular Genetics (6-7 units)

#### Choose two courses from the following:

BIOL 468 Human Genetics (3)  
BIOL 470 Biotechnology (3)  
BIOL 542/L Developmental Biology and Lab (3/1)  
BIOL 544 Biology of Viruses (3)  
BIOL 561 Molecular Genetics of Microorganisms (3)  
BIOL 562 Molecular Genetics of Eukaryotic Organisms (3)  
BIOL 563 Cytogenetics (3)  
BIOL 564 Human Biochemical Genetics (3)  
BIOL 566 Genetics of Bacteria and their Virus (3)  
BIOL 567 Medical Genetics (3)  
BIOL 568 Clinical Cytogenetics and Cancer Genetics (3)  
BIOL 571 Molecular Diagnostics (3)  
BIOL 572/L Recombinant DNA Techniques and Lab (2/2)

**Electives. Select additional courses from the Biochemistry, Cells and Tissue and Molecular Genetics sections above, or from the courses listed below for a total of at least 30 units:**

BIOL 310/L Functional Human Anatomy and Lab (3/1)  
BIOL 315/L Principles of Microbiology and Lab (2/2)  
BIOL 330/L Design and Analysis of Experiments and Lab (2/1)  
BIOL 435/L Parasitology and Lab (2/2)  
BIOL 447/L F.I.R.E. and Lab (2/2)  
BIOL 490, 495, 499, 526 (no more than 3 units combined)  
BIOL 502/L Biometry and Lab (3/1)  
BIOL 503/L Bioinformatics and Lab (3/1)  
BIOL 551/L Computer Modeling in Biology (2/2)  
CHEM 464L Biochemistry Lab (1)

MATH 255B Calculus II (3)

**General Education (36 units)** The entire section of Natural Sciences is fulfilled by required courses in the Biology major. Basic Skills, Mathematics is satisfied by MATH 255A.

|   |     |
|---|-----|
| <b>Total Units in Option I</b>                | 77  |
| <b>General Education Units</b>                | 36  |
| <b>Additional Units</b>                       | 7   |
| <b>Total Units Required for a B.S. Degree</b> | 120 |

## B. Option II: Environmental Biology

The Environmental Biology Option prepares graduates for positions such as ecologist or wildlife manager with government agencies and private organizations. In modified form, this option also meets the requirements for a teaching credential. (See Credential Programs section of this catalog).

**Areas of interest:** Before electing Upper Division courses in the Selective Program, each student should consult an advisor in his/her area of interest to select a program of courses appropriate to the student's goals.

### 1. Required Courses (7-12 units)

BIOL 330/L Design and Analysis of Experiments and Lab (2/1)  
or BIOL 502/L Biometry and Lab (3/1)  
CHEM 235/L Introductory Organic Chemistry and Lab (3/1)  
or CHEM 333/L/334/L Principles of Organic Chemistry I and II and Labs (3/1) and (3/1)

### 2. Selective Program (32 units) Select 32 additional Upper Division units from the following lists.

#### Ecology (11-13 units) Choose three from the following:

BIOL 407/L/492N Plant Ecology† (2/1/1)  
BIOL 422/L Physiological Ecology and Lab (2/2)  
BIOL 423/492F Field Ecology (2/2)  
BIOL 424/L/492G Ecological Modeling (2/1/1)  
BIOL 426/L/492P Biology of Deserts (2/1/1)  
BIOL 427/L/492H Principles of Ecology and Lab (2/1/1)  
BIOL 428/L/492W Wildlife Ecology and Management (2/1/1)  
BIOL 507/L/592S or 492S Tropical Ecology and Conservation (2/1/2)  
BIOL 509/592U Tropical Biodiversity (2/1)  
BIOL 514/L/592A Avian Ecology† (2/1/1)  
BIOL 528/L/592B Behavioral Ecology (2/1/1)  
BIOL 529/L/592I Marine Ecology (2/1/1)  
BIOL 533/592C Conservation Biology (3/1)

#### Botany (4-5 units) Choose one from the following:

BIOL 316/L Plant Biology and Lab (3/1)  
BIOL 403/L Plant Morphology and Lab (2/2)  
BIOL 406/L/492K Flowering Plant Systematics (2/1/1)\*  
BIOL 409/L/492J Non-Flowering Plants (2/1/1)\*  
BIOL 407/L/492N Plant Ecology (2/1/1) †  
BIOL 481/L Plant Physiology and Lab (2/2)  
BIOL 504/L/592P Phycology (2/1/1)  
BIOL 506/L/592R or 492R Tropical Botany (2/1/2)

#### Zoology (3-5 units) Choose one from the following:

BIOL 312/L/392F Vertebrate Biology (2/1/1)  
BIOL 313/L/392B Invertebrate Zoology (2/1/1)  
BIOL 415/L/492M Mammalogy (2/1/1)  
BIOL 433/L Biology of Marine Tetrapods and Lab (2/1)  
BIOL 508/L/592T or 492T Biology of Tropical Vertebrates (2/1/2)  
BIOL 512/L/592E Herpetology (2/1/1)  
BIOL 513/L/592F Entomology (2/1/1)

- BIOL 514/L/592A Avian Ecology† (2/1/1)
  - BIOL 525 Animal Behavior (3)
- (Note: An optional field course in animal behavior, BIOL 592D, is listed under Electives.)

BIOL 530/L/592J Ichthyology (2/1/1)

†Note that Plant Ecology (BIOL 407/L/492N) may be used to fulfill the Botany requirement or the Ecology requirement, but not both. Avian Ecology (BIOL 514/L/592A) may be used to fulfill the Zoology requirement or the Ecology requirement, but not both.

**3. Electives (9-14 units)**

- a. Select 1 additional course from the Botany or Zoology sections above.
  - b. Select additional courses from the Ecology, Botany or Zoology sections above, or from the courses listed below for a total of 32 Upper Division units in the Selective Program. Other courses may be substituted with the approval of an Environmental Biology advisor.
- BIOL 315/L Principles of Microbiology and Lab (2/2)
  - BIOL 419/L/492C Microbial Ecology (2/1/1)
  - BIOL 421/L/492B Marine Biology (2/1/1)
  - BIOL 435/L Parasitology and Lab (2/2)
  - BIOL 490, 495, 499, 526 (no more than 3 units combined)
  - BIOL 510 Seminars in Tropical Biology (3)
  - BIOL 511/L Molecular Markers in Evolutionary Studies and Lab (2/2)
  - BIOL 527/L/592L Biology of Pelagic Organisms (2/1/1)
  - BIOL 560 Advanced Topics in Evolution (3)
  - BIOL 592D Animal Behavior Field Studies (1)\*
  - GEOL 508/L Invertebrate Paleontology and Lab (3/1)
  - or GEOL513/L Micropaleontology and Lab (2/2)

\*Note that BIOL 592D requires concurrent enrollment in BIOL 525; see listing under Zoology.

**General Education** (36 units): Basic Skills Mathematics and the entire Natural Sciences section are fulfilled by required courses in the major.

|  |       |
|--|-------|
| Total Units in Option II               | 75-79 |
| General Education Units                | 36    |
| Additional Units                       | 5-9   |
| Total Units Required for a B.S. Degree | 120   |

**C. Option III: Microbiology**

The Microbiology Option prepares students for graduate programs or careers as research associates in a variety of fields (e.g. medical, pharmaceutical, agricultural or environmental biotechnology; medical device, cosmetic, food- and water-quality assurance) in academic, governmental or industrial labs or a variety of similar settings.

**1. Required Courses (26 units)**

- BIOL 315/L Principles of Microbiology and Lab (2/2)
  - BIOL 410/L Medical Microbiology and Lab (2/2)
  - BIOL 417/L Microbial Physiology and Lab (2/2)
  - BIOL 418/L Bacterial Diversity and Lab (2/2)
  - or BIOL 419/L/492C Microbial Ecology (2/1/1)
  - CHEM 333/L Principles of Organic Chemistry I and Lab (3/1)
  - CHEM 334/L Principles of Organic Chemistry II and Lab (3/1)
  - PHYS 100AL General Physics I Lab (1)
  - PHYS 100BL General Physics II Lab (1)
- (MATH 140 and 255B are highly recommended.)

**2. Selective Program (16 units)**

Choose any courses from the following list or other courses with advisor approval.

- BIOL 381 Cell Biology Lab (1)
- BIOL 408/L Applied Microbiology and Lab (2/2)
- BIOL 418/L Bacterial Diversity and Lab (if not used to meet required course units) (2/2)
- BIOL 419/L/492C Microbial Ecology and Lab and Field Studies (if not used to meet required course units) (2/1/1)
- BIOL 431/L Food Microbiology and Lab (2/2)
- BIOL 435/L Parasitology and Lab (2/2)
- BIOL 470 Biotechnology (3)
- BIOL 476 Topics in Stem Cell Biology (3)
- BIOL 485/L Immunology with Serology Lab (2/2)
- BIOL 487/L Hematology and Lab (2/2)
- BIOL 490, 495, 499, 526 (no more than 3 units combined)
- BIOL 536 Medical Mycology (3)
- BIOL 544 Biology of Viruses (3)
- BIOL 551/L Computer Modeling in Biology (2/2)
- BIOL 561 The Molecular Genetics of Microorganisms (3)
- BIOL 566 Genetics of Bacteria and Their Viruses (3)
- BIOL 572/L Recombinant DNA Techniques and Lab (2/2)
- BIOL 575/L Biological Imaging and Lab (2/2)
- BIOL 577/L Cell and Tissue Culture and Lab (2/2)
- BIOL 585 Mechanisms of Bacterial Pathogenesis (3)
- BIOL 589 Cellular Immunology (3)
- CHEM 321/L Chemical Analysis I and Lab (2/2)
- CHEM 464 Principles of Biochemistry and Lab (3/1)

Note that completion of CHEM 101/L, 102/L, 321/L, 333, 334 and 464 satisfies the course requirements for a minor in Chemistry; see Chemistry Department for evaluation.

**General Education** (36 units): Basic Skills Mathematics and the entire Natural Sciences section are fulfilled by required courses in the major.

|  |     |
|--|-----|
| Total Units in Option III              | 78  |
| General Education Units                | 36  |
| Additional Units                       | 6   |
| Total Units Required for a B.S. Degree | 120 |

**D. Option IV: Biotechnology/Medical Technology**

This option has two tracks. The Biotechnology track prepares students for graduate programs or careers in biotechnology or cellular and molecular biology in medical, industrial, agricultural or other applications. The Medical Technology track prepares students for the clinical year of training and the California License exam in Clinical Laboratory Science or for training and Certification in Public Health Microbiology. Students in either track should consult the appropriate faculty advisor.

**1. Required Courses For Both Biotechnology and Medical Technology (19 units)**

- PHYS 100AL General Physics I Lab (1)
- PHYS 100BL General Physics II Lab (1)
- BIOL 315/L Principles of Microbiology and Lab (2/2)
- BIOL 381 Cell Biology Lab (1)
- CHEM 333 Principles of Organic Chemistry I and Lab (3/1)
- CHEM 334 Principles of Organic Chemistry II and Lab (3/1)
- CHEM 365 Introduction to Biochemistry and Lab (3/1)
- or CHEM 464/L Principles of Biochemistry and Lab (3/1)

**2. Biotechnology Additional Required Courses (11 units)**

|            |  |
|------------|--|
| BIOL 470   | Biotechnology (3)                        |
| BIOL 572/L | Recombinant DNA Techniques and Lab (2/2) |
| BIOL 577/L | Cell and Tissue Culture and Lab (2/2)    |

**3. Biotechnology Selective Program (6-8 units)**

Choose two from the following list:

|                 |   |
|-----------------|---|
| BIOL 330/L      | Design and Analysis of Experiments and Lab (2/1)    |
| BIOL 408/L      | Applied Microbiology and Lab (2/2)                  |
| BIOL 417/L      | Microbial Physiology and Lab (2/2)                  |
| BIOL 418/L      | Bacterial Diversity and Lab (2/2)                   |
| BIOL 419/L/492C | Microbial Ecology and Lab and Field Studies (2/1/1) |
| BIOL 431/L      | Food Microbiology and Lab (2/2)                     |
| BIOL 468        | Human Genetics (3)                                  |
| BIOL 476        | Topics in Stem Cell Biology (3)                     |
| BIOL 481/L      | Plant Physiology and Lab (2/2)                      |
| BIOL 482/L      | Animal Physiology and Lab (2/2)                     |
| BIOL 485/L      | Immunology with Serology Lab (2/2)                  |
| BIOL 503/L      | Bioinformatics and Lab (3/1)                        |
| BIOL 542/L      | Developmental Biology and Lab (3/1)                 |
| BIOL 544        | Biology of Viruses (3)                              |
| BIOL 551/L      | Computer Modeling in Biology (2/2)                  |
| BIOL 561        | Molecular Genetics of Microorganisms (3)            |
| BIOL 562        | Molecular Genetics of Eukaryotic Organisms (3)      |
| BIOL 564        | Human Biochemical Genetics (3)                      |
| BIOL 566        | Genetics of Bacteria and Their Viruses (3)          |
| BIOL 568        | Clinical Cytogenetics and Cancer Genetics (3)       |
| BIOL 571        | Molecular Diagnostics (3)                           |
| BIOL 575/L      | Biological Imaging and Lab (2/2)                    |
| BIOL 580/L      | Cellular Physiology and Lab (2/2)                   |
| BIOL 581        | Endocrinology (3)                                   |
| BIOL 582/L      | Principles of Neurophysiology and Lab 3/1           |
| BIOL 589        | Cellular Immunology (3)                             |
| CHEM 321/L      | Chemical Analysis I and Lab (2/2)                   |

Note that completion of CHEM 101/L, 102/L, 321/L, 333, 334 and 464 satisfies the course requirements for a minor in Chemistry; see Chemistry Department for evaluation.

**4. Medical Technology Additional Required Courses (20 units)**

|            |                                    |
|------------|------------------------------------|
| BIOL 410/L | Medical Microbiology and Lab (2/2) |
| BIOL 435/L | Parasitology and Lab (2/2)         |
| BIOL 485/L | Immunology with Serology Lab (2/2) |
| BIOL 487/L | Hematology and Lab (2/2)           |
| CHEM 321/L | Chemical Analysis I and Lab (2/2)  |

Note that completion of CHEM 101/L, 102/L, 321/L, 333, 334 and 464 satisfies the course requirements for a minor in Chemistry; see Chemistry Department for evaluation.

Note that the following courses are recommended but not required in the Medical Technology track: BIOL 536 Medical Mycology; BIOL 544 Biology of Viruses; BIOL 571 Molecular Diagnostics; BIOL 577 Cell and Tissue Culture; and BIOL 589 Cellular Immunology.

**General Education** (36 units): Basic Skills Mathematics and the entire Natural Sciences section are fulfilled by required courses in the major.

**E. Option V: Marine Biology**

The Marine Biology Option prepares graduates for employment in the marine sciences and for advanced graduate study. Advisement is mandatory and a course program must be approved by an advisor by the beginning of the student's junior year.

**1. Required Courses (13-18 units)**

|                     |   |
|---------------------|---|
| BIOL 330/L          | Design and Analysis of Experiments and Lab (2/1)                  |
| or BIOL 502/L       | Biometry and Lab (3/1)  |
| BIOL 421/L/492B     | Marine Biology (2/1/1)  |
| PHYS 100AL          | General Physics I Lab (1)   |
| PHYS 100BL          | General Physics II Lab (1)  |
| CHEM 235/L          | Introductory Organic Chemistry and Lab (3/1)                      |
| or CHEM 333/L/334/L | Principles of Organic Chemistry I and II and Labs (3/1) and (3/1) |

**2. Selective Program (27 units)**

Select three additional courses from Section 1 (Marine Biology) below and 15 units from Section 2 (Electives), for a total of 27 units.

**Marine Biology (12 units)**

|                 |                                      |
|-----------------|--------------------------------------|
| BIOL 313/L/392B | Invertebrate Zoology (2/1/1)         |
| BIOL 504/L/592P | Phycology (2/1/1)                    |
| BIOL 527/L/592L | Biology of Pelagic Organisms (2/1/1) |
| BIOL 529/L/592I | Marine Ecology (2/1/1)               |
| BIOL 530/L/592J | Ichthyology (2/1/1)                  |
| BIOL 531/L/592Q | Ecology of Marine Fishes (2/1/1)     |

**Electives (15 units)**

|                         |  |
|-------------------------|--|
| BIOL 312/L/392F         | Vertebrate Biology (2/1/1)                               |
| BIOL 316/L              | Plant Biology and Lab (3/1)                              |
| BIOL 403/L              | Plant Morphology and Lab (2/2)                           |
| BIOL 406/L/492K         | Flowering Plant Systematics and Lab (2/1/1)              |
| BIOL 407/L/492N         | Plant Ecology (2/1/1)                                    |
| BIOL 409/L/492J         | Non-Flowering Plants and Lab (2/1/1)                     |
| BIOL 415/L/492M         | Mammalogy (2/1/1)  |
| BIOL 422/L              | Physiological Ecology and Lab (2/2)                      |
| BIOL 423/492F           | Field Ecology (2/2)                                      |
| BIOL 424/L/492G         | Ecological Modeling (2/1/1)                              |
| BIOL 427/L/492H         | Principles of Ecology and Lab (2/1/1)                    |
| BIOL 428/L/492W         | Wildlife Ecology and Management (2/1/1)                  |
| BIOL 433/L              | Biology of Marine Tetrapods and Lab (2/1)                |
| BIOL 481/L              | Plant Physiology and Lab (2/2)                           |
| BIOL 490, 495, 499, 526 | (no more than 3 units combined)                          |
| BIOL 502/L              | Biometry (3/1)<br>(if not used to meet required courses) |
| BIOL 511/L              | Molecular Markers in Evolutionary Studies and Lab (2/2)  |
| BIOL 514/L/592A         | Avian Ecology (2/1/1)                                    |
| BIOL 525                | Animal Behavior (3)                                      |
| BIOL 592D               | Animal Behavior Field Studies (1)                        |
| BIOL 528/L/592B         | Behavioral Ecology (2/1/1)                               |
| BIOL 532/L              | Advanced Ichthyology (2/2)                               |
| BIOL 533/592C           | Conservation Biology (3/1)                               |
| BIOL 560                | Advanced Topics in Evolution (3)                         |
| GEOL 322/L              | Introductory Oceanography and Lab (3/1)                  |

**General Education** (36 units): Basic Skills Mathematics and the entire Natural Sciences section are fulfilled by required courses in the major.

### Minor in Biology

Take one course or sequence of courses from each category.

#### 1. (8 or 10 units)

|      |              |   |
|------|--------------|---|
| CHEM | 101/L, 102/L | General Chemistry I and II with Labs (4/1, 4/1) |
| CHEM | 103, 104     | Introductory Chemistry I and II (4, 4)          |

#### 2. (4 or 8 units)

|      |              |   |
|------|--------------|---|
| BIOL | 101/L        | General Biology with Lab (3/1)                      |
| BIOL | 106/L, 107/L | Biological Principles I and II with Labs (3/1, 3/1) |

#### 3. BIOL 322

Evolutionary Biology (3)

#### 4. BIOL 360

Genetics (3)

#### 5. (4 units)

|      |            |  |
|------|------------|--|
| BIOL | 215/L      | Introductory Microbiology and Lab (2/2)  |
| BIOL | 312/L/392F | Vertebrate Biology (2/1/1)               |
| BIOL | 313/L/392B | Invertebrate Zoology (2/1/1)             |
| BIOL | 315/L      | Principles of Microbiology and Lab (2/2) |
| BIOL | 316/L      | Plant Biology and Lab (3/1)              |
| BIOL | 513/L/592F | Entomology (2/1/1)                       |

#### 6. (3 units)

|      |     |                                    |
|------|-----|------------------------------------|
| BIOL | 241 | Human Pregnancy and Embryology (3) |
| BIOL | 281 | Human Physiology (3)               |
| BIOL | 380 | Cell Biology (3)                   |

#### 7. One or more Upper Division Biology courses, if needed, for a minimum total of 26 units, including at least 8 Upper Division units in Biology.

|   |              |
|---|--------------|
| <b>Total Units Required for the Minor</b> | <b>26-31</b> |
|---|--------------|

### Honors Program

This program provides an opportunity for outstanding Biology majors to gain research experience with individual faculty guidance and may be of value for research-minded Pre-Medical students. The designation "Honors" will be added to the academic record of any student who completes the program.

Admission to the program is granted by approval of the Department Honors Committee. Students in the B.A. degree program or in any of the B.S. options are eligible provided they have: 1) completed 90 units of college work; 2) maintained a 3.50 GPA overall and in the Biology major; and 3) obtained the approval of a faculty sponsor who will supervise their research. Interested students should contact the Biology Department office.

#### Graduation with Honors requires:

1. Completion of the following courses.

|      |       |  |
|------|-------|--|
| BIOL | 330/L | Design and Analysis of Experiments and Lab (2/1) |
| BIOL | 495   | Directed Research (3)                            |
| BIOL | 498   | Senior Thesis (2)                                |

All 8 units must be in addition to those completed for the major.

2. Maintenance of a GPA of 3.50 overall and in all courses in the Biology major completed at CSUN.

3. Approval of a senior thesis by the Honors Committee, including a presentation of the research.

### Graduate Program

The purpose of the Graduate Program is to provide students an opportunity for advanced study in specialized areas of Biology and to develop the skills required to do independent research.

### Requirements for the Master of Science Degree

#### A. For Admission to the Department

Students may be admitted as either Classified or Conditionally Classified Graduate students. In addition to University requirements, the Biology Department requires:

1. Submission of a Biology Department Graduate Program application. This is a separate application in addition to the University application and is available at [www.csun.edu/biograd](http://www.csun.edu/biograd)

#### Departmental Application Deadlines:

**Fall semester:** March 15 preceding entry into program.

**Spring semester:** October 15 preceding entry into program.

2. Consent of a faculty member to serve as research advisor.  
3. Demonstrated proficiency in basic biology.\*  
4. General Graduate Record Examination (GRE), scoring at or above the 50th percentile on at least one section of the general test.  
5. TOEFL and TWE (foreign students only): Minimum score acceptable by the University.

#### \* Requirement 3 can be met in the following ways:

For students whose undergraduate degree is in Biology, either:

a. An undergraduate Biology GPA at or above 3.0; or,  
b. A subject GRE score at or above the 50th percentile.

For students whose undergraduate degree is not in Biology:

c. a subject GRE score is required at or above the 50th percentile.

#### B. For Classified Status

The requirements for admission to Classified Status in Biology are the following:

1. General University requirements for Classified Status, which include passing the University Upper Division Writing Proficiency Exam.  
2. Completion of any prerequisite coursework specified by Biology Graduate Committee upon admission (often the equivalent of BIOL 322, 360, 380, CHEM 235, etc.)

#### C. Conditionally Classified Status:

If a student meets the Department admission requirements but does not meet the requirements for Classified status, Conditional Classification is given. Students accepted to the program with deficiencies in Biology core courses are expected to complete those courses before proceeding with 600-level courses. No more than 12 units of graduate work prior to attaining fully classified status will be applied to a master's program.

#### D. For the Degree:

First semester graduate students in Biology must meet with the graduate coordinator during their first semester in the program. In addition, every graduate student must present and defend a formal proposal of their thesis research by the end of their second semester.

1. Completion of a minimum of 30 units of grade A, A-, B+ or B work in all approved courses applied towards the Master's degree:

a. Seminars (12 units):

BIOL 691 Graduate Proseminar (3 units) and 600-level seminar or lecture courses (9 units).

b. BIOL 502/L Biometry or BIOL 503/L Bioinformatics (an equivalent 3-unit Upper Division course may be substituted) (4 units).

c. Additional courses: Any 400-, 500- or 600-level biology courses except BIOL 490, 495, 497EE, 499, 692, 696, 698 and 699. A maximum of 9 units of 400-level courses may be applied toward the degree. No more than 6 units from other disciplines such as

Chemistry, Psychology, etc., may be counted.

d. Thesis courses:

|      |     |  |
|------|-----|--|
| BIOL | 696 | Directed Graduate Research (0-6 units) |
| BIOL | 698 | Thesis (3-6 units)                     |

2. Enrollment and attendance in at least 1 semester of Biology Colloquium, BIOL 692 (1) (Credit/No Credit only)
3. Completion and successful oral defense of a thesis.
4. Formal approval by the Thesis Committee.

## Course List

### BIOL 100. Introductory Biology (3)

Not for credit in Biology major. May not be taken for credit by students who have completed BIOL 101, 102, 106 or 107. Analysis of selected topics illustrating major biological concepts, including ecology, evolution, heredity and organismal and cellular structure and physiology. Primarily designed for non-science majors. Lecture 3 hours. (Students using this course to satisfy the Natural Sciences requirement in General Education may satisfy the corresponding lab requirement by completing BIOL 100L.)

### BIOL 100L. Introductory Biology Lab (1)

*Recommended Corequisite:* BIOL 100. Not for credit in Biology major. Observations, experiments, demonstrations and required field trips to augment Introductory Biology. Emphasis on the methods of science, basic biological principles, the natural environment and the effects of human activity on the environment. Lab 3 hours. (May be used to satisfy the Natural Sciences lab requirement in General Education provided BIOL 100 is also completed.)

### BIOL 101/L. General Biology and Lab (3/1)

*Corequisite:* BIOL 101L. Not for credit in Biology major and may not be taken for credit by students who have completed BIOL 106 or 107. Analysis of selected topics illustrating major concepts in biology, including evolution, environmental relationships, heredity, the cell, energetics and functions of living systems, and development. Available for General Education, Natural Sciences, if required in the major. Lecture 3 hours, lab 3 hours. (Available for General Education, Natural Sciences if required by student's major.)

### BIOL 102/L. Biological Concepts and Lab (3/1)

*Prerequisite:* For Liberal Studies majors only or instructor consent. *Corequisite:* BIOL 102L. Not open for credit in the Biology major or for students who have already completed BIOL 100, 101, 106 or 107. Analysis of selected topics illustrating major biological concepts, including ecology, evolution, heredity, organismal and cellular structure, presented in the context of the Science Content Standards for California Public Schools. Some sections of this course may offer a community service opportunity with activities relating to concepts and theories presented. Check the schedule of classes for the CS designation. Lecture 3 hours, lab 3 hours.

### BIOL 106/L. Biological Principles I and Lab (3/1)

*Corequisite:* BIOL 106L. Primarily for Biology majors. Half of a two-semester sequence that includes BIOL 107/L. Selected topics illustrating major concepts in biology, including the scientific process, heredity, evolution, taxonomy and systematics, ecology and animal behavior. Observations, experiments and demonstrations. Emphasis on unifying biological concepts and methods in science. (Available for General Education, Natural Sciences, if required in a student's major.) Lecture 3 hours, lab 3 hours.

### BIOL 107/L. Biological Principles II and Lab (3/1)

*Corequisite:* BIOL 107L. *Recommended Corequisite or Preparatory:* CHEM 102/L. Half of a two-semester sequence that includes BIOL 106/L. Selected topics illustrating major concepts in biology, including biological chemistry, cells, molecular genetics, animal development and plant and animal physiology. Observations, experiments and demonstrations. Emphasis on unifying biological concepts and methods in science. (Available for General Education, Natural Sciences, if required in a student's major.) Lecture 3 hours, lab 3 hours.

### BIOL 211. Human Anatomy (2)

*Prerequisites:* BIOL 101/L or 106/L and 107/L. *Corequisite:* BIOL 212. Not for credit in Biology major. Survey of the gross anatomy and histology of the major human organ systems, including the muscle, skeletal, digestive, circulatory, respiratory, excretory, endocrine and reproductive systems. Lecture 2 hours.

### BIOL 212. Laboratory Studies in Human Anatomy (1)

*Prerequisites:* BIOL 101/L or 106/L and 107/L. *Corequisite:* BIOL 211. Not for credit in Biology major. Examination of the anatomy and histology of the major organ systems by dissection and microscopic study. Lab three hours.

### BIOL 215/L. Introductory Microbiology and Lab (2/2)

*Prerequisites:* BIOL 101/L or 106/L and 107/L; CHEM 102/L or 104. *Corequisite:* BIOL 215L. *Preparatory:* BIOL 281 or CHEM 235. Introduction to the biology of major groups of microorganisms, including their role in infectious diseases, their role in nature and their relationship to humankind. Lecture 2 hours, lab 6 hours.

### BIOL 241. Human Pregnancy and Embryology (3)

*Prerequisites:* BIOL 100 or 101/L or 102/L or 106/L or 107/L. Available for Biology minor credit but not for Biology major. Description of biological events leading up to ovulation, emission, conception, implantation and pregnancy, and the resulting stages of human development, including placenta development and birth, with a discussion of biological aspects of genetic counseling, birth defects, miscarriage and abortion. Lecture 3 hours. (Students using this course to satisfy the Natural Sciences requirement in General Education may satisfy the corresponding lab requirement by completing BIOL 241L.)

### BIOL 241L. Human Pregnancy and Embryology Lab (1)

*Prerequisites:* BIOL 100/L or 101/L or 102/L or 106/L or 107/L. *Recommended Corequisite:* BIOL 241. Not for credit in Biology major. Observation of slides, preserved specimens and plastic models demonstrating male and female gamete production; changes of uterus and ovary during menstrual cycle and pregnancy; normal and abnormal human chromosomes; human blood groups leading to problem pregnancies; pregnancy tests; human development with emphasis on nervous system, eyes, heart, skeleton, external genitalia and internal sex organs. Lab 3 hours. (May be used to satisfy the lab requirement in Natural Sciences of General Education provided BIOL 241 is also completed.)

### BIOL 281. Human Physiology (3)

*Prerequisites:* BIOL 101/L or 106 and 107/L. Survey of the physiology of nerve and muscle, as well as the digestive, circulatory, respiratory, excretory, endocrine and reproductive systems. Lecture 3 hours.

### BIOL 282. Lab Experiments in Human Physiology (1)

*Prerequisites:* BIOL 101/L or 106/L and 107/L. *Recommended Corequisite:* BIOL 281. Selected lab experiments in human physiology. Lab three hours.

### BIOL 285. Biology of Cancer (2)

Not for credit in Biology major. Study of the disease of cancer from a biological viewpoint, emphasizing the cellular, biochemical and envi-

ronmental aspects of the disease with discussion on the types of cancer, their diagnosis and treatment. Lecture 2 hours. (Available for General Education, Lifelong Learning.)

### **BIOL 299A-C. Introduction to Biological Research (1-3)**

*Prerequisite: Instructor Consent.* Not for credit in Biology major. Introduction to original biological literature and the use of the scientific method in investigating biological problems. Under the guidance of a faculty mentor, students take part in individual lab or field studies, including the reading and discussion of the literature pertinent to the study. May be repeated, but no more than 3 units may be counted toward degree requirements. (Credit/No Credit only)

#### Upper Division

### **BIOL 310/L. Functional Human Anatomy and Lab (3/1)**

*Prerequisites: BIOL 101/L or 106/L and 107/L passed with grades of C or better. Recommended Corequisite: BIOL 310L.* Designed for students who desire a more complete study of the gross and microscopic anatomy of the organ systems of the human body than is presented in BIOL 211. Functional relationships between the organ systems are stressed. Cadaver dissection is included in lab. (Students taking this course will not receive credit for BIOL 211) Lecture 3 hours, optional lab 3 hours.

### **BIOL 312/L. Vertebrate Biology and Lab (2/1)**

*Prerequisites: BIOL 101/L or 106/L and 107/L passed with grades of C or better. Corequisites: BIOL 312L, 392F* Introduction to the biology of vertebrates, including aspects of their evolution, ecology, life history and behavior. Lecture 2 hours, lab 3 hours.

### **BIOL 313/L. Invertebrate Zoology and Lab (2/1)**

*Prerequisites: BIOL 101/L or 106/L and 107/L passed with grades of C or better. Corequisites: BIOL 313L, 392B.* Biology and classification of the invertebrate animals, with emphasis on marine forms. Evolutionary and adaptive implications of form and function will be considered. Lecture 2 hours, lab 3 hours.

### **BIOL 315/L. Principles of Microbiology and Lab (2/2)**

*Prerequisites: BIOL 106/L, 107/L passed with grades of C or better; CHEM 102/L. Corequisite: BIOL 315L. Preparatory: CHEM 333.* Credit will not be allowed for both BIOL 215 and 315. Introduction to the biology of microorganisms with emphasis on the bacteria. General course designed for Biology majors and students who wish to pursue further study in microbiology or bacteriology. Lecture 2 hours, lab 6 hours.

### **BIOL 316/L. Plant Biology and Lab (3/1)**

*Prerequisite: BIOL 101/L or 106/L and 107/L passed with grades of C or better. Corequisite: BIOL 316L.* Survey course covering those aspects of cytology, physiology, systematics, anatomy, morphology and ecology unique to plants. Lecture 3 hours, lab 3 hours.

### **BIOL 317/L. Microbes and Society and Lab (3/1)**

*Prerequisites: BIOL 100/L or 101/L or 102/L or 106/L or 107/L; Completion of Lower Division writing requirement. Corequisite: BIOL 317L.* Introduces microorganisms and how they influence all life on Earth. Students will explore the workings of microbes and their influence on history, medicine, economics, the environment and human lives through lectures, assigned readings, videos, writing assignments, internet activities, discussions and lab activities. This course cannot be substituted for credit for either BIOL 215/L or BIOL 315/L. Lecture 3 hours, lab 3 hours. (Available for General Education, Natural Sciences.) (IC)

### **BIOL 322. Evolutionary Biology (3)**

*Prerequisites: BIOL 101/L or 106/L and 107/L passed with grades of C or better.* Introduction to the mechanisms of evolution, drawing heavily on relevant principles in ecology, population genetics and systematics. Lecture 3 hours.

### **BIOL 323. Plants and Animals of Southern California (3)**

*Prerequisite: Completion of Lower Division writing requirement. Corequisite: BIOL 392E.* For non-science majors to acquaint them with the classification, behavior, ecology and distribution of the more important plants and animals of Southern California. Lecture 3 hours. (Students using this course to satisfy a General Education requirement in Natural Sciences will satisfy the corresponding lab requirement by completing BIOL 392E.)

### **BIOL 325/L. Life in the Sea and Lab (3/1)**

*Prerequisite: Completion of Lower Division writing requirement. Not for credit in Biology major.* From the shore to the depths, analysis of the diversity of life in the world's oceans with emphasis on the Southern California biota. (Lecture and Lab available for General Education, Natural Sciences.) (IC)

### **BIOL 326A-Z. Regional Excursions (1-4)**

*Prerequisite: Upper Division standing.* Extended field excursions during vacation periods to selected regions of the world, emphasizing the United States and Mexico, for the study of the natural history of these regions.

### **BIOL 327. Ecology and People (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Our influence on the environment and the influence of the environment on us. Lecture 3 hours. (Available for General Education, Lifelong Learning.) (IC)

### **BIOL 330/L. Design and Analysis of Experiments and Lab (2/1)**

*Prerequisites: BIOL 106/L, 107/L passed with grades of C or better; One of the following: MATH 105, 140 or 255A. Corequisite: BIOL 330L.* Structuring biological experiments to maximize useful results and presenting the results graphically and quantitatively. Although emphasis is placed on data collected during ecological field trips, other kinds of biological experiments are also analyzed. Lecture 2 hours, lab 3 hours.

### **BIOL 360. Genetics (3)**

*Prerequisites: BIOL 101/L or BIOL 106/L and 107/L passed with grades of C or better; CHEM 102/L or CHEM 104; MATH 105 or (MATH 102+104) or MPT2A; Completion of the Lower Division writing requirement.* Role of genes in heredity, development, cellular metabolism and function of organisms; introduction of cytogenetics, genomics and molecular genetics; genetic basis of human disease, including cancer. Lecture 3 hours.

### **BIOL 362/L. Genetics and Society Lab (3/1)**

*Prerequisites: BIOL 100/L or 101/L or 102/L or 106/L or 107/L; Completion of the Lower Division writing requirement. Corequisite: BIOL 362L.* Introduction to current topics in genetics and their impact on society and life, in language that is non-technical. Learn about the application of genetics to agriculture, environment, human health and medicine. Understand issues pertaining to genetic engineering, cloning, gene therapy, stem cells etc. Not for credit in Biology major. Lecture 3 hours, lab 3 hours. (Lecture and Lab available for General Education, Natural Sciences.) (IC)

### **BIOL 375 Emerging Issues in Regenerative Medicine (3)**

*Prerequisite: Completion of Lower Division writing requirement.* Basic concepts, experimental approaches and the therapeutic potential of human embryonic stem cells, human adult stem cells and induced pluripotent stem cells in regenerative medicine will be discussed in this course. The politics and ethics of this emerging field of medicine and how these will affect you will be a major component of this course. This course emphasizes active student participation. (Available for General Education, Lifelong Learning.) (IC) (WI)

**BIOL 380. Cell Biology (3)**

*Prerequisites:* Either BIOL 101/L or BIOL 106/L and 107/L passed with grades of C or better; CHEM 102/L or 104. *Preparatory:* CHEM 235 or 333. Study of the organization of cells with emphasis on structure, chemical composition, bioenergetics, metabolism, regulation of the metabolism, cell differentiation and special cell functions. (BIOL 381 is required of Biology majors in B.S. Options I and IV.) Lecture 3 hours.

**BIOL 381. Cell Biology Lab (1)**

*Prerequisites:* Either BIOL 101/L or 106/L and 107/L passed with grades of C or better; CHEM 102/L or 104. *Preparatory:* CHEM 235 or 333. *Recommended Corequisite:* BIOL 380. Basic lab techniques in cell biology, including calorimetry and spectrophotometry, centrifugation, enzymological assays, respirometry, cell counting and molecular methods. Lab 3 hours. (Required of Biology majors in B.S. Options I and IV.)

**BIOL 392B-F. Field Studies in Biology (1)**

(B) Invertebrate Zoology Corequisite: BIOL 313/L; (E) Plants and Animals of Southern California Corequisite: BIOL 323; and (F) 392F. Vertebrate Zoology Corequisite: BIOL 312/L. 3 hours per week or equivalent. Course Fee.

## Courses Acceptable for the M.S. Degree

Note that 300-level courses and BIOL 490, 495, 497EE and 499 do not carry graduate credit for a Master's degree in Biology. A maximum of nine units of 400-level courses may be applied toward the Master's degree.

**BIOL 403/L. Plant Morphology and Lab (2/2)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisite:* BIOL 403L. Structure and evolution of plants; comparative lifecycles and reproductive mechanisms in the major phyla. Lecture 2 hours, lab 6 hours.

**BIOL 406/L. Flowering Plant Systematics and Lab (2/1)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisites:* BIOL 406L, 492K. Classification, identification and evolutionary relationships of flowering plants. Lecture 2 hours, lab 3 hours.

**BIOL 407/L. Plant Ecology and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* BIOL 407L, 492N. Examination of plants and their habitats from an ecological and evolutionary perspective. Concepts of adaptation, species diversity and biological change over time are stressed. Lecture 2 hours, lab 3 hours.

**BIOL 408/L. Applied Microbiology and Lab (2/2)**

*Prerequisites:* BIOL 101/L or 106/L and 107/L passed with grades of C or better, 215/L or 315/L. *Corequisite:* BIOL 408L. Examination of the role of microbes and their control in the production and deterioration of foods, in industry, in agriculture, in waste disposal and in the production of energy. Lecture 2 hours, lab 6 hours.

**BIOL 409/L. Non-Flowering Plants and Lab (2/1)**

*Prerequisite:* BIOL 106/L passed with grades of C or better. *Corequisites:* 409L, 492J. The diversity of land plants other than angiosperms (mosses, ferns, conifers, etc.): their phylogeny, life cycles, ecological niches, biogeography, identification and comparative biology. Lecture 2 hours, lab 3 hours.

**BIOL 410/L. Medical Microbiology and Lab (2/2)**

*Prerequisites:* BIOL 315/L, 380; CHEM 333. *Corequisite:* BIOL 410L. Study of bacterial pathogens with emphasis on mechanisms of pathogenicity, diagnosis, chemotherapy and host interaction. Lecture 2 hours, lab 6 hours.

**BIOL 411/L. Animal Histology and Lab (2/2)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisite:* BIOL 411L. *Preparatory:* CHEM 334. Microscopical and histochemical analysis of mammalian cells as organized into tissue and organ systems. Lecture 2 hours, lab 6 hours.

**BIOL 415/L. Mammalogy and Lab (3)**

*Prerequisite:* BIOL 322. *Corequisite:* BIOL 492M. Classification, ethology and ecology of mammals. Adaptive and evolutionary significance of form and function are considered. Lecture 2 hours, laboratory 3 hours.

**BIOL 417/L. Microbial Physiology and Lab (2/2)**

*Prerequisite:* BIOL 215/L or 315/L. *Corequisite:* BIOL 417L. *Preparatory:* CHEM 333; BIOL 380. Metabolism and special physiology of microbial forms of life, with special emphasis on the bacteria. Lecture 2 hours, lab 6 hours.

**BIOL 418/L. Bacterial Diversity and Lab (2/2)**

*Prerequisite:* BIOL 315/L. *Corequisite:* BIOL 418L. Analysis of evolution, diversity and relationships among the bacteria, as illustrated by a detailed study of the more specialized groups of bacteria with regard to cell form, habitat and developmental abilities. Lecture 2 hours, lab 6 hours.

**BIOL 419/L. Microbial Ecology and Lab (2/1)**

*Prerequisites:* BIOL 315/L. *Corequisites:* BIOL 419L, 492C. Examination of the natural distribution of bacteria, fungi, algae and protozoa in the biosphere and a study of the physical, chemical and biological factors that govern their distribution. Inquiry into the role of microbes as they interact directly and indirectly with higher organisms in the ecosystem. Lecture 2 hours, lab 3 hours.

**BIOL 421/L. Marine Biology and Lab (2/1)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisites:* BIOL 421L, 492B. *Preparatory:* BIOL 322. Marine life of the world with special emphasis on the shore and shallow sea. Identification, distribution, physiological and morphological adaptation of marine forms. Lecture 2 hours, lab 3 hours.

**BIOL 422/L. Physiological Ecology and Lab (2/2)**

*Prerequisite:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisite:* BIOL 422L. *Preparatory:* BIOL 322. Study of physiological, morphological and behavioral responses of organisms to physical environmental factors such as temperature, light and water salinity. Lecture 2 hours, lab 6 hours.

**BIOL 423. Field Ecology (2)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisite:* BIOL 492F. Techniques used in studying population dynamics, the development and functioning of biological communities and the interaction among organisms in the natural environment. Lecture 2 hours.

**BIOL 426/L. Biology of Deserts and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* BIOL 426L, 492P. Study of life in deserts with emphasis on the organisms of the deserts of Southwestern U.S.; structural, physiological and behavioral adaptations for survival; identification and ecology of desert organisms; techniques for studying desert ecology. Lecture 2 hours, lab 3 hours.

**BIOL 427/L. Principles of Ecology and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* BIOL 427L, 492H. Lectures summarize the major concepts and controversies of ecology. Discussions and activities focus on case studies from the classic and recent original literature. Lecture 2 hours, lab 3 hours.

**BIOL 428/L. Wildlife Ecology and Management and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* BIOL 428L, 492W. *Recommended Preparatory:* BIOL 330/L. Study and application of ecological principles used in the management of wildlife. Practical examination of management techniques and tools used in monitoring and managing wildlife populations, include censusing techniques, measurement and analysis of vital rates, and population modeling techniques. Course is computationally and writing intensive. Lecture 2 hours, lab 3 hours.

**BIOL 431/L. Food Microbiology and Lab (2/2)**

*Prerequisites:* BIOL 215/L, 315/L or equivalent. *Corequisite:* BIOL 431L. The biology, ecology and physiology of microorganisms associated with food and beverage production, preservation, spoilage, food borne illness and contamination control. Procedures and techniques for isolation, detection, identification and enumeration of food microorganisms. Methods and principles for controlling microbial contamination and preventing growth of undesirable microorganisms in raw and processed food. Lecture 2 hours, lab 6 hours. Available for graduate credit.

**BIOL 432/L. Comparative Anatomy and Lab (2/2)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisite:* BIOL 432L. Evolution of vertebrate structure. Comparative morphology and function of vertebrate systems. Lecture 2 hours, lab 6 hours. Available for graduate credit.

**BIOL 433/L. Biology of Marine Tetrapods (2/1)**

*Prerequisite:* BIOL 106/L passed with grades of C or better. *Corequisite:* BIOL 433L. *Recommended preparatory:* BIOL 322. Several groups of reptiles, birds and mammals exhibit many specializations for living in the marine realm. These animals are secondarily adapted to the marine environment, having evolved from terrestrial ancestors. This course will explore the evolution, diversity, ecology and morphological and physiological adaptations of these animals. Lecture 2 hours, lab 3 hours. Available for graduate credit.

**BIOL 435/L. Parasitology and Lab (2/2)**

*Prerequisites:* BIOL 106/L, 107/L passed with grades of C or better. *Corequisite:* BIOL 435L. Study of the biology of parasites and other symbionts. Lecture 2 hours, lab 6 hours.

**BIOL 441/L. Embryology and Lab (2/2)**

*Prerequisite:* BIOL 360 or 380. *Corequisite:* BIOL 441L. Cellular, physiological and anatomical aspects of embryonic development with emphasis on vertebrates. Mechanisms of morphogenesis and differentiation. Lecture 2 hours, lab 6 hours.

**BIOL 447/L. Full Immersion Research Experience (FIRE) and Lab (2/2)**

*Prerequisites:* BIOL 380; CHEM 333, 334; PHYS 100A, 100B. *Corequisite:* BIOL 447L. Innovative undergraduate experience in creativity that invites participants to engage scientific research in its fullness as co-learners. Student-initiated ideas ascend through a system of collaborative and independent strategies involving peer review, recitation, tutorials, experimental work and oral and written communication. Lecture 2 hours, lab 6 hours.

**BIOL 468. Human Genetics (3)**

*Prerequisites:* BIOL 360; MATH 105 or 140 or score on Math Placement Test (MPT) sufficient for admission to MATH 255A. Study of variation and heredity in humans. Includes immunogenetics, polygenic inheritance and population genetics, as well as abnormalities of chromosomes and metabolism and their consequences. Lecture 3 hours.

**BIOL 470. Biotechnology (3)**

*Prerequisite:* BIOL 360. *Recommended Corequisite or Preparatory:* BIOL 380. Application of organisms, biological systems and processes to manufacturing and service industries. Role of microorganisms in industrial, agricultural and pharmaceutical processes, biologically pro-

duced sources of energy, single cell protein, waste management, mining and other areas. Impact of genetic engineering; enzyme biotechnology; recent advances in the genetics and physiology of industrial microorganisms for strain improvement. Lecture 3 hours.

**BIOL 476. Topics in Stem Cell Biology (3)**

*Prerequisites:* BIOL 360, 380. Student analyses of novel biological methods associated with emerging stem cell technologies. Topics will include types and development of stem cells, a detailed examination of relevant stem cell techniques and the ethical issues surrounding this technology. Not available for graduate credit.

**BIOL 481/L. Plant Physiology and Lab (2/2)**

*Prerequisites:* BIOL 380; CHEM 334. *Corequisite:* BIOL 481L. Plant functions: photosynthesis, respiration, cell mechanics, growth and water relationships. Lecture 2 hours, lab 6 hours.

**BIOL 482/L. Animal Physiology and Lab (2/2)**

*Prerequisite:* BIOL 380. *Corequisite:* BIOL 482L. *Preparatory:* PHYS 100A/L; 100B/L; CHEM 334. Examination of the processes and mechanisms by which organisms maintain themselves and interact with their environment. Adaptive significance of physiologic mechanisms is treated under certain topics. Lecture 2 hours, lab 6 hours.

**BIOL 485/L. Immunology with Serology Lab (2/2)**

*Prerequisite:* BIOL 380. *Corequisite:* BIOL 485L. *Preparatory:* BIOL 381. Study of the immune response examining humoral and cellular immunity, the nature, structure and reactions of antigens and antibodies, mediators of immunity, hypersensitivity and immuno-hematology. The lab emphasizes the principles and uses of serological methods for evaluation of the immune response. Lecture 2 hours, lab 6 hours.

**BIOL 487/L. Hematology and Lab (2/2)**

*Prerequisites:* BIOL 380; CHEM 334. *Corequisite:* BIOL 487L. Histological, biochemical and clinical diagnostic study of blood, blood cell formation, iron metabolism, blood pathology and practical lab technology. Lecture 2 hours, lab 6 hours.

**BIOL 490. Tutorial Studies (1)**

*Prerequisite:* With consent of instructor, open to senior Biology majors. Supervised individual projects involving reading and discussion, lab research or field studies in specific areas of biology. May be repeated for a maximum of 3 units. Does not carry graduate credit toward the M.S. degree in Biology.

**BIOL 492A-Z. Field Studies in Biology (1-2)**

The 400-level courses are available for graduate credit. Course fee.

**One unit each, 3 hours per week or equivalent:**

492B. Marine Biology (*Corequisite:* BIOL 421/L)

492C. Microbial Ecology (*Corequisite:* BIOL 419/L)

492G. Ecological Modeling (*Corequisite:* BIOL 424/L)

492H. Principles of Ecology (*Corequisite:* BIOL 427/L)

492J. Non-flowering Plants (*Corequisite:* BIOL 409/L)

492K. Flowering Plant Systematics (*Corequisite:* BIOL 406/L)

492M Mammalogy (*Corequisite:* BIOL 415/L)

492N. Plant Ecology (*Corequisite:* BIOL 407/L)

492P. Deserts (*Corequisite:* BIOL 426/L)

492W Wildlife Ecology and Management (*Corequisite:* BIOL 428/L)

**Two units each, 6 hours per week or equivalent:**

492F. Field Ecology (*Corequisite:* BIOL 423)

492R. Tropical Botany (*Corequisite:* BIOL 506/L)

492S. Tropical Ecology and Conservation (*Corequisite:* BIOL 507/L)

492T. Tropical Vertebrates (*Corequisite:* BIOL 508/L)

**BIOL 495A-E. Directed Undergraduate Research (3)**

Designed for students of advanced rank and proven competence in Biology. Program of original research, culminating in a written report,

to be carried out with one of the Biology faculty. May be repeated for credit but no more than 3 units may be applied to the elective section of options that allows its use.

495A. Cellular/Molecular/Physiology

495B. Ecology and Evolution

495C. Microbiology

495D. Genetics/Developmental Biology

495E. Marine Biology

**BIOL 496A-Z. Experimental Topics in Biology (2-4)**

Special studies in Biology with topics to be determined.

**BIOL 497EE. Supervised Off-Campus Experiential Education (1-6)**

Not for graduate credit toward M.S. Degree in Biology. Student work experiences that are planned, organized and evaluated by faculty in cooperation with organizations other than the University's academic departments. No remuneration for this work may be received in addition to academic credit. Academic/Internship course. (Credit/No Credit only)

**BIOL 498. Senior Thesis (2)**

*Prerequisites: Senior standing in Biology; Consent of instructor. Recommended Corequisite or Preparatory: BIOL 330, 499.* Student selects and does original research on a topic of current biological interest in consultation with a sponsoring faculty member. Results of this research are presented both orally and in a written report in scientific format.

**BIOL 499. Independent Study (1-3)**

Not for graduate credit toward M.S. Degree in Biology. Maximum of 3 units of Independent Study may be applied to satisfy unit requirements of Elective Areas for the baccalaureate degree in Biology.

## Graduate

Both graduate and advanced undergraduate students may take 500-level courses. Only graduate students are permitted to enroll in 600-level courses.

**BIOL 502. Biometry (3)**

Application of quantitative methods to variation patterns in biological systems, their analysis and interpretation. Lecture 3 hours.

**BIOL 502L. Biometry Lab (1)**

*Corequisite: BIOL 502.* Students have supervised time to work problem sets. Lab 3 hours.

**BIOL 503/L. Bioinformatics and Lab (3/1)**

*Prerequisites: BIOL 360, 322. Corequisite: BIOL 503L.* Bioinformatics tools (statistics and computer analysis) and their application to molecular data analysis. Lecture 3 hours, computer lab 3 hours.

**BIOL 504/L. Phycology and Lab (2/1)**

*Prerequisites: BIOL 106/L, 107/L passed with grades of C or better. Corequisites: BIOL 504L, 592P. Preparatory: BIOL 322.* Study of the algae with emphasis on their systematics, morphology, physiology and ecology. Lecture 2 hours, lab 3 hours.

**BIOL 506/L. Tropical Botany and Lab (2/1)**

*Prerequisite: BIOL 322. Corequisites: Students taking this course must also be enrolled in other linked courses that are part of the Tropical Biology semester. Preparatory: BIOL 312, 316, 330, 427.* Intensive, hands-on immersion into the biology of tropical plants, including tropical plant anatomy, architecture, morphology, biochemistry, reproduction, systematics and evolution. Lecture 2 hours, lab 3 hours.

**BIOL 507/L. Tropical Ecology and Conservation and Lab (2/1)**

*Prerequisite: BIOL 322. Corequisites: Students taking this course must also be enrolled in other linked courses that are part of the Tropical Biology semester. Preparatory: BIOL 312, 316, 330, 427.* Intensive, hands-on immersion in the ecology and conservation of tropical organisms and ecosystems. Lecture 2 hours, lab 3 hours.

**BIOL 508/L. Biology of Tropical Vertebrates and Lab (2/1)**

*Prerequisite: BIOL 322. Corequisites: Students taking this course must also be enrolled in other linked courses that are part of the Tropical Biology semester. Preparatory: BIOL 312, 316, 330, 427.* Intensive, hands-on immersion into the biology of tropical vertebrates, including morphology, behavior, ecology, systematics and evolution. Lecture 2 hours, lab 3 hours.

**BIOL 509/592U. Tropical Biodiversity and Field Study (2/1)**

*Prerequisite: BIOL 322. Corequisites: Students taking this course must also be enrolled in other linked courses that are part of the Tropical Biology semester. Preparatory: BIOL 312, 316, 330, 427.* Examination of the generation and maintenance of biodiversity, with particular reference to tropical groups of organisms. Lectures, discussions and intensive hands on field experience.

**BIOL 510. Seminar On Topics in Tropical Biology (3)**

*Prerequisite: BIOL 322. Corequisites: Students taking this course must also be enrolled in other linked courses that are part of the Tropical Biology semester. Preparatory: BIOL 312, 316, 330, 427.* Seminar addressing topics in tropical biology in the context of physical science, culture and politics.

**BIOL 511/L Molecular Markers in Evolutionary Studies and Lab (2/2)**

*Prerequisites: BIOL 322, 360. Corequisite: BIOL 511L.* The use of molecular data in ecology and evolutionary biology. Material will cover techniques and applications of molecular data in conservation, behavior, ecology, population biology, evolution and systematics. Lecture 2 hours, lab 6 hours

**BIOL 512/L. Herpetology and Lab (2/1)**

*Prerequisites: BIOL 106/L, 107/L passed with grades of C or better. Corequisites: BIOL 512L, 592E.* Biology, ecology and evolution of amphibians and reptiles. Adaptive significance of form and function is stressed. Lecture 2 hours, lab 3 hours.

**BIOL 513/L. Entomology and Lab (2/1)**

*Prerequisites: BIOL 106/L, 107L passed with grades of C or better. Corequisites: BIOL 513L, 592F.* Biology and classification of insects with emphasis on phylogeny and on adaptive implications of morphology. Lecture 2 hours, lab 3 hours.

**BIOL 514/L. Avian Ecology and Lab (2/1)**

*Prerequisite: BIOL 322. Corequisites: BIOL 514L, 592A.* Consideration of the interactions between birds and their environment, including such topics as habitat requirements, resource utilization, species interactions, territoriality and reproduction. Lecture 2 hours, lab 3 hours.

**BIOL 524. Tropical Biology (3)**

*Prerequisites: Biology major; BIOL 322 or equivalent. Preparatory: At least 1 course that deals with the evolution and ecology of a major group of organisms.* Examination of life functions and biotic interactions under conditions occurring in low latitude environments. Emphasis on characteristics and evolution of tropical biotas and their significance in relation to the total biosphere.

**BIOL 525. Animal Behavior (3)**

*Prerequisite: BIOL 322. Recommended Corequisite: BIOL 592D.* Ecology, genetics and evolution of behavior in vertebrates and invertebrates with emphasis on organisms in their natural environment. Lecture 3 hours.

**BIOL 526A-E. Extended Field Study (3)**

*Prerequisite: Consent of instructor, typically following prior course work on the topic. Preparatory: BIOL 322.* First-hand field work on a selected group of organisms at selected locations, to be complemented by readings on the evolution and ecology of the organisms and locations. Projects typically involve species identification, the application of censusing designs, data collection, statistical analysis, oral and

graphic presentations, written reports and often a collection to be deposited in a museum. (A) Botany; (B) Wildlife; (C) Fish Biology; (D) Entomology; and (E) Zoology.

**BIOL 527/L. Biology of Pelagic Organisms and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* BIOL 527L, 592L. Survey of organisms occupying the open ocean environment; ecological, morphological and physiological adaptations of selected groups; population dynamics, community structure and fisheries biology. Lecture 2 hours, lab 3 hours.

**BIOL 528/L. Behavioral Ecology and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* 528L, 592B. Study of the interactions between individuals and the environment. Emphasis placed on the behavioral adaptations of animals. Lecture 2 hours, lab 3 hours.

**BIOL 529/L. Marine Ecology and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* BIOL 529L, 592I. Marine community structure and dynamics. Study of the open seas, rocky and sandy shores, and bays are used to illustrate the basic features of marine communities. Lecture 2 hours, lab 3 hours.

**BIOL 530/L. Ichthyology and Lab (2/1)**

*Prerequisite:* BIOL 322. *Corequisites:* 530L, 592J. Biology, ecology and evolution of fish. Emphasis placed on adaptive significance of form and function. Lecture 2 hours, lab 3 hours.

**BIOL 531/L. Ecology of Marine Fishes and Lab (2/1)**

*Prerequisites:* BIOL 530/L, 592J. *Corequisites:* BIOL 531L, 592Q. Species assemblages, general ecology, adaptations and behavioral ecology of near shore marine fishes. Lecture 2 hours, lab 3 hours.

**BIOL 532/L. Advanced Ichthyology and Lab (3/1)**

*Prerequisites:* BIOL 530/L, 592J; *Graduate standing.* *Corequisite:* BIOL 532L. Advanced topics in ichthyology and fisheries biology. Advanced biosystematics of fishes; reproduction; age and growth; ecology, including feeding and community structure. Lecture 3 hours, lab 3 hours.

**BIOL 533. Conservation Biology (3)**

*Prerequisite:* BIOL 322. *Corequisite:* BIOL 592C. Application of ecological and evolutionary principles to problems in environmental biology. Factors affecting biodiversity and causes of species extinction receive particular attention. Lecture 3 hours.

**BIOL 536. Medical Mycology (3)**

*Prerequisites:* BIOL 315/L, 380. Study of mycotic pathogens; their morphology and pathogenicity, including diagnosis and treatment of fungal diseases. Lecture 3 hours.

**BIOL 542/L. Developmental Biology and Lab (3/1)**

*Prerequisites:* BIOL 360, 380. *Corequisite:* BIOL 542L. The mechanisms of cell and organ differentiation in animals (e.g., *Caenorhabditis*) and plants (e.g., *Arabidopsis*). The majority of topics involve working with mutants and wildtypes on the relationship between genetics and phenotypes. Some lab projects will use RNA-interference technologies

**BIOL 544. Biology of Viruses (3)**

*Prerequisites:* BIOL 360, 380. Comparative survey of the structure, gene expression and replication of viruses. Lecture 3 hours.

**BIOL 551/L. Computer Modeling in Biology and Lab (2/2)**

*Prerequisites:* BIOL 322, 360. *Corequisite:* BIOL 551L. Selected topics illustrating methods of computer modeling of biological systems. Students will be introduced in lecture and in computer laboratories to programming skills related to biological sciences and statistical analysis, including population genetics, cellular and molecular biology, physiological biology and ecology. Emphasis on understanding the role that computer modeling and analysis can play in research questions. Lecture 2 hours, lab 6 hours.

**BIOL 560. Advanced Topics in Evolution (3)**

*Prerequisites:* BIOL 322, 360. Critical discussion of selected topics in evolutionary biology such as adaptation, speciation, molecular evolution, key innovations, social evolution and coevolution. Lecture 3 hours.

**BIOL 561. The Molecular Genetics of Microorganisms (3)**

*Prerequisites:* BIOL 360, 380; *CHEM 333.* Discussion of the molecular structure of the gene, the chemistry of gene action, mutagenic agents and genetic control mechanisms in microorganisms. Emphasis placed on experimental basis for current concepts in molecular genetics. Lecture 3 hours.

**BIOL 562. Molecular Genetics of Eukaryotic Organisms (3)**

*Prerequisites:* BIOL 360, 380; *CHEM 333, 334.* Examination of the structure and function of chromatin, the structure of DNA and its associated proteins in chromosomes, replication of DNA and chromatin, transcription, RNA processing, recombination and the regulation of gene expression in eukaryotes. Lecture 3 hours.

**BIOL 563. Cytogenetics (3)**

*Prerequisite:* BIOL 360. Correlated study of genetics and cytology in which the genetic results of chromosomal changes are investigated. Lecture 3 hours.

**BIOL 564. Human Biochemical Genetics (3)**

*Prerequisites:* BIOL 360; *CHEM 461 and 462, or 464 or 365.* Focus on different sources of human biochemical defects, the detection of such disorders and their treatment. Lecture 3 hours.

**BIOL 566. Genetics of Bacteria and Their Viruses (3)**

*Prerequisites:* BIOL 315/L, 360. Study of the genetic systems found in bacteria, including transformation, conjugation and transduction. Viral replication, recombination and interaction with their bacterial hosts are investigated from a genetic perspective. Transposable elements, plasmids and other selected topics of current interest in this field are explored. Lecture 3 hours.

**BIOL 567. Medical Genetics (3)**

*Prerequisites:* BIOL 360; *MATH 105 or 140 or a score on the Mathematics Placement Test (MPT) sufficient for admission to MATH 255A.* Lecture and case presentations of the clinical, cytogenetic, biochemical, molecular and developmental aspects of human diseases and characters—knowledge that is necessary for the practice of medical genetics. Lecture 3 hours.

**BIOL 568. Clinical Cytogenetics and Cancer Genetics (3)**

*Prerequisite:* BIOL 468. Examination of the cytogenetics of human cancers and of hereditary predisposition to cancer, including rare and common familial cancer syndromes, risk assessment and surveillance, epidemiology and current research, ethics and genetic counseling in genetic risk assessment for cancer. Lecture 3 hours.

**BIOL 571. Molecular Diagnostics (3)**

*Prerequisites:* BIOL 360; *MATH 105 or 140 or score on the Math Placement Test (MPT) sufficient for admission to MATH 225A.* Survey of current techniques, applications and goals of molecular genetics research, including cloning strategies and techniques, genetic engineering techniques, progress in the Human Genome Project and related work, gene therapy and ethical ramifications. Lecture 3 hours.

**BIOL 572/L. Recombinant DNA Techniques and Lab (2/2)**

*Prerequisites:* BIOL 360; *CHEM 102/L.* *Corequisite:* BIOL 572L. *Preparatory:* BIOL 380. Handling and processing of recombinant DNA, including DNA isolation, use of restriction enzymes, gel electrophoresis, ligation, cloning, blots, hybridization and associated microbiological techniques. Lecture 2 hours, lab 6 hours.

**BIOL 575/L. Biological Imaging and Lab (2/2)**

*Prerequisite:* BIOL 380. *Corequisite:* BIOL 575L. Theoretical and practical aspects of imaging as applied to cellular and molecular biology, biotechnology and histology. Covers transmission and scanning electron microscopy, and light microscopy, including confocal microscopy, as well as MRI, PET and CAT scanning. Computer image processing and analysis, and the use of ultramicrotomy, fluorescent labels and immunochimistry to study macromolecules, cells and tissues will also be studied. Lecture 2 hours, lab 6 hours.

**BIOL 577/L. Cell and Tissue Culture and Lab (2/2)**

*Prerequisite:* BIOL 380. *Corequisite:* BIOL 577L. *Preparatory:* BIOL 315/L. Theoretical and practical studies of animal and plant cell cultures. Techniques for primary and continuous cultures and the production of hybridomas and monoclonal antibodies are covered. Other topics include cell culture storage, karyotyping, somatic embryogenesis, cytodifferentiation and application of cell cultures in solving biological problems. Lectures and labs are highly integrated. Lecture two hours, lab six hours.

**BIOL 580/L. Cellular Physiology and LAB (2/2)**

*Prerequisites:* BIOL 380; CHEM 334. *Corequisite:* BIOL 580L. In-depth consideration of cellular physicochemistry, including organelar structure, composition and function, macromolecular biosynthesis, metabolism, membrane transport and bioelectric phenomena. 8 class hours of integrated lecture and lab.

**BIOL 581. Endocrinology (3)**

*Prerequisite:* BIOL 380. *Preparatory:* BIOL 281 or BIOL 482. A comprehensive study of the organization and function of the major endocrine organs. Lectures will focus on the hormonal control mechanisms that regulate metabolism, reproduction, development and growth. Lecture 3 hours.

**BIOL 582/L. Principles of Neurophysiology and Lab (3/1)**

*Prerequisite:* BIOL 380. *Preparatory:* BIOL 482 or 580; CHEM 334; PHYS 100A, 100B. *Recommended Corequisite:* BIOL 582L. Examination of the structure, function and physiological principles of the nervous system. Surveys neuroanatomy, molecular neurobiology, sensory reception and relevant human neurological disorders. Lecture 3 hours, lab 3 hours.

**BIOL 585. Mechanisms of Bacterial Pathogenesis (3)**

*Prerequisite:* BIOL 315/L, 380. *Preparatory:* BIOL 410/L. Intensive study of the cellular and molecular mechanisms of bacterial pathogenesis, including the contribution of the host response, with emphasis on recent developments and comparative principles. Lecture 3 hours.

**BIOL 589. Cellular Immunology (3)**

*Prerequisite:* BIOL 485. Advanced studies on the cellular interactions and mechanisms of the immune response, including clinical aspects of cell-mediated reactions and immunologic disorders. Lecture 3 hours.

**BIOL 592A-T. Field Studies in Biology (1-2)**

Course Fee.

**One unit each, 3 hours per week or equivalent:**

- 592A Avian Ecology (*Corequisite:* BIOL 514/L)
- 592B Behavioral Ecology (*Corequisite:* BIOL 528/L)
- 592C Conservation Biology (*Corequisite:* BIOL 533)
- 592D. Animal Behavior (*Corequisite:* BIOL 525)
- 592E. Herpetology (*Corequisite:* BIOL 512/L)
- 592F. Entomology (*Corequisite:* BIOL 513/L)
- 592I. Marine Ecology (*Corequisite:* BIOL 529/L)
- 592J Ichthyology (*Corequisite:* BIOL 530/L)
- 592L Pelagic Organisms (*Corequisite:* BIOL 527/L)
- 592P Phycology (*Corequisite:* BIOL 504/L)
- 592Q Ecology of Marine Fishes (*Corequisite:* BIOL 531/L)

**Two units each, 6 hours per week or equivalent**

- 592R Tropical Botany (*Corequisite:* BIOL 506/L)
- 592S Tropical Ecology/Conservation (*Corequisite:* BIOL 507/L)
- 592T Tropical Vertebrates (*Corequisite:* BIOL 508/L)

**BIOL 595A-Z. Experimental Topics (1-3)****BIOL 615A-G. Seminar in Organismal and Population Biology (3)**

*Prerequisites:* BIOL 691; One or more 400-level courses in the area of specialization; Graduate status. Advanced study, including student preparation and presentation of reports, in one of the following areas of biology: (A) Systematics and Phylogeny; (B) Morphology; (C) Ecology; (D) Ethology; (E) Biogeography; (F) Evolution; and (G) Tropical Biology.

**BIOL 641. Biochemistry of Animal Development (3)**

*Prerequisite:* BIOL 441 or 542. Advanced study in the mechanistic approach to the study of development of animals. Topics include biochemical control mechanisms of metabolism, gene activity, cell motility and adhesion and pattern formation. Lecture 3 hours.

**BIOL 655A-J. Seminar in Cellular and Molecular Biology (3)**

*Prerequisites:* BIOL 691; One or more 400-level courses in the area of specialization; Graduate status. Advanced study, including student preparation and presentation of reports, in one of the following areas of biology: (A) Microbiology; (B) Cellular Biology; (C) Development; (D) Genetics; (E) Physiology; (F) Immunology; (G) Molecular Biology; (H) Biotechnology; (I) Molecular Evolution; and (J) Medical Genetics.

**BIOL 665. Colloquium in Human Genetics (2)**

*Prerequisite:* Acceptance into the Genetic Counseling program. Attendance at a series of lectures given by specialists in medical genetics and genetic counseling. Each presentation followed by a discussion involving student participation. (Credit/No Credit only)

**BIOL 690. Graduate Tutorial (1)**

Supervised individual projects involving reading and discussion, lab research or field studies in specific areas of biology. No more than 2 units may be credited toward the Master's degree and they may not be taken concurrently. (Under special circumstances, unclassified graduate students may be permitted to take the course)

**BIOL 691. Graduate Proseminar (3)**

Recommended to be taken early in the graduate program in preparation for further graduate course work and the presentation of papers at professional meetings. Preparation and presentation of seminars based on current literature in biology.

**BIOL 692. Biology Colloquium (1)**

Guest lecturers (contemporary researchers) presenting talks on a variety of topics in biological research. Each presentation will be followed by discussion involving student participation. (Credit/No Credit only)

**BIOL 695A-Z. Experimental Topics (1-3)****BIOL 696A-E. Directed Graduate Research (3)**

Designed for M.S. students conducting thesis research. May be repeated for credit but no more than 6 units may be applied to the M.S. Degree. (A) Cellular/Molecular/Physiology; (B) Ecology and Evolution; (C) Microbiology; (D) Genetics/Developmental; and (E) Marine Biology. May be repeated for graduate credit but no more than 6 units may be applied toward the M.S. Degree.

**BIOL 698. Thesis (3)**

*Prerequisites:* Classified status in Biology; Consent of instructor. Preparing and writing the Master's thesis. May be repeated for a maximum of 18 units.

**BIOL 699. Independent Study (1-6)**

### Programs

#### Graduate Degrees:

Master of Business Administration  
 Master of Science in Accountancy  
 Master of Science in Taxation

#### Graduate Certificates:

Graduate Certificate in Business Administration

#### Undergraduate Degrees:

B.A., Economics  
 B.S., Accountancy  
 Option in Information Systems  
 Option in Professional Accountancy  
 B.S., Business Administration  
 Option in Business Law  
 Option in Global Supply Chain Management  
 Option in Insurance and Financial Services  
 Option in Real Estate  
 Option in Systems and Operations Management  
 B.S., Finance  
 B.S., Information Systems  
 Option in Business Systems  
 Option in Information Technology  
 B.S., Management  
 B.S., Marketing

#### Undergraduate Minors:

Business Law  
 Economics  
 Finance  
 Human Resource Management  
 Information Systems  
 Management  
 Marketing  
 Quality Management and Assurance

### Mission

The College of Business and Economics provides a high-quality education that prepares students from diverse backgrounds for leadership in today's complex, global economy. Our graduates are effective communicators and ethical decision makers who are proficient in the theory and practice of business. Our faculty members are excellent teachers who maintain academic and professional currency. Our college actively partners with business, government and community organizations to enhance its teaching and research mission.

### Vision

The College of Business and Economics aspires to be California's best regionally focused business and economics program. We want to be recognized for our faculty's research, our strong ties to the local community, the involvement of our alumni and our focus on building educational programs of excellence for both undergraduate and graduate business students.

### Core Values and Ethics

The College of Business and Economics at CSUN prepares students to be ethical decision makers. The college maintains high standards of ethical conduct that students are expected to maintain throughout their academic and professional careers. Students in the College of Business and Economics have identified the values of respect, honesty, integrity, commitment and responsibility as their guiding principles.

### Student Core Values

**Respect:** Treat our classmates, professors, staff and administrators with respect. We respect diversity and do not discriminate on the basis of race, color, ethnicity, religion, gender, disability, sexual orientation, age or other characteristics. We respect different points of view that add to our knowledge. We respect our learning opportunities by behaving professionally in the classroom and by making academic achievement an important priority.

**Honesty:** Communicate truthfully with our classmates, professors, staff and administrators in all academic matters while remaining respectful. We observe University policies on academic dishonesty in completing all academic work. In seeking employment, internships and other opportunities we represent ourselves truthfully, understanding that misrepresentation may not only harm our own reputation but that of our classmates and the college.

**Integrity:** Because we zealously integrate these core values into our academic work and preparation for our profession, our integrity enables us to reach our goals, overcome obstacles and successfully resolve ethical dilemmas.

**Commitment:** Strive for success as students, professionals and citizens. We keep our promises and adhere to our core values in all our activities both as students and alumni. We are committed to acting honestly, respectfully and responsibly in our effort to achieve our goals. We understand that commitment to our core values benefits both students and the community now and in the future.

**Responsibility:** Embrace the responsibility we have to ourselves and to each other to maintain high ethical standards. With each task at hand comes the responsibility to uphold the core values that unite us. We support each other in our adherence to these standards. We recognize that reporting unethical conduct is a responsibility we all share.

### Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. Accountancy, Finance, and Insurance and Financial Services are impacted majors with additional admission requirements. All Business majors share 27 units of common Lower Division core courses and 19 units of common Upper Division core courses.

### Economics Majors

Refer to the Economics section in this Catalog.

### College of Business and Economics Student Services Center and Educational Opportunity Program Satellite (COBAE SSC/EOP Satellite)

**Fariba Farzan, Director**  
 Juniper Hall 2113

The focus of the COBAE SSC/EOP satellite is on developmental advisement to help improve the retention and graduation rates of our students. The advisement team is dedicated to achieving the mission of assisting students with academic issues and guiding them toward graduation in a timely manner.

Services provided by the advisors in the COBAE SSC/EOP satellite office include orientations for new and transfer students, advisement by appointment, groups or walk-ins; and specialized services to EOP students. For more information visit [www.csun.edu/cobaessc](http://www.csun.edu/cobaessc) or call (818) 677-3537 for an appointment.

### Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

### Special Grade Requirements

Transfer students should be aware that no grade lower than a “C” will be accepted upon transfer from another institution to satisfy College of Business and Economics requirements.

### Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management and Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

### Graduate Programs

#### Deborah Cours, Director

#### Juniper Hall 3109

Prospective and current graduate students in the Master of Business Administration or Graduate Certificate in Business Administration programs should contact the Graduate Programs office at (818) 677-2467 for advisement.

Prospective and current graduate students in the M. S. in Taxation program should contact the program advisement office in JH 1111 or call (818) 677-3952.

Prospective and current graduate students in the M.S. in Accountancy program should contact the Department of Accounting and Information Systems office in JH 3123 or call (818) 677-2461.

### Business Honors Program

#### Tina Kiesler, Director

#### Juniper Hall 4264

The Business Honors Program is designed to recognize students who have demonstrated high academic standards and to encourage these students to continue their record of excellence as business majors at CSUN. The program is open to students who are declared majors in Accountancy; Economics; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management; meet all Honors Program admissions criteria; and are selected by the Business Honors Program Admissions Committee. The Business Honors Program offers rigorous courses that emphasize communication, critical reasoning, complex problem solving and teamwork skills.

Students accepted into the program are offered a variety of benefits, including Honors designated courses, small class-size, priority enrollment in business courses, the Business Honors Mentorship Program, the Seminar Series and Business Honors special events. For more information call (818) 677-3100 or visit [www.csun.edu/bhp](http://www.csun.edu/bhp).

## Business Honors Program Requirements

### 1. Required Courses (18 units)

Complete one of the following two tracks:

#### Track I

|     |          |                                     |
|-----|----------|-------------------------------------|
| BUS | 296BHA-Z | Business Honors Selected Topics (3) |
| BUS | 498      | Honors Mentorship (3)               |

Each student must successfully complete 12 additional units of designated Business Honors (BH) courses. These courses may be elective or core classes.

#### Track II

|     |          |                                     |
|-----|----------|-------------------------------------|
| BUS | 296BHA-Z | Business Honors Selected Topics (6) |
| BUS | 498      | Honors Mentorship (3)               |

Each student must successfully complete 9 additional units of designated as Business Honors (BH). These courses may be elective or core classes.

The following Upper Division core classes and electives are usually offered for honors students annually:

|      |       |   |
|------|-------|---|
| BUS  | 302BH | The Gateway Experience (3)                      |
| BUS  | 497BH | Capstone (either A or BCS) (3)                  |
| ECON | 308BH | Economics for Managers (3)                      |
| ECON | 309BH | The Use and Interpretation of Economic Data (3) |
| ECON | 310BH | Price Theory and Applications (3)               |
| ECON | 311BH | Money, Banking and the Federal Reserve (3)      |
| ECON | 409BH | Introduction to Econometrics (3)                |
| FIN  | 303BH | Financial Management (3)                        |
| FIN  | 352BH | Investment Analysis and Management (3)          |
| FIN  | 355BH | Problems in Corporate Financial Policy (3)      |
| FIN  | 437BH | Advanced Topics in Finance (3)                  |
| MGT  | 360BH | Management and Organizational Behavior (3)      |
| MGT  | 454BH | Leadership, Power and Politics (3)              |
| MKT  | 304BH | Introduction to Marketing Management (3)        |
| MKT  | 346BH | Marketing Research (3)                          |
| MKT  | 348BH | Consumer Behavior (3)                           |
| SOM  | 306BH | Operations Management (3)                       |

Additionally, students must maintain a 3.50 minimum cumulative GPA to fulfill the Business Honors Program requirements.

### Business PACE Program

#### Wendy Rivera, Director

#### Juniper Hall 3109

The Business Program for Adult College Education (PACE) provides Upper Division transfer students with an opportunity to pursue their Bachelor of Science in Finance or Marketing while maintaining a full-time work schedule or other daytime commitments. This is made possible by offering four 8-week courses per semester, as well as two 8-week courses during the summer, in an evening and weekend format. Students meet for class one night per week and four all-day Saturday sessions during the 8-week session. This allows for the completion of the degree in just two years.

The Program packages the Upper Division business curriculum required for the degree. Some scheduling to satisfy Upper Division general education courses and major specific courses is the responsibility of the student. Students interested in this program need to have completed a minimum of 60 transferable units (including the Lower Division business core courses), have achieved General Education (GE) Certification and meet a minimum GPA requirement. For more information please call (818) 677-2467 or visit [www.csun.edu/~buspace](http://www.csun.edu/~buspace).

## Internship Program

**Craig Oka, Director**

**Shannon Johnson, Associate Director**

**Juniper Hall 2236**

The College of Business and Economics offers students the opportunity to gain real-life work experience by completing an approved internship. Internship opportunities are available in a wide variety of organizations and cover all business disciplines. Not only does an internship provide students with an opportunity to obtain experience, but in many cases the internship leads to an employment opportunity with that organization. For more information please call (818) 677-4697 or visit [www.csun.edu/~businter](http://www.csun.edu/~businter).

## Ernst & Young Center for Careers in Accounting and Information Systems

**Luella Jones, Director**

**Juniper Hall 2224**

The Ernst & Young Center for Careers in Accounting and Information Systems provides specialized career and job search services to CSUN students and alumni. As a bridge from college life to the world of work, it's our mission to support the exploration of career and academic options, the development of job search skills and to facilitate connections between employers and students that lead to successful and satisfying futures. Services provided by the Center include career and job search counseling; a campus recruiting program; job listings; workshops on resume writing, interviewing, job offer and salary negotiation, internships and more; employer panels on topics such as interviewing and resume writing; a credential file service; and career fairs. For more information call (818) 677-2979 or visit [www.csunaiscareers.org](http://www.csunaiscareers.org).

## Institute for Business and Economics

**Judith E. Hennessey, Director**

**Juniper Hall 3109**

The Institute for Business and Economics facilitates the pursuit of scholarly projects and publications by faculty in the College. Centers, including the Bookstein Institute for Higher Education in Taxation, Center for China Finance and Business Research, Center for Financial Planning and Investment, Center for Quality and Productivity Education, Center for Real Estate, Center for Risk and Insurance, San Fernando Valley Economic Research Center, Wayne and Roberta Colmer Volunteer Income Tax Assistance Program, and Wells Fargo Center for Small Business and Entrepreneurship have been established within the Institute to carry out specific programs. For more information please call (818) 677-2466.

## Student Organizations

The College of Business and Economics houses a number of student organizations. Participation in these associations provides an opportunity for valuable social contact and organizational experience. Emphasis is placed on career planning and meetings with representatives from business organizations.

Beta Gamma Sigma is a national honor society for students majoring in Business. Undergraduate business students are elected on the basis of scholarship. Election to Beta Gamma Sigma is the highest scholastic honor an undergraduate or graduate business major can be awarded.

Student organizations associated with the College of Business and Economics include the Accounting Association, ALPFA, Alpha Kappa Psi, American Advertising Federation, American Marketing Association, American Society for Quality, Beta Alpha Psi, Beta Gamma Sigma, Business Honors Association, Delta Sigma Pi, Latino Business Association, Leaders in Alliance, Management Association,

Management Information Systems Association, Master of Business Alumni Association, Pre-Law Association, National Society of Leadership and Success, and Student Finance Association.

## Course List

### **BUS 302. The Gateway Experience (3)**

*Prerequisites:* ACCT 220, 230; BLAW 280; COMP v100; ECON 160, 161; ENGL 205; MATH 103; MATH 140 or SOM 120. (Lower Division Business Core courses). To be taken by all Business majors prior to, or concurrently with, the student's first Upper Division Business Core courses. Team-taught course integrating concepts from the Lower Division Core courses by using case studies. Students learn how to build an effective team and to become a valued team member as well as develop written and oral communication skills. Includes team analyses of case studies, exams and quizzes to review and integrate Lower Division Core material and individual writing assignments, including a term project aimed at helping students develop an effective, customized path to their desired career.

### **BUS 302L. The Gateway Experience Laboratory (1)**

*Prerequisites:* Junior standing; Completion of all Lower Division Business Core courses. To be taken by all Business majors prior to, or concurrently with, the student's first Upper Division Business Core courses. This laboratory class is designed to certify and solidify a student's knowledge of Lower Division Business Core course concepts. The laboratory includes instruction, practice quizzes, examinations and other activities designed to ensure that students moving into the Upper Division Business curriculum have the knowledge and ability to apply core concepts necessary for success in the program. (Credit/No Credit only)

### **BUS 480. The San Fernando Valley: Research on Local Issues (3)**

*Prerequisites:* BUS 302/L; Consent of instructor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Supervised research on topics of interest to business and community leaders in the San Fernando Valley. Taught in conjunction with the San Fernando Valley Economic Research Center in the College of Business and Economics. (Available for General Education, Lifelong Learning)

### **BUS 491CS. Small Business Consulting (3)**

*Prerequisites:* BUS 302/L; Instructor consent; Normally a minimum 3.0 GPA overall and in business courses; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. For senior-level Business Administration majors only. Perform situation analyses and develop business/marketing recommendations for actual clients. Mandatory client meetings several times within the semester. Present final recommendations to both the instructor and client. Offers a community service opportunity with activities relating to concepts and theories presented.

## Capstone Courses

### **BUS 497A. Capstone—Strategic Management (3)**

*Prerequisites:* BUS 302/L; FIN 303; MGT 360; MKT 304; Senior standing; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Integrates previous course work and introduces concepts and approaches for analyzing, formulating and implementing business interdependencies between the functional areas within organizations, and examining how these are impacted by external factors.

### **BUS 497B. Capstone—Small Business Planning and Growth (3)**

*Prerequisites:* BUS 302/L; FIN 303; MGT 360; MKT 304; Senior standing; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Seminar integrating a broad range of business disciplines, requiring students to apply them to actual problems facing local small businesses. Course reviews and integrates functional areas of business

as they relate to small business problems. Examines business strategy for effective small business management and growth. Using a consultancy approach, students assess business owner's situation and provide strategic, implementable recommendations in the form of a business plan. Offers a community service opportunity with service learning activities relating to concepts and theories presented.

## Business Honors Course List

---

### **BUS 296BH A-Z. Business Honors Selected Topics (1-1-1-1-1)**

*Prerequisite: Admission to the Business Honors Program.* This course consists of individual seminars that vary in content and approach. Seminars may be interdisciplinary, spotlight cutting-edge ideas, or focus on specific business related disciplines. The goal of each seminar is to develop excellent communication skills, to participate in in-depth critical reasoning and problem solving approaches, and build successful teamwork and leadership skills. Maximum of 6 units may be applied toward degree requirement. (Credit/No Credit only)

### **BUS 498. Honors Mentorship (3)**

*Prerequisites: BUS 302/L; Junior standing; Admission to the Business Honors Program; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* Provides business honors students with the opportunity to work on a project within the University or a community organization. The range of possibilities is wide. Students may assist faculty members with research or teaching, tutoring or developing an original project. All mentorships involve careful guidance and training from faculty members who supervise the student's work. Proposed mentorships must be approved by the Business Honors Program Director. (Credit/No Credit only)

#### Staff

Phillipa Avila

#### Graduate Faculty

David S. Ackerman, Can M. Alpaslan, Ardavan Asef-Vaziri, Mariam Beruchashvili, Michael E. Chaplin, Deborah A. Cours, Vicentiu M. Covrig, Daniel Degrauel, Oscar W. Deshields, Curt J. Dommeyer, James P. Dow, Rafi Efrat, Adam Gifford, Alan M. Glassman, Glen L. Gray, Deborah Heisley, Judith E. Hennessey, William P. Jennings, Christopher G. Jones, Rajabali Kiani-Aslani, Tina L. Kiesler, Robert C. Krol, Anton D. Lowenberg, Leah E. Marcal, Daniel L. McConaughy, David W. Miller, Richard W. Moore, Seung-Kuk Paik, Gerard L. Rossy, Cristina Rubino, Lois Shelton, Christa Wilkin, Melanie S. Williams, Deone Zell, Zhong-Guo Zhou

#### Graduate Emeritus Faculty

Thomas L. Wedel

Degree Program:

**Master of Business Administration (MBA)**

Certificate Program:

**Graduate Certificate in Business Administration (GCBA)**

#### Master of Business Administration (MBA)

The Master of Business Administration (MBA) is a professional evening program for students desiring an advanced degree in general business management. The mission of the MBA program is to prepare students for professional growth by integrating current business theory and practices with their own career experiences. Designed to be accessible to the fully employed student, the interdisciplinary program emphasizes analytical thinking, clear communication, effective teamwork, a global perspective and ethical practices. A spirit of collegiality among the students, faculty and business community is fostered through social and professional activities.

The average course load for MBA students is 6 units per semester (2 nights per week). With few exceptions, graduate courses are offered from 7-10 p.m. Monday through Thursday evenings along with occasional Saturdays in selected courses.

#### For admission applicants must:

1. Meet the requirements of the University as listed in the Catalog;
2. File formal application for admission and forward official transcripts of all undergraduate and graduate university work no later than May 1 if applying for the Fall semester and October 1 if applying for the Spring semester. (See Catalog for University requirements for applications);
3. Take the Graduate Management Admission Test by the application deadline and submit an original score report to the College of Business Graduate Office. Scores are normally valid for 5 years;
4. International students who do not have a bachelor's degree from a University within the U.S. must submit scores from an accepted English Language Exam. The University accepts the TOEFL (mini-

- imum score of 213 computer based), IELTS (minimum score of 6.0), or Pearson's Test of English (minimum score of 58);
5. Complete the MBA Supplemental Application at [www.csun.edu/mba](http://www.csun.edu/mba) by the application deadline;
  6. Provide a current resume with minimum professional post-baccalaureate work experience of at least one year

Admission to the CSUN MBA program is competitive. A typical successful applicant has a GMAT score of 600, an undergraduate GPA of 3.2 and 5 years of work experience.

#### MBA Classification Status

**To be admitted as Classified students, applicants must have:**

1. Satisfied the minimum MBA admission standards;
2. Completed the MBA Foundation courses (15 units) or their approved equivalents;
3. Earned a 3.0 or higher GPA in the undergraduate degree or scored at or above the 50th percentile on the Verbal or Quantitative section of the GMAT or completed the Graduate Certificate in Business Administration program with a grade of B or better in each course; *and*
4. Satisfied the CSU Graduate Writing Assessment Requirement by having passed the Upper Division Writing Proficiency Exam or receiving a score of 4.0 or higher on the Analytical Writing Assessment of the GMAT exam.

Students who are admitted to the MBA program but who require any of the MBA Foundation Courses and/or who do not satisfy the University requirements for Classification and/or who have deficiencies in program admission requirements (GPA, GMAT and/or work experience) will be admitted as Conditionally Classified Students. Students will be notified of the requirements for Classified Status in their letter of admission to the MBA program.

Students admitted as Conditionally Classified students must satisfy these requirements before completing more than 12 units of 600-level coursework in the MBA program. To meet the minimum requirements for Classified Status, MBA students must have a 3.0 or higher GPA for all work attempted since admission to the program.

#### Requirements for the Degree

1. Up to 15 units of Foundational course work may be required (see Section 1)
2. Minimum of 33 units in the Formal Program, including:
  - 24 units of Required Core course work (see Section 2)
3. 9 units of Electives (see Section 3), including GBUS 698A *or* 9 units of Electives (see Section 3) and 3 units in GBUS 697G

|   |              |
|---|--------------|
| <b>Total Units Required for the MBA</b> | <b>33-51</b> |
|---|--------------|

#### 1. Foundational Skills

Applicants who hold a bachelor's degree in business from an AACSB-accredited school may be waived of up to 15 units of Foundation courses. Other applicants may be required to complete some or all of the 15 units of prerequisite Foundation courses. Students must demonstrate proficiency in mathematics and statistics. Complete information is available from the Graduate Office. Applicants who apply to the MBA program will have their transcripts evaluated against the foundation courses listed below. Past course work may or may not have included the equivalents for the prerequisite courses. If there are any deficiencies, students may be admitted to the MBA program but the Foundation course work must be satisfactorily completed before the student will be advanced to Classified Graduate standing. Undergraduate course equivalents may be substituted only with the approval of the Director of Graduate Programs. The Foundation

course work also may be satisfied through the Graduate Certificate in Business Administration Program. (For more information about the certificate program, please visit <http://tsengcollege.csun.edu/gcba>)

#### Foundation Courses (15 units)

|      |     |   |
|------|-----|---|
| ACCT | 501 | MBA Financial Accounting (3)                      |
| BLAW | 508 | MBA Law in the Business Environment (3)           |
| ECON | 500 | MBA Survey of Economics (3)                       |
| GBUS | 502 | Seminar in Managerial Finance/Accounting (3)      |
| SOM  | 591 | Statistics and Stochastic Models for Managers (3) |

#### 2. Required Core Courses (24 units)

|      |     |  |
|------|-----|--|
| ECON | 600 | Economics of Strategy (3)  |
| FIN  | 635 | Financial Theory and Policy (3)                                  |
| GBUS | 600 | Analysis of Contemporary Organizations (3)                       |
| IS   | 628 | Computer Based Management Information Systems (3)                |
| MKT  | 640 | Marketing Management (3)   |
| MGT  | 620 | Behavior in Organizations (3)                                    |
| MGT  | 693 | Seminar in Strategic Management (3)                              |
| SOM  | 686 | Seminar in Internationally Competitive Operations Management (3) |

#### 3. Electives and Concentrations (9 units)

- A minimum 9 units of electives must be selected from the list of 600-level courses offered by the College of Business and Economics with approval of the Director of Graduate Programs. Students must satisfy prerequisite requirements for any courses selected
- Concentrations: Although not required within the 9 units of electives, an emphasis in one field of study may be completed by selecting 9 units from 600-level courses with approval from both the department and the Director of Graduate Programs. Concentrations are available in Information Systems, Finance, Management, Marketing, Sustainability, Systems and Operations Management, along with International Business and the Entertainment Industry. The MBA Consulting Graduate Project, GBUS 698A, will serve as one elective class in any concentration.

A complete list of courses available for each concentration is updated each semester and is available from the Graduate Office.

#### 4. Culminating Experience (3 units)

All master's degree candidates complete a thesis, project or exam that serves as a culminating experience and that demonstrates a comprehensive mastery of the program's content. Satisfactory completion of this requirement is necessary to earn the degree.

Most MBA students satisfy this requirement through a graduate project, which we call the MBA Consulting Graduate Project. Occasionally, students will opt to take the Comprehensive Exam (GBUS 697G). Rarely, students are granted permission to write a thesis; this is typically reserved for a student who plans to pursue doctoral study. The culminating experience must be completed within 10 semesters of beginning coursework in the program. GBUS 698A will also satisfy one elective course; GBUS 697G will not.

#### MBA Consulting Graduate Project: GBUS 698A

The MBA Consulting Project consists of small teams of students performing comprehensive consulting projects under faculty supervision. The clients are selected and screened by the MBA program. Students are not permitted to conduct projects for their own employer or new venture.

Students enroll in GBUS 698A, a 3-unit course that also can be included in the formal program to fulfill one elective, counting in all concentrations. Letter grades are awarded to the coursework. A grade of C+ or lower will constitute a failing grade, resulting in disqualification from the MBA program. Note that unlike the comprehensive exam, a student is not allowed to repeat the MBA Consulting Project.

Although the students will be presented with a general idea of the project's scope, it is the team's responsibility to interview the client and determine a scope of work, which will be approved by the faculty advisor(s), graduate director and client. The students must complete the work, resulting in a written document meeting the approval of the faculty advisor by the semester's deadline for submitting Graduate Theses and Projects (as stated in the Schedule of Classes).

#### MBA Comprehensive Exam: GBUS 697G

The exam is an individual take-home exam administered over a four-day period. The exam consists of a case study, which the students analyze. A written document consisting of strategic analysis with recommendations is submitted. Guidelines, requirements and technical information is presented each semester in an information session and delivered by mail to the enrolled students.

Students enroll in GBUS 697G, a 3-unit course that is not included in the formal program and is graded on a pass/fail basis. Candidates who fail the exam the first time are permitted a second attempt at the exam and must complete the exam within the subsequent two semesters. Failing the exam twice disqualifies the student from the MBA program.

#### GPA Requirements

Students must maintain a cumulative GPA of 3.0 or higher in all course work attempted after admission to the program and must also maintain a cumulative GPA of 3.0 or higher in the MBA Formal Program (600-level courses). Students who fail to complete the first 15 units with a minimum of 3.0 GPA will be disqualified from the program. Candidates who are on probation will not be permitted to enroll in the MBA Consulting Project or to sit for the Comprehensive Exam.

#### Conditional Classification

To be granted Classified status, students must meet the University requirements for Classification (see Graduate Programs). Completion of the GCBA program with a B or better in each course will satisfy one of the minimum requirements for classification. Some applicants will be admitted to the MBA program as Conditionally Classified students. These students will be notified of the requirements for classification, which may include satisfactory performance in Foundation course work, satisfactory performance in specific classes, completion of an Academic Internships and/or satisfactory completion of the Upper Division Writing Proficiency Exam (UDWPE). A score of 4.0 or better on the Analytical Writing Assessment (AWA) section of the Graduate Management Admission Test (GMAT) will satisfy the writing proficiency requirement. Students must satisfy requirements for Classification before completing more than 12 units of 600-level work. Failure to fulfill the requirements for Classification may result in dismissal from the program.

#### Time Limit for Completion

Consult the "Graduate Programs" section of this catalog for complete information. Please note that students must complete requirements for the degree within 5 calendar years from the date of admission.

#### The Graduate Certificate of Business Administration (GCBA) Program

The GCBA program enables holders of bachelor's or graduate degrees in fields other than business to prepare for career change or advancement in the area of business management. It is also an outstanding opportunity to experience Master of Business Administration (MBA)-level coursework without committing to an MBA program. For those who later decide to pursue an MBA, the CSUN GCBA curriculum provides excellent preparation for that degree. The GCBA program is offered by CSUN's College of Business and Economics in collaboration with CSUN's Tseng College of Extended Learning. For more information about the GCBA program, please visit the website at <http://tsengcollege.csun.edu/gcba>.

### About the Program's Cohort Format

Participants proceed through the program in a cohort (group) format, which means that all successful applicants in a given term will begin their course of study at the same time and move together with their cohort through the designated course sequence. Since all participants in a cohort take the same classes in sequence, the knowledge gained in one course can be built upon in those that follow. Cohort participants share a familiar, supportive on-going learning community and also enjoy the opportunity of networking together as a cohesive group with common career goals and life experiences.

### Courses for Graduate Certificate of Business Administration Program

The GCBA program is a cohort program. Students start the program and proceed through the course sequence together. Students who do not meet the TOEFL minimum requirements for the regular GCBA program can start an international GCBA program with intensive English preparation prior to the start of the regular GCBA cohort. The term in which students will start their course of intensive English study is dependent upon their TOEFL score. The GCBA includes the CSUN MBA Foundation Courses (15 units) and a capstone course (GBUS 593).

## Course List

### Graduate Business Administration Courses

#### ACCT 501. MBA Financial Accounting (3)

*Prerequisite: Admission to a College of Business and Economics graduate program or consent of instructor.* Study of financial reporting principles, structure of the balance sheet, income statement and statement of cash flows. Measurement principles for assets; liabilities and stockholders' equity; revenue and expenses. Covers management's responsibility for full and fair disclosure of financial information.

#### ACCT 623. International Accounting (3)

*Prerequisite: ACCT 352 or instructor consent.* Examination of the environmental factors affecting accounting concepts and standards. Differences in the cultural, social, political, legal and economic conditions as they affect accounting concepts and standards.

#### ACCT 624. Advanced Auditing and Assurance Services (3)

*Prerequisites: Prerequisites: ACCT 352 and 460 or equivalents.* Auditing theory and practices; auditing standards; SEC (Securities and Exchange Commission) and stock exchange regulations; auditor's legal liability; statement trends and techniques. Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information.

#### ACCT 626. Managerial Cost Accounting Seminar (3)

*Prerequisite: ACCT 380 or equivalent.* Focuses on how cost-management information helps managers make tactical and strategic decisions for profit planning and control. Emphasizes the topics of cost and management accounting that help firms compete more effectively.

#### ACCT 699. Independent Study-Accounting (3)

*Prerequisites: Permission of Graduate Advisor and Department Chair.* No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business and Economics without prior approval of the Dean. Only

those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course.

#### BLAW 508. MBA Law in the Business Environment (3)

*Prerequisite: Graduate standing.* Study of the role of law in business, including the study of legal institutions and their role in facilitating and regulating business. Includes a study of the legal system, civil litigation, torts, and the formation and performance of contract, agency and employment law, the various forms of business organizations and securities law.

#### BLAW 651. Entertainment Business Law (3)

*Prerequisites: BLAW 508 or 280; Graduate standing.* This course covers the recurring legal problems that arise in the business context of the entertainment industry and the legal relationships between the parties involved in the film, television, theater, music and online entertainment fields. In particular, the course will address tort law issues, including defamation, invasion of privacy and the right of publicity; intellectual property protection, including copyright and trademark law and the protection of ideas; contract law issues, including contract formation, contractual obligations and remedies; and government regulation of entertainment content and industry practices. International aspects of each of these areas will be emphasized.

#### BLAW 690. Seminar in Business Law (3)

*Prerequisite: BLAW 508.* Selected advanced topics in business law are analyzed by means of readings, analysis of cases and problems, case studies and class discussion.

#### BLAW 699. Independent Study-Business Law (3)

*Prerequisites: Permission of Graduate Advisor and Department Chair.* No more than 6 units of Independent Study may be taken in any single department, and no more than 6 units may be taken in the College of Business without prior approval of the Dean. Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course.

#### ECON 500. MBA Survey of Economics (3)

Survey course of the basic principles governing the allocation and utilization of resources. Microeconomic topics include wage and price determination, market mechanisms, efficiency and related issues concerning industry structure. Macroeconomic topics include financial markets and the determination of national income, employment and inflation.

#### ECON 600. Economics of Strategy (3)

*Prerequisite: ECON 500 or equivalent.* An economic analysis of the modern business organization, including its horizontal and vertical boundaries, industry-level competition and structure, competitive advantage and its short-term and long-term sustainability, and sources of productivity, especially human resources. Macroeconomic and international influences on business decisions are also covered.

#### ECON 606. Seminar in International Trade (3)

*Prerequisite: ECON 310 or 600.* Covers classical and modern theories of international trade, including the theory of comparative advantage as developed by Ricardo, Mill and Marshall, and the "Heckscher-Ohlin" factor endowments explanation of the basis for trade. Topics in the welfare effects of commercial policies such as tariffs, quotas and subsidies are covered.

#### ECON 609. Seminar in Applied Econometrics (3)

*Prerequisites: ECON 600; SOM 591.* Theory and applications of econometric analysis, estimation of relationships suggested by economic analysis. Topics include: estimating criteria, testing of economic hypotheses, single equation models and simultaneous equation models. Class members participate in a term project involving the construction and estimation of an econometric model.

**ECON 615. Seminar in Industrial Organization (3)**

*Prerequisite:* ECON 310 or 600. Critical examination of topics in industrial organization, such as concentration, mergers, the profit motive and multinational firms.

**ECON 616. Seminar in Antitrust and Regulation (3)**

*Prerequisite:* ECON 310 or 600. Investigation into the impact of existing public policies toward business with primary emphasis upon antitrust legislation and enforcement, regulation and government ownership.

**ECON 617. Seminar in International Finance (3)**

*Prerequisite:* ECON 310 or 600. Course covers the theory of exchange rates, the relation between transactions on current and national income and the causes and effects of international capital movements. The theory of balance of payments adjustments and policy will be examined in detail and some problems in contemporary international monetary arrangements will be discussed.

**ECON 633. Seminar in Public Economics (3)**

*Prerequisite:* ECON 310 or 600. Advanced analysis of the effects of governmental taxing and expenditure decisions on the economy in light of both positive and welfare economic theories; fiscal and monetary policies; analysis of "public debt" decision making in governmental bodies.

**ECON 699. Independent Study (3)**

*Prerequisite:* Permission of Graduate Advisor. Only those graduate students who have a current 3.0 GPA may register in a 600-level Independent Study course.

**FIN 634. Seminar in Financial Institutions (3)**

*Prerequisite:* GBUS 502. Seminar analyzing financial institutions with an emphasis on the determination of prices and yields of financial assets and the economic effects of financial intermediation.

**FIN 635. Seminar in Financial Theory and Policy (3)**

*Prerequisite:* GBUS 502. Examination of the theory of finance and its application to financial management of business enterprise.

**FIN 636. Seminar in Investment Analysis (3)**

*Prerequisite:* GBUS 502. Seminar in the fundamental and technical analysis of securities and capital markets. Applied financial analysis of firms and their securities; study of institutional forces in the security markets.

**FIN 637. Seminar in Corporate Real Estate (3)**

*Prerequisite:* GBUS 502. Seminar analyzing the role of real estate in corporate decision making. Topics include real estate, finance, site selection, real estate evaluation and the effect of real estate decisions on shareholder wealth.

**FIN 638. MBA Portfolio Management (3)**

*Prerequisite:* FIN 635 or consent of instructor. The course provides a select group of graduate students the opportunity to obtain real-world experience in the process of managing an investment portfolio. It will combine a comprehensive theoretical foundation with the challenge of managing a real stock portfolio. Students will take a team-oriented approach, with each group expected to research and formally present their investment ideas to the class. In addition, guest speakers from the industry will share their professional experiences with the class.

**FIN 639. Seminar in Financial Problems (3)**

*Prerequisite:* FIN 635. Selected topics in corporate finance are examined in the context of the managerial decision process. Emphasis is placed on the application of the theory of finance to problems facing entrepreneurs, investors and managers.

**FIN 699. Independent Study Finance (3)**

*Prerequisites:* Permission of Graduate Advisor and Department Chair. No

more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business without prior approval of the Dean. Only those graduate students who have a current GPA of 3.0 or higher may register in a 600-level Independent Study course. Note: See Graduate Business Interdepartmental Courses for GBUS 694B, 695B and 696B.

**GBUS 502. Seminar in Managerial Finance/Accounting (3)**

*Prerequisite:* ACCT 501. Interdisciplinary course dealing with the financial decision making process. Topics include the analysis and interpretation of financial statements, product costing, including activity based overhead cost allocations, financial planning and budgeting, working capital management, valuation, capital budgeting, sources of capital and capital structure, dividend policy and the management of risk and return in an international context.

**GBUS 593. Management/Marketing Seminar (3)**

The seminar integrates the fields of marketing and management and draws on previous course work to give students a basic understanding of business strategy. The course will provide an overview of marketing, management and business strategy theory. Business strategy cases and simulations will be used to help students apply the concepts taught in this course and those in their previous certificate courses.

**GBUS 598C. MBA Internship (3)**

*Prerequisite:* Graduate student in good standing. Individual study pertaining to future career and application of knowledge, skills and abilities gained in MBA coursework. Student must obtain an approved internship requiring MBA-level responsibilities. Faculty mentor and employer will determine scope of work. This academic internship course is available on a Credit/No Credit basis only. May not be used to fulfill formal program requirements in the MBA program.

**GBUS 599A-C. Independent Study (1-3)****GBUS 600. Analysis of Contemporary Organizations (3)**

Interdisciplinary course introducing new graduate students to the field of business. Focuses on the nature of organizations and the inter-relatedness of the functional areas. Explores intellectual and historic roots of management theories through readings of primary source materials. Students develop communication and research skills through individual and group projects that focus on organizations and their environment.

**GBUS 660. Special Topics Seminar: Training in Organizations (3)**

Analyzes the characteristics of effective training by exploring adult learning theories. Topics include conducting needs assessments and developing, implementing and evaluating training in organizations.

**GBUS 691. Small Business Consulting (3)**

*Prerequisites:* GBUS 600; Classified status. Under faculty advisement, students conduct consulting projects for local small business owners, entrepreneurs and not-for-profit organizations. Interdisciplinary course integrating a broad range of business disciplines and stresses their interactions with client companies. Provides students with the framework and experience needed for consulting. Students are responsible for evaluating clients' needs, determining the scope of work, conducting appropriate research and analysis and developing recommendations designed to achieve organizational goals. Critical thinking and problem-solving skills are improved and applied to evaluate alternative strategies and their effects on an organization's long-term survival and success. Requires preparation and presentation of final work project.

**GBUS 694A-G. Graduate Readings (3)**

*Prerequisite:* Permission of Department Chair and Director of Graduate Programs. Individual Departments may have specific course prerequisites. Supervised readings for graduate students desiring greater knowledge

not available in established courses. Provides opportunity to explore interdisciplinary approaches.

**GBUS 695A-Z. Experimental Topics Courses (3)**

*Prerequisites:* Permission of Department Chair and Director of Graduate Programs.

**GBUS 696A-G. Directed Graduate Research (1)**

*Prerequisites:* Permission of Department Chair and Director of Graduate Programs.

**GBUS 697A-G. Directed Comprehensive Studies (3)**

*Prerequisite:* Permission of Director of Graduate Programs. Not open to students writing a thesis. Open only to graduate students who have completed or are currently completing their course requirements and have only the Comprehensive Exam to take.

**GBUS 698A-G. Graduate Thesis (3-6)**

*Prerequisites:* Permission of Department Thesis Committee and Director of Graduate Programs. Number of units allowed depends upon the study undertaken.

**IS 628. Computer-Based Information Systems (3)**

*Prerequisite:* ACCT 501 or one year of undergraduate accounting. An introduction to computer-based information systems at a fairly sophisticated level. Emphasis will be on the understanding of computer concepts, computer applications in an organizational environment and the analysis and design of information systems.

**IS 655. Information Systems Theory and Practice (3)**

*Prerequisite:* IS 628 or 630. Comprehensive coverage of current trends and management issues associated with information systems (IS) to deliver business value within organizations at local, national and global levels. Topics include issues in information systems planning, administration, resource management and new information technology (IT) adoption to achieve the alignment between IT/IS and corporate functions.

**IS 656. Information Systems Audit and Control (3)**

*Prerequisite:* IS 628 or 630. Examines concepts, standards and frameworks associated with IS auditing. Topics include the post-Sarbanes Oxley IS audit environment, assessment of risks and controls, computer fraud, legal and ethical issues, and audit of the systems development process. Students work through audit simulations to develop IS audit expertise.

**IS 657. IS Governance and Risk Management (3)**

*Prerequisite:* IS 628 or 630. Provides an overview of information systems (IS) governance and information risk management. The course stresses the importance of the alignment of IS governance to business objectives and the role of IS in achievement of organizational strategy. Topics discussed include contemporary compliance initiatives; strategic IS decision making; IS performance assessment, control structure and accountability; IS project management; IS policy definition and enforcement; risk analysis and mitigation; and IS security management (i.e., security planning, policy and controls). Established frameworks and standards for IS governance and control are discussed.

**IS 699A-C. Independent Study (1-3)**

*Prerequisites:* Consent of instructor and approval of Program Chair. For students capable of independent work and in need of advanced and specialized study. May be repeated for a total of 6 units.

**MGT 620. Behavior in Organizations (3)**

*Prerequisite:* GBUS 600 (may be taken concurrently with MGT 620). Covers the behavioral issues facing organizations and their managers, the

methods and systems for addressing them and the interpersonal and analytical knowledge and skill needed to apply these methods and systems effectively. Focuses on practical experience, skill-building and theory about motivation, leadership, interpersonal communication, group processes and team building, decision making, and job and organizational design.

**MGT 630. Human Resource Strategies (3)**

*Prerequisite:* GBUS 600. Examination of the interaction between organizations and their political, social, economic and technical environments. Issues of ethical and social responsibility are examined.

**MGT 635. Human Resource Management (3)**

*Prerequisites:* MGT 620. Provides students with a basic knowledge of the key aspects of managing an organization's most important resource—people. Covers major human resource theories, concepts, practices and related skills. Students will learn about the main employment practices of human resource management such as workforce planning, employment relations and employee retention.

**MGT 661. Organization Theory and Design (3)**

*Prerequisite:* GBUS 600. Innovative assessment of systems theory as a strategic approach to aligning an organization's strategies, structure, technology and human resource practices with its environment. Views the history of organization theory as a story that illustrates diverse and creative ways of analyzing organizations.

**MGT 662. Strategic Planning and Implementation (3)**

*Prerequisite:* GBUS 600. A pragmatic approach to strategy formulation and implementation from the vantage point of executive management. Requires students to conduct a strategic analysis of a firm and its lines of business, emphasizing the importance of strategic management and strategic thinking as ongoing processes.

**MGT 663. Global Strategic Management (3)**

*Prerequisite:* GBUS 600. Explores the environmental challenges for global businesses, examining both the traditional and emergent global strategic responses of business to different market conditions. Emphasis is on contextual factors and the need for innovative strategies in an increasingly complex and changing environment in order to attain and/or maintain a competitive advantage.

**MGT 664. Cross-Cultural Management (3)**

*Prerequisite:* GBUS 600. Examination of the impact of culture on managing within a global environment. Develops an appreciation for one's own culture, knowledge, awareness and sensitivity to cross cultural differences. The course develops the tools needed to handle the wide variety of situations challenging to the multinational manager.

**MGT 665. Management of Technology and Innovation (3)**

*Prerequisite:* GBUS 600. Explores the emerging literature regarding the integration of strategy, technology and innovation. Stresses the strategic management of technological resources in order to gain a competitive advantage in the marketplace through timely innovation. There is extensive focus on the evolution of high-tech industries and the factors contributing to their success.

**MGT 667. Leadership (3)**

*Prerequisite:* GBUS 600. This course concentrates on contemporary leadership theory and practice with an emphasis on self-assessment and development of participants' leadership skills. The course focuses on behavioral approaches to leadership, including gaining power and managing the political subsystem.

**MGT 668. Selected Topics (1-3)**

*Prerequisite: GBUS 600.* The exploration of a topic currently being debated by the management community or the study of management through alternative means (e.g., classical literature, film) or the practice of management in a specific industry (e.g. film). Check with department for specific offering.

**MGT 671. Change Management (3)**

*Prerequisite: GBUS 600.* Develops a conceptual framework and the personal skills that form the foundation for effective change management in organizations, whether in the role of manager or consultant. There is extensive use of structured role-plays, cases and analysis of incidents from students' current work experiences.

**MGT 693. Seminar in Strategic Management (3)**

*Prerequisite: Taken during last year of course work for MBA students.* An integrative seminar dealing with broad business policy problems via the case method. There will be definition and analysis of internal and external factors affecting the development of the objectives and policies of the firm. The course stresses the interrelationships of major functional areas and the pervasive adjustments that may result from changes in a specific policy. Students are expected to use their personal experience and apply the analytical tools obtained from specialized courses in the solution of organization-wide problems. Emphasis is placed on case study methodology.

**MGT 699. Independent Study-Management (3)**

*Prerequisites: Permission of Graduate Advisor and Department Chair.* No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business and Economics without prior approval of the Dean. Only those graduate students who have at least a current 3.0 GPA may register in a 600-level Independent Study course. Note: See Graduate Business Interdepartmental Courses for GBUS 694C, 695C, 696C, 697C and 698C.

**MKT 640. Marketing Management (3)**

*Prerequisites: ECON 500; SOM 591 or equivalent.* Advanced approach to marketing policy. Analysis of problems in marketing management. Emphasis on development of competence in adjusting marketing policies to changes in the general economic, competitive and social climate.

**MKT 641. Seminar in International Marketing (3)**

*Prerequisite: MKT 640.* Case studies in global marketing. International market assessment, methods of market entry, international market segmentation and development, global sourcing and distribution policy; global pricing, product and communications policy. Analysis of published cases and development of an original research project.

**MKT 642. Seminar in Marketing Communications and Market Stimulation (3)**

*Prerequisite: MKT 640.* Methods of research and theory in market stimulation and mass communication. Particular emphasis on attitude change and the factors affecting the processing of information.

**MKT 643. Seminar in Product Development and Management (3)**

*Prerequisite: MKT 640.* Current research pertaining to generating, analyzing, planning and controlling the organization's existing and new product efforts. Portfolio analysis, planning and development systems, and positioning and deletion decisions.

**MKT 644. Seminar in Consumer Behavior (3)**

*Prerequisite: MKT 640.* Study of recent contributions from the be-

havioral sciences that provide insight into consumer motivation and consumption behavior. Emphasis is on psychological and sociological models and current research from the literature.

**MKT 645. Seminar in Promotional Planning (3)**

*Prerequisite: MKT 640.* Case studies in the executive determination of promotional strategy, program planning, coordination and administration; issues in the optimal allocation of promotional resources and measurement of effectiveness. Special problems of ethics and government regulation.

**MKT 646. Seminar in Pricing Strategy and Policy (3)**

*Prerequisite: MKT 640.* Analysis of the issues underlying price decisions: economic, political, social and competitive. Price/quality relationships. Price forecasting. New product pricing and related problems through the product life cycle. Product line pricing. Stochastic bidding models. Antitrust considerations.

**MKT 647. Marketing Research Seminar (3)**

*Prerequisites: MKT 640; SOM 591 or equivalent.* The application of marketing research techniques to business problems. Emphasis is on research design, questionnaire development, data collection techniques and univariate and multivariate statistics.

**MKT 648. Seminar in Analytic Models of Market Behavior (3)**

*Prerequisite: MKT 640.* Examination of quantitative and behavioral models and recent mathematical developments pertaining to brand switching, new product introduction, distribution and channel structure, media selection, advertising response models and simulation of marketing processes.

**MKT 649. Seminar in Marketing Strategy and Policy (3)**

*Prerequisite: MKT 640.* Integrative seminar dealing with marketing management policy problems via the case method. Emphasis on the adjustment of marketing policy to changes in the economic and social environment. Application of background and analytic tools obtained from specialized courses to solve marketing policy problems.

**MKT 651. Customer Satisfaction (1)**

*Prerequisite: GBUS 600.* Customer satisfaction is at the very core of the classic "marketing concept" and of more recent managerial approaches, such as total quality management. Course emphasis is on critically evaluating the conceptualization, measurement and delivery of customer satisfaction.

**MKT 652. Direct Marketing (1)**

*Prerequisite: GBUS 600.* Direct marketing is a direct response marketing communications strategy used by manufacturers, suppliers, retailers, service companies, nonprofit organizations and others. Examines major tools of direct marketing such as: catalog marketing; direct mail marketing; telemarketing; TV shopping networks; radio, magazine and newspaper direct response marketing; electronic and computer shopping; and kiosk shopping. Emphasis is on evaluating and managing the role of direct marketing in the integrated marketing communications strategy of the organization.

**MKT 653. Integrated Marketing Communications (1)**

*Prerequisite: GBUS 600.* Emphasizes an understanding and appreciation of the effects of fully integrating the promotion mix elements in a marketing communications program: advertising, direct response marketing, personal selling, public relations and sales promotion.

**MKT 654. Qualitative Research Methods in Marketing (1)**

*Prerequisite: GBUS 600.* Emphasizes an understanding and critical evaluation

of qualitative marketing research methods such as focus groups, projective and indirect questioning, interpretive research and other nonquantitative approaches to understanding consumer behavior, motivation and values.

### **MKT 699. Independent Study-Marketing (3)**

*Prerequisites: Permission of Graduate Advisor and Department Chair.* Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course. No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College without prior approval of the Dean.

### **SOM 591. Statistics and Stochastic Models for Managers (3)**

*Prerequisite: Permission of the Director of Graduate Programs.* Statistical methods and stochastic models to support decision making by managers. Topics include: exploratory data analysis, probability distributions and assessment, expected value, variation, estimation of means and proportions, hypothesis testing for one and several populations, F test, chi square test, simple and multiple regression and correlation, time series and forecasting, decision trees, waiting lines and simulation. Applications in service organizations and small businesses are provided along with applications for production organizations and large businesses. A key element is a group project involving the application of one or more course topics to a current business problem.

### **SOM 666. Project Planning and Policy (3)**

*Prerequisite: SOM 591 or MSE 404 or 602.* The application of project planning methodology and modeling to problems in business. Extensive use will be made of the case method. Topics include project planning, scheduling, PERT/CPM, budgeting, Activity-Based Costing (ABC) and project management software. International issues will be explored.

### **SOM 667. Total Quality Management (3)**

*Prerequisite: SOM 591 or MSE 404 or 602.* Covers the meaning and the application of Total Quality Management (TQM) in production and service organizations. The underlying quality philosophies of Deming, Taguchi and others that have inspired the development of TQM are also covered. Application of these philosophies to current quality issues, namely responsibility for quality, role of inspection, supplier certification programs, ISO 9000, the Baldrige Award, just-in-time programs and ethical issues. Use of quality improvement tools such as control charts, Pareto charts, cause and effect diagrams, process capability and design of experiments. International differences in quality. Actual business examples are introduced throughout the course.

### **SOM 685. Decision Support and Applied Expert Systems (3)**

*Prerequisite: SOM 591 or MSE 404 or 602.* Survey of applications, scope and recent development of Decision Support Systems (DSS) and related management support systems (Executive Information Systems and Expert Systems). Conceptual framework, design process and managing the initiation, evolution and implementation of management support systems. User involvement, evaluation and organizational integration. Decision-oriented DSS with knowledge base enhancement addressing real-world application will be required as a class project.

### **SOM 686. Seminar in Internationally Competitive Operations Management (3)**

*Prerequisites: SOM 591, or both 306 and 307.* Subjects include: productivity and global competitiveness of modern enterprises, diagnostic studies of production strategies and managerial implications of advanced operations technologies of world-class organizations (Flexible Manufacturing Systems, Computer Integrated Manufacturing, Statistical Process Control

and Total Quality Management). Also covered are in-depth case analyses of progressive U.S. and international firms addressing these issues. A team case project is a key course requirement.

### **SOM 699. Independent Study Systems and Operations Management (3)**

*Prerequisites: Permission of Graduate Advisor and Department Chair.* No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business without prior approval of the Dean. Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course. Note: See Graduate Business Interdepartmental Courses for GBUS 696D, 697D and 698D.

#### Degree Program

##### Master of Science in Accountancy

#### Mission Statement

The Master of Science in Accountancy (MSA) is a one-year program designed to prepare students for successful careers in the field of accounting. Our students complete a rigorous program that develops their technical knowledge, ethical decision making ability, communication competence and research and critical-thinking skills. Students specialize in either Professional Accountancy or Information Systems.

#### Academic Advisement

Advisement materials are available from our website ([www.csun.edu/msacct](http://www.csun.edu/msacct)) and the Department of Accounting and Information Systems office in JH 3123, (818) 677-2461.

#### Careers

The field of accounting is dynamic and constantly evolving to meet the needs of a global marketplace. Career opportunities in auditing, advisory services and financial reporting exist in public accounting, private industry, government, not-for-profit institutions and other business-related organizations. In 2012, corporate accountants, with one to three years of work experience, earned \$38,000–\$57,250 annually; accountants in public practice, with the same experience, earned considerably more (\$49,000–\$69,250). Factors such as a graduate degree in accountancy or a CPA license can boost salaries another 5 to 10 percent. According to the U.S. Bureau of Labor Statistics, “employment of accountants and auditors is expected to grow by 22 percent between 2008 and 2018, which is much faster than the average for all occupations.”

#### Program Candidates

1. Students currently enrolled in the CSUN undergraduate B.S. in Accountancy program who need to comply with the 150-semester unit requirement for CPA licensure.
2. Students who already have an accounting degree from another university but have not yet taken the CPA exam and need to comply with the 150-semester unit requirement.
3. Other students who have already completed a degree in accounting and wish to earn a master's degree in accountancy and who wish to either work in industry or eventually enroll in a Ph.D. program.

#### Student Learning Outcomes of the Graduate Program

Our graduates will:

- Apply discipline-specific knowledge and skills in the field of accounting. (This learning outcome includes a working knowledge of accounting for external financial reporting, managerial applications, attest and

assurance, as well as an understanding of the strategic role of accounting and financial information systems in business and society.)

- Recognize and analyze ethical issues in accounting and business; select and defend a course of action.
- Effectively communicate complex accounting and business concepts both orally and in writing.
- Apply critical-thinking skills when analyzing and solving structured as well as unstructured problems.
- Understand international accounting standards.
- Research professional/academic literature and databases to analyze complex accounting issues and prepare for life-long learning in the field.

#### Admission Criteria

For admission, applicants must meet the requirements of the University as listed in the Graduate Studies, Research and International Programs sections of the Catalog. In addition, applicants must meet the following criteria:

##### 1. For CSUN B.S. in Accountancy students/graduates

- Overall GPA of 3.0 or higher
- Accounting GPA of 3.0 or higher
- GPA of 3.0 or higher in the last 60 units

##### 2. For students / graduates from other programs/institutions

- A bachelor's degree from an accredited college or university
- Be in good academic standing with last college or university attended
- Overall GPA of 3.0 or higher
- Accounting GPA of 3.0 or higher
- GPA of 3.0 or higher in the last 60 units
- GMAT (or GRE) required. (The overall GMAT (or GRE) score must be in 50th percentile or higher.)
- For applicants who earned a bachelor's degree at a school where English was not the principal language of instruction, the minimum TOEFL (Test of English as a Foreign Language) score of 79 (Internet-based)/213 (computer-based)/550 (paper-based) is required.

#### Prerequisites

1. Accounting Prerequisites (15 units: Five courses. The GPA from these courses should be at least 3.0)
  - a. 6 units of Intermediate Accounting (ACCT 351 and 352 or equivalents)
  - b. Cost Accounting (ACCT 380 or equivalent)
  - c. Auditing Principles (ACCT 460 or equivalent)
  - d. Taxation (ACCT 440 or equivalent)
2. Business Prerequisites (24 units: 12 units from the following 4 courses plus 12 units from other business areas: GPA from these Business Prerequisites should be at least 3.0)
  - a. Information Systems for Business (IS 312 or equivalents)
  - b. Business Law (BLAW 280 or equivalent)
  - c. Financial Management (FIN 303 or equivalent)
  - d. Business Statistics (SOM 120 or equivalent)

#### Requirements for the Degree

To earn the M.S. in Accountancy, candidates must complete the 30 units of course work as described below with a 3.0 or higher GPA. The maximum time allowable to complete the degree is five calendar years from the date of admission.

#### Core (Required) Courses (18 units)

These 6 courses provide the students with an in-depth knowledge in key areas in the field of accountancy. Each course integrates into its curriculum and pedagogy written communication skills, research skills and critical-thinking skills. Some courses also integrate analytical review, oral communication skills, as well as ethics and professional responsibility.

**Students must take all of the following 6 courses:**

1. ACCT 611 Ethics and Communications for Accounting Professionals (3)
2. ACCT 615 Contemporary Issues in Accounting (3)
3. ACCT 624 Advanced Auditing Seminar (3)
4. ACCT 626 Managerial Cost Accounting Seminar (3)
5. ACCT 628 Financial Statement Analysis and Valuation (3)
6. IS 630 Accounting Information Systems (3)

**Fields of Specialization: Elective Courses (9 units)**

Students may choose either of the two concentrations (Professional Accountancy or Information Systems). Students who concentrate on Professional Accountancy must complete at least 9 units from the following courses.

**Professional Accountancy (Minimum 9 units)**

1. ACCT 620 Seminar in Federal and State Taxation (3)
2. ACCT 632 Accounting Issues in Select Industries (3)
3. ACCT 634 Forensic Accounting (3)
4. ACCT 636 Accounting for Governmental and Non-Profit Entities (3)
5. ACCT 692 Selected Topics in Accounting (3)
6. ACCT 542 Introduction to Federal Tax Procedure (3)

Students who concentrate on Information Systems must complete at least 9 units from the following courses.

**Information Systems (Minimum 9 units)**

1. IS 655 IS Theory And Practices (3)
2. IS 656 IS Auditing (3)
3. IS 657 IS Governance and Risk Management (3)

**Culminating Experience (3 units)**

As part of their culminating experience, students have the option of participating in either a Graduate Thesis or a Graduate Project.

- ACCT 698C Graduate Thesis (3)  
ACCT 698D Graduate Project (3)

|                    |           |
|--------------------|-----------|
| <b>Total units</b> | <b>30</b> |
|--------------------|-----------|

**Course List****ACCT 542. Introduction to Federal Tax Procedure (3)**

*Prerequisite:* ACCT 440. This course provides students with an introduction to the procedural aspects of dealing with the Internal Revenue Service. The course will introduce the students to, among other things, the organization of the IRS, investigative authority of the IRS, tax audits, administrative penalties, administrative appeals, tax collection, federal tax crimes, refund claims, examination of returns, ethics in the practice of tax, tax practitioner privileges and statute of limitation and assessments. This course provides the students with the opportunity to apply the materials learned in the course through clinical exercises in the community.

**ACCT 611. Ethics and Communications for Accounting Professionals (3)**

*Prerequisite:* ENGL 205 or equivalent. Explores ethics in the accounting profession. Emphasizes theories of ethics and their applications; the California State Board of Accountancy's rules of ethics; the AICPA's Code of Professional Conduct; implications of the Sarbanes-Oxley Act; and ethical conditions required by the Securities and Exchange Commission. Through a series of cases, students develop their oral and written communication skills. Focus is on developing a functional approach to professional communication. Presents strategies for researching, organizing, analyzing and presenting information in an accounting context.

**ACCT 615. Contemporary Issues in Accounting (3)**

*Prerequisite:* ACCT 352 and 460 or equivalents. Examines contemporary issues confronting accountants, businesses and their stakeholders. Topics such as accounting theory, basic research methodology in accounting, issues in SEC reporting, segment reporting and issues in international accounting will be examined. Students are expected to achieve a thorough understanding of selected contemporary issues in accounting and will develop an ability to critically analyze these issues. Students are expected to be familiar with the concepts of theory development, theories of accounting policy choice, the measurement of income and the societal use of accounting information.

**ACCT 624. Advanced Auditing and Assurance Services (3)**

*Prerequisites:* ACCT 352 and 460 or equivalents. Auditing theory and practices; auditing standards; SEC (Securities and Exchange Commission) and stock exchange regulations; auditor's legal liability; statement trends and techniques. Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information.

**ACCT 626. Managerial Cost Accounting Seminar (3)**

*Prerequisite:* ACCT 380 or equivalent. Focuses on how cost-management information helps managers make tactical and strategic decisions for profit planning and control. Emphasizes the topics of cost and management accounting that help firms compete more effectively.

**ACCT 628. Financial Statement Analysis and Valuation (3)**

*Prerequisite:* ACCT 352 and 460 or equivalents. Explores comprehensive financial statement analysis and the valuation framework that integrates strategy, financial reporting and financial analysis/valuation. This framework and tools are then used to do fundamental financial statement analysis. Topics include models of shareholder value, comparison of accounting and cash flow approaches to valuation and the analysis of profitability, growth and value generation in firms.

**ACCT 632. Accounting Issues in Select Industries (3)**

*Prerequisite:* ACCT 611, 615; IS 630. Examines financial accounting and reporting issues in select industries. The specific topics covered will depend on the industries selected for a particular semester. Regardless of specific industry, the course will contain a section addressing ethical issues in accounting for the industry.

**ACCT 634. Forensic Accounting (3)**

*Prerequisite:* ACCT 611, 615; IS 630. Explores the conduct of fraud examinations, including a discussion of specific procedures used in forensic accounting examinations and the reasoning behind these procedures. Topics include an overview of fraud and abuse, forensic evidence, substantive procedures for cash outflow irregularities, substantive procedures for other assets irregularities, financial statement fraud, fraud examination reporting and the role of the accountant in litigation.

**ACCT 636. Accounting for Governmental and Non-Profit Entities (3)**

*Prerequisite:* ACCT 611, 615; IS 630. Provides comprehensive coverage of budgeting, accounting and financial reporting for governmental and not-for-profit entities. Covers the specialized accounting, reporting and auditing requirements applicable to governmental and not-for-profit organizations, performance evaluation and related ethical issues. Topics include governmental accounting, fund allocation, government-wide reporting, governmental performance measures and not-for-profit accounting.

**ACCT 692A-Z. Selected Topics in Accounting (3)**

*Prerequisite:* ACCT 611, 615; IS 630. The exploration of new/current topics being debated by the accounting profession or the study of accountancy through alternative means (e.g., systems theory, language and communication or literature/film). Selected topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**ACCT 698C. Graduate Thesis (3)**

*Prerequisites:* ACCT 611, 615; IS 630; *Approval of Department Chair or designee.* A culminating experience course in the M.S. in Accountancy program. Preparing and writing a Master's thesis under supervision of a faculty thesis advisor.

**ACCT 698D. Graduate Project (3)**

*Prerequisites:* ACCT 611, 615; IS 630; *Approval of Department Chair or designee.* A culminating experience course in the M.S. in Accountancy program. Planning and performing a graduate-level project under supervision of a faculty advisor.

**IS 630. Accounting Information Systems (3)**

*Prerequisite:* IS 312; ACCT 352, 460 or equivalents. Provides an understanding of requirements, design and control of major business processes/accounting cycles integrated in an enterprise system. Topics include Systems Analysis and Design methodologies and techniques for Accounting Information System development, issues in control and audit of systems fraud and abuse, and controls for systems reliability.

**IS 655. Information Systems Theory and Practice (3)**

*Prerequisite:* IS 628 or 630. Comprehensive coverage of current trends and management issues associated with information systems (IS) to deliver business value within organizations at local, national and global levels. Topics include issues in information systems planning, administration, resource management and new information technology (IT) adoption to achieve the alignment between IT/IS and corporate functions.

**IS 656. Information Systems Audit and Control (3)**

*Prerequisite:* IS 628 or 630. Examines concepts, standards and frameworks associated with IS auditing. Topics include the post-Sarbanes Oxley IS audit environment, assessment of risks and controls, computer fraud, legal and ethical issues, and audit of the systems development process. Students work through audit simulations to develop IS audit expertise.

**IS 657. IS Governance and Risk Management (3)**

*Prerequisite:* IS 628 or 630. Provides an overview of information systems (IS) governance and information risk management. The course stresses the importance of the alignment of IS governance to business objectives and the role of IS in achievement of organizational strategy. Topics discussed include contemporary compliance initiatives; strategic IS decision making; IS performance assessment, control structure and accountability; IS project management; IS policy definition and enforcement; risk analysis and mitigation; and IS security management (i.e., security planning, policy and controls). Established frameworks and standards for IS governance and control are discussed.

**IS 692 A-Z. Selected Topics in Information Systems (3)**

*Prerequisites:* IS 628 or 630. The exploration of a topic currently being debated by the information systems profession or the study of information systems through alternative means (e.g., cognitive science, language and communication, literature/film). Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

## Graduate Programs

### Master of Science in Taxation

**Director: Rafi Efrat**

**Juniper Hall (JH) 1111**

**(818) 677-3952**

**<http://csunais.org/mainmenu/students/mst/>**

#### Staff

Armida Acosta (Program Coordinator)

#### Graduate Faculty

John Balian, James Chapman, Rafi Efrat, Sharyn M. Fisk, George S. Gans, Robert Johnson, Moshe Kushman, John Lilly, Rob Razani, Todd Reinstein, Jacob Stein, Frederick E. Wooldridge

#### Degree Program

**Master of Science in Taxation**

#### Mission Statement

The M.S. in Taxation prepares students to pursue careers in the field of taxation. Our students complete a rigorous program in taxation that develops their written communication, as well as tax research and critical-thinking skills.

#### The Major

The M.S. in Taxation program is a demanding, competitive and rigorous course of study that develops an understanding of the tax practice. It focuses on building research, communication, compliance and critical-thinking skills that are vital to becoming a successful tax practitioner in public, private, government and not-for-profit organizations.

#### Student Learning Outcomes of the Graduate Program:

1. Our graduates are able to apply their conceptual understanding of tax to both structured and unstructured problems.
2. Our graduates are able to effectively communicate their analysis of complex taxation problems in writing.
3. Our graduates are able to research tax literature for both structured and unstructured problems.
4. Our graduates are able to apply critical-thinking skills when analyzing and solving tax problems.
5. Our graduates are able to recognize and analyze ethical and professional responsibility issues in the tax practice.
6. Our graduates are able to conduct analytical review of tax returns.

#### Careers

The field of taxation offers stimulating and challenging work that is constantly evolving. Career opportunities exist in public accounting, private industry, government, not-for-profit institutions and other business-related organizations. In 2012, the annual earnings of tax accountants in public accounting with one to three years of work experience have ranged from \$47,750 to \$75,250. Practitioners with a graduate degree in taxation can expect to earn between 5 to 10 percent more.

#### Academic Advisement

Advisement materials are available from our website and the program Advisement Office in JH 1111, (818) 677-3952.

#### Program Eligibility and Requirements for the Master of Science Degree in Taxation

To earn the M.S. in Taxation, students must be classified as graduate students. Classified graduate students are those who have met all

criteria for classification in the program. The criteria for Classification is listed below:

Students must fulfill one or more of the following criteria:

- An undergraduate degree from an accredited institution with a GPA of 3.0 or higher.
- A graduate degree from an accredited institution.
- Appropriate scores on GRE, GMAT, MAT or other acceptable examinations as required by the department.
- The student obtains a "B" or higher in the first three courses in the M.S. in Taxation program; and obtains at the time of admission to the program either: (a) a professional credential of CPA or Enrolled Agent; or (b) have at least five years of experience performing progressively more complex and sophisticated tasks in the field of taxation in a public accounting, government or private industry setting.
- In addition, a passing score on the Upper Division Writing Proficiency Examination is required for classification.

Finally, candidates must complete the 30 units of course work as described below with a 3.0 or higher GPA. Candidates who fail to attain a 3.0 or higher average in the first 15 units attempted will be disqualified from the program. The maximum time allowable to complete the degree is five calendar years from the date of admission.

#### 1. Core Skills (3 units)

ACCT 610 Tax Research and Communication (3)

#### 2. Core Knowledge (24 units)

These eight courses provide the students with an in-depth knowledge in key areas in the field of taxation. Each course integrates into its curriculum and pedagogy written-communication skills, tax-research skills and critical-thinking skills. Some courses also integrate compilation and analytical review, oral communication skills, as well as ethics and professional responsibility.

#### Foundational Knowledge (15 units)

Students must take all of the following 5 courses:

|          |   |
|----------|---|
| ACCT 620 | Income Tax Concepts and Their Business Applications (3) |
| ACCT 629 | Income Taxation of Corporations and Shareholders I (3)  |
| ACCT 633 | Income Taxation of Partnerships (3)                     |
| ACCT 645 | Federal Tax Procedure (3)                               |
| ACCT 640 | Accounting Methods and Periods (3)                      |

#### Fields of Specializations (9 units)

Students must take a cluster of three specialized topic courses. Clusters may vary from cohort to cohort. Specialized topic courses include the following:

|          |  |
|----------|--|
| ACCT 631 | Income Taxes of Corporations and Shareholders II (3) |
| ACCT 635 | Income Taxation of Estates and Trusts (3)            |
| ACCT 637 | Taxation of Foreign Transactions and Taxpayers (3)   |
| ACCT 661 | State and Local Taxes (3)                            |
| ACCT 668 | Selected Topics in Taxation (3)                      |

#### 3. Tax Planning Focus (2 units)

ACCT 650 Contemporary Tax Planning Issues Seminar (2)

#### 4. Culminating Experience (1 Unit)

As part of their culminating experience, students have the option of participating in either a Tax Challenge Project or a Federal Tax Clinic.

|              |                           |
|--------------|---------------------------|
| ACCT 698A    | Tax Challenge Project (1) |
| or ACCT 698B | Tax Clinic (1)            |

|  |           |
|--|-----------|
| <b>Total Units Required for the Degree</b> | <b>30</b> |
|--|-----------|

## Course List

---

**ACCT 610. Tax Research and Communication (3)**

Students will develop critical skills in researching and critically interpreting tax authority. They also will acquire and develop the specialized oral and written communication skills needed to interact internally and externally with clients and government agencies. This course also will introduce students to the professional responsibilities and ethical dilemmas that face tax practitioners in today's challenging and increasingly complex professional environment.

**ACCT 620. Income Tax Concepts and their Business Applications (3)**

This course covers basic tax law concepts that affect business and investment management situations. Topics include tax alternatives in business organizations, tax policy management and compliance with government directives.

**ACCT 629. Income Taxation of Corporations and Shareholders I (3)**

Income tax principles relating to organization, capital structure and operations of a corporation are examined, as well as the tax effects of corporate distributions, stock redemptions and liquidations on shareholders.

**ACCT 631. Income Taxation of Corporations and Shareholders II (3)**

This continuation course examines tax principles involved in the division, reorganization, combination and affiliation of corporations, as well as the tax effects of these actions on shareholders.

**ACCT 633. Income Taxation of Partnerships (3)**

Students learn about the tax principles that apply to the formation, operation and liquidation of partnerships, including the effects of the transfer of partnership interests and transactions between the partnership and its partners.

**ACCT 635. Income Taxation of Estates and Trusts (3)**

This course focuses on the income tax principles involved in the operation of estates and trusts, including special types of trusts such as grantor and employee trusts. The taxation of grantors, descendants and beneficiaries also is explored.

**ACCT 637. Taxation of Foreign Transactions and Taxpayers (3)**

This course provides students with an understanding of taxation of foreign income of U.S. citizens and corporations, taxation of foreign persons and corporations on their income from U.S. sources and tax considerations in organizing foreign business operations.

**ACCT 640. Accounting Methods and Periods (3)**

This course covers comparative principles of tax and financial accounting as they relate to individuals, corporations, partnerships, estates and trusts. The allocation of income tax expense for financial statement purposes is also examined.

**ACCT 645. Federal Tax Procedure (3)**

Administrative procedures for settling tax controversies, rules governing tax collection and criminal prosecution, and the rights of taxpayers are among the topics explored in this course.

**ACCT 650. Contemporary Tax Planning Issues Seminar (2)**

Students participate in a seminar focusing on contemporary tax planning issues affecting local industries.

**ACCT 661. State and Local Taxes (3)**

Students gain an understanding of the structure of state and local taxes; the principles governing income, sales, property and other taxes levied by state and local governments; and the interrelationship of state, local and federal taxes.

**ACCT 668. Selected Topics in Taxation (3)**

*Prerequisites:* ACCT 610, 620. This course provides students with an opportunity to learn about specialized and emerging topics in the field of taxation.

**ACCT 698A. Tax Clinic (1)**

The tax clinic requires the student to assist a small business that is facing an audit by a federal or state tax agency through researching and writing a proposal for handling the situation successfully.

**ACCT 698B. Tax Challenge Project (1)**

This project requires the student to conduct in-depth tax research relating to a complex, hypothetical tax problem, then draft and present a report in which the issues are analyzed and a sound course of remedial action is proposed.

### Degree Programs

#### B.S., Accountancy

Option in Information Systems

Option in Professional Accountancy

#### M.S., Accountancy (MSA)

#### M.S., Taxation (MST)

See *College of Business and Economics Graduate Programs section for MSA and MST requirements.*

### Mission

The B.S. in Accountancy degree provides educational opportunities to those students who have demonstrated an aptitude to pursue a career in accounting. Our students complete a rigorous program that develops their technical proficiency and ethical decision making as well as skills in critical thinking, teamwork and communication.

### The Major

The Accountancy program is a very demanding, competitive and rigorous course of study that develops skills in critical thinking, problem solving, written and oral communication, and decision making, in addition to developing the necessary tools to engage in lifelong learning after graduation. The program also develops an understanding of accounting theory, technical procedures and the professional standards and ethics essential to becoming a successful professional in public, industry, government and not-for-profit accounting.

To successfully major in accountancy, students are expected to possess a high level of maturity, motivation and self-discipline. Students are admitted to the accountancy program based on their level of preparation and performance. To enter the accountancy program, students are admitted to the University as Pre-Accountancy majors or, if already attending CSUN, students must file for a change of major to Pre-Accountancy. Successful completion of the Pre-Accountancy major is required to become an Accountancy major. Students must obtain a grade of "C" or higher in each required Upper Division course in order to graduate.

### Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

### Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division Core courses and 19 units of common Upper Division Core courses.

### Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

### Special Grade Requirements

Transfer students should be aware that no grade lower than a "C" will be accepted on transfer from another institution to satisfy College of Business and Economics requirements.

### Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

### Student Learning Outcomes of the Undergraduate Program

At the end of their program of study, students will:

1. Have a conceptual understanding of accounting for external financial reporting, managerial applications, tax planning and preparation, and the attest function;
2. Apply their conceptual understanding to both structured and unstructured problems;
3. Research accounting literature for both structured and unstructured problems in external financial reporting, tax and auditing;
4. Have the necessary knowledge and skills required to sit for a certifying examination;
5. Recognize and analyze ethical problems in practical accounting situations, select and defend a course of action;
6. Effectively communicate complex accounting concepts both orally and in writing; and
7. Apply critical-thinking skills when analyzing and solving problems.

### Careers

The field of accounting offers stimulating and challenging work that is constantly evolving. Career opportunities exist in public accounting, industry, government, not-for-profit institutions and other business-related organizations. Examples of positions and areas of accounting available to graduates of the accountancy program are: CPA, forensic accountant, FBI agent, budget analyst, Treasury agent, cost analyst, certified financial manager, government accountant, enrolled agent, estate planner, budget officer, financial analyst, financial planner, Franchise Tax Board agent, credit manager, certified government financial manager, government auditor, bank examiner, IRS examiner, investment analyst, litigation support, loan officer, general accountant, systems consultant, credit analyst, tax accountant, treasurer and auditor.

### Special Enrollment Requirements for ACCT 350

A pre-determined number of students are approved each semester to enroll in ACCT 350 through a competitive application process based on the number of available openings in the accountancy program. The application and instructions are available at [www.csun.edu/acctis](http://www.csun.edu/acctis). To obtain approval from the Admissions Committee to enroll in ACCT 350, students must first satisfy the following requirements:

1. Completion of ENGL 205 and ACCT 220 with a grade of "B" or higher in each.
2. Completion of ACCT 230, BLAW 280, COMP 100, and ECON 160 and 161 with a grade of "C" or higher in each.
3. A total GPA and CSUN GPA of 3.0 or higher (first semester transfer students will not have a CSUN GPA).
4. Classified as a Pre-Accountancy major.
5. Completion of a minimum of 60 units of college work (junior class standing). For transfer students, the units must be CSU transferable.

### Admission to the Accountancy Major

Upon successful completion of ACCT 350, students may apply for admission to the Accountancy major. At the time of application, students must have successfully completed the Pre-Accountancy portion of the major with a grade of "C" or higher in each class and maintained both a total and CSUN GPA of 3.0 or higher. The program application and instructions are available at [www.csun.edu/acctis](http://www.csun.edu/acctis).

### Requirements for the B.S. in Accountancy

#### 1. Common Lower Division Business Core

##### Pre-Accountancy Major (27 units)

|      |             |   |
|------|-------------|---|
| ACCT | 220         | Introduction to Financial Accounting (3)              |

| <b>Total Units Required for the Degree</b>        | <b>120</b> |

## Course List

### ACCT 220. Introduction to Financial Accounting (3)

*Prerequisites:* A grade of "C" or higher in MATH 103 or higher-level mathematics course; sophomore class standing. Introduces the role of accounting in business and society, a summary of the accounting process, accounting measurement issues, analyzing and recording financial transactions, accounting valuation and allocation issues, conceptual foundation for understanding financial reporting, the usefulness of financial statements for decision making and financial statement analysis and interpretation.

### ACCT 230. Introduction to Managerial Accounting (3)

*Prerequisite:* ACCT 220. Introduces the analysis and techniques for aiding management in planning and controlling decisions, and the use of accounting data for budgeting, cost control, pricing, evaluation of performance and general decision making.

### ACCT 292CS. VITA Service Learning Preparer (2)

*Prerequisites:* Sophomore and good academic standing. Training in federal and state income tax preparation and preparing tax returns for the Volunteer Income Tax Assistance Program at a supervised site.

### ACCT 350. Intermediate Financial Accounting I (3)

*Prerequisites:* Grades of "B" or higher in ACCT 220 and ENGL 205, as well as a "C" or higher in all the other courses in the Pre-Accountancy major. *Corequisite:* BUS 302/L must be completed with a "C" or higher prior to enrolling in ACCT 351 and ACCT 351COM. The first course in the financial accounting sequence. Covers the theory of financial accounting as well as the accounting process, with an emphasis on the accounting system and related technical skills.

### ACCT 351. Intermediate Financial Accounting II (3)

*Prerequisites:* Grades of "C" or higher in both ACCT 350 and BUS 302/L. *Corequisite:* Concurrent enrollment in ACCT 351COM. The second course in the financial accounting sequence. Covers the theory of financial accounting as well as the accounting process, with an emphasis on revenue recognition, asset valuation, cash implications of complex transactions and accounting for liabilities and investments.

### ACCT 351COM. Communications for Accountants (2)

*Prerequisites:* Grades of "C" or higher in both ACCT 350 and BUS 302/L. *Corequisite:* Concurrent enrollment in ACCT 351. Presentation of concepts and techniques for developing a business style of writing and creating documents such as memoranda, letters and reports. Overview of methods for researching, organizing, analyzing and presenting information in an accounting context. Emphasis on written and oral assignments that develop communication skills for the accounting profession. Course is based on Standard English usage.

### ACCT 352. Intermediate Financial Accounting III (3)

*Prerequisites:* Grades of "C" or higher in ACCT 351 and 351COM. Third course in the financial accounting sequence. Covers the theory of financial accounting as well as the accounting process, with an emphasis on stockholders' equity, pensions, leases, changes in accounting principles and in-depth examination of financial statements.

### ACCT 380. Cost Measurement and Analysis (3)

*Prerequisites:* Grades of "C" or higher in both ACCT 350 and BUS 302/L. *May be taken concurrently with ACCT 351 and 351COM.* Focuses on how to measure and analyze costs for management decision making. Covers how the environment and strategy of a company influences the design of its cost-measurement system and how the resulting cost information may or may not be useful for managerial decisions and for cost management.

### ACCT 392CS. VITA Service Learning Supervisor (3)

*Prerequisites:* ACCT 292CS or 440 or work experience in an accounting firm. Good academic standing. Supervision of a VITA site, including workflow and quality control.

### Special Prerequisites for 400 Level Courses

*Note that successful completion of BUS 302/L and the Upper Division Writing Proficiency Exam (UDWPE) with a score of 8 or higher are prerequisites to all 400-level courses in the College of Business and Economics.*

### ACCT 425. Senior Seminar in Accounting (3)

*Prerequisites:* Grades of "C" or higher in ACCT 352; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Analysis of complex national and international accounting and/or auditing principles. Study of the development and effects of pronouncements of the Financial Accounting Standards Board, the American Institute of Certified Public Accountants and/or the Securities and Exchange Commission. Application of generally accepted accounting principles or auditing standards in complex situations, including basic concepts underlying financial statements of business enterprises. Conducted on a seminar basis requiring extensive student participation.

### ACCT 440. Taxation of Business Entities and Individuals (3)

*Prerequisites:* Grades of "C" or higher in ACCT 351 and 351COM; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Fundamentals of federal income taxation of business entities and individuals; topical coverage includes tax research, gross income, deductions and losses, property transactions, corporations, partnerships, S corporations and individuals.

### ACCT 441. Advanced Studies in Taxation (3)

*Prerequisites:* Grades of "C" or higher in ACCT 352 and 440; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Examination of additional, more complex topics in the areas of sole proprietorships, corporations, partnerships and limited liability entities; accounting periods and methods; ethics, tax research and tax planning to be integrated throughout the course.

### ACCT 442. Advanced Studies in Special Topics (3)

*Prerequisites:* Grades of "C" or higher in ACCT 352 and 440; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Examination of federal tax procedures, income taxation of fiduciaries, estates and trust, estate and gift taxation, ERISA, pensions, deferred compensation and ethical issues related thereto.

### ACCT 450. Advanced Financial Accounting (3)

*Prerequisites:* Grades of "C" or higher in ACCT 352; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Accounting applications for specialized areas: partnerships, business combinations, consolidated financial statements, foreign currency transactions and translation, governmental and not-for-profit organizations.

### ACCT 460. Auditing Principles (3)

*Prerequisites:* Grades of "C" or higher in ACCT 351, 351COM and 352; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. (ACCT 352 may be taken concurrently). Emphasizes the auditor's decision making process. Focuses on audits of domestic and multinational corporations for financial reporting purposes. Topics include attestation theory, theory of evidence, auditing standards, auditing reports, ethics, control structure and environment, risk assessment, sampling, analytical procedures, audit planning and documentation.

**ACCT 470. Strategic Cost and Profit Management (3)**

*Prerequisites:* ACCT 230, BUS 302/L; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Completion of all required 300-level business courses highly recommended.* Critical role of cost and management accounting data in executing corporate strategy and in managing the strategic variables such as cost, quality and time while remaining a good corporate citizen. How to analyze cost structure, select the right tools for cost, quality and time management, capture the essence of strategy into a profit plan and manage change by focusing on behavioral and cultural factors. The requirement of strategic profit management of an external value chain focus in which both the supply chain and the customer interfaces are managed.

**ACCT 492CS. VITA Service Learning Coordinator (3)**

*Prerequisites:* ACCT 392CS and good academic standing; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* Under the direction of the VITA program faculty sponsor, coordinates with IRS and FTB to establish training materials, evaluates training outcomes, maintains inventory of forms, establishes qualified sites and analyzes results by location, student and type of client served.

**ACCT 493CS. VITA Service Learning Administrator/Director (4)**

*Prerequisites:* ACCT 492CS; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* Under the supervision of the VITA program faculty sponsor, serves as a project manager for one of the major VITA functions. Responsible for documenting procedures, problem solving in area of control, analysis of area results and recommendations for system improvements.

**ACCT 495. The Strategic Role of Accounting (3)**

*Prerequisites:* Grades of "C" or higher in ACCT 352, 440 and 460; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* Seminar that integrates previously learned accounting and business concepts. Focuses on how organizational strategy in a changing global environment impacts the accounting function, including strategic issues relevant to analyzing, formulating and implementing organization-wide accounting policies and decisions. Emphasis on analysis, critical thinking and decision making in ambiguous situations characteristic of the practice of public accounting.

**ACCT 496A-Z. Experimental Topics Courses (3)**

*Prerequisites:* *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors.* Course content to be determined. See Schedule of Classes for current course offerings.

**ACCT 497A-Z. Special Topics in Accounting (3)**

*Prerequisites:* Grade of "C" or higher in ACCT 352. Innovative courses of study. Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**ACCT 498. Accounting-Field Assignments and Reports (1-6)**

Individual study pertaining to present or future career. Student must obtain approved employment. Consultation with employer and instructor determines program. A maximum of 12 units may be earned by combining Field Assignments and Reports (ACCT 498) and Independent Study (ACCT 499). Academic Internship course. (Credit/No Credit only)

**ACCT 499A-C. Independent Study Accounting (1-3)**

*Prerequisites:* *Consent of Department Chair and consent of an instructor to act as sponsor.* In order to do an Independent Study assignment in the College of Business and Economics, a student must have at least a 3.0 overall GPA and a 2.0 or higher GPA in all major courses. A student who does not meet these requirements will not receive credit for any ACCT 499. Admission is based on evidence of ability to pursue Independent Study in-depth and on approval of a project submitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. A maximum of 6 units of Independent Study (499) may be earned in the College of Business and Economics. A maximum of 12 units may be earned by combining Field Assignments and Reports (498) and Independent Study (499).

## Graduate

### ACCT 501. MBA Financial Accounting (3)

*Prerequisite:* Admission to a College of Business and Economics graduate program or consent of instructor. Study of financial reporting principles, structure of the balance sheet, income statement and statement of cash flows. Measurement principles for assets; liabilities and stockholders' equity; revenue and expenses. Covers management's responsibility for full and fair disclosure of financial information.

### ACCT 505. Financial and Managerial Accounting in Industry (3)

Study of financial practices relevant to particular industries. Includes general financial and managerial accounting processes, the recording and analysis of financial transactions and statements and the use of accounting data for planning and budgeting purposes. The course will include significant coverage of topics specific to the industry of emphasis. For example, for the Masters in Music Industry Studies, the course will include a survey of music industry income and royalty streams (performance, mechanical, synchronization, copyright), licensor/licensee accounting, inventory and tax issues. If no particular industry focus is needed, the course will include a survey of industries with unusual, specialized or atypical accounting practices.

### ACCT 542. Introduction to Federal Tax Procedure (3)

*Prerequisite:* ACCT 440. This course provides students with an introduction to the procedural aspects of dealing with the Internal Revenue Service. The course will introduce the students to, among other things, the organization of the IRS, investigative authority of the IRS, tax audits, administrative penalties, administrative appeals, tax collection, federal tax crimes, refund claims, examination of returns, ethics in the practice of tax, tax practitioner privileges and statute of limitation and assessments. This course provides the students with the opportunity to apply the materials learned in the course through clinical exercises in the community.

### ACCT 610. Tax Research and Communication (3)

Students will develop critical skills in researching and critically interpreting tax authority. They will also acquire and develop the specialized oral and written communication skills needed to interact internally and externally with clients and government agencies. This course also will introduce students to the professional responsibilities and ethical dilemmas that face tax practitioners in today's challenging and increasingly complex professional environment.

### ACCT 611. Ethics and Communications for Accounting Professionals (3)

*Prerequisite:* ENGL 205 *Bor equivalent.* Explores ethics in the accounting profession. Emphasizes theories of ethics and their applications; the California State Board of Accountancy's rules of ethics; the AICPA's Code of Professional Conduct; implications of the Sarbanes-Oxley Act; and ethical conditions required by the Securities and Exchange Commission. Through a series of cases, students develop their oral- and written-communication skills. Focus is on developing a functional approach to professional communication. Presents strategies for researching, organizing, analyzing and presenting information in an accounting context.

### ACCT 615. Contemporary Issues in Accounting (3)

*Prerequisites:* ACCT 352 and 460 or equivalents. Examines contemporary issues confronting accountants, businesses and their stakeholders. Such topics as accounting theory, basic research methodology in accounting, issues in SEC reporting, segment reporting and issues in international accounting will be examined. Students are expected to achieve a thorough understanding of selected contemporary issues in accounting and will develop an ability to critically analyze these issues. Students are expected to be familiar with the concepts of theory development,

theories of accounting policy choice, the measurement of income and the societal use of accounting information.

### ACCT 620. Income Tax Concepts and their Business Applications (3)

This course covers basic tax law concepts that affect business and investment management situations. Topics include tax alternatives in business organizations, tax policy management, and compliance with government directives.

### ACCT 623. International Accounting (3)

*Prerequisite:* ACCT 352 or instructor consent. Examination of the environmental factors affecting accounting concepts and standards. Differences in the cultural, social, political, legal and economic conditions as they affect accounting concepts and standards.

### ACCT 624. Advanced Auditing and Assurance Services (3)

*Prerequisites:* Prerequisites: ACCT 352 and 460 or equivalents. Auditing theory and practices; auditing standards; SEC (Securities and Exchange Commission) and stock exchange regulations; auditor's legal liability; statement trends and techniques. Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information.

### ACCT 626. Managerial Cost Accounting Seminar (3)

*Prerequisite:* ACCT 380 or equivalent. Focuses on how cost-management information helps managers make tactical and strategic decisions for profit planning and control. Emphasizes the topics of cost and management accounting that help firms compete more effectively.

### ACCT 628. Financial Statement Analysis and Valuation (3)

*Prerequisites:* ACCT 352 and 460 or equivalents. Explores comprehensive financial statement analysis and the valuation framework that integrates strategy, financial reporting and financial analysis/valuation. This framework and tools are then used to do fundamental financial statement analysis. Topics include models of shareholder value, comparison of accounting and cash flow approaches to valuation and the analysis of profitability, growth and value generation in firms.

### ACCT 629. Income Taxation of Corporations and Shareholders I (3)

Income tax principles relating to organization, capital structure and operations of a corporation are examined, as well as the tax effects of corporate distributions, stock redemptions and liquidations on shareholders.

### ACCT 631. Income Taxation of Corporations and Shareholders II (3)

This continuation course examines tax principles involved in the division, reorganization, combination and affiliation of corporations, as well as the tax effects of these actions on shareholders.

### ACCT 632. Accounting Issues in Select Industries (3)

*Prerequisites:* ACCT 611, 615; IS 630. Examines financial accounting and reporting issues in select industries. The specific topics covered will depend on the industries selected for a particular semester. Regardless of specific industry, the course will contain a section addressing ethical issues in accounting for the industry.

### ACCT 633. Income Taxation of Partnerships (3)

Students learn about the tax principles that apply to the formation, operation and liquidation of partnerships, including the effects of the transfer of partnership interests and transactions between the partnership and its partners.

### ACCT 634. Forensic Accounting (3)

*Prerequisites:* ACCT 611, 615; IS 630. Explores the conduct of fraud examinations, including a discussion of specific procedures used in foren-

sic accounting examinations and the reasoning behind these procedures. Topics include an overview of fraud and abuse, forensic evidence, substantive procedures for cash outflow irregularities, substantive procedures for other assets irregularities, financial statement fraud, fraud examination reporting and the role of the accountant in litigation.

**ACCT 635. Income Taxation of Estates and Trusts (3)**

This course focuses on the income tax principles involved in the operation of estates and trusts, including special types of trusts such as grantor and employee trusts. The taxation of grantors, descendants and beneficiaries is also explored.

**ACCT 636. Accounting for Governmental and Non-Profit Entities (3)**

*Prerequisites:* ACCT 611, 615; IS 630. Provides comprehensive coverage of the budgeting, accounting and financial reporting for governmental and not-for-profit entities. Covers the specialized accounting, reporting and auditing requirements applicable to governmental and not-for-profit organizations, performance evaluation and related ethical issues. Topics include governmental accounting, fund allocation, government-wide reporting, governmental performance measures and not-for-profit accounting.

**ACCT 637. Taxation of Foreign Transactions and Taxpayers (3)**

This course provides students with an understanding of taxation of foreign income of U.S. citizens and corporations, taxation of foreign persons and corporations on their income from U.S. sources and tax considerations in organizing foreign business operations.

**ACCT 640. Accounting Methods and Periods (3)**

This course covers comparative principles of tax and financial accounting as they relate to individuals, corporations, partnerships, estates and trusts. The allocation of income tax expense for financial statement purposes is also examined.

**ACCT 645. Federal Tax Procedure (3)**

Administrative procedures for settling tax controversies, rules governing tax collection and criminal prosecution, and the rights of taxpayers are among the topics explored in this course.

**ACCT 650. Contemporary Tax Planning Issues Seminar (2)**

Students participate in a seminar focusing on contemporary tax planning issues affecting local industries.

**ACCT 661. State and Local Taxes (3)**

Students gain an understanding of the structure of state and local taxes; the principles governing income, sales, property and other taxes levied by state and local governments; and the interrelationship of state, local and federal taxes.

**ACCT 668. Selected Topics in Taxation**

*Prerequisites:* Acct 610, Acct 620. This course provides students with an opportunity to learn about specialized and emerging topics in the field of taxation.

**ACCT 692A-Z. Selected Topics in Accounting (3)**

*Prerequisite:* ACCT 611, 615; IS 630. The exploration of new/current topics being debated by the accounting profession or the study of accountancy through alternative means (e.g., systems theory, language and communication, literature/film). Selected topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**ACCT 698A. Tax Clinic (1)**

*Prerequisites:* ACCT 610, 620, 631, 633, 640, 645. This course provides students with the opportunity to integrate the materials learned in the entire program through clinical exercises. This course provides valuable clinical skills to the students. The Tax Clinic requires students to assist a small business facing an audit by the Internal Revenue Service or other government agency. The assistance would involve significant tax research and writing. Students in the Federal Tax Clinic represent business taxpayers in controversies with the IRS. Students will work in teams to represent taxpayers involving examinations, administrative appeals, collection matters and cases before the United States Tax Court.

**ACCT 698B. Tax Challenge Project (1)**

*Prerequisites:* ACCT 610, 620, 631, 633, 640, 645. This course provides students with the opportunity to integrate the materials learned in the entire program through simulated clinical exercises. The Challenge Project requires students to conduct in-depth tax research relating to a complex and simulated tax-case problem, as well as draft and present a report analyzing the issues and proposing a sound course of action.

**ACCT 698C. Graduate Thesis (3)**

*Prerequisites:* ACCT 611, 615; IS 630; Approval of Department Chair or designee. A culminating experience course in the M.S. in Accountancy program. Preparing and writing a Master's thesis under supervision of a faculty thesis advisor.

**ACCT 698D. Graduate Project (3)**

*Prerequisites:* ACCT 611, 615; IS 630; Approval of Department Chair or designee. A culminating experience course in the M.S. in Accountancy program. Planning and performing a graduate-level project under supervision of a faculty advisor.

**ACCT 699. Independent Study-Accounting (3)**

*Prerequisites:* Permission of Graduate Advisor and Department Chair. No more than 6 units of Independent Study may be taken in any one department, and no more than six units may be taken in the College of Business and Economics without prior approval of the Dean. Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course.

## B.S. Business Administration (B.S.B.A.) Business Law Option

College of Business and Economics

**Chair: Melanie Stallings Williams, J.D.**

**Department of Business Law**

**Juniper Hall (JH) 3121**

**(818) 677-2905**

**[www.csun.edu/blaw](http://www.csun.edu/blaw)**

### Staff

Evelyn S. Garcia

### Faculty

Michael E. Chaplin, Carol A. Docan, Nina Golden, Kim R. Greenhalgh, Penelope R. Jennings, Kurt M. Saunders, Sherry Tehrani, Melanie Stallings Williams, Bruce Zucker, Kiren Dosanjh Zucker

### Emeritus Faculty

George Baechtold, Steven A. Freeman, Henry B. Niles, Leonard J. Rymysza, Thomas J. Shannon, Robert A. Sternberg

### Degree Programs

**B.S.B.A., Option in Business Law**

**Minor in Business Law**

### Mission

The mission of the Department of Business Law is to enable students, through excellence in teaching, to recognize and analyze legal issues arising in the business environment.

### The Option

The Department of Business Law Department offers a course of study leading to a B.S. Degree in Business Administration with an option in Business Law. This program prepares students to analyze complex problems, think critically and communicate effectively while learning the legal principles pertinent to making business decisions.

### Careers

The Business Law option is valuable preparation for careers in a variety of fields, including governmentally regulated industries, for example banking, insurance, securities and real estate. It is also useful for careers in risk management, contract administration, public affairs, finance, management, legal and judicial support services and employment relations. It is well suited for students who plan careers in industries that are highly regulated, for example banking, insurance, securities, health care and real estate. It is useful for entrepreneurs. It is focused on the legal applications of business decisions, and so is useful in a variety of careers.

### Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

### Faculty Mentors

All faculty are attorneys who are available to advise and counsel students who are considering law school. All department faculty are available during their scheduled office hours to advise students during the semester, with assigned department faculty available during registration periods. Information regarding law school and legal careers is available on the department website.

### Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division courses and 19 units of common Upper Division courses.

### Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

### Special Grade Requirements

Transfer students should be aware that no grade lower than a "C" will be accepted from another institution to satisfy Department or College of Business and Economics requirements.

### Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

### Student Learning Outcomes of the Undergraduate Program

Classes are taught using the Socratic method with its goal of participatory learning and the development of reasoning skills. This active learning process requires students to articulate their analysis, to develop and defend positions, to think critically and to engage in problem-solving. Students learn to formulate an effective legal analysis by synthesizing information, identifying legal issues, distinguishing relevant from irrelevant facts, using facts and law to support argument, reasoning by analogy and reaching conclusions based on analysis. In addition, students in all courses study ethical issues in a business context, with actual topics dependant on course content.

### Requirements for the Bachelor of Science in Business Administration, Option in Business Law

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in the course.

#### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |
| ECON | 160              | Principles of Microeconomics (3)                      |
| ECON | 161              | Principles of Macroeconomics (3)                      |
| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| MATH | 103 <sup>1</sup> | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup> | Basic Business Statistics (3)                         |

<sup>1</sup>MATH 103 or higher-level math with a grade of "C" or higher.

<sup>2</sup>The 4-unit MATH 140 course also satisfies this requirement.

#### 2. Common Upper Division Business Core (19 units)

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory (1)          |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

### 3. Upper Division Required Courses for the Option in Business Law (24 units)

|   |         |  |
|---|---------|--|
| BLAW  | 308     | Business Law II (3)                              |
| Business Law Elective units (15 units): ECON 365 or 411 may be taken for 3 of the units (unless that course has already been taken to satisfy the Business Breadth Requirement). Students are encouraged to take an experiential-learning (service-learning or internship) course. One service-learning course or internship course in the college or University (from outside the Department) may be taken for 3 of the units in the option with approval of the department chair. |         |  |
| BLAW  | 368     | Law, Business and Ethics (3)                     |
| BLAW  | 391     | Women and the Law (3)                            |
| BLAW  | 409     | Wills, Estates and Trusts (3)                    |
| BLAW  | 428     | International Business Law (3)                   |
| BLAW  | 430     | Marketing Law (3)                                |
| BLAW  | 450     | Intellectual Property Law (3)                    |
| BLAW  | 451     | Entertainment Business Law (3)                   |
| BLAW  | 480     | Commercial Transactions Law (3)                  |
| BLAW  | 481     | Real Estate Law (3)                              |
| BLAW  | 485     | Labor and Employment Law (3)                     |
| BLAW  | 495     | Advanced Topics in Business Law (3)              |
| BLAW  | 496 A-Z | Experimental Topics Courses–Business Law (3)     |
| BLAW  | 498 A-C | Field Assignments and Reports–Business Law (1-6) |
| BLAW  | 499     | Independent Study-Business Law (3)               |
| ECON  | 365     | Law and Economics (3)                            |
| ECON  | 411     | Economics of Antitrust and Regulation (3)        |

### 4. Business Breadth Requirement (6 units)

Select two additional 300- or 400-level courses offered in the College of Business and Economics, excluding courses offered by the Department of Business Law. Alternative classes may be substituted by petition upon the Department Chair's approval.

### 5. General Education (35 units)

Of the 48 units of the General Education requirement, 13 units are satisfied by the following courses: MATH 103 satisfies 3 units of the Basic Skills mathematics requirement; ECON 160 and 161 satisfy 6 units of Social Sciences; BLAW 280 satisfies 3 units of Lifelong Learning; and COMP 100 satisfies 1 additional unit.

### 6. Additional units (15 units)

These are unrestricted elective units.

## Minor in Business Law

The Business Law Minor allows non-Business Law majors the opportunity to pursue studies in Business Law. The minor is not available to Business Law option students.

Requirements for the Minor

#### 1. Required Courses (9 units)

|      |     |                              |
|------|-----|------------------------------|
| BLAW | 280 | Business Law I (3)           |
| BLAW | 308 | Business Law II (3)          |
| BLAW | 368 | Law, Business and Ethics (3) |

#### 2. Elective Courses (9 units)

Students must successfully complete 9 additional units of Upper Division Business Law courses from the following:

|      |     |                                 |
|------|-----|---------------------------------|
| BLAW | 391 | Women and the Law (3)           |
| BLAW | 409 | Wills, Estates and Trusts (3)   |
| BLAW | 428 | International Business Law (3)  |
| BLAW | 430 | Marketing Law (3)               |
| BLAW | 450 | Intellectual Property Law (3)   |
| BLAW | 451 | Entertainment Business Law (3)  |
| BLAW | 480 | Commercial Transactions Law (3) |

|      |         |  |
|------|---------|--|
| BLAW | 481     | Real Estate Law (3)                              |
| BLAW | 485     | Labor and Employment Law (3)                     |
| BLAW | 495     | Advanced Topics in Business Law (3)              |
| BLAW | 496 A-Z | Experimental Topics Courses–Business Law (3)     |
| BLAW | 498 A-C | Field Assignments and Reports–Business Law (1-6) |
| BLAW | 499     | Independent Study-Business Law (3)               |

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>18</b> |
|---------------------------------|-----------|

## Course List

### BLAW 108. The Citizen and Civil Law (3)

Not open to Business majors. This course is designed to introduce the student to aspects of the legal environment, including wills and inheritance, torts, contracts, landlord-tenant and other real estate problems, dissolution of marriage and other family problems, business organizations, checks and promissory notes, and consumer credit. (Available for General Education, Lifelong Learning.)

### BLAW 280. Business Law I (3)

*Prerequisites:* Completion of Lower Division writing requirement; *Sophomore standing.* Study of the role of law in business, including the study of legal institutions and their role in facilitating and regulating business. Includes a study of the legal system, civil litigation, torts and the formation and performance of contracts. (Available for General Education, Lifelong Learning.)

### BLAW 308. Business Law II (3)

*Prerequisite:* BLAW 280. *Corequisite/Prerequisites for Business majors:* BUS 302/L. Study of the role of law in business, including the study of legal institutions and their role in facilitating and regulating business. Topics include agency and employment law, the various forms of business organizations and securities law.

### BLAW 368. Law, Business and Ethics (3)

*Prerequisite:* BLAW 280. *Corequisite/Prerequisites for Business majors:* BUS 302/L. Study of law, ethics and values in the business environment. The course will examine the ethical issues managers face in organizations within the context of values and law. Students are taught to recognize ethical issues, identify bias, examine values, explore the role of ethics in the workplace, understand the legal environment in which ethical issues arise and consider the role of professional standards in the context of business ethics. Students will learn ethical frameworks with which to analyze ethical problems and decisions. The course uses the case method to provide a process- and problem-solving orientation, to apply ethical theory to business situations, to analyze problems in the context of legal and regulatory frameworks and to provide a basis to internalize knowledge, growth and experience. Students learn skills of critical thinking. (Available for General Education, Lifelong Learning.)

### BLAW 391. Women and the Law (3)

*Prerequisites:* Completion of Lower Division writing requirement; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Recommended Corequisites or Preparatory for Business majors:* BUS 302/L. Study of several areas of law affecting the past and current legal status of women. Includes constitutional law, employment law and health law. (Available for General Education, Comparative Cultural Studies.)

**BLAW 409. Wills, Estates and Trusts (3)**

*Prerequisites:* BLAW 280; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Introduction to the law of wills, estates, trusts and other areas connected with estate planning. Considers the nature of property, joint ownership of property, the validity and probate of wills, inheritance under the laws of interstate succession and the laws governing the establishment and administration of trusts. Also considers the law of estate taxation.

**BLAW 428. International Business Law (3)**

*Prerequisites:* BLAW 280; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Study of the legal environment for international commercial transactions, including an analysis of major Western and non-Western legal traditions and the supranational law of the European Community; a detailed analysis of the negotiation, formation, enforcement and financing of international sales contracts; an analysis of international trade regulation, analysis of methods of regulating global competition and of the protection of business property rights in international transactions.

**BLAW 430. Marketing Law (3)**

*Prerequisites:* BLAW 280; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. This course explores the legal aspects of marketing strategy. The course considers the legal aspects of product ownership, distribution and competition, including liability aspects of particular business practices. Students study federal and state law related to consumer protection, products liability, warranties, trade secrets and unfair competition, selected topics in antitrust law (including pricing strategy, price fixing, predatory pricing, discriminatory pricing) and marketing channel strategy (including resale price maintenance, territorial and customer restrictions, exclusive dealing and refusal to deal), franchise law and limits on market dominance. Throughout the course, the contrast between U.S. and international entities is explored, with particular examination of foreign licensing, distribution, liability and enforcement issues.

**BLAW 450. Intellectual Property Law (3)**

*Prerequisites:* BLAW 280; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Exploring the law of patents, copyrights, trademarks, trade secrets and related forms of intellectual property protection. Considered will be the nature of intellectual property rights and the scope of protection for various subject matter, including international and trade aspects relating to technology protection and transfer; the enforcement of intellectual property rights and remedies for infringement or misappropriation of such rights; and practical strategies for intellectual property development, management and licensing in the modern business environment, both domestically and internationally.

**BLAW 451. Entertainment Business Law (3)**

*Prerequisites:* BLAW 280, 308; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. This course covers the recurring legal problems that arise in the business context of the entertainment industry and the legal relationships between the parties involved in the film, television, theater, music and online entertainment fields. In particular, the course will address tort law issues, including defamation, invasion of privacy and the right of publicity; intellectual property protection, including copyright and trademark law and the protection of ideas; contract law issues, including contract formation, contractual obligations and remedies; and government regulation of entertainment content and industry practices. International aspects of each of these areas will be emphasized.

**BLAW 480. Commercial Transactions Law (3)**

*Prerequisites:* BLAW 280, 308; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Study of those areas of law related to commercial business transactions, including commercial paper, negotiable instruments, secured transactions, bankruptcy and the law of sales.

**BLAW 481. Real Estate Law (3)**

*Prerequisites:* BLAW 280, 308; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Legal and business aspects of real property acquisition and ownership, involving the nature of property ownership, including the acquisition of titles, easements, leases and contracts, community property, joint tenancy, tenancy in common, brokerage and land-use regulation.

**BLAW 485. Labor and Employment Law (3)**

*Prerequisites:* BLAW 280, 308; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Examines the development of labor law in the U.S. from the early common law to the current legislation. Existing federal statutes regulating labor unions and labor relations will be studied in detail. These statutes are studied as they are applied and interpreted by the federal courts and by the National Labor Relations Board. In addition, this course examines topics in U.S. employment laws such as family leave, equal pay, wrongful discharge, employee defamation, employer-related immigration laws, privacy in the workplace, discrimination based on race, sex, national origin and religion, and other new developments.

**BLAW 495. Advanced Topics in Business Law (3)**

*Prerequisites:* BLAW 280, 308; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Selected advanced topics in business law are analyzed by means of readings, analysis of cases and problems, case studies and class discussion.

**BLAW 496A-Z. Experimental Topics Courses—Business Law (3)**

*Prerequisites:* BLAW 280; BUS 302/L for Business majors; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Course content to be determined. (See subtitles in appropriate Schedule of Classes.)

**BLAW 498A-C. Field Assignments and Reports—Business Law (1-6)**

*Prerequisites:* BLAW 280 or the equivalent with a grade of "C" or better; BUS 302/L for Business majors; CSUN cumulative GPA of 3.0 or higher; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Individual study must pertain to career goals. Students must have active, approved employment. Consultation with employer and instructor determines the program. A maximum of 6 units may be earned by combining Field Assignments and Reports (BLAW 498) and Independent Study (BLAW 499). (Credit/No Credit only)

**BLAW 499A-C. Independent Study—Business Law (1-3)**

*Prerequisites:* BLAW 280 or the equivalent with a grade of "C" or better; BUS 302/L for Business majors; Minimum 3.0 overall GPA; Minimum 2.0 GPA in all major courses; Minimum 2.0 GPA in option courses; Consent of Department Chair and consent of an instructor to act as sponsor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Enrollment is based on evidence of ability to pursue Independent Study in-depth and on approval of a project submitted at the time of registration. Regular progress meetings and reports are required before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. A maximum of 6 units may be earned by combining Independent Study (BLAW 499) and Field Assignments and Reports (BLAW 498).

## Graduate

Graduate courses are open only to selected Classified and Conditionally Classified graduate students. To determine their eligibility for enrollment, students majoring in areas other than business must consult with the Director of Graduate Programs of the College of Business and Economics.

### BLAW 508. MBA Law in the Business Environment (3)

*Prerequisite:* Graduate standing. Study of the role of law in business, including the study of legal institutions and their role in facilitating and regulating business. Includes a study of the legal system, civil litigation, torts and the formation and performance of contract, agency and employment law, the various forms of business organizations and securities law.

### BLAW 651. Entertainment Business Law (3)

*Prerequisites:* BLAW 508 or 280; Graduate standing. This course covers the recurring legal problems that arise in the business context of the entertainment industry and the legal relationships between the parties involved in the film, television, theater, music and online entertainment fields. In particular, the course will address tort law issues, including defamation, invasion of privacy and the right of publicity; intellectual property protection, including copyright and trademark law and the protection of ideas; contract law issues, including contract formation, contractual obligations and remedies; and government regulation of entertainment content and industry practices. International aspects of each of these areas will be emphasized.

### BLAW 690. Seminar in Business Law (3)

*Prerequisite:* BLAW 508. Selected advanced topics in business law are analyzed by means of readings, analysis of cases and problems, case studies and class discussion.

### BLAW 699. Independent Study–Business Law (3)

*Prerequisites:* Permission of Graduate Advisor and Department Chair. No more than 6 units of Independent Study may be taken in any single department and no more than 6 units may be taken in the College of Business without prior approval of the Dean. Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course.

## Global Supply Chain Management Option

College of Business and Economics

Chair: Ali Behnezhad

Department of Systems and Operations Management

Juniper Hall (JH) 3121

(818) 677-2470

[www.csun.edu/som](http://www.csun.edu/som)

*Staff*

Vanessa Sutton

*Faculty*

Ardavan Asef-Vaziri, Ali Behnezhad, Brian Connett, Jun-Yeon Lee, Seung-Kuk Paik, Stephen Samaha

Degree Program

**B.S.B.A. Option in Global Supply Chain Management**

The Option

Global Supply Chain Management, also known as the value chain or logistics network management, consists of a network of suppliers, manufacturers, warehouses, distribution centers, wholesalers and

retailers. It also includes a variety of specialized facilitating systems such as transportation and information systems. The Global Supply Chain Management option develops an understanding of the design, control and operation of supply chains.

### Careers

The Global Supply Chain Management Option prepares our students for every area of supply chain activity needed. Job opportunities in supply chain management are anticipated to increase significantly during the next decade. These include sourcing and procurement, transportation, warehousing, materials handling, order processing and customer value analysis, technology design and application, demand planning and distribution, and logistics management.

### Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

### Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division courses and 19 units of common Upper Division courses.

### Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

### Special Grade Requirements

Transfer students should be aware that no grade lower than a “C” will be accepted on transfer from another institution to satisfy College of Business and Economics requirements.

### Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN

### Requirements for the Bachelor of Science in Business Administration, Option in Global Supply Chain Management

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in the course.

#### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |

| SOM  | 467                | Quality Management and Control (3)                                    |

<sup>3</sup>Senior Standing with a 3.0 or higher GPA. Other students will be considered with recommendation.

**Course List****SCM/MKT 442. Business to Business Marketing (3)**

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of “C” or higher) or consent of instructor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Analysis of the marketing structure for industrial products, including raw materials, installations, operating supplies, accessory equipment and fabricating materials. Buying motives and buying habits for industrial goods, major trade channels, research, pricing, advertising and legal aspects. The purchasing function. Buying by governmental agencies. Governmental regulation. (Crosslisted with MKT 442)

**SCM/MKT 447. Logistics and Transportation Management (3)**

*Prerequisites:* MKT 304 (Marketing majors just attain a grade of “C” or higher); Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Introduction to the management of firms that market transportation services; the managerial implications of the legal, economic and social environment. (Crosslisted with MKT 447)

**SCM/SOM 416. Supply Chain Management (3)**

*Prerequisite:* SOM 306; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. This course covers the fundamental concepts, principles and

tools associated with supply chain management. Topics include supply chain integration, logistics network configuration, inventory management, strategic alliances, procurement and outsourcing, warehousing, quality management, global logistics and the impact of information technology on supply chain management. Global implications will be discussed throughout the course. This course involves case studies, a simulation game and a culminating term project. (Cross listed with SOM 416.)

**SCM 492. Supply Chain Management Strategy (3)**

*Prerequisites:* SCM 416, 442, 447 or equivalent; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. This is a capstone course that integrates various aspects of supply chain management. Students will use their previous work in transportation, purchasing and quality processes to study current practices, which should lead to higher levels of customer satisfaction and lower delivery costs. Designed to give students more practice in standard business skills, especially communication skills, analytic problem solving and cross-disciplinary integration.

**Degree Program**

**B.S.B.A., Option in Insurance and Financial Services**

**The Option**

The option in Insurance and Financial Services is specifically designed to prepare students for a career in the areas of the financial services industry—investments, insurance, securities and personal financial planning. Because many firms in the financial services industry are engaged in all of these areas, the option covers theoretical and practical knowledge of the various segments.

The Insurance and Financial Services option prepares our graduates for a wide variety of analytical, managerial or sales careers in the financial services industry. Analytical careers include employment in banking, insurance, investments and personal financial planning. Sales careers include employment in insurance, securities and mutual fund sales. Managerial careers include managerial employment in the financial services industry. The program also provides a solid foundation for a career in personal financial planning.

**Academic Advisement**

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

**Business Majors**

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27

units of common Lower Division courses and 19 units of common Upper Division courses.

### Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

### Special Grade Requirements

Transfer students should be aware that no grade lower than a “C” will be accepted on transfer from another institution to satisfy College of Business and Economics requirements.

### Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

### Admission to the Insurance and Financial Services Option

Insurance and Financial Services is an impacted program. Students seeking a major in Insurance and Financial Services may initially declare a major in Pre-Insurance and Financial Services while working to satisfy supplemental criteria, which requires completion of at least 60 units and a minimum cumulative GPA of 2.5. Students must qualify by the time they earn 90 units. Additionally, a grade of “C” or higher in FIN 303 is a prerequisite for all 400-level Finance (FIN) courses and selected 300-level Finance courses.

### Requirements for the Bachelor of Science in Business Administration, Option in Insurance and Financial Services

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in the course.

#### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |
| ECON | 160              | Principles of Microeconomics (3)                      |
| ECON | 161              | Principles of Macroeconomics (3)                      |
| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| MATH | 103 <sup>1</sup> | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup> | Basic Business Statistics (3)                         |

<sup>1</sup>MATH 103 or a higher level mathematics course must be completed with a grade of “C” or better.

<sup>2</sup>The 4-unit MATH 140 course also satisfies this requirement.

#### 2. Common Upper Division Business Core (19 units)

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory (1)          |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

#### 3. Required Upper Division Courses for the Option in Insurance and Financial Services (6 units)

|  |     |                          |
|--|-----|--------------------------|
| BLAW   | 308 | Business Law II (3)      |
| Communication Course, select 3 units from the following: |     |                          |
| COMS   | 336 | Group Communication (3)  |
| COMS   | 443 | Rhetoric in Business (3) |

|      |     |                                       |
|------|-----|---------------------------------------|
| ENGL | 305 | Intermediate Expository Writing (3)   |
| ENGL | 306 | Report Writing (3)                    |
| ENGL | 407 | Composition and the Professions (3)   |
| PHIL | 305 | Business Ethics and Public Policy (3) |

In addition to the courses shown above, the student must complete an additional 18 units of required option specific courses.

#### 4. Upper Division Required Courses (9 units)

Note: Students who select the Insurance and Financial Services option may not also select the Bachelor of Science Degree in Finance.

|     |     |   |
|-----|-----|---|
| FIN | 336 | Principles of Insurance (3)                   |
| FIN | 352 | Investments I (3)                             |
| FIN | 442 | Theory and Practice of Financial Planning (3) |

#### 5. Insurance and Financial Services Option Elective Courses (9 units)

Select three of the following:

|      |                  |   |
|------|------------------|---|
| ACCT | 440 <sup>3</sup> | Taxation of Business Entities and Individuals (3) |
| ACCT | 441              | Advanced Studies in Taxation (3)                  |
| BLAW | 409              | Wills, Estates and Trusts (3)                     |
| ECON | 311              | Money, Banking and the Federal Reserve (3)        |
| FIN  | 338              | Real Estate Principles (3)                        |
| FIN  | 431              | Risk Management (3)                               |
| FIN  | 433              | Real Estate Finance (3)                           |
| FIN  | 434              | Life and Health Insurance (3)                     |
| FIN  | 438              | Management of Financial Institutions (3)          |
| FIN  | 440              | Retirement Planning and Employee Benefits (3)     |
| IS   | 312              | Information Systems for Business (3)              |

<sup>3</sup>ACCT 440 and 441 have additional prerequisites beyond the required courses shown below.

## Real Estate Option

#### Degree Program

**B.S.B.A., Option in Real Estate**

#### The Option

The option in Real Estate covers both theoretical and practical aspects of real estate and provides an academic foundation for careers in real estate. Students completing the option in Real Estate will have satisfied most of the educational requirements for the California real estate broker's license and the real estate appraiser's license.

#### Careers

While the Real Estate option is designed for students with career interests in the various functional fields of real estate—brokerage, appraisal, finance, investment, development and asset management, as well as service areas such as escrow and title insurance—the skills with which students in the option will become familiar are applicable in virtually all business fields.

#### Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

## Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division courses and 19 units of common Upper Division courses.

## Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

## Special Grade Requirements

Transfer students should be aware that no grade lower than a "C" will be accepted upon transfer from another institution to satisfy College of Business and Economics requirements.

## Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

## Requirements for the Bachelor of Science in Business Administration, Option in Real Estate

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in the course.

### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|

### Programs

**B.S.B.A. Option in Systems and Operations Management  
Minor in Quality Management and Assurance**

### The Option

The program focuses on developing skills for problem-solving, critical thinking, communication and the use of constantly changing technology. These skills are needed to deal with a variety of decisions made by managers in manufacturing, service and public organizations. These encompass strategic long-range decisions (such as product, service and process design, facility location and capacity planning), as well as operational decisions (such as project management, operations planning and scheduling, quality assurance, purchasing and inventory).

## Careers

The option in Systems and Operations Management prepares students for rewarding careers in a variety of industries such as aerospace, electronics, automotive, health care, airlines, transportation, biotechnology, software and banking. The range of positions includes quality management, project management, operations planning and scheduling, inventory and materials management, systems analysis and design, decision support systems and supply chain management.

## Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

## Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate, or Systems and Operations Management. All Business majors share 27 units of common Lower Division courses and 19 units of common Upper Division courses.

## Special Grade Requirements

Transfer students should be aware that no grade lower than a “C” will be accepted upon transfer from another institution to satisfy College of Business and Economics requirements.

## Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

## Requirements for the Bachelor of Science in Business Administration, Option in Systems and Operations Management

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in the course.

### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |
| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| ECON | 160              | Principles of Microeconomics (3)                      |
| ECON | 161              | Principles of Macroeconomics (3)                      |
| MATH | 103 <sup>1</sup> | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup> | Basic Business Statistics (3)                         |

<sup>1</sup>MATH 103 or a higher level mathematics course must be completed with a grade of “C” or better.

<sup>2</sup>The 4-unit MATH 140 course also satisfies this requirement.

### 2. Common Upper Division Business Core (19 units)

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory(1)           |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

### 3. Upper Division Required Courses, Option in Systems and Operations Management (15 units)

|     |     |   |
|-----|-----|---|
| IS  | 312 | Information Systems for Business (3)        |
| SOM | 307 | Data Analysis and Modeling for Business (3) |
| SOM | 464 | Manufacturing Resource Planning (3)         |
| SOM | 467 | Quality Management and Control (3)          |
| SOM | 485 | Decision Support Systems (3)                |

### 4. Communication Courses

Select 3 units from the following:

|      |     |                                       |
|------|-----|---------------------------------------|
| BLAW | 308 | Business Law II (3)                   |
| COMS | 443 | Rhetoric in Business (3)              |
| ENGL | 407 | Composition and the Professions (3)   |
| PHIL | 305 | Business Ethics and Public Policy (3) |

### 5. Select 6 additional units from the following:

|     |     |   |
|-----|-----|---|
| SCM | 447 | Logistics and Transportation Management (3)                           |
| SOM | 416 | Supply Chain Management (3)   |
| SOM | 466 | Project Management (3)  |
| SOM | 468 | Managing for Service Excellence (3)                                   |
| SOM | 498 | Field Assignments and Reports - Systems and Operations Management (3) |

**General Education:** Of the 48 units of the General Education requirement, 13 units are satisfied by the following courses: MATH 103 satisfies 3 units of the Mathematics requirement; ECON 160 and ECON 161 satisfy 6 units of Social Sciences; BLAW 280 satisfies 3 units of Lifelong Learning; and COMP 100 satisfies 1 additional Unit.

## Minor in Quality Management and Assurance

The Quality Management and Assurance minor allows non-Bachelor of Science in Business (BSBA) majors the opportunity to pursue secondary interests in Quality Management and Assurance. This minor is appropriate for both service and manufacturing organizations. The minor can be useful for careers in a variety of industries such as aerospace, electronics, automotive, health care, airlines, transportation, process industries, insurance, banking, government, education, fashion and recreation. This minor is not available to students majoring in Business Administration with an option in either Business Law, Financial Services, Human Resource Management, Real Estate, Supply Chain Management or Systems and Operations Management.

### 1. Required Courses (18 units)

|         |                  |   |
|---------|------------------|---|
| MKT     | 100 <sup>1</sup> | Conceptual Foundations of American Enterprise (3) |
| SOM     | 120              | Basic Business Statistics (3)                     |
| or MATH | 140              | Introductory Statistics (4)                       |
| SOM     | 306              | Operations Management (3)                         |
| SOM     | 467              | Quality Management and Control (3)                |

<sup>1</sup>MKT 100 satisfies three General Education units in Lifelong Learning.

**Each student must successfully complete any two of the following courses:**

|     |     |                                     |
|-----|-----|-------------------------------------|
| MKT | 304 | Marketing Management (3)            |
| PSY | 150 | Principles of Human Behavior (3)    |
| SOM | 416 | Supply Chain Management (3)         |
| SOM | 466 | Project Management (3)              |
| SOM | 468 | Managing for Service Excellence (3) |

## Course List

### SOM 120. Basic Business Statistics (3)

*Prerequisite:* MATH 103 or a higher-level mathematics course with a grade of "C" or higher. Basic elements of statistics for students in business and economics. Descriptive statistics, elements of probability, probability distributions (including normal), sampling distributions, statistical inference for means and proportions (including estimation and hypothesis testing), simple linear regression and correlation. Applications of these topics in business and economics are emphasized. The course requires assignments in which students are required to explain the results of statistical computations using personal computer software.

### SOM 306. Operations Management (3)

*Prerequisite:* SOM 120 or MATH 140. *Recommended Corequisite or Preparatory:* BUS 302/L. Discusses operational issues facing organizations and introduces operations management concepts and techniques. Students develop skills necessary to improve productivity and quality of operations in both manufacturing and service organizations. Topics include international competitiveness, quality assurance, forecasting, design and control of operations systems, creating value for the customer, project management and supply chain and inventory management.

### SOM 307. Data Analysis and Modeling for Business (3)

*Prerequisite:* SOM 120 or MATH 140. *Recommended Corequisite or Preparatory:* BUS 302/L. Statistical methods and stochastic models to support decision making by managers. Topics include: exploratory data analysis, probability distributions and assessment, expected value, variation, estimation of means and proportions, hypothesis testing for one and several populations, F test, chi-square test, simple and multiple regression and correlation, decision trees, waiting lines and simulation. Applications to business are emphasized. Written assignments based on computer software required.

### SOM/SCM 416. Supply Chain Management (3)

*Prerequisites:* SOM 306; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. This course covers the fundamental concepts, principles and tools associated with supply chain management. Topics include supply chain integration, logistics network configuration, inventory management, strategic alliances, procurement and outsourcing, warehousing, quality management, global logistics and the impacts of information technology on supply chain management. Global implications will be discussed throughout the course. This course involves case studies, a simulation game and a culminating term project. (Crosslisted with SCM 416.)

### SOM 464. Manufacturing Resource Planning (3)

*Prerequisites:* SOM 306 or MSE 304; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Planning and control systems for the management of production and operations. Topics include demand management and forecasting, Enterprise Resource Planning (ERP), supply chain management, inventory management, master production scheduling, Material Requirements Planning (MRP), capacity planning, just-in-time (JIT) production, activity sequencing and other current topics. Includes a term project as well as an in-depth case study using integrated manufacturing planning and control software such as Manufacturing Resource Planning (MRP II) or Enterprise Resource Planning.

### SOM 466. Project Management (3)

*Prerequisites:* SOM 120, 391 or MATH 140; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Introduction to the operations management of small, intermediate and large projects. The course surveys project

organization, staffing, planning and scheduling (PERT/CPM), control, budgeting and quality. The project environments, including international issues, are explored. Various project management software packages are utilized.

### SOM 467. Quality Management and Control (3)

*Prerequisites:* SOM 306 or MSE 304; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Application of total quality control for improvement of products and services, including both statistical techniques and managerial approaches. Control charts, quality costs, responsibility for quality, quality at the source, ethical issues and ISO 9000. International differences in philosophy of quality.

### SOM 468. Managing for Service Excellence (3)

*Prerequisites:* SOM 306; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Techniques learned will benefit service managers and entrepreneurs by improving skills in managing efficiency and quality. Students will learn concepts and tools useful for service management. Topics include service assessment, improvement and innovation, yield management, service technologies (including management of Internet businesses), quality and productivity and new service development. The course involves case studies as well as software applications.

### SOM 485. Decision Support Systems (3)

*Prerequisites:* SOM 306; IS 312; *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Concepts, development and application of Decision Support Systems (DSS) and related management support systems (Executive Information Systems and Expert Systems). Design framework and Management Science models for DSS. DSS development process and tools, user interface, evaluation and implementation. Study of recent development in model-based DSS applications with knowledge base enhancement. Class project designing prototype management support systems will be required.

### SOM 496A-Z. Experimental Courses—Systems and Operations Management (3)

*Prerequisite:* *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Course content to be determined. (See Schedule of Classes and Enrollment Guide.)

### SOM 498 A-C. Field Assignments and Reports Systems and Operations Management (1-6)

*Prerequisite:* *Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Individual study pertaining to present or future career. Student must obtain approved employment. Consultation with employer and instructor determines program. A maximum of 12 units may be earned by combining Field Assignments and Reports (SOM 498) and Independent Study (SOM 499). This is an Academic Internship course.

### SOM 499. Independent Study—Systems and Operations Management (1-3)

*Prerequisites:* *Consent of Department Chair and consent of an instructor to act as sponsor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. In order to do an Independent Study assignment in the College of Business and Economics, a student must have at least a 3.0 overall GPA, a 2.0 GPA in all major courses and a 2.0 GPA in his/her option courses. A student who does not meet these requirements will not receive credit for any SOM 499 that he/she may take. Admission is based on evidence of ability to pursue Independent Study in-depth and on approval of a project sub-

mitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course.

## Graduate

Graduate courses are open only to selected Classified and Conditionally Classified graduate students who have attained an acceptable score on the GMAT. To determine their eligibility for enrollment, students majoring in areas other than business must consult with the Director of Graduate Programs of the College of Business and Economics.

### **SOM 591. Statistics and Stochastic Models for Managers (3)**

*Prerequisite: Permission of the Director of Graduate Programs.* Statistical methods and stochastic models to support decision making by managers. Topics include: exploratory data analysis, probability distributions and assessment, expected value, variation, estimation of means and proportions, hypothesis testing for one and several populations, F test, chi square test, simple and multiple regression and correlation, time series and forecasting, decision trees, waiting lines and simulation. Applications in service organizations and small businesses are provided along with applications for production organizations and large businesses. A key element is a group project involving the application of one or more course topics to a current business problem.

### **SOM 666. Project Planning and Policy (3)**

*Prerequisite: SOM 591 or MSE 404 or 602.* The application of project planning methodology and modeling to problems in business. Extensive use will be made of the case method. Topics include project planning, scheduling, PERT/CPM, budgeting, Activity-Based Costing (ABC) and project management software. International issues will be explored.

### **SOM 667. Total Quality Management (3)**

*Prerequisite: SOM 591 or MSE 404 or 602.* Covers the meaning and the application of Total Quality Management (TQM) in production and service organizations. The underlying quality philosophies of Deming, Taguchi and others that have inspired the development of TQM are also covered. Application of these philosophies to current quality issues, namely responsibility for quality, role of inspection, supplier certification programs, ISO 9000, the Baldrige Award, just-in-time programs and ethical issues. Use of quality improvement tools, such as control charts, Pareto charts, cause and effect diagrams, process capability and design of experiments. International differences in quality. Actual business examples are introduced throughout the course.

### **SOM 685. Decision Support and Applied Expert Systems (3)**

*Prerequisite: SOM 591 or MSE 404 or 602.* Survey of applications, scope and recent development of Decision Support Systems (DSS) and related management support systems (Executive Information Systems and Expert Systems). Conceptual framework, design process and managing the initiation, evolution and implementation of management support systems. User involvement, evaluation and organizational integration. Decision-oriented DSS with knowledge base enhancement addressing real-world application will be required as a class project.

### **SOM 686. Seminar in Internationally Competitive Operations Management (3)**

*Prerequisites: SOM 591, or both 306 and 307.* Subjects include productivity and global competitiveness of modern enterprises, diagnostic studies of production strategies, managerial implications of advanced operations technologies of world-class organizations (Flexible Manufacturing Systems, Computer Integrated Manufacturing, Statistical Process Control and Total Quality Management). Also covered are in-depth case analyses of progressive U.S. and International firms addressing these issues. A team case project is a key course requirement.

### **SOM 699. Independent Study Systems and Operations Management (3)**

*Prerequisites: Permission of Graduate Advisor and Department Chair.* No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business without prior approval of the Dean. Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course. Note: See Graduate Business Interdepartmental Courses for GBUS 696D, 697D and 698D.

## Degree Programs

**B.S., Finance**

**Minor in Finance**

**B.S.B.A., Insurance and Financial Services**

**B.S.B.A., Real Estate**

See *College of Business and Economics, Business Administration options section for B.S.B.A. Insurance and Financial Services, and B.S.B.A. and B.S.B.A. Real Estate Requirements*

## The Major

The Department of Finance, Real Estate and Insurance, in conjunction with the other departments in the College of Business and Economics, offers curricula leading to a Bachelor of Science Degree in Finance or a Bachelor of Science Degree in Business Administration with options in Real Estate or Insurance and Financial Services (listed separately). Students majoring outside of the department of Finance, Real Estate and Insurance may complete a Minor in Finance. The study of Finance consists of three interrelated areas: (1) capital markets, which deals with securities markets and financial intermediaries; (2) investments, which concerns the decisions of individual and business investors; and (3) financial management, which focuses on the actual management of firms. The major in Finance emphasizes both theoretical and practical approaches to these areas. As part of the curriculum, the Department offers elective courses in futures and options, real estate, insurance, risk management, international finance and an honors section of FIN 437, The Student Portfolio Management Class, where a small number of students manage a stock portfolio for the University Corporation.

## Careers

The major in Finance helps prepare our graduates for a wide range of career opportunities in all industries and sectors of the economy. Among the finance career fields are consulting, financial planning, financial management analysis, financial budget analysis and investments. Students graduating with a major in Finance receive among the highest average starting salaries of business graduates.

## Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

## Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division core courses and 19 units of common Upper Division core courses.

## Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

## Special Grade Requirements

Transfer students should be aware that no grade lower than a "C" will be accepted on transfer from another institution to satisfy College of Business and Economics requirements.

## Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

## Admission to the Finance Major

Finance is an impacted program. Students seeking a major in Finance may initially declare a major in Pre-Finance while working to satisfy supplemental criteria, which requires completion of at least 60 units and a minimum cumulative GPA of 2.5. Students must qualify by the time they earn 90 units. Additionally, a grade of "C" or higher in FIN 303 is a prerequisite for all 400-level Finance (FIN) courses and selected 300-level Finance courses.

## Requirements for the Bachelor of Science in Finance

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in the course.

### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |
| ECON | 160              | Principles of Microeconomics (3)                      |
| ECON | 161              | Principles of Macroeconomics (3)                      |
| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| MATH | 103 <sup>1</sup> | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup> | Basic Business Statistics (3)                         |

<sup>1</sup> MATH 103 or a higher level mathematics course must be completed with a grade of "C" or better.

<sup>2</sup> The 4-unit MATH 140 course also satisfies this requirement.

### 2. Common Upper Division Business Core (19 units)

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory (1)          |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

**3. Required Upper Division Courses Finance (6 units)**

BLAW 308 Business Law II (3)

**Communication Course, select 3 units from the following:**

COMS 323 Group Communication (3)  
 COMS 443 Rhetoric in Business (3)  
 ENGL 305 Intermediate Expository Writing (3)  
 ENGL 306 Report Writing (3)  
 ENGL 407 Composition and the Professions (3)  
 PHIL 305 Business Ethics and Public Policy (3)

In addition to the courses shown above, the student must complete an additional 18 units of required option specific courses.

**4. Upper Division Required Courses (18 units)**

FIN 352 Investments I (3)

FIN 355 Corporate Finance I (3)

**Finance Electives: Select 12 units of Finance courses***(Does not include FIN 102 or 302)***May include 3 units from the following:**

ACCT 440 Taxation of Business Entities (3)  
 ACCT 450 Advanced Financial Accounting (3)  
 BLAW 481 Real Estate Law (3)  
 ECON 310 Price Theory and Applications (3)  
 IS 312 Information Systems for Business (3)

**General Education:** 3 units of the mathematics requirement satisfy the Basic Skills, Mathematics requirement. BLAW 280 satisfies 3 units of the Lifelong Learning requirement. ECON 160 and 161 satisfy 6 units of the Social Sciences requirement. COMP 100 satisfies one additional Unit.

**Minor in Finance**

The Finance Minor allows non-finance majors the opportunity to pursue secondary interests in finance.

**Required Courses (15 units)**

ACCT 220 Introduction to Financial Accounting (3)

ECON 160<sup>1</sup> Principles of Microeconomics (3)*or*ECON 300<sup>1</sup> Economic Principles and Problems (3)

FIN 303 Financial Management (3)

FIN 352 Investments I (3)

SOM 120<sup>2</sup> Basic Business Statistics (3)**Elective Course (3 units)**

Each student must select one other Upper-Division three-unit Finance course (excluding FIN 102 and FIN 302).

<sup>1</sup>*Courses that also satisfy GE.*<sup>2</sup>*The 4-unit MATH 140 course also satisfies this requirement.*

|                                 |    |
|---------------------------------|----|
| <b>Total Units in the Minor</b> | 18 |
|---------------------------------|----|

**Course List****FIN 102. Financial Literacy (3)**

Covers basic financial terms and institutions and the tools necessary for students to make wise financial decisions. Topics covered include budgeting, borrowing, managing credit, financial planning and related topics. (Available for General Education, Lifelong Learning.)

**FIN 302. Personal Finance (3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Examination of the concepts necessary for the rational allocation of personal resources. Emphasis is on the significant financial decisions facing each household during its life cycle. The role of financial institutions and governmental economic policy is evaluated in the context of their potential impact on personal financial planning. (Available for General Education, Lifelong Learning.) (IC)

**FIN 303. Financial Management (3)**

*Prerequisites: ACCT 220; ECON 160; SOM 120 (may be taken concurrently).* BUS 302/L are col/prerequisites for Business majors. Analysis of the financial decision making process of a firm from both internal and external points of view. Topics include valuation, working capital management, capital budgeting, financial forecasting, capital structure and sources of capital and dividend policy in both a domestic and international context.

**FIN 336. Principles of Insurance (3)**

*Prerequisites: BUS 302/L are prerequisites for Business majors.* Insurance as an economic and business institution. Survey of fire, marine, casualty and life insurance for those interested as potential customers, salespersons or brokers.

**FIN 338. Real Estate Principles (3)**

*Prerequisite: Upper Division standing.* Introductory survey of the field of real estate. Areas covered include real estate law, appraisal, brokerage, finance and investment.

**FIN 352. Investments I (3)**

*Prerequisite: Grade of "C" or higher in FIN 303.* BUS 302/L are prerequisites for Business majors. Survey of investments including corporate and government securities, real property and financial intermediaries. Survey of investment theory emphasizing security analysis, valuation and portfolio management.

**FIN 355. Corporate Finance I (3)**

*Prerequisite: Grade of "C" or higher in FIN 303.* BUS 302/L are prerequisites for Business majors. Advanced readings and case studies in current problems and trends in corporate financial policy formulation. Students will be required to analyze selected problems orally and in writing.

**FIN 359. Quantitative Finance I (3)**

*Prerequisite: Grade of "C" or higher in FIN 303.* BUS 302/L are prerequisites for business majors. Quantitative analysis of various problems in corporate finance and investments. Emphasis is placed on developing computer skills.

**FIN 425. Entrepreneurial Finance (3)**

*Prerequisites: Grade of "C" or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Examines the financial issues of starting a new company, raising funds and valuing and managing ongoing ventures

**FIN 430. International Financial Management (3)**

*Prerequisites: Grade of "C" or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Analysis of the international complexities of corporate financial management and investment strategies. Emphasis is placed on the nature of the close link between corporate financial management and developments in international financial institutions and international financial markets.

**FIN 431. Risk Management (3)**

*Prerequisites: FIN 336; Grade of "C" or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher.* BUS 302/L are prerequisites for Business majors. Analysis of the methods and procedures of dealing with risk in the firm, including the theoretical basis of insurance and self-insurance mechanisms. Consideration of the commercial insurance industry, its structure and regulation.

**FIN 433. Real Estate Finance (3)**

*Prerequisites:* FIN 338; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Analysis of the instruments, institutions, agencies and operations involved in the financing of real estate.

**FIN 434. Life and Health Insurance (3)**

*Prerequisites:* FIN 336; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. An examination of life insurance, health insurance, employee benefits and annuities. Study of regulation of life and health insurers, Social Security, retirement issues and other applications of life and health insurance contracts.

**FIN 436. Futures and Options: Theory and Strategy (3)**

*Prerequisites:* FIN 352; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Study of the structure of futures and options. The analysis will emphasize the theoretical framework of options and futures pricing models, practical financial implications and the mechanics of and economic rationale for futures and options markets.

**FIN 437. Advanced Topics in Finance (3)**

*Prerequisites:* FIN 352; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Selected issues in financial policy and investment strategy are analyzed by means of case studies, readings and class discussion.

**FIN 438. Management of Financial Institutions (3)**

*Prerequisites:* Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Examination of the principles, practices and procedures applicable to the operation and management of financial institutions. Includes analysis of the sources and uses of funds in the system and the federal and state regulatory structure.

**FIN 439. Real Estate Valuation (3)**

*Prerequisites:* FIN 338; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Analysis of the various determinants of real estate value and the methods used in practice to estimate such value. Economic factors affecting real estate value are emphasized and traditional valuation techniques are critically examined.

**FIN 440. Retirement Planning and Employee Benefits (3)**

*Prerequisites:* Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Provides knowledge of both public and private benefit and retirement plans. Public plans include Social Security, Medicare and Medicaid. Private plans include defined benefit and defined contribution plans and their regulatory provisions. Specifics of the various plans are analyzed as well as non-qualified deferred compensation plans. Issues individuals face in retirement, such as life-styles choices and medical issues also discussed. Available for graduate credit.

**FIN 442. Theory and Practice of Financial Planning (3)**

*Prerequisites:* FIN 352; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Financial theory and planning process includes data gathering, cash flow and

debt considerations, goal setting and objectives (including retirement and education funding), integration, plan formulation, tax consideration and implementation. Planning considerations also include ethical and legal issues.

**FIN 452. Investments II (3)**

*Prerequisites:* FIN 352; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Portfolio management and performance evaluation and topics related to pension and other institutional fund management. It includes applications to portfolio benchmarking as well as discussions of alternative investment approaches and products.

**FIN 455. Corporate Finance II (3)**

*Prerequisites:* FIN 355; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Advanced treatment of corporate finance. Topics covered include cost of capital, capital budgeting, capital structure and leverage, dividend and payout policy, corporate governance and corporate restructuring. Emphasis is on the real world applications.

**FIN 459. Quantitative Finance II (3)**

*Prerequisites:* Grade of “C” or higher in FIN 352, 355 and 359, or instructor’s permission; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Advanced quantitative skills used by financial professionals and researchers, including statistical estimation, simulation and Monte Carlo methods and optimization.

**FIN 462. Fixed Income Securities (3)**

*Prerequisites:* FIN 352; Grade of “C” or higher in FIN 303; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Introduction to the fixed-income markets and fixed-income securities. It covers the pricing and risk management of fixed-income products, as well as introduction to fixed-income derivatives.

**FIN 496A-Z. Experimental Topics Courses Finance (3)**

*Prerequisite:* Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Course content to be determined. (See subtitles in appropriate Schedule of Classes)

**FIN 498. Field Assignments and Reports—Finance (1-6)**

*Prerequisite:* Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Individual study pertaining to present or future career. Student must obtain approved employment. Consultation with employer and instructor determines program. A maximum of 12 units may be earned by combining Field Assignments and Reports (FIN 498) and Independent Study (FIN 499). Academic Internship course. (Credit/No Credit Only)

**FIN 499A-C. Independent Study (1-3)**

*Prerequisites:* Consent of Department Chair and consent of an instructor to act as sponsor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. In order to do an Independent Study assignment in the College of Business and Economics, a student must have at least a 3.0 overall GPA, a 2.0 GPA in all major courses and a 2.0 GPA in his option courses. A student who does not meet these grade point requirements will not receive credit for any FIN 499 that he/she may take. Admission is based on evidence of ability to pursue Independent Study in depth and on approval of a project submitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required

before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. A maximum of 6 units of Independent Study (FIN 499) may be earned in the College of Business and Economics. Further, a maximum of 12 units may be earned by combining Field Assignments and Reports (FIN 498) and Independent Study (FIN 499).

## Graduate Courses

---

Graduate courses are open only to selected Classified and Conditionally Classified graduate students who have attained an acceptable score on the GMAT. To determine their eligibility for enrollment, students majoring in areas other than business must consult with the Director of Graduate Programs of the College of Business and Economics.

### **FIN 634. Seminar in Financial Institutions (3)**

*Prerequisite:* GBUS 502. Seminar analyzing financial institutions with an emphasis on the determination of prices and yields of financial assets and the economic effects of financial intermediation.

### **FIN 635. Seminar in Financial Theory and Policy (3)**

*Prerequisite:* GBUS 502. Examination of the theory of Finance and its application to financial management of business enterprise.

### **FIN 636. Seminar in Investment Analysis (3)**

*Prerequisite:* GBUS 502. Seminar in the fundamental and technical analysis of securities and capital markets. Applied financial analysis of firms and their securities; study of institutional forces in the security markets.

### **FIN 637. Seminar in Corporate Real Estate (3)**

*Prerequisite:* GBUS 502. Seminar analyzing the role of real estate in corporate decision making. Topics include real estate, finance, site selection, real estate evaluation and the effect of real estate decisions on shareholder wealth.

### **FIN 638. MBA Portfolio Management (3)**

*Prerequisite:* FIN 635 or consent of instructor. The course provides a select group of graduate students the opportunity to obtain real-world experience in the process of managing an investment portfolio. It will combine a comprehensive theoretical foundation with the challenge of managing a real stock portfolio. Students will take a team-oriented approach, with each group expected to research and formally present their investment ideas to the class. In addition, guest speakers from the industry will share their professional experiences with the class.

### **FIN 639. Seminar in Financial Problems (3)**

*Prerequisite:* FIN 635. Selected topics in corporate finance are examined in the context of the managerial decision process. Emphasis is placed on the application of the theory of finance to problems facing entrepreneurs, investors and managers.

### **FIN 699. Independent Study Finance (3)**

*Prerequisites:* Permission of Graduate Advisor and Department Chair. No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business without prior approval of the Dean. Only those graduate students who have a current GPA of 3.0 or higher may register in a 600-level Independent Study course. Note: See Graduate Business Interdepartmental Courses for GBUS 694B, 695B and 696B.

# Information Systems

College of Business and Economics

**Chair:** Paul J. Lazarony

**Associate Chair:** Rishma Vedd

**Department of Accounting and Information Systems**

**Juniper Hall (JH) 3123**

**(818) 677-2461**

**www.csun.edu/acctis**

## Staff

Sherry Saebfar, Ann Ward

## Faculty

Glen L. Gray, Paul J. Lazarony, David Liu, David W. Miller, Dat-Dao Nguyen, L. Richard Ye, Yue “Jeff” Zhang.

## Emeritus Faculty

Donna A. Driscoll

## Degree Programs

**B.S., Information Systems**

**Option in Business Systems**

**Option in Information Technology**

**Minor in Information Systems**

## Mission

The B.S., Information Systems (BSIS) degree offers educational opportunities to students with diverse backgrounds who are interested in Information Systems (IS). The program provides students a synthesis of technological and business knowledge to develop and integrate effective IS solutions that support management decision making and organizational strategies. The program prepares graduates for a variety of IS careers in business, government and non-profit organizations.

## The Major

The study of Information Systems (IS) centers on the effective use of information technology—computers and telecommunications networks—to support management decision making and corporate strategy, in addition to providing all necessary operational level support for an organization.

## Student Learning Outcomes of the Undergraduate Program

1. Our graduates are able to recognize and analyze ethical problems in organizational situations and select and defend a course of action.
2. Our graduates are able to effectively communicate complex information system and business concepts orally and in writing.
3. Our graduates are able to apply critical thinking and problem-solving skills when analyzing and solving information system and business problems.
4. Our graduates understand the individual and group dynamics of project teams.
5. Our graduates have knowledge of IS technology components and their interrelations.
6. Our graduates have the knowledge to implement information systems that support an organization's strategic objectives.
7. Our graduates develop skills through research in IS literature that will prepare them for life-long learning in the field.

## Careers

The IS program helps prepare graduates to assume such positions as systems analyst, application program developer, database administrator, network specialist and web developer. Information Systems career opportunities are available in a variety of industries, including consulting, banking, entertainment, health, media, education and technology.

## Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

## Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Real Estate, Systems and Operations Management, or Insurance and Financial Services. All Business majors share 27 units of common Lower Division core courses and 19 units of common Upper Division core courses.

## Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

## Special Grade Requirements

Transfer students should be aware that no grade lower than a “C” will be accepted upon transfer from another institution to satisfy College of Business and Economics requirements.

## Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

## Requirements for the Bachelor of Science Degree in Information Systems

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in each course. All IS majors must earn a “C” or higher in all IS courses.

### 1. Common Lower Division Business Core (21 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| ECON | 160              | Principles of Microeconomics (3)                      |
| ECON | 161              | Principles of Macroeconomics (3)                      |
| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| SOM  | 120 <sup>1</sup> | Basic Business Statistics (3)                         |

<sup>1</sup>The 4 unit Math 140 course also satisfies this requirement.

### 2. Upper Division Writing Proficiency Exam (UDWPE) Requirement

The successful completion of the Upper Division Writing Proficiency Exam (UDWPE) with a score of 8 or higher is a prerequisite for enrollment in all 400-level information systems and business courses.

### 3. Common Upper Division Business Core (19 units)

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory (1)          |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

**4. Required Information Systems Core Courses (22 units)**

|      |       |  |
|------|-------|--|
| COMP | 110/L | Introduction to Algorithms and Programming/Lab (3/1) |
| IS   | 312   | Information Systems for Business (3)                 |
| IS   | 431   | Systems Analysis and Design (3)                      |
| IS   | 435   | Business Data Communications and Networking (3)      |
| IS   | 441   | Database Management Systems (3)                      |
| IS   | 451   | Systems Development Project (3)                      |
| PHIL | 230   | Introduction to Formal Logic (3)                     |

**Select One of the Following Options:****A. Business Systems Option (ISBS) (25 units)**

|      |                  |  |
|------|------------------|--|
| COMP | 105BAS           | Computer Programming in Basic (1)      |
| IS   | 335              | Information Technology in Business (3) |
| MATH | 103 <sup>2</sup> | Mathematical Methods for Business (3)  |

<sup>2</sup>MATH 103 or higher level mathematics course must be completed with a grade of "C" or higher.

**Select 3 units from the following Upper Division business courses:**

|      |     |   |
|------|-----|---|
| ECON | 310 | Price Theory and Applications (3)       |
| MKT  | 346 | Marketing Research (3)                  |
| MKT  | 442 | Business to Business Marketing (3)      |
| MKT  | 448 | Internet Marketing (3)                  |
| MGT  | 450 | Organization Change and Development (3) |
| MGT  | 456 | Negotiation and Conflict Management (3) |
| MGT  | 458 | Decision Making and Creativity (3)      |

**Select 12 units from the following IS elective courses:**

|     |        |  |
|-----|--------|--|
| IS  | 455    | Advanced Application Development (3)           |
| IS  | 457    | Advanced Telecommunications and Networking (3) |
| IS  | 497A-Z | Special Topics—Information Systems (3)         |
| SOM | 485    | Decision Support Systems (3)                   |

**B. Information Technology Option (ISIT) (25 units)**

|               |                   |   |
|---------------|-------------------|---|
| COMP          | 122/L             | Computer Architecture and Assembly Language (1+1) |
| COMP          | 182/L             | Data Structures and Program Design and Lab (3+1)  |
| COMP          | 222               | Computer Organization (3)                         |
| COMP          | 282               | Advanced Data Structures (3)                      |
| COMP          | 380/L             | Introduction to Software Engineering and Lab (3)  |
| MATH          | 150A <sup>3</sup> | Calculus I (5)                                    |
| Free Elective |                   | (Select any University course) (2)                |

<sup>3</sup> MATH 103 or higher level mathematics course must be completed with a grade of "C" or higher.

**Select 3 units from the following courses:**

|      |       |                                   |
|------|-------|-----------------------------------|
| COMP | 450   | Societal Issues in Computing (3)  |
| COMP | 467   | Multimedia Systems Design (3)     |
| COMP | 480/L | Software System Development (2+1) |
| COMP | 485   | Human-Computer Interaction (3)    |

**5. General Education (33 units)**

Of the 48 units of the General Education requirement, 15 units are satisfied by Lower Division requirements. MATH 103/150 satisfies the 3 unit mathematics requirement in Basic Skills. ECON 160 and 161 satisfy the 6 units of Social Sciences. BLAW 280 satisfies 3 units of Lifelong Learning and PHIL 230 satisfies the 3 unit critical thinking requirement in Basic Skills.

**Minor In Information Systems**

The study of Information Systems (IS) bridges all functional areas of today's organizations. Business professionals need a thorough understanding of IS to be competitive in the job market. Since IS facilitates communications throughout every type of organization, a concentration of study would also be of interest to students majoring in degree programs throughout the University. The Information Systems minor is for (1) students within the College of Business and Economics (except for ISBS or ISIT majors) and (2) students throughout the University majoring in programs such as Communications, Geography, Graphic Design, Engineering, Health Science, Kinesiology, Journalism or any other program where a student feels a concentration of Information Systems courses would be useful for his/her career.

**1. Required Courses (21 units)**

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)        |
| COMP | 100 <sup>1</sup> | Computers: Their Impact and Use (3)             |
| IS   | 312 <sup>2</sup> | Information Systems for Business (3)            |
| IS   | 431 <sup>3</sup> | Systems Analysis and Design (3)                 |
| IS   | 435 <sup>3</sup> | Business Data Communications and Networking (3) |
| IS   | 441 <sup>3</sup> | Database Management Systems (3)                 |
| IS   | 451 <sup>4</sup> | Systems Development Project (3)                 |

<sup>1</sup>COMP 100 satisfies 3 units of General Education in Lifelong Learning.

<sup>2</sup>IS 312 has a prerequisite of ACCT 220

<sup>3</sup>IS 431, IS 435 and IS 441 have a prerequisite of IS 312

<sup>4</sup>IS 451 has prerequisites of IS 431 and IS 435

This minor is not available to Information Systems majors.

|   |           |
|---|-----------|
| <b>Total Units Required for the Minor</b> | <b>21</b> |
|---|-----------|

**Course List****IS 312. Information Systems for Business (3)**

*Prerequisite:* ACCT 220. A survey of information systems concepts, including information technology, business information systems and information system development and management. Preparation of group and individual projects involving hands-on learning of database management systems, decision support software, and web page design and publishing. Practice in the use of a formal problem-solving process that includes five tasks. Presentation of results in written and/or oral form.

**IS 335. Information Technology in Business (3)**

*Prerequisite:* ACCT 220. Defines the information technology (IT) that is used in business, specifically the characteristics of hardware architecture, operating systems concepts and their interactions, as well as properties of n-tiered information systems. The laboratory component of the course will provide practice on computer hardware architecture, operating systems and software of information systems.

**IS 399. Independent Study (1-3)**

*Prerequisites:* Consent of instructor; Approval of Program Chair. For students capable of independent work and in need of advanced and specialized study. May be repeated for a total of 6 units.

**IS 431. Systems Analysis and Design (3)**

*Prerequisites:* Grade of "C" or higher in IS 312; a grade of "C" or higher in BUS 302; a grade of "CR" in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. This course covers the systems development life cycle. Topics include standard tools and techniques to analyze and design an information system from a structured as well as an object-oriented perspective. A Computer-Aided Software Engineering (CASE)

tool is used to facilitate the study. Required class work includes a group project on developing an information system in a business case.

**IS 435. Business Data Communications and Networking (3)**

*Prerequisites:* Grade of “C” or higher in IS 312; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. An introduction to the concepts and applications of telecommunications and networking technology in a business environment. Topics include network-related hardware and software technology, standards and protocols, local and wide area networks, network management and emerging trends. Emphasis is on the ability to integrate basic technological components to meet the business application requirements. Students will prepare a variety of projects involving the analysis, design and management of network systems.

**IS 441. Database Management Systems (3)**

*Prerequisite:* Grade of “C” or higher in IS 312; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. The design and implementation of computerized databases. Provides background for the selection and use of database management systems. Topics include types of available systems, functions of database administration, conceptual database design, data independence, integrity, privacy and query. The student will design and implement a database utilizing a commercial database management system.

**IS 450. Business Expert Systems (3)**

*Prerequisites:* Grade of “C” or higher in IS 431; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. An introduction to the uses of expert systems and the basic concepts underlying their design and construction. An overview of the issues involved in the development and implementation of business expert systems.

**IS 451. Systems Development Project (3)**

*Prerequisites:* Grade of “C” or higher in IS 431 and 435; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. An introduction to enterprise-level system development concepts, principles and practices. Evaluate and set up comprehensive system development projects for enterprises. Student teams will analyze, design and plan systems of moderate complexity, using current technologies and the appropriate project management methods in the solution.

**IS 455. Advanced Application Development (3)**

*Prerequisites:* Grade of “C” or higher in IS 431, 435 and 441; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Advanced application development emphasizing enterprise-wide, Web-based transaction processing topics such as: data mining, data warehousing, knowledge management, metadata representation, customer relations management, N-tier applications, systems integration and application integration. The course will include hands-on projects using advanced application development tools.

**IS 457. Advanced Telecommunications and Networking (3)**

*Prerequisites:* Grade of “C” or higher in IS 431, 435 and 441; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. An advanced course in telecommunications and networks emphasizing enterprise networking topics such as: network operating systems, network analysis and design, network security, virtual private networks, collaboration, wireless networks, VLAN, multi-platform integration, voice-over internet protocol, web server strategies and storage area networks. This course will include hands-on projects involving network design and implementation.

**IS 497A-Z. Special Topics - Information Systems (1-4)**

*Prerequisites:* Grade of “C” or higher in IS 431, 435 and 441; a grade of “C” or higher in BUS 302; a grade of “CR” in BUS 302L; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. Innovative course of study. Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**IS 498. Field Assignments and Reports—Information Systems (1-6)**

*Prerequisites:* Consent of instructor; Approval of Program Chair. For students capable of independent work and in need of advanced and specialized study. May be repeated for a total of 6 units.

**IS 499A-C. Independent Study (1-4)**

*Prerequisites:* Consent of instructor; Approval of Program Chair. For students capable of independent work and in need of advanced and specialized study. May be repeated for a total of 6 units.

**IS 599. Independent Study (1-3)**

*Prerequisites:* Consent of instructor; Approval of Program Chair. For students capable of independent work and in need of advanced and specialized study. May be repeated for a total of 6 units.

## Graduate

**IS 628. Computer-Based Information Systems (3)**

*Prerequisite:* ACCT 501 or one year of undergraduate accounting. An introduction to computer-based information systems at a fairly sophisticated level. Emphasis will be on the understanding of computer concepts, computer applications in an organizational environment and the analysis and design of information systems.

**IS 630. Accounting Information Systems (3)**

*Prerequisites:* IS 312; ACCT 352 and 460, or equivalents. Provides an understanding of requirements, design and control of major business processes/accounting cycles integrated in an enterprise system. Topics include Systems Analysis and Design methodologies and techniques for Accounting Information System development, issues in control and audit of systems fraud and abuse, and controls for systems reliability.

**IS 655. Information Systems Theory and Practice (3)**

*Prerequisite:* IS 628 or 630. Comprehensive coverage of current trends and management issues associated with information systems (IS) to deliver business value within organizations at local, national and global levels. Topics include issues in information systems planning, administration, resource management and new information technology (IT) adoption to achieve the alignment between IT/IS and corporate functions.

**IS 656. Information Systems Audit and Control (3)**

*Prerequisite:* IS 628 or 630. Examines concepts, standards and frameworks associated with IS auditing. Topics include the post-Sarbanes Oxley IS audit environment, assessment of risks and controls, computer fraud, legal and ethical issues, and audit of the systems development process. Students work through audit simulations to develop IS audit expertise.

**IS 657. IS Governance and Risk Management (3)**

*Prerequisite:* IS 628 or 630. Provides an overview of information systems (IS) governance and information risk management. The course stresses the importance of the alignment of IS governance to business objectives and the role of IS in achievement of organizational strategy. Topics discussed include contemporary compliance initiatives; strategic IS decision making; IS performance assessment, control structure and accountability; IS project management; IS policy definition and enforcement; risk analysis and mitigation; and IS security management (i.e., security planning, policy and controls). Established frameworks and standards for IS governance and control are discussed.

**IS 692 A-Z. Selected Topics in Information Systems (3)**

*Prerequisites:* IS 628 or 630. The exploration of a topic currently being debated by the information systems profession or the study of information systems through alternative means (e.g., cognitive science, language and communication, literature/film). Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**IS 699A-C. Independent Study (1-3)**

*Prerequisites:* Consent of instructor; Approval of Program Chair. For students capable of independent work and in need of advanced and specialized study. May be repeated for a total of 6 units.

## Degree Programs

**B.S., Management**

**Minor in Human Resource Management**

**Minor in Management**

## Student Learning Outcomes of the Undergraduate Program

The Department of Management provides conceptual foundations and behavioral skills needed to manage successfully in today's increasingly complex environment. Our faculty are committed to the transference of learning across disciplines through our Management Major and through our contributions to other College of Business and Economics and CSUN degree and non-degree programs.

Our contributions are focused on teaching, research and service that are: ethical and value-based, applied and practical, interdisciplinary, relevant across sectors and cultures, and valued by our on-campus and off-campus communities. In recognition of its responsibility to add value to all programs at the College of Business and Economics, including our own, the Management Department faculty share the objective of measurably enhancing students' skills and abilities in the areas of: leadership, critical and strategic thinking, interpersonal skills, creative and ethical problem solving, decision making, written and oral communication, and becoming effective, contributing members of society.

## The Major

The field of management encompasses all of the processes, skill-sand techniques necessary to accomplish organizational goals with and through other people. These include such primary functions as planning, organizing, leading, staffing and controlling. The manager's responsibility is to carry out these functions effectively and efficiently while balancing the needs of all his or her constituencies, including customers, employees, owners and other organizational stakeholders. For these reasons, the role and responsibilities of managers are often complex and challenging, requiring a broad understanding of the organization's internal and external environment.

All organizations, whether private or public, manufacturing or service, for-profit or social sector, are increasingly in need of effective managers and leaders at all levels. With the rise of professionalism and the decline of traditional hierarchical structures, the responsibilities for management and leadership are increasingly being shared by all organizational members. This need will only increase with the advances in technology that are progressively eliminating routine work and requiring each individual to add value to the organization of which they are a part and to society as a whole.

## Careers

The Management program prepares students for responsible positions in a wide variety of fields and organizations. These include:

1. Management in many settings, including manufacturing, operations, projects, R&D, services, retail, private sector, public sector and not-for-profits
2. Human resource management
3. Strategic management and planning
4. Consulting
5. Training and development
6. Being more effective in any position and role in work and in life, through the interpersonal and organizational skills gained in the program.

## Academic Advisement

All Lower Division program advisement is through the College Student Services Center. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

## Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division core courses and 19 units of common Upper Division core courses.

## Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

## Special Grade Requirements

Transfer students should be aware that no grade lower than a "C" will be accepted upon transfer from another institution to satisfy College of Business and Economics requirements.

## Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

## Requirements for the Bachelor of Science Degree in Management

Prerequisites must be completed prior to enrolling in each course; please check course descriptions for prerequisite courses. It is especially important to understand and manage the following key sequence of interdependent courses:

1. Students must complete all Lower Division required business courses before taking BUS 302/L: Gateway Experience and Laboratory.
2. Students must pass BUS 302/L or be enrolled in BUS 302/L to take MGT 360.
3. Students must pass BUS 302/L (including all the lab tests), MGT 360 with a grade of "C" or higher and the Upper Division Writing Proficiency Exam (UDWPE) with a score of 8 or higher to take 400-level management courses.
4. In addition to the above requirements, students also must pass FIN 303 and MKT 304 to take BUS 497.

It is vital that you plan ahead to satisfy these requirements in a timely sequence.

**1. Common Lower Division Business Core (27 units)**

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |
| ECON | 160              | Principles of Microeconomics (3)                      |

| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| MATH | 103 <sup>1</sup> | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup> | Basic Business Statistics (3)                         |

<sup>1</sup>MATH 103 or a higher level mathematics course must be completed with a grade of "C" or better.

<sup>2</sup>The 4-unit MATH 140 course also satisfies this requirement.

**2. Common Upper Division Business Core (19 units)**

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory (1)          |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

**3. Upper Division Required Courses for the Major in Management (24 units)****Common Required Courses for the Major in Management (12 units)**

|      |     |                                   |
|------|-----|-----------------------------------|
| BLAW | 308 | Business Law II (3)               |
| MGT  | 370 | Management Skills Development (3) |
| MGT  | 380 | Employment Practices (3)          |

**Communication Course, select one of the following:**

|      |     |                                       |
|------|-----|---------------------------------------|
| COMS | 323 | Group Communication (3)               |
| COMS | 443 | Rhetoric in Business (3)              |
| ENGL | 305 | Intermediate Expository Writing (3)   |
| ENGL | 306 | Report Writing (3)                    |
| ENGL | 407 | Composition and the Professions (3)   |
| PHIL | 305 | Business Ethics and Public Policy (3) |

Note: In addition to the courses shown above, students must complete an additional 12 units of required courses for their option.

**4. Required Courses for Management Major (12 units)**

|      |      |                            |
|------|------|----------------------------|
| ECON | 308  | Economics for Managers (3) |
| MGT  | 498C | Internship—Management (3)  |

**Select 6 units of Management electives from the following:**

|     |     |   |
|-----|-----|---|
| MGT | 450 | Organization Change and Development (3)   |
| MGT | 454 | Leadership, Power and Politics (3)  |
| MGT | 456 | Negotiation and Conflict Management (3)   |
| MGT | 458 | Decision Making and Creativity (3)  |
| MGT | 460 | Strategic Human Resource Management (3)   |
| MGT | 462 | Business and Society (3)  |
| MGT | 464 | International Business Management (3)   |
| MGT | 466 | Strategic Leadership of Sustainability: Organizational Challenges and Opportunities (3) |
| MGT | 496 | Experimental Topics Course—Management (3)   |
| MGT | 499 | Independent Study (3)   |

**5. General Education (29-32 units)**

Of the 48 units of the General Education requirement, 13 units are satisfied by the following courses: MATH 103 satisfies 3 units of the Basic Skills mathematics requirement; ECON 160 and 161 satisfy 6 units of Social Sciences; BLAW 280 satisfies 3 units of Lifelong Learning; and COMP 100 satisfies 1 additional unit. In addition, COMS 323 or PHIL 305, if taken to satisfy the 3-unit communications requirement, can satisfy 3 more units of Upper

Division general education. Further, ECON 308 may be able to satisfy 3 units of Upper Division GE in some programs.

The Department of Management strongly recommends the following General Education electives for its majors. Elements of these general education courses are integrated into the management curriculum:

|      |     |                                 |
|------|-----|---------------------------------|
| ANTH | 152 | Culture and Human Behavior (3)  |
| ENGL | 300 | Contemporary Literature (3)     |
| PHIL | 200 | Critical Reasoning (3)          |
| R S  | 205 | Contemporary Ethical Issues (3) |

**Minors in Management**

The Management Minor allows non-management majors the opportunity to pursue a secondary interest in the field of management.

One of the usual prerequisites for these courses (BUS 302/L) will be waived for students in either the management or human resource management minor. However, they must pass MGT 360 before taking courses other than MKT 100 and also must pass the Upper Division Writing Proficiency Exam with a score of 8 or higher before taking 400-level electives. These minors are not available to Management majors.

**Minor in Management****1. Required Courses (12 units)**

|     |                  |   |
|-----|------------------|---|
| MGT | 360              | Management and Organizational Behavior (3)        |
| MGT | 370              | Management Skills Development (3)                 |
| MGT | 380              | Employment Practices (3)                          |
| MKT | 100 <sup>1</sup> | Conceptual Foundations of American Enterprise (3) |

<sup>1</sup>MKT 100 Satisfies 3 units of General Education in Lifelong Learning

**Each student must successfully complete two of the following courses (6 units):**

|     |      |   |
|-----|------|---|
| MGT | 450  | Organization Change and Development (3)   |
| MGT | 454  | Leadership, Power and Politics (3)  |

**Total Units Required for the Minor****18**

## Course List

### MGT 360. Management and Organizational Behavior (3)

*Prerequisite:* Completion of Lower Division business Core. BUS 302/L is a colprerequisite for business majors. Introduction to the basic concepts in management and organizational behavior. Applies these concepts to the management of people and resources toward the accomplishment of organizational goals. Emphasis is on the organizational applications of behavioral science concepts, interpersonal skills and team building.

### MGT 370. Management Skills Development (3)

*Prerequisite:* Grade of "C" or higher in MGT 360. BUS 302/L is a prerequisite for Business majors. A presentation of major concepts of the behavioral sciences that apply to the management of organizations. Focus is on understanding factors and developing skills that affect the behavior and ultimately the performance of individuals and groups within organizations.

### MGT 380. Employment Practices (3)

*Prerequisite:* Grade of "C" or higher in MGT 360. BUS 302/L is a prerequisite for Business majors. Analyzes how, why and the procedures involved in recruiting, retaining, evaluating and managing employees in light of current issues and trends in the legal and socio-demographic environments.

### MGT 450. Organization Change and Development (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Examines current practices in the application of behavioral science knowledge to organization change issues. Focus is on the dynamics of change as well as current diagnostic techniques and intervention strategies.

### MGT 454. Leadership, Power and Politics (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Concentrates on the ability of individuals to lead others in important undertakings, including the management of organizations, the management of large-scale change and the resolution of complex problems. Focuses on behavioral approaches to leadership, particularly attaining and exerting power and managing the political subsystem effectively and ethically.

### MGT 456. Negotiation and Conflict Management (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Primary objective of this course is to introduce students to current theories and processes for negotiation and conflict management as practiced in a variety of settings. The course also builds students' skills in using negotiation and conflict management techniques.

### MGT 458. Decision Making and Creativity (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Analysis and skill-building in creative and ethical decision making, focused on managerial and organizational contexts. Decision making is considered as a comprehensive process, encompassing identification and framing of issues/problems, evaluation of alternatives, choice, implementation and learning from the experience. Attention is given to a variety of contemporary decision making and creativity techniques, in addition to traditional and rational decision making models.

### MGT 460. Strategic Human Resource Management (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Examination of the formulation and implementation of human resource policy at the strategic level. Emphasis is placed on how human resource functions can integrate with the overall strategy of the firm to make the firm more competitive.

### MGT 462. Business and Society (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. The course looks at the relationship among business, government, not-for-profits and society. The major issues covered include: ethical dilemmas for business; models of relationships among business, government and society; and the impact of the public policy process on business and vice-versa.

### MGT 464. International Business Management (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Studies various issues related to managing international businesses effectively. The purpose is to develop skills in identifying critical issues facing, analyzing key factors related to and developing solutions for businesses that either compete or will compete in global business environments.

### MGT 466. Strategic Leadership of Sustainability: Organizational Challenges and Opportunities (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Examines emerging concepts in organizational science, such as chaos theory, that can help students develop the conceptual and behavioral skills necessary to manage in the complex world of tomorrow. As such, this course continually adapts and adjusts to reflect new developments in management and in fields that can influence the management process.

### MGT 496A-Z. Experimental Topics Courses Management (3)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Course content to be determined.

### MGT 498 A-C. Internship Management (1-6)

*Prerequisites:* Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. Individual study regarding the application of management principles in the workplace. Student must obtain an approved internship pertaining to present or future career. A maximum of 12 units may be earned by combining Internship (MGT 498) and Independent Study (MGT 499). (Credit/No Credit only)

### MGT 499. Independent Study (1-3)

*Prerequisites:* Consent of Department Chair and consent of an instructor to act as sponsor; Grade of "C" or higher in MGT 360; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L is a prerequisite for Business majors. In order to do an Independent Study assignment in the College of Business and Economics, a student must have at least a 3.0 overall GPA, a 3.0 or higher GPA in all major courses and a 3.0 or higher GPA in his/her option courses. A student who does not meet these grade point requirements will not receive credit for any MGT 499 that he/she may take. Admission is based on evidence of ability to pursue Independent Study in-depth and on approval of a project submitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required

before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. A maximum of 6 units of Independent Study (MGT 499) may be earned in the College of Business and Economics. Further, a maximum of 12 units may be earned by combining Internship (MGT 498) and Independent Study (MGT 499).

## Graduate

Graduate courses are open only to selected Classified and Conditionally Classified graduate students who have attained an acceptable score on the GMAT. To determine their eligibility for enrollment, students majoring in areas other than business must consult with the Director of Graduate Programs of the College of Business and Economics.

### **MGT 620. Behavior in Organizations (3)**

*Prerequisite:* GBUS 600 (may be taken concurrently with MGT 620).

Covers the behavioral issues facing organizations and their managers, the methods and systems for addressing them and the interpersonal and analytical knowledge and skill needed to apply these methods and systems effectively. Focuses on practical experience, skill-building and theory about motivation, leadership, interpersonal communication, group processes and team building, decision making and job and organizational design.

### **MGT 630. Human Resource Strategies (3)**

*Prerequisite:* GBUS 600. Examination of the interaction between organizations and their political, social, economic and technical environments. Issues of ethical and social responsibility are examined.

### **MGT 635. Human Resource Management (3)**

*Prerequisite:* MGT 620. Provides students with a basic knowledge of the key aspects of managing an organization's most important resource—people. Covers major human resource theories, concepts, practices and related skills. Students will learn about the main employment practices of human resource management such as workforce planning, employment relations and employee retention.

### **MGT 661. Organization Theory and Design (3)**

*Prerequisite:* GBUS 600. Innovative assessment of systems theory as a strategic approach to aligning an organization's strategies, structure, technology and human resource practices with its environment. Views the history of organization theory as a story that illustrates diverse and creative ways of analyzing organizations.

### **MGT 662. Strategic Planning and Implementation (3)**

*Prerequisite:* GBUS 600. A pragmatic approach to strategy formulation and implementation from the vantage point of executive management. Requires students to conduct a strategic analysis of a firm and its lines of business, emphasizing the importance of strategic management and strategic thinking as ongoing processes.

### **MGT 663. Global Strategic Management (3)**

*Prerequisite:* GBUS 600. Explores the environmental challenges for global businesses, examining both the traditional and emergent global strategic responses of business to different market conditions. Emphasis is on contextual factors and the need for innovative strategies in an increasingly complex and changing environment in order to attain and/or maintain a competitive advantage.

### **MGT 664. Cross-Cultural Management (3)**

*Prerequisite:* GBUS 600. Examination of the impact of culture on managing within a global environment. Develops an appreciation for one's own culture, knowledge, awareness and sensitivity to cross cultural differences. The course develops the tools needed to handle the wide variety of situations challenging to the multinational manager.

### **MGT 665. Management of Technology and Innovation (3)**

*Prerequisite:* GBUS 600. Explores the emerging literature regarding the integration of strategy, technology and innovation. Stresses the strategic management of technological resources in order to gain a competitive advantage in the marketplace through timely innovation. There is extensive focus on the evolution of high-tech industries and the factors contributing to their success.

### **MGT 667. Leadership (3)**

*Prerequisite:* GBUS 600. This course concentrates on contemporary leadership theory and practice with an emphasis on self-assessment and development of participants' leadership skills. The course focuses on behavioral approaches to leadership, including gaining power and managing the political subsystem.

### **MGT 668. Selected Topics (1-3)**

*Prerequisite:* GBUS 600. The exploration of a topic currently being debated by the management community or the study of management through alternative means (e.g., classical literature, film) or the practice of management in a specific industry (e.g., film). Check with department for specific offering.

### **MGT 671. Change Management (3)**

*Prerequisite:* GBUS 600. Develops a conceptual framework and the personal skills that form the foundation for effective change management in organizations, whether in the role of manager or consultant. There is extensive use of structured role-plays, cases and analysis of incidents from students' current work experiences.

### **MGT 693. Seminar in Strategic Management (3)**

*Prerequisite:* Taken during last year of course work for MBA students. An integrative seminar dealing with broad business policy problems via the case method. There will be definition and analysis of internal and external factors affecting the development of the objectives and policies of the firm. The course stresses the interrelationships of major functional areas and the pervasive adjustments that may result from changes in a specific policy. Students are expected to use their personal experience and apply the analytical tools obtained from specialized courses in the solution of organization-wide problems. Emphasis is placed on case study methodology.

### **MGT 699. Independent Study-Management (3)**

*Prerequisites:* Permission of Graduate Advisor and Department Chair. No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College of Business and Economics without prior approval of the Dean. Only those graduate students who have at least a current 3.0 GPA may register in a 600-level Independent Study course. Note: See Graduate Business Interdepartmental Courses for GBUS 694C, 695C, 696C, 697C and 698C.

## Degree Programs

**B.S., Marketing**

**Minor in Marketing**

## Mission

Our mission is to blend education and research and thus distinguish ourselves in the community we serve as a unique resource to teach and advance the application of marketing knowledge, theory and skills, with which to facilitate linkages between organizations and customers. By effectively educating our diverse student population to high standards of performance, we prepare them to become productive leaders. Our faculty strives to extend the frontiers of knowledge in the marketing discipline by research and application of our research findings to the business community.

## The Major

Marketing is an extremely broad field encompassing a range of business activities that have been estimated to account for approximately 45% of Gross National Product (GNP). It involves such matters as the search for new product opportunities, product development and management, distribution, advertising and promotion, sales, sales management and post-sale activities. People employed in advertising (agencies, clients, broadcast and print media), research firms, wholesalers, retailers, logistics and transportation firms of every kind are part of the marketing segment of our economy.

Every firm, whether it is a manufacturer, retailer, wholesaler or service provider, needs marketing people to discover, measure and analyze markets; develop and manage products and services; manage storage and distribution; create and manage advertising, promotion and sales; establish coherent pricing policies; and maintain positive customer relations.

The Marketing degree gives our students the opportunity to gain quantitative and qualitative skills in the field. Moreover, there is sufficient flexibility in our program to allow our students to seek additional courses to fit their needs and interests in areas outside of marketing.

## Careers

The Marketing Degree prepares our students for careers in a wide variety of fields. These include advertising, international marketing, marketing management, marketing research, retailing and sales management.

## Student Learning Outcomes of the Undergraduate Program

In recognition of its responsibility to support the programs at the College of Business and Economics, the goal of Marketing Department faculty is to measurably enhance students' skills and abilities in the area of:

1. Problem solving and critical thinking
2. Written and oral communication
3. The application of information and research technology
4. Long-range strategic planning and implementation
5. Tactical marketing and/or supply chain management expertise

Our mission is accomplished not only by teaching and research efforts, but also through faculty guidance and community involvement activities, including the Wells Fargo Center for Small Business and Entrepreneurship and its Small Business Institute, and other partnerships with the community; continuous encouragement and sponsorship of marketing internships for students; continuous involvement with the College of Business and Economics' chapter of the American Marketing Association; and continuous enhancement of the Marketing Laboratory, which gives students and other constituents access to education and training in the use of cutting-edge information research technology.

## Academic Advisement

All Lower Division program advisement is through the College Student Services Center in JH 2113. Upon completion of BUS 302/L, students are encouraged to seek advisement through faculty mentors from the department of their major.

## Business Majors

A Business Major is any student majoring in Accountancy; Finance; Information Systems; Management; Marketing; or Business Administration with an option in either Business Law, Global Supply Chain Management, Insurance and Financial Services, Real Estate or Systems and Operations Management. All Business majors share 27 units of common Lower Division core courses and 19 units of common Upper Division core courses.

## Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

## Special Grade Requirements

Transfer students should be aware that no grade lower than a "C" will be accepted upon transfer from another institution to satisfy College of Business and Economics requirements.

## Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

## Requirements for the Bachelor of Science Degree in Marketing

Check course descriptions for prerequisite courses. Prerequisites must be completed prior to enrolling in each course.

### 1. Common Lower Division Business Core (27 units)

|      |                  |   |
|------|------------------|---|
| ACCT | 220              | Introduction to Financial Accounting (3)              |
| ACCT | 230              | Introduction to Managerial Accounting (3)             |
| BLAW | 280              | Business Law I (3)                                    |
| COMP | 100              | Computers: Their Impact and Use (3)                   |
| ECON | 160              | Principles of Microeconomics (3)                      |
| ECON | 161              | Principles of Macroeconomics (3)                      |
| ENGL | 205              | Business Communication in its Rhetorical Contexts (3) |
| MATH | 103 <sup>1</sup> | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup> | Basic Business Statistics (3)                         |

<sup>1</sup>MATH 103 or a higher level mathematics course must be completed with a grade of "C" or better.

<sup>2</sup>The 4-unit MATH 140 course also satisfies this requirement.

### 2. Common Upper Division Business Core (19 units)

|     |      |  |
|-----|------|--|
| BUS | 302  | Gateway Experience (3)                     |
| BUS | 302L | Gateway Experience Laboratory (1)          |
| FIN | 303  | Financial Management (3)                   |
| MGT | 360  | Management and Organizational Behavior (3) |
| MKT | 304  | Marketing Management (3)                   |
| SOM | 306  | Operations Management (3)                  |
| BUS | 497  | Capstone (3)                               |

### 3. Required Courses For Marketing Major (9 units)

|     |     |                                  |
|-----|-----|----------------------------------|
| MKT | 346 | Marketing Research (3)           |
| MKT | 348 | Consumer Behavior (3)            |
| MKT | 449 | Marketing Management Seminar (3) |

### 4. Elective Courses For Marketing Major (6 units)

Select 6 units from the Marketing Electives below or select 3 units from the Marketing Electives and 3 units from the Cross-discipline Electives listed below.

#### Marketing Electives

|         |                  |   |
|---------|------------------|---|
| BUS     | 491 <sup>3</sup> | Small Business Consulting (3)               |
| MKT     | 440              | Integrated Marketing Communications (3)     |
| MKT     | 441              | Sales Management (3)                        |
| MKT/SCM | 442              | Business to Business Marketing (3)          |
| MKT     | 443              | Retail Management (3)                       |
| MKT     | 445              | International Marketing Management (3)      |
| MKT/SCM | 447              | Logistics and Transportation Management (3) |
| MKT     | 448              | Internet Marketing (3)                      |

#### Cross-discipline Electives

|      |     |   |
|------|-----|---|
| ACCT | 470 | Strategic Cost and Profit Management (3)        |
| BLAW | 430 | Marketing Law (3)                               |
| BLAW | 450 | Intellectual Property Law (3)                   |
| ECON | 309 | The Use and Interpretation of Economic Data (3) |
| ECON | 307 | Economics for Marketing Professionals (3)       |

### 5. Experiential Requirement (3 units)

Select 3 units from the following courses to fulfill the Experiential requirement for the Marketing Major. Alternatively, students may fulfill this requirement through active participation in approved regional and national competitions supervised by faculty. These competitions include the annual American Advertising Federation Collegiate Competition and the California Collegiate Sales Competition.

|     |     |                         |
|-----|-----|-------------------------|
| BUS | 480 | Research on the SFV (3) |
|-----|-----|-------------------------|

|     |                  |                                   |
|-----|------------------|-----------------------------------|
| BUS | 491 <sup>3</sup> | Small Business Consulting (3)     |
| MKT | 498              | Internships and Field Studies (3) |

General Education. Of the 48 units of the General Education requirement, 13 units are satisfied by the following courses: MATH 103 satisfies 3 units of the Basic Skills mathematics requirement; ECON 160 and 161 satisfy 6 units of Social Sciences; BLAW 280 satisfies 3 units of Lifelong Learning; and COMP 100 satisfies one additional unit.

The Department of Marketing strongly recommends that its majors select one of the courses from each category below when fulfilling their GE Requirements.

#### Social, Cultural and Behavioral Science Foundations

|     |                  |                                  |
|-----|------------------|----------------------------------|
| PSY | 150 <sup>4</sup> | Principles of Human Behavior (3) |
| SOC | 305 <sup>4</sup> | Culture and Personality (3)      |
| SOC | 307 <sup>4</sup> | Ethnic Diversity in America (3)  |

#### Technological and Natural Environment Foundations

|      |                  |  |
|------|------------------|--|
| GEOG | 101 <sup>4</sup> | The Physical Environment (3)                         |
| GEOG | 206 <sup>4</sup> | Introduction to Geographic Information Systems (2/1) |
| GEOG | 366 <sup>4</sup> | Geography of Environmental Hazards (3)               |
| GEOL | 130 <sup>4</sup> | Physical Geology (3)                                 |
| GEOL | 300 <sup>4</sup> | Environmental Geology (3)                            |
| URBS | 310 <sup>4</sup> | Growth and Development of Cities (3)                 |

<sup>3</sup>Senior Standing with a 3.0 or higher GPA, others will be considered with recommendation.

<sup>4</sup>Courses that are also GE.

## Minor in Marketing

The Marketing Minor allows non-marketing majors the opportunity to pursue secondary interests in marketing. This minor is not available to marketing majors.

### 1. Required Courses (18 units)

|      |                          |   |
|------|--------------------------|---|
| ECON | 160 <sup>1</sup>         | Principles of Microeconomics (3)                  |
|      | or ECON 300 <sup>1</sup> | Economic Principles and Problems (3)              |
| MKT  | 100 <sup>1</sup>         | Conceptual Foundations of American Enterprise (3) |
| MKT  | 304                      | Marketing Management (3)                          |
| MKT  | 348                      | Consumer Behavior (3)                             |

#### Select 6 units from the following:

|         |                  |   |
|---------|------------------|---|
| ACCT    | 470              | Strategic Cost and Profit Management (3)    |
| BLAW    | 430              | Marketing Law (3)                           |
| BUS     | 480              | Research on the SFV (3)                     |
| BUS     | 491 <sup>2</sup> | Small Business Consulting (3)               |
| ECON    | 307 <sup>1</sup> | Economics for Marketing Professionals (3)   |
| ECON    | 309              | The Use and Interpretation of Data (3)      |
| MKT     | 346              | Marketing Research (3)                      |
| MKT     | 440              | Integrated Marketing Communications (3)     |
| MKT     | 441              | Sales Management (3)                        |
| MKT/SCM | 442              | Business to Business Marketing (3)          |
| MKT     | 443              | Retail Management (3)                       |
| MKT     | 445              | International Marketing Management (3)      |
| MKT/SCM | 447              | Logistics and Transportation Management (3) |
| MKT     | 448              | Internet Marketing (3)                      |

Alternatively, a Marketing minor may substitute one non-Marketing Lower or Upper Division three-unit course for an elective with approval of the Marketing Department Chair.

<sup>1</sup>Courses that are also GE. ECON 160 or 300 and ECON 360 satisfy six units of the Social Sciences requirement. MKT 100 satisfies three units of the Lifelong Learning requirement.

<sup>2</sup>Senior Standing with a 3.0 or higher GPA, others will be considered with recommendation.

## Course List

### MKT 100. Conceptual Foundations of American Enterprise (3)

For non-Business majors only. Designed to provide an introduction to the American enterprise system, its economic foundation and basic concepts of business organization and the nature of business activity. (Available for General Education, Lifelong Learning.)

### MKT 304. Marketing Management (3)

*Prerequisites:* Either 1) ECON 160 or 300 and a college-level statistics course; or 2) ECON 160 or 300 and MKT 100. BUS 302/L are co/prerequisites for Business majors. All Marketing majors must attain a grade of "C" or higher in MKT 304. Introduction to marketing management's role in an organization's business strategy. Topics include marketing management strategy, implementation and control; customer satisfaction and consumer behavior; product development; pricing strategy; marketing communications and promotion; distribution; international marketing; and marketing environment, laws and ethics. To enhance critical thinking, communication skills and leadership skills, the course work normally includes such elements as classroom discussion, case analyses, computer simulations and experiential exercises, and written and oral presentations.

### MKT 346. Marketing Research (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher); a college-level statistics course; or consent of instructor. BUS 302/L are prerequisites for Business majors. Use of scientific methods in the formulation and solution of marketing management problems. Emphasis is on the use of marketing research as an adjunct to marketing strategy and policy formulation and on extensive application of statistical techniques and decision-theory concepts to primary and secondary data collection and interpretation.

### MKT 348. Consumer Behavior (3)

*Prerequisite:* MKT 304 (Marketing majors must attain a grade of "C" or higher) or consent of instructor. BUS 302/L are prerequisites for Business majors. Comprehensive study of behavioral models and concepts to help understand, evaluate and predict consumer behavior in terms of marketing implications. Determinants of consumer behavior are explored to gain understanding of the complex forces as they affect the marketplace. Emphasis is upon understanding the processes that influence the acquisition, consumption and disposition of private and public sector goods and services.

### MKT 440. Integrated Marketing Communications (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher); Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Overview of marketing communications, including advertising and sales promotion. Behavioral, legal, economic and institutional aspects, as well as decision models applied to selected areas of promotion.

### MKT 441. Sales Management (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher) or consent of instructor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Activities and organization of the sales department. Methods employed by sales managers in selecting, training and supervising salespeople; selling methods, materials and campaigns; distribution channels and territories; pricing, budgets, controls and sales research. Lectures, cases, discussions and guest speakers.

### MKT/SCM 442. Business to Business Marketing (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher) or consent of instructor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Analysis of the marketing structure for industrial products, including raw materials, installations, operating supplies, accessory equipment and fabricating materials. Buying motives and buying habits for industrial goods, major trade channels, research, pricing, advertising and legal aspects. The purchasing function. Buying by governmental agencies. Governmental regulation. (Crosslisted with SCM 442.)

### MKT 443. Retail Management (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher) or consent of instructor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Retailing methods from the standpoint of the owner and manager. Buying planned stocks, inventory control, markup, accounting for stock control, pricing, style merchandising and advertising. Emphasis on problems of retail management, including departmentation, personnel control, supervisory training, store layout and store location.

### MKT 445. International Marketing Management (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher); senior standing; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Study of international marketing conditions and constant changes. Topics include foreign market research; trade promotion; political, legal, economic and cultural environments; product and service adaptability; and multinational competition.

### MKT/SCM 447. Logistics and Transportation Management (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher); Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Introduction to the management of firms that market transportation services; the managerial implications of the legal, economic and social environment. (Crosslisted with SCM 447.)

### MKT 448. Internet Marketing (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher) or consent of instructor; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Introduces the student to the principles of internet marketing. Focuses on the use of internet technologies as they have come to be used for the marketing, selling and distribution of goods and services. The course makes use of lectures, readings, cases, guest speakers and student projects.

### MKT 449. Marketing Management Seminar (3)

*Prerequisites:* MKT 304 (Marketing majors must attain a grade of "C" or higher); either MKT 346 or 348; 2nd semester senior standing; Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Major in business or economics. Advanced case approach to marketing

management decisions. Emphasis on developing marketing in response to variations in the competitive economic environment.

**MKT 496A-Z. Experimental Course-Marketing (3)**

*Prerequisite:* Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. Course content to be determined. (See subtitles in appropriate Schedule of Classes)

**MKT 498A-C. Field Assignments and Reports-Marketing (1-3)**

*Prerequisite:* Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L and MKT 304 (Marketing majors must attain a grade of "C" or higher) are prerequisites for Business majors. Individual study pertaining to present or future career. Consultation with instructor to determine program that includes field assignments and reports. A maximum of 12 units may be earned by combining Field Assignments and Reports (MKT 498) and Independent Study (MKT 499). An Academic Internship course. (Credit/No Credit only)

**MKT 499. Independent Study-Marketing (1-3)**

*Prerequisites:* Consent of Department Chair and consent of an instructor to act as sponsor; MKT 304 (Marketing majors must attain a grade of "C" or higher); Upper Division Writing Proficiency Exam (UDWPE) score of 8 or higher. BUS 302/L are prerequisites for Business majors. In order to do an Independent Study assignment in the College of Business and Economics, students must have at least a 3.0 overall GPA, a 3.0 or higher GPA in all major courses and a 3.0 or higher GPA in option courses. Students who do not meet these requirements will not receive credit for MKT 499. Admission is based on evidence of ability to pursue Independent Study in-depth and on approval of a project submitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. A maximum of 6 units of Independent Study (MKT 499) may be earned in the College of Business and Economics. Further, a maximum of 12 units may be earned by combining Field Assignments and Reports (MKT 498) and Independent Study (MKT 499).

## Graduate

Graduate courses are open only to selected Classified and Conditionally Classified graduate students. To determine their eligibility for enrollment, students majoring in areas other than business must consult with the Director of Graduate Programs of the College of Business and Economics.

**MKT 640. Marketing Management (3)**

*Prerequisites:* ECON 500; SOM 591 or equivalent. Advanced approach to marketing policy. Analysis of problems in marketing management. Emphasis on development of competence in adjusting marketing policies to changes in the general economic, competitive and social climate.

**MKT 641. Seminar in International Marketing (3)**

*Prerequisite:* MKT 640. Case studies in global marketing. International market assessment, methods of market entry, international market segmentation and development, global sourcing and distribution policy; global pricing, product and communications policy. Analysis of published cases and development of an original research project.

**MKT 642. Seminar in Marketing Communications and Market Stimulation (3)**

*Prerequisite:* MKT 640. Methods of research and theory in market stimulation and mass communication. Particular emphasis on attitude change and the factors affecting the processing of information.

**MKT 643. Seminar in Product Development and Management (3)**

*Prerequisite:* MKT 640. Current research pertaining to generating, analyzing, planning and controlling the organization's existing and new product efforts. Portfolio analysis, planning and development systems, and positioning and deletion decisions.

**MKT 644. Seminar in Consumer Behavior (3)**

*Prerequisite:* MKT 640. Study of recent contributions from the behavioral sciences that provide insight into consumer motivation and consumption behavior. Emphasis is on psychological and sociological models and current research from the literature.

**MKT 645. Seminar in Promotional Planning (3)**

*Prerequisite:* MKT 640. Case studies in the executive determination of promotional strategy, program planning, coordination and administration; issues in the optimal allocation of promotional resources and measurement of effectiveness. Special problems of ethics and government regulation.

**MKT 646. Seminar in Pricing Strategy and Policy (3)**

*Prerequisites:* MKT 640. Analysis of the issues underlying price decisions: economic, political, social and competitive. Price/quality relationships. Price forecasting. New product pricing and related problems through the product life cycle. Product line pricing. Stochastic bidding models. Antitrust considerations.

**MKT 647. Marketing Research Seminar (3)**

*Prerequisites:* MKT 640; SOM 591 or equivalent. The application of marketing research techniques to business problems. Emphasis is on research design, questionnaire development, data collection techniques and univariate and multivariate statistics.

**MKT 648. Seminar in Analytic Models of Market Behavior (3)**

*Prerequisite:* MKT 640. Examination of quantitative and behavioral models and recent mathematical developments pertaining to brand switching, new product introduction, distribution and channel structure, media selection and advertising response models and simulation of marketing processes.

**MKT 649. Seminar in Marketing Strategy and Policy (3)**

*Prerequisite:* MKT 640. Integrative seminar dealing with marketing management policy problems via the case method. Emphasis on the adjustment of marketing policy to changes in the economic and social environment. Application of background and analytic tools obtained from specialized courses to solve marketing policy problems.

**MKT 651. Customer Satisfaction (1)**

*Prerequisite:* GBUS 600. Customer satisfaction is at the very core of the classic “marketing concept” and of more recent managerial approaches, such as total quality management. Course emphasis is on critically evaluating the conceptualization, measurement and delivery of customer satisfaction.

**MKT 652. Direct Marketing (1)**

*Prerequisite:* GBUS 600. Direct marketing is a direct response marketing communications strategy used by manufacturers, suppliers, retailers, service companies, nonprofit organizations and others. Examines major tools of direct marketing such as: catalog marketing; direct mail marketing; telemarketing; TV shopping networks; radio, magazine and newspaper direct response marketing; electronic and computer shopping; and kiosk shopping. Emphasis is on evaluating and managing the role of direct marketing in the integrated marketing communications strategy of the organization.

**MKT 653. Integrated Marketing Communications (1)**

*Prerequisite:* GBUS 600. Emphasizes an understanding and appreciation of the effects of fully integrating the promotion mix elements in a marketing communications program: advertising, direct response marketing, personal selling, public relations and sales promotion.

**MKT 654. Qualitative Research Methods in Marketing (1)**

*Prerequisite:* GBUS 600. Emphasizes an understanding and critical evaluation of qualitative marketing research methods, such as focus groups, projective and indirect questioning, interpretive research and other nonquantitative approaches to understanding consumer behavior, motivation and values.

**MKT 699. Independent Study-Marketing (3)**

*Prerequisites:* Permission of Graduate Advisor and Department Chair. Only those graduate students who have a current 3.0 or higher GPA may register in a 600-level Independent Study course. No more than 6 units of Independent Study may be taken in any one department, and no more than 6 units may be taken in the College without prior approval of the Dean.

# California Studies

## College of Social and Behavioral Science

**Coordinator: Thomas Maddux**

**Sierra Tower (ST) 612**

**(818) 677-3566**

**www.csun.edu/csbs**

### *Program Committee*

Steven Graves (Geography), Andrea Henderson (History), Thomas Maddux (History), Merry Ovnick (History), Josh Sides (History)

### Interdisciplinary Program

#### Minor in California Studies

### Minor Program

The Minor in California Studies is an interdisciplinary program that includes courses from a variety of disciplines, including biology, ethnic studies, geography, geology, history, political science and urban studies. The minor is designed to enhance faculty and student interaction in an interdisciplinary setting and assist both in exploring the connections among different perspectives on a major subject. Students will not only study California from a variety of perspectives in the classroom, but they will also have an opportunity to engage in significant field research and internship activities as part of the minor's requirements. Internships that may assist a student's future career will be encouraged with public agencies, local archive and research collections, and private sector firms. The minor program also will encourage and support students who wish to participate in regional conferences on California Studies. Students should consult with the Coordinator or faculty on the Program Committee to review requirements, courses that are available each semester and internship and employment opportunities.

### Academic Advisement

Advisement is available from either the Coordinator of California Studies or from members of the Program Committee.

### Requirements for the California Studies Minor

A minimum of 18 units will be completed in at least three disciplines.

#### 1. Required Courses (6 units)

GEOG 330 Geography of California (3)  
HIST 488 California (3)

#### 2. Peoples of California

##### Select 3 units:

AAS 210 History of Asians in American (3)  
ANTH 307 Indians of California and the Southwest (3)  
CH S 246 Contemporary Issues of the Chicana (3)

#### 3. Research and Internship

##### 6 units with one course from each area.

##### Research:

ANTH 476A-E Field Study (3)  
CH S 497 Senior Seminar in Chicana/o Studies (3)  
GEOG 497E California (3)  
HIST 497T California (3)  
URBS 490C Field Work (3)

### Internship:

Social Science Career Internship listed under all departments in the College of Social and Behavioral Sciences: PAS 392A-Z: Field Work in the Pan African Community; POLS 486, POLS 498: Field Assignments and Reports; PSY 486, SOC 482SOC, SOC 475AEE/BEE, SOC 498AEE-CEE, URBS 494ABC and CHS 270: Field Work in Barrio Studies.

#### A minor advisor must approve the internship program

#### 4. Electives (3 units)

# Central American Studies

## College of Humanities

**Coordinator: Douglas Carranza Mena**  
**Sierra Hal (SH) 194, Jerome Richfield (JR) 219**  
**(818) 677-2736**  
**www.csun.edu/cas**

### Faculty

Douglas Carranza Mena, Beatriz Cortez

### Program Committee

Douglas Carranza (Chair), Beatriz Cortez (Central American Studies), Michael Love (Anthropology), Teresa Williams Leon (Asian American Studies)

### Programs

- B.A., Central American Studies
- Minor in Central American Studies

### Mission Statement

The Central American Studies Program has a tri-fold mission: to empower the large and growing Central American community in the U.S. by promoting academic excellence, community involvement and cultural diversity; to open spaces of global citizenship and dialogue between academia and society that contribute to the construction of a Central American transnational identity; and to promote an understanding and appreciation of the diverse Central American cultures, ethnicities, experiences and worldviews from an interdisciplinary global perspective.

### Student Learning Outcomes of the Undergraduate Program

The Central American Studies Program has identified five learning outcomes:

1. Students will develop critical thinking, writing and reading skills.
2. Students will acquire an awareness of the complexity of the historical, social and cultural developments in Central America as well as an understanding of the diverse Central American cultures, ethnicities, experiences and worldviews.
3. Students will expand their understanding of the transnational Central American community's experience and its economic and cultural contributions to the U.S. and Central America.
4. Students will develop the intellectual and social foundations and leadership skills necessary for promoting social change in U.S. society, especially in relation to Central American peoples in the U.S.
5. Students will recognize, understand, evaluate and change the culture of exclusion that has been prevalent in Central America and the U.S.

### Student Organization

The Central American United Student Association (CAUSA) strives for the growing Central American community in the U.S. to succeed in the world of higher education and to prepare an influential vanguard of future leaders who will impact the changing global, political and economic arenas. CAUSA's objective also is to raise and promote awareness of the Central American community at CSUN and in the Los Angeles area. As a result, the Central American Studies Program works in collaboration with CAUSA in the organization of events and community programs. CAUSA maintains a collaborative partnership with other sister organizations on and off campus, works on student recruitment and community support and plays a significant role in the formation of student leadership.

### Academic Advisement

All program faculty members are advisors: Douglas Carranza Mena and Beatriz Cortez. Call (818) 677-2736 for information on advisement office hours or for an appointment.

### Research Institute

The Central American Research and Policy Institute (CARPI) was established in 2001 for the purpose of developing research, policy and knowledge supporting the socioeconomic, cultural and civic development of the transnational Central American community in the U.S. and Central America. Policy development and academic research includes issues of common concern such as immigration, civil society, economic development and cultural identity of Central Americans. The research sponsored by CARPI is:

1. Undertaken by faculty mentors, experts in the discipline and trained students.
2. Focused on concrete issues in the lives of the community.
3. Aimed at helping the community understand itself and the challenges and changes it faces.
4. The basis for viable proposals for community advancement in the future.

CARPI brings faculty, students and community together as partners and participants in creating and disseminating the knowledge that will enable the Central American community to live up to its tremendous potential.

### Requirements for the Bachelor of Arts Degree

The Central American Studies Major consists of two options: The Standard Major and the Double Major.

#### A. Option I: Standard Major (45 units)

##### 1. Lower Division Required Courses (12 units)

###### Select one of the following:

- |         |  |
|---------|--|
| CAS 100 | Introduction to Central American Studies (3) |
| CAS 102 | The Salvadoran Experience (3)                |

###### Required Courses:

- |         |  |
|---------|--|
| CAS 201 | Survey of Central American Literature (3)                                |
| CAS 202 | Survey of Central American Visual, Installation and Performance Arts (3) |
| CAS 270 | Fieldwork in Central American Communities (1/2)                          |

##### 2. Lower Division Electives (3 units)

###### Select 1 of the following:

- |          |  |
|----------|--|

### Spanish Language Recommendation

In order for students to complete the minor successfully, students are encouraged to develop a proficiency in Spanish listening, speaking, reading and writing. While not a requirement, we recommend that students follow one of the two tracks listed below:

#### Language Option I for Native Speakers

|      |              |   |
|------|--------------|---|
| SPAN | 104          | Elementary Written Spanish II (3) and either          |
| SPAN | 220B         | Intermediate Spanish II (3)                           |
|      | or SPAN 296A | Spanish for Natives: Intermediate Written Spanish (3) |

#### Language Option II for Non-native Speakers

|      |               |                             |
|------|---------------|-----------------------------|
| SPAN | 220A          | Intermediate Spanish (3)    |
|      | and SPAN 220B | Intermediate Spanish II (3) |

|  |            |
|--|------------|
| <b>Total Units Required for the Degree</b> | <b>120</b> |
|--|------------|

### Course List

#### CAS 100. Introduction to Central American Studies (3)

Comparative, historical introduction to political, cultural and socio-economic aspects of the Central American experience both in Central America and in the United States. Considers the question of whether there can be a single Central American identity in light of the great variety of experiences of race, gender, ethnicity and social class in the Central American community. (Available for General Education, Comparative Cultural Studies.)

#### CAS 102. The Salvadoran Experience (3)

Introduction to the political, economic, social and cultural realities of Salvadoran life in El Salvador and in the U.S.. Emphasis is on various aspects of the institutional and private life of Salvadoran communities. The course is framed by historical and contemporary comparisons with other Central American national groups with respect to their experiences of race, ethnicity, class, gender and national identity. (Available for General Education, Comparative Cultural Studies)

#### CAS 113A. Approaches to University Writing A (3)

*Prerequisite: EPT score of 120-141 or higher.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Students are required to also enroll in UNIV 060 (1 credit) or equivalent. Individual tutoring is available through the Learning Resource Center.

#### CAS 113B. Approaches to University Writing B (3)

*Prerequisite: Successful completion of CAS 113A.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113B. Students are required to also enroll in UNIV 060 (1 credit) or equivalent. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

#### CAS 114A Approaches to University Writing A (3)

*Prerequisite: EPT score of 142-150.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114A. Individual tutoring is available through the Learning Resource Center.

#### CAS 114B Approaches to University Writing B (3)

*Prerequisite: Successful completion of CAS 114A.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114B. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

#### CAS 115. Approaches to University Writing

*Prerequisite: EPT score of 151 or higher.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 115. Individual tutoring is available through the AAS AC, Chicana/o Writing Lab, Pan African Studies Lab or Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

#### CAS 151. Fundamentals of Public Speaking (3)

*Prerequisites: EPT score of 151 or better, or EPT and successful completion of 113A and 114A or equivalent.* This course will introduce students to the fundamentals of public speaking and verbal communication, with particular emphasis on issues related to the Central American experience. This course will include intensive practice in public speaking, logical reasoning and critical reasoning. Over the course of the semester, students will learn how to research, design, prepare and deliver effective and engaging oral presentations. Students will be required to deliver four speeches that address topics and themes relevant to Central America and the Central American diaspora. Relevant themes include Central American histories, societies and cultures; diverse ethnic, race, class, gender and sexual identities; histories of colonial and imperial intervention in Central America; diaspora, immigration, labor, national identity, social exclusion and political activism (Available for General Education, Oral Communication.)

#### CAS 201. Survey of Central American Literature (3)

Analysis of literary traditions throughout the history of Central America from pre-Hispanic times to the present. The course will focus on 20th and 21st century literary movements, with the main emphasis placed on the historical and political elements and the ideological proposals of these works. It includes a discussion of the relationship between literary creation and the construction of Central American identity (Available for General Education, Arts and Humanities.)

#### CAS 202. Survey of Central American Visual, Installation and Performance Arts (3)

Analysis of artistic traditions throughout the history of Central America from pre-Hispanic times to the present. The course will focus on the cultural and sociopolitical construction of Central American identities through historical and contemporary artistic creation and

representation. The main emphasis will be placed on the historical and political elements, Central American ethnic and cultural diversity, the multiple struggles for visibility and the ideological proposals that these works pose. It includes a discussion of the cultural and sociopolitical dimensions of art and the relationship between artistic production and the construction of Central American identity.

**CAS 270/F. Fieldwork in Central American Communities (1/2)**

*Preparatory CAS 100 or 102.* Field study in a selected Central American community. By reflecting on their work experience, students learn how the needs of the community can best be met and how the well-being of the community is impacted by its relationships to state and local governments, community organizations and private institutions. Faculty supervisor assists students in obtaining appropriate work placements. Field study to be conducted under supervision and after preparatory instruction to acquaint students with field learning techniques. (Available for General Education, Lifelong Learning.)

**Upper Division**

**CAS 303. Central American Film (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* History of the development of Central American cinema and analysis of film and video production by Central Americans. The course will focus on 20th and 21st century film and video production, with the main emphasis placed on the historical and political context in which Central American cinema is produced, the ideological proposals that these works make and the ways in which this production contributes to the construction of a contemporary version of Central American identity.

**CAS 309. Ancient to Pre-Modern History of the Central American People (3)**

*Preparatory: Completion of Lower Division writing requirement.* Survey of the history of Central Americans from pre-Hispanic times to the pre-Independence days. Major topics include: Indigenous cultures (complex and single societies); Indigenous and European (Spanish and Anglo) relations; religion, family and land tenure; language and education; disease, labor and population; local and global trading; Indigenous revolts and pre-independence movements. (Available for General Education, Social Sciences.)

**CAS 310 Modern History of the Central American People (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Survey of the history of Central Americans from Independence times to the present. Major topics include: Independence movements; 19th and 20th century dependency; state-nation and identity formation; politics of mestizaje; indigenous resistance; imperialism and economic growth; relations with the U.S. and Europe; politics of development; contemporary social movements; Central American diaspora. (Available for General Education, Social Sciences.)

**CAS 311. The Central American Diaspora (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Comparative survey of the socioeconomic conditions and cultural life of Central American peoples in the U.S. today, particularly in California. Issues of immigration, employment, income, education, gender, family, language, national identity, acculturation and political participation will be examined. Discussion of Central American diaspora communities in other parts of the world also may be included. (Available for General Education, Comparative Cultural Studies.)

**CAS 350. Urbanization in Central America (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* During the second half of the 20th century the Central American societies were transformed from an agrarian to an urban-based service economy. As a result of this process

and the political instability in Central America, the Central American population was massively displaced toward urban areas inside and outside the region. This interdisciplinary course will provide students with an understanding of the cultural, social, economic, demographic and political implications of the planning and development of the urban landscape in Central America and of the Central American population movement to urban spaces inside and outside the region.

**CAS 355. Environment, Development and Social Exclusion in Central America (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* The focus of this course will be the origins and ramifications of environmental degradation that stems from developmental policies that have historically impoverished Central American peoples. It examines the socio-cultural, demographic, economic, political and environmental problems experienced by Central America. It also addresses the effects of mono-crop cultivation and the devastation produced by the use of pesticides. Additionally, this course shows the linkages of land degradation and poverty, strategies of survival and resistance, and the communal response to the dynamics of global capitalism.

**CAS 356 Afro-Caribbean Central American Cultures and Identities (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* This interdisciplinary course examines the history of colonization and racism, as well as the socio-economic, political and religious conditions that Afro-Caribbean peoples in Central America have endured since the time of their arrival as part of the slave trade until their most contemporary quests for self-determination. This course explores the diverse cultures of the Afro-Caribbean population, the transnational movements and initiatives linked to this population's struggle for liberation and the challenges that such struggles have represented to the Central American nation/states. Emphasis will be placed on Afro-Caribbean Central American peoples' cultures, identities, movements, rights, media, gender and migratory issues.

**CAS 364. Culture and Violence in Central America (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* This course will provide students with a basic theoretical and practical understanding of the relationship between culture and violence in Central America and the historical and socio-economic conditions that have generated a culture of violence in the region. The course will include an analysis of the concept of violence as it takes ideological and physical forms, both in public and private spaces. Major topics of discussion include the historical legacy of exclusion, authoritarianism and the militarization of Central America; the colonial legacy of ethnic exclusion; the destruction and exploitation of the environment; the role that violence plays in the experience of displacement that Central American immigrant communities undergo; and the relationship between violence, culture and the construction of Central American identity.

**CAS 365. Changing Roles of Central American Women (3)**

*Preparatory: Completion of the Lower Division writing requirement; either CAS 100 or 102.* Comparative examination of the shifting cultural, political, economic and sex/gender roles that have shaped the lives of Central American women, including women's roles prior to and after the revolutionary movements. Also includes discussions of women activists and women's movements in various Central American communities both in the U.S. and in Central America; the search of Central American women for identity in the U.S.; and women's contributions to art, music, poetry, literature, politics and culture. (Available for General Education, Comparative Cultural Studies.)

**CAS 366. Contemporary Indigenous Peoples of Central America (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* This interdisciplinary course examines the new socio-economic, political and religious conditions that contemporary Indigenous people of Central America are facing in their daily quest for self-determination. In the last two decades, the study of Indigenous practices has challenged the traditional notion that portrays native peoples as passive subjects of the modern forces of assimilation. This course explores the transnational spaces occupied by Indigenous associations and the challenges that this Indigenous movement represents to the Central American nation/states, the participation of women in defining the future of Indigenous communities and resistance to the imposing socio-cultural and political paradigms. Emphasis will be placed on contemporary Indigenous culture, identity, movements, rights, media, gender and migratory issues.

**CAS 367. Contemporary Religious Movements in Central America (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* Designed to provide students with a basic theoretical and practical understanding of the contemporary religious movements that shape Central American life in both Central America and the U.S. Emphasizes the transnational nature of Central American religious movements, as well as the ways in which these movements are responding to the legacy of war and violence that has impacted Central American life, both in the region and in diaspora communities.

**CAS 368. Central American Revolutionary Movements (3)**

*Preparatory: Completion of the Lower Division writing requirement; either CAS 100 or 102.* Examines the historical and socio-economic conditions that have shaped the Central American revolutionary movements. Major topics of discussion include the history of Central America leading up to these movements, the role of U.S. policy in the region before and during the movements, the ideological sources of the revolutionary movements and their organizing strategies, the impact of the U.S. anti-intervention and solidarity movements, the peace processes in the region and the influence of these movements on the post-revolutionary diaspora communities in the U.S. (Available for General Education, Social Sciences.)

**CAS 369. Contemporary Social Movements in Central America (3)**

*Preparatory: Completion of Lower Division writing requirement; either CAS 100, 102 or permission of the instructor.* Designed to provide students with a basic theoretical and practical understanding of the contemporary social movements that shape Central American life in both Central America and the U.S. Emphasizes the transnational nature of Central American social movements, as well as the ways in which these movements are responding to the legacy of war and violence that has impacted Central American life, both in the region and in diaspora communities. (Available for General Education, Social Sciences)

**CAS 410. The Central American Child (3)**

*Preparatory: Completion of the Lower Division writing requirement.* This course examines the educational experience of the Central American child within the context of immigration in the U.S.. At the same time, it compares the educational experience of the Central American child with that of children from other ethnic groups. This perspective provides insight into the Central American educational experience in the U.S.. It analyzes family educational strategies, Central American cultural and ethnic diversity, as well as the legacy of war and violence that has impacted Central American life in the U.S. and their influence on the Central American child's learning process. In addition, it will assess the educational system within a context of diversity, its outcomes and cultural relevance to Central American learning styles. Moreover, it will identify the national structures of culture, racism, economics and social policy, and their impacts on the local dynamics within the Central American community as well as other ethnic groups, particularly with regard to second language learning, bilingualism and non-Western cultural identities.

**CAS 421. Central American Literature Seminar (3)**

Examines Central American literary traditions with emphasis on the 20th and 21st centuries. Focuses on the aesthetic proposals, the historical and political context in which Central American literature is produced, the Central American transnational experience and the ways in which literary production contributes to the construction of a contemporary version of Central American identity. Emphasizes application of recent trends in literary theories and critical methodologies. Variable topics. Conducted in Spanish.

**CAS 440. Research Seminar on Central American Culture (3)**

*Preparatory: Upper Division standing; 6 units in Central American Studies, including CAS 201.* Techniques and practice of the critical analysis of culture. Develop and implement a comparative research project that explores in-depth some aspect of Central American cultures. Variable content. Possible topics include the role of literature in the construction of national identity, the creation of texts through oral history, cultural transformation and continuity in the Central American diaspora, art and social protest, medicine, religion and sorcery in the Central American diaspora. May be repeated for credit with instructor consent.

**CAS 460. Research Seminar on Central American Political Issues (3)**

*Preparatory: Upper Division standing; 6 units in Central American Studies, including CAS 201.* The purpose of this seminar is to acquaint students with the techniques and practices of theoretical research. Students will develop and implement comparative research projects that explore in-depth some aspect of the Central American political experience. Variable content. Possible topics include Sandinismo in theory and practice, the role of the Catholic Church and the influence of Evangelical Protestantism in Central American communities, postwar democracy in Central America and political activism in Central American diaspora communities in California.

# Chemistry and Biochemistry

College of Science and Mathematics

**Chair: Eric Kelson**

**Eucalyptus Hall (EH) 2102**

**(818) 677-3381**

**www.csun.edu/chemistry**

## Faculty

Jeffrey Charonnat, Susan Collins, Karin Crowhurst, Daniel Curtis, Jussi Eloranta, Paula Fischhaber, Simon Garrett, Joseph Hajdu, Eric Kelson, Jheem Medh, Gagik Melikyan, David Miller, Thomas Minehan, Katsu Ogawa, Taoboem Oh, Yann Schrodi, Shiquan Tao, Jessica Vey

## Emeritus Faculty

Henry Abrash, Kenneth Hardcastle, Francis Harris, William Harrison, Margaret Holzer, I-Nan Hsu, Sandra Jewett, Paul Klinedinst, LeRoy Nyquist, Carl Olsen, Sandor Reichman, Edward Rosenberg, James Schaeffer, Ricardo Silva, Dean Skovlin

## Degree Programs

Undergraduate:

**B.A., Chemistry**

**B.S., Chemistry**

**B.S., Biochemistry**

**Minor in Chemistry**

Graduate:

**M.S., Biochemistry**

**M.S., Chemistry**

## The Major

Chemistry is called the central science. It addresses problems raised in related fields such as biology, geology, physics and engineering. Chemists solve such problems by analyzing substances, synthesizing new materials and by measuring their properties. They also investigate biochemical systems.

## Careers

A degree in chemistry will enable you to work as a professional chemist, synthesizing compounds, analyzing qualitatively and quantitatively the content of various materials and measuring the properties of chemical substances. A degree in biochemistry will enable you to work in the developing field of genetic engineering. A degree in chemistry will help you pursue a career in the areas of environmental protection, biotechnology, nanotechnology and in many areas related to chemical and pharmaceutical sciences. In addition, any of the degree options in chemistry will enable you to enter professional programs such as medical, dental or pharmacy school.

## Academic Advisement

Each undergraduate major has an assigned faculty advisor. Chemistry majors must consult with their advisor for program planning and approval each semester before being allowed to register for classes. Elective courses taken to fulfill requirements in the major should have prior approval of the student's advisor. Please contact the Department Office for graduate program.

## Department Programs

The B.A. degree is designed for students who desire: (a) a strong chemistry background for careers in the health field (see advisor concerning additional necessary courses); (b) careers in industry, including textile chemistry, technical sales, government laboratories, patent law, library fields, etc.; or (c) a single subject teaching credential (science, chemistry).

The B.S. Degree in Chemistry is designed to prepare students who desire: (a) to pursue graduate work in chemistry; (b) to work in indus-

try or government laboratories; or (c) to work in the fields of technical sales, hazardous materials testing and handling, chemical literature or chemical patents.

The B.S. Degree in Biochemistry degree is designed for students who desire: (a) pre-medical, pre-dental, pre-pharmacy or pre-veterinary preparation; (b) graduate study in biochemistry; or (c) careers in the life sciences that require an understanding of biological phenomena at the molecular level.

The curricula for the B.S. degree in Chemistry and for the B.S. degree in Biochemistry have been reviewed by the American Chemical Society (ACS) and meet its requirements for approved programs.

The M.S. degree in Chemistry is designed to prepare students for research-oriented careers in chemical industry, for entry into doctoral programs at other institutions or for teaching of chemistry at institutions such as community colleges.

The M.S. in Biochemistry allows specialization in the areas of biochemistry, molecular biology or bioorganic chemistry and is intended for students desiring research-oriented careers in chemical, biochemical, biotech industry, post-secondary chemistry teaching or entry into Ph.D. programs.

## Student Learning Outcomes of the Undergraduate Program

1. Demonstrate basic knowledge in the following areas of chemistry: analytical, biochemistry inorganic, organic and physical.
2. Organize and communicate scientific information clearly and concisely, both verbally and in writing.
3. Effectively utilize the scientific literature, including the use of modern electronic search and retrieval methods, to research a chemistry topic or to conduct chemical research.
4. Work effectively and safely in a laboratory environment, including the ability to follow experimental chemical procedures and maintain a proper lab notebook.
5. Effectively utilize modern chemical instrumentation to obtain data and perform research.
6. Perform qualitative and quantitative chemical analysis, including the application of computer technology for such analyses.
7. Describe the impact of chemistry on our world, including the environment, the economy and medicine.
8. Demonstrate an ability to determine the scientific validity of a claim that pertains to consumer products, the environment or the life sciences.

## Requirements for the B.A. Degree in Chemistry

### 1. Lower Division Required Courses (24 units)

|      |        |   |
|------|--------|---|
| CHEM | 101/L  | General Chemistry I and Lab (4/1)       |
| CHEM | 102/L  | General Chemistry II and Lab (4/1)      |
| MATH | 255A   | Calculus for the Life Sciences I (3)    |
| MATH | 255B   | Calculus for the Life Sciences II (3)   |
| PHYS | 220A/L | Mechanics and Lab (3/1)                 |
| PHYS | 220B/L | Electricity and Magnetism and Lab (3/1) |

### 2. Upper Division Required Courses (27 units)

|         |       |  |
|---------|-------|--|
| CHEM    | 321/L | Chemical Analysis I and Lab (2/2)                    |
| CHEM    | 333/L | Organic Chemistry I and Lab (3/1)                    |
| CHEM    | 333R  | Problem Solving in Organic Chemistry I (1)           |
| CHEM    | 334/L | Organic Chemistry II and Lab (3/1)                   |
| CHEM    | 334R  | Problem Solving in Organic Chemistry II (1)          |
| CHEM    | 351/L | Physical Chemistry I and Lab (4/1)                   |
| CHEM    | 401   | Inorganic Chemistry (3)                              |
| CHEM    | 422/L | Chemical Analysis II and Lab (2/2)                   |
| CHEM    | 495A  | Directed Undergraduate Research                      |
| or CHEM | 499A  | Independent Study with presentation of a seminar (1) |

**3. Upper Division Electives (7 units)**

Chemistry electives selected with approval of major advisor from 400- or 500-level courses in Chemistry. At least 3 units must be from electives other than CHEM 495 and 499.

|  |            |

| CHEM | 462/L | Biochemistry II (3/1)                       |
| CHEM | 465   | Topics in Biochemistry (3)                  |

**3. Upper Division Electives (9 units)**

A minimum of 3 units of Upper Division electives selected from the following courses:

|      |        |   |
|------|--------|---|
| CHEM | 411    | Synthesis (3)   |
| CHEM | 433    | Organic Analysis (3)  |
| CHEM | 471    | Chemical Literature, Information Retrieval and Presentation (1) |
| CHEM | 481    | Nuclear and Radiochemistry (4)                                  |
| CHEM | 495A-C | Directed Undergraduate Research (1-3)                           |
| CHEM | 499A-C | Independent Study (1-3)   |
| CHEM | 538    | Natural Products (3)  |

A minimum of 6 units of electives selected with approval of major advisor from Upper Division courses in biology.

|  |            |
|--|------------|
| <b>Total Units in the Major</b>            | <b>84</b>  |

| <b>Total Units Required for the Degree</b> | <b>120</b> |

**Requirements for the M.S. Degree in Chemistry****A. For Admission to the Program:**

- In addition to general University requirements for admission, a Bachelor's Degree with 2.75 or higher overall GPA and a Chemistry major or other area with appropriate science content. Applicants with an overall GPA between 2.50 and 2.75 may be admitted if their GPA in the last 60 units is at or above 2.75.
- Foreign students must submit a minimum TOEFL score of 550 (paper-based test) or 213 (computer-based test) to demonstrate their proficiency in the English language.
- Departmental approval. The department may request additional supporting material to assess an applicant's preparation and likelihood for academic success.

**B. For Classified Status**

- Satisfactory scores on the departmental proficiency exams in organic, inorganic and physical chemistry or demonstrated competence through course work in these areas.
- General University requirements for classified status.

**C. Requirements for the degree:**

- A minimum of 30 units of graduate work, including a thesis. At least 21 units must be taken in 500- or 600-level courses. Normally, degree candidates are expected to serve as teaching assistants in the department.

**a. Required Courses (6-12 units)**

|      |        |                                  |
|------|--------|----------------------------------|
| CHEM | 691    | Literature Seminar (1)           |
| CHEM | 692    | Thesis Seminar (1)               |
| CHEM | 696A-C | Directed Graduate Research (3-7) |
| CHEM | 698A-C | Thesis (1-3)                     |

**b. Electives (18-24 units)**

The electives should be selected with the approval of the Graduate Coordinator from 400- and 500-level courses and must include at least one course that has a lab component.

A maximum of 9 units of 400-level courses may be applied toward the 30 units required for the degree.

2. Oral defense of thesis.
3. Formal Approval by the Graduate Thesis Committee.

|                                     |    |
|-------------------------------------|----|
| Total Units Required for the Degree | 30 |
|-------------------------------------|----|

## Requirements for the M.S. Degree in Biochemistry

### A. For Admission to the Program

1. In addition to general University requirements for admission, Bachelor's Degree with 2.75 or higher overall GPA and a major in Chemistry, Biochemistry or other area with the appropriate science content. Applicants with an overall GPA between 2.50 and 2.75 may be admitted if their GPA in the last 60 units is at or above 2.75.
2. Foreign students must submit a minimum TOEFL score of 550 (paper-based test) or 213 (computer-based test) to demonstrate their proficiency in the English language.
3. Departmental approval. The department may request additional supporting material to assess an applicant's preparation and likelihood for academic success.

### B. For Classified Status

1. Demonstrated competence in biochemistry and organic chemistry, and in physical or inorganic chemistry, either through satisfactory scores on the departmental proficiency exams or through course work in these areas.
2. General University requirements for classified status .

### C. Requirements for the Degree

1. A minimum of 30 units of graduate work, including a thesis to be completed within five years of attaining classified status. At least 21 units must be taken in 500- or 600-level courses. Normally, degree candidates are expected to serve as teaching assistants in the Department.

#### a. Required Courses (6-12 units)

##### 500-level Biochemistry Courses (6)

|          |                                  |
|----------|----------------------------------|
| CHEM 691 | Literature Seminar (1)           |
| CHEM 692 | Thesis Seminar (1)               |
| CHEM 696 | Directed Graduate Research (3-7) |
| CHEM 698 | Thesis (1-3)                     |

#### b. Electives (18-24 units)

These electives should be selected with the approval of the Graduate Coordinator from 400- and 500-level Chemistry and Biochemistry/ Biology courses and must include at least one course that has a laboratory component. A maximum of 9 units of 400-level courses may be applied toward the 30 units required for the degree. A list of suitable electives can be found at the Department website and also is available from the Graduate Coordinator or the Department Office.

2. Oral defense of thesis.
3. Formal approval by the Graduate Thesis Committee.

|                                     |    |
|-------------------------------------|----|
| Total Units Required for the Degree | 30 |
|-------------------------------------|----|

## Requirements for Minor in Chemistry

### 1. Lower-Division Required Courses (10 units)

|            |  |
|------------|--|
| CHEM 101/L | General Chemistry I and Lab (4/1)  |
| CHEM 102/L | General Chemistry II and Lab (4/1)<br>(PHYS 100A/B, General Physics, is recommended) |

### 2. Upper-Required Courses (18 units)

|            |   |
|------------|---|
| CHEM 321/L | Chemical Analysis I and Lab (2/2)   |
| CHEM 333/L | Organic Chemistry I and Lab (3/1)   |
| CHEM 333R  | Problem Solving in Organic Chemistry I (1)  |
| CHEM 334/L | Organic Chemistry II and Lab (3/1)  |
| CHEM 334R  | Problem Solving in Organic Chemistry II (1)   |
| CHEM 464/L | Principles of Biochemistry and Lab (3/1) or a minimum of 3 units of other approved Upper Division Chemistry for which the student has the prerequisite. |

|                                     |       |
|-------------------------------------|-------|
| Total Units Required for the Degree | 27-28 |
|-------------------------------------|-------|

## Course List

### CHEM 100. Principles of Chemistry (3)

*Prerequisite:* Qualifying score on the ELM examination or satisfying the exemption requirements. One-semester preparatory course that focuses on developing problem-solving skills based on an introduction to the field of chemistry. Application of the scientific method, modern ideas concerning atomic and molecular structure, principles of compound formation, and chemical nomenclature and calculations involving scientific units are emphasized. Selected topics in applied chemistry and the application of chemical principles to life and environmental sciences are explored. Engineering and Science majors should consult with their advisors before enrolling in this course. Credit cannot be earned in both CHEM 100 and 103. Students using this course to satisfy a General Education requirement in Natural Sciences may satisfy the corresponding lab requirement by completing CHEM 100L. 3 hours lecture per week.

### CHEM 100L. Principles of Chemistry Laboratory (1)

*Prerequisite:* Qualifying score on the ELM Examination or satisfying the ELM exemption requirement. *Corequisite:* CHEM 100. Optional laboratory course to accompany CHEM 100 in which the fundamentals of scientific inquiry and basic laboratory techniques are presented. May be used to satisfy the laboratory requirement in Natural Sciences of General Education provided CHEM 100 is also completed. One 3-hour lab per week.

### CHEM 101/L. General Chemistry I and Lab (4/1)

*Prerequisite:* Satisfactory score on the Chemistry Placement Test (CPT) or a grade of C or higher (C- is unacceptable) in CHEM 100 taken at CSUN only. *Corequisite:* CHEM 101L. Basic course in the fundamental principles and theories with special emphasis on chemical calculations. Includes a discussion of the kinetic molecular theory, atomic structures, the periodic table, solutions and oxidation-reduction. Recitation portion deals with problem solving, review of the lecture material and quizzes. Lab section emphasizes basic lab skills, quantitative relationships in chemistry and inorganic preparative procedures. Completion of CHEM 101/L satisfies General Education Natural Sciences, including the corresponding lab requirement. 3 hours lecture; 1 hour recitation per week; one 3-hour lab per week.

**CHEM 102/L. General Chemistry II and Lab (4/1)**

*Prerequisite:* CHEM 101/L with a minimum grade of C- in CHEM 101. *Corequisite:* CHEM 102L. Continuation of CHEM 101. Introduction to kinetics, gas phase and solution equilibria, electrochemistry, chemical thermodynamics, radio, organic chemistry and the descriptive chemistry of the more familiar metals and nonmetals. Recitation portion deals with problem solving, review of the lecture material and quizzes. Lab section consists of experiments dealing with kinetics, acid-base and solubility equilibria, selected reactions of metals and nonmetals, and qualitative elemental analysis. Completion of CHEM 102/L satisfies General Education, Natural Sciences, including the corresponding lab requirement. 3 hours lecture; 1 hour recitation per week; one 3-hour lab per week.

**CHEM 103/L. Introductory Chemistry I and Lab (3/1)**

*Prerequisite:* Qualifying score on the ELM Examination or satisfying the ELM exemption requirements. *Corequisite:* CHEM 103L. Not open to engineering, biology or physical science majors. Designed to stress fundamental principles of inorganic chemistry, the structure of atoms and molecules, the periodic table, states of matter, chemical calculations involving stoichiometry and simple algebraic operations. Credit cannot be earned in both CHEM 100 and 103. Students can use this course to satisfy the General Education, Natural Sciences laboratory requirement. 3 hours lecture and one 3-hour lab per week.

**CHEM 104/L. Introductory Chemistry II and Lab (3/1)**

*Prerequisite:* CHEM 103/L. *Corequisite:* CHEM 104L. Not open to engineering, biology or physical science majors. Continuation of CHEM 103/L. Properties of solutions, chemical equilibrium, acids and bases. Chemistry of simple organic compounds and common elements. Students can use this course to satisfy the General Education, Natural Sciences laboratory requirement. 3 hours of lecture and one 3-hour lab per week.

**CHEM 110. Chemistry in Action (3)**

One-semester course introducing chemistry and its relation to technological advances and their impact on our society and the environment. Students using this course to satisfy a General Education requirement in Natural Sciences may satisfy the corresponding lab requirement by completing CHEM 110L. 3 hours lecture per week.

**CHEM 110L. Chemistry in Action Lab (1)**

*Recommended Corequisite or Preparatory:* CHEM 110 or 100. No credit for Science and Engineering majors. Laboratory exercises introduce the fundamentals of scientific inquiry and basic laboratory techniques. May be used to satisfy the lab requirement in Natural Sciences of General Education provided CHEM 100 or 110 also is completed. One 3-hour lab per week.

**CHEM 235/L. Introductory Organic Chemistry and Lab (3/1)**

*Prerequisite:* CHEM 102/L or CHEM 104/L. *Corequisite:* CHEM 235L. A course describing simple aliphatic and aromatic compounds with an emphasis on the chemistry of functional groups. 3 hours of lecture and one 3-hour lab per week. No credit for Science and Engineering majors, except for certain options in Biology and Geology; consult your major department. This course does not substitute for CHEM 333.

**Upper Division****CHEM 321/L. Chemical Analysis I and Lab (2/2)**

*Prerequisite:* CHEM 102/L. *Corequisite:* CHEM 321L. Emphasizes the principles of analytical reactions and the theory and applications of instruments to problems of chemical analysis. Principal topics include volumetric methods and instrumental techniques such as spectrophotometry, electrochemistry and chromatography. Lab: Introduction to the experimental methods of analytical chemistry based on the theory covered in CHEM 321. Emphasis on the development of careful and accurate lab technique. 2 hours lecture per week; two 3-hour lab periods per week.

**CHEM 333/L. Organic Chemistry I and Lab (3/1)**

*Prerequisite:* CHEM 102/L. *Corequisite:* CHEM 333L (all majors), CHEM 333R for Chemistry and Biochemistry majors. *Recommended Corequisite:* CHEM 333R for all other majors. The study of the structure and properties of organic molecules, with a special emphasis on functional groups and their reactions. Attention given to the mechanisms of organic reactions and the spectroscopic techniques used to determine the structure of organic molecules. Lab: An introduction to the techniques of synthesis, purification and characterization of organic compounds. 3 hours lecture per week; one 3-hour lab per week.

**CHEM 333R. Problem Solving in Organic Chemistry I (1)**

*Corequisite:* CHEM 333. Critical analysis of topics introduced in CHEM 333. Structured group work is used to develop essential analysis and problem-solving skills. 1 hour per week.

**CHEM 334/L. Organic Chemistry II and Lab (3/1)**

*Prerequisite:* CHEM 333/L. *Corequisite:* CHEM 334L (all majors), CHEM 334R for Chemistry and Biochemistry majors. *Recommended Corequisite:* CHEM 334R for all other majors. Continuation of CHEM 333, with an emphasis on mechanisms of organic reactions and synthesis. Attention given to representative compounds of interest in biology and medicine. Lab: Exposure to reactions common in chemical synthesis, including arene substitution, transformations of carbonyl compounds, the Diels-Alder reaction and polymer synthesis. 3 hours lecture per week; one 3-hour lab per week.

**CHEM 334R. Problem Solving in Organic Chemistry II (1)**

*Prerequisite:* CHEM 333/L. *Corequisite:* CHEM 334. *Recommended Preparatory:* CHEM 333R. Critical analysis of topics introduced in CHEM 334. Structured group work is used to develop essential analysis and problem-solving skills. 1 hour per week.

**CHEM 351. Physical Chemistry I (4)**

*Prerequisites:* CHEM 102/L; PHYS 220A or 225; MATH 150B or 255B. *Corequisite for Chemistry B.A. and B.S. majors:* Chem 351L. *Recommended Corequisite or Preparatory:* Chem 351L and MATH 250. Basic laws of thermodynamics, states and changes of state, solutions, equilibria, phase rule, kinetic molecular theory, chemical kinetics and electrochemistry. 4 lecture hours per week. (Offered Fall semester)

**CHEM 351L. Physical Chemistry I Lab (1)**

*Corequisite:* CHEM 351. Laboratory course for CHEM 351. Introduction to the experimental methods of physical chemistry based on the concepts covered in CHEM 351. One 3-hour lab per week. (Offered Fall semester).

**CHEM 352. Physical Chemistry II (4)**

*Prerequisites:* CHEM 321/L, 351; PHYS 220B or 226. *Corequisite for Chemistry B.S. majors:* CHEM 352L. *Recommended Corequisite or Preparatory:* CHEM 352L; MATH 250 and 280. Continuation of CHEM 351. Quantum mechanics, atomic and molecular structure, spectroscopy, statistical mechanics and new developments and trends in physical chemistry. (Offered Spring semester)

**CHEM 352L. Physical Chemistry II Lab (1)**

*Corequisite:* CHEM 352. Laboratory course for Chem 352. Selected experiments illustrating some of the important concepts covered in CHEM 352. One 3-hour lab per week. (Offered Spring semester)

**CHEM 365/L Introduction to Biochemistry and Lab (3/1)**

*Prerequisite:* CHEM 235/L or CHEM 333/L. *Corequisite:* CHEM 365L. A course designed for non-science majors, describing chemistry and metabolism of proteins, carbohydrates, lipids, vitamins, hormones, etc. 3 hours of lecture and one 3-hour lab per week. No credit for Science or Engineering majors, except for certain options in Biology; consult your major department.

**CHEM 401. Inorganic Chemistry (3)**

*Prerequisite:* CHEM 351. Principles of chemical bonding and molecular structure; survey of the chemistry of the elements of the periodic system. 3 hours lecture per week.

**CHEM 401L. Inorganic Chemistry Lab (1)**

*Corequisite:* CHEM 401. Synthesis and characterization of inorganic and organometallic compounds. Synthetic techniques important to inorganic chemistry, such as electrochemical synthesis, autoclave reactions and inert atmosphere techniques, as well as inorganic spectroscopic techniques. One 3-hour lab per week.

**CHEM 411. Synthesis (3)**

*Prerequisite:* CHEM 334. Preparation of inorganic and organic compounds and their identification, using advanced methods. 1 hour lecture; two 3-hour lab periods per week.

**CHEM 422/L. Chemical Analysis II and Lab (2/2)**

*Prerequisite:* CHEM 321. *Corequisite:* CHEM 422L. Continuation of CHEM 321, with special emphasis on polarography and voltammetry, chromatography, spectrophotometric methods, mass spectrometry and radiochemical methods. 2 hours lecture per week; two 3-hour lab periods per week.

**CHEM 433. Organic Analysis (3)**

*Prerequisite:* CHEM 334. Identification of organic compounds using advanced spectrometric techniques that include modern NMR methods. 1 hour lecture; two 3-hour lab periods per week.

**CHEM 451. Modern Physical Chemistry (3)**

*Prerequisite:* CHEM 352. Selected topics in modern physical chemistry, including atomic and molecular structure and spectra, the chemical bond, inter-molecular forces, interaction of matter with fields and the solid state. 3 hours lecture per week.

**CHEM 461/L. Biochemistry I and Lab (3/1)**

*Prerequisites:* CHEM 321/L, 334. *Corequisites:* CHEM 461L. The first part of a two-semester biochemistry lecture series designed for biochemistry majors that includes study of protein structure and function, enzyme mechanisms, biological membranes, carbohydrate metabolism, ATP generation and lipid metabolism. Lab includes experiments involving acid/base chemistry, peptide analysis, spectrophotometric analysis, protein isolation and characterization, and enzyme kinetics. 3 hours lecture per week; one 3-hour lab per week.

**CHEM 462/L. Biochemistry II and Lab (3/1)**

*Prerequisite:* CHEM 461 or instructor consent. *Corequisites:* CHEM 462L. Continuation of CHEM 461, the second part of a two-semester biochemistry lecture series designed for biochemistry majors, including discussion of photosynthesis, amino acid metabolism, lipoproteins, metabolic interrelationships and regulation, information transfer and signal transduction. Lab includes experiments involving gel filtration, ATP biosynthesis, isolation and characterization of phospholipids, reactions of lipolytic enzymes, mitochondrial dehydrogenases, isolation of DNA, study of restriction enzymes and polymerase chain reaction. 3 hours lecture per week; one 3-hour lab per week.

**CHEM 464. Principles of Biochemistry (3)**

*Prerequisite:* CHEM 334. *Corequisite (for Chemistry majors and minors):* CHEM 464L. Properties and metabolism of the constituents of biological systems. Mechanism of enzyme action, energy relations in biological systems. 3 hours lecture per week. Available for graduate credit.

**CHEM 464L. Principles of Biochemistry Laboratory (1)**

*Prerequisite:* CHEM 334. *Corequisite:* CHEM 464. *Recommended Preparatory:* CHEM 321/L. Experiments involving acid/base chemistry, peptide structure, spectrophotometric analysis, biomolecule purification and enzymology designed to develop the ability to collect, analyze and report experimental biochemical information. One 3-hour lab per week. Available for graduate credit.

**CHEM 465. Topics in Biochemistry (3)**

*Prerequisite:* CHEM 462 or instructor consent. Seminar in major recent developments in biochemistry. 3 hours lecture per week.

**CHEM 471. Chemical Literature, Information Retrieval and Presentation (1)**

*Prerequisites:* Open only to junior and senior science majors and graduate students in science. Use of the chemical literature, including abstracts and computer retrieval systems. Preparation of manuscripts and oral presentations. 1 hour lecture per week.

**CHEM 481. Nuclear and Radiochemistry (4)**

*Prerequisite:* CHEM 352. Study of the atomic nucleus and its properties. Description of nuclear phenomena and an introduction to nuclear theory. Lab: Techniques for the study of radio-nuclides and the application of isotopic tracers to problems in biology, chemistry, geology and physics are explored. 2 hours lecture per week; two 3-hour lab periods per week.

**CHEM 495A-C. Directed Undergraduate Research (1-3)**

*Prerequisite:* One course beyond CHEM 102 in the area related to the research. Interested students should make arrangements with the department as soon as possible, preferably during the previous semester. For students of advanced rank and proven competence in chemistry. Program of original independent research, culminating in a written report, carried out under the direction of one of the Chemistry faculty. Upon prior approval by the department of a detailed research proposal, the research may be performed in industrial or medical labs. In such a case, the research report must be submitted to and evaluated by a designated member of the Chemistry faculty. May be repeated for credit. No credit toward M.S. degree.

**CHEM 499A-C. Independent Study (1-3)**

See Independent Study under courses of study.

## Graduate

---

Graduate students should refer to Graduate Programs.

**CHEM 500. Chemistry Teaching Assistant Workshop (1)**

*Prerequisite:* Graduate student status. An instructional improvement workshop for graduate teaching assistants. Participants learn by presenting short videotaped lessons to the class and by receiving feedback on the basic skills demonstrated in the lesson. Participants are presented with a basic model for clear chemistry lab teaching and are taught effective feedback techniques. (Credit/No Credit only)

**CHEM 502. Advanced Inorganic Chemistry (3)**

*Prerequisite:* CHEM 401. Study of molecular structure of inorganic compounds; coordination chemistry; kinetics and mechanisms of inorganic reactions. 3 hours lecture per week.

**CHEM 522. Advanced Analytical Chemistry (3)**

*Prerequisite:* CHEM 422/L or approval of the instructor. An advanced-level discussion of topics in analytical chemistry with particular emphasis on separation sciences and optical spectroscopy. Topics that will be discussed in detail are fluorescence, phosphorescence, phase and distribution equilibria, extraction techniques, electrophoresis and microfluid separation. 3 hours lecture per week.

**CHEM 531. Survey of Organic Reactions (3)**

*Prerequisite:* CHEM 334. Detailed survey of the ranges of application and mechanisms of organic oxidations, reductions, additions, eliminations, condensations and degradations with specific reference to their applications to problems of synthesis and structure elucidation. 3 hours lecture per week.

**CHEM 534. Advanced Organic Chemistry (3)**

*Prerequisites:* CHEM 334, 352. Physical and physicochemical consideration of organic chemistry. Kinetics, configuration. 3 hours lecture per week.

**CHEM 538. Natural Products (3)**

*Prerequisite:* CHEM 334. Chemistry and biosynthesis of naturally occurring compounds, including alkaloids, steroids, terpenes and mold metabolites, based on structure elucidation, synthesis, biosynthetic considerations and physiological properties. Use of modern methods for structure determination and application of unique structural features in theoretical chemistry. 3 hours lecture per week.

**CHEM 541. Environmental Chemistry I (2)**

*Prerequisite:* CHEM 422/L or instructor consent. *Recommended Corequisite:* CHEM 541L. Comprehensive survey of the Earth's natural processes in atmosphere, water and soil, and the chemical aspects of the impact that human activities have produced in the natural environment. Also, topics such as energy resources, hazardous waste management/treatment and risk assessment are discussed. 2 hours lecture per week.

**CHEM 541L. Environmental Chemistry I Lab (2)**

*Prerequisite:* CHEM 422/L or instructor consent. *Recommended Corequisite:* CHEM 541. Application of chemical and instrumental methods for the identification and quantification of inorganic and organic contaminants present in water, soil and air samples using E.P.A.-approved methodologies and protocols. Two 3-hour lab periods per week.

**CHEM 542. Environmental Chemistry II (1)**

*Prerequisite:* CHEM 541/L or instructor consent. *Recommended Corequisite:* CHEM 542L. Advanced-level discussion of topics in air, water and soil pollution. Includes the role of humic substances in natural waters, stratospheric ozone depletion, acid rain, photochemical smog, soil and treatment technologies. Case studies on soil and water pollution also are discussed. 1 hour lecture per week.

**CHEM 542L. Environmental Chemistry II Lab (2)**

*Prerequisite:* CHEM 541/L or instructor consent. *Recommended Corequisite:* CHEM 542. Advanced level experimental investigation on the identification and analysis of contaminated water, air and soil samples are carried out. Experiments using latest treatment technologies are conducted to understand the application of chemical and biochemical concepts toward solving environmental problems. Also, experiments to characterize complex environmental systems are undertaken. Two 3-hour lab periods per week.

**CHEM 551. Chemical Thermodynamics (3)**

*Prerequisite:* CHEM 352. Thermodynamic properties of pure systems, mixtures, electrochemical systems, surface phases and systems under the influence of external fields; equilibria and thermodynamics of chemical reactions. 3 hours lecture per week.

**CHEM 552. Quantum Chemistry (3)**

*Prerequisite:* CHEM 352. Elements of wave mechanics and the application to chemical problems. 3 hours lecture per week.

**CHEM 553. Chemical Kinetics (3)**

*Prerequisite:* CHEM 352. Critical consideration of the kinetics of reactions in gaseous and condensed phases, experimental methods, treatment of data, catalysis and chain reactions. Recent developments in the theory of reaction rates. 3 hours lecture per week.

**CHEM 554. Macromolecules (3)**

*Prerequisite:* CHEM 352. Physical chemistry of high molecular weight compounds, ultracentrifuge, electro-phoresis, light scattering. 3 hours lecture per week.

**CHEM 564. Bio-Organic Chemistry (3)**

*Prerequisite:* CHEM 334, 464 or approval of advisor and instructor. Application of physical organic methods to solution of structural and mechanistic problems in biochemistry.

**CHEM 565. Receptor Biochemistry (3)**

*Prerequisite:* CHEM 464 or 461. Study of the kinetics, structural requirements and signal-transduction mechanisms of receptor-ligand interactions. 3 hours of lecture per week.

**CHEM 566. DNA-Protein Interactions (3)**

*Prerequisites:* CHEM 464, or 461 and 462. An advanced biochemistry course with an in-depth study of the biochemistry of DNA-protein interactions. The course focuses on subfields of biochemistry that involve direct physical interaction between DNA and proteins, including DNA repair, mutagenesis, replication, transcription, translation, RNA interference, DNA packaging and chromosomal maintenance. 3 hours of lecture per week.

**CHEM 595A-Z. Experimental Topics Courses (1-3)**

*Prerequisites:* Advisor and instructor consent. Specialized topics from a concentrated field of current interest presented at an advanced level. Since the topic chosen is different each semester, students may repeat this course with approval.

**CHEM 599A-C. Independent Study (1-3)****CHEM 691. Literature Seminar (1)**

*Prerequisites:* Graduate standing; Instructor consent. Oral reports by graduate students on important topics from the current literature in chemistry.

**CHEM 692. Thesis Seminar (1)**

*Prerequisites:* Graduate standing; Instructor consent. Oral reports by graduate students on the results of their thesis research. Before presenting the report, students must submit a rough draft of their M.S. thesis to their Graduate Thesis Committee and to the Department of Chemistry and Biochemistry as a whole.

**CHEM 696A-C. Directed Graduate Research (1-7)**

*Prerequisites:* Classified status; Consent of a faculty member who will serve as thesis advisor. Program of research conducted under the direction of the thesis advisor in an area of interest to the student. May be repeated, but no more than 7 units are allowed toward the M.S. degree.

**CHEM 698A-C. Thesis (1-3)**

*Prerequisites:* Classified standing; Advisor's consent. For the M.S. Degree: Thesis includes the preparation and writing of the master thesis. May be repeated once, but not more than 3 units are allowed towards the M.S. degree.

# Chicana and Chicano Studies

College of Humanities

**Chair: Mary Pardo**

**Jerome Richfield Hall (JR) 148**

**(818) 677-2734 and (818) 677-2735**

**[www.csun.edu/chicanostudies](http://www.csun.edu/chicanostudies)**

## Staff

Griselda Corona (Administrative Support Coordinator II), Yanira Pineda (Administrative Support Coordinator I), Yanina Flores (Administrative Support Assistant)

## Faculty

Rodolfo Acuña, Christina Ayala-Alcantar, Yreina Cervantez, Martha Escobar, Alicia Estrada, Jorge Garcia, Peter Garcia, Ramon Garcia, Rosemary Gonzalez, Gabriel Gutierrez, Fermin Herrera, Isabel Herrera, Marta López-Garza, Lara Medina, Theresa Montañó, Renee Moreno, Margarita Nieto, Roberta Orona-Cordova, Mary Pardo, Rosa Rivera-Furumoto, David Rodriguez, Raul Ruiz, Ana Sanchez-Muñoz, Denise Sandoval, Francisco Tamayo, Yarma Velazquez-Vargas

## Emeritus Faculty

Rodolfo Acuña, Francine Hallcom, Jose Hernandez, Rafael Perez Sandoval, Gerald Resendez, Everto Ruiz, Oscar Marti

## Programs

Undergraduate:

**B.A., Chicana/o Studies**

**Minor in Chicana/o Studies**

Graduate:

**M.A., Chicana/o Studies**

## The Major

The Chicana/o Studies Major consists of two options: the Single Major and the Double Major.

## Chicana/o Studies Writing Program

Students have the opportunity to complete the University's writing requirements through courses offered by the Department of Chicana/o Studies. The department offers three entry-level writing classes, two of which are "stretched" over two terms, A in the Fall and B in the Spring: CHS 113A and 113B, Stretch Composition; and CHS 114A and 114B, Stretch Composition. The department also offers CHS 115, Approaches to University Writing. Students who receive a test score of 151 and above on the English Placement Test may enroll in CHS 115, Approaches to University Writing. Students who score 120-141 on the EPT will be placed into CHS 113A in the Fall and CHS 113B in the Spring. Students who score 142-150 on the EPT will be placed into CHS 114A in the Fall and CHS 114B in the Spring. Please consult our Writing Coordinator or advisors in the department for further information on placements.

Further development of writing and research skills is provided in CHS 230, Introduction to Research Methods. The department also offers CHS 280, Workshop in Minority Creative Writing. Students may also complete their oral communication skills requirement in CHS 151, Speech Communication after passing CHS 115. To support students writing needs, the department has a state-of-the-art computer lab open to students daily. Tutorial support also is available Monday-Friday in the CHS Tutoring Center.

## Student Organizations

The Department of Chicana/o Studies was established through the combined effort of students and faculty in the 1960s. For this reason, it has always shared a special relationship with Chicana/o student organizations at CSUN. The principal student organization that has coexisted and developed parallel to the department is El Movimiento Estudiantil Chicano de Aztlan (MEChA). MEChA is the umbrella organization for various groups, subcommittees and a number of special ad-hoc committees, such as Aztlan Graduation, Ballet Folklorico de Aztlan, Chicanos For Community Medicine and Dia de Los Muertos. MEChA often serves as an advisory organization to the department, as student input has always been crucial to the planning and implementation of departmental activities.

## Academic Advisement

The Chicana and Chicano Studies Department helps students select the program and courses that best satisfy their individual needs and interests. Contact Mary Pardo (Chair) at (818) 6772734 to schedule an appointment. The College of Humanities (COH) Student Services Center/EOP reviews students' progress to ensure that the requirements of a major or minor in Chicana/o Studies are fulfilled. Call (818) 677-4784 or (818) 677-4767 to schedule an appointment with the COH Student Services Center/EOP.

## Student Learning Outcomes of the Undergraduate Program

1. Demonstrate an ability to think critically, analytically and creatively about the Chicana/o experience in the local and global society.
2. Demonstrate competency in oral-communication, written-communication and research skills.
3. Demonstrate an understanding of creative and performance arts.
4. Acquire a comprehensive knowledge and understanding of Chicana/o history, culture, arts, language and socio-political issues.
5. Acquire the leadership skills that will promote social change in Chicana/o communities and broader society.

## Career

The interdisciplinary nature of our undergraduate and graduate degrees in Chicana/o Studies prepares students for work in a wide range of fields. Our students find employment in such areas as education, community and social services, law, government, counseling, probation and business. In addition, Chicana/o Studies provides our students with many pathways for graduate work in areas that include education, history, political science, sociology, social work, women's studies, ethnic studies, urban studies, law and the arts.

## Requirements for the Bachelor of Arts Degree

### A. Option I: Single Major In Chicana/o Studies

#### 1. Lower Division Required Courses (12 units)

|     |          |   |
|-----|----------|---|
| CHS | 100      | Chicana/o Culture (3)                                     |
| CHS | 201      | Survey Mexican Literature in Translation (3)              |
| CHS | 230      | Introduction to Research Methods in Chicana/o Studies (3) |
| CHS | 270SOC/F | Field Work in Barrio Studies (3)                          |

#### 2. Upper Division Required Courses (21 units)

|        |     |   |
|--------|-----|---|
| CHS    | 345 | History of the Mexican Peoples (3)            |
| or CHS | 351 | Survey of Mexican Philosophical Thought (3)   |
| CHS    | 365 | Third World Women and the Chicana (3)         |
| CHS    | 380 | Chicana/o Literature (3)                      |
| or CHS | 381 | Chicana Literature (3)                        |
| CHS    | 401 | Pre-Cuauhtemoc Meso-American Civilization (3) |
| CHS    | 445 | History of the Chicana/o (3)                  |

|     |     |   |
|-----|-----|---|
| CHS | 460 | Politics of the Chicana/o (3)           |
| CHS | 497 | Senior Seminar in Chicana/o Studies (3) |

**3. Upper Division Electives (12 units)**

Select two of the three categories below and take 6 units in each category.

**A. Social Science**

|     |     |  |
|-----|-----|--|
| CHS | 346 | History of the Chicana/Mexicana (3)        |
| CHS | 350 | Religion and Chicana/o Society (3)         |
| CHS | 360 | Political Organizations of the Barrio (3)  |
| CHS | 361 | Urbanization and the Chicana/o (3)         |
| CHS | 366 | Women in Latin America (3)                 |
| CHS | 420 | The Chicana/o in the U.S. Economy (3)      |
| CHS | 470 | Cultural Differences and the Chicana/o (3) |
| CHS | 473 | The Chicana/o and Social Institutions (3)  |

**B. Humanities and the Arts**

|     |        |  |
|-----|--------|--|
| CHS | 306    | The Chicana/o in Films (3)                     |
| CHS | 310    | Regional Music of Mexico (3)                   |
| CHS | 390    | Alternative Chicana/o Press (3)                |
| CHS | 405    | Chicanas/os and the Media (3)                  |
| CHS | 413    | Practicum in Mexican American Choral Music (3) |
| CHS | 414/L  | Dance of Mexico I and Lab (1/2)                |
| CHS | 415/L  | Dance of Mexico II and Lab (1/2)               |
| CHS | 453    | Theory and the Chicana/o Experience (3)        |
| CHS | 486A/B | Nahuatl I/II (3/3)                             |

**C. Education**

|     |     |  |
|-----|-----|--|
| CHS | 416 | Children's Songs and Games (3)                                 |
| CHS | 430 | The Chicana/o Child (3)  |
| CHS | 431 | The Chicana/o Adolescent (3)                                   |
| CHS | 432 | Counseling the Chicana/o Child (3)                             |
| CHS | 433 | Language Acquisition of the Chicana/o and ESL Speakers (3)     |
| CHS | 434 | Current Educational Theories of Chicanas/os in the Schools (3) |
| CHS | 471 | The Chicana/o Family (3)                                       |
| CHS | 482 | Language of the Barrio (3)                                     |

|                                     |     |
|-------------------------------------|-----|
| Total Units in the Option           | 45  |
| General Education Units             | 48  |
| Additional Units                    | 17  |
| Total Units Required for the Degree | 120 |

**B. Option II: Double Major (33 units)****1. Lower Division Required Courses (9 units)**

|     |          |   |
|-----|----------|---|
| CHS | 100      | Chicana/o Culture (3)                           |
| CHS | 201      | Survey of Mexican Literature in Translation (3) |
| CHS | 270SOC/F | Field Work in Barrio Studies (3)                |

**2. Upper Division Required Courses (12 units)**

|     |     |   |
|-----|-----|---|
| CHS | 445 | History of the Chicana/o (3)              |
| CHS | 453 | Theory and the Chicana/o Experience (3)   |
| CHS | 473 | The Chicana/o and Social Institutions (3) |
| CHS | 497 | Senior Seminar in Chicana/o Studies (3)   |

**3. Upper Division Electives (6 units)**

Select 2 courses from the following:

|     |     |   |
|-----|-----|---|
| CHS | 351 | Survey of Mexican Philosophical Thought (3)   |
| CHS | 401 | Pre-Cuauhtemoc Meso-American Civilization (3) |
| CHS | 432 | Counseling the Chicana/o Child (3)            |
| CHS | 470 | Cultural Differences and the Chicana/o (3)    |

**4. Additional Upper Division Electives (6 units)**

Electives in Upper Division Chicana/o Studies are to be selected with the advice and approval of the advisor.

|                           |    |
|---------------------------|----|
| Total Units in the Option | 33 |
|---------------------------|----|

**Minor in Chicana and Chicano Studies****1. Lower Division Required Courses (9 units)**

|     |          |   |
|-----|----------|---|
| CHS | 100      | Chicana/o Culture (3)                           |
| CHS | 201      | Survey of Mexican Literature in Translation (3) |
| CHS | 270SOC/F | Field Work in Barrio Studies (3)                |

**2. Upper Division Required Courses (9 units)**

|     |     |   |
|-----|-----|---|
| CHS | 351 | Survey of Mexican Philosophical Thought (3) |
| CHS | 445 | The History of the Chicana/o (3)            |
| CHS | 453 | Theory and the Chicana/o Experience (3)     |

**3. Upper Division Electives (6 units)**

Electives in Upper Division Chicana/o Studies are to be selected with the advice and approval of the advisor.

|                          |    |
|--------------------------|----|
| Total Units in the Minor | 24 |
|--------------------------|----|

**Requirements for the Master of Arts Degree in Chicana/o Studies****A. University Requirements for the Master of Arts in Chicana/o Studies**

1. Minimum University GPA requirement for admission to Graduate Studies at CSUN is a 2.50 in the last 60 semester (90 quarter) units.
2. Required for Admission to Classified Status:
  - a. An undergraduate degree from an accredited institution.
  - b. Appropriate score on GRE, GMAT, MAT or other acceptable examination.
  - c. A passing score on and Upper Division Writing Proficiency Exam.
  - d. Graduate Coordinator can inform you of the specific requirement for classified status.

**B. Department Requirements for the Degree**

1. A minimum of 30 units of approved graduate work comprised of the following:

**Core requirements:**

|     |     |   |
|-----|-----|---|
| CHS | 500 | Seminar in Chicana/o studies                |
| CHS | 501 | Seminar in Social Science and the Chicana/o |
| CHS | 502 | Seminar in the Humanities and the Chicana/o |

2. An additional 12 units of 500-level courses in Chicana/o studies. Nine units of approved 400- and 500-level courses in Chicana/o Studies (6 of these 9 units may be taken outside of the department with prior approval of the coordinator)

3. A comprehensive evaluation in the discipline of Chicana/o Studies in the form of any one of the following: (a) Thesis, (b) Oral and Comprehensive Exam, or (c) Project

**Course List****CHS 113A. Approaches to University Writing A (3)**

*Prerequisite:* EPT score of 120-141 or higher. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113A. Students are required to also enroll in UNIV 060 (1 credit) or equivalent. Individual tutoring is available through the Chicana/o Writing Lab and Learning Resource Center.

**CHS 113B. Approaches to University Writing B (3)**

*Prerequisite:* Successful completion of CAS 113A. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS or QS 113B. Students are required to also enroll in UNIV 060 (1 credit) or equivalent. Individual tutoring is available through the Chicana/o Writing Lab and Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC).

**CHS 114A Approaches to University Writing A (3)**

*Prerequisite:* EPT score of 142-150. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114A. Individual tutoring is available through the Learning Resource Center.

**CHS 114B Approaches to University Writing B (3)**

*Prerequisite:* Successful completion of CAS 114A. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 114B. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

**CHS 115. Approaches to University Writing**

*Prerequisite:* EPT score of 151 or higher. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS or QS 115. Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

**CHS 100. Chicana/o Culture (3)**

Introductory study of cultural, economic, educational and political issues as they impact the Chicana/o in the U.S. Includes a study of the contributions that Chicana/os have made in these areas. (Available for General Education, Comparative Cultural Studies.)

**CHS 101. Spanish for Chicanos I (3)**

*Prerequisite:* Instructor consent, subject to verification of oral skills at the beginning of the semester. Basic instruction in spoken and written formal Spanish for students who already have some comprehension of and fluency in the language. Designed for Chicano/Latino and other students from a Spanish-speaking background. Emphasis is placed on improving speaking, writing and reading in academic registers. (Available for General Education, Comparative Cultural Studies.)

**CHS 102. Spanish for Chicanos II (3)**

*Prerequisite:* Successful completion of CHS 101 or instructor consent. Continuation of the study of spoken and written formal Spanish for students who already have comprehension of and fluency in the language. Designed for Chicano/Latino and other students from a Spanish-speaking background. Emphasis on oral expression, writing and reading in academic registers. (Available for General Education, Comparative Cultural Studies.)

**CHS 111. The Chicana/o and the Arts (3)**

Survey of Chicana/o visual art, music and drama and their role in Chicana/o culture. Offers a historical approach to Chicana/o contributions in the arts. (Available for General Education, Arts and Humanities.)

**CHS 151. Freshman Speech Communication (3)**

*Prerequisite:* EPT score of 151 or better, or EPT and successful completion of 113A or 114A or equivalent. Examination of the principles essential to effective verbal communication skills through the study and practical application of basic speech forms. Attention given to individual and group communication activities designed to improve one's ability to organize, reason critically and listen effectively. Students are required to give speeches. (Crosslisted with PAS 151 and COMS 151.) (Available for General Education, Oral Communication.)

**CHS 201. Survey of Mexican Literature in Translation (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Comprehensive overview of the literary heritage of Mexico from pre-Colombian times to the present. Includes an analysis of its historical, technical and lyrical dimensions and its relationship with other Hispanic literature in order to develop a critical appreciation of literary art. (Available for General Education, Arts and Humanities)

**CHS 202. Race, Racism and Critical Thinking (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Introduction to the process of critical thinking through the lens of race-based theories and selected historical and contemporary discourse of African Americans, Asian Americans and Chicanos/Latinos on race relations and multiculturalism in American society. Examines contemporary social issues through the use of scholarly studies and a range of cultural texts in order to explore the effects of race and racism on the relationship between language and logic, processes and forms of reasoning and practices of critical reflection. Emphasis on the Chicano/Latino racial experience in contemporary America. Examines intersection of race, gender and class. (Available for General Education, Critical Thinking.)

**CHS 214. Guitar Music of the Southwest and Mexico (3)**

Develops the fundamental skills for guitar. Incorporates the study of various regional musical styles of the Southwest and Mexico. (Credit/No Credit only)

**CHS 215/L. Regional Music of the Southwest and Mexico and Lab (2/1)**

*Corequisite:* CHS 215L. Advanced study of regional music styles of Mexico and the Southwest. In addition to the guitar, attention is also given to other string instruments in each regional style. The various styles presented are practiced in class. 2 hours lecture per week; 2 hours lab per week.

**CHS 230. Introduction to Research Methods in Chicana/o Studies (3)**

*Prerequisite:* CHS 155. Introduction to research methods and writing skills through class lectures and hands-on assignments requiring the use of basic information sources and tools. Focuses on the development of basic research strategies and reinforcement of appropriate writing skills necessary to a wide spectrum of research and writing assignments. Includes an introduction to information sources and search strategies relevant to Chicana/o research.

**CHS 245. History of the Americas (3)**

Comparative analysis of significant political and social events in the U.S. from colonial times to the present. Emphasis placed on the historical development of American institutions and ideals as they have been affected by regional dynamics within the U.S. and by international, socio-political and economic relationships, particularly with Latin America. (Meets Title 5 requirements in American History, Institutions and Ideals.)

**CHS 246. Contemporary Issues of the Chicana (3)**

Using a sociological framework for understanding the contemporary experiences of Mexican American women in the U.S., focuses on the sexual division of labor in families, the workplace and community. Each section explores the variation and heterogeneity in women's class, ethnic/racial and gender identity. (Available for General Education, Comparative Cultural Studies.)

**CHS 260. Constitutional Issues and the Chicana/o (3)**

Study of important constitutional issues and cases that have affected the Chicano community. Examines how American political institutions, operating under the framework of the U.S. Constitution, have influenced the civil and political rights of Chicanos. (Meets Title 5 requirement in the Constitution of the U.S., and State and Local Government.)

**CHS 270SOC/F. Field Work in Barrio Studies (1/2)**

Field study observation of selected barrio, institutions and agencies conducted under supervision and after preparatory instruction to acquaint the student with the barrio. Academic Internship course. Prospective teacher candidates must participate in field experience in public school classrooms. (Available for General Education, Lifelong Learning.)

**CHS 280/SL. Workshop in Minority Creative Writin (2/1)**

Introductory course in minority, creative writing. Students study and experiment with techniques and strategies from four genres: personal narrative, prose fiction, drama and poetry, and then introduce these to secondary students in schools. Consult with the instructor about the semester syllabus and the minority literature concentration. Students must complete 15 hours of service learning at either a middle school, a high school or an agency that serves the Chicano/a or Latino/a community. (Available for General Education, Arts and Humanities.) (Crosslisted with ENGL and PAS 280.)

**CHS 296A-Z. Experimental Topics Courses in Chicana/o Studies (3)**

Selected topics in Chicana/o Studies with course content to be determined.

**Upper Division****CHS 306. The Chicana/o in Films (3)**

*Preparatory: Completion of the Lower Division requirement.* Analysis of the image of the Chicana and Chicano as presented in films and documentaries. Includes historical background, content analysis and social implications of selected feature films and documentaries. Students prepare a written analysis of each film viewed.

**CHS 308D/DL. Days of the Dead: Chicana/o Perspectives on Death, Spirituality and Art (2/1)**

*Preparatory: Upper Division standing; completion of one or more introductory courses in Chicano Studies, Religious Studies or Art; or by consent of the instructor.* This lecture/studio course examines the concepts inspiring the Dias de los Muertos celebration from ancient Mesoamerican mythology and worldview to contemporary expressions of the Days of the Dead in the Chicana/o community. Areas of discussion also include cross-cultural perspectives on death and eschatology—an overview of cultural attitudes and religious beliefs on death, mourning rituals and the afterlife. Students also will participate in artmaking and traditional activities in preparation for Days of the Dead celebrations. Course offered Fall semester only. 2 hours lecture, 3 hours laboratory.

**CHS 310. Regional Music of Mexico (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the cultural, instrumental and musical aspects of predominant regional musical styles of Mexico from Pre-Cuauhtemoc to contemporary times. (Available for General Education, Arts and Humanities.)

**CHS 312. Chicana/o Art Studio in Painting (3)**

*Prerequisite: Introductory course in Chicano Studies or ART 124A. Recommended: Previous art/drawing experience.* Through the medium of painting/art practice, introduction to Mexican and Chicana/o world views and aesthetics. Painting assignments provide experience working in various media, including a choice of oils, acrylic and/or watercolor, with styles/approaches to subject matter ranging from representational to expressive and abstraction. Emphasis on learning fundamental skills in painting and application of formal art elements as well as experimentation in various painting media. The class meets twice weekly for 3 hours each class, 6 hours total. Course may be repeated once. Portfolio review required.

**CHS 333. Language and Society: Chicanas/os and Other Language Minority Children (3)**

Overview of social, educational and linguistic factors that influence language development among Chicanas/os and other language minority children. Introduces students to theories and processes of first and second language acquisition and relates these to the language development and educational needs of Chicana/Latino and other immigrant children. The course emphasizes a broad understanding of first and second language acquisition processes, an applied linguistics orientation and an overview of individual and social aspects of bilingualism and the schooling experiences of Latinos and other immigrant children. (Available for General Education, Comparative Cultural Studies.)

**CHS 345. History of the Mexican Peoples (3)**

*Preparatory: Completion of the Lower Division writing requirement.* History of the development of the Mexican peoples from the beginning of Spanish colonization (1521) to the present. Analysis of the interaction between politics and economics and the factors underlying Mexico's economic underdevelopment also presented. (Available for General Education, Social Sciences.)

**CHS 346. History of the Chicana/Mexicana (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Appraisal of past and contemporary socio-political and economic contributions by Mexican women and Chicanas to developments in Mexico and the U.S. (Available for General Education, Social Sciences.)

**CHS 350. Religion and Chicana/o Society (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Comparative historical study of American Protestantism and Mexican Catholicism and their influence on Chicanas/os in the U.S. Examination of issues involving church, religion and the Chicana/o community, including analysis of the Theology of Liberation and feminist spirituality. (Available for General Education, Arts and Humanities.)

**CHS 351. Survey of Mexican Philosophical Thought (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the intellectual life of Mexico from its indigenous pre-Colombian roots through the Spanish and European influences up to its own distinctive present-day perspectives and philosophical outlook. (Available for General Education, Arts and Humanities.)

**CHS 360. Political Organizations and Social Movements of the Barrio (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the origin and development of Chicana/o organizations, such as the Mexican American Political Association (MAPA), League of United Latin American Citizens (LULAC) and La Raza Unida Party (LRUP), and their emergence of social movements emphasizing their role in the electoral process and in the development of the Chicana/o Community. (Available for General Education, Lifelong Learning.)

**CHS 361. Urbanization and the Chicana/o (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study and critical analysis of the urban Chicana/o community in the U.S. Includes theory, demography, spatial dynamics, leading economic and political issues, key institution issues, trends, and urban policy and planning. Intended for, but not limited to, prospective elementary and secondary school teachers. (Available for General Education, Social Sciences and for Section B of the Multicultural requirement for credential candidates.)

**CHS 364. World Migration and the Chicana/o (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Explores the historical and material causes of world migration from underdeveloped countries. Compares Mexican immigration to the U.S. with those of other underdeveloped and developing nations. (Available for General Education, Comparative Cultural Studies.)

**CHS 365. Third World Women and the Chicana (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Comparison of Chicana and Third World women in the U.S. and the world community. Effects of colonialism, changes in the mode of production and liberation movements are studied within the U.S. and the Third World communities. (Available for General Education, Comparative Cultural Studies.)

**CHS 366. Women in Latin America (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the political, economic, social and cultural changes that have affected women in Latin America. Regular written assignments are required. (Available for General Education, Social Sciences.)

**CHS 380. Chicana/o Literature (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of major Chicana/o writers. Includes an analysis of Chicano novels, short stories, theater and poetry. Students develop analytical skills through class discussions, written assignments and readings. (Available for General Education, Arts and Humanities.)

**CHS 381. Contemporary Chicana Literature (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Introduction to the literature produced by contemporary Chicana writers. Reading and discussion of narrative works, poetry and drama, as well as socio-historical criticism, literary theory and biography. Socio-critical and textual analysis. Regular written assignments required. (Available for General Education, Arts and Humanities.)

**CHS 390. Alternative Chicano Press (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Includes techniques of planning, writing, editing, designing and the publishing of an alternative newspaper. Analysis of the Chicana/o press and the role of Chicanas/os in the mass media. (Available for General Education, Lifelong Learning.)

**CHS 395. Introduction to Bilingual Schooling and the Chicano Student (3)**

Primarily for students who plan to pursue a teaching or counseling credential. Analyzes bilingual education as it relates to Chicano/Latino students in the schooling process. Open to students interested in bilingual schooling.

**CHS 396. Experimental Topics Courses in Chicana/o Studies (3)**

Selected topics in Chicana/o Studies with course content to be determined.

**CHS 401. Pre-Cuauhtemoc Meso-American Civilizations (3)**

General survey of civilized life in Mexico and Central America prior to 1519. Examines the Meso-American variant of world civilization and directs special attention to the societies of central Mexico during the 13th-16th centuries.

**CHS 405. Chicanas/os and the Media (3)**

Analysis of the portrayal of Chicanas and Chicanos in the media, including newspapers, magazines, television, film and advertising. Examination of sources and techniques of reporting events in the barrio is also studied. Field study included and designed for the non-professional student.

**CHS 413. Practicum in Mexican American Choral Music (3)**

Studies, disseminates and performs musical repertoire characteristic of classical, traditional and contemporary Chicana/o songs, as well as develops a variety of performances appropriate to the cultural materials at hand. Corridos, mariachis and ranchera styles and certain Indian songs are learned by the group and the intricacies of appropriate solo.

**CHS 414/L. Dance of Mexico I and Lab (1/2)**

*Corequisite: CHS 414L.* Introduction to selected dance forms representative of diverse regions of Mexico. Emphasis on basic dance techniques, mastery of characteristic foot work, as well as a study of the historical development of dance.

**CHS 415/L. Dance of Mexico II and Lab (1/2)**

*Corequisite: CHS 415L.* Advanced study of Mexican regional dance forms. Focuses on further investigation of the varied and complex dances and their historical background. 1 hour lecture; 4 hour activity.

**CHS 416. Children's Songs and Games (3)**

*Preparatory: Completion of the Lower Division writing requirement. Recommended Corequisite: CHS 414/L or 415/L.* Development of fundamentals and principles for selecting, evaluating and performing songs and games for bilingual Chicana/o and other Latina/o children. Includes historical survey as well as performance of songs and games suitable for young bilingual children.

**CHS 417. Equity and Diversity in School (3)**

Prepares teacher candidates to examine principles of educational equity, diversity and the implementation of curriculum content and school practices for elementary/secondary students. Focuses on the history and culture of a specific ethnic experience and a comparative analysis is made with other ethnic groups in California. Engages students to examine, critique and reflect on their personal biases regarding children of color. (Crosslisted with ELPS, PAS, AAS, ARMN 417.)

**CHS 418 Chicana/o and Mexican Music and Cultures (3)**

Chicana/o and Mexican Music and Cultures explores regional and national history, culture, society, religion and aesthetics through musical investigations. Music-culture is discussed in vocal and/or instrumental terms as composition, form, style, genre, performance, song and dance; including aesthetics, appropriation and more recent hybridity and syncretism with Black (African-American) and White (Anglo-American) music-cultures. Students read current scholarship devoted to the role of music-culture in the expression of ethnicity, class, gender, sexuality and nationalism over several political generations of Mexican, Latina/o and Chicana/o people. Available for graduate credit.

**CHS 419 Aztlan 2012: Indigenous Time, Synchronicity, Sacred Music and Dance (3)**

Aztec and Mayan mythology, synchronicity and consciousness are examined through indigenous music, sacred dancing, ritual observance and festival. Mexican, Chicana/o and Indigenous pilgrimage, procession, social movement, Indian Catholicism and ritual activism are studied throughout Mexico and the Borderlands. Class introduces ethnoaesthetics and history, cultural politics and ethnic consciousness, artistic performance and criticism. Available for graduate credit.

**CHS 420. Chicana/o in the U.S. Economy (3)**

Examines and studies Chicanas/os in relation to the U.S. economy. Study of the development of the capitalist state and its relationship to the U.S. society. Includes analysis of labor history in the U.S. with a specific emphasis on Chicano labor history.

**CHS 430. The Chicana/o Child (3)**

Review of the cognitive, affective and psychomotor development of Chicana/o and Latina/o children. Examines patterns of school adjustment and achievement of Chicana/o and Latina/o children and other language minority students. Explores the sociocultural and linguistic aspects of learning and current theoretical frameworks and standards of implementation related to programs for language-minority students. Available for Section A of the Multicultural Requirement for Credential Candidates.

**CHS 431. The Chicana/o Adolescent (3)**

*Preparatory: Completion of Lower Division writing requirement.* Explores patterns of selection, innovation and recreation of ethnic and gender identity and theories of adolescent formation among Chicana/o and other Latino/a adolescents. Field work/observation and regular written assignments required. For prospective elementary and secondary school teachers. Available for Section A of the Multicultural Requirement for Credential Candidates.

**CHS 432. Counseling the Chicana/o Child (3)**

*Preparatory: Completion of Lower Division writing requirement.* Overview of social, cultural and educational factors that impact the psychological development of Chicana/o and other Latina/o children. Studies the nature of psychological issues associated with the immigrant and acculturation process and the role of the teacher, counselor and family in dealing with these issues. Primarily for prospective teachers and school counselors at the elementary- and secondary-school levels and is a viable option for those seeking either a teaching or counseling credential. Available for Section A of the Multicultural requirement for credential candidates.

**CHS 433. Language Acquisition of the Chicana/o and ESL Speakers (3)**

An introduction to the study of language acquisition, specifically focusing on the linguistic factors that influence language development among Chicanas/os and other language-minority children. The course provides an introduction to the structure and function of language and to theories of first and second language acquisition. We will relate these theories to monolingual language acquisition as well as language acquisition among bilingual Chicano/Latino and other immigrant children. There also will be an emphasis on the relationship of language to ethnic identity and how this relates to second language acquisition and language development.

**CHS 434. Current Educational Theories of Chicana/os in the Schools (3)**

*Prerequisite: CHS 270.* Review of research on issues and problems affecting Chicano students adapting to the schools and the teacher's response to them. Includes observation of school facilities and classroom techniques. Academic Internship course.

**CHS 445. History of the Chicano (3)**

History of the Mexican people in the U.S. presented in the context of American history and government. Examines American institutions and ideals as developed by the framers of the U.S. and California constitutions and how they have affected the role of the Mexican American in U.S. society. (Meets Title 5 requirements for Constitution of the U.S., and State and Local Government)

**CHS 453. Theory and the Chicana/o Experience (3)**

Study of contemporary political, social and cultural theories and their relationship to the Chicana/o experience in the U.S. Emphasis on theories developed by Chicanas and Chicanos. Questions on the role of praxis, democracy and the transformation of society are also examined.

**CHS 460. Politics of the Chicana/o (3)**

Critical study of Chicana/o issues, organizations, political models, participation, behavior and the electoral process in the U.S. Includes an examination of race, gender and class dynamics and their relationship to Chicana/o Politics.

**CHS 470. Cultural Differences and the Chicana/o (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the processes, effects and possible causes of social and cultural differences and conflict among Chicanos. Includes a study of preventive measures and plans to ameliorate the situation. Intended primarily for elementary and secondary school teachers. Available for Section B of the Multicultural requirement for credential candidates.

**CHS 471. Chicano Families (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Overview of demographic, social, cultural and historical perspectives of Chicano families in the U.S. Critiques social science stereotypes of Chicano families and contrast these with contemporary profiles of diverse family types. Family history project and other writing assignments are required. Intended for prospective elementary and secondary school teachers. Available for Section B of the Multicultural requirement for credential candidates.

**CHS 473. The Chicana/o and Social Institutions (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Study of the interaction between the Chicano Community and the educational and social institutions of the dominant society. Topics such as institutional racism, segregation and abuse of authority are analyzed along with a focus on the Chicano community's organized attempts to advocate for their values and interests. Intended for, but not limited to, prospective elementary and secondary teachers. Regular writing assignments are required. Available for Section B of the Multicultural requirement for credential candidates.

**CHS 476/F. Healing Traditions in Chicana/o Communities (2/1)**

*Corequisite: CHS 476F Recommended Preparatory Course: CHS 445 or 346.* A critical examination of traditional and innovative healing practices within Chicana/o and Mexican populations in the U.S. Through texts, discussions, guest lectures and site visits, students explore a complex web of cultural spiritual practices, beliefs and commitments for the purpose of analyzing how Chicano/a communities understand and experience healing from a holistic perspective. The course emphasizes the distinct epistemologies that drive culturally specific preferences for healing. Ancient Mesoamerican spiritual knowledge and contemporary Chicana/o epistemology will provide the framework from which to understand contemporary expressions of healing. Course requires 15 hours of field work observing sites of relevant healing traditions. Available for graduate credit.

**CHS 480/F. Chicana/o-Latina/o Children's Literature in Communities (2/1)**

*Preparatory: Completion of a Lower Division literature course or CHS 380.* Critical analysis of themes and meanings of U.S.-based Chicana/o-Latina/o children's literature using contemporary literary and cultural theory tools. Students explore and practice the use of Chicana/o-Latina/o children's literature in school communities to promote cultural awareness and humanization among children and families. Course requires field work in Chicano/Latino communities.

**CHS 482. Language of the Barrio (3)**

*Preparatory: Completion of the Lower Division writing requirement.* Examines the origin and current features of informal spoken Spanish in the Southwestern U.S. Includes an analysis of common colloquial forms, slang, profanity and code-switching. Addresses English usage among Chicanas/os. Available for Section C of the Multicultural requirement for Credential Candidates.

**CHS 486A. Nahuatl I (3)**

Study of the basic structures of the Nahuatl language as it is reflected in written manuscripts. Phonology, syntax and lexicon of Classic Nahuatl is examined with the purpose of enabling the student to translate passages from primary sources.

**CHS 486B. Nahuatl II (3)**

*Preparatory: CHS 486A.* Intermediate course in Nahuatl covers more complex structures not included in the first course. Passages from classical prose and poetry are read and translated with interest directed at basic language training. Emphasis on development of the ability to read selections from various Nahuatl documents.

**CHS 488. Literature of Borders and Globalization: The Americas (3)**

*Recommended Preparatory: CHS 115, 201 or equivalent.* The idea of a dialogical literature in the countries in the American continent, an idea that has influenced Latin American writers in the 20th century, has also been an important concept in Chicana/o literature. This course studies the fiction, poetry, essays and criticism of Chicana/o and Latin American writers in the 20th and 21st century and explores literary production in the context of borders, nationality, colonialism, globalization and cultural identity.

**CHS 489. Literature of Immigration (3)**

Immigration, a central theme in the literature written by Chicanas/os, will be examined historically and contextualized by the discourses that have defined immigration and its literary representations. As Chicana/o and Latina/o writers have expanded the literary landscape of American literature, the theme of immigration connects their work to the imaginative fiction and poetry written by North American authors in the 20th century. The theme of immigration in Chicana/o and Latino literature will be studied in conjunction with North American writers of diverse national/ethnic backgrounds and with international writers from around the globe. Available for graduate credit.

**CHS 495A-Z. Selected Topics in Chicana/o Studies (3)**

*Prerequisite: Completion of Lower Division writing requirement. Preparatory: Senior or Graduate status or permission from instructor.* In-depth study of a selected theme or issue in Chicana/o Studies. Topics will change from semester to semester and be restricted in scope and aimed at gaining depth on a particular issue. Critical writing and reading required. Offered for Credit/No Credit or letter grade and elective credit for Chicana/o Studies majors and Minors, as well as other students seeking Upper Division elective credit.

**CHS 496A-Z. Experimental Topics Courses in Chicana and Chicano Studies (3)**

Selected topics in Chicana/o Studies with course content to be determined.

**CHS 497. Senior Seminar in Chicana/o Studies (3)**

*Prerequisite: Senior standing or instructor consent.* Integrative seminar serving as a capstone to the interdepartmental major in Chicana/o Studies. Intensive study of selected topics relating to the Chicana/o and the preparation of papers by members of the class.

**CHS 499A-C. Independent Study (1-3)****Graduate****CHS 500. Seminar in Chicana/o Studies (3)**

*Prerequisite: Graduate standing.* Investigation of the various disciplines that comprise Chicana/o Studies (e.g., history, literature, etc.). Study of methods and techniques of research used in the various disciplines and their application to Chicana/o Studies are included.

**CHS 501. Seminar in the Social Sciences and the Chicana/o (3)**

*Prerequisite: CHS 500.* Seminar in the methods of analysis and writing of the social sciences. Review of the major works written by social scientists on the Chicana/o, with a critical evaluation of the racial, cultural and environmental models used to study the Chicana/o. Students survey and evaluate social science research as well as participate in a research design.

**CHS 502. Seminar in the Humanities and the Chicana/o (3)**

*Prerequisite: CHS 500.* Seminar in the humanities, comparing the Western European tradition with that of Meso-America. Study of theories of aesthetics and philosophies from both perspectives and their influence on current Chicana/o thought, literature and folklore. Emphasis on the various approaches to literary analysis of the different literary genres.

**CHS 503. Seminar on Chicana/o and the Arts (3)**

Study of the music, drama and graphic arts produced by Chicanas/os as an expression of the Chicana/o experience in the U.S. Emphasizes Chicana/o artistic expression that has its roots and inspiration in Mexican art forms, often combined with U.S. or European influences.

**CHS 504. Chicana Visual Art (3)**

*Prerequisites: Graduate status or permission from instructor.* The course examines the mytho-historical influences, 'altar-native' spiritualities, oppositional politics, hybrid realities and complex "transforming" identities that inform Chicana visual expression/creative production and cultural activism. Visual art studied includes painting, printmaking, mixed-media, altares/nichos, muralism, photography, installation, video and other diverse forms where relevant to Chicana art.

**CHS 505. Advanced Field Work in the Barrio (3)**

Advanced field study. Students are exposed to rigorous analysis of behavioral studies of the Chicano community and techniques in field work.

**CHS 506. Studies in the Education of the Chicana/o (3)**

Evaluation of the American educational system. Emphasizes school organizational structure, administrative theory and application, multicultural curriculum and instruction, parent involvement and community relations. Designed to give graduate students an opportunity to explore strategies for promoting change in our educational institutions to benefit Chicana/o and other language-minority students.

**CHS 507. Seminar in Chicana/o Studies Research Methods (3)**

*Prerequisite: Graduate status.* This course introduces students to quantitative and qualitative methods and methodology. It provides an intensive exploration of research tools and techniques relevant to Chicana/o Studies. The course provides a basic introduction to research methods and tools. Students will complete a research proposal that will include a literature review, statement of research problem and research design.

**CHS 560. Seminar in Chicana/o Politics (3)**

Advanced comprehensive study of Chicana/o politics that includes political models, issues, ideologies, organizations, participation, behavior and the electoral process. Attention given to race, gender, class and sexual-orientation dynamics. Applied qualitative and quantitative research is an integral part of the course.

**CHS 584. The Novel of the Mexican Revolution (3)**

*Prerequisite: SPAN 104 or instructor consent.* Study and text analysis of selected novels that describe the revolutionary struggle during the years 1910-1915 and the profound changes that the revolution produced in Mexican society. Emphasis on the novelists' disillusion with many of the revolutionary governments. Conducted in Spanish. (Crosslisted with SPAN 484.)

**CHS 587. The Contemporary Mexican Novel (3)**

*Prerequisite: SPAN 104 or instructor consent.* Study of the recent trends in the Mexican novel through the reading of selected works by the best-known contemporary Mexican male and female novelists. Conducted in Spanish. (Crosslisted with SPAN 587.)

**CHS 595A-Z. Experimental Topics Courses in Chicana/o Studies (3)****CHS 599. Independent Study (1-6)**

*Prerequisite: Graduate status.* Investigation of a significant problem in Chicana/o Studies. Project selected in conference with graduate faculty sponsor prior to enrollment.

**CHS 697. Directed Comprehensive Studies (3)**

*Prerequisites: Classified graduate status; Instructor consent.* Enrollment is required in the semester in which the comprehensive exam is taken.

**CHS 698. Thesis or Graduate Project (1-3)**

*Prerequisite: Classified graduate status; Instructor consent.* Enrollment is required in the semester in which the thesis or project is completed.

# Child and Adolescent Development

College of Health and Human Development

**Chair:** W. David Wakefield

**Sequoia Hall (SQ) 285**

## *Staff*

Javier Anguiano

## *Faculty*

Rosemary Gonzalez, Virginia W. Huynh, Nancy Miodrag, Roxanne V. Moschetti, Joyce Munsch, Whitney Scott Lewis, April Z. Taylor, Emily E. Thom, W. David Wakefield

## *Emeritus Faculty*

Carol Kelly, Barbara Pollard

## Programs

**B.A. in Child and Adolescent Development**

## Major

The Department of Child and Adolescent Development offers an interdisciplinary and transdisciplinary undergraduate degree program focusing on the study of human development from conception through emerging adulthood. The degree program leads to a Bachelor of Arts in Child and Adolescent Development.

The degree program emphasizes the use of research- and evidence-based knowledge to empower students to become critical consumers of theories and content—knowledge regarding the development of children, adolescents and young adults. This foundation allows students to develop content-knowledge and skills essential for participating in informed public dialogue, social policy and best practices facilitating the positive development of children, adolescents and young adults. Students learn ways to use basic and applied research to explore educational, physical health and mental health issues. These issues include cultural processes, atypical developmental trajectories, resiliency, developmental transitions, motivation and physical and psychological well-being as they intersect the major developmental milestones. The Department is committed to an ecological model that examines developmental changes and processes across multiple contexts to identify human universals as well as context-specific differences in human development. The domains of cognitive and social development receive particular emphasis throughout the degree program. The program also emphasizes practical applications of theoretical and research-based knowledge. Students are provided the opportunity to complete a Department-sponsored year-long internship with selected community organizations and schools throughout the San Fernando Valley and greater Los Angeles area.

Students in the major complete course work from multiple academic departments across the campus that center around: (a) general foundations of the field of human development; (b) in-depth exploration of social and cognitive development; (c) ways in which practitioners and scholars conduct and use research; (d) best-practices for practitioners; (e) exploration of cultural and linguistic influences throughout development; (f) identifying academic and professional pathways to pursue upon completion of the B.A. degree; and (g) developing breadth and/or depth of study through a robust menu of elective course work.

## Careers

The major will be of interest to a wide range of students, including those who are interested in direct-service careers with children and families (e.g., teaching, counseling, therapy, social work, medicine, nursing, law, etc.), as well as indirect-service professions (e.g., educational researchers, policy analysts, lobbyists, consultants, school administrators, politicians).

Given the broad interdisciplinary focus of course work leading to the degree, students can tailor their course work to prepare for a host of professional programs.

Most professional careers in the field of child and adolescent development require advanced degrees and/or credentials and/or licenses as well as relevant work experience. After completing the Bachelor of Arts degree, many students are well-situated to pursue advanced degrees and credentials leading to careers, including but not limited to early childhood education teachers, elementary and secondary school teachers, special education teachers, school counselors, school psychologists, school administrators, school board members, educational researchers, child and family attorneys, child psychologists and therapists, licensed clinical social workers, pediatricians and obstetricians, registered nurses, child life specialists, genetic counselors, occupational therapists, college/university professors, career counselors, community/youth agency administrators, educational consultants, policy and legislative analysts, and politicians.

## Academic Advisement

The Department of Child and Adolescent Development is committed to students achieving their personal and professional goals and graduating in a timely manner. Electronic versions of forms, worksheets and advisement materials can be found at the Department website. Students are strongly encouraged to use the University's advising resources, such as "My Academic Planner" ([www.csun.edu/anr/degreeprogress/map.html](http://www.csun.edu/anr/degreeprogress/map.html)) and "Degree Progress Report" ([www.csun.edu/anr/degreeprogress/dpr.html](http://www.csun.edu/anr/degreeprogress/dpr.html)) in order to plan course work for the major. The Department encourages students to meet with faculty members outside of class (i.e., during posted office hours and by appointment) to discuss their academic progress and post-graduation career plans. Three courses in the Department (i.e., CADV 250, 495A and 495B) provide students opportunities to develop personalized post-graduation pathways.

Students are encouraged to use the list of degree requirements in the Catalog in planning and selecting course work for the degree. One advantage of the interdisciplinary nature of the major is that students often have multiple options for courses that meet the same degree requirement. To select the best course, students should carefully read the Catalog descriptions of each available option to ensure the best match between their interests and the course work description.

## Department-Sponsored Internship

Students may choose to complete a year-long academic internship at an approved local community agency contracted with the Department. The community agencies represent a broad spectrum of settings and career opportunities in the field of child and adolescent development. Students who choose to complete the internship must successfully complete two courses taken over two consecutive semesters. The assignments and activities in internship courses support students' experiential learning through self-reflection and the application of theory/concepts. In these courses, students earn a grade of Credit/No Credit. In addition to the on-campus seminars, students complete approximately 180 hours of service over two semesters in a community-based

setting serving children and adolescents (approximately 6-7 hours per week). The Department holds a Pre-Internship Information Session and Internship Fair each Spring semester that provides students opportunities to learn more about the Department-Sponsored Internship program. For the most up-to-date information, visit <http://hhd.csun.edu/cadvinternshipinfo.html>.

### Affiliated Student Organization

The Child and Adolescent Development Association (CADA) is a student organization affiliated with the Department of Child and Adolescent Development. CADA strives to enrich the lives of its members by providing career, academic and professional development activities. The Association also provides opportunities for students to develop social and professional networks within the field of child and adolescent development, education and child psychology. All students on campus regardless of major are welcome to join. For more information, visit [www.csun.edu/cada](http://www.csun.edu/cada) or send email to [cada@my.csun.edu](mailto:cada@my.csun.edu).

### Relevant Professional and Scholarly Organizations

Students are encouraged to explore regional, national and international organizations in and related to the field of child and adolescent development. Many professional and scholarly organizations allow undergraduate students to join as student members. Becoming a member of a professional organization can increase networks necessary for future employment and future graduate schooling. In addition many organizations provide specialized training opportunities and/or scholarships for undergraduate students. Department faculty members are actively involved in many of the following professional organizations, including-but not limited to the Society for Research in Child Development, the Society for Research on Adolescence, the American Educational Research Association, the National Association for the Education of Young Children, the National Council on Family Relations, the American Psychological Association, the Western Psychological Association and the Association for Psychological Science.

### Student Learning Outcomes of the Undergraduate Program

Graduates of the undergraduate program in Child and Adolescent Development will be able to:

1. Demonstrate knowledge of the theories, concepts, developmental processes and empirical approaches in the scientific study of child and adolescent development from diverse perspectives across the domains of physical, cognitive and social development.
2. Apply and integrate theoretical, research-based and evidence-based knowledge.
3. Analyze and synthesize theories, constructs and processes of child and adolescent development through university-level academic writing and oral presentations.
4. Demonstrate knowledge of evidence-based strategies of culturally competent practice/pedagogy relevant in a culturally pluralistic and linguistically diverse society.
5. Demonstrate information literacy/competence through effectively utilizing media sources and complying with the ethics of manipulating and presenting information.
6. Describe, critique and practice various empirical methodologies used to study child and adolescent development, including design, data analysis and interpretation.
7. Develop and describe an individualized post-baccalaureate plan to pursue a professional career, including such related issues as identifying short- and long-term goals, developing professional networks, engaging in career exploration/planning, identifying prospective advanced degree/training programs and overall long-term success as a professional.

## Requirements for the Bachelor of Arts Degree

### 1. Lower Division Required Courses

#### Introduction to the Field (10 units)

|          |   |
|----------|---|
| CADV 150 | Foundations of Child and Adolescent Development (3) |
| MATH 140 | Introductory Statistics (4)*                        |
| PSY 150  | Principles of Human Behavior (3)*                   |

\*Also counts as General Education

### 2. Upper Division Required Courses

#### Modes of Inquiry (8 units)\*\*

|            |  |
|------------|--|
| CADV 380/L | Methods of Child and Adolescent Study and Lab I (3/1)  |
| CADV 381/L | Methods of Child and Adolescent Study and Lab II (3/1) |

\*\*Note: Students double-majoring in Psychology may use PSY 320/L and PSY 321/L to fulfill the "Modes of Inquiry" requirement

#### Domains of Development (6 units)

|          |                                   |
|----------|-----------------------------------|
| CADV 350 | Applied Cognitive Development (3) |
| CADV 352 | Applied Social Development (3)    |

#### Cultural/Linguistic Contexts of Child and Adolescent Development (9 units)

|          |  |
|----------|--|
| CADV 460 | Race, Ethnicity, Gender and Culture in Development (3) |
|----------|--|

#### Choose 1 of the following Cultural Contexts courses:

|          |  |
|----------|--|
| AAS 355  | Biracial and Multiracial Identity (3)        |
| AAS 450  | The Asian American Child and the Schools (3) |
| AAS 453  | Asian American Families (3)                  |
| ARMN 440 | The Armenian American Child (3)              |
| CHS 430  | The Chicana/o Child (3)                      |
| CHS 431  | The Chicana/o Adolescent (3)                 |
| CHS 432  | Counseling the Chicana/o Child (3)           |
| PAS 420  | The Black Child (3)                          |
| PAS 421  | Strategies for Black Child Development (3)   |

#### Choose 1 of the following Linguistic Contexts courses:

|          |   |
|----------|---|
| ANTH 310 | Language in Culture: Anthropological Linguistics (3)* |
| CHS 433  | Language Acquisition of the Chicano (3)               |
| CHS 482  | Language of the Barrio (3)                            |
| DEAF 360 | American Deaf Culture (3)                             |
| ENG 301  | Language and Linguistics (3)                          |
| ENG 405  | Language Differences and Language Change (3)          |
| LING 441 | Sociolinguistics (3)                                  |
| PAS 395  | Bilingualism in the African American Community (3)    |
| SPAN 310 | Language and Contemporary Life (3)                    |

\*Also counts as General Education

#### Professional Development: Choose Pattern A or

#### Pattern B (12 units)

Students are eligible to apply for and complete a Department-Sponsored Internship (Pattern A) or expand their breadth and/or depth of knowledge in connecting theory-to-practice through course work (Pattern B).

#### Pattern A—Department Sponsored Year-Long Internship

|           |   |
|-----------|---|
| CADV 470  | Advanced Theories in Child and Adolescent Development (3) |
| CADV 394* | Child and Adolescent Development Internship I (3)         |
| CADV 494* | Child and Adolescent Development Internship II (3)        |

#### Complete an additional 3 units from any course(s) listed in Pattern B (see below)

#### Pattern B—Practitioner-Based Skill Sets and Content Areas

|          |   |
|----------|---|
| CADV 470 | Advanced Theories in Child and Adolescent Development (3) |
|----------|---|

**And choose any 3 of the following courses:**

|                |  |
|----------------|--|
| CADV/RTM 406/L | Enhancing Childhood Creativity (2/1)   |
| CADV 450       | Helping Children Cope with Medical Environments (3)  |
| CADV 451       | Alternative Approaches to Discipline (3)   |
| CADV 452       | Child Advocacy (3)   |
| CADV 495A*     | Child and Adolescent Development Graduate School Skills and Applied Research Training I (3)  |
| CADV 495B*     | Child and Adolescent Development Graduate School Skills and Applied Research Training II (3) |
| CADV 497AA-ZZ  | Selected Topics (3)  |
| CADV 499C*     | Independent Study (3)  |
| FCS 480        | The Helping Professional (3)   |
| SOC 459        | Child Welfare (3)  |

\*Students interested in enrolling in these courses must complete an application available at the Department Office (SQ 285).

**3. Electives (12 units)**

Choose any 12 units of course work from the list below. Although some courses listed below can be used to fulfill other requirements for the major, courses used for such requirements may not be used to satisfy the electives in the major.

**Development**

|                |  |
|----------------|--|
| CADV 250       | The Child and Adolescent Profession      |
| CADV/PSY 327   | Infancy and Early Childhood (3)          |
| CADV/PSY 335   | Middle Childhood (3)                     |
| CADV/PSY 361   | Adolescence (3)                          |
| CADV/RTM 406/L | Enhancing Childhood Creativity (2/1)     |
| CADV 451       | Alternative Approaches to Discipline (3) |
| CADV 497AA-ZZ  | Selected Topics                          |
| ENG 301        | Language and Linguistics (3)             |
| LING 417       | Language Development and Acquisition (3) |
| FCS 335        | Prenatal and Infant Development (3)      |
| FCS 438        | Adolescents in the Family Context (3)    |

**Atypical Development**

|           |  |
|-----------|--|
| PSY 310   | Behavior Disorders (3)   |
| PSY 317   | Psychopharmacology (3)   |
| PSY 351   | Behavioral Psychology and Therapy (3)                            |
| PSY 406   | Developmental Psychopathology (3)                                |
| PSY 454   | Clinical Psychology (3)  |
| PSY 464   | Cognitive and Behavioral Intervention Techniques (3)             |
| SOC 348   | Juvenile Delinquency (3)   |
| SPED 400  | Introduction to Special Education (3)                            |
| SPED 401A | Instruction in Special Education: Assessment and Instruction (3) |
| SPED 402A | Behavior Assessment and Positive Behavior Support (3)            |
| SPED 431  | Atypical Development of Infants and Toddlers (3)                 |

**Education**

|            |  |
|------------|--|
| ART 383    | Art in Early Childhood (3)               |
| ART 479    | Art Education Across Cultures (3)        |
| CADV 406/L | Enhancing Childhood Creativity (2/1)     |
| CADV 452   | Child Advocacy (3)                       |
| CADV 451   | Alternative Approaches to Discipline (3) |
| ENG 428    | Children's Literature (3)                |
| ENG 429    | Adolescent Literature (3)                |
| EPC 314    | Psychological Foundations, K-12 (3)      |

|   |   |
|---|---|
| EPC 315                                     | Psychological Foundations of Learning and Teaching (3)      |
| FCS 433                                     | Administration of Children's Programs (3)                   |
| FCS 436                                     | Parental Development (3)                                    |
| KIN 370/L                                   | Physical Education in Early Childhood Education (2/1)       |
| KIN 470/L                                   | Physical Education for Children (2/1)                       |
| MUS 361/L                                   | Music Literature for Children (2/1)                         |
| MUS 362/L                                   | Music for Early Childhood (2/1)                             |
| PSY 312                                     | Psychological Aspects of Parenthood (3)                     |
| RTM 305                                     | Dynamics of Early Childhood Play (3)                        |
| RTM 352                                     | Play and Human Potential (3)                                |
| <b>Counseling</b>                           |   |
| ART 481                                     | Art as Therapy (3)  |

### General Education

Several major courses also meet GE requirements. CADV 150 meets Social Sciences Lower Division GE. MATH 140 is a Basic Skills course. ANTH 310, FCS 340 and RTM 352 meet Upper Division General Education requirements.

### Honors Program in Child and Adolescent Development

This program provides students with opportunities to develop and strengthen specific competencies, such as academic writing, research skills and community engagement that are essential for entrance into post-baccalaureate degree granting programs. To earn the Department Honors designation on University transcripts a student must:

- Be a Child and Adolescent Development major;
- Complete CADV Honors Program petition by the annual deadline;
- Complete a minimum of 45 units in letter-graded courses at CSUN;
- Score of 10 or better on the Upper Division Writing Proficiency Examination;
- Complete CADV 394B/494B or CADV 495A-B;
- Earn a "B" or better in CADV 470; and
- Earn a 3.50 GPA or better in courses the following courses: CADV 150 or equivalent; CADV 250; CADV 350; CADV 352; CADV 380/L or PSY 320/L or FCS 431/L; CADV 460; ANTH 310 or ENG 301; LING 417; MATH 140 or equivalent; PSY 321/L.

### Pursuing a Multiple Subject Preliminary Teaching Credential

Child and Adolescent Development majors interested in pursuing a Multiple Subject Teaching (MST) Credential at CSUN may begin completing selected requirements before earning the B.A. Degree that may decrease time to complete the credential. Students interested in beginning course work toward the MST Credential:

- May complete the following four classes: (a) EED 500-Fundamentals of Teaching; (b) EED 515-Basic Technology Methods; (c) ELPS 417-Equity and Diversity in School; and (d) HSCI 496 during their junior or senior years.
- Are eligible to formally apply to the CSUN Credential Program (upon completion of EED 417, 500, 515 and HSCI 496).  
**Note:** Student must have a minimum cumulative GPA of 2.75
- Are eligible to enroll in EED 520-Teaching Reading in Elementary School and EED 565M-Mathematics Curriculum and Methods (upon admission into the Credential Program).
- Are strongly encouraged to prepare for and pass the California Subject Examination for Teachers (CSET) ([www.cset.nesinc.com](http://www.cset.nesinc.com)) as passing this exam is required before students can complete the student teaching requirement of the program.

For more information on earning the Multiple Subject Teaching Credential visit the Elementary Education section of the Catalog and contact the CSUN Credential Office for advisement. The Credential Program advisors and staff can be reached at (818) 677-2586.

### Obtaining a Child Development Permit

The Child Development Permit is a state of California-authorized credential that verifies completion of the requirements established by the Commission on Teacher Credentialing (CTC) ([www.ctc.ca.gov/credentials/CREDS/child-dev-permits.html](http://www.ctc.ca.gov/credentials/CREDS/child-dev-permits.html)) for assisting, teaching or supervising in a child development program (e.g., pre-kindergarten/early childhood education programs) in the state of California. Students who complete the Minor in Childcare Administration (see Family and Consumer Sciences) will have satisfied course work and practicum/fieldwork requirements for the permit. Most undergraduate students pursuing careers in Early Childhood Education are eligible for financial support (grants and stipends) through the Child Development Training Consortium ([www.childdevelopment.org](http://www.childdevelopment.org)).

### Course List

#### CADV 150. Foundations of Child and Adolescent Development (3)

This course surveys typical and atypical child and adolescent development. Readings and course work provide basic grounding in the major theories/theorists of human development, an overview of major topics in cognitive, social and physical development as they relate to the culture in children's development and develop basic competencies for child observation as a study methodology. (Available for General Education, Social Sciences.) (IC)

#### CADV 196A-Z. Experimental Topics (1-6)

Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

#### CADV 250. The Child and Adolescent Development Profession (3)

Provides an overview of the history, contemporary status and projected future of child and adolescent development as a discipline. Contemporary professional issues, advocacy and professionalism in careers that use child and adolescent development as a foundation are investigated.

### Upper Division

#### CADV 327. Infancy and Early Childhood (3)

*Prerequisite:* PSY 150, 250. *Preparatory:* PSY 301. Relevant aspects of physical, social, cognitive and emotional change are highlighted as part of human development from conception to early childhood (conception to 8 years). Emphasis on the study of the underlying processes and influences on human development. Cultural contexts of development, key changes, continuity and individual differences are examined. Includes evaluation of selected theories, contemporary issues and practical applications. (Crosslisted with PSY 327.)

#### CADV 335. Middle Childhood (3)

*Prerequisites:* PSY 150; completion of the Lower Division writing requirement. *Preparatory:* PSY 301. This course examines developmental changes in the middle childhood years (7-12 years). Emphasis is on current research and major theories associated with middle childhood development. Cultural contexts of development, key changes, continuity and individual differences are examined. (Crosslisted with PSY 335.)

#### CADV 361. Adolescence (3)

*Prerequisites:* PSY 150; Completion of the Lower Division writing requirement. *Preparatory:* PSY 301. Analysis of the physical, cognitive, social and emotional changes from puberty to adulthood. Examines contemporary youth culture from a historical and cross-cultural perspective. Discusses evaluation of age norms and deviant development. Project involving some aspect of adolescent development is required. (Crosslisted with PSY 361.)

**CADV 350. Applied Cognitive Development (3)**

*Prerequisite:* Completion of Lower Division writing requirement; *Preparatory:* CADV 150. Students survey major topics of cognitive development from infancy to adolescence, review research literature about environmental factors that influence children's cognitive development and assess the implications for observing and working with children and their families. Students have an opportunity to learn how children's developing ability to think and articulate can be used as a basis for communicating effectively with them.

**CADV 352. Applied Social Development (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* CADV 150. This course surveys human social development from infancy through adolescence. Several theoretical frameworks that inform the study of social development are presented, as well as empirical evidence extending knowledge of the processes and content of social development. Emphasis is placed on connecting theories and constructs of social development to effective practice as child and adolescent professionals, the development of observation skills and use of developmentally appropriate practices with children and adolescents in naturalistic settings.

**CADV 380/L. Methods of Child and Adolescent Study I/Lab (3/1)**

*Prerequisites:* MATH 140; *Completion of Lower Division writing requirement.* *Preparatory:* CADV 150. *Corequisite:* CADV 380L. Designed to introduce students to the scientific process of studying children and adolescents. Through hands-on experiences, students gain insight into some of the key issues facing researchers, including problems of measurement, observation and interpretation, generation and testable questions, development of coding systems and establishment of reliability. Students work in small groups to plan and carry out their own research projects at University-affiliated sites.

**CADV 381/L. Methods of Child and Adolescent Study II /Lab (3/1)**

*Prerequisite:* CADV 380/L. *Corequisite:* CADV 381L. This course is designed to build on students' knowledge of the scientific process of studying children and adolescents. Major topics include a consideration of the philosophical and conceptual underpinnings of research, the structures and conduct of research inquiry and the generation of research questions and hypotheses. General methodology will be covered through readings and activities from the textbooks and will be tailored to questions that focus on child and adolescent development. Students will be challenged to think critically about methodological issues in research that they read and will have an opportunity to design a research study of their own. Lab: provides the opportunity to apply course concepts in a series of in-class and on-line activities

**CADV 394. Child and Adolescent Development Internship I (3)**

*Prerequisites:* CADV 150, 250; PSY 150. *Pre or Co-requisite:* CADV 350 or 352. Students must complete an application (available in Department Office, SQ 285) in the Spring semester prior to enrolling the following Fall. First of a two-semester internship sequence enabling students to apply theory to practice in a community setting. Internship includes 75 hours of service in a community organization/ setting in addition to regular class meetings. (Credit/No Credit only)

**CADV 406/L. Enhancing Childhood Creativity and Lab (2/1)**

*Prerequisite:* *Corequisite:* CADV 406/L. An Integrative seminar and lab experience focusing on the theoretical approaches for enhancing childhood creativity. The uses of play and fantasy are explored as means for developing programs that are child-oriented. Regular written assignments are required. (Crosslisted with RTM 406/L.)

**CADV 450. Helping Children Cope with Medical Environments (3)**

*Prerequisites:* CADV 150; *Completion of the Lower Division writing requirement.* The developmental impact of illness, disability and hospitalization on children and youth are studied. Methods used by child development specialists to help children cope with the emotional stress of ill health and disability will be presented.

**CADV 451. Alternative Approaches to Discipline (3)**

Investigation of literature on discipline in child development settings. Practical and theoretical approaches are related and integrated.

**CADV 452. Child Advocacy (3)**

Designed to increase student knowledge of local, state and national advocacy organizations and their influence on public policy. Focus is on the individual child development professional's role as a child advocate.

**CADV 460. Race, Ethnicity, Gender and Culture in Development (3)**

*Prerequisite:* Completion of Lower Division writing requirement. *Preparatory:* CADV 150. Explores the development of ethnic minority children and adolescents in multicultural settings. Particular focus is placed on students' exploration of their own understandings and awareness of culture, ethnicity and gender, based on the premise that effective professionals must clearly understand their own personal biases and level of privilege before looking at traits and characteristics of other groups. Specific attention is given to exploring the practical application of these concepts and theories in community settings.

**CADV 470. Advanced Theories in Child and Adolescent Development (3)**

*Prerequisites:* CADV 350 or 352, 380/L. *Passing score on the Upper Division Writing Proficiency Exam.* This capstone course is a culminating experience for majors. It facilitates professional development through high level discussions and thinking on concepts and theories of development for transition into graduate-level programs in human development or related fields and/or into a career. Designed to synthesize the broad concepts of child and adolescent development, and to address contemporary issues in the field.

**CADV 494. Child and Adolescent Development Internship II (3)**

*Prerequisite:* CADV 394B. The second semester internship builds on the in-depth understanding of the program and experiences gained from the first semester internship. Individual goals enhance the professional development of students. Includes 75 hours of service in a community setting/organization in addition to regular class meetings. (Credit /No Credit only)

**CADV 495A. Child and Adolescent Development Graduate School Skills and Applied Research Training I (3)**

*Prerequisite:* Students must complete Department application. *Recommended Preparatory:* CADV 150; CADV 380/L or PSY 320/L or FCS 431; *Completion of Lower Division writing requirement.* This course will address issues associated with becoming a professional in the field of child and adolescent development through developing applied research skills that will facilitate entry into graduate and professional programs in related fields. Students will: (1) develop competencies in qualitative and quantitative research methods in studying children and adolescents in both laboratory and field-based settings; and (2) gain practical experience applying knowledge of these research methods on actual active Child and Adolescent Development faculty research projects.

**CADV 495B. Child and Adolescent Development Graduate School Skills and Applied Research Training II (3)**

*Prerequisite:* CADV 495A or consent of instructor. This course builds on the foundation of applied research methods in CADV 495A by providing opportunities for students to integrate the theories and constructs of applied research in the field of child and adolescent development toward further development of graduate school skills and training. Through participation in weekly seminars in addition to hands-on experience on research projects at varying stages of the research process, this course will provide students in-depth knowledge about particular phases of research (e.g., hypotheses generation, project design, data collection, data analyses and dissemination). In addition, students will develop a personal statement of their (1) research interests and (2) theoretical grounding in child and adolescent development.

**CADV 496A-Z. Experimental Topics Courses (3)**

Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**CADV497AA-ZZ. Special Topics in Child and Adolescent Development (3)**

*Recommended Preparatory:* CADV 350, 352, 380/L. Innovative courses of study. Topics to be specified in the Schedule of Classes. Different topics may be taken for credit.

**CADV 499A-C. Independent Study (1-3)**

*Prerequisite:* Arranged with the permission of the instructor. Enrollment in an Independent Study is by permission of the Department Chair and with the consent of the instructor who agrees to be a sponsor. Enrollment is granted based on evidence of the student's ability to work independently on a project. Students who are on probation or who have been disqualified and have not yet completed academic readmission requirements may not enroll in CADV 499 courses. Regular progress meetings with the faculty sponsor and a final written report are required before credit can be given for the course. Please note that the maximum number of units from 499 courses that can be counted toward the baccalaureate degree is 6 units in a major and 6 additional units outside the major. Enrollment in an Independent Study is not allowed for the purpose of substitution for an existing course. An Independent Study is related to a major course or study and is not available for meeting a General Education requirement.

## Cinema and Television Arts

Mike Curb College of Arts, Media and Communication

**Chair:** Jonathan Stahl

Manzanita Hall (MZ) 195

(818) 677-3192

[www.ctva.csun.edu](http://www.ctva.csun.edu)

### Faculty

Karen Dee Carpenter, Eric Edson, Frances Gateward, Robert Gustafson, Michael Hoggan, Karen Kearns, Joel Krantz, Alexis Krasilovsky, Kenneth Portnoy, Jared Rappaport, Quinn Saunders, Mary C. Schaffer, John Schultheiss, Jonathan Stahl, Nate Thomas, Thelma Vickroy, Temma M. Willey, Dianah Wynter

### Emeritus Faculty

Bertram Barer, Thomas Burrows, Emory Johnson, Frederick Kuretski, Judith Marlane, Donald Wood

### Programs

Undergraduate:

**B.A., Cinema and Television Arts**

**Minor in Electronic Media Management**

Graduate:

**M.A., Screenwriting**

### The Department

The mission of the Department of Cinema and Television Arts (CTVA) is to instill in students the knowledge, expertise and creative skills that will help them to achieve their goals in the fields of television, film and new media. Our curriculum promotes the creative, analytical and conceptual thinking that will enrich their lives. The Department is affiliated with the University Film and Video Association, the Broadcast Education Association and the National Association of Broadcasters. It administers the CSUN Cinematheque and the Gallery of Film Poster Art, both housed in Manzanita Hall.

### The Major

The Cinema and Television Arts major provides students with academic and professional training for careers in the entertainment industry and related fields. The program is strongly committed to a balance between theoretical and practical education.

### The Options

The CTVA major prepares students in academic and creative aspects of the media disciplines through study in one of seven options:

**Electronic Media Management Option:** Operational and management aspects of independent, studio and network electronic media including business structures, personnel, budgets, advertising, sales, research and regulation of the media industries. A minor also is offered in this option.

**Film Production Option:** Conceptualization, production, directing, editing and distribution of film projects for both entertainment and informational purposes.

**Media Theory and Criticism Option:** History, theory and critical analysis of the culture of film and electronic media, providing a background for all professional training, with specific preparation for careers in teaching or research.

**Multimedia Production Option:** Pre-production, production and distribution of digital material for film, television and the World Wide Web. Students acquire effective computer skills to design websites, create streaming audio and video, design and create DVDs, and develop games in the interactive media environment.

**Radio Production Option:** Pre-production, production and post-production techniques for all radio formats—encompassing producing, directing and all other creative aspects of studio and field production.

**Screenwriting Option:** Conceptualization, structuring and writing of dramatic and non-dramatic scripts for film, television and new media.

**Television Production Option:** Pre-production, production and post-production techniques for all television formats—encompassing producing, directing and all other creative aspects of studio and field production.

### Careers

Some specific career choices for graduates of the Department of Cinema and Television Arts include the following:

Those involved in television, film or new media production create, supervise or assist in the entire range of activities in developing and executing projects. Creative occupations in this area include the selection of stories, talent and materials; art, set and lighting design; directing; cinematography and camera operation; audio recording and mixing; live television switching or editing; film editing; and other production and post-production technical functions. Positions are available in commercial film studios, independent production houses and studios, broadcast stations and networks, cable operations, video game companies, government agencies, hospitals, business corporations, educational institutions and other organizations with audiovisual and multimedia facilities.

Screenwriters create scripts for motion pictures, television or new media; for commercials; for promotional and public service announcements; and for continuity material used to introduce and connect various segments of musical, variety, reality and sports programs. They may work directly for a studio, station or network; work on a freelance basis; or may be under contract to independent production companies.

Multimedia specialists are involved in the research, design, production and execution of interactive projects for DVDs, internet, mobile services and game applications.

Media management positions include broadcast station and network management, business and financial administration, programming operations, sales and advertising. Film and media management opportunities include marketing, promotion, distribution and exhibition.

Management, production and writing careers also can lead to studio and independent producing of any entertainment or non-commercial media product. This includes development and fundraising, securing broadcast and film rights for a project, hiring of talent for the project, overseeing writing and production, arranging for distribution and exhibition.

Media theory and criticism graduates find positions as teachers, critics and researchers. Students often go on to graduate school to prepare for teaching careers or advanced research positions. These include marketing and audience research, ratings, media buying, assessing programming strategies and evolving media and technology strategies and expansion plans.

### Academic Advisement

Advisement is recommended but not required for all Pre-CTVA majors. Appointments to meet with Pre-CTVA advisor Kathleen McWilliams can be made by calling the Department office.

Advisement is mandatory for CTVA majors. Prior to each semester's course registration period, each major is required to meet with his/her faculty advisor to discuss course selection and assess the student's academic progress. Once a schedule for the following semester is jointly approved, the student receives departmental permission to register for classes online. Undergraduate advising for each of the seven options is as follows: Electronic Media Management—Robert Gustafson

(option head); Film Production—Nate Thomas (option head), Karen Dee Carpenter, Joel Krantz, Michael Hoggan, Temma Willey; Media Theory and Criticism—John Schultheiss (option head), Frances Gateward, Dianah Wynter; Multimedia Production—Mary C. Schaffer (option head); Radio Production—Karen Kearns (option head); Screenwriting—Jon Stahl (option head), Eric Edson, Alexis Krasilovsky, Ken Portnoy, Jared Rappaport; Television Production—Thelma Vickroy (option head), Quinn Saunders. The graduate coordinator is Eric Edson.

The Department of Cinema and Television Arts encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries may be used to fulfill some of the requirements for degree options offered by the Department.

**Student Learning Outcomes of the Undergraduate and Graduate Programs**

At the end of a program of study, students will (as reflected by the curriculum in their individual option) be able to:

1. Understand and articulate the history, theories and critical models of cinema and the electronic media;
2. Conceptualize, structure and write dramatic and non-dramatic scripts for cinema, television and new media;
3. Employ pre-production, production and post-production techniques for all electronic and digital media formats in both the studio and the field;
4. Conceptualize, produce, direct, edit and distribute cinema projects for both entertainment and informational purposes;
5. Operate and manage business structures, personnel, budgets, advertising, sales, research and regulation of independent, studio and network electronic media.

**Requirement for Admission to the Major**

All incoming freshmen and transfer students from other institutions may declare themselves as Pre-CTVA majors upon admission to the University. No supplemental materials are required for acceptance into the Pre-CTVA major.

CSUN students wishing to change from another major into Pre-CTVA must have a minimum 2.0 GPA and may apply for admission into the Pre-CTVA major by submitting to Admissions and Records a Change of Major Form signed by the Department Chair.

After successfully completing all requirements for the Pre-CTVA major listed below and after completing at least 60 units of college/university-level course work, students should apply for admission into one of the CTVA major options by submitting to Admissions and Records a Change of Major Form signed by the Department Chair.

As noted in the next section, there are additional requirements for admission into the Film and Screenwriting Options. Students intending to enter the Screenwriting Option must pass CTVA 220 with a grade of B- or better. Students intending to enter the Film Option must pass CTVA 250 with a grade of B- or better and must submit a portfolio for review and approval by the CTVA faculty. Deadline dates and portfolio format requirements can be found on the Department's website and in the Department office.

**Special Course and Grade Requirements for the CTVA Major**

All Lower and Upper Division courses taken toward completion of the Pre-CTVA and CTVA requirements must be completed with a grade of C or better (except as noted above).

**Requirements for the Bachelor of Arts Degree**

**1. Lower Division Required Courses (9-15 units)**

**Electronic Media Management (12 Lower Division units)**

|      |     |   |
|------|-----|---|
| CTVA | 100 | Introduction to Mass Communication Arts (3) |
| CTVA | 210 | Television-Film Aesthetics (3)              |

|      |             |                                      |
|------|-------------|--------------------------------------|
| CTVA | 220         | Foundations of Media Writing (3)     |
| CTVA | 230         | Fundamentals of Audio Production (3) |
|      | or CTVA 240 | Fundamentals of Video Production (3) |
|      | or CTVA 250 | Fundamentals of Film Production (3)  |

*Note: Pre-CTVA majors wishing to enter into the Electronic Media Management Option can request that the Department approve a Change of Major upon successful completion of CTVA 100 and 210.*

**Film Production (15 Lower Division units)**

|      |     |   |
|------|-----|---|
| ART  | 250 | Photography I (3)                           |
| CTVA | 100 | Introduction to Mass Communication Arts (3) |
| CTVA | 210 | Television-Film Aesthetics (3)              |
| CTVA | 220 | Foundations of Media Writing (3)            |
| CTVA | 250 | Fundamentals of Film Production (3)         |

*Note: Pre-CTVA majors wishing to enter into the Film Production Option must successfully complete all Lower Division requirements, including passing CTVA 250 with a grade of B- or better, and must submit a portfolio for review before admission to the option is granted.*

**Media Theory and Criticism (9 Lower Division units)**

|      |     |   |
|------|-----|---|
| CTVA | 100 | Introduction to Mass Communication Arts (3) |
| CTVA | 210 | Television-Film Aesthetics (3)              |
| CTVA | 220 | Foundations of Media Writing (3)            |

*Note: Pre-CTVA majors wishing to enter into the Media Theory and Criticism Option can request that the Department approve a Change of Major upon successful completion of CTVA 100 and 210.*

**Multimedia Production (12 Lower Division units)**

|      |     |  |
|------|-----|--|
| CTVA | 100 | Introduction to Mass Communication Art (3) |
| CTVA | 210 | Television-Film Aesthetics (3)             |
| CTVA | 220 | Foundations Media Writing (3)              |

**Select 1 of the Following Courses:**

|      |     |                                      |
|------|-----|--------------------------------------|
| CTVA | 230 | Fundamentals of Radio Production (3) |
| CTVA | 240 | Fundamentals of Video Production (3) |
| CTVA | 250 | Fundamentals of Film Production (3)  |

*Note: Pre-CTVA majors wishing to enter into the Multimedia Production option can request that the Department approve a Change of Major upon successful completion of CTVA 100, 210 and either 230, 240 or 250.*

**Radio Production (12 Lower Division units)**

|      |     |   |
|------|-----|---|
| CTVA | 100 | Introduction to Mass Communication Arts (3) |
| CTVA | 210 | Television-Film Aesthetics (3)              |
| CTVA | 220 | Foundations of Media Writing (3)            |
| CTVA | 230 | Fundamentals of Audio Production (3)        |

*Note: Pre-CTVA majors wishing to enter into the Radio Production Option can request that the Department approve a Change of Major upon successful completion of CTVA 100, 210 and 230.*

**Screenwriting (12 Lower Division units)**

|      |             |   |
|------|-------------|---|
| CTVA | 100         | Introduction to Mass Communication Arts (3) |
| CTVA | 210         | Television-Film Aesthetics (3)              |
| CTVA | 220         | Foundations of Media Writing (3)            |
| CTVA | 230         | Fundamentals of Audio Production (3)        |
|      | or CTVA 240 | Fundamentals of Video Production (3)        |
|      | or CTVA 250 | Fundamentals of Film Production (3)         |

*Note: Pre-CTVA majors wishing to enter into the Screenwriting Option must successfully complete all Lower Division requirements, including passing CTVA 220 with a grade of B- or better.*

**TV Production (12 Lower Division units)**

|      |     |   |
|------|-----|---|
| CTVA | 100 | Introduction to Mass Communication Arts (3) |
| CTVA | 210 | Television-Film Aesthetics (3)              |
| CTVA | 220 | Foundations of Media Writing (3)            |
| CTVA | 240 | Fundamentals of Video Production (3)        |

*Note: Pre-CTVA majors wishing to enter into the Television Production Option can request that the Department approve a Change of Major upon successful completion of CTVA 100, 210 and 240.*

**2. Upper Division Required Courses (33-36 units)**

Before admittance to the CTVA major, students must complete all requirements for the Pre-CTVA major listed above. Pre-CTVA major students may not enroll in Upper Division CTVA courses without the consent of the instructor. Upon completion of the Pre-CTVA major, students must apply at the Department Office for admittance to one of CTVA's seven options. To meet each option's specific requirements, students must complete all required courses and select additional Upper Division units in consultation with a faculty advisor in that option. Note that advisement is mandatory each semester for all CTVA majors. Each option provides an advisement form, available in the CTVA office, which lists both required and elective courses for the option. To fulfill the Department's commitment to critical thinking and research skills, each option requires at least one such course as CTVA 301, 319, 400 or 401.

**Required Upper Division Courses for Each Option:****A. Electronic Media Management Option (33 units)****1. Required Courses**

|      |     |                                 |

**The Graduate Program: M.A. in Screenwriting**

The graduate program presupposes a strong undergraduate preparation or equivalent professional experience in screenwriting. The Master's program calls for more intensive study, focuses on evaluation of student's scripts and the development of creative, analytical and research techniques culminating in a screenplay/thesis project. The program offers no studio-based production instruction.

**Requirements for the Master of Arts Degree****A. Program Admission Requirements Classified Status:**

1. Bachelor's Degree: Students lacking sufficient academic or professional background in Television or Film will be expected to expand their knowledge of those fields through enrolling in courses assigned by the Graduate Advisor;
2. A 3.0 GPA in an undergraduate major and in all Cinema and Television Arts courses taken;
3. A 3.0 GPA for all undergraduate work undertaken. Candidates with outstanding professional records may seek, with substantial justification, an exception to conditions 1 and 2 above;
4. Completion of general requirements for Classified graduate status:
  - a. An above-average score on the GRE verbal portion;
  - b. A passing score on the Upper Division Writing Proficiency Exam;
5. Submission of 3 letters of recommendation.

**B. Special Requirements**

A minimum of 30 units of approved graduate work is required for the degree. University regulations require that at least 18 units of the program shall be 500- and 600-level courses. Students applying more than 36 units of course work to their graduate program must take at least 70 percent of their courses in 500- and 600-level classes. The 30 minimum units are comprised of the following:

**1. Required Courses (24 units)**

|          |  |
|----------|--|
| CTVA 500 | Studies in History (Core) (3)  |
| CTVA 501 | Studies in Theory (Core) (3)*<br>(*CTVA 500 is a prerequisite for CTVA 501)    |
| CTVA 525 | Seminar in Screenwriting (3)*<br>(*May be taken concurrently with CTVA 50      |
| CTVA 602 | Seminar in Research Methods (3)*<br>(*CTVA 602 is a prerequisite for CTVA 692) |
| CTVA 622 | Department Colloquium (3)*<br>(*May be taken concurrently with CTVA 501)       |
| CTVA 692 | Research Practicum (3)   |
| CTVA 697 | Comprehensive exam (3)   |
| CTVA 698 | Thesis or Thesis Project (3)   |

**2. Electives (12 units)**

Students take these units with the prior approval of the Graduate Advisor. These must be 400-, 500- or 600-level courses in an analytic, professional or methodological area in CTVA or related disciplines. Students may not register for more than 3 400-level courses.

|             |  |
|-------------|--|
| CTVA 420    | Screenplay Adaptation (3)                    |
| CTVA 425    | Advanced Screenwriting (3)                   |
| CTVA 428    | Writing Screenplay Comedy (3)                |
| CTVA 512    | Seminar in Film Theory (3)                   |
| CTVA 532    | Seminar in Analysis of Media Performance (3) |
| CTVA 595A-I | Studies in Mass Communication (3)            |

| <b>Total Units Required for the Degree</b> | <b>30</b> |
|--|-----------|

**Course List****CTVA 100. Introduction to Mass Communication Arts (3)**

Not open to students with credit in JOUR 100. Survey of the fields of radio, television and film as they relate to other mass media. Comparative analysis and evaluation, including historical, societal, legal and individual considerations. (Available for General Education, Lifelong Learning.) (IC)

**CTVA 210. Television-Film Aesthetics (3)**

TV and film communicative art forms. Representative films and television programs are exhibited and analyzed. (Available for General Education, Arts and Humanities.) (IC)

**CTVA 220. Foundations of Media Writing (3)**

*Prerequisite: Completion of Lower Division writing requirement.* Required of all pre-majors. Basic introductory course in writing for the film and electronic media, with emphasis on preparing scripts in proper formats. Includes a writing evaluation component as part of the course requirement.

**CTVA 230. Fundamentals of Audio Production (3)**

Introductory course in audio production. Training in digital production, audio console operation, use of tape recorders and microphones, tape editing, program formats and announcing. Lab with accompanying lecture, 4 hours per week.

**CTVA 240. Fundamentals of Video Production (3)**

Basic introduction to all aspects of television studio production, audio and video; microphones, audio recorders, cameras, lenses, switching and lighting equipment. Principles of graphics and scenery. Lab with accompanying lecture, 6 hours per week.

**CTVA 250. Fundamentals of Film Production (3)**

*Prerequisite:* ART 250. Introductory course in Television-Film Production. Use of film as a creative medium and art form in mass communication, using 16mm production techniques. 6 hours lab per week.

**CTVA 301. Design of the Media Message (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Fundamentals of researching and designing the informational media program. Principles of determining audience needs, research, analysis and design, and program structure as they apply to documentaries, motivational programs and other educational and propaganda messages. Regular written assignments required.

**CTVA 305. History of Broadcasting (3)**

*Prerequisite:* CTVA 100. Radio and television broadcasting: beginnings, development, commercial and noncommercial support, regulations, impact on society, programming and future of telecommunications.

**CTVA 309. Film as Literature (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of the art of the cinema in order to establish a unique visual literature with its own critical standards. Feature films of various types and from diverse sources are screened. (Available for General Education, Arts and Humanities.)

**CTVA 310. History of American Cinema (3)**

*Prerequisites:* CTVA 100/Completion of Lower Division writing requirement. History of the development of American cinema: formats, film aesthetics, societal impact, evolution as an entertainment medium. Screening and evaluation of representative films.

**CTVA 315. New Directions in Electronic Media Systems (3)**

*Prerequisite:* CTVA 100. Examination of electronic media systems for program production and dissemination, as well as implications for producers, regulators and society as a whole.

**CTVA 319. Criticism in Cinema and Television Arts (3)**

*Prerequisites:* CTVA 210; Completion of Lower Division writing requirement. Analysis of social, cultural, literary and moral aspects of radio, television and film. Examination of media as distributors of information, propaganda and entertainment. Regular written assignments required, including the writing of critical analyses.

**CTVA 320. Writing for Film and Television (3)**

*Prerequisite:* CTVA 220. Basic dramatic screenwriting techniques for television and film. Disciplines of plot construction, characterization and dialogue are examined.

**CTVA 327. Writing for Industrial Media (3)**

*Prerequisite:* CTVA 220. Theory, history and principles of writing industrial film and television programs for business, government and other organized groups.

**CTVA 329ABC. Program Production (1-3)**

*Prerequisite:* Instructor consent. CTVA 230 is required for all students working at KCSN. Principles of management, programming and production with practical application. Students must work at least 3 hours a week for 1 unit. Maximum of 6 units allowable. (Credit/No Credit only)

**CTVA 330. Advanced Audio Production (3)**

*Prerequisite:* CTVA 230. Techniques of studio and remote audio production. Creation of radio magazine features. Training in use of sound effects, dramatic production, multi-track recording, digital production and mixing. Lab with accompanying lecture, 4 hours per week.

**CTVA 340. Advanced Video Production and Editing (3)**

*Prerequisite:* CTVA 240. Advanced course in the creative use of television studio cameras, lighting, sound, computer graphics and editing principles in television productions, including interview and dramatic formats. Both group and individual projects are structured around theory and practice. Lab with accompanying lecture, 6 hours per week.

**CTVA 341. Single-Camera Video Production and Editing (3)**

*Prerequisite:* CTVA 340. Overview of the theory and practice of electronic field production. Examines the technical and aesthetic requirements of single-camera video production and editing. 6 hours of lecture and lab activity per week.

**CTVA 342. Digital Cinematography (3)**

*Prerequisite:* CTVA 240 or 357. Advanced course with a specialized foundation in digital cinematography. The course will explore the theory and professional practice of digital cinematography for television and film. Topics include history, theory, composition, visual design, lighting and special effects. Dual emphasis on individual creativity and production group dynamics. 3 hours lecture; three hours lab per week.

**CTVA 350. Film Directing (3)**

*Prerequisite:* CTVA 250. Examination of basic creative elements and technical approaches necessary to achieve professional excellence in film direction. 6 lab hours per week.

**CTVA 351. Anatomy of Film Producing (3)**

*Prerequisite:* CTVA 240 or 250. Organization and management for both independent and studio film production. Basic business procedures, financing, budgeting, distribution, exhibition, legal matters, the development of entrepreneurial skills and structure, practices and current trends of the industry.

**CTVA 352. Nonlinear Digital Editing (3)**

*Recommended Corequisite or Preparatory:* CTVA 341 or 355. Overview of the theory and practice of nonlinear editing for video and film utilizing nonlinear digital editing work stations. Examines the technical and aesthetic requirements of editing through the use of professional film and video dailies. Gives the student fundamental knowledge and experience the Editor and Assistant Editor must have to run a digital editing system. 3 hours of lecture; 3 hours of lab activity per week.

**CTVA 355. Intermediate Film Production (3)**

*Prerequisite:* CTVA 250. Intermediate course in 16mm film production, with emphasis on story and the creative use of the motion picture camera, sound, editing and other aesthetic elements. 6 hours of lab per week.

**CTVA 356. Advanced Film Editing (3)**

*Prerequisite:* CTVA 355. Advanced course in post-production film technique and aesthetics, including the analysis, application and mastery of editing styles. 6 hours of lab per week.

**CTVA 357. Advanced Cinematography (3)**

*Prerequisite:* CTVA 355. Advanced course in film production techniques and aesthetics, including detailed examination of film grammar as it is created in the camera, lighting technology and practice, camera technology, optics of lenses and their effect on aesthetics, principles of composition, new technologies, computerized application and special cinematic situations (e.g., infrared, underwater and macro-cine). 6 hours of lab per week.

**CTVA 358. Advanced Film Sound (3)**

*Prerequisite:* CTVA 355. Advanced course in the theory and practice of sound gathering and mixing for motion picture production, including technical and aesthetic requirements. Use of various technologies and microphones. Presents the mix and post production sound editing. 3e hours lecture; 3 hours lab per week.

**CTVA 359. Post Production Sound Design for Film and Electronic Media (3)**

*Prerequisite:* CTVA 355 or 340. Advanced course with a specialized foundation in post production sound recording and mixing. The course will explore the theory and professional practice of sound design for film and electronic media. Topics include history, theory, dialogue editing, sound effects, Foley, ADR and surround sound. Dual emphasis on individual creativity and production group dynamics. 3 hours lecture; 3 hours lab per week.

**CTVA 361. Computer Fundamentals for Multimedia (3)**

*Prerequisite:* CTVA 100. General introduction to computers and their use in multimedia design, production, distribution and in desktop video. Covers computer fundamentals, the use of the graphic user interface, provides an overview of the use of computers in multimedia and familiarizes students with appropriate software. 6 hours per week.

**CTVA 362. Corporate and Instructional Media (3)**

*Prerequisite:* CTVA 100. Study of contemporary practices in corporate, school, medical and civic media as they relate to educational, training and motivational purposes. Examination of audience needs, objectives, design and writing, production, distribution, utilization and evaluation.

**CTVA 384. Electronic Media Advertising (3)**

*Prerequisite:* CTVA 100. Advertising as economic support for broadcast media. Audience, market surveys, network, affiliate rate structures. Impact of Radio-TV advertising on local and national economy.

**CTVA 395. Independent Senior Projects (3)**

*Prerequisites:* Senior status; approval of project by a faculty advisor in that option. Independent work with faculty supervision in Cinema and Television Arts.

**CTVA 400. Media and Society (3)**

*Prerequisite:* CTVA 100. Examination of contemporary views of media and societal effects. Analysis of McLuhan, Meyrowitz, Postman and other theorists. Effects of TV violence.

**CTVA 401. Mass Communications Research (3)**

*Prerequisite:* CTVA 100. Inquiry into research methodology in mass communication. Emphasis on solution of research problems in areas relating to the mass media.

**CTVA 405. International Broadcasting (3)**

*Prerequisite:* CTVA 100. Comparative examination of broadcasting in foreign nations. Analysis of how radio and television reflect the social and political life of each country.

**CTVA 410. Advanced Film Theory: Studies in Film Style (3)**

*Prerequisites:* CTVA 210 or 310; Completion of Lower Division writing requirement. Study of realistic and expressive elements as reflected in selected film and literary references. Emphasis on aesthetic implications and significance of directorial, thematic, cinematographic approaches and techniques in the film medium. Regular written assignments required.

**CTVA 412. Analysis of Classic Filmmakers (3)**

*Prerequisites:* CTVA 210 or 310; Completion of Lower Division writing requirement. In-depth analysis of the unique personal visions and creative accomplishments of specially selected film artists, studied from the point of view of technique, visual style, content and sociological implications. Regular written assignments required

**CTVA 413. Women as Filmmakers (3)**

*Prerequisites:* Completion of Lower Division writing requirement, CTVA 210 or 310. Examination of the careers and film productions of various internationally recognized women filmmakers (e.g., directors, writer/directors, etc.), focusing on their unique contributions in content and style. Emphasis on the present-day scene with films or video from France, Germany, Italy, Australia and the U.S. Regular written assignments required.

**CTVA 415A-Z. International Cinema (3)**

*Prerequisites:* Completion of the Lower Division writing requirement; CTVA 210 or 310. In-depth analysis of the creative accomplishments of the aesthetic and socioeconomic influences on the cinematic art of a single nation or geographic region other than the U.S. Specific nations or regions will vary from semester to semester. Up to two different sections of this course may be taken for credit in the following areas: (A) Australia; (B) Britain; (C) China; (D) Canada; (E) Eastern Europe; (F) France; (G) Germany; (H) Hispanic; (I) Italy; (J) Japan; and (S) Survey of a variety of countries. Regular written assignments required.

**CTVA 416. The Documentary Tradition in Film and Video (3)**

*Prerequisite:* CTVA 210. Examination of the history, functions, ethics and aesthetics of the documentary in both theatrical and television formats. Screening of works from U.S. and international sources, including those that represent the documentary purposes of observation, analysis, persuasion and aesthetic expression. Regular critical writing assignments required.

**CTVA 420. Screenplay Adaptation (3)**

*Prerequisite:* CTVA 320. Advanced development of student skills and techniques, with emphasis on the adaptation of a published literary work. Available for graduate credit.

**CTVA 421. Writing the Short Film (3)**

*Prerequisites:* CTVA 220; Either CTVA 320 (for Writing Option) or 355 (for Film Option); Instructor consent. Must be taken prior to submission of the senior film proposal. For those who intend to write short film screenplays to be used for senior film productions. Via lectures, discussions and readings, provides dramatic principles pertinent to the writing of a short film script. Students are guided incrementally in a workshop setting through the development of several drafts of the screenplay. Final outcome is a 10-15 page, production-ready shooting script. Available for graduate credit.

**CTVA 425. Advanced Screenwriting (3)**

*Prerequisite:* CTVA 420. Advanced problems in writing drama, program specials. Available for graduate credit.

**CTVA 428. Writing Screenplay Comedy (3)**

*Prerequisite:* CTVA 320. An examination of the theory, spectrum and structures of comedy, as well as the writing of comedy scenes and screenplays. Available for graduate credit.

**CTVA 440. Theory and Techniques of TV Directing (3)**

*Prerequisite:* CTVA 240. Theories and techniques of TV directing. Unique characteristics of video as they affect the art of directing. Screening and critique of representative TV programs.

**CTVA 441. Directing the TV Documentary (3)**

*Prerequisite:* CTVA 341. Advanced television directing course emphasizing educational and documentary formats. Both studio and remote production assignments. Lab with accompanying lecture, 6 hours per week.

**CTVA 442. Directing the TV Drama/Comedy (3)**

*Prerequisites:* CTVA 341; 440. Advanced television directing course emphasizing dramatic formats. Producing and directing live and recorded studio situation comedy and drama programs. 6 hours lab per week.

**CTVA 443. Magazine Format Video Production (3)**

*Prerequisite:* CTVA 341. Examines the methods and equipment that are utilized in the design and production of "magazine format" video production. Such programs combine scripted information, spontaneous discussion and pre-edited videotape segments. 6 hours per week.

**CTVA 452. Senior Film Project (3)**

*Prerequisites:* CTVA 356 or 357 or 358; Senior status. Capstone course using applied theories and techniques of film production. Approval of instructor required. Lab with accompanying lecture, 9 hours per week.

**CTVA 461. Interactive Multimedia Development (3)**

*Prerequisites:* CTVA 361; *Completion of Lower Division writing requirement.* Development, creation and integration of multimedia elements for entertainment, consumer and corporate products. Introduction to design parameters, pre-production (design documents, budgets, schedules), production, post-production (testing plans) and implementation. Regular computer assignments required. Lab, 6 hours.

**CTVA 464. Multimedia Design (3)**

*Prerequisite:* CTVA 361; *completion of the lower-division writing requirement.* Study the basic theories and techniques of multimedia production. Covers establishment of goals and objectives, program design and production practices, project validation and utilization. Lab, 6 hours.

**CTVA 467. The Management of Post Production for Television and Film (3)**

*Prerequisite:* CTVA 100. Advanced course on the management processes involved in post production, including scheduling and budgeting, setting up and managing an edit room and planning and carrying out cost-effective on-line, sound mixing, color correction and titling sessions for accurate and on-time project delivery.

**CTVA 468. Multimedia Production (3)**

*Prerequisite:* Senior status. Production of a multimedia program. Lab with accompanying lectures, 6 hours per week.

**CTVA 475. Audience Analysis (3)**

*Prerequisite:* CTVA 100. Lecture/discussion of mass audiences and the techniques used to study their wants, needs, motives, attitudes, opinions and behavior. Survey of audience measurement techniques.

**CTVA 480. Electronic Media Management (3)**

*Prerequisite:* CTVA 100. Study of business problems of station operations. Stress placed on case studies of stations.

**CTVA 481. Network Practices (3)**

*Prerequisite:* CTVA 100. Network as unique development in broadcasting, its role in distribution of information and the national economy.

**CTVA 482. Network Program Development (3)**

*Prerequisites:* CTVA 100. Theoretical and practical problems in producing current network television programs.

**CTVA 487. Social Controls and Regulation of Electronic Media (3)**

*Prerequisite:* CTVA 100. Legal and social controls in the regulation of electronic media, including broadcasting, cable television, common carriers and communication satellites. Regulatory efforts of federal agencies, such as the FCC, and controlling influences of public interest groups and the electronic media industry itself.

**CTVA 494A-F. Internship (1-6)**

*Prerequisite:* CTVA major and minor—*approval through application and instructor consent.* Extensive on-the-job training in specific areas of Radio, TV or Film production or administration. Maximum 6 units. Academic Internship Course. (Credit/No Credit only)

**CTVA 495A-Z. Current Trends in Television and Film (3)**

*Prerequisites:* CTVA major—*completion of Core requirements in Option.* Investigation of selected contemporary issues and practices in television and film. Emphasis on analysis of current trends, ethical issues and specialized operations in the entertainment business. These courses utilize industry professionals sharing their expertise in focused areas such as agency management and postproduction operations. Regular written assignments and examinations required.

**CTVA 496A-Z. Experimental Topics Courses (3)**

*Prerequisite:* 1 year of appropriate Lower Division courses in CTVA. Course content to be determined.

**CTVA 499A-C. Independent Study (1-3)****Graduate Courses—Screenwriting**

Only courses at the 400-, 500- or 600-level carry credit toward the master's degree in Screenwriting.

**CTVA 500. Theory and History of Cinema and Electronic Media (3)**

*Prerequisite:* Graduate status. Survey of the history of cinema/electronic media, as well as cinema and electronic media theory and criticism, from the silent era through the 1950s.

**CTVA 501. Theory and History of Cinema and Electronic Media II (3)**

*Prerequisite:* CTVA 500. Survey of the history of cinema/electronic media, as well as cinema and electronic media theory and criticism, from the 1950s to the present.

**CTVA 512. Seminar in Cinema and Contemporary Media Theory (3)**

*Prerequisite:* CTVA 500. Seminar in specific cinema and/or electronic media theory. Includes analysis and evaluation of the works of major cinema and media theorists.

**CTVA 525. Seminar in Screenwriting (3)**

*Prerequisites:* CTVA 425, 501. Identification and analysis of the student writer's creative strengths and weaknesses. Format includes exercises and original screenplay material specifically designed to strengthen narrative skills.

**CTVA 532. Seminar in Analysis of Media Performance I (3)**

*Prerequisite:* CTVA 500. Extended application of research and evaluation techniques as used in mass communication research to describe the quality of broadcast and film media performance.

**CTVA 595A-I. Studies in Mass Communication (3)**

*Prerequisite:* CTVA 500. Supervised graduate studies in Cinema and Television Arts Mass Communication. Faculty members will direct the studies of a small group of students in the following general areas with exact content to be determined: (A) Advanced Research; (B) History; (C) Theory; (D) Writing; (E) Radio/TV Production; (F) Film; (G) Educational Media; (H) Management; and (I) International Communication.

**CTVA 602. Seminar in Research Methods (3)**

*Prerequisite:* CTVA 500. Scope and methods of research in mass communication, including review of literature, statement of research problem, research design, collection and analysis of data and information and writing the research report.

**CTVA 622. Department Colloquium (3)**

*Prerequisite:* CTVA 500. Intensive study of contemporary issues in Screenwriting by Graduate Faculty on a rotating basis.

**CTVA 692. Research Practicum (3)**

*Prerequisites:* CTVA 501, 602. Instruction and individualized guidance in the preparation of thesis or project proposals, including introduction, literature and methodology.

**CTVA 694A-F. Internship (1-6)**

*Prerequisites:* CTVA 602; *Approval of Graduate Advisor.* Intensive on-the-job training beyond the entry level in radio, television and allied industries.

**CTVA 696. Directed Graduate Research (3)****CTVA 697A. Comprehensive Examination (1)**

Written and oral examination in the major field.

**CTVA 698A-F. Thesis or Graduate Project (1-6)**

*Prerequisites:* CTVA 501, 602; *Approval of Graduate Advisor.*

**CTVA 699A-C. Independent Study (1-3)**

*Prerequisites:* CTVA 500, 602; *Approval of sponsoring faculty member.*

# Civil Engineering and Construction Management

College of Engineering and Computer Science

**Chair: Nazaret Dermendjian**

Jacaranda Hall (JD) 4507

(818) 677-2166

[www.csun.edu/~ceam](http://www.csun.edu/~ceam)

*Staff:*

Betsy Jones (Office Manager)

*Faculty:*

Nazaret Dermendjian, Edward Dombourian, Richard Ehrgott, Emad Elwakil, Stephen Gadomski, Amine Ghanem, Mohamed Hegab, S. T. Mau

*Emeritus Faculty:*

Leonard Spunt, Miguel Macias, Roger Di Julio

## Programs

Undergraduate:

**B.S., Civil Engineering**

**B.S., Construction Management Technology**

**Minor in Construction Management**

Graduate:

**M.S., Engineering with Option in Structural Engineering**

## Mission Statement

To provide students with a sound basic civil engineering education and to prepare them for entry into the professional practice of civil engineering, as well as to instill in them a recognition that civil engineering is a people-serving profession. In keeping with these goals, we aim to develop in students an understanding that a successful professional career is one that addresses the needs of society and requires a lifetime of learning and leadership.

## The Major

Department faculty provides instruction in statics and strength of materials, dynamics and mechanics lab, as well as our degree programs.

Civil Engineers design the infrastructure of our world, from bridges and freeways to sewer systems and libraries. Their work touches nearly every facet of our society's everyday lives, including but not limited to structures, water supply, waste management, materials, construction, geotechnical, the environment and transportation. Their work is vital, particularly in Southern California where environmental, transportation and water issues are of major importance, and where structural problems, especially related to earthquakes, demand sound engineering solutions.

Civil Engineering majors at CSUN receive a solid, broad-based education. During the first two years and into the third year, all Engineering majors complete a common engineering Core curriculum. Among the many topic areas in the Core curriculum are mathematics, physics, chemistry, engineering materials, electrical circuits, engineering mechanics, thermodynamics, and engineering economy.

The junior and senior years in Civil Engineering build on the common engineering Core curriculum. These two years include instruction in structures, vibration analysis, hydraulics, soil mechanics, surveying, computer-aided design and graphics, strength of materials, concrete and steel design, construction engineering and senior design.

Civil Engineering students take classes and work in the following facilities: the Applied Mechanics Lab, where students apply engineering techniques to the static and dynamic behavior of mechanical systems; the Civil Engineering Senior Design Laboratory is used in a two-semester course that simulates a professional civil engineering environment; the Geotechnical Laboratory, where students look at the

behavior of soil as an engineering material; and the Structural Analysis Research Center, where students have the opportunity to work with faculty on such diverse projects as dams, buildings, towers and spacecraft.

Besides these facilities, students use Los Angeles itself as a laboratory, studying buildings, spacecraft, dams and other structures.

With the broad-based education students receive at CSUN, it is highly recommended that students prepare to take the EIT (Engineering in Training), now commonly referred to as the FE (Fundamentals in Engineering) Exam, before graduation. This is a national exam, 8 hours in length and covering the basic topics that comprise the common Core in engineering. The EIT or FE exam is the first of two exams that are required to become a registered engineer in the state of California. To sit for the second exam, additional work experience is required beyond the bachelor degree. In today's society, it is almost imperative that students, preparing for the Civil Engineering profession, become registered. CSUN has an excellent reputation of preparing students for this goal.

Civil Engineering students have opportunities to participate in student chapters of such professional societies as ASCE (American Society of Civil Engineers) and AWMA (Air and Waste Management Association), as well as interdisciplinary student organizations in the College, such as Tau Beta Pi, the Society of Women Engineers, the National Society for Black Engineers and the Society for Hispanic Professional Engineers.

The Civil Engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), (410) 347-7700.

## Academic Advisement

Graduate Coordinator Stephen Gadomski can be contacted at (818) 677-2166

## Educational Objectives

To carry out the mission of the Civil Engineering program, the faculty has established the following educational objectives. During the first few years following graduation, the graduates of the Civil Engineering program will have the following qualities:

1. Graduates will accept increasing levels of responsibility over time and obtain their desired professional registrations.
2. Graduates will continue further studies in engineering and other professional disciplines as appropriate to their careers.
3. Graduates will develop creative engineering solutions to project challenges that are cost-effective and environmentally sensitive.

## Student Learning Outcomes of the Undergraduate Program

- a. An ability to apply knowledge of mathematics, science and engineering;
- b. An ability to design and conduct experiments, as well as to analyze and interpret data;
- c. An ability to design a system, component or process to meet desired needs;
- d. An ability to function on multidisciplinary teams;
- e. An ability to identify, formulate and solve engineering problems;
- f. An understanding of professional and ethical responsibilities;
- g. An ability to communicate effectively;
- h. The broad education necessary to understand the impact of engineering solutions in a global and societal context;
- i. A recognition of the need for and an ability to engage in lifelong learning;
- j. A knowledge of contemporary issues;
- k. An ability to use the techniques, skills and modern engineering tools necessary for engineering practice;
- l. A proficiency in a minimum of four recognized major civil engineering areas;
- m. An ability to perform civil engineering design by means of design

experiences integrated throughout the professional component of the curriculum; and

- n. An understanding of such professional practice issues as procurement of work; bidding versus quality based selection processes; how design professionals and construction professionals interact to construct a project; the importance of professional licensure and continuing education; and/or other professional practice issues.

### Careers

Civil Engineering is the oldest of the engineering disciplines, responsible for projects dating back more than 5,000 years. Rebuilding and expanding the civil engineering infrastructure of the U.S.—including roads, bridges, rail networks, sewage treatment plants, deep-water ports and municipal water systems—is one of the technology areas that has been targeted for rapid development by the National Science Foundation.

Most practicing Civil Engineers are employed in the areas of structural engineering, transportation engineering, environmental engineering, water resources engineering, geotechnical engineering, construction engineering or surveying. Many of these areas, such as structural engineering, encompass the design of such diverse items as spacecraft and office buildings. Although the majority of Civil Engineers are employed in private industry, many are involved in consulting or own their own firms, and a significant number are employed in the government sector where they are involved in the provision of highways and other public works for state and local government.

The degree can be used as a stepping stone to graduate work in engineering, law, business or even medicine. Many Civil Engineering graduates return to CSUN to earn their M.S. Degree in Structural Engineering.

### Requirements for the Bachelor of Science in Civil Engineering Degree

The high school preparation program is based upon an expectation of adequate high school preparation in science, mathematics and English. High school courses should include algebra, plane geometry, trigonometry and chemistry or physics (both desirable), and four years of English. Beginning engineering students must take the Entry Level Mathematics Test (ELM), Mathematics Placement Test (MPT), Chemistry Placement Test (CPT) and English Placement Test (EPT) before registration in basic courses will be permitted.

#### Required test scores:

1. ELM (Entry Level Mathematics): A passing score is required to earn college credit for mathematics. Students are exempt from this exam if they score 550 or above on the SAT, 23 or above on the enhanced ACT, or a 3, 4 or 5 on the AP (Advanced Placement) Calculus AB or BC.
2. MPT (Mathematics Placement Test): This is required to enroll in MATH 150A. Students with scores of 3, 4 or 5 on the AP Calculus AB or BC are eligible for MATH 150B and exempt from the MPT.
3. CPT (Chemistry Placement Test) a minimum score of 40 is required to enroll in CHEM 101. All students who had high school chemistry and expect to enroll in CHEM 101 must take this test regardless of score on the AP Chemistry exam.
4. EPT (English Placement Test): A score of 151 or above is required to enroll in ENGL 155. Students with scores of 3, 4 or 5 on AP English Language and Composition receive college credit for ENGL 155 and a score of 3, 4 or 5 on the AP English Literature and Composition receive credit for ENGL 155 and 255.

Students are referred to Appendix A of the Catalog for rules and regulations as to earned college credit. Students who have not had an adequate background of pre-engineering work in high school may be required to take some additional work in their first year and may not be able to complete an engineering program in eight semesters.

### Special Grade Requirements

1. All students must pass the English Placement Test with a score of 151 or higher before enrolling in 200-level engineering courses.
2. All students must complete the Lower Division writing requirement before enrolling in 300-level engineering courses.
3. All students must attempt the Upper Division Writing Proficiency Exam before enrolling in 400-level engineering courses.
4. Grade of C- or better is required in all courses in the major.
5. Senior-level courses cannot be taken unless the student previously completed or is concurrently completing all freshman-, sophomore- and junior-level Core requirements.

#### 1. Lower Division Required Courses (44 units)

##### Freshman Year

|      |        |   |
|------|--------|---|
| BIOL | 106    | Biological Principles I and Lab (3)             |
|      | or     | GEOL 101  |
|      |        | Geology of Planet Earth (3)                     |
| CE   | 101/L  | Introduction to Civil Engineering and Lab (1/1) |
| CHEM | 101/L  | General Chemistry and Lab (4/1)                 |
| MATH | 150A   | Mathematical Analysis I (5)                     |
| MATH | 150B   | Mathematical Analysis II (5)                    |
| PHYS | 220A/L | Mechanics and Lab (3/1)                         |

##### Sophomore Year

|      |        |  |
|------|--------|--|
| CE   | 240    | Engineering Statics (3)                          |
| CE   | 280/L  | Computer Applications in Civil Engineering (1/1) |
| ECE  | 240    | Electrical Engineering Fundamentals (3)          |
| MATH | 250    | Calculus III (3)                                 |
| MATH | 280    | Applied Differential Equations (3)               |
| MSE  | 227/L  | Engineering Materials and Lab (3/1)              |
| PHYS | 220B/L | Electricity and Magnetism and Lab (3/1)          |

#### 2. Upper Division Required Courses (56 units)

##### Junior Year

|     |       |   |
|-----|-------|---|
| AM  | 316   | Engineering Dynamics (3)                      |
| AM  | 317   | Mechanics Lab (1)                             |
| CE  | 308/L | Surveying and Lab (2/1)                       |
| CE  | 315/L | Construction Engineering and Lab (2/1)        |
| CE  | 340   | Strength of Materials (3)                     |
| CE  | 335   | Structures I (3)                              |
| CE  | 335L  | Structure I Computational Lab (1)             |
| CE  | 408/L | Surveying with GPS Applications and Lab (1/1) |
| ME  | 370   | Thermodynamics (3)                            |
| ME  | 390   | Fluid Mechanics (3)                           |
| MSE | 304   | Engineering Economy (3)                       |

##### Senior Year

|    |        |                                     |
|----|--------|-------------------------------------|
| AM | 410    | Vibration Analysis (3)              |
| CE | 426/L  | Soil Mechanics and Lab (3/1)        |
| CE | 438    | Reinforced Concrete Design (3)      |
| CE | 439    | Structural Steel Design (3)         |
| CE | 460/L  | Engineering Hydrology and Lab (2/1) |
| CE | 488A/L | Civil Senior Design I and Lab (1/1) |
| CE | 488B   | Civil Senior Design II (2)          |
| CE | 526    | Geotechnical Foundation Design (3)  |
| ME | 493    | Hydraulics (3)                      |

#### General Education (27 units):

Civil Engineering majors follow a modified General Education program depending upon the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs.

Civil Engineering students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Social Sciences (3 units); Arts and Humanities (6 units), Comparative Cultures (6 units); and U.S. History and Local Government (6 units). All other GE requirements

are met through completion of courses in the major.

CE majors may count CE 101/L and CE 280/L in Lifelong Learning.

## Bachelor of Science in Construction Management Technology

### Mission Statement

To prepare students for success within the professional practice of Construction Management Technology. This preparation includes an understanding of the design, engineering, business and technical principles and practices used in the construction industry. It also includes an awareness of the ethical, social and legal responsibilities of practicing professionals.

### The Major

The construction industry is the single largest industry in America, accounting for 14 percent of our nation's Gross National Product (GNP). Students interested in becoming a construction manager need a solid background in building science, business and construction management. They need to understand contracts, plans and specifications and to be knowledgeable about construction methods, materials and laws and regulations. Familiarity with computers and software programs for job costing, scheduling and estimating also is important.

Construction Management Technology students have the opportunity to participate in the student chapter of the CMAA (Construction Management Association of America), as well as interdisciplinary student organizations in the College, such as the Society of Women Engineers, the National Society for Black Engineers and the Society for Hispanic Professional Engineers.

### Special Grade Requirements for the Construction Management Technology Major

1. Students who have completed 56 units and have met the Lower Division writing requirement are required to take the Writing Proficiency Examination (WPE) as early as possible and no later than the semester in which 75 units are completed. Students who have not attempted the WPE by the completion of 75 units will have a hold placed on their subsequent class registration and may delay their graduation.
2. A grade of C- or better is required in all courses in the major.
3. Senior-level (400-plus) courses cannot be taken unless the student has previously completed or is concurrently completing all freshman-, sophomore- and junior-level Core requirements.

### Educational Objectives

The Bachelor of Science in Construction Management Technology at CSUN will prepare graduates for lifelong careers in the construction industry that will allow them to make productive contributions to society and to gain personal job satisfaction. To accomplish these overall objectives, graduates of this program will have the following qualities:

1. Technical skills necessary to enter careers in construction operation and/or maintenance of the built environment and supporting infrastructure;
2. The ability to thoroughly comprehend, manage and utilize basic construction documents used in construction;
3. The ability to specify and optimize utilization of project methods and materials;
4. The ability to perform reliable cost estimates and analyses;
5. The ability to effectively manage construction projects using state-of-the-art planning scheduling and monitoring tools;
6. Working knowledge of the management tools that are widely used for cost and schedule management in the construction industry;
7. The ability to communicate well both orally and in writing, and the

ability to work as a productive member of a construction team; and

8. A sense of exploration and the ability to maintain lifelong learning in the areas of emerging construction methods and management.

### Student Learning Outcomes of the Undergraduate Program

- a. Utilize modern instruments, methods and techniques to implement construction contracts, documents and codes;
- b. Evaluate materials and methods for construction projects;
- c. Utilize modern surveying methods for construction layout;
- d. Determine forces and stresses in elementary structural systems;
- e. Employ productivity software to solve technical problems;
- f. Estimate material quantities and costs;
- g. Produce and utilize design construction and operational documents;
- h. Perform economic analyses and cost estimates related to design construction and maintenance of systems in the construction technical specialties;
- i. Select appropriate construction material and practices;
- j. Apply principles of construction law and ethics;
- k. Apply basic technical concepts to the solution of construction problems involving hydraulics, hydrology, geotechnics, structures, construction scheduling and management, and construction safety;
- l. Perform standard analysis and design in at least one recognized technical specialty within construction engineering technology that is appropriate to the goals of the program.

### Careers

B.S. in Construction Management Technology graduates will be able to fill many government jobs in the construction industry at the local, state and federal levels. Roughly 59 percent of construction managers are employed in the construction industry; about 24 percent are employed by specialty trade contractors, engineering, architectural and construction management service firms, as well as local government; and educational institutions and real estate developers employ the rest.

Large construction projects, such as office buildings or industrial complexes, are too complicated for one person to manage. These projects are divided into many segments: site preparation, including land-clearing and earth-moving; sewage systems; landscaping and road construction; building construction, including excavation and laying foundations, erection of structural framework, floors, walls and roofs; and building systems, including fire-protection, electrical, plumbing, air-conditioning and heating. Construction managers may be in charge of one or more of these activities. Construction managers often team with workers in other occupations, such as engineers and architects.

Construction managers direct and monitor the progress of construction activities, at times through other construction supervisors. They oversee the delivery and use of materials, tools and equipment; the quality of construction; worker productivity and safety.

Construction managers regularly review engineering and architectural drawings and specifications to monitor progress and ensure compliance with plans and schedules. They track and control construction costs against the project budget to avoid cost overruns. They meet regularly with owners, engineers, architects, trade contractors, business specialists, accountants and others to monitor and coordinate all phases of a construction project.

### Requirements for Admission to the Construction Management Technology (CMT) Program

1. 60 to 70 units of transferable courses.
2. Completion of a minimum one year of Lower Division math courses, including college algebra, trigonometry and analytic geometry. A minimum grade of C must be attained in each course.
3. Complete General Education Breadth Requirements in written and oral communication.

- Completion of at least one Lower Division-transferable course in each of the following areas: 1) physics with lab; 2) science elective with lab; or 3) accounting business law or micro-economics. A minimum grade of C must be attained in each course.
- Required advisement session.

## Requirements for the Bachelor of Science in Construction Management Technology (CMT)

### 1. Lower Division Required Courses (48 units)

#### Freshman Year

|                  |                                       |
|------------------|---------------------------------------|
| COMP 100         | Computers: Their Impact and Use (3)   |
| CM 110/L         | Construction Drawings (1/1)           |
| GEOL 101/102     | Geology of Planet Earth and Lab (3/1) |
| or BIOL 106/L    | Biological Principles I and Lab (3)   |
| or CHEM 110/110L | Chemistry in Action and Lab (3/1)     |
| ECON 160         | Microeconomic Principles (3)          |
| PHYS 100A/L      | General Physics I/Lab (3/1)           |
| PHYS 100B/L      | General Physics II/Lab (3/1)          |

#### Sophomore Year

|           |   |
|-----------|---|
| ACCT 220  | Introduction to Financial Accounting (3)  |
| BLAW 280  | Business Law I (3)                        |
| CM 208/L  | Construction Site Surveying/Lab (2/1)     |
| CM 210/L  | Construction Contract Documents/Lab (2/1) |
| CM 240/L  | Building Construction/Lab (2/1)           |
| MATH 255A | Calculus I (3)                            |
| MATH 255B | Calculus II (3)                           |
| MSE 220/L | Construction Materials/Lab (2/1)          |

### 2. Upper Division Required Courses (52 units)

#### Junior Year

|          |  |
|----------|--|
| CM 309   | Computer Applications in Construction Management (2)       |
| CM 310/L | Construction Estimating/Lab (2/1)                          |
| CM 312/L | Project Cost Control Planning and Scheduling/Lab (2/1)     |
| CM 321   | Introduction to Mechanical and Electrical Installation (2) |
| CM 326/L | Soil Mechanics for Technology/Lab (2/1)                    |
| CM 334/L | Construction Equipment and Methods (2/1)                   |
| CM 336/L | Fundamentals of Green Buildings and Lab (2/1)              |
| CM 340   | Statics and Strength of Materials for Technology (3)       |
| ENGL 306 | Report Writing (3)   |
| MGT 360  | Management and Organizational Behavior (3)                 |
| MSE 300  | Construction Technology Economy (3)                        |

#### Senior Year

|          |   |
|----------|---|
| BLAW 481 | Real Estate Law (3)                               |
| CM 401   | Construction Contract Administration (3)          |
| CM 415/L | Fundamentals of Construction Management/Lab (2/1) |
| CM 434   | Site Planning and Logistics (3)                   |
| CM 440/L | Structural Design/Lab (2/1)                       |
| CM 441/L | Highway Design/Lab (2/1)                          |
| CM 449   | Dispute Prevention (1)                            |
| CM 480   | Construction Law (3)                              |
| CM 488A  | Construction Senior Design I (2)                  |
| CM 488B  | Construction Senior Design II (2)                 |
| CM 494   | Cooperative Educational Experience (2)            |

### General Education (24 units):

Construction Management Technology majors follow a modified General Education program depending upon the year and enrollment

status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs. The requirements for students entering in Fall 2006 or later under the new PLAN R is described here. Continuing students and some first-time transfer students may elect to continue with the former GE Plan C. Students should refer to prior Catalog editions and consult with an academic advisor in selecting their required GE courses.

Construction Management Technology students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Arts and Humanities (6 units); Comparative Cultures (6 units); and U.S. History and Local Government (6 units). All other GE requirements are met through completion of courses in the major.

Nine of the General Education Plan R units must be at the Upper Division-level and two courses must meet the Information Competency requirement.

## Minor in Construction Management Technology

### 1. Lower Division Courses (6 units)

|          |   |
|----------|---|
| ACCT 220 | Introduction to Financial Accounting (3)  |
| CM 210/L | Construction Contract Documents/Lab (2/1) |

Note: BLAW 280—Business Law I, which satisfies Lifelong Learning of General Education, and ECON 160—Microeconomic Principles, which satisfies the Social Sciences of General Education are both required prerequisite courses to be included in this minor. Students seeking this minor should consult with an academic advisor early in the planning stages of his/her General Education requirements.

### 2. Upper Division Courses (17 units)

|          |  |
|----------|--|
| CM 312/L | Project Cost Control Planning and Scheduling/Lab (2/1) |
| CM 415/L | Fundamentals of Construction Management/Lab (2/1)      |
| CM 309   | Computer Applications in Construction Management (2)   |
| CM 401   | Construction Contract Administration (3)               |
| CM 480   | Construction Law (3)                                   |
| MSE 300  | Construction Technology Economy (3)                    |

Note: This minor program in Construction Management will not seek accreditation by the American Council for Construction Education.

|                                 |           |
|---------------------------------|-----------|
| <b>Total Units in the Minor</b> | <b>23</b> |
|---------------------------------|-----------|

## Requirements for the Master of Science Degree in Structural Engineering.

### General Requirement For Admission to the Program:

- Satisfaction of all requirements for admission to the University (see Catalog section regarding Graduate Programs).
- A bachelor's degree in Engineering, or in an allied field with some equivalency to Engineering, from an accredited university or college.
- Approval by the College of Engineering and Computer Science and the Department.

### For Advancement To Classified Graduate Status:

- Satisfaction of University requirements for Classified status (See Catalog section regarding Graduate Programs).
- Completion of all requirements noted on individual admissions documents.
- Submit tentative program of study to the CEAM graduate coordinator.
- Approval by the Department Graduate Coordinator.

### For The Degree:

- Satisfaction of University requirements for the M.S. Degree (see Catalog section regarding Graduate Programs).
- Completion of 30-33 units under the Thesis, Project or

Comprehensive Examination Plan as follows:

**A. Thesis Plan (30 units)**

- i. 24 units of course work applicable to the M.S. Degree, of which at least 15 units are in Engineering courses at the 500-level or above.
- ii. An additional 6 units of CE 698 (Thesis) and successful defense of Thesis.

**B. Project (30 units)**

- i. 27 units of course work applicable to the M.S. Degree, of which at least 18 units are in Engineering courses at the 500-level or above.
- ii. An additional 3 units of CE 698 (Graduate Project) culminating in a comprehensive report.

**C. Comprehensive Exam Plan (33 units)**

- i. 30 units of course work applicable to the M.S. Degree, of which at least 21 units are in Engineering courses at the 500-level or above.
- ii. An additional 3 units of CE 697 Directed Comprehensive Study.

**Special Requirements**

1. Students entering the program are expected to have completed Soil Mechanics (CE 426) and Structures I (CE 335), Reinforced Concrete Design (CE 438) and Structural Steel Design (CE 439). Admitted students who have not completed such courses as part of an undergraduate program must satisfactorily complete them prior to continuing in the program. These courses cannot be applied toward the formal degree program of study.
2. This program is intended primarily for students holding a B.S. in Civil Engineering or in a closely related field. Prospective students whose undergraduate degree is not in a closely related field should contact the Department in order to discuss additional prerequisite courses with a faculty advisor.
3. The total number of 400-level units in the formal program of study for students pursuing the Thesis, Project or Comprehensive Examination Plans may not exceed 9 units.

**Required Courses (30-33 units)**

**1. Culminating Experience (3-6 units)**

- |           |                        |
|-----------|------------------------|
| CE 697    | Comprehensive Exam (3) |
| or CE 698 | Graduate Project (3)   |
| or        | Graduate Thesis (6)    |

**2. Required Courses (0-7 units)**

- |          |                             |
|----------|-----------------------------|
| AM 410   | Vibration Analysis (3)      |
| CE 536/L | Structures II and Lab (3/1) |

Note: If AM 410 and CE 536/L or equivalent were completed as part of an undergraduate degree program, additional units must be included in the graduate program. Please consult with Graduate Advisor.

**3. Additional courses.**

Remaining courses selected from the following list to complete the required units consistent with the culminating experience selected.

- |          |   |
|----------|---|
| CE 526   | Geotechnical Foundation Design (3)          |
| CE 537   | Timber and Masonry (4)                      |
| CE 636   | Structural Dynamics (3)                     |
| CE 638   | Advanced Reinforced Concrete Design (3)     |
| CE 639   | Advanced Structural Steel Design (3)        |
| CE 640   | Advanced Analysis Methods (3)               |
| CE 641   | Earthquake Engineering (3)                  |
| CE 642/L | Applied Finite Elements (4)                 |
| CE 648   | Precast And Prestressed Concrete Design (3) |

Note: If additional units are required to complete the degree as a consequence of taking some of the above courses in a undergraduate program, other courses can be selected with the approval of an advisor or the Graduate Coordinator.

**Course List**

**AM 196A-Z. Experimental Topics Courses in Applied Mechanics (1-4)**

**AM 296A-Z. Experimental Topics Courses in Applied Mechanics (1-4)**

**AM 316. Engineering Dynamics (3)**

*Prerequisites:* CE 240; MATH 280. *Corequisite:* AM 317. Vector calculus and kinematics, force, equations of motion, energy and momentum principles applied to the dynamic behavior of rigid and deformable solids. Design considerations. (Design units: 0.5.)

**AM 317. Mechanics Lab (1)**

*Prerequisite:* CE 340. *Corequisite:* AM 316. Experimental analysis of the responses of various configurations of deformable solids to static and dynamic forces. Design of mechanics experiments. One three-hour lab per week. (Design units: 0.5.)

**AM 396A-Z. Experimental Topics Courses in Applied Mechanics (1-4)**

**AM 400A. Applied Mechanics Design Clinic I (1-3)**

*Prerequisites:* Senior or graduate standing in Applied Mechanics or related discipline with senior or graduate program on file; Acceptable academic record; Written approvals from faculty sponsor and Department Chair. Design units vary.

**AM 400B. Applied Mechanics Design Clinic II (1-3)**

*Prerequisite:* AM 400A. Continuation of AM 400A. Design units vary.

**AM 410. Vibration Analysis (3)**

*Prerequisites:* AM 316; CE 340. Study of the vibratory motion of linear single degree of freedom systems. Equation of motion, free vibration response and transient and steady state excitation. Introduction to multi-degree-of-freedom systems. (Design units: 0.)

**AM 496A-Z. Experimental Topics Courses in Applied Mechanics (1-4)**

**AM 499A-C. Independent Study (1-3)**

*Prerequisites:* Senior or graduate standing in Applied Mechanics with senior or graduate program on file; Written approvals of faculty sponsor and Department Chair. Admission is based on evidence of ability to pursue Independent Study in-depth and approval of a proposal submitted prior to registration in the course. Design units vary.

**Graduate Level Courses**

Note that 300-level courses in Applied Mechanics do not carry credit for a Master's degree in Engineering.

**AM 509. Methods of Applied Mechanics (3)**

*Prerequisites:* AM 316; MATH 280. Survey of methods used in Applied Mechanics. Emphasis on the formulation and solution of problems by the application of appropriate mathematical tools. Application of differential equations, matrix techniques, Fourier series, Laplace Transforms and energy methods to vibration, stability, elasticity and structures problems. (Design units: 0.)

**AM 610. Advanced Mechanical Vibrations (3)**

*Prerequisites:* AM 410; CE 436. Vibration of multi-degree of freedom lumped parameter systems; formulation of equations of motion using the Newton's 2nd law and analytical mechanics; determination of natural modes; response by the normal mode method. Emphasis on matrix formulation and computer applications. Exact solutions for continuous systems.

**AM 618. Theory of Elastic Stability (3)**

*Prerequisite:* Instructor consent. Treatment of stability problems and the stability criteria. Elastic and inelastic buckling of bars; lateral buckling of beams; the stability of frameworks; buckling of rings, curved bars

and arches; buckling of thin plates and thin shells; general theory of cylindrical shells and shells having the form of a surface of revolution.

**AM 619. Theory of Plates and Shells (3)**

*Prerequisite: Instructor consent.* Cylindrical bending of uniformly loaded plates; symmetrical bending of circular plates; rectangular plates with various edge conditions; plates of various shapes; membrane theory of shells; general theory of cylindrical shells and shells having the form of a surface of revolution.

**AM 621. Aerostructure II (3)**

*Prerequisite: AM 421.* Analysis of semimonocoque aircraft structures. Stress, deflection and stability are considered for linear and nonlinear material behavior. Finite element methods are applied to continuous systems. Discussion of structural vibration loads and flutter.

**AM 637. Optimum Structural Design (3)**

Synthesis of structural components and systems employing parametric computer solutions. Applications to weight, cost and trade-off criteria, including practical constraints on geometry. Least weight design of cable, column and beam elements and system of elements. Introduction to computer automated design and design space concepts. Examples from aerospace and civil engineering fields.

**AM 640. Energy and Approximate Methods in Elastomechanics (3)**

*Prerequisite: Instructor consent.* Theory and application of energy methods in continuous systems using the calculus of variations approach. Derivation of the total potential and complementary energy expressions via virtual work principles. The study of stability configurations of mechanical systems. Development and application of Castigliano's and Engesser's theorems. Approximate methods using Rayleigh-Ritz, Galerkin and Kantorovich formulations. Hamilton's principle and its applications.

**AM 644. Advanced Finite Element Methods (3)**

*Prerequisites: AM 642; Instructor consent.* Includes a brief review of the fundamentals of the finite element method; potential energy basis of finite elements; and isoparametric formulations. Applications of general civil and aerospace structures are considered, especially plates, general shells, vibration and stability analyses and nonlinear problems in structural mechanics.

**AM 645. Nonlinear Mechanics (3)**

*Prerequisite: AM 610.* Introduction to nonlinear problems. Analytic approaches to some closed form solutions of nonlinear differential equations. Vibrations of systems subjected to nonlinear restoring forces. Nonlinear constitutive relations in elasticity. Poincaré's method and Phase Plane plots for stable and unstable singular points. Routh Hurwitz Criteria, conservative systems. Limit cycles, Lyapunov's direct method. Survey of perturbation techniques with time dependent coefficients. Mathieu's Equation.

**AM 649. Seminar in Applied Mechanics (3)**

Advanced studies of topics of current interest in the field of applied mechanics. Consists, in part, of an intensive study of selected papers from current literature.

**AM 695A-Z. Experimental Topics Courses in Applied Mechanics (1-4)**

**AM 696A-C. Directed Graduate Research (3)**

*Prerequisites: AM 698; Approvals of faculty advisor and either Department Graduate Coordinator or Department Chair.*

**AM 699A-C. Independent Study (1-3)**

*Prerequisites: Classified status in the M.S. program; Written approvals from faculty sponsor and Department Graduate Coordinator or Department Chair.* Admission is based in part on evidence of the ability to pursue Independent Study or research in-depth and approval of a proposal submitted prior to the time of registration.

## Civil Engineering Course List

**CE 101/L. Introduction to Civil Engineering and Lab (1/1)**

Freshman orientation course for the Civil Engineering program, the professional and an introduction to the University. Introduction to the tools for civil engineering studies: internet, word processing and spreadsheets. Development of communication skills and the ability to work in teams. Development of learning skills in civil engineering studies. 1 hour lecture/discussion, 3 hours lab per week.

**CE 196A-Z. Experimental Topics Courses in Civil Engineering (1-4)**

**CE 240. Engineering Statics (3)**

*Prerequisite: PHYS 220A/L. Corequisite: MATH 150B.* Analysis of the distribution of forces on and within bodies in static equilibrium. Free body diagrams, equilibrium equations and the method of sections. Includes a limited introduction to the subject of strength of materials. (Design units: 0.)

**CE 280/L. Computer Applications in Civil Engineering and Lab (1/1)**

*Prerequisite: CE 240.* Development of computer skills related to the field of civil engineering. Introduction of Windows, email and internet usage. Introduction to Office suite, word processing, spreadsheets with VBA applications, presentation and publishing software. Development of programming skills. Application of CAD to the development of structural and architectural drawings, dimensioning, grading plans, contour lines and sections. Analysis and design of structural systems using structural engineering packages. Development of algorithms and computer codes for the solution of civil engineering problems. 1hour of lecture, 3 hours of lab per week.

**CE 296A-Z. Experimental Topics Courses in Civil Engineering (1-4)**

**CE 308/L. Surveying and Lab (2/1)**

*Corequisite: 308L.* Fundamentals of plane and geodetic surveying. Concepts of linear and angular measurements, precision, errors and corrections. Field problems in chaining, differential and profile leveling, triangulation and highway curves. 2 hours lecture, 3 hours lab. (Design units: 0.)

**CE 315/L Construction Engineering and Lab (2/1)**

The objective of this course is to introduce undergraduate students to planning, scheduling, estimating and project-control techniques for construction projects.

**CE 335/L. Structures I and Computational Lab (3/1)**

*Prerequisite: CE 340. Corequisite: CE 335L.* Determination of the force distribution and deflections in statically determinate and indeterminate structures using the classical, non-matrix methods of structural analysis. 3 hours of lecture per week. Lab: Structural analysis problem solving session. Computer applications of structural analysis and design. 3 hours of lab per week. (Design units: 0.)

**CE 340. Strength of Materials (3)**

*Prerequisites: CE 240; MATH 280.* Analysis of the stresses and deflections in members and basic structural systems. Axial, torsional, bending and shear stresses and deflections. Introduction to structural stability. Design of structural components. (Design units: 0.5.)

**CE 396A-Z. Experimental Topics Courses in Civil Engineering (1-4)**

**CE 400A. Civil Engineering Design Clinic I (1-3)**

*Prerequisites: Senior or graduate standing in Civil Engineering or related discipline with senior or graduate program on file; Acceptable academic record; Written approvals from faculty sponsor and Department Chair.* Design units vary.

**CE 400B. Civil Engineering Design Clinic II (1-3)**

*Prerequisite: CE 400A.* Continuation of CE 400A. Design units vary.

**CE 408/L. Surveying with GPS Applications and Lab (1/1)**

*Prerequisite:* CE 308/L. *Corequisite:* 408L. Surveying with Global Positioning Systems (GPS): point positioning, differential positioning, differencing techniques, survey planning, real-time kinematic (RTK) surveys, vertical positioning, random errors and survey specifications, horizontal curves, vertical curves, horizontal control and vertical control. 1 hour lecture, 3 hours lab per week. (Design units: 0.)

**CE 426/L. Soil Mechanics and Lab (3/1)**

*Corequisite:* 426L. Soil as a foundation for structures and as a material of construction. Lab experiments to be performed to obtain data to determine soil physical properties. 3 hours lecture, 3 hours lab per week. (Design units: 1.)

**CE 438. Reinforced Concrete Design (3)**

*Prerequisite:* CE 335. Basic concepts in the design of reinforced concrete structures. Applications to beams, columns, slabs, shear walls, footing and composite construction. (Design units: 3.)

**CE 439. Structural Steel Design (3)**

*Prerequisite:* CE 335. Basic concepts in the design of steel structures. Design in steel of tension and compression members, beams, columns, welded and bolted connections; eccentrically loaded and moment resistant joints; plate girders. Introduction to computer aided design (CAD). (Design units: 3.)

**CE 460/L. Engineering Hydrology and Lab (2/1)**

*Prerequisite:* ME 390. *Corequisite:* 460L. Surface Hydrology for the design of drainage, flood control, water storage and distribution systems. Topics include hydrologic cycle, meteorology, surface and ground water movement, interrelation between precipitation and runoff, hydrograph analysis, flood routing and risk assessment. Hydrologic model development and analysis using computers emphasized for design of storm drainage systems, flood protection, water storage and reservoir operations. 2 hours lecture, 3 hours lab. (Design units: 1.)

**CE 488A/L. Civil Engineering Senior Design I and Lab (1/1)**

*Prerequisites:* CE 335/L; Senior class standing with senior program on file. *Corequisites:* CE 488A/L; Either CE 438 or CE 439. First semester of a two-semester sequence capstone design experience simulating professional practice in civil engineering. (CE 488A and CE 488B must be completed within the same academic year.) Undertakes the preliminary design of a complex engineering project. Addresses ethics of engineering practice, professional lifelong learning requirements, written and oral engineering design project presentations and methods of technical problem solving. (Offered Fall semester.) 1 hour lecture, 3 hours lab per week. (Design units: 1.)

**CE 488B. Civil Engineering Senior Design II (2)**

*Prerequisite:* CE 488A/L. *Corequisites:* Second major civil design course, either CE 438, 439 or 526. Continuation of CE 488A. (CE 488A and CE 488B must be completed within the same academic year.) Final design stage of the project initiated in CE 488A is undertaken, with emphasis on working in project teams. 6 hours of lab per week. (Offered Spring semester.) (Design units: 2.)

**CE 496A-Z. Experimental Topics Courses in Civil Engineering (1-4)****CE 499A-C. Independent Study (1-3)**

*Prerequisites:* Senior or graduate standing in Civil Engineering with senior or graduate program on file; Written approvals of faculty sponsor and Department Chair. Admission based on evidence of ability to pursue Independent Study in-depth and approval of a proposal submitted prior to registration in the course. (Design units vary.)

**Graduate Courses**

Note that 300-level courses in Civil Engineering do not carry credit for a Master's degree in Engineering.

**CE 526. Geotechnical Foundation Design (3)**

*Prerequisite:* CE 426. Soil mechanics aspects of foundation design. Shear strength and compressibility of soil. Lateral pressures and retaining structures. Strength and deformation laws for spread footings, piers, piles and caissons. Analysis of mat foundations. Eccentric and inclined foundation loads. (Design units: 1.0.)

**CE 536/L. Structures II and Lab (3/1)**

*Prerequisite:* CE 335. *Corequisite:* CE 536L. Study of structural analysis and design problems using matrix methods. Complete development of the flexibility and stiffness methods of analysis. Computer applications to structural analysis and design. 3 hours lecture, 3 hours lab per week. (Design units: 1.5.)

**CE 537. Timber and Masonry Design (4)**

*Prerequisite:* CE 335. Study of vertical and lateral loading on structures. Elements of timber design. Timber beams, tension members, compression members, tension and bending, and compression and bending members. Design of horizontal diaphragms and shearwalls. Design of connections. Elements of masonry design. Design of masonry in bending, shear and axial members. 4 hours of lecture. (Design units: 4.)

**CE 636. Structural Dynamics (3)**

*Prerequisite:* AM 610. Vibration of structural systems with emphasis on approximate solutions to continuous systems; assumed modes, Rayleigh-Ritz, Finite Element Applications and nonlinear vibrations. Numerical techniques for computer application. Response spectra for multi-degree-of-freedom systems. Advanced topics.

**CE 638. Advanced Reinforced Concrete Design (3)**

*Prerequisite:* CE 438. Advanced topics in concrete design, including frames and slabs.

**CE 639. Advanced Structural Steel Design (3)**

*Prerequisite:* CE 439. Advanced topics in structural steel design, such as frames, bridges and buildings.

**CE 640 Advanced Analysis Methods (3)**

*Prerequisite:* CE 536. Analytical methods for calculation of stress deflection and stability of structures. Unsymmetrical bending, torsion, plates, treatment of the buckling characteristics of various structural elements. Applications of energy methods. Fundamentals of applied elasticity. Consideration given to modern structural materials. (Design units: 1.)

**CE 641. Earthquake Engineering (3)**

*Prerequisites:* AM 410; CE 335. Study of the earthquake problem. Topics covered include plate tectonics, seismology, dynamic response of structures, dynamics of sites and design for earthquakes.

**CE 642/L. Finite Element Analysis (3/1)**

*Prerequisites:* AM 410; CE 536. *Corequisite:* CE 642L. Study of structural mechanics problems by use of finite element method. Formulation of the basic elements, assemblage of elements and application of the method to selected topics in structural mechanics.

**CE 643. Foundation Design (3)**

*Prerequisite:* CE 438. Design of foundations for structures. Topics include pile foundations, grade beams, continuous and mat footings, and retaining walls.

**CE 648. Prestressed Concrete Design (3)**

*Prerequisite:* CE 638. Prestressed concrete design and analysis for gravity and lateral loading. Design of reinforced and prestressed structural

elements. Safety and economy. Connection design for earthquake and wind loadings. Design projects using professional practice standards, including latest codes. 3 hours of lecture. (Design units: 3.)

**CE 649. Seminar in Civil Engineering (3)**

Advanced studies of topics of current interest in the field of civil engineering. The course will consist in part of an intensive study of selected papers from current literature.

**CE 695A-Z. Experimental Topics Courses in Civil Engineering (1-4)**

**CE 696. Directed Graduate Research (3)**

*Prerequisites:* CE 698; *Approvals of faculty advisor and either Department Graduate Coordinator or Department Chair.*

**CE 697. Directed Comprehensive Studies (3)**

(Credit/No Credit only)

**CE 698. Thesis (6) or Graduate Project (3)**

*Prerequisites:* *Advancement to candidacy for the M.S. Degree; Written approvals of faculty advisor and Department Graduate Coordinator or Department Chair.*

**CE 699A-C. Independent Study (1-3)**

*Prerequisites:* *Classified status in the M.S. program; Written approvals from faculty sponsor and Department Graduate Coordinator or Department Chair.* Admission is based in part on evidence of the ability to pursue Independent Study or research in-depth and approval of a proposal submitted prior to the time of registration.

## Construction Management Technology Course List

**CM 101/L. Introduction to Construction Management and Lab (1/1)**

*Corequisites:* CM 101L; MATH 102. Freshman orientation course for Construction Management Technology, the profession, professional organizations and orientation to the University. Construction-related regulatory requirements. Ethics, business, safety and professional practices. Management techniques and interaction with professional organizations and associations. 1 hour lecture/discussion, 3 hours technical activity/lab per week.

**CM 110/L. Construction Drawings and Lab (1/1)**

This course is designed to provide students with the foundational knowledge and practice at reading blueprints. Both residential and commercial construction drawings will be covered in this course. The set of plans, such as the foundation plan, floor plan, elevations, sections and details that must be assembled into an organized set of drawings to show as much about a project as can be placed on paper in one- or two-dimensional views, are analyzed and studied.

**CM 208/L. Construction Site Surveying and Lab (2/1)**

*Prerequisite:* MATH 104. *Corequisite:* CM 208L. Fundamentals of surveying as applied to construction layout. Use of level and transit for location and control of structures, vertical and horizontal control. Introduction to AutoCAD as a means of presenting survey information with usage of Autodesk Survey and Autodesk Map. Lab measurements of land surface area, differential and profile leveling, construction layout and plotting profiles using tape, leveling and transit measurements. Two hours lecture; three hours lab per week.

**CM 210/L. Construction Contract Documents and Lab (2/1)**

*Corequisite:* CM 210L. *Recommended Corequisite:* BLAW 280. Basic skills and techniques required to produce construction documents conforming to current building codes and standards, including working drawing, specifications, bid documents, addenda and change orders. 2 hours lecture, 3 hours technical activity/lab per week.

**CM 240. Engineering Statics for Technology (3)**

*Prerequisites:* MATH 255A; PHYS 100A/L. Not available for credit toward an engineering degree. Analysis of the distribution of forces on and with bodies in static equilibrium. Free body diagrams, equilibrium equations and the method of sections. Emphasis on application of the principles of static equilibrium to building structures. 3 hours lecture/discussion per week.

**CM 240/L. Building Construction (2/1)**

*Corequisite:* CM 210. Introduction to planning, design and construction of structures, including cost estimating and project scheduling. Computer applications. 2 hours lecture per week.

**CM 309. Computer Applications in Construction Management (2)**

*Prerequisites:* COMP 100; *Instructor consent.* Application of computer systems to control operations in the building industry. Introduction to commercially available software for planning, scheduling and estimating that is generally used in the construction industry. Two 3-hour technical activity/labs per week.

**CM 310/L. Construction Estimating and Lab (2/1)**

*Prerequisites:* ACCT 220; MATH 255; CM 240/L. *Corequisites:* CM 310/L, 312/L. Procedures for analyzing materials and methods involved in reliable estimates of the cost of a construction task or project, including: direct, indirect and contingency costs and profits. 2 hours lecture, 3 hours technical activity/lab per week.

**CM 312/L. Project Cost Control, Planning and Scheduling and Lab (2/1)**

*Prerequisites:* ACCT 220; MATH 255A; CM 240/L; *Instructor consent.* *Corequisite:* CM 312L. Basic application of construction cost control systems, including critical path method techniques, planning, logic, scheduling and updating, and use of computer for scheduling. Use of cost information and associated reports for the planning and scheduling of construction projects. 2 hours lecture/discussion, 3 hours technical activity/lab per week.

**CM 321. Introduction to Mechanical and Electrical Installation (2)**

*Prerequisite:* PHYS 100B/L. Basic understanding of the electrical and mechanical systems, design and construction procedures used flexibly in each system, space requirements, and at what point in the job the work on a particular system is done.

**CM 326/L. Soil Mechanics for Technology and Lab (2/1)**

*Prerequisite:* MSE 220/L. *Corequisite:* CM 326L. Not available for credit toward an engineering degree. Soil composition, description and physical properties of soils; earthmoving estimating, soil explorations, ground water effects, plate tectonics and introduction to seismic effects on soils. Lab: Investigations and experiments in soil mechanics, including field requirements for foundations and other earthwork structures. Two hours lecture/discussion, 3 hours technical activity/lab per week.

**CM 334/L. Construction Equipment and Methods (3)**

*Prerequisites:* ACCT 220; CM 326/L. Construction procedures, job planning layout and scheduling, selection and application of construction equipment to building and heavy construction projects. 1 hour lecture, 3 hours problem solving lab per week.

**CM 336/L. Fundamentals of Green Buildings and Lab (2/1)**

*Prerequisite:* *Completion of the Lower Division writing requirement.* The purpose of this course is to give the students an overview of design and construction delivery systems for high-performance green buildings. The U.S Green Building Council (USGBC) Leadership in Energy and Environmental Design (LEED) will be discussed in detail. Sustainability evaluation systems will be reviewed. This course will focus on LEED-NC (new construction) requirements. (Available for General Education, Lifelong Learning.) (IC) (WI)

**CM 340. Statics and Strength of Materials (3)**

*Prerequisites:* CM 240; MATH 255B. The analysis of the distribution of forces on and within bodies in static equilibrium. Free body diagrams, equilibrium equations and the method of sections. The analysis of stresses and deflections in members and simple structural systems. Axial, torsional, bending and shear stresses and deflections, and column stability. Design of building structural members. Emphasis is given to the application to building structures. Not available for credit toward an engineering degree.

**CM 401. Construction Contract Administration (3)**

*Prerequisites:* BLAW 280; CM 210/L. Administration of contract documents, including invitation to bid, addenda, proposals, change orders, subcontracts, liens, claims, waivers, arbitration, general and supplemental conditions and CSI specifications. 2 hours lecture/discussion, 3 hours technical activity/lab per week.

**CM415/L. Fundamentals of Construction Management and Lab (2/1)**

*Prerequisites:* CM 310/L, 312/L; *Instructor consent.* *Corequisite:* CMT 415L. Introduction to the basic concepts of construction management. Areas of focus to include quantity analysis, productivity, work activity sequencing, network scheduling and computer applications specific to construction management. The construction manager's relation to internal organization, owner, architect, engineer, public, press, legal aid, unions, trades, equipment, utilities, insurance, finances and governmental agencies. 2 hours lecture/discussion, 3 hours technical activity/lab per week.

**CM 434. Site Planning and Logistics (3)**

*Prerequisites:* CM 208/L, 326/L. Investigation, market research, finance, cost estimating and land use with respect to development process. Including an analysis of land development; site investigation; grading; street piping systems and water supply systems, including allowable pressure in pipes, head loss calculations, minimum allowable slopes for sewage disposal; and landscaping. 2 hours lecture, 3 hours technical activity/lab per week.

**CM 440A/L. Civil Technology I and Lab (2/1)**

*Prerequisite:* CM 340. *Corequisite:* CM 440AL. Not available for credit toward an engineering degree. Practice-oriented treatment of the procedures for structural steel and timber design. Design of tension and compression members, beams and connections. Introduction to computer aided analysis and design. Emphasis on application of building structures. 2 hours lecture, 3 hours technical activity/lab per week.

**CM 440/L. Structural Design (2/1)**

*Prerequisite:* CM 340. A practice-oriented treatment of the procedures for structural concrete, steel and timber design. Design of columns, beams, slabs and walls. Lateral load resisting systems. Introduction to computer aided analysis and design. Emphasis is given to the application of building structures. Not available for credit towards an engineering degree. 2 hours lecture, 3 hours of technical activity/laboratory per week.

**CM 440B/L. Civil Technology II and Lab (2/1)**

*Prerequisite:* CM 440A/L. *Corequisite:* CM 440BL. Not available for credit toward an engineering degree. Practice-oriented treatment of the procedures for structural concrete and masonry design. Design of columns, beams, slabs and walls. Lateral load resisting systems. Introduction to computer aided analysis and design (CAD). Emphasis on application of building structures. 2 hours lecture, 3 hours technical activity/lab per week.

**CM 441/L. Highway Design (2/1)**

*Prerequisite:* CM 326/L, 334/L. *Corequisite:* CM 441L. The course covers basic highway design and traffic circulation principles. Study of design elements of alignment, profile, cross-section and controlled-access highways. Investigation of functional highway classification, traffic volume, signs and measurements, intelligent transportation systems, and Caltrans standard drawings and specifications. 2 hours lecture, 3 hours of technical activity/laboratory per week.

**CM 449. Dispute Prevention (1)**

*Prerequisite:* CM 210/L. In this seminar, students will explore dispute prevention by emphasizing partnering and team building, realistic risk allocation, competing engineering and documentation, constructability analysis, and dispute-resolution clauses. Through readings, discussions, guest speakers, independent research, writing and oral presentations, students will develop a clearer understanding of dispute prevention.

**CM 480. Construction Law (3)**

*Prerequisites:* BLAW 280; CM 210/L. Orientation to the rules and regulations governing construction industry practices and activities, including contractors license law, state lien laws, health and safety regulations, personnel relations and supervision, workers compensation, employment insurance and taxes. 3 hours lecture/discussion per week.

**CM 488A, B. Construction Senior Design I, II (2,2)**

*Prerequisites:* CM 310/L, 312/L; *Senior standing in Construction Management.* (CM 488A and CM 488B must be completed within the same academic year.) Selection and completion of a project under faculty and/or industry supervision. Projects typical of problems that a graduate of the Construction Management Program must solve in their field of employment. Requires both written formal report and oral presentation of project. 6 hours technical activity/lab per week. (A and B Offered Fall and Spring semesters, respectively.)

**CM 494. Cooperative Educational Experience (2)**

*Prerequisites:* CM 310/L, CM 312/L. Supervised off-campus professional experience in construction management technology for students with junior or senior standing in the major. Positions are paid and usually run for a full year with summer work available. Course may be repeated for up to 6 semester units of credit with a maximum of 2semester units counting toward the major degree requirements.

# Classical Greek and Roman Civilization

College of Humanities

**Coordinator: John P. Adams**  
 (818) 677-3459 or (818) 677-3467  
 Sierra Tower 435  
[www.csun.edu/~hcfl1004/classics.html](http://www.csun.edu/~hcfl1004/classics.html)

## Program Committee

John P. Adams (Coordinator), Owen Doonan (Art), Cindy Stern (Philosophy), Frank Vatai (History)

## Interdisciplinary Program

### Undergraduate:

Minor in Classical Greek and Roman Civilization

### The Minor

A minor in Classical Greek and Roman Civilization is of interest and value to students who are studying Anthropology, Art History, Drama, English, History, Humanities, Philosophy, Political Science, Religious Studies or Communication Studies. A student who decides to minor in Classical Greek and Roman Civilization is required to meet with an advisor or the Coordinator to plan her/his program. All courses in this program are conducted in English; a knowledge of Latin and Greek is not required. Students interested in a Special Major (B.A.) in Classical Greek and Roman Civilization should consult the Catalog under Special Major.

### Academic Advisement

Advisement is available from either the Program Coordinator or from members of the Program Committee.

### Student Learning Outcomes of the Minor

The minor is interdisciplinary and is designed to offer the student a well-rounded introduction to the culture of Ancient Greece and Rome. The Classical Greek and Roman Civilization Interdisciplinary Minor Program is a multiple disciplinary and multicultural program that seeks to provide each student with a firm grounding in the basic principles and themes that underlie a complex, composite civilization which embodied features drawn from a considerable number of other ancient civilizations (e.g., Egyptian, Semitic, Thracian, etc.) and that transmitted its ideas and perspectives to many European and Mediterranean cultures during a period of more than 1,500 years, and through them to the Modern World.

The program is designed to ensure that the student will engage in broad study in a variety of fields, drawn from courses in three Colleges in the University (Humanities, Social Sciences and Mike Curb College of Arts, Media and Communication).

Classics (Greek and Roman literature); ancient history (including study in both the Greek and the Roman world); ancient art and architecture (including study in Greek and Roman art); and philosophy will be explored.

The program is designed to provide depth in the student's course of study by requiring a trio of general, Lower Division courses (9 units), as well as a selection of more specialized Upper Division courses (18 units), for a total of 27 units in the minor.

## Requirements for the Minor

### A. Lower Division Required Courses (9 units)

|      |     |                                      |
|------|-----|--------------------------------------|
| ART  | 110 | History of Western Art I (3)         |
| FLIT | 150 | Gateways to Western Civilization (3) |
| PHIL | 201 | Ancient Philosophy (3)               |

### B. Upper Division Required Courses (18 units)

Select 3 courses (9 units) from each of the following categories for a total of 18 units.

#### 1. Literature and Religion

Select 2 from the following:

|       |     |  |
|-------|-----|--|
| CLAS  | 315 | Greek and Roman Mythology (3)  |
| FLIT  | 423 | Greek and Roman Epic in Translation (3)<br>(Cross listed with ENGL 423.) |
| FLIT  | 424 | Drama of Greece and Rome (3)<br>(Cross listed with ENGL 424.)            |
| FLIT  | 480 | Greek and Roman Literature (3)<br>(Cross listed with ENGL 480.)          |
| TH422 |     | Theatre and Drama of Greece and Rome (3)                                 |

#### 2. Art History, History and Philosophy

|      |      |                                    |
|------|------|------------------------------------|
| ART  | 420  | Greek Art and Architecture (3)*    |
| ART  | 421  | Roman Art and Architecture (3)*    |
| HIST | 410  | The Ancient Greek World (3)*       |
| HIST | 411  | The Roman World (3)*               |
| HIST | 497A | Proseminar in Ancient History (3)* |
| PHIL | 401  | Advanced Ancient Philosophy (3)*   |

\*All asterisked courses have prerequisites that may be waived by the instructor for students in this program.

The following recommended but not required courses will contribute to a better understanding of classical Greece and Rome.

|      |     |  |
|------|-----|--|
| HIST | 150 | Western Civilization I (3)                     |
| HIST | 303 | Themes in Western Civilization (3)             |
| POLS | 111 | Greek, Roman and Medieval Political Theory (3) |

|   |    |
|---|----|
| <b>Total units Required for the Minor</b> | 27 |
|---|----|

## Communication Disorders and Sciences

College of Health and Human Development

**Chair: J. Stephen Sinclair**

**Monterey Hall (MH) 301**

**(818) 677-2852 (VOICE), (818) 677-5148 (TDD)**

**<http://hhd.csun.edu/comdis>**

### *Staff*

Rechelle Aguayo, Diana Cabral, Carla S. Romero

### *Faculty*

Tenure-Track Faculty: Edward P. Hall, Catherine A. Jackson, Karen Kochis-Jennings, Patricia J. Seymour, J. Stephen Sinclair, Christine Strike-Roussos, Andrew Vermiglio, Elizabeth G. Weber. Lecturers: Sherry L. Foldvary, Rosie Quezada, Karen Spayd

### *Clinical Faculty*

Janice Woolsey (Clinic Coordinator) and Connie Stratton. Ten to 13 other professionals on the part-time faculty in Speech-Language Pathology and Audiology, early childhood education and related disciplines complete the teaching and research faculty and the supervisory staff at the Language Speech and Hearing Center.

### *Emeritus Faculty*

Judith Trost-Cardamone

## Programs

Undergraduate:

**B.A., Communication Disorders and Sciences**

Graduate:

**M.S., Communication Disorders and Sciences, Clinical-Rehabilitative Specialist in Hearing, Speech and Language (Speech-Language Pathologist) and Special Day Class Authorization (Aphasic)**

## Accreditation

The Master of Science graduate programs in Speech-Language Pathology are accredited by the Council on Academic Accreditation (CAA). The Master of Science graduate program in Audiology was accredited until Dec. 31, 2006, after which a doctoral degree became the entry-level degree requirement and therefore admission of new students in Audiology was suspended. The Department is accredited by the California Commission on Teacher Credentialing for the Clinical-Rehabilitative Services Credential (Language, Speech and Hearing Services and Audiology) and the Special Class Authorization (Aphasic). The Department is one of the participating programs in the University's accreditation by the National Council on Accreditation in Teacher Education.

## The Major

The Communication Disorders and Sciences major involves studies in the disciplines of speech and hearing sciences, audiology and speech-language pathology. The undergraduate program offers an emphasis in either Audiology or Speech-Language Pathology and the graduate program offers an emphasis in Speech-Language Pathology.

The Masters Degree is the professional entry-level requirement for employment as a speech-language pathologist. Completion of the Baccalaureate and Masters Degree programs in Speech-Language Pathology enables students to satisfy the academic requirements for:

1. License in all states to practice in medical, rehabilitative or private-practice settings;
2. Education credentials in all states for employment in public schools;
3. Professional certification by the Council for Clinical Certification ASHA.

Due to changes in program accreditation and entry-level professional certification standards that require a doctoral degree after Dec. 31, 2006, no new students presently are admitted to the graduate program in Audiology. Persons considering an undergraduate major and subsequent doctoral studies in Audiology should consult the Department for academic advisement. The Department's curriculum is conducted through classroom instruction, online instruction and experiential learning, including intensive student participation in the clinical programs of the CSUN Language, Speech and Hearing Center. Advanced graduate students obtain additional clinical experience through placement in the Department's affiliated medical centers, professional practices and public schools.

## Facilities

The Department is housed within Monterey Hall, located on the south-eastern corner of the campus. The building is home to the Department's CSUN Language, Speech and Hearing Center with convenient client access to parking on Zelzah Avenue and in a parking lot adjacent to Monterey Hall. The Department's clinical facilities include extensive diagnostic and treatment resources for persons with a wide variety of speech, language, hearing, swallowing and balance disorders, as well as space for teaching and research laboratories in anatomy/physiology, hearing/speech science, phonologic disorders, language development and disorders, neurogenic disorders of communication, auditory electrophysiology and a hearing aid dispensary. The Center jointly operates a vestibular and balance disorders lab with the Department of Physical Therapy. The building contains a computer laboratory with open lab time for Department majors and studio space for media production. Students have high-speed Internet access for personal laptop computers throughout the building, including the department's student library. The building houses all of the Department's academic offices for faculty and staff, as well as the business office, records room and materials preparation room of the CSUN Language, Speech and Hearing Center.

## Careers

Program alumni with graduate degrees find varied career opportunities as speech-language pathologists and audiologists serving the needs of communicatively disabled persons across the life span. Employment opportunities are widely available due to the general population's longer life span and advances in technology and health. Program alumni find employment in California's and the nation's medical centers, skilled nursing and other rehabilitative facilities, community speech and hearing centers, medical offices, public and private schools, and private practices. With approximately 100 graduates annually in the M.S. Degree program in Speech-Language Pathology, the regional and national network of alumni is substantial and growing.

## Academic Advisement

Communication Disorders and Sciences majors at both the undergraduate and graduate levels are assigned a faculty advisor. Department majors are required to meet with their academic advisors at least once each term for academic advisement prior to course registration. More frequent contact between student and advisor is encouraged. Prospective and new students at both the undergraduate and graduate levels should attend an orientation meeting as soon as possible for basic information on the fields of speech-language pathology and audiology, and assistance in formulating academic and career plans. These informal orientation meetings are held monthly. The schedule of orientation meetings (times, dates and places) is posted on the Department's homepage or individuals may contact the Department for times, dates and meeting places.

An advisor also should be consulted regarding fulfillment of related course work for professional licensure and certification requirements, which may include courses involving biology, human anatomy and physiology, the exceptional child, growth and development of children, reading instruction, psychology, physics, mathematics and others.

The Speech Language Pathology advisors are Edward P. Hall, Catherine A. Jackson, Karen Kochis-Jennings, Patricia J. Seymour, Christine Strike-Roussos, Elizabeth G. Weber and Janice Woolsey. The Audiology advisors are J. Stephen Sinclair, Karen Spayd and Andrew Vermiglio. Drs. Vermiglio and Spayd also advise undergraduate majors in Speech-Language Pathology. Drs. Sinclair and Hall will assist post-baccalaureate students in the Pre-Communication Disorders and Sciences program and in open University status in course planning each term. Consult the Department website for assignment to a specific advisor.

### Student Learning Outcomes of the Undergraduate Program

1. Demonstrate achievement of competence in basic communication sciences by successfully completing the Pre-Clinical Phase of the undergraduate programs with grades of B or better in all courses.
2. Demonstrate preparation for entry into Clinical Phase of the undergraduate programs by successful application for Clinical Privileges and completion of required course work in clinical methods, clinical observation and entry-level courses in communication disorders.
3. Demonstrate preparation for application for admission to graduate school of choice by completion of the courses required in the major (for undergraduates) or by completion of a minimum of 30 semester units of qualifying course work (for post-baccalaureate students) with grades and recommendations that are sufficient for a competitive admission process.

### Student Learning Outcomes of the Graduate Program

1. Demonstrate achievement of entry-level competence in speech-language pathology and audiology sciences, disorders, evaluations and treatments as shown in courses and clinical practice to the level required for professional certification by the American Speech-Language-Hearing Association and by the licensing agency of the state in which professional practice will be conducted.
2. Successfully complete the national examination in the area of chosen specialty—Speech-Language Pathology or Audiology.

### Consumer Complaints

Consumer complaints regarding the accreditation of the graduate program in Speech-Language Pathology may be addressed to the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA), (800) 498-2071.

### Distance Learning Program

The Department offers the Master of Science degree with emphasis in Speech-Language Pathology in a distance learning (DL) program that is administered jointly with the CSUN Tseng College. The purpose of this program is to serve graduate students in Speech-Language Pathology who are unable to relocate close enough to travel regularly to the CSUN campus. Qualified graduate students are admitted to this program in cohorts (groups) every 12 months; cohort students take no courses on the residential campus. Students are not permitted to transfer between the residential program and the distance learning program. The DL courses are taught asynchronously with the regular University calendar, with students taking the entire course of study (57 units) as a cohort over a 36-month period. Courses are delivered to the homes and workplaces of DL students via Internet and all clinical practica are completed in the DL students' home communities. The DL program charges tuition that reflects the cost of instruction. The M.S. Degree in the DL program ultimately reflects the same pre-

requisite and requisite content as the residential degree and the DL program meets CAA-ASHA certification and state licensure standards. For further information on the DL program, visit <http://tsengcollege.csun.edu/cds>.

### Requirements for the Bachelor of Arts Degree

There are special requirements for admission to the major. Undergraduate instruction is divided between a Pre-Clinical and a Clinical Phase. There are no pre-admission requirements for the Department's Pre-Clinical Phase. All entering undergraduate and post-baccalaureate undeclared majors are regarded as Pre-Clinical Phase students. Once junior-level or higher academic standing is achieved, Pre-Clinical Phase students must complete CD 405, 410, 415 and 442 or the equivalent in order to apply for Clinical Privileges at the CSUN Language, Speech and Hearing Center as part of the Clinical Phase of instruction. Course equivalents for CD 405, 410, 415 and 442 must be submitted for review and approval by a faculty advisor and the Department Chair. Application for the Clinical Phase is made during the semester in which the Pre-clinical Phase courses are in progress of completion.

Please note that satisfactory completion of Pre-clinical Phase courses includes a grade of "B" or better in each of the four classes. Enrollment in clinical courses (e.g., CD 465, 475, 469A or 469O) is not permitted without Department approval of Clinical Privileges. Evaluation for admission to Clinical Privileges includes a faculty assessment of academic and clinical potential, supported by letters of recommendation, academic transcripts and satisfactory completion of the Pre-clinical Phase courses.

Once admitted to Clinical Privileges, the student is regarded as a Clinical Phase student and should consult an academic advisor regarding the area of major emphasis (undergraduate Speech-Language Pathology, undergraduate Audiology or post-baccalaureate undeclared majors emphasizing Speech-Language Pathology), proper course sequencing and prerequisites for advanced courses. If a student is denied admission to Clinical Privileges or if such privileges have been suspended or revoked, it is possible to complete the baccalaureate degree as a non-clinical major by substitution for all client-contact courses. Substitution for client-contact courses must be approved by a faculty advisor and the Department Chair.

Instructions, due dates and application forms for Clinical Privileges are available in the Department Office. Clinical Phase students are advised that Clinical Privileges may be suspended or revoked at any time by the department for failure to attain a grade of "B" or better in all clinical courses (e.g., CD 465 et seq., 475 et seq., 469A, 469O, 668 and 672AB), for violations of ethical conduct or state licensure regarding client care, for academic probation beyond one semester, or for failure to adhere to the regulations and policies of the CSUN Language, Speech and Hearing Center or of the Department. Further information on Pre-Clinical and Clinical Phase components of the Department's programs is offered during scheduled monthly student orientation sessions.

#### 1. Lower Division Required Courses (11 units)

|      |       |   |
|------|-------|---|
| BIOL | 101/L | General Biology (3/1)                   |
| BIOL | 211   | Human Anatomy (2)                       |
| BIOL | 212   | Laboratory Studies in Human Anatomy (1) |
| MATH | 140   | Introductory Statistics (4)             |

#### 2. Upper Division Required Courses (38 units)

|    |     |   |
|----|-----|---|
| CD | 405 | Phonetics (3)*                          |
| CD | 410 | Hearing Science (3)*                    |
| CD | 415 | Speech and Language Development (3)*    |
| CD | 442 | Speech Science (3)*                     |
| CD | 445 | Audiometry and Hearing Conservation (3) |

|      |       |  |
|------|-------|--|
| CD   | 446   | Auditory Habilitation (3)                            |

| CD   | 469A  | Diagnostic Methods in Communication Disorders (3)    |
| CD   | 469O  | Observation in Communication Disorders (1)           |
| CD   | 485   | Computer Applications in Communication Disorders (3) |
| ENGL | 302   | Introduction to Modern Grammar (3)                   |
| PHYS | 305/L | Physics Of Music and Laboratory (3/1)                |

\*Pre-Clinical Phase Courses. Choose either the Speech/Language Pathology Emphasis or the Audiology Emphasis.

### 1. Speech/Language Pathology Emphasis (8 units)

|    |     |   |
|----|-----|---|
| CD | 450 | Fluency and Disorders of Fluency (3)                  |
| CD | 465 | Clinical Practicum in Speech/Language Pathology I (2) |
| CD | 480 | Early Speech-Language Intervention (3)                |

### 2. Audiology Emphasis (9 units)

|    |     |   |
|----|-----|---|
| CD | 465 | Clinical Practicum in Speech/Language Pathology I (2) |
| CD | 471 | Advanced Audiology (3)                                |
| CD | 475 | Clinical Practice in Audiology (2)                    |
| CD | 576 | Clinical Practice in Audiology (2)                    |

**General Education:** The Department will accept its own Lower Division requirements or if equivalents have been taken to satisfy GE requirements. These courses also will satisfy Department requirements for the major. Please note that some of the Department's Lower Division requirements may also satisfy GE requirements.

**Special Requirements:** In addition to degree requirements, the undergraduate course of study must fulfill requirements for successful application to graduate school, as well as provide some of the introductory required courses for professional certification, state licensure and credentialing.

## Requirements for the Master of Science Degree

### A. Requirements for Admission to the Program

Potential graduate students must apply simultaneously and separately to the University and to the Department. Those who meet both the University's and the Department's minimum requirements will be considered by the Department in a competitive process for admission as Conditionally Classified or Classified graduate students.

Graduate applicants who meet the University minimum requirements but do not meet the Department's minimum requirements may be offered an opportunity to enroll in undergraduate prerequisite courses in either a Pre-Communication Disorders and Sciences status or a seat in a specific course(s) through Open University. These opportunities are limited by the enrollment capacity of the Department for currently matriculated students. The Pre-CDS and Open University are intended to assist students in meeting the minimum admission requirements of prerequisite courses for the Department's graduate programs (see below). Courses in the Masters Degree program itself are restricted to graduate students in Classified or Conditionally Classified graduate status. Students with a baccalaureate degree in a major other than Communication Disorders and Sciences are not enrolled in a second

baccalaureate degree in this field. Students having a baccalaureate degree in Communication Disorders and Sciences or equivalent may not pursue a second baccalaureate degree in the Department. Potential Pre-CDS and Open University CDS students should discuss options with a Department advisor as access to Pre-CDS and Open University status may change according to University admission policies.

An applicant to the Department's graduate program who currently is in Pre-CDS status will need to apply to the Department, but not again to the University, for consideration for admission to the graduate program once the minimum admission requirements have been fulfilled.

**Application Materials:** Department materials and detailed instructions for application to the graduate programs may be obtained from the department office; information is also accessible through the Department's homepage. The Department requires that applicants must use the Department application form and the forms for letters of recommendation. Completed Department application materials must be returned directly to the Department.

### B. Minimum Requirements for Consideration for Department Admission

**The following requirements must be met:**

1. Completion of a B.A. degree;
2. Completion of approved undergraduate courses in Communication Disorders and Sciences, including the specific course prerequisites described below;
3. Submission of the department graduate application;
4. Submission of three letters of recommendation on Departmental forms;
5. Submission of scores on the Graduate Record Examination (GRE) or Miller Analogies Test (MAT).

It is understood that some of the required academic and/or clinical courses may be in progress at the time of application, but that they would be completed before the anticipated starting date.

Students with an undergraduate degree in Communication Disorders and Sciences from a university other than CSUN may have minimal deficiencies in meeting the above requirements and may be considered for admittance as a Conditionally Classified graduate student. If admitted, the applicant must complete all identified conditions by the time that 12 units of graduate-level course work have been completed in adherence to the University's policies and will not be allowed enrollment in subsequent graduate course work until all conditions have been fulfilled. Eligibility should be discussed with a Department academic advisor.

### C. Prerequisites for admission to the Graduate Program and Advancement to Classified Graduate Status:

Emphasis in Speech-Language Pathology:

#### 1. Admission to Graduate Program

- a. Overall, applicant must possess 30 semester units (including courses in progress) of qualifying course work in Communication Disorders and Sciences, to include:
  - i. 12 semester units of Basic Communication Sciences (including CD 405, 410, 415 and 442 or the equivalent).
  - ii. 3 semester units in diagnostic methods, including CD 469A or equivalent;
  - iii. 9 semester units of course work in the management of Communication Disorders and Sciences, including CD 450, 451 and 462 or equivalents;
  - iv. 6 semester units of courses in basic audiometry and auditory rehabilitation, such as CD 445 and 446 or equivalent;
- b. Applicants requesting to substitute equivalent course work must submit

transcripts, course descriptions and course syllabi for evaluation. Students admitted to the Graduate Program with the above completed course work are admitted as Conditionally Classified.

## 2. Advancement to Classified Graduate Status

- a. Prior to completion of 12 units of graduate degree-granting course work, students must attain Classified Status by completing any and all outstanding qualifying course work. In addition to the 30 units listed in the Admission to Graduate Program section, additional qualifying course work includes:
- CD 480 and 485 or equivalents.
  - 25 supervised observation hours (CD 469O or equivalent).
  - Basic science requirements as identified by the American Speech-Language Hearing Association (1 college-level course in the Biological Sciences, 1 college-level course in the Physical Sciences, 1 college-level course in the Social Sciences, 1 college-level course in Math). (Note: These areas of study must involve courses taken at CSUN or are eligible for transfer to CSUN.)
  - Passing score on the CSU Upper Division Writing Proficiency Exam.
- b. Statement of consulting academic advisor for final determination of eligibility of courses for Classified status
- Emphasis in Audiology: Admission to the graduate program in Audiology is suspended while a new clinical doctorate program is developed.

## Requirements for the M.S. Degree

Once admitted to the Department's graduate programs, a student must attain Classified graduate status, submit a department-approved plan of study (i.e., the Master's Degree Contract) to the Graduate School for review and approval, satisfactorily complete all courses on the plan and pass a final, comprehensive examination. It is noted that for state licensure, professional certification and state education credentials, additional graduate courses are taken as part of the course of study. A thesis option is available that fulfills a portion of the final, comprehensive examination requirement. Students interested in writing a thesis must consult the Department's graduate coordinator for option criteria prior to submission of a Department-approved Master's Degree Contract.

### 1. Required Courses (36 units)

Distance Learning Program Only:

CD 500 Background Leveling in Communication Disorders and Sciences (3)

### Core curriculum for all majors (15 units)

CD 501 Interviewing and Counseling in Communicative Disorders (3)

CD 502 Research in Communicative Disorders (3)

CD 552 Language Disorders II (3)

CD 558 Neuroanatomy and Neurophysiology of Speech, Language and Hearing (3)

CD 674 Pediatric Audiology (3)

### 2. Speech-Language Pathology Emphasis (21 units)

CD 659 Neurogenic Disorders of Cognition and Language (3)

CD 660 Structural and Neurogenic Speech Disorders (3)

CD 651 Advanced Study of Articulation and Phonological Disorders in Children (3)

CD 661 Voice and Disorders of Voice (3)

CD 662 Seminar in Developmental Language Disorders (3)

CD 663 Adult and Pediatric Swallowing/Feeding Disorders (3)

CD 668 Advanced Diagnostics in Speech-Language Pathology (3)

### 3. Audiology Emphasis (15 units)

CD 660 Structural and Neurogenic Speech Disorders (3)

CD 670A Electrophysiology of the Audio-Vestibular System (3)

CD 670B Electrophysiology of the Audio-Vestibular System (3)

CD 671 Seminar in Amplification for the Hearing-Impaired (3)

CD 675 Pathologies of the Auditory System (3)

### Comprehensive Exam/Thesis:

Successful completion of a comprehensive written examination covering speech and hearing science, speech-language pathology and audiology; student must register for CD 697.

or

Successful completion of an acceptable thesis and its oral defense, along with successful completion of a comprehensive written examination in areas of speech and hearing sciences, speech-language pathology and audiology in the areas not covered by the thesis topic; student must register for CD 698.

## Requirements for the Clinical-Rehabilitative Services Credential

The Speech Language Pathology Services Credential (Language, Speech and Hearing Services and Audiology) is designed for persons who wish certification to serve exceptional individuals as language, speech and hearing specialists, and/or as audiologists.

### A. Admission

Admission to the credential program requires admission to the Master's program in the Department of Communicative Disorders. Applicants for graduate status must possess either a baccalaureate degree in Communicative Disorders or complete 30 semester units of prerequisite courses, the Graduate Record Examination or Miller's Analogy, and submit recommendations, transcripts and the Departmental application.

### B. Pre-Clinical Phase

For students who wish to obtain the credential but lack the required baccalaureate degree in Communication Disorders and Sciences for admission to graduate studies, the first step in qualifying for admission is to complete the Pre-Clinical Phase courses. Refer to the Department of Communication Disorders and Sciences' for description of the requirements for the Pre-Clinical and Clinical Phases of instruction. Note that all entering undergraduate and post-baccalaureate undeclared majors (which also includes Pre-CDS majors) are regarded as Pre-Clinical Phase students. All majors, including credential candidates, are required to have academic advisement by the Department during pre-registration activities each semester.

In order for a student to qualify for admission to Clinical Privileges (Clinical Phase), the Pre-Clinical Phases courses must be completed with a grade of B or better in each course. The student then submits a formal application for Clinical Privileges to the Department. Evaluation for Clinical Privileges includes an assessment of academic and clinical potential, supported by letters of recommendation, academic transcripts and satisfactory completion of the Pre-Clinical Phase courses. Application forms and instructions are found in the Communicative Disorders Department Office.

As soon as the candidate is accepted for Clinical Privileges (Clinical Phase), the student is eligible to enroll in the following courses:

EPC 314 Psychological Foundations, K-12 (3)

FCS 330 Child Growth and Development I (3)

### C. Requirements for Good Standing

Once admitted to Clinical Privileges (Clinical Phase), undergraduate and graduate majors in Communicative Disorders must continue to meet the standards for Clinical Privileges as described by the Department of Communicative Disorders. Additionally, once admitted, all candidates must maintain an overall 3.0 GPA in the major. Failure to maintain good standing may result in dismissal from the credential program.

### D. Graduate Requirements for the Credential

The Clinical-Rehabilitative Services Credential (Language, Speech and Hearing Services and Audiology) requires completion of the Master of Science Degree in Communicative Disorders, with the appropriate option in either Speech-Language Pathology or Audiology. In order to take the advanced (500- and 600-level) courses for the Master's degree, a student must be admitted to Conditionally Classified or Classified graduate status by the Department. Consult with the Department of Communicative Disorders and Sciences for admission requirements, deadlines and forms. Note that admission to Classified graduate status by the Department requires completion of conditions as described in the Departmental section of this catalog. Also note that admission to the Audiology option has been suspended until a new clinical doctorate program is developed and accredited.

In addition to prerequisite courses and the Master's Degree, the following courses are required for the Credential:

#### 1. Core Curriculum:

|      |     |   |
|------|-----|---|
| CD   | 485 | Computer Applications in Communication Disorders (3)                  |
| EPC  | 314 | Psychological Foundations, K-12 (3)                                   |
| FCS  | 330 | Child Growth and Development I (3)                                    |
| SPED | 438 | CD Student Teaching in Language, Speech and Hearing and Audiology (6) |

For Speech-Language Pathology only:

|    |        |   |
|----|--------|---|
| CD | 480    | Early Speech-Language Intervention (3)  |
| CD | 672A-B | Advanced Clinical Practicum in Speech Pathology and Audiology I and II (3, 3) |

#### 2. Other Requirements:

All Credential candidates must satisfactorily complete the CBEST and the Upper Division Writing Proficiency Exam.

#### 3. Special Class Authorization (Aphasic)

A program by which a candidate for the Clinical-Rehabilitative Services (Language, Speech and Hearing) Credential may add the Special Class Authorization (Aphasia) has been developed at CSUN and been approved by the Commission on Teacher Credentialing.

The following courses are required:

|      |     |  |
|------|-----|--|
| CD   | 478 | Severe Language Handicapped and/or Aphasic Pupils in the Classroom (3) |
| E ED | 520 | Teaching Reading in the Elementary School (3)                          |
| E ED | 640 | Elementary School Mathematics Education (2)                            |
| MATH | 210 | Basic Number Concepts (3)  |
| SPED | 438 | CDA Student Teaching in Severe Language Handicapped/Aphasic (4)        |

|                    |           |
|--------------------|-----------|
| <b>Total units</b> | <b>15</b> |
|--------------------|-----------|

### State Licensure and ASHA Certification

For state licensure and ASHA certification, additional courses include the following (Department advisement is required for individual needs of students):

|    |         |  |
|----|---------|--|
| CD | 566/567 | Clinical Practicum in Speech Pathology II, III (2,2)                     |
| CD | 576/577 | Clinical Practice in Audiology II, III (2,2)                             |
| CD | 672A/B  | Advanced Clinical Practice in Speech Pathology and Audiology I, II (3/3) |

Special notes: The American Speech-Language-Hearing Association requires a total of 75 units in specified areas of course work for the Certification of Clinical Competence in either Speech-Language Pathology or Audiology, while 60 units are required by California

for state licensure. The most current entry standards for ASHA CCC in Speech-Language Pathology were issued in 2008, and in 2007 for Audiology, specifying requirements for academic courses, clinical clock-hour practica, and specifically for Audiology, the requirement for an entry-level doctoral degree. At the time of writing for the Catalog, it is not known whether California state licensure standards will change to reflect the changes in CAA-ASHA accreditation or ASHA CCC entry-level requirements. Therefore, persons considering application and students presently pursuing the graduate degrees must consult regularly with an academic advisor in order to ensure that the program of study that is being pursued will continue to meet these education standards. Currently enrolled students must be aware that licensing and certification agencies do not provide "grandfathering" provisions. Therefore, applications for licenses and certifications must meet requirements in force at the time of application, not at the time enrollment in the program began or when a student graduated.

Regarding the application for state licensure and ASHA certification: The Department and the University do not confer a license to practice or professional certification. The graduating student must apply to the appropriate state agency having jurisdiction over the intended practice for a license and must apply to the American Speech-Language-Hearing Association for certification. It is emphasized that practice without a license is a violation of state law, unless the employment is within specified exempt settings. The Department provides advisement on the requirements and processes for licensure and certification.

### Course List

#### CD 361. Language Development in Children (3)

*Prerequisite: Completion of the Lower Division writing requirement.* Study of oral language development in children and the bases for speech and language problems. Provides layperson awareness of the various dimensions of speech and language development; the milestones observable within the normal developmental sequence; and the identification, consequences and management of speech and language disorders. (Not open to Communication Disorders and Sciences majors) (Available for General Education, Lifelong Learning.) (IC)

#### CD 405. Phonetics (3)

Study of general phonetics principles; articulatory, acoustic and linguistic aspects of the sound systems of standard and non-standard dialects of American English; introduction to the application of phonetics to disordered sound systems.

#### CD 410. Hearing Science (3)

Study of physics of sound, anatomy and physiology of the ear and measurement of perception of sound. Brief survey of causes of hearing impairment and habilitation procedures.

#### CD 415. Speech and Language Development (3)

Study of speech and language development in relation to normal learning and growth processes; brief introduction to second language acquisition.

#### CD 442. Speech Science (3)

Structure and function of neuro-muscular systems used in respiration, phonation, resonance and articulation; fundamentals of sound production and transmission applied to speech.

#### CD 445. Audiometry and Hearing Conservation (3)

*Prerequisite: CD 410.* Study of basic battery of audiologic tests, including equipment calibration procedures, pure tone and speech audiometry, clinical masking and the study of school and industrial identification audiometry and hearing conservation. Familiarization with basic audiologic equipment, and calibration and test procedures.

**CD 446. Auditory Habilitation (3)**

*Prerequisite:* CD 410. Theory and methods of habilitation of hearing-impaired adults and children, including assessment of hearing handicap, habilitation management, speech-reading and amplification with individual and group hearing aids.

**CD 450. Fluency and Disorders of Fluency (3)**

*Prerequisites:* CD 415, 442. Study of the etiology, characteristics and clinic assessment of typical/atypical stuttering in adults and children. The efficacy and efficiency of therapeutic management of fluency disorders are discussed. In addition, multicultural implications for assessment and treatment will be presented. Regular written assignments are required

**CD 451. Phonologic and Articulatory Disorders (3)**

*Prerequisites:* CD 405, 415, 442. Examination of theories of normal and disordered acquisition of phonology and articulatory production, as well as basic phonologic assessment methods and treatment planning. Both functional and structural disorders are emphasized, including cleft lip and palate and related craniofacial syndromes. Regular written assignments are required.

**CD 462. Language Disorders I (3)**

*Prerequisite:* CD 415. Ways of conceptualizing language of parts of language; introduction to data collection, transcription and language analysis; introduction to the concept of differential diagnosis; introduction to diagnostic populations with associated developmental language disorders.

**CD 465. Clinical Practicum in Speech Pathology I (2)**

*Prerequisites:* CD 405 (or equivalent), 410 (or equivalent), 415 (or equivalent), 442 (or equivalent), 451 (or equivalent), 462 (or equivalent), 469A (or equivalent), 469O (or equivalent). *Corequisites:* Maintenance of clinical privileges; Consent of instructor. Supervised clinical experience in the diagnosis of and therapy for speech- and hearing-handicapped children, academic study of specific speech problems. 6 hours of clinical skills lab per week. May be repeated one time.

**CD 469A. Diagnostic Methods in Communication Disorders (3)**

*Prerequisite:* Admission to Clinical Privileges (Clinical Phase). Basic concepts of standardized and non-standardized evaluation procedures for children and adults with mild to moderate communicative disorders. Theory and application of clinical writing, including the case history and the assessment report.

**CD 469B. Practicum in Diagnostics in Communication Disorders (1)**

*Prerequisites:* 469A (or equivalent), 469O (or equivalent). *Corequisites:* Maintenance of clinical privileges; Consent of instructor. Practicum in the evaluation of individuals with communicative disorders. 3 hours of clinical skills lab per week. May be repeated one time.

**CD 469O. Observation in Communication Disorders (1)**

*Prerequisite:* Admission to Clinical Privileges (Clinical Phase). *Corequisites:* Maintenance of clinical privileges; Consent of instructor. Observation of the evaluation and management of speech, language and hearing disorders. 25 hours of pre-therapy observation. Instruction in case-management fundamentals. To be taken concurrently with 469A. 3 hours of clinical skills lab per week.

**CD 471. Advanced Audiology (3)**

*Prerequisite:* CD 445. Study of auditory tests for lesions in the peripheral and central auditory system, including impedance audiometry and test batteries using pure tone and speech stimuli, and tests for pseudohypacusis.

**CD 475. Clinical Practicum in Audiology I (2)**

*Prerequisites:* CD 445, 446, 496A, 469O. Application of audiometric theory in the audiological lab, giving the student experience in the clinic routine of assessing auditory function and preparing and implementing a program of rehabilitation. Six hours of lab per week.

**CD 478. Severe Language Handicapped and/or Aphasic Pupils in the Classroom (3)**

*Prerequisite:* CD 465. Provides the advanced communicative disorders student with behavioral data, current concepts and effective diagnostic and therapeutic procedures utilized in the rehabilitative process for the severe oral-language handicapped/aphasic child in the classroom.

**CD 480. Early Speech-Language Intervention (3)**

*Prerequisites:* CD 405, 415, 462. Advanced study of speech and language disorders, assessment procedures and intervention management of developmentally-delayed children from birth to age 5.

**CD 485. Computer Applications in Communication Disorders (3)**

*Prerequisite:* Admission to Clinical Privileges (Clinical Phase). Study of basic computer concepts and applications of microcomputers in the fields of Speech-Language Pathology and Audiology, including diagnostic and rehabilitative procedures, statistical and research applications, record keeping and word processing. Review of contemporary microcomputer hardware and software. Regular written assignments are required.

**CD 496A-Z. Experimental Topics Courses in Communication Disorders and Sciences (1-3)**

*Prerequisite:* 1 year of appropriate courses in Communication Disorders and Sciences. Experimental courses in Communication Disorders and Sciences, with course content to be determined.

**CD 499. Independent Study (3)****Graduate****CD 500. Background Leveling in Communication Disorders and Sciences**

*Corequisite:* Admission to the Department of Communication Disorders and Sciences Distance Learning graduate studies program. *Recommended Preparatory Courses:* Course equivalents of CD 405, 410, 415, 442, 445, 446, 450, 451, 462, 469A. Tailored instruction for students who have not yet achieved the minimal competency requirements for entry into graduate studies. Students are assessed across seven strands of knowledge and skills competencies; for those strands in which minimal competency skills are not met, instruction/skill remediation modules are designed in order to advance the students' foundations of knowledge and skills.

**CD 501. Interviewing and Counseling in Communicative Disorders (3)**

*Prerequisite:* Graduate standing or permission of instructor. Advanced study of interviewing and counseling strategies and techniques associated with diagnostic and therapeutic practice in Speech-Language Pathology and Audiology. Professional responsibilities for ethical practices. Regular written assignments are required.

**CD 502. Research in Communication Disorders (3)**

*Prerequisite:* Graduate standing. Study of applied research methods and instrumentation in the field of communication disorders, including literature search techniques, research design, statistical tests, lab instrumentation and calibration, and report preparation. Regular written assignments are required.

**CD 552. Language Disorders II (3)**

*Prerequisites:* CDS 462 or equivalent; Graduate standing. Survey of current definitions and causes of language disorder; disorders of parts of language and trade-off effects. Identification of relevant features of disordered language for assessment and intervention. Analysis of relevant features of disordered language through advanced data collection, transcription and language analysis of intonation, morphosyntactic form, communicative function, repair phenomena and discourse-level sequences.

**CD 558. Neuroanatomy and Neurophysiology of Speech, Language and Hearing (3)**

*Prerequisite:* Graduate standing. Concerned with the structural components and organization of the central and peripheral nervous systems and their conduction pathways and functions, with specific emphasis on those structures that subservise normal speech, language and hearing processes. Regular writing assignments are required.

**CD 566. Clinical Practicum in Speech Pathology II (2)**

*Prerequisites:* CD 405 (or equivalent), 410 (or equivalent), 415 (or equivalent), 442 (or equivalent), 451 (or equivalent), 462 (or equivalent), 465 (or equivalent), 469A (or equivalent), 469O (or equivalent); Graduate status. *Corequisites:* Maintenance of clinical privileges; Consent of instructor. 6 hours of clinical skills lab per week. May be repeated one time.

**CD 567. Clinical Practicum in Speech Pathology III (2)**

*Prerequisites:* CD 566 (or equivalent); Graduate status. *Corequisites:* Maintenance of clinical privileges; Consent of instructor. 6 hours of clinical skills lab per week. May be repeated one time.

**CD 576. Clinical Practicum in Audiology II (2)**

*Prerequisite:* CD 475. Six hours of lab per week.

**CD 577. Clinical Practicum in Audiology III (2)**

*Prerequisite:* Graduate status. Six hours of lab per week.

**CD 595A-Z. Experimental Topics Courses (1-3)****CD 599. Independent Study (1-6)****CD 651. Advanced Study of Articulation and Phonological Disorders in Children (3)**

*Prerequisites:* CD 451, 462, 469A, 558 or the equivalents; Graduate standing. Advanced study of speech acquisition, differential diagnosis of pediatric speech disorders and principles of intervention.

**CD 659. Neurogenic Disorders of Cognition and Language (3)**

*Prerequisites:* Admission to the Department's graduate program; CD 558. *Corequisite:* Consent of instructor. This course includes advanced study of the neurological bases for language and cognitive deficits, as well as theoretical views of the organization of these components. Primary focus is given to the diagnosis and treatment of common communication problems in adults with aphasia, traumatic brain injury and other acquired language and cognitive disorders. In addition, these language and cognitive impairments will be contrasted with communication changes associated with normal aging.

**CD 660. Structural and Neurogenic Speech Disorders (3)**

*Prerequisites:* CD 558; Admission to the Department's graduate program. *Corequisite:* Consent of Instructor. This course focuses on the advanced study of structural and neurogenic speech disorders, including models of motor control of speech production, neurological representation of speech and the effects of structural or neurological damage on speech production. Students will identify specific speech deficits characterizing dysarthria, apraxia of speech, craniofacial anomalies and surgical or traumatic alterations in normal speech structure and function. Physical and clinical assessment and management of these cases will be emphasized.

**CD 661. Voice and Disorders of Voice (3)**

*Prerequisite:* Admission to the Department's graduate program. *Corequisite:* Consent of instructor. Study of theoretical, diagnostic and treatment issues in functional/organic/neurogenic/and psychogenic voice disorders. In addition, diagnostic and treatment options for laryngeal, head and neck cancer are presented. Multicultural implications for assessment and treatment are discussed. Regular written assignments are required, as well as proficiency with instrumentation for options within assessment and treatment.

**CD 662. Seminar in Developmental Language Disorders (3)**

*Prerequisites:* CD 552; Graduate standing. Advanced study of current research relating to the differential diagnosis of populations with associated developmental language disorders, including specific language impairment, language/learning disabilities, central auditory processing disorders, pervasive developmental disorders, psychiatric disorders, mental retardation and other populations with associated developmental disorder.

**CD 663. Adult and Pediatric Swallowing/Feeding Disorders (3)**

*Prerequisites:* CD 558; Admission to the Department's graduate program. *Corequisite:* Consent of instructor. This course focuses on the theoretical and clinical aspects of the disorders of swallowing or dysphagia. The physiology of normal swallow is studied as it develops across the life span. The etiologies of dysphagia in both the pediatric and adult populations are examined, as well as clinical and instrumental assessment of normal swallowing and dysphagia. Finally, the diagnosis and management of disorders of swallowing in the pediatric and adult populations are investigated.

**CD 668. Advanced Diagnostics in Speech-Language Pathology (3)**

*Prerequisites:* CD 465, 566, 567, 552, 558, 651, 659, 661; Maintenance of clinical privileges; Consent of instructor. Advanced diagnosis and evaluation of children and adults with complex disorders of speech and/or language and/or cognition. Clinical experience in taking a history, constructing a test battery, administering norm-referenced tests, performing informal assessment procedures, interpreting formal and informal results, making a differential diagnosis, writing reports and conducting feedback sessions with clients, parents and/or caregivers.

**CD 670AB. Seminar in Electrophysiology of The Audio-Vestibular System (3-3)**

*Prerequisites:* CD 471, 558 (may be concurrent with CD 558); Graduate standing. Advanced study of the measurement and interpretation of electrophysiology of the peripheral and central audio-vestibular system and related sensory functions, including electrocochleography, brainstem evoked response audiometry, electroencephalography, brain-mapping, posture platformography, electronystagmography, acoustic immittance audiometry and other tests. Note: 670A must be taken before 670B.

**CD 671A. Seminar in Amplification for The Hearing-Impaired (3)**

*Prerequisites:* CD 445, 446. Study of hearing aids for children and adults, including electronic components, electroacoustic assessment procedures, coupling methods and acoustics, evaluation and fitting procedures, acoustic environmental effects, counseling and dispensing policies and regulations.

**CD 671B. Amplification Selection and Fitting for The Hearing Impaired (3)**

*Prerequisites:* CD 671A; Graduate standing. Study in advanced topics in amplification for hearing impaired adults and children. Areas of consideration in amplification systems include compression and multi-band compression, multiple-memory capability, programmability and automatic signal processing. Areas of consideration in selection and verification of amplification systems include threshold-based prescriptive procedures and loudness-based selection procedures, including desired sensation level procedure. Regular written assignments are required.

**CD 672AB. Advanced Clinical Practice in Speech Pathology and Audiology I and II (3-3)**

*Prerequisites:* CD 465, 566, 567. Supervised clinical experience in diagnostic and therapeutic procedures with speech- and hearing-handicapped children and adults in hospitals and community health service centers. Staff conferences with medical and allied health personnel in relation to speech and language pathologies. (Credit/No Credit only)

**CD 674. Pediatric Audiology (3)**

*Prerequisites:* CD 445, 446. Advanced study of the causation, assessment and management of auditory disorders in infants and children.

**CD 675. Pathologies of the Auditory System (3)**

*Prerequisite:* CD 445. Study of etiology, incidence, clinical signs and symptoms, diagnosis and medical and audiological management of diseases and disorders affecting the peripheral and central audio-vestibular system.

**CD 696. Directed Graduate Research (1-3)****CD 697. Directed Comprehensive Studies**

*Prerequisite:* Completion of all courses required in the program.

**CD 698. Thesis (3-3)****Post-Master's Courses**

Prerequisites for the following courses: Available to persons holding graduate degrees in Communication Disorders and Sciences or closely related fields with the consent of the instructor. Also available to Classified graduate students in the Communication Disorders and Sciences Master of Science program at CSUN with the consent of the instructor. These courses may not be applied to the Master of Science program.

**CD 700A. Seminar: Current Topics in Craniofacial Speech and Hearing Diagnosis (3)**

Advanced study of clinical and instrumental assessment of structural and neurogenic craniofacial speech and hearing disorders; and audio and videotape speech analysis; Reading and evaluating scientific and professional literature.

**CD 700B. Seminar: Current Topics in Craniofacial Speech and Hearing Treatment (3)**

Advanced study of the theories and practices underlying behavioral and instrumental remediation of craniofacial communicative disorders. Reading and evaluating scientific and professional literature.

**CD 701. Advanced Electrophysiology for Speech, Language and Hearing (3)**

Covers research, advanced instrumentation and interpretation of evoked potentials and other electro-physiologic techniques used in the assessment of neural mechanisms involved in speech, language and hearing processes.

# Communication Studies

Mike Curb College of Arts, Media and Communication

**Chair: Bernardo Alexander Attias**

**Manzanita Hall (MZ) 220**

**(818) 677-2853**

**www.csun.edu/coms**

## Staff

Yolanda Avila, Thomas Rankin

## Faculty

Bernardo Attias, Don Brownlee, Sakilé Camara, Gina Giotta, Stacy Holman Jones, John Kephart III, Daisy Lemus, Rebecca Litke, Peter Marston, Jeanine Marie Mingé, Aimee Carrillo Rowe, Kathryn Sorrells

## Emeritus Faculty

Elizabeth Berry, Donald Cameron, William Freeman, Alan Harris, Jim Hasenauer, Paul Krivonos, Christie Loggan, Gordon Nakagawa, Donald Salper, Leonard Wurthman

## Programs

Undergraduate:

**B.A., Communication Studies**

Graduate:

**M.A., Communication Studies**

## Accreditation

The Department of Communication Studies at CSUN is a member of the Western States Communication Association (WSCA), the National Communication Association (NCA) and the International Communication Association (ICA).

## What We Do

Communication is central to the ongoing processes of culture and society, and thus is vitally important to study. The field has a rich and diverse foundation of specializations, ranging from public address, to critical and cultural studies, to interpersonal and small-group communication, to organizational communication, to intercultural and international communication and to performance studies. At CSUN, the Department of Communication Studies offers a strong curriculum that embraces a range of traditions in the discipline.

We use humanistic, aesthetic and social scientific methods to examine communication processes and patterns in a variety of contexts and the promises and challenges people experience when they use language and other symbolic systems to work with and influence others. We provide instruction in the knowledge and skills people need to communicate and function effectively in business, law, government, the ministry, teaching, the performing arts, politics, international relations and numerous other areas. The knowledge and skills offered in the Department help students to build satisfying and productive relationships in their careers as well as in their personal lives, and to become active and reflective global citizens.

Faculty members participate actively in regional, national and international associations and organizations focusing on communication and human relations, communication training and development, communication and cultural studies, and communication and social justice. Several serve in leadership positions in professional associations.

As part of a learning-centered University, the Department supports several service learning projects that involve students in the community, such as the Communicating Common Ground Project and the Communication for Youth Institute. The Department also has a nationally competitive Speech and Debate Team, an active Performance Ensemble program and a vibrant student Communication Association.

Communication majors take advantage of internship opportunities at a wide variety of businesses and not for profit organizations in the Los Angeles and San Fernando Valley regions.

## Careers

Professionals in all career paths generally find a background in Communication Studies rewarding, as there are communication needs in every field. Our graduates generally find employment in various fields, including the media industries, business, law, entertainment, public relations, marketing, advertising, government, performance art, social and human services, the ministry, international relations, management and education.

## Academic Advisement

All full-time faculty are involved in undergraduate advising. Contact any full-time faculty member during office hours for assistance. Graduate students should contact Graduate Coordinator Stacy Holman Jones.

## Student Learning Outcomes of the Undergraduate Program

Students receiving a degree from the Communications Studies Department will be able to:

1. Identify, describe and explain the role of communication in constructing reality through concepts, practices and rituals;
2. Analyze communication practices, structures, messages and effects in a variety of contexts;
3. Describe and explain the relationship between communication and culture;
4. Appropriately identify effective and ethical communication;
5. Work with others in civic engagement to develop a multicultural and global society.

## Requirements for Bachelor of Arts Degree

### 1. Core Requirements (18 units)

|          |  |
|----------|--|
| COMS 301 | Performance, Language and Cultural Studies |
| COMS 321 | Rhetorical Discourse                       |
| COMS 327 | Rhetorical Theory                          |
| COMS 351 | Communication Theory                       |
| COMS 356 | Intercultural Communication                |

*And one of the following Methods courses*

|          |  |
|----------|--|
| COMS 430 | Rhetorical Criticism                       |
| COMS 440 | Performance and Cultural Studies Criticism |
| COMS 450 | Communication Research Methodology         |

### 2. Divisional Requirements (9 units)

**Performance and Cultural Studies (Select 3 units; COMS 301 is a prerequisite for all courses in this band)**

|          |                                    |
|----------|------------------------------------|
| COMS 303 | Narrative in Performance           |
| COMS 304 | Poetry in Performance              |
| COMS 401 | Performance and Social Change      |
| COMS 404 | Theories of Interpretation         |
| COMS 445 | Communication and Popular Cultures |

**Rhetorical Theory (Select 3 units; COMS 327 is a prerequisite for all courses in this band)**

|          |  |
|----------|--|
| COMS 425 | Theories of Argumentation and Deliberation |
| COMS 435 | Rhetoric of Women                          |
| COMS 442 | Rhetoric of Peace and Conflict             |
| COMS 444 | Political Rhetoric                         |
| COMS 448 | Rhetoric of Extraordinary Claim            |

**Communication Theory (Select 3 units; COMS 351 is a prerequisite for all courses in this band)**

|          |                                     |
|----------|-------------------------------------|
| COMS 320 | Communicative Functions of Language |
| COMS 350 | Nonverbal Communication             |
| COMS 431 | Persuasion                          |
| COMS 451 | Interpersonal Communication         |
| COMS 453 | Organizational Communication        |

**3. Community Involvement Requirement (Select 3 units)**

|      |      |  |
|------|------|--|
| COMS | 323  | Group Communication                        |
| COMS | 400C | Directing Oral Performance                 |
| COMS | 410  | Community-Based Performance                |
| COMS | 437  | Communication for Youth Institute          |
| COMS | 452  | Communication Training and Development     |
| COMS | 495  | Internship in Organizational Communication |

**4. Major Electives (15 units)**

Select an additional 15 units of Upper Division courses in Communication Studies. These units may come from the courses listed above, as well as those listed below.

|      |     |                                  |
|------|-----|----------------------------------|
| COMS | 309 | Advanced Public Speaking         |
| COMS | 325 | Legal Argumentation              |
| COMS | 360 | Communication and the Sexes      |
| COMS | 420 | Language and Symbolic Processes  |
| COMS | 428 | Freedom of Speech                |
| COMS | 443 | Rhetoric in Business             |
| COMS | 446 | Rhetoric of Crime and Punishment |
| COMS | 454 | Communication and Technology     |

|  |            |
|--|------------|
| <b>Total Units in the Major</b>                  | <b>45</b>  |
| <b>General Education Units</b>                   | <b>48</b>  |
| <b>Additional Units</b>                          | <b>27</b>  |
| <b>Total Units Required for the B.A. Degree:</b> | <b>120</b> |

**Special Option (42 units)**

The requirements for a Communication Studies major, Special Option are:

1. A statement of the objectives of the proposed program;
2. At least 42 semester units of which 33 semester units are Upper Division;
3. More total units in Communication Studies and more Upper Division units in Communication Studies than in any other discipline; and
4. The evaluation and approval of the proposed program by the Department Chair and the Undergraduate Studies Committee. The students may develop the proposed option by consulting with a Department faculty member. Students must submit proposed option before earning 95 units.

**Requirements for the Master of Arts Degree**

University standards for admission to graduate study will normally be a determining factor in granting a student Classified status in the program. Department admission requirements are higher than University criteria. Students with limited background in Communication Studies may be admitted on a Conditionally Classified basis until preparatory undergraduate course work (to be determined in consultation with the Graduate Coordinator) has been completed. Any student who is admitted to the graduate program on a Conditionally Classified basis is required to meet all conditions for fully Classified status by the end of the student's first semester of enrollment in the graduate program.

**For The Degree**

A minimum of 33 units of approved graduate work comprised of the following:

**Core Requirements (6 units)**

|          |  |
|----------|--|
| COMS 600 | Core Seminar in Communication Studies (3)          |
| COMS 601 | Core Seminar in Communication Research Methods (3) |

**Area Requirements (9 units)****Performance, Language and Cultural Studies (3 units)****Select 1 of the following courses:**

|          |  |
|----------|--|
| COMS 603 | Seminar in Performance Studies (3)         |
| COMS 604 | Seminar in Textual Studies (3)             |
| COMS 620 | Seminar in Communication and Language (3)  |
| COMS 635 | Feminist Perspectives in Communication (3) |
| COMS 656 | Seminar in Intercultural Communication (3) |

**Rhetorical Studies (3 units)****Select 1 of the following courses:**

|          |                                      |
|----------|--------------------------------------|
| COMS 631 | Studies in Classical Rhetoric (3)    |
| COMS 632 | Studies in Contemporary Rhetoric (3) |
| COMS 633 | Studies in Postmodern Rhetoric (3)   |
| COMS 634 | Applied Rhetorical Studies (3)       |

**Communication Theory (3 units)****Select 1 of the following courses:**

|          |  |
|----------|--|
| COMS 650 | Seminar in Communication Theory (3)        |
| COMS 651 | Seminar in Interpersonal Communication (3) |
| COMS 652 | Seminar in Group Communication (3)         |
| COMS 653 | Organizational Communication Research (3)  |
| COMS 654 | Communication and Technology (3)           |

**Electives (12-15 units)**

Elective course work may be selected from 400-, 500- and 600-level courses in Communication Studies and related disciplines. At least 9 of these elective units must come from 600-level courses in Communication Studies. (Thesis or Graduate Project candidate: 12 elective units; Comprehensive Examination candidate: 15 elective units).

**Required Culminating Experience (3-6 units)**

|          |  |
|----------|--|
| COMS 697 | Directed Comprehensive Studies (3)     |
| COMS 698 | Thesis or Graduate Project (3-3 units) |

### Thesis

- a. A thesis prospectus;
- b. An acceptable thesis; and
- c. An oral examination on the thesis.

or

### Graduate Project

- a. A graduate project prospectus;
- b. An acceptable written report of the candidate's application of communication theory and principles to a practical or career problem; and
- c. An oral examination on the written report.

or

### Directed Comprehensive Studies

- a. A successful completion of a written examination covering the breadth of the student's program; and
- b. An oral examination on the comprehensive exam.

## Course List

### COMS 104/L. Literature in Performance and Lab (2/1)

*Corequisite: COMS 104L.* Introduction to principles, techniques and practices in solo performance of poetry, fiction and drama. (Available for General Education, Arts and Humanities.)

### COMS 150. Introduction to Communication Studies (3)

An introduction to Communication Studies with an emphasis on the history of the field and the various theories, contexts and perspectives that inform the study of human communication. (Available for General Education, Lifelong Learning.)

### COMS 151/L. Fundamentals of Public Speaking and Lab (2/1)

*Prerequisite: EPT score of 151 or better. Corequisite: COMS 151L.* Introduction to the study of the human communication process, with an emphasis on effective public communication. Includes intensive practice in public speaking, reasoning and critical listening. 15 hours of communication experience outside the class are required. (Cross listed with CHS and PAS 151) (Available for General Education, Oral Communication.) (IC)

### COMS 195. Forensics (1-1-1-1)

Supervised activity in competitive intercollegiate forensics.

### COMS 198. Speaker's Bureau (1-1-1-1)

Supervised activity in the various forms of speech communication. Observation and experience in speaking to community and college groups.

### COMS 199. Performance Ensemble (1)

Supervised activity in group performance of literature. Participation in theatre programs before campus audiences. Course is repeatable for a maximum of three completions of credit.

### COMS 225/L. Argumentation and Lab (2/1)

*Prerequisite: EPT score of 151 or better. Corequisite: 225L.* Studies of the strategies used for rhetorical argument. Emphasis is given to ways of finding issues, using evidence and detecting fallacies in rhetorical communications. Practice is given in the formulation and critical analysis of argument in rhetorical communications. 15 hours of communication experience outside of class are required. (Available for General Education, Critical Thinking)

## Upper Division

### COMS 301. Performance, Language and Cultural Studies (3)

Study of the complex relationships among culture, language and performance in communication. Examination of theory, behavior, practice and criticism from aesthetic and sociocultural perspectives, with emphasis on contemporary research in language, culture and performance studies.

### COMS 303. Narrative in Performance (3)

*Prerequisite: COMS 301.* Theory and practice in performing narrative fiction and nonfiction. Analysis of the role of narrative in the communicative life of the individual and society. Solo and group performances.

### COMS 304. Poetry in Performance (3)

*Prerequisite: COMS 301.* Theory and practice in performing poetry. Analysis of the role of poetry and poetic language in the communicative life of the individual and society. Solo and group performances.

### COMS 305. Children's Literature in Performance (3)

Principles, techniques and practice in performing children's literature, including choral reading and storytelling. Not allowed for credit in the Communication Studies major.

### COMS 309. Advanced Public Speaking (3)

*Prerequisite: COMS 151/L or 225L.* Application of the principles of audience analysis to the preparation, presentation and evaluation of persuasive messages. (Available for General Education, Oral Communication.) (IC)

### COMS 320. Communicative Functions of Language (3)

*Prerequisite: COMS 351.* Study of the form and structure of the language of persuasive discourse, including semantics, syntax, usage, lexicography and style.

### COMS 321. Rhetorical Discourse (3)

*Prerequisites: COMS 151/L or 225/L; Completion of the Lower Division writing requirement.* Study of the language and principles of human communication through the production, analysis and evaluation of rhetorical messages. Satisfies the teacher credential program requirement for competence in writing.

### COMS 323. Group Communication (3)

*Prerequisite: Completion of the Lower Division writing requirement.* Principles and methods of small group communication. Development of individual and group skills through application of theory to practice. Emphasis is on intra-group behavior. (Available for General Education, Lifelong Learning.) (IC)

### COMS 325. Legal Argumentation (3)

Study of courtroom argument, with emphasis on issues, evidence, forms of argument and language in lawyers' pleadings and judicial opinions.

### COMS 327. Rhetorical Theory (3)

Theories of rhetoric from classical Greece and Rome to the present. Critical methodologies inherent in rhetorical theories of each period are applied to typical examples of public discourse of that period.

### COMS 350. Nonverbal Communication (3)

*Prerequisite: COMS 351.* Discussion and examination of nonverbal communication and its effects upon the individual's attitudes and verbal communication.

### COMS 351. Communication Theory (3)

Survey of multiple theoretical perspectives on the study of human communication. Examination of the relationships among communication theory and other areas of study within the field of communication studies.

**COMS 356. Intercultural Communication (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Cultural factors in interpersonal communication, such as perception, roles, language codes and nonverbal communication. Students will apply and evaluate theories of intercultural communication. (Available for General Education, Comparative Cultural Studies.) (IC)

**COMS 360. Communication and the Sexes (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. An examination of the communication styles of males and females in a variety of settings. Emphasis is given to gender-related communication behavior and its implications for the ability to maintain effective personal and professional relationships. Strategies for fostering communication competence will be discussed. (Available for General Education, Lifelong Learning.) (IC)

**COMS 400ABC. Directing Oral Performance (1-3)**

*Prerequisites:* Available only to Upper Division students who have completed a minimum of two units of any of the following: COMS 195, 198 or 199; Consent of instructor. Faculty-supervised students direct other students' oral performances. May be taken for a maximum of 6 units.

**COMS 401. Performance and Social Change (3)**

*Prerequisite:* COMS 301. Examination and application of contemporary theories of performance as a means of change in individual and communal life. Students employ performance methodologies to examine complexities of various communication contexts and situations and enact various strategies for working through these complexities. Available for graduate credit.

**COMS 404. Theories of Interpretation (3)**

*Prerequisite:* COMS 301. Examination of psychological, social, cultural, literary and hermeneutic theories of interpretation, with an emphasis on the interaction of text, context and audience. Available for graduate credit.

**COMS 410. Community-Based Performance. (3)**

This course examines a central premise in communication and performance studies that performance is integral to individual, communal and cultural processes, practices and institutions. Students will develop performances in collaboration with particular communities that express that community's identity, experiences, issues and goals. We will employ theories and methods of performance that foster cultivating and sustaining dialogue within and with a community. Through participatory fieldwork, storytelling and performance ethnography, students will get a foundational sense of community building, communicative practices, performance ethnography and the performance of culture. Available for graduate credit.

**COMS 420. Language and Symbolic Processes (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of the structural, psychological and semantic facets of language and their implications for the study of rhetorical communication. Regular written assignments will be required. Available for graduate credit. (Available for Section C of the Multicultural Requirement for Credential Candidates.)

**COMS 425. Theories of Argument and Deliberation (3)**

*Prerequisite:* COMS 327. Exploration of theories of argument and their application to decision making. Available for graduate credit.

**COMS 428. Freedom of Speech (3)**

Exploration of freedom of speech in American society. Emphasis given to a communication studies approach to issues in freedom of speech. Focus on contemporary problems of free speech in the U.S., including sedition, obscenity, advocacy of illegal action, libel, words of provocation, copyright, academic freedom and national security. Available for graduate credit.

**COMS 430. Rhetorical Criticism (3)**

*Prerequisite:* Completion of Lower Division writing requirement. Instruction in the methods and applications of rhetorical criticism, focusing upon the analysis and evaluation of rhetorical discourse. Regular written assignments are required. Available for graduate credit.

**COMS 431. Persuasion (3)**

*Prerequisite:* COMS 351. Logical and psychological principles used by writers and speakers to effect social control. Analysis and evaluation of recent research in attitude modification. Available for graduate credit.

**COMS 435. Rhetoric of Women (3)**

*Prerequisites:* COMS 327; Completion of the Lower Division writing requirement. Analysis and evaluation of the rhetoric of women involved in political, social and economic reforms. Regular written assignments are required. Available for graduate credit.

**COMS 437. Communication for Youth Institute (3-3)**

*Prerequisites:* COMS 151/L; Prior approval of the CYI Program Coordinator. Instruction is provided in communication education. Faculty-supervised students will teach communication skills to area youth in a community service-learning program. Students work closely with the instructor in course preparation, delivery of course content, oral and written assignment evaluation, and curricular assessment. Available for graduate credit.

**COMS 440. Performance and Cultural Studies Criticism (3)**

*Recommended Preparatory:* COMS 301. This course is an introduction to the critical methods in performance studies and cultural studies. It provides instruction on critical interpretation and analysis, as well as specific methods used in performance studies and cultural studies. Available for graduate credit.

**COMS 442. Rhetoric of Peace and Conflict (3)**

*Prerequisites:* COMS 327; Completion of the Lower Division writing requirement. Exploration of the rhetorical implications of conflict and struggle as performed in subcultural, national and international contexts. Regular written assignments are required. Available for graduate credit.

**COMS 443. Rhetoric of Business (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Critical analysis of the rhetoric used in executive speaking, advertising and labor negotiations. Regular written assignments are required. Available for graduate credit.

**COMS 444. Political Rhetoric (3)**

*Prerequisites:* COMS 327; Completion of the Lower Division writing requirement. Study of rhetoric of recent U.S. political campaigns, both local and national, including persuasive techniques, ethical considerations and effectiveness. Practice in planning and developing rhetorical messages for political campaigns. Regular written assignments are required. Available for graduate credit.

**COMS 445. Communication and Popular Cultures (3)**

*Prerequisite:* COMS 301. A survey of theories of contemporary popular cultural forms as human communicative behavior. Students will learn to utilize theories of rhetoric, performance and critical/cultural studies to analyze popular cultural artifacts as symbolic forms. Regular written assignments are required. Available for graduate credit.

**COMS 446. Rhetoric of Crime and Punishment (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of rhetoric of crime, criminal procedure, punishment and justice in different societies and cultures. Regular written assignments are required. Available for graduate credit.

**COMS 448 Rhetoric of Extraordinary Claim (3)**

*Prerequisites:* COMS 327; Completion of the Lower Division writing requirement. Examination of rhetorical strategies used to advance extraordinary claims and of rhetorical methods of analysis that may be used to identify irrational appeals. Specific consideration of rhetorical discourse dealing with the paranormal, pseudoscience, cryptozoology and conspiracy theories. Regular written assignments are required. Available for graduate credit.

**COMS 450. Communication Research Methodology (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Examination of the strategy and methodology of contemporary research in communication. Emphasis is on scientific process, the derivation and verification of hypotheses in communication and persuasion, and basic communication research design. Regular written assignments are required.

**COMS 451. Interpersonal Communication (3)**

*Prerequisite:* COMS 351. Explorations of the face-to-face reciprocal transactions that occur in everyday communication. Emphasis is given to the study of recent research findings and their application to business and personal situations.

**COMS 452. Communication Training and Development (3)**

*Recommended Preparatory:* COMS 351, 450. This course is an examination and analysis of the processes and challenges of communication training and development. Through discussion and fieldwork, students explore applications of communication theory and learn how to conduct organizational culture audits and communication competency assessments through observations, evaluations, analyses, interviews, focus groups and surveys of employees and other key audiences whose input and support is needed to improve communication. Students will write audit/assessment reports, and design, deliver and evaluate customized communication training packages and programs for a variety of organizational settings.

**COMS 453. Organizational Communication (3)**

*Prerequisite:* COMS 351. Application of the principles of human communication in the formal organizational setting, including communication channels, networks, climate and relationships.

**COMS 454. Communication and Technology (3)**

Study of the impact of new communication technologies on communication and culture. Information technologies are examined from both theoretical and practical perspectives.

**COMS 495. Internship in Organizational Communication (3-3)**

*Prerequisite:* COMS 453. Upon prior approval by the Program Coordinator, a student may earn up to 3 units credit per semester and up to 6 units total for practical experience in public or private formal organizations in dealing with communication problems and concerns. Academic Internship course. (Credit/No Credit only)

**COMS 496A-Z. Experimental Topics Courses in Communication Studies (3)**

Experimental courses in Communication Studies with course content to be determined.

**COMS 497. Supervised Projects in Communication Studies**

(1-1-1-1)

Introduction to rhetorical research and writing through supervised projects and field study. Academic Internship course.

**COMS 499A-C. Independent Study (1-3)****COMS 499X-Z. Independent Study (1-3)****Graduate****COMS 600. Core Seminar in Communication (3)**

Introduction to graduate study in communication theory, rhetorical theory, performance, language and cultural studies.

**COMS 601. Core Seminar in Communication Research Methods (3)**

This course is an introduction to the epistemological assumptions, design and methods of analysis in communication research. It provides a broad overview of humanistic, social scientific, rhetorical and critical approaches to studying communication.

**COMS 603. Seminar in Performance Studies (3)**

Study of performance as communication. Examination of theory, practice and criticism from aesthetic and sociocultural perspectives, with emphasis on contemporary research in performance, language and cultural studies.

**COMS 604. Seminar in Textual Studies (3)**

Study of performance implications of varying critical approaches to text.

**COMS 610. Current Research in Performance Studies (3-3)**

*Corequisite:* COMS 600. Advanced study of new and current developments in performance studies. May be repeated once for credit.

**COMS 620. Seminar in Communication and Language (3)**

Study of contemporary theories of language and linguistics as applied to principles of communication. Emphasis on language and social interaction, linguistic pragmatics and systems of symbolic representation.

**COMS 631. Studies in Classical Rhetoric (3)**

Advanced study in rhetorical theory, from ancient Greece through the Renaissance.

**COMS 632. Studies in Contemporary Rhetoric (3)**

Advanced study in contemporary rhetorical theory.

**COMS 633. Studies in Postmodern Rhetoric (3)**

Advanced study in postmodern rhetorical theory

**COMS 634. Applied Rhetorical Studies (3)**

Advanced study of the application of rhetorical theories to situated discourse. Topics include rhetorical criticism, argumentation analysis and/or the application of critical and social theory.

**COMS 635. Feminist Perspectives on Communication (3)**

Study of contemporary feminist theories applied to communication research.

**COMS 640. Current Research in Rhetorical Studies (3-3)**

*Corequisite:* COMS 600. Advanced study of new and current developments in Rhetorical Studies. May be repeated once for credit.

**COMS 650. Seminar in Communication Theory (3)**

Study of historical and contemporary trends in theory and research on communication and communication processes.

**COMS 651. Seminar in Interpersonal Communication (3)**

Study of advanced principles of communication as applied to interpersonal communication theory. Special emphasis on research in the area of interpersonal communication.

**COMS 652. Seminar in Group Communication (3)**

Study of advanced principles of communication as applied to small-group communication theory and research.

**COMS 653. Seminar in Organizational Communication Research (3)**

Study of advanced principles of communication as applied to the organizational setting, with special emphasis on research in organizational communication.

**COMS 654. Seminar in Communication and Technology (3)**

Advanced study of the principles of communication technology, with emphasis on theory and research.

**COMS 656. Seminar in Intercultural Communication (3)**

Study of advanced principles of communication as applied to intercultural communication. Special emphasis on research in the area of intercultural communication. (IC)

**COMS 660. Current Research in Communication Theory (3-3)**

*Corequisite: COMS 600.* Advanced study of new and current developments in communication theory. May be repeated once for credit.

**COMS 680. Communication Education (3)**

*Prerequisite: Available to graduate and Upper Division undergraduate students.* Exploration of the communication dimensions of adult education and critical pedagogy. Application of theory in a wide range of instructional settings, including teaching college and university classrooms, training in non-profit and for-profit business environments and facilitating educational programs for community organizations.

**COMS 695A-Z. Experimental Topics Courses (1-3)****COMS 696. Directed Graduate Research (3)**

Application of knowledge to a project in a practical setting or in preparation for the completion of a thesis.

**COMS 697. Directed Comprehensive Studies (1-3)**

Enrollment is required in the semester in which the comprehensive examination is taken.

**COMS 698: Thesis or Graduate Project (6)**

*Prerequisites: COMS 601; Classified graduate status; Consent of Graduate Coordinator.* Open by special permission to students electing to do a thesis or graduate project in partial fulfillment of the requirements for the Master of Arts Degree.

**COMS 699. Independent Study (1-6)**

### Staff

Lauren Julian (Office Manager), Sioneh Keshishian

### Faculty

Jack Alanen, Prasanta Barkataki, Michael Barnes, Richard Covington, Steven Fitzgerald, Peter Gabrovsky, Robert Lingard, Richard Lorentz, Robert McIlhenny, Gloria Melara, Ani Nahapetian, John Noga, Son Pham, Diane Schwartz, Steven Stepanek, Ginter Trybus, George (Taehyung) Wang, Jeff Wiegley, Bahram Zartoshty

### Emeritus Faculty

Philip Gilbert, Ruth Horgan, Larry Lichten, Dorothy Miller, John Motil, David Salomon

### Programs

Undergraduate:

- B.S., Computer Science**
- B.S., Computer Information Technology**
- Minor in Computer Science**

Graduate:

- M.S., Computer Science**
- M.S., Software Engineering**

### The Majors

Computing technology has an impact on almost every aspect of daily life. Computer applications abound in art, business, entertainment, science, engineering and medicine. For students who think logically, enjoy solving problems and have an interest in software development, Computer Science is a good study choice.

Students develop skills in logical thinking, creative problem solving and communication. Classes often incorporate a team approach, requiring clear communication among members as they solve a problem and explain their solution to others.

Students gain both hands-on design experience and theoretical knowledge. This combination of skills provides an advantage to graduating students because of the broad range of skills possessed.

Computer Science focuses on the designing and building of software to create efficient solutions to real-world problems in such fields as robotics, networking, graphics, software engineering and security. Students frequently specialize in more than one of these fields.

Computer Information Technology is designed for students interested in professional careers involving the design of solutions to informational technology infrastructure needs for companies and organizations. Graduates of the CIT program will have an applied knowledge of such fields as web programming, system infrastructure, databases, networking, e-business, project management, data center management, security and information assurance.

Classes are generally small, with lab sessions averaging less than 25 students. Students work alongside faculty in Department labs equipped with state-of-the-art computing equipment.

Students can gain extra experience in the Student Chapter of the ACM (affiliated with the national organization), which hosts technical and social activities, as well as the Honors Co-op Program, which provides paid internships during the senior year at local companies.

### Academic Advisement

Contact the Department Office regarding undergraduate advisement. Graduate students are initially advised by the Graduate Coordinator. After the formation of their Graduate Committees, graduate students are advised by the Committee Chair.

### Educational Objectives for the Undergraduate Programs in Computer Science

Three to five years after successfully completing the computer science program, graduates will have demonstrated the ability to:

1. Solve computing problems as necessary in a professional workplace environment or in the pursuit of an advanced degree.
2. Apply current industry-accepted computing practices and new and emerging technologies in the analysis, design, implementation and verification of high-quality computer-based systems to meet organizational needs.
3. Work collaboratively as team members and communicate effectively with all stakeholders in a professional environment.
4. Maintain professional and ethical conduct while appropriately applying knowledge of the societal impacts of technology in carrying out workplace responsibilities.
5. Continually improve professional skills and knowledge to stay current in the field and attain professional advancement.

### Educational Objectives of the Undergraduate Program in Computer Information Technology

The B.S. CIT program aims to provide Information Technology graduates with the skills and knowledge to take on appropriate professional positions in information technology after graduation and grow into leadership positions or pursue research or graduate studies in the field. Specifically, the educational objectives of the Bachelor of Science in Computer Information Technology are to ensure that each graduate is able to:

1. Explain and apply appropriate information technologies and employ appropriate methodologies to help an individual or organization achieve its goals and objectives.
2. Manage the information technology resources of an individual or organization.
3. Anticipate the changing direction of information technology and evaluate and communicate the likely utility of new technologies to an individual or organization.
4. Understand (and, for some, to contribute to) the scientific, mathematical and theoretical foundations on which information technologies are built.
5. Live and work as a contributing, well-rounded member of society exhibiting intellectual breadth and lifelong intellectual curiosity required to practice IT management functions creatively, sensitively and responsibly in contemporary global and societal environments

### Student Learning Outcomes of the Undergraduate Program in Computer Science

Students who successfully complete the Bachelor of Science Program in Computer Science will be able to:

- a. Apply knowledge of computing and mathematics appropriate to the discipline.
- b. Analyze a problem and specify the computing requirements appropriate to meet desired needs.
- c. Apply knowledge of programming concepts, algorithmic principles and data abstraction to design, implement and evaluate the software necessary to solve a specified problem.
- d. Function effectively on teams to accomplish a common goal.
- e. Understand professional, ethical, legal, security and social issues and responsibilities.
- f. Communicate effectively with a range of audiences.

- g. Analyze the local and global impact of computing on individuals, organizations and society.
- h. Recognize the need for and demonstrate an ability to engage in continuing professional development.
- i. Use current techniques, skills and software development tools necessary for programming practice.
- j. Model and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
- k. Apply software engineering principles and practices in the construction of complex software systems

### Student Learning Outcomes of the Undergraduate Program in Computer Information Technology

Students graduating from the B.S. CIT program will be able to:

- a. Apply knowledge of computing and mathematics appropriate to the discipline.
- b. Analyze a problem and identify and define the computing requirements appropriate to its solution.
- c. Design, implement and evaluate a computer-based system, process, component or program to meet desired needs.
- d. Function effectively on teams to accomplish a common goal.
- e. Develop an understanding of professional, ethical, legal, security and social issues and responsibilities.
- f. Communicate effectively with a range of audiences.
- g. Analyze the local and global impact of computing on individuals, organizations and society.
- h. Recognize the need for and an ability to engage in continuing professional development.
- i. An ability to use current techniques, skills and tools necessary for computing practice.
- j. Use and apply current technical concepts and practices in the core information technologies.
- k. Identify and analyze user needs and take them into account in the selection, creation, evaluation and administration of computer-based systems.
- l. Effectively integrate IT-based solutions into the user environment.
- m. Develop an understanding of best practices and standards and their application.
- n. Assist in the creation of an effective project plan.

### Student Learning Outcomes of the Graduate Program in Computer Science

Graduates of the Master of Science in Computer Science at CSUN will be able to:

- a. Demonstrate a knowledge and competence in such fundamental areas of computer science as algorithms, design and analysis, computational theory, computer architecture and software-based systems.
- b. Demonstrate the analytic skills necessary to effectively evaluate the relative merits of software and computer systems and algorithmic approaches.
- c. Demonstrate a breadth of knowledge in a choice of application areas in computer science, including networks, artificial intelligence, graphics, human computer interfaces, databases, embedded applications and information security.
- d. Understand computer science topics (such as database management, data security, program efficiency, etc.) in a global context (ethics, privacy, human expectations, etc.)
- e. Effectively communicate in both written and oral form, especially in areas related to computer science.
- f. Work productively in team or collaborative settings to achieve common goals or purposes, including the ability to lead a team.

- g. Analyze, evaluate and synthesize research and apply theoretical ideas to practical settings.
- h. Independently continue studies in computer science throughout their life.

### Student Learning Outcomes of the Graduate Program in Software Engineering

Graduates of the Master of Science in Software Engineering will be able to:

- a. Understand software engineering concepts, techniques, practices and tools, and apply them to real problems in a variety of contexts.
- b. Define and apply a software process to large-scale real-world problems, including requirements analysis and specification, software design and implementation, verification, validation and quality assurance, and the maintenance of software.
- c. Analyze and estimate software process costs and manage software development from concept to delivery.
- d. Identify, analyze and apply software standards in software engineering practice.
- e. Analyze, assess and interpret professional codes of ethics and regulatory documents pertaining to software engineering, and understand societal issues.
- f. Generate and apply appropriate solutions to solve problems based on reasoned rationale.
- g. Work productively in a team or collaborative settings to achieve common goals or purposes, including the ability to lead a team.
- h. Analyze, evaluate and synthesize research, and apply theoretical ideas to practical settings.
- i. Effectively present ideas, designs and solutions in a logical framework in a variety of forms with proper language structure and mechanics, and produce appropriate written documentation.
- j. Recognize the need for and show an ability to deal with constantly changing technology and continuing professional development.

### Careers

A degree in computer science can lead to a career as a software engineer, designing, implementing, testing and maintaining large software systems, or a career in such specialized fields as computer graphics, computer security, robotics, expert systems, distributed systems, embedded applications, network applications and networking. The degree can lead to a career in almost any industry, including aerospace, manufacturing, banking, health, research, entertainment and education. A degree in computer information technology can lead to a career in such fields as computer system administration, database administration, website development and administration, enterprise network administration, computer system analysis, computer system planning, computer forensic analysis and IT management.

### Department Programs

The B.S. Degree in Computer Science provides a broad knowledge of computing and is designed for students who desire: (a) to pursue graduate work in computer science; and (b) to work on the development and support of software projects in a diverse range of specialized areas. The Computer Science degree consists of a pre-major followed by additional Foundation courses and a 15-unit Senior Electives package. The Core of the program covers programming languages, computer system organization, operating systems, data structures, computation theory and societal implications in computing. The Senior Electives package allows students to specialize in such fields as artificial intelligence, embedded applications, networking, gaming, graphics, software engineering and security.

The B.S. Degree in Computer Information Technology is designed for students interested in a professional career involving solving the

informational technology infrastructure needs of companies and organizations. An IT professional is able to understand computer systems and solve the computer-related problems of the people they serve. An IT professional assumes responsibility for selecting, installing and maintaining hardware and software products to meet organizational culture and needs. The Computer Information Technology degree consists of a set of Core requirements plus a Domain Emphasis Package that is effectively a minor in another field of study. The program focuses on the technology and service aspects of the industry rather than information content. Graduates of the program will have an applied knowledge of such fields as web programming, system infrastructure, databases, networking, e-business, project management, data center management, security and information assurance.

A minor in computer science calls for 22 units of study, including courses in computer architecture and assembly language, algorithms and programming, data structure and program design, computer organization, programming language concepts and advanced data structures, along with a choice of electives.

Students in the M.S. programs complete 30 units of graduate work, including 6 units involving a thesis or graduate project.

The Core of the graduate program in Computer Science comprises advanced courses in computation theory, algorithms and data structures, system architecture and software engineering. The electives may be chosen to form a concentration in an area of specialization or to provide a broadly based program of study, whichever is more consistent with the selected thesis or graduate project.

The core of the graduate program in Software Engineering comprises of a series of advanced courses in software engineering. The electives may be chosen for a list that specializes on topics related to software engineering.

### Scholarships and Awards

The College of Engineering and Computer Science administers a substantial scholarship program, dispersing more than \$60,000 each year to high-achieving engineering and computer science students. The College also administers memorial scholarships and scholarships donated by friends of the University.

Applications and information are available in January, with applications due in early March. Specific dates and further information can be obtained from the College administrative offices.

### Honors Cooperative Internship Program

The College offers an opportunity for highly qualified students to work in local industry throughout an entire calendar year. Students work full-time during the summer and half-time during the academic year. Students receive 6 units of academic credit in conjunction with this experience. The program is open to undergraduates who are nearing their senior year, have a minimum 3.0 cumulative GPA and have passed the Upper Division Writing Proficiency Exam. Graduate students who wish to participate must have a minimum 3.5 cumulative GPA. Applicants are matched to employer-supplied job descriptions and scheduled for interviews with prospective employers. The competitive nature of the program usually generates more applicants than available positions. The application period begins in early March and the period of employment is typically from July 1 through June 30.

### Bachelor of Science in Computer Science

The B.S. in Computer Science program requires a total of 120 units, including general education requirements, pre-major Core, major core and a 15-unit sequence of elective courses referred to below as the Senior Electives. A Computer Science major must complete a minimum of 18 residency units of Upper Division Computer Science courses. These must include 12 units of senior electives in addition to all other institutional residency requirements.

### Requirements for the Bachelor of Science in Computer Science

To qualify for admission into the Computer Science major program, students must first complete a pre-major program in Computer Science consisting of 7 Lower Division courses covering math, computer science and the University General Education requirements for Basic Skills.

#### Grade Requirements for Admission into the Computer Science Major Program:

1. C or better in each of the seven courses taken to satisfy the requirements of the Computer Science pre-major program; and
2. Overall GPA of 2.0 in all courses taken at CSUN.

After successfully completing all requirements for the pre-major in Computer Science (including GE Basic Skills), students may apply for admission into the Computer Science major program by completing a pre-major to major evaluation form available from the Computer Science Department office. Admission into the Computer Science major program is required prior to enrolling in Upper Division Computer Science courses.

#### Special Grade Requirements

Note: No grade lower than a C will be accepted on transfer from another institution to satisfy Computer Science requirements. Where specific grade requirements are not specified, no CSUN grade lower than a C- will be accepted for courses required in the Computer Science program.

#### 1. Lower Division Required Courses (36 units)

a. The following 7 Lower Division courses constitute the Computer Science Pre-Major program:

Two courses in General Education Basic Skills:  
Analytical Reading/Expository Writing  
Oral Communication

Note: The remaining components of GE Basic Skills are satisfied by the requirements of the Computer Science program.

|      |       |   |
|------|-------|---|
| COMP | 110/L | Introduction to Algorithms and Programming and Lab (3/1)  |
| COMP | 122/L | Computer Architecture and Assembly Language and Lab (1/1) |
| COMP | 182/L | Data Structures and Program Design and Lab (3/1)          |
| MATH | 150A  | Calculus I (5)  |
| PHIL | 230   | Introduction to Formal Logic (3)                          |

b. The following 5 Lower Division courses are part of the requirements of the Computer Science Major program. Prior to enrolling in these courses, students must complete all of the Computer Science Pre-Major requirements listed above. Computer Science Pre-Major students may not enroll in the following courses without the consent of the instructor.

|      |       |  |
|------|-------|--|
| COMP | 222   | Computer Organization (3)                              |
| COMP | 256/L | Discrete Structures for Computer Science and Lab (3/1) |
| COMP | 282   | Advanced Data Structures (3)                           |
| MATH | 150B  | Calculus II (5)  |
| MATH | 262   | Introduction to Linear Algebra (3)                     |

#### 2. Lower Division Electives (12-14 units)

##### Select 1 of the following science sequences (8-10 units)

|      |                             |
|------|-----------------------------|
| PHYS | 220A/L, 220B/L (3/1), (3/1) |
| BIOL | 106/L, 107/L (3/1), (3/1)   |
| CHEM | 101/L, 102/L (4/1), (4/1)   |

Note: BIOL 107/L has a recommended prerequisite of CHEM 101/L.

**Select an additional science course with corresponding lab outside of the sequence selected above (4-5 units)**

|      |                     |
|------|---------------------|
| BIOL | 106/L (3/1)         |
| CHEM | 101/L (4/1)         |
| GEOG | 101/102 (Lab) (3/1) |
| GEOG | 103/105 (Lab) (3/1) |
| GEOL | 101/102 (Lab) (3/1) |
| GEOL | 110/112 (Lab) (3/1) |
| PHYS | 220A/L (3/1)        |

**3. Upper Division Required Courses (24 units)**

Before taking Upper Division courses in Computer Science, students must be admitted to the Computer Science major/minor programs or the Computer Engineering major program.

Note: All students must attempt the Upper Division Writing Proficiency Exam prior to enrolling in any 400-level Computer Science course. The Upper Division Writing Proficiency Exam must be passed prior to enrolling in COMP 490/L.

|      |       |   |
|------|-------|---|
| COMP | 310   | Automata, Languages and Computation (3)                                 |
| COMP | 322/L | Introduction to Operating Systems and System Architecture and Lab (3/1) |
| COMP | 333   | Concepts of Programming Languages (3)                                   |
| COMP | 380/L | Introduction to Software Engineering and Lab (2/1)                      |
| COMP | 490/L | Senior Design Project and Lab (3/1)                                     |
| COMP | 491L  | Senior Project Lab (1)  |
| MATH | 341   | Applied Statistics I (3)  |
| MATH | 482   | Combinatorial Algorithms (3)  |

**4. Upper Division Electives (15 units)**

Computer Science majors are required to take 15 units of Senior Electives. The Senior Electives must consist of 15 units of 400- or 500-level courses in computer science (not COMP 450, 480/L, 490/L, 491L, 494 or 499). The electives may include MATH 481A (Numerical Analysis) as 3 of the 15 units.

Requests for taking a 400- or 500-level course as a Senior Elective that does not meet the requirements stated above must be approved by the student's faculty advisor and by the Department Chair prior to enrollment in the course.

It is strongly recommended that students discuss their career goals with an advisor prior to selecting their Senior Electives. The advisor will suggest appropriate courses for the student to consider.

General Education: Computer Science majors follow a modified General Education program depending upon the year they enter the program and their enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs. The requirements for students entering in Fall 2006 or later under the new GE Plan are described here.

Computer Science students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Social Sciences (6 units); Arts and Humanities (6 units); Comparative Cultural Studies (6 units); and U.S. Government and History (6 units). 9 units of the GE requirements must be Upper Division (300-plus) courses that are certified as writing intensive. Two GE courses must meet the Information Competence requirement. All other GE requirements are met through completion of courses in the major.

|   |              |
|---|--------------|
| <b>Total Units in the Pre Major and Major</b> | <b>87-89</b> |
| <b>General Education Units</b>                | <b>30</b>    |
| <b>Additional Units</b>                       | <b>1-3</b>   |
| <b>Total Units Required for a B.S. Degree</b> | <b>120</b>   |

**Requirements for the Bachelor of Science in Computer Information Technology**

The B.S. in Computer Information Technology program requires a total of 120 units, including General Education requirements, major Core and a 15-unit sequence of elective courses referred to below as the Domain Emphasis Package. To graduate, a student must complete a minimum of 18 residency units from the list of Upper Division Required Courses listed below in addition to all other institutional residency requirements.

**Special Grade Requirements**

No grade lower than a C will be accepted on transfer from another institution to satisfy the graduation requirements in Information Technology. Where specific grade requirements are not specified, no CSUN grade lower than a C- will be accepted for courses required in the B.S. CIT program.

**1. Lower Division Required Courses (24 units)**

|      |       |   |
|------|-------|---|
| CIT  | 101/L | CIT Fundamentals (2/1)                                    |
| CIT  | 160/L | Internet Technologies (2/1)                               |
| CIT  | 210/L | Implementation and Management of Operating Systems (3/1)  |
| CIT  | 270/L | Integrative Programming (3/1)                             |
| COMP | 110/L | Introduction to Algorithms and Programming with Lab (3/1) |
| COMP | 122/L | Computer Architecture and Assembly Language and Lab (1/1) |
| COMP | 182/L | Data Structures and Program Design and Lab (3/1)          |

**2. Lower Division Electives (14-19 units)**

**Select 1 of the following math courses (3-5 units)**

|      |      |                                       |
|------|------|---------------------------------------|
| MATH | 103  | Mathematical Methods for Business (3) |
| MATH | 150A | Calculus I (5)                        |
| MATH | 255A | Calculus for the Life Sciences I (3)  |

**Select 1 of the following statistics courses (3-4 units)**

|      |     |                               |
|------|-----|-------------------------------|
| SOM  | 120 | Basic Business Statistics (3) |
| MATH | 140 | Introductory Statistics (4)   |

**Select 1 of the following science sequences (8-10 units)**

1. BIOL 106/L Biological Principles I and Lab (3/1); and BIOL 107/L Biological Principles II and Lab (3/1)
2. CHEM 101/L General Chemistry I and Lab (4/1); and CHEM 102/L General Chemistry II and Lab (4/1)
3. GEOL 101 and 102 Geology of Planet Earth and Lab (3/1); and GEOL 110 and 112 Earth History and Lab (3/1)
4. GEOG 101 & 102 Physical Environment and Lab (3/1); and GEOG 103 & 105 Weather and Lab (3/1)
5. PHYS 100A/L General Physics I and Lab (3/1); and ASTR 152/L Elementary Astronomy and Lab (3/1)
6. PHYS 220A/L Mechanics and Lab (3/1); and PHYS 220B/L Electricity and Magnetism and Lab (3/1)

**3. Upper Division Required Courses (33 units)**

|      |       |   |
|------|-------|---|
| CIT  | 360   | CIT System Management (3)                       |
| CIT  | 480/L | CIT System Design and Implementation I (2/1)    |
| CIT  | 481/L | CIT System Design and Implementation II (2/1)   |
| COMP | 424   | Computer System Security (3)                    |
| COMP | 484/L | Web Engineering I (2/1)                         |
| COMP | 485   | Human Computer Interactions (3)                 |
| IS   | 312   | Information Systems for Business (3)            |
| IS   | 431   | System Analysis and Design (3)                  |
| IS   | 435   | Business Data Communications and Networking (3) |
| IS   | 441   | Database Management Systems (3)                 |
| IS   | 451   | Systems Development Project (3)                 |

**4. Domain Emphasis Package (15-18 units)**

Computer Information Technology has applications in nearly all areas human endeavor. A major objective of the B.S. CIT program is to prepare graduates to work effectively with people from other domains. To this end, students in the BS CIT program are required to engage in deeper studies of an application domain other than computing that uses computing in a substantive way.

This requirement can be satisfied by completion of 1 of the following:

- Completion of an appropriate minor at CSUN that does not include courses offered by the Department of Computer Science or the College of Business and Economics. The intent of the minor is to focus studies in a domain in which the graduate plans to start their career. Students interested in focusing their studies on business are advised to explore the Information Systems degree options offered by the Department of Accounting and Information Systems. A minor must consist of at least 18 units, but some requirements in a minor might also be applied toward meeting General Education requirements.
- Completion of a cohesive set of classes, called the Domain Emphasis Package, determined through consultation with the student's faculty advisor and requiring approval by the Department Chair prior to enrollment in any course contained in the package. This package should focus on a specific domain in which the graduate plans to start his/her career. Such a package shall consist of 15 units, with no more than 6 units of Lower Division classes chosen strategically to meet the prerequisites of the other classes also included in the package. The package cannot contain courses offered by the Department of Computer Science or the College of Business and Economics. By the time COMP 110/L is completed, B.S. CIT majors must meet with a faculty advisor to determine the classes in a customized domain emphasis package or to select a minor to fulfill the Domain Emphasis requirement.

**General Education**

B.S. CIT majors follow a modified General Education program, depending upon the year they enter the program and their enrollment status as a college student. Returning and transfer students should consult an academic advisor before planning their general education programs. B.S. CIT students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Social Sciences (6 units); Arts and Humanities (6 units); Comparative Cultural Studies (6 units); and U.S. Government and History (6 units). 9 units of the G.E. requirements must be Upper Division (300-plus) courses that are certified as writing intensive. Two GE courses must meet the Information Competence requirement. All other GE requirements are met through completion of courses in the major. All students should discuss Plan R requirements and plan class schedules with his/her academic advisor.

|   |              |

**Minor in Computer Science**

Students who wish to get a minor in Computer Science must seek advice from a Department advisor and get their minor program approved by the Department Chair before they begin taking any of the 200-, 300- or 400-level elective courses. There are many prerequisites in the minor and students need to choose course sequences for which they have or will have the prerequisites or receive the consent of the instructor. With the approval of the Department Chair, students may substitute an additional 3-unit 300-, 400- or 500-level Computer Science course for COMP 122/L.

**1. Minor Core\* (10 units)**

|      |       |   |
|------|-------|---|
| COMP | 110/L | Introduction to Algorithms and Programming and Lab (3/1)  |
| COMP | 122/L | Computer Architecture and Assembly Language and Lab (1/1) |
| COMP | 182/L | Data Structures and Program Design and Lab (3/1)          |

**2. Select 1 course (3 units)**

|      |       |                                       |
|------|-------|---------------------------------------|
| COMP | 222   | Computer Organization (3)             |
| COMP | 270/L | Business Programming (2/1)            |
| COMP | 282   | Advanced Data Structures (3)          |
| COMP | 333   | Concepts of Programming Languages (3) |

**3. Select 1e course (3-4 units)**

|      |       |   |
|------|-------|---|
| COMP | 310** | Automata, Languages and Computation (3)                         |
| COMP | 322/L | Introduction to Operating Systems and System Arch and Lab (3/1) |
| COMP | 380/L | Introduction to Software Engineering (2/1)                      |

**4. Upper Division Computer Science Courses (6 units)**

Select any two Upper Division (300-, 400- or 500-level) Computer Science courses for which the prerequisites or consent of the instructor is met. Students may select a 300-level course from COMP 310, 333, 380/L or 322/L if it was not used to meet the 300-level elective requirement above.

*\*MATH 102, 104, 150A are corequisites for courses in the minor Core.*

*\*\*COMP 310 has prerequisites of PHIL 230 and MATH 326.*

|                                 |              |

**Master of Science Degree**

Students in the M.S. program in either Computer Science or Software Engineering complete 30 units of graduate work, including 6 units involving a thesis or graduate project.

The Core of the graduate program in Computer Science comprises advanced courses in computation theory, algorithms and data structures, system architecture, and software engineering.

The Core of the graduate program in Software Engineering comprises advanced courses in software engineering processes, including requirements analysis, software design and implementation, verification and validation, quality assurance, software maintenance and software project management.

The electives in either program may be chosen to form a concentration in an area of specialization or to provide a broadly based program of study, whichever is more consistent with the selected thesis or graduate project.

**Requirements for the Master of Science Degree In Computer Science**

Students in the Computer Science M.S. program complete 30 units of graduate work, including a 6-unit thesis or graduate project.

**Requirements for Admission**

For admission to the Master of Science Program in Computer Science, applicants must meet the requirements of the University as listed in the Catalog, take the Graduate Record Examination (GRE) and submit the results to the University, and be accepted to the program by the Computer Science Department. Each applicant's transcripts and GRE scores will be reviewed by the Computer Science Department to determine if the student shows high promise of success in the program. Applicants who have completed an ABET-accredited Computer Science Bachelor of Science program and have meet all other entry requirements are exempt from the GRE requirement.

To attain fully Classified graduate status in the program, students must complete any required prerequisite undergraduate material, pass the Upper Division Writing Proficiency Exam and have a 3.0 GPA for all work taken as a Conditionally Classified Student. Information about the prerequisite material can be obtained from the Graduate Coordinator.

### Special Requirements

Each Computer Science M.S. candidate must submit a proposal for a thesis or graduate project to be done under the supervision of a faculty member. When the thesis or project is approved by that faculty member, the Graduate Coordinator and the Department Chair, the proposal becomes a contract between the student and the Department as to the work to be done for the thesis or graduate project. A three-member Project/Thesis Committee is formed with that faculty member as its chair. When the work is done, the student must prepare a report and defend or present the results of the thesis or graduate project before the committee. The report and presentation must be approved by the student's Project/Thesis Committee.

All courses in the student's graduate program must be completed with a grade of C or better. No course taken more than 7 years prior to the date of which all requirements for the degree are completed may be counted as part of the 30 units in the degree program. No time limit applies to courses taken to satisfy Computer Science M.S. prerequisite requirements.

#### 1. Required Courses (15 units)

##### a. Breadth Requirement

Select three of the following four areas of study and complete one course from each of those three areas. The areas of study and the courses available for selection in each area are shown below:

##### Algorithms:

COMP 610 Data Structures and Algorithms (3)

##### Systems:

COMP 620 Computer System Architecture (3)

##### Software Engineering:

COMP 680 Software Engineering (3)

##### Foundations:

COMP 615 Advanced Topics in Computation Theory (3)

COMP 630 Formal Semantics of Programming Languages (3)

##### b. Project/Thesis (6 units)

COMP 696 Directed Graduate Research (3)

COMP 698 Thesis or Graduate Project (3)

#### 2. Electives (15 units)

Computer Science courses at the 400-, 500- or 600-level (not COMP 450, 480/L, 490/L, 491L, 494, 499, 696, 698 and 699).

Requests for elective courses that do not meet the requirements stated above must be approved by the student's Thesis/Project Committee Chair, the Department Graduate Coordinator and the Department Chair prior to course enrollment. The student's Thesis/Project Committee Chair may require that specific elective courses be taken prior to enrollment in COMP 696 and COMP 698. Students should seek approval from their Committee Chair prior to enrolling in elective courses. At least 6 units must be at the 500-level or above.

|-------------------------------------|----|

### Requirements for the Master of Science Degree in Software Engineering

Students in the Software Engineering M.S. program complete 30 units of graduate work, including a 6-unit thesis or graduate group project.

### Requirements for Admission

For admission to the Master of Science Program in Software Engineering, applicants must meet the requirements of the University as listed in the Catalog, take the Graduate Record Examination (GRE) and submit the results to the University, and be accepted to the program by the Computer Science Department. Each applicant's transcripts and GRE scores will be reviewed by the Computer Science Department to determine if the student shows high promise of success in the program. Applicants who have completed an ABET-accredited Computer Science Bachelor of Science program and have met all other entry requirements are exempt from the GRE requirement.

To attain fully Classified graduate status in the program, students must complete any required prerequisite undergraduate material or demonstrate equivalent work experience, pass the Upper Division Writing Proficiency Exam and have a 3.0 GPA for all work taken as a Conditionally Classified student. Information about the prerequisite material can be obtained from the Graduate Coordinator.

### Special Requirements

Each Software Engineering M.S. candidate must submit a proposal for a thesis or, along with a group of other graduate students, submits a proposal for a group project, to be done under the supervision of a faculty member. When the thesis or group project is approved by that faculty member, the Graduate Coordinator and the Department Chair, the proposal becomes a contract between the student(s) and the Department as to the work to be done for the thesis or graduate group project. A three-member Project/Thesis Committee is formed with that faculty member as its chair. When the work is done, the student(s) must prepare a report and defend or present the results of the thesis or graduate project before the committee. In the case of a group project, each member of the group must present and defend his/her contribution to the final result. The accompanying report must clearly identify the contributions of each member of the group. Each member of the group will be evaluated separately by the committee. The report and presentation or relevant portion for each member of a group must be approved by the Project/Thesis Committee.

All courses in the student's graduate program must be completed with a grade of C or better. No course taken more than 7 years prior to the date of which all requirements for the degree are completed may be counted as part of the 30 units in the degree program. No time limit applies to courses taken to satisfy Software Engineering M.S. prerequisite requirements.

#### 1. Required Courses (12 units)

##### a. Breadth Requirement

COMP 682 Requirements Analysis and Specification (3)

COMP 684 Software Architecture and Design (3)

COMP 680 Advanced Topics in Software Engineering (3)

COMP 686 Software Engineering Management (3)

##### b. Project/thesis (6 units)

COMP 696 Directed Graduate Research (3)

COMP 698 Thesis or Graduate Project (3)

#### 2. Electives (12 units)

Select 2 courses from each of the areas shown below:

##### Software Engineering Electives:

COMP 584 Advanced Web Engineering (3)

COMP 585 Graphical User Interfaces (3)

COMP 586 Object-Oriented Software Development (3)

COMP 587 Software Verification and Validation (3)

COMP 589 Software Engineering Metrics (3)

**Other Electives:** Computer Science courses at the 400-, 500- or 600-level (not COMP 450, 480/L, 490/L, 491L, 494, 499, 696, 698 and 699).

Requests for elective courses that do not meet the requirements stated above must be approved by the student's Thesis/Project Committee Chair, the Department Graduate Coordinator and the Department Chair prior to course enrollment. The student's Thesis/Project Committee Chair may require that specific elective courses be taken prior to enrollment in COMP 696 and COMP 698. Students should seek approval from their Committee Chair prior to enrolling in elective courses.

|-------------------------------------|----|

## Computer Science Course List

### COMP 100. Computers: Their Impact and Use (3)

Not open to Computer Science majors. Introduction to the uses, concepts, techniques and terminology of computing. Places the possibilities and problems of computer use in historical, economic and social contexts. Shows how computers can assist in a wide range of personal, commercial and organizational activities. Typical computer applications, including word processing, spreadsheets and databases. (Available for General Education, Lifelong Learning.) (IC)

### COMP 101. Introduction to Algorithms (2)

Not open to students who have completed COMP 110/L. Introduction to the design, development and expression of algorithms and their stepwise refinement. Expression of algorithms in a formal language. First course in a two-course sequence, the second being a programming language lab. See COMP 105.

### COMP 105. Computer Programming (1)

*Prerequisite:* COMP 101, 110/L or 106/L. Instruction and practice in a particular computer programming language as listed below.

#### 3 hours of lab per week.

|             |                                     |
|-------------|-------------------------------------|
| COMP 105BAS | Computer Programming in BASIC (1)   |
| COMP 105C   | Computer Programming in C (1)       |
| COMP 105COB | Computer Programming in COBOL (1)   |
| COMP 105FOR | Computer Programming in FORTRAN (1) |
| COMP 105JAV | Computer Programming in JAVA (1)    |

### COMP 106/L. Computing in Engineering and Science (2/1)

*Prerequisite:* MATH 150A. *Corequisites:* COMP 106L; MATH 150B. Introduction to computing, problem solving and programming intended for science and engineering majors. Programming practice in a high-level structured language. Lab projects involve both microcomputers and mainframes. Lab: 3 hours per week. (Available for General Education, Lifelong Learning if required by student's major.)

### COMP 108. Orientation to Computer Science (3)

*Prerequisite:* Passing score on or exemption from the ELM or credit in MATH 093. Not a required course in the major. Recommended for incoming Computer Science majors with limited computing experience as well as those considering a major in Computer Science. Introduction to the Computer Science major and profession. Main focus on developing problem solving, algorithm development and programming skills, and acquiring critical thinking abilities, especially when applied to Computer Science. Additional emphasis on orientation to the University, campus resources, study skills, motivation and career awareness.

### COMP 110/L. Introduction to Algorithms and Programming (3/1)

*Prerequisites:* Grade of C or better in MATH 102, 103, 104, 105, 150A or 255A, or a passing score on the Math Placement Test (MPT) that satisfies prerequisites for MATH 150A or 255A. *Corequisites:* COMP 110L. Introduction to algorithms, their representation, design, structuring, analysis and optimization. Implementation of algorithms as structured

programs in a high level language. Lab: three hours per week. (Available for General Education, Lifelong Learning if required by student's major.)

### COMP 122/L. Computer Architecture and Assembly Language (1/1)

*Prerequisite:* Grade of C or better in COMP 110/L; Grade of C or better in MATH 103, 104, 105, 150A or 255A, or a passing score on the Math Placement Test (MPT) that satisfies prerequisites for MATH 150A or 255A; Lower Division writing requirement. *Corequisite:* COMP 122L. Introduction to computer architecture, assembly language programming, system software and computer applications. Number systems and data representation. Internal organization of a computer. Primitive instructions and operations. Assembly language. Integrated lecture/lab environment. Lab: 3 hours per week.

### COMP 182/L. Data Structures and Program Design (3)

*Prerequisites:* Grade of C or better in COMP 110/L; Grade of C or better in MATH 103, 104, 105, 150A or 255A, or a passing score on the Math Placement Test (MPT) that satisfies prerequisites for MATH 150A or 255A; Lower Division writing requirement. *Corequisite:* COMP 182L. Introduction to data structures and the algorithms that use them. Review of composite data types, such as arrays, records, strings and sets. Role of the abstract data type in program design. Definition, implementation and application of data structures, such as stacks, queues, linked lists, trees and graphs. Recursion. Use of time complexity expressions in evaluating algorithms. Comparative study of sorting and searching algorithms. Lab: 3 hours per week.

### COMP 196A-Z. Experimental Topics Courses in Computer Science (1-4)

#### COMP 222. Computer Organization (3)

*Prerequisites:* Grade of C or better in COMP 122/L and 182/L. Extension of basic addressing concepts to more advanced addressability, such as base register and self-relative addressing. Comparative computer architecture focusing on such organizations as multiple register processors and stack machines. Basics of virtual memory input-output. Introduction to the concept of microprogrammable systems. Low-level language translation process associated with assemblers. System functions such as relocatable loading and memory management. Application of data structure and hashing techniques to the above. Other related topics.

#### COMP 256/L. Discrete Structures for Computer Science (3)

*Prerequisites:* COMP 182/L; MATH 150A; PHIL 230. Study of discrete mathematical structures and proof techniques as used in computer science. Discrete structures, such as functions, relations, sets, graphs and trees. Proof techniques, such as proof by induction, proof by contradiction and proof by cases. Counting techniques. Lab: 3 hours per week.

#### COMP 270/L. Business Programming (2/1)

*Prerequisites:* Grade of C or better COMP 182/L and MATH 150A. *Corequisite:* COMP 270L. Introduction to file-based data structures, database concepts and the manipulation of database content from user-written software. Theoretical and practical concepts are covered. Lab: 3 hours per week.

#### COMP 282. Advanced Data Structures (3)

*Prerequisites:* Grade of C or better in COMP 182/L and MATH 150A. Introduction to advanced data structures (particularly persistent structures) using object-oriented design. Main memory structures, hash tables and trees. Architectural foundations for files. Large-scale sorting. Hash-based persistent structures. Indexed files. Introduction to databases.

### COMP 296A-Z. Experimental Topics Courses in Computer Science (1-4)

## Upper Division

**COMP 300. Computer Fluency (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Not open to students who have credit in COMP 100. Does not provide credit toward Computer Science major. Study of fundamental computing concepts related to: information technology, data and its digital representation, technological power, computing limitations and social impact. Survey of essential and advanced applications designed to process different forms of information other than text. Promote such computing skills as basic algorithmic thinking, debugging, logical reasoning and critical use of information. Develop capabilities for applying the technology. (Available for General Education, Lifelong Learning) (IC)

**COMP 310. Automata, Languages and Computation (3)**

*Prerequisites:* COMP 256/L, 333. Study of the relation of languages (e.g., sets of strings) and machines for processing these languages, with emphasis on classes of languages and corresponding classes of machines. Phrase structure languages and grammar. Types of grammar and classes of languages. Regular languages and finite state automata. Context-free languages and pushdown automata. Unrestricted languages and Turing Machines. Computability models of Turing, Church, Church, Markov and McCarthy. Applications to programming languages, compiler design, and program design and testing.

**COMP 322/L. Introduction to Operating Systems and System Architecture (3/1)**

*Prerequisite:* COMP 222. *Corequisite:* COMP 322/L; *Recommended Prerequisite:* COMP 105C or knowledge of "C" Language. Examination of the principal types of systems, including batch, multi-programming and time-sharing. Discusses networked system. Considers the salient problems associated with implementing systems, including interrupt of event driven systems, multitasking, storage and database management and input-output. Emphasizes some of the simple algorithms used to solve common problems encountered, such as deadlocks, queue service and multiple access to data. Projects are implemented to reinforce the lectures. One 3-hour lab per week.

**COMP 333. Concepts of Programming Languages (3)**

*Prerequisites:* COMP 122/L, 182/L. Discussion of issues in the design, implementation and use of high-level programming languages through a historical framework, including how languages reflect different design philosophies and use requirements and the technical issues in the design of main abstraction constructs of programming languages. Other approaches to imperative or object-oriented programming, functional programming, logical programming and parallel programming.

**COMP 380/L. Introduction to Software Engineering (2/1)**

*Prerequisites:* COMP 270/L or 282. *Corequisite:* COMP 380L. Concepts and techniques for systems engineering, requirements analysis, design, implementation and testing of large-scale computer systems. Principles of software engineering for production of reliable, maintainable and portable software products. Emphasis on object-oriented analysis and design techniques. Topics include unit, integration and systems testing, configuration management, software quality assurance practices and an introduction to Computer Aided Software Engineering (CASE). This is a lecture portion of a course in software engineering involving the design and partial implementation of a software system as a group project. Lab: 3 hours per week.

**COMP 396A-Z. Experimental Topics Courses in Computer Science (1-4)****COMP 410. Logic Programming (3)**

*Prerequisites:* COMP 232, 282, 310; *Attempted Upper Division Writing Proficiency Exam.* Programming techniques in the logic programming language PROLOG. Prenex conjunctive normal form and grammatical algorithms. Tableaux, sequenzen, resolution and other semi-decision pro-

cedures. Closures of relations, fixed point theory, control mechanisms, relationship to functional programming.

**COMP 420. Advanced Operating System Concepts (3)**

*Prerequisites:* COMP 322/L; *Attempted Upper Division Writing Proficiency Exam.* In-depth discussion of selected issues related to the study of operating systems. Areas of coverage may include concurrency issues, resource allocation, storage management and multiprocessor environments. Discusses underlining theory and algorithms related to the issues.

**COMP 421. The Unix Environment for Programmers (3)**

*Prerequisites:* COMP 322/L; *Attempted Upper Division Writing Proficiency Exam.* Usage of UNIX in a software development environment and rapid prototyping of large projects. Study available utilities, programming styles, efficiency issues and operating system interfaces. Gain an advanced understanding of UNIX and its use in improving programmer productivity.

**COMP 424. Computer System Security (3)**

*Prerequisites:* COMP 322/L and 380/L, or CIT 360 and IS 435; *Attempted Upper Division Writing Proficiency Exam.* Analysis of the need for computer system security and the security techniques in operating systems, databases and computer networks. Supporting techniques, such as auditing, risk analysis and cost-benefit tradeoffs, are discussed.

**COMP 426. Fault-Tolerant Software and Computing (3)**

*Prerequisites:* COMP 322/L, 380/L; *Attempted Upper Division Writing Proficiency Exam.* Examination of dependability requirements in computing and the basic principles of system-level reliability and fault-tolerance. Software-based implementation of fault-tolerance in distributed systems. Fault-tolerant software and data bases: reliability modeling, fault-tolerance techniques (e.g., recovery blocks, N-version programming) and design approaches.

**COMP 429. Computer Network Software (3)**

*Prerequisites:* COMP 322/L; *Attempted Upper Division Writing Proficiency Exam.* Basic software design and analysis considerations in networking computers into coherent, cooperating systems capable of processing computational tasks in a distributed manner. Network topology, routing procedures, message multiplexing and process scheduling techniques.

**COMP 430. Language Design and Compilers (3)**

*Prerequisites:* COMP 310, 380/L; *Attempted Upper Division Writing Proficiency Exam.* Examination of the issues involved in the design and subsequent implementation of programming languages. Considerations of implementation difficulties, including various features in a programming language. Tools and techniques to facilitate both the processing of programming languages and the building of programming processors.

**COMP 432. Object-Oriented Programming (3)**

*Prerequisites:* COMP 322/L; *Attempted Upper Division Writing Proficiency Exam.* Principles of object-oriented design and programming; object-oriented languages such as Simula, C++ and Smalltalk are compared to provide an understanding of the role of objects, methods, message passing, encapsulation, classes, inheritance and instance variables in a productive programming environment. Discusses language design and programming issues.

**COMP 440. Database Design (3)**

*Prerequisites:* COMP 380/L; *Attempted Upper Division Writing Proficiency Exam.* Database structure, including: structure definition, data models, semantics of relations and operation on data models. Database schemas, including element definition and use and manipulation of the schema. Elements of implementation. Algebra of relations on a database. Hierarchical databases. Discussion of information retrieval, reliability, protection and integrity of databases.

**COMP 450. Societal Issues in Computing (3)**

*Prerequisites:* COMP 380/L; *Upper Division Writing Proficiency Exam.* Survey course on the role of the digital computer in modern society. The dangers of the misuse of computers (as in the invasion of privacy), as well as the proper and intelligent use of the machines, are discussed. Not available for graduate credit.

**COMP 465/L. Computer Graphic Systems and Design and Lab (2/1)**

*Prerequisites:* MATH 262; *Attempted Upper Division Writing Proficiency Exam.* *Corequisite:* COMP 465L. Fundamental concepts of computer graphics. Graphics devices; graphics languages; interactive systems. Applications to art, science, engineering and business. Trade-offs between hardware devices and software support. Lab: 3 hours per week.

**COMP 467. Multimedia Systems Design (3)**

*Prerequisites:* COMP 380/L; *Attempted Upper Division Writing Proficiency Exam.* Study of fundamentals of multimedia storage, processing, communication, presentation and display by digital means with emphasis on audio, still images and video media. Includes sampling theory, compression techniques and synchronization. Discussion of hypermedia and methodology issues. Multimedia programming; software tools for authoring multimedia applications and interfaces.

**COMP 469. Introduction to Artificial Intelligence (3)**

*Prerequisites:* COMP 310, 380/L, 410; *Attempted Upper Division Writing Proficiency Exam.* Exploration of the use of computers to perform computations normally associated with intelligence. These include game playing, theorem proving, problem solving, question answering and visual perception. Topics include languages, system architectures and heuristic strategies for advanced, high-level computations. Covers computational models for knowledge representation, natural language and vision.

**COMP 480/L. Software System Development (2/1)**

*Prerequisite:* COMP 380/L. *Corequisite:* COMP 480L. Project-oriented course to allow the students to apply their knowledge to the design of a large system. Students identify a suitable computer problem, examine various methods of attacking it and choose a suitable solution in an appropriate computer language. Lab: 3 hours per week.

**COMP 484/L. Web Engineering I and Lab (2/1)**

*Prerequisites:* COMP 322/L or 380/L, or CIT 360 and IS 451; *Attempted Upper Division Writing Proficiency Exam.* *Corequisite:* COMP 484L. Internet infrastructure and the underlying networking technologies. Study of system and software architectures for web applications, e-business and e-commerce systems. Principles of website design. Advances in web-engineering technologies. Principles of web-based based transaction processing. XML and the associated technologies. Web service technology. Security and privacy issues. Study of the emerging Internet technologies. Lab: three hours per week.

**COMP 485. Human-Computer Interaction (3)**

*Prerequisites:* COMP 380/L, or CIT 360 and IS 451; *Attempted Upper Division Writing Proficiency Exam.* Examines the information exchange between humans and computer systems. Discusses aspects of input/output devices, software engineering and human factors with respect to human-computer interactions. Topics include text and graphic display; user modeling; program design, debugging, complexity and comprehension; and current research studies and methodologies.

**COMP 490/L. Senior Design Project (3/1)**

*Prerequisites:* COMP 380/L; *Upper Division Writing Proficiency Exam.* *Corequisite:* COMP 490L. Project-oriented course to allow students to apply their knowledge of software engineering to the design and implementation of a system to solve a real-world problem. Students select and specify a suitable problem, investigate design alternatives and select an ap-

propriate one, implement a solution and verify and validate the result, all as part of a team effort. The role of digital computers in modern society are investigated, including the dangers of computer misuse, as well as the proper and intelligent use of computers. Ethical concerns of software professionals are studied. Lab: 3 hours per week.

**COMP 491L. Senior Project Lab (1)**

*Prerequisite:* COMP 490/L. Project-oriented lab to allow students to complete the design, implementation and testing of the team-based software engineering project started in COMP 490/L. Lab: 3 hours per week.

**COMP 494A/B/C. Academic Internship (1-2-3)**

*Prerequisites:* *Junior standing or above in major; Upper Division Writing Proficiency Exam; Prior approval of the Department; Good standing as a matriculated student.* Academic internship training program. Supervised off-campus professional computing experience for selected computer science students. Academic internship units do not count toward General Education units or major requirements. Maximum of 6 units of enrollment is allowed. Only one enrollment per semester permitted. (Credit/No Credit only)

**COMP 496A-Z. Experimental Topics Courses in Computer Science (1-4)****COMP 499. Independent Study (1-3)****Graduate Course List****COMP 518/L. Algorithms and Data Structures (3/1)**

*Corequisite:* COMP 518L. Intensive course open only to graduate students and cannot be used to satisfy the requirement of 30 units of approved graduate work. Programming and data structures covering all of the topics of COMP 110/L and 182/L. Lab involves programming design of significant projects in a high level programming language. Lab: 3 hours per week.

**COMP 529. Advanced Network Topics (3)**

*Prerequisites:* COMP 429; MATH 340 or 341. Advanced course on design and analysis of high-speed networks (Broadband ISDN and Asynchronous Transfer Mode [ATM] networks) and their protocols. Topics include multimedia services integrating techniques, including synchronous and asynchronous transfer modes. ATM standards. ATM switch architecture, ATM network traffic control, ATM experimental networks, high-speed LAN/MANs, internetworking with high-speed networks and simulation techniques.

**COMP 541. Data Mining (3)**

*Prerequisite:* COMP 380/L. A study of the concepts, principles, techniques and applications of data mining. Topics include data preprocessing, the ChiMerge algorithm, data warehousing, OLAP technology, the Apriori algorithm for mining frequent patterns, classification methods (such as decision tree induction, Bayesian classification, neural networks, support vector machines and genetic algorithms), clustering methods (such as k-means algorithm, hierarchical clustering methods and self-organizing feature map) and data mining applications (such as Web, finance, telecommunication, biology, medicine, science and engineering). Privacy protection and information security in data mining are also discussed.

**COMP 560. Expert Systems (3)**

*Prerequisite:* COMP 469. Extensive introduction to the concepts and techniques of expert systems. Rationale for such systems, including evaluation of prospective domains. Explores existing systems, those under development and likely future areas. Basic architecture is demonstrated using both example and rule-based systems. Commercial tools for building expert systems are surveyed and evaluated. Knowledge acquisition methods. Guidelines given for planning and managing development projects.

**COMP 565. Advanced Computer Graphics (2/1)**

*Prerequisite:* COMP 322/L. This course will cover the theory, design, implementation and application of advanced computer graphics environments. Accelerated 3D graphics APIs; the modeling and simulation of light, sound, physical objects, motion and collisions; and user interaction in single- and multi-user virtual environments will be studied. The application domain for this class is interactive 3D computer games, scientific visualization and virtual reality.

**COMP 581. Open Source Software Engineering (3)**

*Prerequisite:* COMP 380/L. Introduction to open source software engineering concepts, principles and applications. Topics include history of open source software, open source software engineering models, open source products and software quality, strategies and business models, government policies toward open source software, work organization of open source software development, software and intellectual property rights, organizations of the open source community, and case studies. Different open source software products for various applications are also discussed and used for group projects.

**COMP 584. Advanced Web Engineering (3)**

*Prerequisite:* COMP 380/L. A study of the concepts, principles, techniques and methods of Web engineering. Topics include requirements engineering, modeling and architectures, design and technologies, testing, operation and maintenance, Web project management, application development process, usability, and performance and security of Web applications. Technologies, business models and strategies and societal issues of Web 2.0 and Semantic Web also are discussed.

**COMP 585. Graphical User Interfaces (3)**

*Prerequisites:* COMP 322/L, 380/L. The design, development and analysis of programs requiring graphical, direct manipulation and user interfaces (GUIs) will be examined. The majority of modern software includes a GUI. The development tools, environments and style guides for common GUIs will be used in course assignments and discussed in lecture. The course involves the design and development of several GUI programs. The aesthetic and human computer interaction aspects and future trends in GUIs design and development also will be reviewed.

**COMP 586. Object-Oriented Software Development (3)**

*Prerequisites:* COMP 322/L, 380/L. Review of object-oriented concepts. Comparison with functional methods. Benefits and pitfalls of object orientation. Fundamentals of object-oriented modeling—associations, links and states. Survey of object-oriented development methods. In-depth study of a current object-oriented method. Object-oriented software requirements analysis and modeling. Object-oriented preliminary design. Designing concurrent and multiprocessor systems. Object-oriented detailed design. Object-oriented and object-based implementations. Object-oriented testing.

**COMP 587 Software Verification and Validation (3)**

*Prerequisites:* COMP 380/L; *Passing score on the Upper Division Writing Proficiency Exam.* An in-depth study of verification and validation strategies and techniques as they apply to the development of quality software. Topics include test planning and management, testing tools, technical reviews, formal methods and the economics of software testing. The relationship of testing to other quality assurance activities as well as the integration of verification and validation into the overall software development process are also discussed.

**COMP 589 Software Metrics (3)**

*Prerequisites:* COMP 380/L; *Passing score on the Upper Division Writing Proficiency Exam.* The role of metrics and quantitative models in software development. Product metrics, process metrics, measurement models and techniques for empirical validation. Measurement and

analysis. Implementation of a metrics program. Measuring software size, complexity and functionality at different stages of software development. Use of measures to predict effort and schedule required for software projects. Measures of software quality. Analyzing defect data to predict software reliability. Performance measures. Management applications for metrics. Tools that support metrics collection, analysis, summary and presentation.

**COMP 595A-Z. Experimental Topics Courses (3)****COMP 598A-Z. Advanced Selected Topics (1-4)**

*Prerequisite:* *Instructor consent.*

**COMP 610. Data Structures and Algorithms (3)**

*Prerequisites:* COMP 310; MATH 482. Topics include design strategies for data structures and algorithms, theoretical limits to space and time requirements time/space trade offs, and open problems in the field.

**COMP 615. Advanced Topics in Computation Theory (3)**

*Prerequisites:* COMP 310; MATH 482. Languages and the theory of computation are studied in depth. Covers advanced material concerning regular and context free languages. Study of deterministic context-free languages, context sensitive languages, recursive and recursively enumerable sets. Investigation of current areas of interest.

**COMP 620. Computer System Architecture (3)**

*Prerequisites:* COMP 322/L, 380/L. Analysis and evaluation of individual computers, networks of computers and the programs that support their operation and use. Emphasis on comparison of architectures and the risks and benefits associated with various approaches and configurations.

**COMP 630. Formal Semantics of Programming Languages (3)**

*Prerequisites:* COMP 310, 380/L. Rigorous verification and formal proofs of correctness. Denotational semantics, models of axiomatic systems and fixpoint theory of computation. Soundness and completeness of programming logics. Abstract data types and other issues in the formal definition of programming languages.

**COMP 667. CAD/CAM Systems Design (3)**

*Prerequisite:* COMP 465/L. Discuss and evaluate data structures and algorithms necessary to design and implement computer systems in manufacturing environments. Existing and anticipated technology. Students will design, implement, test and evaluate CAD/CAM systems by building on standard computer graphics packages.

**COMP 680. Software Engineering (3)**

*Prerequisites:* COMP 322/L, 380/L. Examination of the critical theoretical problems underlying the specification, design, development and evaluation of large software systems and the extent to which existing techniques and methodologies cope with these problems.

**COMP 682. Software Requirements Analysis and Specification (3)**

*Prerequisite:* COMP 380/L. An in-depth study of the early phases of the software development life cycle commonly called software requirements analysis and specification. Topics include the gathering of both functional and nonfunctional requirements, customer communication, requirements prototyping, requirements modeling, requirements validation, the documentation of requirements in terms of a formal software requirements specification, and the management of software requirements.

**COMP 684. Software Architecture and Design (3)**

*Prerequisites:* COMP 380/L, 682. Techniques, methods and tools for designing, building, analyzing and evaluating the structural, architectural and behavioral properties of software systems. It includes the study of the fundamental concepts and principles of software architectural design, structured design, object-oriented design, component-level design and design for reuse.

**COMP 686. Software Engineering Management (3)**

*Prerequisites:* COMP 380/L; Upper Division Writing Proficiency Exam. Provides a framework for understanding software engineering management models, technologies, trends, tools and planning processes. Emphasizes the development of an individualized approach to managing software teams, projects and systems. The role of management as an increasingly critical factor in software engineering is examined.

**COMP 695A-Z. Experimental Topics Courses (3)****COMP 696A-C. Directed Graduate Research (1-3)**

*Prerequisite:* Permission of Project/Thesis Committee Chair. (Credit/No Credit only)

**COMP 698A-C. Thesis or Graduate Project (1-3)****COMP 699. Independent Study (1-3)**

## Computer Information Technology Course List

---

**CIT 101/L. CIT Fundamentals (2/1).**

*Corequisite:* CIT 101L. The discipline of CIT. Pervasive CIT themes; CIT history; organizational issues; relationship of CIT to other computing disciplines; application domains; application of math and statistics to CIT. Lab: three hours per week; covers installation and optimization of operating systems, system management utilities, applications, including word processing, spreadsheets and databases, virus checkers and spyware.

**CIT 160/L. Internet Technologies (2/1)**

*Corequisite:* CIT 160L. Architecture of the Internet; Internet protocols, including http, ftp, telnet; browser technologies; current developments in Internet technologies and usage characteristics; Hypertext; self descriptive text; webpage design; web site design; ADA compliance; commercialization of the Internet; role of the Internet in CIT. Lab: 3 hours per week.

**CIT 210/L. Deployment and Management of Operating Systems (3/1)**

*Prerequisites:* CIT 101/L, 122/L; Lower Division writing requirement. *Corequisite:* CIT 210L. Introduction to the basic components of CIT systems, including networking, web systems, databases, scripting, system administration and maintenance, and system integration. A deeper study of operating system principles, network architecture and resource management, including shared resources.

**CIT 270/L. Integrative Programming (3/1)**

*Prerequisites:* CIT 160/L; COMP 182/L; MATH 103, 150A or 255A. *Corequisite:* CIT 270L. Role of integrative programming in information technology: operating systems, system management, application reuse. Tools and techniques for integrative programming, such as Perl, TCL/tk, VBScript and Python. Script programming development environments. Role of scripting in system installation and management. Client-server architecture. Interface management, wrappers, facades, brokers and proxies. XML and XML-related technologies, with emphasis on data exchange for application/system integration. Integration technologies, such as web services, Ruby on Rails, CORBA and DCOM. Integration platforms, such as .net and J2EE. Lab: 3 hours per week.

**CIT 360. CIT System Management (3)**

*Prerequisites:* CIT 210/L, 270/L. Overview of enterprise system architecture, principles and practices of systems administration, and system management, including firewalls and proxy servers, networked file systems, user account management, resources allocation, installation and configuration of operating systems, startup and shutdown, booting, performance monitoring, storage backup and restore, system administration tools, system maintenance, user support issues, web administration, and integration of network, storage, system resources to meet user needs. Enterprise goals and objectives, roles and responsibilities of a system administrator.

**CIT 480/L. CIT System Design and Implementation I (2/1)**

*Prerequisites:* COMP 484/L; IS 451; Upper Division Writing Proficiency Exam. *Corequisite:* 480L. CIT senior project—first semester includes project proposal, methods and processes, feasibility studies, teamwork, CASE tools, work breakdown structure, estimating and budgeting, schedule planning, peer reviews and inspections, and technical presentation. Professional communication. Teamwork concepts and issues. Organizational Context. Professional and ethical Issues, roles and responsibilities. Lab: 3 hours per week.

**CIT 481/L. CIT System Design and Implementation II (2/1)**

*Prerequisite:* CIT 480/L. *Corequisite:* CIT 481L. CIT senior project—second semester includes system/software design, functional and non-functional testing, system and acceptance testing, schedule management and tracking, delivery and deployment planning, social contexts of computing, standards and certification issues such as ISO, CMMI, technical presentation, technical documentation, legal Issues in computing, intellectual property. Lab: 3 hours per week.

# Deaf Studies

Michael D. Eisner College of Education

Chair: Flavia S. Fleischer

Education Building (ED) 1107

## Staff

Judi Daleke, Christine Firkins, Laura Schrenk, Helen Hayter Quiroz

## Faculty

Jordan Eickman

## Programs

Undergraduate:

**B.A., Deaf Studies**

Concentrations in:

ASL/English Interpreting

ASL and ASL Literature

Pre-Deaf Education

Deaf Community Services

Deaf Cultural Studies

Individualized Program

## The Major:

The primary objectives of the Deaf Studies major program are:

1. To convey basic knowledge and understanding about the language and culture of Deaf people, including their history and social experiences; and
2. To prepare students for advanced degree programs and/or professional careers working with Deaf people.

CSUN is proud to be one of the few mainstream institutions in the nation that offers a comprehensive undergraduate program in the area of Deaf Studies and has long been acknowledged as a leader in providing quality education in a variety of deaf-related fields. In addition, CSUN provides Deaf Studies majors with a variety of other unique opportunities, including membership in student organizations, interaction with more than 200 Deaf/Hard of Hearing students who attend the University, the most extensive collection of resource materials related to deafness in the western United States, participation in a variety of campus/community events including Deafestivals and ASL/Deaf Theatre productions, and on-the-job training while earning University credit.

## Careers

During recent years, a number of significant legislative and judicial initiatives and directives have appeared at the federal, state and local levels to ensure that the approximately 700,000 Deaf Americans have full access to public and private programs and services. As social, community, legal and educational services have expanded nationwide, many career possibilities have opened up for persons interested in professional work in deaf-related fields. The Deaf Studies major at CSUN will provide appropriate exposure and preparation to students interested in careers as sign language interpreters, sign language instructors, counselors, government specialists, teachers of the Deaf, community service coordinators/advocates and many other deaf-related vocations.

## Academic Advisement

Prospective, new and continuing Deaf Studies majors are encouraged to seek academic advisement each semester to review academic and career plans. Appointments can be made by calling the Deaf Studies Department office.

## Learning Outcomes of the Undergraduate Program

1. Demonstrate ability to communicate in American Sign Language (ASL) with Deaf people.
2. Identify the major features of and issues in the Deaf community and Deaf culture.
3. Demonstrate an understanding of the impact of power, privilege and oppression on the Deaf community that result in Deaf people's experience of prejudice, discrimination and inequity.
4. Demonstrate an understanding of how the study of Deaf Studies enables individuals to make informed judgments that strengthen the Deaf community.
5. Demonstrate an appreciation of the contributions of Deaf arts and humanities for shedding light on what it means to be Deaf.
6. Describe communication between hearing people and Deaf people that is vital to society.
7. Analyze critically how a Deaf person's socio-cultural history influences one's sense of self and relationship to others.
8. Reflect critically on one's abilities to interact with Deaf individuals socially and professionally, and evaluate the level of integration achieved.

## Requirements for the Bachelor of Arts Degree

Core requirements include courses in sign language, linguistics and a variety of other disciplines that convey basic knowledge and understanding about the language and culture of Deaf people, including their history and social experiences. These courses have been strategically selected to provide a solid foundation for entry into any deaf-related career. (Please note that not all American Sign Language (ASL) courses taken at other schools or community colleges are equivalent to CSUN's sign language courses. Non-equivalent ASL course work will be evaluated by the Deaf Studies Department on an individual basis. Students with prior sign language experience are encouraged to contact the Deaf Studies Department for advisement and proper placement in ASL classes.)

*Note: Prerequisites are indicated by an asterisk\*. Consult the course list for the appropriate discipline.*

### 1. Lower Division Required Courses (11 units)

|      |     |                                  |
|------|-----|----------------------------------|
| DEAF | 200 | Introduction to Deaf Studies (3) |
| DEAF | 280 | ASL III (4)                      |
| DEAF | 281 | ASL IV (4)                       |

### 2. Upper Division Required Courses (24 units)

|      |     |                           |
|------|-----|---------------------------|
| DEAF | 360 | American Deaf Culture (3) |
| DEAF | 484 | Structure of ASL (3)      |
| DEAF | 497 | Deaf Studies Capstone (3) |

### 1 of the following (6 units)

|      |         |  |
|------|---------|--|
| DEAF | 300     | Advanced ASL Conversation (3)  |
| DEAF | 370     | ASL/English Translation (3)  |
| DEAF | 430     | ASL: Individual Skills Development (3)   |
| DEAF | 489/L   | Introduction to ASL Translation of Literar and Artistic Works/Creative Uses of ASL (1/2-2) |
| DEAF | 490 A-G | Essential Feature of ASL/Signed Languages (1-1-1-1-1-1)                                    |

### 3 of the following (9 units)

|      |     |   |
|------|-----|---|
| CD   | 410 | Hearing Science (3)   |
| DEAF | 350 | Principles of Sign Language Interpretation (3)                      |
| DEAF | 400 | Deaf People and Hearing People: A Comparative Cultural Analysis (3) |
| DEAF | 401 | Deaf History (3)  |
| DEAF | 402 | Deaf Literature (3)   |
| DEAF | 404 | Issues and Trends in the Deaf Community (3)                         |
| DEAF | 406 | The Deaf Learner (3)  |
| DEAF | 485 | Issues in American Sign Language (3)                                |

**Concentrations (15 units minimum)**

Elective courses for each Concentration are selected from related disciplines to provide in-depth career education and preparation. A minimum of 15 units is required from 1 of the following career options.

**A. Concentration I: ASL/English Interpreting (15 units)**

|      |         |                                  |
|------|---------|----------------------------------|
| DEAF | 380/383 | ASL/English Interpreting I (4)   |
| DEAF | 381/383 | ASL/English Interpreting II (4)  |
| DEAF | 420     | ASL/English Interpreting III (4) |

**Select 1 of two courses:**

|      |         |   |
|------|---------|---|
| DEAF | 482     | ASL/English Interpreting Practicum (3)                          |
| DEAF | 491 A-F | Specialized Areas of Sign Language Interpretation (1-1-1-1-1-1) |

**B. Concentration II: ASL and ASL Literature (15 units)**

|      |     |                      |
|------|-----|----------------------|
| DEAF | 401 | Deaf History (3)     |
| DEAF | 402 | Deaf Literature (3)  |
| DEAF | 405 | ASL/Deaf Theatre (3) |
| DEAF | 485 | Issues in ASL (3)    |

**Select 1 of 3 courses:**

|      |        |   |
|------|--------|---|
| DEAF | 300    | Advanced ASL Conversation (3)   |
| DEAF | 370    | ASL/English Translation (3)   |
| DEAF | 489/LI | Introduction to ASL Translation of Literary and Artistic Works/Creative Uses of ASL (1/2) |

**C. Concentration III: Pre-Deaf Education (15 units)**

|      |     |   |
|------|-----|---|
| CD   | 410 | Hearing Science (3)   |
| DEAF | 400 | Deaf People and Hearing People: A Comparative Cultural Analysis (3) |
| DEAF | 401 | Deaf History (3)  |
| DEAF | 402 | Deaf Literature (3)   |
| DEAF | 406 | The Deaf Learner (3)  |

**D. Concentration IV: Deaf Community Services (15 units)**

|      |     |   |
|------|-----|---|
| DEAF | 400 | Deaf People and Hearing People: A Comparative Cultural Analysis (3) |
| DEAF | 401 | Deaf History (3)  |
| DEAF | 404 | Issues and Trends in the Deaf Community (3)                         |
| DEAF | 407 | Law and the Deaf (3)  |

**Select 1 of 3 courses:**

|      |     |  |
|------|-----|--|
| DEAF | 300 | Advanced ASL Conversation (3)              |
| DEAF | 410 | Deaf Women in Today's American Society (3) |
| DEAF | 415 | Deaf Studies Community Services (3)        |

**E. Concentration V: Deaf Cultural Studies (15 units)**

|      |     |   |
|------|-----|---|
| DEAF | 400 | Deaf People and Hearing People: A Comparative Cultural Analysis (3) |
| DEAF | 401 | Deaf History (3)  |
| DEAF | 402 | Deaf Literature (3)   |
| DEAF | 410 | Deaf Women in Today's American Society (3)                          |

**Select 1 of 3 courses:**

|      |     |   |
|------|-----|---|
| DEAF | 404 | Issues and Trends in the Deaf Community (3) |
| DEAF | 406 | The Deaf Learner (3)                        |
| DEAF | 407 | Law and the Deaf (3)                        |

**F. Concentration VI: Special Option (Individualized Program) (15 units)**

With the guidance of faculty advisor(s), students can develop a curriculum of field-specific elective courses to complement the Deaf Studies Core requirements that reflects their specialized career interests (not part of Concentrations I-V above). The requirements for a Deaf Studies Special Option are:

1. Before the student has completed 90 units, meet with a Deaf Studies faculty advisor to discuss career objectives and an educational plan of proposed courses totaling 15 units (a minimum of 12 units must be Upper Division); and

2. Submit the program of study to the Department Chair for evaluation and approval.

|  |            |
|--|------------|
| <b>Total Units in the Major (minimum)</b>  | <b>50</b>  |
| <b>General Education Units</b>             | <b>48</b>  |
| <b>Additional Units</b>                    | <b>22</b>  |
| <b>Total Units Required for the Degree</b> | <b>120</b> |

**Course List****DEAF 160. American Sign Language I (4)**

Not open to native signers. Study of the fundamentals of American Sign Language. Preparation for visual/gestural communication, including basic information relating to Deaf culture, intensive work on comprehension skills and grammatical structures.

**DEAF 161. American Sign Language II (4)**

*Prerequisite:* DEAF 160 or equivalent. Not open to native signers. Continuation of the study of the fundamentals of American Sign Language. Comprehension skills, grammatical structures, practice in the production aspects of the language and exposure to Deaf culture.

**DEAF 200. Introduction to Deaf Studies (3)**

*Prerequisite:* DEAF 160. This course introduces students to the basic information of the American Deaf experience in the United States: Deaf community/culture and American Sign Language. This course exposes students to the history, contributions and contemporary lives of Deaf people in America. This course is interdisciplinary in that it introduces a range of issues that are developed in the purview of Deaf Studies—linguistics, education, sociology, psychology and other fields.

**DEAF 280. American Sign Language III (4)**

*Prerequisite:* DEAF 161 or equivalent. Not open to native signers. Continuation of the study of the fundamentals of American Sign Language. Comprehension skills, advanced grammatical structures, continued emphasis on production skills and aspects of Deaf culture.

**DEAF 281. American Sign Language IV (4)**

*Prerequisite:* DEAF 280 or equivalent. Not open to native signers. Emphasis on production/conversational skills in American Sign Language, along with continued focus on grammatical and cultural features.

**Upper Division****DEAF 300. Advanced ASL Conversation (3)**

*Prerequisite:* DEAF 281 or equivalent or instructor consent. Not open to native signers. Provides further development of conversational abilities in American Sign Language, emphasizing the area of self-expression. Strongly recommended for prospective teachers, interpreters and other professionals working with Deaf people.

**DEAF 350. Principles of Sign Language Interpretation (3)**

*Prerequisite:* DEAF 200. Introductory overview of the profession of sign language interpretation. Forms the theoretical foundation for all other work in sign language interpretation. Particular emphasis on the professional code of ethics and other professional concerns. (Offered Spring semester only.)

**DEAF 360. American Deaf Culture (3)**

*Prerequisite:* DEAF 200. Discussion of the various aspects of American Deaf culture, including the description of deafness, Deaf people, the deaf community as defined by audiological and/or cultural means, services for and by Deaf people and culture as reflected in the arts and language of Deaf people.

**DEAF 370. American Sign Language/English Translation (3)**

*Prerequisites:* DEAF 281 or equivalent. Intensive examination of translation as an issue in applied linguistics. Practice in translation between ASL and English, and extensive discussion of problems encountered in the translation process between the two languages.

**DEAF 380. Sign Language Interpreting I (3)**

*Prerequisite:* DEAF 370. *Corequisite:* DEAF 383. Training in receptive and expressive sign language interpreting for Deaf individuals, emphasis on the development of consecutive sign language interpreting skills (sign-to-voice and voice-to sign).

**DEAF 381. Sign Language Interpreting II (3)**

*Prerequisite:* DEAF 380. *Corequisite:* DEAF 383. Further training in receptive and expressive sign language interpreting for Deaf individuals. Sequenced series of activities leading from consecutive interpreting to the development of simultaneous interpreting skills (sign-to-voice and voice-to-sign).

**DEAF 383. Sign Language Interpretation Lab (1-1)**

*Recommended Corequisites:* DEAF 380 or 381. Refines sign language interpretation and transliteration skills through individualized instruction. May be repeated once for credit.

**DEAF 400. Deaf and Hearing People: A Comparative Cultural Analysis (3)**

*Prerequisite:* DEAF 360. *Preparatory:* DEAF 281. For students entering the world of Deaf people in professional and/or social capacities to conduct comparative/contrastive analysis between Deaf and hearing cultures. Students apply observational techniques to identify and record cultural conflicts/interactions between Deaf and hearing people. Students attempt to describe characteristics of the Deaf/hearing group known as the "Third Culture." Results of this examination are viewed from the perspective of the persons in professional, educational and social fields. Conducted in American Sign Language.

**DEAF 401. Deaf History (3)**

*Prerequisite:* DEAF 360 *Preparatory:* DEAF 281. Examines selected points of the history of Deaf people and the Deaf community as well as the Deaf experience in a historical perspective. Emphasis on historical forces impacting the educational, social, political and economic aspects of the Deaf community, from both the Deaf perspective and a historical perspective, including discussion of Deaf Americans' adjustment to these influences. Discussion of major reforms impacting the lives of Deaf people at various times. Conducted in American Sign Language. (Offered Spring semester only.)

**DEAF 402. Deaf Literature (3)**

*Prerequisite:* DEAF 360. *Preparatory:* ENGL 255; DEAF 281 and 370. Provides an overview of all genres of both American Sign Language and English literature about deaf/Deaf characters written by deaf/Deaf and hearing authors, and explores Western society's views of the deaf/Deaf experience as depicted in novels, short stories, drama, poetry, folklore, humor, media and other forms of literature. Prevailing views toward Deaf people in each era are contrasted with the Deaf perspective in the same period as shown through Deaf literature. Conducted in American Sign Language. (Offered Fall semester only.)

**DEAF 404. Issues and Trends in the Deaf Community (3)**

*Prerequisites:* DEAF 281, 360. The course examines issues and trends in the Deaf community. The course begins with a critical analysis of historical issues confronting the Deaf community. Major emphasis on social, cultural, linguistic, political and economic patterns affecting Deaf people in the U.S. Issues of audism and linguicism also are addressed. The course concludes with students' discussions of current trends in the Deaf movement and current situations in the Deaf community. (Offered Fall semester only.)

**DEAF 405. ASL/ Deaf Theatre (3)**

*Prerequisite:* DEAF 281 or equivalent. A survey of theatre works staged with Deaf and hearing performers in American Sign Language and intended for Deaf and hearing audiences. The course will explore different genres of this type of American Sign Language/Deaf theatre, including sign language adaptations of plays, original works involving Deaf issues, plays concerning cross-cultural conflicts (Deaf-Hearing) and other genres. It also will analyze specific aspects of sign language on Deaf theatre performances, including choice of theme, use of sign language styles, nature of Deaf or hearing performers/characters, the theatre space for the visual and signing needs of the Deaf community, technical and production considerations, and the philosophy or concept of the presenting theatre or individual artists. These skills and knowledge will be integrated into a final class staged production.

**DEAF 406. The Deaf Learner (3)**

*Prerequisites:* DEAF 281, 360. This course examines the linguistic, historical, social and educational development of the Deaf learner. Students are exposed to various perspectives and practices of the traditional and current systems for educating Deaf youngsters. Particular attention on the importance of maximizing visual input for the Deaf learner as part of his/her cognitive development. Students learn how the environments promoting deaf bilingualism enhance the Deaf learner linguistically, socially, emotionally and educationally in terms of grade-level academic achievement, participation in both Deaf and hearing worlds and fluency in both languages: ASL and English.

**DEAF 407. Law and the Deaf (3)**

*Prerequisites:* DEAF 281, 360. This course focuses on the laws affecting Deaf people and the role laws and the legal system play in ameliorating the inequalities that Deaf people face through living in a hearing world. Emphasis is on the laws and the legal system of the U.S., although legal situations pertaining to Deaf people in other countries may be introduced. (Offered Fall semester only.)

**DEAF 410. Deaf Women in Today's American Society (3)**

*Prerequisites:* DEAF 281 and 360, or instructor consent. This course is a multidisciplinary analysis of Deaf women in the Deaf community and in American society, and includes the study of the historical, social, political, educational and economic factors that have influenced and impacted the role and status of Deaf women, including some important events of the women's movement. Areas of exploration are Deaf women's struggles and successes. The course also features contemporary Deaf women's issues within the context of the Deaf community.

**DEAF 415. Deaf Studies Community Services (3)**

*Prerequisites:* DEAF 281, 360. *Corequisite:* DEAF 404. Field study, observation and participation in selected Deaf community institutions and agencies to be conducted under supervision and after preparatory instruction to acquaint the student with field and service learning techniques. May be repeated once for credit (Credit/No Credit only)

**DEAF 420. Sign Language Interpreting III (4)**

*Prerequisite:* DEAF 381 or equivalent. This course will continue development of students' interpreting skills through exercises that focus on memory, processing, discourse analysis and interpretation/transliteration of various communication genres. Throughout the semester, students will be exposed to and practice interpreting and transliterating texts from a variety of specialized settings.

**DEAF 430. American Sign Language: Individual Skills Development (3)**

*Prerequisite:* DEAF 281. A supervised individual/small group activity designed to provide feedback on comprehension and production skills in American Sign Language. Designed primarily for students whose individual performance after completing ASL IV or equivalent indicates the

need for additional support from a fluent ASL sign language model/tutor. Individualized attention and feedback can be provided in such areas as grammatical accuracy, vocabulary development, fluency, accent and comprehension. May be repeated once for credit (Credit/No Credit only)

**DEAF 434A. Fingerspelling I (1-1)**

*Prerequisite: DEAF 280 or equivalent.* Strongly recommended for prospective teachers, interpreters and other professionals working with Deaf people. Develops basic skills in receptive and expressive fingerspelling. May be repeated once for credit.

**DEAF 434B. Fingerspelling II (1-1)**

*Prerequisite: DEAF 434A.* Strongly recommended for prospective teachers, interpreters and other professionals working with Deaf people. Further development of receptive and expressive fingerspelling skills. May be repeated once for credit.

**DEAF 435. Communication Variations in the Deaf Community (3)**

*Prerequisite: DEAF 281 or equivalent and 360.* Examination of the various philosophies and strategies of manual communication used by deaf and Hard of Hearing people. Includes information and current research on American Sign Language, Pidgin Signed English, manual codes for English, Fingerspelling, Cued Speech, Simultaneous Communication and Oral Communication, and their relationship to the educational process.

**DEAF 436. Sign Language Teaching (3)**

*Prerequisite: DEAF 281 or equivalent.* Overview of sign language research and its impact on sign language teaching. Critical analysis of the effect of instructional models in sign language teaching, mainly ASL. Includes discussion on how the concepts found in the research can be best utilized for sign language teaching.

**DEAF 482. Practicum in Sign Language Interpreting (3)**

*Prerequisite: DEAF 381, 383. Corequisite: DEAF 420.* Advanced exposure to and practical experience in sign language interpreting and transliterating. (Offered Spring semester only.)

**DEAF 484. Structure of American Sign Language (3)**

*Prerequisite: DEAF 281 or equivalent.* Focus on the grammatical structures and patterns of American Sign Language. View of ASL phonology, morphology and syntax, with emphasis on the practical use of such knowledge.

**DEAF 485. Issues in American Sign Language (3)**

*Prerequisite: DEAF 484.* Addresses questions of syntax, language acquisition and discourse structure in American Sign Language. (Offered Spring semester)

**DEAF 489/L. Introduction to ASL Translation of Literary and Artistic Works/Creative Uses of American Sign Language (1/2-2)**

*Prerequisite: DEAF 281 or equivalent. Corequisite: DEAF 489L.* Introduction to the basic principles of American Sign Language as applied in various artistic settings. Explores the techniques and principles of translating artistic and literary works from English into ASL and from ASL into English. Lab: Provides training in the artistic expression of poetry, storytelling and song-translation using American Sign Language. Lab may be repeated once for credit.

**DEAF 490A-G. Essential Features of ASL/ Signed Languages (1)**

*Prerequisite: DEAF 281.* This group of seven 1-unit courses continues developing advanced ASL/signed language skills and covers a multitude of topics examining applications of specific ASL/signed language skills. Linguistic competence is enhanced through interactive discourse in class. Each 1e-unit course focuses on a specific topic/skill and includes practice of the requisite skills and process tasks of increased complexity needed to master that particular topic/skill: (A) Classifiers; (B) Technical Signs; (C) Foreign Signs; (D) Sentence Types; (E) ASL Number Systems; (F) Visual-Gestural Communication; and (G) Public Signing.

**DEAF 491A-F. Specialized Areas of Sign Language Interpreting (1)**

*Prerequisite: DEAF 380.* This group of six 1-unit courses introduces students to the broad range of career paths that are available to them within the profession of sign language interpreting. Continuation of skills development within interpretation processes includes application of production and comprehension skills in different topical areas. Content areas in each course include theory, best practices, setting-specific vocabulary, cultural implications and protocol. Applications of techniques, vocabulary, information and skills are the main ingredients for course activities. (A) Deaf Interpreting I; (B) Deaf Interpreting II (Prerequisite: DEAF 491A); (C) Technological Applications within Interpreting; (D) Ethics and Professional Standards; (E) Educational Interpreting; and (F) Professional Settings.

**DEAF 496A-Z. Experimental Topics Courses in Deaf Studies (3)**

Experimental courses in Deaf Studies, with course content to be determined.

**DEAF 497. Deaf Studies Capstone (3)**

*Prerequisite: Graduating senior standing or instructor consent.* Restricted to students majoring in Deaf Studies. Capstone course for the Deaf Studies major, usually taken during the final semester before baccalaureate graduation. Focus on a synthesis of the information, concepts, material and methodologies provided in the previous Deaf Studies classes. Completion of a project resulting from the research of a significant topic in the Deaf community.

**DEAF 499X-Z. Independent Study (1-3)**

Strongly recommended for prospective teachers, interpreters and other professionals working with Deaf people.

# Economics

## College of Business and Economics

**Chair: Nancy Virts**

**Juniper Hall (JH) 3125**

**(818) 677-2462**

**[www.csun.edu/~economics](http://www.csun.edu/~economics)**

### Staff

Amy Louff

### Faculty

Kenneth Chapman, Adam Gifford Jr., Dennis A. Halcoussis, Joon young Hur, Kent Hymel, Robert Krol, Tom K. Lee, Anton E. Lowenberg, Leah Marcal, Jon Nadenichek, Kenneth Ng, William W. Roberts, Shirley V. Svorny, Nancy Virts, D. Glen Whitman

### Emeritus Faculty

Gary Anderson, Daniel Blake, William W. Brown, Keith D. Evans, Ivan C. Johnson, Lester F. Saft, Ben T. Yut

### Degree Programs

**B.A., Economics**

**Minor in Economics**

### Mission

The Department of Economics offers courses leading to a Bachelor of Arts in Economics. The Department trains students to critically and objectively analyze issues related to the economy, business, public policy and society. To enhance the educational process and the scholarly reputation and profile of the Department, members of the Economics faculty engage in research and offer their expertise to inform community decisions and debate.

### Careers

For many, the Economics major provides a useful background for a business career, while for others the major is preparation for graduate study in law, economics or public policy. Economics is relevant for students interested in employment in politics and public policy analysis, the financial services sector (banking, insurance), as industry analysts (health care, entertainment, energy), consumer affairs, international affairs, teaching and research, law, business consulting, government work and journalism. Salaries earned by economics majors nationwide are highly competitive. Employers rank economics as one of the most desirable majors.

### Academic Advisement

Contact the Department Chair for information about the Economics Program. All Lower Division program advisement is through the College SSC/EOP in JH 2113.

### Double Major Requirements

Students seeking a double major in the College of Business and Economics must have at least a 3.0 overall GPA and be able to complete both majors within a maximum of 140 units.

### Special Grade Requirements

Transfer students should be aware that no grade lower than "C" will be accepted on transfer from another institution to satisfy Department or College of Business and Economics requirements.

### Residency Requirement

At least 50 percent of the business and economics course credit units and 50 percent of the specialized major credit units required for the Bachelor of Science degrees in Accountancy, Business Administration, Finance, Information Systems, Management, Marketing and the Bachelor of Arts degree in Economics must be completed in residence at CSUN.

### Student Learning Outcomes of the Undergraduate Program

The analytical framework of economics promotes critical-thinking skills valued by employers. Students are exposed to concepts that help them understand consumer behavior and business decisions. Students learn how individual industries function, and gain an understanding of how the market economy functions as a whole. The field of economics emphasizes that the behavior of individual decision makers (consumers, firms, government agencies) adjusts in response to changes in their incentives. With this framework, students learn to evaluate how changes in technology, government regulation and market circumstances will impact their own lives, the industries and organizations of which they are a part, and society. The Economics program demands strong quantitative and communication skills.

### Economics Honors Program

The Business Honors program is open to Economics majors who meet all Honors Program admission criteria. Students who successfully complete the program earn a special Honors designation on their final graduation transcript. For more information call (818) 677-3100 or visit [www.csun.edu/bhp](http://www.csun.edu/bhp).

### Requirements for the Bachelor of Arts Degree

#### 1. Lower Division Required Courses (18 units)

|      |                    |   |
|------|--------------------|---|
| ACCT | 220                | Introduction to Financial Accounting (3)              |
| ENGL | 205                | Business Communication in its Rhetorical Contexts (3) |
|      | <i>or ENGL 305</i> | Intermediate Expository Writing (3)                   |
|      | <i>or ENGL 306</i> | Report Writing (3)                                    |
| ECON | 160                | Principles of Microeconomics (3)                      |
| ECON | 161                | Principles of Macroeconomics (3)                      |
| MATH | 103 <sup>1</sup>   | Mathematical Methods for Business (3)                 |
| SOM  | 120 <sup>2</sup>   | Statistics for Business and Economics (3)             |

<sup>1</sup>*MATH 103 or a higher-level mathematics must be completed with a grade of "C" or higher. MATH 150A or 255A may be substituted; Course must be completed with a grade of "C" or higher.*

<sup>2</sup>*The 4-unit MATH 140 course also satisfies this requirement.*

#### 2. Upper Division Courses (27 units)

##### Upper Division Required Courses (12 units)

|      |     |   |
|------|-----|---|
| ECON | 309 | The Use and Interpretation of Economic Data (3) |
| ECON | 310 | Price Theory and Applications (3)               |
| ECON | 311 | Money, Banking and the Federal Reserve (3)      |
| ECON | 401 | Macroeconomic Theory (3)                        |

##### Upper Division Elective Courses (15 units)

5 courses chosen from any Economics Department listing, excluding ECON 300 and 498. At least three courses, including ECON 401, must be 400-level courses.

#### 3. General Education (42 units)

Of the 48 units of the General Education requirement, 3 units are satisfied by ECON 310 (Subject Explorations, Social Science) and 3 units are satisfied by MATH 103 or a higher-level mathematics course.

### Minor in Economics

#### 1. Required Courses (9 units)

|      |                  |                                   |
|------|------------------|-----------------------------------|
| ECON | 160 <sup>1</sup> | Principles of Microeconomics (3)  |
| ECON | 161 <sup>1</sup> | Principles of Macroeconomics (3)  |
| ECON | 310 <sup>1</sup> | Price Theory and Applications (3) |

<sup>1</sup>*Courses that are also GE, Social Sciences.*

#### 2. Electives (9 units)

Students must select 9 units from any 300- or 400-level Economics course, except ECON 300 and 498.

## Course List

### **ECON 156. Introduction to Economic Analysis and Policy (3)**

*Prerequisite:* Qualifying scores on ELM and EPT or exemption, or satisfactory completion of appropriate developmental courses. Uses economics to analyze public policy options in the areas of health care, urban and regional development, international trade, education, housing, financial market regulation, job creation and other topical areas. (Available for General Education, Social Sciences.)

### **ECON 160. Principles of Microeconomics (3)**

*Prerequisite:* Qualifying scores on ELM and EPT or exemption, or satisfactory completion of appropriate developmental courses. Introduction to economics as it applies to the functioning of markets, businesses and households. The class examines how individuals make decisions about how to use scarce resources efficiently and how these decisions affect markets and the overall economy. Effect of government policies on the functioning of markets also is examined. (Available for General Education, Social Sciences.)

### **ECON 161. Principles of Macroeconomics (3)**

*Prerequisites:* ECON 160; Qualifying scores on ELM and EPT or exemption, or satisfactory completion of appropriate developmental courses. Introduction to economics as it applies to the national and international economy. Topics that the course covers include differences in standards of living across countries, the monetary system and the determinants of inflation, and the factors causing growth and recessions. Examines the ability of the Federal Reserve and other government policy makers to influence the course of the economy. (Available for General Education, Social Sciences.)

### **ECON 175. Introduction to U.S. Economic History (3)**

This course covers events in the U.S. from the middle of the 17th century to the present. The class uses economic analysis to examine social, political and economic events from the Colonial Period to the present. Students who earn credit for this course may not earn credit for ECON 375. (Fulfills Title 5 requirement in American History and Government.)

## Upper Division

### **ECON 300. Economic Principles and Problems (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Not open to Business or Economics majors, or to students who have taken ECON 160 or 161. Survey of the basic economic principles governing the allocation and utilization of resources. Topics include markets and prices, production, employment, national income, inflation, international trade and economic growth. (Available for General Education, Social Sciences.)

### **ECON 307. Economics for Marketing Professionals (3)**

*Prerequisite:* ECON 160 or 300. Economic theory and applications relevant to marketing professionals. Topics include analysis of business location decisions, identifying relevant markets, product pricing strategies and the role of advertising in product differentiation. (Marketing majors may substitute this course for ECON 310.)

### **ECON 308. Economics for Managers (3)**

*Preparatory:* ECON 160 and 161, or 300. Connects economic theory to practical issues faced by firm managers. Focuses on the way economic theory affects the firm's behavior both internally and externally. Internal issues include organizational structure and contract design, especially as these issues relate to opportunism, rent-seeking and asymmetric information. External issues include discussions of corporate strategy, advertising and the market for corporate control. (Management majors may substitute this course for ECON 310.)

### **ECON 309. The Use and Interpretation of Economic Data (3)**

*Prerequisites:* ECON 160 and 161, or 300; SOM 120 or equivalent. Understanding the use and interpretation of economic statistics in the mainstream media and economic literature. Topics covered include identifying and understanding the misuse of economic statistics, as well as performing some statistical analysis using economic data. Emphasis is placed on how students can use written and verbal communication to convey the meaning and relevance of economic statistics to those outside the profession.

### **ECON 310. Price Theory and Applications (3)**

*Prerequisites:* ECON 160 or 300; MATH 103 or a higher-level mathematics course with the grade of "C" or better. The operation of the price system in market-oriented economies. Special emphasis is placed on consumer behavior, business behavior, market organization, the theory of production and cost, economic welfare and applications to international trade. Substantial written work will be required of all students. (Available for General Education, Social Sciences.) (Marketing majors may substitute this course with ECON 307.) (Management majors may substitute this course with ECON 308.)

### **ECON 311. Money, Banking and the Federal Reserve (3)**

*Prerequisites:* ECON 160 and 161, or 300. Examination of money markets, the Federal Reserve system, foreign exchange markets, the international financial system and their relationship to macroeconomic policy. Topics of special interest include the determination of income, interest rates, exchange rates and international lending. Substantial written work will be required of all students. (Available for General Education, Social Sciences.)

### **ECON 320. Labor Economics (3)**

*Prerequisites:* ECON 160 and 161, or 300. Analyses of the determinants of hours worked, labor productivity, labor demand, variation in wages, human capital investment and labor mobility. Examines the effect of alternative pay schemes, the impact of discrimination on wages and employment, and the impact of labor unions on employment, wages and working conditions. (Available for General Education, Social Sciences if required by major.)

### **ECON 348. History of Economic Institutions (3)**

*Prerequisites:* ECON 160 and 161, or 300. Examines the development of economic institutions and their effect on economic growth from an international perspective. Compares the development of economic institutions in Europe, Asia and the Middle East.

### **ECON 350. Urban Economics (3)**

*Prerequisite:* ECON 160 or 300. Analysis of the formation and location of cities, the distribution of activities and the variation of land prices within urban areas. Economic analysis of urban housing and blight, poverty, pollution, congestion, law enforcement, optimal city size, urban finances and services.

### **ECON 355. Health Economics (3)**

*Prerequisites:* ECON 160 and 161, or 300. This class uses economic theory to analyze problems created by the complexities of health care markets. These problems include the widespread use of insurance, the important role of asymmetric information, the extent of government involvement, the role of non-profit hospitals as sellers of health care and the nature of restrictions placed on competition. Additionally, the course provides background on hospital costs, labor shortages, public health concerns and international comparisons of health insurance systems.

### **ECON 360. Environmental Economics (3)**

*Prerequisite:* ECON 160 or 300. Focuses on environmental issues and policies. Areas include air, water, noise and toxic waste pollution, qual-

ity of life concerns and open space and recreational area availability. Benefits and costs of current and alternative environmental policies are analyzed. Specific attention is given to the relation between energy resource development and usage and the environment. (Available for General Education, Social Sciences.)

**ECON 365. Law and Economics (3)**

*Prerequisites:* ECON 160 and 161, or 300. Examination of the effects of the legal system on the allocation of resources. Selected topics include the economic implications of property rights, contract law, product liability and the criminal justice system.

**ECON 370. Economic Development (3)**

*Prerequisites:* ECON 160 and 161, or 300. Class examines why standards of living differ across countries. Economic growth models are used to explain cross-country differences in economic performance. Emphasis is placed on the role of institutions, such as private property rights, in the economic development process. Impact of international trade, exchange rate systems and international debt on developing countries is carefully examined. Effects of government taxation, spending and monetary policies on economic growth and inflation are analyzed. Other issues covered are the impact of financial market development, population growth and agriculture on developing economies.

**ECON 375. Economic History of the United States (3)**

*Prerequisites:* ECON 160 and 161, or 300. History of U.S. economic development, including economic analyses of major historical issues.

**ECON 401. Macroeconomic Theory (3)**

*Prerequisites:* ECON 309, 310, 311; *Upper Division Writing Proficiency Exam score of 8 or higher.* Neoclassical, Keynesian and modern theories of the determination of aggregate output, employment and the general price level. Monetary and fiscal policy.

**ECON 405. International Economics (3)**

*Prerequisites:* ECON 309, 310; *Upper Division Writing Proficiency Exam score of 8 or higher.* Examines world trade in goods, services and assets. Explains why nations trade, the distribution effects of trade and the consequences of trade policy. Other topics include exchange rates, the balance of payments, interest rate and purchasing power parity and macroeconomic policies in an open economy.

**ECON 409. Introduction to Econometrics (3)**

*Prerequisites:* ECON 309, 310; *Upper Division Writing Proficiency Exam score of 8 or higher.* How to estimate relationships between economic variables using actual data. Techniques taught are used to test economic theory and hypotheses from business. Each class member completes a term project involving the construction and estimation of an econometric model.

**ECON 410. Industrial Organization (3)**

*Prerequisites:* ECON 310; *Upper Division Writing Proficiency Exam score of 8 or higher.* Examination of the structure, conduct and performance of American industries in both a theoretical and empirical framework. Selected topics include effects of concentration, barriers to entry, empirical cost curves, economics of scale, oligopoly behavior models, product differentiation and alternative performance measures.

**ECON 411. The Economics of Antitrust and Regulation (3)**

*Prerequisites:* ECON 310; *Upper Division Writing Proficiency Exam score of 8 or higher.* Economic analysis of government policies to alter or maintain market structures and the economic implications of these policies. Selected topics include the problem of antitrust, regulation and public ownership of industry, mergers, price discrimination, capital intensity of regulated firms and utility price structure.

**ECON 412. Seminar in Economic Thought (3)**

*Prerequisites:* ECON 310; *Upper Division Writing Proficiency Exam score of 8 or higher.* Seminar in the evolution of economic theory with emphasis on mercantilism, physiocracy, classical economics and socialism.

**ECON 433. Public Economics (3)**

*Prerequisites:* ECON 309, 310; *Upper Division Writing Proficiency Exam score of 8 or higher.* The class examines interaction that takes place between the government and private sectors of the economy. Effects of taxation and public expenditure decisions on the allocation of resources. Specific topics include public goods, public choice, externalities, property rights and taxation.

**ECON 496A-Z. Experimental Topics Courses - Economics (3)**

*Prerequisite:* *Upper Division Writing Proficiency Exam score of 8 or higher.* Course content to be determined. (See subtitles in appropriate schedule of classes.)

**ECON 497. Senior Seminar (3)**

*Prerequisites:* *Senior economics major; Nomination by Economics faculty member; Upper Division Writing Proficiency Exam score of 8 or higher.* Seminar dealing with advanced topics in economics. Economics faculty present current research. Students write papers to be presented and defended in the seminar.

**ECON 498A-C. Field Assignments and Reports (1-3)**

*Prerequisite:* *Upper Division Writing Proficiency Exam score of 8 or higher.* Individual study pertaining to present or future career. Student must have active, approved employment. Consultation with employer and instructor determines program. Academic Internship course. (Credit/No Credit only)

**ECON 499ABC. Independent Study (1-3)**

*Prerequisites:* *Consent of Department Chair; Consent of an instructor to act as sponsor; Upper Division Writing Proficiency Exam score of 8 or higher.* In order to complete an Independent Study assignment in the College of Business and Economics, a student must have at least a 3.0 overall GPA, a 2.0 GPA in all major courses and a 2.0 GPA in his option courses. A student who does not meet these grade point requirements will not receive credit for any ECON 499 that he/she may take. Admission is based on evidence of ability to pursue Independent Study in-depth and approval of a project submitted at the time of registration. Regular progress meetings and reports are required throughout the semester. Completion of the project is required before credit may be received. Enrollment in Independent Study is not allowed for the purpose of substitution for an existing course. Not more than 6 units of Independent Study in the College of Business and Economics may be taken without prior approval of the Dean of the College.

## Graduate

**ECON 500. MBA Survey of Economics (3)**

Survey course of the basic principles governing the allocation and utilization of resources. Microeconomic topics include wage and price determination, market mechanisms, efficiency and related issues concerning industry structure. Macroeconomic topics include financial markets and the determination of national income, employment and inflation.

**ECON 600. Economics of Strategy (3)**

*Prerequisite:* *ECON 500 or equivalent.* An economic analysis of the modern business organization, including its horizontal and vertical boundaries, industry-level competition and structure, competitive advantage and its short-term and long-term sustainability and sources of productivity, especially human resources. Macroeconomic and international influences on business decisions also are covered.

**ECON 606. Seminar in International Trade (3)**

*Prerequisite:* ECON 310 or 600. Covers classical and modern theories of international trade, including the theory of comparative advantage as developed by Ricardo, Mill and Marshall, and the “Heckscher-Ohlin” factor endowments explanation of the basis for trade. Topics in the welfare effects of commercial policies such as tariffs, quotas and subsidies are covered.

**ECON 609. Seminar in Applied Econometrics (3)**

*Prerequisites:* ECON 600; SOM 591. Theory and applications of econometric analysis, estimation of relationships suggested by economic analysis. Topics include estimating criteria, testing of economic hypotheses, single equation models and simultaneous equation models. Class members participate in a term project involving the construction and estimation of an econometric model.

**ECON 615. Seminar in Industrial Organization (3)**

*Prerequisite:* ECON 310 or 600. Critical examination of topics in industrial organization, such as concentration, mergers, the profit motive and multi-national firms.

**ECON 616. Seminar in Antitrust and Regulation (3)**

*Prerequisite:* ECON 310 or 600. Investigation into the impact of existing public policies toward business with primary emphasis upon antitrust legislation and enforcement, regulation and government ownership.

**ECON 617. Seminar in International Finance (3)**

*Prerequisite:* ECON 310 or 600. Course covers the theory of exchange rates, the relation between transactions on current and national income and the causes and effects of international capital movements. The theory of balance of payments adjustments and policy will be examined in detail, and some problems in contemporary international monetary arrangements will be discussed.

**ECON 633. Seminar in Public Economics (3)**

*Prerequisite:* ECON 310 or 600. Advanced analysis of the effects of governmental taxing and expenditure decisions on the economy in light of both positive and welfare economic theories; fiscal and monetary policies; and analysis of “public debt” decision making in governmental bodies.

**ECON 699. Independent Study (3)**

*Prerequisite:* Permission of Graduate Advisor. Only those graduate students who have a current 3.0 GPA may register in a 600-level Independent Study course.

Co-Directors: Sally Spencer, Sue Sears (818) 677-2517

**Single Subject University Intern Program**

Directors: Carolyn Burch, Jan Eckmier (818) 677-2224

**Teacher Quality Partnership (TQP) Grant**

Co-Directors Nancy Burstein, Sue Sears (818) 677-2567

**College Mission**

The primary mission of the Michael D. Eisner College of Education is to prepare teachers, counselors, administrators and other professionals to serve the diverse educational needs of the region. To fulfill this mission, faculty design, deliver and continually improve highly effective programs for pre-professionals through advanced graduate and professional levels; promote and are influenced by the reciprocal relationship between scholarship and practice; collaborate with colleagues across the campus and in other professional and community settings as partners in the mission; and provide leadership in teaching, learning, assessment and professional development for the diverse communities within and outside the University. In all of these endeavors, creativity and excellence of practice is rewarded, the potential of all learners is recognized, and critical inquiry and reflection are valued.

**Course List**

## Staff

Eliza Corpuz, Mariel Noyes

## Faculty

Susan Auerbach, Richard Castallo, Miguel Ceja, William De La Torre, Jody Dunlap, Nathan Durdella, Richard Gregory, Christine Hayashi, Dimpal Jain, Peggy Johnson, Robert Kladifko, Bronte Reynolds, Philip Rusche, Ricardo Sosapavon, Justine Su

## Emeritus Faculty

Louis Breternitz, Elmer Eason, Roy Fitch, Jason Joh, A. Ewing Konold, Jack Kudrna, Charles Manley, Wayne McIntire, Christa Metzger, Elliot Mininberg, John Schulte, Antonia Sims, William Thomas, Clifton Winn

## Programs

Graduate:

**M.A., Education**

**Educational Administration Option\***

**Ed.D., Pre-K-12 and Community College Educational Leadership Program**

Credentials:

**Preliminary Administrative Services Credential\***

**Clear Administrative Services Credential.\***

*\*Modes of instruction for these programs are residential (on-campus), off-campus cohort or online distance learning.*

## Careers

Graduates from our programs have been very successful in securing choice leadership roles in schools. Our graduates display values, beliefs and attitudes that inspire others to achieve educational goals. They understand the importance of exercising a positive leadership role in their schools and communities. They are familiar with leadership styles and understand the concept of situational leadership. Our graduates have been taught to manage conflict, build consensus and communicate effectively orally and in writing. They have been taught the value of shared leadership and the benefits of developing leadership skills in others. Our graduates are in high demand because our program is respected as one of the highest quality venues for the preparation of school administrators

## Academic Advisement

Initial academic advisement is carried out by the Graduate Advisor and is available daily throughout the year by appointment through the Department Office. Credential advisement is available in the Credential Office, Education Building E103.

## Student Learning Outcomes of the Master's Degree Program

1. Each candidate is able to promote the success of all students by facilitating the development, articulation and stewardship of a vision of learning that is shared and supported by the school community.
2. Each candidate is able to promote the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional growth.
3. Each candidate promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment.

4. Each candidate promotes the success of all students by collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
5. Each candidate promotes the success of all students by modeling a personal code of ethics and developing professional leadership capacity.
6. Each candidate promotes the success of all students by understanding, responding to and influencing the larger political, social, economic, legal and cultural context.

## The Major

The Department of Educational Leadership and Policy Studies offers programs leading to degrees and/or credentials in the field of Educational Administration. Students may pursue programs leading to the M.A. Degree in Education, Educational Administration option, as well as studies directed at achieving the Preliminary and Clear Administrative Services Credentials.

## Master of Arts Degree in Education, Educational Administration Option

### A. Requirements for Admission to the Program

1. 2 Letters of Recommendation from practicing school administrators indicating potential for administrative leadership.
2. Cumulative undergraduate GPA of 3.0 (based on a semester system), or a passing Score of 50th percentile or higher in one of the three areas of the GRE, or a raw score of 50 or better on the MAT or possession of a previous Master's Degree.
3. Passing Score on Upper Division Writing Proficiency Exam.

### B. Special Requirements

1. Must be Classified by completing the above-reference requirements for admission. Classification must be accomplished prior to completing 12 units of credit.
2. Masters students must take the Comprehensive Examination.

### C. Requirements For the Master of Arts Degree in Education, Educational Administration Option

#### 1. Program Requirements (33 units)

|                                   |  |
|-----------------------------------|--|
| ELPS 600                          | Research in Educational Leadership (3)   |
| ELPS 650                          | Contemporary Administrative Leadership (3)   |
| ELPS 663                          | Legal Aspects of Educational Administration (3)                                    |

### Satisfaction of Requirements of the Clear Administrative Services Credential through the Doctoral Program

The Requirements for the Clear Administrative Services Credential also may be fulfilled by completing the The Doctoral (Ed.D.) Program.

### The Doctoral Program in Educational Leadership (Ed.D.)

The Doctoral Program in Educational Leadership (Ed.D.) is designed for individuals who already hold a Master's Degree from an accredited institution and have demonstrated strong leadership skills. It is a selective program, designed to be completed with a cohort of approximately 20 individuals. The courses are offered in a fixed sequence and are designed to accommodate the working professional.

### Mission

The mission of the CSUN Doctoral Program in Educational Leadership is to create a network of school and college administrators prepared to effect profound change in teaching and learning that leads to improved student achievement. The program's Scholar-Practitioners will lead through: 1) Systemic reform; 2) Collaboration; 3) Action research; and 4) Cultural proficiency.

### Academic Advisement

Initial academic advisement is carried out by the Program Coordinator. Appointments are made through the Doctoral Program Office, (ED) 3103, (818) 677-2403. Once candidates are admitted, they are assigned an advisor from among the doctoral faculty.

### Student Learning Outcomes of the Doctoral Program

Ed.D. graduates will have the knowledge, skills and dispositions to lead profound change in teaching and learning in P-14 institutions by:

1. Planning systemic reform and managing the change process in collaboration with fellow educators and other stakeholders, based on a shared vision of learning;
2. Guiding and supporting staff in nurturing a school, district or community college culture and program conducive to the effective instruction of all students and to the professional growth of all employees;
3. Using data and technology effectively to assess student achievement, evaluate staff and programs and plan and implement accountability systems;
4. Becoming critical consumers of educational research and producers of action research who apply the lessons of research to student, school/district or community college improvement;
5. Promoting culturally proficient policies and practices that recognize and value difference and ensure equity;
6. Managing fiscal, physical and human resources to ensure effective and safe learning and working environments;
7. Collaborating with families and community members, responding to diverse community interests and need, and mobilizing community resources at the local, state and federal level;
8. Modeling ethical practice, strong skills in communication and collaboration and the development of leadership capacity in themselves and others;
9. Understanding, navigating, responding to and influencing the larger policy environment and the political, social, economic, legal and cultural context of education.

### Requirements for Admission to the Ed.D. Program

The Doctor of Education (Ed.D.) program is designed for those individuals who have already demonstrated leadership ability in diverse educational settings. The program will admit candidates who meet the academic requirements for the Ed.D. degree program and who possess personal qualities and professional experiences that suggest a strong potential for success as doctoral candidates and as educational leaders. Normally, the P12 leadership candidate will already hold an administrative services credential. Meeting the minimum requirements qualifies an individual for consideration, but does not guarantee admission to the program. Admission will be granted annually on a competitive basis. The application deadline is March 15 for admission the following Fall semester.

#### A. Each applicant will submit:

1. An application to the Doctoral Program.
2. Official transcripts of work completed at each accredited institution of higher education attended, including evidence of a minimum of 3.0 Upper Division undergraduate GPA and successful completion

- of a Master's Degree with a minimum of a 3.5 GPA.
3. 3 letters of recommendation (on letterhead) from persons who can attest to the applicants leadership experience or potential.
  4. Graduate Record Examination (GRE) general test scores (three sections) taken within the last five years.
  5. A written statement outlining the reasons for seeking entrance to the program and how it relates to future professional goals.
  6. A professional resume.
  7. A sample of academic or professional writing.
- All international applicants whose first language is not English or who have not earned a Baccalaureate or Master's Degree in an English-speaking country or from an institution in which the language of instruction is English must take the TOEFL (Test of English as a Foreign Language) examination. A TOEFL score of 550 on the paper test or a score of 213 on the computer-based test is required for admission. After the Admissions Committee has reviewed all applicants' materials, the most highly qualified applicants will be contacted for interviews.

## Requirements for the Doctor of Education (Ed.D.)

### Degree In Educational Leadership

#### P12 Leadership Option

##### 1. Program Requirements (60 units)

|      |     |   |
|------|-----|---|
| ELPS | 700 | The Art of Collaborative Leadership (3)                         |

### Course List

#### ELPS 203. Urban Education in American Society (3)

Introductory Foundation course. Designed to provide students with the fundamental knowledge of the understanding of the American educational enterprise, especially problems in urban multicultural schools. Concepts and methods from the fields of sociology, philosophy and the politics of education are used to gain knowledge of, understand and analyze the current conditions of American schools, and to evaluate selected proposals/ models for reform. The California Standards for the Teaching Profession, the Teaching Performance Expectations and the K-12 subject matter content standards are introduced. A minimum of 20 hours of observation and participation in a multicultural school and community setting is required.

#### Upper Division

#### ELPS 303. Education in American Society (3)

Concepts and techniques from the fields of sociology, education and philosophy of education are used to analyze the current condition of culturally diverse American schools and selected proposals for reform. Minimum 20 hours of observation and participation in a multicultural setting required.

#### ELPS 417. Equity and Diversity in School (3)

Prepares teacher candidates to examine principles of educational equity, diversity and the implementation of curriculum content and school practices for elementary/secondary students. Focuses on the history and culture of a specific ethnic experience, and a comparative analysis is made with other ethnic groups in California. Engages students to examine, critique and reflect on their personal biases regarding children of color. (Cross listed with PAS, CHS, AAS and ARMN 417.)

### Graduate—Credential and Master's Level

#### ELPS 541A. Getting Started – Introduction to Teaching in Urban Schools (1)

*Restricted to candidates admitted to the Accelerated Collaborative Teacher (ACT) Preparation Program. Offered Fall semester only. Prerequisite: Admission to the ACT Program. Corequisites: Multiple Subject Credential Candidates: EED/EPC 500; EED 515, 520, 565ACT, 565M, 577; ELPS 541A. Single Subject Credential Candidates: ELPS 541A; EPC 420; SED 511, 514, 525, 554. Special Education Credential Candidates: EED 151 (optional), 520, 565M, 577; ELPS 541A with SPED 541B; SPED 504ACT, 577ACT, 579AC. The first of two Core courses in the ACT Program for elementary, secondary and special*

education teacher candidates is taught collaboratively by a team of University and school faculty. The course is an introduction to teaching and learning in the context of P-12 urban schools with an emphasis on educational equity, diversity and special populations. Topics include an introduction to the roles and responsibilities of a professional educator; teachers' and students' backgrounds and how they impact teaching and learning in urban schools; knowledge of relevant federal and state legislation for students with special needs; classroom practices that include planning, assessment and management in urban schools; and collaboration with school professionals and parents. Teacher candidates are provided activities and discussion that emphasize the link between theory and practice.

**ELPS 542A. Meeting The Needs of All Students in Urban Schools (1)**

*Restricted to candidates admitted to the Accelerated Collaborative Teacher (ACT) Preparation Program. Offered Spring semester only. Prerequisites: Successful completion of all Fall semester course work. Corequisites: Multiple Subject Credential Candidates: EED 565S, 568ACT, 575; EHSCI 496TH; ELPS 542A; KIN 595PE. Single Subject Credential Candidates: ELPS 542A; HSCI 496ADL; SED 521, 555. Special Education Credential Candidates: ELPS 542A; SPED 402A, 505MM, 509MM, 580ACT.* The second of two Core courses in the ACT Program, this course is designed for elementary, secondary and special education teacher candidates and taught collaboratively by a team of University and school faculty. Building on the content introduced in the first Core course related to educational equity, diversity and special populations, topics include developing as a reflective educator who considers the learning needs of all students; creating and managing effective and healthy classroom environments in urban schools; problem solving strategies to facilitate teaching and learning; instructional modifications and accommodations for students with disabilities in general education settings; issues related to diversity and multicultural education; and models of collaboration/consultation. Teacher candidates are provided activities and discussion that emphasize the link between theory and practice.

**ELPS 600. Research in Educational Leadership**

*Prerequisite: Admission to the Master of Arts in Education, Educational Administration, or consent of the Graduate Advisor.* This course introduces students to education research concepts, methods and contributions to K12 and higher education practice, with an emphasis on how administrators can use research to inform decision making. It is designed to provide students with the foundations of educational research so that they will be able to understand basic research reports, evaluate practice in light of research and develop action research projects.

**ELPS 601. American Higher Education (3)**

Seminar in the nature, scope and function of higher education in the U.S. Emphasis given to contemporary issues and problems.

**ELPS 605. Administration of College Counseling and Student Services (3)**

*Prerequisite: ELPS 601.* Surveys the essential dimensions in administering College Student Personnel Services, including the elements of organizations, strategic management and administrative functions, skills and techniques. Topics include managing change, budget management, program planning, staff development and conflict management. With the consent of the Department Chair, this course may be applied toward both the M.A. Degree or the Certificate in College Counseling and Student Services.

**ELPS 618A. Seminar in Philosophy of Education (3)**

*Prerequisite: Instructor consent.* Content emphasis from one semester to another is likely to vary. Specific emphasis for a particular semester indicated by the titles listed in the Schedule of Classes for that semester.

**ELPS 631. History of American Education (3)**

Historical analysis of educational developments and problems in the U.S. and their relationships to major cultural developments and trends.

**ELPS 641. Comparative Education (3)**

Educational systems of selected developed and developing countries studied in cross-cultural perspective. Emphasis on problems in educational borrowing and educational change.

**ELPS 650. Contemporary Administrative Leadership (3)**

Designed to assist in the development of administrative leadership skills. Focus on the knowledge and application of leadership skills necessary in effective organizations, with special emphasis on schools. Topics of study include situational leadership, organizational climate and culture, individual and group motivation and transforming leadership as applied through school-based management, shared decision making, strategic planning, team building and total quality management. Includes discussion of current educational reform efforts and trends.

**ELPS 652. Social Problems and Education (3)**

Study of selected social problems and alternative proposals for coping with these problems, the significance of these problems, and proposals for public education.

**ELPS 656. Minority Groups and Education (3)**

Deals with the history, culture and current problems of racial and ethnic minority groups and their communities. Special emphasis placed on educational problems of racial and ethnic minorities, and methods of resolving such problems. Among the groups studied are Chicanos and other Latinos, Black, Asian and Native Americans.

**ELPS 660. The Exceptional Pupil in School and Society (3)**

*Prerequisite: SPED 400 or instructor consent.* Recommended especially for education students interested in the Resource Specialist Certificate or M.A. Degree in Special Education. Focus on an understanding of the social forces that affect the development of educational programs for exceptional pupils.

**ELPS 663. Legal Aspects of Educational Administration (3)**

General principles of American school law, with particular emphasis on California statutes. Consideration of the legal bases of federal, state and local administrative levels. Review of the salient legal provisions of the Education Code respecting administration of schools, the rights of patrons and employees, torts, contracts, certification, tenure, school plant planning, and the rights and obligations of pupils. Analysis and significance of major court decisions having implications for public education.

**ELPS 664. The Business and Financial Aspects of Educational Administration (3)**

Problems and principles of educational finance, with emphasis upon the California situation. Formulation and financing of the school budget. Legal provisions concerning school finance and business management. Basis and computation of state and local school support. Standard school business practices. General aspects of the planning, financing and construction of school buildings. Business management problems of individual schools.

**ELPS 667. The Organization and Administration of Community College Education (3)**

Seminar designed for the study of the administration of the community college, with emphasis on community colleges in California. Administrative theory, research and application of administrative policies and procedures in the areas of faculty and student personnel, curriculum and instruction, plant and land management, and relationships with lay and governmental boards are analyzed and evaluated.

**ELPS 670. Seminar in Contemporary Public Policy Issues in Educational Administration (3)**

*Prerequisite:* Valid administrative credential. Designed to evaluate contemporary issues in administration at both the elementary and secondary levels. Emphasis on the philosophical foundations that serve as a springboard for opportunity for students to reevaluate their conceptualizations and beliefs regarding those contemporary issues identified for discussion.

**ELPS 672. Management of Human Resources (3)**

Seminar in the philosophy, scope, function and evaluation of public school personnel administration. Emphasis on the development of a practical program.

**ELPS 673. Leadership for Information Management and Change (3)**

*Prerequisites:* Valid administrative credential. Planning and managing information and change within schools and school districts. Includes forces of change, models and strategies for intentional change diffusion, planning and managing change, and self-renewal in educational organizations.

**ELPS 675. Decision Making Simulation (3)**

*Prerequisite:* Instructor consent. Designed to provide experienced school administrators and graduate students in administration and supervision the opportunity to simulate the position of a school administrator and assume the leadership of a typical public school. Content is developed around the use of simulated materials and focuses on the individual student and his/her approach to realistic problems and situations faced by a school administrator. These responses are the basis for the student's self-examination of his/her administrative behavior and enables him/her to capitalize upon strengths and ameliorate weaknesses.

**ELPS 676. School Community Relations (3)**

The seminar is devoted to a study of the knowledge, dispositions and skills needed by educational administrators in order to understand and respond to diverse community interests and needs, collaborate effectively with families and community members, mobilize community resources to benefit students and families, and interpret the school to the public through a variety of media and modes.

**ELPS 679. Organization and Administration of Multilingual and Multicultural Programs (3)**

*Prerequisite:* Valid administrative credential. Study of the basic principles involved in developing leadership roles in multilingual programs, curricula development and staff development, as well as background in assessment, resources and materials. Supervision and administration of the total multilingual education is inherent to the course.

**ELPS 681 Organization and Administration of Elementary, Secondary and Special Education (3)**

Organizational structure of elementary and secondary education in the schools, with a focus on site leadership. Particular emphasis given to the organization, administration and supervision of various types of special education programs as well as the internal organization, structure, cultural context and the administration of the school, and the role of the school principal. Emphasizing and encouraging personal responsibility for developing, articulating and refining the values, beliefs and assumptions that guide professional practice to maximize student learning.

**ELPS 682 Supervision of Curriculum and Instruction (3)**

Foundations and philosophies of curriculum and instructional supervision. Curriculum formation, organization and assessment. Principles of professional development for staff members. The role of various school personnel in improving teaching and learning. Elementary and secondary school levels included.

**ELPS 683. Leadership, Ethics, Morals, Values (3)**

*Prerequisite:* Valid administrative credential. Provides educational administrators an ethical and moral foundation that grounds and informs their practices in schools. Through examining moral texts and exploring case studies involving ethical dilemmas and questions, students develop an understanding of the importance of shared ethical norms in public schooling and clarify their personal beliefs regarding a variety of ethical issues in leadership.

**ELPS 687A-Z. Selected Topics Courses (1-5)**

Individually designed experiences by student in collaboration with faculty member and designated mentor. These elective credits may be satisfied by non-University based activities and/or electives from this or other Departments.

**ELPS 688. Fieldwork in Educational Administration (3)**

*Prerequisites:* ELPS 600; Teaching experience; 6 hours or less of course work remaining in the program; Approval of the administrator of the school where the fieldwork is to be performed; Acceptance into the course by the Department of Educational Leadership and Policy Studies. Admission is by fieldwork application only, which may be obtained in the Department office or online at [www.csun.edu/education/elps](http://www.csun.edu/education/elps). Applications must be received by June 15 for consideration for the Fall semester and by Dec. 15 for consideration for the Spring semester. The experience in this program is at the building site level and reflects, as much as possible, those functions, assignments and responsibilities characteristic of the principal's office. Students assume a leadership role in implementing the Action Research Project designed in ELPS 600.

**ELPS 695A-Z: Experimental Topics Courses in Educational Administration (1 – 6)**

*Prerequisite:* Graduate standing. Experimental topic courses in educational administration will be offered as the availability of staff and extent of student background allow.

**ELPS 699X-Z. Independent Study (1-3)****Clear Administrative Services Credential****ELPS 684. Field Based Leadership (5)**

This course is designed to support and coach students who have initiated their careers in school leadership positions and hold the Preliminary Credential in Educational Administration. Units of study include the knowledge and skills necessary to be an effective leader in strategic, instructional, organizational, political and community domains. Students receive instruction and coaching in the awareness and development of skills and knowledge needed for planning a collaborative vision and culture for learning; for organizational management; for work with families and community agencies; to model a code of ethics; for professional development; and to work within the larger political, social, economic, legal and cultural context. An induction plan is developed in conjunction with an on-site mentor and University advisor.

**ELPS 685. Induction Plan (2)**

A plan for the candidate's induction. Individually designed by each student in consultation with a local school/district mentor and a faculty member from Educational Leadership and Policy Studies Department. The plan provides, among other things, a description of the district support services available to the student, a plan for the completion of required academic course work, identification of the local school/district mentor, and related professional growth activities.

**ELPS 686. Assessment of Candidate Competency (2)**

Assessment of Candidate Competence accomplished through a formal departmental evaluation process that includes 4 separate phases: 1) Faculty assessment of the candidate's performance in all of the activities

identified in the Induction Plan; 2) Consultation will take place with school/district mentoring partners; 3) Faculty review of the candidate's portfolio compiled throughout their program of study; and 4) Exit interview at the conclusion of the candidate's course of study.

### **ELPS 689. Practicum Administration (3)**

*Prerequisites:* Valid administrative credential; Administrative position; Approval of the Department of Educational Leadership and Policy Studies. Admission is by preliminary application only. These may be obtained in the Department Office. Applications must be received by April 1 for consideration for the Fall semester and by Nov. 1 for consideration for the Spring semester. Individualized program jointly developed for each student by the Department of Educational Leadership and Policy Studies in consultation with the student and the student's employing school district. Provides opportunities to demonstrate knowledge and skills in the 8 competency domains in Educational Administration.

## Courses—Doctoral

### **ELPS 700. The Art of Collaborative Leadership (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course provides educational leaders with the tools to establish and enhance their own leadership skills in P12 school/district- or community-college settings. Students study and apply the literature of collaborative leadership, including team building, visioning, inspiring, and empowering constituents and stakeholders connected to the learning organization.

### **ELPS 705. Organizational Complexity and Change (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course focuses on school/district or community colleges as complex and dynamic organizations. It emphasizes the ways in which educational leaders use knowledge of organizational theory to improve management decisions, facilitate organizational change and achieve positive outcomes for students.

### **ELPS 710. Curricular and Instructional Leadership for Systemic Reform (6)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course focuses on leadership for effective teaching and learning in contemporary P12 schools or community colleges. It includes advanced-level study of the nature of students, the nature of the curriculum to be taught and the fostering of instructional practices that improve learning for all students.

### **ELPS 715. Leading Change Through Cultural Competence (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course assists in the development of culturally competent leaders in diverse educational settings. Students develop knowledge, skills and dispositions necessary to promote policies and practices that value difference and ensure equity in effective organizations. Special emphasis is given to culturally and linguistically diverse populations in P12 schools or community colleges.

### **ELPS 720. Postsecondary Finance and Enrollment Management (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. (Community College Cohort Only.) This course provides an overview of postsecondary finance and fiscal management. It is a study of basic principles of business management, finance and budgeting practices in community colleges. It addresses issues, challenges and policy implications of revenue and enrollment trends.

### **ELPS 725. Instructional Assessment and Program Evaluation (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course includes study of instructional assessment and program evaluation for effective educational leadership. Emphasis is given to an examination of measures of student achievement and accountability systems.

### **ELPS 730. Public Policy in Education (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. (P12 cohort only.) This course examines the context for policy making and the process of policy development and implementation. It includes the study of organizational structures for educational decision making at the federal, state, county and local levels, with emphasis on how and where influence can be exerted.

### **ELPS 735. Law and Policy in Postsecondary Education (3)**

*Prerequisites:* Admission to doctoral program in Educational Leadership (Community College cohort only.) This course covers general principles of American school law with particular emphasis on California statutes and community-college regulations. It includes review of the major federal, state and local laws and regulations, and an analysis of significant court decisions having implications for public postsecondary education.

### **ELPS 740. Entrepreneurship in Public Education (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course examines developments and promising practices in educational entrepreneurship and community partnerships. Students learn professional skills, such as grant writing, collaborative planning, presentation delivery and marketing. An emphasis is placed on working effectively with a variety of stakeholders across the public and private sectors to improve public P14 schools.

### **ELPS 745. The Science of Administration (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course focuses on school/district or community college management strategies and issues. It is designed to help the administrator work within the organization to translate a shared vision into strategic and operational plans and to effectively manage people and resources at advanced levels of leadership.

### **ELPS 750. The Ethical Dimensions of Leadership (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course provides educational administrators an ethical and moral foundation that will both ground and inform their practice. Through examining moral contexts, exploring case studies involving ethical dilemmas and applying ethical principles and decision-making formats, students develop an understanding of the importance of shared ethical norms in public schooling and clarify their personal beliefs regarding a variety of ethical issues in leadership.

### **ELPS 755. Human Relations in Educational Organizations (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. This course enhances the effective management of human relations in collaborative organizational contexts. As the capstone course in the Doctoral Program, it addresses both self-awareness and increased understanding of others.

### **ELPS 760. Field Based Inquiry I (3)**

*Prerequisite:* Admission to the Doctoral Program in Educational Leadership. Doctoral students are guided in designing and conducting an intensive, field-based inquiry related to organizational change efforts to improve student achievement in P12 schools or community colleges. Students develop or enhance hands-on administrative skills in action research, collaborative problem solving, program planning and professional presentation.

**ELPS 765. Field Based Inquiry II (3)**

*Prerequisite: Admission to the Doctoral Program in Educational Leadership; Successful completion of Field Based Inquiry I. (P12 cohort only.)* Doctoral students complete their field-based inquiry related to organizational change efforts to improve student achievement, and present their findings in a seminar session.

**ELPS 770. Applied Quantitative Inquiry I (3)**

*Prerequisite: Admission to the Doctoral Program in Educational Leadership.* This course provides an introduction to concepts, principles and methods of quantitative research in education. Problem identification, research design, data collection techniques and interpretation of research findings are addressed. Critical analysis of relevant research literature is emphasized.

**ELPS 775. Applied Quantitative Inquiry II (3)**

*Prerequisite: Admission to the Doctoral Program in Educational Leadership; Successful completion of Applied Quantitative Inquiry I.* This course is an advanced seminar for students who plan to use mainly quantitative research methods for their dissertation. It guides them through the process of designing a meaningful, manageable quantitative study, as well as advanced techniques in data collection, analysis and reporting.

**ELPS 780. Applied Qualitative Inquiry I (3)**

*Prerequisite: Admission to the Doctoral Program in Educational Leadership.* This course is an overview of qualitative approaches to educational research that can be applied to educational leadership for school improvement. Students learn to be critical consumers of the qualitative research literature and to use basic qualitative research methods. Action research and qualitative approaches to the dissertation process are also discussed.

**ELPS 785. Applied Qualitative Inquiry II (3)**

*Prerequisite: Admission to the Doctoral Program in Educational Leadership; Successful completion of Applied Qualitative Inquiry I.* This course is an advanced seminar for students who plan to use mainly qualitative research methods for their dissertation. It guides them through the process of designing a meaningful, manageable qualitative study, as well as advanced techniques in qualitative data collection, analysis and reporting.

**ELPS 789. Dissertation Seminar (2)**

*Prerequisite: Admission to the Doctoral Program in Educational Leadership; Advancement to Candidacy.* Students work under the guidance of their advisor to complete requirements for the dissertation. Includes independent work as well as dissertation seminars. Minimum of 12 dissertation seminar units are required in the program. May be repeated for credit. Students must be enrolled every semester after admission to Candidacy until they successfully defend their dissertation.

# Educational Psychology and Counseling

## Staff

Maria King (Administrative Coordinator)

## Faculty

Joannie Busillo-Aguayo, Stanley Charnofsky, Diane Gehart, Pete Goldschmidt, Adele Eskeles Gottfried, Charles Hanson, Julie Hau, Gregory Jackson, Carolyn Jeffries, Doris Jones-Nicol, Wilda Laija-Rodriguez, Michael Laurent, Rie Rogers Mitchell, Alberto Restori, Carrie Rothstein-Fisch, Luis Rubalcava, Tovah Sands, Jonah Schlackman, Merrill Simon, Dana Stone

## Emeritus Faculty

Michael Auer, Rose Bromwich, Marvin Chernoff, Elizabeth Crane, Robert Docter, Don Dorsey, George Ferrell, Janet Fish, W. Dean McCafferty, Sarah Moskovitz, Bernard Nisenholz, Margaret Thompson, Allen Webb

## Programs Offered

**M.S. in Counseling with Options in:**

**Career Counseling**

**College Counseling and Student Services**

**Marriage and Family Therapy**

**School Counseling**

**School Psychology**

**M.A. in Education—Educational Psychology Option with concentrations in:**

**Development, Learning Instruction and Evaluation**

**Early Childhood Education**

## Mission

The Department of Educational Psychology and Counseling prepares students for highly effective, ethical and satisfying careers as professional educators and counselors working with individuals, families and groups in educational, organizational and community settings. The aim of our programs is to reflect an ecological and developmental life-span approach to theory, research and practice centered on the study and application of major concepts and skills from counseling, early childhood education, educational psychology and psychological foundations of education. Department faculty are committed to continuous evaluation and improvement of our courses and programs.

## Accreditation

The Council for Accreditation of Counseling and Related Education Programs (CACREP), a specialized accrediting body recognized by the Council for Higher Education Accreditation (CHEA), has conferred accreditation on the following program areas in the Department of Educational Psychology and Counseling: Career Counseling (M.S.); College Counseling and Student Services (M.S.); Marriage and Family Therapy (M.S.); and School Counseling (M.S.) The National Association of School Psychology (NASP) has conferred accreditation on the School Psychology (M.S.) program. The School Counseling and School Psychology programs also are accredited by the California Commission on Teacher Credentialing (CCTC) and all department programs are accredited by the National Council on the Accreditation of Teacher Education (NCATE).

## State Licensure

Students seeking licensure as a marriage and family therapist (LMFT) must complete the 63-66 unit Master's Degree in counseling, Option in Marriage and Family Therapy (MFT) and 3,000 hours of field work and internship prior to applying for the State examination. Students in the MFT program may also meet the course and practicum requirements for pursuing licensure as a Licensed Professional Clinical Counselor (LPCC). Students seeking licensure as an educational psychologist must complete requirements for the School Psychology credential and subsequently meet additional field work requirements. For additional information, contact program advisors.

**Marriage and Family Therapy:** Stanley Charnofsky

**School Psychology:** Doris Jones-Nicol, Wilda Laija-Rodriguez, Alberto Restori

**LPCC Licensure:** Merrill Simon

## State Credential

Department programs lead to State credentials in Pupil Personnel Services in two areas: School Counseling or School Psychology. Students seeking one of these credentials through CSUN must complete course work equivalent to the Master's Degree in counseling, Option in either School Counseling or School Psychology, respectively and hold a Master's Degree. For additional information, consult the Datalog, Department website ([www.csun.edu/coe/epc/](http://www.csun.edu/coe/epc/)), Graduate Advisor or Program Coordinators.

## Careers

Graduates completing a Master's Degree may qualify for positions in public schools, public mental health, community agencies, community colleges and universities, business and industry, career development, marriage and family therapy, private clinical practice, integrated medicine settings and related areas. With the completion of state requirements, students can receive a credential in pupil personnel services (PPS) in either school counseling or school psychology and/or a license as a marriage and family therapist (LMFT), licensed professional counselor (LPCC) or educational psychologist.

## Academic Advisement

Information for students interested in Department programs is available by accessing the website or by calling or visiting the Graduate Advisor and/or Department Office. Students admitted to a Master's Degree, Certificate or Credential Program should contact Program Coordinators for advisement. In addition, first year practicum instructors serve as advisors for students in all the Master's Degree programs in counseling.

**Graduate Advisor's Office:** ED 1223

**Graduate Advisor:** Shannon Sexton

(818) 677-5719, ([epcdept@csun.edu](mailto:epcdept@csun.edu))

**Graduate Coordinator:** Merrill Simon

### Program Advisors:

**Career Counseling:** Greg Jackson, Julie Hau

**College Counseling and Student Services:** Merrill Simon, Julie Hau

**Development, Learning, Instruction, and Evaluation:** Adele Gottfried,

Carolyn Jeffries, Pete Goldschmidt, Jonah Schlackman

**Early Childhood Education:** Carrie Rothstein-Fisch, Joannie Busillo-Aguayo

**Marriage and Family Therapy:** Stanley Charnofsky, Luis Rubalcava, Michael Laurent, Diane Gehart, Dana Stone

**School Counseling:** Charles Hanson, Tovah Sands

**School Psychology:** Doris Jones-Nicol, Wilda Laija-Rodriguez, Alberto Restori

### Student Learning Outcomes of the Graduate Program

To fulfill the Department mission, faculty engages in University and professional activities to develop and provide undergraduate and graduate programs for the preparation of professionals. At the conclusion of their program of study, students will be able to:

1. Develop and apply expertise in their fields of study.
2. Think critically and engage in reflective, ethical and legal practice throughout their education and professional lives.
3. Develop empathic, respectful and congruent interpersonal skills and abilities to work successfully with groups and individuals from diverse backgrounds in educational, community and mental health settings.
4. Communicate effectively using oral, written, listening and non-verbal attending and observational skills.
5. Become information-competent scholars and researchers capable of utilizing current technology in work environments while engaging in and disseminating creative, empirical and applied research studies and program evaluations.
6. Collaborate skillfully and respectfully as leaders, consultants and team members in a variety of settings.
7. Develop skills necessary to assess and evaluate individuals and groups and to utilize current technology in work environments.
8. Maintain a multicultural and global perspective, emphasizing social justice, gender and educational equity, access and support.
9. View their roles as preventative, educative and therapeutic in promoting well-being, healthy relationships, academic success and career mastery.
10. Provide service through a wide variety of field-based partnerships informed by theory, research and practice.
11. Act as advocates with initiative, perception and vision to lead and transform the practices and policies of those who provide services to individuals, families, schools, organizations, communities and policymakers.
12. Pursue lifelong professional and personal development through such mediums as continuing education, information, technology, psychological counseling, participation and leadership in professional organizations, and doctoral study.

### University Certificate Programs

In addition to M.A. and M.S. Degree programs, the Department offers four Certificate programs: 1. Post-Master's Certificate in Career Development or Career Education and Counseling; 2. Post-Master's Certificate in College Counseling and Student Services; 3. Infant-Toddler-Family Mental Health Post B.A. Certificate; and 4. Certificate in Parent-Child Specialization/Consultation. Contact the Program Coordinators for more information.

### Requirements for Admissions Consideration into Department Programs

1. Complete University application and requirements:
  - a. Have earned a Baccalaureate Degree from an accredited college or university.
  - b. Have been in good standing at the last institution attended.
  - c. Have at least a 2.5 GPA in the last 60 semester/90 quarter units attempted.
  - d. If cumulative undergraduate GPA is less than 3.0, score at or above the 50th percentile on one of the three sections of the aptitude test of the Graduate Record Examination (i.e., verbal, quantitative or analytical) or on the Miller Analogies Test (MAT). Applicants to the School Psychology Program are required to take the GRE. Applicants to other Department programs with a cumulative undergraduate GPA of 3.0 or above do not have to take the GRE or MAT.
  - e. Pass Upper Division Writing Proficiency Exam by earning a score of 8 or higher.
2. Complete Department application for admission to graduate programs.
  - a. Submit 2 recommendations, either as letters or on Departmental form;

- b. Participate in the admission's interview process; and
  - c. Be accepted by Departmental Student Affairs Committee.
3. Complete all required prerequisite courses with a grade of "B-" or better.

### Requirements for the Master of Science Degree in Counseling

The Master of Science (M.S.) in Counseling offers five options: 1) Career Counseling; 2) College Counseling and Student Services; 3) Marriage and Family Therapy; 4) School Counseling; and 5) School Psychology. Students must take prerequisite courses before formal admittance to a Master's Degree program. Only students admitted to a Master of Science degree program may take classes in that program.

#### 1. Career Counseling Option:

This Option within the Master of Science (M.S.) in Counseling offers graduate-level training in career counseling theory; career resources and program development; approaches to developing organizational based career development programs; consulting; individual and group career assessment; ethical and legal issues; and the career development of special populations. These areas have been identified by the National Career Development Association (NCDA) as essential competency areas for individuals to qualify for national certifications as a Master Career Counselor (MCC, [www.ncda.org](http://www.ncda.org)). Graduates are eligible to take the National Counselor's Examination (NCE) to qualify for certification as a National Certified Counselor (NCC, [www.nbcc.org](http://www.nbcc.org)). Graduates may also choose to pursue certification as a Master Career Counselor through the National Career Development Association. For those graduates with an interest in preparing for a clinical practice as a psychotherapist, the option of becoming a Licensed Professional Clinical Counselor (LPCC) is available. Graduates preparing to be licensed will have to complete additional course work beyond the career counseling course work and complete additional clinical field work/internship and a state examination. Graduates of the program will be prepared for employment as career counselors in the following settings: education (community colleges, colleges and universities); business, industry and government; community-based agencies and organizations; career counseling/consulting firms; and private practice as a career counselor. This program meets the accreditation standards of and is approved by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

## 2. College Counseling and Student Services (CCSS)

The Master of Science (M.S.) in Counseling with an Option in CCSS is a full-time program designed to prepare students for career opportunities in higher education, with particular emphasis on positions serving university and community college students on urban campuses. Special attention is given to working with diverse student populations, including returning, historically underrepresented and disabled students. This program is designed for two types of students: (1) those individuals who desire training for entry-level positions in student affairs, and (2) those who are already experienced professionals in student affairs and wish to increase their theoretical background and range of experience. This program meets the accreditation standards of and is approved by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduates are eligible to take the National Counselor's Examination (NCE) to qualify for certification as a National Certified Counselor (NCC, [www.nbcc.org](http://www.nbcc.org)). For those graduates with an interest in preparing for a clinical practice as a psychotherapist, the option of becoming a Licensed Professional Clinical Counselor (LPCC) is available. Graduates preparing to be licensed will have to complete additional course work beyond the career counseling course work and complete additional clinical field work/internship and a state examination.

## 3. Marriage and Family Therapy Option

The Master of Science (M.S.) in Counseling with an Option in Marriage and Family Therapy/Counseling prepares students for licensure as both a Marriage and Family Therapist (LMFT) and Professional Clinical Counselor (LPCC) in California and in most other states. The state-of-the-art curriculum is designed to teach professional skills to prepare students to work in public mental health, community agencies, hospitals, medical settings, schools, private agencies and private practice, and/or to pursue clinical doctoral study. The curriculum emphasizes strengths-based approaches, diversity, evidence-based practices and development of the person-of-the-counselor, while providing depth in numerous areas of clinical specialties, including children, adolescents, couples, groups, parenting, sexual abuse, substance abuse, psycho-education, severe mental illness and career interventions. Students can further develop their areas of specialty through culminating experiences, which include a Master's project, Master's thesis or individually tailored comprehensive exams. Well prepared with extensive practicum experiences in the first year, students begin intensive training in the field during the second year at community mental health agencies, public mental health, school-based and other mental health related placements. The program's curriculum is approved by the California Board of Behavioral Sciences for MFT licensing ([www.bbs.ca.gov](http://www.bbs.ca.gov)) and the Council for the Accreditation of Counseling and Related Educational Programs (CACREP), the latter enabling students to sit for the National Counselor Examination to qualify as a National Certified Counselor ([www.nbcc.org](http://www.nbcc.org)). The curriculum also integrates the Marriage and Family Therapy Core Competencies to ensure that it adheres to the highest national standards and guidelines. Interested students also may apply to pursue the Pupil Personnel Services School Counseling Credential, the Infant-Toddler-Family

Mental Health Certificate, the College Counseling/Student Services Post-Master's Certificate and/or the Career Counseling Post-Master's Certificate offered in the Department.

#### Prerequisites (12 units)

|     |     |   |
|-----|-----|---|
| EPC | 430 | Development and Learning in Early Childhood Education (3) |
| EPC | 451 | Fundamentals of Counseling and Guidance (3)               |
| PSY | 310 | Behavior Disorders (3)                                    |
| EPC | 600 | Educational Statistics for Research and Measurement (3)   |

*Equivalent courses may be substituted with approval from the Program Coordinator.*

#### Counseling Core Courses (12 units)

|     |      |   |
|-----|------|---|
| EPC | 643  | Diversity in Counseling (3)                           |
| EPC | 657C | Career Interventions in Mental Health Counseling (3)  |
| EPC | 655  | Counseling Theories (3)                               |
| EPC | 671  | Law, Ethics and Professional Issues in Counseling (3) |

#### Marriage and Family Specialization Courses (24 units)

|     |      |  |
|-----|------|--|
| EPC | 656  | Counseling Children, Adolescents and their Families (3)              |
| EPC | 670A | Systemic Family Theories and Their Evidence Base (3)                 |
| EPC | 670B | Postmodern and Cognitive Family Theories and Their Evidence Base (3) |
| EPC | 670C | Psycho-education and Group Process in Family Counseling (3)          |
| EPC | 673  | Community Mental Health Counseling (3)                               |
| EPC | 674  | Family Development Across the Lifespan (3)                           |
| EPC | 675  | Chemical Dependency and Addictions Counseling (3)                    |
| EPC | 677  | Couples Counseling (3)   |

#### Clinical Assessment and Research Courses (12 units)

|     |     |  |
|-----|-----|--|
| EPC | 603 | Clinical Research and Program Evaluation (3)           |
| EPC | 679 | Clinical and Outcome-Based Assessment (3)              |
| EPC | 672 | Mental Health Assessment and Diagnosis (3)             |
| EPC | 678 | Psychopharmacology and Neurobiological Foundations (3) |

#### Practicum and Field Work Courses (12 units)

|     |      |   |
|-----|------|---|
| EPC | 659A | Communication Skills in Counseling (3)                    |
| EPC | 659B | Practicum in Counseling (3)                               |
| EPC | 659P | Field Work in Marriage and Family Therapy/ Counseling (3) |
| EPC | 659Q | Field Work in Marriage and Family Therapy/ Counseling (3) |

*Note: State regulations require that trainees who continue to see clients at a field placement when not enrolled in EPC 659 B, P or Q register for EPC 690: Advanced Field Work and Professional Development for each and every semester during which clients are seen, including summers, until they have received their degree. This requirement applies even if the student has received an incomplete during another semester and/or is seeing clients after finishing the minimum field work requirements.*

#### Culminating Experience (3-6 units)

EPC 697C/698C Comprehensive Exams or Thesis/Project (3-6)

*Note: The majority of students require 2 semesters to complete their culminating experience.*

#### 63-66 Unit program

**Online and Hybrid Courses:** Some of the classes in the MFT/C program are offered in a hybrid (partially online) and/or online format.

Consult the Schedule of Courses for current offerings, which are indicated in the notes for specific sections.

**Course Sequencing and Cohorts:** Based on needs and availability, students can typically apply to one of two cohort tracks: a) An accelerated day-time cohort; or b) A standard afternoon/evening cohort. The accelerated day-time cohort is designed for full-time students working fewer than 15 hours per week and can be completed in 6 semesters (1 calendar years) with full course loads taken during both summers. The standard afternoon/evening cohort is designed for students working 30 or fewer hours per week and requires 2 1/2 to 3 years to complete with reduced summer course work and part-time academic loads when students are in field placements for 15-25 hours per week in the second and third year. See the program's webpage for sequencing of specific cohorts. Note that cohort offerings and course sequencing are subject to change in a given academic year. Students are strongly encouraged to take all courses within their chosen cohort to ensure access to required courses. Students desiring alternative scheduling, please consult with Program Coordinator for availability and approval in advance.

#### Marriage and Family Therapy/Counseling Program Learning Objectives

In addition to the Department's learning objectives, the Marriage and Family Therapy/Counseling program is designed to enable students to do the following:

1. Develop empathic, respectful and collaborative relationships when working with individuals, children, couples and families from diverse backgrounds and socioeconomic classes, as well as with other professionals.
2. Conduct psychosocial, family, clinical, diagnostic, crisis and client progress assessments of clients that account for family system dynamics and larger socio-political and cultural contexts.
3. Utilize family therapy and counseling theories to conceptualize client situations and develop treatment plans that address diverse client needs based on the current evidence base.
4. Provide effective, evidence-based and culturally responsive therapy interventions for individuals, children, couples, families and groups dealing with mild to severe mental health, addiction, family and/or relational issues.
5. Identify the legal, ethical and documentation standards of marriage and family therapy practice, and understand how they apply in different service contexts, such as private practice, schools and public agencies, and with diverse populations.
6. Engage in reflective practices that promote personal growth and self awareness, enabling students to critically and accurately evaluate how their beliefs, values, behaviors and cultural context affect clients and shape their perceptions of clients.
7. Locate and use research to use implement best-practice strategies with diverse clients and issues.

#### 4. School Counseling

The Master of Science (M.S.) Degree in Counseling with an Option in School Counseling is designed to prepare school counselors for work in K-12 public schools. The program is driven by a vision for counselors who can develop comprehensive, reality-based school counseling programs that promote educational equity and high academic achievement for all students. Program courses are integrated with school-based experiences and activities that prepare counselors to address the personal, social, career and academic development of K-12 students. The program meets the accreditation standards of and is approved by the Council for Accreditation of Counseling and Related Educational Programs

(CACREP). Graduates qualify for the State of California Pupil Personnel Services Credential in School Counseling and are eligible to take the National Counselor's Examination (NCE) to qualify for certification as a National Certified Counselor (NCC, [www.nbcc.org](http://www.nbcc.org)).

### Prerequisites (9 units)

## 5. School Psychology

This Option within the Master of Science (M.S.) in Counseling prepares school psychologists for careers within school-based teams to help all children, including those of linguistically and cultural diverse backgrounds, attain academic and social success. Students attain skills in consultation, assessment and intervention, including counseling. Working at both the individual- and systems-level of service delivery, students develop the skills to facilitate collaboration among families, schools and communities. They creatively use evaluation methods and culturally compatible solutions to dissolve barriers that impede the learning process. Through personal and educational development in the program, graduates become competent professionals, lifelong

learners, innovators and leaders in the field. On completion of the program, the student applies for the Advanced Pupil Personnel Services Credential: School Psychology Credential.

### Prerequisites (9 units)

## Curriculum for the Master of Arts in Education with an Option in Educational Psychology:

The Master of Arts (M.A.) in Education with an Option in Educational Psychology offers 1 emphases: 1) Early Childhood Education; and 2) Development, Learning, Instruction and Evaluation. Students must take prerequisite courses before formal admittance to a Master's program.

### 1. Educational Psychology: Early Childhood Education Option:

The specific objectives of the Master of Arts in Education with an option in Educational Psychology and a concentration in Early Childhood Education (ECE) are:

- A. To prepare students to assume leadership positions in early childhood care and education in a variety of educational, health and mental health settings institutions concerned with children from the prenatal stage through age eight. Academic career choices of students selecting this option typically include:

1. instructor of child development courses in community colleges;
  2. parent educator in public adult education or in a variety of private settings;
  3. specialist working with hospitalized children and in programs serving families with high risk infants and young children;
  4. coordinator of community program services for young children and their families;
  5. lead teacher, supervisor or director of programs; and
  6. child advocate working in various social policy agencies.
- B. To prepare students to enter doctoral programs in early childhood education with a view to teaching at the university level, conducting research in child development, planning and administering programs, or developing public policy.
- C. To provide students with knowledge of child development, adult-child interaction, cultural and language diversity, and biological and environmental factors influencing families and their young children and community staff-family collaborations.

This program is aligned with the Professional Standards for Advanced Students (master's level) as specified by the National Association for the Education of Young Children (NAEYC) in concert with the National Council for Accreditation of Teacher Education (NCATE).

Students must complete courses with a grade of "B" or better to make satisfactory progress in the program. Students earning less than a grade of "B," will be required to meet with his/her faculty advisor to determine if they may continue in the program.

#### Prerequisites (6 units)

Admission to the University and to the Program.

|         |   |
|---------|---|
| EPC 430 | Development and Learning in Early Childhood Education (3) |
| EPC 600 | Educational Statistics for Research and Measurement (3)   |

(Equivalent courses may be substituted for prerequisites.)

#### 1. Core Program (21 units)

|            |   |
|------------|---|
| EPC 602    | Research Principles (3)   |
| EPC 609    | Human Development, A Lifespan Perspective (3)                           |
| EPC 632    | Issues, Theories and Current Practices in Early Childhood Education (3) |
| EPC 635    | Foundations of Developmental Curriculum for Early Childhood (3)         |
| EPC 639C   | Field Work in Early Childhood (3)                                       |
| EPC 683    | Collaboration with Families in Educational Settings (3)                 |
| EPC 668    | Partnerships for Excellence in Early Childhood Education (3)            |
| or EPC 642 | Assessment and Evaluation in Early Childhood Education (3)              |

#### 2. Electives (6 units)

Electives must be approved by an Early Childhood Education Program Coordinator

#### 3. Culminating Experience (3-6 units)

|             |                               |
|-------------|-------------------------------|
| EPC 697     | Comprehensive Exam (3)        |
| or EPC 698C | Thesis/Graduate Project (3-6) |

#### Suggested Course Sequence by Semester:

|   |                                       |
|---|---------------------------------------|
| <b>Semester 1:</b>                                  | EPC 632, 639C                         |
| <b>Semester 2:</b>                                  | EPC 602, 635, elective                |
| <b>Semester 3:</b>                                  | EPC 609, 683, elective                |
| <b>Semester 4:</b>                                  | EPC 642 or 688, and either 697 or 698 |
| <b>Semester 5:</b>                                  | EPC 697 or 698 if needed              |
| <b>Electives—Concentrations of Study (optional)</b> |                                       |

Students are not required to have a sub-specialization in their choice of electives, but areas of sub-specialties have been identified as one way to fulfill elective need, depending upon a student's area of interest.

**Cognition and Language**—Electives selected from: EPC 605, 607 and 634. This sub-specialty is ideal for Masters students who may be teaching at the elementary school level or for those with a special interest in learning, motivation or language

**Infant-Toddler-Family Mental Health**—Electives selected from: EPC 630, 631, 633, 636 and 644. The Infant-Toddler-Family Mental Health Certificate provides recognition for a specialized course of study to enhance knowledge of the most recent research and practices related to working with very young children and their families in a variety of educational and health-related settings. The full certificate requires 5 courses, of which 2 courses can be completed as electives in the Masters in Early Childhood Education. 3 additional courses also are required to earn the Certificate. This is not a license, credential or other government-recognized certificate.

## 2. Development, Learning, Instruction and Evaluation

The Development, Learning, Instruction and Evaluation (DLIE) Program offers graduate study of theory research and applications in human life-span development, motivation, learning, instruction, development, teaching processes, affective processes, individual and group differences, assessment, evaluation and instructional design. The specific objectives of the M.A. in Education Degree program with specialization in Educational Psychology/Development, Learning, Instruction and Evaluation are: a) To prepare students according to current academic demands for entry into doctoral programs in educational psychology and education; and b) To offer pre-service and in-service teachers the opportunity to improve their teaching through in-depth study of the psychology of learning, as well as by learning how to do research about students, family, teacher, school, community and teaching-instruction variables.

#### The Degree prepares candidates for the following career goals:

1. Establish a foundation for doctoral study in a variety of fields
2. Become a more effective classroom teacher or mentor
3. Design instructional materials
4. Conduct educational research and program assessment
5. Open a private, educationally-related business
6. Become an educational consultant
7. Work in businesses with an educational or training dimension
8. Evaluate educational programs in various settings such as business, education or government

#### Prerequisites for the M.A. Program in Development, Learning and Instruction:

#### A 3-unit course in Psychological Foundations, which may be any of the following:

|            |  |
|------------|--|
| EPC 314    | Psychological Foundations (3)                            |
| EPC 315    | Psychological Foundations of Learning and Teaching (3)   |
| EPC 420    | Educational Psychology of Adolescence (3)                |
| EPC 500    | Fundamentals for Beginning Teachers (3)                  |
| <i>and</i> |  |
| EPC 600    | Educational Statistics for Research and Measurements (3) |

#### The Admission Requirements for Classified Standing in All Degrees Are:

1. Completion of application and meeting admissions requirements of the University. These requirements include:
  - a. Acceptable score on the Graduate Record Exam (GRE) or the

Miller Analogies Test (MAT) if cumulative undergraduate GPA is below 3.0.

- b. A Bachelors Degree from an accredited college or university.
2. Completion of application for admission to the Department graduate programs. See Program Advisors for specific details. This includes:
  - a. 2 letters of recommendation.
  - b. An admission interview.
  - c. Approval by the Department Student Affairs Committee.
  - d. Satisfactory completion of prerequisite courses pertinent to the specialization selected, with a grade of B- or better within the past 7 years.

**Basic Program for the M.A. in Education with a specialization in Development, Learning, Instruction and Evaluation:**

**1. Required Courses (21 units)**

|     |      |   |
|-----|------|---|
| EPC | 602  | Research Principles (3)   |
| EPC | 605  | Advanced Psychological Foundations of Education (3)   |
| EPC | 607  | Motivation in Learning and Development: Theories and Applications in Educational Psychology (3) |
| EPC | 609  | Human Development: Life-Span Perspective (3)  |
| EPC | 615  | Introduction to Instructional Design (3)  |
| EPC | 684  | Educational Program Evaluation and Assessment (3)   |
| EPC | 695D | Seminar in Selected Studies: Development, Learning and Instruction (3)                          |

**2. Elective Courses (6 units)**

Electives must be chosen in consultation with and must be approved by a DLIE Program Advisor. Students may choose courses covering the following: Human Development, Statistics, Measurement, Evaluation Cognition, Instructional Design and Teaching. (Electives are individualized for each student.)

**3. Culminating Experience (3 units)**

|        |      |  |
|--------|------|--|
| EPC    | 697  | Comprehensive Exam (3)   |
| or EPC | 698C | Thesis/Graduate Project (3); may be taken for an additional 3 units if the culminating activity requires an additional term to complete. |

*Note: A total of 30 units are required for the M.A. Degree.*

All programs must be approved by the Program Coordinator in advance of course enrollment. This listing is provided for information purposes only, is subject to change without notice and is not guaranteed to be correct. The student should consult the University Catalog and the program coordinator for further details and course descriptions.

## Course List

**EPC 314. Psychological Foundations, K-12 (3)**

*This course should be taken only by students not intending to enroll in a K-12 teacher preparation program.* Fulfills the requirement for the CLAD program. Study of the theory and research of educational psychology to learn principles that are basic to the successful teaching of students of all ages, backgrounds and needs. These principles of educational psychology form a foundation of knowledge about teaching that is built upon in subsequent courses in teaching methods and practice. Topics include learning, motivation, development (cognitive, language, socio-emotional, physical and moral), cognition, assessment, instruction, classroom management and individual and group differences (language, ability, ethnicity, social class, gender, exceptionality and family pattern). Implications for teaching students from culturally and linguistically diverse backgrounds are considered throughout the course. During the course, students are required to spend a minimum of 10-20 hours participating and/or observing in public schools or an approved setting.

**EPC 314BL. Psychological Foundations, K-12 (3)**

*Prerequisite: Admission to credential program.* Bilingual Emphasis. Fulfills the requirement for the BCLAD, Spanish Emphasis Program. Same course as EPC 314, except the course is taught in Spanish and is designed primarily for Single and Multiple Subjects-Bilingual Emphasis Credential. Requires a minimum of 20 hours of participation in public schools.

**EPC 315. Psychological Foundations of Learning and Teaching (3)**

*This course should be taken only by students intending to enroll in a K-12 teacher preparation program.* Study of the theory and research of educational psychology to backgrounds and needs. These principles of educational psychology form a foundation of knowledge about teaching that is built upon in subsequent courses in teaching methods and practice. Topics studied include learning, motivation, development (cognitive, language, socio-emotional, physical and moral) and their relationship to learning and instruction, cognition, assessment, classroom management and individual and group differences in learning. Implications for teaching students from culturally and linguistically diverse backgrounds, as well as students with special needs, are considered throughout the course. Students begin to develop a professional portfolio and spend a minimum of 20 hours participating and/or observing in public schools. Integration of course work and field work provides students the opportunity to complete various assignments in preparation for meeting Teacher Performance Expectations (TPE).

**EPC 420. Educational Psychology of Adolescence (3)**

*Required of candidates in the Single Subject Credential Program.* Study of theory and research in educational psychology for successful teaching of adolescents. Subjects include learning, development, motivation, instruction, assessment, classroom management, individual/group differences, peer interactions, and family and community influences. Issues particularly pertinent to adolescence include identity development, self-esteem, suicide, crisis prevention and conflict resolution. Implications for teaching students from culturally and linguistically diverse backgrounds are considered throughout the course. Students are required to complete 2 field-based assignments—an adolescent case study and a secondary classroom learning environment analysis. Course may be offered online, in a classroom setting or both.

**EPC 423. School-Family Interpersonal Relations (3)**

Dynamics of family-school relationships as they affect the interaction of teachers, parents and pupils. Techniques and materials for parent conferences, group meetings and home visits in working toward solutions to problems of home, school and neighborhood.

**EPC 430. Development and Learning in Early Childhood Education (3)**

Examination of theoretical positions in development and learning, including relevant research and implications for educational practice in early years. Some sections of this course may offer a community-service opportunity with activities relating to concepts and theories presented. Check the Schedule of Classes for the CS designation.

**EPC 430F. Field Work in Development and Learning in Early Childhood (1)**

*Recommended Corequisite or Preparatory: EPC 430.* Observation, child study and participation in a variety of preschool programs, including public schools, university lab schools, government- and state-sponsored programs, and private schools. Academic Internship course.

**EPC 451. Fundamentals of Counseling and Guidance (3)**

*Admission restricted to seniors, PBUs and Conditionally Classified graduate students.* Overview of several approaches to counseling in school and

community settings. Understanding of case study methods in assessing individual children is included. Overall guidance programs are studied, with emphasis on counseling relationships.

**EPC 496A-Z. Experimental Topics Courses in Educational Psychology (3)**

**EPC 499ABC. Independent Study (1-3)**

## Graduate Division

The following courses are open to graduate students only. They may not be taken for undergraduate credit.

**EPC 500. Fundamentals for Beginning Teachers (3)**

*Fulfills requirement for Multiple Subjects Teaching Credential.* This course emphasizes major concepts, principles, theories and research in development and learning, with a strong application component in the design and implementation of instruction, assessment and equitable, healthy classroom learning communities.

**EPC 600. Educational Statistics for Research and Measurement (3)**

*Prerequisites: Undergraduate course in basic mathematics and algebra, or permission of the instructor; Current graduate standing in the University.* Introduction to basic descriptive and inferential statistics for applications to graduate courses in educational psychology, counseling, general graduate-level educational courses in tests and measurements and research. Normally a prerequisite to EPC 601—Fundamentals of Measurement and EPC 602—Principles of Educational Research, except when waived by instructor or when equivalent course has been taken.

**EPC 601. Individual and Group Assessment (3)**

*Prerequisite: EPC 600 or equivalent.* Examination of individual and group assessment instruments and their application in the evaluation of intellectual performance, personality constructs, career interest and interpersonal relations. Includes historical foundations, non-discriminatory procedures, ethical standards and social issues. Lab fee Required.

**EPC 602. Research Principles (3)**

*Prerequisite: EPC 600.* Introductory course in techniques, use, presentation and understanding of research principles in education and counseling and the contributions of research to the solution of problems.

**EPC 603. Clinical Research and Program Evaluation (3)**

*Prerequisites: EPC 600 or equivalent; Admission to a CSUN Master's Degree Program in Counseling.* Introduces quantitative and qualitative clinical research methods, including randomized clinical trials, efficacy and effectiveness studies, program evaluation, client outcome, clinician effectiveness and evidence-based practice strategies. Emphasis placed on conducting research and evaluating outcomes with children, couples, families, diverse clients and vulnerable populations. Also covers federal, state and private foundation agendas, systems of access and channels for funding mental health research.

**EPC 605. Advanced Psychological Foundations of Education (3)**

Focuses on the interaction of the learning-teaching process. Emphasis on pertinent learning theories, individual differences in capacities and development of learners, and evaluation of learning and instructional models.

**EPC 606. Seminar in Adult Development (3)**

Focus on adult stages; life crises, and biological, psychological and social development. Includes antecedents from childhood and adolescent years. Course may be offered online or in a classroom setting.

**EPC 607. Motivation in Learning and Development: Theories and Application in Educational Psychology (3)**

*Prerequisite: One of the following: EPC 314, 420, 600, PSY 313 or an equivalent course.* Theories of motivation and research findings with

specific relevance to learning process and human development within the context of educational psychology are examined. Psychological, social, cognitive and biological foundations of such motives are included. Topics include intrinsic motivation, achievement and career motivation, anxiety, causal attributions, extrinsic incentives and contingencies and motivation in social learning. Applications of motivation theories to practical situations in educational psychology, counseling, teaching and supervising are made.

**EPC 608. Social Psychological Education (3)**

*Prerequisite: Instructor consent.* Intensive study of social-psychological theories, research and types of social intervention that can be used in leadership training and group development. Includes such topics as socialization in school and family; organizational climate, roles and stereotypes in educational settings; understanding of group process and group skills in relation to goal structures; group facilitation skills; and the theory, research and practice of consultation and negotiation skills. Structured group lab experiences are included.

**EPC 609. Human Development: A Life-Span Perspective (3)**

*Prerequisite: EPC 430 or an equivalent course.* Advanced course focusing on development from infancy through later adulthood. Theories and research with special relevance to the life-span are examined. Topics include cognitive, social and personality development and will examine biological, environmental and family influences. Relevance of a life-span approach to development for those in human services professions will be emphasized.

**EPC 611. Seminar in Educational Psychology (3)**

*Prerequisite: Instructor consent.* Exploration and synthesis of the issues in metacognition, information processing and evaluation of school-age learners.

**EPC 612. Advanced Study in Child and Adolescent Development (3)**

Recent contributions in research, practical experimentation or theory that have important bearing on the problems of human development, the significance of the developmental approach in working with children and youth, and their impact throughout the life-span.

**EPC 613. Assessment and Evaluation of Learning (3)**

*Prerequisite: EPC 600 or instructor consent.* Investigation of the nature of evaluation and the rationale for translating general objectives into behaviors and into measurement operations in the form of different types of tests in the different fields of knowledge. Lab fee required for residential course.

**EPC 614/L. Advanced Educational Statistics (3/1)**

*Prerequisites: EPC 600 or equivalent, EPC 602.* Provides statistical background necessary to critically analyze and carry out research in educational contexts. It extends knowledge and skills of frequently used statistical concepts, including analysis of variance and covariance, regression analysis and nonparametric analysis. Applications of these concepts are pursued in the laboratory with data sets utilizing SPSS to prepare students to complete research and evaluation studies in educational settings.

**EPC 615. Introduction to Instructional Design (3)**

This course is a study of theory, research and principles of instructional design as applied to the successful development of effective instructional materials and media for learners of all ages, backgrounds and needs in educational settings. Topics studied include instructional design, theories and models, assessment, proposals, layout principles, mockups, presentation techniques and instructional strategies, materials, products and media. University graduate students will find this course helpful in the development of Master's projects, such as handbooks, workshop sand websites. Course may be offered online, in a classroom setting or both.

**EPC 620. College Counseling and Student Services Profession (3)**

Examines theories and research in the field of student affairs. Introduces specialty areas, roles and functions of college counselors and student services professionals. Analyzes current problems, future trends, professional standards, legal issues and ethical concerns, as well as organizational patterns and the interactions of academic, business and student affairs areas.

**EPC 622. American College Student and Campus Environment (3)**

Examines personal characteristics and attitudes, social-cultural factors and developmental theory as they pertain to traditional and non-traditional college students. Explores student development, student service and campus ecology approaches. Surveys environmental assessment and needs analysis techniques, program planning, intervention strategies and program evaluation relevant to the college population.

**EPC 630. The Infant-Parent Dyad and The Social/ Emotional Development of The Infant-Toddler (3)**

*Prerequisite:* EPC 430 or equivalent. Examination of the infant-parent dyad is a fundamental building block to understanding the social/emotional development of the infant and toddler. Students learn the most current research regarding affective regulation, shared attention and two-way communication in the context of parent-infant interaction. Attention is given to understanding individual differences in coping styles, supporting optimal development of social/emotional competence.

**EPC 631. Family, Culture and Ecological Influences On Early Childhood Mental Health Development (3)**

*Prerequisite:* EPC 430 or equivalent. Exploration of a broad range of family, cultural and ecological factors that influence early childhood development and mental health. Drawing on current research and promising practices from the fields of education and mental health, students will increase their understanding of protective and risk factors that strengthen or weaken families within psychological, cultural and ecological contexts, and strategies to support the development and maintenance of optimal mental health of young children and their families.

**EPC 632. Issues, Theories and Current Practices in Early Childhood (3)**

*Prerequisite:* EPC 430. Current issues and trends in early childhood education, including examination of relationships between basic assumptions, theory and practice.

**EPC 633. Neurobiological Development, Sensory Issues and Challenges in Early Childhood (3)**

*Prerequisites:* EPC 430 or equivalent. Understanding the interaction of biology and early experience in achieving developmental milestones. Neuro-developmental and sensory profiles help parents, teachers and related professionals understand children's early experience of themselves, others and their world.

**EPC 634. Language and Concept Development in The Early School Years (3)**

*Prerequisite:* EPC 430. Study of research and current theoretical positions in language and concept development with major emphasis on the implications for learning in the school setting.

**EPC 635. Foundations of Developmental Curriculum for Early Childhood (3)**

*Prerequisites:* EPC 430 and 632, or instructor consent. To be taken concurrently with experiences in the field, either teaching or field work.

**EPC 636. Systems and Policies in Infant-Toddler-Family Mental Health (3)**

Focus on the systems and policies that support optimal infant-toddler-family mental health. Students participate in researching the national, state and local legislation that influences the related child care, educa-

tion and service delivery systems. This includes the exploration of private and public agencies in place to administer and/or deliver services for young children and their families. Mapping these systems of care and education, as well as constructing the professional's role in the system, culminates in an increased knowledge and understanding of the policies that support optimal infant-toddler-family mental health. Finally, understanding the role of these systems as seen from a family's perspective informs and supports the family's successful navigation to obtain appropriate care and education resources for their child.

**EPC 637. Comparative Early Childhood Education and Care (3)**

*Prerequisites:* EPC 430, 632; A course in child psychology or child development; Graduate standing. Seminar in early education and child care in different countries. Topics include: division of responsibility for child between family and state, predominant national values and goals, and the way in which these are reflected in the methodology and curricula of early childhood education.

**EPC 638. Infant Development, Care and Education: Issues, Programs, Directions (3)**

*Prerequisite:* EPC 430, FCS 335 or equivalent 3-unit course. Basic course in infant or early childhood development. Theory and research on various aspects of infant development care and education. Assessment of infants from birth to age 3, with and without handicaps, for educational planning. Infant intervention and infant day-care issues, programs, problems and directions.

**EPC 639A-F. Field Work in Early Childhood (1-6)**

*Prerequisites:* EPC 430; Formal admittance into the Masters Program in Early Childhood Education. Supervised field work in a variety of early childhood and parent-child settings. Students are required to spend 20 hours in field work per academic unit (e.g., 3 units requires 60 hours of field work) and participate in a two-hour weekly seminar with their field work professor. Normally, students will enroll in this course for 3 units (639C) during their first semester, requiring work directly with young children. Successful completion of this course is required for students to be fully Classified in the Masters Program in Early Childhood Education. Additional semesters may be taken as program electives in settings approved by the course professor.

**EPC 640. Creativity and The School (3)**

Focus on identifying, generating and extending a range of behaviors and conditions that will increase creative productivity in the classroom. Examines various models of the creative process, as well as the social/historical influences that have affected school practices. (Cross listed with EED 652.) (Offered Spring semester)

**EPC 641. Evaluation in The Bilingual Classroom (3)**

Basic course designed to deal with evaluation of the bilingual student. Primary emphasis is placed on the purpose of educational evaluation; the relationship between students identified needs, instructional objectives (cognitive, socio-emotional and psychomotor) and assessment strategies; criteria for instrument construction/selection; and strategies for individual diagnosis, prescription and evaluation of the bilingual learner.

**EPC 642. Assessment and Evaluation in Early Childhood Education**

*Prerequisite:* 639C or consent of instructor. Theories of child assessment and program evaluation related to children from birth to age 8 are studied. Practical applications of theory, design and ethical use of assessment and evaluation are applied in a field-based case project.

**EPC 643. Diversity in Counseling (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Self-assessment of knowledge, sensitivity and attitudes toward diverse populations, including race, ethnicity, gender, age, socioeconomic status, sexual orientation, spirituality, ability and language. Examination

of family structure and social patterns in California's ethnic populations and differences across social class. Review of cross-cultural research, theories, interventions and resources. Emphasis on models of societal oppression, privilege, cross-cultural dynamics, poverty and social justice, as well as the impact of social stress and prejudice on mental health recovery. Designed for family therapists and mental health counselors in school, college and community settings.

**EPC 644. Current Issues in Infant-Toddler-Family Mental Health (3)**

Exploration of new advances in infant-toddler-family development, noting technological advances in measurement leading to increased understanding of neuro-development. The interaction of the development of emotion and cognition, and influences of environmental factors. Consideration of multiple factors affecting development in the child's context of meaningful attachment relationships.

**EPC 645. Introduction to Humanistic Education (3)**

Designed to assist teachers and counselors in integrating the "affective" spectrum in the lives of students by applying insights gained from humanistic psychology. The integration of affective concerns into the cognitive content of lessons through the use of role playing, simulations, fantasy and group process is discussed and demonstrated.

**EPC 646. Applied Child Development for Parent and Child Educators (3)**

*Prerequisite: A course in Child Development. Recommended: EPC 633 or 638.* Seminar on behavior of children that creates problems for them and that adults find difficult. Examination of factors that contribute to emotional and behavior problems. Interaction between temperament and environment, and early signs of vulnerability for later pathology. The major focus is on applications of knowledge to effective and growth-supporting ways of dealing with children, geared to prevention of serious problems.

**EPC 647. Assessment and Intervention with Child and Family in Various Settings (3)**

*Prerequisite: A course in Child Development. Recommended: EPC 646.* Study of stress and problems that impinge upon parents and children and interfere with healthy intra-family interactions. Structured observations as assessment. Examination of methods of assessing strength and problems of child, parents, teacher/care provider and environments. Adapting assessment to settings—home, school, child care settings. Planning strategies for assessment-based intervention and evaluation of effectiveness.

**EPC 647L. Lab in Parent-Child Assessment and Intervention (1)**

*Prerequisite: Concurrent or prior enrollment in EPC 647.* Applications of assessment of children and adults-child interactions (studied in EPC 647), with an emphasis on techniques of observational assessment and planning of intervention strategies for individual cases.

**EPC 648. Consultation with Parents, Teachers and Other Human Service Professionals (3)**

*Prerequisite: A course in Child Development. Recommended: EPC 646 or 647.* Exploration and study of theory-derived practices regarding communication and consultation with parents and teachers with respect to problems they encounter with children. Educational and clinical applications. Issues regarding information-sharing with other professionals. Collaborating with other professionals and making referrals.

**EPC 648L. Lab in Consulting with Parents, Teachers and Other Professionals (1)**

*Prerequisite: Concurrent or prior enrollment in EPC 648.* Practice in consulting with parents and professionals, based on the study of the content of EPC 648 of which this lab is an adjunct. Practice occurs both in the form of role playing and peer consulting and, when possible, with parents, child-care providers or teachers in the field.

**PC 650. The Counselor in The Community (3)**

*Prerequisites: EPC 451 or undergraduate major in social or behavioral science; Department acceptance into M.S. Program in Counseling or final acceptance into Pupil Personnel Services Credential Program.* Introduction to precepts of community counseling in the emerging fields of human services. Theories of counseling, cultural diversity, career choice, perception, motivation, women and aging are covered. Institutions such as schools, the world of work, families, partnerships and case study methods are included.

**EPC 651. Seminar in Pupil Personnel Services in Elementary and Secondary Schools (3)**

*Prerequisites: EPC 654, 656.* Comprehensive study of pupil personnel services within elementary and secondary schools, including: role and function of the counselor; development and organization of guidance services; program evaluation strategies; model guidance programs; individual evaluation instruments specific to children; techniques of consulting with teachers, parents and other school personnel; appropriate referral agencies; professional resources; and current issues.

**EPC 652. Family Law (3)**

*Prerequisite: Graduate standing.* Consideration of the statutory regulations and community and social provisions relating to families, and of their implementation. Coordination of legal and social agencies.

**EPC 653. Measurement for School and Career Counseling (3)**

*Prerequisite: EPC 600.* Investigation of standardized group tests, with emphasis on their sources, evaluation, selection, administration, scoring and interpretation of results.

**EPC 654. Career Interventions in Mental Health Counseling (3)**

*Prerequisite: Admission to a CSUN Master's Degree Program in Counseling.* Prepares family therapists to assist children, teens and adults with a wide range of career issues that arise in clinical practice, as well as prepare therapists for work in EAP environments. Topics covered include career counseling and development theory, diversity, harassment and discrimination in the work place, relationship issues in the work place, dual career couples, unemployment and underemployment, and supported employment for the severely mentally ill. Emphasis is placed on evidence-based practices and diversity issues.

**EPC 655. Seminar in Counseling Theory and Practice (3)**

*Prerequisite: Admission to a CSUN Master's Degree Program in Counseling.* Counseling theories and treatment planning, including psychodynamic, humanistic-existential, cognitive-behavioral, feminist and solution-focused theories, including an examination of the evidence base and history of the counseling profession. Emphasis is placed on applications with diverse populations in community, school and college settings.

**EPC 656. Counseling Children, Adolescents and Their Families (3)**

*Prerequisites: EPC 670A; Admission to a CSUN Master's Degree Program in Counseling.* Counseling theories and techniques for working with children, adolescents and their families, including evidence-based treatments for common childhood disorders, assessment approaches, play and child therapy techniques, child abuse treatment, domestic violence, self-harm and suicide interventions. Also addresses resiliency, as well as Gay-Lesbian-Bisexual-Transgender-Questioning and diversity issues.

**EPC 657A. Seminar in Career Counseling Theory (3)**

*Prerequisite: EPC 451.* Comprehensive review and critique of current career development and decision theories. Exploration of changing concepts of work and careers, and their implications for career planning. Focus on the relationship of career to other issues of counseling and development.

**EPC 657B. Seminar in Career Counseling Resources (3)**

*Prerequisite:* EPC 451. Application of career/life planning concepts and strategies in various career education and counseling settings, including sources of educational and career information and career counseling referral agencies. Focus is on the use of objective information in career counseling. Meets Pupil Personnel Services course requirement in Career Education and Counseling.

**EPC 658/L. Seminar in Group Counseling and Lab (3/1)**

*Prerequisite:* EPC 659A. *Corequisite:* EPC 658L. *Preparatory:* EPC 451, 655. *Instructor consent.* Theory and practice of group counseling: group work and group development in various settings. Designed to develop and increase understanding and skills related to group counseling; to stimulate interest in working with groups, to enable counseling personnel to consider appropriate uses for group counseling and to evaluate its effectiveness in demonstration and practice. Lab: Extensive practical experience in group counseling entailing supervised feedback. Theory is applied to the actual practice of group work.

**EPC 659A. Communication Skills in Counseling (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling; *Recommended Corequisite:* EPC 655. Communication theory and skills, designed to help students develop greater self-knowledge and become aware of their impact on others through participation in group experiences and peer counseling. Emphasis on verbal and non-verbal cues, refinement of basic response skills and the subtleties of language and style.

**EPC 659B. Practicum in Counseling (3)**

*Prerequisites:* EPC 659A; Admission to a CSUN Master's Degree Program in Counseling. Supervised applications of counseling skills in classroom and field work settings, including peer counseling and community counseling sessions. Topics include crisis management and safety planning with suicidal or homicidal clients, child/elder abuse, domestic violence and self-injury, as well as introducing clients to counseling, professional documentation, case management and community referrals. Students must complete a minimum of 40 hours of direct services with clients.

**EPC 659CC and DC. Field Work in Counseling Services (3+3)**

*Prerequisites:* EPC 643, 655, 659A, 659B. Supervised field training in an organized program for those specializing in Pupil Personnel Services at either elementary or secondary level or those in community-based counseling programs. Flexible units with consent of advisor. Normally, students enroll in EPC 659C and 659D for two, 3-unit semesters. A third semester may be required with consultation with the advisor. (Credit/No Credit only)

**EPC 659E and F. Field Work in School Psychology (1-6)**

These two courses are designed to help the student learn the job of the school psychologist through actual field work experience. Primary emphasis is on learning the function of a school psychologist—increasing psycho-diagnostic skills to a point where the student is able to select, administer and interpret appropriate assessment measures; learning to work with children, parents, teachers and administrators; and acquiring skill in administrative and coordinating aspects of the job. Students work closely with the field and campus supervisors. Normally, students enroll in EPC 659E and 659F for two, 3-unit semesters. A third semester may be approved with consultation with the advisor. (Credit/No Credit only)

**EPC 659G and H. Internship in School Psychology (1-6)**

*Prerequisites:* EPC 659E, 659F or PSY 655C. Intensive supervised internship in a multi-cultural school for those completing the Pupil Personnel Services Credential/School Psychologist Authorization. Course objectives require vigorous application of diagnostic prescriptive and consultative skills. Students complete a total of 6 units. Actual number of

units per semester is determined by instructor and student. Normally, students enroll in EPC 659G and 659H for two, 3-unit semesters. (Credit/No Credit only)

**EPC 659JC and 659 KC. Field Work in College Counseling and Student Services (1-6)**

*Prerequisites:* EPC 620, 659A/B. Intensive supervised field work experience in an organized program for those specializing in college counseling and student services. Students are required to develop a comprehensive learning plan and spend at least 2 hours per week in individual and/or group supervision. Actual number of units per semester is determined by instructor and student. Normally, students will enroll in EPC 659JC/659KC for two, 3-unit semester. (Credit/No Credit only)

**EPC 659L and M. Internship in Counseling in Business, Industry and Government (1-6)**

*Prerequisite:* *Instructor consent.* 8 hours per week of supervised placement in business or industrial setting with experience in employee assistance counseling, human resources development and career development counseling. Students attend weekly seminars and work closely with University and on-site supervisors, receiving one hour face-to-face supervision per week. Normally, students enroll in EPC 659L and 659M for two, 3-unit semesters. A third semester may be approved with consultation with the advisor. (Credit/No Credit only)

**EPC 659P. Field Work in Marriage and Family Therapy/Counseling (3)**

*Prerequisites:* EPC 655, 659B, 670A, 671, 672; *Approval of advisor.* Course may be offered for 1-6 units. Supervised training at an approved field site for those specializing in Marriage and Family Therapy/Counseling. Students must apply for and locate a community placement prior to enrolling. Course covers applied skills in progress notes, clinical assessment, treatment planning, working with supervisors, managing and crisis issues, as well as self care and affect regulation techniques. Students must complete a minimum of 50 face-to-face hours to receive credit for the course. Course may be taken up to 3 times.

**EPC 659Q. Field Work in Marriage and Family Therapy/Counseling (3)**

*Prerequisites:* EPC 655, 659B, 659P, 670A, 671, 672; *Approval of advisor.* Supervised training at an approved field site for those specializing in Marriage and Family Therapy/Counseling. Students must apply for and locate a community placement prior to enrolling. Course covers applied skills in case conceptualization and use of theories with clients. Students must complete an additional 100 face-to-face hours beyond the 50 required for 659P, of which 20 hours must be group-counseling hours, to receive credit for this course. To graduate, students must complete a minimum of 240 face-to-face counseling hours and approximately 360 hours of supervision and other professional activities for a total of 600 hours. Students seeing clients after completing this course must register for EPC 690 each semester during which clients are seen.

**EPC 659X. Counseling Practicum: Genetic Counseling Skills (3)**

*Prerequisite:* Acceptance into the graduate program in Genetic Counseling or permission from the instructor. Lectures and discussion covering the practice-based competencies required by the American Board of Genetic Counseling (ABGC), shown at [www.faseb.org/genetics/abgc/acc-04b.htm](http://www.faseb.org/genetics/abgc/acc-04b.htm). Supervised practical application of genetic-counseling skills in the classroom.

**EPC 660. Counseling for Career Adjustment and Change (3)**

*Prerequisite:* EPC 657A. Seminar to develop career counseling competencies uniquely related to the needs of adult clients who are faced with problems of career adjustment and change. Includes theoretical constructs and models to prepare career counseling professionals for work in business and industry, adult schools and higher education and various private settings.

**EPC 661. Multi-Systemic Behavioral Interventions (3)**

Provides school psychology students with comprehensive research-based information and best practices on how to assess children with behavioral disabilities and develop interventions. A multi-systemic behavioral approach to intervention is emphasized. Use of functional assessment, behavior intervention and prevention programs for students with behavioral disabilities is discussed. Additionally, students learn single-case methodology and begin learning about behavior consultation.

**EPC 662. Current Issues in Career Education and Counseling (3)**

*Prerequisite:* EPC 657A. Seminar to investigate current and emerging issues that affect the nature of career education and counseling. Focus is on the implications of the counseling needs of special populations, job market shifts and the availability of work, changing work patterns, and longitudinal career development research for career counseling practices.

**EPC 663A/L. Clinical and Psychometrics Assessment Techniques and Lab (3/2)**

*Prerequisites:* EPC 601; SPED 610. *Recommended Corequisite:* EPC 659E. History, theory and practice of individual assessment. Emphasis on cognitive-intellectual abilities testing as it relates to learning and adequate functioning. Supervised practice in test administration, interpretation of data from multiple sources and communication of results for program planning. (Limited to students accepted into the School Psychologist Credential Program.) Lab fee required.

**EPC 663B/L. Clinical and Psychometric Assessment Techniques and Lab (3/2)**

*Prerequisite:* EPC 663A/L. *Recommended Corequisite:* EPC 659F. History, theory and practice of individual assessment. Emphasis on socio-emotional abilities and personality assessment related to learning and adequate functioning. Supervised practice in test administration, interpretation of data from multiple sources and communication of results for program planning. (Limited to students accepted into the School Psychologist Credential Program.) Lab fee required.

**EPC 664. Neuro-developmental, Emotional and Behavior Disorders (3)**

The course provides a knowledge base of the etiology and characteristics of major neuro-developmental, emotional and behavior disorders in children and youth, as well as an understanding of current evidence-based interventions in the schools. Students will be introduced to the ecological factors in the development of common disorders, including biological bases, and family, school, peer, community and school influences. Information learned will be used as guidelines for identifying children in the schools who need treatment. Lab fee required.

**EPC 665. School-Based Counseling of Children and Teens (3)**

*Prerequisites:* EPC 659A, 659B. Emphasizes the use of creative, reflective, interpersonal and critical-thinking skills to counsel children and teenagers, and to consult collaboratively with parents, teachers and other professionals in a school-based, inclusive learning community. Research and theory are linked to best practices in wellness promotion, crisis intervention and individual and group counseling. Application of developmental, diversity and ecology theories, as well as legal and ethical principles is stressed.

**EPC 667. Introduction to School Psychology (3)**

*Prerequisite:* Admission into the School Psychology Program. *Corequisite:* EPC 659A. School psychology is a profession dedicated to enhancing the educational and mental health needs of all pupils. This course provides an introduction to current roles and functions of school psychologists as guided by the history of the profession, professional ethical and education standards, state and national legal mandates, and future trends.

Students spend a minimum of 50 hours in the schools getting to know the role of school psychologists and the organization of schools.

**EPC 668. Partnerships for Excellence in Early Childhood Education (3)**

*Prerequisites:* EPC 639C; *Formal application to enroll in the course or permission of instructor prior to the beginning of the semester.* Students meet with mentors and faculty to study, design, implement and evaluate outcomes of quality improvement consultation/collaboration in center-based early care and learning programs. Field-based experience and weekly attendance in faculty-led seminar sessions are included. Students are required to submit a course application and be approved for enrollment prior to the beginning of the semester. The course may be taken up to three times with the approval of the course instructor and/or M.A. Program Coordinator(s).

**EPC 670A. Systemic Family Therapy Theories and Their Evidence Base (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Case conceptualization and treatment planning using systemic marriage and family therapy/counseling theories, including structural, strategic, experiential and intergenerational theories. Addresses the associated evidence base, common factors research, and epistemological foundations of systemic theories. Applications with diverse clients, children and the severely mentally ill are emphasized.

**EPC 670B. Postmodern and Cognitive Therapy Theories and Their Evidence Base (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Case conceptualization and treatment planning using postmodern and cognitive-behavioral marriage and family therapy/counseling theories, including solution-focused, narrative, collaborative, cognitive-behavioral, and behavioral approaches. Addresses postmodern epistemological and philosophical foundations, the associated evidence base, behavioral parent education, common factors research and common factors of MFT supervision models. Applications with diverse clients, children and the severely mentally ill are emphasized.

**EPC 671. Laws, Ethics and Professional Issues in Counseling (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Laws, ethical decision making, professional identity, professional advocacy, mandated reporting and licensing requirements that relate to marriage and family therapists and professional counselors in California. Emphasis on differing ethical practices across contexts, including recovery-oriented public mental health, as well as ethical issues related to working with and advocating for diverse clients and collaborating with other professionals. The ethics codes of AAMFT, ACA and CAMFT will be contrasted and compared.

**EPC 672. Mental Health Assessment and Diagnosis (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Examines clinical assessment and diagnosis of adults and children manifesting mild to severe mental disorders, and includes training in the mental status examination, use of the Diagnostic and Statistical Manual of Mental Disorders, co-occurring disorders and recovery-oriented prognosis for severe mental illness. Emphasis on diversity and socioeconomic issues, as well as evidence-based treatments and best practices.

**EPC 673. Community Mental Health Counseling (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Examines theories and skills required in contemporary community mental health settings, including recovery-oriented treatment for severe mental illness, disaster and trauma response, services for victims of abuse and the homeless, foster care, case management, client advocacy, in-home and in-school services, bilingual client services, collaborating with other pro-

professionals, medical family therapy, and local community service resources. Provides a practical overview of public and private systems of care, and opportunities to meet with the severely mentally ill and their families.

**EPC 674. Family Development Across the Lifespan (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. This course enables students to use information about healthy functioning to help individuals, couples and families reach developmental milestones and effectively transition through stages of individual and family development. Topics covered include family life cycle issues, such as marriage, childbirth, child rearing, parenting, divorce, step-parenting, alternative family forms, aging, long-term care, and end of life and grief counseling. In addition, health, resiliency and wellness models and psychosocial developmental processes are covered, as well as the effects of diversity and socioeconomic issues on individual and family development. Emphasis on evidence-based practices.

**EPC 675. Chemical Dependency and Addictions Counseling (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. Major approaches for identifying, evaluating, diagnosing and treating persons with alcohol and substance abuse or dependency, co-occurring disorders and behavioral addictions. Topics include the effects of psychoactive drug use, theories of the etiology of addiction, systemic dynamics of alcoholic and substance abusing families, legal requirements, community resources for individual teens, adults and their families, prevention of addiction, harm reduction models, evidence-based models for couple and family treatment, recovery models, peer support models and motivational interviewing.

**EPC 676. Seminar in Genetic Counseling (3)**

*Prerequisite:* Acceptance into the Graduate Program in Genetic Counseling or permission from the instructor. Focuses on contemporary issues in genetic counseling, including the social/cultural, ethical/legal and individual/family foundations. Attitudes and values of a diverse multicultural client population in the genetic counseling context will be examined. Crisis and grief counseling are included. Focus is on the relevance of these issues in the clinical setting.

**EPC 677. Counseling Couples in Relationships (3)**

*Prerequisites:* EPC 670A; Admission to a CSUN Master's Degree Program in Counseling. Advanced theories and techniques for working with couples, including evidence-based treatment, research on successful marriages and divorce, premarital counseling, gay and lesbian couples, psychosexual dysfunction, integrated sex-marital therapy, co-parenting after divorce and multicultural couples. Emphasis on assessing for violence and addressing safety issues with couples experiencing domestic violence.

**EPC 678. Psychopharmacology and Neurobiological Foundations (3)**

*Prerequisites:* EPC 672; Admission to a CSUN Master's Degree Program in Counseling. Introduces students to the neurobiological foundations of family therapy, including an overview of sexual dysfunction, interpersonal neurobiology and effects of trauma. Covers biochemical theories of mental disorders and the various classes of psychoactive medications used to treat these disorders across the lifespan. Particular attention given to utilization patterns based on sex, socioeconomic status, ethnicity and other diversity factors. Emphasis on the role of family therapists in the assessment, referral and management of clients being treated with psychotropic medication.

**EPC 679. Clinical and Outcome-Based Assessment (3)**

*Prerequisite:* Admission to a CSUN Master's Degree Program in Counseling. *Co-requisite:* EPC 659P, 659Q, 690 or approved concurrent field site experience. Introduces students to contemporary and outcome-based assessment in marriage and family therapy. Covers commonly used assessments related to mental health diagnosis, child functioning, couple functioning, family functioning, forensics, client outcome, therapeutic alliance and therapist effectiveness. Emphasis on evidence-based practices and diversity issues. Course requires that students measure client progress and therapeutic alliance in their field settings or approved equivalent.

**EPC 680. Seminar in School Psychology (3)**

In-depth review of topics in educational and social psychology relevant to the school psychologist. Exploration and analysis of personal requirements necessary for competence as a school psychologist. A culminating seminar required for the School Psychologist Credential.

**EPC 681. Classroom Communication and Management Methods (3)**

*Prerequisites:* Possession of Elementary School Teaching Credential; EPC 314, PSY 350 or equivalent 3-unit course. Focuses on a study of the theoretical bases and the implementation of a range of approaches to classroom communication and management (e.g., the behavioral modification approach, the socio-emotional climate approach, and the group-process approach). These approaches are used in role-playing and analyzing typical classroom problem situations. (Cross listed with EED 681.)

**EPC 682. Foundations of School Counseling (3)**

Overview and introductory program course in school counseling, covering the history of school counseling; academic, personal/social and career development domains of school counseling; state and national standards; the mission and philosophy of the CSUN program; social justice issues, including inequity in education and achievement; model school counseling programs; and current research and trends in the field.

**EPC 683. Collaboration with Families in Educational Settings (3)**

*Prerequisite:* EPC 314 or 430 or equivalent course or instructor consent. Principles and practices of collaborating with families in educational settings from infant- and child-care programs through high school. Considerations of attachment, family systems theory, family forms, the role of culture and the ecological perspective, the impact of family on child development and student achievement, and current research.

**EPC 684. Educational Program Evaluation and Assessment (3)**

*Prerequisites:* EPC 602. Basic principles and methods of educational program evaluation and measurement within the pre-K-12 schools. Includes evaluation models, current assessments used in schools and current research in program evaluation. Addresses issues in measurement and evaluation, including bias in testing, test-based tracking, and alignment of standards and assessments.

**EPC 687. Career Guidance, College Selection and Technology in School Settings (3)**

Application of concepts and strategies for providing career/life planning and college-selection services using various aspects of technology. Focus is on the use of objective information in career counseling and college selection. Meets PPS course requirement in Career Education and Counseling.

**EPC 688. Measurement and Assessment in School Settings (3)**

*Prerequisite:* EPC 600. Investigation of standardized group tests, with emphasis on their sources, evaluation, selection, administration, scoring and interpretation of results.

**EPC 689. Leadership in School Counseling (3)**

*Prerequisites:* EPC 682, 659A/B. Overview of the knowledge and skills required for effective leadership in schools by school counselors, with an emphasis on organizing, implementing, managing and evaluating comprehensive school guidance and counseling programs. Topics include leadership theory and principles; current research in educational leadership, leadership skills, education reform movements, strategic planning, school climate and culture, school-based management and collaborative decision making; school counseling management systems; and team building.

**EPC 690ABC. Advanced Field Work and Professional****Development (1-3)**

*Prerequisites:* EPC 655, 659A, 659B, 670A, 671, 672; *Approval of instructor.* May be offered for 1-3 units. Students registering for this class must be placed in an approved field work setting prior to enrolling. Course required by state licensing board for MFT and Counseling trainees each Fall, Spring and Summer semester when students are seeing clients and not enrolled in another field work class. Topics covered include post-degree professional development, vitae development, internship registration, internship placement, license exam preparation, therapist self-care, private practice, supervision and career development. May be taken up to 6 times as needed to complete the degree; further enrollment requires the approval of the program coordinator.

**EPC 695A-Z. Seminar in Selected Studies (3)**

*Prerequisite:* *Graduate standing.* Special seminars in selected topics.

**EPC 696. Directed Graduate Research (3)**

Students are responsible for defining and organizing their own research problems. Reports on research are expected to be made to Department faculty.

**EPC 697. Directed Comprehensive Studies (3)**

*Prerequisite:* *Candidate must assemble a Comprehensive Exam Committee prior to registration.* Advanced studies of comprehensive topics. Taken during final semester of program. See Department Culminating Experience Handbook for information on how to form a committee. (Credit/No Credit only)

**EPC 698C. Thesis/Graduate Project (3-6)**

*Prerequisite:* *Candidate must assemble a Project/Thesis Exam Committee prior to registration.* Develop a thesis or project on an advanced topic in student's field of specialization. Typically taken during final two semesters of program. See Department Culminating Experience Handbook for information on how to form a committee. (Credit/No Credit only)

**EPC 699A-C. Independent Study (1-3)**

# Electrical and Computer Engineering

College of Engineering and Computer Science

**Chair: Ali Amini**

**Jacaranda Hall (JD) 4509**

**(818) 677-2190**

**www.csun.edu/ece**

## Staff

Deazell Johnson, Farrah Mirzaee

## Faculty

Ali Amini, Nagwa Bekir, Somnath Chattopadhyay, Nagi El Naga, Xiaojun (Ashley) Geng, Xiyi Hang, Ichiro Hashimoto, Sharlene Katz, George Law, Benjamin Mallard, Ronald Mehler, Bruno Osorno, Matthew Radmanesh, Sembiam Rengarajan, Ramin Roosta, Deborah van Alphen

## Emeritus Faculty

John Adams, Robert Burger, Raymond Davidson, Willis Downing, Jr., Edward J. Hriber, Nirmal Mishra, Ray Pettit, A.F. Ratcliffe, David Schwartz, Yuh Sun

## Programs

Undergraduate:

**B.S., Electrical Engineering**

**B.S., Computer Engineering**

**Minor in Electrical Engineering**

Graduate Degree:

**M.S., Electrical Engineering**

## Mission Statement

Our mission is to prepare students for rewarding careers and higher education. Graduates will be able to solve complex technical problems and address the needs of modern society, and will pursue lifelong learning.

## The Major

“Nowadays the world is lit by lightning,” playwright Tennessee Williams wrote. But electrical and computer engineers prove him wrong every day.

From city lights to satellites, semiconductors, telephone switching systems and audio equipment, their work depends on electricity and the engineers who design and develop ways to harness its power.

Electrical Engineering majors at CSUN receive a solid, broad-based education. Among the many topic areas in the basic curriculum are mathematics, physics, chemistry, computer programming, engineering materials, electrical circuits, engineering mechanics, thermodynamics, engineering economy and numerical analysis. At the senior level, students are required to take an approved concentration in one of the Electrical and Computer Engineering Options: Biomedical Engineering, Communications, Digital Systems Design, Control Systems, Electronics, Microwave and Antenna Engineering, or Power Systems.

The Computer Engineering (CompE) program bridges the curriculum gap between Computer Science and Electrical Engineering. Computer Engineers deal with the hardware and software aspects of computer system design and development. The CompE curriculum contains components of both the Computer Science and Electrical Engineering programs.

Computer Engineering majors receive a broad knowledge in the basic curriculum. Among the many covered topics are mathematics, physics, chemistry, biology, electrical circuits, engineering economy, algorithms, programming and computer organization. Computer Engineering students will take course work in a number of areas (i.e., computer architecture, digital design) from both the software and hardware points of view, allowing a broader, more complete exposure to the subject. Additionally, these curricula will be unified in the one year

senior design project course bringing together the existing Electrical and Computer Engineering and Computer Science programs.

The ECE Department has 17 labs associated with its ECE classes. In the labs, students work alongside professors who may be designing medical instrumentation for health care, designing microcontroller based applications, developing pager and satellite communications systems, or working on innovations in electrical power systems.

All students in the EE or CompE programs take part in the Department’s senior design program, modeled on industry work groups that students will encounter on the job. Like professional engineers, students design and develop a project from conception through manufacture. In the process, they gain valuable experience in working as a team and dealing with personalities, as well as technical areas.

Senior design projects have included national intercollegiate competitions. Students compete in designing a micromouse and training it to run through a 10-square-foot maze. Students also work on interdisciplinary teams to design, build, program and test an unmanned autonomous helicopter. Other projects include developing a sophisticated stereo system, a control system for satellite tracking antenna, a television tuner, fabrication of a hybrid circuit, software-defined radio, etc.

The College of Engineering and Computer Science offers an Honors Cooperative Internship Program that allows juniors and seniors to complete their studies while holding down jobs as engineers.

A student chapter of the national professional society, the Institute for Electrical and Electronics Engineers, meets on campus. Other active organizations include Tau Beta Pi, the student engineering honors society; Eta Kappa Nu, the electrical engineering honor society; the Society for Women Engineers; the National Society for Black Engineers; and the Society for Hispanic Professional Engineers.

The Electrical and Computer Engineering programs are both accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), (410) 347-7700.

## Educational Objectives

The Electrical and Computer Engineering program at CSUN prepares graduates for lifelong careers in the field that will allow them to make productive contributions to society and to find personal satisfaction in their work. To accomplish this, graduates of the Electrical and Computer Engineering programs will meet the following educational objectives:

### Electrical Engineering:

- 1) Have successful professional careers in electrical engineering or related technical fields or continue their studies at the graduate level; and
- 2) Continue their professional development throughout their careers.

### Computer Engineering:

- 1) Have successful professional careers in computer engineering or related technical fields or continue their studies at the graduate level; and
- 2) Continue their professional development throughout their careers.

## Student Learning Outcomes of the Undergraduate Programs

### Graduates of the Bachelor of Science in Electrical Engineering program at CSUN will have:

- a. An ability to apply knowledge of math, science and engineering to the analysis of electrical engineering problems.
- b. An ability to design and conduct scientific and engineering experiments, as well as to analyze and interpret data.
- c. An ability to design systems that include hardware and/or software components within realistic constraints such as cost, manufacturability, safety and environmental concerns.
- d. An ability to function in multidisciplinary teams.
- e. An ability to identify, formulate and solve electrical engineering problems.
- f. An understanding of ethical and professional responsibility.

- g. An ability to communicate effectively through written reports and oral presentations.
- h. An understanding of the impact of engineering in a social context.
- i. A recognition of the need for and an ability to engage in lifelong learning.
- j. A broad education and knowledge of contemporary issues.
- k. An ability to use modern engineering techniques for analysis and design.
- l. Knowledge of probability and statistics.
- m. An ability to analyze and design complex devices and/or systems containing hardware and/or software components.
- n. Knowledge of math, including differential equations, linear algebra, complex variables and discrete math.

**Graduates of the Bachelor of Science in Electrical Engineering program at CSUN will have:**

- a. An ability to apply knowledge of math, science and engineering to the analysis of computer engineering problems.
- b. An ability to design and conduct scientific and engineering experiments, as well as to analyze and interpret data.
- c. An ability to design systems that include hardware and/or software components within realistic constraints such as cost, manufacturing, safety and environmental concerns.
- d. An ability to function in multidisciplinary teams.
- e. An ability to identify, formulate and solve computer engineering problems.
- f. An understanding of ethical and professional responsibility.
- g. An ability to communicate effectively through written reports and oral presentations.
- h. An understanding of the impact of engineering in a social context.
- i. A recognition of the need for and an ability to engage in lifelong learning.
- j. A broad education and knowledge of contemporary issues.
- k. An ability to use modern engineering techniques for analysis and design.
- l. Knowledge of probability and statistics.
- m. An ability to analyze and design complex devices and/or systems containing hardware and/or software components.
- n. Knowledge of math, including differential equations, linear algebra, complex variables and discrete math.

### Careers

The Department's practical approach to engineering offers hands-on design experience as well as theoretical knowledge. This is an advantage on the job because graduates actually have experience in implementing projects as well as in designing them. Students who enjoy using math and science creatively to solve real-world problems will find rewarding careers as electrical and computer engineers.

Careers in electrical and computer engineering: Graduates design and build communication systems, information processing systems, entertainment devices, medical diagnosis equipment, robotics control, navigation and traffic control systems. Graduates can find work in virtually every industry. Among the major employers are electronic manufacturing firms, communication companies, the entertainment industry, public utilities, oil companies, laboratories, transportation companies and chemical plants. Some graduates pursue professions as patent attorneys, technical writers, consultants, teachers or technical sales representatives. This program not only prepares students to enter the workforce, but also to enter graduate school to pursue an area of specialization.

According to the Bureau of Labor Statistics, from 2008-2018 the number of jobs for electrical engineers is predicted to increase by 2 percent. The 2010-2011 Occupational Outlook Handbook, published by the BLS, U.S. Department of Labor, states that computer hardware engi-

neers held about 74,700 jobs in 2008; this is projected to grow by four percent (77,500) by 2018. According to the Employment Development Department (2010), the number of computer hardware engineers in California grew faster than the average growth rate for all occupations and is expected to further increase by 12.6 percent (2,200 jobs) by 2018.

### High School Preparation

It must be emphasized that this program is based on an expectation of adequate high school preparation in science, mathematics and English. High school courses should include algebra, plane geometry, trigonometry, chemistry or physics (all desirable), and four years of English. Students who have not had an adequate background of pre-engineering work in high school may be required to take some additional course work in their first year and may not be able to complete an engineering program in 8 semesters. Entering beginning engineering students must take or be exempt from the Entry Level Mathematics Test and the Mathematics, Chemistry and English Placement Tests before registration in basic courses will be permitted.

### Pre-registration Testing Requirements

CSUN requires most beginning students to take the Entry Level Mathematics Exam (ELM) and the English Placement Test (EPT) prior to enrolling in their courses. Refer to the section of the Catalog titled "Appendices-Admission" for further details on these exams. In addition to these general University requirements, students in any of the engineering programs may also need the following exams:

1. The Mathematics Placements Test (MPT) is required prior to enrollment in MATH 150A. Students who have passed or are exempt from the ELM should take this exam prior to enrolling in their classes so they may be placed in the appropriate mathematics course. Students with scores of 3, 4 or 5 on the AP Calculus AB or BC tests are exempt from the MPT.
2. The Chemistry Placement Test (CPT) is required with a score of 40 or higher prior to enrolling in CHEM 101. Students who do not receive this score must receive a grade of "C" or better in CHEM 100 before taking CHEM 101.

### Transfer Requirements

All degree programs in engineering accommodate students beginning as freshmen or as transfer students. Transfer students should have completed Lower Division writing, mathematics, physics and chemistry courses. Courses that are transferred into the major are reviewed to ensure that they satisfy the same requirements as courses at CSUN. Courses transferred into the engineering major must have been completed with a grade of "C" or better.

### Special Grade Requirements

No grade lower than a "C" will be accepted for transfer classes from another institution to the Electrical and Computer Engineering major requirements. No CSUN grade lower than a "C-" will be accepted as satisfactory for courses required for the major. More stringent prerequisite requirements may apply to some courses.

### Academic Advisement

For the first two semesters, freshmen are required to seek advisement by the College Student Services Center and the Department Undergraduate Advisor prior to enrolling in any class. Based on the results of their placement tests, they will be placed in the appropriate courses and supplied with all advisement materials.

The Undergraduate Advisor also advises new transfer students and places them into the proper classes for their first semester. All continuing undergraduate students in good standing are encouraged to seek advisement each semester.

## Requirements for the Bachelor of Science Degree in Electrical Engineering

The B.S. in Electrical Engineering Program requires a minimum of 126 units total including General Education and Title 5 requirements of 27 units, an Electrical Engineering core of 81 units, and a minimum of 18 units of approved electives.

Electrical Engineering majors must complete a minimum of 39 semester units of Upper Division engineering courses in residency, including Senior Design Project I and II.

Additional information about this program and its facilities, faculty and students can be found at [www.csun.edu/ece](http://www.csun.edu/ece)

### 1. Lower Division Required Courses (44 units)

*Note: All students must pass the English Placement Test with a score of 151 or above before enrolling in any 200-level engineering courses.*

#### Freshman Year

|      |        |  |
|------|--------|--|
| CHEM | 101/L  | General Chemistry and Lab (4/1)                      |
| ECE  | 101/L  | Introduction to Electrical Engineering and Lab (1/1) |
| ECE  | 206/L  | Computing in Engineering and Science and Lab (2/1)   |
| MATH | 150A   | Calculus I (5)                                       |
| MATH | 150B   | Calculus II (5)                                      |
| PHYS | 220A/L | Mechanics and Lab (3/1)                              |

#### Sophomore Year

|      |        |   |
|------|--------|---|
| CE   | 240    | Engineering Statics (3)                           |
| ECE  | 240/L  | Electrical Engineering Fundamentals and Lab (3/1) |
| MATH | 250    | Calculus III (3)                                  |
| MATH | 280    | Applied Differential Equations (3)                |
| MSE  | 227    | Engineering Materials (3)                         |
| PHYS | 220B/L | Electricity and Magnetism and Lab (3/1)           |

### 2. Upper Division Required Courses (37 units)

*Note: All students must complete the Lower Division writing requirement before enrolling in any 300-level engineering courses, and must attempt the Upper Division Writing Proficiency Exam before the completion of 75 units or enrolling in any 400-level engineering courses. If students fail to do so, a hold is placed on their subsequent class registration and this may delay their graduation.*

#### Junior Year

|     |       |   |
|-----|-------|---|
| ECE | 309   | Numerical Methods in Electrical Engineering (2) |
| ECE | 320/L | Theory of Digital Systems and Lab (3/1)         |
| ECE | 340/L | Electronics I and Lab (3/1)                     |
| ECE | 350   | Linear Systems I (3)                            |
| ECE | 351   | Linear Systems II (3)                           |
| ECE | 455   | Mathematical Models in EE (3)                   |
| MSE | 304   | Engineering Economy (3)                         |

#### Select 1 of the following 3 unit courses

|    |     |                     |
|----|-----|---------------------|
| ME | 370 | Thermodynamics (3)  |
| ME | 375 | Heat-Transfer I (3) |

#### Senior Year

The senior core consists of a set of courses considered essential for all students seeking a career in electrical engineering.

|     |     |   |
|-----|-----|---|
| ECE | 370 | Electromagnetic Fields and Waves I (3)              |
| ECE | 450 | Probabilistic Systems in Electrical Engineering (3) |
| ECE | 480 | Fundamentals of Control Systems (3)                 |
| ECE | 492 | Senior Design Project—Electrical I (2)              |
| ECE | 493 | Senior Design Project—Electrical II (1)             |

### 3. Upper Division Electives (18 units):

The senior elective packages must contain at least 18 400-/500-level Department courses and labs that are well balanced in both design and

analysis. One of the electives must be either ECE 440/L (3/1) or ECE 442/L (3/1). Students will be required to take the corresponding labs for every elective chosen that offers a lab. For each lab taken, the corresponding lecture course is a corequisite. The student's total engineering program should contain at least 18 units of engineering design.

*Note: Students can take ECE 370L and/or ECE 480L as part of their senior electives.*

All senior electives must be completed with a faculty advisor and approved by the Department Chair or designee. A number of examples of suggested senior elective packages in the Electrical Engineering Degree are available in the Department Office. Other programs also are possible and may be developed with an advisor. The total number of units in the major is 99.

### 4. General Education (27 units)

Electrical Engineering majors follow a modified General Education program depending upon the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs.

Electrical Engineering students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Social Sciences (3 units); Arts and Humanities (6 units); Comparative Cultures (6 units); and U.S. History and Local Government (6 units). All other GE requirements are met through completion of courses in the major. 9 of the GE units must be at the Upper Division level and 2 courses must meet the Information Competency requirement.

|  |            |
|--|------------|
| <b>Total Units Required for the Degree</b> | <b>126</b> |
|--|------------|

## Minor in Electrical Engineering

Out of the 21 units, 17 units must be Upper Division courses. The student may have to complete prerequisite courses, such as math and physics. Any required non-Electrical Engineering prerequisite courses will not count toward the required 21 units. This program is not available for students with majors in electrical engineering.

### 1. Lower Division

|     |       |   |
|-----|-------|---|
| ECE | 240/L | Electrical Engineering Fundamentals and Lab (3/1) |
|-----|-------|---|

### 2. Upper Division

|     |       |   |
|-----|-------|---|
| ECE | 320/L | Theory of Digital Systems and Lab (3/1) |
| ECE | 340/L | Electronics I and Lab (3/1)             |
| ECE | 350   | Linear Systems I (3)                    |

Select an additional 2 400-/500-level ECE courses. Students will be required to take the corresponding labs for every elective chosen that offers a lab. All senior electives must be approved by a faculty advisor and the Department Chair or designee.

|  |           |
|--|-----------|
| <b>Electrical Engineering Units Required for the Minor</b> | <b>21</b> |
|--|-----------|

## Requirements for the Bachelor of Science Degree in Computer Engineering

The Computer Engineering Program requires a minimum of 123 units total, including General Education and Title 5 requirements of 27 units, a Computer Engineering Core of 90 units, and a minimum of 6 units of an approved elective.

Computer Engineering majors must complete a minimum of 30 semester units of Upper Division Computer Engineering courses in residency, including Senior Design Project I and II.

Additional information about this program and its facilities, faculty and students can be found at [www.csun.edu/ece](http://www.csun.edu/ece).

**1. Lower Division Required Courses (44 units)**

*Note: All students must pass the English Placement Test with a score of 151 or higher before enrolling in any 200-level engineering courses.*

**Freshman Year**

|      |        |  |
|------|--------|--|
| COMP | 110/L  | Introduction to Algorithms and Programming and Lab (3/1) |
| COMP | 122/L  | Introduction to Computer Systems and Lab (1/1)           |
| COMP | 182/L  | Data Structures and Program Design and Lab (3/1)         |
| MATH | 150A   | Calculus I (5)   |
| MATH | 150B   | Calculus II (5)  |
| PHYS | 220A/L | Mechanics and Lab (3/1)                                  |

**Sophomore Year**

|      |        |   |
|------|--------|---|
| COMP | 222    | Computer Organization (3)                         |
| COMP | 282    | Advanced Data Structures (3)                      |
| ECE  | 240/L  | Electrical Engineering Fundamentals and Lab (3/1) |
| MATH | 250    | Calculus III (3)                                  |
| MATH | 280    | Applied Differential Equations (3)                |
| PHYS | 220B/L | Electricity and Magnetism and Lab (3/1)           |

**2. Math And Science Electives (8 units)**

Select a minimum of 8 units from the following list with corresponding lab if one exists: BIOL 106/L, 107/L; CHEM 101/L, 102/L; MATH 262 and 326; PHYS 227/L, 375.

**3. Upper Division Required Courses (38 units)**

*Note: All students must complete the Lower Division writing requirements before enrolling in any 300-level course in the major and must attempt the Upper Division Writing Proficiency Exam before the completion of 75 units or enrolling in any 400-level course in the major. If students fail to do so, a hold is placed on their subsequent class registration and this may delay their graduation.*

**Junior Year**

|      |       |   |
|------|-------|---|
| COMP | 322/L | Introduction to Operating Systems and System Architecture and Lab (3/1) |
| ECE  | 320/L | Theory of Digital Systems and Lab (3/1)                                 |
| ECE  | 340/L | Electronics I and Lab (3/1)   |
| ECE  | 350   | Linear Systems I (3)  |
| MSE  | 304   | Engineering Economy (3)   |

**Senior Year**

The senior year must include a “capstone” design experience and additional courses with design content so that the student’s total engineering program contains at least one semester of engineering design. This engineering design requirement must be taken in residency. An advisor and the Department Chair must approve all senior year electives.

|     |         |   |
|-----|---------|---|
| ECE | 422     | Design of Digital Computers (3)   |
| ECE | 425/L   | Microprocessor Systems and Lab (3/1)                                    |
| ECE | 420     | Digital Systems Design with Programmable Logic (3)                      |
| ECE | 442/L   | Digital Electronics and Lab (3/1)                                       |
| ECE | 450     | Probabilistic Systems in Electrical Engineering Design and Analysis (3) |
| ECE | 492/493 | Senior Design Project I and II (2/1)                                    |

**4. Upper Division Electives (6 units)**

Select a minimum of 6 units from the following:

|      |       |   |
|------|-------|---|
| COMP | 380/L | Introduction to Software Engineering (2/1)          |
| COMP | 429   | Computer Network Software (3)                       |
| COMP | 529   | Advanced Network Topics (3)                         |
| ECE  | 422L  | Design of Digital Computers Lab (1)                 |
| ECE  | 443/L | Pulse and Wave Shaping Circuit Design and Lab (3/1) |

|     |       |   |
|-----|-------|---|
| ECE | 520/L | System on Chip Design and Lab (3/1)                               |
| ECE | 524/L | FPGA/ASIC Design and Optimization Using VHDL and LAB (3/1)        |
| ECE | 526/L | Verilog HDL for Digital Integrated Circuit Design and Lab         |
| ECE | 527/L | Application Specific Integrated Circuit Development and Lab (3/1) |
| ECE | 546   | Very Large Scale Integrated Circuit Design (3)                    |
| ECE | 562   | Data Communication Network (3)                                    |

*Note: Some elective courses have prerequisites that are not part of the required program. All courses must include the lab, if one exists. Other courses may be selected with the approval of the ECE Department Chair. The total number of units in the major is 96.*

**5. General Education (27 units):**

Computer Engineering majors follow a modified General Education program depending upon the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs.

Computer Engineering students are required to take courses in the following GE sections: Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); Social Sciences (3 units); Arts and Humanities (6 units); Comparative Cultures (6 units); and U.S. History and Local Government (6 units). All other GE requirements are met through completion of courses in the major. 9 of the GE units must be at the Upper Division level and 2 courses must meet the Information Competency requirement.

|  |     |

| <b>Total units Required for the Degree</b> | 123 |
|--|-----|

**Requirements for the Master of Science Degree In Electrical Engineering****A. Requirements for Admission to the Program**

1. A Bachelor’s Degree in a technical field (i.e., engineering, physics, mathematics) from an accredited university or college, with overall GPA of at least 2.75.
2. Have at least a 2.7 undergraduate GPA in the last 60 semester units or 90 quarter units attempted.
3. International students are required to submit a brief statement of purpose and 3 letters of recommendation.

**B. Admission Procedure:**

Application forms are available online at [www.csumentor.edu](http://www.csumentor.edu) and can be completed and submitted online or to the Office of Admissions and Records. The Code number for the ECE major is 562440M. Application deadlines for admission are set by the University Office of Admission and Records.

All applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must take the Test of English as a Foreign Language (TOEFL) and receive a minimum paper-based score of 550, a minimum computer-based score of 213 or a minimum internet-based score of 79, or a score of 6 or higher on International English Language Testing System (IELTS).

Continuing students in either Post-Baccalaureate or Graduate status may change their objective and seek admission to M.S. in Electrical Engineering by filling out a change of objective form that can be obtained from the Office of Admissions and Records.

**It is the student’s responsibility to be aware of all University regulations and restrictions, such as:**

1. No more than 9 units of transfer or extension work;
2. 12-unit rule for Classification;

3. Probation and disqualification;
4. Repeat of courses rules;
5. Advancement to Candidacy;
6. Academic leave;
7. A 7-year time limit for the completion of the degree; and
8. No more than 9 units of 400-level courses can be counted toward the M.S. Degree.

For details on the above, students are advised to meet with the ECE Graduate Coordinator. Prior to the formation of their Graduate Committee, graduate students are advised by the Graduate Coordinator. After the formation of their Graduate Committee, graduate students are advised by their Committee Chair. All courses taken toward the M.S. Degree must be approved by the Committee Chair and the Graduate Coordinator.

### C. Classified Graduate Status:

#### The candidate must:

1. Fulfill University requirements for classified status;
2. Complete prerequisite courses with 3.0 GPA or higher;
3. Submit a tentative program of graduate study to the ECE Graduate Coordinator; and
4. Complete all 3 sections of the GRE. The quantitative score must be above the 50th percentile.

### D. For the Degree:

1. Completion of 30-33 units under either the Thesis Plan, the Project Plan or the Comprehensive Exam Plan; and
2. Formal approval of granting of the Degree by the Electrical Engineering faculty.

#### Thesis Plan

- a. 24 units of course work applicable to the M.S. Degree, of which at least 15 units must be Engineering courses at the 500-/600-level or above. All course work in the student's graduate program must be completed with a "C" or better while maintaining an overall GPA of 3.0 or higher.
- b. 6 units of ECE 698 (Thesis) and successful defense of thesis before the Thesis Committee.

#### Project Plan

- a. 27 units of course work applicable to the M.S. Degree, of which at least 18 units must be Engineering courses at the 500-/600-level or above. All course work in the student's graduate program must be completed with a "C" or better while maintaining an overall GPA of 3.0 or higher.
- b. 3 units of ECE 698 (Graduate Project) culminating in a comprehensive report.

#### Comprehensive Exam Plan

- a. 30 units of course work applicable to the M.S. Degree, of which at least 21 units must be 500/600-level Engineering courses. All course work in the student's graduate program must be completed with a "C" or better while maintaining an overall GPA of 3.0 or higher.
- b. 3 units of ECE 697 comprehensive preparatory exam study and completion of the comprehensive exam with a grade of "B" or better.

### E. Graduate Program:

The 30-33 units of course work in the graduate program must form a cohesive plan of graduate study that consists of suggested and elective courses from one of the 7 options currently offered in the ECE Department. The Thesis Plan may not include ECE 699 (Independent Study) and the Project Plan may include at most 3 units of ECE 699. Inclusion of a course not in the ECE suggested or elective course list must have the written approval of the Graduate Coordinator prior to enrollment in the course.

### F. Special Requirements

Students from non-technical fields must fulfill most of the undergraduate prerequisite courses in math and physics outlined below with 3.0 GPA or higher before applying for admission to the ECE Program. No time limit applies to courses taken to satisfy M.S. prerequisite requirements.

### The EE Graduate Program Objectives

The Master of Science in Electrical Engineering program at CSUN prepares students for lifelong careers in the field that will allow them to make productive contributions to society and find personal satisfaction in their work. To accomplish this, graduates with a Master of Science in Electrical Engineering will meet the following educational objectives:

- 1) Understand advanced electrical- and computer-engineering principles, including in-depth training in one of the fundamental areas of electrical engineering.
- 2) Apply advanced analysis, design and research methods to solve problems in electrical and computer engineering.
- 3) Apply industry practices, emerging technologies, state-of-the-art design techniques and software tools to electrical and computer engineering problems.
- 4) Communicate clearly through the appropriate communication medium.
- 5) Appreciate the importance of lifelong learning and be motivated by a sense of exploration to continue learning

### Student Learning Outcomes of the Graduate Programs

#### Graduates of the Master of Science in Electrical Engineering Program at CSUN will have:

- a) An ability to apply knowledge of advanced principles to the analysis of electrical and computer engineering problems.
- b) An ability to apply knowledge of advanced techniques to the design of electrical and computer engineering systems.
- c) An ability to apply the appropriate industry practices, emerging technologies, state-of-the-art design techniques, software tools and research methods for solving electrical and computer engineering problems.
- d) An ability to use the appropriate state-of-the-art engineering references and resources, including IEEE research journals and industry publications, to find the best solutions to electrical and computer engineering problems.
- e) An ability to communicate clearly and use the appropriate medium, including written, oral and electronic methods.
- f) An ability to maintain lifelong learning and continue to be motivated to learn new subjects.
- g) An ability to learn new subjects that are required to solve problems in the industry without being dependent on a classroom environment.
- h) An ability to be competitive in the engineering job market and/or be admitted to an excellent Ph.D. program.

### 1. Prerequisite Courses

Some or all of these prerequisite courses may be required depending on applicant's prior background. The Graduate Coordinator will determine the specific prerequisite courses on a case-by-case basis.

|     |       |  |
|-----|-------|--|
| ECE | 240/L | Electrical Engineering Fundamentals and Lab (3/1)                        |
| ECE | 309   | Numerical Methods in Electrical Engineering (2)                          |
| ECE | 320/L | Theory of Digital Systems and Lab (3/1)                                  |
| ECE | 340/L | Electronics I and Lab (3/1)  |
| ECE | 350   | Linear Systems I (3)   |
| ECE | 351   | Linear Systems II (3)  |
| ECE | 370   | Electromagnetic Fields and Waves I (3)                                   |
| ECE | 450   | Probabilistic Systems in Electrical Engineering- Design and Analysis (3) |

|      |        |   |
|------|--------|---|
| ECE  | 455    | Mathematical Models in Electrical Engineering (3) |
| MATH | 150A   | Calculus I (5)                                    |
| MATH | 150B   | Calculus II (5)                                   |
| MATH | 250    | Calculus III (3)                                  |
| MATH | 280    | Applied Differential Equations (3)                |
| PHYS | 220A/L | Mechanics and Lab (3/1)                           |
| PHYS | 220B/L | Electricity and Magnetism and Lab (3/1)           |

Two ECE 400-level classes approved by Graduate Coordinator related to study objective.

## 2. Required Courses (30 units)

The Department of Electrical and Computer Engineering offers the Master of Science Degree in Electrical Engineering. Within this degree students may choose an Area of Concentration in Biomedical Engineering, Communications and Radar Engineering, Control Engineering, Digital and Computer Engineering, Electronics, Solid State Devices and Integrated Circuits Engineering, Microwave and Antenna Engineering, or Power Systems Engineering. For all of these Areas of Concentration, the student must define a program that conforms to the general MSEE Degree requirements as established by the Department. Note that no more than 9 units of ECE 400-level courses are applicable toward MSEE degree. Students may not take a course (counting toward MSEE degree) that is the same or equivalent to a course taken toward one's undergraduate program. In general, graduate students are not required to take ECE labs. However, some courses require the concurrent enrollment in lab sections. A maximum of 3 lab units (taken concurrent with lecture courses) may count toward the MSEE program. Students are advised to meet with an advisor as soon as possible to plan their program. All graduate programs in the Department of Electrical and Computer Engineering must be approved by the faculty advisor and the Graduate Coordinator.

**Core Courses:** Courses that must be completed for each area of specialization. Only 9 units of these core courses may be included in MSEE formal program.

### Suggested Courses for Biomedical Engineering

#### Core Courses

|     |       |   |
|-----|-------|---|
| ECE | 410/L | Electrical Machines and Energy Conversion and Lab (3/1) |
| ECE | 425/L | Microprocessor Systems and Lab (3/1)                    |
| ECE | 440/L | Electronics II and Lab (3/1)                            |
| ECE | 442/L | Digital Electronics and Lab (3/1)                       |
| ECE | 455   | Mathematical Models in EE (3)                           |
| ECE | 480/L | Fundamentals of Control Systems and Lab (3/1)           |

#### Elective Courses

|     |     |  |
|-----|-----|--|
| ECE | 501 | Introduction to Biomedical Engineering (3) |
| ECE | 503 | Biomedical Instrumentation (3)             |
| ECE | 602 | Biomedical Engineering I (3)               |
| ECE | 603 | Biomedical Engineering II (3)              |
| ECE | 650 | Random Processes (3)                       |
| ECE | 580 | Digital Control (3)                        |
| ECE | 581 | Fuzzy Control (3)                          |

### Suggested Courses for Communications and Radar Engineering

#### Core Courses

|     |       |   |
|-----|-------|---|
| ECE | 450   | Probabilistic Systems in Electrical Engineering—Design and Analysis (3) |
| ECE | 455   | Mathematical Models in EE (3)   |
| ECE | 451/L | Real-Time Digital Signal Processing and Lab (2/1)                       |
| ECE | 460/L | Introduction to Communication Systems and Lab (3/1)                     |

#### Elective Courses:

|     |       |   |
|-----|-------|---|
| ECE | 561/L | Digital Communications System and Lab (3/1) |
|-----|-------|---|

|     |       |   |
|-----|-------|---|
| ECE | 562   | Data Communication Networks (3)                   |
| ECE | 635   | Error Detection and Correction Systems Design (3) |
| ECE | 637   | Pattern Recognition (3)                           |
| ECE | 642   | RF Electronics Design (3)                         |
| ECE | 650   | Random Processes (3)                              |
| ECE | 651   | Digital Signal Processing I (3)                   |
| ECE | 652   | Digital Signal Processing II (3)                  |
| ECE | 658   | Signal Detection and Estimation Theory (3)        |
| ECE | 659   | Information Theory and Coding (3)                 |
| ECE | 660   | Modulation Theory and Coding(3)                   |
| ECE | 661   | Wireless Communications (3)                       |
| ECE | 665   | Radar Systems (3)                                 |
| ECE | 666/L | Fiber-Optic Communications and Lab (3/1)          |
| ECE | 669   | Advanced Topics in Communications/Radar (3)       |

### Suggested Courses for Control Engineering

#### Core Courses

|     |       |  |
|-----|-------|--|
| ECE | 410/L | Electrical Machines and Energy Conversion and Lab (3)                    |
| ECE | 411   | Electric Power Systems (3)   |
| ECE | 450   | Probabilistic Systems in Electrical Engineering- Design and Analysis (3) |
| ECE | 455   | Mathematical Models in EE (3)  |
| ECE | 480/L | Fundamentals of Control Systems and Lab (3/1)                            |

#### Elective Courses

|     |     |  |
|-----|-----|--|
| ECE | 580 | Digital Control Systems (3)              |
| ECE | 581 | Fuzzy Control (3)                        |
| ECE | 650 | Random Processes (3)                     |
| ECE | 651 | Digital Signal Processing I (3)          |
| ECE | 652 | Digital Signal Processing II (3)         |
| ECE | 681 | Non-Linear Control Systems (3)           |
| ECE | 682 | State Variables in Automatic Control (3) |
| ECE | 683 | Optimal Control (3)                      |
| ECE | 684 | Stochastic Control (3)                   |

### Suggested Courses for Digital and Computer Engineering

#### Core Courses:

|     |       |  |
|-----|-------|--|
| ECE | 420   | Digital Systems Design with Programmable Logic (3) |
| ECE | 422   | Design of Digital Computers (3)                    |
| ECE | 425/L | Microprocessor Systems and Lab (3/1)               |
| ECE | 442/L | Digital Electronics and Lab (3/1)                  |

#### Elective Courses

|     |       |   |
|-----|-------|---|
| ECE | 520/L | System on Chip Design and Lab (3/1)                               |
| ECE | 524/L | FPGA/ASIC Design and Optimization Using VHDL and Lab (3/1)        |
| ECE | 526/L | Verilog HDL for Digital Integrated Circuit Design and Lab (3/1)   |
| ECE | 527/L | Application Specific Integrated Circuit Development and Lab (3/1) |
| ECE | 546   | Very Large Scale Integrated Circuit Design (3)                    |
| ECE | 620   | Advanced Switching Theory (3)                                     |
| ECE | 621   | Computer Arithmetic Design (3)                                    |
| ECE | 622   | Digital Systems Structure (3)                                     |
| ECE | 623   | Diagnosis and Reliable Design of Digital Systems (3)              |
| ECE | 624   | Digital Systems Design Automation and VHDL Modeling (3)           |
| ECE | 625   | Microprocessor Interfacing and Applications (3)                   |
| ECE | 629C  | Seminar in Digital Systems and Components (3)                     |
| ECE | 635   | Error Detection and Correction Systems Design (3)                 |

ECE 639 Robotic Sensing and Computer Vision (3)

### Suggested Courses for Electronics, Solid State Devices and Integrated Circuit Engineering

#### Core Courses

ECE 440/L Electronics II and Lab (3/1)  
 ECE 442/L Digital Electronics and Lab (3/1)  
 ECE 443/L Pulse and Waveshaping Circuit Design and Lab (3/1)  
 ECE 445 Introduction to Solid State Devices (3)  
 ECE 455 Mathematical Models in EE (3)

#### Elective Courses

ECE 545 Solid State Devices (3)  
 ECE 546 Very Large Scale Integrated Circuit Design (3)  
 ECE 571 Electromagnetic Fields and Waves II (3)  
 ECE 572/L RF and Microwave Active Circuit Design and Lab (3)  
 ECE 578 Photonics (3)  
 ECE 640 Modern Electronic Techniques (3)  
 ECE 642 RF Electronics Design (3)  
 ECE 648 Electrical Network Theory (3)  
 ECE 649 Active Network Synthesis (3)  
 ECE 650 Random Processes (3)  
 ECE 673 Microwave Semiconductor Devices (3)

### Suggested Courses for Microwave and Antenna Engineering

#### Core Courses

ECE 445 Introduction to Solid State Devices (3)  
 ECE 455 Mathematical Models in EE (3)  
 ECE 571 Electromagnetic Fields and Waves II (3)

## Course List

### ECE 100. The Technological World (3)

An introduction to the concepts, theories and techniques that contribute to our technological civilization. A course to improve the student's understanding of modern technology, its capabilities, characteristics and limitations, and to develop insights useful in coping with social, economic, political, and purely technical problems. An introduction to modeling, digital computers and control systems. Required writing assignments relating to current trends and treatment of technological problems. May not be used as part of senior programs. (Available for General Education, Lifelong Learning.)

### ECE 101/L. Introduction to Electrical Engineering and Lab (1/1)

*Corequisite: ECE 101L.* A Freshman orientation course for the Electrical Engineering Program, the profession and the University. Word processing, spreadsheet and presentation software along with computer aided design and analysis tools, are integrated into the course. 1 hour lecture-discussion, 3 hours lab per week.

### ECE 196A-Z. Experimental Topics Courses in Electrical Engineering (1-4)

#### ECE 206/L. Computing for Electrical Engineers and Lab (2/1)

*Prerequisite: MATH 150A. Corequisite: ECE 206L.* Introduction to computer programming with emphasis on ECE problem solving. Major topics include problem solving, algorithm development, hardware integration and programming in NQC and C++. 2 hours lecture, one 3-hour lab per week. (Available in General Education, Lifelong Learning if required by major.)

#### ECE 240. Electrical Engineering Fundamentals (3)

*Prerequisite: MATH 250, PHYS 220B/L. Recommended Corequisites: ECE 240L, MATH 280.* Introduction to the theory and analysis of electrical circuits; basic circuit elements, including the operational amplifier; circuit theorems; dc circuits; forced and natural responses of simple circuits; sinusoidal steady state analysis; and the use of a standard computer aided circuit analysis program. Consideration is given to power, energy, impedance, phasors, frequency response and their use in circuit design. 3 hours lecture per week.

#### ECE 240L. Electrical Engineering Fundamentals Lab (1)

*Prerequisites: MATH 250; PHYS 220B/L. Corequisite: ECE 240.* Introduction to the practical aspects of electrical circuits, analysis and design. Lab includes experiments on resistive circuits, operational amplifiers, network theorems, 1st and 2nd order circuits, dc meters, passive filters, resonant circuits and RC active filters. Several experiments emphasize the design process. 3 hours lab per week.

### ECE 296A-Z. Experimental Topics Courses in Electrical and Computer Engineering (1-4)

## Upper Division

**ECE 309. Numerical Methods in Electrical Engineering (2)**

*Prerequisites:* ECE 240; MATH 280. This course introduces numerical techniques implemented in Matlab for the solution of problems in electrical and computer engineering. Topics covered include an introduction to Matlab, number representation and error analysis, interpolation and curve-fitting, numerical solutions to systems of linear equations, root-finding, differentiation, and integration and ordinary differential equations. Two 3-hour labs per week.

**ECE 320/L. Theory of Digital Systems (3/1)**

*Prerequisite:* MATH 150B. *Corequisite:* ECE 320L. Introduction to digital systems. Topics include number systems, binary codes, Boolean algebra, combinational logic design, logic minimization techniques, sequential circuits design, arithmetic operations, data transfers using register transfer notation, memory devices, digital system organization and digital subsystems design. 3 hours lecture, one 3-hour lab per week.

**ECE 340/L. Electronics I and Lab (3/1)**

*Prerequisite:* ECE 240. *Corequisite:* ECE 340L. *Preparatory:* ECE 240L. *Recommended Corequisite:* ECE 350. Linear, piecewise-linear and nonlinear models for active devices and their interaction with passive network elements. Characteristics and behavior of operational amplifiers, diodes and transistors. Small signal amplifiers and their analysis at low, midband and high frequencies. 3 hours lecture, one 3-hour lab per week.

**ECE 350. Linear Systems I (3)**

*Prerequisites:* ECE 240; MATH 280. Systematic development of linear system response models in both the time and frequency domains. Concentrates on continuous system models. Techniques developed include Laplace transform, Fourier analysis, impulse response, convolution and state variables for continuous linear systems.

**ECE 351. Linear Systems II (3)**

*Prerequisite:* ECE 350. Continuation of ECE 350, with concentration on discrete system models. Techniques developed include Z-transforms, Fourier Analysis, impulse response, convolution and state variables for discrete linear systems.

**ECE 370. Electromagnetic Fields and Waves I (3)**

*Prerequisites:* ECE 240; MATH 280. Study of waves in transmission line circuits, transient and steady state solutions, phasors, reflection coefficient, Smith chart, matching circuits, wave propagation in materials, vector analysis, electrostatics, magnetostatics, steady electric currents, quasi-statics and electromagnetic fields.

**ECE 370L. Microwave Lab (1)**

*Prerequisite:* ECE 240L. *Corequisite:* ECE 370. Introduction to the practical aspects of waveguiding systems: stripline, microstrip and coaxial transmission lines; and rectangular waveguides. Introduction to basic microwave measurements and techniques: impedance matching, network analyzers, antenna impedance and pattern measurements, and computer-controlled instrumentation. Culminating in a design project. One 3-hour lab per week.

**ECE 396A-Z. Experimental Topics Courses in Electrical and Computer Engineering (1-4)****ECE 400AA-AC. Engineering Design Clinic I (1-3)**

Group design experience involving teams of students and faculty working on the solution of engineering design problems submitted by industry and government agencies.

**ECE 400BA-B-C. Engineering Design Clinic II (1-2-3)**

*Prerequisite:* ECE 400A. Continuation of ECE 400A.

**ECE 410/L. Electrical Machines and Energy Conversion and Lab (3/1)**

*Prerequisite:* ECE 240. *Corequisite:* ECE410L. This course covers single and three phase power, including phasor diagrams and electromagnetic laws. Maxwell's Equations as applied to energy conversion is covered, as are analysis of magnetic circuits and their losses, and single and three phase transformers, including voltage regulation and efficiency. Electromechanical energy conversion principles followed by rotating machinery modeling and analysis. Machines include induction motors, synchronous generators and direct current motors. Application of these concepts as they apply to energy sustainability is discussed. Several projects are included in which students design, simulate, build, test and report on their findings. Available for graduate credit.

**ECE 411. Electric Power Systems (3)**

*Prerequisite:* ECE 240. *Recommended prerequisite:* ECE410. Review of single phase, three phase power and calculations of power using the "per-unit" method. Study of single line diagrams using reactance and impedance, and three phase transformers as applied to power systems and synchronous machines. Discussion of series impedance, capacitance, voltage and current as related to power transmission lines. Modeling of admittance, impedance and network calculations are included. Flexible AC Transmission Systems (FACTS) and Automated Transmission Operations (ATO) are discussed as a consequence of the implementation of the smart grid. The effects of magnetic field in power transmission lines also are discussed. Design and simulation projects are included. Students make presentations about their findings. PSPICE and Matlab are utilized. Available for graduate credit.

**ECE 412. Power Electronics (3)**

*Prerequisite:* ECE 240, 340. *Recommended prerequisite:* ECE 410. Switching losses in power semiconductor switches are covered in detail. Computer simulation of power electronic converters is taught using PSPICE and Matlab. Study of line-frequency diode rectifiers (line-frequency ac-to-uncontrolled dc) as well as line-frequency phase-controlled rectifiers and inverters (line-frequency ac-to-controlled dc). Dc-to-dc switch-mode converters and switch-mode dc-to-ac inverters also are discussed. Power electronics applications in solar energy are studied with emphasis in applications. Application of these concepts as they apply to energy sustainability is discussed. Several projects are included in which students design, simulate, build, test and report on their findings. Available for graduate credit.

**ECE 420. Digital Systems Design with Programmable Logic (3)**

*Prerequisite:* ECE 320. Designed to cover and compare a variety of programmable logic devices with design examples to show their applications. Emphasizes the implementation of digital systems with programmable logic devices using VHDL in design description and Maxplus II software in design simulation and verification.

**ECE 422. Design of Digital Computers (3)**

*Prerequisite:* ECE 320. Structure and operation of a stored-program general-purpose digital computer. Design of computer hardware modules: arithmetic-logic units, control units, input-output units and memories. Basic organizations of digital computers. Fault diagnosis and fault tolerant design of digital systems.

**ECE 422L. Design of Digital Computers Lab (1)**

*Prerequisite:* ECE 320 *Corequisite:* ECE 422. Laboratory companion course for ECE 422. The structure and operation of a stored-program general-purpose digital computer. Design of computer hardware

modules: arithmetic-logic units, control units, input-output units, and memories. Basic organizations of digital computers.

**ECE 425/L. Microprocessor Systems and Lab (3/1)**

*Prerequisite:* ECE 320/L. *Corequisite:* ECE 425L. Studies of microprocessor architectures and microcomputer systems. Basic microprocessor software consideration and assembly language programming. Microcomputers system design considerations, applications and design with a microcontroller.

**ECE 435/L. Mechatronics and Lab (2/1)**

*Prerequisites:* ECE 240L. *Corequisite:* ECE 435L. *Recommended Corequisite:* ME 335, or ECE 320, 350. Machine and process control applications, data acquisition systems, sensors and transducers, actuating devices hardware controllers, transducer signal processing and conditioning. 2 hours lecture, one 3-hour lab each week. (Cross listed with ME 435/L)

**ECE 440/L. Electronics II and Lab (3/1)**

*Prerequisite:* ECE 340/L. *Corequisite:* ECE 440L. Continuation of ECE 340. Power amplifiers, feedback amplifiers, stability, oscillators, RC active filters and switched-capacitor circuits. 3 hours lecture, one 3-hour lab per week.

**ECE 442/L. Digital Electronics and Lab (3/1)**

*Prerequisites:* ECE 320/L, 350, 340. *Corequisite:* ECE 442L. Models of electronic nonlinear devices and their analysis. The limitations of digital circuits. Design of logic gates and of memory elements and registers. System considerations with reference to various technologies, including NMOS, PMOS, CMOS, RTL, DTL, TTL, IIL and ECL. Study of VLSI. 3 hours lecture, one 3-hour lab per week.

**ECE 443/L. Pulse and Waveshaping Circuit Design and Lab (3/1)**

*Prerequisites:* ECE 320/L, 340/L, 350. *Recommended Corequisite:* 443L. Waveshaping circuits with application to data acquisition and instrumentation. Design of multivibrator circuits. Design of analog-to-digital and digital-to-analog interfaces. 3 hours lecture, one 3-hour lab per week.

**ECE 445. Introduction to Solid State Devices (3)**

*Prerequisite:* ECE 340. Electric and magnetic properties of materials are examined with emphasis on engineering applications. Typical devices that are considered include ohmic and non-ohmic contacts, voltaic cells, PN junction devices, ferroelectric energy converters, ferrite devices and integrated circuits.

**ECE 450. Probabilistic Systems in Electrical Engineering-Design and Analysis (3)**

*Prerequisite:* ECE 350. Develops and demonstrates techniques and models useful for solving a wide range of problems associated with the design and analysis of various probabilistic systems in electrical engineering application. These include radar, communication systems, sonar, control systems, information theory, computer systems, circuit design, measurement theory, vulnerability analysis and propagation.

**ECE 451. Real-Time Digital Signal Processing (2)**

*Prerequisite:* ECE 351. *Corequisite:* ECE 451L. Real-time digital signal processing using DSP processors; architecture, instruction set, sampling, filtering, fast fourier transform and other applications. Available for graduate credit.

**ECE 451L. Real-Time Digital Signal Processing Laboratory (1)**

*Prerequisite:* ECE 351. *Corequisite:* ECE 451. Real-time digital signal processing using DSP processors; architecture, instruction set, sampling, filtering, fast fourier transform and other applications. 2 hours lecture, four hours lab per week. Available for graduate credit.

**ECE 455. Mathematical Models in Electrical Engineering (3)**

*Prerequisite:* ECE 350. Advanced topics in mathematics in the areas of complex variables, linear algebra, partial differential equations and

series solutions to differential equations are discussed. These mathematical tools are used to model and solve electrical engineering-related problems in the areas of circuits, controls, electromagnetics, solid state and communication theories.

**ECE 460. Introduction to Communication Systems (3)**

*Prerequisite:* ECE 350. *Corequisite:* 460L. *Recommended Corequisites:* ECE 351, 450. Introduction to information transmission. Analog communication systems. AM, DSB, SSB, VSB, FM and PM. Frequency-division multiplexing techniques. Superheterodyne receiver. 3 hours lecture. Available for graduate credit.

**ECE 460L. Introduction to Communication Systems Lab (1)**

*Prerequisite:* ECE 350. *Corequisite:* 460. *Recommended Corequisites:* ECE 351, 450. Introduction to information transmission. Analog communication systems: AM, DSB, SSB, VSB, FM and PM. Frequency-division multiplexing techniques. Superheterodyne receiver. One 3-hour lab per week. Available for graduate credit.

**ECE 480. Fundamentals of Control Systems (3)**

*Prerequisite:* ECE 350. Review of the relations between transient responses, systems transfer functions and methods of specifying system performance. Analysis and synthesis of feedback control systems by means of Root-Locus methods. Nyquist diagrams, phase-gain-frequency diagrams. Use of compensating networks to optimize control system performance. Available for graduate credit.

**ECE 480L. Fundamentals of Control Systems Lab (1)**

*Prerequisite:* ECE 350. *Corequisite:* ECE 480. As an accompaniment to the 3-unit course Fundamentals of Control Systems (ECE480), this laboratory provides experiments to verify theoretical studies and use their applications in the design of a control system with given specifications. The experiments are mainly electrical circuits with actual measurements and simulations and design applications using system response, Routh-Hurwitz stability criterion, system identification, steady state error, root-locus, Nyquist criterion and the effects of disturbance. Use of Matlab, Simulink and PSPICE is emphasized for analysis and design. 3-hours lab per week.

**ECE 492. Senior Design Project-Electrical I (2)**

*Prerequisite:* Successfully complete two 400 level ECE courses. *Recommended Corequisite:* Enrollment in a 400-level Electrical and Computer Engineering senior lab course with at least 2.5 design units. The design of a complex engineering project is undertaken requiring the integrated application and extension of science, engineering, economic and social concepts. Ethics, written and oral communication skills and methods of technical problem-solving will be addressed. Students participate in both group and individual projects through to completion. Requires completion of an acceptable proposal for a design project under faculty supervision with substantial progress toward the project completion. May not be used for graduate credit.

**ECE 493. Senior Design Project-Electrical II (1)**

*Prerequisite:* ECE 492. Continuation of ECE 492. Issues concerning science, engineering, economic and social concepts, as well as ethics, written, oral communication and methods of technical problem solving will be further treated. Completion of the design project under faculty supervision culminating in a comprehensive report. Students who enter their projects in an appropriate technical paper contest are excused from submission of a comprehensive report. May not be used for graduate credit.

**ECE 494. Academic Internship A-C (1-3)**

*Prerequisites:* Sophomore, junior, senior or graduate standing in the Department of Electrical and Computer Engineering; Prior approval of the Department Chair; Good standing as a matriculated student. Supervised practical pro-

professional experience relevant to the field of study in approved public or private organizations. Industrial supervisor and faculty sponsor performance evaluations and student self assessment are required. A final report written by students describing the work accomplished and knowledge and skills acquired are required. Units earned may not be used to fulfill major program requirements. Any combination of internship courses "A", "B" or "C" cannot exceed 6 units total. Available for graduate credit.

**ECE 496A-Z. Experimental Topics Courses in Electrical and Computer Engineering (1-4)**

**ECE 498A-X. Supervised Individual Projects (1-3)**

Studies in selected areas of electrical engineering with course content to be determined.

**ECE 499A-C. Independent Study (1-3)**

**ECE 501. Introduction to Biomedical Engineering (3)**

*Preparatory: Senior or graduate standing.* Characterization and properties of anatomical and physiological elements in engineering applications will be studied. Also includes the design of basic medical instrumentation.

**ECE 503. Biomedical Instrumentation (3)**

*Preparatory: ECE 350 or instructor consent.* A comprehensive introduction to medical imaging systems will be explored. Common imaging modalities are introduced from the perspectives of both physics and system, including X-Ray, CT, Ultrasound, MRI, PET and SPECT.

**ECE 520 System On Chip Design (3)**

*Prerequisites: ECE 420, 425. Corequisite: ECE 520L.* Introduction to system on chip design methodology that includes the study of NIOS and ARM architectures, Avalon switch fabric, memory, real-time operating system (RTOS), peripheral interface and components and contemporary high-density FPGAs.

**ECE 520L System On Chip Design Laboratory (1)**

*Prerequisites: ECE 420, ECE 425. Corequisite: ECE 520.* This laboratory course reinforces the system-on-chip design concept developed in the lecture course. It focuses on software development and hardware verification of Nios II systems using Altera software tools and Nios development boards.

**ECE 524. FPGA/ASIC Design and Optimization Using VHDL (3)**

*Prerequisites: ECE 420. Corequisite: ECE 524L.* This course covers top down design methodology for FPGA and ASIC using VHDL. Hardware Description Language, (VHDL) modeling, simulation and synthesis tools are utilized to elaborate the material covered throughout the course. Xilinx (the Virtex series) and Actel (the SX and AX series) FPGA architectures and design methodologies are studied. Several sample designs are targeted and tested for each FPGA technology. ASIC design flow and design optimization techniques are discussed. ASIC design flow, constraint file generation and test benches also are studied, along with their applications to some designs samples. The use of FPGAs in space and military applications and their reliability issues are discussed. 3 hours lecture per week.

**ECE 524L. FPGA/ASIC Design Lab (1)**

*Prerequisite: ECE 420. Recommended corequisite: ECE 524.* The lab accompanying course EE524 covers modeling of digital systems and electronic circuit design hierarchy and the role of methodology in FPGA/ASIC design. Hardware Description Language, VHDL, simulation and synthesis tools are utilized to elaborate the material covered throughout the course. The lab introduces the systematic top-down design methodology to design complex digital hardware such as FPGAs and ASICs. FPGA and ASIC design flow as well as design optimization techniques are discussed. For FPGAs, Xilinx Virtex and Actel SX architecture are covered. Individual and group projects are assigned to students. 3 hours lab per week.

**ECE 526/L. Verilog HDL for Digital Integrated Circuit Design and Lab (3/1)**

*Prerequisite: ECE 320/L. Corequisite: ECE 526L.* This course covers the use of Verilog Hardware Description Language for the design and development of digital integrated circuits, including mask-programmed ASIC's and FPGA's. Hierarchical top down vs. bottom up design, synthesizable vs. non-synthesizable code, verification, hardware modeling, simulation system tasks, compiler directives and subroutines are all covered and illustrated with design examples. Lab exercises emphasize use of professional compilation and simulation tools for debugging and verification. 3 hours lecture, one 3-hour lab per week.

**ECE 527. Application Specific Integrated Circuit Development (3)**

*Prerequisites: ECE 526/L. Corequisite: ECE 527L.* Study of the tools and techniques used to develop application specific integrated circuits, including mask programmed devices and field programmable circuits. Topics include synthesis methodologies, performance tradeoffs and constraints. Asynchronous interfacing is covered in detail for both single bit and bus interfaces. A non-theoretical introduction to test and testability also is included.

**ECE 527L ASIC Development Lab (1)**

*Prerequisite: ECE 526/L. Corequisite: ECE 527.* This course is a companion to ECE 527—Application Specific Integrated Circuit Development. In the lab, students apply the lessons of ECE 527 to code circuits in Verilog HDL, synthesize them for varying performance goals and modify the implemented designs for testability. This is accomplished through use of state-of-the-art industrial design automation software.

**ECE 545. Solid State Devices (3)**

*Prerequisite: ECE 445 or instructor consent.* An in-depth study of quantum mechanics, semiconductor materials and solid state devices, including the Schrodinger equation, potential barriers and wells, energy band diagrams, mobility, effective mass, charge carrier transport, scattering mechanisms, continuity equation, and bandgap engineering, as well as the design of p-n junction diodes, bipolar junction transistors, Schottky diodes, field effect transistors, hetero-junction devices and high electron mobility transistors are undertaken in this course.

**ECE 546. Very Large Scale Integrated Circuit Design (3)**

*Prerequisite: ECE 442.* Survey of VLSI technology and very large scale integrated systems. Problems that occur when ordinary circuits are replicated to involve millions of devices. CMOS technology, design styles up to the point of submission for fabrication. Computerized methods with high-density circuits with optimized speed and power consumption. Students perform simple layouts and simulations suitable for extension to a very large scale.

**ECE561. Digital Communications Systems (3)**

*Prerequisites: ECE 450, 460. Recommended Corequisite: ECE 561L.* Basic principles of the analysis and design of modern digital communication systems. Topics include baseband transmission, bandpass modulation and demodulation techniques, link budget analysis, optimum receiver design, and performance of digital communication systems in the presence of noise.

**ECE561L: Digital Communications Systems Laboratory (1)**

*Prerequisites: ECE 450, 460/L. Recommended Corequisite: ECE 561.* This is a lab course that reinforces the theory taught in the ECE 561 course on Digital Communication Systems. The lab is taught using the simulation software package called SystemView by Elanix. Topics covered include elementary signal and system design and analysis, baseband communication systems, and bandpass communication systems.

**ECE 562. Data Communication Networks (3)**

*Prerequisite:* ECE450. Layered network architectures and the TCP/IP model. Link layer error and flow control mechanisms. Packet switching. Wired and wireless local and wide area networks. Medium access control procedures. Internet working with switches, bridges and routers. Routing algorithms. Network security.

**ECE 571. Electromagnetic Fields and Waves II (3)**

*Prerequisite:* ECE 370. Analysis of time-varying electromagnetic fields. Maxwell's equations, waves in ideal and lossy matter. Impedance concept, duality, equivalence principle, energy flow, reciprocity theorem. Transmission lines, wave-guides, resonators, surface waves, antennas.

**ECE 572. RF and Microwave Active Circuit Design (3)**

*Prerequisites:* ECE 370, 571 or instructor consent. Basic concepts in RF and microwave electronics, including loaded Q, RLC resonant circuits, L-network matching circuits, wave propagation in transmission line circuits, S-parameters, signal-flow graphs, Smith chart, design of matching circuits using stubs, stability criteria and circles, unilateral and bilateral cases for maximum gain design, and noise figure circles, as well as the analysis and design of microwave high-gain amplifiers (HGAs) and low-noise amplifiers (LNAs), are treated in depth.

**ECE 572L. RF and Microwave Active Circuit Design Lab (1)**

*Prerequisite:* 340L, 370. *Recommended Corequisite:* ECE 572. Design, construction and testing of microwave passive and active circuits. Introduction to modern CAE and CAD techniques, including optimization.

**ECE 578. Photonics (3)**

*Prerequisite:* ECE 370. An in-depth study of the principles and applications of ray optics, matrix optics, wave optics, diffraction, interference, lens and mirrors, monochromatic and polychromatic light, Fourier optics, holography, electromagnetic optics, absorption, dispersion, polarization of light, crystal optics, solar cells and electro-optics are included in this course.

**ECE 580. Digital Control Systems (3)**

*Prerequisites:* ECE 351, 480. Application of z-transform and state variable methods to the analysis and design of digital and sampled-data control systems—the sampling process, data reconstruction devices, stability analysis, frequency response methods, continuous network compensation, digital controllers, z-plane synthesis, state-variable feedback compensation, and variable gain methods in non-linear sampled-data system analysis.

**ECE 581. Fuzzy Control (3)**

*Prerequisite:* ECE 480. Consists of two parts. First part: Introduces basic concepts of fuzzy logic, such as fuzzy set, rules, definitions, graphs and properties related to fuzzification and defuzzification. Second part: Introduces fuzzy logic control and its application to control engineering and discusses the basic fuzzy logic controllers, the relevant analytical issues and their roles in advanced hierarchical control systems.

## Graduate Courses

---

Note: 300-level courses in Electrical and Computer Engineering do not carry credit for a Master's degree in Electrical Engineering.

**ECE 602. Biomedical Engineering I (3)**

*Prerequisite:* ECE 351 or Instructor consent. A project-based comprehensive introduction to computing methods in biomedical engineering will be explored, including biomedical modeling, biomedical signal processing, medical image analysis and machine learning.

**ECE 603. Biomedical Engineering II (3)**

*Prerequisite:* ECE 309/ME 309 or instructor consent. The course focuses on application of engineering methods in bioinformatics, an important field of bioengineering. Different approaches to DNA sequence processing, protein sequence analysis and microarray data analysis are introduced.

**ECE 610. Fault Analysis in Power Systems (3)**

*Prerequisite:* ECE410/L or instructor Consent. Study of impedance and admittance models, network calculations and symmetrical faults using Zbus (impedance matrix), symmetrical components and sequence networks. Unsymmetrical faults using symmetrical components also are covered. The power-flow problem is analyzed and explained in detail using methods, including Newton-Raphson and DC-power flow. The effects of distributed generation (DG) in short circuit analysis are discussed. A project is assigned in which students select a topic related to the course, perform bibliographical research, write a report and make presentations about their findings. Tools used include Matlab and PSPICE.

**ECE 611. Power Distribution Systems (3)**

*Prerequisite:* ECE 410/L. *Corequisite:* ECE 411. "Load Analysis" and "Load Forecasting" using Box-Jenkins Methodology are introduced. Distribution transformers, design of sub-transmission lines and distribution lines, design of primary systems and secondary systems leading to voltage drop and voltage regulation and power losses are covered. Detailed study of the "K" factor is given. Reliability of distribution systems is analyzed and distributed generation (DG) is discussed. Automated distribution operations (ADO), where the problem of voltage-drop and voltage regulation is resolved using IED (intelligent electric devices), is discussed; this topic is a consequence of the implementation of the smart grid. The application of the concepts covered in this course is discussed in relation with sustainability. A project is assigned in which students select a topic related to the course, perform bibliographical research, write a report and make presentations about their findings. Tools used include Matlab and PSPICE.

**ECE 612. Selected Topics in Power Systems (3)**

*Preparatory:* Instructor consent. In this "Protective Relaying" class, introduction to general philosophies and classification of relays is covered. VTs (voltage transformers) and CTs (current transformers) and their selectivity are studied in detail following ANSI/IEEE standards. Design principles and protection with time-overcurrent relays, instantaneous current-voltage relays, directional-sensing relays, generator, transformer, bus and line protection using relays are also studied. R-X, MHO, reactance and ground relays are covered as well. Several lab experiments using a state-of-the-art protective relay lab with microprocessor-based relays are included. A project is assigned in which students select a topic related to the course, perform bibliographical research, write a report and make presentations about their findings. Tools used include Matlab and PSPICE.

**ECE 620. Advanced Switching Theory (3)**

*Prerequisite:* ECE 320. Detailed study of synchronous and asynchronous circuits, their design, characterization, optimization and decomposition. Combinational and sequential hazards and how to remove them. A detailed study of race free and critical race free asynchronous design. Non-Boolean logic design such as Galois logic and many value logics and algorithmic state machine (ASM) designs are covered.

**ECE 621. Computer Arithmetic Design (3)**

*Prerequisite:* ECE 422. Design analysis of high speed adders, subtractors, multipliers and dividers of digital computers, integrated circuits and digital devices. Signed-digit adder/subtractor, multiplicative and division algorithms and hardware. Iterative cellular array multipliers and dividers. Floating point arithmetic processor and pipelined arithmetic.

**ECE 622. Digital Systems Structure (3)**

*Prerequisite:* Instructor consent. Studies of digital systems architectures primarily from the hardware viewpoint. Techniques and design methods employed for general purpose computers. Unconventional and special-purpose computers, such as parallel processors, associative processors, pipeline processors, array processors, list processors, hardware compilers.

**ECE 623. Diagnosis and Reliable Design of Digital Systems (3)**

*Prerequisite:* ECE 620. Basic theory and techniques for testing VLSI circuits and systems. Fault Modeling, logic simulation and fault simulation techniques are discussed. Test generation for combinational and sequential logic circuits, as well as checking experiments. Gate-level digital simulation and its application to fault diagnosis. Design techniques using static and dynamic redundancy for reliable systems, design for testability (DFT), Built-in self-test (BIST) and design techniques for fault tolerant and early diagnosable systems. The use of DFT tools for test generation, fault diagnosis, fault coverage, design for testability, reliability computations and test synthesis. Delay faults and testing, fault diagnosis, quiescent current testing (Iddq), functional testing and crosstalk.

**ECE 624. Digital Systems Design Automation and VHDL Modeling (3)**

*Prerequisite:* ECE 623. Issues related to CAD tools used in the physical design of VLSI systems. A discussion of the mathematical tools used in this field, such as graph theory, optimization and search techniques, such as mathematical programming, and defining the constraints and objectives associated with each problem, as well as several classical algorithms used in their solution. These problems include floorplanning, partitioning, placement and routing. Discussion of static timing analysis and signal integrity, leading to development of new CAD tools for Deep Sub-micron technology.

**ECE 625 Microprocessor Interfacing and Applications (3)**

*Prerequisite:* ECE 425. Various interfacing concepts and techniques are presented for microprocessor systems to gather data and control peripheral devices. The topics include general-purpose inputs/outputs, analog inputs, serial communication interfacing (SCI), serial peripheral interfacing (SPI), pulse width modulation (PWM), Inter-IC (I2C), controller area networks (CAN), real-time operating systems (RTOS), etc. Real-world design issues and applications such as control system applications are discussed. Methodical system design approaches are adopted to develop microcontroller-based embedded systems.

**ECE 629A-C. Seminar in Digital Systems and Components (1-3)**

*Prerequisite:* Instructor consent. Advanced studies of topics of current interest in the field of digital systems and components engineering. Consists in part of an intensive study of selected papers from current literature.

**ECE 635 Error Detection and Correction Systems Design (3)**

*Prerequisite:* ECE 320, 450. Theory and application of error detection and correction codes. Linear and cyclic block codes using finite field arithmetic, encoding, decoding and error-correcting techniques. System control with emphasis on hardware implementation.

**ECE 637. Pattern Recognition (3)**

*Prerequisite:* ECE 450. Pattern recognition techniques are used to design automated systems that improve their own performance through experience. This course covers the methodologies, technologies and algorithms of pattern recognition implemented with neural networks.

**ECE 639. Robotic Sensing and Computer Vision (3)**

*Prerequisite:* Instructor consent. Design and development of robotic systems with sensing elements for closed-loop controls. Sensing by vision, proximity and touch. Development of image processing and pattern recognition techniques for object recognitions and location. Size and shape determinations using microprocessor-based systems. Robotic trajectory, collision avoidance, path planning and teaching.

**ECE 640. Modern Electronic Techniques (3)**

*Prerequisite:* Instructor consent. Advanced electronic design techniques, such as switching regulators and switching amplifiers are covered. Also included are thermal effects and manufacturing defects. Finally, advanced audio design also is emphasized. Computerized design techniques are used.

**ECE 642. RF Electronics Design (3)**

*Prerequisite:* Instructor consent. Design of RF amplifiers and tuners is emphasized. Covered are AM/FM RF amplifiers, AM/FM tuners and AM/FM detectors. Radar applications are considered: TV circuits, including UHF/VHF tuners, video amplifiers, sync. vertical and horizontal circuits. Automatic control circuits also are covered. Phase lock loop techniques are introduced with emphasis on RF applications, including frequency synthesis techniques using digital approaches.

**ECE 648. Electrical Network Theory (3)**

*Prerequisite:* Instructor consent. Analysis and synthesis of passive networks, using two port theory, Matrix, signal flow graphing and computerized techniques in active network design, with emphasis on signal processing.

**ECE 649. Active Network Synthesis (3)**

*Prerequisite:* Instructor consent. Frequency and time domain approximations, introduction to active circuits, modern design of active filters of computerized techniques in active network design, with emphasis on signal processing.

**ECE 650. Random Processes (3)**

*Prerequisite:* ECE 450. Random vectors, sequences and processes. Linear systems with random inputs. Second moment theory and spectral analysis. Narrowband processes. Gaussian and Poisson processes. Application to filtering, detection and estimation of signals in white and non-white noise.

**ECE 651. Digital Signal Processing I (3)**

*Prerequisite:* ECE 351. FIR filter structures and implementation, IIR filter structures and implementation; FIR filter design techniques; IIR filter design techniques; fundamentals of multi-rate DSP; and introduction to discrete wavelet transform.

**ECE 652. Digital Signal Processing II (3)**

*Prerequisites:* ECE 450, 651. *Preparatory:* ECE 351. Discrete random process, linear prediction filter, FIR Wiener filter, IIR Wiener filter, nonparametric spectrum estimation, parametric spectrum estimation, LMS adaptive filter and RLS adaptive filter.

**ECE 658. Signal Detection and Estimation Theory (3)**

*Prerequisite:* ECE 650. Fundamentals of detection and estimation theory, with applications to communications, radar and signal processing. Optimum receiver principles. Detection of random signals in noise. Parameter estimation. Linear and nonlinear estimation and filtering.

**ECE 659. Information Theory and Coding (3)**

*Prerequisite:* ECE 650. Entropy, entropy rate, mutual information. Data compression and source codes, including construction and efficiency. Discrete channels with and without memory, channel capacity, noiseless and noisy channels. Introduction to channel coding, and encryption and decryption.

**ECE 660. Modulation Theory and Coding (3)**

*Prerequisites:* ECE 561, 650. Principles of M-ary communications. Signal space methods, optimum detection. Various modulation techniques and their performance in terms of bandwidth and power efficiency. Efficient signaling with coded waveforms. Channel coding, including block and convolutional coding.

**ECE 661: Wireless Communications (3)**

*Prerequisites:* ECE 561, 650. Characterization of wireless channels, including path loss models, and flat and frequency selective fading. Multiple access techniques. Performance of digital modulation techniques under channel impairments. Mitigation techniques, including diversity, equalization, multi-carrier modulation and spread spectrum.

**ECE 665. Radar Systems (3)**

*Prerequisite:* ECE 460, 650. Radar equation, target cross section, MTI and pulsed Doppler radars, and CW and CW-FM radar. Receiver noise calculations. Radar detection and parameter estimation in noise and clutter. Matched filters, pulse compression, radar signal choice and ambiguity function.

**ECE 666. Fiber-Optic Communications (3)**

*Prerequisite:* ECE 460. Mode theory, waveguide equations and fiber modes calculations. Optical signal dispersion and degradation. Optical sources, photo detectors, modulation/demodulation techniques and optical system receiver performance. Power and rise-time link budget analysis.

**ECE 666L. Fiber Optic Communication Lab (1)**

*Prerequisite:* ECE 460/L. *Corequisite:* ECE 666. This lab accompanying course ECE 666 covers fiber optic communication design, measurements and simulations. This includes numerical aperture, fiber attenuation, power distribution in single mode fibers, mode distribution in multimode fibers, fiber coupling efficiency and connectors/splices losses. Design, construction and simulation of WDM communication system components also are covered. Individual and group projects are assigned to students. 3 hours lab per week.

**ECE 669. Advanced Topics in Communications/ Radar (3)**

*Prerequisite:* ECE 650. Presentation of recent topics in communications and radar, using selected papers from current literature as the basis.

**ECE 671. Microwave Engineering (3)**

*Prerequisite:* ECE 471. Application of the concepts of modern network theory to waveguiding systems. Impedance transformation and matching, scattering matrix, propagation in non-isotropic media, passive microwave devices, electromagnetic resonators, and measurements in microwave systems.

**ECE 672. Advanced Microwave Circuit Design (3)**

*Prerequisite:* ECE 572. *Preparatory:* Instructor consent. Advanced microwave circuit design and in-depth analysis of microwave transistor amplifiers, microwave oscillators, detectors, mixers, microwave control circuits and microwave integrated circuits (MIC's) are included in this course. Practical design issues of microwave circuits are emphasized. Materials, mask layout and fabrication techniques of microwave integrated circuits (MIC's) also are treated.

**ECE 673. Microwave Semiconductor Devices (3)**

*Prerequisite:* ECE 545. *Preparatory:* Instructor consent. Physical principles and advanced design techniques and applications of microwave semiconductor materials and devices, in particular, varactors, PIN diodes, tunnel diodes, avalanche transit-time devices (IMPATTs, TRAPATTs), microwave bipolar junction transistors, microwave field effect transistors, transferred electron devices (TEDs), hot-electron devices, real space transistors (RSTs) and microwave quantum-effect devices are treated in depth in this course.

**ECE 674. Antenna Engineering (3)**

*Prerequisite:* ECE 471. First course in the theoretical analysis and design of antennas. Review of fundamental concepts beginning with Maxwell's Equations, discussion of significant antenna parameters, elementary antennas, apertures, arrays, traveling-wave antennas and antennas based on geometrical optics.

**ECE 675. Seminar in Applied Electromagnetics (3)**

*Prerequisite:* ECE 674. *Preparatory:* Instructor consent. Advanced study of topics of current interest in the field of applied electromagnetics. Consists, in part, of an intensive study of selected papers from the current literature. Participants are expected to prepare bibliographies and present oral and/or written reports.

**ECE 676. Numerical Techniques in Applied Electromagnetics (3)**

*Prerequisite:* ECE 671 or 674. *Preparatory:* Instructor consent. Study of current techniques employed to solve practical electromagnetic field problems. Emphasis is placed on antenna and radar cross-section problems using moment methods, finite difference time domain technique, asymptotic techniques such as Geometrical Optics, Physical Optics and Geometrical theory of Diffraction. Students are expected to use the techniques treated to solve problems using a computer.

**ECE 677. Lasers and Masers (3)**

*Prerequisite:* ECE 370, 571 or consent of the instructor. Basic principles of masers and lasers are developed with a minimum of quantum mechanical concepts. Application of engineering concepts, such as the equivalent circuit of a microwave cavity, effective noise temperature and parametric amplification, optical resonators and lens waveguides.

**ECE 681. Non-Linear Control Systems (3)**

*Prerequisite:* ECE 480. This course studies methods for modeling, analysis and design of nonlinear dynamical systems with applications in control. The materials include analysis of nonlinear systems by means of describing functions and phase-plane diagrams; stability studies by means of the first and second methods of Lyapunov, Popov's Methods and La Salle's Theorem, and system design methods, including Lyapunov based design, feedback linearization, sliding mode control and adaptive control.

**ECE 682. State Variables in Automatic Control (3)**

*Prerequisite:* ECE 480. Application of state-space methods to the analysis and synthesis of feedback control systems—matrices, vectors and vector spaces, coordinate transformations, solution of the vector matrix differential equation, stability, controllability and observability, and optimal control systems.

**ECE 683. Optimal Control (3)**

*Prerequisite:* ECE 682. Applications of variational methods, Pontryagin's Maximum Principle and dynamic programming to problems of optimal control theory. Iterative numerical techniques for finding optimal trajectories.

**ECE 684. Stochastic Control (3)**

*Prerequisites:* ECE 650, 682. Control of linear, discrete-time and continuous-time stochastic systems; statistical filtering, estimation and control with emphasis on the Kalman filter and its applications; Wiener filtering.

**ECE 695A-Z. Experimental Topics Courses in Electrical Engineering (1-4)****ECE 696. Directed Graduate Research (1-3)**

(Credit/No Credit only)

**ECE 697. Directed Comprehensive Studies (3)**

(Credit/No Credit only)

**ECE 698. Thesis or Graduate Project (1-6)****ECE 699A-C. Independent Study (1-3)**

# Elementary Education

## Staff

Arlene Palkay (Administrative Coordinator), Frank Vargas (Administrative Assistant)

## Faculty

Susan Belgrad, Raymond Brie, Joyce Burstein, Tae Chang, Sandra Chong, Shartriya Collier, Irene Cota, Cynthia Desrochers, Lynn Gordon, Hillary Hertzog, Gregory Knotts, David Kretschmer, Shiuli Mukhopadhyay, Nancy O'Rode, Sabrina Peck, Nancy Prosenjak, John Reveles, Connie White, Marilyn Joshua Williams, Renee Ziolkowska

## Emeritus Faculty

Martha Brockman, VanDyk Buchanan, John Carlson, Harriet Easley, Donna Emery-Dorsey, Marilyn Fendrick, Helen Fielstra, Elizabeth Hone, Linda Jones, Raymond Jung, Phil Kligman, Edward Labinowicz, Brenda Lakin, Yvonne Lofthouse, Marion Marion, Seymour Metzner, Walter Nelson, Thomas Potter, O. V. Porterfield, James Shanks, Richard Sharp, Vicki Sharp, Fehl Shirley

## Programs

Graduate Degree:

**M.A. in Education**

**Elementary Education Option**

Credentials:

**Multiple Subject Preliminary Teaching Credential, including BCLAD Emphasis Reading Certificate (RC) Reading/Language Arts Specialist Credential (R/LASC)**

## Student Learning Outcomes of the Master of Arts Degree

M.A. candidates will develop as professional educators who demonstrate:

1. Reflective practice by examining their pedagogical content knowledge and skills to improve diverse students' learning needs.
2. Theoretical understanding by reading, synthesizing and evaluating educational theory and research, and applying research findings to their practice in diverse classroom settings .
3. Research skills by designing and conducting research and presenting their findings at a professional level in oral and written forms.
4. Educational awareness by knowing current educational issues and how they impact schools.
5. Leadership by influencing policy and practice in educational communities through advocacy and example.

## Student Learning Outcomes of the Reading Certificate Program

1. Develop fluent reading in students at all grade levels, including English learners, through linguistic elements, including phonemic awareness and the phonological and morphological structure of the English language, systematic instruction in sound-symbol relationships, spelling instruction, role of extensive practice, and skills and strategies leading to independent reading.
2. Teach text comprehension using narrative text structure analysis and expository text structure analysis.
3. Plan and deliver reading instruction based on an ongoing assessment (formal and informal) of all learners in reading and writing.
4. Plan instructional intervention models and strategies based on assessment and evaluation of students' needs, abilities and achievement using multiple measures.

5. Respect, understand and teach students of diverse backgrounds (e.g., cultural, gender, age, linguistic and socio-economic levels).
6. Articulate a professional perspective through examination of research and research-based practice on how all students—early, intermediate and advanced readers; ELs; and struggling readers—acquire language, and reading and writing proficiency.

## Student Learning Outcomes of the Reading/Language Arts Specialist Credential

1. Acquire professional knowledge and articulate advanced professional perspectives on reading and language arts curricula, instruction and assessment.
2. Assume leadership roles in literacy instruction and engage in an ongoing professional development.
3. Design and conduct classroom-based research using appropriate methodology, and critically examine sound research and theoretical literature to ascertain program strength, weaknesses and overall success.
4. Meet the reading and writing needs of all students.
5. Provide effective leadership in program, curriculum, instructional and intervention decision making and staff development.

## Student Learning Outcomes for the Multiple Subject Credential Program

**Domain A.** Making Subject Matter Comprehensible to Students

1. Specific pedagogical skills for subject matter instruction.

**Domain B.** Assessing Student Learning

2. Monitoring student learning during instruction.
3. Interpretation and use of assessments.

**Domain C.** Engaging and Supporting Students in Learning

4. Making content accessible.
5. Student engagement.
6. Developmentally appropriate teaching practices, K-3 and 4-8.
7. Teaching English learners.

**Domain D.** Planning Instruction and Designing Learning Experiences for Students

8. Learning about students.
9. Instructional planning.

**Domain E.** Creating and Maintaining Effective Environments for Student Learning

10. Instructional time.
11. Social environment.

**Domain F.** Developing As a Professional Educator

12. Professional, legal and ethical obligations.
13. Professional growth.

## Student Learning Outcomes of the Multiple Subject, Reading/Language Arts Specialist Credential and Reading Certificate Programs

Upon completion of Multiple Subject, Reading Language Arts Specialist Credential and Reading Certificate programs, candidates will be able to demonstrate competencies in the following major domains of the California Standards for the Teaching Profession:

1. Making subject matter comprehensible to students.
2. Assessing student learning.
3. Engaging and supporting students in learning.
4. Planning instruction and designing learning experiences for students.
5. Creating and maintaining effective environments for student learning.
6. Developing as a professional educator.

## Multiple Subject Preliminary Credential Program Pathways

The Multiple Subject Credential Program is primarily designed for students who desire to teach in self-contained classrooms typical of elementary schools and to provide effective instruction for English learners of diverse backgrounds in classroom settings. The Multiple Subject Credential program includes foundational course work in educational psychology, working with diverse populations and teaching students with disabilities; a full complement of discipline-based methods courses; and field experience and two semesters of student teaching in elementary schools within the University's service area.

**BCLAD Emphasis Credential:** Students enrolled in the Traditional, ACT or Multiple Subject University Intern Program and who are proficient in two languages may elect to pursue the BCLAD Emphasis Credential. The Department offers the BCLAD option to candidates who possess academic proficiency in Armenian and English, Korean and English, or Spanish and English. In addition, students fluent in Cambodian and English, Cantonese and English, Mandarin and English, or Vietnamese and English may complete a BCLAD Emphasis Program through the CSUN Asian BCLAD Consortium. For more information about the CSUN Asian BCLAD Consortium, please contact Sandra Chong. Candidates pursuing the BCLAD Emphasis Credential complete additional course work in learning to teach in dual languages. See Traditional, ACT and Multiple Subject Intern Program pathways for additional information.

### Academic Advisement for Preliminary Multiple Subject Credential Program

Please contact the Credential Office for academic advisement. The program advisors and other staff can be reached at (818) 677-2586. The Department offers the following pathways leading to the Preliminary Multiple Subject Credential:

1. Traditional Program
2. Accelerated Collaborative Teacher Preparation Program (ACT)
3. Multiple Subject University Intern Program
4. Integrated Teacher Education Program (ITEP)—Freshman and Junior Options (BCLAD option not available)

### Traditional Program: 39 units

The Traditional Program is a Post-Baccalaureate multiple subject credential program option for either full-time or part-time candidates. Full-time candidates may complete the program in a single year (2 academic semesters). Most candidates, however, complete the program in 3 or more semesters. Application for student teaching must be submitted one semester prior to the semester in which the candidate wishes to begin student teaching. Deadline dates for submission of student teaching applications are March 20 for Fall student teaching and Oct. 20 for Spring student teaching. The Traditional Program offers a BCLAD option for qualified candidates.

**Credential Office: (818) 677-2586, credprep@csun.edu**

**Student Teaching Coordinator: Steve Holle, (818) 677-3183, holle@csun.edu**

### A. Admission Requirements

- General Credential Program Admission Requirements
- CSET LOTE: Test III for Spanish and Korean, Test II for Armenian (BCLAD candidates only)

### B. Required Prior to EED 560—Supervised Field Work

- Basic Skills Requirement (BSR)
- Current Tuberculosis Clearance
- Certificate of Clearance
- Writing proficiency requirement (ENGL 305 or 406 with a grade of "C" or better; CBEST Writing score of 41 or higher; passing score on CSET writing subtest 142; or UDWPE score of 10 or higher)

- Submission of student teaching application by deadline date (see Credential Section for details)

### C. Required Prior to or Concurrent with EED 560C—Supervised Field Work

|   |   |
|---|---|
| EED 500   | Fundamentals of Teaching (3)                  |
| or EPC 500  | Fundamentals of Teaching (3)                  |
| <i>(EED/EPC 500 required in first semester of enrollment)</i> |   |
| EED 520   | Teaching Reading in the Elementary School (3) |
| EED 565M  | Mathematics Curriculum and Methods (2)        |
| EED 577   | Language Arts and ESL Instruction (3)         |
| AAS/ARMN/CHS/ELPS/  |   |
| PAS 417   | Equity and Diversity in Schools (3)           |

### D. Required Concurrent with EED 560C—Supervised Field Work

|          |                                   |
|----------|-----------------------------------|
| EED 559C | Supervised Field Work Seminar (2) |
|----------|-----------------------------------|

### E. Required Prior to EED 561F Student Teaching

|              |  |
|--------------|--|
| EED 560C     | Supervised Field Work (3)  |
| and EED 559C | Supervised Field Work Seminar (2)  |
| EED 525      | Bilingual and Bicultural Teaching in the Elementary School (BCLAD candidates only) (3) |

*Cumulative GPA of 3.0 in professional education course work and overall GPA of at least 2.75*

*A grade of "C" or better in all program courses*

### F. Required Prior to or Concurrent with EED 561F—Student Teaching

|                 |   |
|-----------------|---|
| EED 515         | Basic Technology Methods (2)  |
| EED 559C        | Supervised Field Work Seminar (2)   |
| EED 560C        | Supervised Field Work (3)   |
| EED 565S        | Science Curriculum and Methods (2)  |
| EED 575         | Integrated Social Studies and Arts Curriculum and Methods (3)   |
| HSCI 496TH      | Teaching Health in the Elementary School Classroom (1)  |
| KIN 570PE/595PE | Applied Methods for Physical Education (1)  |
| SPED 420        | Improving the Learning of Students with Special Needs through Differentiated Instruction and Collaboration(3) |

### G. Required Concurrent with EED 561F—Student Teaching

|          |                              |
|----------|------------------------------|
| EED 559F | Student Teaching Seminar (1) |
|----------|------------------------------|

### H. Supervised Field Work, Student Teaching and Seminars

|          |                                   |
|----------|-----------------------------------|
| EED 559C | Supervised Field Work Seminar (2) |
| EED 559F | Student Teaching Seminar (1)      |
| EED 560C | Supervised Field Work (3)         |
| EED 561F | Student Teaching (6)              |

*BCLAD candidates enroll in EED 561FB instead of EED 561F and student teach in a classroom appropriate to culture/language of emphasis.*

### I. Other Program Requirements for Credential Recommendation

- Successful completion of California Teaching Performance Assessment (PACT Teaching Event and CATs) and goals for the Individual Induction Plan (completed in EED 561F—Student Teaching and EED 559F—Student Teaching Seminar)
- Cumulative GPA of 3.0 in professional education course work and overall GPA of at least 2.75
- A grade of "C" or better in all program courses
- U.S. Constitution requirement
- CPR Certification—Infant, Child, Adult (online CPR training is not acceptable)

- Multicultural Category A course in culture/language of emphasis (BCLAD candidates only)
- Passage of Reading Instruction Competence Assessment (RICA)
- Baccalaureate Degree from an accredited institution of higher education.

#### J. Suggested Multiple Subject Traditional Program Course work Sequences

##### 1. 2-semester sequence for full-time students

**Semester 1:** EED 500 (or EPC 500), 515, 520, 559C, 560C, 565M, 577; AAS, CHS, ELPS, PAS or ARMN 417. BCLAD candidates only: EED 525.

**Semester 2:** EED 5559F, 61F/561FB, 565S, 575; HSCI 496TH; KIN 595PE; SPED 420.

##### 2. 3-semester sequence for part-time students

**Semester 1:** EED 500 (or EPC 500), 515, 520, 565M; AAS, CHS, ELPS, PAS or ARMN 417. BCLAD candidates only: EED 525.

**Semester 2:** EED 559C, 560C, 565S, 577; HSCI 496TH; KIN 595PE.

**Semester 3:** EED 559F, 561F/561FB, 575; SPED 420.

##### 3. 4-semester sequence for part-time students

**Semester 1:** EED 500 (or EPC 500), 520; AAS, CHS, ALPS, PAS or ARMN 417.

**Semester 2:** EED 515, 565M; KIN 595PE. BCLAD candidates only: EED 525.

**Semester 3:** EED 559C, 560C, 565S, 577; HSCI 496TH.

**Semester 4:** EED 559F, 561F/561FB, 575; SPED 420

#### Accelerated Collaborative Teacher

##### Preparation Program (ACT): 37 units

The Accelerated Collaborative Teacher (ACT) Preparation Program is a 2-semester Post-Baccalaureate, multiple subject credential program for full-time candidates. Candidates must file a separate application for ACT admission. Cohorts begin each Fall. The ACT Program offers a BCLAD option for qualified candidates.

**Program Coordinator: David Kretschmer, (818) 677-2563, david.kretschmer@csun.edu**

**Field Experience Coordinator: Renee Ziolkowska, (818)677-7393, renee.ziolkowska@csun.edu**

#### A. Admission Requirements

Same as Traditional Program requirements and Admissions Interview with an ACT Program Coordinator.

#### B. Required in the Fall Semester (23 units)

|            |  |
|------------|--|
| EED 500    | Fundamentals of Teaching (3)   |
| or EPC 500 | Fundamentals of Teaching (3)   |
| EED 515    | Basic Technology Methods (2)   |
| EED 520    | Teaching Reading in the Elementary School (3)  |
| EED 525    | Bilingual and Bicultural Teaching in the Elementary School (BCLAD candidates only) (3) |
| ELPS 541A  | Introduction to Teaching in Urban Schools (1)  |
| EED 559C   | Supervised Field Work Seminar (2)  |
| EED 565M   | Mathematics Curriculum and Methods (3)   |
| EED 567ACT | Supervised Field Work (4)  |
| EED 577    | Language Arts and ESL Instruction (3)  |
| SPED 541B  | Introduction to Teaching in Urban Schools (2)  |

*EED 567ACT includes 40 hours of early field experience followed by 200 hours of supervised field work completed over a 10-week period. This assignment emphasizes teacher candidate development in teaching reading/language arts and mathematics.*

#### C. Required Prior to EED 568ACT—Student Teaching

- Successful completion of all Fall semester course work
- Skills Requirement (CBEST or CSET Writing Exam 142)
- Writing proficiency requirement (ENGL 305 or 406 with a grade of “C” or better; or CBEST writing score of 41 or higher; or passing score on CSET writing subtest 142; or UDWPE score of 10 or higher)
- Cumulative GPA of 3.0 in program course work and overall GPA of at least 2.75
- Grade of “C” or better in all program courses

#### D. Required During Spring Semester (17 units)

|             |  |
|-------------|--|
| EED 559F    | Student Teaching Seminar (1) and Methods (3)           |
| EED 565S    | Science Curriculum and Methods (2)                     |
| EED 568ACT  | Student Teaching (6)                                   |
| EED 575     | Integrated Social Studies and Arts Curriculum          |
| ELPS 542A   | Meeting the Needs of All Students in Urban Schools (2) |
| HSCI 465ELM | Teaching Health in the Elementary School Classroom (1) |
| KIN 595PE   | Applied Methods for Physical Education (1)             |
| SPED 542B   | Meeting the Needs of All Students in Urban Schools (1) |

*EED 568ACT includes 20 hours early field experience followed by 10 weeks of full-time student teaching. (BCLAD candidates student teach in a classroom appropriate to culture/language of emphasis.)*

#### E. Other Program Requirements for Credential Recommendation

1. Passage of the California Teaching Performance Assessment Performance Assessment for California Teachers (PACT), Teaching Event and Content Area Tasks (CATs), and Individual Induction Plan
2. Cumulative GPA of 3.0 in professional education course work and overall GPA of at least 2.75
3. Grade of “C” or better in professional education course work
4. U.S. Constitution Requirement
5. Passage of Reading Instruction Competence Assessment (RICA)
6. CPR Certification—Infant, Child, Adult (online CPR training is not acceptable)
7. Baccalaureate Degree from an accredited institution of higher education.

#### Multiple Subject University Internship

##### Credential Program: 36 units

The Multiple Subject University Internship Credential program is a post-baccalaureate multiple subject credential program open to qualified students who are employed on an Internship Credential as full-time teachers in self-contained classrooms in nearby public school districts. The University Intern Program offers a BCLAD option for qualified candidates.

**Program Director: Irene Cota, (818) 677-7893, irene.cota@csun.edu**

**Program Coordinator: Elaine Adelman, (818) 677-2573, elaine.adelman@csun.edu**

#### A. Admission Requirements

1. General Credential Program Admission Requirements and verification of full-time teaching position in a self-contained elementary classroom (General Education) within the CSUN geographic region for supervision and in one of the participating school districts (Alhambra USD; Burbank USD; Castaic Union SD; Glendale USD; Las Virgenes USD; LAUSD; Newhall SD; Palmdale SD; Pasadena USD; Saugus Union SD; Sulphur Springs SD; Westside SD; and multiple local charter schools)

2. Internship Program application submitted to Multiple Subject Intern Program Office.
  3. Preservice Requirement to be completed at time of application to the Multiple Subject Intern Program:
    - A. English Language Learner (ELL) pre-service component: Forty (40) hours;
    - B. Additional Pre-Service Requirement: 120 hours.
- B. Required in First Semester of Enrollment and Concurrent with EED 550B(1)—Supervised Field Experience and Seminar**
- |     |            |   |
|-----|------------|---|
| EED | 500        | Fundamentals of Teaching (3)                  |

| EED | 559C                           | Supervised Field Work Seminar (2)     |
| EED | 559F                           | Student Teaching Seminar (1)          |
- Application for Supervised Practicum must be submitted one semester prior to the semester in which candidate wishes to begin his/her final practicum (EED 551C or 561CB). Information about deadline dates for submission of applications for Supervised Practicum is mailed to interns in the middle of the semester before the final semester of Supervised Practicum.
- I. Other Program Requirements for Credential Recommendation**
1. Successful completion of California Teaching Performance Assessment (PACT Teaching Event and CATs), and goals for the Individual Induction Plan (completed in EED 559F—Student Teaching Seminar)
  2. Cumulative GPA of 3.0 in professional education course work and overall GPA of at least 2.75
  3. A grade of “C” or better in all program courses
  4. U.S. Constitution requirement
  5. CPR Certification (Infant, Child, Adult)
  6. Multicultural Category A course in culture/language of emphasis (BCLAD candidates only)
  7. Passage of Reading Instruction Competence Assessment (RICA)
  8. Baccalaureate Degree from an accredited institution of higher education.
  9. 40 Hours of field work: Alternative experiences that include English language learners/inclusive students/emergent learners/different grade levels
- J. Required Multiple Subject Intern Program Course work Sequence**
- 4 semester sequence for part-time candidates:**
- Semester 1:** EED 500 (or EPC 500), 500B(1), 520; KIN 595PE  
**Semester 2:** EED 500B(2), 559C (2), 565M, 577; HSCI 496TH  
**Semester 3:** AAS, ARMN, CHS, ELPS, PAS, 417; EED 550B(3), 575; SPED 420  
**Semester 4:** EED 515, 559F, 565S. BCLAD candidates only: EED 525, 551C or 561CB.
- K. Integrated Teacher Education Program (ITEP)**
- Integrated Teacher Education Program (ITEP) is an undergraduate program of teacher preparation. The program makes it possible for a student to earn a Bachelor of Arts degree in Liberal Studies and a Multiple Subject Credential in four years. ITEP offers two options, one for entering freshman (Freshman Option) and the other for CSUN or community college transfer students with junior standing (Junior Option). The professional education requirements for both options are listed below. For information regarding the subject matter requirements, see the Liberal Studies Program section of the Catalog.
- ITEP Coordinator: Hillary Hertzog, (818) 677-2103**  
**Field Experience Office: (818) 677-3183**
- Freshman Option:** This is an undergraduate program option where students must begin in the freshman year with prescribed and cohorted course work to earn a B.A. Degree and Multiple Subject Credential concurrently. Please see the Liberal Studies section of this catalog for additional information.
- Junior Option:** This is an undergraduate program where candidates begin with Upper Division course work to earn a B.A. Degree and Multiple Subject Credential concurrently. Please see Liberal Studies section of the Catalog for additional information.
- A. Required Prior to Admission to Credential Portion of Program**
- General Credential Program Admission Requirements except CSET, which is required prior to EED 578A—Student Teaching.
- |      |     |                                   |

#### F. Other Program Requirements for Credential Recommendation

1. Passage of the California Teaching Performance Assessment (PACT Teaching Event and CATs), and Individual Induction Plan
2. Cumulative GPA of 3.0 in professional education course work and overall GPA of at least 2.75 since admission to the program
3. A grade of “C” or better in all Credential courses
4. U.S. Constitution requirement
5. Passage of Reading Instruction Competence Assessment (RICA)
6. CPR Certification—Infant, Child, Adult (online CPR training is not acceptable)

### Multiple Subject Professional Clear Credential Program (Ryan Credential Holders)

Please refer to the Credential section of the Catalog and see the Credential Office website for current information on the Multiple Subject Clear Credential.

### Reading Certificate (RC) and Reading/Language Arts Specialist Credential Program (R/LASC)

#### Los Angeles Times Literacy Center Director and

**Program Coordinator: Connie White, (818) 677-3333, [connie.white@csun.edu](mailto:connie.white@csun.edu)**

The Reading Certificate and Reading/Language Arts Specialist Credential Program is for candidates with a basic teaching credential who wish to specialize in the field of reading and language arts and become effective literacy leaders for California’s multicultural population. Upon completion of the Specialist Credential Program, candidates will have developed competencies needed to assume such positions as reading/language arts coordinators, consultants, mentor teachers, staff development coordinators and curriculum directors.

#### A. Required Prior to Admission

1. RC and R/LASC program application
2. Graduate Program application
3. Transcripts (official copy of transcripts showing a baccalaureate degree and all Post-B.A. course work)
4. Overall undergraduate GPA of 2.75
5. Verification of a valid Basic Teaching Credential
6. Verification of at least 1 year of full-time teaching experience in any

grade, preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency permit.

7. Application processing fee

#### B. Program Prerequisites

##### Basic Teaching Credential

- |      |                |  |
|------|----------------|--|
| ENGL | 428            | Children’s Literature (3)  |
|      | <i>or</i> ENGL | 429 Literature for Adolescents (3)   |

| EED/SED | 626           | Literacy Instruction for English Learners (3)                                 |
| EED/SED | 628           | Language and Literacy Programs: Leadership, Planning and Evaluation (3)       |

#### F. Required for R/LASC Recommendation

1. Completion of Reading Certificate course work with a cumulative GPA of 3.0
2. Completion of R/LASC course work with a cumulative GPA of 3.0
3. Completion of R/LASC Portfolio approved by the Program Coordinator, one program faculty member and the Department of Elementary Education Graduate Advisor
4. Three years of full-time teaching experience in any grade preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency permit

## Master of Arts in Education with an Option in Elementary Education

Graduate Advisor: Greg Knotts, (818) 677-3189,  
greg.knotts@csun.edu

The M.A. Degree Program builds on the competencies developed in the Multiple Subject Credential program and is designed to provide candidates with advanced professional preparation in education for (1) assuming differentiated careers in school districts, professional organizations and the community; and (2) continuing into a doctoral program. Total units required for the M.A. Degree in the concentrations Curriculum and Instruction, and Language and Literacy is a minimum of 30.

### Elementary Education Option

1. Curriculum and Instruction: For teachers interested in honing their skills to teach all curricular areas, this Option is a strong choice. The integration of visual and performing arts into the traditional subject matter disciplines such as language arts, social studies, science and mathematics is unique to this Option. Through a focus on the various state curriculum frameworks and standards, teachers come to understand the need for all students to be active learners engaged in a rich, meaning-centered curriculum.
2. Language and Literacy: This Option places emphasis on developing a comprehensive and balanced approach to literacy instruction and assessment. Teaching students to be strategic readers, writers and evaluators of their own literacy progress is emphasized. Through the Literacy Center on campus, CSUN students work in two practical settings to assess and assist children experiencing difficulty in developing literacy skills.

### A. Required for Admission to the Master of Arts In Elementary Education

Curriculum and Instruction, and Language and Literacy Concentrations

1. Admission to the University
2. Department application
3. Preliminary Teaching Credential
4. District Permission to enroll in CSUN-District (LAUSD) Joint Induction/MA Program (if applicable)

### B. Required for Classified Status

#### Curriculum and Instruction, Language and Literacy Concentrations

1. Cumulative undergraduate GPA of 3.0 or higher or a University-approved aptitude test for graduate study (GRE or MAT)
2. Successful completion of the Upper Division Writing Proficiency Exam

### C. Other Special Requirements

1. No more than 12 units of credit may be applied to a M.A. Program until Classified status is attained
2. Courses more than 7 years old will not be included in the total of 30-33 units required for the M.A. Degree
3. A corequisite for the M.A. in Education Degree is a Clear teaching credential

### D. Required Core Courses (9 units)

Curriculum and Instruction and Language and Literacy  
EED 601 Curriculum, Instruction and the Reflective Teacher (3)

*(Completion required within first two semesters of program)*

EED 602 Applying Technology to Curricular Goals (3)

EED 610 Research in Elementary Education (3)

*(Completion required within first nine units of program)*

### E. Required Courses in the Concentration (21 units)

Curriculum and Instruction

EED 633 Seminar in Elementary School Language Arts Education (3)

or EED 670 Research Applications in ESL Instruction (3)

EED 638 Seminar in Elementary School Social Studies Education (3)

EED 643 Seminar in Elementary School Mathematics Education (3)

EED 648 Seminar in Elementary School Science Education (3)

EED 649 Seminar in Elementary School Interdisciplinary Arts Education (3)

EED 675 Bilingual/Multicultural Teaching Strategies (3)

Elective course to be selected by the student in consultation with the Graduate Advisor (3 units)

### Language and Literacy

#### Prerequisites (3 units)

EED 405 Language Differences and Language Change (3)

#### Required Courses

EED 621 Language, Literacy and Culture Across the Curriculum (3)

EED 625A Literacy Assessment and Teaching Strategies A (3)

EED 625AL Lab in Literacy Assessment and Teaching Strategies A (1)

EED 625B Literacy Assessment and Teaching Strategies B (3)

EED 625BL Lab in Literacy Assessment and Teaching Strategies B (1)

EED 626 Literacy Instruction for English Learners (3)

EED 633 Seminar in Elementary School Language Arts Education (3)

Elective course to be selected by the student in consultation with the Graduate Advisor (4 units)

#### Electives (6 units)

#### Course A (3)

This course is selected by the student in consultation with the Graduate Advisor. The course may be selected from the list of required courses in any 1 of the 3 EED M.A. Concentrations, as well as courses offered in the Arts and Sciences.

#### Course B (3)

This course is selected by the student in consultation with the Graduate Advisor. The course may be selected from the list of required courses in any 1 of the 3 EED M.A. Concentrations, as well as courses offered in the Arts and Sciences.

### F. Culminating Experience (3 units)

EED 697 Directed Comprehensive Studies (3)

And successful completion of the Comprehensive Examination; or

EED 698 Thesis or Graduate Project (3)

Units for EED 698 may be used to meet elective requirement.

### Course List

#### EED 295A-C. Tutorial Field Work in Elementary Education (1-3)

Experiential education field work course placing CSUN students in a one-on-one tutoring relationship with elementary school pupils. Tutors receive guidance in instructional techniques, consult with public school teachers and keep pupil performance records. Open to all majors in good academic standing. Academic Internship course.

## Upper Division

**EED 397SOC. Elementary School Experiential Program (3)**

*Recommended Corequisite:* Teacher's Aide position in an approved elementary school. Designed for students seeking to elect or enhance a career in elementary education or the child development professions. In conjunction with the paid experience as a teacher's aide, students undertake projects that examine teaching-related techniques and issues. The elementary school experience is the foundation for these projects and the subject of class instruction and discussion. Academic Internship course.

**EED 472. Mathematics Curriculum and Methods (3)**

*Prerequisites:* EPC 315; Admission to credential program. *Recommended Corequisite:* MATH 310L. *Recommended Pre/corequisite:* MATH 310. *Restricted to Integrated Teacher Education Program candidates admitted to the Credential Program.* Addresses the skills and understandings that Multiple Subject Credential candidates and Preliminary Education Specialist candidates need in order to effectively plan, implement and evaluate instructional programs in mathematics for diverse student populations that reflect the California Mathematics Framework and Academic Content Standards. Designed to provide teacher candidates with models of pre- and post-assessment and instruction consistent with our current understanding of learning processes, opportunities to develop related process skills, and skills in implementing instructional models. The course helps teacher candidates develop strategies for teaching children of various cultural and linguistic heritages, developmental levels, learning styles and special populations to ensure all children equal access to the core curriculum.

**EED 475. Mathematics and Science Curriculum and Methods (4)**

*Corequisites:* ESCI 300; MATH 310/L. *Recommended Corequisites:* BIOL 100/L; MATH 210; PHSC 196. *Course is required of and limited to students enrolled in the Integrated Teacher Education Program.* A curriculum and methods course which prepares Multiple Subject and Education Specialists Candidates to teach mathematics and science in the elementary (K-8) school classroom.

**EED 476. History-Social Science Curriculum and Methods (2)**

*Corequisite:* California History/Geography course. *Recommended Corequisites:* EPC 314; Admission to the Integrated Teacher Education Program. A curriculum and methods course which prepares Multiple Subject Candidates to teach history-social science in the elementary (K-8) classroom.

**EED 477A. Literacy Instruction for Diverse Learners (3)**

*Prerequisite:* Admission to the Integrated Teacher Education Program. This is the first of two courses designed to prepare credential candidates to teach language arts and English Language Development in a multicultural setting at the elementary-school level. The content of the course includes theoretical perspectives on reading; historical and current approaches to literacy instruction; language arts curriculum development, including emergent literacy and strategies for working with second language learners; and assessment of learner abilities and their implications for instruction. 20 hours of directed observation/participation in the public schools is required. This course is to be taken prior to EED 477B and the first semester of EED 578A—Student Teaching.

**EED 477B. Literacy Instruction for Diverse Learners (3)**

*Prerequisite:* EED 477A; Admission to the Integrated Teacher Education Program. *Corequisites:* EED 578A, 579A. This is the second of two courses designed to prepare credential candidates to teach reading/language arts and ELA (English Language Development) in multicultural/multilingual settings at the elementary-school level. Specifically, this course emphasizes instructional approaches for literacy development with regard to: a) second language learners of English; and b)

language arts/writing methods within the context of a balanced literacy program. Students will prepare language arts teaching units, develop on-going programs of assessment, design early intervention strategies and integrate the language arts in all areas of the curriculum. 20 hours of directed observation/participation in the public schools is required. This course is to be taken after EED 477A and concurrently with the first semester of EED 578A—Student Teaching.

**EED 480. Science/Social Science Curriculum Methods (3)**

*Prerequisites:* Successful completion of EED 477B; First student teaching assignment. *Corequisites:* EED 578D, EED 579; SPED 579, 580MM. Addresses the skills and understandings that Multiple Subject Credential and Preliminary Education Specialist Credential candidates need in order to effectively plan, implement and evaluate instructional programs in science and social science for diverse student populations that reflect the California Science and Social Science Frameworks and Academic Content Standards. Designed to provide teacher candidates with models of instruction consistent with our current understanding of learning processes opportunities to develop related process skills, use of technology in the teaching and learning of science and social science, and skills in implementing instructional models. Furthermore, the course helps teacher candidates develop strategies for teaching children of widely differing cultural and linguistic heritages, developmental levels and learning styles; and special populations to ensure equal access to the core curriculum. Restricted to Integrated Teacher Education Program candidates admitted to the credential program.

**EED 496A-Z. Experimental Topics Courses (1-3)**

Selected topics in elementary education with course content to be determined.

**EED 499. Independent Study (1-3)****Graduate****EED 500. Fundamentals Of Teaching (3)**

*Prerequisite:* Admission to the Multiple Subject Credential Program. *Recommended Corequisite:* EED 520. Through this course, credential candidates acquire the essential knowledge and skills needed to successfully teach in an elementary classroom. Major concepts, principles and theories about development and learning are applied to the design and implementation of instruction and assessment, and to the creation of a safe, equitable classroom environment that promotes academic achievement. (Cross listed with EPC 500.)

**EED 513. Computers in the Elementary School Curriculum (3)**

*Prerequisite:* MATH 210 or equivalent. Introductory course in the use of computers in the elementary school curriculum. Students learn how to operate the computer and become familiar with computer terminology. Includes a study of historical development, and social, philosophical and ethical issues regarding computer technology. Students evaluate software for use in the various curricular areas of the elementary school. Emphasis is given to using computer applications, such as word processing, desktop, multimedia/hypermedia, graphics, Internet collaborative tools and school management/record keeping. Students become aware of the significance of the computers in elementary instruction, its contributions to learning theory and problem solving, and computational skills.

**EED 515. Basic Technology Methods (2)**

*Recommended Corequisite or Preparatory:* EED 500 or EPC 500. Introductory course to enhance the effectiveness of teaching by beginning to learn how to use computer-based technology to plan and deliver instruction and to manage information related to teaching. Additionally, credential candidates become aware of legal and ethical issues related to a teacher's use of technology and learn to select and

evaluate technologies in relation to state-adopted academic content standards. Course meets the technology standard for the Preliminary Multiple Subject Teaching Credential.

### **EED 520. Teaching Reading in the Elementary School (3)**

This course in developmental reading instruction focuses on the place of reading in a total language arts curriculum, a variety of definitions of reading and their implications for instruction, current reading approaches, word-attack strategies, methods and materials used in directed reading instruction and in the content subjects, and a discussion of methods and materials for the culturally and/or linguistically diverse. 20 hours of directed observation/participation in the public schools are required. Restricted to candidates officially admitted to the credential program.

### **EED 520A. Teaching Reading in the Elementary School (3)**

*Recommended prerequisite: Admission to the Multiple Subject Credential Program.* This course is designed primarily for Armenian/ English bilingual credential candidates in the Multiple Subject-Bilingual, Cross-cultural, Language and Academic Development Emphasis Credential Program. Field-based activities will be completed in conjunction with this course. (Cross listed with EED 520, except literacy instruction in the primary language and the transference of skills to English are emphasized.)

### **EED 520BL. Teaching Reading in the Elementary School (3)**

Taught in Spanish and English, and designed primarily for Spanish/English bilingual credential candidates in the Multiple Subject Bilingual, Crosscultural, Language and Academic Development Emphasis Credential program. (Cross listed with EED 520, except literacy instruction in the primary language and the transference of skills to English are emphasized.)

### **EED 520K. Teaching Reading in the Elementary School (3)**

Designed primarily for Korean/English bilingual credential candidates in the Multiple Subject-Bilingual, Crosscultural, Language and Academic Development Emphasis Credential program. (Cross listed with EED 520, except literacy instruction in the primary language and the transference of skills to English are emphasized.)

### **EED 524. Teaching Reading to the Speaker of Non-Standard Dialect (3)**

Exploration of methods and problems peculiar to the teaching of reading to culturally disadvantaged children. Emphasis in 3 areas: 1) general planning and procedures to solve reading problems; 2) lab practice in the application of reading materials; and 3) evaluation of techniques. (Cross listed with SED 524.)

### **EED 525. Bilingual and Bicultural Teaching in the Elementary School (3)**

*This is a required course for all Multiple Subject BCLAD Emphasis Credential program candidates.* Evidence of bi-literacy proficiency (passage of required CSET LOTE exam) in all four modes of literacy in the primary language (Spanish, Korean, Armenian; and Cambodian, Cantonese, Mandarin and Vietnamese through the CSU Asian BCLAD Consortium) and English language is required of all BCLAD Emphasis Credential program candidates. This course will examine and compare/contrast the foundations of literacy development in the primary languages (Spanish, Korean, Armenian, Cambodian, Cantonese, Mandarin and Vietnamese) and English. Relationships among emergent literacy, primary language development, literature-based programs and other paradigms of L1 and L2 literacy will be explored. Moreover, effective bilingual and bicultural teaching methodology also will be addressed, along with effective bilingual teaching strategies for reading and writing across the curriculum and SDAIE strategies for core content area (e.g., mathematics, science, history-social science, music, art and p.e.) language development. Bilingual instructional planning (short- and long-range planning) and teaching also will be explored.

### **EED 543. Improving Instruction Through Learning Centers (2)**

*Prerequisite: Teaching experience or admittance to a teacher credential program.* The theory and role of learning centers in providing individualized and personalized instruction for elementary school children. Creating differentiated learning experiences through centers in an environment emphasizing independence, pupil input and interaction, self-pacing, self-selection, self-management and self-evaluation.

### **EED 550A-F. Student Teaching in the Elementary School (1-6)**

*Recommended Corequisite: Enrollment in required multiple subject credential course work.* Specially arranged student teaching for students not in the regular student teaching program. Open to students only upon Departmental approval.

### **EED 550B 1. Supervised Field Work and Seminar (2)**

*Prerequisites: Admission to the Multiple Subject University Internship Credential Program; Currently a teacher-of-record for a K-8 classroom. Recommended Corequisite: Enrollment or completion of EED 500 and 520.* The combined field work and seminar format of this course assists the intern in establishing connections among course content, theories of teaching and learning, and classroom pedagogy. This first supervised field experience and seminar provides interns with the formative feedback necessary to teach in the full range of domains defined by the Teaching Performance Expectations (TPEs). During the sequence of field work experiences and seminars, interns will complete the Teacher Performance Assessments (TPAs) required by the CCTC.

### **EED 550B 2. Supervised Field Work and Seminar (2)**

*Prerequisites: EED 500, 550B(1) and 520; Admission to the Multiple Subject University Internship Credential Program; Currently a teacher-of-record for a K-8 classroom. Recommended Corequisites: Enrollment in or completion of EED 565M, 577; SPED 401C.* The combined field work and seminar format of this course assists the intern in establishing connections among course content, theories of teaching and learning, and classroom pedagogy. This second supervised field experience and seminar provides interns with the formative feedback necessary to teach in the full range of domains defined by the Teaching Performance Expectations (TPEs). During the sequence of field work experiences and seminars, interns will complete the Teacher Performance Assessments (TPAs) required by the CCTC.

### **EED 550B 3. Supervised Field Work (2)**

*Prerequisites: EED 500 (or EPC 500), 520, 565M, 577; SPEC 401C; Admission to the Multiple Subject Credential Program—University Internship Pathway; Currently a teacher of record for a K-8 classroom; Verification of eligibility from Credential Office. Corequisite: EED 559C. Recommended Pre-/Corequisites: Enrollment in or completion of ELPS/CHS/PAS/AAS/ARMN 417, EED 575.* This course assists the intern in establishing connections among course content, theories of teaching and learning, and classroom pedagogy. This third supervised field experience provides interns with the formative feedback necessary to teach in the full range of domains defined by the Teaching Performance Expectations (TPEs). During the field work assignment, Interns will rehearse the Teacher Performance Assessment (TPA) required by the CCTC. (Credit/No Credit only)

### **EED 551A-F. Supervised Practicum Seminar (1-6)**

*Prerequisites: 6 units of EED 550 and all methods courses or concurrent enrollment in remaining methods courses; Clearance from the Credential Office. Required for candidates in the Multiple Subject University Internship Program.* EED 551 is the last field work course in the Internship Program. The field experience takes place in the candidate's own classroom and is supervised by a University supervisor. There is a seminar associated with the field work. The intern must teach English

language learners. See the Credential Office or the Advisor for the Internship Program for additional details. (Credit/No Credit only)

### **EED 551C. Supervised Practicum (3)**

*Prerequisites:* EED 500 (or EPC 500), 520, 550B(1), 550B(2), 550B(3), 559C, 565M, 575, 577; *ELPS/CHS/PAS/AAS/ARMN 417; SPED 401C; Admission to the Multiple Subject Credential Program—University Internship Pathway; Currently a teacher of record for a K-8 classroom; Verification of eligibility from Credential Office; Documentation of 40 hours of field work. Corequisite:* EED 559F. *Prerequisites/Corequisites:* Enrollment in or completion of EED 515, 565S; *HSCI 496TH; KIN 595PE.* This course assists the intern in establishing connections among course content, theories of teaching and learning, and classroom pedagogy. This culminating intern teaching experience provides interns with the formative feedback necessary to teach in the full range of domains defined by the Teaching Performance Expectations (TPEs). (Credit/No Credit only)

### **EED 559C. Supervised Field Work Seminar (2)**

*Prerequisites/Corequisites:* EED 500 (or EPC 500), 520, 565M. *Corequisite:* EED 560C or 567ACT. This course is a two-unit supervised field work seminar for students completing the Traditional, Accelerated Collaborative Teacher (ACT) Preparation or Internship pathway for Multiple Subject Credential candidates. The seminar provides opportunities for candidates to reflect on and analyze field work experiences. Student teachers learn to: 1) assess their needs; 2) gather data; 3) analyze results; 4) problem solve; 5) modify teaching practices; and 6) determine implications of their experience for future instruction. The seminar will promote teacher candidates' rehearsal of the Teaching Event of the adopted Teacher Performance Assessment. This course is taken concurrently with the first semester of supervised field work in the Traditional (EED 560C), ACT (EED 567ACT) and Intern (EED 550B(3)) pathways. (Credit/No Credit only)

### **EED 559F. Student Teaching Seminar (1)**

*Prerequisites:* EED 550B(3), 560C or 567ACT; 559C. *Corequisites:* EED 551C, 561F or 568ACT. This course is a one-unit supervised field work seminar for Multiple Subject Credential candidates completing the Traditional, Accelerated Collaborative Teacher (ACT) Preparation and Internship pathways. The seminar provides opportunities for candidates to reflect on and analyze field work experiences. Student teachers and interns learn to: 1) assess their own and pupil needs; 2) gather data; 3) analyze results; 4) problem solve; 5) modify teaching practices; and 6) determine implications of their experience for future instruction. The seminar will promote teacher candidates' successful completion of the Teaching Event of the adopted Teacher Performance Assessment. (Credit/No Credit only)

### **EED 560A-F. Supervised Field Experience and Seminar (1-6)**

*Prerequisites:* Admission to the Multiple Subject Credential Program; *Verification of application for all clearances from Credential Office. Corequisite:* Enrollment in required Multiple Subject Credential course work. Supervised Field Experience and Seminar is designed for Multiple Subject Credential candidates who will be placed with a collaborating classroom teacher at a school site. The combined field work and seminar format of this course assists the candidate in establishing connections among course content, theories of teaching and learning, and classroom pedagogy. The supervised field experiences and seminar provide candidates with the formative feedback necessary to teach in the full range of domains defined by the Teaching Performance Expectations. During the sequence of field work experiences, candidates will complete the Teaching Performance Assessment required by the CCTC. During the various field experiences, candidates will be supervised in a minimum of two K-8 classroom placements, providing

experience at two grade level ranges (K-2, 3-5 and/or 6-8); one placement will be in a classroom in which beginning reading instruction is provided to English language learners. (Credit/No Credit only)

### **EED 560C. Supervised Field Work (3)**

*Prerequisites:* Admission to the Multiple Subject Credential Program. *Verification of eligibility from Credential Office. Pre/Corequisites:* EED 500 (or EPC 500), 520, 565M. *Corequisite:* EED 559C. EED 560C is the first of two substantive field experiences in the Multiple Subject Credential Program—Traditional Pathway. The field experience takes place in participating public schools and provides the teacher candidate the opportunity to establish connections among course content, theories of teaching and learning, and classroom pedagogy. In this course, students develop skills in assessing pupils and planning and implementing the elementary curriculum and are provided formative feedback necessary to teach in the full range of domains defined by the California Standards for the Teaching Profession and associated Teacher Performance Expectations. Emphasis in this 10-week (approximately 180 hours) field experience is on general pedagogical skills, such as classroom management and lesson planning, and in teaching reading/language arts, English language development (ELD) and mathematics. Teacher candidates will rehearse the state-mandated Teaching Performance Assessment (TPA) in this supervised field work course. (Credit/No Credit only)

### **EED 561F. Student Teaching (6)**

*Prerequisites:* EED 559C, 560C; *Admission to the Multiple Subject Credential Program; Verification of eligibility from Credential Office. Corequisite:* EED 559F. *Pre/Corequisites:* EED 515, 565S, 575, 577; *ELPS/CHS/PAS/AAS/ARMN 417; HSCI 496TH; KIN 595PE; SPED 420.* EED 561F is the second of two substantive field experiences in the Multiple Subject Credential Program—Traditional Pathway. The field experience takes place in participating public schools and provides the teacher candidate the opportunity to establish connections among course content, theories of teaching and learning, and classroom pedagogy. In this course, students develop skills in assessing pupils and planning and implementing the elementary curriculum, and are provided formative feedback necessary to teach in the full range of domains defined by the California Standards for the Teaching Profession and associated Teacher Performance Expectations. Emphasis in this full-time, 10-week (approximately 290 hours) student teaching experience is on general pedagogical skills, such as classroom management and lesson planning, and in planning, implementing and evaluating all areas of the elementary curriculum. Teacher candidates will complete the state-mandated TPA during the student teaching experience. (Credit/No Credit only)

### **EED 565M. Mathematics Curriculum and Methods (3)**

*Prerequisite:* Admission to the Multiple Subject or Educational Specialist Credential Program. *Pre/Corequisite:* EED 500 (or EPC 500). This course addresses the skills and understandings that Multiple Subject Credential candidates and Education Specialist candidates need in order to effectively plan, implement and evaluate instructional programs in mathematics for diverse student populations that reflect the California Mathematics Framework and Academic Content Standards. It is designed to provide credential candidates with models of pre- and post-assessment, instruction consistent with our current understanding of learning processes, opportunities to develop related process skills, and skills in implementing instructional models. Furthermore, the course helps teacher candidates develop strategies for teaching children of widely differing cultural and linguistic heritages, developmental levels and learning styles, and special populations to ensure all

children equal access to the core curriculum.

### **EED 565S. Science Curriculum and Methods (2)**

*Recommended Prerequisite:* Admission to the Multiple Subject Credential Program. This course addresses the skills and understandings needed to effectively plan, implement and evaluate instructional programs for diverse student populations. The course is designed to provide multiple subject credential candidates with models of instruction consistent with our current understanding of learning processes, opportunities to develop related process skills, and skills in implementing instructional models. Furthermore, the course helps teacher candidates develop strategies for teaching children of widely differing cultural and linguistic heritages, developmental levels and learning styles; mainstreamed special education children; and all children to ensure them equal access to the core science curriculum.

### **EED 567ACT. Supervised Field Work (4)**

*Prerequisite:* Admission to the ACT Preparation Program. *Corequisites:* EED 500 (or EPC 500), 515, 520, 559C, 565M, 577; ELPS 541A; SPED 541B. Restricted to candidates admitted to the Accelerated Collaborative Teacher Preparation Program and offered in the Fall Semester only. EED 567ACT is the first field experience for Multiple Subject Credential candidates enrolled in the ACT pathway. The field experience takes place in participating public schools and provides the teacher candidate the opportunity to establish connections among course content, theories of teaching and learning, and classroom pedagogy. In this course, students develop skills in assessing pupils and planning and implementing the elementary curriculum, and are provided formative feedback necessary to teach in the full range of domains defined by the California Standards for the Teaching Profession and associated Teacher Performance Expectations. This field experience provides the teacher candidate the opportunity to work toward the goal of assuming the full responsibilities of a certificated teacher. Emphasis in this field experience is on general pedagogical skills, such as classroom management and lesson planning in teaching in the areas of reading/language arts, English language development (ELD) and mathematics. This course also provides a context for rehearsal of the Teaching Event of the state-mandated Teaching Performance Assessment (TPA). (Credit/No-credit only)

### **EED 568ACT. Student Teaching (6)**

*Prerequisites:* EED 559C, 567ACT; Admission to the ACT Preparation Program; Verification of eligibility from Credential Office. *Corequisites:* EED 559E, 565S, 575; ELPS 542A; HSCI 496TH; KIN 595PE; SPED 542B. EED 568ACT is the second field experience in the ACT Pathway and the culminating student teaching experience for Multiple Subject Credential candidates enrolled in ACT. The field experience provides the teacher candidate the opportunity to establish connections among course content, theories of teaching and learning, and classroom pedagogy. In this course, students develop skills in assessing pupils and planning and implementing the elementary curriculum, and are provided formative feedback necessary to teach in the full range of domains defined by the California Standards for the Teaching Profession and associated Teacher Performance Expectations. This field experience provides the teacher candidate the opportunity to work toward the goal of assuming the full responsibilities of a certificated teacher. The 8-week (approximately 240 hours) field experience takes place in participating public schools and expands on the first student teaching assignment with the inclusion of planning, implementing and evaluating social studies, science, arts, physical education and health education curriculum to the responsi-

ties of the student teacher. (Credit/No Credit only)

### **EED 570. ESL Instruction in Bilingual and Multilingual Classrooms (3)**

*Prerequisite:* Admission to the Multiple Subject Credential program or Department consent. Prepares credential candidates to teach English as a Second Language in a bilingual or multilingual setting at the elementary-school level. Emphasis on strategies and materials designed to facilitate second language learning based on the nature of language acquisition. Provides opportunity for curriculum development in this field. May be taken prior to or concurrently with EED 571BL—Student Teaching.

### **EED 570M. Elementary School Curriculum (3)**

*Prerequisite:* Admission to Teacher Education Program. A methods course teaching the basic content and competencies required for effective instruction in elementary school language arts and social sciences. May be taken prior to or concurrently with EED 571ST—Student Teaching. If taken concurrently with student teaching, students must receive prior clearance for student teaching from the Credential Preparation Office. Inquire at the Credential Preparation Office for information on admission to teacher credential programs and requirements for student teaching.

### **EED 570MAK. Elementary School Curriculum (3)**

*Prerequisite:* Admission to Teacher Education Program. Same as EED 570M except instruction in the primary language, transference of skills to English and organizational approaches specific to bilingual education are emphasized. Primarily for Korean/English and Armenian/English bilingual credential candidates in the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential Program. May be taken prior to or concurrently with EED 571BL—Student Teaching. If taken concurrently with student teaching, students must receive prior clearance for student teaching from the Credential Preparation Office. Inquire at the Credential Preparation Office for information on admission to teacher credential Programs and requirements for student teaching. A methods course teaching the basic contents and competencies required for effective instruction in elementary school language arts and social sciences.

### **EED 570MBL. Elementary School Curriculum (3)**

*Prerequisite:* Admission to Teacher Education Program. Taught in Spanish and English and designed primarily for Spanish/English bilingual credential candidates in the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential Program. A methods course teaching the basic content and competencies required for effective instruction in elementary school language arts and social sciences. May be taken prior to or concurrently with EED 571BL—Student Teaching. If taken concurrently with student teaching, students must receive prior clearance for student teaching from the Credential Preparation Office. Inquire at the Credential Preparation Office for information on admission to teacher credential programs and requirements for student teaching. (Cross listed with EED 570M, except instruction in the primary language, transference of skills to English and organizational approaches specific to bilingual education are emphasized.)

### **EED 571ST. Student Teaching in the Elementary School (6)**

*Prerequisite:* Completion of Methods Course work. *Recommended Corequisite:* With prior approval, 570M may be taken concurrently with EED 571 ST. See the Credential Preparation Office for details on admission to student teaching and concurrent enrollment in 570M. Student teaching for the Multiple Subject Credential and the Multiple Subject-Crosscultural, Language and Academic Development Emphasis Credential. See the detailed description of student teaching in the Credentials Section. Inquire at the Credential Preparation Office for application date deadlines. EED

571 ST and 581 ST may be taken in the same semester only if EED 570M and 580M were successfully completed in prior semesters.

### **EED 571BL. Student Teaching in the Elementary School (6)**

*Prerequisites:* EED 570MAK or 570MBL; *Admission to student teaching. Recommended Corequisite:* With prior approval, EED 570MAK or 570MBL may be taken concurrently with EED 571BL. See the Credential Preparation Office for details on admission to student teaching and concurrent enrollment in 570MBL or 570MAK. Student teaching for the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential. See the detailed description of student teaching in the Credentials Section. Inquire at the Credential Preparation Office for application date deadlines. EED 571BL and 581BL may be taken in the same semester only if EED 570MAK or 570MBL and EED 580MAK or 580MBL were successfully completed in prior semesters. (Cross listed with EED 571ST, except course is designed primarily for Armenian/English or Korean/English and Spanish/English and Korean/English bilingual credential candidates in the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential Program.)

### **EED 575. Integrated Social Studies and Arts Curriculum and Methods (3)**

*Recommended Prerequisite:* Admission to the credential program. A methods course teaching the basic content and competencies required for effective instruction in elementary school social studies and visual-performing arts. It is offered concurrently with a student teaching assignment. Opportunity for interdisciplinary curriculum development will be provided.

### **EED 577. Language Arts and ESL Instruction (3)**

*Prerequisites:* EED 500 (or EPC 500) (may be taken concurrently); *Admission to the credential program.* This course is designed to prepare credential candidates to teach language arts as well as English as a Second Language (ESL) in multilingual settings at the elementary-school level. Emphasis will be given to strategies and materials designed to facilitate second language learning and fluency in the language arts for speakers of English and English language learners. Opportunity for curriculum development will be provided pursuant to English Language Arts Academic Content Standards for Students and the Reading/Language Arts Framework.

### **EED 578 A-D. Student Teaching in the Elementary School (3-6)**

*Prerequisites:* Admission to Multiple Subject Credential program and/or Education Specialist Credential (Mild/Moderate Disabilities) Program; *Admission to student teaching.* EED/SPED 578A-D is a field experience in the Multiple Subject Credential Program and/or Education Specialist Credential (Mild/Moderate Disabilities) Program. The field experience takes place in a participating public elementary school and provides opportunities for the credential candidate to work under the daily direction and guidance of a qualified supervising elementary teacher/special education teacher who exemplifies best practices in teaching all students, including English language learners and students with disabilities. A University faculty member supervises the field work assignment. In each assignment the candidate gradually assumes responsibility. In the final assignment the candidate gradually assumes full responsibility for the complete instructional program. A minimum of 125 hours in the classroom is required in EED/SPED 578A, a minimum of 167 hours in EED/SPED 578B, a minimum of 208 hours in EED/SPED 578C, and a minimum of 250 hours in EED/SPED 578D.

### **EED 578A. Student Teaching (3)**

*Prerequisites:* Admission to Multiple Subject Credential Program admission to student teaching. *Corequisites:* EED 477B and 579A. EED 578A is a field experience in the Multiple Subject Credential Program. The field experience takes place in public elementary schools, and provides

opportunities for the credential candidate to work under the daily direction and guidance of a qualified supervising elementary teacher who exemplifies best practices in teaching all students, including English language learners and students with disabilities. A University faculty member supervises the field work assignment.

### **EED 578D. Student Teaching (6)**

*Recommended Prerequisites:* Admission to Multiple Subject Credential Program; *Admission to student teaching. Corequisite:* EED 480 and 579D. The field experience takes place in a participating public elementary school and provides opportunities for the credential candidate to work under the daily direction and guidance of a qualified supervising elementary teacher who exemplifies best practices in teaching all students, including English language learners and students with disabilities. A University faculty member supervises the field work assignment. In this assignment, the candidate gradually assumes full responsibility for the complete instructional program. A minimum of 250 hours is required for this course.

### **EED 579A. Student Teaching Seminar (2)**

*Prerequisites:* Admission to Multiple Subject Credential program; *Admission to student teaching. Corequisite:* EED 578A. This course is a 2-unit student teaching seminar in the Multiple Subject Credential Program. The seminar provides opportunities for candidates to reflect on and analyze field work experiences. Student teachers learn to: 1) assess their needs; 2) gather data; 3) analyze results; 4) problem solve; 5) modify teaching practices; 6) determine implications of their experience for future instruction; and 7) reflect on their teaching practice. (Credit/No Credit only)

### **EED 579D. Student Teaching Seminar (1)**

*Prerequisites:* Admission to Multiple Subject Credential program; *admission to student teaching. Corequisite:* EED578D. This course is a 1 unit student teaching seminar in the Multiple Subject Credential program. The seminar provides opportunities for candidates to reflect upon and analyze field work experiences. Student teachers learn to 1) assess their needs, 2) gather data, 3) analyze results, 4) problem solve, 5) modify teaching practices, 6) determine implications of their experience for future instruction and 7) reflect upon their teaching practice.(Credit/No Credit Only).

### **EED 580M. Elementary School Curriculum (3)**

*Prerequisite:* Admission to Teacher Credential Program. *Recommended Prerequisite:* MATH 210. A methods course teaching the basic content and competencies required for effective instruction in elementary school science and mathematics. This course may be taken prior to or concurrently with EED 581ST—Student Teaching. If taken concurrently with student teaching, students must receive prior clearance for student teaching from the Credential Preparation Office. Inquire at the Credential Preparation Office for information on admission to teacher credential programs and requirements for student teaching.

### **EED 580MAK. Elementary School Curriculum (3)**

*Prerequisite:* Admission to Teacher Education Program. Same as EED 580M, except instruction in the primary language, transference of skills to English, and organizational approaches specific to bilingual education are emphasized. Primarily for Korean/English and Armenian/English bilingual credential candidates in the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential Program. May be taken prior to or concurrently with EED 581BL—Student Teaching. If taken concurrently with student teaching, students must receive prior clearance for student teaching from the Credential Preparation Office. Inquire at the Credential Preparation Office for information on admission to teacher credential

Programs and requirements for student teaching. A methods course teaching the basic contents and competencies required for effective instruction in elementary school science and mathematics.

### **EED 580MBL. Elementary School Curriculum (3)**

*Prerequisite:* Admission to Teacher Credential Program. *Corequisite:* EED 581BL. This course is taught in Spanish and English and is designed primarily for Spanish/English bilingual credential candidates in the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential Program. A methods course teaching the basic content and competencies required for effective instruction in elementary school science and mathematics. This course may be taken prior to or concurrently with EED 581BL—Student Teaching. If taken concurrently with student teaching, students must receive prior clearance for student teaching from the Credential Preparation Office. Inquire at the Credential Preparation Office for information on admission to teacher credential programs and requirements for student teaching. (Cross listed with EED 580M, except instruction in the primary language, transference of skills to English, and organizational approaches specific to bilingual education are emphasized.)

### **EED 581ST. Student Teaching in the Elementary School (6)**

*Prerequisite:* Completion of all methods course work or Department consent. *Recommended Corequisite or Preparatory:* EED 580M. Student teaching for the Multiple Subject and the Multiple Subject—Crosscultural, Language and Academic Development Emphasis Credential. See the detailed description of student teaching in the Credential Section. Inquire at the Credential Preparation Office for application date deadlines. EED 571ST and 581ST may be taken in the same semester only if EED 570M and 580M were successfully completed in prior semesters.

### **EED 581BL. Student Teaching in the Elementary School (6)**

*Prerequisites:* EED 580MAK or 580MBL; Admission to student teaching. *Recommended Corequisite:* With prior approval, EED 580MAK or 580MBL may be taken concurrently. See the Credential Preparation Office for details on admission to student teaching and concurrent enrollment in EED 580MAK or 580MBL. Student teaching for the Multiple Subject—Crosscultural, Language and Academic Development Emphasis Credential. See the detailed description of student teaching in the Credential Section. Inquire at the Credential Preparation Office for application date deadlines. EED 571BL and 581BL may be taken in the same semester only if EED 570MAK or 570MLBL and EED 580MAK or 580MBL were successfully completed in prior semesters. (Cross listed with EED 581ST, except course is designed primarily for Armenian/English and Spanish/English and Korean/English bilingual credential candidates in the Multiple Subject—Bilingual, Crosscultural, Language and Academic Development Emphasis Credential Program.)

### **EED 592. Audiovisual Instruction-Methods and Techniques (3)**

Theories, methods and experience in the utilization of instructional media. Presents a variety of audio and visual techniques for classroom instruction.

### **EED 595A-Z. Experimental Topics Courses (1-3)**

### **EED 595J. Lesson Design Study: Developing Best Practices (3)**

*Prerequisite:* Admission to the Master of Arts in Education, Teaching and Learning. *Preparatory:* Completion of the California preliminary credential or equivalent initial teaching credential; Employed as a K-12 classroom teacher in LAUSD. The curriculum addresses the candidates' goals as beginning teachers, builds upon the foundation established in the preliminary credential program, meets the California standards for the teaching profession, and applies conceptual knowledge to practice in ways that engage candidates in important issues of theory and practice. Seminar emphases include lesson design study, assessment, differenti-

ated instruction and pedagogical content knowledge. Beginning teachers are visited in their classroom by the University instructor and/or are required to submit a videotape of their classroom practice.

### **EED 595M. Making Sense Of Learning and Teaching Through the Research Process (3)**

*Prerequisite:* Admission to the Master of Arts in Education, Teaching and Learning. The curriculum addresses the candidates' goals as practicing teachers, builds upon the foundation established in a teacher induction program, aligns with the California standards for the teaching profession (CSTP), and applies conceptual knowledge to practice ways in that engage candidates in important issues of theory and practice. Course emphases include peer coaching, critical friends groups, teacher as researcher, and qualitative research design, methodology and statistical analysis.

### **EED 595N. Improving Learning and Teaching Through the Research and Leadership (3)**

*Prerequisite:* EED 595M. The curriculum addresses the candidates' goals as practicing teachers, builds upon the foundation established in EED 595M—Making Sense of Learning and Teaching Through the Research Process, aligns with the California standards for the teaching profession (CSTP), and applies conceptual knowledge to practice in ways that engage candidates in important issues of theory and practice. Course emphases include instructional leadership, teacher researcher projects, and quantitative research design, methodology and statistical analysis.

### **EED 601. Curriculum, Instruction and the Reflective Teacher (3)**

*Prerequisite:* Completion of Student Teaching. In addition to exploring the philosophical and research bases for instructional practices and instructional decision making, the course examines curricular theories and their influence on teaching/learning. Contemporary educational research and literature provide a framework for examining fundamental issues in education and their impact on current practices. Opportunities to engage in reflective thinking are an integral part of the course.

### **EED 602. Applying Technology to Curricular Goals (3)**

*Prerequisite:* EED 513. Advanced-level course in the use of computers in the elementary school curriculum. Primary emphasis is on applications in the various curricular areas in the self-contained classroom with 1, 2 or more computers. Content includes such practical and theoretical considerations as manipulating and analyzing data, communicating through a variety of electronic media, interacting and collaborating with others using the computer-based tools, and developing lessons based upon technological resources. Students will review, modify and design teacher-created instructional materials, which meet their own curricular needs. These materials include Web pages, gameboards, visual charts and multimedia instructional modules. The major software tools used are word processing, database, spreadsheets, drawing and paint programs, Web publishing software, Internet search engines and presentation tools. Course meets the Professional Credential requirement in computer-based technology.

### **EED 610. Research in Elementary Education (3)**

*Prerequisite:* Completion of Multiple Subject Credential; Completion required within first 9 units in Master of Arts Degree Program; Must be taken prior to all graduate seminar courses. Survey and analysis of research in elementary education, chiefly in areas of contemporary interest that cut across all curricular fields. Emphasis is on learning to use a wide range of research reference sources, on understanding of research designs utilized in a variety of research studies and on use of criteria in evaluating the findings and conclusions of such studies.

### **EED 614. Evaluation Of Software in Elementary Curriculum (3)**

*Prerequisite:* EED 613 or equivalent. Survey of software relevant to the elementary school curriculum. Included in this survey is word processing, Logo, Pilot graphics, educational games and simulations, practice

and integrated drill programs, and classroom management programs. Analysis and evaluation of material from the various curriculum areas and elementary grade levels that are initiated in EED 613 are extended.

### **EED 615. Learning and Teaching with Logo (2)**

*Prerequisite:* EED 613 or SED 514 or equivalent. Investigates Logo learning environments through computer programming, analysis of the Logo philosophy and research bases, examination of classroom implementation reports, and consideration of the role of the teacher as co-learner and facilitator of problem solving. (Cross listed with SED 615.)

### **EED 616. Microcomputers and Technology in the Development Of English/Language Arts (3)**

*Prerequisites:* EED 520 and 613 or equivalent. Theory and practice in the development of reading and writing through the use of microcomputers, software and related technology. Topics include basic principles of reading and writing instruction; selection and use of microcomputer software in teaching reading and writing; word processing and data base management; microcomputer-based literacy curriculum development; and research findings related to microcomputers and technology in English/Language Arts instruction.

### **EED 620. Elementary School Reading Education (3)**

*Prerequisite:* EED 520 or equivalent. Designed as an in-service course, emphasis is placed on adjusting reading methodology to the needs of the individual child's interest, aptitudes and competencies. Major emphases include: 1) survey of theories of the reading process; 2) description of instruments measuring reading; 3) selection, use and evaluation of materials, methods and approaches in reading instruction; and 4) locating and using professional literature on reading. Field experience involves the application of knowledge and skills of reading instruction to a group of elementary pupils.

### **EED 621. Language, Literacy and Culture Across the Curriculum (3)**

*Prerequisite:* EED 520 or equivalent. Students explore the part that language arts play in learning course content across the curriculum. They also study how ability to read, write, speak, listen and think are developed within various content areas. Focus is on instructional strategies and assessment. Both experiential and verbal learning is considered. The unique characteristics of various content areas are discussed. Cultural perspectives are infused into the curriculum.

### **EED 624. Practicum in Diagnosing and Facilitating Reading Progress (K-12) (3)**

*Prerequisites:* EED 620, 625A/L, 625B/L. In the fourth course in the reading sequence, students are given opportunities to observe and teach developmental reading classes with groups of students, incorporating diagnostic and remedial teaching techniques. Students work with all reading skills in analyzing and teaching groups at elementary- and secondary-school levels of competency. This experience includes generating and maintaining records and materials appropriate to the objectives of lessons taught. Awareness of professional organizations is encouraged. The student demonstrates ability to provide leadership in planning, instruction and evaluation of the reading program in the following areas: 1) readiness; 2) word recognition; 3) comprehension and critical reading; 4) study and locational skills; 5) interest and motivation; 6) appreciation; and 7) oral fluency and expression. (Cross listed with SED 624.)

### **EED 625A/L. Literacy Assessment and Teaching Strategies and Lab (3/1)**

*Prerequisites:* EED/SED 520 or equivalent; EED 633 or SED 625ENG; *Teaching experience.* *Corequisite:* EED 625AL. Principles and procedures for the evaluation of reading and writing effectiveness are presented. Each student develops competencies in assessing literacy behavior on an individual basis, as well as in a classroom setting. Students should become adept at observations and interviews while attaining skills of

selecting, scoring and interpreting the results of a comprehensive variety of whole-language assessments. Similarly, principles and procedures for the design and selection of materials, methods and contexts for literacy instruction are presented. Each student develops a literacy program for an individual child based on assessment findings. Program includes meaning-centered activities appropriate for classroom settings. Students should become adept at determining the effectiveness of various instructional strategies as well as confirming/disconfirming their assessment results. Lab: This 1-unit supervised lab experience with children includes parent conferencing and concentrated assessment and instruction in the correction of reading/writing difficulties. Each student is assigned at least one child experiencing problems processing written language for whom the student designs and implements a corrective program. It is suggested that a student continue with the same child for a second semester in EED 625BL. Case studies demonstrate awareness of psychological, physiological, educational, cultural and linguistic factors in the reading/writing process. (Cross listed with SED 625AL.)

### **EED 625B/L. Literacy Assessment and Teaching Strategies and Lab (3/1)**

*Prerequisite:* EED/SED 625AL. *Corequisite:* EED 625BL. Additional principles and procedures for the evaluation of reading and writing effectiveness are presented. Each student continues to develop competencies in assessing literacy behavior on an individual basis, as well as in a classroom setting. Students should hone their skills of selecting, scoring and interpreting the results of a comprehensive variety of standardized tests. Similarly, additional principles and procedures for the design and selection of materials, methods and contexts for literacy instruction are presented. Each student will expand the literacy program developed for an individual child based on new assessment findings. Program includes meaning-centered and skill-based activities appropriate for classroom settings. Students should become adept at determining the effectiveness of various instructional strategies as well as confirming/disconfirming their assessment results. Lab: This 1-unit supervised lab experience with children includes parent conferencing and concentrated assessment and instruction in the correction of reading/writing difficulties. Each student is assigned at least one child experiencing problems processing written language for whom the student designs and implements a corrective program. It is suggested that a student continue with the same child he/she worked with in EED/SED 625AL. Case studies demonstrate awareness of psychological, physiological, educational, cultural and linguistic factors in the reading/writing process. (Cross listed with SED 625BL.)

### **EED 626. Literacy Instruction for English Learners [K-12] (3)**

*Prerequisite:* EED/SED 520 or equivalent. Major theories of first and second language acquisition and literacy development specific to second language learners are presented in this seminar for both monolingual and bilingual classroom teachers. Additionally, the importance of varied instructional approaches in the development of oral language, reading and writing are discussed. Research on variables affecting second language learners' reading and writing achievement is explored. An emphasis is given to effective methodologies, teaching strategies, instructional materials and assessment strategies. (Crosslisted with SED 626)

### **EED 627A. Individualization in Reading (1)**

*Prerequisite:* EED 520. Focuses on the theoretical and practical considerations involved in individualizing a reading program. Attention is paid to assessment techniques, learning centers, classroom organization and management. Various types of programs are analyzed, and consid-

eration is given to the design of individualized programs in reading that can be implemented in the classroom. (Cross listed with SED 627A.)

**EED 627C. Developing Reading Skills Through High Interest/low Readability Materials (1)**

*Prerequisite:* EED 520. Focuses on developing reading skills through the use of high-interest literature in the areas of poetry, fiction, drama, thematic units and the media. (Cross listed with SED 627C.)

**EED 627D. Reading in the Content Areas (1)**

*Prerequisite:* EED 520. Specific reading skills required in various subject fields are identified and methods of teaching these are explored. Diagnosis and correction of the difficulties peculiar to reading in the several content areas receive emphasis. Students who have completed EED 621 should not select this particular course. (Cross listed with SED 627D.)

**EED 627E. State Frameworks in Reading and English (1)**

*Prerequisite:* EED 520. Focuses on the Reading and English Language Frameworks. Student develops competencies in the implementation of the frameworks and the utilization of the state textbook adoption process. (Cross listed with SED 627E.)

**EED 627G. In-Service Education in Reading (1)**

*Prerequisite:* EED 520. Focuses on various aspects of in-service education in the field of reading. It develops competencies of students to design and implement in-service activities in public and private schools. (Cross listed with SED 627G.)

**EED 627I. Teaching Critical Reading Skills (1)**

*Prerequisite:* EED 520 or SED 520. Focuses on the components of teaching critical reading and the implementation of a program of critical reading activities in the classroom. (Cross listed with SED 627I.)

**EED 628. Language and Literacy Programs: Leadership, Planning and Evaluation (3)**

*Prerequisite:* EED/SED 625A/L, 625B/L or instructor consent. Principles of designing, organizing, coordinating and evaluating a variety of bilingual/multilingual programs as well as literacy programs (e.g., K-12 integrated language arts programs, corrective reading/writing programs, programs for students at risk) are presented. Students develop competencies in planning, conducting and evaluating staff development in language and literacy or bilingual/multilingual education. They familiarize themselves with the state textbook adoption process, state frameworks, district curriculum guides, and selected state, national and international language and literacy projects/programs. Strategies for writing grants are offered and participation in professional organizations is encouraged. Students demonstrate ability to provide leadership in decision-making for teaching language and literacy or for teaching across the curriculum in bilingual/multilingual programs. Bilingual/multilingual refers to bilingual/bicultural and multilingual/multicultural settings. (Cross listed with SED 628.)

**EED 630. Elementary School Language Arts Education (3)**

*Prerequisites:* EED 570M, 571ST or equivalent; Graduate standing. Course devoted to study of the nature of the language arts, oral communication, practical and creative writing, language and literature; emphasis on each component as a field of study, but having the common base of language.

**EED 633. Seminar in Elementary School Language Arts Education (3)**

*Prerequisites:* EED 601; Graduate standing. Advanced curriculum course in language arts for the teacher of elementary school children. Major emphasis of the course is on the theory and the research relevant to the study of the nature of the language arts, and to the current trends and developments in teaching language arts with an interdisciplinary approach.

**EED 635. Elementary School History-Social Science Education (2)**

*Prerequisite:* Completion of student teaching. In-depth study of the goals and curriculum strands as outlined in the California History-Social Science Framework. Planning, teaching strategies, learning activities and assessment to provide a comprehensive history-social science instructional program for all students. Attention is also given to literature that enriches the study of history-social science.

**EED 638. Seminar in Elementary School Social Studies Education (3)**

*Prerequisites:* EED 610; Graduate standing. Advanced curriculum course in elementary school social studies. Identification of current problems in the field of the social studies, with extensive exploration of the professional interdisciplinary literature related to rationale of and potential approaches to resolving such problems. Emphasis of the course will be theory and research.

**EED 640. Elementary School Mathematics Education (2)**

*Prerequisite:* Completion of Student Teaching. Major emphasis is on the materials, method and content of a modern program in elementary school mathematics. Attention also is given to mathematics learning games, mathematics lab approaches, differentiation of mathematics instruction, and use of mathematics education literature.

**EED 643. Seminar in Elementary School Mathematics Education (3)**

*Prerequisites:* EED 610; Graduate standing. Graduate course in education on the research in elementary school mathematics. Course emphasis on analysis of research in education and related fields, current curricular projects, trends and issues, modern learning and pedagogical theory, and student development of a researchable project.

**EED 644. Environmental Education (2)**

*Prerequisite:* Completion of student teaching or equivalent. Course for teachers on how to teach Environmental Education (EE) in schools, stressing environmental literacy, issue investigation and evaluation, and citizen action. Major emphasis will be the development of intellectual skills needed for the autonomous investigation of environmental issues, following the Science-Technology-Society (STS) issue instruction model. Other models for teaching environmental education will likewise be presented. A project involving the application of issue instruction in their respective classrooms will be facilitated.

**EED 645. Elementary School Science Education (2)**

*Prerequisite:* Completion of student teaching. Course on current trends and issues in elementary school science education, including practical applications for the practicing teacher. Materials, methods and content of a modern program in elementary school science receive emphasis, along with means of integrating other subject areas and applying instructional techniques of topical interests such as authentic assessment and cooperative learning. Attention is given to differentiated needs of special groups as they relate to science education.

**EED 648. Seminar in Elementary School Science Education (3)**

*Prerequisites:* EED 610; Graduate standing. Advanced curriculum course in elementary school science for teachers. Major emphasis of the course will include theory and research related to contemporary aspects of elementary school science. Current trends and issues are examined in relation to current developments stressing an interdisciplinary approach to science. A research project, using elementary school children to test new ideas in science, is an integral and ongoing theme of the course.

**EED 649. Elementary School Interdisciplinary Arts Education (3)**

*Prerequisite:* Completion of student teaching. An interdisciplinary methods course focusing on the meaning, role and teaching strategies of the arts in the elementary school curriculum. The course: 1) provides opportunities for exploration and understanding of dance, music, drama and visual arts; 2) seeks strategies for integrating two or more of the

arts; and 3) applies music, dance drama and visual arts as recommended in the Visual and Performing Arts Framework to other subject areas, such as language arts, social studies, science, mathematics and physical education. Participants learn how to plan, teach and evaluate an interdisciplinary unit of study in the arts in relationship to specific subject areas. They also learn how to present their units using technology and other media to develop a multimedia production.

### **EED 650. Open Education in the Elementary School (3)**

*Prerequisite: Graduate standing.* Curriculum course in open education for teachers, specialists and administrators in elementary schools. Major focus of the course is on the theory, current trends and experimentation in the field, with emphasis on creative application to specific classroom situations.

### **EED 651. Curriculum Assessment (3)**

*Prerequisite: Graduate standing.* Development of educational systems founded on the delineation of performance-based and criterion-referenced objectives and the selection of appropriate teaching strategies and evaluative measures, designed with emphasis on accountability in the elementary school curriculum. The role of diagnosis and prescription, modes of proof, performance contracting, and personal, professional and public accountability. Focus on techniques for compliance with the monitor and review process as mandated by federal and state agencies.

### **EED 652. Creativity and the School (3)**

Focus on identifying, generating and extending a range of behaviors and conditions that will increase creative productivity in the classroom, with an initial examination of the historical events and psychological components that pertain to the process and products of creativity. (Cross listed with EPC 640.)

### **EED 660. Individualizing and Personalizing Curriculum (3)**

*Prerequisite: 2 years teaching experience.* Process of individualizing and personalizing the curriculum. Emphasis on openness of relationships, organizational patterns and environment.

### **EED 661. Early Childhood Math/science Curriculum and Methods (3)**

*Prerequisite: MATH 310 or equivalent experience. Preparatory: Introductory courses in science and math are highly desirable as background.* Study of how young children learn science and math concepts based on Piaget's theory of cognitive development. Teaching strategies that maximize activity-discovery learning in the context of cognitive development are explored. It also examines and assesses existing programs in early childhood math/science within this framework.

### **EED 662. Language Arts Curriculum in the Early Childhood Education Classroom (3)**

Study of language arts curriculum (content and methodology) that maximizes the young child's (grades K-3) growth in communication skills and language concept and acquisition. Emphasis is placed on classroom practices that enhance development and communicative competency. The integration of the various language arts components is stressed, as well as the interrelationships between language and other subject areas.

### **EED 665. Foundations of Developmental Curriculum for Early Childhood (3)**

*Prerequisite: EPC 430 or equivalent, 605, 632 or instructor consent.* To be taken concurrently with experiences in the field, either teaching or field work. (Cross listed with EPC 635.)

### **EED 667. Classroom Applications Of Piaget's Theory of Cognitive Development (3)**

*Prerequisite: EPC 314, 315 or 316.* The major purpose of this course is to bridge the gap between Piaget's research and classroom practice. From a review of Piaget's observations and interpretation of children's

cognitive development, the course will derive methods for classroom questioning strategies, curriculum development and assessment. (Cross listed with EPC 667.)

### **EED 670. Research Applications in ESL Instruction (3)**

*Prerequisites: EED 570 or equivalent; 610 or equivalent or instructor consent.* Designed to prepare teachers to analyze, plan and evaluate ESL instruction in a bilingual or multilingual setting at the elementary-school level. Emphasis given to the analysis and development of materials and methods for teaching and assessment. Students will evaluate and synthesize current research related to issues concerning second language acquisition by elementary school students.

### **EED 671. Seminar in Multilingual/Multicultural Education (3)**

*Prerequisite: EED 610 or equivalent or instructor consent.* Seminar for teachers, supervisors or administrators interested in bilingual/multilingual education. Concerned with the philosophical, cultural and psychological aspects of bilingualism as well as the history and politics of bilingual/multilingual education, models of bilingual/multilingual programs and effective ways to work with the community. Bilingual/multilingual refers to bilingual/bicultural and multilingual/multicultural settings.

### **EED 674. Bilingual/Multilingual Curriculum (3)**

*Prerequisite: EED 610 or equivalent or consent of instructor.* Covers the history and development of curriculum for bilingual/multilingual programs. Research and its implications for curricular choices as well as the development and adaptation of curriculum will be dealt with. In addition, the effect of assessment on curriculum will be analyzed. Bilingual/multilingual refers to bilingual/bicultural and multilingual/multicultural settings. (Cross listed with SED 674.)

### **EED 675. Bilingual/Multilingual Teaching Strategies (3)**

*Prerequisite: EED 610 or equivalent or instructor consent.* Students evaluate research on bilingual/multilingual teaching methods and strategies. Emphasis is placed on relating research findings to instructional decision making. Includes modeling, developing and validating effective teaching strategies that provide English learners access to the core curriculum. Bilingual/multilingual refers to bilingual/bicultural and multilingual/multicultural settings. (Cross listed with SED 675.)

### **EED 678. Role of the Teacher in Multicultural Education (3)**

*Prerequisite: Valid teaching credential.* Theory, trends and experimentation related to the role of the teacher in multicultural education. Creation, demonstration and evaluation of multicultural study units for children. For in-service teachers and specialists.

### **EED 679. Seminar in Elementary Education Curriculum and Instruction (3)**

*Prerequisites: Required C and I courses (may be taken concurrently with the final required C and I course).* A capstone course for M.A. candidates in the Curriculum and Instruction Option. Students draw on the breadth developed in the prerequisite subject area courses to apply research methods and develop scholarly skills. Intended to serve as a preparation for the M.A. culminating experience, either thesis, project or comprehensive examination.

### **EED 680. Small Group Learning in Elementary School Classrooms (3)**

*Prerequisite: Completion of 1 semester of student teaching or equivalent.* Advanced course for teachers in the understanding and use of small groups as an instructional methodology. Social reconstructivist, cognitive, complex instruction and structural approaches to small-group learning will be examined. Emphasis will be on enabling educators to

make informed decisions and choices about selecting, implementing and evaluating small-group learning approaches that foster effective teaching and learning for all children in a variety of classroom settings.

**EED 681. Classroom Communication and Management Methods (3)**

*Prerequisite: Admission to the Multiple Subject Credential Program or classroom teacher.* Focuses on the theoretical basis for and the practical implementation of several approaches to classroom management and communication. Emphasis is on the interrelationship between management and the instructional process (e.g., students' motivation and characteristics, curriculum considerations, assessment components.)

**EED 684. Application of Research in Teaching Effectiveness (3)**

*Prerequisites: Teaching credential and 3 years teaching experience.* Each student reviews research of effective teaching strategies and analyzes selected propositions as a foundation of effective teaching decisions, including student motivation, rate and degree of learning, transfer of learning, and curriculum decisions that facilitate and extend student learning. Teaching techniques are field tested using action research procedures and ethnographic classroom study techniques. (Cross listed with SED 684, SPED 684.)

**EED 685. Supervisory Personnel and Student Teaching (3)**

*Prerequisites: Teaching credential, teaching experience.* Analysis of the role of the supervising teacher. Survey of current status, exploration of potential functions, and examination of recommendations of appropriate professional groups. Implications are drawn from related literature and research.

**EED 686. The Roles of Teachers, Paraprofessionals and Volunteers in Today's Schools (3)**

Focuses on the constructive interaction of teachers in the regular classroom with paraprofessionals, parent and other community volunteers,

and cross-age tutors forming an instructional team. The roles of each will be delineated with effective interaction and communication behaviors outlined for successful work with the youngsters in the classroom.

**EED 687. Practicum for Supervising Teachers (3)**

*Prerequisites: EED 684, 685.* Provides opportunities for students to apply their knowledge of supervision theory and teaching effectiveness research to on-site situations. A major part of this practicum involves practical application of the supervisory techniques in working with novice teachers. In addition, the participants will participate in pedagogical studies to improve their own teaching effectiveness and will learn techniques for improving teaching effectiveness within their own schools. (Cross listed with SED 687, SPED 687.)

**EED 692. Advanced Audiovisual Techniques (3)**

*Prerequisite: EED 592.* Graduate seminar designed to provide advanced theory and practical experience in planning, production and use of multisensory techniques of communication in education.

**EED 695A-Z. Seminar in Selected Studies (3)**

*Prerequisite: Graduate standing.* Special seminars in selected topics in: A. Early Childhood Education; and B. Elementary Education.

**EED 696. Directed Graduate Research (1-3)**

*Prerequisites: EED 610; Classified graduate status; Approval by Graduate Coordinator.* Advanced survey and analysis of research in elementary education leading toward preparation of thesis proposal.

**EED 697. Directed Comprehensive Studies (0-3)**

*Prerequisite: Prior completion of all course requirements for the Master's Degree.*

**EED 698. Thesis or Graduate Project (3-6)**

*Prerequisite: Acceptance by a Thesis Committee assigned by the Department.* A thesis on an advanced topic in the field of education.

**EED 699A-C. Independent Study (1-3)**

# College of Engineering and Computer Science

## Programs

### Undergraduate:

- B.S., Civil Engineering
- B.S., Computer Engineering
- B.S., Computer Information Technology
- B.S., Computer Science
- B.S., Construction Management
- B.S., Electrical Engineering
- B.S., Engineering Management
- B.S., Manufacturing Systems Engineering
- B.S., Mechanical Engineering
- Minor in Computer Science
- Minor in Construction Management Technology
- Minor in Electrical Engineering
- Minor in Manufacturing Systems Engineering
- Minor in Engineering Management
- Minor in Automation and CAD/CAM

### Graduate:

- M.S., Computer Science
- M.S., Software Engineering
- M.S., Electrical Engineering
- M.S., Engineering Management
- M.S., Materials Engineering
- M.S., Manufacturing Systems Engineering
- M.S., Mechanical Engineering
- M.S., Structural Engineering

## Accreditation

The Computer Science Undergraduate Program is accredited by the Computing Accreditation Commission. The Construction Management Undergraduate Program is accredited by the American Council for Construction Education. The Civil Engineering, Computer Engineering, Electrical Engineering, Manufacturing Systems Engineering and Mechanical Engineering Undergraduate Programs are accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

## Mission

The College of Engineering and Computer Science seeks to be a recognized center for excellence for Baccalaureate and Masters education in computer science and engineering. The College provides a quality education for its students. It also is a partner in the professional communities of computer science and engineering and provides an essential link between students' education and professional practice.

## Departments Within the College

Information about the following departments are found alphabetically in this Catalog: Civil Engineering and Construction Management, Computer Science, Electrical and Computer Engineering, Manufacturing Systems Engineering and Management and Mechanical Engineering.

## Engineering and Computer Science Scholarship Information

The College of Engineering and Computer Science administers a substantial scholarship program, dispersing more than \$75,000 each year to high-achieving engineering and computer science students. Annual scholarships are funded by corporate and individual friends of the College. Scholarship applications and information are available in January with applications due in early March. Specific dates and further information can be obtained from the College Administrative Offices.

## Honors Cooperative Internship Program

The College offers an opportunity for highly qualified students to work in the local industry throughout an entire calendar year. Students work full-time during the summer and half-time during the academic year. Students receive 6 units of academic credit in conjunction with this experience. The program is open to undergraduates who are nearing their senior year, have a minimum 3.0 cumulative GPA and have passed the Upper Division Writing Proficiency Exam. Graduate students who wish to participate must have a minimum 3.5 cumulative GPA. Applicants are matched to employer-supplied job descriptions and scheduled for interviews with prospective employers. The competitive nature of the program usually generates more applicants than positions available. The application period begins in early March and the period of employment is typically from July 1 through June 30. For more information, visit [www.csun.edu/~ecscoop](http://www.csun.edu/~ecscoop).

## General Education (24- 27 units)

Engineering and technology majors have modified General Education programs depending upon the year and enrollment status as a college student. Returning and transfer students should consult an advisor before planning their General Education programs. Each discipline has specific General Education requirements, thus it is in the student's best interest to select a specific discipline early in his/her course of study.

In addition to the required major program courses, majors in engineering and technology fields must satisfactorily complete General Education Plan R requirements in Analytical Reading and Expository Writing (3 units); Oral Communication (3 units); U.S. History and Local Government (6 units); Arts and Humanities (6 units); Social Sciences (0-3 units); and Comparative Cultural Studies (6 units). Nine of the General Education Plan R units must be at the Upper Division and 6 units must meet the Information Competence requirement.

Students should carefully consult their 4-year plan and confer with their faculty advisor when selecting their General Education Plan R courses.

## Special Requirements for the College of Engineering and Computer Science

Courses transferred into the Engineering and Computer Science majors must have been completed with a grade of C or better. A grade of C- or better is required in all courses in the major. More stringent prerequisite requirements may apply to some courses.

## Academic Advisement and Resources

### Student Services Center/EOP Satellite

**Director: Karla Pelletier, (818) 677-2191**

### Center for Research and Services

**Director: S. K. Ramesh, (818) 677-2146**

### Women in Science and Engineering Program

**Director: Diane Schwartz, (818) 677-5692**

## Course List

---

### **CECS 100. Engineering and Computer Science Orientation**

#### **Seminar (1)**

This course is designed to assist Engineering and Computer Science first-time freshmen in making a successful transition to the University environment. Emphasis is on orientation to the University and the College of Engineering and Computer Science, as well as study skills, teamwork, communication and career awareness. The course offers various College- and/or Department-based activities, frequent in-class exercises, self-assessments, and some on-campus field trips. Course work does not count toward engineering or computer science major requirements. Seminar/Activity 2 hours, 1 unit. (Credit/No Credit only)

# English

### Staff

Frank De La Santo, Tonie Mangum, Marjie Seagoe

### Faculty

Scott Andrews, Ian Barnard, Dorothy Barresi, Guillermo Bartelt, Kent Baxter, Pamela Bourgeois, Michael Bryson, Lauren Byler, RosaMaria Chacon, Ranita Chatterjee, Dorothy Clark, Irene Clark, Susanne Collier, Anthony Dawahare, Fredric Field, Katharine Haake, Leilani Hall, Charles Hatfield, Sharon Klein, Scott Kleinman, Jack Lopez, Robert Lopez, Evelyn McClave, Nathaniel Mills, Rick Mitchell, Martin Pousson, Enchao Shi, Jack Solomon, Cheryl Spector, Danielle Spratt, Jackie Stallcup, Sandra Stanley, George Uba, Steven Wexler, Beth Wightman

### Emeritus Faculty

Richard Abcarian, David Andersen, Joel Athey, Gwen Brewer, Robert Chianese, John Clendenning, Lary Gibson, Philip Handler, Marvin Klotz, Barbara Kroll, Arthur Lane, Patricia Murray, Rei Noguchi, Robert Noreen, Robert Oliphant, Catherine Phelan, Elaine Plasberg, Robert Reid, Iris Shah, Lawrence Stewart, Arlene Stiebel, Harry Stone, William Stryker, William Walsh, Patricia Watkins, Warren Wedin, Thomas Wright

### Programs

#### Undergraduate:

- B.A., English**
- Option: Literature
- Option: Creative Writing
- Option: Subject Matter Program for the Single Subject Credential
- Option: Four Year Integrated (FYI) English Subject Matter Program for the Single Subject Credential
- Option: Junior-Year Integrated (JVI) English Subject Matter Program
- Single Subject Credential Option: Honors
- Minor in Literature
- Minor in Creative Writing
- Minor in Writing and Rhetoric

#### Graduate:

- M.A., English**
- Option: Literature
- Option: Creative Writing
- Option: Rhetoric and Composition Theory

### Mission Statement

The English Department of CSUN is a community of teachers, scholars, writers and support staff whose primary mission is to promote learning in literature, creative writing, composition and linguistics and to help students acquire knowledge, develop skills and realize their own intellectual and creative goals. In pursuit of our mission, the Department also is committed to promoting faculty development in such areas as research, publication, creative work and other professional activities for the advancement of knowledge and pedagogy.

### Academic Advisement

All undergraduate English advising begins in the College of Humanities EOP Office, in JR 240, (818) 677-4767, where students may seek guidance regarding their major requirements or current or future class schedules.

Advising appointments are mandatory for declaring or changing a major and, one year in advance of the anticipated date of completion, filing for graduation. Additional advising is available in the English Department, and students may be directed there from the EOP office. For general questions concerning the major or other issues pertaining to English careers or future studies, please see the Associate Chair and/or consult the current list of appropriate option advisers.

Graduate advising takes place in the Department, and all graduate students should consult with the Graduate Advisor, Kent Baxter, as soon as possible upon matriculation.

### Common Undergraduate Program Student Learning Outcomes

1. Students will demonstrate critical reading skills.
2. Students will demonstrate effective writing skills.
3. Students will demonstrate knowledge of creative, literary, linguistic, and/or rhetorical theories.
4. Students will analyze British and American cultural, historical and literary texts.
5. Students will analyze culturally diverse texts.

### Common Graduate Program Student Learning Outcomes

1. Students will demonstrate knowledge of creative, cultural, linguistic, literary, performative, and/or rhetorical theories.
2. Students will conduct research and/or produce creative work appropriate to their Option.
3. Students will produce advanced analyses that take into account current schools of aesthetic, critical and historical methodology and are informed by disciplinary standards appropriate to their option.

### Creative Writing Undergraduate Option Student Learning Outcomes:

1. Students will create and revise original writing by practicing techniques and strategies employed by experienced writers.
2. Students will analyze drama, narrative and/or poetry to identify writerly strategies.
3. Students will assess their own creative writing in relation to relevant literary and theoretical traditions.
4. Students will demonstrate advanced creative writing skills by applying contemporary methods in at least one genre in a final portfolio for a capstone course.

### Honors Undergraduate Option Student Learning Outcomes:

1. Students will articulate clear interpretations of cultural texts.
2. Students will conduct independent research and scholarship.
3. Students will present their research as a scholarly paper in a colloquium or conference setting.

### Subject Matter Undergraduate Option Student Learning Outcomes:

1. Students will demonstrate their knowledge of the nature and structure of the English language and of its relationship to other human languages.
2. Students will apply rhetorical and composition theory.
3. Students will demonstrate fluency in the discourses pertaining to the disciplines of English.

### Four Year-Integrated and Junior-Year Integrated Undergraduate Option Student Learning Outcomes:

(As determined by the Department of Secondary Education)

1. Students will develop the ability to engage and support all secondary students (grades 6-12) in learning.
2. Students will develop the ability to create and maintain effective environments for secondary student learning.
3. Students will develop the ability to make subject matter comprehensible for student learning.
4. Students will develop the ability to plan instruction and design learning experiences for all secondary students.

5. Students will develop the ability to assess secondary students' learning.
6. Students will give evidence of the ability to develop as a professional educator.

### Careers for English Majors

English Majors with the Subject Matter Program for the Single Subject Credential Option gain the academic preparation for teaching careers at the middle-school, junior-high school or high-school level. Many students who obtain the M.A. in English find teaching positions at community colleges or proceed to doctoral programs that might lead to teaching careers at the university level. English studies also provide a good academic foundation for radio and television broadcasting, editing, writing, politics, film and library work, journalism, advertising, public information, public relations and technical writing. Studies show that English as a pre-professional major is valuable preparation for future careers in law, medicine, business, and local and federal service.

### Department Programs

The Department of English offers a wide variety of courses and programs in the fields of literature, language and writing. One of several options may be selected by students who intend to adopt English as a major or minor, or courses may be taken as electives by non-majors who seek enrichment in the liberal arts.

The undergraduate English Major (consisting of 5 Options: Literature; Creative Writing; Subject Matter; FYI and JYI; and Honors) is designed for students who desire to concentrate in one of the different fields subsumed under the broader category of "English." Students are required to choose one of these Options at the time they declare their English major. For further information concerning the choice of Options or related career opportunities for those with a B.A. in English, see the Associate Chair of the Department.

**Literature Option:** Focuses on the analytical reading of British and American literature.

**Creative Writing Option:** Provides students with the opportunity to develop narrative, verse or playwriting skills while building a solid background of study in British and American literature.

**English Subject Matter Program for the Single Subject Credential Option:** Prepares students for a career in teaching English at the middle-school and/or high-school level. This Option meets the California Commission on Teacher Credentialing subject matter requirements for the English Single Subject Credential. For details on the Single Subject Credential Program, see the Credential and Department of Secondary Education sections in the Catalog.

**Four-Year Integrated (FYI) and Junior-Year Integrated (JYI) English Single Subject Matter Programs for the Single Subject Credential Option:** Prepares students for a career in teaching English at the middle-school and/or high-school level. FYI and JYI integrate English subject matter course work, GE requirements and the course work included in professional preparation, permitting students who successfully complete the program to earn both a B.A. in English and a Single Subject English Preliminary Credential in four years for FYI students and in as few as two years for JYI students. These programs meet the California CTC subject matter requirements for the English Single Subject Credential. For details on the Single Subject Credential Program, see the Credential and Department of Secondary Education sections in the Catalog.

**Honors Option:** Enables students, by working independently and in seminars, to develop a strong academic background in preparation for postgraduate study in English or for entry into a variety of postgraduate professional schools. For admission to the Honors Program, see the Honors Option Advisor.

**Second B.A. in English:** Available to students who, having completed the Baccalaureate in another field, wish to pursue a second

Baccalaureate in English. Post-Baccalaureate Credential candidates in English who are completing the subject matter preparation component of either the Preliminary or Clear Credential also may wish to earn a second Baccalaureate and may do so through this Option.

**Minors in English:** 24-unit program with concentration either in Literature or Creative Writing; 18-unit program with concentration in Writing and Rhetoric—a minor particularly designed for students whose careers are likely to entail professional and/or technical writing. Though a minor is not required for a Baccalaureate degree, many students find it desirable.

**M.A. in English:** Consists of 3 options: Literature, Creative Writing and Rhetoric and Composition Theory. The English Department offers a limited number of openings for Classified graduate students who wish to be Teaching Associates (TAs). TAs enroll in ENGL 600A (for 3 units credit) and 600B and normally teach, under guidance, one section of Approaches to University Writing per semester for a stipend. Other teaching opportunities may be available to second-year TAs. For further information concerning choice of Option or career opportunities, students should see the Graduate Advisor. To apply for a Teaching Associateship, students should see the Director of Composition.

### The English Intern Program

The Department of English provides an internship program for students who are interested in entering the professional writing field. The year-long program consists of a writing and professional development course (ENGL 407) and an off-campus internship (ENGL 494EIP), which provide both the training and experience students need to make the transition into the workplace. For more information, contact Internship Coordinator Kent Baxter.

### CSU International Program

The Department of English supports the concept of international education and encourages students to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Department of English and may be used to fulfill some of the requirements for Degree Options offered by the Department and/or certain General Education requirements. For more information, students should consult the International Programs Bulletin available in the Office of International and Exchange Programs, the English Department's Associate Chair or the campus International Programs Advisor.

### Prizes in English

The Department offers a number of prizes for students who have excelled in their academic work. For further information on these awards, please see the English Department Main Office..

#### The Rachel Sherwood Poetry Prize

An annual prize awarded by *The Northridge Review* to the author of the poem judged to be the best published in the magazine during the calendar year. The recipient, who must be a registered student for at least one semester during the year in which the poem is published, will be awarded \$150.

#### The Northridge Review Fiction Award

An annual prize awarded by *The Northridge Review* to the author of the short story judged to be the best published in the magazine during the calendar year. The recipient, who must be a registered student for at least one semester during the year in which the story is published, will be awarded \$100.

#### The Oliver W. Evans Writing Prize

An annual prize of \$100 awarded for the best piece of prose, critical or creative, submitted in an Upper Division English course during the calendar year. Submissions are faculty-nominated.

#### The Eva Latif Writing Prize in Children's Literature

A yearly prize of \$100 awarded for the best piece of writing, criti-

cal or creative, by a student on the subject of children's literature. Submissions are faculty-nominated.

#### **The Mitchell Marcus Prize in English**

A prize of \$2,000 awarded each Spring semester to a graduate student who is best distinguished by excellence in his/her studies. Applications of currently enrolled Classified graduate students are reviewed by a committee of faculty who make the award.

#### **The Annamarie Peterson Morley Award**

An award of \$1,000 given to a student currently enrolled as an English major at CSUN who plans to enter the teaching profession at any level.

#### **The Robert apRoberts Honors Essay Prize**

An annual award of \$150 given to the English Honors student whose thesis is judged to be the best submitted during that academic year.

#### **The Northridge Writing Project Award/The Richard Lid and Helen Lodge Scholarship**

An award of \$500 given in alternating years to a graduate student enrolled in English or in Secondary English Education to help pay fees for graduate work.

#### **The Morley-Peterson Scholarship**

Up to two awards of \$1,000 each given to undergraduate or graduate students currently enrolled as English majors at CSUN who demonstrate the need for financial support to continue their studies.

#### **The Mahlon Gaumer Award**

An award of \$500 given to a graduate student for the best critical essay on English literature, with an emphasis on the use of language, submitted during the academic year.

#### **The Harry Finestone Memorial Award**

An award of \$750 given to the graduate student with the most distinguished essay completed in the Department's capstone graduate seminar, ENGL 698D. Submissions are faculty-nominated.

#### **The William L. Wilson Award**

A faculty-nominated award of up to \$1,000 given to an undergraduate major in English who plans to teach at the secondary level and who demonstrates the qualities of maturity, patience, purpose, generosity and compassion associated with the successful classroom teacher.

#### **The Henry Van Slooten Scholarship in English**

A scholarship of approximately \$500 will be given to any student in ENGLc 258, 259, 275 or 355 who has written an essay (open topic) that best demonstrates "a passion for the English language."

#### **The Academy of American Poets Prize**

A first prize of \$100 and two honorable mention awards given by the Academy of American Poets for the best poem(s) submitted. Application forms are available from the creative writing advisor.

#### **The Lesley Johnstone Memorial Award**

A prize of \$500 given to an undergraduate CSUN student who is the author of the best written work on some aspect of the natural world or environment. Eligible work, whether scholarly or creative, must have been written in an English class or for a class-related conference or publication.

## **Requirements for the Bachelor of Arts Degree**

### **A. Literature Option**

#### **1. Lower Division Required Courses (9 units)**

|      |     |                              |
|------|-----|------------------------------|
| ENGL | 258 | Major English Writers I (3)  |
| ENGL | 259 | Major English Writers II (3) |
| ENGL | 275 | Major American Writers (3)   |

#### **2. Upper Division Required Courses (30 units)**

##### **a. Critical Writing (3 units)**

|      |     |                              |
|------|-----|------------------------------|
| ENGL | 355 | Writing about Literature (3) |
|------|-----|------------------------------|

##### **b. Literary Theory (3 units)**

|      |     |                             |
|------|-----|-----------------------------|
| ENGL | 436 | Major Critical Theories (3) |
|------|-----|-----------------------------|

### **c. Literatures of Cultural Diversity (3 units)**

#### **Select 1 course from the following:**

|      |     |  |
|------|-----|--|
| ENGL | 311 | History of African-American Writing (3)  |
| ENGL | 314 | North American Indian Literature (3)     |
| ENGL | 368 | Gay Male Writers (3)                     |
| ENGL | 369 | Lesbian Writers (3)                      |
| ENGL | 371 | Issues in Jewish-American Writing (3)    |
| ENGL | 431 | Images of Women in Literature (3)        |
| ENGL | 433 | Women Authors (3)                        |
| ENGL | 434 | 19th Century Women Novelists (3)         |
| ENGL | 487 | Latina/o Literatures of the Americas (3) |

Consult an advisor for current courses in other areas, such as Asian American literature, Central American literature, Chicana and Chicano literature and Pan African or African American literature that also may satisfy this requirement. For the English major, you may not double-count these courses for Upper Division or Subject Exploration requirements in General Education.

#### **British Literature (9 units)**

##### **Select 1 course from the following:**

|      |     |   |
|------|-----|---|
| ENGL | 414 | Chaucer (3)                               |
| ENGL | 416 | Shakespeare: Selected Plays (3)           |
| ENGL | 417 | Shakespeare: A Survey (3)                 |
| ENGL | 418 | English Drama to 1642 (3)                 |
| ENGL | 443 | English Literature of the Middle Ages (3) |
| ENGL | 449 | The English Renaissance (3)               |

##### **Select 1 course from the following:**

|      |     |  |
|------|-----|--|
| ENGL | 419 | English Drama 1660-1880 (3)              |
| ENGL | 420 | Milton (3)                               |
| ENGL | 452 | 17th Century English Literature (3)      |
| ENGL | 456 | The Age of Enlightenment (3)             |
| ENGL | 466 | Major British Novelists I: 1700-1815 (3) |

##### **Select 1 course from the following:**

|      |     |   |
|------|-----|---|
| ENGL | 458 | The Romantic Age (3)                      |
| ENGL | 460 | The Victorian Age (3)                     |
| ENGL | 467 | Major British Novelists II: 1815-1900 (3) |

#### **American Literature to 1912 (3 units)**

##### **Select 1 course from the following:**

|      |     |  |
|------|-----|--|
| ENGL | 473 | American Literature: 1607-1860 (3)           |
| ENGL | 474 | American Literature: 1860-1912 (3)           |
| ENGL | 477 | Major American Novelists I: 19th Century (3) |

#### **20th Century Literature (6 units)**

##### **Select 2 courses from the following:**

|      |      |   |
|------|------|---|
| ENGL | 427  | Drama from Ibsen to the Present (3)           |
| ENGL | 461  | Modern British Literature (3)                 |
| ENGL | 462  | Contemporary British Literature (3)           |
| ENGL | 463A | Modern Poetry (3)                             |
| ENGL | 463B | Contemporary Poetry (3)                       |
| ENGL | 468  | Major British Novelists III: 1900-Present (3) |
| ENGL | 475  | American Literature: 1912-1945 (3)            |
| ENGL | 476  | Contemporary American Literature (3)          |
| ENGL | 478  | Major American Novelists II: 20th Century (3) |

#### **Senior Seminar (3 units)**

|      |     |                                  |
|------|-----|----------------------------------|
| ENGL | 495 | Senior Seminar in Literature (3) |
|------|-----|----------------------------------|

### **3. Upper Division Electives (9 units)**

Select any Upper Division courses except ENGL 300, 305, 316 or 364.

**General Education:** The standard General Education requirement is 48 units; however, English majors are permitted to double count 3 units from the Lower Division major requirements (ENGL 208, 258, 259 or 275) for both GE Subject Explorations-Arts and Humanities and the major.

**Electives:** Students majoring in English are encouraged to take a foreign language as part of their college program.

|   |            |
|---|------------|
| <b>Total Units in Option I</b>              | <b>48</b>  |
| <b>General Education Units</b>              | <b>45</b>  |
| <b>Additional Units</b>                     | <b>27</b>  |
| <b>Total Units Required for B.A. Degree</b> | <b>120</b> |

## B. Creative Writing Option

### 1. Lower Division Required Courses (6 units)

#### a. Creative Writing (3 units)

ENGL 208 Introduction to Creative Writing (3)

#### b. Literature (3 units)

##### Select 1 from the following:

ENGL 258 Major English Writers I (3)

ENGL 259 Major English Writers II (3)

ENGL 275 Major American Writers (3)

### 2. Upper Division Required Courses (33 units)

#### a. Critical Writing (3 units)

ENGL 355 Writing About Literature (3)

#### b. Literary Theory (3 units)

ENGL 436 Major Critical Theories (3)

#### c. Literatures of Cultural Diversity (3 units)

##### Select 1 of the following:

ENGL 311 History of African-American Writing (3)

ENGL 314 North American Indian Literature (3)

ENGL 368 Gay Male Writers (3)

ENGL 369 Lesbian Writers (3)

ENGL 371 Issues in Jewish-American Writing (3)

ENGL 431 Images of Women in Literature (3)

ENGL 433 Women Authors (3)

ENGL 434 19th Century Women Novelists (3)

ENGL 487 Latina/o Literature (3)

Consult an advisor for current courses in other areas, such as Asian American literature, Central American literature, Chicana and Chicano literature and Pan African or African American literature that also may satisfy this requirement. For the English major, you may not double-count these courses for Upper Division or Subject Exploration requirements in General Education.

#### d. British Literature before 1900 (3 units)

##### Select 1 course from the following:

ENGL 414 Chaucer (3)

ENGL 416 Shakespeare: Selected Plays (3)

ENGL 417 Shakespeare: Survey (3)

ENGL 418 English Drama to 1642 (3)

ENGL 419 English Drama 1660-1880 (3)

ENGL 420 Milton (3)

ENGL 443 English Literature of the Middle Ages (3)

ENGL 449 The English Renaissance (3)

ENGL 452 17th Century English Literature (3)

ENGL 456 The Age of Enlightenment (3)

ENGL 458 The Romantic Age (3)

ENGL 460 The Victorian Age (3)

ENGL 466 Major British Novelists I: 1700-1815 (3)

ENGL 467 Major British Novelists II: 1815-1900 (3)

#### e. American Literature to 1912 (3 units)

##### Select 1 course from the following:

ENGL 473 American Literature: 1607-1860 (3)

ENGL 474 American Literature: 1860-1912 (3)

ENGL 477 Major American Novelists I: 19th Century (3)

#### f. 20th Century Literature (3 units)

##### Select 1 of the following:

ENGL 427 Drama from Ibsen to Present (3)

ENGL 461 Modern British Literature (3)

ENGL 462 Contemporary British Literature (3)

ENGL 463A Modern Poetry (3)

ENGL 463B Contemporary Poetry (3)

ENGL 468 Major British Novelists III: 1900 to the Present (3)

ENGL 475 American Literature: 1912-1945 (3)

ENGL 476 Contemporary American Literature (3)

ENGL 478 Major American Novel II: 20th-Century (3)

#### g. Creative Writing (9 units)

##### Select 3 of the following (Courses may be repeated and counted as second course):

ENGL 308 Narrative Writing (3)

ENGL 309 Verse Writing (3)

ENGL 310 Playwriting (3)

ENGL 408 Advanced Narrative Writing (3)

ENGL 409 Advanced Verse Writing (3)

ENGL 410 Advanced Dramatic Writing (3)

ENGL 457A-Z Selected Topics in Creative Writing (3)

#### h. Creative Writing Theory (3 units)

##### Select 1 of the following:

ENGL 464 Theories of Poetry (3)

ENGL 465 Theories of Fiction (3)

#### i. Senior Seminar (3 units)

##### Select 1 of the following:

ENGL 490 Senior Seminar in Narrative Writing (3)

ENGL 491 Senior Seminar in Verse Writing (3)

ENGL 512 Writing for Performance (3)

### 3. Upper Division Electives (6 units)

ENGL 300, 305, 316 and 364 are not permitted as electives in this Option.

**General Education:** The standard General Education requirement is 48 units; however, English majors are permitted to double count 3 units from the Lower Division major requirements (ENGL 208, 258, 259 or 275) for both GE Subject Explorations-Arts and Humanities and for the major. Students majoring in English are encouraged to take a foreign language as part of their college program.

|   |            |
|---|------------|
| <b>Total Units in Option II</b>             | <b>45</b>  |
| <b>General Education Units</b>              | <b>45</b>  |
| <b>Additional Units</b>                     | <b>30</b>  |
| <b>Total Units Required for B.A. Degree</b> | <b>120</b> |

## C. English Subject Matter Program for the Single Subject Credential Option

The English Subject Matter Option is designed for prospective secondary school English teachers and is a state-approved waiver program. Students receive a B.A. in English and a single-subject Competency Waiver by completing the approved course work with no grade below a C and maintaining a GPA of 2.99 or better. Students also must complete the Subject Matter Exit Interview, the English Department's exit evaluation of single-subject competence. In compliance with state requirements, students must complete 20 hours of daytime Early Field Experience in schools.

To be eligible for the Credential program in the College of Education, students also must pass the CBEST and complete 45 hours of classroom

observation at a school site. Upon completion of course work adhering to the above requirements and successful completion of the English Subject Matter Exit Interview, students are eligible to enter a traditional credential program in the College of Education. For further information about the single-subject credential in English, consult the Credential Office.

The English Subject Matter Option combines a 42-unit Core with a specified emphasis of 12 units in one of 6 Extended Study areas. Students should consult with the Subject Matter Advisor before they achieve their junior standing to review their course work and to choose an emphasis. Transfer students also should see the Subject Matter Advisor as soon as possible for academic advising. Transfer students should review the Lower Division GE courses required for this Option.

## Core Program (42 units)

### 1. Lower Division Required Courses (9 units)

**Complete the following (1 of which may be double-counted for a Lower Division GE):**

|      |     |                              |
|------|-----|------------------------------|
| ENGL | 258 | Major English Writers I (3)  |
| ENGL | 259 | Major English Writers II (3) |
| ENGL | 275 | Major American Writers (3)   |

### 2. Upper Division Required Courses (33 units)

**Upper Division GE Courses (6-units double-count):**

|      |       |  |
|------|-------|--|
| COMS | 309   | Advanced Public Speaking (3)                                       |
| TH   | 473/L | Dramatic Performance in the Secondary Language-Arts Curriculum (3) |

**Take all 5 of the following:**

|      |        |  |
|------|--------|--|
| ENGL | 355    | Writing about Literature (3)                             |
| ENGL | 406    | Advanced Expository Writing for Teachers (3)             |
| ENGL | 429    | Adolescent Literature (3)                                |
| ENGL | 436    | Major Critical Theories (3)                              |
| ENGL | 495ESM | Senior Seminar in Literature: English Subject Matter (3) |

### Shakespeare (3 units)

**Select 1 course from the following:**

|      |     |                                 |
|------|-----|---------------------------------|
| ENGL | 416 | Shakespeare: Selected Plays (3) |
| ENGL | 417 | Shakespeare: A Survey (3)       |

### Literatures of Cultural Diversity (3 units)

**Select 1 course from the following:**

|      |     |  |
|------|-----|--|
| ENGL | 311 | History of African-American Writing (3)            |
| ENGL | 314 | North American Indian Literature (3)               |
| ENGL | 368 | Gay Male Writers (3)                               |
| ENGL | 369 | Lesbian Writers (3)                                |
| ENGL | 371 | Issues in Jewish-American Writing (3)              |
| ENGL | 431 | Images of Women in Writing (3)                     |
| ENGL | 433 | Women Authors (3)                                  |
| ENGL | 434 | 19th Century Women Novelists (3)                   |
| ENGL | 487 | Latina/o Literature (3)                            |
| AAS  | 321 | Asian American Fiction (3)                         |
| CHS  | 380 | Chicana/o Literature (3)                           |
| CHS  | 381 | Contemporary Chicana Literature (3)                |
| PAS  | 344 | Literature of Caribbean and African Experience (3) |
| PAS  | 346 | Contemporary Black Female Writers (3)              |

### Linguistics and Language Study (6 units)

**Take the following:**

|      |     |                              |
|------|-----|------------------------------|
| ENGL | 301 | Language and Linguistics (3) |
|------|-----|------------------------------|

**Select 1 course from the following:**

|      |     |  |
|------|-----|--|
| ENGL | 302 | Introduction to Modern Grammar (3)           |
| ENGL | 400 | History of the English Language (3)          |
| ENGL | 405 | Language Differences and Language Change (3) |

*Note: If your Extended Study Option is Linguistics and Diversity, you must choose either ENGL 302 or 405 for this category; ENGL 400 may not be double-counted here and in the Extended Study Option.*

**Verification of Early Field Experience:** Students must supply verification of completed Early Field Experience.

**Verification of Successful Basic Syntax, Grammar and Written Usage Diagnostic:** Students must successfully complete exercises assessing their mechanics and written usage skills.

## Extended Study (12 units)

Students must choose 1 of the following Extended Study emphases for broad perspective and specific focus:

### Literature Extended Study

Perspective and Focus (12 units): Select 3 units from a British Age Course and 3 units from an American Age Course. 6 units must be chosen from the remaining 3 categories: Major Authors, Genre courses and Elective courses. Students must choose to concentrate in a particular area or blend areas.

**Choose 3 units from British Age Courses:** ENGL 443, 449, 452, 456, 458, 460, 461, 462, 466, 467 or 468;

**Choose 3 units from American Age Courses:** ENGL 473, 474, 475, 476, 477 or 478;

**Choose 6 units from Major Author Courses:** ENGL 414, 420 or 470A-Z (as appropriate);

or **Genre Courses:** ENGL 418, 419, 423, 424, 426, 427, 428, 430, 463A or 463B;

or **Electives:** ENGL \*311, 312, 313, \*314, 360, 363, \*368, \*369, 370, \*371, 372, 396A-Z, \*431, \*433, \*434, 480, 483, 485, 486, \*487, 488, 489, 495A-Z (excluding 495ESM), 496A-Z or 499.

\* *Because a Literatures of Cultural Diversity course is part of the Core requirements, students cannot double-count that class. Students must take courses not included as part of the Core requirement.*

### Creative Writing Extended Study

Perspective and Focus (12 units):

All students must take: ENGL 208 (3 units)

Select 3 units from the following courses: ENGL 308, 309, 310

Select 3 units from the following courses: ENGL 408, 409, 410, 457

Select 3 units from: ENGL 464 or 465

### Linguistics and Diversity Extended Study

Perspective and Focus (12 units):

All students must take: ENGL 400 (3 units) and LING 417 (3 units)

Select 3 units from the following courses: CHS 482 or PAS 395 or (if not selected for Linguistics and Language Study) ENGL 405

Select 3 units from the following courses: COMS 356 or LING 427

*Note: If ENGL 400 was taken for Linguistics and Language Study, students may not double-count it and should choose a different Extended Study Option.*

### Literatures of Diversity Extended Study

Perspective and Focus (12 units):

Students may either focus their 12 units by choosing from 1 of the subject categories listed below or combine courses adding up to 12 units from any of the subject categories listed below.

\* *Because a Literature of Cultural Diversity course is part of the Core requirements, students cannot double-count that class. Students must take courses not included as part of the Core requirement.*

**Students may choose no more than 1 Lower Division course from those listed:**

#### Asian American Literature:

|     |      |   |
|-----|------|---|
| AAS | 220  | Survey of Asian American Literature (3)                     |
| AAS | 321  | Asian American Fiction (3)                                  |
| AAS | 325A | Asian American Creative Studies Workshop: Literary Arts (3) |
| AAS | 420  | Asian American Literary Self Representations (3)            |

**Pan African Studies:**

|      |     |  |
|------|-----|--|
| ENGL | 311 | History of African-American Writing (3)                |
| PAS  | 344 | Literature of the Caribbean and African Experience (3) |
| PAS  | 345 | African-American Autobiography (3)                     |
| PAS  | 346 | Contemporary Black Female Writers (3)                  |
| PAS  | 447 | African-American Theater (3)                           |

**Chicana/o Studies:**

|      |     |   |
|------|-----|---|
| CHS  | 132 | Chicana/o Poetry (3)                                      |
| CHS  | 201 | Survey of Mexican Literature in Translation (3)           |
| CHS  | 380 | Chicana/o Literature (3)                                  |
| CHS  | 381 | Contemporary Chicana Literature (3)                       |
| CHS  | 480 | Children's Literature of Latin America in Translation (3) |
| ENGL | 487 | Latina/o Literatures of the Americas (3)                  |

**Armenian Literature:**

|      |     |   |
|------|-----|---|
| ARMN | 315 | Masterpieces of Armenian Literature (3) |
|------|-----|---|

**Jewish-American Literature:**

|      |     |                                       |
|------|-----|---------------------------------------|
| ENGL | 371 | Issues in Jewish-American Writing (3) |
|------|-----|---------------------------------------|

**Gay/Lesbian Literature:**

|      |     |                      |
|------|-----|----------------------|
| ENGL | 368 | Gay Male Writers (3) |
| ENGL | 369 | Lesbian Writers (3)  |

**Women's Literature:**

|      |     |                                  |
|------|-----|----------------------------------|
| ENGL | 431 | Images of Women in Writing (3)   |
| ENGL | 433 | Women Authors (3)                |

**D. Four-Year Integrated English Single Subject Matter Credential Program (FYI) Option**

The Four-Year Integrated English Teacher Credential Program (FYI-English) for freshmen requires that students apply and be accepted to the Program. Readiness for college-level work is one prerequisite. Students admitted to the FYI Program will be assigned to a cohort in their freshman year and they, with their cohort, will complete the course work in the designated order outlined here. FYI-English integrates English subject matter course work and the course work included in professional preparation. The Program also includes all General Education and Title 5 course work, permitting students who successfully complete the Program to earn both a B.A. in English and a Single Subject English Preliminary Credential in 4 years. Note: For additional information, consult the Credential Office, the FYI-English Advisor in the Department of English or the Department of Secondary Education.

**E. Option Junior-Year Integrated (JYI) English Subject Matter Program for the Single Subject Credential**

JYI-English begins in the junior year for students who apply and are accepted to the Program. This Program integrates undergraduate subject matter knowledge with professional credential preparation content and experiences and it leads to both the B.A. in English and the Single Subject Preliminary Credential in English. For admission, students must be juniors who have completed the Lower Division general education requirements, including Title 5 parts 1 and 2 and the Lower Division Core of the English Subject Matter Option major.

Applications to both the University and to the Credential Program are necessary. Students will be responsible for successfully completing the English Subject Matter Exit Interview and the CSUN Upper Division Writing Proficiency Exam (UDWPE); and for meeting the basic skills requirement (generally, passing the California Basic Educational Skills Test). Paralleling the FYI-English Program, the JYI-English Option requires students to complete the Extended Study requirement in Literature. Students considering the JYI-English Program should seek advisement as soon as possible for guidance in meeting admission and program requirements.

**Courses Required Prior to SED 554/554S**

ENGL 250FE Perspectives on English Studies for Teachers (3)  
 ENGL 301 Language and Linguistics (3)  
 ENGL 311 History of African American Writing (3)  
 or ENGL 371 Issues in Jewish American Writing (3)  
 ENGL 355 Writing About Literature (3)  
 ENGL 363 Study of Poetry (3)  
 EPC 420 Educational Psychology of Adolescence(3)  
 SED 511 Fundamentals of Teaching in Multiethnic Secondary Schools (3)  
 SED 525EN Methods of Teaching English (3)

**Required Prior to or Concurrent with SED 554/554S**

ENGL 406 Advanced Expository Writing for Teachers (3)  
 ENGL 416 Shakespeare: Selected Plays  
 or ENGL 417 Shakespeare Survey (3)  
 ENGL 429 Literature for Adolescents (3)  
 ENGL 436 Major Critical Theories  
 or ENGL 438 Critical Approaches to Literature (3)

**Required Prior to or SED 555/555S**

SED 554/554S Supervised Field Experience and Field Experience Seminar (3 + 1)

**Required Prior to or Concurrent with SED 555/555S**

COMS 309 Advanced Public Speaking (3)

**F. Honors Program Option**

Requirements for admission to the Honors Option: The Program leading to the B.A. degree with Honors in English offers students the opportunity to engage in various approaches to English Studies through courses, seminars and independent reading, writing and research. Admission into the program—to begin normally in the first semester of the junior year—is by approval of the Honors Option Advisor. To be graduated from the Honors Program, a student needs a GPA of 3.5 or better in his/her Upper Division English courses.

**1. Lower Division Required Courses (9 units)**

|      |     |                              |
|------|-----|------------------------------|
| ENGL | 258 | Major English Writers I (3)  |
| ENGL | 259 | Major English Writers II (3) |
| ENGL | 275 | Major American Writers (3)   |

**2. Upper Division Required Courses (27 units)****a. Literary Theory (3 units)**

|      |     |                             |
|------|-----|-----------------------------|
| ENGL | 436 | Major Critical Theories (3) |
|------|-----|-----------------------------|

**b. Literatures of Cultural Diversity (3 units)****Select 1 course from the following:**

|      |     |   |
|------|-----|---|
| ENGL | 311 | History of African-American Writing (3) |
| ENGL | 314 | North American Indian Literature (3)    |
| ENGL | 368 | Gay Male Writers (3)                    |
| ENGL | 369 | Lesbian Writers (3)                     |
| ENGL | 371 | Issues in Jewish-American Writing (3)   |
| ENGL | 431 | Images of Women in Literature (3)       |
| ENGL | 433 | Women Authors (3)                       |
| ENGL | 434 | 19th Century Women Novelists (3)        |
| ENGL | 487 | Latina/o Literature (3)                 |

Consult an advisor for current courses in other areas, such as Asian American literature, Central American literature, Chicana and Chicano literature and Pan African or African American literature that also may satisfy this requirement. For the English major, you may not

double-count these courses for Upper Division or Subject Exploration requirements in General Education.

**c. British and American Literature (6 units)****British Literature (3 units)****Select 1 course from the following:**

| PAS  | 395 | Bilingualism in the African-American Community (3)               |

### Second Bachelor of Arts Degree in English

Students seeking a second B.A. in English in any of the options described above should note the University regulations governing second degrees. Students admitted into the Second B.A. Program must take at least 24 units in the English major in residence. To complete the major they must have a total of 36-48 units in English, the exact number to be determined by advisement. At least 24 of these units will be Upper Division English courses; 6 units may be in Upper Division courses outside of English with prior approval of the Department Chair or Associate Chair. Students must obtain, at their first registration for this program, an evaluation of all earlier work in English.

### Requirements for the Master of Arts Degree

In addition to the University requirements, the English Department requires that students meet one of two conditions before being admitted into the department program:

1. Students with a B.A. in English must have a minimum GPA of 3.0 in Upper Division English courses;. This GPA is determined by the cumulative GPA of all approved Upper Division English courses.
2. Students with a B.A. in a subject other than English must have a minimum of 24 semester units of approved Upper Division English courses with a minimum 3.0 GPA in these courses. This GPA is determined by the cumulative GPA of all approved Upper Division English courses.

One of these two conditions must be met before a student may be admitted into the English Department M.A. Program in either Conditionally Classified or Classified status. Applicants who, upon Departmental evaluation, do not possess enough qualifying units or the required GPA need to take additional undergraduate Upper Division English courses to make up any deficits before admission into the program.

Once students have met the above requirements, they may be admitted into the program. However, there are further conditions that must be met before students can be fully admitted. Therefore, there are two types of admission: Classified and Conditionally Classified.

#### A Classified student has fulfilled the following 3 criteria:

- 1) A B.A. in English or have already completed 24 Upper Division-approved English semester units (UD English GPA minimum required: 3.0)
- 2) A passing score on the Writing Proficiency Exam (UDWPE)
- 3) A GPA of 3.6 or greater in Upper Division English and a 3.0 in their last 60 units or score in the 80th percentile in the verbal portion of the general test of the Graduate Record Exam (GRE)

#### A Conditionally Classified student has a B.A. in English or has already completed 24 Upper Division-approved English semester units with a minimum 3.0 GPA and need to fulfill one or more of the following criteria:

- 1) A passing score on the Writing Proficiency Exam (UDWPE)
- 3) A GPA of 3.6 or greater in Upper Division English and a 3.0 in their last 60 units or score in the 80th percentile in the verbal portion of the general test of the Graduate Record Exam (GRE)

#### Denied students fall into one or more of these categories:

- 1) Do not have a B.A. in English
- 2) Do not have 24 Upper Division-approved English semester units
- 3) Do not have the required minimum GPA of 3.0 in Upper Division English units

*\*Denied students may not take any graduate level courses (500- to 600-level).*

Conditionally Classified students may take graduate classes as they work on fulfilling the GRE and UDWPE conditions required for Classified status. However, students cannot go beyond 12 units of course work until Classified status is achieved. Note that the English Department's requirements for Classification are more stringent than the University's requirements.

The UDWPE cannot be waived, but if a student passed this test or its equivalent as an undergraduate, he or she need not take it again. The GRE requirement will be waived if, at the time of entrance into the program, a student has a 3.6 GPA in Upper Division English and a 3.0 in the last 60 units. *Note: All students with a GPA of 3.59 or less in their upper-division English units must take the GRE at least once. For students who have taken the GRE once and who do not score in the 80th percentile, the student and Department wait for the GPA of the first 12 graduate units. If a student's GPA in the first 12 graduate units is 3.5 or higher, the original GRE score will stand and the student does not have to retake the GRE. If a student's GPA in the first 12 graduate units is between 3.00 and 3.49, he/she will have to achieve the designated GRE score that matches the GPA in the table below. Students not Classified at 12 units must get approval from Ranita Chatterjee to take classes.*

| Minimum GPA<br>(first 12 units) | GRE Verbal Score                        |
|---------------------------------|---|
| 3.5 - 4.0                       | No minimum<br>(However, must take exam) |
| 3.4                             | 153                                     |
| 3.3                             | 153                                     |
| 3.2                             | 154                                     |
| 3.1                             | 156                                     |
| 3.0                             | 157                                     |

### Requirements for the M.A. Degree in English

A minimum of 30 units of approved graduate work comprising Core Requirements and 1 Option:

#### 1. Core Requirements (12 units)

- |      |     |  |
|------|-----|--|
| ENGL | 604 | Studies in the English Language (3)              |
| ENGL | 638 | Seminar in Critical Approaches to Literature (3) |

#### 2 courses in Literature at the 595- or 600-level (6)

#### Select 1 of the following options:

##### A. Literature Option (18 units)

- |      |     |   |
|------|-----|---|
| ENGL | 601 | Seminar in Scholarly Methods and Bibliography (3) |
|------|-----|---|
- 3 courses in Literature (9)

2 courses, selected with the approval of the Graduate Advisor (6). One of these courses may be ENGL 698D Graduate Project.

*The Department may not offer ENGL 698D every term.*

Students who choose not to take ENGL 698D will instead take ENGL

697, the Comprehensive Examination.

The Comprehensive Examination does not carry unit weight toward the Degree in the M.A. Program. Therefore, students taking the exam must complete 30 units of course work in addition to the exam. For regulations governing required registration for the examination, see the "Graduate Programs" section of the Catalog.

### B. Creative Writing Option (18 units for Thesis Option; 21 units for Project Option)

Applicants interested in the Creative Writing Option must first be admitted into the M.A. Program in English and must submit a qualifying creative writing sample (Poetry: 10 complete poems; Fiction: 1 complete short story; Creative Nonfiction: 1 complete essay; Playwriting: 1 complete one-act play, or 1 act from a full-length play, or 1 complete performance text of at least 10 minutes) to the Creative Writing Committee during the first semester of residency.

ENGL 652 Creative Writing Studies (3)

Either 2 courses in creative writing (9) (for students who choose the Thesis Option) or 4 courses in creative writing (12) (for students who choose the Project Option)

One course selected with the approval of the Graduate Advisor (3)  
Culminating experience: the student will choose one of the following two options:

1. Thesis Option: ENGL 698C—Creative Writing Thesis (consult Option Advisor) (3)
2. Project Option: ENGL 698D—Graduate Project (consult Option Advisor) (3)

*Note: The Project Option requires students in the Creative Writing Option to take an extra creative writing workshop (for a total of 33 units). The student must be concurrently enrolled in a 400-, 500- or 600-level creative writing workshop within her or his primary genre while enrolled in 698D.*

*Note: The Department may not offer ENGL 698 every term.*

*Note: The Thesis Option will no longer be available after this Catalog. Please see the department for further information.*

### C. Rhetoric And Composition Theory Option (18 units)

Applicants interested in the Rhetoric and Composition Theory Option must first be admitted into the M.A. Program in English and must submit a qualifying non-fiction writing sample (10 pages) during his/her first semester of residency.

ENGL 651—Rhetorical Theory and Composition (3)

4 courses in rhetoric or composition or study of language (12)

Either ENGL 698D—Graduate Project OR ENGL 697—Comprehensive Examination.

*Note: The Department may not offer ENGL 698D every term.*

*Note: The Comprehensive Examination does not carry unit weight toward the degree in the M.A. Program. Therefore, students taking the exam must complete 30 units of course work in addition to the exam. For regulations governing required registration for the examination, see the "Graduate Programs" section of the Catalog.*

#### Notes:

1. In all Options, students may choose, with consent of the Graduate Advisor, two 400-level courses in English or outside the English Department that have been approved for graduate credit.
2. Students may repeat the following courses once for credit:
  - ENGL 512 Writing for Performance (3-3)
  - ENGL 608 Seminar in Narrative Writing (3-3)
  - ENGL 609 Seminar in Poetry Writing (3-3)

ENGL 622 Seminar on Aspects of Poetry (3-3)

ENGL 623 Seminar in Studies in Prose Fiction (3-3)

Students may repeat the following courses twice for credit:

ENGL 620A-Z Seminar in Individual Authors (3-3-3)

ENGL 630A-M Seminar in Literary Periods (3-3-3)

ENGL 699A-C Independent Study (6 units maximum) (1-3)

### Course List

Note that with the exception of the Subject Matter and FYI/JYI Options, the English Department does not allow double-counting of Upper Division General Education courses within its major.

#### ENGL 090. Extemporaneous Expository Writing (3)

*Preparatory: Completion of the Lower Division writing requirement.*

Intensive practice in writing effective expository prose under test conditions. Primarily designed for students preparing to retake the Upper Division Writing Proficiency Exam (UDWPE). Credit for ENGL 090 does not guarantee passing the UDWPE. (Credit/No Credit only)

#### ENGL 113A. Approaches to University Writing A (3)

*Prerequisite: EPT score of 120-141 or higher. Corequisite: UNIV 061.*

Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS and QS 113A. Students also are required to enroll in UNIV 061 (1 credit). Individual tutoring is available through the Learning Resource Center.

#### ENGL 113B. Approaches to University Writing B (3)

*Prerequisite: ENGL 113A.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS and QS 113B. Students also are required to enroll in UNIV 062 (1 credit). Individual tutoring is available through the Learning Resource Center. (Available for General Education, Analytical Reading/Expository Writing.) (IC)

#### ENGL 114A. Approaches to University Writing A (3)

*Prerequisite: EPT score of 142-150.* Expository prose writing with a focus on both content and form. Specific emphases shall include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only one course chosen from AAS, CAS, CHS, ENGL, PAS and QS 114A. Individual tutoring is available through the Learning Resource Center.

#### ENGL 114B. Approaches to University Writing B (3)

*Prerequisites: Successful completion of ENGL 114A.* Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS and QS 114B. Individual tutoring is available through the Learning Resource Center.

**ENGL 115. Approaches to University Writing (3)**

*Prerequisite:* EPT score of 151 or higher. Expository prose writing with a focus on both content and form. Specific emphases include the exercise of logical thought and clear expression, the development of effective organizational strategies and the appropriate gathering and utilization of evidence. Includes instruction on diction, syntax and grammar, as well as the elements of prose style. Students receive credit for only 1 course chosen from AAS, CAS, CHS, ENGL, PAS and QS 115. Individual tutoring is available through the Learning Resource Center.

**ENGL 196A-Z. Experimental Topics Courses in English (1-3)****ENGL 205. Business Communication in its Rhetorical Contexts (3)**

*Prerequisites:* CH S 113B/114B/115 or PAS 113B/114B/115 or ENGL 113B/114B/115 or AAS 113B/114B/115 or QS 113B/114B/115 or equivalent. *Preparatory:* CHS 151 or COMS 151 or PAS 151 or equivalent; COMP 100 or equivalent. Development of critical writing, thinking, research and technology skills in the context of business. Through substantial writing and other work, students will hone their written, oral and visual communication skills, and their ability to find, synthesize and make arguments based on primary and secondary sources. Emphasis on communication with a diverse audience and case studies about ethical issues common to the local and global business world. This course is required of students who have declared a major in Accountancy, Business Administration, Management, Marketing, Information Systems or Finance. Also may be taken as an elective by other students who wish to enhance their professional communication skills. Not available for students who have earned credit for BUS 105 or 205.

**ENGL 208. Creative Writing (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Introductory workshop course in creative writing. Students have the option of concentrating on 1 of 3 modes: prose fiction, poetry or drama. Part of the Writing Option in English. (Available for General Education, Arts and Humanities.)

**ENGL 250FE. Perspectives on English Studies for Teachers (3)**

Introduces students to the issues of reading and writing in the context of examining their own first-year experiences with reading and writing, and connects these experiences to the curricular content of 9th grade English classes and pupils. Students will meet with a CSUN instructor 1.5 hours per week. A 20-hour field experience in a 9th grade English classroom is required. Required for FYI and JYI English Program.

**ENGL 255. Introduction to Literature (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Introductory study of the genres of imaginative literature—prose fiction, poetry and drama—with special emphasis on the interrelationships between form and theme. The course will feature a specific cultural tradition (e.g., Western, Postcolonial, African American, etc.) to be chosen by the instructor. Critical writing is an integral part of the course. (Available for General Education, Arts and Humanities and meets the Lower Division literature requirement for Liberal Studies majors.)

**ENGL 258. Major English Writers I (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Study of works of major English writers from the Middle Ages to Samuel Johnson, with attention to literary movements and backgrounds. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 259. Major English Writers II (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Study of works of major English writers, from Blake to the present, with attention to literary movements and backgrounds. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 275. Major American Writers (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Study of the important works of a selected number of American writers from the colonial period to modern times. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 296A-Z. Experimental Topics Courses in English (1-3)****Upper Division****ENGL 300. Contemporary Literature (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* Upper Division standing. Not for credit in the English major and minor. Study and analysis of selected major works of fiction, poetry, drama and major authors since approximately the end of World War II in England and America. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 301. Language and Linguistics (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Introduction to linguistic science, its background, development and relation to other fields of study, as well as recent developments in the study of language. (Linguistics and Language Study requirement of the English Subject Matter Program.)

**ENGL 302. Introduction to Modern Grammar (3)**

Basic course in grammar—traditional, structural and transformational. Some applications of linguistics to the teaching of English and the language arts are suggested.

**ENGL 303. Introduction to Grammar and Linguistics for Teachers (4)**

Introduction to the study of human languages and to major scientific approaches in linguistics: phonetics (properties of sound), phonology (sound systems of particular languages), morphology (word formation processes), syntax (word order patterns), semantics (study of meaning) and language variation (including dialects and historical changes). Designed for students in the Liberal Studies Freshman ITEP Program, this course surveys current linguistic theories and focuses on those aspects of grammar expected to be taught as part of the English-Language Arts Content Standards for Grades K-5 as mandated by the California State Board of Education.

**ENGL 305. Intermediate Expository Writing (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Intermediate course in written expository writing includes a study of the style of competent writers and extends the writing skills acquired by students in the Freshman Composition course. Emphasis on developing writing that exhibits clarity, coherence, style and a clear purpose. Provides preparation for the Upper Division Writing Proficiency Exam (UDWPE) and satisfies the writing requirement in the Liberal Studies major.

**ENGL 306. Report Writing (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Approaches to writing scientific, technical, professional, business or general-information reports and articles for various audiences and contexts. Emphasis on awareness of discursive practices of particular fields to achieve purpose, coherence and effective style. Culminates with research project and presentation. (Available for General Education, Lifelong Learning.)

**ENGL 308. Narrative Writing (3-3)**

*Preparatory:* ENGL 208 or demonstrated proficiency. Intensive practice in narrative writing, with emphasis on short fiction. Analysis and criticism of students' work, as well as analysis of selected published writings. May be repeated once for credit.

**ENGL 309. Verse Writing (3-3)**

*Preparatory:* ENGL 208 or demonstrated proficiency. Intensive practice in writing poetry. Analysis and criticism of students' work, as well as some critical study of published verse. May be repeated once for credit.

**ENGL 310. Playwriting (3-3)**

*Prerequisite:* ENGL 208 or demonstrated proficiency. Intensive practice in writing drama for stage, radio and television. Analysis and criticism of students' work, including lab production through college facilities. May be repeated once for credit.

**ENGL 311. History of African-American Writing (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* At least one university-level course in literature. Focus on the development of the major genres in African-American writing from the beginning to the present, relating them to the larger movements in American culture. Critical writing required. Information Competency course. (Available for General Education, Comparative Cultural Studies.) (IC)

**ENGL 312. Literature and Film (3)**

Study of selected literary works that have been made into films, as well as an exploration of the adapted films themselves and of the change in emphasis and meaning when literature is translated into or adapted to film.

**ENGL 313. Studies in Popular Culture (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Cultural studies course focusing on the interpretation of American popular culture. Course methodology may include Marxist, psychoanalytic, semiotic or culturally eclectic scholarly points of view. Designed for students who may want to enter the fields of entertainment or advertising, or future teachers who may want to use popular culture in their classrooms, this course will survey the products of popular culture as signifiers of larger cultural forces and realities. Available as an elective in all Options of the major and minor. Information Competency course. (Available for General Education, Lifelong Learning.) (IC)

**ENGL 314. North American Indian Literature (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Survey of North American Indian literatures, including traditional oral forms, autobiographies and contemporary poetry and prose.

**ENGL 316. Shakespeare (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* Upper Division standing. Not for credit in the English major or minor. Introductory study of representative poems and plays. Attendance at performances and/or films is required. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 333. Comics and Graphic Novels (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of comics, including comic strips, comic books and graphic novels, from literary and cultural studies perspectives. Emphasis on both history and form, including image-text relationships. Topics also may include fan culture, particular genres of comics and connections between comics and other forms of visual text. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 355. Writing About Literature (3)**

*Preparatory:* Completion of the Lower Division writing requirement and 2 Lower Division English courses. Intensive study of the literary genres of poetry, prose, fiction and drama. Emphasis on written analysis of selected works in each genre. Development of criteria for responsible judgment.

**ENGL 360. the English Bible As Literature (3)**

*Preparatory:* Upper Division standing. Study of form, theme and style in the King James Version of the Bible.

**ENGL 363. Study of Poetry (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Intensive study of representative poems in English from the Middle Ages to the present. Exercises in explication of the various modes of poetic expression. Development of criteria for responsible judgment.

Emphasis on critical analysis of selected poems. Critical writing required. Class activity is largely discussion.

**ENGL 364. The Short Story (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. *Preparatory:* Upper Division standing. A study of the short story, beginning with careful examination of some classics in the genre, followed by analysis of more contemporary works. Not allowed for credit in the English major or minor. Critical writing required. (Available for General Education, Arts and Humanities.)

**ENGL 368. Gay Male Writers (3)**

*Preparatory:* Completion of Lower Division writing requirement. Examines works in British and American literature that: a) were written by gay men; and b) portray the lives of gay individuals. Focusing primarily on texts written since the late 19th century and traces the development of gay male self-representation in poetry, novels, short fiction, drama and nonfiction.

**ENGL 369. Lesbian Writers (3)**

*Preparatory:* Completion of Lower Division writing requirement. Primarily focuses on the work of lesbian writers of the 20th century. Using the approaches of current feminist literary theorists, the course explores the diversity and intersections of lesbian literary traditions, and examines the extent to which lesbian writers have followed and/or altered genre conventions in fiction and poetry.

**ENGL 370. Science Fiction (3)**

*Preparatory:* Completion of Lower Division writing requirement. Study of selected short stories, essays and novels of science fiction.

**ENGL 371. Issues in Jewish-American Writing (3)**

*Prerequisite:* Completion of the Lower Division writing requirement. Study of Jewish writing in America as it affects the relationship between Jewish issues and themes and American culture, based on the works of such authors as I. B. Singer, Roth, Bellow, Malamud, Cahan, Paley, Olsen, Shapiro, Ozick and Potok. Critical writing required. Information Competency course. (Available for General Education, Comparative Cultural Studies.) (IC)

**ENGL 392. Junior Honors Seminar I (3)**

*Preparatory:* Admission to the Honors Program. May be taken in any sequence with ENGL 393. Introduction to literary history with emphasis on the role of tradition and influence.

**ENGL 393. Junior Honors Seminar II (3)**

*Preparatory:* Admission to the Honors Program. May be taken in any sequence with ENGL 392. Introduction to practical criticism through a study of critical methods and their application to various literary works, with some attention to bibliography and scholarly method.

**ENGL 396A-Z. Experimental Topics Courses in English (1-3)****ENGL 400. History of the English Language (3)**

Developments in the English language from Old English through Middle English, Early Modern English and Modern English. American English and its heritage. Influences from other languages as well as internal linguistic processes in English itself.

**ENGL 405. Language Differences and Language Change (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Study of how and why language changes, with particular emphasis on the history of English; social and geographical dialects; current English usage; and lexicography. Brief review of phonology and grammar is included for those students who need it. (Available for Section C of the Multicultural Requirement for Credential Candidates.)

**ENGL 406. Advanced Expository Writing for Teachers (3)**

*Preparatory:* Completion of the Lower Division writing requirement. Required of candidates working for the Single Subject Credential in

English; an option for candidates in Liberal Studies working for the Multiple Subjects Credential. Advanced course in written composition and recent composition theory extends the student's writing skills, explores the kind of writing required of California public school students and establishes criteria for the evaluation of writing at all levels.

**ENGL 407. Composition and the Professions (3)**

*Preparatory: Demonstrated proficiency; Instructor consent.* Advanced composition, logical thinking and coherent expression designed particularly for students who wish to use their writing and analytic skills in the professions of law or medicine, government or community services, business, industry, or non-teaching educational and research services.

**ENGL 408. Advanced Narrative Writing (3-3)**

*Preparatory: ENGL 308.* Continued practice in the writing of prose fiction, with a concentration on experimentation in style and structure. Analysis and criticism of students' work. May be repeated once for credit.

**ENGL 409. Advanced Verse Writing (3-3)**

*Preparatory: ENGL 309.* Continued practice in the writing of poetry, with emphasis on formal poetic patterns. Analysis and criticism of students' work, as well as study of selected published verse. May be repeated once for credit.

**ENGL 410. Advanced Dramatic Writing (3-3)**

*Preparatory: ENGL 310.* Continued practice in dramatic writing leading to the completion of a full-length drama. Analysis and criticism of students' work as well as study of selected plays. May be repeated once for credit.

**ENGL 412. Literary Magazine (3)**

*Preparatory: Upper Division standing.* Theoretical overview of literary publishing; practice in close reading and in the exercise of literary and aesthetic judgment; and editing and publishing of the *Northridge Review*, a literary magazine. May be repeated once with instructor's consent. May be repeated once for credit.

**ENGL 414. Chaucer (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of *The Canterbury Tales* and other selected poems.

**ENGL 416. Shakespeare: Selected Plays (3)**

Close study of 3 to 5 plays. ENGL 416 and 417 may be taken separately or in any sequence.

**ENGL 417. Shakespeare: A Survey (3)**

Study of 8 to 15 of the major plays. ENGL 416 and 417 may be taken separately or in any sequence.

**ENGL 419. English Drama 1660-1880 (3)**

Study of significant plays in England, 1660-1880, with special emphasis on such major dramatists as Wycherley, Dryden, Congreve, Otway and Sheridan.

**ENGL 420. Milton (3)**

Study of *Paradise Lost*, other poems and selected prose.

**ENGL 427. Drama From Ibsen to the Present (3)**

Development of significant theater movements in Europe and America. Intensive study of selected plays. (Cross listed with FLIT 427.)

**ENGL 428. Children's Literature (3)**

*Preparatory: One Lower Division course in literature.* Study of form, content and theme in children's literature, classic and contemporary, from pre-school through 9th-grade level.

**ENGL 429. Literature for Adolescents (3)**

Critical analysis of selected literary works of interest to adolescents, including works commonly used in secondary schools (grades 7-12).

Development of principles for the evaluation of literature for adolescents.

**ENGL 430. Literature and the Visual Arts (3)**

Study of literature from the perspective of its relationships with the visual arts, including fields such as literary pictorialism, the sister arts tradition, inter-media stylistic and book illustration.

**ENGL 431. Images of Women in Literature (3)**

*Preparatory: Completion of 3 units of Lower Division literature.* Study of the images of women in literature and criticism, primarily by women themselves. Emphasis on the diversity of contemporary portrayals and their traditional backgrounds.

**ENGL 433. Women Authors (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of literature (poetry and prose) by prominent English and American women authors from earliest times to the present.

**ENGL 434. 19th Century Women Novelists (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of selected novels by important 19th century women novelists, both British and American, including such writers as Alcott, Austen, C. Brontë, E. Brontë, Chopin, Eliot, Gaskell, Gilman and Stowe. Examines both text and context for each novel studied to suggest why these women chose to be writers, why they chose the subjects they did and how their works have been received by readers.

**ENGL 436. Major Critical Theories (3)**

Study of major texts of literary criticism from Plato to the present. Emphasis on application of critical theories.

**ENGL 438. Critical Approaches to Literature (3)**

Application of basic topics of practical criticism—rhetorical, formal, contextual, psychological and archetypal—to a selected core of literary texts. Emphasis on critical writing.

**ENGL 443. English Literature of the Middle Ages (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature of England to 1500, including *Beowulf* and representative Old English secular and religious poems and such Middle English authors as Chaucer, Langland, the Pearl Poet, Gower and Malory, as well as such medieval genres as the romance, the lyric, the ballad and the drama. Some works will be read in modern English versions.

**ENGL 449. The English Renaissance (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the non-dramatic literature and of the culture of England from 1500 to 1603.

**ENGL 452. 17th Century Literature (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the non-dramatic literature and of the culture of England from the death of Elizabeth I to the Glorious Revolution.

**ENGL 455. Literacy, Rhetoric and Culture (3)**

Study of current and past theories of literacy, including the nature of literacy itself; connections between rhetoric and literacy; the ways literacy is shared and used by individuals, families and cultures; and the political, social and personal ramifications of literacy. Core course for English Department minor in Writing and Rhetoric. Available for graduate credit.

**ENGL 456. The Age of Enlightenment (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and culture of England from 1660 to 1800. Emphasis on such major authors as Dryden, Pope, Swift, Montagu, Behn and Johnson, with examples of the novel and the drama.

**ENGL 457A-Z. Selected Topics in Creative Writing (3-3)**

*Prerequisite: English 308, 309, 310 or permission of instructor.* Intensive consideration of a focused area of study as it proceeds from a literary or critical tradition that informs creative writing. Creative and critical writing required. Topics will change from semester to semester. May be repeated one time for credit.

**ENGL 458. The Romantic Age (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and culture of England during the Romantic period, with special emphasis on the major poets, including Blake, Wordsworth, Coleridge, Shelley, Keats and Byron.

**ENGL 459 A-Z. Selected Topics in Writing and Rhetoric (3-3)**

*Prerequisite: Completion of the Lower Division writing requirement.* Intensive study of a topic relevant to literacy, composition or rhetoric. Analytic or critical writing required. Topics will change from semester to semester. May be repeated one time. Available for graduate credit.

**ENGL 460. The Victorian Age (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and culture of England from 1837 to 1901, with special emphasis on the major writers of the age, including Tennyson, Arnold and Browning.

**ENGL 461. Modern British Literature (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of British Literature, from 1900 to 1939 and of the cultural forces that helped shape it. Emphasis on such major writers as Yeats, Joyce, Lawrence, Woolf and Shaw.

**ENGL 462. Contemporary British Literature (3)**

*Preparatory: 6 units of Lower Division literature courses and English 355.* Study of British literature in the late 20th and early 21st centuries (e.g., Stoppard, Beckett, Kureishi, Smith, Amis, Heaney, Adcock, McGuckian). The course will consider the historical and cultural forces currently shaping genres and ideas, and may also discuss influences of mid-20th century writers.

**ENGL 463A. Modern Poetry (3)**

Intensive study and analysis of the poems of major English language authors between 1912 and 1955, including such writers as Yeats, Eliot, Pound, H. D., Crane, Jeffers, Toomer, L. Hughes, Lawrence, Auden, Moore, Stevens, Williams and Cummings.

**ENGL 463B. Contemporary Poetry (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Intensive study and analysis of the poems of major English language authors since 1955, including such writers as Robert Lowell, Sylvia Plath, John Berryman, Adrienne Rich, Allen Ginsberg, James Wright, John Ashbery, Amiri Baraka, Maxine Kumin, Rita Dove and Seamus Heaney.

**ENGL 464. Theories of Poetry (3)**

Intensive study of the theories and craft of poetry.

**ENGL 465. Theories of Fiction (3)**

Intensive study of the theories and craft of fiction.

**ENGL 466. Major British Novelists I: 1700-1815 (3)**

Study of selected major novels by such authors as Defoe, Richardson, Fielding, Sterne and Austen. ENGL 466, 467 and 468 may be taken separately or in any sequence.

**ENGL 467. Major British Novelists II: 1815-1900 (3)**

Study of selected major novels such by authors as Scott, Dickens, C. Brontë, E. Brontë, Thackeray, George Eliot, Trollope and Hardy. ENGL 466, 467 and 468 may be taken separately or in any sequence.

**ENGL 468. Major British Novelists III: 1900 to the Present (3)**

Study of selected major novels by such authors as Conrad, Forster, Lawrence, Joyce, Murdoch, Bowen and Woolf. ENGL 466, 467 and 468 may be taken separately or in any sequence.

**ENGL 470A-Z. Major Authors (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* In-depth study of a single author or a comparative study of two authors, such as Swift, Hawthorne, Woolf, Morrison/Faulkner, and Williams/Lawrence. The author(s) studied will change from semester to semester.

**ENGL 473. American Literature: 1607-1860 (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and the culture of the colonial, early republic and romantic periods.

**ENGL 474. American Literature: 1860-1912 (3)**

*Preparatory: six6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and the culture of the age of realism.

**ENGL 475. American Literature: 1912-1945 (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and culture of early 20th century America, from the poetic renaissance through World War II. Emphasis on such major writers as Frost, Hemingway, Eliot, Wharton, Fitzgerald, Faulkner, Stevens, Cather, Moore and Porter.

**ENGL 476. Contemporary American Literature (3)**

*Preparatory: 6 units of Lower Division literature courses, or 3 units of Lower Division literature and ENGL 355.* Study of the literature and culture of America from 1945 to the present. Emphasis on such major writers as Bellow, Albee, Lowell, Williams, Welty, Morrison, Rich, O'Connor and Pynchon.

**ENGL 477. Major American Novelists I: the 19th Century (3)**

Study of selected works by such major American writers as Cooper, Hawthorne, Melville, Twain, Chopin and James. ENGL 477 and 478 may be taken separately or in any sequence.

**ENGL 478. Major American Novelists II: the 20th Century (3)**

Study of selected works by such major American writers as Fitzgerald, Hemingway, Cather, Wharton, Faulkner, McCullers, Bellow, Morrison, O'Connor and Updike. ENGL 477 and 478 may be taken separately or in any sequence.

**ENGL 483. European Literature: Modern Times (3)**

Study of representative European works from 1700 to the present, including consideration of their contribution to Western thought. (Cross listed with FLIT 483.)

**ENGL 487. Latino/a Literatures of the Americas (3)**

*Preparatory: ENGL 275, 436.* Study of selected works of Latina and/or Latino writers from both the U.S. and Latin America, as well as of issues raised by critics and theorists in the field. Analysis of primary texts will employ methods of contemporary literary criticism. Topic or theme selected by instructor.

**ENGL 490. Senior Seminar in Narrative Writing (3)**

*Preparatory: Senior standing.* Preparation of a collection of short stories or of a single longer work of narrative fiction. Students complete, revise and supplement their work to produce a finished manuscript of narrative fiction.

**ENGL 491. Senior Seminar in Verse Writing (3)**

*Preparatory: Senior standing.* Preparation of a collection of poems or of a single long poem. Students complete, revise and supplement their work to produce a finished manuscript of poetry.

**ENGL 492A-Z. Senior Honors Seminar I (3-3)**

*Preparatory: Senior Honors standing.* Intensive study of a literary figure, age, movement or problem. May be repeated once for credit. ENGL 492 and 493 may be taken in any sequence.

**ENGL 493A-Z. Senior Honors Seminar II (3-3)**

*Preparatory: Senior Honors standing.* Intensive study of a literary figure, age, movement or problem. May be repeated once for credit. ENGL 492 and 493 may be taken in any sequence.

**ENGL 494/IP. English Intern Program (1/2)**

*Preparatory: ENGL 407.* Students are placed by the faculty supervisor with sponsoring organizations, where they work for 90 hours per semester while meeting for 15 hours in the classroom. Specific duties associated with technical and professional writing are assigned by sponsors. Students compile a portfolio of writing done for the sponsor and a term report of the experience. May be repeated once for credit.

**ENGL 494 TCE. High School Internship: Writing and the Classroom Experience (3)**

*Preparatory: Completion of or current enrollment in at least one Upper Division writing course; Consent of instructor.* Interns are required to work for at least 10 hours per week with high school students at a high school site to develop and enhance writing skills. Interns are supervised on site by the high school English faculty and directed by the 494TCE instructor. Interns also are required to keep journals and are graded on assigned essays.

**ENGL 495A-Z. Senior Seminar in Literature (3-3)**

*Preparatory: Either two Lower Division courses in literature, or 3 units of Lower Division literature and ENGL 355; Senior standing.* Intensive study of a major British or American author, or of a literary theme or sub-genre. Reports and seminar papers required. Topics change from semester to semester. May be repeated once for credit.

**ENGL 496A-Z. Experimental Topics Courses in English (1-3)****English 497A. Honors Revision Seminar (3)**

*Preparatory: Senior Honors standing; Preparation of an article-length manuscript, to be a revised version of a seminar paper from Honors Seminars 392, 393, 492 or 493.* Students will have the opportunity to experience a full and rewarding revision process, through which they will develop an existing paper into a more sophisticated analysis that is richly researched and rhetorically and stylistically polished. Students will have the time to practice stages in the revision process that typically get short shrift when trying to develop a paper in a single semester. The resulting 20- to 25-page research essay will be suitable as a writing sample for graduate school applications or as concrete evidence of well-honed writing and thinking skills when searching for a job.

**ENGL 499A-C. Independent Study (1-3)**

*Preparatory: Upper Division standing; Normally, a 3.0 GPA in English; Prior approval of sponsoring instructor and Department Chair.*

## Graduate

---

Note that 300-level courses in English do not carry credit for the M.A. in English; a maximum of 6 units of 400-level courses in English may carry credit for the M.A. in English only if they are approved by the Graduate Advisor. Graduate standing is required as a prerequisite for enrollment in all 600-level courses.

**ENGL 501 A-Z. Activities in Creative Writing Studies (1)**

*Recommended preparatory: ENGL 208.* Intensive writing in a focused area of study. This is an activity-based series of courses and may include off-campus meetings. Topics will change from semester to semester. Check with Department for specific offerings. May be repeated once for credit.

**ENGL 502 A-Z/F. Activities in Creative Writing Studies (1/1)**

*Recommended preparatory: ENGL 208.* Intensive writing in a focused area of study. This is an activity-based series of courses and may include off-campus meetings. Topics will change from semester to semester. Check with Department for specific offerings. May be repeated once for credit.

**ENGL 512. Writing for Performance (3-3)**

Throughout the semester, students will engage in writing exercises, participate in workshopping and develop new texts for performance. Students will also read several published plays and other types of performance texts. A final portfolio—which will include an introduction, rough drafts and revised texts—will be required. This course is available both for graduate and undergraduate credit. Additionally, this course may be taken by undergraduates in the Creative Writing Option as a Senior Seminar. Undergraduates must have senior standing. ENGL 512 may be repeated once for credit by both graduate and undergraduate students.

**ENGL 595A-Z. Experimental Topics Courses in English (1-3)**

Topics will be announced each semester in the Schedule of Classes.

**ENGL 600A/B. College Composition: Theory and Pedagogy (3-3)**

*Prerequisite: Restricted to Teaching Associates or at the discretion of the Director of Composition.* Study of theoretical and pedagogical issues that impact the teaching of writing at the college level. Review of current studies in rhetoric, composition and literacy. ENGL 600B also entails faculty observation of student teaching.

**ENGL 600BF. College Composition: Theory and Pedagogy Field Experience (1)**

*Prerequisite: ENGL 600A and 600B/F are restricted to Teaching Associates or at the discretion of the Director of Composition. Corequisite: ENGL 600B.* Study of theoretical and pedagogical issues that impact the teaching of writing at the college level. Review of current studies in rhetoric, composition and literacy. ENGL 600B also entails faculty observation of student teaching.

**ENGL 601. Seminar in Scholarly Methods and Bibliography (3)**

Study of traditional and electronic methods of scholarly research. Investigation and evaluation of major areas of bibliographic study, such as literature and “new historicism,” the editing of texts and literary influence studies and intertextuality.

**ENGL 604. Seminar in Language and Linguistics (3)**

An introduction to linguistics for graduate students.

**ENGL 605. Seminar in Descriptive Linguistics (3)**

Discussion of the levels of analysis, phonology, morphology and syntax from the viewpoint of such scholars as Saussure, Bloomfield, Sapir, Whorf, Harris, Hockett, *et al.*

**ENGL 606. Principles of Interlanguage (3)**

*Prerequisite: ENGL 301 or equivalent, or 604.* Basic principles of contrastive analysis, error analysis and language transfer as applied to processes and strategies used in learning additional languages. Focus on the acquisition of English as a second language.

**ENGL 608. Seminar in Narrative Writing (3-3)**

*Prerequisite: Qualified standing in the graduate Creative Writing Option or instructor consent.* Intensive practice in advanced writing and analysis of the short story and the novel. Course may be repeated once for credit. One enrollment in ENGL 608 or 609 may be used in the Rhetoric and Composition Theory Option.

**ENGL 609. Seminar in Poetry Writing (3-3)**

*Prerequisite: Qualified standing in the graduate Creative Writing Option or instructor consent.* Intensive practice in the writing of poetry, with attention to both contemporary and historical techniques. Analysis and criticism of

students' work. May be repeated once for credit. One enrollment in ENGL 608 or 609 may be used in the Rhetoric and Composition Theory Option.

**ENGL 610. Seminar in Syntax (3)**

*Prerequisite: LING 404.* In-depth study of current approaches to syntactic analysis.

**ENGL 611. Seminar in Historical Linguistics (3)**

*Prerequisite: ENGL 301 or equivalent, or 400 or 405.* Study of the principles of historical comparative methodology through changes in phonology, morphology, syntax, vocabulary and semantics.

**ENGL 612. Stylistics (3)**

Contemporary theories of style with practice in examining stylistic choices in the language of literary and non-literary texts. Focus on the relationship between language form and discourse meaning. Comparative analysis of linguistic, rhetorical and literary perspectives on style and their implications for students, writers and teachers of composition.

**ENGL 617. Studies in Shakespeare (3)**

*Prerequisite: ENGL 417 or equivalent.* Advanced study of several of Shakespeare's works, including formal, textual or historical aspects. Topics will change from semester to semester.

**ENGL 620A-Z. Seminar in Individual Authors (3-3-3)**

In-depth study of a major British or American author, such as Swift, Hawthorne or Woolf. The author studied will change from semester to semester.

**ENGL 622. Seminar On Aspects of Poetry (3-3)**

Intensive critical study of the province of poetry, providing opportunity for the scrutiny of individual poets as well as for concentration on the wider historical perspective.

**ENGL 623. Seminar in Studies in Prose Fiction (3-3)**

Seminar in the theory, forms, traditions and techniques of prose fiction. Topics will vary from semester to semester.

**ENGL 624. Studies in Dramatic Literature (3)**

Advanced study in drama considered as literature, with special emphasis on historical developments and their relationship to literary periods and movements in other genres.

**ENGL 630A-Z. Seminar in Literary Periods (3-3-3)**

Study of a period of British or American literature with wide readings in a range of authors and their intellectual backgrounds.

**ENGL 638. Seminar in Critical Approaches to Literature (3)**

Study of major critical approaches to literature and their application to selected literary texts.

**ENGL 650. 20th Century Rhetoric (3)**

20th Century Rhetoric focuses on major rhetorical theories and their relationship to literary criticism, linguistics and language philosophy; competing paradigms of the rhetoric of written composition; and implications of rhetorical theories for students and teachers of literature and composition.

**ENGL 651. Rhetoric and Composition Theory (3)**

Intense discussion and analysis of theories of rhetoric and composition.

**ENGL 652. Creative Writing Studies (3)**

*Prerequisite: Qualified standing in the Graduate Creative Writing Option or instructor consent.* Introduction to the theoretical, professional and institutional concerns of creative writers, especially in an academic context. Intensive practice in creative writing (multi-genre). Workshop format.

**ENGL 653. Literary and Rhetorical Genre Theory (3)**

Examination of scholarship concerned with genre, both the traditional concept of genre, which focuses on formal categories of literary texts and the rhetorical notion of genre, which focuses on the rhetorical purpose

and function of non-literary texts. Through extensive reading, class discussions and research projects, students will explore the function of genre, the communities that genres serve, the relationship between literary and non-literary genres, the cultural elements in genre, the relationship between genre and power and the ways in which genres are acquired.

**ENGL 654A-Z. Advanced Topics in Rhetoric and Composition (3-3)**

*Preparatory ENGL 651.* Intense advanced study of a specialized area, topic, question or problem in the field of rhetoric and composition. Topics vary from semester to semester. May be repeated once for credit, provided topic is different.

**ENGL 655. Styles and Forms of Professional Writing (3)**

*Prerequisite: Instructor consent.* Introduction to professional writing in fiction and non-fictional prose. Writing practice on a short story, review and essay, as well as study of these forms. Emphasis on forming, revising and editing in a workshop format.

**ENGL 660. Writing and the Developmental Student (3)**

Study of major issues in the developmental writing field of Composition Studies. Students examine the writing, reading and critical thinking processes and their implications for the developmental students, ESL and non-standard dialect issues, various classroom strategies and assessment procedures and the political implications of developmental writing programs.

**ENGL 661. Methods of Inquiry in Composition (3)**

Introduction to the major modes of inquiry in composition, both from a theoretical/philosophical perspective and from a research perspective. Hands-on engagement with bibliographical resources and major journals in the field will train students both to evaluate and to undertake appropriate research in the field.

**ENGL 665. Reading-Writing Connections (3)**

*Preparatory: Prior or concurrent enrollment in ENGL 600A or instructor consent.* Explores connections between reading and writing, work that has become a major research emphasis in literacy studies during the past 20 years. Addresses these issues from a theoretical point of view and from the perspective of training students to be able to use the academic and scholarly information in relevant teaching situations. Framework considers approaches to exploring connections between reading and writing as appropriate to literary studies, composition studies and applied linguistics.

**ENGL 685. Seminar in Contemporary World Literature (3)**

Major trends in the literature of the West in the late 19th and 20th centuries.

**ENGL 696A-C. Directed Graduate Research (1-3)**

**ENGL 697. Directed Comprehensive Studies (1-3)**

**ENGL 698D. Graduate Project (3)**

This course is one of the available choices for the culminating experience in the English Department M.A. Program. In significantly revising existing written work, students will practice the tools of research used in the field of English Studies. While students in the Literature and the Rhetoric and Composition Theory Options will focus on revising and developing a previously written essay, students in the Creative Writing Option will write a critical introduction to a revised portfolio of their creative work. Additionally, students will gain experience with professional conferences, presentations and productions. Note: Students in the Creative Writing Option are required to enroll concurrently in a creative writing workshop within their primary genre, at the 400-, 500-, or 600-level.

**ENGL 699A-C. Independent Study (1-6)**

*Prerequisites: At least 1 graduate course in English; Consent of Department Chair.* Investigation of a significant problem in language or literature. Project selected in conference with sponsor.

# Environmental and Occupational Health

## College of Health and Human Development

**Chair: Tom Hatfield**  
**Jacaranda Hall (JD) 1537**  
**(818) 677-7476**  
[www.csun.edu/hhd/eoh](http://www.csun.edu/hhd/eoh)

### Staff

Julie Hodge, Donna Van Helsland

### Faculty

Peter Bellin, Thomas Hatfield, Antonio Machado, John Schillinger, Owen Seiver, Michael Sullivan

### Programs

Undergraduate:

**B.S., Environmental and Occupational Health**

**Option in Industrial Hygiene**

**Minor in Environmental and Occupational Health**

Graduate:

**M.S., Environmental and Occupational Health**

**Option in Industrial Hygiene**

### Accreditation

The Degrees are accredited by the National Environmental Health Science and Protection Accreditation Council at the B.S. and M.S. levels. The California Department of Public Health provides a formal approval of the Degree at both the B.S. and M.S. levels. With this approval, students are permitted to test for the Registered Environmental Health Specialist (REHS) examination immediately upon graduation.

### The Major

Environmental and Occupational Health (EOH) is concerned with the biological, chemical and physical factors affecting human health and the environment. Our major provides a solid science-based education with practical applications for a safer and healthier environment. As a result, our graduates work in a variety of high-demand jobs, such as air quality, water quality, food safety, housing, industrial hygiene, safety, hazardous waste management, environmental consulting and radiation safety. Our graduates also work in a wide range of settings, including private industry (aerospace, manufacturing, food production, biotechnology and many others), local government (city and county health departments), state government (Cal OSHA and Cal EPA), federal government (Public Health Service, EPA, OSHA, Department of Health and Human Services), unions, public interest groups, universities and lobbying organizations.

Our courses are explicitly designed to give students the skills needed to succeed on the job. Local employers, many of whom have graduated from this Department, routinely seek our graduates as new hires. As one of the largest programs of its kind in the nation, we have an extensive network of environmental and occupational health professionals dedicated to the protection of the environment and community as well as worker health and safety.

The B.S. Degree lays the scientific and practical foundation for a career in EOH. Students are eligible for entry-level jobs in a wide range of locations at competitive salaries. The M.S. Degree is designed to prepare the graduate for higher-level professional activities, including research, analysis and management of EOH systems.

### Careers

Graduates find work in such occupations as environmental specialists, industrial hygienists, hazardous waste managers, air quality permit managers, safety supervisors, health and safety inspectors, environmental managers and many similar occupations.

Our graduates also are employed as administrators and technical specialists in governmental agencies, private industry and consulting firms. Opportunities for teaching, research and advanced professional programs are numerous.

The Degrees also serve as excellent preparation for health professions, such as medicine, dentistry and optometry. Many graduates of the Department of EOH pursue advanced academic degrees leading to teaching and research opportunities.

### Academic Advisement

All majors are required to review their academic program in consultation with an advisor once per semester. The undergraduate advisors are Peter Bellin, Antonio Machado, Owen Seiver and Michael Sullivan. The graduate advisor is John Schillinger. Please contact the Department to make an appointment for academic advisement.

### Student Learning Outcomes of the Undergraduate Program

Graduates of the undergraduate program in Environmental and Occupational Health will be able to:

1. Demonstrate a comprehensive knowledge of the recognition, evaluation and control of biological, chemical and physical factors that can impact human health and safety, and the environment.
2. Demonstrate knowledge of how to work in interdisciplinary teams to promote public and private action to protect public health and the environment.
3. Communicate environmental and occupational health concepts and programs to a variety of audiences, using both written and verbal forms of communication.
4. Apply mathematical and critical reasoning to understand and incorporate new concepts in the field.
5. Demonstrate knowledge of organizational management and leadership skills.
6. Demonstrate knowledge of current regulatory and policy issues.

### Student Learning Outcomes of the Graduate Program

Graduates of the graduate program in Environmental and Occupational Health will learn:

1. Research design and analytical skills needed to critically evaluate scientific, technical and regulatory documents.
2. Oral, written and electronic communication skills to present information to professional groups, regulatory agencies and lay audiences.
3. Sufficient level of technical expertise in environmental and occupational health to competently solve general EOH problems.
4. A broad set of management skills to:
  - a. Competently manage an environmental or occupational program; and
  - b. Initiate program planning and critical analysis of environmental or occupational health and safety programs.

### Requirements for the Bachelor of Science Degree

#### 1. Required Courses (40 units)

HSCI 132 History of Preventive Medicine (3)  
 or HSCI 345 Topics in Public Health (3)

#### Choose one of these two sets:

BIOL 101/L Introductory Biology (4)  
 BIOL 107/L Biological Principles II and Lab (3/1)  
 BIOL 281 Human Physiology (3)

BIOL 282 Human Physiology Lab (1)  
or BIOL 106/L Biological Principles I and Lab (3/1)

**Choose 1 of the following:**

BIOL 215 Introductory Microbiology (4)  
or EOH 455/L Microbiological Hazards in Environmental Health/Lab (preferred) (3/1)

**Take both of the following:**

PHYS 100A/L General Physics I and Lab (3/1)  
PHYS 100B/L General Physics II and Lab (3/1)

**Take the following:**

MATH 105 Pre-Calculus (5)

or

MATH 102 College Algebra (3)

and

MATH 104 Trigonometry and Analytic Geometry (3)

**Choose 1 of these 2 sets:**

CHEM 101/L General Chemistry I and Lab (4/1)

CHEM 102/L General Chemistry II and Lab (4/1)

or

CHEM 103 Introductory Chemistry I (4)

CHEM 104 Introductory Chemistry II (4)

**Choose 1 of the following:**

CHEM 235 Introductory Organic Chemistry (4)

or

CHEM 333 Principles of Organic Chemistry I (4)

and

CHEM 334 Principles of Organic Chemistry II (4)

**2. Upper Division Required Courses (24 units)**

EOH 352 Environmental Health Policy, Law and Administration (3)

EOH 356A Environmental Health I (3)

EOH 356B Environmental Health II (3)

EOH 456 Fundamentals of Toxicology (3)

EOH 466A The Occupational Health Environment (3)

HSCI 488 Epidemiology: Introduction to Study of Disease (3)

EOH 494B Academic Internship (2)

**Choose 1 of the following:**

HSCI 390/L Biostatistics and Lab (3/1)

MATH 140 Introductory Statistics (4)

**3. Electives (15-16 units)****Select from the following, with advisor approval:**

EOH 365 Principles of Accident Prevention (3)

EOH 453 Health and Physical Aspects of Housing (3)

EOH 454 Environmental Health Law (3)

EOH 455/L\* Microbiological Hazards in Environmental Health and Lab (3/1)

EOH 457 Water Supply and Sewage Disposal (3)

EOH 458 Vector Control (3)

EOH 459 Hazardous Waste Management (3)

EOH 465 Occupational Safety (3)

EOH 466B/L Evaluating the Occupational Environment and Lab (3/1)

EOH 466C Controlling the Occupational Environment (3)

EOH 467 Radiological Health (3)

EOH 468 Air Pollution and Health (3)

EOH 469 Environmental Risk Analysis (3)

EOH 556 Advanced Toxicology (3)

EOH 560 EOH Epidemiology (3)

EOH 569 Advanced Risk Analysis (3)

EOH 570 Occupational Ergonomics (3)

\*EOH 455/L can count for elective credit or for the science requirements, but not for both.

Note: A minimum grade of "C" is required in all courses within the major.

**General Education (40 units):**

Several classes from the Lower Division requirements overlap with GE requirements.

|  |     |
|--|-----|
| <b>Total Units in the Major</b>            | 60  |
| <b>General Education Units</b>             | 48  |
| <b>Additional Units</b>                    | 15  |
| <b>Total Units Required for the Degree</b> | 123 |

**A. Option: Industrial Hygiene (16)**

Graduates with a B.S. in Environmental and Occupational Health with the Industrial Hygiene Option are prepared for entry-level work in positions such as industrial hygiene, hazardous waste management, environmental compliance and a variety of similar positions.

**Take all of the required courses for the B.S. in Environmental and Occupational Health plus the following courses (16 units) from the list of EOH electives.**

**1. Required Courses**

EOH 465 Occupational Safety (3)

EOH 466B/L Evaluating the Occupational Environment and Lab (3/1)

EOH 466C Controlling the Occupational Environment (3)

**Choose two of the following:**

EOH 459 Hazardous Waste Management (3)

EOH 467 Radiological Health (3)

EOH 468 Air Pollution and Health (3)

EOH 469 Environmental Risk Analysis (3)

EOH 560 EOH Epidemiology (3)

EOH 570 Occupational Ergonomics (3)

**Minor in Environmental and Occupational Health****1. Science Prerequisites (32 units)**

BIOL 101/L General Biology (3/1)

BIOL 281/282 Human Physiology (3/1)

CHEM 103/104 General Chemistry (4/4)

CHEM 235 Introductory Organic Chemistry (4)

PHYS 100A/L General Physics I and Lab (3/1)

PHYS 100B/L General Physics II and Lab (3/1)

**Choose one of the following:**

BIOL 215 Introductory Microbiology (4)

HSCI 455/L\* Microbiological Hazards in Environmental Health and Lab (3/1)

\*preferred choice

**2. Minor Requirements (21 units)**

EOH 352 Environmental Health Policy, Law and Administration (3)

EOH 356A Environmental Health I (3)

EOH 356B Environmental Health II (3)

EOH 466A Occupational Health (3)

HSCI 488 Epidemiology (3)

EOH 494 Academic Internship (2)

**Choose one of the following:**

HSCI 390/L Biostatistics and Lab (3/1)

or MATH 140 Introductory Statistics (4)

|                                  |    |
|----------------------------------|----|
| <b>Total units for the Minor</b> | 53 |
|----------------------------------|----|

## Requirements for the Master of Science Degree

The following criteria are used to evaluate prospective candidates for the Master of Science in Environmental and Occupational Health:

1. Overall GPA and science GPA;
2. Undergraduate degree in Environmental and Occupational Health (or a related scientific discipline);
3. Work experience in environmental and occupational health or a related discipline; and
4. Graduate Record Exam (usually waived if undergraduate GPA is above 3.0),
5. References.

### 1. Required Courses (18 units)

|     |      |   |
|-----|------|---|
| EOH | 553  | Administration of EOH Programs (3)                |
| EOH | 554  | Seminar: EOH Problems (3)                         |
| EOH | 555  | Seminar: EOH Programs, Standards and Controls (3) |
| EOH | 693A | Supervised Field Training (2)                     |
| EOH | 696A | Research Design (4)                               |
| EOH | 696B | Seminar: Research Methodology (3)                 |

### 2. Electives (12 units)

Each student's program must include a minimum of 24 units in 500 and 600-level courses. At least 3 units must be taken from the following:

|     |     |                                |
|-----|-----|--------------------------------|
| EOH | 556 | Advanced Toxicology (3)        |
| EOH | 560 | EOH Epidemiology (3)           |
| EOH | 565 | Seminar: Industrial Safety (3) |
| EOH | 569 | Advanced Risk Analysis (3)     |
| EOH | 570 | Occupational Ergonomics (3)    |

Additional courses may be taken from the available 400-level elective courses in the Department. Graduate students must complete supplementary work assignments to receive graduate credit for 400-level courses. A minimum "B" grade is required for all courses, core and elective.

## Capstone

### Choose one of the following:

1. Comprehensive Examination (written, plus optional oral component). As preparation, student registers for EOH 697 Directed Comprehensive Studies (3 units; does not count toward program total)
2. Thesis. After proposal is approved, student registers for EOH 698 Thesis (3 units; counts in program total)

### Option: Industrial Hygiene (31 units)

Graduates with the M.S. in Environmental and Occupational Health, Industrial Hygiene Option are prepared to enter the field of industrial hygiene, concentrating on such areas as basic industrial hygiene, occupational safety, hazardous waste management, occupational health training, regulatory compliance, work site inspections and similar fields. Core requirements are identical to those of the M.S. in Environmental and Occupational Health. Graduate seminar courses must involve presentations and research in occupational health.

### The additional course requirements are as follows:

|     |        |   |
|-----|--------|---|
| EOH | 465    | Occupational Safety (3)                               |
| EOH | 466B/L | Evaluating the Occupational Environment and Lab (3/1) |
| EOH | 466C   | Controlling the Occupational Environment (3)          |

### Select 1 from the following:

|     |     |                                |
|-----|-----|--------------------------------|
| EOH | 556 | Advanced Toxicology (3)        |
| EOH | 560 | EOH Epidemiology (3)           |
| EOH | 565 | Seminar: Industrial Safety (3) |
| EOH | 569 | Advanced Risk Analysis (3)     |
| EOH | 570 | Occupational Ergonomics (3)    |

Students in this Program who select the Comprehensive Examination Capstone must be tested on subject matter from the core classes—EOH 466A,B,C and 465—in addition to any other testing requirements.

|   |           |
|---|-----------|
| Major Core Courses                                  | 18        |
| Major Electives                                     | 12        |
| <b>Total Units for the Master of Science Degree</b> | <b>30</b> |

## Course List

### EOH 101. Introduction to Environmental Health (3)

Introduction to the field of Environmental and Occupational Health. Topics reflect those environmental health risks that impact our daily lives, including restaurant inspection and food safety, water and air pollution, bioterrorism, environmentally induced skin cancers, mold and indoor air quality, workplace hazards and environmental control of infectious disease. (Available for General Education, Lifelong Learning.)

### EOH 352. Environmental Health Policy, Law and Administration (3)

Analysis of conceptual models relative to environmental health policy, making laws and program administration. (Available for General Education, Social Sciences if required by a student's major.)

### EOH 353. Global Perspective of Environmental Health (3)

*Prerequisite: Completion of Lower Division writing requirement.* Provides a perspective and framework for evaluating a broad and dynamic range of environmental issues, from bioterrorism to global warming to restaurant grading systems. This wide-ranging and topical course provides an overview of the field of Environmental and Occupational Health, including such major subject areas as environmental diseases, food safety, hazardous materials and waste management, vector control, and water and air pollution. Not open for credit for students taking EOH 356A and B. (Available for General Education, Lifelong Learning.)

### EOH 356A. Environmental Health I (3)

*Prerequisite: BIOL 101 or 106/L and CHEM 101/L or 103/L. Preparatory: PHYS 100A/L and 100B/L.* In-depth analysis of the physical, chemical and biological influences on human health and well being.

### EOH 356B Environmental Health II (3)

*Prerequisites: BIOL 101 or 106/L; CHEM 101/L or 103/L. Preparatory: PHYS 100A/L, 100B/L.* In-depth analysis of the physical, chemical and biological influences on human health and well being.

### EOH 365. Principles of Accident Prevention (3)

Epidemiology of accident causation. Methods of prevention and control.

### EOH 453. Health and Physical Aspects of Housing (3)

*Preparatory: BIOL 101 or 106/L; CHEM 101/L or CHEM 103/L.* Examines the impact of the housing environment on the public's health and safety. Topics include home construction, electrical and plumbing systems, radon gas, lead paint, mold investigation and remediation, housing inspection and hazard assessment.

### EOH 454. Environmental Health Law (3)

Study of the major provisions of the laws that pertains to the environmental health field. Topics include Clean Air Act, Water Pollution Control Act, Noise Control Act, Occupational Safety and Health Act and Toxic Substances Control Act. (Offered Spring semester.)

### EOH 455/L. Microbiological Hazards in Environmental Health and Lab (3/1)

*Prerequisite: BIOL 101 or 106/L; CHEM 101/L or 103/L. Corequisite: EOH 455L. Preparatory: PHYS 100A/L, PHYS 100B/L.* Study of infectious disease agents transmitted through water, wastewater, milk, food, surfaces and air. with a focus on their assessment, prevention and con-

tol. Lecture, 3 hours. Lab: Standard procedures for basic microbiological analyses, with a focus on the collection and lab examination of water, wastewater, milk, foods, surfaces, air and other environmental samples. Lab, 3 hours.

**EOH 456. Fundamentals of Toxicology (3)**

*Prerequisite:* BIOL 101 or 106/L; CHEM 101/L or 103/L. *Preparatory:* CHEM 235 or 334 and 335. Study of the toxic agents in the working environment as they relate to interface between occupational medicine and industrial hygiene.

**EOH 457. Water Supply and Sewage Disposal (3)**

*Prerequisite:* BIOL 101 or 106/L; CHEM 101/L or 103/L. *Preparatory:* PHYS 100A/L and 100B/L. Theory and practice of water supply and sewage disposal in the public and private sectors. (Offered Spring semester.)

**EOH 458. Vector Control (3)**

*Prerequisite:* BIOL 101 or 106/L; CHEM 101/L or 103/L. *Preparatory:* PHYS 100A/L and 100B/L. Identification and control of arthropods and other vectors of disease. (Offered Fall semester.)

**EOH 459. Hazardous Materials and Waste Management (3)**

*Preparatory:* BIOL 101 or 106/L and CHEM 101/L or 103/L and PHYS 100A/L or 100B/L. Study of major aspects of the management of hazardous waste, from the time it is generated to the time it is finally disposed.

**EOH 465. Occupational Safety (3)**

Study of the way that accidents and incidents occur in the occupational environment. Establishment and maintenance of safety programs are discussed. Collection, analysis and interpretation of safety data are considered. Approaches to safety used by international, national and local governmental agencies are reviewed, as well as those of insurance companies, professional societies, trade associations and standards and specifications groups. (Offered Fall semester.)

**EOH 466A. The Occupational Health Environment (3)**

*Prerequisite:* BIOL 101 or 106/L; CHEM 101/L or 103/L. *Preparatory:* MATH 105; PHYS 100A/L, 100B/L. Provides an overview of the field of occupational health, with a focus on industrial hygiene. Presents information related to the recognition, evaluation and control of the chemical, physical and environmental factors that can impact human health in the workplace and the community. (Offered Fall semester.)

**EOH 466B/L. Evaluating The Occupational Environment and Lab (3/1)**

*Prerequisite:* EOH 466A. *Corequisite:* EOH 466BL. *Preparatory:* HSCI 390/L or MATH 140. Provides the skills needed to measure the levels of chemical and physical hazards in the workplace and the community. Measurement techniques, sampling strategy and industrial hazards are discussed. Lab: Provides hands on applications of industrial hygiene monitoring equipment and demonstration of basic principles of the evaluation of airborne and physical hazards (heat and noise). Students use computer word processing and spreadsheets to generate written summaries, graphs and data analysis. Lab, 3 hours. Course fee. (Offered Spring semester.)

**EOH 466C. Controlling The Occupational Environment (3)**

*Prerequisite:* BIOL 101 or 106/L; CHEM 101/L or 103/L. *Preparatory:* MATH 105; PHYS 100A/L, 100B/L. Overview of design and evaluation of industrial ventilation and noise control systems used to protect the health and safety of workers. Students are provided the basic skills necessary to review drawings and specifications, trouble shoot and improve existing control systems, and establish and conduct testing and maintenance programs.

**EOH 467. Radiological Health (3)**

*Prerequisite:* One semester of Biology; One semester of Chemistry; BIOL 101 or 106/L; CHEM 101/L or 103/L; MATH 105. *Preparatory:* MATH 140 or HSCI 390; PHYS 100A/L, 100B/L. Comprehensive coverage of ionizing radiation with emphasis on health effects, measurement and protection. (Offered Fall semester.)

**EOH 468. Air Pollution and Health (3)**

*Prerequisite:* BIOL 101 or 106/L; CHEM 101/L or 103/L. *Preparatory:* PHYS 100A/L; 100B/L. Investigation of the relationship between air pollutants and their effects on plants and animals. Emphasis on understanding the health effects in human populations. (Offered spring semester)

**EOH 469. Environmental Risk Analysis (3)**

*Prerequisites:* BIOL 101, or BIOL 106/L and 101/L, or CHEM 103/L. Examines the assessment, communication and management of environmental risks. "Environmental" concerns are limited to agents that are: 1) environmental or occupational in origin; and 2) hazardous to human health. "Risk" refers to the subjective as well as objective measurement of probabilistic events. How to recognize uncertainties with such information.

**EOH 494B. Academic Internship (2)**

*Prerequisite:* Consent of instructor. Supervised internship in an official and/or voluntary health agency. Includes staffing conferences. (Credit/No Credit only)

**EOH 496A-Z. Experimental Topics (3)**

**EOH 499A-C. Independent Study (1-3)**

## Graduate

**EOH 553. Administration of Environmental and Occupational Health Programs (3)**

Comprehensive analysis of environmental and occupational health program planning, with emphasis on program management. (Offered Fall semester.)

**EOH 554. Seminar: Environmental and Occupational Health Problems (3)**

*Prerequisite:* EOH 356A or 356B or 466A. Critical analysis of the literature related to environmental and occupational health problems. (Offered Fall semester.)

**EOH 555. Seminar: Environmental and Occupational Health Programs, Standards and Controls (3)**

*Prerequisite:* EOH 356A or 356B or 466A. Critical analysis of current literature related to environmental and occupational health programs and standards. (Offered Spring semester.)

**EOH 556. Advanced Toxicology (3)**

*Prerequisite:* EOH 456. A study of the toxicity of various chemical and physical agents to organ systems and the developing conceptus. Study of the mechanisms of action of toxic chemicals as related to carcinogenic and non-carcinogenic effects and the application of that information to regulatory standards for the workplace and environment.

**EOH 560. EOH Epidemiology (3)**

*Prerequisites:* EOH 356A, 356B, 466A; HSCI 488. Applied science course. Introduces both basic and advanced epidemiological concepts and focuses on environmental and occupational health issues with a special emphasis on exposure monitoring, use of biomarkers and risk assessment.

**EOH 565. Seminar: Industrial Safety (3)**

In-depth study of the causes, measurement, evaluation and control of safety problems found in the industrial environment.

**EOH 569. Advanced Risk Analysis (3)**

Prepares the student to complete health risk assessment on exposures to environmental and occupational agents, utilize risk management decision-making models, and communicate to the public and other stakeholders the results of risk assessments and decision making.

**EOH 570. Occupational Ergonomics (3)**

Focus on prevention of work-related musculoskeletal disorders (WRMDs) through the application of occupational ergonomics principles. Topics include the prevalence of and incidence of WRMDs, job/task analysis, postural analysis, tools and workstation design, and job design. Scientific basis of current regulations, such as California's repetitive motion injuries regulations and guidelines such as the ACGIH's TLV-Hand Activity Level, also are discussed. Practical ergonomic assessment tools are introduced through case studies and design problems.

**EOH 595A-Z. Experimental Topics Courses (1-3)**

**EOH 693A. Supervised Field Training (2)**

Supervised action research in selected agencies or organizations. (Credit/No Credit only)

**EOH 695A-Z. Experimental Topics Courses in Environmental and Occupational Health (1-3)**

**EOH 696A. Research Design (4)**

*Prerequisite: HSCI 390.* Critical consideration of research methodology as applied to environmental and occupational health.

**EOH 696B. Seminar: Research Methodology (3)**

*Prerequisite: EOH 696A; Classified graduate standing.* Analysis of research methodology and interpretation, and direct application to student-conducted independent research.

**EOH 697. Directed Comprehensive Studies (3)**

(Credit/No Credit only)

**EOH 698. Thesis or Graduate Project (3)**

(Credit/No Credit only)

**EOH 699A-C. Independent Study (1-6)**

*Prerequisite: At least one graduate-level course. Investigation of a significant problem in the EOH field.*

# Family and Consumer Sciences

## College of Health and Human Development

**Chair: Tami Abourezk**

**Sequoia Hall (SQ) 141**

**(818) 677-3051**

**www.csun.edu/hhd/fcs**

### *Staff*

Sheila Brown, Wendy Brown-Danks, Shauna Mund and Lynn Tatum

### *Faculty*

Tami Abourezk, Annette Besnlian, Linda Bradley, Yi (Tom) Cai, Wei Cao, Hira Cho, Lydia Chowa, Claudia Fajardo-Lira, Marilyn Filbeck, Joyce Gilbert, Angie Giordano, Judith Griffin, Jerry Ann Harrel-Smith, JongEun Kim, Rodica Kohn, Diane Lewis-Goldstein, Terri Lisagor, Ana Lucero-Liu, Richard MacDonald, Yoko Mimura, Kyriakos Pontikis, Setareh Torabian-Riasati, Anubhuti Thakur, Shirley Warren, Scott Williams, and 35 to 40 professionals from business, industry, government and non-profit agencies who serve as part-time faculty

### *Emeritus Faculty*

Alyce Akers, Patricia Beals, Victoria Brinn-Feinberg, Tung-Shan Chen, E. Audrey Clark, Gail Fonosch, Lillie Grossman, Geraldine Luethy, Roberta Mauksch, Nancy Owens, Karen Robinette, Christine H. Smith, Frances White

## Programs

Undergraduate:

**B.S., Family and Consumer Sciences with Options in:**

**Apparel Design and Merchandising**

**Consumer Affairs**

**Family and Consumer Sciences Education**

**Family Studies**

**Interior Design**

**Nutrition, Dietetics and Food Science**

**Minors in Apparel Merchandising, Child-Care Administration, Family and**

**Consumer Sciences, Family Studies and Food Science**

**Family and Consumer Sciences/Home Economics Subject Matter Program for the Single Subject Credential**

Graduate:

**M.S., Family and Consumer Sciences**

## Accreditation and Approved Programs

The Department is accredited by the American Association of Family and Consumer Sciences. The Didactic Program in Dietetics and the Dietetic Internship are accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetics Association (ADA). The Child and Family Studies Center is accredited by the National Academy of Early Childhood Education Programs. The Interior Design Program is accredited by the Council for Interior Design Accreditation.

## The Major

Family and Consumer Sciences encompasses the study of the relationships among people and their personal environments. The Department focuses on the impact of the physical, biological, social and economic environments on human behavior and development. Students who major in Family and Consumer Sciences learn to improve the quality of life for individuals, families and communities by providing practical solutions to problems involving food science and nutrition, apparel and interior design, child rearing and family relations, and family and consumer economics.

Students select from 6 areas of study: Apparel Design and

Merchandising; Consumer Affairs; Family and Consumer Sciences Education; Family Studies; Interior Design; and Nutrition, Dietetics and Food Science. All Family and Consumer Sciences majors take 5 Core courses that include concepts common to all Specializations, as well as courses in their Options. The Department offers experiential learning opportunities through its lab and studio courses and the Child and Family Studies Laboratory, the Consumer Resource Center and the Marilyn Magaram Center for Food Science, Nutrition and Dietetics. All Family and Consumer Sciences majors gain practical experience through internships in professional settings. Students gain leadership skills through the Student Association of Family and Consumer Sciences and the Kappa Omicron Nu national honor society.

## Credential Information

The department has an approved subject matter program that demonstrates subject matter competency for the Single Subject teaching credential in Family and Consumer Sciences/Home Economics. For details on the Single Subject Credential program, see the Credentials and Department of Secondary Education sections in this Catalog.

## Academic Advisement

All undergraduate and graduate students are assigned faculty advisors. Students are required to plan their academic program in consultation with the advisor prior to registration each semester.

## Student Learning Outcomes

Graduates of the undergraduate and graduate programs in Family and Consumer Sciences will be able to:

1. Demonstrate knowledge of human ecological theory and the integrative nature of the family and consumer sciences profession.
2. Demonstrate and apply knowledge from their program of study to current and future issues of well-being for individuals, families and global communities.
3. Demonstrate knowledge of ethical standards.
4. Apply professional practice standards and skills.

## Careers

Professionals in Family and Consumer Sciences are concerned with the well-being of individuals and families and the products, services and practices that affect them. Graduates find many and varied career opportunities in business, industry, health and human services, and educational settings. (See Option descriptions for specific information.)

**Apparel Design and Merchandising:** The Apparel Design, Merchandising and Textiles Program offers an analytical study of concepts and their application related to the design, production and merchandising of textiles and apparel. Basic knowledge from the physical and social sciences, technology, aesthetics and business is applied to the principles of the design, production, manufacturing and merchandising of textiles, apparel and accessories. Graduates enter a wide spectrum of careers in such positions as apparel designer, apparel buyer, department buyer, quality control, apparel technical design, production manager, textile designer, textile scientist, showroom manager, retail manager/owner, fashion journalist, sales representative/executive, museum curator of textiles and costumes and costume designer. Students may participate in the apparel student organization Trends, as well as in a wide range of internship sites in the apparel industry.

**Consumer Affairs:** The Consumer Affairs program focuses on theories and principles from consumer behavior and education, government and public policy, management, finance, law and communication as they apply to consumers. Graduates find careers in government agencies, combating fraud or monitoring consumer trends; in corporations, improving the quality of customer service; in public relations and advertising agencies; in product marketing; and in financial institu-

tions. The Department provides leadership opportunities through the student chapter of the Society of Consumer Affairs Professionals and internships at the Consumer Resource Center, which provides services to the University and the San Fernando Valley, as well as internships in a variety of business and non-profit agencies.

**Family and Consumer Sciences Education:** The Family and Consumer Science Education Program satisfies the requirements for the subject matter program in Family and Consumer Sciences/Home Economics for the single subject credential (Ryan Act) in the State of California. The program includes a comprehensive background in child development and guidance; family living and parenting education; consumer education; housing and interior design; food and nutrition; textiles and apparel design and merchandising; individual and family health; and leadership. After completion of the Credential Program, graduates are prepared for careers in K-12 teaching, adult education, program administration, youth service administration, vocational education and home economics extension education and administration. Opportunities to work with middle-school and high-school students are available through internships and special projects. Students develop competence in the 8 career paths relevant to the teaching of Family and Consumer Sciences.

**Family Studies:** The Family Studies Program provides the student with an extensive background in family and developmental theory and its practical application to human and family development across the lifespan. Students apply theory through their activities at the Child and Family Studies Laboratory, which provides services to infants, toddlers, preschoolers, kindergartners and families, and is accredited by the National Academy of Early Childhood Education Programs. Internship opportunities for participating in parent education and working with children, adolescents, adults and the elderly are available. Graduates are prepared for careers across a broad spectrum of organizations that provide services to children and families. Potential positions include children's program administrator, childcare provider and administrator, family services coordinator, family resource and referral counselor, foster parent trainer and administrator, child development specialist, family advocate, family life educator, adoption services director, corporate child-care consultant and parent educator. Family Studies is an appropriate undergraduate preparation for graduate programs in marriage, family and child therapy.

**Interior Design:** The Interior Design Program is accredited by the Council for Interior Design Accreditation (CIDA) and prepares students to analyze, design and implement living/working environments that are functionally efficient and aesthetically satisfying to diverse populations. The program embraces an environment and behavior perspective that acknowledges the relationship between people at various ages and developmental stages and the interior environments they occupy. This perspective emphasizes the integration of function and aesthetics in the design of residential, commercial, retail, hospitality, institutional, educational and health care environments. Knowledge of human development; aesthetics; the history of architecture and interiors; building systems, codes and technology; and business procedures in professional practice, together with the development of skills in graphic communications, are among the areas of study within the major. The program prepares the students to enter professional practice in interior design, as well as such positions as showroom managers, product representatives, private entrepreneurs and furniture designers. Students have opportunities to intern with interior design, manufacturing, wholesale and retail firms, and non-profit community agencies. They learn leadership through membership in student organization of the American Society of Interior Designers.

**Nutrition, Dietetics and Food Science:** The Nutrition, Dietetics and Food

Science Programs emphasize the application of physical, biological and social sciences to the study of foods and nutrition. The Nutrition and Dietetics Area (Pattern A) educates students in the knowledge of food and nutrition as they relate to health issues. The Didactic Program in Dietetics (Pattern A only) at CSUN is currently granted accreditation by the Commission On Accreditation for Dietetics Education of the American Dietetic Association, (312) 899-0400, ext. 5400. The Program prepares graduates in the field of nutritional science as registered dietitians and nutritionists for private businesses, hospitals and nursing homes, pharmaceutical companies, public health agencies and government agencies. The Food Science Area (Pattern B) applies the study of biology and chemistry to understand the nature of foods, the causes of their deterioration and the principles underlying food processing. Students in the Program also study institutional food management. Food scientists may develop ways to process, preserve, package or store food according to industry and government specifications and regulations. Graduates work as food scientists and food technologists in quality assurance, and research and development for food companies. Other career options include working for government agencies, as well as in restaurant and food service management. A student desiring to enter both of these Programs should have a strong background in the physical and biological sciences as the scientific disciplines are emphasized. A variety of research, internship and leadership experiences are available through the Marilyn Magaram Center for Food Science, Nutrition and Dietetics, and the Student Dietetics and Food Science Association.

## Requirements for the Bachelor of Science Degree

### Core Courses Required of All Options (14 units)

|     |               |  |
|-----|---------------|--|
| FCS | 170           | Creative Expression in Family and Consumer Sciences (2)                              |
| FCS | 232           | Individual and Family Development (3)  |
| FCS | 320           | Family Resource Management (3)   |
| FCS | 380           | Family and Consumer Sciences Foundations and Research (3)                            |
| FCS | 491A/B or C   | Family and Consumer Sciences Projects (3)<br><i>(for Family Studies Option only)</i> |
|     | or FCS 494SEE | Supervised Field Study (3)   |

### Apparel Design and Merchandising Option

#### 1. Required Option Courses (22 units)

|      |               |  |
|------|---------------|--|
| CHEM | 100/L         | Principles of Chemistry Laboratory (3/1)     |
|      | or CHEM 103/L | Introductory Chemistry I (3/1)               |
|      | or CHEM 110/L | Chemistry in Action and Lab (3/1)            |
| FCS  | 150/L         | Apparel Construction and Lab (2/1)           |
| FCS  | 160           | Introductory Textiles (3)                    |
| FCS  | 255           | The Fashion Industry (3)                     |
| FCS  | 271/L         | Apparel Analysis and Selection and Lab (2/1) |
| FCS  | 353           | Apparel and Human Behavior (3)               |
| FCS  | 360/L         | Textiles and Lab (2/1)                       |

#### 2. In consultation with an advisor, select Pattern A, B or C

##### Pattern A: Apparel Design and Production (21 units)

|     |       |   |
|-----|-------|---|
| FCS | 250/L | Apparel Construction II and Lab (2/1)               |
| FCS | 352   | History of Textiles and Apparel (3)                 |
| FCS | 371/L | Apparel Design: Flat Pattern and Lab (2/1)          |
| FCS | 471/L | Apparel Design: Draping and Lab (2/1)               |
| FCS | 472/L | Apparel Design: Computer Aided Design and Lab (2/1) |
| FCS | 475/L | Fashion Development and Lab (2/1)                   |
| FCS | 476   | Studio Problems in Apparel Design (3)               |

##### Pattern B: Apparel Merchandising (18 units)

|     |       |  |
|-----|-------|--|
| FCS | 356/L | Analysis and Evaluation of Apparel Quality and Lab (2/1) |
| FCS | 455/L | Fashion Merchandising and Lab (2/1)                      |
| FCS | 460/L | Textile Product Analysis and Lab (2/1)                   |
| MKT | 304   | Introduction to Marketing Management (3)                 |
| MKT | 440   | Integrated Marketing Communications (3)                  |
| MKT | 443   | Retail Management (3)                                    |

**Electives for Pattern B Only (3 units)**

|     |       |   |
|-----|-------|---|
| FCS | 250/L | Apparel Construction II and Lab (2/1)                           |
| FCS | 324   | Consumer Rights, Issues and Problems (3)                        |
| FCS | 352   | History of Textiles and Apparel (3)                             |
| FCS | 354   | Apparel for Special Groups (3)                                  |
| FCS | 371/L | Apparel Design: Flat Pattern and Lab (2/1)                      |
| FCS | 394C  | Supervised Field Study (3)                                      |
| FCS | 471/L | Apparel Design: Draping and Lab (2/1)                           |
| FCS | 475/L | Fashion Development and Lab (2/1)                               |
| FCS | 496   | Experimental Topics Courses in Family and Consumer Sciences (3) |

**Pattern C: Textiles and Apparel****Individualized Program (18 units)**

Select 18 Upper Division Family and Consumer Sciences textiles and apparel courses, with approval of an advisor.

|   |              |

**Consumer Affairs****1. Required Option Courses (18 units)**

|      |             |   |
|------|-------------|---|
| ECON | 160         | Principles of Microeconomics (3)                  |
|      | or ECON 300 | Economic Principles and Problems (3)              |
| FCS  | 323         | Family Finance (3)                                |
| FCS  | 324         | Consumer Rights (3)                               |
| FCS  | 420         | Critical Issues in Family Resource Management (3) |
| MKT  | 304         | Introduction to Marketing Management (3)          |
| MKT  | 348         | Consumer Behavior (3)                             |

**2. Option Electives (12 units)\*****Select 4 courses from the following**

|     |        |   |
|-----|--------|---|
| FCS | 213/L  | Computer Applications for Interior Design (1/2)           |
| FCS | 322/L  | Equipment I (2/1)   |
| FCS | 381    | Computer Applications in Family and Consumer Sciences (3) |
| FCS | 394C   | Undergraduate Internship (3)                              |
| FCS | 423    | Analysis of Family Economic Issues (3)                    |
| FCS | 424    | Resource Management for the Elderly (3)                   |
| FCS | 426    | Issues of Contemporary and Future Families (3)            |
| FCS | 427    | Consumer Advocacy and Education (3)                       |
| FCS | 428    | Corporate Consumer Affairs (3)                            |
| FCS | 499A-C | Independent Study (1-3)                                   |

\*Three of the 12 units must be FCS 423, 427 or 428

**3. Breath Electives (7-9 units)****Select 3 courses from the following:**

|     |       |   |
|-----|-------|---|
| FCS | 113   | Drafting for Interior Design (3)        |
| FCS | 114/L | Introduction to Interior Design (1/1)   |
| FCS | 160   | Introductory Textiles (3)               |
| FCS | 201/L | Introductory Food Science and Lab (2/1) |
| FCS | 207   | Nutrition for Life (3)                  |
| FCS | 315   | Issues in Housing (3)                   |
| FCS | 321/L | Contemporary Issues in Foods and        |

|     |        |                                   |
|-----|--------|-----------------------------------|
|     |        | Nutrition and Lab (2/1)           |
| FCS | 330    | Child Growth and Development (3)  |
| FCS | 340    | Marriage and Family Relations (3) |
| FCS | 353    | Apparel and Human Behavior (3)    |
| FCS | 499A-C | Independent Study (1-3)           |

**4. Patterns**

Select Pattern A, B, or C, (see below) or a minor approved by the advisor (e.g., Journalism, Gerontology, Psychology, Business, Marketing).

**Pattern A: Business (15 units)**

(Approved Pattern of Out-of-Department Courses)

|      |     |   |
|------|-----|---|
| BLAW | 280 | Business Law I (3)                                |
| ENG  | 205 | Business Communications (3)                       |
| MGT  | 360 | Management and Organizational Behavior (3)        |
| MKT  | 100 | Conceptual Foundations of American Enterprise (3) |

Upper Division elective from Business/Economics (See advisor) (3)

**Pattern B: Public Relations (15 units)**

(Approved Pattern of Out-of-Department Courses)

|      |     |  |
|------|-----|--|
| JOUR | 110 | Writing, Reporting and Ethics I (3)          |
| JOUR | 210 | Writing, Reporting and Ethics II (3)         |
| JOUR | 340 | Principles of Public Relations (3)           |
| JOUR | 341 | Writing and Editing for Public Relations (3) |

Upper Division elective from Journalism (See advisor) (3)

**Pattern C: Furniture, Fixtures and Equipment Retailing (15 units)**

|     |      |  |
|-----|------|--|
